Honorable Mayor Jason Levesque
Auburn City Council Members

RE: Five Year Capital Improvement Program Plan

Dear Mayor and Councilors:

The Five-Year City of Auburn Capital Improvement Plan is hereby submitted for your review in accordance with the provisions of the City Charter.

CAPITAL IMPROVEMENT

Introduction

My preliminary draft recommendations for the FY24 Capital Improvement Program were presented for your review at the Joint City Council and School Committee workshop on March 20, 2023. The City of Auburn Capital Improvement Plan, updated annually, is a five-year plan that serves as a multi-year planning instrument. The expectation is that looking longer-term will bring stability to requests over time. While the long-term CIP Plan takes a five year look at the needs of the city, the focus will be on the projects requested for the upcoming fiscal year. Finally, the initial presentation of the CIP includes all needs of the city to sustain operations.

As usual the CIP includes a spreadsheet for FY 2024 by expenditure and department, including the intended source of funds. There is also a more detailed sheet of expenditures planned for this year.

Charter Requirements

1. A clear general summary of its contents;
2. Identification of the long-term goals of the community;
3. A list of all capital improvements and other capital expenditures which are proposed to be undertaken during the fiscal years next ensuing, with appropriate supporting information as to the necessity of each;
4. Cost estimates and recommended time schedules for each improvement or other capital expenditures;
5. Method of financing upon which each capital expenditure is to be reliant;
6. The estimated annual cost of operating and maintaining the facilities to be constructed or acquired;
7. A commentary on how the plan addresses the sustainability of the community and the region of which it is a part; and
8. Methods to measure outcomes and performance of the capital plan related to the long-term goals of the community.

Long-term Goals

The goals of the City of Auburn focus on these 5 general areas. These are not in any particular order of importance:

1. Planning for a better future.
2. Reclaiming our streets.
3. Making housing more attainable.
4. Enacting resilient solutions.
5. Enriching neighborhood identities

The FY24 Work Plan recognizes that there are also other goals that serve as a “catch-all” for items outside of these 5 areas.

Of course, we must remain aware of the overall cost of services and taxes. And we must also acknowledge that there is a limit to the amount of spending and debt service the City can afford. This leads me to suggest that the CIP has a final, general goal, “to assure that the assets of the City are maintained in a fiscally responsible manner.” Following this approach recognizes that neglect or underfunding the capital needs of the City results in long-term increased costs.

Cost and Schedule

Please see attached spreadsheet at the end of the memo.

Status (See Next Page)

Sustainability

Sustainability has two concepts that must be acknowledged. The first is the core principle that assets are maintained such that they do not deteriorate to the point of being destroyed or beyond repair. The second concept identifies that the City of Auburn can only afford to sustain a certain annual expense. The job of the staff and Council is to strike that balance the best way possible.

The following chart shows the amount of debt issued and retired over the last fifteen years.

Average Debt Issued FY 08 - FY 23 \$10,387,909
 Minus the debt for ELHS new High School

Between FY09 and FY19 the City's total outstanding debt was reduced by **\$22,601,149**. Due to the approval by the State of the New Edward Little High School, In FY 20 through FY 22 the City has borrowed the \$120,000,000 to complete the project. Of this \$120,000,000, the State of Maine will pay the debt service on approximately \$105,000,000, leaving \$15,000,000 to be paid by the City. It is my goal to keep the debt service payments at 12% - 14% of the total operating budget as recommended by our bond advisors. This is the range that bond rating agencies look favorably on. Less than this and the bond rating agencies will feel that we are not addressing our infrastructure needs. And more than this will make them concerned about our ability to repay the debt. These efforts in conjunction with other sound management policies should continue to support or improve the City's bond rating.

Per the State of Maine's state valuation for 2023, below is a table that shows what the City of Auburn's legal debt limitation is as of June 30, 2023. This statutory analysis needs to be reviewed with the understanding of the City's capacity to meet debt service payments.

The most significant impact to the City of Auburn's debt service being sustainable is investment in road infrastructure. Auburn's local roads currently have zero funding in the operating budget. In the City's Engineering CIP request there is \$6.0 million recommended for this coming fiscal year. The \$6.0 million, if funding and construction costs remain stable, would result in an ability to reconstruct, reclaim or overlay only 10% of the roads over the next 10 years.

The funding allocated to overlays will proportionally grow as the City's roadways are reconstructed. The overlay acts as a surface maintenance that protects and sustains previous reconstruction and reclamation projects. These funds account for 25% of the current request for the recommended budget but account for 80% of the roads undergoing work.

Capital Investment Director Dan Goyette has said a maintenance program that would stabilize the remaining 90% of local roads would require \$10,000,000 per year. Due to both staff capacity and financial availability this is too much to add to the operating budget in one year.

Finally, I would like to thank the City Finance Director Jill Eastman for her major contribution to the preparation of this memo and her overall assistance with the Five-Year CIP Plan, the FY24 CIP, and the FY24 Budget. The City of Auburn has a capable and dedicated team with sound financial management.

Sincerely,

Project Title: LA911 Server Infrastructure Replacement

Est. Total Cost FY24:	0	Est. Total Cost FY25-FY28:	300,000
City Share FY24:	0	City Share FY25-FY28:	150,000

Project Description:

Planned LA911 Server Infrastructure Replacement. Hardware will be due to be replaced because of end of life (EOL) situations or replaced due to age of equipment, and manufacture support limitations in FY23. The Storage Area Networks (SAN), network switches, and servers that house the datacenter of LA911 will be due to be replaced in FY23. This project includes both the replacement of production site hardware and Disaster Recovery (DR) site hardware with reuse of current equipment as available. We have pushed the project to FY25 to align with planned relocation of the 9-1-1 Center.

Consistency with the Comprehensive or Strategic Plans or other related planning documents:

Organizations should proactively develop strategies that leverage resources, anticipate future requirements, and focus on business goals and performance objectives. As technology and other computing platforms become central to supporting the mission of the organization, effective planning for the management of these platforms has become vital.

Justification for project implementation/construction and segments, if applicable:

By not staying current with supported hardware and emerging technologies, systems become outdated, obsolete, and lose residual value. There is a high factor of risk involved in falling behind in a datacenter hardware lifecycle management. Potential issues are extended system downtime, data loss, and data corruption.

Future maintenance costs if known, including contracts and special service requirements:

All hardware purchased will have a 3 - 5 year life span. Recurring capital expenditure will be required each 3- 5 year cycle.

How were cost estimates obtained and expenditure commitment:

Worked with vendor to assess current usage and needs with planned growth and data trends.

City Council Information Sheet**

Council Workshop or Meeting Date: April 3, 2023

Author: Eric J. Cousens, Planning and Permitting Director

Subject: Update on the licensing process for the Lewiston Falls/Monty Hydro Facility

Information: This is an informational update on the licensing process for the Lewiston Falls/Monty Hydro Facility on the main stem of the Androscoggin in anticipation of the expiration of the existing license in 2026. Our Comprehensive Plan, Strategic Plan, New Auburn Master Plan, the Androscoggin Greenway Plan and ATRC Bridging the Gaps Bicycle and Pedestrian Plans give staff substantive direction and support to advocate for needs, improvements and studies to identify the best way to meet identified needs to mitigate impacts of the facility on the community. The latest submittal is the Study report summarizing the studies completed to date during 2022:

https://elibrary.ferc.gov/eLibrary/docinfo?accession_num=20230302-5205 . The city and other stakeholders requested recreational, aesthetic, cultural, hydro-facility operational and river flow related studies to ensure that we have the information needed to advocate for mitigation of facility impacts and needs of the community at future stages of the process. The City drafted study requests with stakeholders, including the City of Lewiston and at least 6 other stakeholder groups, to best advocate for Auburn’s needs in this process. Most of the requests were included in the Study Plan. Past licensing processes have been more successful when there is coordination and agreement on study needs, rather than conflicting requests from multiple stakeholders. More studies will be completed in 2023 to inform the licensing process. Staff will file a response to reiterate that additional studies as outlined in the Study Plan remain to be completed in 2023, most notably stakeholder involvement in recreational and aesthetic flow studies.

The Pre-Application Document (PAD) was filed in 2021 and is available here:

https://elibrary.ferc.gov/eLibrary/filelist?accession_num=20210804-5115 .

Staff will participate in virtual meetings to review the findings of the 2022 studies on **Wednesday April 5th**. The meetings will be held online (via Microsoft Teams) with a phone-in option. Brookfield (BWPH) will provide login/phone-in information and a more detailed agenda for each meeting to interested parties who plan on attending one or both meetings in advance of the meeting date. In order to plan accordingly, BWPH respectfully requests that agencies or stakeholders who plan on attending one or both meetings RSVP by contacting Jessica Antonez at **Jessica.Antonez@kleinschmidtgroup.com** on or before March 29, 2023.

Lewiston Auburn Riverfest

The Riverfest, sponsored by the Lewiston Auburn Metropolitan Chamber of Commerce, is scheduled for Friday June 17th and Saturday June 18th and has something to offer for everyone. Last year's event was well attended and a great success. This year offers a kickball tournament, Trek Across Maine welcome, Rowing Regatta, canoe rentals, Beer Garden and Food Trucks.

For a full schedule see the website: <https://discoverlamaine.com/the-riverfest/>

Lewiston Falls Monty Hydro Licensing Update

The Federal Energy Regulatory Commission licenses hydropower facilities. The city may participate and comment on a proposed license as a stakeholder, much like a resident participates in a Planning Board process at a public hearing. We only get a chance to comment on a license renewal every 30 to 50 years so it is important that we advocate for compatibility and even contribution to accomplishing community goals in exchange for using the public's river for private power generating revenues. The FERC process requires the applicant to address fisheries, recreation, water quality and other potential impacts of their operation with equal consideration compared to power generation. Documents related to current and past licensing processes are available here: <https://www.auburnmaine.gov/pages/government/rivers-hydropower> .

We updated the Council in December of 2021 to start to familiarize you with the current relicensing of the Lewiston Falls Monty Hydro Project (FERC P-2302) in preparation for future discussions. The relicensing process has begun for the Lewiston Falls/Monty Hydro Facility on the main stem of the Androscoggin in anticipation of the expiration of the existing license in 2026. Our Comprehensive Plan, Strategic Plan, New Auburn Master Plan, the Androscoggin Greenway Plan and ATRC Bridging the Gaps Bicycle and Pedestrian Plans give staff substantive direction and support to advocate for needs, improvements and studies to identify the best way to meet identified needs to mitigate impacts of project operations on the community. The Pre-Application Document (PAD) has been filed and is available here: https://elibrary.ferc.gov/eLibrary/filelist?accession_num=20210804-5115 . Despite advocacy for a more inclusive *Integrated Licensing Process*, ([TLP Objection and ILP Request.pdf](#)) the request for Traditional Licensing Process was approved by FERC for this relicensing and an initial stakeholder meeting was held ahead of schedule (Table 2-1, Page 41 of the linked PAD) in November. The city along with other stakeholders asked for recreational, aesthetic, cultural, hydro-facility operational and river flow related studies to ensure that we have the information needed to advocate for mitigation of facility impacts and needs of the community at future stages

of the process. We submitted study requests with stakeholders, including the City of Lewiston and at least 6 other stakeholder groups, to best advocate for Auburn's needs in December of 2021 ([Study Requests12.31.21](#)). Past licensing processes have been more successful when there is coordination and agreement on study needs, rather than conflicting requests from multiple stakeholders. There will be public meetings and feedback needed from City Council, Committees and potentially legal counsel in the coming few years as we work with Brookfield and FERC on this important 40-year relicensing.

At this stage we have submitted comments on a Preapplication Document, preferred licensing process and a Draft Study Plan ([StudyPlanComments31822.pdf](#)). A Final study Plan was proposed by Brookfield and they have begun the 2022 study season [P2302FinalStudyPlan.pdf](#). Many agencies focused on different aspects of project operations and their impacts on the environment participate in the process. While the City has been supportive of studies requested by Maine DEP, NOAA Fisheries ([NOAA Comments.pdf](#)) and Maine IFW related to water quality and fisheries improvement our focus has been on recreation, aesthetics of the falls and access for the public. Water quality, historic resources and fisheries are important to the City's overall recreational goals, but State and Federal Agencies are well equipped to for strong participation on those elements and we have collaborated with them.

The Final Study Plan ([P2302FinalStudyPlan.pdf](#)) covers almost all recreational elements requested for the main stem of the river-See pages 58-67 of the plan. The primary shortcomings relate to water quality monitoring in the Lewiston owned Canals and specific analysis of how water over the falls affects water quality and dissolved oxygen below the falls. The second part of that will have data available from the proposed water quality monitoring and we will continue to advocate for the analysis of how flows over the falls affect dissolved oxygen as part of the process, but it is currently not proposed. A primary shortcoming of the study plans is not including the canals in the study based on the argument that they are owned by Lewiston and not part of the project area mapped by FERC. In 2020 the project area was adjusted to remove nearly 4 miles of river and the canals from the FERC Project Boundary which the City opposed ([Objection to P2302 Project Boundary Amendment 2020.pdf](#)) but was ultimately approved by FERC. The ownership and FERC project Boundary test for inclusion in studies is not usually what determines if they are included. The test is whether the project operations impact the area, which they clearly do. Brookfield controls flows at this facility and at the upstream Gulf Island and Deer Rips hydro facilities and those three operations control water levels and flows in the canals that we believe are clearly affected by project operations. This raises a question of whether Auburn wants to advocate among stakeholders to exercise the FERC Study Dispute Process or take that on ourselves - either way we would need legal assistance and funding to do that. We are looking for preliminary feedback from Council on whether you wish to explore this further in an executive session. Staff's opinion is that we got most of what we asked for and would be happy to join Lewiston if they chose to challenge this important element, but that fight may not be our best use of limited resources.

The 2022 Study season is upon us, and Memorial Day Weekend will be the start of recreational monitoring and a survey for recreational users along the river in Auburn and Lewiston. We will be encouraging people who visit the area to take the time to fill out the survey. The results will be used to gauge recreational interest, benefits and

needs for the project area and nearby amenities affected by project operations. Signage has been placed along the Riverwalk and other project recreation facilities to alert the public of the existence of the survey and in person counts will be conducted by Brookfield staff throughout the summer. The website hosting the survey is here:

<https://lewistonfalls.brookfieldusprojects.com/> Results are intended to be collected based on specific locations visited and not from people that were there in the past so please encourage anyone visiting the riverfront area to check out the signs at Bonney Park, West Pitch Park, the North River Road Boat Launch, Durham Boat Launch or riverside parks and trails in Lewiston and provide feedback for each location that they enjoy or desire improvements. We will promote awareness of the effort on social media and any other opportunities.

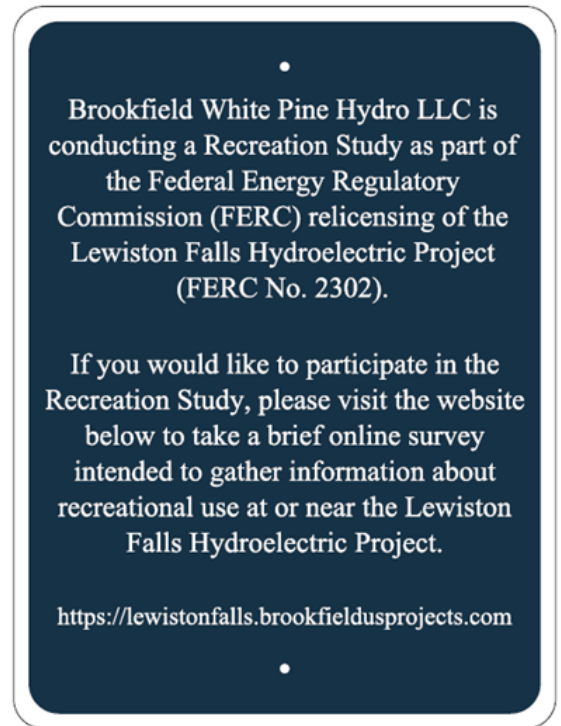

Little Androscoggin River Dams - Recreation and Restoration Opportunities

Barker Mill Dams Update: The City participated, with other stakeholders, in the relicensing process at Lower and Upper Barker Mill Dams which are relatively small generators with limited profits. We achieved recreational benefits including increased minimum flows and controlled releases for whitewater paddling. The licensee looks very close to a settlement agreement to resolve a dispute over fish passage where the applicant used upstream obstructions as one reason not to restore fish access in the watershed. It looks like fish passage will be required during the terms of the new licenses and in exchange KEI will likely get a longer than normal license term of up to 45 years. Not many people that were here for this licensing process will be active participants in the next one. The proposed Settlement agreement would require KEI to install upstream passage for American eel for the 2026 migration season (June 1, 2026) and required to install upstream passage for anadromous fish species by the 2031 migration season (May 1, 2031), subject to a consideration of “New Information” as defined in the Settlement.

Littlefield Dam Update: The Littlefield Dam is the next obstruction upstream that impacts recreation, the environment and fish movement in the river. Past efforts to apply for grants to remove the unused partially breached dam have not been funded and required significant local match. There is a potential new opportunity in the coming years that has been explored by the Conservation Commission and Federal Grant Funding Sources that could go beyond restoration and include development of improved recreational access that furthers goals of the Comprehensive and Strategic Plans of the City. The anticipated funding sources may also be match free with the Little Androscoggin being identified as critical Atlantic Salmon Habitat. Sam Boss, Conservation Commission Chair explains this exciting opportunity below. Staff is hopeful that the City might be able to fund a planning and design exercise to position us for successful application when the funding becomes available. One option is to appropriate Comprehensive Plan Implementation funds if the Council is interested in this.

City Council, Mayor, and City Staff,

The Conservation Working Group has a longstanding interest in the removal of the defunct Littlefield Dam, which is a major barrier to fish passage on the Little Androscoggin River. Earlier this year we learned of an upcoming opportunity to apply for federal funds to support dam removals and other fish passage restoration efforts. The 2021 Infrastructure and Jobs Act allocated \$400 million to the National Oceanic and Atmospheric Association (NOAA) to restore fish passage through the removal of dams and other barriers (further

information [here](#)). NOAA will award \$80 million in grants for each of the next five years to support communities in undertaking river restoration efforts. Although a request for proposals has not yet been released, our contacts at NOAA have confirmed that the grants *will not* require a matching contribution from municipalities to support the costs of projects. Partner organizations such as Maine Rivers, the Androscoggin Watershed Council, and Trout Unlimited have described this funding and the lack of a matching requirement as a once-in-a-lifetime opportunity to make significant progress with river restoration efforts.

Because of the expected terms of the NOAA grants, we anticipate that the process will be highly competitive, and we have been working to lay the groundwork for a strong proposal when funds are released. Although some funding will be available to support the planning stages of dam removal and subsequent restoration efforts, we expect that shovel ready projects will have the best chance of receiving full funding. To this end, it would aid the development of a proposal significantly if the Council can provide funding to support further site assessments and planning. We have led multiple site visits, and have been in consistent conversation with local stakeholders including property owners on Littlefield Road and Panolam Surface Systems. Our goal is to identify scenarios for removing the dam that maximize ecological and recreational benefits to the broader community while minimizing any negative impacts for abutting property owners.

Outlined below are several key reasons to support the removal of the Littlefield Dam and further restoration efforts in the Little Androscoggin watershed.

1. Improved fish passage and other ecological benefits

The Littlefield Dam is a full or partial barrier to fish passage, depending on the time of year and water levels. Removing the Littlefield Dam would help to pave the way for further efforts to restore fish species including alewives, shad, and American Eels to the Androscoggin watershed. These species need to travel freely from the ocean into freshwater rivers to spawn. Alewives in particular are a keystone species that provide a particularly important food source for the endangered Atlantic Salmon, as well as several other fish species (further information [here](#)). Removal of the Littlefield Dam will demonstrate our commitment to improving fish passage and strengthen our position in future negotiations for fish passage on the Lower and Upper Barker Dams. In addition to improving fish passage, dam removal improves dissolved oxygen content and sediment transfer, leading to healthier riverine ecosystems.

2. Avoid potential safety issues

The Littlefield Dam has not been operational for at least fifty years, and there is no indication it has received regular maintenance in that time; FERC records indicate the most recent effort to restore the dam to production was in the 1980s, but that effort ultimately failed. During site visits when the water levels have been lower, we have observed significant corrosion of the bottom of the dam; high precipitation events or ice jams could eventually cause the dam to break in an uncontrolled way that would send concrete debris and sediment downriver and pose potential hazards to property owners and industries downriver. The dam can also present risks to swimmers, hikers, etc. who may go too close to the dam and not realize the dangers of its undertow. Taking full advantage of NOAA funds now to remove the dam in a controlled way will avoid the potential safety issues these scenarios could cause in the future.

3. Improved recreational opportunities

The Little Androscoggin is an underutilized resource for recreation that runs through the heart of Auburn. Removal of the Littlefield Dam could open up approximately four miles of the river for passage of kayaks and canoes and other small craft, with the potential that more of the river upstream would be navigable, depending on the water levels and time of year. NOAA staff have indicated that applicants should “think big”, and submit a proposal that would support not only the removal of the dam, but the creation of possible recreational improvements such as a boat launch at the site, and restoration/modification of the riverbed to facilitate passage of boats and fish.

More information about the points outlined above is available on request (auburn.me.conservation@gmail.com).

Respectfully submitted,

Sam Boss, Chair

Some people who received this message don't often get email from jessica.antonez@kleinschmidtgroup.com. [Learn why this is important](#)

Dear Stakeholders:

On March 2, 2023, Brookfield White Pine Hydro (BWPH) distributed to Stakeholders via email and electronic link (FERC's eLibrary at https://elibrary.ferc.gov/eLibrary/docinfo?accession_num=20230302-5205), six of the study reports for resource studies conducted in 2022 for the Lewiston Falls Project relicensing effort.

On behalf of BWPH, we are providing the following schedule for interested stakeholders to participate in a virtual meeting to review the findings of the 2022 studies. Given the number of studies and the varying topics, we are dividing the meeting into two sessions on Wednesday April 5th.

- 10 AM - 12 PM Water Quality, Bass Spawning, Fish Assemblage, and Upstream Eel
- 2 PM - 3:30 PM Recreation and Aesthetics

The meetings will be held online (via Microsoft Teams) with a phone-in option. We will provide login/phone-in information and a more detailed agenda for each meeting to interested parties who plan on attending one or both meetings in advance of the meeting date. In order to plan accordingly, BWPH respectfully requests that agencies or stakeholders who plan on attending one or both meetings RSVP by contacting Jessica Antonez at Jessica.Antonez@kleinschmidtgroup.com on or before March 29, 2023.

Finally, BWPH is extending the comment due date (from April 3rd, as noted in the study report cover letter) to April 14, 2023, to allow for additional time to have a meeting to review the study findings before comments are due.

Please contact Luke Anderson, Licensing Manager, with any questions at Luke.Anderson@brookfieldrenewable.com.

If you would like to be removed from this distribution list or have updated contact information, please contact Jessica Antonez and Jessica.Antonez@kleinschmidtgroup.com.

Subject: Transfer of Forfeiture Assets – Tyler Poland #1

Information:

In 2016, Auburn Police Department DEA Task Force officers received confidential intelligence information from multiple sources and began a three-month investigation. Other agencies including federal, state and local law enforcement participated in extensive surveillance. In February 2018, DEA Task Force members as well as 11 Auburn Police Department officers supported DEA during a large enforcement operation involving the execution of nineteen (19) simultaneous federal search warrants involving the seizure of large amounts of drug and non-drug evidence. Subsequent to this operation, Auburn PD's Task Force Officer drafted a report detailing the execution of a search warrant on Merrow Road in Auburn, Maine, and the acquisition of non-drug exhibits. \$32,000.00 in a financial account was seized.

City Budgetary Impacts: The Department of the Treasury seeks to transfer \$1,600.00 (5% of the \$32,000. Seizure) in U.S. Currency to the Auburn Police Department. Funds will be used for the purchase of equipment.

Staff Recommended Action: Vote to accept the transfer of \$1,600.00.

III. Communications, Presentations and Recognitions

Council Communications

David Chittim, President of the Androscoggin Historical Society announced that AHS turn one hundred years old this year. He also announced that they have purchased a building in Lewiston (93 Lisbon Street) after 86 years being located in the Androscoggin Court House building. He stated that they are hoping to raise a total of \$750,000 over the next few years. He said they are requesting a grant from the City of Auburn in the amount of \$60,000 adding that Lewiston granted them \$75,000 last year. He noted that they will also be reaching out to other towns. The Mayor followed by stating that he submitted an endorsement for funding for this project with Senator Collins. A copy which will be included in the minutes.

Councilor Morin stated that he recalls visiting the Androscoggin Historical Society when he was in school, adding that he has a personal passion for history and he thanked Mr. Chittim for coming in and speaking.

Manager Crowell reported that on May 3rd the City of Auburn will collaborate with the Police Activities League (PAL) to bring LEADERCAST to the community. This is an important fundraiser for PAL. More information can be found on www.auburnpal.com or they can contact Liz Allen. He also shared the annual report with the Council and members of the public.

Mayor Levesque announced that the Lobster Festival is moving forward in May at Festival Plaza. He added that this event is also to raise money for the Maine Lobstermen Association. One fundraiser is a buoy painting contest where members of the public can buy a buoy for \$20, decorate it, bring it to the festival and the winner of the event will receive 50% of the proceeds and the other half will be donated to the Maine Lobstermen Association. He also talked about the corner store initiative and talked about proposing a program on sustainable food options. He said he will ask for input from the Sustainability and Natural Resource Board (SNRB).

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

1. **Public hearing** – Stable Ridge TIF (Tax Increment Financing) District #27.

Mayor Levesque opened the public hearing at 7:36 pm.

John Cleveland, 183 Davis Avenue first commented on the TIF piece of this, noting that there are reasons to do that, and the percentage of the TIF is up to the Council. He then commented on the credit enhancement agreement portion adding that he doesn't think there is a need to offer this on a finished project and asked that it be removed.

Jeffrey Harmon, 34 Vista Drive commented on the credit enhancement agreement noting that at no time during this project did the developer come forward for assistance or ask for an incentive. He added that there is no community benefit in extending this rebate to the developer.

Celia McGuckian, 10 Fairmount Avenue commented on a news article which stated that 5 police officers left Auburn for another municipality because of the budget. She stated that the \$500,000 could help to keep our police officers here.

Ryan Smith, 14 Weaver Street reiterated the comments made by other speakers about the credit enhancement agreement. He commented on the numbers that were provided adding that he believes those are based on phase 2 of the development and when you assume the numbers, you should assume about half if the second phase of the development is denied again by the Planning Board. He added that he would rather see a 60% TIF so we can still control 40% and no credit enhancement.

Mayor Levesque closed the public hearing at 7:43 pm.

2. Order 32-03202023

Approving TIF (Tax Increment Financing) District #27 Stable Ridge Development.

VII. Open Session

Fred Stone, 169 Royal River Road, stated that he is trying to build a small campground on his property to pay the taxes. He has a preliminary plan. He said the property is in the accepted use of Ag Zone and he is concerned that this may become all residential because the campground will not work if this happens.

VIII. Reports

Re: Androscoggin Historical Society

Dear Senator Collins:

I have recently learned that the Androscoggin Historical Society is planning to apply for a HUD grant through the Economic Development Initiative Program. I encourage you to support this application, not only for the historical society itself, but for the spin-off effects on the local economy.

The Society is a long-time stable force in our community and is now undergoing a metamorphosis to broaden its influence. Its new home will provide it with greater exposure and allow it to attract more consumers to our county.

Auburn benefits from the activities of the Androscoggin Historical Society both culturally and economically. Its programs at the one-room 1850 West Auburn Schoolhouse and at the 1796 Knight House in downtown Auburn attract visitors from far and wide, visitors who also patronize local hotels, restaurants, and retail businesses.

I believe that inclusion of \$150,000 in directed spending for the AHS will result in benefits for the entire community and I encourage you to include it in your spending package. Thank you for your consideration.

Sincerely,

Jason Levesque

Re: Request for funds

Dear Mr. Crowell:

Thank you for the opportunity to reintroduce the Androscoggin Historical Society to members of the Council and the public at Monday's Council Meeting. It was a pleasure to meet you and was gratifying to hear the Mayor's endorsement and the pleasant recollections of Councillor Morin.

Two years ago, the AHS was operating with an annual budget of \$28,000, in obscurity on the third floor of the County Building. Recognizing that this was not the highest and best use of our assets, the Directors embarked on an ambitious plan to find a more central location, increase our weekly hours from 10 to at least 40, hire a full-time Executive Director, and expand our outreach programs. This tall order was viewed as a daunting challenge, but the Board pressed on, acquiring the law offices of Murphy and Coyne at 93 Lisbon Street in Lewiston. We have established the framework for a new, professional organization and have raised \$263,000 toward our target of \$750,000.

Following up on my presentation to the Council, this letter is a formal request for \$60,000 from the City of Auburn to help us reach these goals.

I have included a brochure describing the campaign and its goals and would be happy to answer any questions or supply any other information you may require.

Sincerely,

City of Auburn

Dear Phil,

Attached please find LA Arts' proposed budget for FY 2024.

We are requesting from the City Auburn in FY 2024 a renewal of our FY 2023 grant of \$30,000.

This year we have been delighted to relaunch our long-standing collaboration with the City of Auburn and with the artists, arts organizations, and citizens of Auburn by means of this support for our work. In particular, it has been gratifying for us to establish a working relationship with Jennifer Boenig and other members of your administration, beginning with the planning of the Christmas Fair on Festival Plaza last month. We have been discussing other ambitious ideas with her for the future.

Our ability to serve our community has just been revived by our move into new quarters, splendidly outfitted to our specifications, at 168 Lisbon Street in Lewiston. We invite you and your colleagues to join us for the dedication of that space on Saturday, February 18 from 1:00 to 4:00 pm.

This re-opening is allowing us to restart our exhibition program with a series of wonderful shows that has already begun with Lesia Sochor's "Reuse, Repair, Reconsider." It allows us to restart the indoor concert series that we formerly offered in our Downstage space. It is allowing us to welcome a variety of community arts and culture organizations into our home for gatherings, lectures, and workshops; these already include Sketchy Friends, The Corner, and the Androscoggin Historical Society. And it is allowing us to plan events of our own, including a film series, that we have not had an adequate space for in the past.

Our other plans include new possibilities for public art works, which the adoption of public art protocols by the City of Auburn will facilitate tremendously, and for providing new arts opportunities to young people in Auburn.

I look forward to introducing our new Arts Agency Manager, Gerald Walsh, to you and your colleagues and to presenting our budget proposal and plans to you on February 14.

With best wishes,

Jim Parakilas, Board Chair

**City of Auburn
City Council Information Sheet**

Council Workshop or Meeting Date: April 3, 2023

Orders: 33-03202023 & 37-04032023

Author: Mark Conrad

Subject: Approving additional costs for environmental remediation of the new high school project and authorizing general obligation bonds and a tax levy therefor. First reading.

Information: The existing Edward Little High School is scheduled for demolition following the opening of the new High School. Over the course of the project, with further testing for PCB remediation, the extent of the required abatement has significantly increased beyond the project allowance of \$675,000, to a current estimate of over \$5 million. This requires additional funding to the construction budget of just under \$4.6 million.

The full cost of additional bonding required to raise these funds will fully qualify for State school subsidy funds.

The State of Maine will therefore fully fund this increase, with no impact on the local tax rate.

If the City of Auburn fails to approve these additional funds at referendum we will **not** have the funding available to demolish the existing High School. The building will remain empty on the site, resulting in the loss of athletic fields, parking, and the bus loop, and in additional costs to modify the existing site plan, particularly with regard to drainage.

At a straw poll held on February 27, 2023 the 49 residents voting in the straw poll unanimously supported the referendum question. On March 8, 2023 the State Board of Education unanimously approved a revised concept approval for the Edward Little High School Construction Project, a necessary step to amend (increase) the approved construction budget and qualify for State subsidy.

City Budgetary Impacts: Additional Debt Service costs offset by additional state subsidy funds

Staff Recommended Action: Hold a public hearing and recommend passage of second reading on the bond order 33-03202023 and recommend passage of referendum ballot question, order 37-04032023.

Previous Meetings and History: Passage of first reading on the bonds at the 3/20/2023 Council meeting.

City Manager Comments:

I concur with the recommendation. Signature:

RE: Approval of Referendum Question

At your March 20th meeting the Auburn City Council will be asked to the following referendum question:

“Shall the City of Auburn approve City Council Order__ - ____2023 and (a) authorize up to \$4,598,331 in additional costs for environmental remediation (Polychlorinated Biphenyls (PCB) Abatement) of the soil and existing building material at the new high school project location, and (b) authorize up to \$4,598,331 of the City’s general obligation bonds (which may be callable) for that purpose (all of which additional bonds have been approved for State debt service subsidy support), the sale proceeds of which, together with investment earnings, if any, are appropriated to finance such costs (including costs of issuance and capitalized interest)?”

As you know, the existing Edward Little High School is scheduled for demolition following the opening of the new High School. Over the course of the project, with further testing for PCB remediation, the extent of the required abatement has significantly increased beyond the project allowance of \$675,000, to a current estimate of over \$5 million. This requires additional funding to the construction budget of just under \$4.6 million.

For your information I would highlight the following points:

- The full cost of additional bonding required to raise these funds will fully qualify for State school subsidy funds. **The State of Maine will therefore fully fund this increase, with no impact on the local tax rate.**
- If the City of Auburn fails to approve these additional funds at referendum we will **not** have the funding available to demolish the existing High School. The building will remain empty on the site, resulting in the loss of athletic fields, parking, and the bus loop, and in additional costs to modify the existing site plan, particularly with regard to drainage.
- At a straw poll held on February 27, 2023 the 49 residents voting in the straw poll unanimously supported the referendum question.
- On March 8, 2023 the State Board of Education unanimously approved a revised concept approval for the Edward Little High School Construction Project, a necessary step to amend (increase) the approved construction budget and qualify for State subsidy.

For your additional information I have attached the Statement of Fact provided to the State Board of Information. Thank you for your support of this referendum question.

Subject: Major Capital School Construction Program; REVISED Concept Approval Consideration; Auburn School Department-New Edward Little High School Construction Project

STATEMENT OF FACT

Superintendent Dr. Cornelia Brown requests that the State Board of Education grants REVISED Concept Approval for the new Edward Little High School (ELHS) in Auburn. The project, planned for 1,100 Auburn high school students and 210 Lewiston Regional Career and Technical Center (LRTC) students, is being constructed on the existing high school site adjacent to the current ELHS.

State Board of Education Site Approval occurred on September 12, 2018 and Concept Approval on April 10, 2019. The project was approved by local referendum vote on June 11, 2019. After receiving State Board of Education Design and Funding Approval on December 21, 2020, construction documents were issued for bidding.

The COVID pandemic began in March of 2020. Bids were opened on March 2, 2021. Two qualified bids were received, both well over budget. The lowest bid was 6% above cost estimates. Construction contingency was not funded to the 5% standard due to a lack of funds. Investigating cost saving options after bid opening, the owner, architect, and Department staff worked closely with the low bidder, Arthur C. Dudley Contractor/Builder of Standish, to eliminate the budget gap and keep the project on the approved schedule and budget. The most significant reductions came from value engineering, moveable equipment, and project contingency totaling \$6,163,174. A construction contract was signed, and construction began immediately in March of 2021.

Due to the ongoing COVID pandemic and the global events that followed, the project experienced numerous challenges from its inception: increasing costs of materials, labor shortages, supply chain disruptions, and an extremely overloaded construction market. These conditions continued to worsen and placed unprecedented financial stress on the project. A process has been developed to allow specific material cost increases as a project contingency expense.

Due to required EPA comprehensive testing, a significant amount of polychlorinated biphenyl (PCB's) was identified in the existing ELHS which must be abated prior to demolition. If discovered earlier, the financial implications would have been reflected in the project budget presented at the time of Concept Approval. A final plan, which includes abatement, transportation,

disposal, and fees, requires an additional \$4,598,331 bond to maintain other budget line items and keep the project on its schedule for student occupancy in Fall of 2023. This will allow the demolition and remaining site work to be completed by Summer of 2024.

This REVISED Concept Approval is being requested pursuant to Title 20-A M.R.S. §15905(1) and State Board of Education Rule, Chapter 61, Rules for Major Capital School Construction Projects.

Any applicant aggrieved by the decision of the municipal officers or county commissioners under this section may appeal to the bureau within 15 days of the receipt of the written decision of the municipal officers or county commissioners. The bureau shall hold a public hearing in the city, town or unincorporated place where the premises are situated. In acting on such an appeal, the bureau may consider all licensure requirements and findings referred to in subsection 2.

INSTRUCTIONS**GENERAL INSTRUCTIONS**

This registration is for use on and after July 1, 2008. If you are engaged in one or more of the alcohol activities listed on this form, you are required to file this form before beginning business. If there is a change in your business, you need to report it on or before the next July 1 (see CHANGES IN OPERATIONS, below). You may file one registration to cover several locations or several types of activity operating under the same Employer Identification Number (EIN).

NOTE: The special (occupational) tax on producers and marketers of alcohol beverages was repealed by Section 11125 of Public Law 109-59, effective July 1, 2008. However, tax liability and the registration requirement for periods before that date remain. If you need to file a delinquent or amended registration for a period through June 30, 2008, please use TTB Form 5630.5a, Alcohol Special (Occupational) Tax Registration and Return – For Periods Ending On or Before June 30, 2008.

SIGNING YOUR REGISTRATION

This form must be signed by the individual owner, a partner, or, in the case of a corporation or LLC, an individual authorized to sign on behalf of the corporation or LLC.

SECTION 1 – IDENTIFYING INFORMATION

Complete Section 1, Identifying Information, as specified on the form. Your registration must contain a valid Employer Identification Number (EIN). The EIN is a unique number for business entities issued by the Internal Revenue Service (IRS). You must have an EIN whether you are an individual owner, partnership, corporation, LLC, or a government agency. If you do not have an EIN, contact the Internal Revenue Service immediately to obtain one. While TTB may assign a temporary identification number (beginning with XX) to allow initial processing of a return which lacks an EIN, do not delay submission of your registration pending receipt of your EIN. If you have not received a number by the time you file this return, write "number applied for" in the space for the number. Submit your EIN by separate correspondence after receipt from the IRS.

SECTION 2 – PREMISES LOCATIONS

Enter the requested information in Section 2 for each premises location even if this repeats the business information listed in Section 1. If you are reporting a change, enter the date of the change in the appropriate space in Section 1. If additional sheets are needed, make a copy of page 1 of this form or enter the requested information on a separate sheet of paper with your EIN and Company's name.

SECTION 3 – OWNERSHIP INFORMATION

Please complete the ownership information in Section 3. Supply the information specified for each individual owner, partner or responsible person. For a corporation, partnership or association, a responsible person is anyone with the power to control the management policies or buying or selling practices pertaining to alcohol. For a corporation, association, or similar organization, it also means any person owning 10 percent or more of the outstanding stock in the business.

CHANGES IN OPERATIONS

If there is a change of your company's name, trade name, address, premises location, telephone number, ownership information, type of business, or EIN, complete TTB F 5630.5d and submit it no later than the next July 1 after the change. Check the box, Existing Business with Change(s), complete all fields in Section 1, and complete Sections 2 and 3 as necessary to show any changes there. Upon going out of business, submit TTB F 5630.5d within 30 days, checking box b in Section 1. If you are still in business but there are no changes since your last registration, this form does not need to be submitted.

9.1 Tax Treatment. 9.2 Amendments. Amendments to this Agreement and to the Articles of Organization shall be effective only if approved in writing by the Member. An amendment shall become effective as of the date specified in the approval of the Member or if none is specified as of the date of such approval.

9.3 Severability. If any provision of this Agreement is held to be invalid or unenforceable for any reason, such provision shall be ineffective to the extent of such invalidity or unenforceability; provided, however, that the remaining provisions will continue in full force without being impaired or invalidated in any way unless such invalid or unenforceable provision or clause shall be

so significant as to materially affect the expectations of the Member regarding this Agreement. Otherwise, any invalid or unenforceable provision shall be replaced by the Member with a valid provision which most closely approximates the intent and economic effect of the invalid or unenforceable provision.

Subject: Acceptance consideration of gifted property- Riverside Drive

Information: The property owners of Riverside Drive (PID 184-030) approached the City with the offer of gifting the parcel as they had sold the adjoining parcel in 2021 and this portion was not acquired in that sale; the parcel had very little value to the new owners and no longer serves a purpose to the current owners without the adjoining property. City staff reviewed the parcel and determined that the potential for additional takeout and emergency access, and preservation of river views were favorable reasons to accept.

The applicant desires to unveil the naming and plans for the park improvements on Mother’s Day, May 14, 2023.

The adopted policy for naming facilities and infrastructure is attached. The naming rights agreement will be the document used.

City Budgetary Impacts: None. Any costs will be spent from the funds received.

Staff Recommended Action: Consider the request and if in agreement, direct the city manager to enter into a naming rights agreement with Tizz Crowley.

POLICY FOR NAMING OF FACILITIES AND INFRASTRUCTURE

Any naming or renaming of public places in Auburn should help to better define and build a sense of community, while also serving to honor the contributions of worthy individuals. The City of Auburn strives to have a process that serves these goals in a way that allows public participation.

The City Council will be the official naming body for all municipally owned facilities and infrastructure. The Council will make recommendations and work collaboratively with other governmental entities in the naming of facilities and infrastructure not solely owned by the City of Auburn.

Although the Council reserves the right to use whatever process they deem most appropriate for the circumstances, in general, the Council will use the following process.

Nominations will be accepted for names to any public facility, park, building, or infrastructure. Nominations should include the name and contact information from the person submitting the name as well as the reasons for their nomination.

The criteria for naming a city facility or infrastructure should reflect one or more of the following:

1. reflect City services provided in or at facility;
2. reflect geographical location;
3. reflect significant natural features; or
4. honor a significant individual (see below)

Criteria for naming a facility after an individual:

May be named after an individual living or dead;

- a. made a unique contribution to the area being named;
- b. substantially improved or contributed to the quality of life in Auburn;
- c. gave significant civic contribution(s) to Auburn or the region;
- d. brought recognition to Auburn for their achievements;

e. donated land or significant resources to the facility.

Once the nomination deadline has passed the Council will review all suggestions by using the above criteria. At its discretion, the Council may choose to appoint a subcommittee to review the nominations and forward their recommendation to the City Council.

The City Council shall hold a public hearing at a City Council meeting to solicit feedback on the final list of naming nominations. The Council will then take final action.
