To parties interested in responding to
Request for Proposals #LA2015-004
published on Friday, August 14, 2015:

As detailed in the RFP, there will be an optional site visit at the Lewiston-Auburn 9-1-1 Emergency Communications System, 552 Minot Avenue, Auburn, Maine 04210 Wednesday, August 26, 2015 at 10 a.m. During the visit, the Center's technical staff will provide attendees with technical specifications about the radio network, including tower data, information about the current voter receiver system, the general number of existing mobile and portable radios that rely on the network, and the frequencies used by the Center. There will be a tour of the dispatch facility, information about the current Computer Aided Dispatch/Records Management System and, if requested, tours of the tower sites.

All information presented during the site visit will be published via addendum on the following web sites by close of business Thursday, August 27th :

www.auburnmaine.gov/Pages/Government/Bid-Notices

and

www.lewistonmaine.gov/Bids

Interested applicants who anticipate attending the site visit are asked to rsvp to 911director@auburnmaine.gov so sufficient space is available to accommodate attendees.
