Public Meeting

STREETPLANS

Complete Streets

For Bicyclist, Pedestrians, and all Street Users

Wednesday, May 20th, 5:00 - 6:30 pm

Community Room, Auburn City Hall

Planning and implementing non-motorized, "Complete Streets" transportation and recreational infrastructure is a specific type of challenge. This Downtown Arterial Bike Study & Complete Streets Best Management Practices (BMP) Manual, makes clear that Lewiston-Auburn is serious about advancing opportunities for bicycling and walking. However, planning for and implementing Complete Streets requires more than the planning and construction of individual facilities; bikeways, sidewalks, and intersection design must address multiple challenges, feature truly context-sensitive design, and ultimately must be in step with fiscal constraints.

Join the ATRC to discuss its Complete Streets Study progress for Lewiston and Auburn
