6. **PUBLIC HEARING/ TEXT AMENDMENT:** Consider adding Sec. 60-1383. Effective Date and Applicability Date of Ordinance #26-11202023. This text change would delay the applicability date of amending approximately 60 acres in parts of Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district until July 1, 2024. City Council has proposed this text change to allow residents and the City Council time to determine whether additional amendments related to this item are desirable. The proposal was initiated by the city and is pursuant to Chapter 60, Article XVII, Division 2 Amendment to the Zoning Ordinance or Zoning Map.

Board Summary: Stacey LeBlanc summarizes the process in which the Planning Board went through to come to their decision on this recommendation for a zoning change and recommends that the board postpone this decision until they receive a more detailed request from City Council on why they are asking for a delay in applicability date.

Staff Report by Eric Cousens. Staff explains that the City Council has some concerns over some of the approved uses in the General Business zone and how that relates to the protection of Lake Auburn. John Blais emphasizes that this is not a request to change the zone, but an opportunity to provide more time to plan thoroughly in preparation for this change.

Dave Trask asks whether the process which the Planning Board followed on this specific topic followed protocol and had sufficient time for review and public comment and staff indicated that it did follow the proper protocol.

Ryan Smith asks staff for the reason why staff recommends the motion to postpone the applicability date. Eric Cousens indicated that the Council asked for this date change in order to work with the applicant and the council to find a common ground plan for future use and development.

Stacey LeBlanc expresses concern over providing a delay without understanding the areas of concern by the council or what the proposed changes would be to the zone change.

Motion to Open Public Comment: Tim Deroche, **Second:** Dave Trask, **Vote:** 7-0-0 **Motion Carries**

Steven Beal - 575 Johnson Road: Explains that some of the concern about this particular parcel is the complexity of the types of soils and elevation variations within the lot. Furthermore, there are more acceptable uses in General Business than uses that require special exception. For these reasons, Mr. Beal expresses that the Council has a desire to have more time to consider the applicant's plan.

Motion to Close Public Comment: Dave Trask, **Second:** Riley Bergeron, **Vote:** 7-0-0 **Motion Carries**

The board expresses concern over creating limitations on zoning uses in order to support or exclude specific developers. Stacey LeBlanc indicates that by choosing General Business zoning allows the city to have some control over what development can replace the gravel pit with something that would help to protect Lake Auburn. Paul Jacques doesn't want to set a precedent that the Planning Board and Council are wishy-washy on zoning changes.

Motion: To Postpone Agenda Item #6 to a date certain of the regularly scheduled meeting on April 9th in order to hear further details from the Council on their request to delay the applicability date: Dave Trask **Second:** Tim DeRoche, **Vote:** 5-2-0 **Motion Carries**
