

**Auburn-Lewiston Municipal Airport
Auburn, Maine**

Auburn-Lewiston Municipal Airport is accepting applications for the following positions:

Customer Service Representative: This is the entry and trainee level of the Customer Service Representative series. Under immediate supervision, Customer Service Representatives learn operations procedures for aircraft fueling and other equipment, acquire a working knowledge of the rules and regulations related to airport and aircraft operations, and are trained in airport safety and emergency response procedures. May be asked to work nights, weekends, holidays, and irregular shifts.

Aircraft Line Service Technician I: This is the entry and trainee level of the Line Service Specialist series. Under immediate supervision, Line Service Technicians I learn operations and maintenance procedures for aircraft fueling and other equipment, acquire a working knowledge of the rules and regulations related to airport and aircraft operations, and are trained in airport safety and emergency response procedures. May be asked to work nights, weekends, holidays, and irregular shifts.

Airport Operations Specialist I: This is the entry and trainee level of the Airport Operations Specialist series. Under immediate supervision, Airport Operations Specialists I learn operations and maintenance procedures for airport facilities and equipment, acquire a working knowledge of the rules and regulations related to airport and aircraft operations, and are trained in airport safety and emergency response procedures. May be asked to work nights, weekends, holidays, and irregular shifts.

Aircraft Line Service Technician II: This is the fully experienced journey level class in the Airport Line Service Technician series. Under general supervision, incumbents independently perform a wide variety of day-to-day aircraft service operations and maintenance duties using airport facilities and equipment, and may be called on to provide emergency crash, fire, and rescue services. May be asked to work nights, weekends, holidays, and irregular shifts.

Airport Operations Specialist II: This is the fully experienced journey level class in the Airport Operations Specialist series. Under general supervision, incumbents independently perform a wide variety of day-to-day airport operations and maintenance duties on airport facilities and equipment, and may be called on to provide emergency crash, fire, and rescue services. May be asked to work nights, weekends, holidays, and irregular shifts.

Airport Operations Supervisor: An Airport Operations Supervisor will, under general direction, plan, organize, coordinate, supervise, and evaluate the operations and maintenance of the Auburn-Lewiston Municipal Airport. The position responds to inquiries, suggestions and complaints from users and the community regarding airport operations, takes steps to ensure that Auburn-Lewiston airport and FAA rules and regulations are followed, and coordinate training of and maintain accurate training records for all subordinate employees. May be asked to work nights, weekends, holidays, and irregular shifts.

Aircraft Line Service Supervisor: The incumbent supervises, directs, trains, and coordinates line service technicians and activities related to the fueling and handling of aircraft at the Auburn-Lewiston Municipal Airport. May be asked to work nights, weekends, holidays, and irregular shifts.

Concierge: As the Airport Concierge you will Perform and/or participate in a wide variety of aircraft servicing, ground handling and related aviation and airport service activities to provide complete, safe, efficient and high quality support to aircrews, passengers, airport tenants, and others using Auburn-Lewiston Airport. You will be expected to learn about and know a wide variety of tourism activities. You may be asked to work nights, weekends, holidays, and irregular shifts.
