(AFTER DEADLINE)

(EMERGENCY)

Approved for introduction by a majority of the Legislative Council pursuant to Joint Rule 205.

Received by the Clerk of the House on December 19, 2017. Referred to the Committee on Marijuana Legalization Implementation pursuant to Joint Rule 308.2 and ordered printed pursuant to Joint Rule 401.

Presented by Representative PIERCE of Falmouth.
Cosponsored by Senator KATZ of Kennebec.
Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the people of the State of Maine in November 2016 passed into law the Marijuana Legalization Act, which establishes a system of licensing for the cultivation, manufacture, testing and retail sale of adult use marijuana and adult use marijuana products in the State and which enables persons 21 years of age or older to legally acquire, possess and consume adult use marijuana and adult use marijuana products and to cultivate marijuana for personal use; and

Whereas, amendments to the Marijuana Legalization Act are necessary to provide clarity in the licensing and regulation of adult use marijuana establishments and in the oversight and enforcement of the laws regarding the personal use and home cultivation of marijuana; and

Whereas, to facilitate the timely implementation of a retail marketplace in the State for adult use marijuana and adult use marijuana products, the agencies charged by law with the implementation, administration and enforcement of the Marijuana Legalization Act must adopt rules in accordance with that Act and the Legislature must review those rules in accordance with the Maine Administrative Procedure Act as soon as is practicable; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

B. If the applicant has applied for the issuance or renewal of a testing facility license, the applicant may not be a primary caregiver or registered primary caregiver or have an interest in a registered dispensary, a cultivation facility license, a products manufacturing facility license, a marijuana store license or a marijuana social club license. The license must specify the date of issuance of the license, the period of licensure, the date of expiration of the license, the name of the licensee and the address of the licensed premises.

5. Each license separate. Each license issued by the department to an applicant under this chapter is separate and distinct from any other license issued by the department to that same applicant under this chapter. A person must obtain a separate license under this chapter for each proposed geographical location of any type of marijuana establishment.

6. Licensee must maintain possession of premises. As a condition of licensure, a licensee must at all times maintain possession of the licensed premises of the marijuana establishment that the licensee is licensed to operate, whether pursuant to a lease, rental agreement or other arrangement for possession of the premises or by virtue of ownership of the premises. C. The total percentage or square footage of plant canopy designated under paragraph A, or, in the case of a plant-count-based tier 1 cultivation facility license, the areas within the cultivation facility, that the applicant proposes to dedicate to the cultivation of mature marijuana plants. An applicant for a nursery cultivation facility license shall meet the requirements of this paragraph by designating on the cultivation plan the areas within the cultivation facility in which mature marijuana plants are to be cultivated, demonstrating the physical separation of such areas from the areas in which immature marijuana plants and seedlings are to be cultivated in accordance with section 501, subsection 3, paragraph B.

§303. Increase in cultivation tier upon renewal

A licensee seeking renewal of a cultivation facility license may, if applicable and in accordance with this section, apply for a tier of cultivation facility license with a greater area of authorized plant canopy than is authorized under the licensee's current cultivation facility license.

1. Approval criteria. The department may issue the applied-for tier of cultivation facility license if the licensee otherwise meets all applicable requirements for continued licensure under this chapter and the rules adopted pursuant to this chapter and the licensee has demonstrated to the department's satisfaction that:

A. The licensee has over the current period of licensure sold at least 85% of the adult use marijuana cultivated by the licensee at its cultivation facility; and

B. The approval of the applied-for tier of cultivation facility license will not cause the licensee to exceed the combined plant canopy limitation in section 205, subsection 2, paragraph A.

2. Consideration of renewal of current license tier if approval criteria not met. If the department determines that the licensee has failed to satisfy the requirements of this section for the applied-for tier of cultivation facility license, the department shall consider renewing the licensee's license at the current tier.

This section does not apply to a nursery cultivation facility licensee.
§304. Increase in maximum licensed plant canopy upon renewal of tier 4 license

In accordance with the requirements of this section, not more than once every 2 years, a licensee seeking renewal of a tier 4 cultivation facility license may apply to increase by 10,000 square feet the maximum area of plant canopy authorized under its current tier 4 cultivation facility license.

1. Approval criteria. The department may approve the requested increase if the licensee otherwise meets all applicable requirements for continued licensure under this chapter and the rules adopted pursuant to this chapter and the licensee has demonstrated to the department's satisfaction that the licensee has over the past 2-year period of licensure sold at least 85% of the adult use marijuana cultivated by the licensee at its cultivation facility.

2. Consideration of renewal of current licensed amount of plant canopy if approval criteria not met. If the department determines that the licensee has failed to satisfy the requirements of this section for the requested increase, the department shall consider renewing the licensee's license at the current tier and currently authorized maximum area of plant canopy.

SUBCHAPTER 4

§401. Municipal regulation of marijuana establishments generally

In accordance with this subchapter and pursuant to the home rule authority granted under the Constitution of Maine, Article VIII, Part Second and Title 30-A, section 3001, a municipality may regulate marijuana establishments within the municipality, including, but not limited to, adoption of the following types of regulations and restrictions.

1. Land use regulations. A municipality may adopt an ordinance providing land use regulations applicable to marijuana establishments within the municipality.

2. General authorization or limitation of marijuana establishments. A municipality may adopt an ordinance generally authorizing the operation of some or all types of marijuana establishments within the municipality. A municipality may adopt an ordinance limiting the number of any type of marijuana establishment that may be authorized to operate within the municipality.

3. Municipal licensing requirements. A municipality may adopt an ordinance providing licensing requirements applicable to marijuana establishments within the municipality, which may include, but are not limited to, provisions establishing a municipal licensing fee schedule pursuant to Title 30-A, section 3702.

Notwithstanding any other provision of law to the contrary, a municipal ordinance regulating marijuana establishments within the municipality adopted pursuant to this subchapter is not subject to the requirements or limitations of Title 7, chapter 6 or 8-F.
§402. Municipal authorization of marijuana establishments

1. Request for municipal authorization to operate marijuana establishment within municipality prohibited unless generally authorized by municipality. A person seeking to operate a marijuana establishment within a municipality may not request municipal authorization to operate the marijuana establishment and a municipality may not accept as complete the person's request for municipal authorization unless:

A. The legislative body of the municipality has voted to generally authorize some or all types of marijuana establishments within the municipality, including the type of marijuana establishment the person seeks to operate; and

B. The person has been issued by the department a conditional license to operate the marijuana establishment pursuant to section 205, subsection 3.

2. Minimum authorization criteria. A municipality may not authorize the operation of a marijuana establishment within the municipality if:

A. The marijuana establishment is proposed to be located within 1,000 feet of the property line of a preexisting public or private school, except that, if a municipality chooses to prohibit the location of marijuana establishments at distances less than 1,000 feet but not less than 500 feet from the property line of a preexisting public or private school, that lesser distance applies. For the purposes of this paragraph, "school" includes a public school, as defined in Title 20-A, section 1, subsection 24, a private school, as defined in Title 20-A, section 1, subsection 22, a public preschool program, as defined in Title 20-A, section 1, subsection 23-A or any other educational facility that serves children from prekindergarten to grade 12; or

B. 3. Municipal authorization required for operation of marijuana establishment. A person may not operate a marijuana establishment within a municipality unless:

A. The legislative body of the municipality has voted to generally authorize some or all types of marijuana establishments within the municipality, including that type of marijuana establishment;

B. The person has obtained all applicable municipal approvals, permits or licenses required by the municipality for the operation of that type of marijuana establishment; and

C. The person has been issued by the department an active license to operate the marijuana establishment pursuant to section 205, subsection 4.

A municipality may certify a person's compliance with the requirements of paragraph B on the form prepared and furnished by the department pursuant to section 205, subsection 4, paragraph B.
4. Municipal failure to act on request for municipal authorization. If a municipality whose legislative body has voted to generally authorize some or all types of marijuana establishments within the municipality fails to act on a person's request for municipal authorization to operate a marijuana establishment within the municipality, the municipality's failure to act does not satisfy the municipal authorization requirement of subsection 3, paragraph B.

5. Appeal of municipal failure to act on request for municipal authorization. If a municipality whose legislative body has voted to generally authorize some or all types of marijuana establishments within the municipality fails to act on a person's request for municipal authorization to operate a marijuana establishment within the municipality within 90 days after the date the person submitted the request to the municipality, the request is deemed denied and the denial constitutes a final government action that may be appealed to the Superior Court in accordance with Rule 80B of the Maine Rules of Civil Procedure, except that, if the municipality notifies the person in writing prior to the expiration of the 90-day period that the request cannot be processed prior to the expiration of the 90-day period, the request is deemed denied and the denial constitutes a final government action only if the municipality fails to act on the request within 180 days after the date the person submitted the request to the municipality.

6. Withdrawal of municipal authorization. If a municipality at any time withdraws the municipality's authorization for the operation of a marijuana establishment within the municipality based upon a violation by the licensee operating the marijuana establishment of the terms or conditions of a municipal license or a municipal regulation governing the operation of marijuana establishments within the municipality, or for other good cause, the licensee shall immediately cease all activities relating to the operation of the marijuana establishment and may:

A. Apply to the department for relocation of the licensed premises pursuant to section 211;
B. Terminate its license pursuant to section 212; or
C. If the licensee timely appeals the decision of the municipality to withdraw the municipality's authorization, continue operation within the municipality until the earliest of the date on which the licensee exhausts all appeals, the date the licensee's department-issued license expires and is not renewed or the date the licensee's department-issued license is suspended or revoked by the department pursuant to subchapter 8.

§403. Information requests

A municipality may request that the department provide any information obtained by the department pursuant to the provisions of subchapter 2 or 3 that the municipality determines necessary for the administration of the municipality's authorization process for marijuana establishments under this subchapter. Unless the information is confidential pursuant to law or rule, the department, in a timely manner, shall provide to the municipality the information requested pursuant to this section.
§404. Notification to department

A municipality shall notify the department within 14 days of the date the municipality authorizes the operation of a marijuana establishment within the municipality; issues or renews a license for the operation of a marijuana establishment within the municipality; withdraws authorization or suspends or revokes a license for the operation of a marijuana establishment within the municipality; approves relocation of the licensed premises of a marijuana establishment to the municipality; or approves a transfer of ownership interests in a license the licensed premises of which are located within the municipality.

The department shall provide the Bureau of Revenue Services with any information received from a municipality pursuant to this section within 14 days of the date the department receives that information.

5. Use of shared facility for cultivation of adult use marijuana and marijuana for medical use. Subject to the requirements of this subsection and the rules adopted pursuant to this subsection, a cultivation facility licensee that is also a registered primary caregiver or a registered dispensary may cultivate adult use marijuana pursuant to this chapter within the same facility in which the licensee also cultivates marijuana for medical use pursuant to the Maine Medical Use of Marijuana Act.

A. B. Except as provided in paragraph C, the areas of the shared facility in which adult
use marijuana is cultivated must be separated from the areas of the shared facility in
which marijuana for medical use is cultivated in a manner that provides for a visually
conspicuous delineation of the physical space between the cultivation area for adult
use marijuana and the cultivation area for marijuana for medical use.

C. The following items or areas within the shared facility may be shared for both the
cultivation of adult use marijuana and the cultivation of marijuana for medical use:

8. Sampling by other licensees. A cultivation facility licensee may provide samples of adult use marijuana cultivated at the licensed premises to a products manufacturing facility licensee, a marijuana store licensee or a marijuana social club licensee for business or marketing purposes only. Samples provided by a cultivation facility licensee to another licensee under this subsection may not be consumed within the licensed premises of the cultivation facility. This subsection does not apply to a nursery cultivation facility licensee.

A products manufacturing facility may not give away adult use marijuana, adult use marijuana products or marijuana plants to a consumer.

3. Cultivation of marijuana without separate cultivation facility license prohibited. A products manufacturing facility shall purchase all marijuana necessary for its manufacturing processes from a cultivation facility and may not engage in the
cultivation of marijuana unless the products manufacturing facility licensee obtains from
the department a separate license to operate a cultivation facility and otherwise meets all
applicable requirements under this chapter and under the rules adopted pursuant to this
chapter concerning the operation of cultivation facilities.

4. Use of shared facility for manufacture of adult use marijuana products and
marijuana products for medical use. Subject to the requirements of this subsection and
the rules adopted pursuant to this subsection, a products manufacturing facility licensee
that is also a registered primary caregiver or a registered dispensary may manufacture
adult use marijuana and adult use marijuana products pursuant to this chapter within the
same facility in which the licensee also manufactures marijuana concentrate and
marijuana products for medical use pursuant to the Maine Medical Use of Marijuana Act.

A. A products manufacturing facility licensee that manufactures adult use marijuana
and adult use marijuana products within the same facility in which the licensee also
manufactures marijuana concentrate and marijuana products for medical use must
comply with all applicable requirements of this chapter and the rules adopted
pursuant to this chapter concerning the operation of products manufacturing facilities.

B. The following items or areas within the shared facility may be shared for both the
manufacturing of adult use marijuana and adult use marijuana products and the
manufacturing of marijuana concentrate and marijuana products for medical use:

shared facility space, shared equipment and shared supplies or products to ensure
compliance with the requirements of this chapter and the rules adopted pursuant to
this chapter and the requirements of the Maine Medical Use of Marijuana Act.

5. Sampling by employees. A products manufacturing facility licensee and its
employees may sample adult use marijuana and adult use marijuana products
manufactured at the licensed premises for the purposes of product quality control and
product research and development only and the licensee may not otherwise allow the
consumption of adult use marijuana or adult use marijuana products within the licensed
premises.
6. Sampling by other licensees. A products manufacturing facility licensee may provide samples of adult use marijuana and adult use marijuana products manufactured at the licensed premises to another products manufacturing facility licensee, to a marijuana store licensee or to a marijuana social club licensee for business or marketing purposes only. A. A products manufacturing facility licensee may engage in marijuana extraction using a solvent or other chemical or chemical process that is not and does not involve an inherently hazardous substance if:

(1) The solvent or other chemical or chemical process is listed by the department by rule as approved for use in marijuana extraction; or

(2) The products manufacturing facility licensee requests and obtains from the department written approval to engage in marijuana extraction using a solvent or other chemical or chemical process that is not and does not involve an inherently hazardous substance and that is not listed by the department by rule as approved for use in marijuana extraction.

The department shall adopt by rule a list of those solvents or other chemicals or chemical processes that are not and do not contain an inherently hazardous substance that the department approves for use in marijuana extraction by products manufacturing facilities.

B. A products manufacturing facility licensee may not engage in marijuana extraction involving the use of any inherently hazardous substance unless:

(1) The licensee submits to the department a request for approval of the marijuana extraction method the facility plans to engage in that includes a description of the proposed marijuana extraction method and a certification from an industrial hygienist or professional engineer following a review of the facility's storage, preparation, electrical, gas monitoring, fire suppression and exhaust systems; and

(2) The department approves in writing the proposed marijuana extraction method.

The department, within 14 days of receipt of a request for approval under this paragraph, shall notify the products manufacturing facility licensee in writing whether the request is approved or denied.

12. **Testing.** A products manufacturing facility may test marijuana and marijuana products within its licensed premises for research and development purposes, quality control purposes and health and safety purposes. Testing performed by a products manufacturing facility within its licensed premises is not subject to the requirements for testing facilities under section 503 but does not satisfy the mandatory testing requirements of subchapter 6.

13. **Tracking.** A products manufacturing facility licensee shall track the adult use marijuana it uses in its manufacturing processes from the point the marijuana is delivered or transferred to the products manufacturing facility by a cultivation facility to the point the marijuana or marijuana concentrate or an adult use marijuana product produced from the marijuana is delivered or transferred to another products manufacturing facility, a testing facility, a marijuana store or a marijuana social club or is disposed of or destroyed, in accordance with the requirements of section 105.

§503. **Operation of testing facilities**

A testing facility must be operated in accordance with the provisions of this section and the rules adopted pursuant to this chapter.

1. **Development, research and testing of marijuana, marijuana products and other substances.** A testing facility may develop, research and test marijuana and marijuana products for:

   B. Another licensee;
C. A person who intends to use the marijuana or marijuana product for personal use as authorized under chapter 3; or

D. A qualifying patient, a primary caregiver, a registered primary caregiver or a registered dispensary.

Neither this chapter nor the rules adopted pursuant to this chapter prevent a testing facility from developing, researching or testing substances that are not marijuana or marijuana products for that facility or for another person.

2. Certification; accreditation and provisional licensure; compliance with operational and technical requirements. A testing facility may not commence or continue operation unless the testing facility:

A. Is certified for operation by the Department of Health and Human Services, Maine Center for Disease Control and Prevention, in accordance with rules adopted by the Department of Agriculture, Conservation and Forestry after consultation with the Department of Health and Human Services, Maine Center for Disease Control and Prevention, which must allow for inspection of the proposed or operational testing facility by the Department of Agriculture, Conservation and Forestry and the Department of Health and Human Services, Maine Center for Disease Control and Prevention;

Except as otherwise provided in this paragraph, is accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization by a 3rd-party accrediting body or is certified, registered or accredited by an organization approved by the Department of Agriculture, Conservation and Forestry. The Department of Agriculture, Conservation and Forestry shall adopt rules regarding the scope of certification, registration or accreditation required for licensure of a testing facility.

(1) The department may issue a full testing facility license to an applicant that meets all applicable requirements of this chapter and rules adopted pursuant to this chapter and has obtained accreditation pursuant to standard ISO/IEC 17025 of the International Organization for Standardization from a 3rd-party accrediting body or that is certified, registered or accredited by an approved organization.

4. Remediation and retesting. If a testing facility determines that a sample of adult use marijuana or an adult use marijuana product has failed a mandatory test required under section 602, the testing facility shall offer to the owner of that sample an opportunity for remediation and retesting in accordance with rules adopted by the Department of Agriculture, Conservation and Forestry.

5. Record keeping. A testing facility shall maintain records of all business transactions and testing results in accordance with the record-keeping requirements of section 511 and section 602, subsection 2 and in accordance with applicable standards for licensing and accreditation under subsection 2 and testing protocols, standards and criteria adopted by the Department of Agriculture, Conservation and Forestry under subsection 3.

6. Disposal of marijuana and marijuana products. A testing facility shall dispose of or destroy used, unused and waste marijuana and marijuana products in accordance with rules adopted by the Department of Agriculture, Conservation and Forestry.

A person who is a primary caregiver or a registered primary caregiver or who has an interest in a registered dispensary, a marijuana store license, a marijuana social club license, a cultivation facility license or a products manufacturing facility license may not have an interest in a testing facility license. As used in this subsection, "interest" has the same meaning as in section 205, subsection 2, paragraph B.

9. Tracking. A testing facility licensee shall track all adult use marijuana and adult use marijuana products it receives from a licensee for testing purposes from the point at which the marijuana or marijuana products are delivered or transferred to the testing facility to the point at which the marijuana or marijuana products are disposed of or destroyed, in accordance with the requirements of section 105.

10. Rules. The Department of Agriculture, Conservation and Forestry shall adopt rules regarding the testing of marijuana and marijuana products by testing facilities pursuant to this chapter, including, but not limited to, rules establishing acceptable testing and research practices for testing facilities, including, but not limited to, provisions relating to testing practices, methods and standards; remediation and retesting procedures; quality control analysis; equipment certification and calibration; chemical identification;
testing facility record-keeping, documentation and business practices; disposal of used, unused and waste marijuana and marijuana products; and reporting of test results. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

SUMMARY

This bill, which is an emergency bill, facilitates the development and administration of a regulated marketplace in the State for adult use marijuana and the regulation of the personal use of marijuana and the home cultivation of marijuana for personal adult use pursuant to the Marijuana Legalization Act, as approved by the voters at referendum in November 2016.

PART A

This Part repeals the Marijuana Legalization Act, as codified in the Maine Revised Statutes, Title 7, chapter 417, and recodifies it as the Marijuana Legalization Act, referred to in this summary as "the Act," in a new Title 28-B, Adult Use Marijuana, while retaining the substance of the original Act with the following changes.

1. The term "adult use marijuana" is used instead of the term "retail marijuana."

2. It clarifies the distinction between and provides definitions for the terms "marijuana plant," "mature marijuana plant," "immature marijuana plant" and "seedling."
3. It clarifies that any conduct relating to the possession, cultivation, manufacture, testing, consumption, sale or offering for sale of marijuana or marijuana products that is not specifically authorized under the Act, pursuant to a license issued under the Act or pursuant to the Maine Medical Use of Marijuana Act is not authorized and that a person who engages in such unauthorized conduct is subject to penalties under the Act and any additional criminal or civil penalties that may be imposed under other applicable laws or rules.

4. It retains the division of regulatory authority regarding the regulation of adult use marijuana enacted as Public Law 2017, chapter 278, whereby the Department of Administrative and Financial Services, referred to in this summary as "the department," is designated as the primary regulatory authority in the implementation, administration and enforcement of the Act, with the Department of Agriculture, Conservation and Forestry retaining regulatory authority concerning the cultivation, manufacture, testing, packaging and labeling of adult use marijuana and adult use marijuana products.

5. It further clarifies the roles and authorities, including the respective rule-making authorities, of the department and the Department of Agriculture, Conservation and Forestry in the implementation, administration and enforcement of the Act and provides for the provisional adoption of major substantive rules pursuant to the Act by each department and the submission of those rules to the Legislature for review pursuant to the Maine Administrative Procedure Act on or before December 1, 2018.

6. It requires the department to implement and administer a tracking system for adult use marijuana from immature marijuana plant to the point of retail sale, disposal or destruction.

7. It requires the department to facilitate the collection and analysis of public health and safety data relating to the effects of the use of marijuana in the State.

8. It requires the department to facilitate the development and implementation of programs, initiatives and campaigns focused on increasing the awareness of and educating the public on health and safety matters relating to the use of marijuana and marijuana products. Such programs, initiatives and campaigns may be funded with a portion of the excise tax and sales tax revenues resulting from the sale of adult use marijuana and adult use marijuana products.

9. It requires the department to facilitate the development and implementation of programs or initiatives providing enhanced training for criminal justice agencies in the requirements and enforcement of the Act. Such programs and initiatives may be funded with a portion of the excise tax and sales tax revenues resulting from the sale of adult use marijuana and adult use marijuana products.

10. It requires the department and the Department of Agriculture, Conservation and Forestry to submit to the Legislature an annual report, beginning February 15, 2020, which must include specific information and data relating to the regulated market for adult use marijuana in the State.
11. It implements a moratorium on the issuance of adult use marijuana social club licenses until June 1, 2020 but provides for the regulation of licensed adult use marijuana social clubs after that date.

12. It removes from the former Marijuana Legalization Act provisions relating to the issuance of occupational licenses.

13. It clarifies general licensing criteria for applicants seeking to operate an adult use marijuana establishment, which include a 2-year residency requirement and specific additional licensing requirements applicable to the licensing of adult use marijuana cultivation facilities. It removes from the former Marijuana Legalization Act provisions relating to preference in licensure for medical marijuana caregivers and medical marijuana dispensaries. It removes from the former Marijuana Legalization Act the caps on the number of each license type that may be issued, except that:

   A. It limits the number of marijuana store licenses in common ownership to 4 marijuana store licenses, but repeals that limitation January 1, 2022; and

   B. It limits the number of cultivation facility licenses in common ownership to 3 cultivation facility licenses not exceeding a combined licensed plant canopy of 30,000 square feet.

14. It separates within the Act the state-level and municipal-level licensing and approval processes for adult use marijuana establishments. An applicant for a license to operate an adult use marijuana establishment must submit an application along with the required application fee to the department, which, after review, conditionally may approve the license. The licensee may then seek municipal authorization from the municipality in which the licensee proposes to operate the marijuana establishment. A municipality, which includes towns, cities and plantations, by adopted ordinance may regulate marijuana establishments within the municipality, including, but not limited to, through the adoption of:

   A. Land use regulations applicable to marijuana establishments within the municipality;

   B. Municipal licensing requirements applicable to marijuana establishments within the municipality that may include the imposition of municipal approval or license fees; and

   C. Limitations on the number of any type of marijuana establishment that may be approved or licensed to operate within the municipality.

A municipality may not authorize the operation of a marijuana establishment within the municipality unless the legislative body of the municipality has voted to generally authorize some or all types of marijuana establishments within the municipality, including that type of marijuana establishment. A person that has been issued a conditional license by the department may not request municipal authorization to operate a marijuana establishment within a municipality unless the legislative body of the municipality has voted to generally authorize some or all types of marijuana establishments within the municipality, including that type of marijuana establishment. Once the department receives certification of municipal authorization and the applicant
pays the applicable license fee and submits any additional required documentation, the
department must issue an active license, good for a term of one year from the date of
issuance. A licensee may not engage in the cultivation, manufacture, testing, sale or
offering for sale of marijuana or marijuana products until the licensee has been issued an
active license by the department.

15. It revises and clarifies the application process for issuance and renewal of a state
license to operate an adult use marijuana establishment, including revision of the
application and license fees to be imposed by the department under the Act.

16. It revises the manner in which cultivation facilities are to be licensed and
regulated by removing the statewide limitation on the total amount of licensed plant
canopy and by authorizing 5 tiers of cultivation facility license types, the smallest of
which, a tier 1 license, provides for the cultivation of up to 30 mature marijuana plants or
up to 500 square feet of plant canopy and the largest of which, a tier 4 license, provides
for the cultivation of up to 30,000 square feet of plant canopy. It also creates a nursery
cultivation facility license tier, which allows for the cultivation of immature plants,
seedlings and seeds and the sale of those immature plants, seedlings and seeds to other
licensees and to consumers. A licensee seeking renewal of a tier 4 license may seek
approval from the department to expand the area of plant canopy authorized under the
license by 10,000 square feet, so long as certain criteria are met.

17. It clarifies operational requirements for each type of adult use marijuana
establishment, including:

A. Providing for the payment of an excise tax by cultivation facilities on the adult
use marijuana sold to other licensees;

B. Providing for the collection and remittance of a sales tax by marijuana stores and
marijuana social clubs on adult use marijuana and adult use marijuana products sold
to consumers;

C. Specifying standards for the extraction of marijuana concentrate by products
manufacturing facilities;

D. Specifying standards for the tracking of adult use marijuana and adult use
marijuana products by each type of adult use marijuana establishment;

E. Specifying standards for the sharing of facilities for the cultivation, manufacturing
or sale of adult use marijuana and adult use marijuana products and marijuana and
marijuana products for medical use by a licensee that is also a registered primary
caregiver or registered dispensary;

F. Requiring compliance by licensees with applicable packaging, labeling and health
and safety requirements;

G. Incorporating standards and requirements applicable to testing facilities as
enacted in Public Law 2017, chapter 309;

H. Clarifying sales authorizations and prohibitions applicable to marijuana stores and
marijuana social clubs, including prohibitions on drive-through sales, sales by use of
a delivery service, sales by use of an automated vending machine and Internet sales;
I. Providing that the smoking of marijuana or marijuana products at a marijuana social club is prohibited in accordance with state law regarding smoking in public places and public areas; and

J. Prohibiting the employment of any person under 21 years of age by any adult use marijuana establishment.

18. It clarifies and expands upon the standards and requirements for the testing of adult use marijuana and adult use marijuana products; the packaging, labeling and health and safety of adult use marijuana and adult use marijuana products; and the use of signs, advertising and marketing relating to adult use marijuana and adult use marijuana products.

19. It provides for the imposition by the department of monetary penalties on a licensee or suspensions or revocations of a licensee's license for a violation of the Act, in accordance with the Maine Administrative Procedure Act, and limits the amount of such monetary penalties imposed to not more than $10,000 per minor license violation, not more than $50,000 per major license violation and not more than $100,000 per major license violation affecting public safety.

20. It establishes the Marijuana Advisory Commission for the purpose of conducting a continuing study of the laws relating to marijuana and reporting to the Legislature its findings and recommendations on an annual basis.

21. It imposes an excise tax on adult use marijuana to be paid by cultivation facilities on adult use marijuana sold to other licensees. The excise tax is imposed in the following amounts:

   A. For marijuana flower or mature marijuana plants, $130 per pound;
   B. For marijuana trim, $36.29 per pound;
   C. For each immature marijuana plant or seedling, $1.50; and
   D. For each marijuana seed, $0.30.

22. It provides that a cultivation facility licensee monthly must pay directly to the municipality in which the cultivation facility is located 5% of the excise tax payments required under the Act during the prior month. All other revenue resulting from the imposition of the excise tax on adult use marijuana under the Act must be deposited into the General Fund, except that:

   A. One percent of the total monthly other excise tax revenue generated statewide must be distributed in equal amounts to each municipality that had a cultivation facility, products manufacturing facility, marijuana store or marijuana social club in operation within the municipality during the prior month; and
   B. Twelve percent of the remaining total monthly other excise tax revenue after the distribution to municipalities under paragraph A must be transferred to the Adult Use Marijuana Public Health and Safety Fund.

23. It establishes the Adult Use Marijuana Public Health and Safety Fund, which is primarily funded through dedicated excise and sales tax revenue from the sale of adult
use marijuana and adult use marijuana products, to be used by the department to facilitate
public health and safety awareness and education programs, initiatives, campaigns and
activities and enhanced law enforcement training programs for local, county and state law
enforcement officers.

24. It eliminates the Retail Marijuana Regulatory Coordination Fund, which was
created and funded through the enactment of Public Law 2017, chapter 278, and transfers
its remaining balances to the new Adult Use Marijuana Regulatory Coordination Fund.

25. It affects the provisions of the former Marijuana Legalization Act relating to the
personal use of marijuana and marijuana products and the home cultivation of marijuana
for personal adult use as follows:

A. It retains the provisions of the former Marijuana Legalization Act authorizing a
person 21 years of age or older to purchase from a marijuana store or, where
applicable, from a marijuana social club and possess for personal use up to 2 1/2
ounces of marijuana or 2 1/2 ounces of a combination of marijuana and marijuana
concentrate that includes no more than 5 grams of marijuana concentrate;

B. It clarifies language regarding the transfer or furnishing of marijuana or marijuana
products, without remuneration, to another person to specify that remuneration
includes a donation or any other monetary payment received directly or indirectly by
a person in exchange for goods or services as part of a transaction in which marijuana
or marijuana products are transferred or furnished by that person to another person;

C. It authorizes a person 21 years of age or older to purchase up to 12 immature
marijuana plants or seedlings from a marijuana store or a nursery cultivation facility;

D. It clarifies the provisions relating to the home cultivation of marijuana for
personal adult use by authorizing a person 21 years of age or older to grow and
harvest the marijuana produced by up to 6 mature marijuana plants, up to 12
immature marijuana plants and an unlimited number of seedlings at that person's
place of residence, on a parcel or tract of land owned by that person or on a parcel or
tract of land owned by another person with the written permission of that owner. It
provides, however, that no more than 12 mature marijuana plants may be cultivated
for personal adult use on any one parcel or tract of land, except when the parcel or
tract of land is located in a municipality that has, by adopted ordinance, authorized
the cultivation of more than 12 mature marijuana plants for personal adult use but not
more than 18 mature marijuana plants for personal adult use. These limitations on
home cultivation of marijuana for personal adult use do not apply to the cultivation of
marijuana for medical use by a qualifying patient, a primary caregiver, a registered
primary caregiver or a registered dispensary under the Maine Medical Use of
Marijuana Act;

E. It retains the provisions relating to the consumption of marijuana and marijuana
products as enacted by Public Law 2017, chapter 1; and

F. It prohibits the home extraction of marijuana concentrate by use of inherently
hazardous substances.

PART B
This Part provides that possession of drug paraphernalia, as prohibited under the Maine Revised Statutes, Title 17-A, section 1111-A, does not apply to drug paraphernalia relating to the adult use of marijuana by a person as authorized under the Act or to drug paraphernalia relating to the sale or offering for sale of marijuana by a licensed adult use marijuana store or adult use marijuana social club.

This Part also amends the law concerning the Department of Public Safety, Bureau of State Police, State Bureau of Identification as necessary for the State Police and the State Bureau of Identification to conduct criminal history record checks on applicants for a license to operate an adult use marijuana establishment and on other persons as required under the Act.

PART C

This Part amends the State's laws governing municipal powers and duties to provide that plantations have the same powers and duties as cities and towns under the Act.

PART D

This Part amends the tax laws as follows.

1. It provides for a 10% sales tax on adult use marijuana and adult use marijuana products to be imposed at the point of final sale to a consumer by a marijuana store or marijuana social club.

2. It stipulates that all the revenue resulting from the imposition of the sales tax on adult use marijuana and adult use marijuana products must be deposited into the General Fund, except that:

   A. Five percent of all monthly tax revenue generated within a municipality by all marijuana stores and marijuana social clubs within that municipality must be distributed to that municipality;

   B. One percent of the total monthly tax revenue generated statewide must be distributed in equal amounts to each municipality that had a cultivation facility, products manufacturing facility, marijuana store or marijuana social club in operation within the municipality during the prior month; and

   C. Twelve percent of the remaining total monthly tax revenue after the distribution to municipalities under paragraphs A and B must be transferred to the Adult Use Marijuana Public Health and Safety Fund.

*Add clarification that qualifying patient aged 18, 19 or 20 may enter a common area within a shared facility to access where medical marijuana is sold.

2. Proposal to clarify municipal “opt-in” language to provide that municipal action may include passage of a new ordinance, amendment of existing ordinance or approval of a warrant article that generally regulates operation of marijuana establishments within municipality;  
*Existing ordinances are valid and decisions such as land-use ordinances applicable to adult-use marijuana endorsed by legislative body qualify as an “opt-in.”

4. Proposal to provide exemptions from application of certain Criminal Code (Title 17-A) provisions for activities authorized under MLA (consistent with existing exemptions for activities authorized under medical law).

5. Proposal to include unallocated language directing Marijuana Advisory Commission to include in its first report recommendations regarding standardization, coordination or integration of medical and adult use programs, including testing, labeling and packaging standards and rules.  
*Change to make this an ongoing duty of the Commission rather than one-time report.

6. Proposal to apply certain packaging and labeling standards relating to appeal to children (shapes, depictions, etc.) to advertising standards. See pink sheet of language, page 3, amending 28-B, section 702, sub-§1, ¶B.

12. Retain current bill provisions on co-location of adult use cultivation and products manufacturing facilities and medical marijuana cultivation and processing space (pgs. 32-33, 35).   - On land on which the person is domiciled;
  - On other land the person owns; or
  - On other land owned by another person with a written agreement regarding the cultivation/care of the plants.
- Municipality may adopt an ordinance or other regulation that sets limits on home cultivation of marijuana on a parcel/tract of land as long as that limit allows for the cultivation of 3 mature plants, 12 immature plants and unlimited seedlings for each person 21 years or older who is domiciled on the parcel/tract of land.
- Provisions regarding home cultivation requirements (§1502(3) on pgs. 61-62) still apply as written.

17. All licensing, administration, enforcement and other oversight under MLA under DAFS.

18. Amend Marijuana Advisory Commission membership to following 15 members:
• Representatives from DAFS, DHHS, DPS, DOL and *DACF;
• *A representative of a statewide prosecutors association;
• A public health expert;
• Representatives from medical marijuana and adult use marijuana industries;
• Two members of the general public; and
• Two members of the Senate and two members of the House.

19. Shift oversight of medical law and administration of medical marijuana program from DHHS to DAFS.

   • Will include provisions aimed at ensuring HHS Committee retains jurisdiction over medical marijuana issues.
   • Will include provisions to ensure that administration and oversight of medical program within DAFS does not involve administration and oversight by BABLO.
   • Will include provisions to ensure that rulemaking under medical law by DAFS requires consultation with DHHS.

20. Remove all municipal revenue sharing provisions from bill.

   • Do not include new language on municipal impact fees.
   • On revenue sharing, delete section 1002, subsection 2 and amend subsection 1; delete section 1003 subsection 2 and amend subsection 1.
   • Retain specific tax revenue dedications to Adult Use Marijuana Public Health and Safety Fund in bill (p. 58-59). All other tax revenue goes directly to General Fund.

21. Include provisions to allow for limited plant sales between dispensaries/registered caregivers and adult use cultivators who are also dispensaries or registered caregivers.

   • Sale of plants and seeds only (no harvested/processed marijuana, marijuana concentrate or marijuana products).
   • Sale is a taxable event on which applicable excise tax under MLA must be collected.
   • For a two year period starting on the date that DAFS issues the first “active” cultivation facility license (DAFS to post notice of this start date), the initial active license provided to an adult use cultivator that is also a dispensary or registered caregiver must provide authorization for the cultivator to purchase plants and seeds from a dispensary or registered caregiver in a single sales transaction only.
     o The authorization is limited to the term of the initial active license (one year) and the adult use cultivator is limited to a one-time purchase of plants and seeds from a dispensary or registered caregiver (i.e., cannot purchase from multiple dispensaries or caregivers and cannot purchase in multiple transactions from a single dispensary or caregiver).
22. Remove all reference to social club operation, licensing and related provisions from bill.

23. Strike second paragraph from §110 (pg. 12, lines 20-22).

24. Strike second and third sentences from §104(3) (pg. 9, lines 19-26).

26. Add to the duties of the Marijuana Advisory Commission in §903 (pg. 56-57) language requiring the annual solicitation of public comment regarding police contacts with citizens involving the personal use of marijuana and marijuana products and home cultivation of marijuana and to include any resulting findings and recommendations in its annual report.

27. Tax structure and rates (sales tax and excise tax) Sec. 1001, pg. 57 and Part D, pg. 66.
   o Accepted proposal from DAFS/MRS to achieve 20% effective total tax rate that includes a 10% sales tax at the point of sale to a consumer and an excise tax imposed on wholesale sales by a licensed cultivator to another adult use marijuana licensee.

Consolidated Plan Overview and Status of Current Year Action Plan and Budget:
Yvette Bouttenot gave a brief overview of the goals developed in the 2015-2019 Consolidated Plan and covered the outcomes over the past three years.

Budget Review and Discussions:
Yvette Bouttenot reviewed the FY 2018 Community Development Block Grant/HOME Program Proposed Budget.

• Discussion:
Committee Member, Velma McConnell asked why there was a decrease from the 2017 CDBG Budget to the 2018 CDBG Budget. Yvette Bouttenot responded that the 2018 budget consists of the new allocation from HUD, projected program income and the carry-over funds.
Community Garden - Committee Member, Lance Gagne asked how the Community Garden activity was turned into a benefit to the community. Charise Heisey, St. Mary’s Nutrition Center, Community Garden Coordinator responded that the Community Garden on Webster Street serves about 20 people, the majority of which meet the low to moderate income guidelines. With guidance from the coordinator, the participants plant, tend and harvest their section of the garden providing fruits and vegetables for their family.

Pine Tree Society - Committee Member, Joe Gray asked what the Pine Tree Society/Career Development Services is. Yvette Bouttenot responded that the program is to assist individuals aged 16 and older, with developmental disabilities, gain employment skills, secure and retrain for employment opportunities and be more economically independent and engaged in the community.

477 Minot Avenue Project - Committee Member, Joe Gray commented that the low-income housing project, Workforce Development Housing on 477 Minot Avenue should have been put in a more accessible location due to the targeted population not having vehicles to access grocery stores, services, etc. Yvette Bouttenot responded that the location is on the public transportation system route.

Community Concepts CPP - Committee Member, Belinda Gerry recommended if Community Concepts loses state funding for the Community Partnership for Protecting Children (CPPC) program, the CDBG allocated funds should be applied to Recreation Scholarships and possible some toward Auburn PD/Work with ME program.

Recreation Scholarships - Committee Member, Joe Gray expressed that scholarship funds should be coming out of the City Budget, that is what a Recreation Department is for.

Police Department Work with Me - Committee Member, Joe Gray expressed that we should not be giving the Police Department to do social work, we should be giving Social Service Agencies the funds to do the social work. Committee Member, Velma McConnell expressed that in social situations the police would likely be involved, and she feels they should get funding, however the amount they are receiving is in question and maybe some of the other programs could use the funding for more outreach and visibility.

Head Start - Committee Member, Joe Gray asked if it was possible to give Head Start more money. Yvette Bouttenot responded that to do that, due to the cap the program is able to give to public service agencies, money would have to be taken from another program.
Committee Member, Joe Gray asked if the Code Enforcement line under the CDBG Budget could be moved to the HOME Budget. Yvette Bouttenot responded that was not an eligible expense under HOME. Committee Member, Joe Gray then recommended that line be put back into the City Budget. He also expressed that this money is to help fund low income individuals in the City not to fund City positions.

Committee Member, Rick Whiting made a recommendation that future funding for Code Enforcement should be put into the City Budget.

Motion made by Committee Member, Joe Gray to accept the budget as presented, seconded by Committee Member, Belinda Gerry.

Vote: 7-0-5 Kellie Flynn Aiken, Ernestine Gilbert, Larry Pelletier, Therese Smith and Mitch Thomas absent

BUDGET DESCRIPTIONS

STRATEGY: SUPPORT FAIR HOUSING AND INCREASE HOUSING CHOICE
Build a Fair Housing Website Page to disseminate information to landlords and tenants about
the rights and responsibilities of each party and the means for assistance in the event of a
problem.

1. Fair Housing
   Proposed Budget: $4,000

   Description: Update the Analysis of Impediments to Fair Housing (AI) and
   implementation of identified Fair Housing strategies identified in the report.

   The Cities of Auburn and Lewiston will be undertaking fair housing activities to raise
   awareness of Fair Housing Laws. The Analysis of Impediments to Fair Housing Choice
   Report (AI) completed in 2013 identified activities to be undertaken in first four years. In
   2018 the Cities were to begin work on the Fair Housing Assessment Planning Tool (FHP)
   however HUD has delayed this requirement until 2020. The Cities need to be pro-active
   and in lieu of the more extensive FHP updating the current AI is advised. The cost can
   be shared by both Auburn and Lewiston Community Development and the Housing
   Authorities.

   Anticipated Outputs: Update to the 2013 Impediments to Fair Housing Plan and
   identify Fair Housing Activities to be undertaken in the next 4 years.

STRATEGY: PROMOTE JOBS AND DEVELOPMENT

Assist small businesses to start up, succeed and grow through

- Loans to upgrade and adapt buildings in target areas; and
- Loans to support job creation for low-income people anywhere in the City.

2. Economic Development Programs
   Proposed Budget: $150,000

STAR Program (Storefront Traffic Accelerates Revitalization)
Description: Funds will be used to provide loans to businesses and property owners for
building renovations in the Union Street, Downtown, and New Auburn Target Areas.
This program helps to create jobs and will encourage the redevelopment of vacant
storefront properties. Funds will be used to provide forgivable loans to expanding
businesses or to business start-ups. Funds can be used for working capital, equipment or
inventory purchase, or building improvements. The program will help to create jobs in
the community, primarily benefiting low- and moderate-income persons.

Anticipated Outputs: 3 Business Loans
STRATEGY: PREVENT DETERIORATION OF HOUSING STOCK

- Provide grants, deferred loans, and low-interest loans for the rehabilitation of owner and rental housing that is occupied by low and moderate-income households;
- Provide matching funds to the 3-year federal grant to reduce childhood lead poisoning;
- Provide Community Development staff support to the Lewiston-Auburn Lead Subcommittee to assist with implementation of the 5-Year Strategic Action Plan for the Reduction of Childhood Lead Poisoning in the Cities of Auburn and Lewiston.
- Financially support code enforcement activities that result in improvements to the housing stock
- Provide financial assistance to encourage exterior as well as health and safety improvements.

3. Rehabilitation Loan Program
   Proposed Budget: $148,629
   Project Delivery Costs: $93,000

Description: Funds will be used to provide loans under the Rehabilitation Loan Program to upgrade residential buildings, increase curb appeal, address code violations, weatherize homes, and to provide a loan match to the Lead Hazard Reduction Grant. The Rehabilitation Program helps to maintain and upgrade the quality of housing, particularly in targeted areas and assists low-income property owners and investors to address housing problems. The program also helps to increase or stabilize the tax base, provides an economic stimulus for contractors and suppliers, eliminates lead hazards, and prevents properties from becoming blighting influences in the more densely populated neighborhoods.

The Project delivery costs covers staff salaries, benefits, supplies and equipment to implement the program. This does not count against the Administrative Cap.

Anticipated Outputs: 4 units: health and safety repairs
   3 units: with whole house/curb appeal improvements
   2 units: with lead paint problems eliminated
   4 units: repairs of code enforcement violations

4. Lead Testing and Clearance
   Proposed Budget: $5,000

Description: Funds will be used to cover the cost of performing lead clearances in buildings that have been rehabilitated with federal funds. These funds will be used only for projects where there are no Lead Grant funds involved. All rehabilitation projects must now comply with strict lead requirements to reduce the hazards caused by lead-based paint. One of the requirements imposed by Title X is that a property that is rehabilitated with federal funds must be lead safe that is documented through a clearance
test. These funds pay for the contractor to take samples and have the sample analyzed by a certified lab.

Anticipated Outputs: 15 lead tests

5. Community Concepts, Inc. Weatherization
   Proposed Budget: $53,950

   Description: Funds will be used to weatherize homes and pay for a portion of the program salary expense. This weatherization program includes wall, ceiling and basement insulation, caulking windows and doors, etc. An assessment is done to determine payback and only improvements which have a reasonable payback are undertaken. This program leverages an amount that is greater than our CDBG investment through a Department of Energy grant. These funds would not come to our community without the CDBG match.

   Anticipated Outputs: 13 units weatherized

6. Code Enforcement
   Proposed Budget: $50,000

   Description: Funds will be used to cover salary costs for a Code Enforcement officer of the City of Auburn. Code enforcement efforts will be directed in three target areas, Downtown, New Auburn and Union Street. The focus of the code enforcement effort is to control vacant and dangerous buildings, nuisance complaints, and to expand code enforcement efforts to improve the overall condition of the housing stock. This will include coordinating building improvements, some of which will come through the City’s Rehabilitation Program.

   Anticipated Outputs: 100 buildings inspected
   25 buildings with health/safety violations repaired/private funds
   3 buildings with health and safety violations repaired/public funds

7. Community Gardens
   Proposed Budget: $8,220 (2019 growing season)
   $7,000 (2018 growing season)
**Description:** Funds will be used to support a garden coordinator and a neighborhood garden champion for the Webster Street and the Newbury Street gardens for the season beginning in April 2019. Community gardens encourage people to improve their health, stretch their food dollars, learn about growing vegetables, and provide a place where neighbors can meet to engage in a positive way. The garden coordinator will be supervised by St. Mary’s Nutrition Center which will be considered an in-kind match. This allocation will count towards the Public Service Cap in the 2019 budget.

**Anticipated Output:** Support for Webster Street and Newbury Street Gardens

**STRATEGY: MAKE NEIGHBORHOODS STREETS SAFER AND MORE WALKABLE**

*Provide grants to Neighborhood Organizations and groups for projects that will enhance a neighborhood. The funds will be used for public infrastructure projects. This activity may also meet the previous strategy to improve parks and greenspaces.*

8. **Neighborhood Challenge Grants**

**Description:** Funds will be used in increments of $1,000 up to $10,000 to provide funding for projects that will enhance neighborhoods. Increased safety, beautification and improved parks are the goals. The budget amount of $25,000 will be awarded to applicants for projects of $1,000 or more. One $10,000 grant may be awarded. The funds will be used to close the street creating a safer green space in front of the PAL Center and a pedestrian friendly access to the “gully”. It will also provide additional parking.

RE: Massachusetts 83D RFP Evaluation

To the Selection Committee:

Androscoggin County Commissioners have recently learned the details of Central Maine Power’s Clean Energy Proposal, New England Clean Energy Connect.

Central Maine Power provides more than half of Maine with electric service and has a large footprint in Androscoggin County. We believe that as the electric utility industry faces changes, where competition is now part of the process, Central Maine Power’s experience delivering superior service to customers in Maine or elsewhere is what distinguishes this company.

New England Clean Energy Connect is a smart way to bring hydropower into Maine from Quebec, following along a route that is controlled by Central Maine Power, and then connecting into an existing transmission corridor that enters Androscoggin County from Somerset and Franklin Counties. By utilizing existing rights-of-way and investing in upgrades to transmission infrastructure that the New England electric grid already utilizes, Central Maine Power’s proposal appears to be a well-planned path to a clearer energy future for our region.

We see the economic benefits as something of great interest to Maine communities, and we also recognize the benefits that this project will bring to other parts of New England, including lower wholesale electric prices and a cleaner environment. These are all important to us, and we hope the Selection Committee will look favorably upon New England Clean Energy Connect.

Thank you for your interest and careful review of what Maine has to offer.

Sincerely,

Androscoggin County Commissioners

Central Maine Power Company

Greetings from Lewiston!

Central Maine Power (CMP) has long been a tremendous partner for Lewiston, and they consistently go above and beyond to communicate their plans and to solicit feedback. An example is how CMP has worked with us to improve the capacity, safety and reliability of power in both our urban core and industrial parks.

As we envision the future, clean power is critical to the industry and to maintaining quality of life in New England. The New England Clean Energy Connect is the long sought conduit to connect abundant clean energy with the markets that need them. CMP has embraced modernization and innovation and is ready to answer the call for a cleaner energy future. It is in this spirit that CMP proposed The New England Clean Energy Connect, and I am in full support.

As this project moves forward, I am confident that CMP will bring about exemplary results. When they decide to do something, there is no question that they do it extremely well. Thank you, CMP, for having a vision for Maine and New England.

Sincerely,

Robert E. Macdonald
Mayor of Lewiston

To the Massachusetts 83D RFP Evaluation Committee:

The Town of Jay, Maine is home to an existing Central Maine Power Transmission Corridor and we appreciate the good neighbor we have in this company. CMP is committed to providing its customers with excellent service, reliable power and they go out of their way to ensure safe practices. Our Town has historically been a large industrial energy user. However as the paper industry has changed we have seen the loss of one paper mill and the decline of a second. As recently as this week we received news of an additional paper machine with the associated equipment being permanently shut down. The loss in valuation along with the loss of jobs in our community has been a very real challenge for us.

Perhaps a bright light on the horizon is CMP’s proposal to Massachusetts to provide a significant amount of clean, renewable power from Canada and Maine in order for your state to better meet its required clean energy requirements. CMP’s proposal would go through our Town and this letter is to inform you that we are hopeful this opportunity becomes a reality.

Clean energy, investment in rural New England, innovation and enhanced technology, and connecting something as crucial as our electric grid throughout the region are all reasons for us to support CMP’s proposal. Of course we are also interested in the economic benefits that would flow to our part of Maine, the lower electric rates this proposal offers, the added jobs and the new tax revenue this project would bring to Jay.

We urge you to look favorably upon the proposal being submitted by CMP. Maine wants to be part of the future energy solution and our Town hopes to be a host community.

Sincerely,

Shiloh A. LaFreniere

NEW ENGLAND CLEAN ENERGY CONNECT

Governor Paul LePage, State of Maine

This project, which is scheduled to be completed in 2024, will bring clean, affordable, and reliable energy to homes and businesses in New England. It will also create new job opportunities and support the development of renewable energy sources.

For more information, visit the website at newenglandcleanenergyconnect.org.
"I am pleased to offer my support to Central Maine Power Company’s proposal to deliver clean renewable hydropower to New England... Diversifying our energy resources with firm dispatchable clean energy has been a priority of my administration since I came into office. Maine welcomes this leadership from the state of Massachusetts to offer competitively priced power into the new england market."

GOVERNOR PAUL LEPAGE, STATE OF MAINE
"The New England clean energy connect is a project Maine will support and we encourage Massachusetts to select it for the delivery of clean energy. CMP has secured a corridor from the Canadian border into the regional electric grid. The vision they had to assemble this strategic corridor is quite remarkable, and the communities and businesses along this route are enthusiastic about the opportunity it brings to Maine, and to the future of our region’s energy mix."

V. Unfinished Business

1. Order 31-03052018
   Authorizing the City Manager to hire an additional full time City Electrician.

---

Information: The City of Auburn’s charter allows the City Manager to transfer funds among programs within a department. Our current budget would cover the current year’s cost of the reinstated position. Our concern is being able to hire a qualified person without a guarantee of future funding for the position. We will be presenting the future funding of the position during this year’s budget process.

Please see the attached electrical staffing memo.

---

City Budgetary Impacts: Due to an extended hiring period for an open position in our department; our current budget would cover the current year’s cost; we believe that the reinstated position would have a minimal effect on future budgets.

Staff Recommended Action: Postpone the item indefinitely.

Re: Electrical Staffing

Date: March 15, 2018

As we mentioned at the February 26, 2018 council meeting; the Electrical Division is part of the Economic and Community Development Department. The Division is responsible for electrical permit inspections, electrical work in most city owned buildings, DigSafe compliance within the City, maintenance and installation of the municipal fire alarm service (private and City buildings), maintenance of city owned street lights, traffic signal maintenance and repair, electrical fire investigation and electrical code compliance. The electrical division will also soon be overseeing the City’s light conversion project.

In 2010, electrical division staffing was reduced from 3 to 2 staff persons. In 2016, the electrical division staffing was reduced to a single person, placing full responsibility of the above mentioned assigned duties onto one person twenty-four hours a day, seven days a week; this has placed the City at risk of not being able to meet basic electrical requirements for permitting and emergency response. Staff has proposed reinstating the second position in the FY19 budget.

The reinstatement of this position would give the Electrical Division a two-person staff that would allow the on-call time to alternate between the two positions and would provide coverage for vacations and sick days. The reinstated position would also reduce contracting or sourcing out other services and repairs. We have also been deferring maintenance on the current electrical infrastructure; this reinstated position would allow us to address some of the deferred maintenance and the negative results that always accompany it (the essential duties and responsibilities for this position are listed at the end of this memo).

The estimated cost of the reinstated position (based upon the actual cost of the position in 2015 plus COLA), would be $65,500.00 ($24-$25 per hour) including benefits. Due to an extended hiring period for an open position in our department; our current budget would cover the cost of reinstating this position for the rest of our fiscal year. The Economic and Community Development Department’s budget for next fiscal year is projected to decrease and our permitting revenue has been strong and should exceed projected revenues. We believe that by adjusting our delegated Review fees (please see State Delegated Review Fees council overview worksheet), that the reinstated position would have little or no effect on our FY 19 budget.

Currently, the City has an informal mutual aid agreement with the City of Lewiston; they charge us $49.00 per hour during regular business hours. Private contractors range from $65-$68 per hour plus $75 per hour for a bucket truck.
Emergency calls are also subject to time and one-half overtime rates. We do not have priority over other projects and/or emergencies and the coverage is only available if they can fit it into their schedules.

We have recently contacted surrounding neighboring towns and they do not have licensed electricians on staff that can do electrical maintenance work. They use contractors for work and do not have the infrastructure to justify full time employment; Lewiston and Bangor each have five full time electrical staff. We are also exploring with the School Department the possibility of sharing electrical services.

Essential duties and responsibilities of the position.

- Performs electrical maintenance duties on the City’s traffic signal system to include: checking and repairing traffic controllers and flashers, cleaning and repairing points, moving parts, light bulbs, wall lights, reflectors and lenses.
- Responds to citizen complaints about electrical problems, hazards, violations or dangers; responds immediately if necessary.
- Researches and makes recommendations regarding code-related questions at the request of the City Electrician, or members of the public.
- Keeps comprehensive maintenance records on all work completed.
- Maintains and installs the City fire alarm system to include overhauls, services and testing of fire alarm boxes, system, batteries and the 9-1-1 Communications system.
- Cuts and trims tree branches around fire alarm boxes, wires and traffic signals; replaces poles and damaged wires after storms, accidents and vandalism.
- Performs electrical maintenance and construction duties for the City to include tests, services and maintaining of fire horn, civil defense horn, emergency generators, 9-1-1 system, City electrical equipment including parking lot lights, street lights, bridge lighting and all wiring systems in City Buildings.
- Installs temporary power systems when necessary for special events.
- Assists with the installation of downtown holiday lights and other decorations.
- Repairs solid state electronics equipment including traffic signal controllers, timers, etc.
- Assists the Fire Department in investigations where electricity is involved.
- Performs On-Call duties.
- Communicates with other City departments when necessary to provide information, seeks information and responds to inquiries.
- Provides a safe work environment for the employee, co-workers, supervisors and the general public; adheres to all safety regulations, reports known safety hazards to supervisors and the Safety Coordinator.
- Works effectively and productively with supervisors, co-workers and the general public.

Recommended minimum qualifications and experience.

- High School diploma or equivalent.
- Two-year vocational training in electrical repair.
- Five years serving as an apprentice and as a journeyman electrician; or any equivalent combination of education and experience.
- Master Electrician’s License.
- National IAEI accreditation for electrical inspection and plan review, both general and residential.
- Maine Driver’s License or ability to obtain a Maine Driver’s License.
- Commercial Driver’s License (CDL) or ability to obtain a CDL.

RESOLVE 03-03192018

Resolution made by the City of Auburn, Maine
March 19, 2018

Whereas, the City of Auburn, Maine supports Central Maine Power’s efforts to bring clean energy into the New England electric system. CMP’s project, New England Clean Energy Connect, would bring benefits to our community, the state of Maine, electric customers in Massachusetts and clean air benefits to all of New England, as this region of the country works to install cleaner energy for our future.

Whereas, Central Maine Power is a reputable, experienced electric utility serving hundreds of thousands of households and businesses in Maine. Their track record for building, maintaining and upgrading the electric system has been excellent. We appreciate CMP’s efforts to provide safe and reliable power to the people of the City of Auburn.

Whereas, The New England Clean Energy Connect is a worthy project – following an existing transmission corridor and tapping into a very substantial hub in the New England Grid, namely Lewiston, Maine. The facility in our neighboring City of Lewiston was a recent addition to the regional system, and a facility in which all of New England has invested. It is wise to leverage this investment as the New England grid continues to evolve and include new sources of clean power.

Therefore, be it resolved that the Auburn City Council hereby supports Central Maine Power Company’s New England Clean Energy Connect project.

REF: February 2018 Financial Report
DATE: March 14, 2018

The following is a discussion regarding the significant variances found in the City’s February financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City’s financial results and does not attempt to explain any variances for the School Department.

The City has completed its eighth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 66.7% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

**Revenues**

Revenues collected through February 28th, including the school department were $51,095,595 or 61.21%, of the budget. City Council Information Sheet

Council Workshop or Meeting Date: March 19, 2018

Subject: Executive Session

Information: Discussion regarding a personnel matter, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
   (1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual’s reputation or the individual’s right to privacy would be violated;
   (2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
   (3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
   (4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present.
   This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
   (1) The student and legal counsel and, if the student is a minor, the student’s parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body’s or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined;

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.
