

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend the Agricultural/Rural zoning portion of the zoning ordinance to allow for a residential unit to be transferred from the residentially zoned portion of a parcel to the Agriculture/Rural portion, where a parcel that is located in the Agriculture/Rural District land also includes residentially zoned land. New development would be allowed in this area understanding that the current AG/RP zoning of one unit per 10 acres would be maintained. Also the "best management practices" for storm water management and environmental protection would be maintained to ensure adequate protection of natural resources to ensure that the relocation does not negatively impact natural resources or the agricultural potential of the land. This proposed change would require the land in the residential zone from which a residential unit is transferred to be permanently protected from development through a legally binding preservation measure, such as a conservation easement.

This petition refers to the proposals stated in the "Future Land Use Plan, Agricultural/Rural District (AG) section" of the City of Auburn Comprehensive Plan: 2010 Update and the attached proposed text amendment.
