RE: July 28, 2015 Work Session

For the July 28 work session, you'll find in this mailing:

1. A new draft of the Form Based Code that has been revised as per some of your comments at the June work session. Also included is a preliminary Administration Section.
2. A clean copy of the current zoning uses and an overlay map for item 2 on the agenda. One work session goal is to finish the use and parking discussion for Transects 5.1, 5.2 and 6.1

Please review these materials and be ready to discuss at Tuesday's meeting. As always, please let me know if you will not be able to be at the meeting.
