Conditions of Approval

General Conditions:

1. Fill permits expire one (1) Year after the Approved Date. All permanent stabilization measures must be in place prior to the expiration of the permit. Fill permits can be renewed upon request and review prior to their expiration date. Additional fill areas will require new applications.
2. All fill material shall be inert fill defined as: Clean Soil Material, Rocks, Bricks, and Cured Concrete which are not mixed with other solid or liquid waste, and which are not derived from an ore mining activity. Stumps, trees and brush may be utilized if they originate from the same parcel and if the fill area is less than one (1) acre. Pavement is not an inert fill material.
3. Existing drainage of streets and abutting property must remain unaffected. Existing drainage structures and patterns shall not be changed nor altered unless approved by the City Engineer.
4. All filling, including side slopes must not extend beyond the approved fill area. Side slopes must be graded no steeper than 2.5 horizontal to 1 vertical, anticipating any final settlement or slumping.
5. Temporary erosion control methods, to prevent disturbed soils from leaving the approved fill area, should be placed prior to the filling operation and maintained until the site is stabilized.
6. All applicable Federal and State and Local permits need to be secured prior to any fill placement. All applicable Federal, State and Local regulations must be complied with.

Specific Conditions:

I agree to comply with the above conditions. Failure to comply with these conditions or any provisions of the Fill Permit Standards Ordinance will subject me to the enforcement procedures defined in the Fill Permit Standards Ordinance.

Disclaimer of City Placed Fill

I, _____, being the owner of this parcel of land located in Auburn, Maine, and having acquired all the necessary Federal, State and Local permits to place fill material on said land, do hereby accept all responsibilities for said fill materials placed there by the City of Auburn.

It will be the sole responsibility of said land owner to level, grade, ditch, drain, or otherwise shape, stabilize, and rehabilitate said fill materials in such a manner that is acceptable to all conditions set forth in this fill permit application.
