

# Recycling Committee Agenda

## 11/7/19

The city council appointed the committee to study, recommend, and report on four areas listed below:

1. Identify the key impacts of the current recycling program;
  2. Compare the current model with different models we could adopt;
  3. Identify our current costs for recycling and compare with other municipalities which have adapted to the changing market; and
  4. Create a public education and awareness campaign for the recommended changes.
