

CATV MEETING AGENDA 9- 21-12

- 1. Summer at GFTV** - We had a fairly quiet Summer with government meetings getting back to normal after a busy Spring and Winter season. Auburn's hot issue right now is the new proposal for a new development in Auburn by the mall for new Ice arena for hockey in the area.
- 2. Community Bulletin Board** - Would like a critique about the current bulletin board. Does it work, are the ads too lengthy, should we include PSA's (public service announcements)? Feedback please.
- 3. Improving TV signals** - What can we do to make the quality of our signal better. New modulators, and audio processors that could make a difference?
- 4. Equipment** - This year's improvements will be modest with budget approval for some lavalier mics in studio and a second new computer for editing and downloading shows. Older ones are 6 years old.
- 5. Fall season** - Basketball support will be minimal this year as the school wants to go on the internet and be able to produce commercial ads to raise funds. We cannot televise commercial ads. We will continue support with a camera and audio gear for games.
- 6. New shows** - Interview with Angus King about debt with Erskine Bowles. "Epicenter" (John Jenkins) This piece is about the Remedy Center which is the area's new medical marijuana dispensary. "Come to think of it" which is about medical issues in a talk show format. "Wicked Good Dads", 2 dads discuss raising children. "The Steve Katos Show" variety talk with different guests. We removed a few shows that were redundant and dated to make room for new ones.
- 7. Miscellaneous** - CTAM renewal is completed, Lease has been received with the anticipated 5% increase. We are still awaiting news on the franchising process and hope for a positive result this year. Budget development begins again in the new year. We also will be doing some updates on our website.
- 8. September Meeting for 2013** - What would the committee like to do? Do you like this year's format?
