New Roadway Signs to be Installed in Auburn

Auburn – New roadway signage will be installed in Auburn during the week of May 20th. These signs will be installed on Washington Street and Minot Avenue.

On Wednesday, May 22nd and Thursday, May 23rd, motorists need to be aware of brief lane closures for 3 to 5 minutes as crews install overhead guide signs between 10 a.m. and 2 p.m. Auburn police will be on-scene alerting motorists as each lane closure occurs.

Other sign installations will occur during the week but will not necessitate any lane closures.

This \$265,000 project will be performed by RoadSafe Traffic Systems of Avon, Massachusetts.
