RE: Draft Joint Land Use Study

Dear Mr. Cousens:

This letter serves as transmittal for 26 copies of the Draft JLUS to be provided to the Planning Board and City Council and members of the City staff. An additional 9 copies are being provided to the Maine Army National Guard. In addition, one electronic version is being provided for posting on the study website.

The hard copies of the preliminary plan are being provided with no color in an attempt to reduce expenses. As a black and white document, the ability to read and interpret some maps will be challenging. Anyone wishing to see the maps may go to the website or may review the hard copy displays that I will leave with you after the Public Forum. If any of those are needed for presentations during July, we will arrange to pick those up and return them as necessary.

The final plan will be provided in full color as per our agreement.

Sincerely,

Kat Beaudoin, A.I.C.P.
