Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
   (1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual’s reputation or the individual’s right to privacy would be violated;
   (2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
   (3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and

Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body’s or agency’s counsel to the attorney’s client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

Larry Pelletier, 129 Second Street commented on the CIP (Capital Improvement Program) discussion and including facilities maintenance in the CIP.

Earl Bickford (New Auburn resident), and his daughter Audrey Tripp (40 Merrow Road) spoke. They reported on a recent incident where they received written approval by staff in the Economic and Community Development office that they would be allowed to keep Nigerian Dwarf Goats at their home (single family dwelling with less than one acre of land) and after purchasing them, they were told by the Animal Control Officer that they could not keep the goats due to a local ordinance that is in place and were given seven days to remove the animals. Mr. Bickford requested first, that this order to remove the goats be held until the matter is looked into and the ordinance is reviewed. Second, he asked the City Council to review and consider amending the local animal ordinance (to treat certain animals currently looked at as livestock as pets). Third, if Council decides not to amend the ordinance, accept responsibility and make this right by making an exception and allowing his daughter to keep the goats since it was a mistake of the City when they were given the written approval by staff.

Subject: Text Amendment for the Adaptive Reuse of a Structure of Community Significance

Information: Currently, certain buildings of a historic, social or culturally significance are prevented from redevelopment or re-use due to existing zoning restrictions. This text amendment would allow the Planning Board to consider making the Adaptive Reuse of Structures of Community Significance to become a Special Exception and allow qualifying structures to be adapted to be reused in ways that the zoning ordinance does not normally allow. The text amendment also includes a provision to waive the application fees.

Advantages: This text amendment would further the objectives of the Comprehensive Plan, prevent demolition of structures that do not function under current economic or regulatory conditions, protect and preserve our community’s cultural and historic character and bring important unused buildings back into productive use.

Disadvantages: A Special Exception must meet 7 criteria in order to be approved by the Planning Board. Any applicant will have to prove that the Adaptive Reuse will not be detrimental to the surrounding area and neighborhood.

City Budgetary Impacts: Waiving application fees for a Special Exception ($500) is a minor loss of city revenues when compared to increased tax revenues and putting a non-productive property and structure back into use for the community.

Staff Recommended Action: Staff recommends APROVAL.

Previous Meetings and History: The Planning Board worked on the first draft for over a year (2015-2016). The new, second draft was worked on by the Planning Board for 3 meetings in 2016. The Planning Board scheduled a public hearing for Tuesday, March 14, 2017, which was cancelled due to the weather and was held on, Tuesday, March 21, 2017. Public hearing and passage of first reading held on April 3, 2017.

RE: Ordinance Revisions: Adaptive Reuse

The Challenge.

As the Planning Board knows, the City’s zoning ordinance has, in some instances, frustrated efforts to convert historic structures to new uses. Special buildings that have served important roles in the community are in danger of being demolished because of use restrictions. This can require property owners or prospective property owners to incur expense and uncertainty. To reduce these barriers and to increase the likelihood that Auburn’s historic buildings will be preserved and put to productive use, City staff have proposed amending the zoning ordinance to allow for the Planning Board to grant a special exception, allowing qualifying structures to be adapted for new uses that, while not expressly permitted by the permitted uses of their zone, are deemed to be in furtherance of the objectives stated in the City’s Comprehensive Plan adopted April 11, 2011 (the “Comp. Plan”).

Based on the Planning Board’s discussion at their December 13, 2016 and January 10, 2017 meetings regarding Adaptive Reuse, the Staff is submitting this revised text amendment, as well as additional considerations for the Board to discuss.

Justification for Adaptive Reuse Exception: Preserving Auburn’s History and Culture.

Preserving Auburn’s history and culture has long been a City planning priority, as stated in the Com. Plan’s policies designed encouraging the preservation of historically significant properties.

Historic and Archeological Policies:

Goal D.1: Preserve Auburn’s history by maintaining and enhancing historic and archeologically significant sites and structures throughout the community.

Comp. Plan at 29.
**Objective D.1.1.:** Strengthen efforts to identify, protect, and preserve all local, state, and federally significant historic buildings, features, and sites throughout Auburn.

Comp. Plan at 30.

**Strategy D.1.1.d:** Review and update the historic resource standards in the City zoning ordinance that are used in the review of development applications. The review should include an analysis of the preservation tools available that could help enhance the protection of historic properties throughout Auburn. The City should implement those preservation tools that protect historically significant buildings without placing undue burdens or costs on property owners.

Comp. Plan at 30.

It is therefore appropriate for the Planning Board to consider ways to increase the likelihood that historically significant buildings will be saved from the wrecking ball. The preservation of these buildings can have multiple positive benefits:

- **Environmental:** Preservation is a sustainable action, one that conserves energy. Demolition and new construction requires large amounts of energy but also destroys the past energy investment in the building.

- **Cultural:** By preserving historic or iconic structures, we are able to share and reuse the very spaces and environments in which the generations before us lived. Preservation is the visual and tangible conservation of our cultural identity.

- **Economic:** Preserving older buildings can be a foundation of economic development programs. Special buildings of community significance can help create vibrant, cultural downtowns and neighborhoods that draw tourism, art, festivals, and other activities which in turn draw investment, revenue, and economic growth.

The Saint Louis church is one, but not the only, example of a structure of historic and cultural significance, whose reuse has proved challenging under our existing ordinance. After serving as the Catholic Church in New Auburn for close to 100 years, the Diocese closed the church due to low attendance, and the building was sold to a local group looking to find other productive uses for it. However, the activities currently permitted in the Multi-Family Urban Zone in which the building is located have frustrated the new owner’s attempts to find a new use for this property.

**The Proposed Solution:**

The Planning Department proposes creating a new special exception category that would allow the owner of a qualifying property to petition the Planning Board, through the existing site plan review process, to obtain a special exception to the uses that are customarily permitted in the zoning district where the property is located. This would allow the Planning Board to
consider each request on a case-by-case basis, and determine whether the structure is of such historical or cultural significance that its permitted uses should be broadened in order to facilitate the building’s preservation and reuse. As presented here, a property owner would be required to pay the customary site plan review fees and submit the customary supporting information and documents about the property. See Sec. 60-1278 (site plan review is required for all special exception requests). As you know, site plan review can entail submission of a detailed file, including plans and detailed descriptions of the proposed reuse. Sec. 60-1300, Sec. 60-1301. A fee of $500 is also assessed. Auburn Maine Code of Ordinances, Appendix A.

We suggest adding two definitions in Section 60-2 of the zoning ordinance: (1) a Structure of Community Significance, and (2) Adaptive Reuse, defined as follows:

Structure of Community Significance means a Building that by virtue of its historic, social, cultural or economic contribution to the community, as determined by the Planning Board, is entitled to a Special Exception allowing its Adaptive Reuse. The Planning Board may consider a Building’s age, as well as any evidence of its role in the historic, social cultural, or economic history of the community, in determining whether a Building qualifies for this designation.

Adaptive Reuse means a Special Exception permitting a Structure of Community Significance to be used for one or more purposes, not otherwise permitted in the District in which the Building is located, but which the Planning Board has determined will contribute to the preservation of a Structure of Community Significance, including without limitation, the following uses:

a) Bed and breakfast homes or inns;
b) Restaurants, diners or cafes;
c) Art studios and galleries;
d) Performing arts centers;
e) Medical and dental clinics;
f) Office space;
g) Municipal and government uses; and
h) Retail sales as an accessory use.

Once these definitions are added, they could then be incorporated into the list of Special exceptions permitted in any District that you deem appropriate. This can be done in two ways. The first would be to add Adaptive Reuse of Structure of Community Significance as a special exception in the Low Density Rural Residential zone. By reference, this would also allow the
special exception to be made in additional zones that incorporate those special exceptions that are permitted in the Low Density Rural Residential zone (which are the Suburban Residence, Urban Residence, Multifamily Suburban, and Multifamily Urban Districts). This approach requires fewer revisions to the ordinance. However, some readers who are less familiar with our ordinance and its cross references, may find it burdensome to trace this exception though its numerous cross-references. Therefore, a second approach, would be to simply add Adaptive Reuse of a Structure of Community Significance, to the list of Special Exceptions in each additional District where you wish to make it available.

Finally, we wish to raise two aspects of the Site Plan process that may be seen as hindrances to redevelopment of historic structures. While the Planning Board may already waive the file submission requirement (Sec. 60-1302), it does not have the discretion to waive the filing fee (cite). In light of these expenses, which developers of historic properties may not feel go far enough in encouraging reuse of historic properties whose upkeep and repair may already be quite expensive, the Board may wish to consider a reduced Site Plan Review fee as part of this process, or proposing a section that would expressly allow the Planning Board to waive the site plan review fee for adaptive reuse applications on a case by case basis, just as the Board may waive the requirement to submit a detailed site plan review file. This could be done by revising the fee schedule in Appendix A to the City’s ordinances, to insert a reduced or modified fee for Adaptive Reuse applications.

Attached for your review are the following:

**Exhibit A:** The existing definitions section of our zoning ordinance, illustrating the two proposed additions in redline.

**Exhibit B:** The existing Low Density Rural Residence District section, contained in Article IV, Section 4, of the ordinance. The proposed addition is in redline.

**Exhibit C:** Proposed revision to Section 60-1302, to authorize the Planning Board to waive site plan review fees for Adaptive Reuse applications.

---

1 We assume that the existing permitted uses in the other zones would either be flexible enough to accommodate the reuse of culturally significant structures, or that there are insufficient structures for this to be a concern. We recommend that the Board explore this issue during its deliberations and public comment sessions, to see whether this is the case.

PLANNING BOARD REPORT to the CITY COUNCIL

To:  Mayor LaBonte and Members of the Auburn City Council

From:  Douglas M. Greene, AICP, RLA

Re:  Text Amendment for Adaptive Reuse of a Structure of Community Significance

Date:  April 3, 2017

SUMMARY - On March 21, 2017, the Auburn Planning Board held a public hearing and made a recommendation on a Zoning Ordinance Text Amendment for the Adaptive Reuse of Structures of Community Significance. The meeting consisted of a staff presentation, discussion by the Planning Board, public comment from 1 person during the public hearing, and then discussion.

PROPOSAL - Currently, certain buildings of a historic, social or cultural significance are prevented from redevelopment or re-use due to existing zoning restrictions. This text amendment would allow the Planning Board to consider making the Adaptive Reuse of Structures of Community Significance a Special Exception, which would allow qualifying structures to be adapted and reused in ways that the zoning ordinance does not normally allow, provided specific criteria are met. The text amendment also includes a provision to waive the development review application fees.

PLANNING BOARD MEETING - The Staff presented a report at the Planning Board’s March 21st meeting that included how the proposed text amendment complies with the Comprehensive Plan, the proposed changes to the Zoning Ordinance that included adding 2 new definitions (Adaptive Reuse and Structures of Community Significance) and the addition of Adaptive Reuse of Structures of Community Significance to Special Exceptions in the Rural Residential District. The Planning Board discussed a recommendation from the City Council to include the Adaptive Reuse of Structures of Community Significance as a Special Exception to every zoning district, to which the Planning Board agreed and included in its motion. The final part of the text amendment would give the Planning Board the ability to waive the development/site plan review fee of $500 to Adaptive Reuse applicants.

PUBLIC HEARING – Pastor Clint Robinson, of Auburn Baptist Church, located at 227 Poland Road spoke in favor of the text amendment and said it would be a “win win” situation for the city and churches like Auburn Baptist Church.
PLANNING BOARD DELIBERATION AND RECOMMENDATION - The Planning Board strongly supported the text amendment and discussed whether to place the Special Exception for the Adaptive Reuse in the Low Density Rural Residential District and all other residential districts or to simply include it in every zoning district. After some discussion, the Board agreed it would be helpful to include all the zoning districts so not to exclude any potential candidate for an Adaptive Reuse.

The Planning Board voted 5-0 (Cyr, Poliquin-Pross absent) to forward a recommendation of Approval to the City Council to amend the Auburn Zoning Ordinance, Section 60-2 Definitions by adding Structures of Community Significance and Adaptive Reuse, adding Adaptive Reuse of Structures of Community Significance as a Special Exception to every zoning district in the Auburn Zoning Ordinance, and amending Section 1302, Exemption for information, Fee Waiver.

**2015-2019 CONSOLIDATED PLAN**

In 2015 the City of Auburn adopted the 2015-19 Consolidated Plan. The Consolidated Plan identifies many of the community’s issues, establishes priorities, and describes how Community Development resources will address these needs. This Consolidated Plan sets forth goals, objectives, and performance benchmarks for measuring progress, and establishes a framework for assessing the programs and projects Auburn will make available for revitalization.

**GOALS OF THE 2015 TO 2019 CONSOLIDATED PLAN**

These are what the Auburn Community Development program intends to work towards and the measurable outcomes that will be accomplished in this five year period:

2017 FUNDING

This plan is built on a budget based on previous year funding levels until allocations are announced by HUD. A contingent budget based on a 10% decrease is also proposed. Funding for the Community Development Program is primarily from two sources, Community Development Block Grant and HOME Investment Partnerships Program funds. These are entitlement grants which means the City will receive these each year.

The following is a summary of anticipated resources for the period July 1, 2017 to June 30, 2018.

*Congress has not completed the appropriations process for HUD’s FFY2017 appropriation and HUD cannot predict when the FFY2017 bill will be enacted and when the Grantee allocations will be announced. HUD advises grantees not to submit the Annual Action Plan until after FFY2017 allocations are announced. An affected grantee may delay submission of its action plan to HUD by up to 60 days after the date allocations are announced. In order not to delay the beginning of its 2017-2018 program year any more than necessary the City of Auburn is following this plan:
   - Adhere to normal schedule through May 15, 2017;
   - Build the plan on flat funding from previous year allocation with a 10% reduction option. If cuts exceed a 10% reduction budgets will be proportionally increased or decreased to match actual allocation amounts.

Community Development Block Grant Funds: The proposed budget for 2017 is $760,918 from the following sources of Community Development funds. A 10% reduction in funding levels would mean an allocation of $460,620:

   Anticipated Community Development Grant $511,800 *
   Anticipated Program Income 238,000
   Carry Over Funds 11,118

HOME Funds: The proposed budget for 2016 is $684,190 from the following sources of HOME funds. A 10% reduction of funds would mean an allocation of $151,495:

   Anticipated HOME Grant $168,328*
   Anticipated Program Income 124,000
   Carry Over Funds 391,862
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

TO: Peter Crichton, City Manager
FROM: Jill Eastman, Finance Director
REF: March 2017 Financial Report
DATE: April 11, 2017

The following is a discussion regarding the significant variances found in the City’s March financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City’s financial results and does not attempt to explain any variances for the School Department.

The City has completed its ninth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 75.0% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

**Revenues**

Revenues collected through March 31st, including the school department were $64,326,578, or 79.88%, of the budget. The municipal revenues including property taxes were $49,086,522, or 85.46% of the budget which is more than the same period last year by $1,540,911. The accounts listed below are noteworthy.

A. March 15th the second installment for real estate taxes were due. The City collected $13,977,384 in the month of March.

B. Excise tax for the month of March is at 84.85%. This is a $117,029 increase from FY 16. Our excise revenues for FY17 are 9.85% above projections as of March 31, 2017.

C. State Revenue Sharing for the month of March is 71.81% or $1,054,377. This is a 3.37% decrease from last March to this March.
**Expenditures**

City expenditures through March 2017 are $28,060,266 or 70.53%, of the budget. Noteworthy variances are:

A. Transfer to TIF: Last fiscal year the transfer from the General Fund to the TIF Funds was done in March, this transfer will be made in April.

B. The Health and Social Services budget is currently at 94.22% of the total budget.

**Investments**

This section contains an investment schedule as of March 31st. Currently the City’s funds are earning an average interest rate of .68%.

Respectfully submitted,
