City Council Workshop & Meeting
January 3, 2022
Agenda

5:30 P.M. City Council Workshop

A. Executive Session – Economic development, pursuant to 1 M.R.S.A. Sec. 405 (6) (C) (30 minutes)
B. Proposed Zone Changes – Eric Cousens (30 minutes)
C. Downtown Revitalization Plan – Jay Brenchick (20 minutes)

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Whiting

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 01-01032022*
Confirming Chief Moen's Constable Appointments.

2. Order 02-01032022*
Re-appointing Brian Bachelder as the Local Sealer of Weights and Measures.

3. Order 03-01032022*
Changing the date of the second regular City Council meeting in January from January 24, 2022 to January 18, 2022 due to the holiday.

4. Order 04-01032022*
Setting the time to open the polls for all 2022 elections at 7:00 am.

II. Minutes – December 20, 2021 Regular Council Meeting

III. Communications, Presentations and Recognitions

- Swearing in Officer Logan Rossignol
- Planning Board reasons for recommendations for residential strips
- Communication – Mayor Appointments

- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business - None

VI. New Business

1. Order 05-01032022
Directing staff to forward proposed zone changes to the Planning Board for consideration and review pursuant to Chapter 60, Article XVII Division 2 of City Ordinances.

2. Ordinance 01-01032022
Amending Auburn's Code of Ordinance, Sec. 2-58. Time and place of regular meetings. Public hearing and first reading.

3. Ordinance 02-01032022
Amending Auburn's Code of Ordinance, Sec. 2-430. Membership; responsibility (Regulatory Advisory Board). Public hearing and first reading.

4. Order 06-01032022
Amending the Board and Committee Appointment Policy as recommended by staff.

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

VIII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

IX. Executive Session - Economic development, pursuant to 1 MRSA Sec. 405(6)(C)

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022 **Order:** 05-01032022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Initiate the discussion of Zoning Considerations from 2021 Updated Comprehensive Plan

---

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. We do not have capacity to consider all the changes at once, but we plan an ambitious effort to have changes under consideration going forward. Below are four changes that staff suggests we start discussing by having the Council initiate their consideration pursuant to Chapter 60, Article XVII Division 2 of City Ordinances. Initiation of these discussions will direct staff to draft the amendments and forward them to the Planning Board for a public Hearing and recommendation back to the Council on how to proceed.

---

a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to Commercial Development District (CDD). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended. (See attached a.)

Proposed Zone Change:

COMMERCIAL DEVELOPMENT DISTRICT (CDD)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses **–** The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- Low and High Residential Density Uses
- Retail uses including large-scale uses (>100,000 square feet)
- Personal and business services

- Business and professional offices
- Medical facilities and clinics
- Restaurants
- Hotel, motels, inns, and bed & breakfast establishments
- Low and High-Density Residential Uses
- Community services and government uses
- Research, light manufacturing, assembly, and wholesale uses
- Truck terminals and distribution uses
- Contractors and similar activities
- Motor vehicle and equipment sales
- Motor vehicle service and repair
- Recreational and entertainment uses and facilities

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

b. **Washington Street Area;** 716 acres from General Business to Commercial Formed Based Code Gateway Development District. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052. (See attached b.)

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)

Objective – To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the city. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update. The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi dwelling development with up to three stories (plus attic space), with multiple

commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited, and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

c. <u>Court Street/City Core of Urban Residential Area;</u> 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas. (See attached c.)

<u>TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)</u>

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

d. **Subsurface Wastewater Disposal in the Lake Auburn Watershed**; Maintain a requirement for a minimum depth of 36 inches above the limiting factor/constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

City Budgetary Impacts: Up to $5,000 in approved Comprehensive Plan Implementation funds for State Geologist/Soil Scientist/Site Evaluator and mapping consultation. The changes will result in new investment and create new taxable value.

Staff Recommended Action: Direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council.

Previous Meetings and History: December 6th Council adoption.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

3 Analysis of Environmental Impacts

This section analyzes the environmental impact of various development and water quality scenarios for the Lake Auburn watershed. The analysis uses a well-documented watershed model paired with in-lake empirical formulas to predict water quality outcomes under each future scenario. This section also reviews recreational threats and opportunities, current forestry practices, and LAWPC's land conservation strategy.

Water Quality Modeling

Boundary Change

Based on hydrogeologic studies (E.C. Jordan Co., 1990; Woodard & Curran, 1995; Summit Environmental Consultants, Inc., 2007) of the sand and gravel operations and former City of Auburn landfill along Gracelawn Road, a portion of the existing watershed area was determined to flow away from Lake Auburn in a southerly and easterly direction (Figure 3-1). Groundwater flow studies around the sand and gravel operations showed groundwater flowing south to an unnamed brook in a ravine just south of Mt. Auburn Avenue that flows to the Androscoggin River. Previous analyses of groundwater monitoring well data around the landfill showed low and diminishing levels of leachate indicators on the lakeside compared to increasing levels on the south side away from the lake. The combined properties with sand and gravel operations owned by CLH & Sons, Inc. and Get Er Done, LLC cover 115 acres in the southern portion of the Lake Auburn watershed and are bounded to the north by Lake Auburn and a LAWPC-owned parcel, to the east by a Central Maine Community College-owned parcel, to the south by Gracelawn Road, and to the west by a LAWPC-owned parcel. Based on review of the groundwater contours and 2-ft surface contours, the proposed watershed boundary reduces the watershed area by 148 acres, possibly reducing the original CEI, Inc. (2010) total phosphorus load to Lake Auburn by about 44 kg/yr.

Baseline Model Run

The baseline or "existing conditions" model run was performed using the revised version of the ArcView Generalized Watershed Loading Function (AVGWLF): MapWindow Version 4.6.602 and MapShed Version 1.5.1, available online through the Stroud Water Research Center's Wiki-Watershed. Following MapShed documentation, model files were prepared for input and processing to generate watershed nutrient loading estimates by sub-basin. These sub-basin nutrient loading estimates were run through a simplified version of the Lake Loading Response Model (LLRM) (AECOM, 2009) to account for sub-basin water and nutrient load attenuation, other water and/or nutrient sources such as atmospheric deposition, internal loading, and septic systems, and in-lake factors such as pan evaporation and annual withdrawal for drinking water. The net water and nutrient loads, along with calculated lake characteristics, were used in several well-known empirical formulas to estimate the in-lake total phosphorus concentration of Lake Auburn.

A summary of inputs and assumptions is provided below. Refer to supplemental model documentation for more detail (available through the City of Auburn).

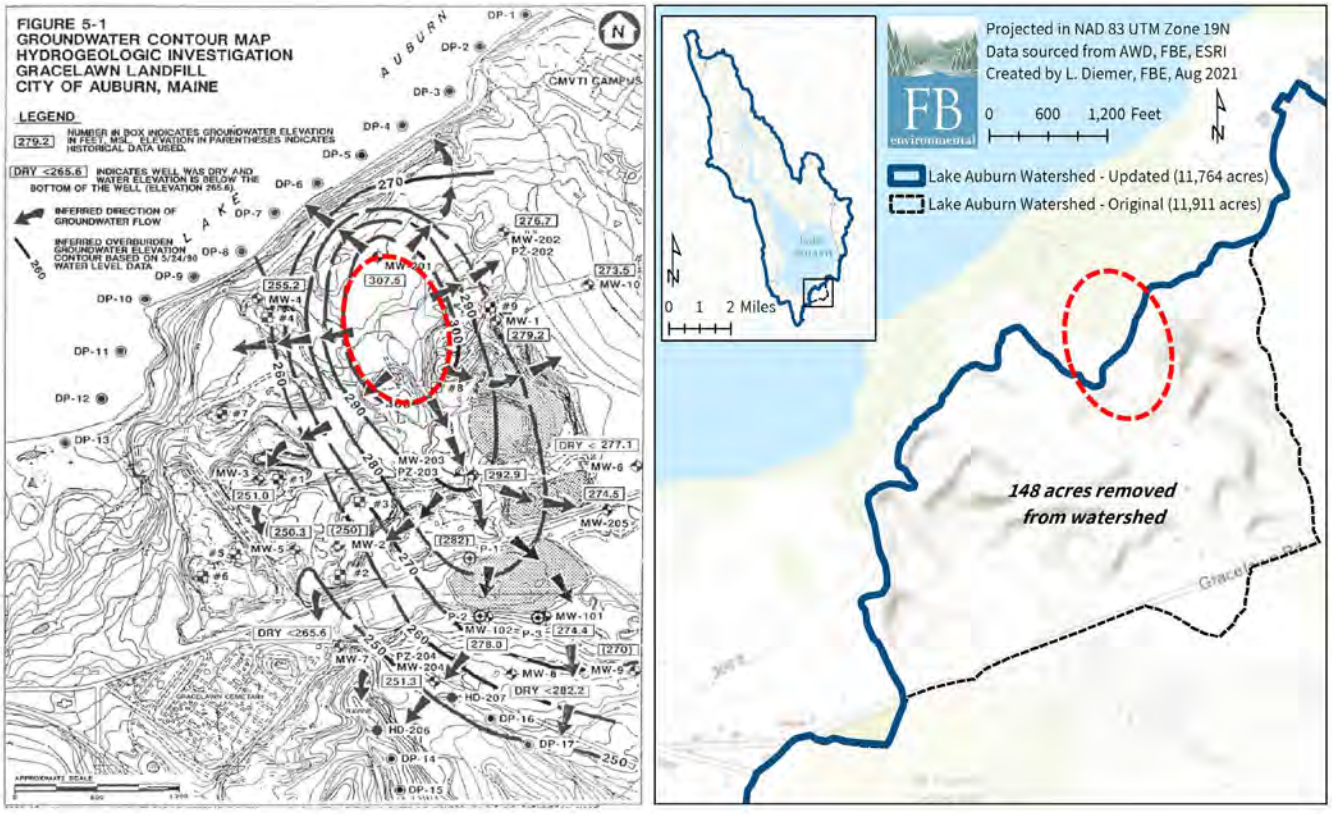

Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

5 Findings, Synthesis, & Holistic Recommendations

This section draws out key conclusions from the report's preceding Sections 2, 3, and 4 which contain our analyses of the regulatory, environmental, and economic impacts of Lake Auburn as a public drinking water supply. Synthesis and further discussion, along with consideration of examples from comparable water supplies, are also provided for several key conclusions that recur throughout the preceding sections. Lastly, this section puts forth holistic recommendations for the City of Auburn, as well as the broader community of stakeholders, with the aim of promoting water supply protection efforts and initiatives that preserve or improve the balance among regulatory, environmental, and economic impacts.

Photo Credit: Sun Journal

Key Findings

Section 2, Analysis of Regulatory Impacts

We found that the regulatory framework for the protection of Lake Auburn as a water supply can be revised to be more clearly defined, better aligned with the best available science and State and regional norms, and more fairly applied across different land uses and activities. Specific recommendations are described in depth in Section 2, and direct ordinance language revisions are provided in a separate document to the City. A summary of our recommended revisions is outlined below:

- Revise the septic system requirements of the Lake Auburn Watershed Overlay District Ordinance to incorporate the Maine Subsurface Wastewater Disposal Rules, including provisions that allow for mounded leach fields and other State-approved alternative designs where there is not a native, in-situ, 36-inch vertical separation between the bottom of the organic horizon and the bedrock, water table, or other restrictive layer. Refer to Appendix 1.
- Revise the Phosphorus Control Ordinance to clarify that the limit of a project area does not apply to a given land use but to a demarcated limit of disturbance, such that all disturbance within that area is required to meet the erosion and sedimentation controls and other phosphorus controls under a plan required by the Phosphorus Control Ordinance.
- Require timber harvest and agricultural activities to meet the same requirements as other land uses under the Phosphorus Control Ordinance. Currently, timber management and harvesting must be conducted in accordance with a forest management plan prepared and supervised by a registered forester, while agriculture must be conducted in accordance with a soil and water conservation plan approved by the ACSWCD, making these uses effectively exempt from City oversight. Removing the exemption and requiring timber and agriculture to meet the same erosion control standards under the Phosphorus Control Ordinance would ensure that water quality protection is a central feature of any timber harvesting or agricultural activities in the Lake Auburn watershed.
- Develop a clear set of standards for farm management that will be consistently applied to farms in the watershed for the purpose of controlling erosion and limiting the delivery of excess phosphorus from the farm practices to Lake Auburn. One approach is to set a concrete limit on the amount of agricultural activities that are phosphorus-intensive (e.g., commercial raising of livestock, fertilized row crops, manure spreading). It is important to note that water quality is predicted to be much worse across all future scenarios if agricultural land use does not decline as predicted.
- Adjust the agricultural buffer strip requirement in the Lake Auburn Watershed Overlay District Ordinance to improve its effectiveness. Recommended adjustments include widening the buffer to 75 or 100 feet, requiring the buffer to be vegetated, and requiring the buffer to be located downgradient of all agricultural activities, perpendicular to the direction of overland flow, in all areas of the watershed (as opposed to requiring buffers only for agricultural activities that are adjacent to surface water).
- Update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn Road area.
- Incorporate low impact development requirements for single family residential development on the 1- and 3-acre lots allowed in the Lake Auburn watershed by way of referencing the Maine Stormwater Management Design Manual, Volume 2. The use of low impact development can help to limit the impacts of stormwater runoff and associated erosion and pollutants from sites. The standards as they apply to a water supply watershed are presented below:
  - » Disturbance on an individual lot must be less than 15,000 square feet (including building, driveway, walkways, lawn area, construction access, and grading).
  - » A minimum natural vegetated buffer must be maintained downgradient of all developed areas on the lot. This buffer shall be 50 feet wide if naturally forested or 75 feet wide if maintained as a natural meadow.
  - » No more than 7,500 square feet of impervious cover is located on the property.
  - » A minimum of 40 percent of the lot area must be maintained as an undisturbed natural area. If the existing land has been disturbed by prior activities, a natural vegetated buffer and/or undisturbed natural area may be proposed through restoration and revegetation.

Section 3, Analysis of Environmental Impacts

We found that Lake Auburn water quality in the last decade had reached a tipping point, whereby nuisance algae blooms were becoming more frequent and were threatening the filtration waiver. The partial alum treatment conducted in 2019 significantly reduced the

in-column total phosphorus concentration and locked in a portion of the sediment-bound phosphorus, effectively resetting the system and giving the water districts additional time to ramp up watershed protection and nutrient reduction efforts. We also found that projecting current status quo conditions into the future (i.e., the "Business As Usual" scenario) resulted in Lake Auburn once again reaching a tipping point by 2100, even with the assumption that the in-column total phosphorus concentration and sediment-bound phosphorus would be repeatedly reset by an alum treatment every 10 years (see discussion in Section 2 about this assumption for further context). Modeled predictions for the other future scenarios where the regulatory framework is adjusted to allow more development in the Auburn portion of the watershed results in greater water quality degradation and a higher risk of blooms, ultimately triggering the need for a filtration plant in the "Maximum Development Allowing Building on LAWPC Lands" scenario. The use of low impact development techniques has a small positive effect on water quality in these future scenarios but does not ameliorate the high risk of frequent algae blooms. Taken together, the future scenarios show that Auburn alone does not have the land use control tools to stave off water quality decline in Lake Auburn; sustained collaboration with the upper watershed municipalities is essential to achieve the needed phosphorus load reductions over the remainder of the 21st century.

Section 4, Analysis of Economic Impacts

We found that expanding development in the Lake Auburn watershed provided minimal overall net economic benefit when accounting for the benefits and costs of all affected stakeholders, including the City of Lewiston who would otherwise carry the additional costs of watershed protection and water treatment through the existing cost sharing agreement in order for the City of Auburn to benefit from increased property tax revenues. In other words, the increased net benefits to the City of Auburn would be mostly or entirely offset by increased net costs to AWD and LWD customers, resulting in negligible net economic benefit to the communities served by Lake Auburn. This reallocation of benefits and costs among all affected stakeholders for the future scenarios highlights important questions of equity and fairness, which were raised during the process of producing this report and conversing with key community representatives. We emphasize that the costs associated with addressing declining water quality are costs to all water users and that the risk of incurred costs that are higher than our conservative estimates is very real.

Synthesis & Discussion

In summary, our analyses determined that Lake Auburn is nearing its assimilative capacity for nutrient load (even with the partial alum treatment) and cannot handle much more additional nutrient load without diminishing water quality and its associated benefits. We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed. Instead, we recommend that low impact development strategies are incorporated into existing zoning standards and required for all future development and redevelopment projects in the Auburn portion of the watershed. We also recommend that the other four headwater towns of Turner, Minot, Hebron, and Buckfield also incorporate low impact development requirements on future development projects. Lake Auburn cannot maintain excellent water quality in the future without the full participation of the other watershed towns. More development cannot be allowed in the Auburn portion of the watershed even with low impact development requirements implemented in Auburn. Even if reduced development through conservation or other means is achieved in the headwater towns, any additional development in Auburn has an outsized negative impact since its drainage area goes directly to the lake. It is also important to understand that a filtration plant does not allow for greater development of the watershed because the filtration plant only treats extracted drinking water for the consumer and does not treat in-lake water quality for recreation and for meeting State criteria for designated uses.

> We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed.

Below, we present further discussion on three important topics: regulation of septic systems, environmental risk and uncertainty, and comparable water utilities.

Regulation of septic systems: The regulatory and environmental analyses examined multiple issues surrounding septic systems and their contributions of phosphorus to Lake Auburn. At first glance, there may appear to be a contradiction between 1) the recommended ordinance revision from the regulatory analysis (Section 2) that the septic design standard should be revised in such a way that will allow previously non-buildable sites to become buildable and 2) the conclusion from the environmental analysis (Section 3) that Lake Auburn will arrive at a tipping point of declining water quality by 2100 even in the absence of any pro-development changes (i.e.,

the "Business As Usual" scenario). Indeed, our buildout analysis determined that more than 100 additional new homes could be built in the watershed if the septic system siting requirement for 36 inches of suitable in-situ soil were revised.

To address this apparent contradiction, we argue that the septic design standard should be judged not only by its adherence to the best available science but by its simplicity, straightforwardness, and fairness. The key questions are: does the existing septic design standard accomplish its stated purpose of regulating septic systems effectively for water quality protection, or is its water quality benefit primarily in its de facto restriction of buildable areas in the watershed? Are there improvements that could be made to achieve the stated goal? With our recommended revision, we aim to have the septic design standard achieve its stated purpose of effectively regulating both new septic system construction and replacement/reconstruction of existing septic systems as they age out, so that septic systems with alternative technologies and innovative phosphorus controls can be phased in. Restrictions on developable land are better left to base and resource protection zoning than to septic design standards.

The project team also noted in conversations with multiple Lake Auburn stakeholders a concern about an unintended consequence of the requirement in the current ordinance for 36 inches of suitable in-situ soil to site a septic system. The concern is that this requirement for deep, native soils has led to the preferential siting of some septic systems on deep formations of sand and gravel aquifer, which provide some of the only suitable sites in the watershed with the requisite depth to bedrock, water table, or other restrictive layer. While our team did not conduct any field assessments, witness this condition firsthand, or review any documentation of this condition, we agree with the premise that these sand and gravel formations should not be considered suitable sites for septic systems, at least without the importation of suitable reactive soils for nutrient and pathogen processing that the recommended ordinance revisions would allow. Adopting the Maine State standards while preserving the minimum 36-inch vertical separation would alleviate the potential for this unintended consequence.

Environmental risk and uncertainty: The risk of deteriorating water quality threatening Lake Auburn's ability to remain a high quality public drinking water supply is a throughline of this entire study. In its simplest terms, risk is the probability of a negative outcome, though the severity of the negative outcome in question is usually included when evaluating that risk. A high risk of a minor inconvenience (e.g., the risk of getting caught in traffic if leaving downtown Boston by car at 5:00 PM on a business day) requires minimal forethought, while a low risk of major damage (e.g., the risk of a flood destroying private or public infrastructure from a hurricane or Nor'easter) requires extensive planning and preparation. Uncertainty is the degree to which the risk cannot be quantified, due to a number of factors, such as insufficient data about existing conditions, insufficient predictive models for the future, and inherent randomness in nature. It is difficult but possible to predict with reasonably low uncertainty the risk of an outcome that has occurred before (e.g., an algae bloom in Lake Auburn). It gets much more difficult to predict the risk of a particular outcome (e.g., a filtration waiver violation in Lake Auburn) if that outcome has never occurred before, because the data and predictive models have not been tested against that outcome in the real world. In this situation, the uncertainty surrounding such an outcome remains relatively high even with excellent data and predictive models.

This study examined Lake Auburn's risk of negative water quality outcomes now and in the future under various scenarios, though with considerable uncertainty due to a number of confounding or unknown factors. However, we can say with certainty that all additional development raises the risk of water quality degradation, whether due to phosphorus loading, pathogens from subsurface wastewater disposal, emerging contaminants such as pharmaceuticals and personal care products, etc. Even if the increased risk resulting from any individual parcel-scale decision is small, the aggregate impact of thousands of individual decisions over the coming decades is what matters.

From a risk management perspective, the entire spectrum of outcomes should at least be understood, including the least probable, most negative outcome (i.e., the worst-case scenario). The worst-case scenario would be that Lake Auburn's water quality would deteriorate past the point of useful public drinking water supply. Phosphorus enrichment to the point of having uncontrolled algae blooms every year, with cyanobacteria and associated cyanotoxins, would be the most likely condition of such a worst-case scenario. If this unlikely but highly undesirable scenario were to occur, Auburn and Lewiston would be forced to consider other alternatives that previously would not have been seriously deliberated, such as drawing upon the Androscoggin River for drinking water. The cost of this worst-case scenario was not evaluated in our economic analysis because our environmental models do not predict conditions to deteriorate to that degree under the chosen scenarios. But in managing environmental risk, this unlikely but highly undesirable outcome should be included in the overall picture of Lake Auburn's possible future.

Comparable water utilities: Comparison of Lake Auburn and LAWPC/AWD/LWD with other water sources and utilities is illustrative of their strengths, weaknesses, and projected future needs (Table 5-1). Lake Auburn's key

Table 5-1. Lake Auburn and comparable water supply lakes and ponds in Maine.

Waterbody	Water Utility	Waterbody Surface Area (acres)	Watershed Area (acres)	Communities Served	Watershed Communities	Filtration Waiver?
Lake Auburn	Auburn Water District	2,277	9,651	Auburn, Lewiston, Poland	Auburn, Turner, Minot, Hebron, Buckfield	Yes
China Lake	Kennebec Water District	3,939	16,704	Waterville, Winslow, Fairfield, Benton, Vassalboro, Maine Water Company - Oakland	Vassalboro, China, Albion	No
Sebago Lake	Portland Water District	29,992	234,000	Portland, South Portland, Westbrook, Falmouth, Cumberland, Cape Elizabeth, Gorham, Windham, Scarborough, Raymond	24 municipalities (Androscoggin, Cumberland, Oxford counties)	Yes
Floods Pond	Bangor Water	635	4,600	Bangor, Eddington, Hampden, Hermon, Orrington, Clifton, Veazie, Hampden Water District	Otis, Clifton	Yes

comparables are China Lake, which supplies the Kennebec Water District (KWD) serving Waterville and surrounding communities; Sebago Lake, supplying the Portland Water District (PWD); and Floods Pond, used by Bangor Water, an independent water utility, to serve Bangor and surrounding communities.

China Lake is nearly double the size of Lake Auburn, with a 3,939-acre lake surface and a nearly 17,000-acre watershed, but the lake divides into two basins nearly equal in size, the west basin and the east basin. The KWD has a water supply in-take located in the west basin, where the shoreline is mostly under KWD control and managed as water supply protection land. The east basin is nearly all under private ownership and has much more shoreline development. The China Lake Outlet Stream, the only outlet of the entire lake, is in the west basin at the dam in Vassalboro. Considered by itself, the west basin is very similar to Lake Auburn in terms of shoreline and watershed management - mostly forested, under public water utility control, with universal restrictions on swimming and bodily contact but with limited recreational fishing allowed. Like Lake Auburn, China Lake serves one community within the lake watershed (Vassalboro) and several communities outside its watershed (Waterville, Winslow, Fairfield, Benton, and the Maine Water Company in Oakland), while the upper watershed towns of China and Albion do not use KWD water.

The key difference between China Lake and Lake Auburn is that China Lake has experienced algae blooms nearly every summer since the 1980s. Blooms were more severe through the 1980s and 1990s, and since the early 2000s, there have been some trends of improvement, including coldwater fish species survival. Since 1993, KWD has filtered the drinking water supply using a granular activated carbon filtration system capable of producing up to 12 MGD, though current demand stands at 3 MGD. The plant was constructed in the early 1990s for a cost of roughly $25 million. According to KWD Superintendent Roger Crouse, P.E., if water quality were to decline significantly from its current stable state, such as increased algae blooms and turbidity, KWD would have to change their operations to handle the lower quality in-take water (R. Crouse, pers. comm). The carbon filters would need to be backwashed more frequently, and the additional backwash water would need to be accommodated somehow in the existing lagoons or else the lagoons would need to be expanded at significant cost. The alum dose used to pretreat the water before filtration would also need to be raised. The key takeaway is that decreased in-take water quality at a filtration plant taxes the system, raises the volume of the waste stream, and adds significant cost and complexity to the treatment process, meaning that water supply managers cannot forgo water quality protection efforts simply because a filtration system is in place.

Sebago Lake is the public drinking water supply source used by the PWD to supply Portland, South Portland, Westbrook, and surrounding Greater Portland communities - roughly one sixth of Maine's population. The lake is roughly 10 times the size of Lake Auburn, with a surface area of nearly 30,000 acres and a watershed area of 235,000 acres. Sebago is the deepest lake in New England at 316 feet at its deepest point. Like Lake Auburn, Sebago Lake qualifies for a filtration waiver owing to a history of excellent water quality. The existing disinfection plant has a production capacity of 54 MGD and currently experiences a demand of 22 MGD. With such a large water supply lake, the capacity of the plant will be exceeded long before any concern of safe yield from the lake arises.

Land use in the Sebago Lake watershed is largely composed of private forestlands. The PWD owns 2,500 acres (or about 1% of the watershed), with 800 acres of mostly shoreland designated as 'No Trespassing' and 1,700 acres of land designated as free for public access for many forms of recreation. Another 28,000 acres are owned or

managed by land trusts. The water supply in-take is at the far southern extent of the lake in the Lower Bay. A 3,000-foot 'No Trespassing' zone surrounds the in-take, and no bodily contact is allowed within two miles of the in-take. Boating, fishing, snowmobiling, and ice fishing are allowed within the 2-mile limit but not within the 3,000-foot limit. Overall, the restricted area is very similar in size and structure to that of Lake Auburn (with the exception that the on-ice activities are not allowed on Lake Auburn). Taking Sebago Lake as a whole, however, the major difference with Lake Auburn is that Sebago's Lower Bay comprises a small fraction of the overall lake, the rest of which has no special swimming or boating restrictions for water supply.

Sebago Lake and its watershed are located many miles away from the service areas of the PWD. This geographical separation means that the communities served by PWD have no ability to enact land use controls on the lakeshore or in the watershed, unlike the situation in Lake Auburn where the City of Auburn can use its zoning ordinances to enact protections for the shorefront and watershed. It is likely that this lack of control over Sebago Lake's upper watershed has spurred the PWD to focus on cooperation with land trusts and private forestland owners to conserve tracts of land. As an example, PWD Environmental Services Manager Paul Hunt told the project team that the PWD is part of a partnership, Sebago Clean Waters, that seeks to raise the total amount of land conserved (and managed at least partly for water supply protection) from the current 12% of the watershed to 25% in the next 15 years (P. Hunt, pers. comm).

In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Floods Pond in Otis, Maine has been the public water supply source for Bangor Water, the independent water district that serves Bangor and surrounding communities since 1959. At 635 acres of surface area, surrounded by a 4,600-acre watershed in Otis and neighboring Clifton, Floods Pond is less than half the size of Lake Auburn. Maximum depth is similar at 133 feet. Like Lake Auburn, Floods Pond also qualifies for a filtration waiver owing to its historically excellent water quality.

Land use in the Floods Pond watershed is largely controlled by Bangor Water, which owns or holds landowner agreements to manage 4,500 acres or more than 99% of the watershed land area. There is no public access to Floods Pond, which is home to a native population of Arctic char (Salvelinus alpinus), a coldwater fish species closely related to both salmon and lake trout that has been used by the Maine Department of Inland Fisheries and Wildlife to establish coldwater fish populations in other Maine lakes. Fishing, boating, and swimming are prohibited, as are hiking, wildlife viewing, and hunting in posted areas that include the entire shoreline.

The geography of Floods Pond as a water supply resembles China Lake more than Lake Auburn. The vast majority of Bangor Water customers are in downstream communities (Bangor, Eddington, Hampden, Hermon, and Orrington), while the protected shoreline and watershed areas are in upstream communities that do not use the water. (A small portion of Clifton is served by Bangor Water.) Bangor Water controls nearly all the Floods Pond watershed in Otis and Clifton, 4,500 acres total and more than LAWPC controls in the Lake Auburn watershed. Recreational activities are also much more restricted at Floods Pond than at Lake Auburn. Floods Pond provides a useful comparison point at the more restrictive end of the spectrum that puts the lost tax revenues and recreational opportunities at Lake Auburn in perspective.

To summarize, these comparisons with other water supply lakes demonstrate that the protections surrounding Lake Auburn do not exceed those of China Lake, Sebago Lake, or Floods Pond. The restrictions on recreational opportunities at Lake Auburn are similar to those at other drinking water supplies, including filtered and unfiltered water sources. Similarly, land use restrictions within the Lake Auburn watershed are far from the most prohibitive among the examples discussed, with only 20% of the watershed held or managed as water supply land compared to 99% of the Floods Pond watershed. In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Holistic Recommendations

1. We recommend that the City of Auburn not seek to ease the current resource protection zoning or

consider rezoning portions of the watershed for increased density (e.g., village node-style development). Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed, preferably areas already served by sanitary sewer (for the benefit of nearby water resources such as the Androscoggin River). This recommendation is based on two key findings of this study that are fully elaborated in Section 3:

- Lake Auburn and its watershed are already at or near the key environmental thresholds of 10 parts per billion annual average total phosphorus and 75% forested watershed land cover; and
- The future scenario models showed that easing restrictions on further development in the Lake Auburn watershed would set the lake on a path toward deteriorating water quality, regardless of the beneficial effects of requiring low impact development techniques and without obvious management strategies to combat further declines in water quality.

2. We recommend that the Planning Board and City Council take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. If not acceptable in their current form, the recommended revisions should be reworked and made more practicable but not watered down or fundamentally changed in their intent or effect. These recommended changes represent a move toward simpler, more transparent, more evenly applied regulations that are based on the best available science. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. We recommend that the City of Auburn share the findings of Section 4, Analysis of Economic Impacts, with all partners and stakeholders so that the accounting of aggregate economic impacts of the existing conditions and various future scenarios are used as the basis for an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward. This recommendation is based on the key finding that any net benefits to the City or Auburn residents and taxpayers from expanded residential development in the Lake Auburn watershed would be counterbalanced by additional costs to Lewiston and its residents and taxpayers, in the form of increased costs associated with mitigating declining water quality and decreased benefits from recreation. These findings are fully elaborated by Section 4 of this report. As a next step in this planning process, we recommend that a scenario be modeled and run through a benefit cost analysis that meets the target water quality goal for Lake Auburn, which was not possible in the future scenarios modeled in this study when considering Auburn-only changes to regulations and management approaches. Developing a scenario that meets the water quality goal may require several iterations. The scenario should likely expand the existing Lake Auburn Watershed Overlay District to the upper watershed towns, require implementation of low impact development techniques on new development watershed-wide, and account for septic design standard changes.

4. We recommend that the City of Auburn, City of Lewiston LWD, AWD, and LAWPC fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed (Turner, Minot, Hebron, and Buckfield) to control development and limit phosphorus loading. Historically, LAWPC has been an active player in fostering collaborative action between the local governments, with representation from the upper watershed towns. This recommendation is based on the key finding from this study that Auburn alone cannot accomplish sufficient phosphorus load reductions to prevent deteriorating water quality in Lake Auburn, but will require active participation from the upper watershed towns. This finding is fully elaborated in Section 3.

5. We recommend completing a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both AWD and Bates College in the Lake Auburn watershed. Identify gaps based on weaknesses and assumptions for the model. From the review and gap analysis, devise a robust long-term water quality monitoring plan and annual cost estimate for Lake Auburn. We also recommend that 1) the AWD hire a full-time, dedicated data management technician for improved management, access, and analysis of collected water quality data; 2) the AWD and LWD continue collaboration with Bates College on student-assisted monitoring; and 3) LAWPC consider creating a technical science advisory board to establish or maintain key local, State, and regional partnerships that can help to provide regular review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the in-take should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. We recommend that the LAWPC coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. We recommend developing a comprehensive natural resource management plan for LAWPC lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection if in the interest of public water supply protection, with multiple management options offered. We also recommend developing natural resource inventories for all LAWPC lands to map critical streams (perennial and intermittent), wetlands, vernal pools, cover types, rare, threatened, and endangered species present, etc. to include in individual natural resource management plans that set management objectives and methods to achieve water resource and wildlife habitat protection for each LAWPC parcel. If timber harvesting continues in the Lake Auburn watershed on LAWPC or private lands, then we recommend a series of actions to minimize forestry impacts to water quality. Refer to Forest Management in Section 3.

10. We recommend that LAWPC work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that LAWPC consider putting all their properties into permanent conservation. These properties are currently protected under the LAWPC by-laws but provide no higher-level legal protection from future development if said by-laws were to be revoked.

Current Septic Design Standard

Auburn Zoning Ordinance Section 60-952(f)(1): Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.

The Implication: Local standards within the Lake Auburn Watershed Overlay District limit development on a significant portion of the watershed by effectively prohibiting the use of innovative and alternative septic system and leach field designs to meet the 'depth to constraining layer' requirement. These innovative and alternative designs are otherwise allowed by the State and can achieve comparable or better nutrient removal than a traditional system and leach field.

Recommended Septic Design Standard

The Recommendation: Maintain a requirement for a minimum depth of 36 inches above the constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

This can be achieved by referencing the Maine Subsurface Wastewater Treatment Rules (10-144 CMR 241), with the exception that the required depth to the constraining layer would be at least 36 inches (specified by updating Table 4-F, Minimum Permitting Requirements and Minimum Design Requirements). Because the State rules already provide for the use of such alternative designs such as mounded leach fields and drip distribution systems, as well as other proprietary systems, these would be allowed in the Lake Auburn watershed as well.

ORDER 05-01032022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council on the following four amendments:

a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to Commercial Development District (CDD). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended.

b. **Washington Street Area;** 716 acres from General Business to Commercial Formed Based Code Gateway Development District. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052.

c. **Court Street/City Core of Urban Residential Area;** 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas.

d. **Subsurface Wastewater Disposal in the Lake Auburn Watershed**; Maintain a requirement for a minimum depth of 36 inches above the limiting factor/constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022 **Order:** 02-01032022

Author: Sue Clements-Dallaire, City Clerk

Subject: Sealer of Weights and Measures

Information: The City Council appointed Bryan Bachelder as the city's local Sealer of Weights and Measures in February 2019. He is a retired Maine State Trooper with a history of weights and measures. Mr. Bachelder has successfully passed the two national certification programs and is insured. The certifications are good for five years which would expire on August 22, 2023. There is no liability to the city.

City Budgetary Impacts: None. No cost to the City.

Staff Recommended Action: Re-appoint Bryan Bachelder as the Sealer of Weights and Measures with a term expiration of December 31, 2022.

Previous Meetings and History: Appointed for 2019 on 2/25/2019, and has been re-appointed each year since.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Bryan Bachelder Letter and Certifications and Order.

§2461. ELECTION BY MUNICIPAL OFFICERS

The municipal officers of a municipality may elect or appoint a sealer of weights and measures, and a deputy sealer if necessary, not necessarily a resident of that municipality, and the sealer and deputy sealer hold office during their efficiency and the faithful performance of their duties. The state sealer has final approval authority over a sealer or deputy sealer elected or appointed pursuant to this section. Prior to approval or assuming any duties, a sealer or deputy sealer elected or appointed pursuant to this section must successfully complete certification by the National Conference on Weights and Measures as a weights and measures professional in the National Conference on Weights and Measures professional certification program for the device types the sealer or deputy sealer wishes to seal. On complaint being made to the municipal officers of the inefficiency or neglect of duty of a sealer or deputy sealer, the municipal officers shall set a date for and give notice of a hearing to the complainant, the relevant sealer and the state sealer. If evidence satisfies the municipal officers that the sealer or deputy sealer has been inefficient or has neglected the sealer's or deputy sealer's duty, they may remove the sealer or deputy sealer from office and elect or appoint another in the sealer's or deputy sealer's stead. The state sealer has jurisdiction over a sealer or deputy sealer elected or appointed pursuant to this section, and any vacancy caused by death or resignation must be filled by election or appointment by the municipal officers within 30 days. Within 10 days after each such election or appointment, the clerk of each municipality shall communicate the name of the person so elected or appointed to the state sealer. A sealer of weights and measures in any municipality may be sealer for several municipalities, if such is the pleasure of the municipal officers of those municipalities, as long as this action receives the approval of the state sealer. The state sealer or the state sealer's designee shall test and certify annually municipal weights and measures equipment used by a sealer or deputy sealer elected or appointed pursuant to this section.[2017, c. 172, §1(NEW).]

§2462. MUNICIPALITIES THAT DO NOT CHOOSE A SEALER

If the municipal officers do not elect or appoint a sealer or fail to make a return to the state sealer of the election or appointment within 30 days after the election or appointment in accordance with section 2461, the state sealer retains sole authority to enforce this chapter in that municipality and the concurrent authority provided under section 2411 does not apply in that municipality. Pursuant to section 2402, subsection 7, the state sealer may appoint a qualified person to carry out the state sealer's responsibilities in that municipality, and any person appointed under this section may serve in that capacity for more than one municipality. [2017, c. 172, §1 (NEW).]

§2463. POWERS AND DUTIES

A weights and measures official elected or appointed for a municipality has the duties enumerated in section 2402, subsections 2 to 9 and the powers enumerated in section

2403. These powers and duties extend to the official's jurisdiction. [2017, c. 172, §1 (NEW).]
SECTION HISTORY 2017, c. 172, §1 (NEW).

§2464. RECORDS OF WEIGHTS AND MEASURES SEALED; ANNUAL REPORT
A sealer shall keep records of all weights and measures, balances and measuring devices inspected, sealed or condemned by that sealer, giving the name of the owner or agent, the place of business, the date of inspection and kind of apparatus inspected, sealed or condemned. The sealer shall make an annual report on July 1st for the 12 preceding months on forms prescribed by the state sealer and shall furnish such information as the state sealer may require. [2017, c. 172, §1 (NEW).]

ORDER 02-01032022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby re-appoints Bryan Bachelder as the Local Sealer of Weights and Measures with a term expiration of December 31, 2022.

Council Workshop or Meeting Date: January 3, 2022 **Order:** 03-01032022

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed date change for the second Regular City Council meeting of January 2022

Information: Recommend changing the second Regular City Council meeting date from Monday, January 24, 2022, to Tuesday, January 18, 2022. The second meeting of the month falls on a holiday and rather than pushing the meeting out another week, we are recommending that the meeting be held the Tuesday after the holiday instead of the following Monday.

City Budgetary Impacts: None.

Staff Recommended Action: Approve

Previous Meetings and History: In past years, we have held meetings that would have fallen on a holiday on the Tuesday immediately following that date.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Author: Sue Clements-Dallaire, City Clerk

Subject: Setting the time for opening the polls for 2022 Elections

---

Information:
State law requires the Municipal Officers to set the time to open the polls for elections. The polls must be opened no earlier than 6 a.m. and no later than 8 a.m. on election day, except that in municipalities with a population of less than 500, the polls must be opened no later than 10:00 a.m. It is recommended that the polls open at 7:00 A.M. in Auburn for all 2022 elections. Opening the polls at 7:00 A.M. is consistent with past practice in Auburn and it allows additional time in the morning for people to have an opportunity to vote.

21-A §626. Polling times

The following provisions apply to polling times at any election.

1. Opening time flexible. The polls must be opened no earlier than 6 a.m. and no later than 8 a.m. on election day, except that in municipalities with a population of less than 500, the polls must be opened no later than 10:00 a.m. The municipal officers of each municipality shall determine the time of opening the polls within these limits. The municipal clerk shall notify the Secretary of State of the poll opening times at least 30 days before each election conducted under this Title.

City Budgetary Impacts: Minimal – the cost for Election workers to start one hour early is under $100.

Staff Recommended Action: Recommend a motion to set the time for opening the polls for all 2022 Elections to be 7:00 AM.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

IN COUNCIL REGULAR MEETING DECEMBER 20, 2021 VOL. 36 PAGE 203

Mayor Levesque called the meeting to order at 7:03 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 141-12202021*
Confirming Mayor Levesque's board and committee appointments.

Motion was made by Councilor Walker and seconded by Councilor Milks to approve the one consent item.

Passage 7-0.

II. Minutes – December 6, 2021 Regular Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Milks to approve the minutes of the December 6, 2021 Regular Council meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Communication – Mayoral Appointments
- Hydro Power Communications
- Council Communications (about and to the community)

Councilor Walker announced that the Age Friendly Committee will be holding a New Years Day celebration at noon time at the Auburn Senior Community Center.

Councilor Whiting stated that the Auburn Nordic Ski Association is open for cross country skiing.

Mayor Levesque reminded everyone about the upcoming New Year's Eve event that is to be held on Friday, December 31st on Main Street in Auburn.

IV. Open Session

Walter Reynolds, Public Works Department employee stated that a proposal has been put together, for the City Council to consider, requesting additional compensation from ARPA funds for PW employees that worked during the pandemic.

V. Unfinished Business

1. Ordinance 45-12062021
Amending the Code of Ordinances, Chapter 20 – Fire Prevention and Protection, Article III – Fire Code. Sec. 20-55. - Appeals. Second reading.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Passage 7-0. A roll call vote was taken.

2. Ordinance 46-12062021
Amending the Code of Ordinances, by adding Sec. 20-84 – Permits; requirements. Second reading.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment - No one from the public spoke.

Passage 7-0. A roll call vote was taken.

3. Ordinance 47-12062021
Amending the Code of Ordinances, Sec. 20-32 – Fees for service. Second reading.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment - No one from the public spoke.

Passage 7-0. A roll call vote was taken.

4. Ordinance 48-12062021
Amending the Code of Ordinances, Appendix A: Fees; Fire Prevention and Protection. Second reading.

Motion was made by Councilor Walker and seconded by Councilor Gerry for passage.

Public comment - No one from the public spoke.

Passage 7-0. A roll call vote was taken.

VI. New Business

Motion was made by Councilor Milks and seconded by Councilor Walker to authorize the City Manager to take any action necessary to effectuate an agreement with the State regarding apportionment of funds from the Opioid litigation. This is Order 147-12202021.

Public comment – No one from the public spoke.

Passage 7-0.

1. **Order 142-12202021**
Approving the Mass Gathering permit for the New Year's Eve event. Public hearing and vote.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

2. **Order 143-12202021**
Approving the liquor license for the New Year's Eve event. Public hearing and vote.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

3. **Order 144-12202021**
Approving the amendments to the Auburn-Lewiston Local Cable TV Operations Interlocal Agreement.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

4. **Order 145-12202021**
Establishing the National Incident Management System (NIMS) as the City standard for incident management.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

5. **Order 146-12202021**
Amending Order 132-12062021 previously adopted by the City Council on 12/06/2021.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 6-0-1 (Councilor Staples abstained).

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Mayor Levesque announced that he has taken the Mayor's seat on the School Committee, their first meeting was on Wednesday and it went well.

Councilor Milks stated that the Water and Sewer budgets were approved last week at a public meeting.

Manager Crowell stated that the budget process has started and is in full swing. A workshop will be held with the Council to provide them with information regarding access to our Munis system which will be available to them. Tablets will be handed out to new councilors as soon as possible. He provided an update on staffing challenges, and policies relating to COVID and he thanked staff for doing a fantastic job to ensure that services are still being provided.

Jill Eastman, Finance Director – November 2021 Final Finance Report

Motion was made by Councilor Walker and seconded by Councilor Morin to accept and place on file the November 2021 Final Finance report.

Passage 7-0.

IV. Executive Sessions - None

V. Adjournment – Motion was made by Councilor Staples and seconded by Councilor Walker to adjourn. Unanimously approved. Time 7:48 pm.

City of Auburn, Maine
Planning Board
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

To: Auburn Mayor and City Council

From: Mathieu Duvall, Chairperson, Auburn Planning Board

Re: Findings and Reasons for the recommendation to the Council on a Proposed Amendment to the Low-Density Country Residential and Rural Residential Strips abutting the Agriculture/Resource Protection Zone to expand from a Width of 450 feet to a Width of 750 feet from the centerline of the roadways.

Date: December 14, 2021Planning Board Meeting

The Planning Board forwarded a negative recommendation to the Council on this proposal at the November 9th, 2021 Planning Board meeting. Providing reasons for the recommendation was discussed by the Board but was not included in the final motion. This was explained by the City Manager as a requirement of the process for Planning Board Recommendations. The Council voted Monday December 6th to table the item indefinitely, effectively ending the discussion. The Planning Board wished to correct this omission and provide the required information to the Council. On December 14th the Planning Board discussed their reasons and voted to pass the following on to the Council as the findings and reasons for their negative recommendation:

1. The proposed expansion of residential strips conflicts with recommendations in the 2010 Comprehensive Plan and expands development outside the core of the City, into Agriculturally zoned areas.
2. The proposal would allow for increased development in the Lake Auburn and Taylor Pond Watersheds, without consideration of the recently released Lake Auburn Watershed Study recommendations, including Low Impact Development Standards.
3. The 2020 Comp Plan FLU Map updates deserve consideration prior to considering the residential strip expansion.

Council Workshop or Meeting Date: January 3, 2022 **Order:** 05-01032022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Initiate the discussion of Zoning Considerations from 2021 Updated Comprehensive Plan

---

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. We do not have capacity to consider all the changes at once, but we plan an ambitious effort to have changes under consideration going forward. Below are four changes that staff suggests we start discussing by having the Council initiate their consideration pursuant to Chapter 60, Article XVII Division 2 of City Ordinances. Initiation of these discussions will direct staff to draft the amendments and forward them to the Planning Board for a public Hearing and recommendation back to the Council on how to proceed.

---

a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to Commercial Development District (CDD). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended. (See attached a.)

Proposed Zone Change:

COMMERCIAL DEVELOPMENT DISTRICT (CDD)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses **–** The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- Low and High Residential Density Uses
- Retail uses including large-scale uses (>100,000 square feet)
- Personal and business services

- Business and professional offices
- Medical facilities and clinics
- Restaurants
- Hotel, motels, inns, and bed & breakfast establishments
- Low and High-Density Residential Uses
- Community services and government uses
- Research, light manufacturing, assembly, and wholesale uses
- Truck terminals and distribution uses
- Contractors and similar activities
- Motor vehicle and equipment sales
- Motor vehicle service and repair
- Recreational and entertainment uses and facilities

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

b. **Washington Street Area;** 716 acres from General Business to Commercial Formed Based Code Gateway Development District. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052. (See attached b.)

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)

Objective – To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the city. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update. The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi dwelling development with up to three stories (plus attic space), with multiple

commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited, and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

c. <u>Court Street/City Core of Urban Residential Area;</u> 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas. (See attached c.)

<u>TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)</u>

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

d. **Subsurface Wastewater Disposal in the Lake Auburn Watershed**; Maintain a requirement for a minimum depth of 36 inches above the limiting factor/constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

City Budgetary Impacts: Up to $5,000 in approved Comprehensive Plan Implementation funds for State Geologist/Soil Scientist/Site Evaluator and mapping consultation. The changes will result in new investment and create new taxable value.

Staff Recommended Action: Direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council.

Previous Meetings and History: December 6th Council adoption.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Council Workshop or Meeting Date: January 3, 2022 **Ordinance:** 01-01032022

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed ordinance amendment, Sec. 2-58. Time and place of regular meetings.

Information: Under our current ordinance, if a regular meeting night falls on a legal holiday or the night before a legal holiday, then the stated meeting shall be held on the following Monday. There has been discussion about amending the ordinance, so those meetings are held on the following Tuesday instead.

Sec. 2-58. - Time and place of regular meetings.

The dates and time of the regular meetings of the city council shall be the first and third Mondays of each calendar month at 7:00 p.m. If a regular meeting night falls on a legal holiday or the night before a legal holiday, then the stated meeting shall be held on the following ~~Monday~~ Tuesday at the same time and place unless the city council shall, at the meeting held next prior to the meeting falling on the holiday or the night before the holiday, fix a different alternate meeting date. The place of such meetings shall be the city council chamber in the city building, hereby designated to be the regular meeting place, unless the council designates another meeting place. All meetings of the city council shall be open to the public and may be continued to another location.

City Budgetary Impacts: N/A

Staff Recommended Action: Motion to approve the proposed amendment.

Previous Meetings and History: Prior to January of 2016, if a regular City Council meeting fell on a holiday, the meeting was held the following Tuesday. In January of 2016, an amendment was made to change that to the following Monday, one week later.

City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022 **Ordinance:** 02-01032022

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed amendment to the Code of Ordinances Sec. 2-430 – Membership; responsibility (Regulatory Advisor Board)

Information: On December 6, 2021 the City Council adopted an ordinance, Sec. 2-441 to compensate members of the regulatory advisory board, $600 annually (Ordinance 41-11152021). Since that time, it was discovered that there is another section of our Code that conflicts with the newly adopted section of the ordinance. This proposed amendment would strike language that states that the board will serve without compensation, removing the conflicting language.

Sec. 2-430. Membership; responsibility.

A board of regulatory advisory shall be appointed by the city council, consisting of seven members~~, to serve without compensation~~.

The purpose of the regulatory advisory board is to perform the responsibilities of the board of assessment review, board of appeals, and all other regulatory review functions as directed by the city council. The board shall develop such rules to govern its meetings (to include meetings dates and times) and operations as it deems advisable.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of the ordinance amendment.

Previous Meetings and History: November 1, 2021, November 15, 2021, December 6, 2021.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

BOARD AND COMMITTEE APPOINTMENT POLICY

The Mayor shall appoint a three member committee hereinafter called the "Appointment Committee". The Appointment Committee shall review all applications to boards or committees assigned per attachment "Committees of the City of Auburn"; the Committees may interview applicants, including incumbents, for vacancies on all City boards, commissions and committees.

The Appointment Committee may review term expirations and propose appointments as frequently as necessary. The Clerk shall notify the various boards, commissions, and committees of the upcoming expirations and any current vacancies., ~~the Mayor, the City Manager and the City Council members of the upcoming expirations and any current vacancies periodically, but not less than once per year.~~

Incumbents will receive notification from the Clerk reminding them of the expiration of their term and letting them know they need to reapply. Additionally, the Clerk shall post on the City website a notice of vacancy for ~~at least 30~~14 days. However, if a term becomes vacant due to a resignation, death, residency, disqualification, or other sudden vacancy, the committee may shorten or eliminate the ~~30~~ 14 day posting. The Clerk will also notify all alternate members so that they may ~~apply~~ submit a letter of interest for full membership, if interested.

A notice shall be placed on the City's website. The Clerk may create an email group of neighborhood group contacts, Chamber, contacts and other interested individuals to which the advertisement may be sent.

Applications shall only be accepted during the posted period and must be postmarked no later than the deadline. Emails are acceptable and must be time stamped in advance of the deadline. Incumbents must ~~reapply~~ submit a notice of interest each time. All new applicants are required to send a completed application form and it is recommended that they also send a resume and a cover letter to apply.

The Clerk shall notify the staff person to the board, commission, or committee in question, so that he/she can also have a conversation with any incumbents to let them know their term is expiring.

All boards, commissions, and committees will be provided with a brief description of that board's duties and the qualifications for appointment will be in the header, notebooks containing the ordinances/by-laws pertaining to each board, commission, or committee, and a list of the incumbents on all boards.

The Appointment Committee meetings are considered a Public Meeting. The date and time of the meeting will be posted on the City website at least 2 days prior to the meeting. All City

Councilors will receive copies of the applications to review at least ~~one week~~two days prior to the Appointment Committee meeting. During the Appointment Committee meetings, the Committee may enter into Executive Session to review applications.

The Appointment Committee may vote by hand or by consensus on the nominee for each vacancy. If the Appointment Committee does not agree on a nominee, a vacancy may be re-advertised or presented to the City Council.

Within two business days after the nominations are completed, the Clerk shall notify the employees who staff the boards, commission, or committees, to let them know who is being nominated or that a position is being re-advertised. Also on that day, the Clerk shall notify applicants who are being nominated. Nominees shall be told when their appointment is going to the full Council agenda. Appointments will appear under the consent agenda and enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the ~~Agenda~~ agenda under new business with possible Executive Session if needed. ~~Nominees will be asked to attend the meeting~~.

Except for legal retention purposes, resumes will not be kept for future vacancies~~, once interviews have been held~~. The process shall start fresh each time, ensuring that resumes are current and received from applicants qualified to fill the positions.

The Clerk shall prepare the order for the Council meeting, noting the names, board to which members are being appointed and the term expiration date. ~~At the meeting, the Mayor shall ask the new board members to stand and introduce themselves, once the order has passed.~~

Within two business days, after the Council appointments are passed, the Clerk shall notify each new member, congratulating them, advising them of the expiration date of their term, telling them who the staff person is and letting them know they must be sworn in before their first meeting. A copy of the notification shall be sent to the staff person for that committee along with the new member's resume.

The website shall provide a complete list of all the board and committee members currently serving~~, date of end of term, and date of original appointment~~.

All appointments in this policy are those subject to the approval of the City Council. ~~Appointments of the Mayor as conferred in Charter are subject to this process or processes.~~

Formatted: Strikethrough

Alternate Member

An alternate member shall participate in all meetings with the same rights as a full member, except they shall not have the right to vote. The right to vote shall only be conferred by a vote of full members present to fill an absence, temporarily vacated seat, or to replace a member who has removed themselves due a conflict of interest. Alternate members shall be appointed to voting rights on a rotating basis, so as to preserve fairness. The purpose of alternate members is to sustain a full voting board and to educate new interested persons before becoming

a full member. It is the intent but not mandate of the Council to promote Alternate Members to full membership before accepting new members to a board or committee.

Reports and Vacancies

A vacancy on any appointive board, commission, or committee of the city shall exist upon the occurrence of any of the following events:

(a) Death of a member.

(b) Resignation of a member.

(c) Moving by a member of the member's place of residence from the City of Auburn. When a member moves from the City of Auburn, the vacancy shall occur immediately and the member shall not serve at any further meetings.

(d) Failure of a member to attend more than three (3) consecutive meetings or absence from five (5) meetings during the preceding twelve-month period.

Reporting actions and vacancies.

The chairman of each board or commission of the city shall certify or cause the secretary of the board or commission to certify to the city council each month the actions of said board or commission, together with the record of absences of members. In such report, the chairman or secretary of each such board or commission shall notify the city council of any vacancy occurring on such board or commission. In the event that a vacancy occurs, the board or commission may, by majority vote of its membership, exclusive of the member affected, recommend to the city council that the attendance provision be waived for cause, in which case no vacancy shall exist until the city council disapproves the recommendation.

Removal from Office

An official or officials who are alleged to have caused grounds for removal from office are subject to the "Policy for Removal of Officials Appointed to Boards, Commissions and Committees" approved as part of this policy.

POLICY FOR REMOVAL OF OFFICIALS APPOINTED TO BOARDS, COMMISSIONS AND COMMITTEES

1. Purpose. The purpose of this policy is to have in place a process for the removal of officials appointed to boards, commissions and committees

2. Authority. The City Council exercises its authority to remove officials under Title 30-A, section 2601 which allows the removal for cause after notice and hearing.

3. Cause. All grounds constituting cause cannot be detailed. However, the following are examples of conduct which may result in removal for cause:

A. More than three consecutive absences or five absences within a calendar year, unexcused by the Board, Commission or Committee by majority vote. This subsection may not be used unless the records of the Board, Commission or Committee reflect the facts constituting grounds. Nothing in this subsection shall be interpreted to prevent an official from requesting a leave of absence from the Council for unusual circumstances. Unusual circumstances could include, but not be limited to, illness of the official or an immediate family member; temporary relocation for employment, military duty or educational reasons; and increased temporary child care responsibilities. In making the decision whether or not to grant a leave of absence, the Council shall balance the needs of the City and the Board, Commission or Committee with the needs of the official.

B. Inappropriate public conduct or conduct to other officials related to the office held. Examples include but are not limited to verbal abuse to other officials or members of the public, or obstruction of meetings of the Board, Commission or Committee.

C. Impairment by alcoholic beverages or drugs at Board, Commission or Committee functions.

D. Indictment or conviction (1) for a Class C or higher Crime, or (2) for a Class D or lower crime or a civil violation, directly or indirectly affecting the office held. Examples of Class D or lower crimes or civil violations affecting the office held would be shoplifting a compact disk where the office involved the handling of money; or violations of a protected resource where the Board, Commission or Committee deals with that resource. These provisions apply even when the conduct leading to the indictment or conviction has taken place outside the City of Auburn or State of Maine.

E. Other reasons related to the good of the Committee, the City or the office held.

1. Removal procedure.

A. Separation of roles. While a City Councilor sitting in a removal proceeding may be aware of the facts and circumstances leading to the proceeding, the City Council recognizes that no individual Councilor may prejudge the proceedings. Therefore, in a proceeding to remove an appointed official, the facts and circumstances shall be investigated by the City Manager or the City Manager's designee (hereinafter "the City Manager"), rather than an individual Councilor. Should allegations be brought to an individual Councilor, which the individual Councilor believes may be cause for removal, the individual Councilor shall turn the facts and circumstances over to the City Manager, and refer further inquiries to the City Manager. Inquiries to other Councilors shall be turned over to the City Manager. No Councilor shall participate in any removal hearing if that Councilor has an interest, a conflict, or is disqualified, under the Rules of Order and Procedure for Auburn City Council.

B. Investigation. The City Manager shall investigate the allegations as soon as reasonably possible. If the City Manager determines the allegations create probable grounds for removal, the City Manager shall notify the official in writing that the City Manager is contemplating a recommendation to the City Council that the official be removed, outlining the City Manager's reasons. The City Manager shall provide the official a reasonable amount of time to provide the official's position on the allegations, before the City Manager finalizes the recommendation to the City Council.

C. Hearing. If the City Manager recommends removal, the City Council shall schedule a hearing on the official's removal. The hearing shall be scheduled at a time which will allow the City Manager and the official an adequate opportunity to prepare their presentations to the City Council. At the hearing, the City Manager shall present the City's case with the official's case following. The presentations may include witnesses and exhibits, including documents. The City Manager and the officials shall provide each other a list of witnesses and exhibits at least seven days before the hearing date unless another time is agreed upon. Each party shall be allowed to ask questions of the other party's witnesses. Evidence will be admissible if it is evidence which would be relied upon by persons in the conduct of serious affairs. This means, for example, that hearsay evidence will not be excluded, and that the procedure will be conducted according to the principles of fair play rather than of strict rules of evidence.

D. Confidentiality. The hearing shall be conducted in open session unless the Council determines public discussion could reasonably be expected to cause damage to the official's reputation or the official's

right to privacy would be violated. If the Council makes that determination, all related materials will be confidential until a final, non-appealable decision. Regardless of the Council's decision on public discussion, the official may request in writing that the hearing be conducted in open session, and that all related materials be public.

Even if the hearing is conducted in open session, it is not a public hearing. Stated differently, the only persons presenting testimony or evidence will be those persons selected by the City Manager or official. The general public will not be invited to testify at the hearing.

E. Decision. After the City Council hears the evidence, it shall issue a written decision of those present and voting. The written decision shall state the facts and conclusions upon which the City Council relies in making its decision. If the written decision removes the official from office, the written decision shall become public as soon as it is a final, non-appealable, decision. The vote on the written decision shall be by majority vote.

5. Resignation. If the official elects to resign at any stage of this process, the process shall terminate, and any pending investigation or hearing under this process shall cease.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
January 18, 2022
Agenda

5:30 P.M. City Council Workshop

A. Energy & Sustainability update – Derek Boulanger & Dan Goyette (20 Minutes)
B. Disorderly Property Ordinance – Phil Crowell (20 minutes)
C. Taxicab Ordinance – Phil Crowell (20 minutes)
D. Council Vision and Goals – Council Discussion (20 minutes)

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Hawes

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 07-01182022*
Appointing Brian Dubois to the Planning Board as a full member with a term expiration of 1-1-2025.

2. Order 08-01182022*
Appointing Toni Ferraro to the Planning Board as full member with a term expiration of 1-1-2024.

3. Order 09-01182022*
Appointing Joshua Daigle to the Planning Board as an associate member with a term expiration of 1-1-2023.

4. Order 10-01182022*
Appointing Kathy Shaw to the Regulatory Advisory Board with a term expiration of 6-1-2022.

5. Order 11-01182022*
Appointing James Timoney to the Auburn-Lewiston Airport Board with a term expiration of 1-1-2023.

6. Order 12-01182022*
Re-appointing Patricia Madore to the 9-1-1 Committee with a term expiration of 1-1-2024.

7. Order 13-01182022*
Re-appointing Jennifer Kimble to the Auburn Housing Authority with a term expiration of 10-1-2025.

8. Order 14-01182022*
Appointing Tina Eugley to the Age Friendly Committee with a term expiration of 6-1-2023.

9. Order 15-01182022*
Appointing Pam Rousseau to the Agriculture Committee with a term expiration of 4-1-2024.

10. Order 16-01182022*
Appointing David Gonyea to the ad hoc Public Safety Building Committee.

II. Minutes – January 3, 2022 Regular Council Meeting

III. Communications, Presentations and Recognitions

- Communication from the Agriculture Committee
- Budget Portal Presentation – Jill Cunningham
- Police Overview
- EMS Status / Fire Overview
- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Ordinance 01-01032022
Amending Auburn's Code of Ordinance, Sec. 2-58. Time and place of regular meetings. Second reading.

2. Ordinance 02-01032022
Amending Auburn's Code of Ordinance, Sec. 2-430. Membership; responsibility (Regulatory Advisory Board). Second reading.

VI. New Business

1. Order 17-01182022
Adopting the revised CDBG-CV Budget as presented. Public hearing and vote.

2. Order 18-01182022
Adopting a remote meeting policy pursuant to 1 M.R.S.A. § 403-B.
Public hearing and vote.

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report
d. Jill Eastman, Finance Director – December 2021 Final Monthly Report

IX. Executive Sessions:

Economic development, pursuant to 1 MRSA Sec. 405(6)(C)
Economic development, pursuant to 1 MRSA Sec. 405(6)(C)
Labor negotiations, pursuant to 1 MRSA Sec. 405(6)(D)

VIII. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022

Author: Dan Goyette and Derek Boulanger

Subject: Energy and Sustainability Update

Information: Beginning in 2013, the City of Auburn has undertaken several energy reduction and sustainability projects to reduce costs and reduce the City's environmental impact. These projects include converting all City facilities to natural gas, installing LED lighting, purchasing, and converting streetlights to LED, as well as entering into long term agreements to purchase renewable energy to meet the City's electricity needs.

City Budgetary Impacts: The City has saved hundreds of thousands of dollars over the life of these projects.

Staff Recommended Action: Continue to encourage City staff to seek out and complete these types of projects.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: None

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022

Author: Phil Crowell, City Manager

Subject: Disorderly Housing

Information: It is the responsibility of the city to protect the health, safety, and welfare of the residents of the Auburn by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Often, these incidents are occurring in housing units or rentals which are unoccupied by the owners. Inquiries have been done with other municipalities to determine how enforcement is being handled.

Many communities over the past few years have adopted a Disorderly Housing Ordinance. Communities have found that chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

Most ordinances define a "disorderly house" as any building which the Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, cohabitees, residents, guests or invitees and that would have a tendency to unreasonably disturb the community, the neighborhood or an ordinary individual in the vicinity of said building. This ordinance would not have an impact for someone calling for service as it relates to protection like a domestic assault, sexual assault, or protection from abuse orders.

Attached are two examples of ordinances in Portland and Gorham for the council to consider.

City Budgetary Impacts: N/A

Staff Recommended Action: Review and recommend if staff should proceed with an ordinance at the 2/7/22 meeting.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Portland Disorderly Housing Ordinance and Gorham Disorderly Housing Ordinance.

Sec. 6-199. Reserved.

ARTICLE IX. DISORDERLY HOUSES

Sec. 6-200. Disorderly houses prohibited.

(a) No person shall occupy as owner-occupant or shall allow another to occupy any dwelling, dwelling unit, rooming house, or rooming unit (hereinafter jointly and severally "building") which is a disorderly house as defined herein.

(b) A "disorderly house" is any building which:

(1) The police have visited a minimum number of times in any thirty (30) day period, as set forth in paragraph (3) below, in response to situations which are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and which would have a tendency to unreasonably disturb the community, the neighborhood or an ordinary individual in the vicinity of said building, including, but not limited to: loud music; boisterous parties; sounds emanating from within the structure which are audible outside the building; loud noise or fights within the building or in its vicinity involving tenants of the building or their invitees (excluding incidents involving domestic violence); tenants or invitees of tenants being intoxicated on public ways in the vicinity of the building; other similar activities in the building or outside the building itself; or

(2) The police have visited three (3) or more times in any thirty (30) day period in response to situations which are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and involve the arrest of owners or tenants or their invitees for activities which constitute either a crime or civil infraction under either state or local law, or create a reasonable suspicion that illegal drug use or sales under 17-A M.R.S.A. chapter 45 or prostitution or public indecency under 17-A M.R.S.A. chapter 35 has occurred; or

(3) The following table delineates the number of police visits per dwelling size which create a disorderly house under paragraph (1) above:

Units per building	Number of visits by police in any 30-day

	period
5 or fewer	3
6 to 10	4
11 or more	5

(c) The situation to which the visit pertains shall be documented by the police department. Such documentation may include sworn affidavits by named citizens which may be sufficient to create a reasonable suspicion said illegal activity has occurred. (Ord. No. 165-10/11, 4-4-11)

Sec. 6-201. Notice of disorderly house.

Whenever a building has been identified as a disorderly house by the city, it shall cause written notification of the events which form the basis for that designation to be given to the owner as long as that owner has registered in accordance with section 6-150 et seq. (disclosure of building ownership). Such notice shall be sufficient for all legal purposes. The notice shall require the owner to meet with representatives of the city (including the police department) within five (5) business days from the date of the written notification, or such other time as is agreed upon by the Police Chief or his or her designee, to identify ways in which the problems which have been identified will be eliminated.

At the time of said meeting, the owner shall be obligated to provide to the city the following documentation:

(1) A copy of the names of all tenants or other persons authorized to reside or presently residing in the building and the units they occupy;

(2) Copies of all leases with tenants residing in the building;

(3) Contracts with any property manager or other person responsible for the orderly operation of the building;

(4) An accurate and up to date disclosure of building ownership form as required in 6-150 et seq.

In addition, the owner will agree to take effective measures to address the disorderly house, which measures shall be memorialized in a written agreement at the conclusion of the meeting with the city and shall be implemented within one (1) week

of said meeting unless another date is agreed upon by the police department. Failure to enter into such an agreement at the conclusion of the meeting will be deemed a violation of this housing code, and the city may file a complaint in the district court seeking all compensatory and equitable relief permitted by law.

If the same building should be classified as a disorderly house on a subsequent occasion within three (3) years, then the city is under no obligation to meet with the owner but may condemn and post the building or any units therein, and/or proceed directly with a complaint to the district court seeking all compensatory and equitable relief permitted by law.

(c) The notices provided for in this section may be given to an owner who has not complied with section 6-150, but are not required.
(Ord. 165-10/11 – 4/4/11)

Sec. 6-202. Enforcement.

(a) Authority to Enforce. If the owner (1) refuses to agree to take effective measures to address the disorderly house, (2) takes ineffective measures to address the disorderly house as determined by the city, (3) fails to implement the agreement reached with the city to address the disorderly house or (4) if, in the discretion of the city, the disorderly house requires immediate posting, the city may condemn and post the building against occupancy, and/or may file a legal action against the owner seeking any and all damages and remedies to which it is entitled pursuant to state and local laws.

(b) Notice of Suit. If the City pursues legal action against an owner or landlord for a disorderly house violation, notice shall be provided to the tenants by the City. Notice shall be made within a reasonable time following the service of the complaint upon the property owner. If a tenant list has been previously provided by a landlord, notice shall be made by regular mail to all known tenants in the building. If no tenant list has been provided, notice shall be made by regular mail to all occupants in each unit of the building.

(c) Condemnation. In the event that condemnation is required to address one or more disorderly house violation(s), the City shall provide notice to tenants of the building. Notice shall be made within a reasonable time following the City’s election to condemn the building. Notice shall be made by: (1) regular mail

to all known tenants or to all occupants in each unit in the building; and (2) by posting a copy of said notice at the premises.
(Ord. No. 165-10/11 – 4/4/11; Ord. No. 271-17/18, 7-16-2018)

Sec. 6-203. Cost of service for responses to disorderly houses.

(a) Whenever the police department is required to respond to a situation at a disorderly house, as defined in section 6-200, which constitutes the ninth (9th) or greater response in any thirty (30) day period, the owner of the disorderly house shall pay the cost of service for each such response as follows:

(1) For each such response for service the owner shall pay fifty dollars ($50.00) which shall be in addition to any penalty to which the owner may be subject.

(b) Failure to pay the cost of service within thirty (30) days after demand therefor shall subject the owner to the penalties provided in section 1-15.

(c) Charges which become payable hereunder shall be treated as liens on the property in question and shall be enforced in accordance with the provisions of section 1-16.
(Ord. No. 165-10/11, 4-4-11)

Sec. 6-204. Violations.

Any person violating any of the provisions of this article or failing or neglecting or refusing to obey any order or notice of the police department issued hereunder shall be subject to a penalty as provided in section 6-1.
(Ord. No. 165-10/11, 4-4-11)

ARTICLE X. ENERGY BENCHMARKING

6-205. General.

The energy and water use of municipal and covered buildings shall be benchmarked in accordance with this article.
(Ord. No. 67-16/17, 11-7-2016)

6-206. Purpose.

To encourage efficient use of energy and water and to reduce the emission of greenhouse gases, this ordinance requires owners of Covered Properties and Municipal Properties to annually measure and disclose energy usage to the Department. Furthermore,

TOWN OF GORHAM
DISORDERLY HOUSE ORDINANCE
Adopted: September 3, 2019

SECTION 1. TITLE.

This Ordinance shall be known as the "Town of Gorham Disorderly House Ordinance."

SECTION 2. PURPOSE.

The purpose of this Ordinance is to protect the health, safety, and welfare of the residents of the Town of Gorham by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Nothing contained in this Ordinance is intended to dissuade, discourage or prohibit any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities, including, but not limited to, the Gorham Police Department.

SECTION 3. LEGISLATIVE FINDINGS.

The Town Council hereby finds that:

(a) The Town has a substantial and compelling interest in protecting the health, safety, property, and welfare of its citizens and the neighborhoods affected by chronic unlawful or nuisance activity as well as in not dissuading, discouraging or prohibiting any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities.

(b) Chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

(c) The existing ordinances and enforcement processes of the Town do not adequately control chronic unlawful or nuisance activity or its detrimental effects on citizens and neighborhoods where such chronic activity occurs.

(d) Establishing the regulatory framework contained herein will alleviate the problems created by chronic unlawful or nuisance activity through early intervention by the Police Department.

SECTION 4. DISORDERLY HOUSES PROHIBITED.

(a) No person shall occupy as owner-occupant or shall allow another to occupy any dwelling, dwelling unit, or rooming house (hereinafter jointly and severally "building") which is a disorderly house as defined herein.

(b) A "disorderly house" is any building which:

(1) The Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and that would have a tendency to unreasonably

disturb the community, the neighborhood or an ordinary individual in the vicinity of said building, including, but not limited to: loud music; boisterous parties; sounds emanating from within the structure which are audible outside the building; loud noise or fights within the building or in its vicinity involving tenants of the building or their invitees (excluding any request for police protection or any police intervention in the face of a threat or a perceived threat to person or property, or any request for the assistance of the police to enforce a court order, including, but not limited to, circumstances in which the request for assistance or other police intervention arises from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or near the building); owners, tenants, or invitees of owners or tenants being intoxicated on public ways in the vicinity of the building; other similar activities in the building or outside the building itself; or

(2) The police have visited five (5) or more times in any thirty (30) day period in response to situations which are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and involve the arrest or summons of owners or tenants or their invitees for activities which constitute either a crime or civil infraction under either state or local law (excluding arrests or summonses arising from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or near the building), or create a reasonable suspicion that illegal drug use or sales under 17-A M.R.S.A. Chapter 45 or prostitution or public indecency under 17-A M.R.S.A. Chapter 35 has occurred at the property.

(c) The situation to which the visit pertains shall be documented by the Police Department. Such documentation may include sworn affidavits by named citizens that may be sufficient to create a reasonable suspicion said illegal activity has occurred.

SECTION 5. NOTICE OF DISORDERLY HOUSE.

(a) Whenever the Police Department has identified a building as a disorderly house, it shall cause written notification of the events that form the basis for that designation to be given to the owner. The notice shall require the owner to meet with representatives of the Town (including the Police Department) within five (5) business days from the date of the written notification, or such other time as is agreed upon by the Police Chief or his/her designee, to identify ways in which the problems that have been identified will be eliminated.

(b) At the time of said meeting, the owner shall be obligated to provide to the Town the following documentation:

(1) A list of the names of all tenants or other persons authorized to reside or presently residing in the building and the units they occupy;

(2) Copies of all leases or occupancy agreement(s) with tenants or other persons residing in the building (confidential personal or financial information may be omitted);

(3) Contracts with any property manager or other person responsible for the orderly operation of the building; and

(4) Proof of building ownership.

In addition, the owner shall agree to take effective measures to address the disorderly house, which measures shall be memorialized in a written agreement at the conclusion of the meeting with the Town and shall be implemented within one (1) week of said meeting unless another date is agreed upon by the Police Department. The Police Chief or his or her designee has authority to execute such agreements on behalf of the Town. Failure to enter into such an agreement at the conclusion of the meeting will be deemed a violation of this Ordinance, and the Town may file a complaint in court seeking all remedies permitted by law as set forth in Section 7 of this Ordinance.

(c) If the same building should be classified as a disorderly house by the Police Department on a subsequent occasion within three (3) years, then the Town is under no obligation to meet with the owner but may, after notice and hearing before the Town Council, condemn and post the building or any units therein against occupancy as set forth in Section 7(a), and/or proceed directly with a complaint in court seeking all remedies permitted by law as set forth in Section 7(a).

(d) The notices provided for in this section may be given to any person, including any legal entity having the right of legal title or the beneficial interest in the disorderly house or any portion thereof, as that interest is recorded in the assessing records of the Town or the Registry of Deeds of Cumberland County, which shall be sufficient for all legal purposes. Notice shall be provided to the owner and any non-owner occupants of the building (if known).

SECTION 6. APPEAL PROCESS.

The owner and/or any non-owner occupant(s) of a building that has been classified as a disorderly house by the Police Department may appeal such classification in writing to the Zoning Board of Appeals within fourteen (14) days of notification of such classification or within seven (7) days of any meeting with representatives of the Town pursuant to Section 5. In the event of a timely appeal, the Zoning Board of Appeals will provide the property owner, non-owner occupants (if known), and the Police Chief with seven (7) days' advance notice of a hearing date and time. At such hearing, the appellant and the Police Chief shall have the right to present oral or documentary evidence for the Zoning Board of Appeals' consideration. The owner and any non-owner occupants shall have the right to explain the events or any mitigating circumstances surrounding the alleged violation(s) and to present oral or documentary evidence for the Zoning Board of Appeals consideration. The Zoning Board of Appeals shall issue a written decision on the appeal, determining whether the violation(s) occurred, within fourteen (14) days of the hearing.

SECTION 7. ENFORCEMENT.

(a) It shall be the duty of the Police Department to administer and enforce the provisions of this Ordinance. If the owner (a) refuses to meet with representatives of the Town as set forth in Section 5 above, (b) refuses to agree to take effective measures to address the disorderly house, (c) takes ineffective measures to address the disorderly house as determined by the Town, (d) fails to implement the agreement reached with the Town to address the disorderly house, or (e) if, in the discretion of the Town, the disorderly house requires immediate posting in order to protect the public health, safety or welfare, the Town may condemn and post the building or any units therein against occupancy, and/or may file a legal action against the owner and/or violator seeking any and all remedies to which it is entitled pursuant to State and local laws, including, without limitation, declaratory and injunctive relief.

(b) In the event that condemnation and posting the building or any units therein against occupancy is necessary to address the disorderly house, the Town shall provide all non-owner occupants of the building with written notice of said condemnation at least thirty (30) days in advance of the act of condemnation or the posting against occupancy.

(c) In the event of legal action against an owner and/or violator for a disorderly house violation, the Town shall name the non-owner occupants of the building (if known) as parties-in-interest to said legal action.

SECTION 8. VIOLATIONS.

Any person violating any of the provisions of this Ordinance or failing or neglecting or refusing to obey any order or notice of the Police Department issued hereunder shall be subject to a penalty as provided herein.

SECTION 9. CIVIL PENALTIES.

Any person who is found to be in violation of any provision of this Ordinance shall be subject to a civil penalty of not less than one thousand dollars ($1,000.00) and not more than two thousand dollars ($2,000.00), or as otherwise provided by 30-A M.R.S.A. § 4452, as may be amended from time to time. Each violation of a separate provision of this Ordinance, and each day of violation, shall constitute separate offenses. In addition, if the Town is the prevailing party in an enforcement action, said person shall also be liable for all reasonable expenses incurred by the Town in the enforcement of this Ordinance, including, but not limited to, staff time, attorney's fees, and costs. All civil penalties shall inure to the benefit of the Town of Gorham.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022

Author: Phil Crowell, City Manager

Subject: Ordinance change for Taxicab Licensing

Information: The Auburn Charter sec. 2.8 states "the city council shall provide for the review of the city's charter and ordinances in their entirety at least once every 15 years". Council recently completed the review of the City Charter and the City Ordinances. Last year, information was shared regarding the economic impact our ordinance has on taxi businesses and the council was advised that language changes would be submitted for consideration. With Lyft and Uber being more prevalent in the community, added regulations on a taxi business does not allow them to be marketable.

Staff is recommending the city council adopt the city ordinance changes regulating taxicab businesses to be more in alignment with the requirements required of Transportation Network Companies like an Uber or Lyft. These changes were discussed with the one licensed cab company in Auburn and the owner is very appreciative of this consideration.

City Budgetary Impacts: Less than $200.00 in revenue

Staff Recommended Action: Review and recommend changes to the edits

---

Previous Meetings and History: Charter and Ordinance review discussions in 2020 and 2021.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Article XIV Taxicabs, Appendix A

ARTICLE XIV. TAXICABS

DIVISION 1. GENERALLY

Secs. 14-430—14-450. Reserved.

DIVISION 2. BUSINESS LICENSES

Sec. 14-451. Required; application.

(a) *License required:* No person shall operate a taxicab business without first obtaining a license to do so. Any person desiring to operate a taxicab business in the city shall first submit a written application therefore to the city clerk or designee which shall comply with the requirements of this section.

(b) *Signature:* Every application shall be signed and verified by each of the principal officers of the applicant if the applicant is a corporation, and in all other cases, by all persons having actual ownership interests in the applicant. If the applicant is a corporation, the application shall state the name and address and the date and place of birth of each of the principal officers of the applicant and of every person having management authority in the business of the applicant. In all other cases, the application shall state the name and address and the date and place of birth of every person having an actual ownership interest or having management authority in the business of the applicant.

(c) *Insurance:* The application shall be accompanied by a certificate of liability insurance, providing for minimum coverage of $50,000.00 property damage, $100,000.00 bodily injury per person, and $300,000.00 per accident.

(d) *Criminal conviction statement:* The application shall include a record of disqualifying criminal conviction of any principal officer of a corporation or owner of the business or of any person having management authority in the business, or a statement that no such convictions exist.

(e) *Vehicle information:* The application shall include the make, model, year, serial number, and license plate number of each vehicle for which a taxicab business license is sought and the address of the garage or other terminal at which the vehicle will be stationed when not in service. The licensee must also provide a copy of the valid state of Maine registration for each vehicle to be licensed.

(f) *Vehicle description:* The application shall include a detailed description of the graphic design, insignia, wording, and coloring which will appear on the vehicle, if licensed.

(Ord. No. 38-02072011-05, att. § 24-427, 2-7-2011)

Sec. 14-452. Denial of taxicab business licenses.

(a) The city clerk or designee may deny an application for a taxicab business license for any of the following reasons:

(1) A corporate applicant is not licensed to do business in this state.

(2) A principal officer or other person having actual ownership interest in a corporate applicant or managing authority in the business has a disqualifying criminal conviction.

(3) Any person having an actual ownership interest or management authority in a non-corporate applicant has a disqualifying criminal conviction.

(4) An applicant or any of the principal owners having a controlling interest held a taxicab business license in the city which was revoked within the three years preceding the filing of the application.

(5) The application contains a material and knowingly false statement of fact.

(b) The city clerk or designee shall promptly give written notice to the applicant of the reasons for denial and shall keep a copy on file.

(Ord. No. 38-02072011-05, att. § 24-428, 2-7-2011)

~~**Sec. 14-453. Inspections.**~~

~~Before a taxicab business license may be issued, all taxicabs to be covered by the license shall be thoroughly inspected by the police chief or designee at the applicant's expense and certified to be in safe condition. The applicant shall make its taxicabs available for such additional inspections at its expense as the police chief may reasonably require and shall not operate any taxicab not certified to be in safe condition until the unsafe condition is corrected.~~

~~(Ord. No. 38-02072011-05, att. § 24-429, 2-7-2011)~~

Sec. 14-454. Cancellation of insurance policy.

Should an insurance policy of any licensed taxi business in the city be canceled before its expiration date, the issuing company shall mail a 30-day written notice to the city. This notice should be sent to ~~the police chief and~~ the city clerk.

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

Sec. 14-455. Suspension of taxicab business licenses.

(a) The city clerk or designee shall suspend any taxicab business license for up to five days when satisfied that the licensee has:

(1) Failed to notify the clerk of any material change of fact set forth in the license application~~;~~.

(2) Failed to exercise proper control over its taxicab drivers as evidenced by the existence of three or more driver suspensions during the period of 12 months~~;~~.

(3) Determination that a taxicab driver was operating a cab with any disqualifying criminal conviction.

(4) Determination that a driver was operating a cab with a record of convictions for reckless driving, driving to endanger, operating under the influence, or attempting to operate under the influence currently or during the year preceding the application.

(5) Determination that a taxicab driver was operating a cab with a driver's license that is presently revoked or has been revoked during the last three years preceding the application.

(6) A driver knowingly took a longer route to his destination than was necessary unless so requested by the passenger; knowingly conveyed any passenger to a place other than that which the passenger

specified; transported any person other than the passenger first engaging the taxicab without the express consent of such passenger; harassed, threatened, or assaulted a passenger; charged more than the set fare.

~~(3) Permitted a taxicab to be operated when it has been determined to be in unsafe condition;~~

~~(4) Refused to comply with the provisions of this article regarding the maintenance and inspections of its taxicabs.~~

(b) In the event of a second or subsequent violation of the terms of these ordinances within the period of twelve months, the city clerk or designee shall suspend the licensee's taxicab business license for up to ten days. The length of the period of suspension shall vary in each case subject to the stated maximums depending on the gravity of the offense.

(Ord. No. 38-02072011-05, att. § 24-431, 2-7-2011)

Secs. 14-456—14-474. Reserved.

~~*DIVISION 3. TAXICAB DRIVER'S LICENSES*~~

~~Sec. 14-475. Application for taxicab driver's licenses.~~

~~(a) Any person who wishes to secure a taxicab driver's license shall submit a written application to the city clerk or designee which shall contain the following:~~

~~(1) The age of the applicant.~~

~~(2) A complete statement of the applicant's health and physical condition.~~

~~(3) A complete record of the applicant with respect to any disqualifying criminal conviction or a statement that no such conviction exists.~~

~~(4) A record of convictions for reckless driving, driving to endanger, operating under the influence, or attempting to operate under the influence during the year preceding the application.~~

~~(5) A statement as to whether any driver's license held by the applicant is presently revoked or has been revoked during the last three years preceding the application and the reasons for such revocation or revocations.~~

~~(6) An appropriate form or statement over the signature of the applicant giving all persons and governmental agencies having information relevant to the above items permission to release the same to the clerk.~~

~~(b) The application for a license under this article shall be accompanied by a photograph, in duplicate, of the applicant, which meets specifications for a passport photograph and is current within 30 days annually.~~

~~(Ord. No. 38-02072011-05, att. § 24-432, 2-7-2011)~~

~~Sec. 14-476. Denial of taxicab driver's licenses.~~

~~(a) The city clerk or designee shall deny an application for a taxicab driver's license if:~~

~~(1) The applicant is under 18 years of age.~~

(2) The applicant does not have a valid motor vehicle operator's license.

(3) The applicant is unable to operate a taxicab safely by reason of physical incapacity.

(4) The applicant received a disqualifying criminal conviction at any time during the previous five years, provided that the conviction was for an offense that is reasonably related to the operator's fitness to operate a taxicab.

(5) The applicant has been convicted during the preceding three years of reckless driving, driving to endanger, operating under the influence or attempting to operate under the influence, or an equivalent offense in another state.

(6) His driver's license has been revoked during the preceding three years for any reason reasonably related to his ability to safely operate a taxicab.

(b) The city clerk or designee shall keep a written record of every decision to deny a taxicab driver's license.

(Ord. No. 38-02072011-05, att. § 24-433, 2-7-2011)

Sec. 14-477. Suspension of taxicab driver's licenses.

(a) The city clerk or designee shall suspend any taxicab driver's license when satisfied that the licensee:

(1) Knowingly took a longer route to his destination than was necessary unless so requested by the passenger.

(2) Knowingly conveyed any passenger to a place other than that which the passenger specified.

(3) Transported any person other than the passenger first engaging the taxicab without the express consent of such passenger.

(4) Harassed, threatened, or assaulted a passenger.

(5) Charged more than the maximum fare specified in this article.

(6) Failed to notify the clerk of any change of material fact set forth in the application for such license.

(7) Removed from the taxicab or obscured the notice required by this article.

(b) The suspension shall be for up to five days. In the event of a second or subsequent violation of these ordinances within a twelve month period, the city clerk or designee shall suspend the license of the taxicab driver for up to ten days. The length of the period of suspension shall vary in each case subject to the stated maximums depending on the gravity of the offense.

(Ord. No. 38-02072011-05, att. § 24-434, 2-7-2011)

Secs. 14-478—14-499. Reserved.

DIVISION 4. OPERATION AND EQUIPMENT REQUIREMENTS

Sec. 14-500. List of taxicabs in active use.

Every taxicab business shall maintain an up-to-date list on file with the city clerk or designee containing its current business address and the make, model, serial number, and license plate number of each taxicab being operated by it and the garage or other terminal at which the vehicle will be located when not in service together

with such additional information regarding the operating condition of each taxicab as the police chief may reasonable require.

(Ord. No. 38-02072011-05, att. § 24-430, 2-7-2011)

Sec. 14-501. Equipment condition and maintenance.

Every taxicab operated on the streets of the city shall be maintained in clean and serviceable condition and adequate repair. Each taxicab shall have two doors affording direct entrance and exit to and from the passenger compartment. Clean and adequate repair shall mean, without limitation, the following:

(1) No visible tears in carpeting;

(2) No dents larger than six inches in diameter;

(3) No tears in seat upholstery;

(4) No loose trash or large amounts of dirt or sand in the interior passenger area, whether or not the area is currently occupied by a passenger;

(5) No missing trim or body work;

(6) No cracks in windshield or windows;

(7) Seat belts for all passenger seats visible and in working order;

(8) No missing hubcaps;

(9) No visible primer paint; and

(10) No rust greater than one inch in diameter.

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

Sec. 14-502. Vehicle lettering design.

The name of the owner of the taxicab shall appear on the exterior of the taxicab in letters not less than two inches in height. In additions, the business telephone number of the taxicab owner may be included together with an identifying design. ~~Any such design must first be approved by the police chief as not being confusing to customers or unnecessarily distracting to other motorists.~~

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

~~Sec. 14-503. Display of cards.~~

~~All licensed taxicabs shall have three cards of a size and form to be established by the police chief. These cards shall be placed or secured in a frame so that they may not be easily tampered with or destroyed. Each card shall show the license number assigned to the vehicle by the city clerk or designee and a statement that any customer complaint shall be directed to the police chief and shall include the license number of the taxicab, the schedule of the established rates of fares and zones, and the driver's identification card and number.~~

~~(Ord. No. 38-02072011-05, att. § 24-421, 2-7-2011)~~

Sec. 14-504. Number of passengers.

No driver shall permit more persons to be carried in the taxicab than the seating capacity of the cab.

(Ord. No. 38-02072011-05, att. § 24-422, 2-7-2011)

Sec. 14-505. Record of daily trips.

The owner of each licensed taxicab shall maintain daily records of trips made by the vehicle. These records shall be kept in a form and manner approved by the police chief and shall be open to inspection by any police officer delegated by the police chief.

(Ord. No. 38-02072011-05, att. § 24-423, 2-7-2011)

Sec. 14-506. Receipts for fares.

Every taxicab driver, when requested by a passenger, shall furnish a signed receipt showing the owner's name together with the date and amount of the fare charged.

(Ord. No. 38-02072011-05, att. § 24-424, 2-7-2011)

Sec. 14-507. Consent of passenger to additional fares.

No taxicab driver shall carry any person other than his initial passenger without first obtaining the first passenger's consent.

(Ord. No. 38-02072011-05, att. § 24-425, 2-7-2011)

Sec. 14-508. Rates and zones.

~~(a) The city council, on its own initiative, or on petitions of ten or more residents of the city, or two or more persons regularly operating taxicab businesses in the city, may revise the schedule of fares and definitions of the zones for such fares. The schedule of fares shall be established and the zones defined so as to protect the public interest while at the same time providing taxicab owners with a reasonable return on their investment.~~

~~(b) At least seven days before any action is taken by the city council at alter existing fares or change the description of zones, notice shall be given by publication in a daily newspaper having a general circulation in the city of the time and place of the meeting at which such action is proposed to be taken and of the fact that the city council will be considering a proposal to alter existing taxicab fares or zones. When the request for a change in rates or zone descriptions is initiated by one or more taxicab businesses, the applicants shall assume the expense of publishing the notice of the hearing.~~

~~(c) At the hearing, the city council shall consider any relevant evidence that is offered to show whether or not fares or zone descriptions should be altered.~~

~~(d) A schedule of the rates and zones currently in effect shall be kept on file in the office of the city clerk.~~

~~(Ord. No. 38-02072011-05, att. § 24-426, 2-7-2011)~~

A schedule of the rates and zones determined by the taxicab business must be submitted to the city clerk upon approval of a new license, the scheduled fee will be considered when approving the license. Established taxicab businesses must submit any revisions to the rates and zones 30 days before the revision goes into effect. The city council, on its own initiative, or on petitions of ten or more residents of the city may conduct a hearing regarding the schedule of fares and definitions of the zones for such fares. The city council has the authority, after a hearing, to determine if the revision is relevant and should be adjusted.

Secs. 14-509—14-529. Reserved.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022

Author: Phil Crowell, City Manager

Subject: Council Vision, Goals, and Goal Statements

Information: On November 8, 2021, the newly elected council members and mayor participated in a retreat to establish a vision and goals for the 2021 – 2023 term.

Attached is the document with the council vision and goals. This workshop is to focus on the development of the goal statements for each of the goals. Staff will then take the goal statements and create a strategy for the goals for the next two years. The process will include the SMART goal exercise used in the Strategic Plan. The goals will be Specific, Measurable, Assignable, Realistic, Time-based, Evaluated, and Reviewed.

As a starting point for the statement, the goal statements in the Strategic Plan have been brought into the goal that best aligns with the statement. The council will add language to complete the statements.

City Budgetary Impacts: None

Staff Recommended Action: Review and recommend goal statements

2021-2023 City Council Vision:

Auburn will embrace **possibilities** and create **opportunities**.

The City of Auburn & the Auburn City Council are committed to promoting diversity, equity and inclusion. Our municipal government understands that embracing equity is fundamental to Auburn's continued success. Our "equity lens" and core values of **compassion, empathy, collaboration, accountability, diversity, leadership and service** will be applied to all decision-making. This will lead to positive outcomes including: thriving people, a thriving economy and a thriving community.

2021-2023 City Council Vision & Goals | We will make our vision a reality by...

Planning for a better future

Develop education strategies for all stages of life that are dynamic, innovative, and collaborative to develop a foundation for economic and personal development. Attract quality businesses by creating an environment where business can succeed. Collaborate with existing partners to ensure and foster a sustainable, satisfying lifestyle. Recognize the value of historic, cultural, and artistic assets and activities in enriching lives and promoting community life. Support the development of future opportunities in culture and arts.

Enacting resilient solutions

Create, support, and market an accessible, connected, and diverse network of recreation and natural resources that provides both destinations and pathways for residents. Continue to improve access to training programs designed to address workforce gaps. Provide diverse, well-rounded education by partnering with available resources and businesses. Protect funding and support educators, facilities, and accessibility.

Reclaiming our streets

Develop clear identities for Auburn's downtown and industrials park that consider scale, connectivity, use and integrity to maximize their appeal. Invest in and maintain infrastructure necessary to provide a sustainable, safe, and livable environment.

Enriching neighborhood identities

Support all residents by fostering a sense of unity while honoring diversity and coordinating community resources and assets to provide "wraparound" support to all residents. Dedicate resources to define our image and identity to build a sense of community.

Making housing more attainable

Efficiently utilize current housing stocks and sustainable targeted residential development that supports and attracts growth, residents, and workforce.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022 **Orders:** 07-01182022 through 16-01182022

Subject: A New Form Has Been Submitted - Board/Committee Application

The following form has been submitted by an end-user of the website: Board/Committee Application

First Name: Patricia

Middle Initial: A.

Last Name: Mador

Residence Address: 49 Hampton Avenue

Ward: Ward 2

City: Auburn

Home Phone: 207 576-3330

Cell Phone: 2075763330

E-mail Address: mainelwyr@aol.com

Current Occupation: Assistant District Attorney, District 3

Previous Occupation (if retired or no longer working):

Education and/or experience: Bates College BA; Maine Law School JD; prosecutor since 1986.

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: 9-1-1 Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Reappointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I bring a perspective to the Committee that few others have given my 35 years as a State prosecutor. In my position, I and others in my office interact with employees of 911 every day as they are usually the first point of contact for crime victims. I know how vital and important their work is and I understand how LA 911 interfaces with law enforcement, fire services, and the public. I believe this gives me a broad perspective on the important and essential services provided.

What do you hope to accomplish?: The current multiyear radio project is reaching the finish line and I would like to see that through. Additionally, with the City's plan to build a public safety building that will incorporate LA 911, I believe the board needs to draw on its experienced members to insure the best possible outcome for that project. Furthermore,

the current Director is retiring and a new director is expected to be hired in the near future. I am a member of the interview committee for that position.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Only 911

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: None

Dates served (if known):

How did you learn of this vacancy?: Was notified by City Clerk that my current appointment expires in 1/22 and if I wanted to continue to serve, I would have to reapply.

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Patricia A. Mador

Date of Electronic Signature: 11/29/2021

Previous Occupation (if retired or no longer working): retired physics teacher

Education and/or experience: BS Earth Science, Ultrasound Tech

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Agriculture Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have lived in Auburn longer than I have lived anywhere. It is my home and has become my transplanted deep roots. I am a gardener/farmer and forager, I grow my own food and "can" it. I know the importance of the resources we have. I want to protect them.
Our food sources come from farms. Local farms support our economy, but also feed us.
Forestry isn't what I thought it was 23 years ago .The ice storm of 1998 was my epiphany. I used to think no tree should be cut. I never understood forest management as I do today.
I want to be part of insuring the protection of our resources. I want to work at protecting the Ag Land for farming, foresting, and for what is to come.

What do you hope to accomplish?: I think the Ag committee has done a great job. I would like to continue the mission. I think it is important for people to get involved so it isn't the same people all the time. The teacher in me wants to make sure everyone else knows the importance.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: no

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: no

Dates served (if known):

How did you learn of this vacancy?: Asking how to get involved and got answers.

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Pamela Rousseau

Education

AAS Occupational Health & Safety, CMTC May 1995

BA Natural and Applied Science, University of Southern Maine May 2004

Briefly describe why you want to serve on this committee.....

I have lived in Auburn for over 35 years, and really treasure this community and all it has to offer. My first experience flying into Auburn was on a Bar Harbor commuter flight from Boston to Auburn....it was the shortest runway I'd ever seen. Fern Giguere was the general manager, who came out to the plane, helped us with our luggage, and told us that he had just put another log in the woodstove – welcome to Auburn, Maine!

I'm not a pilot, but I have pilot friends who know my interest in bringing the airport to the busy airpark it once was, and who've encouraged me to apply for a seat on the Airport Board. I think the Airport is under-appreciated, and underutilized, by both aviation enthusiasts and the local community population, and I'd like to help change this.

What do you hope to accomplish.....

I think the Airport has a lot of untapped potential. With the right management, the airport could see some great growth. It has been a while since I've heard the local aviation community so enthusiastic about the possibilities for the airport. I want to support their enthusiasm, which I think I can do as a Board member. I have over 30 years of management and problem solving skills, leadership training, and experience working with diverse groups of individuals. I also want to see more community involvement. There's so much going on locally, it would be great for the Airport to be part of all that's happening.

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I wish to serve on the planning board to assist in further advancing Auburn?s success in growth and development. I would be able to help the team ensure smart growth within the city and the broader community. Auburn has been a model for other cities by adding housing, readdressing zoning, simplifying permits and regulations, so it would be a great honor to be apart of the continued growth and to create a new vision for the future of the city that is centered around increasing the prosperity of every resident.

What do you hope to accomplish?: As part of a dedicated team, I could help take Auburn to another level of achievements by reaching current goals while establishing new ambitions for the future. I understand the importance of economic sustainability for the community, and how crucial development and strategic planning are for setting the stage

for sustained prosperity. It is my goal to help polish and improve the environment that will attract businesses, residents and continue to develop Auburn for future success.

Hi Sue,

I just submitted two applications online I am just checking to make sure you received them. I would like to move from the complete streets committee to the planning board so I submitted an application in for that. In case I don't happen to get the planning board I did put in an application for re-appointment to the complete streets. However I only have time for one board/committee so in the event I was appointed to both, I would plan to accept the planning board and resign from the complete streets committee. Sorry in advance for the confusion, I just didn't know how to pass that information along. Attached is a resume for the planning board. Thank you!,

Joshua Daigle

Good afternoon, Joshua,

I wanted to notify you that your term on the Complete Streets Committee is due to expire on January 1, 2022. If you would like to be considered for re-appointment, please submit an application to me.

Below is the link to our website where you can either submit an application electronically, or you can print a copy and submit a hard copy if you would like to be considered to serve another term.

The deadline to submit your application is Friday, December 31st.

IN COUNCIL REGULAR MEETING JANUARY 3, 2022 VOL. 36 PAGE 207

Mayor Levesque called the meeting to order at 7:03 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilor Hawes had an excused absence. All other Councilors were present.

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 01-01032022*
Confirming Chief Moen's Constable Appointments.

2. Order 02-01032022*
Re-appointing Brian Bachelder as the Local Sealer of Weights and Measures.

3. Order 03-01032022*
Changing the date of the second regular City Council meeting in January from January 24, 2022 to January 18, 2022 due to the holiday.

4. Order 04-01032022*
Setting the time to open the polls for all 2022 elections at 7:00 am.

Councilor Staples requested that item 3 be removed from the consent agenda and moved to new business.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage of the 3 remaining consent items.

Passage 6-0.

II. Minutes – December 20, 2021 Regular Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the December 20, 2021 Regular Council Meeting.

Passage 6-0.

III. Communications, Presentations and Recognitions

- Swearing in Officer Logan Rossignol
- Planning Board reasons for recommendations for residential strips
- Communication – Mayor Appointments
- Council Communications (about and to the community)

Mayor Levesque – reported that he is working on an executive summary on the New Year's Eve Auburn event adding that it was a success. He stated that there are vacancies on the Planning Board, and provided an update on the current legislative session.

Councilor Walker – reported back on the New Year's Day event at Senior Center put on by the Age Friendly Committee, adding that it was a success and he thanked the sponsors for their contributions.

Councilor Whiting – reported that the Auburn Nordic Ski Association is still functioning in spite of warm weather.

Councilor Gerry – Commented on the Age Friendly New Year's Day event that was held at the Senior Center adding that it was a successful event.

IV. **Open Session –** No one from the public spoke.

V. **Unfinished Business** - None

VI. **New Business**

The following item was removed from the Consent Agenda per the request of Councilor Staples.

Order 03-01032022
Changing the date of the second regular City Council meeting in January from January 24, 2022 to January 18, 2022 due to the holiday.

Motion was made by Councilor Milks and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-0.

1. **Order 05-01032022**
Directing staff to forward proposed zone changes to the Planning Board for consideration and review pursuant to Chapter 60, Article XVII Division 2 of City Ordinances.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – no one from the public spoke.

Motion was made by Councilor Gerry and seconded by Councilor Whiting to amend by prioritizing bullets A, B, and C, and reviewing bullet D (Subsurface Wastewater Disposal in the Lake Auburn Watershed) last.

Passage 6-0.

Passage of Order 05-01032022 as amended 6-0.

2. **Ordinance 01-01032022**
Amending Auburn's Code of Ordinance, Sec. 2-58. Time and place of regular meetings. Public hearing and first reading.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public hearing – No one from the public spoke.

Passage 6-0. A roll call vote was taken.

3. **Ordinance 02-01032022**
Amending Auburn's Code of Ordinance, Sec. 2-430. Membership; responsibility (Regulatory Advisory Board). Public hearing and first reading.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed). A roll call vote was taken.

4. **Order 06-01032022**
Amending the Board and Committee Appointment Policy as recommended by staff.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-0.

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported that the School Committee will be holding a workshop tomorrow followed by their regular meeting on Wednesday.

Councilor Morin reported that the Airport Board will be meeting on Thursday.

Councilor Walker provided an update on Maine Waste to Energy.

Councilor Staples noted that the Auburn Public Library Board didn't meet in December.

City Manager Crowell thanked staff for their presentations, as well as thanking the staff members that worked over the holidays with the New Year's Eve event and the storm that we had Christmas Day. He added that there have been challenges with the work force, like

many other businesses out there. We have several vacancies, which also impacts overtime. He also encouraged members of the public who are looking for employment to look at our vacancies page on our website. Last, he provided a COVID update, and the CDC changes on returning to work.

IX. **Executive Session -** Economic development, pursuant to 1 MRSA Sec. 405(6)(C) Motion was made by Councilor Walker and seconded by Councilor Staples to enter into executive session.

Passage 6-0, time 7:40 pm.

Council was declared out of executive session at 8:05 pm.

X. **Adjournment** – Motion was made by Councilor Walker and seconded by Councilor Staples to adjourn. Unanimously approved, the meeting adjourned at 8:05 pm.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: 1/18/2022

Author: Chief Robert Chase

Subject: Fire Department Overview and EMS status Update

Information:
The Fire Department responded to 5,790 calls for service in 2021. That is an increase of approximately 17% over 2020. Historically, 80% of the department call volume is Rescue/EMS related calls which includes not only EMS, but also motor vehicle accidents and other types of technical rescues.

EMS responses resulted in 4,409 calls for service in 2021, resulting in 3,411 patient transports. This equates to a 16.6% increase in patient transports from 2020 levels.

The department continues to address challenges associated with the COVID-19 Pandemic, as the healthcare system's current issues in turn, impact us. During COVID, patients have been far less likely to seek care from primary care physicians, and PCP offices are less likely to see patients in the office. Patients then either call the ambulance to be seen in the ER, or their medical condition worsens to a point where ambulance transport is necessary. Urgent Care facilities are unable or are unwilling to treat COVID positive patients and as a result, they call the ambulance for transport. Hospitals struggle to staff medical floors. When patients are ready for discharge, nursing homes struggle with staffing challenges and restrictions - leading to back-ups in the hospitals. Patients remain in the emergency department rather than going to the appropriate floor, so when EMS arrives in the ER, flow is significantly delayed as the all-time low staffing now tries to manage an all-time high patient population. This forces hospitals to transfer patients to facilities they wouldn't otherwise employ…such as one local hospital transferring patients to Connecticut (as described in recent Maine EMS meetings) and as companies like United try to keep up with longer distance and higher volume transfers, their primary coverage area suffers, requiring surrounding services to cover (IE: AFD assisted with an emergent interfacility transfer from Bridgton to CMMC due to extreme limited resources statewide).

All these factors create increased demands on our staff. Like most of Maine, the challenges from COVID have resulted in recruitment and staffing issues for the Fire Department. Vacancies in our organization have been ongoing throughout the Pandemic, and only add to the strain on the remaining employees. These are system-wide problems and have to be address collaboratively with our partners. We are working in cooperation with the hospital systems, the State of Maine, and our partner EMS agencies in our region to navigate these difficult times.

Dear Auburn City Council,

As we begin 2022 the Agriculture Committee would like to respectfully present an update on our activities and efforts to promote sustainable agriculture and forestry practices in the city of Auburn. We appreciate the efforts of all our members recognizing the lifetime commitment that our board members bring to the table. The nine active members of the committee have collectively amassed more than 280 years in agriculture and forestry. Further, by our charter it is an important component of membership in our committee that members be able to demonstrate their commitment and involvement in activities relating to local foods, farm, and forest products.

As of January 2022, our current members are Katie Boss (former chair), William Sylvester, Christopher Carson, David Griswold (recording secretary), Stanwood Gray, David Bell, Ed Michaud, and Kathy Shaw (current chair). We gratefully acknowledge the contributions of our departing members, Scott Blanchard and Michelle Melaragno for their collective efforts on our committee.

Additionally, we appreciate the liaison efforts between city staff and our members through Jay Brenchick. Jay has offered zoom links, some printing as needed and thoughtful advice in city policy.

In an ongoing effort to promote a sustainable agricultural and forestry culture in Auburn, we have initiated actions on the following items:

Public meeting with City Assessor Karen Scammon.

Karen presented at a public meeting to help our board members and members of the attending public understand the various methods and means available to preserve and protect agricultural and forest land through state tax incentive programs.

Story Walk presentation

Our committee worked on and collaborated with the Conservation Committee to present a vibrant and thoughtful story walk to help visitors understand some of the challenges facing our city in our efforts to be self-sustaining in woodlot production, local foods, invasive species and conserving and preserving our natural resources.

Local Farm Snapshot tour

The committee organized a diverse three farm tour in South Auburn in October featuring:

Bell Farm - a large, multi-generation farm specializing in potato and corn growing. The tour included the caves and processing facilities that have been incorporated to support their operation.

The Farmers Garden at Caron Farm - another multi-generational farm that specializes in creative small plot vegetable production offering a diversity in vegetable crops of high quality. This operation

specializes in hot peppers that they process into a tangy powder to add to various types of culinary dishes.

Compassionate Composting
Michelle Melaragno guided attendees through her newly expanded large and small animal composting facility - one of only 2 in the state that successfully composts large animals, turning those remains into an eco-friendly garden compost for home gardens.

Public presentation by Eric Cousens on proposed Strip Zoning changes.
Eric gave a presentation to public attending members and the Agriculture Committee concerning a proposal to expand lot depth from 450 feet to 750 feet along rural roads in the Agricultural and Resource Protection Zone in Auburn. After his presentation Eric asked for feedback and comments from all attending.

Outreach by Katie Boss to Auburn School Meals Program
Katie contacted the Auburn School Department food procurement staff to discuss their needs and initiate a conversation to begin the process of incorporating local foods into their school meals menus.

Tour of the L/A composting facility on Penley Corner Road.
Agriculture Committee members toured the LAWPCA Compost Facility and entered into a discussion with the plant manager about the possibility of turning that facility into a food processing/commercial kitchen operation.

Organized Tour of the NexAmp Solar facility on Riverside Drive
An organized tour of the NexAmp solar facility by Agriculture Committee and Auburn City Council members was led by one of the company engineers. Attendees were offered an up-close view of the large facility, gaining a deeper understanding of what this solar farm will offer for up to 800 families when connected.

GIS mapping
An expert in the field of GIS mapping provided education into the use of GIS for mapping agricultural and forestry practices to help understand the needs and current uses of protected areas of Auburn.

Current Use Tax Pamphlet
Final proofing and printing of an educational pamphlet detailing the various land use classifications for state farm and forest land protections.

Presentation by Jim Johnson of the Soil and Water Conservation District.

Via zoom, Jim Johnson discussed some of the many programs available to landowners in Auburn to help with water quality, farm and agriculture, forestry, and clean air solutions. He also spoke about a new federal program that will target rural property owners that might want to seek funding for small farm projects with less stringent standards than are usually faced by typical farm and forestry owners.

Ongoing discussions about initiating a combined regional Farmers Market
Members of the Agriculture Committee are meeting with the Lewiston Farmers' Market representatives to see if there is interest in creating a regional farmers' market. The Lewiston Farmers Market is searching for a permanent location. They would like to buy land so that a year-round pavilion /small business incubator/demonstration gardens/educational facility could be erected that would be of benefit and use by both cities and their residents. Ideally, they are looking for land that would be close to the downtown areas with good parking and accessible by walking/biking.

Continuing and ongoing planning includes:

1) Finalization by Katie Boss and Jay Brenchick of the city council directive given to our committee to provide input into the status of Agriculture in our community.

2) Monthly outreach and updates from Senator Claxton on issues and funding opportunities relating to agriculture and forestry.

3)Monthly updates from the Dept of Agriculture on-going programs and possible grant opportunities.

4)Continuing collaboration with Auburn Conservation Committee on projects that would have some overlap and would benefit from focus by both boards.

5)Create another story walk board presentation.

6)Educational presentations for our community from leaders in the fields of agriculture, forestry and land use, and preservation and protection of natural resources.

7)Continuing investigation of the creation of a facility that would serve the community in food preservation, aggregate storage of local commodities, commercial kitchen space and local food access.

8)Create a local index of all large and small local food producers, homesteaders, forestry products producers, home good manufacturers and other cottage industries in Auburn and the surrounding areas.

9)Offer more Farm Snapshot tours in north, east and west Auburn neighborhoods in the months ahead.

10) We have identified the need for meat processing facilities and are exploring methods and grant funding to create possible facilities.

11)Given the current state of affordable food access and heating resources throughout the New England region we feel that there should be more emphasis on creating better opportunities and greater supply for our residents and the state.

12)The Agriculture Committee is working on a vision statement and plans to have that completed in the next few months.

In summary, the Agriculture Committee has been active and productive. We feel that we have offered much public benefit to our community and look forward to the year ahead.

Respectfully submitted,

Kathy Shaw
Chair
Auburn Agricultural Committee

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed amendment to the Code of Ordinances Sec. 2-430 – Membership; responsibility (Regulatory Advisor Board)

Information: On December 6, 2021 the City Council adopted an ordinance, Sec. 2-441 to compensate members of the regulatory advisory board, $600 annually (Ordinance 41-11152021). Since that time, it was discovered that there is another section of our Code that conflicts with the newly adopted section of the ordinance. This proposed amendment would strike language that states that the board will serve without compensation, removing the conflicting language.

Sec. 2-430. Membership; responsibility.

A board of regulatory advisory shall be appointed by the city council, consisting of seven members~~, to serve without compensation~~.

The purpose of the regulatory advisory board is to perform the responsibilities of the board of assessment review, board of appeals, and all other regulatory review functions as directed by the city council. The board shall develop such rules to govern its meetings (to include meetings dates and times) and operations as it deems advisable.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of the ordinance amendment.

Previous Meetings and History: November 1, 2021, November 15, 2021, December 6, 2021. Public hearing and passage of first reading on 1-3-2022.

Re: CDBG-CV Revised Budget

The U.S. Department of Housing & Urban Development released funds to entitlement cities through the Coronavirus Aid, Relief & Economic Securities (CARES) Act in June of 2020. These funds are managed as if they were part of the Community Development Block Grant (CDBG) program except for two conditions. First, this is a one-time allocation and not an annual allocation requiring a new budget to be developed each year. Instead, this is a single budget to be followed until all funds are drawn. Second, the use of these funds needs to be targeted to alleviating the impacts of the Covid-19 pandemic and additional documentation of this program goal must be provided.

The City received $334,985 in CDBG-CV funds in June of 2020 and an additional $137,932 in February of 2021. At the close of the fiscal year in June 2021 there was a remaining balance of $221,164. This budget revision reallocates the remaining unspent funds in the following manner. Complete details can be found as an addendum to this budget.

Activity	Impact	Budget
Grocery Distribution Program	Food Security	$76,500
Micro-Enterprise Kitchen Facilities	Economic Development	$45,000
Micro-Enterprise Loans	Economic Development	$35,000
Senior Care Kits	Public Service	$5,000
Housing Advocates (legal aid) – RFP Process	Public Service	$15,000
Adult Ed Transportation & Hotspots	Public Service	$6,000
Job Training Through Strengthen LA	Public Service	$20,000
Salaries	Administration	$18,664

This budget will be presented to the Citizen Advisory Committee and be released for public comment for 30 days prior to adoption by the City Council.

MEMO

Date: August 3, 2021
To: Zakk Maher, CDBG Administrator
From: Auburn Recreation Department
RE: Request to continue funding for Grab n' Go Program (Food Security)

Dear Zakk:

The Auburn Recreation Department is submitting a letter of request to continue utilize COVID Relief CDBG funding for the Grab n' Go Program (Food Security). As the program developed back in March 2020 in immediate response to the COVID-19 pandemic the hope was for the program to no longer be needed by the Auburn Community by July 1, 2021. Unfortunately, even as our community, State, Country, and World continue to shift back to normal there are still various impacts the pandemic left behind and remain unsolved. One of these major impacts was the loss of jobs, increase in unemployment numbers, health risks and loss of benefits and resources.

As the numbers of GNG households continue to increase there is a clear demand and need for the program to continue past the original end date of July 1, 2021. We are seeking a continuation of the program and are requesting to utilize the COVID Relief CDBG funding allocated to go towards the GNG program to continue until July 1, 2022 at which time we will reassess the need and demand.

We are requesting a total program budget of $76,500 to operate for a full year. These funds would go towards expenses such as: Staff wages and benefits, Purchasing of Food from the Good Shepard Food Bank, Gas for deliveries, packaging materials and staff cell phone. Attached is the Program Budget. We will continue to solicit donations (monetary and program related).

Sincerely,

Sabrina Best
Recreation Director

Re: Micro-Enterprise Kitchen Facilities.

This program proposes to convert the current City-owned kitchen facilities located on Pettengill Park Road to a food production incubator space for current and new micro-enterprises. This facility will be available for use by qualified Low-to-Moderate Income qualified businesses and entrepreneurs to produce products or the facilitation of Pop-up restaurant opportunities. As more residents are seeking relief from Covid-19 pandemic related income and/or food insecurity, the availability of a municipally owned incubator space will allow for experimentation of new products and service businesses within the community which currently struggle to enter into the commercial real-estate market, or who are solely wholesale production but currently lack the means to open and license the required facilities.

In addition to the redevelopment of the facilities, the Community Development Office will solicit proposals from local non-profits to accomplish two things. First is to facilitate the scheduling and maintenance of the facilities to qualified entrepreneurs at a sliding-scale fee. Second role of this organization would be to facilitate the required education and immersion training experience for qualified Low-to-Moderate income individuals (or other qualified populations as designated by HUD).

To: Citizen Advisory Committee
City Council
Auburn Residents

Re: Legal Aid Housing Advocate

This program proposes to solicit proposals from qualified advocacy firms or legal representatives to provide Housing Advocacy Services to qualified Low-to-Moderate income households. This competitive process would be to establish a service provider to provide legal advice and housing counseling services to homeowners and renters who lack the means to hire their own representation in matters relating to housing.

This would be a one-time program with a fixed budget and firms will be selected based on best fit for the community and lowest hourly rate in order to maximize impact on needy Auburn families.

William Grant
DIRECTOR

Dear Zakk:

We are experiencing some barriers to our adult learners in completing their education due to Covid. We have students who do not have access to the internet to do their work and or join a class remotely. The remote learning option is vital to those students who have childcare issues, compromised immune systems and can not attend in person. Having hot spots would be an essential piece of their education. We also have students who can not access transportation for classes in our adult ed program. Having access to transportation would help them to be successful in completing their education with us. If we could remove some of these barriers I am certain that we can help more Auburn residents access education and improve their chances at employment and remaining in our community.

The last barrier for many students who drop out of school is their need for help and or tutoring one on one to complete their classwork. Many students who were not successful with day school experienced the frustration in adult education of not having access to tutors. Covid prevented in-person learning and so many students dropped out of day school and are seeking an alternative path to their education.

I am requesting a budget of $5,199.6 to help remove these barriers for our students. I am including the budget for those expenses in an attachment for you to review. I would be happy to answer any questions.

Kathryn Saunders
Assistant Director of
Auburn Adult Education

November 30, 2021

Dear Mr. Maher:

As you are aware, COVID-19 has been devastating in regards to workforce opportunities. Unemployment rates continue to be high and labor participation low despite numerous employment opportunities across the area. New, collaborative efforts are needed to address this shift in workforce and Strengthen LA hopes to be the driving force behind these efforts.

The goal of Strengthen LA is to bring together programs, resources, and capacity to align them in a common direction which addresses the new and changing needs of today's workforce. Strengthen LA would be a seamless continuum of education, training, and employment where job seekers could access all of the support the area has to offer through one process. By providing support and navigation through the various programs along with continued support post-employment, Strengthen LA is not only seeking to employ people but follow them through to long-term employment success.

Strengthen LA is no small undertaking. We have the commitment of community partners and leaders within the community, all driven to see those within our community thrive; employees and employers alike. To support this effort, we ask that the City of Auburn contribute $20,000 of Community Development Block Grant Covid Relief funding to the Strengthen LA efforts. By supporting this effort you will be joining other organizations/groups who see the potential that Strengthen LA has to have an immediate impact in the community. Others with financial commitments to Strengthen LA include:

1. John T. Gorman Foundation ($175,000 in 2021 with a commitment to give in 2022)
2. Housing and Urban Development (HUD) Choice Grant Program ($20,000 per year)
3. Lewiston Auburn Metropolitan Chamber of Commerce ($50,000)
4. Lewiston Auburn Adult Ed ($500)
5. Hahnel Bros Co ($1,000)
6. Strengthen LA Partners ($30,000 in kind)

To ensure your investment, all data collected from Strengthen LA's efforts (including information on Auburn residents including family size and increase in household income) will be made available for review.

We appreciate your support of our program and consideration of our request.

Sincerely,

Brian Pickard
Director of Community Workforce Partnerships
Lewiston Auburn Metropolitan Chamber of Commerce

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022 **Order:** 18-01182022

Author: Phil Crowell, City Manager

Subject: Remote Meeting Policy

Information: State statute 1 M.R.S.A. § 403-B has changed which authorizes a municipality to hold a public meeting remotely if the need meets certain requirements. The first requirement is for the council to hold a hearing and adoption of a policy.

A policy has been drafted which meets the requirements of the statute for city council consideration.

City Budgetary Impacts: None – system is in place to provide a remote meeting if necessary

---

Staff Recommended Action: Review and determine if the council wants the opportunity to meet remotely.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Remote Meeting Policy, 1 M.R.S.A. § 403-B, and 1 M.R.S.A. § 406

§403-B. Remote participation in public proceedings

1. Remote participation. This section governs remote methods of participation in public proceedings of certain public bodies. For the purposes of this section, "remote methods" means telephonic or video technology allowing simultaneous reception of information and may include other means when such means are necessary to provide reasonable accommodation to a person with a disability. Public proceedings may not be conducted by text-only means such as e-mail, text messages or chat functions.
[PL 2021, c. 290, §1 (NEW).]

2. Requirements. A public body subject to this subchapter may allow members of the body to participate in a public proceeding using remote methods only under the following conditions:

A. After notice and hearing the body has adopted a written policy governing the conditions upon which members of the body and the public may participate in a public proceeding of that body by remote methods; [PL 2021, c. 290, §1 (NEW).]

B. The policy adopted pursuant to paragraph A must provide that members of the body are expected to be physically present for public proceedings except when being physically present is not practicable. Circumstances in which physical presence for one or more members is not practicable may include:

(1) The existence of an emergency or urgent issue that requires the public body to meet by remote methods;

(2) Illness, other physical condition or temporary absence from the jurisdiction of the body that causes a member of the body to face significant difficulties traveling to and attending in person at the location in the notice under section 406;

(3) With respect to a public body with statewide membership, significant distance a member must travel to be physically present at the location in the notice under section 406; and

(4) The area of the public body's jurisdiction includes geographic characteristics that impede or slow travel, including but not limited to islands not connected by bridges; [PL 2021, c. 290, §1 (NEW).]

C. The policy adopted pursuant to paragraph A must provide members of the public a meaningful opportunity to attend by remote methods when members of the body participate by remote methods, and reasonable accommodations may be provided when necessary to provide access to individuals with disabilities; [PL 2021, c. 290, §1 (NEW).]

D. If the body allows or is required to provide an opportunity for public input during the proceeding, an effective means of communication between the members of the body and the public must be provided; [PL 2021, c. 290, §1 (NEW).]

E. Notice of the proceeding must be provided in accordance with section 406. When the public may attend by remote methods pursuant to paragraphs C and D, the notice must include the means by which members of the public may access the proceeding using remote methods. The notice must also identify a location for members of the public to attend in person. The body may not determine that public attendance at a proceeding will be limited solely to remote methods except under the conditions in paragraph B, subparagraph (1); [PL 2021, c. 290, §1 (NEW).]

F. A member of the body who participates in a public proceeding by remote methods is present for purposes of a quorum and voting; [PL 2021, c. 290, §1 (NEW).]

G. All votes taken during a public proceeding using remote methods must be taken by roll call vote that can be seen and heard if using video technology, and heard if using only audio technology, by the other members of the public body and the public; and [PL 2021, c. 290, §1 (NEW).]

H. The public body must make all documents and other materials considered by the public body available, electronically or otherwise, to the public who attend by remote methods to the same extent customarily available to members of the public who attend the proceedings of the public body in person, as long as additional costs are not incurred by the public body. [PL 2021, c. 290, §1 (NEW).]

[PL 2021, c. 290, §1 (NEW).]

3. Remote participation not permitted. This section does not authorize town meetings held pursuant to Title 30-A, section 2524 or regional school unit budget meetings held pursuant to Title 20-A, section 1482-A to be conducted using remote methods.

[PL 2021, c. 290, §1 (NEW).]

4. Application. This section does not apply to:

A. The Legislature; or [PL 2021, c. 290, §1 (NEW).]

B. A public body to which specific statutory provisions for remote participation apply. [PL 2021, c. 290, §1 (NEW).]

[PL 2021, c. 290, §1 (NEW).]

§406. Public notice

Public notice shall be given for all public proceedings as defined in section 402, if these proceedings are a meeting of a body or agency consisting of 3 or more persons. This notice shall be given in ample time to allow public attendance and shall be disseminated in a manner reasonably calculated to notify the general public in the jurisdiction served by the body or agency concerned. In the event of an emergency meeting, local representatives of the media shall be notified of the meeting, whenever practical, the notification to include time and location, by the same or faster means used to notify the members of the agency conducting the public proceeding. ORDER 18-01182022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby adopts the following policy for holding remote meetings pursuant to 1 M.R.S.A. § 403-B.

Auburn City Council Remote Meeting Policy

1. **Attendance.**
   Council members are expected to be physically present for council meetings except when the mayor determines an emergency or urgent issue that requires the entire council to meet remotely. In such circumstances, the council members will participate in the meeting remotely through telephonic or video conferencing.

2. **Notice.**

   Notice of all council meetings shall include the means by which members of the public may access the meeting remotely, if applicable. Copies of the agenda, together with relevant supporting documents, shall be made available to members of the public to the same extent as customarily available.

3. **Voting.**

   During a remote meeting, all members are present for the purposes of a quorum and voting. Votes taken during meetings using remote methods shall be taken by a roll call vote that can be heard (if using telephonic conferencing) or seen and heard (if using video conferencing) by members of the council and by members of the public.

4. **Remote Public Participation.**

   Members of the public shall be afforded a meaningful opportunity to attend and participate in council meetings by remote methods when a remote meeting is called. Members of the public shall be restricted to remote participation only when there is an emergency or urgent issue that requires the council to meet remotely under Section 1 of this policy. Reasonable accommodations may be provided when necessary to provide access to individuals with disabilities.

5. **Remote methods.**

   As used in this policy, "remote methods" means telephonic, or video technology allowing simultaneous reception of information and may also include other means necessary to provide reasonable accommodations to individuals with disabilities. Remote participation by council members cannot be by text-only means such as email, text messages, or chat functions.

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **December 2021 Financial Report**

DATE: **January 12, 2022**

The following is a discussion regarding the significant variances found in the City's December financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its sixth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 50.0% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through December 31st, including the school department were $53,273,862, or 55.82%, of the budget. The municipal revenues including property taxes were $37,251,301, or 57.18% of the budget which is 0.20% higher than last year during the same period. The accounts listed below are noteworthy.

The current year tax revenue is at 57.08% as compared to 57.18% last year. This is an increase over last year of $167,100.

Excise tax for the month of December is at 51.68%. This is a decrease from FY 20, but we are still over projected revenue for FY 22 by 1.68%.

State Revenue Sharing at the end of December is 84.74% or $2,669,295 which is $891,799 more than last year in December.

Expenditures

City expenditures through December 2021 were $28,611,933 or 60.74% of the budget. This is 0.26% more than the same period last year. Noteworthy variances are:

City of Auburn, Maine
Finance Department
www.auburnmaine.gov | 60 Court Street
Auburn, Maine 04210
207.333.6601

A. The main variances are Debt Service is $96,424 more than FY20, Facilities due to payment of Property and Casualty Insurance Premium earlier than in FY 20, Public Safety Departments are higher than last year by $257,859 and Public Works is higher than FY 20 by $110,158.

Investments

This section contains an investment schedule as of December 31st. Currently the City's funds are earning an average interest rate of .24%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: NSB Arena Financial Reports for December 31, 2021

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of December 31, 2021.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, November 30, 2021.

Current Assets:
As of the end of December 2021 the total current assets of Norway Savings Bank Arena were ($1,384,675). These consisted of cash and cash equivalents of $265,152, accounts receivable of $12,068, and an interfund payable of $1,661,895.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of December 31, 2021 was $195,258.

Liabilities:
Norway Arena had accounts payable of $1,710 as of December 31, 2021.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through December 2021 are $341,047. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through December 2021 were $296,325. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

As of December 2021, Norway Arena has an operating gain of $44,722 compared to the November 2021 operating loss of $107,174 an decrease in the operating gain for the fiscal year of $62,402.

As of December 31, 2021, Norway Arena has a increase in net assets of $44,722.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $6,079 more than in FY21 and expenditures in FY22 are $76,735 less than last year in December.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: January 18, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022

Author: Jill Cunningham, IT Department, Database Manager

Subject: Permitting Software and Implementation Solution

Information: The City of Auburn is looking to replace the current Permitting and Licensing software and upgrade to a software that has more customizable functionality for staff and accessibility to the public. Our current platform has provided daily systematic challenges that are compounded with our limited ability to rectify the issues. Customers have been unable to access our services and have been required to come to Auburn Hall to obtain permits and meet with our staff. The new software will allow staff to create online applications where our customers can access our services remotely and reduce the need to execute transactions in person.

This project aligns with the American Rescue Plan Act (ARPA) initiative 2 Negative Economic Impacts -2.9 Small Business Economic Assistance (General)

City Budgetary Impacts: Utilize $150,000. In ARPA funds.

Staff Recommended Action: Staff recommends the procurement of a new Permitting software and implementation of this project.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022

Author: Jill Eastman, Finance Director & Kelsey Earle, Deputy Director

Subject: Budget Portal Presentation

Information: This is an introduction to this new tool that will be available for the budget process. This portal was created to better suit the needs of the City, as it provides easier access to budgetary information in a user-friendly manner.

City Budgetary Impacts: N/A

Staff Recommended Action: Review

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: N/A

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022 **Order:** 19-02072022

Author: Phillip L. Crowell, Jr.

Subject: MMA - Maine Service Center Coalition Membership and Appointment of Voting Delegate Representative and Alternate

---

Information: The City of Auburn will be renewing its membership with the Maine Service Centers Coalition. The Maine Service Centers Coalition makes available professional lobbying staff support in providing cities access to policy makers, sound policy advice and effective advocacy services. As part of our renewal, City Council will need to appoint a Representative and designate an Alternate to vote at the Maine Service Centers Coalition business meetings.

City Budgetary Impacts: Annual membership fee: $2,754.96

Staff Recommended Action: Order to appoint a Representative (City Manager) and designate an Alternate (Assistant City Manager) to vote at the Maine service Centers Coalition business meetings.

Previous Meetings and History: 8/16/2021

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 19-02072022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council appoint a Representative (City Manager) and designate an Alternate (Assistant City Manager) to vote on behalf of the City of Auburn at the Maine Service Centers Coalition business meetings.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

Mayor Levesque called the meeting to order at 7:03 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. **Consent Items** - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 07-01182022***
Appointing Brian Dubois to the Planning Board as a full member with a term expiration of 1-1-2025.

2. **Order 08-01182022***
Appointing Toni Ferraro to the Planning Board as full member with a term expiration of 1-1-2024.

3. **Order 09-01182022***
Appointing Joshua Daigle to the Planning Board as an associate member with a term expiration of 1-1-2023.

4. **Order 10-01182022***
Appointing Kathy Shaw to the Regulatory Advisory Board with a term expiration of 6-1-2022.

5. **Order 11-01182022***
Appointing James Timoney to the Auburn-Lewiston Airport Board with a term expiration of
1-1-2023.

6. **Order 12-01182022***
Re-appointing Patricia Madore to the 9-1-1 Committee with a term expiration of 1-1-2024.

7. **Order 13-01182022***
Re-appointing Jennifer Kimble to the Auburn Housing Authority with a term expiration of 10-1-2025.

8. **Order 14-01182022***
Appointing Tina Eugley to the Age Friendly Committee with a term expiration of 6-1-2023.

9. **Order 15-01182022***
Appointing Pam Rousseau to the Agriculture Committee with a term expiration of 4-1-2024.

10. Order 16-01182022*
Appointing David Gonyea to the ad hoc Public Safety Building Committee.

Councilor Whiting requested that the three Planning Board appointments (items 1, 2, and 3) be removed from the consent agenda and placed under new business.

Motion was made by Councilor Staples and seconded by Councilor Gerry for passage of the remaining 7 consent items.

Passage 7-0.

II. Minutes – January 3, 2022 Regular Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Staples to approve the minutes of the January 3, 2022 Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Communication from the Agriculture Committee – Kathy Shaw presented
- Budget Portal Presentation – this item was canceled
- Police Overview – Chief Moen presented
- EMS Status / Fire Overview – Chief Chase presented
- Council Communications (about and to the community)

Mayor Levesque announced that he will be giving a presentation to the Greater Portland Council of Governments (GPCOG) on zoning and housing availability via Zoom. He will provide more information as it becomes available. He announced that the Winter Festival will take place January 27, 28, 29, 30th with events taking place throughout the city. More information can be found on the Recreation Department website. He also read a statement he prepared on Recruitment and Staffing for various departments within the City and School Department. He will bring this forward for a vote at the February 7th as part of the ARPA incentive.

IV. Open Session – No one from the public spoke.

V. Unfinished Business

1. Ordinance 01-01032022
Amending Auburn's Code of Ordinance, Sec. 2-58. Time and place of regular meetings. Second reading.

Motion was made by Councilor Staples and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. **Ordinance 02-01032022**
Amending Auburn's Code of Ordinance, Sec. 2-430. Membership; responsibility (Regulatory Advisory Board). Second reading.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Milks and seconded by Councilor Hawes to amend by adding the following language: ***"Persons appointed by the city council to serve on other boards, agencies, panels, and or commissions shall not serve concurrently on the Regulatory Advisory Board".***

Passage of amendment 6-1 (Councilor Staples opposed).

Passage as amended 6-1 (Councilor Gerry opposed). A roll call vote was taken.

VI. New Business

The following three items were removed from the Consent Agenda and added under New Business per the request of Councilor Whiting.

Order 07-01182022
Appointing Brian Dubois to the Planning Board as a full member with a term expiration of 1-1-2025.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – no one from the public spoke.

Passage 7-0.

Order 08-01182022
Appointing Toni Ferraro to the Planning Board as full member with a term expiration of 1-1-2024.

Motion was made by Councilor Milks and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by replacing Toni Ferraro with Stephen Martelli.

Motion to amend failed 3-4 (Councilors Hawes, Milks, Morin, and Walker opposed).

Ms. Ferrarro was in the audience and was asked if she would like to address the Council. She provided them with an overview of her background and qualifications and stated that she feels she is qualified and capable to serve on the Planning Board.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Order 09-01182022
Appointing Joshua Daigle to the Planning Board as an associate member with a term expiration of 1-1-2023.

Motion was made by Councilor Hawes and seconded by Councilor Milks for passage.

Public comment - No one from the public spoke.

Passage 5-2 (Councilors Whiting and Gerry opposed).

1. **Order 17-01182022**
Adopting the revised CDBG-CV Budget as presented. Public hearing and vote.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

2. **Order 18-01182022**
Adopting a remote meeting policy pursuant to 1 M.R.S.A. § 403-B.
Public hearing and vote.

Motion was made by Councilor Staples and seconded by Councilor Whiting for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

Motion was made by Councilor Milks and seconded by Councilor Hawes to temporarily suspend the rules to add an item to the agenda.

Motion failed 4-3 (Councilors Gerry, Whiting, and Staples opposed). A motion to suspend the rules requires a three-fifths vote.

VII. Open Session

Kathy Shaw, Sopers Mill Road stated that she is working on creating a small farmers market in Auburn this season.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported on the School Committee meetings, another is scheduled for tomorrow. He has been nominated as Chair of the Finance Department for the School Department.

Councilor Walker commented that Stephen Martelli was ok with not being reappointed at this time.

Councilor Whiting reported that all trails are open at the Auburn Nordic Ski Association.

Councilor Gerry reported that the First Auburn Seniors will be meeting tomorrow for their regular meeting.

Councilor Morin provided an update on the Airport Board.

City Manager Crowell reported that the Legislative Policy Committee (through Maine Municipal Association) will begin the process to review proposed bills, beginning January 20th. The FY 23 budget process is underway, budget meetings will begin next week with all departments. He spoke about staffing challenges we are facing, adding that they are working with the Human Resource Department on this. Absences due to COVID are also impacting us in various departments, currently the Tax Office. We are reducing the hours and closing between 1-2pm so staff is able to take a lunch break. The ice rinks are going up at Anniversary Park and the Futsal Court, and last, he noted that the Public Works Department has used roughly 50% of the salt supply due to weather and icy conditions.

December 2021 Final Monthly Report – this item is postponed until the first meeting of February due to the absence of the Finance Director.

IX. Executive Sessions:
Economic development, pursuant to 1 MRSA Sec. 405(6)(C) – taken up during the Council workshop.
Economic development, pursuant to 1 MRSA Sec. 405(6)(C) – no longer needed.
Labor negotiations, pursuant to 1 MRSA Sec. 405(6)(D) – taken up during the Council workshop.

X. Adjournment – Motion was made by Councilor Milks and seconded by Councilor Walker to adjourn. Unanimously approved, the meeting adjourned at 8:39 pm.

ANNUAL REPORT 2021

The Auburn Conservation Commission enjoyed a productive year in 2021, as we worked to protect and improve our natural resources and raise public awareness of environmental issues. In accordance with our ordinance, the Annual Report below outlines key accomplishments from 2021 and ongoing initiatives for 2022.

Members:
Commissioners: Sam Boss, Chair; Amy Dieterich, Vice-Chair; Jane Costlow, Secretary; Rhyanna Larose; Dave Griswold; and Adam Platz.

The Commission extends its deep gratitude to outgoing Commissioners Jordan Tate, Tizz Crowley, and Michelle Melaragno for the time, energy, and dedication they invested in supporting conservation efforts in Auburn.

Key accomplishments

Events & Activities

- *Winter Tree & Bird ID Walk.* The Conservation Commission/Community Forest subcommittee hosted a Winter Tree & Bird Identification Walk in Pettengill Park for Auburn Winter Fest, to help residents gain appreciation for Pettengill trails and the different habitats and species found in the City forests.
- *Earth Day Neighborhood Clean-Up*. This event promoted pride in our neighborhoods and natural spaces, and awareness of litter and proper waste disposal. 40 volunteers helped remove approximately 100 contractor bags of waste from parks, waterways, and neighborhoods around the city.
- *Walk in the Park Day*. In collaboration with the United New Auburn Association, the Conservation Commission's Parks and Cemeteries Subcommittee organized and led walks at major parks around the city in order to build community and promote appreciation of Auburn's natural spaces.
- *Arbor Day Activities.* The Auburn Forest Subcommittee/LACFB organized a series of Arbor Day activities, which included planting seedlings in the City nursery from the Maine Forest Service and a Storywalk that offered information on invasive species. These activities helped Auburn retain its Tree City USA status.
- *Agriculture and Forestry Storywalk.* In collaboration with the Auburn Agriculture Committee, the Conservation Commission contributed content on invasive plants and insects for the October Storywalk on local agriculture and forestry.

Ongoing Initiatives

- **Support City staff and public engagement on FERC Relicensing of Lewiston Falls Dam**
  The Conservation Commission worked to support Eric Cousens through the FERC relicensing of the Lewiston Falls Dam by participating in and organizing stakeholders meetings, and identifying contacts to support requests for studies. The FERC dam relicensing process is ongoing, and we look forward to supporting public engagement as that work continues.

- **Promote awareness and effective management of Browntail Moth and other invasive species**
  The Commission worked with the Maine State Forest Service to identify resources on Browntail moth management to share with Liz Allen and the City Manager's office in order to promote public awareness and effective management. We will be hosting Alison Kanoti, the State Entomologist from the Maine Forest Service, for an information session about nest removal and other management strategies on February 17 at 7 pm. We will also hold a workshop with City Arborist Noel Skelton.

- **Research ecological and recreational improvements to the Little Androscoggin**
  A working group of the Commission has focused on identifying ways for the City of Auburn to improve access to the Little Androscoggin River and improve the health of its ecosystems by improving fish passage; this would align with stated goals from the Comprehensive and Strategic plans to promote water access/health and recreation. We organized an assessment by federal fisheries biologist Chris Reidy of the Littlefield Dam, which he deemed to present a significant barrier to fish passage on the River. His full analysis is included with this report. We are exploring opportunities for funding the removal of the dam, possible boat launch or portage locations, and trail extensions.

- **Host speakers and consider support of legislation relevant to Auburn conservation**
  The Commission hosted Peter Rubins from Grow L-A to speak about reclassification of the Androscoggin River. Chair Sam Boss provided testimony in support of LD 676, which would reclassify the Androscoggin River from a class C to Class B River. The Commission also hosted Ed Friedman from the Friends of Merrymeeting Bay to discuss LD 883, an Act to Protect Endangered Species, which would declare the Atlantic Salmon an endangered species in Maine.

- **Maintain healthy street trees in Auburn and promote sustainable forestry practices**
  Through the Auburn Forest Subcommittee/LACFB, the Conservation Commission successfully supported an application for the Project Canopy Grant, which funded the planting of Gingko trees on Washington Street at the gateway to Auburn. Commissioner Dave Griswold, a career forester, regularly attends workshops with the State Forest Service and the Sustainable Forestry Initiative and is leading research into policies that will increase the number of street trees in Auburn. Dave monitored two Emerald Ash Borer traps this year, and found no sign they have spread in Auburn.

- **Create StoryMaps Featuring Auburn Trails, Forests, and Parks.** In collaboration with students at Bates College, the Conservation Commission worked with Sabrina Best and Rosemary Mosher, and the Friends of Mt. Apatite on efforts to create StoryMaps to promote Auburn's trail systems, including Pettengill Park and Mt. Apatite. We aim to finalize these and other projects this year.

Conclusion

The events, activities, and initiatives outlined above reflect our commitment to building collaborations with other City groups and local organizations in Auburn. They also reflect the dedication and expertise of our members and the community members who have been involved in local conservation efforts.We are eager to continue our work with staff and deepen engagement with the Council in the upcoming year, and invite you to consult with our group on matters relating to conservation and sustainability.

Respectfully submitted,
Sam Boss, Chair

City Council Information Sheet

Council Workshop or Meeting Date: 2/7/2022 **Resolve:** 01-02072022

Author: Sid Hazelton, P.E. Auburn Water District Superintendent

Subject: Request for Authorization of Bond Approval

Information: At the monthly Auburn Water District Trustee meeting on January 19, 2022, the Trustees voted to authorize pursuit of a $2 million-dollar general resolution bond through the Maine Municipal Bond Bank for the purpose of replacing water mains. This request was prompted in an effort to take advantage of the current climate of relatively low interest rates for bonds. The current rate for a 10-year general resolution bond is close to 1%.

The District is budgeted to replace 2 miles of pipe/year. At an assumed replacement price of $130 per/foot, this bond will fund approximately 1.5 years of pipe replacement.

In accordance with the Auburn Water District Charter, Auburn City Council approval is required for the issuance of bonds.

City Budgetary Impacts: None

Staff Recommended Action: Recommend passage

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RESOLVE 01-02072022

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the Auburn City Council, in accordance with section 13 of the Auburn Water District Charter, hereby grants permission to the Auburn Water (the "Water District") District to issue its bonds and notes in anticipation thereof, referred to herein as the "Water District Bonds" in the aggregate principal amount not to exceed $2,000,000 to finance upgrades to the Water District's water distribution system, including water main replacement, with other improvements ancillary and related thereto.

BE IT FURTHER RESOLVED, by the Auburn City Council, that the Water District bonds shall not constitute any debt or liability of the City or a pledge of the faith and credit of the City, but shall be payable solely by the Water District, and the issuance of the Water District Bonds shall not directly or indirectly or contingently obligate the City to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment.

Subject: Mt. Auburn Avenue Reconstruction Property Purchase

Information: The City is in the design stage for the reconstruction of Mt. Auburn Avenue. The design team has identified that the purchase of the property located at 424 Mt. Auburn Avenue would be extremely beneficial to the safety of the completed roadway.

City Budgetary Impacts: The City has approved $900,000 in matching funds to the Maine DOT's $625,000 for the construction of the project in the 2022 CIP. No additional funds are needed at this time.

Staff Recommended Action: Approve the Order authorizing the City Manager to negotiate for the purchase of the property.

Subject: Auburn Police Retention Pilot Program

Information: The City of Auburn seeks to have and maintain a robust, well trained and responsive police department. In an effort to ensure the city remains competitive in attract the best and brightest officers that are new to the field, the city is piloting a program that will increase starting pay for entry level officers all the way through officers entering their 4th year.

It is anticipated that this initiative in conjunction with the Auburn's robust benefits package and training opportunities will attract and retain new officers in the field of law enforcement.

This project aligns with the American Rescue Plan Act (ARPA) initiative : Revenue Replacement 6.1 Provision of Government Services

---

City Budgetary Impacts: Utilize $65,000. In ARPA funds.

Staff Recommended Action: Staff recommends the allocation of funds to ensure the stability of the Auburn Police Department.

Author: Jill Cunningham, IT Department, Database Manager

Subject: Permitting Software, Assessing Software and record digitalization

---

Information: The City of Auburn is looking to replace the current Permitting/ Licensing software and upgrade to a software that has more customizable functionality for staff and accessibility to the public. Our current platform has provided daily systematic challenges that are compounded with our limited ability to rectify the issues. Customers have been unable to access our services and have been required to come to Auburn Hall to obtain permits and meet with our staff. The new software will allow staff to create online applications where our customers can access our services remotely and reduce the need to execute transactions in person.

The City of Auburn is looking to replace the current assessing records management system, which is housed on premise, with a cloud based solution that will allow for greater integration for residents and employees. Additionally, built in redundancy and portal access will allow residents to have online access to assessing information without coming to city hall. This new system will integrate with current cloud based systems, resulting in greater access to multiple strands of information for residents and staff.

The City of Auburn is responsible for thousands of records that are required by law or for historic preservation to be maintained. Ensuring these records are available to the public 24 hours a day and eliminating the need for residents to make an appointment to come in person is a safety and service need.

This project aligns with the American Rescue Plan Act (ARPA) initiative 2 Negative Economic Impacts -2.9 Small Business Economic Assistance (General)

City Budgetary Impacts: Utilize $350,000. In ARPA funds.

Staff Recommended Action: Staff recommends the procurement of a new Permitting software and implementation of this project.

Subject: Water and Sewer Infrastructure Study

Information: The City of Auburn seeks to have the most up to date assessments in order to make equitably and economically advantageous decisions on replacing, expanding and upgrading access to clean and safe drinking water for Auburn residents. There are several projects that have been identified as potential opportunities to meet these stated goals. Detailed studies followed by implementation will be needed in order for the city in partnership with the Water District to make sound and educated decisions about project prioritization.

This project aligns with the American Rescue Plan Act (ARPA) initiative: Infrastructure 5.11 Drinking water: Transmission & distribution.

City Budgetary Impacts: Utilize $150,000. In ARPA funds.

Staff Recommended Action: Staff recommends the allocation of funds to ensure these projects are viable and able to move forward.

City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022 **Ordinances:** 03-02072022 and 04-02072022

Author: Phil Crowell, City Manager

Subject: Ordinance change for Taxicab Licensing

Information: The Auburn Charter sec. 2.8 states "the city council shall provide for the review of the city's charter and ordinances in their entirety at least once every 15 years". Council recently completed the review of the City Charter and the City Ordinances. Last year, information was shared regarding the economic impact our ordinance has on taxi businesses and the council was advised that language changes would be submitted for consideration. With Lyft and Uber being more prevalent in the community, added regulations on a taxi business does not allow them to be marketable.

Staff is recommending the city council adopt the city ordinance changes regulating taxicab businesses to be more in alignment with the requirements required of Transportation Network Companies like an Uber or Lyft. These changes were discussed with the one licensed cab company in Auburn and the owner is very appreciative of this consideration.

City Budgetary Impacts: Less than $200.00 in revenue

Staff Recommended Action: Review and recommend changes to the edits

---

Previous Meetings and History: Charter and Ordinance review discussions in 2020 and 2021. Presented and discussed at the 1/18/2022 Council workshop.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ARTICLE XIV. TAXICABS

DIVISION 1. GENERALLY

Secs. 14-430—14-450. Reserved.

DIVISION 2. BUSINESS LICENSES

Sec. 14-451. Required; application.

(a) *License required:* No person shall operate a taxicab business without first obtaining a license to do so. Any person desiring to operate a taxicab business in the city shall first submit a written application therefore to the city clerk or designee which shall comply with the requirements of this section.

(b) *Signature:* Every application shall be signed and verified by each of the principal officers of the applicant if the applicant is a corporation, and in all other cases, by all persons having actual ownership interests in the applicant. If the applicant is a corporation, the application shall state the name and address and the date and place of birth of each of the principal officers of the applicant and of every person having management authority in the business of the applicant. In all other cases, the application shall state the name and address and the date and place of birth of every person having an actual ownership interest or having management authority in the business of the applicant.

(c) *Insurance:* The application shall be accompanied by a certificate of liability insurance, providing for minimum coverage of $50,000.00 property damage, $100,000.00 bodily injury per person, and $300,000.00 per accident.

(d) *Criminal conviction statement:* The application shall include a record of disqualifying criminal conviction of any principal officer of a corporation or owner of the business or of any person having management authority in the business, or a statement that no such convictions exist.

(e) *Vehicle information:* The application shall include the make, model, year, serial number, and license plate number of each vehicle for which a taxicab business license is sought and the address of the garage or other terminal at which the vehicle will be stationed when not in service. The licensee must also provide a copy of the valid state of Maine registration for each vehicle to be licensed.

(f) *Vehicle description:* The application shall include a detailed description of the graphic design, insignia, wording, and coloring which will appear on the vehicle, if licensed.

(Ord. No. 38-02072011-05, att. § 24-427, 2-7-2011)

Sec. 14-452. Denial of taxicab business licenses.

(a) The city clerk or designee may deny an application for a taxicab business license for any of the following reasons:

(1) A corporate applicant is not licensed to do business in this state.

(2) A principal officer or other person having actual ownership interest in a corporate applicant or managing authority in the business has a disqualifying criminal conviction.

(3) Any person having an actual ownership interest or management authority in a non-corporate applicant has a disqualifying criminal conviction.

(4) An applicant or any of the principal owners having a controlling interest held a taxicab business license in the city which was revoked within the three years preceding the filing of the application.

(5) The application contains a material and knowingly false statement of fact.

(b) The city clerk or designee shall promptly give written notice to the applicant of the reasons for denial and shall keep a copy on file.

(Ord. No. 38-02072011-05, att. § 24-428, 2-7-2011)

~~**Sec. 14-453. Inspections.**~~

~~Before a taxicab business license may be issued, all taxicabs to be covered by the license shall be thoroughly inspected by the police chief or designee at the applicant's expense and certified to be in safe condition. The applicant shall make its taxicabs available for such additional inspections at its expense as the police chief may reasonably require and shall not operate any taxicab not certified to be in safe condition until the unsafe condition is corrected.~~

~~(Ord. No. 38-02072011-05, att. § 24-429, 2-7-2011)~~

Sec. 14-454. Cancellation of insurance policy.

Should an insurance policy of any licensed taxi business in the city be canceled before its expiration date, the issuing company shall mail a 30-day written notice to the city. This notice should be sent to ~~the police chief and~~ the city clerk.

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

Sec. 14-455. Suspension of taxicab business licenses.

(a) The city clerk or designee shall suspend any taxicab business license for up to five days when satisfied that the licensee has:

(1) Failed to notify the clerk of any material change of fact set forth in the license application~~;~~.

(2) Failed to exercise proper control over its taxicab drivers as evidenced by the existence of three or more driver suspensions during the period of 12 months~~;~~.

(3) Determination that a taxicab driver was operating a cab with any disqualifying criminal conviction.

(4) Determination that a driver was operating a cab with a record of convictions for reckless driving, driving to endanger, operating under the influence, or attempting to operate under the influence currently or during the year preceding the application.

(5) Determination that a taxicab driver was operating a cab with a driver's license that is presently revoked or has been revoked during the last three years preceding the application.

(6) A driver knowingly took a longer route to his destination than was necessary unless so requested by the passenger; knowingly conveyed any passenger to a place other than that which the passenger

specified; transported any person other than the passenger first engaging the taxicab without the express consent of such passenger; harassed, threatened, or assaulted a passenger; charged more than the set fare.

~~(3) Permitted a taxicab to be operated when it has been determined to be in unsafe condition;~~

~~(4) Refused to comply with the provisions of this article regarding the maintenance and inspections of its taxicabs.~~

(b) In the event of a second or subsequent violation of the terms of these ordinances within the period of twelve months, the city clerk or designee shall suspend the licensee's taxicab business license for up to ten days. The length of the period of suspension shall vary in each case subject to the stated maximums depending on the gravity of the offense.

(Ord. No. 38-02072011-05, att. § 24-431, 2-7-2011)

Secs. 14-456—14-474. Reserved.

~~*DIVISION 3. TAXICAB DRIVER'S LICENSES*~~

~~Sec. 14-475. Application for taxicab driver's licenses.~~

~~(a) Any person who wishes to secure a taxicab driver's license shall submit a written application to the city clerk or designee which shall contain the following:~~

~~(1) The age of the applicant.~~

~~(2) A complete statement of the applicant's health and physical condition.~~

~~(3) A complete record of the applicant with respect to any disqualifying criminal conviction or a statement that no such conviction exists.~~

~~(4) A record of convictions for reckless driving, driving to endanger, operating under the influence, or attempting to operate under the influence during the year preceding the application.~~

~~(5) A statement as to whether any driver's license held by the applicant is presently revoked or has been revoked during the last three years preceding the application and the reasons for such revocation or revocations.~~

~~(6) An appropriate form or statement over the signature of the applicant giving all persons and governmental agencies having information relevant to the above items permission to release the same to the clerk.~~

~~(b) The application for a license under this article shall be accompanied by a photograph, in duplicate, of the applicant, which meets specifications for a passport photograph and is current within 30 days annually.~~

~~(Ord. No. 38-02072011-05, att. § 24-432, 2-7-2011)~~

~~Sec. 14-476. Denial of taxicab driver's licenses.~~

~~(a) The city clerk or designee shall deny an application for a taxicab driver's license if:~~

~~(1) The applicant is under 18 years of age.~~

(2) The applicant does not have a valid motor vehicle operator's license.

(3) The applicant is unable to operate a taxicab safely by reason of physical incapacity.

(4) The applicant received a disqualifying criminal conviction at any time during the previous five years, provided that the conviction was for an offense that is reasonably related to the operator's fitness to operate a taxicab.

(5) The applicant has been convicted during the preceding three years of reckless driving, driving to endanger, operating under the influence or attempting to operate under the influence, or an equivalent offense in another state.

(6) His driver's license has been revoked during the preceding three years for any reason reasonably related to his ability to safely operate a taxicab.

(b) The city clerk or designee shall keep a written record of every decision to deny a taxicab driver's license.

(Ord. No. 38-02072011-05, att. § 24-433, 2-7-2011)

Sec. 14-477. Suspension of taxicab driver's licenses.

(a) The city clerk or designee shall suspend any taxicab driver's license when satisfied that the licensee:

(1) Knowingly took a longer route to his destination than was necessary unless so requested by the passenger.

(2) Knowingly conveyed any passenger to a place other than that which the passenger specified.

(3) Transported any person other than the passenger first engaging the taxicab without the express consent of such passenger.

(4) Harassed, threatened, or assaulted a passenger.

(5) Charged more than the maximum fare specified in this article.

(6) Failed to notify the clerk of any change of material fact set forth in the application for such license.

(7) Removed from the taxicab or obscured the notice required by this article.

(b) The suspension shall be for up to five days. In the event of a second or subsequent violation of these ordinances within a twelve month period, the city clerk or designee shall suspend the license of the taxicab driver for up to ten days. The length of the period of suspension shall vary in each case subject to the stated maximums depending on the gravity of the offense.

(Ord. No. 38-02072011-05, att. § 24-434, 2-7-2011)

Secs. 14-478—14-499. Reserved.

DIVISION 4. OPERATION AND EQUIPMENT REQUIREMENTS

Sec. 14-500. List of taxicabs in active use.

Every taxicab business shall maintain an up-to-date list on file with the city clerk or designee containing its current business address and the make, model, serial number, and license plate number of each taxicab being operated by it and the garage or other terminal at which the vehicle will be located when not in service together

with such additional information regarding the operating condition of each taxicab as the police chief may reasonable require.

(Ord. No. 38-02072011-05, att. § 24-430, 2-7-2011)

Sec. 14-501. Equipment condition and maintenance.

Every taxicab operated on the streets of the city shall be maintained in clean and serviceable condition and adequate repair. Each taxicab shall have two doors affording direct entrance and exit to and from the passenger compartment. Clean and adequate repair shall mean, without limitation, the following:

(1) No visible tears in carpeting;

(2) No dents larger than six inches in diameter;

(3) No tears in seat upholstery;

(4) No loose trash or large amounts of dirt or sand in the interior passenger area, whether or not the area is currently occupied by a passenger;

(5) No missing trim or body work;

(6) No cracks in windshield or windows;

(7) Seat belts for all passenger seats visible and in working order;

(8) No missing hubcaps;

(9) No visible primer paint; and

(10) No rust greater than one inch in diameter.

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

Sec. 14-502. Vehicle lettering design.

The name of the owner of the taxicab shall appear on the exterior of the taxicab in letters not less than two inches in height. In additions, the business telephone number of the taxicab owner may be included together with an identifying design. ~~Any such design must first be approved by the police chief as not being confusing to customers or unnecessarily distracting to other motorists.~~

(Ord. No. 38-02072011-05, att. § 24-420, 2-7-2011)

~~Sec. 14-503. Display of cards.~~

~~All licensed taxicabs shall have three cards of a size and form to be established by the police chief. These cards shall be placed or secured in a frame so that they may not be easily tampered with or destroyed. Each card shall show the license number assigned to the vehicle by the city clerk or designee and a statement that any customer complaint shall be directed to the police chief and shall include the license number of the taxicab, the schedule of the established rates of fares and zones, and the driver's identification card and number.~~

~~(Ord. No. 38-02072011-05, att. § 24-421, 2-7-2011)~~

Sec. 14-504. Number of passengers.

No driver shall permit more persons to be carried in the taxicab than the seating capacity of the cab.

(Ord. No. 38-02072011-05, att. § 24-422, 2-7-2011)

Sec. 14-505. Record of daily trips.

The owner of each licensed taxicab shall maintain daily records of trips made by the vehicle. These records shall be kept in a form and manner approved by the police chief and shall be open to inspection by any police officer delegated by the police chief.

(Ord. No. 38-02072011-05, att. § 24-423, 2-7-2011)

Sec. 14-506. Receipts for fares.

Every taxicab driver, when requested by a passenger, shall furnish a signed receipt showing the owner's name together with the date and amount of the fare charged.

(Ord. No. 38-02072011-05, att. § 24-424, 2-7-2011)

Sec. 14-507. Consent of passenger to additional fares.

No taxicab driver shall carry any person other than his initial passenger without first obtaining the first passenger's consent.

(Ord. No. 38-02072011-05, att. § 24-425, 2-7-2011)

Sec. 14-508. Rates and zones.

~~(a) The city council, on its own initiative, or on petitions of ten or more residents of the city, or two or more persons regularly operating taxicab businesses in the city, may revise the schedule of fares and definitions of the zones for such fares. The schedule of fares shall be established and the zones defined so as to protect the public interest while at the same time providing taxicab owners with a reasonable return on their investment.~~

~~(b) At least seven days before any action is taken by the city council at alter existing fares or change the description of zones, notice shall be given by publication in a daily newspaper having a general circulation in the city of the time and place of the meeting at which such action is proposed to be taken and of the fact that the city council will be considering a proposal to alter existing taxicab fares or zones. When the request for a change in rates or zone descriptions is initiated by one or more taxicab businesses, the applicants shall assume the expense of publishing the notice of the hearing.~~

~~(c) At the hearing, the city council shall consider any relevant evidence that is offered to show whether or not fares or zone descriptions should be altered.~~

~~(d) A schedule of the rates and zones currently in effect shall be kept on file in the office of the city clerk.~~

~~(Ord. No. 38-02072011-05, att. § 24-426, 2-7-2011)~~

A schedule of the rates and zones determined by the taxicab business must be submitted to the city clerk upon approval of a new license, the scheduled fee will be considered when approving the license. Established taxicab businesses must submit any revisions to the rates and zones 30 days before the revision goes into effect. The city council, on its own initiative, or on petitions of ten or more residents of the city may conduct a hearing regarding the schedule of fares and definitions of the zones for such fares. The city council has the authority, after a hearing, to determine if the revision is relevant and should be adjusted.

Secs. 14-509—14-529. Reserved.

ORDINANCE 04-02072022

City Council Ordinance

IN CITY COUNCIL

AMENDING THE AUBURN CODE OF ORDINANCES, APPENDIX A, FEES AND CHARGES.

Be it ordained, that the Auburn City Council hereby amends the Auburn Code of Ordinances, Appendix A, Fees and Charges as follows:

Taxicabs:

Taxicab business license ~~(police department inspection required)~~—annually ~~per cab~~ .....~~55~~100.00

~~Taxicab driver's license (Lewiston permit required)~~—annually 25.00

Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022 **Ordinance:** 05-02072022

Author: Phil Crowell, City Manager

Subject: Disorderly Housing

Information: It is the responsibility of the city to protect the health, safety, and welfare of the residents of the Auburn by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Often, these incidents are occurring in housing units or rentals which are unoccupied by the owners. Inquiries have been done with other municipalities to determine how enforcement is being handled.

Many communities over the past few years have adopted a Disorderly Housing Ordinance. Communities have found that chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

Most ordinances define a "disorderly house" as any building which the Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, cohabitees, residents, guests or invitees and that would have a tendency to unreasonably disturb the community, the neighborhood or an ordinary individual in the vicinity of said building. This ordinance would not have an impact for someone calling for service as it relates to protection like a domestic assault, sexual assault, or protection from abuse orders.

City Budgetary Impacts: N/A

Staff Recommended Action: Consider adopting the proposed ordinance.

Previous Meetings and History: Presented and discussed at the 1/18/2022 Council Workshop.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Portland Disorderly Housing Ordinance and Gorham Disorderly Housing Ordinance.

ORDINANCE 05-02072022

City Council Ordinance

IN CITY COUNCIL

ADOPTING A DISORDERLY HOUSING ORDINANCE

Be it ordained, that the City Council hereby adopt the Disorderly Housing Ordinance (attached).

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Ordinance 05-02072022

CITY OF AUBURN
DISORDERLY HOUSE ORDINANCE

SECTION 1. TITLE.

This Ordinance shall be known as the "City of Auburn Disorderly House Ordinance."

SECTION 2. PURPOSE.

The purpose of this Ordinance is to protect the health, safety, and welfare of the residents of the City of Auburn by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Nothing contained in this Ordinance is intended to dissuade, discourage or prohibit any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities, including, but not limited to, the Auburn Police Department.

SECTION 3. LEGISLATIVE FINDINGS.

The City Council hereby finds that:

(a) The City has a substantial and compelling interest in protecting the health, safety, property, and welfare of its citizens and the neighborhoods affected by chronic unlawful or nuisance activity as well as in not dissuading, discouraging or prohibiting any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities.

(b) Chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

(c) The existing ordinances and enforcement processes of the City do not adequately control chronic unlawful or nuisance activity or its detrimental effects on citizens and neighborhoods where such chronic activity occurs.

(d) Establishing the regulatory framework contained herein will alleviate the problems created by chronic unlawful or nuisance activity through early intervention by the Police Department.

SECTION 4. DISORDERLY HOUSES PROHIBITED.

(a) No person shall occupy as owner-occupant or shall allow another to occupy any dwelling, dwelling unit, or rooming house (hereinafter jointly and severally "building") which is a disorderly house as defined herein.

(b) A "disorderly house" is any building which:

(1) The Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and that would have a tendency to unreasonably

disturb the community, the neighborhood or an ordinary individual in the vicinity of said building, including, but not limited to: loud music; boisterous parties; sounds emanating from within the structure which are audible outside the building; loud noise or fights within the building or in its vicinity involving tenants of the building or their invitees (excluding any request for police protection or any police intervention in the face of a threat or a perceived threat to person or property, or any request for the assistance of the police to enforce a court order, including, but not limited to, circumstances in which the request for assistance or other police intervention arises from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or near the building); owners, tenants, or invitees of owners or tenants being intoxicated on public ways in the vicinity of the building; other similar activities in the building or outside the building itself; or

(2) The police have visited three (3) or more times in any thirty (30) day period in response to situations which are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and involve the arrest or summons of owners or tenants or their invitees for activities which constitute either a crime or civil infraction under either state or local law (excluding arrests or summonses arising from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or nearthe building), or create a reasonable suspicion that illegal drug use or sales under 17-A M.R.S.A. Chapter 45 or prostitution or public indecency under 17-A M.R.S.A. Chapter 35 has occurred at the property.

Unit per Building	Number of Visits by Police in any 30-day Period
5 or less	3 Visits
6 – 10	4 Visits
11 or more	5 Visits

(c) The situation to which the visit pertains shall be documented by the Police Department. Such documentation may include sworn affidavits by named citizens that may be sufficient to create a reasonable suspicion said illegal activity has occurred.

SECTION 5. NOTICE OF DISORDERLY HOUSE.

(a) Whenever the Police Department has identified a building as a disorderly house, it shall cause written notification of the events that form the basis for that designation to be given to the owner. The notice shall require the owner to meet with representatives of the City (including the Police Department) within five (5) business days from the date of the written notification, or such other time as is agreed upon by the Police Chief or his/her designee, to identify ways in which the problems that have been identified will be eliminated.

(b) At the time of said meeting, the owner shall be obligated to provide to the City the following documentation:

(1) A list of the names of all tenants or other persons authorized to reside or presently residing in the building and the units they occupy;

(2) Copies of all leases or occupancy agreement(s) with tenants or other persons residing in the building (confidential personal or financial information may be omitted);

(3) Contracts with any property manager or other person responsible for the orderly operation of the building; and

(4) Proof of building ownership.

In addition, the owner shall agree to take effective measures to address the disorderly house, which measures shall be memorialized in a written agreement at the conclusion of the meeting with the City and shall be implemented within one (1) week of said meeting unless another date is agreed upon by the Police Department. The Police Chief or his or her designee has authority to execute such agreements on behalf of the City. Failure to enter into such an agreement at the conclusion of the meeting will be deemed a violation of this Ordinance, and the City may file a complaint in court seeking all remedies permitted by law as set forth in Section 7 of this Ordinance.

(c) If the same building should be classified as a disorderly house by the Police Department on a subsequent occasion within three (3) years, then the City is under no obligation to meet with the owner but may, after notice and hearing before the City Council, condemn and post the building or any units therein against occupancy as set forth in Section 7(a), and/or proceed directly with a complaint in court seeking all remedies permitted by law as set forth in Section 7(a).

(d) The notices provided for in this section may be given to any person, including any legal entity having the right of legal title or the beneficial interest in the disorderly house or any portion thereof, as that interest is recorded in the assessing records of the City or the Registry of Deeds of Androscoggin County, which shall be sufficient for all legal purposes. Notice shall be provided to the owner and any non-owner occupants of the building (if known).

SECTION 6. ENFORCEMENT.

(a) It shall be the duty of the Police Department to administer and enforce the provisions of this Ordinance. If the owner (a) refuses to meet with representatives of the City as set forth in Section 5 above, (b) refuses to agree to take effective measures to address the disorderly house, (c) takes ineffective measures to address the disorderly house as determined by the City, (d) fails to implement the agreement reached with the City to address the disorderly house, or (e) if, in the discretion of the City, the disorderly house requires immediate posting in order to protect the public health, safety or welfare, the City may condemn and post the building or any units therein against occupancy, and/or may file a legal action against the owner and/or violator seeking any and all remedies to which it is entitled pursuant to State and local laws, including, without limitation, declaratory and injunctive relief.

(b) In the event that condemnation and posting the building or any units therein against occupancy is necessary to address the disorderly house, the City shall provide all non-owner occupants of the building with written notice of said condemnation at least thirty (30) days in advance of the act of condemnation or the posting against occupancy, if the list of tenants is known to the City.

(c) In the event of legal action against an owner and/or violator for a disorderly house violation, the City shall name the non-owner occupants of the building (if known) as parties-in-interest to said legal action.

SECTION 7. VIOLATIONS.

Any person violating any of the provisions of this Ordinance or failing or neglecting or refusing to obey any order or notice of the Police Department issued hereunder shall be subject to a penalty as provided herein.

SECTION 8. CIVIL PENALTIES.

Any person who is found to be in violation of any provision of this Ordinance shall be subject to a civil penalty of not less than one thousand dollars ($1,000.00) and not more than two thousand dollars ($2,000.00), or as otherwise provided by 30-A M.R.S.A. § 4452, as may be amended from time to time. Each violation of a separate provision of this Ordinance, and each day of violation, shall constitute separate offenses. In addition, if the City is the prevailing party in an enforcement action, said person shall also be liable for all reasonable expenses incurred by the City in the enforcement of this Ordinance, including, but not limited to, staff time, attorney's fees, and costs. All civil penalties shall inure to the benefit of the City of Auburn.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022 **Ordinance:** 06-02072022

Author: Jason Levesque, Mayor

Subject: Alignment of board and commission scope and responsibility

---

Information: As a follow-up to the December 18th meeting announcement of my intent to complete the work of modernization of our committees and boards that we started last year, I reconvened the committee for one meeting on January 10th to specifically redesign the ad hoc committee on sustainability, conservation and its sub committees, and agriculture.

After input from the ad-hoc committee and Conservation Commission, Agriculture Board, and Forestry Board the proposed ordinance is being submitted for council adoption.

City Budgetary Impacts: NA

Staff Recommended Action: Consider the proposed ordinance amendment.

Previous Meetings and History: See above under information

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

DIVISION 5. ~~CONSERVATION COMMISSION~~

Sec. 2-477. Commission established.

~~A conservation commission is hereby established pursuant to 30-A M.R.S.A. §§ 3261—3263 to consist of seven members appointed by the city council, all of whom shall be residents of the city. The terms of office shall be three years except that initial appointments after the date of adoption of the ordinance from which this division derives shall be such that the terms of no more than three members shall expire in any single year. For that purpose, the city council shall initially appoint three members for terms of one year, two members for terms of two years, and two members for terms of three years, such that the terms of approximately one-third of the members shall expire each year. There shall be one ex-officio member of the board consisting of the city manager or his/her designee.~~

~~(Ord. No. 07-02022015, § 1, 2-17-2015)~~

Sec. 2-478. Purpose.

~~The purpose of the conservation commission shall be to serve as a research, advisory and advocacy group on environmental and conservation issues relating to the city.~~

~~(Ord. No. 07-02022015, § 2, 2-17-2015)~~

Sec. 2-479. Qualifications.

~~All members of the commission shall be selected upon the basis of their knowledge of or interest in conservation, environmental science or related fields.~~

~~(Ord. No. 07-02022015, § 3, 2-17-2015)~~

Sec. 2-480. Powers and duties.

~~The commission:~~

~~(1) Shall keep records of its meetings and activities and make an annual report to the city council;~~

~~(2) Shall conduct research, in conjunction with the planning board, into local land areas, which shall be initiated by majority votes of both the commission and the planning board;~~

~~(3) Shall seek to coordinate the activities of conservation bodies organized for similar purposes;~~

~~(4) Shall keep an index of all open areas within the city, whether publicly or privately owned, including open marshlands, swamps and other wetlands, for the purpose of obtaining information relating to the proper protection, development or use of those open areas. The commission may recommend to the city council or to any board of the city or to any body politic or public agency of the state a program for the better protection, development or use of such open areas, which may include the acquisition of conservation easements;~~

(5) May advertise, prepare, print and distribute books, maps, charts, plans and pamphlets which it considers necessary, if municipal appropriations provide financial resources to do so;

(6) Shall assist staff in the preparation of park and trail plans, the identification of new sites to be added to the park system, recommendations on designation of open space areas, and grant assistance;

(7) Shall coordinate applications for grants from the federal or state governments, or private sources, to improve conservation assets for the city including parks, trail and the community forest.

(8) Shall undertake any other conservation or environmental activity referred to it by the city council.

(9) May recommend to the city council the acceptance of gifts in the municipality's name for any of the commission's purposes.

(10) Shall develop a plan for and provide advice to city staff and agencies regarding the management of the community forest including the anticipated impact of proposed development;

(11) Shall raise community awareness regarding the importance of the community forest;

(12) May raise funds to establish a community forest trust fund;

(13) Shall adopt by-laws to govern the internal affairs of the commission; and

(14) May perform such other functions as are permitted by this Code.

(Ord. No. 07-02022015, § 4, 2-17-2015)

Sec. 2-481. Officers, meetings and records.

(a) The members shall elect from their membership a chairperson, treasurer, a vice-chairperson and a secretary. Officers shall serve two-year terms.

(b) All meetings of the commission shall be open to the public, and notice, if required by law, should be provided to the public about such meetings.

(c) Minutes shall be kept of all meetings.

(Ord. No. 07-02022015, § 5, 2-17-2015)

Sec. 2-482. Committees.

(a) *Establishment:* The chairperson may appoint special committees for purposes and terms approved by the conservation commission.

(b) *Lewiston-Auburn Community Forest Board:* The Lewiston-Auburn Community Forest Board will be a standing subcommittee of the Auburn Conservation Commission. The purpose of the community forest board is to plan for and provide advice to city staff and the conservation commission regarding the management of the community forest. The conservation commission shall designate two members to serve on the Lewiston-Auburn Community Forest Board. The Lewiston-Auburn Community Forest Board shall develop and implement a community forest program that enhances, preserves, protects, and maintains the community forest. Primary activities are to:

(1) Advocate for the community forest;

(2) Develop a plan for and provide advice on the management of the public sector portion of the community forest;

(3) Educate the communities about the community forest and how to care for it;

(4) Raise funds, including grants, and establish a community forest trust;

(5) Develop and advise on policy changes for approval by the city councils;

(6) Advise and consult on community forest issues and projects;

(7) Communicate and coordinate with city staff, planning boards, and other community programs to avoid duplications of efforts and to combine resources to meet goals.

(Ord. No. 07-02022015, § 6, 2-17-2015)

Sec. 2-482.1. Limits of authority.

Nothing contained within this section shall supersede the provisions of the Charter or contrary provisions of the Code. No powers and duties which may be exercised by conservation commissions under state statute which are not explicitly provided in this article may be exercised by the commission created herein.

(Ord. No. 07-02022015, § 7, 2-17-2015)

DIVISION 8. AGRICULTURE COMMITTEE[1]

Sec. 2-482.11. Purpose.

The purpose of the agriculture committee shall be to proactively build a stronger food, agricultural, and resource economy in the city and to address the ongoing needs of protecting and promoting farms, farmland, forestry businesses, woodlots, local agriculture economy and local forestry economy.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.12. Established.

An agriculture committee is hereby established to consist of nine members, of whom seven members shall be appointed by the city council and shall be residents of the city with highest priority given to selecting members who are actively engaged in agriculture or forestry. At least one member shall have professional experience in an area directly related to forestry and at least one shall have direct professional experience in an area related to agriculture. The other nonvoting members shall be residents or landowners. The seven regular members appointed by the city council shall appoint up to two nonvoting members.

The terms of office shall be three years except that initial appointments after the date of adoption of the ordinance from which this division derives shall be such that the terms of no more than three members shall expire in any single year. For that purpose, the city council shall initially appoint one members for terms of one year, three members for terms of two years, and three members for terms of three years, such that the terms of approximately one-third of the members shall expire each year. Subsequent appointments shall be for a term of three years.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

---

[1]Editor's note(s)—Ord. No. 14-12022019, adopted December 9, 2019, set out provisions intended for use as Div. 8, §§ 2-485.1—2-485.7. To preserve the style of this Code, and at the editor's discretion, these provisions have been included here as Div. 8, §§ 2-482.11—2-482.17.

Sec. 2-482.13. Qualifications.

All members of the committee shall be selected upon the basis of their active involvement, interests, skill or expertise in agriculture, forestry, food system economics, public policy or related fields. All voting members shall be residents of the city.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.14. Powers and duties.

The committee shall:

(1) Make recommendations to the planning board and city council and consult with the conservation commission regarding the ongoing needs of protecting and promoting farms, forestry businesses, farmland, woodlots and building a stronger food, agricultural and resource economy in the city.

(2) Promote opportunities for farm financing and farm, forestry or natural resource business development proposals, conservation and preservation of agricultural lands and encourage the marketing of the city's agricultural and forestry products;

(3) Seek to coordinate the activities of local, state and regional organizations of similar purposes and collaborate to assist with education of the community regarding food systems, agriculture and forestry;

(4) Research methods, best practices and successful policies that other communities are using to strengthen and support agriculture and forestry and share information and ideas with community leaders.

(5) Periodically review the city comprehensive plan, ordinances and land use trends that relate to agriculture and forestry in order to identify potential barriers and opportunities to modify the city's policies and ordinances to better support agriculture and forestry.

(6) Support broad public participation in changes to municipal policies and ordinances that affect agriculture and forestry and provide opportunities for public input as changes are proposed.

(7) Review applications for a voluntary municipal farm support program and perform related duties as requested by the city council.

(8) Keep records of its meetings and activities and make an annual report to the city council;

(9) Undertake any other agricultural or forestry related activity referred to it by the city council;

(10) Adopt by-laws to govern the internal affairs of the committee including meeting frequency;

(11) May perform such other functions as are permitted by this Code.

(12) Should any project in the city require the submission of a farm plan, the committee shall review the farm plan and provide a recommendation to the planning board within 60 days.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.15. Officers, meetings and records.

(a) The members shall elect from their membership a chairperson, a vice-chairperson and a secretary. Officers shall serve two-year terms.

~~(b) All meetings of the committee shall be open to the public, and notice, shall be provided to the public about such meetings.~~

~~(c) The committee may request that testimony provided during public hearings in front of the committee be provided under oath.~~

~~(d) Minutes shall be kept of all meetings.~~

~~(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)~~

~~Sec. 2-482.16. Committees.~~

~~The committee may vote to create subcommittees and appoint members of such subcommittees to work on specific projects.~~

~~(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)~~

~~Sec. 2-482.17. Quorum and necessary vote.~~

~~As to any matter requiring a public hearing, no business shall be transacted by the committee without a quorum, consisting of at least half of the voting members of the committee. If less than a quorum is present, the hearing shall be rescheduled, and the members and other interested parties shall be notified of the rescheduling.~~

~~(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)~~

ORDINANCE 06-02072022

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends the Auburn Code of Ordinances, Chapter 2 – Administration, Article V. Boards, Commissions and Committees by striking Division 5, Conservation Commission and Division 8, Agriculture Committee and replacing Division 5 with Sustainability and Natural Resource Management Board as attached.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

DIVISION 5. SUSTAINABILITY AND NATURAL RESOURCE MANAGEMENT BOARD (SNRB)

Sec. 2-477. Board established.

A Board is hereby established pursuant to 30-A M.R.S.A. §§ 3261—3263 to consist of six members, including representatives of the city council, planning board, and four standing working groups on agriculture, conservation, the community forest, and sustainability. The planning board chair and the mayor may either serve on this board or appoint a representative to serve as members of the SNRB for a term of two years. The standing working groups on agriculture, conservation, the community forest, and sustainability shall nominate one representative each for approval by the Council; these members shall serve staggered three-year terms. There shall be one ex officio member of the board, consisting of the city manager or his/her designee.

Sec. 2-478. Purpose.

The purpose of the SNRB shall be to advance Auburn's commitment to sustainability by serving as a research, advisory and advocacy group on environmental issues and natural resource management within the City. The SNRB is created with the purpose of improving the relationship and communication between the City Council, existing committees, and staff with the aim of creating more effective organization of city sustainability efforts.

Sec. 2-479. Qualifications.

All members of the SNRB shall be selected on the basis of their knowledge of or interest in conservation, environmental science, agriculture, forestry, energy or related fields.

Sec. 2-480. Powers and duties.

(1) SNRB will provide an interface between City leadership (City Council/ Mayor/City Manager), and four standing working groups (Conservation, Community Forest, Agriculture, Sustainability). SNRB will assure communication and coordination among the standing working groups, Council, and city staff.

(2) SNRB will meet quarterly or as needed to set priorities for the standing working groups, review working group accomplishments, coordinate efforts, provide operating funds approved by the City Council for working group events, publications, etc. and develop brief quarterly updates for the Council. SNRB shall maintain a working relationship with the Planning Board.

(3) The City shall identify staff to be resources for SNRB . It is not expected that staff attend all meetings, but rather attend or provide advice as needed.

(4) SNRB may, upon approval by the City Manager or City Council advertise, and in coordination with the working groups, prepare, print and distribute books, maps, charts, plans and pamphlets which it considers necessary, if municipal appropriations provide financial resources to do so;

(5) SNRB shall coordinate with City Manager any applications for grants from the federal or state governments, or private sources, to carry out the City's commitments to sustainability and responsible natural resource management;

(6) SNRB may recommend to the city council the acceptance of gifts in the municipality's name for any of the commission's purposes;

(7) SNRB may perform such other functions as are permitted by this Code.

Sec. 2-481. Officers, meetings and records.

(1) SNRB shall appoint a chair and secretary.

(2) SNRB shall appoint members of the 4 standing working groups. Working group membership will be between 5 and 11 depending on need and volunteer interest.

(3) Standing working groups shall provide a quarterly report to the SNRB.

(4) All meetings of the SNRB and standing working groups shall be open to the public, and notice, if required by law, should be provided to the public about such meetings.

(5) Minutes shall be kept of all meetings. Minutes and agendas will be made public through the City's website.

Sec. 2-482. Standing Working Groups

Establishment: The SNRB will oversee four standing working groups, each of which will have a distinct focus on agriculture, conservation, the community forest, or sustainability. Goals of the working groups are outlined below.

Conservation Working Group

The Conservation Working Group will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The purpose of the Conservation Working Group shall be to promote responsible stewardship of the natural environment in Auburn through research, advocacy, and education.

The Conservation Working Group:

a) Shall seek to coordinate the activities of conservation and recreation bodies organized for similar purposes;

b) In coordination with the City GIS staff shall keep an index of all open areas within the city, whether publicly or privately owned, including open marshlands, swamps and other wetlands, for the purpose of obtaining information relating to the proper protection, development or use of those open areas. The working group may recommend to the city council or to any Board of the city a program for the better protection, development or use of such open areas, which may include the acquisition of conservation easements.

c) Shall promote public awareness and appreciation for Auburn's natural environment through a broad education program. This may include organizing events, distributing educational materials, and coordinating with local conservation organizations, both private and public.

d) Shall support and advise City staff on the sustainable management of Auburn's natural resources, and promote cooperation and information-sharing with regional, state, and federal agencies.

e) Shall provide advisory opinions and recommendations to the City Council, Planning Board, and other municipal elected or appointed officials on matters pertaining to natural resource management in Auburn.

f) Shall assist with and coordinate applications for grants from the Federal or State governments, or private sources, to improve conservation assets for the city including parks, trails, and the community forest.

g) Shall undertake any other conservation or environmental activity referred to it by the city council.

Community Forest Working Group

The Lewiston-Auburn Community Forest Board will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The Community Forest Working Group shall develop and implement a program that promotes the socio-economic, environmental, and esthetic values of the Community Forest.

The Community Forest Working Group:

a) Shall advocate for Auburn's Community Forest, defined as the sum of street trees, trees associated with public facilities including parks and schools, and public woodlots under the jurisdiction of the City or the School Department.

b) Shall maintain Auburn's Tree City USA certification which includes Maine Arbor Week Activities.

c) Shall raise funds and develop grant applications to support the Community Forest.

d) Shall collaborate and coordinate with public and private organizations including the working groups of the Sustainability & Natural Resources Board, Planning Board and City Council to provide advice, information and policy recommendations.

e) Shall advise staff concerning the Street Tree Inventory and Public Woodlots Forest Management Plan.

f) Shall meet jointly with representatives from Lewiston to maintain the Lewiston-Auburn Community Forest Board (LACFB) established and continually operating since 2001. LACFB jointly established and manages the tree nursery on North Auburn Road under an easement for the benefit of both cities.

g) Shall provide education opportunities to the public to enhance understanding and appreciation of issues related to the Community Forest, including tree planting, tree care, invasive plant and insect issues, and the socio-economic benefits of the Community Forest.

Natural Products Working Group

The Natural Products Working Group will be a standing working group of the Sustainability and Natural Resource Management Board. The purpose of Auburn's Natural Products Working Group shall be to proactively build a stronger natural resource economy in Auburn and to address the ongoing needs of protecting and promoting farms, farmland, woodlots, and natural resources based industries.

The Natural Products Working Group shall:

a) Work to protect soils of statewide importance

b) Promote local resource based economies

c) Undertake education and community outreach to promote local commodities

d) Provide assistance and contacts for local agricultural and resource based commercial initiatives at the state and federal levels

e) Raise funds and develop grant applications to support the goals of promoting natural products in Auburn.

f) Review and provide recommendations concerning solar installations in AGRP zoned areas

Sustainability Working Group

The Sustainability Working Group will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The mission of the Sustainability Working Group is to assist citizens of Auburn in making Auburn a Sustainable Community in the domains of environment, government operations, and culture.

The Sustainability Working Group:

a) Through application of existing research and data acquired at the local level shall assist the city in developing policies and actions in sustainability that are aligned with the state's climate focus areas: modernization of buildings, transportation, emission reductions, environmental protection, healthy and resilient communities, investment in climate-ready infrastructure, and engagement of our citizens

b) Shall assist City staff in identifying and securing grant funding to supplement city budget outlays for sustainability work.

c) Shall work with the city staff and community partners to develop outcome metrics to measure the effectiveness of sustainability policies and actions. For example: do participation rates for curbside recycling or food composting increase with new recycling/compost bins and a targeted community education program?

d) Shall collaborate with other community groups, the city and quasi-governmental groups to share resources and avoid duplication of efforts in pursuit of shared sustainability goals.

e) Shall assist the city in budget planning to fund a Sustainability Manager position overseeing development of an Auburn Climate Action Plan, as well as current/future sustainability initiatives. Assist the city and the Sustainability Manager with the development of the Auburn Climate Action Plan.

Sec. 2-482.1. Limits of authority.

Nothing contained within this section shall supersede the provisions of the Charter or contrary provisions of the Code. No powers and duties which may be exercised by commissions under state statute which are not explicitly provided in this article may be exercised by the Board created herein.

City of Auburn, Maine
Finance Department

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **December 2021 Financial Report**

DATE: **January 12, 2022**

The following is a discussion regarding the significant variances found in the City's December financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its sixth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 50.0% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through December 31st, including the school department were $53,273,862, or 55.82%, of the budget. The municipal revenues including property taxes were $37,251,301, or 57.18% of the budget which is 0.20% higher than last year during the same period. The accounts listed below are noteworthy.

The current year tax revenue is at 57.08% as compared to 57.18% last year. This is an increase over last year of $167,100.

Excise tax for the month of December is at 51.68%. This is a decrease from FY 20, but we are still over projected revenue for FY 22 by 1.68%.

State Revenue Sharing at the end of December is 84.74% or $2,669,295 which is $891,799 more than last year in December.

Expenditures

City expenditures through December 2021 were $28,611,933 or 60.74% of the budget. This is 0.26% more than the same period last year. Noteworthy variances are:

City of Auburn, Maine
Finance Department
www.auburnmaine.gov | 60 Court Street
Auburn, Maine 04210
207.333.6601

A. The main variances are Debt Service is $96,424 more than FY20, Facilities due to payment of Property and Casualty Insurance Premium earlier than in FY 20, Public Safety Departments are higher than last year by $257,859 and Public Works is higher than FY 20 by $110,158.

Investments

This section contains an investment schedule as of December 31st. Currently the City's funds are earning an average interest rate of .24%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Financial Reports for December 2021

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Ingersoll Turf Facility for revenue and expenditures as of December 31, 2021.

INGERSOLL TURF FACILITY

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets as of December 31, 2021.

Current Assets:
As of the end of December 2021 the total current assets of Ingersoll Turf Facility were $226,687. This consisted cash and cash equivalents of $226,687.

Noncurrent Assets:
Ingersoll's noncurrent assets are the building and equipment that was purchased, less depreciation. The total value of the noncurrent assets as of December 31, 2021 were $89,514.

Liabilities:
Ingersoll had accounts payable of $1,740 as of December 31, 2021.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Ingersoll Turf Facility through December 2021 were $80,790. This revenue comes from the sponsorships, programs, rental income and batting cages.

The operating expenses for Ingersoll Turf Facility through December 2021 were $67,922. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of December 2021, Ingersoll has an operating gain of $12,868 compared to a net loss in November of $4,281.

As of December 31, 2021, Ingersoll has a increase in net assets of $12,868.

The budget to actual reports for revenue and expenditures, show that the revenue for FY22 compared to FY 21.

Re: NSB Arena Financial Reports for December 31, 2021

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of December 31, 2021.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, November 30, 2021.

Current Assets:
As of the end of December 2021 the total current assets of Norway Savings Bank Arena were ($1,384,675). These consisted of cash and cash equivalents of $265,152, accounts receivable of $12,068, and an interfund payable of $1,661,895.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of December 31, 2021 was $195,258.

Liabilities:
Norway Arena had accounts payable of $1,710 as of December 31, 2021.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through December 2021 are $341,047. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through December 2021 were $296,325. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

As of December 2021, Norway Arena has an operating gain of $44,722 compared to the November 2021 operating loss of $107,174 an decrease in the operating gain for the fiscal year of $62,402.

As of December 31, 2021, Norway Arena has a increase in net assets of $44,722.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $6,079 more than in FY21 and expenditures in FY22 are $76,735 less than last year in December.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 7, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C)) with possible action to follow under New Business during the meeting.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
Agenda
February 22, 2022
Auburn Hall, Council Chambers

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022

Subject: Executive Session

Information: Contract negotiations, pursuant to 1 M.R.S.A. Section 405(6) (D).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

EXPERIENCE

2005 – 2020 **St. Paul Travelers Staff Counsel Office – Boston, MA**
Liability Practice Group Leader - assist Managing Attorney in establishing and enforcing high professional and practice standards among 12 liability attorneys and manage own liability caseload which includes CCU, MCU, Construction, Construction Defect and Product Liability cases. Major responsibilities include conducting jury and non-jury trials; engaging in internal file reviews, trial round tables, training presentations, claim department meetings and monthly liability attorneys meetings; supervising the workflow of 2 liability paralegals; serving on National Construction Leadership Team and serving as State Appellate Counsel for Massachusetts.

2005 – 2020 **Travelers Staff Counsel Office – Boston, MA**
Managing Attorney – established and enforced high professional and practice standards among 18 attorneys in 3 practice areas: Liability, Workers Compensation and Subrogation; managed support staff and the administrative and financial aspects of the office's operations; also managed own reduced liability caseload. Major responsibilities included recruitment, retention, development, and performance of professional and administrative staff; management of all aspects of office operations including case assignment, attorney billing, monthly reporting, quality control, expense management, Claim relationships, trial practice and internal and external training; also assisted with initiatives of regional and national management.

1991-2000 **Gallagher & Gallagher, P.C.– Boston, MA**
Shareholder, Senior Trial Attorney and Team Leader
Conducted 30 trials including 11 Superior Court jury trials. Supervised a litigation practice group of 2 associate attorneys, 1 paralegal and 1 secretary. Developed own client base of construction clients. Areas of practice included construction law, employment law and defense of personal injury cases.

1990-1991 **Sally & Fitch – Boston, MA**
Civil Litigation Attorney
Prepared and argued motions, conducted depositions and performed all aspects of pretrial case development. Areas of practice included business litigation, product liability law and personal injury.

1987-1989 **Bingham, Dana & Gould– Boston, MA**
Civil Litigation Attorney
Prepared and argued motions, presented cases at arbitration, conducted depositions and performed all aspects of pretrial case development. Areas of

practice included business litigation, product liability law and employment law. Completed internal year long associate training program including NITA style trial program.

1986-1987 **Deutsch, Williams, Brooks & DeRensis– Boston, MA**
Civil Litigation Attorney
Prepared and argued motions, attended evidentiary hearings, assisted at trials, conducted depositions and performed all aspects of pretrial case development. Areas of practice included business litigation, municipal law, white collar criminal law, employment and personal injury.

1985-1986 **Superior Court of Massachusetts– Boston, MA**
Law Clerk to Justices of Superior Court
Worked as a judicial law clerk to several superior court judges. Attended trials and hearings, performed legal research and prepared drafts of judicial decisions.

VOLUNTEER PROFESSIONAL ACTIVITIES

2006 - 2020 **Massachusetts Defense Lawyers Assoc.**
Director – served on Board of Directors of MDLA, which is the state affiliate of the Defense Research Institute (DRI). Member of Construction and Member Communications committees.

1994 – 2020 **Middlesex County Bar Association**
Past President and Director Law Day committees.

2000 – 2016 **Boston Municipal Court**
Pre-Trial Conferencer – served as a Pre-Trial Conferencer at Boston Municipal Court as part of a pro bono project run by the Boston Bar Association.

1994 – 1999 **City of Melrose Human Rights Commission**
Past Vice Chairman and Commissioner of municipal commission responsible for enforcing and promoting municipal and state anti-discrimination laws.

EDUCATION

Suffolk University Law School, Boston, MA
J.D. cum laude, 1985
Suffolk University Law Review, 1983-1985, Staff and Associate Editor
Best Appellate Brief, Moot Court Competition, 1982

Colby College, Waterville, ME
B.A. 1978 in American Studies

PEER RATING

Achieved Martindale – Hubbell peer rating of AV signifying legal abilities, professional ethics and conduct of the highest standard.

CITY OF AUBURN
BOARD & COMMITTEE
APPOINTMENT APPLICATION

Please complete this application for consideration to serve on a board or committee of the City of Auburn. Submission of an application does not imply or guarantee an appointment to any board or committee. The City reserves the right to appoint board and committee members as vacancies arise and to perform background checks or any other necessary investigations on applicants. Incomplete applications and those which list more than one committee will not be considered.

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I recently bought property here in Auburn. I want to raise a family in this city. The future of my children is in this city as is my own. I want to be a part of what makes Auburn exceptional. I have a deep investment in municipal politics and believe strongly in my ability to provide perspective and valuable insight.

I've come to know many residents so far. Neighbors, business owners, coworkers, etc. They face difficulties every day that may go unseen because they are incapable of finding someone to tell. I want to promote not only the established plan of improvement, but speak for those who can't do so themselves.

I have been looking for ways to volunteer in Auburn and I believe this position could be the best use of my knowledge and capabilities.

What do you hope to accomplish?: I hope to problem solve. There are many issues facing the city that have complicated, multivariate solutions.
The primary area I want to help plan is infrastructure improvement. However, improving infrastructure involves the alteration and consideration of more than bridges and sidewalks, hence my desire to volunteer on the Planning Board rather than a more specialized committee. I want to show how solutions may affect all areas of city development.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Stephen G. Ness

High School : Edward Little H.S.

College : Bentley College
U of M Portland

Employment: President and Treasurer of Ness Oil Co.

Community Involvement

Board member and director Maine Energy Marketers Assoc.
Corporator Mechanics Savings Bank
Corporator Auburn Public Library
Past member Auburn Planning Board (1980 s)
Current Trustee Auburn Sewer District (since 1990)
Past board member and president of Great Falls Balloon Festival
Current volunteer Great Falls Balloon Festival
Member of other organizations

I would be pleased to continue my service as Ward 4 representative to the Auburn Sewer District for another term. Since becoming a trustee the district has seen sewer extensions to many existing and new developments. The most recent major project has been the CSO separation project with the City of Auburn. The remaining issue at hand is the inflow and infiltration processes. Great progress has been made in the control of the amount of storm and ground water entering the system, however the current system needs to be tightened up as well as the elimination of roof drains and sump pumps from the system. I would like to work with the district to continue to replace and reline the current system.

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Water District

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Reappointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have been either on the Planning Board, Forestry Board, Water District and now the Protection Commission since 2007. I would like to continue to serve out one final 3 year term to insure the City of Auburn and its City Council has a voice for it's concerns regarding Lake Auburn and its watershed. It is also my past and present goal to achieve fair cost apportionment, not any different than sewer, for the rate payers of Auburn. Lastly, updating the Lake Auburn By-laws by taking a modern approach to development and recreational opportunities all while insuring the Lake remains viable to deliver safe, reliable and great tasting water to its community.

What do you hope to accomplish?: Continue representing Auburn rate payers and accomplish the task of revising the AWD By-Law for the Protection of Lake Auburn referencing the City's recent Lake Auburn Study. Continue the pursuit of determining ALL watershed costs, accounting for what the City of Lewiston takes for granted like Auburn's overlay ordinances. I also hope to accomplish removing any perceived conflicts of interests with the long standing land acquisition policy the Superintendent has historically administered.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Auburn Water District

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Planning Board; Comp Plan Committee x2, Forestry Board and Flag Committee; Airport Manger hiring Com

Dates served (if known): 2007 to present day

How did you learn of this vacancy?: I knew my term was up in 2022

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Daniel Leo Bilodeau

Subject: A New Form Has Been Submitted - Board/Committee Application

The following form has been submitted by an end-user of the website: Board/Committee Application

First Name: KC

Middle Initial:

Last Name: Geiger

Residence Address: 1464 Pownal Rd

Ward: Ward 5

City: Auburn

Home Phone: 207-784-0204

Cell Phone: 207-240-5649

E-mail Address: kcgeiger@roadrunner.com

Current Occupation: Retired

Previous Occupation (if retired or no longer working): VP Materials Mgmt - Geiger Bros

Education and/or experience: BS Mechanical Engineering - Notre Dame

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Water District

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Reappointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have had a long interest in volunteering my time and giving back to the community. One way has been serving as an Auburn Water District Trustee for over 20 years, many years as Treasurer or President. I rarely miss any meetings and study all issues that come before us. I attend most Sewer District and Lake Water Protection meetings so I can better understand issues that come before those boards as well. My degree in Mechanical Engineering, my years as a Purchasing VP and business owner give me a well rounded experience to complement the other District Trustees.
The Trustees are volunteers responsible for a very important business that provide clean safe drinking water 24 hours a day - 365 days a year. Plus we must take any steps necessary to keep our water source pure for generations to come. I have learned about a lot of complex issues over the years and believe that my institutional knowledge is a valuable asset to the District and would like to continue to serving as Trusee

What do you hope to accomplish?: Before the Trustees are issues of algae growth that is risking Lake Auburn's purity and an aging infrastructure of water pipes that we are not replacing as fast as we should. We need to do more in the future and still balance our investments with water rates that are fair to our customers.
I believe that we can continue to provide safe and economical water to the City of Auburn with a vision to protect our lake and replace pipes that are 75-100 years old.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Auburn Water District

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: No

Dates served (if known):

How did you learn of this vacancy?: Expiration of my term.

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: KC Geiger

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Workshop items that we did not get to during the workshop were carried over to the meeting.

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 19-02072022*
Appointing a representative (City Manager, Phil Crowell) and alternate (Assistant City Manager, Brian Wood) to vote at the Maine service Centers Coalition business meetings.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage of the one consent item.

Passage 7-0.

II. Minutes – January 18, 2022 Regular Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Staples to approve the minutes of the January 18, 2022 Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Conservation Commission Communication/Update – Sam Boss (annual report)
- Auburn Public Library Overview – Mamie Anthoine Ney
- City Clerk Overview – Sue Clements-Dallaire
- Community and Business Development Overview – Glenn Holmes
- Planning Overview – Eric Cousens
- Council Communications (about and to the community)

Councilor Whiting noted that there is a new exhibit at Museum L-A.

Councilor Walker provided information on the upcoming Snow Ball event scheduled for Valentine's Day, February 14, 2022 at the Auburn Senior Community Center.

IV. Open Session:

David Griswold, 199 Gamage Avenue announced that next Thursday at 7:00 pm a webinar will be held in lieu of the regular Forest Board meeting focusing on Browntail

moths and other invasive insects featuring speaker Allison Kanoti. There will be a follow up Saturday the 19th with a field session.

V. **Unfinished Business** – None

The Mayor called for a 5 minute recess.

VI. **New Business**

1. **Resolve 01-02072022**
Approving the Auburn Water District $2 million dollar bond to be used for pipe replacement.

Motion was made by Councilor Gerry and seconded by Councilor Whiting for passage.

Public comment - No one from the public spoke.

Passage 7-0.

2. **Order 20-02072022**
Authorizing the City Manager to negotiate for the purchase of property located at 424 Mt. Auburn Avenue.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Order 21-02072022**
Approving the ARPA funding allocation for Employee Retention.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Milks and seconded by Councilor Walker to amend with the following language:

Ordered, that the Auburn City Council hereby approves the allocation of $565,000.00 from the American Rescue Plan Act (ARPA) funding to support the premium pay and retention efforts for Municipal employees.

Passage 7-0.

Passage of Order 21-02072022 as amended 7-0.

4. **Order 22-02072022**
Approving the ARPA funding allocation for Information Technology (IT).

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 6-0-1 (Councilor Staples abstained).

5. **Order 23-02072022**
Approving the ARPA funding allocation for water and sewer studies and implementation stemming from studies.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

6. **Ordinance 03-02072022**
Amending Auburn's Code of Ordinances, Chapter 14, Article XIV, Taxi Cabs. Public hearing and first reading.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

The Mayor asked to dispense of the second reading on two separate days, which requires a unanimous vote of the Councilors present and voting.

Passage 7-0. A roll call vote was taken.

7. **Ordinance 04-02072022**
Amending Auburn's Code of Ordinances, Appendix A Fees and Charges. Public hearing and first reading.

Public hearing – No one from the public spoke.

The Mayor asked to dispense of the second reading on two separate days, which requires a unanimous vote of the Councilors present and voting.

Passage 7-0. A roll call vote was taken.

8. **Ordinance 05-02072022**
Adopting a Disorderly House ordinance. Public hearing and first reading.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Public hearing - No one from the public spoke.

Passage 7-0.

9. **Ordinance 06-02072022**
Board and Committee restructure Ordinance. Public hearing and first reading.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public hearing:

Sam Boss, Chair of the Conservation Commission highlighted a few points that he would like the Council to consider. He asked how the appointment process will work, adding that he would like to see current members be retained as part of the restructure. He noted that a change in the language of the proposed ordinance before them reflects a change the focus by changing the Agriculture Committee to the Natural Product Committee noting that he would like to see the Council restore the language and focus on food and agriculture.

Dave Griswold echoed the statements brought up by the previous speaker, Sam Boss. He also added that the inclusion of a sustainability working group with the idea of adding a sustainability manager to the staff is a plus. He noted that the priorities that were a focus in the past of promoting local agriculture and local food seem to be omitted in the proposed draft before them. He said we should retain the verbiage of agriculture and forestry.

Motion was made by Councilor Whiting and seconded by Councilor Gerry to amend the Natural Products Working Group title to Natural Products and Agriculture Working Group and to add section "g" to promote local food supply and address local hunger issues.

Passage of amendment 7-0.

Passage as amended 7-0. A roll call vote was taken.

Motion was made by Councilor Milks and seconded by Councilor Whiting to suspend rules and add item to the agenda.

Passage 7-0.

Ordered that the Council hereby approves the allocation of $250,000 of American Rescue Plan Act (ARPA) funding to support the evaluation and analysis of transportation efforts throughout the city and the region.

Passage 7-0.

VII. **Open Session** – There were no members of the public present.

VIII. Reports (from sub-committees to Council)

Mayor Levesque noted that there are a lot of meetings going on, a lot of positives, he is working at State level on legislative issues. He reported on the School Committee adding that he is impressed with the level of professionalism and analytics used. He stated that he sits on Curriculum Committee as well as the Finance Committee for the School Department.

Councilor Staples reported that the Auburn Library board met on January 25th, their next meeting February 22nd via zoom, and LATC will be meeting on Thursday at 4:00 pm via Zoom.

City Manager Crowell reminded everyone that the next Council meeting is scheduled for **Tuesday**, February 22nd. Planning for the naming of the John Jenkins footbridge will be underway soon. Staff is watching the winter operations closely adding that storms have been challenging, and overtime is up. The Public Safety Building Committee is meeting weekly, and things are moving along. There is a Planning meeting tomorrow, there is still time to register to participate via zoom.

Finance Director Eastman, December 2021 Monthly Finance Report.

Motion was made by Councilor Walker and seconded by Councilor Whiting to accept and place on file the December 2021 Monthly Finance Report.

Passage 7-0.

IX. Executive Session - Economic Development, pursuant to 1 MRSA Sec. 405(6)(C) was not needed.

X. Adjournment – Motion was made by Councilor Staples and seconded by Councilor Morin to adjourn. Unanimously approved, the meeting adjourned at 9:36 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

AGE-FRIENDLY
ANNUAL REPORT
January 1 through December 31, 2021

Good evening, Mayor Levesque, City Manager Crowell, City Councilors and City Staff

As the pandemic persisted, our events were challenging, and continued to be changed and limited, but as you will see, it did not stop us! Our thirteen-member committee has been meeting every month, all year long, with some attending from the general public.

The Age-Friendly Community Committee hosted a combination Christmas Party and New Year's Day Celebration on January 1, 2021, complete with a luncheon of finger rolls, chips, pickles, olives, dessert and beverage, served free of charge. We were able to find the previous night's ball drop from Times Square in New York, and replayed it at 11:59 a.m. with the ball dropping at 12:00 Noon. Attendees celebrated with hats and noise makers. They played games and had a great time.

February 14th, we hosted a Valentine's Day luncheon of spaghetti and meatballs, salad, bread and butter, dessert and beverages. We took in $370.00 in donations. Our sponsor for the event was John Morrison from Cure Cannabis Co., who gave $1000.00 toward this and future events.

Beginning March 17th, Age-Friendly started showing movies on the first and third Wednesdays of each month, in lieu of the First Auburn Senior Citizens meetings. No food was allowed at this time. Masks were mandatory and we had a 30 person maximum, with pre-registration being required. Attendees were permitted to bring a beverage.

March 30, 2021, Age-Friendly held a "Walk in the Park", a guided tour of the parks in Auburn, lead by Alan Manoian. The walk began at Festival Plaza and continued down Main Street to the new Anniversary Park. A total of 42 people attended, and masks were mandatory.

On April 23, 2021, Age-Friendly hosted a luncheon from 12:00 to 2:00 p.m., of beef stew, bread and butter, cookies and bottled water. A total of 250 people were served, between the eat-in and take-out meals. Donations of $330.00 were received.

At our April meeting, we discussed purchasing benches and trash receptacles to be placed at the art wall on Main Street and at the Esplanade, so that walkers would have a place to sit and rest. In June, we applied for a grant through the City of Auburn and recently received word that the grant was approved. The items will be ordered, and we will coordinate with Public Works to install the benches and trash receptacles once they are received.

Movies continued to be held each month. We would like to see more participation, however, the movies are very well received, and we are now allowed to serve refreshments, including cookies and popcorn.

In June, the mass gathering rules were lifted and mask wearing became optional. Seniors groups were able to start meeting again, which made it easier for us to get our event information out to the public. People were ready and even anxious to get out and do something.

In July, the group met with Theresa Lamare, In-Service Coordinator from Aging Excellence, who spoke to us about in-home assistance and other help that Aging Excellence offers, in order for people of all ages to stay in their homes. We hope to partner with Aging Excellence to help to reach our goal of enabling

our elderly population to live independently. The agency also offered to sponsor a dessert for one of our senior meals. A representative from Seniors Plus in Lewiston is also on our board.

In August, our movies continued to be held, but attendance was low. Unfortunately, because of licensing restrictions, we are unable to advertise the name of the movies we will be showing and that could be the reason for low attendance.

There was no Balloon Festival in August, so we lost an opportunity to raise money for the Age-Friendly Community Committee coffers, as we did with the beverage booth in 2020, raising approximately $3000.00.

Larry Pelletier, one of our committee members, discovered graffiti at Bonney Park, while he was taking a walk, and it was reported to Public Works. The graffiti has since been removed. By having our members report anything that is amiss, we can get it addressed and rectified in a timely manner. Earlier in the season it was identified that the sidewalk on Court Street was dangerously in disrepair. Public Works was notified by Age-Friendly, and the sidewalk was subsequently repaired. We'd like to take this opportunity to thank Public Works for their responses to our requests.

In September, movies continued to be shown, and plans were made for our future events.

On October 23rd, Age-Friendly hosted an "Eat-In" and "To Go" beans and hot dogs luncheon from 12:00 to 1:30 p.m. No fee was charged, but donations were gratefully accepted. A total of $207.00 was donated to go toward future events, and Mr. William Pepin generously sponsored this event.

On November 25, 2021, Thanksgiving Dinner was sponsored by John Morrison from Cure Cannabis Co, and David McCutcheon from Re-Energy Holdings, LLC. Approximately 200 dinners were served to people who otherwise would not have had a Thanksgiving meal available to them. Donations of $386.12 were received to help with future events.

On December 22, 2021, we held a luncheon to celebrate the holidays with finger rolls, chips, pickles, olives, dessert and bottled water. Donations of $59.00 were received at this event. Unfortunately, the weather was stormy and only about 40 people braved the weather and came out to the event. Everyone played card games and Corn Hole, and had a great time. Carol LePage, a member of First Auburn Senior Citizens, generously donated a diamond art picture to be raffled off. The winner was drawn at this event.

Plans were made for our New Year's Day celebration, but I won't tell you how that turned out until next year's report!

Respectfully submitted,
AGE-FRIENDLY COMMUNITY COMMITTEE

Jan Biron
Secretary

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022 **Ordinance:** 05-02072022

Author: Phil Crowell, City Manager

Subject: Disorderly Housing

Information: It is the responsibility of the city to protect the health, safety, and welfare of the residents of the Auburn by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Often, these incidents are occurring in housing units or rentals which are unoccupied by the owners. Inquiries have been done with other municipalities to determine how enforcement is being handled.

Many communities over the past few years have adopted a Disorderly Housing Ordinance. Communities have found that chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

Most ordinances define a "disorderly house" as any building which the Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, cohabitees, residents, guests or invitees and that would have a tendency to unreasonably disturb the community, the neighborhood or an ordinary individual in the vicinity of said building. This ordinance would not have an impact for someone calling for service as it relates to protection like a domestic assault, sexual assault, or protection from abuse orders.

City Budgetary Impacts: N/A

Staff Recommended Action: Consider adopting the proposed ordinance.

Previous Meetings and History: Presented and discussed at the 1/18/2022 Council Workshop. Public hearing and passage of first reading on 2/7/2022.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Ordinance

ORDINANCE 05-02072022

City Council Ordinance

IN CITY COUNCIL

ADOPTING A DISORDERLY HOUSING ORDINANCE

Be it ordained, that the City Council hereby adopt the Disorderly Housing Ordinance (attached).

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

Ordinance 05-02072022

CITY OF AUBURN
DISORDERLY HOUSE ORDINANCE

SECTION 1. TITLE.

This Ordinance shall be known as the "City of Auburn Disorderly House Ordinance."

SECTION 2. PURPOSE.

The purpose of this Ordinance is to protect the health, safety, and welfare of the residents of the City of Auburn by eliminating the proliferation of properties with occupants who disturb the peace and tranquility of their neighborhoods. Nothing contained in this Ordinance is intended to dissuade, discourage or prohibit any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities, including, but not limited to, the Auburn Police Department.

SECTION 3. LEGISLATIVE FINDINGS.

The City Council hereby finds that:

(a) The City has a substantial and compelling interest in protecting the health, safety, property, and welfare of its citizens and the neighborhoods affected by chronic unlawful or nuisance activity as well as in not dissuading, discouraging or prohibiting any person whose safety is in jeopardy, or who is a victim of domestic violence, from contacting the appropriate authorities.

(b) Chronic unlawful or nuisance activity of various kinds on and near disorderly houses adversely affects the health, safety and welfare of citizens and diminishes the quality of life in neighborhoods where this chronic activity occurs. Chronic unlawful or nuisance activity constitutes a public nuisance and should be subject to abatement.

(c) The existing ordinances and enforcement processes of the City do not adequately control chronic unlawful or nuisance activity or its detrimental effects on citizens and neighborhoods where such chronic activity occurs.

(d) Establishing the regulatory framework contained herein will alleviate the problems created by chronic unlawful or nuisance activity through early intervention by the Police Department.

SECTION 4. DISORDERLY HOUSES PROHIBITED.

(a) No person shall occupy as owner-occupant or shall allow another to occupy any dwelling, dwelling unit, or rooming house (hereinafter jointly and severally "building") which is a disorderly house as defined herein.

(b) A "disorderly house" is any building which:

(1) The Police Department has visited a minimum number of times in any thirty (30) day period response to situations that are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and that would have a tendency to unreasonably

disturb the community, the neighborhood or an ordinary individual in the vicinity of said building, including, but not limited to: loud music; boisterous parties; sounds emanating from within the structure which are audible outside the building; loud noise or fights within the building or in its vicinity involving tenants of the building or their invitees (excluding any request for police protection or any police intervention in the face of a threat or a perceived threat to person or property, or any request for the assistance of the police to enforce a court order, including, but not limited to, circumstances in which the request for assistance or other police intervention arises from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or near the building); owners, tenants, or invitees of owners or tenants being intoxicated on public ways in the vicinity of the building; other similar activities in the building or outside the building itself; or

(2) The police have visited three (3) or more times in any thirty (30) day period in response to situations which are created by the owner, tenants, or owner's or tenants' cohabitees, guests or invitees and involve the arrest or summons of owners or tenants or their invitees for activities which constitute either a crime or civil infraction under either state or local law (excluding arrests or summonses arising from an incident relating to domestic violence, dating violence, sexual assault or stalking against any person at or nearthe building), or create a reasonable suspicion that illegal drug use or sales under 17-A M.R.S.A. Chapter 45 or prostitution or public indecency under 17-A M.R.S.A. Chapter 35 has occurred at the property.

Unit per Building	Number of Visits by Police in any 30-day Period
5 or less	3 Visits
6 – 10	4 Visits
11 or more	5 Visits

(c) The situation to which the visit pertains shall be documented by the Police Department. Such documentation may include sworn affidavits by named citizens that may be sufficient to create a reasonable suspicion said illegal activity has occurred.

SECTION 5. NOTICE OF DISORDERLY HOUSE.

(a) Whenever the Police Department has identified a building as a disorderly house, it shall cause written notification of the events that form the basis for that designation to be given to the owner. The notice shall require the owner to meet with representatives of the City (including the Police Department) within five (5) business days from the date of the written notification, or such other time as is agreed upon by the Police Chief or his/her designee, to identify ways in which the problems that have been identified will be eliminated.

(b) At the time of said meeting, the owner shall be obligated to provide to the City the following documentation:

(1) A list of the names of all tenants or other persons authorized to reside or presently residing in the building and the units they occupy;

(2) Copies of all leases or occupancy agreement(s) with tenants or other persons residing in the building (confidential personal or financial information may be omitted);

(3) Contracts with any property manager or other person responsible for the orderly operation of the building; and

(4) Proof of building ownership.

In addition, the owner shall agree to take effective measures to address the disorderly house, which measures shall be memorialized in a written agreement at the conclusion of the meeting with the City and shall be implemented within one (1) week of said meeting unless another date is agreed upon by the Police Department. The Police Chief or his or her designee has authority to execute such agreements on behalf of the City. Failure to enter into such an agreement at the conclusion of the meeting will be deemed a violation of this Ordinance, and the City may file a complaint in court seeking all remedies permitted by law as set forth in Section 7 of this Ordinance.

(c) If the same building should be classified as a disorderly house by the Police Department on a subsequent occasion within three (3) years, then the City is under no obligation to meet with the owner but may, after notice and hearing before the City Council, condemn and post the building or any units therein against occupancy as set forth in Section 7(a), and/or proceed directly with a complaint in court seeking all remedies permitted by law as set forth in Section 7(a).

(d) The notices provided for in this section may be given to any person, including any legal entity having the right of legal title or the beneficial interest in the disorderly house or any portion thereof, as that interest is recorded in the assessing records of the City or the Registry of Deeds of Androscoggin County, which shall be sufficient for all legal purposes. Notice shall be provided to the owner and any non-owner occupants of the building (if known).

SECTION 6. ENFORCEMENT.

(a) It shall be the duty of the Police Department to administer and enforce the provisions of this Ordinance. If the owner (a) refuses to meet with representatives of the City as set forth in Section 5 above, (b) refuses to agree to take effective measures to address the disorderly house, (c) takes ineffective measures to address the disorderly house as determined by the City, (d) fails to implement the agreement reached with the City to address the disorderly house, or (e) if, in the discretion of the City, the disorderly house requires immediate posting in order to protect the public health, safety or welfare, the City may condemn and post the building or any units therein against occupancy, and/or may file a legal action against the owner and/or violator seeking any and all remedies to which it is entitled pursuant to State and local laws, including, without limitation, declaratory and injunctive relief.

(b) In the event that condemnation and posting the building or any units therein against occupancy is necessary to address the disorderly house, the City shall provide all non-owner occupants of the building with written notice of said condemnation at least thirty (30) days in advance of the act of condemnation or the posting against occupancy, if the list of tenants is known to the City.

(c) In the event of legal action against an owner and/or violator for a disorderly house violation, the City shall name the non-owner occupants of the building (if known) as parties-in-interest to said legal action.

SECTION 7. VIOLATIONS.

Any person violating any of the provisions of this Ordinance or failing or neglecting or refusing to obey any order or notice of the Police Department issued hereunder shall be subject to a penalty as provided herein.

SECTION 8. CIVIL PENALTIES.

Any person who is found to be in violation of any provision of this Ordinance shall be subject to a civil penalty of not less than one thousand dollars ($1,000.00) and not more than two thousand dollars ($2,000.00), or as otherwise provided by 30-A M.R.S.A. § 4452, as may be amended from time to time. Each violation of a separate provision of this Ordinance, and each day of violation, shall constitute separate offenses. In addition, if the City is the prevailing party in an enforcement action, said person shall also be liable for all reasonable expenses incurred by the City in the enforcement of this Ordinance, including, but not limited to, staff time, attorney's fees, and costs. All civil penalties shall inure to the benefit of the City of Auburn.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022 **Ordinance:** 06-02072022

Author: Jason Levesque, Mayor

Subject: Alignment of board and commission scope and responsibility

---

Information: As a follow-up to the December 18th meeting announcement of my intent to complete the work of modernization of our committees and boards that we started last year, I reconvened the committee for one meeting on January 10th to specifically redesign the ad hoc committee on sustainability, conservation and its sub committees, and agriculture.

After input from the ad-hoc committee and Conservation Commission, Agriculture Board, and Forestry Board the proposed ordinance is being submitted for council adoption.

City Budgetary Impacts: NA

Staff Recommended Action: Consider the proposed ordinance amendment.

Previous Meetings and History: As noted above under information, and a public hearing and passage of first reading on 2/7/2022.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance Language

DIVISION 5. ~~CONSERVATION COMMISSION~~

Sec. 2-477. Commission established.

~~A conservation commission is hereby established pursuant to 30-A M.R.S.A. §§ 3261—3263 to consist of seven members appointed by the city council, all of whom shall be residents of the city. The terms of office shall be three years except that initial appointments after the date of adoption of the ordinance from which this division derives shall be such that the terms of no more than three members shall expire in any single year. For that purpose, the city council shall initially appoint three members for terms of one year, two members for terms of two years, and two members for terms of three years, such that the terms of approximately one-third of the members shall expire each year. There shall be one ex-officio member of the board consisting of the city manager or his/her designee.~~

~~(Ord. No. 07-02022015, § 1, 2-17-2015)~~

Sec. 2-478. Purpose.

~~The purpose of the conservation commission shall be to serve as a research, advisory and advocacy group on environmental and conservation issues relating to the city.~~

~~(Ord. No. 07-02022015, § 2, 2-17-2015)~~

Sec. 2-479. Qualifications.

~~All members of the commission shall be selected upon the basis of their knowledge of or interest in conservation, environmental science or related fields.~~

~~(Ord. No. 07-02022015, § 3, 2-17-2015)~~

Sec. 2-480. Powers and duties.

~~The commission:~~

~~(1) Shall keep records of its meetings and activities and make an annual report to the city council;~~

~~(2) Shall conduct research, in conjunction with the planning board, into local land areas, which shall be initiated by majority votes of both the commission and the planning board;~~

~~(3) Shall seek to coordinate the activities of conservation bodies organized for similar purposes;~~

~~(4) Shall keep an index of all open areas within the city, whether publicly or privately owned, including open marshlands, swamps and other wetlands, for the purpose of obtaining information relating to the proper protection, development or use of those open areas. The commission may recommend to the city council or to any board of the city or to any body politic or public agency of the state a program for the better protection, development or use of such open areas, which may include the acquisition of conservation easements;~~

(5) May advertise, prepare, print and distribute books, maps, charts, plans and pamphlets which it considers necessary, if municipal appropriations provide financial resources to do so;

(6) Shall assist staff in the preparation of park and trail plans, the identification of new sites to be added to the park system, recommendations on designation of open space areas, and grant assistance;

(7) Shall coordinate applications for grants from the federal or state governments, or private sources, to improve conservation assets for the city including parks, trail and the community forest.

(8) Shall undertake any other conservation or environmental activity referred to it by the city council.

(9) May recommend to the city council the acceptance of gifts in the municipality's name for any of the commission's purposes.

(10) Shall develop a plan for and provide advice to city staff and agencies regarding the management of the community forest including the anticipated impact of proposed development;

(11) Shall raise community awareness regarding the importance of the community forest;

(12) May raise funds to establish a community forest trust fund;

(13) Shall adopt by-laws to govern the internal affairs of the commission; and

(14) May perform such other functions as are permitted by this Code.

(Ord. No. 07-02022015, § 4, 2-17-2015)

Sec. 2-481. Officers, meetings and records.

(a) The members shall elect from their membership a chairperson, treasurer, a vice-chairperson and a secretary. Officers shall serve two-year terms.

(b) All meetings of the commission shall be open to the public, and notice, if required by law, should be provided to the public about such meetings.

(c) Minutes shall be kept of all meetings.

(Ord. No. 07-02022015, § 5, 2-17-2015)

Sec. 2-482. Committees.

(a) *Establishment:* The chairperson may appoint special committees for purposes and terms approved by the conservation commission.

(b) *Lewiston-Auburn Community Forest Board:* The Lewiston-Auburn Community Forest Board will be a standing subcommittee of the Auburn Conservation Commission. The purpose of the community forest board is to plan for and provide advice to city staff and the conservation commission regarding the management of the community forest. The conservation commission shall designate two members to serve on the Lewiston-Auburn Community Forest Board. The Lewiston-Auburn Community Forest Board shall develop and implement a community forest program that enhances, preserves, protects, and maintains the community forest. Primary activities are to:

(1) Advocate for the community forest;

(2) Develop a plan for and provide advice on the management of the public sector portion of the community forest;

(3) Educate the communities about the community forest and how to care for it;

(4) Raise funds, including grants, and establish a community forest trust;

(5) Develop and advise on policy changes for approval by the city councils;

(6) Advise and consult on community forest issues and projects;

(7) Communicate and coordinate with city staff, planning boards, and other community programs to avoid duplications of efforts and to combine resources to meet goals.

(Ord. No. 07-02022015, § 6, 2-17-2015)

Sec. 2-482.1. Limits of authority.

Nothing contained within this section shall supersede the provisions of the Charter or contrary provisions of the Code. No powers and duties which may be exercised by conservation commissions under state statute which are not explicitly provided in this article may be exercised by the commission created herein.

(Ord. No. 07-02022015, § 7, 2-17-2015)

DIVISION 8. AGRICULTURE COMMITTEE[1]

Sec. 2-482.11. Purpose.

The purpose of the agriculture committee shall be to proactively build a stronger food, agricultural, and resource economy in the city and to address the ongoing needs of protecting and promoting farms, farmland, forestry businesses, woodlots, local agriculture economy and local forestry economy.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.12. Established.

An agriculture committee is hereby established to consist of nine members, of whom seven members shall be appointed by the city council and shall be residents of the city with highest priority given to selecting members who are actively engaged in agriculture or forestry. At least one member shall have professional experience in an area directly related to forestry and at least one shall have direct professional experience in an area related to agriculture. The other nonvoting members shall be residents or landowners. The seven regular members appointed by the city council shall appoint up to two nonvoting members.

The terms of office shall be three years except that initial appointments after the date of adoption of the ordinance from which this division derives shall be such that the terms of no more than three members shall expire in any single year. For that purpose, the city council shall initially appoint one members for terms of one year, three members for terms of two years, and three members for terms of three years, such that the terms of approximately one-third of the members shall expire each year. Subsequent appointments shall be for a term of three years.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

---

[1]Editor's note(s)—Ord. No. 14-12022019, adopted December 9, 2019, set out provisions intended for use as Div. 8, §§ 2-485.1—2-485.7. To preserve the style of this Code, and at the editor's discretion, these provisions have been included here as Div. 8, §§ 2-482.11—2-482.17.

~~Sec. 2-482.13. Qualifications.~~

~~All members of the committee shall be selected upon the basis of their active involvement, interests, skill or expertise in agriculture, forestry, food system economics, public policy or related fields. All voting members shall be residents of the city.~~

~~(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)~~

~~Sec. 2-482.14. Powers and duties.~~

~~The committee shall:~~

~~(1) Make recommendations to the planning board and city council and consult with the conservation commission regarding the ongoing needs of protecting and promoting farms, forestry businesses, farmland, woodlots and building a stronger food, agricultural and resource economy in the city.~~

~~(2) Promote opportunities for farm financing and farm, forestry or natural resource business development proposals, conservation and preservation of agricultural lands and encourage the marketing of the city's agricultural and forestry products;~~

~~(3) Seek to coordinate the activities of local, state and regional organizations of similar purposes and collaborate to assist with education of the community regarding food systems, agriculture and forestry;~~

~~(4) Research methods, best practices and successful policies that other communities are using to strengthen and support agriculture and forestry and share information and ideas with community leaders.~~

~~(5) Periodically review the city comprehensive plan, ordinances and land use trends that relate to agriculture and forestry in order to identify potential barriers and opportunities to modify the city's policies and ordinances to better support agriculture and forestry.~~

~~(6) Support broad public participation in changes to municipal policies and ordinances that affect agriculture and forestry and provide opportunities for public input as changes are proposed.~~

~~(7) Review applications for a voluntary municipal farm support program and perform related duties as requested by the city council.~~

~~(8) Keep records of its meetings and activities and make an annual report to the city council;~~

~~(9) Undertake any other agricultural or forestry related activity referred to it by the city council;~~

~~(10) Adopt by-laws to govern the internal affairs of the committee including meeting frequency;~~

~~(11) May perform such other functions as are permitted by this Code.~~

~~(12) Should any project in the city require the submission of a farm plan, the committee shall review the farm plan and provide a recommendation to the planning board within 60 days.~~

~~(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)~~

~~Sec. 2-482.15. Officers, meetings and records.~~

~~(a) The members shall elect from their membership a chairperson, a vice-chairperson and a secretary. Officers shall serve two-year terms.~~

(b) All meetings of the committee shall be open to the public, and notice, shall be provided to the public about such meetings.

(c) The committee may request that testimony provided during public hearings in front of the committee be provided under oath.

(d) Minutes shall be kept of all meetings.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.16. Committees.

The committee may vote to create subcommittees and appoint members of such subcommittees to work on specific projects.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

Sec. 2-482.17. Quorum and necessary vote.

As to any matter requiring a public hearing, no business shall be transacted by the committee without a quorum, consisting of at least half of the voting members of the committee. If less than a quorum is present, the hearing shall be rescheduled, and the members and other interested parties shall be notified of the rescheduling.

(Ord. No. 14-12022019, 12-9-2019; Ord. No. 20-12022019, 12-9-2019)

ORDINANCE 06-02072022

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends the Auburn Code of Ordinances, Chapter 2 – Administration, Article V. Boards, Commissions and Committees by striking Division 5, Conservation Commission and Division 8, Agriculture Committee and replacing Division 5 with Sustainability and Natural Resource Management Board as attached.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

DIVISION 5. SUSTAINABILITY AND NATURAL RESOURCE MANAGEMENT BOARD (SNRB)

Sec. 2-477. Board established.

A Board is hereby established pursuant to 30-A M.R.S.A. §§ 3261—3263 to consist of six members, including representatives of the city council, planning board, and four standing working groups on agriculture, conservation, the community forest, and sustainability. The planning board chair and the mayor may either serve on this board or appoint a representative to serve as members of the SNRB for a term of two years. The standing working groups on agriculture, conservation, the community forest, and sustainability shall nominate one representative each for approval by the Council; these members shall serve staggered three-year terms. There shall be one ex officio member of the board, consisting of the city manager or his/her designee.

Sec. 2-478. Purpose.

The purpose of the SNRB shall be to advance Auburn's commitment to sustainability by serving as a research, advisory and advocacy group on environmental issues and natural resource management within the City. The SNRB is created with the purpose of improving the relationship and communication between the City Council, existing committees, and staff with the aim of creating more effective organization of city sustainability efforts.

Sec. 2-479. Qualifications.

All members of the SNRB shall be selected on the basis of their knowledge of or interest in conservation, environmental science, agriculture, forestry, energy or related fields.

Sec. 2-480. Powers and duties.

(1) SNRB will provide an interface between City leadership (City Council/ Mayor/City Manager), and four standing working groups (Conservation, Community Forest, Agriculture, Sustainability). SNRB will assure communication and coordination among the standing working groups, Council, and city staff.

(2) SNRB will meet quarterly or as needed to set priorities for the standing working groups, review working group accomplishments, coordinate efforts, provide operating funds approved by the City Council for working group events, publications, etc. and develop brief quarterly updates for the Council. SNRB shall maintain a working relationship with the Planning Board.

(3) The City shall identify staff to be resources for SNRB . It is not expected that staff attend all meetings, but rather attend or provide advice as needed.

(4) SNRB may, upon approval by the City Manager or City Council advertise, and in coordination with the working groups, prepare, print and distribute books, maps, charts, plans and pamphlets which it considers necessary, if municipal appropriations provide financial resources to do so;

(5) SNRB shall coordinate with City Manager any applications for grants from the federal or state governments, or private sources, to carry out the City's commitments to sustainability and responsible natural resource management;

(6) SNRB may recommend to the city council the acceptance of gifts in the municipality's name for any of the commission's purposes;

(7) SNRB may perform such other functions as are permitted by this Code.

Sec. 2-481. Officers, meetings and records.

(1) SNRB shall appoint a chair and secretary.

(2) SNRB shall appoint members of the 4 standing working groups. Working group membership will be between 5 and 11 depending on need and volunteer interest.

(3) Standing working groups shall provide a quarterly report to the SNRB.

(4) All meetings of the SNRB and standing working groups shall be open to the public, and notice, if required by law, should be provided to the public about such meetings.

(5) Minutes shall be kept of all meetings. Minutes and agendas will be made public through the City's website.

Sec. 2-482. Standing Working Groups

Establishment: The SNRB will oversee four standing working groups, each of which will have a distinct focus on agriculture, conservation, the community forest, or sustainability. Goals of the working groups are outlined below.

Conservation Working Group

The Conservation Working Group will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The purpose of the Conservation Working Group shall be to promote responsible stewardship of the natural environment in Auburn through research, advocacy, and education.

The Conservation Working Group:

a) Shall seek to coordinate the activities of conservation and recreation bodies organized for similar purposes;

b) In coordination with the City GIS staff shall keep an index of all open areas within the city, whether publicly or privately owned, including open marshlands, swamps and other wetlands, for the purpose of obtaining information relating to the proper protection, development or use of those open areas. The working group may recommend to the city council or to any Board of the city a program for the better protection, development or use of such open areas, which may include the acquisition of conservation easements.

c) Shall promote public awareness and appreciation for Auburn's natural environment through a broad education program. This may include organizing events, distributing educational materials, and coordinating with local conservation organizations, both private and public.

d) Shall support and advise City staff on the sustainable management of Auburn's natural resources, and promote cooperation and information-sharing with regional, state, and federal agencies.

e) Shall provide advisory opinions and recommendations to the City Council, Planning Board, and other municipal elected or appointed officials on matters pertaining to natural resource management in Auburn.

f) Shall assist with and coordinate applications for grants from the Federal or State governments, or private sources, to improve conservation assets for the city including parks, trails, and the community forest.

g) Shall undertake any other conservation or environmental activity referred to it by the city council.

Community Forest Working Group

The Lewiston-Auburn Community Forest Board will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The Community Forest Working Group shall develop and implement a program that promotes the socio-economic, environmental, and esthetic values of the Community Forest.

The Community Forest Working Group:

a) Shall advocate for Auburn's Community Forest, defined as the sum of street trees, trees associated with public facilities including parks and schools, and public woodlots under the jurisdiction of the City or the School Department.

b) Shall maintain Auburn's Tree City USA certification which includes Maine Arbor Week Activities.

c) Shall raise funds and develop grant applications to support the Community Forest.

d) Shall collaborate and coordinate with public and private organizations including the working groups of the Sustainability & Natural Resources Board, Planning Board and City Council to provide advice, information and policy recommendations.

e) Shall advise staff concerning the Street Tree Inventory and Public Woodlots Forest Management Plan.

f) Shall meet jointly with representatives from Lewiston to maintain the Lewiston-Auburn Community Forest Board (LACFB) established and continually operating since 2001. LACFB jointly established and manages the tree nursery on North Auburn Road under an easement for the benefit of both cities.

g) Shall provide education opportunities to the public to enhance understanding and appreciation of issues related to the Community Forest, including tree planting, tree care, invasive plant and insect issues, and the socio-economic benefits of the Community Forest.

Natural Products and Agriculture Working Group

The Natural Products Working Group will be a standing working group of the Sustainability and Natural Resource Management Board. The purpose of Auburn's Natural Products Working Group shall be to proactively build a stronger natural resource economy in Auburn and to address the ongoing needs of protecting and promoting farms, farmland, woodlots, and natural resources based industries.

The Natural Products Working Group shall:

a) Work to protect soils of statewide importance

b) Promote local resource based economies

c) Undertake education and community outreach to promote local commodities

d) Provide assistance and contacts for local agricultural and resource based commercial initiatives at the state and federal levels

e) Raise funds and develop grant applications to support the goals of promoting natural products in Auburn.

f) Review and provide recommendations concerning solar installations in AGRP zoned areas

~~f)~~g) Promote local food supplies and address local hunger issues.

Sustainability Working Group

The Sustainability Working Group will be a standing working group of the Auburn Sustainability and Natural Resource Management Commission. The mission of the Sustainability Working Group is to assist citizens of Auburn in making Auburn a Sustainable Community in the domains of environment, government operations, and culture.

The Sustainability Working Group:

a) Through application of existing research and data acquired at the local level shall assist the city in developing policies and actions in sustainability that are aligned with the state's climate focus areas: modernization of buildings, transportation, emission reductions, environmental protection, healthy and resilient communities, investment in climate-ready infrastructure, and engagement of our citizens

b) Shall assist City staff in identifying and securing grant funding to supplement city budget outlays for sustainability work.

c) Shall work with the city staff and community partners to develop outcome metrics to measure the effectiveness of sustainability policies and actions. For example: do participation rates for curbside recycling or food composting increase with new recycling/compost bins and a targeted community education program?

d) Shall collaborate with other community groups, the city and quasi-governmental groups to share resources and avoid duplication of efforts in pursuit of shared sustainability goals.

e) Shall assist the city in budget planning to fund a Sustainability Manager position overseeing development of an Auburn Climate Action Plan, as well as current/future sustainability initiatives. Assist the city and the Sustainability Manager with the development of the Auburn Climate Action Plan.

Sec. 2-482.1. Limits of authority.

Nothing contained within this section shall supersede the provisions of the Charter or contrary provisions of the Code. No powers and duties which may be exercised by commissions under state statute which are not explicitly provided in this article may be exercised by the Board created herein.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022 **Order:** 30-02222022

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Tambrands II Municipal Development and Tax Increment Financing District Amendment

---

Information: The Current Tambrands TIF allows for 40% Credit enhancement. Tambrands has incurred substantial unforeseen costs in their facility's six million dollar expansion, and the current TIF ends in nine years. We seek to amend the TIF to allow for a 75% Credit enhancement to recoup a portion of the unforeseen costs over the remaining nine years.

City Budgetary Impacts: estimated reduction in TIF Revenue of $150,000 Year one and estimated $35,000 reduction in years 2 thru 9

Staff Recommended Action: Approve the Amendment as presented

Previous Meetings and History: In the spring of 2021 Council authorized the sale of Airport property to Tambrands and was briefed on the need to amend the TIF.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: TIF Amendment as prepared by Bernstein Shur & City Staff

City Council Order

Amending the #6 Proctor & Gamble (Tambrands II) Municipal Development Tax Increment Financing Development Program

WHEREAS, the City of Auburn (the "City") is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to designate specific areas within the City as the Tambrands II Tax Increment Financing District (the "District") and to adopt a development program for the District (the "Development Program"); and

WHEREAS, on November 6, 2000 the Auburn City Council designated the District and adopted a Development Program for the District (the "Original Development Program"), which received the approval from the Maine Department of Economic and Community Development (the "Department"); and

WHEREAS, the City desires to adopt the First Amendment to the District and Development Program (the "First Amendment") to continue to achieve the District's original goals by revising the percentage of taxes paid on captured assessed value allocated to Tambrands Inc. ("the Company") in the Credit Enhancement Agreement; and

WHEREAS, the City Council has held a public hearing on February 21, 2022, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City, on the question of amending the Original Development Program and Credit Enhancement Agreement in accordance with the requirements of 30-A M.R.S.A. § 5226; and

WHEREAS, the City Council has considered the comments provided at the public hearing, both for and against the adoption of the First Amendment, if any; and

WHEREAS, it is expected that approval will be sought and obtained from the Department, approving the First Amendment; and

NOW THEREFORE, BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN, MAINE:

Section 1 The proposed First Amendment will contribute to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City. Pursuant to Title 30-A M.R.S.A. Section 5226(5), this First Amendment does not result in the District being out of compliance with any of the conditions of 30-A M.R.S.A. Section 5223(3) which include the percentage of area the District that is suitable for commercial use or other allowable uses, the acreage caps for single TIF districts and for all TIF districts in the City, and the total TIF district valuation cap. The City Council has considered any evidence presented regarding potential substantial detriments to a party's existing business and determined that any adverse economic effect of the proposed First Amendment on a party's existing business is outweighed by the contribution made by the First Amendment to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2 Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby amends the Tambrands II Municipal Development Tax Increment Financing Development Program and adopts the First Amendment, all as more particularly described in the First Amendment presented to the

City Council herewith. Such First Amendment is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. The City Manager, or his duly appointed representative, is hereby authorized, empowered and directed to submit the proposed First Amendment to the Department for review and approval pursuant to the requirements of 30-A M.R.S.A. § 5226(2). In addition, the City Manager, or his duly appointed representative is hereby authorized, empowered, and directed to execute the amended Credit Enhancement Agreement on terms that are consistent with the First Amendment.

Section 4. The foregoing adoption of the First Amendment shall automatically become final and shall take full force and effect upon receipt by the City of approval of adoption of the First Amendment by the Department, without requirement of any further action by the City, the City Council, or any other party.

Section 5. The City Manager, or his duly appointed representative, is hereby authorized and empowered, at his discretion, from time to time, to make such revisions to the documents adopting the First Amendment as he may deem reasonably necessary or convenient in order to facilitate the process for review and approval of the First Amendment by the Department, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Council in adopting the First Amendment.

Approved February 22, 2022, by the City Council, at a meeting duly convened and conducted at Auburn, Maine.

I. Introduction

A. Summary of the First Amendment to the #6 Proctor & Gamble (Tambrands II) TIF Development Program

The City seeks its first amendment (the "First Amendment") to the #6 Proctor & Gamble (Tambrands II) Tax Increment Financing ("TIF") District ("District") Development Program ("Development Program"). This First Amendment aims to (1) amend the percentage allocation of TIF revenues between the City and Tambrands Inc. (the "Company") so that for the remainder of the term, the Company will receive seventy-five percent (75%) of TIF revenues rather than forty percent (40%); and (2) to authorize an amendment to the existing Credit Enhancement Agreement (the "CEA") to modify the percentage allocations described above. The First Amendment is being undertaken to assist the Company with a new capital improvement project in the existing District. The Company plans to construct a 116,000-square foot manufacturing and warehouse building addition onto its existing facility, add 84,000-square feet of access drives and truck maneuvering areas, and associated stormwater and electrical infrastructure. Additionally, through these three changes, the City intends to further encourage and facilitate economic development within the District and in the City at large. To the extent this First Amendment does not address provisions of the original District and original Development Program, such original documents remain in full force and effect. Please note that the original Development Program for the District is attached as Exhibit A.

This First Amendment is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute").

B. The Existing District and Development Program

On November 6, 2000, the City of Auburn (the "City") designated the #6 Proctor & Gamble (Tambrands II) Municipal Development and Tax Increment Financing District and adopted the Development Program for the District. The Department of Economic and Community Development ("DECD") approved the original District and the original Development Program in March 30, 2001. The City created the District in order to assist the Company with the acquisition and installation of machinery and equipment and the development of additional research and manufacturing facilities. Additionally, the District was intended to create and retain employment opportunities, improve the City's tax base, and improve the general economy of the State. The term of the District is thirty (30) years. The acreage of the District is 84 acres and the original assessed value of the District is $520,900. The District captured one hundred percent (100%) of the increase in the assessed value in the District as captured assessed value and the City retains sixty percent (60%) of the tax increment revenues from the District while paying the remaining forty percent (40%) to the Company through a CEA.

II. Development Program Amendment Narrative

A. Financial Plan

While the City will continue to capture the full one hundred percent (100%) of increased assessed value as captured assessed value, for the remaining nine years, starting in fiscal year 2022-2023, the City will retain twenty-five percent (25%) of the TIF revenues and allocate seventy-five percent (75%) for the Company through an amended CEA. This First Amendment authorizes and directs an amendment to the Credit Enhancement Agreement be executed to reflect this description. The District will expire on March 30, 2031. Please see Exhibit B for a projection of increased assessed values and tax shifts for the District.

The percentage of TIF revenues not obligated to be paid to the Company pursuant to the Credit Enhancement Agreement for each year will be deposited into the City's Project Cost Subaccount of the Development Program Fund for the District and will be used for various municipal economic development endeavors outlined in the original Development Program attached hereto as Exhibit A.

III. Approval Process for First Amendment

A. Notice of Public Hearing

Attached as Exhibit C is a copy of the Notice of Public Hearing published in the *Sun Journal*, a newspaper of general circulation in the City, a date at least ten (10) days prior to the public hearing on the First Amendment. The public hearing on the First Amendment was held on February 22, 2022, in accordance with the requirements of 30-A M.R.S.A. § 5226(1).

B. Minutes of Public Hearing

Attached as Exhibit D, is a certified copy of the minutes of the public hearing held on February 22, 2022, at which time the proposed First Amendment was discussed by the public.

C. Authorizing Votes

Attached as Exhibit E is an attested copy of the City of Auburn Council Order, which was approved by the City Council at a City Council meeting duly called and held on February 22, 2022, approving the First Amendment to the Development Program.

IV. Maine Department of Economic and Community Development Forms

A. Application Cover & Employment Goals form

Attached as Exhibit F is a completed application cover sheet & employment goals form for the First Amendment.

B. Statutory Requirements & Thresholds form

Attached as Exhibit G, is a completed statutory requirements and thresholds form for the First Amendment.

2026-2027	26			$8,394,496	$6,000,000	$14,394,496	100%	100%	$14,394,496	23.82	$342,877	$257,158	$85,719
2027-2028	27			$8,394,496	$6,000,000	$14,394,496	100%	100%	$14,394,496	23.82	$342,877	$257,158	$85,719
2028-2029	28			$8,394,496	$6,000,000	$14,394,496	100%	100%	$14,394,496	23.82	$342,877	$257,158	$85,719
2029-2030	29			$8,394,496	$6,000,000	$14,394,496	100%	100%	$14,394,496	23.82	$342,877	$257,158	$85,719
2030-2031	30			$8,394,496	$6,000,000	$14,394,496	100%	100%	$14,394,496	23.82	$342,877	$257,158	$85,719
									Years 22-30 Projected Total:		$2,990,612	$2,242,959	$747,653
									Years 22-30 Projected Average:		$332,290	$249,218	$83,073

Assumptions:

1. Projections show anticipated increased assessed values, captured assessed values, and TIF revenues. They also show prior three years of actual captured values.
2. Includes projection of remainder of 30-year district term with 100% capture. Assumes existing project value remains the same as FY21-22 and projects assessed value of new project within the District to include an initial $3 million assessed value and a $6 million assessed value when complete. Assumes a 30-year CEA during which Years 1-20 includes 40% allocation to Developer and 60% allocation to City, Years 22-30 includes 75% allocation to Developer and 25% allocation to City.
3. Projections assume a flat mil rate of 23.82 for the remaining years in the TIF District.
4. Assumes 100% of the increased assessed value is captured in the District and available for municipal project costs.
5. Projections are much less likely to be accurate farther into the future and are for demonstrative purposes only.

Exhibit B-2 - Tax Shift Benefits

#6 Proctor & Gamble (Tambrands II) TIF District – City of Auburn

Fiscal Year	TIF Year	State Aid to Education Benefit	County Tax Benefit	State Revenue Sharing Benefit	Total Tax Benefit
2022-2023	22	-	-	-	$0
2023-2024	23	-	-	-	$0
2024-2025	24	-	$9,698	$25,663	$35,361
2025-2026	25	$73,801	$13,371	$35,476	$122,648
2026-2027	26	$102,201	$13,371	$35,476	$151,048
2027-2028	27	$102,201	$13,371	$35,476	$151,048
2028-2029	28	$102,201	$13,371	$35,476	$151,048
2029-2030	29	$102,201	$13,371	$35,476	$151,048
2030-2031	30	$102,201	$13,371	$35,476	$151,048
2031-2032		$102,201	$13,371	$35,476	$151,048
2032-2033		$102,201	$13,371	$35,476	$151,048
2033-2034		$102,201	-	-	$102,201
	Totals:	**$891,408**	**$116,666**	**$309,472**	**$1,317,547**
	Averages:	**$99,045**	**$12,963**	**$34,386**	**$109,796**

Assumptions:

1. Data sources include the 2021-2022 mil rate/commitment reported by the City, Androscoggin County's FY2022 Budget reflecting Tax Allocation, the State Treasurer's Office Municipal Revenue Sharing projections for FY2022, published 07/02/2021, and the Maine Department of Education 01/18/22 2022-2023 ED 279 form for Auburn Schools. Based on these projections, the City of Auburn loses apprroximately 44 cents out of every new tax dollar to subsidy losses and increased County taxes.

2. Tax shift losses are comprised of declining subsidies in revenue sharing and increasing obligations to pay county taxes. Tax shift losses occur a couple of years following the year in which the new assessed value is first recognized in the assessment. No tax shift losses occur when a TIF captures all of the new value.

3. These projections assume that the formulas and general inputs for state subsidies and county taxes do not change over time and they assume that all other values in other communities are static relative to one another except for the new value assessed. The projections are less likely to be accurate farther into the future.

4. Assumes the assessment ratio in the City is 100% when new property value arrives, such that the market value of new property is used for assessment purposes.

5. The projections above assume that no tax increment financing district is put in place, thus the mil rate is reduced by the influx of new value in the City. This analysis factors in tax shift impacts resulting from the project's new assessed value into future commitments and mil rate calculations to arrive at projected property tax payments.

Exhibit C

(Notice of Public Hearing for First Amendment)

Exhibit C

NOTICE OF PUBLIC HEARING

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Regarding
An Amendment to the Municipal Development and Tax Increment Financing District known as:

"#6 Proctor & Gamble (Tambrands II) Municipal Development and Tax Increment Financing District"

Notice is hereby given that the City of Auburn will hold a public hearing on

February 22, 2022
at 60 Court Street Auburn , ME 04210
The Public Hearing will be at 7:00 p.m.

The purpose of the public hearing is to receive public comments on the amendment to the municipal development and tax increment financing district known as the Tambrands II Municipal Development and Tax Increment Financing District (the "District") and the adoption of the amendment to the development program for the District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The Tambrands II Municipal Development Tax Increment Financing District is comprised of approximately 84 acres and is located on Hotel Road. The proposed amendment involves an amendment to the existing Credit Enhancement Agreement with Tambrands, Inc. regarding a proposed new capital project.

A copy of the proposed Development Program Amendment materials will be on file with the City Office during normal business hours of 8:30 am – 4:00 pm. They can also be found at https://www.auburnmaine.gov/or one can call *207-333-6601* during normal business hours to request that a copy be mailed to you. All interested persons are invited to attend the public hearing and will be given an opportunity to be heard at that time.

Public comments will be taken at the hearings and written comments should be submitted to Susan Clements-Dallaire, City Clerk at sdaillaire@auburnmaine.gov. Written comments will be accepted until 4:00PM on February 22, 2022.

Exhibit D

(Certified Copy of Public Hearing Minutes for First Amendment)

Exhibit E

(City Council Order for First Amendment)

City Council Order

Amending the #6 Proctor & Gamble (Tambrands II) Municipal Development Tax Increment Financing Development Program

WHEREAS, the City of Auburn (the "City") is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to designate specific areas within the City as the Tambrands II Tax Increment Financing District (the "District") and to adopt a development program for the District (the "Development Program"); and

WHEREAS, on November 6, 2000 the Auburn City Council designated the District and adopted a Development Program for the District (the "Original Development Program"), which received the approval from the Maine Department of Economic and Community Development (the "Department"); and

WHEREAS, the City desires to adopt the First Amendment to the District and Development Program (the "First Amendment") to continue to achieve the District's original goals by revising the percentage of taxes paid on captured assessed value allocated to Tambrands Inc. ("the Company") in the Credit Enhancement Agreement; and

WHEREAS, the City Council has held a public hearing on February 22, 2022, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City, on the question of amending the Original Development Program and Credit Enhancement Agreement in accordance with the requirements of 30-A M.R.S.A. § 5226; and

WHEREAS, the City Council has considered the comments provided at the public hearing, both for and against the adoption of the First Amendment, if any; and

WHEREAS, it is expected that approval will be sought and obtained from the Department, approving the First Amendment; and

NOW THEREFORE, BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN, MAINE:

Section 1 The proposed First Amendment will contribute to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City. Pursuant to Title 30-A M.R.S.A. Section 5226(5), this First Amendment does not result in the District being out of compliance with any of the conditions of 30-A M.R.S.A. Section 5223(3) which include the percentage of area the District that is suitable for commercial use or other allowable uses, the acreage caps for single TIF districts and for all TIF districts in the City, and the total TIF district valuation cap. The City Council has considered any evidence presented regarding potential substantial detriments to a party's existing business and determined that any adverse economic effect of the proposed First Amendment on a party's existing business is outweighed by the contribution made by the First Amendment to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2 Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby amends the Tambrands II Municipal Development Tax Increment Financing Development Program and adopts the First Amendment, all as more particularly described in the First Amendment presented to the

City Council herewith. Such First Amendment is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. The City Manager, or his duly appointed representative, is hereby authorized, empowered and directed to submit the proposed First Amendment to the Department for review and approval pursuant to the requirements of 30-A M.R.S.A. § 5226(2). In addition, the City Manager, or his duly appointed representative is hereby authorized, empowered, and directed to execute the amended Credit Enhancement Agreement on terms that are consistent with the First Amendment.

Section 4. The foregoing adoption of the First Amendment shall automatically become final and shall take full force and effect upon receipt by the City of approval of adoption of the First Amendment by the Department, without requirement of any further action by the City, the City Council, or any other party.

Section 5. The City Manager, or his duly appointed representative, is hereby authorized and empowered, at his discretion, from time to time, to make such revisions to the documents adopting the First Amendment as he may deem reasonably necessary or convenient in order to facilitate the process for review and approval of the First Amendment by the Department, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Council in adopting the First Amendment.

Approved February 22, 2022, by the City Council, at a meeting duly convened and conducted at Auburn, Maine.

**Please use the Occupational Cluster descriptions on the next page to complete this form.*			

INSTRUCTIONS

A. Job Creation Goals. *Please list the number, type and wage level of jobs <u>created</u> as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories defined below. Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.*

B. Job Retention Goals. *Please list the number, type and wage level of jobs <u>retained</u> as a result of the economic development incentive. Part B should be completed using same definitions in Part A.*

OCCUPATIONAL CLUSTERS

1. EXECUTIVE, PROFESSIONAL & TECHNICAL

Executive, administrative and managerial. Workers in executive, administrative and managerial occupations establish policies, make plans, determine staffing requirements, and direct the activities of businesses and other organizations. Workers in management support occupations, such as accountant and auditor or underwriter, provide technical assistance to managers.
Professional specialty. This group includes engineers; architects and surveyors; computer, mathematical, and operations research occupations; life, physical, and social scientists; lawyers and judges; social, recreational, and religious workers; teachers, librarians, and counselors; health diagnosing, assessment, and treating occupations; and communications, visual arts, and performing arts occupations.
Technicians and related support. This group includes health technologists and technicians, engineering and science technicians, computer programmers, tool programmers, aircraft pilots, air traffic controllers, paralegals, broadcast technicians, and library technicians.

2. ADMINISTRATIVE SUPPORT, INCLUDING CLERICAL

Administrative support, including clerical. Workers in this group prepare and record memos, letters and reports; collect accounts; gather and distribute information; operate office machines; and handle other administrative tasks.

3. SALES AND SERVICE

Marketing and sales. Workers in this group sell goods and services, purchase commodities and property for resale, and stimulate consumer interest.
Service. This group includes a wide range of workers in protective, food and beverage preparation, health, personal, private household, and cleaning and building services.

4. AGRICULTURE, FORESTRY AND FISHING

Agriculture, forestry and fishing. Workers in these occupations cultivate plants, breed and raise animals, and catch fish.

5. MAINTENANCE, CONSTRUCTION, PRODUCTION & TRANSPORTATION

Mechanics, installers, and repairers. Workers in this group adjust, maintain, and repair automobiles, industrial equipment, computers, and many other types of machinery.
Construction trades and extractive. Workers in this group construct, alter, and maintain buildings and other structures or operate drilling and mining equipment.
Production. These workers set up, adjust, operate, and tend machinery and/or use hand tools and hand-held power tools to make goods and assemble products.
Transportation and material moving. Workers in this group operate the equipment used to move people and materials. This group also includes handlers, equipment cleaners, helpers, and laborers who assist skilled workers and perform routine tasks.

Assumptions:

1 new Morpheus line, 1 PE and 12 technicians.
2 new pearl lines, 1 BL, 1PE, 1MP and 20 technicians
New Warehouse, 1 BL, 9 technicians, 1 support
FPD, 1 PE, 8 technicians

Fully loaded manager = $175,300 each
Fully loaded technician = $118,450 each

GOVERNOR

STEVEN H. LEVESQUE
COMMISSIONER

March 30, 2001

Patricia Finnigan
City Manager
City of Auburn
45 Spring Street
Auburn , ME 04210

Dear Ms. Finnigan:

The Maine Department of Economic and Community Development ("the department") has reviewed and conditionally approved the City of Auburn's application to create the Procter & Gamble (Tambrands II) Municipal Development Tax Increment Financing District ("the district"). The district takes effect today and is designated for a period of thirty (30) years. Approval is subject to the following provision: should Tambrands or any other employer in this district receive TIF payments that exceed $10,000 in a calendar year, **they must submit an annual written report no later than August 1st of the following year,** in accordance with 5 MRSA §13070-J(3).

The City of Auburn is authorized to use the tax increment arising from captured value expressly for the credit enhancement agreement components defined in the development program. **The department is withholding approval of all other economic development projects and public improvements identified in the proposal pending receipt of further information from the City regarding these projects.** Any changes to the approved development program require an amendment that is adopted in the same manner as the initial designation, and approved by the department.

In the event that tax increment revenues derived from the district are deposited into the City's general fund, or spent on unapproved projects, the incremental property values generating those revenues must be included with the City's equalized assessed value, and therefore not subject to capture.

The district designation remains in effect for the term described above or until the authorized project costs are expended. If for any reason the City decides to forfeit this designation, it must promptly notify the department.

If you have questions regarding this approval or the annual economic development incentive reporting requirements, please do not hesitate to contact Jim Nimon, TIF Program Manager, at 287-2656.

Sincerely,

Steven H. Levesque
Commissioner

AGENDA

Information Summary

Date: November 6, 2000 Item # 6

ITEM: **Resolve** – Authorizing the City Manager to Submit the Tambrands, Inc. Tax Increment Finance District (TIF #6) to the State Dept. of Economic and Community Development.

SUMMARY: This Resolve would establish a TIF District which creates an incentive for Tambrands to make investments of not less than $25 million in machinery and equipment as part of its continued modernization and re-engineering efforts to stay competitive in a global market.

STAFF RECOMMENDATION: The City has established a TIF policy which creates performance standards that businesses must adhere to in order to be eligible for consideration as a TIF district. These include a substantial increase in their investment in Auburn, significant additions to the tax base, creation or retention of high quality, high skill jobs which pay livable wages and provide benefits, and which are committed to elevating employees' skill levels especially with respect to technology. As Auburn's largest high tech employer, Tambrands meets or exceeds each of these criteria.

REQUESTED ACTION: Approval of the Resolve.

MOTION: Motion to Authorize the City Manager to Submit TIF District # 6 to the State Dept. of Economic and Community Development for Approval.

City of Auburn, Maine

City Council, Auburn, Maine
Date: November 6, 2000

TITLE: RESOLVE - Authorizing the City Manager to Submit the Tambrands, Inc. Municipal Development and Tax Increment Financing District Development Plan (TIF #6) to the State Department of Economic and Community Development.

WHEREAS, the City of Auburn, Maine ("City") is considering whether to designate the Tambrands, Inc. Municipal Development and Tax Increment Financing District #6 and adopt the Development Program for the District presented to the City Council, designation and adoption to be pursuant to the following terms and provisions; and

WHEREAS, the City is authorized pursuant to Chapter 207 of Title 30-A of the Maine Revised Statutes, as amended, to designate a specified area within the City as a Municipal Development and Tax Increment Financing District (the "District") and to adopt a Development Program for such District; and

WHEREAS, there is a need for commercial development in the City; and

WHEREAS, there is a need to provide continuing employment opportunities for the citizens of the City and the surrounding region to improve and broaden the tax base of the City and to improve the general economy of the City, the surrounding region and the State of Maine; and

WHEREAS, the expansion will help to provide continued employment for the citizens of Auburn and the surrounding region, improve and broaden the tax base in the City, and improve the economy of the City and the State of Maine; and

WHEREAS, the Public Improvements contemplated by the Development Program will enable the City to expand its tax base, and to improve the economic environment within the City in order to attract additional businesses to the City; and

WHEREAS, there is a need to encourage the expansion, improvement and continuation of commercial facilities through the establishment of Municipal Development and Tax Increment Financing Districts in accordance with the provisions of Chapter 207 of Title 30-A; and

WHEREAS, on November 6, 2000 the City will hold a public hearing on the question of establishing the District in accordance with the requirements of 30-A M.R.S.A. § 5253, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and

WHEREAS, the City desires to designate the Tambrands, Inc. Municipal Development and Tax Increment Financing District #6 and adopt a Development Program for such District; and

WHEREAS, it is expected that approval will be sought and obtained from the Maine Department of Economic and Community Development approving the designation of the District and the adoption of the Development Program for the District;

NOW, THEREFORE, BE IT HEREBY ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN:

Section 1. The City hereby finds and determines that:

a. At least twenty-five percent (25%), by area, of the real property within the District, as hereinafter designated, is suitable for industrial sites as defined in 30-A M.R.S.A. 5253; and

b. The total area of the District does not exceed two percent (2%) of the total acreage of the City, and the total area of all development district within the City (including the District) does not exceed five percent (5%) of the total acreage of the City; and

c. The total equalized value of taxable property within the District as of April 1, 2000 together with the equalized value of taxable property in other existing districts measured as of the April I preceding the designation of each such district, does not exceed five percent (5 %) of the total equalized value of taxable property within the City as of the date hereof, and

d. The aggregate value of municipal indebtedness financed by the proceeds from tax increment financing districts within Androscoggin County, including the proposed District, does not exceed $50 million: and

e. The designation o f the District and pursuit of the Development Program willgenerate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitutes a good and valid public purpose.

f. The proposed District and Development Program will make a contribution to the economic growth or well-being of the City. The Public Improvements contemplated by the Development Program will enable the City to improve its economic climate and construct improvements and other collateral economic inducements to attract new businesses to the City.

Section 2. Pursuant to Chapter 207 of Title 30-A of the Maine Revised Statutes, as amended, the City hereby designates the Proctor & Gamble Co. Municipal Development and Tax increment Financing District #7, designated and described as more particularly set forth in the "Tambrands, Inc. Municipal Development and Tax Increment Financing District (#6) Development Program" presented to the City Council in the form attached hereto and such Development Program is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. Pursuant to the provisions of 30-A M.R.S.A. § 5254, the percentage of captured assessed value to be retained in accordance with the Development Program is hereby established as set forth in the Development Program.

Section 4. The City Manager be, and hereby is, authorized, empowered and directed to submit the proposed designation of the District and the proposed Development Program for the District to the State of Maine Department of Economic and Community Development for review and approval pursuant to the requirements of 30-A M.R.S.A. § 5253(I)(F).

Section 5. The City Manager be and hereby is authorized and empowered, at her discretion, from time to time, to make such technical revisions to the Development Program for the District as may be reasonably necessary or convenient in order to facilitate the process for review and approval of the District by the Department of Economic and Community Development, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Development Program.

Section 6. The foregoing designation of the District and the adoption of the Development Program for the District shall automatically become final and shall take full force and effect upon receipt by the City of approval of the designation of the District in adoption of the Development Program by the Department of Economic and Community Development, without requirements of further action by the City, the City Council, or any other party.

Section 7. The City Manager be and hereby is authorized and directed to enter into the Credit Enhancement Agreement contemplated by the Development Program, and in the name of and on behalf of the City, such agreement to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, such approval to be conclusively evidenced by such execution thereof.

ARTICLE I

Development Program Narrative

Section 1.01. Introduction

a. General Description of the District

The City of Auburn desires to attract and retain quality jobs and commercial development, to create and maintain a healthy tax base, to improve the economy of the City and the State of Maine and to provide for construction of new public infrastruture and improvements to facilitate economic development. In order to fulfill these goals, the following property is being designated as the Tambrands, Inc. Municipal Development and Tax Increment Financing District #6: An area consisting of approximately 84 acres, comprising a portion of the following City of Auburn parcels as described below.

The property which is located at and is bounded on the North by Kittyhawk Avenue, on the east by Hotel Road, and on the south by the Saint Lawrence and Atlantic Railroad tracks, has been preliminarily designated as the Tambrands, Inc. Municipal Development and Tax Increment Financing District #6 (the "District") by the City of Auburn, Maine (the "City"). The Property consists of a portion of Auburn Tax Map No. 2A, Lot 18A , 2A-18B and 2A-113 which is owned by Tambrands, Inc. (the "Company"). A plan depicting the District is attached as **Exhibit A**. The property outlined in black is specifically excluded from the District. The Development Program described herein is proposed for the purpose of administering the District as a municipal development and tax increment financing district pursuant to Chapter 207 of Title 30-A of the Maine Revised Statutes, as amended (the "Development Program"). Upon resolution of the Auburn City Council designating the District and adopting this Development Program, the designation of the District and adoption of the Development Program will immediately become final subject only to approval by the Maine Department of Economic and Community Development ("DECD").

The purpose of the District is (a) to assist the Company with the acquisition and installation of certain machinery and equipment and the development of additional research and manufacturing facilities within the District; (b) to finance costs associated with certain public improvements within the District consisting of infrastructure improvements, including, but not limited to, roadways, access roadways, water, sewer, storm drains, road junctions, sidewalks and landscaping ("Public District Improvements") and (c) to finance costs associated with certain economic development and infrastructure improvements within the City (the "Public Improvements") as hereinafter identified.

b. The Company Project

As described above, the District contemplates both Public Improvements and development by the Company. One purpose of the District is to assist the Company in financing the acquisition and installation of manufacturing machinery and equipment in the District (the "Project"). The Project is ongoing and the full extent of the Project has not yet been decided. At a minimum the Project is currently expected to allow for a

major expansion of the Company's manufacturing capacity through a substantial addition of machinery and equipment.

For purposes of this Development Program and for purposes of calculating captured assessed value, all additions by the Company to its manufacturing machinery and equipment and related assets after April 1, 2000 and all additions and new plants and facilities constructed after April 1, 2000 at its complex in Auburn, shall be deemed to be in the District on April 1st of each subsequent year until disposed of or moved away from the complex.

During the term of the Development Program the City will capture 100% of the increase in the assessed value in the District, and will retain 60% of the retained tax increment revenues from the District for its own use to finance some or all of the estimated cost of public improvements. The City will allocate the remaining balance of the retained tax increment revenues from the District to the Company pursuant to a Credit Enhancement Agreement between the City and the Company (the "Credit Enhancement Agreement") provided that the total amount paid to the Company in any year shall not exceed 40% of the tax increment of that year, and the aggregate amount paid under the Development Program may not exceed total project costs incurred by the Company during the term of the Development Program.

These tax increment revenues will be used by the Company either to pay a portion of the capital costs of the Project directly or to assist in paying debt service on monies borrowed by the Company to finance the cost of the Project. The cost so financed will represent only a portion of the Company's Project costs. All additional costs will be the sole responsibility of the Company. (See Section 1.05 "Uses of Private Property" and Section 2.03 "Indebtedness" herein).

c. Public Improvements

In addition to the Company's Project in the District, the City will use the captured tax increment revenues from the District to finance some or all of the costs of the following types of projects (being the Public Improvements and Public District Improvements): (i) to fund the infrastructure improvements within and abutting the District, including, but not limited to, roadways, access roads, junctions, traffic signals, sewer, water, storm drains, sidewalks and landscaping (hereinafter called the Public District Improvements) (ii) to develop new employment opportunities in the City and to pay other Project Costs as described in 30-A MRSA §5252(8)(B)(11); (iii) to provide for costs reasonably related to the construction, alteration or expansion of facilities not located within the district that are required due to improvements or activities within the District as described in 30-A MRSA §5252(8)(B)(9), including road, water, sewer, stormwater and environmental protection improvements and fire and public safety projects; (iv) to fund the City's economic development programs including, but not limited to, the implementation of the Auburn Downtown Action Plan For Tomorrow being the City's downtown revitalization program; (iv) to fund environmental improvement programs; and (v) to fund infrastructure improvements, and other Project Costs, all as permitted under 30-A M.R.S.A. § 5252(8)(B)(herein collectively called the "Project Costs"). The Public Improvements are further described in Section 1.04 hereof. The City Council finds that each of the specific projects described herein will either directly

or indirectly provide or encourage new employment opportunities within the City, encourage and promote economic development that will broaden the City's tax base, and improve the general economy of the City.

The estimated costs of the projects which may be included as part of the Development Program are identified in **Exhibit B** attached hereto. The specific public improvement projects to be financed with the City's portion of the tax increment financing revenues will be approved through subsequent City Council action pursuant to the City's Charter.

The Project and all associated improvements acquired or financed under this Development Program other than the Public Improvements and other Project Costs will be located within the District. The proposed District will encompass approximately 91 acres and will be located on the premises of the Company's manufacturing facility and complex in Auburn, Maine.

Section 1.02. Statement of Means and Objectives.

a. Development District

The Company constantly searches for ways to improve its operations in order to remain competitive and to service its markets. The Project represents an investment in the Company's future and is intended to increase the Company's capabilities and is a necessary component of the capital investment needed to ensure adequate capacity and a top-quality product. The Project continues the Company's long-standing goal of capital investment with the goal of long-term benefits. The Company plans to undertake this Development Program in order to improve its manufacturing efficiency, capabilities, and working environment.

The Company's investment will create additional tax base within the City and help retain employment within the region and will upgrade necessary production equipment to ensure the continued long-term success of the Company in the City. The Project will also assist the Company in expanding its production capabilities by adding incremental production capacity, enhancing cost competitiveness, and enabling it to sustain its operations in Auburn. See Section 1.05 Uses of Private Property.

In summary, the means and objectives of the District are to finance certain Public Improvements intended to promote economic development and expand the tax base of the City for the benefit of the citizens of the City and to assist the Company in the continuing improvement and modernization of its manufacturing facility and complex. The City recognizes that the Company competes in an increasingly competitive market. The City's assistance provided through the Development Program is intended to help the Company to become more cost competitive and to modernize its operations. To the extent the City can assist the Company in its objective of keeping the Tambrands facility cost competitive, the following public benefit results:

a. Increased property tax base;
b. Creation of an environment that will encourage future investment by the Company at its Auburn facility;

C. Retained employment;
d. Increased flow of revenues to the state and local area; and
e. Increased consumption of goods and services in the Auburn, Maine area.

Section 1.03. Brief Discussion of Financial Plan

The financial plan for the District is set forth in greater detail in Article II below. The following is a brief summary of the plan. The anticipated investment in the District is initially $5,000,000, with similar investments occurring annually for at least the next 5 years.

The Project has already started and following DECD approval, completion of the Project will be phased in over the life of the Development Program. As part of the Development Program, the Company is requesting that the City assist it with the Project (i) by capturing one hundred percent (100%) of the increase in assessed value in the District and (ii) by entering into the Credit Enhancement Agreement with the Company pursuant to which the City will retain sixty percent (60%) of the retained captured municipal tax increment, to finance some or all of the Public Improvements, and make available to the Company the balance of the retained captured municipal tax increment revenues on the captured assessed value of the District to assist the Company in financing a portion of the Project. The Development Program will remain in effect for a period of thirty (30) years. The revenues allocated to the Company will be used by the Company either to assist it in paying debt service related to financing the Project or as direct payments toward a portion of the cost of the Project.

Section 1.04. Description of Public Facilities to be Constructed

The City's existing infrastructure is anticipated to be adequate to service the Project, so no public sewer, water, transportation or other infrastructure facilities must be constructed in connection with the Project, although certain street improvements including traffic signals at strategic locations may be undertaken in the future. Other Public Improvements will be completed to assist the City in its efforts to increase employment and economic development in general and specifically to implement the Auburn Downtown Action Plan For Tomorrow being the City's downtown revitalization Program. These improvements will be approved by the City Council on an as needed basis as the various projects are considered and implemented.

Section 1.05. Uses of Private Property

The Project involves the acquisition and/or construction by the Company of approximately $5,000,000 of new machinery and equipment and the expansion of its manufacturing facility per year for five years within the District and to fund certain feasibility studies with respect to proposed construction of a new research and manufacturing facility at the Company's complex and the development of new product lines. Some of the machinery and equipment will be located in the Tambrands, Inc. Development and Tax Increment Financing District Development Program District dated March 6, 1998 and approved by the Maine Department of Economic Community Development effective March 27, 1998. The acquisition and installation of all improvements will be supervised by the Company and will be subject to all required

state and local approvals. All capital improvements related to the Project will be located in the District except for certain machinery and equipment which will be located in Tambrands, Inc. Development and Tax Increment Financing District accepted by the Maine Department of Economic and Community Development on March 27, 1998. The actual and proposed use of the District is in keeping with current zoning requirements, as manufacturing facilities are a permitted use in the zone in which the District is located.

Section 1.06. Relocation of Displaced Persons

Not applicable.

Section 1.07. Proposed Regulations and Facilities to Improve Transportation

The Project, as it is currently proposed, will not affect vehicular and pedestrian transportation. Existing transportation facilities are adequate to accommodate the Project.

Section 1.08. Environmental Controls

The improvements contemplated by the capital improvement program will comply with all requirements of the City's ordinances, including its Zoning Ordinance. With the exception of (i) any building, site plan and other construction permits to be applied for in the ordinary course, and (ii) any occupancy permits, no further zoning permits, licenses or other local approvals are anticipated to be necessary in connection with the improvements.

The Company will take all steps required by the Maine Department of Environmental Protection ("DEP") in order to ensure that the acquisition, installation, construction and operation of the improvements complies with all state environmental rules and regulations. All air emission, waste water discharge or other licenses required in connection with the Project either have been, or will be, applied for and obtained by the Company as required by applicable law, rule and regulation.

Section 1.09. Plan of Operation Upon Completion

The improvements in the District will at all times be owned by the Company, its successors or assigns, which will be responsible for payment of all maintenance expenses, insurance and taxes on said improvements. During the life of the District, the City Manager or the Manager's designee will be responsible for all administrative matters concerning the implementation and operation of the District. The Company shall be solely responsible for implementation of the Project in the District.

Section 1.10. Program Duration

The duration of the District will begin on the designation of the District and the effective date of its approval by the Maine Department of Economic and Community Development and end on the earlier of 30 years thereafter or payment of all Project costs.

ARTICLE II

Financial Plan

Section 2.01. General Characteristics

The proposed tax increment financing district will encompass approximately 84 acres of taxable property with a total value of land and buildings as of April 1, 2000, in the amount of $520,900.

This Development Program requires the establishment of a Development Program Fund consisting of a Project Cost Account (with a Tambrands Project Cost subaccount and a Public Improvement Project Cost subaccount) pledged to and charged with payment of project costs and a Development Program Sinking Fund Account to pay debt service on any debt financed Project costs.

Section 2.02. Cost Estimates for Development Program

The estimated initial cost of the Company's Project under the Development Program is approximately $5,000,000 per year for five years.

Section 2.03. Indebtedness

None of the costs of the Project will be financed through issuance of any municipal indebtedness. If the Company incurs indebtedness with respect to the Project, revenues in the Tambrands Project Cost subaccount in the Project Cost Account of the Development Program Fund established hereunder, which shall consist of the Company's allocable share of tax increment revenues on the retained captured assessed values of the District and any earnings thereon, may be applied to such indebtedness.

Section 2.04. Sources of Anticipated Revenues

The sources of anticipated revenues generated by the District and to be used to pay the Company under the Credit Enhancement Agreement are (i) municipal tax increment revenues on retained captured assessed values, which will be deposited as received into the Tambrands Project Cost subaccount in the Project Cost Account of the District's Development Program Fund, and (ii) earnings on such amounts. The Company will be responsible for making all arrangements for and payments with respect to all additional monies needed to fund the Project.

Separate subaccounts in the Project Cost Account shall be established for the Public Improvements and the Project. Upon receipt of each payment of property tax by the Company, the City shall, within fifteen (15) days, (a) deposit that portion of each payment of property tax allocated for Public Improvements into the public improvement subaccount; and (b) deposit that portion of each payment of property tax allocated to the Project to the project cost subaccount. The municipal tax increment revenues projected to be paid to the Company under the Credit Enhancement Agreement for 30 years are reflected in Table No. I below.

TABLE NO. I	
Annual Tax	
Tax Year Beginning April I	Increment Revenues Allocable to Company
2000	Base Year
2001	$ 56,000

2025	$ 112,000
2026	$ 112,000
2027	$ 112,000
2028	$ 112,000
2029	$ 112,000
2030	$ 112,000
Total	$3,973,988

The total projected tax increment, the City's share, and the tax shifts resulting from the District are shown on **Exhibit C** hereto.

Note: Estimated Tax Rate of $0.028/1000; assumes no increase in the tax rate and no depreciation or appreciation in value

Section 2.05. Financial and Statistical Data

A summary of financial and statistical information relating to the District's satisfaction of certain conditions imposed under Chapter 207 of Title 30-A of the Maine Revised Statutes, as amended, as a prerequisite to designation of the District, is set forth in **Exhibit D**. Additional information is set out below.

a.	Total value of equalized taxable property of the City as of April 1, 2000	$1,058,900,000
b.	Total assessed value of the District as of April 1, 2000	$ 520,900
c.	Total value of equalized taxable property as of April 1 preceding the date of designation of all other Tax Increment Financing Districts within the city	$ 2,753,500
d.	Percentage of total assessed value of the City represented by total assessed value of the District and other districts (the sum of lines b and c divided by line a .003092265%	.003092265%

e. Aggregate original principal amount of municipal general obligation indebtedness financed by the proceeds from tax increment financing districts within Androscoggin County, does not exceed $50,000,000.

f. Total taxable acreage in the City of Auburn is 41,430 Acres.

g. The acreage included in the existing financing Districts in the City of Auburn is 156.2 or .004% of the City's taxable acreage.

See the list of currently existing tax increment financing districts attached as **Exhibit E** hereto.

Attached hereto as **Exhibit F** is a certification of original assessed value executed by the City Assessor of the City of Auburn in accordance with the requirements of 30-A M.R.S.A. § 5254(2) certifying that the original assessed value of the District as of March 31, 2000 was $520,900.

Section 2.06. Estimated Impact of Financing Upon Taxing Jurisdiction

In accordance with Maine statutes governing the establishment of tax increment financing districts, the table set forth below identifies estimated tax shifts which will result during the term of the District from the establishment of the District, using formulas reviewed by the Department of Economic and Community Development.

Table No. 2
Tax Shifts

Tax Shift Item	Average Annual Amount	Total Undiscounted Amount
Educational Aid	$ 94,726.14	$2,841,784.20
County Tax	$ 15,761.07	$ 472,832.10
State/Municipal Revenue Sharing	$ 30,683.68	$ 920,510.40
Total All Tax Shifts:	**$ 141,170.89**	**$4,235,126.70**

Attached hereto as **Exhibit G** is a summary of the methodology utilized in calculating tax shifts.

Section 2.07. Duration of Development Program

The Development Program shall continue in effect for thirty (30) years after approval by DECD.

ARTICLE III

Physical Description

Section 3.01. Description of District

The District is the 84 acre parcel comprised of the Company's facility and complex located in Auburn, Maine. The District is delineated on **Exhibit A** hereto.

Section 3.02. Site Location Map

Set forth on **Exhibit A** is a tax map of the City reflecting the approximate location of the District within the City.

ARTICLE IV

Municipal Approvals

Section 4.01. Public Hearing

Attached hereto as **Exhibit H** is a copy of the Notice of Public Hearing held in accordance with the requirements of 30-A M.R.S.A. §5253. The Notice was published in the *Lewiston Sun* Journal, a newspaper of general circulation in Auburn on October 23,2000, a date at least ten (10) days prior to the public hearing. A public hearing was held at a City Council Meeting on November 6, 2000.

Section 4.02. Authorizing Votes

Attached as **Exhibit I** is a copy of the votes adopted at a City Council Meeting of the City of Auburn at a meeting thereof duly called and held on November 6, 2000 preliminarily designating the District and adopting the Development Program.

ARTICLE V

Agreement Regarding Valuation Issues

a. There are certain assumptions regarding valuation and depreciation of assets, which underlie the analysis set forth in this Development Program. The City and the Company both covenant and agree that the assumptions, analysis and results set forth in this Development Program shall in no way prejudice the rights of either party or be used, in any way, by either party in either presenting evidence or making argument in any dispute which may arise in connection with valuation of the property within the District.

b. In the event of a revaluation of property within the City during the term of the District, the City and the Company agree that they will enter into good faith negotiations to amend the Credit Enhancement Agreement so that the Company and the City receive the benefits contemplated by this Development Program.

Exhibit B

Potential Economic Development Projects that would be Funded with Tambrands TIF Revenues

I. Development Plans

A. To fund the costs associated with certain public improvements within and adjacent to the Tambrands Tif District consisting of infrastructure improvements.

B. In general to pursue the goals and objectives contained in the Auburn Downtown Action Plan For Tomorrow adopted by the Auburn City Council on Feb. 1, 1999

C. Purchase of land for a new Industrial Park.

II. Project Categories for Tambrands Inc. Area Master Plan

A. Capital Costs for the Construction of Public Infrastructure improvements (30-A MRSA Section 5252 (8)(B)1(a).

- Roadways
- Access roadways
- Water and Sewer drains
- Road Junctions
- Sidewalks
- Landscaping

B. Capital costs for the purchase of land for a new industrial park (30-AMRSA Section 5252(8).

III. Project Categories for Downtown Economic Development Program:

A. Developing new employment opportunities and funding the City's economic development program (30-A M.R.S.A. section 5252(8)(B)(11)

- Redevelopment of the downtown business district
- Acquisition of land and construction of parking garage(s)
- Construction of esplanade underground parking garage
- Acquisition of land and construction of River Walk
- Acquisition of land and construction of Festival Plaza
- Professional Service Costs, including, but not limited to, architectural, planning, engineering and legal advice and services

EXHIBIT D

Statistical Data Related to TIF District #6
(as required by Title 30-A Chapter 207)

1. Total acreage of municipality:		41,430 acres
2. Total acreage of proposed municipal tax increment financing district		84 acres
3. Percentage of total acreage in proposed municipal tax increment financing district: (Line 3 divided by Line 1, cannot exceed 2%).		.0020275
4. Total acreage of all existing and proposed municipal tax increment financing districts in the municipality:		156.2 acres
5. Percentage of total acreage in all existing and proposed municipal tax increment financing districts: (Line 4 divided by Line 1, cannot exceed 5%)		.0057977
6. Total acreage of all real property in the proposed tax increment financing district that is:		
(a)	Blighted:	0 acres
	Line 6.a divided by Line 2:	0%
(b)	In need of rehabilitation or conversion:	0 acres
	Line 6.b divided by Line 2:	0%
(c)	Suitable for commercial sites:	acres
	Line 6c divided by Line 2:	100%

The percentage resulting from either 6.a, 6.b or 6.c must be equal or exceed 25%

Certificate of City Assessor
City of Auburn, Maine

The undersigned City Assessor for the City of Auburn, Maine does hereby certify pursuant to the provisions of 30-A M.R.S.A. §5254 that the assessed value of the Tambrands Municipal Development Tax Increment Financing District, as described in the Development Program to which this Certificate is included, was $520,900 as of March 31, 2000.

IN WITNESS WHEREOF, this Certificate has been executed as of this 6th day of November, 2000.

CITY ASSESSOR

Joseph F. Downey

EXHIBIT G

Tax Increment Financing Tax Shift Formulas

A tax increment financing district will result in certain tax shifts which result because the retained captured assessed value of the District will be excluded from the State Valuation of the property in the City. These tax shifts are noted in three basis formulae which use local property tax valuation as a basis for calculation. These three formulas are: (1) State Aid to Education; (2) Municipal Share of County Taxes; and (3) Revenue Sharing to the extent applicable. The following is the process used to derive each of these tax shifts.

Education Tax Shift: Computed by comparing State Department of Education Form ED 261 for the City with and without retained CAV, but not taking into account the hold harmless or hardship cushion that restores in additional State aid to education to the prior years level even through the calculation would have resulted in a reduction.

County Tax Shift: In order to compute this shift, we first obtained the most recent County State Valuation from the State Bureau of Taxation. We then determined the average Captured Assessed Value for the District over the life of the District. We then determined the City's current share of the County Tax by dividing the current City Valuation by the Current County Valuation. We then determined what the City's Share of the County Tax would be if the new value from the District were added by the City's Valuation without the creation of the District by dividing the sum of the current City Valuation plus the average new value by the sum of the current County Valuation plus the average new value. The difference is the factor representing the percentage of the County Tax Shift. Next, we determined the estimated average annual county tax over the life of the District. To arrive at this number, the average change in County Tax for the last five years was determined and the percentage increase projected to the middle of the district's life. This projected tax was then multiplied by the factor developed above to determine the County Tax Shift.

Revenue Sharing Shifts: The first step in determining the Revenue Sharing Tax Shifts was to obtain the total Municipal Revenue Sharing Amount from the State Treasurer. The five steps outlined in the following formula were then applied:

Step One: $\frac{\text{Municipal Population X Local Property Tax Levied}}{\text{State Local Valuation}} = \text{Current Factor}$

Step Two: $\frac{\text{Municipal Population X Local Property Tax Levied}}{\text{State Local Valuation + Captured Assessed Value}} = \text{Adjusted Factor}$

Step Three: $\frac{\text{Current Factor}}{\text{Adjusted Factor}} = 1.X$

Step Four: $1.X - 1.0 = .X$

Step Five: .X (Total Municipal Revenue Sharing Amount) = Revenue Sharing Shift
The relevant computations are attached.

EXHIBIT G

County Tax Shift

$4,056,250,000 County Valuation
$11,796,633 Average Retained CAV

County Tax 2000	$5,077,111	5.54%
1999	$4,810,607	5.90 %
1998	$4,542,675	(2.02)%
1997	$4,636,447	1.12 %
1996	$4,584,980	

Average Increase: 2.64%

Midpoint Increase - 15 years $7,505,269.79
City Valuation = $1,058,900,000
Average CAV = $11,796,633
Projected County Tax = $7,505,269.79
Projected City Share (w/o CAV) = 26.11%
Projected City Share (w/CAV) = 26.32%.
Difference (w/CAV) = 0.21% x 7,505,269.79 =
Average Annual County Tax Shift = $15,761.07/year

x 30 years
$472,832.10

Educational Aid Tax Shift

From ED261	Current Local Allocation	Revised ED261 if $11,796,633 in unsheltered Valuation were added
Operating Costs (Line 30):	$8,137,802.79	$8,212,782.55
Program Costs (Line 39):	$1,376,155.00	$1,391,608.59
Debt Service (Line 47):	$ 378,980.44	$ 383,273.23
	$9,892,938.23	$9,987,664.37

Estimated Local Allocation of Costs
if Valuation added without TIF: $9,987,664.37
Current Local Allocation: -$9,892,938.23
$ 94,726.14
30 years
$ 2,841,784.20

EXHIBIT G

Revenue Sharing Tax Shifts

Population = 22,230
Total local tax levied = $ 28,040,925
State Valuation = $ 1,058,900,000
Average CAV = $11,796,633
Revenue Sharing Amount =$ 2,754,245.25

Step One: $\frac{22,230 \times 28,040,925}{1,058,900,000} = 588.6767$ (Current Factor)

Step Two: $\frac{22,230 \times 28,040,925}{1,058,900,000 + 11,796,633} = 582.1908$ (Adjusted Factor)

Step Three: $\frac{588.6767}{582.1908} = 1.011140505$

Step Four: 1.011140505 - 1.00 = 0.011140505

Step Five:

0.011140505 x $2,754,245.25= $30,683.68/year or $920,510.40 over 30 years

CITY OF AUBURN
PUBLIC NOTICE

Notice is hereby given that the City of Auburn, Maine will hold a public hearing on November 6, 2000 at 7:00 p.m. at the City Council Chambers in the Auburn City Building for purposes of receiving public comments on the designation of its proposed Mall Area Municipal Development and Tax Increment Financing District and the adoption of a development program for the said Municipal Development and Tax Increment Financing District, pursuant to the provisions of Chapter 207 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed Municipal Development and Tax Increment Financing District consists of certain property consisting of 84 acres located off of Kittyhawk Avenue, Hotel Road and by the Saint Lawrence and Atlantic Railroad Tracks in Auburn, Maine.

A copy of the proposed development program for the district will be on file with the City Clerk and may reviewed at the offices of the City Clerk during normal business hours.

All interested persons are invited to attend the public hearing and will be given an opportunity to be heard at that time.

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Regarding

An Amendment to the Municipal Development and Tax Increment Financing District known as:

"#6 Proctor & Gamble (Tambrands II) Municipal Development and Tax Increment Financing District"

Notice is hereby given that the City of Auburn will hold a public hearing on February 22, 2022

at 60 Court Street Auburn , ME 04210

The Public Hearing will be at 7:00 p.m.

The purpose of the public hearing is to receive public comments on the amendment to the municipal development and tax increment financing district known as the Tambrands II Municipal Development and Tax Increment Financing District (the "District") and the adoption of the amendment to the development program for the District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The Tambrands II Municipal Development Tax Increment Financing District is comprised of approximately 84 acres and is located on Hotel Road. The proposed amendment involves an amendment to the existing Credit Enhancement Agreement with Tambrands, Inc. regarding a proposed new capital project.

A copy of the proposed Development Program Amendment materials will be on file with the City Office during normal business hours of 8:30 am – 4:00 pm. They can also be found at https://www.auburnmaine.gov/or one can call 207-333-6601 during normal business hours to request that a copy be mailed to you. All interested persons are invited to attend the public hearing and will be given an opportunity to be heard at that time.

Public comments will be taken at the hearings and written comments should be submitted to Susan Clements-Dallaire, City Clerk at sdaillaire@auburnmaine.gov. Written comments will be accepted until 4:00PM on February 22, 2022.

ORDER 30-02222022

City Council Order

City Council Order

Amending the #6 Proctor & Gamble (Tambrands II) Municipal Development Tax Increment Financing Development Program

WHEREAS, the City of Auburn (the "City") is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to designate specific areas within the City as the Tambrands II Tax Increment Financing District (the "District") and to adopt a development program for the District (the "Development Program"); and

WHEREAS, on November 6, 2000 the Auburn City Council designated the District and adopted a Development Program for the District (the "Original Development Program"), which received the approval from the Maine Department of Economic and Community Development (the "Department"); and

WHEREAS, the City desires to adopt the First Amendment to the District and Development Program (the "First Amendment") to continue to achieve the District's original goals by revising the percentage of taxes paid on captured assessed value allocated to Tambrands Inc. ("the Company") in the Credit Enhancement Agreement; and

WHEREAS, the City Council has held a public hearing on February 21, 2022, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City, on the question of amending the Original Development Program and Credit Enhancement Agreement in accordance with the requirements of 30-A M.R.S.A. § 5226; and

WHEREAS, the City Council has considered the comments provided at the public hearing, both for and against the adoption of the First Amendment, if any; and

WHEREAS, it is expected that approval will be sought and obtained from the Department, approving the First Amendment; and

NOW THEREFORE, BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN, MAINE:

Section 1. The proposed First Amendment will contribute to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City. Pursuant to Title 30-A M.R.S.A. Section 5226(5), this First Amendment does not result in the District being out of compliance with any of the conditions of 30-A M.R.S.A. Section 5223(3) which include the percentage of area the District that is suitable for commercial use or other allowable uses, the acreage caps for single TIF districts and for all TIF districts in the City, and the total TIF district valuation cap. The City Council has considered any evidence presented regarding potential substantial detriments to a party's existing business and determined that any adverse economic

City Council Order

effect of the proposed First Amendment on a party's existing business is outweighed by the contribution made by the First Amendment to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby amends the Tambrands II Municipal Development Tax Increment Financing Development Program and adopts the First Amendment, all as more particularly described in the First Amendment presented to the City Council herewith. Such First Amendment is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. The City Manager, or his duly appointed representative, is hereby authorized, empowered and directed to submit the proposed First Amendment to the Department for review and approval pursuant to the requirements of 30-A M.R.S.A. § 5226(2). In addition, the City Manager, or his duly appointed representative is hereby authorized, empowered, and directed to execute the amended Credit Enhancement Agreement on terms that are consistent with the First Amendment.

Section 4. The foregoing adoption of the First Amendment shall automatically become final and shall take full force and effect upon receipt by the City of approval of adoption of the First Amendment by the Department, without requirement of any further action by the City, the City Council, or any other party.

Section 5. The City Manager, or his duly appointed representative, is hereby authorized and empowered, at his discretion, from time to time, to make such revisions to the documents adopting the First Amendment as he may deem reasonably necessary or convenient in order to facilitate the process for review and approval of the First Amendment by the Department, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Council in adopting the First Amendment.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022 **Ordinance:** 07-02222022

Author: Phil Crowell, City Manager

Subject: Public Safety, Detention, and Correctional Facility Moratorium

---

Information: The Androscoggin County Commissioners have announced plans to acquire property within the City to be used as a new or additional location for offices of the Androscoggin County Sheriff's Department and as a new or additional location for the Androscoggin County Jail.

The City's current ordinances governing land use, zoning, site plan review and special exception review do not adequately or specifically address Public Safety Facilities, Detention Facilities or Correctional Facilities.

The development of new or additional Public Safety, Detention Facilities or Correctional Facilities could pose serious threats to the public health, safety and welfare of the residents and businesses abutting or in close proximity to such facilities without adequate provision for issues of public safety, health, land use compatibility, noise, visual degradation and environmental degradation.

Staff is proposing the city council declare a moratorium on development proposals involving Public Safety Facilities, Detention Facilities, or Correctional Facilities at a site on which one currently does not exist.

City Budgetary Impacts: None

Staff Recommended Action: Adopt the moratorium

Previous Meetings and History: NA

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Moratorium

ORDINANCE 07-02222022

City Council Ordinance

CITY OF AUBURN

PUBLIC SAFETY, DETENTION AND CORRECTIONAL FACILITY MORATORIUM ORDINANCE

THE CITY OF AUBURN adopts a Public Safety, Detention, and Correctional Facility Moratorium Ordinance as follows:

WHEREAS, the Androscoggin County Commissioners have announced plans to acquire property within the City to be used as a new or additional location for offices of the Androscoggin County Sheriff's Department and as a new or additional location for the Androscoggin County Jail;

WHEREAS, the current offices of the Androscoggin County Sheriff and the current Androscoggin County Jail are used for law enforcement, communications, emergency management, special operations, investigations, civil service, detention, including the holding and housing of persons in custody under process of law pending the outcome of legal proceedings, and corrections, including the holding and housing of persons for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense;

WHEREAS, the City's current ordinances governing land use, zoning, site plan review and special exception review do not adequately or specifically address Public Safety Facilities, Detention Facilities or Correctional Facilities;

WHEREAS, development of new or additional Public Safety Facilities, Detention Facilities or Correctional Facilities could pose serious threats to the public health, safety and welfare of the residents and businesses abutting or in close proximity to such facilities without adequate provision for issues of public safety, health, land use compatibility, noise, visual degradation and environmental degradation;

WHEREAS, the City is in the process of reviewing its Code of Ordinances, and needs additional time to study its Code of Ordinances to determine the implications of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities;

WHEREAS, the City Council and the Planning Board, with such professional advice and assistance as they deem necessary and appropriate, shall study the City's ordinances to determine the public safety, health, land use, environmental and other regulatory implications of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities and consider what regulations might be appropriate for such activity;

WHEREAS, the City's current ordinances are not adequate to prevent serious public harm from proposed development proposals involving Public Safely Facilities, Detention

City Council Ordinance

Facilities and Correctional Facilities;

WHEREAS, the City's current ordinances do not contain sufficient standards to effectively provide municipal review and approval of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities;

WHEREAS, it is anticipated that such a study, review, and development of recommended ordinance changes will take at least one hundred and eighty (180) days from the date the City considers this moratorium on development proposals involving Public Safety Facilities, Detention Facilities, and Correctional Facilities;

WHEREAS, amendments to ordinances may require public hearings by the Planning Board and City Council and votes by the Planning Board and City Council; and

WHEREAS, in the judgment of the City, these facts create an emergency within the meaning of 30-A M.R.S.A. § 4356(1), and require this Ordinance as immediately necessary for the preservation of the public health, safety and welfare;

NOW, THEREFORE, the City does hereby ordain that the following Moratorium Ordinance be, and hereby is, enacted:

Section 1. Moratorium Declared.

The City does hereby declare a moratorium on development proposals involving Public Safety Facilities, Detention Facilities, or Correctional Facilities at a site on which one currently does not exist. The moratorium shall remain in effect for one hundred and eighty (180) days from the date of applicability of this Ordinance, unless extended or modified by the City Council, for the express purpose of drafting an amendment or amendments to City ordinances to protect the public from health and safety risks including, but not limited to, the potential adverse public safety, health. land use compatibility, noise, environmental degradation and visual degradation effects of development proposals involving a Public Safety Facility, Detention Facility or Correctional Facility if not properly regulated; and

BE IT FURTHER ORDAINED, that notwithstanding the provisions of 1 M.R.S.A. § 302 or any other law to the contrary, this Ordinance, when enacted, shall apply to any development proposals involving a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the Planning Board prior to February 22, 2022, which is the applicability date of this Ordinance; and

BE IT FURTHER ORDAINED, that no person or organization shall start or engage in the construction or operation of a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the

City Council Ordinance

Planning Board prior to February 22, 2022, without complying with whatever ordinance amendment or amendments the City may enact as a result of this moratorium; and

BE IT FURTHER ORDAINED, that during the time this moratorium is in effect, no officer, official, employee, office, administrative board or agency of the City shall accept, process, approve, deny, or in any other way act upon any application for a license, building permit, certificate of approved use, conditional use review, special exception review and/or any other permits, licenses or approvals related to a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the Planning Board prior to February 22, 2022; and

BE IT FURTHER ORDAINED, that those provisions of the City's ordinances that are inconsistent or conflicting with the provisions of this Ordinance, are hereby repealed to the extent that they are applicable for the duration of the moratorium hereby ordained, and as it may be extended as permitted by law, but not otherwise; and

BE IT FURTHER ORDAINED, that should any section or provision of this Ordinance be declared by any court of competent jurisdiction to be invalid, such a declaration shall not invalidate any other section or provision.

Section 2. Violations; Civil Penalties.

If the construction or operation of a Public Safety Facility, Detention Facility, or Correctional Facility is initiated in violation of this Ordinance, each day of any continuing violation shall constitute a separate violation of this Ordinance, and the City shall be entitled to all rights available to it in law and equity, including, but not limited to, fines and penalties in accordance with 30-A M.R.S.A. § 4452 or City ordinance, injunctive relief, and its reasonable attorney's fees and costs in prosecuting any such violations.

Section 3. Definitions.

Correctional Facility means a facility in which persons are held and housed primarily for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense. This definition includes pre-release facilities, but does not include work release centers.

City means the City of Auburn, Maine, a municipal corporation organized and existing under the laws of the State of Maine.

Detention Facility means a facility in which persons are held and housed in custody under process of law, pending the outcome of legal proceedings, but not for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense.

City Council Ordinance

Public Safety Facility means a facility in which the operations of law enforcement, communications, fire services, emergency management, special operations, investigations, or civil services are housed for emergency and public safety responses.

Section 4. Effective Date; Emergency Declaration

The City Council declares the existence of an emergency because the Code of Ordinances is insufficient to prevent serious public harm that could be caused by the unregulated development of Public Safety Facilities, Detention Facilities, and Correctional Facilities, thereby necessitating a moratorium to provide an opportunity for the City to review the potential impacts and harm that may be caused by such development, and to amend its Code of Ordinances to mitigate the potential impact and harm on the City, its businesses and its residents. This Ordinance shall be effective immediately upon enactment by the City Council and shall remain in effect for one hundred and eighty (180) days from the date of enactment unless it is adopted as a regular ordinance within that time period.

City of Auburn, Maine
"Maine's City of Opportunity"
Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **January 2022 Financial Report**

DATE: **February 7, 2022**

The following is a discussion regarding the significant variances found in the City's January financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its seventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 58.3% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through January 31st, including the school department were $57,008,701 or 59.73%, of the budget. The municipal revenues including property taxes were $38,628,892, or 59.29% of the budget which is less than the same period last year by 0.12%. The accounts listed below are noteworthy.

A. The current year tax revenue is at 57.84% as compared to 58.17% last year. This is a $59,433 increase over last year. The second payment is due March 15th.

B. Excise tax for the month of January is at 59.05%. This is a decrease of $260,546 over FY 21. Our excise revenues for FY22 are 0.75% above projections as of January 31, 2022.

C. State Revenue Sharing at the end of January is 98.56% or $3,104,618. This is an increase of $1,011,942 over last January.

Expenditures

City expenditures through January 2022 were $31,450,440, or 66.77%, of the budget. This is a decrease of 0.02% less than the same period last year. The percentage of expenditures is lower, but dollars are higher due to the higher budget. Noteworthy variances are:

A. Administration is higher than last year by 2.52%. The major increases are Communications & Technology and Human Resources budgets being higher than last year.

B. Public Safety is higher due to both Police and Fire/EMS are higher.

C. Public Works is higher due to Winter Storm operations and overtime.

Investments

This section contains an investment schedule as of January 31st. Currently the City's funds are earning an average interest rate of 0.15% compared to .58% in 2021.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for January 31, 2022

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of January 31, 2022.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, December 31, 2020.

Current Assets:
As of the end of January 2022 the total current assets of Norway Savings Bank Arena were ($1,163,208). These consisted of cash and cash equivalents of $269,729, accounts receivable of $157,621, and an interfund payable of $1,590,558.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of January 31, 2022, were $195,258.

Liabilities:
Norway Arena had no accounts payable as of January 31, 2022.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through January 2022 are $606,964. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through January 2022 were $339,065. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of January 2022, Norway Arena has an operating and net gain of $267,899.

As of January 31, 2022, Norway Arena has an increase in net assets of $267,899.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $271,996 more than in FY21 and expenditures in F22 are $33,995 less than last year in January.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: February 22, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

IV. Open Session – No one from the public spoke.

V. Unfinished Business

1. Ordinance 05-02072022
Adopting a Disorderly House ordinance. Second reading.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 6-0. A roll call vote was taken.

2. Ordinance 06-02072022
Amending the Auburn Code of Ordinances, Chapter 2, Administration, Article V. Boards, Commissions and Committees by striking Division 5 Conservation Commission and Division 8, Agriculture Committee and replacing Division 5 with Sustainability and Natural Resource Management Board. Second reading.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Passage 6-0. A roll call vote was taken.

VI. New Business

1. **Order 30-02222022**
Amending Tambrands II Municipal Development and Tax Increment Financing District. Public hearing and vote.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Mayor Levesque opened the public hearing at 7:50 pm. No one from the public spoke. Mayor Levesque closed the public hearing at 7:50 pm.

Passage 6-0.

3. **Ordinance 07-02072022**
Adopting a moratorium on development proposals involving Public Safety Facilities, Detention Facilities, or Correctional Facilities at a site on which one currently does not exist. Public hearing and first reading.

Motion was made by Councilor Milks and seconded by Councilor Whiting for passage.

Public hearing – No one from the public spoke. The letter below was submitted to the City Council.

Dear City Officials:

I am writing in regard to the news that the property located at the former Evergreen Subaru, 770 Center St.(including residential properties on two adjacent streets), are to be purchased by the Androscoggin County Sheriffs.

I have been the sole owner of my home on 8, Joline Dr. (that abuts the Evergreen property) since 1975. As a result of zoning changes over the years, numerous businesses were developed in my surroundings. These businesses are quiet retail operations that close shop during evening hours. The potential approval of this sale to Androscoggin County Sheriffs, would be disruptive and out of character in this location of the City for a number of reasons:

1. This facility would greatly depreciate the value of my property and that of other homes in the neighborhood as it would result in cruiser activity back and forth, and a future jail enclosed with barbwire fencing to house people who are being incarcerated.

2. A County law enforcement operation located at the former Evergreen with included properties, would lower living standards that I am accustomed to as a home owner at this location, as well to others in this neighborhood.,

3. Having the Sheriff offices with a future proposed county jail, would be disruptive as these facilities will be in operation twenty-four hours a day, every day of the year. No other businesses on Center Street, or the adjacent shopping malls, (other then possibly gas stations), stay open beyond normal business hours. Such an operation would create

noise from cruiser sirens at all hours, increase traffic congestion in already heavily travelled Joline and Center Streets.

4. Such a facility would change the character of this neighborhood and surrounding businesses including many homes, St Dominic and CMTC schools, St. Mary's medical center, the new built apartments on the corner of Gracelawn Ave., and the John Murphy offices adjacent to Evergreen properties. A facility that incarcerates people will not blend inconspicuously nor will it enhance the character of this area of the Auburn community!

5. I am as well concerned for my security and that of the above mentioned entities. Though Maine has a low crime rate, there has been in increase in violence against law enforcement nationwide. Though one would think that having a Sheriff's department close by would provide a greater sense of security, it could also happen that law enforcement could become the target of riots and harm, or it could happen that persons who are incarcerated escape from jail into the neighborhood causing danger to it's inhabitants.

The recent newspaper article gives me the impression that the Androscoggin County Sheriffs have not done due diligence to finding a more suitable location for their operation so as to have less impact on these particular surroundings that in my view are unsuitable for their operation.

Please give your consideration to my concerns.

Suzanne Roy
8, Joline Drive, Auburn

Motion was made by Councilor Staples and seconded by Councilor Gerry to strike the language in the first paragraph under Section 1. Moratorium Declared that states: ***"at a site on which one currently does not exist".***

Motion to amend failed 2-4 (Councilors Whiting, Hawes, Milks, and Walker opposed).

Eric Samson, Androscoggin County Sheriff spoke. He stated that the project has been put on pause for the next phase of the project. At this time Harriman and Associates is looking forward to working with the City if this moratorium passes. He added that there is no jail being proposed or built. He also stated that because they are purchasing a facility on land and repurposing it, ARPA funding would apply which would not be the case if they were to purchase land and build a new facility.

Passage of Ordinance 07-02222022 5-1 (Councilor Staples opposed). A roll call vote was taken.

Order 28-02222022 – Appointing Eric Gould to the Water District Board of Trustees with a term expiration of 3-1-2026. This item was removed from the consent agenda to be taken up under new business.

Motion was made by Councilor Gerry and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Walker and seconded by Councilor Gerry to enter into executive session, pursuant to 1 M.R.S.A. Sec. 405 (6)(A).

Passage 6-0, time 8:04 pm.
Council was declared out of executive session at 8:21 pm.

Motion was made by Councilor Gerry and seconded by Councilor Walker replace the appointment of Eric Gould with KC Geiger.

Motion failed 3-4 (there was a tie vote 3-3 with Councilors Hawes, Milks, and Staples opposed, and in accordance with the City Charter, Article III, Section 3.3, the Mayor voted to break the tie vote and voted in opposition).

Passage of order 28-02222022 4-3 (there was a tie vote 3-3 with Councilors Gerry, Whiting, and Walker opposed, and in accordance with the City Charter, Article III, Section 3.3, the Mayor voted to break the tie vote and voted in support).

VII. Open Session – No one from the public spoke.

VIII. Reports

Mayor Levesque announced that the next School Committee Finance and Curriculum meetings are coming up on March 2nd.

Councilor walker announced that there will be a Neighborhood Watch meeting on Thursday at 6:00 pm at the Sixth Street Congregational Church in New Auburn.

Jill Eastman, Finance Director - January 2022 Final Monthly Report will be presented at the next Council meeting (March 7, 2022). Finance Director Eastman was not present at the meeting.

IX. Executive Sessions:

Economic development, pursuant to 1 MRSA Sec. 405(6)(C)
Motion was made by Councilor Gerry and seconded by Councilor Whiting to enter into executive session.

Passage 6-0, time in 8:25 pm.

Council was declared out of executive session at 8:42 pm.

Economic development, pursuant to 1 MRSA Sec. 405(6)(C)
Motion was made by Councilor Milks and seconded by Councilor Walker to enter into executive session.

Passage 6-0, time 8:42 pm.

Council was declared out of executive session at 8:51 pm.

X. Adjournment – Motion was made by Councilor Milks and seconded by Councilor Walker to adjourn. Unanimously approved, the meeting adjourned at 8:51 pm.

ARPA FUNDING PROPOSAL

Auburn Ski Association

Established in 1962, the Auburn Ski Association (ASA). Our organization has an extensive history of keeping the local ski community alive. ASA has held its annual ski swap for over 50 years until covid hit.

The ASA annual ski swap provides a venue for local skiers to purchase ski equipment at heavily discounted rates and sell off their old equipment. The fall of 2020, I believe, was the first year the ASA could not hold its annual ski swap, which is our primary fundraiser and an important community event.

The ASA raises approximately $12,000 at this event each year. We use these funds to run the Merrick Learn to Ski Program which puts about 70 kids from ages 7 to 12 years old on skis every year. Unfortunately, again in 2021, we could not hold our swap due to supply chain and inventory issues.

This ASA subsidized program provides transportation, equipment, and lessons at Lost Valley to many youths that probably would never have the chance to enjoy the snow. Offering this opportunity to local youth could influence generations as skiing is undoubtedly a life-long sport.

We also help fund ELHS and AMS alpine and nordic ski teams by purchasing race and safety equipment. We make sure that if any student cannot afford to race, we make it happen by providing equipment and whatever they may need to participate. In addition, we provide two annual scholarships to the ELHS graduating class and fund any racer that makes the Maine State Ski Racing Team but can't afford the trip to the Eastern Finals held in Vermont every spring.

The Auburn Ski Association is requesting $24,000 in American Rescue Plan Act (ARPA) funding to help us recover from the past two years of ski swaps we could not hold. We have not applied or asked for any other government help other than this request.

Your consideration for any help you can provide is greatly appreciated. Feel free to contact me anytime with any questions.

Respectfully Submitted

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 7, 2022 **Ordinance:** 07-02222022

Author: Phil Crowell, City Manager

Subject: Public Safety, Detention, and Correctional Facility Moratorium

---

Information: The Androscoggin County Commissioners have announced plans to acquire property within the City to be used as a new or additional location for offices of the Androscoggin County Sheriff's Department and as a new or additional location for the Androscoggin County Jail.

The City's current ordinances governing land use, zoning, site plan review and special exception review do not adequately or specifically address Public Safety Facilities, Detention Facilities or Correctional Facilities.

The development of new or additional Public Safety, Detention Facilities or Correctional Facilities could pose serious threats to the public health, safety and welfare of the residents and businesses abutting or in close proximity to such facilities without adequate provision for issues of public safety, health, land use compatibility, noise, visual degradation and environmental degradation.

Staff is proposing the city council declare a moratorium on development proposals involving Public Safety Facilities, Detention Facilities, or Correctional Facilities at a site on which one currently does not exist.

City Budgetary Impacts: None

Staff Recommended Action: Adopt the moratorium

Previous Meetings and History: Public hearing and passage of first reading on 2/22/2022.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Moratorium

ORDINANCE 07-02222022

City Council Ordinance

CITY OF AUBURN

PUBLIC SAFETY, DETENTION AND CORRECTIONAL FACILITY MORATORIUM ORDINANCE

THE CITY OF AUBURN adopts a Public Safety, Detention, and Correctional Facility Moratorium Ordinance as follows:

WHEREAS, the Androscoggin County Commissioners have announced plans to acquire property within the City to be used as a new or additional location for offices of the Androscoggin County Sheriff's Department and as a new or additional location for the Androscoggin County Jail;

WHEREAS, the current offices of the Androscoggin County Sheriff and the current Androscoggin County Jail are used for law enforcement, communications, emergency management, special operations, investigations, civil service, detention, including the holding and housing of persons in custody under process of law pending the outcome of legal proceedings, and corrections, including the holding and housing of persons for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense;

WHEREAS, the City's current ordinances governing land use, zoning, site plan review and special exception review do not adequately or specifically address Public Safety Facilities, Detention Facilities or Correctional Facilities;

WHEREAS, development of new or additional Public Safety Facilities, Detention Facilities or Correctional Facilities could pose serious threats to the public health, safety and welfare of the residents and businesses abutting or in close proximity to such facilities without adequate provision for issues of public safety, health, land use compatibility, noise, visual degradation and environmental degradation;

WHEREAS, the City is in the process of reviewing its Code of Ordinances, and needs additional time to study its Code of Ordinances to determine the implications of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities;

WHEREAS, the City Council and the Planning Board, with such professional advice and assistance as they deem necessary and appropriate, shall study the City's ordinances to determine the public safety, health, land use, environmental and other regulatory implications of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities and consider what regulations might be appropriate for such activity;

WHEREAS, the City's current ordinances are not adequate to prevent serious public harm from proposed development proposals involving Public Safely Facilities, Detention

City Council Ordinance

Facilities and Correctional Facilities;

WHEREAS, the City's current ordinances do not contain sufficient standards to effectively provide municipal review and approval of development proposals involving Public Safety Facilities, Detention Facilities and Correctional Facilities;

WHEREAS, it is anticipated that such a study, review, and development of recommended ordinance changes will take at least one hundred and eighty (180) days from the date the City considers this moratorium on development proposals involving Public Safety Facilities, Detention Facilities, and Correctional Facilities;

WHEREAS, amendments to ordinances may require public hearings by the Planning Board and City Council and votes by the Planning Board and City Council; and

WHEREAS, in the judgment of the City, these facts create an emergency within the meaning of 30-A M.R.S.A. § 4356(1), and require this Ordinance as immediately necessary for the preservation of the public health, safety and welfare;

NOW, THEREFORE, the City does hereby ordain that the following Moratorium Ordinance be, and hereby is, enacted:

Section 1. Moratorium Declared.

The City does hereby declare a moratorium on development proposals involving Public Safety Facilities, Detention Facilities, or Correctional Facilities at a site on which one currently does not exist. The moratorium shall remain in effect for one hundred and eighty (180) days from the date of applicability of this Ordinance, unless extended or modified by the City Council, for the express purpose of drafting an amendment or amendments to City ordinances to protect the public from health and safety risks including, but not limited to, the potential adverse public safety, health. land use compatibility, noise, environmental degradation and visual degradation effects of development proposals involving a Public Safety Facility, Detention Facility or Correctional Facility if not properly regulated; and

BE IT FURTHER ORDAINED, that notwithstanding the provisions of 1 M.R.S.A. § 302 or any other law to the contrary, this Ordinance, when enacted, shall apply to any development proposals involving a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the Planning Board prior to February 22, 2022, which is the applicability date of this Ordinance; and

BE IT FURTHER ORDAINED, that no person or organization shall start or engage in the construction or operation of a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the

City Council Ordinance

Planning Board prior to February 22, 2022, without complying with whatever ordinance amendment or amendments the City may enact as a result of this moratorium; and

BE IT FURTHER ORDAINED, that during the time this moratorium is in effect, no officer, official, employee, office, administrative board or agency of the City shall accept, process, approve, deny, or in any other way act upon any application for a license, building permit, certificate of approved use, conditional use review, special exception review and/or any other permits, licenses or approvals related to a Public Safety Facility, Detention Facility, or Correctional Facility for which an application for site plan review has not been determined to be complete by vote of the Planning Board prior to February 22, 2022; and

BE IT FURTHER ORDAINED, that those provisions of the City's ordinances that are inconsistent or conflicting with the provisions of this Ordinance, are hereby repealed to the extent that they are applicable for the duration of the moratorium hereby ordained, and as it may be extended as permitted by law, but not otherwise; and

BE IT FURTHER ORDAINED, that should any section or provision of this Ordinance be declared by any court of competent jurisdiction to be invalid, such a declaration shall not invalidate any other section or provision.

Section 2. Violations; Civil Penalties.

If the construction or operation of a Public Safety Facility, Detention Facility, or Correctional Facility is initiated in violation of this Ordinance, each day of any continuing violation shall constitute a separate violation of this Ordinance, and the City shall be entitled to all rights available to it in law and equity, including, but not limited to, fines and penalties in accordance with 30-A M.R.S.A. § 4452 or City ordinance, injunctive relief, and its reasonable attorney's fees and costs in prosecuting any such violations.

Section 3. Definitions.

Correctional Facility means a facility in which persons are held and housed primarily for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense. This definition includes pre-release facilities, but does not include work release centers.

City means the City of Auburn, Maine, a municipal corporation organized and existing under the laws of the State of Maine.

Detention Facility means a facility in which persons are held and housed in custody under process of law, pending the outcome of legal proceedings, but not for the purposes of punishment, correction, or rehabilitation following conviction of a criminal offense.

City Council Ordinance

Public Safety Facility means a facility in which the operations of law enforcement, communications, fire services, emergency management, special operations, investigations, or civil services are housed for emergency and public safety responses.

Section 4. Effective Date; Emergency Declaration

The City Council declares the existence of an emergency because the Code of Ordinances is insufficient to prevent serious public harm that could be caused by the unregulated development of Public Safety Facilities, Detention Facilities, and Correctional Facilities, thereby necessitating a moratorium to provide an opportunity for the City to review the potential impacts and harm that may be caused by such development, and to amend its Code of Ordinances to mitigate the potential impact and harm on the City, its businesses and its residents. This Ordinance shall be effective immediately upon enactment by the City Council and shall remain in effect for one hundred and eighty (180) days from the date of enactment unless it is adopted as a regular ordinance within that time period.

Council Workshop or Meeting Date: March 07, 2022 **Order:** 33-03072022

Author: Alison F. Pepin

Subject: Request by American Lung Association to waive the PD detail fee of $1,040 for the annual Trek Across Maine.

Information: American Lung Association, 122 State Street, Augusta, is requesting the Police Department detail fees of $1,040 be waived for their annual Trek Across Maine taking place June 17th and 18th.

Sec. 14-31. Fees; waiver. The fees for business licenses shall be paid by the owner or his agent in accordance with the business fee schedule established by the City Council. The City Council is the only authority allowed to waive fees prescribed by ordinance. An application for waiver of fees must be presented in writing to the City Clerk to be brought to the City Council at its next available meeting.

City Budgetary Impacts: $1,040

Staff Recommended Action: Consider waiving the fee.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Auburn Mayor & City Council

February 22, 2022

Dear Mayor and City Council members, I am requesting the fees for the police and public works be waived for the event Trek Across Maine taking place in your area June 17th & 18th, 2022. The American Lung Association is a 501(c)3 with a non-profit ID number of 13-1632524 and raising funds to fight lung cancer and lung disease, promote clean air, stop smoking programs and more. We will be entering the Auburn area around 11:00 am on Friday the 17th and thereafter for a few hours with approximately 1000 cyclists, 700 volunteers, family, friends & spectators on our way to Lewiston for our overnight, then we will come through Auburn again via a different route on Saturday morning on our way to Standish and Saint Joseph's College.

I have no idea on the cost of city services because I have nothing to go on from 2019 when you were a host city then as well. I do have an email from Chief Jason Moen on Wednesday the 16th, letting me know the cost of the police detail for the two days would be $1040. I have also discussed the routes with Officer Chris Hatfield.

The cost to all non-profits has been staggering because they received none of the Covid relief funds, which is as it should be because we have not used taxpayer funding, just generosity funding, so as usual we must depend on donations, but we received less of those because of Covid. So many people were lowering their budgets and not as many participated in the virtual rides. We have had to do a virtual Trek Across Maine for the last two years which cut our operating funds greatly as well as cutting our staff because of refusal to be vaccinated, etc. We are trying to come back from the pandemic, but it will be slow process because trekkers (and volunteers) must be vaccinated to participate which is cutting our numbers some. The American Lung Association was in the forefront during the pandemic because Covid was and is a lung issue, but we were and are operating with less funds.

The Trek Across Maine is good for your local economy, because I know for a fact that we have volunteers, trekkers and family members staying at hotels in Auburn. We will be eating, drinking, buying gas and staying in the LA area the night of the 17th. Not having had an in-person Trek for the last two years we will also probably have some media coverage, as we always have had before the pandemic.

Considering the mission of the American Lung Association and the business we will bring to the area it would be very helpful to us to be able to donate more funds for the prevention of lung disease/cancer/covid, programs to keep kids from smoking and making the air we all breathe cleaner.

When you can't breathe nothing else matters.

Thank you for your consideration.

Sincerely,

George Eastman

$	**TOTAL FEE INCLUDED** – Checks payable to "City of Auburn"			

EVENT LIABILITY INSURANCE COVERAGE FOR EVENT

For an event such as a walk-a-thon, race, festival, concert, etc., the city requires general liability insurance coverage. The **City of Auburn** is to be named as "additionally insured" for the event activities on that date. Once the event is approved, the Certificate of Insurance will need to be received at least 30 days before the event and before permits can be issued. Please have the City of Auburn listed on the Certificate of Insurance (minimum coverage $1,000,000 Bodily Injury or Death, per occurrence, and $300,000 Property Damage, per occurrence). It should contain a clause providing that the policy may not be cancelled by either party except upon not less than 30 days written notice to the city. Please have your insurance company fax a copy to: City Clerk 207-333-6623.

DESCRIPTION OF EVENT – Please describe what will occur during your event

Signature of Applicant:	Printed Name:	Date Submitted:
	George Eastman	1/4/22

Please note that you will be contacted by City Staff if you require additional permitting.

Please return this completed application with diagram and any applicable fee to:

Subject: Waiver

Hi George –

I was copied on your request for the city to waive your fees related to the Trek Across Maine event. I would like to get your request to the city council as soon as possible. Please submit a letter to the Mayor/Council requesting the waiver, date of event, cost for city services, the impact of COVID to your organization, and the benefits of being a host city by tomorrow morning, I can get this is the next agenda packet for the 2/22 meeting. If I receive it after tomorrow, the request will go before the council at the March 7th date . Please email me your letter. Thanks!

RE: Eligibility Certificates – SRRF Projects #1460, #1537, and #1538

Dear Superintendent Brown:

I am pleased to inform you that your School Revolving Renovation Fund applications for Projects #1460, #1537, and #1538 have been approved for funding for the amounts listed on the attached eligibility certificates.

The loan process for your projects must be initiated within 30 days. Please contact Toni Reed, Program Loan Officer, Maine Municipal Bond Bank at 622-9386 for assistance.

Awardees must comply with all applicable statutory and rule requirements for public improvement projects. Please see the attached post award guidance. You may contact Valerie Chiang, School Construction Coordinator, at 462-0132 for technical assistance.

Please note that failure to comply with SRRF program requirements and all applicable statutes and rules may result in revocation of your SRRF eligibility certificates and cancellation of your SRRF awards.

I wish you good luck as you complete your projects. If you have any questions regarding the School Revolving Renovation Fund, please contact Ann Pinnette at 215-3809 or ann.pinnette@maine.gov.

Sincerely,

Pender Makin

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council will hold a public hearing on March 21, 2022, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on an order authorizing a borrowing of up to $1,298,488 and issuance of the City's general obligation bonds therefor. The loan will be funded through the State School Revolving Renovation Fund and will be used to finance certain renovations and improvements to the Regional Education Treatment Center/SOS, Auburn Middle School and Walton Elementary School.

The order will be available for inspection at the City Clerk's office during regular business hours.

Susan Clements-Dallaire, City Clerk

ORDER 34-03072022

City Council Order

IN CITY COUNCIL

ORDER, AUTHORIZING LOANS OF UP TO $1,298,488 THROUGH THE STATE SCHOOL REVOLVING RENOVATION FUND

WHEREAS, the City desires to obtain one or more loans through the Maine Municipal Bond Bank's (the "Bond Bank") School Revolving Renovation Fund ("SRRF") under the Maine School Facilities Finance Program to finance renovations and improvements to the Regional Education Treatment Center/SOS, Auburn Middle School and Walton Elementary School; and

WHEREAS, the City expects to enter into one or more loan agreements with the Bond Bank in an aggregate amount not to exceed $1,298,488, provided, however, that the City anticipates that 67.05% of said loan or loans (estimated to be $870,636) will be forgiven and that the City will be obligated to repay the 32.95% balance of said loan or loans (estimated to be $463,386);

NOW, THEREFORE, BE IT ORDERED BY THE AUBURN CITY COUNCIL, pursuant to Section 5772 of Title 30-A of the Maine Revised Statutes, as amended, the Auburn City Charter and all amendments thereof, and all other authority thereto enabling, and following a public hearing duly called and held as required by Article 8, Section 8.13 of the City Charter:

THAT the Finance Director / City Treasurer are hereby authorized to borrow an amount not to exceed $1,298,488, of which 67.05% (estimated to be $870,636) is expected to be forgiven and 32.95% (estimated to be $463,386) is expected to be repaid under the terms of the SRRF program (the "SRRF Loans"), and to evidence the amount of such SRRF Loans to be repaid under the SRRF program through the issuance of the City's general obligation bonds (anticipated to be an amount not to exceed $463,386), the proceeds of which are hereby appropriated to fund the costs of the following school renovations and improvements (including costs of issuance, capitalized interest, and any other costs related or ancillary thereto) (referred to as the "Projects"):

Amount	Description
$1,000,000	Regional Education Treatment Center/SOS – ADA Compliance - Elevator/Bathrooms Renovations and Improvements
$83,430	Auburn Middle School – Window Replacement and Improvements
$215,058	Franklin School – Window and Door Replacement and Improvements

THAT the bonds shall be issued as authorized hereunder and shall be signed by the Finance Director / City Treasurer, attested by the City Clerk under the seal of the City.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Order

THAT the bonds may be issued at one time or from time to time, either singly or in series, and the authority and discretion to fix method of sale, issue date, maturities, denominations, interest rate, place of payment, form and other details of said bonds and notes, and to take all other actions and to sign and deliver all other documents, certificates and agreements in order to provide for the sale thereof is hereby delegated to the Finance Director / City Treasurer.

THAT the bonds authorized hereunder may be made subject to call for redemption, either with or without premium, on such terms as may be determined by the Finance Director / City Treasurer.

THAT the Finance Director / City Treasurer is authorized to negotiate, execute, and deliver, in the name of and on behalf of the Town such loan agreements, contracts, and other agreements, documents and certificates as may be necessary or appropriate as determined and approved by the Finance Director / City Treasurer in connection with the financing of the Projects (the "Financing Documents"), which Financing Documents shall be in such form and contain such terms and conditions, not inconsistent herewith, including the usual and customary terms as is required by the Bond Bank under its SRRF program, as may be approved by the Finance Director / City Treasurer such approval to be conclusively evidenced by her execution thereof.

THAT the Finance Director / City Treasurer and Clerk be, and hereby are authorized and empowered in the name of the City and on its behalf to do or cause to be done all such other acts and things as may be necessary or desirable in order to complete the SRRF Loan and to effect the issuance, sale and delivery of the bonds hereinabove authorized.

THAT a tax levy is hereby provided for each fiscal year that the bonds authorized hereunder remain outstanding to meet the annual installments of principal and interest as may accrue in each respective year.

THAT if the Finance Director / City Treasurer or Clerk are for any reason unavailable to complete the SRRF Loan and to approve and execute the bonds or any of the Financing Documents, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, is authorized to act for such official with the same force and effect as if such official had herself performed such act.

THAT if any of the officers or officials of the City who have signed or sealed the bonds shall cease to be such officers or officials before the bonds so signed and sealed shall have been actually authenticated or delivered by the City, such bonds nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds had not ceased to be such officer or official; and also any such bonds may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds, shall be the proper officers and officials of the City, although at the nominal date of such bonds any such person shall not have been such officer or official.

Development Program

I. Introduction

The Maine Legislature established tax increment financing as an economic development tool to be used by municipalities to: (a) provide new employment opportunities; (b) improve and broaden its tax base; and (c) improve the general economy of the State. The Legislature recognizes that the State and its municipalities benefit from a municipality's economic development partnership with a local business to promote responsible new development that (a) enhances local efforts for economic, industrial or commercial development; and (b) retains and expands the local tax base and employment opportunities.

The City of Auburn (the "City" or "Auburn") seeks to establish a Tax Increment Financing ("TIF") district to be known as the "**TIF #26 North River Road Apartments Municipal Development and Tax Increment Financing District**" (the "District"), located on North River Road.

The District consists of one parcel located at 273 North River Road and is identified on City Tax Maps as Tax Map 271 Lot 101. The District is approximately 3.32 acres. The District is being developed for rental housing, consisting of three buildings with twelve apartments per building. The complex is estimated to cost $4,213,000 to construct.

In designating the proposed District and adopting this Development Program, the City can accomplish the following goals:

- Maintain the existing tax revenues;
- Enjoy enhanced future tax revenues generated by improvements within the District;
- Enable the investment of TIF Revenues (defined below) in high priority City projects;
- Create long-term, stable employment opportunities for area residents; and
- Improve the overall economy of the City, the Androscoggin County region, and the State of Maine.

In addition, by creating a TIF district, the City will "shelter" the increase in municipal valuation that the development will bring about. The tax benefit provided by the District will mitigate the adverse effect that the District's increased assessed property value would have on the City's share of state aid to education, municipal revenue sharing, and its county tax assessment. An estimate of the tax shift benefit is shown as **Exhibit C-2** attached hereto.

II. Development Program Narrative

A. The Development District

The District will encompass approximately 3.32 acres of real property. The District is located at 273 North River Road, a major road on the east side of the City that follows the Androscoggin River. The District is shown in **Exhibit A-1** and **Exhibit A-2** attached hereto.

B. The Development Program

The City's designation of the District and adoption of this Development Program creates a single municipal TIF District in order to capture the value of the taxable real property improvements made within the District and to authorize the use of tax increment financing revenues for various municipal economic development projects, as well as any potential future credit enhancement agreements. The Development Program will begin with the City's 2022-2023 fiscal year on July 1, 2022 and will continue for a total of twenty (20) years, ending on June 30, 2042.

Under this Development Program, the City will capture one hundred (100%) of the increased assessed value of taxable real property over the original assessed value of the District and retain the tax revenues generated by the captured assessed value for designated economic development purposes. The calculation of TIF Revenues (as defined below) is more specifically described below in Section IV – Financial Plan. In the Assessor's Certificate attached as **Exhibit B** hereto, the Assessor has certified the original assessed value of the District.

By adopting this Development Program, the City is creating a TIF district that will: (1) maintain existing tax revenues; (2) enjoy enhanced future tax revenues generated by new development within the District; and (3) shelter the captured assessed value from impacting the overall State valuation for the City of Auburn, thereby minimizing: (a) potential decreases in the City's State school subsidy and State revenue sharing, and (b) potential increases in the City's county tax assessments and local school district contributions.

Further, approval of this Development Program and the designation of the District will have a neutral impact on the existing tax base; only the increased assessed value over the original assessed value within the District will be captured. In addition, at the end of the District and Development Program, the City expects to emerge with a substantial amount of new taxable property value to add to its municipal tax base.

This Development Program is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute"). Subsequent to a City Council vote designating the District and adopting this Development Program, evidenced by **Exhibit F** hereto, the designation of the District and adoption of this Development Program are effective upon approval by the DECD.

C. The Projects

Development within the District will provide a revenue source for the City's economic development projects. The City plans to use the TIF Revenues for several projects related to

economic and infrastructure development. Please see Table 1 herein for a complete list of authorized projects and their respective cost estimates.

TABLE 1
Municipal Project Costs

Project	Cost Estimate*	Statutory Citation
1. Administrative & Professional Services Costs. Costs of prorated portion of salaries of City staff for time associated with creation and administration of District, and fund costs of professional services associated with creation and administration of District.	$120,000	30-A M.R.S. § 5225(1)(A)(4); (1)(A)(5)
2. Economic Development Programs: Costs of the City's economic development programs, including, but not limited to, marketing costs, prorated portions of staff salaries devoted to supporting and administering TIF programming, and other related operating expenses for the City's Economic Development Department.	$20,000	30-A M.R.S. § 5225(1)(C)(1)
3. Road Improvements: Design, construction, engineering and other associated costs of road and construction on North River Road, Center Street, Cross Street, Northern Avenue, Bradman Street and Stetson Road, located within the District or outside the District but directly related to or made necessary by the District.	$3,000,000	30-A M.R.S. § 5225(1)(A)(1); (1)(B)(1)
4. Public Safety Facility: Costs related to the construction or operation of a public safety facility in the City, the need for which is related to general economic development within the City, not to exceed 15% of the captured assessed value of the development district.	$150,000	30-A M.R.S. § 5225 (1)(C)(9); (1)(B)(1)
Total	**$3,290,000**	

* These are estimates only. The City may allocate revenues generated by the District across approved project cost categories as needed.

D. Strategic Growth and Development

By creating and designating the District, the City is maximizing the economic development potential of the District and the City in general. TIF Revenues from the District will be used on important City economic development projects and programs.

Further, the City's designation of a TIF district and pursuit of this Development Program constitute a good and valid public purpose described in the TIF Statute in Chapter 206 of Title 30-A because it represents a substantial contribution to the economic well-being of both the City and the Androscoggin County Region, by providing jobs and contributing to property taxes.

E. Improvements to the Public Infrastructure

As further set forth in Table 1, the City will use certain TIF Revenues for a variety of projects, including public infrastructure improvements.

F. Operational Components

1. Public Facilities

Please refer to Table 1 to review public facilities intended to be financed with TIF Revenues.

2. Commercial Improvements Financed Through Development Program

No commercial improvements will be financed through the Development Program.

3. Relocation of Displaced Persons

No persons will be displaced.

4. Transportation Improvements

Certain transportation related improvements are described in Table 1.

5. Environmental Controls

The improvements made under the proposed Development Program will meet or exceed all federal and state environmental regulations and will comply with all applicable land use requirements for the City.

6. Plan of Operation

During the term of the District, the City Manager or his designee will be responsible for all administrative matters within the purview of the City concerning the implementation and operation of the District.

III. Physical Description

Municipal documents relating to the District's physical description attached as Exhibits:

(a) City of Auburn property map showing the District relative to City boundaries. **Exhibit A-1**

(b) City of Auburn property map showing the District property. **Exhibit A-2**

(c) Certification by the City of Auburn Assessor of the original assessed value of the District. **Exhibit B**.

IV. Financial Plan

The District will encompass approximately 3.32 acres of property. The original assessed value of the real property in the District was $60,300 as of March 31, 2021 (April 1, 2020). Development of the parcel is estimated to add approximately $3,000,000 of new assessed real property value to the City.

Upon each payment of property taxes by property owners inside the District, the City will deposit into a Development Program Fund the entirety of the property tax payments constituting TIF revenues (the "Development Program Fund"). TIF revenues will consist of property taxes paid on 100% of the increased assessed value in the District ("TIF Revenues").

The Development Program Fund consists of two segregated accounts, a sinking fund account ("Sinking Fund Account") and a project cost account (the "Project Cost Account"). The City will deposit the TIF Revenues necessary to pay debt service on any bonds that may be issued to pay for the City's TIF projects into the Sinking Fund Account. The money in this account is pledged to and charged with the payment of interest and principal on municipal indebtedness related to improvements in the District. Thereafter, the City will deposit any additional TIF Revenues into the Project Cost Account for approved municipal projects outlined in this Development Program and not financed with City indebtedness. The Development Program Fund is pledged to and charged with the payment of the project costs in the manner provided in 30-A M.R.S.A. § 5227(3).

Estimates of the increased assessed value of the District, the anticipated captured assessed values and TIF Revenues generated by the District, and the estimated tax shifts are shown in **Exhibit C-1** and **Exhibit C-2**, respectively.

A. Costs and Sources of Revenues

Developers of District property will pay for and/or finance all costs of projects located in the District through private sources.

B. Municipal Indebtedness

The City reserves the right to issue municipal bonds in order to pay for infrastructure improvements described in Table 1. Any municipal bond issued for such project would require City Council approval.

V. Financial Data

The original assessed value of the taxable property in the District was $60,300 as of March 31, 2021 (April 1, 2020). Please find attached as **Exhibit G** the Statutory Requirements and Thresholds Form required by the Maine Department of Economic and Community Development.

VI. Tax Shifts

In accordance with Maine statutes governing the establishment of a tax increment financing district, the table set forth in **Exhibit C-2** identifies the tax shifts that are expected to result during the term of the District from the establishment of the District.

VII. Municipal Approvals

A. Notice of Public Hearing

Attached as **Exhibit D** is a certified copy of the Notice of Public Hearing held on March 7, 2022 in accordance with the requirements of 30-A M.R.S.A. § 5226(1). The notice was published in the *Sun Journal*, a newspaper of general circulation in the City on a date at least ten (10) days prior to the public hearing.

B. Minutes of Public Hearing

Attached as **Exhibit E** is a certified copy of the minutes of the public hearing held on March 7, 2022, at which time the proposed District was discussed by the public.

C. City Council Order

Attached as **Exhibit F**, is an attested copy of the City Council Order adopted by the Auburn City Council at a Council Meeting duly called and held on March 7, 2022, designating the District and adopting the Development Program.

2031-2032	10	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2032-2033	11	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2033-2034	12	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2034-2035	13	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2035-2036	14	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2036-2037	15	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2037-2038	16	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2038-2039	17	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2039-2040	18	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2040-2041	19	$3,000,000	100%	100%	$3,000,000	23.82	$71,460
2041-2042	20	$3,000,000	100%	100%	$3,000,000	23.82	$71,460

20-Year Projected Total: $1,429,200

20-Year Projected Average: $71,460

Assumptions:

1. Projections show anticipated increased assessed values, captured assessed values, and TIF revenues.
2. Assumes a 20-year district term.
3. Projections assume a flat mil rate of 23.82
4. Assumes 100% of the increased assessed value is captured in the District and available for municipal project costs.
5. Projections are much less likely to be accurate farther into the future and are for demonstrative purposes only.

2038-2039	17	$21,300	$2,901	$7,431	$31,632
2039-2040	18	$21,300	$2,901	$7,431	$31,632
2040-2041	19	$21,300	$2,901	$7,431	$31,632
2041-2042	20	$21,300	$2,901	$7,431	$31,632
2031-2032		$21,300	$2,901	$7,431	$31,632
2032-2033		$21,300	$2,901	$7,431	$31,632
2033-2034		$21,300	-	-	$21,300
	Totals:	**$426,000**	**$58,016**	**$148,617**	**$632,634**
	Averages:	**$21,300**	**$2,901**	**$7,431**	**$27,506**

Assumptions:

1. Data sources include the 2021-2022 mil rate/commitment reported by the City, Androscoggin County's FY2022 Budget reflecting Tax Allocation, the State Treasurer's Office Municipal Revenue Sharing projections for FY2022, published 07/02/2021, and the Maine Department of Education 01/18/22 2022-2023 ED 279 form for Auburn Schools. Based on these projections, the City of Auburn loses apprroximately 44 cents out of every new tax dollar to subsidy losses and increased County taxes.

2. Tax shift losses are comprised of declining subsidies in revenue sharing and increasing obligations to pay county taxes. Tax shift losses occur a couple of years following the year in which the new assessed value is first recognized in the assessment. No tax shift losses occur when a TIF captures all of the new value.

3. These projections assume that the formulas and general inputs for state subsidies and county taxes do not change over time and they assume that all other values in other communities are static relative to one another except for the new value assessed. The projections are less likely to be accurate farther into the future.

4. Assumes the assessment ratio in the City is 100% when new property value arrives, such that the market value of new property is used for assessment purposes.

5. The projections above assume that no tax increment financing district is put in place, thus the mil rate is reduced by the influx of new value in the City. This analysis factors in tax shift impacts resulting from the project's new assessed value into future commitments and mil rate calculations to arrive at projected property tax payments.

Exhibit D

(Notice of Public Hearing)

Exhibit D

NOTICE OF PUBLIC HEARING

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Regarding
Approval of the Municipal Development and Tax Increment Financing District known as:

"TIF #26 North River Road Apartments Municipal Development and Tax Increment Financing District"

Notice is hereby given that the City of Auburn will hold a public hearing on

March 7, 2022
at 60 Court Street Auburn , ME 04210
The Public Hearing will be at 7:00 p.m.

The purpose of the public hearing is to receive public comments on the creation of a municipal development and tax increment financing district known as the TIF #26 North River Road Apartments Municipal Development and Tax Increment Financing District (the "District") and the adoption of the development program for the District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The TIF #26 North River Road Apartments Municipal Development Tax Increment Financing District is comprised of approximately 3.32 acres and is located at 273 North River Road across from Northern Avenue Heights. The proposed district will consist of three apartment buildings encompassing approximately 36 units.

A copy of the proposed Development Program materials will be on file with the City Office during normal business hours of 8:30 am – 4:00 pm. They can also be found at https://www.auburnmaine.gov/or one can call *207-333-6601* during normal business hours to request that a copy be mailed to you. All interested persons are invited to attend the public hearing and will be given an opportunity to be heard at that time.

Public comments will be taken at the hearings and written comments should be submitted to Susan Clements-Dallaire, City Clerk. Written comments will be accepted until 4:00 PM on March 7, 2022.

Exhibit E

(Minutes of Public Hearing)

Exhibit F

(City Council Order)

City Council Order

Approving the TIF #26 North River Road Apartments Municipal Development Tax Increment Financing Development Program

WHEREAS, the City of Auburn (the "City") is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to designate specific areas within the City as the TIF #26 North River Road Apartments Municipal Tax Increment Financing District ("the District") and to adopt a development program for the District (the "Development Program"); and

WHEREAS, there is a need to provide continuing employment opportunities for the citizens of the City and the surrounding region; to improve and broaden the tax base of the City; and to improve the general economy of the City, the surrounding region and the State of Maine; and

WHEREAS, adopting and implementing the District and the Development Program will help to improve and broaden the tax base in the City and improve the economy of the City and the State of Maine; and

WHEREAS, the City has held a public hearing on the question of establishing the District in accordance with the requirements of 30-A M.R.S.A. §5226, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and

WHEREAS, the City desires to designate the District and to adopt the Development Program for the District; and

WHEREAS, it is expected that approval will be sought and obtained from the Maine Department of Economic and Community Development ("DECD"), approving the designation of the District and the adoption of the Development Program; and

NOW THEREFORE, BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN, MAINE:

Section 1. The City hereby finds and determines that:

(a) At least twenty-five percent (25%), by area, of the real property within the District, as hereinafter designated, is in need of rehabilitation, redevelopment or conservation or is suitable for commercial uses as defined in 30-A M.R.S.A. §5223(3); and

(b) The total area of the District does not exceed two percent (2%) of the total acreage of the City, and the total area of all development districts within the City (including the District) does not exceed five percent (5%) of the total acreage of the City; and

(c) The aggregate original assessed value of the District plus the original assessed value of all other existing tax increment financing districts in the City does not exceed five percent (5%) of the total value of taxable property within the City as of April 1, 2021; and

(d) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined

that any such adverse economic effect on or detriment to any existing business is outweighed by the contribution expected to be made through the District and the adoption of the Development Program. The projects and improvements described in the Development Program will contribute to the economic growth and well-being of the City and the surrounding region, and will contribute to the betterment of the health, welfare and safety of the inhabitants of the City, including employment opportunities, a broadened and improved tax base and economic stimulus, and therefore constitutes a good and valid public purpose.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City hereby designates the District and adopts the Development Program all as more particularly described in the Development Program presented to the City Council and such Development Program is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of increased assessed value to be retained in the District as captured assessed value and the term for which it will be retained is hereby established as set forth in the Development Program.

Section 4. The City Manager be, and hereby is, authorized, empowered and directed to submit the designation of the District and the Development Program to DECD for review and approval pursuant to the requirements of 30-A M.R.S.A. §5226(2).

Section 5. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon receipt by the City of approval of the designation of the District and adoption of the Development Program by DECD, without requirement of any further action by the City, the City Council, or any other party.

Section 6. The City Manager be and hereby is authorized and empowered, at his discretion, from time to time, to make such revisions and corrections to the Development Program or to the scope, cost or description of the public improvements to be financed with tax increment revenues generated by the District as described in the Development Program, and to the exhibits to the Development Program, as the City Manager deems reasonably necessary or convenient, necessary in order to facilitate the process for review and approval of the District or the Development Program by DECD, or for any other reason so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Development Program.

Section 7. This Order shall take effect immediately upon adoption.

Approved March 7, 2022, by the City Council, at a meeting duly convened and conducted in Auburn, Maine.

Exhibit D

NOTICE OF PUBLIC HEARING

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Regarding
Approval of the Municipal Development and Tax Increment Financing District known as:

"TIF #26 North River Road Apartments Municipal Development and Tax Increment Financing District"

Notice is hereby given that the City of Auburn will hold a public hearing on

March 7, 2022
at 60 Court Street Auburn , ME 04210
The Public Hearing will be at 7:00 p.m.

The purpose of the public hearing is to receive public comments on the creation of a municipal development and tax increment financing district known as the TIF #26 North River Road Apartments Municipal Development and Tax Increment Financing District (the "District") and the adoption of the development program for the District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The TIF #26 North River Road Apartments Municipal Development Tax Increment Financing District is comprised of approximately 3.32 acres and is located at 273 North River Road across from Northern Avenue Heights. The proposed district will consist of three apartment buildings encompassing approximately 36 units.

A copy of the proposed Development Program materials will be on file with the City Office during normal business hours of 8:30 am – 4:00 pm. They can also be found at https://www.auburnmaine.gov/or one can call *207-333-6601* during normal business hours to request that a copy be mailed to you. All interested persons are invited to attend the public hearing and will be given an opportunity to be heard at that time.

Public comments will be taken at the hearings and written comments should be submitted to Susan Clements-Dallaire, City Clerk. Written comments will be accepted until 4:00 PM on March 7, 2022.

ORDER 35-03072022

City Council Order

IN CITY COUNCIL

ORDERED,

Approving the TIF #26 North River Road Apartments Municipal Development Tax Increment Financing Development Program

WHEREAS, the City of Auburn (the "City") is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to designate specific areas within the City as the TIF #26 North River Road Apartments Municipal Tax Increment Financing District ("the District") and to adopt a development program for the District (the "Development Program"); and

WHEREAS, there is a need to provide continuing employment opportunities for the citizens of the City and the surrounding region; to improve and broaden the tax base of the City; and to improve the general economy of the City, the surrounding region and the State of Maine; and

WHEREAS, adopting and implementing the District and the Development Program will help to improve and broaden the tax base in the City and improve the economy of the City and the State of Maine; and

WHEREAS, the City has held a public hearing on the question of establishing the District in accordance with the requirements of 30-A M.R.S.A. §5226, upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and

WHEREAS, the City desires to designate the District and to adopt the Development Program for the District; and

WHEREAS, it is expected that approval will be sought and obtained from the Maine Department of Economic and Community Development ("DECD"), approving the designation of the District and the adoption of the Development Program; and

NOW THEREFORE, BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF AUBURN, MAINE:

Section 1. The City hereby finds and determines that:

(a) At least twenty-five percent (25%), by area, of the real property within the District, as hereinafter designated, is in need of rehabilitation, redevelopment or conservation or is suitable for

City Council Order

commercial uses as defined in 30-A M.R.S.A. §5223(3); and

(b) The total area of the District does not exceed two percent (2%) of the total acreage of the City, and the total area of all development districts within the City (including the District). does not exceed five percent (5%) of the total acreage of the City; and

(c) The aggregate original assessed value of the District plus the original assessed value of all other existing tax increment financing districts in the City does not exceed five percent (5%) of the total value of taxable property within the City as of April 1, 2021; and

(d) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined

that any such adverse economic effect on or detriment to any existing business is outweighed by the contribution expected to be made through the District and the adoption of the Development Program. The projects and improvements described in the Development Program will contribute to the economic growth .and well-being of the City and the surrounding region, and will contribute to the betterment of the health, welfare and safety of the inhabitants of the City, including employment opportunities, a broadened and improved tax base and economic stimulus, and therefore constitutes a good and valid public purpose.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City hereby designates the District and adopts the Development Program all as more particularly described in the Development Program presented to the City Council and such Development Program is hereby incorporated by reference into this vote as the Development Program for the District.

Section 3. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of increased assessed value to be retained in the District as captured assessed value and the term for which it will be retained is hereby established as set forth in the Development Program.

Section 4. The City Manager be, and hereby is, authorized, empowered and directed to submit the designation of the District and the Development Program to DECO for review and approval pursuant to the requirements of 30-A M.R.S.A. §5226(2).

Section 5. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon receipt by the City of approval of the designation of the District and adoption of the Development Program by DECO, without requirement of any further action by the City, the City Council, or any other party.

Section 6. The City Manager be and hereby is authorized and empowered, at his discretion, from time to time, to make such revisions and corrections to the Development Program or to the

City Council Order

scope, cost or description of the public improvements to be financed with tax increment revenues generated by the District as described in the Development Program, and to the exhibits to the Development Program, as the City Manager deems reasonably necessary or convenient, necessary in order to facilitate the process for review and approval of the District or the Development Program by DECD, or for any other reason so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the Development Program.

Section 7. This Order shall take effect immediately upon adoption.

Approved March 7, 2022, by the City Council, at a meeting duly convened and conducted in Auburn, Maine.

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: March 7, 2022 **Ordinance:** 08-03072022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Zoning Considerations from 2021 Updated Comprehensive Plan-Gracelawn Area Zoning change AG/RP to GB and Lake Auburn Watershed Overlay District.

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. The Comprehensive Plan recommends adjusting the zoning boundary to allow for reuse of the Gracelawn Gravel Pits for development where they no longer drain to Lake Auburn and shows about 111 acres proposed for the change. The Lake Auburn Study analyzed this further and recommends removing 148 acres from the Watershed based on topography and ground water data. Approximately 37 acres are not shown as Commercial Development District (CDD) in approved FLU mapping because the approximate boundaries for the conceptual change were conservative and were developed before the Lake Auburn Study was completed. We knew most of the land was not draining to the lake, but the study identified a larger area draining away from the lake and the council approved utilizing the Auburn Lake Watershed Study as part of the Comprehensive Plan Updates. In that study they suggested moving the watershed boundary to match the actual drainage area boundary. From that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary for a total of 148 +/- acres. **In keeping with existing zoning staff is suggesting that this area be changed to General Business (GB) as recommended by the PB on February 8th.**

---

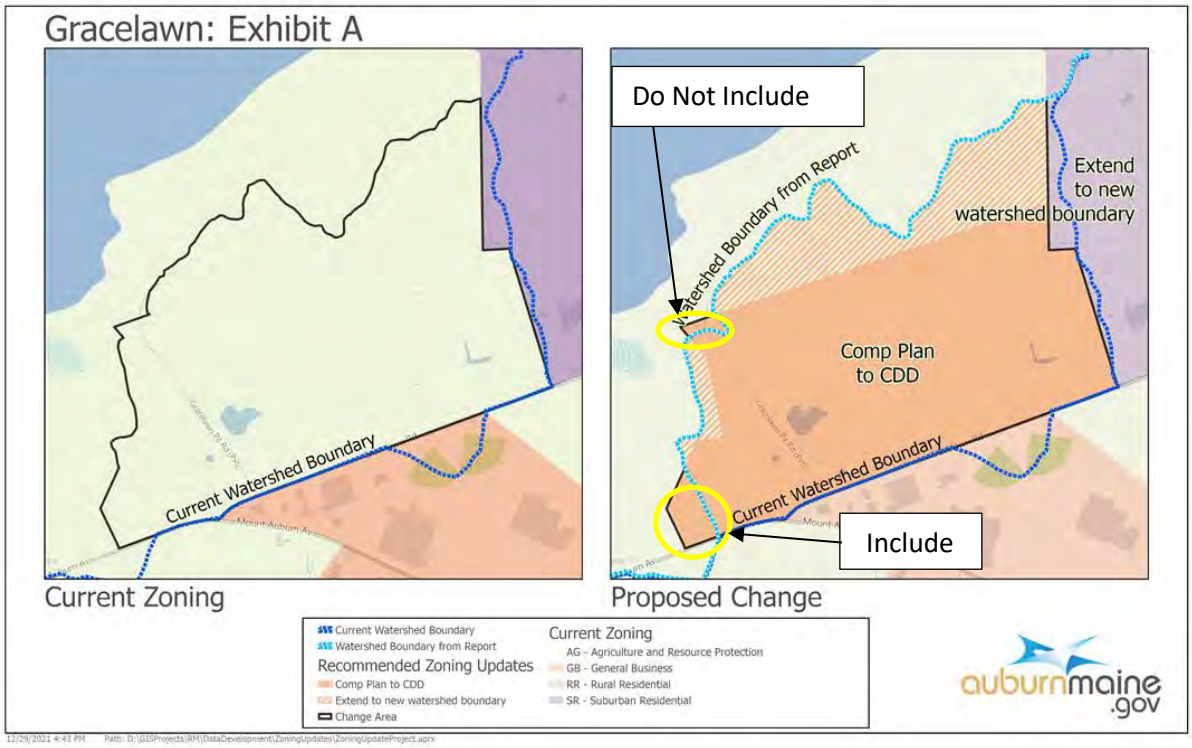
a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to General Business District (GB). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended. (See attached a.)

b. The current proposal also includes an adjustment of the Lake Auburn Watershed District Zoning Overlay to match what science has shown us to be the actual drainage boundary to the physical Lake Auburn Watershed. The revised boundary is shown as a blue line in the map on the previous page titled Proposed Change. A copy of the Lake Auburn watershed Study Pages recommending this change is attached. The Lake Auburn Watershed Boundary is defined in our ordinance as follows:

Sec. 60-951. Boundaries and definitions.

The Lake Auburn Watershed District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the city water district on file in the office of the city water district, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed District.

The district, by definition, should match the actual drainage boundaries and we now have information that confirms that the existing Watershed District Map includes land that does not drain to the Lake



Below is an environmental buildout look of what is existing now vs. a commercial mixed-use development for the 148-acre Gracelawn site. (Ref. MaineDEP Urban Runoff BMPs Calculation Sheet)

Overall annual pollutant load and runoff volume before and after BMPs				
Pollutant	Pre-BMP	Reduction	After BMP	Percent Reduction
TN (lb/yr)	727.33	363.66	363.66	50%
TP (lb/yr)	72.73	36.37	36.37	50%
BOD (lb/yr)	3,230.77	2,220.85	1,009.92	69%
Sediment (lb/yr)	27,974.09	23,752.65	4,221.44	85%
Flow Volume (ac-ft/yr)	138.50	119.79	18.72	86%

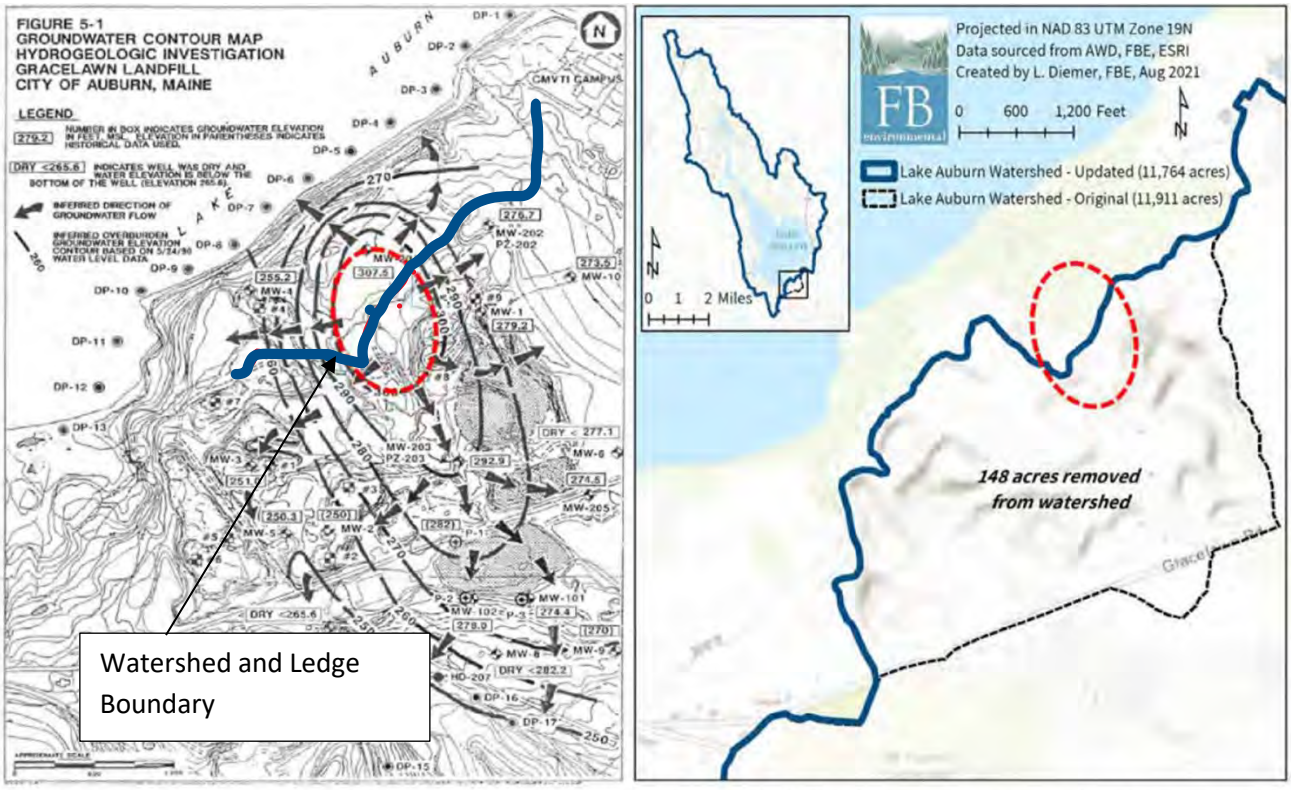


Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area to include the area proposed on the map with a minor difference to follow existing property boundaries. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The two small areas inside the watershed will be required to drain internally (out of the watershed) or meet phosphorus control standards.
3. The current Boundary of the Lake Auburn Watershed District Overlay Zoning Boundary has been shown to be different than the actual drainage boundary based on the Lake Auburn Watershed

Study's analysis of topography and groundwater movement in the area and should be adjusted as proposed to match the physical drainage boundaries of the watershed.

4. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.
5. Significant environmental improvements with the site being converted from a gravel pit to a mixed-use development site based on land use runoff for event mean concentration (EMC) values with BMPs implementation.

Staff Recommended Action: Staff suggests council discuss the proposals and hold a Public Hearing on March 7, 2022. Staff then recommends that the Council take a vote on the following, 1: That the Lake Auburn Watershed Overlay Zoning Boundary be adjusted as shown in the Lake Auburn Watershed Study(and on the attached Map); and 2. That the General Business Boundary be adjusted to include the 148 acres shown on the map based on the following findings to include the front parcel that will drain internally based on the new proposed plan submitted by Stoneybrook Consultants.

Previous Meetings and History: January 3rd Council Discussion Initiation, January 11, 2021 Planning Board Workshop, February 8th, 2022 Planning Board, Public Hearing (favorable recommendation 7-0)

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

3 Analysis of Environmental Impacts

This section analyzes the environmental impact of various development and water quality scenarios for the Lake Auburn watershed. The analysis uses a well-documented watershed model paired with in-lake empirical formulas to predict water quality outcomes under each future scenario. This section also reviews recreational threats and opportunities, current forestry practices, and LAWPC's land conservation strategy.

Photo Credit: Sun Journal

Water Quality Modeling

Boundary Change

Based on hydrogeologic studies (E.C. Jordan Co., 1990; Woodard & Curran, 1995; Summit Environmental Consultants, Inc., 2007) of the sand and gravel operations and former City of Auburn landfill along Gracelawn Road, a portion of the existing watershed area was determined to flow away from Lake Auburn in a southerly and easterly direction (Figure 3-1). Groundwater flow studies around the sand and gravel operations showed groundwater flowing south to an unnamed brook in a ravine just south of Mt. Auburn Avenue that flows to the Androscoggin River. Previous analyses of groundwater monitoring well data around the landfill showed low and diminishing levels of leachate indicators on the lakeside compared to increasing levels on the south side away from the lake. The combined properties with sand and gravel operations owned by CLH & Sons, Inc. and Get Er Done, LLC cover 115 acres in the southern portion of the Lake Auburn watershed and are bounded to the north by Lake Auburn and a LAWPC-owned parcel, to the east by a Central Maine Community College-owned parcel, to the south by Gracelawn Road, and to the west by a LAWPC-owned parcel. Based on review of the groundwater contours and 2-ft surface contours, the proposed watershed boundary reduces the watershed area by 148 acres, possibly reducing the original CEI, Inc. (2010) total phosphorus load to Lake Auburn by about 44 kg/yr.

Baseline Model Run

The baseline or "existing conditions" model run was performed using the revised version of the ArcView Generalized Watershed Loading Function (AVGWLF): MapWindow Version 4.6.602 and MapShed Version 1.5.1, available online through the Stroud Water Research Center's Wiki-Watershed. Following MapShed documentation, model files were prepared for input and processing to generate watershed nutrient loading estimates by sub-basin. These sub-basin nutrient loading estimates were run through a simplified version of the Lake Loading Response Model (LLRM) (AECOM, 2009) to account for sub-basin water and nutrient load attenuation, other water and/or nutrient sources such as atmospheric deposition, internal loading, and septic systems, and in-lake factors such as pan evaporation and annual withdrawal for drinking water. The net water and nutrient loads, along with calculated lake characteristics, were used in several well-known empirical formulas to estimate the in-lake total phosphorus concentration of Lake Auburn.

A summary of inputs and assumptions is provided below. Refer to supplemental model documentation for more detail (available through the City of Auburn).

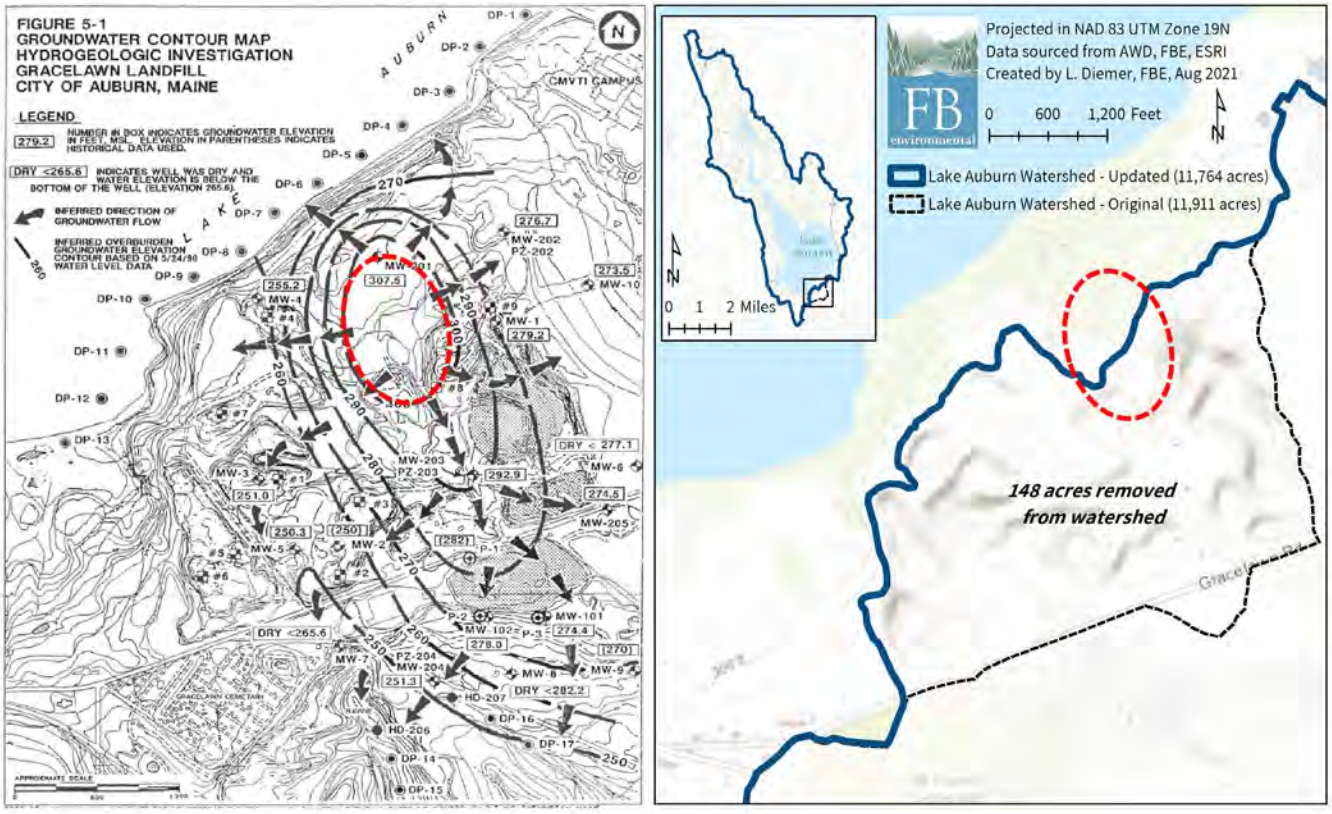

Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

5 Findings, Synthesis, & Holistic Recommendations

This section draws out key conclusions from the report's preceding Sections 2, 3, and 4 which contain our analyses of the regulatory, environmental, and economic impacts of Lake Auburn as a public drinking water supply. Synthesis and further discussion, along with consideration of examples from comparable water supplies, are also provided for several key conclusions that recur throughout the preceding sections. Lastly, this section puts forth holistic recommendations for the City of Auburn, as well as the broader community of stakeholders, with the aim of promoting water supply protection efforts and initiatives that preserve or improve the balance among regulatory, environmental, and economic impacts.

Photo Credit: Sun Journal

Key Findings

Section 2, Analysis of Regulatory Impacts

We found that the regulatory framework for the protection of Lake Auburn as a water supply can be revised to be more clearly defined, better aligned with the best available science and State and regional norms, and more fairly applied across different land uses and activities. Specific recommendations are described in depth in Section 2, and direct ordinance language revisions are provided in a separate document to the City. A summary of our recommended revisions is outlined below:

- Revise the septic system requirements of the Lake Auburn Watershed Overlay District Ordinance to incorporate the Maine Subsurface Wastewater Disposal Rules, including provisions that allow for mounded leach fields and other State-approved alternative designs where there is not a native, in-situ, 36-inch vertical separation between the bottom of the organic horizon and the bedrock, water table, or other restrictive layer. Refer to Appendix 1.
- Revise the Phosphorus Control Ordinance to clarify that the limit of a project area does not apply to a given land use but to a demarcated limit of disturbance, such that all disturbance within that area is required to meet the erosion and sedimentation controls and other phosphorus controls under a plan required by the Phosphorus Control Ordinance.
- Require timber harvest and agricultural activities to meet the same requirements as other land uses under the Phosphorus Control Ordinance. Currently, timber management and harvesting must be conducted in accordance with a forest management plan prepared and supervised by a registered forester, while agriculture must be conducted in accordance with a soil and water conservation plan approved by the ACSWCD, making these uses effectively exempt from City oversight. Removing the exemption and requiring timber and agriculture to meet the same erosion control standards under the Phosphorus Control Ordinance would ensure that water quality protection is a central feature of any timber harvesting or agricultural activities in the Lake Auburn watershed.
- Develop a clear set of standards for farm management that will be consistently applied to farms in the watershed for the purpose of controlling erosion and limiting the delivery of excess phosphorus from the farm practices to Lake Auburn. One approach is to set a concrete limit on the amount of agricultural activities that are phosphorus-intensive (e.g., commercial raising of livestock, fertilized row crops, manure spreading). It is important to note that water quality is predicted to be much worse across all future scenarios if agricultural land use does not decline as predicted.
- Adjust the agricultural buffer strip requirement in the Lake Auburn Watershed Overlay District Ordinance to improve its effectiveness. Recommended adjustments include widening the buffer to 75 or 100 feet, requiring the buffer to be vegetated, and requiring the buffer to be located downgradient of all agricultural activities, perpendicular to the direction of overland flow, in all areas of the watershed (as opposed to requiring buffers only for agricultural activities that are adjacent to surface water).
- Update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn Road area.
- Incorporate low impact development requirements for single family residential development on the 1- and 3-acre lots allowed in the Lake Auburn watershed by way of referencing the Maine Stormwater Management Design Manual, Volume 2. The use of low impact development can help to limit the impacts of stormwater runoff and associated erosion and pollutants from sites. The standards as they apply to a water supply watershed are presented below:
  - » Disturbance on an individual lot must be less than 15,000 square feet (including building, driveway, walkways, lawn area, construction access, and grading).
  - » A minimum natural vegetated buffer must be maintained downgradient of all developed areas on the lot. This buffer shall be 50 feet wide if naturally forested or 75 feet wide if maintained as a natural meadow.
  - » No more than 7,500 square feet of impervious cover is located on the property.
  - » A minimum of 40 percent of the lot area must be maintained as an undisturbed natural area. If the existing land has been disturbed by prior activities, a natural vegetated buffer and/or undisturbed natural area may be proposed through restoration and revegetation.

Section 3, Analysis of Environmental Impacts

We found that Lake Auburn water quality in the last decade had reached a tipping point, whereby nuisance algae blooms were becoming more frequent and were threatening the filtration waiver. The partial alum treatment conducted in 2019 significantly reduced the

in-column total phosphorus concentration and locked in a portion of the sediment-bound phosphorus, effectively resetting the system and giving the water districts additional time to ramp up watershed protection and nutrient reduction efforts. We also found that projecting current status quo conditions into the future (i.e., the "Business As Usual" scenario) resulted in Lake Auburn once again reaching a tipping point by 2100, even with the assumption that the in-column total phosphorus concentration and sediment-bound phosphorus would be repeatedly reset by an alum treatment every 10 years (see discussion in Section 2 about this assumption for further context). Modeled predictions for the other future scenarios where the regulatory framework is adjusted to allow more development in the Auburn portion of the watershed results in greater water quality degradation and a higher risk of blooms, ultimately triggering the need for a filtration plant in the "Maximum Development Allowing Building on LAWPC Lands" scenario. The use of low impact development techniques has a small positive effect on water quality in these future scenarios but does not ameliorate the high risk of frequent algae blooms. Taken together, the future scenarios show that Auburn alone does not have the land use control tools to stave off water quality decline in Lake Auburn; sustained collaboration with the upper watershed municipalities is essential to achieve the needed phosphorus load reductions over the remainder of the 21st century.

Section 4, Analysis of Economic Impacts

We found that expanding development in the Lake Auburn watershed provided minimal overall net economic benefit when accounting for the benefits and costs of all affected stakeholders, including the City of Lewiston who would otherwise carry the additional costs of watershed protection and water treatment through the existing cost sharing agreement in order for the City of Auburn to benefit from increased property tax revenues. In other words, the increased net benefits to the City of Auburn would be mostly or entirely offset by increased net costs to AWD and LWD customers, resulting in negligible net economic benefit to the communities served by Lake Auburn. This reallocation of benefits and costs among all affected stakeholders for the future scenarios highlights important questions of equity and fairness, which were raised during the process of producing this report and conversing with key community representatives. We emphasize that the costs associated with addressing declining water quality are costs to all water users and that the risk of incurred costs that are higher than our conservative estimates is very real.

Synthesis & Discussion

In summary, our analyses determined that Lake Auburn is nearing its assimilative capacity for nutrient load (even with the partial alum treatment) and cannot handle much more additional nutrient load without diminishing water quality and its associated benefits. We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed. Instead, we recommend that low impact development strategies are incorporated into existing zoning standards and required for all future development and redevelopment projects in the Auburn portion of the watershed. We also recommend that the other four headwater towns of Turner, Minot, Hebron, and Buckfield also incorporate low impact development requirements on future development projects. Lake Auburn cannot maintain excellent water quality in the future without the full participation of the other watershed towns. More development cannot be allowed in the Auburn portion of the watershed even with low impact development requirements implemented in Auburn. Even if reduced development through conservation or other means is achieved in the headwater towns, any additional development in Auburn has an outsized negative impact since its drainage area goes directly to the lake. It is also important to understand that a filtration plant does not allow for greater development of the watershed because the filtration plant only treats extracted drinking water for the consumer and does not treat in-lake water quality for recreation and for meeting State criteria for designated uses.

> We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed.

Below, we present further discussion on three important topics: regulation of septic systems, environmental risk and uncertainty, and comparable water utilities.

Regulation of septic systems: The regulatory and environmental analyses examined multiple issues surrounding septic systems and their contributions of phosphorus to Lake Auburn. At first glance, there may appear to be a contradiction between 1) the recommended ordinance revision from the regulatory analysis (Section 2) that the septic design standard should be revised in such a way that will allow previously non-buildable sites to become buildable and 2) the conclusion from the environmental analysis (Section 3) that Lake Auburn will arrive at a tipping point of declining water quality by 2100 even in the absence of any pro-development changes (i.e.,

the "Business As Usual" scenario). Indeed, our buildout analysis determined that more than 100 additional new homes could be built in the watershed if the septic system siting requirement for 36 inches of suitable in-situ soil were revised.

To address this apparent contradiction, we argue that the septic design standard should be judged not only by its adherence to the best available science but by its simplicity, straightforwardness, and fairness. The key questions are: does the existing septic design standard accomplish its stated purpose of regulating septic systems effectively for water quality protection, or is its water quality benefit primarily in its de facto restriction of buildable areas in the watershed? Are there improvements that could be made to achieve the stated goal? With our recommended revision, we aim to have the septic design standard achieve its stated purpose of effectively regulating both new septic system construction and replacement/reconstruction of existing septic systems as they age out, so that septic systems with alternative technologies and innovative phosphorus controls can be phased in. Restrictions on developable land are better left to base and resource protection zoning than to septic design standards.

The project team also noted in conversations with multiple Lake Auburn stakeholders a concern about an unintended consequence of the requirement in the current ordinance for 36 inches of suitable in-situ soil to site a septic system. The concern is that this requirement for deep, native soils has led to the preferential siting of some septic systems on deep formations of sand and gravel aquifer, which provide some of the only suitable sites in the watershed with the requisite depth to bedrock, water table, or other restrictive layer. While our team did not conduct any field assessments, witness this condition firsthand, or review any documentation of this condition, we agree with the premise that these sand and gravel formations should not be considered suitable sites for septic systems, at least without the importation of suitable reactive soils for nutrient and pathogen processing that the recommended ordinance revisions would allow. Adopting the Maine State standards while preserving the minimum 36-inch vertical separation would alleviate the potential for this unintended consequence.

Environmental risk and uncertainty: The risk of deteriorating water quality threatening Lake Auburn's ability to remain a high quality public drinking water supply is a throughline of this entire study. In its simplest terms, risk is the probability of a negative outcome, though the severity of the negative outcome in question is usually included when evaluating that risk. A high risk of a minor inconvenience (e.g., the risk of getting caught in traffic if leaving downtown Boston by car at 5:00 PM on a business day) requires minimal forethought, while a low risk of major damage (e.g., the risk of a flood destroying private or public infrastructure from a hurricane or Nor'easter) requires extensive planning and preparation. Uncertainty is the degree to which the risk cannot be quantified, due to a number of factors, such as insufficient data about existing conditions, insufficient predictive models for the future, and inherent randomness in nature. It is difficult but possible to predict with reasonably low uncertainty the risk of an outcome that has occurred before (e.g., an algae bloom in Lake Auburn). It gets much more difficult to predict the risk of a particular outcome (e.g., a filtration waiver violation in Lake Auburn) if that outcome has never occurred before, because the data and predictive models have not been tested against that outcome in the real world. In this situation, the uncertainty surrounding such an outcome remains relatively high even with excellent data and predictive models.

This study examined Lake Auburn's risk of negative water quality outcomes now and in the future under various scenarios, though with considerable uncertainty due to a number of confounding or unknown factors. However, we can say with certainty that all additional development raises the risk of water quality degradation, whether due to phosphorus loading, pathogens from subsurface wastewater disposal, emerging contaminants such as pharmaceuticals and personal care products, etc. Even if the increased risk resulting from any individual parcel-scale decision is small, the aggregate impact of thousands of individual decisions over the coming decades is what matters.

From a risk management perspective, the entire spectrum of outcomes should at least be understood, including the least probable, most negative outcome (i.e., the worst-case scenario). The worst-case scenario would be that Lake Auburn's water quality would deteriorate past the point of useful public drinking water supply. Phosphorus enrichment to the point of having uncontrolled algae blooms every year, with cyanobacteria and associated cyanotoxins, would be the most likely condition of such a worst-case scenario. If this unlikely but highly undesirable scenario were to occur, Auburn and Lewiston would be forced to consider other alternatives that previously would not have been seriously deliberated, such as drawing upon the Androscoggin River for drinking water. The cost of this worst-case scenario was not evaluated in our economic analysis because our environmental models do not predict conditions to deteriorate to that degree under the chosen scenarios. But in managing environmental risk, this unlikely but highly undesirable outcome should be included in the overall picture of Lake Auburn's possible future.

Comparable water utilities: Comparison of Lake Auburn and LAWPC/AWD/LWD with other water sources and utilities is illustrative of their strengths, weaknesses, and projected future needs (Table 5-1). Lake Auburn's key

Table 5-1. Lake Auburn and comparable water supply lakes and ponds in Maine.

Waterbody	Water Utility	Waterbody Surface Area (acres)	Watershed Area (acres)	Communities Served	Watershed Communities	Filtration Waiver?
Lake Auburn	Auburn Water District	2,277	9,651	Auburn, Lewiston, Poland	Auburn, Turner, Minot, Hebron, Buckfield	Yes
China Lake	Kennebec Water District	3,939	16,704	Waterville, Winslow, Fairfield, Benton, Vassalboro, Maine Water Company - Oakland	Vassalboro, China, Albion	No
Sebago Lake	Portland Water District	29,992	234,000	Portland, South Portland, Westbrook, Falmouth, Cumberland, Cape Elizabeth, Gorham, Windham, Scarborough, Raymond	24 municipalities (Androscoggin, Cumberland, Oxford counties)	Yes
Floods Pond	Bangor Water	635	4,600	Bangor, Eddington, Hampden, Hermon, Orrington, Clifton, Veazie, Hampden Water District	Otis, Clifton	Yes

comparables are China Lake, which supplies the Kennebec Water District (KWD) serving Waterville and surrounding communities; Sebago Lake, supplying the Portland Water District (PWD); and Floods Pond, used by Bangor Water, an independent water utility, to serve Bangor and surrounding communities.

China Lake is nearly double the size of Lake Auburn, with a 3,939-acre lake surface and a nearly 17,000-acre watershed, but the lake divides into two basins nearly equal in size, the west basin and the east basin. The KWD has a water supply in-take located in the west basin, where the shoreline is mostly under KWD control and managed as water supply protection land. The east basin is nearly all under private ownership and has much more shoreline development. The China Lake Outlet Stream, the only outlet of the entire lake, is in the west basin at the dam in Vassalboro. Considered by itself, the west basin is very similar to Lake Auburn in terms of shoreline and watershed management - mostly forested, under public water utility control, with universal restrictions on swimming and bodily contact but with limited recreational fishing allowed. Like Lake Auburn, China Lake serves one community within the lake watershed (Vassalboro) and several communities outside its watershed (Waterville, Winslow, Fairfield, Benton, and the Maine Water Company in Oakland), while the upper watershed towns of China and Albion do not use KWD water.

The key difference between China Lake and Lake Auburn is that China Lake has experienced algae blooms nearly every summer since the 1980s. Blooms were more severe through the 1980s and 1990s, and since the early 2000s, there have been some trends of improvement, including coldwater fish species survival. Since 1993, KWD has filtered the drinking water supply using a granular activated carbon filtration system capable of producing up to 12 MGD, though current demand stands at 3 MGD. The plant was constructed in the early 1990s for a cost of roughly $25 million. According to KWD Superintendent Roger Crouse, P.E., if water quality were to decline significantly from its current stable state, such as increased algae blooms and turbidity, KWD would have to change their operations to handle the lower quality in-take water (R. Crouse, pers. comm). The carbon filters would need to be backwashed more frequently, and the additional backwash water would need to be accommodated somehow in the existing lagoons or else the lagoons would need to be expanded at significant cost. The alum dose used to pretreat the water before filtration would also need to be raised. The key takeaway is that decreased in-take water quality at a filtration plant taxes the system, raises the volume of the waste stream, and adds significant cost and complexity to the treatment process, meaning that water supply managers cannot forgo water quality protection efforts simply because a filtration system is in place.

Sebago Lake is the public drinking water supply source used by the PWD to supply Portland, South Portland, Westbrook, and surrounding Greater Portland communities - roughly one sixth of Maine's population. The lake is roughly 10 times the size of Lake Auburn, with a surface area of nearly 30,000 acres and a watershed area of 235,000 acres. Sebago is the deepest lake in New England at 316 feet at its deepest point. Like Lake Auburn, Sebago Lake qualifies for a filtration waiver owing to a history of excellent water quality. The existing disinfection plant has a production capacity of 54 MGD and currently experiences a demand of 22 MGD. With such a large water supply lake, the capacity of the plant will be exceeded long before any concern of safe yield from the lake arises.

Land use in the Sebago Lake watershed is largely composed of private forestlands. The PWD owns 2,500 acres (or about 1% of the watershed), with 800 acres of mostly shoreland designated as 'No Trespassing' and 1,700 acres of land designated as free for public access for many forms of recreation. Another 28,000 acres are owned or

managed by land trusts. The water supply in-take is at the far southern extent of the lake in the Lower Bay. A 3,000-foot 'No Trespassing' zone surrounds the in-take, and no bodily contact is allowed within two miles of the in-take. Boating, fishing, snowmobiling, and ice fishing are allowed within the 2-mile limit but not within the 3,000-foot limit. Overall, the restricted area is very similar in size and structure to that of Lake Auburn (with the exception that the on-ice activities are not allowed on Lake Auburn). Taking Sebago Lake as a whole, however, the major difference with Lake Auburn is that Sebago's Lower Bay comprises a small fraction of the overall lake, the rest of which has no special swimming or boating restrictions for water supply.

Sebago Lake and its watershed are located many miles away from the service areas of the PWD. This geographical separation means that the communities served by PWD have no ability to enact land use controls on the lakeshore or in the watershed, unlike the situation in Lake Auburn where the City of Auburn can use its zoning ordinances to enact protections for the shorefront and watershed. It is likely that this lack of control over Sebago Lake's upper watershed has spurred the PWD to focus on cooperation with land trusts and private forestland owners to conserve tracts of land. As an example, PWD Environmental Services Manager Paul Hunt told the project team that the PWD is part of a partnership, Sebago Clean Waters, that seeks to raise the total amount of land conserved (and managed at least partly for water supply protection) from the current 12% of the watershed to 25% in the next 15 years (P. Hunt, pers. comm).

In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Floods Pond in Otis, Maine has been the public water supply source for Bangor Water, the independent water district that serves Bangor and surrounding communities since 1959. At 635 acres of surface area, surrounded by a 4,600-acre watershed in Otis and neighboring Clifton, Floods Pond is less than half the size of Lake Auburn. Maximum depth is similar at 133 feet. Like Lake Auburn, Floods Pond also qualifies for a filtration waiver owing to its historically excellent water quality.

Land use in the Floods Pond watershed is largely controlled by Bangor Water, which owns or holds landowner agreements to manage 4,500 acres or more than 99% of the watershed land area. There is no public access to Floods Pond, which is home to a native population of Arctic char (Salvelinus alpinus), a coldwater fish species closely related to both salmon and lake trout that has been used by the Maine Department of Inland Fisheries and Wildlife to establish coldwater fish populations in other Maine lakes. Fishing, boating, and swimming are prohibited, as are hiking, wildlife viewing, and hunting in posted areas that include the entire shoreline.

The geography of Floods Pond as a water supply resembles China Lake more than Lake Auburn. The vast majority of Bangor Water customers are in downstream communities (Bangor, Eddington, Hampden, Hermon, and Orrington), while the protected shoreline and watershed areas are in upstream communities that do not use the water. (A small portion of Clifton is served by Bangor Water.) Bangor Water controls nearly all the Floods Pond watershed in Otis and Clifton, 4,500 acres total and more than LAWPC controls in the Lake Auburn watershed. Recreational activities are also much more restricted at Floods Pond than at Lake Auburn. Floods Pond provides a useful comparison point at the more restrictive end of the spectrum that puts the lost tax revenues and recreational opportunities at Lake Auburn in perspective.

To summarize, these comparisons with other water supply lakes demonstrate that the protections surrounding Lake Auburn do not exceed those of China Lake, Sebago Lake, or Floods Pond. The restrictions on recreational opportunities at Lake Auburn are similar to those at other drinking water supplies, including filtered and unfiltered water sources. Similarly, land use restrictions within the Lake Auburn watershed are far from the most prohibitive among the examples discussed, with only 20% of the watershed held or managed as water supply land compared to 99% of the Floods Pond watershed. In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Holistic Recommendations

1. We recommend that the City of Auburn not seek to ease the current resource protection zoning or

consider rezoning portions of the watershed for increased density (e.g., village node-style development). Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed, preferably areas already served by sanitary sewer (for the benefit of nearby water resources such as the Androscoggin River). This recommendation is based on two key findings of this study that are fully elaborated in Section 3:

- Lake Auburn and its watershed are already at or near the key environmental thresholds of 10 parts per billion annual average total phosphorus and 75% forested watershed land cover; and
- The future scenario models showed that easing restrictions on further development in the Lake Auburn watershed would set the lake on a path toward deteriorating water quality, regardless of the beneficial effects of requiring low impact development techniques and without obvious management strategies to combat further declines in water quality.

2. We recommend that the Planning Board and City Council take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. If not acceptable in their current form, the recommended revisions should be reworked and made more practicable but not watered down or fundamentally changed in their intent or effect. These recommended changes represent a move toward simpler, more transparent, more evenly applied regulations that are based on the best available science. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. We recommend that the City of Auburn share the findings of Section 4, Analysis of Economic Impacts, with all partners and stakeholders so that the accounting of aggregate economic impacts of the existing conditions and various future scenarios are used as the basis for an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward. This recommendation is based on the key finding that any net benefits to the City or Auburn residents and taxpayers from expanded residential development in the Lake Auburn watershed would be counterbalanced by additional costs to Lewiston and its residents and taxpayers, in the form of increased costs associated with mitigating declining water quality and decreased benefits from recreation. These findings are fully elaborated by Section 4 of this report. As a next step in this planning process, we recommend that a scenario be modeled and run through a benefit cost analysis that meets the target water quality goal for Lake Auburn, which was not possible in the future scenarios modeled in this study when considering Auburn-only changes to regulations and management approaches. Developing a scenario that meets the water quality goal may require several iterations. The scenario should likely expand the existing Lake Auburn Watershed Overlay District to the upper watershed towns, require implementation of low impact development techniques on new development watershed-wide, and account for septic design standard changes.

4. We recommend that the City of Auburn, City of Lewiston LWD, AWD, and LAWPC fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed (Turner, Minot, Hebron, and Buckfield) to control development and limit phosphorus loading. Historically, LAWPC has been an active player in fostering collaborative action between the local governments, with representation from the upper watershed towns. This recommendation is based on the key finding from this study that Auburn alone cannot accomplish sufficient phosphorus load reductions to prevent deteriorating water quality in Lake Auburn, but will require active participation from the upper watershed towns. This finding is fully elaborated in Section 3.

5. We recommend completing a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both AWD and Bates College in the Lake Auburn watershed. Identify gaps based on weaknesses and assumptions for the model. From the review and gap analysis, devise a robust long-term water quality monitoring plan and annual cost estimate for Lake Auburn. We also recommend that 1) the AWD hire a full-time, dedicated data management technician for improved management, access, and analysis of collected water quality data; 2) the AWD and LWD continue collaboration with Bates College on student-assisted monitoring; and 3) LAWPC consider creating a technical science advisory board to establish or maintain key local, State, and regional partnerships that can help to provide regular review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the in-take should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. We recommend that the LAWPC coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. We recommend developing a comprehensive natural resource management plan for LAWPC lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection if in the interest of public water supply protection, with multiple management options offered. We also recommend developing natural resource inventories for all LAWPC lands to map critical streams (perennial and intermittent), wetlands, vernal pools, cover types, rare, threatened, and endangered species present, etc. to include in individual natural resource management plans that set management objectives and methods to achieve water resource and wildlife habitat protection for each LAWPC parcel. If timber harvesting continues in the Lake Auburn watershed on LAWPC or private lands, then we recommend a series of actions to minimize forestry impacts to water quality. Refer to Forest Management in Section 3.

10. We recommend that LAWPC work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that LAWPC consider putting all their properties into permanent conservation. These properties are currently protected under the LAWPC by-laws but provide no higher-level legal protection from future development if said by-laws were to be revoked.

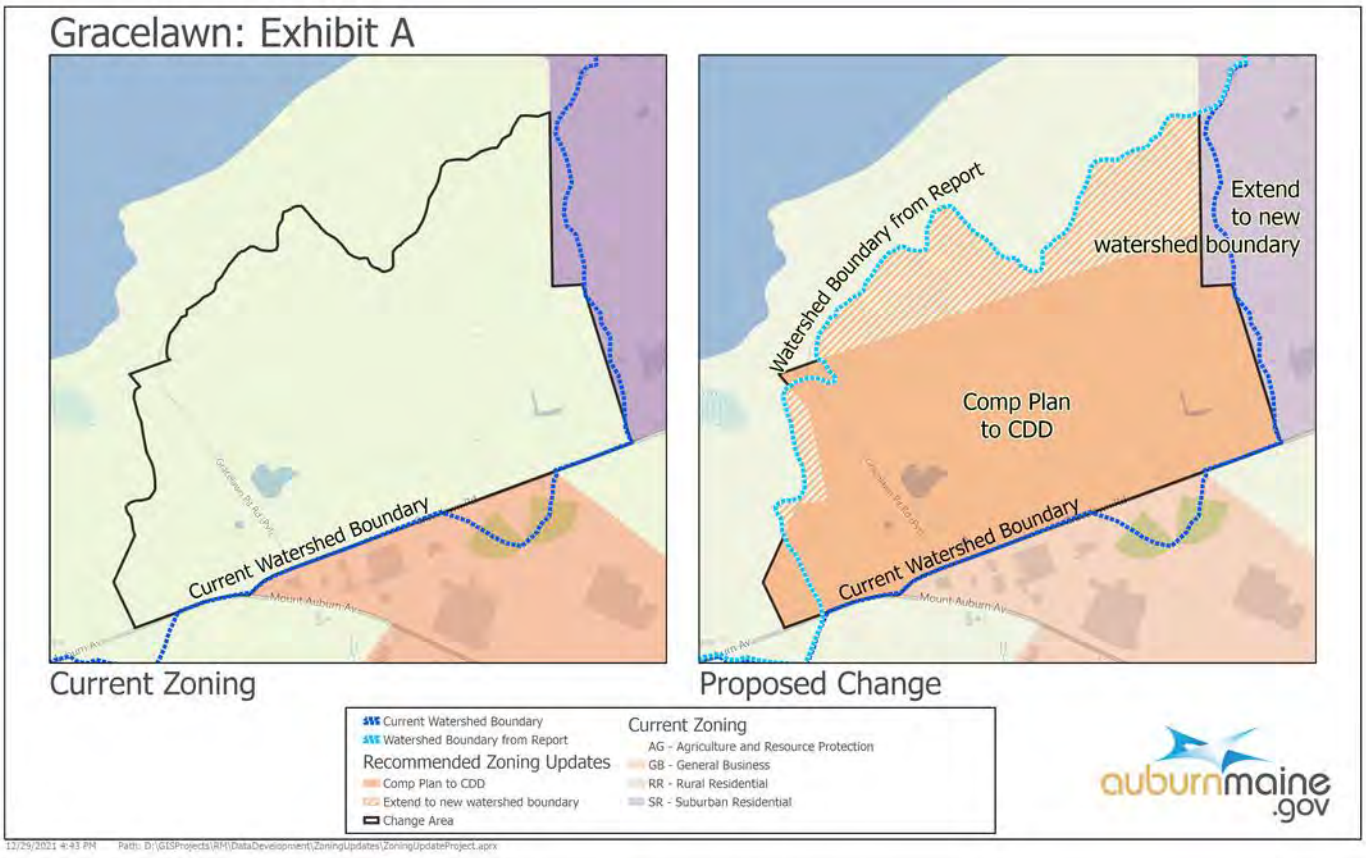
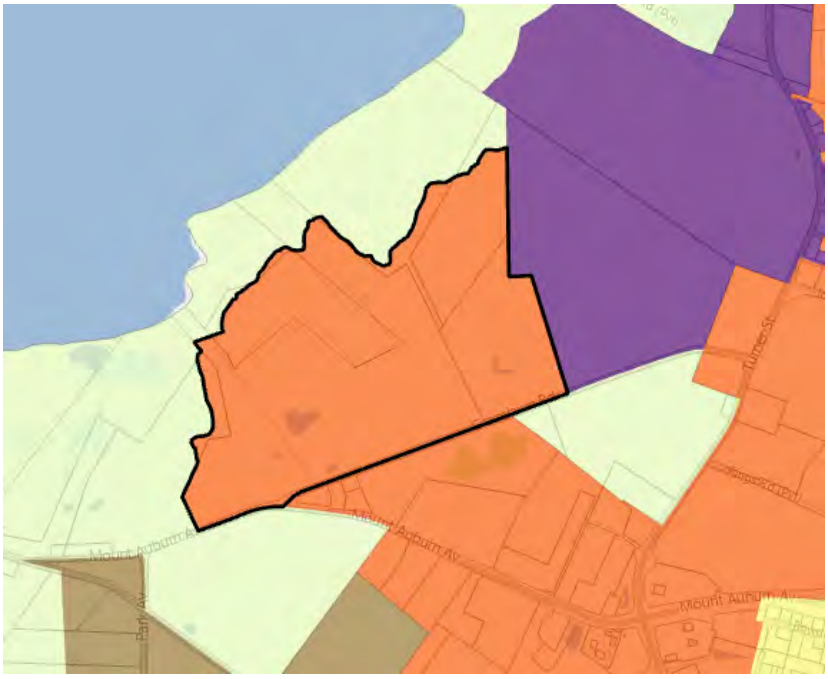
To: Auburn Planning Board
From: Eric J. Cousens, Director
Re: Gracelawn Area Zoning change AGRP to GB and Watershed District Zoning Boundary amendment from the 2021 Updated Comprehensive Plan

Date: February 8, 2022

PROPOSAL: **Gracelawn area;** The Comprehensive Plan recommends adjusting the zoning boundary to allow for reuse of the Gracelawn Gravel Pits for development where they no longer drain to Lake Auburn and shows about 111 acres proposed for the change. The Lake Auburn Study analyzed this further and recommends removing 148 acres from the Watershed based on topography and ground water data. Approximately 37 acres are not shown as Commercial Development District (CDD) in approved FLU mapping because the approximate boundaries for the conceptual change were conservative and were developed before the Lake Auburn Study was completed. We knew a majority of the land was not draining to the lake but the study identified a larger area draining away from the lake and the council approved utilizing the Auburn Lake Watershed Study as part of the Comprehensive Plan Updates. In that study they suggested moving the watershed boundary to match the actual drainage area boundary. From that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary for a total of 148 +/- acres. (See Below Exhibit A.)



Our Comprehensive plan uses some different nomenclature than our existing ordinance for different district names. One goal of the plan updates is to reduce the number of zoning districts by combining similar districts over time. Staff contemplated creating a new district titled CDD as part of this change but instead we recommend moving the existing boundary of the General Business District to include the referenced 148 acres shown on the map. The excerpt below from the Comprehensive Plan provides a description of the CDD. This will make the boundary adjustment to the localized area and leave the combining of the GB and GBII districts for a future discussion without creating and additional zoning District in the interim. As you can see the CDD text recommendations will eventually combine the two districts and will require notification to the entirety of the GB and GBII zoning districts and a public hearing to discuss that as a future separate item.



COMMERCIAL DEVELOPMENT DISTRICT (CDD)(Excerpt from Comprehensive Plan)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- *Low and High Residential Density Uses*
- *Retail uses including large-scale uses (>100,000 square feet)*
- *Personal and business services*
- *Business and professional offices*
- *Medical facilities and clinics*
- *Restaurants*
- *Hotel, motels, inns, and bed & breakfast establishments*
- *Low and High-Density Residential Uses*
- *Community services and government uses*
- *Research, light manufacturing, assembly, and wholesale uses*
- *Truck terminals and distribution uses*
- *Contractors and similar activities*
- *Motor vehicle and equipment sales*
- *Motor vehicle service and repair*
- *Recreational and entertainment uses and facilities*

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

The current proposal also includes an adjustment of the Lake Auburn Watershed District Zoning Overlay to match what science has shown us to be the actual drainage boundary to the physical Lake Auburn Watershed. The revised boundary is shown as a blue line in the map on the previous page titled Proposed Change. A copy of the Lake Auburn watershed Study Pages recommending this change is attached. The Lake Auburn Watershed Boundary is defined in our ordinance as follows:

Sec. 60-951. Boundaries and definitions.

The Lake Auburn Watershed District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the city water district on file in the office of the city water district, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed District.

The district, by definition, should match the actual drainage boundaries and we now have information that confirms that the existing Watershed District Map includes land that does not drain to the Lake.

PLANNING BOARD ACTION/STAFF SUGGESTIONS: Staff suggests a planning board discuss the proposals and hold a Public Hearing on February 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes, 1: That the Lake Auburn Watershed Overlay Zoning Boundary be adjusted as shown in the Lake Auburn Watershed Study(and on the attached Map); and 2 that the General Business Boundary be adjusted to include the 148 acres shown on the map based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area to include the area proposed on the map with a minor difference to follow existing property boundaries. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The two small areas inside the watershed will be required to drain internally (out of the watershed) or meet phosphorus control standards.
3. The current Boundary of the Lake Auburn Watershed District Overlay Zoning Boundary has been shown to be different than the actual drainage boundary based on the Lake Auburn Watershed Study's analysis of topography and groundwater movement in the area and should be adjusted as proposed to match the physical drainage boundaries of the watershed.
4. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

ORDINANCE 08-03072022

City Council Ordinance

IN CITY COUNCIL

Amending the Zoning Map and Adjusting Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District Map

Be it ordained, that the City Council approve the amendment to the Zoning Map of 148 acres of Agriculture and Resource Protection (AG) to General Business (Parcel ID 289-001 and 289-002) of the Zoning Map and adjust the Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District map as proposed in the 2021 FB Environmental Report known as Lake Auburn- A Regulatory, Environmental, and Economic Analysis of Water Supply Protection.

City Council Information Sheet

Council Workshop or Meeting Date: March 7, 2022 **Ordinance:** 09-03072022

Author: Eric J. Cousens, Director Planning & Permitting

Subject: **Washington Street Gateway Area:** 240 +/- acres from General Business to Formed Based Code Downtown Traditional Center; T-5.1. and approximately 9.63 acres of Industrial Land to Downtown Traditional Center; T-5.1 for the inclusion of the specific lot PID 199-052.

Information: See attached Staff Report for details. Staff suggests that the Council discuss the proposals and hold a Public Hearing. The Planning Board forwarded a positive recommendation to the Council supporting the proposed changes at the February 8, 2022 Meeting, The recommendation included that the proposed boundary be adjusted from General Business to Downtown Traditional Center; T-5.1. The total amendment includes 240 +/- acres shown on the map (exhibit B in attached staff report) based on the following findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Base Code zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-5.1.

2. The area has available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads).

3. The proposal can be implemented without detriment to city resources.

4. The 2010 and now 2020 Comprehensive Plan recommends this area as the gateway to the City of Auburn with a proposed revitalization of a welcoming, pedestrian friendly, business friendly and mixed-use area.

City Budgetary Impacts: None Currently, potential increased investment and tax revenues over time.

Staff Recommended Action: Hold Public Hearing and approve first reading.

Previous Meetings and History: December 6, 2021 Comprehensive Plan adoption and January 3, 2022 workshop.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Re: Findings and Reasons for the recommendation to the Council on a Proposed Amendment to the Washington Street Gateway Area: 240 +/- acres from General Business to Formed Based Code Downtown Traditional Center; T-5.1. and approximately 9.63 acres of Industrial Land to Downtown Traditional Center; T-5.1 for the inclusion of the specific lot PID 199-052.

Date: February 8, 2022 Planning Board Meeting Recommendation to City Council

The Planning board discussed the proposal and held a Public Hearing on February 8, 2022. The Planning Board voted unanimously to forward a positive recommendation to the Council supporting the proposed changes, That the proposed boundary be adjusted from General Business to Downtown Traditional Center; T-5.1. The total amendment includes 240 +/- acres shown on the attached map (exhibit B) based on the following findings.

FINDINGS AND REASONS:

1. The 2021 Comprehensive Plan recommend expanding the Formed Base Code zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-5.1.
2. The area has available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads).
3. The proposal can be implemented without detriment to city resources.
4. The 2021 Comprehensive Plan recommends this area as the gateway to the City of Auburn with a proposed revitalization of a welcoming, pedestrian friendly, business friendly and mixed-use area.

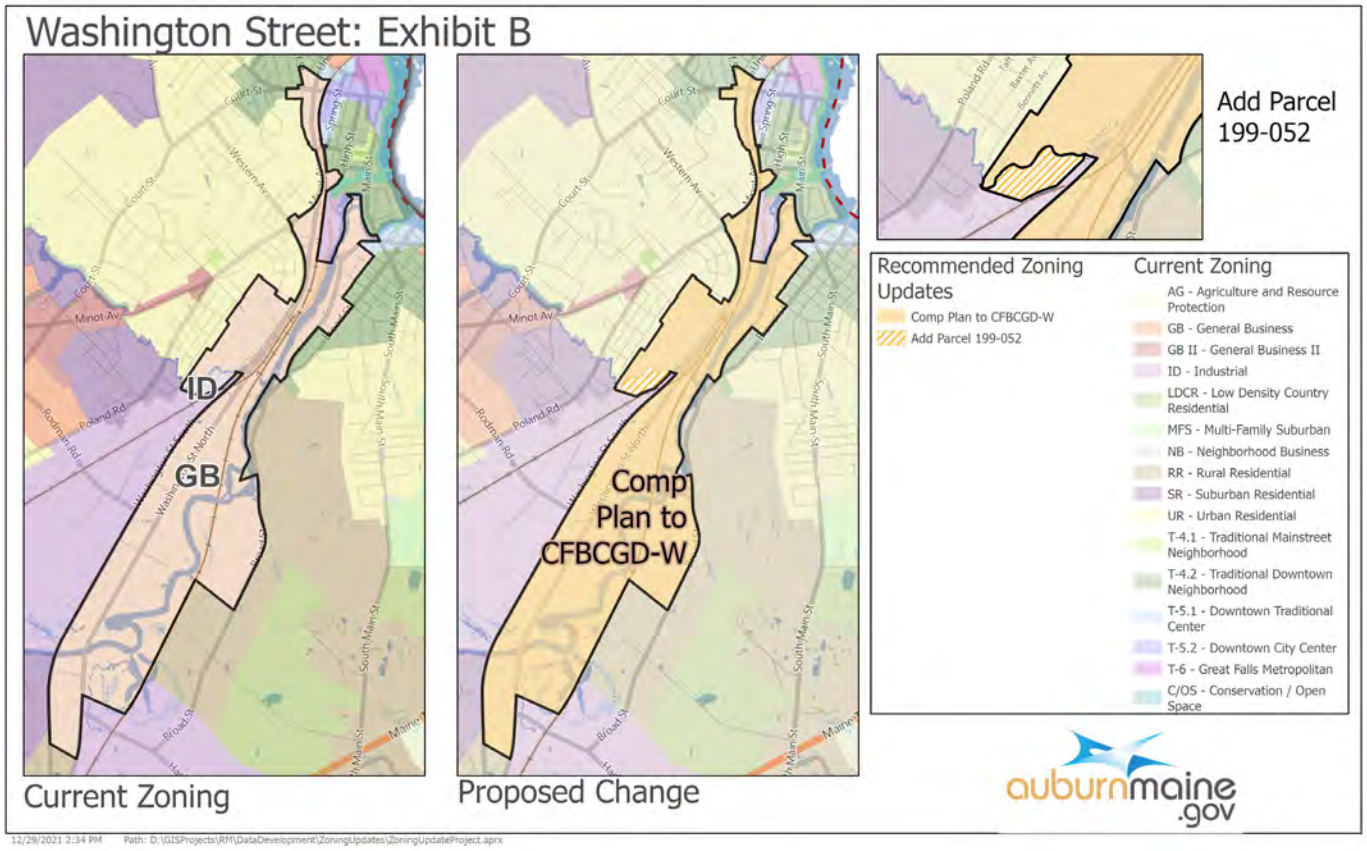
Re: Public hearing Washington Street area zoning considerations from 2021 Updated Comprehensive Plan

Date: February 8, 2022

PROPOSAL: **Washington Street Area;** 240 +/- acres from General Business to Formed Based Code Downtown Traditional Center; T-5.1. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052. (See below Exhibit B.)



COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)T-5.1.

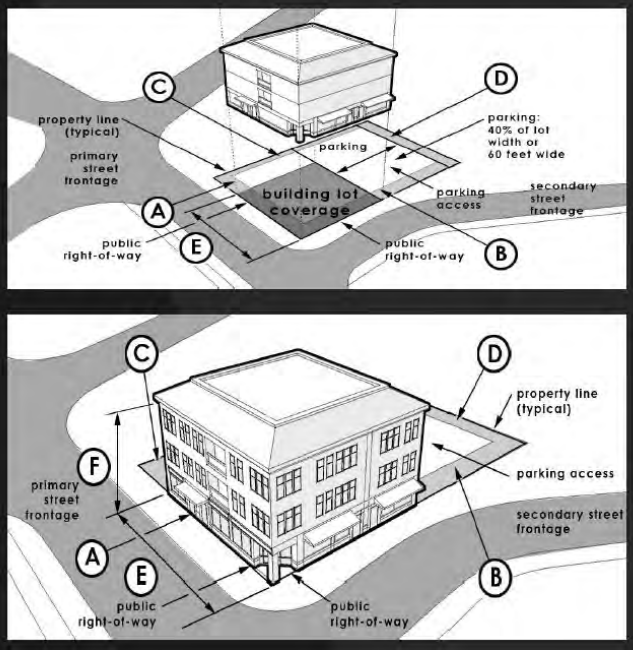
Objective – Without creating a new district staff proposes to use **Formed Based Code Downtown Traditional Center; T-5.1**, to allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and

character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the city. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update. The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi dwelling development with up to three stories (plus attic space), with multiple commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited, and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

Examples of Downtown Traditional Center T-5.1



PRINCIPAL BUILDING PLACEMENT:

Front Setback, Principal:	0 ft. Min., 10 ft. Max.	(A)
(Corner Lot) Front Setback, Secondary:	0 ft. Min., 10 ft. Max.	(B)
Side Setback:	0*—5 ft. Min.	(C)
	*Subject to Building Permit Approval	
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	75% Max.	
Useable Open Space:	5% Min.	
Frontage Build-Out:	75% Min. along Front Setback, Primary	
Lot Width:	24 ft. Min, 160 ft.Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 150 ft. Max.	(E)
Building Height Minimum:	2 Story Min. (F)	
Building Height Maximum:	4 Story Max. (excluding attic story)	(F)

I. PLANNING BOARD ACTION/STAFF SUGGESTIONS: Staff suggests a planning board discuss the proposals and hold a Public Hearing on February 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes, That the proposed boundary be adjusted from General Business to Downtown Traditional Center; T-5.1.

The total amendment includes 240 +/- acres shown on the map (exhibit B) based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now 2021 Comprehensive Plan recommend expanding the Formed Base Code zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-5.1.
2. The area has available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads).
3. The proposal can be implemented without detriment to city resources.
4. The 2010 and now 2020 Comprehensive Plan recommends this area as the gateway to the City of Auburn with a proposed revitalization of a welcoming, pedestrian friendly, business friendly and mixed-use area.

II. *Suggested Motion:* I make a motion to recommendation to City Council to amend the proposed boundary be adjusted from General Business to Downtown Traditional Center; T-5.1 the total amendment includes 240 +/- acres shown on the map as Exhibit B.

ORDINANCE 09-03072022

City Council Ordinance

IN CITY COUNCIL

Amending the Zoning Map (Washington Street/Minot Avenue area) from Industrial to Formed Based Code Downtown Traditional Center T-5.1.

Be it ordained, that the Auburn City Council approve an amendment to the Zoning Map to include the areas along Washington Street and Minot Avenue totaling approximately 240 +/- acres to be changed from General Business to Formed Based Code Downtown Traditional Center T-5.1. and including approximately 9.63 acres (PID 199-052) from Industrial to Formed Based Code Downtown Traditional Center T-5.1 as shown on the attached Exhibit B Map.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 7, 2022 **Ordinance**: 10-03072022

Author: Eric Cousens, Director Planning & Permitting

Subject: Update to Phosphorus Ordinance Sec. 60-1070 Submission Requirements

---

Information: This change addresses utilization of the most current design standards set forth by Maine Department of Environmental Protection to treat phosphorus export for a project or projects over 575 square feet of ground floor area within the Taylor Pond and Lake Auburn watershed. The technical guide for design standards of Phosphorus Control Best Management Practices will be updated from the May 1990 to the March 2016 version.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016. Link Below:

https://www.maine.gov/dep/land/stormwater/stormwaterbmps/vol2/volume%20II%20March%202016.pdf

These changes allow for implementation and design of low impact development (LID) techniques that allow for more flexibility and greater water quality protection in the two watersheds.

City Budgetary Impacts: None Currently

Staff Recommended Action: Hold Public Hearing and vote to approve first reading.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Re: Findings and Reasons for the recommendation to the Council on a Proposed Amendment to Update Phosphorus Ordinance Sec. 60-1070 Submission Requirements

Date: February 8, 2022 Planning Board Meeting

The Planning Board forwarded a positive recommendation to the Council on this proposal at the February 8, 2022 Planning Board meeting.

The Board recommended that the Council amend Chapter 60, Article XII, Division 2, Section 60-1070 of the Auburn Code of Ordinance to update to require that all projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in the design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016 as shown in the attached text.

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in ~~the manual Phosphorus Control and Lake Watersheds A Technical Guide to Evaluating New Development~~ design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016. ~~(Maine DEP et al., September 1989, with the Simple Review Method revised in May 1990).~~

(1) *Plan submission.* Plans shall be submitted and processed in accordance with article XVI of this chapter. In addition to the requirements for submission under this article, the following instructions shall be provided:

a. A long-term maintenance plan for all phosphorus control measures including provisions for inspection and repair, designation of responsible parties, contractual obligations and proposed deed restrictions.

b. Hydrologic soil class of all areas to be cleared or where clearing will be permitted, with the area indicated in square feet of each lot using the appropriate method as described in the phosphorus control manual.

c. All calculations and worksheets in the format of those contained in the phosphorus control manual and detailed construction specifications and diagrams for all control measures.

d. A comprehensive erosion and sedimentation control plan, designed in accordance with the Maine Erosion and Sediment Control Handbook for Construction: Best Management Practices, March 1991, and all building and environmental protection requirements of this Code.

(2) *Review method.*

a. All projects shall use the standard review method and shall conform to the Phosphorus Allocation standard set forth in this division including the following: Expansions of four lot subdivisions which were previously approved using the simple review method.

b. Projects meeting the following criteria may employ the simple review method:

1. Minor subdivisions with four or fewer lots provided that these developments contain less than 200 feet of new or upgraded roads and/or all driveways serving residential uses are less than 150 feet in length.

2. Activity which includes less than 200 feet of new or upgraded road construction.

(3) *Commercial and industrial development and expansions.* Commercial and industrial development and expansions of commercial and industrial developments and the expansion of multifamily dwelling units, which involve less than 15,000 square feet of disturbed area. All other subdivisions including expansions of previously approved four-lot subdivisions which were reviewed using the simple review method and all other projects shall utilize the standard review method.

Council Workshop or Meeting Date: March 7, 2022 **Order:** 36-03072022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Initiate the discussion of Zoning Considerations from 2021 Updated Comprehensive Plan - Next Steps

---

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. At the January 3rd Council meeting the Council initiated four discussions that are currently underway and coming back to Council for Votes and Public Hearings. We do not have capacity to consider all the changes at once, but we plan an ambitious effort to have changes under consideration going forward. This action will set the next priority changes with a focus on residential options within the residential the core of the City. Below are changes that staff suggests we start discussing by having the Council initiate their consideration pursuant to Chapter 60, Article XVII Division 2 of City Ordinances. Initiation of these discussions will direct staff to draft the amendments and forward them to the Planning Board for a public Hearing and recommendation back to the Council on how to proceed.

Consider expanding the Traditional Neighborhood Development District to 4 areas of the City as defined in the Comprehensive Plan. These are areas that are served by or located near public sewer and/or water services. Where water or sewer are not made available by the developer, density will be further restricted by the plumbing code and site constraints until services are extended. Staff also wishes to work with the planning Board on two items within the form based codes to allow better access to available public parking for new residential developments and flexibility on building orientation towards private drives and parking areas rather than limiting orientation towards the public roads in the case of larger multi-building developments.

Comprehensive Plan Future Land Use Text:
https://www.auburnmaine.gov/CMSContent/Planning/Comp%20Plan/APPROVED%20061621%20FUTURE%20LAND%20USE%20PLAN.pdf
Comprehensive Plan Future Land Use Map:
https://auburnme.maps.arcgis.com/apps/webappviewer/index.html?id=cc0ca6f5ab43411f89085a250f07c119

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)
Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

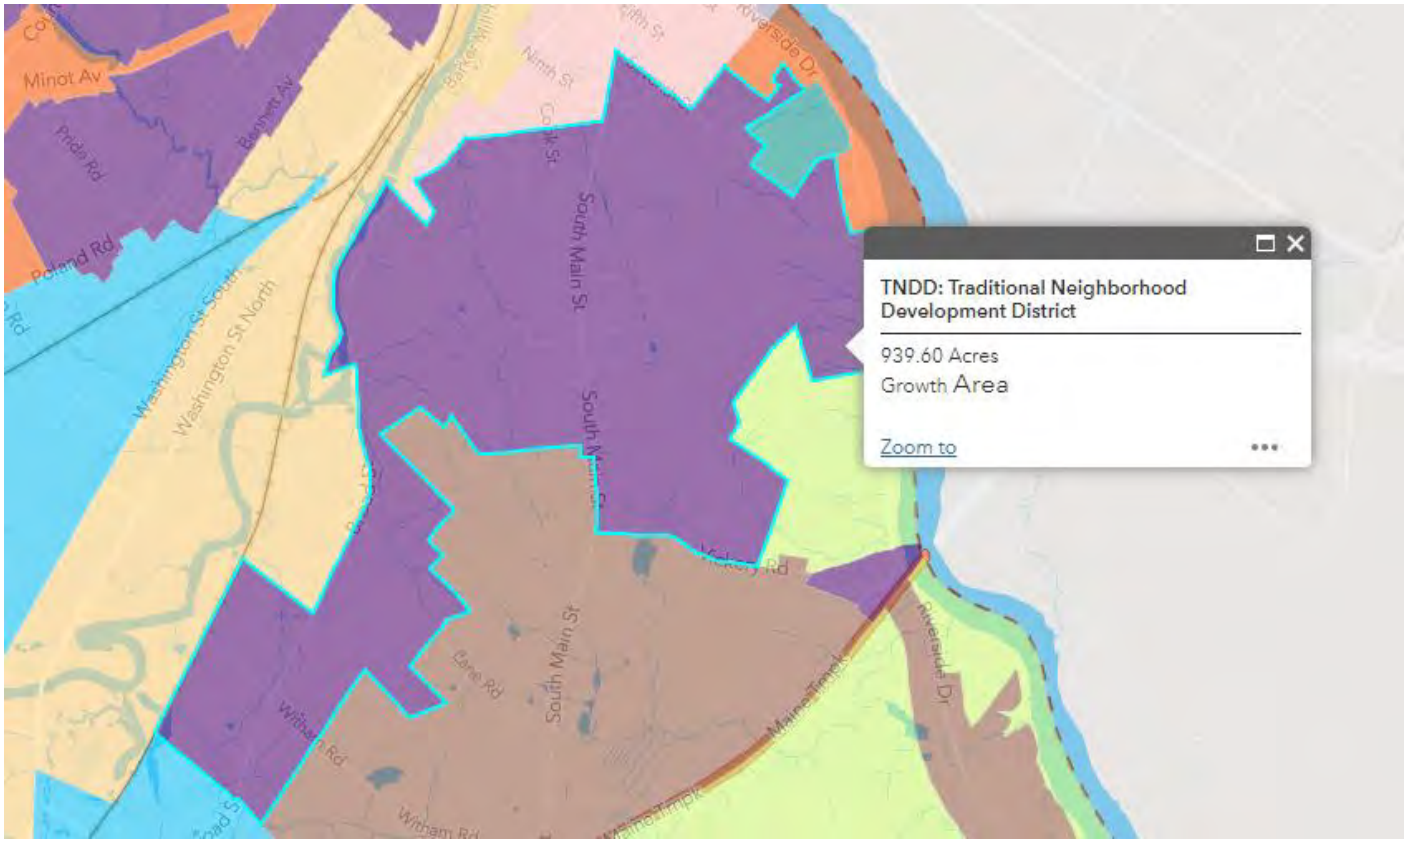
Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Areas:

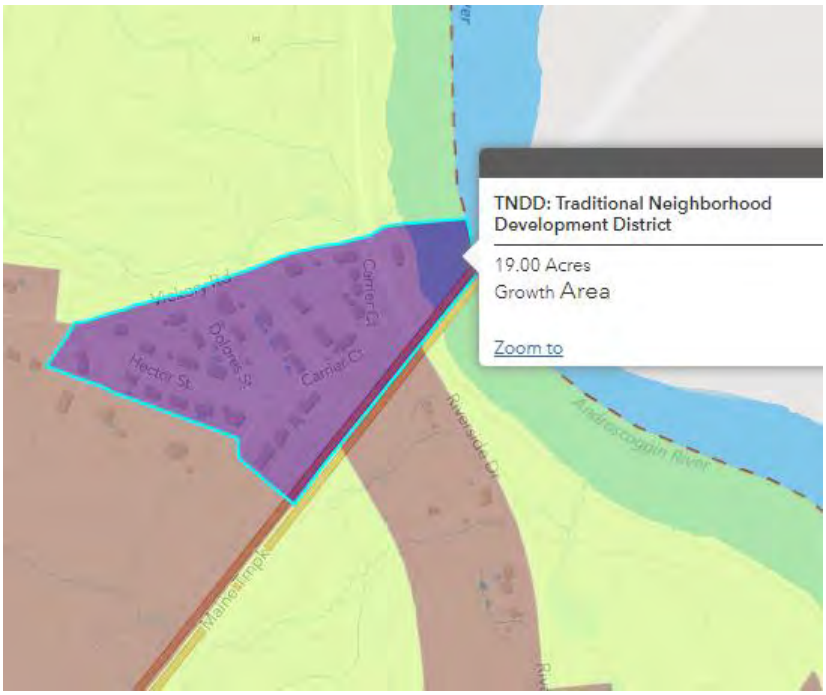
a. <u>New Auburn and Broad Street Traditional Neighborhood District Form Based Code Expansion</u>



Initiate consideration of the Comprehensive Plan recommendation to expand the T.4.2 Traditional Downtown Neighborhood to the New Auburn Urban Residential Areas and to Broad Street as outlined on the adjacent Map. The area includes 936 acres within a designated Growth Area.

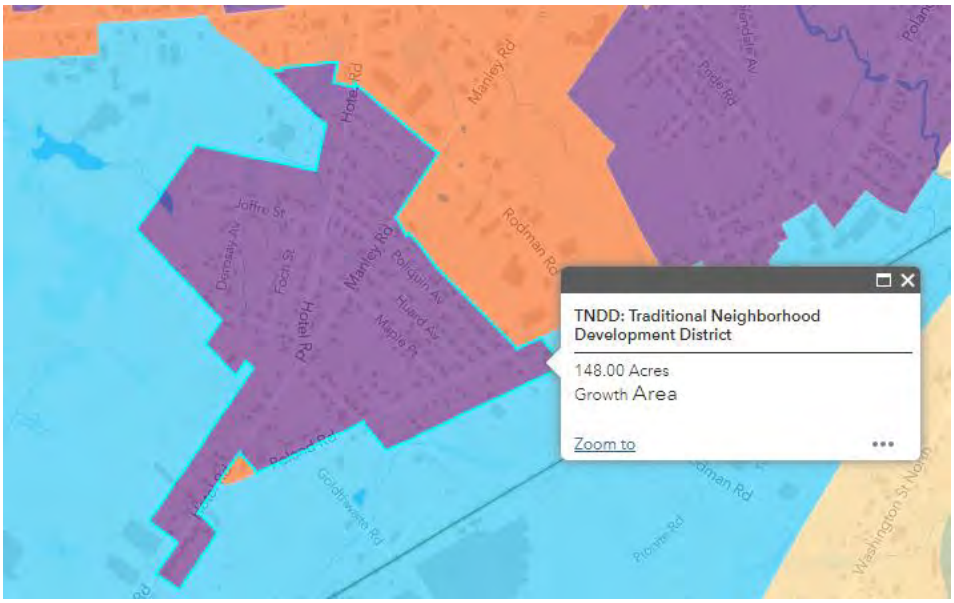
b. <u>Vickery Road Traditional Neighborhood District Form Based Code Expansion</u>

Initiate consideration of the Comprehensive Plan recommendation to expand the T.4.2 Traditional Downtown Neighborhood to the Vickery Road area as outlined on the adjacent Map. The area includes 19 acres within a designated Growth Area.



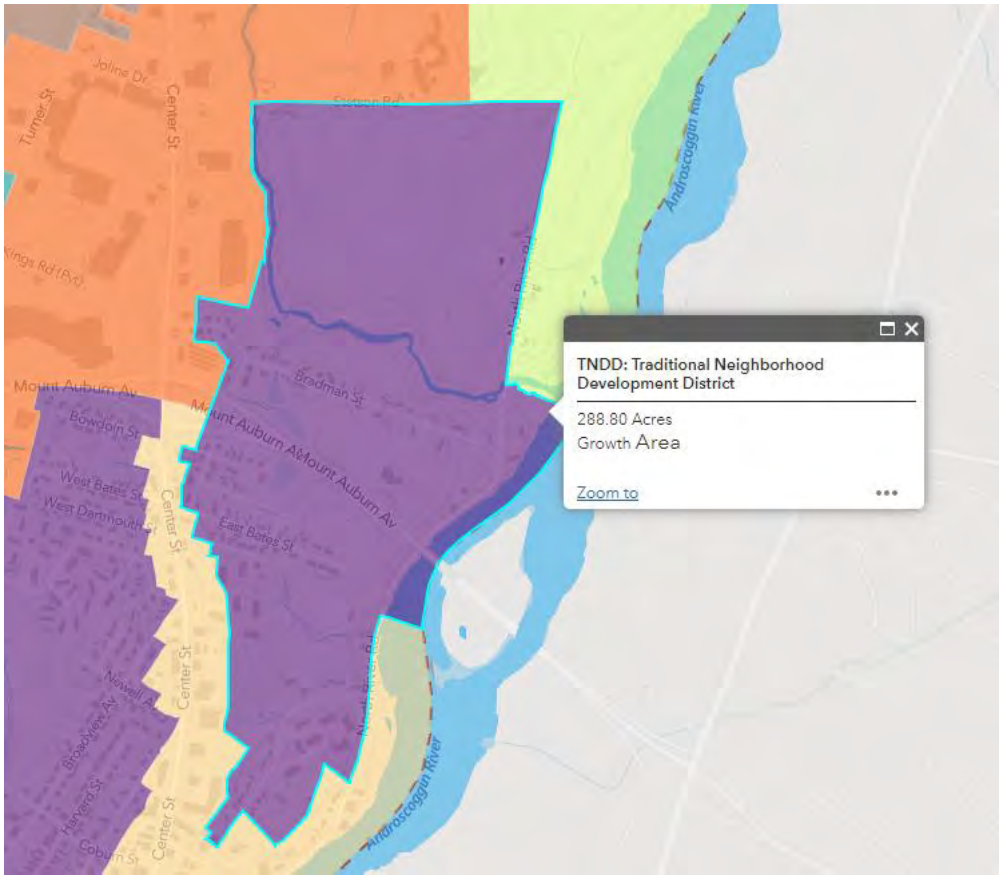
c. <u>Poland/Manley/Hotel Road Traditional Neighborhood District Form Based Code Expansion</u>

Initiate consideration of the Comprehensive Plan recommendation to expand the T.4.2 Traditional Downtown Neighborhood to the Poland/Manley/Hotel Road Residential area as outlined on the adjacent Map. The area includes 148 acres within a designated Growth Area.



d. <u>Bates, Bradman, Stetson Traditional Neighborhood District Form Based Code Expansion</u>

Initiate consideration of the Comprehensive Plan recommendation to expand the T.4.2 Traditional Downtown Neighborhood to the Bates, Bradman, Stetson Road Residential area as outlined on the adjacent Map. The area includes 288 acres within a designated Growth Area.



City Budgetary Impacts: Up to $7,000 in approved Comprehensive Plan Implementation funds for mapping and analysis services and the substantial cost of mailing abutter notices with large area changes. The changes will result in new investment and create new taxable value.

Staff Recommended Action: Direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council.

Previous Meetings and History: December 6th Council adoption of the Comprehensive Plan.

City Manager Comments:

City Council Information Sheet

Council Workshop or Meeting Date: March 7, 2022 **Order:** 37-03072022

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Business and Community Development Office Move

Information: The City of Auburn has been awarded a Lead Hazard and Healthy Home Grant as well as an increase in HOME funds. The grants required the hiring of additional staff for a total of 10 employees. Auburn Hall currently does not have available space to accommodate this additional staff on the first or second floors. Director has looked at five possible locations near Auburn Hall and are recommending relocating the Business and Community Development Department to the fourth-floor north side of 95 Main Street. This space will accommodate up to 12 employees and provide for all department needs for the foreseeable future. In direct response to the Covid-19 pandemic, this move will provide much needed access to our Public Health Services, General Assistance Services, and direct service staff who are assisting homeless or near homeless residents in our community as laid out in our HOME funds budget.

We propose utilizing ARPA funds, not to exceed $500,000., to cover all expenses over the allowable term of the funding.

City Budgetary Impacts: None

Staff Recommended Action: Vote to approve the use of $500,00 in ARPA funds to relocate the Business and Community Development Department.

Previous Meetings and History: NONE

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ARPA FUNDING PROPOSAL

Economic Development Revolving Loan Pool

Many small businesses have suffered due to the COVID-19 Pandemic in our community. As the Directors of Business and Community Development and Economic Development, we propose the City set up a revolving loan fund for our small businesses. For this proposal, We are defining a small business as any business based in Auburn having fewer than 100 employees or gross revenues below five million dollars.

We propose the City set aside five hundred thousand dollars of ARPA funds to create this revolving loan fund. Loans will be limited to no more than one hundred fifty thousand dollars per entity. With a maximum of a six-year repayment term and an interest rate no less than the Wall Street Journal's published Prime Rate on the day of the loan approval (currently 3.25%) and a maximum of that rate plus three percentage points.

The borrower will need to demonstrate the need for the funds to expand the company's production, replace outdated equipment, open a new location in Auburn, or as part of a larger funding package from a traditional lending institution.

The City will be subordinate to any other needed funding and will only take collateral of equipment that it finances alone or greater than eighty percent of the purchase price. All loans will require a personal guarantee from any owner, partner, or investor controlling twenty percent or more of the company.

The City will do everything possible within its rights to collect these debts; however, as these are loans, the funds will be at risk of loss.

We believe we will assist ten businesses in the first 18 months, creating or retaining a minimum of 10 jobs. As the funds are repaid, they will be used to continue this work.

Respectfully Submitted

Glen E. Holmes
Director of Business & Community Development

Jay Brenchick
Director of Economic Development

ORDER 38-03072022

City Council Order

IN CITY COUNCIL

ORDERED, the City of Auburn allocate Five Hundred Thousand Dollars ($500,000) of ARPA Funding to create an Economic Development Revolving Loan Pool conforming to the Rules and Guidance provided by the US Treasury Department.

City of Auburn, Maine
"Maine's City of Opportunity"
Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **January 2022 Financial Report**

DATE: **February 7, 2022**

The following is a discussion regarding the significant variances found in the City's January financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its seventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 58.3% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through January 31st, including the school department were $57,008,701 or 59.73%, of the budget. The municipal revenues including property taxes were $38,628,892, or 59.29% of the budget which is less than the same period last year by 0.12%. The accounts listed below are noteworthy.

A. The current year tax revenue is at 57.84% as compared to 58.17% last year. This is a $59,433 increase over last year. The second payment is due March 15th.

B. Excise tax for the month of January is at 59.05%. This is a decrease of $260,546 over FY 21. Our excise revenues for FY22 are 0.75% above projections as of January 31, 2022.

C. State Revenue Sharing at the end of January is 98.56% or $3,104,618. This is an increase of $1,011,942 over last January.

Expenditures

City expenditures through January 2022 were $31,450,440, or 66.77%, of the budget. This is a decrease of 0.02% less than the same period last year. The percentage of expenditures is lower, but dollars are higher due to the higher budget. Noteworthy variances are:

A. Administration is higher than last year by 2.52%. The major increases are Communications & Technology and Human Resources budgets being higher than last year.

B. Public Safety is higher due to both Police and Fire/EMS are higher.

C. Public Works is higher due to Winter Storm operations and overtime.

Investments

This section contains an investment schedule as of January 31st. Currently the City's funds are earning an average interest rate of 0.15% compared to .58% in 2021.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Financial Reports for January 2022

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Ingersoll Turf Facility for revenue and expenditures as of January 31, 2022.

INGERSOLL TURF FACILITY

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets as of January 31, 2022.

Current Assets:
As of the end of January 2022 the total current assets of Ingersoll Turf Facility were $226,735. This consisted of cash and cash equivalents of $226,735.

Noncurrent Assets:
Ingersoll's noncurrent assets are the building and equipment that was purchased, less depreciation. The total value of the noncurrent assets as of January 31, 2022, were $89,514.

Liabilities:
Ingersoll had no accounts payable as of January 31, 2022, and an interfund payable of $26,583.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Ingersoll Turf Facility through January 2022 are $108,013. This revenue comes from the sponsorships, programs, rental income and batting cages.

The operating expenses for Ingersoll Turf Facility through January 2022 were $85,185. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of January 2022, Ingersoll has an operating gain of $22,828 compared to a net gain in December of $12,868.

As of January 31, 2022, Ingersoll has a increase in net assets of $22,828.

The budget to actual reports for revenue and expenditures, show that the revenue for FY22 compared to FY 21.

Re: Arena Financial Reports for January 31, 2022

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of January 31, 2022.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, December 31, 2020.

Current Assets:
As of the end of January 2022 the total current assets of Norway Savings Bank Arena were ($1,163,208). These consisted of cash and cash equivalents of $269,729, accounts receivable of $157,621, and an interfund payable of $1,590,558.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of January 31, 2022, were $195,258.

Liabilities:
Norway Arena had no accounts payable as of January 31, 2022.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through January 2022 are $606,964. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through January 2022 were $339,065. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of January 2022, Norway Arena has an operating and net gain of $267,899.

As of January 31, 2022, Norway Arena has an increase in net assets of $267,899.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $271,996 more than in FY21 and expenditures in F22 are $33,995 less than last year in January.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 7, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: 3/21/2022

Author: Jennifer Edwards, Public Health Manager

Subject: Project Support You - Co-responder program for Auburn

---

Information: Please see attached PowerPoint which outlines the Project Support You Auburn program being proposed by Public Health along with supporting data showing the need for this program. The program will address the needs of community members experiencing homelessness and housing instability, poor mental health, substance use disorders, and instability while supporting our first responders who are currently on the front lines encountering these complex issues in our community every day.

City Budgetary Impacts: None

Staff Recommended Action: To approve $300,000 in ARPA funds for a two-year pilot program that will provide direct services to improve our response to community needs while collecting data to secure future funding for longer term program sustainability.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

PSY Co-Responder Program

Public Health

Project Support You - Auburn

We are here to request a total of $300,000 in ARPA funds for a two-year pilot of "Project Support You - Auburn," (PSY Auburn)

The program design is based on best practices from other programs used nationally to better meet the needs of individuals struggling with homelessness, mental illness, substance misuse, and access to care while reducing the number of calls for service our police and paramedic teams respond to from frequent system utilizers through diversion to longer term, sustainable, and appropriate support services.

auburnmaine.gov

Program Description

PSY is a "boots on the ground" service that would employ a TCMHS employee to be shared between AFD and APD to respond ***with*** our first responder teams in real time.

The PSY worker will follow-up on needs identified by AFD and APD that would benefit individuals utilizing services and in need of community supports.

Housing insecure youth

For the 2021-2022 school year, as of February 6, 2022, Auburn School Department's McKinney-Vento liaison had identified **58 confirmed students eligible for McKinney-Vento services** and another 22 students that were yet to be confirmed eligible.

The McKinney-Vento Act under federal law ensures homeless youth have access to educational stability and offers resource assistance such as transportation to and from school.

Chief Chase

"Our role as an EMS organization is not only to respond to medical emergencies, but to participate in the overall improvement of the health of our community. Substance use disorders and overdose deaths are quickly become the paramount public health issue. As an organization, and as a City, we need to find additional ways to address this growing public health crisis. This includes dedicating staff and resources with the specialized training needed to support those struggling with substance use disorders."

Robert Chase
Fire Chief, City of Auburn

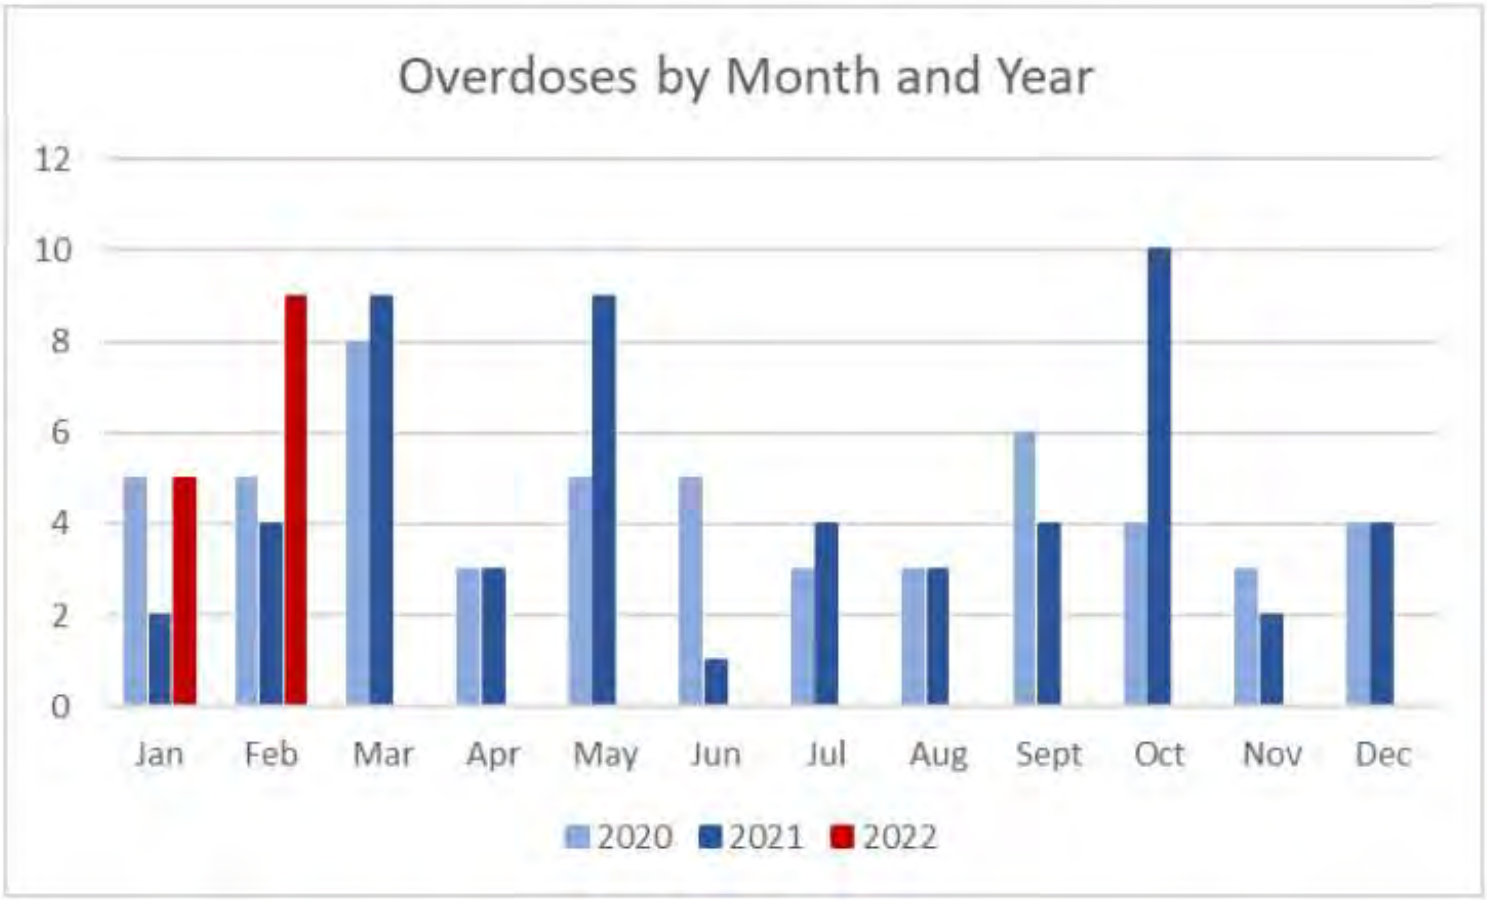
APD OD Data: 2020-2021

In 2021, Auburn PD responded to 55 overdoses at 51 calls for service; there were 54 overdoses in 2020.

- Seven of these 55 overdoses are known to have resulted in a death.
- 28 doses of Narcan were administered directly by Auburn PD to 24 victims at 22 calls for service.

auburnmaine.gov

Feb. 2022 APD Data



Count of Overdoses, by month and year

Source: APD Overdose Report – February 2022, provided by Lt. Harrington of APD

auburnmaine.gov

Currently…

- APD officers have been carrying Narcan since 2018
- APD's participation in Androscoggin County's Drug Take Back days dates back to 2010.
- The med drop box offers a safe place to drop off unused medications in the Auburn police department lobby, which can help prevent prescription drug misuse

Homelessness Crisis Protocol

This program would also come at a critical time for APD, as they work to comply with the new Homelessness Crisis Protocol provided by the Attorney General to meet requirements of 17-A M.R.S. §18 [PL 2021, c. 393, §1].

Our officers regularly respond to calls from community members concerned about unhoused individuals in our community, living on the streets, tenting on private or public property, and looking for a place to stay warm during the cold winter months when the limited shelters available in Lewiston and Auburn are full.

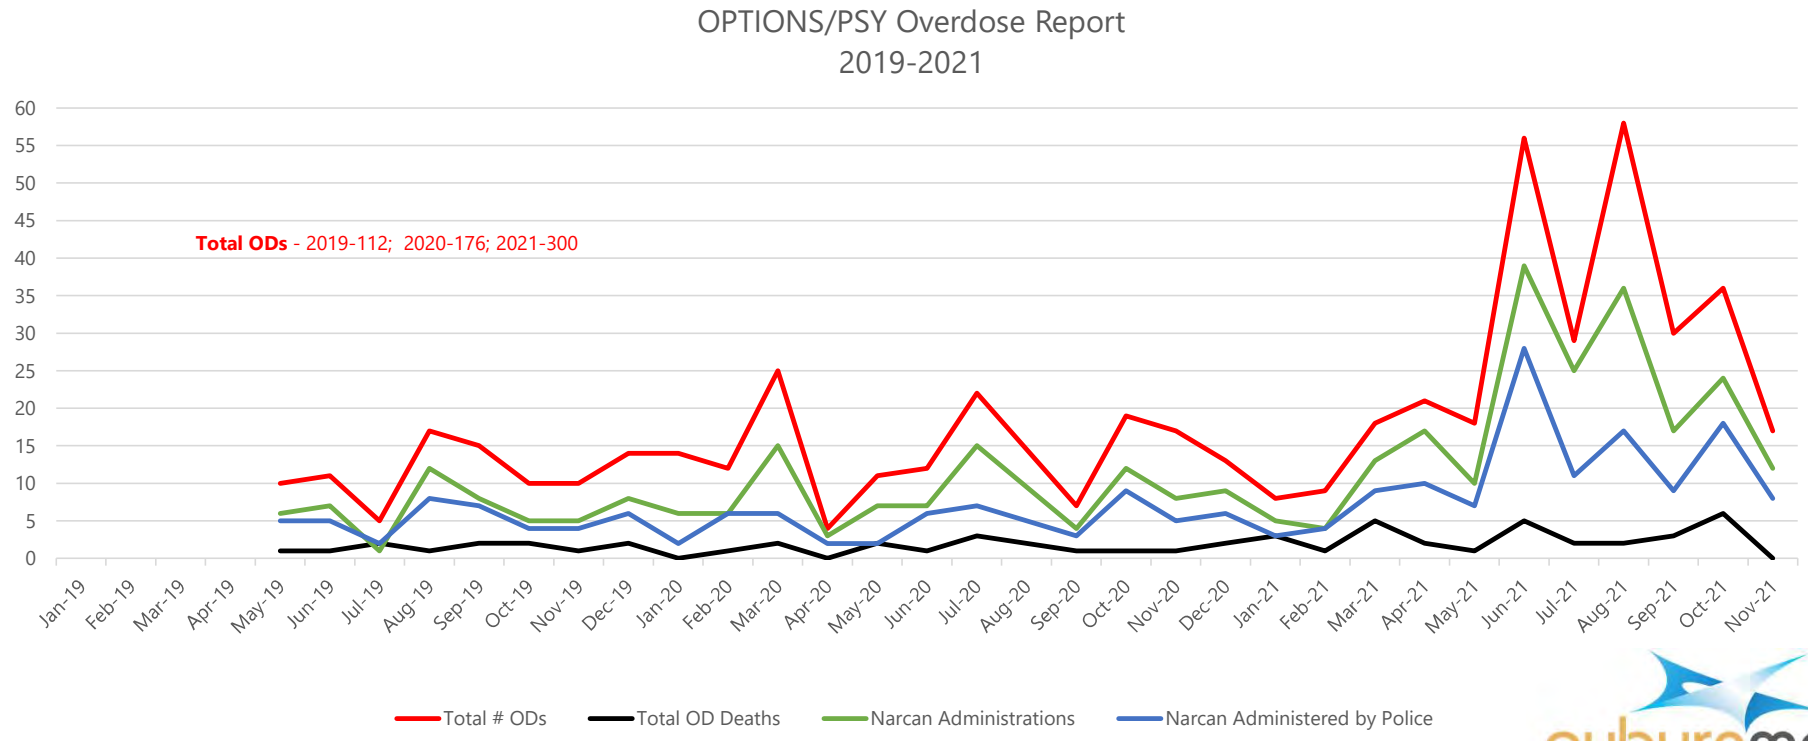
TCMHS Options/PSY Data



PSY success in Lewiston

Since 2018, the Lewiston Police Department has successfully employed this model – embedding mental health professionals from Tri-County Mental Health Services (TCMHS) within the police department to respond with and follow-up on needs in the community.

PSY-Auburn would be customized to meet the needs of Auburn, with a TCMHS PSY worker being shared between the Auburn Police Department and the Auburn Fire Department and working in close collaboration with the Public Health Manager. The PSY worker would remain an employee of TCMHS, and thus the program would also benefit from all the resources and programming of TCMHS.

Serving those who served…

According to SAMHSA's 2019 National Survey on Drug Use and Health in Veteran Adults:

- 3.9 Million (adult) Veterans had a mental illness and/or a substance use disorder (SUD), up 6.5% over 2018
- Of these, 2.3% (481K) struggled with both
- 1 in 4 struggled with illicit drug use
- 4 in 5 struggled with alcohol use
- 1 in 13 struggled with both
- Of those struggling with a mental illness, SAMHSA reported 1 in 4 had a severe mental illness.

Project Support You provides connection.

"Abby is pregnant, homeless, and using heroin daily. As a result of a call from a soup kitchen volunteer, TCMHS staff reach out to Abby to help connect her to medical care and emergency shelter housing. After repeated attempts to get her into residential treatment initially fails, TCMHS staff continue assertive contacts with her over ensuing weeks until Abby successfully agrees to detox treatment."

Success story provided in Catherine Ryder's support letter for PSY-Auburn.

Project Support You provides hope.

"Mary lived in a family that has experienced intergenerational trauma. She grew up in a home with an alcoholic father and began experimenting with substances in her early teens, leading to serious use as she moves through her teens into her 20s. Estranged from her family, Mary's substance misuse leads to repeated involvement with law enforcement, homelessness, and interactions with child protective services. In an effort to regain custody of her child, she enters a community program where she receives supports and job training. Despite her best efforts, exacerbated by the trauma experienced due to losing custody of her child, she relapses, becomes homeless again, and is arrested. TCMHS staff intervene to help her to access treatment, healthcare, job training, and housing. With their help, she restarts her path to recovery."

Success story provided in Catherine Ryder's support letter for PSY-Auburn.

auburnmaine.gov

Treatment works, but it takes resources.

"It is vital to remember, always, that treatment works and recovery is possible. Just as we would not give up hope or fail to help someone with diabetes, cancer or heart disease, the same is true for those who live with mental illness or a substance use disorder. We can and must bring all resources available to bear, and create them when they are not, to help those in need. Every life is worth saving."

Catherine R. Ryder, LCPC, ACS
Chief Executive Officer, Tri-County Mental Health Services

Quote taken from Catherine Ryder's support letter for PSY-Auburn.

auburnmaine.gov

Budget:

DESCRIPTION:	YEAR 1	YEAR 2	TOTAL
Tri-County Mental Health Services 1.4 FTE	98,000	98,000	196,000
Software, data analysis, and administrative support.	50,000	50,000	100,000
Misc. Program Supplies/Expenses	2,000	2,000	4,000
Total	150,000	150,000	300,000

The $98,000/year amount pays for a full-time position – including PTO and holidays. It provides some on-call for nights, weekends, and PTO time. It also pays for supervision, a laptop, encrypted phone, travel, and 20% overhead for Tri-County Mental Health Services.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 21, 2022

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed Charter Amendments

Information: Sec. 2.8 of the City Charter states that the city council shall provide for the review of the city's charter and ordinances in their entirety at least once every 15 years.

A full review was done during several special meetings of the Council beginning in November 2020 and continuing into 2021. Proposed Charter amendments were discussed and reviewed by the City attorney. Before any changes are made, a public hearing must be held followed by a vote of the City Council.

Below is the proposed timeline, in accordance with State law:

March 28, 2022 – publish the notice of hearing (at least seven days before the public hearing is held).
April 4, 2022 - Public hearing to be held.
April 19th – Council to vote on submitting the proposed Charter amendments to the voters
June 14, 2022 – Election date (the election must be held at least 30 days after passage of the Council order).

City Budgetary Impacts: N/A

Staff Recommended Action: Discussion, followed by a public hearing to be held April 4th, 2022 and Council vote on April 19th, 2022

Previous Meetings and History: Charter and ordinance review must be done at least once every 15 years.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: Proposed Charter changes

Proposed Charter Amendments

Sec. 4.2 Composition and compensation.

The School Committee shall consist of the Mayor, or a City Councilor selected by the Mayor, and seven (7) other members. Five (5) members shall be elected, one (1) from each ward by and from its registered voters. Two (2) members shall be elected at-large by and from the City's registered voters. Members shall hold office for a term of two (2) years or until their successors are elected and qualified except that any candidate whose name does not appear on the printed ballot must receive at least twenty-five (25) valid write-in votes in order to qualify for election to that position. The School Committee may appoint by rule non-voting student representatives to serve with the School Committee. Student members will be secondary students and will serve a one (1) year term.

Sec. 4.7. Voting.

A roll call vote shall be taken on the passage of any order or resolve when requested by any member. Any action by the school committee shall require at least four affirmative votes; however, in the event of a tie the measure fails. ~~Five affirmative votes shall be required to hire or fire the superintendent of schools.~~

Sec. 4.9. Superintendent of schools.

The school committee shall choose a superintendent of schools in accordance with Title 20-A §1051.~~solely on the basis of executive and administrative qualifications~~. The superintendent of schools need not be a resident of the city at the time of appointment but shall be a resident of the city during tenure of office unless otherwise approved by the school committee. The School Committee may discharge the superintendent before the expiration of the contract term in accordance with Title 20-A §1052.

Sec. 6.4. Powers and duties.

The city manager shall be administrative head of the city government and shall be responsible to the city council for the administration of all departments other than the ~~department of education~~ School Department.

Sec. 8.7. Amendments after adoption.

A. *Supplemental appropriations.* If during or before the fiscal year the city manager certifies that there are available for appropriation municipal revenues, including those of the ~~department of education~~ School Department, in excess of those estimated in the budget, the city council by resolve may make supplemental appropriations for the year up to the amount of such excess.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 21, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Information Sheet

Council Workshop or Meeting Date: March 21, 2022 **Orders:** 40-03212022 through 43-03212022

Author: Sue Clements-Dallaire, City Clerk

Subject: Appointing members of the Sustainability & Natural Resource Management Board (SNRB)

Information: The Sustainability & Natural Resource Management Board (SNRB) ordinance was recently adopted by the City Council. The board will consist of six members including representatives of the City Council, Planning Board, and four standing working groups on agriculture, conservation, community forest, and sustainability. These groups were asked to nominate one representative from each for approval by the City Council to serve on the SNRB. Nominees are as follows:

David Griswold – Community Forest
Ralph Harder – Sustainability
Jane Costlow – Conservation
William Sylvester – Agriculture

These members shall serve staggered three-year terms. Terms were assigned randomly by drawing. The Council may reassign if they choose to.

City Budgetary Impacts: N/A

Staff Recommended Action: Motion to approve the appointments as nominated by the working groups.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Public comment – No one from the public spoke.

Passage 5-2 (Councilors Gerry and Staples opposed). A roll call vote was taken.

VI. New Business

1. Order 33-03072022
Authorizing the fee waiver for Police Department detail coverage for the Trek Across Maine event.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. Order 34-03072022
Authorizing loans of up to $1,298,488 through the State School Revolving Renovation Fund. First reading. ***Passage requires an affirmative vote of five at the second and final reading.***

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

3. Order 35-03072022
Approving the TIF #26 North River Road Apartments Municipal Development Tax Increment Financing Development Program. **Public hearing and vote.**

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public hearing – Mayor Levesque opened the public hearing at 7:13 pm. No one from the public spoke. The Mayor closed the public hearing at 7:13 pm.

Passage 7-0.

4. Ordinance 08-03072022
Amending the Zoning Map and Adjusting Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District Map. Public hearing and first reading.

Motion was made by Councilor Morin and seconded by Councilor Hawes for passage.

Public hearing:

Ben Lounsbury, 505 West Auburn Road spoke on behalf of his wife who noted something should be done with the gravel site that would be the best use for the City of Auburn? She also had comments regarding water quality.

Joan Wenzel, 767 West Auburn Road thanked the Mayor and Councilors for their continued efforts. She noted that there has to be a strong protection effort on all fronts for our Lake. She questioned why there is a push to rezone this area and who would benefit from this?

Steven Beal, 575 Johnson Road made comments on a memo including maps that were generated by the Planning Department adding that he hoped all Councilors have read it. He said he would like to see more detail on where the waterflow goes.

Mary Ann Norcross, 47 Woodlawn Avenue commented that development should not be considered in the watershed. She said she is aware that this is not in the watershed, but it is close to it and is concerned about the effects it will have on the water quality.

Fred Holler, 352 West Auburn Road spoke in opposition of the proposed ordinance. He had the latest study which cautions developing near the watershed. He also spoke about proposed legislation that could potentially take zoning out of the hands of the Municipalities and put into the hands of State government.

Carrie Myrick, 1010 Summer Street spoke about the study and would like the consultants to come back to speak to the public and answer any questions the public has regarding the study.

Peggy Volock, 395 North Auburn Road asked how you change the dimensions of the watershed?

Peter Dingley, 1017 Summer stated that we paid $100,000 for the study, and we are proposing doing the opposite of what the study recommends by developing it which would result in having to put in a treatment plan which they will have to pay for.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend to exclude the southwest quarter from this proposed zone change.

Amendment failed 3-4 (Councilors Hawes, Milks, Morin, and Walker opposed).

Passage 4-3 (Councilors Staples, Gerry, and Whiting opposed). A roll call vote was taken.

5. **Ordinance 09-03072022**
Approving an amendment to the Zoning Map (Washington Street/Minot Avenue area) from General Business and Industrial to Formed Based Code Downtown Traditional Center T-5.1. **Public hearing and first reading.**

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public hearing – someone asked what this ordinance was about. She did not provide her name or address.

Passage 7-0. A roll call vote was taken.

6. **Ordinance 10-03072022**
Amending Chapter 60, Article XII, Division 2, Section 60-1070, Submission requirements (phosphorus standards). **Public hearing and first reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Passage 6-0 (Councilor Walker was not in the room for this vote).

7. **Order 36-03072022**
Directing staff to draft residential zone amendments consistent with the Comprehensive Plan and to direct the Planning Board to review, hold public hearings on the proposed zone changes and forward recommendations to the Council.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

8. **Order 37-03072022**
Allocating $500,000 of ARPA funds to relocate and expand the Business and Community Development Department (95 Main St.).
Motion was made by Councilor Milks and seconded by Councilor Whiting for passage.

Public comment – Maureen O'Brien, 42 Winter Street stated that she did not like how items are presented to the public.

Passage 7-0.

9. **Order 38-03072022**
Approving the allocation of $500,000 of ARPA funds to create and Economic Development Revolving Loan Pool.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0.

10. **Order 39-03072022**

Authorizing the reallocation of ARPA funds to expand the Sustainable Auburn Program.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VII. Reports (from sub-committees to Council)

Mayor Levesque provided an update on the School Budget. They still continue to meet. Currently they are at .58 increase to the mil rate, however they are in the beginning stages and will continue to work on this. He also provided an update on the Sustainability & Natural Resources Board. He will be nominating Councilor Walker to serve as his designee on that board. Last, he provided a brief update on some proposed legislative bills they are watching.

Councilor Staples reported that LATC (Lewiston Auburn Transit Committee) will be meeting on Thursday at 5:30 via Zoom.

City Manager Crowell reported on the City/School partnership as it pertains to transportation. Regular updates will be provided. Budget discussions will begin soon.

Jill Eastman, Finance Director – January 2022 Final Monthly Report

Motion was made by Councilor Gerry and seconded by Councilor Morin to accept and place on file the January 2022 Final Monthly Report.

Passage 7-0.

IX. Executive Sessions:

Economic development, pursuant to 1 MRSA Sec. 405(6)(C)

Motion was made by Councilor Staples and seconded by Councilor Morin to enter into executive session.

Passage 6-0 (Councilor Walker not present for the vote), time 8:40 pm.

Council was declared out of executive session at 8:54 pm.

Contract negotiations, pursuant to 1 MRSA Sec. 405(6)(D)

Motion was made by Councilor Walker and seconded by Councilor Whiting to enter into executive session.

Passage 7-0, time 8:54 pm.

Council was declared out of executive session at 9:00 pm.

X. Adjournment – Motion was made by Councilor Morin and seconded by Councilor Milks to adjourn. Unanimously approved, the meeting adjourned at 9:00 pm.

REVIEW OF MARKET AND FEASIBILITY STUDY

THE SPORTS FACILITIES COMPANIES

CITY COUNCIL REVIEW

AGENDA

- SFC Company Overview
- Scope of Work and Approach
- Local and Regional Market Data
- Definitions of Success
- Facility Overview
- Financial Forecast
- Location Recommendations
- Key Assumptions and Notes
- Reactions, Discussion, and Next Steps

SCOPE OF WORK

STEP 1: Project Kick-Off

STEP 2: Data Collection and Market Analysis

STEP 3: Site Visit with Development Planning Session, Stakeholder Meetings, Park/Community/Site Tour

STEP 4: Detailed Financial Forecast (PRO FORMA)

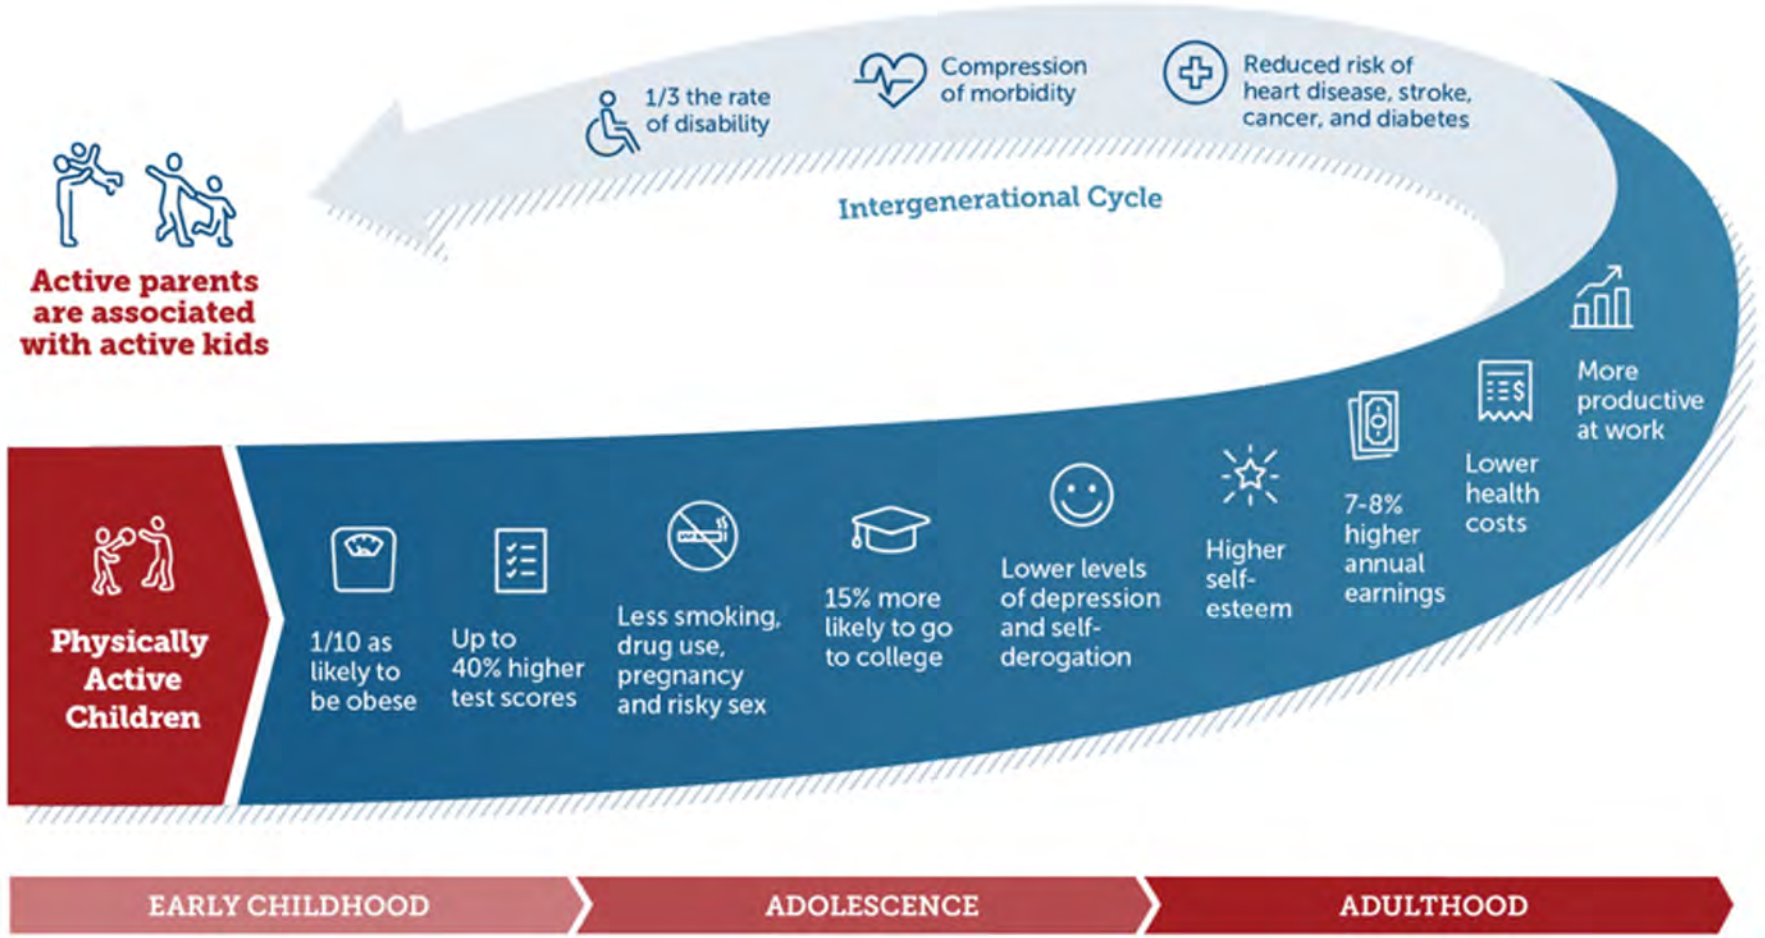
STEP 5: Economic Impact Analysis

STEP 6: Feasibility Report

STEP 7: Review and Delivery of Feasibility and Market Study

ANALYTICAL APPROACH

THE IMPACT OF ACTIVITY



Active Kids:

- Are Healthier Kids
- Excel Educationally
- Make Safer Decisions
- **Are Almost 6 Times as Likely to be Active Adults**

Active Adults:

- Earn More
- Are More Productive
- Have Lower Health Issues and Healthcare Costs
- **Are 2 Times as Likely to Have Active Kids**

DEFINITIONS OF SUCCESS

- **Create a best-in-market asset that features diverse, multi-generational, and flexible programming capabilities** such as sports, community, civic, school activities, etc. that **serves the community and a wide variety of potential partners and stakeholders, while maintaining the flexibility to adapt to future program needs.**
- Create a **driver of economic impact**, that supports existing local businesses by generating new room nights and supports the community by generating spending from non-local visitors.
- **Leverage revenue generating opportunities**, strategic partnerships, corporate sponsorships, and other development opportunities to **create a business model that creates a path for long-term sustainability**.

LOCAL & REGIONAL MARKET INSIGHTS

Category	10 minutes	15 minutes	30 minutes	60 minutes	90 minutes	240 minutes
Population	47,763	59,229	137,061	703,795	1,087,244	12,030,546
Growth Projections – Next 5 Years	+0.45%	+0.5%	+1.8%	+2.9%	+2.8%	+2.1%
Median Age (U.S. Median: 38.5)	38.0	39.5	42.1	43.9	44.7	41.4
Median HH Income (U.S. Median: $60,500)	$44,779	$50,706	$59,121	$63,904	$63,584	$77,557
Median HH Income % Above/Below Adjusted Cost of Living (Index: 86.5)	-15%	-7%	+18%			
Spending Rec. Lessons (U.S Avg.: $143)	$88.28	$93.52	$114.10	$125.89	$124.33	$174.89

PARTICIPATION INSIGHTS

Court Sports	Core Participant %	Participants (30 Minutes)	Participants (60 Minutes)	Participants (90 Minutes)	Participants (240 minutes)
Basketball	6.23%	8,545	43,876	67,781	750,005
Volleyball	1.65%	2,268	11,647	17,992	199,086
Gymnastics	1.22%	1,676	8,608	13,298	147,146
Archery	1.22%	1,674	8,594	13,276	146,903
Martial Arts	1.13%	1,543	7,924	12,241	135,450
Wrestling	1.08%	1,484	7,619	11,770	130,233
Futsal	0.69%	940	4,829	7,460	82,551
Pickleball	0.65%	896	4,601	7,107	78,641
Cheerleading	0.59%	805	4,136	6,389	70,694
TOTAL	**14.47%**	**19,831**	**101,833**	**157,314**	**1,740,709**

Grouping court sports together, new court-based assets in Auburn could serve approximately 14.47 percent of the regional population totaling over 1.7 million players of various sports including basketball, volleyball, and gymnastics.

PARTICIPATION INSIGHTS

Indoor Turf Sports	Core Participant %	Participants (30 Minutes)	Participants (60 Minutes)	Participants (90 Minutes)	Participants (240 minutes)
Soccer	4.22%	5,783	29,697	45,876	507,627
Baseball	3.97%	5,436	27,915	43,124	477,178
Softball	2.03%	2,785	14,301	22,092	244,453
Flag Football	1.10%	1,513	7,770	12,004	132,823
Lacrosse	0.54%	741	3,806	5,880	65,060
TOTAL	**11.86%**	**16,259**	**83,489**	**128,976**	**1,427,140**

Grouping indoor turf sports together, new turf-based assets in Auburn could serve approximately 11.86 percent of the regional population totaling almost 1.4 million players of various sports including soccer, flag football, and lacrosse.

KEY ASSUMPTIONS & NOTES

- Multi-sport Facility Program and Draft Pro Forma assumes that **Ingersoll remains open** as a turf facility and can continue to accommodate secondary turf use/leagues/rentals.

- Turf and Fitness Facility Program provides an overview of a facility which would allow **Ingersoll to be repurposed** to a basketball or other sports facility.

- The new indoor facility will be a **best-in-market asset that will rely heavily on use and revenue from local residents.**

- The **asset fills voids** for fitness, sports, recreation, and entertainment.

- The model provides **multi-functional space that can accommodate a wide array of community needs and maintain flexibility to adapt** in the future.

CHALLENGES

- **Cost of development** is significant.
- While local demand and opportunity is high, the **regional destination opportunity is limited**. As such, this should be considered a local program-focused asset that can be backfilled with tourism-driving events.
- **Outside funding/partnership/support may be needed to supplement** development costs, debt service coverage, and long-term capital replacement.
- Depending on the location selected, **additional transportation improvements may be needed** to support equitable access.

NEXT STEPS

- The various **locations** noted by the Client, in addition to other locations within Auburn, ME, need to be further analyzed to determine the space which will present the highest and best proximity to supporting services to accommodate guests and create ideal experiences for visitors.

- A **funding** plan must be created to cover the cost of development for both equity and long-term financing costs.

- An **operating structure** must be created to ensure that top-tier management, marketing, maintenance, and service initiatives are in place.

- A **long-term plan** must be developed to cover long-term capital improvement and replacement costs.

REVIEW OF MARKET AND FEASIBILITY STUDY

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: March 21, 2022 **Ordinance:** 08-03072022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Zoning Considerations from 2021 Updated Comprehensive Plan-Gracelawn Area Zoning change AG/RP to GB and Lake Auburn Watershed Overlay District.

Information: **There was one addition made to the Packet for 2nd reading in response to a question by Council regarding the awareness of the change by LAWPC. See LAWPC February 9 Agenda Packet (See page 3-4 for LAWPC Staff Comments).** The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. The Comprehensive Plan recommends adjusting the zoning boundary to allow for reuse of the Gracelawn Gravel Pits for development where they no longer drain to Lake Auburn and shows about 111 acres proposed for the change. The Lake Auburn Study analyzed this further and recommends removing 148 acres from the Watershed based on topography and ground water data. Approximately 37 acres are not shown as Commercial Development District (CDD) in approved FLU mapping because the approximate boundaries for the conceptual change were conservative and were developed before the Lake Auburn Study was completed. We knew most of the land was not draining to the lake, but the study identified a larger area draining away from the lake and the council approved utilizing the Auburn Lake Watershed Study as part of the Comprehensive Plan Updates. In that study they suggested moving the watershed boundary to match the actual drainage area boundary. From that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary for a total of 148 +/- acres. **In keeping with existing zoning staff is suggesting that this area be changed to General Business (GB) as recommended by the PB on February 8th.**

---

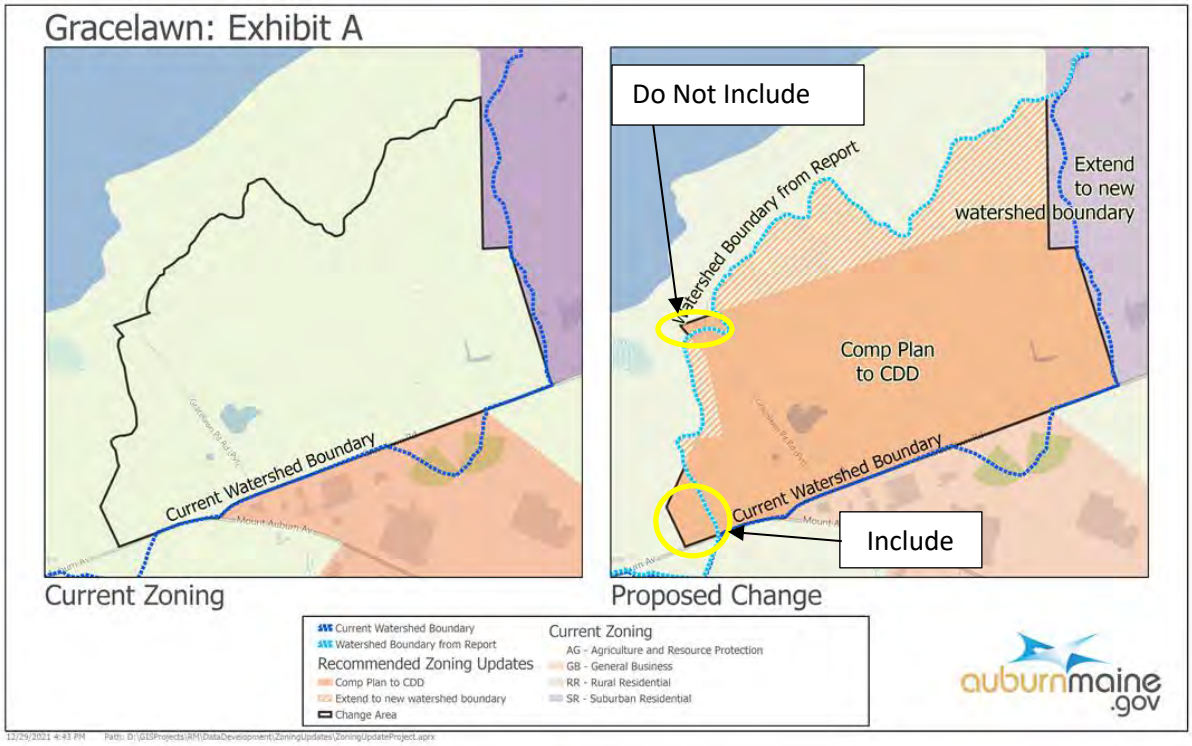
a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to General Business District (GB). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended. (See attached a.)

b. The current proposal also includes an adjustment of the Lake Auburn Watershed District Zoning Overlay to match what science has shown us to be the actual drainage boundary to the physical Lake Auburn Watershed. The revised boundary is shown as a blue line in the map on the previous page titled Proposed Change. A copy of the Lake Auburn watershed Study Pages recommending this change is attached. The Lake Auburn Watershed Boundary is defined in our ordinance as follows:

Sec. 60-951. Boundaries and definitions.

The Lake Auburn Watershed District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the city water district on file in the office of the city water district, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed District.

The district, by definition, should match the actual drainage boundaries and we now have information that confirms that the existing Watershed District Map includes land that does not drain to the Lake



Below is an environmental buildout look of what is existing now vs. a commercial mixed-use development for the 148-acre Gracelawn site. (Ref. MaineDEP Urban Runoff BMPs Calculation Sheet)

Overall annual pollutant load and runoff volume before and after BMPs

Pollutant	Pre-BMP	Reduction	After BMP	Percent Reduction
TN (lb/yr)	727.33	363.66	363.66	50%
TP (lb/yr)	72.73	36.37	36.37	50%
BOD (lb/yr)	3,230.77	2,220.85	1,009.92	69%
Sediment (lb/yr)	27,974.09	23,752.65	4,221.44	85%
Flow Volume (ac-ft/yr)	138.50	119.79	18.72	86%

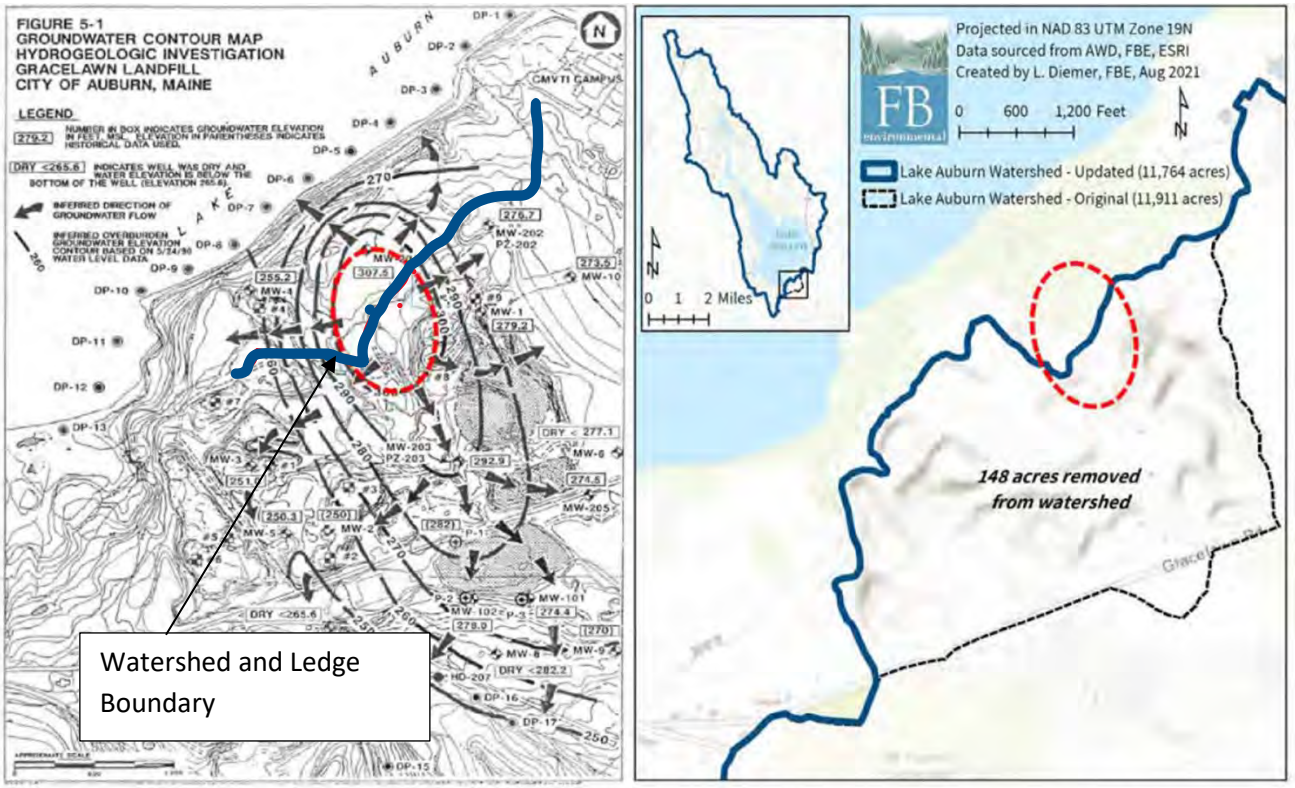


Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area to include the area proposed on the map with a minor difference to follow existing property boundaries. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The two small areas inside the watershed will be required to drain internally (out of the watershed) or meet phosphorus control standards.
3. The current Boundary of the Lake Auburn Watershed District Overlay Zoning Boundary has been shown to be different than the actual drainage boundary based on the Lake Auburn Watershed Study's analysis of topography and groundwater movement in the area and should be adjusted as proposed to match the physical drainage boundaries of the watershed.
4. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.
5. Significant environmental improvements with the site being converted from a gravel pit to a mixed-use development site based on land use runoff for event mean concentration (EMC) values with BMPs implementation.

Staff Recommended Action: Staff suggests council discuss the proposals and hold a Public Hearing on March 7, 2022. Staff then recommends that the Council take a vote on the following, 1: That the Lake Auburn Watershed Overlay Zoning Boundary be adjusted as shown in the Lake Auburn Watershed Study(and on the attached Map); and 2. That the General Business Boundary be adjusted to include the

148 acres shown on the map based on the following findings to include the front parcel that will drain internally based on the new proposed plan submitted by Stoneybrook Consultants.

Previous Meetings and History: January 3rd Council Discussion Initiation, January 11, 2021 Planning Board Workshop, February 8th, 2022 Planning Board, Public Hearing (favorable recommendation 7-0). Public hearing and passage of first reading at the 3/7/2022 Council meeting.

City Manager Comments:

I concur with the recommendation. Signature:

3 Analysis of Environmental Impacts

This section analyzes the environmental impact of various development and water quality scenarios for the Lake Auburn watershed. The analysis uses a well-documented watershed model paired with in-lake empirical formulas to predict water quality outcomes under each future scenario. This section also reviews recreational threats and opportunities, current forestry practices, and LAWPC's land conservation strategy.

Photo Credit: Sun Journal

Water Quality Modeling

Boundary Change

Based on hydrogeologic studies (E.C. Jordan Co., 1990; Woodard & Curran, 1995; Summit Environmental Consultants, Inc., 2007) of the sand and gravel operations and former City of Auburn landfill along Gracelawn Road, a portion of the existing watershed area was determined to flow away from Lake Auburn in a southerly and easterly direction (Figure 3-1). Groundwater flow studies around the sand and gravel operations showed groundwater flowing south to an unnamed brook in a ravine just south of Mt. Auburn Avenue that flows to the Androscoggin River. Previous analyses of groundwater monitoring well data around the landfill showed low and diminishing levels of leachate indicators on the lakeside compared to increasing levels on the south side away from the lake. The combined properties with sand and gravel operations owned by CLH & Sons, Inc. and Get Er Done, LLC cover 115 acres in the southern portion of the Lake Auburn watershed and are bounded to the north by Lake Auburn and a LAWPC-owned parcel, to the east by a Central Maine Community College-owned parcel, to the south by Gracelawn Road, and to the west by a LAWPC-owned parcel. Based on review of the groundwater contours and 2-ft surface contours, the proposed watershed boundary reduces the watershed area by 148 acres, possibly reducing the original CEI, Inc. (2010) total phosphorus load to Lake Auburn by about 44 kg/yr.

Baseline Model Run

The baseline or "existing conditions" model run was performed using the revised version of the ArcView Generalized Watershed Loading Function (AVGWLF): MapWindow Version 4.6.602 and MapShed Version 1.5.1, available online through the Stroud Water Research Center's Wiki-Watershed. Following MapShed documentation, model files were prepared for input and processing to generate watershed nutrient loading estimates by sub-basin. These sub-basin nutrient loading estimates were run through a simplified version of the Lake Loading Response Model (LLRM) (AECOM, 2009) to account for sub-basin water and nutrient load attenuation, other water and/or nutrient sources such as atmospheric deposition, internal loading, and septic systems, and in-lake factors such as pan evaporation and annual withdrawal for drinking water. The net water and nutrient loads, along with calculated lake characteristics, were used in several well-known empirical formulas to estimate the in-lake total phosphorus concentration of Lake Auburn.

A summary of inputs and assumptions is provided below. Refer to supplemental model documentation for more detail (available through the City of Auburn).

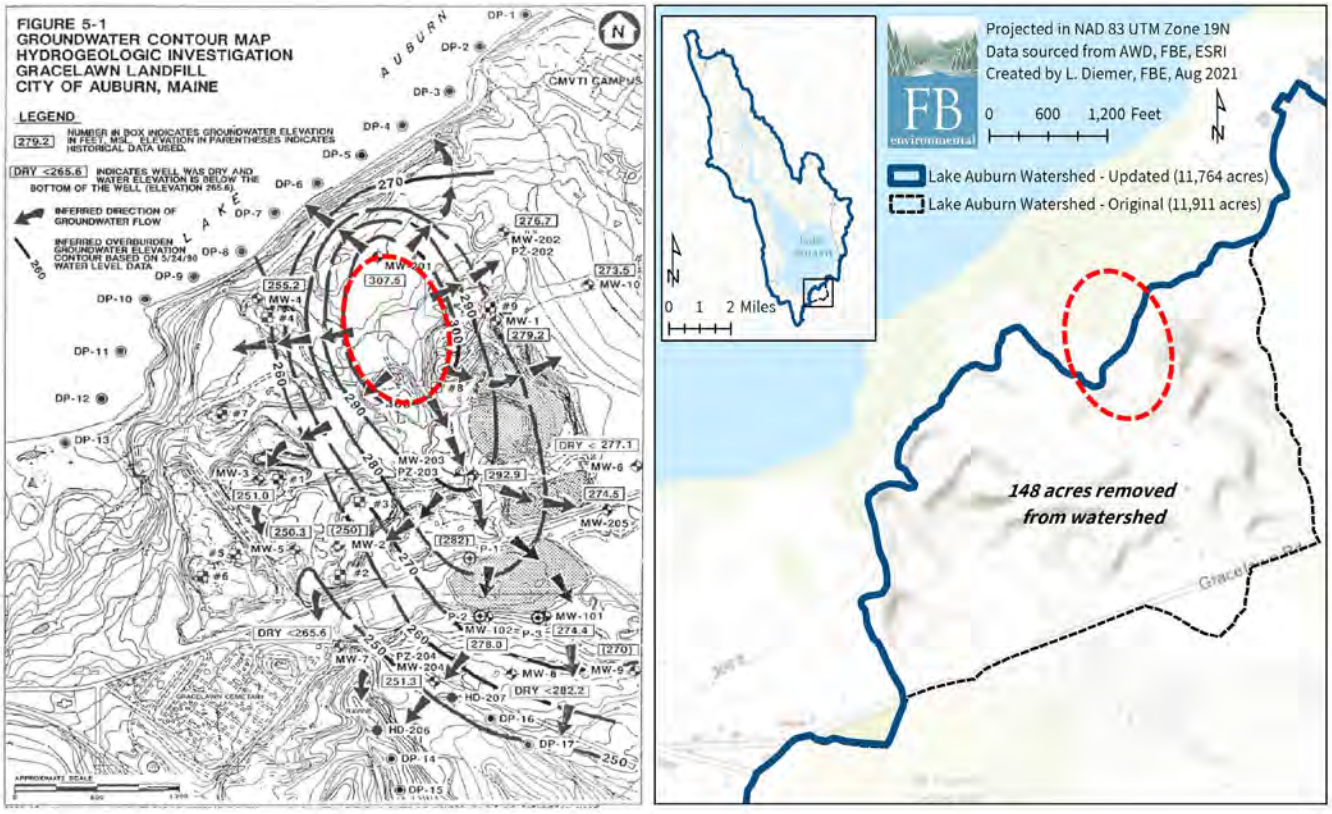

Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

5 Findings, Synthesis, & Holistic Recommendations

This section draws out key conclusions from the report's preceding Sections 2, 3, and 4 which contain our analyses of the regulatory, environmental, and economic impacts of Lake Auburn as a public drinking water supply. Synthesis and further discussion, along with consideration of examples from comparable water supplies, are also provided for several key conclusions that recur throughout the preceding sections. Lastly, this section puts forth holistic recommendations for the City of Auburn, as well as the broader community of stakeholders, with the aim of promoting water supply protection efforts and initiatives that preserve or improve the balance among regulatory, environmental, and economic impacts.

Photo Credit: Sun Journal

Key Findings

Section 2, Analysis of Regulatory Impacts

We found that the regulatory framework for the protection of Lake Auburn as a water supply can be revised to be more clearly defined, better aligned with the best available science and State and regional norms, and more fairly applied across different land uses and activities. Specific recommendations are described in depth in Section 2, and direct ordinance language revisions are provided in a separate document to the City. A summary of our recommended revisions is outlined below:

- Revise the septic system requirements of the Lake Auburn Watershed Overlay District Ordinance to incorporate the Maine Subsurface Wastewater Disposal Rules, including provisions that allow for mounded leach fields and other State-approved alternative designs where there is not a native, in-situ, 36-inch vertical separation between the bottom of the organic horizon and the bedrock, water table, or other restrictive layer. Refer to Appendix 1.
- Revise the Phosphorus Control Ordinance to clarify that the limit of a project area does not apply to a given land use but to a demarcated limit of disturbance, such that all disturbance within that area is required to meet the erosion and sedimentation controls and other phosphorus controls under a plan required by the Phosphorus Control Ordinance.
- Require timber harvest and agricultural activities to meet the same requirements as other land uses under the Phosphorus Control Ordinance. Currently, timber management and harvesting must be conducted in accordance with a forest management plan prepared and supervised by a registered forester, while agriculture must be conducted in accordance with a soil and water conservation plan approved by the ACSWCD, making these uses effectively exempt from City oversight. Removing the exemption and requiring timber and agriculture to meet the same erosion control standards under the Phosphorus Control Ordinance would ensure that water quality protection is a central feature of any timber harvesting or agricultural activities in the Lake Auburn watershed.
- Develop a clear set of standards for farm management that will be consistently applied to farms in the watershed for the purpose of controlling erosion and limiting the delivery of excess phosphorus from the farm practices to Lake Auburn. One approach is to set a concrete limit on the amount of agricultural activities that are phosphorus-intensive (e.g., commercial raising of livestock, fertilized row crops, manure spreading). It is important to note that water quality is predicted to be much worse across all future scenarios if agricultural land use does not decline as predicted.
- Adjust the agricultural buffer strip requirement in the Lake Auburn Watershed Overlay District Ordinance to improve its effectiveness. Recommended adjustments include widening the buffer to 75 or 100 feet, requiring the buffer to be vegetated, and requiring the buffer to be located downgradient of all agricultural activities, perpendicular to the direction of overland flow, in all areas of the watershed (as opposed to requiring buffers only for agricultural activities that are adjacent to surface water).
- Update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn Road area.
- Incorporate low impact development requirements for single family residential development on the 1- and 3-acre lots allowed in the Lake Auburn watershed by way of referencing the Maine Stormwater Management Design Manual, Volume 2. The use of low impact development can help to limit the impacts of stormwater runoff and associated erosion and pollutants from sites. The standards as they apply to a water supply watershed are presented below:
  - » Disturbance on an individual lot must be less than 15,000 square feet (including building, driveway, walkways, lawn area, construction access, and grading).
  - » A minimum natural vegetated buffer must be maintained downgradient of all developed areas on the lot. This buffer shall be 50 feet wide if naturally forested or 75 feet wide if maintained as a natural meadow.
  - » No more than 7,500 square feet of impervious cover is located on the property.
  - » A minimum of 40 percent of the lot area must be maintained as an undisturbed natural area. If the existing land has been disturbed by prior activities, a natural vegetated buffer and/or undisturbed natural area may be proposed through restoration and revegetation.

Section 3, Analysis of Environmental Impacts

We found that Lake Auburn water quality in the last decade had reached a tipping point, whereby nuisance algae blooms were becoming more frequent and were threatening the filtration waiver. The partial alum treatment conducted in 2019 significantly reduced the

in-column total phosphorus concentration and locked in a portion of the sediment-bound phosphorus, effectively resetting the system and giving the water districts additional time to ramp up watershed protection and nutrient reduction efforts. We also found that projecting current status quo conditions into the future (i.e., the "Business As Usual" scenario) resulted in Lake Auburn once again reaching a tipping point by 2100, even with the assumption that the in-column total phosphorus concentration and sediment-bound phosphorus would be repeatedly reset by an alum treatment every 10 years (see discussion in Section 2 about this assumption for further context). Modeled predictions for the other future scenarios where the regulatory framework is adjusted to allow more development in the Auburn portion of the watershed results in greater water quality degradation and a higher risk of blooms, ultimately triggering the need for a filtration plant in the "Maximum Development Allowing Building on LAWPC Lands" scenario. The use of low impact development techniques has a small positive effect on water quality in these future scenarios but does not ameliorate the high risk of frequent algae blooms. Taken together, the future scenarios show that Auburn alone does not have the land use control tools to stave off water quality decline in Lake Auburn; sustained collaboration with the upper watershed municipalities is essential to achieve the needed phosphorus load reductions over the remainder of the 21st century.

Section 4, Analysis of Economic Impacts

We found that expanding development in the Lake Auburn watershed provided minimal overall net economic benefit when accounting for the benefits and costs of all affected stakeholders, including the City of Lewiston who would otherwise carry the additional costs of watershed protection and water treatment through the existing cost sharing agreement in order for the City of Auburn to benefit from increased property tax revenues. In other words, the increased net benefits to the City of Auburn would be mostly or entirely offset by increased net costs to AWD and LWD customers, resulting in negligible net economic benefit to the communities served by Lake Auburn. This reallocation of benefits and costs among all affected stakeholders for the future scenarios highlights important questions of equity and fairness, which were raised during the process of producing this report and conversing with key community representatives. We emphasize that the costs associated with addressing declining water quality are costs to all water users and that the risk of incurred costs that are higher than our conservative estimates is very real.

Synthesis & Discussion

In summary, our analyses determined that Lake Auburn is nearing its assimilative capacity for nutrient load (even with the partial alum treatment) and cannot handle much more additional nutrient load without diminishing water quality and its associated benefits. We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed. Instead, we recommend that low impact development strategies are incorporated into existing zoning standards and required for all future development and redevelopment projects in the Auburn portion of the watershed. We also recommend that the other four headwater towns of Turner, Minot, Hebron, and Buckfield also incorporate low impact development requirements on future development projects. Lake Auburn cannot maintain excellent water quality in the future without the full participation of the other watershed towns. More development cannot be allowed in the Auburn portion of the watershed even with low impact development requirements implemented in Auburn. Even if reduced development through conservation or other means is achieved in the headwater towns, any additional development in Auburn has an outsized negative impact since its drainage area goes directly to the lake. It is also important to understand that a filtration plant does not allow for greater development of the watershed because the filtration plant only treats extracted drinking water for the consumer and does not treat in-lake water quality for recreation and for meeting State criteria for designated uses.

> We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed.

Below, we present further discussion on three important topics: regulation of septic systems, environmental risk and uncertainty, and comparable water utilities.

Regulation of septic systems: The regulatory and environmental analyses examined multiple issues surrounding septic systems and their contributions of phosphorus to Lake Auburn. At first glance, there may appear to be a contradiction between 1) the recommended ordinance revision from the regulatory analysis (Section 2) that the septic design standard should be revised in such a way that will allow previously non-buildable sites to become buildable and 2) the conclusion from the environmental analysis (Section 3) that Lake Auburn will arrive at a tipping point of declining water quality by 2100 even in the absence of any pro-development changes (i.e.,

the "Business As Usual" scenario). Indeed, our buildout analysis determined that more than 100 additional new homes could be built in the watershed if the septic system siting requirement for 36 inches of suitable in-situ soil were revised.

To address this apparent contradiction, we argue that the septic design standard should be judged not only by its adherence to the best available science but by its simplicity, straightforwardness, and fairness. The key questions are: does the existing septic design standard accomplish its stated purpose of regulating septic systems effectively for water quality protection, or is its water quality benefit primarily in its de facto restriction of buildable areas in the watershed? Are there improvements that could be made to achieve the stated goal? With our recommended revision, we aim to have the septic design standard achieve its stated purpose of effectively regulating both new septic system construction and replacement/reconstruction of existing septic systems as they age out, so that septic systems with alternative technologies and innovative phosphorus controls can be phased in. Restrictions on developable land are better left to base and resource protection zoning than to septic design standards.

The project team also noted in conversations with multiple Lake Auburn stakeholders a concern about an unintended consequence of the requirement in the current ordinance for 36 inches of suitable in-situ soil to site a septic system. The concern is that this requirement for deep, native soils has led to the preferential siting of some septic systems on deep formations of sand and gravel aquifer, which provide some of the only suitable sites in the watershed with the requisite depth to bedrock, water table, or other restrictive layer. While our team did not conduct any field assessments, witness this condition firsthand, or review any documentation of this condition, we agree with the premise that these sand and gravel formations should not be considered suitable sites for septic systems, at least without the importation of suitable reactive soils for nutrient and pathogen processing that the recommended ordinance revisions would allow. Adopting the Maine State standards while preserving the minimum 36-inch vertical separation would alleviate the potential for this unintended consequence.

Environmental risk and uncertainty: The risk of deteriorating water quality threatening Lake Auburn's ability to remain a high quality public drinking water supply is a throughline of this entire study. In its simplest terms, risk is the probability of a negative outcome, though the severity of the negative outcome in question is usually included when evaluating that risk. A high risk of a minor inconvenience (e.g., the risk of getting caught in traffic if leaving downtown Boston by car at 5:00 PM on a business day) requires minimal forethought, while a low risk of major damage (e.g., the risk of a flood destroying private or public infrastructure from a hurricane or Nor'easter) requires extensive planning and preparation. Uncertainty is the degree to which the risk cannot be quantified, due to a number of factors, such as insufficient data about existing conditions, insufficient predictive models for the future, and inherent randomness in nature. It is difficult but possible to predict with reasonably low uncertainty the risk of an outcome that has occurred before (e.g., an algae bloom in Lake Auburn). It gets much more difficult to predict the risk of a particular outcome (e.g., a filtration waiver violation in Lake Auburn) if that outcome has never occurred before, because the data and predictive models have not been tested against that outcome in the real world. In this situation, the uncertainty surrounding such an outcome remains relatively high even with excellent data and predictive models.

This study examined Lake Auburn's risk of negative water quality outcomes now and in the future under various scenarios, though with considerable uncertainty due to a number of confounding or unknown factors. However, we can say with certainty that all additional development raises the risk of water quality degradation, whether due to phosphorus loading, pathogens from subsurface wastewater disposal, emerging contaminants such as pharmaceuticals and personal care products, etc. Even if the increased risk resulting from any individual parcel-scale decision is small, the aggregate impact of thousands of individual decisions over the coming decades is what matters.

From a risk management perspective, the entire spectrum of outcomes should at least be understood, including the least probable, most negative outcome (i.e., the worst-case scenario). The worst-case scenario would be that Lake Auburn's water quality would deteriorate past the point of useful public drinking water supply. Phosphorus enrichment to the point of having uncontrolled algae blooms every year, with cyanobacteria and associated cyanotoxins, would be the most likely condition of such a worst-case scenario. If this unlikely but highly undesirable scenario were to occur, Auburn and Lewiston would be forced to consider other alternatives that previously would not have been seriously deliberated, such as drawing upon the Androscoggin River for drinking water. The cost of this worst-case scenario was not evaluated in our economic analysis because our environmental models do not predict conditions to deteriorate to that degree under the chosen scenarios. But in managing environmental risk, this unlikely but highly undesirable outcome should be included in the overall picture of Lake Auburn's possible future.

Comparable water utilities: Comparison of Lake Auburn and LAWPC/AWD/LWD with other water sources and utilities is illustrative of their strengths, weaknesses, and projected future needs (Table 5-1). Lake Auburn's key

Table 5-1. Lake Auburn and comparable water supply lakes and ponds in Maine.

Waterbody	Water Utility	Waterbody Surface Area (acres)	Watershed Area (acres)	Communities Served	Watershed Communities	Filtration Waiver?
Lake Auburn	Auburn Water District	2,277	9,651	Auburn, Lewiston, Poland	Auburn, Turner, Minot, Hebron, Buckfield	Yes
China Lake	Kennebec Water District	3,939	16,704	Waterville, Winslow, Fairfield, Benton, Vassalboro, Maine Water Company - Oakland	Vassalboro, China, Albion	No
Sebago Lake	Portland Water District	29,992	234,000	Portland, South Portland, Westbrook, Falmouth, Cumberland, Cape Elizabeth, Gorham, Windham, Scarborough, Raymond	24 municipalities (Androscoggin, Cumberland, Oxford counties)	Yes
Floods Pond	Bangor Water	635	4,600	Bangor, Eddington, Hampden, Hermon, Orrington, Clifton, Veazie, Hampden Water District	Otis, Clifton	Yes

comparables are China Lake, which supplies the Kennebec Water District (KWD) serving Waterville and surrounding communities; Sebago Lake, supplying the Portland Water District (PWD); and Floods Pond, used by Bangor Water, an independent water utility, to serve Bangor and surrounding communities.

China Lake is nearly double the size of Lake Auburn, with a 3,939-acre lake surface and a nearly 17,000-acre watershed, but the lake divides into two basins nearly equal in size, the west basin and the east basin. The KWD has a water supply in-take located in the west basin, where the shoreline is mostly under KWD control and managed as water supply protection land. The east basin is nearly all under private ownership and has much more shoreline development. The China Lake Outlet Stream, the only outlet of the entire lake, is in the west basin at the dam in Vassalboro. Considered by itself, the west basin is very similar to Lake Auburn in terms of shoreline and watershed management - mostly forested, under public water utility control, with universal restrictions on swimming and bodily contact but with limited recreational fishing allowed. Like Lake Auburn, China Lake serves one community within the lake watershed (Vassalboro) and several communities outside its watershed (Waterville, Winslow, Fairfield, Benton, and the Maine Water Company in Oakland), while the upper watershed towns of China and Albion do not use KWD water.

The key difference between China Lake and Lake Auburn is that China Lake has experienced algae blooms nearly every summer since the 1980s. Blooms were more severe through the 1980s and 1990s, and since the early 2000s, there have been some trends of improvement, including coldwater fish species survival. Since 1993, KWD has filtered the drinking water supply using a granular activated carbon filtration system capable of producing up to 12 MGD, though current demand stands at 3 MGD. The plant was constructed in the early 1990s for a cost of roughly $25 million. According to KWD Superintendent Roger Crouse, P.E., if water quality were to decline significantly from its current stable state, such as increased algae blooms and turbidity, KWD would have to change their operations to handle the lower quality in-take water (R. Crouse, pers. comm). The carbon filters would need to be backwashed more frequently, and the additional backwash water would need to be accommodated somehow in the existing lagoons or else the lagoons would need to be expanded at significant cost. The alum dose used to pretreat the water before filtration would also need to be raised. The key takeaway is that decreased in-take water quality at a filtration plant taxes the system, raises the volume of the waste stream, and adds significant cost and complexity to the treatment process, meaning that water supply managers cannot forgo water quality protection efforts simply because a filtration system is in place.

Sebago Lake is the public drinking water supply source used by the PWD to supply Portland, South Portland, Westbrook, and surrounding Greater Portland communities - roughly one sixth of Maine's population. The lake is roughly 10 times the size of Lake Auburn, with a surface area of nearly 30,000 acres and a watershed area of 235,000 acres. Sebago is the deepest lake in New England at 316 feet at its deepest point. Like Lake Auburn, Sebago Lake qualifies for a filtration waiver owing to a history of excellent water quality. The existing disinfection plant has a production capacity of 54 MGD and currently experiences a demand of 22 MGD. With such a large water supply lake, the capacity of the plant will be exceeded long before any concern of safe yield from the lake arises.

Land use in the Sebago Lake watershed is largely composed of private forestlands. The PWD owns 2,500 acres (or about 1% of the watershed), with 800 acres of mostly shoreland designated as 'No Trespassing' and 1,700 acres of land designated as free for public access for many forms of recreation. Another 28,000 acres are owned or

managed by land trusts. The water supply in-take is at the far southern extent of the lake in the Lower Bay. A 3,000-foot 'No Trespassing' zone surrounds the in-take, and no bodily contact is allowed within two miles of the in-take. Boating, fishing, snowmobiling, and ice fishing are allowed within the 2-mile limit but not within the 3,000-foot limit. Overall, the restricted area is very similar in size and structure to that of Lake Auburn (with the exception that the on-ice activities are not allowed on Lake Auburn). Taking Sebago Lake as a whole, however, the major difference with Lake Auburn is that Sebago's Lower Bay comprises a small fraction of the overall lake, the rest of which has no special swimming or boating restrictions for water supply.

Sebago Lake and its watershed are located many miles away from the service areas of the PWD. This geographical separation means that the communities served by PWD have no ability to enact land use controls on the lakeshore or in the watershed, unlike the situation in Lake Auburn where the City of Auburn can use its zoning ordinances to enact protections for the shorefront and watershed. It is likely that this lack of control over Sebago Lake's upper watershed has spurred the PWD to focus on cooperation with land trusts and private forestland owners to conserve tracts of land. As an example, PWD Environmental Services Manager Paul Hunt told the project team that the PWD is part of a partnership, Sebago Clean Waters, that seeks to raise the total amount of land conserved (and managed at least partly for water supply protection) from the current 12% of the watershed to 25% in the next 15 years (P. Hunt, pers. comm).

In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Floods Pond in Otis, Maine has been the public water supply source for Bangor Water, the independent water district that serves Bangor and surrounding communities since 1959. At 635 acres of surface area, surrounded by a 4,600-acre watershed in Otis and neighboring Clifton, Floods Pond is less than half the size of Lake Auburn. Maximum depth is similar at 133 feet. Like Lake Auburn, Floods Pond also qualifies for a filtration waiver owing to its historically excellent water quality.

Land use in the Floods Pond watershed is largely controlled by Bangor Water, which owns or holds landowner agreements to manage 4,500 acres or more than 99% of the watershed land area. There is no public access to Floods Pond, which is home to a native population of Arctic char (Salvelinus alpinus), a coldwater fish species closely related to both salmon and lake trout that has been used by the Maine Department of Inland Fisheries and Wildlife to establish coldwater fish populations in other Maine lakes. Fishing, boating, and swimming are prohibited, as are hiking, wildlife viewing, and hunting in posted areas that include the entire shoreline.

The geography of Floods Pond as a water supply resembles China Lake more than Lake Auburn. The vast majority of Bangor Water customers are in downstream communities (Bangor, Eddington, Hampden, Hermon, and Orrington), while the protected shoreline and watershed areas are in upstream communities that do not use the water. (A small portion of Clifton is served by Bangor Water.) Bangor Water controls nearly all the Floods Pond watershed in Otis and Clifton, 4,500 acres total and more than LAWPC controls in the Lake Auburn watershed. Recreational activities are also much more restricted at Floods Pond than at Lake Auburn. Floods Pond provides a useful comparison point at the more restrictive end of the spectrum that puts the lost tax revenues and recreational opportunities at Lake Auburn in perspective.

To summarize, these comparisons with other water supply lakes demonstrate that the protections surrounding Lake Auburn do not exceed those of China Lake, Sebago Lake, or Floods Pond. The restrictions on recreational opportunities at Lake Auburn are similar to those at other drinking water supplies, including filtered and unfiltered water sources. Similarly, land use restrictions within the Lake Auburn watershed are far from the most prohibitive among the examples discussed, with only 20% of the watershed held or managed as water supply land compared to 99% of the Floods Pond watershed. In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Holistic Recommendations

1. We recommend that the City of Auburn not seek to ease the current resource protection zoning or

consider rezoning portions of the watershed for increased density (e.g., village node-style development). Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed, preferably areas already served by sanitary sewer (for the benefit of nearby water resources such as the Androscoggin River). This recommendation is based on two key findings of this study that are fully elaborated in Section 3:

- Lake Auburn and its watershed are already at or near the key environmental thresholds of 10 parts per billion annual average total phosphorus and 75% forested watershed land cover; and
- The future scenario models showed that easing restrictions on further development in the Lake Auburn watershed would set the lake on a path toward deteriorating water quality, regardless of the beneficial effects of requiring low impact development techniques and without obvious management strategies to combat further declines in water quality.

2. We recommend that the Planning Board and City Council take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. If not acceptable in their current form, the recommended revisions should be reworked and made more practicable but not watered down or fundamentally changed in their intent or effect. These recommended changes represent a move toward simpler, more transparent, more evenly applied regulations that are based on the best available science. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. We recommend that the City of Auburn share the findings of Section 4, Analysis of Economic Impacts, with all partners and stakeholders so that the accounting of aggregate economic impacts of the existing conditions and various future scenarios are used as the basis for an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward. This recommendation is based on the key finding that any net benefits to the City or Auburn residents and taxpayers from expanded residential development in the Lake Auburn watershed would be counterbalanced by additional costs to Lewiston and its residents and taxpayers, in the form of increased costs associated with mitigating declining water quality and decreased benefits from recreation. These findings are fully elaborated by Section 4 of this report. As a next step in this planning process, we recommend that a scenario be modeled and run through a benefit cost analysis that meets the target water quality goal for Lake Auburn, which was not possible in the future scenarios modeled in this study when considering Auburn-only changes to regulations and management approaches. Developing a scenario that meets the water quality goal may require several iterations. The scenario should likely expand the existing Lake Auburn Watershed Overlay District to the upper watershed towns, require implementation of low impact development techniques on new development watershed-wide, and account for septic design standard changes.

4. We recommend that the City of Auburn, City of Lewiston LWD, AWD, and LAWPC fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed (Turner, Minot, Hebron, and Buckfield) to control development and limit phosphorus loading. Historically, LAWPC has been an active player in fostering collaborative action between the local governments, with representation from the upper watershed towns. This recommendation is based on the key finding from this study that Auburn alone cannot accomplish sufficient phosphorus load reductions to prevent deteriorating water quality in Lake Auburn, but will require active participation from the upper watershed towns. This finding is fully elaborated in Section 3.

5. We recommend completing a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both AWD and Bates College in the Lake Auburn watershed. Identify gaps based on weaknesses and assumptions for the model. From the review and gap analysis, devise a robust long-term water quality monitoring plan and annual cost estimate for Lake Auburn. We also recommend that 1) the AWD hire a full-time, dedicated data management technician for improved management, access, and analysis of collected water quality data; 2) the AWD and LWD continue collaboration with Bates College on student-assisted monitoring; and 3) LAWPC consider creating a technical science advisory board to establish or maintain key local, State, and regional partnerships that can help to provide regular review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the in-take should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. We recommend that the LAWPC coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. We recommend developing a comprehensive natural resource management plan for LAWPC lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection if in the interest of public water supply protection, with multiple management options offered. We also recommend developing natural resource inventories for all LAWPC lands to map critical streams (perennial and intermittent), wetlands, vernal pools, cover types, rare, threatened, and endangered species present, etc. to include in individual natural resource management plans that set management objectives and methods to achieve water resource and wildlife habitat protection for each LAWPC parcel. If timber harvesting continues in the Lake Auburn watershed on LAWPC or private lands, then we recommend a series of actions to minimize forestry impacts to water quality. Refer to Forest Management in Section 3.

10. We recommend that LAWPC work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that LAWPC consider putting all their properties into permanent conservation. These properties are currently protected under the LAWPC by-laws but provide no higher-level legal protection from future development if said by-laws were to be revoked.

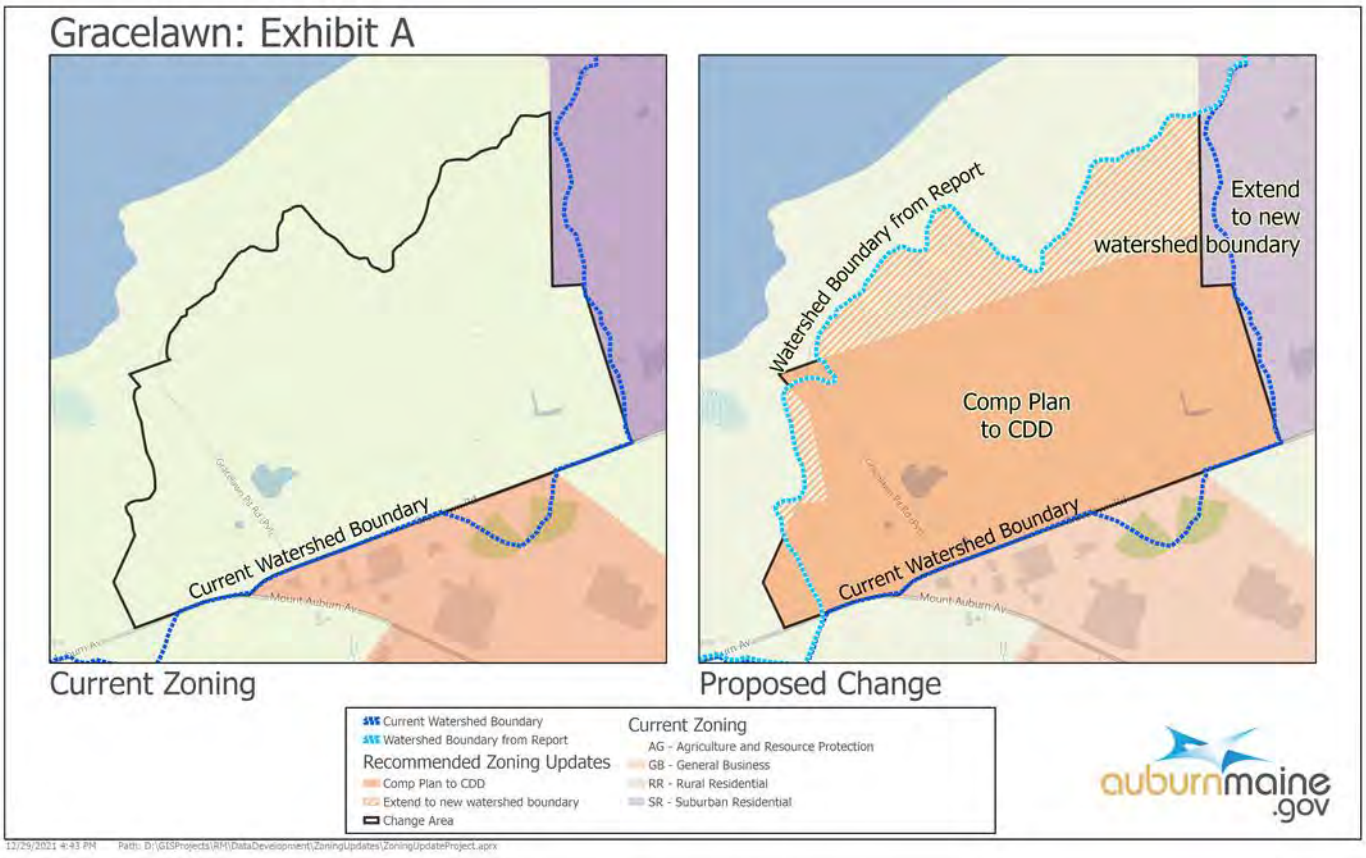
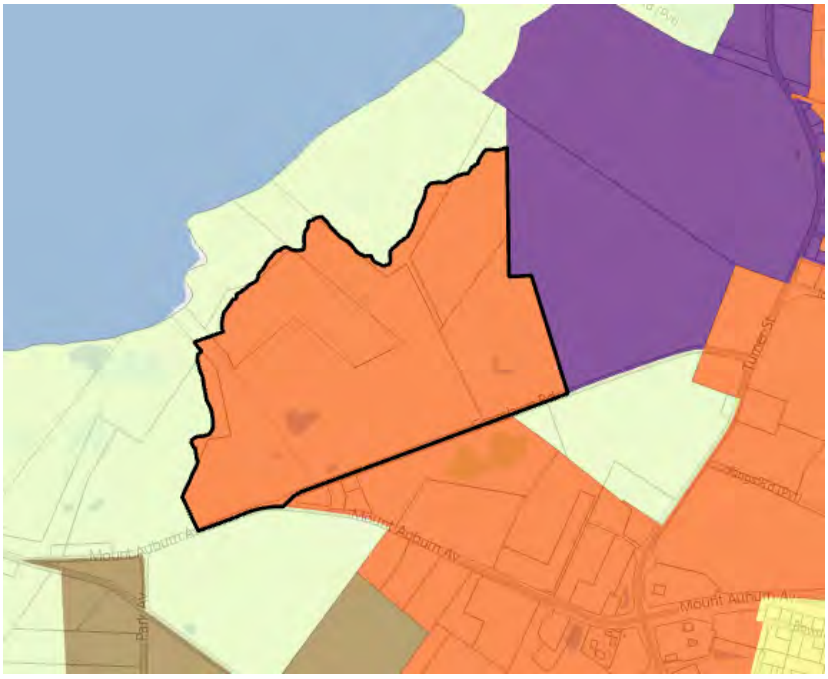
Re: Gracelawn Area Zoning change AGRP to GB and Watershed District Zoning Boundary amendment from the 2021 Updated Comprehensive Plan

Date: February 8, 2022

PROPOSAL: **Gracelawn area;** The Comprehensive Plan recommends adjusting the zoning boundary to allow for reuse of the Gracelawn Gravel Pits for development where they no longer drain to Lake Auburn and shows about 111 acres proposed for the change. The Lake Auburn Study analyzed this further and recommends removing 148 acres from the Watershed based on topography and ground water data. Approximately 37 acres are not shown as Commercial Development District (CDD) in approved FLU mapping because the approximate boundaries for the conceptual change were conservative and were developed before the Lake Auburn Study was completed. We knew a majority of the land was not draining to the lake but the study identified a larger area draining away from the lake and the council approved utilizing the Auburn Lake Watershed Study as part of the Comprehensive Plan Updates. In that study they suggested moving the watershed boundary to match the actual drainage area boundary. From that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary for a total of 148 +/- acres. (See Below Exhibit A.)



Our Comprehensive plan uses some different nomenclature than our existing ordinance for different district names. One goal of the plan updates is to reduce the number of zoning districts by combining similar districts over time. Staff contemplated creating a new district titled CDD as part of this change but instead we recommend moving the existing boundary of the General Business District to include the referenced 148 acres shown on the map. The excerpt below from the Comprehensive Plan provides a description of the CDD. This will make the boundary adjustment to the localized area and leave the combining of the GB and GBII districts for a future discussion without creating and additional zoning District in the interim. As you can see the CDD text recommendations will eventually combine the two districts and will require notification to the entirety of the GB and GBII zoning districts and a public hearing to discuss that as a future separate item.



COMMERCIAL DEVELOPMENT DISTRICT (CDD)(Excerpt from Comprehensive Plan)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- *Low and High Residential Density Uses*
- *Retail uses including large-scale uses (>100,000 square feet)*
- *Personal and business services*
- *Business and professional offices*
- *Medical facilities and clinics*
- *Restaurants*
- *Hotel, motels, inns, and bed & breakfast establishments*
- *Low and High-Density Residential Uses*
- *Community services and government uses*
- *Research, light manufacturing, assembly, and wholesale uses*
- *Truck terminals and distribution uses*
- *Contractors and similar activities*
- *Motor vehicle and equipment sales*
- *Motor vehicle service and repair*
- *Recreational and entertainment uses and facilities*

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

The current proposal also includes an adjustment of the Lake Auburn Watershed District Zoning Overlay to match what science has shown us to be the actual drainage boundary to the physical Lake Auburn Watershed. The revised boundary is shown as a blue line in the map on the previous page titled Proposed Change. A copy of the Lake Auburn watershed Study Pages recommending this change is attached. The Lake Auburn Watershed Boundary is defined in our ordinance as follows:

Sec. 60-951. Boundaries and definitions.

The Lake Auburn Watershed District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the city water district on file in the office of the city water district, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed District.

The district, by definition, should match the actual drainage boundaries and we now have information that confirms that the existing Watershed District Map includes land that does not drain to the Lake.

PLANNING BOARD ACTION/STAFF SUGGESTIONS: Staff suggests a planning board discuss the proposals and hold a Public Hearing on February 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes, 1: That the Lake Auburn Watershed Overlay Zoning Boundary be adjusted as shown in the Lake Auburn Watershed Study(and on the attached Map); and 2 that the General Business Boundary be adjusted to include the 148 acres shown on the map based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area to include the area proposed on the map with a minor difference to follow existing property boundaries. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The two small areas inside the watershed will be required to drain internally (out of the watershed) or meet phosphorus control standards.
3. The current Boundary of the Lake Auburn Watershed District Overlay Zoning Boundary has been shown to be different than the actual drainage boundary based on the Lake Auburn Watershed Study's analysis of topography and groundwater movement in the area and should be adjusted as proposed to match the physical drainage boundaries of the watershed.
4. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

AGENDA

1. Executive Session regarding potential litigation in accordance with 1 M.R.S.A. 405 (6) (E) (10 min)

2. Minutes (5 min)
   a. November 10, 2021 regular meeting
   b. December 1, 2021 Workshop

3. Consent Agenda (5 min)
   a. Financial Quarterly Update – Heather
   b. Water Quality & Watershed Update - Erica
   c. Education and Outreach - Erica

4. Open Session -Public Comment (5 min)

5. Staff Clerks Report – Kevin (10 min)

6. Lake Auburn Study
   a. Highlights/Discussion – Erica (30 min)

7. Review of Proposed Septic Ordinance changes- Kevin (10 min)

8. Upstream Watershed Policies & Projects
   a. Town of Turner – Alan (30 min)

9. Old Business
   a. Roberts Rules update (5 min)
   b. Workshop Choices & Set Dates (5 min)
      i. Recreational use on lands we own
      ii. Prioritize projects from previous studies

10. New Business (5 min)

11. Executive Session regarding negotiations of potential land transactions in accordance with 1 M.R.S.A. 405 (6) (C) - (as needed)

12. Adjourn

MEETING SCHEDULE:

April 13, 2022
June 8, 2022
September 14, 2022
November 9, 2022
December 7, 2022, if needed

Lake Auburn Watershed Protection Commission

MEETING MEMORANDUM

To: Lake Auburn Watershed Protection Commissioners
From: Kevin Gagne & Sid Hazelton, Clerks
Date: February 2, 2022
Subject: Clerk Guide and Report for February 9, 2022

Introduction:

This is a new report we are starting to help provide some written background to issues considered or taken up for action by Commissioners of the Lake Auburn Watershed Protection Commission. While we will continue to engage and present information and offer guidance as Staff to the Commissioners at meetings and workshops, this report is for additional background and information on items before you, so your time at Commission meetings can be spent collectively taking action to protect the drinking water and filtration waivers for the communities of Auburn and Lewiston instead hearing background information.

Minutes

November 10, 2021 regular meeting: Watershed Commission Secretary Mike Broadbent has completed the minutes of the regularly scheduled meeting held on Wednesday November 10, 2021 at 3:30 pm and are attached for your review and acceptance. Video of the meeting has been posted on the watershed website for public viewing and as record of the meeting.

December 1, 2021 workshop: Watershed Commission Secretary Mike Broadbent has completed the minutes of the watershed workshop held on Wednesday December 1, 2021 at 3:30 pm and are attached for your review and acceptance. Video of the workshop has been posted on the watershed website for public viewing and as record of the meeting.

Consent Items

Financial Reports

Financial Reports: The Watershed Financial report will be presented by Heather Hunter at the meeting and her Statement of Revenues & Expenditures as of December 31, 2021 is attached for your review and reference.

Water Quality & Watershed Report

Water Quality Update: Erica has attached her detailed report. Lake Auburn officially froze with full ice on January 12, 2022 and with cold temperatures ice is getting thicker and with snow cover we are experiencing better than average water quality with low turbidity and low winter algae counts. With frozen ground conditions and additional snow cover through the winter and hopes of an average or later than normal ice off – this would be favorable for continued good water quality. Spring thaw is another factor in determining ice off and the longer ice stays on the Lake and hopefully with low runoff conditions (slow spring thaw) the better water quality we see in Lake Auburn and tributaries going into the summer.

Watershed Update: Erica has attached her report and will present at the meeting. One highlight is there has been no Commission forestry activities on watershed properties this winter. However, there has been one private harvest near Taber's.

With snow conditions, improving there is more winter activity on watershed trails with snow shoeing, cross-country skiing at this time and will depend on how long the snow conditions last.

Education and Outreach Report

Education and Outreach Update: Education and outreach has been on going with some in person winter walks and there are more activities planned. Erica and Carolyn have attached their report and they continue spreading the word of watershed events on our watershed webpage, YouTube, Facebook and on Instagram. They recently hosted a Winter Wildlife Walk with Ben Nugent of USDA on Whitman Spring Road as part of the Auburn Winter Fest on January 26, 2022 and they are currently hosting a virtual Winter Scavenger Hunt for participants until February 27, 2022 – submit your pictures today and spread the word.

6. Lake Auburn Study: The Lake Auburn Study, official titled "*A Regulatory, Environmental, and Economic Analysis of Water Supply Protection in Auburn, Maine*" commissioned by the City of Auburn, Planning Department, was released in its final version on November 1, 2021. The report aimed to conduct a 'thorough review of the existing conditions, standards, regulations and practices in Lake Auburn and its watershed.' and looked to recommend ways to 'maximize the benefits and minimizes the cost of regulatory, environmental, and economic impacts to Lake Auburn, its watershed, and the surrounding communities.'

The highlights of this lengthy study are important to the Watershed Commission, as our main goal is to protect our drinking water filtration waivers and protect our drinking water for both communities. The following is a list of recommendations from the Auburn Study:

1. Revise septic system requirements of Lake Auburn watershed overlay district ordinance to allow State of Maine subsurface rules and to allow for mounded leach fields and other State approved alternative systems where there is not a 36 inch vertical separation from organic horizon and bedrock, water table or other restrictive layer.

2. Revise the Phosphorus Control ordinance to clarify the limit of project to the limit of disturbed area and not dependent upon land use.

3. Require timber harvest and agricultural activities to meet same requirements as other land uses under the Phosphorus Control Ordinance – including erosion control standards.

4. Develop standards for farm management, to be applied to farms in the watershed to control erosion and phosphorus from farms to Lake Auburn.

5. Adjust the agricultural buffer strip requirements to improve effectiveness. Recommendation is to increase buffer from 75 ft to 100 ft with vegetated buffer down gradient of all agricultural activity, perpendicular to overland flow and in all areas of the Lake Auburn Watershed.

6. Update Lake Auburn Watershed boundary to remove 148 acres along Gracelawn Road from the Lake Auburn Watershed.

7. Incorporate low impact development standards for single-family residential development in the Lake Auburn Watershed, with some square foot limit and regulations.

7. Review of Proposed Septic Ordinance changes: The City of Auburn planning board is considering action on recommendation #1 in future meeting – revision of septic system requirements in the Lake Auburn overlay district by allowing more systems as approved by State of Maine subsurface rules where the current rules for 36 inch of vertical separation cannot be met.

To better understand the implications these septic changes would have regarding the waiver from filtration that each Lewiston Water Division and the Auburn Water District have independently but work jointly to maintain, each entity has asked the Maine Drinking Water Program (regulators of the waiver) of their opinion as to how the proposed septic ordinance changes would impact each waiver from filtration. Auburn Water did receive a response from the Susan Breau, Geologist of the Maine Drinking Water Program and Lewiston Water is waiting to receive a response from Susan Breau. Before we recommended any proposed actions or motions to the Commissioners, we will need some additional time to better understand the regulatory impacts to the waivers and policy options to recommend if necessary.

City of Auburn Zoning Map Amendment: At the January 11, 2022 Planning Board workshop, the proposal for zoning changing and watershed boundary change was discussed. At the February

8, 2022 meeting, the Auburn Planning Board is considering the rezoning of properties along Gracelawn Road including the gravel pits for development. As part of the rezoning, as recommended in the Lake Auburn Economic Study and the Auburn Comprehensive Plan, the planning board is also considering redefining approximately 148 acres currently in the Lake Auburn watershed boundary to a new watershed boundary-removing the 148 acres from the watershed, as portrayed in the report for this area of Gracelawn Road. This watershed boundary change is based on topography and ground water data as evaluated in 2021. The zoning change would change the current zoning of AG- Agricultural and Resource Protection into General Business Zone/Commercial Development District and allow expanded residential density uses, retail, personal and business and professional offices, medical facilities, restaurants, hotel/motel/inns/bed & breakfast, commercial and governmental uses, research/light manufacturing/wholesale, truck terminal/distribution, contractor, motor vehicle/equipment sales, service & repair, recreational/entertainment uses and facilities. Eric Cousins presented the proposed changes to the Commission at our September 8, 2021 meeting. Based on the proposed watershed boundary changes and the water and sewer utility services provided to these parcels and future developments by the AWSD, at this time Staff does not oppose the proposed changes to the watershed boundary or zoning as described in the planning board proposal (see attached). Future considerations that would raise concerns for Staff and the WS Commission would be for any type of industrial use or discharge that may leave the facility/business and cause contamination to Lake Auburn through direct or indirect discharge. This would be on a case by case use of the proposed activities.

8. Upstream Watershed Policies and Projects: Town of Turner; we welcome Commissioner Holbrook's discussion to share the policies of the Town of Turner as it related to land use and water quality in the watershed. Turner is very important as the majority area of the upper Lake Auburn watershed, land use and management has direct impacts to water quality of Lake Auburn through runoff and tributaries to Mud Pond, Little Wilson Pond, the Basin until it flows into the north end of Lake Auburn. Residents of Turner benefit from watershed protection efforts through good water quality of Mud Pond and Little Wilson Pond and play an important partner in the protection of Lake Auburn water quality as well.

Old Business

By-Laws Update: At the December 1, 2021 Commission workshop we discussed details and options for adopting or using Robert's Rules of Order. Mary Ann Brenchick has an update to present for consideration as to how the Commission could move forward.

Workshop Choices and Set Dates: At the December 1, 2021 Commission workshop we discussed the Commissioners interest to have additional workshops. We have some draft land use plans and should consider if Commissioners want to workshop Recreational use on Watershed Commission land.

Another topic for future workshop discussion is the master plan of prioritized projects proposed from previous studies and how those projects could be scheduled and put into motion.

Understanding each Commissioner volunteers their time and effort and most are also on other Boards and Committees for their organizations, what additional days would be considered for workshops and how often would workshops like to be conducted.

Suggested motion: To have a Watershed Commission workshop on March 9, 2022 at 3:30pm to discuss recreational uses on Lake Auburn Watershed Commission land.

New Business

New Watershed Commissioner: New Lewiston City Council, Rick LaChapelle has been appointed by the Lewiston City Council to the Lake Auburn Watershed Protection Commission. We welcome Rick to the Commission and while he is not able to attend this February meeting due to prior engagements, Rick is looking forward to joining the Commission at our April 13, 2022 meeting.

Lake Auburn Watershed Protection Commission

Meeting Minutes

Wednesday, November 10, 2021

Location: Androscoggin Valley Council of Governments (AVCOG), Auburn, Maine

Time: Meeting began at 3:30 PM

Recording: The meeting was recorded.

Commissioners Present: Camille Parrish, Mary Ann Brenchick, Dan Dube, Amy Landry, Dan Bilodeau, Alan Holbrook and Steve French

Dan Dube was appointed as the City of Lewiston Commissioner- at-Large.

Commissioners Absent: Evan Cyr, Caleb Roebuck

Others Present: Sid Hazelton and Kevin Gagne, LAWPC Clerks, Michael Broadbent LAWPC Secretary, Erica Kidd Watershed Manager, Carolyn Houtz Education and Outreach Coordinator and Heather Hunter Commission Treasurer.

Agenda Item 1: Approve minutes of the regular meeting of September 8, 2021

Vote-1 On a motion by Commissioner Brenchick and seconded by Commissioner Parrish to approve the minutes as presented.

Passed 7-0

Agenda Item 2: Quarterly Financial Update – *Heather Hunter*

Heather went over a quarterly financial report that was last updated November 3, 2021. There have been a few fluctuations particularly in source protection. Overall, the Commission is in good financial shape.

Vote-2 On a motion by Commissioner Landry and seconded by Commissioner Brenchick to accept the quarterly financial report that was presented.

Passed 7-0

Agenda Item 3: 2022 Budget Approval

Heather went over the 2022 proposed Commission Budget. She explained all changes made to the budget and how they affect the operation of the Commission. There are no big changes from 2021 to 2022. There was a small increase in the contributions from both Lewiston and the Auburn Water District.

Vote-3 On a motion by Commissioner Brenchick and seconded by Commissioner Landry to accept the 2022 Budget as presented.

Passed 6-1

Heather reported that she will no longer be able to serve as Treasurer to the Commission. Heather has been with the Commission since its inception. Heather suggested that she stay on until the Audit. She asked how the Commissioners would like to replace her. Heather will look to see if there are any other staff members in Lewiston that could fill the role and Sid will check with the Auburn Water District staff.

Agenda Item 4: Future Agenda Packets

Before discussion on this item was started the Commission did introductions as there was a new Lewiston Commissioner- at-Large present. Dan Dube was introduced and welcomed to the group.

Commissioner Brenchick presented a sample agenda that is similar to what is used by the Water Pollution Control Authority. This style of agenda may help the Commission meetings flow better. This agenda is typically sent with a memo from the Manager which explains the expectation of Commissioners prior to the meeting.

The Commissioners liked the layout and would like to discuss it more at the workshop in December.

Agenda Item 5: Water Quality & Activity Report- *Erica Kidd*

Erica went over water quality graphs that were included in the agenda packet. She pointed out that currently the lake is slightly warmer than normal for this time of year. She reported that turnover of the lake should occur sometime in the coming week. In conjunction with the lake temperature the clarity of the lake is also up. Staff has been working with partners to identify the algae that is currently in the lake.

Erica also went over phosphorus, secci disk readings and fecal/total coliform sampling results from within the lake and its tributaries.

Erica presented on several timber harvests that are on-going on private property within the Watershed. She reviews harvest plans when they are sent to her by the City. There have been instances when she does not get that information so she reaches out to the owners when needed.

Erica has been working with the owners of the new horse farm on West Auburn Rd. This facility has been approved by the City. Erica has been working with them to make sure they understand their impact within the Watershed. There was some concern that those horses would utilize some of the Commission trails. It is un-clear at this time if they plan to utilize the trails in the area.

Erica reported that drainage improvements along Whitman Spring Road are on-going. Lewiston crews have been working to replace culverts and stabilize drainage areas.

Erica provided an update on the City of Auburn's efforts to amend the strip zones within the Watershed. The proposed changes would increase the developable area within the Watershed. The Planning Board has voted against moving forward with this change. The City is also looking to revise their comp-plan. The proposed changes would again increase the developable area within the Watershed. Erica is going to continue to monitor the progress of this revision.

Lake Auburn Study; Sid forwarded all of the Commissioners a copy of the now completed Lake Auburn Study. He would like to receive feedback from Commissioners which would be helpful to present back to the City. The City plans to go over the Study with the Councilors in the Spring on 2022. At this time the City does not plan to have a public presentation of the study. Commissioner Bilodeau recommended that Commissioners look at page 41 and consider adopting more stringent best management practices as they relate to the Commission logging practices.

There was also discussion on working with our neighboring towns to protect the Watershed in those communities.

Blanchard Pond Remediation; Erica went over a Remediation proposal for the Blanchard Pond watershed. This is work Erica would like to see happen in the Spring of 2022.

Vote-4 On a motion by Commissioner Brenchick and seconded by Commissioner Bilodeau to accept the Tighe-Bond proposal and to proceed with the design and remediation work as presented.

Passed 7-0

Carolyn Houtz introduced herself as the new Education and Outreach Coordinator for the Commission. Carolyn has a background in Environmental Science and Stewardship and also has a degree in Environmental Science and Economics. She is excited to join our team and has been getting acclimated with the Watershed. She has updated our social media pages and wants to increase our activity. Carolyn has also started meeting with stewards of the Watershed to introduce herself and start a working relationship.

Agenda Item 9: Open Session-Public Comments

No comments.

Agenda Item 6: Land Negotiation – Executive Session regarding potential land transactions in accordance with 1 M.S.R.A. § 405(6)(E).

Vote-5 On a motion by Commissioner Brenchick and seconded by Commissioner Landry to go into Executive Session pursuant to 1 M.S.R.A. § 405(6)(E).

Passed 7-0

Executive Session ended at 4:53pm

Agenda Item 7: Executive Session regarding potential litigation in accordance with 1 M.S.R.A. § 405(6)(E).

Vote-6 On a motion by Commissioner Brenchick and seconded by Commissioner Landry to go into Executive Session pursuant to 1 M.S.R.A. § 405(6)(E).

Passed 7-0

Executive Session ended at 5:12 pm

Commissioner French asked Sid if he could send all of the Commissioners a copy of the report submitted to the Board of Professional Engineers by Commission attorney, Jim Pross.

Agenda Item 8: December 1 Workshop – Set agenda

There was discussion by the Commissioners that they would like a review of Robert's Rules. There has been discussion about changing the format of the agendas and frequently asked questions by the Commissioners.

Agenda Item 10: Open Session-Commissioners

Dan updated the Commissioners on the progress of the review of the Bi-Laws for the Protection of Lake Auburn. Dan serves on an Auburn Water District appointed committee assigned to review the existing Bi-laws.

Agenda Item 11: Adjourn Meeting.

Vote-7 On a motion by Commissioner Parrish and seconded by Commissioner Bilodeau to adjourn the meeting

Passed 7-0

A true record, attest;

Michael Broadbent
Secretary of the LAWPC

Lake Auburn Watershed Protection Commission

WORKSHOP

Meeting Minutes

Wednesday, December 1, 2021

Location: Androscoggin Valley Council of Governments (AVCOG), Auburn, Maine

Time: Meeting began at 3:30 PM

Recording: The meeting was recorded.

Commissioners Present: Dan Dube, Mary Ann Brenchick, Caleb Roebuck, Amy Landry, Dan Bilodeau, Alan Holbrook, Evan Cyr and Steve French

Commissioners Absent: Camille Parrish

Others Present: Kevin Gagne, LAWPC Clerk, Michael Broadbent LAWPC Secretary, Erica Kidd Watershed Manager and Carolyn Houtz Education and Outreach Coordinator.

Agenda Item 1: Review of Robert's Rules

Commissioner Brenchick gave a presentation on the history and basic guidelines of Robert's Rules. Commissioners then discussed the ability to either adopt all of Robert's Rules or only the sections that apply to the Commission and how it operates.

Items of interest were discussed including majority voting and how to properly close an executive session. It was agreed that the Commission should stay consistent with the Auburn Water District's bi-laws.

Agenda Item 2 & 3: FAQ List – from our Commissioners, Topics for future workshops

Discussions of Robert's Rules led directly into agenda items 2 & 3. The Commissioners are interested in having future workshops and discussed several topics for discussion including some of the frequently asked questions they all have:

- How to properly close/come out of executive sessions.
- Amending the format of meeting agendas
- What specific powers do the Commission Clerks have.
- Create a formal mechanism to set the time frame for meetings and to extend them if needed.

- How and when should we review and comment on the Lake Auburn Study conducted by the City of Auburn.
- Prioritize projects from previous studies in the watershed.
- Creating recreation easements for the City on Commission properties.
- Recreational use of Commission land – trails, snowmobiling, etc.
- Guidance for Commissioners on how to properly engage with surrounding towns on the importance of watershed protection.

A true record, attest;

Michael Broadbent
LAWPC Secretary

Lake Auburn Watershed Commission
Statement of Revenues & Expenditures
As of 12/31/21

	Original Operating Budget	Final Operating Budget	Operating Account	Balance	Sinking Fund	YTD Combined	12/31/20 Combined

Water Quality Report

1. Ice-on was 1/12/22.
2. No in-lake or tributary sampling occurs during ice-on.
3. Turbidity in January has been between 0.4-0.6 NTU.
4. Please see attached temperature and turbidity graphs for reference.
5. Fecal datasheets are also included.

Watershed Report

1. Lake Study proposed septic ordinance change brought to City Council on 1/3/22, who directed the Planning Board to further review the change. This topic has not yet been an agenda item for a Planning Board meeting.
2. Lake Study proposed watershed boundary change also brought to City Council on 1/3/22 and passed to Planning Board for public hearing on 2/8/22.
3. The key points of the Lake Study that could impact the watershed are included in this packet. Please see the Executive Summary and Section 5.
4. City of Auburn will be resurfacing sections of roads in the watershed in 2022: Skillings Corner Road, Johnson Road, Dillingham Hill Road, and Beaver Road.
5. Beaver were trapped and removed near the headwater of Townsend Brook on the Auburn/Turner town line in January.
6. Timber harvests took place on private property in the watershed near Tabers in Auburn.
7. Staff are considering hiring a part-time, year-round Watershed Warden to patrol the watershed in place of the Auburn Police Department lake patrols that take place during the summer.
8. Erica Kidd has been working with Alan Holbrook to include the Town of Turner in watershed protection. More information on the Town of Turner is included in this packet.

Education and Outreach Report

- November 23 Auburn Middle School Field Trip – Pollution lesson, plant tour, Salmon Point walk
- November 20 Salmon Point Clean Up – Cleaning trails, removing Asiatic bittersweet
- January 26 Wildlife and Nature Walk at the Summer Street Conservation Easement
- Tot Lot Presentation and discussions – Next steps are building up a volunteer base and regular clearing days
- Social Media Updates
- Website Updates
- Trail Updates, creating maps for the public
- Planning with Auburn Conservation Commission, Androscoggin Land Trust, for invasive management
- Planning with LA Arts for seasonal art events
- Planning with Auburn Girl Scouts for May Water Day
- 2 cancelled field trips due to COVID – created the need for virtual tours and more digital information

Upcoming Events:

- Edward Little High and AVEC wildlife and nature walks

- February 8th Water and Wildlife – Online presentation hosting the Center for Wildlife
- March 20th Sponsored Public Skate with Lake Stewards of Maine
- June Soil in and out of the Watershed Talk Series

Executive Summary

Lake Auburn is the only public drinking water supply for the Maine cities of Auburn and Lewiston. In recent years, signs of declining water quality have given rise to public calls for actions that would upend the status quo of the last several decades. Some have argued that the authorities in charge of ensuring a clean water supply from Lake Auburn should protect more of the watershed that contributes to the lake. Others have called for the City of Auburn, the Auburn Water District, or other authorities to revise the regulatory framework that protects the lake from encroaching activities that could contaminate it, while still others have proposed proactively building a water filtration plant to treat water of more variable quality. These suggested actions, while not inherently conflicting, have not yet been comprehensively examined for the potential benefits to Lake Auburn's water quality, nor have the regulatory or economic impacts been adequately considered.

The City of Auburn commissioned the present study to address this gap in understanding about Lake Auburn's present state compared to a range of future scenarios. In 2021, the City hired the interdisciplinary consultant team of FB Environmental Associates, Horsley Witten Group, and the University of Maine to 1) carry out a thorough review of existing conditions, standards, regulations, and practices in Lake Auburn and its watershed, 2) quantify to the greatest extent possible the regulatory, environmental, and economic impacts of the current status quo and future scenarios, and 3) evaluate and recommend potential ways forward that maximizes the benefits and minimizes the costs of regulatory, environmental, and economic impacts to Lake Auburn, its watershed, and the surrounding communities.

This report follows three lines of inquiry examining the key aspects of Lake Auburn as a water supply – its regulations, its environment, and its economics. These lines of inquiry are treated individually as sections of this report, but with the understanding that they are closely intertwined and inform each other. **Section 1** introduces Lake Auburn, outlines the motivation and purpose of the study, and gives key background information such as historical context and a summary of current conditions.

Section 2, Analysis of Regulatory Impacts, examines the regulatory framework protecting water quality. City of Auburn regulations are evaluated through literature review and comparative analysis using other water supply lakes and State and federal models. We found that the regulatory framework for the protection of Lake Auburn as a water supply is mostly robust and effective. We recommend several revisions that will better align the regulations with the best available science and State and regional norms and apply them more fairly across different land uses and activities:

- Align the septic system regulations contained in the Lake Auburn Watershed Overlay District Ordinance with the best available science and Maine's septic system regulations.
- Develop a clear set of standards for farm management that will limit phosphorus loading from commercial agricultural activities.
- Incorporate low impact development requirements for new single family residential development.

Section 3, Analysis of Environmental Impacts, analyzes the environmental impact of various development and water quality scenarios for the Lake Auburn watershed. The analysis uses a well-documented watershed model paired with in-lake empirical formulas to predict water quality outcomes under each future scenario. This section also reviews recreational uses of the lake, forest management, and the history of land purchases for water supply protection in the watershed. We find that Lake Auburn reached a tipping point in the 2010s where key environmental thresholds were reached or passed. In the lake, levels of phosphorus – a key nutrient for the growth of aquatic algae – rose above 10 parts per billion (averaged annually) and elevated the risk of algae blooms. Meanwhile, in the watershed, forested land cover dipped below 75% of the land area, meaning that more sources of phosphorus contamination, such as impervious surfaces, areas of bare soil, and septic systems, were contributing to the lake. Treatment of the lake with alum in 2019 was successful and achieved a temporary reset in lake phosphorus levels.

Looking forward, our model projects existing conditions and development rates ahead to 2100 (the "Business as Usual" scenario), by which time Lake Auburn will again near the tipping point of 10 parts per billion phosphorus, even with the regular use of alum treatments. Future scenarios that ease restrictions on residential growth will result in higher concentrations of phosphorus and higher risk of algae blooms. Requiring low impact development – innovative techniques that reduce impervious cover and encourage stormwater to pass through the groundwater before reaching the lake, thus filtering out contaminants – makes a small but significant positive impact on phosphorus and the risk of algae growth.

Section 4, Analysis of Economic Impacts, examines the costs and benefits of the same development and water quality scenarios for the Lake Auburn watershed that are covered by the environmental analysis in Section 3. The analysis combines well-established economic methods with data on land use and water quality to systematically evaluate how these scenarios change or reallocate costs and benefits. We find that the source of the largest increases in benefits in all future scenarios is the increase in property taxes collected by Auburn, which climb from $3.6 million to $9 million annually in the highest development scenario. Meanwhile, the source of the largest extra costs is in dealing with declining water quality in Lake Auburn, especially treating water in a filtration plant which is estimated at over $3 million annually. Table 4-7 provides a detailed summary of our estimated aggregate costs and benefits across all scenarios. We find that the added benefits to Auburn are mostly or entirely offset by increased costs to Lewiston, resulting in negligible net economic benefit to the communities served by Lake Auburn.

Section 5 provides a summary of key findings, a discussion on several topics that overlap the regulatory, environmental, and economic analyses, and a set of holistic recommendations for the City of Auburn and other stakeholders to consider:

1. The City of Auburn should not seek to ease the current resource protection zoning or consider rezoning portions of the watershed for increased density. Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed.

2. The Auburn Planning Board and City Council should take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. The City of Auburn should share the findings on aggregate economic impacts with all partners and stakeholders for use in an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward.

4. The City of Auburn, the Auburn Water District, the City of Lewiston, and the Lake Auburn Watershed Protection Commission should fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed to control development and limit phosphorus loading.

5. The key Lake Auburn stakeholders should cooperatively conduct a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both the Auburn Water District and Bates College in the Lake Auburn watershed. This initiative should produce a monitoring plan, create a position for a full-time, dedicated data manager, continue collaboration with Bates College on student-assisted monitoring, and consider creating a technical science advisory board to the Lake Auburn Watershed Protection Commission to establish or maintain key local, State, and regional partnerships for review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the water supply intake should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. The Lake Auburn Watershed Protection Commission should coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. The Lake Auburn Watershed Protection Commission should develop a comprehensive natural resource management plan for their lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection, with multiple management options offered. The plan should incorporate new mapping of critical resources such as streams, wetlands, vernal pools, cover types, and rare, threatened, and endangered species present.

10. The Lake Auburn Watershed Protection Commission should work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that the Commission consider putting all their properties into permanent conservation.

5 Findings, Synthesis, & Holistic Recommendations

This section draws out key conclusions from the report's preceding Sections 2, 3, and 4 which contain our analyses of the regulatory, environmental, and economic impacts of Lake Auburn as a public drinking water supply. Synthesis and further discussion, along with consideration of examples from comparable water supplies, are also provided for several key conclusions that recur throughout the preceding sections. Lastly, this section puts forth holistic recommendations for the City of Auburn, as well as the broader community of stakeholders, with the aim of promoting water supply protection efforts and initiatives that preserve or improve the balance among regulatory, environmental, and economic impacts.

Key Findings

Section 2, Analysis of Regulatory Impacts

We found that the regulatory framework for the protection of Lake Auburn as a water supply can be revised to be more clearly defined, better aligned with the best available science and State and regional norms, and more fairly applied across different land uses and activities. Specific recommendations are described in depth in Section 2, and direct ordinance language revisions are provided in a separate document to the City. A summary of our recommended revisions is outlined below:

- Revise the septic system requirements of the Lake Auburn Watershed Overlay District Ordinance to incorporate the Maine Subsurface Wastewater Disposal Rules, including provisions that allow for mounded leach fields and other State-approved alternative designs where there is not a native, in-situ, 36-inch vertical separation between the bottom of the organic horizon and the bedrock, water table, or other restrictive layer. Refer to Appendix 1.
- Revise the Phosphorus Control Ordinance to clarify that the limit of a project area does not apply to a given land use but to a demarcated limit of disturbance, such that all disturbance within that area is required to meet the erosion and sedimentation controls and other phosphorus controls under a plan required by the Phosphorus Control Ordinance.
- Require timber harvest and agricultural activities to meet the same requirements as other land uses under the Phosphorus Control Ordinance. Currently, timber management and harvesting must be conducted in accordance with a forest management plan prepared and supervised by a registered forester, while agriculture must be conducted in accordance with a soil and water conservation plan approved by the ACSWCD, making these uses effectively exempt from City oversight. Removing the exemption and requiring timber and agriculture to meet the same erosion control standards under the Phosphorus Control Ordinance would ensure that water quality protection is a central feature of any timber harvesting or agricultural activities in the Lake Auburn watershed.
- Develop a clear set of standards for farm management that will be consistently applied to farms in the watershed for the purpose of controlling erosion and limiting the delivery of excess phosphorus from the farm practices to Lake Auburn. One approach is to set a concrete limit on the amount of agricultural activities that are phosphorus-intensive (e.g., commercial raising of livestock, fertilized row crops, manure spreading). It is important to note that water quality is predicted to be much worse across all future scenarios if agricultural land use does not decline as predicted.
- Adjust the agricultural buffer strip requirement in the Lake Auburn Watershed Overlay District Ordinance to improve its effectiveness. Recommended adjustments include widening the buffer to 75 or 100 feet, requiring the buffer to be vegetated, and requiring the buffer to be located downgradient of all agricultural activities, perpendicular to the direction of overland flow, in all areas of the watershed (as opposed to requiring buffers only for agricultural activities that are adjacent to surface water).
- Update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn Road area.
- Incorporate low impact development requirements for single family residential development on the 1- and 3-acre lots allowed in the Lake Auburn watershed by way of referencing the Maine Stormwater Management Design Manual, Volume 2. The use of low impact development can help to limit the impacts of stormwater runoff and associated erosion and pollutants from sites. The standards as they apply to a water supply watershed are presented below:
  - » Disturbance on an individual lot must be less than 15,000 square feet (including building, driveway, walkways, lawn area, construction access, and grading).
  - » A minimum natural vegetated buffer must be maintained downgradient of all developed areas on the lot. This buffer shall be 50 feet wide if naturally forested or 75 feet wide if maintained as a natural meadow.
  - » No more than 7,500 square feet of impervious cover is located on the property.
  - » A minimum of 40 percent of the lot area must be maintained as an undisturbed natural area. If the existing land has been disturbed by prior activities, a natural vegetated buffer and/or undisturbed natural area may be proposed through restoration and revegetation.

Section 3, Analysis of Environmental Impacts

We found that Lake Auburn water quality in the last decade had reached a tipping point, whereby nuisance algae blooms were becoming more frequent and were threatening the filtration waiver. The partial alum treatment conducted in 2019 significantly reduced the

in-column total phosphorus concentration and locked in a portion of the sediment-bound phosphorus, effectively resetting the system and giving the water districts additional time to ramp up watershed protection and nutrient reduction efforts. We also found that projecting current status quo conditions into the future (i.e., the "Business As Usual" scenario) resulted in Lake Auburn once again reaching a tipping point by 2100, even with the assumption that the in-column total phosphorus concentration and sediment-bound phosphorus would be repeatedly reset by an alum treatment every 10 years (see discussion in Section 2 about this assumption for further context). Modeled predictions for the other future scenarios where the regulatory framework is adjusted to allow more development in the Auburn portion of the watershed results in greater water quality degradation and a higher risk of blooms, ultimately triggering the need for a filtration plant in the "Maximum Development Allowing Building on LAWPC Lands" scenario. The use of low impact development techniques has a small positive effect on water quality in these future scenarios but does not ameliorate the high risk of frequent algae blooms. Taken together, the future scenarios show that Auburn alone does not have the land use control tools to stave off water quality decline in Lake Auburn; sustained collaboration with the upper watershed municipalities is essential to achieve the needed phosphorus load reductions over the remainder of the 21st century.

Section 4, Analysis of Economic Impacts

We found that expanding development in the Lake Auburn watershed provided minimal overall net economic benefit when accounting for the benefits and costs of all affected stakeholders, including the City of Lewiston who would otherwise carry the additional costs of watershed protection and water treatment through the existing cost sharing agreement in order for the City of Auburn to benefit from increased property tax revenues. In other words, the increased net benefits to the City of Auburn would be mostly or entirely offset by increased net costs to AWD and LWD customers, resulting in negligible net economic benefit to the communities served by Lake Auburn. This reallocation of benefits and costs among all affected stakeholders for the future scenarios highlights important questions of equity and fairness, which were raised during the process of producing this report and conversing with key community representatives. We emphasize that the costs associated with addressing declining water quality are costs to all water users and that the risk of incurred costs that are higher than our conservative estimates is very real.

Synthesis & Discussion

In summary, our analyses determined that Lake Auburn is nearing its assimilative capacity for nutrient load (even with the partial alum treatment) and cannot handle much more additional nutrient load without diminishing water quality and its associated benefits. We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed. Instead, we recommend that low impact development strategies are incorporated into existing zoning standards and required for all future development and redevelopment projects in the Auburn portion of the watershed. We also recommend that the other four headwater towns of Turner, Minot, Hebron, and Buckfield also incorporate low impact development requirements on future development projects. Lake Auburn cannot maintain excellent water quality in the future without the full participation of the other watershed towns. More development cannot be allowed in the Auburn portion of the watershed even with low impact development requirements implemented in Auburn. Even if reduced development through conservation or other means is achieved in the headwater towns, any additional development in Auburn has an outsized negative impact since its drainage area goes directly to the lake. It is also important to understand that a filtration plant does not allow for greater development of the watershed because the filtration plant only treats extracted drinking water for the consumer and does not treat in-lake water quality for recreation and for meeting State criteria for designated uses.

> We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed.

Below, we present further discussion on three important topics: regulation of septic systems, environmental risk and uncertainty, and comparable water utilities.

Regulation of septic systems: The regulatory and environmental analyses examined multiple issues surrounding septic systems and their contributions of phosphorus to Lake Auburn. At first glance, there may appear to be a contradiction between 1) the recommended ordinance revision from the regulatory analysis (Section 2) that the septic design standard should be revised in such a way that will allow previously non-buildable sites to become buildable and 2) the conclusion from the environmental analysis (Section 3) that Lake Auburn will arrive at a tipping point of declining water quality by 2100 even in the absence of any pro-development changes (i.e.,

the "Business As Usual" scenario). Indeed, our buildout analysis determined that more than 100 additional new homes could be built in the watershed if the septic system siting requirement for 36 inches of suitable in-situ soil were revised.

To address this apparent contradiction, we argue that the septic design standard should be judged not only by its adherence to the best available science but by its simplicity, straightforwardness, and fairness. The key questions are: does the existing septic design standard accomplish its stated purpose of regulating septic systems effectively for water quality protection, or is its water quality benefit primarily in its de facto restriction of buildable areas in the watershed? Are there improvements that could be made to achieve the stated goal? With our recommended revision, we aim to have the septic design standard achieve its stated purpose of effectively regulating both new septic system construction and replacement/reconstruction of existing septic systems as they age out, so that septic systems with alternative technologies and innovative phosphorus controls can be phased in. Restrictions on developable land are better left to base and resource protection zoning than to septic design standards.

The project team also noted in conversations with multiple Lake Auburn stakeholders a concern about an unintended consequence of the requirement in the current ordinance for 36 inches of suitable in-situ soil to site a septic system. The concern is that this requirement for deep, native soils has led to the preferential siting of some septic systems on deep formations of sand and gravel aquifer, which provide some of the only suitable sites in the watershed with the requisite depth to bedrock, water table, or other restrictive layer. While our team did not conduct any field assessments, witness this condition firsthand, or review any documentation of this condition, we agree with the premise that these sand and gravel formations should not be considered suitable sites for septic systems, at least without the importation of suitable reactive soils for nutrient and pathogen processing that the recommended ordinance revisions would allow. Adopting the Maine State standards while preserving the minimum 36-inch vertical separation would alleviate the potential for this unintended consequence.

Environmental risk and uncertainty: The risk of deteriorating water quality threatening Lake Auburn's ability to remain a high quality public drinking water supply is a throughline of this entire study. In its simplest terms, risk is the probability of a negative outcome, though the severity of the negative outcome in question is usually included when evaluating that risk. A high risk of a minor inconvenience (e.g., the risk of getting caught in traffic if leaving downtown Boston by car at 5:00 PM on a business day) requires minimal forethought, while a low risk of major damage (e.g., the risk of a flood destroying private or public infrastructure from a hurricane or Nor'easter) requires extensive planning and preparation. Uncertainty is the degree to which the risk cannot be quantified, due to a number of factors, such as insufficient data about existing conditions, insufficient predictive models for the future, and inherent randomness in nature. It is difficult but possible to predict with reasonably low uncertainty the risk of an outcome that has occurred before (e.g., an algae bloom in Lake Auburn). It gets much more difficult to predict the risk of a particular outcome (e.g., a filtration waiver violation in Lake Auburn) if that outcome has never occurred before, because the data and predictive models have not been tested against that outcome in the real world. In this situation, the uncertainty surrounding such an outcome remains relatively high even with excellent data and predictive models.

This study examined Lake Auburn's risk of negative water quality outcomes now and in the future under various scenarios, though with considerable uncertainty due to a number of confounding or unknown factors. However, we can say with certainty that all additional development raises the risk of water quality degradation, whether due to phosphorus loading, pathogens from subsurface wastewater disposal, emerging contaminants such as pharmaceuticals and personal care products, etc. Even if the increased risk resulting from any individual parcel-scale decision is small, the aggregate impact of thousands of individual decisions over the coming decades is what matters.

From a risk management perspective, the entire spectrum of outcomes should at least be understood, including the least probable, most negative outcome (i.e., the worst-case scenario). The worst-case scenario would be that Lake Auburn's water quality would deteriorate past the point of useful public drinking water supply. Phosphorus enrichment to the point of having uncontrolled algae blooms every year, with cyanobacteria and associated cyanotoxins, would be the most likely condition of such a worst-case scenario. If this unlikely but highly undesirable scenario were to occur, Auburn and Lewiston would be forced to consider other alternatives that previously would not have been seriously deliberated, such as drawing upon the Androscoggin River for drinking water. The cost of this worst-case scenario was not evaluated in our economic analysis because our environmental models do not predict conditions to deteriorate to that degree under the chosen scenarios. But in managing environmental risk, this unlikely but highly undesirable outcome should be included in the overall picture of Lake Auburn's possible future.

Comparable water utilities: Comparison of Lake Auburn and LAWPC/AWD/LWD with other water sources and utilities is illustrative of their strengths, weaknesses, and projected future needs (Table 5-1). Lake Auburn's key

Table 5-1. Lake Auburn and comparable water supply lakes and ponds in Maine.

Waterbody	Water Utility	Waterbody Surface Area (acres)	Watershed Area (acres)	Communities Served	Watershed Communities	Filtration Waiver?
Lake Auburn	Auburn Water District	2,277	9,651	Auburn, Lewiston, Poland	Auburn, Turner, Minot, Hebron, Buckfield	Yes
China Lake	Kennebec Water District	29,992	234,000	Waterville, Winslow, Fairfield, Benton, Vassalboro, Maine Water Company - Oakland	Vassalboro, China, Albion	No
Sebago Lake	Portland Water District	635	4,600	Portland, South Portland, Westbrook, Falmouth, Cumberland, Cape Elizabeth, Gorham, Windham, Scarborough, Raymond	24 municipalities (Androscoggin, Cumberland, Oxford counties)	Yes
Floods Pond	Bangor Water	3,939	16,704	Bangor, Eddington, Hampden, Hermon, Orrington, Clifton, Veazie, Hampden Water District	Otis, Clifton	Yes

comparables are China Lake, which supplies the Kennebec Water District (KWD) serving Waterville and surrounding communities; Sebago Lake, supplying the Portland Water District (PWD); and Floods Pond, used by Bangor Water, an independent water utility, to serve Bangor and surrounding communities.

China Lake is nearly double the size of Lake Auburn, with a 3,939-acre lake surface and a nearly 17,000-acre watershed, but the lake divides into two basins nearly equal in size, the west basin and the east basin. The KWD has a water supply in-take located in the west basin, where the shoreline is mostly under KWD control and managed as water supply protection land. The east basin is nearly all under private ownership and has much more shoreline development. The China Lake Outlet Stream, the only outlet of the entire lake, is in the west basin at the dam in Vassalboro. Considered by itself, the west basin is very similar to Lake Auburn in terms of shoreline and watershed management - mostly forested, under public water utility control, with universal restrictions on swimming and bodily contact but with limited recreational fishing allowed. Like Lake Auburn, China Lake serves one community within the lake watershed (Vassalboro) and several communities outside its watershed (Waterville, Winslow, Fairfield, Benton, and the Maine Water Company in Oakland), while the upper watershed towns of China and Albion do not use KWD water.

The key difference between China Lake and Lake Auburn is that China Lake has experienced algae blooms nearly every summer since the 1980s. Blooms were more severe through the 1980s and 1990s, and since the early 2000s, there have been some trends of improvement, including coldwater fish species survival. Since 1993, KWD has filtered the drinking water supply using a granular activated carbon filtration system capable of producing up to 12 MGD, though current demand stands at 3 MGD. The plant was constructed in the early 1990s for a cost of roughly $25 million. According to KWD Superintendent Roger Crouse, P.E., if water quality were to decline significantly from its current stable state, such as increased algae blooms and turbidity, KWD would have to change their operations to handle the lower quality in-take water (R. Crouse, pers. comm). The carbon filters would need to be backwashed more frequently, and the additional backwash water would need to be accommodated somehow in the existing lagoons or else the lagoons would need to be expanded at significant cost. The alum dose used to pretreat the water before filtration would also need to be raised. The key takeaway is that decreased in-take water quality at a filtration plant taxes the system, raises the volume of the waste stream, and adds significant cost and complexity to the treatment process, meaning that water supply managers cannot forgo water quality protection efforts simply because a filtration system is in place.

Sebago Lake is the public drinking water supply source used by the PWD to supply Portland, South Portland, Westbrook, and surrounding Greater Portland communities - roughly one sixth of Maine's population. The lake is roughly 10 times the size of Lake Auburn, with a surface area of nearly 30,000 acres and a watershed area of 235,000 acres. Sebago is the deepest lake in New England at 316 feet at its deepest point. Like Lake Auburn, Sebago Lake qualifies for a filtration waiver owing to a history of excellent water quality. The existing disinfection plant has a production capacity of 54 MGD and currently experiences a demand of 22 MGD. With such a large water supply lake, the capacity of the plant will be exceeded long before any concern of safe yield from the lake arises.

Land use in the Sebago Lake watershed is largely composed of private forestlands. The PWD owns 2,500 acres (or about 1% of the watershed), with 800 acres of mostly shoreland designated as 'No Trespassing' and 1,700 acres of land designated as free for public access for many forms of recreation. Another 28,000 acres are owned or

managed by land trusts. The water supply in-take is at the far southern extent of the lake in the Lower Bay. A 3,000-foot 'No Trespassing' zone surrounds the in-take, and no bodily contact is allowed within two miles of the in-take. Boating, fishing, snowmobiling, and ice fishing are allowed within the 2-mile limit but not within the 3,000-foot limit. Overall, the restricted area is very similar in size and structure to that of Lake Auburn (with the exception that the on-ice activities are not allowed on Lake Auburn). Taking Sebago Lake as a whole, however, the major difference with Lake Auburn is that Sebago's Lower Bay comprises a small fraction of the overall lake, the rest of which has no special swimming or boating restrictions for water supply.

Sebago Lake and its watershed are located many miles away from the service areas of the PWD. This geographical separation means that the communities served by PWD have no ability to enact land use controls on the lakeshore or in the watershed, unlike the situation in Lake Auburn where the City of Auburn can use its zoning ordinances to enact protections for the shorefront and watershed. It is likely that this lack of control over Sebago Lake's upper watershed has spurred the PWD to focus on cooperation with land trusts and private forestland owners to conserve tracts of land. As an example, PWD Environmental Services Manager Paul Hunt told the project team that the PWD is part of a partnership, Sebago Clean Waters, that seeks to raise the total amount of land conserved (and managed at least partly for water supply protection) from the current 12% of the watershed to 25% in the next 15 years (P. Hunt, pers. comm).

In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Floods Pond in Otis, Maine has been the public water supply source for Bangor Water, the independent water district that serves Bangor and surrounding communities since 1959. At 635 acres of surface area, surrounded by a 4,600-acre watershed in Otis and neighboring Clifton, Floods Pond is less than half the size of Lake Auburn. Maximum depth is similar at 133 feet. Like Lake Auburn, Floods Pond also qualifies for a filtration waiver owing to its historically excellent water quality.

Land use in the Floods Pond watershed is largely controlled by Bangor Water, which owns or holds landowner agreements to manage 4,500 acres or more than 99% of the watershed land area. There is no public access to Floods Pond, which is home to a native population of Arctic char (Salvelinus alpinus), a coldwater fish species closely related to both salmon and lake trout that has been used by the Maine Department of Inland Fisheries and Wildlife to establish coldwater fish populations in other Maine lakes. Fishing, boating, and swimming are prohibited, as are hiking, wildlife viewing, and hunting in posted areas that include the entire shoreline.

The geography of Floods Pond as a water supply resembles China Lake more than Lake Auburn. The vast majority of Bangor Water customers are in downstream communities (Bangor, Eddington, Hampden, Hermon, and Orrington), while the protected shoreline and watershed areas are in upstream communities that do not use the water. (A small portion of Clifton is served by Bangor Water.) Bangor Water controls nearly all the Floods Pond watershed in Otis and Clifton, 4,500 acres total and more than LAWPC controls in the Lake Auburn watershed. Recreational activities are also much more restricted at Floods Pond than at Lake Auburn. Floods Pond provides a useful comparison point at the more restrictive end of the spectrum that puts the lost tax revenues and recreational opportunities at Lake Auburn in perspective.

To summarize, these comparisons with other water supply lakes demonstrate that the protections surrounding Lake Auburn do not exceed those of China Lake, Sebago Lake, or Floods Pond. The restrictions on recreational opportunities at Lake Auburn are similar to those at other drinking water supplies, including filtered and unfiltered water sources. Similarly, land use restrictions within the Lake Auburn watershed are far from the most prohibitive among the examples discussed, with only 20% of the watershed held or managed as water supply land compared to 99% of the Floods Pond watershed. In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Holistic Recommendations

1. We recommend that the City of Auburn not seek to ease the current resource protection zoning or

consider rezoning portions of the watershed for increased density (e.g., village node-style development). Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed, preferably areas already served by sanitary sewer (for the benefit of nearby water resources such as the Androscoggin River). This recommendation is based on two key findings of this study that are fully elaborated in Section 3:

- Lake Auburn and its watershed are already at or near the key environmental thresholds of 10 parts per billion annual average total phosphorus and 75% forested watershed land cover; and
- The future scenario models showed that easing restrictions on further development in the Lake Auburn watershed would set the lake on a path toward deteriorating water quality, regardless of the beneficial effects of requiring low impact development techniques and without obvious management strategies to combat further declines in water quality.

2. We recommend that the Planning Board and City Council take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. If not acceptable in their current form, the recommended revisions should be reworked and made more practicable but not watered down or fundamentally changed in their intent or effect. These recommended changes represent a move toward simpler, more transparent, more evenly applied regulations that are based on the best available science. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. We recommend that the City of Auburn share the findings of Section 4, Analysis of Economic Impacts, with all partners and stakeholders so that the accounting of aggregate economic impacts of the existing conditions and various future scenarios are used as the basis for an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward. This recommendation is based on the key finding that any net benefits to the City or Auburn residents and taxpayers from expanded residential development in the Lake Auburn watershed would be counterbalanced by additional costs to Lewiston and its residents and taxpayers, in the form of increased costs associated with mitigating declining water quality and decreased benefits from recreation. These findings are fully elaborated by Section 4 of this report. As a next step in this planning process, we recommend that a scenario be modeled and run through a benefit cost analysis that meets the target water quality goal for Lake Auburn, which was not possible in the future scenarios modeled in this study when considering Auburn-only changes to regulations and management approaches. Developing a scenario that meets the water quality goal may require several iterations. The scenario should likely expand the existing Lake Auburn Watershed Overlay District to the upper watershed towns, require implementation of low impact development techniques on new development watershed-wide, and account for septic design standard changes.

4. We recommend that the City of Auburn, City of Lewiston LWD, AWD, and LAWPC fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed (Turner, Minot, Hebron, and Buckfield) to control development and limit phosphorus loading. Historically, LAWPC has been an active player in fostering collaborative action between the local governments, with representation from the upper watershed towns. This recommendation is based on the key finding from this study that Auburn alone cannot accomplish sufficient phosphorus load reductions to prevent deteriorating water quality in Lake Auburn, but will require active participation from the upper watershed towns. This finding is fully elaborated in Section 3.

5. We recommend completing a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both AWD and Bates College in the Lake Auburn watershed. Identify gaps based on weaknesses and assumptions for the model. From the review and gap analysis, devise a robust long-term water quality monitoring plan and annual cost estimate for Lake Auburn. We also recommend that 1) the AWD hire a full-time, dedicated data management technician for improved management, access, and analysis of collected water quality data; 2) the AWD and LWD continue collaboration with Bates College on student-assisted monitoring; and 3) LAWPC consider creating a technical science advisory board to establish or maintain key local, State, and regional partnerships that can help to provide regular review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the in-take should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. We recommend that the LAWPC coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. We recommend developing a comprehensive natural resource management plan for LAWPC lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection if in the interest of public water supply protection, with multiple management options offered. We also recommend developing natural resource inventories for all LAWPC lands to map critical streams (perennial and intermittent), wetlands, vernal pools, cover types, rare, threatened, and endangered species present, etc. to include in individual natural resource management plans that set management objectives and methods to achieve water resource and wildlife habitat protection for each LAWPC parcel. If timber harvesting continues in the Lake Auburn watershed on LAWPC or private lands, then we recommend a series of actions to minimize forestry impacts to water quality. Refer to Forest Management in Section 3.

10. We recommend that LAWPC work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that LAWPC consider putting all their properties into permanent conservation. These properties are currently protected under the LAWPC by-laws but provide no higher-level legal protection from future development if said by-laws were to be revoked.

Town of Turner Regulations that are Helpful to LAWPC

1. **Erosion and Sedimentation Control Policy**:
    a. Activities that disturb soil and require a permit need an E&S plan.
2. **Zoning Ordinance**:
    a. Districts-
        i. Rural I District
            1. Purpose is to maintain rural character including agricultural and forest lands.
            2. Medium density allowed.
        ii. Rural II District
            1. Purpose is preserve areas not well suited for development.
            2. Includes 'critical watersheds'.
            3. Development at low densities- 5 acre min. lot size.
        iii. Shoreland District
            1. Allows residential use while protecting water quality.
        iv. Resource Protection District
            1. Purpose is to regulate development which would adversely affect water quality, etc.
        v. Many potential uses in these districts require a Site Plan Review by the Planning Board, which includes a review of potential impacts to water quality.
    b. Performance Standards-
        i. Soils
            1. Land uses must not cause severe erosion, mass soil movement, or water pollution.
            2. Soils report required for subsurface wastewater disposal
        ii. Water Quality
            1. No discharge of any pollutant to waters of the State is permitted
        iii. Septic Waste Disposal
            1. Before a building permit is issued, a soil suitability report required.
        iv. Shoreland Areas
            1. 100' setback from high-water line of ponds; 75' setback from wetlands
            2. New construction must minimize stormwater runoff from site
            3. Agriculture limitations- manure stockpiles, tilling, etc.
            4. Vegetation removal limitations
        v. Individual Lot Phosphorus Management
            1. Purpose of these standards to maintain water quality of lakes and ponds in Turner and those it shares with adjacent communities by controlling the transport of phosphorus from their direct watersheds.
            2. Phosphorus Management Control Permit required for development activities within the direct watershed of a lake or pond.
3. **Comprehensive Plan Update Section I (2020)**:
    a. Planning Area: Natural Resources-

i. Turner's goal: to maintain the high quality of its own natural resources and those it shares, or to improve the quality if they have been diminished.
ii. Section notes that development can create higher concentrations of phosphorus, a detriment to water quality. Acknowledges part of Lake Auburn watershed is in Turner and that Little Wilson Pond crosses town borders into Auburn.

b. Planning Area: Regional Coordination-
i. Turner's goal: to develop and participate in regional programs to achieve common desires.
ii. Includes Lake Auburn watershed and that portion of the watershed contained in Turner
iii. As part of the *Regional Coordination Policy*, Turner will:
1. Continue to participate in the *Lake Auburn Watershed Protection Commission* by having a Turner representative on the board.
2. Develop with appropriate communities an acceptable lake protection level for phosphorus concentration for Little Wilson Pond.
3. Regulate development within the Lake Auburn watershed to comply with assigned lake protection levels.
4. Seek professional assistance in determining appropriate lake protections levels and ordinance provisions. This is a Planning Board responsibility.

4. **Comprehensive Plan Update Section II (2020)**:
a. Natural Resources-
i. Acknowledges Lake Auburn is an important cold water fishery and the drinking water supply for Lewiston and Auburn.
ii. Includes phosphorus data for Mud Pond, Little Wilson Pond, The Basin, and Lake Auburn.

Town of Turner Watershed Projects Recommended in Prior Studies

Diagnostic Study of Lake Auburn and its Watershed: Phase 1 (2013):

1. Skillings Corner Road: Culvert near intersection with Fern Street and Wilson Hill Road- remove sediment accumulation and stabilize bank. Evaluate size and effectiveness of culvert to minimize overtopping of road.
2. Robinson Road: Roadside stabilization, riprap to slow water velocity
3. Little Wilson Pond Road: install shoreline stabilization and sediment BMPs along the road
4. East Hebron Road: Armor roadside along channel.

Diagnostic Study of Lake Auburn and its Watershed: Phase 2 (2014):

1. Monitor sediment accumulation in The Basin and upstream ponds at the beginning and end of each sampling season.

The Origins and Dynamics of Phosphorus in Maine's Lake Auburn Watershed (2020):

1. Ground-truth the loading hotspots identified by the Soil and Water Assessment Tool (SWAT). Look for signs of runoff and/or erosion-induced loading. Implement intervention strategies as needed.
2. Continue to increase watershed sampling. This could involve conducting in-lake sampling in the Basin, *Little Wilson Pond, and Mud Pond*. Focus particular attention on the Basin, *Little Wilson Pond, and Mud Pond*.
3. Investigate potentially high loading around Mud Pond. Consider conducting sampling in and around Mud Pond, then explore mitigation measures.
4. Pursue mitigation strategies for any AWD/LWD sampling location with P concentrations over 20 ug/L.

Completed Projects (2015-2017 EPA Grant):

1. Culvert upsized on Little Wilson Pond Road
2. Culvert upsized on Gurschick Road
3. Little Wilson Pond waterfront property owners installed stormwater BMPs

City Council Information Sheet

Council Workshop or Meeting Date: January 3, 2022 **Order:** 05-01032022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Initiate the discussion of Zoning Considerations from 2021 Updated Comprehensive Plan

---

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. We do not have capacity to consider all the changes at once, but we plan an ambitious effort to have changes under consideration going forward. Below are four changes that staff suggests we start discussing by having the Council initiate their consideration pursuant to Chapter 60, Article XVII Division 2 of City Ordinances. Initiation of these discussions will direct staff to draft the amendments and forward them to the Planning Board for a public Hearing and recommendation back to the Council on how to proceed.

---

a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to Commercial Development District (CDD). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended. (See attached a.)

Proposed Zone Change:

COMMERCIAL DEVELOPMENT DISTRICT (CDD)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses **–** The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- Low and High Residential Density Uses
- Retail uses including large-scale uses (>100,000 square feet)
- Personal and business services

- Business and professional offices
- Medical facilities and clinics
- Restaurants
- Hotel, motels, inns, and bed & breakfast establishments
- Low and High-Density Residential Uses
- Community services and government uses
- Research, light manufacturing, assembly, and wholesale uses
- Truck terminals and distribution uses
- Contractors and similar activities
- Motor vehicle and equipment sales
- Motor vehicle service and repair
- Recreational and entertainment uses and facilities

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

b. **Washington Street Area;** 716 acres from General Business to Commercial Formed Based Code Gateway Development District. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052. (See attached b.)

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)

Objective – To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the city. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update. The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi dwelling development with up to three stories (plus attic space), with multiple

commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited, and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

c. <u>Court Street/City Core of Urban Residential Area;</u> 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas. (See attached c.)

<u>TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)</u>

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

d. **Subsurface Wastewater Disposal in the Lake Auburn Watershed**; Maintain a requirement for a minimum depth of 36 inches above the limiting factor/constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

City Budgetary Impacts: Up to $5,000 in approved Comprehensive Plan Implementation funds for State Geologist/Soil Scientist/Site Evaluator and mapping consultation. The changes will result in new investment and create new taxable value.

Staff Recommended Action: Direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council.

Previous Meetings and History: December 6th Council adoption.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

3 Analysis of Environmental Impacts

This section analyzes the environmental impact of various development and water quality scenarios for the Lake Auburn watershed. The analysis uses a well-documented watershed model paired with in-lake empirical formulas to predict water quality outcomes under each future scenario. This section also reviews recreational threats and opportunities, current forestry practices, and LAWPC's land conservation strategy.

Water Quality Modeling

Boundary Change

Based on hydrogeologic studies (E.C. Jordan Co., 1990; Woodard & Curran, 1995; Summit Environmental Consultants, Inc., 2007) of the sand and gravel operations and former City of Auburn landfill along Gracelawn Road, a portion of the existing watershed area was determined to flow away from Lake Auburn in a southerly and easterly direction (Figure 3-1). Groundwater flow studies around the sand and gravel operations showed groundwater flowing south to an unnamed brook in a ravine just south of Mt. Auburn Avenue that flows to the Androscoggin River. Previous analyses of groundwater monitoring well data around the landfill showed low and diminishing levels of leachate indicators on the lakeside compared to increasing levels on the south side away from the lake. The combined properties with sand and gravel operations owned by CLH & Sons, Inc. and Get Er Done, LLC cover 115 acres in the southern portion of the Lake Auburn watershed and are bounded to the north by Lake Auburn and a LAWPC-owned parcel, to the east by a Central Maine Community College-owned parcel, to the south by Gracelawn Road, and to the west by a LAWPC-owned parcel. Based on review of the groundwater contours and 2-ft surface contours, the proposed watershed boundary reduces the watershed area by 148 acres, possibly reducing the original CEI, Inc. (2010) total phosphorus load to Lake Auburn by about 44 kg/yr.

Baseline Model Run

The baseline or "existing conditions" model run was performed using the revised version of the ArcView Generalized Watershed Loading Function (AVGWLF): MapWindow Version 4.6.602 and MapShed Version 1.5.1, available online through the Stroud Water Research Center's Wiki-Watershed. Following MapShed documentation, model files were prepared for input and processing to generate watershed nutrient loading estimates by sub-basin. These sub-basin nutrient loading estimates were run through a simplified version of the Lake Loading Response Model (LLRM) (AECOM, 2009) to account for sub-basin water and nutrient load attenuation, other water and/or nutrient sources such as atmospheric deposition, internal loading, and septic systems, and in-lake factors such as pan evaporation and annual withdrawal for drinking water. The net water and nutrient loads, along with calculated lake characteristics, were used in several well-known empirical formulas to estimate the in-lake total phosphorus concentration of Lake Auburn.

A summary of inputs and assumptions is provided below. Refer to supplemental model documentation for more detail (available through the City of Auburn).

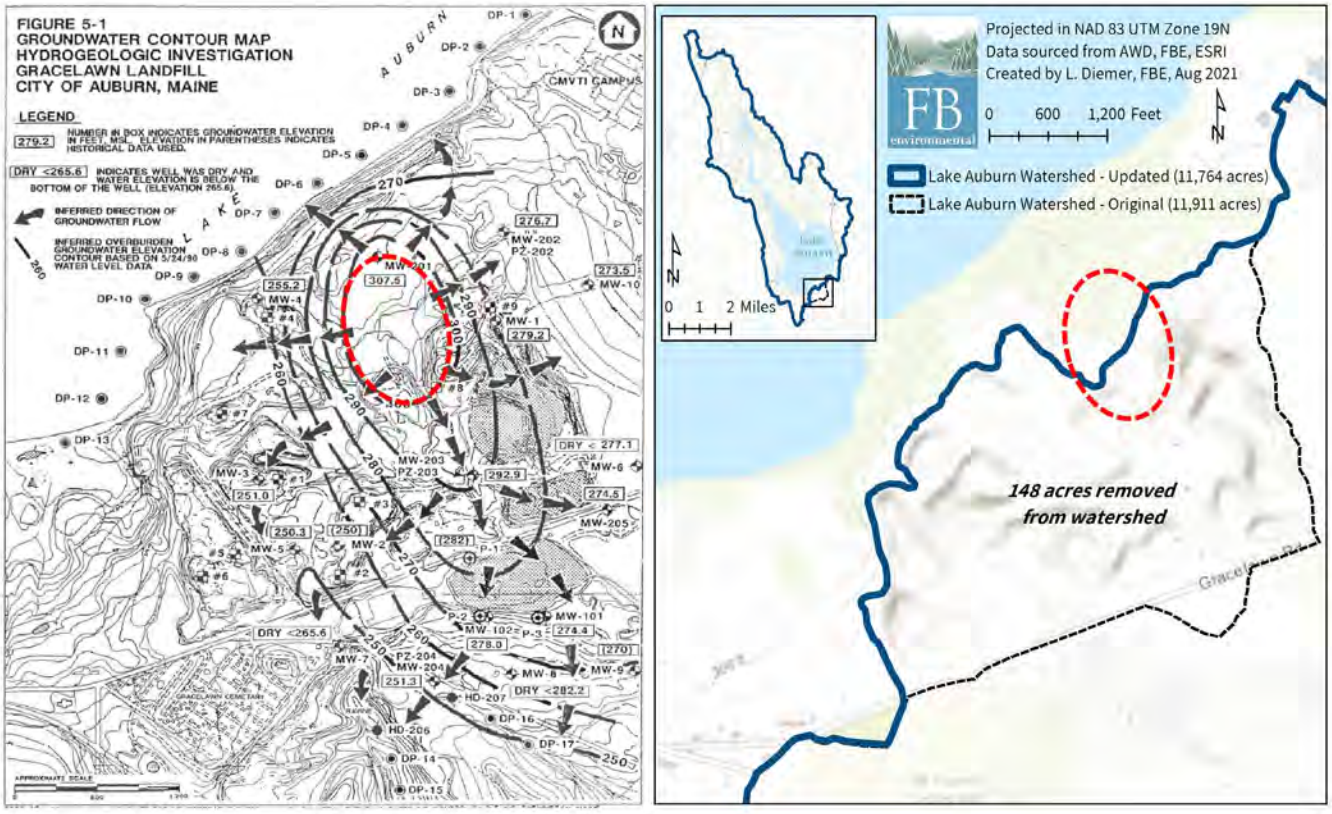

Figure 3-1. Map of groundwater contours developed by E.C. Jordan Co. (1990) (left) compared to map of updated watershed boundary (right). The dotted red circle is provided for ease of reference between the two maps.

5 Findings, Synthesis, & Holistic Recommendations

This section draws out key conclusions from the report's preceding Sections 2, 3, and 4 which contain our analyses of the regulatory, environmental, and economic impacts of Lake Auburn as a public drinking water supply. Synthesis and further discussion, along with consideration of examples from comparable water supplies, are also provided for several key conclusions that recur throughout the preceding sections. Lastly, this section puts forth holistic recommendations for the City of Auburn, as well as the broader community of stakeholders, with the aim of promoting water supply protection efforts and initiatives that preserve or improve the balance among regulatory, environmental, and economic impacts.

Photo Credit: Sun Journal

Key Findings

Section 2, Analysis of Regulatory Impacts

We found that the regulatory framework for the protection of Lake Auburn as a water supply can be revised to be more clearly defined, better aligned with the best available science and State and regional norms, and more fairly applied across different land uses and activities. Specific recommendations are described in depth in Section 2, and direct ordinance language revisions are provided in a separate document to the City. A summary of our recommended revisions is outlined below:

- Revise the septic system requirements of the Lake Auburn Watershed Overlay District Ordinance to incorporate the Maine Subsurface Wastewater Disposal Rules, including provisions that allow for mounded leach fields and other State-approved alternative designs where there is not a native, in-situ, 36-inch vertical separation between the bottom of the organic horizon and the bedrock, water table, or other restrictive layer. Refer to Appendix 1.
- Revise the Phosphorus Control Ordinance to clarify that the limit of a project area does not apply to a given land use but to a demarcated limit of disturbance, such that all disturbance within that area is required to meet the erosion and sedimentation controls and other phosphorus controls under a plan required by the Phosphorus Control Ordinance.
- Require timber harvest and agricultural activities to meet the same requirements as other land uses under the Phosphorus Control Ordinance. Currently, timber management and harvesting must be conducted in accordance with a forest management plan prepared and supervised by a registered forester, while agriculture must be conducted in accordance with a soil and water conservation plan approved by the ACSWCD, making these uses effectively exempt from City oversight. Removing the exemption and requiring timber and agriculture to meet the same erosion control standards under the Phosphorus Control Ordinance would ensure that water quality protection is a central feature of any timber harvesting or agricultural activities in the Lake Auburn watershed.
- Develop a clear set of standards for farm management that will be consistently applied to farms in the watershed for the purpose of controlling erosion and limiting the delivery of excess phosphorus from the farm practices to Lake Auburn. One approach is to set a concrete limit on the amount of agricultural activities that are phosphorus-intensive (e.g., commercial raising of livestock, fertilized row crops, manure spreading). It is important to note that water quality is predicted to be much worse across all future scenarios if agricultural land use does not decline as predicted.
- Adjust the agricultural buffer strip requirement in the Lake Auburn Watershed Overlay District Ordinance to improve its effectiveness. Recommended adjustments include widening the buffer to 75 or 100 feet, requiring the buffer to be vegetated, and requiring the buffer to be located downgradient of all agricultural activities, perpendicular to the direction of overland flow, in all areas of the watershed (as opposed to requiring buffers only for agricultural activities that are adjacent to surface water).
- Update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn Road area.
- Incorporate low impact development requirements for single family residential development on the 1- and 3-acre lots allowed in the Lake Auburn watershed by way of referencing the Maine Stormwater Management Design Manual, Volume 2. The use of low impact development can help to limit the impacts of stormwater runoff and associated erosion and pollutants from sites. The standards as they apply to a water supply watershed are presented below:
  - » Disturbance on an individual lot must be less than 15,000 square feet (including building, driveway, walkways, lawn area, construction access, and grading).
  - » A minimum natural vegetated buffer must be maintained downgradient of all developed areas on the lot. This buffer shall be 50 feet wide if naturally forested or 75 feet wide if maintained as a natural meadow.
  - » No more than 7,500 square feet of impervious cover is located on the property.
  - » A minimum of 40 percent of the lot area must be maintained as an undisturbed natural area. If the existing land has been disturbed by prior activities, a natural vegetated buffer and/or undisturbed natural area may be proposed through restoration and revegetation.

Section 3, Analysis of Environmental Impacts

We found that Lake Auburn water quality in the last decade had reached a tipping point, whereby nuisance algae blooms were becoming more frequent and were threatening the filtration waiver. The partial alum treatment conducted in 2019 significantly reduced the

in-column total phosphorus concentration and locked in a portion of the sediment-bound phosphorus, effectively resetting the system and giving the water districts additional time to ramp up watershed protection and nutrient reduction efforts. We also found that projecting current status quo conditions into the future (i.e., the "Business As Usual" scenario) resulted in Lake Auburn once again reaching a tipping point by 2100, even with the assumption that the in-column total phosphorus concentration and sediment-bound phosphorus would be repeatedly reset by an alum treatment every 10 years (see discussion in Section 2 about this assumption for further context). Modeled predictions for the other future scenarios where the regulatory framework is adjusted to allow more development in the Auburn portion of the watershed results in greater water quality degradation and a higher risk of blooms, ultimately triggering the need for a filtration plant in the "Maximum Development Allowing Building on LAWPC Lands" scenario. The use of low impact development techniques has a small positive effect on water quality in these future scenarios but does not ameliorate the high risk of frequent algae blooms. Taken together, the future scenarios show that Auburn alone does not have the land use control tools to stave off water quality decline in Lake Auburn; sustained collaboration with the upper watershed municipalities is essential to achieve the needed phosphorus load reductions over the remainder of the 21st century.

Section 4, Analysis of Economic Impacts

We found that expanding development in the Lake Auburn watershed provided minimal overall net economic benefit when accounting for the benefits and costs of all affected stakeholders, including the City of Lewiston who would otherwise carry the additional costs of watershed protection and water treatment through the existing cost sharing agreement in order for the City of Auburn to benefit from increased property tax revenues. In other words, the increased net benefits to the City of Auburn would be mostly or entirely offset by increased net costs to AWD and LWD customers, resulting in negligible net economic benefit to the communities served by Lake Auburn. This reallocation of benefits and costs among all affected stakeholders for the future scenarios highlights important questions of equity and fairness, which were raised during the process of producing this report and conversing with key community representatives. We emphasize that the costs associated with addressing declining water quality are costs to all water users and that the risk of incurred costs that are higher than our conservative estimates is very real.

Synthesis & Discussion

In summary, our analyses determined that Lake Auburn is nearing its assimilative capacity for nutrient load (even with the partial alum treatment) and cannot handle much more additional nutrient load without diminishing water quality and its associated benefits. We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed. Instead, we recommend that low impact development strategies are incorporated into existing zoning standards and required for all future development and redevelopment projects in the Auburn portion of the watershed. We also recommend that the other four headwater towns of Turner, Minot, Hebron, and Buckfield also incorporate low impact development requirements on future development projects. Lake Auburn cannot maintain excellent water quality in the future without the full participation of the other watershed towns. More development cannot be allowed in the Auburn portion of the watershed even with low impact development requirements implemented in Auburn. Even if reduced development through conservation or other means is achieved in the headwater towns, any additional development in Auburn has an outsized negative impact since its drainage area goes directly to the lake. It is also important to understand that a filtration plant does not allow for greater development of the watershed because the filtration plant only treats extracted drinking water for the consumer and does not treat in-lake water quality for recreation and for meeting State criteria for designated uses.

> We found no net environmental, economic, or social benefit supporting expansion of development in the Lake Auburn watershed.

Below, we present further discussion on three important topics: regulation of septic systems, environmental risk and uncertainty, and comparable water utilities.

Regulation of septic systems: The regulatory and environmental analyses examined multiple issues surrounding septic systems and their contributions of phosphorus to Lake Auburn. At first glance, there may appear to be a contradiction between 1) the recommended ordinance revision from the regulatory analysis (Section 2) that the septic design standard should be revised in such a way that will allow previously non-buildable sites to become buildable and 2) the conclusion from the environmental analysis (Section 3) that Lake Auburn will arrive at a tipping point of declining water quality by 2100 even in the absence of any pro-development changes (i.e.,

the "Business As Usual" scenario). Indeed, our buildout analysis determined that more than 100 additional new homes could be built in the watershed if the septic system siting requirement for 36 inches of suitable in-situ soil were revised.

To address this apparent contradiction, we argue that the septic design standard should be judged not only by its adherence to the best available science but by its simplicity, straightforwardness, and fairness. The key questions are: does the existing septic design standard accomplish its stated purpose of regulating septic systems effectively for water quality protection, or is its water quality benefit primarily in its de facto restriction of buildable areas in the watershed? Are there improvements that could be made to achieve the stated goal? With our recommended revision, we aim to have the septic design standard achieve its stated purpose of effectively regulating both new septic system construction and replacement/reconstruction of existing septic systems as they age out, so that septic systems with alternative technologies and innovative phosphorus controls can be phased in. Restrictions on developable land are better left to base and resource protection zoning than to septic design standards.

The project team also noted in conversations with multiple Lake Auburn stakeholders a concern about an unintended consequence of the requirement in the current ordinance for 36 inches of suitable in-situ soil to site a septic system. The concern is that this requirement for deep, native soils has led to the preferential siting of some septic systems on deep formations of sand and gravel aquifer, which provide some of the only suitable sites in the watershed with the requisite depth to bedrock, water table, or other restrictive layer. While our team did not conduct any field assessments, witness this condition firsthand, or review any documentation of this condition, we agree with the premise that these sand and gravel formations should not be considered suitable sites for septic systems, at least without the importation of suitable reactive soils for nutrient and pathogen processing that the recommended ordinance revisions would allow. Adopting the Maine State standards while preserving the minimum 36-inch vertical separation would alleviate the potential for this unintended consequence.

Environmental risk and uncertainty: The risk of deteriorating water quality threatening Lake Auburn's ability to remain a high quality public drinking water supply is a throughline of this entire study. In its simplest terms, risk is the probability of a negative outcome, though the severity of the negative outcome in question is usually included when evaluating that risk. A high risk of a minor inconvenience (e.g., the risk of getting caught in traffic if leaving downtown Boston by car at 5:00 PM on a business day) requires minimal forethought, while a low risk of major damage (e.g., the risk of a flood destroying private or public infrastructure from a hurricane or Nor'easter) requires extensive planning and preparation. Uncertainty is the degree to which the risk cannot be quantified, due to a number of factors, such as insufficient data about existing conditions, insufficient predictive models for the future, and inherent randomness in nature. It is difficult but possible to predict with reasonably low uncertainty the risk of an outcome that has occurred before (e.g., an algae bloom in Lake Auburn). It gets much more difficult to predict the risk of a particular outcome (e.g., a filtration waiver violation in Lake Auburn) if that outcome has never occurred before, because the data and predictive models have not been tested against that outcome in the real world. In this situation, the uncertainty surrounding such an outcome remains relatively high even with excellent data and predictive models.

This study examined Lake Auburn's risk of negative water quality outcomes now and in the future under various scenarios, though with considerable uncertainty due to a number of confounding or unknown factors. However, we can say with certainty that all additional development raises the risk of water quality degradation, whether due to phosphorus loading, pathogens from subsurface wastewater disposal, emerging contaminants such as pharmaceuticals and personal care products, etc. Even if the increased risk resulting from any individual parcel-scale decision is small, the aggregate impact of thousands of individual decisions over the coming decades is what matters.

From a risk management perspective, the entire spectrum of outcomes should at least be understood, including the least probable, most negative outcome (i.e., the worst-case scenario). The worst-case scenario would be that Lake Auburn's water quality would deteriorate past the point of useful public drinking water supply. Phosphorus enrichment to the point of having uncontrolled algae blooms every year, with cyanobacteria and associated cyanotoxins, would be the most likely condition of such a worst-case scenario. If this unlikely but highly undesirable scenario were to occur, Auburn and Lewiston would be forced to consider other alternatives that previously would not have been seriously deliberated, such as drawing upon the Androscoggin River for drinking water. The cost of this worst-case scenario was not evaluated in our economic analysis because our environmental models do not predict conditions to deteriorate to that degree under the chosen scenarios. But in managing environmental risk, this unlikely but highly undesirable outcome should be included in the overall picture of Lake Auburn's possible future.

Comparable water utilities: Comparison of Lake Auburn and LAWPC/AWD/LWD with other water sources and utilities is illustrative of their strengths, weaknesses, and projected future needs (Table 5-1). Lake Auburn's key

Table 5-1. Lake Auburn and comparable water supply lakes and ponds in Maine.

Waterbody	Water Utility	Waterbody Surface Area (acres)	Watershed Area (acres)	Communities Served	Watershed Communities	Filtration Waiver?
Lake Auburn	Auburn Water District	2,277	9,651	Auburn, Lewiston, Poland	Auburn, Turner, Minot, Hebron, Buckfield	Yes
China Lake	Kennebec Water District	3,939	16,704	Waterville, Winslow, Fairfield, Benton, Vassalboro, Maine Water Company - Oakland	Vassalboro, China, Albion	No
Sebago Lake	Portland Water District	29,992	234,000	Portland, South Portland, Westbrook, Falmouth, Cumberland, Cape Elizabeth, Gorham, Windham, Scarborough, Raymond	24 municipalities (Androscoggin, Cumberland, Oxford counties)	Yes
Floods Pond	Bangor Water	635	4,600	Bangor, Eddington, Hampden, Hermon, Orrington, Clifton, Veazie, Hampden Water District	Otis, Clifton	Yes

comparables are China Lake, which supplies the Kennebec Water District (KWD) serving Waterville and surrounding communities; Sebago Lake, supplying the Portland Water District (PWD); and Floods Pond, used by Bangor Water, an independent water utility, to serve Bangor and surrounding communities.

China Lake is nearly double the size of Lake Auburn, with a 3,939-acre lake surface and a nearly 17,000-acre watershed, but the lake divides into two basins nearly equal in size, the west basin and the east basin. The KWD has a water supply in-take located in the west basin, where the shoreline is mostly under KWD control and managed as water supply protection land. The east basin is nearly all under private ownership and has much more shoreline development. The China Lake Outlet Stream, the only outlet of the entire lake, is in the west basin at the dam in Vassalboro. Considered by itself, the west basin is very similar to Lake Auburn in terms of shoreline and watershed management - mostly forested, under public water utility control, with universal restrictions on swimming and bodily contact but with limited recreational fishing allowed. Like Lake Auburn, China Lake serves one community within the lake watershed (Vassalboro) and several communities outside its watershed (Waterville, Winslow, Fairfield, Benton, and the Maine Water Company in Oakland), while the upper watershed towns of China and Albion do not use KWD water.

The key difference between China Lake and Lake Auburn is that China Lake has experienced algae blooms nearly every summer since the 1980s. Blooms were more severe through the 1980s and 1990s, and since the early 2000s, there have been some trends of improvement, including coldwater fish species survival. Since 1993, KWD has filtered the drinking water supply using a granular activated carbon filtration system capable of producing up to 12 MGD, though current demand stands at 3 MGD. The plant was constructed in the early 1990s for a cost of roughly $25 million. According to KWD Superintendent Roger Crouse, P.E., if water quality were to decline significantly from its current stable state, such as increased algae blooms and turbidity, KWD would have to change their operations to handle the lower quality in-take water (R. Crouse, pers. comm). The carbon filters would need to be backwashed more frequently, and the additional backwash water would need to be accommodated somehow in the existing lagoons or else the lagoons would need to be expanded at significant cost. The alum dose used to pretreat the water before filtration would also need to be raised. The key takeaway is that decreased in-take water quality at a filtration plant taxes the system, raises the volume of the waste stream, and adds significant cost and complexity to the treatment process, meaning that water supply managers cannot forgo water quality protection efforts simply because a filtration system is in place.

Sebago Lake is the public drinking water supply source used by the PWD to supply Portland, South Portland, Westbrook, and surrounding Greater Portland communities - roughly one sixth of Maine's population. The lake is roughly 10 times the size of Lake Auburn, with a surface area of nearly 30,000 acres and a watershed area of 235,000 acres. Sebago is the deepest lake in New England at 316 feet at its deepest point. Like Lake Auburn, Sebago Lake qualifies for a filtration waiver owing to a history of excellent water quality. The existing disinfection plant has a production capacity of 54 MGD and currently experiences a demand of 22 MGD. With such a large water supply lake, the capacity of the plant will be exceeded long before any concern of safe yield from the lake arises.

Land use in the Sebago Lake watershed is largely composed of private forestlands. The PWD owns 2,500 acres (or about 1% of the watershed), with 800 acres of mostly shoreland designated as 'No Trespassing' and 1,700 acres of land designated as free for public access for many forms of recreation. Another 28,000 acres are owned or

managed by land trusts. The water supply in-take is at the far southern extent of the lake in the Lower Bay. A 3,000-foot 'No Trespassing' zone surrounds the in-take, and no bodily contact is allowed within two miles of the in-take. Boating, fishing, snowmobiling, and ice fishing are allowed within the 2-mile limit but not within the 3,000-foot limit. Overall, the restricted area is very similar in size and structure to that of Lake Auburn (with the exception that the on-ice activities are not allowed on Lake Auburn). Taking Sebago Lake as a whole, however, the major difference with Lake Auburn is that Sebago's Lower Bay comprises a small fraction of the overall lake, the rest of which has no special swimming or boating restrictions for water supply.

Sebago Lake and its watershed are located many miles away from the service areas of the PWD. This geographical separation means that the communities served by PWD have no ability to enact land use controls on the lakeshore or in the watershed, unlike the situation in Lake Auburn where the City of Auburn can use its zoning ordinances to enact protections for the shorefront and watershed. It is likely that this lack of control over Sebago Lake's upper watershed has spurred the PWD to focus on cooperation with land trusts and private forestland owners to conserve tracts of land. As an example, PWD Environmental Services Manager Paul Hunt told the project team that the PWD is part of a partnership, Sebago Clean Waters, that seeks to raise the total amount of land conserved (and managed at least partly for water supply protection) from the current 12% of the watershed to 25% in the next 15 years (P. Hunt, pers. comm).

In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Floods Pond in Otis, Maine has been the public water supply source for Bangor Water, the independent water district that serves Bangor and surrounding communities since 1959. At 635 acres of surface area, surrounded by a 4,600-acre watershed in Otis and neighboring Clifton, Floods Pond is less than half the size of Lake Auburn. Maximum depth is similar at 133 feet. Like Lake Auburn, Floods Pond also qualifies for a filtration waiver owing to its historically excellent water quality.

Land use in the Floods Pond watershed is largely controlled by Bangor Water, which owns or holds landowner agreements to manage 4,500 acres or more than 99% of the watershed land area. There is no public access to Floods Pond, which is home to a native population of Arctic char (Salvelinus alpinus), a coldwater fish species closely related to both salmon and lake trout that has been used by the Maine Department of Inland Fisheries and Wildlife to establish coldwater fish populations in other Maine lakes. Fishing, boating, and swimming are prohibited, as are hiking, wildlife viewing, and hunting in posted areas that include the entire shoreline.

The geography of Floods Pond as a water supply resembles China Lake more than Lake Auburn. The vast majority of Bangor Water customers are in downstream communities (Bangor, Eddington, Hampden, Hermon, and Orrington), while the protected shoreline and watershed areas are in upstream communities that do not use the water. (A small portion of Clifton is served by Bangor Water.) Bangor Water controls nearly all the Floods Pond watershed in Otis and Clifton, 4,500 acres total and more than LAWPC controls in the Lake Auburn watershed. Recreational activities are also much more restricted at Floods Pond than at Lake Auburn. Floods Pond provides a useful comparison point at the more restrictive end of the spectrum that puts the lost tax revenues and recreational opportunities at Lake Auburn in perspective.

To summarize, these comparisons with other water supply lakes demonstrate that the protections surrounding Lake Auburn do not exceed those of China Lake, Sebago Lake, or Floods Pond. The restrictions on recreational opportunities at Lake Auburn are similar to those at other drinking water supplies, including filtered and unfiltered water sources. Similarly, land use restrictions within the Lake Auburn watershed are far from the most prohibitive among the examples discussed, with only 20% of the watershed held or managed as water supply land compared to 99% of the Floods Pond watershed. In all the examples considered, the authorities in charge of water supply protection emphasize the need to maintain shoreline control as much as possible, to conserve key water supply lands, and to tightly regulate recreation, regardless of current water quality.

Holistic Recommendations

1. We recommend that the City of Auburn not seek to ease the current resource protection zoning or

consider rezoning portions of the watershed for increased density (e.g., village node-style development). Increased density and new opportunities for residential development are better suited to other areas of Auburn outside of the Lake Auburn watershed, preferably areas already served by sanitary sewer (for the benefit of nearby water resources such as the Androscoggin River). This recommendation is based on two key findings of this study that are fully elaborated in Section 3:

- Lake Auburn and its watershed are already at or near the key environmental thresholds of 10 parts per billion annual average total phosphorus and 75% forested watershed land cover; and
- The future scenario models showed that easing restrictions on further development in the Lake Auburn watershed would set the lake on a path toward deteriorating water quality, regardless of the beneficial effects of requiring low impact development techniques and without obvious management strategies to combat further declines in water quality.

2. We recommend that the Planning Board and City Council take up our recommended ordinance revisions and, if acceptable in their current form, adopt them. If not acceptable in their current form, the recommended revisions should be reworked and made more practicable but not watered down or fundamentally changed in their intent or effect. These recommended changes represent a move toward simpler, more transparent, more evenly applied regulations that are based on the best available science. These recommended revisions are fully elaborated in Section 2 and in a separate document to the City.

3. We recommend that the City of Auburn share the findings of Section 4, Analysis of Economic Impacts, with all partners and stakeholders so that the accounting of aggregate economic impacts of the existing conditions and various future scenarios are used as the basis for an open, transparent, and thoughtful public discussion of the fairness, equity, and sustainability of the current cost sharing and benefit allocations, as well as practical ways forward. This recommendation is based on the key finding that any net benefits to the City or Auburn residents and taxpayers from expanded residential development in the Lake Auburn watershed would be counterbalanced by additional costs to Lewiston and its residents and taxpayers, in the form of increased costs associated with mitigating declining water quality and decreased benefits from recreation. These findings are fully elaborated by Section 4 of this report. As a next step in this planning process, we recommend that a scenario be modeled and run through a benefit cost analysis that meets the target water quality goal for Lake Auburn, which was not possible in the future scenarios modeled in this study when considering Auburn-only changes to regulations and management approaches. Developing a scenario that meets the water quality goal may require several iterations. The scenario should likely expand the existing Lake Auburn Watershed Overlay District to the upper watershed towns, require implementation of low impact development techniques on new development watershed-wide, and account for septic design standard changes.

4. We recommend that the City of Auburn, City of Lewiston LWD, AWD, and LAWPC fully support collaborative work with local governments, land trusts, private landowners, and other potential partners in the upper Lake Auburn watershed (Turner, Minot, Hebron, and Buckfield) to control development and limit phosphorus loading. Historically, LAWPC has been an active player in fostering collaborative action between the local governments, with representation from the upper watershed towns. This recommendation is based on the key finding from this study that Auburn alone cannot accomplish sufficient phosphorus load reductions to prevent deteriorating water quality in Lake Auburn, but will require active participation from the upper watershed towns. This finding is fully elaborated in Section 3.

5. We recommend completing a comprehensive review and gap analysis of current water quality monitoring efforts carried out by both AWD and Bates College in the Lake Auburn watershed. Identify gaps based on weaknesses and assumptions for the model. From the review and gap analysis, devise a robust long-term water quality monitoring plan and annual cost estimate for Lake Auburn. We also recommend that 1) the AWD hire a full-time, dedicated data management technician for improved management, access, and analysis of collected water quality data; 2) the AWD and LWD continue collaboration with Bates College on student-assisted monitoring; and 3) LAWPC consider creating a technical science advisory board to establish or maintain key local, State, and regional partnerships that can help to provide regular review and guidance on water quality issues.

6. Given its high probability of causing a filtration waiver violation, a swimming area will likely not be feasible for Lake Auburn at any time unless State and federal authorities sign off. If a swimming area were to be re-instituted at Lake Auburn, we provide many actions that would need to take place to ensure that the area does not contribute to water quality degradation. Refer to Swimming in Section 3.

7. Allowance of only small watercraft restricted to areas away from the in-take should continue, and improved stabilization techniques at vehicle and pedestrian access points along the lake shoreline should be implemented, along with clear and effective barriers to foot and vehicle access.

8. We recommend that the LAWPC coordinate with local youth conservation groups or AmeriCorps to perform annual maintenance of trails and install best practices that limit erosion of trails, especially those sections nearest the lake. In addition, surveying how much horse manure may be found on the trails to inform a reconsideration of horseback riding near the lake is recommended, as manure can be a significant nutrient source in sufficient quantities. Finally, it is recommended that the City acquire permanent recreational trail easements to LAWPC properties with trails for guaranteed public access in the future.

9. We recommend developing a comprehensive natural resource management plan for LAWPC lands that focuses firstly on drinking water protection and secondly on wildlife habitat protection if in the interest of public water supply protection, with multiple management options offered. We also recommend developing natural resource inventories for all LAWPC lands to map critical streams (perennial and intermittent), wetlands, vernal pools, cover types, rare, threatened, and endangered species present, etc. to include in individual natural resource management plans that set management objectives and methods to achieve water resource and wildlife habitat protection for each LAWPC parcel. If timber harvesting continues in the Lake Auburn watershed on LAWPC or private lands, then we recommend a series of actions to minimize forestry impacts to water quality. Refer to Forest Management in Section 3.

10. We recommend that LAWPC work with local conservation groups and land trusts to purchase land in the watershed outside of Auburn. We also recommend that LAWPC consider putting all their properties into permanent conservation. These properties are currently protected under the LAWPC by-laws but provide no higher-level legal protection from future development if said by-laws were to be revoked.

Appendix 2

Current Septic Design Standard

Auburn Zoning Ordinance Section 60-952(f)(1): Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.

The Implication: Local standards within the Lake Auburn Watershed Overlay District limit development on a significant portion of the watershed by effectively prohibiting the use of innovative and alternative septic system and leach field designs to meet the 'depth to constraining layer' requirement. These innovative and alternative designs are otherwise allowed by the State and can achieve comparable or better nutrient removal than a traditional system and leach field.

Recommended Septic Design Standard

The Recommendation: Maintain a requirement for a minimum depth of 36 inches above the constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

This can be achieved by referencing the Maine Subsurface Wastewater Treatment Rules (10-144 CMR 241), with the exception that the required depth to the constraining layer would be at least 36 inches (specified by updating Table 4-F, Minimum Permitting Requirements and Minimum Design Requirements). Because the State rules already provide for the use of such alternative designs such as mounded leach fields and drip distribution systems, as well as other proprietary systems, these would be allowed in the Lake Auburn watershed as well.

ORDER 05-01032022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council direct staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council on the following four amendments:

a. **Gracelawn area;** 148 acres from Agriculture and Resource Protection to Commercial Development District (CDD). Approximately, 37 acres are not shown as CDD in approved FLU mapping, but the council did approve utilizing the Auburn Lake Watershed Study. In that study they suggested moving the watershed boundary out and a result from that, we are suggesting moving the proposed CDD boundary out to match the new watershed boundary another 37 +/- acres as intended.

b. **Washington Street Area;** 716 acres from General Business to Commercial Formed Based Code Gateway Development District. Approximately 9.63 acres were not included in the FLU mapping. But approved in the order by the council for the approval of the specific lot PID 199-052.

c. **Court Street/City Core of Urban Residential Area;** 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas.

d. **Subsurface Wastewater Disposal in the Lake Auburn Watershed**; Maintain a requirement for a minimum depth of 36 inches above the limiting factor/constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

March 17, 2022

Members of the City Council, Mayor, and City staff,

At the March 15 meeting of the Conservation Working Group, the Honorable Neria Douglass, former State Senator and Auburn City Councilor, raised concerns regarding rezoning and potential development of the Gracelawn site. She cited a long history of dumping toxic waste in the area, dating at least back to the 1930s and 1940s, when local shoe shops and tanneries burned industrial wastes there. Douglass sat on the City Council from 1994-1998, when City management decided against pursuing Environmental Protection Agency (EPA) superfund monies in favor of other measures. She provided a number of documents accessed through the Maine Department of Environmental Protection (DEP) website for our consideration, including an EPA commissioned report from August 1994 with a map and description of waste disposal sites. That report is included with this letter.

Given the hazardous nature of the materials included at the site, the Conservation Working Group believes that the issue is important enough to warrant caution and consultation with the Maine DEP as the City considers rezoning the area. A number of questions arose that we feel are worthy of further discussion by the Council, Planning Board, and City staff:

- How well known/understood are the locations of the various waste disposal sites, particularly the older industrial waste dump sites on the north side of Gracelawn that were not properly sealed with clay (see site description on pp. 11-13 of the 1994 report)? How well are these areas currently demarcated?
- Have the areas with hazardous waste been impacted by excavation and other operations at the Gendron gravel pit?
- If the area is to be filled in and graded in conjunction with new development, could the hazardous materials buried at the Gracelawn site shift in any way that could negatively impact Lake Auburn or the Androscoggin River, or have other unintended environmental consequences?
- What buffers or other protections currently exist to ensure that toxic wastes at the Gracelawn site remain undisturbed? What measures need to be in place for future uses that are being considered as part of rezoning proposals?

The Conservation Working Group only recently learned of these concerns associated with the Gracelawn site. We feel strongly that the City must remain vigilant in preventing any negative environmental impacts, particularly in light of the current issues created by PFAS contamination in locations around Maine. Doing our due diligence on the issues outlined above will reassure the Auburn public and any future land users.

Sincerely,

Sam Boss, Chair
Conservation Working Group

Date Prepared:	August 26, 1994

CDM Federal Programs Corporation (CDM) conducted an onsite reconnaissance on June 28, 1994, and sampling activities on August 17, 1994, at the Gracelawn Waste Disposal Area in Auburn, Maine (see Figure 1: Site Sketch with Sampling Locations and Table 1: Sample Summary). The onsite reconnaissance was conducted to meet with appropriate site personnel and to locate potential sampling locations. CDM's field team, consisting of Jason Coxall (site manager) and Cindy Robert (site safety officer), met with Steve Ranney (city engineer for Auburn).

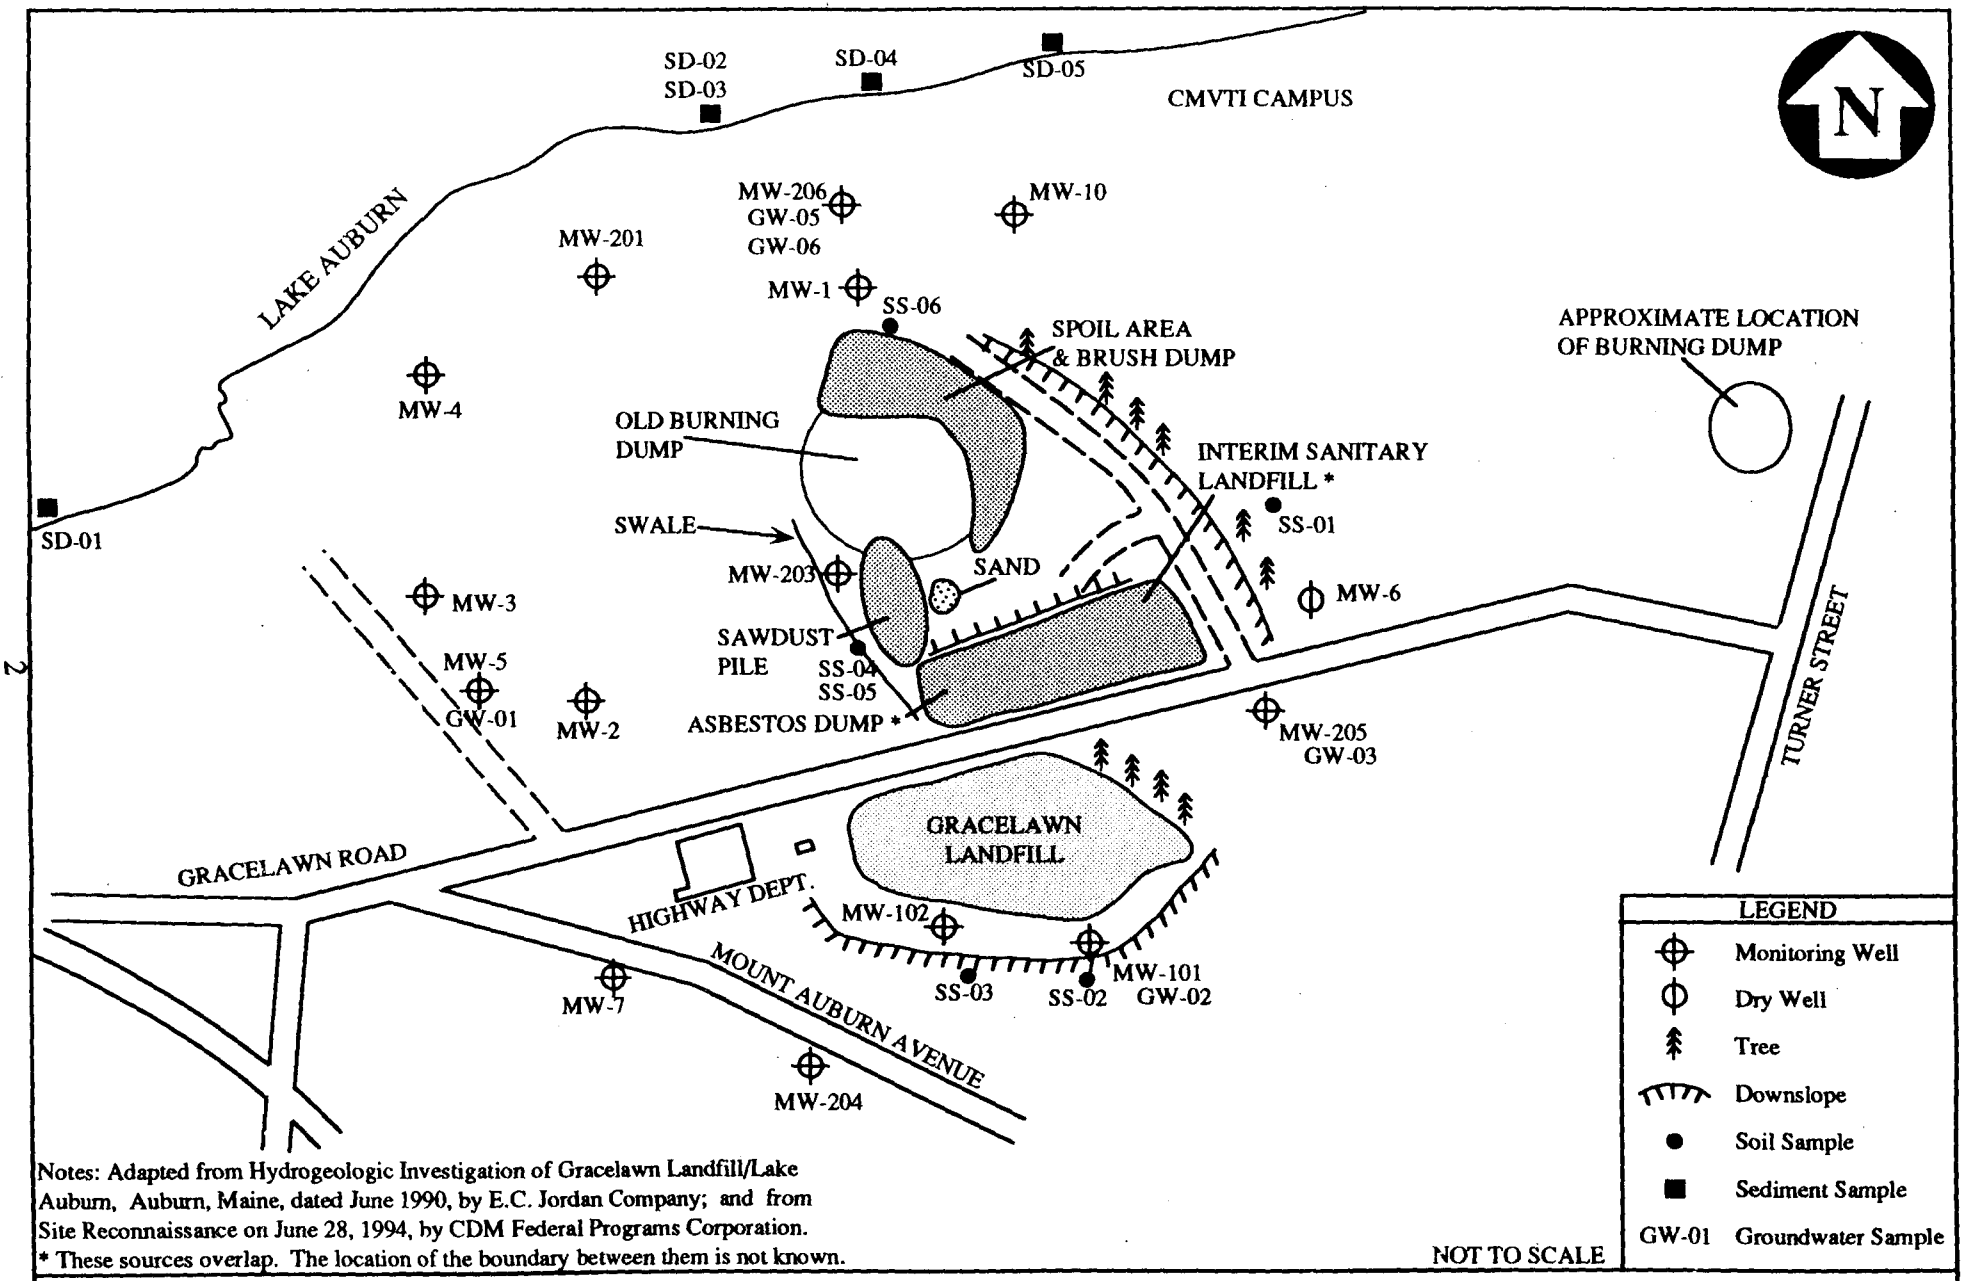
Activities conducted during the reconnaissance included: 1) checking current conditions of the property, 2) locating potential sampling locations, and 3) meeting with Mr. Ranney to complete the background information search. The field team took photographs to document current site conditions.

On August 17, 1994, CDM conducted surface soil, sediment, and groundwater sampling at the site. CDM's field team present for sampling activities were Jason Coxall (site manager), Lisa Drake (site safety officer), Brendan MacDonald (field team leader), and Cindy Robert (sampler and decontamination person). Mr. Ranney was also present for some of the sampling activities.

A total of twenty samples were collected, including six surface soil samples, five sediment samples, five groundwater samples, a trip blank, and three aqueous field quality control (QC) samples. Six performance evaluation samples (PE samples) were sent with the field samples to the laboratories performing the selected analyses. PE samples are used as a tool to evaluate laboratory analysis. Known concentrations of target compounds are prepared as a sample by a third party. The laboratory's result is then reviewed by EPA and included in the data validation process.

Samples were collected in accordance with the Task Work Plan (dated August 1994) with the following exceptions: The background sample SS-01 was collected from a wooded area to the east of the Interim Landfill (see Figure 1) because the original location was situated on private land. GW-04 (MW-10) was not collected; the well was located in a remote area and collection of this groundwater sample in the dark was not possible. Sampling activities concluded at 2200.

The site safety officer was responsible for monitoring the concentration of volatile organic compounds (VOCs) in the ambient air while the field team conducted the reconnaissance and sampling activities. The instrument used to monitor concentrations of VOCs was an Organic Vapor Monitor 580B (with a 11.7 eV lamp). During the reconnaissance, the OVM was calibrated in the parking lot of Auburn City Hall at 1010. During the sampling event, the OVM was calibrated at the decontamination area located to the north of the sawdust pile at 0805. All OVM readings onsite were 0.0 ppm during the reconnaissance and the sampling activities.



Notes: Adapted from Hydrogeologic Investigation of Gracelawn Landfill/Lake Auburn, Auburn, Maine, dated June 1990, by E.C. Jordan Company; and from Site Reconnaissance on June 28, 1994, by CDM Federal Programs Corporation.

1.0 TASK SUMMARY

Under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) and the Superfund Amendment and Reauthorization Act of 1986 (SARA), the U.S. Environmental Protection Agency (EPA), Region I Waste Management Division has contracted CDM Federal Programs Corporation (CDM) to conduct a Site Inspection Prioritization (SIP) of the Gracelawn Waste Disposal Area in Auburn, Androscoggin County, Maine. The SIP will investigate the threat to human health and the environment posed by the site. The scope of this investigation will include collecting surface soil samples to confirm/determine types and concentrations of hazardous substances onsite and collecting groundwater and sediment samples to investigate migration of hazardous substances from the site.

Date of Onsite Reconnaissance: 6-28-94
Date of Sampling: 8-17-94

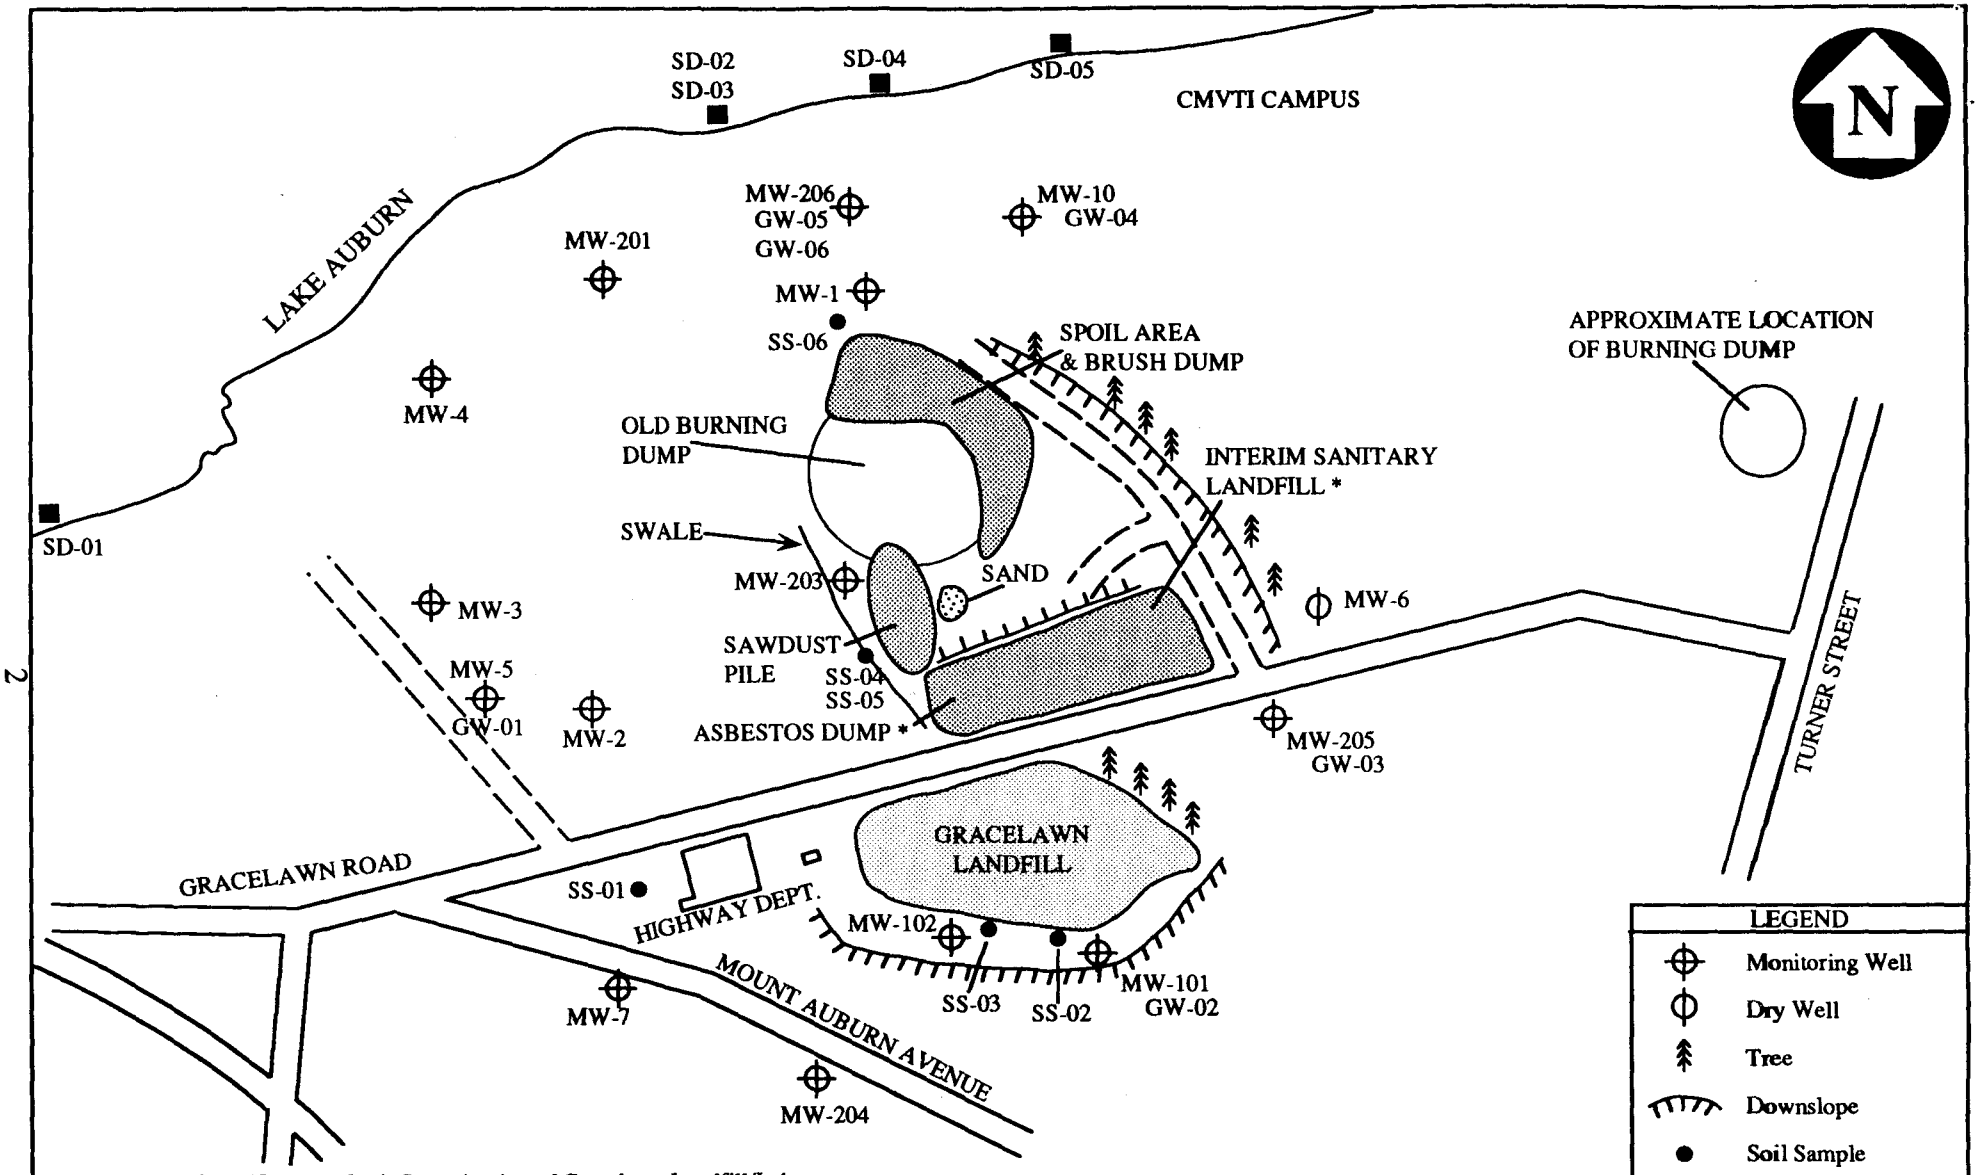
1.1 SITE DESCRIPTION AND PROBLEM

The Gracelawn Waste Disposal Area is located on Gracelawn Road in Auburn, Maine. The geographic coordinates are 40° 07' 36" north latitude and 70° 14' 58" west longitude. The property has accepted solid, liquid, and sludge wastes since the 1930s. The entire property is estimated to be about 300 acres. Within the property, there are seven distinct waste areas (see Figure 1). These will be discussed in detail below.

1. Gracelawn Landfill - Starting in 1964, municipal and light industrial wastes (including liquids) were disposed of in this unlined area. The 12-acre landfill was closed in 1977, when a clay cap was added. This cap is composed of at least 2 feet of clay and 6 inches of topsoil. There are four deep vents, approximately 60 feet deep, surrounding the landfill -- three along the west boundary and one along the east boundary. Throughout the landfill are approximately 40 to 50 flush-mounted shallow gravel vents. Some of these vents have since been clogged with fine-grained soil. Located on top of the capped landfill is Lakeview Park, which consists of two baseball fields, playground equipment, and picnic tables.

2. Spoil Area and Brush Dump - Started in 1964, this area accepted brush, stumps, metal and other bulk materials. This 7-acre area is still active. Demolition debris, particularly wood waste, makes up much of the pile. Some of this material had to be excavated and placed in another pile at the north end of the brush dump when a large fire occurred.



Notes: Adapted from Hydrogeologic Investigation of Gracelawn Landfill/Lake Auburn, Auburn, Maine, dated June 1990, by E.C. Jordan Company; and from Site Reconnaissance on June 28, 1994, by CDM Federal Programs Corporation.
* These sources overlap. The location of the boundary between them is not known.

AUBURN, ME

CDM FEDERAL PROGRAMS CORPORATION
a subsidiary of Camp Dresser & McKee Inc.

Figure 1

3. Interim Sanitary Landfill and Auburn Landfill - This area does have a clay liner, but it is permeable. Operations started in 1977 and ended in 1981. This landfill is approximately 6 acres; it has a clay cap which is about 1.5 to 3 feet thick. High grasses cover the area.

4. Asbestos Disposal Site - This area was used from 1981 until 1985. A clay cap was added upon closure. Part of the area was located on top of an intermediate cap of the Interim Sanitary Landfill. The area was capped in 1985, but the cap was less than the required thickness of 2 feet. The 3-acre plot was privately operated (on land owned by the city) by Buerhaus Insulation, which accepted asbestos from the northeastern U.S. until its closure in 1985. This land is now covered with high grasses.

5. Sawdust Pile - Sawdust from the manufacture of countertops is deposited here. Pionite ← Pioneer ? Plastics started dumping the sawdust in 1980 or 1981 and continued until about August 1992. The uncovered pile extends about 2 acres.

6. Old Burning Dump - This dump was utilized from the mid-1940s until 1964. The dump received municipal waste and possibly industrial waste from shoe factories and other industries. The dump is about 3.5 acres in size, and it is not capped. No surficial evidence of the dump exist. Other sources such as the sawdust pile and the brush dump may overlap the former burn area.

7. Burning Dump - This area was used from the late 1930s until the mid-1940s. The dump received municipal waste and possibly industrial waste from shoe factories and other industries. The boundaries of this burning area can no longer be seen, as high grasses and trees have reclaimed the land. (There is no indication that the dump was capped prior to closure.)

Also on the property are empty underground storage tanks, a railroad car, metal and concrete drainage pipes, an asphalt pile which is over 20 feet high, and a sand pile which is used by the highway department to improve road conditions in the winter. All of these are located north of the Asbestos Dump.

The property is located on land where sand and gravel mining operations took place. It is surrounded by wooded areas with a field to the south. Local land uses include mining, cemeteries, and residential. Central Maine Vocational Technical Institute borders the proprerty. Locally, the property is situated on a topographic high, roughly 350 feet above mean sea level. The bottom of the pits were approximately 280 to 300 feet above mean sea level.

The city of Auburn is the sole owner of the Gracelawn Waste Disposal Area, and has owned it since it was first established. The city does not have any hazardous waste related permits. Alleged disposal practices included dumping wastes, including 55 gallon drums, into unlined pits left behind by past mining operations, and burning piles of waste. The approximate volume of solid, sludge, and liquid wastes is 2,220,000 cubic yards. The Site Inspection Report by NUS

Corporation stated that an estimated 375 tons of chromium sludge and 50,000 tons of asbestos were dumped on the property. The quantity of industrial solvents disposed of is unknown.

Directions to site: Interstate 93 to Interstate 95. I-95 becomes the Maine Turnpike. Follow the Turnpike (also I-495) to Auburn Exit. Take exit and follow Route 4 North to Veterans Memorial Bridge. Take left onto Mount Auburn Avenue. Follow to Gracelawn Road, then take right. Property will be on left and on right after highway garage (which is on the right).

1.2 PREVIOUS WORK AT SITE

Activities pertaining to Gracelawn Waste Disposal Area include:

On January 3, 1986, E.C. Jordan Company completed a Preliminary Hydrogeologic Investigation. Part of the investigation consisted of collecting groundwater samples (from monitoring wells) and surface water samples (from Lake Auburn). The following monitoring wells were sampled and analyzed for volatile organic compounds (VOCs): MW-1, MW-2, MW-4, MW-9, MW-101, and MW-102. Samples from MW-2, MW-9, and MW-101 did not contain any VOCs for which the samples were analyzed. The other well samples did contain VOCs. MW-101 and MW-102 were installed in 1985; the installation dates of the other wells mentioned is unknown at this time. Of the VOCs the samples were analyzed for (the names of the VOCs for which the samples were analyzed are unknown at this time), none were detected.

On May 7, 1986, NUS Corporation completed a Preliminary Assessment. This investigation summarized a brief history and description of the property. Because of the potential threat of contamination of a drinking water intake on Lake Auburn (serving about 70,000 people), NUS recommended further work at the property.

On April 10, 1987, NUS Corporation completed a Site Inspection. The report listed groundwater samples along with concentrations of acetone and metals detected. At this time, however, there is insufficient information as to the date(s) and locations of these samples.

In June of 1990, E.C. Jordan Company completed a Hydrogeologic Investigation of Gracelawn Landfill/Lake Auburn for the city of Auburn. The general purpose of this report was to determine groundwater movement and quality in the area.

On March 9, 1994, Woodard & Curran Environmental Services sampled monitoring wells in the area of Gracelawn Waste Disposal Area as part of an ongoing quarterly sampling program. The samples of four wells were analyzed using EPA Method No. 601/602 for VOCs. A sample from MW-205 was found to contain 1,1-dichloroethane and ethylbenzene. VOCs were not detected in MW-10, MW-206, and MW-204.

1.3 TRIP OBJECTIVE

The objectives of the SIP are to collect analytical data to identify hazardous substances at the site, to investigate whether hazardous substances have been released to the environment and if these substances have impacted human health and the environment.

This Task Work Plan proposes groundwater, soil, and sediment sampling to identify areas of contamination on the site and in surrounding areas. A Contract Laboratory Program (CLP) laboratory will perform the analysis for the full Target Compound List/Target Analyte List (TCL/TAL) using the CLP Routine Analytical Services (RAS).

1.4 PERSONNEL

The following CDM personnel will constitute the sampling team for the Gracelawn Waste Disposal Area site:

NAME	ROLE
1. Jason Coxall	Site Manager
2. To Be Determined	Sampler 1, Site Safety Officer
3. Brendan MacDonald	Sampler 2, Field Team Leader
4. To Be Determined	Sampler 3, Decontamination

2.0 TECHNICAL APPROACH

2.1 LOGISTICS AND TEAM ORGANIZATION

2.1.1 SITE RECONNAISSANCE

Jason Coxall, Site Manager, and Cindy Robert, Site Safety Officer, conducted an onsite reconnaissance on June 28, 1994. A site-specific checklist for the reconnaissance was developed and is included as Appendix A.

2.1.2 SAMPLING

The Site Manager, Site Safety Officer/Sampler 2, Sampler 3, and Sampler 4 will perform sampling (see Figure 1: Site Sketch With Sampling Locations). The order and type of sampling activities are described below:

1. The field team will enter the site and establish an onsite command post and decontamination area, upwind of all source areas, if possible.

2. The Site Safety Officer will perform a field calibration check of monitoring instruments and will monitor the ambient air with these instruments throughout sampling activities.

3. Samplers will collect samples while the Site Manager documents activities in the logbook and assists with the decontamination of the sampling equipment between sampling locations (if necessary).

4. Surface soil samples will be collected in order of suspected increasing contamination (least contaminated to most contaminated). A background surface soil sample (SS-01) will be collected first, west of the Highway Department Garage.

5. Five additional surface soil samples (SS-02 through SS-06) including one duplicate (SS-05, duplicate of SS-04) will be collected from various locations throughout the property (see Figure 1).

6. Four sediment samples (SD-02 through SD-05) including a duplicate (SD-03, duplicate of SD-02) will be collected from the southeastern extent of Lake Auburn due north of the property. A background sample (SD-01) will be taken from the southwestern edge of the lake. See Figure 1 for these sample locations.

7. Five groundwater samples (GW-01 through GW-05) will be collected, one from each of the following wells: MW-05, MW-101, MW-205, MW-10, and MW-206. MW-5 will be used as a background sample.

I'm not sure if this is the best location for a background sample?

Only one Background Sample?

8. The field team will decontaminate sampling equipment according to SOP 4-5: Field Equipment Decontamination at Nonradioactive Sites.

9. The field team will decontaminate personal protective equipment prior to leaving the property.

2.2 PROCEDURES

All activities will be conducted in accordance with the Site Safety Plan and appropriate Standard Operating Procedures (SOPs) prepared specifically for this Task Work Plan. SOPs are listed in Appendix B.

2.2.1 SOIL

Six surface soil samples (SS-01 through SS-06) including one duplicate (SS-05, duplicate of SS-04) will be collected from the property (see Table 1). A background surface soil sample (SS-01) will be collected first, west of the Highway Department Garage. Five additional surface soil samples will be collected from various locations throughout the property (see Figure 1). At each of these locations, a grab sample will be collected from the 0 to 6-inch interval with a stainless steel trowel. The samples will be analyzed for the full TCL and TAL via RAS to evaluate whether contamination is present. These analyses have been chosen in order to better understand what wastes can be expected in the source areas. Surface soil sampling guidelines are presented in SOP 1-3: Surface Soil Sampling. Locations may be moved based on field observations. The depth of each sample and location will be determined in the field and noted in the field logbook.

2.2.2 SEDIMENT

Four sediment samples (SD-02 through SD-05) including a duplicate (SD-03, duplicate of SD-02) will be collected from the southeastern extent of Lake Auburn due north of the property (see Table 1). A background sample (SD-01) will be taken from the southwestern edge of the lake. See Figure 1 for these sample locations. These samples will be collected using a hand auger and a trowel, and they will be collected to document migration of contaminants entering Lake Auburn from the Gracelawn property. Contaminants could threaten a drinking water intake located on the eastern shore of the lake. This intake services approximately 66,000 people in the Auburn and Lewiston areas. Sediment sampling guidelines are presented in SOP 1-1: Surface Water and Sediment/Sludge Sampling. The full TCL and TAL via RAS will be requested. Sediment samples must contain greater than 30 percent total solids to meet detection requirements. The depth of each sample will be determined in the field and noted in the field logbook. Locations may be moved based on field observations.

← only one BG sample - we need conclusive.

How are they sediment samples?

pg 4 states 70,000 ?

2.2.3 GROUNDWATER

Groundwater samples will be collected to determine whether hazardous substances have been released to the environment and could potentially impact human health. Groundwater flow in the northern portion of the property is to the northeast, east, southeast, and south. In the southern portion, groundwater flow is semi-radially to the south. Depth to groundwater in this area is sometimes as shallow as six feet.

Five groundwater samples (GW-01 through GW-05) will be taken, one from each of the following wells: MW-5, MW-101, MW-205, MW-10, and MW-206. MW-5 will be used as a background sample because it is believed to be located away from the general groundwater flow directions beneath the property, and for this reason it is believed to most likely represent background conditions. The other wells have been chosen for sampling because based on previous hydrogeologic studies, they will most likely receive contaminated groundwater migrating from the source areas. VOCs, semivolatile organic compounds (SVOCs), and inorganics are all expected to be detected in these samples. All samples will be collected using a 2-inch stainless steel bailer according to SOP 1-5: Groundwater Sampling Using Bailers. Groundwater samples have been taken in the past, but these samples have only been analyzed for selected VOCs and metals. Therfore, groundwater samples will be analyzed for the full TCL and TAL via RAS.

No residential targets?

2.2.5 QUALITY ASSURANCE

All work on this project, including sample collection, preservation, preparation of quality control (QC) equipment blanks and duplicates, and chain-of-custody procedures used during sampling activities will be in accordance with the ARCS I Quality Assurnace (QA) Program Plan, Revision 4, January 1993 (QAPP) and CDM's Standard Operating Procedures (SOPs).

Field and analytical QA/QC for this sampling event will be accomplished by a combination of equipment blanks and duplicates. QC samples are used to estimate the precision and accuracy of analytical results and to examine sources of error introduced by field and laboratory practices. QC samples will be used to validate the analytical results. Field QC samples (trip blanks, field equipment blanks, and duplicates) are assigned new sample numbers. Laboratory QC samples (e.g., matrix spike/matrix spike duplicates (MS/MSD)) are assigned the same number as the field sample, and the containers and all copies of paperwork are labeled "Laboratory QC." The number of QC samples that CDM will collect is based on the following criteria: one field equipment blank (EB) (per sample equipment type) per 10 samples collected, one duplicate per 10 samples to be analyzed for the appropriate parameters, one trip blank (TB) per cooler (containing VOC samples) to be analyzed for VOCs only, and one MS/MSD at a rate of one per 20 field samples. For aqueous organic analysis, triple the volume will be required for MS/MSD; for aqueous inorganic analysis only double the volume will be required. Additional sample volume is not required for sediment and soil samples.

Performance evaluation (PE) samples will be obtained from EPA and submitted with field samples to be analyzed via RAS. PE sample types must be appropriate to the analytical methods to be used for the investigative samples. For samples to be analyzed for the full TCL and TAL, six PE samples (for volatiles, semivolatiles, pesticides/polychlorinated biphenyls, two metals (1 aqueous, 1 soil), and cyanide) will accompany the field samples.

2.3 DECONTAMINATION

General decontamination procedures are presented in the Site Safety Plan and in Section 5.3 of SOP 4-5: Field Equipment Decontamination Procedures at Nonradioactive Sites. Sampling equipment will be dedicated to each sampling station. All sampling equipment will be decontaminated at the conclusion of sampling activities using the following procedures:

1. Decon field personnel will don clean surgical gloves.

2. Sampling equipment will be disassembled and component parts will be placed on polyethylene sheeting.

3. Component parts will be cleaned with a warm detergent solution (e.g., alconox) using a brush to clean inside and outside surfaces).

4. All surfaces will be rinsed with potable water.

5. All surfaces will be rinsed with deionized water.

6. All surfaces will be rinsed with methanol.

7. All surfaces will be rinsed with deionized water.

8. All components will be allowed to air dry.

9. Equipment will be reassembled and wrapped in plastic wrap or aluminum foil, shiny side out.

10. All field personnel will decontaminate according to the Site Safety Plan.

11. Decon fluids will not be allowed to infiltrate into the ground onsite; the State of Maine does not allow this practice. Proper disposal of the fluids will be determined prior to the sampling event.

2.4 DOCUMENTATION

Photographs will be taken to document site conditions during sampling (SOP 4-2: Photographic Documentation of Field Activities). Field observations will be recorded in the logbook including descriptions of the sampling locations and any deviations from the Task Work Plan (SOP 4-1: Logbook Content and Control). Chain-of-custody will be maintained until samples are relinquished to a courier or to the laboratory assigned to perform the analysis (SOP 1-2: Sample Custody and SOP 2-5: Packaging and Shipping of Environmental Samples).

2.5 SAFETY CONSIDERATIONS

An HNU and/or an organic vapor monitor (OVM) will be used to screen ambient air for organic vapors. Operating and calibration procedures are documented in the Equipment Procedure (EP) 2.0: OVM Datalogger, Model 580B, EP 3.0: HNU Photoionization Analyzer, and SOP 5-1: Control of Measurement and Test Equipment.

Contaminants of concern are listed below including the highest concentrations (they were all detected in the groundwater):

acetone	1300 ppb
arsenic	26 ppb
iron	91,000 ppb
magnesium	31,000 ppb
manganese	8,600 ppb
nickel	32 ppb
potassium	15,000 ppb
benzene	7.3 ppb
bromomethane/chloroethane	6.8 ppb
2-butanone	690 ppb ←
chloroethane	10 ppb
chloroform	11 ppb
chloromethane/vinyl chloride	12 ppb
1,1-dichloroethane	110 ppb ←
1,2-dichloroethane	130 ppb ←
trans-1,2-dichloroethene	13 ppb ←
1,2-dichloropropane	1.6 ppb
ethylbenzene	8 ppb
methylene chloride	11 ppb
tetrachloroethene	0.52 ppb
4-methyl-2-pentanone	40 ppb ←
toluene	11 ppb
1,1,1-trichloroethane	7.6 ppb
trichloroethene	2.1 ppb
trichlorofluoromethane	13 ppb ←

vinyl choride	39 ppb ←
xylenes	12 ppb

The Site Safety Plan requires all sampling tasks to be conducted in Level D. If the OVM/Hnu detects readings above 5 ppm, the sampling team will upgrade to Level C.

DigSafe was contacted on 7-20-94. Because power tools were not going to be used, there will not be a need to contact DigSafe prior to sampling.

2.6 SAMPLE RATIONALE

Rationale for collecting samples at the Gracelawn Waste Disposal Area are listed in Table 1. See Table 2 for identification of the type and number of bottles, type of analysis, and preservation of each sample.

TABLE 1

SAMPLE RATIONALE

SAMPLE LOCATION	DESCRIPTION/RATIONALE
MATRIX: Soil	
SS-01	Surface soil grab collected. The exact location will be determined in the field; the sample will be collected in an area which most likely represents undisturbed natural conditions; background sample.
SS-02	Surface soil grab collected south of Gracelawn Landfill. The exact location will be determined in the field; potential source of contaminants attributable to Gracelawn Landfill.
SS-03	Surface soil grab collected south of Gracelawn Landfill. The exact location will be determined in the field; potential source of contaminants attributable to Gracelawn Landfill.
SS-04	Surface soil grab collected in swale directly west of asbestos dump and sawdust pile. The exact location will be determined in the field; potential source of contaminants attributable to the Gracelawn property.
SS-05	Duplicate of SS-04 for Quality Control
SS-06	Surface soil grab collected north of brush dump. The exact location will be determined in the field; potential source of contaminants attributable to the Gracelawn property.
MATRIX: Sediment	
SD-01	Sediment grab collected at southwestern corner of Lake Auburn; background sample.
SD-02	Sediment grab collected at southeastern edge of Lake Auburn due north of the Gracelawn property; potential observed release to surface water.
SD-03	Duplicate of SD-02 for Quality Control.
SD-04	Sediment grab collected at southeastern edge of Lake Auburn due north of the Gracelawn property; potential observed release to surface water.

TABLE 1 (Continued)

SAMPLE LOCATION	DESCRIPTION/RATIONALE
SD-05	Sediment grab collected at southeastern edge of Lake Auburn due north of the Gracelawn property; potential observed release to surface water.
MATRIX: Groundwater	
GW-01	Groundwater sample from MW-5; because groundwater flow is not believed to flow to the west, this sample will be used as background.
GW-02	Groundwater sample from MW-101; to document an observed release to the groundwater.
GW-03	Groundwater sample from MW-205; to document an observed release to the groundwater.
GW-04	Groundwater sample from MW-10; to document an observed release to the groundwater.
GW-05	Groundwater sample from MW-206; to document an observed release to the groundwater.
GW-06	Duplicate of GW-05 for Quality Control.
MATRIX: Aqueous	
TB-01	Trip blank for QC
TB-02	Trip blank for QC
EB-SS	Equipment blank; for QC of decontamination procedures of soil sampling equipment.
EB-SD	Equipment blank; for QC of decontamination procedures of sediment sampling equipment.
EB-GW	Equipment blank; for QC of decontamination procedures of groundwater sampling equipment.

APPENDIX A

ONSITE RECONNAISSANCE CHECKLIST

Not filled in?

ONSITE RECONNAISSANCE CHECKLIST

Following is a list of activities to be performed and areas to be investigated during the onsite reconnaissance of the _____ site. All information obtained during the recon will be recorded in the site dedicated logbook.

Meeting with facility owner/operator:

- ☐ Site history
- ☐ # of workers/residents onsite _____
- ☐ Source of drinking water onsite
- ☐ Permits: RCRA, NPDES, others
- ☐ Description of past and current operations:
  - waste types generated
  - waste quantities generated
  - waste source area described
  - waste source containment
  - use of contaminants of concern
- ☐ Building descriptions:
  - utilities
  - floor construction
  - floor drains

Site Walk:

- ☐ Draw site sketch/plan:
  - fences
  - means of egress
  - topography
  - USTs/ASTs
  - Individual Sewage Disposal Systems
  - utilities/transformers
  - catch basins, storm drains, ditches
  - parking areas (paved/unpaved?)
  - rights-of-way/easements

ONSITE RECONNAISSANCE CHECKLIST (continued)

- ☐ Identify water features:
  - wells
  - springs/seeps
  - wet areas onsite
  - wetlands
  - evidence of flooding/surface erosion
  - direction of runon and runoff
  - water bodies
  - PPE(s)

- ☐ Identify geologic features:
  - topography and slope
  - rock outcrops
  - soil characteristics

- ☐ Identify potentially hazardous features:
  - drums, barrels, containers, tanks
  - containment (describe)
  - waste materials
  - odors
  - leachate
  - stained soil
  - discolored surface water
  - pits/ponds/lagoons

- ☐ Identify vegetation features and condition
  - type/maturity/density
  - stressed vegetation

- ☐ Identify evidence of recreational activities
  - camp fire/party remains
  - bike trails
  - water body use (fishing/swimming/boating)

Perimeter survey:

- ☐ Observe and measure distance to:
  - wetlands
  - PPE(s)
  - nearest residence/daycare/school

APPENDIX B

STANDARD OPERATING PROCEDURES LIST

STANDARD OPERATING PROCEDURES

The following Standard Operating Procedures (SOPs) will be distributed to field personnel by the field team leader prior to the field planning meeting. SOPs will be available during field activities.

PROCEDURE #*	REVISION #	TITLE OF PROCEDURE
EP 2.0	0	OVM/Datalogger, Model 580B
EP 3.0	0	HNU Photoionization Analyzer
SOP 1-1	1	Surface Water and Sediment/Sludge Sampling
SOP 1-2	0	Sample Custody
SOP 1-3	1	Surface Soil Sampling
SOP 1-5	0	Groundwater Sampling Using Bailers
SOP 2-5	0	Packaging and Shipping of Environmental Samples
SOP 4-1	1	Field Logbook Content and Control
SOP 4-2	1	Photographic Documentation of Field Activities.
SOP 4-5	0	Field Equipment Decontamination at Nonradioactive Sites
SOP 5-1	1	Control of Measurement and Test Equipment

*SOP = Standard Operating Procedure, EP = Equipment Procedure

URGENT LEGAL MATTER -- PROMPT REPLY NECESSARY

May 20, 1994

Mr. Steve Ranney
City of Auburn
45 Spring Street
Auburn, ME 04210

Re: **REQUEST FOR ACCESS TO PROPERTY**
Gracelawn Waste Disposal Area
Auburn, ME
MED981204951

Dear Mr. Ranney:

The United States Environmental Protection Agency (EPA) respectfully requests permission for EPA, its agents, contractors, and other authorized representatives to have access to the Gracelawn Waste Disposal Area located on Gracelawn Road in Auburn, Maine.

EPA requests access to your property to conduct or oversee a CERCLA site evaluation. Entry to your property to conduct this activity is authorized by Section 104(e) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9604(e). This authorization provided by CERCLA includes access to private property in order to determine the need for response actions, to perform response actions, and to enforce CERCLA. Entry by EPA is also authorized under Section 3007 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6297. Under that section EPA may enter property where hazardous wastes are or have been disposed of, transported from, generated, stored, or treated in order to enforce the provisions of RCRA.

CERCLA site evaluation activities may include information-gathering to determine whether hazardous substances, pollutants, and contaminants may be, or may have been released to the environment. In addition, EPA and its representatives may drive vehicles onto the site, collect samples, take photographs, and dispose of small amounts of decontamination fluid on the property. EPA or its representatives will offer the owner or company representative(s) replicates of the samples collected if requested. Prior to leaving the property, the EPA representatives will supply the owner or company representative(s) with a receipt for samples collected on the property.

PRINTED ON RECYCLED PAPER

Please signify your consent to access by signing this document in the space provided below, and return it to me at the above address (adding my mail code: HSS). The access agreement must be signed by all owners of the property. If EPA does not receive a reply within **ten (10) business days** of your receipt of this letter, it will become necessary for EPA to employ other means to obtain access. Such means may include issuing an administrative order or bringing an action in federal court to secure EPA's right to access.

Your cooperation in assisting with completion of CERCLA site evaluation activities is appreciated. If you have any questions, I may be contacted at (617) 573-9697. All communications from your legal counsel should be directed to Ms. Marcia Lamel of the EPA Region I Office of Regional Counsel at (617) 565-3435.

Sincerely,

Nancy Smith

CONSENT FOR ACCESS TO PROPERTY

I (We), the Owner(s) of the Gracelawn Waste Disposal Area located on Gracelawn Road in Auburn, ME, shall permit EPA's officers, employees, agents, contractors, subcontractors, consultants, and other authorized representatives, to enter and have continued access to this property for the purpose of conducting a CERCLA site evaluation.

I (we) realize that these actions are undertaken under EPA's response and enforcement authorities under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9604(e) and under Section 3007 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6297.

I (We) give this written permission voluntarily with knowledge of my (our) right to refuse, and without threats or promises of any kind.

HYDROGEOLOGICAL INVESTIGATION
GRACELAWN LANDFILL
CITY OF AUBURN, MAINE

TERMS AND CONDITIONS

The services provided under this Task Order Memorandum E will be governed by the terms and conditions of the Task Order Agreement dated March 9, 1987, between the City of Auburn (City) and E.C. Jordan Co. (JORDAN).

PROJECT SUMMARY

The CITY operated a municipal solid waste disposal facility (Gracelawn Landfill) from 1964 to 1977. The landfill is located on Gracelawn Avenue adjacent to the CITY garage. In response to the CITY'S request, JORDAN proposes a hydrogeological investigation that will involve (1) piezometer and monitoring well installations, (2) water quality sampling and laboratory analysis (3) hydrogeological evaluation and (4) reporting in the Fall of 1989.

The program described below will evaluate potential groundwater contaminant migration away from the Gracelawn Landfill and assess whether contaminated groundwater is discharging to Lake Auburn, the CITY'S drinking water supply. The program provides for (1) installation of three new monitoring wells north of the landfill, (2) replacement of two existing monitoring wells south of the landfill (these will be destroyed by commercial development), (3) installation of up to 13 hand-driven piezometers along part of the south shore of Lake Auburn, (4) installation of two hand-driven monitoring wells and four hand-driven piezometers in the two streams located south and southwest of the landfill, (5) sampling and analyses of the groundwater in ten monitoring wells, and (6) reporting the results of the investigation. This program will supplement and incorporate the results of the existing semi-annual sampling and analytical program that JORDAN is conducting for the CITY.

Eric Jones
Maine Dept. of Environmental Protection
State House Station # 17
Augusta, ME 04333

Dear ~~Ms. Jones:~~ Eric

Enclosed please find EPA's marked-up copy of CERCLIS for Maine. Hopefully this will help answer some of your questions. However, if you can not understand why something was or was not changed in CERCLIS, please do not hesitate to call me and I will try to help you. I have also enclosed all the information I could find on the site in Belgrade. This site is not a CERCLIS site.

The two sites in Auburn (DOT and Millers) were recommended for SSIs based on NUS/FIT PAs completed in 1988. The Gracelawn Waste Disposal Area SI completed by NUS/FIT on 4/10/87 and entered into CERCLIS on 5/9/88 recommended that an LSI be conducted. We have no information in the file concerning a low HRS score. The Buckfield site information form gave a recommendation for a NFRAP after the PA, but gave a recommendation for an LSI after the SSI. Because this did not make sense I changed the recommendation after the PA to a medium priority SSI (since one had already been done). I could not find a CERCLIS file on the Island View Street Site in Saco and I do not remember entering the site into CERCLIS. I will look into this further.

If you have any questions, or if you need any further explanation, please call me at (617) 573-5709.

Sincerely,

Sharon M. Hayes

STAFF ORDER

IN THE MATTER OF

CITY OF AUBURN Auburn, Maine, Androscoggin County CLOSING PLAN #07-3731-01010	)	SOLID WASTE ORDER FINDINGS OF FACT AND ORDER

After reviewing the project file which includes the application with its supportive data, agency review comments, staff summary and other related materials on file with regard to the above noted project, under provisions of Title 38, M.R.S.A., Sec. 483, the Department finds the following facts:

1. The project involves the closing of the Auburn Interim Landfill located on the northwest side of Gracelawn Road in Auburn at 44° 07' 32" N Latitude, 70° 14' 20" W Longitude. The facility is to be closed in accordance with Department of Environmental Protection Regulation 400.10 A-K.

2. The Interim Landfill has been in operation since July 27, 1977. The landfill was used for the disposal of Auburn's, New Gloucester and Minot's municipal refuse from July 27, 1977 to March, 1981. Ash was disposed of at the site from March, 1981 to July 1981.

3. On March 3, 1981, the Board of Environmental Protection ordered the interim landfill closed by July 30, 1981.

4. Access restriction has been provided.

5. A ground water monitoring program has been implemented. The monitoring shows that the ground water under the landfill may flow in the general direction of Lake Auburn necessitating a continuation of the monitoring program.

6. A site closing plan was submitted to this Department on August 21st, 1981. The plan provides for diversion of surface water.

7. All ash and refuse will be compacted, covered with 2 feet of final cover and seeded.

8. The earth material to be used for final cover contains approximately 50% fines.

9. Methane vents will be provided.

THEREFORE, the Department APPROVES the closing plan for the Auburn Interim Landfill located on the Gracelawn Road in Auburn with the following conditions:

1. The Standard Conditions of Approval, a copy attached.

2. The entire disposal area is to be compacted, covered with 2 feet of earth with 45-55% fines, limed, fertilized, and seeded by June 1st, 1982.

3. The 10 monitoring wells shall be sampled and the water elevation recorded semi-annually, and the results submitted to the Department.

4. The Department shall be notified upon the completion of all grading and placement of final cover.

5. The methance gas vents shall be installed higher than 1 inch above the finished grade so no fines will migrate into the crushed rock.

6. Corrections shall be made as necessary or as directed by the Department.

DONE AND DATED AT AUGUSTA, MAINE, THIS 29TH DAY OF DECEMBER, 1981.

TO: Auburn Gracelawn Landfill File

FROM: Rebecca L. Hewett, BOHMC

DATE: August 3, 1987

RE: July 29, 1987 meeting held at E.C. Jordan, Inc.

** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** **

On July 29, 1987 at 3:00 pm, I arrived at E.C. Jordan, Inc. (ECJ) in Portland and met with Susan Svirsky (EPA), David Webster (EPA), Dale Mosher (ECJ) - retained by the City of Auburn, and Auburn City officials Paula Valente (City Manager), Steve Ranney (City Engineer), Norm Lamie (Water District), and Bob Belz (Public Works Director). Susan Svirsky and David Webster explained the EPA's pre-remedial and remedial actions at hazardous substance sites to the Auburn City Officials.

The EPA is presently working on the final draft of the Site Investigation (SI) report and is awaiting the review of the Hazardous Ranking System (HRS) package. The Gracelawn Landfill's HRS package score will determine if the site is listed on the National Priority List (NPL) this fall. The probably actions (i.e., Remedial Investigation/Feasibility Study [RI/FS], Potential Responsible Party [PRP] search, etc.) if a site is listed on the NPL were discussed with the Auburn City Officials.

The City of Auburn is investigating the feasibility of initiating a study of the Gracelawn Landfill site and its potential impact on Lake Auburn (the City's drinking water supply). The City's general feeling at the close of the meeting was to hold off on the study until it is determined if the site is placed on the NPL this fall.

Auburn to seek answers on Gracelawn Road dump site

By Joel Davison
Sun staff writer

AUBURN — City officials will meet Wednesday with a representative of the federal Environmental Protection Agency over the status of the Gracelawn Road landfill site, City Manager Paula R. Valente said Monday.

The EPA has been studying the background of the long-term municipal dumping site to determine if it poses enough of a health hazard to qualify for federal clean-up dollars under the Superfund law.

But it could be years before the site is eligible for the money, depending on how high it it ranked, so Valente said the city is looking into what could be done locally between now and then.

"We decided to initiate the meeting to get some sense of where the EPA might be going" with the site, Valente said. "We want to get a more-precise idea of the timing."

Besides Valente, others who will be meeting Wednesday afternoon in Portland with EPA scientist Susan Svirsky include city Civil Engineer Steve Ranney, Water District Supt. Normand R. Lamie, Public Works Director Robert Belz, and Dale C. Mosher of E.C. Jordan Co. of Portland. E.C. Jordan is already under contract with the city to monitor ground water through wells at the landfill.

What the city wants to know, Valente said, is if it puts in additional monitoring wells at the site between now and the time the Superfund money is available, would it fit into the EPA's plan under Superfund?

When Superfund money is used to clean up a site, the federal government then tries to recover the expense from those who dumped there.

In this case, Valente said that means the city as well as other companies who took their waste to the site while it was open.

Lamie is attending the meeting because the landfill is located near Lake Auburn, which serves as the major drinking-water supply of Lewiston-Auburn.

A Boston consulting firm is currently conducting a study of the lake and its watershed to see what pollutants are entering the water and from what sources.

"We've been sharing with city officials all the information we have that comes across on the watershed study," Lamie said. "And we're looking to receive the same type of information" on the Gracelawn site.

Lamie said the final draft of the watershed study is expected in mid-August.

"We want to find out whether it's in the best interest to initiate any more testing or not at this point," said Valente.

While Svirsky could not be reached for comment Monday afternoon, she told The Sun in April that the site could be ranked as early as October.

The landfill was closed in 1975, but an E.C. Jordan report issued in January said it as "been identified as having received substantial quantities of industrial liquid wastes."

A study conducted by E.C. Jordan Co. in 1985 and 1986 showed that monitoring wells on the periphery of the landfill were detecting traces of some chemicals known to be carcinogens.

At that time, the company recommended the drilling of nine additional monitoring wells, but the city held off pending the Superfund determination by the EPA.

Auburn Water District to test Lake Auburn spring

By Joel Davison
Sun staff writer

Auburn Water District Trustee Dana E. Bunker was appointed Tuesday to determine if a contaminated spring that feeds into Lake Auburn should be closed off.

The spring, located off Spring Road about 50 feet from the western shore of the lake, was first found to be contaminated "about three years ago," according to Water Superintendent Earle A. Tarr Jr., "but a decision was made by the (trustees) board at that time to keep it going. The biggest reason was that it's always been there and a lot of people use it."

Tarr said the spring is on district land "so we're responsible for it." But he said the district's attorney wrote a disclaimer for placement at the site which warns people of the danger of drinking the water. "In other words, people use it at their own risk," he said.

The spring has been a popular place for North Auburn residents to get their water for years.

"What contaminates it?" asked Bunker.

"We don't know," Tarr replied. "We never bothered to find out."

When asked about the contamination, Assistant Superintendent Bob Palmer said recently that this year's contamination was discovered through routine testing Oct. 22. He said the test turned up escherichia coli, a bacteria found in warm-blooded animals which indicates that there "could be other bacteria present."

Palmer said possible sources of the contamination could be runoff over animal feces on the ground near where the water runs into the spring, or a dead animal, such as a mouse, that could be in the water.

Palmer said the "trickle that comes out of the spring is about as big as a pencil" and that contamination is more likely when the water flow is small.

He suggested that people either refrain from drinking the water until the district removes the warning signs, or that the water be boiled at least 20 minutes before drinking. The district, he said, will continue to test the water twice weekly until the contamination is gone.

In making the motion to appoint a committee, Bunker said, "I think it's a serious enough concern to take a good hard look at it and either do something or do nothing."

The spring has been a popular spot for residents for well over 100 years. A small hotel operated on the spring site until it was enlarged in 1889 to an ornate, five-story wooden structure operated by the Lake Auburn Mineral Spring Co.

The hotel business was enhanced by the high-quality spring water, which was used for ginger ale, sasaparilla and other soda drinks, as well as drinking water for many residepts.

But the hotel soon folded and was consumed by fire in 1893, after which time the Water District acquired the land and put a cement cap on the spring to insure its usability and to preserve it for posterity.

The board was also notified that the state Public Utilities Commission turned down a request for an 18-percent, late-payment charge for overdue bills. The district, however, then refiled to the PUC for a 12-percent charge which was approved.

While the late-payment charge was approved to use as of Nov. 6, it is scheduled to go into effect the first of the year.

Watershed study cost estimate is tabled

11/13/8

By Joel Davison
Sun staff writer

A complete study of the Lake Auburn Watershed area would probably cost between $37,500 and $45,000, Auburn Water District Trustees were told Tuesday.

The study estimate was forwarded to the district by Camp, Dresser & McKee, the Boston consulting firm which recently did a preliminary watershed study in which a full study was recommended. Trustees requested at their last meeting that a proposal be submitted, but they tabled the matter Tuesday until board members could study it further. It will be discussed at the trustee's regular December meeting.

The full study, according to the proposal, would entail three parts: a ground water and geological study at $18,000; a watershed study at $15,000; and lab analysis, which was estimated costing between $4,000 and $12,000. If the study involves going further upstream into tributaries than anticipated, the costs would be higher.

The study would be designed to answer several questions, among them:

- What is the existing lake water quality in terms of bacteriology and water chemistry?
- What are the sources of pollutants entering the lake?
- How will full development under existing zoning effect the lake quality in the long term?
- Is the existing zoning adequate to protect the water quality of the lake?
- Can the occasional algae problems be controlled or reduced? and
- What are the sources of ground water entering the lake and are they within the watershed?

The ground-water and geological study would involve surveying watershed soil types, origins and permeabilities; reviewing well logs and precolation test in the area; use special measures to assess the total ground-water input; analyze linear features of watershed through aerial photography; use instruments to determine ground-water inflow characteristics along the shoreline; estimate inflows from different surface layers, such as till, outwash deposits and bedrock; overlay locations of industry, storage and other land uses with areas of highest recharge to determine potential problem areas; and develop recommendations for protecting water quality or further study.

The watershed study would involve in-lake sampling at various depths for 13 parameters on a seasonal basis to determine existing water quality; survey shoreline-sediment depth to determine long-term silt loadings from various tributaries; sample and analyze sediment at delta areas of tributaries to determine long-term quality of incoming flow; sample tributaries for chemical bacterial parameters to determine incoming water quality from different areas of watershed; survey tributaries to identify possible sources of pollutants; and compare existing land-use mapping of watershed to maximum allowable density under existing zoning.

The proposal also calls for developing recommendations for possible changes in the zoning map and/or ordinance, for controlling or reducing algae problams, and for long-term monitoring of water quality by district staff.

Auburn asbestos landfill closing comes back before City Council

By Joel Davison
Sun staff writer 6-9-86 LS

The ongoing issue of who should pay to close a portion of the Gracelawn Road landfill should again be before the City Council for discussion next Monday following a meeting last week between city officials and the state Department of Environmental Protection.

While the city contends that Richard C. Buerhaus, who operated an asbestos landfill on part of the site between 1980 and 1985, is responsible for closing the entire landfill, Buerhaus and the DEP maintain at this point that the city never held to its agreement to close an interim landfill on the site before Buerhaus began depositing asbestos.

Buerhaus has already begun closing another part of the landfill, where most of the asbestos was dumped, although he is still responsible for adding topsoil, mulching and seeding the site by June 15.

"We talked over the problem, but there was really nothing new," Auburn City Manager Charles A. Morrison said of Tuesday's meeting in Augusta that he attended along with councilors Harry W. Woodard Jr. of Ward 1, Frances Abbott of Ward 2, Franklin H. Goss of Ward 3 and Alvin E. Gilbert of Ward 4. Representing the DEP were Clifton Eliason of the Land Quality Control Bureau and Mark Hyland of enforcement.

Morrison said the "options" are to either push the issue before the Board of Environmental Protection (BEP) for its consideration and action, or "have the councilors talk about it and accept the responsibility they say is ours."

Eliason said Monday that his understanding is that the council "would be sitting down and discussing what their next course of action would be and that they would be back in contact with me this week or next."

When Buerhaus originally submitted his plan for closing, Eliason said "it appeared that Buerhaus had responsibility for the entire site because his initial approval (by Auburn) for the site did not limit him to one portion of the site and his plan showed the whole site."

But Eliason said as he and Hyland began to look into the matter more closely, they found that Auburn had been ordered by the BEP to close the interim disposal site as of July 30, 1981, which was to include compacting the entire interim-landfill area with two feet of clay.

Eliason said Buerhaus's operation should not have penetrated the interim-site cover if it had been properly closed and that Buerhaus's order from the DEP specified that Buerhaus "would be responsible for closing the areas where he put asbestos."

Morrison said, "I see the DEP's point of view, but I don't agree with it. Why would we let Auburn Landfill Company (the name under which Buerhaus ran the asbestos dump) have the landfill if we had to close the whole thing first? The major thing that the city got out of (the arrangement with) Auburn Landfill Company was that they were going to close the site."

The city has tried to negotiate the closing with Buerhaus, but when talks broke down, the council in early May suggested that Buerhaus be asked to consider arbitration to settle the matter.

Morrison said that he has still had "no direct response" from Buerhaus on the arbitration question.

Buerhaus has asked the DEP to amend his closing plan in order to shift the responsibility of the interim-site area back to the city, and if the city of Auburn doesn't go along with it, the issue may go before the BEP for formal action.

"Nothing has been indelibly cast," said Eliason. "There's no final recommendation yet; we're waiting to see what the city submits" as a response to Tuesday's session.

Woodard said, "I think the meeting with the DEP went well and that the council will decide what will be done at our next meeting. I hope we get it settled soon because it's been dragging on long enough."

Museum popular despite air scare

Capital Bureau
KJ 6-9-86

AUGUSTA — The Maine State Museum is pointed toward a record year attracting visitors, despite a publicized asbestos scare in April.

The head count for the first five months of 1986 is 51,000 visitors, Director Paul Rivard told the State Museum Commission Monday.

That is more than half way to annual attendance estimates for past years, with seven months left to count in 1986.

Rivard said later that the 100,000-a-year estimates are based on visual head counts taken by lobby personnel, with a 10-15 percent adjustment upward for people counters may miss. But the 51,000 represents only the actual count.

The success has been dented by continuing impressions that the museum is affected by discovery of hazardous airborne asbestos elsewhere in the Cultural Building, he said. The museum has been open since a two-day April shutdown, when tests showed the only problem with loose asbestos was in the state library, due to water leakage there. The library is still closed, but Rivard says confusion remains among people he meets.

"In spite of that visitation is higher than normal," he said.

One attraction is the museum's largest current exhibit, "Maine in Maine," which opened last October after years of preparation.

Hazardous waste conference set TR 6/9

SEBASCO — In conjunction with the annual meeting of the Garden Club Federation of Maine, an all day New England regional conference on hazardous waste awareness will be held June 16 at Sebasco Lodge. Meetings are scheduled from 9:30 to 11:30 a.m. and 1:15 to 5:00 p.m. The conference is open to participants from all New England states are invited to attend the conference which is being underwritten by the Shell Oil Company.

Some of the topics to be discussed are: 1. Who should be responsible for managing the hazardous waste problem; 2. The best method of hazardous waste disposal; 3. How small businesses dispose of waste; 4. Landfill problems; 5. Who generates the most hazardous waste.

National Garden Club President, Mrs. John N. Ferher, will be joining the New England Region for the entire convention as well as Mrs. Granville Smith, the New England Regional Director.

...y...

"If you're going to have to take a guess, take a guess in favor of the lake."

The quality of the lake formed the central issue for the board as it began exploring the various subdivision and conditional use criteria that must be met for project approval.

"I think in many ways this is the most difficult case the board has had to deal with," Codes Enforcement Officer Thomas Gordon said. "It's not going to be an easy process for us to decide who do we trust or who do we believe."

The board presented Gordon and town attorney Lee Bragg with a series of questions ranging from the current quality of the lake to the feasibility of performance bonds.

Based on the questions and board comments, Gordon will draw up "findings of fact," considerations on which the board will base, in part, its decision in the case.

Auburn Council agrees to pay for closing landfill

By Mike Boehmer
Sun staff writer

The Auburn City Council Monday ended a nearly year of haggling when it reluctantly decided to pay for closing part of the Gracelawn Road landfill.

Following the recommendation of City Manager Charles A. Morrison, councilors voted 4-0 to follow a Department of Environmental Protection plan calling for the city to fill in the landfill's eastern portions. Ward 4 Councilor Alvin E. Gilbert was not present.

Morrison said the area will be closed "on a materials basis," with the city supplying most equipment. He declined to publicly release a cost estimate, saying that could hurt the city when it seeks prices for clay and other materials.

At the request of Councilor Frances Abbott, Morrison is to provide costs to council when work is finished.

The council had argued that Richard C. Buerhaus of Auburn Landfill Co. was responsible for closing the entire dump. The firm operated an asbestos landfill on part of the site between 1980 and 1985.

But Buerhaus and the DEP maintained the city hadn't lived up to an agreement to close an interim landfill on the site before his company began dumping asbestos. That made the city liable for closing the site, they said.

Mayor John J. Cleveland, a council member when the original agreement was reached with Buerhaus, said: "It was my recollection and understanding that responsibility (for closing the dump) rested with the company."

Cleveland said he thinks "it is extraordinarily unfortunate that a company that resides in Auburn . . . could not come to a better understanding with its political body than what it has, considering the opportunity to be cooperative that the city extended to the individual and company when the project started."

"I think it reflects extrordinarily poorly on Mr. Buerhaus and certainly doesn't enhance his reputation with me . . .," Cleveland added. Reached at his home late Monday, Buerhaus had no comment.

Morrison told councilors Buerhaus has begun closing another part of the landfill where most of the asbestos was dumped.

The city and Buerhaus attempted to negotiate the closing. When talks broke off during the spring, the city had considered arbitration.

Morrison, though, said Monday the DEP's insistence that the city take responsibility for covering part of the landfill persuaded him to make the recommendation. A letter will be sent to the DEP, saying that the city's work should be completed by the end of August.

"As we expressed to you, we firmly believe that Auburn Landfill Co. bears the responsibility for closing the entire site," the letter states. "However, we understand the concerns you raised regarding closure of the easterly side of the site."

In other action, the council:

- Approved contracts with unions for the city highway department and deputy fire chiefs. Both two-years, retroactive to April 1. give 4 percent raises each of the years.
- Deferred expanding a city groundwater monitoring program in the Gracelawn area. Morrison said a preliminary Environmental Protection Agency study has resulted in a report that recommends further testing under the federal Superfund program. Such a test would dwarf the city's program, he said.
- Authorized issuance of $1 million in revenue bonds for Thomas Moser Cabinetmakers Inc. to acquire land and equip a new manufacturing facility in the Auburn-Lewiston Airpark.
- Set in motion the process to issue $500,000 in revenue bonds for Edward and Monika Spooner of Frank Jordan Sheet Metal Inc. The money would allow the company to lease a 20,000-square-foot facility at the Central Maine Corporate Park on Merrow Road.
- Adjudged the old Lake Grove House at 1240 Turner St. a nuisance and authorized its removal. Dana Turner, one of several owners of the building, had told council he plans to renovate the building. But councilors said they have seen little progress toward improving the structure. If work is done on the building. council could rescind its action next month, Morrison said.
- Set a workshop session with the Planning Board for 6 p.m. next Monday to review amendments to the zoning ordinance.
- Decided to take no action on discontinuing the Old Waterman Road. Since the road has been abandoned for more than 40 years, the public already had no right to travel over it, according to an opinion issued by city attorney G. Curtis Webber.

ıburn concerned by effect of shore ses on Lake Auburn's water quality

By Joel Davison
Sun staff writer

LDS 7/4/86

While disappointed at the turnout at last week's informational meeting on a water-quality study now under way of the Lake Auburn Watershed, the superintendent of the Auburn Water and Sewerage District said Thursday that the session opened his eyes to some shoreland uses that could have drastic implications.

"We were trying to get input from people who have lived on the lake for years and years," said Norman R. Lamie, who took over the superintendent's job in May following the retirement of Earle A. Tarr Jr.

At the meeting, which was attended by 25 citizens, Lamie said he listened to "a lot of complaints of trash being left on the lake's shore, of people washing cars on Lake Shore Drive (which borders much of the lake) and even people changing their oil."

City civil engineer Steve Ranney, who attended the meeting, said Thursday that, "one gallon of oil can contaminate a million gallons of drinking, or potable, water."

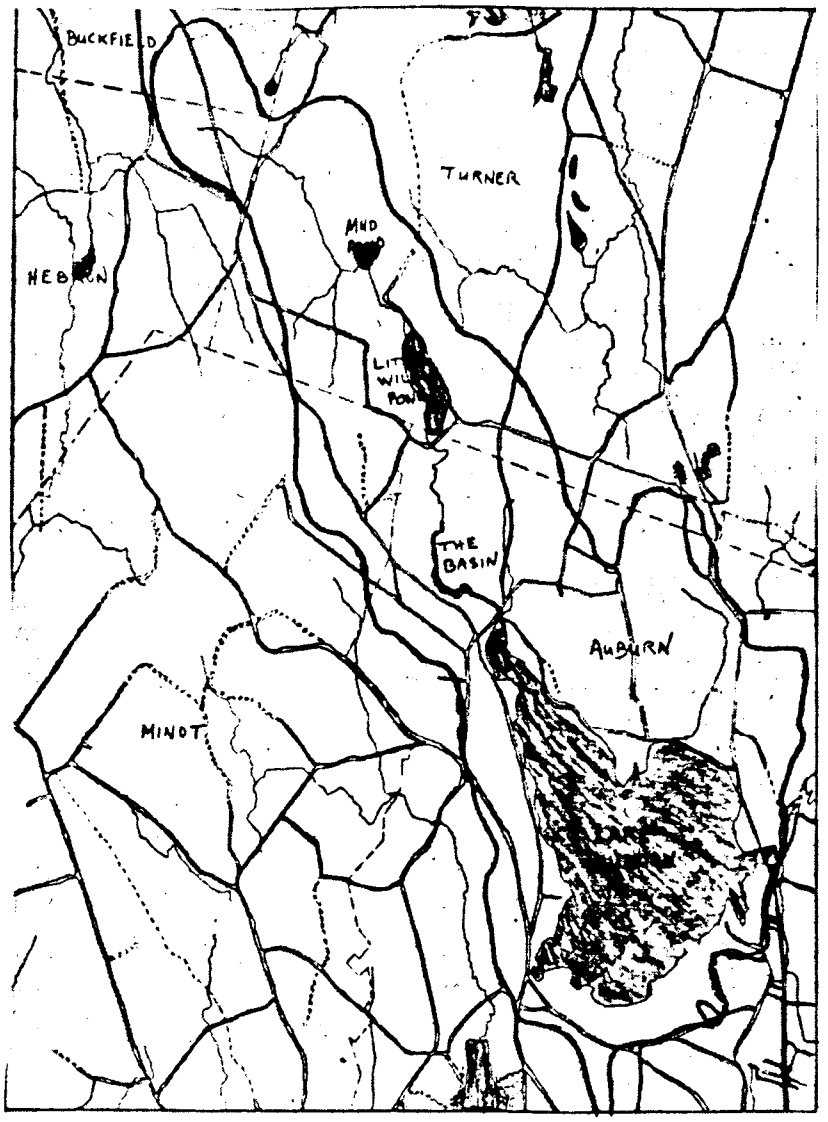
"Maybe we need an educational effort and go into the schools to tell people what people do around the lake and what effect that might have," Lamie said.

Ranney agreed with Lamie that an educational campaign aimed at the schools is probably needed soon to show people what uses must be forbidden around the lake if the pristine water that serves more than 50,000 residents in Auburn and Lewiston is to remain pure.

Lamie said one suggestion was to put up a chain-link fence to protect the water, which he called "something to think about, but not very desirable."

Ann E. Fenderson, a Lake Shore Drive resident who attended the meeting, said Thursday that she doesn't think "people are aware of what's going into the lake from the common things they do every day; (for instance) any soap or detergent is bad for the lake. Some were concerned about people who go in and fish from different points and leave different things behind.

"I think people are willing to help," she said. "I don't believe people do it on purpose. I'm glad (the district) is concerned. I don't use the water myself because I have an artesian well, but I'm concerned for the safety of the water. It sounds like it will be quite a complete study."



Heavy line shows Lake Auburn watershed

The Water District office sent out 500 leaflets explaining the purpose of the meeting to residents around the lake, as well as to members of planning boards, and councilors and boards of selectmen in Auburn as well as in the four surrounding towns — Turner, Minot, Hebron and Buckfield — that lie within the watershed.

Several Auburn officials attended, including City Manager Charles A. Morrison, Ward 4 Councilor Alvin E. Gilbert, Planning Board Chairman Paul A. Choate and Health Officer Brenda Rivet, as well as Lewiston Water Superintendent Norman J. Cyr; but Lamie was disappointed that there was no response from the other towns.

Lamie said the watershed study being conducted by the Boston consulting firm of Camp, Dresser & McKee began the second week of June with a double set of samples being taken at various inlets and supply points

CONT.

of the lake following an isolation process.

Lamie was pleased that some lakeshore residents have volunteered to have their wells sampled because he said it would save time and effort in drilling new test wells. He encourages more well owners to contact either him or Assistant Superintendent Bob Palmer at the Water District office at 784-6469.

In August, the district itself will take a second set of samples for the consultants and have them analyzed at A & L Laboratory in Auburn. Lamie said at least four more rounds of samples will be taken in the four-season study.

The purpose of the study is to determine if there are any sources of pollutants entering the lake that can be controlled, and to develop a long-term monitoring program to protect the lake. The study has two basic components: surface water and ground water.

The surface-water part will include sampling of the lake and its tributaries, and studying the land uses in the watershed to predict future water quality. The ground-water study will attempt to determine the direction of ground-water flow near the lake and whether there is ground water flowing to the lake from areas unprotected by existing zoning regulations.

At the meeting, Camp Dresser Project Manager Eileen Pannetier and another representative of the firm gave a 30-minute overview of the study, after which the public was encouraged to ask questions.

"Those who were there thought it was a good idea to get feedback and they asked a lot of interesting questions," said Ranney. "There was good participation from those who were there and I think the questions and comments were well taken."

Ranney suggested that a media campaign accompany the effort in the schools. "The local TV stations could have a little spot each week, saying, 'This is Lake Auburn, your water supply and there are things being done that threaten it.. The alternative is building a multi-million-dollar treatment plant.' "

Lamie said the district plans to hold more informational meetings in the future to update the public on the study.

The MSEA contract

Negotiations between the state government and the Maine State Employees Association with its 10,000 members is likely to continue for a comparatively long time.

Discussions should be lengthy if the MSEA continues to demand 8 percent wage increases. The state cannot afford the additional $40 million that would result from what the union is proposing. Such a sum automatically would produce a budget deficit of several million that is not permissible under the state constitution.

The 8 percent figure does not accord with what has been happening to the cost of living. Inflation is running between 3 and 4 percent. So the combined cost to the state of the next wage contract with the MSEA should be considerably below 8 percent.

The fact Gov. Joseph E. Brennan is running for Congress this year has occasioned some picketers at the State House Tuesday to carry signs stating: "No contract in July, no vote in November." This particular approach amounts to political blackmail. The MSEA has no business attempting what amounts to a blatant effort to get the Governor to push for a contract simply in order to obtain election votes.

We in no way believe Brennan will submit to this kind of unfair pressure. While we have not agreed with him over the years on some issues, his record in office has been one of integrity. It will be well for top MSEA officials to advise the rank and file to cease a kind of arm-twisting that is totally unjustified.

Auburn Grace Lawn + Asbestos

Municipal workers will close landfill

By Joel Davison
Sun staff writer LS 7-12-86

Auburn officials have decided to use in-house manpower and equipment to close the eastern portion of the Gracelawn Road landfill that city councilors last month finally agreed was the city's responsibility to seal up.

"We won't be contracting the job out," said Assistant City Manager Paula Valente on Friday, "and, hopefully, it will be closed by the end of August or around the first of September in accordance with (state Department of Environmental Protection) regulations."

She said the decision was made largely due to financial considerations and time constraints.

While Valente said the state did not set a deadline for the final closure, she said, "It obviously has to be done and the decision was that it is better for us to do it in-house. It should be more cost-effective to do it ourselves" and it means the city won't have to depend on outside contractors, who already have commitments this summer, to get the work done expeditiously. "There's no time to spare," she said.

However, she said closing the landfill will mean that "some of the typical activities that get done day to day during the summer months by the Public Works crew will have to be put on the back burner because this is a priority."

Valente said Public Works Director Robert Belz and Highway Department Superintendent Kenneth Marshall will be overseeing the project, which will involve bringing in clay, grading, mulching and seeding, and the installation of vents to allow the escape of methane gas from the landfill.

"It's going to take at least five to six people working on it every day," said Valente. "And hauling the clay in is going to take at least a month." She indicated that the project had already begun.

Councilors agreed to close the landfill's eastern portion on June 16 at the recommendation of City Manager Charles A. Morrison. Morrison, however, noted at the meeting that his recommendation came only after the DEP had insisted that it was the city's responsibility, since the city once operated an interim landfill on the site and the DEP said that dump had never been properly sealed.

The city had maintained all along that the closing of the entire landfill was instead the responsibility of Richard C. Buerhaus, who operated an asbestos landfill under the name of Auburn Landfill Co. on another portion of the site between 1980 and 1985.

Head of Maine Board of Environmental Protection resigns

BDN 7-12-86
By David Platt
Senior Writer

Sam Zaitlin, chairman of the state Board of Environmental Protection for the past two years, has announced his resignation from the board to return to private business.

Zaitlin served on the board for seven years, during which the 10-member group wrestled with issues ranging from subdivisions and hydropower projects to incinerators and dioxin contamination. The BEP regulates larger industrial, commercial and residential developments throughout Maine.

"My big regret," he said Friday, "is that I won't get to deal with some big issues now pending." His list of unfinished business included the question of dioxin in sludges, the condominium development of Great Diamond Island off Portland, the allocation of resources within the state Department of Environmental Protection, and the adequacy of Maine's 15-year-old set of environmental laws.

"I've reached the point in business where the time demands are so great that I knew if I were to continue, I couldn't give the board the time it deserved," Zaitlin said. He owns a large scrap metal business in Biddeford.

Gov. Joseph E. Brennan picked Zaitlin to be chairman in 1984, after the Legislature reorganized the board, removing the Commissioner of Environmental Protection and decreeing that the chairman should be appointed from the board's regular membership.

Zaitlin reflected on issues the board had dealt with during his seven years' service, and how Maine's problems have changed.

"In the past, it really did seem to be sufficient to look at development projects without any thought of cumulative impact," he said. "Now it's different — the pressure to deal with cumulative impact issues will heighten in the next few years."

He said he was impressed with the "complexity" of some issues, particularly the air-quality impact of waste-to-energy plants and how Maine should deal with traces of dioxin in industrial and municipal sludges. Recently Zaitlin has championed "risk assessment" — the idea of measuring the actual health risk posed by a particular pollutant before embarking on expensive control strategies or absolute prohibitions.

Typically, a risk assessment expresses the threat of a particular pollutant in terms of the number of cancer cases it might be expected to cause over time.

Zaitlin said he thought the board's recent inclination to delegate routine matters to the DEP staff had "on the whole, worked well." But he pointed out the concern on the part of board members and the DEP staff over the large number of appeals coming before the board. Some of the appeals, he said, raise legitimate legal concerns.

A citizens's board like the BEP, Zaitlin said, offers "the greatest amount of environmental protection ar openness," despite its cumbersome nature and the risl involved.

Like the state Legislature, he said, the quality of th decisions that emerge from the board depends on th quality of the people there.

"The board is only as good as the appointments th are made to it," he said, adding that he thought th current group was extremely good.

The Bangor Dam was one of the most difficult issue Zaitlin had to deal with during his term, he said. After protracted process, the board turned down a developer' proposal on grounds that it didn't guarantee there woul be no "diminishment" of the Penobscot River's prim Atlantic salmon fishery. The dam proposal brought th board face-to-face with Maine's hydro licensing law tha allows no diminishment on certain prime river stretch es, including the Penobscot at Bangor.

R.I. deadline extended for Mass. trash decision

Associated Press

PROVIDENCE, R.I. – A deadline for reaching an agreement on he dumping of Massachusetts rash at the state landfill has been extended because of conflicting aws on the controversial issue, officials said.

The director of the agency that uns the Johnston landfill had set Friday deadline but agreed to extend it to Dec. 15 because of the egal questions.

The haulers and Thomas E. Vright, chairman of the state Sol- l Waste Management Corp., said he quickest solution to the dis- ute would be for the Superior 'ourt to declare unconstitutional 1970 law prohibiting the dump- ng of out-of-state waste at the andfill.

That law conflicts with a 1980 atute allowing the waste agency permit haulers to dump trash om outside Rhode Island at the ohnston landfill.

Three owners of two major rubsh companies and three of their ivers were arrested last Tuesday r violating the 1970 law. They sponded by asking the court to id the statute.

The haulers said Friday that if ey signed an agreement to dump assachusetts waste at the land- l they might be subjecting themlves to criminal charges.

"We would be admitting that are doing something that state lice are now arresting people ," said Alan J. Goldman, an atney for the trash haulers.

Wright said the agreement will ow the dumping of small ounts of Massachusetts trash lected in communities within 10 miles of the Rhode Island border, provided an equal amount of Rhode Island garbage is dumped in Massachusetts.

> 'We would be admitting that we are doing something that state police are now arresting people for.'
>
> – Attorney Alan Goldman

The cross-state dumping arrangement would be phased out over several years, Wright said.

The agency and the haulers were on the verge of signing the agreement, but the arrests prompted the haulers to refuse to sign until the constitutional issues are resolved.

Goldman said the arrests were staged for the media, but the director of the state Department of Environmental Management denied the accusation.

The owners of Macera Disposal Co. and American Disposal Co. and the drivers were charged with illegally bringing into Rhode Island trash from the Boston area. Two of the drivers also were charged with fraudulently signing affidavits stating all of their load was from Rhode Island.

All have pleaded innocent and are due back in court Dec. 9.

The outright ban on dumping out-of-state trash at the landfill will continue until the new agreement is signed, Wright said.

EPA approves $300,000 for Meddybemps cleanup

BDN 11/22/18

Chemicals, ammunition dumped

MEDDYBEMPS (AP) — The federal government has allocated $300,000 in Superfund money for an emergency cleanup of a site in this eastern Maine town where hazardous chemicals and ammunition from military bases were dumped.

The funds, requested by the state Department of Environmental Protection, will be used to dispose of containers and other materials not already removed by the DEP at the former Eastern Surplus Co. site, said Michael R. Deland, the regional administrator of the Environmental Protection Agency in Boston.

Deland said the money also will be used to analyze the contents of the containers and contaminated soil, and for the excavation and disposal of the soil at an approved disposal site.

"EPA's actions and work undertaken by the state will avert significant contamination to the environment from drums and lab pack containers, which have continued to deteriorate and would certainly not remain intact through another winter," Deland said.

Old ammunition, 140 transformers, 675 55-gallon drums and 1,500 gas cylinders were among the materials dumped at the site during the past 15 years. Many of the drums were leaking and tests revealed the presence of sulfuric acid, toluene and waste oils containing PCBs, Deland said.

"Most of the material at the site is military surplus," and apparently came from bases in Maine as well as other states, Cynthia Bertocci, an environmental specialist with the DEP, said Friday.

The DEP has already fenced in the site and removed about 500 of the drums and all of the transformers and ammunition, she said.

The Meddybemps site is not officially on the Superfund list, but is expected to be included eventually, Bertocci said, adding that the $300,000 was granted on an emergency basis.

Currently, Maine has five Superfund sites — in Gray, Washburn, Winthrop, Augusta and Saco — and the Brunswick Naval Air Station has equivalent status in a separate military cleanup program. A site in South Hope also has been proposed for Superfund status, she added.

Dump eyed for Superfund

AUBURN — Federal Environmental Protection Agency officials said yesterday that NUS Corp of Bedford, Mass., will begin reviewing data next week to determine if a former city landfill qualifies for Superfund money earmarked to cleanup hazardous wastes.

A contract has been reactivited, said EPA scientist Susan Svirsky. And because a preliminary assessment of the Gracelawn Road site made this spring, EPA officials believe additional study is needed, said David Webster, director of Maine sites involved in the Superfund program.

The Gracelawn Road site, which has been used as a municipal landfill and asbestos dump, is located 3,000 feet south of Lake Auburn, Lewiston and Auburn's drinking supply.

A major concern, officials say, is the potential impact of an undetermined amount of industrial liquid waste dumped at the landfill until 1975.

E.C. Jordan Co. of Portland has been retained to test ground water in that area on a regular basis.

eds could require $5m treatment plant for Lake Auburn

By Joel Davison L.S.
Sun staff writer 10-15-86

New federal regulations will could force the construction of a multi-million-dollar plant to treat drinking water from Lake Auburn within five years, the superintendent of the Auburn Water District said Tuesday.

The Maine Water Utilities Association has estimated that such a plant, which Superintendent Normand R. Lamie said he hopes will cost no more than $5 million, may cause water rates to double.

While the district trustees heard a consultant's report that said an ongoing study of the lake and watershed shows the water quality to be nine or ten on a scale of ten, Lamie said it appears the federal government is still going to require "some form of treatment; I just hope it's a joint treatment system" with Lewiston.

While the district trustees heard a consultant's report that said an ongoing study of the lake and watershed shows the water quality to be nine or ten on a scale of ten, Superintendent Normand Lamie said it appears the federal government is still going to require "some form of treatment; I just hope it's a joint treatment system" with Lewiston.

In June, President Reagan signed a set of amendments to the Safe Drinking Water Act which means every public water supply in the country must meet certain regulations for which the criteria will be set in the next few years.

While Lamie said the four-season water study being conducted by Camp, Dresser & McKee of Boston should help sidestep the need for a full treatment plant that was estimated a year ago at cost of about $15 million, he said, "It looks like we'll probably be required to have a minimum level of water treatment which may include filtration."

While the surface-water supply which serves about 75 percent of the Twin Cities' population is currently disinfected with chlorine, Lamie said the new regulations may require dual disinfecting to safeguard against a waterborne parasite called Giardia lamblia.

The symptoms of Giardia, which is linked to more waterborne disease outbreaks in the United States than any other identified agent, include diarrhea, fatigue, abdominal cramps, and possibly other gastrointestinal symptoms that may persist for days up to several months.

The parasite is carried in the intestine of warm-blooded animals from dogs to deer, with beavers being the prime suspects. When the board first discussed the implications of Giardia, it prompted former water superintendent Earle A. Tarr Jr. to say, "If you get it, you wish you were dead."

Lamie said the treatment plant ulations on the turbidity of the water, the level of suspended particles.

"I think we will be impacted by turbidity," said Lamie. "It hasn't been regulated up to now. The (water) study is an important factor, but it won't give us a clean bill of health."

The criteria for requiring treatment of public surface-water supplies are expected to be complete by 1991, but Lamie said it may take longer. "I think you're looking at that as the earliest date."

Assistant Superintendent Bob Palmer said a committee from the Maine Water Utilities Association is now working with the state on its regulations. If those regulations are at least as stringent as the federal Environmental Protection Agency's, the state will be the enforcer of the requirements.

The new regulations will also include scores of contaminants that must be regulated certain standards, such as parts per billion or trillion.

Lamie said there doesn't appear to be any funding help in sight for building treatment plants, but that if sources are developed the water study should help Lewiston-Auburn be near the front of the line.

"I feel somewhere there's got to be some sort of funding available," since money was there to help clean up the rivers, Lamie said. "But there is no funding now available and there's no funding being discussed, although there may be in the future (in which case) I hope Lewiston-Auburn will be in the forefront and will be ready for

Contractor to probe old Auburn landfill

For possible Superfund aid

By Joel Davison
Sun staff writer

11-22-86

"We just started the new Superfund contract back up and (Gracelawn Road) is scheduled to be one of the first site investigations."
— Susan Svirsky of EPA

A federal government contractor is expected to begin reviewing data next week that should help determine whether a former city landfill area off Gracelawn Road in Auburn will be placed on the national Superfund list of hazardous sites.

NUS Corp., of Bedford, Mass.. will be conducting the background work on existing data and probably do its own sampling sometime in December, a spokesperson for the federal Enviornmental Protection Agency said Friday.

"We just started the new Superfund contract back up and (Gracelawn Road) is scheduled to be one of the first site investigations," said EPA scientist Susan Svirsky.

The EPA conducted a preliminary assessment of the site this spring and, according to David Webster, director of the Maine sites under the Superfund program, "the conclusion was that it warranted additional study and the next step is a site investigation."

During a preliminary assessment, all available information on a site is collected and reviewed to evaluate the source and nature of any hazardous substances present and determine if a responsible party can be identified.

The Gracelawn area is the site of former municipal landfills as well as a former asbestos dump, and is of special concern because an undetermined amount of industrial liquid wastes were dumped at the landfill up until 1975. The landfill sits only 3,000 feet south of Lake Auburn, which provides public drinking water to both Auburn and Lewiston.

Svirsky said project manager Robert J. Ross of NUS will be coming to Auburn next week to begin going over data accumulated through regular quarterly monitoring of the ground water in the area by E.C. Jordan Co. of Portland, as well as data from additional tests run at the city's direction.

City engineer Steve Ranney said Friday that when the city found out that the Gracelawn site was being considered for the Superfund list, it ordered more tests from E.C. Jordan and decided against entering into a costly additional testing program because it didn't want to duplicate efforts by the EPA.

"I've heard estimates that the EPA may spend $800,000" in testing the soil, water and air at the site, Ranney planning to be up here the first part of December to go through our files."

Ranney said the EPA will also be using any appropriate information generated through an ongoing four-season study of the Lake Auburn and its watershed Camp, Dresser & McKee consultants from Boston.

Through E.C. Jordan, the city "did a hazardous-substances list round of sampling of five or six wells and also at the intake at Lake Auburn a month or so ago," noted Ranney, who said E.C. Jordan had informed him that the final results "should be out around Christmas. The preliminary (determination) is that they didn't show much."

Results were also made public in January from a preliminary hydrogeologic investigation conducted of the landfill area by E.C. Jordan. According to the study, a bedrock ridge exists along the south shore of Lake Auburn although the extent of the ridge is unknown. Ground water apparently flows to the north, west and south from the disposal sites.

The study recommended that a more-thorough hydrogeologic investigation be conducted to better understand "potential pathways for chemical migration," and that the ground water be analyzed further to identify any potential contaminants and their potential impact on the lake.

Svirsky said the area will get a "standard site inspection," which includes varying degrees of on-site investigations to further determine the extent of the problem and help set priorities, with emphasis placed on the contamination pathways that could affect human health.

The site is then ranked and if it ranks high enough it is placed on the Superfund list.

Svirsky said the boundaries of the site that will be examined has not been determined yet, which means the investigation could be focused on only the lake-side of the road, or both sides.

"In the agency's mind, (Gracelawn) is a site which has still not been

Sewer line to be ready by early December

FILE COPY

BOS IT

By Bruce Hertz
NEWS Somerset Bureau

SKOWHEGAN — The new sewer line on North Avenue should be completed the first week of December, but all of the work in the contract will not be finished by the Dec. 13 deadline.

Representatives of the H.E. Sargent Co. of Stillwater met with the officials of the Skowhegan Community Development Office and the Skowhegan Road Commissioner Thursday.

Randy Gray, Skowhegan Community Development director, said the contract calls for a $250-a-day assessment for runovers. It will be up to the Skowhegan Board of Selectmen to decide on the shutdown date and whether to assess late charges, he said.

The project, which was partially funded by a Community Development Block Grant, started July 15. It was supposed to be completed in 150 calendar days. In the early days of the sewer project, some unplanned-for and unexpected major ledge formations caused delays and hard digging.

The thrust of the project was to install a pipe to provide a runoff for rain water. The bulk of the municipal sewerage would continue to flow through old brick conduits. In the early stages of the digging, the original pipe was crushed, necessitating an alteration in the pipeline. These alterations caused further delays.

Gray said the pipeline will be inspected and checked the second week of December. He expected that winter melting and spring runoff will be caught in the new pipeline. Residents on North Avenue should experience drier cellars from now on, Gray said.

Ray Brown, Skowhegan Road Commissioner, said if the contractor could pave the intersections and driveways, his crews would be able to plow snow on the street during the winter.

In its final push to Chandler Street, the contractor will be using a double crew, according to Tim Folster, area supervisor for H.E. Sargent. George's Market, near the terminus of the new line, has its busiest week of the year next week. The owner asked the contractor and the Community Development office to limit the work to one crew so there would be less disruption.

High PBC levels found at GM dump

L.D. 8-12-86

HOGANSBURG, N.Y. (AP) — A shrew found near a General Motors Corp. landfill contained PCBs levels as high as "I've seen anywhere in the state," according to a state wildlife pathologist who called for the closing of the dump.

Ward Stone, a wildlife pathologist with the state Department of Environmental Conservation, said the GM's Massena Central Foundry landfill is polluting the St. Lawrence River and the St. Regis Mohawk Reservation, which it abuts on the border of St. Lawrence and Franklin counties.

Stone and tribal leaders demanded on Monday that GM cease operation of the eight-acre dump.

"It is evident that PCBs and other chemicals are leaving the GM site," said tribal chief Rosemary Bonaparte. "We are becoming increasingly concerned for the health of the Mohawk people."

"The river is the heart of Akwesasne," Stone added. "Mohawks utilize the river as a source of protein," he said, adding that "much of what the people are eating is unsuitable for human consumption."

According to Stone, the sample of the shrew contained over 11,000 parts per million of PCBs, or polychlorinated biphenyls.

The federal government has ruled a chicken with more than 3 parts per million of PCBs, which has been linked to cancer in laboratory experiments, is unfit for human consumption.

General Motors, which announced last week that it was eliminating all but 100 of 1,329 jobs at the Central Foundry operation, maintained Monday that it is only using the landfill to dispose of spent foundry sand.

"I was out there last Thursday," said GM spokesman David Lippert. "All that's going into that landfill is sand — about one truckload a day."

"GM is still operating the landfill," countered James Ransom, tribal council environmental health consultant. Ransom said a request had been made to the federal Environmental Protection Agency to discontinue use of the landfill and cap it immediately as an interim measure.

Utilizing a color slide presentation, Stone said Monday that "fresh material" is being dumped at the site. He showed slides of pipes and oily substances going into the site.

"Within a seven-day period, the dump grew by 15 feet," Stone said.

Henry Lickers, director of the Canadian St. Regis Environmental Division, stressed the problem "doesn't only affect Mohawk people. Fish and game clubs should also be concerned with the levels of contaminants," he said.

The GM landfill site was named to the EPA Superfund list in 1983 as a hazardous waste facility. GM and EPA are proceeding to investigate the landill as part of the Superfund program.

Landfill-samples data arrives for evaluation

L.D. 8-12-86

AUBURN — A package of information on dioxin-containing ash samples taken from the Danville landfill site arrived at the Centers for Disease Control in Atlanta late this morning, where it will be evaluated for public health risks.

Cathy Stout, secretary at CDC's Agency for Toxic Substances Disease Registry and the person who logs in any packages from the U.S. Environmental Protection Agency, said late this morning that the package will be assigned to a branch of the Health Assessment Division "sometime within the next day."

Stout said that once the package is assigned, the Health Assessment branch will then contact the federal EPA to discuss its reasons for sending the package and to set a priority date for the evaluation.

Maine People's Alliance President Cathy Hinds said this morning that she spoke with the head of the health assessment branch of the ATSDR in Atlanta and was told he had no idea what was in the package but that "it was not a particularly large packet" and that "it shouldn't take as long as some evaluations."

A scientist for the federal EPA yesterday has confirmed that two types of dioxin have been found in ash samples taken from the Danville landfill. The samples were taken as a follow-up to a site investigation conducted by the EPA last year.

The EPA agreed to the site investigation after people living near the landfill, and the Maine People's Allliance, expressed concern that the site could be a source for heavy metals that could contaminate the ground water and wells.

When asked how long it would take to determine if any health risks existed, Stout said, "It just depends on what they're requesting and what priority they give it."

Auburn council to hear report on landfill

AUBURN — Relatively high levels of water hardness and chloride content have been detected in a monitoring well at the ash landfill in Danville, according to a report from E.C. Jordan Co. to be reviewed by city councilors Monday.

The Portland engineering firm, which works under a contract with the city, monitors the wells quarterly at the landfill, which accepts bottom ash from the city's energy-recovery facility.

Paul C. Smith, an environmental technician with E.C. Jordan, sent the laboratory analysis of surface water, ground water and leachate samples collected at the site on March 24, although he said the data summary report further explaining the results is not yet available.

Smith said the analysis results "show that most locations remained well within their historical levels."

He noted, however, that one well was at the upper limit of acceptability for both water hardness and chloride content, but added that the findings "have no impact on water quality at present levels."

The council, which meets at 7:30 p.m. in the City Building, will also be asked to:

- Approve the sale of two lots in the industrial park of the Auburn-Lewiston Municipal Airport to Damon Insulation Co. and Morrissey Asbestos Abatement Co.
- Give initial approval to a comprehensive zoning map of the city that has been revised by the Planning Board to resolve inconsistencies resulting from a 1985 lawsuit against the city.
- Approve the issuance of a note for $84,000 to finance a water-main extension on outer Minot Avenue.
- Give initial approval to a zoning-map amendment reclassifying land on the west side of Riverside Drive, between Jordan School Road and the Durham line, from Agriculture and Resource Protection to Rural Residence to allow petitioners Robert and Helen Foss to build a farm.
- Approve a resolve authorizing the city clerk to issue victualer licenses to non-profit organizations at no cost if so requested.
- Approve the issuance of tax-anticipation notes up to $3 million.
- Authorize the Department of Community Development and Planning to apply to the Maine State Housing Authority for $164,650 in federal Department of Housing and Urban Development funds to be used in the city's rental rehabilitation program.
- Review a nine-signature petition requesting that "I" Street at Taylor Pond be renamed Everett Road.
- Approve an order declaring a burned-out building at 71 Pleasant St. a nuisance that must be removed.
- Review a request from eight city residents asking that Melvin Street, an unaccepted street off Poland Road, be tarred to alleviate a problem they say they have with erosion.
- A public hearing for a liquor license requested by Bagels and Things Inc., 213 Center St.

Dirty air here?

Dirty air in Gardiner, Maine? How could it be?

We apparently can thank our more industrialized neighbors to the south and west for the relatively high levels of smog that Gardiner and the rest of southern Maine experience. While federal environmental officials were warning this week that Gardiner will not meet federal clean air standards at the end of the year, the state was wondering what to do about a problem that begins out of state. It is strongly reminiscent of the acid rain-pollution which also bombards the Northeast — for which the federal government under Ronald Reagan has been no help.

Gardiner is the ozone measuring point for the entire region, which means all of the Kennebec Valley is affected. Whatever the source, unhealthy ozone levels are just as present in Maine, on some days, as in industrialized New Jersey or Pennsylvania.

Even if the air pollution is not of our own making, there may be some nasty side effects. Federal officials warn that highway projects may be blocked. Construction that could add to air pollution may be stopped.

There are some plans now under study that could further reduce smog problems in the state. But the real answer is in vigorous enforcement of federal air quality rules across the board, so dirty air originating elsewhere doesn't get here at all.

DeCoster Egg Farm ordered to dispose of dead chickens

AUGUSTA (UPI) — Attorney General James Tierney says he will bring suit against a local egg farm unless the farm properly disposes of the carcasses of as many as 200,000 dead chickens.

Tierney wrote to Austin J. DeCoster, owner of DeCoster Egg Farm, on Thursday, two days after the decaying carcasses were found at several illegal dump sites on the DeCoster property in Turner. Tierney demanded that the carcasses be removed by June 2.

"If the material is not removed before Tuesday, June 2, we intend to seek injunctive relief in Androscoggin County Superior Court immediately thereafter," Tierney said.

The chickens were killed earlier this year when fire swept a large chicken barn at the egg farm. The chicken carcasses and burned chicken cages were found at four unapproved dump sites on the Decoster property.

Officials said the sites also contained quantities of pesticides, along with junked cars and trucks and other refuse.

Auburn trash to be removed from watershed

By Joel Davison
Sun staff writer

AUBURN — The owner of land in the Lake Auburn watershed where several large piles of trash were found this week said he will soon begin hauling the debris away.

But both city officials and Sam White, owner of the land used by H.E. Callahan Construction Co., Turner Road, said much of the material may be allowed to remain at the site if state environmental officials approve.

The company "had operated a disposal site there for construction debris," said Public Works Director Robert Belz, "but about two years ago, for the most part, they had ceased using that site."

But Belz said more dumpings occurred there apparently last fall. "Some of it's private waste, and it didn't come from Callahan. But they recognize that it's their property.

"As far as I'm concerned, though, not all that material has to be removed because a lot of it is common excavation," Belz said.

White agreed, saying he and Belz "had reviewed the site and the conditions. There are some white goods (appliances), tires and furniture-type items that we both concurred should be removed, and they will be. But it's very apparent that the bulk of it is wood, bricks and excavation material."

Belz said the excavation material could remain and be secured with a clay cap, although the decision won't be final until agreed upon by enforcement personnel in the state Department of Environmental Protection's land-quality bureau.

"We don't want to settle on one level of abatement and then (the state) have another," Belz said.

He said White "has been very cooperative. He didn't realize it was an illegal activity."

Belz also noted that he's sure the household garbage dumped there in plastic bags is not from the construction company because an inspection showed that it contained mail bearing one woman's name. But she cannot be held liable due to a lack of proof that she actually dumped it.

"There are two reasons while I believe" Callahan was not responsible, said Belz, noting that the road where the site is located "goes through to Maple Hill Road and until a little while ago you could drive through."

"The other reason is that frequently an employee will go up there and leave the gate open so there was no continuous supervision of the site during the day," he said. "Now they will see that the gate is closed."

Acting City Manager Paula R. Valente said the one responsible for dumping the trash "is an issue, but a more important issue is cleaning it up."

The illegal dumping off Turner Road was spotted by Donald J. Bernard, who owns land in the area. He reported it to city officials and The Sun.

Continued from Prev. Page.

Planning Board member Nancy Rohrer said that the engineer hired by Camplin had said Sentry Hill Road is too narrow and steep for two-way traffic, but that the town would be opposed to making that road one-way. She also noted that the road lacks adequate shoulders, has poor "sight distance," and lacks proper drainage and snow storage areas.

Attorney Dale told the board he would prefer to be turned down altogether, rather than have the project back before the Planning Board. "Just vote us down and we'll take the next step," he said.

•The board refused to hear an appeal from James Pidgeon of York, half-owner of property on North Village Road near Clay Hill Road. He was notified by town officials that his house violated zoning ordinances in July 1986, and filed an appeal in December, which was reportedly not received by the board. The board ruled that the appeal was not made in time.

•The board denied an appeal of an interpretation of the York Beach zoning ordinance sought by Craig Schiefer. He sought approval for a duplex now classified as a single-family home.

•The board also granted a variance to Cathy Marden Anderson for a single-family home on a dirt road off Shore Road.

More trash discovered in Lake Auburn watershed

By Joel Davison
Sun staff writer

LDS 5/21

AUBURN — Several more piles of trash have been discovered in the Lake Auburn watershed about 1,500 feet from another illegal dump site that was found late last week, The Sun learned Wednesday.

"I went up there with (Public Works Director) Bob Belz just before noontime and there's garbage and debris on the southwesterly side of the other location," said Water District Supt. Normand R. Lamie, who said the heap measures approximately 100-by-20 feet.

Donald J. Bernard, who notified officials of the first dump after it was spotted by a jogger, said Wednesday that he located the new illegal dump while on a walk behind his land.

Bernard said he called Belz and took Belz and Lamie to the site, which is located behind a locked gate off Turner Road. Bernard said they got past the gate after he obtained a key from H.E. Callahan Construction Co.

Acting City Manager Paula Valente confirmed that, "We know it is located on land owned by H.E. Callahan, that has been determined, and we're trying to reach them to discuss it."

There was no indication who had dumped the trash on the property. City and state regulations ban dumping within a watershed. Lake Auburn provides drinking water for the Twin Cities.

A reporter's call to the construction company was not returned Wednesday afternoon, and The Sun was unable to reach Belz Wednesday afternoon.

Lamie said the state Department of Environmental Protection "is being contacted and (the company) will be requested to clean it up."

He added that the illegal trash site involves "a number of truck loads of debris in an embankment area on the other side of a gravel pit" where the first trash piles were found.

Joan Jones, an environmental services specialist with the DEP's land quality bureau, said, "Generally, what we do in these cases is speak to whoever is responsible and have them clean up the site. The first step is informal enforcement to see if we can get it cleaned up in a reasonable time."

If voluntary compliance is not forthcoming, Jones said, the process usually moves to a consent agreement where the DEP states in writing what must be done and a fine is assessed. If the trash is still not removed, Jones said, the matter is passed on to the attorney general.

"There's a sequence of events that we generally go through before we take them to court," she said.

Lamie said the debris includes building demolition, old tires, some 55-gallon drums with undetermined contents, plastic bags, "business trash" and even a mailbox. He estimated the trash is 1,000 feet from Townsend Brook, which feeds the north end of Lake Auburn.

The superintendent said stricter regulations for proper disposal may mean more and more illegal dumps will be found.

"There are a lot of nooks and crannies, and with the pressure being put on municipal landfills and the fees associated with disposal of trash and building demolition I'd say we'll see an increase of (such dumps) going into areas they should not," Lamie said.

Valente echoed Lamie, saying, "It's definitely a problem, particularly in a city the size of Auburn with the land area we've got. Effective monitoring and enforcement in this area is next to impossible."

But Lamie said he hopes publicity on the trash heaps "will put people on notice that we're looking for it.

"We'll be assisting the city in whatever efforts we can," Lamie said.

The first pile of debris was comprised of building demolition material and was located on land owned by Gendron Gendron general contractors of Lewiston. The company removed the trash the day after The Sun ran a story and photograph on the issue, but owner Del Gendron said he had no knowledge of how the trash got there.

Illegal Auburn trash dump hauled away

AUBURN — Several truck loads of building demolition material dumped illegally in the Lake Auburn watershed were cleaned up Monday morning by the Lewiston contractor who owns the land, but the city's public works director said he is still trying to determine the dumper's identity.

Del Gendron, owner of Gendron & Gendron general contractors, Lewiston, said Monday he not know who was responsible for the dumping.

Gendron "was into the office at the highway garage early this morning and spoke with the superintendent about taking the material to the city's building demolition area," said Public Works Director Robert Belz on Monday.

"I went out there and the place was clean," he said.

Belz said he then went to the demolition dump to examine the debris and said it looked like a residential building and that such demolition "is most likely done commercially. I feel whoever is responsible is a contractor.

"I'm going to kind of spot check a few locations to try and determine where it came from," Belz said. He said it looked like 18 to 20 truck loads of debris that was probably dumped at the location last fall.

Gendron told The Journal that he suspected he might be the victim of the dumping after seeing a story and photograph in The Sun on Saturday.

While Gendron said he put up a gate about a year ago to protect the area, which is the site of sand and gravel pits owned by Gendron and H.E. Sargent paving contractors of New Gloucester, Belz said he believed either a gate or cable has confined the area for two to three years.

Land owner clears up illegal debris from pit

By Linda Galway
Journal reporter

AUBURN — Demolition debris illegally dumped at a gravel and sand pit near Lake Auburn has been cleared away by the owner of the land, who suspected he might have been the victim after reading a newspaper article about the stashed trash.

Del Gendron, owner of Gendron & Gendron general contractors, who promptly put up "No Tresspassing and No Dumping" signs, said this morning he decided to "clear it up," adding "those responsible will have to pay for the clean-up." The piles of rubble were found Friday by a jogger.

Gendron got his crews working by 8 o'clock this morning after checking in with Public Works Director Robert Belz. Gendron said he installed a gate barring access to the pits about a year ago and believes the dumping occurred some time before that.

"We own over 500 acres of land in Lewiston, Auburn, Lisbon and Sabattus, and wherever possible we have a gate up to stop people from dumping on our land," he explained, adding there's no way he and his men can police the area at all times.

The incident is not an isolated one for him, he said. "Since Lewiston and Auburn started charging to dump (this type of material) and the hours are not (as convenient), people just dump on other people's land."

As the owner, Gendron is responsible for the clean up, said David Hewitt, an agent with the State Department of Environmental Protection's land quality bureau.

"The main thing is to make sure it's cleaned up," he said, adding, "we do take enforcement action against those who know the laws and (intentionally defy them)."

Gendron said he's been keeping an eye on the acreage he owns and plans to investigate the situation.

"Once we find out who does this, that person will be prosecuted. I will bring charges, and they'll have to pay for the ones we cannot catch."

AND THE KITCHEN SINK — Donald J. Bernard surveys the piles of illegally dumped rubble that were discovered this week near his property off Turner Road. Russ Dillingham-/*Sun staff.*

Trash dumped illegally near Lake Auburn

By Joel Davison
Sun staff writer LDS 5/16

AUBURN — Several truck loads of demolition material have been illegally dumped on a hill overlooking a brook that directly feeds Lake Auburn, The Sun learned Friday.

A jogger reportedly found the waste heaps near some gravel pits off Turner Road and alerted Donald J. Bernard, owner of nearby Skindiver's Paradise. Bernard contacted The Sun after investigating the claim himself. City officials say the dumping violates state and city regulations.

"It's been there awhile because the wood is all weathered the same way," said Bernard. "It was either dumped early this spring or late last fall."

The material appears to be the remains of a house with bright blue siding, and the debris includes chunks of concrete, rusted sewer pipes, electrical wiring, insulation, a rusted radiator and even what's left of the kitchen sink.

The debris is located on a high hill above Townsend Brook. The brook feeds into the north end of Lake Auburn, which supplies drinking water to most of Lewiston-Auburn.

The Sun was unable Friday to determine the owner of the land.

Bernard contacted Public Works Director Robert Belz who said Friday he had not yet been to the site but would be checking on the claim next week. Bernard said he also contacted an enforcement agent in the state Department of Environmental Protection's land quality bureau. The Sun could not reach the DEP agent late Friday afternoon.P

"It's not that we get city water, but we may some day," said Bernard, who is a former state senator and representative as well as a former city mayoral candidate. "I was always concerned about the environment and that was one of the platforms I rode herd on. That kind of thing should not be allowed to happen in Auburn."

Belz confirmed that such dumping is against both local and state regulations. "That whole area drains into the lake," he said.

"There are a number of laws that could apply to this," said Belz. "One of them is filling without a permit — other municipal enforcement could come under the Health Department.

"But the state law for disposing of waste in an unregulated area would probably get the most action the quickest," Belz said.

The city has a special dump on the Gracelawn Road for disposing of brush and demolition material, and Belz said city ordinances disallow dumping it elsewhere.

But Belz said past discussions with City Solicitor G. Curtis Webber have shown that it is hard to enforce the local ordinance unless someone actually saw the dumping occur. He said state law is less restrictive and would mean going after the property owner.

He said the DEP would probably first ask for the owner to clean up the debris voluntarily. "If they wait, then there are fines," according to Belz. "I'll check into it Monday."

Acting City Manager Paula R. Valente and Water District Supt. Normand R. Lamie both said Friday that they had not heard about the dumping.

"It's obviously something I would want to talk to (Belz) about," said Valente.

Lamie said he was "absolutely concerned. I certainly will be joining efforts with city officials to look into the matter."

Landfills almost closed

By Michael Lopez
Journal reporter LJ 6/4

AUBURN — The city is nearly finished closing a Gracelawn Road landfill where waste was dumped for four years while the steam plant was not yet burning garbage.

At the same time, an asbestos removal contractor is almost through closing an adjacent landfill, nearly two years after a fight with the city about his share of the responsibility for shutting it down.

Both the city and the contractor have the "crucial aspects of the closing" done, said Clifton Eliason, an environmental services specialist at the state Department of Environmental Protection.

The city began dumping waste there in 1977, and stopped using the site in 1981.

Auburn also dumped ash there during the first three months the steam plant was in operation. A Danville site now serves as the city's ash landfill.

The city administration also allowed Richard Buerhaus, an asbestos removal contractor, free use of the landfill as long as he paid closing costs.

Buerhaus and the city eventually battled about the terms of that agreement. City councilors believed Buerhaus reneged on a deal they said required him to assume the entire cost of the closing.

That dispute delayed closure, Eliason said.

Now, both Buerhaus and the city have put a final clay cap on the six-acre dump, which Eliason said will reduce runoff from soaked waste and prevent asbestos from entering the atmosphere.

The DEP's "overriding concern" is that both the contractor and the city spread top soil and plant grass seed to ward off the erosion that already has started, Eliason said.

Because the landfill was left uncovered for so long, leachate, or underground runoff from the garbage, will occur for some time.

Gas vents, which are plastic tubes installed underground, act as outlets for any methane gas deposits that could cause an explosion. "There didn't seem to be any danger at all of asbestos exposure," Eliason said.

The city should have the site seeded before the end of the month, said Public Works Director Robert Belz.

"There's very little left to be done," said Belz, who scheduled a completion date of June 15 for closing the dump. Highway workers are cutting brush, spreading loam and grading the landscape, he said.

The project has cost Auburn about $75,000, including costs for labor and equipment.

The city and the state are holding ongoing talks about the possibility of adding monitoring wells — one of the conditions when municipalities open a landfill, Belz said.

The wells, used to check groundwater for potential contamination, could be added to monitor any of the sites in the Gracelawn Road area. A dump for tree stumps and brush, and another closed municipal landfill, are located on Gracelawn Road.

"At this point, it is assumed we need additional wells," Belz said. The city has put off that project until the federal government determines whether the old landfill is eligible for Superfund cleanup money.

Several wells could cost between $50,000 and $60,000, Belz said.

DeCoster cleanup under way

TURNER (AP) — As the cleanup of more than 100,000 chicken carcasses and fire debris continued at the DeCoster Egg Farm, Maine environmental officials planned to inspect the site for suspected illegal dumps.

Department of Environmental Protection officials who toured the western Maine farm recently said they found drums of oil and chemicals among other refuse in what they consider four possible illegal dumps.

DEP Commissioner Dean Marriott said a general inspection of the Turner farm is planned for this week.

The Maine Attorney General's office obtained a court order Tuesday giving owner Austin DeCoster 10 days to clean up piles of thousands of dead chickens and other fire debris. Neighbors had complained that the piles were crawling with vermin, and posed a threat to public health.

DeCoster said Friday as the cleanup began that overall he is "pretty proud of the housekeeping on my farm. With over 2 million laying hens, it looks pretty good."

"But there are a few problems, like the junkyard. I'm ashamed of that," he added.

Compacting the fire debris, which includes old cages and manure along with the chickens killed in fires last March, is expected to take about four days, DeCoster said. He said efforts to find a landfill to accept the debris have been unsuccessful so far, with refusals from dumps in both Maine and New Hampshire.

DeCoster said he is now checking Massachusetts dumps, and is planning on storing the compacted waste temporarily in a garage where it can be sealed off and sprayed regularly for flies.

TO: Grace Lawn - Auburn

OFFICE MEMO

PROJECT NO.: _____ STAFF: R Hewett DATE: 3/12 + 13/87

SUBJECT: _____

WITH: Sherri Kasten - NUS

DESCRIPTION

3/12/87
at 2:00 - busy

3/13/87

- asbestos documents from land Bureau ~ 3 inches thick - letters not always specify volume deposited at asbestos landfill area ∴ take a lot of time to figure out + total to volume.

- Clif Eliason - Land Bureau - is to copy the map of the asbestos Landfill + I in turn will send a copy to Sherri - can estimate the volume by total area.

* - SI + HRS should be out in ~ 3 weeks - going thru in-house review, any correction or clarification will be made, then sent out to public + DEP.

SKETCHES

Sherri Kasten
NUS
19 Crosby Drive
Bedford, MA
01730

- Sherri already has a copy of the Leo LaRochelle letter dated 3/2/88.

TO: Auburn - Grace Lawn Landfill

OFFICE MEMO

PROJECT NO.: _____ STAFF: R. Hewett DATE: 2/25/87

SUBJECT: _____

WITH: Sherri Kasten NUS – (617) 275-2970

DESCRIPTION

- not much luck in obtaining volume of waste disposed of at the site. I checked with BOHMC - L+E units + with Mike Mullen, Mark Hyland, + Cliff Eliason of the Land Bureau.
- Sending a copy of a 3/2/78 letter to Leo LaRochelle from Richard Tosch of DEP.
- Also, will speak to Cliff E. + get figures on the amount of asbestos in the dump. + send the info to her. too
- Spoke to Cliff + he will be looking the volume info on asbestoes up + getting it to me. - 2/25/87

SKETCHES

TO: Grace Lawn Landfill - Auburn

OFFICE MEMO

PROJECT NO.: _____ STAFF: R. Hewett DATE: 2/20/87

SUBJECT: _____

WITH: Sherry Kasten NUS in MA. (617) 275-2970

DESCRIPTION

- Interested it type and volume of disposal of Haz. waste at Gracelawn landfill. She is working on documentation to the HRS.
- Companies of interest - from a news article are:
  1. Pioneer plastics
  2. GE (chromium sludge)
  3. Jones + Vining (chlorinated solvents)

-I will find out what info I can and get back to her. ASAP.

SKETCHES

On 6/2/86 -(Belz, Ranney, & Morrison - Auburn City officials) stated that this letter is referring to the old land fill that was capped, next to the city garage on Gracelawn Ave. Ball fields are presently located over the old land fill.

MEMORANDUM

KENNETH C. YOUNG, JR.
COMMISSIONER

TO: Auburn Landfill File

FROM: Rebecca L. Hewett, BOHMC

DATE: June 3, 1986

RE: June 2, 1986 meeting held at E.C. Jordan, Inc.

** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** **

On June 2, 1986 at about 10:00 AM, I arrived at E.C.Jordan, Inc. (ECJ) in Portland and met Susan Svirsky (EPA), Dale Mosher (ECJ) - retained by the City of Auburn, and Auburn city officials - Charles Morrison (City Manager), Steve Ranney (City Engineer), and Bob Belz (Public Works Director). Susan asked for a copy (of which I gave her) of the 1978 letter to Leo LaRochelle concerning hundreds of 55 gallon drums located at the old landfill site. Susan gave the letter to Morrison to read and specify which area the letter is refering to. Morrison stated that the area in question is the old landfill on Gracelawn Ave. next to the municipal garage which has been clay capped and is the present location of a playground and ball fields (see attachment A).

NUS Corporation is planning to conduct a Site Inspection (SI) at the Gracelawn Landfill site. The SI will consist of a thorough round of sampling and a compiling of all information available on the site. The City of Auburn was planning to conduct a study of the site area but has been advised and has decided not to, since NUS is planning to conduct their own thorough and complete study. The site also needs to be ranked using the Hazardous Ranking System (HRS). The City of Auburn has reservations about and would prefer that the Gracelawn Landfill site not be placed on the National Priority List (NPL). One reason being, the sites proximity to the municipal water supply - Lake Auburn - is approximately 1/2 mile away as the crow flies. Morrison plans to speak to the Auburn Water Dictrict about using the Priority Polutant List (PPL) as a conprehensive list of compounds to use when testing the municipal water supply for the water quality until the NUS study is complete.

The Auburn Ash Landfill was breifly discussed. The dioxin sample results (samples collected April 8, 1986) are in but need to be VALIDATED. Therefore, it will probably be another month before the results are made public. Susan will discuss the possible hazards of the dioxon levels of the validated test results with the Center of Disease Control (CDC) and communicate the findings to the City of Auburn and the DEP.

Lastly, Susan brought up the possible existance of another site in Auburn, near Wendy's (a fast food joint) on Center Street in Auburn. The site is the location of an open burning dump used in the 1920's and filled in during the 1930's. There presently exists a trench which appears to contain leachate (reddish tinted water). NUS - EPA personnel noticed the area while eating at Wendy's one afternoon. The city officals stated that the area is still settling and that during construction, Wendy's had settling problems with the foundation.

Auburn Landfill

OFFICE MEMO

PROJECT NO.:_____ STAFF: R. Hewett DATE: 2/6/87

SUBJECT:_____

WITH: Lee Bishop (Attorney in Mass - for land-owner in Auburn)

DESCRIPTION

- Interested in studies performed by CDM + ECJ. on Gracelawn Landfill in Auburn. Got info from Lewiston Daily Sun Article.

- Has spoken to EPA - Susan Suirsky - Robert Ross of NUS is gone!

- I Gave him Auburn City Engineer - Steve Ranney - office address and telephone #.

- will call again if runs into problems.

SKETCHES

Who runs Land fill ?

- Owner
- operator.

Any Private wells in area or is everyone on public Water?
not is made ls drainage area.

What + exactly where is Pioneer Plastics dumping? why allowed

Any monitoring (wells) between individual areas of disposal
NO

Who uses landfill ? whose waste is disposed there?
Stopped → Muncipe Landfill (waste). Presently only
stump dump used, + Pioneer Plastic.

What is allowed dumped there?
Municipe Waste is now incinerated + hauled to
Danville.

Years of operation? -

Meeting at E.C. Jordan, Inc. 6/2/86
w/ Dale Mosher - ECJ.
Susan Suirsky - EPA
City of Auburn Reps. - Chip Morrison, Steve Ranney, + Bob Belz.
Rebecca Hewett - DEP.

1978 Letter - the old landfill is where the present playground & ball parks are located. - where drums are to have been buried - also probably more stuff buried - used since the 1940's.

NUS is to do the Site Inspection - SI

What do we do next.
- SI
- Sampling round - not sink new wells
- Take confirmatory samples & get Jordan's info

The Landfill took everything - Municipal waste.

(Ash Landfill - latest sampling (4/8/86) - higher levels of dioxin found than the last time - but ~~or~~ results have not been Validated Susan will check w/ Center of Disease Control (CDC) Rep. to interpret result haz.)

Need to rank the Grace Lawn site w/ HRS

Wendy's on Center St. – possible new site
open burning dump – Lagoon used in
the 1920's; filled in in the 1930's
An existing trench appears to contain
leachate (Reddish tint to water).

Wendy's on Center St. - possible new site
open burning dump - Lagoon used in
the 1920's; filled in in the 1930's
An existing trench appears to contain
leachate (Reddish tint to water).

Leo LaRochelle
Auburn Public Works Director
Auburn, Maine 04210

Dear Mr. LaRochelle:

A routine inspection of the Auburn landfills has indicated that there presently are hundreds of 55 gallon drums dumped at the old landfill site. These drums for the most part appear to be deposited there by Pioneer Plastics of Auburn. I have enclosed a list of some of the chemicals identified as having been contained in these drums. At least some of the drums have been filled to some extent, as a resinous material has been spread over a portion of the landfill site. This material is most probably Bakelite Phenolic Resin.

Proper disposal of these materials should follow a procedure whereby the materials contained in these drums are encapsulated in the 55 gallon drums. The drums should be sealed adequately, and these drums should be placed in an isolated section of the landfill. Precautions should be taken to prevent spillage before landfilling.

As you know, these materials are not allowed to be landfilled at the existing interim site. This Department understands that the old landfill will be closed out and seeded this spring. This will create a situation where Auburn industries will have to dispose of their hazardous materials in some suitable fashion other than using the City's facilities. I trust that you have brought this fact to the attention of Auburn Industries.

Either each industry must develop its own landfill site in accordance with Department approval, or a approved regional site will have to be developed to accomodate these Industries, or suitable materials handling firms will have to be contracted to handle these wastes.

Please contact those industries which you feel will be affected by the limitations imposed on the Auburn landfills.

A meeting, perhaps can be established, with representatives of affected industries, the City of Auburn, and Division Staff to discuss disposal alternatives. Feel free to call me at 289-2111.

Sincerely,

Richard Tosch, Assistant Engineer
Division of Solid Waste Management

- ~ 1978 Gracelawn Landfill was closed out (opened in 1964) it is now a Playground over clay cap.
- Municiple Garage (west) left of above Landfill.
- Asbestos disposal site - needs to be closed out. - supposedly was to have a clay cap before Asbestos was to be dumped over the Interim sanitary Landfill + Auburn Landfill. Landfill was to be closed out with a clay cap + then used as asbestos dump. Started to stock pile clay but the hauling of asbestos began before city finished clay cap ∴ never completely capped.

Purchase add'l $ of closing- He + City Prob. Both Responsible for not closed out.

- Pioneer Plastics (for ~5 years) has been stock piling Pionite Dust (dumping)
- Old Burning dump - Presend Sand/Salt stock pile pit. (1943± to 1964) - has never been properly closed out.
- Mark thinks that would be best to close out whole area.

Lake Auburn Elevation is ~260'

- City owns municiple garage, Gracelawn Landfill, and Interim Water District. Water District owns land next to Lake Auburn. Colby-Turner Estates owns some land adjacent to City owned land. - Mark Hyland has land owner info.
- City owns + operated municiple landfills except asbeste which is operated by a private person.
- Garage was built ~ 1972 - Contaminants from garage area - not a likely source - Crank case oil + degreasers are contained + hauled away. Minimum possibility of spills. Has 2 fuel tanks - ① diesel + ① regular.
- Gravel Pit operaters have been known to drain crank case right in the gravel pit
- Every one in drainage area is on municiple water. the Berry Farm west of the Landfill has a well across the road near the church. According to the Groundwater model he is on the other side of the Ground water divide that seems to run along Mt. Auburn Rd + drains both water fields into the gully behind Mt. Auburn Cemetery.

MW-4	11/85	chloromethane	50	ug/l
		methyl chloride	16	ug/l
mw-102	11/85	1,1-Dichloroethane	49	ug/l

mw-6 - Dry - has been - seems to be a high point.

2/5/86

Spoke to Mark H. about tomorrows meeting in Auburn concerning the Gracelawn Landfill.

- Gracelawn Landfill
- Asbestos Disposal site
- Interim Sanitary Landfill + Auburn Landfill
- Old Burning Dump
- Spoil area + Brush dump

Danville in now the location of the ash dump.

I am riding down with Florence + Mike (from Dave's office in the Land Bureau).

RE: Complaints ~~issued~~ raised by Cathy Hinds

** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** ** *** **

According to Ms. Hinds, Mrs. Ray Dumont (Tel. 247-5705) has noticed exposed drums of waste at Richards pits on the Old Alfred Road in Waterboro. I believe Gordon checked this out last year, but found no drums. Please have one of your staff investigate again after calling Mrs. Dumont. Apparently, the drums were re-exposed.

Linda Paul (Tel. 839-4112) is concerned that her well water may be contaminated by the Silvex, Inc. facility (formerly Maine Metal Finishing Co.) in Gorham. Please coordinate with Rich Baker and have someone investigate to determine whether sampling is appropriate. Relay results of investigation to Ms. Paul.

Finally, last week the K.J. reported the presence of hazardous substances (vinyl chlorides?) in an old landfill in Auburn (Grace Lawn landfill, I believe). Please chase this down to see if anyone in DEP is involved with the site and whether this Bureau ought to be.

Thank you, Cindy.

file Auburn landfill

May 21, 1984

The Honorable George J. Mitchell
145 Russell Senate Office Building
Washington, D.C. 20510

PERSONAL

Dear Senator Mitchell:

Last week, it was brought to my attention that the City of Auburn has contracted with the Down Eastern Insulation Company to permit them to dump asbestos in the former City Dump of Auburn. (This site was abandoned to prevent further (or threatened) pollution from this dump into Lake Auburn (water reservoir for Auburn Water District)).

According to my information, the asbestos comes from various sites in New England, where it has been taken out of existing buildings. Apparently, it is all packed in plastic bags and I understand that every day one or more trucks dump their load in this sandpit. The truck drivers are also the bulldozer operators who cover the material with sand and gravel immediately after "dumping".

Recently, an Auburn police officer stopped a truck within Auburn City limits, because it was leaking a "red liquid". Upon inspection, it turned out to be one of the asbestos transports for which the truck was licensed, etc. It is my understanding that the truckload was not inspected at that time.

I am writing to you to express my concern about the possibility of illegal dumping of toxic waste simultaneously with the asbestos (using the asbestos as a cover-up).

I am anxious to hear from you whether this information justifies your investigation and, if so, how you plan to proceed.

Respectfully yours,

JK:ak

MEMORANDUM

TO: Auburn Landfill File

FROM: Rebecca Hewett

DATE: January 28, 1986

RE: Status of Auburn (Gracelawn) Landfill

On December 18, 1986, I spoke with Mark Hyland (Land Bureau) about the presence of vinyl chlorides in monitoring wells near the landfill. The town of Auburn has started testing for volatile organics and is concerned about the 39 ppb level of vinyl chlorides present in monitoring well 102 (installed August 1985). Analysis did not detect any volatile organics in monitoring wells 2,9, or 101, but did detect 1, 1, 1 -Trichloroethane in MW-1.

I spoke again to Mark on January 28, 1986. Auburn has hired E.C. Jordan, Inc. to develop a Remedial Action Plan (the Land Bureau has to approve any proposed plan). A meeting is set up for February 6, 1986 at 1:00 p.m. between Auburn, E.C. Jordan, and Mark. Also, it has been decided that I should attend the meeting as a passive participant to get more background information to better assess the problem. I made a copy of the latest groundwater test results for our files. The town of Auburn is also interested in financial assistance concerning the contamination clean-up.

From Steve Reichel SR — Dept. of Environmental Protection

Subject Installation of Monitoring Wells at the Auburn Landfill

---

On November 30, 1979 two sub-surface ground water monitoring wells were installed at the Auburn Landfill; in an effort to check the possible leachate plume from the Hazardous Materials Spill on October 26, 1979. These two monitoring wells were to be marked with high visibility paint so plowing during the winter months would not disturb them.

In talking to the landfill attendant he explained that due to the landfills topography all drainage at the landfill slopes to our monitoring well; so we should get a real mixed "bag of tricks".

As to who will be taking the samples (if their still there in the spring), and paying for the analysis I am really not sure. Let me know if you want me to keep an eye on them and take periodic samples.

Auburn to seek answers on Gracelawn Road dump site

By Joel Davison
Sun staff writer

AUBURN — City officials will meet Wednesday with a representative of the federal Environmental Protection Agency over the status of the Gracelawn Road landfill site, City Manager Paula R. Valente said Monday.

The EPA has been studying the background of the long-term municipal dumping site to determine if it poses enough of a health hazard to qualify for federal clean-up dollars under the Superfund law.

But it could be years before the site is eligible for the money, depending on how high it it ranked, so Valente said the city is looking into what could be done locally between now and then.

"We decided to initiate the meeting to get some sense of where the EPA might be going" with the site, Valente said. "We want to get a more-precise idea of the timing."

Besides Valente, others who will be meeting Wednesday afternoon in Portland with EPA scientist Susan Svirsky include city Civil Engineer Steve Ranney, Water District Supt. Normand R. Lamie, Public Works Director Robert Belz, and Dale C. Mosher of E.C. Jordan Co. of Portland. E.C. Jordan is already under contract with the city to monitor ground water through wells at the landfill.

What the city wants to know, Valente said, is if it puts in additional monitoring wells at the site between now and the time the Superfund money is available, would it fit into the EPA's plan under Superfund?

When Superfund money is used to clean up a site, the federal government then tries to recover the expense from those who dumped there.

In this case, Valente said that means the city as well as other companies who took their waste to the site while it was open.

Lamie is attending the meeting because the landfill is located near Lake Auburn, which serves as the major drinking-water supply of Lewiston-Auburn.

A Boston consulting firm is currently conducting a study of the lake and its watershed to see what pollutants are entering the water and from what sources.

"We've been sharing with city officials all the information we have that comes across on the watershed study," Lamie said. "And we're looking to receive the same type of information" on the Gracelawn site.

Lamie said the final draft of the watershed study is expected in mid-August.

"We want to find out whether it's in the best interest to initiate any more testing or not at this point," said Valente.

While Svirsky could not be reached for comment Monday afternoon, she told The Sun in April that the site could be ranked as early as October.

The landfill was closed in 1975, but an E.C. Jordan report issued in January said it as "been identified as having received substantial quantities of industrial liquid wastes."

A study conducted by E.C. Jordan Co. in 1985 and 1986 showed that monitoring wells on the periphery of the landfill were detecting traces of some chemicals known to be carcinogens.

At that time, the company recommended the drilling of nine additional monitoring wells, but the city held off pending the Superfund determination by the EPA.

ORDINANCE 08-03072022

City Council Ordinance

IN CITY COUNCIL

Amending the Zoning Map and Adjusting Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District Map

Be it ordained, that the City Council approve the amendment to the Zoning Map of 148 acres of Agriculture and Resource Protection (AG) to General Business (Parcel ID 289-001 and 289-002) of the Zoning Map and adjust the Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District map as proposed in the 2021 FB Environmental Report known as Lake Auburn- A Regulatory, Environmental, and Economic Analysis of Water Supply Protection.

Council Workshop or Meeting Date: March 21, 2022 **Ordinance:** 09-03072022

Author: Eric J. Cousens, Director Planning & Permitting

Subject: **Washington Street Gateway Area:** 240 +/- acres from General Business to Formed Based Code Downtown Traditional Center; T-5.1. and approximately 9.63 acres of Industrial Land to Downtown Traditional Center; T-5.1 for the inclusion of the specific lot PID 199-052.

Information: See attached Staff Report for details. Staff suggests that the Council discuss the proposals and hold a Public Hearing. The Planning Board forwarded a positive recommendation to the Council supporting the proposed changes at the February 8, 2022 Meeting, The recommendation included that the proposed boundary be adjusted from General Business to Downtown Traditional Center; T-5.1. The total amendment includes 240 +/- acres shown on the map (exhibit B in attached staff report) based on the following findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Base Code zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-5.1.

2. The area has available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads).

3. The proposal can be implemented without detriment to city resources.

4. The 2010 and now 2020 Comprehensive Plan recommends this area as the gateway to the City of Auburn with a proposed revitalization of a welcoming, pedestrian friendly, business friendly and mixed-use area.

City Budgetary Impacts: None Currently, potential increased investment and tax revenues over time.

Staff Recommended Action: Passage of second reading.

Previous Meetings and History: December 6, 2021 Comprehensive Plan adoption and January 3, 2022 workshop. Public hearing and passage of first reading at the 3/7/2022 Council meeting.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Council Workshop or Meeting Date: March 21, 2022 **Ordinance**: 10-03072022

Author: Eric Cousens, Director Planning & Permitting

Subject: Update to Phosphorus Ordinance Sec. 60-1070 Submission Requirements

---

Information: This change addresses utilization of the most current design standards set forth by Maine Department of Environmental Protection to treat phosphorus export for a project or projects over 575 square feet of ground floor area within the Taylor Pond and Lake Auburn watershed. The technical guide for design standards of Phosphorus Control Best Management Practices will be updated from the May 1990 to the March 2016 version.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016. Link Below:

https://www.maine.gov/dep/land/stormwater/stormwaterbmps/vol2/volume%20II%20March%202016.pdf

These changes allow for implementation and design of low impact development (LID) techniques that allow for more flexibility and greater water quality protection in the two watersheds.

City Budgetary Impacts: None Currently

Staff Recommended Action: Vote to approve the second reading.

Previous Meetings and History: Public hearing and passage of first reading at the 3/7/2022 Council meeting.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

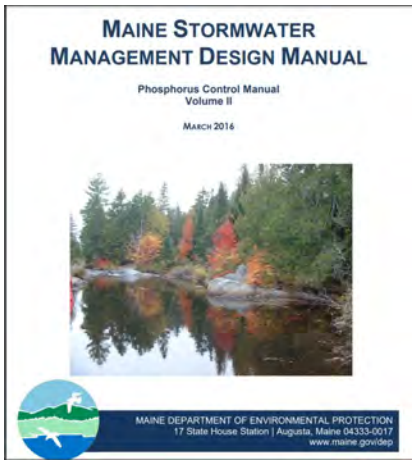
To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Public Hearing proposed Update to DIVISION 2. PHOSPHORUS CONTROL, Section 60-1070 – Submission Requirements

Date: February 8th, 2022

PROPOSAL: This update addresses utilization of the most current design standards set forth by Maine Department of Environmental Protection to treat phosphorus export for a project or projects over 575 square feet of ground floor area within the Taylor Pond and Lake Auburn watershed. The technical guide for design standards of Phosphorus Control Best Management Practices will be updated from the May 1990 to the March 2016 version.

Proposed Text: ***All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016.***

These changes allow for implementation and design of low impact development (LID) techniques that allow for more flexibility and greater water quality protection in the two watersheds.



I. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggests a planning board discuss the proposals and hold a Public Hearing on February 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes.

II. *Suggested Motion:* I make a motion to recommendation to City Council to amend Chapter 60, Article XII, Division 2, Section 60-1070 of the Auburn Code of Ordinance to update, all projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in the design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016.

Phillip L. Crowell, Jr., City Manager

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in ~~the manual Phosphorus Control and Lake Watersheds A Technical Guide to Evaluating New Development~~ design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016. ~~(Maine DEP et al., September 1989, with the Simple Review Method revised in May 1990).~~

(1) *Plan submission.* Plans shall be submitted and processed in accordance with article XVI of this chapter. In addition to the requirements for submission under this article, the following instructions shall be provided:

a. A long-term maintenance plan for all phosphorus control measures including provisions for inspection and repair, designation of responsible parties, contractual obligations and proposed deed restrictions.

b. Hydrologic soil class of all areas to be cleared or where clearing will be permitted, with the area indicated in square feet of each lot using the appropriate method as described in the phosphorus control manual.

c. All calculations and worksheets in the format of those contained in the phosphorus control manual and detailed construction specifications and diagrams for all control measures.

d. A comprehensive erosion and sedimentation control plan, designed in accordance with the Maine Erosion and Sediment Control Handbook for Construction: Best Management Practices, March 1991, and all building and environmental protection requirements of this Code.

(2) *Review method.*

a. All projects shall use the standard review method and shall conform to the Phosphorus Allocation standard set forth in this division including the following: Expansions of four lot subdivisions which were previously approved using the simple review method.

b. Projects meeting the following criteria may employ the simple review method:

1. Minor subdivisions with four or fewer lots provided that these developments contain less than 200 feet of new or upgraded roads and/or all driveways serving residential uses are less than 150 feet in length.

2. Activity which includes less than 200 feet of new or upgraded road construction.

(3) *Commercial and industrial development and expansions.* Commercial and industrial development and expansions of commercial and industrial developments and the expansion of multifamily dwelling units, which involve less than 15,000 square feet of disturbed area. All other subdivisions including expansions of previously approved four-lot subdivisions which were reviewed using the simple review method and all other projects shall utilize the standard review method.

(Ord. of 9-21-2009, § 5.7G; Ord. No. 11-03012021, § 81, 3-15-2021)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: March 21, 2022 **Order:** 34-03072022

Author: Jill M. Eastman, Finance Director

Subject: School Revolving Renovation Fund Loan, Public Hearing and Second Reading

---

Information: The Auburn School Department applied for a Revolving Renovation Fund Loan and has been approved by the State. Please see attached sheets that describe the projects being funded.

City Budgetary Impacts: This is a 10 year loan, interest free and 67.05% of the principal is forgiven, therefore the School is only required to repay 32.95% or a total of $427,852 over a 10 year period at $42,785.20 per year.

Staff Recommended Action: Hold the public hearing and approve the second and final reading.

Previous Meetings and History: Passage of first reading on 3/7/2022.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Eligibility Certificates – SRRF Projects #1460, #1537, and #1538

Dear Superintendent Brown:

I am pleased to inform you that your School Revolving Renovation Fund applications for Projects #1460, #1537, and #1538 have been approved for funding for the amounts listed on the attached eligibility certificates.

The loan process for your projects must be initiated within 30 days. Please contact Toni Reed, Program Loan Officer, Maine Municipal Bond Bank at 622-9386 for assistance.

Awardees must comply with all applicable statutory and rule requirements for public improvement projects. Please see the attached post award guidance. You may contact Valerie Chiang, School Construction Coordinator, at 462-0132 for technical assistance.

Please note that failure to comply with SRRF program requirements and all applicable statutes and rules may result in revocation of your SRRF eligibility certificates and cancellation of your SRRF awards.

I wish you good luck as you complete your projects. If you have any questions regarding the School Revolving Renovation Fund, please contact Ann Pinnette at 215-3809 or ann.pinnette@maine.gov.

Sincerely,

Pender Makin

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council will hold a public hearing on March 21, 2022, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on an order authorizing a borrowing of up to $1,298,488 and issuance of the City's general obligation bonds therefor. The loan will be funded through the State School Revolving Renovation Fund and will be used to finance certain renovations and improvements to the Regional Education Treatment Center/SOS, Auburn Middle School and Walton Elementary School.

The order will be available for inspection at the City Clerk's office during regular business hours.

Susan Clements-Dallaire, City Clerk

ORDER 34-03072022

City Council Order

IN CITY COUNCIL

ORDER, AUTHORIZING LOANS OF UP TO $1,298,488 THROUGH THE STATE SCHOOL REVOLVING RENOVATION FUND

WHEREAS, the City desires to obtain one or more loans through the Maine Municipal Bond Bank's (the "Bond Bank") School Revolving Renovation Fund ("SRRF") under the Maine School Facilities Finance Program to finance renovations and improvements to the Regional Education Treatment Center/SOS, Auburn Middle School and Walton Elementary School; and

WHEREAS, the City expects to enter into one or more loan agreements with the Bond Bank in an aggregate amount not to exceed $1,298,488, provided, however, that the City anticipates that 67.05% of said loan or loans (estimated to be $870,636) will be forgiven and that the City will be obligated to repay the 32.95% balance of said loan or loans (estimated to be $463,386);

NOW, THEREFORE, BE IT ORDERED BY THE AUBURN CITY COUNCIL, pursuant to Section 5772 of Title 30-A of the Maine Revised Statutes, as amended, the Auburn City Charter and all amendments thereof, and all other authority thereto enabling, and following a public hearing duly called and held as required by Article 8, Section 8.13 of the City Charter:

THAT the Finance Director / City Treasurer are hereby authorized to borrow an amount not to exceed $1,298,488, of which 67.05% (estimated to be $870,636) is expected to be forgiven and 32.95% (estimated to be $463,386) is expected to be repaid under the terms of the SRRF program (the "SRRF Loans"), and to evidence the amount of such SRRF Loans to be repaid under the SRRF program through the issuance of the City's general obligation bonds (anticipated to be an amount not to exceed $463,386), the proceeds of which are hereby appropriated to fund the costs of the following school renovations and improvements (including costs of issuance, capitalized interest, and any other costs related or ancillary thereto) (referred to as the "Projects"):

Amount	Description
$1,000,000	Regional Education Treatment Center/SOS – ADA Compliance - Elevator/Bathrooms Renovations and Improvements
$83,430	Auburn Middle School – Window Replacement and Improvements
$215,058	Franklin School – Window and Door Replacement and Improvements

THAT the bonds shall be issued as authorized hereunder and shall be signed by the Finance Director / City Treasurer, attested by the City Clerk under the seal of the City.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Order

THAT the bonds may be issued at one time or from time to time, either singly or in series, and the authority and discretion to fix method of sale, issue date, maturities, denominations, interest rate, place of payment, form and other details of said bonds and notes, and to take all other actions and to sign and deliver all other documents, certificates and agreements in order to provide for the sale thereof is hereby delegated to the Finance Director / City Treasurer.

THAT the bonds authorized hereunder may be made subject to call for redemption, either with or without premium, on such terms as may be determined by the Finance Director / City Treasurer.

THAT the Finance Director / City Treasurer is authorized to negotiate, execute, and deliver, in the name of and on behalf of the Town such loan agreements, contracts, and other agreements, documents and certificates as may be necessary or appropriate as determined and approved by the Finance Director / City Treasurer in connection with the financing of the Projects (the "Financing Documents"), which Financing Documents shall be in such form and contain such terms and conditions, not inconsistent herewith, including the usual and customary terms as is required by the Bond Bank under its SRRF program, as may be approved by the Finance Director / City Treasurer such approval to be conclusively evidenced by her execution thereof.

THAT the Finance Director / City Treasurer and Clerk be, and hereby are authorized and empowered in the name of the City and on its behalf to do or cause to be done all such other acts and things as may be necessary or desirable in order to complete the SRRF Loan and to effect the issuance, sale and delivery of the bonds hereinabove authorized.

THAT a tax levy is hereby provided for each fiscal year that the bonds authorized hereunder remain outstanding to meet the annual installments of principal and interest as may accrue in each respective year.

THAT if the Finance Director / City Treasurer or Clerk are for any reason unavailable to complete the SRRF Loan and to approve and execute the bonds or any of the Financing Documents, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, is authorized to act for such official with the same force and effect as if such official had herself performed such act.

THAT if any of the officers or officials of the City who have signed or sealed the bonds shall cease to be such officers or officials before the bonds so signed and sealed shall have been actually authenticated or delivered by the City, such bonds nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds had not ceased to be such officer or official; and also any such bonds may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds, shall be the proper officers and officials of the City, although at the nominal date of such bonds any such person shall not have been such officer or official.

City Council Order

THAT the authority to issue the bonds authorized hereunder shall automatically expire 2 years from the date this Order is approved.

A public notice providing a general summary of the proposed borrowing was published the same on March 5, 2022, in the Lewiston Sun-Journal, a daily newspaper published in Androscoggin County.

A public hearing was held on March 21, 2022.

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: March 21, 2022 **Ordinance:** 11-03212022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. The area under discussion was recommended as follows: *Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).*

The Planning Board reviewed this proposal and provided a positive recommendation (attached) at the March 8, 2022 meeting. The staff report from that meeting is also attached.

Staff Recommended Action: Staff suggests council discuss the proposal, consider the Planning Board Recommendation and public feedback from the process and make any desired adjustments as part of the first reading tonight. Second reading and a public hearing is scheduled for March 28, 2022.

Previous Meetings and History: January 3rd Council Discussion Initiation, February 8th and March 8, 2022 Planning Board.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: Comp Plan Update - Future Land Use Chapter Excerpts, Planning Board Recommendation.

Chapter 2 - Future Land Use Plan

The Future Land Use Plan shows graphically how the City's land use policies apply to the land area of the community, and where and how growth and development should and should not be accommodated over the next decade. The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development. The intention is that this Future Land Use Plan will guide near-term revisions to the City's zoning ordinance and maps to assure that the City's land use regulations are consistent with the policies set forth in this *Comprehensive Plan*. In addition, by designating transitional districts, the Future Land Use Plan is designed to guide future zoning changes when the circumstances become appropriate.

This Future Land Use Plan reaffirms the basic objective of land use planning, that development in Auburn should grow out from the historic cores (downtown, Danville, New Auburn, West Auburn and East Auburn) and from older established neighborhoods. This policy was originally set forth in the City's first comprehensive plan over a half century ago and has continued to guide the City's land use planning ever since. We continue to believe that growth out from the downtown core and older established neighborhoods provides the most efficient utilization of city services. This plan does not favor "leapfrog" development in the outlying sections of the City. This pattern is often referred to as "suburban sprawl," and is not considered desirable for Auburn. The effect of continuing this long-standing principle is to guide most new development into the area south of Lake Auburn and Taylor Pond and around potential passenger rail and turnpike exits (**See Section G: Transportation Policies**). Figure 2.1 identifies these areas as the City's Growth Area and Limited Growth Area; they are depicted in the brown and tan colors. (Please note: Map update is pending and the referenced figures will need to be revised for the final publication).

The boundaries shown on the Future Land Use Plan are general. They are intended to reflect the general pattern of desired future land use. The allowed uses and development standards set out for each land use designation are intended to serve as guidelines as the zoning ordinance is reviewed and revised. The lists of uses and the discussion of potential development standards are not intended to be all-inclusive. Rather, they are intended to outline the basic character and types of development desired in each land use area to guide the revision of the City's zoning ordinance and other land use regulations. In the preparation of the revised zoning provisions, some of the designations may be combined or rearranged to create a workable number of zoning districts

Organization of the Future Land Use Plan

The Future Land Use Plan is organized around the concept of growth and rural (or limited growth) areas set forth in the state's Growth Management Law. The state defines a "growth area" as an area that is designated in the city's comprehensive plan as suitable for orderly residential, commercial, or industrial development, and into which most development projected over ten years is directed. The state defines a "rural area" as an area that is designated in the comprehensive plan as deserving of some level of regulatory protection from unrestricted development for purposes such as supporting agriculture, forestry, mining, open space, habitat protection, or scenic lands, and from which most development projected over ten years is diverted. The state also recognizes the concept of "transitional areas," or areas that are suitable to accommodate a share of projected development, but at lower levels than a growth area, and without the level of protection accorded to rural areas.

The terminology of the state law – growth, rural, and transitional – can lead to confusion. The three terms are used to indicate the desired/anticipated level or share of future growth and development that will occur in the three areas -- but the terms do not indicate that in common usage. For example, an undeveloped floodplain within the built-up area might be identified as a non-growth area but labeling it as "rural" can be misleading. Similarly calling an established residential neighborhood a "transitional" area or a "growth" area can also be misleading if the objective is to maintain the neighborhood "as is".

Future Land Use Categories

For the purpose of the Future Land Use Plan, three basic growth categories are used based upon the standards set out by the state and the desired level of future development in the City (see Figure 2.1 following page):

1. GROWTH AREAS – Areas where the City wants growth and development to occur. The anticipation is that most residential and non-redevelopment over the next ten years will occur in these growth areas.

2. LIMITED GROWTH AREAS – Areas that have limited development potential or that have vacant or under-utilized land where the City desires a limited amount of growth and development over the next ten years.

3. NON-GROWTH AREAS – Areas that are either unsuitable for development or in which the City desires to see little growth and development over the next ten years.

Future Land Use Types

The three categories of growth, limited growth, and non-growth specify where the City wants to accommodate growth and development and where it wants to discourage or prohibit it. The Comprehensive Plan is intended to be a guide upon which zoning ordinances are based and is not intended to serve as a regulatory document. A comprehensive rezoning should be completed after adoption of the Comprehensive Plan to match the suggestions in this plan with flexibility for future changes.

Type A: Development Areas – Areas with a significant amount of vacant or underutilized land that are capable of supporting new residential or nonresidential development in accordance with the City's land use objectives. New development within these areas is generally encouraged.

Type B: Transition/Reuse/Redevelopment Areas – Developed areas where the City's policy is to encourage the type of use and/or pattern of development to change over time. New development, redevelopment, or the reuse of existing land and buildings that moves the area toward the desired future use is encouraged. Some transition areas designated in the Future Land Use Plan identify the desired future use of the area, but the City's zoning may not be changed until a future point in time when development is appropriate – in a sense these are

"planned future transition areas". The City's use of the term transition area differs from the way this term is used by the state in the Growth Management Law.

Type C: Protection/Reserve Areas – Largely undeveloped areas that should remain undeveloped for at least the next ten years. These areas include land with significant development constraints that should not be developed, as well as land that is not appropriate for development at this time, but that may be designated for development in the future.

Figure 2.2 on the following page shows the types of land use areas organized by the three growth categories.

Residential Densities

The Future Land Use Plan sets out the recommended pattern and intensity of development in various areas of the City. The Future Land Use Plan establishes the desired maximum intensity or density of residential development in the various land use designations.

The following table sets out the various categories of density used in the Future Land Use Plan. The maximum allowed density is expressed in the number of housing units per acre based on the gross development density. (An acre is 43,560 square feet – the playing surface of a football field is about 1.3 acres). For each density category, a maximum suggested density is provided to allow some flexibility in the establishment of the revised zoning regulations. This is not to imply that the revised zoning should strive to meet the maximum density.

Residential Density Categories	
Category	**Maximum Density**
Traditional Neighborhood	16 units per acre
Suburban	8 units per acre
Residential	2 units per acre
Rural	1 unit per 3 acres + additional dwelling unit

Future Land Use Designations

The following sections outline the various land use designations used in the Future Land Use Plan. The designations are organized by growth category and by the type of area. The description of each designation includes a series of land use districts that define the general pattern of development. Each district includes an ***objective*** for the general pattern and type of development that is desired together with the general types of uses (***allowed uses***) that are appropriate in the designation and an outline of the ***development standards*** including the density/intensity of development. The location of these various land use districts are shown on the accompanying Future Land Use Plan Map (see Figure 2.3 on the following page).

In addition to the Future Land Use Map, four detail maps (Figures 2.4, 2.5, 2.6 , and 2.7) show the future land use designations for specific portions of the community, including Downtown, New Auburn, Minot Avenue, and Center Street.

FUTURE LAND USE PLAN VISION STATEMENT:

As a model of carefully managed growth, Auburn seeks to **grow outward from the historic cores within our city** and be known for its **strong, vibrant neighborhoods**. The city is committed to making careful, effective, and **efficient use of land and corresponding services, while strengthening the character of our neighborhoods**, ensuring that resources exist to maintain and enhance the quality of life for current and future residents. Auburn's continued commitment to **strong community connections,** embracing opportunity, and mindful growth should be **balanced with natural resource conservation** and woven into the city's unique identity.

1. GROWTH AREAS –

Type A: Development Areas

Designation: Residential

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3 and 2.7). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should

be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

SUBURBAN DEVELOPMENT DISTRICT (SD)

Objective – Allow for the development of a limited range of residential and community uses at a density of up to 6-8 units per acre in areas that are served or can be served by public/community sewerage and/or public/community water (see Figure 2.3). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Suburban Development District generally follows the boundaries of the Multifamily Suburban and Suburban Residential Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Suburban Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Recreational Uses of Land
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 8 units per acre with no minimum road frontage required, shared driveways are encouraged. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-20 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Designation: Nonresidential and Mixed Use

FORM-BASED CODE DEVELOPMENT DISTRICT (FBCD)

Objective – Stabilize and promote continued investment in the City's high-density neighborhoods which include a mix of housing types including multi-unit buildings to assure that they remain safe, attractive areas in which residents want to live (see Figures 2.3 and 2.4). To this end, the district should allow property owners to upgrade their properties, and for infill development and redevelopment/reuse to occur, as long as it is compatible with the character of the neighborhood.

Allowed Use – The Form-Based Code Development District generally follows the boundaries of the Form-Based Code (Transects 4.1, 4.2, 5.1, 5.2 and 6), in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Form-Based Code Development District:

- Low and High Density Residential Dwelling Units
- Home Occupations
- Civic Uses
- Office/Service Type Uses
- Retail Type Uses

Development Standards – The reuse/reconfiguration of existing buildings for residential purposes should be allowed without consideration of density/lot size requirements, provided that

the building will be renovated, be compatible with the neighborhood, and will meet the City's requirements for residential units, including green space and providing the amount of parking appropriate for the proposed use. The other development standards should be established to reflect the existing pattern of development in these neighborhoods. Any parking requirements imposed should allow for flexibility in meeting the need for parking including the use of municipal parking, shared parking, and similar arrangements.

COMMERCIAL DEVELOPMENT DISTRICT (GBD)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic (see Figures 2.3 and 2.5) the District should allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed in the General Business Development District:

- Low and High Residential Density Uses
- Retail uses including large-scale uses (>100,000 square feet)
- Personal and business services
- Business and professional offices
- Medical facilities and clinics
- Restaurants
- Hotel, motels, inns, and bed & breakfast establishments
- Low and High-Density Residential Uses
- Community services and government uses
- Research, light manufacturing, assembly, and wholesale uses
- Truck terminals and distribution uses
- Contractors and similar activities
- Motor vehicle and equipment sales
- Motor vehicle service and repair
- Recreational and entertainment uses and facilities

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

INDUSTRIAL DEVELOPMENT DISTRICT (ID)

Objective – Accommodate the development and expansion of a wide range of nonresidential industrial-type uses to create employment opportunities and commerce (see Figure 2.3). The land within the district should be viewed as a limited resource that should be carefully managed so that it is not used for activities that can occur in other areas of the City.

Allowed Uses – The Industrial Development District generally follows the boundaries of the Industrial District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed in the Industrial Development District:

- Industrial uses including manufacturing, assembly, and research and development facilities
- Distribution and storage uses including wholesale sales, warehousing, and truck terminals/distribution facilities
- Transportation facilities including the airport and related uses and transportation terminals and multi-modal facilities
- Office uses
- Building material and lumber yards
- Vehicle and equipment repair facilities
- Hotels and motels
- Community services and governmental uses
- Agricultural uses

Residential uses should not be allowed in this district. Retail and service uses should be limited to activities that primarily support the other uses within the district such as service stations, convenience stores, and restaurants. Other retail and service activities should not be allowed in this district.

Development Standards – The development standards within the Industrial Development District should:

- Establish performance standards to assure that uses are good neighbors and do not create adverse impacts on surrounding properties or the community at-large
- Establish buffers where the district abuts residential districts to minimize the impacts on those residential properties
- Establish site design and landscaping standards to assure that development functions well and is visually attractive when viewed from public streets or other public areas

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)

Objective –.
To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the City. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi

dwelling development with up to three stories (plus attic space), with multiple commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street.This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (UNION/CENTER/TURNER) (CFBCGD-UCT)

Objective –.
To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-UCT should enhance development and design standards to allow this area to evolve into an attractive gateway into the City. Specifically, a portion of this designation pushes a transformation of the Union/Center/Turner Street neighborhood from a commercial zoning district to a future Form-Based Code Commercial Development District, matching the adjacent Form-Based Code designations. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – UCT generally follows the boundaries of the existing General Business areas along the Union/Center/Turner Street corridor, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The Commercial Form-Based Code Gateway Development District – UCT should allow for medium-scale, multi dwelling development with up to four stories (plus attic space), with multiple commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for

new development, encouraging shallow or no front setbacks, screen parking areas from the street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Union/Center/Turner Streets. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

VILLAGE OVERLAY AREAS (VOA)

Objective – In residential Future Land Use Districts, small commercial operations should be allowed provided they do not exceed the average lot size of the neighborhood (or more than two times the average size of the home). As part of the comprehensive rezoning, the City should identify village overlay areas where these small commercial operations are most appropriate, such as corner lots. Considerations for appropriate areas should include: frontage on a major arterial as defined in the Comprehensive Plan, access to any required parking be located on the arterial frontage, buffering of any parking areas from lot lines and signage limitations.

PLANNED UNIT DEVELOPMENTS (PUD)

Objective – As part of the comprehensive rezoning process, the City should continue to provide for a greater variety and choice of design for urban and suburban living, to gain efficiencies, to coordinate design development efforts, to consider and make available open space, to utilize new technologies for land development and to offer a flexible alternative to conventional land control regulations by allowing for Planned Unit Developments for residential, commercial and industrial projects. The type and amount of development permitted should continue to be based on the Planning Board's evaluation of the development proposal and the purposes set forth in the 2021 Auburn Code of Ordinances. The City should continue with the four types of Planned Unit Developments: Residential, Recreation/Residential, Commercial and Industrial and apply them to the newly proposed Future Land Use Designations after a comprehensive rezoning has taken place.

2. LIMITED GROWTH AREAS –

Type A: Development Areas

Designation: Residential

RESIDENTIAL DEVELOPMENT DISTRICT (LDD)

Objective – Allow for the development of residential and community uses at a density of up to 2 units per acre in areas on the fringe of the built-up area where public services can be reasonably provided, but where public sewerage is not available and is not likely to be available in the foreseeable future (see Figure 2.3). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads. Shared driveways should be encouraged by providing a 20% reduction in lot size and road frontage.

Allowed Uses – The Residential Development District generally follows the boundaries of the Rural Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Low-Density Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses

- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – Residential uses should be allowed at a density of up to 2 units per acre. Lot frontage requirements on existing collector and other through roads should be around 100 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 20 feet. Side and rear setbacks should be 15-30 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

RURAL DEVELOPMENT DISTRICT (RD)

Objective – Allow for the development of residential uses (primarily detached single family homes) at a density of up to 1 unit per 3 acres with one additional dwelling unit permitted for each home in areas where public/community sewerage and water are not available and not likely to be available in the foreseeable future. New development should be designed to minimize the number of vehicular access points to existing collector and other through roads. Shared driveways should be encouraged by providing for a 50-foot driveway frontage bonus. Setbacks within lots should be maintained.

Allowed Uses – The Rural Development district generally follows the boundaries of the Low-Density Country Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Rural Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses
- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – The residential density in the Rural District should be one unit per 3 acres. Lot frontage requirements should be around 200 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 25 feet. Side and rear setbacks should be 15-25 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

3. NON-GROWTH AREAS –

Type C: Protection/Reserve Areas

Designation: Conservation/Open Space

CONSERVATION/OPEN SPACE DISTRICT (COS)

Objective – Formally recognize those parcels that are used for cemeteries, water quality protection or are protected for conservation or open space purposes (see Figure 2.3). The land included within this district will change over time as additional land is conserved. The intent of this designation is to establish a policy that these types of properties/uses should be recognized as important resources and that any significant change in use should be considered a policy decision.

Allowed Uses – The allowed uses within the Conservation/Open Space District should be limited to low intensity recreational facilities and natural resource uses including forestry and food production.

Development Standards – The development standards should provide flexibility for the appropriate use of the land, while protecting its natural resource and ecological values.

AGRICULTURE DISTRICT (AG)

Objective – Preserve and enhance the agricultural heritage of Auburn and protect the City's natural resources and scenic open space while maintaining the economic value of the land (see Figure 2.3). The district is characterized by a rural, very low-density development pattern that limits sprawl and minimizes the City's service costs. The district maintains the current rural development pattern allowing for a broad range of agriculture and natural resource-related uses, while restricting residential development. Recreational development is encouraged both as a means of protecting open space, and as a means to provide reasonable public access to outdoor destinations such as Lake Auburn and the Androscoggin River. The Agriculture District is intended to serve as a land reserve, protecting valued community open space and rural landscapes, while maintaining the potential for appropriate future development.

Allowed Uses – The Agriculture District should continue to include the uses allowed in the existing AG/RP zoning district. In addition, a broader range of rural uses should be allowed. Agriculturally related businesses including retail and service activities and natural resource industries should be permitted. The reuse of existing agricultural buildings should be allowed for low intensity non-agriculture related uses.

Residential uses should continue to be limited to accessory residential development as part of a commercial agriculture or natural resource use, not just traditional farms. The criteria for determining when an accessory residential use is permitted should be based on updated standards that consider the economic realities of today's commercial agricultural activities, including outside sources of income and part-time and small-scale commercial operations. Residential development may also be part of a commercial recreational use as part of a planned development in which the recreational open space is permanently preserved.

Development Standards – All new development, redevelopment, and expanded uses in the Agriculture District should be required to meet "best management practices" for stormwater management and environmental protection to ensure adequate protection of natural resources. All development activities in the Agricultural District should be subject to low impact development (LID) standards such as limiting impervious surfaces, minimizing lot disturbances, creating natural buffers, and capturing and treating runoff through filtration measures.

The City should continue to encourage a very low density development pattern as a means of protecting natural resources and preserving the rural character. The basic residential density standard for the current AG/RP zoning district should be maintained. The standards for the development of accessory residential units should provide greater flexibility in the siting of those units. In an effort to place accessory residential development in areas where it will have the least impact on natural resource and/or the agricultural value of the land, the standards should allow for a waiver or elimination of road frontage requirements and access from a private driveway.

Residential development that is proposed as part of a master planned commercial recreational development should be limited to the same density standard (one unit per 10 acres) as other accessory residential uses, unless necessary for economic reasons to increase the density as a

project incentive. A recreational master plan should be required outlining the scope, scale, and location of residential units and ensuring a cluster development pattern in which the majority of the land is retained as recreation/open space. A conservation easement, or other legally binding preservation measure, should be required to permanently conserve the recreation/open space areas.

As part of the 2021 Comprehensive Plan update, it is understood that agriculture and forestry **may not** be profitable in some areas of the City and the existing Agriculture and Resource Protection Zoning, in some cases, eliminates the economic use of private land. The City should create a mechanism in which private landowners can petition the City for a change of use based on the individual circumstances of their lot(s).

The City also recognizes differences between Agriculture and Resource Protection, and as such it is recommended that the districts be treated separately within the zoning ordinance (Agricultural District and Conservation/Open Space District). This committee acknowledges that in practice there is overlap between Agriculture and Resource Protection, and that the conversation about how to distinguish the two should include a broad group of voices including residents, relevant City Committees (Conservation Commission, Agriculture Committee, etc) and experts who can support the City in meeting its goal to untangle these activities.

From: Auburn Planning Board

Re: Findings and Reasons for the recommendation to the Council on a Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2

Date: March 8, 2022 Planning Board Meeting

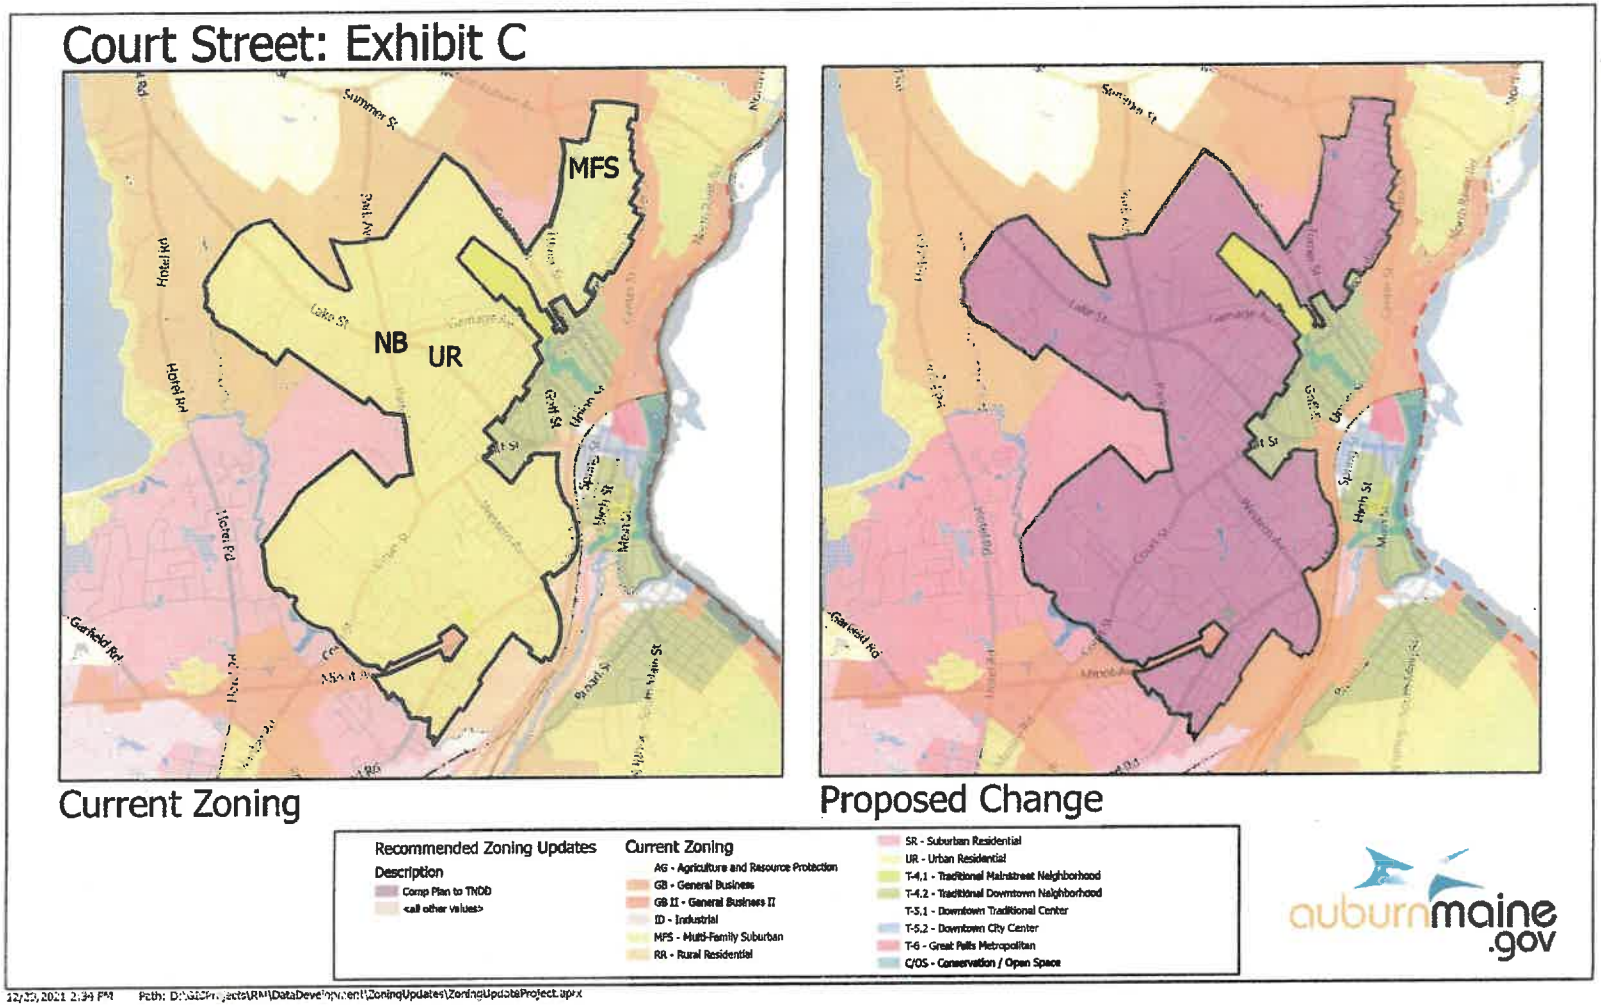
The Planning Board forwarded a positive recommendation to the Council on this proposal at the March 8, 2022 Planning Board meeting.

The Board passed a motion to recommend to City Council to amend the proposed boundary be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code. The Motion passed 4 in favor, 3 against, based on the following findings.

FINDINGS AND REASONS:

1. The 2010 and now 2020 Comprehensive Plan recommend expanding the Formed Base zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-4.2.
2. The area is considered the core of the city and the 2010 and now 2021 support higher density with available infrastructure in place. (sewer, water, power, high speed internet, gas & roads)
3. The proposal can be implemented without detriment to city resources.

Proposed Urban Residential to Traditional Neighborhood Development District Area:T-4.2 (1,687.41 Acres)



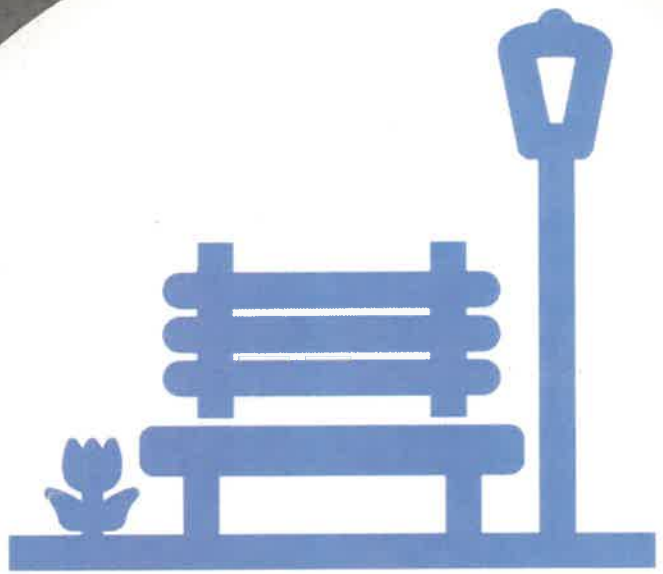
12/30/2021 2:34 PM Path: D:\GIS\Projects\RM\DataDevelopment\ZoningUpdates\ZoningUpdateProject.aprx

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (COURT STREET) (TND) T-4.2

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).



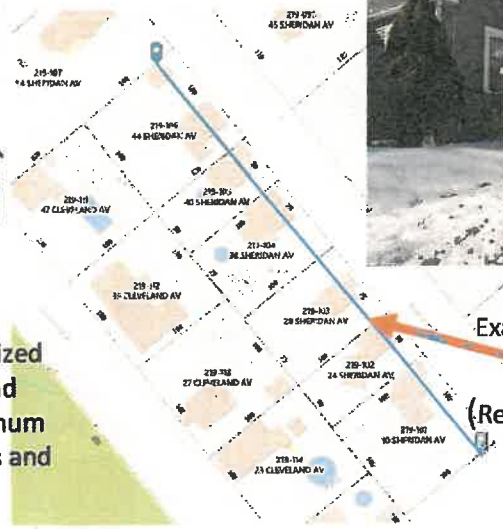
Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

auburnmaine.gov

Sec. 60.549. Traditional Downtown Neighborhood T-4.2.

Illustrative View of T-4.2 (Spring Street)

- Allows for Infill Development.
- Encourage Revitalization.
- Promote Housing Affordability.
- Help Small Businesses.
- Promote Walkability.
- Creates a Sense of Place-Charmed New England Towns and Cities.
- Addresses many legally non-conforming lots (70% or more-**Stop Regulating the Wrong Things**)



Sheridan Avenue-Example; Existing legally non-conforming lots. (Required existing 25' setback)

Intent and Purpose:

Traditional Downtown Neighborhood (T-4.2)

The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Examples of Traditional Downtown Neighborhood T-4.2

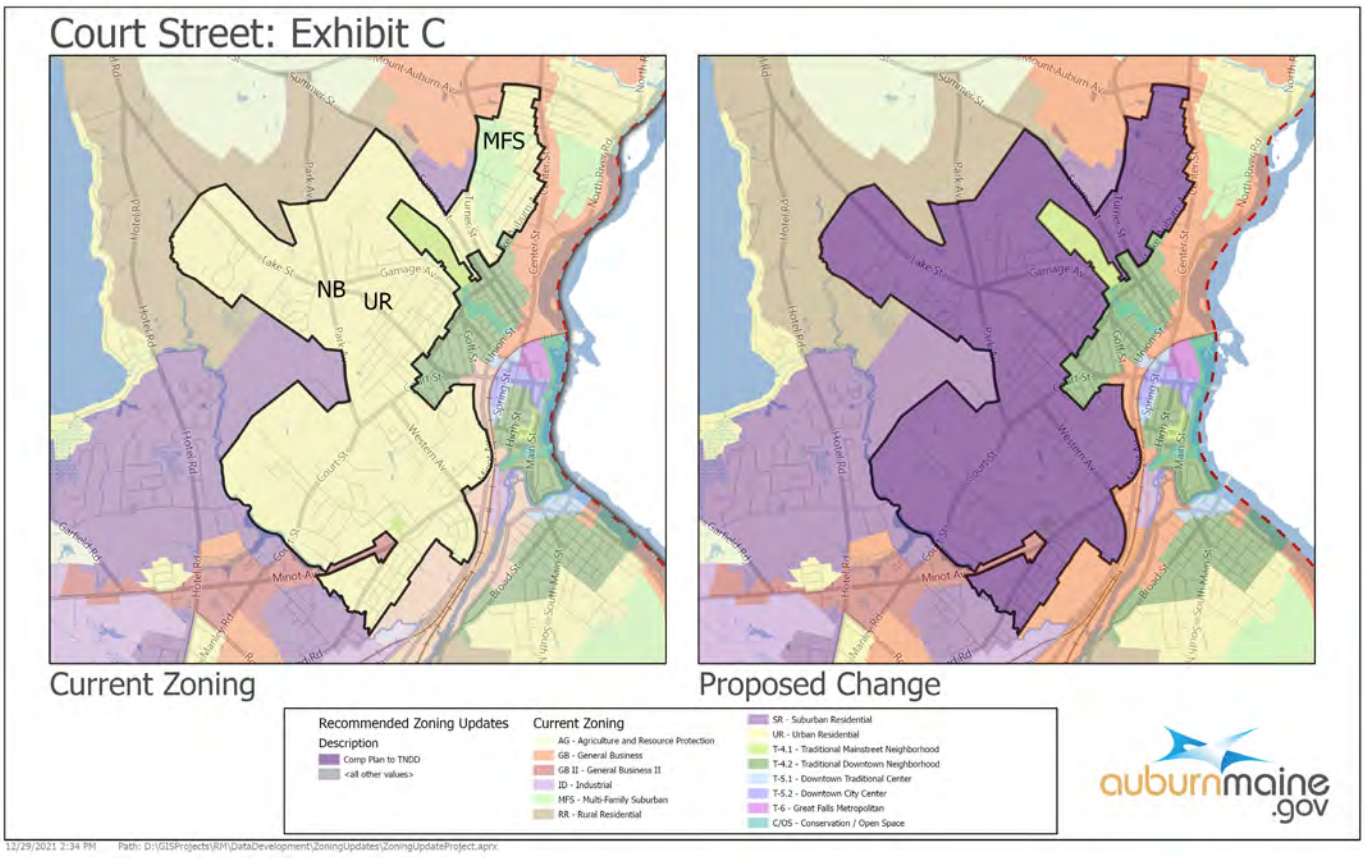
Re: Public Hearing Court Street/Urban Core Area Zoning Considerations from 2021 Updated Comprehensive Plan for Zoning Map Amendment.

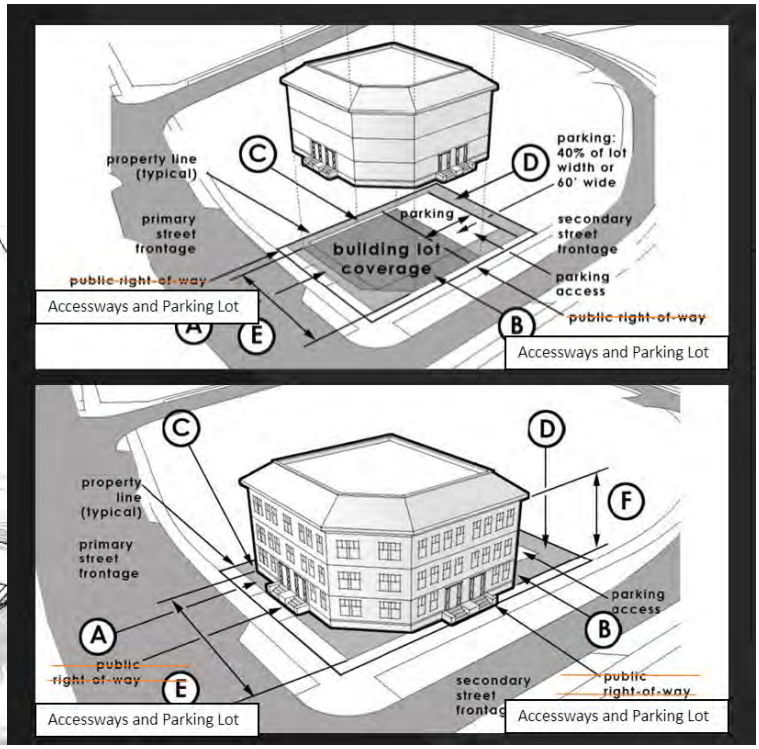
Date: March 8th, 2022

PROPOSAL #1: **Court Street/City Core of Urban Residential Area;** 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2 (See below Exhibit C.)



PROPOSAL #2: **Front Setback as Accessways and Parking Lots;** Multifamily units development opportunities should be considered as its own neighborhood setting allowing setbacks not just from public

ways, but also private ways, private parking and private sidewalks. See illustration below for example.



PROPOSAL #3 Utilize Public Parking in all Formed Based Code; Sec. 60-554, Notes (2) *Parking requirements in T-4.1, T-4.2, T-5.1, T-5.2 and T-6 may be provided by the municipality or private parking resources within 1,000 feet of the principal building, subject to planning board approval.

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot

to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

I. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggests a planning board discuss the proposals and continue a Public Hearing on March 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes, 1.) To amend the proposed boundary be adjusted from Urban Residential to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code.

II. based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now 2020 Comprehensive Plan recommend expanding the Formed Base zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-4.2.
2. The area is considered the core of the city and the 2010 and now 2021 support higher density with available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads)
3. The proposal can be implemented without detriment to city resources.

III. *Suggested Motion:* 1*.)* I make a motion to recommendation to City Council to amend the proposed boundary be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code.

ORDINANCE 11-03212022

City Council Ordinance

IN CITY COUNCIL

Amending the zoning district Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas (T-4.2).

Be it ordained, that the City Council hereby amends the boundary to be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C and Utilize Public Parking in all Formed Based Code: Sec. 60-554, Notes (2)

*Parking requirements in T-4.1, T-4.2, T-5.1, T-5.2 and T-6 may be provided by the municipality or private parking resources within 1,000 feet of the principal building, subject to planning board approval. Sec 548.2-552.2 allow Accessways (A)

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed ordinance amendment, Sec. 2-255 Appointment term (of the Assessor).

Information: Title 30-A §2552 states the following:

§2552. Designation of officials
1. Assessors and assistant assessors. The following provisions apply to assessors and their assistants.
A. Assessors and their assistants shall be chosen annually on the 2nd Monday of March to serve for one year and until others are chosen and qualified in their places, unless the city charter provides otherwise.

B. In addition to the assistant assessors chosen under a city charter, the municipal officers may authorize the assessors to appoint any necessary assistants to serve during the municipal year in which they are appointed

C. Notwithstanding the provisions of any city charter to the contrary, the city council, by ordinance, may provide for a single assessor whose powers and duties are the same as for towns, and who is appointed for a term not exceeding 5 years.

Section 2-255 of our Code of Ordinances states:

Sec. 2-255. - Appointment; term.

The tax assessor shall be appointed by the city council on the recommendation of the city manager. The tax assessor shall be appointed for a two-year term.

Staff is proposing an amendment changing the term from two years to up to five years to better align with State law.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage.

Previous Meetings and History: Bi-annual appointment.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Author: Phil Crowell, City Manager

Subject: Non-profit organization ARPA fund requests

Information: During the last two years of the Covid-19 pandemic, many non-profit organizations lost revenue as they were unable to do any fundraising. This revenue loss prevented them from providing much needed services to members of our community. The City of Auburn has received requests from non-profits asking for assistance to stabilize their non-profit budgets.

During the March 7, 2022 City Council meeting, councilors discussed providing an allocation of ARPA (American Rescue Plan Act) funds to non-profit organizations who offer outdoor recreational activities. Written requests will be reviewed on a first-come/first-serve basis and funds will be allocated until the funds have been disbursed.

This allocation is an allowable expenditure under ARPA's final rule – *Negative Economic Impacts – Aid to Non-profit Organizations – 2.10.*

City Budgetary Impacts: None

Staff Recommended Action: Vote to allocate $50,000. in ARPA (American Rescue Plan Act) funds to provide assistance to non-profit organizations who offer outdoor recreational activities and have been negatively impacted by the Covid-19 pandemic.

Previous Meetings and History: March 7, 2022

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **February 2022 Financial Report**

DATE: **March 21, 2022**

The following is a discussion regarding the significant variances found in the City's February financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its eighth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 66.7% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through February 28th, including the school department were $63,381,546 or 66.41%, of the budget. The municipal revenues including property taxes were $42,679,602, or 65.51% of the budget which is more than the same period last year by 2.09%. The accounts listed below are noteworthy.

A. The current year tax revenue is at 63.47% compared to last year at 61.46% the second payment is due March 15th. We are currently $1,241,358 higher than last year at this time.

B. Excise tax for the month of February is at 66.68%. This is a $166,051 decrease over FY 21.

C. State Revenue Sharing at the end of February is 114.56% or $3,608,621.

City of Auburn, Maine
Finance Department
www.auburnmaine.gov | 60 Court Street
Auburn, Maine 04210
207.333.6601

Expenditures

City expenditures through February 2022 were $33,920,305 or 72.01%, of the budget. This is an increase of $1,002,868 for the same period last year. Noteworthy variances are:

A. Fiscal Services are higher than last year due to the increase in Debt Service payments for FY 22.

B. Public Safety and Public Works are higher than at this time last year.

Investments

This section contains an investment schedule as of February 28th. Currently the City's funds are earning an average interest rate of 0.24%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for February 28, 2022

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of February 28, 2022.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities, and net assets and shows a comparison to the previous month, in this case, January 31, 2022.

Current Assets:
As of the end of February 2022 the total current assets of Norway Savings Bank Arena were ($1,062081). These consisted of cash and cash equivalents of $275,258, accounts receivable of $190,627, and an interfund payable of $1,527,966.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of February 28, 2022 was $195,258.

Liabilities:
Norway Arena had no accounts payable as of February 28, 2022.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through February 2022 are $761,967. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

The operating expenses for Norway Arena through February 2022 were $392,941. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

At the end of February 2022, there was an operating gain of $369,026.

As of February 28, 2022, Norway Arena has an increase in net assets of 369,026.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $426,999 more than in FY21 and expenditures in FY22 are $19,881 more than last year in February.

Auburn, Maine 04210

Re: Court Street/City Core Zoning Amendments

Dear Eric:

We have been asked whether, at its upcoming meeting on March 28, the City Council may adopt a zoning map amendment while simultaneously revising the characteristics of an existing district through a text change that has not yet been drafted. For the reasons stated below, the Council may vote on the map amendment as originally proposed, but it may not alter the text of the zoning ordinance without submitting those changes to the Planning Board and following the customary procedure.

Sections 60-1445 through 60-1496 of the City Code govern amendments to Auburn's zoning ordinance or map. In general, proposed changes to the zoning map or text must be vetted by the Planning Board following due notice and public hearing, prior to action by the City Council. I direct your attention to Section 60-1446, which, in essence, permits a proposed map change to move through the consideration process based on drawings alone. In this way, permitted uses of land can be altered without the need to change an ordinance itself. In other words, a map amendment can change where a zoning rule applies, but it may not change the rule itself. By contrast, if a new district is to be created, or if the permitted uses within an existing district are to shift, that would constitute a change in the rule itself, and for the Council to request a change to the zoning rule itself, it must first send the proposal to the Planning Board.

See Section 60-1447, which states:

> *Each proposal to change any zoning ordinance text (other than a change of zoning district name or zoning boundary description) shall include the wording then current, the words of change, the wording if so amended and a statement of the reasons for such change, showing how such a change would affect the public health, safety, convenience and welfare.*

Michael S. Malloy, Esq.
TEL 207-333-6700

Auburn, ME 04212-3171
MALLOYFIRMMAINE.COM
msm@malloyfirmmaine.com

In the proposal to come before the Council on March 28, there is no proposed text change. The Council may not create such a change on Monday night and codify that text as an ordinance in the same meeting. It therefore has the following options:

1. The Council may vote whether to approve he map amendment as first proposed, which would extend the existing Zone T-4.2, as it presently exists, to the Court Street neighborhood; or

2. It may propose new language whether that be the creation of a new district or the alteration of an existing district's characteristics, and send the proposed text to the Planning Board for consideration, subject to customary notice and hearing requirements.

Please let me know if you have questions or if I can provide any additional guidance on these matters to you or the Council.

Sincerely,

Michael S. Malloy

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: March 28, 2022 **Ordinance:** 11-03212022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. The area under discussion was recommended as follows: *Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).*

The Planning Board reviewed this proposal and provided a positive recommendation (attached) at the March 8, 2022 meeting. The staff report from that meeting is also attached. The Council voted to edit the text of the T-4.2 district to address information and concerns raised in the public process at the 3/21/22 Council Meeting. Staff applauds the Councils edits as a positive improvement for the development of the ordinance covering the Court Street/City Core of Urban Residential Area, however, the changes made the proposed map amendment into a map and text amendment. This text change would also limit density and mixed use in the existing Urban Core of the T-4.2 district which we believe was not the intent of the Council or the goal of the Comprehensive plan for the area. Procedurally, the attached legal opinion provides guidance on the best way to accomplish the goals of the ordinance and the Council amendment to the draft that passed on first reading last week. That process involves two steps tonight: Step 1. Vote not to pass the current version. To do this, the Council can make a motion to pass the proposed ordinance and vote against it; Step 2. The second item on tonight's agenda is to forward a text and map amendment of the Court Street/City Core of Urban Residential Area to the Planning Board for public hearing and a recommendation to the Council.

One other option exists but is not recommended. The Council could pass the existing T.4.2 standards (without amendments proposed on 3/21/22) over a portion of the land area mapped and discussed by Planning Board and Council. As requested, we have provided a map of the larger lot area along Court Street that defines the largest block of undeveloped land along Court Street as Exhibit C Revised/Limited.

Staff Recommended Action: Staff suggests council discuss the proposed changes, hold a public hearing and vote NO on the proposed ordinance change as amended on 3/21/22.

Previous Meetings and History: January 3rd Council Discussion Initiation, March 21,2022 Council First Reading and January 11, 2022, February 8th and March 8, 2022 Planning Board.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

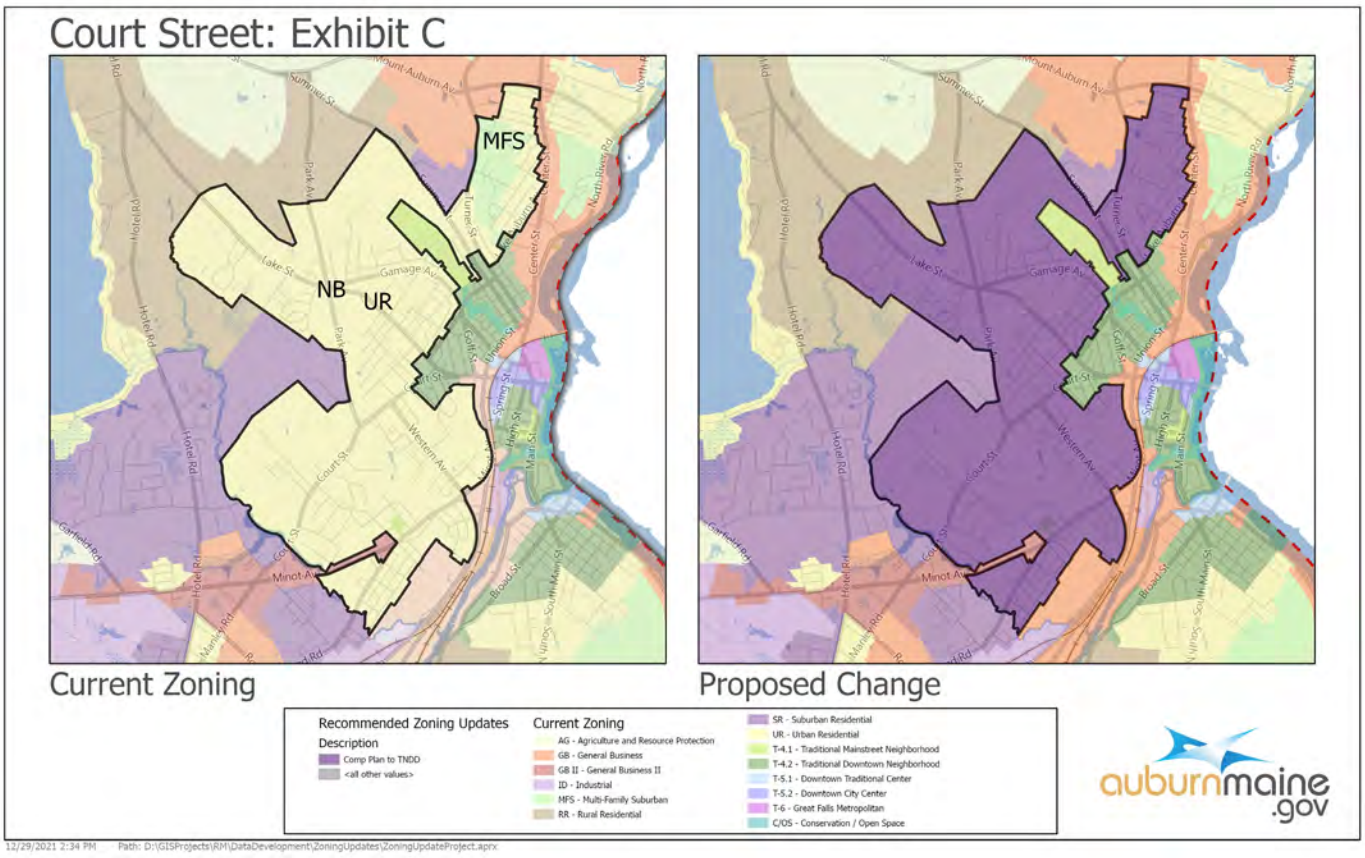
www.auburnmaine.gov | 207.333.6601

To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Public Hearing Court Street/Urban Core Area Zoning Considerations from 2021 Updated Comprehensive Plan for Zoning Map Amendment.

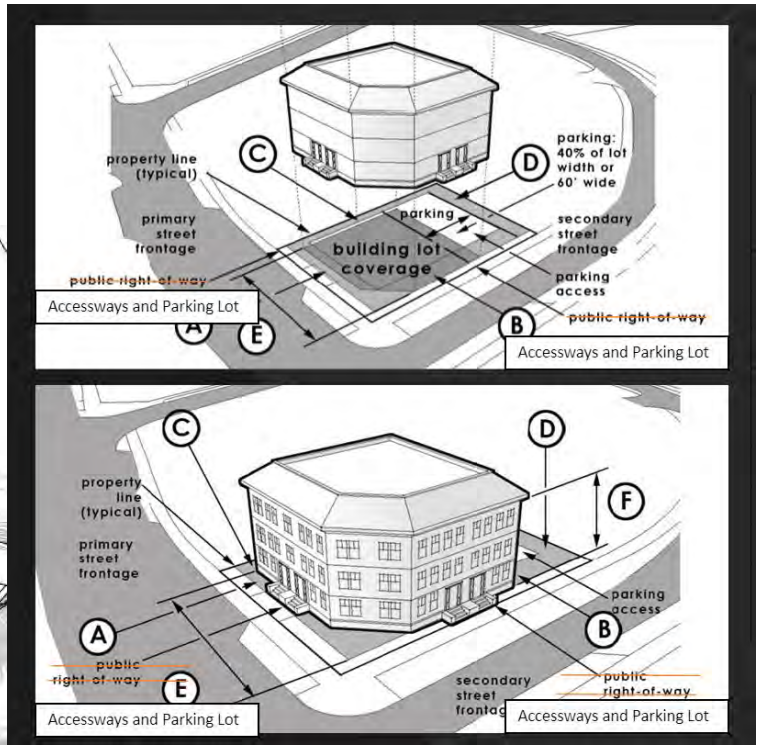
Date: March 8th, 2022

PROPOSAL #1: **Court Street/City Core of Urban Residential Area;** 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2 (See below Exhibit C.)



PROPOSAL #2: **Front Setback as Accessways and Parking Lots;** Multifamily units development opportunities should be considered as its own neighborhood setting allowing setbacks not just from public

ways, but also private ways, private parking and private sidewalks. See illustration below for example.



PROPOSAL #3 Utilize Public Parking in all Formed Based Code; Sec. 60-554, Notes (2) *Parking requirements in T-4.1, T-4.2, T-5.1, T-5.2 and T-6 may be provided by the municipality or private parking resources within 1,000 feet of the principal building, subject to planning board approval.

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot

to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

I. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggests a planning board discuss the proposals and continue a Public Hearing on March 8, 2022. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes, 1.) To amend the proposed boundary be adjusted from Urban Residential to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code.

II. based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now 2020 Comprehensive Plan recommend expanding the Formed Base zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-4.2.
2. The area is considered the core of the city and the 2010 and now 2021 support higher density with available infrastructure in place. (Sewer, water, power, high speed internet, gas & roads)
3. The proposal can be implemented without detriment to city resources.

III. *Suggested Motion:* 1*.)* I make a motion to recommendation to City Council to amend the proposed boundary be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code.

City of Auburn, Maine
Planning Board

To: Auburn Mayor and City Council

From: Auburn Planning Board

Re: Findings and Reasons for the recommendation to the Council on a Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas; T-4.2

Date: March 8, 2022 Planning Board Meeting

The Planning Board forwarded a positive recommendation to the Council on this proposal at the March 8, 2022 Planning Board meeting.

The Board passed a motion to recommend to City Council to amend the proposed boundary be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C. 2.) Define building front setbacks in all formed base code as accessways and parking areas. 3.) Utilize public parking in all formed based code. The Motion passed 4 in favor, 3 against, based on the following findings.

FINDINGS AND REASONS:

1. The 2010 and now 2020 Comprehensive Plan recommend expanding the Formed Base zoning in this area to include the area proposed on the map. This can be accomplished without creating a new district by using the existing T-4.2.
2. The area is considered the core of the city and the 2010 and now 2021 support higher density with available infrastructure in place. (sewer, water, power, high speed internet, gas & roads)
3. The proposal can be implemented without detriment to city resources.

Chapter 2 - Future Land Use Plan

The Future Land Use Plan shows graphically how the City's land use policies apply to the land area of the community, and where and how growth and development should and should not be accommodated over the next decade. The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development. The intention is that this Future Land Use Plan will guide near-term revisions to the City's zoning ordinance and maps to assure that the City's land use regulations are consistent with the policies set forth in this *Comprehensive Plan*. In addition, by designating transitional districts, the Future Land Use Plan is designed to guide future zoning changes when the circumstances become appropriate.

This Future Land Use Plan reaffirms the basic objective of land use planning, that development in Auburn should grow out from the historic cores (downtown, Danville, New Auburn, West Auburn and East Auburn) and from older established neighborhoods. This policy was originally set forth in the City's first comprehensive plan over a half century ago and has continued to guide the City's land use planning ever since. We continue to believe that growth out from the downtown core and older established neighborhoods provides the most efficient utilization of city services. This plan does not favor "leapfrog" development in the outlying sections of the City. This pattern is often referred to as "suburban sprawl," and is not considered desirable for Auburn. The effect of continuing this long-standing principle is to guide most new development into the area south of Lake Auburn and Taylor Pond and around potential passenger rail and turnpike exits (**See Section G: Transportation Policies**). Figure 2.1 identifies these areas as the City's Growth Area and Limited Growth Area; they are depicted in the brown and tan colors. (Please note: Map update is pending and the referenced figures will need to be revised for the final publication).

The boundaries shown on the Future Land Use Plan are general. They are intended to reflect the general pattern of desired future land use. The allowed uses and development standards set out for each land use designation are intended to serve as guidelines as the zoning ordinance is reviewed and revised. The lists of uses and the discussion of potential development standards are not intended to be all-inclusive. Rather, they are intended to outline the basic character and types of development desired in each land use area to guide the revision of the City's zoning ordinance and other land use regulations. In the preparation of the revised zoning provisions, some of the designations may be combined or rearranged to create a workable number of zoning districts

Organization of the Future Land Use Plan

The Future Land Use Plan is organized around the concept of growth and rural (or limited growth) areas set forth in the state's Growth Management Law. The state defines a "growth area" as an area that is designated in the city's comprehensive plan as suitable for orderly residential, commercial, or industrial development, and into which most development projected over ten years is directed. The state defines a "rural area" as an area that is designated in the comprehensive plan as deserving of some level of regulatory protection from unrestricted development for purposes such as supporting agriculture, forestry, mining, open space, habitat protection, or scenic lands, and from which most development projected over ten years is diverted. The state also recognizes the concept of "transitional areas," or areas that are suitable to accommodate a share of projected development, but at lower levels than a growth area, and without the level of protection accorded to rural areas.

The terminology of the state law – growth, rural, and transitional – can lead to confusion. The three terms are used to indicate the desired/anticipated level or share of future growth and development that will occur in the three areas -- but the terms do not indicate that in common usage. For example, an undeveloped floodplain within the built-up area might be identified as a non-growth area but labeling it as "rural" can be misleading. Similarly calling an established residential neighborhood a "transitional" area or a "growth" area can also be misleading if the objective is to maintain the neighborhood "as is".

Future Land Use Categories

For the purpose of the Future Land Use Plan, three basic growth categories are used based upon the standards set out by the state and the desired level of future development in the City (see Figure 2.1 following page):

1. GROWTH AREAS – Areas where the City wants growth and development to occur. The anticipation is that most residential and non-redevelopment over the next ten years will occur in these growth areas.

2. LIMITED GROWTH AREAS – Areas that have limited development potential or that have vacant or under-utilized land where the City desires a limited amount of growth and development over the next ten years.

3. NON-GROWTH AREAS – Areas that are either unsuitable for development or in which the City desires to see little growth and development over the next ten years.

Future Land Use Types

The three categories of growth, limited growth, and non-growth specify where the City wants to accommodate growth and development and where it wants to discourage or prohibit it. The Comprehensive Plan is intended to be a guide upon which zoning ordinances are based and is not intended to serve as a regulatory document. A comprehensive rezoning should be completed after adoption of the Comprehensive Plan to match the suggestions in this plan with flexibility for future changes.

Type A: Development Areas – Areas with a significant amount of vacant or underutilized land that are capable of supporting new residential or nonresidential development in accordance with the City's land use objectives. New development within these areas is generally encouraged.

Type B: Transition/Reuse/Redevelopment Areas – Developed areas where the City's policy is to encourage the type of use and/or pattern of development to change over time. New development, redevelopment, or the reuse of existing land and buildings that moves the area toward the desired future use is encouraged. Some transition areas designated in the Future Land Use Plan identify the desired future use of the area, but the City's zoning may not be changed until a future point in time when development is appropriate – in a sense these are

"planned future transition areas". The City's use of the term transition area differs from the way this term is used by the state in the Growth Management Law.

Type C: Protection/Reserve Areas – Largely undeveloped areas that should remain undeveloped for at least the next ten years. These areas include land with significant development constraints that should not be developed, as well as land that is not appropriate for development at this time, but that may be designated for development in the future.

Figure 2.2 on the following page shows the types of land use areas organized by the three growth categories.

Residential Densities

The Future Land Use Plan sets out the recommended pattern and intensity of development in various areas of the City. The Future Land Use Plan establishes the desired maximum intensity or density of residential development in the various land use designations.

The following table sets out the various categories of density used in the Future Land Use Plan. The maximum allowed density is expressed in the number of housing units per acre based on the gross development density. (An acre is 43,560 square feet – the playing surface of a football field is about 1.3 acres). For each density category, a maximum suggested density is provided to allow some flexibility in the establishment of the revised zoning regulations. This is not to imply that the revised zoning should strive to meet the maximum density.

Residential Density Categories	
Category	**Maximum Density**
Traditional Neighborhood	16 units per acre
Suburban	8 units per acre
Residential	2 units per acre
Rural	1 unit per 3 acres + additional dwelling unit

Future Land Use Designations

The following sections outline the various land use designations used in the Future Land Use Plan. The designations are organized by growth category and by the type of area. The description of each designation includes a series of land use districts that define the general pattern of development. Each district includes an ***objective*** for the general pattern and type of development that is desired together with the general types of uses (***allowed uses***) that are appropriate in the designation and an outline of the ***development standards*** including the density/intensity of development. The location of these various land use districts are shown on the accompanying Future Land Use Plan Map (see Figure 2.3 on the following page).

In addition to the Future Land Use Map, four detail maps (Figures 2.4, 2.5, 2.6 , and 2.7) show the future land use designations for specific portions of the community, including Downtown, New Auburn, Minot Avenue, and Center Street.

FUTURE LAND USE PLAN VISION STATEMENT:

As a model of carefully managed growth, Auburn seeks to **grow outward from the historic cores within our city** and be known for its **strong, vibrant neighborhoods**. The city is committed to making careful, effective, and **efficient use of land and corresponding services, while strengthening the character of our neighborhoods**, ensuring that resources exist to maintain and enhance the quality of life for current and future residents. Auburn's continued commitment to **strong community connections,** embracing opportunity, and mindful growth should be **balanced with natural resource conservation** and woven into the city's unique identity.

1. GROWTH AREAS –

Type A: Development Areas

Designation: Residential

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3 and 2.7). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should

be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

SUBURBAN DEVELOPMENT DISTRICT (SD)

Objective – Allow for the development of a limited range of residential and community uses at a density of up to 6-8 units per acre in areas that are served or can be served by public/community sewerage and/or public/community water (see Figure 2.3). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Suburban Development District generally follows the boundaries of the Multifamily Suburban and Suburban Residential Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Suburban Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Recreational Uses of Land
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 8 units per acre with no minimum road frontage required, shared driveways are encouraged. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-20 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Designation: Nonresidential and Mixed Use

FORM-BASED CODE DEVELOPMENT DISTRICT (FBCD)

Objective – Stabilize and promote continued investment in the City's high-density neighborhoods which include a mix of housing types including multi-unit buildings to assure that they remain safe, attractive areas in which residents want to live (see Figures 2.3 and 2.4). To this end, the district should allow property owners to upgrade their properties, and for infill development and redevelopment/reuse to occur, as long as it is compatible with the character of the neighborhood.

Allowed Use – The Form-Based Code Development District generally follows the boundaries of the Form-Based Code (Transects 4.1, 4.2, 5.1, 5.2 and 6), in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Form-Based Code Development District:

- Low and High Density Residential Dwelling Units
- Home Occupations
- Civic Uses
- Office/Service Type Uses
- Retail Type Uses

Development Standards – The reuse/reconfiguration of existing buildings for residential purposes should be allowed without consideration of density/lot size requirements, provided that

the building will be renovated, be compatible with the neighborhood, and will meet the City's requirements for residential units, including green space and providing the amount of parking appropriate for the proposed use. The other development standards should be established to reflect the existing pattern of development in these neighborhoods. Any parking requirements imposed should allow for flexibility in meeting the need for parking including the use of municipal parking, shared parking, and similar arrangements.

COMMERCIAL DEVELOPMENT DISTRICT (GBD)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic (see Figures 2.3 and 2.5) the District should allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed in the General Business Development District:

- Low and High Residential Density Uses
- Retail uses including large-scale uses (>100,000 square feet)
- Personal and business services
- Business and professional offices
- Medical facilities and clinics
- Restaurants
- Hotel, motels, inns, and bed & breakfast establishments
- Low and High-Density Residential Uses
- Community services and government uses
- Research, light manufacturing, assembly, and wholesale uses
- Truck terminals and distribution uses
- Contractors and similar activities
- Motor vehicle and equipment sales
- Motor vehicle service and repair
- Recreational and entertainment uses and facilities

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

INDUSTRIAL DEVELOPMENT DISTRICT (ID)

Objective – Accommodate the development and expansion of a wide range of nonresidential industrial-type uses to create employment opportunities and commerce (see Figure 2.3). The land within the district should be viewed as a limited resource that should be carefully managed so that it is not used for activities that can occur in other areas of the City.

Allowed Uses – The Industrial Development District generally follows the boundaries of the Industrial District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed in the Industrial Development District:

- Industrial uses including manufacturing, assembly, and research and development facilities
- Distribution and storage uses including wholesale sales, warehousing, and truck terminals/distribution facilities
- Transportation facilities including the airport and related uses and transportation terminals and multi-modal facilities
- Office uses
- Building material and lumber yards
- Vehicle and equipment repair facilities
- Hotels and motels
- Community services and governmental uses
- Agricultural uses

Residential uses should not be allowed in this district. Retail and service uses should be limited to activities that primarily support the other uses within the district such as service stations, convenience stores, and restaurants. Other retail and service activities should not be allowed in this district.

Development Standards – The development standards within the Industrial Development District should:

- Establish performance standards to assure that uses are good neighbors and do not create adverse impacts on surrounding properties or the community at-large
- Establish buffers where the district abuts residential districts to minimize the impacts on those residential properties
- Establish site design and landscaping standards to assure that development functions well and is visually attractive when viewed from public streets or other public areas

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (WASHINGTON STREET) (CFBCGD-W)

Objective –.
To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-W should enhance development and design standards to allow this area to evolve into an attractive gateway into the City. Specifically, a portion of this designation pushes a transformation of Washington Street South/Routes 4 and 100 to a two-lane high-speed connector while Washington Street North Routes 4 and 100 becomes a local connector with future Form Based Code Commercial Development. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – W generally follows the boundaries of the existing General Business areas along Washington Street, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The Commercial Form-Based Code Gateway Development District – W should allow for medium-scale, multi

dwelling development with up to three stories (plus attic space), with multiple commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for new development, encouraging shallow or no front setbacks, screen parking areas from Washington Street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Washington Street.This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

COMMERCIAL FORM-BASED CODE GATEWAY DEVELOPMENT DISTRICT (UNION/CENTER/TURNER) (CFBCGD-UCT)

Objective –.
To allow for mixed use development while protecting and providing transitions to the abutting residential neighborhoods. Within this area attractive road fronts should be established that enhance a complete street city gateway and provide the essence of a welcoming, vibrant community, with neighborhood and community retail, business and service establishments that are oriented to and built close to the street. The zone is appropriate in areas where a more compact urban development pattern exists or where a neighborhood-compatible commercial district is established which exhibits a pedestrian scale and character. The CFBCGD-UCT should enhance development and design standards to allow this area to evolve into an attractive gateway into the City. Specifically, a portion of this designation pushes a transformation of the Union/Center/Turner Street neighborhood from a commercial zoning district to a future Form-Based Code Commercial Development District, matching the adjacent Form-Based Code designations. Residential uses should be allowed at a density of up to 16 units per acre provided they are accessory to commercial uses.

Allowed Uses – The Commercial Form-Based Code Gateway Development District – UCT generally follows the boundaries of the existing General Business areas along the Union/Center/Turner Street corridor, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The Commercial Form-Based Code Gateway Development District – UCT should allow for medium-scale, multi dwelling development with up to four stories (plus attic space), with multiple commercial uses allowed that mirror existing form based code within the city to include, but not be limited to general offices, government uses, lab and research facilities, low impact industrial, studios, parks and open spaces, veterinary services, medical and dental clinics, general retail, restaurants, schools, churches, convenience stores with gas stations, specialty shops, auto service stations, care facilities, lodging, clinics and hotels.

Development Standards – New development, redevelopment and substantial expansions should be subject to an enhanced set of development and design standards to assure that this area evolves as an attractive gateway. These standards should maintain appropriate setbacks for

new development, encouraging shallow or no front setbacks, screen parking areas from the street and provide incentives for the use of shared driveways and curb-cuts. Provisions for on street parking should be encouraged. All uses in this district should be located, sited and landscaped in such as manner as to preserve open space, control vehicle access and traffic and provide adequate buffering and natural screening from Union/Center/Turner Streets. This designation is intended for areas near, in, along neighborhood corridors and for transit-supportive densities.

VILLAGE OVERLAY AREAS (VOA)

Objective – In residential Future Land Use Districts, small commercial operations should be allowed provided they do not exceed the average lot size of the neighborhood (or more than two times the average size of the home). As part of the comprehensive rezoning, the City should identify village overlay areas where these small commercial operations are most appropriate, such as corner lots. Considerations for appropriate areas should include: frontage on a major arterial as defined in the Comprehensive Plan, access to any required parking be located on the arterial frontage, buffering of any parking areas from lot lines and signage limitations.

PLANNED UNIT DEVELOPMENTS (PUD)

Objective – As part of the comprehensive rezoning process, the City should continue to provide for a greater variety and choice of design for urban and suburban living, to gain efficiencies, to coordinate design development efforts, to consider and make available open space, to utilize new technologies for land development and to offer a flexible alternative to conventional land control regulations by allowing for Planned Unit Developments for residential, commercial and industrial projects. The type and amount of development permitted should continue to be based on the Planning Board's evaluation of the development proposal and the purposes set forth in the 2021 Auburn Code of Ordinances. The City should continue with the four types of Planned Unit Developments: Residential, Recreation/Residential, Commercial and Industrial and apply them to the newly proposed Future Land Use Designations after a comprehensive rezoning has taken place.

2. LIMITED GROWTH AREAS –

Type A: Development Areas

Designation: Residential

RESIDENTIAL DEVELOPMENT DISTRICT (LDD)

Objective – Allow for the development of residential and community uses at a density of up to 2 units per acre in areas on the fringe of the built-up area where public services can be reasonably provided, but where public sewerage is not available and is not likely to be available in the foreseeable future (see Figure 2.3). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads. Shared driveways should be encouraged by providing a 20% reduction in lot size and road frontage.

Allowed Uses – The Residential Development District generally follows the boundaries of the Rural Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Low-Density Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses

- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – Residential uses should be allowed at a density of up to 2 units per acre. Lot frontage requirements on existing collector and other through roads should be around 100 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 20 feet. Side and rear setbacks should be 15-30 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

RURAL DEVELOPMENT DISTRICT (RD)

Objective – Allow for the development of residential uses (primarily detached single family homes) at a density of up to 1 unit per 3 acres with one additional dwelling unit permitted for each home in areas where public/community sewerage and water are not available and not likely to be available in the foreseeable future. New development should be designed to minimize the number of vehicular access points to existing collector and other through roads. Shared driveways should be encouraged by providing for a 50-foot driveway frontage bonus. Setbacks within lots should be maintained.

Allowed Uses – The Rural Development district generally follows the boundaries of the Low-Density Country Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix _). The following general types of uses should be allowed within the Rural Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses
- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – The residential density in the Rural District should be one unit per 3 acres. Lot frontage requirements should be around 200 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 25 feet. Side and rear setbacks should be 15-25 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

3. NON-GROWTH AREAS –

Type C: Protection/Reserve Areas

Designation: Conservation/Open Space

CONSERVATION/OPEN SPACE DISTRICT (COS)

Objective – Formally recognize those parcels that are used for cemeteries, water quality protection or are protected for conservation or open space purposes (see Figure 2.3). The land included within this district will change over time as additional land is conserved. The intent of this designation is to establish a policy that these types of properties/uses should be recognized as important resources and that any significant change in use should be considered a policy decision.

Allowed Uses – The allowed uses within the Conservation/Open Space District should be limited to low intensity recreational facilities and natural resource uses including forestry and food production.

Development Standards – The development standards should provide flexibility for the appropriate use of the land, while protecting its natural resource and ecological values.

AGRICULTURE DISTRICT (AG)

Objective – Preserve and enhance the agricultural heritage of Auburn and protect the City's natural resources and scenic open space while maintaining the economic value of the land (see Figure 2.3). The district is characterized by a rural, very low-density development pattern that limits sprawl and minimizes the City's service costs. The district maintains the current rural development pattern allowing for a broad range of agriculture and natural resource-related uses, while restricting residential development. Recreational development is encouraged both as a means of protecting open space, and as a means to provide reasonable public access to outdoor destinations such as Lake Auburn and the Androscoggin River. The Agriculture District is intended to serve as a land reserve, protecting valued community open space and rural landscapes, while maintaining the potential for appropriate future development.

Allowed Uses – The Agriculture District should continue to include the uses allowed in the existing AG/RP zoning district. In addition, a broader range of rural uses should be allowed. Agriculturally related businesses including retail and service activities and natural resource industries should be permitted. The reuse of existing agricultural buildings should be allowed for low intensity non-agriculture related uses.

Residential uses should continue to be limited to accessory residential development as part of a commercial agriculture or natural resource use, not just traditional farms. The criteria for determining when an accessory residential use is permitted should be based on updated standards that consider the economic realities of today's commercial agricultural activities, including outside sources of income and part-time and small-scale commercial operations. Residential development may also be part of a commercial recreational use as part of a planned development in which the recreational open space is permanently preserved.

Development Standards – All new development, redevelopment, and expanded uses in the Agriculture District should be required to meet "best management practices" for stormwater management and environmental protection to ensure adequate protection of natural resources. All development activities in the Agricultural District should be subject to low impact development (LID) standards such as limiting impervious surfaces, minimizing lot disturbances, creating natural buffers, and capturing and treating runoff through filtration measures.

The City should continue to encourage a very low density development pattern as a means of protecting natural resources and preserving the rural character. The basic residential density standard for the current AG/RP zoning district should be maintained. The standards for the development of accessory residential units should provide greater flexibility in the siting of those units. In an effort to place accessory residential development in areas where it will have the least impact on natural resource and/or the agricultural value of the land, the standards should allow for a waiver or elimination of road frontage requirements and access from a private driveway.

Residential development that is proposed as part of a master planned commercial recreational development should be limited to the same density standard (one unit per 10 acres) as other accessory residential uses, unless necessary for economic reasons to increase the density as a

project incentive. A recreational master plan should be required outlining the scope, scale, and location of residential units and ensuring a cluster development pattern in which the majority of the land is retained as recreation/open space. A conservation easement, or other legally binding preservation measure, should be required to permanently conserve the recreation/open space areas.

As part of the 2021 Comprehensive Plan update, it is understood that agriculture and forestry **may not** be profitable in some areas of the City and the existing Agriculture and Resource Protection Zoning, in some cases, eliminates the economic use of private land. The City should create a mechanism in which private landowners can petition the City for a change of use based on the individual circumstances of their lot(s).

The City also recognizes differences between Agriculture and Resource Protection, and as such it is recommended that the districts be treated separately within the zoning ordinance (Agricultural District and Conservation/Open Space District). This committee acknowledges that in practice there is overlap between Agriculture and Resource Protection, and that the conversation about how to distinguish the two should include a broad group of voices including residents, relevant City Committees (Conservation Commission, Agriculture Committee, etc) and experts who can support the City in meeting its goal to untangle these activities.

	40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory Structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any sidewalk or travel way. Street trees are encouraged.
Foundation Planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 65, 3-15-2021)

Sec. 60.549. Traditional Downtown Neighborhood T-4.2.

Illustrative View of T-4.2 (Spring Street)

Intent and Purpose:
Traditional Downtown Neighborhood (T-4.2)

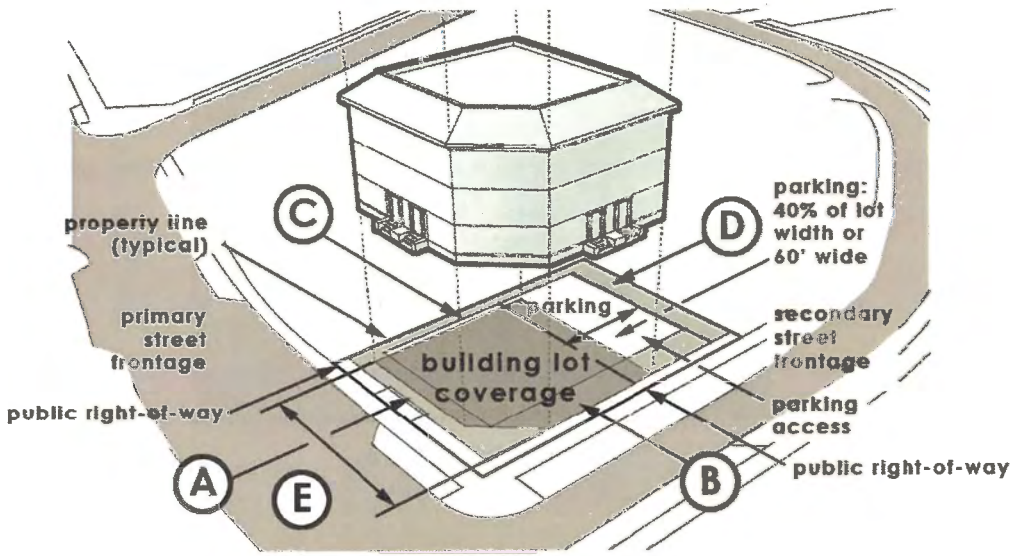
The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

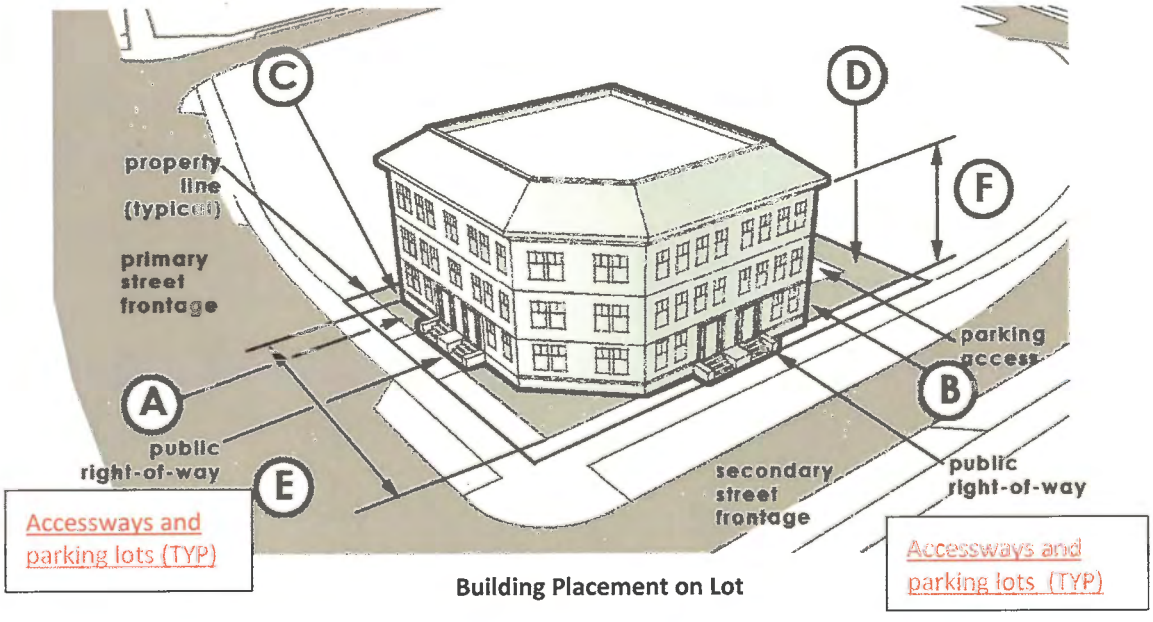
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 04-03072016, 5-16-2016)

Sec. 60-549.1. Building placement and configuration T-4.2.



Elevated Building Placement

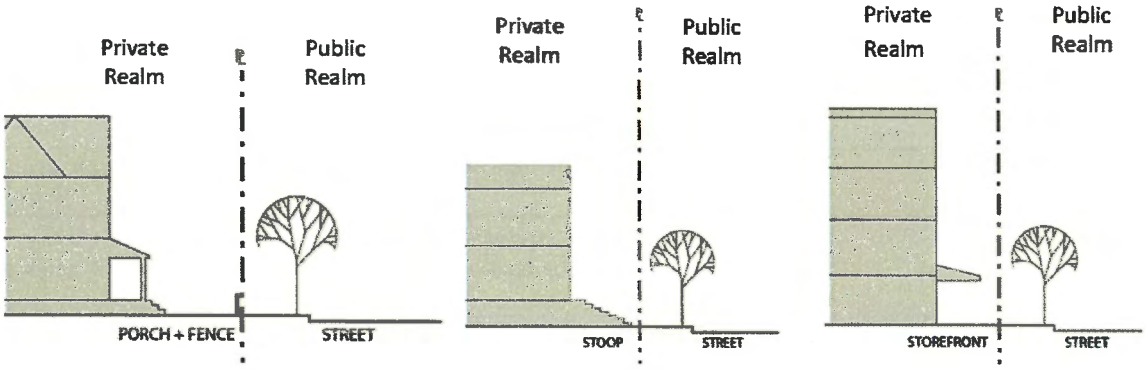


Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front Setback, Principal:	5 ft. Min/, 15 ft. Max	(A)
(Corner Lot) Front Setback, Secondary:	5 ft. Min., 15 ft. Max.	(B)
Side Setback:	5 ft. Min.	(C)
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	70% Max.	
Useable Open Space:	10% Min.	
Frontage Build-Out:	60% Min (along Front Setback, Primary)	
Lot Width:	24 ft. Min, 120 ft. Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 110 ft. Max.	(E)
Building Height Minimum:	1 Story Min.	(F)
Building Height Maximum:	3 Story Max.	(F) (excluding attic story

(Ord. No. 04-03072016, 5-16-2016)

Sec. 60.549.2. Building frontages T-4.2.



Common or Porch YardStoop Yard FrontageStorefront Type

BUILDING FRONTAGE TYPES:	Common Yard; Porch Yard, Stoop and Storefront
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground Story Building Frontage Facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper Story Building Frontage Facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.

Ground Story Finished Floor Elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage Facade Wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 66, 3-15-2021)

Sec. 60-549.3. External elements T-4.2.

Front Yard Fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed
Front Yard Fence/Wall Opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building Projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & Stoop Encroachments:	Porches & Stoops may encroach upon the minimum front setback line by the following distances: Front Setback, Principal Frontage 5 ft. maximum. Front Setback, Secondary Frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory Structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation Planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

Sec. 60-553. Intent.

The conservation/open space district is reserved for natural resource and compatible open space uses such as agriculture and forestry, low-intensity recreation, facilities that provide water access and similar low impact uses. Uses that involve significant development or impervious surfaces should not be allowed in this district. Uses such as utility lines and roads may be located within the district if there is no practical alternative.

(Ord. No. 30-06212021, 7-19-2021)

ORDINANCE 11-03212022

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council amend the boundary be adjusted from Urban Residential and Multi-Family Suburban to Traditional Neighborhood Development District; T-4.2 the total amendment includes 1,687.41 acres shown on the map as Exhibit C attached, and amended text of Traditional Downtown Neighborhood T-4.2, Sec. 60-554 found in Exhibit B attached.

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: March 28, 2022

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood District Areas; T-4.2B

Information: The comprehensive plan update adopted on December 6, 2021 identified zoning map and text amendments needed to implement the goals of the plan updates. The area under discussion was recommended as follows: *Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).*

The Planning Board and Council considered an approach to this that staff has recommended be voted down in favor of a new approach to create a new zoning district that better fits the area and incorporates a map and text component as the Council voted to do on 3/21/2022. A draft of the text and map are attached.

Staff Recommended Action: Staff suggests council discuss the proposed changes and vote to send the revised text of the T-4.2B district and Map on Exhibit C to Planning Board for public hearing and recommendation to Council.

Previous Meetings and History: January 3rd Council Discussion Initiation, March 21,2022 Council First Reading and February 8th and March 8, 2022 Planning Board.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Sec. 60.549. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B (Spring Street)

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood

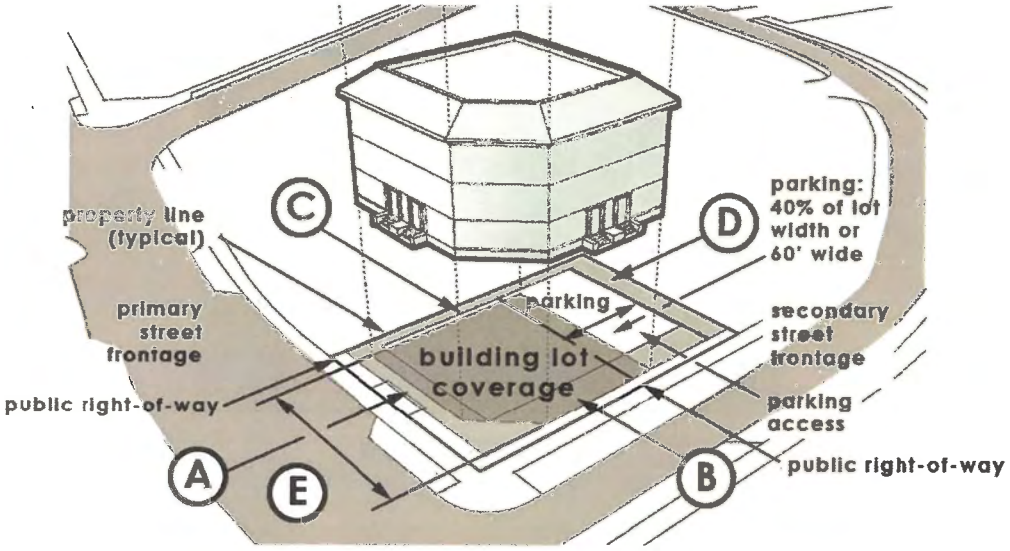
sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

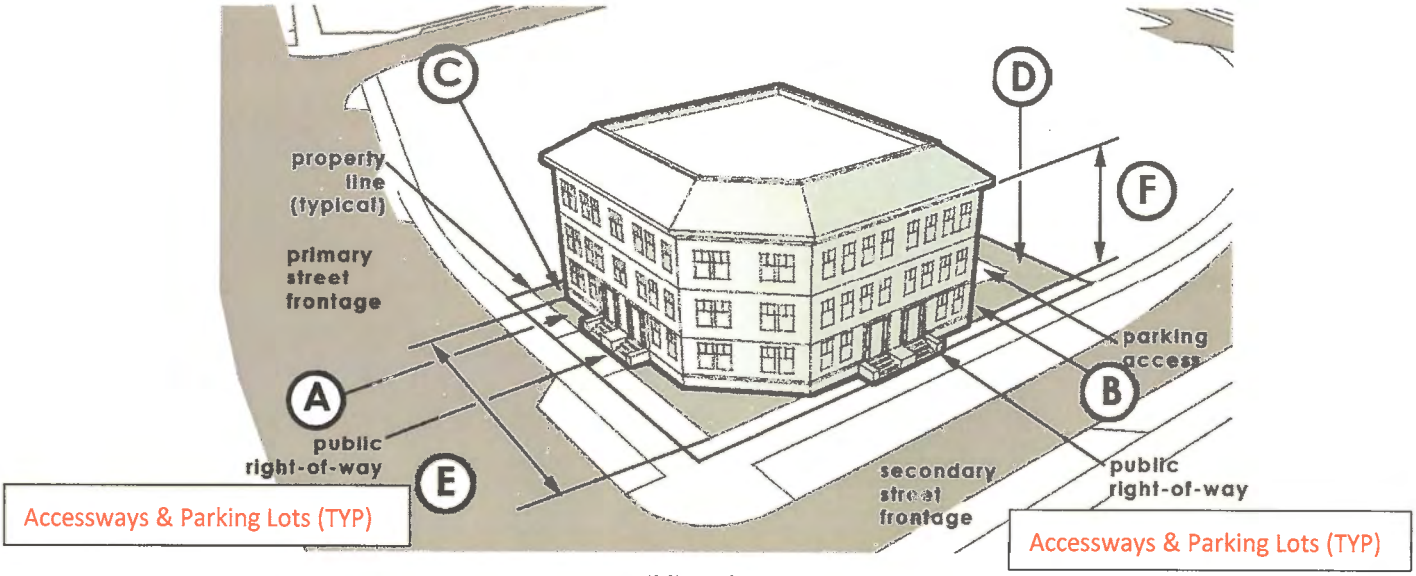
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 04-03072016, 5-16-2016)

Sec. 60-549.1. Building placement and configuration T-4.2B.



Elevated Building Placement

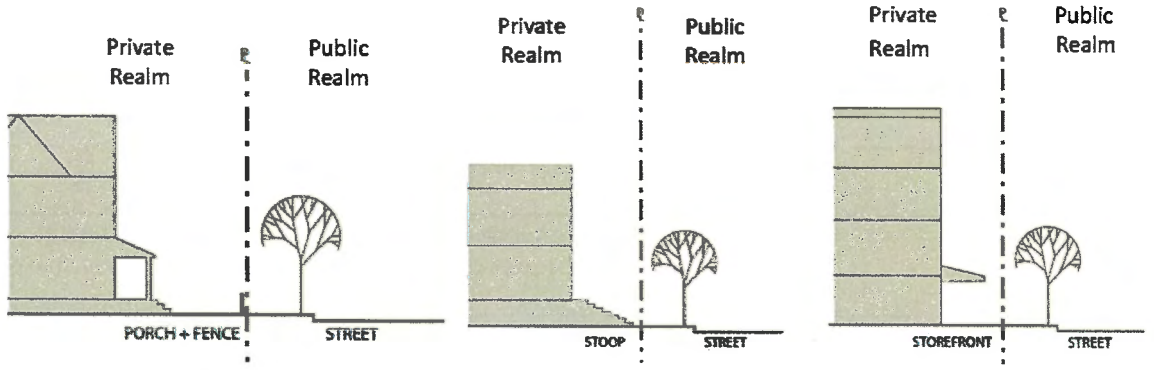


Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front Setback, Principal:	5 ft. Min/, 15 ft. Max	(A)
(Corner Lot) Front Setback, Secondary:	5 ft. Min., 15 ft. Max.	(B)
Side Setback:	5 ft. Min.	(C)
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	70% Max.	
Useable Open Space:	10% Min.	
Frontage Build-Out:	60% Min (along Front Setback, Primary)	
Lot Width:	24 ft. Min, 120 ft. Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 110 ft. Max.	(E)
Building Height Minimum:	1 Story Min.	(F)
Building Height Maximum:	3 Story Max.	(F) (excluding attic story

(Ord. No. 04-03072016, 5-16-2016)

Sec. 60.549.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common Yard; Porch Yard, Stoop and Storefront
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground Story Building Frontage Facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper Story Building Frontage Facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.

Ground Story Finished Floor Elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage Facade Wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 66, 3-15-2021)

Sec. 60-549.3. External elements T-4.2B.

Front Yard Fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed
Front Yard Fence/Wall Opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building Projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & Stoop Encroachments:	Porches & Stoops may encroach upon the minimum front setback line by the following distances: Front Setback, Principal Frontage 5 ft. maximum. Front Setback, Secondary Frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory Structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation Planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

Sec. 60-553. Intent.

The conservation/open space district is reserved for natural resource and compatible open space uses such as agriculture and forestry, low-intensity recreation, facilities that provide water access and similar low impact uses. Uses that involve significant development or impervious surfaces should not be allowed in this district. Uses such as utility lines and roads may be located within the district if there is no practical alternative.

(Ord. No. 30-06212021, 7-19-2021)

Subject: Lake Grove Park ARPA Allocation

Information: The City Council authorized $150,000 of ARPA funds towards the re-opening of the municipal beach at Lake Grove Park. The Department has been investigating a number of paths towards making this happen. The Department has received a proposal from Woodard and Curran to develop an action plan for re-opening the beach area. The Department has also spoken to a number of vendors and a water resources expert with regards to the addition of aerators for water quality improvements. No vendor nor the expert will guarantee any improvement in water quality.

City Budgetary Impacts: None.

Staff Recommended Action: To move forward with the development of an action plan.

Previous Meetings and History: N/A

City Manager Comments:

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 4, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana N. Staples, At Large
Phillip L. Crowell, Jr., City Manager

Mayor Levesque called the meeting to order at 7:02 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 40-03212022*
Appointing David Griswold to the Sustainability and Natural Resource Management Board with a term expiration of April 1, 2025.

2. Order 41-03212022*
Appointing Ralph Harder to the Sustainability and Natural Resource Management Board with a term expiration of April 1, 2024.

3. Order 42-03212022*
Appointing William Sylvester to the Sustainability and Natural Resource Management Board with a term expiration of April 1, 2024.

4. Order 43-03212022*
Appointing Jane Costlow to the Sustainability and Natural Resource Management Board with a term expiration of April 1, 2023.

5. Order 44-03212022*
Re-appointing Karen Scammon as the City Assessor with a term expiration of January 31, 2023.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage of the five consent items.

Passage 7-0.

II. Minutes – March 7, 2022 Regular Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the March 7, 2022 Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Sports Facilities Management Study – Marc Gosselin, Jeremy Gatcomb, & Suzy Fisher (Sports Facilities Company)
- Council Communications (about and to the community)

Mayor Levesque announced that he has called a Special Meeting for Monday, March 28, 2022 at 7:00 pm. There is no School Committee meeting on Wednesday and the School Department is still working on their FY23 budget.

IV. Open Session

Stephen Beal, 575 Johnson Road, commented on the watershed boundaries and wanted to know if there was going to be a public hearing or comment period before the Council vote on the watershed item.

Pam Rousseau, 745 West Auburn Road, commented on the Taylor Pond watershed in Comprehensive plan which proposes 16 units per acre adding that she is very concerned about that. She stated that it is an endangered pond and she wants to be sure everyone is aware of the changing of the zoning of the Watershed of Taylor pond.

V. Unfinished Business

1. Ordinance 08-03072022

Amending the Zoning Map and Adjusting Article XII, Division 4, Sec. 60-951 Lake Auburn Watershed Overlay District Map. Second reading.

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public comment

Neria Douglass, former Councilor, stated that she would like to see this item go to referendum adding that this amendment will have long term ramifications for the lake and residents of Auburn and Lewiston.

Stephen Beal, referenced an email that he sent to the Planning and Permitting Department, noting that questions have come up and Council should have the questions and answers before them before taking a second vote on this. He stated that he went out to the site to look around the area. Ward 1 Councilor Richard Whiting joined him. He commented on the terrain and water run-off in that area.

Sam Boss, chair of Conservation Working Group said the working group met and discussed the environmental impact of potential development in this area which raised a lot of questions which were included in this evening's agenda packet. After receiving responses from staff, a few additional questions came up. Should the City Owned landfill area be excluded from this proposed re-zoning amendment and how will surface water at the site be managed.

Peggy Volock, 395 North Auburn Road, stated that the zoning changes that are proposed are based on old studies that were done adding that when the 1993 study was done, part of conclusion was that correlations between the bedrock fracture analysis and the geophysical survey illustrate that there is potential for contamination of Lake Auburn via the bedrock aquifer and any change of topography will change the waterflow and any

development there would change the topography. She said she is really concerned and asked, why do we have to cut this one piece out and why does it have to be rezoned for industry when there is a mall down the street that is half empty. She closed by adding that Lake Auburn is currently listed on the Maine DEP Chapter 502 list of lakes most at risk for development and urged the Council to please keep that in mind.

Pam Rousseau, 745 West Auburn Road spoke about granite fractures and how water runs through them and said if they choose to change the zoning they are going to be responsible for the destruction of Lake Auburn.

Peter Dingley, Summer Street said the survey that was done on the gravel pit was done a while ago and a lot of excavation has been done since. He said he would like council to reconsider this and think about at least having a new survey done.

Motion was made by Councilor Staples and seconded by Councilor Gerry to postpone this item to a date uncertain until after another hydrogeology study and study of the materials dumped in the landfill can be done.

Motion failed 3-4 (Councilors Hawes, Milks, Morin, and Walker opposed).

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by excluding the landfills (159 Gracelawn Road) plus 100 foot around them from the proposed amendment.

Passage 7-0.

Passage of Ordinance 08-03072022 as amended, 4-3 (Councilors Staples, Gerry, and Whiting opposed). A roll call vote was taken.

2. **Ordinance 09-03072022**
Approving an amendment to the Zoning Map (Washington Street/Minot Avenue area) from General Business and Industrial to Formed Based Code Downtown Traditional Center T-5.1. Second reading.

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

3. **Ordinance 10-03072022**
Amending Chapter 60, Article XII, Division 2, Section 60-1070, Submission requirements (phosphorus standards). Second reading.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Public comment

Pam Rousseau, 745 West Auburn Road said she hopes this means they will not increase density in these areas.

Mona Murphy, 539 Lake Street said she feels that the proposed amendment has a major effect on the citizens who haven't been well informed.

Motion was made by Councilor Whiting and seconded by Councilor Staples to amend to change the 575 square footage requirement by adding language that any new construction over 200 feet that requires submission of application or permit.

Passage 7-0.

Passage of Ordinance, 10-03072022 7-0. A roll call vote was taken.

4. **Order 34-03072022**
Authorizing loans of up to $1,298,488 through the State School Revolving Renovation Fund. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

VI. New Business

1. **Ordinance 11-03212022**
Zoning Amendment Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas (T-4.2). First Reading.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend that all bed and breakfast establishments allowed only with special exception from the Planning Board.

Passage 7-0.

Councilor Gerry asked that the Councilors get a printed copy of all of the upcoming proposed amendments on this issue. The Mayor called for a five minute recess to do so.

Motion was made by Councilor Hawes and seconded by Councilor Milks to amend to state that residential facilities be allowed only with special exception.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that lodging houses be allowed only with special exceptions.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that personal services are allowed only with special exceptions.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that age restricted retail will not be allowed.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that restaurants with over 30 seats will not be allowed.

Passage 6-1 (Councilor Walker opposed).

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that government offices with special exceptions.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state for parking requirements to read one space per dwelling unit unless there is municipal or private off-street parking within 500 feet of the property.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to state that under commercial use to read any business and retail use limited to 1500 square foot footprint and must have an upper floor residential unit, with no drive through access.

Passage 7-0.

Motion was made by Councilor Hawes and seconded by Councilor Staples to amend to include a provision capping density at no more than 14 dwelling units per NET acres unless special exemption is granted by the Planning Board.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Staples and seconded by Whiting for the second reading to include an addendum to lists any parcel ID that is owned in whole or in part any individual, LLC, or holding company by any elected official in the City of Auburn as well as the Planning Board member.

Failed 3-4 (Councilors Hawes, Milks, Morin, and Walker opposed).

Public comment

Ryan Smith, 11 Harris Street, stated that he is directly affected by this proposed zoning amendment and noted that although he is mostly in favor of it, he thinks it is reckless on the multi-family aspect. He said we should not be telling people that 12-unit apartment complexes were not financially feasible. He also commented on a proposed 60-unit apartment complex going before the Planning Board at 555 Court Street and expressed concern that it appears we are accelerating the second reading and rushing this through.

Denis Bergeron, 23 Dexter Avenue stated that he can't comment on the merits of this proposal yet. He questioned why we're calling it the first reading when there is nothing in writing. He recommends this goes back to the Planning Board.

John Cleveland, 183 Davis Avenue, said what was proposed from the Planning Board was to adopt T.4.2, is this an amendment to that? He noted that the public deserves to know when there is a massive zoning change being proposed. He referenced the State statute on zoning amendments.

Brian Cullen, 166 Everett Road, said he hasn't studied the proposed zoning change, and asked why we're proposing this change and how will these changes address the local housing issues and what is the benefit to the residents of Auburn.

Jessica Klimek, Amberly Way/Briarcliff Knoll area resident spoke in support of the amendment and would like to provide additional housing options for the community. She asked that the City Council stand true to the commitments outlined in the comprehensive plan and vote to support this amendment.

Steve Hart, 106 Lake Street, expressed some concerns with traffic if this were to pass. He feels that this should go back to the Planning Board or go to referendum for people to vote on.

Sharon Philbrook Bergeron, 23 Dexter Avenue would like the height of the buildings amended.

Bob Hayes, 172 Allen Avenue, commented on the amendments and asked if we were changing T.4.2 or creating a new code. He added that we must provide public notice on any proposed changes. He stated that we should look at height/dimensional regulations.

Elizabeth Dunn, 530 Court Street, across from 555 Court Street which is where the proposed complex is being proposed. She expressed concerns traffic if this were to pass. She noted that she would like to see the character of the neighborhood preserved.

Pam Rousseau, 745 West Auburn Road asked if mother-in-law units would be allowed? Does what the City wants to do trump a deed if it is written in a deed what people can or cannot do?

Judy Tyler, 200 Davis Avenue, noted that the Comprehensive Plan was being worked on during covid and much of the public were staying home, without ZOOM and were unable to give input. She also expressed traffic concerns and would like to see more public input.

Nancy Greene, 134 Granite Street, said neighbors are concerned about density, traffic, adding that those things need to be addressed. She stated that multi-family dwellings of 14 units is not appropriate for this area. She asked the Council to respect the characteristic of the neighborhoods.

Motion was made by Councilor Staples and seconded by Councilor Gerry to send this back to the planning board.

Failed 3-4 (Councilors Hawes, Milks, Morin and Walker opposed).

Passage of Ordinance 11-03212022 as amended, 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

2. **Ordinance 12-03212022**
Amending the Code of Ordinance, Sec. 2-255. Appointment; term (of the Assessor). Public hearing and first reading.

Motion was made by Councilor Walker and seconded by Councilor Gerry for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

3. **Order 45-03212022**
Allocating $50,000 of ARPA (American Rescue Plan Act) funds to provide assistance to non-profit organizations who offer outdoor recreational activities and have been negatively impacted by the Covid-19 pandemic.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – Maureen O'Brien, 42 Winter Street asked what these non-profit organizations and what they intend to use the money for. She added that there should be more information before it is voted on.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Councilor Walker – The United New Auburn Association will meet next Tuesday, March 29th at Rolly's Diner at 6:00 pm. City Manager Phil Crowell will be the guest speaker.

Councilor Staples – The Auburn Public Library Board of Trustees will be meeting tomorrow morning at 8:00 am.

City Manager Crowell – The Auburn Police Department will be donating 10 bullet proof vests that have been processed out of use to Ukraine. He stated that beginning Wednesday, the Tax Office will temporarily modify their schedule due to staffing challenges. They will be open from 8:30 am–11:30 am and 1:00 pm-4:00 pm, the public will be notified. He provided an update on the opioid settlement, and ARPA projects with the County.

Jill Eastman, Finance Director – February 2022 Final Monthly Report

Motion was made by Councilor Walker and seconded by Councilor Milks accept and place on file the February 2022 final monthly finance report.

Passage 7-0.

IX. Executive Session – Economic development, pursuant to 1 MRSA Sec. 405(6)(C)

Motion was made by Councilor Gerry and seconded by Councilor Morin. Passage 7-0, time 10:21 pm.

Council was declared out of executive session at 10:27 pm.

X. Adjournment – The meeting adjourned at 10:27 pm.

Author: Sue Clements-Dallaire, City Clerk

Subject: Proposed ordinance amendment, Sec. 2-255 Appointment term (of the Assessor).

Information: Title 30-A §2552 states the following:

§2552. Designation of officials
1. Assessors and assistant assessors. The following provisions apply to assessors and their assistants.
A. Assessors and their assistants shall be chosen annually on the 2nd Monday of March to serve for one year and until others are chosen and qualified in their places, unless the city charter provides otherwise.

B. In addition to the assistant assessors chosen under a city charter, the municipal officers may authorize the assessors to appoint any necessary assistants to serve during the municipal year in which they are appointed

C. Notwithstanding the provisions of any city charter to the contrary, the city council, by ordinance, may provide for a single assessor whose powers and duties are the same as for towns, and who is appointed for a term not exceeding 5 years.

Section 2-255 of our Code of Ordinances states:

Sec. 2-255. - Appointment; term.

The tax assessor shall be appointed by the city council on the recommendation of the city manager. The tax assessor shall be appointed for a two-year term.

Staff is proposing an amendment changing the term from two years to up to five years to better align with State law.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage.

Previous Meetings and History: Public hearing and passage of first reading on 3/21/2022.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

RESOLVE 02-04042022

IN CITY COUNCIL

APRIL 4, 2022 A resolution of the City Council expressing support of and utilization of Maine's Dual Enrollment Program on the campuses of Central Maine Community College, Bates College, and the University of Southern Maine Lewiston-Auburn.

WHEREAS, the Auburn City Council are dedicated to ensuring all of our Students have the opportunities to be career ready upon graduation from Edward Little High School

WHEREAS, Auburn's businesses are experiencing a shortage of workers properly trained in foundational jobs such as construction, electricians, plumbers, welders, equipment operators, public service and fabricators.

WHEREAS, recently over 190 interested ELHS students participated in a field trip to the LRTC campus to learn more, the program has 60 slots open to our students and more students will be able to participate when the new high school is opened.

WHEREAS, Auburn is fortunate to have Central Maine Community College, Bates College, and the University of Lewiston Auburn in such close proximity to our High School, which both offer diverse course offerings and skilled educators.

WHERAS, the State of Maine has authorized a dual enrollment program that allows all Maine High School Students to attend up to 2, 3 credit classes per semester on site within the University and Community College System at little to no cost.

WHEREAS, credits earned through the duel enrollment program are transferable through the University and Community College system within Maine as well as other post-secondary institutions, thereby significantly offsetting the upfront cost and future debt encumbered by our residents.

WHEREAS, there are currently obstacles that prevent our students from fully utilizing the benefits of dual enrollment such as transportation and current high school schedules.

LET IT BE RESOLVED that the Auburn City Council encourages the Auburn School Committee Chair to create a stakeholder group made up of leaders from the business community, educators, parents, and municipal staff who will assess, evaluate, and take appropriate action to eliminate those obstacles within our control, such as modifying ELHS class schedule, and solving transportation challenges all of which prevent students from fully and seamlessly integrating post-secondary courses with High School curriculum and experience.

BE IT FURTHER RESOLVED, that the need is urgent and any solutions from the stakeholder group being proposed should be considered for the fall of 2022.

Subject: Proposed Charter Amendments – Public hearing and Council vote to submit to Auburn voters

---

Information: The Auburn Charter sec. 2.8 states "the city council shall provide for the review of the city's charter and ordinances in their entirety at least once every 15 years". Council recently completed the review of the City Charter and City Ordinances beginning in October of 2020.

After a review by the City Council, School Committee, and City Attorney, there were five proposed amendments. If Council votes to submit the proposed Charter amendments to the voters of Auburn at the June 14, 2022 Election, if the amendments pass, the Charter Amendments would take effect July 1, 2022.

City Budgetary Impacts: Approximately $2,100 for the cost of printing the ballots.

Staff Recommended Action: Recommend passage

Previous Meetings and History: 10/26/2020, 11/9/2020, 11/30/2020, and 03/21/2022

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: Public notice, proposed amendments.

CITY OF AUBURN
PUBLIC NOTICE
PROPOSED CHARTER AMENDMENTS

Notice is hereby given that the Auburn City Council will hold a public hearing on an Order to submit the following proposed charter amendments to the voters at the June 14, 2022, Election. The public hearing will be held on April 4, 2022 at 7:00 pm or as soon thereafter, in Council Chambers of Auburn Hall located at 60 Court Street, Auburn, Maine.

The purpose of the public hearing is to receive public comments on the proposed charter amendments in accordance to Title 30-A §2104. All interested parties are invited to attend the public hearing and will be given an opportunity to be heard at that time.

Proposed Charter Amendments

Sec. 4.2 Composition and compensation.

The School Committee shall consist of the Mayor, or a City Councilor selected by the Mayor, and seven (7) other members. Five (5) members shall be elected, one (1) from each ward by and from its registered voters. Two (2) members shall be elected at-large by and from the City's registered voters. Members shall hold office for a term of two (2) years or until their successors are elected and qualified except that any candidate whose name does not appear on the printed ballot must receive at least twenty-five (25) valid write-in votes in order to qualify for election to that position. The School Committee may appoint by rule non-voting student representatives to serve with the School Committee. Student members will be secondary students and will serve a one (1) year term.

Sec. 4.7. Voting.

A roll call vote shall be taken on the passage of any order or resolve when requested by any member. Any action by the school committee shall require at least four affirmative votes; however, in the event of a tie the measure fails. ~~Five affirmative votes shall be required to hire or fire the superintendent of schools.~~

Sec. 4.9. Superintendent of schools.

The school committee shall choose a superintendent of schools in accordance with Title 20-A §1051.~~solely on the basis of executive and administrative qualifications~~. The superintendent of schools need not be a resident of the city at the time of appointment but shall be a resident of the city during tenure of office unless otherwise approved by the school committee. The School Committee may discharge the superintendent before the expiration of the contract term in accordance with Title 20-A §1052.

Sec. 6.4. Powers and duties.

The city manager shall be administrative head of the city government and shall be responsible to the city council for the administration of all departments other than the ~~department of education~~ School Department.

Sec. 8.7. Amendments after adoption.

A. *Supplemental appropriations.* If during or before the fiscal year the city manager certifies that there are available for appropriation municipal revenues, including those of the ~~department of education~~ School Department, in excess of those estimated in the budget, the city council by resolve may make supplemental appropriations for the year up to the amount of such excess.

ORDER 49-04042022

City Council Order

IN CITY COUNCIL

ORDER to submit the proposed Charter Amendments to the voters of Auburn at the June 14, 2022 Election.

Whereas, the Auburn City Council held several special meetings to conduct a review of the City Charter section by section in accordance to Sec. 2.8 of Auburn's Charter; and

Whereas, the School Committee presented their recommended changes to the City Council at a special meeting held on November 30, 2020; and

Whereas, proposed changes that were voted on by the City Council during the process only submitted the Proposed Charter Amendments listed below to the City Attorney for legal review, with proposed additions to the City Charter indicated with an underline, and proposed deletions from the City Charter indicated with a ~~strikethrough~~; and

Now, therefore, be it ordered by the Auburn City Council as follows:

The Auburn City Council finds that the Proposed Charter Amendment in Section 4.2 does not affect the composition nor voting authority of the School Committee, but is simply designed to ensure that any student representatives are of sufficient capacity to meaningfully participate in the School Committee's work.

The Auburn City Council finds that the Proposed Charter Amendments in Sections 4.7 and 4.9 merely serve to conform the existing Charter language to Maine statutes governing the hiring and firing of the superintendent of schools.

The Auburn City Council finds that the Proposed Charter Amendments to Sections 6.4 and 8.7 simply promote conformity and consistency in references to the Auburn School Committee throughout the Charter.

Accordingly, the Auburn City Council concludes that the Proposed Charter Amendments will not alter the general plans, schemes, or structure of the existing Charter language, will not result in a profound or fundamental alteration in the essential character or core operations of Auburn's municipal government, and therefore constitute amendments to the Auburn City Charter which are within the purview of the Auburn City Council, as the municipal officers, to propose for consideration by the voters and that they are not revisions requiring the establishment of a Charter Commission.

ORDER 49-04042022

City Council Order

The Auburn City Council therefor orders that the Proposed Charter Amendments be placed on a ballot and submitted to the voters of Auburn at the June 14, 2022 Election and if passed by the voters of Auburn, the Charter Amendments would take effect **July 1, 2022**.

Proposed Charter Amendments

Sec. 4.2 Composition and compensation.

The School Committee shall consist of the Mayor, or a City Councilor selected by the Mayor, and seven (7) other members. Five (5) members shall be elected, one (1) from each ward by and from its registered voters. Two (2) members shall be elected at-large by and from the City's registered voters. Members shall hold office for a term of two (2) years or until their successors are elected and qualified except that any candidate whose name does not appear on the printed ballot must receive at least twenty-five (25) valid write-in votes in order to qualify for election to that position. The School Committee may appoint by rule non-voting student representatives to serve with the School Committee. Student members will be secondary students and will serve a one (1) year term.

Sec. 4.7. Voting.

A roll call vote shall be taken on the passage of any order or resolve when requested by any member. Any action by the school committee shall require at least four affirmative votes; however, in the event of a tie the measure fails. ~~Five affirmative votes shall be required to hire or fire the superintendent of schools.~~

Sec. 4.9. Superintendent of schools.

The school committee shall choose a superintendent of schools in accordance with Title 20-A §1051.~~solely on the basis of executive and administrative qualifications~~. The superintendent of schools need not be a resident of the city at the time of appointment but shall be a resident of the city during tenure of office unless otherwise approved by the school committee. The School Committee may discharge the superintendent before the expiration of the contract term in accordance with Title 20-A §1052.

Sec. 6.4. Powers and duties.

The city manager shall be administrative head of the city government and shall be responsible to the city council for the administration of all departments other than the ~~department of education~~ School Department.

City Council Order

Sec. 8.7. Amendments after adoption.

A. *Supplemental appropriations.* If during or before the fiscal year the city manager certifies that there are available for appropriation municipal revenues, including those of the ~~department of education~~ School Department, in excess of those estimated in the budget, the city council by resolve may make supplemental appropriations for the year up to the amount of such excess.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 4, 2022 **Order:** 50-04042022

Author: Chief Robert Chase

Subject: Fire Truck

Information:
A Quint Fire Truck is a fire apparatus that serves the dual purpose of an Engine and a Ladder truck. The quint service delivery model was adopted in Auburn to combine Fire Engine and Ladder truck functions into one apparatus. When the department began EMS transport, the Quint model allowed the department to staff ambulances and begin EMS transport services without increasing staffing levels.

The current Quint Truck is a 2012, E-One Quint with 95,000 miles and 11,300 engine hours on it.
The planned and expected lifespan for the truck is 12 years.

In the FY22 capital plan, (which was developed in late 2020) the budgetary estimate for a replacement truck was $1,300,000 with an anticipated delivery timeframe of 270 days.

During the development of the FY23 budget, we learned that the cost of a replacement truck would increase to approximately $1,650,000 (as of January 2022) with an estimated lead time of 18 months. This long lead time and rapidly increasing costs have driven us to ask for funding sooner than initially planned.

We have been working for several months to write a detailed specification for the replacement truck. Through this process, we were notified of yet another price increase from the manufacturer, of 7%-9% effective May 2022.

Purchasing the fire truck before May 1, 2022, will save the City of Auburn 8% = $130,000. The purchase of a fire truck is now an allowable expenditure under ARPA's final rule – *Provision of Government Services 6.1.*

City Budgetary Impacts: Funding the project as an allowable ARPA expenditure would mean the equipment would not need to be purchased through the City budget or capital bonding.

Staff Recommended Action: Vote to allocate $1,650,000. in ARPA (American Rescue Plan Act) funds to purchase a fire truck.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Subject: PAL Center

Information: In 2011, Police recognized that upwards of 25% of the total calls for service were happening in the same ½ mile area of the City of Auburn's most impoverished area of the city. The area was rife with vandalism and families had no sense of belonging. Police recognized that the "Broken Window Theory" applied to this neighborhood- don't fix it and it will get worse.

After much consideration as to what could be done to mitigate the crimes against youth and crimes committed by youth under the age of 20, the City of Auburn provided the current building located at 24 Chestnut Street to the Police Activities League (PAL) - a 501c3 that has a Board of Directors who oversee the operations. After renovations were completed in 2013 – by volunteers and through fundraising, the PAL Center opened and began providing after-school programming. Since the opening, the center has grown to provide mentored after-school and summer programming to upwards of 100 children daily. The current building has far exceeded its capacity (43 people) to safely offer programming due to lack of space. During the Covid-19 pandemic, the center had to close its doors because of the limited space.

There has been an effort over the past year to identify current and future space needs for PAL programming. Woodard and Curran have graciously joined forces by meeting with our team and providing the city with cost estimates and architectural renderings. It is the goal of the organization to build a new center in the next two years. This project would begin a revitalization in an area of Auburn that has the highest child poverty rate, the highest violent crime, and the highest child victimization. It is the goal of the PAL Board of Directors to partner with the City of Auburn, private donors, government, and other funding sources to transition the PAL Center into a true Community Center.

Estimated cost of the project:	$8,608,524.00
Potential Future Site Improvements:	$1,164,000.00

This project aligns with ARPA (American Rescue Plan Act) focus area – 2 / 2.34 Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted).

City Budgetary Impacts: None

Staff Recommended Action: Vote to allocate $3,000,000. in ARPA (American Rescue Plan Act) funds to the Auburn PAL (Police Activities League) 501c3 for the construction of a new PAL Center.

Previous Meetings and History: Workshop presentation December 20, 2021.

Chapter 34 - PARKS, RECREATION, FACILITIES AND SPECIAL EVENTS ~~CULTURAL AFFAIRS~~[1]

Footnotes:

--- (**1**) ---

State Law reference— Municipal parks, trees and playgrounds generally, 30-A M.R.S.A. § 3252 et seq.; designation of safe zones in areas frequented by minors, 30-A M.R.S.A. § 3253; public shade trees, 30-A M.R.S.A. § 3281 et seq.; appointment and duties of tree wardens, 30-A M.R.S.A. § 3282; removal of trees, 30-A M.R.S.A. § 3283; destruction or injury to trees prohibited, 30-A M.R.S.A. § 3284.

ARTICLE I. - IN GENERAL

Sec. 34-1. - Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Park means any publicly owned area maintained by the city parks and recreation department for the pursuit and enjoyment of leisure and recreational activities, in addition to any one of the following areas within the boundaries shown on the records at the assessor's office: See Appendix A

Smoking means inhaling, exhaling, burning or carrying any lighted or heated cigar, cigarette, pipe or joint, or any other lighted or heated tobacco or plant product intended for inhalation, including hookahs and marijuana, whether natural or synthetic in any manner or in any form. "Smoking" also includes the use of an electronic smoking device which creates an aerosol or vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this policy. Non-smoking marijuana products including, but not limited to, edibles and dabs are also included in this policy.

Tobacco means all tobacco-derived or containing products, including but not limited to, cigarettes, cigars, little cigars, cigarillos, bidis, kreteks; all smokeless and dissolvable tobacco products, including but not limited to, dip, spit/spit-less, chew, snuff, snus, and nasal tobacco; and any product intended to mimic tobacco, containing tobacco flavoring or delivering nicotine, including but not limited to, electronic nicotine delivery systems, e-cigarettes, e-cigars, e-hookahs, vape pen or any other product name or descriptor. Or the use of any other type of tobacco or nicotine product for the purpose of circumventing the prohibition of tobacco in this policy. This does not include products specifically approved by the US Food and Drug Administration (FDA) for the purpose of cessation or nicotine replacement therapy.

Marijuana means the leaves, stems, flowers and seeds of a marijuana plant, whether growing or not.

~~*Park* means any publicly owned area maintained by the city parks and recreation department for the pursuit and enjoyment of leisure and recreational activities, in addition to any one of the following areas within the boundaries shown on the records at the assessor's office: See Appendix A Middle School Park, Mount Apatite Park, Central Park, Moulton Park, Pulsifer Park, Auburn Municipal Beach, Pettengill Park, Union Street Gully, Raymond Park, Camp Exchange Day Camp, Riverfront Park and Bonney Park, West Pitch Park, Lakeview Park and Cleveland Field, Chestnut Street Park, Garfield Road Park, North River Road Boat Launch, Drummond Street Playground, Lake Street Playground, and Festival Plaza.~~

Secs. 34-2—34-20. - Reserved.

ARTICLE II. - PARKS AND RECREATION DEPARTMENT

Sec. 34-21. - Appointment of Executive Director of Community Partnership and Sport Tourism~~parks and recreation director~~.

The Executive Director of Community Partnership and Sport Tourism shall be appointed by the city manager and shall oversee all community partnerships and support the opportunities for sports tourism in Auburn. ~~The parks and recreation director shall be appointed by the city manager and shall serve as head of the parks and recreation department.~~

Sec. 34-22. - Duties of Executive Director of Community Partnership and Sport Tourism shall be as follows:.~~parks and recreation director~~.

~~The Executive Director of Community Partnership and Sport Tourism parks and recreation director shall have the following duties:~~

(1) ~~Does work~~Works collaboratively with the Recreation Director, Recreation Superintendent and the NSBA Operations Manager ~~involving responsibility for~~ developing and administering a comprehensive program of community cultural, recreational and other leisure time activities.

(2) Performs responsible professional recreation and park duties in the planning, organizing and direction of a citywide park, athletic and recreational area maintenance and~~ park~~ capital improvement program, including Ingersoll Turf Facility ~~Ice Arena~~, Senior Community Center, Hasty Community Center, and Norway Savings Bank Arena;

(3) Prepares budget requests for recreation activities, park development and maintenance, capital equipment, the capital improvement program, the arena enterprise account and the special recreation activities ~~account, and~~account, and prepares grants for recreation programming and park development.

(4) ~~Controls expenditures in order that they will be kept within appropriations.~~

~~(5) Coordinates the parks and recreation program with other public, private and quasi-public groups providing park and recreation opportunities for the community.~~

~~(6) Serves as the ex officio member of the parks and recreation advisory board and advises it on parks and recreation issues.~~

~~(7) Recommends to the city manager program and facilities fees and charges and negotiates contracts leading to the rental of the arena.~~

(8) Ensures that program objectives are met through the selection, assignment and supervision of professional, supervisory and other personnel assigned to the department.

(9) Performs other duties assigned by the city manager.

~~(10) Auburn Public Works Department maintains all playground equipment, playgrounds, athletic fields and cemeteries.~~

Sec. 34-23. Appointment of parks and recreation director.

The parks and recreation director shall be appointed by the city manager, with input from the Executive Director of Community Partnership and Sport Tourism and shall oversee the parks and recreation department.

Sec. 34-24. Duties of the Parks and Recreation Director shall be as follows:

1. Coordinates with the Executive Director to ensure the planning, organizing and direction of a citywide park, athletic and recreational area maintenance and capital improvement program meets the needs of the community.
2. Responsible for the staffing of all positions for programming.
3. Controls expenditures in order that they will be kept within appropriations.
4. Coordinates the parks and recreation program with other public, private and quasi-public groups providing park and recreation opportunities for the community.
5. Serves as the ex officio member of the parks and recreation advisory board and advises it on parks and recreation issues.
6. Coordinates with the Public Works Department to ensure the maintenance is conducted for all playground equipment, playgrounds, athletic fields, and cemeteries.
7. Perform other duties as assigned by the Executive Director.

Secs. 34-~~23~~25—34-47. - Reserved.

ARTICLE III. - RULES AND REGULATIONS

Sec. 34-48. - Establishment of park rules. ~~and fees.~~

The director of the parks and recreation department shall recommend to the city manager and the parks and recreation advisory board and then to the city council rules ~~and fees~~ governing the use of parks and other public lands, which shall be posted on the city's website. An up-to-date copy of such rules shall also be on file in the office of the city clerk.

(Code 1967, § 18-1.6)

~~Sec. 34-49. - Penalty.~~

~~Any person violating any provision of the rules and regulations in this article adopted by the parks and recreation department shall be punished by a fine of not more than $200.00.~~

Sec. 34-4950. - Park season.

In general, all municipal parks are open year round but are maintained for public use only from April May 1 to November 30 annually, with the exception of Mount Apatite Park, which is open and maintained all year.

Sec. 34-501. - Protection of park property.

Except with the permission of an authorized representative of the parks and recreation department, no person in a park shall:

(1) Willfully mark, damage or remove any building, structure, tables, benches, signs or other similar appurtenances or equipment.

(2) Dig up, disfigure or remove any soil or vegetation or make any excavation. This does not apply to the area of Mount Apatite Park known as the mines. Here, digging, sorting through and otherwise disrupting the exposed mineral resources, to a depth of not greater than two feet, for the purpose of amateur gem and mineral collecting will be permitted. Persons engaging in this activity shall use hand tools only.

(3) Construct any building or structure or run any public service utility into or across such park lands.

(4) Throw away or leave trash or refuse except in proper receptacles.

(5) Throw away all pet waste created in proper city maintained wastes receptacles.

Sec. 34-512. - Operation of vehicles.

No person in a park shall:

(1) Operate a motor vehicle except with a valid operator's license.

(2) Operate an unregistered motor vehicle.

(3) Fail to observe all traffic signs.

(4) Drive any vehicle except a bicycle on or in any area except paved park roads or parking areas as may on occasion be specifically designated by the parks and recreation department. This subsection (4) shall not apply to the operation of snowmobiles in Mount Apatite Park during periods when there is an adequate snow cover.

Sec. 34-532. - Recreational activities.

No person in a park shall:

(1) Swim, bathe or wade in the waters of any park except in such places as are specifically designated for swimming and bathing purposes and in compliance with rules and regulations adopted by the parks and recreation department.

(2) Hunt, trap or pursue wildlife.

(3) Discharge firearms.

(4) Set up or erect tents, shacks or other temporary shelters except at such times and under such conditions as are permitted, in writing, by the parks and recreation department.

(5) Build or attempt to build any fires without the written permission of an authorized representative of the parks and recreation department, and without the proper permits from the fire department as may be required.

(6) Skateboard, bicycling, inline skate or roller skate on any ~~-~~paved or unpaved surface, stairways, grass or landscaped areas or within any playing court area, without the ~~written~~ permission of an authorized representative of the parks and recreation department. This subsection (6) shall not apply to the participation in or viewing of skateboarding, inline skating or roller skating on and within ~~a~~the designated skating area at Moulton Park and Riverwalk.~~-~~

(7) ~~Ride a bicycle or roller skates or roller blades on the grass or landscaped areas, on park stairways, or in a reckless manner anywhere within the park. Riding bicycles and using roller skates or roller blades on park stairways in a responsible manner, so as not to endanger other users or interfere with their enjoyment of the park, is permitted.~~

(8) Enter or engage in any activity after dusk and/or before dawn, without the written permission of an authorized representative of the department. Excluding Chestnut Park under the lights up to the hour of 9:00 p. m. This subsection (8) shall not apply to the participation in or viewing of authorized recreation activities in Pettengill Park under the lights up to the hour of 11:00 p.m.

Sec. 34-5~~4~~3. - Alcoholic beverages, Tobacco and illegal drugs.

Auburn is dedicated to providing everyone with a safe and healthy environment at all City recreational area properties. The City of Auburn specifically restricts the use of any tobacco and marijuana products, including, but not limited to cigarettes, cigars, dip, chew, dabs, electronic nicotine delivery devices, Juuls. (see Definitions) All persons using recreational properties must adhere to the following rules:

(a) No person shall have any alcoholic beverages in his/her possession in a park area except~~:~~

~~(1) In connection with a group outing at Camp Exchange Day CampTot Lot in accordance with rules and regulations adopted by the City. parks and recreation department.~~

~~(2) At the Hasty Community Center, Recreational Facilities on occasions where specifically permitted by and in accordance with rules and regulations adopted by the parks and recreation department.~~

~~(3)~~ ~~In~~ in connection with any special event or activity as specifically permitted by and in accordance with rules and regulations adopted by the parks and recreation department ~~and with final approval through the application process and City Council approval.~~ .

(b) No person shall have any illegal drugs or other illegal substances in his/her possession in any park or facility at any time.

(c) No person shall use tobacco or marijuana products in or on city-owned athletic fields, city-owned parks, city-owned playgrounds, city-owned trails, city-owned beaches; including but not limited to Festival Plaza, Auburn Riverwalk, Ingersoll Turf Facility, Norway Savings Bank Arena, Hasty Community Center, Auburn Community Senior Center, Pettengill Park Baseball and Softball Fields, Lakeview Fields, Chestnut Field, PAL Center and Mount Apatite.

~~(b) Tobacco and Marijuana use on all school grounds is prohibited by state law at all times.~~

~~Notifications:~~

(d). The parks and recreation staff or their representatives will have the authority to notify offenders about the policy and have the authority to ask person(s) to leave if uncooperative. Notifications will follow the norms and procedures of other ordinances. The parks and recreation department shall place signs at the beginning and end point of any city trail as well as in such other locations that the parks and recreation department deem necessary to notify the public of this ordinance. ~~There will be a three-month educational period before the ordinance is put into effect.~~

Sec. 34-54~~55~~. - Entering area closed to public.

No person in a park shall enter an area which has been posted as being closed to the public.

Sec. 34-55~~6~~. - Loitering.

No person in a park shall loiter in such a manner as to hinder the free passage of vehicles or pedestrians to any place or building within the park.

Sec. 34-56~~7~~. - Sales activities.

No person shall offer any article or thing for sale in a park without first obtaining written permission from an authorized representative of the parks and recreation department.

Sec. 34-57~~8~~. - Fishing in Gully Brook.

No person over the age of 15 years shall fish in that part of Gully Brook which flows through Pettengill Park.

Sec. 34-58 Enforcement/Penalties:

Person who violate any provision of this article shall be guilty of an infraction, punishable by a fine of $200.00 and said fines shall be recovered for use by the City

(Code 1967, § 27-1.30)

Appendix A

Middle School Park, Mount Apatite Park, Central Park, Moulton Park, Pulsifer Park, Auburn Municipal Beach, Pettengill Park, Gracelawn Softball Fields, Union Street Gully, Raymond Park, Tot Lot, Riverfront Park and Bonney Park, West Pitch Park, Lakeview Park and Cleveland Field, Chestnut Street Park, Garfield Road Park, North River Road Boat Launch, Drummond Street Playground, Lake Street Playground, Norway Savings Bank Arena, Ingersoll Turf Facility, Senior Community Center, PAL Facility and Festival Plaza.

City Council Workshop & Meeting
Agenda
Tuesday, April 19, 2022
Auburn Hall, Council Chambers

5:30 P.M. City Council Workshop

- **A.** School Budget Presentation – Karen Mathieu and Dr. Connie Brown
- **B.** Presentation of the City Manager's Final Budget for FY23 – Phil Crowell
- **C.** Lake Auburn Subsurface Wastewater – Eric Cousens and John Blais
- **D.** Lake Auburn Community Center – Brian Wood

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Milks

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 52-04192022*
Appointing Election Clerks for a two-year term.

2. Order 53-04192022*
Accepting the transfer of $1,132 forfeiture assets in Rem in U.S. Currency to the Auburn Police Department (Unified Criminal Court Docket No. CR-21-1689).

II. Minutes

- March 28, 2022, Special Council Meeting
- April 4, 2022, Regular Council Meeting

III. Communications, Presentations and Recognitions

- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Ordinance 13-04042022
Amending Chapter 34 (tobacco and marijuana use at recreation facilities and fields).
Public hearing and second reading.

VI. New Business

1. Order 54-04192022
Adopting the Fiscal Year 2023-2027 Five-year Capital Improvement Plan (CIP).

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

VIII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report
d. Jill Eastman, Finance Director – March 2022 Final Monthly Report

IX. Executive Session – Legal Consultation, pursuant to 1 M.R.S.A. Sec. 405(6)(E)

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 19, 2022

Author: Susan Clements-Dallaire

Subject: School Budget Presentation

Information: School Committee Chair, Karen Mathieu, Superintendent Cornelia Brown, and Business Manager Mark Conrad will present information about the proposed 2022-23 operating budget.

City Budgetary Impacts: As outlined in the attached documents

---

Staff Recommended Action: To receive and review the information presented by Auburn School Department.

Previous Meetings and History: December 20, 2021 School Budget Discussion FY23, March 21, 2022 Joint CIP presentations (School/City).

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments:

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 19, 2022

Author: Eric Cousens, Director of Planning and Permitting

Subject: Proposed ordinance update to subsurface wastewater systems and agricultural buffers

---

Information:
The current septic standards around lake Auburn require placing the system at least 12 inches below the bottom of the organic horizon in deep, often very well drained soils with at least 36 inches to the limiting factor. These standards require bypassing the best soil for treating effluent and protecting Lake Auburn's water quality. The discussion includes updating Sec 60-952 (c) and (f) (1-5) for agricultural buffer strips and subsurface wastewater systems in Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District.

The Planning Board reviewed this proposal and provided a positive recommendation with three conditions (attached) at the April 12, 2022 meeting. The staff report and power point presentation from that meeting is also attached. The Board voted unanimously to recommend that the Council approve the proposed ordinance change with three considerations to limit housing density, monitor development and water quality changes and ensure proper maintenance of existing and new septic systems.

Procedurally, Staff recommends that Council discuss the recommendations tonight and provide feedback to staff in preparation for a Public Hearing on the item at the May 2, 2022 Council Meeting.

1. That development and water quality data be monitored in partnership with Auburn Water District openly with other stakeholders and take appropriate action if the monitoring process finds the water quality degraded as a result of development.

2. Add a requirement to inspect the septic systems at the point of sale and continuously at five-year intervals also as suggested by the Planning Board. Staff needs to work on the details on this for how it will apply to existing systems but for new systems this could be a condition of approval. Towards this end, staff plans an internship for this summer to catalog and map all known existing systems and add any new systems as they are permitted. This could be the base information for outreach and collecting inspection and maintenance information in the future.

3. That the ordinance change approval "must coincide with the adoption of a zoning change that reduces the housing density in all parts of the watershed to one dwelling unit per three acres as recommended in the comprehensive plan. To accomplish this, Staff suggests Council schedule a resolve for the May 2nd Meeting to forward a zoning and map change proposal to the Planning Board to begin workshopping at their next meeting. The change would involve converting the zoning on properties within the Lake Auburn Watershed, noted in the Comprehensive Plan as Rural Development District, with a density of one unit per acre to a district that has a maximum density of one unit per three acres. This essentially changes all current Rural Residential zoning in the watershed to Low Density Country Residential.

Staff Recommended Action: Review recommendations and provide feedback.

Lake Auburn Watershed Ordinance Updates

Planning, Permitting & Code

auburnmaine.gov

AGENDA

Proposed lake auburn watershed ordinance updates

- Sense of **urgency** (can't wait on protection of public water supply)
- Guiding **team** to adopt and guide ordinance update (identify stakeholders)
- What is the **vision & strategy** (why and how)
- Greater **understanding & buy-in** (technical information)
- **Follow-up** with change and results (year 2, 4, 6)

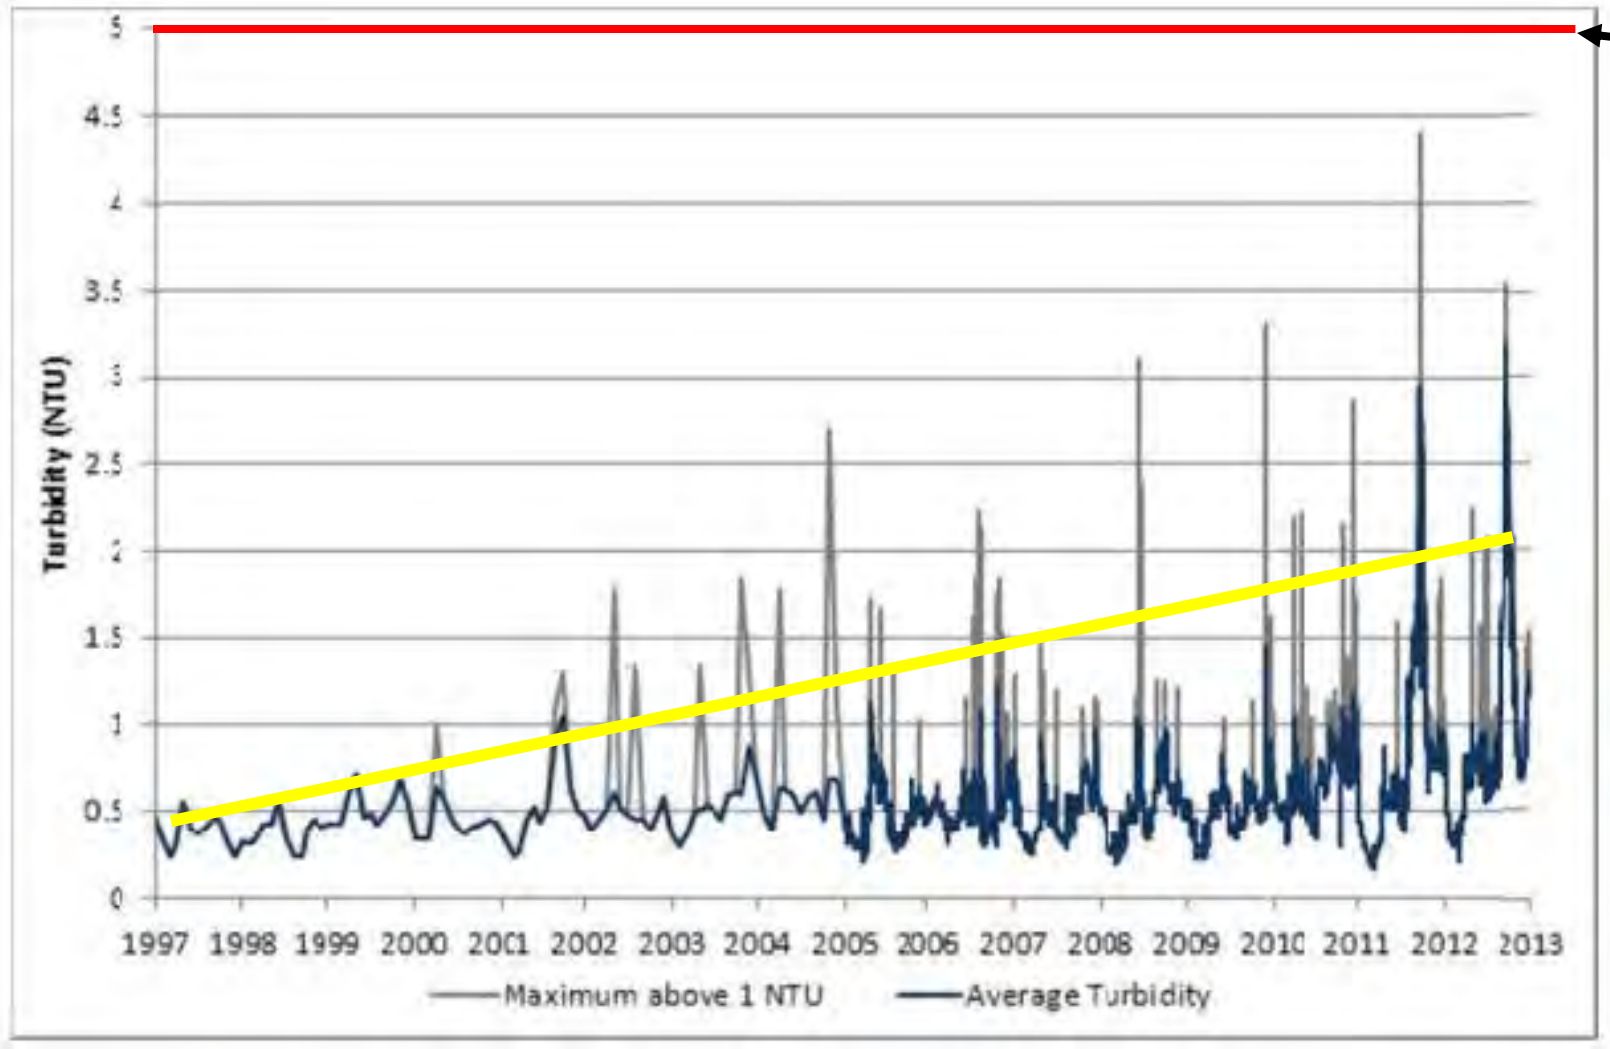
auburnmaine.gov

URGENCY!

- **The source of drinking water** for Auburn & Lewiston
- Lake Auburn high water quality has entitled the Auburn Water District to a **waiver from filtration** from the EPA; one of only 10 water utilities in Maine to do so.
- Development pressures – **LD1884, LD 1312** & lack of housing opportunities.
- Older developed lots without watershed protections (existing septic systems).

auburnmaine.gov

STATE OF LAKE AUBURN



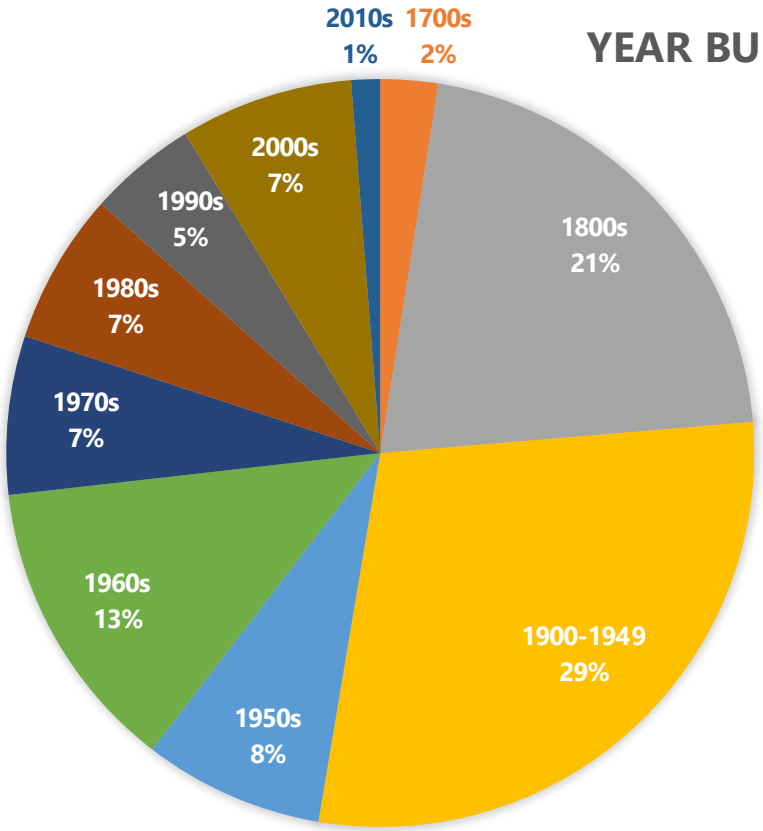
Average and Maximum when above 1 NTU Raw Water Intake Turbidity for 1997 to 2013

A Compliance Perimeters; 5 Nephelometric Turbidity Unit (NTUs). Measurement of suspended solids in the water.

In 2011 and 2012, however, water quality was degraded due to a combination of factors that raised turbidity in the lake to near the limit allowed under the filtration avoidance waiver granted to the Auburn Water District and Lewiston Water Division (AWD/LWD).

auburnmaine.gov

THE WATERSHED NUMBERS



YearBuilt

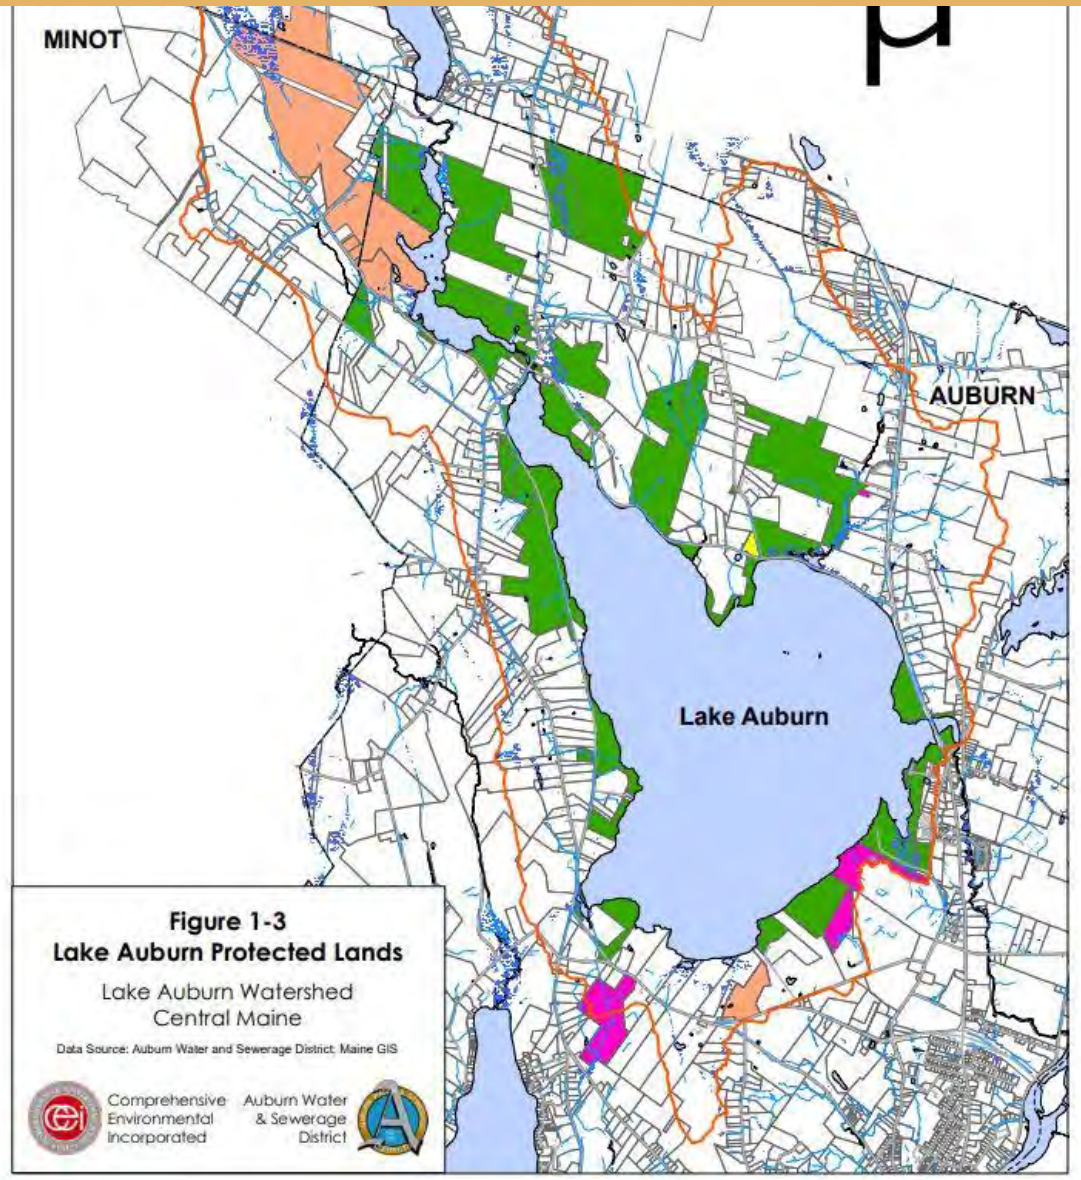
1800s	68
1900-1949	93
1950s	25
1960s	41
1970s	22
1980s	21
1990s	15
2000s	24
2010s	4
Grand	321

275 systems are grandfathered to state subsurface wastewater standards for replacement systems out of a total of 321. (10-144 CMR 241), Maine Subsurface Wastewater Disposal Rules, Section 4, Design Criteria allows down to 9" (limiting factor) outside the shoreland zone.



VISION

Reports

Diagnostic Study of lake Auburn: Phase 1

Diagnostic Study of Lake Auburn: Phase 2

Lake Auburn Watershed Management Plan (2010)

A Regulatory Environmental, and Economic Analysis of Water Supply Protection Auburn, Maine (2021)

Recommendations from 2021Report that align with 2010 Report

1.) Align the septic system regulations contained in the Lake Auburn Watershed Overlay District Ordinance with the best available science and Maine's septic system regulations.

2.) Develop a clear set of standards for farm management that will limit phosphorus loading from commercial agricultural activities.

3.) Incorporate low impact development requirements for new single family residential development.

Other Recommendations:

1.) City is to increased density in other areas of the community.

2.) City to foster a working relationship with stakeholders

3.) City continue to support small watercraft restrictions.

4.) City support implementation of BMPs.

5.) City should support local YCC for summer conservation work.

6.) City recommends larger lot frontage in LDCR

TEAM APPROACH & ORDINANCE IDENTIFICATION

Stakeholders:

City of Auburn and city of Lewiston

(city-wide residents, mayor, council and staff)

Auburn & Lewiston water districts and consultants

Ordinances to be updated and Community Conversations Considerations:

1.) Limit additional suitable natural soil or fill material to 12".

2.) Require a septic inspection at point of sale in the Auburn Watershed Overlay Area.

Sec. 60-952 (c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries is tilled for agricultural purposes, an untilled buffer strip ~~50~~ 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(f)*Private sewage disposal systems.* The following regulations shall be adhered to in the development of private sewage disposal systems in the Lake Auburn Watershed:

(1)~~Subsurface absorption~~ Disposal areas shall not be permitted on sites on which ~~the highest seasonal groundwater table, bedrock, or other impervious layer~~ is less than 12 inches to the limiting factor. ~~36 12 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ In addition, having at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field and (the mineral soil surface) to result in a 36-inch separation between the bottom of the disposal field and the limiting factor.

(2) Within areas containing soils described as deep, ~~loose~~ and sandy or gravelly and which contain more than ~~70 percent~~ sand or gravel outwash or stratified drift as shown on table- 4D (profiles 5 or 6 and some 11) of the State of Maine Subsurface Wastewater Disposal Rules 10-144 Chapter 241 ~~9 3 of the state plumbing code, part II (April 25, 1975)~~, no subsurface absorption area shall be installed closer than ~~300~~ 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream. Where the daily sewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal areas, replacement or new shall meet the section 60-952 (F) (1) design criteria. If replacement systems cannot meet Section 60-952 (F) (1) The local plumbing inspector must evaluate the design with concurrence from the Auburn Water District to impart as much design criteria to the replacement system.

(4) All private sewage disposal systems shall have a curtain drain installed per section H, 10-144 CMR 34 of the Maine Subsurface Wastewater Disposal Rules or diversion ditch, upslope of a disposal field, for its entire length including fill extensions as determined by groundwater conditions by a Licensed Site Evaluator.

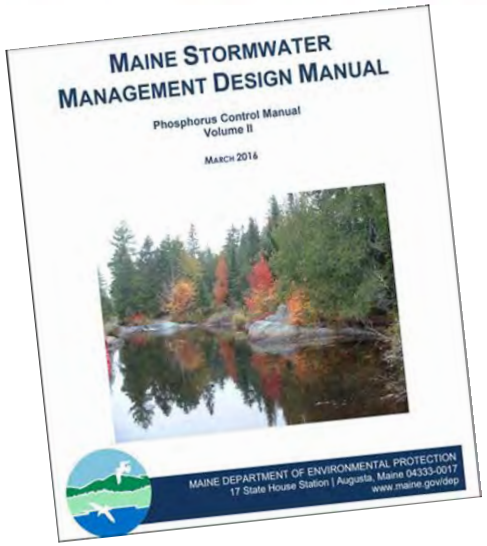
(5) All private sewage disposal systems shall be installed on the lot of the dwelling unit, unless the system can be developed outside the watershed or in under special conditions replacement systems may approve by local plumbing inspector on adjacent lots.

PHOSPHOROUS ORDINANCE SECTION 60-1070 TEXT AMENDMENT

APPROVED by Council on March 21, 2022

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in ~~the manual Phosphorus Control and Lake Watersheds A Technical Guide to Evaluating New Development~~ design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016. ~~(Maine DEP et al., September 1989, with the Simple Review Method revised in May 1990).~~



- **Utilizes most current design manual available for Phosphorus Control**
- **Implements the use of low impact development (LID) techniques**
- **Focus on infiltration techniques best management practices. (BMP)**

Grassy Swales and Vegetated Swales (Bioswales)
Description
Gently sloping vegetated channels/depressions that convey stormwater and remove pollutants by sedimentation and infiltration through the soil. Maintenance requirements include litter removal and landscaping. Vegetated swales with native or non-invasive plants are preferable to grassy swales, which function primarily as a stormwater conveyance system.
Conditions Suited For
Swales require shallow slopes, well-draining soils, and a minimal width of 3 feet. They are typically long channels placed at the side of a road or parking lots. Where soils don't drain well, swales can overflow to an approved discharge location (typically, another BMP).
Additional Information
Maine Stormwater Management Design Manual Vol III Chapter 8.1. Vegetated Swale

Picture credit: Joy Stewart, USEPA.

Raingardens
Description
Landscaped depressions that collect runoff in a vegetated soil medium, where water infiltrates back into the ground, is absorbed by plants, evapotranspirates, or is redirected. Raingardens require some maintenance, such as watering during extreme droughts, and general landscaping. Raingardens should be planted with native or non-invasive plant species
Suitable for
Can be used in small residential installations to capture driveway or roof runoff, or to complement other BMPs in larger developments. Plants must be able to tolerate both dry and wet conditions.

Appendix 2

Current Septic Design Standard

Auburn Zoning Ordinance Section 60-952(f)(1): Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.

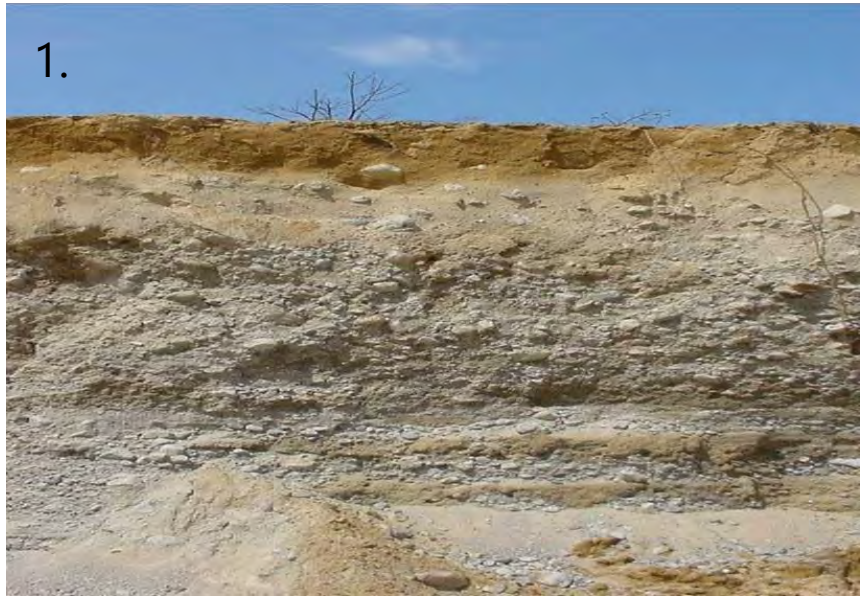
The Implication: Local standards within the Lake Auburn Watershed Overlay District limit development on a significant portion of the watershed by effectively prohibiting the use of innovative and alternative septic system and leach field designs to meet the 'depth to constraining layer' requirement. These innovative and alternative designs are otherwise allowed by the State and can achieve comparable or better nutrient removal than a traditional system and leach field.

Recommended Septic Design Standard

The Recommendation: Maintain a requirement for a minimum depth of 36 inches above the constraining layer (groundwater or bedrock), while allowing the use of State-approved alternative septic system and leach field designs that meet statewide standards.

This can be achieved by referencing the Maine Subsurface Wastewater Treatment Rules (10-144 CMR 241), with the exception that the required depth to the constraining layer would be at least 36 inches (specified by updating Table 4-F, Minimum Permitting Requirements and Minimum Design Requirements). Because the State rules already provide for the use of such alternative designs such as mounded leach fields and drip distribution systems, as well as other proprietary systems, these would be allowed in the Lake Auburn watershed as well.

SOILS



Photos of Maine soils. The first (1.) one shows an outwash soils with a finer textured topsoil layer. The second (2.) one shows a field profile typical in Maine where there is no organic horizon, just a plow layer. The third (3.) shows a spodosol, our most famous soil profile. We used to have a lot of these, but many have been destroyed by farming, forestry (skidding) or development. Note that all three-show little rooting below the upper most layer of soil.

Soil Filter Media: From the bottom-up (lower fill layer) consists of a loamy sand (see spec.) and a minimum of 6 inches of upper fill layer. (see specification)

New Soil Media Specification

To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Workshop & Public Hearing proposed update to agricultural buffers, subsurface wastewater systems and phosphorus control.

Date: April 12, 2022

PROPOSAL: Updating Sec 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in Division 4- Lake Auburn Watershed; and Sec 60-1066 (1) Phosphorous control for any new building or structure.

I. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggests a planning board workshop to help draft the new section under:

II. Sec. 60-952 (c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries is tilled for agricultural purposes, an untilled buffer strip ~~50~~ 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

III. (f)*Private sewage disposal systems.* The following regulations shall be adhered to in the development of private sewage disposal systems in the Lake Auburn Watershed:

IV. (1)~~Subsurface absorption~~ Disposal areas shall not be permitted on sites on which ~~the highest seasonal groundwater table, bedrock, or other impervious layer~~ is less than 12 inches to the limiting factor. ~~36 12 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ In addition, having at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field and (the mineral soil surface) to result in a 36-inch separation between the bottom of the disposal field and the limiting factor.

V. (2) Within areas containing soils described as deep, ~~loose~~ and sandy or gravelly and which contain ~~70 percent~~ sand or gravel outwash or stratified drift as shown on table- 4D (profiles 5 or 6 and some 11) of the State of Maine Subsurface Wastewater Disposal Rules 10-144 Chapter 241 ~~9-3 of the state plumbing code, part II (April 25, 1975)~~, no subsurface absorption area shall be installed closer than ~~300~~ 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream. Where the daily sewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

VI. (3) All disposal areas, replacement or new shall meet the section 60-952 (F) (1) design criteria. If replacement systems cannot meet Section 60-952 (F) (1) The local plumbing inspector must evaluate the design with concurrence from the Auburn Water District to impart as much design criteria to the replacement system.

VII. (4) All private sewage disposal systems shall have a curtain drain installed per section H, 10-144 CMR 34 of the Maine Subsurface Wastewater Disposal Rules or diversion ditch, upslope of a disposal field, for its entire length including fill extensions as determined by groundwater conditions by a Licensed Site Evaluator.

VIII. (5) All private sewage disposal systems shall be installed on the lot of the dwelling unit, unless the system can be developed outside the watershed or in under special conditions replacement systems may approve by local plumbing inspector on adjacent lots.

(6)The city water district shall have the right to inspect any system within the Lake Auburn Watershed District during its construction and operation and may notify the health office, police chief, local plumbing inspector or housing inspector who shall require the abatement of such defects or malfunctions.

(7)The local plumbing inspector shall furnish a copy of all site investigation reports in the Lake Auburn Watershed District to the city water district.

e.**Sec. 60-1066 -Applicability** (1) Any new building or structure with more than 5 200 square feet of ground floor area.

Additional Considerations through Comprehensive Plan/Community Conversations and City Council:

1.) Limit additional suitable natural soil or fill material to 12”
2.) Require a septic inspection at point of sale in the Auburn Watershed Overlay Area.
3.) Map and text amendment to include minimum lot size to 3 acres and 1 dwelling unit per 3 acres.

Staff Recommendation (workshop): Planning board reviews this document and power point presentation and make suggestions to improve the recommendation provided by staff that was generated out of the 2021 Auburn Lake Study-A Regulatory Environmental, and Economic Analysis of Water Supply Protection, Comprehensive Plan, Community Conversations and Council considerations.

Staff Recommendation (public hearing): Allow for continued conversation and clarification about agricultural buffers, subsurface wastewater systems and phosphorus control as it pertains to potential ordinance changes, water quality protection and homeowners. Allow for a public hearing and make favorable recommendation to the council to allow for amended text changes as written above to Sec 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in Division 4- Lake Auburn Watershed; and Sec 60-1066 (1) Phosphorous control for any new building or structure.

Additional Staff Recommendation: Recommend to council to move zoning map and text amendment forward for all residential lots within the Auburn Lake Watershed to Rural Development District as recommended in the 2021 Comprehensive Plan. This map and text amendment to include minimum lot size to 3 acres and 1 dwelling unit per 3 acres.

City of Auburn, Maine

On April 12, 2022 the City of Auburn Planning Board made the following recommendations:

Motion from Mathieu Duvall, Second from Riley Bergeron

"I move that we recommend that city council adopt this ordinance change with the following conditions:

First is that approval of this must coincide with the adoption of the zoning change that reduces the housing density in all parts of the watershed to one dwelling unit per three acres as recommended in the comprehensive plan.

Second, that the city establishes a monitoring of the lake and the watershed with reports on a biannual basis based on a plan developed in collaboration with the Auburn Water District and other stakeholders. If it's discovered that degradation occurs through that monitoring program, that the city enacts a moratorium on the development until it can assess what needs to happen to stabilize conditions within the lake

And third, that we require inspection at the point of sale and on an ongoing five-year basis for all systems within the watershed."

Approved 7-0.

RURAL DEVELOPMENT DISTRICT (RD)

Objective **–** Allow for the development of residential uses (primarily detached single family homes) at a density of up to 1 unit per 3 acres with one additional dwelling unit permitted for each home in areas where public/community sewerage and water are not available and not likely to be available in the foreseeable future. New development should be designed to minimize the number of vehicular access points to existing collector and other through roads. Shared driveways should be encouraged by providing for a 50-foot driveway frontage bonus. Setbacks within lots should be maintained.

Allowed Uses **–** The Rural Development district generally follows the boundaries of the Low-Density Country Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix IV). The following general types of uses should be allowed within the Rural Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses
- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards **–** The residential density in the Rural District should be one unit per 3 acres. Lot frontage requirements should be around 200 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 25 feet. Side and rear setbacks should be 15-25 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

City Council Information Sheet

Council Workshop or Meeting Date: 4/14/2022

Author: Brian Wood, Assistant City Manger

Subject: Acquisition of the Lake Auburn Community Center Property

---

Information:

The City of Auburn was approached by the Lake Auburn Watershed Neighborhood Association to purchase the Lake Auburn Community Center. The purchasing of this parcel would be to ensure current and future generations have access to this public land, tree farm, trails, volleyball courts and other recreational activities. This partnership will also generate educational opportunities for youth, with specific emphasis on environmental sustainability.

The City would also look to partner with other organizations to ensure proper upkeep and maintenance of this this parcel.

City Budgetary Impacts: $100,000.00 for the purchase of the community center

City of Auburn
City Council Information Sheet

Council Meeting Date: April 19, 2022 **Order:** 53-04192022

Author: Jason D. Moen, Chief of Police

Subject: Transfer of Forfeiture Assets – Shawn Estabrook

Information:

In August 2021 Detective Nicholas Gagnon completed a drug investigation and subsequent arrest of Shawn Estabrook. Members of the Auburn Police Department developed information regarding suspected drug trafficking at 163 Broad Street in Auburn

Detective Gagnon and Officer Tyler Ham conducted a bail conditions check at 163 Broad Street on the first floor. They entered the apartment and observed two males sitting at the kitchen table later identified as Shawn Estabrook and Mark Conley. Detective Gagnon observed Estabrook hide something in his left pocket. Estabrook was secured in handcuffs and patted down. Detective Gagnon retrieved the hidden item which turned out to be a baggie containing a large amount of suspected fentanyl (25 grams). On the table in front of Estabrook was a digital scale, a Samsung cell phone and $1,132.00 in suspected drug proceeds. All the items were seized and Estabrook was arrested.

Estabrook was arrested for Aggravated Trafficking of Scheduled "W" Drugs T17-A Sec. 1105-A.1.H. (CLASS A) and one count of Unlawful Possession of Schedule "W" Drugs T17-A SEC. 1107-A.1.B.8 (CLASS C).

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $1,132.00U.S. Currency to the Auburn Police Department. Funds will be used for ongoing K-9 expenses.

Staff Recommended Action: Vote to accept the transfer of $1,132.00.

Previous Meetings and History: None

IN COUNCIL SPECIAL MEETING MARCH 28, 2022 VOL. 36 PAGE 241

Mayor Levesque called the meeting to order at 7:01 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. Presentation - Court Street/City Core Zoning Amendments
Michael Malloy, City Attorney and Eric Cousens, Director Planning and Permitting

II. Unfinished Business

1. **Ordinance 11-03212022**
Zoning Amendment Court Street/City Core of Urban Residential Area; 1,687.41 acres of Urban Residential to Traditional Neighborhood Development District Areas (T-4.2). **Public hearing and second reading.**

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public hearing

Rob Higgins, 36 Fairview Avenue, spoke in opposition of the proposed ordinance and asked that the Council vote to protect the established neighborhoods by leaving as is.

Bob Hayes, 172 Allen Avenue, spoke regarding form-based planning, 4.1 and 4.2 and he read an excerpt from an article that he found on the website on form-based code. He said it is not one size fits all. He stated that he would like to see this go back to the Planning Board adding that we are not allowing our Planning Board truly plan.

Spencer Dunn, 530 Court Street, spoke in opposition and voiced his concerns about the proposed amendment and adding that density, height and overall sizes should scale up gradually, and why wasn't there a new form based code district created.

Virginia Levasseur, 20 great falls plaza #117, she wanted to remind people that 15 or so years ago, people from New Auburn were here fighting about a sludge dump that was to go up on Penley Corner Road, stating that the public was over-ruled, it passed and people were told that the sludge was safe enough to use on their gardens and now we are dealing with forever chemicals and she hopes we don't end up like that with the lake.

Jeffrey Harnden, 34 Vista Drive spoke about the process adding that more time needs to be taken and he urged the council to vote no on this and return this to the Planning Board.

Elizabeth Dunn, 530 Court Street, spoke in opposition of the proposed amendment. She said that the development that is being proposed is five three story, 12 unit buildings and there is nothing like that in this area and in her opinion there shouldn't

be. She added that she is still very concerned about traffic and that we need to rethink this and she hopes the Council will put in the time to do so.

Ryan Smith, 11 Harris Street asked about the third option that was mentioned earlier and where it was noted that "staff" does not recommend that option. He said he would like to know who was "staff" is that made that decision? He said that something that struck him was a former 200-acre parcel that was recently divided into smaller lots by the middle school which he said he found troubling. He asked, how do we want our city to look and what do we want beside our middle school?

Jessie Klemick, Briarcliff Knoll said that she represents two vastly different groups, those struggling to find housing and those relying on the zone map amendment to make improvements on their homes. She said other cities in Maine find ways to create desirable neighborhoods consisting of mixed-use single-family homes, condos, and multi-family buildings, and we can too. She said we need more rental options. She asked that the Council please take her points into consideration when making a decision and asked her fellow residents and neighbors please consider the broader impact before pushing back on this change.

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted on 3/21/2022 that all bed and breakfast establishments allowed only with special exception from the Planning Board.

Passage 5-2 (Councilor Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted on 3/21/2022 that stated that residential facilities be allowed only with special exception.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Morin to rescind the amendment previously adopted on 3/21/2022 that stated that lodging houses be allowed only with special exceptions.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted on 3/21/2022 that stated that personal services are allowed only with special exceptions.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted on 3/21/2022 that stated that age restricted retail will not be allowed.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor rescind the amendment previously adopted on 3/21/2022 stating that restaurants with over 30 seats will not be allowed.

Passage 4-3 (Councilors Gerry, Whiting, and Walker opposed).

Motion was made by Councilor Hawes and seconded by Councilor Morin to rescind the amendment previously adopted on 3/21/2022 stating that parking requirements to read one space per dwelling unit unless there is municipal or private off-street parking within 500 feet of the property.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted on 3/21/2022 stating that government offices with special exceptions.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Morin to rescind the amendment made on 3/21/2022 stating that under commercial use to read any business and retail use limited to 1500 square foot footprint and must have an upper floor residential unit, with no drive through access.

Passage 4-3 (Councilors Gerry, Whiting, and Walker opposed).

Motion was made by Councilor Hawes and seconded by Councilor Milks to rescind the amendment previously adopted at the 3/21/2022 meeting that included a provision capping density at no more than 14 dwelling units per NET acres unless special exemption is granted by the Planning Board.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Passage of Ordinance 11-03212022 5-2 (Councilors Gerry and Whiting opposed).

III. New Business

1. **Order 46-03282022**
   Directing the Planning Board to review the proposed text and map amendments to the Court Street/City Core of Urban Residential Area to Traditional Neighborhood District Areas; review the T-4.2B District text, hold a public hearing and forward a recommendation back to the City Council.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Motion was made by Councilor Walker and seconded by Councilor Hawes to postpone this item 120 days out.

Passage 5-2 (Councilors Gerry and Whiting opposed).

IV. Adjournment

Motion was made by Councilor Walker and seconded by Councilor Milks to adjourn. Unanimously approved, the meeting adjourned at 8:14 pm.

A TRUE COPY

ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

Mayor Levesque called the meeting to order at 7:08 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. **Consent Items** - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 47-04042022***
Appointing Jennifer Edwards as the Local Health Officer for the City of Auburn with a term expiration of 4/4/2025.

2. **Order 48-04042022***
Approving the Annual Reports to the Maine State Housing Authority for Tax Year April 1, 2021 – March 31, 2022 and authorizing the City Manager to sign the annual reports.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage of the two consent items.

Passage 7-0.

II. **Minutes** - March 21, 2022 Regular Council Meeting

Motion was made by Councilor Hawes and seconded by Councilor Walker to approve the minutes of the March 21, 2022 Regular Council meeting.

Passage 7-0.

III. **Communications, Presentations and Recognitions**

- Police Department Swearing in Ceremony
  - Patrol Officers Isaac LaBonte and Timothy Robinson
  - Officer Matthew Johnson promotion to Detective
  - Detective Nicholas Gagnon promotion to Sergeant
- Communication Plan – Liz Allen
- LAWPCA (Lewiston Auburn Water Pollution Authority) Update – Dan Goyette and Travis Peaslee
- Council Communications (about and to the community)

Councilor Staples announced that there will be a meeting of the Sustainability and Natural Resource Board on Thursday at 6pm in Council Chambers.

Councilor Walker thanked City Manager Crowell for speaking at the United New Auburn Association meeting last week.

Councilor Gerry reported that she was contacted by a few Auburn Citizens regarding the proposed Planning Board meeting that is scheduled for next week and could they move the location to a bigger venue. The City Manager explained that the downside would be the audio/video aspect and people being able to view from home if the meeting was moved.

Mayor Levesque reported that the Auburn Exchange Club will be meeting tomorrow at noon at Gippers for their annual scholarship awards ceremony; the Maine RV and Camp Show was held over the past weekend, over 5000 attended, vendors sold out of equipment, and they are talking about next years event; Wednesday, April 6, at noon, he will be attending a ribbon cutting for Dirigo Safety on Main Street; Maine Gladiators youth hockey team 14U won their national tournament; last, he said he was proclaiming today to be "ice out" on Taylor Pond.

IV. Open Session

Maureen O'Brien, 42 Winter Street, commented that when their street was repaved, they put a pink rubber pad on the corners of the curbs, they are now torn up and look terrible and she would like to see that fixed.

V. Unfinished Business

1. Ordinance 12-03212022

Amending the Code of Ordinance, Sec. 2-255. Appointment; term (of the Assessor). Second reading.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

VI. New Business

1. Resolve 02-04042022

Supporting the utilization of Maine's Dual Enrollment Program.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. Public hearing – Proposed Charter Amendments

Mayor Levesque opened the public hearing at 8:08 pm.

No one from the public spoke.

The public hearing closed at 8:08 pm.

3. **Order 49-04042022**
Authorizing the proposed Charter amendments be placed on a referendum ballot and submitted to the voters of Auburn at the June 14, 2022 Election.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Motion was made by Councilor Milks seconded by Councilor Staples to postpone this item to a date no later than September 19th.

Passage 7-0.

4. **Order 50-04042022**
Approving the allocation of ARPA (American Rescue Plan Act) funds to be used to purchase a Quint Fire Truck.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment - No one from the public spoke.

Passage 7-0.

5. **Order 51-04042022**
Approving the allocation of ARPA (American Rescue Plan Act) funds to be used to build a new PAL (Police Activities League) Center.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment:

Maureen O'Brien, 42 Winter Street, stated that she has a lot of concerns about this project. She said it is a lot of money and she doesn't understand why the City would do this without public input. She said one thing the City should do, is create free skating at Hasty.

Brian Gallagher, 42 Winter Street, said that he can see the PAL Center from his back porch and there doesn't seem to be many people that go there. He commented that he never sees anyone use the Futsal Court either. He said he feels that we waste a lot of money on stuff like this. He said one thing we can use is a swimming pool. ELHS has a swimming team, but we don't have a swimming pool.

Passage 7-0.

6. **Ordinance 13-04042022**
Amending Chapter 34 (tobacco and marijuana use at recreation facilities and fields).

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – Corrie Brown, Healthy Androscoggin provided some history regarding these amendments.

Passage 7-0. A roll call vote was taken.

VII. Open Session

VIII. Reports (from sub-committees to Council)

Councilor Walker spoke about the ice arena and public skating time adding that he would like the City Council to think about how we could bring more public skating to the kids.

City Manager Crowell provided an update on the budget schedule.

IX. Executive Sessions – Economic development, pursuant to 1 M.R.S.A. Sec. 405(6) (C).

Motion was made by Councilor Walker and seconded by Councilor Gerry to enter into executive session.

Passage 7-0, time in 8:47 p.m.

Council was declared out of executive session at 8:57 p.m.

X. Adjournment – Motion was made by Councilor Staples and seconded by Councilor Walker to adjourn. Unanimously approved, the meeting adjourned at 8:57 p.m.

Chapter 34 - PARKS, RECREATION, FACILITIES AND SPECIAL EVENTS ~~CULTURAL AFFAIRS~~[1]

Footnotes:

--- (**1**) ---

State Law reference— Municipal parks, trees and playgrounds generally, 30-A M.R.S.A. § 3252 et seq.; designation of safe zones in areas frequented by minors, 30-A M.R.S.A. § 3253; public shade trees, 30-A M.R.S.A. § 3281 et seq.; appointment and duties of tree wardens, 30-A M.R.S.A. § 3282; removal of trees, 30-A M.R.S.A. § 3283; destruction or injury to trees prohibited, 30-A M.R.S.A. § 3284.

ARTICLE I. - IN GENERAL

Sec. 34-1. - Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Park means any publicly owned area maintained by the city parks and recreation department for the pursuit and enjoyment of leisure and recreational activities, in addition to any one of the following areas within the boundaries shown on the records at the assessor's office: See Appendix A

Smoking means inhaling, exhaling, burning or carrying any lighted or heated cigar, cigarette, pipe or joint, or any other lighted or heated tobacco or plant product intended for inhalation, including hookahs and marijuana, whether natural or synthetic in any manner or in any form. "Smoking" also includes the use of an electronic smoking device which creates an aerosol or vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this policy. Non-smoking marijuana products including, but not limited to, edibles and dabs are also included in this policy.

Tobacco means all tobacco-derived or containing products, including but not limited to, cigarettes, cigars, little cigars, cigarillos, bidis, kreteks; all smokeless and dissolvable tobacco products, including but not limited to, dip, spit/spit-less, chew, snuff, snus, and nasal tobacco; and any product intended to mimic tobacco, containing tobacco flavoring or delivering nicotine, including but not limited to, electronic nicotine delivery systems, e-cigarettes, e-cigars, e-hookahs, vape pen or any other product name or descriptor. Or the use of any other type of tobacco or nicotine product for the purpose of circumventing the prohibition of tobacco in this policy. This does not include products specifically approved by the US Food and Drug Administration (FDA) for the purpose of cessation or nicotine replacement therapy.

Marijuana means the leaves, stems, flowers and seeds of a marijuana plant, whether growing or not.

~~*Park* means any publicly owned area maintained by the city parks and recreation department for the pursuit and enjoyment of leisure and recreational activities, in addition to any one of the following areas within the boundaries shown on the records at the assessor's office: See Appendix A Middle School Park, Mount Apatite Park, Central Park, Moulton Park, Pulsifer Park, Auburn Municipal Beach, Pettengill Park, Union Street Gully, Raymond Park, Camp Exchange Day Camp, Riverfront Park and Bonney Park, West Pitch Park, Lakeview Park and Cleveland Field, Chestnut Street Park, Garfield Road Park, North River Road Boat Launch, Drummond Street Playground, Lake Street Playground, and Festival Plaza.~~

Secs. 34-2—34-20. - Reserved.

ARTICLE II. - PARKS AND RECREATION DEPARTMENT

Sec. 34-21. - Appointment of Executive Director of Community Partnership and Sport Tourism~~parks and recreation director~~.

The Executive Director of Community Partnership and Sport Tourism shall be appointed by the city manager and shall oversee all community partnerships and support the opportunities for sports tourism in Auburn. ~~The parks and recreation director shall be appointed by the city manager and shall serve as head of the parks and recreation department.~~

Sec. 34-22. - Duties of Executive Director of Community Partnership and Sport Tourism shall be as follows:.~~parks and recreation director~~.

~~The~~ Executive Director of Community Partnership and Sport Tourism ~~parks and recreation director shall have the following duties:~~

(1) ~~Does work~~Works collaboratively with the Recreation Director, Recreation Superintendent and the NSBA Operations Manager ~~involving responsibility for~~ developing and administering a comprehensive program of community cultural, recreational and other leisure time activities.

(2) Performs responsible professional recreation and park duties in the planning, organizing and direction of a citywide park, athletic and recreational area maintenance and ~~park~~ capital improvement program, including Ingersoll Turf Facility ~~Ice Arena~~, Senior Community Center, Hasty Community Center, and Norway Savings Bank Arena;

(3) Prepares budget requests for recreation activities, park development and maintenance, capital equipment, the capital improvement program, the arena enterprise account and the special recreation activities ~~account, and~~account, and prepares grants for recreation programming and park development.

(4) ~~Controls expenditures in order that they will be kept within appropriations.~~

~~(5) Coordinates the parks and recreation program with other public, private and quasi-public groups providing park and recreation opportunities for the community.~~

~~(6) Serves as the ex officio member of the parks and recreation advisory board and advises it on parks and recreation issues.~~

~~(7) Recommends to the city manager program and facilities fees and charges and negotiates contracts leading to the rental of the arena.~~

(8) Ensures that program objectives are met through the selection, assignment and supervision of professional, supervisory and other personnel assigned to the department.

(9) Performs other duties assigned by the city manager.

~~(10) Auburn Public Works Department maintains all playground equipment, playgrounds, athletic fields and cemeteries.~~

Sec. 34-23. Appointment of parks and recreation director.

The parks and recreation director shall be appointed by the city manager, with input from the Executive Director of Community Partnership and Sport Tourism and shall oversee the parks and recreation department.

Sec. 34-24. Duties of the Parks and Recreation Director shall be as follows:

1. Coordinates with the Executive Director to ensure the planning, organizing and direction of a citywide park, athletic and recreational area maintenance and capital improvement program meets the needs of the community.
2. Responsible for the staffing of all positions for programming.
3. Controls expenditures in order that they will be kept within appropriations.
4. Coordinates the parks and recreation program with other public, private and quasi-public groups providing park and recreation opportunities for the community.
5. Serves as the ex officio member of the parks and recreation advisory board and advises it on parks and recreation issues.
6. Coordinates with the Public Works Department to ensure the maintenance is conducted for all playground equipment, playgrounds, athletic fields, and cemeteries.
7. Perform other duties as assigned by the Executive Director.

Secs. 34-~~23~~25—34-47. - Reserved.

ARTICLE III. - RULES AND REGULATIONS

Sec. 34-48. - Establishment of park rules. ~~and fees.~~

The director of the parks and recreation department shall recommend to the city manager and the parks and recreation advisory board and then to the city council rules ~~and fees~~ governing the use of parks and other public lands, which shall be posted on the city's website. An up-to-date copy of such rules shall also be on file in the office of the city clerk.

(Code 1967, § 18-1.6)

~~Sec. 34-49. - Penalty.~~

~~Any person violating any provision of the rules and regulations in this article adopted by the parks and recreation department shall be punished by a fine of not more than $200.00.~~

Sec. 34-4950. - Park season.

In general, all municipal parks are open year round but are maintained for public use only from April May 1 to November 30 annually, with the exception of Mount Apatite Park, which is open and maintained all year.

Sec. 34-501. - Protection of park property.

Except with the permission of an authorized representative of the parks and recreation department, no person in a park shall:

(1) Willfully mark, damage or remove any building, structure, tables, benches, signs or other similar appurtenances or equipment.

(2) Dig up, disfigure or remove any soil or vegetation or make any excavation. This does not apply to the area of Mount Apatite Park known as the mines. Here, digging, sorting through and otherwise disrupting the exposed mineral resources, to a depth of not greater than two feet, for the purpose of amateur gem and mineral collecting will be permitted. Persons engaging in this activity shall use hand tools only.

(3) Construct any building or structure or run any public service utility into or across such park lands.

(4) Throw away or leave trash or refuse except in proper receptacles.

(5) Throw away all pet waste created in proper city maintained wastes receptacles.

Sec. 34-512. - Operation of vehicles.

No person in a park shall:

(1) Operate a motor vehicle except with a valid operator's license.

(2) Operate an unregistered motor vehicle.

(3) Fail to observe all traffic signs.

(4) Drive any vehicle except a bicycle on or in any area except paved park roads or parking areas as may on occasion be specifically designated by the parks and recreation department. This subsection (4) shall not apply to the operation of snowmobiles in Mount Apatite Park during periods when there is an adequate snow cover.

Sec. 34-532. - Recreational activities.

No person in a park shall:

(1) Swim, bathe or wade in the waters of any park except in such places as are specifically designated for swimming and bathing purposes and in compliance with rules and regulations adopted by the parks and recreation department.

(2) Hunt, trap or pursue wildlife.

(3) Discharge firearms.

(4) Set up or erect tents, shacks or other temporary shelters except at such times and under such conditions as are permitted, in writing, by the parks and recreation department.

(5) Build or attempt to build any fires without the written permission of an authorized representative of the parks and recreation department, and without the proper permits from the fire department as may be required.

(6) Skateboard, bicycling, inline skate or roller skate on any ~~-~~paved or unpaved surface, stairways, grass or landscaped areas or within any playing court area, without the ~~written~~ permission of an authorized representative of the parks and recreation department. This subsection (6) shall not apply to the participation in or viewing of skateboarding, inline skating or roller skating on and within ~~a~~the designated skating area at Moulton Park and Riverwalk.~~-~~

(7) ~~Ride a bicycle or roller skates or roller blades on the grass or landscaped areas, on park stairways, or in a reckless manner anywhere within the park. Riding bicycles and using roller skates or roller blades on park stairways in a responsible manner, so as not to endanger other users or interfere with their enjoyment of the park, is permitted.~~

(8) Enter or engage in any activity after dusk and/or before dawn, without the written permission of an authorized representative of the department. Excluding Chestnut Park under the lights up to the hour of 9:00 p. m. This subsection (8) shall not apply to the participation in or viewing of authorized recreation activities in Pettengill Park under the lights up to the hour of 11:00 p.m.

Sec. 34-5~~4~~3. - Alcoholic beverages, Tobacco and illegal drugs.

Auburn is dedicated to providing everyone with a safe and healthy environment at all City recreational area properties. The City of Auburn specifically restricts the use of any tobacco and marijuana products, including, but not limited to cigarettes, cigars, dip, chew, dabs, electronic nicotine delivery devices, Juuls. (see Definitions) All persons using recreational properties must adhere to the following rules:

(a) No person shall have any alcoholic beverages in his/her possession in a park area except~~:~~

~~(1) In connection with a group outing at Camp Exchange Day CampTot Lot in accordance with rules and regulations adopted by the City. parks and recreation department.~~

~~(2) At the Hasty Community Center, Recreational Facilities on occasions where specifically permitted by and in accordance with rules and regulations adopted by the parks and recreation department.~~

~~(3)~~ ~~In~~ in connection with any special event or activity as specifically permitted by and in accordance with rules and regulations adopted by the parks and recreation department ~~and with final approval through the application process and City Council approval.~~ .

(b) No person shall have any illegal drugs or other illegal substances in his/her possession in any park or facility at any time.

(c) No person shall use tobacco or marijuana products in or on city-owned athletic fields, city-owned parks, city-owned playgrounds, city-owned trails, city-owned beaches; including but not limited to Festival Plaza, Auburn Riverwalk, Ingersoll Turf Facility, Norway Savings Bank Arena, Hasty Community Center, Auburn Community Senior Center, Pettengill Park Baseball and Softball Fields, Lakeview Fields, Chestnut Field, PAL Center and Mount Apatite.

~~(b) Tobacco and Marijuana use on all school grounds is prohibited by state law at all times.~~

~~Notifications:~~

(d). The parks and recreation staff or their representatives will have the authority to notify offenders about the policy and have the authority to ask person(s) to leave if uncooperative. Notifications will follow the norms and procedures of other ordinances. The parks and recreation department shall place signs at the beginning and end point of any city trail as well as in such other locations that the parks and recreation department deem necessary to notify the public of this ordinance. ~~There will be a three-month educational period before the ordinance is put into effect.~~

Sec. 34-54~~55~~. - Entering area closed to public.

No person in a park shall enter an area which has been posted as being closed to the public.

Sec. 34-55~~6~~. - Loitering.

No person in a park shall loiter in such a manner as to hinder the free passage of vehicles or pedestrians to any place or building within the park.

Sec. 34-56~~7~~. - Sales activities.

No person shall offer any article or thing for sale in a park without first obtaining written permission from an authorized representative of the parks and recreation department.

Sec. 34-57~~8~~. - Fishing in Gully Brook.

No person over the age of 15 years shall fish in that part of Gully Brook which flows through Pettengill Park.

Sec. 34-58 Enforcement/Penalties:

Person who violate any provision of this article shall be guilty of an infraction, punishable by a fine of $200.00 and said fines shall be recovered for use by the City

(Code 1967, § 27-1.30)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 19, 2022 **Order:** 54-04192022

Author: Sue Clements-Dallaire, City Clerk

Subject: Adoption of 5 Year Capital Improvement Plan

Information The City Manager and School Superintendent have each presented a 5 Year Capital Improvement Plan. By Charter, the City Council has to adopt the Capital Plan before the end of the current fiscal year.

City Budgetary Impacts: This action is just adopting the plan.

Staff Recommended Action: Adoption of the 5 Year Capital Improvement Plan

---

Previous Meetings and History: Joint workshop with City Council and School Committee on March 21, 2022 and Council workshop on April 4, 2022.

City Manager Comments:
The 5 Year Capital Improvement Plan is a conceptual plan for the City's long-term capital improvement program which is subject to change due to changing circumstances.

I concur with the recommendation. Signature: Phillip Crowell Jr.

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **March 2022 Financial Report**

DATE: **April 20, 2022**

The following is a discussion regarding the significant variances found in the City's March financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its ninth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 75.0% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through March 31st, including the school department were $82,157,648 or 86.08% of the budget. The municipal revenues including property taxes were $58,372,800, or 91.45% of the budget which is more than the same period last year by 0.53%. The accounts listed below are noteworthy.

A. The current year tax revenue is at 94.62%, the second payment was due March 15th. We are currently $300,565 higher than this time last year.

B. Excise tax for the month of March is at 75.61%. This is an decrease of $290,177 compared to FY 21.

C. State Revenue Sharing at the end of March is 122.22% or $1,119,0892 more than in FY 21.

City of Auburn, Maine
Finance Department
www.auburnmaine.gov | 60 Court Street
Auburn, Maine 04210
207.333.6601

Expenditures

City expenditures through March 2022 were $37,297,410 or 79.18% of the budget. This is a 1.72% increase for the same period last year. Noteworthy variances are:

A. Fiscal Services are higher than last year due to the higher debt service payments than last year.

B. Administration, Community Services, Public Safety and Public Works are higher than last year.

Investments

This section contains an investment schedule as of March 31st. Currently the City's funds are earning an average interest rate of 0.11%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for March 31, 2022

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of March 31, 2022.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities, and net assets and shows a comparison to the previous month, in this case, February 28, 2022.

Current Assets:
As of the end of March 2022 the total current assets of Norway Savings Bank Arena were ($1,249,597). These consisted of cash and cash equivalents of $275,058, accounts receivable of $10,219, and an interfund payable of $1,534,874.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of March 31, 2022 was $195,258.

Liabilities:
Norway Arena had accounts payable of $2,840 as of March 31, 2022.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through March 2022 are $695,506. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

The operating expenses for Norway Arena through March 2022 were $516,835. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

At the end of March 2022, there was an operating gain of $178,671.

As of March 31, 2022, Norway Arena has an increase in net assets of $178,671.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY22 is $80,734 more than in FY21 and expenditures in FY22 are $19,161 less than last year in March.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: April 19, 2022

Subject: Executive Session

Information: Legal consultation, pursuant to 1 M.R.S.A. Section 405(6) (E).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Mayor Levesque called the meeting to order at 7:02 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 52-04192022*
Appointing Election Clerks for a two-year term.

2. Order 53-04192022*
Accepting the transfer of $1,132 forfeiture assets in Rem in U.S. Currency to the Auburn Police Department (Unified Criminal Court Docket No. CR-21-1689).

Motion was made by Councilor Staples and seconded by Councilor Walker for passage of the two consent items.

Passage 7-0.

I. Minutes

March 28, 2022, Special Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Whiting to approve the minutes of the March 28, 2022, Special Council Meeting.

Passage 7-0.

April 4, 2022, Regular Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Milks to approve the minutes of the April 4, 2022, Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Lake Auburn Community Center – Brian Wood
- Council Communications (about and to the community)

Councilor Staples announced that the Auburn Public Library Board will be meeting next Tuesday at 4:30 pm.

Councilor Walker announced that there will be a tour at the Waste to Energy plant in Auburn on April 22nd, adding that they are also going to be holding a clean-up day at

10:00 am on April 23rd. He announced that the United New Auburn Association will be meeting on Tuesday, April 26th at 6:00 pm, Denis D'Auteuil, Public Works Director will be the guest speaker; Thursday the 28th the Neighborhood Watch group will be meeting at 6:00pm at the Sixth Street Congregational Church, guest speakers are Jennifer Morin Edwards and Jeff Tardif.

Councilor Gerry asked Councilor Walker about the bean supper that is going to be held at the Sixth Street Congregational Church. The supper is scheduled for April 30th at 4:30 pm.

Mayor Levesque stated that An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions (LD2003) has passed both the House and the Senate. He encouraged everyone to read this bill. It should go into effect in July of next year.

City Manager Crowell followed up on the mayor's comments regarding LD2003 stating that staff is looking into it, and he expects this will be presented at a future workshop once the details are worked out.

IV. Open Session

Maureen O'Brien, 42 Winter Street, stated that she sent an email to her City Councilor on April 6th asking him to call her because there wasn't a phone number available. She stated that she expects to have representation from her City Councilor within a few days and a contact phone number to reach them.

Evan Cyr, 435 West Auburn Road, Chair of Lake Auburn Watershed Protection Commission read a letter that he has been asked to read regarding its position on any proposed changes to the overlay district that would result in increased development.

Fred Carpentier, 142 Broad Street said he recommends instead of a fancy sewer/septic system that we install sanitary sewer that would become part of a feeder that the city already has.

A man spoke (he did not provide his name or address) said he has walked the trails on the West Auburn Road and had a good time there adding that there was a significant marijuana grow operation out there. He thanked the City Manager for providing him with a copy of the plan for the proposed PAL Center. He stated that if we have 160 properties in the Lake Auburn Watershed area, and it cost $20,000 for that new system, maybe the City should pay for that or start a bank to fund it.

Amy Dietrich, 74 Terrace Road spoke in favor of the plan to purchase the Lake Auburn Community Center with ARPA funds.

Janet Joseph, 135 North Auburn Road, said the Lake Auburn Community Center is her neighbor and she supports the purchase of it.

Jim Wellehan, thanked the Auburn Mayor and Council for their work and he mentioned a study that was done on the lake in 2019, and he asked if they have read the study, and asked if they agree with it or not and why?

V. Unfinished Business

1. Ordinance 13-04042022
Amending Chapter 34 (tobacco and marijuana use at recreation facilities and fields).
Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

VI. New Business

1. Order 54-04192022
Adopting the Fiscal Year 2023-2027 Five-year Capital Improvement Plan (CIP).

Motion was made by Councilor Whiting and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Councilor Staples noted that the mask mandate has been lifted for public transportation.

Councilor Walker reported on the Sustainability and Natural Resource Management Board (SNRB) meeting that was held on April 7th.

City Manager Crowell will see the report back from SNRB regarding tree growth (street trees), the Community Development Block Grant and General Assistance offices have moved to 95 Main Street, 4th floor due to space issues. The phone extensions have stayed the same.

Jill Eastman, Finance Director – March 2022 Final Monthly Report

Motion was made by Councilor Walker and seconded by Councilor Staples to accept and place on file the March 2022 final monthly finance report.

Passage 7-0.

IX. Executive Session – Legal Consultation, pursuant to 1 M.R.S.A. Sec. 405(6)(E)

Motion was made by Councilor Milks and seconded by Councilor Hawes to enter executive session.

Passage 7-0, time 7:40 pm.

Council was declared out of executive session at 8:28 pm.

VIII. Adjournment – Motion was made by Councilor Walker and seconded by Councilor Staples to adjourn. Unanimously approved and the meeting adjourned at 8:28 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 2, 2022

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Public Hearing prior to release of the DRAFT CDBG & HOME Annual Action Plan

---

Information: The City of Auburn is required to hold a Public Hearing prior to the release of the draft annual action plan. The purpose of this Public Hearing is to obtain the views of residents of the community on housing and community development needs, including priority non-housing community development needs and affirmatively furthering fair housing. Staff will release the Draft Action Plan after reviewing and incorporating responses to any comments received. Once the Cities annual allocation award has been received the action plan will be finalized and released in draft form for comment. After a minimum of thirty (30) days comment period it will again have a public hearing and be put before the Council for approval.

City Budgetary Impacts: None

Staff Recommended Action: No action required.

Previous Meetings and History: NONE

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: NONE

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 2, 2022

Author: Brian Wood, Assistant City Manager

Subject: ARPA (American Rescue Plan Act) - Acquisition of the Lake Auburn Community Center Property

---

Information: The City of Auburn was approached by the Lake Auburn Watershed Neighborhood Association to purchase the Lake Auburn Community Center. The purchasing of this parcel would be to ensure current and future generations have access to this public land, tree farm, trails, volleyball courts and other recreational activities. This partnership will also generate educational opportunities for youth, with specific emphasis on environmental sustainability.

The City of Auburn will partner with other organizations to ensure proper upkeep and maintenance of this 6.1.1-acre parcel. Current conservation easements will remain unchanged.

The purchase of this property is an allowable expenditure under ARPA's final rule – 2.22 - *Strong Healthy Communities: Neighborhood Features that Promote Health and Safety.*

City Budgetary Impacts: None.

Staff Recommended Action: Vote to allocate $100,000 of ARPA funds to purchase the Lake Auburn Community Center.

Previous Meetings and History:
Council Workshop – April 19, 2022

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

ORDER 55-05022022

City Council Order

IN CITY COUNCIL

ORDERED, that Auburn City Council allocate $100,000.00 of ARPA (American Rescue Plan Act) funds for the acquisition of the Lake Auburn Community Center property.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Public Hearing or Meeting Date: May 2, 2022-First Reading Ordinance 14-05022022

Author: John A. Blais, Deputy Director of Planning and Permitting

Subject: Updating Chapter 60, ARTICLE XII, DIVISION 4, Sec 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in the Lake Auburn Watershed

---

Information: The Planning Board reviewed this proposal and provided a positive (7-0) recommendation (attached) at the April 12, 2022, meeting. The staff report from that meeting is also attached. The Planning Board voted to add three conditions to address information and concerns raised in the public process and following recommendations from the Comprehensive Plan.

1. That development and water quality data be monitored in partnership with Auburn Water District openly with other stakeholders and take appropriate action if the monitoring process finds the water quality degraded because of development. *Staff is verifying the baseline data that was established in the latest watershed report from 2021 (FB Environmental) and establish tools for estimating load reduction or increases in the lake Auburn Watershed. In addition, to the BMP and Land Use tools, utilizing Auburn Water District water quality data on a yearly basis in a report generated by the Auburn Water District. City Staff plan to use EPA Region 5 model for best management practices modeling.*

2. Add a requirement to inspect the septic systems at the point of sale and continuously at five-year intervals also as suggested by the Planning Board. Staff needs to work on the details on this for how it will apply to existing systems but for new systems this could be a condition of approval. Towards this end, staff plans an internship for this summer to catalog and map all known existing systems and add any new systems as they are permitted. This could be the base information for outreach and collecting inspection and maintenance information in the future. *On the building permit application, we will have the applicant or staff check a box if the project is in the watershed. That will remind applicant that an inspection is required and special conditions to the septic design is required. The staff plans on a direct mailing to owners of the watershed for information regarding the update to the septic system requirements. This will include referencing specific requirements for septic system at time of land transfer. We would mirror the Septic System inspection requirement located in Shoreland Zone in Maine guidelines with some minor modifications. See attached.*

3.That the ordinance change approval "must coincide with the adoption of a zoning change that reduces the housing density in all parts of the watershed to one dwelling unit per three acres as recommended in the comprehensive plan. To accomplish this, staff has scheduled a resolve for the May 2nd Meeting to forward a zoning and map change proposal to the Planning Board. Staff applauds the Planning Board edits as a positive improvement for the strengthening of watershed protections. *Staff will provide a data*

summary look at the watershed lot sizes and potential new lots relative to current standards. In addition, FB Environmental Associates (FBE) will perform consulting services related to Lake Auburn watershed modeling. To include building *a new model run through both the build-out and water quality models that simulates the potential impact from recent proposed ordinance changes by the City of Auburn. The proposed ordinance changes affect septic system siting, minimum lot size, and low impact development standards in the Auburn portion of the Lake Auburn watershed. The City of Auburn will provide FBE with the proposed ordinance revisions for review. FBE will draft a detailed description of how the proposed ordinance revisions will be incorporated into the new model run. FBE will perform the new model run and summarize the methodology and results in a brief memorandum to the City of Auburn for a future reading of the proposed changes.*

Sec. 60-952 (c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries is tilled for agricultural purposes, an untilled buffer strip ~~50~~ 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(f)*Private sewage disposal systems.* The following regulations shall be adhered to in the development of private sewage disposal systems in the Lake Auburn Watershed:

(1)~~Subsurface absorption~~ Disposal areas shall not be permitted on sites on which ~~the highest seasonal groundwater table, bedrock, or other impervious layer~~ is less than 12 inches to the limiting factor. ~~36-12 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ In addition, having at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field and (the mineral soil surface) to result in a 36-inch separation between the bottom of the disposal field and the limiting factor.

(2) Within areas containing soils described as deep, ~~loose~~ and sandy or gravelly and which contain ~~70 percent~~ sand or gravel outwash or stratified drift as shown on table 4D (profiles 5 or 6 and some 11) of the State of Maine Subsurface Wastewater Disposal Rules 10-144 Chapter 241 ~~9-3 of the state plumbing code, part II (April 25, 1975)~~, no subsurface absorption area shall be installed closer than ~~300~~ 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream. Where the daily sewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal areas, replacement or new shall meet the section 60-952 (F) (1) design criteria. If replacement systems cannot meet Section 60-952 (F) (1) The local plumbing inspector must evaluate the design with concurrence from the Auburn Water District to impart as much design criteria to the replacement system.

(4) All private sewage disposal systems shall have a curtain drain installed per section H, 10-144 CMR 34 of the Maine Subsurface Wastewater Disposal Rules or diversion ditch, upslope of a disposal field, for its entire length including fill extensions as determined by groundwater conditions by a Licensed Site Evaluator.

(5) All private sewage disposal systems shall be installed on the lot of the dwelling unit, unless the system can be developed outside the watershed or in under special conditions replacement systems may approve by local plumbing inspector on adjacent lots.

(6) The city water district shall have the right to inspect any system within the Lake Auburn Watershed District during its construction and operation and may notify the health office, police chief, local plumbing inspector or housing inspector who shall require the abatement of such defects or malfunctions.

~~(4)~~(7) The local plumbing inspector shall furnish a copy of all site investigation reports in the Lake Auburn Watershed District to the city water district.

~~(5)Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing cod~~

City Budgetary Impacts: Up to $8,000 in approved consultant modeling and best management practices (BMP) training for city staff and local site evaluators.

Staff Recommended Action: Staff suggests council discuss the proposed changes, hold a public hearing, and vote Yes on the proposed ordinance change as recommended by the Planning Board on April 12, 2022. Staff recommends that the Council delay a second reading, updating Chapter 60, ARTICLE XII, DIVISION 4, Sec 60-952 (f) (1-5) to wait for and coincide with the adoption of a zoning change that reduces the housing density in all parts of Rural Residential (RR) zones in the watershed to one dwelling unit per three acres and to have updated modeling of the proposed changes from our consultant.

Lake Auburn Watershed Ordinance Updates

Planning, Permitting & Code

auburnmaine.gov

Proposed Changes Highlights

- **Allow for disposal fields for limiting factor of 12”**
- **Require all systems new or replacement be required to follow new disposal field guidelines.**
- **Require systems to have curtain drain or diversion ditch.**
- **No disposal fields closer than 400 normal high-water mark.**
- **Disposal system needs to installed on the lot or outside the watershed.**
- **Require phosphorus control plan for structures over 200 SF**
- **Require 24” of suitable natural soil or fill material for a total of 36”.**

auburnmaine.gov

Planning Board Conditions of Approval

"First is that approval of this must coincide with the adoption of the zoning change that reduces the housing density in all parts of the watershed to one dwelling unit per three acres as recommended in the comprehensive plan.

Second, that the city establishes a monitoring of the lake and the watershed with reports on a biannual basis based on a plan developed in collaboration with the Auburn Water District and other stakeholders. If it's discovered that degradation occurs through that monitoring program, that the city enacts a moratorium on the development until it can assess what needs to happen to stabilize conditions within the lake

And third, that we require inspection at the point of sale and on an ongoing five-year basis for all systems within the watershed."

Planning Board Approved 7-0 on April 12, 2022

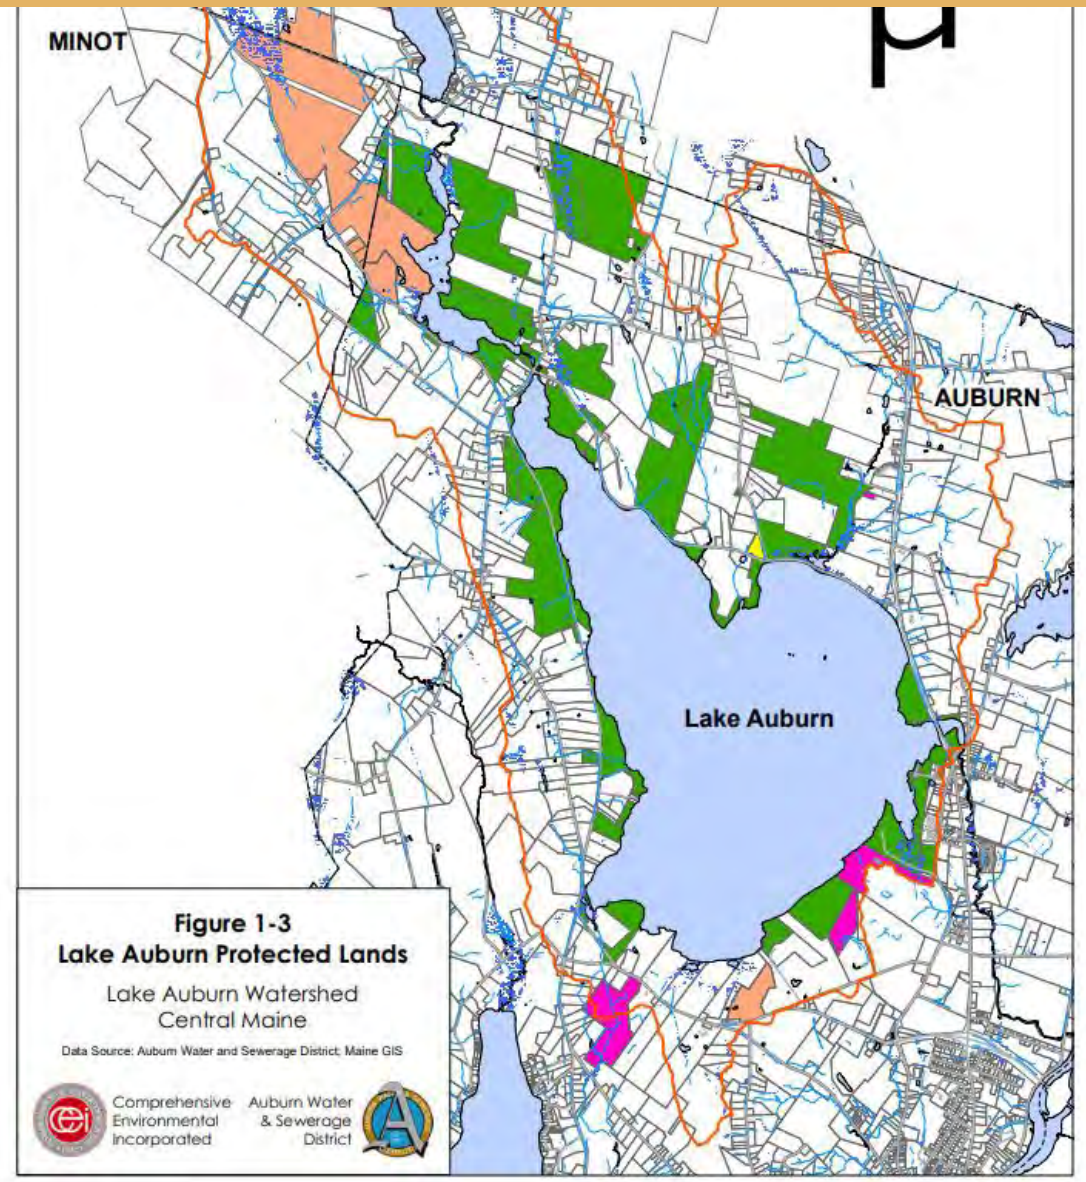
275 systems are grandfathered to state subsurface wastewater standards for replacement systems out of a total of 321. (10-144 CMR 241), Maine Subsurface Wastewater Disposal Rules, Section 4, Design Criteria allows down to 9" (limiting factor) outside the shoreland zone.



TEAM APPROACH & ORDINANCE IDENTIFICATION

Stakeholders:

City of Auburn and city of Lewiston

(city-wide residents, mayor, council and staff)

Auburn & Lewiston water districts and consultants

Additional Considerations by: Comprehensive Plan/Community Conversations and City Council:

1.) Limit additional suitable natural soil or fill material to 12".

2.) Require a septic inspection at point of sale in the Auburn Watershed Overlay Area.

3.) Reduction of SF to require a phosphorus control plan from 575 to 200 Square Feet.

4.) Map amendment to include minimum lot size to 3 acres and 1 Dwelling Unit per 3 acres.

Sec. 60-952 (c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries is tilled for agricultural purposes, an untilled buffer strip ~~50~~ 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(f)*Private sewage disposal systems.* The following regulations shall be adhered to in the development of private sewage disposal systems in the Lake Auburn Watershed:

(1)~~Subsurface absorption~~ Disposal areas shall not be permitted on sites on which ~~the highest seasonal groundwater table, bedrock, or other impervious layer~~ is less than 12 inches to the limiting factor. ~~36 12 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ In addition, having at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field and (the mineral soil surface) to result in a 36-inch separation between the bottom of the disposal field and the limiting factor.

(2) Within areas containing soils described as deep, ~~loose~~ and sandy or gravelly and which contain more than ~~70 percent~~ sand or gravel outwash or stratified drift as shown on table- 4D (profiles 5 or 6 and some 11) of the State of Maine Subsurface Wastewater Disposal Rules 10-144 Chapter 241 ~~9 3 of the state plumbing code, part II (April 25, 1975),~~ no subsurface absorption area shall be installed closer than ~~300~~ 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream. Where the daily sewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal areas, replacement or new shall meet the section 60-952 (F) (1) design criteria. If replacement systems cannot meet Section 60-952 (F) (1) The local plumbing inspector must evaluate the design with concurrence from the Auburn Water District to impart as much design criteria to the replacement system.

(4) All private sewage disposal systems shall have a curtain drain installed per section H, 10-144 CMR 34 of the Maine Subsurface Wastewater Disposal Rules or diversion ditch, upslope of a disposal field, for its entire length including fill extensions as determined by groundwater conditions by a Licensed Site Evaluator.

(5) All private sewage disposal systems shall be installed on the lot of the dwelling unit, unless the system can be developed outside the watershed or in under special conditions replacement systems may approve by local plumbing inspector on adjacent lots.

Additional Phosphorus Ordinance Text Amendment Sec. 60-1066

(1) Any new building or structure with more than ~~575~~ 200 square feet of ground floor area.

Further Commits the City of Auburn to Watershed Protection and Water Quality.

auburnmaine.gov

Comprehensive Plan Recommendation

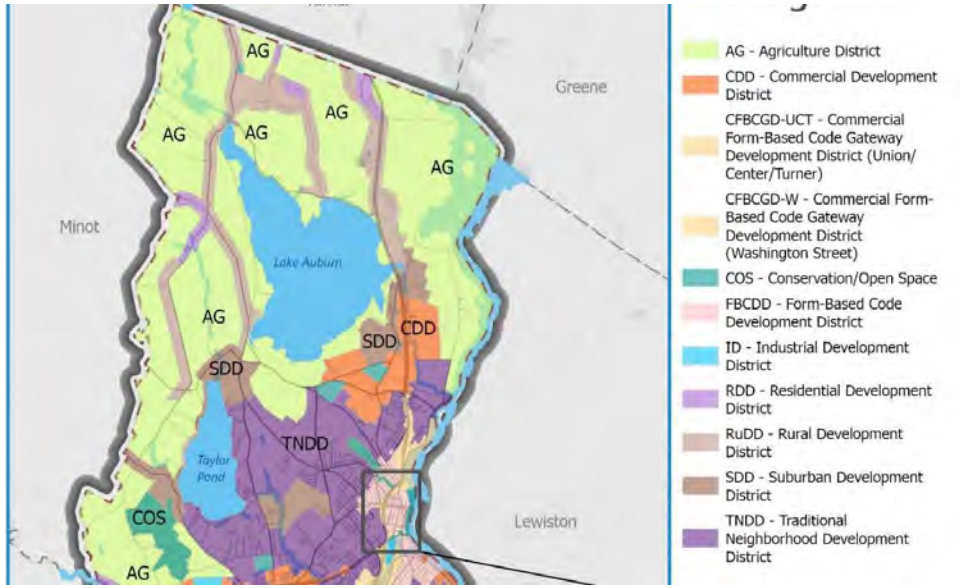
RURAL DEVELOPMENT DISTRICT (RD)

Objective – Allow for the development of residential uses (primarily detached single family homes) at a density of up to 1 unit per 3 acres with one additional dwelling unit permitted for each home in areas where public/community sewerage and water are not available and not likely to be available in the foreseeable future. New development should be designed to minimize the number of vehicular access points to existing collector and other through roads. Shared driveways should be encouraged by providing for a 50-foot driveway frontage bonus. Setbacks within lots should be maintained.

Allowed Uses – The Rural Development district generally follows the boundaries of the Low-Density Country Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix IV). The following general types of uses should be allowed within the Rural Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses
- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – The residential density in the Rural District should be one unit per 3 acres. Lot frontage requirements should be around 200 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 25 feet. Side and rear setbacks should be 15-25 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.



1 Unit per 3 Acres (minimum lot size: 3 Acres)

On April 12, 2022 the City of Auburn Planning Board made the following recommendations:

Motion from Mathieu Duvall, Second from Riley Bergeron

"I move that we recommend that city council adopt this ordinance change with the following conditions:

First is that approval of this must coincide with the adoption of the zoning change that reduces the housing density in all parts of the watershed to one dwelling unit per three acres as recommended in the comprehensive plan.

Second, that the city establishes a monitoring of the lake and the watershed with reports on a biannual basis based on a plan developed in collaboration with the Auburn Water District and other stakeholders. If it's discovered that degradation occurs through that monitoring program, that the city enacts a moratorium on the development until it can assess what needs to happen to stabilize conditions within the lake

And third, that we require inspection at the point of sale and on an ongoing five-year basis for all systems within the watershed."

Approved 7-0.

LAKE AUBURN WATERSHED

SEPTIC SYSTEM ORDINANCE

By David Rocque

April 12, 2022

The current Lake Auburn Septic System ordinance requires a minimum depth to Limiting Factor (LF) of **36 inches**. Limiting Factors include hard pan, bedrock and seasonal high groundwater table. The ordinance also requires the disposal field to be installed **at least 12 inches below the bottom of the organic duff layer** (below the mineral soil surface**) in the lowest point of the ground where the disposal field is installed**. These two requirements are, in my professional opinion, actually counter productive in accomplishing the objective of the ordinance which is to provide greater protection of water quality in Lake Auburn. I will explain my reasoning in the following paragraphs:

Background:

In the early days of determining septic system suitability, the State of Maine relied on the **perc test**. The perc test was done by digging a hole in the ground and pouring water in the hole. The length of time it took for the water to disappear was the determining factor for suitability and how large a disposal field was needed. Getting rid of the water, below ground, was the main focus of septic system designs in those days. The faster the water disappeared, the better. The perc test was replaced by the process we use today referred to as **Site Evaluation.** The reason for this change was because the perc test worked fairly well if done in the spring or late fall, when groundwater tables were at their seasonal high levels, but didn't work very well when done in the dry summer months. A soil would "perc" nicely in August when the groundwater table was low but the septic system would fail in the spring when the groundwater table was high. Our present process of Site Evaluation bases a septic system design on observed soil properties such as soil texture, soil structure, soil consistency (hard pan) and evidence of the seasonal high groundwater table made by observing soil colors. By using site evaluation, we can tell how large a disposal field is needed, how deep into or above the ground it can be installed and how high the seasonal high groundwater table is even in the dry summer months.

As time progressed, scientists and regulators began to look not only at how fast the effluent would disappear below ground but also how well the effluent was treated or renovated before it reached the groundwater table, a waterbody or property line. We learned that the most effective treatment was accomplished by installing disposal fields either very shallow or, preferably, on or above the original ground surface. That is because the majority of the biologic activity in a soil is in the upper 6 inches and that is also where most plant roots (feeder roots) are found as well. Soil microbes and plant roots remove and utilize many of the constituents in waste water including nutrients and pathogens. Installing disposal fields deep into the ground, particularly coarse textured soil or soil that is shallow to bedrock can result in what I refer to as **"Short Circuiting"**. Short circuiting occurs when the effluent moves through the soil without being treated or only being minimally being treated.

Another component of wastewater treatment in a septic system disposal field is cation exchange where fine textured soil particles, silt, clay and fine organic particles, which are negatively charged, hold onto positively charged ions such as phosphorous until they can be utilized by microbes and plants. Cation exchange is negligible in very coarse textured soils such as sands and gravels.

A third component of wastewater treatment in a disposal field is in what we call a bio-mat. This bio-mat is a black gelatinous layer at the interface of the bottom of the disposal field and soil material below. It is comprised of particles that escape from the septic tank and the living and dead bodies of micro-organisms. This layer is sometimes called the "clogging Matt" because, if it becomes too thick, it can cause the septic system to hydraulically fail. If the bio-mat is absent, it removes one of the more important components of wastewater treatment. The reasons why a bio-mat may be absent are too little organic matter (BOD5 and TSS) coming from the septic tank, which is very rare, or a soil material that is very coarse textured or when the disposal field rests on fractured bedrock. Coarse textured soils and disposal fields resting on bedrock are extremely permeable and very oxygenated so organic particles are readily decomposed or pass through the soil and do not build up to create a bio-mat.

Lake Auburn Watershed Septic System Ordinance:

The Lake Auburn Septic System Ordinance requires at least 36 inches to the limiting factor, including seasonal high groundwater table. Very few soils in the State of Maine have 36 inches or more depth to the seasonal high groundwater table and most of those that do are very coarse textured sands and gravels. Sand and gravel soils in Maine were deposited by flowing water from rapidly melting glaciers. They were the river or stream bottom but became dry land after the glaciers melted and retreated, removing their water source. After the glaciers melted and/or retreated back north, the land remained bare for many years until vegetation moved its way up from areas not covered by the thick sheet of ice. In the hundreds of years it took for vegetation to become established, wind blew soil material around and some of it was deposited on the surface of the gravel. The depth of the fine textured topsoil material depends on location and length of time it was bare but is typically 6 inches to 12 inches thick.

As you can imagine, almost all of the biological activity in these soil types is in the finer textured topsoil layer. It is where there is water holding capacity as well as nutrients due to cation exchange capacity and organic matter for food. The sand and/or gravel below is a plant and microbe desert with no water or nutrients available for plants or microbes. When a septic system is installed below the topsoil layer of sands and gravels, very little treatment of the wastewater occurs which can result in a short circuit (depends on how coarse or fine the sand is). With the Lake Auburn Watershed District Septic System ordinance requiring the bottom of all disposal fields to be installed a minimum of 12 inches below the bottom of the organic duff layer the likelihood of a short circuit is high. In actuality, unless the site where the disposal field is to be installed is relatively level, much of the disposal field will be installed more than 12 inches below the top of the mineral soil. That is because the site evaluator must determine that the minimum depth to limiting factor of a disposal field site is present in the entire area. If the 36 - inch depth is found in the lowest point in a proposed disposal field area, more than 36 inches is likely to occur in higher parts of the disposal field area allowing for a deeper installation for those parts of the disposal field.

Because soils in Maine with at least 36 inches to limiting factor are not very common, it encourages people interested in building a home within the watershed boundary to sell easements to their suitable soil site. Clustering wastewater disposal systems in a relatively small area where very little wastewater treatment occurs is not going to achieve the intent of the ordinance, providing an additional layer of protection for the water in Lake Auburn. It would be much better to allow septic systems to be installed on finer textured soils, even if the seasonal groundwater table is shallower than 36 inches.

It may sound like allowing a reduction in depth to the seasonal groundwater table for new septic system installations would be a risk to water quality but it is not as much of a risk as it might seem. First, the bottom of a disposal field is required by State regulations to be 12 inches to 24 inches (for sands/gravels and from bedrock) above the seasonal high groundwater table. The shallower the groundwater table is, the greater the separation required. For soils with a groundwater table between 9 inches and 15 inches from the mineral surface, an 18-inch separation is required. For soils with a groundwater table less than 9 inches from the mineral soil surface, a 24 - Inch separation is required. Second, because of capillary action in fine soil pores, water can be drawn up as much as 18 inches above where standing water can be seen in a soil pit. The top of that saturated zone is what is identified by Site Evaluators when they determine the seasonal high groundwater table. That means the bottom of a disposal field, installed per state regulations, is more than the state minimum of 12 inches to 24 inches above the actual groundwater table. In coarse textured soils the capillary fringe is much less, usually less than a foot. In addition, the groundwater table in sands and gravels may be an aquifer that is always present though it may go up or down some depending on the season and rainfall amounts. That is why the State requires a minimum of 24 inches of separation from the bottom of the disposal field and seasonal high groundwater table in sandy or gravelly soils. In finer textured soils, the seasonal groundwater table is generally perched above a hardpan and disappears in the summer and winter months. They are never an aquifer. In addition, the groundwater table moves through them very slowly in the fine capillary pores. In sands and gravels, the groundwater moves very quickly on its way to a wetland, stream or pond. While it is always a good idea to protect the groundwater table from contamination, it is much more important in coarse textured soils. In fact, the main concern with a disposal field installed too close to the seasonal high groundwater table in a fine textured soil is not contamination of that groundwater table but the fact that effluent from the disposal field would have no place to go so it would back up in the home or surface at the toe of the disposal field fill extension posing a threat to human health. There is no short circuiting in fine textured soils unless the bottom of the disposal field is resting upon fractured bedrock.

In summary, for the most effective protection of Lake Auburn from septic systems, they should be directed to fine textured soils and any systems proposed for installation in sandy or gravelly soils should be installed on or within the finer textured topsoil layer.

ORDINANCE: 14-05022022

City Council Order

IN CITY COUNCIL

Amendment to the Code of Ordinances, Chapter 60, Article XII, Division 4, Sec 60-952 © and (f) (1-5).

Be it ordained, that the Auburn City Council amend the text in Chapter 60, Article XII, Division 4, Sec 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems of the Auburn Code of Ordinance update to require that all projects subject to review under the provisions of this division shall submit designs in subsurface wastewater meeting the standards set forth in the design criteria as shown in the attached text below.

Sec. 60-952 (c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries is tilled for agricultural purposes, an untilled buffer strip ~~50~~ 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(f)*Private sewage disposal systems.* The following regulations shall be adhered to in the development of private sewage disposal systems in the Lake Auburn Watershed:

(1)~~Subsurface absorption~~ Disposal areas shall not be permitted on sites on which ~~the highest seasonal groundwater table, bedrock, or other impervious layer~~ is less than 12 inches to the limiting factor. ~~36—12 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ In addition, having at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field and (the mineral soil surface) to result in a 36-inch separation between the bottom of the disposal field and the limiting factor.

(2) Within areas containing soils described as deep, ~~loose~~ and sandy or gravelly and which contain ~~70 percent~~ sand or gravel outwash or stratified drift as shown on table- 4D (profiles 5 or 6 and some 11) of the State of Maine Subsurface Wastewater Disposal Rules 10-144 Chapter 241 ~~9 3 of the state plumbing code, part II (April 25, 1975)~~, no subsurface absorption area shall be installed closer than ~~300~~ 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream. Where the daily sewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal areas, replacement or new shall meet the section 60-952 (F) (1) design criteria. If replacement systems cannot meet Section 60-952 (F) (1) The local plumbing inspector must evaluate the design with concurrence from the Auburn Water District to impart as much design criteria to the replacement system.

•

(4) All private sewage disposal systems shall have a curtain drain installed per section H, 10-144 CMR 34 of the Maine Subsurface Wastewater Disposal Rules or diversion ditch, upslope of a disposal field, for its entire length including fill extensions as determined by groundwater conditions by a Licensed Site Evaluator.

City Council Order

•

(5) All private sewage disposal systems shall be installed on the lot of the dwelling unit, unless the system can be developed outside the watershed or in under special conditions replacement systems may approve by local plumbing inspector on adjacent lots.

(6) The city water district shall have the right to inspect any system within the Lake Auburn Watershed District during its construction and operation and may notify the health office, police chief, local plumbing inspector or housing inspector who shall require the abatement of such defects or malfunctions.
~~(4)~~(7) The local plumbing inspector shall furnish a copy of all site investigation reports in the Lake Auburn Watershed District to the city water district.
~~(5)Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing cod~~e.

City Council Order

THAT the Finance Director be and hereby is authorized and empowered, in the name of an on behalf of the City, to prepare, issue, and sell the bonds and notes authorized hereby, at one time, or from time to time, as one or more separate issues, and to determine the date, form, minimum denomination, interest rates (as term bonds or serial bonds or some combination thereof), maturities (with the last maturity not to exceed the maximum term permitted by law) and all other details, terms and provisions of such bonds and notes, not inconsistent herewith, including the form and manner of their sale and award as she may approve, such approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director be and hereby is authorized, in the name of and on behalf of the City, to provide that any of the bonds and notes authorized hereby may be made subject to call for redemption, with or without premium, prior to their stated dates of maturity, as provided in 30-A M.R.S.A. §5772(6), as amended.

THAT the Finance Director be and hereby is authorized, in the name of and on behalf of the City, to designate the bond or notes authorized hereby, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265 of the Internal Revenue Code of 1986, as amended.

THAT the bonds and notes authorized hereby shall be signed by the City's Finance Director and its Treasurer, attested by the City Clerk under the seal of the City.

THAT the Finance Director be and hereby is authorized, in the name of and on behalf of the City, to prepare, negotiate, execute, and deliver such contracts, agreements, certificates, instruments and other documents as may be necessary or advisable, as determined and approved by the Finance Director, in connection with the issuance delivery of the bonds and notes authorized hereby, the investment of the proceeds thereof, and the financing of the Projects, including but not limited to a bond purchase agreement, a preliminary official statement and official statement, an escrow agreement, a continuing disclosure agreement, a tax compliance agreement and an investment agreement (the "Bond Documents"), which Bond Documents may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, as may be approved by the Finance Director, such approval to be conclusively evidenced by the execution thereof.

THAT if the bonds or notes authorized hereby, or any part of them, are issued on a tax-exempt basis, the Finance Director be and hereby is authorized and directed, in the name of and on behalf of the City, to covenant and certify that no part of the proceeds of such bonds or notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the bonds or notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and to further authorize and provide that the City will file any required reports and take any other action that may be necessary to insure that interest

City Council Order

on the bonds or notes will remain exempt from federal income taxation, and will refrain from any action that would cause interest on the bonds or notes to be subject to federal income taxation.

THAT if the actual cost of any Project differs from the estimated cost, whether due to completion, delay or abandonment of such Project or for any other reason, the Finance Director is authorized, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the bonds or notes to any other listed Project, or to any other project or improvement that the City Council has approved or may in the future approve as part of the City's annual capital improvement plan.

THAT in order to finance temporarily the Projects described above, the Finance Director be and hereby is authorized to expend up to $7,100,000 either from available funds of the City or from the proceeds of bond anticipation notes which would be reimbursed or refinanced from bond proceeds.

THAT to the extent not payable from other funds, an amount sufficient for the payment of the annual payments of principal and interest on the bonds and notes authorized hereby shall be included in the tax levy each year until the debt represented by said bonds or notes is extinguished.

THAT the City's Finance Director, Treasurer, Clerk, and other proper officials of the City be and hereby are authorized and empowered, in the name of and on behalf of the City, to do or cause to be done all such acts and things as may be necessary or advisable to carry out the provisions of this order.

THAT if any of the officers or officials of the City who have signed or sealed the bonds or notes authorized hereby shall cease to be such officers or officials before the bonds or notes so signed and sealed shall have been actually authenticated or delivered by the City, such bonds or notes nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds or notes had not ceased to be such officer or official; and also any such bonds or notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds or notes, shall be the proper officers and officials of the City, although at the nominal date of such bonds or notes any such person shall not have been such officer or official.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds, notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, or on an intereim or acting capacity, is authorized to act for such official with the same force and effect as if such official had himself or herself performed such act.

THAT the authority to issue the bonds or notes authorized hereby shall automatically expire 2 years from the date of approval of this Order.

THAT this order is a declaration of official intent pursuant to Treas. Reg. § 1.150-2 and shall be kept available for public inspection during reasonable business hours at the office of the City Clerk.

Bond Order - Reallocation
Public Hearing Notice

ORDER 57-05022022

City Council Order

IN CITY COUNCIL

ORDER - Reallocating Unspent Proceeds from the City's General Obligation Bonds

ORDERED, WHEREAS, the City of Auburn issued General Obligation Bonds in various amounts for various projects; and

WHEREAS, there remain unspent proceeds of the Bonds borrowed for multiple capital improvements, $362,600 of which excess proceeds the City Council desires to reappropriate and reallocate to be used for the projects listed below;

FY 23 CIP Unallocated Bond Proceeds

	Description	Unallocated Bond Proceeds
Airport	Hangar Door Repair	$ 75,000
City Clerk	Record Restoration	$ 50,000
Facilities	Knight House Repairs	$ 40,000
City Wide Vehicles	Recreation Department Truck	$ 45,000
Recreation	Side by Side	$ 15,000
Police	Patrol Rifle Replacement	$ 35,000
Public Works	Court Street Sidewalk (in front of Auburn Hall)	$ 70,000
Public Works	Infield Groomer	$ 32,600
Recreation	Trail Upgrade, Development, Signage and Connectiviy	
TOTAL UNALLOCATED CIP		$ 362,600

NOW, THEREFORE, by the City Council of the City of Auburn, be it hereby ORDERED:

THAT the excess proceeds of the Bonds, in the amount of $362,600 be and hereby are appropriated from the amount borrowed as part of various Bonds to finance the costs of the projects listed above.

THAT the City's Finance Director / Treasurer be, and hereby is, authorized and empowered in the name and on behalf of the City, to do or cause to be done all such acts and things, and to execute and deliver, all such financing documents, certificates, and other documents as may be necessary or advisable, with the advice of counsel for the City, to carry out the provisions of this Order, as may be necessary or desirable.

A Public Notice describing the repurposing of these Bond proceeds borrowed for Various Projects to the list above was published on or before May 2, 2022, in the Lewiston Sun-Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

A public hearing was held on May 16, 2022.

Resolve for the 2022-2023 Annual Appropriation and Revenue excluding School Department Artilcles (totals only)

RESOLVE: 03-05022022

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the following be, and hereby is the Annual Appropriation and Revenue Resolve of the City of Auburn for the fiscal year 2022-2023, which includes the amounts appropriated herein and revenues from all sources beginning July 1, 2022 and ending June 30, 2023.

The estimated aggregate amount of non-property tax revenue is $57,113,731 with a municipal revenue budget of $20,546,516 and a School Department revenue budget of $36,567,215.

The aggregate appropriation for the City of Auburn is $106,764,706, with a municipal budget of $48,271,396 County budget of $2,761,220 and a School Department budget of $55,732,090 which received School Committee approval on April 27, 2022, and school budget approved at the May 16, 2022 Council Meeting pursuant to the School Budget Validation vote on June 7, 2022, in accordance with Maine Revised Statues, Title 20-A § 1486 and based on the budget submitted to the Auburn City Council on April 19, 2022, by the City Manager, and notification was posted on the City of Auburn website on April 28, 2022 that a public hearing would be held on May 2, 2022 at 7:00 p.m. and said hearing having been held on that date, and as amended by the City Council, the same is hereby appropriated for the fiscal year 2022-2023 beginning July 1, 2022 for the lawful expenditures of the City of Auburn and the County of Androscoggin taxes, and said amounts are declared not to be in excess of the estimated revenue from taxation and sources other than taxation for the fiscal year of 2022-2023.

RESOLVED, The City is authorized to accept grants and forfeitures and to expend sums that may be received from grants and forfeitures for municipal purposes during the fiscal year beginning July 1, 2022, and ending June 30, 2023, provided that such grants and forfeitures do not require the expenditure of other funds not previously appropriated.

RESOLVED, that fifty percent (50%) of all real estate taxes assessed as in the annual commitment, committed to the Tax Collector, shall be due proportionately from each tax payer on September 15, 2022 and the remaining fifty percent (50%) shall be due on March 15, 2023.

Except as may be provided by resolve regarding payments in accordance with an installment payment plan, any real estate taxes remaining uncollected on September 16, 2022, and March 16, 2023 respectively shall bear interest at a rate of 4% per annum from and after such dates.

Comprehensive Plan Recommendation

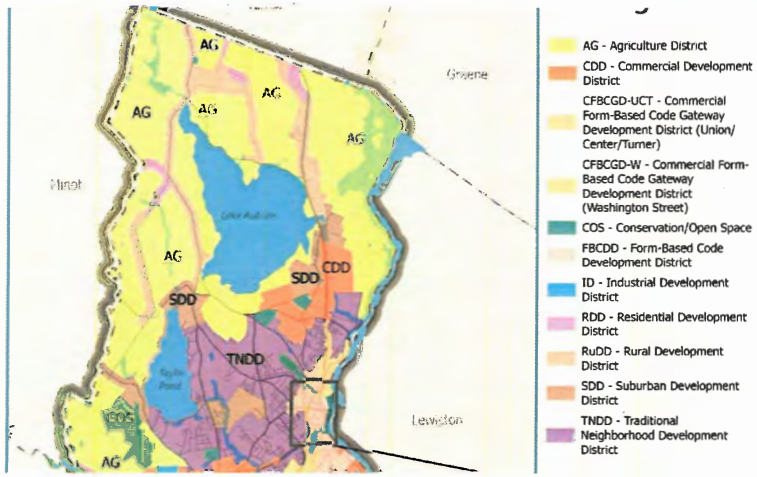
RURAL DEVELOPMENT DISTRICT (RD)

Objective – Allow for the development of residential uses (primarily detached single family homes) at a density of up to 1 unit per 3 acres with one additional dwelling unit permitted for each home in areas where public/community sewerage and water are not available and not likely to be available in the foreseeable future. New development should be designed to minimize the number of vehicular access points to existing collector and other through roads. Shared driveways should be encouraged by providing for a 50-foot driveway frontage bonus. Setbacks within lots should be maintained.

Allowed Uses – The Rural Development district generally follows the boundaries of the Low-Density Country Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update (see appendix IV). The following general types of uses should be allowed within the Rural Development District:

- Low Density Residential Dwellings
- Home occupations
- Community services and government uses
- Agriculture
- Small retail shops less than 3,000 square feet or 1.5 times the average size of the home within Village Overlay Neighborhoods.

Development Standards – The residential density in the Rural District should be one unit per 3 acres. Lot frontage requirements should be around 200 feet but should be reduced for lots that share driveways. In general, the minimum front setback should be 25 feet. Side and rear setbacks should be 15-25 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.



1 Unit per 3 Acres (minimum lot size: 3 Acres)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 2, 2022

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
Agenda
Monday, May 16, 2022
Auburn Hall, Council Chambers

5:30 P.M. City Council Workshop

- **A.** Fire Department Budget Discussion – Chief Robert Chase
- **B.** City of Auburn FY23 Budget Discussion – City Manager Crowell
- **C.** Executive Session – Economic development, pursuant to 1 M.R.S.A. Sec. 405 (6)(C)
- **D.** Executive Session – Economic development, pursuant to 1 M.R.S.A. Sec. 405 (6)(C)

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Walker

Pledge of Allegiance

I. Consent Items - All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 61-05162022*
Authorizing the City Clerk to waive the $200 business license fee for Auburn Suburban Baseball and Softball.

2. Order 62-05162022*
Confirming Chief Moen's appointment of Sergio Martins as a Constable with firearm for the Auburn Police Department.

1. Order 63-05162022*
Setting the date to hold the School Budget Validation Referendum Election for June 14, 2022.

II. Minutes

- May 2, 2022, Regular Council Meeting

III. Communications, Presentations and Recognitions

- Proclamation – Maine Arbor Week

- Proclamation – Kids to Parks Day
- Proclamation – 100th Anniversary of the Lewiston-Auburn Kiwanis Club
- Communication – Utilization of Capital Reserve Funds
- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Ordinance 15-05022022
Amending Auburn's Code of Ordinances, Chapter 60, Sec. 60-1066 (1). Second reading.

2. Order 56-05022022
Authorizing the City's general obligation bonds in the amount of $7,300,00.00 to finance the City's FY23 Capital Improvement Program. Second reading.
Passage requires an affirmative vote of 5 Councilors.

Authorizing the reallocation of $395,100 from previous General Obligation Bonds that were unspent to fund a portion of the City's FY 22 - 23 CIP. Public hearing and second reading.
Passage requires an affirmative vote of 5 Councilors.

4. Resolve 03-05022022
Adopting the Appropriations Resolve for Fiscal Year 2023. Second reading.
Passage requires an affirmative vote of 4 Councilors.

VI. New Business

1. Order 64-05162022
Adopting the FY 2023 Auburn School Budget.

2. Order 65-05162022
Directing the City Manager to issue a design/build footbridge from Newbury Street to Anniversary Park.

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

VIII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report
d. Jill Eastman, Finance Director – April 2022 Final Monthly Report

IX. **Executive Session -** Discussion on a poverty abatement case #PA 2022-001 pursuant to (36 M.R.S.A § 841) with possible action to follow.

X. **Adjournment**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 16, 2022

Author: Fire Chief, Robert Chase

Subject: Fire Department Budget Discussion

Information:

The current Fire Department staffing model consists of a four platoon system with 16 FF/EMTs assigned to each platoon. In order to have the current compliment of appartus staffed and available to respond a minimum of 14 FF/EMTs are required daily.

This effectively means that on any day, if more then 2 employees are absent, for any reason, including use of earned time, sick time, training, vacancies, funerals etc. the department will incur overtime costs.

The contract allows for up to 2 FF/EMTs to be on vacation at any given time. We also have 6 employees that will be absent from shifts as they will be enrolled in Paramedic school.

The dynamic workforce environment is leading to employee turnover and difficulty hiring employees. This results in longer vacancies which also puts additional strain on existing employees and result in increased overtime costs. Over the past year, our vacancies and increase sick time caused by COVID, put undue stress on the workforce and resulted in significant forced overtime and many occurrences of employees being forced to work 48 hours straight.

Ever increasing call volumes have put additional strain on the current staff, and have made it difficult to conduct on duty training, committee meetings or to support community events, and fire prevention activities. We have had to reduce most of these activities, but any that are essential are often conducted on overtime.

The addition of 1 additional firefighter/EMT per platoon (4 Employees total) would mean that even during the summer vacation season, the department would still not incur OT if another employee were absent for any of the other reasons discussed above.

The additional position would also give us operational flexibility to rotate employees around the department so that everyone could participate in on duty department trainings and activities.

Within the fire department budget, the wage for the 4 employees is offset by the resulting decrease in overtime expenses.

An increase of $68,000 to benefits lines for health insurance and other fringe benefits would be required.

City Budgetary Impacts: $68,000 for benefit budget line items

Staff Recommended Action: Approve the addition of four firefighters

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

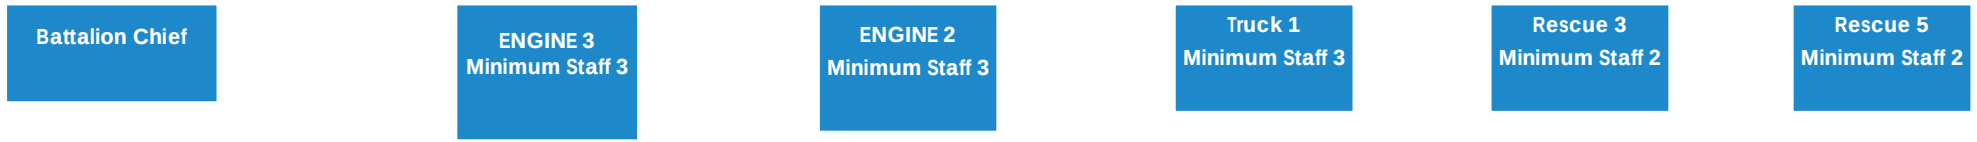
Attachments:

Goal

- To reduce overtime costs and increase organizational stability through the addition of one Firefighter/Paramedic per Platoon (four total)

Daily Staffing Structure

Minimum required staffing of 14 response personnel daily



Currently have 16 employees per Platoon

Two employees may use vacation time simultaneously

- This leaves us at minimum staffing levels (14) for more than 2/3 of the year
- During these periods, all sick time, training needs, injuries, etc. must be covered with OT

Impacts of Current Staffing Levels

There is no reserve capacity:

- System became very strained due to COVID illness and quarantines
- At times, staffing a third ambulance to meet call volume demands
- Vacancies or injuries almost always result in OT
- Significant OT is leading to high levels of staff stress and burnout
- High OT levels have caused unprecedented levels of forced OT
- Staff frequently unable to use earned time such as wellness days or floating holidays
- Comp-time as a tool to reduce OT is ineffective as employees have little opportunity to use it

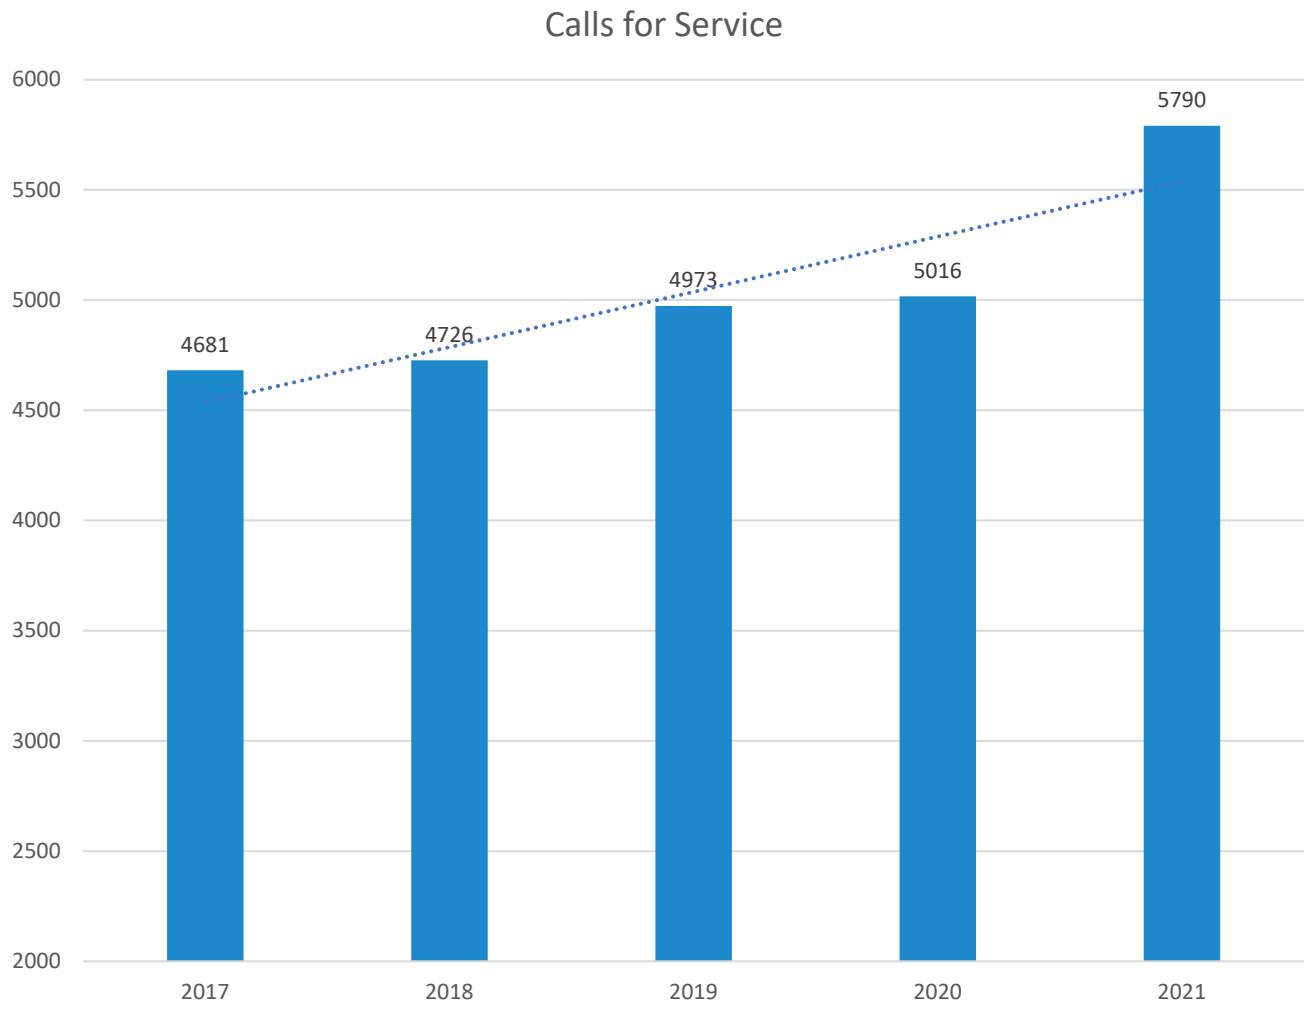
- Minimum staffing levels prohibit EMS crews from participating in on-duty training opportunities

- Virtually all Paramedic training results in OT

- Additional duties such as event coverage at City Sponsored events result in OT

CALLS FOR SERVICE

- 23% increase in calls for service since 2017
- Historically, 80% of calls are Rescue/EMS
  - 82% in 2021 (COVID)



Budget Impacts

Account Title	FY 2022 Budget	FY 2022 Projected	FY23 proposed (add 4 Positions)	Savings
Fire & EMS Transport				
Regular Salaries	4,024,707	3,869,704	4,271,987	402,283
Holiday Pay	192,652	192,652	197,633	4,981
Uniform Allowance	39,555	39,555	41,500	1,945
Physicals	2000	8000	6000	(2,000)
OT - Vac Replacement	88000	88,000	12,000	(76,000)
OT - Sick Replace LT	50000	65,000	50,000	(15,000)
OT - Sick Replace ST	134000	240,000	150,000	(90,000)
OT - Mandatory Training	25,000	17,500	25,000	7,500
OT - Extra Assignments	30,100	98,000	30,100	(67,900)
OT - Vacancies/Retirement	22,932	190,000	23,000	(167,000)
OT - Work Related Injuries	15,750	24,000	20,000	(4,000)
OT - Meetings	9,700	4,000	7,000	3,000
OT - Funeral Leave	5,000	5,000	5,000	0
OT - Multiple Alarms	9,000	7,800	9,000	1,200
Total		4,849,211	4,848,220	(991)

- Cost of four positions to FD budget is offset by OT Savings

- Addition of $68,000 required to benefits/health insurance budget lines for four positions

April 22, 2022

City of Auburn
60 Court St.
Auburn, ME 04210

Honorable Mayor & City Council Members:

On behalf of Auburn Suburban Baseball & Softball (ASBS), I respectfully request a waiver of the $200.00 licensing fee for operation of our concession stand (snack shack) during the 2022 season (May 2, 2022 - July 24, 2022).

ASBS is a non-profit organization serving over 400 youth through competitive baseball & softball teams. Funds raised by the snack shack, staffed by volunteers, are vital to the success of our organization. Funds raised throughout the season support facility maintenance, new equipment, program expansion (Buddy Ball), uniform purchase and items/services to ensure the safety of our families and players.

I invite you to join us for a game this season, appreciate your support of ASBS and hope you will consider waiving our licensing fee this season.

Sincerely,

Fritz Kunas
ASBS President
207-577-5853

ORDER 61-05162022

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby authorizes the City Clerk to waive the $200 business license fee for Auburn Suburban Baseball/Softball, located at 4 Mount Apatite Road.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two

Council Workshop or Meeting Date: May 16, 2022 **Order:** 63-05162022

Author: Sue Clements-Dallaire, City Clerk

Subject: Scheduling the School Budget Validation Referendum Election to be held on June 14, 2022

Information:
Title M.R.S.A. 20-A, Section 2307 requires Municipalities to conduct a School Budget Validation Referendum Election each year.

The date is consistent with previous years, and there is a cost savings when holding this election at the same time as a State election which is normally the second Tuesday in June. It also results in better voter turnout.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of this order.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

IN COUNCIL REGULAR MEETING MAY 2, 2022, VOL. 36 PAGE 253

Mayor Levesque called the meeting to order at 7:03 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

Pledge of Allegiance

I. Consent Items - None

II. Minutes - April 19, 2022 Regular Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Staples to approve the minutes of the April 19, 2022 Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

Council Communications (about and to the community)

Councilor Gerry commented on the motto of the City "No Steps Backward" adding that she supports the petition process that is underway with residents of the city.

Mayor Levesque gave acknowledgement to Chief Moen and the Police Department for their work on a recent PD case. He also announced that there will be a Memorial Weekend event on Friday, May 27th at the Veteran Park on Summer Street dedicating veteran stones that were donated by the Lion's Club. Last, he provided an update on LD 2003. He encouraged everyone to read and be aware of this bill which takes effect in July of 2023.

IV. Open Session

Maureen O'Brien, 42 Winter Street commented on the PAL Center.

Andy Titus, Rubellite Lane commented on Lake Grove Park.

Jay Bishop, Lake Shore Drive commented on the septic upgrade system.

V. Unfinished Business - None

VI. New Business

1. Public hearing – Public hearing to receive comments for Program Year 2022, CDBG & HOME Annual Action Plan.

The Mayor opened the public hearing at 7:19 PM. No one from the public spoke. The public hearing was closed at 7:20 PM.

2. Order 55-05022022

Approving the allocation of $100,000 American Rescue Plan Act (ARPA) funds for the Lake Auburn Community Center.

Motion was made by Councilor Milks and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Ordinance 14-05022022**
Amending Auburn's Code of Ordinances, Chapter 60-952(c) and (f) (1-5) for agricultural buffer trip and subsurface wastewater systems in the Lake Auburn Watershed. **Public hearing and first reading.**

Motion was made by Councilor Milks and seconded by Councilor Staples for passage.

Public hearing:

Bruce Rioux, 85 Mary Carroll Street, stated that we do not have a septic problem in the watershed and he asked who would benefit from this change?

Pam Rousseau, 745 West Auburn Road, expressed concerns about the septic design and who will monitor the "curtains" that go around the septic system.

Motion was made by Councilor Walker and seconded by Councilor Staples to postpone this item until after the Planning Board action and FE Environmental data is collected.

Passage 7-0.

4. **Ordinance 15-05022022**
Amending Auburn's Code of Ordinances, Chapter 60, Sec. 60-1066 (1). Public hearing and first reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public hearing:

Pam Rousseau, 745 West Auburn Road, stated that Taylor Pond is at risk, and she asked that to please be careful with the pond.

Passage 7-0. A roll call vote was taken.

5. **Order 56-05022022**
Authorizing the City's general obligation bonds in the amount of $7,100,00.00 to finance the City's FY23 Capital Improvement Program. Public hearing and first reading.

Motion was made by Councilor Whiting and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by adding $200,000 to add cross walks by the new Edward Little High School.

Passage 7-0.

Motion was made by Councilor Walker and seconded by Councilor Milks to amend by adding $50,000 to replace the Boy's & Girl's Club gym floor. After further discussion, Councilor Walker withdrew his motion.

Passage of Order 56-05022022 as amended, 6-1 (Councilor Gerry opposed). A roll call vote was taken.

6. **Order 57-05022022**
Authorizing the reallocation of $362,600 from previous General Obligation Bonds that were unspent to fund a portion of the City's FY 22 - 23 CIP. First reading.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Walker and seconded by Councilor Gerry to amend by adding $50,000 to replace the Boy's & Girl's Club gym floor.

Passage 7-0.

Motion was made by Councilor Walker and seconded by Councilor Staples to reduce the patrol rifle replacement amount by half (from $35,000 to $17,500).

Passage 6-1 (Councilor Whiting opposed).

Passage of Order 57-05022022 as amended, 7-0. A roll call vote was taken.

7. **Resolve 03-05022022**
Adopting the Appropriations Resolve for Fiscal Year 2023. Public hearing and first reading.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public hearing:

Andy Titus, Rubelite Lane, commented that he feels the operating increase of 9% is high.

Motion was made by Councilor Staples and seconded by Councilor Walker to amend by adding $25,000 to the operating budget to plant street trees.

Passage 7-0.

Motion was made by Councilor Milks and seconded by Councilor Hawes to amend by adding $50,000 to the legal budget.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Gerry and seconded by Councilor Staples to amend by including the proposed Police Department restructure of $270,000 within the current budget and to be mil rate neutral.

Passage 4-3 (Councilors Walker, Morin, and Hawes opposed). A roll call vote was taken.

Motion was made by Councilor Walker and seconded by Councilor Gerry to amend by increasing the Fire Department budget by $68,000

Motion was made by Councilor Morin and seconded by Councilor Milks to postpone this amendment to the 5/16/2022 meeting.

Passage 7-0.

Passage of Resolve 03-05022022 as amended, 5-2 (Councilors Staples and Gerry opposed).

8. **Order 58-05022022**
Authorizing the School Committee be authorized to establish an Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic fields.

Motion was made by Councilor Whiting and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by adding that this would be used only for its intended purpose. After further discussion, Councilor Staples withdrew his motion.

Passage 7-0.

9. **Order 59-05022022**
The School Committee be authorized to establish a School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment and related technology for the School Department.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – Andy Titus, 24 Rubelite Lane, would like to see this used for the intended purpose.

Motion was made by Councilor Staples and seconded by Councilor Milks to amend by adding that these funds be used only for its intended purpose.

Passage 7-0.

Passage of Order 59-05022022 as amended, 7-0.

10. Order 60-05022022
Authorizing City Staff to draft amendments consistent with the adopted Comprehensive Plan for consideration by the Planning Board and direct the Planning Board to review proposed amendments, hold Public Hearings on each and forward a recommendation back to the City Council.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – Bob Hayes, 172 Allen Avenue asked for clarification to the public in respect to the adopted Comprehensive Plan.

Passage 5-2 (Councilors Gerry and Whiting opposed).

Motion was made by Councilor Hawes and seconded by Councilor Staples to take Order 46-03282022 for the rezoning of T4.2 off the table and send to the Planning Board now instead of waiting the 120 days.

Public comment – Elizabeth Dunn, Court Street asked for clarification.

Passage 5-2 (Councilors Gerry and Whiting opposed).

VII. Open Session – Pam Rousseau, West Auburn Road commented on Taylor Pond and would like the Council to reconsider the Taylor Pond purple color on the map (16 units per acre) which concerns her.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported that the Auburn Business Association Citizen of the Year event is coming up on May 17th, and CMCC will be holding their annual education event and fundraiser on May 4th at 3:30 at the Hilton Garden Inn.

City Manager Crowell reported that he appreciates the Mayor and Council taking a look at the ICMA training sessions that are coming up. June 10th will be the celebration for the naming of the footbridge after former Mayor John Jenkins. His celebration of life will be held on June 11th. More information will go out to the public.

IX. Executive Sessions - None

VIII. Adjournment – Motion was made by Councilor Milks and seconded by Councilor Morin to adjourn. Unanimously approved and the meeting adjourned at 8:42 pm.

ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

PROCLAMATION
MAINE ARBOR WEEK

WHEREAS, in 1872, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees, and this holiday called Arbor Day was first observed with the planting of a million trees in Nebraska; and

WHEREAS, May 16th to May 20th, 2022 is Maine Arbor Week; and

WHEREAS, trees can reduce the erosion of our precious topsoil, cut heating and cooling cost, moderate the temperature, clean the air, provide life-giving oxygen and provide habitat for wildlife; and

WHEREAS, trees are a renewable resource giving us paper, wood for our homes, fuel for our fires, and beautify our community; and

WHEREAS, trees, wherever they are planted, are a source of joy and spiritual renewal.

NOW THEREFORE I, Jason Levesque, Mayor of the City of Auburn, by virtue of the authority vested in me, do hereby proclaim May 16th to May 20th, 2022 as the celebration of Maine Arbor Week in the City of Auburn, and I urge all citizens to celebrate Maine Arbor Week and support efforts to protect our trees and woodlands.

Further, I urge all citizens to plant trees to gladden the heart and promote the well-being of this and future generations.

IN WITNESS WHEREOF, I have
hereunto set my hand and caused the
Seal of the City of Auburn, Maine

to be fixed this 16th day of May 2022

_____

Jason Levesque, Mayor

MAYORAL PROCLAMATION

WHEREAS May 21, 2022 is the twelfth Kids to Parks Day organized and launched by the National Park Trust held annually on the third Saturday of May; and

WHEREAS Kids to Parks Day empowers kids and encourages families to get outdoors and visit local parks, public lands, and waters; and

WHEREAS we should encourage children to lead a more active lifestyle to combat the issues of childhood obesity, diabetes, hypertension and other diseases; and

WHEREAS Kids to Parks Day will broaden children's appreciation for nature and the outdoors;

WHEREAS and the City of Auburn has a beautiful and diverse selection of city parks to explore and enjoy;

NOW THEREFORE, I, Mayor Jason J. Levesque, do hereby proclaim May 21, 2022 to be "Kids to Parks Day" in the great City of Auburn, Maine. I urge residents of Auburn to make time on May 21 to take the children in their lives to a neighborhood, state or national park.

_____ _____

Mayor Jason J. Levesque Signed on this date

OFFICE OF THE MAYOR | CITY OF AUBURN, MAINE

PROCLAMATION | **KIWANIS 100TH ANNIVERSARY**

WHEREAS, Kiwanis is a global organization of volunteers dedicated to improving the world one child and one community at a time; and

WHEREAS, Kiwanis members dedicate more than 18 million service hours each year to strengthen communities and serve children, with nearly 600,000 adult and youth members in 80 countries and geographic areas; and

WHEREAS, the Kiwanis Club of Lewiston-Auburn was chartered on May 19 of 1922 and has been dedicated to serving our community for 100 years, supporting local kids and families with infant safety kits, scholarships, books, classroom supplies, and in countless other ways; and

WHEREAS, the service provided by the Kiwanis Club of Lewiston-Auburn, Maine will continue to have a positive impact on our community and citizens;

NOW THEREFORE, I Jason Levesque, Mayor of the City of Auburn, do hereby proclaim May 19, 2022, to be Kiwanis Club of Lewiston-Auburn Day. I invite and encourage all citizens of Auburn to acknowledge and celebrate the work of this inspirational group and their efforts to provide meaningful service to the children of our community.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 16th day of May, 2022.

TO: Auburn City Council

FR: Cornelia Brown, Superintendent of Schools

DATE: May 9, 2022

RE: Utilization of Capital Reserve Funds

Title 30-A: Municipalities, Subpart 9, Fiscal Matters, Chapter 223, Municipal Finances, Subchapter 7, subsection 5801 allows a municipality to establish a reserve fund, consisting of one or more accounts, by appropriating money or authorizing the transfer of unencumbered surplus funds at the end of any fiscal year for the following purposes:

1. Capital Improvement Account: Financing the acquisition or reconstruction of a specific, or type of capital improvement.
2. Capital Equipment Account: Financing the acquisition of a specific item or type of capital equipment.

These funds must be authorized, and expended, by the legislative body. State statute also requires legislative approval for appropriations both in and out of the funds. These appropriations are considered a part of the annual budget process. As such, fund appropriations require the approval of both the School Committee and the City Council, as well as voter approval through the budget validation referendum. Any appropriations into the funds must cite the source of the appropriation (such as unexpended year-end balances), and any appropriations out of the funds must cite the purpose for which the funds will be used (such as purchasing computer laptops for teachers, or a roof replacement for the High School). In this case, it would be the City Council. State statute requires that dollars appropriated into the funds can only be expended for the purposes outlined in the establishment of the funds. They cannot be used for other purposes.

I would like to thank the Council for establishing the two capital reserve funds requested by the Auburn School Committee – an Edward Little High School Capital Reserve Fund and a School Technology Equipment Capital Reserve Fund. These funds will reduce the need for, and subsequent cost of bonding future capital improvement projects, thereby saving money for our taxpayers. The capital reserve fund for Edward Little will also encourage the implementation of a sound capital maintenance program for the new High School to protect the community's investment in this wonderful facility.

Clearly any activities around these funds require a fully transparent process with statutory and legislative safeguards to assure the appropriate expenditure of reserve funds. I hope this addresses any concerns Council members may have in this regard. Thank you again for your support.

ORDER 56-05022022

City Council Order

THAT the bonds and notes authorized hereunder shall be signed by the City's Finance Director and its Treasurer, attested by the City Clerk under the seal of the City. A tax levy is hereby provided for each fiscal year that the bonds authorized hereunder remain outstanding to meet the annual installments of principal and interest as may accrue in each respective year. The bonds and notes may be issued at one time or from time to time, either singly or in series, and the authority and discretion to fix method of sale, issue date, maturities, denominations, interest rate, place of payment, form and other details of said bonds and notes, and to take all other actions and to sign and deliver all other documents, certificates and agreements in order to provide for the sale thereof is hereby delegated to the City's Finance Director.

THAT in order to finance temporarily the projects described above, the Finance Director is authorized to expend up to $7,100,000 either from available funds of the City or from the proceeds of bond anticipation notes which would be reimbursed or refinanced from bond proceeds.

THAT the bonds and notes authorized hereunder may be made subject to call for redemption, either with or without premium, on such terms as may be determined by the Finance Director.

THAT the authority and discretion to designate the bond or notes authorized hereunder, or a portion thereof, as qualified tax-exempt obligations under Section 265 of the Internal Revenue Code of 1986, as amended, is hereby delegated to the Finance Director.

THAT the City's Finance Director, Treasurer, Clerk, and other proper officials of the City be, and hereby are, authorized and empowered in its name and on its behalf to do or cause to be done all such acts and things, and to execute, deliver, file, approve, and record all financing documents, contracts, agreements, certificates, preliminary and final official statements, tax certificates and other documents as may be necessary or advisable, with the advice of counsel for the City, to carry out the provisions of this order, as may be necessary or desirable.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds or any related financing documents, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, is authorized to act for such official with the same force and effect as if such official had himself or herself performed such act.

THAT the authority to issue the bonds or notes authorized hereunder shall automatically expire 2 years from the approval of this Order.

THAT this order is a declaration of official intent pursuant to Treas. Reg. § 1.150-2 and shall be kept available for public inspection during reasonable business hours at the office of the City Clerk.

Bond Order - Reallocation

ORDER 57-05022022

City Council Order

IN CITY COUNCIL

ORDER - Reallocating Unspent Proceeds from the City's General Obligation Bonds

ORDERED, WHEREAS, the City of Auburn issued General Obligation Bonds in various amounts for various projects; and

WHEREAS, there remain unspent proceeds of the Bonds borrowed for multiple capital improvements, $362,600 of which excess proceeds the City Council desires to reappropriate and reallocate to be used for the projects listed below;

FY 23 Unallocated

	Description		Unallocated Bond Proceeds
Airport	Hangar Door Repair		$ 75,000
City Clerk	Record Restoration		$ 50,000
Facilities	Knight House Repairs		$ 40,000
City Wide Vehicles	Recreation Department Truck		$ 45,000
Recreation	Side by Side		$ 15,000
Police	Patrol Rifle Replacement		$ 17,500
Public Works	Court Street Sidewalk (in front of Auburn Hall)		$ 70,000
Public Works	Infield Groomer		$ 32,600
Facilities	Gym Floor - Boys and Girls Club		$ 50,000
TOTAL UNALLOCATED CIP			$ 395,100

NOW, THEREFORE, by the City Council of the City of Auburn, be it hereby ORDERED:

THAT the excess proceeds of the Bonds, in the amount of $362,600 be and hereby are appropriated from the amount borrowed as part of various Bonds to finance the costs of the projects listed above.

THAT the City's Finance Director / Treasurer be, and hereby is, authorized and empowered in the name and on behalf of the City, to do or cause to be done all such acts and things, and to execute and deliver, all such financing documents, certificates, and other documents as may be necessary or advisable, with the advice of counsel for the City, to carry out the provisions of this Order, as may be necessary or desirable.

A Public Notice describing the repurposing of these Bond proceeds borrowed for Various Projects to the list above was published on or before May 2, 2022, in the Lewiston Sun-Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 16, 2022 **Resolve:** 03-05022022

Author: Jill M. Eastman, Finance Director

Subject: Resolve Adopting the 2022-2023 Annual Appropriation and Revenue Resolve (Second and Final Reading)

Information: In accordance with the City Charter, Article 8, Section 8.6, prior to the fiscal year the City Council shall adopt an annual appropriation resolve making appropriations by department, fund, services, strategy or other organizational unit and authorizing an allocation for each program or activity.

The Council has been supplied with a resolve to adopt the annual appropriations for the City of Auburn, which includes final figures for revenue, total appropriation and municipal budget.

The school appropriation has been incorporated into this annual appropriation resolve for the City of Auburn.

This is the second and final reading of the Appropriation Resolve for FY 22-23.

City Budgetary Impacts: With this FY 23 Proposed Budget with Council amendments the tax levy increase is 6.12%, which is below CPIU at 6.7% . At this time, the estimated proposed mil rate increase is 4.9%.

Staff Recommended Action: Staff recommends passage of the budget on the second reading.

Previous Meetings and History: Preliminary budget presentation April 4, 2022 and final Manager's Budget presentation April 19, 2022, first reading and public hearing May 2, 1922.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RESOLVE 03-05022022

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the following be, and hereby is the Annual Appropriation and Revenue Resolve of the City of Auburn for the fiscal year 2022-2023, which includes the amounts appropriated herein and revenues from all sources beginning July 1, 2022 and ending June 30, 2023.

The estimated aggregate amount of non-property tax revenue is $57,242,831 with a municipal revenue budget of $20,675,616 and a School Department revenue budget of $36,567,215.

The aggregate appropriation for the City of Auburn is $106,977,151, with a municipal budget of $48,483,841 County budget of $2,761,220 and a School Department budget of $55,732,090 which received School Committee approval on April 27, 2022, and school budget approved at the May 16, 2022 Council Meeting pursuant to the School Budget Validation vote on June 7, 2022, in accordance with Maine Revised Statues, Title 20-A § 1486 and based on the budget submitted to the Auburn City Council on April 19, 2022, by the City Manager, and notification was posted on the City of Auburn website on April 28, 2022 that a public hearing would be held on May 2, 2022 at 7:00 p.m. and said hearing having been held on that date, and as amended by the City Council, the same is hereby appropriated for the fiscal year 2022-2023 beginning July 1, 2022 for the lawful expenditures of the City of Auburn and the County of Androscoggin taxes, and said amounts are declared not to be in excess of the estimated revenue from taxation and sources other than taxation for the fiscal year of 2022-2023.

SCHOOL BUDGET ARTICLES

Ordered that the Auburn City Council hereby adopts and approves the following School Budget articles for Fiscal Year 2022-2023

1. That $20,492,295 be authorized to be expended for Regular Instruction;

2. That $ 12,237,270 be authorized to be expended for Special Education;

3. That $-0- be authorized to be expended for Career and Technical Education;

4. That $ 893,936 be authorized to be expended for Other Instruction;

5. That $ 3,291,349 be authorized to be expended for Student and Staff Support;

Richard Whiting, Ward One

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Resolve

6. That $ 1,217,269 be authorized to be expended for System Administration;

7. That $ 2,362,172 be authorized to be expended for School Administration;

8. That $ 1,824,534 be authorized to be expended for Transportation and Buses;

9. That $ 5,281,608 be authorized to be expended for Facilities Maintenance;

10. That $ 7,726,548 be authorized to be expended for Debt Service and Other Commitments;

11. That $ 40,953 be authorized to be expended for All Other Expenditures;

12. That $ 49,483,622 be appropriated for the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and that $14,867,518 be raised as the municipality's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with the Maine Revised Statutes, Title 20-A, section 15688;

Explanation: *The city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding*

Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.

13. That $894,187 be raised and appropriated for the annual payments on debt service previously approved by the city's legislative body for non-state-funded school construction projects or non-state-funded portions of school construction projects, in addition to the funds appropriated as the local share of the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with Maine Revised Statues, Title 20-A, Section 15690 (2A);

Explanation: *Non-state-funded debt service is the amount of money needed for the annual payments on the city's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the voters or other legislative body.*

14. That $3,195,978 be raised and appropriated in additional local funds, which exceeds the State's Essential Programs and Services allocation model by $3,195,978, as required to fund the budget recommended by the School Committee.

The School Committee recommends $3,195,978, which exceeds the State's Essential Programs and Services allocation model by $3,195,978. The School Committee gives the following reasons for exceeding the State's Essential Programs and Services funding model:

City Council Resolve

The Essential Programs and Services funding model does not recognize all of the costs of special education services, transportation services, instructional services, co-curricular services and other services that the School Department provides.

> ***Explanation:*** *The additional local funds are those locally raised funds over and above the city's local contribution to the total cost of funding public education from Pre- kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state-funded debt service that will help achieve the school department budget for educational programs.*

15. That the school committee be authorized to expend $55,367,933 for the fiscal year beginning July 1, 2022 and ending June 30, 2023 from the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act, non-state-funded school construction projects, additional local funds for school purposes under the Maine Revised Statutes, Title 20-A, section 15690, unexpended balances, tuition receipts, fund balances, state subsidy and other receipts for the support of schools;

16. That the City of Auburn appropriate $364,157 for Adult Education and raise $207,192 as the local share, with authorization to expend any additional, incidental or miscellaneous receipts in the interest and for the well-being of the adult education program.

17. That in addition to amounts approved in the preceding articles, the School Committee be authorized to expend such other sums as may be received from federal or state grants or programs or other sources during the fiscal year for school purposes, provided that such grants, programs or other sources do not require the expenditure of other funds not previously appropriated.

18. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic facilities.

19. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment, and related technology for the School Department.

RESOLVED, The City is authorized to accept grants and forfeitures and to expend sums that may be received from grants and forfeitures for municipal purposes during the fiscal year

City Council Resolve

beginning July 1, 2022, and ending June 30, 2023, provided that such grants and forfeitures do not require the expenditure of other funds not previously appropriated.

RESOLVED, that fifty percent (50%) of all real estate taxes assessed as in the annual commitment, committed to the Tax Collector, shall be due proportionately from each taxpayer on September 15, 2022, and the remaining fifty percent (50%) shall be due on March 15, 2023.

Except as may be provided by resolve regarding payments in accordance with an installment payment plan, any real estate taxes remaining uncollected on September 16, 2022, and March 16, 2023, respectively shall bear interest at a rate of 4% per annum from and after such dates.

Personal property taxes shall be due and payable on or before September 15, 2022. Any personal property taxes remaining unpaid on September 16, 2022, shall bear an interest rate of 4% per annum from and after such date. Interest on all delinquent taxes shall be computed on a daily basis and shall be collected by the Tax Collector. The Tax Collector is authorized to accept tax prepayments.

RESOLVE 03-05022022

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the following be, and hereby is the Annual Appropriation and Revenue Resolve of the City of Auburn for the fiscal year 2022-2023, which includes the amounts appropriated herein and revenues from all sources beginning July 1, 2022 and ending June 30, 2023.

The estimated aggregate amount of non-property tax revenue is $57,242,831 with a municipal revenue budget of $20,675,616 and a School Department revenue budget of $36,567,215.

The aggregate appropriation for the City of Auburn is $106,977,151, with a municipal budget of $48,483,841 County budget of $2,761,220 and a School Department budget of $55,732,090 which received School Committee approval on April 27, 2022, and school budget approved at the May 16, 2022 Council Meeting pursuant to the School Budget Validation vote on June 14, 2022, in accordance with Maine Revised Statues, Title 20-A § 1486 and based on the budget submitted to the Auburn City Council on April 19, 2022, by the City Manager, and notification was posted on the City of Auburn website on April 28, 2022 that a public hearing would be held on May 2, 2022 at 7:00 p.m. and said hearing having been held on that date, and as amended by the City Council, the same is hereby appropriated for the fiscal year 2022-2023 beginning July 1, 2022 for the lawful expenditures of the City of Auburn and the County of Androscoggin taxes, and said amounts are declared not to be in excess of the estimated revenue from taxation and sources other than taxation for the fiscal year of 2022-2023.

SCHOOL BUDGET ARTICLES

Ordered that the Auburn City Council hereby adopts and approves the following School Budget articles for Fiscal Year 2022-2023

1. That $20,492,295 be authorized to be expended for Regular Instruction;

2. That $ 12,237,270 be authorized to be expended for Special Education;

3. That $-0- be authorized to be expended for Career and Technical Education;

4. That $ 893,936 be authorized to be expended for Other Instruction;

5. That $ 3,291,349 be authorized to be expended for Student and Staff Support;

Phillip L. Crowell, Jr., City Manager

City Council Resolve

6. That $ 1,217,269 be authorized to be expended for System Administration;

7. That $ 2,362,172 be authorized to be expended for School Administration;

8. That $ 1,824,534 be authorized to be expended for Transportation and Buses;

9. That $ 5,281,608 be authorized to be expended for Facilities Maintenance;

10. That $ 7,726,548 be authorized to be expended for Debt Service and Other Commitments;

11. That $ 40,953 be authorized to be expended for All Other Expenditures;

12. That $ 49,483,622 be appropriated for the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and that $14,867,518 be raised as the municipality's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with the Maine Revised Statutes, Title 20-A, section 15688;

Explanation: *The city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding*

Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.

13. That $894,187 be raised and appropriated for the annual payments on debt service previously approved by the city's legislative body for non-state-funded school construction projects or non-state-funded portions of school construction projects, in addition to the funds appropriated as the local share of the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with Maine Revised Statues, Title 20-A, Section 15690 (2A);

Explanation: *Non-state-funded debt service is the amount of money needed for the annual payments on the city's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the voters or other legislative body.*

14. That $3,195,978 be raised and appropriated in additional local funds, which exceeds the State's Essential Programs and Services allocation model by $3,195,978, as required to fund the budget recommended by the School Committee.

The School Committee recommends $3,195,978, which exceeds the State's Essential Programs and Services allocation model by $3,195,978. The School Committee gives the following reasons for exceeding the State's Essential Programs and Services funding model:

City Council Resolve

The Essential Programs and Services funding model does not recognize all of the costs of special education services, transportation services, instructional services, co-curricular services and other services that the School Department provides.

> ***Explanation:*** *The additional local funds are those locally raised funds over and above the city's local contribution to the total cost of funding public education from Pre- kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state-funded debt service that will help achieve the school department budget for educational programs.*

15. That the school committee be authorized to expend $55,367,933 for the fiscal year beginning July 1, 2022 and ending June 30, 2023 from the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act, non-state-funded school construction projects, additional local funds for school purposes under the Maine Revised Statutes, Title 20-A, section 15690, unexpended balances, tuition receipts, fund balances, state subsidy and other receipts for the support of schools;

16. That the City of Auburn appropriate $364,157 for Adult Education and raise $207,192 as the local share, with authorization to expend any additional, incidental or miscellaneous receipts in the interest and for the well-being of the adult education program.

17. That in addition to amounts approved in the preceding articles, the School Committee be authorized to expend such other sums as may be received from federal or state grants or programs or other sources during the fiscal year for school purposes, provided that such grants, programs or other sources do not require the expenditure of other funds not previously appropriated.

18. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic facilities.

19. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment, and related technology for the School Department.

RESOLVED, The City is authorized to accept grants and forfeitures and to expend sums that may be received from grants and forfeitures for municipal purposes during the fiscal year

City Council Resolve

beginning July 1, 2022, and ending June 30, 2023, provided that such grants and forfeitures do not require the expenditure of other funds not previously appropriated.

RESOLVED, that fifty percent (50%) of all real estate taxes assessed as in the annual commitment, committed to the Tax Collector, shall be due proportionately from each taxpayer on September 15, 2022, and the remaining fifty percent (50%) shall be due on March 15, 2023.

Except as may be provided by resolve regarding payments in accordance with an installment payment plan, any real estate taxes remaining uncollected on September 16, 2022, and March 16, 2023, respectively shall bear interest at a rate of 4% per annum from and after such dates.

Personal property taxes shall be due and payable on or before September 15, 2022. Any personal property taxes remaining unpaid on September 16, 2022, shall bear an interest rate of 4% per annum from and after such date. Interest on all delinquent taxes shall be computed on a daily basis and shall be collected by the Tax Collector. The Tax Collector is authorized to accept tax prepayments.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 16, 2022 **Order:** 64-05162022

Author: Mark Conrad, Business Manager

Subject: 2022-23 Auburn School Department budget

Information: On April 27, 2022, the Auburn School Committee unanimously voted to approve a 2022-23 operating budget of $55,732,090. The budget represents a 15.3% overall increase from the current year, with a local increase of 6.2% ($1,121,795). Bond payments (principal and interest) for the new Edward Little High School are resulting in an increase in debt service of $5,300,606, accounting for 71.8% of the total budget increase of $7,390,724.

The School Committee also voted unanimously on April 27, 2022 to establish two reserve funds – the Edward Little High School Capital Reserve Fund and the School Technology Equipment Reserve Fund – and to appropriate $125,000 into each Fund from unexpended year-end balances.

City Budgetary Impacts: The total local allocation requested for 2022-23 is $19,164,875. Based on current valuation, the mil rate for education for 2022-23 would be $9.81, an increase of $0.48, or an increase of $72.47 on a home valued at $150,000.

Staff Recommended Action: The School Committee and Superintendent recommend that the City Council approve the 2022-23 education budget as presented.

Previous Meetings and History: The School Committee has held many budget meetings and workshops to develop the proposed budget, beginning March 2nd. The School Committee encouraged public comment at each budget meeting. A joint meeting was held with City Council on April 19th to preview the 2022-23 budget.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 64-05162022

City Council Order

Ordered that the Auburn City Council hereby adopts and approves the following School Budget articles for Fiscal Year 2022-2023.

1. That $20,492,295 be authorized to be expended for Regular Instruction;

2. That $ 12,237,270 be authorized to be expended for Special Education;

3. That $-0- be authorized to be expended for Career and Technical Education;

4. That $ 893,936 be authorized to be expended for Other Instruction;

5. That $ 3,291,349 be authorized to be expended for Student and Staff Support;

6. That $ 1,217,269 be authorized to be expended for System Administration;

7. That $ 2,362,172 be authorized to be expended for School Administration;

8. That $ 1,824,534 be authorized to be expended for Transportation and Buses;

9. That $ 5,281,608 be authorized to be expended for Facilities Maintenance;

10. That $ 7,726,548 be authorized to be expended for Debt Service and Other Commitments;

11. That $ 40,953 be authorized to be expended for All Other Expenditures;

12. That $ 49,483,622 be appropriated for the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and that $14,867,518 be raised as the municipality's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with the Maine Revised Statutes, Title 20-A, section 15688;

Explanation: *The city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding*

Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.

13. That $894,187 be raised and appropriated for the annual payments on debt service previously approved by the city's legislative body for non-state-funded school construction projects or non-state-funded portions of school construction projects, in addition to the funds appropriated as the local share of the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with Maine Revised

City Council Order

Statues, Title 20-A, Section 15690 (2A);

Explanation: *Non-state-funded debt service is the amount of money needed for the annual payments on the city's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the voters or other legislative body.*

14. That $3,195,978 be raised and appropriated in additional local funds, which exceeds the State's Essential Programs and Services allocation model by $3,195,978, as required to fund the budget recommended by the School Committee.

The School Committee recommends $3,195,978, which exceeds the State's Essential Programs and Services allocation model by $3,195,978. The School Committee gives the following reasons for exceeding the State's Essential Programs and Services funding model:

The Essential Programs and Services funding model does not recognize all of the costs of special education services, transportation services, instructional services, co-curricular services and other services that the School Department provides.

Explanation: *The additional local funds are those locally raised funds over and above the city's local contribution to the total cost of funding public education from Pre- kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state-funded debt service that will help achieve the school department budget for educational programs.*

15. That the school committee be authorized to expend $55,367,933 for the fiscal year beginning July 1, 2021 and ending June 30, 2022 from the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act, non-state-funded school construction projects, additional local funds for school purposes under the Maine Revised Statutes, Title 20-A, section 15690, unexpended balances, tuition receipts, fund balances, state subsidy and other receipts for the support of schools;

16. That the City of Auburn appropriate $364,157 for Adult Education and raise $207,192 as the local share, with authorization to expend any additional, incidental or miscellaneous receipts in the interest and for the well-being of the adult education program.

17. That in addition to amounts approved in the preceding articles, the School Committee be authorized to expend such other sums as may be received from federal or state grants or programs or other sources during the fiscal year for school purposes, provided that such grants, programs or other sources do not require the expenditure of other funds not previously appropriated.

City Council Order

18. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic facilities.

19. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Departments unexpended balances at the end of the 2021-2022 fiscal year to the School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment, and related technology for the School Department.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 16, 2022 **Order:** 65-05162022

Author: Phil Crowell, City Manager

Subject: Design/Build RFP for a footbridge

Information: Councilor Walker and Staples are requesting a Design/Build RFP for a footbridge which would be located on Newbury Street and expand the Little Androscoggin River to Anniversary Park.

See the attached memo sample photo from the councilors for additional details.

City Budgetary Impacts: The RFP would determine the cost to design and build the footbridge. The RFP would be brought before the city council for further consideration.
