

Directions:
From Route 4 (Turner/Auburn): Follow Center Street to Turner Street. Turn left onto Court Street (near the courthouse); and at the end of the bridge in Lewiston, turn right onto Lincoln Street. *Lincoln Street becomes River Road (at 1.9 miles). Continue on River Road; take a sharp right to continue on River Road at the Alfred A. Plourde Parkway/River Road intersection. The Depot will be on your left.*

From Route 126 (Sabattus): Take the Maine Turnpike to Exit 80 (Lewiston). At the end of the exit ramp, turn left onto Alfred A. Plourde Parkway. Turn left onto River Road. The Depot will be 1/2 mile on your left.

From Route 26 (Norway/Paris): From Route 26, take Route 121 in Welchville through Mechanic Falls to Minor Avenue in Auburn (still Route 121). At the second light (Rite-Aid/Irving intersection), turn left onto Court Street, go through downtown Auburn across the bridge into Lewiston and turn right onto Lincoln Street. Proceed as from Route 4 above.

Every year, homeowner projects generate waste materials that are toxic to humans and hazardous to the environment. In the past, getting rid of these products has been a challenge; residents in Western Maine had to wait for the once-a-year household hazardous waste collection. Now, with the opening of the Western Maine Environmental Depot, access to disposal is greatly enhanced. The Depot, located at 424 River Road in Lewiston, will be open the 1st and 3rd Saturdays of every month from May through November from 8 a.m. to noon (excluding holiday weekends).

For more information, visit
www.avcog.org
or call 783-9186.

*Construction of the Environmental Depot
was made possible through a grant
from the Maine State Planning Office.*

*Owned by:
Androscoggin Valley Council of
Governments
25 Manley Road, Auburn, ME 04210*

Hosted by:
City of Lewiston

*Operated by:
Maine Environmental Depot, LLC
a subsidiary of
Environmental Projects, Inc.

Household Hazardous Waste (HHW) Collection Facility

424 River Road, Lewiston
Open 1st and 3rd Saturdays
May through November
8 a.m. to Noon
(excluding holiday weekends)

Bring your household hazardous waste to the Environmental Depot. Inside are details and instructions on how to dispose of this waste in an easy and environmentally friendly manner.

WESTERN MAINE ENVIRONMENTAL DEPOT

How Do I Use the Depot?

- Residents from Lewiston, Auburn and other participating towns may dispose of up to 2 units of waste. One unit equals up to 5 gallons of liquid waste or up to 20 pounds of dry waste or a combination of both. A smoke detector can be substituted for 1 gallon or can be disposed for \$5 each.
- Residents from towns not participating or who have more waste than the allowable 2 units must pay at the Depot--cash or checks made out to AVCOG (\$28.00/unit or part thereof).

Check with your solid waste facility or town office to determine if your town is a “participating” town; for more information, visit www.avcog.org.

- Pack materials in original, secure containers; use boxes or plastic bags, when appropriate/possible.
- Place materials in trunk or truck bed.
- Drive up to the Scale House at the Solid Waste facility on River Road for further instruction.
- Enter the Depot when directed.
- Please remain in your vehicle.

What products should I bring to the Depot?

Look for the words **Caution, Warning, Poison, Corrosive, Toxic, Volatile, Flammable or Danger** on the label.

Acceptable materials also include mercury-containing products such as thermometers and thermostats.

These products create poisoning and fire hazards in the home. They create hazards for waste handlers and can pollute the environment when incinerated or landfilled.

Dumping HHW down a sewer or storm drain, into a septic system, or on the ground can be harmful to you and the environment. Improper disposal can directly impact rivers and streams and can potentially contaminate wells. The best and safest way to dispose of HHW is to bring it to a facility where it can be properly managed. **Show that you care, and bring your HHW to the Depot!**
