RE: June 23, 2015 Work Session

In your packet you'll find a new draft of the Form Based Code that has been formatted as per your approval at the last meeting. A table of contents has also been added that provides an overview of the complete Code. There are sections that have not been addressed yet such as administration.

Also in the packet is an attachment to help in your review and decision on what uses (and parking) will be allowed in the new transects. The attachment includes a map that shows the proposed transects along with the corresponding Zoning District language in those locations. Also included is the current Parking and Loading Zoning Ordinance.

Please review these materials and be ready to discuss at Tuesday's meeting. As always, please let me know if you will not be able to be at the meeting.
