Body Discovered Along Androscoggin River

Auburn Police are investigating the death of a Lewiston man found alongside the Androscoggin River this morning. At 9:03am, Auburn Police and Auburn Fire were called to Bonney Park on Main St. for a man not moving.

41 y/o Jeremy Perry of Lewiston was found on some rocks alongside the Androscoggin River. Investigators have classified the death as non-suspicious. Investigators believe that alcohol may have been a factor in the death; however it will take weeks for toxicology tests to confirm the presence of alcohol in Perry's system.

A representative from the Medical Examiner's Office responded to the scene to assist Auburn Police with the death investigation.
