RE: Auburn Form Based Code Draft

As discussed at your February 10, 2015 meeting, a work session is scheduled for Monday, February 23rd at 6 pm in the Community Room, 2nd floor of Auburn Hall. The purpose of the work session is to continue your review of the Draft Form Based Code for Downtown Auburn and New Auburn. The draft you are receiving has been re-structured to combine the Development Zone Details and Development Standard Panels based on Transect type.

Alan, Eric and I look forward to hearing your questions, comments and concerns at the work session next Monday night. Please call me if you will not be able to attend.
