(a) Any parties aggrieved by a decision of the city clerk under this ordinance may bring the following appeals to the city council:

(1) Appeal by the applicant of the city clerk's denial of an application;

(2) Appeal by the applicant of any license granted by the city clerk with conditions to which the applicant/licensee objects; and

(3) Appeal by any aggrieved party having legal standing of any decision by the city clerk to grant a license under this ordinance.

(b) Appeals must be filed in writing with the office of the city clerk or designee within 30 days of the date of the decision subject to appeal.

(c) The city council shall hold a *de novo* hearing on an appeal within 30 days of the date the appeal is received by the city, unless all parties consent to an enlargement of that time period. It shall be the duty of the city clerk

City Council Ordinance

or designee to notify such parties of the time and place of the hearing. At the hearing, the city council will receive evidence on the application. Following the hearing, the city council shall issue a written decision on the appeal with its findings of fact and conclusions of law.

(d) The city council may approve any application previously denied by the city clerk only upon the affirmative vote of five or more members of the city council.

(e) An appeal from any final decision of the city council may be taken by any party to Superior Court in accordance with the provisions of Rule 80B of the Maine Rules of Civil Procedure.

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **August 2023 Financial Report**

DATE: **September 18, 2023**

The following is a discussion regarding the significant variances found in the City's August financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its second month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 16.66% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues, for the City, collected through August 31st were $9,857,961, or 9.21%, of the budget, which is higher than last year at this time by 0.86%. The accounts listed below are noteworthy.

A. Property tax revenue of $3,774,584 a decrease over last year of $2,235,916. This is due to the timing of sending out the tax bills. This year we were about two weeks later than last fiscal year.

B. State Revenue Sharing for the month of August is 13.72% or $618,813. This is a decrease from last year of $489,529. This is due to the timing of posting the August payment. It has been posted now and the amount was $491,969, which brings this account equal to last year at this time.

Expenditures

City expenditures through August 31st were $6,372,442, or 8.09%, of the budget as compared to last year at $5,395,895 or 10.51%.

In the current fiscal year, the percentage of expenditures is higher than last year by 1.27% or $979,547 difference.

Investments

This section contains an investment schedule as of August 31st with a comparison to July 31st. Currently the City's funds are earning an average interest rate o4.12% compared to 0.41% last year.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for August 31, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of August 31, 2023.

The Norway Savings Bank Arena report now includes a budget to actual comparison with last fiscal year for both revenues and expenditures.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, July 31, 2023.

Current Assets:
As of the end of August 2023 the total current assets of Norway Savings Bank Arena were ($959,455). These consisted of cash and cash equivalents of $281,103, accounts receivable of $68.725, and an interfund payable of $1309.283, which means that Norway owes the General Fund $1,309.283 at the end of August.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of August 31, 2023 was $102,173.

Liabilities:
NSB Arena had accounts payable of $2,345, and a net pension liability of $52,355 as of August 31, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through August 2023 are $97,764. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through August 2023 were $198,973. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of August 2023, Norway Arena has an operating loss of $101,209 compared to the August 2022 operating gain of $26,614.

As of August 31, 2023, Norway Arena has a decrease in net assets of $101,209.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY24 is $28,799 less in FY23 and expenditures in FY24 are $92,897 more than last year in August.

City Council Workshop & Meeting
Agenda
October 16, 2023
Auburn Hall, Council Chambers

5:30 P.M. City Council Workshop

A. Winter Oaks Concept Plan and PRO Housing Grant Application – Glen Holmes
B. Lake Auburn – Eric Cousens
C. Economic development (real estate matter), pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Whiting

Pledge of Allegiance

I. Consent Items – None

II. Minutes - September 18, 2023, Regular City Council Meeting

III. Communications, Presentations and Recognitions

- Recycling Update – Phil Crowell, City Manager
- Proclamation - Extra Mile Day (November 1, 2023)
- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Order 115-09052023
Approving the renewal of an Auto Graveyard/Junkyard permit for Don's No Preference Towing, dba Morris Auto Parts, 940 Washington St. North.

2. Ordinance 20-09182023
Amending Chapter 24, Article II, Division 1, Sec. 24-33 of the General Assistance Ordinance Annual Adjustment of Maximum Benefits. Public hearing and second reading.

3. Ordinance 21-09182023
Amending the Code of Ordinances, Chapter 14, Article XVIII Adult Use and Medical Marijuana Business licensing. Public hearing and first reading.

4. Public hearing - Partial discontinuance of Chestnut Street

5. **Public hearing -** Discontinuance and re-alignment of Miller Street

VI. New Business

1. **Public hearing** - CDBG/HOME Consolidated Annual Performance Evaluation Report (CAPER) Program Year 2022.

2. **Ordinance 22-10162023**
   Amending the Auburn Zoning Ordinance – Minimum Dwelling Size. First reading.

3. **Ordinance 23-10162023**
   Amending the Auburn Zoning Map, Area B change, from UR, SR, and LDCR to T4.2B. First reading.

4. **Order 131-10162023**
   Authorizing the issuance of General Obligation Bonds and Tax Levy Therefor, for the proposed Public Safety Building. Public hearing and first reading. **Requires an affirmative vote of five.**

5. **Order 132-10162023**
   Authorizing the City Manager to execute a modified contract with Casella to reinstate curbside recycling.

6. **Order 133-10162023**
   Allocating $10,317.00 from the American Rescue Plan Act (ARPA) funds to the Auburn Ski Association to purchase an alpine ski timing system.

7. **Order 134-10162023**
   Allocating $10,000 of American Rescue Plan Act (ARPA) funds to the Edward Little High School Outdoor Club.

8. **Order 135-10162023**
   Allocating $10,000.00 from the American Rescue Plan Act (ARPA) funds to Special Olympics Maine to be the "Presenting Sponsor" for the "Special Olympics Maine Winter Games 2024" to be held at Lost Valley in February 2024.

9. **Order 136-10162023**
   Allocating up to $5,000.00 from the American Rescue Plan Act (ARPA) funds to provide public safety costs (Police and EMS services) associated with Special Olympics Maine Winter Games 2024" to be held at Lost Valley in February 2024.

VII. Open Session -

Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda

VII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

IX. Executive Sessions

- **Economic development, pursuant to 1 M.R.S.A. §405(6)(C)** which premature disclosure would prejudice the competitive or bargaining position of the City.
- **Economic development, pursuant to 1 M.R.S.A. §405(6)(C)** which premature disclosure would prejudice the competitive or bargaining position of the City.

- **Personnel matter, pursuant to 1 M.R.S.A. §405(6)(A)**

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **Workshop**

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Winter Oaks Concept Plan and PRO Housing Grant Application

---

Information:
The City of Auburn is collaborating with key partners, including Homes For All, LLC, Androscoggin Land Trust, Androscoggin Savings Bank, Androscoggin County Emergency Management Agency, and the Auburn-Lewiston YMCA, to transform a 62-acre city-owned parcel into a mixed-use, mixed-income community. This initiative combines environmental conservation, outdoor education, affordable housing, childcare, and community enrichment programs.

The project involves creating 100 new residential units, comprised of 48 single-family homes, 8 owner-occupied duplexes, and three 12-unit apartment buildings on city owned property. This project will seamlessly connect with existing city sidewalks and bike lanes, extending to 25 acres of conserved natural land and hiking trails. Additionally, the development will provide infrastructure for an outdoor environmental education center, on-site childcare, and a multi-use community space which will double as an emergency shelter facility for regional residents.

The City of Auburn's Business & Community Development department seeks Council support to secure a $9.5 million grant from the Pathways to Removing Obstacles to Housing (PRO Housing) program. These funds will cover construction costs for new public roads and utilities, including sidewalks, sewer, and water services within the development.

City Budgetary Impacts:
The $4 million in applicant matching funds will be primarily covered by staff time of key city employees over a 5-year development plan, a significant portion of which is already funded by existing entitlement funds from the U.S. Department of Housing & Urban Development. Furthermore, additional funds from a forthcoming affordable housing Tax Increment Finance district will offer additional development incentives and support operational costs for on-site childcare and the Androscoggin Land Trust.

Staff Recommended Action:

Winter Oaks Housing Development

PRO Housing Application Proposal

Total project proposes 100 mixed income residential units providing for:

- 56 new Homeowners
- 44 new rental units
- 1 new childcare facility
- 1 new community facility
  - Including emergency warming/cooling shelter

auburnmaine.gov

Community benefits

PRO HOUSING
Pathways to Removing Obstacles

- **Housing: Racial & Economic Equity**
  - Affordable housing
    - Homeownership – 56 new homeowners
    - Rental development – 44 new mixed-income apartments
  - Advancing racial equity by deconcentrating minority housing from traditional urban, low-income neighborhoods
  - Affirmative Marketing
    - 70% of houses will be marketed and sold to income qualifying applicants at or below HUD sales price cap
    - 70% of apartments will be marketed and rented to income qualifying applicants at or below HUD established rent cap

- **Community Infrastructure**
  - Public Parks
    - Public park with art installations
    - Land Trust managed hiking trails
    - Conservation land for public access
  - Pedestrian safety and traffic slowing implements
  - Bike path & sidewalks connect to greater community
  - Emergency preparedness warming/cooling shelter
  - Community gathering spaces (indoor & out)
  - Extension of utilities to the greater community

- **Community Services**
  - Land-Trust managed outdoor education space
  - Community room available for public use
  - YMCA managed on-site childcare

auburnmaine.gov

Homes For All, LLC

Homes For All, LLC, a woman and minority-owned business, founded by Fatuma Hussein, an Auburn resident with a strong history in addressing housing disparities by providing translation and social services. Fatuma has played a pivotal role at the Immigrant Resource Center of Maine, offering culturally and linguistically sensitive support to refugee and immigrant communities in Maine. Fatuma founded Homes For All, LLC and employs an advisory council of experienced housing developers with backgrounds in non-profit as well as for-profit housing development.

Homes For All, LLC Advisory Council:

- **Dana Totman** – Affordable Housing & non-profit leader with 40+ years' experience addressing community challenges around housing. Previous roles include:
  - President & CEO of Avesta Housing 2000-2022
  - Deputy Director of Maine State Housing Authority 1994-2000
- **Kevin Bunker** – Specialization in housing development financing, permitting & project Management. Previous roles include:
  - Principal of Developers Collaborative 2007-2023
  - Assistant Planer at City of Rockland 2003-2006
- **Genesis Community Loan Fund -** Agency providing Technical Assistance to Maine communities including municipalities, community groups, private developers, and cultural organizations that have an interest in creating affordable housing.

auburnmaine.gov

Public Access

ANDROSCOGGIN LAND TRUST

This project aims to foster a symbiotic partnership between Winter Oaks development, the City of Auburn, and the Androscoggin Land Trust. Our goal is to elevate residents' quality of life by emphasizing environmental conservation, outdoor education, and community engagement. By incorporating these initiatives into our development plan, we are making an equitable investment in neighborhood amenities that enhance the health, safety, and overall quality of life for both new residents and the wider community.

ALT will establish and maintain a stewardship endowment fund, akin to those set up for other parcels. This fund will allow them to allocate a yearly percentage towards essential stewardship costs. They will also mobilize a dedicated network of volunteers to assist with maintenance, programming, and stewardship efforts for the Winter Oaks Parcel.

1. Neighborhood Walking Trails:
We will create neighborhood walking trails that link the Winter Oaks property, identified green spaces, and the Androscoggin Land Trust's conserved lands providing opportunities for walking, jogging, birdwatching, and nature appreciation.

2. Outdoor Education:
These initiatives will promote environmental awareness and encourage residents to connect with the natural world, benefiting the broader community.

3. Land Conservation:
This project builds accessible hiking trails on the 25 acres of property previously donated to the Land Trust for long-term conservation.

4. **Community Engagement:**
Hosting community clean-up events or environmental workshops for residents within the proposed community room and parks to be created within the development.

auburnmaine.gov

Community Building

Our project will establish indoor and outdoor spaces for community groups and public gatherings. These spaces will also facilitate the provision of additional community services through our partnership with the YMCA of Auburn-Lewiston. The YMCA will open, staff, furnish, and operate at its own cost a full-service Early Childhood Education Center at the proposed housing community center. Priority will be given to residents in the proposed Winter Oaks Housing Development. Licensing, staff training, and initial start-up costs are expected to be between $40,000 and $60,000. The YMCA will provide these funds as an in-kind donation to the project.

1. On-site Childcare:

Childcare is an essential aspect of not only early education but increasing of potential workforce. Both full day childcare and after-school programming will be serving the larger community need. Services will be provided at a subsidized rate to income-qualifying residents.

2. Transportation:

Transportation shuttles will be a key part of providing access for residents of this remote neighborhood to be able to access additional YMCA programming such as Summer Camp and youth sports.

3. Playground:

In connection with childcare will be a public access playground. This addition better serves the community at large by providing a safe and accessible place for families with younger children to gather, grow and learn.

4. Community gathering space:

Additional community gathering space is included within the mixed-use multi-unit buildings. These facilities include a small kitchen space and community room available to organizations and families for educational events, potluck fundraisers, and civic gatherings.

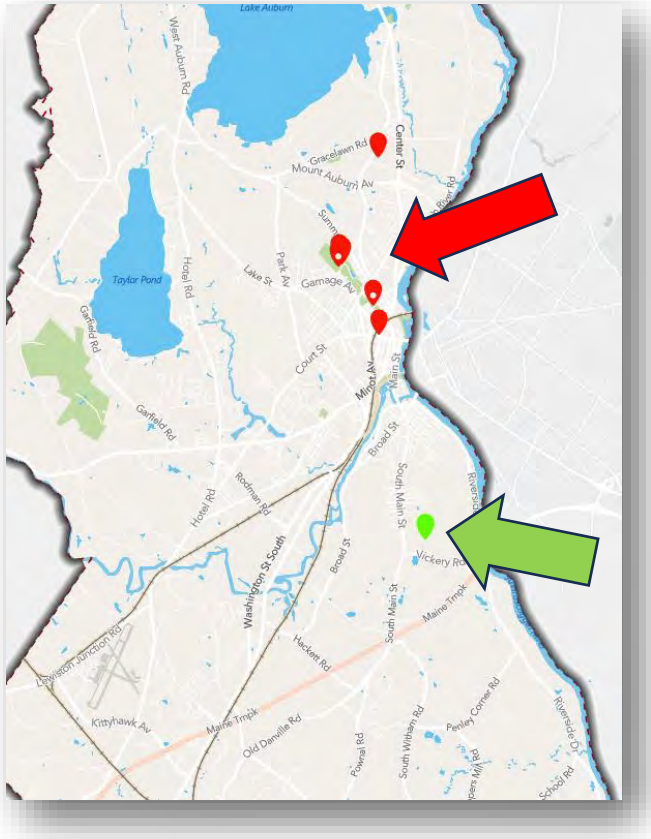
Emergency Shelter

Androscoggin EMA is a vital community partner that provides essential training and education to prepare both our community and partner organizations for disasters proactively. Their support extends to funding emergency preparedness and response resources, such as backup generators for disaster emergency shelters.

Multi-unit facilities which do not have back up electrical and/or heating systems pose high-risk situations during prolonged power failures.

Building Resilient Infrastructure and Communities (BRIC) grants can be leveraged to provide funding and technical assistance to local communities as they undertake hazard mitigation projects which reduce the risks proposed by disasters and natural hazards.

Creating a community disaster emergency shelter with backup utilities at Winter Oaks will benefit the underserved neighborhood south of the Little Androscoggin River, enhancing emergency resiliency and resource allocation in the area.



Existing Emergency Shelters

- Norway Savings Bank Arena
- Senior Community Center
- Hasty Memorial Gym
- Ingersoll Turf Facility
- Auburn Public Library
- PAL Center

Proposed Emergency Shelter

- Winter Oaks Community Center

Grant Summary

PRO HOUSING
Pathways to Removing Obstacles

Overview:

Communities nationwide are suffering from a lack of affordable housing, and housing production is not meeting the increasing demand for accessible and available units in many urban and rural areas, particularly areas of high opportunity. Pathways to Removing Obstacles to Housing (PRO Housing) supports communities who are actively taking steps to remove barriers to affordable housing, such as:

- Barriers caused by outdated zoning, land use policies, or regulations;
- Inefficient procedures;
- Gaps in available resources for development;
- Deteriorating or inadequate infrastructure;
- Lack of neighborhood amenities; or
- Challenges to preserving existing housing stock such as increasing threats from natural hazards, redevelopment pressures, or expiration of affordability requirements.

Posted Date: Sept. 7, 2023 **Deadline:** October 30, 2023

Purpose: further develop, evaluate, and implement housing policy plans, improve housing strategies, and facilitate affordable housing production and preservation.

Award Amount: from $1-$10 Mil with six-year performance period.

auburnmaine.gov

Auburn Activities

PRO HOUSING
Pathways to Removing Obstacles

Auburn is addressing a deficit of over 2,000 affordable housing units. Increases in homelessness and asylum seekers has added to the urgency of demand. Auburn General Assistance has seen a 330% increase in local need, primarily for housing, utility, and food aid. Of a total 426 applications received, 112 cases were asylum-related, representing a 509% increase over the previous year. Additionally, In the past seven months Project Support You (PSY) staff has served 263 homeless Auburn residents while co-responding or receiving referrals from Auburn Police & Rescue personnel.

	Applications Received	Cases Receiving Assistance	Cases With Asylum Pending
2021-22	129	109	22
2022-23	426	381	112

Actions taken by the City of Auburn within the past 12 months

- Funded new, low barrier housing development programs.
  - Up to 15 new units from Accessory Dwelling Unit Development (ARPA & MSHA) $500,000
  - Up to 10 new units from HOME Unit Development (HUD) $1,000,000
- Streamlined permitting process for new units
- Improved zoning for new unit development
- Contracted service providers below to offer case management services for Auburn Residents:
  - Rumford Group Homes
  - Tri-County Mental Health
  - Community Concepts Inc.
  - Immigrant Resource Center of Maine
  - Housing Resources for Youth

Community Buy-in

PRO HOUSING
Pathways to Removing Obstacles

Community Participation & Consultation:

The Development Team has relied heavily on the input from community partners in the development of a concept plan. This plan intentionally integrates partners and amenities that will serve the larger community. This plan will continue to provide extensive community consultation and input practices to ensure this project meets its goals on equity, inclusion and the development of a broad-based community support structure. This process ensures progress and the commitment to overcoming local barriers and myopic opposition. This process includes:

(1) Public Posting and Public Hearing of draft application
(2) Community listening sessions with larger New Auburn community.
(3) Continued consultation with Androscoggin Land Trust regarding site design and impact.
(4) Inter agency collaboration with Auburn Water & Sewer regarding utilities installation servicing larger community.
(5) Collaboration with Androscoggin Emergency Management to establish Community Warming/Cooling Emergency Shelter.
(6) Collaboration with Maine State Housing Authority for culturally specific homeowner educational classes.

Winter Oaks Development Supporting Studies:

- 1990 Planning Board Approved Winter Oaks Housing Development Plan
- AWD 2022 New Auburn Public Water System Extension Study
- ASD 2023 New Auburn & Washington St Sewer Routing Study

auburnmaine.gov

HUD Priorities

PRO HOUSING
Pathways to Removing Obstacles

HUD will prioritize applicants that demonstrate:

(1) progress and a commitment to overcoming local barriers to facilitate **the increase in affordable housing production** and preservation; and

(2) an acute demand for housing affordable to households with **incomes below 100 percent of the area median income**.

(3) expanding affordable housing in a manner that would **promote desegregation**;

(4) expanding affordable housing in well-resourced areas of **opportunity for protected class groups that have systematically been denied equitable access** to such areas; or

(5) deconcentrating affordable housing **and increasing housing choice**

National Objective:

a. Benefiting low- and moderate-income persons,

b. Preventing or eliminating slums or blight, or

c. Meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

LEWISTON-AUBURN > Posted July 9 | Updated July 10

BY ANDREW RICE SUN JOURNAL

A vacancy rate of zero is pushing up rents and has Lewiston and Auburn embracing any and all new housing

A vacancy rate of essentially zero means there is no room for mobility for renters facing rent increases or evictions, leaving people priced out. Officials say rent control isn't the answer, more housing is.

Maine's affordable housing crisis is contributing to a big increase in student homelessness

Rukema said across Maine, the number of students identified as homeless skyrocketed to more than 4,400 during the 2022-23 school year.

Fair Housing

PRO HOUSING
Pathways to Removing Obstacles

What is Fair Housing?

Title VIII of the Civil Rights Act of 1968, known as the Fair Housing Act, requires recipients of federal funds from HUD to take meaningful actions, in addition to combating discrimination, that **overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity** based on protected characteristics, which are:

- Race
- Color
- National origin
- Religion
- Sex (including gender identity and sexual orientation)
- Familial status
- Disability

Specifically, affirmatively furthering fair housing means taking meaningful actions to address significant disparities in housing needs and in access to opportunities, **replacing segregated living patterns with truly integrated and balanced living patterns**, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws.

Development Budget

PRO HOUSING
Pathways to Removing Obstacles

The City of Auburn currently owns the undeveloped portion of the original Winter Oaks Development plan. PRO Housing grant funds will be used to construct city owned public infrastructure, including roads, sidewalks and utilities required to service the proposed housing. The city is providing matching funds directly, and funded via additional CDBG funds, to cover staff time providing technical assistance and project oversight of the public infrastructure construction. A to-be-established TIF will provide future service and affordable housing development costs as detailed within the grant application.

The Developer is contributing additional resources and funding to construct the residential units for sale or rent within a phased development plan. Seventy precent of the sales & rentals will be at or below HUD established maximums.

DRAFT

A. EXECUTIVE SUMMARY EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit A: Executive Summary

The city of Auburn is partnering with Homes For All, LLC., The Androscoggin Land Trust, Androscoggin Savings Bank, Androscoggin County Emergency Management Agency, and the Auburn-Lewiston YMCA to develop a 62-acre city-owned parcel into a mixed-use, mixed-income neighborhood which incorporates environmental conservation, outdoor education, affordable housing, child-care, and community enrichment programs.

i. Project Description

The proposed project entails the development of 100 new residential units, consisting of 48 single-family residences, 8 owner-occupied duplexes, and three 12-unit apartment buildings, situated on a 37-acre parcel within a forthcoming city-planned residential community. This development project will seamlessly integrate existing city sidewalks and bike lanes through the proposed development to an additional 25 acres of conserved natural land and hiking trails. Furthermore, the development will provide essential infrastructure to support an outdoor environmental education center, on-site childcare facilities, and an indoor community space designed to function as an emergency warming and cooling center for regional residents.

Funding provided by the PRO Housing grant program will be utilized to install necessary public roads, utilities, and pedestrian infrastructure. Current market-driven construction costs and developer capacity have made developing this existing city-owned property challenging, with multiple attempts stalling due to a lack of available funds.

Developer Background: Homes For All, LLC, a woman, and minority-owned business, founded by Fatuma Hussein, an Auburn resident with a strong history in addressing housing disparities by providing translation and social services. Fatuma has played a pivotal role at the Immigrant Resource Center of Maine, offering culturally and linguistically sensitive support to refugee and immigrant communities in Maine. Fatuma founded Homes For All, LLC and employs an advisory council of experienced housing developers with backgrounds in non-profit as well as for-profit housing development.

Home Ownership: Seventy percent of the newly constructed single-family residences and duplexes will be allocated to households that meet income qualification criteria established within the PRO Housing Program. These homes will include deed restrictions ensuring a 20-year, HUD-approved resale and recapture provision to maintain the program's long-term objectives. Additionally, we have established a strategic partnership with a financial institution specializing in Sharia-compliant and culturally sensitive home loans to help us advance our goals of promoting racial equity.

Affordable Housing: Seventy percent of the apartments within this development will be made available for rent to applicants who meet income qualification criteria, with a 20-year commitment to maintaining affordability. These rental units will be subject to oversight by the City of Auburn in strict compliance with the established monitoring protocols and guidelines governing HOME program units.

Childcare Services: Childcare services will be conveniently offered by the Auburn-Lewiston YMCA, located within one of the mixed-use, multi-unit buildings. Operational expenses for childcare subsidies will be extended to residents of the project who meet income qualification criteria and will be funded as part of a Tax Increment Financing (TIF) district-authorized project cost, in accordance with Maine state statute Title 30-A, Section 5225 (1)(C)(5).

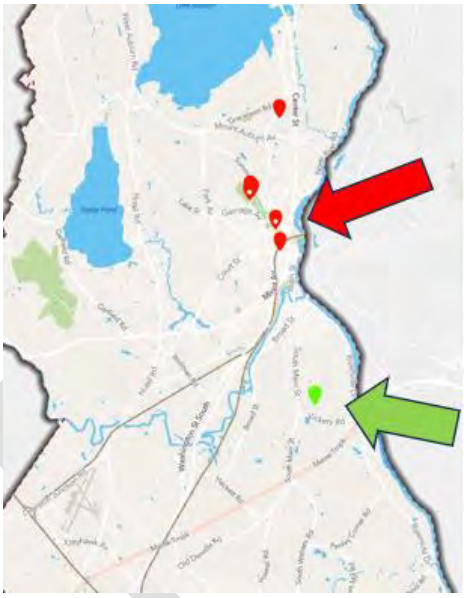
Public Green Spaces and Conservation: A substantial portion of this development will be dedicated to publicly accessible conservation land and green spaces. Already, 25 acres have been transferred to the Androscoggin Land Trust. In addition, space within the development will be set aside for the inclusion of public parks that will showcase art installations and provide bicycle lanes, walking trails, public parking, and facilities for an outdoor educational center and trailhead. These amenities are designed to promote broader community engagement and use.

Emergency Preparedness and Resiliency Planning:

Earlier this year, the City of Auburn hosted the Androscoggin County Natural Hazard Mitigation project planning workshop in collaboration with the Androscoggin Emergency Management Agency. This meeting emphasized the growing need to expand emergency shelter facilities across the city. Currently, three of the five existing facilities managed by the city for emergency shelters are situated on the same property, and an additional one has

DRAFT

yet to be constructed. However, all the existing and proposed shelter facilities are located within a 2-mile radius of each other, making them centrally consolidated in a city that stretches over 15 miles from North to South.

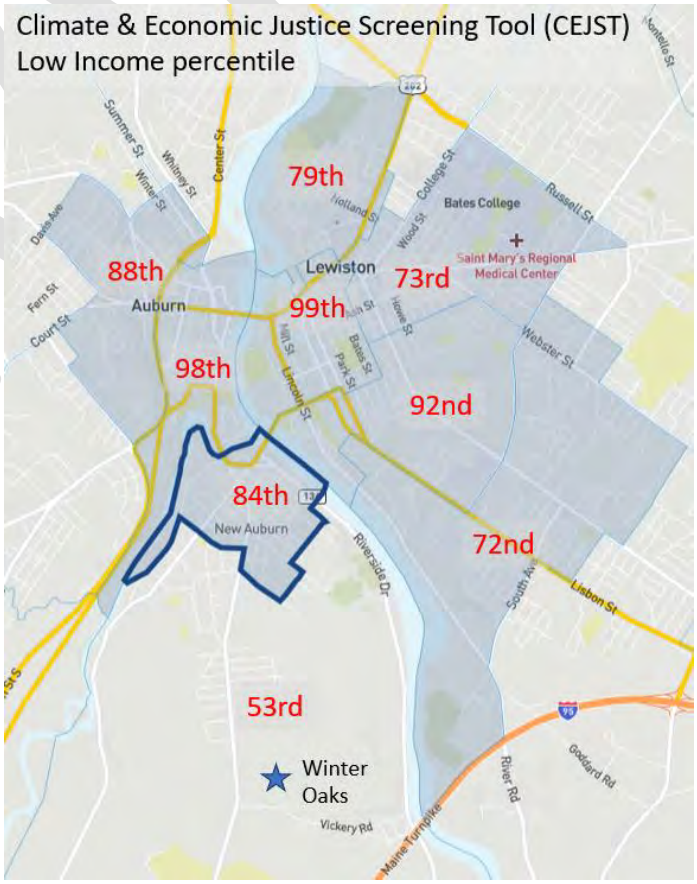


The proposed emergency shelter to be integrated into the Winter Oaks development will be the sole municipal facility positioned south of the Little Androscoggin River, a winding marshy waterway that bisects the entire city. A key partner in this project, which prioritizes sustainable community development in the context of natural hazard mitigation planning, is the Androscoggin County Emergency Management Agency. Together, we are submitting additional applications for state Building Resilient Infrastructure and Communities (BRICS) grants to secure the necessary resources for building and supporting the establishment of a new emergency shelter to serve the broader South Auburn community.

ii. National Objective

The national objectives met within this project pursuant to section 101(c) of the Housing and Community Development Act of 1974 include, but are not limited to, the following:

Benefitting low- and moderate-persons. The Climate and Economic Justice Screening Tool (CEJST) has identified three downtown census tracts in Auburn and five downtown census tracts in Lewiston as disadvantaged. The image to the right visually illustrates the concentration of low-income residents within these two urban cores. The average of the eight separate census tracts ranks at the 85th percentile when compared to the established threshold of concern, which is set at 65.



DRAFT

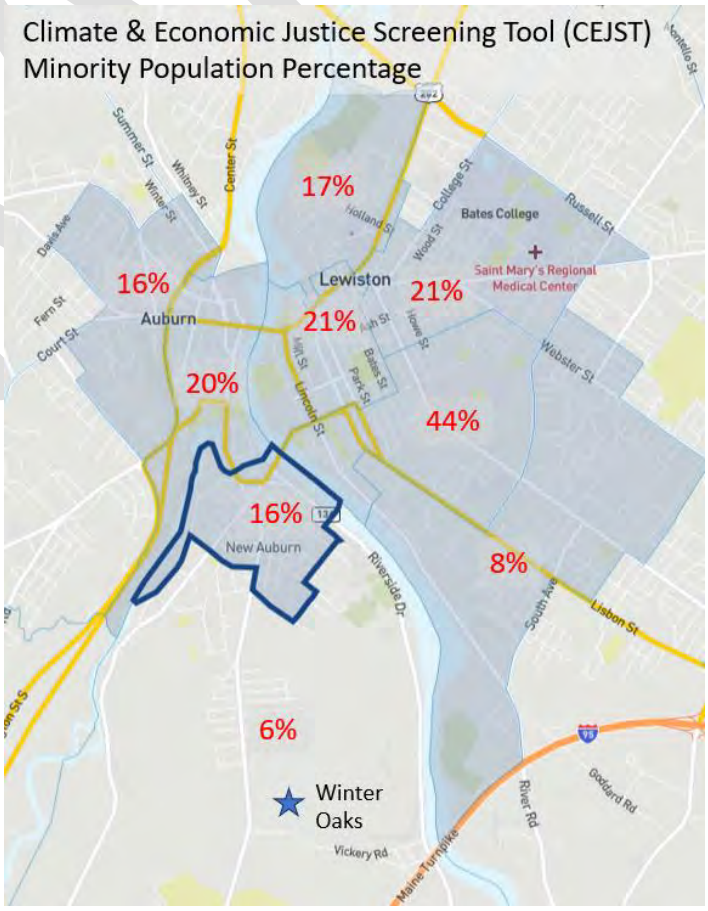
This project aims to establish 100 new residential units outside the urban cores, where affordable housing has historically and unfairly been concentrated. By dedicating 70 percent of these newly created homes and apartments to households qualifying at or below 100% of the Area Median Income (AMI) for a minimum of 20 years, with a particular focus on underserved communities, we seek to address equity issues and promote economic justice.

Preventing or eliminating slums or blight by de-centralizing the development of affordable housing. The proposed location does not currently fall within a low- to moderate-income qualified census block. It will feature planned green spaces with public art installations. This site, situated in a semi-rural environment and adjacent to 25 acres of conservation land, aligns with the city's commitment to deconcentrating affordable housing while improving access to outdoor spaces for affordable housing residents.

Meet other urgent community needs because of immediate threats to the health or welfare of the community. This project addresses a pressing need by establishing an emergency shelter in a neighborhood where such a resource is currently unavailable. The rising frequency of natural hazard events necessitating backup power or the activation of warming/cooling centers for Auburn residents has strained existing response systems. The inclusion of a new community space that can also serve as an emergency center enhances neighborhood resilience and promotes equitable allocation of these critical resources.

iii. Advancing Racial Equity

In accordance with Executive Order 13985, Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, this project will utilize the below assessment and planning and monitoring process consistent with federal nondiscrimination requirements.



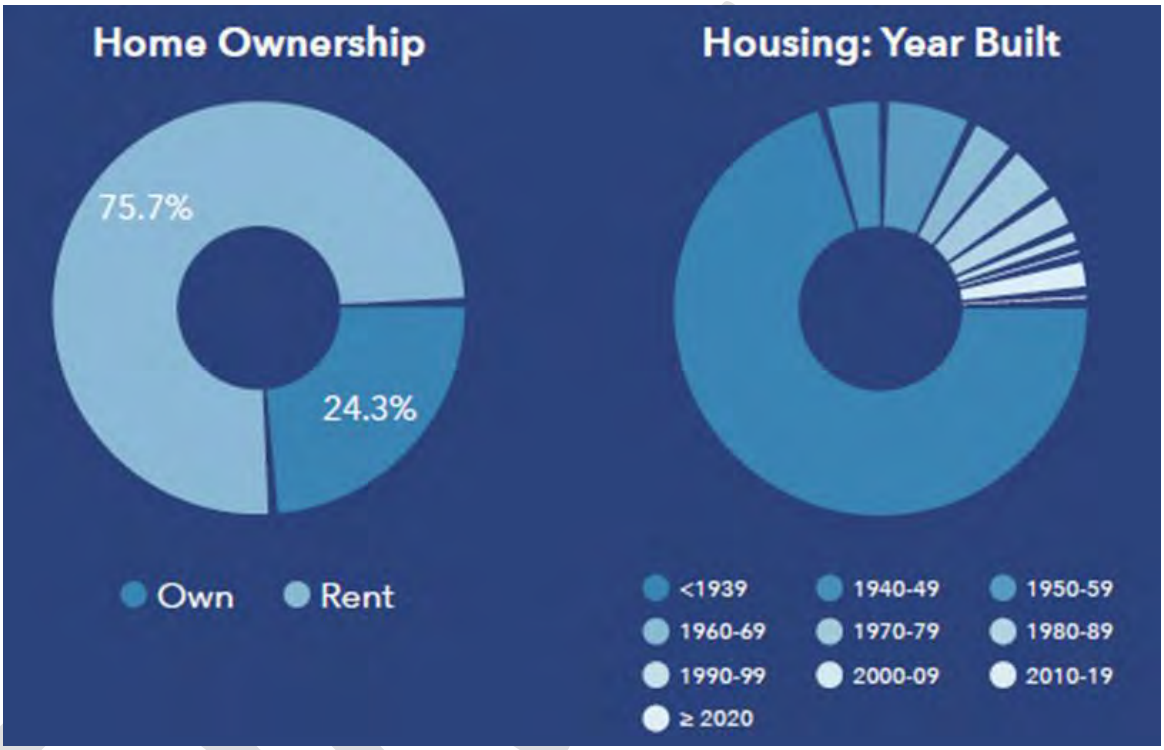
Racial composition of households who are expected to benefit from this project:

The Climate and Economic Justice Screening Tool (CEJST) has identified four downtown census tracts (one in Auburn and three in Lewiston) with a minority population comprising at least 20%. The graphic above

DRAFT

visually illustrates the concentration of the census tracts with the highest minority populations. When compared to the map of low-income populations, a clear and significant correlation emerges, indicating a high presence of low-income residents alongside above-average minority populations within the urban cores of these two cities.

Additionally, the three CDBG qualified census tracts in Auburn are comprised of a housing stock of 75% renters occupying units in which over 75% were constructed before 1968, increasing the prevalence of low to moderate-income, minority residents occupying inefficient, lead-contaminated properties.



Identified potential barriers to persons or communities of color equitably benefitting from this project:

One of the most significant challenges facing individuals and communities of color when it comes to benefiting from new affordable housing developments, such as the proposed project, is the resistance within local communities to placing these projects outside of the established urban core. While expanding affordable housing options to suburban or less densely populated areas is crucial for fostering inclusive community development, it often encounters opposition from local stakeholders. This resistance may arise from concerns related to property values, neighborhood character, or misconceptions about the impact of affordable housing.

The existence of 'Not In My Backyard' (NIMBYism) attitudes and discrimination by communities and neighbors, as highlighted in the Maine State Housing Authority's Analysis of Impediments to Fair Housing Choice published in 2019, is not a new

phenomenon. However, the Auburn administration and City Council have consistently demonstrated their unwavering support for the development of new housing units within the city.

Some of these pioneering approaches have gained national recognition, as exemplified in an article titled "The YIMBYest City in America," where Auburn's Mayor actively confronts the 'Not-In-My-Backyard' (NIMBY) exclusionism the city has encountered. The analysis published by Maine State Housing acknowledges similar barriers at the state level as those observed locally, including the lack of affordable housing unit development, racial and ethnic disparities, and zoning challenges stemming from NIMBYism efforts (discrimination by communities and neighbors).

To address this barrier, our project takes a multifaceted approach:

1. Community Engagement and Education: We prioritize community engagement and public education efforts to dispel misconceptions and raise awareness about the positive impacts of affordable housing. By engaging in open and constructive dialogues with residents, we aim to build support for the project within the local community.

2. Collaboration with Local Leaders: We work closely with local leaders, including city and state officials, neighborhood associations, and influential community members, to gain their support for the project. Their endorsement can help alleviate opposition and foster a sense of shared responsibility for addressing the affordable housing crisis.

3. Inclusivity in Design: Our project incorporates inclusive design principles that ensure the development integrates seamlessly into the existing community. This includes architectural design that complements the surrounding neighborhood, green spaces, amenities that benefit all residents, and traffic management solutions to address concerns about congestion.

4. Affordable Housing Initiatives: We partner with local organizations and housing agencies to provide incentives for affordable housing, such as rent subsidies or homeowner assistance programs. This demonstrates our commitment to addressing the housing needs of marginalized communities.

5. Data-Driven Decision-Making: We rely on comprehensive data analysis to support the project's location selection. This data includes an assessment of demographics, transit accessibility, water and sewer utility capacity, and socioeconomic factors to ensure that the project is strategically placed to benefit those in need.

By implementing these strategies, we aim to mitigate local opposition and ensure that persons and communities of color have equitable access to the benefits of this proposed affordable housing project, thereby fostering an inclusive and diverse community that reflects our commitment to social equity and housing justice.

DRAFT

Detailed steps to prevent, reduce or eliminate barriers:

To address these barriers, the City of Auburn and the project developer have meticulously designed a comprehensive and thoughtful strategy to prevent, reduce, or eliminate obstacles to affordable housing access. This strategy includes allocating budgets for security deposits and down-payment assistance to qualified applicants based on their income. Our unwavering commitment to addressing financial barriers is poised to significantly enhance the effectiveness of our programs.

City administration and elected leaders have departed from conventional governmental approaches to problem-solving. Instead of pursuing large-scale, multi-unit construction projects subsidized by multiple layers of tax incentives and state and federal funds, they have championed more equitable and innovative small-scale methods. One prominent approach is the emphasis on creating new homeowners and multiple owner-occupied duplexes. This not only encourages community engagement by fostering homeowners with a vested interest in their community but also provides sustainable rental income opportunities for many middle- and low-income individuals and families.

Both homeownership and owner-occupied rentals play a pivotal role in enabling families to start building generational wealth, making them essential components of our strategy.

Step 1: Establish Assistance Funding

The City of Auburn, in collaboration with the Auburn Housing Authority and the Maine State Housing Authority, will work closely to create a dedicated fund to ensure that allocated resources are exclusively used for security deposit and down-payment assistance for eligible residents.

Step 2: Define Eligibility Criteria

The developer and the city will collaborate to assess the income qualifications of prospective tenants, ensuring that at least 70% of the units remain affordable. This commitment will be upheld through deeded covenants and regular monitoring conducted by the City's Community Development Office.

Step 3: Outreach and Promotion

Leveraging the developer's extensive history as a housing resource and case management provider, focusing on serving low to moderate-income and diverse communities, we will conduct outreach to establish this project as a representative and inclusive community.

Step 4: Application Process

The city will streamline the application process by aligning it with HUD-approved procedures for income qualifications. This user-friendly, multi-lingual application process removes barriers for eligible applicants seeking security deposit and down-payment assistance.

DRAFT

Step 5: Review and Approval

City approval processes for HUD programs will be enhanced through consultation and procedural refinement, guided by the City's Diversity, Equity, & Inclusion Analyst and the developer's racial equity advisory team.

Step 6: Monitoring and Reporting

Utilizing the city's existing HOME monitoring and reporting system, we will track the impact of the security deposit and down-payment assistance program. This includes regular evaluations of the number of applicants served, the demographics of recipients, and the success rate in securing and maintaining housing.

Step 7: Public Accountability

To promote transparency and garner support, the city will include the results of project monitoring annually in its Consolidated Annual Performance and Evaluation Report (CAPER). This ensures that updates and progress reports on the project's use and assistance provided are regularly shared with the public and relevant stakeholders, building trust and support for the initiative.

Step 8: Sustainability Planning

The success of this project relies on the city's entitlement funds to maintain long-term reporting and accountability beyond the initial three years, ensuring its sustainability.

Measurements used to track progress and evaluate the effectiveness of efforts to advance racial equity within the project:

Tracking progress and evaluating the effectiveness of efforts to advance racial equity within the project is essential to ensure accountability and success. The following are measurements and evaluation steps to be implemented using the existing systems and annual monitoring procedures of the City of Auburn:

Demographic Data Collection:

HUD-approved methods for collecting and reporting demographic data from tenants and homebuyers during the application process will create a composition baseline. This data regularly includes information on race, ethnicity, and income level. This data is collected in a non-intrusive and privacy-conscious manner, following relevant regulations and guidelines.

Analysis of Tenant Demographics:

As part of the City's annual HUD reporting requirement, this data will be regularly analyzed to assess the income, racial, and ethnic composition of residents within the project. Any measurable disparities or inequities identified in the report will provide additional analysis of the reasons behind them.

DRAFT

Outreach and Engagement Metrics:

Tracking the effectiveness of outreach efforts aimed at attracting a diverse applicant pool will be used to evaluate the success of engagement initiatives that promote the project within underserved communities.

Resident Satisfaction Surveys:

The city will conduct regular resident satisfaction surveys to gather feedback from residents about their experiences within and around the project. This includes questions about the sense of belonging, inclusion, and satisfaction with the living environment to gauge the project's impact on racial equity.

Accessible Communication Channels:

The city and developer will ensure that communication channels are accessible and inclusive to residents of all backgrounds. This will be done by monitoring engagement and participation rates in community meetings, workshops, and feedback sessions to assess inclusivity.

Complaints and Grievance Tracking:

The city will establish a system for tracking and addressing complaints or grievances related to racial equity issues within and around the project. These complaints will be used to analyze trends and patterns in complaints and resolutions to identify areas for improvement.

Partnerships and Collaborations:

The multiple partners within this project will measure the impact of these community service providers and collaborations, focusing on racial equity, social justice, and affordable housing. The engagement of residents will be used to track outcomes, joint initiatives, and community-driven projects resulting from these partnerships.

By implementing these measurement and evaluation steps within the existing systems and annual monitoring procedures, the City of Auburn can ensure ongoing accountability and demonstrate a commitment to advancing racial equity within the affordable housing project.

iv. Affirmative Marketing

To assure compliance with Title VIII of the Civil Rights Act of 1968 (Fair Housing Act) and affirmatively market the housing, services, and benefits provided within this project, it's important to outline specific methodologies and strategies for achieving this goal. The following processes will be utilized to encourage and equitably attract tenants:

DRAFT

Rental Unit Marketing and Lease-Up Process:

The rental unit marketing and lease-up process will be designed to ensure equitable access to housing for all demographic groups, particularly those who may be unlikely to apply without specific outreach efforts. Our approach will include:

- **Comprehensive Outreach:** We will conduct outreach through various channels, including local newspapers, online platforms, community organizations, and social media. These advertisements will highlight the availability of rental units and emphasize our commitment to fair and equal housing opportunities.
- **Multilingual Materials:** All marketing materials, including brochures and online listings, will be available in multiple languages commonly spoken in the community to accommodate diverse linguistic backgrounds.
- **Inclusive Language:** Advertisements will use inclusive and non-discriminatory language to welcome individuals of all backgrounds. We will explicitly state our commitment to complying with fair housing laws.
- **Accessibility:** Marketing materials will be designed to be accessible to individuals with disabilities, including providing information in alternative formats upon request.

Single-Family Units Advertised for Sale Process:

The process for advertising single-family units for sale will incorporate similar principles to the rental unit process, focusing on ensuring equitable access to homeownership opportunities.

- **Broad Outreach:** We will advertise the availability of single-family units through various platforms, including real estate listings, open houses, and community events. These advertisements will stress our dedication to fair and equal access to homeownership.
- **Cultural Sensitivity:** Our marketing materials will reflect cultural diversity and sensitivity to the needs of different communities within the area.
- **Financial Counseling:** We will offer resources and referrals for financial counseling to potential homebuyers to help them navigate the mortgage application process and understand their rights under fair housing laws.

Duplex Units Advertised for Sale Process:

The marketing and sale process for duplex units will mirror the approach used for single-family units, focusing on inclusivity and equity in homeownership opportunities.

- **Equitable Access:** We will actively promote the availability of duplex units to a diverse range of potential buyers, emphasizing equal access and opportunity for all.
- **Educational Workshops:** We will organize educational workshops and seminars to inform potential buyers about the advantages of duplex ownership, including rental income opportunities.

DRAFT

Culturally Appropriate Mortgage Lending Advertising Process:

To ensure culturally appropriate advertising for mortgage lending, we will collaborate with local lending institutions to implement the following strategies:

- **Translation Services:** Partner with translators to provide mortgage information in languages spoken by diverse communities in the area.
- **Cultural Competency Training:** Ensure mortgage lending professionals are trained in cultural competency to effectively serve a diverse clientele.
- **Community Engagement:** Connect with local community organizations and leaders to build trust and provide culturally appropriate mortgage lending information.

By implementing these methodologies, we aim to affirmatively market our housing and services while upholding the principles of the Fair Housing Act, promoting equal access to housing, and embracing the diversity of our community.

DRAFT

B. THRESHOLD AND OTHER SUBMISSION REQUIREMENTS EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit B: Threshold Requirements and Other Submission Requirements

The City of Auburn is the applicant and has a valid and active registration on Sam.gov with a Unique Entity Identifier (UEI) # T33MAJLE1MJ3. Additionally, the city has no ongoing civil rights matters and will provide for a timely application.

i. Eligibility of Applicant

The City of Auburn, as the applicant, is a qualified unit of local government with experience administering Community Development Block Grant entitlement funds as well as HOME Investment Partnership Funds from the U.S. Department of Housing & Urban Development.

ii. Eligible Activities funded with grant funds

The City of Auburn will use grant funds only for the eligible activities below pursuant to section 105 (a) of the Housing and Community Development Act of 1974 and applicable program regulations at 24 CFR part 570 as applied and modified by the PRO Housing NOFO:

NOFO Section F-2 © i - Planning and policy activities supporting affordable housing:

- D: Developing new incentive programs for affordable housing development
- E: Expanding existing affordable housing incentive programs to broader geographies, including high-opportunity neighborhoods
- G: Establishing incentive programs or flexibilities to enable and promote the adaptive reuse of vacant or underutilized properties for housing or mixed-use development
- S: Developing regional planning models that enhance location efficiency by focusing on connecting housing, transportation, and economic growth
- T: Providing affordable housing developers a first look at tax sale properties and other government properties
- V: Developing proposals for policies that incentivize mixed-income development, such as the inclusion of affordable units in market-rate properties

NOFO Section F-2 © ii - Development activities:

- A: Financing the construction or rehabilitation of affordable housing
- B: Acquisition or disposition of land or real property for the development of affordable housing
- C: Facilitating the conversion of commercial or other properties to new housing
- D: Establishing or assisting a Community Development Financial Institution (CDFI) to carry out financing strategies
- E: Providing large-scale technical assistance to affordable or non-profit developers, community land trusts, or other entities, which leads to the development of affordable housing

DRAFT

NOFO Section F-2 © iii - Infrastructure activities:

- A: Installing new utilities and/or infrastructure improvements necessary for the development or preservation of affordable housing
- B: Upgrading existing utilities or improvements to increase an area's overall capacity for new housing
- C: Establishing tax-increment financing districts to fund infrastructure improvements or affordable housing development, especially those that incentivize affordable housing development
- D: Increasing community resiliency by investing in infrastructure improvements and nature-based solutions to mitigate the impacts of disasters, natural hazards, and extreme weather to make areas suitable for new affordable housing investment
- E: Investing in neighborhood amenities that benefit low-and-moderate income residents, such as parks, community centers, bike lanes, and improvements to the physical environment that increase public safety, such as streetlights or sidewalks

DRAFT

C. DEMONSTRATION OF NEED EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit C: Demonstration of Need

The State of Maine Housing Production Needs Study published in October 2023 quantified the historic underproduction of housing for the Central Western Maine region. The cities of Lewiston & Auburn represent the second largest urban population in the region. This study indicates a housing shortfall of 22,700 to 24,700 units to meet future demand. This annualized number represents a needed increase of 150-170% new units created over current production rates.

Table 1: Historic Underproduction and Future Need by Region

Region	*Historic Underproduction*	*Future Need (2021 – 2030)*	*Total*
Coastal	21,200	24,200 – 28,000	45,400 – 49,200
Central Western	13,000	9,700 - 11,700	22,700 – 24,700
Northeastern	4,300	4,000 - 6,100	8,300 – 10,400
Maine	**38,500**	**37,900 - 45,800**	**76,400 – 84,300**

The need for greater availability of affordable housing in our region is evident as Auburn's population grows at a rate of 0.42% per year, with a 1.26% increase (303 people) between 2020-2022 and a poverty rate of 12.1% in 2020 (a 6.6% 1-year increase). Inflation and population growth from 2019-2022 have created a severe housing shortage.

ESRI data for 2023 to the right demonstrates that 70% of the housing (2,251 units) located within the three downtown Auburn census tracts was constructed before 1940. This means over two-thirds of the urban core housing lacks modern accessibility and efficiency.

75% of these units are rentals, and over 50% of them are to households making less than $35K per year. A disproportionate number of low-income renters within Auburn live in antiquated, inefficient, and lead-contaminated housing.

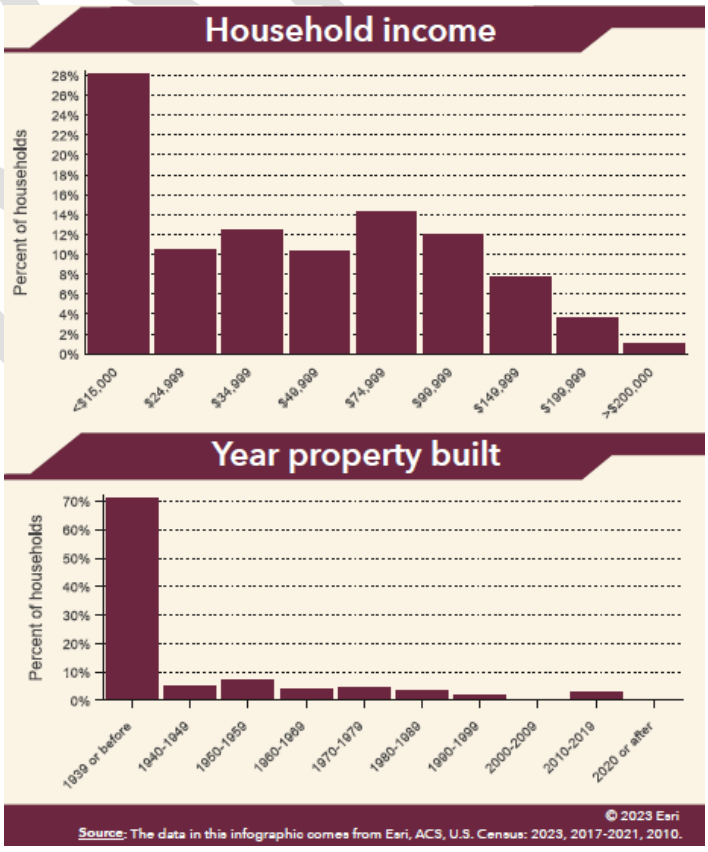


Table 2: Annualized Production Needs Compared to Annual Building Permits by Region

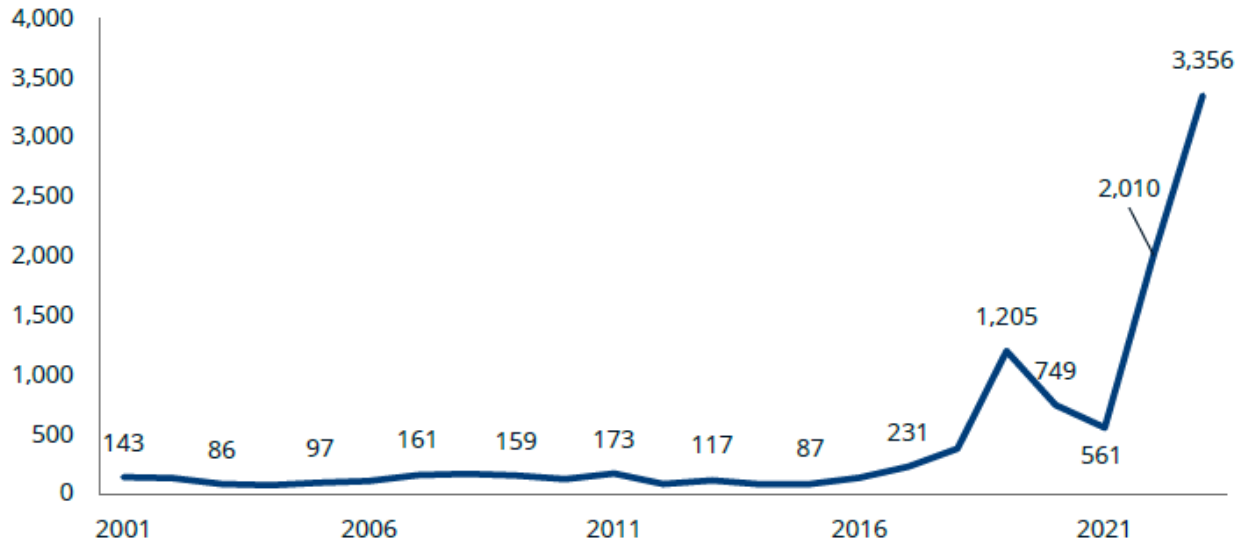
	Total Annual Production Need	*5-year average (2016 - 2021)*	*% Change in Permits*	*Net Change in permits*
Coastal	**5,100 – 5,500**	3,400	**50% - 62%**	**1,700 – 2,100**
Central Western	**2,500 – 2,700**	1,000	**150% - 170%**	**1,500 – 1,700**
Northeastern	**900 – 1,100**	400	**128% - 175%**	**510 - 700**
Maine	**8,500 – 9,300**	4,800	**77% - 94%**	**3,700 – 4,500**

Also included within the State of Maine's housing needs report is the most accurate measurement of asylum seekers settling in Maine. The notice-to-appear filings (a proxy for the total number of asylum seekers in Maine) indicate an increase of over 3,000 cases per year from 2018 to 2023.

This rising trend of locating asylum seekers and new Mainer minority populations within the existing urban core is the result of an economic system that reinforces existing housing disparities. As established above, these urban core neighborhoods where rents are more affordable are already contributing to the systematic concentration of low-income residents and minority populations within older, inefficient, lead-contaminated housing stock.

Figure 9: Total Individual Notice-To-Appear Cases Filed, 2001 - 2023

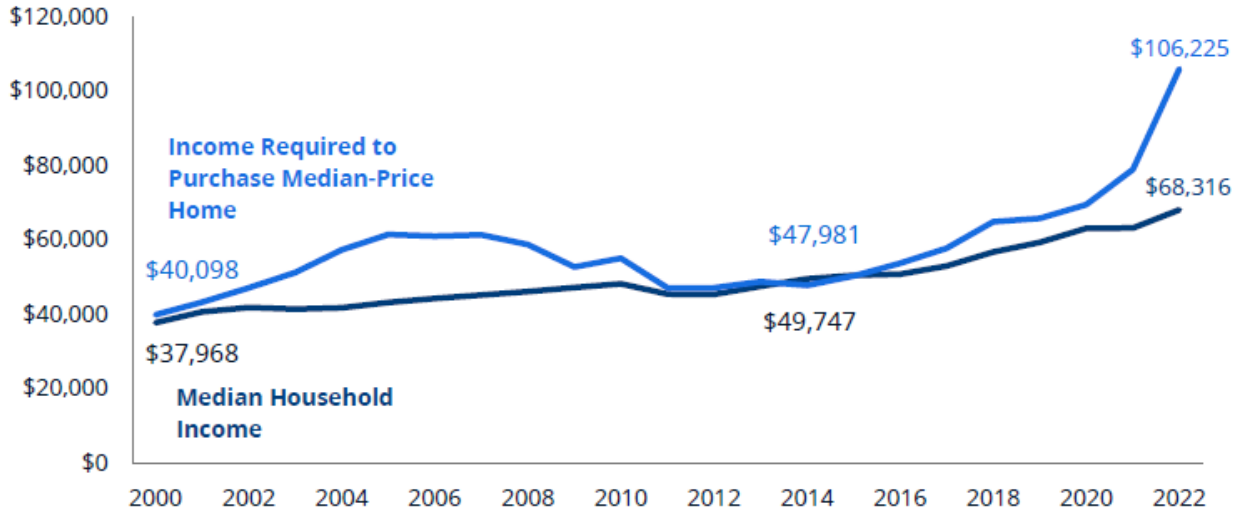


Source: TRAC New Proceedings Filed in Immigration Court; Notice to Appear Deportation Cases 2001 – 2023

Lastly, the pressure on housing affordability caused by the historic underproduction of units and the recent influx of new residents has created a spike in housing prices that has yet to subside. The 2022 Homeownership Housing Facts and Affordability Index published by Maine State Housing Authority demonstrates a 13% increase in the median single-family home price from 2021 to 2022.

This means the previous home price of $295,000 rose to $334,000 in just one year. This number is still dramatically higher than the HUD-established Housing Trust Fund sale price maximum of $206,000. The graphic provided below by Maine State Housing Authority demonstrates the purchasing capacity of Maine residents compared to the median household income. This disparity is another data point indicating the need for new, affordable housing production for Maine homebuyers, not just renters.

Figure 29: Purchasing Capacity Over Time, 2000 - 2022[23]



Source: MaineHousing 2022

Several key factors underscore the urgency of addressing this issue:

1. **Rising Housing Costs:** The escalating costs of homeownership and rental properties have placed a significant burden on low- and moderate-income households. Many families struggle to secure safe and stable housing that aligns with their financial means.
2. **Income Disparities:** Income disparities persist in our community, resulting in a widening gap between housing affordability and the financial capacity of a substantial portion of our population. This inequality threatens the social fabric of our region and hampers opportunities for economic mobility.
3. **Limited Housing Availability:** The supply of affordable housing units has not kept pace with the growing demand. This shortage has created a highly competitive housing market, leaving vulnerable populations at risk of homelessness or housing instability.
4. **Community Stability:** Access to affordable housing is integral to maintaining community stability. Affordable housing options enable individuals and families to establish roots, fostering a sense of belonging and contributing to the overall health and resilience of our neighborhoods.

5. **Employment Opportunities:** Affordable housing supports local economies by ensuring a diverse workforce can remain in the area. By addressing the housing affordability crisis, we can better attract and retain skilled workers, benefitting both employers and employees.
6. **Social Well-being:** The lack of affordable housing options adversely affects our residents' physical and mental well-being. Stable and affordable housing is a fundamental pillar of individual and family health.
7. **Reducing Homelessness:** By investing in affordable housing initiatives, we can take proactive steps to reduce homelessness and alleviate the strain on emergency shelter systems, healthcare resources, and public safety services.
8. **Community Resilience:** Access to affordable housing is vital in times of crisis, such as natural disasters or economic downturns. It ensures that our community remains resilient in the face of unexpected challenges.

In light of these pressing concerns, our commitment to creating affordable housing opportunities is not only a moral imperative but also a strategic investment in our region's long-term prosperity and well-being. Addressing the need for affordable housing is a critical step toward building a more inclusive, equitable, and sustainable community.

i. Efforts to identify, address, mitigate, or remove barriers to affordable housing production

The City of Auburn has taken significant steps to address the affordable housing crisis through innovative approaches. These efforts include approving Accessory Dwelling Units in city zoning, creating new housing options and rental income opportunities for middle- and low-income residents. These initiatives have gained recognition in "The YIMBYest City in America" article published by Discourse Magazine on May 18, 2022. The city has also faced challenges related to NIMBYism, as highlighted in the Maine State Housing Authority's 2019 Analysis of Impediments to Fair Housing Choice report. These zoning changes have sparked extensive community discussions, with residents expressing both support and concerns about their impact on traditionally single-family neighborhoods. This "Zone Defense" reaction reflects the ongoing challenges identified by MSHA in their analysis of Fair Housing Choice impediments.

Specific actions the City has already taken are summarized below:

Policy Review and Reform: Auburn's 2021 Comprehensive Plan Update exemplifies a visionary approach to sustainable growth. Our goal is to expand thoughtfully from our historic city cores, fostering vibrant neighborhoods that define our identity. We are dedicated to efficiently maximizing land usage and services, preserving neighborhood character, and ensuring resources for current and future residents. Auburn is committed to strengthening community bonds, seizing opportunities, and pursuing growth with environmental conservation as an integral part of our identity.

DRAFT

Streamlined Permitting Processes: Red tape has historically hindered housing production and steered investments away from our community, potentially exacerbating vehicle miles traveled and promoting housing segregation. The City of Auburn is actively addressing these challenges by streamlining our regulatory processes, making them faster, more cost-effective, and more predictable than other jurisdictions. Here are some key initiatives:

1. **Coordinated One-Stop Experience:** The city offers a seamless, one-stop experience for project development, including initial discussions, site location assistance, and incentives to overcome obstacles. Our local and State delegated permit reviews come at a fraction of the usual State fees, with an average turnaround time that is only 25% of what developers would encounter elsewhere.
2. **Form-Based Code Districts:** In designated areas and preapproved industrial or commercial subdivision lots, the city provides swift staff-level approvals for most uses, ensuring efficient site development. If a project encounters challenges, staff are committed to working alongside you to find solutions.
3. **Veteran Homeowners and Businesses:** The city has eliminated permit fees for veteran homeowners and slashed them in half for veteran-owned businesses, honoring and supporting those who have served our country.
4. **Competitive Permitting Fees:** Auburn boasts the lowest permitting fees among major cities in the State. For instance, the permit fee for a new single-family home is as low as $25.00, making our community highly cost-competitive.
5. **Private Investor Partnerships:** Our city collaborates with private investors eager to build tailored solutions for solid tenants and industry clusters, offering more opportunities for growth.

Investors are taking notice of these efforts. External factors, such as the rise in remote work opportunities and the appeal of living in Auburn with its abundant recreational options, have driven increased demand for housing within the city and the State as a whole. Additionally, pricing and regulatory changes in other parts of the State have made these streamlined processes even more attractive and competitive in the housing market.

Inclusionary Zoning: Our 2021 Comprehensive Plan Update recognized that traditional residential zoning presented a significant challenge to fostering diverse housing options within desirable neighborhoods. Conventional zoning practices had historically segregated single-family homes from rental and condominium-style housing, often relegating rentals to commercial zones. The city sought to dismantle this practice and promote a more inclusive approach, allowing people to reside together in various housing types.

To achieve this, we drew inspiration from form-based codes and initiated substantial changes to our residential zoning regulations. These revisions now permit a broad spectrum of residential and community uses, with a density allowance of up to 16 units per acre in areas equipped with utility infrastructure and pedestrian accessibility.

DRAFT

Our next endeavor is to extend the reach of infrastructure to the outskirts of urban areas, creating opportunities for housing development at an efficient density. Simultaneously, we remain committed to preserving connectivity to essential amenities, high-quality recreational spaces, open areas, and community gathering points. This holistic approach ensures that our community thrives with diverse housing options while maintaining access to the essentials that enrich our residents' lives.

1. **Financial Incentives:** Providing financial incentives, such as tax credits, grants, or subsidies, to developers and builders who commit to constructing affordable housing units can stimulate production.
2. **Partnerships:** Collaborations between government agencies, nonprofits, and private developers can effectively pool resources and expertise to address affordability challenges.
3. **Mixed-Income Development:** Promote mixed-income housing developments that integrate affordable units within market-rate projects to avoid creating concentrated areas of poverty.
4. **Tenant Protections:** Enforce tenant protections to prevent unjust evictions and ensure renters have stable housing options.
5. **Housing Vouchers:** Expand housing voucher programs to help low-income individuals and families afford rental housing in the private market.

By implementing these strategies and considering the local context, communities can work towards removing barriers and increasing the production of affordable housing, ultimately improving housing affordability for their residents.

ii. Demand for affordable housing

Efforts to house previously uncounted homeless populations and an influx of asylum seekers have further depleted affordable housing options. The Auburn General Assistance Office has seen a 509% increase in asylum-seeking cases, accommodating 112 cases recently. Local data from two pandemic-operated emergency shelters, the Lewiston Ramada Inn and the Lewiston Armory, reveal the catch-basin effect of homeless services in the Lewiston-Auburn MSA. These shelters housed 213 individuals, with 60% from Lewiston, 20% from Auburn, and 20% from outside the jurisdiction.

DRAFT

	Applications Received	Cases Receiving Assistance	Cases With Asylum Pending
2021-22	129	109	22
2022-23	426	381	112

The report also highlights the city's use of American Rescue Plan Act (ARPA) funds for the Project Support You (PSY) program. These funds provided a dedicated staff position with mental health and substance abuse expertise to co-respond directly with Auburn police and fire departments to triage care during rescue calls. In the first seven months, staff, in collaboration with Tri-County Mental Health, served 263 homeless Auburn residents.

	Cases Receiving Housing Assistance	Cases Receiving Utility Assistance	Cases Receiving Food Assistance	Cases Receiving Household Supply Assistance
2021-22	84	11	11	7
2022-23	270	121	58	74

HUD defines cost-burdened families as those paying over 30% of income for housing, while severe rent burden refers to those paying over 50%. Before COVID, 29% of Auburn residents were cost-

DRAFT

burdened. Current numbers are likely higher due to rising rents, although updated data is challenging to obtain.

AHA Housing Choice Vouchers (HCV)	400	8.7%	Total Affordable Rental Units	1213
Sub Total of Affordable	**1213**	**26.3%**	**Unmet Needs=**	**2262**

Based on the most recent American Community Survey, over 48% of Auburn's population falls under 80% AMI, making them eligible for rental assistance through the HOME Investment Partnership Program, as calculated by HUD's HAMFI. Of the available affordable housing options that Maine State Housing Authority & Auburn Housing Authority provided, the table above demonstrates a shortfall of 2,262 additional units.

Additionally, the average cost of Housing Choice Vouchers in Auburn has increased during the past 5 years the most (75%) among all PHAs in Maine. This rate is among the highest increases in the country, further demonstrating the gap between what households in Auburn can afford to pay and what the prevailing market rental rates are.

In a WMTW Channel 8 news special feature aired on September 18, 2023 (https://www.wmtw.com/article/maines-housing-crisis/45087545), reporters identified a larger state-level affordable housing crisis. This report used census data to qualify over 75% of the current renters nationwide as being cost-burdened as defined by U.S. Department of HUD thresholds. In Maine, this is reflected in the State of Maine's housing needs report. This report, published in October of 2023, finds both demand-side drivers comprised of sudden in-migration caused by COVID-19 and a declining labor force caused by aging households as key contributors to rising housing costs and reduced absorption rates.

iii. Key barriers to producing affordable, accessible housing

The WMTW report referenced above quantified that, with rising construction costs and related interest rates, the new median home price in Maine is $334,000 (a 7.43% increase). This means a household needs an income of over $106,000 to buy a home. With a median income of only $66,000 per year, 72% of Mainers are now priced out of the homeownership market. These data points have again been supported by the new State of Maine Housing needs report. This report identifies multiple supply-side drivers, namely historic low housing production rates caused by increased material costs and higher costs related to the necessary capital to facilitate these developments.

Rising interest rates and labor costs have contributed to the widespread grinding halt of housing production. As interest rates rise, the cost of capital gets more expensive, and investors' economic incentives are decreased. Multiple housing projects within Maine have recently seen investors pull out as the private savings and bond market returns have increased and effectively surpassed the value of real estate development yields. This has caused many developers and projects to seek new and more creative capital stack compositions in order to proceed.

Additional resource restrictions on the municipal side have also contributed. As municipal budget requirements related to General Assistance, police, and first responders have increased sharply in response to the COVID-19 & homelessness crisis, there are fewer available funds and staffing capacity to invest in long-term housing solutions. This is a widespread governmental stressor in which responding to today's crisis severely limits the development of tomorrow's solutions.

DRAFT

D. SOUNDNESS OF APPROACH EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit D: Soundness of Approach

i. Project Vision

Our project envisions the creation of a harmonious and vibrant mixed-use residential development that seamlessly integrates into the natural beauty of its surroundings. Nestled within this thriving community, residents will experience a unique blend of modern living, outdoor exploration, and environmental stewardship.

Residential Excellence: At the heart of our vision lies a diverse array of thoughtfully designed residential units, including single-family homes and apartments, catering to a variety of lifestyles and needs. These residences will provide shelter and foster a sense of belonging and community, encouraging residents to forge lasting connections with their neighbors.

Unspoiled Natural Beauty: We are committed to preserving the pristine natural environment that characterizes this locale. Our project will set aside extensive conservation land and green spaces, ensuring that the region's ecological richness remains untouched for generations to come. Residents will have the privilege of living in harmony with nature, fostering an appreciation for the environment.

Recreational Oasis: The development will feature an extensive network of walking trails carefully woven into the landscape, inviting residents to explore and connect with the great outdoors. These trails will offer serene pathways for leisurely strolls, invigorating hikes, and moments of quiet reflection. We envision a community where every resident can relish the rejuvenating power of nature right at their doorstep.

Environmental Education Hub: A pivotal aspect of our project is the establishment of an outdoor environmental learning facility where residents and the wider community can deepen their understanding of the natural world. This center will serve as a beacon of environmental education, fostering a culture of sustainability and responsible living.

Conservation in Action: We view our project not only as a residential haven but as a testament to responsible development. Through our conservation efforts and sustainable practices, we aspire to set a standard for environmentally conscious living, inspiring similar initiatives across the region.

Our project's vision is a harmonious synthesis of modern living, environmental preservation, and community enrichment. It is our aspiration that this development will not only provide homes but also nurture a thriving, sustainable, and interconnected community where residents live in harmony with nature while enjoying the conveniences of modern life.

ii. Geographic scope

This project has a scope of impact well beyond the city of Auburn. As detailed in the WMTW data referenced above, the lack of affordable housing, especially homeownership opportunities, is a statewide issue. Additionally, the report documented over 1,000 new

DRAFT

asylum seekers who have been housed by the city of Portland this year. Portland regularly houses General Assistance cases in Auburn, as a lack of available units in Portland. The City of Auburn General Assistance program saw a 330% increase in local need for housing assistance for those earning less than $746 per month. Of the 426 applications received in the last 12 months, 112 were asylum-related cases, demonstrating a 509% increase in asylum seekers moving to the city.

Therefore, it is essential to consider the catch-basin effect of new housing creation. Any new housing may indeed attract residents from outside of Auburn who are seeking greater accessibility to the resources of Auburn's economic centers or employment opportunities. These new residents represent not only the wider geographic scope of this project but also a wider applicability of time. Without considering future growth capacity and the interests of the soon-to-be residents, any fixation on current or "traditional" Auburn identities, traits, or neighborhood characteristics would be a continuation of a system that historically excludes large portions of the population from the equal and equitable access to housing that the present need dictates.

iii. Key stakeholders and Engagement

In addition to the listed project partners, which already constitute a broad cross-section of government, private, and nonprofit service providers, engaging key community stakeholders is crucial for the success of your affordable housing project. Here's a list of key stakeholders and strategies for engaging them:

Local Government Officials:

Engage with city council members, mayors, and other local government officials to gain their support and keep them informed about the project's progress. Attend city council meetings and participate in public hearings on affordable housing initiatives.

Collaborate with relevant city departments, such as the planning and housing departments, to ensure alignment with city goals and regulations.

Community Residents and Neighborhood Associations:

Establish open lines of communication with residents in the project area and nearby neighborhoods.

Organize community meetings and town halls to share project updates, address concerns, and gather input from community members.

Collaborate with neighborhood associations and residents to create a sense of ownership and inclusion in the project.

3. Nonprofit Organizations and Advocacy Groups:

Partner with local nonprofits, housing advocacy groups, and civil rights organizations to leverage their expertise and resources.

DRAFT

Seek input and guidance from these organizations on equitable housing practices and fair housing policies.

Explore potential funding opportunities and support from these groups.

Education and Workforce Development Programs:

Collaborate with local educational institutions and workforce development programs to provide training and employment opportunities for residents.

Support initiatives that enhance residents' skills and employment prospects, ultimately promoting economic stability.

Community-Based Service Providers:

Connect with organizations providing social services, childcare, healthcare, and other essential services.

Explore partnerships to offer on-site or nearby services for project residents.

Enhance the overall quality of life for residents through these partnerships.

Public Engagement and Media:

Develop a comprehensive public engagement strategy that includes media outreach, press releases, and social media campaigns to raise awareness about the project.

Ensure accurate and positive coverage of the project's goals and progress.

Engaging these key stakeholders will help build a strong foundation of support, expertise, and collaboration, making it more likely for your affordable housing project to succeed in advancing racial equity and fair housing goals. Regular communication, transparency, and active involvement of stakeholders throughout the project's lifecycle are essential for its success.

iv. Affirmatively furthering fair housing

Affirmatively furthering fair housing and promoting racial equity in a mixed-use residential development with walking trails and conservation land can be achieved through a deliberate and thoughtful approach. Here's how this project can contribute to these important goals:

Diverse Housing Options: By offering a range of housing types, including single-family homes, duplexes for larger families, and apartments for smaller families and individuals, the project can attract a diverse population. This inclusivity is essential for affirmatively furthering fair housing, as it ensures that people from various racial and economic backgrounds have equal access to housing options that suit their varying needs.

Accessible Amenities: The project's commitment to pedestrian infrastructure and recreational spaces, such as biking and walking trails, along with community gathering

areas, creates accessible amenities for all residents. These spaces can be designed to accommodate people with different mobility needs, promoting inclusivity.

Equitable Pricing and Affordability: Implementing affordability measures, such as income-restricted units or partnerships with affordable housing organizations, can make housing within the development accessible to a broader range of income levels. This approach helps address historical disparities in housing access and affordability.

Inclusive Community Engagement: Engaging residents from diverse backgrounds in the decision-making process for the project, including design, amenities, and services, ensures that the development aligns with the needs and preferences of all community members. This participatory approach fosters a sense of ownership and equity.

Education and Awareness: Establishing an outdoor environmental learning facility within the development can serve as a platform for educational programs on environmental stewardship, sustainability, and equity. This facility can be used to raise awareness about the importance of fair housing and racial equity in the context of community development.

Anti-Discrimination Policies: Enforcing anti-discrimination policies and fair housing laws within the development, along with offering resources for reporting violations, ensures that all residents are treated equitably and without prejudice.

Cultivating a Diverse Community: By promoting diversity and inclusion in marketing and outreach efforts, the project can attract a broad spectrum of residents, contributing to a racially diverse and integrated community.

The project's commitment to providing equitable access to housing, amenities, and educational opportunities, combined with proactive measures to address historical disparities, can affirmatively further fair housing and promote racial equity within the development and the broader community. This approach sets a positive example for future developments and contributes to a more just and inclusive society.

v. Budget and Timeline

The expected budget expenses and sources are detailed within the attached HUD 424-CBW. As stated previously, the primary use of PRO Housing grant funds would be to install the essential roads and utilities for the construction of an entirely new neighborhood. These funds are critical to the timely completion of these vital housing units. Traditional city funding or Tax Increment financing models rely heavily on the ability of developers to fund these public utilities upfront. This is not only more challenging in an expensive construction market but is prohibitive to new developers, specifically women and minority-owned businesses that do not possess the capital or credit required to fund the entirety of a project this size.

Financial contributions include but are not limited to the property value of the city-owned real estate, the future Tax Increment Financing project costs to cover ongoing childcare and other community services, as well as private capital contributions from the developer

and Androscoggin bank for the development and the permanent financing options for the homeowners.

Detailed Description of Budget				
Analysis of Total Estimated Costs			**Estimated Cost**	**Percent of Total**
1	**Personnel (Direct Labor)**		$439,400	1.0%

Timeline:

1. **Pre-Development Phase (6-12 months):**
    - Land surveying and due diligence
    - Architectural and engineering planning
    - Permitting and approvals
    - Securing financing
2. **Infrastructure Construction Phase (12-24 months):**
    - Site preparation and infrastructure development
    - Site clearing and layout
    - Installation of public right of ways and installation of utilities
3. **Residential Construction and Lease-Up Phase (12-36 months):**
    - Construction of phased multi-unit and residential construction
    - Marketing and advertising efforts
    - Application intake and processing
    - Lease-up and occupancy
4. **Ongoing Operations and Resident Services (36+ months):**
    - Property management and maintenance
    - Resident services and community programs
    - Regular monitoring and evaluation
5. **Compliance and Reporting (20 years):**
    - Ongoing fair housing compliance monitoring
    - Regular reporting to funders and stakeholders

DRAFT

E. CAPACITY EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit E: Capacity

i. City and Partner Capacity & Staffing Plan

City Staff:

The project will be overseen by the City of Auburn's Business & Community development Director and their designated staff. This grant will be managed directly by the Deputy Director of Business & Community Development and well as the Financial Compliance Manager, both of which have experience managing HUD entitlement funds. Additional support will be provided by the Directors of Transportation Systems, Capital Investment, Planning & Permitting as well as their required staff to complete extra technical assistance to the developer during the design, approval, and construction process. City staff capacity and a staffing plan are essential components of successfully managing and overseeing this housing project. As demonstrated within the included 424-CBW, key city staff are included in this project and will be covered by existing city and entitlement funding for the duration of the construction and monitoring period.

Homes For All, LLC:

Fatuma Hussein, an Auburn resident with a strong history in addressing housing disparities by providing translation and social services. Fatuma has played a pivotal role at the Immigrant Resource Center of Maine, offering culturally and linguistically sensitive support to refugee and immigrant communities in Maine. Fatuma founded Homes For All, LLC and employs an advisory council of experienced housing developers with backgrounds in non-profit as well as for-profit housing development.

Advisory Team:

- **Dana Totman** – Affordable Housing & non-profit leader with 40+ years' experience addressing community challenges around housing. Previous roles include:
  - President & CEO of Avesta Housing 2000-2022
  - Deputy Director of Maine State Housing Authority 1994-2000
- **Kevin Bunker** – Specialization in housing development financing, permitting & project Management. Previous roles include:
  - Principal of Developers Collaborative 2007-2023
  - Assistant Planer at City of Rockland 2003-2006
- **Genesis Community Loan Fund -** Agency providing Technical Assistance to Maine communities including municipalities, community groups, private developers, and cultural organizations that have an interest in creating affordable housing.

YMCA of Auburn-Lewiston

The YMCA of Auburn-Lewiston will open, staff, furnish, and operate at its own cost a full-service Early Childhood Education Center at the proposed housing community center. Priority will be given to residents in the proposed Winter Oaks Housing Development. Licensing, staff training, and initial start-up costs are expected to be between $40,000 and $60,000. The YMCA of Auburn-Lewiston will provide these funds as an in-kind donation to the project.

DRAFT

Androscoggin Land Trust (ALT)

ALT will establish and maintain a stewardship endowment fund, akin to those set up for other parcels. This fund will allow them to allocate a yearly percentage towards essential stewardship costs. They will also mobilize a dedicated network of volunteers to assist with maintenance, programming, and stewardship efforts for the Winter Oaks Parcel.

Androscoggin County Emergency Management Agency (EMA)

The Androscoggin EMA staff will provide technical assistance and training relating to the establishment and operational procedures of an emergency shelter at Winter Oaks. The Androscoggin County Emergency Management Agency supports the Winter Oaks Housing Development project recognizing its inclusion of an emergency disaster shelter with backup power generation will serve the White Oaks community and benefit the vulnerable population south of the Little Androscoggin River, enhancing community resiliency and build response and recovery capabilities for the City of Auburn.

Community Concepts Inc. (CCI)

Community Concepts Inc., and their subsidiary Community Concepts Finance Corporation, provides homebuyer educational services and home loans through our dedicated homeownership center. These programs, as well as the broader social services program which CCI provides as the predominant Community Action Program within the region, are available to residents of the proposed Winter Oaks community.

DRAFT

F. LEVERAGE EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit F: Leverage

i. Leveraged funding & Non-Financial Contributions

City Funding Sources:

The City of Auburn has committed both City funded staff time as well as HUD CDBG & HOME entitlement funds as leveraged funding as evidenced within the HUD 424-CBW to advance this project. Additional city funds for the continuation of operational subsidies come in the form of Tax Increment Finance (TIF) project costs.

Developer Funding Sources:

The developer has secured private financing lines to facilitate the initial construction expenses. Developer contribution comes in the form of program income from the sale of single-family residents & duplexes to income qualifying buyers. This funding is possible due to funding pledges by Androscoggin Savings Bank to provide culturally appropriate mortgage products to qualified buyers.

Additional developer funding resources, as evidenced by the support letter from Maine State Housing Authority, include state funded Low Income Tax Credit & Affordable Homeownership Development programs.

Child-Care Funding Sources:

The YMCA of Auburn-Lewiston has pledged up to $60,000 in licensing, staff training and initial start-up costs to provide subsidized childcare on-site to income qualifying residents.

DRAFT

G. LONG-TERM EFFECT EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit G: Long-Term Effect

i. Permanent, Long-Term & Outcomes

The long-term effects and outcomes of such a project are multifaceted, encompassing social, economic, environmental, and equity-related dimensions. By prioritizing diversity, inclusion, and sustainability, this development can create a thriving, equitable, and interconnected community that benefits residents and sets a positive example for future endeavors in the region. These positive impacts include, but are not limited to:

Diverse and Inclusive Community: Over time, the project can foster a diverse and inclusive community where residents from various racial, ethnic, and economic backgrounds live together harmoniously. This diversity enriches the social fabric of the community, promotes cross-cultural understanding, and reduces the risk of segregation.

Reduced Housing Disparities: The project can reduce housing disparities based on income and race by providing a range of housing options and affordability measures. Over the long term, this can help address historical inequalities in housing access and affordability.

Enhanced Quality of Life: Access to public art, walking trails, conservation land, and recreational spaces within the development can improve residents' quality of life. Over time, access to these amenities can lead to healthier, more active, and happier residents.

Education and Awareness: The outdoor environmental learning facility can serve as a hub for environmental education and equity awareness. Over time, this can lead to a more environmentally conscious and socially responsible community.

Positive Economic Impact: A thriving mixed-use development can have a positive economic impact on the surrounding area. As the development attracts residents and businesses, it can stimulate economic growth, create job opportunities, and increase property values.

Strong Community Connections: Over time, the project can facilitate strong community connections and social cohesion. Residents may become actively engaged in local initiatives, leading to a more resilient and empowered community.

Equitable Access to Opportunities: The project's commitment to fair housing and racial equity ensures that all residents have equitable access to opportunities, including education, employment, and recreation, ultimately contributing to improved social mobility and community well-being.

Model for Future Projects: The success of this project in affirmatively furthering fair housing and racial equity can serve as a model for future developments in the region. Other developers and communities may seek to replicate the project's inclusive approach.

RE: Letter of Partnership for Auburn PRO Housing Grant Application

Dear Mr. Crowell,

I am writing to express my strong support for the grant application being submitted by the City of Auburn to the Department of Housing and Urban Development (HUD) and to formalize our partnership commitment within this important project. The primary objective of this grant is to eliminate obstacles hindering the development of affordable housing options, all while advancing the honorable cause of racial equity and fair housing practices.

The City of Auburn has demonstrated an unwavering dedication to championing common-sense zoning reform and creating incentives that foster homeownership opportunities for low- and moderate-income residents. The Winter Oaks Housing Development project, which is being proposed, serves as a shining example of how municipal governments can collaborate with developers and regional community service organizations well-versed in housing access and equity services. This innovative approach addresses the ongoing housing crisis while upholding the fundamental principles of fair housing.

The proposed project is characterized by its ambition and transformative potential. Our organization is both excited and honored to be part of this endeavor, and we wholeheartedly commit to contributing the following activities, resources, and support to enhance the project's impact within our community:

My development organization is poised to meet the needs of this project and we will pledge the private capital required to complete this project. These funds will be leveraged in part by support of Maine State Housing Authority as well as income generated from the sale of these single-family residences and owner-occupied duplexes to match federal funds sought through the PRO Housing application. In total, the program income to be generated from the development and sale of these units, with 70 percent being sold within maximum sales price as established by HUD, will be in excess of $18 million.

In conclusion, I firmly believe that the financial support from the U.S. Department of Housing and Urban Development will empower the City of Auburn and its partners in the Winter Oaks project to make an exceptional and profoundly positive impact on our community. My organization shares in their dedication to the principles of racial equity, fair housing practices, and community development, and we are enthusiastic about being an engaged and collaborative partner in this project.

I want to express my gratitude for the opportunity to form this partnership and for your invaluable consideration. If you require any additional information or have any questions, please do not hesitate to contact me.

Sincerely,

Fatuma Hussein, Principal

RE: Partnership Commitment for Auburn PRO Housing Grant Application

Dear Mr. Crowell,

I am writing to express the Androscoggin Land Trust's steadfast support for the grant application that the City of Auburn intends to submit to the Department of Housing and Urban Development (HUD). We are eager to formalize our partnership commitment for this pivotal initiative.

This grant seeks to address the pressing challenge of increasing affordable housing availability, while simultaneously championing the crucial cause fair housing practices. We commend the City of Auburn's proactive approach towards zoning reforms and the creation of homeownership opportunities for low- and moderate-income residents. The Winter Oaks Housing Development proposal stands as a testament to the potential of cooperative efforts between municipal governments, developers, and community service organizations specializing in housing access and equity.

The ambition and transformative promise of the proposed project is evident, and we are thrilled to be part of such a significant endeavor. As committed partners, the Androscoggin Land Trust will:

1. Endeavor to establish and maintain a stewardship endowment fund, akin to those we've set up for other parcels. This fund will allow us to allocate a yearly percentage towards essential stewardship costs.
2. Mobilize a dedicated network of volunteers to assist with maintenance, programming, and stewardship efforts for the Winter Oaks Parcel.

I am confident that with the financial backing of the U.S. Department of Housing and Urban Development, the City of Auburn, along with its partners, can drive monumental change in our community through the Winter Oaks project. We are deeply committed to the principles of racial equity, fair housing, and community development, and eagerly anticipate playing an active role in this collaborative effort.

Thank you for considering this partnership. Should you need further details or have any queries, please don't hesitate to reach out.

Sincerely,

Aimee Dorval, Executive Director – Androscoggin Land Trust

RE: Letter of Support and Partnership for Auburn PRO Housing Grant Application

Dear Mr. Crowell,

I am writing to express the YMCA of Auburn-Lewiston's overwhelming support for the grant application being submitted by the City of Auburn to the Department of Housing and Urban Development (HUD). Furthermore, this letter also stands as our formal commitment to partner with the City of Auburn on this transformational project.

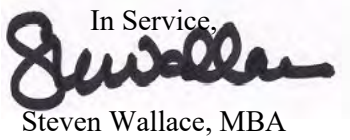
We understand the desired outcome of this grant is to eliminate obstacles hindering the development of affordable housing options while also advancing the cause of racial equity and fair housing practices. The City of Auburn has demonstrated an unwavering dedication to championing common-sense zoning reform and creating incentives that foster homeownership opportunities for low- and moderate-income residents. The proposed Winter Oaks Housing Development project serves as a shining example of how municipal governments can collaborate with developers and regional community service organizations well-versed in housing access and equity services. Our organization is both excited and honored to be part of this endeavor, and we wholeheartedly commit to contributing the following activities, resources, and support to enhance the project's impact within our community:

- The YMCA of Auburn-Lewiston will open, staff, furnish, and operate at its own cost a full-service Early Childhood Education Center at the proposed housing community center. Priority will be given to residents in the proposed Winter Oaks Housing Development
- Licensing, staff training, and initial start-up costs are expected to be between $40,000 and $60,000. The YMCA of Auburn-Lewiston will provide these funds as an in-kind donation to the project.

In conclusion, I firmly believe that the financial support from the U.S. Department of Housing and Urban Development will empower the City of Auburn and its partners in the Winter Oaks project to make an exceptional and profoundly positive impact on our community. My organization shares in their dedication to the principles of racial equity, fair housing practices, and community development, and we are enthusiastic about being an engaged and collaborative partner in this project.

If you require any additional information or have any questions, please do not hesitate to contact me directly either by phone or email. I can be reached at (207) 577-8108 or swallace@alymca.org.

In Service,



Steven Wallace, MBA
Chief Executive Officer,
YMCA of Auburn-Lewiston

The YMCA of Auburn-Lewiston is a character building organization dedicated to strengthening the Christian principles of caring, honesty, respect, and responsibility through programs that build a healthy spirit, mind, and body for everyone regardless of ability to pay. The YMCA of Auburn-Lewiston is a 501 (c)3 non-profit, charitable organization.

RE: Letter of Partnership for Auburn PRO Housing Grant Application

Dear Mr. Crowell,

I am writing to express my strong support for the grant application being submitted by the City of Auburn to the Department of Housing and Urban Development (HUD) and to formalize our partnership commitment within this important project. The primary objective of this grant is to eliminate obstacles hindering the development of affordable housing options, all while advancing the honorable cause of racial equity and fair housing practices.

The City of Auburn has demonstrated an unwavering dedication to championing common-sense zoning reform and creating incentives that foster homeownership opportunities for low- and moderate-income residents. The Winter Oaks Housing Development project, which is being proposed, serves as a shining example of how municipal governments can collaborate with developers and regional community service organizations well-versed in housing access and equity services. This innovative approach addresses the ongoing housing crisis while upholding the fundamental principles of fair housing.

The proposed project is characterized by its ambition and transformative potential. Our organization is both excited and honored to be part of this endeavor, and we wholeheartedly commit to contributing the following activities, resources, and support to enhance the project's impact within our community:

The Androscoggin County Emergency Management Agency fosters a culture of emergency preparedness and inclusivity through outreach with partners and stakeholders with the goal being to provide the tools and skills necessary to enhance the capabilities across the whole community, as they relate to prevention, protection, mitigation, response, and recovery from the impacts of natural and manmade disasters. With that said, the Androscoggin County Emergency Management Agency supports the Winter Oaks Housing Development project recognizing its inclusion of an emergency disaster shelter with backup power generation will serve the White Oaks community and benefit the vulnerable population south of the Little Androscoggin River, enhancing community resiliency and build response and recovery capabilities for the City of Auburn.

In conclusion, I firmly believe that the financial support from the U.S. Department of Housing and Urban Development will empower the City of Auburn and its partners in the Winter Oaks project to make an exceptional and profoundly positive impact on our community. My organization shares in their dedication to the principles of racial equity, fair housing practices, and community development, and we are enthusiastic about being an engaged and collaborative partner in this project.

I want to express my gratitude for the opportunity to form this partnership and for your invaluable consideration. If you require any additional information or have any questions, please do not hesitate to contact me.

Sincerely,

Angela Molino, Director, Androscoggin County Emergency Management Agency

MaineHousing
MAINE STATE HOUSING AUTHORITY

September 27, 2023

Mr. Phillip L. Crowell, Jr.
City Manager
City of Auburn
60 Court Street
Auburn, ME 04210

Dear Mr. Crowell:

This letter is to support the City of Auburn's grant application to the U.S. Department of Housing and Urban Development's PRO Housing program. We are well aware of the City's work with Fatuma Hussein's proposed development of affordable housing. The barrier to developing this much-needed affordable housing is the lack of resources to extend and improve water and sewer infrastructure as well as roads and sidewalks.

We understand that Ms. Hussein and her development team have been working closely with the City on a neighborhood that includes both homes for sale and rental units. These homes, proposed to be affordable to individuals and families up to 120% area median income for homeownership and up to 60% AMI for rental, fit well with existing MaineHousing development programs. We traditionally release programs that finance capital and infrastructure for affordable single family homes and Low Income Tax Credit programs for the development of affordable rental housing. We believe the availability of these programs, and the experience Ms. Hussein's development team have with these programs, position this development for future success in developing this housing.

We appreciate the City's actions in applying to HUD for the PRO Housing program as readying the site for development by bringing in the needed infrastructure will have an enormous impact in the feasibility of the project.

Sincerely,

Daniel E. Brennan
Director

RE: Letter of Partnership for Auburn PRO Housing Grant Application

Dear Mr. Crowell,

I am writing to express my strong support for the grant application being submitted by the City of Auburn to the Department of Housing and Urban Development (HUD) and to state our support for this important project. The primary objective of this grant is to eliminate obstacles hindering the development of affordable housing options, all while advancing the honorable cause of racial equity and fair housing practices.

The City of Auburn has demonstrated an unwavering dedication to championing common-sense zoning reform and creating incentives that foster homeownership opportunities for low- and moderate-income residents. The Winter Oaks Housing Development project, which is being proposed, serves as a shining example of how municipal governments can collaborate with developers and regional community service organizations well-versed in housing access and equity services. This innovative approach addresses the ongoing housing crisis while upholding the fundamental principles of fair housing.

The proposed project is characterized by its ambition and transformative potential. As a 153 year old financial institution serving the City of Auburn and its citizens, our organization is both excited and honored to be part of this endeavor, and we look forward to supporting this project any way that we can including by making both traditional and non-traditional financing available to qualified home buyers.

Specifically, Androscoggin Bank's Islamic-compliant financing alternatives will remove barriers for homebuyers traditionally left out of the local housing market. We are pleased to have financing alternatives for qualified low- and moderate-income buyers, including devout Muslim buyers as a means to remove additional impediments to fair housing.

In conclusion, I firmly believe that the financial support from the U.S. Department of Housing and Urban Development will empower the City of Auburn and its partners in the Winter Oaks project to make an exceptional and profoundly positive impact on our community.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023

Author: Katherine Cook

Subject: Workshop on proposed text and map amendments applied to the Lake Auburn watershed.

Information: Last year, the board and council recommended and initiated various changes and map and text amendments related to the Lake Auburn Watershed Overlay District. The proposed changes have mostly been introduced and/ or considered last year, but the topics are at varying stages of the public discussion and completion. The purpose of this workshop is to review those changes together to prepare for a first reading in November after receiving a recommendation from the planning board. The proposed text amendments are to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. The proposed text adds the definitions of boundaries, curtain drain, hobby agricultural use, LAWPC, non-hobby agricultural use, soil horizon and soil profile. The amendment also prohibits municipal sludge spreading, increases the agricultural buffer strip from Lake Auburn or it's tributary streams from 50 feet to 100 feet, upgrades the septic system siting and design requirements, specifies that new non-hobby (commercial) agricultural uses in the Lake Auburn watershed in the AGRP zone are prohibited, requires hobby agricultural uses to obtain approval from LAWPC's Watershed Protection Manager and prohibits new homes in the Agriculture and Resource Protection portions of the Lake Auburn watershed. These text changes are paired with a proposed map amendment which would change all land in the Rural Residence (RR) zoning district in the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This would change the minimum lot size from one acre to three acres and increase the minimum road frontage from 250 feet to 325 feet. The final two map changes to consider are to amend the Lake Auburn Watershed Overlay boundary to match the hydrogeological watershed, and to consider a zone change for the Gracelawn parcel from AGRP to GB if on portions removed from the Lake Auburn Watershed Overlay.
At the October 10 planning board meeting, the board voted to initiate public hearings for each of the four Lake Auburn Watershed related items at the November meeting. The motion itself is attached to this packet.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council discuss the proposals and provide any feedback as we prepare for the Planning Board Public Hearing.

Previous Meetings and History: December 21, 2021: city council directive to amend watershed boundary; January 2, 2022: council directs planning board to consider certain septic requirement text change; January 3, 2022: city council workshop to change boundary of watershed and change from AG to CDD; January 11, 2022:

planning board workshop on amending watershed boundary; February 8, 2022: planning board public hearing on changing Gracelawn area from AGRP to GB and moving the CDD boundary to match the newly interpreted watershed boundary (favorable recommendation); March 7, 2022: city council first reading on amending 148 gracelawn area from AGRP to GB; March 21, 2022: city council second reading on amending a slightly reduced area in the Gracelawn area from AGRP to GB (passes); April 12, 2022: planning board workshop and public hearing on updating subsurface wastewater (SSWW) standards (favorable recommendation contingent upon RR to LDCR zone change); April 19, 2022: city council workshop on Lake Auburn watershed updates; May 2, 2022, city council first reading on updating SSWW standards and increasing agricultural buffer strip (favorable vote). also asks board to consider reducing housing density in the watershed; May 3, 2022: special planning board workshop to consider changing RR to LDCR in the watershed; August 9, 2022: planning board workshop on FB Environmental Report; August 9, 2022: City Clerk verifies signatures on petition to repeal watershed boundary; August 15, 2022: city council workshop on RR to LDCR; September 6, 2022City counil repeals Ordiance 08-03072022 (watershed boundary); October 11, 2022: planning board review text amendment to increase ag. buffer strips and update SSWW requirements (favorable recommendation); January 17, 2023: city council directs staff to initiate prohibition on new residences and animal farms in Lake Auburn watershed also in AGRP zone; January 17, 2023: city council directs planning board to consider that no future SSWW systems be allowed within 300 feet of Lake Auburn; September 18, 2023: DWP Potential Boundary wrote favorable letter for new line by Maine Drinking Water; September 26, 2023: Lake Auburn Water Quality Ad-Hoc Committee issues memo recommending AWSD and LWD forward new boundary to DWP.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance, planning board motion, planning board staff report (text amendments) staff report (RR to LDCR), staff report (new watershed boundary), staff report (new watershed zone GB), DWP memo, LWD memo, Lewiston memo, watershed boundary map, watershed zone map (existing RR), watershed zone map (proposed LDCR), GB zone ordinance.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

To: Auburn City Council
Subject: Planning board recommendation to initiate text and map amendments related to the Lake Auburn watershed.

Date: 10/16/2023

Proposal I: WORKSHOP/ TEXT AMENDMENT: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by City Council and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND**: David Trask Seconds.

Eric Cousens suggests a motion which Evan Cyr volunteers: "I make a motion to schedule this as a public hearing with the discussed legal opinion in November," **VOTE:** 7-0-0. Motion passes.

Proposal II: WORKSHOP/ MAP AMENDMENT: Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion **SECOND:** David Trask Seconds

"I make a motion that we hold a public hearing on this at the next regular meeting." **VOTE**: 7-0-0 motion passes.

Proposal III: WORKSHOP/ MAP AMENDMENT: Consider Changing the Lake Auburn Watershed Boundary to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line which was peer reviewed and agreed upon by FB Environmental Inc, CEI Environmental and Maine Drinking Water Program and recommended by the Lake Auburn Ad-Hoc Group. This map change is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND**: David Trask seconds,

"I make a motion that we hold a public hearing on this topic at our next regular planning board meeting contingent upon AWD having made a decision or recommendation and that we be provided with legal counsels justification on the need to do this part rather than follow the strict language within the ordinance," **VOTE** 7-0-0 motion passes.

Proposal IV: WORKSHOP/ MAP AMENDMENT: New zone considerations for area outside the new Lake Auburn watershed boundary in the Gracelawn Road/ Mount Auburn Avenue area.

MOTION: Evan Cyr makes a motion; **SECOND**: Paul Jacques seconds.

I'll make a motion to have a public hearing on this zone change, specifically to change the zone to general business as the November Planning Board meeting," **VOTE:** 7-0-0 motion passes.

Lake Auburn Water Quality Ad-Hoc Committee

MEMO

To: Auburn Water District, Lewiston Water Division

From: The desk of the Lake Auburn Water Quality Ad-Hoc Committee

Date: 9.26.23

Subject: Lake Auburn Watershed Overlay District Text and Map Amendments

The Lake Auburn Water Quality Ad-Hoc Committee has reviewed the following documents and recommends the adoption of zoning amendments for the protection of Lake Auburn. The attached text and map amendments have been reviewed, and consensus has been reached to support the changes based on peer-reviewed science. The Ad Hoc Committee recommends that the Auburn Water District and Lewiston Water Division forward the proposed changes to the Maine Drinking Water Program for review. The Committee further recommends that the Stakeholders represented on the Committee plan and execute an engagement with upper watershed towns to explore application of improved watershed protections in those towns, with legal advice on the authority of Auburn Water District to implement watershed protections.

The Summary of Changes Include:

1.) Proposed zoning text amendments, Sec 60-950 through 1065 (Exhibit A)
2.) Proposed Lake Auburn Watershed Boundary, As recommended by the Maine DWP (Exhibit B)
3.) Map Amendment; Changing 1-acre residential areas (Rural Residential) to 3-acres residential areas minimums (Low-Density Country Residential).

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Delistrict on file in the office of the Auburncity Wwater Delistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, and Town of Turner, Minot / Hebron / Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) *~~Municipal and m~~Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R.

ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District shall be inspected by LAWPC, or its designee, every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ Wwater Ddistrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

• • •

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

• • •

DIVISION 2. PHOSPHORUS CONTROL

• • •

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

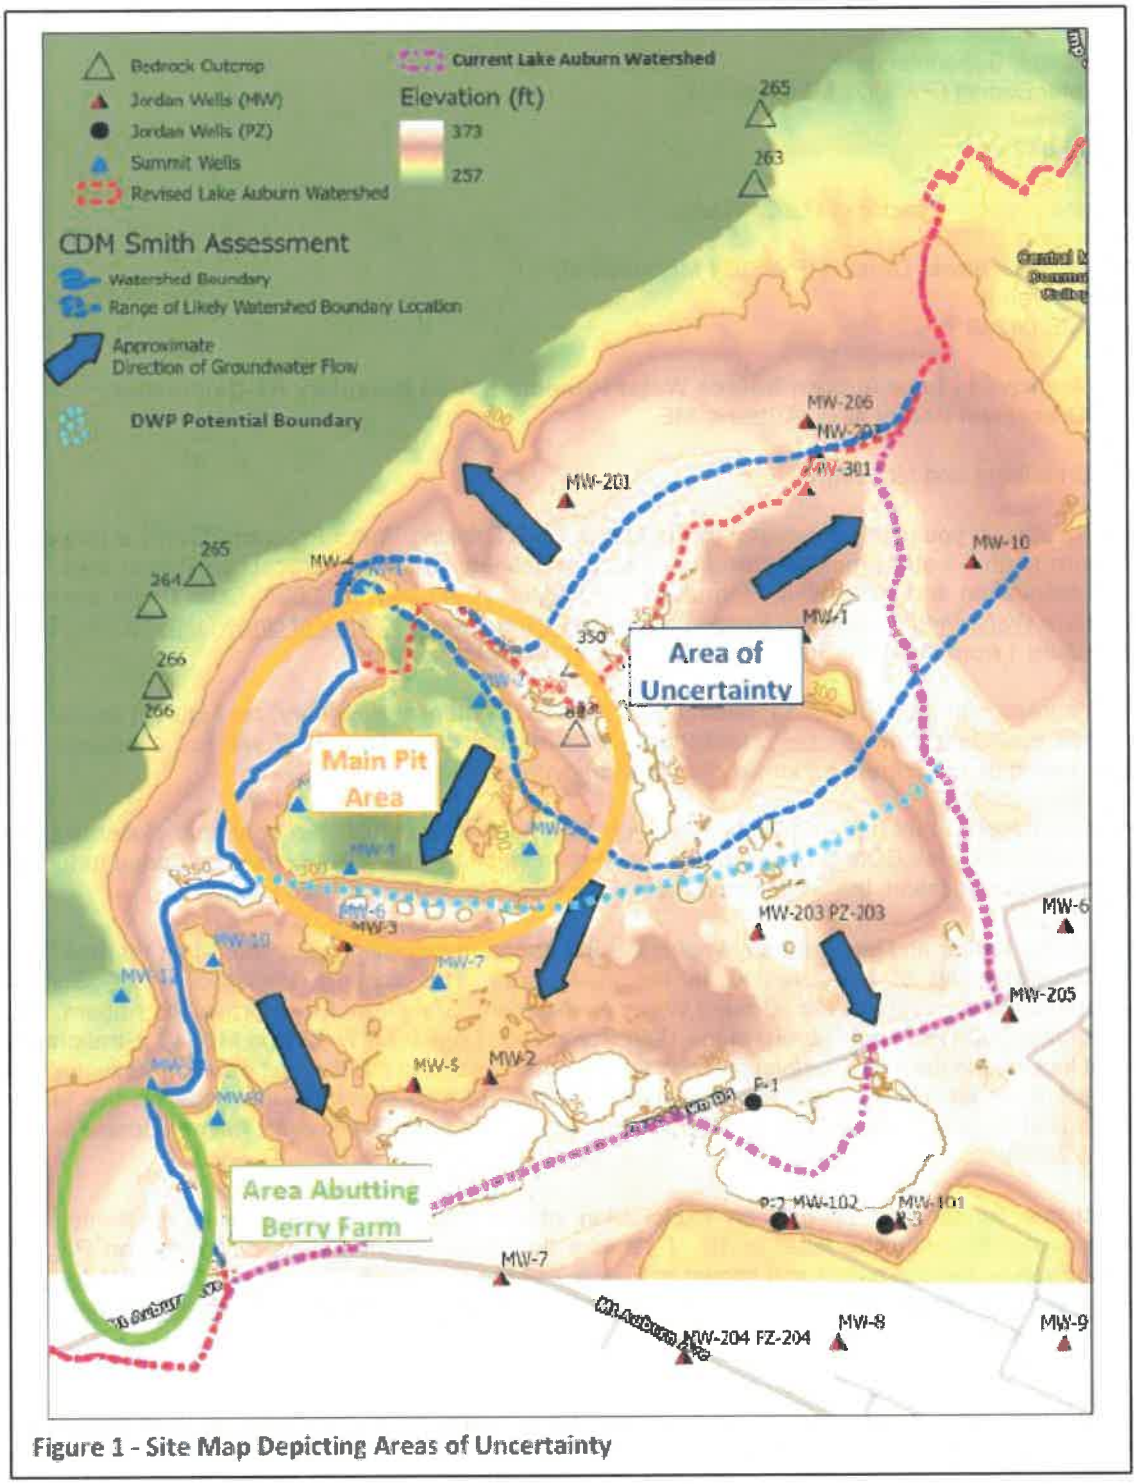

Figure 1 - Site Map Depicting Areas of Uncertainty

Feel free to contact me regarding our feedback within this letter, and thank you for your good work providing safe drinking water.

Sincerely,

Susan F. Breau

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/ Hebron/ Buckfield~~.~~

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R.

ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District shall be inspected by LAWPC, or its designee, every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHORUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

● ● ●

ARTICLE XV. BOARD OF APPEALS

● ● ●

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

From: Katherine Cook, Planning Coordinator
Re: Staff Report on proposed ordinance text changes within the Lake Auburn Watershed Overlay District

I. **Workshop/ Text Amendment:** Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by City Council and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** Since January 2022, several amendments have been proposed to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District. These amendments include 1.) changes to the private subsurface wastewater disposal system design and siting standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer width from Lake Auburn and its tributaries and streams; and 3.) eliminating new non-hobby animal farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn by updating septic standards and environmental regulations to meet current best practices. These amendments are important to maintain the quality of Auburn's and Lewiston's drinking water supply and maintain the existing waiver from filtration. All amendments are at various stages of review and approval by the city council and the planning board. For reference, below the relevant meetings to this point have been listed:

Previous Meetings and Actions:

- **Jan. 3, 2022**—Council directs planning board to maintain requirement of 36 inches above limiting factor for septic systems while allowing updating septic design to meet state standards.
- **Apr. 12, 2022**—Planning board workshop and public hearing re: updating Sec. 60-952(f) (1-5) and (c) subsurface wastewater systems in the Lake Auburn watershed. Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to three dwelling units per acre in the currently existing Rural Residence district in the Lake Auburn watershed.
- **April 19, 2022**—City council workshop on Lake Auburn watershed ordinance updates.
- **May 2, 2022**—City council first reading: updating Ch. 60, Article XII, Division 4, Sec. 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in the Lake Auburn watershed. Favorable vote.
- **Jan. 17, 2023**—City council directs staff to direct ordinance text and map Amendment to prohibit any future residential structures and limit or prohibit animal farms in the Lake Auburn Watershed in the AGRP zone.
- **Jan. 17, 2023**-- City council directs the planning board to provide a recommendation for a zoning amendment that will prohibit any future subsurface wastewater disposal within 300' of Lake Auburn.

- **Aug. 9, 2022—**Planning board workshop on FB Environmental Report re: updating Sec. 60-952 (f) (1-5) for subsurface wastewater systems.
- **Oct. 11, 2022**—Planning board review of text amendment to Ch. 60, Article CVII, Div. 4, Sec. 60-952(c) agricultural buffer strip and (f) (1-5) private sewage disposal systems

Lake Auburn Water Quality Ad-Hoc Committee Memo: On September 26, 2023, a significant step forward was made in moving these amendments forward when the Lake Auburn Water Quality Ad-Hoc Committee recommended that the proposed zoning text amendments be forwarded by the Auburn Water District and Lewiston Water Division to the Maine Drinking Water Program for review. This Memo is attached in this packet for the planning board's review.

The purpose of this workshop is to present all the proposed amendments for review at the same time to answer any remaining questions and prepare to hold a public hearing and recommend action in November. Below, I listed a summary of the changes in the attached proposed text amendment, and name where each proposed change originated.

Summary of Ordinance Text Changes:

1. Minor edits to clarify meaning made to Sec. 60-950. *(Edits made by legal counsel for clarity).*
2. Add Sec. 60-951 "(a) Boundaries", make minor edits to clarify meaning. *(Edits made by legal counsel for clarity).*
3. Add Sec. 60-951" (b) Definitions" and under this section, add the definition of "curtain drain," "hobby agricultural use," "non-hobby agricultural use," "soil horizon," "soil horizon, limiting or limiting soil horizon," and "soil profile." *(Edits matching language it the State Plumbing Code made for specificity by legal counsel).*
4. Amend Sec. 60-952(a) to state that as of January 1, 2024, non-hobby farms are not permitted, and hobby farms require review from the LAWPC Watershed Manager and notification to the code enforcement officer. *(Introduced by the city council).*
5. Amend Sec. 60-952(b) to prohibit new dwelling units in the Lake Auburn Watershed Overlay District siting state law which may occasionally be amended. *(Language edit for clarity suggested by legal counsel, but the planning board and city council already took favorable action on this item's content.)*
6. Amend Sec. 60-952(c) so that agricultural buffer strips become 100 feet wide instead of 50 feet wide and specify that applicable perennial or tributary streams should be identified on a 7.5-minute series USGS topographic map, dated 1981. *(City council introduced this item and has had first reading).*
7. Amend Sec. 60-953(d) to prohibit any spreading of sludge and specify that manure spreading shall be in conformance with the then-current edition of the Maine Dept. of Agriculture Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal. *(Edit made by legal counsel to reflect existing environmental guidelines and practices.)*
8. Minor edits for specificity meaning in Sec. 60-952(e)(2) and (3). *(Introduced by legal counsel to add clarity).*
9. Amend Sec. 60-952(f) substituting "sewage" with "subsurface wastewater." Under this section, also amend 60-952(f)(1) the private subsurface wastewater disposal system design to specify that there must be at least 36 inches separation between the bottom of the disposal field and the limiting soil horizon and allows for 24 inches of this material be natural or fill, which is a change from the current ordinance. *(Introduced by the city council, and favorable recommendation made by the planning board.)*
10. Amend Sec. 60-952(f)(2) from requiring 300 feet between any new septic field to the high-water line of a stream, tributary, or outlet of Lake Auburn to requiring 400 feet separation. *(Introduced by the city council).*
11. Add Sec. 60-952(f)(3) stating that all new or replacement systems must meet the above criteria or be designed in consultation with Auburn Water District. *(Introduced by legal counsel to add clarity).*
12. Add Sec. 60-952(f)(4) that all replacement or new systems shall have either a curtain drain, or a diversion ditch and that this is signed off on by a site evaluator. *(Introduced by the city council).*

13. Add Sec. 60-952(f)(5) which requires that all new and replacement systems be located on the same lot as the dwelling unit being served, or that in the case of an existing home, the applicant can prove to the plumbing inspector that it is physically impossible to have the septic system on the same lot. *(Introduced by the city council).*
14. Add Sec. 60-952(f)(6) which requires that systems in the Lake Auburn Watershed Overlay district be inspected by LAWPC or its designee every five years. *(Introduced by the planning board).*
15. Minor edits to clarify wording made to Sec. 60-952(f)(7). *(Introduced by legal counsel to add clarity).*
16. Grammatical edits made to Sec. 60-952(f)(8). *(Introduced by legal counsel).*
17. Eliminate original Sec. 60-952(f)(5) which exempts systems in existence since 1983 from meeting the provisions of this section.
18. Grammatical edits made to Sec. 60-1237. *(Introduced by legal counsel).*

III. **Department Review:**

IV. **Planning Board Action:** Review text changes, provide staff with feedback, and prepare for public hearing on these items in November.

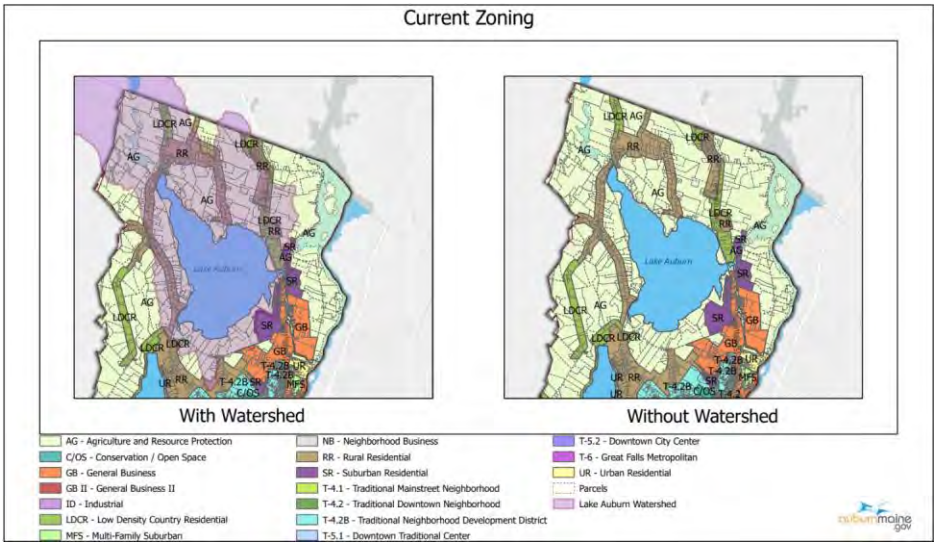
City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

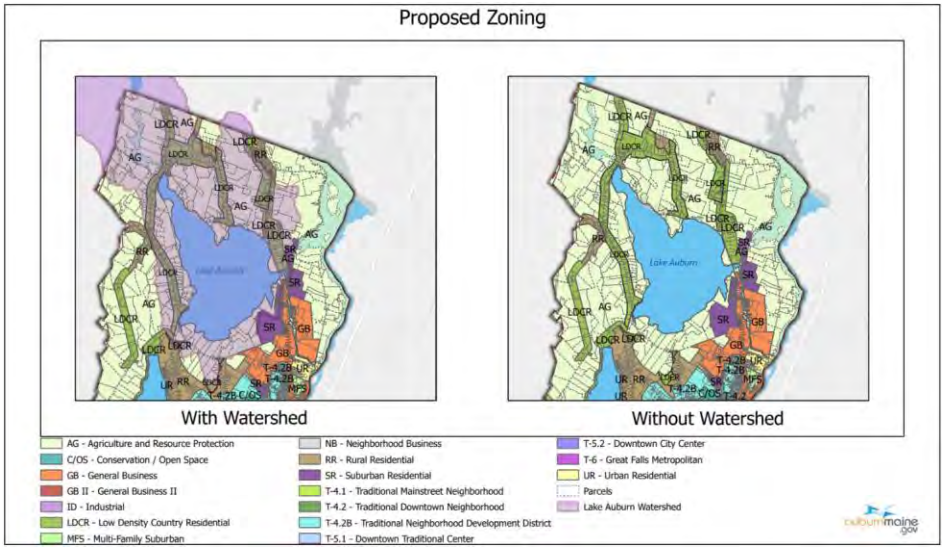
Date: October 10, 2023

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report on Proposed Map Change Converting Rural Residential Zoning District to Low Density Country Residence Zone within the Lake Auburn Watershed Overlay District.

I. **Workshop/ Map Amendment:** Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change is to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** The City of Auburn is proposing several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District. One such change includes amending subsurface wastewater disposal (SSWD) system standards to require that the limiting soil horizon be at least 36 inches below the bottom of the disposal field and allows for mounded leach fields to create this separation. The current standard, which the planning board may recommend updating in November, requires that the limiting factor must be at least 36 inches below the organic horizon. This current standard does not allow for the most efficient treatment of effluent. The proposed update is intended to improve the efficiency of approximately 251 existing systems within the Lake Auburn Watershed thereby reducing the accumulation of non-point source pollution into Lake Auburn. This change in design standard also would have the likely effect of rendering more lots in the





Lake Auburn Watershed Overlay district buildable, creating more septic systems, more land-based runoff, and less forested or vegetated area to collect nutrients before they enter the Lake. The planning board recommended to city council that changing the septic standards should coincide with changing the zoning in the Lake Auburn Watershed to allow fewer houses to offset the possible unwanted development in the watershed of Auburn's drinking water supply.

This map amendment proposes changing all land in the Low-Density Rural Residence or Rural Residence (RR) zoning district, shown in brown, to the Low-Density Country Residence (LDCR) zoning district, shown in green, within the Lake Auburn Watershed Overlay District. This change reduces the density from one dwelling unit per acre and minimum 250 feet road frontage to one dwelling unit per three acres and minimum 325 feet road frontage. For reference, the relevant meetings to this point have been listed below.

Previous Meetings and Actions:

- **Apr. 12, 2022**— Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn Watershed Overlay District.
- **May 2, 2022**—City Council orders the Planning Board to consider a zone change reducing housing density in the Lake Auburn Watershed from one dwelling per acre to one dwelling per three acres in the Rural Residence zoning district in the Lake Auburn Watershed.
- **May 3, 2023—**Special Planning Board workshop to consider reducing the housing density in all parts of the Lake Auburn Watershed from one unit per acre to one-unit per three acres by changing RR sone to the LDCR zone.
- **Aug. 15, 2022**—City Council Workshop on reducing housing density in Lake Auburn Watershed from one dwelling unit per acre to one dwelling unit per three acres in the Rural Residential District in the Lake Auburn Watershed.
- **October 11, 2022**—Planning Board Public Hearing to change RR to LDCR in all portions of the Lake Auburn watershed. Motion to recommend change to Council.

III. **Planning Board Action:** Review text changes, provide staff with feedback, and prepare for public hearing on these items in November.

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-200. Purpose.

The purpose of this zone is to maintain and promote the rural/agricultural character of the land within this zone. This zone is composed of those areas in the city whose predominant land use is rural, wooded and agricultural. The regulations for this zone are designed to protect and stabilize these predominant land uses which are the essential characteristics of these areas and to minimize conflicting land uses detrimental to agricultural enterprises. Since residences are only incidental to this zone's development, the densities which require improved roads and expanded municipal services, in excess of those required by the present agricultural-oriented uses, shall not be permitted.

(Ord. of 9-21-2009, § 3.32A)

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for

domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.32C; Ord. No. 11-03012021, §§ 10, 11, 3-15-2021)

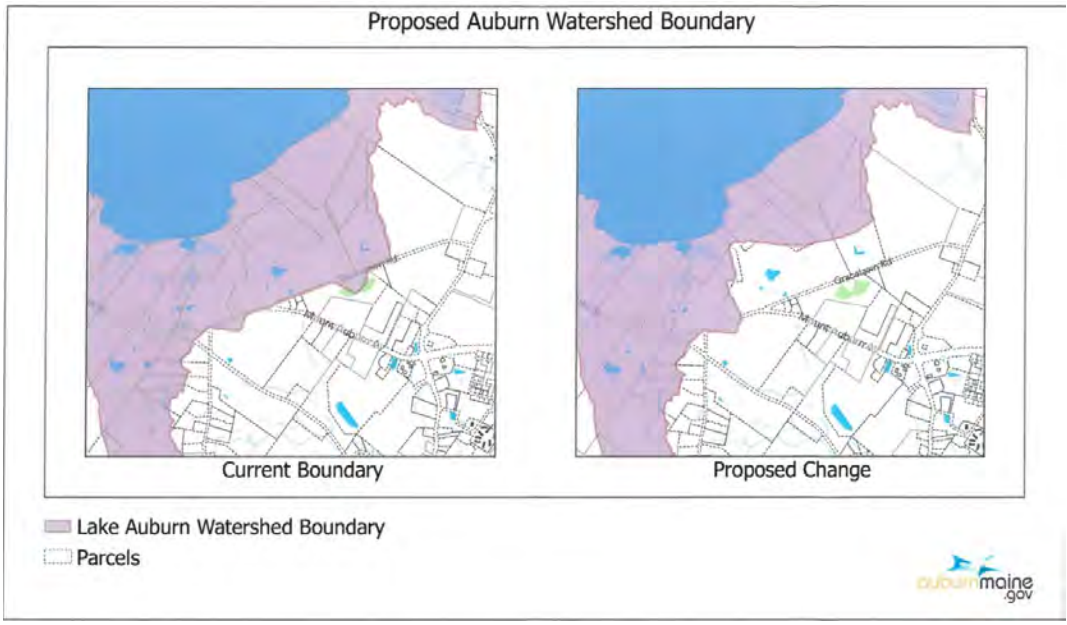
Date: October 10, 2023

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report on proposed map change to move the Lake Auburn Watershed Overlay boundary to match topographical watershed
Updated 10/5/2023

I. **Workshop/ Map Amendment:** Consider changing the Lake Auburn Watershed Boundary to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line which was peer reviewed and agreed upon the Maine Drinking Water Program and recommended by the Lake Auburn Ad-Hoc Group. This map change is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.



II. **Background:** The City recognized that the Lake Auburn Watershed Boundary had changed from their previous understanding at the end of 2021 based on the report, "A Regulatory, Environmental, and Economic Analysis of Water supply Protection in Auburn, ME". In the months that followed, the Planning Board and City Council held several hearings on changing the zoning in the area that was formally, but no longer in the Lake Auburn Watershed from Agriculture and Resource protection to the GB district and move the boundary in the Future Land Use Plan in the Comprehensive Plan to the Community Development District (CDD). Following a petition to change the Lake Auburn Watershed Overlay boundary, the watershed boundary line reverted to what it was prior to March 21, 2022. Since then, the Auburn Water and Sewer District, the City of Auburn, and the City of Lewiston have conducted peer reviews of the hydrogeological features of the Gracelawn area. The Maine Drinking Water Program (DWP) agrees with the CDM Smith finding that the "DWP Potential Boundary" shown in the attached memo is a conservative boundary that can be established with available data. DWP also suggested that further studies should be conducted to move the boundary even closer to the lake in this area. All parties involved in the long process to delineate the accurate Lake Auburn watershed boundary agree that the "DWP Potential Boundary" is the best delineation based on available data.

The purpose of this workshop is to update the City's Lake Auburn Watershed Overlay Map on our GIS system to match the agreed upon boundary shown as "DWP Potential Boundary" in Figure 1 - 0

Site Plan Depicting Areas of Uncertainty, and "Proposed Change" in the Proposed Auburn Watershed Boundary Map (attached). The purpose of this workshop is to discuss these changes, answer any questions that the planning board has outlying, and prepare for a public hearing and action in November. Relevant meetings and actions up to this point have been listed below.

Previous Meetings and Actions:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.

III. **Planning Board Action:** Provide questions, comments, feedback, staff, and initiate a public hearing on these items in November.

LEWISTON ME

Administration

Phil Crowell, City Manager
City of Auburn
60 Court Street
Auburn, Maine 04210

September 18, 2023

Manager Crowell,

Last week, the Auburn Water District and the Lewiston Water Division received a letter from the Maine Drinking Water Program. I am pleased, as I am sure you were, that the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"*.

In 2022, the City of Auburn City Council amended the Lake Auburn Watershed Overlay District, as it affected the Gracelawn Parcel. Lewiston consents to an amendment of the Lake Auburn Watershed Overlay District, provided that the Auburn Water District first amend its bylaws to exclude the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway and that, second, the Auburn Water District, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. The Auburn Water District has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the remaining issues in the present lawsuit, *City of Lewiston v. Auburn Water District, et al.*, can be settled.

Please contact me with any questions.

Sincerely,

Heather Hunter

LEWISTON ME

Public Works

September 18, 2023

Mr. Michael Broadbent, Superintendent
Auburn Water District
PO Box 414
Auburn, Maine 04212-0414

Mike
Superintendent Broadbent:

I am pleased, as I am sure you were, to have received the Maine Drinking Water Program's September 5, 2023 letter. As you know, the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty".

Of course, the Auburn Watershed boundary through the Gracelawn Parcel is an issue in the pending lawsuit, *City of Lewiston v. Auburn Water District, et al.* In an effort to remove that issue from suit, Lewiston consents to an amendment of the AWD bylaws to redefine the Level 1 zone of protection to exclude the portion of the Gracelawn parcel that lies between the DWP Potential Boundary line and the nearest roadway (and only to this extent).[1] Additionally, Lewiston proposes that AWD, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway. Upon the successful completion of these actions, Lewiston will notify the court that it is dropping this issue from the lawsuit.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. AWD has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the parties can amicably settle the remaining issues in the present lawsuit.

Please contact me with any questions.

Sincerely,

Kevin

Kevin A. Gagne, P.E.
Deputy Director of Utilities

ENCLOSURES: Maine Drinking Water Program's September 5, 2023 letter

---

[1] As the City of Lewiston recently communicated to AWD through counsel, it is Lewiston's position that AWD's current bylaws limit the Board of Trustee's authority to revise and amend the watershed. The Board may more specifically identify and map "these restriction zones" only to the extent the map is consistent with the bylaws' existing definitions of the restriction zones. The Level 1 Intake Restricted Zone is defined to consist "of the shoreline of Lake Auburn upland to the closest roadway." The DWP Potential Boundary is between the shoreline of Lake Auburn and the closest roadway, so adopting it as the Watershed boundary will require a change to the bylaws.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

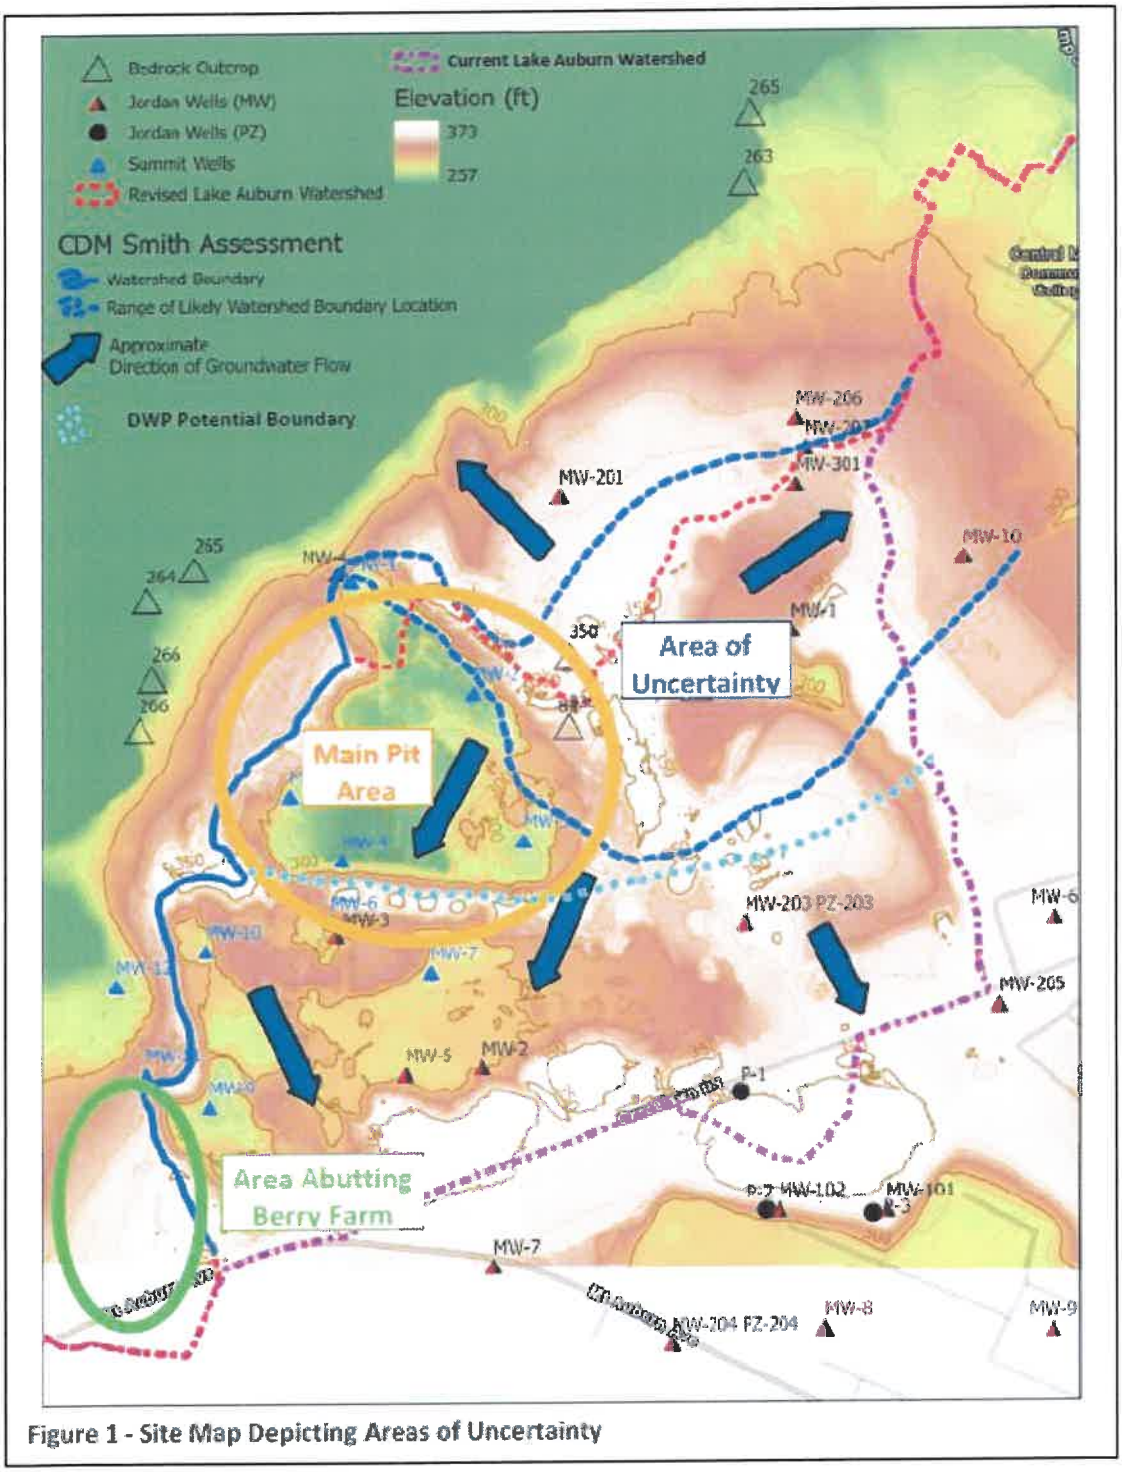

Figure 1 - Site Map Depicting Areas of Uncertainty

Feel free to contact me regarding our feedback within this letter, and thank you for your good work providing safe drinking water.

Sincerely,

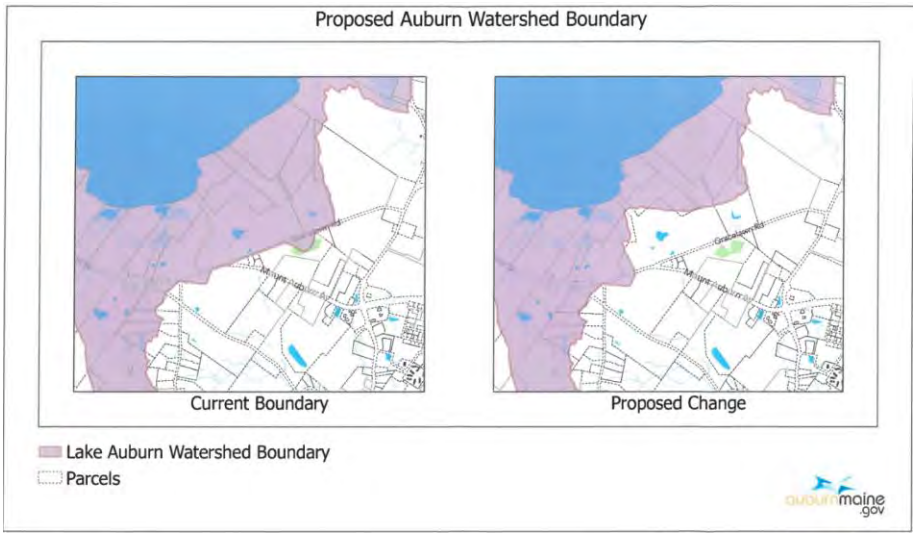
Date: October 10, 2023

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report on possible zoning map amendment near Mount Auburn Ave.
Updated 10/05/2023

I. **Workshop/ Map Amendment:** New zone considerations for area outside the new Lake Auburn Watershed Overlay at the south side of Lake Auburn

II. **Background:** In November, the planning board will consider updating the Lake Auburn Watershed Overlay zoning map to match the "DWP Potential Boundary" that was agreed upon by the City of Auburn, Auburn Water and Sewer District, and Lewiston Water Division. The land area that is removed from the watershed, approximately 80 acres, is currently zoned Agriculture and Resource Protection. The purpose of this workshop is to discuss what other zone would fit in the Gracelawn area that is no longer in the watershed. A draft map showing the potential zone change is attached.



The Future Land Use Plan for the area near Gracelawn to be changed to the Commercial Development District (CDD), which is synonymous with the General Business District in its allowed uses and densities. Staff believes that General Business (GB) would be the most appropriate option to apply in this area based on direction from the 2021 Comprehensive Plan. An important goal for the city is listed in Strategy I.2.3.c in the Comprehensive Plan: to "investigate opportunities for high quality, creative use of vacant land and/or buildings in and around commercial/ industrial centers." This includes rezoning Gracelawn Pits as a planned development site to be used for a mix of office, retail, and residential space, while assuring that the water quality of Lake Auburn is protected, (page 73, Comprehensive Plan). Pursuing a zoning amendment to change the area outside the watershed in the Gracelawn pit area but excluding the landfill parcel achieves the goal of providing opportunity for mixed use development outside of the Lake Auburn Watershed.

III. **Planning Board Action:** Provide questions, comments, feedback, staff, and prepare for public hearing on a zoning map amendment in November.

DIVISION 12. GENERAL BUSINESS DISTRICT

Sec. 60-498. Purpose.

This district is intended to include commercial uses serving both the city and the region, together with normal accessory uses compatible with a cohesive and attractive shopping and office area.

(Ord. of 9-21-2009, § 3.62A)

Sec. 60-499. Use regulation.

(a) *Permitted uses.* The following uses are permitted:

(1) Residential dwelling uses permitted in the Multifamily Suburban District (MFS) (division 7 of article IV of this chapter).

(2) Grocery stores and supermarkets.

(3) Clothing stores.

(4) Furniture stores.

(5) Department stores.

(6) Specialty shops.

(7) Hotels and motels.

(8) Funeral homes and mortuaries.

(9) Child day care centers.

(10) Medical and dental clinics.

(11) Wholesale bakeries.

(12) Retail laundries and dry cleaners, but not plants.

(13) Banks, business and professional offices.

(14) Public transportation passenger offices.

(15) Governmental offices.

(16) Municipal, civic or public service buildings and other utility facilities.

(17) Warehouses, wholesale offices, salesrooms and showrooms.

(18) Restaurants, bars, dining rooms or lunchrooms, but not to include drive-in and carry-out restaurants.

(19) Halls, private clubs and lodges, bowling alleys, ice and roller skating rinks, indoor theaters and similar places of indoor amusement or recreation.

(20) Animal hospitals and pet shops, but no kennels.

(21) Business equipment repair and business services.

(22) Radio and television studios.

(23) Printing shops, but not publishing plants.

(24) Retail, service, office and commercial uses similar to the foregoing.

(25) Carwashes.

(26) Accessory uses, building and structures.

(27) Shelters for abused persons.

(28) Greenhouses and lawn maintenance services.

(29) Temporary outdoor places of amusement.

(30) Churches and temples.

(31) Adult use and medical marijuana stores subject to the requirements of chapter 14, article XVIII of the City of Auburn Ordinances.

(32) Marijuana cultivation accessory to a licensed retail store on the same property.

(b) *Special exception uses.* The following uses are permitted as special exceptions after approval by the planning board in accordance with division 3 of article XVI of this chapter:

(1) Automobile filling stations.

(2) Automobile repair and service stations.

(3) Automobile and marine sales lots and sales and service agencies.

(4) Automobile and marine paint and body repair shops.

(5) Hospitals, care homes, boardinghouses and lodginghouses.

(6) Research or philanthropic institutions.

(7) Outdoor theaters.

(8) Drive-in or carry-out restaurants.

(9) Commercial parks.

(10) Sales, rental and service agencies for mobile homes, farm equipment, trucks and trailers, and machine equipment.

(11) Light industrial plants which will not create a nuisance by noise, vibration, smoke, odor or appearance.

(12) Off-street parking as a commercial or municipal use provided that such parking is limited to occupants of buildings located within 500 feet of such parking area whether or not within the same district. The planning board may impose conditions regarding fencing and screening, drainage, ingress and egress, signs and lighting, and total capacity of the parking area as it deems necessary to protect the character of the neighborhood.

(13) Trucking terminals and similar nonprocessing storage and distribution uses, except bulk storage of chemicals, petroleum products and other flammable, explosive or noxious materials.

(14) Convenience stores.

(15) Research, experimental and testing laboratories.

(16) Landscape services.

(17) Any new building of 5,000 square feet or more or any existing building which proposes a use permitted under subsection (a) of this section which will occupy an area of 5,000 square feet or more.

(18) Automotive towing and storage.

(19) Major retail development provided that it meets the conditions noted in section 60-45(g).

(20) Outpatient addiction treatment clinics.

(21) Adaptive reuse of structures of community significance.

(22) Public safety services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(23) Government services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(Ord. of 9-21-2009, § 3.62B; Ord. No. 11-11072016, 11-21-2016; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 05-05202019, 6-3-2019; Ord. No. 11-03012021, §§ 30, 31, 3-15-2021; Ord. No. 02-02132023, 2-17-2023)

Sec. 60-500. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* No building used for commercial or office uses shall be constructed on a lot having less than 10,000 square feet minimum lot area and measuring 100 feet in width. No lot shall be less than 100 feet in depth. Buildings used for residential uses shall have the same minimum lot area, width and depth as provided for buildings in the Multifamily Suburban District (MFS), section 60-307(1).

(2) *Density.* Not more than 30 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering

requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials. Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height. Religious buildings, municipal buildings or buildings listed by the state historic preservations commission may have a steeple, cupola or tower to a maximum height of 90 feet, if said structure is limited to 15 percent of the footprint of the principal building. In the airport approach zone, Federal Aviation Administration regulations shall apply. Accessory structures, including windmills, that are necessary for the operation of an allowed principal use may exceed the above maximum height requirements, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of the yard required pursuant to this section. In the airport approach zone, Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.62C; Ord. of 3-22-2010; Ord. No. 11-03012021, §§ 32, 64, 3-15-2021)

Secs. 60-501—60-523. Reserved.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

IN COUNCIL REGULAR MEETING SEPTEMBER 18, 2023, VOL. 37 PAGE 80

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. **Consent Items** – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 122-09182023***
Confirming Chief Moen's appointment of Brent Bynum as a Constable with firearm for the Auburn Police Department.

2. **Order 123-09182023***
Accepting the transfer of $1,896.00 of forfeiture assets to the Auburn Police Department (Unified Criminal Court Docket No. CR-2020-01965 (St. Hilaire)).

3. **Order 124-09182023***
Accepting the transfer of $2,114.00 of forfeiture assets to the Auburn Police Department (Unified Criminal Court Docket No. CR-2019-02569 (Poulin)).

4. **Order 125-09182023***
Accepting the transfer of $1,421.00 of forfeiture assets to the Auburn Police Department (Unified Criminal Court Docket No. CR-22-2172 (Burnsworth)).

5. **Order 126-09182023***
Accepting the transfer of $557 of forfeiture assets to the Auburn Police Department (Unified Criminal Court Docket No. CR-23-1609 (Deam)).

6. **Order 127-09182023***
Authorizing the cancellation of the October 2, 2023 regular City Council meeting and calling a special meeting to be held on October 23, 2023.

7. **Order 128-09182023***
Designating Phil Crowell as the official Voting Delegate and Brian Wood as the alternate Voting Delegate for Auburn at the Maine Municipal Associations Annual Business Meeting scheduled for October 2023.

Councilor Staples requested that item #6, Order 127-09182023 be taken off consent and added to new business.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage of the six remaining consent items.

Passage 7-0.

II. Minutes - September 5, 2023, Regular City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Whiting to approve the minutes of the September 5, 2023, Regular City Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Council Communications (about and to the community)

Mayor Levesque stated that he received a letter from President Joe Biden regarding his recent visit to Auburn. The Mayor read the letter for the public to hear. He also reported that he and Evan Cyr attended the CNU (Congress for the New Urbanism) New England Fall Summit and were presented with the Municipal Innovation Award.

Manager Crowell reported on the shops at Anniversary Park, kayaking opportunities on the river, and last, he noted that we are in search of a Christmas tree for Festival Plaza.

IV. Open Session –

Mike Adler, 82 Loring Avenue, spoke regarding pan handlers in Auburn.

Wayne Souza, Auburn resident read a few quotes.

Chance, who stated that he is a homeless healthcare worker who commented on Facebook and commented that a public official should not be able to block criticisms and voices of the community.

Bob Hayes, 172 Allen Avenue, spoke about what he called flaws in the process of ordinance changes and the form-based planning process.

V. Unfinished Business

1. Ordinance 11-09052023
Approving the text amendment to the Auburn Code of Ordinances, Sec. 60-548B – Front Setback, Principal for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2023. **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment. No one from the public spoke.

Failed 0-7. A roll call vote was taken.

2. Ordinance 12-09052023

Approving the text amendment to the Auburn Code of Ordinances, Sec. 60-548B, T-4.2B Sec. 60-54B Intent and Purpose, Sec. 60-54B.1, Building Placement on Lot, Frontage Buildout, 3. Sec 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – Ryan Smith, provided handouts for the City Council which he stated outlines flaws in our definitions of structures and dwellings. He stated that there is no definition for a shared private drive adding that he feels it is a flaw that was overlooked.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

3. **Ordinance 13-09052023**
Approving the zoning map amendment T-4.2B & C/OS "Area A1". **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment - Ryan Smith, 14 Weaver Street provided written comments that were emailed and handed out to the Mayor and City Council. He stated that he was submitting written comments to clarify what the new LD2003 states. He noted that he is all for more flexible zoning, but only with more careful planning and citizen engagement. Included in the handout was a copy of Chapter 5: Housing Opportunity Program: Municipal Land Use and Zoning Ordinance Rule.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

4. **Ordinance 14-09052023**
Approving the zoning map amendment T-4.2B & C/OS "Area A2". **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – Dee Chapman, Vivian Street, spoke in opposition of this proposed ordinance. She stated that the Sun Journal quoted her incorrectly and she wanted that noted. She said she would like to remove the whole T-4.2b in this section.

Mike Adler, 82 Loring Avenue, stated that he would like the Council to vote this down again.

Ryan Smith, 14 Weaver Street provided written comments that were emailed and handed out to the Mayor and City Council. He stated that he was submitting written comments to clarify what the new LD2003 states. He noted that he is all for more flexible zoning, but only with more careful planning and citizen engagement. Included in the handout was a copy of Chapter 5: Housing Opportunity Program: Municipal Land Use and Zoning Ordinance Rule.

Failed 0-6-1 (Councilor Walker abstained). A roll call vote was taken.

5. **Ordinance 15-09052023**
Approving the zoning map amendment T-4.2B "Area C". **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment - Ryan Smith, 14 Weaver Street provided written comments that were emailed and handed out to the Mayor and City Council. He stated that he was submitting written comments to clarify what the new LD2003 states. He noted that he is all for more flexible zoning, but only with more careful planning and citizen engagement. Included in the handout was a copy of Chapter 5: Housing Opportunity Program: Municipal Land Use and Zoning Ordinance Rule.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

6. **Ordinance 16-09052023**
Approving the zoning map amendment T-4.2B "Area D". **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – Ryan Smith, 14 Weaver Street expressed concerns that this zone change will save the neighborhoods from LD2003, and he would like to hear more discussion from the Council and would like to hear more regarding parking. He also provided written comments in advance of the meeting that were emailed and handed out to the Mayor and City Council. He stated that he was submitting written comments to clarify what the new LD2003 states. He noted that he is all for more flexible zoning, but only with more careful planning and citizen engagement. Included in the handout was a copy of Chapter 5: Housing Opportunity Program: Municipal Land Use and Zoning Ordinance Rule.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

7. **Ordinance 17-09052023**
Approving the Zoning Ordinance text amendments (Proposal B1) – Amend Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations, Division 2-Agriculture and Resource Protection District. **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 5-2 (Councilors Gerry and Milks opposed). A roll call vote was taken.

8. **Ordinance 18-09052023**
Approving the Zoning Ordinance text amendments (Proposal B3) – Amend Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations, Division 2, Agriculture and Resource Protection District. AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor

Pond watershed. **Second reading.**

Motion was made by Councilor Morin and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Failed 0-7. A roll call vote was taken.

9. Ordinance 19-09052023
Approving the AGRP text amendments (Proposal B2) Planning Board proposed change number ten to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years. **Second reading.**

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Failed 0-7. A roll call vote was taken.

VI. New Business

Order 127-09182023
Authorizing the cancellation of the October 2, 2023 regular City Council meeting and calling a special meeting to be held on October 23, 2023.

This item was removed from the Consent Agenda.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Motion was made by Councilor Gerry to add a workshop on October 2, 2023. Motion failed for lack of a second.

Passage of Order 127-09182023 5-2 (Councilor Staples and Gerry opposed).

1. Public hearing
Public Safety Building Referendum scheduled to be submitted to the Auburn voters at the November 7, 2023, Election.

Mayor Levesque opened the public hearing at 7:43 pm.

Matt Dailey, Police Department spoke to endorse the proposed Public Safety Building and addressed some of the needs for adequate space.

Douglas Mathews, also spoke in favor of the proposed Public Safety Building and the need for additional space.

Chance, no last name or address provided, stated that it would be wise for the city to

invest in more protection for the vulnerable, less protected, and homeless.

Jason Moen, Police Chief, spoke regarding the needs of a Public Safety Building and spoke regarding the process that has gotten us to this point. He added that Auburn is growing and very different from 20 plus years ago and they need a location and space to support that.

Bob Chase, Fire Chief, wanted to build on what Chief Moen stated. He stated that there is a financial cost to do nothing as well. Both agencies have much more diverse work forces which will have to be addressed whether this building passes or not, as well as safety issues that will have to be addressed.

Wayne Souza said he has dealt with similar issues and understands it is difficult for the city to reach out to the state for money but when you take that step it makes it easier.

Mike Adler, 82 Loring Ave, stated that he supports Police and Fire, he knows they need a new building, and we need to support our city services, Police, Fire, Public Works, and EMT, and we also have to support the County Sheriff's Department as well.

Mayor Levesque closed the public hearing at 7:59 pm.

2. **Ordinance 20-09182023**
Amending Chapter 24, Article II, Division 1, Sec. 24-33 of the General Assistance Ordinance Annual Adjustment of Maximum Benefits. First reading.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – Chance, who stated that he is a homeless health care worker, and a CNA, and stated that we need general assistance during times of harship.

Passage 7-0. A roll call vote was taken.

3. **Order 128-09182023**
Authorizing the partial discontinuance of Chestnut Street.

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 5-1-1 (Councilor Whiting abstained, Councilor Walker opposed).

4. **Order 129-09182023**
Authorizing the discontinuance and re-alignment of Miller Street.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 7-0.

5. **Order 130-09182023**
Authorize the city manager to modify the solid waste agreement with Casella to initiate a pilot recycling program within designated areas within the city, by using the allocated funding authorized in the FY24 budget.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0.

6. **Ordinance 21-09182023**
Amending the Code of Ordinances, Chapter 14, Article XVIII Adult Use and Medical Marijuana Business licensing. Public hearing and first reading.

Motion was made by Councilor Staples and seconded by Councilor Whiting for passage.

Public hearing – Hannah King, representing Marc Fishman, respectfully requests council to remove the retroactive language which would add to the license application criteria that is not in the current ordinance. She stated that it also creates a new appeals process. The application that was filed contained all required information. She suggested making it a condition which would make more sense than requiring all those approvals.

Marc Fishman, business owner at 213 Washington Street, Auburn said he would like to see the retroactive language removed. He stated that he included everything that was needed under the current ordinance. He stated that it does not seem like a fair process that could impact, not only his business, but also sets bad precedence for the city of Auburn.

Motion was made by Councilor Hawes and seconded by Councilor Walker to postpone this item until the October 16, 2023 meeting.

Passge 7-0.

VII. **Open Session -** Wayne Souza, commented on cones that are left around the city and also commented on drivers that do not slow down for people in the cross walk.

Chance, spoke regarding inflation, rent control, and wages.

VIII. **Reports (from sub-committees to Council)**

Mayor Levesque reported on the Blues and Brews Festival which was a success. He also noted that he was invited to serve on a state committee for creating permanent homes and financing options for ADU's.

Councilor Staples noted that Thursday is the Annual Meeting for Auburn Public Library starting at 5:30.

City Manager Crowell provided information regarding pan handling in the city. He also provided an update on the lawsuit against the City of Auburn. The judge found in favor of the City of Auburn and American Development Group and the plaintiff has 21 days to file an appeal.

August 2023 Finance Report

Motion was made by Councilor Whiting and seconded by Councilor Gerry to accept and place on file the August Finance report.

Passage 7-0.

IX. Executive Sessions – None

X. Adjournment

Motion was made by Councilor Staples seconded by Councilor Walker to adjourn.

Unanimously approved and the meeting adjourned at 8:42 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

OFFICE OF THE MAYOR | CITY OF AUBURN, MAINE

PROCLAMATION | **EXTRA MILE DAY**

WHEREAS, Auburn, Maine is a community which acknowledges that a special vibrancy exists within the entire community when its individual citizens collectively "go the extra mile" in personal effort, volunteerism, and service; and

WHEREAS, Auburn is a community which encourages its citizens to maximize their personal contribution to the community by giving of themselves wholeheartedly and with total effort, commitment, and conviction to their individual ambitions, family, friends, and community; and

WHEREAS, Auburn is a community which chooses to shine a light on and celebrate individuals and organizations within its community who "go the extra mile" in order to make a difference and lift up fellow members of their community; and

WHEREAS, the City of Auburn acknowledges the mission of Extra Mile America to create 550 Extra Mile cities in America and is proud to support "Extra Mile Day" on November 1, 2023.

NOW THEREFORE, I Jason Levesque, Mayor of the City of Auburn, do hereby proclaim November 1, 2023, to be Extra Mile Day. I urge each individual in our community to take time on this day to not only "go the extra mile" in his or her own life, but to also acknowledge all those who are inspirational in their efforts and commitment to make their organizations, families, community, country, or world a better place.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 16th day of October 2023.

Mayor Jason Levesque

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **Orders:** 115-09052023

Author: Alison F. Pepin, Deputy City Clerk

Subject: Automobile Graveyard/Junkyard permits renewal

Information: This is an annual renewal of currently existing Automobile Graveyard/Junkyards in Auburn. Reminder letters and applications were sent out 08/15/2023. Inspections have been made. Council approval is required for renewal of these licenses. Because this is a renewal, a public hearing is not required. It has passed inspections conducted by the Code and Fire Departments. This was presented at the 9/5/2023 Council meeting and was postponed to tonigh's meeting.

Title 30-A, Sec. 3754 states "*Municipal officers or county commissioners, as provided for in section 3753, shall hold a public hearing before granting a permit to establish a new automobile graveyard, automobile recycling business or junkyard and **may** hold public hearings annually regarding the relicensing of these facilities*".

Don's No Preference Towing of L/A, Inc., dba Morris Auto Parts, 940 Washington St. North

---

City Budgetary Impacts: None

Staff Recommended Action: Consider passage to approve the license.

Previous Meetings and History: Annual Renewal

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

I would like to take a moment to introduce myself and tell you a little bit about me. I'm the new president of Don's Towing, Bryan Mclean. I spent my childhood here- from being in the tow trucks, processing/recycling cars, being in the salvage yard with my grandfather to working on our trucks and customer vehicles with my father. This business has been a part of the Lewiston/Auburn community for well over 60 years. A few years ago I officially took over the business from my grandfather Don. I am officially carrying on the grandfathering & legacy of the family business and working hard to make it great again.

Coming into this I knew there was a lot to be updated and taken care of. The scrap yard, front entrance, drive way and the all around appearance. We have been creating processes and procedures on how to take care of these things and keep up to date on them. I share a lot of your concerns and have been working towards addressing them all. The improvements to the business are needed and well overdue. Just like many companies in the area, we have been short staffed recently. Thankfully, we have been able to find a few new candidates to help us in the areas where we need it most.

While working with Eric over the past year we have painted the building and rebuilt the fence. I understand that there are some concerns on the overgrowth of the weeds out front- this summer we started cutting and removing stumps so we can make it easier to care for.

The driveway is a big issue and one that we are finally going to get taken care of this week. Last year we started to lay reclaim near our front door. When they started to tear up the road this year, we had reached out to them to see if we would be able to get more of the reclaim to fix the rest. In exchange for them parking their equipment in our yard, we were able to get more. As you all know there has been a lot of rain and in order to get the driveway leveled out and put the reclaim over it, we needed it to dry up. By leveling it and laying the reclaim- it will be easier on any vehicle that comes into our driveway- as well as cutting down on the dirt and mud that gets brought into the road.

When Eric came to express some of the concerns you had he mentioned the lot (not fenced in, to the left of the building). We are also a used car dealer- and we use that space to hold the vehicles that are too good to process, crush and recycle. We currently use that space as a holding area so we can go over each vehicle one by one and see what they need in order to be fixed for resale to the public and other used car dealers. We have maintained being in compliance with the proper paperwork as a used car dealer. Over the last few years we have hauled into our impound lot at least 150 abandoned vehicles a year off the streets of Lewiston/Auburn. These often come from people abandoning vehicles where they shouldn't be, parking bans, criminal tows and both cities parking garages-anything that the police need us to haul off.

Our facility has also been used by the fire department for training. They train using the jaws of life, cutting up vehicles and training to do extractions. We recently acquired a school bus that they had mentioned wanting when they did their inspection this year. We have since moved it

out back fully processed now ready for them to use for their training. After they are done, it will be recycled.

We have a very large tire pile that we are working on getting rid of. We had BDS (a tire recycling company) bring a tractor trailer truck to remove at least 10 TON of them last week. We are on the schedule for them to come again within the next week to take another 10 TON or more. Once this second load is done we will not have many left. We will continue to have them come as needed to ensure that the tire pile stays low/non-existent, cleaning up the problemed area.

We have also started to monitor the riverbanks. We are creating a "buffer zone" around the property so we can get through the overgrowth and address the debris. We will be working section by section of the riverbank and yard to get it cleaned up. We now have access to a small boat to help maintain and monitor the riverbanks.

I also wanted to explain our process, when processing vehicles to ensure that we are in compliance with the rules & regulations of the city as well as the EPA.

We originally had 2 different zones- one for vehicles with fluids and one for fully drained vehicles. We now have a 3rd zone, a holding zone. Once the car is processed, it gets transferred to the holding zone- where myself or another member of the team will double check to make sure everything is drained, safe, secure and in compliance.

We understand that for years this facility has been a bit... neglected, and now that we have new ownership and a new team that have been working on making improvements everyday.

We are more than happy to take suggestions and work with you all to get this place up to par. Thank you for your time and if you have any questions- please feel free to reach out to me. We look forward to working with you in the future and making this facility a place that the town of Auburn/Lewiston can be proud of.

- Sincerly,

City of Auburn, Maine
Office of Planning & Permitting

Re: Junkyard License Inspection – Don's Towing

Date: October 11, 2023

I. **PROPOSAL**: As we have discussed, this junkyard has a history of violations and our inspections have been limited to operational standards because the location predates our zoning and is legally non-conforming with some standards. Some issues have been a result of flooding and we have limited the storage of vehicles with fluids remaining in them to the front portion of the lot and only drained vehicles may be stored out back in the floodplain. Staff reinspected the junkyard on October 11, 2023 and found that they are making improvements as noted in the letter from the new management included in your packet. They have provided receipts for tire removal and reclaim asphalt delivery totaling approximately $10,000 over the past month to show their effort. After legal advice, staff recommends approval with the conditions that will help the business avoid violating junkyard standards and avoid any materials making their way to the river during flooding events. The conditions are noted in the order attached and listed below:

1. Any vehicle containing fluids or batteries shall only be stored or dismantled within the area shown as "Storage of vehicles w/fluids + batteries limited to this area" on an aerial map entitled "940 Washington Street – 2012 Flood Plain Zones – 2013 Aerial" (the "Compliance Plan"), on file in the City's Planning and Permitting Office, and in no event shall any vehicle containing fluids or batteries be stored or dismantled within 100 feet of the normal high water line of the Little Androscoggin River.

2. No vehicles or junk shall be stored or dismantled within 50 feet of the normal high water line of the Little Androscoggin River.

3. Tires shall be stored at least 100 feet from the normal high water line of the Little Androscoggin River, except that if tires are maintained within a fenced enclosure of sufficient height and durability to contain the tires within the enclosure, they may be stored more than 50 feet but less than 100 feet from the normal high water line of the Little Androscoggin River.

4. The used car display area shall be limited to the area of the premises that is located north of the rectangular building shown on the Compliance Plan.

5. The driveway entrance to the premises and exit onto Washington Street North shall at all times be kept free and clear of dust and debris so that dust and debris is not tracked onto Washington Street North or any other public street.

6. Licensee shall cooperate with the City's Director of Planning and Permitting or their designee, who is to conduct inspections of the premises for compliance with (a) these conditions, (b) Sec. 14-74(c) of the Code of Ordinances, and (c) 30-A M.R.S. § 3751 et seq. no less frequently than quarterly. If any violations are observed as a result of such an inspection, they shall be communicated to the licensee for

immediate remediation and, if not immediately remediated, to the City Council for potential suspension or revocation proceedings.

Although these conditions will require some consolidation of stored materials to a smaller footprint, we believe that is necessary for the business in order to comply with local and State Licensing Standards that have been violated over time.

ORDERED, that the City Council hereby approves the annual renewal request for an Automobile Graveyard/Junkyard permit for Don's No Preference Towing of L/A d/b/a Morris Auto Parts, 940 Washington Street North, subject to the following conditions imposed pursuant to Sec. 14-74(a) of the Code of Ordinances and 30-A M.R.S. § 3751 *et seq.*:

1. Any vehicle containing fluids or batteries shall only be stored or dismantled within the area shown as "Storage of vehicles w/fluids + batteries limited to this area" on an aerial map entitled "940 Washington Street – 2012 Flood Plain Zones – 2013 Aerial" (the "Compliance Plan"), on file in the City's Planning and Permitting Office, and in no event shall any vehicle containing fluids or batteries be stored or dismantled within 100 feet of the normal high water line of the Little Androscoggin River.

2. No vehicles or junk shall be stored or dismantled within 50 feet of the normal high water line of the Little Androscoggin River.

3. Tires shall be stored at least 100 feet from the normal high water line of the Little Androscoggin River, except that if tires are maintained within a fenced enclosure of sufficient height and durability to contain the tires within the enclosure, they may be stored more than 50 feet but less than 100 feet from the normal high water line of the Little Androscoggin River.

4. The used car display area shall be limited to the area of the premises that is located north of the rectangular building shown on the Compliance Plan.

5. The driveway entrance to the premises and exit onto Washington Street North shall at all times be kept free and clear of dust and debris so that dust and debris is not tracked onto Washington Street North or any other public street.

6. Licensee shall cooperate with the City's Director of Planning and Permitting or their designee, who is to conduct inspections of the premises for compliance with (a) these conditions, (b) Sec. 14-74(c) of the Code of Ordinances, and (c) 30-A M.R.S. § 3751 *et seq*. no less frequently than quarterly. If any violations are observed as a result of such an inspection, they shall be communicated to the licensee for immediate remediation and, if not immediately remediated, to the City Council for potential suspension or revocation proceedings.

ORDER 115-09052023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby approves the annual renewal request for an Auto Graveyard/Junkyard permit for Don's No Preference Towing of L/A, Inc., dba Morris Auto Parts, 940 Washington St. North.

Richard Whiting, Ward One
Joseph Morin, Ward Four

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **Ordinance:** 20-09182023

Author: Jamie Longley, General Assistance Manager-Health & Social Services

Subject: Adoption of Appendices for General Assistance, Effective 10/01/2023 through 9/30/2024

Information: I am seeking approval of the new General Assistance maximums. They Are: Appendix A (The GA overall maximums), Appendix B (the food maximums), Appendix C (Lewiston/Auburn MSA rental maximums), and Recovery Residences.

These maximums are established as a matter of State law based on certain federal and HUD fair market values. These appendices are filed with the Department of Health and Human Services (DHHS) in compliance with title 22 M.R.S.A § 4305(4).

****By adopting the new appendices A-C, the program will be in compliance and receive the 70% reimbursement from the State****

City Budgetary Impacts: The overall maximums (Appendix A) are an average increase of $33.51 per person/household per month. The food maximums (Appendix B) are an average increase of $8.72 per individual per month. The housing maximums (Appendix C) are an average increase of $93.40 per unit per month. *There are no changes in appendices D-H.*

Staff Recommended Action: Approval of changes to the General Assistance Appendices A-C, and Recovery Residences as required by State statute and ordinance. Public hearing and passage of 2nd reading.

Previous Meetings and History: This is a yearly approval needed by the council when changes are made to the appendices. Passage of first reading on 9/18/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Health & Social Services FY 23/24

2023-2024 GA Housing Maximums
(Heated & Unheated Rents)

NOTE: NOT ALL MUNICIPALITIES SHOULD ADOPT THESE SUGGESTED HOUSING MAXIMUMS! ONLY **consider** adopting the following numbers if these figures are consistent with local rent values. If not, a market survey should be conducted, and the figures altered accordingly. The results of any such survey must be presented to DHHS prior to adoption. **Or**, no housing maximums should be adopted and eligibility should be analyzed in terms of the Overall Maximum—Appendix A. *(See Instruction Memo for further guidance.)*

2023-2024 GA MAXIMUMS SUMMARY SHEET

Note: The overall maximums found in *Appendices A, B, C, D, E, and F* are effective from **October 1, 2023 to September 30, 2024.**

APPENDIX A - OVERALL MAXIMUMS

County	Persons in Household					
	1	2	3	4	5	6

NOTE: For each additional person add $75 per month.

(The applicable figures from Appendix A, *once adopted,* should be inserted here.)

APPENDIX B - FOOD MAXIMUMS

Number in Household	Weekly Maximum	Monthly Maximum
1	$ 67.67	$ 291.00
2	124.42	535.00
3	178.14	766.00
4	226.28	973.00
5	268.60	1,155.00
6	322.33	1,386.00
7	356.28	1,532.00
8	407.21	1,751.00

NOTE: For each additional person add $219 per month.

APPENDIX C - HOUSING MAXIMUMS

	Unheated		Heated	
Number of Bedrooms	Weekly	Monthly	Weekly	Monthly
0				
1				
2				
3				
4				

(The applicable figures from Appendix C, *once adopted*, should be inserted here.)

FOR MUNICIPAL USE ONLY

MMA
08/23

APPENDIX D - UTILITIES

ELECTRIC

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is ***not automatically*** entitled to the "maximums" established—applicants must demonstrate need.

1) Electricity Maximums for Households *Without Electric Hot Water*: The maximum amounts allowed for utilities, for lights, cooking and other electric uses ***excluding*** electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$ 85.50
2	$22.52	$ 96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households *With Electrically Heated Hot Water*: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses ***excluding*** heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

NOTE: For electrically heated households, the maximum amount allowed for electrical utilities per month shall be the sum of the appropriate maximum amount under this subsection and the appropriate maximum for heating fuel as provided below.

APPENDIX E - HEATING FUEL

Month	Gallons	Month	Gallons
September	50	January	225
October	100	February	225
November	200	March	125
December	200	April	125
		May	50

FOR MUNICIPAL USE ONLY

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

APPENDIX F - PERSONAL CARE & HOUSEHOLD SUPPLIES

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00
NOTE: For each additional person add $1.25 per week or $5.00 per month.		

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00
3	$23.30	$100.00
4	$27.90	$120.00

Appendix G
Effective: 10/01/23-09/30/24

2023-2024 Mileage Rate

This municipality adopts the State of Maine travel expense reimbursement rate as set by the Office of the State Comptroller. The current rate for approved employment and necessary medical travel etc. is 46 cents (46¢) per mile.

Please refer to the Office of the State Controller for changes to this rate at 626-8420 or visit http://www.state.me.us/osc/

Prepared by MMA
8/2023

Appendix H

Effective: 10/01/23-9/30/24

Funeral Maximums

Burial Maximums

The maximum amount of general assistance granted for the purpose of burial is **$1,475.** The municipality's obligation to provide funds for burial purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable burial expenses are limited to:

- removal of the body from a local residence or institution
- a secured death certificate or obituary
- embalming
- a minimum casket
- a reasonable cost for necessary transportation
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator, where there is an actual cost, for:

- the wholesale cost of a cement liner if the cemetery by-laws require one;
- the opening and closing of the grave site; and
- a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery or in a cemetery under municipal control, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

Cremation Maximums

The maximum amount of assistance granted for a cremation shall be **$1,025.**

The municipality's obligation to provide funds for cremation purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable cremation expenses are limited to:

- removal and transportation of the body from a local residence or institution
- professional fees
- crematorium fees
- a secured death certificate or obituary

- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator where there is an actual cost, for:

- a cremation lot in the least expensive section of the cemetery
- a reasonable cost for a burial urn not to exceed $55
- transportation costs borne by the funeral director at a reasonable rate per mile for transporting the remains to and from the cremation facility.

ORDINANCE 20-09182023

City Council Ordinance

IN CITY COUNCIL

AMENDING CHAPTER 24, ARTICLE II, DIVISION 1, SEC. 24-23 OF THE GENERAL ASSISTANCE ORDINANCE ANNUAL ADJUSTMENT OF MAXIMUM BENEFITS.

Be it Ordained, that the City Council hereby amends Chapter 24, Article II, Division 1, Sec. 24-23 of the General Assistance Ordinance Annual Adjustment of Maximum Benefits to incorporate the following maximum levels of assistance to be effective on and after October 1, 2023 through September 30, 2024, as follows:

Sec. 24-23. - Annual adjustment of maximum benefits.

(a) Each year the Maine Municipal Association provides the city three appendices providing maximum benefits applicable for the period beginning October 1 and ending September 30 as mandated by state law and based on certain federal values effective on October 1 of each year, as follows:

(1) Appendix A, a listing of overall maximum levels of general assistance relating to all Maine municipalities.

(2) Appendix B, a listing of maximum levels of assistance for food.

(3) Appendix C, a listing of maximum levels for heated and unheated housing.

(b) The portion of these annual appendices applicable to the city, as adopted each year by the city council, are made a part of this chapter as though fully set forth herein and a copy thereof is available in the Office of the City Clerk.

Editor's note— The appendices referred to in this section are not codified but are available in the office of the city clerk.

ORDINANCE 21-09182023

City Council Ordinance

IN CITY COUNCIL

Amending the Code of Ordinances, Chapter 14, Business Licenses and Permits, Article XVIII. Adult Use and Medical Marijuana Businesses

Be it ordained, that the City Council hereby approves the amendment of Chapter 14, Business Licenses and Permits, of the Code of Ordinances as follows (additions are underlined; deletions are ~~struck through~~):

ARTICLE XVIII. ADULT USE AND MEDICAL MARIJUANA BUSINESSES

Sec. 14-650. Title

This article shall be known and cited as the "City of Auburn Adult Use and Medical Marijuana Businesses Ordinance" and will be referred to hereinafter as "this ordinance". This ordinance limits all subject adult use and medical marijuana businesses to the zoning districts specified under the auburn zoning ordinance, prescribes definitions of adult use and medical marijuana businesses, and provides for permitting/licensing and regulation of adult use and medical marijuana businesses, and provides performance standards for adult use and medical marijuana businesses.

Sec. 14-651. Authority and applicability.

WHEREAS, implementing a system for the regulation of stores, dispensaries, cultivation, manufacturing, and testing for the production and sale of marijuana, is a complex function with significant administrative demands on the City of Auburn; and

WHEREAS, ensuring that possession and use of Adult Use and Medical Marijuana is limited to persons who are 21 years of age or older, except in the case of minors in possession of a medical marijuana patient card, is necessary to protect those who have not yet reached adulthood from the effects of irresponsible use of marijuana; and

WHEREAS, the City of Auburn believes that any production, processing, or selling of Adult Use and Medical Marijuana should be conducted in a safe and fair manner for the health, safety, and welfare of the community, which includes complying with provisions of all applicable laws and ordinances relating to adult use and medical use of marijuana throughout the City of Auburn; and

NOW THEREFORE, this Ordinance is adopted pursuant to the Marijuana Legalization Act, 28-B M.R.S. § 101 et seq.; the Maine Medical Use of Marijuana Act, 22 M.R.S. § 2421 et seq.; and the city's home rule

authority under Article VIII, Part 2, Section 1 of the Maine Constitution 30-A M.R.S. § 3001 et seq., and 30-A M.R.S. § 4301 et seq.

Sec. 14-652. Purpose.

It is the purpose of this ordinance to regulate adult use and medical marijuana businesses in order to promote the health, safety, and general welfare of the citizens of Auburn, and to establish reasonable and uniform regulations for the appropriate location of adult use and medical marijuana businesses in Auburn.

Persons or entities wishing to establish an adult use or a medical marijuana business within the City of Auburn shall first obtain a license from the Auburn City ~~Council~~Clerk ~~(hereinafter "the city council")~~ and shall be subject to the provisions of this ordinance.

This ordinance may not be construed to limit any privileges or rights of a qualifying patient, primary caregiver, registered or otherwise, or registered dispensary under the Maine Medical Use of Marijuana Act.

Sec. 14-654. Effective date; applicability date.

The effective date of this ordinance [from which this article derived], and the business licensing thereunder, shall be the date of adoption by the city council. Notwithstanding the provisions of 1 M.R.S. § 302 or any other law to the contrary, the amendments to this Article evidenced by Ordinance 21-09182023, when enacted, shall govern any proposed license application for which an application has not been submitted to and finally acted upon by the City prior to July 1, 2023.

Sec. 14-657. License required.

No person may establish, operate or maintain a marijuana business without first obtaining a license from the city ~~council~~clerk.

It is a violation of this ordinance for any person to operate a marijuana business without a valid marijuana business license issued by the city clerk pursuant to this ordinance.

Pursuant to 28-B M.R.S.A. § 402, an applicant seeking to operate an adult use marijuana business may not submit an application for a license unless the applicant has been issued a conditional license by the ~~s~~State of ~~m~~Maine to operate the adult use marijuana business.

Marijuana business licenses shall be administered on a first come, first served basis based upon the date the application is deemed complete.

Registered caregivers operating out of their residence shall apply for and obtain a permit for a home occupation in accordance with article IX of the Auburn Zoning Ordinance and shall comply with all standards set forth in the article. Registered caregivers who cultivate medical marijuana only for themselves and/or members of their household are exempt from this requirement and are not required to obtain a permit or license.

The cultivation, manufacturing, testing or sale of adult use marijuana from a residence is prohibited, unless it is for personal use in accordance with 28-A M.R.S.A. § 1502. Home cultivation of adult use marijuana for personal use is

exempt from the licensing requirements of this ordinance. Provided, however, that outdoor cultivation of adult use marijuana for personal use is prohibited, unless the residence is located in an agricultural zoning district.

Sec. 14-658. Application procedure.

(a) *An application for a license must be made on a form provided by the city.*

(b) *All applicants must be qualified according to the provisions of this ordinance.* Applicants shall provide sufficient information to demonstrate that they meet all qualifications and standards established in this ordinance.

(c) *Application to establish a marijuana business*.

(1) If the applicant who wishes to operate a marijuana business is a single individual, this person must sign the application for a license. If the applicant who wishes to operate a marijuana business is more than one individual, each person who has an interest in the business must sign the application for a license as applicant. Each applicant must be qualified under the following section and each applicant shall be considered a licensee if a license is granted.

(2) The completed application for a marijuana business license shall contain the following information and shall be accompanied by the following documents:

a. If the applicant is an individual means the individual shall state their legal name and any aliases, and submit proof that they are at least 21 years of age.

b. If the applicant is a partnership. The partnership shall state its complete name, and the names of all partners, whether the partnership is general or limited, submit a copy of the partnership agreement, if any, and submit proof that all partners are at least 21 years of age.

c. If the applicant is a corporation. The corporation shall state its complete name, the date of its incorporation, evidence that the corporation is in good standing under State law, the names and capacity of all officers, directors and principal stockholders, the name of the registered corporate agent, the address of the registered office for service of process, and submit proof that all officers, directors and principal stockholders are at least 21 years of age.

d. If the applicant is a limited liability company (LLC). The LLC shall state its complete name, the date of its establishment, evidence that the LLC is in good standing under State law, the names and capacity of all members, a copy of its operating agreement, if any, the address of its registered office for service of process, and submit proof that all members are at least 21 years of age.

e. If the applicant intends to operate the marijuana business under a name other than that of the applicant, they must state the marijuana business' name and submit the required registration documents.

f. If the applicant, an officer, member or employee has been convicted of criminal activity under state and/or federal law, they must list the specified criminal activity involved, and the date, place, and jurisdiction of each conviction.

g. If the applicant has had a previous license under this ordinance or other similar marijuana business license applications in another town, city or state denied, suspended or revoked, they must list the name and location of the marijuana business for which the license was denied, suspended or revoked, as well as the date of the denial, suspension or revocation, and they must

list whether the applicant has been a partner in a partnership or an officer, director, or principal stockholder of a corporation that is permitted/licensed under this ordinance, whose license has previously been denied, suspended or revoked, listing the name and location of the marijuana business for which the permit was denied, suspended, or revoked as well as the date of denial, suspension or revocation.

h. If the applicant holds any other permits/licenses under this ordinance or other similar marijuana business license from another town, city, or state the applicant shall provide the names and locations of such other permitted/licensed businesses.

i. The type of marijuana business for which the applicant is seeking a license.

j. The location of the proposed marijuana business, including a legal description of the property, street address, and telephone number.

k. Sufficient documentation demonstrating possession or entitlement to possession of the proposed licensed premises of the marijuana business pursuant to a lease, rental agreement, purchase and sale agreement or other arrangement for possession of the premises or by virtue of ownership of the premises.

l. The applicant's mailing address and residential address.

m. Recent passport-style photograph(s) of the applicant(s).

n. The applicant's driver's license.

o. A sketch showing the configuration of the subject premises, including building footprint, interior layout with floorspace to be occupied by the business, and parking plan. The sketch must be drawn to scale with marked dimensions.

p. A copy of a city tax map depicting: The subject property lines and the property lines of other properties containing any existing marijuana businesses within 1,000 feet of the subject property; and the property lines of any public or preexisting private school within 750 feet of the subject property, measured in accordance with section 14-659.

q. Evidence of all State approvals or conditional approvals required to operate a marijuana business at the subject premises.

r. Evidence of all land use approvals or conditional land use approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, a building permit, site plan approval, change of use permit or certificate of occupancy for the subject premises.

s. Evidence of all other local approvals or conditional approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, food service establishment licenses.

All applications for a marijuana business license shall be kept confidential by the city.

(4) All applicants, including all individuals, officers, directors, managers, members, and partners, for any medical marijuana business license must be residents of the state, as defined in 22 M.R.S.A. § 2422.

(5) If an applicant is a person, the applicant must be a resident as that term is defined in the application. If the applicant is a corporation, partnership, or limited liability company, every officer, director, and

managing partner must be a person who is a resident, and a majority of shares, partnership interests, and membership interests, or other equity interests must be held or owned by persons who are residents. This residency requirement does not apply to applicants for testing facility licenses.

(e) *Application and license fees.* All applications must be submitted with a $500.00 fee. If an application is approved, the following license fees must be paid before the city will issue a license:

Marijuana store. Annual operation license fee: $5,000.00.

Marijuana manufacturing facility. Annual operation license fee: $2,500.00.

Marijuana testing facility. Annual operation license fee: $2,500.00.

Adult use marijuana cultivation:

Tier 1. 0—500 square feet of plant canopy—Annual permit/licensing fee: $1,000.00.

Tier 2. 501—2,000 square feet of mature plant canopy—Annual license fee: $1,500.00.

Tier 3. 2,001—7,000 square feet of mature plant canopy—Annual license fee: $2,500.00.

Tier 4. Greater than 7,000 square feet of mature plant canopy—Annual license fee: $5,000.00.

Medical marijuana cultivation. Annual operation license fee: $1,000.00.

Adult use marijuana nursery cultivation. Annual license fee: $1,000.00 (Plant canopies of individual nursery cultivations are permanently capped at 1,000 square feet.)

Renewal applicants for adult use marijuana cultivation licenses may seek an increase to a higher tier if they comply with the requirements in this section.

Applicants for adult use marijuana cultivation licenses may not hold more than three such licenses or a total combined plant canopy in excess of 30,000 square feet.

(f) *Complete application*. In the event that the city clerk determines that a submitted application is not complete, the city clerk shall notify the applicant that the application is not complete and shall inform the applicant of the additional information required to process the application.

Sec. 14-662. Appeals.

(a) Any parties aggrieved by a decision of the city clerk under this ordinance may bring the following appeals to the city council:

(1) Appeal by the applicant of the city clerk's denial of an application;

(2) Appeal by the applicant of any license granted by the city clerk with conditions to which the applicant/licensee objects; and

(3) Appeal by any aggrieved party having legal standing of any decision by the city clerk to grant a license under this ordinance.

(b) Appeals must be filed in writing with the office of the city clerk or designee within 30 days of the date of the decision subject to appeal.

(c) The city council shall hold a *de novo* hearing on an appeal within 30 days of the date the appeal is received by the city, unless all parties consent to an enlargement of that time period. It shall be the duty of the city clerk

City Council Ordinance

or designee to notify such parties of the time and place of the hearing. At the hearing, the city council will receive evidence on the application. Following the hearing, the city council shall issue a written decision on the appeal with its findings of fact and conclusions of law.

(d) The city council may approve any application previously denied by the city clerk only upon the affirmative vote of five or more members of the city council.

(e) An appeal from any final decision of the city council may be taken by any party to Superior Court in accordance with the provisions of Rule 80B of the Maine Rules of Civil Procedure.

MLDC NO. 23–030 1 OF 1

Exhibit B
0.23 Acre (9,996 sq. ft.) Discontinuance of a Portion of Chestnut Street
City of Auburn, County of Androscoggin, State of Maine
September 1, 2023

A portion of land of Chestnut Street, so-called, between Winter Street, so-called, and Webster Street, so-called, in the City of Auburn, County of Androscoggin, and State of Maine, being more particularly bounded and described as follows, to wit:

Beginning at a point on the northwesterly side of Chestnut Street at the southwesterly corner of land now or formerly of John R & Barbara J. Landry (Book 6864, Page 210), said point being in a general southwesterly direction, along the northwesterly side of Chestnut Street, a distance of 90 feet, more or less, from the westerly side of Winter Street;

Thence, from the Point of Beginning, South 40° 33' 36" East, crossing said Chestnut Street, a distance of 40.19 feet to a point on the southeasterly side of Chestnut Street and the northwesterly side of land now or formerly of the City of Auburn (Book 1168, Page 229);

Thence, South 43° 48' 18" West, along the said southeasterly side of Chestnut Street, said land now or formerly of the City of Auburn, and land now or formerly of Sultan Corp (Book 5488, Page 202), a distance of 248.75 feet to a point;

Thence, North 43° 50' 03" West, crossing said Chestnut Street, a distance of 40.03 feet to a point on the said northwesterly side of Chestnut Street at the southeasterly corner of land now or formerly of Hero Homes, LLC (Book 9614, Page 308), said point being in a general northeasterly direction, along the northwesterly side of Chestnut Street, a distance of 209 feet, more or less, from the easterly side of Webster Street;

Thence, North 43° 48' 18" East, along the said northwesterly side of Chestnut Street and land now or formerly of the City of Auburn (Book 1168, Page 229), a distance of 251.05 feet to the Point of Beginning.

The above-described parcel of land contains 0.23 acres, more or less (9,996 sq. ft, more or less).

All bearings are referenced to Maine State Grid, West Zone, NAD and based on a plan entitled, "Plan showing Conveyances & Partial Discontinuance of Chestnut Street", made for the City of Auburn, dated August 31, 2023, surveyed by Main-Land Development Consultants, Inc.

All Book and Pages refer to the Androscoggin County Registry of Deeds.

Meaning and intending to describe a portion, and only a portion, of Chestnut Street to be discontinued by the City of Auburn.

Re: Recommendation on the discontinuance of Chestnut Street

Date: September 12, 2023

PROPOSAL: PUBLIC HEARING Discontinuance of Chestnut Street (250+/- feet): This section of road is shown on the map below and is part of larger project with the redevelopment of the PAL Center. This project will adhere to Chapter 46, Article VI, Division 3, Section 46-374 and Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies.

Motion: Riley Bergeron; **second:** Tim DeRoche

"I make a motion to provide a positive recommendation to discontinue (252.05') section of Chestnut Street which more fully described in Exhibit B and Easement Conveyances & Partial Discontinuance Plan dated August 31st, 2023, as it applies to Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies. Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6) and under Sec. 46-374 of the City of Auburn Ordinance."

VOTE: 7-0-0 motion passes.

Re: Staff Report on Discontinuance of Chestnut Street

Date: September 12, 2023

I. PROPOSAL: City Staff is requesting the city to discontinue 252.05' +/- of Chestnut Street/Public Way, as a City Street, to provide a more robust site plan that assists in the development of the new PAL center. The discontinuance of the" town way" will follow the Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies. Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6) Description on the proposed portion of Chestnut Street Discontinuance is described and will be recorded at the Androscoggin County registry of deeds. (See Exhibit B and Conveyances & Partial Discontinuance Plan of Chestnut Street).

II. Department Review:

- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

III. PLANNING BOARD ACTION/STAFF SUGGESTIONS: Staff suggests a planning board discuss the plan and Discontinuance. Staff then recommends that the Board forward a positive recommendation to the Council under Sec. 46-374 supporting the proposed changes at this planning board meeting.

IV. *Suggested Motion:* I make a motion to provide a positive recommendation to discontinue (252.05') section of Chestnut Street which more fully described in Exhibit B and Easement Conveyances & Partial Discontinuance Plan dated August 31st, 2023, as it applies to Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies. Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6) and under Sec. 46-374 of the City of Auburn Ordinance.

ORDER

City Council Order

IN CITY COUNCIL

ORDERED, that Chestnut Street, as laid out on plan and titled "Conveyances & Partial Discontinuance of Chestnut Street", as recommended by the Auburn Planning Board and approved by the Auburn City Council and to be recorded at the Androscoggin County Registry of Deeds , is hereby discontinued 250' +/- as a City Street as provided in Title 23 M.R.S.A § 3026-A, 1-6 et sequ:

LOCATION:

Exhibit B
0.23 Acre (9,996 sq. ft.) Discontinuance of a Portion of Chestnut Street
City of Auburn, County of Androscoggin, State of Maine
September 1, 2023

A portion of land of Chestnut Street, so-called, between Winter Street, so-called, and Webster Street, so-called, in the City of Auburn, County of Androscoggin, and State of Maine, being more particularly bounded and described as follows, to wit:

Beginning at a point on the northwesterly side of Chestnut Street at the southwesterly corner of land now or formerly of John R & Barbara J. Landry (Book 6864, Page 210), said point being in a general southwesterly direction, along the northwesterly side of Chestnut Street, a distance of 90 feet, more or less, from the westerly side of Winter Street;

Thence, from the Point of Beginning, South 40° 33' 36" East, crossing said Chestnut Street, a distance of 40.19 feet to a point on the southeasterly side of Chestnut Street and the northwesterly side of land now or formerly of the City of Auburn (Book 1168, Page 229);

Thence, South 43° 48' 18" West, along the said southeasterly side of Chestnut Street, said land now or formerly of the City of Auburn, and land now or formerly of Sultan Corp (Book 5488, Page 202), a distance of 248.75 feet to a point;

Thence, North 43° 50' 03" West, crossing said Chestnut Street, a distance of 40.03 feet to a point on the said northwesterly side of Chestnut Street at the southeasterly corner of land now or formerly of Hero Homes, LLC (Book 9614, Page 308), said point being in a general northeasterly direction, along the northwesterly side of Chestnut Street, a distance of 209 feet, more or less, from the easterly side of Webster Street;

Thence, North 43° 48' 18" East, along the said northwesterly side of Chestnut Street and land now or formerly of the City of Auburn (Book 1168, Page 229), a distance of 251.05 feet to the Point of Beginning.

The above-described parcel of land contains 0.23 acres, more or less (9,996 sq. ft, more or less).

Partial Discontinuance of Chestnut Street – Waiver of Damages -7 Chestnut Street
PID 250-335

TO: Sultan Corp, Property Owners, 7 Chestnut Street, Auburn, ME

FROM: John Blais, Deputy Director of Planning, Permitting and Code

The City of Auburn is being asked to order the Partial discontinuance of Chestnut Street as a City way, for approximately 250 feet See attached description and Site Plan description.

I understand you are aware that this will be considered based on our previous discussions. You are being notified as an abutting property owner that this will be scheduled for an upcoming City Council Meeting. A preliminary review has shown that your parcel has frontage on two streets including Chestnut Street and Webster Street. It has also been noted that your access to the parcel is via Chestnut Street and will remain after the potential partial discontinuance of Chestnut Street. In a preliminary review we have determined that it is likely that no damage to the abutting property owners is warranted. This letter is to verify if you agree with that determination or if you would prefer that the city investigate this further prior to scheduling a hearing before the City Council to consider the discontinuance of a portion of Chestnut Street.

Please review, select one of the options below and sign and return it to The Planning & Permitting Office at 60 Court Street, Auburn, Me 04210. **By October 1, 2023**.

OPTIONS:

- o I agree that no damages are warranted or due to me for the discontinuance of a portion of Chestnut Street as my frontage and access to public Street(s) will continue to exist on Chestnut Street.

- o I disagree with the preliminary determination and will request damages in the amount of $_____to move forward with the proposed discontinuance.

- o I disagree with the preliminary determination and would like to request that the City acquire the services of a commercial appraiser to determine if damages are warranted.

To Auburn City Council
From: Auburn Planning Board
Re: Recommendation on realignment of Miller Street

Date: September 12, 2023

PROPOSAL: PUBLIC HEARING Realignment of Miller Street (150 +/- feet): This section of road is shown on the map below and is part of larger project to develop the commercial and residential space at 186 Main Street. This project will adhere to Chapter46, Article VI, Division 3, Section 46-374 and Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies.

Motion: Evan Cyr; **second:** Amanda Guerrette

"I make a motion to provide a positive recommendation to discontinue a 90.94 foot section of Miller Street and realigning a 125.34 foot section of Miller Street more fully described in Exhibit A and Easement Plan dated May 5th, 2023, as it applies to Title 23, Part 3, Chapter 304 §3026-A, 1-6 of Maine State Stature as required and applies. Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6) of Maine State Statute and under Sec. 46-374 of the City of Auburn Ordinance." **VOTE:** 7-0-0 motion passes.

Re: Staff Report on Discontinuance of Miller Street and Relocation

Date: September 12, 2023

I. PROPOSAL: City Staff is requesting the city to discontinue 90.94' +/- of Miller Street/Public Way, as a City Street, to provide a more robust site plan that assists in the development of 186 Main Street- That site plan was approved by planning board on June 6, 2023. The discontinuance of the" town way" will follow the Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies. Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6)

City Staff is also requesting Miller Street be realigned as part of the 186 Main Street project, which will be accomplished through the appropriate process that meets state statute following 23 M.R.S. § 3026-A as it applies to the City of Auburn. Description on the proposed Miller Street Relocation is described and will be recorded at the Androscoggin County registry of deeds. (See Exhibit A and Easement Plan)

DRAFT

Discontinuance of a Miller Street – Waiver of Damages -214 Main Street
PID 231-021

TO: William McDonough, Property Owner, 214 Main Street, Auburn, ME

FROM: Jay Brenchick, Director of Economic Development

The City of Auburn is being asked to order the discontinuance of a portion section of Miller Street abutting 178 Main Street and 186 Main Street. The discontinuance will begin approximately at the intersection of Miller Alley and Miller Street and end approximately at the southern boundary of 186 Main Street. as shown more particularly on the attached plan by Sebago Technics dated July 28, 2023 and described in Exhibit A, dated July 28, 2023. This discontinuance will not interfere with tenants accessing existing parking for 214 Main Street.

I understand you are aware that this will be considered based on our previous discussions. You are being notified as an abutting property owner that this will be scheduled for a City Council Meeting. In a preliminary review we have determined that it is likely that no damage to the abutting property owners is warranted. This letter is to verify if you agree with that determination or if you would prefer that the city investigate this further prior to scheduling a hearing before the City Council.

Please review, select one of the options below and sign and return it to The Department of Planning, Permitting & Code at 60 Court Street, Auburn, Me 04210.

OPTIONS:

- o I agree that no damages are warranted or due to me for the discontinuance of Miller Street

- o I disagree with the preliminary determination and will request damages in the amount of $_____to move forward with the proposed discontinuance.

- o I disagree with the preliminary determination and would like to request that the city acquire the services of a commercial appraiser determine if damages are warranted.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **PUBLIC HEARING**

Author: Glen E. Holmes, Director of Business & Community Development

Subject: CDBG/HOME Consolidated Annual Performance Evaluation Report (CAPER) Program Year 2022

Information:
The City of Auburn receives allocations from the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) and HOME Investment Partnership programs each year. The CDBG program aims to enhance urban communities by providing quality housing, improved living environments, and expanded economic opportunities for low and moderate-income individuals. Meanwhile, the HOME program's national goal is to create affordable housing for low-income households. This Consolidated Annual Performance Evaluation Report (CAPER) encompasses the utilization of HOME funds for Auburn and Lewiston, CDBG funds for Auburn, as well as leveraged funds for the period spanning July 1, 2022, through June 30, 2023.

A significant initiative highlighted in this CAPER is the Housing Resources Program, funded by HOME-ARP resources. This program serves individuals experiencing homelessness or at risk of homelessness. It underwent a soft launch as a referral source in January, concurrently with policy development. The complete program was officially launched by the conclusion of the fiscal year.

City Budgetary Impacts:
CDBG funds expended during this program year totaled $319,342. Home Funds expended totaled $477,010. These federal grant dollars cover staff salary/benefits as well as program activities for the Business and Community Development program.

Staff Recommended Action:
Hold Public Hearing

Previous Meetings and History:
Draft CAPER published Sept 15, 2023
Public Comment Period Sept. 15th - Oct. 15th, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Auburn annually receives allocations from the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) and HOME Investment Partnership programs. The CDBG program aims to enhance urban communities by providing quality housing, improved living environments, and expanded economic opportunities for low and moderate-income individuals. Meanwhile, the HOME program's national goal is to create affordable housing for low-income households. This Consolidated Annual Performance Evaluation Report (CAPER) encompasses the utilization of HOME funds for Auburn and Lewiston, CDBG funds for Auburn, as well as leveraged funds for the period spanning July 1, 2022, through June 30, 2023. The objectives and expectations for HOME and CDBG funds align with the Consolidated Plan developed for program years 2020-2024. The Annual Action Plan, delineating one-year performance measures and the strategy for achieving identified objectives, is referenced within this framework. The Auburn Community Development Office (ACDO) diligently collaborated with HUD staff to rectify prior financial and project reporting discrepancies. All necessary corrections were implemented, resulting in full compliance with HUD policies by ACDO.

A significant initiative highlighted in this CAPER is the Housing Resources Program, funded by HOME-ARP resources. This program serves individuals experiencing homelessness or at risk of homelessness. It underwent a soft launch as a referral source in January, concurrently with policy development. The complete program was officially launched by the conclusion of the fiscal year.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The PY22 Action Plan encompasses four specific objectives:

1. **Safe and Affordable Housing:** CDBG funds were employed to rehabilitate homes for low to moderate-income residents in Auburn. These funds were leveraged with additional resources obtained through a grant from the Office of Lead Hazard Control & Health Homes, resulting in the completion of two projects in 2022. Additionally, a new affordable housing program for smaller developers was initiated, with ten applications initiated in 2022, although no projects reached the shovel-ready stage by year-end. Furthermore, the ACDO utilized $287,984 in American Rescue Plan Act (ARPA) funds to provide energy efficiency rebates to 388 residents, a funding source separate from HUD.
2. **Infrastructure Improvement and Blight Reduction:** In 2021, the installation of the final of three community gardens was completed. Throughout 2022, these gardens accommodated 63 plots, managed by 43 households. Furthermore, seven benches were installed along the Art Wall in downtown Auburn. A project to remove lead-based paint from the exterior of the Community Little Theatre in Bonney Memorial Park commenced at the end of program year 2022 but was not finalized by year end, and thus, will be reported in the 2023 CAPER.
3. **Promotion of Economic Opportunities:** Although the Micro-loan program was available in 2022, no projects were executed with CDBG or HOME funds. However, $98,380 in ARPA funds were allocated to four neighborhood grocery stores to enhance healthy food options.

Additionally, the ACDO provided one business loan to a new restaurant and one commercial Agriculture incentive grant for a total investment value of $155,000.

4. **Provision of Essential Services:** In this program year, CDBG funds were allocated to eight programs aimed at delivering essential Public Services to low and moderate-income residents of Auburn. These services included support for Safe Voices, scholarships for Auburn Rec's summer camp, and the establishment of a warming center during the coldest weekend of the year. These programs play a crucial role in assisting families grappling with poverty-related challenges. Notably, the Recreation Scholarship Program was funded to facilitate summer camp experiences for local youth from low and moderate-income families, fostering diversity among campers and enabling parents to pursue employment opportunities and improve their financial situations. Additionally, through HOME-ARP funds, supportive services were provided to 46 households experiencing homelessness or at risk of homelessness.

Please note that the Community Gardens, HOME-ARP, and ARPA projects are not detailed in Table 1.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted). 91.520(a)

	CDBG	HOME
White	505	2
Black or African American	153	2
Asian	0	0
American Indian or American Native	8	0
Native Hawaiian or Other Pacific Islander	3	0
Total	**669**	**4**
Hispanic	19	0
Not Hispanic	650	4

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Auburn's total population, as of the 2020 Census, stands at 24,061. The demographic breakdown indicates that 87.7% of the population is white, 4.5% is Black or African American, and 0.4% are identified as American Indian or Alaskan Native. In the context of CDBG, 75% of the beneficiaries were white, 20% were Black or African American, and 1.4% were American Indian or Alaskan Native. For Home Funds, 88% of the recipients were white, while 9% were Black or African American.

It's important to note that the CR-10 reporting system does not accommodate individuals or households of mixed racial backgrounds. In such cases, individuals who identified with two races were categorized under the primary race listed. For instance, if someone identified as American Indian/Alaskan Native and Black, they were recorded as American Indian/Alaskan Native. Additionally, 21 other individuals or households with multiple racial identities were not included in the CDBG program data presented above.

Within the allocation of PY22 CDBG funds, one particular activity falls under the designation of "area wide benefit." These activities, while impactful, do not gather data regarding the racial and ethnic composition of the beneficiaries they serve. Notably, these "area wide benefit" projects are strategically located in census tracts that qualify as Low-to-Moderate income areas. These tracts tend to exhibit a racial and ethnic composition that diverges from the city's overall demographic makeup, often serving a more diverse population.

Please note that the accomplishments related to HOME-ARP are not represented in the table provided above.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,561,227	319,342
HOME	public - federal	2,213,134	477,010

Table 3 - Resources Made Available

Narrative

In 2021, the city received a significant amount of Program Income, which has carried over into the current year.

During the same year, substantial efforts were dedicated to re-evaluating recent projects and formulating solutions for non-compliant initiatives. These endeavors had an impact during the first half of the year, resulting in performance below initial expectations in housing rehabilitation and new unit creation. Furthermore, the availability of contractors for ongoing programs was constrained, leading to extended project completion timelines.

However, following a comprehensive system overhaul, there has been a notable surge in interest in the rehabilitation and new unit creation programs. As a result of these improvements, these programs are anticipated to align with program goals by the year 2023.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 4 – Identify the geographic distribution and location of investments

Narrative

In the 2020-24 Consolidated Plan, activities were categorized under a city-wide approach without a specific target area of focus. Consequently, the IDIS reporting system did not capture such data.In contrast, the most recent Action Plan outlined a targeted focus area for Public Infrastructure projects. This focus area encompasses Census tracts 101, 103, and 105, which were determined to have a population with 51% or more Low-to-Moderate Income status based on the 2015 American Community Survey (ACS) data derived from the Census 2010.

During the current program year, one Public Infrastructure project was successfully completed. Another project commenced within this year but remained incomplete as of June 30, 2023. It is expected to reach completion in early FY 2023.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The city diligently monitors the carry-forward of available matching funds from prior years. In the current year, there was a carry-forward of $1,351,209.88 in matching funds. It's noteworthy that no matching funds were required for HOME projects in 2022.

The city's programs augment their financial resources by stipulating that owner-investors of rental properties contribute matching funds. Specifically, CDBG Rehab projects necessitate a 25% match of project costs, while Lead projects entail matching funds of up to $2,000 per unit.

Public Service funds were leveraged with other federal, state, and local funding. These funders include:

- MaineCare
- EFSP (Emergency Food and Shelter Program)

- Auburn school system

Numerous public facilities were employed for various public service initiatives. For instance, the Auburn Senior Center at 48 Pettengill Park Road served as a location for both Senior Care Packages and the Auburn Recreation Summer Camp. The Grab-N-Go Food Pantry operated from the PAL Center at 24 Chestnut Street. Additionally, in June, a Housing and Employment Symposium took place at Festival Plaza, located at 112 Maine St. The Auburn Housing Authority generously provided space at 100 Valerie Circle for a temporary warming center in February.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	1,351,210
2. Match contributed during current Federal fiscal year	0

Number of households supported through Rehab of Existing Units	35	4
Number of households supported through Acquisition of Existing Units	5	0
Total	**48**	**8**

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The annual goals for HOME programs are outlined in the 2022 Annual Action Plan, with pertinent data presented in Tables 11 and 12, focusing on TBRA/Security Deposit assistance and two CDBG rehab projects, each comprising two units.

The city operates five programs geared towards assisting low-income residents in accessing and maintaining decent, safe, and affordable housing:

- The TBRA program facilitates security deposit assistance for low-income households seeking affordable housing.
- The CDBG Accessibility and Critical Repair programs serve low to moderate-income homeowners, enabling them to enhance home accessibility or conduct essential major repairs.
- These programs also extend to landlords, aiming to maintain or create affordable housing for a year.
- The Auburn HOME Unit Development Program (AHUD) empowers small developers to establish new, decentralized affordable housing.
- Funded through ARPA, the Auburn Accessory Dwelling Unit Development Program (AHUD) allows single-family homeowners or landlords to construct a secondary housing unit on their property, thereby contributing to the creation of new affordable units.

During the first half of the year, security deposit assistance and ongoing rent support were provided to low and moderate-income populations in Auburn through the U.S. Department of the Treasury's Emergency Rental Assistance (ERA) program. Following the conclusion of this program in December, there was a notable increase in households applying for TBRA.

Two Critical Repair projects were successfully executed for two owner-occupied duplexes, one of which housed the landlord/owner. Additionally, two Lead remediation projects, encompassing five affordable units, were completed, although this information is not reflected in the provided tables.

The AHUD and ADUD programs garnered substantial interest. Under these initiatives, applicants act as their own developers, with the prerequisite that projects be shovel-ready before approval. Consequently, there were delays between initial expressions of interest and the formal submission of applications, resulting in no shovel-ready projects by year-end.

All housing programs, excluding TBRA, are subject to an affordability period and rent maximums. TBRA rent caps align with Fair Market Rent (FMR), while Critical Repair and Accessibility programs maintain a one-year affordability period, with rents aligned with FMR. AHUD sustains a 20-year affordability period, with rates set in accordance with High Home Rent. HUD adjusts FMR and High Home Rent annually to account for rising housing costs.

A challenge faced by all programs pertains to rent caps in comparison to Market Rent. For TBRA clients, securing a rental unit that complies with rent limits while considering utility costs presents difficulties. Landlords must weigh potential loan funds against potential rent differentials to evaluate profitability. Increasing rent caps could significantly alleviate this barrier.

Another hurdle for TBRA relates to the city's exceedingly low rental vacancy rate. A July 9, 2023 report by the Sun Journal highlighted a vacancy rate of essentially 0% in Lewiston and Auburn (https://www.sunjournal.com/2023/07/09/more-of-everything-a-vacancy-rate-of-zero-is-pushing-up-rents-and-has-the-twin-cities-embracing-any-and-all-housing).

Anticipating an uptick in project numbers, the city has significantly ramped up marketing efforts for its rental assistance, rehabilitation, and new unit creation programs in 2023.

Discuss how these outcomes will impact future annual action plans.

Securing safe, quality, and affordable housing is an escalating challenge statewide in Maine. In forthcoming action plans, there is a pressing need to conduct more comprehensive research into reducing barriers to accessing affordable housing programs. The Community Development Office has engaged with a program at Bates College to work with a statistic program for conducting a market study on rental rates to facilitate the establishment of more accessible rent caps.

Furthermore, HOME-ARP funds offer the opportunity to provide enhanced support to individuals grappling with homelessness. This expanded support encompasses a wider range of housing-related costs, including moving expenses, storage facilities, and utility payments.

These vital considerations will be taken into account by the Consortium as they shape the objectives of the forthcoming 2023 Action Plan.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	0	0
Low-income	2	4
Moderate-income	0	0
Total	**2**	**4**

Table 13 – Number of Households Served

Narrative Information

In the year 2022, no HOME rehabilitation or unit creation projects reached completion.

However, HOME funds were allocated to support four low-income households in securing security deposits, facilitating their transition to affordable housing.

Meanwhile, CDBG funds were utilized to rehabilitate two duplexes, each comprising one rental unit and one owner-occupied unit. Notably, one of these projects addressed a code violation, although this information is not reflected in Table 13. It's imperative to note that CDBG-funded projects must ensure that at least 51% of units income qualify.

Furthermore, ongoing initiatives aim to uphold and preserve affordable housing through the Lead & Healthy Homes program. This program offers grants to homeowners and landlords, enabling them to enhance living conditions by mitigating lead hazards. All units benefiting from this program must either be occupied by low-to-moderate income families or be made available to such tenants in the future. Additionally, this program, leveraging CDBG funds, covers the required match funding for income-qualifying homeowners, ensuring an affordability period of three years during which maximum rent rates are monitored to guarantee continued affordability. Importantly, each newly rehabilitated unit generates one new affordable unit within the city.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Auburn-Lewiston Consortium demonstrated early leadership in the implementation of the HOME-ARP (American Rescue Plan) Program, securing approval for its allocation plan ahead of many other communities.

The Housing Resources Program, funded by HOME-ARP, commenced with a soft launch in January 2022, accompanied by the hiring of an additional staff member within the Community Development department to oversee the program's operations. The initial two quarters were primarily focused on referral processes while concurrently developing comprehensive policies and procedures to fortify the program.

Collaborative efforts were undertaken with other service providers dedicated to assisting individuals and families facing homelessness or at risk of homelessness. This approach aimed to prevent duplication of services and build a robust referral network. In June, the city organized an Employment and Housing Symposium, offering clients direct access to service providers for housing, employment, and essential support services.

Community Development staff actively engaged with provider sessions at Pleasant Street Drop-In Center (now the Drop-In Center) and Trinity Jubilee Center, establishing connections with potential clients. During the program's early phase, 34 homeless households and 14 households at risk of homelessness received assistance, encompassing housing searches, apartment applications, housing subsidy applications, and referrals to programs such as employment training, shelters, and food assistance.

The Housing Resources Coordinator initiated the construction of an extensive repository containing potential referring agencies for use by housing providers and clients, although this endeavor was not completed by year-end.

The full-scale program is set to launch in early July 2023, with Tenant-Based Rental Assistance (TBRA) and support service funds accessible to eligible clients.

Additionally, the Community Development department continued its collaboration with the General Assistance program and the Public Health Officer, who share office space. Notably, the General Assistance team witnessed a substantial surge in local demand during this reporting period. A total of 426 applications were received, marking a remarkable 330% increase compared to the previous reporting period. Among these applications, 112 were cases with pending asylum requests, reflecting a

509% increase from the previous year. The City General Assistance budget contributed a total of $233,375 annually, a remarkable 237% increase from the prior year, with the majority of funds allocated to housing-related expenses, including housing, utilities, and food aid.

Furthermore, the City Council allocated additional resources from the American Rescue Plan Act (ARPA) funds to support the Project Support You (PSY) program, which introduced a dedicated co-responder with expertise in mental health and substance abuse. This individual worked closely with the Auburn police and fire departments to enhance care during rescue calls. Over the initial seven months of this collaborative effort, city-contracted staff, in partnership with Tri-County Mental Health, diligently provided services to 263 homeless Auburn residents.

In addition to these initiatives, key personnel, including the City Public Health Officer, Housing Resource Coordinator, and Community Development Manager, actively participated in various housing committees and organizations. These include the Lewiston Auburn Alliance of Services to the Homeless (LAASH), Region II Homeless Council, Main State Homeless Council, the Lewiston Auburn Area Recovery Collaborative (LAARC), and frequent attendance at the Sewall Foundation's Housing Collaboration Sessions and the HUB 3 Coordinator's meetings.

Addressing the emergency shelter and transitional housing needs of homeless persons

Maine continues its efforts to address the urgent needs of emergency shelter and transitional housing for individuals experiencing homelessness, guided by the leadership and advocacy of the Maine Continuum of Care, the Maine Statewide Homeless Council, and regional homeless councils.

During the winter season, MaineHousing allocated funding for 14 overnight warming shelters across the state; however, none of these shelters received funding in Auburn or Lewiston. The city responded by financing an overnight warming shelter in early February using CDBG-CV funds.

It is noteworthy that most local shelters do not receive funding from the Maine Housing Authority. Instead, the city allocates portions of its Public Service funding to provide financial support to these programs. One such recipient of this support is Safe Voices, a domestic violence response organization that offers assistance, including re-housing and homelessness diversion programs.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The city's Housing Resources Program caters to a diverse range of individuals and families facing homelessness or the risk thereof. This encompasses those fleeing domestic or dating

violence, sexual assault, stalking, trafficking, and individuals discharged from public institutions or systems of care.

Moreover, both Auburn and Lewiston's HOME TBRA programs serve individuals based on income, encompassing a substantial portion of those recently discharged who fall within income limits.

These programs provide a comprehensive array of services to Auburn residents confronting homelessness or the imminent threat of it. The TBRA programs offer support by covering security deposits equivalent to two months' rent, subject to program guidelines.

Additionally, the Housing Resources Program extends further assistance, including:

- Security deposits (for clients who do not qualify for TBRA)
- Funding for first and last month's rent
- Coverage for housing application fees
- Relief for utility arrears and short-term payments for ongoing utilities
- Support for rent arrears
- Assistance with moving costs and temporary storage fees
- Financial aid for non-housing expenses, such as childcare, bus passes or gas vouchers, supplies and testing for HiSET classes, certification classes and exams, credit repair classes, and outpatient medical care not covered by MaineCare or private insurance.

Furthermore, both programs have the capacity to refer clients to:

- Housing navigators who assist participants in securing homes within a competitive housing market, in accordance with program guidelines
- Employment and training programs
- Educational services, including local adult education programs
- Case managers
- Credit counseling services

Challenges arose in disbursing move-in costs for rental units due to Fair Market Rent (FMR) caps imposed by HUD, which posed difficulties for landlords who were hesitant to engage with a program capping their rent at reduced rates amid a surge in market rent.

Lastly, the Statewide Homeless Council collaborates with the Department of Corrections to implement the Maine Criminal Justice System Blueprint for Ending and Preventing Homelessness. This initiative aims to prevent inmates from being released into homelessness. A

parallel Blueprint for Ending Homelessness, in partnership with DHHS, addresses discharge planning from state-run mental health facilities.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Community Development staff, particularly the Public Health Officer and General Assistance Administrator, collaborate closely with the School Department, Police & Fire departments, and local non-profit organizations such as Safe Voices and New Beginnings. This coordinated effort facilitates seamless referrals of residents in need to various service providers.

The HOME-ARP Housing Resources Program and HOME TBRA programs allocate funding for essential move-in costs, including security deposits and utility connections, benefiting homeless individuals and those at risk of homelessness. Additionally, program staff are equipped to facilitate mediation between tenants and landlords and offer referrals to organizations that assist recently unhoused families in reacquiring essential home management skills, budgeting, financial literacy, credit repair, and other life skills training.

Furthermore, the Housing Resources Program has the capacity to cover the costs of mental health, physical health, and substance use disorder treatments that are not covered by MaineCare or other insurance providers. Clients are actively connected to resources to support their healthcare needs when they lack access to such care.

In the forthcoming year, Auburn and Lewiston are set to collaborate with local non-profit organizations to expand the scope of HOME-ARP projects. One notable project includes the introduction of an Auburn-exclusive Housing Navigator, a role that was absent in 2022. Additionally, a new initiative will pair unaccompanied minor children experiencing homelessness with host families to provide them with stable housing, enabling them to complete their high school education, pursue their HiSET, or engage in employment training programs. Furthermore, a potential project aims to establish connections with individuals and families residing in homeless encampments to provide critical services before such encampments are dismantled.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Auburn works closely with the Auburn Housing Authority (AHA) to promote and develop affordable housing. In this program year, AHA raised its payment standards within the Section 8 voucher program to 110% of Fair Market Rent. This adjustment aims to assist eligible renters in finding and affording housing, especially in the face of rising rental rates and limited available units.

MaineHousing's Family Self-Sufficiency (FSS) staff continue to take the lead in statewide efforts to enhance program processes and evaluation among Public Housing Authorities (PHAs) that administer it. They also collaborate with FSS staff from other PHAs to address new HUD program regulations. MaineHousing, in partnership with Compass Working Capital, is a member of the National FSS Network, along with the Portland Housing Authority.

Furthermore, the Auburn Housing Authority has intensified its efforts to transition its operations toward voucher-based support. These efforts aim to facilitate the development of privately built housing units that can accommodate housing vouchers, further expanding affordable housing options.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The city currently refers low-income residents, including public housing residents, to Community Credit Union (CCU) and Community Concepts (CCI). Both organizations offer programs to assist with obtaining mortgages and down payment support. HOME-ARP funds can be allocated to cover the cost of CCI's Homebuyer Education Course, which can enable clients to meet the requirements for receiving $5,000 from Maine Housing, which can be applied towards a down payment or closing costs.

The city is in the process of developing a three-year project aimed at constructing a mixed-income neighborhood comprising 100 units. This development will encompass 48 single-family residences, 8 owner-occupied duplexes, and 3 to 12 unit mixed-use apartment buildings. The primary objectives of this project include creating 56 new homeowners, adding 44 new rental units, establishing a new childcare facility, and setting up a new community facility.

Key partners involved in this project include the City of Auburn, Maine State Housing Authority, Auburn Housing Authority, Androscoggin Land Trust, Auburn-Lewiston YMCA, Fatuma Hussein Development Corp., and Androscoggin Emergency Management System.

Public housing residents will be informed about the project and encouraged to utilize resources like Maine Housing's First Home Loan Program or other resources provided by CCU and CCI to

prepare for homeownership.

Actions taken to provide assistance to troubled PHAs

Neither Lewiston Housing Authority nor Auburn Housing Authority are troubled. There are currently no troubled PHAs in Maine.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City of Auburn has demonstrated proactive efforts in eliminating barriers to housing development over the past three years. Notable achievements include the adoption of new ordinances that permit accessory dwelling units, enhance density standards, and reduce road frontage requirements for residential lots. Complemented by a newly established form-based code, these changes are expected to encourage infill development of new housing, facilitate multi-unit housing projects in residential zones, and potentially waive or decrease permit fees for specific target demographics.

In the current year, the Auburn City Council took the step of removing an income requirement for building homes on rural land. The previous ordinance mandated that 30% of a household's income be derived from farming in rural zones. The revised ordinance now necessitates that landowners maintain a connection to the land and possess a minimum of 10 acres to construct homes. It's important to note that this amendment faced significant opposition from the public.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The General Assistance Administrator and Public Health Officer continue to be vital members of the Community Development team. In addition, new staff members were brought on board under the HOME-ARP program to provide direct services to underserved residents who are homeless or at risk of homelessness. The Housing Resources Program had a soft launch this year and is slated for full implementation in early 2023.

These individuals play integral roles in weekly team meetings and actively contribute to the development of the Action Plan and CAPER reporting. Their front-line, community-facing positions enable them to interact with underserved communities daily, enabling them to promptly convey program challenges and evolving community needs to the team. This agile approach allows for rapid adjustments to program delivery as necessary.

The addition of a Project Support You (PSY) staff worker was a strategic move to collaborate with the police and fire departments in connecting with individuals in crisis, including those who are unhoused and individuals with substance use or mental health disorders.

This year, the city initiated the establishment of a "hub" within the Community Development Office, inviting several non-profit organizations to co-locate their staff in the same physical space. This initiative is designed to facilitate swift referrals, enhance client updates, and foster a higher level of comprehension among all staff members regarding each step of a client's housing needs. The ultimate

objective is to incorporate staff members from five non-profit organizations who will operate from the Community Development Office.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Auburn secured a three-year Lead Hazard Control & Healthy Homes (OLHCHH) grant commencing in November 2021. To complement this grant, CDBG funds are employed as matching resources to offer supplementary subsidy grants to residents who meet income qualifications.

In 2022, a total of eleven housing units underwent lead assessments, and subsequent remediation efforts were undertaken for six of these units.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Auburn administers four programs aimed at directly assisting individuals and families experiencing poverty: General Assistance, Project Support You, HOME TBRA, and the HOME-ARP Housing Resources Program.

1. **General Assistance (GA)** provides emergency and ongoing support to low-income families. This includes food vouchers, temporary lodging in hotels or motels, and continuous rent aid. In 2022, GA aided 381 households, including 270 with housing assistance, 121 with utility support, 58 with food assistance, 1 with medical aid, 10 with burial or cremation assistance, 21 with baby supplies, and 74 with household items.
2. **Project Support You (PSY)**, funded through ARPA, is a frontline initiative that collaborates closely with the police and fire departments to offer immediate assistance to individuals in crisis. Over a seven-month period, the PSY worker served 315 clients, with 263 of them being unhoused. From March to June, this staff member responded to 41 fire department calls and 528 police calls.
3. **The HOME TBRA program** assists low-income families by covering the security deposit when they move into a new rental unit. Given that 37% of American families lack the financial means to address a $400 emergency expense, these upfront costs can pose significant challenges to many low-income families. Auburn and Lewiston together supported 4 families through this program.
4. **The HOME-ARP Housing Resources Program** extends aid to individuals and families living in unstable housing situations, including those in encampments, vehicles, and emergency shelters. The Housing Resources Coordinator served 46 households by assisting them in applying for housing assistance, providing case management, and aiding in housing searches. The full program launch is scheduled for 2023, enabling it to provide financial assistance such as security deposits, first and last months' rent, childcare support, rent and utility arrears assistance, and other forms of aid to help households regain stability.

Furthermore, Auburn Community Development continues to allocate resources to fund public services

and housing programs. These services encompass food pantries, homelessness prevention, housing navigators, domestic violence support, neighborhood centers, Meals on Wheels, and youth programs.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Internally, the City of Auburn has undergone a comprehensive redevelopment of the entire Community Development department. This redevelopment includes the integration of General Assistance and the Public Health Officer. This new team-based approach to program delivery has enabled staff to provide a more comprehensive and holistic range of services to specific communities. In 2022, the city expanded its team by adding a Housing Resources Coordinator and a Project Support You worker. Additionally, the groundwork was laid to establish a hub of housing resource providers operating from the Community Development office.

This redevelopment effort coincided with broader city initiatives aimed at streamlining the application, approval, and service delivery processes. These endeavors have significantly reduced response times and allowed the program to address identified needs more effectively. In 2022, MaineHousing and the Maine Continuum of Care continued their collaborative work to revamp and enhance the Coordinated Entry system. The Maine CoC has also made strides in addressing concerns highlighted in the gaps and needs analysis conducted in 2019.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The Community Development Staff is collaborating closely with Auburn Housing Authority (AHA) staff to formulate plans for the creation of new affordable housing units. Additionally, they are jointly managing the Security Deposit assistance and Housing Resources programs.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The City has dedicated substantial effort to eliminate obstacles hindering the development of new affordable housing units. These endeavors encompass the adoption of a form-based code, revisions to density standards in residential zones permitting the construction of accessory dwelling units, and the reduction of required road frontage to facilitate in-fill development of new residential units. Furthermore, significant attention has been directed towards recognizing and addressing impediments to fair housing, as highlighted by the Maine Housing Authority.

In 2019, the Maine State Housing Authority (MSHA) issued an analysis of Impediments to Fair Housing Choice, acknowledging that opposition from communities and neighbors to planning and zoning improvements aimed at promoting affordable housing is discriminatory. MSHA vowed to support affordable housing projects against such opposition. The City of Auburn shares a similar commitment to actively advance fair housing, not solely as a condition of federal funding but also as a just and practical

approach to enhancing our community's quality. Restricting access to specific types or locations of housing development for low-income populations deprives our most vulnerable community members of opportunities and equity.

Similarly, concentrating subsidized housing exclusively in downtown urban areas, as a development model, only succumbs to the pressures of opposition that MSHA identified in its assessment. Therefore, the City embraces development models that expand housing choices for residents reliant on affordable housing. Each neighborhood in our city possesses a unique style and value, just as each resident does. Ensuring that all families, regardless of income, have the freedom to select their homes and the environment in which to raise their children is an essential right.

This department not only supports the inclusive zoning efforts spearheaded by the Planning & Permitting department but also remains committed to approaching the creation of affordable housing in Auburn with an emphasis on increased inclusion, accessibility, and choice. This approach aligns with MSHA's recommendation to promote economic diversity by encouraging mixed-income housing and increasing the utilization of housing choice vouchers in low-poverty areas.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The Community Development Staff, in collaboration with the Auburn-Lewiston Consortium, has established a comprehensive monitoring program to ensure that recipients of funds adhere to program guidelines throughout the federally mandated affordability period. This program entails an annual desk monitoring, risk assessment, and on-site inspection process designed to verify and document compliance with prescribed standards related to income levels, fair market rental rates, and adherence to the city's housing standards.

Additionally, a heightened level of oversight and technical assistance has been implemented for Public Service and HOME-ARP grant recipients. The city mandates that subrecipients submit quarterly demographic and impact reports for preliminary review before requesting fund disbursements. These reports encompass demographic information concerning low and moderate-income program recipients and administrative data, including payroll records and financial expenditure reports. This increased scrutiny ensures that grant recipients are well-equipped not only to deliver vital services but also to effectively track and report the significant impact they generate.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The draft 2022 CAPER was posted on the city website and available for public comment, as mandated by statutory requirements, from September 15th to October 16th. A Public Hearing was conducted by the Auburn City Council on October 16th. Public notification was carried out in accordance with the Citizen Participation Plan, and evidence of the public hearing notice was documented on the administration screen. Additional efforts to solicit input were made through the city's social media platforms. Furthermore, the CAPER was directly emailed to the 2,041 individuals who have subscribed to email alerts via the city's marketing department. Notably, no comments were received for inclusion.

Enhanced citizen outreach initiatives comprised the posting of CAPER notices (complete with direct access links and QR codes) in public facilities across the city, including city hall, the public library, senior housing facilities, and food pantries. Supplementary outreach methods encompassed a multilingual

website, social media notifications, and a press release, all of which included information on language translation accommodations and access to printed versions of the report.

This report will remain in DRAFT form until the close of the public hearing and any public comments received are included.

Public Notice:

Sun Journal

C6 College Football — SUN JOURNAL » THURSDAY, SEPTEMBER 14, 2023

Maine's home opener moved to Friday

STAFF REPORT

The University of Maine's football home opener against Rhode Island has been moved from Saturday afternoon to Friday evening at 6:30 p.m. in anticipation of Hurricane Lee.

"Out of an abundance of caution based on the potential impact of the hurricane, and in consultation with University and other officials, as well as our friends at CAA Football and the University of Rhode Island, we believe moving the game to Friday night maximizes health and safety and gives our student-athletes the best chance to compete without interruption — and for everyone to get home safely," said Jude Killy, Maine's athletic director.

Maine opened the season with road losses against Florida International and North Dakota State. Rhode Island is 1-1 after a Coastal Athletic Association win over Stony Brook this past weekend.

ASSOCIATED PRESS

Notre Dame's Audric Estime celebrates his touchdown against North Carolina State on Saturday in Raleigh, N.C.

Notre Dame sticks with old-school run game, employing deep table of backs

SOUTH BEND, Ind. (AP) — While Sam Hartman's strong passing game is all the rage at No. 9 Notre Dame, it's still the bulldozing ground game that keeps the Fighting Irish offense chugging along.

Second-year coach Marcus Freeman doesn't want it any other way.

Freeman never intended to abandon the program's old-school identity, even after plucking Hartman out of the transfer portal or promoting tight ends coach Gerad Parker to offensive coordinator.

"This is not going to be a pass-first offense," Freeman said in February when announcing Parker's new job. "But it really creates opportunities to have success in the passing game because of your ability to run the ball. All those things go together for complimentary football."

The numbers prove it.

Through three games, Notre Dame is averaging 5.7 yards per carry, No. 21 in the 133-team FBS. Add that component to Hartman's efficiency, and it's no surprise the Irish are 3-0.

Bigger tests are coming up.

On Saturday, Notre Dame hosts Central Michigan (1-1), which has a run defense ranked No. 32 (96.0 yards per game) even after playing Michigan State, Then No. 6 Ohio State, a team allowing just 2.6 yards per carry, comes to Notre Dame stadium.

Notre Dame's rushing attack has been powered by a bevy of backs.

Bulldozing Audric Estime is the leader. Listed at 5-foot-11 1/2 and 227 pounds, he has a unique combination of nimble feet, nifty bursts and breakaway speed.

Estime already has four TD runs. He leads the nation in yards rushing and although he's played one more game than most players, his average of 115 yards per game still ranks No. 14.

"Audric is Audric," Freeman said. "He's going to be the guy we give the ball to and say, 'Run this thing.'"

Committing to ground game, of course, means in-game adjustments are necessary — especially when things don't go well early. Notre Dame had two three-and-outs on its first two series last weekend at North Carolina State.

Instead of changing course, though, Parker held fast.

After a 1-hour, 45-minute weather delay, he moved All-American left tackle Joe Alt to the outside of right tackle Blake Fisher, going with an unbalanced offensive line.

The result: It confused the Wolfpack and Estime sprinted 80 yards for a touchdown.

Estime may possess the profile of a workhorse back, but so far, he's only had a little more than 14 carries per game.

Instead, the Irish have utilized a versatile three-man rotation.

In addition to Estimé, there's quick and shifty Jadarian Price, who also has been an effective option on screen passes, and Jeremiyah Love, an explosive, one-cut runner. Gi'Bran Payne is another option because he can line up in the slot and excels in multiple facets.

For ACC, power conferences, off-site help on football replay reviews is now essential

BY AARON BEARD
AP SPORTS WRITER

CHARLOTTE, N.C. — Video panels covered the wall with crisp HD images of Atlantic Coast Conference teams playing on the season's first full Saturday slate. Alberto Riveron watched intently, observing every detail possible as the league's new supervisor of football officials.

That is, until one game stopped for a replay review.

Riveron moved across the room to join staffers pulling up replays and consulting with stadium officials on a targeting penalty. Moments later, a definitive replay angle appeared on a wall-mounted monitor, with the group studying and discussing the frame-by-frame sequence.

"That's the only shot he needs to see," Riveron said confidently as a staffer communicated via headset with stadium officials who confirmed the call.

Every Power Five conference uses collaborative replay, which uses a centralized location to assist on-site officials. For the ACC, it takes place here in a tech-heavy gameday center — more than three times bigger than its predecessor — in the league's new headquarters in a downtown tower overlooking the home stadium for the NFL's Carolina Panthers.

From Charlotte to Irving, Texas (Big 12); Pittsburgh (Big Ten); San Francisco (Pac-12) and Birmingham, Alabama (Southeastern Conference); the goal is the same: make the right call and do it quickly.

"We're not, in the middle of the third quarter, going to move the ball by a yard or a yard and a half, or put a second back on the clock," Riveron said in an interview with The Associated Press. "Because again, players play, coaches coach and officials officiate. Down the line, we're all going to make mistakes.

ASSOCIATED PRESS

Alberto Riveron, left, the Atlantic Coast Conference supervisor of football officials, works in the league's new tech-heavy gameday center — roughly four times larger than the previous setup — in the league's new headquarters in a downtown tower overlooking the stadium home of the NFL's Carolina Panthers on Sept. 2 in Charlotte, N.C.

It's to catch the big mistake — the egregious mistake — and to stay consistent throughout the process."

Seven years ago, the ACC and SEC used collaborative replay on an experimental basis and reported their findings to the NCAA rules committee, while the Pac-12 used it in limited-field fashion. Now it's an integral part of officiating across the sport's highest level.

Steve Shaw, NCAA national coordinator of football officials, said conferences track officiating accuracy and they report rates exceeding 96% across all leagues. Data provided by Shaw or from the power conferences show replay reviews catch many of the incorrect calls that get through the on-field chaos in real time.

Off-site replay centers, Shaw said, work in a supporting role. Everything still starts with a stadium replay official stopping a game for any review.

"People think collaborative replay is this thing that you let the replay official do their work. You're monitoring everything. The only time you jump in is when things go down a wrong path or if they're not considering a reviewable aspect of the play."

For 2022, there were 820 plays overturned on review on 1,927 stoppages (42.6%) at the FBS level for the regular season and league championship games.

The power-conference average in 2022 — with some leagues limiting their data to the regular season, others including bowls — was similar (44.5%). The Big 12 had the lowest of that group at 34%, followed by the SEC (35.2%), Big Ten (46%), ACC (50%) and Pac-12 (54%).

Doing it quickly is another challenge.

Clemson coach Dabo Swinney wants "a good streamlined process" in each game. North Carolina coach Mack Brown wants "more critical reviews in a shorter period of time." For Shaw, the national goal is much more specific: stay

onds. For the power conferences, four of five were in the 90-second range, while the Pac-12 was near the target at 2 minutes, 6 seconds.

Despite involving added voices in the process, Shaw said collaborative replay improves speed. It's about having more eyes searching for the best available replay along with being a co-pilot to stadium officials in evaluating replays and making step-by-step through rule interpretation.

"Many, many reviews end with the replay official in the stadium leading the entire process, collaborative replay officials listening in," said John McGinty, Shaw's successor as SEC coordinator of football officials. "And at the end just having a simple, 'We good?' And the collaborator says, 'Yep.' And we move on."

That's Riveron's goal, too, back in the ACC.

He worked as a college and NFL on-field official who eventually became NFL senior vice president of officiating. The ACC announced his hiring last November while preparing to move within North Carolina from Greensboro — the city where it was founded in 1953 — to Charlotte.

The league is putting finishing touches on its headquarters, but the gameday center is full go.

The eye-catcher is that 140-square-foot display capable of showing 16 different video feeds at once on the front wall, while multiple video stations line each side of the room. At the back of the 1,216-square-foot space are windows overlooking downtown, quite a change from the windowless 365-square-foot space in the former Greensboro headquarters.

TOWN OF RUMFORD
PUBLIC NOTICE

Notice is hereby given that the Municipal Officers will hold a public hearing on September 21st, 2023 at 6:00 p.m. in the Rumford Public Auditorium of the Municipal Building on the following:

Public Hearing for Adoption of Local General Assistance Ordinance and Yearly Appendices for Fiscal Year 2023-2024 Maximums.

Stacy Carter, Town Manager

RUMFORD WATER DISTRICT
FALL FLUSHING NOTICE

During the next several days, the Rumford Water District will be flushing all water mains and hydrants of the water system. Depending on unforeseen circumstances, the following schedule listed could vary.

FRIDAY	SEPT. 15, 2023
MONDAY	SEPT. 18, 2023
TUESDAY	SEPT. 19, 2023
WEDNESDAY	SEPT. 20, 2023
THURSDAY	SEPT. 21, 2023
FRIDAY	SEPT. 22, 2023

Mains and Hydrants beginning at Milligan Well, Andover Rd., Route 2, Mayville Road, Route 2, Mayville Road, Penley Corner, Hall Rd., Jeff Kennedy Lane, Raymond St. and Blanchard Lane.

All Mains and Hydrants in the Virginia Area and Irish Ridge.

Falls Hill, Bridge St., Spruce St., Holyoke Ave., Maple St., Pine St., Knox St. and Franklin St.

Franklin St., Washington St., Pineapple St., Smelthorn St., York St. and Forest Ave. West.

Hemlock Park, Somerset St., Cumberland Park, Highland Park, Hancock St., Swift River Park, Waldo St., Cumberland St. and Falmouth St.

Fore St., Congress St., Canal St., Railroad St. and Mechanic Row.

Customers are reminded that while the Water Flushing Crew may not be flushing in streets in your immediate area, a loss of pressure or discolored water may result in all sections of the water system for the duration of the flushing operation. Therefore, to prevent problems, users are advised to avoid using washing machines or dishwashers at the same time whenever flushing is in progress and Saturday is normally the best time to properly schedule the water consuming activities. We regret the inconvenience but it is necessary. Thank you for your cooperation.

The Rumford Water District will not be responsible for damage to piping or appliances not equipped with proper vacuum breaking valves in working condition.

John Kelley, Superintendent

TOWN OF RUMFORD
145 CONGRESS STREET
RUMFORD, MAINE 04276
REQUEST FOR PROPOSALS (RFP)
SITE SALE AND REDEVELOPMENT

Town of Rumford will be accepting proposals for the redevelopment of Town property located at 35 Congress St and shown on Map 121 Lot 043, Map 121 Lot 042 and Map 121 Lot 038 of the Town tax maps ("the property") along with all rights and interest in the land at the same location(s).

All inquiries concerning the request for proposals should be addressed to George O'Keefe, Economic Development Director for the Town of Rumford, at (207) 364-4578 ext #243, or via e-mail at gokeefe@rumfordme.com and be received no later than 4:00 pm on Friday October 13, 2023.

Proposals must be submitted in a sealed envelope clearly marked "35 Congress Street RFP" to the Attn: Town Manager, Town of Rumford, 145 Congress Street, Rumford, ME 04276 by 1:00 pm, Monday, October 16, 2023. Proposals will be reviewed by the Board of Selectpersons within 30 days of the submission deadline. The Board of Selectpersons reserves the right to ask further questions, request additional information and conduct interviews at their own discretion.

The full RFP is available on the Town Website www.rumfordme.org

PUBLIC NOTICE

The Auburn Community Development Office announces the publication of the Consolidated Annual Performance and Evaluation Report (CAPER). This report details how CDBG & HOME funds, as provided by the U.S. Department of Housing & Urban Development (HUD), were expended during program Year 2022. Prior to submitting the CAPER to HUD, the Auburn/Lewiston consortium must provide reasonable notice and opportunity for the public to comment on the plan no less than 15 days.

Public comments will be accepted until October 2nd, 2023. Comments may be submitted to CDBG@auburnmaine.gov or delivered in person to the Business & Community Development Office. A Public Hearing will be held by the Auburn City Council on October 2nd, 2023.

Request printed copies, translations, or other accommodations by emailing CDBG@auburnmaine.gov or call the Community Development Office at (207) 333-6601

View the reports at AuburnMaineGov.gov or scan the QR code to download:

Public Notices are a permanent and independent record of government and court actions. These include state and local government meetings, rule making, available contracts, zoning changes, and many more, as required by law. In addition, parties to some court proceedings, such as foreclosures, probate, and estate actions are required to publish notices to ensure notification of affected parties, as well as the general public. These notices also alert business owners, large and small, to potential government contracts and actual jobs, helping to ensure economic activity across a level playing [illegible] Public notices have existed to ensure transparency in all levels [illegible] since the founding of the United States.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

No changes were made to the city's program objectives during the program year

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The city has begun utilizing the Code Enforcement office to assist in the completion of HQS and property standard inspections.

Activity #904, Vincent Square: Desk monitoring was conducted on the property. On-site inspection was not conducted on the 6 units. On-site inspection will be completed by 12/31/2023.

Activity #1175, Tedford Housing: desk monitoring was conducted on the property. On-site inspection was not conducted on the 6 units. On-site inspection will be completed by 12/31/2023.

Activity #1821, Gauvreau Place: units 202 and 211 were inspected post-construction. No deficiencies were found to remedy.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)

Property owners are mandated to develop and uphold both a Management Plan and a Marketing Plan that actively advance Fair Housing objectives. Owners are accountable for the impartial selection of residents, ensuring nondiscriminatory practices. Additionally, they are responsible for maintaining a documented waiting list of applicants, adhering to the project's resident selection policies and criteria. These policies must conform to all federal and state regulations prohibiting discrimination based on various factors, such as race, color, national origin, religion, sex, physical or mental handicap, sexual orientation, familial status, ancestry, and receipt of public assistance.

Eight properties were required to follow an affirmative marketing plan this year. The city did not effectively monitor these properties on their affirmative marketing activities, which will be rectified by 12/31/2023.

The city has recently revised its affirmative marketing plan to align with the evolving needs of the community. This encompasses the introduction of new outreach methods, translation services, and enhanced accessibility provisions.

Data on the amount and use of program income for projects, including the number of projects and owner and tenant characteristics.

One program was funded with HOME program income. Gauvreau Place, activity #1821, received $289,000 in program income funding to finance the development of two rental units. Both of these units were occupied following their construction. The tenants had the following characteristics: one family of African-American descent and one family of Caucasian descent, one household consisting of three individuals, and another household consisting of a single individual. One single parent household, one single, non-elderly household. Neither household was Hispanic/latino.

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

The cities of Auburn and Lewiston actively support the construction and upkeep of affordable housing through their Housing Development and Rehabilitation programs. These initiatives provide federal funding to developers and property owners to cover eligible costs while stipulating that the units created or refurbished must maintain affordability. The affordability criteria are set according to HUD guidelines, with rent limits established at either the Fair Market Rent (FMR), Low HOME Rent, or High HOME Rent levels.

Narrative

The city did not have a project which required Section 3 tracking. Outreach efforts continued during the program year, including hosting lead hazard control and RRP training for local contractors and their employees.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **Ordinance:** 22-10162023

Author: John Blais, Deputy Director of Planning and Permitting

Subject: First reading on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions

---

Information: This text amendment proposes to close the gap between 401 square feet and 699 square feet in size which are not permitted in the City of Auburn and differentiates minimum sizes between detached dwelling units and accessory dwelling units. The minimum dwelling size in Auburn is currently 700 square feet. However, tiny houses are also allowed and defined as being 400 square feet or less. This means that there is currently no allowance for homes between 400 and 700 square feet. At the 10/10/2023 planning board public hearing the board forwarded a positive recommendation to the Council supporting the proposed changes to amend the 700 square feet requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade and an accessory dwelling unit must be at least 190 square feet in area above grade as specified in state law. The proposed change differentiates between a one family detached dwelling and an accessory building. The planning board requested that section 60-2 Definitions- number two read that each one-family detached dwelling unit must be at least 400 square feet above grade in size. Staff made that change in the draft ordinance to reflect this request in the ordinance language provided for your review in this first reading. The planning board also recommended allowing for the minimum size of dwelling units and accessory dwelling units in Auburn to change if the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard. The text change itself is attached to the ordinance accompanying these materials.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council adopt the first reading of this ordinance text change.

Previous Meetings and History: August 8, 2023- planning board workshop; September 12, 2023- planning board workshop; October 10, 2023- planning board public hearing.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Ordinance, recommendation to city council, planning board staff report, zoning text amendment sec. 60-2, state rules for LD 2003 and 1706 redlined version, research for planning board questions.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

To: Auburn City Council
From: Auburn Planning Board
Subject: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions
Date: 10/16/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on October 10, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ZONING TEXT AMENDMENT: Amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet. This item was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances.

MOTION: David Trask makes a motion; **SECOND:** Darren Finnegan seconds.

"I make a motion to recommend sending forward a positive recommendation to council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. For an **accessory dwelling unit**, an accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling. I would also request that section 60-2 Definitions-number two read 'each one family detached dwelling unit must be at least 400 square feet above grade in size and an accessory detached dwelling unit must be 190 square feet above grade in size, unless the technical building code and standards board pursuant to 10 M.R.S. §9722, adopts a different minimum standard if so, that standard applies.'" **VOTE:** 7-0-0 motion passes.

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

I. *Dwelling, one-family attached,* means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. ~~Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~ Each one-family attached accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

II. *Dwelling, one-family detached,* means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. ~~Each one-family detached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~ Each one family detached dwelling unit must be at least 400 square feet above grade in size, and~~,~~ an accessory detached dwelling unit must be 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width and are 400 or more square feet and~~and are 700 or more square feet, and~~ which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Is To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions

Date: October 10, 2023

I. **PROPOSAL**: Currently, the existing ordinance definition requires a minimum of 700 SF of net floor space for single-family attached and detached dwelling. State Law (Chapter 219, Sec 1. 30-A MRSA §4363), provides provisions for tiny homes with no minimum size of up to 400 square feet. However, this leaves a gap in the allowable size of new dwelling units, where units ranging from 401 to 699 SF are in what is considered a "void in allowance" and is currently not allowed. Planning Board at the August 10, 2023, meeting requested additional clarifying information to include the following:

A. Tiny Home Statute and Guidance from the State Fire Marshall
B. Density; Remains the same, but could see increase as LD 2003/1706/Chapter 5
C. Lending Specialist (Value vs. Square Footage)
D. Adopted Language by Department of Economic and Community Development LD 2003/1706/Chapter 5

On the September 12, 2023, workshop, planning board asked to identify both accessory dwelling size and dwelling size to provide guidance for revised minimum standards that meet requirements under the tiny home provision and banking standards.

A. A tiny house has two potential types of tiny homes; constructed on a trailer that may be mobile and potentially moved from where it was constructed to a site for use as a "dwelling unit for human occupancy" or constructed on a site in a more traditional stick-built manner but meeting certain size standards established in the laws and codes adopted. Maximum size is 400 SF. Construction is regulated under two standards; If the tiny home is constructed on a frame or chassis, it is considered within the motor vehicle regulations and will require a title similar to an RV intended for use in public ways. This unit construction type is regulated by ANSI A119.5 or NFPA 1192.
The second type of tiny home would be a structure constructed under the same codes standards as a larger, more traditional dwelling on a foundation, but still meeting size requirements of less than 400 SF This unit construction is identified in the Maine Uniform Building and Energy Code (MUBEC) rules under the International Residential Code (IRC), Chapter 5.

B. Density is dependent upon the underlying zone, but LD 2003 and 1706 suggest the following language under the Department of Economic and Community Development guidelines under chapter 5. Dwelling Unit Allowance

If a lot does not contain an existing dwelling unit, municipalities must allow up to four (4) dwelling units per lot if the lot is located in an area in which housing is allowed, meets the requirements in 12 M.R.S. Ch. 423-A, and is:

i. Located within a designated growth area consistent with 30-A M.R.S. §4349 A(1)(A)-(B); or

ii. Served by both a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

C. Lending Rules and Value per Assessing/Appraiser: As a rule, lenders **will not mortgage** the typical dwelling that has a foundation and is stick built between 190 livable square feet (SF) and 500 SF as per the general lending rules followed by the banks underwriting team. They currently are not financing any home smaller than 500 SF. For lower income home buyers who utilize Maine State Housing Agency, (MSHA) won't finance smaller than 500 sq ft and most banks follow their policy since they do quite a few MSHA loans. In addition, for any purchase where the buyer can't put 20% down the loan will need Private Mortgage Insurance (PMI) and the insurers have a minimum home size of 500 sq ft.
The typical RV intended tiny home that can be towed over the road will never be considered as separate mortgage, some tiny homes are being financed through home equity lending practices.

The appraisal does consider value in the finished basement but does not consider it actual SF therefore the value is diminished some. The lending institutions, as a rule would write a mortgage for a 500 SF home regardless of if part of the finished space is below grade if the home meets all the ordinance, building code and utility requirements.

D. D. REF: Chapter 5, An accessory dwelling unit must be at least 190 square feet in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. To note: LD 2003/1706/Chapter 5 is silent on where the 190 SF is derived from the basement or above grade. The municipality has discretion to determine whether to consider finished basements as part of that 190 SF.

As this smaller home movement gets momentum and policies at state and insurer level are updated, staff is guessing banks will make changes too, therefore is suggesting 190 SF above grade for minimum Square Feet.

II. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggest a planning board discuss the proposals and hold a public hearing. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an **accessory dwelling unit** of 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling.

Tiny House – Code and Land Use Standards
February 8, 2022

Tiny Houses have been included in several recent Maine laws that impact the construction and placement of such homes in the State. This memo is to provide clarification to Code Officials on code and land use standards associated.

WHAT IS A TINY HOUSE - There are two potential types of tiny home:

- constructed on a trailer that may be mobile and potentially moved from where it was constructed to a site for use as a "dwelling unit for human occupancy".
- constructed on a site in a more traditional stick-built manner, but meeting certain size standards established in the laws and codes adopted.

Tiny Homes is defined in Statute as:

80-C. Tiny home. "Tiny home" means a living space permanently constructed on a frame or chassis and designed for use as permanent living quarters that:
A. Complies with American National Standards Institute standard A 119.5 on plumbing, propane, fire and life safety and construction or National Fire Protection Association standard 1192 on plumbing, propane and fire and life safety for recreational vehicles; [PL 2019, c. 650, §1 (NEW).]
B. Does not exceed 400 square feet in size; [PL 2019, c. 650, §1 (NEW).]
C. Does not exceed any dimension allowed for operation on a public way under this Title; and [PL 2019, c. 650, §1 (NEW).]
D. Is a vehicle without motive power. [PL 2019, c. 650, §1 (NEW).]
"Tiny home" does not include a trailer, semitrailer, camp trailer, recreational vehicle or manufactured housing.
[PL 2019, c. 650, §1 (NEW).]

As defined, this applies to those constructed on a frame or chassis and considered within the Motor Vehicle regulations and will require a TITLE similar to an RV or other motor vehicle intended for use on public ways. This would assume that the unit would be constructed to and inspected to standards in ANSI A119.5 or NFPA 1192. These standards contain many regulations that address all components of the unit associated with a mobile unit served by

interior plumbing, heating, cooking, and living to be used as living quarters. This type of construction's interior layout, structural or rough in are not the responsibility of the LPI/Code Officer. These items will be covered under the titling requirements as identified above. The only task of an LPI/CEO is to assess the placement relative to local zoning and connection to on-site systems and utilities.

The second type of tiny home would be a structure constructed under the same codes and standards as a larger, more traditional dwelling and on a foundation, but still meeting the size limitation of less than 400 SF. This is identified in the MUBEC rules under the IRC (Chapter 5) which would be allowed the use of Appendix V (attached.) Appendix V provides some code exceptions that have been approved to accommodate the limited size and deemed to provide an acceptable level of safety for the occupants. This type of construction would be subject to all other utility codes adopted by the State of Maine, to include but not limited to, the Maine Internal Plumbing code, State Electrical codes and Fuel Gas codes.

The result of both types provides a completed unit intended for permanent occupancy and would be considered as a Single-Family Dwelling. In both cases, the units would be subject to all normally required on-site facilities and associated utilities to provide for permanent occupancy. This would include the provisions for connection to a potable water supply, sanitary facilities and any required utilities to provide for the safety of the occupants of the unit or structure. This would include compliance with appropriate municipal connections or on-site sanitation and drinking water.

As a result of confusion on placement of tiny homes relative to local zoning, the most recent legislation (below) addresses the issue. Tiny homes are now to be considered as permanent dwelling units subject to the same local zoning regulations as other single-family dwellings. The intent was to provide definition of the use of tiny homes. As stated in statute, all other aspects of local zoning would apply equally to tiny homes.

Please note that other questions about the new law relative to the condition of a home or its placement, may arise in the future, but the only significant change is to the recognition that either type should be considered the same as any other primary single family dwelling. The features of the structure regarding size and construction would be subject to the codes and standards above, but placement on site is based on your local zoning ordinance relative to setbacks and lot size. Before a community is asked to grant a permit for a tiny home you should consult with your local attorney relative to your specific ordinances and any further limitations they may contain.

This memo is intended for informational purposes only and should not be considered a legal opinion.

H.P. 1134 - L.D. 1530

An Act To Allow People To Live in Tiny Homes as a Primary or Accessory Dwelling

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 30-A MRSA §4363 is enacted to read:

§4363. Regulation of tiny homes

1. Definition. For the purposes of this section, "tiny home" has the same meaning as in Title 29-A, section 101, subsection 80-C.

2. Location of tiny homes. A municipality shall permit a tiny home to be placed or erected on an individual house lot where single-family dwellings are allowed or as an accessory structure, subject to all applicable land use requirements as single-family dwellings or as an accessory structure.

Below is the ADOPTED language from Chapter 5 of the Maine Uniform Building and Energy Codes to address specific exceptions related to the construction of Tiny Homes meeting the statute noted above:

2015 International Residential Code
APPENDIX V TINY HOUSES
CHAPTER PART AV101— GENERAL
AV101.1 Scope. This appendix shall be applicable to tiny houses used as single dwelling units. Tiny houses shall comply with this code except as otherwise stated in this appendix.
CHAPTER PART AV102— DEFINITIONS
AV102.1 General. The following words and terms shall, for the purposes of this appendix, have the meanings shown herein. Refer to Chapter 2 of this code for general definitions.
EGRESS ROOF ACCESS WINDOW. A skylight or roof window designed and installed to satisfy the emergency escape and rescue opening requirements in Section R310.2.
LANDING PLATFORM. A landing provided as the top step of a stairway accessing a loft.
LOFT. A floor level located more than 30 inches (762 mm) above the main floor and open to it on at least one side with a ceiling height of less than 6 feet 8 inches (2032 mm), used as a living or sleeping space.
TINY HOUSE. A dwelling that is 400 square feet (37 m) or less in floor area excluding lofts.
CHAPTER PART AV103— CEILING HEIGHT
AV103.1 Minimum ceiling height. Habitable space and hallways in tiny houses shall have a ceiling height of not less than 6 feet 8 inches (2032 mm). Bathrooms, toilet rooms, and kitchens shall have a ceiling height of not less than 6 feet 4 inches (1930 mm). Obstructions shall not extend below these minimum ceiling heights including beams, girders, ducts, lighting and other obstructions.
Exception: Ceiling heights in lofts are permitted to be less than 6 feet 8 inches (2032 mm).
CHAPTER PART AV104— LOFTS
AV104.1 Minimum loft area and dimensions. Lofts used as a sleeping or living space shall meet the minimum area and dimension requirements of Sections AV104.1.1 through AV104.1.3.
AV104.1.1 Minimum area. Lofts shall have a floor area of not less than 35 square feet (3.25 m).
AV104.1.2 Minimum dimensions. Lofts shall be not less than 5 feet (1524 mm) in any horizontal dimension.
AV104.1.3 Height effect on loft area. Portions of a loft with a sloping ceiling measuring less than 3 feet (914 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.
2
2
Exception: Under gable roofs with a minimum slope of 6:12, portions of a loft with a sloping ceiling measuring less than 16 inches (406 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.
AV104.2 Loft access. The access to and primary egress from lofts shall be any type described in Sections AV104.2.1 through AV104.2.4.
AV104.2.1 Stairways. Stairways accessing lofts shall comply with this code or with Sections AV104.2.1.1 through AV104.2.1.5.
AV104.2.1.1 Width. Stairways accessing a loft shall not be less than 17 inches (432 mm) in clear width at or above the handrail. The minimum width below the handrail shall be not less than 20 inches (508 mm).
AV104.2.1.2 Headroom. The headroom in stairways accessing a loft shall be not less than 6 feet 2 inches (1880 mm), as measured vertically, from a sloped line connecting the tread or landing platform nosings in the middle of their width.
AV104.2.1.3 Treads and risers. Risers for stairs accessing a loft shall be not less than 7 inches (178 mm) and not more than 12 inches (305 mm) in height. Tread depth and riser height shall be calculated in accordance with one of the following formulas:
1. The tread depth shall be 20 inches (508 mm) minus 4/3 of the riser height, or
2. The riser height shall be 15 inches (381 mm) minus 3/4 of the tread depth.
AV104.2.1.4 Landing platforms. The top tread and riser of stairways accessing lofts shall be constructed as a landing platform where the loft ceiling height is less than 6 feet 2 inches (1880 mm) where the stairway meets the loft. The landing platform shall be 18 inches to 22 inches (457 to 559 mm) in depth measured from the nosing of the landing platform to the edge of the loft, and 16 to 18 inches (406 to 457 mm) in height measured from the landing platform to the loft floor.
AV104.2.1.5 Handrails. Handrails shall comply with Section R311.7.8.
AV104.2.1.6 Stairway guards. Guards at open sides of stairways shall comply with Section R312.1.

IBC 2015

1208.2 Minimum ceiling heights. Occupiable spaces, *habitable spaces* and *corridors* shall have a ceiling height of not less than 7 feet 6 inches (2286 mm). Bathrooms, toilet rooms, kitchens, storage rooms and laundry rooms shall have a ceiling height of not less than 7 feet (2134 mm).

Exceptions:

1. In one- and two-family *dwellings*, beams or girders spaced not less than 4 feet (1219 mm) on center shall be permitted to project not more than 6 inches (152 mm) below the required ceiling height.
2. If any room in a building has a sloped ceiling, the prescribed ceiling height for the room is required in one-half the area thereof. Any portion of the room measuring less than 5 feet (1524 mm) from the finished floor to the ceiling shall not be included in any computation of the minimum area thereof.
3. The height of *mezzanines* and spaces below *mezzanines* shall be in accordance with Section 505.1.
4. Corridors contained within a *dwelling unit* or *sleeping unit* in a Group R occupancy shall have a ceiling height of not less than 7 feet (2134 mm).

1208.2.1 Furred ceiling. Any room with a furred ceiling shall be required to have the minimum ceiling height in two-thirds of the area thereof, but in no case shall the height of the furred ceiling be less than 7 feet (2134 mm).

ADU- Single & DUPLEX

1208.3 Room area. Every *dwelling unit* shall have no fewer than one room that shall have not less than 120 square feet (11.2 m^2) of *net floor area*. Other habitable rooms shall have a *net floor area* of not less than 70 square feet (6.5 m^2). = 190SF

Exception: Kitchens are not required to be of a minimum floor area.

1208.4 Efficiency dwelling units. An efficiency living unit shall conform to the requirements of the code except as modified herein:

1. The unit shall have a living room of not less than 220 square feet (20.4 m^2) of floor area. An additional 100 square feet (9.3 m^2) of floor area shall be provided for each occupant of such unit in excess of two.

Min 220SF for up to 2 people

2. The unit shall be provided with a separate closet.
3. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a clear working space of not less than 30 inches (762 mm) in front. Light and *ventilation* conforming to this code shall be provided.
4. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.

SECTION 1209
ACCESS TO UNOCCUPIED SPACES

1209.1 Crawl spaces. Crawl spaces shall be provided with not fewer than one access opening that shall be not less than 18 inches by 24 inches (457 mm by 610 mm).

1209.2 Attic spaces. An opening not less than 20 inches by 30 inches (559 mm by 762 mm) shall be provided to any *attic* area having a clear height of over 30 inches (762 mm). Clear headroom of not less than 30 inches (762 mm) shall be provided in the *attic* space at or above the access opening.

1209.3 Mechanical appliances. Access to mechanical appliances installed in under-floor areas, in *attic* spaces and on roofs or elevated structures shall be in accordance with the *International Mechanical Code*.

SECTION 1210
TOILET AND BATHROOM REQUIREMENTS

[P] 1210.1 Required fixtures. The number and type of plumbing fixtures provided in any occupancy shall comply with Chapter 29.

1210.2 Finish materials. Walls, floors and partitions in toilet and bathrooms shall comply with Sections 1210.2.1 through 1210.2.4.

1210.2.1 Floors and wall bases. In other than *dwelling units*, toilet, bathing and shower room floor finish materials shall have a smooth, hard, nonabsorbent surface. The intersections of such floors with walls shall have a smooth, hard, nonabsorbent vertical base that extends upward onto the walls not less than 4 inches (102 mm).

1210.2.2 Walls and partitions. Walls and partitions within 2 feet (610 mm) of service sinks, urinals and water closets shall have a smooth, hard, nonabsorbent surface, to a height of not less than 4 feet (1219 mm) above the floor, and except for structural elements, the materials used in such walls shall be of a type that is not adversely affected by moisture.

Exception: This section does not apply to the following buildings and spaces:

1. Dwelling units and sleeping units.
2. Toilet rooms that are not accessible to the public and that have not more than one water closet.

Accessories such as grab bars, towel bars, paper dispensers and soap dishes, provided on or within walls, shall be installed and sealed to protect structural elements from moisture.

1210.2.3 Showers. Shower compartments and walls above bathtubs with installed shower heads shall be finished with a smooth, nonabsorbent surface to a height not less than 72 inches (1829 mm) above the drain inlet.

1210.2.4 Waterproof joints. Built-in tubs with showers shall have waterproof joints between the tub and adjacent wall.

[P] 1210.3 Privacy. Privacy at water closets and urinals shall be provided in accordance with Sections 1210.3.1 and 1210.3.2.

[P] 1210.3.1 Water closet compartment. Each water closet utilized by the public or employees shall occupy a

80-C. Tiny home. "Tiny home" means a living space permanently constructed on a frame or chassis and designed for use as permanent living quarters that:

A. Complies with American National Standards Institute standard A 119.5 on plumbing, propane, fire and life safety and construction or National Fire Protection Association standard 1192 on plumbing, propane and fire and life safety for recreational vehicles; [PL 2019, c. 650, §1 (NEW).]

B. Does not exceed 400 square feet in size; [PL 2019, c. 650, §1 (NEW).]

C. Does not exceed any dimension allowed for operation on a public way under this Title; and [PL 2019, c. 650, §1 (NEW).]

D. Is a vehicle without motive power. [PL 2019, c. 650, §1 (NEW).]

"Tiny home" does not include a trailer, semitrailer, camp trailer, recreational vehicle or manufactured housing

CHAPTER
192
PUBLIC LAW

STATE OF MAINE

IN THE YEAR OF OUR LORD

TWO THOUSAND TWENTY-THREE

H.P. 1095 - L.D. 1706

An Act to Clarify Statewide Laws Regarding Affordable Housing and Accessory Dwelling Units

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current law requires, beginning July 1, 2023, all municipalities to allow a certain number of dwelling units under certain circumstances and the construction of accessory dwelling units on the same lot as a single-family dwelling unit and to comply with certain other zoning requirements; and

Whereas, it is the intent of this legislation to extend the implementation date for certain municipalities; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 30-A MRSA §4364, first ¶, as enacted by PL 2021, c. 672, §4, is amended to read:

For an affordable housing development approved on or after ~~July 1, 2023~~ the implementation date, a municipality with density requirements shall apply density requirements in accordance with this section.

Sec. 2. 30-A MRSA §4364, sub-§1, as enacted by PL 2021, c. 672, §4, is amended to read:

1. Definition. For the purposes of this section, "affordable housing development" means:

A. For rental housing, a development in which a household whose income does not exceed 80% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~

51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs; and

B. For owned housing, a development in which a household whose income does not exceed 120% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~ 51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs.

Sec. 3. 30-A MRSA §4364, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" means:

A. January 1, 2024 for municipalities for which ordinances may be enacted by the municipal officers without further action or approval by the voters of the municipality; and

B. July 1, 2024 for all other municipalities.

Sec. 4. 30-A MRSA §4364, sub-§3, as enacted by PL 2021, c. 672, §4, is amended to read:

3. Long-term affordability. Before ~~approving~~ granting final approval of an affordable housing development, including but not limited to issuing an occupancy permit, a municipality shall require that the owner of the affordable housing development have executed a restrictive covenant, recorded in the appropriate registry of deeds, for the benefit of and enforceable by a party acceptable to the municipality, to ensure that for at least 30 years after completion of construction:

A. For rental housing, occupancy of all of the units designated affordable in the development will remain limited to households at or below 80% of the local area median income at the time of initial occupancy; and

B. For owned housing, occupancy of all of the units designated affordable in the development will remain limited to households at or below 120% of the local area median income at the time of initial occupancy.

Sec. 5. 30-A MRSA §4364, sub-§6, as enacted by PL 2021, c. 672, §4, is amended to read:

6. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 6. 30-A MRSA §4364-A, sub-§1, as enacted by PL 2021, c. 672, §5, is amended to read:

1. Use allowed. Notwithstanding any provision of law to the contrary, except as provided in Title 12, chapter 423-A, for any area in which ~~housing is~~ residential uses are allowed, including as a conditional use, a municipality shall allow structures with up to 2 dwelling units per lot if that lot does not contain an existing dwelling unit, except that a municipality shall allow up to 4 dwelling units per lot if that lot does not contain an existing

dwelling unit and the lot is located in a designated growth area within a municipality consistent with section 4349-A, subsection 1, paragraph A or B or if the lot is served by a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

A municipality shall allow on a lot with one existing dwelling unit the addition of up to 2 dwelling units: one additional dwelling unit within or attached to an existing structure or one additional detached dwelling unit, or one of each.

A municipality may allow more units than the number required to be allowed by this subsection.

Sec. 7. 30-A MRSA §4364-A, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" has the same meaning as in section 4364, subsection 1-A.

Sec. 8. 30-A MRSA §4364-A, sub-§2, ¶B, as enacted by PL 2021, c. 672, §5, is amended to read:

B. A municipal zoning ordinance may establish a prohibition or an allowance for lots where a dwelling unit in existence after ~~July 1, 2023~~ the implementation date is torn down and an empty lot results.

Sec. 9. 30-A MRSA §4364-A, sub-§3, as enacted by PL 2021, c. 672, §5, is amended to read:

3. General requirements. A municipal ordinance may not establish dimensional requirements ~~or~~, including but not limited to setback requirements, for dwelling units allowed under this section that are greater than dimensional requirements ~~or~~, including but not limited to setback requirements, for single-family housing units, except that a municipal ordinance may establish requirements for a lot area per dwelling unit as long as the required lot area for subsequent units on a lot is not greater than the required lot area for the first unit.

Sec. 10. 30-A MRSA §4364-A, sub-§7, as enacted by PL 2021, c. 672, §5, is amended to read:

7. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 11. 30-A MRSA §4364-A, sub-§10, as enacted by PL 2021, c. 672, §5, is amended to read:

10. Implementation. A municipality is not required to implement the requirements of this section until ~~July 1, 2023~~ the implementation date.

Sec. 12. 30-A MRSA §4364-B, sub-§1, as enacted by PL 2021, c. 672, §6, is amended to read:

1. Use permitted. Except as provided in Title 12, chapter 423-A, a municipality shall allow an accessory dwelling unit to be located on the same lot as a single-family dwelling unit in any area in which ~~housing is~~ residential uses are permitted, including as a conditional use.

Sec. 13. 30-A MRSA §4364-B, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" has the same meaning as in section 4364, subsection 1-A.

Sec. 14. 30-A MRSA §4364-B, sub-§2, as enacted by PL 2021, c. 672, §6, is amended by amending the first blocked paragraph to read:

This subsection does not restrict the construction or permitting of accessory dwelling units constructed and certified for occupancy prior to ~~July 1, 2023~~ the implementation date.

Sec. 15. 30-A MRSA §4364-B, sub-§3, as enacted by PL 2021, c. 672, §6, is amended to read:

3. Zoning requirements. With respect to accessory dwelling units, municipal zoning ordinances must comply with the following conditions:

A. At least one accessory dwelling unit must be allowed on any lot where a single-family dwelling unit is the principal structure; ~~and~~

B. If more than one accessory dwelling unit has been constructed on a lot as a result of the allowance under this section ~~or section 4364-A~~, the lot is not eligible for any additional increases in density except as allowed by the municipality~~.~~; and

C. An accessory dwelling unit is allowed on a lot that does not conform to the municipal zoning ordinance if the accessory dwelling unit does not further increase the nonconformity.

Sec. 16. 30-A MRSA §4364-B, sub-§4, ¶B, as corrected by RR 2021, c. 2, Pt. A, §110, is amended to read:

B. For an accessory dwelling unit located within the same structure as a single-family dwelling unit or attached to or sharing a wall with a single-family dwelling unit, the setback requirements and dimensional requirements must be the same as the setback requirements and dimensional requirements of the single-family dwelling unit, except for an accessory dwelling unit permitted in an existing accessory building or secondary building or garage as of ~~July 1, 2023~~ the implementation date, in which case the requisite setback requirements for such a structure apply. A municipality may establish more permissive dimensional and setback requirements for an accessory dwelling unit.

Sec. 17. 30-A MRSA §4364-B, sub-§4, ¶D is enacted to read:

D. An accessory dwelling unit that was not built with municipal approval must be allowed if the accessory dwelling unit otherwise meets the requirements for accessory dwelling units of the municipality and under this section.

Sec. 18. 30-A MRSA §4364-B, sub-§5, as enacted by PL 2021, c. 672, §6, is amended to read:

5. Shoreland zoning. An accessory dwelling unit must comply with shoreland zoning requirements established by the Department of Environmental Protection under Title 38, chapter 3 and municipal shoreland zoning ordinances, except that a municipality may not categorically prohibit accessory dwelling units in the shoreland zone that would otherwise meet requirements established by the Department of Environmental Protection under Title 38, chapter 3 and municipal shoreland zoning ordinances.

Sec. 19. 30-A MRSA §4364-B, sub-§8, ¶A, as enacted by PL 2021, c. 672, §6, is amended to read:

A. Establish an application and permitting process for accessory dwelling units that does not require planning board approval;

Sec. 20. 30-A MRSA §4364-B, sub-§10, as enacted by PL 2021, c. 672, §6, is amended to read:

10. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 21. 30-A MRSA §4364-B, sub-§13, as enacted by PL 2021, c. 672, §6, is amended to read:

13. Implementation. A municipality is not required to implement the requirements of this section until ~~July 1, 2023~~ the implementation date.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

19-100 DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT

Chapter 5: HOUSING OPPORTUNITY PROGRAM: MUNICIPAL LAND USE AND ZONING ORDINANCE RULE

Summary: This chapter sets forth the provisions which require municipalities to create or amend local ordinances to allow for (1) additional density for affordable housing developments in certain areas; (2) multiple dwelling units on lots designated for housing; and (3) one accessory dwelling unit located on the same lot as a single-family dwelling unit in any area where housing is permitted.

Note: This chapter incorporates by reference certain material. The Appendix lists the material that is incorporated by reference, the date for each reference, and the organization where copies of the material are available.

SECTION 1. PURPOSE AND DEFINITIONS

A. PURPOSE

1. This chapter sets forth the provisions which require municipalities to create or amend local ordinances to allow for (1) additional density for affordable housing developments in certain areas; (2) multiple dwelling units on lots designated for housing; and (3) one accessory dwelling unit located on the same lot as a single-family dwelling unit in any area where housing is permitted.

2. Municipalities need not adopt this rule language or the statutory language in 30-A M.R.S. §§ 4364 to 4364-B ~~P.L. 2021 Ch. 672~~ word for word. The Department encourages municipalities to consider local planning documents and other special local considerations, and to modify language into one that meets the needs of a particular community and the minimum requirements of this legislation. Municipalities may wish to adopt ordinances that are more permissive, provided that such ordinances are equally or more effective in achieving the goal of increasing housing opportunities. If a municipality does not adopt ordinances to comply with 30-A M.R.S. §§ 4364 to 4364-B ~~P.L. 2021 Ch. 672~~, this legislation will preempt municipal home rule authority.

3. These rules do not:

   a) Abrogate or annul the validity or enforceability of any valid and enforceable easement, covenant, deed restriction or other agreement or instrument between private parties that imposes greater restrictions than those provided in this rule, as long as the agreement does not abrogate rights pursuant to the United States Constitution or the Constitution of Maine;

   b) Exempt a subdivider from the requirements in Title 30-A Chapter 187 subchapter 4;

c) Exempt an affordable housing development, a dwelling unit, or accessory dwelling unit from the shoreland zoning requirements established by the Department of Environmental Protection pursuant to Title 38 Chapter 3 and municipal shoreland zoning ordinances; ~~or~~

d) Abrogate or annul minimum lot size requirements under Title 12 Chapter 423-A; or~~.~~

~~d)~~e) Apply to a lot or portion of a lot that is within the watershed of a water source located in Lewiston or Auburn and that is used to provide drinking water by a water utility that has received a waiver from filtration pursuant to 40 C.F.R. §§ 141.70 to 141.76, as determined by the Maine Department of Health and Human Services.

B. DEFINITIONS

All terms used but not defined in this chapter shall have the meanings ascribed to those terms in Chapter 187 of Title 30-A of the *Maine Revised Statutes*, as amended. Municipalities need not adopt the terms and definitions outlined below word for word. The Department encourages municipalities to consider local planning documents and other special local considerations, and to modify language into one that meets the needs of a particular community. Municipalities may wish to adopt terms and definitions that are more permissive, provided that such terms and definitions are equally or more effective in achieving the goal of increasing housing opportunities.

Accessory dwelling unit. "Accessory dwelling unit" means a self-contained dwelling unit located within, attached to or detached from a single-family dwelling unit located on the same parcel of land. An accessory dwelling unit must be a minimum of 190 square feet and municipalities may impose a maximum size.

Affordable housing development. "Affordable housing development" means

1. For rental housing, a development in which a household whose income does not exceed 80% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs; and

2. For owned housing, a development in which a household whose income does not exceed 120% of the median income for the area as defined by the United States Department of Housing and Urban Development under the *United States Housing Act of 1937*, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs.

~~3. For purposes of this definition, "majority" means more than half of proposed and existing units on the same lot.~~

~~4.~~3. For purposes of this definition, "housing costs" include, but are not limited to:

a) For a rental unit, the cost of rent and any utilities (electric, heat, water, sewer, and/or trash) that the household pays separately from the rent; and

b) For an ownership unit, the cost of mortgage principal and interest, real estate taxes (including assessments), private mortgage insurance, homeowner's insurance, condominium fees, and homeowners' association fees.

Area median income. "Area median income" means the midpoint of a region's income distribution calculated on an annual basis by the U.S. Department of Housing & Urban Development.

Attached. "Attached" means connected by a shared wall to the principal structure or having physically connected finished spaces.

Base density. "Base density" means the maximum number of units allowed on a lot not used for affordable housing based on dimensional requirements in a local land use or zoning ordinance. This does not include local density bonuses, transferable development rights, or other similar means that could increase the density of lots not used for affordable housing.

Centrally managed water system. "Centrally managed water system" means a water system that provides water for human consumption through pipes or other constructed conveyances to at least 15 service connections or serves an average of at least 25 people for at least 60 days a year as regulated by 10-144 C.M.R. Ch. 231, *Rules Relating to Drinking Water*. This water system may be privately owned.

~~**Certificate of occupancy.** "Certificate of occupancy" means the municipal approval for occupancy granted pursuant to 25 M.R.S. §2357-A or the *Maine Uniform Building and Energy Code* adopted pursuant to Title 10 Chapter 1103. Certificate of occupancy may also be referred to as issuance of certificate of occupancy or other terms with a similar intent.~~

Comparable sewer system. "Comparable sewer system" means any subsurface wastewater disposal system that discharges over 2,000 gallons of wastewater per day as regulated by 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

Comprehensive plan. "Comprehensive plan" means a document or interrelated documents consistent with 30-A M.R.S. § 4326(1)-(4), including the strategies for an implementation program which are consistent with the goals and guidelines established pursuant to Title 30-A Chapter 187 Subchapter II.

Conditional use. "Conditional use" means a use permitted on a lot in a zoning district by a municipal legislative body, subject to certain conditions not generally applicable to other lots located in that zoning district.

Density requirements. "Density requirements" mean the maximum number of dwelling units allowed on a lot, subject to dimensional requirements.

Designated growth area. "Designated growth area" means an area that is designated in a municipality's or multi-municipal region's comprehensive plan as suitable for orderly residential, commercial, or industrial development, or any combination of those types of development, and into which most development projected over ten (10) years is directed. Designated growth areas may also be referred to as priority development zones or other terms with a similar intent. If a municipality does not have a comprehensive plan, "designated growth area" means an area served by a public sewer system that has the capacity for the growth-related project, an area identified in the latest Federal Decennial Census as a census-designated place or a compact area of an urban compact municipality as defined by 23 M.R.S. §754.

Dimensional requirements. "Dimensional requirements" mean requirements which govern the size and placement of structures including, but limited not to, the following requirements: building height, lot area, minimum frontage and lot depth.

Duplex. "Duplex" means a structure containing two (2) dwelling units.

Dwelling unit. "Dwelling unit" means any part of a structure which, through sale or lease, is intended for human habitation, including single-family and multifamily housing, condominiums, time-share units, and apartments.

Existing dwelling unit. "Existing dwelling unit" means a residential unit in existence on a lot at the time of submission of a permit application to build additional units on that lot. If a municipality does not have a permitting process, the dwelling unit on a lot must be in existence at the time construction begins for additional units on a lot.

~~**Housing**. "Housing" means any part of a structure which, through sale or lease, is intended for human habitation, including single-family and multifamily housing, condominiums, time-share units, and apartments. For purposes of this rule, theis does not include dormitories, boarding houses or other similar types of housing units; (2); and (3) This also does not include tTransient housing or short-term rentals, unless these uses are otherwise allowed in local ordinance.~~

Implementation date. "Implementation date" means:

1. January 1, 2024, for municipalities for which ordinances may be enacted by the municipal officers without further action or approval by the voters of the municipality; and

2. July 1, 2024, for all other municipalities.

3. For purposes of this definition, "further action or approval by the voters of the municipality" means municipalities that have a town meeting form of government.

Land use ordinance. "Land use ordinance" means an ordinance or regulation of general application adopted by the municipal legislative body which controls, directs, or delineates allowable uses of land and the standards for those uses.

Lot. "Lot" means a single parcel of developed or undeveloped land.

Multifamily dwelling. "Multifamily dwelling" means a structure containing three (3) or more dwelling units.

Municipality. "Municipality" means a city or a town, excluding all unorganized and deorganized townships, plantations, and towns that have delegated administration of land use controls to the Maine Land Use Planning Commission pursuant to 12 M.R.S. §682(1).

Potable. "Potable" means safe for drinking as defined by the U.S. Environmental Protection Agency's (EPA) Drinking Water Standards and Health Advisories Table and Maine's interim drinking water standards for six different perfluoroalkyl and polyfluoroalkyl substances (PFAS), Resolve 2021 Chapter 82, *Resolve, To Protect Consumers of Public Drinking Water by Establishing Maximum Contaminant Level for Certain Substances and Contaminants*.

Principal structure. "Principal structure" means a structure in which the main or primary use of the structure is conducted. For purposes of this rule, principal structure does not include commercial buildings.

Quadplex. "Quadplex" means a structure containing 4 (four) dwelling units.

Residential use. "Residential use" means a use permitted in an area by a municipal legislative body to be used for human habitation. Residential uses may include single-family, duplex, triplex, quadplex, and other multifamily housing; condominiums; time-share units; and apartments. For purposes of this rule, the following uses are not included under this definition, unless otherwise allowed in local ordinance: (1) Dormitories; (2) Congregate living facilities; (3) Campgrounds, campsites, hotels, motels, beds and breakfasts, or other types of lodging accommodations; and (4) Transient housing or short-term rentals.

Restrictive covenant. "Restrictive covenant" means a provision in a deed, or other covenant conveying real property, restricting the use of the land.

Setback requirements. "Setback requirements" mean the minimum horizontal distance from a lot line, shoreline, or road to the nearest part of a structure, or other regulated object or area as defined in local ordinance.

Single-family dwelling unit. "Single-family dwelling unit" means a structure containing one (1) dwelling unit.

Structure. "Structure" means anything temporarily or permanently located, built, constructed or erected for the support, shelter or enclosure of persons as defined in 38 M.R.S. §436-A(12).

Triplex. "Triplex" means a structure containing three (3) dwelling units.

Zoning ordinance. "Zoning ordinance" means a type of land use ordinance that divides a municipality into districts and that prescribes and reasonably applies different regulations in each district.

SECTION 2. AFFORDABLE HOUSING DENSITY

A. GENERAL

This Section requires municipalities to allow an automatic density bonus for certain affordable housing developments approved on or after ~~July 1, 2023~~the implementation date, as outlined below. This section only applies to lots in zoning districts that have adopted density requirements.

B. ELIGIBILITY FOR DENSITY BONUS

1. For purposes of this section, a municipality shall verify that the development:

   a) Is an affordable housing development as defined in this chapter, which includes the requirement that a majority of the total units on the lot are affordable;

   b) Is in a designated growth area pursuant to 30-A M.R.S. §4349-A(1)(A) or (B) or served by a public, special district or other centrally managed water system and a public, special district or other comparable sewer system;

   c) Is located in an area in which multifamily dwellings are allowed per municipal ordinance;

   d) Complies with minimum lot size requirements in accordance with Title 12 Chapter 423-A; and

   e) Owner provides written verification that each unit of the housing development is proposed to be connected to adequate water and wastewater services prior to certification of the development for occupancy or similar type of approval process. Written verification must include the following:

      i. If a housing unit is connected to a public, special district or other comparable sewer system, proof of adequate service to support any additional flow created by the unit and proof of payment for the connection to the sewer system;

ii. If a housing unit is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

iii. If a housing unit is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

iv. If a housing unit is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

2. Long-Term Affordability

Prior to granting ~~a certificate of occupancy or other final approval of~~ final approval of an affordable housing development, including but not limited to issuing an occupancy permit, a municipality must require that the owner of the affordable housing development (1) execute a restrictive covenant that is enforceable by a party acceptable to the municipality; and (2) record the restrictive covenant in the appropriate registry of deeds to ensure that for at least thirty (30) years after completion of construction:

a) For rental housing, occupancy of all the units designated affordable in the development will remain limited to households at or below 80% of the local area median income at the time of initial occupancy; and

b) For owned housing, occupancy of all the units designated affordable in the development will remain limited to households at or below 120% of the local area median income at the time of initial occupancy.

C. DENSITY BONUS

If the requirements in Section 2(B)(1) and (2) are met, a municipality must:

1. Allow an affordable housing development to have a dwelling unit density of at least 2.5 times the base density that is otherwise allowed in that location; and

2. Require no more than two (2) off-street parking motor vehicle spaces for every three (3) dwelling units of an affordable housing development.

If fractional results occur when calculating the density bonus in this subsection, the number of units is rounded down to the nearest whole number. Local regulation that

chooses to round up shall be considered consistent with and not more restrictive than this law. The number of motor vehicle parking spaces may be rounded up or down to the nearest whole number.

SECTION 3. DWELLING UNIT ALLOWANCE

A. GENERAL

This section requires municipalities to allow multiple dwelling units on lots where ~~housing is~~ residential uses are allowed, including as a conditional use, ~~allowed~~ beginning on ~~July 1, 2023~~the implementation date, subject to the requirements below. The requirements listed in Section 3 apply to municipalities with and without zoning. Private, state or local standards such as homeowners' association regulation, deed restrictions, lot size, set back, density, septic requirements, minimum lot size, additional parking requirements, growth ordinance permits, shoreland zoning and subdivision law, may also apply to lots.

B. REQUIREMENTS

1. Dwelling Unit Allowance

a) If a lot does not contain an existing dwelling unit, municipalities must allow up to four (4) dwelling units per lot if the lot is located in an area in which housing is allowed, meets the requirements in 12 M.R.S. Ch. 423-A, and is:

i. Located within a designated growth area consistent with 30-A M.R.S. §4349 A(1)(A)-(B); or

ii. Served by both a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

b) If a lot does not contain an existing dwelling unit and does not meet i. or ii. above, a municipality must allow up to two (2) dwelling units per lot located in an area in which housing is allowed, provided that the requirements in 12 M.R.S. Ch. 423-A are met. The two (2) dwelling units may be (1) within one structure; or (2) separate structures.

c) If a lot contains one existing dwelling unit, a municipality must allow the addition of up to two (2) additional dwelling units:

i. One within the existing structure or attached to the existing structure;

ii. One detached from the existing structure; or

iii. One of each.

d) If a lot contains two existing dwelling units, no additional dwelling units may be built on the lot unless allowed under local municipal ordinance.

e) A municipality may allow more units than the minimum number of units required to be allowed on all lots that allow housing.

2. Zoning

With respect to dwelling units allowed under this Section, municipalities with and without zoning ordinances must comply with the following:

a) If more than one dwelling unit has been constructed on a lot as a result of the allowance pursuant to this Section, the lot is not eligible for any additional units or increases in density except as allowed by the municipality. Municipalities have the discretion to determine if a dwelling unit or accessory dwelling unit has been constructed on a lot for purposes of this provision.

b) Municipalities may establish a prohibition or an allowance for lots where a dwelling unit in existence after ~~July 1, 2023~~the implementation date, is torn down and an empty lot results.

3. Dimensional and Setback Requirements

a) A municipal ordinance may not establish dimensional requirements, including but not limited to ~~or~~ setback requirements, for dwelling units allowed pursuant to this Section that are more restrictive than the dimensional requirements ~~or~~, including but not limited to setback requirements, for single-family housing units.

4. A municipality may establish requirements for a lot area per dwelling unit as long as the additional ~~dwelling units~~lot area required for each additional dwelling unit is proportional to the lot area per dwelling unit of the first unit.

5. Water and Wastewater

a) The municipality must require an owner of a proposed housing structure to provide written verification that each proposed structure is to be connected to adequate water and wastewater services prior to certification of the development for occupancy or similar type of approval process. Written verification must include the following:

i. If a housing structure is connected to a public, special district or other comparable sewer system, proof of adequate service to support any additional flow created by the unit and proof of payment for the connection to the sewer system;

ii. If a housing structure is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing

inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

iii. If a housing structure is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

iv. If a housing structure is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

C. MUNICIPAL IMPLEMENTATION

In adopting an ordinance, a municipality may:

1. Establish an application and permitting process for dwelling units;

2. Impose fines for violations of building, site plan, zoning, and utility requirements for dwelling units; and

3. Establish alternative criteria that are less restrictive than the requirements of Section 3(B)(4) for the approval of a dwelling units only in circumstances in which the municipality would be able to provide a variance pursuant to 30-A M.R.S. §4353(4)(A), (B), or (C).

SECTION 4. ACCESSORY DWELLING UNITS

A. GENERAL

1. A municipality must allow, effective ~~July 1, 2023~~on the implementation date, one accessory dwelling unit to be located on the same lot as a single-family dwelling unit in any area in which ~~housing is allowed~~ residential uses are permitted, including as a conditional use, subject to the requirements outlined below. The requirements listed in Section 4 apply to municipalities with and without zoning. Private, state or local standards such as homeowners' association regulation, deed restrictions, set back, density, septic requirements, shoreland zoning and subdivision law may also apply to lots.

2. A municipal ordinance that allows more than one accessory dwelling unit or that allows accessory dwelling units to be established in relation to duplex, triplex, quadplex, and other multi-unit buildings shall be considered consistent with the goals of 30-A M.R.S. §§ 4364 to 4364-B. ~~P.L. 2021 Ch. 672.~~

~~2.~~3. A municipality may not categorically prohibit accessory dwelling units in the shoreland zone that would otherwise meet the shoreland zoning requirements established by the Department of Environmental Protection, Title 28, Chapter 3, and municipal shoreland zoning ordinances.

B. REQUIREMENTS

1. Accessory Dwelling Unit Allowance

An accessory dwelling unit may be constructed only:

a) Within an existing dwelling unit on the lot;

b) Attached to a single-family dwelling unit; or

c) As a new structure on the lot for the primary purpose of creating an accessory dwelling unit.

A municipality may allow an accessory dwelling unit to be constructed or established within an existing accessory structure, except the setback requirements of Section 4(B)(3)(b)(i) shall apply.

2. Zoning

With respect to accessory dwelling units, municipalities with zoning ordinances and municipalities without zoning must comply with the following conditions:

(a) At least one accessory dwelling unit must be allowed on any lot where a single-family dwelling unit is the principal structure; ~~and~~

(b) If more than one accessory dwelling unit has been constructed on a lot as a result of the allowance pursuant to this Section, the lot is not eligible for any additional units or increases in density, except as allowed by the municipality. Municipalities have the discretion to determine if a dwelling unit or accessory dwelling unit has been constructed on a lot for purposes of this provision; and

(c) An accessory dwelling unit is allowed on a lot that does not conform to the municipal zoning ordinance if the accessory dwelling unit does not further increase the nonconformity, meaning the accessory dwelling unit does not cause further deviation from the dimensional standard(s) creating the nonconformity, excluding lot area.

3. Other

With respect to accessory dwelling units, municipalities must comply with the following conditions:

a) A municipality must exempt an accessory dwelling unit from any density requirements or lot area requirements related to the area in which the accessory dwelling unit is constructed;

b) For an accessory dwelling unit located within the same structure as a single-family dwelling unit or attached to a single-family dwelling unit, the dimensional requirements, excluding lot area requirements, and setback requirements must be the same as the dimensional requirements and setback requirements of the single-family dwelling unit;

i. For an accessory dwelling unit permitted in an existing accessory building or secondary building or garage as of ~~July 1, 2023~~the implementation date, the required setback requirements in local ordinance of the existing accessory or secondary building apply.

c) A municipality may establish more permissive dimensional requirements and setback requirements for an accessory dwelling unit.

d) An accessory dwelling unit may not be subject to any additional motor vehicle parking requirements beyond the parking requirements of the single-family dwelling unit on the lot where the accessory dwelling unit is located.

~~d)~~e) An accessory dwelling unit that was not built with municipal approval must be allowed if the accessory dwelling unit otherwise meets the requirements for accessory dwelling units of the municipality and under this Section.

4. Size

a) An accessory dwelling unit must be at least 190 square feet in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

b) Municipalities may set a maximum size for accessory dwelling units in local ordinances, as long as accessory dwelling units are not less than 190 square feet.

5. Water and Wastewater

A municipality must require an owner of an accessory dwelling unit to provide written verification that the proposed accessory dwelling unit is to be connected to adequate water and wastewater services prior to certification of the accessory dwelling unit for occupancy or similar type of approval process. Written verification must include the following:

a) If an accessory dwelling unit is connected to a public, special district or other comparable sewer system, proof of adequate service to support any

additional flow created by the unit and proof of payment for the connection to the sewer system;

b) If an accessory dwelling unit is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*;

c) If an accessory dwelling unit is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

d) If an accessory dwelling unit is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

C. MUNICIPAL IMPLEMENTATION

In adopting an ordinance under this Section, a municipality may:

1. Establish an application and permitting process for accessory dwelling units that does not require planning board approval~~;~~

2. Impose fines for violations of building, zoning and utility requirements for accessory dwelling units; and

3. Establish alternative criteria that are less restrictive than the above criteria in Section 4 for the approval of an accessory dwelling unit only in circumstances in which the municipality would be able to provide a variance pursuant to 30-A M.R.S. §4353(4)(A), (B), or (C).

D. RATE OF GROWTH ORDINANCE

A permit issued by a municipality for an accessory dwelling unit does not count as a permit issued toward a municipality's rate of growth ordinance pursuant to 30-A M.R.S. §4360.

ORDINANCE 22-10162023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, That the Auburn City Council amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet as shown in the attached zoning text amendment.

To: Auburn City Council
From: Auburn Planning Board
Subject: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions
Date: 10/16/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on October 10, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ZONING TEXT AMENDMENT: Amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet. This item was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances.

MOTION: David Trask makes a motion; **SECOND:** Darren Finnegan seconds.

"I make a motion to recommend sending forward a positive recommendation to council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. For an **accessory dwelling unit**, an accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling. I would also request that section 60-2 Definitions-number two read 'each one family detached dwelling unit must be at least 400 square feet above grade in size and an accessory detached dwelling unit must be 190 square feet above grade in size, unless the technical building code and standards board pursuant to 10 M.R.S. §9722, adopts a different minimum standard if so, that standard applies.'" **VOTE:** 7-0-0 motion passes.

City of Auburn
City Council Information Sheet

Council Meeting Date: October 16, 2023 **Ordinance:** 23-10162023

Author: Katherine Cook, Planning Coordinator

Subject: First reading: zoning map amendment changing UR and LDCR zoning to T-4.2B in Area B.

Information: Today the City Council holds the first reading on amending the City of Auburn zoning map to rezone certain land area general located near Vickery Road area from Urban Residence zoning district and Low-Density Country Residential Zoning District Traditional Neighborhood Form Based Code T-4.2B zoning district. This hearing follows three planning board public hearings on the most appropriate zone change supported by the comprehensive plan. The planning board recommended the map amendment as depicted attached as it provides connectivity between the Vickery Road neighborhood and the area zoned T-4.2B off South Main Street earlier identified as area A1. The planning board's recommendation includes a request that they later make a recommendation on rezoning the area south of the of the proposed T-4.2B boundary to a zone which accommodates a density of approximately eight units per acre. Staff plans to bring this additional as a separate consideration for workshop in December.

City Budgetary Impacts: None known.

Staff Recommended Action: Staff suggests that council adopt the first reading of this zoning map amendment.

Previous Meetings and History: May 21, 2022-planning board workshop on areas A, B, C, and D; July 11, 2023- planning board public hearing on areas A, B, C, and D (all tabled); August 8, 2023- planning board public hearing on areas A1, A2, B1 & B2, C, and D (recommendations on all but area B); September 13, 2023- planning board workshop on area B option 1 and area B option 2 (recommendation to proceed with option 1); October 10, 2023- public hearing on area B option 1.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

To: Auburn City Council
From: Auburn Planning Board
Subject: Planning board recommendation to city council on zoning map amendment changing UR and LDCR zoning to T-4.2B in Area B.
Date: 10/16/2023

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on October 10, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ZONING MAP AMENDMENT T-4.2B "AREA B": Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This area is generally located near Vickery Road. This item was initiated by the City Council and is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances.

MOTION: David Trask makes a motion; **SECOND**: Evan Cyr seconds.

"I make a motion to forward a favorable recommendation to city council to amend the official zoning map of the City of Auburn entitled *City of Auburn, Zoning Map, dated May 16, 2016,* revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the corresponding map and presented in this meeting."

VOTE: 7-0-0. Motion passes.

Area B: Option 1

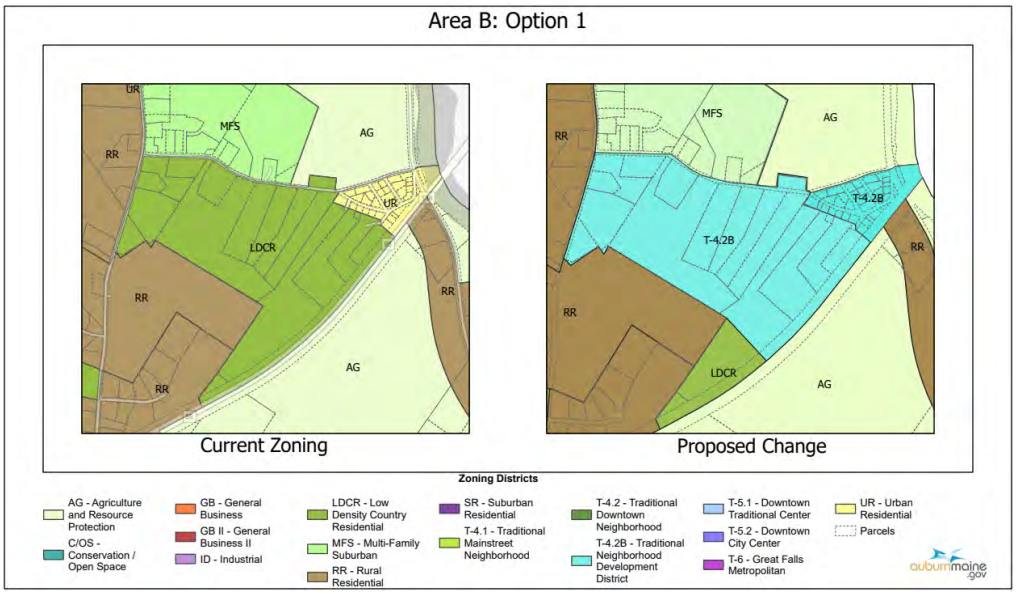
Re: Staff Report on Map Amendment for Area B in the Vickery Road Area

I. **Public Hearing/ Map Amendment "Area B":** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This area is generally located near Vickery Road. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.



II. **Background:** On September 13, 2023, the planning board reviewed two options for the zone change boundaries of Area B. Staff presented "Option 1" which applied T-4.2B to the Vickery Road Neighborhood, and the current Low Density Country Residential area south of Vickery Road between South Main Street and Riverside Drive, and "Option 2," which extended the zoning change further down South Main Street to the Turnpike also changing affecting the Rural Residential zone. The planning board decided to hold a public hearing the following month on "Area B, Option 1" because it aligns more closely to the Comprehensive Plan, which calls for a less dense development pattern than T-4.2B would produce in areas to the south of Vickery Road. The planning board specified they prefer the zone change boundaries follow "Option 2" presented at the September meeting and asked that the staff prepare a workshop presenting possible zones that would accomplish the Comprehensive Plan's guidance of approximately 8 units per acre. Staff plans to have that workshop before the Board for the November meeting.

Previous Meetings:
- **May 21, 2022**—Planning Board Workshop on Area A, B, C, and D
- **July 11, 2023**—Planning Board Public Hearing on Area A, B, C and D. All areas were tabled with recommendations for staff to bring to the following meeting.

- **August 8, 2023**—Planning Board Public Hearing on Area A1, A2, B1 & B2, Area C, and Area D. Planning Board made recommendations on all map amendments except Area B. They asked to see the different option to connect Area B to Area B1
- **September 13, 2023—**Planning Board Workshop on "Area B Option 1" and "Area B Option 2" which depicted different boundaries for the potential zone change. Planning Board directed staff to prepare Area B Option 1 for a Public Hearing

III. **Department Review:**
- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

IV. **Planning Board Action:** Staff recommends that the Board forward a positive recommendation to the Council under Sec. 46-374 supporting the proposed changes.

V. **Suggested Motion***:* I make a motion to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the corresponding map and presented in the materials for this meeting.

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

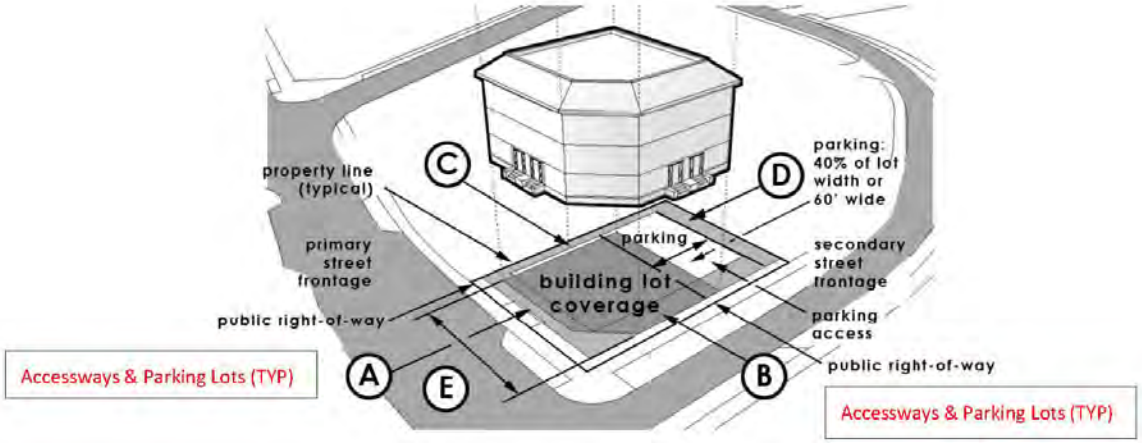
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

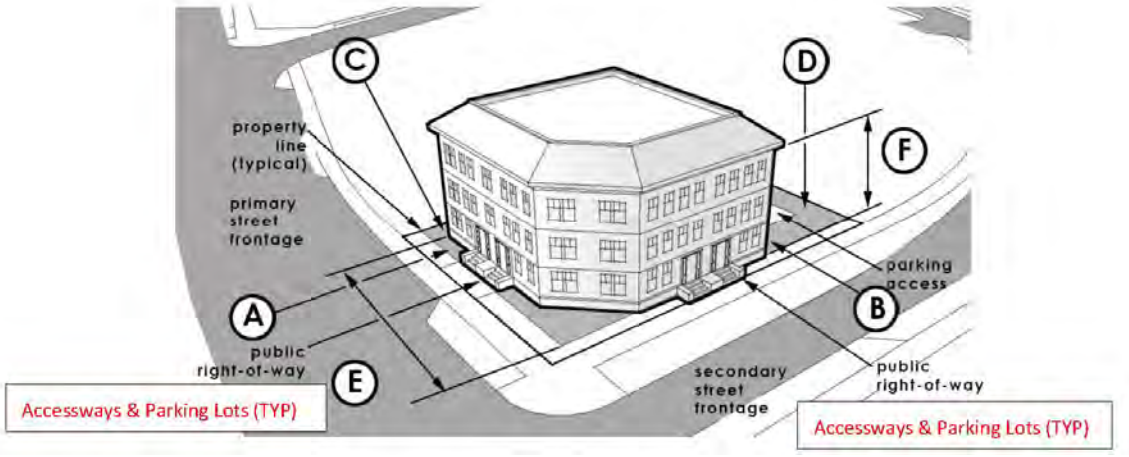
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



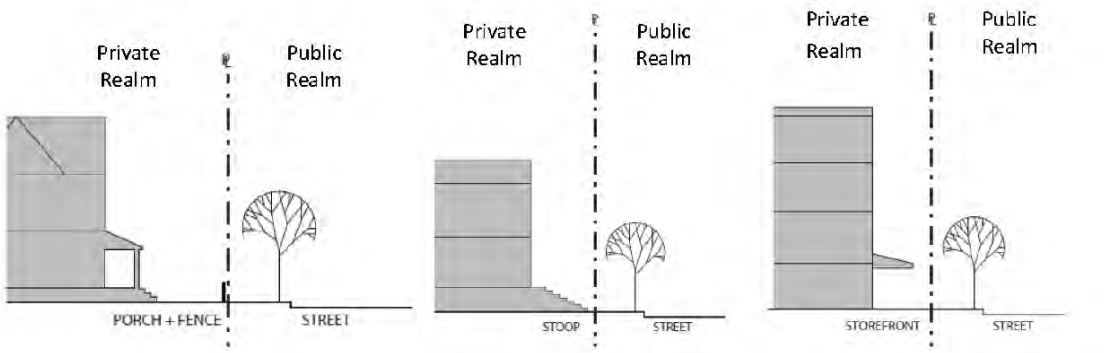
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-554. Form based code use and parking matrix.

Council Workshop or Meeting Date: October 16, 2023 **Order:** 131-10162023

Author: Jill M. Eastman, Finance Director

Subject: Authorizing Issuance of General Obligation Bonds and A Tax Levy Therefor

---

Information: This is the Public Safety Building Project for FY 23-24 that we are recommending for bonding. Please see attached sheet that describes the project being funded. This Bond Issue will be on the November 2023 ballot to be approved by the citizens of Auburn due to the charter. This Bond issue needs to be approved by Council before the voting takes place.

City Budgetary Impacts: This is a 20-year bond, interest only for FY 25 and principal and interest payments for 20 years.

Staff Recommended Action: Hold a public hearing and recommend passage of the first reading.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Pursuant to Section 8.13 of the City Charter, notice is hereby given that the Auburn City Council will hold a public hearing and first reading on Monday, October 16, 2023, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on a proposed order authorizing the City's general obligation bonds in the principal amount not to exceed $45,000,000 to finance a new public safety facility to house the headquarters of the City's Police Department and Fire Department. The order is available for inspection on the City's website: www.auburnmaine.gov/pages/government/budget-fy24**.**

Following the public hearing and first reading, the City Council expects to conduct a second reading and take final action on the order at its October 23, 2023 meeting.

Members of the public that attend and would like to offer public comment during the meeting, you may do so by speaking at the podium located in Council Chambers.

Written comments may be sent via email to: **comments@auburnmaine.gov**. Your comments will be included in the meeting minutes.

The City Council meeting will also be broadcast on Great Falls TV (cable channel 11) and on the City of Auburn YouTube channel.

ORDER 131-10162023

City Council Order

IN CITY COUNCIL

TITLE: ORDER AUTHORIZING ISSUANCE OF GENERAL OBLIGATION BONDS AND A TAX LEVY THEREFOR

WHEREAS, pursuant to Order 119-09052023 (the "Bond Referendum Order"), the City Council submitted a referendum question to the voters of the City of Auburn to see if they would authorize the issuance of the City's general obligation bonds (and notes in anticipation thereof) in the principal amount not to exceed $45,000,000 to finance a new public safety facility to house the headquarters of the City's Police Department and Fire Department (referred to as the "Public Safety Building Project"); and

WHEREAS, the City Council now desires to supplement the Bond Referendum Order to hold a public hearing with respect to the Public Safety Building Project and the bonds prior to the referendum vote and to establish certain details of the bonds, if approved by the voters;

NOW, THEREFORE, be it hereby ORDERED by the Auburn City Council, following a public hearing duly called and held as required by Section 8.13 of the Auburn City Charter:

THAT subject to and conditioned on an approving vote of the voters of the City pursuant to the Referendum Order and Section 8.13(C)(2) of the City Charter, there is hereby authorized the issuance and sale of the City's general obligation bonds and notes in anticipation thereof in the principal amount not to exceed $45,000,000, the proceeds of which, including original issue premium and investment earnings thereon, if any, are hereby appropriated to finance the Public Safety Building Project.

Be It Further Ordered by the Auburn City Council:

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to prepare, issue, and sell the City's bonds and notes in the aggregate amount of $45,000,000, which issuance and sale may be at one time or from time to time as one or more separate bond issues, or consolidated with any other issue of bonds and notes authorized to be issued by the City Council, as term bonds or serial bonds, through a public offering or a private placement, on a competitive or negotiated basis, or some combination of any of the foregoing, all as the Finance Director shall determine to be appropriate in her sole discretion.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the form, dates, maturities (not to exceed the maximum term permitted by law), denominations, interest rates, place of payment, provisions for redemption prior to the stated maturity date(s), with or without a premium, as provided in Title 30-A, §5772(6) of the Maine Revised Statutes, as amended, and all other details of the bonds and notes.

THAT the bonds and notes shall be executed in the name of and on behalf of the City by the City's Finance Director and its Treasurer, either or both of whose signatures may be by facsimile to the extent permitted by law, and shall bear the City seal thereon, attested by its Clerk.

City Council Order

THAT in each year the bonds remain outstanding, there shall be levied a tax in an amount that, with other revenues, if any, available for that purpose, shall be sufficient to pay the principal and interest then coming due on the bonds.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to do or cause to be done all such acts and things, including to approve, execute and deliver such contracts, agreements, loan agreements (including but not limited to one or more loan agreements with the Maine Municipal Bond Bank), investment agreements, bond purchase agreements, continuing disclosure agreements, official statements, certificates, tax certificates, instruments, a Letter of Representation or other agreement required to allow the bonds or notes to be issued through the Depository Trust Company Book-Entry Only System, and such other documents (all collectively, the "Bond Documents"), as may be necessary or advisable in order to accomplish the issuance of the bonds and notes and the investment of the proceeds thereof, to maintain the tax-exempt status of such bonds and notes, and, to the extent available under the Internal Revenue Code of 1986, as amended (the "Code"), to designate the bonds and notes as qualified tax-exempt obligations for purposes of Section 265(b) of the Code, which Bond Documents may be in such form and contain such terms and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, and such other details as she shall approve, such approval to be conclusively evidenced by the execution thereof.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds, notes or any Bond Document, the person or persons then acting in any such capacity, whether on an interim or acting or temporary basis, as an assistant, a deputy, or otherwise, is authorized to act for such official, in the name of and on behalf of the City, with the same force and effect as if such official had himself or herself performed such act

THAT if any of the officers or officials of the City who have signed or sealed the bonds or notes shall cease to be such officers or officials before the bonds or notes so signed and sealed shall have been actually authenticated or delivered by the City, such bonds or notes nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds or notes had not ceased to be such officer or official; and also any such bonds or notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds or notes, shall be the proper officers and officials of the City, although at the nominal date of such bonds or notes any such person shall not have been such officer or official.

THAT the City may pay certain costs of the projects prior to the issuance of the bonds and notes (referred to as "original expenditures"); to that end, the City hereby declares its official intent to reimburse itself for such original expenditures from the proceeds of such bonds and notes, and this Order shall constitute the City's declaration of official intent pursuant to Treasury Regulation §1.150-2.

THAT during the term any of the bonds are outstanding, the Finance Director and Treasurer of the City are hereby authorized, in the name of and on behalf of the City, to issue and deliver refunding bonds on either a current or advance refunding basis, to refund some or all of the bonds then outstanding, and to

City Council Order

determine the date, form, interest rate, maturities (not to exceed 30 years from the date of issuance of the original bonds) and all other details of such refunding bonds, which may be made callable, with or without premium, prior to their stated date(s) of maturity, and to determine the form and manner of their sale and award, which refunding bonds shall be signed in like manner as the bonds.

THAT during the term any of the bonds are outstanding, all authority granted pursuant to this Order shall be, remain, and continue in full force and effect without the necessity of any further action of the City Council.

THAT the referendum question submitted to the voters pursuant to the Referendum Order shall be substantially as set forth therein but, shall be accompanied by the financial statement required pursuant to Title 30-A, §5772(2-A) of the Maine Revised Statutes.

A public notice describing the general purpose of the borrowing and the terms thereof and the times and places where copies of the bond proposal were available for inspection by the public was published on or before September 28, 2023, in the Lewiston Sun-Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

A public hearing was held on October 16, 2023.

Subject: Recycling Program

Information:
At the September 18th meeting, the city council authorized the city manager to modify the solid waste agreement with Casella to reintroduce a pilot recycling program, by using the allocated funding authorized in the FY24 budget.

An agreement has been reached for the eight-month program at a cost of $19,189 per month and expires with our existing solid waste agreement on June 30, 2024. The details of the program include:

1. Starting November 1, 2023, every other week curbside collection of recycling to all solid waste participants in the city.
2. Accepted materials will include #1, #2, #5 plastics, cardboard, and mixed paper.
3. Launch of the Recycle Better App which will provide direct communication and education to Auburn residents regarding Auburn's program. A collection calendar to receive service day reminders on your mobile device. Lastly, receive real-time updates and alerts (email, text, or phone call).
4. Use of the Waste Wizard Tool to assist you with what items are recyclable.
5. Distribution of Auburn-specific direct mail educational pieces produced by Casella.
6. Periodic reporting of data collected by Casella, to include recycling program participation by household, and percentage of overall waste collected.
7. Retaining the centralized drop-off containers located at Public Works.

The Auburn Sustainability Workgroup supports the reintroduction of curbside recycling and will work with city staff in preparing an RFP (Request for Proposals) for a new contract to be initiated July 1, 2024.

City Budgetary Impacts: $153,512 for recycling curbside pick-up - $189,000 was budgeted

---

Staff Recommended Action: Approve the modified agreement

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023 **Order:** 134-10162023

Author: Phil Crowell, City Manager

Subject: ARPA Allocation to ELHS Outdoor Club

Information: The Edward Little High School "Outdoor Club" provides opportunities for students to participate in outdoor activities. Advisors to the club would like to build a foundation of successful activities that will increase interest, support, and grow the club for many years to come. They are requesting an allocation of $10,000.00 from the American Rescue Plan Act (ARPA) funds to purchase gear, clothing, accessories, transportation costs, etc. to kickstart their program.

City Budgetary Impacts: None

Staff Recommended Action: City Council allocate $10,000.00 from ARPA funds to kickstart the Edward Little High School "Outdoor Club".

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 16, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 23, 2023

Subject: Executive Session

Information: Personnel matter, pursuant to 1 M.R.S.A. Section 405(6) (A).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Current Occupation: Policy Associate

Previous Occupation (if retired or no longer working):

Education and/or experience: Master of Policy, Planning, and Management, Master of Social Work, Bachelor of Arts

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Parks & Recreation Advisory Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I was born and raised in the LA area and first engaged in Recreation Department programming as 4 years old through the youth tennis program. Because of participating in that program every summer for the next 10 years, I went on to play high school and D3 college tennis. Being a tennis instructor for the Rec Department was actually my first job at 15. Through this experience as well as others, it is evident to me how important recreation resources and facilities are to communities. They bring people together, create an environment of growth, and often foster learning for everyone that engages in the programming. What is equally clear is that programming does not just happen by chance but is the product of hard work, teamwork, policies, and planning. I moved back to LA 4 years ago and I am eager to get more involved in the community now that we have settled. I believe I have the skillset and enthusiasm needed for this role.

What do you hope to accomplish?: I have a professional background in research, policy, community needs assessments, management, grant writing, customer service, and event planning. It is my hope that I can leverage these skills alongside the vast experience that already exists on the board to support special events, assess concerns and develop solutions, and collaborate with the board to envision long-range programming and community recreation.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: No

Dates served (if known):

How did you learn of this vacancy?: April 20th Email from Sue Clements-Dallaire

THE MAYOR JOHN JENKINS HANDS & HEARTS LEADERSHIP & SERVICE AWARD

The City of Auburn is honored to present the third annual "Hands & Hearts Leadership & Service Award." This distinguished community service award is named in honor of Auburn Mayor John Jenkins, who passed away in 2020.

Each year, this prestigious award recognizes an Auburn resident, group, or organization for their significant impact on the quality of life in our great city. Like former Mayor Jenkins, recipients of this notable award will demonstrate one or more of the following qualities:

- Significant and meaningful service to the community
- Exceptional commitment to volunteerism
- Unselfish leadership and collaboration
- Creativity, cooperation, and hard work in service to others
- Inspiration to others as a role model, especially youth and
- Exemplary leadership in civic activities

The inaugural Hands & Hearts Award was presented in 2021 to Deputy Fire Chief Matthew Fifield. And the 2022 award was presented to ELHS Coach Mike Adams.

This year's recipient is a much-loved member of our community, and like John Jenkins himself, he has been a mentor, a coach, and a loyal friend. Dan Campbell is a longtime high school running/track coach, and a former drug abuse counselor. Most recently, Dan has been pouring his heart and soul into our homeless community, providing rides, food, supplies, and on nights of bad weather, a free night in a hotel to stay dry. He is also in the fight of his life against cancer.

Our 2023 Jenkins Award recipient embodies the qualities of service, integrity, inspiration, hard work, and commitment. He cares deeply for the people of our community, and we are honored to celebrate and recognize Dan Campbell.

City of Auburn, Maine

"Maine's City of Opportunity"

Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **September 2023 Financial Report**

DATE: **October 16, 2023**

The following is a discussion regarding the significant variances found in the City's September financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its third month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 25.0% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues, for the City, collected through September 30 were $31,500,446, or 42.63%, of the budget, which is a higher percentage than last year at this time. The percentage difference is 1.28% higher, and the dollar amount of collection is higher by $2,399,525. Accounts listed below are noteworthy.

A. Excise taxes of $1,250,908-up $27,834 from last year.

B. Property tax revenue of $26,010,967 an increase over last year of $540,877.

C. Homestead Exemption Reimbursement for the month of September is 74.62% or $1,320,847. This is an increase of the total amount due to receiving this payment earlier than last year.

Expenditures

City expenditures through September 30th were $9,444,002, or 17.46%, of the budget as compared to last year at $10,653,027 or 20.76%. Noteworthy variances are:

In the current fiscal year, the percentage of expenditures is less than last year by 3.30% or $1,209,025 less. The major differences are the timing of County Tax payment. County Tax will be posted in October this year not September like it was last year. Most of the departments are in line with last year's expenditures.

Investments

This section contains an investment schedule as of September 30th with a comparison to August 31st. Currently the City's funds are earning an average interest rate of 4.12% this year compared to 0.45% last year at this time.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Financial Reports for September 30, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Ingersoll Turf Facility for revenue and expenditures as of September 30, 2023.

INGERSOLL TURF FACILITY

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets as of September 30, 2023.

Current Assets:
As of the end of September 2023 the total current assets of Ingersoll Turf Facility were $365,731. This consisted of cash and cash equivalents of $230,364 and interfund receivables of $134,731.

Noncurrent Assets:
Ingersoll's noncurrent assets are the building and equipment that was purchased, less depreciation. The total value of the noncurrent assets as of September 30, 2023, were $34,044.

Liabilities:
Ingersoll had no accounts payable and no interfund payables as of September 30, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Ingersoll Turf Facility through September 2023 are $24,921. This revenue comes from the sponsorships, programs, rental income and batting cages.

The operating expenses for Ingersoll Turf Facility through September 2023 were $8,191. These expenses include supplies, utilities, capital purchases and maintenance.

As of September 30, 2023, Ingersoll has an operating gain of $16,730.

As of September 30, 2023, Ingersoll has an increase in net assets of $17.169

The budget to actual reports for revenue and expenditures, show the revenue and expenditures for FY23 compared to the same period in FY22.

Re: Arena Financial Reports for September 30, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of September 30, 2023.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, August 31, 2023.

Current Assets:
As of the end of September 2023 the total current assets of Norway Savings Bank Arena were ($1,390,843). These consisted of cash and cash equivalents of $280,968, accounts receivable of $138,181, and an interfund payable of $1,809,992.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of September 30, 2023 was $102,173.

Liabilities:
Norway Arena had accounts payable $998 as of September 30, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through September 2023 are $260,225. This revenue comes from sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through September 2023 were $239,858. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

As of September 2023, Norway Arena has an operating gain of $20.367.
20,367.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY23 is $101,471 more than in FY22 and expenditures in FY23 are $75,577 more than last year in September.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 23, 2023 **Order:** 131-10162023

Author: Jill M. Eastman, Finance Director

Subject: Authorizing Issuance of General Obligation Bonds and A Tax Levy Therefor

---

Information: This is the Public Safety Building Project for FY 23-24 that we are recommending for bonding. Please see attached sheet that describes the project being funded. This Bond Issue will be on the November 2023 ballot to be approved by the citizens of Auburn due to the charter. This Bond issue needs to be approved by Council before the voting takes place.

City Budgetary Impacts: This is a 20-year bond, interest only for FY 25 and principal and interest payments for 20 years.

Staff Recommended Action: Recommend passage of the second and final reading. Passage requires an affirmative vote of 5.

Previous Meetings and History: Public hearing and passage of first reading on 10/16/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments:
Copy of the Order.

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Pursuant to Section 8.13 of the City Charter, notice is hereby given that the Auburn City Council will hold a public hearing and first reading on Monday, October 16, 2023, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on a proposed order authorizing the City's general obligation bonds in the principal amount not to exceed $45,000,000 to finance a new public safety facility to house the headquarters of the City's Police Department and Fire Department. The order is available for inspection on the City's website: www.auburnmaine.gov/pages/government/budget-fy24**.**

Following the public hearing and first reading, the City Council expects to conduct a second reading and take final action on the order at its October 23, 2023 meeting.

Members of the public that attend and would like to offer public comment during the meeting, you may do so by speaking at the podium located in Council Chambers.

Written comments may be sent via email to: **comments@auburnmaine.gov**. Your comments will be included in the meeting minutes.

The City Council meeting will also be broadcast on Great Falls TV (cable channel 11) and on the City of Auburn YouTube channel.

ORDER 131-10162023

City Council Order

IN CITY COUNCIL

TITLE: ORDER AUTHORIZING ISSUANCE OF GENERAL OBLIGATION BONDS AND A TAX LEVY THEREFOR

WHEREAS, pursuant to Order 119-09052023 (the "Bond Referendum Order"), the City Council submitted a referendum question to the voters of the City of Auburn to see if they would authorize the issuance of the City's general obligation bonds (and notes in anticipation thereof) in the principal amount not to exceed $45,000,000 to finance a new public safety facility to house the headquarters of the City's Police Department and Fire Department (referred to as the "Public Safety Building Project"); and

WHEREAS, the City Council now desires to supplement the Bond Referendum Order to hold a public hearing with respect to the Public Safety Building Project and the bonds prior to the referendum vote and to establish certain details of the bonds, if approved by the voters;

NOW, THEREFORE, be it hereby ORDERED by the Auburn City Council, following a public hearing duly called and held as required by Section 8.13 of the Auburn City Charter:

THAT subject to and conditioned on an approving vote of the voters of the City pursuant to the Referendum Order and Section 8.13(C)(2) of the City Charter, there is hereby authorized the issuance and sale of the City's general obligation bonds and notes in anticipation thereof in the principal amount not to exceed $45,000,000, the proceeds of which, including original issue premium and investment earnings thereon, if any, are hereby appropriated to finance the Public Safety Building Project.

Be It Further Ordered by the Auburn City Council:

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to prepare, issue, and sell the City's bonds and notes in the aggregate amount of $45,000,000, which issuance and sale may be at one time or from time to time as one or more separate bond issues, or consolidated with any other issue of bonds and notes authorized to be issued by the City Council, as term bonds or serial bonds, through a public offering or a private placement, on a competitive or negotiated basis, or some combination of any of the foregoing, all as the Finance Director shall determine to be appropriate in her sole discretion.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the form, dates, maturities (not to exceed the maximum term permitted by law), denominations, interest rates, place of payment, provisions for redemption prior to the stated maturity date(s), with or without a premium, as provided in Title 30-A, §5772(6) of the Maine Revised Statutes, as amended, and all other details of the bonds and notes.

THAT the bonds and notes shall be executed in the name of and on behalf of the City by the City's Finance Director and its Treasurer, either or both of whose signatures may be by facsimile to the extent permitted by law, and shall bear the City seal thereon, attested by its Clerk.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Order

THAT in each year the bonds remain outstanding, there shall be levied a tax in an amount that, with other revenues, if any, available for that purpose, shall be sufficient to pay the principal and interest then coming due on the bonds.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to do or cause to be done all such acts and things, including to approve, execute and deliver such contracts, agreements, loan agreements (including but not limited to one or more loan agreements with the Maine Municipal Bond Bank), investment agreements, bond purchase agreements, continuing disclosure agreements, official statements, certificates, tax certificates, instruments, a Letter of Representation or other agreement required to allow the bonds or notes to be issued through the Depository Trust Company Book-Entry Only System, and such other documents (all collectively, the "Bond Documents"), as may be necessary or advisable in order to accomplish the issuance of the bonds and notes and the investment of the proceeds thereof, to maintain the tax-exempt status of such bonds and notes, and, to the extent available under the Internal Revenue Code of 1986, as amended (the "Code"), to designate the bonds and notes as qualified tax-exempt obligations for purposes of Section 265(b) of the Code, which Bond Documents may be in such form and contain such terms and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, and such other details as she shall approve, such approval to be conclusively evidenced by the execution thereof.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds, notes or any Bond Document, the person or persons then acting in any such capacity, whether on an interim or acting or temporary basis, as an assistant, a deputy, or otherwise, is authorized to act for such official, in the name of and on behalf of the City, with the same force and effect as if such official had himself or herself performed such act

THAT if any of the officers or officials of the City who have signed or sealed the bonds or notes shall cease to be such officers or officials before the bonds or notes so signed and sealed shall have been actually authenticated or delivered by the City, such bonds or notes nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds or notes had not ceased to be such officer or official; and also any such bonds or notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds or notes, shall be the proper officers and officials of the City, although at the nominal date of such bonds or notes any such person shall not have been such officer or official.

THAT the City may pay certain costs of the projects prior to the issuance of the bonds and notes (referred to as "original expenditures"); to that end, the City hereby declares its official intent to reimburse itself for such original expenditures from the proceeds of such bonds and notes, and this Order shall constitute the City's declaration of official intent pursuant to Treasury Regulation §1.150-2.

THAT during the term any of the bonds are outstanding, the Finance Director and Treasurer of the City are hereby authorized, in the name of and on behalf of the City, to issue and deliver refunding bonds on either a current or advance refunding basis, to refund some or all of the bonds then outstanding, and to

City Council Order

determine the date, form, interest rate, maturities (not to exceed 30 years from the date of issuance of the original bonds) and all other details of such refunding bonds, which may be made callable, with or without premium, prior to their stated date(s) of maturity, and to determine the form and manner of their sale and award, which refunding bonds shall be signed in like manner as the bonds.

THAT during the term any of the bonds are outstanding, all authority granted pursuant to this Order shall be, remain, and continue in full force and effect without the necessity of any further action of the City Council.

THAT the referendum question submitted to the voters pursuant to the Referendum Order shall be substantially as set forth therein but, shall be accompanied by the financial statement required pursuant to Title 30-A, §5772(2-A) of the Maine Revised Statutes.

A public notice describing the general purpose of the borrowing and the terms thereof and the times and places where copies of the bond proposal were available for inspection by the public was published on or before September 28, 2023, in the Lewiston Sun-Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

A public hearing was held on October 16, 2023.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 23, 2023 **Order:** 141-10232023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Winter Oaks Concept Plan and PRO Housing Grant Application

---

Information:
The City of Auburn is collaborating with key partners, including Homes For All, LLC, Androscoggin Land Trust, Androscoggin Savings Bank, Androscoggin County Emergency Management Agency, and the Auburn-Lewiston YMCA, to transform a 62-acre city-owned parcel into a mixed-use, mixed-income community. This initiative combines environmental conservation, outdoor education, affordable housing, childcare, and community enrichment programs.

The project involves creating 100 new residential units, comprised of 48 single-family homes, 8 owner-occupied duplexes, and three 12-unit apartment buildings on city owned property. This project will seamlessly connect with existing city sidewalks and bike lanes, extending to 25 acres of conserved natural land and hiking trails. Additionally, the development will provide infrastructure for an outdoor environmental education center, on-site childcare, and a multi-use community space which will double as an emergency shelter facility for regional residents.

The City of Auburn's Business & Community Development department seeks Council support to secure a $9.5 million grant from the Pathways to Removing Obstacles to Housing (PRO Housing) program. These funds will cover construction costs for new public roads and utilities, including sidewalks, sewer, and water services within the development.

City Budgetary Impacts:
The $4 million in applicant matching funds will be primarily covered by staff time of key city employees over a 5-year development plan, a significant portion of which is already funded by existing entitlement funds from the U.S. Department of Housing & Urban Development. Furthermore, additional funds from a forthcoming affordable housing Tax Increment Finance district will offer additional development incentives and support operational costs for on-site childcare and the Androscoggin Land Trust.

Staff Recommended Action:
Hold a public hearing and recommend passage of order as presented

A. EXECUTIVE SUMMARY EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit A: Executive Summary

The city of Auburn is partnering with Homes For All, LLC., The Androscoggin Land Trust, Androscoggin Savings Bank, Androscoggin County Emergency Management Agency, and the Auburn-Lewiston YMCA to develop a 62-acre city-owned parcel into a mixed-use, mixed-income neighborhood which incorporates environmental conservation, outdoor education, affordable housing, child-care, and community enrichment programs.

i. Project Description

The proposed project entails the development of 100 new residential units, consisting of 48 single-family residences, 8 owner-occupied duplexes, and three 12-unit apartment buildings, situated on a 37-acre parcel within a forthcoming city-planned residential community. This development project will seamlessly integrate existing city sidewalks and bike lanes through the proposed development to an additional 25 acres of conserved natural land and hiking trails. Furthermore, the development will provide essential infrastructure to support an outdoor environmental education center, on-site childcare facilities, and an indoor community space designed to function as an emergency warming and cooling center for regional residents.

Funding provided by the PRO Housing grant program will be utilized to install necessary public roads, utilities, and pedestrian infrastructure. Current market-driven construction costs and developer capacity have made developing this existing city-owned property challenging, with multiple attempts stalling due to a lack of available funds.

Developer Background: Homes For All, LLC is a woman and minority-owned business founded by Fatuma Hussein, an Auburn resident with a strong background in addressing housing disparities. Ms. Hussein has a history of providing translation and social services and has played a pivotal role at the Immigrant Resource Center of Maine, offering culturally and linguistically sensitive support to refugee and immigrant communities. She has also founded Homes For All, LLC and employs an advisory council of experienced housing developers from nonprofit and for-profit backgrounds.

Fatuma Hussein is a model for future generations of developers in Maine. Homes For All aims to address housing policies and practices that historically disproportionately affected communities of color. It holistically employs an advisory council of experienced housing developers with various backgrounds.

As a long-term Auburn resident, Ms. Hussein has decades of experience in servicing disenfranchised communities. She has set a foundation in Lewiston and Auburn for culturally specific system advocacy, training, and targeted education. In 2016, she founded and is the CEO of the Immigrant Resource Center of Maine, a leading regional provider for underrepresented communities. In 2022, she became the first woman of color to administer Emergency Rental Assistance funds in the state. Leading through Homes for All ensures equitable housing structures and contributes to providing economic opportunities to improve the lives of Auburn residents.

Home Ownership: Seventy percent of the newly constructed single-family residences and duplexes will be allocated to households that meet income qualification criteria established within the PRO Housing Program. These homes will include deed restrictions ensuring a 20-year, HUD-approved resale and recapture provision to maintain the program's long-term objectives. Additionally, we have established a strategic partnership with a financial institution specializing in Sharia-compliant and culturally sensitive home loans to help us advance our goals of promoting racial equity. The City of Auburn services a variety of religions, however, we are aware of the large populations of Muslim faith brought about by the migration of 2001. The traditional banking system has adversely impacted the economic growth of these populations.

Affordable Housing: Seventy percent of the apartments within this development will be made available for rent to applicants who meet income qualification criteria, with a 20-year commitment to maintaining affordability. These rental units will be subject to oversight by the City of Auburn in strict compliance with the established monitoring protocols and guidelines governing HOME program units.

Childcare Services: Childcare services will be conveniently offered by the Auburn-Lewiston YMCA, located within one of the mixed-use, multi-unit buildings. Operational expenses for childcare subsidies will be extended to residents of the project who meet income qualification criteria and will be funded as part of a Tax Increment Financing (TIF) district-authorized project cost, in accordance with Maine state statute Title 30-A, Section 5225 (1)(C)(5).

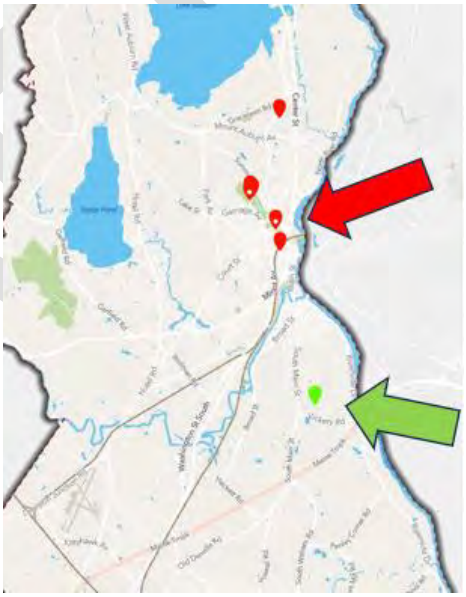
DRAFT

Public Green Spaces and Conservation: A substantial portion of this development will be dedicated to publicly accessible conservation land and green spaces. Already, 25 acres have been transferred to the Androscoggin Land Trust. In addition, space within the development will be set aside for the inclusion of public parks that will showcase art installations and provide bicycle lanes, walking trails, public parking, and facilities for an outdoor educational center and trailhead. These amenities are designed to promote broader community engagement and use.

With race and ethnic equity at the forefront, acknowledging the inclusion of green space access is vital for disenfranchised communities. These amenities aid in narrowing the health inequalities between high and low-income groups as well as among racial groups. Procedures of racial residential segregation have operated through explicit codification in zoning laws to allow hazardous conditions for underserved populations. This serves as an intentional opportunity to change historic redlining practices.

Emergency Preparedness and Resiliency Planning:

Earlier this year, the City of Auburn hosted the Androscoggin County Natural Hazard Mitigation project planning workshop in collaboration with the Androscoggin Emergency Management Agency. This meeting emphasized the growing need to expand emergency shelter facilities across the city. Currently, three of the five existing facilities managed by the city for emergency shelters are situated on the same property, and an additional one has yet to be constructed. However, all the existing and proposed shelter facilities are located within a 2-mile radius of each other, making them centrally consolidated in a city that stretches over 15 miles from North to South.

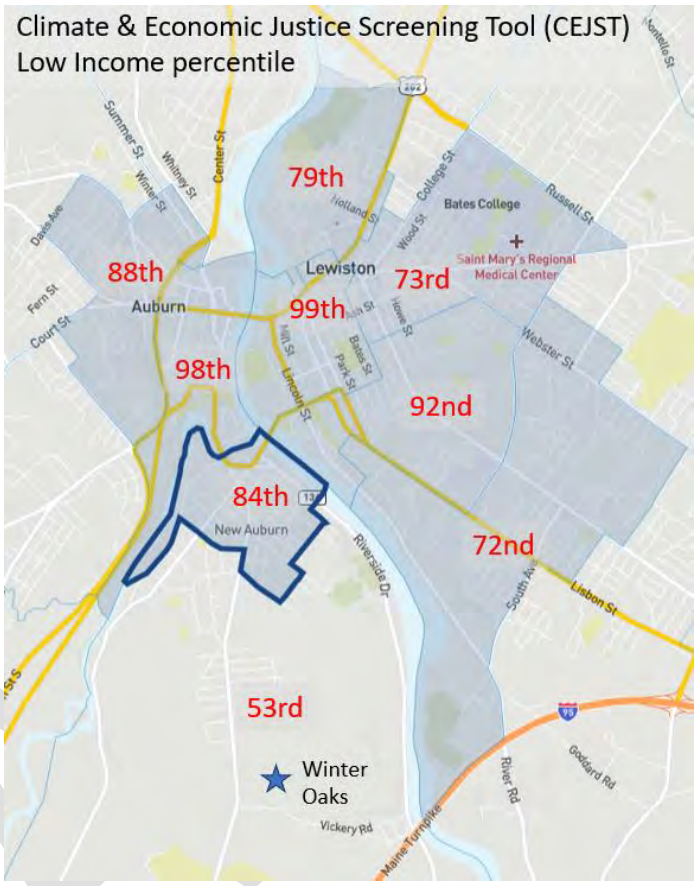


The proposed emergency shelter to be integrated into the Winter Oaks development will be the sole municipal facility positioned south of the Little Androscoggin River, a winding marshy waterway that bisects the entire city. A key partner in this project, which prioritizes sustainable community development in the context of natural hazard mitigation planning, is the Androscoggin County Emergency Management Agency. Together, we are submitting additional applications for state Building Resilient Infrastructure and Communities (BRICS) grants to secure the necessary resources for building and supporting the establishment of a new emergency shelter to serve the broader South Auburn community.

DRAFT

ii. National Objective

The national objectives met within this project pursuant to section 101(c) of the Housing and Community Development Act of 1974 include, but are not limited to, the following:



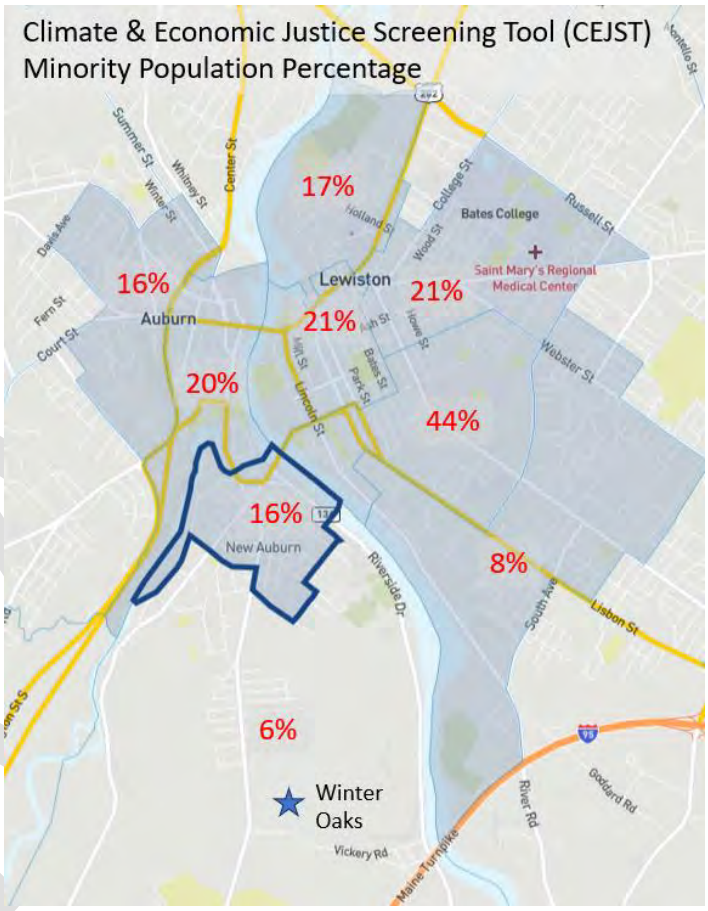
Benefitting low- and moderate-persons. The Climate and Economic Justice Screening Tool (CEJST) has identified three downtown census tracts in Auburn and five downtown census tracts in Lewiston as disadvantaged. The image to the right visually illustrates the concentration of low-income residents within these two urban cores. The average of the eight separate census tracts ranks at the 85th percentile when compared to the established threshold of concern, which is set at 65.

This project aims to establish 100 new residential units outside the urban cores, where affordable housing has historically and unfairly been concentrated. By dedicating 70 percent of these newly created homes and apartments to households qualifying at or below 100% of the Area Median Income (AMI) for a minimum of 20 years, with a particular focus on underserved communities, we seek to address equity issues and promote economic justice.

Preventing or eliminating slums or blight by de-centralizing the development of affordable housing. The proposed location does not currently fall within a low- to moderate-income qualified census block. It will feature planned green spaces with public art installations. This site, situated in a semi-rural environment and adjacent to 25 acres of conservation land, aligns with the city's commitment to deconcentrating affordable housing while improving access to outdoor spaces for affordable housing residents.

Meet other urgent community needs because of immediate threats to the health or welfare of the community.

Racial discrimination, poverty, and the exclusionary zoning laws all undermine the housing market power residents and communities need to receive quality services from government and the private sector. This has impacted the upward economic mobility, educational opportunities, and wealth building necessary for communities to thrive. Byproducts of these laws have impacted the overall health, crime rates, lead exposure and other environmental toxins, lack of green space, involvement with the justice system, and overall standard living. The critical role of place in shaping children's economic trajectories is an immediate and long-term threat. Better-resourced diverse neighborhoods improve economic outcomes, especially for children who are removed from disinvested communities at a young age resulting in positive impacts for generations to come.



This project addresses a pressing need by establishing an emergency shelter in a neighborhood where such a resource is currently unavailable. The rising frequency of natural hazard events necessitating backup power or the activation of warming/cooling centers for Auburn residents has strained existing response systems. The inclusion of a new community space that can also serve as an emergency center enhances neighborhood resilience and promotes equitable allocation of these critical resources.

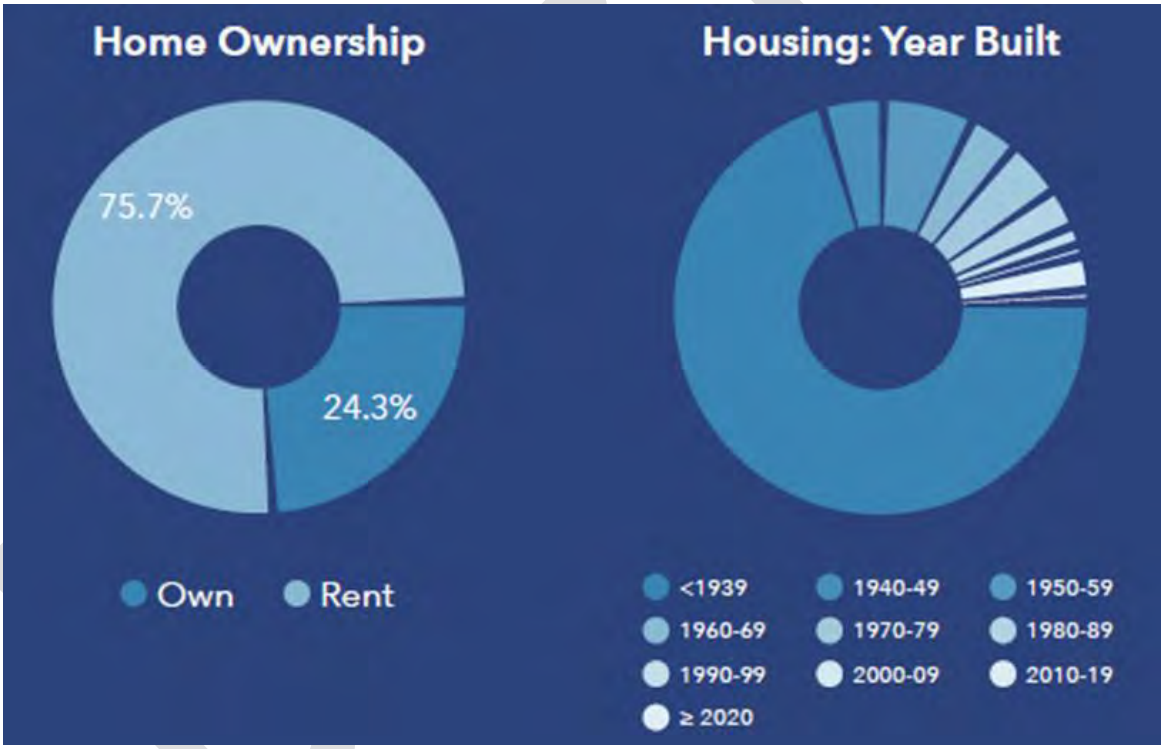
iii. Advancing Racial Equity

In accordance with Executive Order 13985, Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, this project will utilize the below assessment and planning and monitoring process consistent with federal nondiscrimination requirements.

Racial composition of households who are expected to benefit from this project:

The Climate and Economic Justice Screening Tool (CEJST) has identified four downtown census tracts (one in Auburn and three in Lewiston) with a minority population comprising at least 20%. The graphic above visually illustrates the concentration of the census tracts with the highest minority populations. When compared to the map of low-income populations, a clear and significant correlation emerges, indicating a high presence of low-income residents alongside above-average minority populations within the urban cores of these two cities.

Additionally, the three CDBG qualified census tracts in Auburn are comprised of a housing stock of 75% renters occupying units in which over 75% were constructed before 1968, increasing the prevalence of low to moderate-income, minority residents occupying inefficient, lead-contaminated properties.



Identified potential barriers to persons or communities of color equitably benefitting from this project:

One of the most significant challenges facing individuals and communities of color when it comes to benefiting from new affordable housing developments, such as the proposed project, is the resistance within local communities to placing these projects outside of the established urban core. The strategic placement of these homes serves to decentralize poverty while establishing a direct connection to crucial resources to further support marginalized communities. While expanding affordable housing options to suburban or less densely populated areas is crucial for fostering inclusive community development, it

often encounters opposition from local stakeholders. This resistance may arise from concerns related to property values, neighborhood character, or misconceptions about the impact of affordable housing.

The existence of 'Not In My Backyard' (NIMBYism) attitudes and discrimination by communities and neighbors, as highlighted in the Maine State Housing Authority's Analysis of Impediments to Fair Housing Choice published in 2019, is not a new phenomenon. However, the Auburn administration and City Council have consistently demonstrated their unwavering support for the development of new housing units within the city. This methodology lends itself to historic exclusionary zoning, segregation, and urban renewal exclusion.

Some of these pioneering approaches have gained national recognition, as exemplified in an article titled "The YIMBYest City in America," where Auburn's Mayor actively confronts the 'Not-In-My-Backyard' (NIMBY) exclusionism the city has encountered. The analysis published by Maine State Housing acknowledges similar barriers at the state level as those observed locally, including the lack of affordable housing unit development, racial and ethnic disparities, and zoning challenges stemming from NIMBYism efforts (discrimination by communities and neighbors).

To address this barrier, our project takes a multifaceted approach:

1. Community Engagement and Education: We prioritize community engagement and public education efforts to dispel misconceptions and raise awareness about the positive impacts of affordable housing. Meaningful public engagement with specific attention to the communities identified who will be most impacted by reforms relating to affordable housing access or environmental justice will be key. By engaging in open and constructive dialogues with residents, we aim to build support for the project within the local community.

2. Collaboration with Local Leaders: We work closely with local leaders, including city and state officials, neighborhood associations, and influential community members, to gain their support for the project. Their endorsement can help alleviate opposition and foster a sense of shared responsibility for addressing the affordable housing crisis.

3. Inclusivity in Design: Our project incorporates inclusive design principles that ensure the development integrates seamlessly into the existing community. This includes architectural design that complements the surrounding neighborhood, green spaces, amenities that benefit all residents, and traffic management solutions to address concerns about congestion.

4. Affordable Housing Initiatives: We partner with local organizations and housing agencies to provide incentives for affordable housing, such as rent subsidies or homeowner assistance programs. We will identify local organizations with extensive background in working with disenfranchised populations to ensure a diverse group of informed leaders

are guiding the process. This demonstrates our commitment to addressing the housing needs of marginalized communities.

5. Data-Driven Decision-Making: We rely on comprehensive data analysis to support the project's location selection. This data includes an assessment of demographics, transit accessibility, water and sewer utility capacity, and socioeconomic factors to ensure that the project is strategically placed to benefit those in need. Utilizing a racial equity impact assessment tool also helps build an inclusive community. An assessment will provide additional information to support our fair housing goals.

By implementing these strategies, we aim to mitigate local opposition and ensure that persons and communities of color have equitable access to the benefits of this proposed affordable housing project, thereby fostering an inclusive and diverse community that reflects our commitment to social equity and housing justice.

Detailed steps to prevent, reduce or eliminate barriers:

To address these barriers, the City of Auburn and the project developer have meticulously designed a comprehensive and thoughtful strategy to prevent, reduce, or eliminate obstacles to affordable housing access. This strategy includes allocating budgets for security deposits and down-payment assistance to qualified applicants based on their income. Our unwavering commitment to addressing financial barriers is poised to significantly enhance the effectiveness of our programs.

City administration and elected leaders have departed from conventional governmental approaches to problem-solving. Instead of pursuing large-scale, multi-unit construction projects subsidized by multiple layers of tax incentives and state and federal funds, they have championed more equitable and innovative small-scale methods. One prominent approach is the emphasis on creating new homeowners and multiple owner-occupied duplexes. This not only encourages community engagement by fostering homeowners with a vested interest in their community but also provides sustainable rental income opportunities for many middle- and low-income individuals and families.

Both homeownership and owner-occupied rentals play a pivotal role in enabling families to start building generational wealth, making them essential components of our strategy.

Step 1: Establish Assistance Funding

The City of Auburn, in collaboration with the Auburn Housing Authority and the Maine State Housing Authority, will work closely to create a dedicated fund to ensure that allocated resources are exclusively used for security deposit and down-payment assistance for eligible residents.

Step 2: Define Eligibility Criteria

The developer and the city will collaborate to assess the income qualifications of prospective tenants, ensuring that at least 70% of the units remain affordable. This

DRAFT

commitment will be upheld through deeded covenants and regular monitoring conducted by the City's Community Development Office.

Step 3: Outreach and Promotion

Leveraging the developer's extensive history as a housing resource and case management provider, focusing on serving low to moderate-income and diverse communities, we will conduct outreach to establish this project as a representative and inclusive community.

Step 4: Application Process

The city will streamline the application process by aligning it with HUD-approved procedures for income qualifications. This user-friendly, multi-lingual application process removes barriers for eligible applicants seeking security deposit and down-payment assistance.

Step 5: Review and Approval

City approval processes for HUD programs will be enhanced through consultation and procedural refinement, guided by the City's Diversity, Equity, & Inclusion Analyst and the developer's racial equity advisory team.

Step 6: Monitoring and Reporting

Utilizing the city's existing HOME monitoring and reporting system, we will track the impact of the security deposit and down-payment assistance program. This includes regular evaluations of the number of applicants served, the demographics of recipients, and the success rate in securing and maintaining housing.

Step 7: Public Accountability

To promote transparency and garner support, the city will include the results of project monitoring annually in its Consolidated Annual Performance and Evaluation Report (CAPER). This ensures that updates and progress reports on the project's use and assistance provided are regularly shared with the public and relevant stakeholders, building trust and support for the initiative.

Step 8: Sustainability Planning

The success of this project relies on the city's entitlement funds to maintain long-term reporting and accountability beyond the initial three years, ensuring its sustainability.

Measurements used to track progress and evaluate the effectiveness of efforts to advance racial equity within the project:

Tracking progress and evaluating the effectiveness of efforts to advance racial equity within the project is essential to ensure accountability and success. The following are measurements and evaluation steps to be implemented using the existing systems and annual monitoring procedures of the City of Auburn:

DRAFT

Demographic Data Collection:

HUD-approved methods for collecting and reporting demographic data from tenants and homebuyers during the application process will create a composition baseline. This data regularly includes information on race, ethnicity, and income level. This data is collected in a non-intrusive and privacy-conscious manner, following relevant regulations and guidelines.

Analysis of Tenant Demographics:

As part of the City's annual HUD reporting requirement, this data will be regularly analyzed to assess the income, racial, and ethnic composition of residents within the project. Any measurable disparities or inequities identified in the report will provide additional analysis of the reasons behind them.

Outreach and Engagement Metrics:

Tracking the effectiveness of outreach efforts aimed at attracting a diverse applicant pool will be used to evaluate the success of engagement initiatives that promote the project within underserved communities.

Resident Satisfaction Surveys:

The city will conduct regular resident satisfaction surveys to gather feedback from residents about their experiences within and around the project. This includes questions about the sense of belonging, inclusion, and satisfaction with the living environment to gauge the project's impact on racial equity.

Accessible Communication Channels:

The city and developer will ensure that communication channels are accessible and inclusive to residents of all backgrounds. This will be done by monitoring engagement and participation rates in community meetings, workshops, and feedback sessions to assess inclusivity.

Complaints and Grievance Tracking:

The city will establish a system for tracking and addressing complaints or grievances related to racial equity issues within and around the project. These complaints will be used to analyze trends and patterns in complaints and resolutions to identify areas for improvement.

Partnerships and Collaborations:

The multiple partners within this project will measure the impact of these community service providers and collaborations, focusing on racial equity, social justice, and affordable housing. The engagement of residents will be used to track outcomes, joint initiatives, and community-driven projects resulting from these partnerships.

DRAFT

By implementing these measurement and evaluation steps within the existing systems and annual monitoring procedures, the City of Auburn can ensure ongoing accountability and demonstrate a commitment to advancing racial equity within the affordable housing project.

iv. Affirmative Marketing

To assure compliance with Title VIII of the Civil Rights Act of 1968 (Fair Housing Act) and affirmatively market the housing, services, and benefits provided within this project, it's important to outline specific methodologies and strategies for achieving this goal. The following processes will be utilized to encourage and equitably attract tenants:

Rental Unit Marketing and Lease-Up Process:

The rental unit marketing and lease-up process will be designed to ensure equitable access to housing for all demographic groups, particularly those who may be unlikely to apply without specific outreach efforts. Our approach will include:

- **Comprehensive Outreach:** We will conduct outreach through various channels, including local newspapers, online platforms, community organizations, and social media. These advertisements will highlight the availability of rental units and emphasize our commitment to fair and equal housing opportunities.
- **Multilingual Materials:** All marketing materials, including brochures and online listings, will be available in multiple languages commonly spoken in the community to accommodate diverse linguistic backgrounds.
- **Inclusive Language:** Advertisements will use inclusive and non-discriminatory language to welcome individuals of all backgrounds. We will explicitly state our commitment to complying with fair housing laws.
- **Accessibility:** Marketing materials will be designed to be accessible to individuals with disabilities, including providing information in alternative formats upon request.

Single-Family Units Advertised for Sale Process:

The process for advertising single-family units for sale will incorporate similar principles to the rental unit process, focusing on ensuring equitable access to homeownership opportunities. Working with the developer will ensure that all information, education and accessibility is properly delivered based on the needs of the population.

- **Broad Outreach:** We will advertise the availability of single-family units through various platforms, including real estate listings, open houses, and community events. These advertisements will stress our dedication to fair and equal access to homeownership.
- **Cultural Sensitivity:** Our marketing materials will reflect cultural diversity and sensitivity to the needs of different communities within the area.

DRAFT

- **Financial Counseling:** We will offer resources and referrals for financial counseling to potential homebuyers to help them navigate the mortgage application process and understand their rights under fair housing laws.

Duplex Units Advertised for Sale Process:

The marketing and sale process for duplex units will mirror the approach used for single-family units, focusing on inclusivity and equity in homeownership opportunities.

- **Equitable Access:** We will actively promote the availability of duplex units to a diverse range of potential buyers, emphasizing equal access and opportunity for all.
- **Educational Workshops:** We will organize educational workshops and seminars to inform potential buyers about the advantages of duplex ownership, including rental income opportunities. Due to barriers to education in these vulnerable communities, we will also use a targeted approach by working with local organizations and also provide education for first time home buyer programs and homebuyer education classes.

Culturally Appropriate Mortgage Lending Advertising Process:

To ensure culturally appropriate advertising for mortgage lending, we will collaborate with local lending institutions to implement the following strategies:

- **Translation Services:** Partner with translators to provide mortgage information in languages spoken by diverse communities in the area.
- **Cultural Competency Training:** Ensure mortgage lending professionals are trained in cultural competency to effectively serve a diverse clientele.
- **Community Engagement:** Connect with local community organizations and leaders to build trust and provide culturally appropriate mortgage lending information.

By implementing these methodologies, we aim to affirmatively market our housing and services while upholding the principles of the Fair Housing Act, promoting equal access to housing, and embracing the diversity of our community.

DRAFT

B. THRESHOLD AND OTHER SUBMISSION REQUIREMENTS EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit B: Threshold Requirements and Other Submission Requirements

The City of Auburn is the applicant and has a valid and active registration on Sam.gov with a Unique Entity Identifier (UEI) # T33MAJLE1MJ3. Additionally, the city has no ongoing civil rights matters and will provide for a timely application.

i. Eligibility of Applicant

The City of Auburn, as the applicant, is a qualified unit of local government with experience administering Community Development Block Grant entitlement funds as well as HOME Investment Partnership Funds from the U.S. Department of Housing & Urban Development.

ii. Eligible Activities funded with grant funds

The City of Auburn will use grant funds only for the eligible activities below pursuant to section 105 (a) of the Housing and Community Development Act of 1974 and applicable program regulations at 24 CFR part 570 as applied and modified by the PRO Housing NOFO:

NOFO Section F-2 © i - Planning and policy activities supporting affordable housing:

- D: Developing new incentive programs for affordable housing development
- E: Expanding existing affordable housing incentive programs to broader geographies, including high-opportunity neighborhoods
- G: Establishing incentive programs or flexibilities to enable and promote the adaptive reuse of vacant or underutilized properties for housing or mixed-use development
- S: Developing regional planning models that enhance location efficiency by focusing on connecting housing, transportation, and economic growth
- T: Providing affordable housing developers a first look at tax sale properties and other government properties
- V: Developing proposals for policies that incentivize mixed-income development, such as the inclusion of affordable units in market-rate properties

NOFO Section F-2 © ii - Development activities:

- A: Financing the construction or rehabilitation of affordable housing
- B: Acquisition or disposition of land or real property for the development of affordable housing
- C: Facilitating the conversion of commercial or other properties to new housing
- D: Establishing or assisting a Community Development Financial Institution (CDFI) to carry out financing strategies
- E: Providing large-scale technical assistance to affordable or non-profit developers, community land trusts, or other entities, which leads to the development of affordable housing

DRAFT

NOFO Section F-2 © iii - Infrastructure activities:

- A: Installing new utilities and/or infrastructure improvements necessary for the development or preservation of affordable housing
- B: Upgrading existing utilities or improvements to increase an area's overall capacity for new housing
- C: Establishing tax-increment financing districts to fund infrastructure improvements or affordable housing development, especially those that incentivize affordable housing development
- D: Increasing community resiliency by investing in infrastructure improvements and nature-based solutions to mitigate the impacts of disasters, natural hazards, and extreme weather to make areas suitable for new affordable housing investment
- E: Investing in neighborhood amenities that benefit low-and-moderate income residents, such as parks, community centers, bike lanes, and improvements to the physical environment that increase public safety, such as streetlights or sidewalks

DRAFT

C. DEMONSTRATION OF NEED EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit C: Demonstration of Need

The State of Maine Housing Production Needs Study published in October 2023 quantified the historic underproduction of housing for the Central Western Maine region. The cities of Lewiston & Auburn represent the second largest urban population in the region. This study indicates a housing shortfall of 22,700 to 24,700 units to meet future demand. This annualized number represents a needed increase of 150-170% new units created over current production rates.

Table 1: Historic Underproduction and Future Need by Region

Region	*Historic Underproduction*	*Future Need (2021 – 2030)*	*Total*
Coastal	21,200	24,200 – 28,000	45,400 – 49,200
Central Western	13,000	9,700 - 11,700	22,700 – 24,700
Northeastern	4,300	4,000 - 6,100	8,300 – 10,400
Maine	**38,500**	**37,900 - 45,800**	**76,400 – 84,300**

The need for greater availability of affordable housing in our region is evident as Auburn's population grows at a rate of 0.42% per year, with a 1.26% increase (303 people) between 2020-2022 and a poverty rate of 12.1% in 2020 (a 6.6% 1-year increase). Inflation and population growth from 2019-2022 have created a severe housing shortage.

ESRI data for 2023 to the right demonstrates that 70% of the housing (2,251 units) located within the three downtown Auburn census tracts was constructed before 1940. This means over two-thirds of the urban core housing lacks modern accessibility and efficiency.

75% of these units are rentals, and over 50% of them are to households making less than $35K per year. A disproportionate number of low-income renters within Auburn live in antiquated, inefficient, and lead-contaminated housing.

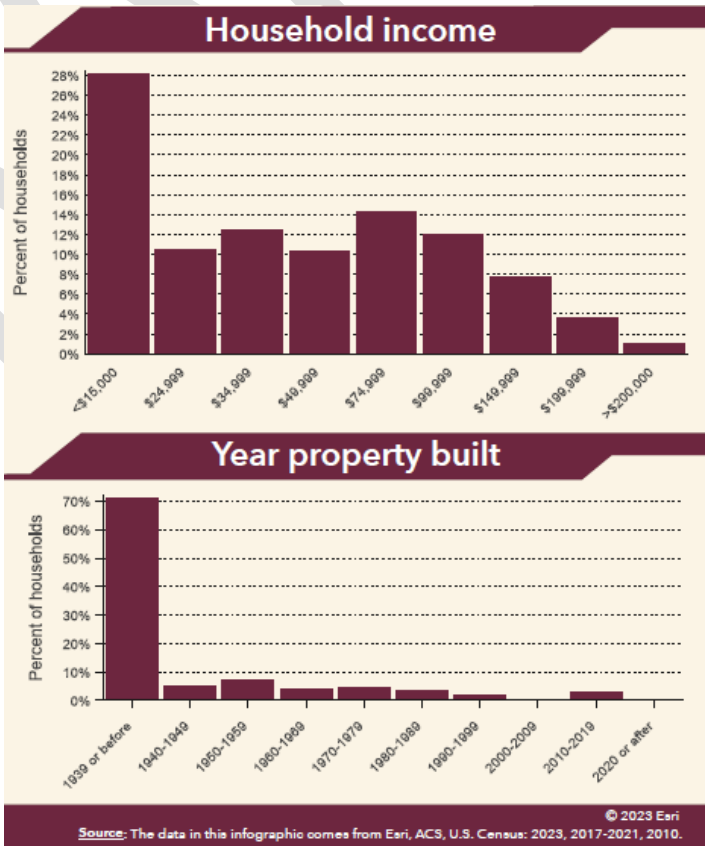


Table 2: Annualized Production Needs Compared to Annual Building Permits by Region

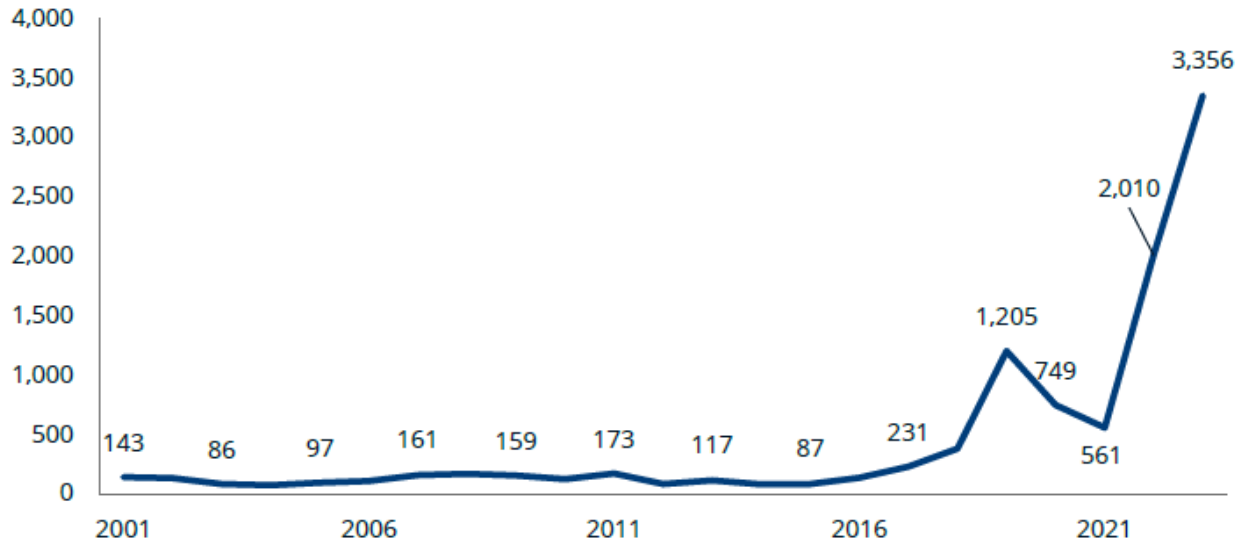
	Total Annual Production Need	*5-year average (2016 - 2021)*	*% Change in Permits*	*Net Change in permits*
Coastal	**5,100 – 5,500**	3,400	**50% - 62%**	**1,700 – 2,100**
Central Western	**2,500 – 2,700**	1,000	**150% - 170%**	**1,500 – 1,700**
Northeastern	**900 – 1,100**	400	**128% - 175%**	**510 - 700**
Maine	**8,500 – 9,300**	4,800	**77% - 94%**	**3,700 – 4,500**

Also included within the State of Maine's housing needs report is the most accurate measurement of asylum seekers settling in Maine. The notice-to-appear filings (a proxy for the total number of asylum seekers in Maine) indicate an increase of over 3,000 cases per year from 2018 to 2023.

This rising trend of locating asylum seekers and new Mainer minority populations within the existing urban core is the result of an economic system that reinforces existing housing disparities. As established above, these urban core neighborhoods where rents are more affordable are already contributing to the systematic concentration of low-income residents and minority populations within older, inefficient, lead-contaminated housing stock.

Figure 9: Total Individual Notice-To-Appear Cases Filed, 2001 - 2023

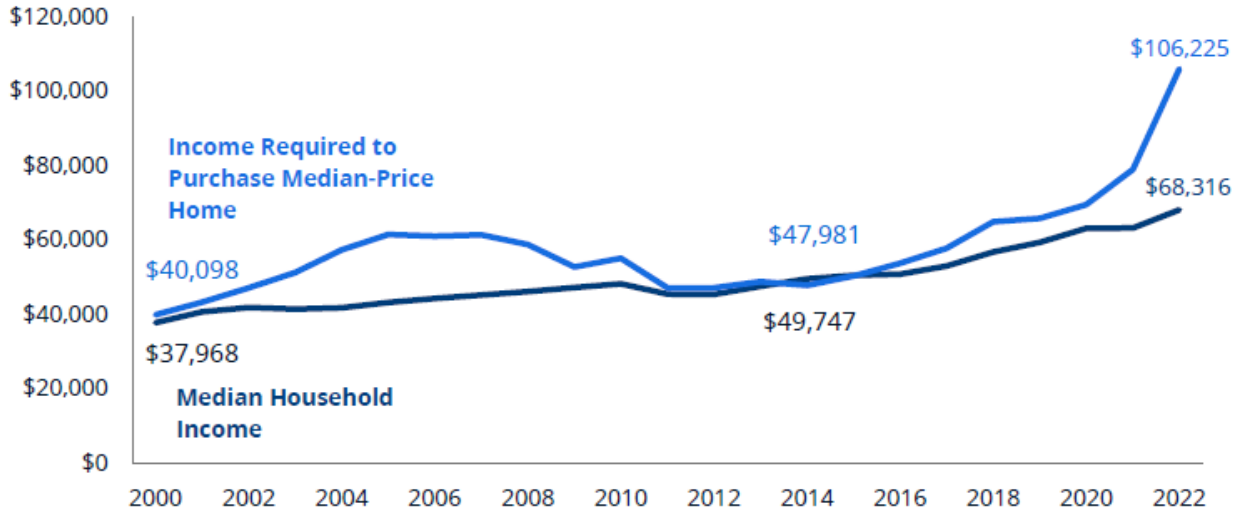


Source: TRAC New Proceedings Filed in Immigration Court; Notice to Appear Deportation Cases 2001 – 2023

Lastly, the pressure on housing affordability caused by the historic underproduction of units and the recent influx of new residents has created a spike in housing prices that has yet to subside. The 2022 Homeownership Housing Facts and Affordability Index published by Maine State Housing Authority demonstrates a 13% increase in the median single-family home price from 2021 to 2022.

This means the previous home price of $295,000 rose to $334,000 in just one year. This number is still dramatically higher than the HUD-established Housing Trust Fund sale price maximum of $206,000. The graphic provided below by Maine State Housing Authority demonstrates the purchasing capacity of Maine residents compared to the median household income. This disparity is another data point indicating the need for new, affordable housing production for Maine homebuyers, not just renters.

Figure 29: Purchasing Capacity Over Time, 2000 - 2022[23]



Source: MaineHousing 2022

Several key factors underscore the urgency of addressing this issue:

1. **Rising Housing Costs:** The escalating costs of homeownership and rental properties have placed a significant burden on low- and moderate-income households. Many families struggle to secure safe and stable housing that aligns with their financial means.
2. **Income Disparities:** Income disparities persist in our community, resulting in a widening gap between housing affordability and the financial capacity of a substantial portion of our population. This inequality threatens the social fabric of our region and hampers opportunities for economic mobility.
3. **Limited Housing Availability:** The supply of affordable housing units has not kept pace with the growing demand. This shortage has created a highly competitive housing market, leaving vulnerable populations at risk of homelessness or housing instability.
4. **Community Stability:** Access to affordable housing is integral to maintaining community stability. Affordable housing options enable individuals and families to establish roots, fostering a sense of belonging and contributing to the overall health and resilience of our neighborhoods.

5. **Employment Opportunities:** Affordable housing supports local economies by ensuring a diverse workforce can remain in the area. By addressing the housing affordability crisis, we can better attract and retain skilled workers, benefitting both employers and employees.
6. **Social Well-being:** The lack of affordable housing options adversely affects our residents' physical and mental well-being. Stable and affordable housing is a fundamental pillar of individual and family health.
7. **Reducing Homelessness:** By investing in affordable housing initiatives, we can take proactive steps to reduce homelessness and alleviate the strain on emergency shelter systems, healthcare resources, and public safety services.
8. **Health Outcomes:** A history of disinvestment and centralized poverty in communities of color has led to substandard housing quality, which in turn exacerbates racial health disparities. Neighborhoods subjected to exclusionary zoning see lower life expectancy and a higher prevalence of chronic diseases today. Quality housing leads to positive health outcomes.
9. **Community Resilience:** Access to affordable housing is vital in times of crisis, such as natural disasters or economic downturns. It ensures that our community remains resilient in the face of unexpected challenges.

In light of these pressing concerns, our commitment to creating affordable housing opportunities is not only a moral imperative but also a strategic investment in our region's long-term prosperity and well-being. Addressing the need for affordable housing is a critical step toward building a more inclusive, equitable, and sustainable community.

i. Efforts to identify, address, mitigate, or remove barriers to affordable housing production

The City of Auburn has taken significant steps to address the affordable housing crisis through innovative approaches. These efforts include approving Accessory Dwelling Units in city zoning, creating new housing options and rental income opportunities for middle- and low-income residents. These initiatives have gained recognition in "The YIMBYest City in America" article published by Discourse Magazine on May 18, 2022. The city has also faced challenges related to NIMBYism, as highlighted in the Maine State Housing Authority's 2019 Analysis of Impediments to Fair Housing Choice report. These zoning changes have sparked extensive community discussions, with residents expressing both support and concerns about their impact on traditionally single-family neighborhoods. This "Zone Defense" reaction reflects the ongoing challenges identified by MSHA in their analysis of Fair Housing Choice impediments.

Specific actions the City has already taken are summarized below:

Policy Review and Reform: Auburn's 2021 Comprehensive Plan Update exemplifies a visionary approach to sustainable growth. Our goal is to expand thoughtfully from our historic city cores, fostering vibrant neighborhoods that define our identity. We are dedicated to efficiently

maximizing land usage and services, preserving neighborhood character, and ensuring resources for current and future residents. Auburn is committed to strengthening community bonds, seizing opportunities, and pursuing growth with environmental conservation as an integral part of our identity.

Streamlined Permitting Processes: Red tape has historically hindered housing production and steered investments away from our community, potentially exacerbating vehicle miles traveled and promoting housing segregation. The City of Auburn is actively addressing these challenges by streamlining our regulatory processes, making them faster, more cost-effective, and more predictable than other jurisdictions. Here are some key initiatives:

1. **Coordinated One-Stop Experience:** The city offers a seamless, one-stop experience for project development, including initial discussions, site location assistance, and incentives to overcome obstacles. Our local and State delegated permit reviews come at a fraction of the usual State fees, with an average turnaround time that is only 25% of what developers would encounter elsewhere.

2. **Form-Based Code Districts:** In designated areas and preapproved industrial or commercial subdivision lots, the city provides swift staff-level approvals for most uses, ensuring efficient site development. If a project encounters challenges, staff are committed to working alongside you to find solutions.

3. **Veteran Homeowners and Businesses:** The city has eliminated permit fees for veteran homeowners and slashed them in half for veteran-owned businesses, honoring and supporting those who have served our country.

4. **Competitive Permitting Fees:** Auburn boasts the lowest permitting fees among major cities in the State. For instance, the permit fee for a new single-family home is as low as $25.00, making our community highly cost-competitive.

5. **Private Investor Partnerships:** Our city collaborates with private investors eager to build tailored solutions for solid tenants and industry clusters, offering more opportunities for growth.

Investors are taking notice of these efforts. External factors, such as the rise in remote work opportunities and the appeal of living in Auburn with its abundant recreational options, have driven increased demand for housing within the city and the State as a whole. Additionally, pricing and regulatory changes in other parts of the State have made these streamlined processes even more attractive and competitive in the housing market.

Inclusionary Zoning: Our 2021 Comprehensive Plan Update recognized that traditional residential zoning presented a significant challenge to fostering diverse housing options within desirable neighborhoods. Conventional zoning practices had historically segregated single-family homes from rental and condominium-style housing, often relegating rentals to commercial zones. The city sought to dismantle this practice and promote a more inclusive approach, allowing people to reside together in various housing types.

DRAFT

To achieve this, we drew inspiration from form-based codes and initiated substantial changes to our residential zoning regulations. These revisions now permit a broad spectrum of residential and community uses, with a density allowance of up to 16 units per acre in areas equipped with utility infrastructure and pedestrian accessibility.

Our next endeavor is to extend the reach of infrastructure to the outskirts of urban areas, creating opportunities for housing development at an efficient density. Simultaneously, we remain committed to preserving connectivity to essential amenities, high-quality recreational spaces, open areas, and community gathering points. This holistic approach ensures that our community thrives with diverse housing options while maintaining access to the essentials that enrich our residents' lives. An important mention is also to continue outreach for diversity in developers and partnerships. The intentionality of working with a developer with a wealth of knowledge in racial and ethnic inequities allows the City of Auburn to further continue to build inclusionary housing.

1. **Financial Incentives:** Providing financial incentives, such as tax credits, grants, or subsidies, to developers and builders who commit to constructing affordable housing units can stimulate production.
2. **Partnerships:** Collaborations between government agencies, nonprofits, and private developers can effectively pool resources and expertise to address affordability challenges.
3. **Mixed-Income Development:** Promote mixed-income housing developments that integrate affordable units within market-rate projects to avoid creating concentrated areas of poverty.
4. **Tenant Protections:** Enforce tenant protections to prevent unjust evictions and ensure renters have stable housing options.
5. **Housing Vouchers:** Expand housing voucher programs to help low-income individuals and families afford rental housing in the private market.

By implementing these strategies and considering the local context, communities can work towards removing barriers and increasing the production of affordable housing, ultimately improving housing affordability for their residents.

ii. Demand for affordable housing

Efforts to house previously uncounted homeless populations and an influx of asylum seekers have further depleted affordable housing options. The Auburn General Assistance Office has seen a 509% increase in asylum-seeking cases, accommodating 112 cases recently. Local data from two pandemic-operated emergency shelters, the Lewiston Ramada Inn and the Lewiston Armory, reveal the catch-basin effect of homeless services in the Lewiston-Auburn MSA. These shelters housed 213 individuals, with 60% from Lewiston, 20% from Auburn, and 20% from outside the jurisdiction.

DRAFT

	Applications Received	Cases Receiving Assistance	Cases With Asylum Pending
2021-22	129	109	22
2022-23	426	381	112

The report also highlights the city's use of American Rescue Plan Act (ARPA) funds for the Project Support You (PSY) program. These funds provided a dedicated staff position with mental health and substance abuse expertise to co-respond directly with Auburn police and fire departments to triage care during rescue calls. In the first seven months, staff, in collaboration with Tri-County Mental Health, served 263 homeless Auburn residents.

	Cases Receiving Housing Assistance	Cases Receiving Utility Assistance	Cases Receiving Food Assistance	Cases Receiving Household Supply Assistance
2021-22	84	11	11	7
2022-23	270	121	58	74

HUD defines cost-burdened families as those paying over 30% of income for housing, while severe rent burden refers to those paying over 50%. Before COVID, 29% of Auburn residents were cost-

DRAFT

burdened. Current numbers are likely higher due to rising rents, although updated data is challenging to obtain.

Auburn Income Distribution by Tenancy*						
	Owners	Owners %	Renters	Renters %	Total	% of Pop
Household Income Less than 30% HAMFI	260	4.5%	1140	24.8%	1400	13.4%

Auburn Affordable Housing Options				
	Units	% of Units		
MSHA Income-based & Rent restricted	813	17.7%	Total Renters under 80% HAMFI	3475
AHA Housing Choice Vouchers (HCV)	400	8.7%	Total Affordable Rental Units	1213
Sub Total of Affordable	**1213**	**26.3%**	**Unmet Needs=**	**2262**

Based on the most recent American Community Survey, over 48% of Auburn's population falls under 80% AMI, making them eligible for rental assistance through the HOME Investment Partnership Program, as calculated by HUD's HAMFI. Of the available affordable housing options that Maine State Housing Authority & Auburn Housing Authority provided, the table above demonstrates a shortfall of 2,262 additional units.

Additionally, the average cost of Housing Choice Vouchers in Auburn has increased during the past 5 years the most (75%) among all PHAs in Maine. This rate is among the highest increases in the country, further demonstrating the gap between what households in Auburn can afford to pay and what the prevailing market rental rates are.

In a WMTW Channel 8 news special feature aired on September 18, 2023 (https://www.wmtw.com/article/maines-housing-crisis/45087545), reporters identified a larger state-level affordable housing crisis. This report used census data to qualify over 75% of the current renters nationwide as being cost-burdened as defined by U.S. Department of HUD thresholds. In Maine, this is reflected in the State of Maine's housing needs report. This report, published in October of 2023, finds both demand-side drivers comprised of sudden in-migration caused by COVID-19 and a declining labor force caused by aging households as key contributors to rising housing costs and reduced absorption rates.

iii. Key barriers to producing affordable, accessible housing

The WMTW report referenced above quantified that, with rising construction costs and related interest rates, the new median home price in Maine is $334,000 (a 7.43% increase). This means a household needs an income of over $106,000 to buy a home. With a median income of only $66,000 per year, 72% of Mainers are now priced out of the homeownership market. These data points have again been supported by the new State of Maine Housing needs report. This report identifies multiple supply-side drivers, namely historic low housing production rates caused by increased material costs and higher costs related to the necessary capital to facilitate these developments. These findings are more extreme in communities of color.

Rising interest rates and labor costs have contributed to the widespread grinding halt of housing production. As interest rates rise, the cost of capital gets more expensive, and investors' economic incentives are decreased. Multiple housing projects within Maine have recently seen investors pull out as the private savings and bond market returns have increased and effectively surpassed the value of real estate development yields. This has caused many developers and projects to seek new and more creative capital stack compositions in order to proceed.

Additional resource restrictions on the municipal side have also contributed. As municipal budget requirements related to General Assistance, police, and first responders have increased sharply in response to the COVID-19 & homelessness crisis, there are fewer available funds and staffing capacity to invest in long-term housing solutions. This is a widespread governmental stressor in which responding to today's crisis severely limits the development of tomorrow's solutions.

DRAFT

D. SOUNDNESS OF APPROACH EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit D: Soundness of Approach

i. Project Vision

Our project envisions the creation of a harmonious and vibrant mixed-use residential development that seamlessly integrates into the natural beauty of its surroundings. Nestled within this thriving community, residents will experience a unique blend of modern living, outdoor exploration, and environmental stewardship.

Residential Excellence: At the heart of our vision lies a diverse array of thoughtfully designed residential units, including single-family homes and apartments, catering to a variety of lifestyles and needs. These residences will provide shelter and foster a sense of belonging and community, encouraging residents to forge lasting connections with their neighbors.

Unspoiled Natural Beauty: We are committed to preserving the pristine natural environment that characterizes this locale. Our project will set aside extensive conservation land and green spaces, ensuring that the region's ecological richness remains untouched for generations to come. Residents will have the privilege of living in harmony with nature, fostering an appreciation for the environment.

Recreational Oasis: The development will feature an extensive network of walking trails carefully woven into the landscape, inviting residents to explore and connect with the great outdoors. These trails will offer serene pathways for leisurely strolls, invigorating hikes, and moments of quiet reflection. We envision a community where every resident can relish the rejuvenating power of nature right at their doorstep.

Race and Ethnic Equity: We are committed to advancing antiracist housing policy and practice that permeates housing. Following leadership by Auburn's Mayor "The YIMBYest City in America" will tackle historic, structural, and systemic drivers of inequitable outcomes.

Environmental Education Hub: A pivotal aspect of our project is the establishment of an outdoor environmental learning facility where residents and the wider community can deepen their understanding of the natural world. This center will serve as a beacon of environmental education, fostering a culture of sustainability and responsible living.

Conservation in Action: We view our project not only as a residential haven but as a testament to responsible development. Through our conservation efforts and sustainable practices, we aspire to set a standard for environmentally conscious living, inspiring similar initiatives across the region.

Our project's vision is a harmonious synthesis of modern living, environmental preservation, and community enrichment. It is our aspiration that this development will not only provide homes but also nurture a thriving, sustainable, and interconnected community where residents live in harmony with nature while enjoying the conveniences of modern life.

DRAFT

ii. Geographic scope

This project has a scope of impact well beyond the city of Auburn. As detailed in the WMTW data referenced above, the lack of affordable housing, especially homeownership opportunities, is a statewide issue. Additionally, the report documented over 1,000 new asylum seekers who have been housed by the city of Portland this year. Portland regularly houses General Assistance cases in Auburn, as a lack of available units in Portland. The City of Auburn General Assistance program saw a 330% increase in local need for housing assistance for those earning less than $746 per month. Of the 426 applications received in the last 12 months, 112 were asylum-related cases, demonstrating a 509% increase in asylum seekers moving to the city.

Therefore, it is essential to consider the catch-basin effect of new housing creation. Any new housing may indeed attract residents from outside of Auburn who are seeking greater accessibility to the resources of Auburn's economic centers or employment opportunities. These new residents represent not only the wider geographic scope of this project but also a wider applicability of time. Without considering future growth capacity and the interests of the soon-to-be residents, any fixation on current or "traditional" Auburn identities, traits, or neighborhood characteristics would be a continuation of a system that historically excludes large portions of the population from the equal and equitable access to housing that the present need dictates.

iii. Key stakeholders and Engagement

In addition to the listed project partners, which already constitute a broad cross-section of government, private, and nonprofit service providers, engaging key community stakeholders is crucial for the success of your affordable housing project. Here's a list of key stakeholders and strategies for engaging them:

Local Government Officials:

Engage with city council members, mayors, and other local government officials to gain their support and keep them informed about the project's progress. Attend city council meetings and participate in public hearings on affordable housing initiatives.

Collaborate with relevant city departments, such as the planning and housing departments, to ensure alignment with city goals and regulations.

Community Residents and Neighborhood Associations:

Establish open lines of communication with residents in the project area and nearby neighborhoods.

Organize community meetings and town halls to share project updates, address concerns, and gather input from community members.

Collaborate with neighborhood associations and residents to create a sense of ownership and inclusion in the project.

DRAFT

3. Nonprofit Organizations and Advocacy Groups:

Partner with local nonprofits, housing advocacy groups, and civil rights organizations to leverage their expertise and resources.

Seek input and guidance from these organizations on equitable housing practices and fair housing policies.

Explore potential funding opportunities and support from these groups.

Education and Workforce Development Programs:

Collaborate with local educational institutions and workforce development programs to provide training and employment opportunities for residents.

Support initiatives that enhance residents' skills and employment prospects, ultimately promoting economic stability.

Community-Based Service Providers:

Connect with organizations providing social services, childcare, healthcare, and other essential services.

Explore partnerships to offer on-site or nearby services for project residents.

Enhance the overall quality of life for residents through these partnerships.

Public Engagement and Media:

Develop a comprehensive public engagement strategy that includes media outreach, press releases, and social media campaigns to raise awareness about the project.

Ensure accurate and positive coverage of the project's goals and progress.

Engaging these key stakeholders will help build a strong foundation of support, expertise, and collaboration, making it more likely for your affordable housing project to succeed in advancing racial equity and fair housing goals. Regular communication, transparency, and active involvement of stakeholders throughout the project's lifecycle are essential for its success.

iv. Affirmatively furthering fair housing

Affirmatively furthering fair housing and promoting racial equity in a mixed-use residential development with walking trails and conservation land can be achieved through a deliberate and thoughtful approach. Here's how this project can contribute to these important goals:

Diverse Housing Options: By offering a range of housing types, including single-family homes, duplexes for larger families, and apartments for smaller families and individuals, the project can attract a diverse population. This inclusivity is essential for affirmatively

DRAFT

furthering fair housing, as it ensures that people from various racial and economic backgrounds have equal access to housing options that suit their varying needs.

Accessible Amenities: The project's commitment to pedestrian infrastructure and recreational spaces, such as biking and walking trails, along with community gathering areas, creates accessible amenities for all residents. These spaces can be designed to accommodate people with different mobility needs, promoting inclusivity.

Equitable Pricing and Affordability: Implementing affordability measures, such as income-restricted units or partnerships with affordable housing organizations, can make housing within the development accessible to a broader range of income levels. This approach helps address historical disparities in housing access and affordability.

Inclusive Community Engagement: Engaging residents from diverse backgrounds in the decision-making process for the project, including design, amenities, and services, ensures that the development aligns with the needs and preferences of all community members. This participatory approach fosters a sense of ownership and equity.

Education and Awareness: Establishing an outdoor environmental learning facility within the development can serve as a platform for educational programs on environmental stewardship, sustainability, and equity. This facility can be used to raise awareness about the importance of fair housing and racial equity in the context of community development.

Anti-Discrimination Policies: Enforcing anti-discrimination policies and fair housing laws within the development, along with offering resources for reporting violations, ensures that all residents are treated equitably and without prejudice.

Cultivating a Diverse Community: By promoting diversity and inclusion in marketing and outreach efforts, the project can attract a broad spectrum of residents, contributing to a racially diverse and integrated community.

The project's commitment to providing equitable access to housing, amenities, and educational opportunities, combined with proactive measures to address historical disparities, can affirmatively further fair housing and promote racial equity within the development and the broader community. This approach sets a positive example for future developments and contributes to a more just and inclusive society.

v. Budget and Timeline

The expected budget expenses and sources are detailed within the attached HUD 424-CBW. As stated previously, the primary use of PRO Housing grant funds would be to install the essential roads and utilities for the construction of an entirely new neighborhood. These funds are critical to the timely completion of these vital housing units. Traditional city funding or Tax Increment financing models rely heavily on the ability of developers to fund these public utilities upfront. This is not only more challenging in an expensive construction market but is prohibitive to new developers, specifically women and minority-

DRAFT

owned businesses that do not possess the capital or credit required to fund the entirety of a project this size.

Financial contributions include but are not limited to the property value of the city-owned real estate, the future Tax Increment Financing project costs to cover ongoing childcare and other community services, as well as private capital contributions from the developer and Androscoggin bank for the development and the permanent financing options for the homeowners.

Detailed Description of Budget				
Analysis of Total Estimated Costs			**Estimated Cost**	**Percent of Total**
1	**Personnel (Direct Labor)**		$439,400	1.0%
2	**Fringe Benefits**		$290,004	0.6%
3	**Travel**		$0	0.0%
4	**Equipment**		$0	0.0%
5	**Supplies and Materials**		$0	0.0%
6	**Consultants**		$0	0.0%
7	**Contracts and Sub-Grantees**		$3,400,000	7.4%
8	**Construction**		$42,008,000	91.0%
9	**Other Direct Costs**		$0	0.0%
10	**Indirect Costs**		$0	0.0%

Timeline:

1. **Pre-Development Phase (6-12 months):**
    - Land surveying and due diligence
    - Architectural and engineering planning
    - Permitting and approvals
    - Securing financing
2. **Infrastructure Construction Phase (12-24 months):**
    - Site preparation and infrastructure development
    - Site clearing and layout
    - Installation of public right of ways and installation of utilities
3. **Residential Construction and Lease-Up Phase (12-36 months):**
    - Construction of phased multi-unit and residential construction
    - Marketing and advertising efforts
    - Application intake and processing
    - Lease-up and occupancy
4. **Ongoing Operations and Resident Services (36+ months):**
    - Property management and maintenance
    - Resident services and community programs
    - Regular monitoring and evaluation
5. **Compliance and Reporting (20 years):**
    - Ongoing fair housing compliance monitoring
    - Regular reporting to funders and stakeholders

DRAFT

E. CAPACITY EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit E: Capacity

i. City and Partner Capacity & Staffing Plan

City Staff:

The project will be overseen by the City of Auburn's Business & Community development Director and their designated staff. This grant will be managed directly by the Deputy Director of Business & Community Development and well as the Financial Compliance Manager, both of which have experience managing HUD entitlement funds. Additional support will be provided by the Directors of Transportation Systems, Capital Investment, Planning & Permitting as well as their required staff to complete extra technical assistance to the developer during the design, approval, and construction process. City staff capacity and a staffing plan are essential components of successfully managing and overseeing this housing project. As demonstrated within the included 424-CBW, key city staff are included in this project and will be covered by existing city and entitlement funding for the duration of the construction and monitoring period.

Homes For All, LLC:

Fatuma Hussein, an Auburn resident with a strong history in addressing housing disparities by providing translation and social services. Fatuma has played a pivotal role at the Immigrant Resource Center of Maine, offering culturally and linguistically sensitive support to refugee and immigrant communities in Maine. Fatuma founded Homes For All, LLC and employs an advisory council of experienced housing developers with backgrounds in non-profit as well as for-profit housing development.

Advisory Team:

- **Dana Totman** – Affordable Housing & non-profit leader with 40+ years' experience addressing community challenges around housing. Previous roles include:
  - President & CEO of Avesta Housing 2000-2022
  - Deputy Director of Maine State Housing Authority 1994-2000
- **Kevin Bunker** – Specialization in housing development financing, permitting & project Management. Previous roles include:
  - Principal of Developers Collaborative 2007-2023
- **Genesis Community Loan Fund -** Agency providing Technical Assistance to Maine communities including municipalities, community groups, private developers, and cultural organizations that have an interest in creating affordable housing.

YMCA of Auburn-Lewiston

The YMCA of Auburn-Lewiston will open, staff, furnish, and operate at its own cost a full-service Early Childhood Education Center at the proposed housing community center. Priority will be given to residents in the proposed Winter Oaks Housing Development. Licensing, staff training, and initial start-up costs are expected to be between $40,000 and $60,000. The YMCA of Auburn-Lewiston will provide these funds as an in-kind donation to the project.

DRAFT

Androscoggin Land Trust (ALT)

ALT will establish and maintain a stewardship endowment fund, akin to those set up for other parcels. This fund will allow them to allocate a yearly percentage towards essential stewardship costs. They will also mobilize a dedicated network of volunteers to assist with maintenance, programming, and stewardship efforts for the Winter Oaks Parcel.

Androscoggin County Emergency Management Agency (EMA)

The Androscoggin EMA staff will provide technical assistance and training relating to the establishment and operational procedures of an emergency shelter at Winter Oaks. The Androscoggin County Emergency Management Agency supports the Winter Oaks Housing Development project recognizing its inclusion of an emergency disaster shelter with backup power generation will serve the White Oaks community and benefit the vulnerable population south of the Little Androscoggin River, enhancing community resiliency and build response and recovery capabilities for the City of Auburn.

Community Concepts Inc. (CCI)

Community Concepts Inc., and their subsidiary Community Concepts Finance Corporation, provides homebuyer educational services and home loans through our dedicated homeownership center. These programs, as well as the broader social services program which CCI provides as the predominant Community Action Program within the region, are available to residents of the proposed Winter Oaks community.

DRAFT

F. LEVERAGE EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit F: Leverage

i. Leveraged funding & Non-Financial Contributions

City Funding Sources:

The City of Auburn has committed both City funded staff time as well as HUD CDBG & HOME entitlement funds as leveraged funding as evidenced within the HUD 424-CBW to advance this project. Additional city funds for the continuation of operational subsidies come in the form of Tax Increment Finance (TIF) project costs.

Developer Funding Sources:

The developer has secured private financing lines to facilitate the initial construction expenses. Developer contribution comes in the form of program income from the sale of single-family residents & duplexes to income qualifying buyers. This funding is possible due to funding pledges by Androscoggin Savings Bank to provide culturally appropriate mortgage products to qualified buyers.

Additional developer funding resources, as evidenced by the support letter from Maine State Housing Authority, include state funded Low Income Tax Credit & Affordable Homeownership Development programs.

Child-Care Funding Sources:

The YMCA of Auburn-Lewiston has pledged up to $60,000 in licensing, staff training and initial start-up costs to provide subsidized childcare on-site to income qualifying residents.

DRAFT

G. LONG-TERM EFFECT EXHIBIT

City of Auburn, Maine

DRAFT

Exhibit G: Long-Term Effect

i. Permanent, Long-Term & Outcomes

The long-term effects and outcomes of such a project are multifaceted, encompassing social, economic, environmental, and equity-related dimensions. By prioritizing diversity, inclusion, and sustainability, this development can create a thriving, equitable, and interconnected community that benefits residents and sets a positive example for future endeavors in the region. These positive impacts include, but are not limited to:

Diverse and Inclusive Community: Over time, the project can foster a diverse and inclusive community where residents from various racial, ethnic, and economic backgrounds live together harmoniously. This diversity enriches the social fabric of the community, promotes cross-cultural understanding, and reduces the risk of segregation.

Reduced Housing Disparities: The project can reduce housing disparities based on income and race by providing a range of housing options and affordability measures. Over the long term, this can help address historical inequalities in housing access and affordability.

Enhanced Quality of Life: Access to public art, walking trails, conservation land, and recreational spaces within the development can improve residents' quality of life. Over time, access to these amenities can lead to healthier, more active, and happier residents.

Education and Awareness: The outdoor environmental learning facility can serve as a hub for environmental education and equity awareness. Over time, this can lead to a more environmentally conscious and socially responsible community.

Positive Economic Impact: A thriving mixed-use development can have a positive economic impact on the surrounding area. As the development attracts residents and businesses, it can stimulate economic growth, create job opportunities, and increase property values.

Strong Community Connections: Over time, the project can facilitate strong community connections and social cohesion. Residents may become actively engaged in local initiatives, leading to a more resilient and empowered community.

Equitable Access to Opportunities: The project's commitment to fair housing and racial equity ensures that all residents have equitable access to opportunities, including education, employment, and recreation, ultimately contributing to improved social mobility and community well-being.

Model for Future Projects: The success of this project in affirmatively furthering fair housing and racial equity can serve as a model for future developments in the region. Other developers and communities may seek to replicate the project's inclusive approach.

DRAFT

ORDER 141-10232023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby directs the city manager to execute all documents necessary to apply for the Pathways to Removing Obstacles to Housing grant as released by the U.S. Department of Housing & Urban Development.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Workshop & Meeting
Agenda
November 6, 2023
Auburn Hall, Council Chambers

7:00 P.M. City Council Meeting

Moment of Silence and In Memoriam

Call to Order - Roll call votes will begin with Councilor Morin

Pledge of Allegiance

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 142-11062023
Appointing Warden's and Ward Clerks for the Nov. 7, 2023 Election.

II. Minutes
- October 16, 2023 Regular City Council Meeting
- October 23, 2023, Special City Council Meeting

III. Communications, Presentations and Recognitions
- Communication – Special Event/Mass Gathering Application for New Year's Eve Auburn Event
- Public Safety Wellness Program – Police Chief Jason Moen and FIre Chief Robert Chase
- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Ordinance 22-10162023
Amending the Auburn Zoning Ordinance – Minimum Dwelling Size. Public hearing and second reading.

2. Ordinance 23-10162023
Amending the Auburn Zoning Map, Area B change, from UR, SR, and LDCR to T4.2B. Public hearing and second reading.

3. Public hearing - Miller Street Discontinuance.

VI. New Business

1. Order 143-11062023
Approving the discontinuance of Chestnut Street.

2. Order 144-11062023
Amending the Downtown Omnibus TIF #10. Public hearing and vote.

3. Order 145-11062023
Allocating $10,000.00 from ARPA (American Rescue Plan Act) funds to Rebuilding Together Lewiston/Auburn who will make necessary repairs to homes of those financially unable to do so.

4. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

5. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

City Council Information Sheet

Council Workshop or Meeting Date: November 6, 2023 **Order:** 142-11062023

Author: Sue Clements-Dallaire, City Clerk

Subject: Appointing Wardens and Ward Clerks for the November 7, 2023 Election.

Information:

Warden and Ward Clerk Appointments are normally made every two years, however, there have been vacancies and challenges filling these positions. The City Clerk has nominated the individuals below to fill the Warden and Ward Clerk vacancies for the November 7, 2023 Election.

Audrey Murphy - Warden
Christine Sirois – Ward Clerk
Robert Hayes – Warden
Carl Young – Ward Clerk
Paul Ouellette – Warden
Doreen Jordan – Warden
Alice Dill – Ward Clerk
Miles Smith – Warden
Sue Martin – Ward Clerk

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage.

Previous Meetings and History: Appointments are made every two years or when there is a vacancy.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Order

ORDER 142-11062023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby appoints the following to serve as Wardens & Ward Clerks for the November 7, 2023 Election.

Audrey Murphy - Warden
Christine Sirois – Ward Clerk
Robert Hayes – Warden
Carl Young – Ward Clerk
Paul Ouellette – Warden
Doreen Jordan – Warden
Alice Dill – Ward Clerk
Miles Smith – Warden
Sue Martin – Ward Clerk

Richard Whiting, Ward One

Phillip L. Crowell, Jr., City Manager

IN COUNCIL REGULAR MEETING OCTOBER 16, 2023, VOL. 37 PAGE 88

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. Consent Items – None

II. Minutes - September 18, 2023, Regular City Council Meeting

Motion was made by Councilor Hawes and seconded by Councilor Staples to approve the minutes of the September 18, 2023, Regular City Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Recycling Update – Phil Crowell, City Manager
- Proclamation - Extra Mile Day – Mayor Levesque proclaimed November 1, 2023, as Extra Mile Day in Auburn and presented David Griswold with a plaque and recognized him for his volunteerism and for going the extra mile for the community.
- Council Communications (about and to the community)

Councilor Hawes announced that Saturday, October 21st the Auburn Fire Department will be holding an open house from 10:00am to 1:00pm. He encouraged the public to attend.

Councilor Walker announced that on October 29th at 1:00 pm in Anniversary Park there will be a Trick or Treat event with free candy for the kids.

Councilor Staples thanked staff for performing the recent walk audits led by Jonathan LaBonté adding that a report should be coming soon. He thanked staff for putting on the Shops at Anniversary Park, he reported that he has been working with the Sustainability Working Group and the Sustainability and Natural Resource Management Board (SNRB) to discuss recycling and he thanked the City Manager for his work on that, and last, he stated that the Androscoggin Land Trust had a clean-up event along the river which he participated in. He stated that it was a great community event.

Mayor Levesque announced that the organization Bipartisan Policy Center in Washington, DC has just recognized Auburn, Maine and did a nationwide case study called Small City Zoning Reforms in Auburn Maine adding that this is a testament of the good work of the council and staff.

City Manager Crowell announced that a Truck or Treat event is coming to the Public Works building on October 26th from 5:00 – 7:00pm, and the Pal Center will be running a haunted house on October 31st.

IV. Open Session

Elizabeth Dunn, 530 Court Street, commented on the vote taken at the last City Council meeting that exempted area A2 of New Auburn from the T-4.2B ordinance.

TJ Cassiello, 225 Vickery Road, stated that he and his wife moved here recently from Boston, stating that we are doing the same thing that was done in Boston which has become what he called an "overcrowded disaster area". He is opposed to building the proposed complex adding that they want to live in the country with land and does not want this.

V. Unfinished Business

Motion was made by Councilor Gerry and seconded by Councilor Morin to suspend the rules to move three items (Orders 133-10162023 through 135-10162023) from new business and to act on before the unfinished business.

Passage 7-0.

Order 133-10162023
Allocating $10,317.00 from the American Rescue Plan Act (ARPA) funds to the Auburn Ski Association to purchase an alpine ski timing system.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0.

Order 134-101620023
Allocating $10,000 of American Rescue Plan Act (ARPA) funds to the Edward Little High School Outdoor Club.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment - Joe Mailey, 82 Webster Street, asked why isn't this part of the school budget, and is this a one-time deal, and what happens when the ARPA funds are no longer available?

Passage 7-0.

Order 135-10162023
Allocating $10,000.00 from the American Rescue Plan Act (ARPA) funds to Special Olympics Maine to be the "Presenting Sponsor" for the "Special Olympics Maine Winter Games 2024" to be held at Lost Valley in February 2024.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0.

1. **Order 115-09052023**
Approving the renewal of an Auto Graveyard/Junkyard permit for Don's No Preference Towing, dba Morris Auto Parts, 940 Washington St. North.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Staples, seconded by Councilor Gerry to amend to include the conditions recommended by staff.

1. Any vehicle containing fluids or batteries shall only be stored or dismantled within the area shown as "Storage of vehicles w/fluids + batteries limited to this area" on an aerial map entitled "940 Washington Street – 2012 Flood Plain Zones – 2013 Aerial" (the "Compliance Plan"), on file in the City's Planning and Permitting Office, and in no event shall any vehicle containing fluids or batteries be stored or dismantled within 100 feet of the normal high water line of the Little Androscoggin River.
2. No vehicles or junk shall be stored or dismantled within 50 feet of the normal high water line of the Little Androscoggin River.
3. Tires shall be stored at least 100 feet from the normal high water line of the Little Androscoggin River, except that if tires are maintained within a fenced enclosure of sufficient height and durability to contain the tires within the enclosure, they may be stored more than 50 feet but less than 100 feet from the normal high water line of the Little Androscoggin River.
4. The used car display area shall be limited to the area of the premises that is located north of the rectangular building shown on the Compliance Plan.
5. The driveway entrance to the premises and exit onto Washington Street North shall at all times be kept free and clear of dust and debris so that dust and debris is not tracked onto Washington Street North or any other public street.
6. Licensee shall cooperate with the City's Director of Planning and Permitting or their designee, who is to conduct inspections of the premises for compliance with (a) these conditions, (b) Sec. 14-74(c) of the Code of Ordinances, and (c) 30-A M.R.S. § 3751 *et seq*. no less frequently than quarterly. If any violations are observed as a result of such an inspection, they shall be communicated to the licensee for immediate remediation and, if not immediately remediated, to the City Council for potential suspension or revocation proceedings.

Passage 7-0.

Passage of Order 115-10162023 as amended, 7-0.

2. **Ordinance 20-09182023**
Amending Chapter 24, Article II, Division 1, Sec. 24-33 of the General Assistance Ordinance Annual Adjustment of Maximum Benefits. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public hearing – No one from the public spoke

Passage 7-0. A roll call vote was taken.

3. **Ordinance 21-09182023**
Amending the Code of Ordinances, Chapter 14, Article XVIII Adult Use and Medical Marijuana Business licensing. Public hearing and first reading.

Motion was made by Councilor Hawes and seconded by Councilor Staples for passage.

Public hearing – Hanna King represents Alzie and Mr. fishman, spoke at the last meeting objecting to the retroactive criteria provision of this proposed ordinance.

Passage 4-3 (Councilors Milks, Morin, and Walker opposed). A roll call vote was taken.

4. **Public hearing** - Partial discontinuance of Chestnut Street

Mayor Levesque opened the public hearing at 7:52 pm.

Joe Mailey, 82 Webster Street spoke in opposition of the discontinuance and stated that he doesn't think there has been enough input from the general public.

Stephen Beal, 575 Johnson Road, spoke neither for nor against but stated that he feels it is a public safety concern if they do close the street and he feels that a traffic or safety study should be done.

Mayor Levesque closed the public hearing at 7:57 pm.

5. **Public hearing** - Discontinuance and re-alignment of Miller Street

Mayor Levesque opened the public hearing at 7:57 pm.

Wiliam Turner, Chicoine Ave, also owns a building on Miller Street, stated he had no issue with realignment, however he had concerns regarding parking.

Mayor Levesque closed the public hearing at 7:59 pm.

VI. New Business

1. **Public hearing** - CDBG/HOME Consolidated Annual Performance Evaluation Report (CAPER) Program Year 2022.

   Mayor Levesque opened the public hearing at 7:59 pm.

   No one from the public spoke.

   Mayor Levesque closed the public hearing at 7:59 pm.

2. **Ordinance 22-10162023**
   Amending the Auburn Zoning Ordinance – Minimum Dwelling Size. First reading.

   Motion was made by Councilor Staples and seconded by Councilor Whiting for passage.

   Public comment – Joe Mailey, 82 Webster Street asked why the size of a dwelling is an issue.

   Passage 7-0. A roll call vote was taken.

3. **Ordinance 23-10162023**
   Amending the Auburn Zoning Map, Area B change, from UR, SR, and LDCR to T4.2B. First reading.

   Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

   Public comment – Kate, 225 Vickery Road, spoke in opposition of the change.

   Pam Rousseau, 745 West Auburn Road, spoke in opposition of this amendment.

   Failed 1-5-1 (Councilors Gerry, Whiting, Milks, Morin, and Staples opposed, Councilor Walker abstained). A roll call vote was taken.

4. **Order 131-10162023**
   Authorizing the issuance of General Obligation Bonds and Tax Levy Therefor, for the proposed Public Safety Building. Public hearing and first reading. **Requires an affirmative vote of five.**

   Motion was made by Councilor Hawes and seconded by Councilor staples for passage.

   The Mayor opened the public hearing at 8:19 pm.

Joe Mailey, 82 Webster Street stated that issues like this should have been addressed publicly long before absentee voting began.

The Mayor closed the public hearing at 8:21 pm.

Passage 6-1 (Councilor Gerry opposed). A roll call vote was taken.

5. **Order 132-10162023**
Authorizing the City Manager to execute a modified contract with Casella to reinstate curbside recycling.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 7-0.

6. **Order 136-10162023**
Allocating up to $5,000.00 from the American Rescue Plan Act (ARPA) funds to provide public safety costs (Police and EMS services) associated with Special Olympics Maine Winter Games 2024" to be held at Lost Valley in February 2024.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Passage 7-0.

VII. Open Session – Joe Mailey, 82 Webster Street, commented on property in his neighborhood that is storing unregistered cars in his yard and looks like a scrapyard. He said he would like the city to do something.

Ryan smith, 14 weaver street, commented on the recycling program.

VIII. Reports – There were no reports.

IX. Executive Sessions

- **Economic development, pursuant to 1 M.R.S.A. §405(6)(C)** which premature disclosure would prejudice the competitive or bargaining position of the City.

Motion was made by Councilor Walker and seconded by Councilor Hawes to enter into executive session regarding an Economic development matter, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Passage 7-0. Time in 8:33 pm.

Council was declared out at 8:42 pm.

- **Economic development, pursuant to 1 M.R.S.A. §405(6)(C)** which premature disclosure would prejudice the competitive or bargaining position of the City.

  Motion was made by Councilor Walker and seconded by Councilor Gerry to enter into executive session regarding an Economic development matter, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

  Passage 7-0. Time in 8:43 pm.

  Council was declared out at 8:55 pm.

- **Personnel matter, pursuant to 1 M.R.S.A. §405(6)(A)**

  Motion was made by Councilor Morin and seconded by Councilor Walker to enter into executive session regarding a personnel matter, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

  Passage 7-0. Time in 8:55 pm.

  Council was declared out at 9:20 pm.

X. Adjournment

Motion was made by Councilor Hawes seconded by Councilor Staples to adjourn.

Unanimously approved and the meeting adjourned at 9:20 pm.

IN COUNCIL SPECIAL MEETING OCTOBER 23, 2023, VOL. 37 PAGE 95

Mayor Levesque called the meeting to order at 5:30 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilor Hawes had an excused absence. All other Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. **Consent Items** – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 137-10232023***
   Re-appointing Timothy Cougle to the Parks & Recreation Advisory Board with a term expiration of 10-01-2025.

2. **Order 138-10232023***
   Appointing Julia Bergeron-Smith to the Parks & Recreation Advisory Board with a term expiration of 10-01-2025.

3. **Order 139-10232023***
   Re-appointing Celia McGuckian to the Auburn Housing Authority Board of Trustees with a term expiration of 10-01-2028.

4. **Order 140-10232023***
   Appointing Jonathan LaBonté to the Airport Board with a term expiration of 01-01-2026.

   Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

   Passage 6-0.

II. **Communications, Presentations and Recognitions**
- Recognition of Dan Campbell, the 2023 recipient of The John Jenkins Hands & Hearts Leadership & Service Award-3rd Annual Award.
- September Finance Report – Jill Eastman, Finance Director

Motion was made by Councilor Walker and seconded by Councilor Milks to accept and place on file the September Finance Report.

Passage 6-0.

Councilor Whiting commented on role models such as John Jenkins and Dan Campbell. He then apologized for his behavior at the last meeting.

Councilor Milks read a letter that he would like to be included in the minutes.

To the People of Auburn,

Over the past four years, I served as the Mayor's appointee to the Board of Trustees for the Auburn Water and Sewer District. I was elected President of the Board in 2021 and serve as President today. I've been immersed in the issues of the Lake for 4 years, seen countless briefings from many experts and read the studies. This report is not a legal opinion, nor does it address any legal proceedings. My goal is to state facts and give my assessment to Council.

FACTS:

- *Auburn Water District received great evaluations recently from the Drinking Water Program. Operationally, AWD is functioning very well and in total compliance with all Federal and State rules and regulations. We have an extensive testing and monitoring system that monitors the lake daily, weekly, monthly and yearly.*
- *The water quality problems have nothing to do with current zoning or ordinance revision ideas.*
- *Lake Auburn is a small, shallow lake. The water quality fluctuates due to the weather much more than Sebago Lake for example.*
- *The majority of things causing water quality issues in the lake are already there. Much of it is from storm runoff due to improper logging, unusually heavy rains, phosphorus loading from upper water shed towns like Turner and shorter iced over periods in recent years. The bottom of Lake Auburn is full of the mineral Apatite which naturally releases phosphorus which causes quality problems.*
- *Water quality issues in the lake have persisted for two decades and it was recommended to put in a filtration plant years ago.*
- *In 2012 a UV treatment plant was built to adhere to Tier 1 and Tier 2 requirements for the removal of Giardia and cryptosporidium. This was a cheaper solution than a filtration plant and requires UV and chemical treatment of the water.*
- *In 2018 the Lake experienced an algae bloom that resulted in taste and odor complaints with the water. An algaecide was applied to remove the algae and to improve the esthetics of the water. In 2019 an alum treatment was applied to the lake to strip the water column of phosphorus and reduce the potential of another algae bloom.*

The Gravel Pit

- *According to experts, the most dangerous thing for the lake is to leave the gravel pit a gravel pit and continue digging and blasting the bedrock.*
- *Hundreds of thousands of dollars have been spent on studies over the years. No study has shown the storm runoff water from the gravel pit flowing into the lake.*

- *The Gravel Pit has been there for over 50 years and is legal and in compliance with all regulations and zoning. AGRP, the Ag zone, allows for a gravel pit next to the lake.*
- *The sanitary sewer is at the street and available for any development.*
- *Any housing redevelopment of the gravel pit would require extensive civil and environmental engineering to address storm runoff containment systems and connection to the Sanitary Sewer System. There would be public hearings, planning board reviews and permitting requirements. The city could require greenspace, walking trails and other recreational opportunities accessible to the People of Auburn*
- *The recent AD Hoc Committee which included the City of Lewiston Water Director, Lewiston LAWPC Representative, AWD Superintendent, AWD Trustee President, and Turner LAWPC representative agreed with the things the City of Auburn has proposed to Protect the lake like the proposed septic ordinance and the passed LID standards to protect Lake Auburn.*

Councilor Milks Assessment:

AWD Superintendent Broadbent is doing a phenomenal job maximizing AWD and LAWPC resources, coordinating with Lewiston officials and constantly looking to improve how AWD delivers water to the rate payers. The AD Hoc committee is a perfect example of his initiative.

The owner of the gravel pit would like to build a housing development on the site of the gravel pit. Based on all the factors, that is our best-case solution for the gravel pit. The development would be on the sanitary sewer and would have extensive engineering to secure the site and prevent any future storm runoff into the lake. It would most likely be a TIF district which would allow us to capture revenue for the Public Safety building and would have other amenities available to the people of Auburn like green space and walking trails. A development would allow us to secure the gravel pit, like we have the two dumps next to the gravel pit.

Additionally, AWD is exploring other options for water, like putting the intake into deeper water where the quality tends to be more consistent, and exploring alternative water sources should we be forced to put in a filter plant or if a disaster strikes the lake.

There are several interlocal agreements between Auburn and Lewiston that should have been renegotiated years ago.

In summary, the proposed ordinance revisions and watershed boundary changes will make a positive impact on the Lake. These changes will allow for responsible development that could reduce Auburn's impact to Lake Auburn. These improvements will then be needed in the upper watershed towns to continue to reduce the phosphorus loading on the lake. Despite all of these positive initiatives, we need to start planning for filtration. Given the vulnerability of the Lake and the environmental factors that are out of our control we need to start planning.

III. Unfinished Business

1. **Order 131-10162023**
   Authorizing bonds for the Public Safety Building. Second reading.
   Requires an affirmative vote of five.

   Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

   Public comment – No one from the public spoke.
   Passage 5-1 (Councilor Gery opposed).

IV. New Business

1. **Order 141-10232023**
   Directing the City Manager to execute all documents necessary to apply for the PRO Housing Grant.

   Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

   Public hearing - No one from the public spoke.

   Passage 6-0.

V. Adjournment

Motion was made by Councilor Staples and seconded by Councilor Walker to adjourn.

Unanimously approved and the meeting adjourned at 6:08 pm.

N/A	**POTABLE WATER** – Please list amount at event and location: bottled water in pump house	☐	☑	☐
N/A	**FIRST AID FACILITIES** – Please list location at event: Auburn Fire on-site	☑	☐	☐
$	**TOTAL FEE INCLUDED** – Checks payable to "City of Auburn"			

EVENT LIABILITY INSURANCE COVERAGE FOR EVENT

For an event such as a walk-a-thon, race, festival, concert, etc., the city requires general liability insurance coverage. The **City of Auburn** is to be named as "additionally insured" for the event activities on that date. Once the event is approved, the Certificate of Insurance will need to be received at least 30 days before the event and before permits can be issued. Please have the City of Auburn listed on the Certificate of Insurance (minimum coverage $1,000,000 Bodily Injury or Death, per occurrence, and $300,000 Property Damage, per occurrence). It should contain a clause providing that the policy may not be cancelled by either party except upon not less than 30 days written notice to the city. Please have your insurance company fax a copy to: City Clerk 207-333-6623.

DESCRIPTION OF EVENT – Please describe what will occur during your event

New Year's Auburn is a free community event, celebrating the new year with live music, local craft brews, food trucks, fireworks and fun in the heart of downtown Auburn.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 6, 2023 **Ordinance:** 22-10162023

Author: John Blais, Deputy Director of Planning and Permitting

Subject: Second reading on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions

---

Information: This text amendment proposes to close the gap between 401 square feet and 699 square feet in size which are not permitted in the City of Auburn and differentiates minimum sizes between detached dwelling units and accessory dwelling units. The minimum dwelling size in Auburn is currently 700 square feet. However, tiny houses are also allowed and defined as being 400 square feet or less. This means that there is currently no allowance for homes between 400 and 700 square feet. At the 10/10/2023 planning board public hearing the board forwarded a positive recommendation to the Council supporting the proposed changes to amend the 700 square feet requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade and an accessory dwelling unit must be at least 190 square feet in area above grade as specified in state law. The proposed change differentiates between a one family detached dwelling and an accessory building. The planning board requested that section 60-2 Definitions- number two read that each one-family detached dwelling unit must be at least 400 square feet above grade in size. Staff made that change in the draft ordinance to reflect this request in the ordinance language provided for your review in this first and now second reading. The planning board also recommended allowing for the minimum size of dwelling units and accessory dwelling units in Auburn to change if the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard. The text change itself is attached to the ordinance accompanying these materials.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council adopt the Second reading of this ordinance text change.

Previous Meetings and History: August 8, 2023- planning board workshop; September 12, 2023- planning board workshop; October 10, 2023- planning board public hearing (in-favor 7-0), council meeting, October 16 (in-favor 7-0).

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Ordinance, recommendation to city council, planning board staff report, zoning text amendment sec. 60-2, state rules for LD 2003 and 1706 redlined version, research for planning board questions.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

To: Auburn City Council
From: Auburn Planning Board
Subject: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions
Date: 10/16/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on October 10, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ZONING TEXT AMENDMENT: Amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet. This item was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances.

MOTION: David Trask makes a motion; **SECOND:** Darren Finnegan seconds.

"I make a motion to recommend sending forward a positive recommendation to council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. For an **accessory dwelling unit**, an accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling. I would also request that section 60-2 Definitions-number two read 'each one family detached dwelling unit must be at least 400 square feet above grade in size and an accessory detached dwelling unit must be 190 square feet above grade in size, unless the technical building code and standards board pursuant to 10 M.R.S. §9722, adopts a different minimum standard if so, that standard applies.'" **VOTE:** 7-0-0 motion passes.

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

I. *Dwelling, one-family attached,* means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. ~~Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~ Each one-family attached accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

II. *Dwelling, one-family detached,* means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. ~~Each one-family detached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~ Each one family detached dwelling unit must be at least 400 square feet above grade in size, and~~,~~ an accessory detached dwelling unit must be 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width and are 400 or more square feet and~~and are 700 or more square feet, and~~ which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

Is To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions

Date: October 10, 2023

I. **PROPOSAL**: Currently, the existing ordinance definition requires a minimum of 700 SF of net floor space for single-family attached and detached dwelling. State Law (Chapter 219, Sec 1. 30-A MRSA §4363), provides provisions for tiny homes with no minimum size of up to 400 square feet. However, this leaves a gap in the allowable size of new dwelling units, where units ranging from 401 to 699 SF are in what is considered a "void in allowance" and is currently not allowed. Planning Board at the August 10, 2023, meeting requested additional clarifying information to include the following:

A. Tiny Home Statute and Guidance from the State Fire Marshall
B. Density; Remains the same, but could see increase as LD 2003/1706/Chapter 5
C. Lending Specialist (Value vs. Square Footage)
D. Adopted Language by Department of Economic and Community Development LD 2003/1706/Chapter 5

On the September 12, 2023, workshop, planning board asked to identify both accessory dwelling size and dwelling size to provide guidance for revised minimum standards that meet requirements under the tiny home provision and banking standards.

A. A tiny house has two potential types of tiny homes; constructed on a trailer that may be mobile and potentially moved from where it was constructed to a site for use as a "dwelling unit for human occupancy" or constructed on a site in a more traditional stick-built manner but meeting certain size standards established in the laws and codes adopted. Maximum size is 400 SF. Construction is regulated under two standards; If the tiny home is constructed on a frame or chassis, it is considered within the motor vehicle regulations and will require a title similar to an RV intended for use in public ways. This unit construction type is regulated by ANSI A119.5 or NFPA 1192.
The second type of tiny home would be a structure constructed under the same codes standards as a larger, more traditional dwelling on a foundation, but still meeting size requirements of less than 400 SF This unit construction is identified in the Maine Uniform Building and Energy Code (MUBEC) rules under the International Residential Code (IRC), Chapter 5.

B. Density is dependent upon the underlying zone, but LD 2003 and 1706 suggest the following language under the Department of Economic and Community Development guidelines under chapter 5. Dwelling Unit Allowance

If a lot does not contain an existing dwelling unit, municipalities must allow up to four (4) dwelling units per lot if the lot is located in an area in which housing is allowed, meets the requirements in 12 M.R.S. Ch. 423-A, and is:

i. Located within a designated growth area consistent with 30-A M.R.S. §4349 A(1)(A)-(B); or

ii. Served by both a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

C. Lending Rules and Value per Assessing/Appraiser: As a rule, lenders **will not mortgage** the typical dwelling that has a foundation and is stick built between 190 livable square feet (SF) and 500 SF as per the general lending rules followed by the banks underwriting team. They currently are not financing any home smaller than 500 SF. For lower income home buyers who utilize Maine State Housing Agency, (MSHA) won't finance smaller than 500 sq ft and most banks follow their policy since they do quite a few MSHA loans. In addition, for any purchase where the buyer can't put 20% down the loan will need Private Mortgage Insurance (PMI) and the insurers have a minimum home size of 500 sq ft.
The typical RV intended tiny home that can be towed over the road will never be considered as separate mortgage, some tiny homes are being financed through home equity lending practices.

The appraisal does consider value in the finished basement but does not consider it actual SF therefore the value is diminished some. The lending institutions, as a rule would write a mortgage for a 500 SF home regardless of if part of the finished space is below grade if the home meets all the ordinance, building code and utility requirements.

D. D. REF: Chapter 5, An accessory dwelling unit must be at least 190 square feet in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. To note: LD 2003/1706/Chapter 5 is silent on where the 190 SF is derived from the basement or above grade. The municipality has discretion to determine whether to consider finished basements as part of that 190 SF.

As this smaller home movement gets momentum and policies at state and insurer level are updated, staff is guessing banks will make changes too, therefore is suggesting 190 SF above grade for minimum Square Feet.

II. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggest a planning board discuss the proposals and hold a public hearing. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an **accessory dwelling unit** of 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling.

Tiny House – Code and Land Use Standards
February 8, 2022

Tiny Houses have been included in several recent Maine laws that impact the construction and placement of such homes in the State. This memo is to provide clarification to Code Officials on code and land use standards associated.

WHAT IS A TINY HOUSE - There are two potential types of tiny home:

- constructed on a trailer that may be mobile and potentially moved from where it was constructed to a site for use as a "dwelling unit for human occupancy".
- constructed on a site in a more traditional stick-built manner, but meeting certain size standards established in the laws and codes adopted.

Tiny Homes is defined in Statute as:

80-C. Tiny home. "Tiny home" means a living space permanently constructed on a frame or chassis and designed for use as permanent living quarters that:
A. Complies with American National Standards Institute standard A 119.5 on plumbing, propane, fire and life safety and construction or National Fire Protection Association standard 1192 on plumbing, propane and fire and life safety for recreational vehicles; [PL 2019, c. 650, §1 (NEW).]
B. Does not exceed 400 square feet in size; [PL 2019, c. 650, §1 (NEW).]
C. Does not exceed any dimension allowed for operation on a public way under this Title; and [PL 2019, c. 650, §1 (NEW).]
D. Is a vehicle without motive power. [PL 2019, c. 650, §1 (NEW).]
"Tiny home" does not include a trailer, semitrailer, camp trailer, recreational vehicle or manufactured housing.
[PL 2019, c. 650, §1 (NEW).]

As defined, this applies to those constructed on a frame or chassis and considered within the Motor Vehicle regulations and will require a TITLE similar to an RV or other motor vehicle intended for use on public ways. This would assume that the unit would be constructed to and inspected to standards in ANSI A119.5 or NFPA 1192. These standards contain many regulations that address all components of the unit associated with a mobile unit served by

interior plumbing, heating, cooking, and living to be used as living quarters. This type of construction's interior layout, structural or rough in are not the responsibility of the LPI/Code Officer. These items will be covered under the titling requirements as identified above. The only task of an LPI/CEO is to assess the placement relative to local zoning and connection to on-site systems and utilities.

The second type of tiny home would be a structure constructed under the same codes and standards as a larger, more traditional dwelling and on a foundation, but still meeting the size limitation of less than 400 SF. This is identified in the MUBEC rules under the IRC (Chapter 5) which would be allowed the use of Appendix V (attached.) Appendix V provides some code exceptions that have been approved to accommodate the limited size and deemed to provide an acceptable level of safety for the occupants. This type of construction would be subject to all other utility codes adopted by the State of Maine, to include but not limited to, the Maine Internal Plumbing code, State Electrical codes and Fuel Gas codes.

The result of both types provides a completed unit intended for permanent occupancy and would be considered as a Single-Family Dwelling. In both cases, the units would be subject to all normally required on-site facilities and associated utilities to provide for permanent occupancy. This would include the provisions for connection to a potable water supply, sanitary facilities and any required utilities to provide for the safety of the occupants of the unit or structure. This would include compliance with appropriate municipal connections or on-site sanitation and drinking water.

As a result of confusion on placement of tiny homes relative to local zoning, the most recent legislation (below) addresses the issue. Tiny homes are now to be considered as permanent dwelling units subject to the same local zoning regulations as other single-family dwellings. The intent was to provide definition of the use of tiny homes. As stated in statute, all other aspects of local zoning would apply equally to tiny homes.

Please note that other questions about the new law relative to the condition of a home or its placement, may arise in the future, but the only significant change is to the recognition that either type should be considered the same as any other primary single family dwelling. The features of the structure regarding size and construction would be subject to the codes and standards above, but placement on site is based on your local zoning ordinance relative to setbacks and lot size. Before a community is asked to grant a permit for a tiny home you should consult with your local attorney relative to your specific ordinances and any further limitations they may contain.

This memo is intended for informational purposes only and should not be considered a legal opinion.

H.P. 1134 - L.D. 1530

An Act To Allow People To Live in Tiny Homes as a Primary or Accessory Dwelling

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 30-A MRSA §4363 is enacted to read:

§4363. Regulation of tiny homes

1. Definition. For the purposes of this section, "tiny home" has the same meaning as in Title 29-A, section 101, subsection 80-C.

2. Location of tiny homes. A municipality shall permit a tiny home to be placed or erected on an individual house lot where single-family dwellings are allowed or as an accessory structure, subject to all applicable land use requirements as single-family dwellings or as an accessory structure.

Below is the ADOPTED language from Chapter 5 of the Maine Uniform Building and Energy Codes to address specific exceptions related to the construction of Tiny Homes meeting the statute noted above:

2015 International Residential Code
APPENDIX V TINY HOUSES
CHAPTER PART AV101— GENERAL
AV101.1 Scope. This appendix shall be applicable to tiny houses used as single dwelling units. Tiny houses shall comply with this code except as otherwise stated in this appendix.
CHAPTER PART AV102— DEFINITIONS
AV102.1 General. The following words and terms shall, for the purposes of this appendix, have the meanings shown herein. Refer to Chapter 2 of this code for general definitions.
EGRESS ROOF ACCESS WINDOW. A skylight or roof window designed and installed to satisfy the emergency escape and rescue opening requirements in Section R310.2.
LANDING PLATFORM. A landing provided as the top step of a stairway accessing a loft.
LOFT. A floor level located more than 30 inches (762 mm) above the main floor and open to it on at least one side with a ceiling height of less than 6 feet 8 inches (2032 mm), used as a living or sleeping space.
TINY HOUSE. A dwelling that is 400 square feet (37 m) or less in floor area excluding lofts.
CHAPTER PART AV103— CEILING HEIGHT
AV103.1 Minimum ceiling height. Habitable space and hallways in tiny houses shall have a ceiling height of not less than 6 feet 8 inches (2032 mm). Bathrooms, toilet rooms, and kitchens shall have a ceiling height of not less than 6 feet 4 inches (1930 mm). Obstructions shall not extend below these minimum ceiling heights including beams, girders, ducts, lighting and other obstructions.
Exception: Ceiling heights in lofts are permitted to be less than 6 feet 8 inches (2032 mm).
CHAPTER PART AV104— LOFTS
AV104.1 Minimum loft area and dimensions. Lofts used as a sleeping or living space shall meet the minimum area and dimension requirements of Sections AV104.1.1 through AV104.1.3.
AV104.1.1 Minimum area. Lofts shall have a floor area of not less than 35 square feet (3.25 m).
AV104.1.2 Minimum dimensions. Lofts shall be not less than 5 feet (1524 mm) in any horizontal dimension.
AV104.1.3 Height effect on loft area. Portions of a loft with a sloping ceiling measuring less than 3 feet (914 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.
2
2
Exception: Under gable roofs with a minimum slope of 6:12, portions of a loft with a sloping ceiling measuring less than 16 inches (406 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.
AV104.2 Loft access. The access to and primary egress from lofts shall be any type described in Sections AV104.2.1 through AV104.2.4.
AV104.2.1 Stairways. Stairways accessing lofts shall comply with this code or with Sections AV104.2.1.1 through AV104.2.1.5.
AV104.2.1.1 Width. Stairways accessing a loft shall not be less than 17 inches (432 mm) in clear width at or above the handrail. The minimum width below the handrail shall be not less than 20 inches (508 mm).
AV104.2.1.2 Headroom. The headroom in stairways accessing a loft shall be not less than 6 feet 2 inches (1880 mm), as measured vertically, from a sloped line connecting the tread or landing platform nosings in the middle of their width.
AV104.2.1.3 Treads and risers. Risers for stairs accessing a loft shall be not less than 7 inches (178 mm) and not more than 12 inches (305 mm) in height. Tread depth and riser height shall be calculated in accordance with one of the following formulas:
1. The tread depth shall be 20 inches (508 mm) minus 4/3 of the riser height, or
2. The riser height shall be 15 inches (381 mm) minus 3/4 of the tread depth.
AV104.2.1.4 Landing platforms. The top tread and riser of stairways accessing lofts shall be constructed as a landing platform where the loft ceiling height is less than 6 feet 2 inches (1880 mm) where the stairway meets the loft. The landing platform shall be 18 inches to 22 inches (457 to 559 mm) in depth measured from the nosing of the landing platform to the edge of the loft, and 16 to 18 inches (406 to 457 mm) in height measured from the landing platform to the loft floor.
AV104.2.1.5 Handrails. Handrails shall comply with Section R311.7.8.
AV104.2.1.6 Stairway guards. Guards at open sides of stairways shall comply with Section R312.1.

IBC 2015

1208.2 Minimum ceiling heights. Occupiable spaces, *habitable spaces* and *corridors* shall have a ceiling height of not less than 7 feet 6 inches (2286 mm). Bathrooms, toilet rooms, kitchens, storage rooms and laundry rooms shall have a ceiling height of not less than 7 feet (2134 mm).

Exceptions:

1. In one- and two-family *dwellings*, beams or girders spaced not less than 4 feet (1219 mm) on center shall be permitted to project not more than 6 inches (152 mm) below the required ceiling height.
2. If any room in a building has a sloped ceiling, the prescribed ceiling height for the room is required in one-half the area thereof. Any portion of the room measuring less than 5 feet (1524 mm) from the finished floor to the ceiling shall not be included in any computation of the minimum area thereof.
3. The height of *mezzanines* and spaces below *mezzanines* shall be in accordance with Section 505.1.
4. Corridors contained within a *dwelling unit* or *sleeping unit* in a Group R occupancy shall have a ceiling height of not less than 7 feet (2134 mm).

1208.2.1 Furred ceiling. Any room with a furred ceiling shall be required to have the minimum ceiling height in two-thirds of the area thereof, but in no case shall the height of the furred ceiling be less than 7 feet (2134 mm).

ADU- Single & DUPLEX

1208.3 Room area. Every *dwelling unit* shall have no fewer than one room that shall have not less than 120 square feet (11.2 m^2) of *net floor area*. Other habitable rooms shall have a *net floor area* of not less than 70 square feet (6.5 m^2). = 190SF

Exception: Kitchens are not required to be of a minimum floor area.

1208.4 Efficiency dwelling units. An efficiency living unit shall conform to the requirements of the code except as modified herein:

1. The unit shall have a living room of not less than 220 square feet (20.4 m^2) of floor area. An additional 100 square feet (9.3 m^2) of floor area shall be provided for each occupant of such unit in excess of two.

Min 220SF for up to 2 people

2. The unit shall be provided with a separate closet.
3. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a clear working space of not less than 30 inches (762 mm) in front. Light and *ventilation* conforming to this code shall be provided.
4. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.

SECTION 1209
ACCESS TO UNOCCUPIED SPACES

1209.1 Crawl spaces. Crawl spaces shall be provided with not fewer than one access opening that shall be not less than 18 inches by 24 inches (457 mm by 610 mm).

1209.2 Attic spaces. An opening not less than 20 inches by 30 inches (559 mm by 762 mm) shall be provided to any *attic* area having a clear height of over 30 inches (762 mm). Clear headroom of not less than 30 inches (762 mm) shall be provided in the *attic* space at or above the access opening.

1209.3 Mechanical appliances. Access to mechanical appliances installed in under-floor areas, in *attic* spaces and on roofs or elevated structures shall be in accordance with the *International Mechanical Code*.

SECTION 1210
TOILET AND BATHROOM REQUIREMENTS

[P] 1210.1 Required fixtures. The number and type of plumbing fixtures provided in any occupancy shall comply with Chapter 29.

1210.2 Finish materials. Walls, floors and partitions in toilet and bathrooms shall comply with Sections 1210.2.1 through 1210.2.4.

1210.2.1 Floors and wall bases. In other than *dwelling units*, toilet, bathing and shower room floor finish materials shall have a smooth, hard, nonabsorbent surface. The intersections of such floors with walls shall have a smooth, hard, nonabsorbent vertical base that extends upward onto the walls not less than 4 inches (102 mm).

1210.2.2 Walls and partitions. Walls and partitions within 2 feet (610 mm) of service sinks, urinals and water closets shall have a smooth, hard, nonabsorbent surface, to a height of not less than 4 feet (1219 mm) above the floor, and except for structural elements, the materials used in such walls shall be of a type that is not adversely affected by moisture.

Exception: This section does not apply to the following buildings and spaces:

1. Dwelling units and sleeping units.
2. Toilet rooms that are not accessible to the public and that have not more than one water closet.

Accessories such as grab bars, towel bars, paper dispensers and soap dishes, provided on or within walls, shall be installed and sealed to protect structural elements from moisture.

1210.2.3 Showers. Shower compartments and walls above bathtubs with installed shower heads shall be finished with a smooth, nonabsorbent surface to a height not less than 72 inches (1829 mm) above the drain inlet.

1210.2.4 Waterproof joints. Built-in tubs with showers shall have waterproof joints between the tub and adjacent wall.

[P] 1210.3 Privacy. Privacy at water closets and urinals shall be provided in accordance with Sections 1210.3.1 and 1210.3.2.

[P] 1210.3.1 Water closet compartment. Each water closet utilized by the public or employees shall occupy a

80-C. Tiny home. "Tiny home" means a living space permanently constructed on a frame or chassis and designed for use as permanent living quarters that:

A. Complies with American National Standards Institute standard A 119.5 on plumbing, propane, fire and life safety and construction or National Fire Protection Association standard 1192 on plumbing, propane and fire and life safety for recreational vehicles; [PL 2019, c. 650, §1 (NEW).]

B. Does not exceed 400 square feet in size; [PL 2019, c. 650, §1 (NEW).]

C. Does not exceed any dimension allowed for operation on a public way under this Title; and [PL 2019, c. 650, §1 (NEW).]

D. Is a vehicle without motive power. [PL 2019, c. 650, §1 (NEW).]

"Tiny home" does not include a trailer, semitrailer, camp trailer, recreational vehicle or manufactured housing

CHAPTER
192
PUBLIC LAW

STATE OF MAINE

IN THE YEAR OF OUR LORD

TWO THOUSAND TWENTY-THREE

H.P. 1095 - L.D. 1706

An Act to Clarify Statewide Laws Regarding Affordable Housing and Accessory Dwelling Units

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current law requires, beginning July 1, 2023, all municipalities to allow a certain number of dwelling units under certain circumstances and the construction of accessory dwelling units on the same lot as a single-family dwelling unit and to comply with certain other zoning requirements; and

Whereas, it is the intent of this legislation to extend the implementation date for certain municipalities; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 30-A MRSA §4364, first ¶, as enacted by PL 2021, c. 672, §4, is amended to read:

For an affordable housing development approved on or after ~~July 1, 2023~~ the implementation date, a municipality with density requirements shall apply density requirements in accordance with this section.

Sec. 2. 30-A MRSA §4364, sub-§1, as enacted by PL 2021, c. 672, §4, is amended to read:

1. Definition. For the purposes of this section, "affordable housing development" means:

A. For rental housing, a development in which a household whose income does not exceed 80% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~

51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs; and

B. For owned housing, a development in which a household whose income does not exceed 120% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~ 51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs.

Sec. 3. 30-A MRSA §4364, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" means:

A. January 1, 2024 for municipalities for which ordinances may be enacted by the municipal officers without further action or approval by the voters of the municipality; and

B. July 1, 2024 for all other municipalities.

Sec. 4. 30-A MRSA §4364, sub-§3, as enacted by PL 2021, c. 672, §4, is amended to read:

3. Long-term affordability. Before ~~approving~~ granting final approval of an affordable housing development, including but not limited to issuing an occupancy permit, a municipality shall require that the owner of the affordable housing development have executed a restrictive covenant, recorded in the appropriate registry of deeds, for the benefit of and enforceable by a party acceptable to the municipality, to ensure that for at least 30 years after completion of construction:

A. For rental housing, occupancy of all of the units designated affordable in the development will remain limited to households at or below 80% of the local area median income at the time of initial occupancy; and

B. For owned housing, occupancy of all of the units designated affordable in the development will remain limited to households at or below 120% of the local area median income at the time of initial occupancy.

Sec. 5. 30-A MRSA §4364, sub-§6, as enacted by PL 2021, c. 672, §4, is amended to read:

6. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 6. 30-A MRSA §4364-A, sub-§1, as enacted by PL 2021, c. 672, §5, is amended to read:

1. Use allowed. Notwithstanding any provision of law to the contrary, except as provided in Title 12, chapter 423-A, for any area in which ~~housing is~~ residential uses are allowed, including as a conditional use, a municipality shall allow structures with up to 2 dwelling units per lot if that lot does not contain an existing dwelling unit, except that a municipality shall allow up to 4 dwelling units per lot if that lot does not contain an existing

dwelling unit and the lot is located in a designated growth area within a municipality consistent with section 4349-A, subsection 1, paragraph A or B or if the lot is served by a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

A municipality shall allow on a lot with one existing dwelling unit the addition of up to 2 dwelling units: one additional dwelling unit within or attached to an existing structure or one additional detached dwelling unit, or one of each.

A municipality may allow more units than the number required to be allowed by this subsection.

Sec. 7. 30-A MRSA §4364-A, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" has the same meaning as in section 4364, subsection 1-A.

Sec. 8. 30-A MRSA §4364-A, sub-§2, ¶B, as enacted by PL 2021, c. 672, §5, is amended to read:

B. A municipal zoning ordinance may establish a prohibition or an allowance for lots where a dwelling unit in existence after ~~July 1, 2023~~ the implementation date is torn down and an empty lot results.

Sec. 9. 30-A MRSA §4364-A, sub-§3, as enacted by PL 2021, c. 672, §5, is amended to read:

3. General requirements. A municipal ordinance may not establish dimensional requirements ~~or~~, including but not limited to setback requirements, for dwelling units allowed under this section that are greater than dimensional requirements ~~or~~, including but not limited to setback requirements, for single-family housing units, except that a municipal ordinance may establish requirements for a lot area per dwelling unit as long as the required lot area for subsequent units on a lot is not greater than the required lot area for the first unit.

Sec. 10. 30-A MRSA §4364-A, sub-§7, as enacted by PL 2021, c. 672, §5, is amended to read:

7. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 11. 30-A MRSA §4364-A, sub-§10, as enacted by PL 2021, c. 672, §5, is amended to read:

10. Implementation. A municipality is not required to implement the requirements of this section until ~~July 1, 2023~~ the implementation date.

Sec. 12. 30-A MRSA §4364-B, sub-§1, as enacted by PL 2021, c. 672, §6, is amended to read:

1. Use permitted. Except as provided in Title 12, chapter 423-A, a municipality shall allow an accessory dwelling unit to be located on the same lot as a single-family dwelling unit in any area in which ~~housing is~~ residential uses are permitted, including as a conditional use.

Sec. 13. 30-A MRSA §4364-B, sub-§1-A is enacted to read:

1-A. Implementation date. For purposes of this section, "implementation date" has the same meaning as in section 4364, subsection 1-A.

Sec. 14. 30-A MRSA §4364-B, sub-§2, as enacted by PL 2021, c. 672, §6, is amended by amending the first blocked paragraph to read:

This subsection does not restrict the construction or permitting of accessory dwelling units constructed and certified for occupancy prior to ~~July 1, 2023~~ the implementation date.

Sec. 15. 30-A MRSA §4364-B, sub-§3, as enacted by PL 2021, c. 672, §6, is amended to read:

3. Zoning requirements. With respect to accessory dwelling units, municipal zoning ordinances must comply with the following conditions:

A. At least one accessory dwelling unit must be allowed on any lot where a single-family dwelling unit is the principal structure; ~~and~~

B. If more than one accessory dwelling unit has been constructed on a lot as a result of the allowance under this section ~~or section 4364-A~~, the lot is not eligible for any additional increases in density except as allowed by the municipality~~.~~; and

C. An accessory dwelling unit is allowed on a lot that does not conform to the municipal zoning ordinance if the accessory dwelling unit does not further increase the nonconformity.

Sec. 16. 30-A MRSA §4364-B, sub-§4, ¶B, as corrected by RR 2021, c. 2, Pt. A, §110, is amended to read:

B. For an accessory dwelling unit located within the same structure as a single-family dwelling unit or attached to or sharing a wall with a single-family dwelling unit, the setback requirements and dimensional requirements must be the same as the setback requirements and dimensional requirements of the single-family dwelling unit, except for an accessory dwelling unit permitted in an existing accessory building or secondary building or garage as of ~~July 1, 2023~~ the implementation date, in which case the requisite setback requirements for such a structure apply. A municipality may establish more permissive dimensional and setback requirements for an accessory dwelling unit.

Sec. 17. 30-A MRSA §4364-B, sub-§4, ¶D is enacted to read:

D. An accessory dwelling unit that was not built with municipal approval must be allowed if the accessory dwelling unit otherwise meets the requirements for accessory dwelling units of the municipality and under this section.

Sec. 18. 30-A MRSA §4364-B, sub-§5, as enacted by PL 2021, c. 672, §6, is amended to read:

5. Shoreland zoning. An accessory dwelling unit must comply with shoreland zoning requirements established by the Department of Environmental Protection under Title 38, chapter 3 and municipal shoreland zoning ordinances, except that a municipality may not categorically prohibit accessory dwelling units in the shoreland zone that would otherwise meet requirements established by the Department of Environmental Protection under Title 38, chapter 3 and municipal shoreland zoning ordinances.

Sec. 19. 30-A MRSA §4364-B, sub-§8, ¶A, as enacted by PL 2021, c. 672, §6, is amended to read:

A. Establish an application and permitting process for accessory dwelling units that does not require planning board approval;

Sec. 20. 30-A MRSA §4364-B, sub-§10, as enacted by PL 2021, c. 672, §6, is amended to read:

10. Subdivision requirements. This section may not be construed to exempt a subdivider from the requirements ~~for division of a tract or parcel~~ of ~~land in accordance with~~ subchapter 4.

Sec. 21. 30-A MRSA §4364-B, sub-§13, as enacted by PL 2021, c. 672, §6, is amended to read:

13. Implementation. A municipality is not required to implement the requirements of this section until ~~July 1, 2023~~ the implementation date.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

19-100 DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT

Chapter 5: HOUSING OPPORTUNITY PROGRAM: MUNICIPAL LAND USE AND ZONING ORDINANCE RULE

Summary: This chapter sets forth the provisions which require municipalities to create or amend local ordinances to allow for (1) additional density for affordable housing developments in certain areas; (2) multiple dwelling units on lots designated for housing; and (3) one accessory dwelling unit located on the same lot as a single-family dwelling unit in any area where housing is permitted.

Note: This chapter incorporates by reference certain material. The Appendix lists the material that is incorporated by reference, the date for each reference, and the organization where copies of the material are available.

SECTION 1. PURPOSE AND DEFINITIONS

A. PURPOSE

1. This chapter sets forth the provisions which require municipalities to create or amend local ordinances to allow for (1) additional density for affordable housing developments in certain areas; (2) multiple dwelling units on lots designated for housing; and (3) one accessory dwelling unit located on the same lot as a single-family dwelling unit in any area where housing is permitted.

2. Municipalities need not adopt this rule language or the statutory language in 30-A M.R.S. §§ 4364 to 4364-B ~~P.L. 2021 Ch. 672~~ word for word. The Department encourages municipalities to consider local planning documents and other special local considerations, and to modify language into one that meets the needs of a particular community and the minimum requirements of this legislation. Municipalities may wish to adopt ordinances that are more permissive, provided that such ordinances are equally or more effective in achieving the goal of increasing housing opportunities. If a municipality does not adopt ordinances to comply with 30-A M.R.S. §§ 4364 to 4364-B ~~P.L. 2021 Ch. 672~~, this legislation will preempt municipal home rule authority.

3. These rules do not:

   a) Abrogate or annul the validity or enforceability of any valid and enforceable easement, covenant, deed restriction or other agreement or instrument between private parties that imposes greater restrictions than those provided in this rule, as long as the agreement does not abrogate rights pursuant to the United States Constitution or the Constitution of Maine;

   b) Exempt a subdivider from the requirements in Title 30-A Chapter 187 subchapter 4;

c) Exempt an affordable housing development, a dwelling unit, or accessory dwelling unit from the shoreland zoning requirements established by the Department of Environmental Protection pursuant to Title 38 Chapter 3 and municipal shoreland zoning ordinances; ~~or~~

d) Abrogate or annul minimum lot size requirements under Title 12 Chapter 423-A; or~~.~~

~~d)~~e) Apply to a lot or portion of a lot that is within the watershed of a water source located in Lewiston or Auburn and that is used to provide drinking water by a water utility that has received a waiver from filtration pursuant to 40 C.F.R. §§ 141.70 to 141.76, as determined by the Maine Department of Health and Human Services.

B. DEFINITIONS

All terms used but not defined in this chapter shall have the meanings ascribed to those terms in Chapter 187 of Title 30-A of the *Maine Revised Statutes*, as amended. Municipalities need not adopt the terms and definitions outlined below word for word. The Department encourages municipalities to consider local planning documents and other special local considerations, and to modify language into one that meets the needs of a particular community. Municipalities may wish to adopt terms and definitions that are more permissive, provided that such terms and definitions are equally or more effective in achieving the goal of increasing housing opportunities.

Accessory dwelling unit. "Accessory dwelling unit" means a self-contained dwelling unit located within, attached to or detached from a single-family dwelling unit located on the same parcel of land. An accessory dwelling unit must be a minimum of 190 square feet and municipalities may impose a maximum size.

Affordable housing development. "Affordable housing development" means

1. For rental housing, a development in which a household whose income does not exceed 80% of the median income for the area as defined by the United States Department of Housing and Urban Development under the United States Housing Act of 1937, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs; and

2. For owned housing, a development in which a household whose income does not exceed 120% of the median income for the area as defined by the United States Department of Housing and Urban Development under the *United States Housing Act of 1937*, Public Law 75-412, 50 Stat. 888, Section 8, as amended, can afford ~~a majority~~51% or more of the units ~~that the developer designates as affordable~~ in the development without spending more than 30% of the household's monthly income on housing costs.

~~3. For purposes of this definition, "majority" means more than half of proposed and existing units on the same lot.~~

~~4.~~3. For purposes of this definition, "housing costs" include, but are not limited to:

a) For a rental unit, the cost of rent and any utilities (electric, heat, water, sewer, and/or trash) that the household pays separately from the rent; and

b) For an ownership unit, the cost of mortgage principal and interest, real estate taxes (including assessments), private mortgage insurance, homeowner's insurance, condominium fees, and homeowners' association fees.

Area median income. "Area median income" means the midpoint of a region's income distribution calculated on an annual basis by the U.S. Department of Housing & Urban Development.

Attached. "Attached" means connected by a shared wall to the principal structure or having physically connected finished spaces.

Base density. "Base density" means the maximum number of units allowed on a lot not used for affordable housing based on dimensional requirements in a local land use or zoning ordinance. This does not include local density bonuses, transferable development rights, or other similar means that could increase the density of lots not used for affordable housing.

Centrally managed water system. "Centrally managed water system" means a water system that provides water for human consumption through pipes or other constructed conveyances to at least 15 service connections or serves an average of at least 25 people for at least 60 days a year as regulated by 10-144 C.M.R. Ch. 231, *Rules Relating to Drinking Water*. This water system may be privately owned.

~~**Certificate of occupancy.** "Certificate of occupancy" means the municipal approval for occupancy granted pursuant to 25 M.R.S. §2357-A or the *Maine Uniform Building and Energy Code* adopted pursuant to Title 10 Chapter 1103. Certificate of occupancy may also be referred to as issuance of certificate of occupancy or other terms with a similar intent.~~

Comparable sewer system. "Comparable sewer system" means any subsurface wastewater disposal system that discharges over 2,000 gallons of wastewater per day as regulated by 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

Comprehensive plan. "Comprehensive plan" means a document or interrelated documents consistent with 30-A M.R.S. § 4326(1)-(4), including the strategies for an implementation program which are consistent with the goals and guidelines established pursuant to Title 30-A Chapter 187 Subchapter II.

Conditional use. "Conditional use" means a use permitted on a lot in a zoning district by a municipal legislative body, subject to certain conditions not generally applicable to other lots located in that zoning district.

Density requirements. "Density requirements" mean the maximum number of dwelling units allowed on a lot, subject to dimensional requirements.

Designated growth area. "Designated growth area" means an area that is designated in a municipality's or multi-municipal region's comprehensive plan as suitable for orderly residential, commercial, or industrial development, or any combination of those types of development, and into which most development projected over ten (10) years is directed. Designated growth areas may also be referred to as priority development zones or other terms with a similar intent. If a municipality does not have a comprehensive plan, "designated growth area" means an area served by a public sewer system that has the capacity for the growth-related project, an area identified in the latest Federal Decennial Census as a census-designated place or a compact area of an urban compact municipality as defined by 23 M.R.S. §754.

Dimensional requirements. "Dimensional requirements" mean requirements which govern the size and placement of structures including, but limited not to, the following requirements: building height, lot area, minimum frontage and lot depth.

Duplex. "Duplex" means a structure containing two (2) dwelling units.

Dwelling unit. "Dwelling unit" means any part of a structure which, through sale or lease, is intended for human habitation, including single-family and multifamily housing, condominiums, time-share units, and apartments.

Existing dwelling unit. "Existing dwelling unit" means a residential unit in existence on a lot at the time of submission of a permit application to build additional units on that lot. If a municipality does not have a permitting process, the dwelling unit on a lot must be in existence at the time construction begins for additional units on a lot.

~~**Housing**. "Housing" means any part of a structure which, through sale or lease, is intended for human habitation, including single-family and multifamily housing, condominiums, time-share units, and apartments. For purposes of this rule, theis does not include dormitories, boarding houses or other similar types of housing units; (2); and (3) This also does not include tTransient housing or short-term rentals, unless these uses are otherwise allowed in local ordinance.~~

Implementation date. "Implementation date" means:

1. January 1, 2024, for municipalities for which ordinances may be enacted by the municipal officers without further action or approval by the voters of the municipality; and

2. July 1, 2024, for all other municipalities.

3. For purposes of this definition, "further action or approval by the voters of the municipality" means municipalities that have a town meeting form of government.

Land use ordinance. "Land use ordinance" means an ordinance or regulation of general application adopted by the municipal legislative body which controls, directs, or delineates allowable uses of land and the standards for those uses.

Lot. "Lot" means a single parcel of developed or undeveloped land.

Multifamily dwelling. "Multifamily dwelling" means a structure containing three (3) or more dwelling units.

Municipality. "Municipality" means a city or a town, excluding all unorganized and deorganized townships, plantations, and towns that have delegated administration of land use controls to the Maine Land Use Planning Commission pursuant to 12 M.R.S. §682(1).

Potable. "Potable" means safe for drinking as defined by the U.S. Environmental Protection Agency's (EPA) Drinking Water Standards and Health Advisories Table and Maine's interim drinking water standards for six different perfluoroalkyl and polyfluoroalkyl substances (PFAS), Resolve 2021 Chapter 82, *Resolve, To Protect Consumers of Public Drinking Water by Establishing Maximum Contaminant Level for Certain Substances and Contaminants*.

Principal structure. "Principal structure" means a structure in which the main or primary use of the structure is conducted. For purposes of this rule, principal structure does not include commercial buildings.

Quadplex. "Quadplex" means a structure containing 4 (four) dwelling units.

Residential use. "Residential use" means a use permitted in an area by a municipal legislative body to be used for human habitation. Residential uses may include single-family, duplex, triplex, quadplex, and other multifamily housing; condominiums; time-share units; and apartments. For purposes of this rule, the following uses are not included under this definition, unless otherwise allowed in local ordinance: (1) Dormitories; (2) Congregate living facilities; (3) Campgrounds, campsites, hotels, motels, beds and breakfasts, or other types of lodging accommodations; and (4) Transient housing or short-term rentals.

Restrictive covenant. "Restrictive covenant" means a provision in a deed, or other covenant conveying real property, restricting the use of the land.

Setback requirements. "Setback requirements" mean the minimum horizontal distance from a lot line, shoreline, or road to the nearest part of a structure, or other regulated object or area as defined in local ordinance.

Single-family dwelling unit. "Single-family dwelling unit" means a structure containing one (1) dwelling unit.

Structure. "Structure" means anything temporarily or permanently located, built, constructed or erected for the support, shelter or enclosure of persons as defined in 38 M.R.S. §436-A(12).

Triplex. "Triplex" means a structure containing three (3) dwelling units.

Zoning ordinance. "Zoning ordinance" means a type of land use ordinance that divides a municipality into districts and that prescribes and reasonably applies different regulations in each district.

SECTION 2. AFFORDABLE HOUSING DENSITY

A. GENERAL

This Section requires municipalities to allow an automatic density bonus for certain affordable housing developments approved on or after ~~July 1, 2023~~the implementation date, as outlined below. This section only applies to lots in zoning districts that have adopted density requirements.

B. ELIGIBILITY FOR DENSITY BONUS

1. For purposes of this section, a municipality shall verify that the development:

   a) Is an affordable housing development as defined in this chapter, which includes the requirement that a majority of the total units on the lot are affordable;

   b) Is in a designated growth area pursuant to 30-A M.R.S. §4349-A(1)(A) or (B) or served by a public, special district or other centrally managed water system and a public, special district or other comparable sewer system;

   c) Is located in an area in which multifamily dwellings are allowed per municipal ordinance;

   d) Complies with minimum lot size requirements in accordance with Title 12 Chapter 423-A; and

   e) Owner provides written verification that each unit of the housing development is proposed to be connected to adequate water and wastewater services prior to certification of the development for occupancy or similar type of approval process. Written verification must include the following:

      i. If a housing unit is connected to a public, special district or other comparable sewer system, proof of adequate service to support any additional flow created by the unit and proof of payment for the connection to the sewer system;

ii. If a housing unit is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

iii. If a housing unit is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

iv. If a housing unit is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

2. Long-Term Affordability

Prior to granting ~~a certificate of occupancy or other final approval of~~ final approval of an affordable housing development, including but not limited to issuing an occupancy permit, a municipality must require that the owner of the affordable housing development (1) execute a restrictive covenant that is enforceable by a party acceptable to the municipality; and (2) record the restrictive covenant in the appropriate registry of deeds to ensure that for at least thirty (30) years after completion of construction:

a) For rental housing, occupancy of all the units designated affordable in the development will remain limited to households at or below 80% of the local area median income at the time of initial occupancy; and

b) For owned housing, occupancy of all the units designated affordable in the development will remain limited to households at or below 120% of the local area median income at the time of initial occupancy.

C. DENSITY BONUS

If the requirements in Section 2(B)(1) and (2) are met, a municipality must:

1. Allow an affordable housing development to have a dwelling unit density of at least 2.5 times the base density that is otherwise allowed in that location; and

2. Require no more than two (2) off-street parking motor vehicle spaces for every three (3) dwelling units of an affordable housing development.

If fractional results occur when calculating the density bonus in this subsection, the number of units is rounded down to the nearest whole number. Local regulation that

chooses to round up shall be considered consistent with and not more restrictive than this law. The number of motor vehicle parking spaces may be rounded up or down to the nearest whole number.

SECTION 3. DWELLING UNIT ALLOWANCE

A. GENERAL

This section requires municipalities to allow multiple dwelling units on lots where ~~housing is~~ residential uses are allowed, including as a conditional use, ~~allowed~~ beginning on ~~July 1, 2023~~the implementation date, subject to the requirements below. The requirements listed in Section 3 apply to municipalities with and without zoning. Private, state or local standards such as homeowners' association regulation, deed restrictions, lot size, set back, density, septic requirements, minimum lot size, additional parking requirements, growth ordinance permits, shoreland zoning and subdivision law, may also apply to lots.

B. REQUIREMENTS

1. Dwelling Unit Allowance

a) If a lot does not contain an existing dwelling unit, municipalities must allow up to four (4) dwelling units per lot if the lot is located in an area in which housing is allowed, meets the requirements in 12 M.R.S. Ch. 423-A, and is:

i. Located within a designated growth area consistent with 30-A M.R.S. §4349 A(1)(A)-(B); or

ii. Served by both a public, special district or other centrally managed water system and a public, special district or other comparable sewer system in a municipality without a comprehensive plan.

b) If a lot does not contain an existing dwelling unit and does not meet i. or ii. above, a municipality must allow up to two (2) dwelling units per lot located in an area in which housing is allowed, provided that the requirements in 12 M.R.S. Ch. 423-A are met. The two (2) dwelling units may be (1) within one structure; or (2) separate structures.

c) If a lot contains one existing dwelling unit, a municipality must allow the addition of up to two (2) additional dwelling units:

i. One within the existing structure or attached to the existing structure;

ii. One detached from the existing structure; or

iii. One of each.

d) If a lot contains two existing dwelling units, no additional dwelling units may be built on the lot unless allowed under local municipal ordinance.

e) A municipality may allow more units than the minimum number of units required to be allowed on all lots that allow housing.

2. Zoning

With respect to dwelling units allowed under this Section, municipalities with and without zoning ordinances must comply with the following:

a) If more than one dwelling unit has been constructed on a lot as a result of the allowance pursuant to this Section, the lot is not eligible for any additional units or increases in density except as allowed by the municipality. Municipalities have the discretion to determine if a dwelling unit or accessory dwelling unit has been constructed on a lot for purposes of this provision.

b) Municipalities may establish a prohibition or an allowance for lots where a dwelling unit in existence after ~~July 1, 2023~~the implementation date, is torn down and an empty lot results.

3. Dimensional and Setback Requirements

a) A municipal ordinance may not establish dimensional requirements, including but not limited to ~~or~~ setback requirements, for dwelling units allowed pursuant to this Section that are more restrictive than the dimensional requirements ~~or~~, including but not limited to setback requirements, for single-family housing units.

4. A municipality may establish requirements for a lot area per dwelling unit as long as the additional ~~dwelling units~~lot area required for each additional dwelling unit is proportional to the lot area per dwelling unit of the first unit.

5. Water and Wastewater

a) The municipality must require an owner of a proposed housing structure to provide written verification that each proposed structure is to be connected to adequate water and wastewater services prior to certification of the development for occupancy or similar type of approval process. Written verification must include the following:

i. If a housing structure is connected to a public, special district or other comparable sewer system, proof of adequate service to support any additional flow created by the unit and proof of payment for the connection to the sewer system;

ii. If a housing structure is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing

inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*.

iii. If a housing structure is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

iv. If a housing structure is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

C. MUNICIPAL IMPLEMENTATION

In adopting an ordinance, a municipality may:

1. Establish an application and permitting process for dwelling units;

2. Impose fines for violations of building, site plan, zoning, and utility requirements for dwelling units; and

3. Establish alternative criteria that are less restrictive than the requirements of Section 3(B)(4) for the approval of a dwelling units only in circumstances in which the municipality would be able to provide a variance pursuant to 30-A M.R.S. §4353(4)(A), (B), or (C).

SECTION 4. ACCESSORY DWELLING UNITS

A. GENERAL

1. A municipality must allow, effective ~~July 1, 2023~~on the implementation date, one accessory dwelling unit to be located on the same lot as a single-family dwelling unit in any area in which ~~housing is allowed~~ residential uses are permitted, including as a conditional use, subject to the requirements outlined below. The requirements listed in Section 4 apply to municipalities with and without zoning. Private, state or local standards such as homeowners' association regulation, deed restrictions, set back, density, septic requirements, shoreland zoning and subdivision law may also apply to lots.

2. A municipal ordinance that allows more than one accessory dwelling unit or that allows accessory dwelling units to be established in relation to duplex, triplex, quadplex, and other multi-unit buildings shall be considered consistent with the goals of 30-A M.R.S. §§ 4364 to 4364-B. ~~P.L. 2021 Ch. 672.~~

~~2.~~3. A municipality may not categorically prohibit accessory dwelling units in the shoreland zone that would otherwise meet the shoreland zoning requirements established by the Department of Environmental Protection, Title 28, Chapter 3, and municipal shoreland zoning ordinances.

B. REQUIREMENTS

1. Accessory Dwelling Unit Allowance

An accessory dwelling unit may be constructed only:

a) Within an existing dwelling unit on the lot;

b) Attached to a single-family dwelling unit; or

c) As a new structure on the lot for the primary purpose of creating an accessory dwelling unit.

A municipality may allow an accessory dwelling unit to be constructed or established within an existing accessory structure, except the setback requirements of Section 4(B)(3)(b)(i) shall apply.

2. Zoning

With respect to accessory dwelling units, municipalities with zoning ordinances and municipalities without zoning must comply with the following conditions:

(a) At least one accessory dwelling unit must be allowed on any lot where a single-family dwelling unit is the principal structure; ~~and~~

(b) If more than one accessory dwelling unit has been constructed on a lot as a result of the allowance pursuant to this Section, the lot is not eligible for any additional units or increases in density, except as allowed by the municipality. Municipalities have the discretion to determine if a dwelling unit or accessory dwelling unit has been constructed on a lot for purposes of this provision; and

(c) An accessory dwelling unit is allowed on a lot that does not conform to the municipal zoning ordinance if the accessory dwelling unit does not further increase the nonconformity, meaning the accessory dwelling unit does not cause further deviation from the dimensional standard(s) creating the nonconformity, excluding lot area.

3. Other

With respect to accessory dwelling units, municipalities must comply with the following conditions:

a) A municipality must exempt an accessory dwelling unit from any density requirements or lot area requirements related to the area in which the accessory dwelling unit is constructed;

b) For an accessory dwelling unit located within the same structure as a single-family dwelling unit or attached to a single-family dwelling unit, the dimensional requirements, excluding lot area requirements, and setback requirements must be the same as the dimensional requirements and setback requirements of the single-family dwelling unit;

i. For an accessory dwelling unit permitted in an existing accessory building or secondary building or garage as of ~~July 1, 2023~~the implementation date, the required setback requirements in local ordinance of the existing accessory or secondary building apply.

c) A municipality may establish more permissive dimensional requirements and setback requirements for an accessory dwelling unit.

d) An accessory dwelling unit may not be subject to any additional motor vehicle parking requirements beyond the parking requirements of the single-family dwelling unit on the lot where the accessory dwelling unit is located.

~~d)~~e) An accessory dwelling unit that was not built with municipal approval must be allowed if the accessory dwelling unit otherwise meets the requirements for accessory dwelling units of the municipality and under this Section.

4. Size

a) An accessory dwelling unit must be at least 190 square feet in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies.

b) Municipalities may set a maximum size for accessory dwelling units in local ordinances, as long as accessory dwelling units are not less than 190 square feet.

5. Water and Wastewater

A municipality must require an owner of an accessory dwelling unit to provide written verification that the proposed accessory dwelling unit is to be connected to adequate water and wastewater services prior to certification of the accessory dwelling unit for occupancy or similar type of approval process. Written verification must include the following:

a) If an accessory dwelling unit is connected to a public, special district or other comparable sewer system, proof of adequate service to support any

additional flow created by the unit and proof of payment for the connection to the sewer system;

b) If an accessory dwelling unit is connected to a septic system, proof of adequate sewage disposal for subsurface wastewater. The septic system must be verified as adequate by a local plumbing inspector pursuant to 30-A M.R.S. §4221. Plans for a subsurface wastewater disposal must be prepared by a licensed site evaluator in accordance with 10-144 C.M.R. Ch. 241, *Subsurface Wastewater Disposal Rules*;

c) If an accessory dwelling unit is connected to a public, special district or other centrally managed water system, proof of adequate service to support any additional flow created by the unit, proof of payment for the connection and the volume and supply of water required for the unit; and

d) If an accessory dwelling unit is connected to a well, proof of access to potable water, including the standards outlined in 01-672 C.M.R. Ch. 10 section 10.25(J), *Land Use Districts and Standards*. Any test of an existing well or proposed well must indicate that the water supply is potable and acceptable for domestic use.

C. MUNICIPAL IMPLEMENTATION

In adopting an ordinance under this Section, a municipality may:

1. Establish an application and permitting process for accessory dwelling units that does not require planning board approval~~;~~

2. Impose fines for violations of building, zoning and utility requirements for accessory dwelling units; and

3. Establish alternative criteria that are less restrictive than the above criteria in Section 4 for the approval of an accessory dwelling unit only in circumstances in which the municipality would be able to provide a variance pursuant to 30-A M.R.S. §4353(4)(A), (B), or (C).

D. RATE OF GROWTH ORDINANCE

A permit issued by a municipality for an accessory dwelling unit does not count as a permit issued toward a municipality's rate of growth ordinance pursuant to 30-A M.R.S. §4360.

STATUTORY AUTHORITY:

PL 2021 Ch. 672, PL 2023 Ch. 192, and PL 2023, ch. 264, codified at 30-A M.R.S. §§ 4364, 4364-A, 4364-B.

ORDINANCE 22-10162023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, That the Auburn City Council amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet as shown in the attached zoning text amendment.

To: Auburn City Council
From: Auburn Planning Board
Subject: Public Hearing on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions
Date: 10/16/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on October 10, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ZONING TEXT AMENDMENT: Amend Sec. 60-2- (Definitions) of the Zoning Ordinance to reduce the minimum dwelling unit size from 700 square feet to 400 square feet and to reduce the minimum accessory dwelling unit size from 700 square feet to 190 square feet. This item was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances.

MOTION: David Trask makes a motion; **SECOND:** Darren Finnegan seconds.

"I make a motion to recommend sending forward a positive recommendation to council supporting the proposed changes to amend the 700 SF requirement for single family home minimum dwelling size to include the **dwelling unit** must be at least 400 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies. For an **accessory dwelling unit**, an accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S. §9722, adopts a different minimum standard; if so, that standard applies for an accessory dwelling. I would also request that section 60-2 Definitions-number two read 'each one family detached dwelling unit must be at least 400 square feet above grade in size and an accessory detached dwelling unit must be 190 square feet above grade in size, unless the technical building code and standards board pursuant to 10 M.R.S. §9722, adopts a different minimum standard if so, that standard applies.'" **VOTE:** 7-0-0 motion passes.

City of Auburn
City Council Information Sheet

Council Meeting Date: October 16, 2023 **Ordinance:** 23-10162023

Author: Katherine Cook, Planning Coordinator

Subject: Public hearing and second reading on zoning map amendment changing UR and LDCR zoning to T-4.2B in Area B.

Information: Today the City Council holds the first reading on amending the City of Auburn zoning map to rezone certain land area general located near Vickery Road area from Urban Residence zoning district and Low-Density Country Residential Zoning District Traditional Neighborhood Form Based Code T-4.2B zoning district. This hearing follows three planning board public hearings on the most appropriate zone change supported by the comprehensive plan. The planning board recommended the map amendment as depicted attached as it provides connectivity between the Vickery Road neighborhood and the area zoned T-4.2B off South Main Street earlier identified as area A1. The planning board's recommendation includes a request that they later make a recommendation on rezoning the area south of the of the proposed T-4.2B boundary to a zone which accommodates a density of approximately eight units per acre. Staff plans to bring this additional as a separate consideration for workshop in December.

City Budgetary Impacts: None known.

Staff Recommended Action: Staff suggests that council adopt the 2nd reading of this zoning map amendment.

Previous Meetings and History: May 21, 2022-planning board workshop on areas A, B, C, and D; July 11, 2023- planning board public hearing on areas A, B, C, and D (all tabled); August 8, 2023- planning board public hearing on areas A1, A2, B1 & B2, C, and D (recommendations on all but area B); September 13, 2023- planning board workshop on area B option 1 and area B option 2 (recommendation to proceed with option 1); October 10, 2023- public hearing on area B option 1.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Draft ordinance with map, recommendation from planning board, area B map, staff report, T-4.2B ordinance text.

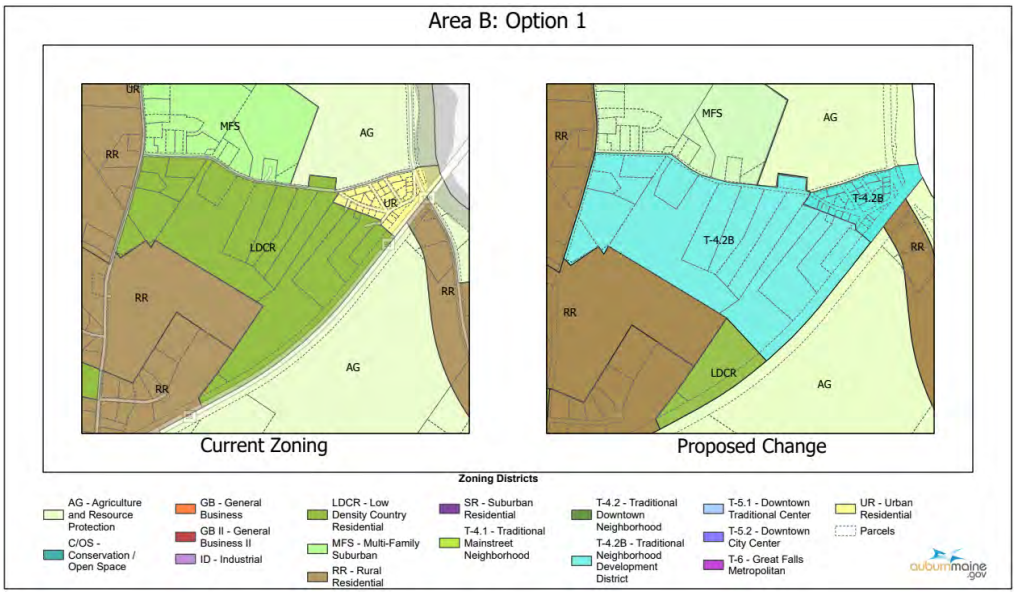
From: Katherine Cook, Planning Coordinator
Re: Staff Report on Map Amendment for Area B in the Vickery Road Area

I. **Public Hearing/ Map Amendment "Area B":** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This area is generally located near Vickery Road. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.



II. **Background:** On September 13, 2023, the planning board reviewed two options for the zone change boundaries of Area B. Staff presented "Option 1" which applied T-4.2B to the Vickery Road Neighborhood, and the current Low Density Country Residential area south of Vickery Road between South Main Street and Riverside Drive, and "Option 2," which extended the zoning change further down South Main Street to the Turnpike also changing affecting the Rural Residential zone. The planning board decided to hold a public hearing the following month on "Area B, Option 1" because it aligns more closely to the Comprehensive Plan, which calls for a less dense development pattern than T-4.2B would produce in areas to the south of Vickery Road. The planning board specified they prefer the zone change boundaries follow "Option 2" presented at the September meeting and asked that the staff prepare a workshop presenting possible zones that would accomplish the Comprehensive Plan's guidance of approximately 8 units per acre. Staff plans to have that workshop before the Board for the November meeting.

Previous Meetings:
- **May 21, 2022**—Planning Board Workshop on Area A, B, C, and D
- **July 11, 2023**—Planning Board Public Hearing on Area A, B, C and D. All areas were tabled with recommendations for staff to bring to the following meeting.

- **August 8, 2023**—Planning Board Public Hearing on Area A1, A2, B1 & B2, Area C, and Area D. Planning Board made recommendations on all map amendments except Area B. They asked to see the different option to connect Area B to Area B1
- **September 13, 2023—**Planning Board Workshop on "Area B Option 1" and "Area B Option 2" which depicted different boundaries for the potential zone change. Planning Board directed staff to prepare Area B Option 1 for a Public Hearing

III. **Department Review:**
- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

IV. **Planning Board Action:** Staff recommends that the Board forward a positive recommendation to the Council under Sec. 46-374 supporting the proposed changes.

V. **Suggested Motion***:* I make a motion to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the corresponding map and presented in the materials for this meeting.

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

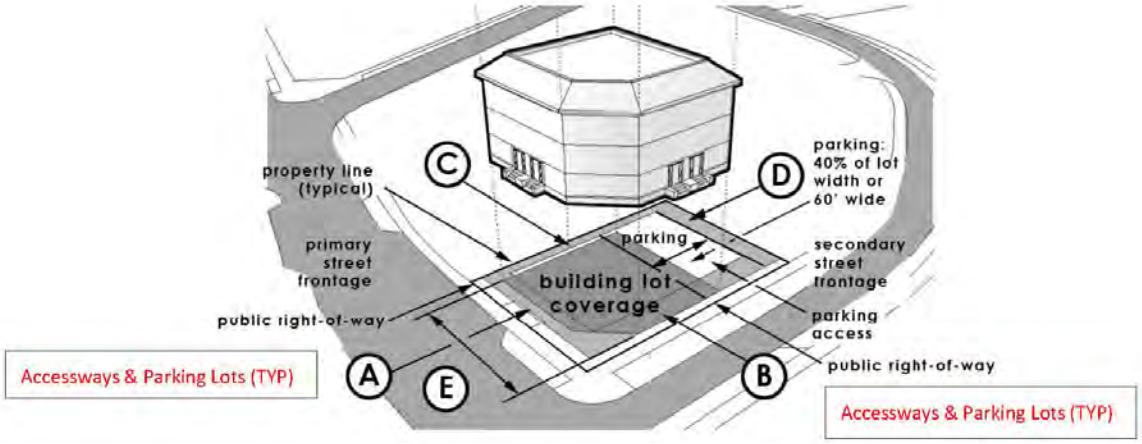
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

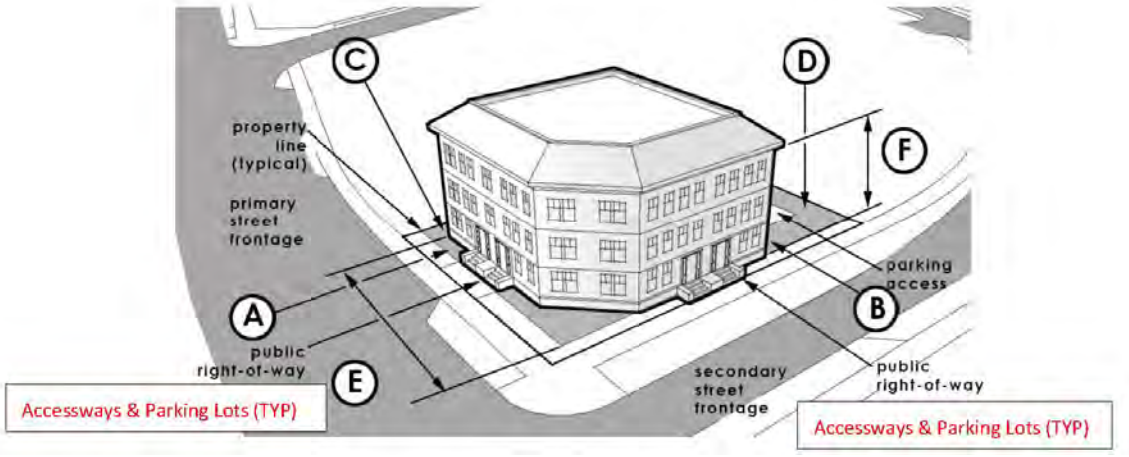
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



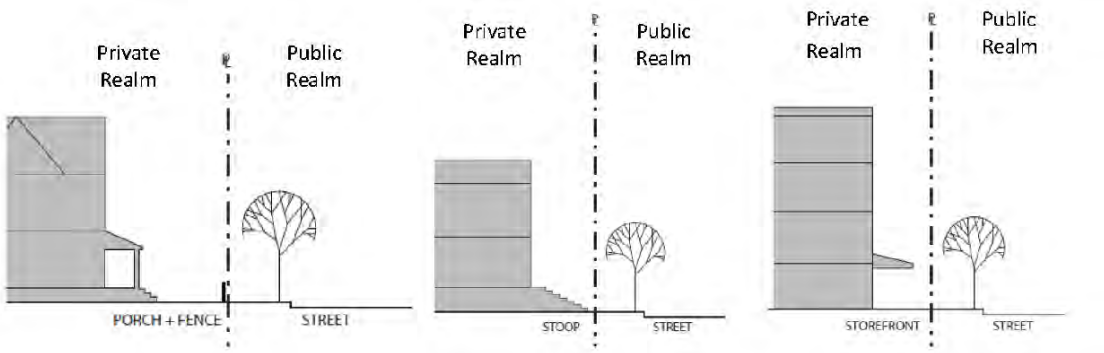
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

RE: Notice of City Council Public Hearing – November 6, 2023

William T. Turner
368 Minot Avenue
Auburn, Maine 04210
PID: 231-019

Dear Mr. Turner:

You are receiving this notice pursuant to Title 23 M.R.S.A § 3026-A, 1-6 because the City of Auburn, City Council will conduct a Public Hearing on **Monday, November 6, 2023, at 7:00 p.m.** in the City Council Chambers, 60 Court Street, Auburn, Maine to hear public comment on the following item located abutting property you own:

PUBLIC HEARING/ Miller Street Relocation: 186 Main Street: See attached attested order dated September 25, 2023, and site plan.

The development includes new parking and has been proposed as six (6) additional public parking spaces will be available at 2-hour increments and will be available at will to tenants between 6 PM to 7:00 AM. In addition, to replace the seven (7) R permit location paid for by the abutter the city will offer replacement spots within the city garage at the same rate of $45 a month ($945 quarterly).

In addition, a waiver of damages form is included for your convenience. Please sign and send back to the address found on the waiver:

Additional information is available and may be obtained from the Auburn Planning & Permitting Department by contacting John Blais at (207) 333-6601 ext. 1334 or jblais@auburnmaine.gov.

Regards,

John Blais
Deputy Director of Planning, Permitting and Code

ORDER

City Council Order

IN CITY COUNCIL

ORDERED, that Miller Street, as laid out on plan and titled "Easement Plan", as recommended by the Auburn Planning Board and approved by the Auburn City Council and to be recorded at the Androscoggin County Registry of Deeds , is hereby discontinued 90.94' +/- as a City Street as provided in Title 23 M.R.S.A § 3026-A, 1-6 et sequ:

LOCATION:

Exhibit A
Proposed Street Relocation
Miller Street

A certain lot or parcel of land with the improvements thereon on the easterly sideline of the current location of Miller Street in the City of Auburn, County of Androscoggin, and State of Maine depicted as "Proposed Relocation of Miller Street 4,827 S.F." as shown on an Easement Plan made for JCS 18, LLC by Sebago Technics dated May 5, 2023 as revised through July 28, 2023 (Sheet 3, Job #220503-01), and being more particularly bounded and described as follows:

Commencing at a railroad spike in pavement on the now or former westerly sideline of Miller Street at the northeasterly corner of land now or formerly of City of Auburn as described in a deed recorded in Book 3233, Page 1 and southeasterly corner of land now or formerly of Turson, LLC as described in a deed recorded in said Registry in Book 7852, Page 290, thence N 73°04'09" E across said Miller Steet a distance of 35.62 feet to the northeasterly corner of "Proposed Discontinuation of Miller Street 3,784 S.F." as shown on said Plan, and the now or former easterly sideline of said Miller Street, and the **Point of Beginning**;

1. Thence N 05°10'28" E by said easterly sideline of said Miller Street a distance of 42.28 feet;
2. Thence S 46°08'03" E through land of the Grantor a distance of 33.94 feet;
3. Thence S 20°28'47" E through said land of the Grantor a distance of 15.03 feet;
4. Thence S 05°10'28" W through said land of the Grantor a distance of 107.64 feet;
5. Thence S 36°17'25" W through said land of the Grantor a distance of 18.38 feet;
6. Thence S 67°24'21" W through said land of the Grantor a distance of 25.65 feet;
7. Thence S 31°35'33" W through said land of the Grantor a distance of 1.82 feet to the easterly sideline of said Miller Street;
8. Thence N 05°10'28" E by the now or former easterly sideline of said Miller Street a distance of 38.50 feet to the easterly side of said Proposed Discontinuation of Miller Street;
9. Thence N 05°10'28" E by said Proposed Discontinuation of Miller Street a distance of 90.94 feet to the **Point of Beginning**.

Partial Discontinuance of Chestnut Street – Waiver of Damages -7 Chestnut Street
PID 250-335

TO: Sultan Corp, Property Owners, 7 Chestnut Street, Auburn, ME

FROM: John Blais, Deputy Director of Planning, Permitting and Code

The City of Auburn is being asked to order the Partial discontinuance of Chestnut Street as a City way, for approximately 250 feet See attached description and Site Plan description.

I understand you are aware that this will be considered based on our previous discussions. You are being notified as an abutting property owner that this will be scheduled for an upcoming City Council Meeting. A preliminary review has shown that your parcel has frontage on two streets including Chestnut Street and Webster Street. It has also been noted that your access to the parcel is via Chestnut Street and will remain after the potential partial discontinuance of Chestnut Street. In a preliminary review we have determined that it is likely that no damage to the abutting property owners is warranted. This letter is to verify if you agree with that determination or if you would prefer that the city investigate this further prior to scheduling a hearing before the City Council to consider the discontinuance of a portion of Chestnut Street.

Please review, select one of the options below and sign and return it to The Planning & Permitting Office at 60 Court Street, Auburn, Me 04210. **By October 1, 2023**.

OPTIONS:

- ✓ I agree that no damages are warranted or due to me for the discontinuance of a portion of Chestnut Street as my frontage and access to public Street(s) will continue to exist on Chestnut Street.
- ○ I disagree with the preliminary determination and will request damages in the amount of $_____ to move forward with the proposed discontinuance.
- ○ I disagree with the preliminary determination and would like to request that the City acquire the services of a commercial appraiser to determine if damages are warranted.

City Council Information Sheet

Council Workshop or Meeting Date: November 6, 2023 **Order:** 144-11062023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Downtown Omnibus TIF #10 - Fourth Amendment

Information:
The fourth amendment to the Downtown Omnibus TIF #10 will remove ten parcels totaling 16.32 acres & $4,498,500 in value from the district. The Downtown TIF, created in 2002, has less than 10 years remaining before expiration. Key parcels currently targeted for development are being removed to allow for new, longer-term districts to be created to a greater benefit of the city.

City Budgetary Impacts:
The City intends to establish new Tax Increment Financing Districts for one or more of these parcels following adoption of the Fourth Amendment to the District for the purpose of capturing tax revenues from new assessed value generated by investments made on these properties.

Staff Recommended Action:
Approval of Order as presented.

Previous Meetings and History:
July 15, 2002 – Council approved Downtown TIF
December 2, 2013 – Council amended TIF to add 214 parcels
September 12, 2016 – Council amended TIF to remove 1 parcel
November 20, 2017 – Council amended TIF to remove 1 parcel

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

FOURTH AMENDMENT
City of Auburn #10 Downtown
Omnibus Municipal Tax Increment Financing District and Development Program

I. Introduction

Section 1.01: History of Original Development Program.

The City of Auburn designated the #10 Downtown Municipal Development Tax Increment Financing District (the "District") and approved a municipal tax increment financing district development program for said District (the "Development Program") by order of its City Council on July 15, 2002. The District and Development Program were approved by the Maine Department of Economic and Community Development ("DECD") in 2002 and confirmed by letter dated June 15, 2012. The Development Program adopted in 2002 stated that the District would be effective for a period of twenty (20) years; however, the 2012 DECD approval letter stated that the District is effective for a term of thirty (30) years through October 18, 2032. The District was designated to capture 100% of tax revenue from increased assessed value for property acquisition to construct a parking garage, walkway lighting and improvements, intersection improvements, recreational trail extension, and projects as identified within the Auburn Downtown Action Plan for Tomorrow ("ADAPT"). The District consisted of 211 acres located in a concentrated area between Minot Ave (Route 100/202) and the Androscoggin River at a central point in the City along its eastern border.

The City adopted the First Amendment to the District and Development Program by order of its City Council on December 2, 2013, and DECD approved the amendment by letter dated July 23, 2014 (the "First Amendment"). With the First Amendment, the City added 214 parcels to the District consisting of 54.67 acres, resulting in a total District acreage of 265.67. The First Amendment authorized the City to enter into credit enhancement agreements with developers in the District to offer a reimbursement of property taxes paid on increased assessed value up to 100%, subject to the joint Tax Increment Financing Policy adopted by the Cities of Auburn and Lewiston. The First Amendment also authorized the City to spend retained property tax revenue from captured assessed value on several additional public improvements and projects within the District, as well as transportation projects, trails and economic development initiatives within the City.

The City adopted the Second Amendment to the District and Development Program by orders of its City Council on September 12, 2016 (the "Second Amendment"). The Second Amendment removed one parcel (Tax Map 240, Lot 257) consisting of 0.81 acres from the District, resulting in a total District acreage of 264.86. The City adopted the Third Amendment to the District and Development Program by orders of its City Council on November 20, 2017 (the "Third Amendment"). The Third Amendment removed one parcel (Tax Map 240, Lot 212) consisting of 1.01 acres from the District, resulting in a total District acreage of 263.85. The Second Amendment and Third Amendment were approved by DECD per letter dated March 6, 2018.[1] The DECD

[1] The total District acreage cited in the March 6, 2018 DECD approval letter was 264.18 and the Original Assessed Value was $83,168,800. This was corrected as a result of inaccurate information provided with the First Amendment. This Fourth Amendment is based on the Original Assessed Value and Acreage as confirmed in the 2018 approval letter from DECD.

approval letter stated that the District is effective for a term of thirty (30) years ending June 30, 2032. All other terms of the Development Program remained the same as the First Amendment.

The City hopes to continue the efforts that are currently supported by the District and Development Program, as amended, and to enhance and broaden the economic development and employment opportunities within the community through the use of tax increment revenues from the District as necessary and appropriate through the amendment of this District. Development efforts within the District continue and the City seeks to adopt this Fourth Amendment to the District and Development Program in order to maximize the benefits of Tax Increment Financing for certain properties and projects within the City. This Fourth Amendment will remove certain properties from the District and create new Districts dedicated to those projects to provide assistance to the developers of said projects. These properties have been identified for commercial uses that are expected to create new employment opportunities within the City, which will benefit residents and business owners alike and maintain and broaden the tax base within the City.

Section 1.02: Amendment of District and Development Program.

The City now desires to amend the District and Development Program to advance the original economic development goals of the Development Program and the City to provide new employment opportunities within the City and to continue improving and broadening the City's tax base and the general economy of the City and the State of Maine.

Accordingly, the District and Development Program are hereby amended for the following purposes:

(a) to remove ten parcels from the District, consisting of 16.32 acres, including a certification of the Original Assessed Value resulting from the removal of these parcels;

(b) to include the additional estimated tax increment revenues to be captured during the term of the District and additional authorized project costs.

II. Amended Development Program

Section 2.01: District Footprint and Acreage.

The District is hereby amended to remove the following parcels:

Tax Map/Lot	Property Address	Acreage	Original Assessed Value	OAV Date
CURRENT DISTRICT TOTAL		**264.18**	**$83,168,800**	
221-041	121 Mill Street	4.58	$933,000	March 31, 2013
230-066	81 Minot Ave	1.02	$187,500	March 31, 2013

AMENDED DISTRICT TOTAL		**247.55**	**$80,002,900**	

An updated Statutory Requirements and Thresholds Form is included herewith as Exhibit A. A Certificate of Assessor is included herewith as Exhibit B and a revised maps of the District as amended are included herewith as Exhibit C.

Section 2.02: Tax Revenue Projections.

The removal of the ten parcels as identified in Section 2.01 above is not expected to result in a substantial decrease in the captured assessed value within the District and will therefore not significantly affect the tax increment revenue projections and tax shift calculations within the District for the remainder of the District term. However, updated tax revenue projections, including actual captured assessed value, tax increment revenue and credit enhancement agreement payments to date, are included herewith as Exhibit D for reference.

Section 2.03: Public Project Costs.

In addition to the public activities and project costs authorized within the Development Program to date, as previously amended, the City seeks to authorize additional uses of TIF revenue from the District. Included herewith as Exhibit E is an amended and restated table of authorized public project costs.

Section 2.04: No Other Changes.

Except as expressly amended by this Fourth Amendment, the District Development Program, as previously amended, shall not be altered and is hereby ratified and confirmed in all respects.

[2] The acreages included in this table are based on actual 2024 parcel data in the City's assessing records, which may vary from earlier Development Program materials; however, the City does not have a complete record of the acreages listed for each amendment to date and is unable to verify what acreage amounts were originally listed for each of these parcels.

Section 2.05: Notice of Public Hearing and Approval of Amendment.

A copy of the Notice of Public Hearing published in the *Lewiston Sun Journal*, a newspaper of general circulation in the City of Auburn on October 19, 2023 is attached hereto as Exhibit F. A public hearing pursuant to such Notice was held on November 6, 2023. The minutes of the public hearing are attached hereto as Exhibit G and the Orders of the City Council approving this Amendment are attached hereto as Exhibit H.

EXHIBIT A: Statutory Requirements & Thresholds Form

SECTION A. | Acreage Caps		
1. Total **municipal** acreage;	41,430.00	
2. Acreage of **proposed** Municipal TIF District;	247.55	
3. **Downtown-designation**[3] acres in proposed Municipal TIF District;	247.55	
4. **Transit-Oriented Development**[4] acres in proposed Municipal TIF District;	0	
5. **Total acreage [=A2-A3-A4]** of proposed Municipal TIF District counted toward 2%	247.55	
6. **Percentage [=A5÷A1]** of total acreage in proposed Municipal TIF District (CANNOT	0.60%	
7. **Total acreage** of all existing/proposed Municipal TIF districts in municipality **including** Municipal Affordable Housing Development districts:[5] See attached list	Existing	678.19
	Proposed	-16.63
	Total:	661.56
30-A § 5223(3) EXEMPTIONS[6]		
8. Acreage of an existing/proposed **Downtown** Municipal TIF district;	247.55	
9. Acreage of all existing/proposed **Transit-Oriented Development** Municipal TIF districts:	0	
10. Acreage of all existing/proposed **Community Wind Power** Municipal TIF districts:	0	
11. Acreage in all existing/proposed Municipal TIF districts **common to**[7] Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such acreage also factored in Exemptions 8-10 above	0	
12. **Total acreage [=A7-A8-A9-A10-A11]** of all existing/proposed Municipal TIF districts counted toward 5% limit;	414.01	
13. **Percentage of total acreage [=A12÷A1]** of all existing/proposed Municipal TIF districts (CANNOT EXCEED 5%).	1.00%	

14. **Real property** in proposed Municipal TIF District that is:	ACRES	% **[=Acres÷A2]**
a. A blighted area;		
b. In need of rehabilitation, redevelopment or conservation;		
c. Suitable for commercial or arts district uses.	247.55	100%
TOTAL (except for § 5223 (3) exemptions a., b. OR c. must be at least 25%)		

[3] Before final designation, the Commissioner will seek advice from MDOACF and MDOT per 30-A § 5226(2).
[4] For Transit-Oriented Development (TOD) definitions see 30-A § 5222 sub-§§ 19-24.
[5] For AH-TIF acreage requirement see 30-A § 5247(3)(B). Alternatively, Section B. must exclude AH-TIF valuation.
[6] Downtown/TOD overlap nets single acreage/valuation caps exemption.
[7] PTDZ districts approved through December 31, 2008.

SECTION B. | Valuation Cap		
1. **Total TAXABLE** municipal valuation—April 1, 2023	$2,253,171,176	
2. **Taxable Original Assessed Value (OAV)** of proposed Municipal TIF District as of March 31, 2002 and March 31, 2013	$80,002,900	
3. **Taxable OAV of all** existing/proposed Municipal TIF districts in municipality **excluding** Municipal Affordable Housing Development districts: See attached list	Existing	$108,311,200
	Proposed	-$3,165,900
	Total:	$105,145,300
30-A § 5223(3) EXEMPTIONS		
4. **Taxable OAV** of an existing/proposed **Downtown** Municipal TIF district;	$80,002,900	
5. **Taxable OAV** of all existing/proposed **Transit-Oriented Development** Municipal TIF districts:	0	
6. **Taxable OAV** of all existing/proposed **Community Wind Power** Municipal TIF districts:	0

EXHIBIT B: Certificate of Assessor

CITY OF AUBURN
CERTIFICATE OF ASSESSOR

The undersigned assessor of the City of Auburn, Maine, does hereby certify pursuant to the provisions of Title 30-A M.R.S.A. Section 5227 that the assessed value of the taxable real property within the boundaries of the #10 Auburn Downtown Municipal Tax Increment Financing District, as described in the Development Program for the District and as identified in the attached table, was $80,002,900 as of March 31, 2002 (April 1, 2001) and March 31, 2013 (April 1, 2012) respectively.[9]

District Action	Acreage Change	Total Acreage	OAV Change	Total OAV
Original Designation		211		$52,364,600
First Amendment	+54.67	265.67	+$31,213,200	$83,577,800
Second Amendment	-0.81	264.86	-$409,000	$83,168,800
Third Amendment	-1.01	264.18	-$0	$83,168,800
Fourth Amendment	-16.63	247.55	-$3,165,900	$80,002,900

This Certificate has been executed as of this ____ day of October, 2023.

_____
Karen Scammon, CMA-4
Assessor, City of Auburn

[9] The Original Assessed Value of the District was certified as $52,364,600 as of March 31, 2002 (April 1, 2001). With the First Amendment to the District adopted December 2, 2013, the Original Assessed Value of the District was $84,411,000 resulting from the addition of 214 parcels with a taxable real property value of $32,046,400 as of March 31, 2013 (April 1, 2012). These values were subsequently reviewed and corrected as reflected in the March 6, 2018 letter from DECD approving the Town's Second Amendment to the District. With the Second Amendment to the District adopted September 12, 2016, one parcel was removed from the District with a taxable real property value of $409,000 as of March 31, 2002 (April 1, 2001), and the Original Assessed Value of the District was confirmed as $83,168,800 ($51,995,600 as of March 31, 2002 and $31,213,200 as of March 31, 2013). With the Third Amendment to the District adopted November 20, 2017, the Original Assessed Value of the District remained the same as there was just one parcel removed from the District, which had an Original Assessed Value as of March 31, 2002 (April 1, 2001) of $0. With the Fourth Amendment to the District adopted November 6, 2023, the Original Assessed Value of the District is now $80,002,900, resulting from the removal of ten parcels with a taxable real property value of $3,165,900. Six of the parcels to be removed with this Fourth Amendment were included in the District as of its original designation and have an Original Assessed Value as of March 31, 2002 (April 1, 2001), and four of the parcels to be removed with this Fourth Amendment were added to the District as of the First Amendment and have an Original Assessed Value as of March 31, 2013 (April 1, 2012).

EXHIBIT E: Public Project Costs

	Project	Estimated Percentage of CAV	Cost Estimate*	Statutory Citation
1	Capital costs within the District related to the commercial development activities within the District, including, but not limited to, acquisition or construction of land, structures, fixtures or equipment, or the demolition, alteration, remodeling, repair or reconstruction of buildings, structures, and fixtures for public, recreational trail, commercial or transit use, including, but not limited to, site preparation, finishing work, real property assembly costs and other capital costs related to such improvements, such as licensing, permitting, planning, engineering and architectural and legal expenses. This project costs includes the construction of public garages within the District. 1	10.0%	$5,077,690	30-A M.R.S. §5225(1)(A)(1)(a)-(d), §5225 (1)(A)(3)
2	Capital costs within the District related to the commercial development activities within the District, including, but not limited to, construction of improvements, public ways, transit facilities, and recreational trails, including, but not limited to, pavement, widening, repair and reconstruction of roads, sidewalks and intersections, bicycle lanes, pedestrian safety measures, signage, bus shelters, benches, crosswalks, curb treatments, recreational trails and bridges.1	10.0%	$5,077,690	30-A M.R.S. § 5225(1)(A)(1)(a)
3	Costs of improvements for the construction, alteration or expansion of facilities outside of the District that are required due to improvements or commercial development and activities within the District, such as improvements, reconstruction, repair or widening of public ways and amenities on streets, sidewalks and intersections, bicycle lanes and pedestrian safety measures, and storm, sanitary sewer and water lines, electrical lines.1	10.0%	$5,077,690	30-A M.R.S. § 5225(1)(B)(1)
4	Costs associated with professional services rendered for projects within the District, including, but not limited to, engineering, planning, licensing, permitting, surveying, design, legal and accounting, and administrative expenses of staff time related to establishing and implementing the District and Development Program.	5.0%	$2,538,845	30-A M.R.S. §§ 5225(1)(A)(4), (5), (7)

5	Costs of the construction, alteration or expansion of facilities, including, but not limited to, water, sewer, storm water, electrical, telephone, cable, broadband, and natural gas, that are located within the District or outside the District to the extent they are required due to improvements or commercial development and activities within the District.	10.0%	$5,077,690	30-A M.R.S. §§ (1)(A)(1), (1)(B)(1)
6	Costs of public safety improvements to include the acquisition of additional public safety equipment or personnel, or improvements to police and fire stations outside the District as made necessary by the establishment and operation of the District, and costs related to public safety facilities made necessary by economic development activities within the City (not to exceed 15% of the CAV of the District). 1, 3	15.0%	$7,616,534	30-A M.R.S. §§ 5225(1) (B)(1), (2), (1)(C)(9)
7	Costs related to economic development programs and activities of the City directed at business retention and attraction, including, but not limited to, economic development staff salaries and/or consultant fees, and costs of funding economic development programs, events or marketing of the City as a business or arts location.1, 2	15.0%	$7,616,534	30-A M.R.S. § 5225(1)(C)(1)
8	Costs associated with administration of the District, including, but not limited to time spent by City employees in connection with the implementation of the Development Program.	5.0%	$2,538,845	30-A M.R.S. § 5225(1)(A)(5)
9	Costs of funding environmental improvement projects related to commercial district use or related to the commercial use or related to such activities within the City. 1	10.0%	$5,077,690	30-A M.R.S. § 5225(1)(C)(2)
10	Costs associated with the development and operation of affordable housing within the District; costs of improvements in support of municipal economic development activities in connection with affordable housing outside of the District; and costs associated with the operation and support of affordable housing in the City to serve ongoing economic development efforts or to assist those who are experiencing homelessness in the City.	5.0%	$2,538,845	30-A M.R.S. § 5225 (1)(A)(9), (B)(4), (C)(11), and (E)
11	Capital costs related to the construction or renovation of the City's central administrative office, the need for which is related to economic development within the City, up to 50% of such costs, not to exceed 15% of the captured assessed value within the District.	5.0%	$2,538,845	30-A M.R.S. § 5225(1)(C)(12)

TOTAL ESTIMATED PROJECT COSTS (OVER 30 YEARS)	**100.0%**	**$50,776,895**	

***** These are estimates only. The City may allocate revenues generated by the district across approved project cost categories as needed.

[1] These project costs were authorized with the original Development Program. All other costs are being added with this Fourth Amendment.

[2] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, #10, #6

[3] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, and #6.

Similar program costs contained within other current and future TIFs may be combined.

EXHIBIT F: Public Hearing Notice

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on Monday, November 6, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the proposed Fourth Amendment to the Downtown Omnibus Municipal Tax Increment Financing District #10 and the Development Program for said District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed Fourth Amendment to the District will to remove ten parcels from the District, consisting of 16.632 acres. The City intends to establish new Tax Increment Financing Districts for one or more of these parcels following adoption of the Fourth Amendment to the District for the purpose of capturing tax revenues from new assessed value generated by investments made on these properties.

A copy of the proposed Fourth Amendment to the District and Development Program is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

Anaheim Ducks center Leo Carlsson (37) controls the puck against Los Angeles Kings Trevor Lewis (61) during the third period of a preseason game on Oct. 3, in Los Angeles.

No. 2 pick Carlsson starting career with the Ducks with fraction of Bedard's fanfare

By Greg Beacham
AP SPORTS WRITER

IRVINE, Calif. — The player drafted right after Connor Bedard last summer is about to make his NHL debut with a fraction of the fanfare.

And that's more than fine with Leo Carlsson.

While he sat out the Anaheim Ducks' first two games of the season with a minor injury last week, Carlsson was aware of the hockey world's massive celebration of Bedard's arrival with the Chicago Blackhawks, who chose the budding superstar first overall.

Nothing like that media blitz will happen around Carlsson when he starts his own career, possibly in the Ducks' home game against Dallas on Thursday night.

Unsurprisingly, this quietly confident 18-year-old Swede doesn't mind the lack of hubbub.

"Don't really care, to be honest," Carlsson said. "I think I'd rather be the underdog. Well, the second pick isn't the underdog, but I'm still not in the media and stuff like that. I feel like that's easier, to surprise people and not let them down that way. Maybe if I was from Canada or the US, it would be bigger as well. But I'm comfortable."

The international hype around Carlsson is infinitely more subdued than the buzz around Bedard, and that's no surprise. Although Carlsson's skills were advanced and obvious to anybody watching him in Sweden, the lanky 6-foot-3 forward wasn't even guaranteed to get a chance in North America this year.

While the rebuilding Ducks love Carlsson's skills and potential, they acknowledged that Carlsson could have ended up spending another year in Sweden before moving stateside, since their long-term rebuilding project doesn't exactly require Carlsson's immediate contribution.

But Carlsson was determined to start his next hockey adventure now.

"That was the goal coming here," Carlsson said. "Otherwise, I probably would have just stayed in Sweden. I was determined to earn a spot."

Carlsson's plan for the season still isn't 100% set, but he already bade farewell on social media to Örebro, his Swedish Hockey League team for the past three seasons. He's curtailed his celebrations since arriving in Anaheim, but he's already showing the flair that made him a first-round pick.

"He's a very skilled player, and he's very creative," Ducks coach Greg Cronin said. "He'd flash-dominate, like he'd flash a few shifts. And then when we got to the main camp and he played against better players from the American League, he was more noticeable. And then as we went to the NHL level, he went, 'Phew!'"

Cronin points his arm in a rocket's upward trajectory.

"I've seen that happen with so many young kids that kind of blend in for whatever the reason is, and then as they get to the training camp and it's more NHL players, they kind of take off," Cronin added. "I think a lot of times that's because they have the same IQ as those (NHL) guys. He's 18 years old, but he thinks the game like a 25-year-old."

Carlsson rejoined the Ducks in practice this week, and Cronin put him at the center of their top line between Troy Terry and Trevor Zegras, Anaheim's two most accomplished young forwards. The trio could be together for many years, and Carlsson has begun the process of growing into a two-way center capable of making every teammate better.

"I don't set goals for points and stuff," Carlsson said. "Just trying to be a comfortable NHL producer. Your rookie year is also hard, but I'm going to play with some good players as well, so I think it's going to make it easier for me."

Carlsson's skills continue to catch the eyes of his teammates and coaches. His growth culminated so far in an outstanding preseason performance against Arizona in which he clearly stood out as an elite playmaker who still needs refinement of his finishing skills, but is far ahead of his peers in many other areas.

"It's really impressive, his strength — because he's not an overly fit guy — on puck battles," Cronin said. "I was surprised at how fast he could skate, because it doesn't look like he's going fast, but he's going fast, and how he can change direction quick."

TOWN OF TURNER
BOARD OF APPEALS
PUBLIC HEARING - NOVEMBER 2

The Town of Turner Board of Appeals will hold a Public Hearing at 6:00 p.m. on Thursday, November 2, at the Turner Town Office, 11 Turner Center Road. The purpose of the hearing will be to accept public comment and consider a variance application for a 6-foot reduction in the front setback requirement for construction of a new double-wide mobile home at 24 Green Street, Turner. A copy of the variance application is available for public inspection at the Town Office during regular business hours.

NATIONAL BASKETBALL ASSOCIATION

After Harden skips 76ers practice, Nurse unsure of what comes next

CAMDEN, N.J. — Philadelphia 76ers coach Nick Nurse said he had no explanation for why James Harden skipped practice on Wednesday but planned to proceed as if the disgruntled guard will play in the preseason finale.

"If he's here, we go; if he's not here, we go," Nurse told reporters at the 76ers' New Jersey complex.

Harden has yet to play in the preseason. He did attend training camp and continued to practice with the 76ers in the wake of his offseason trade demand. Harden said last week his fractured relationship with team president Daryl Morey could not be repaired — comparing it to a broken marriage — and said over the summer that he could not play for the 76ers.

Part of Harden's complaint stems from his belief he should have earned a long-term contract with the Sixers after last season. It never came, thus the trade demand.

Harden, who was evasive last week about the status of his trade demand, said he could try to play in the Sixers' preseason finale on Friday against Atlanta. But he skipped practice, and the 76ers are unsure of what comes next.

Nurse, in his first season as Philadelphia's coach, said he had expected Harden to both practice on Wednesday and play on Friday.

"From the last discussions I've had with him and from everybody, yeah," Nurse said. "I'm still going on what he said the last time I talked him, that he was going to ramp up and get ready to play Friday. We'll see how it goes."

Harden has been one of the league's top players for the past decade, winning three scoring titles and the 2018 league MVP award. He led the league in assists last season.

NBA considering changes to All-Star Game format, with East vs. West possible again

(AP) — The NBA All-Star Game may soon return to an East vs. West format.

Commissioner Adam Silver said Tuesday in a televised interview on ESPN that changes are coming to the All-Star Game — and while stopping short of saying any decision has been finalized, he hinted that the current format of top vote-getters serving as captains and drafting their own teams may be shelved.

"Maybe a return to something more traditional, in terms of how the teams are presented," Silver said in the interview on ESPN's "First Take" program. "We went to sort of this captain-draft notion, but clearly, historically, it was East vs. West, so that's something we are looking at."

This season's All-Star Game is at Indianapolis on Feb. 18. The league has not yet announced any format changes.

The first 66 All-Star Games all had the East vs. West format. The last six have seen the leading vote-getters from each conference serve as captains who got to draft their teams; LeBron James served as one of the captains all six times, with Giannis Antetokounmpo the other captain three times, Kevin Durant twice and Stephen Curry once.

The last four All-Star Games have used a target score at the end of games, ensuring that the matchup ends on a made shot. Fourth quarters have been untimed; the winner is the first team to reach whatever the leading team had after three quarters, plus 24 points — the 24 is a nod to Kobe Bryant's last jersey number.

The first year of the target score format saw a fourth quarter that was incredibly dramatic. Last season's game, however, was almost completely uncompetitive and became a disaster in terms of television ratings — in part because some of the biggest names like James, Antetokounmpo, Durant and Curry all missed much or all of the All-Star Game because of injury.

"I mean, it's fun to kind of get out there and do some dunks and stuff like that," Utah's Lauri Markkanen said after last season's All-Star Game. "But we're all competitors. I think everybody would enjoy too if we just play against each other and it gets competitive."

League officials said last week that they have been stressing to players the importance of improving the quality of the All-Star Game. It has been a talking point for years, as has the slam dunk competition — which got a serious shot in the arm last season when Mac McClung put on a show for the ages.

"When you turn on an NBA All-Star Game, I think people expect to see some competition," said Joe Dumars, the league's executive vice president and head of basketball operations. "There's a happy medium somewhere between a hard-fought playoff game and what you saw last year. ... When you have the reaction that fans had and people had around the game and just visually, it matters because it didn't make the product look good."

It's unclear when the league will finalize any All-Star Game changes.

"We've lost sight a bit that it's about the game at the end of the day," Silver said.

EXHIBIT H: Orders of City Council

ORDER OF THE AUBURN CITY COUNCIL
November 6, 2023

WHEREAS, the City adopted the #10 Downtown Municipal Development Tax Increment Financing District (the "District") and approved a municipal tax increment financing district development program for said District (the "Development Program") by order of its City Council on July 15, 2002, pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, which was later confirmed by a letter of the Maine Department of Economic and Community Development ("DECD") dated June 15, 2012; and

WHEREAS, the City adopted the First Amendment to the District and Development Program by order of its City Council on December 2, 2013, and DECD approved the amendment by letter dated July 23, 2014 (the "First Amendment"); and

WHEREAS, the City adopted the Second Amendment to the District and Development Program by orders of its City Council on September 12, 2016 (the "Second Amendment"), and adopted the Third Amendment to the District and Development Program by orders of its City Council on November 20, 2017 (the "Third Amendment"), which were jointly approved by DECD per letter dated March 6, 2018; and

WHEREAS, the proposed Fourth Amendment to the District will remove certain properties from the District for the purpose of creating new Tax Increment Financing Districts dedicated to those projects to provide assistance to the developers of said projects; and

WHEREAS, the City seeks to adopt this Fourth Amendment to the District and Development Program in order to maximize the benefits of Tax Increment Financing for certain properties and projects within the City; and

WHEREAS, adopting and implementing the proposed Fourth Amendment to the District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Fourth Amendment to the District in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to adopt the proposed Fourth Amendment to the District and Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the Fourth Amendment to the District and Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the Fourth Amendment to the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the Fourth Amendment to the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the Fourth Amendment to the District and the Development Program on any existing business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the Fourth Amendment to the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Fourth Amendment to the #10 Downtown Municipal Development Tax Increment Financing District as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Fourth Amendment to the Development Program for the #10 Downtown Municipal Development Tax Increment Financing District in the form presented to the City Council.

Section 4. The foregoing adoption of the Fourth Amendment to the District and Development Program shall automatically become final and shall take full force and effect upon approval by the Commissioner of the State of Maine Department of Economic and Community Development, without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this Fourth Amendment to the District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

Council Workshop or Meeting Date: November 6, 2023 **Order:** 145-11062023

Author: Councilor Rick Whiting and Councilor Leroy Walker

Subject: ARPA Request from Rebuilding Together Lewiston/Auburn

---

Information: Rebuilding Together Lewiston/Auburn is a non-profit volunteer organization, supported entirely by contributions of time, labor, material and money, who caters to homeowners who, because of limited finances, are unable to make necessary repairs to their home to maintain and stay in them. Skilled and unskilled volunteers, along with able-bodied members of the recipient's family and friends, complete the repairs at no cost to the homeowner. Since the L/A chapter's start in 2002, about 150 homes have been repaired in the Lewiston/Auburn area. The average cost of each project is approximately $2,500.

Rebuilding Together Lewiston/Auburn is requesting a $10,000 donation from Auburn's American Rescue Plan Act (ARPA) funds.

This project aligns with ARPA's focus area 2.18 – Housing Support: Other Housing Assistance.

City Budgetary Impacts: None

Staff Recommended Action: Allocate $10,000.00 from ARPA funds to Rebuilding Together Lewiston/Auburn who will make necessary repairs to homes of those financially unable to do so.

Previous Meetings and History: None

Rebuilding Together™
Lewiston / Auburn

10/18/2023

Re: ARPA funding request

Dear Honorable Mayor Levesque, Manager Crowell and City Council:

Together with the help of many businesses and individuals in our caring community, Rebuilding Together Lewiston/Auburn has done some amazing work over the past twenty-one years. This includes making repairs to approximately 50 Auburn homeowners.

Since 2002 when RTLA was established by John Scott Johnson, a Bates student and the son of the founder of this national non-profit organization, we have maintained our mission by making necessary repairs for safety as well as improvements for the preservation of homes for about 150 homes in the Lewiston/Auburn area. We cater to homeowners who, because of limited finances, are unable to make necessary repairs to their home to maintain and stay in them. The work we do is made possible by donations and volunteers, and this is why I write to you today.

I ask you to consider making a donation of $10,000 to help us continue our work. Over time we have developed an average budget of $2,500 per home which reflects just the costs of material and support (such as food for the volunteers). Volunteer labor is not included in this budget cost per home. Attached is a pamphlet that tells you a little about Rebuilding Together L/A, and below are links to the national website, as well as our chapter in Lewiston/Auburn and a recent Sun Journal article highlighting a recent project. I've enclosed a list of our Board members with contact information. Feel free to call on us with any questions.

And please, if you know of someone in need of home repairs, give them a copy of the enclosed application form. While we can't help everyone who applies, we do our best to help as many as possible with the volunteers and money we have available.

Thank you for your thoughtful consideration.

Sincerely,

David Trask
Vice President

Rebuilding Together.
Lewiston/Auburn
P. O. Box 7161
Lewiston, Maine 04243-7161

Rebuilding Together Lewiston/Auburn is a non-profit organization supported entirely by contributions of time, labor, material and money. We are dedicated to repairing homes of those who, due to financial hardship, age, and/or disability, cannot do the work themselves. Skilled and unskilled volunteers along with able-bodied members of the recipient's family and friends complete the repairs at no cost to the homeowner.

Home safety is the first priority of RTLA. Volunteers provide improvements that enhance the safety and comfort of your home. Because it is primarily a one-day project, major structural repairs are not possible. Also, we need you to understand that time may prevent the volunteers from accomplishing everything that you would like to have done in your home.

To be considered for the program, please complete the enclosed application and return it to Rebuilding Together Lewiston/Auburn at the above address. Please include a verification of income with your application.

If you have any questions about the program or if you need assistance in completing the application, please call 207-344-3232 and leave a message, or email rebuildingtogetherla@gmail.com . A member of the board will get back to you. Final site selections should be made by the first of September and all applicants will be notified by phone or in writing as to whether or not their home has been selected for our program.

This year's Rebuilding Day is May 13, 2023.

Applications must be received by March 31, 2023

Application:

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Eric J. Cousens, Planning and Permitting Director

Subject: Workshop on 87 Mill Street Garage Removal for Riverside Trail Access – Comprehensive Plan Implementation Funding.

Information: In 2012 Rolly's (R&K Properties LLC) acquired a piece of Parce 221-074 from the City of Auburn to construct an addition to the restaurant in exchange for giving the City a piece of Parcel 221-076 that would allow for the future construction of a trail along the Little Androscoggin River that connects from South Main Street to Anniversary Park(see attached property map). Part of that agreement was to demolish the rear portion of the garage that now sits on the land acquired by the City. The garage was built in two sections and the demolition of the rear portion is technically possible, but we have determined through contractors estimates that it will cost significantly more than demolishing the entire structure and replacing the portion retained by R&K Properties LLC. Removal and repair of the rear wall was promised to the property owner and has taken some time to work out the details. The existing building has been used primarily for community storage and personal storage and the owner has prioritized community storage of seasonal decorations and the Marshall Popcorn Truck.

We are ready to remove the structure and the property owner is open to replacement of a structure of a similar size to match the existing front portion of the building in the approximately same location. We have demolition cost estimates that are dependent on timing during the off season this fall/winter for $30,000. We are working on finalizing an updated budget and building specification for the replacement structure and expect to have agreements with the owner and budget pricing soon. Completion of this project is required to complete previous agreements with the owner and is the most cost-effective way to create access for the trail and eliminate the deteriorating rear portion of the structure. We have CDBG and demolition funding to complete the demolition already appropriated. We need the Council to approve expending available Comprehensive Plan implementation funds for the replacement structure in order to move this forward. This is for Council information and background and we will have a not to exceed budget proposal for the use of already approved CIP Comprehensive Plan Implementation Funds at the December 4, 2023 Council Meeting.

Staff is preparing estimates and will balance the desire to minimize costs with the goals of creating an attractive, flexible use structure that can continue to meet the private and community needs that the existing structure has served.

City Budgetary Impacts: Demolition and Replacement Costs.

Staff Recommended Action: Staff Recommended Action: Staff recommends that the Council discuss the proposal and provide any feedback as we prepare for considering allocating funds on December 4th.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Comprehensive Plan Excerpts

2021 Recreation Chapter Strategies:

Strategy E.1.2.b: Support the connection of local recreational facilities along the Androscoggin River with riverfront facilities in other communities, such as the Androscoggin Riverlands and Lewiston.

Strategy E.1.2.c: Identify and develop new land and water access points that create connectivity with the Androscoggin and Little Androscoggin Rivers and surrounding recreational opportunities. Utilize public and private resources to mitigate financial, recreational, and cultural impacts.

New Auburn Master Plan Strategies

Recreation Objective B: Encourage LA Trails' efforts to create a trail system, where feasible, within the "greenbelt" linking the open spaces to the sidewalk network and major destinations such as schools and the business district (see Map 2, page 20).

i. Support efforts to develop a trail connection between the Barker Mill Trail and Moulton/West Pitch Park through the establishment of a pedestrian bridge across the Little Androscoggin River.

Recreation Objective 1.C: Support organizations such as the Androscoggin Land Trust and LA Trails in their efforts to develop and maintain boat launches and other riverfront recreational amenities.

City of Auburn, Maine

"Maine's City of Opportunity"

Office of Planning & Permitting

July 26, 2012

Ken Blais
R&K Properties, LLC
87 Mill Street
Auburn Maine 04210

Re: **87 Mill Street, Auburn Maine 04210 / Property ID # 221-076, 221-075 and a portion of 221-074 / Zoning Conformance Letter**

Dear Mr. Blais:

I am writing in regard to the property located at 87 Mill Street, Auburn Maine 04210 (PID # 221-076). The subject property is located within the General Business (GB) zoning district and is occupied by an existing building and business, namely Rolly's Diner. City records indicate that the abutting lot (PID 221-075) is held in common ownership with 87 Mill Street (PID#221-076). As we have discussed the owner of the above mentioned properties intends to acquire a portion of the abutting parcel (PID#221-074) best described as a 25'wide strip of land along the western side of the property as shown on the attached map. With that acquisition and the combination of the three parcels noted above, the City will consider the parcels as one lot for zoning and permitting purposes.

The GB zoning district requires the following for setbacks:

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

To determine the front setback for the parcel, we need to look at the *lots next thereto on either side.* The land to the west between the parcel in question and the Little Androscoggin River is a Public Easement and not a lot for the purposes of this determination. The first lot to the

northwest along Main Street is 374 Main Street (PID#221-073) which is occupied by a building with a zero (0) front setback. The first lot to the southeast along Main Street/South Main Street is 80 Mill Street (PID#221-078) which is occupied by a building with a zero (0) setback along South Main Street. Therefore, the average depths of *lots next thereto on either side* is zero (0) and the front setback requirement for the combined parcels to be known as 87 Mill Street will be zero (0). Any new structures or additions on that parcel will be allowed a zero (0) front setback along Main Street.

The side setback for this parcel will be 25' and will be met on the 25' strip of land that the owner of the above mentioned property intends to acquire.

Should you have any questions regarding this matter please don't hesitate to contact me at 333-6601 Extension 1154.

Sincerely,

Eric Cousens

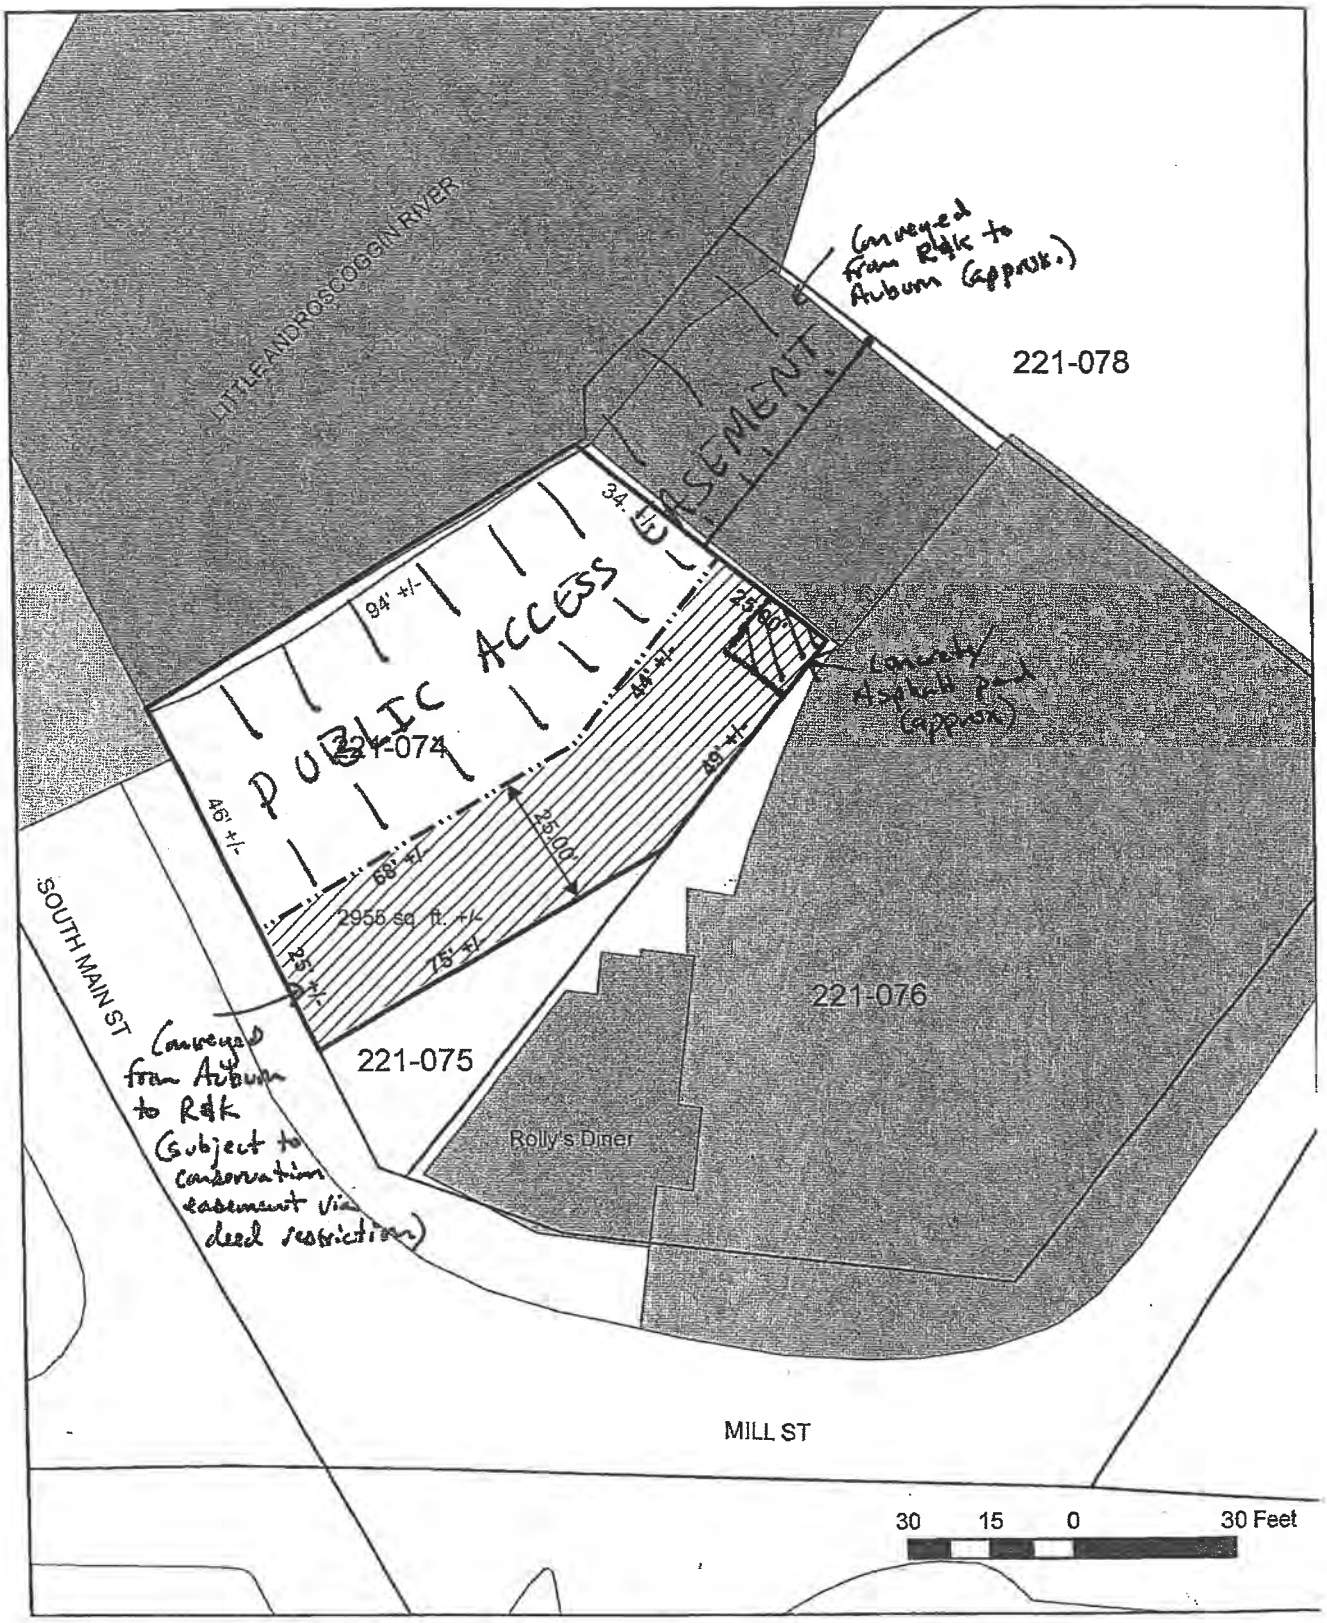
Proposed Conveyance to R & K Properties LLC



IN COUNCIL REGULAR MEETING NOVEMBER 6, 2023, VOL. 37 PAGE 99

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilor Whiting had an excused absence. All other Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

Moment of Silence and In Memoriam to pay respect to the 18 victims of the October 25, 2023 mass shooting event in Lewiston.

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 142-11062023
Appointing Warden's and Ward Clerks for the Nov. 7, 2023 Election.

Motion was made by Councilor Morin and seconded by Councilor Walker for passage.

Passage 6-0.

II. Minutes

October 16, 2023, Regular City Council Meeting
Motion was made by Councilor Walker and seconded by Councilor Milks to approve the minutes of the October 16, 2023, Regular City Council Meeting.

Passage 6-0.

October 23, 2023, Special City Council Meeting
Motion was made by Councilor Walker and seconded by Councilor Milks to approve the minutes of the October 23, 2023, Special City Council Meeting.

Passage 6-0.

III. Communications, Presentations and Recognitions

- Mayor Levesque recognized Hilary Dacko-Roy, Todd Pelletier, and Dan Hall, representatives of Hannaford Supermarket for Hannaford's generous donation to be used for a second Project Support You responder in the city.
- Communication – Special Event/Mass Gathering Application for New Year's Eve Auburn Event
- Public Safety Wellness Program presented by Police Chief Jason Moen and Fire Chief Robert Chase and guests Dr. Ben Stone and Vince Pallozzi who attended via Zoom
- Council Communications (about and to the community)

Mayor Levesque reminded the public that the polls open at 7:00 am tomorrow and encouraged residents to vote; on Friday, December 1st there will be a tree lighting and

Christmas Shopping Village opens in Anniversary Park; there will be a holiday shopping event at the Hilton Garden on Thursday, November 30th from 5:00 to 7:00 pm.

Manager Crowell provided an update on the recycling program. He also announced that starting Wednesday night at 7:00 pm, the St. Louis Bells will ring 18 times over the course of 18 weeks to honor the 18 victims of the October 25th shooting event. He reminded Councilors that they have two more meetings for the remainder of this term, November 20th and December 4th. Some items coming up are a report from our auditors, the Miller Street discontinuance, and the Lake Auburn ordinance amendments.

Councilor Staples thanked the City Clerk for the work put into the upcoming election.

Councilor Walker announced that there will be a Thanksgiving Dinner held on Thursday, November 23rd at the Senior Community Center hosted by the Age Friendly Community Committee. They are asking for donations of $5.00 and are also requesting that anyone interested in attending call the Recreation Department at ext. 2101 by November 20th so they can get a count on how many will be attending.

Councilor Gerry said she has been asked what we have planned for people to get out of the elements as it gets colder.

IV. Open Session – No one from the public spoke.

V. Unfinished Business

1. Ordinance 22-10162023
Amending the Auburn Zoning Ordinance – Minimum Dwelling Size. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Passage 6-0. A roll call vote was taken.

2. Ordinance 23-10162023
Amending the Auburn Zoning Map, Area B change, from UR, SR, and LDCR to T4.2B. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public hearing – Scott Crane, 271 Vickery Road, reiterated what fellow neighbors and citizens have said and would like council to vote no on this item.

Pam Rousseau, 745 West Auburn Road, also would like council to vote no on this item adding that she does not think it is right to allow 16 units per acre.

Failed 0-6. A roll call vote was taken.

3. **Public hearing -** Miller Street Discontinuance.

The Mayor opened the public hearing at 7:40 pm. No one from the public spoke. The Mayor closed the public hearing at 7:40 pm.

VI. New Business

1. **Order 143-11062023**
Approving the discontinuance of Chestnut Street.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment - No one from the public spoke.

Passage 5-1 (Councilor Walker opposed).

2. **Order 144-11062023**
Amending the Downtown Omnibus TIF #10. Public hearing and vote.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed).

3. **Order 145-11062023**
Allocating $10,000.00 from ARPA (American Rescue Plan Act) funds to Rebuilding Together Lewiston/Auburn who will make necessary repairs to homes of those financially unable to do so.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – David Trask spoke on behalf of Rebuilding Together Lewiston - Auburn, thanked the City Council for considering this request.

Passage 6-0.

4. **Open Session**

Chaplain Eddie Greyfox Burgess urged Veterans to go to the Auburn Mall for a Hire a Vet Campaign and Resource Fair on November 9th. The Green Ladle will be holding lunch on the 8th and there will be many resources at the Fall Festival at Cabella's. He added that there are also many services for active-duty individuals.

5. **Reports (from sub-committees to Council)**

Mayor Levesque announced that the Auburn Exchange Club will be offering a free Annual Veteran's lunch at the Green Ladle on November 8th and encouraged veterans to join him. He reported on the School Committee meeting that was held on Wednesday. Last, he noted that the Victims Resiliency Center will be opening up on the 13th of November at 184 Main Street in Lewiston.

City Manager Crowell thanked the team in Auburn for collaborating and working alongside Lewiston during the October 25th incident. He also commended the communications team at the 9.1.1 center that fielded over 700 calls between 7:00 pm and midnight. He thanked the City Council, the Mayor, members of the community and city staff for their efforts.

IX. Executive Sessions - None

X. Adjournment

Motion was made by Councilor Morin and seconded by Councilor Hawes to adjourn.

Unanimously approved and the meeting adjourned at 7:58 pm.

City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Jennifer Boenig, Downtown Coordinator

Subject: Approving the Mass Gathering for New Year's Auburn event

---

Information: New Year's Auburn is scheduled for Sunday, December 31, 2023 from 3:00-9:00 PM. The event will be held in Festival Plaza and on Main Street which will be closed with public works trucks and barricades. This free community event will feature live music, craft brews, food trucks and more.

A mass gathering is defined as any gathering held outdoors with the intent to attract the continued attendance of 1,000 or more persons for two or more hours.

City Budgetary Impacts: This event is budgeted through the Communications Department.

Staff Recommended Action: Hold the public hearing and motion to approve the mass gathering.

Previous Meetings and History: Communication to council on November 6, 2023.

Separate fee and permit possible	**FOOD** – Will food or beverages be sold? If yes, list what types of food or beverages: Auburn licensed food trucks and vendors will be selling food. Note - A food service license may be required and must be submitted 14 days prior to the event. Other requirements and/or restrictions may apply.	☑	☐	☐
Separate fee and permit possible	**NON-FOOD ITEMS** – Will products be sold or given away (such as t-shirts, crafts, souvenirs, etc.)? If yes, list what items: possible band merch for sale. Note - A peddler permit may be required and must be submitted 14 days prior to the event.	☐	☐	☑
N/A	**LIVE MUSIC** – Will there be any outdoor musical performances? If yes, please describe: 3 bands will be taking the stage.	☑	☐	☐
N/A	**SOUND AMPLIFICATION** – Will there be a microphone or speaker system to project sound?	☑	☐	☐
Separate fee and permit possible	**ALCOHOL** – Will alcoholic beverages be sold? Note – Vendor must hold a valid State of Maine liquor license and submit an Off Premise Catering Event application 14 days prior to the event.	☑	☐	☐
Separate fee and Permit required	**CARNIVAL** – Will carnival rides be offered? If yes, attach a copy of the state permit. A city permit is required as well.	☐	☑	☐
Separate fee and Permit required	**FIREWORKS** – Will there be a fireworks display? If yes, a permit from the Fire Department is required.	☑	☐	☐
N/A	**PARADE** – Will there be a parade? If yes, describe route: Note – A permit from the Police Department is required.	☐	☑	☐
N/A	**RUN/WALK/CYCLE** – Will event involve participants doing a walk-a-thon, road race, etc.? If yes, describe route:	☐	☑	☐
Separate permit required	**BURN PERMIT** – Will there be any open flame such as a bonfire? If yes, describe activity: Note - A permit from the Fire Department is required.	☐	☑	☐

N/A	**TENT/CANOPY** – Will you be setting up a tent or canopy? If yes, list number and sizes: three 20x40 tents in the plaza along with some 10x10 ez-ups; covered stage	☑	☐	☐
Separate fee and permit required	**ELECTRICAL POWER/EQUIPMENT** – Will electrically powered equipment be utilized, if so, provide a brief description of the equipment and the entity responsible for the installation of the electrical equipment? sound, audio production equipment provided by HPA Productions	☑	☐	☐
N/A	**ROAD/INTERSECTION CLOSURE** – Will any roads need to be closed to accommodate your event? If yes, please list: Main Street from Miller Street to Court Street, hard closures with PW trucks.	☑	☐	☐
N/A	**MAP/DIAGRAM** – Is a map or diagram attached detailing this event and depicting the placement of such items as tables, tents, port-a-potties, stage, parking, food service areas, etc.? This is a mandatory requirement for this application and must be included.	☑	☐	☐
N/A	**PARKING ACCOMODATIONS** – What will be the anticipated need for parking and what is your parking plan? 131 Main Street and city parking garage	☑	☐	☐
N/A	**TOILETS** – Please list amount at event and/or nearest location: 12 portable toilets inside the alcohol permitted area.	☑	☐	☐
N/A	**WASTE DISPOSAL** – Please list process and location: 12 trash cans throughout the plaza and Main Street	☑	☐	☐
N/A	**HAND WASHING FACILITIES** – Please list amount at event and/or nearest location: portable toilets and hand sanitizer available at food & beer vendors and entry points.	☑	☐	☐
N/A	**POTABLE WATER** – Please list amount at event and location: bottled water in pump house	☐	☑	☐
N/A	**FIRST AID FACILITIES** – Please list location at event: Auburn Fire on-site	☑	☐	☐
$	**TOTAL FEE INCLUDED** – Checks payable to "City of Auburn"			

EVENT LIABILITY INSURANCE COVERAGE FOR EVENT

For an event such as a walk-a-thon, race, festival, concert, etc., the city requires general liability insurance coverage. The **City of Auburn** is to be named as "additionally insured" for the event activities on that date. Once the event is approved, the Certificate of Insurance will need to be received at least 30 days before the event and before permits can be issued. Please have the City of Auburn listed on the Certificate of Insurance (minimum coverage $1,000,000 Bodily Injury or Death, per occurrence, and $300,000 Property Damage, per occurrence). It should contain a clause providing that the policy may not be cancelled by either party except upon not less than 30 days written notice to the city. Please have your insurance company fax a copy to: City Clerk 207-333-6623.

DESCRIPTION OF EVENT – Please describe what will occur during your event

New Year's Auburn is a free community event, celebrating the new year with live music, local craft brews, food trucks, fireworks and fun in the heart of downtown Auburn.

Signature of Applicant: Jennifer Boenig Printed Name: Jennifer Boenig Date Submitted: 10-31-23

Please note that you will be contacted by City Staff if you require additional permitting.

Please return this completed application with diagram and any applicable fee to:

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

A public hearing will be held by the Auburn City Council on November 20th, 2023, at 7:00 p.m. or as soon as possible thereafter, in the Council Chambers of Auburn Hall, 60 Court Street, to consider the Special Event/Mass Gathering application for:

New Year's Auburn, to be held at Festival Plaza/Main Street and surrounding areas on December 31st.

All interested persons may appear and will be given the opportunity to be heard before final action is taken.

ORDER 146-11202023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby approves the Mass Gathering permit for the December 31, 2023 New Year's Auburn event sponsored by the City of Auburn.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Police Chief Jason Moen and Fire Chief Robert Chase

Subject: Public Safety Wellness Program

Information: According to national statistics, first responders are more likely to develop heart disease at rates that supersede rates of heart disease found in civilian populations, develop heart disease at younger ages than observed in civilian populations and most importantly law enforcement/fire-fighters develop heart disease absent of clinical markers classically associated with early-onset heart disease. Additionally, Maine's "presumption laws" has identified many forms of cancer where a firefighter received the injury or contracted the disease arising out of and in the course of employment.

In an effort to proactively reduce the risk of developing heart disease and cancer, the Chief's of the Auburn Police and Fire Departments are requesting an allocation $150,000.00 from the American Rescue Plan Act (ARPA) funds to implement a comprehensive cardiac and cancer laboratory screening evaluations for all personnel that includes nutritional and exercise recommendations. The evaluation will also include a cardiopulmonary/ EKG exercise stress test and offer dietary and exercise recommendations during a physician consultation.

The implementation of this program is an allowable expenditure under ARPA's final rule – 3.3 – *Public Health-Negative Economic Impact: Public Sector Workforce: Other*

City Budgetary Impacts: None

Staff Recommended Action: Vote to allocate $150,000.00 from ARPA funds to implement a Public Safety Wellness Program for personnel of the Auburn Police and Fire Departments.

Previous Meetings and History: Presentation to City Council – November 7, 2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

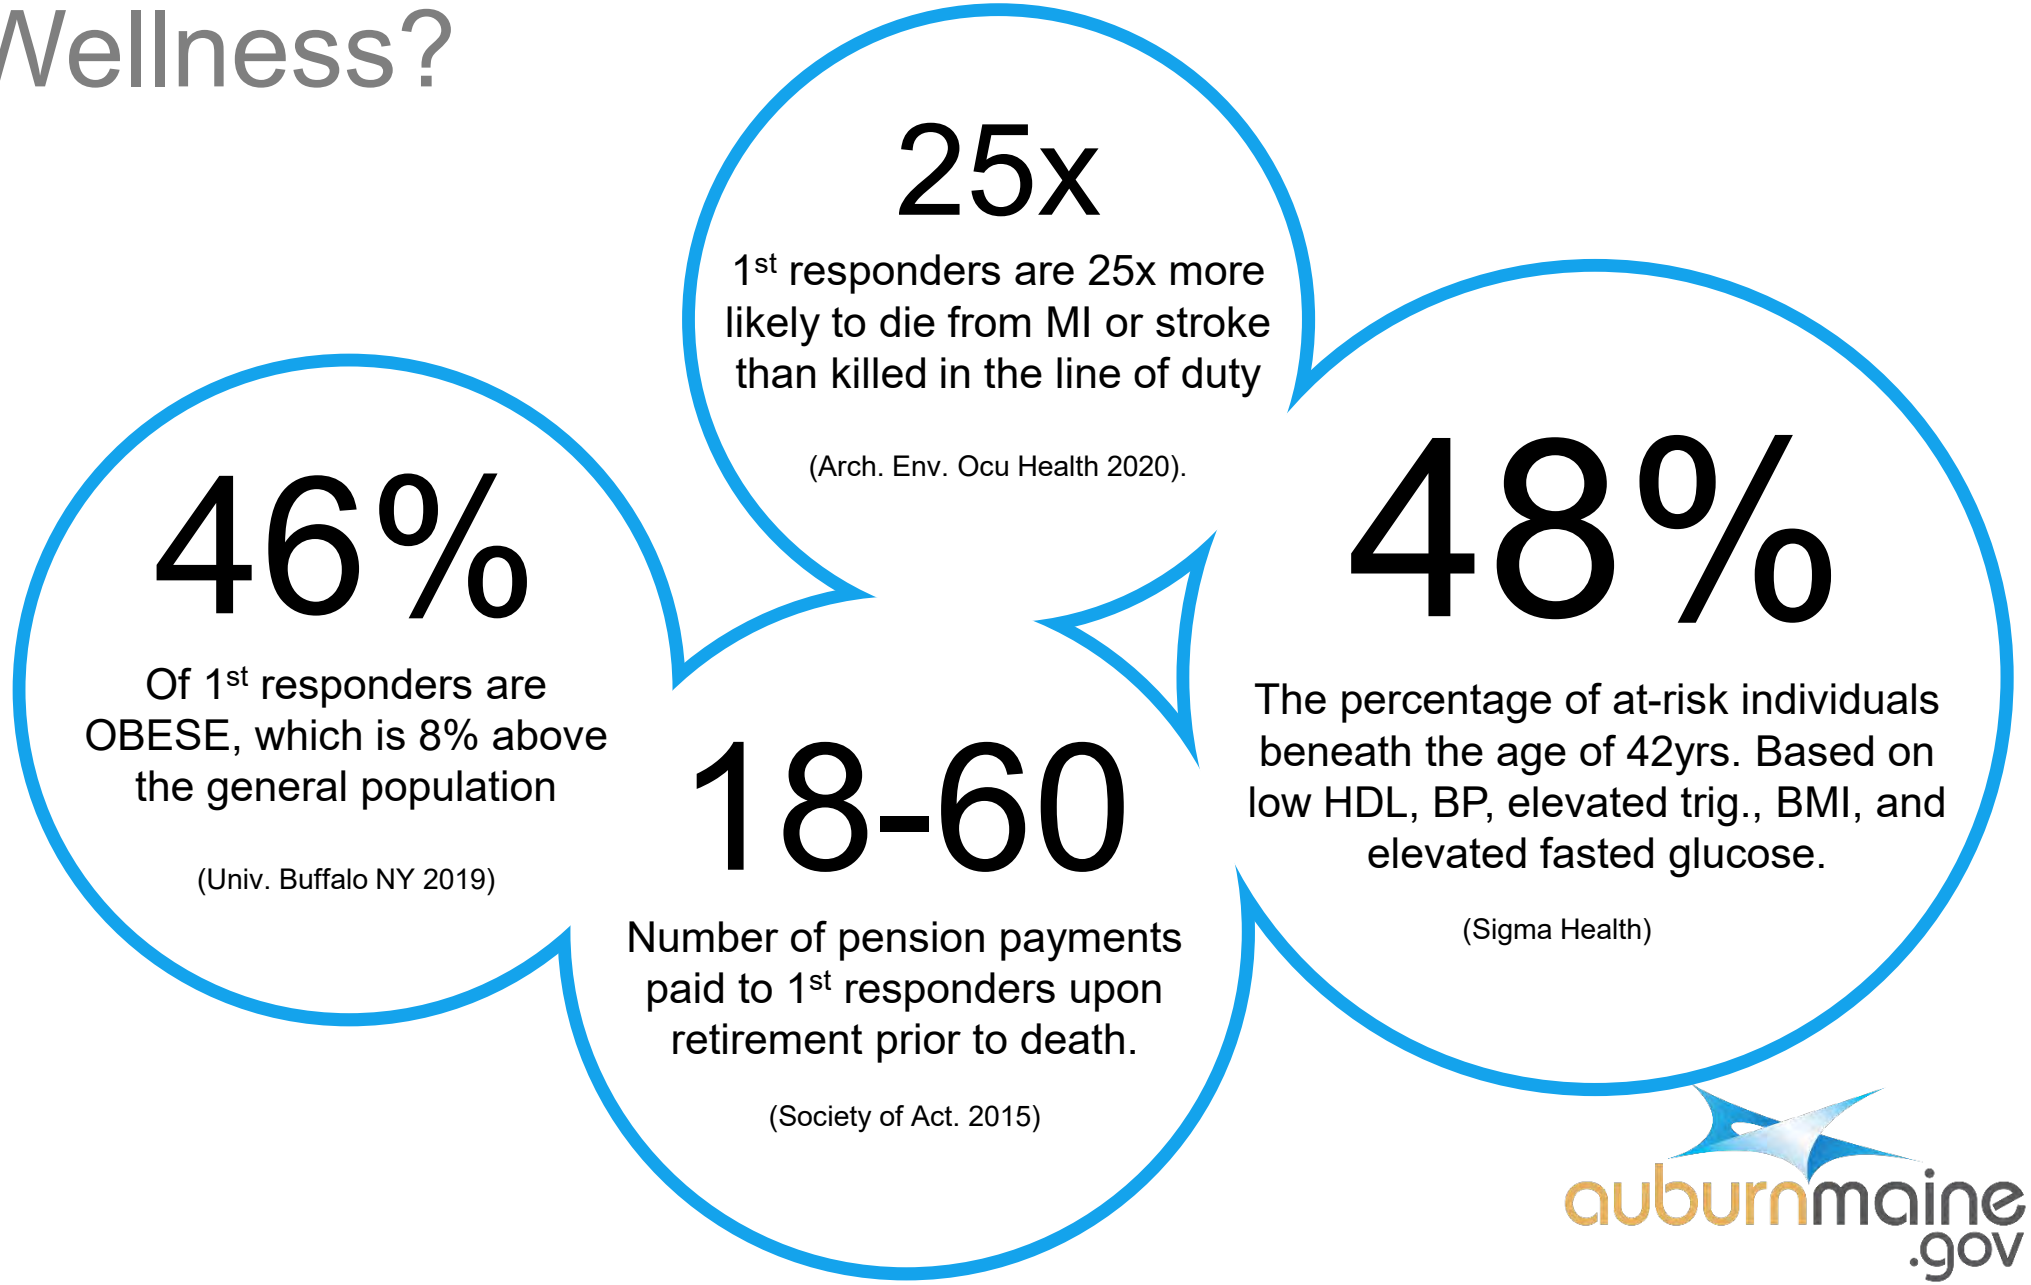
Auburn Public Safety

Wellness Project

Why Wellness?



auburnmaine.gov

Three Questions Plaguing Public Safety

1. **First Responders develop heart disease at rates that supersede rates of heart disease found in civilian populations**

2. **First Responders develop heart disease at younger ages than observed in civilian populations**

3. Law-Enforcement/Fire-Fighters develop heart disease absent of clinical markers classically associated with early-onset heart disease

auburnmaine.gov

Maine Presumption Laws

Title 39-A §328-B. Cancer suffered by a firefighter

Cancer suffered by a firefighter is governed by this section.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Cancer" means kidney cancer, non-Hodgkin's lymphoma, colon cancer, leukemia, brain cancer, bladder cancer, multiple myeloma, prostate cancer, testicular cancer, breast cancer or gynecologic cancer.

C. "Firefighter" means a member of a municipal fire department or volunteer fire association whose duties include the extinguishment of fires, an investigator or sergeant in the Office of the State Fire Marshal or an employee in the forest protection unit within the Department of Agriculture, Conservation and Forestry, Bureau of Forestry whose duties include the extinguishment or investigation of fires.

2. Presumption. If a firefighter who contracts cancer has met the requirements of subsections 3, 6 and 7, there is a rebuttable presumption that the firefighter contracted the cancer in the course of employment as a firefighter and as a result of that employment, that sufficient notice of the cancer has been given and that the disease was not occasioned by any willful act of the firefighter to cause the disease.

Title 39-A §328. Cardiovascular injury or disease and pulmonary disease suffered by a firefighter or resulting in a firefighter's death

Cardiovascular injury or disease and pulmonary disease suffered by a firefighter or resulting in a firefighter's death are governed by this section

1. Firefighter defined. For the purposes of this section, "firefighter" means an active member of a municipal fire department or of a volunteer firefighters association if that person is a member of a municipal fire department or volunteer firefighters association and if that person aids in the extinguishment of fires, regardless of whether or not that person has administrative duties or other duties as a member of the municipal fire department or volunteer firefighters association.

2. Presumption. There is a rebuttable presumption that a firefighter received the injury or contracted the disease arising out of and in the course of employment, that sufficient notice of the injury or disease has been given and that the injury or disease was not occasioned by the willful intention of the firefighter to cause self-injury or injury to another if the firefighter has been an active member of a municipal fire department or a volunteer firefighters association, as defined in Title 30-A, section 3151, for at least 2 years prior to a cardiovascular injury or the onset of a cardiovascular disease or pulmonary disease and if:

A. The disease has developed or the injury has occurred within 6 months of having participated in fire fighting, or training or drill that actually involves fire fighting; or

B. The firefighter had developed the disease or had suffered the injury that resulted in death within 6 months of having participated in fire fighting, or training or drill that actually involved fire fighting.

auburnmaine.gov

Sigma Tactical Cardiac Screening

- Sigma has pioneered a new system of cardiac/metabolic screening correlating known risk factors, genetics, and occupational stressors that are characteristic of public safety. Over the last five years, Sigma have shown massive potential in eliminating the catastrophic effects of cardiovascular disease amongst first responders.

- Sigma's unique approach uses Advanced Metabolic Testing (AMP) to assess precise nutritional status of each individual and recommend key nutritional changes based on that person's individual goals. For first responders, nutritional status underwrites on-duty performance. Sigma's unique methodology gives each first responder a perfect understanding of how to fuel themselves, not only for on-duty performance, but will also lead to increased focus, alertness, less fatigue, and, in general, higher competency to perform the duties required regardless of the situation.

Dr. Ben Stone

auburnmaine.gov

Sigma Tactical Cardiac Screening

- Sigma offers a comprehensive cardiac laboratory screening evaluation that includes nutritional and exercise recommendations. This evaluation includes a CIMT (carotid intima-media thickness test) and an advanced lipid panel test to assess early stages of coronary disease development and identify inflammatory markers (PLA2) that can predict the risk of heart attack. Additionally, a cardiopulmonary/EKG exercise stress test is performed on a stationary bicycle to measure functional capacity, identify any ischemia (lack of blood flow to the heart muscle), and offer dietary and exercise recommendations during the physician consultation using indirect calorimetry.

- Because the demands of public safety are so extreme, studies have shown that each decade of law enforcement effectively doubles each responder's risk for heart attack or stroke. With Sigma's approach, responders are not only shown the effect of their current nutritional status, but they are guided by a licensed professional and taught which lifestyle modifications, based on results from Sigma's metabolic analysis, that are most effective in decreasing BMI, fatigue, and cardiovascular risk factors while realizing an increase in focus and on-duty adaptability.

auburnmaine.gov

Cancer Screening

- The Centers for Disease Control and Prevention (CDC) and the National Institute for Occupational Safety and Health (NIOSH) have found that cancer is a significant health issue for first responders. In fact, cancer is responsible for approximately 61% of deaths among U.S. firefighters. Furthermore, first responders have a higher risk of being diagnosed with cancer compared to the general population. It is important to prioritize the health and well-being of these professionals by providing comprehensive screening and diagnostic tests, as well as addressing potential health risks and mental health concerns.
- Unfortunately, the first responder community is also plagued by other health issues such as obesity, metabolic syndrome, smoking, alcohol use, and stress, which can compound the risk of cancer and other diseases. It is essential to address these health issues proactively to reduce the risk of developing cancer and other diseases.

auburnmaine.gov

Cancer Screening

Benefits of early disease detection

Early detection of diseases through regular screening and diagnostic tests is critical for several reasons:

- Early detection allows for prompt treatment, which can improve the chances of successful recovery and reduce the need for more invasive and costly interventions.
- Regular screening and diagnostic tests can help monitor the health of individuals in high-risk occupations, such as first responders or healthcare workers, and allow for early detection of work-related health issues.
- Early detection and prevention can not only improve the overall population health by reducing the burden of disease and lowering the risk of transmission, but it can also help individuals maintain their physical and mental health, thus enhancing their quality of life.
- Early detection and treatment can prevent or delay the onset of chronic diseases and reduce the risk of disability and premature death.

auburnmaine.gov

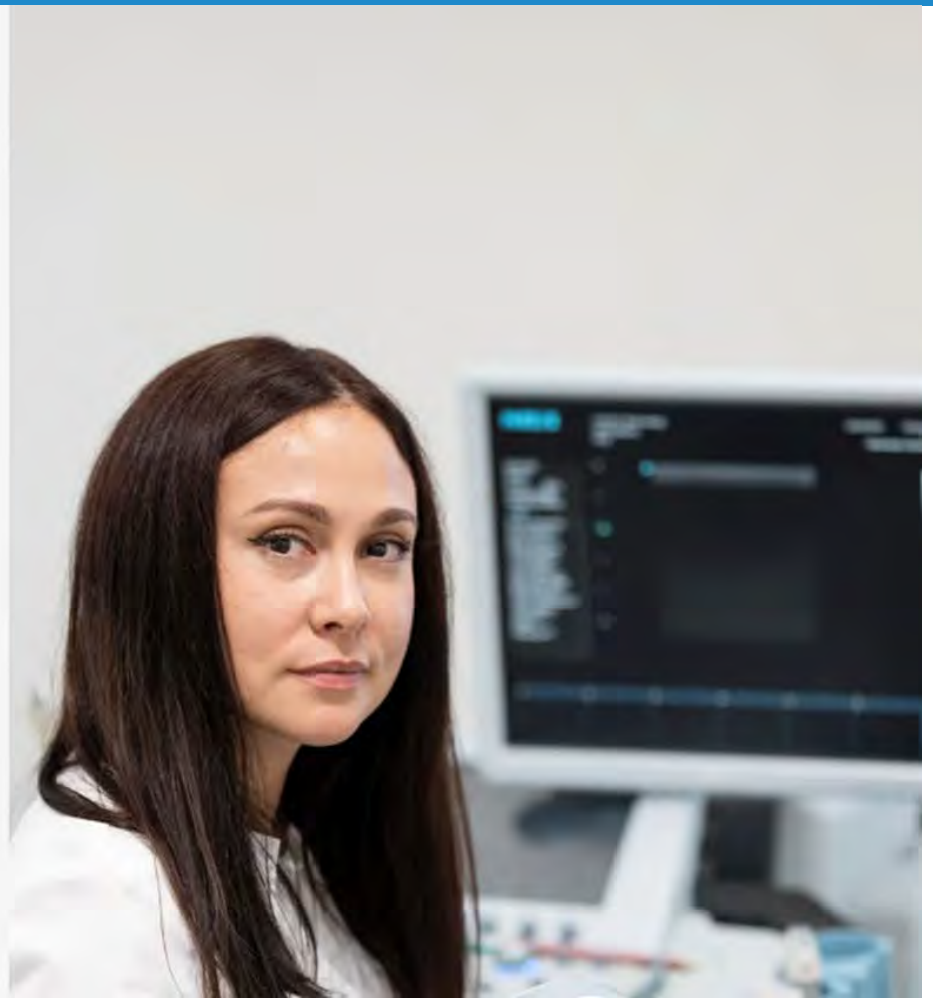
Cancer Screening

Tests and procedures

Comprehensive Screening – Ultrasound

- Echocardiogram (Valve Function, Heart Pumping Ejection Fraction)
- Cartoid Doppler
- Abdominal Aortic Aneurism (AAA)
- Thyroid
- Abdominal and Bladder Ultrasound
- Testicular or Pelvic Ultrasound

UNITED DIAGNOSTIC SERVICES LLC
Saving Lives Through Prevention



auburnmaine.gov

Costs

Cardiac Screening

- Cardiac Laboratory Screening – includes nutritional & exercise recommendations
- Advanced Metabolic Testing
- Cardiopulmonary/EKG exercise stress test
- $799 per responder

Cancer Screening

- Echocardiogram
- Cartoid Doppler
- Abdominal Aortic Aneurism
- Thyroid
- Abdominal & Bladder Ultrasound
- Testicular or Pelvic Ultrasound
- $325 per responder

auburnmaine.gov

ARPA Funding Request

115 First Responders (64 Firefighters, 55 Police Officers)

Cardiac Screening 119 x $799 = $95,081

Cancer Screening 119 x $325 = $38,675

Total Costs - $133,765

auburnmaine.gov

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Phil Crowell, City Manager

Subject: Recreation Department Youth Scholarships

Information: The mass shootings at Just-In-Time Recreation and Schemengees on October 25, 2023, will forever leave a void and heartbreak in the twin cities of Lewiston and Auburn. Multiple children have been directly impacted by the loss of a parent.

In honor and remembrance of the 18 individuals who perished and 13 individuals who were injured, the City of Auburn Recreation Department would like to provide Youth Scholarships – to include individual sports and summer camps – for each of these children.

City Budgetary Impacts: The Recreation Department will absorb associated costs.

Staff Recommended Action: City Council authorizes the implementation of Recreation Department Youth Scholarships for the children of those who perished or were injured in the October 25, 2023, mass shootings.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 149-11202023

City Council Order

IN CITY COUNCIL

ORDERED, that Miller Street, as laid out on plan and titled "Easement Plan", as recommended by the Auburn Planning Board and approved by the Auburn City Council and to be recorded at the Androscoggin County Registry of Deeds , is hereby discontinued 90.94' +/- as a City Street as provided in Title 23 M.R.S.A § 3026-A, 1-6 et sequ:

LOCATION:

Exhibit A
Proposed Street Relocation
Miller Street

A certain lot or parcel of land with the improvements thereon on the easterly sideline of the current location of Miller Street in the City of Auburn, County of Androscoggin, and State of Maine depicted as "Proposed Relocation of Miller Street 4,827 S.F." as shown on an Easement Plan made for JCS 18, LLC by Sebago Technics dated May 5, 2023 as revised through July 28, 2023 (Sheet 3, Job #220503-01), and being more particularly bounded and described as follows:

Commencing at a railroad spike in pavement on the now or former westerly sideline of Miller Street at the northeasterly corner of land now or formerly of City of Auburn as described in a deed recorded in Book 3233, Page 1 and southeasterly corner of land now or formerly of Turson, LLC as described in a deed recorded in said Registry in Book 7852, Page 290, thence N 73°04'09" E across said Miller Steet a distance of 35.62 feet to the northeasterly corner of "Proposed Discontinuation of Miller Street 3,784 S.F." as shown on said Plan, and the now or former easterly sideline of said Miller Street, and the **Point of Beginning**;

1. Thence N 05°10'28" E by said easterly sideline of said Miller Street a distance of 42.28 feet;
2. Thence S 46°08'03" E through land of the Grantor a distance of 33.94 feet;
3. Thence S 20°28'47" E through said land of the Grantor a distance of 15.03 feet;
4. Thence S 05°10'28" W through said land of the Grantor a distance of 107.64 feet;
5. Thence S 36°17'25" W through said land of the Grantor a distance of 18.38 feet;

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: TIF #29 – 186 Main St

Information:
The 186 Main Street Tax Increment Financing District & Development Program (#29) will enable the construction of a mixed-use building, including 18 residential apartments, retail and restaurant space. 186 Main Street is a mixed-use ~23,116 SF facility that will be the home of a Mason's Brewing location, an additional ~1,500SF commercial retail location along Main Street and 18 residential apartments ranging from studios to one and two bedrooms. This project has received approval from the City's Planning Board and a Traffic Movement Permit from the Maine Department of Transportation.

City Budgetary Impacts:
The City intends to establish new Tax Increment Financing Districts for the purpose of capturing tax revenues from new assessed value generated by investments made on these properties. The captured revenue will be spend in a manner which limits impacts on the city budget for planned infrastructure improvements and services as outlined within the Project Cost budget included.

Staff Recommended Action:
Approval of Order as presented.

Previous Meetings and History:

TIF#29 Application

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

The legislature finds a need for new development in areas of municipalities and plantations to: (A) Provide new employment opportunities; (B) Improve and broaden the tax base; and (C) Improve the general economy of the State. The municipal tax increment financing (TIF) program, established under 30-A M.R.S.A. Chapter 206 §5221-5235, is designed to assist municipalities and plantations to develop a program for improving a district of the municipality or plantation: (A) To provide impetus for industrial, commercial, transit-oriented or arts district development, or any combination; (B) To increase employment opportunities; and (C) To provide the facilities outlined in the development program adopted by the legislative body of the municipality or plantation. The TIF Statute provides that before final designation of a tax increment financing district, the Department of Economic and Community Development (DECD) commissioner shall review the proposed district and development program to ensure compliance with statutory requirements.

Before designating a development district within the boundaries of a municipality or plantation, or adopting a development program for a designated development district, the municipal or plantation legislative body or the municipal or plantation legislative body's designee must:

a) Hold at least one public hearing,
b) Publish notice of the hearing at least 10 days before the date of the hearing in a newspaper of general circulation within the municipality or plantation,
c) At the hearing, the legislative body of a municipality or plantation must consider:
    i. Whether the proposed district or development program will contribute to the economic growth or well-being of the municipality or plantation or to the betterment of the health, welfare or safety of the municipal or plantation inhabitants,
    ii. Any claim by an interested party that the proposed district or development program will result in a substantial detriment to that party's existing business in the municipality or plantation and produces substantial evident to that effect.

Mail completed application, with tabs separating exhibits, to:

DECD/Office of Business Development (MTIF)

111 Sewall Street

Augusta, ME 04330

(e-mailed applications are <u>not</u> accepted)

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

Municipalities wishing to create a municipal tax increment financing district to fund development programs must apply to DECD using the following application including all attachments noted below, in the order listed:

1. Table of Contents
2. Completed DECD MTIF Application, provided by DECD
   Refer to "Checklist for Municipal Tax Increment Financing (MTIF) Application" to ensure application completeness
3. Exhibit A: Statutory Thresholds and Requirements form, provided by DECD
4. Exhibit B: Assessor's Certificate of Original Assessed Value
5. Exhibit C: Map of District Location within Municipality
6. Exhibit D: Map of District Boundaries
7. Exhibit E: Annual Revenue Spreadsheet
8. Exhibit F: Annual Tax Shift Spreadsheet
9. Exhibit G: Copy of 10-Day notice of public hearing, including name and date of publication
10. Exhibit H: Minutes of Public Hearing, attested to with dated signature
11. Exhibit I: Record of District designation and Development Plan adoption by municipal legislative body

If applicable,

1. Exhibit J: Project Costs Spreadsheet
   Refer to MTIF Application, "Checklist For MTIF Application"for required information
2. Exhibit K: For Downtown TIF application, include a comprehensive Downtown Redevelopment Plan with the completed Downtown Redevelopment Plan Criteria Checklist and verification of municipal legislative body approval
3. Exhibit L: For Transit-Oriented Development District, include a map clearly identifying transit facilities plus areas and corridors respective of §5222 (20), (22) & (23)
4. Exhibit M: If an amendment and not already provided, a copy of any executed credit enhancements agreements.
5. Exhibit N: Copy of any municipality/plantation TIF policy

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Municipal Tax Increment Financing
Application

Section 1- Cover Letter and Application Cover Sheet

1. **Name of municipal tax increment financing (TIF) district and development program:** #29 186 Main St
2. **This is an** original application. **If an amendment, what amendment number?** Choose a number.
3. **Is this a Downtown designated TIF?** No.
   If yes, provide the following information regarding the *Downtown Redevelopment Plan:*
   a. **Name:** Click here to enter text
   b. **Date approved by municipal legislative body:** Click to enter a date. (Include verification of this approval with Exhibit I)
   The Downtown Redevelopment Plan must contain the components outlined in the DECD "Downtown Redevelopment Plan Criteria Checklist"
4. **Is this development district considered a/an [check the appropriate box(es)]?**
   ☐ **Industrial** ☑ **Commercial** ☐ **Transit-oriented** ☐ **Arts**
   If this is a transit-oriented development designation, a map is required identifying transit facilities plus areas and corridors pursuant to MRS 30-A §5222(20), (22) & (23). (Exhibit L)
5. **Municipality name:** City of Auburn
6. **Municipality address:** 60 Court St Auburn, ME 04210
7. **Municipality county:** Androscoggin
8. **Municipal telephone number:** 207-333-6601 ext. 1159
9. **Municipal official's name:** Phillip Crowell
10. **Municipal official's title:** City Manager
11. **Municipal official's e-mail address:** pcrowell@auburnmaine.gov
12. **If different from #9 above, contact person/consultant**: Zakk W. Maher
13. **Municipal contact/consultant phone number:** 207-333-6601 Ext. 1336
14. **Municipality contact/consultant e-mail address:** zmaher@auburnmaine.gov
15. **Municipality's assessor's name:** Karen Scammon
16. **Municipality's assessor's e-mail address:** KScammon@auburnmaine.gov

The municipal official named below, certifies he/she has the authority to submit this Application to DECD and further certifies all the information contained in this Application, and its attachments, are true and correct to the best of his/her knowledge.

_____
Print municipal official's name & title

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 2 - Purpose/Basis Original/Amended Application

1. **Provide a brief, "headline" sentence explaining purpose/basis of this application.**

The 186 Main Street Tax Increment Financing District & Development Program (#29) will enable the construction of a mixed-use building, including 18 residential apartments, retail and restaurant space.

2. **If needed, provide additional information related to the purpose/basis of this application. If this is an amendment, provide a brief, concise overview of the purpose of the original application and each amendment submitted to date.**

   186 Main Street is a mixed-use ~23,116 SF facility that will be the home of a Mason's Brewing location, an additional ~1,500SF commercial retail location along Main Street and 18 residential apartments ranging from studios to one and two bedrooms. This project has received approval from the City's Planning Board and a Traffic Movement Permit from the Maine Department of Transportation, and is fully developed for bid plans.

   186 Main Street is a vibrant mixed-use offering located in the center of Auburn Maine. This project will bring density to the City's downtown area by providing 18-modern market rate apartments and a couple extremely attractive sense of place commercial offerings - one of which is an extremely popular and high quality restaurant and brewery: Mason's Brewing. This sense of place contributor will increase job opportunities for the service industry, housing options in the City center as well as improve the overall enjoyment and quality of life for Auburn community members and beyond by providing an exciting, attractive, and family-friendly restaurant and brewery.

   During construction, it is estimated that 30-40+ local businesses will be involved employing local construction professionals to build this vibrant downtown urban center offering. In addition, once online, Mason's brewing will employ many service industry professionals in the area. The exact number of employees and wages are not yet known though since the offering is occupying a vacant site, it will significantly add to the employment options in the City of Auburn's urban center.

   Under this Development Program, the City will capture the increased assessed value of taxable real property over the original assessed value of the District and retain the tax revenues generated by the captured assessed value for designated economic development purposes. The calculation of TIF Revenues (as defined below) is more specifically described below in Section VI – Financial Plan. In the Assessor's Certificate attached as Exhibit B hereto, the Assessor has certified the original assessed value of the District.

   By adopting this Development Program, the City is creating a TIF district that will: (1) maintain existing tax revenues; (2) enjoy enhanced future tax revenues generated by new development within the District; and (3) shelter the captured assessed value from impacting the overall State valuation for the City of Auburn, thereby minimizing: (a) potential decreases in the City's State school subsidy and State revenue sharing, and (b) potential increases in the City's county tax assessments and local school district contributions.

   Further, approval of this Development Program and the designation of the District will have a neutral impact on

the existing tax base; only the increased assessed value over the original assessed value within the District will be captured. In addition, at the end of the District and Development Program, the City expects to emerge with a substantial amount of new taxable property value to add to its municipal tax base.

This Development Program is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute"). Subsequent to a City Council vote designating the District and adopting this Development Program, evidenced by Exhibit I hereto, the designation of the District and adoption of this Development Program are effective upon approval by the DECD.

Section 3 - Company/Developer Information

A. Business General Information
[include whenever a company/developer is part of a TIF district proposal (regardless of whether a CEA is offered]:

1. **Business name:** JCS 18, LLC
2. **Business address:** 20 Mechanic St Gorham, ME 04038
3. **Business phone number:** 207-839-2744
4. **Business contact person:** Jonathan Smith
5. **Business contact person e-mail address:** jon@greatfallsinc.com
6. **Principal place of business:** Gorham, ME
7. **Company structure (e.g. corporation, sub-chapter S, etc.):** Corporation
8. **Place of incorporation:** Maine
9. **Name of Officer(s):** Jonathan Smith, President & Cynthia Smith, Vice President
10. **Name of principal owner(s) name:** Jonathan & Cynthia Smith

11. **Address:** 20 Mechanic St Gorham, ME 04038
12. **Brief project description:** JCS 18, LLC will be the Property owner, an affiliated company of Great Falls Construction both owned by Jon and Cindy Smith. Once in operations, the property will be managed by JCS Property Management. JCS Property Management is the Development Property Management and Maintenance division of Great Falls Construction.
13. **Total amount of project new investment by company/developer: $** $7,325,000
14. **Will there be a credit enhancement agreement with this business?** Yes. If so, complete the rest of this section and Section 4.

B. Disclosure, only in cases where a CEA is offered to the above business:

1. Check the public purpose(s) that will be met by the business using this incentive:

☐ **job creation** ☐ **job retention** ☐ **capital investment**
☐ **training investment** ☒ **tax base improvement** ☐ **public facilities improvement**
☐ **other (list):** Click here to enter text.

2. Check the specific item(s) for which TIF revenues will be used by the business:

☒ **real estate purchase** ☐ **machinery & equipment purchase** ☐ **training costs**
☒ **debt reduction**
☐ **other (list):** Click here to enter text.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 4 - Employment Goals/Data

Company Goals for Job Creation and Job Retention. (**If a developer**, check box ☒, and skip to Section 5)

A. Job Creation Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical	1		$60,000
2. Administrative/Clerical Support	4		$48,000
3. Sales & Service	18	15	$33,000
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total	23	15	Leave blank
B. Job Retention Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
**See* Occupational Cluster Descriptions for more information.			

INSTRUCTIONS

A. Job Creation Goals. Please list the number, type and wage level of jobs created as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories listed in the "Occupational Cluster Descriptions." Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.

B. Job Retention Goals. Please list the number, type and wage level of jobs retained as a result of the economic development incentive. Part B should be completed using same definitions in Part A.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 5 - Development Program

Public Project(s)

1. **Will there be any public facilities, improvements, or programs financed in whole or in part by the development program?** Yes. See Exhibit J.

Private Project(s)

2. **Will there be any commercial facilities, arts districts, improvements or projects to be financed in whole or in part by the development program:** Yes. **If yes, provide a brief, clear description:** Developers intend to construct a new mixed use building containing commercial space and rental residential housing.

Program Duration

3. **Duration of development district (may not exceed 30 years):**
   a. **District term: Original application**: 30.
   If an amendment, adding how many years? Choose a number **totaling how many years?** Choose a number.
   b. **Start date of** April 1, 2024 **with fiscal year** beginning July 1, 2024 (captured assessed value as of April 1, 2024).
   [Must begin with tax year in which development district designation is effective pursuant to MRS 30-A §5226, or the subsequent tax year (MRS Title 30-A §5224 (2)(H))]
   c. **End date of** March 31, 2054 **with fiscal year** June 30, 2054.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Original Assessed Value

4. **Provide the taxable assessed value of the development district as of the March 31st of the tax year preceding the property tax year in which the district was designated by the legislative body.**

			OAV of Real Property	OAV of Personal Property	As of (complete year)		Total acres
Original district			$40,000.00	$0.00	3/31/2023		0.160
Amendment: (If applicable, with any property added/removed)	#1	-				-	
		+			3/31/____	+	
	#2	-				-	
		+			3/31/____	+	
	#3	-				-	
		+			3/31/____	+	
	#4	-				-	
		+			3/31/____	+	
	#5	-				-	
		+			3/31/____	+	
	#6	-				-	
		+			3/31/____	+	
	#7	-				-	
		+			3/31/____	+	
	#8	-				-	
		+			3/31/____	+	
	#9	-				-	
		+			3/31/____	+	
	#10	-				-	
		+			3/31/____	+	
Total	N/A				N/A		

***Municipal Assessor must certify above original assessed value(s) (Exhibit B).

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 6 - Financial Plan

Increased Assessed Value Information

1. **Total estimated cost for the development program: $** $7,325,000 (Should match "total" from Exhibit J)
2. **Municipality will capture** 100 **of** real property only **increased assessed value for each year of the district term, to apply to the development program.** Click here to enter text, if needed.
3. **If #2 above's captured assessed value is less than 100%, besides the district's original assessed value, what percentage of increased assessed value will be deposited into the General Fund, or if an unorganized territory, to Education and Services fund?** Click here to enter % to be deposited in General Fund/Education & Services fund.

Public Indebtedness

4. **Will there be public indebtedness?** Yes, to be determined.
    a. **If yes, what is the projected amount of public indebtedness to be incurred?** The City will not incur any indebtedness at this time; however, the City may elect to do so at a future date at the descretion of its City Council.
    b. **If an amendment, have any bonds been issued to date pertaining to the approved projects of this district?** Choose an item. **If yes, provide the status, such as years left on bond and amount of outstanding debt.** Click here to enter text.

Anticipated Revenues

5. **Describe sources of anticipated revenues for public projects (clearly and briefly stated):** The source of the revenue to be used to pay the costs of the public projects set forth in this Development Program is the Tax Increment on the increased Assessed Value of the District. Tax increment means all property taxes assessed by the City, in excess of any state, county or special district tax, upon the increased assesed value of all real property in the District. Increased assessed value means the valuation amount by which the current assessed value of the District exceeds the taxable original assessed value of the real property in the District. Current assessed value means the taxable assessed value of the real property in the District certified by the municipal assessor as of April 1st of each year that the District remains in effect. Property taxes means any and all ad valorem propert taxes levied, charged or assessed against real property by the City. Original assessed value means the taxable assessed value of real property in the District as of March 31, 2023 (April 1, 2022). All property tax on the original assessed value shall continue to be deposited into the City's general fund.
6. **Describe sources of anticipated revenues for private projects (clearly and briefly stated):** A portion of the Tax Increment from the District as described above will be used to finance a portion of the construction of the Company's new mixed-use development to be located within the District. The percentage of the Tax Increment will be paid to the Company under the terms of a Credit Enhancement Agreement as set forth below.

Credit Enhancement Agreement (CEA)

7. **Describe terms and conditions of any agreements, contracts or other obligations related to the development program (e.g. CEAs). Ensure to clearly state the reimbursement percentage, along with, if applicable, any local triggers/caps.**
    a. **Will CEAs be offered as part of this development program?** Yes.
    b. **List name(s) of company/developer to be offered a CEA:** JCS 18, LLC
        i. **Provide the CEA reimbursement percentage, term, conditions for each listed company/developer:** 75% CEA reimbursment for 12 years with a cap not to exceed $950,000.

c. **Is this an omnibus application?** No.
If an omnibus, provide clear reimbursement percentage(s) and term(s)/condition(s): Click here to enter text.

d. **Does the municipality have a TIF policy?** Yes. Include a copy in Exhibit N.

If this is an amendment, and if applicable, include a copy of all executed CEAs as Exhibit M.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Development Program Fund and Tax Increment Revenues

Read below. Authorized municipal official must initial in provided spaces, acknowledging understanding of the below information:

If a municipality/plantation has designated captured assessed value, the municipality/plantation shall:

A. Establish a development program fund that consists of the following:

1. A project cost account that is pledged to and charged with the payment of project costs that are outlined in the financial plan and are paid in a manner other than as described in subparagraph (2); and

2. In instances of municipal/plantation indebtedness, a development sinking fund account that is pledged to and charged with the payment of the interest and principal as the interest and principal fall due and the necessary charges of paying interest and principal on any notes, bonds or other evidences of indebtedness that were issued to fund or refund the cost of the development program fund;

B. Annually set aside all tax increment revenues on captured assessed values and deposit all such revenues to the appropriate development program fund account established under paragraph A in the following order of priority:

1. To the development sinking fund account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual debt service on bonds and notes issued under section 5231 and the financial plan; and

2. To the project cost account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual project costs to be paid from the account;

C. Make transfers between development program fund accounts established under paragraph A as required, provided that the transfers do not result in a balance in the development sinking fund account that is insufficient to cover the annual obligations of that account; and

D. Annually return to the municipal or plantation general fund any tax increment revenues remaining in the development sinking fund account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development sinking fund account after taking into account any transfers made under paragraph C. The municipality/plantation, at any time during the term of the district, by vote of the municipal or plantation officers, may return to the municipal/plantation general fund any tax increment revenues remaining in the project cost account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development project cost account after taking into account any transfer made under paragraph C. In either case, the corresponding amount of local valuation may not be included as part of the captured assessed value as specified by the municipality or plantation.

X_____
Initial & date

At the end of the district TIF term, all taxable real and/or personal property value captured in the district will be added to the general tax rolls.

X_____
Initial & date

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Relocation of Person(s)/Business(es)

8. No persons will be displaced as a result of the development activities proposed within the District.

Transportation Improvements

9. As part if this development, a portion of Mill Street as well as the tangential public parking spaces along the Androscoggin River will be realigned as requested by the City's Planning Board. Except for these improvements, the existing transportation facilities of the City will be adequate to accommodate the development activities within the District.

Environmental Controls

10. The improvements made under this Development Program will meet or exceed all federal and state environmental regulations and will comply with all applicable land use requirements of the city.

District Operation

11. **After the planned capital improvements are completed, provide a brief statement of the proposed operation of the development district pertaining to:**
    a. **Public capital improvements:** The City expects to construct improvements to Miller Street, including a relocation of the right of way and underlying utilities and parking on adjacent City-owned land. Otherwise, the day-to-day operations of the District will not require substantial efforts by the City, other than staffing and programming primarily conducted by the City Manager's office and the Business and Community Development Office.
    b. **Private capital improvements:** The private improvements contemplated to occur within the District are expected to be funded by the developer, in part through the reimbursement of tax increment revenue pursuant to a credit enhancment agreement. Other than the credit enhancement agreement, the City will not be responsible for the funding or operation of private capital improvements within the District.

Section 7 - Notice and Hearing

1. **Date of public notice (must be minimally 10 days before the public hearing):** Click to enter a date.
   For Exhibit G, provide a legible **copy** of the newspaper page showing the public hearing , newspaper name and date of publication.

2. **Date of public hearing:** November 20, 2023
   For Exhibit H, provide a copy of the public hearing minutes, attested to with dated signature.

3. **Date municipal or plantation legislative body approved original district designation:** Click to enter a date.
   Date municipal or plantation legislative body adopted original development program: Click to enter a date.
   If an amendment, is it to the:
   - ☐ **district. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **district and development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.

   For Exhibit I, provide verification of district designation and adoption of development program by municipal legislative body including vote tally.

4. **Is a municipal official authorized to make technical revisions to this District application/development program to facilitate the process for review and approval by DECD, as long as such revisions are not inconsistent with the basic structure and intent of the development program?** Yes. See Exhibit I

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Exhibit A - Statutory Requirements & Thresholds

**round to second decimal place

SECTION A. | Acreage Caps		
1. Total **municipal** acreage	41,430	
2. Acreage of **proposed** Municipal TIF District (if amendment, proposed updated total acreage)	0.16	
3. **Downtown-designation**[1] acres in proposed Municipal TIF district	0	
4. **Transit-Oriented Development**[2] acres in proposed Municipal TIF district	0	
5. **Total acreage [=A2-A3-A4]** of proposed Municipal TIF district counted toward 2% limit	0.16	
6. **Percentage [=A5÷A1]** of total acreage in proposed Municipal TIF district (CANNOT EXCEED 2%)	0.002%	
7. **Total acreage** of all existing/proposed Municipal TIF districts in municipality **including** Municipal Affordable Housing Development districts:[3] See attached list	Existing	661.87
	Proposed	0.16
	Total	662.03

30-A § 5223(3) EXEMPTIONS[4]	
8. Acreage of an existing/proposed **Downtown** Municipal TIF district	247.86
9. Acreage of all existing/proposed **Transit-Oriented Development** Municipal TIF districts:	0
10. Acreage of all existing/proposed **Community Wind Power** Municipal TIF districts:	0
11. Acreage in all existing/proposed Municipal TIF districts **common to**[5] Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such acreage also factored in Exemptions 8-10 above:	0
12. **Total acreage [=A7-A8-A9-A10-A11]** of all existing/proposed Municipal TIF districts counted toward 5% limit	414.17

Assumptions:

The OAV of the District consists of the parcel(s) identified within the Certificate of Assessor (Exhibit B) and a map of the District can be found in Exhibit C-D.

The IAV are estimates only based on the preliminary development plan. Actual IAV figures in each year may vary and as a result the projections are subject to change.

The City intends to capture: 100.0% of both real & personal property within the district.

The Mil Rate is $22.75 and is based on the current rate at time of application. This rate may change each year and as a result projections are subject to change.

The Development Program authorizes the city to enter into a credit enhancement agreement for reimbursement up to 75.0%

The Development Program established a cap of total cumulative reimbursement of no more than $950,000.00

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

		Annual Average=	$32,079.95	$8,405.61	$4,742.79	$45,228.12	$59,479.70

Assumptions:

The tax shifts resulting from sheltering of valuation from the state school funding formula are based on the state EPS funding model at the most recent MIL rate published. The estimated MIL rate indicated above is applied to a district's state valuation to determine the amount of local property taxes to be raised for education. By sheltering valuation through a TIF, the City avoids having to raise an amount equal to the valuation sheltered. The education rate used to calculate the education tax shift is based on the most recent adjusted mill rate of the Auburn Public School District.

The tax shifts resulting from the sheltering of valuation from the state revenue sharing formula are based on the most recent data available from Maine Revenue Services for the most recent fiscal year as published by the Office of the State Treasurer.

The tax shifts resulting from the sheltering of valuation from the County tax assessment are based on the actual Androscoggin County tax assessments for the most recent five years.

The OAV of the District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

These tax shift estimates are based on a captured assessed value of	100.0%	of the estimated IAV.
The projected tax revenue is based on the estimate of increased assessed value multiplied by a MIL rate of		$22.75

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

Exhibit G - 10-Day Notice of Public Hearing

EXHIBIT G: 10-Day Notice of Public Hearing

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on November 20, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the designation of the proposed new Municipal Tax Increment Financing District #29 the "186 Main Street" Development District, and the adoption of a Development Program for said new District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed new District will consist of 0.16 acres, which includes one parcel located on Main Street, identified on the City's tax maps as Map 231, Lot 020. The proposed new District and Development Program will enable the City to capture tax revenues from new assessed value generated by investments made on these properties within the District related to the construction of a new mixed-use building to include 18 residential apartments, retail and restaurant space.

The City proposes to offer the developer of this project a reimbursement of 75% of the property taxes paid by the developer on the new assessed property value in the District resulting from the project over a period of up to 12 years, not to exceed $950,000 total. This reimbursement will enable the developer to construct the project and related infrastructure within the District. In addition, the City proposes to allocate the remainder of the tax increment revenues generated from the commercial development activities within the District to municipal projects such as road improvements, municipal infrastructure, public safety, and economic development, as well as other costs of public improvements and projects as identified in the Development Program for the District as may be approved and permitted pursuant to Section 5225 of Title 30-A of the Maine Revised Statutes, as amended. The City's use of tax increment revenues may also be used to pay debt service on bonds issued to finance said public projects.

A copy of the proposed Development Program for the new District is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

ORDER OF THE AUBURN CITY COUNCIL
November 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from JCS 18, LLC for the commercial development of certain property within its Downtown Traditional Center zoning district located on Main Street and abutting the Riverwalk Trail; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed 186 Main Street Municipal Development and Tax Increment Financing District #29 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #29 (the "186 Main Street Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the 186 Main Street Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

Exhibit J - Public Project Costs

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT J: Public Project Costs

	Project	**Maximum Percentage of CAV**	**Cost Estimate***	**Statutory Citation**
1	Administrative & Professional Services Costs: Costs of prorated portion of salaries of City staff for time associated with creation and administration of District, and fund costs of professional services associated with creation and administration of District. Costs related to the administration and facilitation of management and monitoring of this TIF, not to exceed the indicated percentage of the revenue generated from captured assessed value of the development district. [3]	5.0%	$157,062	30-A M.R.S. §5225(1)(A)(4); (1)(A)(5); (1)(A)(7)
2	Economic Development Programs: Costs of the City's economic development programs, including, but not limited to, marketing costs, prorated portions of staff salaries devoted to supporting and administering TIF programming, and other related operating expenses for the City's Economic Development Department. Costs related to the economic development programs, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district. [2,3]	5.0%	$157,062	30-A M.R.S. § 5225(1)(C)(1); (1)(C)(3);
3	Road Improvements within our outside the district: Design, construction, engineering, other associated costs of road construction, sidewalk and pedestrian crossing safety improvements on roads located within the District or outside the District but directly related to or made necessary by the District, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	15.0%	$471,185	30-A M.R.S. § 5225(1)(A)(1); (1)(B)(1)
4	Public Safety Facility within the city: Costs related to the construction or operation of a public safety facility in the City, the need for which is related to general economic development within the City, not to exceed 15% of the revenue generated from the captured assessed value of the development district. [1, 3]	15.0%	$471,185	30-A M.R.S. § 5225 (1)(C)(9)

EXHIBIT J: Public Project Costs

5	Public Infrastructure within or outside the district: Eligible recreational trail-related development district capital costs include but are not limited to new or existing trails, including bridges that are part of the trail corridor, used all or in part for all-terrain vehicles, snowmobiles, hiking, bicycling, cross-country skiing or other related multiple uses, signs, crosswalks, signals and warning systems and other related improvements, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$314,123	30-A M.R.S. §5225(1)(A)(2)
6	Housing Development within the city: Costs associated with the development and operation of housing, including, but not limited to, authorized project costs for improvements as described in section 5249 even if such improvements are not made within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district. [4]	0%	$0	30-A M.R.S. § 5225 (1)(A)(9); 30-A M.R.S. § 5249 (1)(A)(5); (1)(A)(7)
7	Economic Development related to Housing within the city: Costs of improvements that are made outside the tax increment financing district but are directly related to or are made necessary by the establishment or operation of the district, including, but not limited to project costs for improvements as described in section 5249 in support of municipal economic development activities regardless of whether such costs are within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[4]	0%	$0	30-A M.R.S. § 5225 (1)(B)(4); 30-A M.R.S. § 5249 (1)(A)(8)
8	Administrative Facilities: Capital costs related to the construction or renovation of the City's central administrative office, the need for which is related to economic development within the City, up to 50% of such costs, not to exceed 15% of the captured assessed value within the District.	8.0%	$251,299	30-A M.R.S. § 5225(1)(C)(12)

9	Capital Costs within the district: Costs of improvements made within the district related to the acquisition or construction of land, structures, fixtures or equipment, or the demolition, alteration, remodeling, repair or reconstruction of buildings, structures and fixtures for public, recreational trail, commercial or transit use including, but not limited to site preparation, finishing work, real property assembly costs and other capital costs or debt service related to such improvements such as licensing, permitting, planning, engineering and architectural and legal expenses, and credit enhancement agreement payments, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district. [3]	42.0%	$1,319,319	30-A M.R.S. § 5225 (1)(C)(9); (1)(B)(1)
	TOTAL	**100.0%**	**$3,141,235**	

*These are estimates only. The City may allocate revenues generated by the district across approved project cost categories as needed.

Similar program costs contained within other current and future TIFs may be combined.

[1] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, and #6.

[2] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, #10, #6.

[3] The use of TIF revenue for this project cost has also been authorized in the City's TIF District #28.

[4] Project costs #7 and #8 are not currently projected projects at this time, but the City reserves the right to authorize such project costs in the future.

THIS CREDIT ENHANCEMENT AGREEMENT dated as of _____ __, 2023, between the City of Auburn, Maine (the "City"), a municipal corporation and political subdivision of the State of Maine, and JCS 18, LLC (the "Developer"), a Maine limited liability company with a principal place of business located at 20 Mechanic Street, Gorham, ME 04038.

WITNESSETH THAT

WHEREAS, the Developer owns property located on Main Street in Auburn, Maine (the "Property"), and intends to construct an approximately 24,000 square foot, mixed-use facility to include residential apartments, a new brewery and retail space on the Property (the "Project"); and

WHEREAS, the City designated the 186 Main Street Tax Increment Financing Development District #29 (the "District") pursuant to Chapter 206, subchapter 3 of Title 30-A of the Maine Revised Statutes, by vote at a City Council Meeting held on _____ (the "Vote"), and

WHEREAS, the City received the approval of the District and the Development Program by the Maine Department of Economic and Community Development dated _____; and

WHEREAS, the City authorized the execution and delivery of a credit enhancement agreement as described in the Development Program pursuant to an Order of the City Council, adopted on _____; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute the credit enhancement agreement contemplated and described in the Development Program; and

WHEREAS, the estimated cost of off-site improvements required in connection with the development of the Property is estimated to be approximately $7,325,000; and

WHEREAS, the cost to construct the Project and maintain the commercial activity and employment opportunities in the City of Auburn requires financial assistance from the City to ensure completion of the Project; and

WHEREAS, completion of the Project will contribute to the economic growth and well-being of the City, and enable public facilities and improvements to the betterment of the health, welfare and safety of its inhabitants; and

WHEREAS, the City has decided to induce the Developer to undertake the Project through the use of this Agreement.

DRAFT

NOW, THEREFORE, in consideration of the foregoing and in consideration of the mutual promises and covenants set forth herein, the parties hereby agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions.

The terms defined in this Article I shall, for all purposes of this Agreement, have the meanings herein specified, unless the context clearly requires otherwise:

"Act" means chapter 206 of Title 30-A of the Maine Revised Statutes and regulations adopted thereunder, as amended from time to time.

"Agreement" shall mean this Credit Enhancement Agreement between the City and the Developer dated as of the date set forth above, as such may be amended from time to time.

"CEA Year(s)" shall have the meaning given such term in Section 2.3(a) hereof.

"City" shall have the meaning given such term in the first paragraph hereto.

"City Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the City uses as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof.

"City Payments" means for each CEA Year the Developer Percentage of the Increased Assessed Value payable in accordance with the terms of this Agreement.

"Commissioner" means the Commissioner of the Maine Department of Economic and Community Development.

"Current Assessed Value" means the then current assessed value of real property within the District as determined by the City Tax Assessor as of April 1 of each Tax Year during the term of this Agreement.

"Department" means the Maine Department of Economic and Community Development.

"Developer" shall have the meaning given such term in the first paragraph hereto.

"Developer Percentage" means seventy-five percent (75%) of the Increased Assessed Value in each Tax Year on which Property Tax payments are made by the City to the Developer as City Payments under the terms of this Agreement, subject to the limitations set forth herein.

DRAFT

"Developer Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the Developer as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof

"Developer Property" or "Property" means the total of 0.16 acres that comprise the District, consisting of one parcel identified on the City's tax maps as Map 231, Lot 020.

"Development Program" means the development program and financial plan for the District adopted by the City, as amended.

"Development Program Fund" means the 186 Main Street Municipal Development and Tax Increment Financing Development Program Fund described in the Financial Plan section of the Development Program and established and maintained pursuant to Article II hereof and 30-A M.R.S.A § 5227(3)(A).

"District" shall have the meaning given such term in the first recital hereto, which is more specifically comprised of approximately 0.16 acres of real property and identified in Exhibits B, C and D to the Development Program and any future improvements to such real property.

"Financial Plan" means the financial plan described in the "Financial Plan" Section of the Development Program.

"Fiscal Year" means July 1 to June 30 each year or such other fiscal year as the City may from time to time establish.

"Increased Assessed Value" means, for each CEA Year, the amount by which the Current Assessed Value for such year exceeds the Original Assessed Value. If the Current Assessed Value is less than or equal to the Original Assessed Value in any given Tax Year, there is no Increased Assessed Value in the corresponding CEA Year.

"Incremental Property Tax Payments" means all real property tax payments related to the Increased Assessed Value, inclusive of interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Original Assessed Value" means $40,000, the taxable assessed value of the real property within the District as of March 31, 2023 (April 1, 2022).

"Project Cost Account" means that portion of the Development Program Fund for the District as defined in the Financial Plan Section of the Development Program and established and maintained according to Title 30-A M.R.S.A. § 5227(3)(A)(1) and Article II hereof.

"Property Tax" means any and all *ad valorem* property taxes levied, charged or assessed against real property located in the District by the City, or on its behalf.

"State" means the State of Maine.

DRAFT

"Tax Increment Revenues" means that portion of all real property taxes assessed and paid within the District to the City in any Tax Year, excluding any state, or special district tax, including any scheduled payments thereof, interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Tax Payment Date" means the date(s) on which property taxes levied by the City are due and payable from the owners of property located within the City.

"Tax Year" shall have the meaning given such term in 30-A M.R.S.A. §5222(18), as amended, to wit: April 1 to March 31. Each Tax Year corresponds to a particular Fiscal Year. Each CEA Year occurs during a Fiscal Year.

Section 1.2. Interpretation and Construction.

In this Agreement, unless the context otherwise requires:

(a) The terms "hereby," "hereof," "hereto," "herein," "hereunder" and any similar terms, as used in this Agreement, refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of delivery of this Agreement.

(b) Words importing a particular gender mean and include correlative words of every other gender and words importing the singular number mean and include the plural number and vice versa.

(c) Words importing persons mean and include firms, associations, partnerships (including limited partnerships), trusts, corporations and other legal entities, including public or governmental bodies, as well as any natural persons.

(d) Any headings preceding the texts of the several Articles and Sections of this Agreement, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience of reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

(e) All approvals, consents and acceptances required to be given or made by any signatory hereto shall not be withheld unreasonably.

(f) All notices to be given hereunder shall be given in writing and, unless a certain number of days is specified, within a reasonable time.

(g) If any clause, provision or Section of this Agreement shall be ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or Section shall not affect any of the remaining provisions hereof.

ARTICLE II
DEVELOPMENT PROGRAM FUND AND FUNDING REQUIREMENTS

DRAFT

Section 2.1. Creation of Development Program Fund.

The City shall create and establish a segregated fund in the name of the City designated as "The 186 Main Street Municipal Development and Tax Increment Financing District Fund" (hereinafter the "Development Program Fund") pursuant to, and in accordance with the terms and conditions of, the Development Program and 30-A M.R.S.A. § 5227(3). The Development Program Fund shall consist of the Project Cost Account that is pledged to and charged with the payment of project costs as outlined in the Financial Plan of the Development Program and as provided in 30-A M.R.S.A. § 5227(3)(A)(1). The Development Program Fund is pledged to and charged with the payment of costs in the manner and priority provided in 30-A M.R.S.A. § 5227(3)(B). The Project Cost Account shall also contain two subaccounts designated as the "Developer Project Cost Subaccount" and the "City Project Cost Subaccount."

Section 2.2. Liens.

The City shall not create any liens, encumbrances or other interests of any nature whatsoever, nor shall it hypothecate the Developer Project Cost Subaccount described in Section 2.1 hereof or any funds therein, other than the interest in favor of the Developer and/or the Trustee hereunder in and to the amounts on deposit.

Section 2.3. Retention of Increment; Deposits into Development Program Fund.

(a) Commencing with the Tax Year beginning April 1, 2024, and for a period not to exceed twenty years, ending March 31, 2044 (each a "CEA Year" and collectively the "CEA Years" herein), the City shall retain at least the Developer Percentage of the Increased Assessed Value within the District for the benefit of the Developer as set forth herein.

(b) For each of the CEA Years, the City shall deposit into the Developer Project Cost Subaccount an amount equal to the Developer Percentage of each Incremental Property Tax Payment paid on Increased Assessed Value, up to a cumulative amount of $950,000. Such deposits shall be made by the City within 10 business days after the Property Tax due date at the time in effect; currently due semi-annually on each September 15 and March 15. In the event any such payment allocable to the Developer Percentage of Incremental Property Tax Payments is not timely paid to the City, the City shall deposit such payment (plus any allocable interest) within 10 business days of receipt of such payment.

(c) Notwithstanding anything to the contrary contained herein, all allocations to the Developer Project Cost Subaccount and payments to the Trustee for deposit therein shall cease at the conclusion of the term of this Agreement identified in Section 2.3(a) hereof subject to extension as identified in Section 6.1(a) hereof.

Section 2.4. Use of Monies in Development Program Fund.

All monies in the Development Program Fund that are allocable to and/or deposited in the Developer Project Cost Subaccount shall in all cases be used and applied to fund fully the City's

DRAFT

payment obligations to Developer described in Articles II and III hereof. All monies required to be deposited in the Developer Project Cost Subaccount shall be used by the Developer for construction of the Project.

Section 2.5. Monies Held in Trust.

Except as otherwise provided in this Agreement, all monies required to be deposited with or paid into the Developer's Project Cost Sub-Account of the Development Program Fund are to fund payments to the Developer under the provisions hereof and the provisions of the Development Program for the benefit of the Developer in accordance with the provisions of this Agreement.

Section 2.6. Investments.

Monies in the Developer's Project Cost Sub-Account may be invested and reinvested in Qualified Investments as determined by the City. The City shall have discretion regarding the investment of such monies, provided such monies are invested in Qualified Investments. As and when any amounts so invested are needed for disbursements, the City shall cause a sufficient amount of such investments to be sold or otherwise converted into cash to the credit of such account. The City shall have the sole and exclusive right to designate the investments to be sold and to direct the sale or conversion to cash of investments made with monies in the Developer's Project Cost Sub-Account of the Development Program Fund.

Section 2.7. Reporting Obligations.

Developer covenants and agrees to provide the City promptly upon request with all documentation reasonably required by the City to confirm the costs and completion of the projects set forth in Section 2.4.

ARTICLE III
PAYMENT OBLIGATIONS

Section 3.1. Company Payments.

(a) The City agrees to pay Developer all amounts then on deposit in the Company Project Cost Subaccount, on or before thirty (30) days following the Tax Payment Date.

(b) Notwithstanding anything to the contrary contained herein, if, with respect to any Tax Payment Date, any portion of the property taxes assessed against real property located in the District remain unpaid, because of a valuation dispute or otherwise, the City shall be under no obligation to pay Developer's share of the disputed portion of the Tax Increment Revenues to Developer. In such a circumstance, the property taxes actually paid with respect to such Tax Payment Date shall be applied to taxes due on account of Original Assessed Value and, next to Sinking Fund Account as applicable, to the taxes due on account of the allocation of TIF Revenues for the City Project Cost Subaccount, and next to the taxes due in account of the allocation of TIF revenues for the Company Project Cost Subaccount.

Section 3.2. Failure to Make Payment.

DRAFT

(a) In the event the City should fail to, or be unable to, make any of the payments at the time and in the amount required under the foregoing provisions of this Article III including in the event that the amount deposited into Development Program Fund is insufficient to reimburse Developer for the full amount due to Developer under this Agreement the City shall be in breach of the terms hereof, and the amount or installment so unpaid shall continue as a limited obligation of the City, under the terms and conditions hereinafter set forth, until the amount unpaid shall have been fully paid. The Developer shall have the right to initiate and maintain an action to specifically enforce the City's obligations hereunder, subject to the limitations of Section 3.3 below.

Section 3.3. Limited Obligation.

The City's obligations of payment hereunder shall be limited obligations of the City payable solely from Tax Increment Revenues pledged therefor under this Agreement. The City's obligations hereunder shall not constitute a general debt or a general obligation or charge against or pledge of the faith and credit or taxing power of the City, the State of Maine, or of any municipality or political subdivision thereof, but shall be payable solely from that portion of Tax Increment Revenues payable to Developer hereunder, whether or not actually deposited into Company Project Cost Subaccount in the Development Program Fund. This Agreement shall not directly, indirectly or contingently obligate the City, the State of Maine, or any other City or political subdivision to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment, excepting the pledge of the Tax Increment Revenues established under this Agreement.

ARTICLE IV
FURTHER INSTRUMENTS AND BOOKS AND RECORDS

Section 4.1. Further Instruments and City Costs.

The City shall, upon the reasonable request of Developer, from time to time execute and deliver such further instruments and take such further action as may be reasonable and as may be required to carry out the provisions of this Agreement; provided, however, that no such instruments or actions shall pledge the credit of the City; and provided further that the cost of executing and delivering such further instruments (including the reasonable and related costs of counsel to the City with respect thereto) shall be borne exclusively by Developer.

Section 4.2. Access to Books and Records.

(a) All non-confidential books, records and documents in the possession of the City relating to the District, the Development Program, this Agreement and the monies, revenues and receipts on deposit or required to be deposited into Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by Developer, its agents and employees.

DRAFT

(b) All non-confidential books, records, lease agreements and documents in the possession of Developer relating to the District, the Development Program, this Agreement and the monies, revenues and receipts used from the Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by City, its agents and employees.

ARTICLE V
DEFAULTS AND REMEDIES

Section 5.1. Events of Default.

Each of the following events shall constitute and be referred to in this Agreement as an "Event of Default":

(a) Any failure by the City to pay any amounts due to Developer when the same shall become due and payable;

(b) Any failure by the City to make deposits into Development Program Fund, including the Company Project Cost Subaccount, as and when due;

(c) Any failure by the City or Developer to observe and perform in all material respects any covenant, condition, agreement or provision contained herein on the part of the City or Developer to be observed or performed, which failure is not cured within thirty (30) days following written notice thereof;

(d) If a decree or order of a court or agency or supervisory authority having jurisdiction in the premises of the appointment of a conservator or receiver or liquidator of, any insolvency, readjustment of debt, marshaling of assets and liabilities or similar proceedings, or for the winding up or liquidation of the Developer's affairs shall have been entered against the Developer or the Developer shall have consented to the appointment of a conservator or receiver or liquidator in any such proceedings of or relating to the Developer or of or relating to all or substantially all of its property, including without limitation the filing of a voluntary petition in bankruptcy by the Developer or the failure by the Developer to have an involuntary petition in bankruptcy dismissed within a period of ninety (90) consecutive days following its filing or in the event an order for release has been entered under the Bankruptcy Code with respect to the Developer;

(e) If any secured lender of Developer accelerates the indebtedness owed to it;

(f) If any written representation or warranty given to the City by Developer is knowingly incorrect or incomplete in any material respect, other than statements made about or in agreements with the City that were later changed by mutual consent; and

(g) If Developer fails to maintain adequate surety bonding during construction at the levels and terms as may be required from time to time by the Developer's secured lenders and/or

Developer allows mechanics' liens to encumber the Project for a period of more than sixty (60) days.

Section 5.2. Remedies on Default.

Subject to the provisions contained in Section 8.9, whenever any Event of Default described in Section 5.1 hereof shall have occurred and be continuing, the nondefaulting party, following the expiration of any applicable cure period, shall have all rights and remedies available to it at law or in equity, including the rights and remedies available to a secured party under the laws of the State of Maine, and may take whatever action as may be necessary or desirable to collect the amount then due and thereafter to become due, to specifically enforce the performance or observance of any obligations, agreements or covenants of the nondefaulting party under this Agreement and any documents, instruments and agreements contemplated hereby or to enforce any rights or remedies available hereunder.

Section 5.3. Remedies Cumulative.

Subject to the provisions of Section 8.9 below concerning dispute resolution, no remedy herein conferred upon or reserved to any party is intended to be exclusive of any other available remedy or remedies but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity or by statute. Delay or omission to exercise any right or power accruing upon any Events of Default to insist upon the strict performance of any of the covenants and agreements herein set forth or to exercise any rights or remedies upon the occurrence of an Event of Default shall not impair any such right or power or be considered or taken as a waiver or relinquishment for the future of the right to insist upon and to enforce, from time to time and as often as may be deemed expedient, by injunction or other appropriate legal or equitable remedy, strict compliance by the parties hereto with all of the covenants and conditions hereof, or of the rights to exercise any such rights or remedies, if such Events of Default be continued or repeated.

ARTICLE VI
EFFECTIVE DATE, TERM AND TERMINATION

Section 6.1. Effective Date and Term.

This Agreement shall become effective upon its execution and delivery by the parties hereto and shall remain in full force from the date hereof and shall expire upon the performance of all obligations on the part of the City and the Developer hereunder or upon any earlier termination as provided in this Agreement.

Upon receipt of such approval, this Agreement shall remain in full force from April 1, 2024 and shall expire March 31, 2036 or sooner upon the payment of all amounts due to Developer hereunder and the performance of all obligations on the part of the City hereunder, unless even sooner terminated pursuant to any other applicable provision of this Agreement.

Section 6.2. Cancellation and Expiration of Term.

At the acceleration, termination or other expiration of this Agreement in accordance with the provisions of this Agreement, the City and Developer shall each execute and deliver such documents and take or cause to be taken such actions as may be necessary to evidence the termination of this Agreement.

ARTICLE VII
ASSIGNMENT AND PLEDGE OF DEVELOPER'S INTEREST

Section 7.1. Pledge and/or Assignment.

The City hereby acknowledges that Developer may pledge, assign and grant a security interest in its right, title and interest in, to and under this Agreement as collateral for financing by a bank or financial institution to Developer for the Project, although no obligation is hereby imposed on Developer to make such assignment or pledge. Recognizing this possibility, the City does hereby consent and agree to the pledge and assignment of and the grant of a security interest in all Developer's right, title and interest in, to and under this Agreement and in, and to the payments to be made to Developer hereunder, to third parties as collateral or security for indebtedness or otherwise, on one or more occasions during the term hereof. The City agrees upon request to execute and deliver any assignments, pledge agreements, consents or other confirmations required by the prospective pledgee or assignee or secured party, including without limitation recognition of the pledgee or assignee or secured party as the holder of all right, title and interest herein and as the payee of amounts due and payable hereunder and any and all such other documentation as shall confirm to such pledgee or assignee or secured party the position of such assignee or pledgee or secured party and the irrevocable and binding nature of this Agreement, and provide to the pledgee or assignee such rights and/or remedies as the parties may reasonably deem necessary for establishment, perfection and protection of its interest herein. Developer shall be responsible for the City's necessary and reasonable costs of counsel with respect to any such pledge or assignment.

Section 7.2. Transfer

Except as specified in Sections 7.1 and 8.1 hereof, Developer shall not transfer or assign any portion of its rights in, to and under this Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed.

ARTICLE VIII
MISCELLANEOUS

Section 8.1. Successors.

In the event of the dissolution, merger or consolidation of the City or Developer, the covenants, stipulations, promises and agreements set forth herein, by or on behalf of or for the benefit of such party shall bind or inure to the benefit of the successors and assigns thereof from

time to time and any entity, officer, board, commission, agency or instrumentality to whom or to which any power or duty of such party shall be transferred.

Section 8.2. Parties-in-Interest.

Except as herein otherwise specifically provided, nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City and Developer any right, remedy or claim under or by reason of this Agreement, it being intended that this Agreement shall be for the sole and exclusive benefit of the City and Developer.

Section 8.3. Severability.

In case any one or more of the provisions of this Agreement shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of this Agreement and this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 8.4. No Personal Liability.

(a) No covenant, stipulation, obligation or agreement of the City contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future elected or appointed official, officer, agent, servant or employee of the City in his or her individual capacity, and neither the City Council nor any official, officer, employee or agent of the City shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

(b) No covenant, stipulation, obligation or agreement of the Developer contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future officer, agent, servant or employee of the Developer in his or her individual capacity, and no officer, employee or agent of the Developer shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

Section 8.5. Counterparts.

This Agreement may be executed in any number of counterparts, each of which, when so executed and delivered, shall be an original, but such counterparts shall together constitute but one and the same Agreement.

Section 8.6. Governing Law.

The laws of the State of Maine shall govern the construction and enforcement of this Agreement.

Section 8.7. Amendments.

DRAFT

This Agreement may be amended only with the concurring written consent of both of the parties hereto.

Section 8.8. Integration.

This Agreement completely and fully supersedes all other prior or contemporaneous understandings or agreements, both written and oral, between the City and Developer relating to the specific subject matter of this Agreement and the transactions contemplated hereby.

Section 8.9. Dispute Resolution.

In the event of a dispute regarding this Agreement or the transactions contemplated by it, the parties hereto will use all reasonable efforts to resolve the dispute on an amicable basis. If the dispute is not resolved on that basis within sixty (60) days after one party first brings the dispute to the attention of the other party, then either party may refer the dispute for resolution by one arbitrator mutually agreed to by the parties, and judgment on the award rendered by the arbitrator may be entered in any Maine state court having jurisdiction. Any such arbitration will take place in Auburn, Maine or such other location as mutually agreed by the parties. The parties acknowledge that arbitration shall be the sole mechanism for dispute resolution under this Agreement. Provided however, that in the event the parties are unable to agree, within a reasonable period, on the selection of an arbitrator, either party may file suit to resolve the dispute in any court having jurisdiction within the State of Maine. This arbitration clause shall not bar the City's assessment or collection of property taxes in accordance with law, including by judicial proceedings, including tax lien thereof.

Section 8.10. Records.

The City shall maintain a record demonstrating its calculation of the Increased Assessed Value and Tax Increment Revenues within the District as it relates to deposits to the Development Program Fund pursuant to Article II and payments to the Developer under Article III of this Agreement, and shall provide Developer with a copy of the same upon request.

Section 8.11. Notices.

All notices, certificates, requests, requisitions or other communications by the City or Developer pursuant to this Agreement shall be in writing and shall be sufficiently given and shall be deemed given when mailed by first class mail, postage prepaid, addressed as follows:

If to the City:

Phillip Crowell
City Manager

Exhibit N - Municipality TIF Policy

CITY OF AUBURN
TAX INCREMENT FINANCING
&
CREDIT ENHANCEMENT
POLICY
AND
GUIDELINES

The following are the City of Auburn Tax Increment Financing (TIF) Policy and Credit Enhancement Agreement Application Guidelines.

I. Purpose and Introduction

TIF allows municipalities to "shelter" new value resulting from private investment from the calculation of its State subsidies (education and revenue sharing) and County taxes. A municipality's total equalized assessed value is used to calculate General Purpose Aid to Education (subsidy), State Revenue Sharing (subsidy), and County taxes (expense). When a municipality's equalized assessed value increases, State Aid for Education decreases, municipal revenue sharing decreases, and the municipality pays a greater portion of County taxes. Specific municipal shelter benefits for the term of the TIF include: No reduction in State aid for education, no decrease in municipal revenue sharing, and no increase in County taxes (assuming 100% capture).

A Tax Increment Financing District is a tool available to the City of Auburn to promote economic development. TIF enables the City to revitalize and redevelop designated areas and build community and economic growth through public-private partnerships. The TIF District allows the City to capture some or all of the incremental real and/or personal property tax revenues derived from new development or expansion of an existing development and provides a means of financing the economic and community development goals of Auburn as set forth in the Development Program of the District adopted by the City Council and as authorized by state law. The captured tax revenues from a TIF District can be used to finance municipal investments and City infrastructure projects; and can also be used to provide incentive or financing to a private development in the form of an associated Credit Enhancement Agreement (CEA), as authorized by the Development Program of the District and state law.

These guidelines are to provide guidance and outline standards for the development of TIF's and CEA's in the City when utilizing TIF Districts and TIF revenue for the City's development and redevelopment efforts. Notwithstanding compliance with any or all of these guidelines, the creation of a TIF District or authorization of a Credit Enhancement Agreement is a policy decision of the City of Auburn to be evaluated by the City on a case-by-case basis. Adopting this policy or any TIF District does not create a right or entitlement to assistance by any applicant.

II. Eligibility for Assistance

Economic development projects may be eligible for Tax Increment Financing assistance from the City when they meet the following standards:

- Would not occur without City assistance.
- Create or retain employment opportunities.
- Significantly expand the City's tax base by a minimum of $1,000,000.
- Diversify the economy and tax base of the City
- Conform to the quality and types of development the City seeks as outlined in the Comprehensive Plan, Strategic Plan, Downtown Revitalization Plan, Economic Development Action Plan, and Zoning Ordinances.
- Demonstrate a public benefit, such as expanding public infrastructure to service areas beyond the project or creating job opportunities or affordable housing.
- Public benefits from development must outweigh any possible adverse impacts on existing businesses or residents of the City.

The City provides TIF assistance through a Credit Enhancement Agreement that provides developers with reimbursement of a percentage of the property tax revenue paid on the increased assessed value (or incremental value) of their property. Tax revenue on the incremental value returned to the developers under a Credit Enhancement Agreement will not exceed an average of 75% of the incremental taxes over the life of the particular tax increment financing district or the Credit Enhancement Agreement. Further, the City Council may establish a cap on the total incremental taxes to be reimbursed to a developer under a CEA on an annual and/or cumulative basis. The applicant is required to submit all documentation required by the City in consideration of a Credit Enhancement Agreement. A Public Hearing shall be held to receive public comment on a completed CEA application at least ten days prior to a meeting at which the CEA is being considered for approval by the City Council.

Ill. Application Process

The City has established an Application for Tax Increment Financing & Credit Enhancement Agreement. Applications (whether initiated by the City or requested by a developer or business) will be reviewed by the Business and Community Development Department Staff and considered by the City Manager. Applications for a new TIF District or an amendment to an existing TIF District are subject to final approval by the City Council and the Maine Department of Economic and Community Development (DECD). The specific terms of TIF assistance through a CEA will be negotiated between the City and the applicant on a case-by-case basis. The City Manager or the City Manager's designee will negotiate for the City, and all recommendations for TIF assistance shall be based on the merits of the project and compliance with these guidelines. Based on City Council direction and approval, Business and Community Development staff will coordinate all activities regarding applications and will prepare materials as needed. The Director of Business and Community Development will assist the developer through the process. They will monitor ongoing investments in the development project if TIF assistance is granted.

All applicants for TIF assistance must pay a $500 non-refundable application fee at the time of submission. All applicants are required to reimburse the City of Auburn for all legal and administrative costs incurred as a result of the TIF proposal, including the cost of preparing all materials necessary to establish a new TIF District, amend an existing TIF District and draft the Credit Enhancement Agreement. If a Credit Enhancement Agreement is approved, an annual fee equal to 2% of the incremental tax reallocated back to the project will be assessed.

IV. Waiver of Provisions

The City of Auburn reserves the right under certain conditions to waive the provisions of the policy. The decision to do so shall be made by applying the following guidelines to ensure that the project remains within the general parameters of the Auburn Comprehensive Plan and community development vision(s). Criteria to be considered with granting a waiver are:

- Consistency with the Auburn Comprehensive Plan
- Consistency with the Downtown Revitalization Plan
- Consistency with the City's Economic Development Plan
- Consistency with the Development Plan of the TIF District
- Consistency with other local, State, and Federal laws/rules
- Evidence of need, and
- Capacity to carry out the project

V. Mandatory Guidelines

In all instances, applicants for tax increment financing and Credit Enhancement Agreements must demonstrate that the City's participation is economically needed to undertake the project. Such justification is demonstrated by:

- Need to offset infrastructure costs unique to the site
- Need to offset economic advantages available if it should develop a project or expand operations outside of Auburn
- Lack of sufficient funding sources to meet the entire capital investments needed to undertake the project
- The project creates significant new tax value throughout the Downtown District and other areas the City Council deems necessary
- The developer is financially capable of undertaking the project
- The developer is compliant with all statutory and regulatory guidelines of the City of Auburn and the State of Maine

VI. Guidelines that Determine the Level of Municipal Participation

Although the applicants' project need not meet each of the following criteria, the following will be used to determine the City of Auburn's participation level.

- Assists an established business in Auburn, retaining existing employment opportunities
- Creates long-term permanent and quality employment opportunities
- Contributes to the revitalization of the Downtown District or other areas in need of development or redevelopment
- Improves a blighted building site in need of rehabilitation
- Creates public infrastructure facilities that have applications beyond the particular development, road improvements, parking, sidewalks, green space, etc.
- Supports or will support community projects, job training, internships, and programs that assist the under-employed and supports local contractors and suppliers.

VII. Transfer of Ownership

If the applicant transfers ownership of property in the TIF District subject to a CEA to which the applicant is a party, the applicant must notify the City Manager in writing prior to finalizing the transfer. The prospective new owner must agree, in writing, to accept the provisions of the agreement as presented to and approved by the City Council before the City will release any further TIF reimbursements under the CEA. Failure to provide notice of a transfer of ownership by the applicant or for the prospective new owner to accept the terms of the CEA before the transfer shall render the CEA invalid, and no further payments under it shall be authorized.

VIII. Annual Expenditure of TIF Revenues for Municipal Projects

Each year the Director of Business and Community Development will review all proposed TIF Revenue expenditures as part of the City Budget process to ensure compliance with the existing TIFs.

Annual allocations of TIF revenues to fund existing Credit Enhancement Agreement commitments will be factored into the annual review of the use of the available TIF revenues and estimates of proposed Credit Enhancement Agreements will be calculated by the City Assessor and City Treasurer and provided to the City Manager for review and consideration.

City Council Order

IN CITY COUNCIL

ORDER OF THE AUBURN CITY COUNCIL
November 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from JCS 18, LLC for the commercial development of certain property within its Downtown Traditional Center zoning district located on Main Street and abutting the Riverwalk Trail; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed 186 Main Street Municipal Development and Tax Increment Financing District #29 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or

City Council Order

well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #29 (the "186 Main Street Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the 186 Main Street Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District,

City Council Order

or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: TIF #30 – Diamond Point Storage

Information:
The Diamond Point Self-Storage Tax Increment Financing District & Development Program #30 (the "Diamond Point Storage District") will permit the construction of a 93,500 square foot, Grade-A self storage facility. In order to alleviate congestion and integrate access with current traffic patterns the developers needed to acquire an additional lot and create a Right-in/ Right-out only scenario. To do so they will have to remove and relocate existing curb cuts and rebuild the existing pedestrian accomodations. Additionaly, there are existing contaminated soils and municipal easements on the property which will need to be remediated and acomodated during the development process.

There does exist a community benefit opportunity on this site, which abuts the Androscoggin River just north of the Fox Island train trestle. The developers are willing to extend the existing Auburn River Walk pathway across their property. This would extend the current 1.6 miles of paved walking paths along the river by another potentially 1,000 feet.

City Budgetary Impacts:
The City intends to establish new Tax Increment Financing Districts for the purpose of capturing tax revenues from new assessed value generated by investments made on these properties. The captured revenue will be spend in a manner which limits impacts on the city budget for planned infrastructure improvements and services as outlined within the Project Cost budget included.

Staff Recommended Action:
Approval of Order as presented.

Previous Meetings and History:
n/a

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

TIF#30 Application

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

The legislature finds a need for new development in areas of municipalities and plantations to: (A) Provide new employment opportunities; (B) Improve and broaden the tax base; and (C) Improve the general economy of the State. The municipal tax increment financing (TIF) program, established under 30-A M.R.S.A. Chapter 206 §5221-5235, is designed to assist municipalities and plantations to develop a program for improving a district of the municipality or plantation: (A) To provide impetus for industrial, commercial, transit-oriented or arts district development, or any combination; (B) To increase employment opportunities; and (C) To provide the facilities outlined in the development program adopted by the legislative body of the municipality or plantation. The TIF Statute provides that before final designation of a tax increment financing district, the Department of Economic and Community Development (DECD) commissioner shall review the proposed district and development program to ensure compliance with statutory requirements.

Before designating a development district within the boundaries of a municipality or plantation, or adopting a development program for a designated development district, the municipal or plantation legislative body or the municipal or plantation legislative body's designee must:

a) Hold at least one public hearing,
b) Publish notice of the hearing at least 10 days before the date of the hearing in a newspaper of general circulation within the municipality or plantation,
c) At the hearing, the legislative body of a municipality or plantation must consider:
    i. Whether the proposed district or development program will contribute to the economic growth or well-being of the municipality or plantation or to the betterment of the health, welfare or safety of the municipal or plantation inhabitants,
    ii. Any claim by an interested party that the proposed district or development program will result in a substantial detriment to that party's existing business in the municipality or plantation and produces substantial evident to that effect.

Mail completed application, with tabs separating exhibits, to:

Section 1- Cover Letter and Application Cover Sheet

1. **Name of municipal tax increment financing (TIF) district and development program:** #30 Diamond Point Storage
2. **This is an** original application. **If an amendment, what amendment number?** Choose a number.
3. **Is this a Downtown designated TIF?** No.
   If yes, provide the following information regarding the *Downtown Redevelopment Plan:*
   a. **Name:** Click here to enter text
   b. **Date approved by municipal legislative body:** Click to enter a date. (Include verification of this approval with Exhibit I)
   The Downtown Redevelopment Plan must contain the components outlined in the DECD "Downtown Redevelopment Plan Criteria Checklist"
4. **Is this development district considered a/an [check the appropriate box(es)]?**
   ☐ **Industrial** ☑ **Commercial** ☐ **Transit-oriented** ☐ **Arts**
   If this is a transit-oriented development designation, a map is required identifying transit facilities plus areas and corridors pursuant to MRS 30-A §5222(20), (22) & (23). (Exhibit L)
5. **Municipality name:** City of Auburn
6. **Municipality address:** 60 Court St Auburn, ME 04210
7. **Municipality county:** Androscoggin
8. **Municipal telephone number:** 207-333-6601 ext. 1159
9. **Municipal official's name:** Phillip Crowell
10. **Municipal official's title:** City Manager
11. **Municipal official's e-mail address:** pcrowell@auburnmaine.gov
12. **If different from #9 above, contact person/consultant**: Zakk W. Maher
13. **Municipal contact/consultant phone number:** 207-333-6601 Ext. 1336
14. **Municipality contact/consultant e-mail address:** zmaher@auburnmaine.gov
15. **Municipality's assessor's name:** Karen Scammon
16. **Municipality's assessor's e-mail address:** KScammon@auburnmaine.gov

The municipal official named below, certifies he/she has the authority to submit this Application to DECD and further certifies all the information contained in this Application, and its attachments, are true and correct to the best of his/her knowledge.

_____
Print municipal official's name & title

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 2 - Purpose/Basis Original/Amended Application

1. **Provide a brief, "headline" sentence explaining purpose/basis of this application.**
   The Diamond Point Self-Storage Tax Increment Financing District & Development Program #30 (the "Diamond Point Storage District") will permit the construction of a 93,500 square foot, Grade-A self storage facility.

2. **If needed, provide additional information related to the purpose/basis of this application. If this is an amendment, provide a brief, concise overview of the purpose of the original application and each amendment submitted to date.**

   The property on which the self storage project will be located will be owned by TAC Auburn, LP, and the project will be developed by Jason Sommer and Aaron Sommer. Jason and Aaron are experienced commercial developers with a portfolio of nine self-storage facilities across six states totaling over 1.2 million square feet. They have 3 contiguous properties in Auburn under contract and are seeking to develop a 3-story, climate controlled self storage facility. These properties pose logistical challenges as well as community benefit opportunities.

   First, these properties are located on a problematic intersection. In order to alleviate congestion and integrate access with current traffic patterns the developers needed to acquire an additional lot and create a Right-in/ Right-out only scenario. To do so they will have to remove and relocate existing curb cuts and rebuild the existing pedestrian accomodations. Additionaly, there are existing contaminated soils and municipal easements on the property which will need to be remediated and acomodated during the development process.

   There does exist a community benefit opportunity on this site, which abuts the Androscoggin River just north of the Fox Island train trestle. The developers are willing to extend the existing Auburn River Walk pathway across their property. This would extend the current 1.6 miles of paved walking paths along the river by another potentially 1,000 feet.

   Under this Development Program, the City will capture the increased assessed value of taxable real property over the original assessed value of the District and retain the tax revenues generated by the captured assessed value for designated economic development purposes. The calculation of TIF Revenues (as defined below) is more specifically described below in Section VI – Financial Plan. In the Assessor's Certificate attached as Exhibit B hereto, the Assessor has certified the original assessed value of the District.

   By adopting this Development Program, the City is creating a TIF district that will: (1) maintain existing tax revenues; (2) enjoy enhanced future tax revenues generated by new development within the District; and (3) shelter the captured assessed value from impacting the overall State valuation for the City of Auburn, thereby minimizing: (a) potential decreases in the City's State school subsidy and State revenue sharing, and (b) potential increases in the City's county tax assessments and local school district contributions.

   Further, approval of this Development Program and the designation of the District will have a neutral impact on the existing tax base; only the increased assessed value over the original assessed value within the District will be captured. In addition, at the end of the District and Development Program, the City expects to emerge with a

substantial amount of new taxable property value to add to its municipal tax base.

This Development Program is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute"). Subsequent to a City Council vote designating the District and adopting this Development Program, evidenced by Exhibit I hereto, the designation of the District and adoption of this Development Program are effective upon approval by the DECD.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 3 - Company/Developer Information

A. Business General Information
[include whenever a company/developer is part of a TIF district proposal (regardless of whether a CEA is offered]:

1. **Business name:** TAC Auburn, LP
2. **Business address:** 3565 Piedmont Road NE, Bldg 1, Suite 200, Atlanta, GA 30305-8202
3. **Business phone number:** 1-404-421-6646
4. **Business contact person:** Aaron Sommer
5. **Business contact person e-mail address:** asommer@diamondpointdevelopment.com
6. **Principal place of business:** 3565 Piedmont Road NE, Bldg 1, Suite 200, Atlanta, GA 30305-8202
7. **Company structure (e.g. corporation, sub-chapter S, etc.):** Limited Partnership
8. **Place of incorporation:** Georgia
9. **Name of Officer(s):** Click here to enter text.
10. **Name of principal owner(s) name:** Dror Bezalel, Matt Shulman, Todd Terwilliger
11. **Address:** 3565 Piedmont Road NE, Bldg 1, Suite 200, Atlanta, GA 30305-8202
12. **Brief project description:** The project is a 3 story climate controlled, Class A, self-storage facility.
13. **Total amount of project new investment by company/developer: $** $14,260,745
14. **Will there be a credit enhancement agreement with this business?** Yes. If so, complete the rest of this section and Section 4.

B. Disclosure, only in cases where a CEA is offered to the above business:

1. Check the public purpose(s) that will be met by the business using this incentive:

☐ **job creation** ☐ **job retention** ☐ **capital investment**
☐ **training investment** ☒ **tax base improvement** ☐ **public facilities improvement**
☐ **other (list):** Click here to enter text.

2. Check the specific item(s) for which TIF revenues will be used by the business:

☐ **real estate purchase** ☐ **machinery & equipment purchase** ☐ **training costs**
☐ **debt reduction**
☒ **other (list):** Environmental Clean up; Access Control

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 4 - Employment Goals/Data

Company Goals for Job Creation and Job Retention. (**If a developer**, check box ☐, and skip to Section 5)

A. Job Creation Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support	1	1	$65,000
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
B. Job Retention Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical	1		$95,000
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
*See Occupational Cluster Descriptions for more information.			

INSTRUCTIONS

A. Job Creation Goals. Please list the number, type and wage level of jobs created as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories listed in the "Occupational Cluster Descriptions." Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.

B. Job Retention Goals. Please list the number, type and wage level of jobs retained as a result of the economic development incentive. Part B should be completed using same definitions in Part A.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 5 - Development Program

Public Project(s)

1. **Will there be any public facilities, improvements, or programs financed in whole or in part by the development program?** Yes. See Exhibit J.

Private Project(s)

2. **Will there be any commercial facilities, arts districts, improvements or projects to be financed in whole or in part by the development program:** Yes. **If yes, provide a brief, clear description:** Developers intend to construct a new self-storage facility.

Program Duration

3. **Duration of development district (may not exceed 30 years):**
   a. **District term: Original application**: 30.
   If an amendment, adding how many years? Choose a number **totaling how many years?** Choose a number.
   b. **Start date of** April 1, 2024 **with fiscal year** beginning July 1, 2024 (captured assessed value as of April 1, 2024).
   [Must begin with tax year in which development district designation is effective pursuant to MRS 30-A §5226, or the subsequent tax year (MRS Title 30-A §5224 (2)(H))]
   c. **End date of** March 31, 2054 **with fiscal year** June 30, 2054.

Original Assessed Value

4. **Provide the taxable assessed value of the development district as of the March 31st of the tax year preceding the property tax year in which the district was designated by the legislative body.**

			OAV of Real Property	OAV of Personal Property	As of (complete year)	Total acres	
Original district			$518,900.00	$0.00	3/31/2023		5.460
Amendment: (If applicable, with any property added/removed)	#1	-				-	
		+			3/31/____	+	
	#2	-				-	
		+			3/31/____	+	
	#3	-				-

	#9	-				-	
		+			3/31/____	+	
	#10	-				-	
		+			3/31/____	+	
Total	N/A				N/A		

***Municipal Assessor must certify above original assessed value(s) (Exhibit B).

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 6 - Financial Plan

Increased Assessed Value Information

1. **Total estimated cost for the development program: $** 4,424,689.53 (Should match "total" from Exhibit J)
2. **Municipality will capture** 100 **of** real property only **increased assessed value for each year of the district term, to apply to the development program.** Click here to enter text, if needed.
3. **If #2 above's captured assessed value is less than 100%, besides the district's original assessed value, what percentage of increased assessed value will be deposited into the General Fund, or if an unorganized territory, to Education and Services fund?** Click here to enter % to be deposited in General Fund/Education & Services fund.

Public Indebtedness

4. **Will there be public indebtedness?** Yes, to be determined.
    a. **If yes, what is the projected amount of public indebtedness to be incurred?** The City will not incur any indebtedness at this time; however, the City may elect to do so at a future date at the descretion of its City Council.
    b. **If an amendment, have any bonds been issued to date pertaining to the approved projects of this district?** Choose an item. **If yes, provide the status, such as years left on bond and amount of outstanding debt.** Click here to enter text.

Anticipated Revenues

5. **Describe sources of anticipated revenues for public projects (clearly and briefly stated):** The source of the revenue to be used to pay the costs of the public projects set forth in this Development Program is the Tax Increment on the increased Assessed Value of the District. Tax increment means all property taxes assessed by the City, in excess of any state, county or special district tax, upon the increased assesed value of all real property in the District. Increased assessed value means the valuation amount by which the current assessed value of the District exceeds the taxable original assessed value of the real property in the District. Current assessed value means the taxable assessed value of the real property in the District certified by the municipal assessor as of April 1st of each year that the District remains in effect. Property taxes means any and all ad valorem propert taxes levied, charged or assessed against real property by the City. Original assessed value means the taxable assessed value of real property in the District as of March 31, 2023 (April 1, 2022). All property tax on the original assessed value shall continue to be deposited into the City's general fund.
6. **Describe sources of anticipated revenues for private projects (clearly and briefly stated):** A portion of the Tax Increment from the District as described above will be used to finance a portion of the construction of the Company's new storage facility to be located within the District. The percentage of the Tax Increment will be paid to the Company under the terms of a Credit Enhancement Agreement as set forth below.

Credit Enhancement Agreement (CEA)

7. **Describe terms and conditions of any agreements, contracts or other obligations related to the development program (e.g. CEAs). Ensure to clearly state the reimbursement percentage, along with, if applicable, any local triggers/caps.**
    a. **Will CEAs be offered as part of this development program?** Yes.
    b. **List name(s) of company/developer to be offered a CEA:** TAC Auburn, LP
        i. **Provide the CEA reimbursement percentage, term, conditions for each listed company/developer:** 50% for 15 years not to exceed $750,000

c. **Is this an omnibus application?** No.
If an omnibus, provide clear reimbursement percentage(s) and term(s)/condition(s): Click here to enter text.

d. **Does the municipality have a TIF policy?** Yes. Include a copy in Exhibit N.

If this is an amendment, and if applicable, include a copy of all executed CEAs as Exhibit M.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Development Program Fund and Tax Increment Revenues

Read below. Authorized municipal official must initial in provided spaces, acknowledging understanding of the below information:

If a municipality/plantation has designated captured assessed value, the municipality/plantation shall:

A. Establish a development program fund that consists of the following:

1. A project cost account that is pledged to and charged with the payment of project costs that are outlined in the financial plan and are paid in a manner other than as described in subparagraph (2); and

2. In instances of municipal/plantation indebtedness, a development sinking fund account that is pledged to and charged with the payment of the interest and principal as the interest and principal fall due and the necessary charges of paying interest and principal on any notes, bonds or other evidences of indebtedness that were issued to fund or refund the cost of the development program fund;

B. Annually set aside all tax increment revenues on captured assessed values and deposit all such revenues to the appropriate development program fund account established under paragraph A in the following order of priority:

1. To the development sinking fund account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual debt service on bonds and notes issued under section 5231 and the financial plan; and

2. To the project cost account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual project costs to be paid from the account;

C. Make transfers between development program fund accounts established under paragraph A as required, provided that the transfers do not result in a balance in the development sinking fund account that is insufficient to cover the annual obligations of that account; and

D. Annually return to the municipal or plantation general fund any tax increment revenues remaining in the development sinking fund account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development sinking fund account after taking into account any transfers made under paragraph C. The municipality/plantation, at any time during the term of the district, by vote of the municipal or plantation officers, may return to the municipal/plantation general fund any tax increment revenues remaining in the project cost account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development project cost account after taking into account any transfer made under paragraph C. In either case, the corresponding amount of local valuation may not be included as part of the captured assessed value as specified by the municipality or plantation.

X_____
Initial & date

At the end of the district TIF term, all taxable real and/or personal property value captured in the district will be added to the general tax rolls.

X_____
Initial & date

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Relocation of Person(s)/Business(es)

8. No businesses or persons will be displaced as a result of the development activities proposed within the District.

Transportation Improvements

9. This project will include the closure of a hazardous curb cut and the construction of a Right-In & Right-Out traffic pattern at the request of the city. Except for these improvements, the existing transportation facilities of the City will be adequate to accommodate the development activities within the District.

Environmental Controls

10. The improvements made under this Development Program will meet or exceed all federal and state environmental regulations and will comply with all applicable land use requirements of the city.

District Operation

11. **After the planned capital improvements are completed, provide a brief statement of the proposed operation of the development district pertaining to:**
    a. **Public capital improvements:** This project will include a public easement and construction of a riverfront walking path which will connect to existing city owned facilities. The day-to-day operations of the District will not require substantial efforts by the City, other than staffing and programming primarily conducted by the City Manager's office and the Business and Community Development Office.
    b. **Private capital improvements:** The private improvements contemplated to occur within the District are expected to be funded by the developer, in part through the reimbursement of tax increment revenue pursuant to a credit enhancment agreement. Other than the credit enhancement agreement, the City will not be responsible for the funding or operation of private capital improvements within the District.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 7 - Notice and Hearing

1. **Date of public notice (must be minimally 10 days before the public hearing):** Click to enter a date.
   For Exhibit G, provide a legible **copy** of the newspaper page showing the public hearing , newspaper name and date of publication.

2. **Date of public hearing:** November 20, 2023
   For Exhibit H, provide a copy of the public hearing minutes, attested to with dated signature.

3. **Date municipal or plantation legislative body approved original district designation:** Click to enter a date.
   Date municipal or plantation legislative body adopted original development program: Click to enter a date.
   If an amendment, is it to the:
   ☐ **district. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   ☒ **development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   ☐ **district and development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   For Exhibit I, provide verification of district designation and adoption of development program by municipal legislative body including vote tally.

4. **Is a municipal official authorized to make technical revisions to this District application/development program to facilitate the process for review and approval by DECD, as long as such revisions are not inconsistent with the basic structure and intent of the development program?** Yes. See Exhibit I

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Exhibit A - Statutory Requirements & Thresholds

**round to second decimal place

SECTION A. | Acreage Caps		
1. Total **municipal** acreage	41,430.00	
2. Acreage of **proposed** Municipal TIF District (if amendment, proposed updated total acreage)	5.460	
3. **Downtown-designation**[1] acres in proposed Municipal TIF district	0	
4. **Transit-Oriented Development**[2] acres in proposed Municipal TIF district	0	
5. **Total acreage [=A2-A3-A4]** of proposed Municipal TIF district counted toward 2% limit	5.460	
6. **Percentage [=A5÷A1]** of total acreage in proposed Municipal TIF district (CANNOT EXCEED 2%)	0.013%	
7. **Total acreage** of all existing/proposed Municipal TIF districts in municipality **including** Municipal Affordable Housing Development districts:[3] See attached list.	Existing	662.03
	Proposed	5.460
	Total	667.49

30-A § 5223(3) EXEMPTIONS[4]	
8. Acreage of an existing/proposed **Downtown** Municipal TIF district	247.86
9. Acreage of all existing/proposed **Transit-Oriented Development** Municipal TIF districts:	0
10. Acreage of all existing/proposed **Community Wind Power** Municipal TIF districts:	0
11. Acreage in all existing/proposed Municipal TIF districts **common to**[5] Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such acreage also factored in Exemptions 8-10 above:	0
12. **Total acreage [=A7-A8-A9-A10-A11]** of all existing/proposed Municipal TIF districts counted toward 5% limit	419.63
13. **Percentage of total acreage [=A12÷A1]** of all existing/proposed Municipal TIF districts (CANNOT EXCEED 5%)	1.013%

14. **Real property** in proposed Municipal TIF District that is:	ACRES	% **[=Acres÷A2]**
a. A blighted area		
b. In need of rehabilitation, redevelopment or conservation		
c. Suitable for commercial or arts district uses	5.46	100%
TOTAL (except for § 5223 (3) exemptions a., b. OR c. must be at least 25%)		

[1] Before final designation, the Commissioner will seek advice from MDOACF and MDOT per 30-A § 5226(2).
[2] For Transit-Oriented Development (TOD) definitions see 30-A § 5222 sub-§§ 19-24.
[3] For AH-TIF acreage requirement see 30-A § 5247(3)(B). Alternatively, Section B must exclude AH-TIF valuation.
[4] Downtown/TOD overlap nets single acreage/valuation caps exemption.
[5] PTDZ districts approved through December 31, 2008.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

SECTION B. | Valuation Cap		
1. **Total TAXABLE** municipal valuation—April 1, 2023	$2,253,171,176	
2. **Taxable Original Assessed Value (OAV)** of proposed Municipal TIF District as of March 31, 2023 (April 1, 2022)	$518,900	
3. **Taxable OAV of all** existing/proposed Municipal TIF districts in municipality **excluding** Municipal Affordable Housing Development districts: See attached list.	Existing	$105,185,300
	Proposed	$518,900
	Total	$105,704,200
30-A § 5223(3) EXEMPTIONS		
4. **Taxable OAV** of an existing/proposed **Downtown** Municipal TIF district	$80,002,900	
5. **Taxable OAV** of all existing/proposed **Transit-Oriented Development** Municipal TIF districts	0	
6. **Taxable OAV** of all existing/proposed **Community Wind Power** Municipal TIF districts	0	
7. **Taxable OAV** of all existing/proposed **Single Taxpayer/High Valuation**[6] Municipal TIF districts	0	
8. **Taxable OAV** in all existing/proposed Municipal TIF districts **common to** Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such OAV also factored in Exemptions 4-7 above	0	
9. **Total taxable OAV [=B3-B4-B5-B6-B7-B8]** of all existing/proposed Municipal TIF districts counted toward 5% limit	$25,701,300	
10. **Percentage of total taxable OAV [=B9÷B1]** of all existing/proposed Municipal TIF districts (CANNOT EXCEED 5%)	1.141%

						30 Year TIF Totals=	**$325,006.50**	**$5,174,689.58**	**$5,174,689.58**	**$750,000.06**	**$4,424,689.53**
						Annual Average=			**$172,489.65**	**$89,218.79**	**$147,489.65**

Assumptions:

The OAV of the District consists of the parcel(s) identified within the Certificate of Assessor (Exhibit B) and a map of the District can be found in Exhibit C-D.

The IAV are estimates only based on the preliminary development plan. Actual IAV figures in each year may vary and as a result the projections are subject to change.

The City intends to capture: 100.0% of both real & personal property within the district.

The Mil Rate is $22.75 and is based on the current rate at time of application. This rate may change each year and as a result projections are subject to change.

The Development Program authorizes the city to enter into a credit enhancement agreement for reimbursement up to 50.0%

The Development Program established a cap of total cumulative reimbursement of no more than $750,000.06

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

		30 Year TIF Totals=	$1,585,395.38	$684,318.76	$234,113.79	$2,503,820.96	$2,670,868.62
		Annual Average=	$52,846.51	$22,810.63	$7,803.79	$83,460.70	$89,028.95

Assumptions:

The tax shifts resulting from sheltering of valuation from the state school funding formula are based on the state EPS funding model at the most recent MIL rate published. The estimated MIL rate indicated above is applied to a district's state valuation to determine the amount of local property taxes to be raised for education. By sheltering valuation through a TIF, the City avoids having to raise an amount equal to the valuation sheltered. The education rate used to calculate the education tax shift is based on the most recent adjusted mill rate of the Auburn Public School District.

The tax shifts resulting from the sheltering of valuation from the state revenue sharing formula are based on the most recent data available from Maine Revenue Services for the most recent fiscal year as published by the Office of the State Treasurer.

The tax shifts resulting from the sheltering of valuation from the County tax assessment are based on the actual Androscoggin County tax assessments for the most recent five years.

The OAV of the District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

These tax shift estimates are based on a captured assessed value of 100.0% of the estimated IAV.

The projected tax revenue is based on the estimate of increased assessed value multiplied by a MIL rate of $22.75

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

Exhibit G - 10-Day Notice of Public Hearing

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT G: 10-Day Notice of Public Hearing

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on November 20, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the designation of the proposed new Municipal Tax Increment Financing District #30 the "Diamond Point Storage" Development District, and the adoption of a Development Program for said new District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed new District will consist of 5.46 acres, which includes three parcels located at the intersection of Turner Street and Center Street, identified on the City's tax maps as Map 251, Lots 19, 21 and 22. The proposed new District and Development Program will enable the City to capture tax revenues from new assessed value generated by investments made on these properties within the District related to the construction of a new self-storage facility by Diamond Point Development LLC.

The City proposes to offer the developer of this project a reimbursement of 50% of the property taxes paid by the developer on the new assessed property value in the District resulting from the project over a period of up to 15 years, not to exceed $750,000 total. This reimbursement will enable the developer to construct traffic improvements made necessary by the development of a new self-storage facility in the District. In addition, the City proposes to allocate the remainder of the tax increment revenues generated from the commercial development activities within the District to municipal projects such as road improvements, municipal infrastructure, transportation, public safety, and economic development, as well as other costs of public improvements and projects as identified in the Development Program for the District as may be approved and permitted pursuant to Section 5225 of Title 30-A of the Maine Revised Statutes, as amended. The City's use of tax increment revenues may also be used to pay debt service on bonds issued to finance said public projects.

A copy of the proposed Development Program for the new District is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

ORDER OF THE AUBURN CITY COUNCIL
November 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Diamond Point Developers LLC for the commercial development of certain property within its General Business zoning district located at the intersection of Turner Street and Center Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Diamond Point Storage Municipal Development and Tax Increment Financing District #30 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #30 (the "Diamond Point Storage Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Diamond Point Storage Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

Exhibit J - Public Project Costs

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT J: Public Project Costs

	Project	Maximum Percentage of CAV	Cost Estimate*	Statutory Citation
1	Administrative & Professional Services Costs: Costs of prorated portion of salaries of City staff for time associated with creation and administration of District, and fund costs of professional services associated with creation and administration of District. Costs related to the administration and facilitation of management and monitoring of this TIF, not to exceed the indicated percentage of the revenue generated from captured assessed value of the development district.[3]	5.0%	$258,734	30-A M.R.S. §5225(1)(A)(4); (1)(A)(5); (1)(A)(7)
2	Economic Development Programs: Costs of the City's economic development programs, including, but not limited to, marketing costs, prorated portions of staff salaries devoted to supporting and administering TIF programming, and other related operating expenses for the City's Economic Development Department. Costs related to the economic development programs, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[2, 3]	15.0%	$776,203	30-A M.R.S. § 5225(1)(C)(1); (1)(C)(3);
3	Road Improvements within our outside the district: Design, construction, engineering, other associated costs of road construction, sidewalk and pedestrian crossing safety improvements on roads located within the District or outside the District but directly related to or made necessary by the District, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	10.0%	$517,469	30-A M.R.S. § 5225(1)(A)(1); (1)(B)(1)
4	Public Safety Facility within the city: Costs related to the construction or operation of a public safety facility in the City, the need for which is related to general economic development within the City, not to exceed 15% of the revenue generated from the captured assessed value of the development district.[1, 3]	15.0%	$776,203	30-A M.R.S. § 5225 (1)(C)(9)

5	Public Infrastructure within or outside the district: Eligible recreational trail-related development district capital costs include but are not limited to new or existing trails, including bridges that are part of the trail corridor, used all or in part for all-terrain vehicles, snowmobiles, hiking, bicycling, cross-country skiing or other related multiple uses, signs, crosswalks, signals and warning systems and other related improvements, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$517,469	30-A M.R.S. §5225(1)(A)(2)
6	Housing Development within the city: Costs associated with the development and operation of housing, including, but not limited to, authorized project costs for improvements as described in section 5249 even if such improvements are not made within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$517,469	30-A M.R.S. § 5225 (1)(A)(9); 30-A M.R.S. § 5249 (1)(A)(5); (1)(A)(7)
7	Economic Development related to Housing within the city: Costs of improvements that are made outside the tax increment financing district but are directly related to or are made necessary by the establishment or operation of the district, including, but not limited to project costs for improvements as described in section 5249 in support of municipal economic development activities regardless of whether such costs are within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$517,469	30-A M.R.S. § 5225 (1)(B)(4); 30-A M.R.S. § 5249 (1)(A)(8)
8	Administrative Facilities: Capital costs related to the construction or renovation of the City's central administrative office, the need for which is related to economic development within the City, up to 50% of such costs, not to exceed 15% of the captured assessed value within the District.	10.0%	$517,469	30-A M.R.S. § 5225(1)(C)(12)

9	Capital Costs within the district: Costs of improvements made within the district related to the acquisition or construction of land, structures, fixtures or equipment, or the demolition, alteration, remodeling, repair or reconstruction of buildings, structures and fixtures for public, recreational trail, commercial or transit use including, but not limited to site preparation, finishing work, real property assembly costs and other capital costs or debt service related to such improvements such as licensing, permitting, planning, engineering and architectural and legal expenses, and credit enhancement agreement payments, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	15.0%	$776,203	30-A M.R.S. § 5225 (1)(C)(9); (1)(B)(1)
		100.0%	**$5,174,690**	

*These are estimates only. The City may allocate revenues generated by the district across approved project cost categories as needed.

Similar program costs contained within other current and future TIFs may be combined.

[1] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, and #6.

[2] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, #10, #6.

[3] The use of TIF revenue for this project cost has also been authorized in the City's TIF District #28.

All of the foregoing project cost categories have also been authorized in the City's TIF District #29 (pending approval).

THIS CREDIT ENHANCEMENT AGREEMENT dated as of _____ __, 2023, between the City of Auburn, Maine (the "City"), a municipal corporation and political subdivision of the State of Maine, and TAC Auburn, LP (the "Developer"), a foreign Limited Partnership with a principal place of business located at 3565 Piedmont Road NE, Building 1, Suite 200, Atlanta, GA 30305.

WITNESSETH THAT

WHEREAS, the Developer owns property located on Turner and Center Streets in Auburn, Maine (the "Property"), and intends to construct a new 93,500 square foot, Grade-A self-storage facility on the Property (the "Project"); and

WHEREAS, the City designated the Diamond Point Storage Tax Increment Financing Development District #29 (the "District") pursuant to Chapter 206, subchapter 3 of Title 30-A of the Maine Revised Statutes, by vote at a City Council Meeting held on _____ (the "Vote"), and

WHEREAS, the City received the approval of the District and the Development Program by the Maine Department of Economic and Community Development dated _____; and

WHEREAS, the City authorized the execution and delivery of a credit enhancement agreement as described in the Development Program pursuant to an Order of the City Council, adopted on _____; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute the credit enhancement agreement contemplated and described in the Development Program; and

WHEREAS, the estimated cost of off-site improvements required in connection with the development of the Property is estimated to be approximately $14,260,745; and

WHEREAS, the cost to construct the Project and maintain the commercial activity and employment opportunities in the City of Auburn requires financial assistance from the City to ensure completion of the Project; and

WHEREAS, completion of the Project will contribute to the economic growth and well-being of the City, and enable public facilities and improvements to the betterment of the health, welfare and safety of its inhabitants; and

DRAFT

WHEREAS, the City has decided to induce the Developer to undertake the Project through the use of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and in consideration of the mutual promises and covenants set forth herein, the parties hereby agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions.

The terms defined in this Article I shall, for all purposes of this Agreement, have the meanings herein specified, unless the context clearly requires otherwise:

"Act" means chapter 206 of Title 30-A of the Maine Revised Statutes and regulations adopted thereunder, as amended from time to time.

"Agreement" shall mean this Credit Enhancement Agreement between the City and the Developer dated as of the date set forth above, as such may be amended from time to time.

"CEA Year(s)" shall have the meaning given such term in Section 2.3(a) hereof.

"City" shall have the meaning given such term in the first paragraph hereto.

"City Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the City uses as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof.

"City Payments" means for each CEA Year the Developer Percentage of the Increased Assessed Value payable in accordance with the terms of this Agreement.

"Commissioner" means the Commissioner of the Maine Department of Economic and Community Development.

"Current Assessed Value" means the then current assessed value of real property within the District as determined by the City Tax Assessor as of April 1 of each Tax Year during the term of this Agreement.

"Department" means the Maine Department of Economic and Community Development.

"Developer" shall have the meaning given such term in the first paragraph hereto.

"Developer Percentage" means fifty percent (50%) of the Increased Assessed Value in each Tax Year on which Property Tax payments are made by the City to the Developer as City Payments under the terms of this Agreement, subject to the limitations set forth herein.

DRAFT

"Developer Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the Developer as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof

"Developer Property" or "Property" means the total of 5.46 acres that comprises the District, consisting of three parcels identified on the City's tax maps as Map 251, Lot 19, 21 and 22.

"Development Program" means the development program and financial plan for the District adopted by the City, as amended.

"Development Program Fund" means the Diamond Point Storage Municipal Development and Tax Increment Financing Development Program Fund described in the Financial Plan section of the Development Program and established and maintained pursuant to Article II hereof and 30-A M.R.S.A § 5227(3)(A).

"District" shall have the meaning given such term in the first recital hereto, which is more specifically comprised of approximately 5.46 acres of real property and identified in Exhibits B, C and D to the Development Program and any future improvements to such real property.

"Financial Plan" means the financial plan described in the "Financial Plan" Section of the Development Program.

"Fiscal Year" means July 1 to June 30 each year or such other fiscal year as the City may from time to time establish.

"Increased Assessed Value" means, for each CEA Year, the amount by which the Current Assessed Value for such year exceeds the Original Assessed Value. If the Current Assessed Value is less than or equal to the Original Assessed Value in any given Tax Year, there is no Increased Assessed Value in the corresponding CEA Year.

"Incremental Property Tax Payments" means all real property tax payments related to the Increased Assessed Value, inclusive of interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Original Assessed Value" means $518,900, the taxable assessed value of the real property within the District as of March 31, 2023 (April 1, 2022).

"Project Cost Account" means that portion of the Development Program Fund for the District as defined in the Financial Plan Section of the Development Program and established and maintained according to Title 30-A M.R.S.A. § 5227(3)(A)(1) and Article II hereof.

"Property Tax" means any and all *ad valorem* property taxes levied, charged or assessed against real property located in the District by the City, or on its behalf.

"State" means the State of Maine.

DRAFT

"Tax Increment Revenues" means that portion of all real property taxes assessed and paid within the District to the City in any Tax Year, excluding any state, or special district tax, including any scheduled payments thereof, interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Tax Payment Date" means the date(s) on which property taxes levied by the City are due and payable from the owners of property located within the City.

"Tax Year" shall have the meaning given such term in 30-A M.R.S.A. §5222(18), as amended, to wit: April 1 to March 31. Each Tax Year corresponds to a particular Fiscal Year. Each CEA Year occurs during a Fiscal Year.

Section 1.2. Interpretation and Construction.

In this Agreement, unless the context otherwise requires:

(a) The terms "hereby," "hereof," "hereto," "herein," "hereunder" and any similar terms, as used in this Agreement, refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of delivery of this Agreement.

(b) Words importing a particular gender mean and include correlative words of every other gender and words importing the singular number mean and include the plural number and vice versa.

(c) Words importing persons mean and include firms, associations, partnerships (including limited partnerships), trusts, corporations and other legal entities, including public or governmental bodies, as well as any natural persons.

(d) Any headings preceding the texts of the several Articles and Sections of this Agreement, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience of reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

(e) All approvals, consents and acceptances required to be given or made by any signatory hereto shall not be withheld unreasonably.

(f) All notices to be given hereunder shall be given in writing and, unless a certain number of days is specified, within a reasonable time.

(g) If any clause, provision or Section of this Agreement shall be ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or Section shall not affect any of the remaining provisions hereof.

ARTICLE II
DEVELOPMENT PROGRAM FUND AND FUNDING REQUIREMENTS

DRAFT

Section 2.1. Creation of Development Program Fund.

The City shall create and establish a segregated fund in the name of the City designated as "The Diamond Point Storage Municipal Development and Tax Increment Financing District Fund" (hereinafter the "Development Program Fund") pursuant to, and in accordance with the terms and conditions of, the Development Program and 30-A M.R.S.A. § 5227(3). The Development Program Fund shall consist of the Project Cost Account that is pledged to and charged with the payment of project costs as outlined in the Financial Plan of the Development Program and as provided in 30-A M.R.S.A. § 5227(3)(A)(1). The Development Program Fund is pledged to and charged with the payment of costs in the manner and priority provided in 30-A M.R.S.A. § 5227(3)(B). The Project Cost Account shall also contain two subaccounts designated as the "Developer Project Cost Subaccount" and the "City Project Cost Subaccount."

Section 2.2. Liens.

The City shall not create any liens, encumbrances or other interests of any nature whatsoever, nor shall it hypothecate the Developer Project Cost Subaccount described in Section 2.1 hereof or any funds therein, other than the interest in favor of the Developer and/or the Trustee hereunder in and to the amounts on deposit.

Section 2.3. Retention of Increment; Deposits into Development Program Fund.

(a) Commencing with the Tax Year beginning April 1, 2024, and for a period not to exceed twenty years, ending March 31, 2044 (each a "CEA Year" and collectively the "CEA Years" herein), the City shall retain at least the Developer Percentage of the Increased Assessed Value within the District for the benefit of the Developer as set forth herein.

(b) For each of the CEA Years, the City shall deposit into the Developer Project Cost Subaccount an amount equal to the Developer Percentage of each Incremental Property Tax Payment paid on Increased Assessed Value, up to a cumulative amount of $750,000. Such deposits shall be made by the City within 10 business days after the Property Tax due date at the time in effect; currently due semi-annually on each September 15 and March 15. In the event any such payment allocable to the Developer Percentage of Incremental Property Tax Payments is not timely paid to the City, the City shall deposit such payment (plus any allocable interest) within 10 business days of receipt of such payment.

(c) Notwithstanding anything to the contrary contained herein, all allocations to the Developer Project Cost Subaccount and payments to the Trustee for deposit therein shall cease at the conclusion of the term of this Agreement identified in Section 2.3(a) hereof subject to extension as identified in Section 6.1(a) hereof.

Section 2.4. Use of Monies in Development Program Fund.

All monies in the Development Program Fund that are allocable to and/or deposited in the Developer Project Cost Subaccount shall in all cases be used and applied to fund fully the City's

DRAFT

payment obligations to Developer described in Articles II and III hereof. All monies required to be deposited in the Developer Project Cost Subaccount shall be used by the Developer for construction of the Project.

Section 2.5. Monies Held in Trust.

Except as otherwise provided in this Agreement, all monies required to be deposited with or paid into the Developer's Project Cost Sub-Account of the Development Program Fund are to fund payments to the Developer under the provisions hereof and the provisions of the Development Program for the benefit of the Developer in accordance with the provisions of this Agreement.

Section 2.6. Investments.

Monies in the Developer's Project Cost Sub-Account may be invested and reinvested in Qualified Investments as determined by the City. The City shall have discretion regarding the investment of such monies, provided such monies are invested in Qualified Investments. As and when any amounts so invested are needed for disbursements, the City shall cause a sufficient amount of such investments to be sold or otherwise converted into cash to the credit of such account. The City shall have the sole and exclusive right to designate the investments to be sold and to direct the sale or conversion to cash of investments made with monies in the Developer's Project Cost Sub-Account of the Development Program Fund.

Section 2.7. Reporting Obligations.

Developer covenants and agrees to provide the City promptly upon request with all documentation reasonably required by the City to confirm the costs and completion of the projects set forth in Section 2.4.

ARTICLE III
PAYMENT OBLIGATIONS

Section 3.1. Company Payments.

(a) The City agrees to pay Developer all amounts then on deposit in the Company Project Cost Subaccount, on or before thirty (30) days following the Tax Payment Date.

(b) Notwithstanding anything to the contrary contained herein, if, with respect to any Tax Payment Date, any portion of the property taxes assessed against real property located in the District remain unpaid, because of a valuation dispute or otherwise, the City shall be under no obligation to pay Developer's share of the disputed portion of the Tax Increment Revenues to Developer. In such a circumstance, the property taxes actually paid with respect to such Tax Payment Date shall be applied to taxes due on account of Original Assessed Value and, next to Sinking Fund Account as applicable, to the taxes due on account of the allocation of TIF Revenues for the City Project Cost Subaccount, and next to the taxes due in account of the allocation of TIF revenues for the Company Project Cost Subaccount.

Section 3.2. Failure to Make Payment.

DRAFT

(a) In the event the City should fail to, or be unable to, make any of the payments at the time and in the amount required under the foregoing provisions of this Article III including in the event that the amount deposited into Development Program Fund is insufficient to reimburse Developer for the full amount due to Developer under this Agreement the City shall be in breach of the terms hereof, and the amount or installment so unpaid shall continue as a limited obligation of the City, under the terms and conditions hereinafter set forth, until the amount unpaid shall have been fully paid. The Developer shall have the right to initiate and maintain an action to specifically enforce the City's obligations hereunder, subject to the limitations of Section 3.3 below.

Section 3.3. Limited Obligation.

The City's obligations of payment hereunder shall be limited obligations of the City payable solely from Tax Increment Revenues pledged therefor under this Agreement. The City's obligations hereunder shall not constitute a general debt or a general obligation or charge against or pledge of the faith and credit or taxing power of the City, the State of Maine, or of any municipality or political subdivision thereof, but shall be payable solely from that portion of Tax Increment Revenues payable to Developer hereunder, whether or not actually deposited into Company Project Cost Subaccount in the Development Program Fund. This Agreement shall not directly, indirectly or contingently obligate the City, the State of Maine, or any other City or political subdivision to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment, excepting the pledge of the Tax Increment Revenues established under this Agreement.

ARTICLE IV
FURTHER INSTRUMENTS AND BOOKS AND RECORDS

Section 4.1. Further Instruments and City Costs.

The City shall, upon the reasonable request of Developer, from time to time execute and deliver such further instruments and take such further action as may be reasonable and as may be required to carry out the provisions of this Agreement; provided, however, that no such instruments or actions shall pledge the credit of the City; and provided further that the cost of executing and delivering such further instruments (including the reasonable and related costs of counsel to the City with respect thereto) shall be borne exclusively by Developer.

Section 4.2. Access to Books and Records.

(a) All non-confidential books, records and documents in the possession of the City relating to the District, the Development Program, this Agreement and the monies, revenues and receipts on deposit or required to be deposited into Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by Developer, its agents and employees.

DRAFT

(b) All non-confidential books, records, lease agreements and documents in the possession of Developer relating to the District, the Development Program, this Agreement and the monies, revenues and receipts used from the Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by City, its agents and employees.

ARTICLE V
DEFAULTS AND REMEDIES

Section 5.1. Events of Default.

Each of the following events shall constitute and be referred to in this Agreement as an "Event of Default":

(a) Any failure by the City to pay any amounts due to Developer when the same shall become due and payable;

(b) Any failure by the City to make deposits into Development Program Fund, including the Company Project Cost Subaccount, as and when due;

(c) Any failure by the City or Developer to observe and perform in all material respects any covenant, condition, agreement or provision contained herein on the part of the City or Developer to be observed or performed, which failure is not cured within thirty (30) days following written notice thereof;

(d) If a decree or order of a court or agency or supervisory authority having jurisdiction in the premises of the appointment of a conservator or receiver or liquidator of, any insolvency, readjustment of debt, marshaling of assets and liabilities or similar proceedings, or for the winding up or liquidation of the Developer's affairs shall have been entered against the Developer or the Developer shall have consented to the appointment of a conservator or receiver or liquidator in any such proceedings of or relating to the Developer or of or relating to all or substantially all of its property, including without limitation the filing of a voluntary petition in bankruptcy by the Developer or the failure by the Developer to have an involuntary petition in bankruptcy dismissed within a period of ninety (90) consecutive days following its filing or in the event an order for release has been entered under the Bankruptcy Code with respect to the Developer;

(e) If any secured lender of Developer accelerates the indebtedness owed to it;

(f) If any written representation or warranty given to the City by Developer is knowingly incorrect or incomplete in any material respect, other than statements made about or in agreements with the City that were later changed by mutual consent; and

(g) If Developer fails to maintain adequate surety bonding during construction at the levels and terms as may be required from time to time by the Developer's secured lenders and/or

Developer allows mechanics' liens to encumber the Project for a period of more than sixty (60) days.

Section 5.2. Remedies on Default.

Subject to the provisions contained in Section 8.9, whenever any Event of Default described in Section 5.1 hereof shall have occurred and be continuing, the nondefaulting party, following the expiration of any applicable cure period, shall have all rights and remedies available to it at law or in equity, including the rights and remedies available to a secured party under the laws of the State of Maine, and may take whatever action as may be necessary or desirable to collect the amount then due and thereafter to become due, to specifically enforce the performance or observance of any obligations, agreements or covenants of the nondefaulting party under this Agreement and any documents, instruments and agreements contemplated hereby or to enforce any rights or remedies available hereunder.

Section 5.3. Remedies Cumulative.

Subject to the provisions of Section 8.9 below concerning dispute resolution, no remedy herein conferred upon or reserved to any party is intended to be exclusive of any other available remedy or remedies but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity or by statute. Delay or omission to exercise any right or power accruing upon any Events of Default to insist upon the strict performance of any of the covenants and agreements herein set forth or to exercise any rights or remedies upon the occurrence of an Event of Default shall not impair any such right or power or be considered or taken as a waiver or relinquishment for the future of the right to insist upon and to enforce, from time to time and as often as may be deemed expedient, by injunction or other appropriate legal or equitable remedy, strict compliance by the parties hereto with all of the covenants and conditions hereof, or of the rights to exercise any such rights or remedies, if such Events of Default be continued or repeated.

ARTICLE VI
EFFECTIVE DATE, TERM AND TERMINATION

Section 6.1. Effective Date and Term.

This Agreement shall become effective upon its execution and delivery by the parties hereto and shall remain in full force from the date hereof and shall expire upon the performance of all obligations on the part of the City and the Developer hereunder or upon any earlier termination as provided in this Agreement.

Upon receipt of such approval, this Agreement shall remain in full force from April 1, 2024 and shall expire March 31, 2036 or sooner upon the payment of all amounts due to Developer hereunder and the performance of all obligations on the part of the City hereunder, unless even sooner terminated pursuant to any other applicable provision of this Agreement.

Section 6.2. Cancellation and Expiration of Term.

At the acceleration, termination or other expiration of this Agreement in accordance with the provisions of this Agreement, the City and Developer shall each execute and deliver such documents and take or cause to be taken such actions as may be necessary to evidence the termination of this Agreement.

ARTICLE VII
ASSIGNMENT AND PLEDGE OF DEVELOPER'S INTEREST

Section 7.1. Pledge and/or Assignment.

The City hereby acknowledges that Developer may pledge, assign and grant a security interest in its right, title and interest in, to and under this Agreement as collateral for financing by a bank or financial institution to Developer for the Project, although no obligation is hereby imposed on Developer to make such assignment or pledge. Recognizing this possibility, the City does hereby consent and agree to the pledge and assignment of and the grant of a security interest in all Developer's right, title and interest in, to and under this Agreement and in, and to the payments to be made to Developer hereunder, to third parties as collateral or security for indebtedness or otherwise, on one or more occasions during the term hereof. The City agrees upon request to execute and deliver any assignments, pledge agreements, consents or other confirmations required by the prospective pledgee or assignee or secured party, including without limitation recognition of the pledgee or assignee or secured party as the holder of all right, title and interest herein and as the payee of amounts due and payable hereunder and any and all such other documentation as shall confirm to such pledgee or assignee or secured party the position of such assignee or pledgee or secured party and the irrevocable and binding nature of this Agreement, and provide to the pledgee or assignee such rights and/or remedies as the parties may reasonably deem necessary for establishment, perfection and protection of its interest herein. Developer shall be responsible for the City's necessary and reasonable costs of counsel with respect to any such pledge or assignment.

Section 7.2. Transfer

Except as specified in Sections 7.1 and 8.1 hereof, Developer shall not transfer or assign any portion of its rights in, to and under this Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed.

ARTICLE VIII
MISCELLANEOUS

Section 8.1. Successors.

In the event of the dissolution, merger or consolidation of the City or Developer, the covenants, stipulations, promises and agreements set forth herein, by or on behalf of or for the benefit of such party shall bind or inure to the benefit of the successors and assigns thereof from

DRAFT

time to time and any entity, officer, board, commission, agency or instrumentality to whom or to which any power or duty of such party shall be transferred.

Section 8.2. Parties-in-Interest.

Except as herein otherwise specifically provided, nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City and Developer any right, remedy or claim under or by reason of this Agreement, it being intended that this Agreement shall be for the sole and exclusive benefit of the City and Developer.

Section 8.3. Severability.

In case any one or more of the provisions of this Agreement shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of this Agreement and this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 8.4. No Personal Liability.

(a) No covenant, stipulation, obligation or agreement of the City contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future elected or appointed official, officer, agent, servant or employee of the City in his or her individual capacity, and neither the City Council nor any official, officer, employee or agent of the City shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

(b) No covenant, stipulation, obligation or agreement of the Developer contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future officer, agent, servant or employee of the Developer in his or her individual capacity, and no officer, employee or agent of the Developer shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

Section 8.5. Counterparts.

This Agreement may be executed in any number of counterparts, each of which, when so executed and delivered, shall be an original, but such counterparts shall together constitute but one and the same Agreement.

Section 8.6. Governing Law.

The laws of the State of Maine shall govern the construction and enforcement of this Agreement.

Section 8.7. Amendments.

DRAFT

This Agreement may be amended only with the concurring written consent of both of the parties hereto.

Section 8.8. Integration.

This Agreement completely and fully supersedes all other prior or contemporaneous understandings or agreements, both written and oral, between the City and Developer relating to the specific subject matter of this Agreement and the transactions contemplated hereby.

Section 8.9. Dispute Resolution.

In the event of a dispute regarding this Agreement or the transactions contemplated by it, the parties hereto will use all reasonable efforts to resolve the dispute on an amicable basis. If the dispute is not resolved on that basis within sixty (60) days after one party first brings the dispute to the attention of the other party, then either party may refer the dispute for resolution by one arbitrator mutually agreed to by the parties, and judgment on the award rendered by the arbitrator may be entered in any Maine state court having jurisdiction. Any such arbitration will take place in Auburn, Maine or such other location as mutually agreed by the parties. The parties acknowledge that arbitration shall be the sole mechanism for dispute resolution under this Agreement. Provided however, that in the event the parties are unable to agree, within a reasonable period, on the selection of an arbitrator, either party may file suit to resolve the dispute in any court having jurisdiction within the State of Maine. This arbitration clause shall not bar the City's assessment or collection of property taxes in accordance with law, including by judicial proceedings, including tax lien thereof.

Section 8.10. Records.

The City shall maintain a record demonstrating its calculation of the Increased Assessed Value and Tax Increment Revenues within the District as it relates to deposits to the Development Program Fund pursuant to Article II and payments to the Developer under Article III of this Agreement, and shall provide Developer with a copy of the same upon request.

Section 8.11. Notices.

All notices, certificates, requests, requisitions or other communications by the City or Developer pursuant to this Agreement shall be in writing and shall be sufficiently given and shall be deemed given when mailed by first class mail, postage prepaid, addressed as follows:

If to the City:

Phillip Crowell
City Manager

Exhibit N - Municipality TIF Policy

CITY OF AUBURN
TAX INCREMENT FINANCING
&
CREDIT ENHANCEMENT
POLICY
AND
GUIDELINES

The following are the City of Auburn Tax Increment Financing (TIF) Policy and Credit Enhancement Agreement Application Guidelines.

I. Purpose and Introduction

TIF allows municipalities to "shelter" new value resulting from private investment from the calculation of its State subsidies (education and revenue sharing) and County taxes. A municipality's total equalized assessed value is used to calculate General Purpose Aid to Education (subsidy), State Revenue Sharing (subsidy), and County taxes (expense). When a municipality's equalized assessed value increases, State Aid for Education decreases, municipal revenue sharing decreases, and the municipality pays a greater portion of County taxes. Specific municipal shelter benefits for the term of the TIF include: No reduction in State aid for education, no decrease in municipal revenue sharing, and no increase in County taxes (assuming 100% capture).

A Tax Increment Financing District is a tool available to the City of Auburn to promote economic development. TIF enables the City to revitalize and redevelop designated areas and build community and economic growth through public-private partnerships. The TIF District allows the City to capture some or all of the incremental real and/or personal property tax revenues derived from new development or expansion of an existing development and provides a means of financing the economic and community development goals of Auburn as set forth in the Development Program of the District adopted by the City Council and as authorized by state law. The captured tax revenues from a TIF District can be used to finance municipal investments and City infrastructure projects; and can also be used to provide incentive or financing to a private development in the form of an associated Credit Enhancement Agreement (CEA), as authorized by the Development Program of the District and state law.

These guidelines are to provide guidance and outline standards for the development of TIF's and CEA's in the City when utilizing TIF Districts and TIF revenue for the City's development and redevelopment efforts. Notwithstanding compliance with any or all of these guidelines, the creation of a TIF District or authorization of a Credit Enhancement Agreement is a policy decision of the City of Auburn to be evaluated by the City on a case-by-case basis. Adopting this policy or any TIF District does not create a right or entitlement to assistance by any applicant.

II. Eligibility for Assistance

Economic development projects may be eligible for Tax Increment Financing assistance from the City when they meet the following standards:

- Would not occur without City assistance.
- Create or retain employment opportunities.
- Significantly expand the City's tax base by a minimum of $1,000,000.
- Diversify the economy and tax base of the City
- Conform to the quality and types of development the City seeks as outlined in the Comprehensive Plan, Strategic Plan, Downtown Revitalization Plan, Economic Development Action Plan, and Zoning Ordinances.
- Demonstrate a public benefit, such as expanding public infrastructure to service areas beyond the project or creating job opportunities or affordable housing.
- Public benefits from development must outweigh any possible adverse impacts on existing businesses or residents of the City.

The City provides TIF assistance through a Credit Enhancement Agreement that provides developers with reimbursement of a percentage of the property tax revenue paid on the increased assessed value (or incremental value) of their property. Tax revenue on the incremental value returned to the developers under a Credit Enhancement Agreement will not exceed an average of 75% of the incremental taxes over the life of the particular tax increment financing district or the Credit Enhancement Agreement. Further, the City Council may establish a cap on the total incremental taxes to be reimbursed to a developer under a CEA on an annual and/or cumulative basis. The applicant is required to submit all documentation required by the City in consideration of a Credit Enhancement Agreement. A Public Hearing shall be held to receive public comment on a completed CEA application at least ten days prior to a meeting at which the CEA is being considered for approval by the City Council.

Ill. Application Process

The City has established an Application for Tax Increment Financing & Credit Enhancement Agreement. Applications (whether initiated by the City or requested by a developer or business) will be reviewed by the Business and Community Development Department Staff and considered by the City Manager. Applications for a new TIF District or an amendment to an existing TIF District are subject to final approval by the City Council and the Maine Department of Economic and Community Development (DECD). The specific terms of TIF assistance through a CEA will be negotiated between the City and the applicant on a case-by-case basis. The City Manager or the City Manager's designee will negotiate for the City, and all recommendations for TIF assistance shall be based on the merits of the project and compliance with these guidelines. Based on City Council direction and approval, Business and Community Development staff will coordinate all activities regarding applications and will prepare materials as needed. The Director of Business and Community Development will assist the developer through the process. They will monitor ongoing investments in the development project if TIF assistance is granted.

All applicants for TIF assistance must pay a $500 non-refundable application fee at the time of submission. All applicants are required to reimburse the City of Auburn for all legal and administrative costs incurred as a result of the TIF proposal, including the cost of preparing all materials necessary to establish a new TIF District, amend an existing TIF District and draft the Credit Enhancement Agreement. If a Credit Enhancement Agreement is approved, an annual fee equal to 2% of the incremental tax reallocated back to the project will be assessed.

IV. Waiver of Provisions

The City of Auburn reserves the right under certain conditions to waive the provisions of the policy. The decision to do so shall be made by applying the following guidelines to ensure that the project remains within the general parameters of the Auburn Comprehensive Plan and community development vision(s). Criteria to be considered with granting a waiver are:

- Consistency with the Auburn Comprehensive Plan
- Consistency with the Downtown Revitalization Plan
- Consistency with the City's Economic Development Plan
- Consistency with the Development Plan of the TIF District
- Consistency with other local, State, and Federal laws/rules
- Evidence of need, and
- Capacity to carry out the project

V. Mandatory Guidelines

In all instances, applicants for tax increment financing and Credit Enhancement Agreements must demonstrate that the City's participation is economically needed to undertake the project. Such justification is demonstrated by:

- Need to offset infrastructure costs unique to the site
- Need to offset economic advantages available if it should develop a project or expand operations outside of Auburn
- Lack of sufficient funding sources to meet the entire capital investments needed to undertake the project
- The project creates significant new tax value throughout the Downtown District and other areas the City Council deems necessary
- The developer is financially capable of undertaking the project
- The developer is compliant with all statutory and regulatory guidelines of the City of Auburn and the State of Maine

VI. Guidelines that Determine the Level of Municipal Participation

Although the applicants' project need not meet each of the following criteria, the following will be used to determine the City of Auburn's participation level.

- Assists an established business in Auburn, retaining existing employment opportunities
- Creates long-term permanent and quality employment opportunities
- Contributes to the revitalization of the Downtown District or other areas in need of development or redevelopment
- Improves a blighted building site in need of rehabilitation
- Creates public infrastructure facilities that have applications beyond the particular development, road improvements, parking, sidewalks, green space, etc.
- Supports or will support community projects, job training, internships, and programs that assist the under-employed and supports local contractors and suppliers.

VII. Transfer of Ownership

If the applicant transfers ownership of property in the TIF District subject to a CEA to which the applicant is a party, the applicant must notify the City Manager in writing prior to finalizing the transfer. The prospective new owner must agree, in writing, to accept the provisions of the agreement as presented to and approved by the City Council before the City will release any further TIF reimbursements under the CEA. Failure to provide notice of a transfer of ownership by the applicant or for the prospective new owner to accept the terms of the CEA before the transfer shall render the CEA invalid, and no further payments under it shall be authorized.

VIII. Annual Expenditure of TIF Revenues for Municipal Projects

Each year the Director of Business and Community Development will review all proposed TIF Revenue expenditures as part of the City Budget process to ensure compliance with the existing TIFs.

Annual allocations of TIF revenues to fund existing Credit Enhancement Agreement commitments will be factored into the annual review of the use of the available TIF revenues and estimates of proposed Credit Enhancement Agreements will be calculated by the City Assessor and City Treasurer and provided to the City Manager for review and consideration.

ORDER 151-11202023

City Council Order

IN CITY COUNCIL

ORDER OF THE AUBURN CITY COUNCIL
November 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Diamond Point Developers LLC for the commercial development of certain property within its General Business zoning district located at the intersection of Turner Street and Center Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Diamond Point Storage Municipal Development and Tax Increment Financing District #30 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Order

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #30 (the "Diamond Point Storage Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Diamond Point Storage Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the

City Council Order

requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: John Blais

Subject: Proposed Map Change Converting Rural Residential Zoning District to Low Density Country Residence Zone within the Lake Auburn Watershed Overlay District.

Information: First reading, to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

As a positive recommended by Planning Board. This change is conjunction with updates proposing several text amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District including amending subsurface wastewater disposal (SSWD), or septic system standards requiring a limiting soil horizon of at least 36 inches and that the bottom the disposal field be at least 24 inches above the limiting soil horizon "limiting factor".

Several lots in the Lake Auburn Watershed Overlay District are not currently buildable because they do not have suitable soil to host a septic system under the current standard. While offering better effluent treatment to the SSWD systems in the Lake Auburn Watershed Overlay District, changing this design standard by allowing mounded systems would likely also have the effect of rendering more lots in the Lake Auburn Watershed Overlay District buildable with the allowance of mounded systems. More buildable lots may mean creating more potential SSWD systems, more land-based runoff, and less forested or vegetated areas to collect nutrients before they enter lake Auburn.
The purpose of this map amendment is to offset the building potential created by modernizing the SSWD standards. The planning board recommended to city council that changing the septic standards should coincide with changing the zoning in the Lake Auburn Watershed to allow fewer houses to offset the possible unwanted development in the watershed of Auburn's drinking water supply.
This map amendment proposes changing all land in the Low-Density Rural Residence or Rural Residence (RR) zoning district, shown in brown, to the Low-Density Country Residence (LDCR) zoning district, shown in green, within the Lake Auburn Watershed Overlay District. This change reduces the density from one dwelling unit per acre and minimum 250 feet road frontage to one dwelling unit per three acres and minimum 325 feet road frontage. For reference, the relevant meetings to this point have been listed below. This change considered with the Overlay District amendments will reduce total potential for development and ensure that any development that does occur will meet a

higher standard for the protection of Lake Auburn. text amendments will reduce total potential for development and ensure that any development that does occur will meet a higher standard for the protection of Lake Auburn.

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends that the Council completes the first reading tonight and plan to hold the public hearing on December 4, 2023 for the map amendment of 1,030 acres to Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn Watershed to the Low-Density Country Residence (LDCR) zoning district.

Previous Meetings and History:

Apr. 12, 2022— Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn Watershed Overlay District.

May 2, 2022—City Council orders the Planning Board to consider a zone change reducing housing density in the Lake Auburn Watershed from one dwelling per acre to one dwelling per three acres in the Rural Residence zoning district in the Lake Auburn Watershed.

May 3, 2022—Special Planning Board workshop to consider reducing the housing density in all parts of the Lake Auburn Watershed from one unit per acre to one-unit per three acres by changing RR zone to the LDCR zone.

Aug. 15, 2022—City Council workshop on reducing housing density in Lake Auburn Watershed from one dwelling unit per acre to one dwelling unit per three acres in the Rural Residential District in the Lake Auburn Watershed.

October 11, 2022—Planning Board Public Hearing to change RR to LDCR in all portions of the Lake Auburn watershed. Motion to recommend change to Council.

October 10, 2023—Planning Board workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR
October 16, 2023—City Council workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR
November 14, 2023-Planning Board, Public Hearing.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed map amendment to change the minimum lot size to three acres in the residential areas of the Lake Auburn watershed

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and public hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Map Amendment: Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

MOTION: David Trask makes a motion; **SECOND:** Evan Cyr seconds.

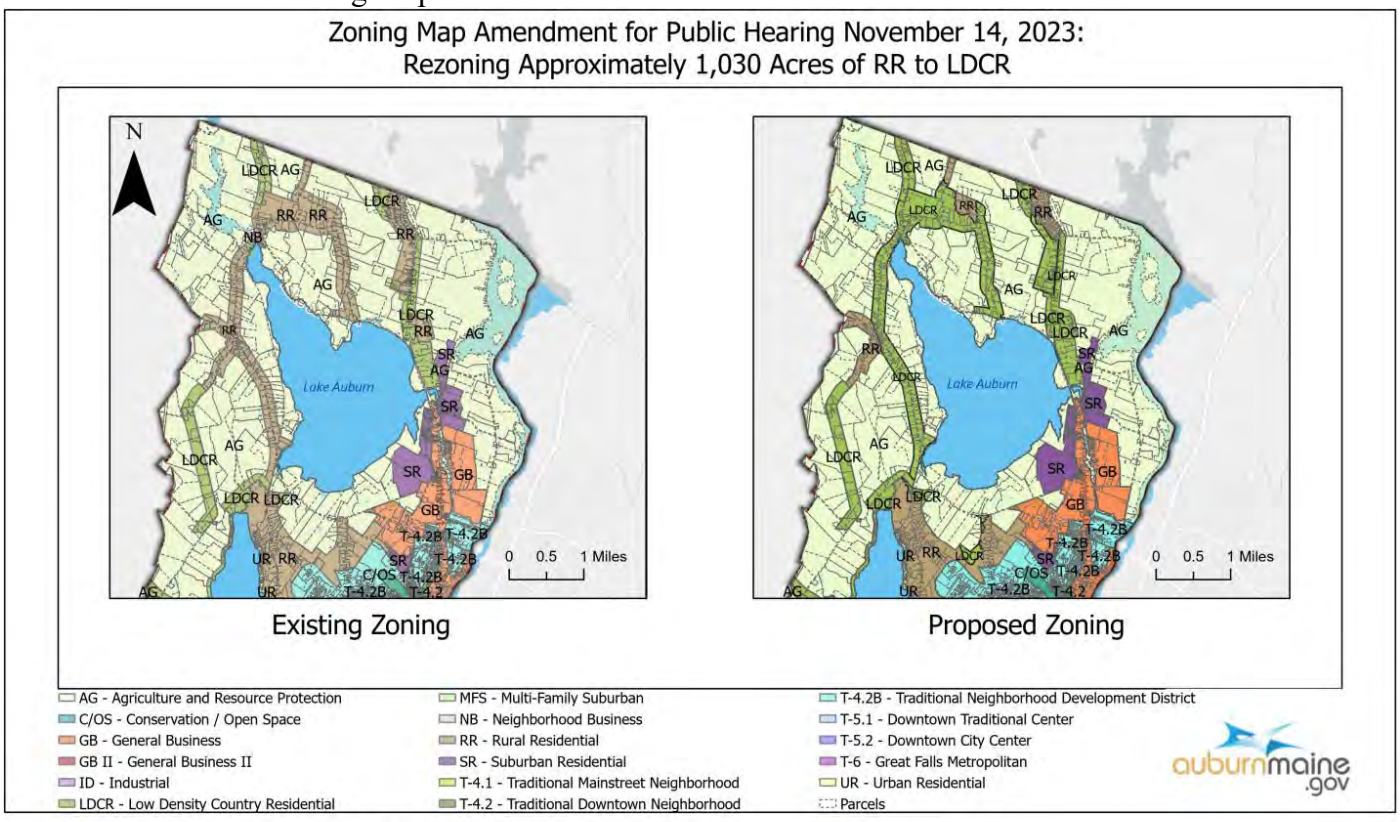
"I make a motion to forward a favorable recommendation to City Council to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence zoning district within the Lake Auburn Watershed to the Low-Density Country Residence zoning district." **VOTE:** 7-0-0 motion passes.

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: November 14, 2023
To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator

Subject: Staff Report on Proposed Map Change Converting Rural Residential Zoning District to Low Density Country Residence Zone within the Lake Auburn Watershed Overlay District.

I. **Proposal: Public Hearing/ Map Amendment:** Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.



Source: City of Auburn, Zoning Map, dated May 16, 2016

II. **Background:** The City of Auburn is proposing several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District including amending subsurface wastewater (SSWW) disposal, or septic system standards requiring a limiting soil horizon of at least 36 inches and that the bottom the disposal field be at least 24 inches above the limiting soil horizon limiting factor. This current standard does not allow for the most effective treatment of effluent because it forces effluent to travel below the organic duff layer, where the best treatment would occur. Under this existing standard, the treatment occurs in sandy, well-drained soils, which are not able to capture and treat onsite waste

nutrients. The proposed system decreases the limiting soil horizon to 12" but requires the disposal field to be treated through the existing natural duff layer and the required suitable natural soil or specified soil media must provide a minimum separation of 36-inch separation between the bottom of the disposal field and limiting factor. The proposed update is intended to improve the treatment efficiency of approximately 251 existing systems within the Lake Auburn watershed thereby reducing the potential accumulation of non-point source pollution to Lake Auburn.

Several lots in the Lake Auburn Watershed Overlay District are not currently buildable because they do not have suitable soil to host a septic system under the current standard. While offering better effluent treatment to the SSWW disposal systems in the Lake Auburn Watershed Overlay District, changing this design standard by allowing mounded systems would likely also have the effect of rendering more lots in the Lake Auburn Watershed Overlay District buildable with the allowance of mounded systems. More buildable lots may mean creating more potential SSWD systems, more land-based runoff, and less forested or vegetated areas to collect nutrients before they enter lake Auburn.

The purpose of this map amendment is to offset the building potential created by modernizing the SSWW disposal standards. The planning board recommended to the city council that changing the septic standards should coincide with changing the zoning in the Lake Auburn Watershed to allow fewer houses to offset the possible unwanted development in the watershed of Auburn's drinking water supply.

This map amendment proposes changing all land in the Low-Density Rural Residence or Rural Residence (RR) zoning district, shown in brown, to the Low-Density Country Residence (LDCR) zoning district, shown in green, within the Lake Auburn Watershed Overlay District. This change reduces the density from one dwelling unit per acre and minimum 250 feet road frontage to one dwelling unit per three acres and minimum 325 feet road frontage. For reference, the relevant meetings to this point have been listed below. This change considered with the Overlay District amendments will reduce total potential for development and ensure that any development that does occur will meet a higher standard for the protection of Lake Auburn.

Previous Meetings and Actions:

- **Apr. 12, 2022**— Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn Watershed Overlay District.
- **May 2, 2022**—City Council orders the Planning Board to consider a zone change reducing housing density in the Lake Auburn Watershed from one dwelling per acre to one dwelling per three acres in the Rural Residence zoning district in the Lake Auburn Watershed.
- **May 3, 2022—**Special Planning Board workshop to consider reducing the housing density in all parts of the Lake Auburn Watershed from one unit per acre to one-unit per three acres by changing RR zone to the LDCR zone.
- **Aug. 15, 2022**—City Council workshop on reducing housing density in Lake Auburn Watershed from one dwelling unit per acre to one dwelling unit per three acres in the Rural Residential District in the Lake Auburn Watershed.
- **October 11, 2022**—Planning Board Public Hearing to change RR to LDCR in all portions of the Lake Auburn watershed. Motion to recommend change to Council.
- **October 10, 2023**—Planning Board workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR
- **October 16, 2023**—City Council workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR

-

III. Planning Board Action: Hold a Public Hearing and recommend approval of the zoning map change to the City Council.

IV. Suggested Motion: I make a motion to forward a favorable recommendation to City Council to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas (1030+/-acres) in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn Watershed to the Low-Density Country Residence (LDCR) zoning district.

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-200. Purpose.

The purpose of this zone is to maintain and promote the rural/agricultural character of the land within this zone. This zone is composed of those areas in the city whose predominant land use is rural, wooded and agricultural. The regulations for this zone are designed to protect and stabilize these predominant land uses which are the essential characteristics of these areas and to minimize conflicting land uses detrimental to agricultural enterprises. Since residences are only incidental to this zone's development, the densities which require improved roads and expanded municipal services, in excess of those required by the present agricultural-oriented uses, shall not be permitted.

(Ord. of 9-21-2009, § 3.32A)

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for

domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.32C; Ord. No. 11-03012021, §§ 10, 11, 3-15-2021)

Ordinance: 24-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from LDRR or RR to LDCR

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: John Blais

Subject: Proposed Map Change from Agriculture and Resource Protection (AGRP) to General Business (GB)

Information: The proposal was initiated by the planning board in a workshop on October 10, 2023, and is pursuant to Chapter 60, Article XVII, Division 2 Amendment to the Zoning Ordinance or Zoning Map. Early today, the planning board will consider updating the Lake Auburn Watershed Overlay zoning map to match the "DWP Potential Boundary" that was agreed upon by the City of Auburn, Auburn Water and Sewer District, and Lewiston Water Division.

The land area that is removed from the watershed, approximately 80 acres, is currently zoned AGRP 20 acres will remain as AGRP. Staff believes that General Business (GB) would be the most appropriate option to apply in this area based on direction from the 2021 Comprehensive Plan. The Future Land Use Plan for the area near Gracelawn to be changed to the Commercial Development District, which is synonymous with the General Business District in its allowed uses and densities. An important goal for the city is listed in Strategy I.2.3.c in the Comprehensive Plan: to "Investigate opportunities for high quality, creative use of vacant land and/or buildings in and around commercial/ industrial centers." This includes rezoning Gracelawn Pits as a planned development site to be used for a mix of office, retail, and residential space, while assuring that the water quality of Lake Auburn is protected (page 73, Comprehensive Plan) because of its proximity to the abutting GB zone across Mount Auburn Ave.

At the November 14th planning board meeting, the board voted to recommend changing the zone in this area to GB. The motion itself is attached to this packet. The planning board had the following findings in their review.

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill.

3. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council discuss the proposals and provide the first reading and vote and prepare for the final reading and public hearing on December 4, 2023.

Previous Meetings and History:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.
- **Oct. 10, 2023**—Planning Board workshop on amending the Lake Auburn Watershed Overlay District.
- **Oct. 16, 2023**—City Council workshop on amending the Lake Auburn Watershed Overlay District.

Nov. 2, 2023—City staff send DWP Lake Auburn Watershed Overlay District updates.

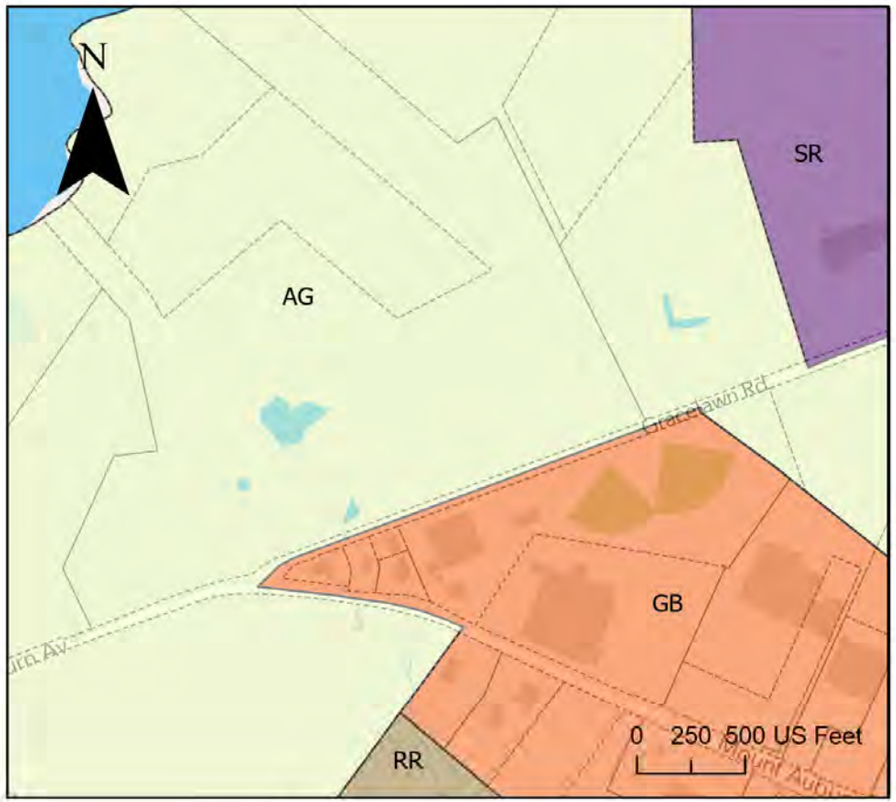
- **Nov. 14, 2023**—Planning Board Public Hearing on amending the Lake Auburn Watershed Overlay District.
- **Nov. 20, 2023**—Anticipated City Council first reading on amending the Lake Auburn Watershed Overlay District.
- **Dec. 4, 2023**—Anticipated City Council second reading and public hearing on amending the Lake Auburn Watershed Overlay District.

City Manager Comments:

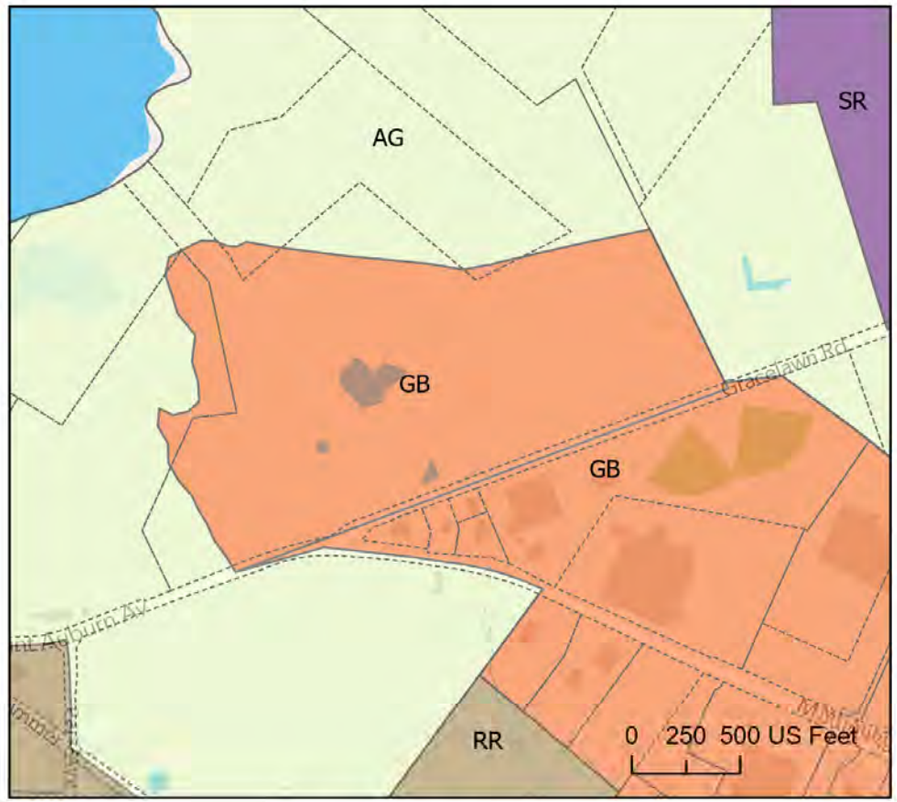
I concur with the recommendation. Signature:

Attachments: Proposed Ordinance, planning board motion, staff report (new watershed zone GB), GB zone ordinance and updated Map.

Zoning Map Amendment for Public Hearing November 14th 2023:
Rezoning Approximately 60 Acres of AGRP to GB



Existing Zoning



Proposed Zoning

- AG - Agriculture and Resource Protection
- C/OS - Conservation / Open Space
- GB - General Business
- GB II - General Business II
- ID - Industrial
- LDCR - Low Density Country Residential

Date: 11/20/2023
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed map amendment changing the Gracelawn area from AGRP to GB zoning district

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and public hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Map Amendment: Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance by rezoning approximately 60 acres in parts of City Assessor's Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district. The proposal was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

MOTION: David Trask makes a motion; **SECOND:** Amanda Guerrette second.

"I'm going to make a motion that we recommend to the council that we support the proposed changes to include that the General Business Boundary be adjusted to include the 60 acres shown on the map based on the following findings: The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone. The proposed new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc., CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new proposed adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill and that the proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan."
VOTE: 6-1-0 motion passes.

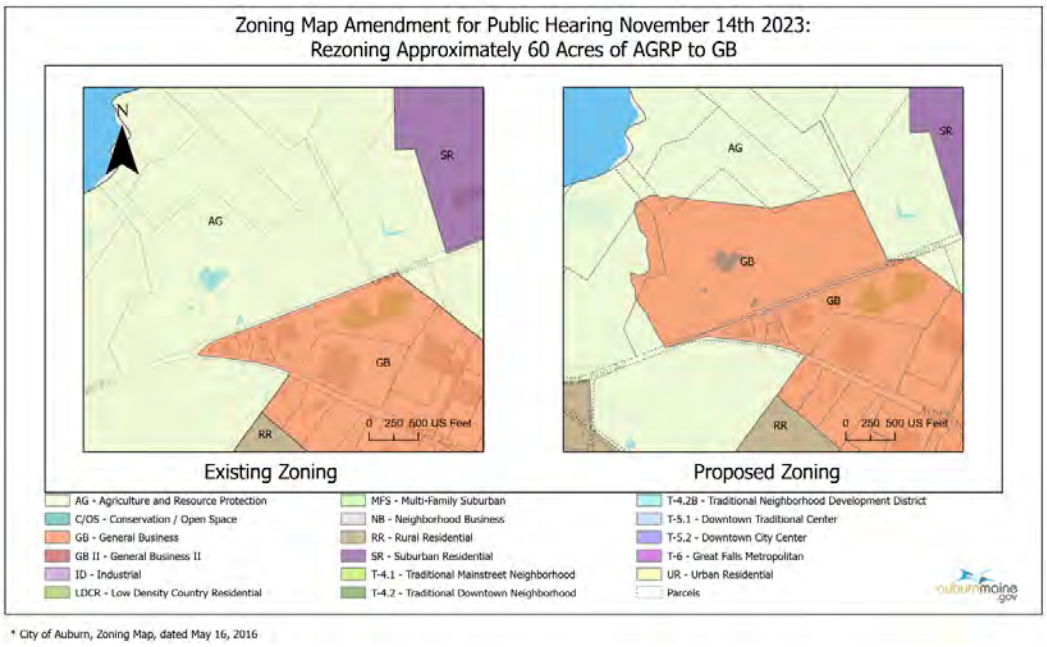
From: John Blais, Deputy Director of Planning and Permitting
Re: Staff Report on Proposed Map Change from Agriculture and Resource Protection (AGRP) to General Business (GB)



* City of Auburn, Zoning Map, dated May 16, 2016

I. **Public Hearing/ Map Amendment:** New zone considerations for area along Gracelawn Road amending approximately 60 acres in parts of Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district.

II. **Background:** The proposal was initiated by the planning board in a workshop on October 10, 2023, and is pursuant to Chapter 60, Article XVII, Division 2 Amendment to the Zoning Ordinance or Zoning Map. Early today, the planning board will consider updating the Lake Auburn Watershed Overlay zoning map to match the "DWP Potential Boundary" that was agreed upon by the City of Auburn, Auburn Water and Sewer District, and Lewiston Water Division.

The land area that is removed from the watershed, approximately 80 acres, is currently zoned AGRP 20 acres will remain as AGRP. Staff believes that General Business (GB) would be the most appropriate option to apply in this area based on direction from the 2021 Comprehensive Plan. The Future Land Use Plan for the area near Gracelawn to be changed to the Commercial Development District, which is synonymous with the General Business District in its allowed uses and densities. An important goal for the city is listed in Strategy I.2.3.c in the Comprehensive Plan: to "Investigate opportunities for high quality, creative use of vacant land and/or buildings in and around commercial/ industrial centers." This includes rezoning Gracelawn Pits as a planned development site to be used

for a mix of office, retail, and residential space, while assuring that the water quality of Lake Auburn is protected (page 73, Comprehensive Plan) because of its proximity to the abutting GB zone across Mount Auburn Ave.

COMMERCIAL DEVELOPMENT DISTRICT (CDD)(Excerpt from Comprehensive Plan)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- *Low and High Residential Density Uses*
- *Retail uses including large-scale uses (>100,000 square feet)*
- *Personal and business services*
- *Business and professional offices*
- *Medical facilities and clinics*
- *Restaurants*
- *Hotel, motels, inns, and bed & breakfast establishments*
- *Low and High-Density Residential Uses*
- *Community services and government uses.*
- *Research, light manufacturing, assembly, and wholesale uses*
- *Truck terminals and distribution uses*
- *Contractors and similar activities*
- *Motor vehicle and equipment sales*
- *Motor vehicle service and repair*
- *Recreational and entertainment uses and facilities.*

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

III. Environmental considerations for this zone change include having the ability to converting an existing active gravel pit to what could be a mixed-use development that could range from multi-family homes and multifaceted businesses found in the General Business District. If development occurs the site would revegetate in areas where structures and supporting infrastructure is not planned. The area would have the ability to plan for a sustainable development that would address stormwater and site law that has not been addressed in the last 60 years as grandfathered gravel pit.

IV. Utilizing the federal government's Environmental Protection Agency (EPA) Region 5 modeling for reporting Clean Water Act, 319 Grant projects staff ran a hypothetical model to redevelop the proposed 60 acres compared to what is existing today. Assumptions include the following: 40 acres of commercial development, 12 acres of vacant undeveloped land, 8 acres of open space revegetated. Compared to the 46 acres of open gravel pit, 4 acres of gravel roads, 10 acres of vacant land. Below is the overall annual pollutant load and runoff volumes for before after implementing permanent Best Management Practices such as Low Impact Development techniques to stabilize the site and treat stormwater runoff for a significant net reduction in nitrogen, phosphorus, bio-oxygen demand, sediment, and volumes of water.

Overall annual pollutant load and runoff volume before and after BMPs				
Pollutant	Pre-BMP	Reduction	After BMP	Percent Reduction
TN (lb/yr)	727.33	363.66	363.66	50%
TP (lb/yr)	72.73	36.37	36.37	50%
BOD (lb/yr)	3,230.77	2,220.85	1,009.92	69%
Sediment (lb/yr)	27,974.09	23,752.65	4,221.44	85%
Flow Volume (ac-ft/yr)	138.50	119.79	18.72	86%

Planning Board Action/Staff Suggestion: Staff suggest a planning board discuss the proposals and hold a Public Hearing on November 11, 2023. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed change, to include that the General Business Boundary be adjusted to include the 60 acres shown on the map based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill.
3. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

DIVISION 12. GENERAL BUSINESS DISTRICT

Sec. 60-498. Purpose.

This district is intended to include commercial uses serving both the city and the region, together with normal accessory uses compatible with a cohesive and attractive shopping and office area.

(Ord. of 9-21-2009, § 3.62A)

Sec. 60-499. Use regulation.

(a) *Permitted uses.* The following uses are permitted:

(1) Residential dwelling uses permitted in the Multifamily Suburban District (MFS) (division 7 of article IV of this chapter).

(2) Grocery stores and supermarkets.

(3) Clothing stores.

(4) Furniture stores.

(5) Department stores.

(6) Specialty shops.

(7) Hotels and motels.

(8) Funeral homes and mortuaries.

(9) Child day care centers.

(10) Medical and dental clinics.

(11) Wholesale bakeries.

(12) Retail laundries and dry cleaners, but not plants.

(13) Banks, business and professional offices.

(14) Public transportation passenger offices.

(15) Governmental offices.

(16) Municipal, civic or public service buildings and other utility facilities.

(17) Warehouses, wholesale offices, salesrooms and showrooms.

(18) Restaurants, bars, dining rooms or lunchrooms, but not to include drive-in and carry-out restaurants.

(19) Halls, private clubs and lodges, bowling alleys, ice and roller skating rinks, indoor theaters and similar places of indoor amusement or recreation.

(20) Animal hospitals and pet shops, but no kennels.

(21) Business equipment repair and business services.

(22) Radio and television studios.

(23) Printing shops, but not publishing plants.

(24) Retail, service, office and commercial uses similar to the foregoing.

(25) Carwashes.

(26) Accessory uses, building and structures.

(27) Shelters for abused persons.

(28) Greenhouses and lawn maintenance services.

(29) Temporary outdoor places of amusement.

(30) Churches and temples.

(31) Adult use and medical marijuana stores subject to the requirements of chapter 14, article XVIII of the City of Auburn Ordinances.

(32) Marijuana cultivation accessory to a licensed retail store on the same property.

(b) *Special exception uses.* The following uses are permitted as special exceptions after approval by the planning board in accordance with division 3 of article XVI of this chapter:

(1) Automobile filling stations.

(2) Automobile repair and service stations.

(3) Automobile and marine sales lots and sales and service agencies.

(4) Automobile and marine paint and body repair shops.

(5) Hospitals, care homes, boardinghouses and lodginghouses.

(6) Research or philanthropic institutions.

(7) Outdoor theaters.

(8) Drive-in or carry-out restaurants.

(9) Commercial parks.

(10) Sales, rental and service agencies for mobile homes, farm equipment, trucks and trailers, and machine equipment.

(11) Light industrial plants which will not create a nuisance by noise, vibration, smoke, odor or appearance.

(12) Off-street parking as a commercial or municipal use provided that such parking is limited to occupants of buildings located within 500 feet of such parking area whether or not within the same district. The planning board may impose conditions regarding fencing and screening, drainage, ingress and egress, signs and lighting, and total capacity of the parking area as it deems necessary to protect the character of the neighborhood.

(13) Trucking terminals and similar nonprocessing storage and distribution uses, except bulk storage of chemicals, petroleum products and other flammable, explosive or noxious materials.

(14) Convenience stores.

(15) Research, experimental and testing laboratories.

(16) Landscape services.

(17) Any new building of 5,000 square feet or more or any existing building which proposes a use permitted under subsection (a) of this section which will occupy an area of 5,000 square feet or more.

(18) Automotive towing and storage.

(19) Major retail development provided that it meets the conditions noted in section 60-45(g).

(20) Outpatient addiction treatment clinics.

(21) Adaptive reuse of structures of community significance.

(22) Public safety services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(23) Government services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(Ord. of 9-21-2009, § 3.62B; Ord. No. 11-11072016, 11-21-2016; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 05-05202019, 6-3-2019; Ord. No. 11-03012021, §§ 30, 31, 3-15-2021; Ord. No. 02-02132023, 2-17-2023)

Sec. 60-500. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* No building used for commercial or office uses shall be constructed on a lot having less than 10,000 square feet minimum lot area and measuring 100 feet in width. No lot shall be less than 100 feet in depth. Buildings used for residential uses shall have the same minimum lot area, width and depth as provided for buildings in the Multifamily Suburban District (MFS), section 60-307(1).

(2) *Density.* Not more than 30 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering

requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials. Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height. Religious buildings, municipal buildings or buildings listed by the state historic preservations commission may have a steeple, cupola or tower to a maximum height of 90 feet, if said structure is limited to 15 percent of the footprint of the principal building. In the airport approach zone, Federal Aviation Administration regulations shall apply. Accessory structures, including windmills, that are necessary for the operation of an allowed principal use may exceed the above maximum height requirements, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of the yard required pursuant to this section. In the airport approach zone, Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.62C; Ord. of 3-22-2010; Ord. No. 11-03012021, §§ 32, 64, 3-15-2021)

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from AGRP to GB

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone approximately 60 acres in parts of City Assessor's Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: John Blais

Subject: Map amendment revising the Lake Auburn Watershed Overlay District.

Information: Amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

The 2021 report by FB Environmental Associates, Horsely Witten Group, and the University of Maine, "A Regulatory, Environmental, and Economic Analysis of Water supply Protection in Auburn, ME" offered several recommended revisions to Auburn's Code of Ordinances and Regulations in the Lake Auburn Watershed Overlay District. One such recommendation was to update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn road area based on their understanding of the topography in the area.

Following a citizen-initiated petition against changing the zoning around the Lake Auburn Watershed Overlay District in the Gracelawn area, the Lake Auburn Watershed Overlay boundary, the City Council voted to repeal the ordinance that initially changed the Lake Auburn Watershed Overlay District and zoning to what they were prior to March 21, 2022.

Since the vote to repeal Ordinance 08-02072022, the Auburn Water and Sewer District, the City of Auburn, and the City of Lewiston have conducted peer reviews of the hydrogeological features of the Gracelawn area. The Maine Drinking Water Program (DWP) agrees with the CDM Smith finding that the "DWP Potential Boundary" shown in the attached memo is a conservative boundary that can be established with available data. More information would be necessary if there were to be any future amendment to the Lake Auburn Watershed Overlay district.

The purpose of this first public meeting is to amend the City's Lake Auburn Watershed Overlay map on our GIS system to match the agreed upon Lake Auburn watershed boundary shown as "DWP Potential Boundary" in Figure 1 - 0 Site Plan Depicting Areas of Uncertainty, and "Proposed Change" map sourced from CDM Smith in the "Lake Auburn Watershed Overlay District for Public Hearing

November 14, 2023." This meeting will be followed by a first reading in city council on November 20, and a second reading and public hearing in city council on December 4, 2023.

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends that the Council discuss the proposals and hold the public meeting and first reading and forward a positive vote for a second reading and public hearing.

Previous Meetings and History:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.

Date: 11/20/2023
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed map amendment regarding the bounds of the Lake Auburn Watershed Overlay District

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and public hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Map Amendment: Consider amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask and Amanda Guerrette second simultaneously.

I make a motion to forward a favorable recommendation to City Council to amend the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee, as shown on the attached maps included in the staff report dated November 14th 2023 with subject heading being 'Staff Report on proposed map amendment revising the Lake Auburn Watershed Overlay District.'"
VOTE: 7-0-0 motion passes.

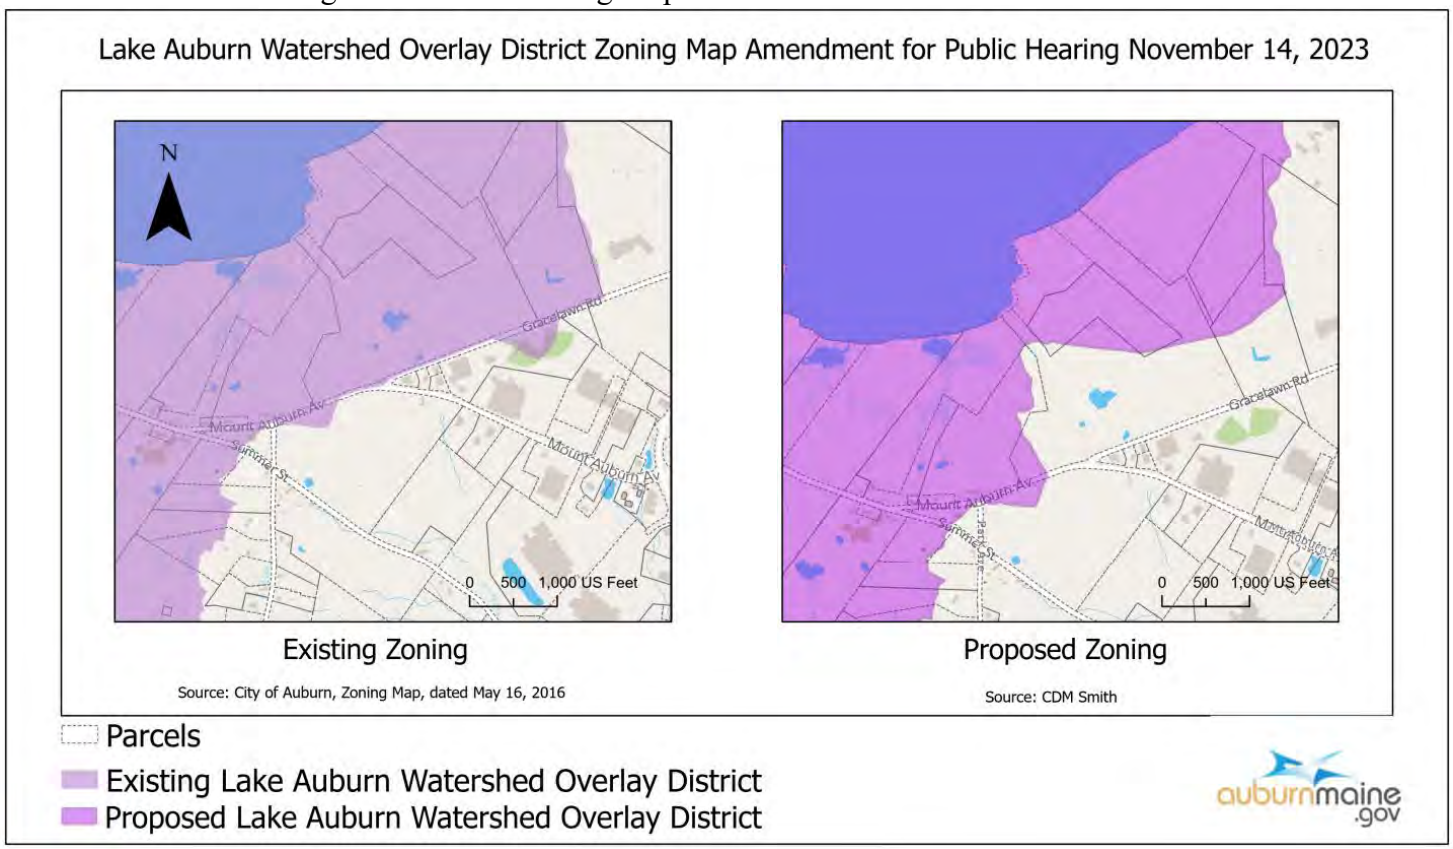
Subject: Staff Report on proposed map amendment revising the Lake Auburn Watershed Overlay District

I. Proposal: Public Hearing/ Map Amendment:

Consider amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.



II. Background:

The 2021 report by FB Environmental Associates, Horsely Witten Group, and the University of Maine, "A Regulatory, Environmental, and Economic Analysis of Water supply Protection in Auburn, ME" offered several recommended revisions to Auburn's Code of Ordinances and Regulations in the Lake Auburn Watershed Overlay District. One such recommendation was to update the Lake Auburn Watershed Overlay

District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn road area based on their understanding of the topography in the area.

In the following months, the Planning Board and City Council held public hearings on amending the Lake Auburn Watershed Overlay District and changing the zoning in the area formerly but no longer considered to be within the Lake Auburn watershed from the Agriculture and Resource Protection (AGRP or AG) zoning district to the General Business (GB) zoning district as well as on amending this area's designation in the in the Future Land Use Plan to the Community Development District (CDD).

Following a citizen-initiated petition against changing the zoning around the Lake Auburn Watershed Overlay District in the Gracelawn area, the Lake Auburn Watershed Overlay boundary, the City Council voted to repeal the ordinance that initially changed the Lake Auburn Watershed Overlay District and zoning to what they were prior to March 21, 2022.

Since the vote to repeal Ordinance 08-02072022, the Auburn Water and Sewer District, the City of Auburn, and the City of Lewiston have conducted peer reviews of the hydrogeological features of the Gracelawn area. The Maine Drinking Water Program (DWP) agrees with the CDM Smith finding that the "DWP Potential Boundary" shown in the attached memo is a conservative boundary that can be established with available data. More information would be necessary if there were to be any future amendment to the Lake Auburn Watershed Overlay district.

The purpose of this public hearing is to amend the City's Lake Auburn Watershed Overlay map on our GIS system to match the agreed upon Lake Auburn watershed boundary shown as "DWP Potential Boundary" in Figure 1 - 0 Site Plan Depicting Areas of Uncertainty, and "Proposed Change" map sourced from CDM Smith in the "Lake Auburn Watershed Overlay District for Public Hearing November 14, 2023." This meeting will be followed by a first reading in city council on November 20, and a second reading and public hearing in city council on December 4. Relevant meetings and actions up to this point and planned in the future have been listed below.

Previous Meetings and Actions:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.
- **Oct. 10, 2023**—Planning Board workshop on amending the Lake Auburn Watershed Overlay District.
- **Oct. 16, 2023**—City Council workshop on amending the Lake Auburn Watershed Overlay District.

Nov. 2, 2023—City staff send DWP Lake Auburn Watershed Overlay District updates.

- **Nov. 14, 2023**—Planning Board Public Hearing on amending the Lake Auburn Watershed Overlay District.
- **Nov. 20, 2023**—Anticipated City Council first reading on amending the Lake Auburn Watershed Overlay District.
- **Dec. 4, 2023**—Anticipated City Council second reading and public hearing on amending the Lake Auburn Watershed Overlay District.

III. Planning Board Action:

Staff recommends that the planning board forward a favorable recommendation to amend the Lake Auburn Watershed Overlay District as described in the suggested motion below.

IV. Recommended Motion:

"I make a motion to forward a favorable recommendation to City Council to amend the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee, as shown on the attached maps included in this meeting's materials."

LEWISTON ME

Public Works

September 18, 2023

Mr. Michael Broadbent, Superintendent
Auburn Water District
PO Box 414
Auburn, Maine 04212-0414

Mike
Superintendent Broadbent:

I am pleased, as I am sure you were, to have received the Maine Drinking Water Program's September 5, 2023 letter. As you know, the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty".

Of course, the Auburn Watershed boundary through the Gracelawn Parcel is an issue in the pending lawsuit, *City of Lewiston v. Auburn Water District, et al.* In an effort to remove that issue from suit, Lewiston consents to an amendment of the AWD bylaws to redefine the Level 1 zone of protection to exclude the portion of the Gracelawn parcel that lies between the DWP Potential Boundary line and the nearest roadway (and only to this extent).[1] Additionally, Lewiston proposes that AWD, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway. Upon the successful completion of these actions, Lewiston will notify the court that it is dropping this issue from the lawsuit.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. AWD has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the parties can amicably settle the remaining issues in the present lawsuit.

Please contact me with any questions.

Sincerely,

Kevin

Kevin A. Gagne, P.E.
Deputy Director of Utilities

ENCLOSURES: Maine Drinking Water Program's September 5, 2023 letter

---

[1] As the City of Lewiston recently communicated to AWD through counsel, it is Lewiston's position that AWD's current bylaws limit the Board of Trustee's authority to revise and amend the watershed. The Board may more specifically identify and map "these restriction zones" only to the extent the map is consistent with the bylaws' existing definitions of the restriction zones. The Level 1 Intake Restricted Zone is defined to consist "of the shoreline of Lake Auburn upland to the closest roadway." The DWP Potential Boundary is between the shoreline of Lake Auburn and the closest roadway, so adopting it as the Watershed boundary will require a change to the bylaws.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

LEWISTON ME

Administration

Phil Crowell, City Manager
City of Auburn
60 Court Street
Auburn, Maine 04210

September 18, 2023

Manager Crowell,

Last week, the Auburn Water District and the Lewiston Water Division received a letter from the Maine Drinking Water Program. I am pleased, as I am sure you were, that the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"*.

In 2022, the City of Auburn City Council amended the Lake Auburn Watershed Overlay District, as it affected the Gracelawn Parcel. Lewiston consents to an amendment of the Lake Auburn Watershed Overlay District, provided that the Auburn Water District first amend its bylaws to exclude the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway and that, second, the Auburn Water District, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. The Auburn Water District has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the remaining issues in the present lawsuit, *City of Lewiston v. Auburn Water District, et al.*, can be settled.

Please contact me with any questions.

Sincerely,

Heather Hunter

Ordinance: 27-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment of Lake Auburn Watershed Overlay District Boundary

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the Lake Auburn Watershed Overlay District within the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 20, 2023

Author: John Blais

Subject: First Reading on proposed (11) votes/text amendments applied to the Lake Auburn watershed.

Information: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to agricultural farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Since December of 2021, several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District have been proposed. These amendments include 1.) changes to the private subsurface wastewater disposal system design and site standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer widths from Lake Auburn and its tributaries and streams; and 3.) prohibiting new non-hobby agricultural farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn as Auburn and Lewiston's drinking water supply by updating subsurface wastewater disposal standards and environmental regulations to meet current best practices and modern science. A culmination of all amendments was proposed at the November 14, 2023 Planning Board meeting and had favorable recommendation from the Planning Board and recommended these go forward with the contingency that Rural Residential (1 acre minimum) zoning within the watershed be changed to Low-Density Country Residential (3 acres-minimum) and are now ready for review and vote by the city council.

These amendments have been collectively reviewed by outside subject matter experts to include former State of Maine Soil Scientist and State of Maine licensed Soil Scientist and Site Evaluator, David Rocque. University of Rhode Island, Director of the Onsite Wastewater Resource Center, Alissa Cox PhD. In addition, the Lake Auburn Water Quality Ad-Hoc Committee has reviewed and recommends the adoption of the zoning ordinance text amendments.

City Budgetary Impacts: None

Staff Recommended Action Staff recommends that the Council discuss the proposals and issue the first vote on adoption of text **ordinance changes described in version B**.

Previous Meetings and History:
December 21, 2021: city council directive to amend watershed boundary
January 2, 2022: council directs planning board to consider certain septic requirement text change
January 3, 2022: city council workshop to change boundary of watershed and change from AG to CDD
January 11, 2022: planning board workshop on amending watershed boundary
February 8, 2022: planning board public hearing on changing Gracelawn area from AGRP to GB and moving the CDD boundary to match the newly interpreted watershed boundary (favorable recommendation)
March 7, 2022: city council first reading on amending 148 Gracelawn area from AGRP to GB
March 21, 2022: city council second reading on amending a slightly reduced area in the Gracelawn area from AGRP to GB (passes)
April 12, 2022: planning board workshop and public hearing on updating subsurface wastewater (SSWW) standards (favorable recommendation contingent upon RR to LDCR zone change)
April 19, 2022: city council workshop on Lake Auburn watershed updates
May 2, 2022: city council first reading on updating SSWW standards and increasing agricultural buffer strip (favorable vote). also asks board to consider reducing housing density in the watershed
May 3, 2022: special planning board workshop to consider changing RR to LDCR in the watershed
August 9, 2022: planning board workshop on FB Environmental Report
August 9, 2022: City Clerk verifies signatures on petition to repeal watershed boundary
August 15, 2022: city council workshop on RR to LDCR
September 6, 2022: City council repeals Ordinance 08-03072022 (watershed boundary)
October 11, 2022: planning board review text amendment to increase ag. buffer strips and update SSWW requirements (favorable recommendation)
January 17, 2023: city council directs staff to initiate prohibition on new residences and animal farms in Lake Auburn watershed also in AGRP zone
January 17, 2023: city council directs planning board to consider that no future SSWW systems be allowed within 300 feet of Lake Auburn
September 18, 2023: DWP Potential Boundary wrote favorable letter for new line by Maine Drinking Water
September 26, 2023: Oct 10, 2023, PB workshop, Oct. 16, 2023 CC workshop, Lake Auburn Water Quality Ad-Hoc Committee issues memo recommending AWSD and LWD forward new boundary to DWP, October 17, 2023, URI makes recommendation on peer review to staff, October 17, 2023. November 14, PB public hearing.

City Manager Comments:

I concur with the recommendation. Signature:

Attachments: Proposed Ordinance changes Version B, planning board motion, planning board staff report (text amendments) DWP memo, LWD memo, Lewiston memo, City of Auburn Memo, Vote sheet language for CC.

Vote Sheet Language for City Council November 20, 2023

City Council Suggested Motion B (Staff and Legal Counsel Recommended):

a. I make a motion to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown.

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown.

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below.

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown.

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~

h. I make a motion to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown.

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburnsity Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting original section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-2 of the state plumbing code, part II (April 25, 1975), nN~~o new disposal field/subsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(7~~3~~) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require the abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(8~~4~~) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to amend Sec. 60-1065 to clarify the text as shown.

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5, 7)

k. I make a motion to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ Wwater Ddistrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn Wwater Ddistrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed ordinance text changes within the Lake Auburn Watershed Overlay District
Date: 11/20/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Public Hearing/ Text Amendment: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to non-hobby agricultural uses, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown in section 6a of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)- Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown in section 6 b of the staff report dated November 14th, 2023". **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown in Section C of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown in section 6d of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown in section 6e on page 9 of 12 in the staff report dated November 14, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown in section 6f beginning on page 9 of 12 and ending on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown in section 6g on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown in section 6h on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)- private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set of design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of the overseeing agencies; and deleting original section 60-952 (f) (5) as shown in section 6i beginning on page 10 of 12 and ending on page 11 of 12 of the staff report dated November 14th 2023."

MOTION: Evan Cyr offers an amendment to the motion; **SECOND:** David Trask seconds.

"I would like to make a motion to amend the motion to state that the favorable recommendation be contingent upon council's adoption of a density standard within the residential portion of the watershed not to exceed 1 unit per 3 acres." **VOTE:** 7-0-0 amendment to the motion passes.

VOTE: 6-1-0 the motion as amended passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown in section 6j beginning on page 11 of 12 and ending on page 12 of 12 of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text ass shown: in section 6k on page 12 of 12 of the staff report dated November 15, 2023." **VOTE:** 7-0-0 motion passes.

From: Katherine Cook, Planning Coordinator
Re: Staff Report on proposed ordinance text changes within the Lake Auburn Watershed Overlay District

I. **Public Hearing/ Text Amendment:** Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** Since January 2022, several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District have been proposed. These amendments include 1.) changes to the private subsurface wastewater disposal system design and site standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer widths from Lake Auburn and its tributaries and streams; and 3.) prohibiting new non-hobby animal farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn as Auburn and Lewiston's drinking water supply by updating subsurface wastewater disposal standards and environmental regulations to meet current best practices and modern science. All amendments were proposed at various stages but are now ready for review and recommendation by the planning board with ultimate approval by the city council.

These amendments have been collectively reviewed by outside subject matter experts to include former State of Maine Soil Scientist and State of Maine licensed Soil Scientist and Site Evaluator, David Rocque. University of Rhode Island, Director of the Onsite Wastewater Resource Center, Alissa Cox PhD. In addition, the Lake Auburn Water Quality Ad-Hoc Committee has reviewed and recommends the adoption of the zoning amendments.

For reference, below is the relevant meetings to this point have been listed below:

Previous Meetings and Actions:

- **Jan. 3, 2022**—Council directs planning board to maintain requirement of 36 inches above limiting factor for septic systems while allowing updating septic design to meet state standards.
- **Apr. 12, 2022**—Planning Board Workshop and Public Hearing on updating Sec. 60-952(f) (1-5) and (c) subsurface wastewater systems in the Lake Auburn watershed. Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn watershed.
- **April 19, 2022**—City council workshop on Lake Auburn watershed ordinance updates.

- **May 2, 2022**—City council first reading: updating Ch. 60, Article XII, Division 4, Sec. 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in the Lake Auburn Watershed. Favorable vote.
- **Aug. 9, 2022—**Planning board workshop on FB Environmental Report on updating Sec. 60-952 (f) (1-5) for subsurface wastewater systems.
- **Oct. 11, 2022**—Planning board review of text amendment to Ch. 60, Article XVII, Div. 4, Sec. 60-952(c) agricultural buffer strip and (f) (1-5) private sewage disposal systems.
- **Jan. 17, 2023**—City council directs staff to prepare ordinance text and map Amendment to prohibit any future residential structures and limit or prohibit animal farms in the Lake Auburn Watershed in the AGRP zone.
- **Jan. 17, 2023—**City council directs Planning Board to provide a recommendation for a zoning amendment that will prohibit any future subsurface wastewater disposal within 300' of Lake Auburn.
- **Sept. 26, 2023—**Lake Auburn Watershed Ad-Hoc Committee issues memo to recommend that zoning text amendments pertaining to animal farms, agriculture buffer strips, and septic system standards and map amendments to the Lake Auburn Watershed Overlay District and changing the Rural Residence District to the Low-Density Country Residence District within the Lake Auburn Watershed Overlay District. This memo was included in the materials for the October Planning Board and City Council meetings.
- **Oct. 10, 2023**—Planning Board workshop on text amendments concerning septic system design standards, banning commercial agriculture in the Lake Auburn Watershed, increasing width agricultural buffer strips abutting Lake Auburn and its tributaries.
- **Oct. 16, 2023—**City Council workshop on text amendments concerning septic system design standards, banning commercial agriculture in the Lake Auburn Watershed, increasing width agricultural buffer strips abutting Lake Auburn and its tributaries.

Staff has provided the Planning Board with two versions of Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District. The first is titled "**VERSION A (per 10/10/23 Pl Bd Workshop)**" the yellow highlighted text in Version A was recommended by the Ad Hoc Committee. The second is titled "**VERSION B (with Additional Staff/Legal Suggested Changes highlighted in yellow).**" Below is a summary of the changes in the attached proposed text amendment, and name where each proposed change originated. There are asterisks (*) on changes that have been suggested since the October Workshop by legal counsel, and two asterisks (**) on changes which have been suggested by the planning board.

To capture the Planning Board's preference and to receive appropriate feedback specific to each proposed text change, below we include two motions, Motion A and Motion B, each with several separate recommended motions which will together constitute the entire text amendment which is the subject of this agenda item. This will allow the Board and the public to discuss and form a recommendation on each component of the proposed changes individually. It should be noted that some of the changes rely on other changes to achieve the desired outcome of less development at a higher standard for the protection of Lake Auburn (Example: SSWW Disposal standards and change in density to reduce buildable lot potential).

Summary of Ordinance Text Changes:

1. Minor edits to clarify meaning made to Sec. 60-950. *(Edits suggested by legal counsel for clarity).*
2. Add Sec. 60-951 "(a) Boundaries", make minor edits to clarify meaning. *(Edits made by legal counsel for clarity).*
3. Add Sec. 60-951" (b) Definitions" and under this section, add the definition of "curtain drain," "hobby agricultural use," "Lake Auburn Watershed Protection Commission or LAWPC", (*) "non-hobby agricultural use," "soil horizon," "soil horizon, limiting or limiting soil horizon," "soil

profile," "soil filter media", (*) and soil filter media specifications". (*) *(Edits matching language it the State Plumbing Code made for specificity by legal counsel).*

4. Amend Sec. 60-952(a) to state that as of January 1, 2024, non-hobby farms are not permitted, and hobby farms require review from the LAWPC Watershed Manager and notification to the code enforcement officer. *(Introduced by the city council).*
5. Amend Sec. 60-952(b) to prohibit new dwelling units in the Lake Auburn Watershed Overlay District siting state law which may occasionally be amended. *(Language edit for clarity suggested by legal counsel, it should be noted, however, that the planning board and city council already took favorable action on this item's content.)*
6. Amend Sec. 60-952(c) so that agricultural buffer strips become 100 feet wide instead of 50 feet wide and specify that applicable perennial or tributary streams should be identified on a 7.5-minute series USGS topographic map, dated 1981. *(City council introduced this item and has had first reading).*
7. Amend Sec. 60-953(d) to prohibit any spreading of sludge and specify that manure spreading shall be in conformance with the then-current edition of the Maine Dept. of Agriculture Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal. *(Edit made by legal counsel to reflect existing environmental guidelines and practices.)*
8. Make minor edits to add specificity and clarify meaning in Sec. 60-952(e)(2) and (3). *(Introduced by legal counsel to add clarity.)*
9. Amend Sec. 60-952(f) substituting "sewage" with "subsurface wastewater." Under this section, also amend 60-952(f)(1) private subsurface wastewater disposal system design to specify that there must be at least 36 inches separation between the bottom of the disposal field and the limiting soil horizon and allows for 24 inches of this material be natural or fill; a change from the current ordinance. (*) *(Introduced by the city council with favorable recommendation made by the planning board.)*
10. Amend Sec. 60-952(f)(2) from requiring 300 feet between any new septic field to the high-water line of a stream, tributary, or outlet of Lake Auburn to requiring 400 feet separation. *(Introduced by the city council.)*
11. Add Sec. 60-952(f)(3) stating that all new or replacement systems must meet the above criteria or be designed in consultation with Auburn Water District or its designer (*). *(Introduced by legal counsel to add clarity.)*
12. Add Sec. 60-952(f)(4) that all replacement or new systems shall have either a curtain drain or a diversion ditch and that the design is signed off on by a site evaluator. *(Introduced by the city council.)*
13. Add Sec. 60-952(f)(5) which requires that all new and replacement systems be located on the same lot as the dwelling unit being served, or that in the case of an existing home, the applicant can prove to the plumbing inspector that it is physically impossible to have the septic system on the same lot. *(Introduced by the city council.)*
14. Add Sec. 60-952(f)(6) which requires that systems in the Lake Auburn Watershed Overlay District be inspected by LAWPC or its designee every five years (*). *(Introduced by the planning board).*
15. Make minor edits to clarify wording made to Sec. 60-952(f)(7) (*). *(Introduced by legal counsel to add clarity).*
16. Make grammatical edits to Sec. 60-952(f)(8). (*) *(Introduced by legal counsel.)*
17. Eliminate Sec. 60-952(f)(5) which exempts systems in existence since 1983 from meeting the provisions of this section.
18. Make grammatical edits made to Sec. 60-1237. *(Introduced by legal counsel.)*
19. Add clarifying wording to Sec. 60-1065- Definitions.

IV. Planning Board Action: This proposed text amendment involves several parts, so staff has suggested a public hearing and motions to break up this agenda item into multiple sections for comments on each component. The staff has provided a series of recommended motions for the planning board forward to council. These motions will together constitute the favorable recommendation to amend Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District. Staff recommends Version B with final legal advice and clarifications included but has included Version A below for transparency and to give the Board options.

V. Potential Motion A:

a. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown:

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown:

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below:

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

d. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown:

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses.~~ Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown:

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Dedistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburncity Wwater Dedistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area. Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), nNo new disposal fieldsubsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown.

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5-7B)

k. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text ass shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

VI. Suggested Motion B (Staff and Legal Counsel Recommended):

a. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown:

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown:

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below:

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or LAWPC means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown:

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown:

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown:

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting section 60-952 (f) (5) as shown:

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area. Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), nNo new disposal fieldsubsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(73) The Auburn city Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that who shall require the abatement action by the property owner or operator of such defects or malfunctions.

(84) The local plumbing inspector shall furnish a copy of all site investigation evaluation reports in the Lake Auburn Watershed Overlay District to the Auburncity Wwater Ddistrict or its designee.

(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.

j. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown:

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.5-7B)

k. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries*. The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions*. For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District~~ on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine~~

~~Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(7~~3~~) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(8~~4~~) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHORUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

● ● ●

ARTICLE XV. BOARD OF APPEALS

● ● ●

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

VERSION B (with Addt'l Staff Suggested Changes highlighted in yellow)

Prepared for November 14, 2023 Planning Board Meeting

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries*. The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions*. For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement

system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(~~8~~4) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHORUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

● ● ●

ARTICLE XV. BOARD OF APPEALS

● ● ●

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also

impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

Subject: Review of Ordinance Revisions and improved Lake Protections

Susan,

In an effort to strengthen Lake protections, the Auburn Water District has formed the "Lake Auburn Water Quality Ad-Hoc Committee". This Committee is made up of representatives appointed from the Auburn Water District, City of Lewiston Water Division, City of Auburn Planning and Permitting, and representatives of the Lake Auburn Watershed Protection Commission. The Committee was charged with the task of reviewing and advising changes to any watershed related ordinances. These recommendations were based on several science-based recommendations made by FB Environmental, Comprehensive Environmental, Inc and CDM Smith. The recommendations represent text amendments to the Lake Auburn Watershed Overlay District within the City of Auburn. Attached for your reference are the amendments that the collective group believes will strengthen Lake protections, reduce development, and lessen the impacts of sub-surface waste systems on Lake Auburn.

Attached with this letter is the memo signed by all members of the Committee present at the last meeting on September 26, indicating agreement on the following actions:

- Re-delineation of the Watershed Boundary as approved by the DWP.
- Increasing lot size requirements from 1-acre residential areas to 3-acre residential area minimums.
- The Committee further recommends that the Stake Holders represented on the Committee draft and execute an engagement with the Upper watershed towns to explore application of improved watershed protections in those towns.

The Ad-hoc committee unanimously agreed to endorse the currently proposed changes to the Auburn Watershed Overlay District. The draft changes as of September 26 are attached to our enclosed memo of that date. The City of Auburn has recently provided 2 further drafts for public hearing, versions A and Version B are both enclosed with this Letter.

The City of Auburn's current schedule is, 11/14 Planning Board review, 11/20 City Council First Reading and 12/4 City Council Public Hearing and 2nd reading. The ad hoc committee was in agreement that

these drafts should be forwarded to the Maine DWP to allow your review of the proposed changes, in case there was follow up necessary from your office.

Our organizations continue to be engaged in working together toward necessary watershed protections, we welcome your input on these measures. If you have comments or suggestions, we welcome those in this process.

Sincerely;

Michael Broadbent
Superintendent
Auburn Water and Sewer District

Cc Kevin Gagne, Eric Cousens, Camilla Parrish

Lake Auburn Water Quality Ad-Hoc Committee

MEMO

To: Auburn Water District, Lewiston Water Division

From: The desk of the Lake Auburn Water Quality Ad-Hoc Committee

Date: 9.26.23

Subject: Lake Auburn Watershed Overlay District Text and Map Amendments

The Lake Auburn Water Quality Ad-Hoc Committee has reviewed the following documents and recommends the adoption of zoning amendments for the protection of Lake Auburn. The attached text and map amendments have been reviewed, and consensus has been reached to support the changes based on peer-reviewed science. The Ad Hoc Committee recommends that the Auburn Water District and Lewiston Water Division forward the proposed changes to the Maine Drinking Water Program for review. The Committee further recommends that the Stakeholders represented on the Committee plan and execute an engagement with upper watershed towns to explore application of improved watershed protections in those towns, with legal advice on the authority of Auburn Water District to implement watershed protections.

The Summary of Changes Include:

1.) Proposed zoning text amendments, Sec 60-950 through 1065 (Exhibit A)
2.) Proposed Lake Auburn Watershed Boundary, As recommended by the Maine DWP (Exhibit B)
3.) Map Amendment; Changing 1-acre residential areas (Rural Residential) to 3-acres residential areas minimums (Low-Density Country Residential).

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater District on file in the office of the Auburncity Wwater District, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, and Town of Turner, minot / Hebron / Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or limiting soil horizon means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) ***Agricultural uses.*** ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) ***Residential dwellings in the agriculture and resource protection zoning district.*** **Notwithstanding** the provisions of Secs ~~subsections~~ **60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),** new ~~one-family detached~~ **dwellings** units **are** ~~only permitted~~ prohibited **in the Lake Auburn Watershed** Overlay **District** ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) ***Agricultural buffer strip.*** **Where land adjoining Lake Auburn or its perennial tributaries** ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981)~~ **is tilled for agricultural purposes, an untilled buffer strip** 100~~50~~ **feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.**

(d) ***~~Municipal and m~~Manure and sludge disposal.*** ~~All s~~**Spreading and disposal of** ~~municipal~~ **sludge** ~~is prohibited. shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ **All spreading and disposal of manure shall be accomplished in conformance with** the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface ~~wastewater~~sewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981)~~. Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R.

ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District shall be inspected by LAWPC, or its designee, every 5 years or at the time that a property sold, whichever date is sooner.

(73) **The Auburn ~~city~~ Wwater Deistrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.**

(84) **The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Deistrict.**

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

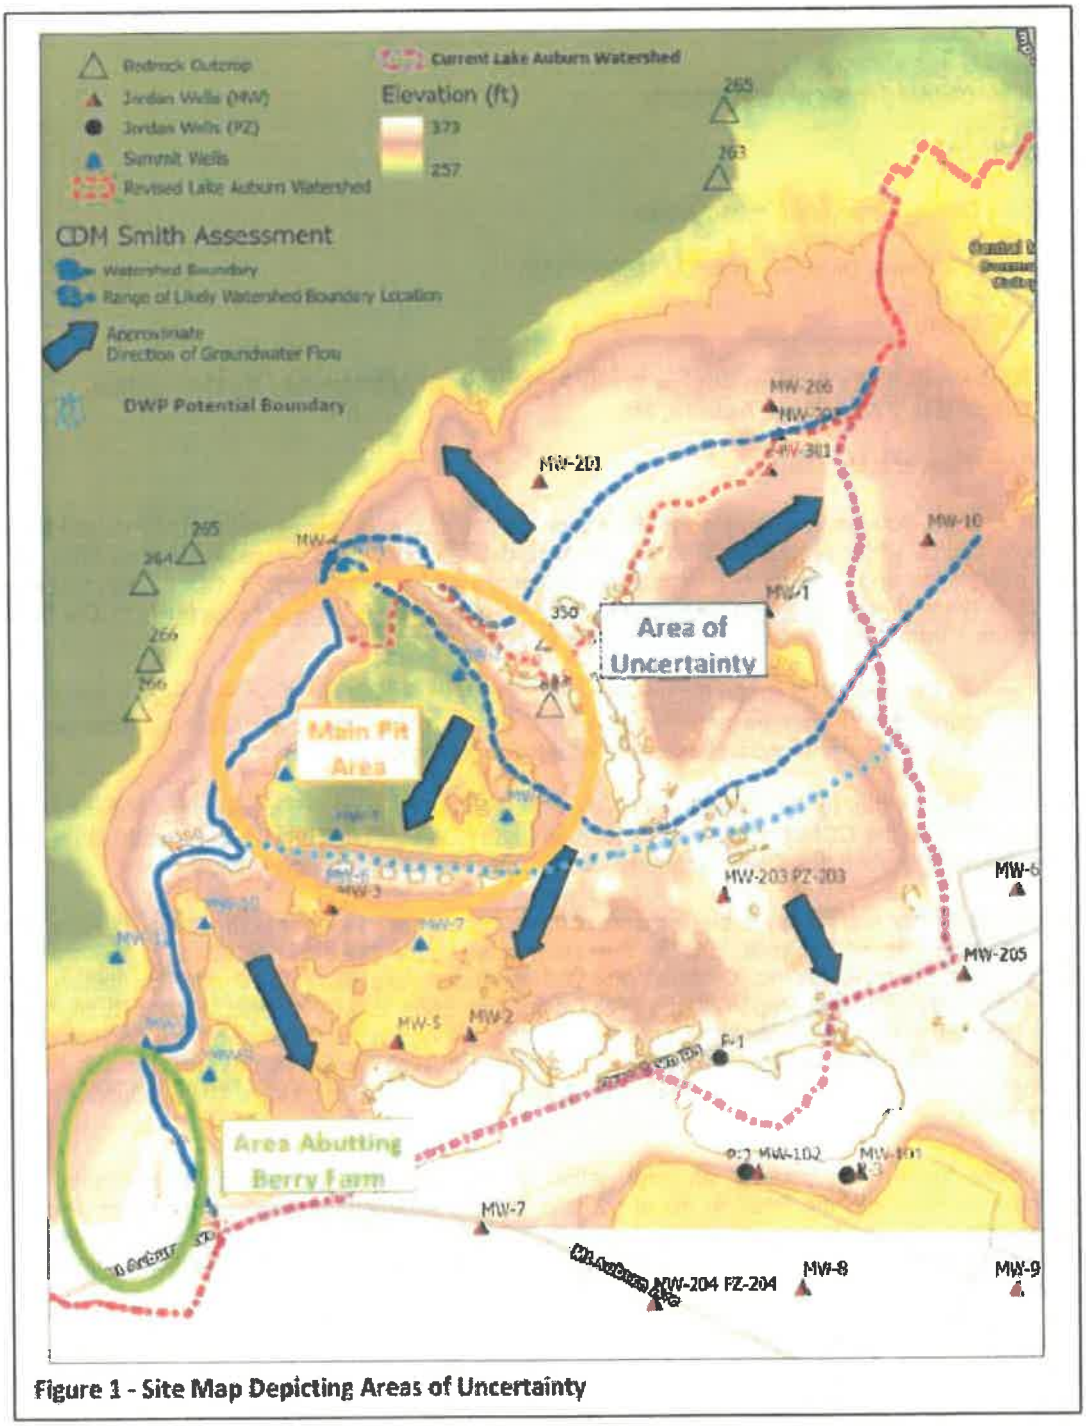

Figure 1 - Site Map Depicting Areas of Uncertainty

Feel free to contact me regarding our feedback within this letter, and thank you for your good work providing safe drinking water.

Sincerely,

Susan F. Breau

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine~~

~~Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ Wwater Ddistrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

• • •

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

• • •

DIVISION 2. PHOSPHORUS CONTROL

• • •

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

• • •

ARTICLE XV. BOARD OF APPEALS

• • •

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

VERSION B (with Addt'l Staff Suggested Changes highlighted in yellow)

Prepared for November 14, 2023 Planning Board Meeting

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses.~~ Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement

system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

• • •

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

• • •

DIVISION 2. PHOSPHORUS CONTROL

• • •

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

• • •

ARTICLE XV. BOARD OF APPEALS

• • •

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also

impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

Ordinance: 28-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from LDRR or RR to LDCR

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to agricultural farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map and are detailed below.

a. I make a motion to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown.

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown.

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection*

City Council Ordinance

Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile to this section as shown below.

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

City Council Ordinance

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown.

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

City Council Ordinance

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal ~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown.

Sec. 60-952. Use and environmental regulations.

City Council Ordinance

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburncity Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting original section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

City Council Ordinance

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(~~8~~4) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to amend Sec. 60-1065 to clarify the text as shown.

City Council Ordinance

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

k. I make a motion to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

City Council Meeting
Agenda
December 4, 2023
Auburn Hall, Council Chambers

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Staples

Pledge of Allegiance

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 152-12042023*
Re-appointing Riley Bergeron to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

2. Order 153-12042023*
Re-appointing Evan Cyr to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

3. Order 154-12042023*
Appointing Stephen Roop to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

4. Order 155-12042023*
Accepting the Audit Report.

5. Order 156-12042023*
Appointing Wardens and Ward Clerks for a two-year term as outlined in our City Charter.

II. Minutes – November 20, 2023, Regular City Council Meeting

III. Communications, Presentations and Recognitions
- Proclamation – Small Business Saturday
- Recognition of Outgoing Elected Officials
- Finance Report – October 2023
- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. **Ordinance 21-09182023**
   Amending the Code of Ordinances, Chapter 14, Article XVIII Adult Use and Medical Marijuana Business licensing. Second reading.

2. **Ordinance 24-11202023**
   Amending the zoning map to rezone all areas in the LDRR or RR zoning district within the Lake Auburn watershed to the LDCR zoning district. Public hearing and second reading.

3. **Ordinance 26-11202023**
   Amending the zoning map for parcel ID 289-001, 289-002, and 277-026 from AGRP to GB. Public hearing and second reading.

4. **Ordinance 27-11202023**
   Amending the zoning map to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. Public hearing and second reading.

5. **Ordinance 28-11202023**
   Amending the Chapter 60, Article XII, Division 4 – Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. Public hearing and second reading.

VI. New Business

1. **Public hearing – CDBG PY23 Revised Budget and Action Plan.**

2. **Order 157-12042023**
   Authorizing the School Committee to establish a curriculum development reserve fund for the purpose of funding curriculum development materials, equipment, software, and professional development.

3. **Order 158-12042023**
   Authorizing the naming of “Officer Norman Philbrick Square” (or “Philbrick Square”).

4. **Order 159-12042023**
   Authorizing the naming Mustang Alley.

5. **Order 160-12042023**
   Authorizing the naming of “Joseph ‘Joe’ Walker Memorial Field” or (“Walker Field”).

6. **Order 161-12042023**
   Authorizing the naming of “Tricia Asselin Memorial Field” or (“Asselin Field”).

7. **Order 162-12042023**
   Allocating funds (Comprehensive Plan Implementation Funding) of up to $160,767.50 for the replacement structure for R&K Properties LLC (PID 221-074).

8. **Order 163-12042023**
   Approving Tax Increment Financing (TIF) District #31, Academy Street. Public Hearing.

9. **Order 164-12042023**
   Approving Tax Increment Financing (TIF) District #32, Mount Auburn Housing. Public Hearing.

10. **Order 165-12042023**
    Adopting the employment agreement between the city and the City Manager Phillip L. Crowell, Jr.

11. **Order 166-12042023**
    Approving the allocation of American Rescue Plan Act (ARPA) funds for the PAL Center.

12. **Order 167-12042023**
    Authorizing the allocation$1,823,255.00 from the FY22 undesigned fund balance that's in excess of the recommended 14%.

13. **Resolve 03-12042023**
    Calling upon the Auburn Water District and the Lake Auburn Watershed Protection Commissioners to being discussions with the towns in the upper watershed to adopt critical protections for Lake Auburn.

14. **Order 168-12042023**

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): My interest in serving on the Auburn Planning Board is the desire to promote sensible growth to diversify and expand the local tax base. As an Auburn native, I appreciate the growth our community has experienced but acknowledge the need for a forward-looking strategy maximizing residential and commercial development while at the same time protecting the assets which make our community unique. My professional experience involves over 14 years economic and real estate development with the Lewiston/Auburn Economic Growth Council, Auburn Business Development Corporation, Lewiston Development Corporation and Hannaford Bros. Co. In addition, I am a quadriplegic. Having suffered an injury nearly 16 years ago, I have witnessed various development standards that have promoted as well as inhibited accessibility. It is my desire to bring together my unique professional and personal experiences to shape a sensible strategy to promote growth and accessibility within the City of Auburn.

What do you hope to accomplish?: Diversify and expand the local taxpayers in a sensible and accessible manner.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Briefly describe why you want to serve on a board/committee (1,000 character limit): I want to serve on the Planning Board because I think that civic engagement and involvement is important. I am a father of two, and modeling civic engagement for them is important to me as well as modeling civic engagement for my students. I also believe the Planning Board serves an important and indispensable function in our community. I believe I have experience and understanding that can help further the work that the Planning Board does. For me it is a good fit to be involved where I think my skill set can best be used for the wider community while being civically engaged and promoting civic engagement for my children, students, friends and neighbors.

What do you hope to accomplish?: I hope to work collaboratively to continue protecting Auburn?s natural resources, including Lake Auburn, Auburn?s agricultural and rural resources, open space, and neighborhoods. I also hope to

continue developing zoning solutions that will help alleviate the current housing shortage, promote home ownership, create diverse housing opportunities for all residents, promote smart growth and density infill where appropriate, promote growth for all residents, and improve the quality of live in our c

Current Occupation: Financial Advisor (Morgan Stanley, Portland)

Previous Occupation (if retired or no longer working):

Education and/or experience: B.S. Economics and Finance

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Planning Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I moved back home to Auburn just over a year ago with my family and I have been looking to get involved in the community. I enjoy real estate/development and when I heard about the opportunity to serve the community through this board, I wanted to pursue it. I?ve done some work in Portland with their planning board through smaller developments I have undertaken. I understand the importance of having a solid board/team to help navigate what can be a confusing and overwhelming process. I would like to work with local individuals, businesses and developers to continue the progress we have seen recently. Serving on the board would enable me to use my skill set in development/finance for the good of our community. I see the potential Auburn has going forward and would like to work with others to help with this movement.

What do you hope to accomplish?: Continuing to grow while maintaining our tight knit community is important. Working with current residents, expanding demographics, and bringing in new businesses interested in growing our community, is something I would like to work towards. Providing opportunity and a positive landscape for innovation and development is necessary for our city. The planning board has a significant role in this process and I hope to become a part of this this team to help continue to grow Auburn.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: No

Previous Occupation (if retired or no longer working):

Education and/or experience: BA in Environmental Planning and Policy

Please check which board or committee you are interested in serving on. Individual applications for each board or committee (if you wish to serve on more than one).: Planning Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Reappointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): When I originally applied for a position on the Planning Board I was looking to use my college education in a way that would hopefully benefit my community. After four years (one as an alternate member) in the position, I have learned a lot about the public process that I believe will make me an even more effective member. If reappointed I will continue my work on this board with the same level of commitment to the community that I grew up in and call home.

What do you hope to accomplish?: One of the most successful things, in my onion, that was accomplished in my time on the board was the rewriting of the Agricultural Zone. The reason I felt it was so successful was the inclusion of all the stakeholders and public input resulted in a new outcome that was successful in everyone's view. I hope to accomplish similar outcomes in the future.

IN COUNCIL REGULAR MEETING NOVEMBER 20, 2023, VOL. 37 PAGE 103

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

I. Consent Items – None

II. Minutes – November 6, 2023, Regular City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Hawes to approve the minutes of the November 6, 2023, Regular City Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

Mayor Levesque announced that he received notification that the Senate has passed a $3.9 million Congressional discretionary spending bill for the Riverwalk, however, they haven't acted on it yet. He thanked staff, the City Council and Senator Collins and her staff for helping with this. He provided information on the Light the Park event in Anniversary Park to be held on Friday, December 1st from 6-8pm.

Councilor Whiting congratulated the Lewiston Blue Devils soccer championship team.

Councilor Gerry asked what will be done for the homeless and warming centers in the City and the City Manager provided an update.

IV. Open Session – Stephen Beal wanted to comment on agenda item #5, the TIF #29 item not realizing there would be public comment at that time. He stated that he would defer his comments until that item comes up on the agenda.

V. Unfinished Business - None

VI. New Business

1. **Order 146-11202023**
   Approving the Mass Gathering Permit for the New Year Auburn Event to be held on December 31, 2023, in Festival Plaza. Public hearing and vote.

   Motion was made by Councilor Morin and seconded by Councilor Walker for passage.

   Public hearing – No one from the public spoke.

   Passage 7-0.

2. **Order 147-11202023**
   Allocating funds from the American Rescue Plan Act (ARPA) for the Public Safety Wellness Program.

   Motion was made by Councilor Morin and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Order 148-11202023**
Allocating funds for the Recreation Program Scholarships.

Motion was made by Councilor Gerry and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0.

4. **Order 149-11202023**
Approving the Miller Street discontinuance.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 7-0.

5. **Order 150-11202023**
Approving Tax Increment Financing (TIF) District #29, 186 Main Street.

Motion was made by Councilor and seconded by Councilor Walker for passage.

Public comment – Stephen Beal, Johnson Road, did not speak for, nor against this item but had questions regarding the credit enhancement agreement.

Passage 7-0.

6. **Order 151-11202023**
Approving Tax Increment Financing (TIF) District #30, Diamond Point Storage.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – John Cleveland, 183 Davis Avenue, had questions regarding the credit enhancement agreement. He also stated that he would like to see the Tax Increment Financing voted on separately from the Credit Enhancement Agreement.

Passage 6-1 (Councilor Whiting opposed).

7. **Ordinance 24-11202023**
Amending the zoning map to rezone all areas in the LDRR or RR zoning district within the Lake Auburn watershed to the LDCR zoning district. First reading.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Gerry opposed).

8. **Ordinance 26-11202023**
Amending the zoning map for parcel ID 289-001, 289-002, and 277-026 from AGRP to GB. First reading.

Motion was made by Councilor Morin and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 5-2 (Councilors Gerry and Whiting opposed).

9. **Ordinance 27-11202023**
Amending the zoning map to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. First reading.

Motion was made by Councilor Hawes and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Gerry opposed).

10. **Ordinance 28-11202023**
Amending the Chapter 60, Article XII, Division 4 – Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. First reading.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – Bruce Rioux, Mary Carroll Street, said amending this ordinance will be adding pollution to the lake.

Passage 5-2 (Councilors Gerry and Whiting opposed).

VII. Open Session – No one from the public spoke.

VIII. Reports -

Mayor Levesque reported on the School Committee's fund balance.

IX. Executive Session - None

X. Adjournment
Motion was made by Councilor Staples and seconded by Councilor Milks to adjourn.

Unanimously approved and the meeting adjourned at 8:08 pm.

Susan Clements-Dallaire, City Clerk

SMALL BUSINESS SATURDAY PROCLAMATION

Recognizing the importance of Auburn businesses and proclaiming Saturday, December 9, 2023, as Auburn Small Business Saturday

WHEREAS, small businesses are the backbone of Maine's and Auburn's economy; and

WHEREAS, local small business support our community in the way of wages, taxes, donations to local schools and charities; and

WHEREAS, studies have consistently shown that supporting the growth of existing small businesses produce the majority of economic growth in a community, and that entrepreneurs and small businesses stimulate job creation, develop crucial innovation and promote the diversification of local economies; and

Whereas, the City of Auburn supports our local businesses that create jobs, boost our local economy and preserve our community;

NOW THEREFORE BE IT PROCLAIMED that Saturday, December 9, 2023, in the City of Auburn Small Business Saturday, a day when we all are encouraged to thank our business community for their contributions to the way of life in Auburn. I urge the residents of Auburn to make a special effort to support our small businesses on Auburn Small Business Saturday, and all year long.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine
to be fixed this 20th day of June 2023.

_____

Jason Levesque, Mayor

City of Auburn, Maine

"Maine's City of Opportunity"

Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **October 2023 Financial Report**

DATE: **December 4, 2023**

The following is a discussion regarding the significant variances found in the City's October financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its fourth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 33.3% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through October 31st, including the school department were $40,701,163, or 35.96%, of the budget. The municipal revenues including property taxes were $33,313,531, or 45.08% of the budget which is more than the same period last year by $966,952. The accounts listed below are noteworthy.

A. September 15th the first installment for real estate taxes were due. The current year tax revenue is at 49.09% as compared to 49.43% last year or $488,380 more than last year.

B. Excise tax for the month of October is at 35.55%. This is a $38,918 decrease Compared to FY 23.

C. State Revenue Sharing for the month of October is 39.94% or $2,386,399. This is an increase from last October of $85,812.

D. EMS Transport is at 35.4% or $518,673, which is a slight increase from last year of $22,710.

Expenditures

City expenditures through October 2023 were $22,808,036 or 42.16% of the budget. This is a total decrease over last year of $1,428,482 Noteworthy variances are:

A. The largest decrease is the transfers to the TIF accounts due to timing of the transfers.

Investments

This section contains an investment schedule as of October 31st. Currently the City's funds are earning an average interest rate of 4.36% compared to 1.44% at this time last year.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for October 31, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of October 31, 2023.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, September 30, 2023.

Current Assets:
As of the end of October 2023 the total current assets of Norway Savings Bank Arena were ($1,474,824). These consisted of cash and cash equivalents of $280,564, accounts receivable of $144,194 and an interfund payable of $1,899,582.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of October 31, 2023, were $102,173.

Liabilities:
Norway Arena had accounts payable of $998 as of October 31, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through October 2023 are $323,9246. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through October 2023 were $284,735. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of October 2023 Norway Arena had an operating gain of $38,559.

As of October 31, 2023, Norway Arena has an increase in net assets of $38,559.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY23 is $164,540 more for this period than in FY22 and expenditures in FY23 are $12,454 more than last year in October.

ORDINANCE 21-09182023

City Council Ordinance

IN CITY COUNCIL

Amending the Code of Ordinances, Chapter 14, Business Licenses and Permits, Article XVIII. Adult Use and Medical Marijuana Businesses

Be it ordained, that the City Council hereby approves the amendment of Chapter 14, Business Licenses and Permits, of the Code of Ordinances as follows (additions are underlined; deletions are ~~struck through~~):

ARTICLE XVIII. ADULT USE AND MEDICAL MARIJUANA BUSINESSES

Sec. 14-650. Title

This article shall be known and cited as the "City of Auburn Adult Use and Medical Marijuana Businesses Ordinance" and will be referred to hereinafter as "this ordinance". This ordinance limits all subject adult use and medical marijuana businesses to the zoning districts specified under the auburn zoning ordinance, prescribes definitions of adult use and medical marijuana businesses, and provides for permitting/licensing and regulation of adult use and medical marijuana businesses, and provides performance standards for adult use and medical marijuana businesses.

Sec. 14-651. Authority and applicability.

WHEREAS, implementing a system for the regulation of stores, dispensaries, cultivation, manufacturing, and testing for the production and sale of marijuana, is a complex function with significant administrative demands on the City of Auburn; and

WHEREAS, ensuring that possession and use of Adult Use and Medical Marijuana is limited to persons who are 21 years of age or older, except in the case of minors in possession of a medical marijuana patient card, is necessary to protect those who have not yet reached adulthood from the effects of irresponsible use of marijuana; and

WHEREAS, the City of Auburn believes that any production, processing, or selling of Adult Use and Medical Marijuana should be conducted in a safe and fair manner for the health, safety, and welfare of the community, which includes complying with provisions of all applicable laws and ordinances relating to adult use and medical use of marijuana throughout the City of Auburn; and

NOW THEREFORE, this Ordinance is adopted pursuant to the Marijuana Legalization Act, 28-B M.R.S. § 101 et seq.; the Maine Medical Use of Marijuana Act, 22 M.R.S. § 2421 et seq.; and the city's home rule

authority under Article VIII, Part 2, Section 1 of the Maine Constitution 30-A M.R.S. § 3001 et seq., and 30-A M.R.S. § 4301 et seq.

Sec. 14-652. Purpose.

It is the purpose of this ordinance to regulate adult use and medical marijuana businesses in order to promote the health, safety, and general welfare of the citizens of Auburn, and to establish reasonable and uniform regulations for the appropriate location of adult use and medical marijuana businesses in Auburn.

Persons or entities wishing to establish an adult use or a medical marijuana business within the City of Auburn shall first obtain a license from the Auburn City ~~Council~~Clerk ~~(hereinafter "the city council")~~ and shall be subject to the provisions of this ordinance.

This ordinance may not be construed to limit any privileges or rights of a qualifying patient, primary caregiver, registered or otherwise, or registered dispensary under the Maine Medical Use of Marijuana Act.

Sec. 14-654. Effective date; applicability date.

The effective date of this ordinance [from which this article derived], and the business licensing thereunder, shall be the date of adoption by the city council. Notwithstanding the provisions of 1 M.R.S. § 302 or any other law to the contrary, the amendments to this Article evidenced by Ordinance 21-09182023, when enacted, shall govern any proposed license application for which an application has not been submitted to and finally acted upon by the City prior to July 1, 2023.

Sec. 14-657. License required.

No person may establish, operate or maintain a marijuana business without first obtaining a license from the city ~~council~~clerk.

It is a violation of this ordinance for any person to operate a marijuana business without a valid marijuana business license issued by the city clerk pursuant to this ordinance.

Pursuant to 28-B M.R.S.A. § 402, an applicant seeking to operate an adult use marijuana business may not submit an application for a license unless the applicant has been issued a conditional license by the ~~s~~State of ~~m~~Maine to operate the adult use marijuana business.

Marijuana business licenses shall be administered on a first come, first served basis based upon the date the application is deemed complete.

Registered caregivers operating out of their residence shall apply for and obtain a permit for a home occupation in accordance with article IX of the Auburn Zoning Ordinance and shall comply with all standards set forth in the article. Registered caregivers who cultivate medical marijuana only for themselves and/or members of their household are exempt from this requirement and are not required to obtain a permit or license.

The cultivation, manufacturing, testing or sale of adult use marijuana from a residence is prohibited, unless it is for personal use in accordance with 28-A M.R.S.A. § 1502. Home cultivation of adult use marijuana for personal use is

exempt from the licensing requirements of this ordinance. Provided, however, that outdoor cultivation of adult use marijuana for personal use is prohibited, unless the residence is located in an agricultural zoning district.

Sec. 14-658. Application procedure.

(a) *An application for a license must be made on a form provided by the city.*

(b) *All applicants must be qualified according to the provisions of this ordinance.* Applicants shall provide sufficient information to demonstrate that they meet all qualifications and standards established in this ordinance.

(c) *Application to establish a marijuana business*.

(1) If the applicant who wishes to operate a marijuana business is a single individual, this person must sign the application for a license. If the applicant who wishes to operate a marijuana business is more than one individual, each person who has an interest in the business must sign the application for a license as applicant. Each applicant must be qualified under the following section and each applicant shall be considered a licensee if a license is granted.

(2) The completed application for a marijuana business license shall contain the following information and shall be accompanied by the following documents:

a. If the applicant is an individual means the individual shall state their legal name and any aliases, and submit proof that they are at least 21 years of age.

b. If the applicant is a partnership. The partnership shall state its complete name, and the names of all partners, whether the partnership is general or limited, submit a copy of the partnership agreement, if any, and submit proof that all partners are at least 21 years of age.

c. If the applicant is a corporation. The corporation shall state its complete name, the date of its incorporation, evidence that the corporation is in good standing under State law, the names and capacity of all officers, directors and principal stockholders, the name of the registered corporate agent, the address of the registered office for service of process, and submit proof that all officers, directors and principal stockholders are at least 21 years of age.

d. If the applicant is a limited liability company (LLC). The LLC shall state its complete name, the date of its establishment, evidence that the LLC is in good standing under State law, the names and capacity of all members, a copy of its operating agreement, if any, the address of its registered office for service of process, and submit proof that all members are at least 21 years of age.

e. If the applicant intends to operate the marijuana business under a name other than that of the applicant, they must state the marijuana business' name and submit the required registration documents.

f. If the applicant, an officer, member or employee has been convicted of criminal activity under state and/or federal law, they must list the specified criminal activity involved, and the date, place, and jurisdiction of each conviction.

g. If the applicant has had a previous license under this ordinance or other similar marijuana business license applications in another town, city or state denied, suspended or revoked, they must list the name and location of the marijuana business for which the license was denied, suspended or revoked, as well as the date of the denial, suspension or revocation, and they must

list whether the applicant has been a partner in a partnership or an officer, director, or principal stockholder of a corporation that is permitted/licensed under this ordinance, whose license has previously been denied, suspended or revoked, listing the name and location of the marijuana business for which the permit was denied, suspended, or revoked as well as the date of denial, suspension or revocation.

h. If the applicant holds any other permits/licenses under this ordinance or other similar marijuana business license from another town, city, or state the applicant shall provide the names and locations of such other permitted/licensed businesses.

i. The type of marijuana business for which the applicant is seeking a license.

j. The location of the proposed marijuana business, including a legal description of the property, street address, and telephone number.

k. Sufficient documentation demonstrating possession or entitlement to possession of the proposed licensed premises of the marijuana business pursuant to a lease, rental agreement, purchase and sale agreement or other arrangement for possession of the premises or by virtue of ownership of the premises.

l. The applicant's mailing address and residential address.

m. Recent passport-style photograph(s) of the applicant(s).

n. The applicant's driver's license.

o. A sketch showing the configuration of the subject premises, including building footprint, interior layout with floorspace to be occupied by the business, and parking plan. The sketch must be drawn to scale with marked dimensions.

p. A copy of a city tax map depicting: The subject property lines and the property lines of other properties containing any existing marijuana businesses within 1,000 feet of the subject property; and the property lines of any public or preexisting private school within 750 feet of the subject property, measured in accordance with section 14-659.

q. Evidence of all State approvals or conditional approvals required to operate a marijuana business at the subject premises.

r. Evidence of all land use approvals or conditional land use approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, a building permit, site plan approval, change of use permit or certificate of occupancy for the subject premises.

s. Evidence of all other local approvals or conditional approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, food service establishment licenses.

All applications for a marijuana business license shall be kept confidential by the city.

(4) All applicants, including all individuals, officers, directors, managers, members, and partners, for any medical marijuana business license must be residents of the state, as defined in 22 M.R.S.A. § 2422.

(5) If an applicant is a person, the applicant must be a resident as that term is defined in the application. If the applicant is a corporation, partnership, or limited liability company, every officer, director, and

managing partner must be a person who is a resident, and a majority of shares, partnership interests, and membership interests, or other equity interests must be held or owned by persons who are residents. This residency requirement does not apply to applicants for testing facility licenses.

(e) *Application and license fees.* All applications must be submitted with a $500.00 fee. If an application is approved, the following license fees must be paid before the city will issue a license:

Marijuana store. Annual operation license fee: $5,000.00.

Marijuana manufacturing facility. Annual operation license fee: $2,500.00.

Marijuana testing facility. Annual operation license fee: $2,500.00.

Adult use marijuana cultivation:

Tier 1. 0—500 square feet of plant canopy—Annual permit/licensing fee: $1,000.00.

Tier 2. 501—2,000 square feet of mature plant canopy—Annual license fee: $1,500.00.

Tier 3. 2,001—7,000 square feet of mature plant canopy—Annual license fee: $2,500.00.

Tier 4. Greater than 7,000 square feet of mature plant canopy—Annual license fee: $5,000.00.

Medical marijuana cultivation. Annual operation license fee: $1,000.00.

Adult use marijuana nursery cultivation. Annual license fee: $1,000.00 (Plant canopies of individual nursery cultivations are permanently capped at 1,000 square feet.)

Renewal applicants for adult use marijuana cultivation licenses may seek an increase to a higher tier if they comply with the requirements in this section.

Applicants for adult use marijuana cultivation licenses may not hold more than three such licenses or a total combined plant canopy in excess of 30,000 square feet.

(f) *Complete application*. In the event that the city clerk determines that a submitted application is not complete, the city clerk shall notify the applicant that the application is not complete and shall inform the applicant of the additional information required to process the application.

Sec. 14-662. Appeals.

(a) Any parties aggrieved by a decision of the city clerk under this ordinance may bring the following appeals to the city council:

(1) Appeal by the applicant of the city clerk's denial of an application;

(2) Appeal by the applicant of any license granted by the city clerk with conditions to which the applicant/licensee objects; and

(3) Appeal by any aggrieved party having legal standing of any decision by the city clerk to grant a license under this ordinance.

(b) Appeals must be filed in writing with the office of the city clerk or designee within 30 days of the date of the decision subject to appeal.

(c) The city council shall hold a *de novo* hearing on an appeal within 30 days of the date the appeal is received by the city, unless all parties consent to an enlargement of that time period. It shall be the duty of the city clerk

City Council Ordinance

or designee to notify such parties of the time and place of the hearing. At the hearing, the city council will receive evidence on the application. Following the hearing, the city council shall issue a written decision on the appeal with its findings of fact and conclusions of law.

(d) The city council may approve any application previously denied by the city clerk only upon the affirmative vote of five or more members of the city council.

(e) An appeal from any final decision of the city council may be taken by any party to Superior Court in accordance with the provisions of Rule 80B of the Maine Rules of Civil Procedure.

Council Workshop or Meeting Date: December 4, 2023 **Ordinance:** 24-11202023

Author: John Blais

Subject: Proposed Map Change Converting Rural Residential Zoning District to Low Density Country Residence Zone within the Lake Auburn Watershed Overlay District.

Information: To amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

As a positive recommended by Planning Board. This change is conjunction with updates proposing several text amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District including amending subsurface wastewater disposal (SSWD), or septic system standards requiring a limiting soil horizon of at least 36 inches and that the bottom the disposal field be at least 24 inches above the limiting soil horizon "limiting factor".

Several lots in the Lake Auburn Watershed Overlay District are not currently buildable because they do not have suitable soil to host a septic system under the current standard. While offering better effluent treatment to the SSWD systems in the Lake Auburn Watershed Overlay District, changing this design standard by allowing mounded systems would likely also have the effect of rendering more lots in the Lake Auburn Watershed Overlay District buildable with the allowance of mounded systems. More buildable lots may mean creating more potential SSWD systems, more land-based runoff, and less forested or vegetated areas to collect nutrients before they enter lake Auburn.
The purpose of this map amendment is to offset the building potential created by modernizing the SSWD standards. The planning board recommended to city council that changing the septic standards should coincide with changing the zoning in the Lake Auburn Watershed to allow fewer houses to offset the possible unwanted development in the watershed of Auburn's drinking water supply.
This map amendment proposes changing all land in the Low-Density Rural Residence or Rural Residence (RR) zoning district, shown in brown, to the Low-Density Country Residence (LDCR) zoning district, shown in green, within the Lake Auburn Watershed Overlay District. This change reduces the density from one dwelling unit per acre and minimum 250 feet road frontage to one dwelling unit per three acres and minimum 325 feet road frontage. For reference, the relevant meetings to this point have been listed below. This change considered with the Overlay District amendments will reduce total potential for development and ensure that any development that does occur will meet a higher standard for the protection of Lake Auburn. text amendments will reduce total potential for development and ensure that any development that does occur will meet a higher standard for the protection of Lake Auburn.

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends that the Council completes the first reading tonight and plan to hold the public hearing on December 4, 2023 for the map amendment of 1,030 acres to Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn Watershed to the Low-Density Country Residence (LDCR) zoning district.

Previous Meetings and History:

Apr. 12, 2022— Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn Watershed Overlay District.

May 2, 2022—City Council orders the Planning Board to consider a zone change reducing housing density in the Lake Auburn Watershed from one dwelling per acre to one dwelling per three acres in the Rural Residence zoning district in the Lake Auburn Watershed.

May 3, 2022—Special Planning Board workshop to consider reducing the housing density in all parts of the Lake Auburn Watershed from one unit per acre to one-unit per three acres by changing RR zone to the LDCR zone.

Aug. 15, 2022—City Council workshop on reducing housing density in Lake Auburn Watershed from one dwelling unit per acre to one dwelling unit per three acres in the Rural Residential District in the Lake Auburn Watershed.

October 11, 2022—Planning Board Public Hearing to change RR to LDCR in all portions of the Lake Auburn watershed. Motion to recommend change to Council.

October 10, 2023—Planning Board workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR.

October 16, 2023—City Council workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR.

November 14, 2023-Planning Board, Public Hearing.

November 20, 2023 – Passage of first reading

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

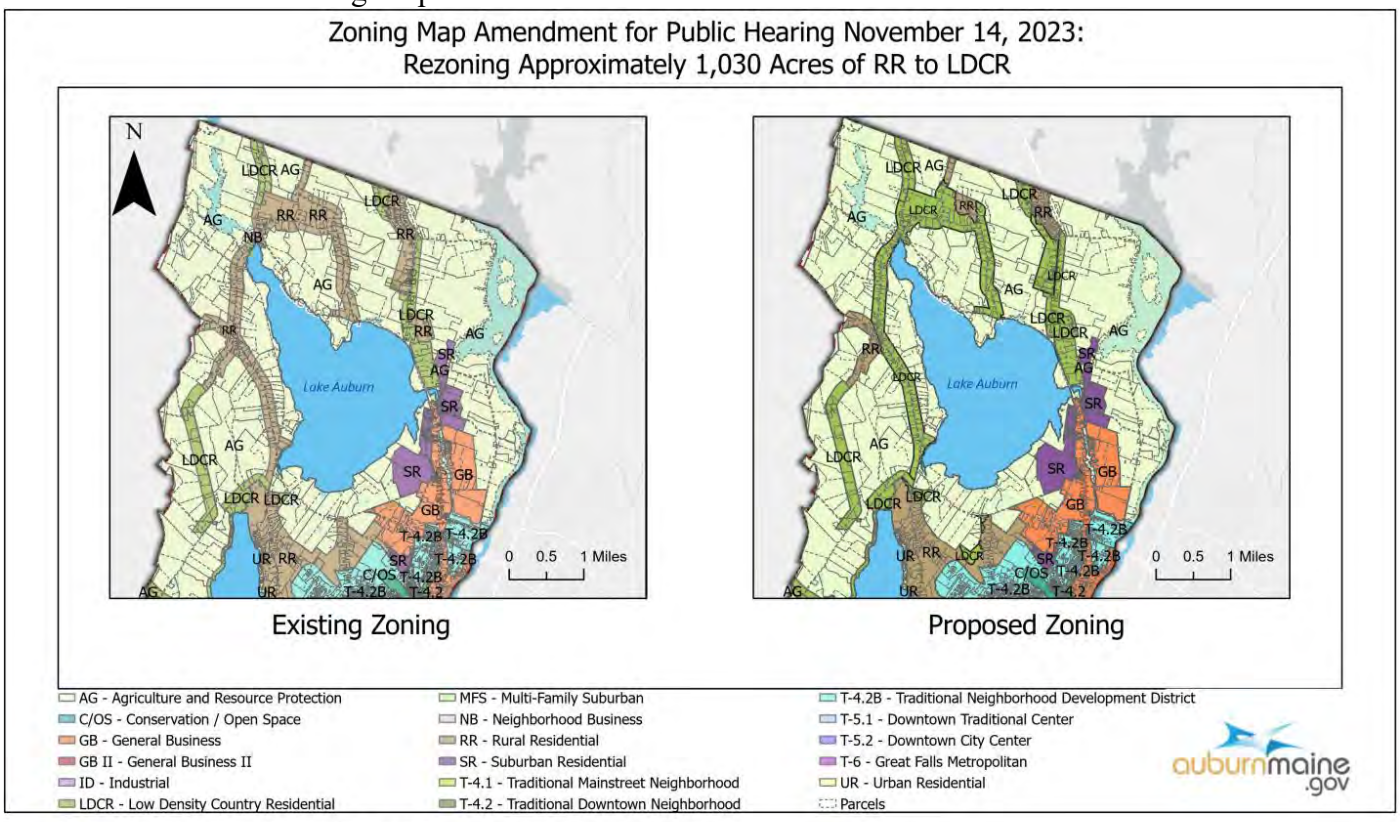
Subject: Staff Report on Proposed Map Change Converting Rural Residential Zoning District to Low Density Country Residence Zone within the Lake Auburn Watershed Overlay District.

I. **Proposal: Public Hearing/ Map Amendment:** Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.



Source: City of Auburn, Zoning Map, dated May 16, 2016

II. **Background:** The City of Auburn is proposing several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District including amending subsurface wastewater (SSWW) disposal, or septic system standards requiring a limiting soil horizon of at least 36 inches and that the bottom the disposal field be at least 24 inches above the limiting soil horizon limiting factor. This current standard does not allow for the most effective treatment of effluent because it forces effluent to travel below the organic duff layer, where the best treatment would occur. Under this existing standard, the treatment occurs in sandy, well-drained soils, which are not able to capture and treat onsite waste

nutrients. The proposed system decreases the limiting soil horizon to 12" but requires the disposal field to be treated through the existing natural duff layer and the required suitable natural soil or specified soil media must provide a minimum separation of 36-inch separation between the bottom of the disposal field and limiting factor. The proposed update is intended to improve the treatment efficiency of approximately 251 existing systems within the Lake Auburn watershed thereby reducing the potential accumulation of non-point source pollution to Lake Auburn.

Several lots in the Lake Auburn Watershed Overlay District are not currently buildable because they do not have suitable soil to host a septic system under the current standard. While offering better effluent treatment to the SSWW disposal systems in the Lake Auburn Watershed Overlay District, changing this design standard by allowing mounded systems would likely also have the effect of rendering more lots in the Lake Auburn Watershed Overlay District buildable with the allowance of mounded systems. More buildable lots may mean creating more potential SSWD systems, more land-based runoff, and less forested or vegetated areas to collect nutrients before they enter lake Auburn.

The purpose of this map amendment is to offset the building potential created by modernizing the SSWW disposal standards. The planning board recommended to the city council that changing the septic standards should coincide with changing the zoning in the Lake Auburn Watershed to allow fewer houses to offset the possible unwanted development in the watershed of Auburn's drinking water supply.

This map amendment proposes changing all land in the Low-Density Rural Residence or Rural Residence (RR) zoning district, shown in brown, to the Low-Density Country Residence (LDCR) zoning district, shown in green, within the Lake Auburn Watershed Overlay District. This change reduces the density from one dwelling unit per acre and minimum 250 feet road frontage to one dwelling unit per three acres and minimum 325 feet road frontage. For reference, the relevant meetings to this point have been listed below. This change considered with the Overlay District amendments will reduce total potential for development and ensure that any development that does occur will meet a higher standard for the protection of Lake Auburn.

Previous Meetings and Actions:

- **Apr. 12, 2022**— Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn Watershed Overlay District.
- **May 2, 2022**—City Council orders the Planning Board to consider a zone change reducing housing density in the Lake Auburn Watershed from one dwelling per acre to one dwelling per three acres in the Rural Residence zoning district in the Lake Auburn Watershed.
- **May 3, 2022—**Special Planning Board workshop to consider reducing the housing density in all parts of the Lake Auburn Watershed from one unit per acre to one-unit per three acres by changing RR zone to the LDCR zone.
- **Aug. 15, 2022**—City Council workshop on reducing housing density in Lake Auburn Watershed from one dwelling unit per acre to one dwelling unit per three acres in the Rural Residential District in the Lake Auburn Watershed.
- **October 11, 2022**—Planning Board Public Hearing to change RR to LDCR in all portions of the Lake Auburn watershed. Motion to recommend change to Council.
- **October 10, 2023**—Planning Board workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR
- **October 16, 2023**—City Council workshop on map amendment changing land in the Lake Auburn Watershed Overlay District zoned RR to LDCR

-

III. Planning Board Action: Hold a Public Hearing and recommend approval of the zoning map change to the City Council.

IV. Suggested Motion: I make a motion to forward a favorable recommendation to City Council to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance changing all areas (1030+/-acres) in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn Watershed to the Low-Density Country Residence (LDCR) zoning district.

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-200. Purpose.

The purpose of this zone is to maintain and promote the rural/agricultural character of the land within this zone. This zone is composed of those areas in the city whose predominant land use is rural, wooded and agricultural. The regulations for this zone are designed to protect and stabilize these predominant land uses which are the essential characteristics of these areas and to minimize conflicting land uses detrimental to agricultural enterprises. Since residences are only incidental to this zone's development, the densities which require improved roads and expanded municipal services, in excess of those required by the present agricultural-oriented uses, shall not be permitted.

(Ord. of 9-21-2009, § 3.32A)

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for

domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.32C; Ord. No. 11-03012021, §§ 10, 11, 3-15-2021)

Ordinance: 24-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from LDRR or RR to LDCR

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone all areas in the Low-Density Rural Residence or Rural Residence (RR) zoning district within the Lake Auburn watershed to the Low-Density Country Residence (LDCR) zoning district, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Ordinance:** 26-11202023

Author: John Blais

Subject: Proposed Map Change from Agriculture and Resource Protection (AGRP) to General Business (GB)

Information: The proposal was initiated by the planning board in a workshop on October 10, 2023, and is pursuant to Chapter 60, Article XVII, Division 2 Amendment to the Zoning Ordinance or Zoning Map. Early today, the planning board will consider updating the Lake Auburn Watershed Overlay zoning map to match the "DWP Potential Boundary" that was agreed upon by the City of Auburn, Auburn Water and Sewer District, and Lewiston Water Division.

The land area that is removed from the watershed, approximately 80 acres, is currently zoned AGRP 20 acres will remain as AGRP. Staff believes that General Business (GB) would be the most appropriate option to apply in this area based on direction from the 2021 Comprehensive Plan. The Future Land Use Plan for the area near Gracelawn to be changed to the Commercial Development District, which is synonymous with the General Business District in its allowed uses and densities. An important goal for the city is listed in Strategy I.2.3.c in the Comprehensive Plan: to "Investigate opportunities for high quality, creative use of vacant land and/or buildings in and around commercial/ industrial centers." This includes rezoning Gracelawn Pits as a planned development site to be used for a mix of office, retail, and residential space, while assuring that the water quality of Lake Auburn is protected (page 73, Comprehensive Plan) because of its proximity to the abutting GB zone across Mount Auburn Ave.

At the November 14th planning board meeting, the board voted to recommend changing the zone in this area to GB. The motion itself is attached to this packet. The planning board had the following findings in their review.

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill.
3. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends that the Council discuss the proposals and provide the first reading and vote and prepare for the final reading and public hearing on December 4, 2023.

Previous Meetings and History:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.
- **Oct. 10, 2023**—Planning Board workshop on amending the Lake Auburn Watershed Overlay District.
- **Oct. 16, 2023**—City Council workshop on amending the Lake Auburn Watershed Overlay District.

Nov. 2, 2023—City staff send DWP Lake Auburn Watershed Overlay District updates.

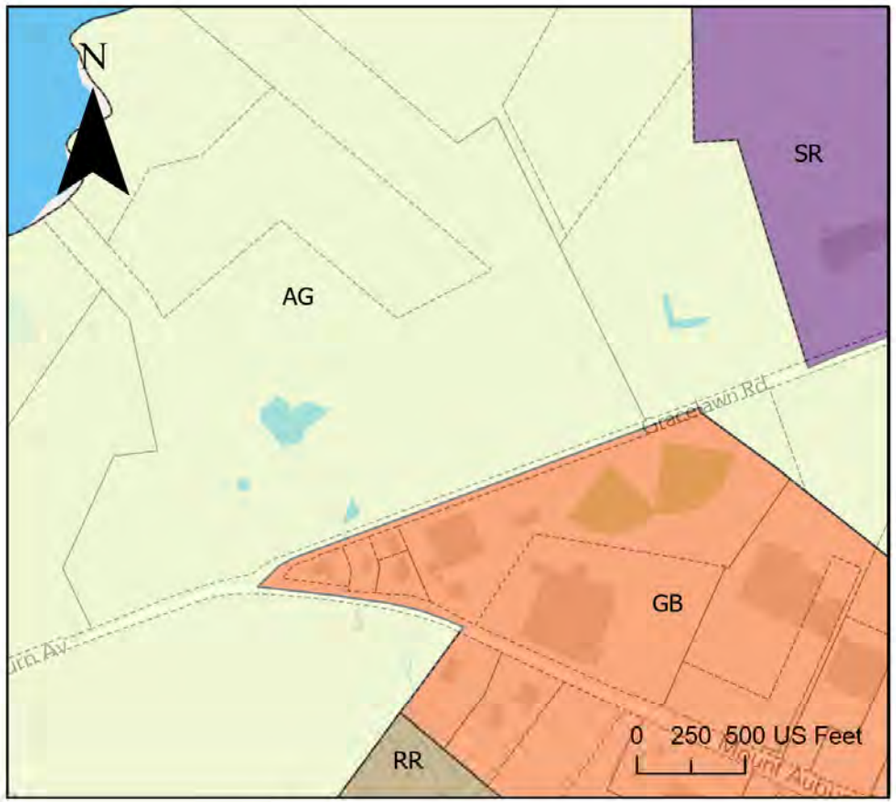
- **Nov. 14, 2023**—Planning Board Public Hearing on amending the Lake Auburn Watershed Overlay District.
- **Nov. 20, 2023**—Passage of first reading.

City Manager Comments:

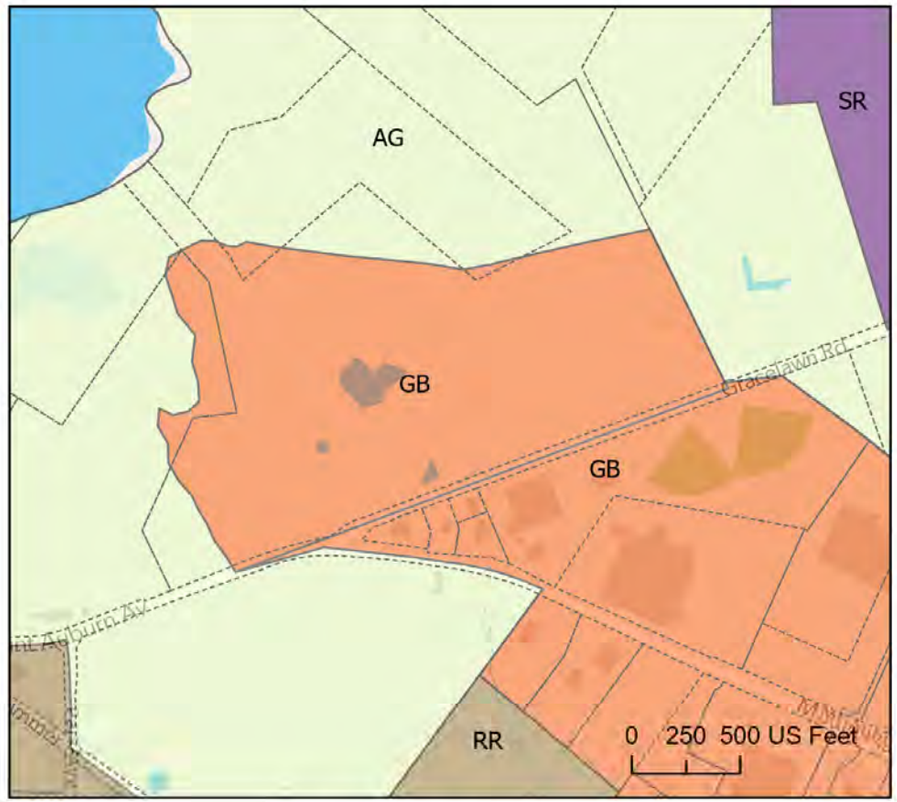
I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance, planning board motion, staff report (new watershed zone GB), GB zone ordinance and updated Map.

Zoning Map Amendment for Public Hearing November 14th 2023:
Rezoning Approximately 60 Acres of AGRP to GB



Existing Zoning



Proposed Zoning

- AG - Agriculture and Resource Protection
- C/OS - Conservation / Open Space
- GB - General Business

Date: 11/20/2023
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed map amendment changing the Gracelawn area from AGRP to GB zoning district

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and public hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Map Amendment: Consider amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance by rezoning approximately 60 acres in parts of City Assessor's Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district. The proposal was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

MOTION: David Trask makes a motion; **SECOND:** Amanda Guerrette second.

"I'm going to make a motion that we recommend to the council that we support the proposed changes to include that the General Business Boundary be adjusted to include the 60 acres shown on the map based on the following findings: The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone. The proposed new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc., CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new proposed adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill and that the proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan."
VOTE: 6-1-0 motion passes.

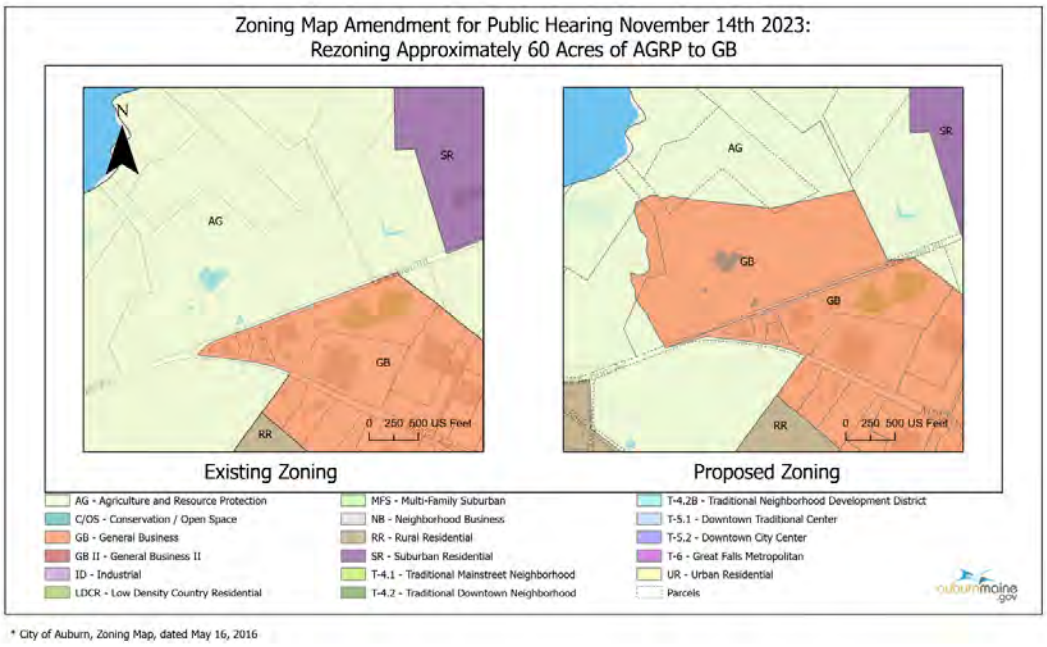
From: John Blais, Deputy Director of Planning and Permitting
Re: Staff Report on Proposed Map Change from Agriculture and Resource Protection (AGRP) to General Business (GB)



* City of Auburn, Zoning Map, dated May 16, 2016

I. **Public Hearing/ Map Amendment:** New zone considerations for area along Gracelawn Road amending approximately 60 acres in parts of Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district.

II. **Background:** The proposal was initiated by the planning board in a workshop on October 10, 2023, and is pursuant to Chapter 60, Article XVII, Division 2 Amendment to the Zoning Ordinance or Zoning Map. Early today, the planning board will consider updating the Lake Auburn Watershed Overlay zoning map to match the "DWP Potential Boundary" that was agreed upon by the City of Auburn, Auburn Water and Sewer District, and Lewiston Water Division.

The land area that is removed from the watershed, approximately 80 acres, is currently zoned AGRP 20 acres will remain as AGRP. Staff believes that General Business (GB) would be the most appropriate option to apply in this area based on direction from the 2021 Comprehensive Plan. The Future Land Use Plan for the area near Gracelawn to be changed to the Commercial Development District, which is synonymous with the General Business District in its allowed uses and densities. An important goal for the city is listed in Strategy I.2.3.c in the Comprehensive Plan: to "Investigate opportunities for high quality, creative use of vacant land and/or buildings in and around commercial/ industrial centers." This includes rezoning Gracelawn Pits as a planned development site to be used

for a mix of office, retail, and residential space, while assuring that the water quality of Lake Auburn is protected (page 73, Comprehensive Plan) because of its proximity to the abutting GB zone across Mount Auburn Ave.

COMMERCIAL DEVELOPMENT DISTRICT (CDD)(Excerpt from Comprehensive Plan)

Objective – Allow for the development of a wide range of uses including those that involve the sales of motor vehicles and/or that generate significant truck traffic. The district will allow for both existing and new residential use at a density of up to 16 units per acre.

Allowed Uses – The Commercial Development District generally follows the boundaries of the General Business and General Business II (Minot Avenue) Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed in the General Business Development District:

- *Low and High Residential Density Uses*
- *Retail uses including large-scale uses (>100,000 square feet)*
- *Personal and business services*
- *Business and professional offices*
- *Medical facilities and clinics*
- *Restaurants*
- *Hotel, motels, inns, and bed & breakfast establishments*
- *Low and High-Density Residential Uses*
- *Community services and government uses.*
- *Research, light manufacturing, assembly, and wholesale uses*
- *Truck terminals and distribution uses*
- *Contractors and similar activities*
- *Motor vehicle and equipment sales*
- *Motor vehicle service and repair*
- *Recreational and entertainment uses and facilities.*

Development Standards – The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property. The standards should include provisions to manage the amount and location of vehicular access to the site, minimize stormwater runoff and other potential environmental impacts, require a landscaped buffer along the boundary between the lot and the street, and provide for the buffering of adjacent residential districts.

III. Environmental considerations for this zone change include having the ability to converting an existing active gravel pit to what could be a mixed-use development that could range from multi-family homes and multifaceted businesses found in the General Business District. If development occurs the site would revegetate in areas where structures and supporting infrastructure is not planned. The area would have the ability to plan for a sustainable development that would address stormwater and site law that has not been addressed in the last 60 years as grandfathered gravel pit.

IV. Utilizing the federal government's Environmental Protection Agency (EPA) Region 5 modeling for reporting Clean Water Act, 319 Grant projects staff ran a hypothetical model to redevelop the proposed 60 acres compared to what is existing today. Assumptions include the following: 40 acres of commercial development, 12 acres of vacant undeveloped land, 8 acres of open space revegetated. Compared to the 46 acres of open gravel pit, 4 acres of gravel roads, 10 acres of vacant land. Below is the overall annual pollutant load and runoff volumes for before after implementing permanent Best Management Practices such as Low Impact Development techniques to stabilize the site and treat stormwater runoff for a significant net reduction in nitrogen, phosphorus, bio-oxygen demand, sediment, and volumes of water.

Overall annual pollutant load and runoff volume before and after BMPs				
Pollutant	Pre-BMP	Reduction	After BMP	Percent Reduction
TN (lb/yr)	727.33	363.66	363.66	50%
TP (lb/yr)	72.73	36.37	36.37	50%
BOD (lb/yr)	3,230.77	2,220.85	1,009.92	69%
Sediment (lb/yr)	27,974.09	23,752.65	4,221.44	85%
Flow Volume (ac-ft/yr)	138.50	119.79	18.72	86%

Planning Board Action/Staff Suggestion: Staff suggest a planning board discuss the proposals and hold a Public Hearing on November 11, 2023. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed change, to include that the General Business Boundary be adjusted to include the 60 acres shown on the map based on the following findings.

SUGGESTED FINDINGS AND REASONS:

1. The 2010 and now the 2020 Comprehensive Plan recommend expanding the Commercial zoning in this area. This can be accomplished without creating a new district by using the existing General Business Zone.
2. The new lake auburn watershed overlay district boundary is supported by the watershed boundary has been reviewed and agreed upon through studies by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith, The Maine Drinking Water Program and the Lake Auburn Water Quality Ad-Hoc Committee. This zone change carefully follows this new adjusted boundary but excludes the 20 acres that make up the abutting property known as the City of Auburn landfill.
3. The proposal can be implemented without detriment to Lake Auburn and is recommended by the Comprehensive Plan.

DIVISION 12. GENERAL BUSINESS DISTRICT

Sec. 60-498. Purpose.

This district is intended to include commercial uses serving both the city and the region, together with normal accessory uses compatible with a cohesive and attractive shopping and office area.

(Ord. of 9-21-2009, § 3.62A)

Sec. 60-499. Use regulation.

(a) *Permitted uses.* The following uses are permitted:

(1) Residential dwelling uses permitted in the Multifamily Suburban District (MFS) (division 7 of article IV of this chapter).

(2) Grocery stores and supermarkets.

(3) Clothing stores.

(4) Furniture stores.

(5) Department stores.

(6) Specialty shops.

(7) Hotels and motels.

(8) Funeral homes and mortuaries.

(9) Child day care centers.

(10) Medical and dental clinics.

(11) Wholesale bakeries.

(12) Retail laundries and dry cleaners, but not plants.

(13) Banks, business and professional offices.

(14) Public transportation passenger offices.

(15) Governmental offices.

(16) Municipal, civic or public service buildings and other utility facilities.

(17) Warehouses, wholesale offices, salesrooms and showrooms.

(18) Restaurants, bars, dining rooms or lunchrooms, but not to include drive-in and carry-out restaurants.

(19) Halls, private clubs and lodges, bowling alleys, ice and roller skating rinks, indoor theaters and similar places of indoor amusement or recreation.

(20) Animal hospitals and pet shops, but no kennels.

(21) Business equipment repair and business services.

(22) Radio and television studios.

(23) Printing shops, but not publishing plants.

(24) Retail, service, office and commercial uses similar to the foregoing.

(25) Carwashes.

(26) Accessory uses, building and structures.

(27) Shelters for abused persons.

(28) Greenhouses and lawn maintenance services.

(29) Temporary outdoor places of amusement.

(30) Churches and temples.

(31) Adult use and medical marijuana stores subject to the requirements of chapter 14, article XVIII of the City of Auburn Ordinances.

(32) Marijuana cultivation accessory to a licensed retail store on the same property.

(b) *Special exception uses.* The following uses are permitted as special exceptions after approval by the planning board in accordance with division 3 of article XVI of this chapter:

(1) Automobile filling stations.

(2) Automobile repair and service stations.

(3) Automobile and marine sales lots and sales and service agencies.

(4) Automobile and marine paint and body repair shops.

(5) Hospitals, care homes, boardinghouses and lodginghouses.

(6) Research or philanthropic institutions.

(7) Outdoor theaters.

(8) Drive-in or carry-out restaurants.

(9) Commercial parks.

(10) Sales, rental and service agencies for mobile homes, farm equipment, trucks and trailers, and machine equipment.

(11) Light industrial plants which will not create a nuisance by noise, vibration, smoke, odor or appearance.

(12) Off-street parking as a commercial or municipal use provided that such parking is limited to occupants of buildings located within 500 feet of such parking area whether or not within the same district. The planning board may impose conditions regarding fencing and screening, drainage, ingress and egress, signs and lighting, and total capacity of the parking area as it deems necessary to protect the character of the neighborhood.

(13) Trucking terminals and similar nonprocessing storage and distribution uses, except bulk storage of chemicals, petroleum products and other flammable, explosive or noxious materials.

(14) Convenience stores.

(15) Research, experimental and testing laboratories.

(16) Landscape services.

(17) Any new building of 5,000 square feet or more or any existing building which proposes a use permitted under subsection (a) of this section which will occupy an area of 5,000 square feet or more.

(18) Automotive towing and storage.

(19) Major retail development provided that it meets the conditions noted in section 60-45(g).

(20) Outpatient addiction treatment clinics.

(21) Adaptive reuse of structures of community significance.

(22) Public safety services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(23) Government services.

a. All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(Ord. of 9-21-2009, § 3.62B; Ord. No. 11-11072016, 11-21-2016; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 05-05202019, 6-3-2019; Ord. No. 11-03012021, §§ 30, 31, 3-15-2021; Ord. No. 02-02132023, 2-17-2023)

Sec. 60-500. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* No building used for commercial or office uses shall be constructed on a lot having less than 10,000 square feet minimum lot area and measuring 100 feet in width. No lot shall be less than 100 feet in depth. Buildings used for residential uses shall have the same minimum lot area, width and depth as provided for buildings in the Multifamily Suburban District (MFS), section 60-307(1).

(2) *Density.* Not more than 30 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering

requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials. Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height. Religious buildings, municipal buildings or buildings listed by the state historic preservations commission may have a steeple, cupola or tower to a maximum height of 90 feet, if said structure is limited to 15 percent of the footprint of the principal building. In the airport approach zone, Federal Aviation Administration regulations shall apply. Accessory structures, including windmills, that are necessary for the operation of an allowed principal use may exceed the above maximum height requirements, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of the yard required pursuant to this section. In the airport approach zone, Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.62C; Ord. of 3-22-2010; Ord. No. 11-03012021, §§ 32, 64, 3-15-2021)

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from AGRP to GB

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone approximately 60 acres in parts of City Assessor's Parcel ID 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection (AGRP) zoning district to the General Business (GB) zoning district, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Ordinance:** 27-12042023

Author: John Blais

Subject: Map amendment revising the Lake Auburn Watershed Overlay District.

Information: Amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

The 2021 report by FB Environmental Associates, Horsely Witten Group, and the University of Maine, "A Regulatory, Environmental, and Economic Analysis of Water supply Protection in Auburn, ME" offered several recommended revisions to Auburn's Code of Ordinances and Regulations in the Lake Auburn Watershed Overlay District. One such recommendation was to update the Lake Auburn Watershed Overlay District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn road area based on their understanding of the topography in the area.

Following a citizen-initiated petition against changing the zoning around the Lake Auburn Watershed Overlay District in the Gracelawn area, the Lake Auburn Watershed Overlay boundary, the City Council voted to repeal the ordinance that initially changed the Lake Auburn Watershed Overlay District and zoning to what they were prior to March 21, 2022.

Since the vote to repeal Ordinance 08-02072022, the Auburn Water and Sewer District, the City of Auburn, and the City of Lewiston have conducted peer reviews of the hydrogeological features of the Gracelawn area. The Maine Drinking Water Program (DWP) agrees with the CDM Smith finding that the "DWP Potential Boundary" shown in the attached memo is a conservative boundary that can be established with available data. More information would be necessary if there were to be any future amendment to the Lake Auburn Watershed Overlay district.

The purpose of this first public meeting is to amend the City's Lake Auburn Watershed Overlay map on our GIS system to match the agreed upon Lake Auburn watershed boundary shown as "DWP Potential Boundary" in Figure 1 - 0 Site Plan Depicting Areas of Uncertainty, and "Proposed Change" map sourced from CDM Smith in the "Lake Auburn Watershed Overlay District for Public Hearing November 14, 2023." This meeting will be followed by a first reading in city council on November 20, and a second reading and public hearing in city council on December 4, 2023.

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends that the Council discuss the proposals and hold the public meeting and first reading and forward a positive vote for a second reading and public hearing.

Previous Meetings and History:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.
- **Oct. 10, 2023**—Planning Board workshop on amending the Lake Auburn Watershed Overlay District.
- **Oct. 16, 2023**—City Council workshop on amending the Lake Auburn Watershed Overlay District.
  Nov. 2, 2023—City staff send DWP Lake Auburn Watershed Overlay District updates.
- **Nov. 14, 2023**—Planning Board Public Hearing on amending the Lake Auburn Watershed Overlay District.
- **Nov. 20, 2023**—Passage of first reading.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Date: 11/20/2023
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed map amendment regarding the bounds of the Lake Auburn Watershed Overlay District

This is the report from the Planning Board regarding the attached map amendment pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and public hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Map Amendment: Consider amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask and Amanda Guerrette second simultaneously.

I make a motion to forward a favorable recommendation to City Council to amend the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee, as shown on the attached maps included in the staff report dated November 14th 2023 with subject heading being 'Staff Report on proposed map amendment revising the Lake Auburn Watershed Overlay District.'"
VOTE: 7-0-0 motion passes.

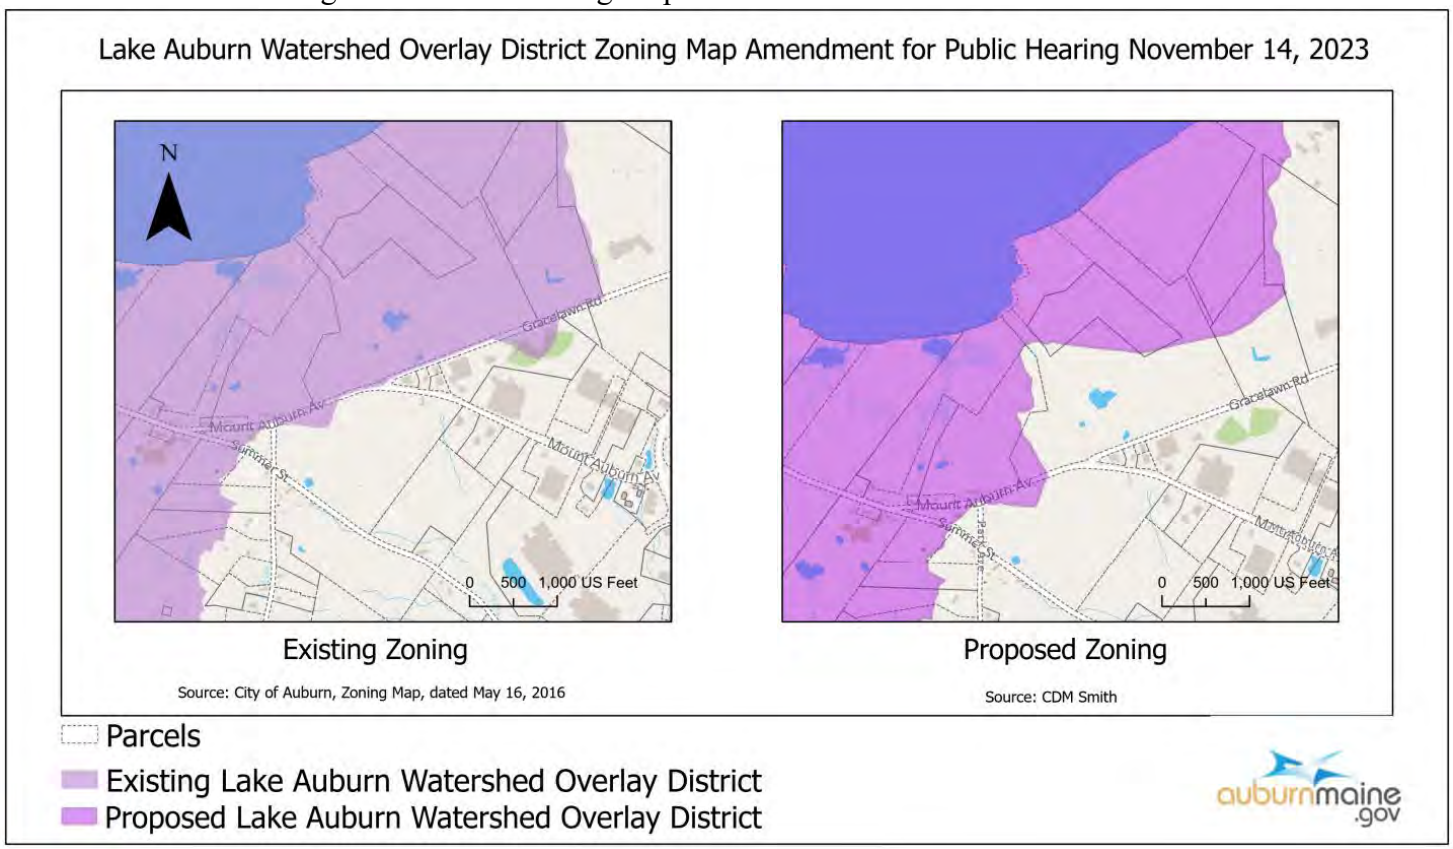
From: Katherine Cook, Planning Coordinator

Subject: Staff Report on proposed map amendment revising the Lake Auburn Watershed Overlay District

I. Proposal: Public Hearing/ Map Amendment:

Consider amending the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee. This map change was initiated by the Planning Board and is pursuant to Chapter 60, Article XVII, Division 2 - Amendment to the Zoning Ordinance or Zoning Map.



II. Background:

The 2021 report by FB Environmental Associates, Horsely Witten Group, and the University of Maine, "A Regulatory, Environmental, and Economic Analysis of Water supply Protection in Auburn, ME" offered several recommended revisions to Auburn's Code of Ordinances and Regulations in the Lake Auburn Watershed Overlay District. One such recommendation was to update the Lake Auburn Watershed Overlay

District Ordinance to reflect the revised watershed boundary, reducing the existing watershed boundary by 148 acres in the Gracelawn road area based on their understanding of the topography in the area.

In the following months, the Planning Board and City Council held public hearings on amending the Lake Auburn Watershed Overlay District and changing the zoning in the area formerly but no longer considered to be within the Lake Auburn watershed from the Agriculture and Resource Protection (AGRP or AG) zoning district to the General Business (GB) zoning district as well as on amending this area's designation in the in the Future Land Use Plan to the Community Development District (CDD).

Following a citizen-initiated petition against changing the zoning around the Lake Auburn Watershed Overlay District in the Gracelawn area, the Lake Auburn Watershed Overlay boundary, the City Council voted to repeal the ordinance that initially changed the Lake Auburn Watershed Overlay District and zoning to what they were prior to March 21, 2022.

Since the vote to repeal Ordinance 08-02072022, the Auburn Water and Sewer District, the City of Auburn, and the City of Lewiston have conducted peer reviews of the hydrogeological features of the Gracelawn area. The Maine Drinking Water Program (DWP) agrees with the CDM Smith finding that the "DWP Potential Boundary" shown in the attached memo is a conservative boundary that can be established with available data. More information would be necessary if there were to be any future amendment to the Lake Auburn Watershed Overlay district.

The purpose of this public hearing is to amend the City's Lake Auburn Watershed Overlay map on our GIS system to match the agreed upon Lake Auburn watershed boundary shown as "DWP Potential Boundary" in Figure 1 - 0 Site Plan Depicting Areas of Uncertainty, and "Proposed Change" map sourced from CDM Smith in the "Lake Auburn Watershed Overlay District for Public Hearing November 14, 2023." This meeting will be followed by a first reading in city council on November 20, and a second reading and public hearing in city council on December 4. Relevant meetings and actions up to this point and planned in the future have been listed below.

Previous Meetings and Actions:

- **Oct. 1, 2021**—A Regulator, Environmental, and Economic Analysis of Water Supply Protection in, Auburn ME. Report resulted in a watershed boundary change.
- **Dec. 21, 2021**—City Council directive to forward recommendation on changing Gracelawn area (148 acres) from AG to CDD and moving CDD boundary to match new watershed boundary.
- **Jan. 3, 2022**—City Council Workshop on changing 148 acres from AG to CDD boundary to match new watershed boundary on the southern part of Lake Auburn.
- **Jan. 11, 2023**—Planning Board Workshop on amending 148 acres near the Gracelawn area from AG to CDD to match the watershed boundary.
- **Feb. 8, 2022**—Planning Board Public Hearing on changing Gracelawn Area zoning from AG to GB and moving CDD boundary update from 2021 Comprehensive Plan. Favorable Recommendation.
- **Mar. 7, 2022**—City Council first reading on amending 148 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary.
- **Mar. 21, 2022**—City Council second reading on amending what has changed to 120 acres in the Gracelawn area to GB and moving CDD to match the new watershed boundary. Passes.
- **Aug. 9, 2022**—City Clerk verifies a citizens' petition to repeal Ordinance 08-03072022
- **Sept. 6, 2022**—City Council Repeals Ordinance 08-03072022 which reverts the watershed boundary to what it was before March 21, 2022, and reverts the zoning in this area from GB back to AGRP.
- **Sept. 5, 2023**—Maine Drinking Water Program (DWP) concurs with the "DWP Potential Boundary" depicted in in Figure 1 – Site Map Depicting Area of Uncertainty.
- **Sept. 18, 2023— "**DWP Potential Boundary" was approved by Maine Drinking water following a peer review.
- **Sept. 26, 2023**—Lake Auburn Water Quality Ad-Hoc Committee issues memorandum recommending that AWSD and LWD forward the new watershed boundary to Maine Drinking Water for Approval.
- **Oct. 10, 2023**—Planning Board workshop on amending the Lake Auburn Watershed Overlay District.
- **Oct. 16, 2023**—City Council workshop on amending the Lake Auburn Watershed Overlay District.

Nov. 2, 2023—City staff send DWP Lake Auburn Watershed Overlay District updates.

- **Nov. 14, 2023**—Planning Board Public Hearing on amending the Lake Auburn Watershed Overlay District.
- **Nov. 20, 2023**—Anticipated City Council first reading on amending the Lake Auburn Watershed Overlay District.
- **Dec. 4, 2023**—Anticipated City Council second reading and public hearing on amending the Lake Auburn Watershed Overlay District.

III. Planning Board Action:

Staff recommends that the planning board forward a favorable recommendation to amend the Lake Auburn Watershed Overlay District as described in the suggested motion below.

IV. Recommended Motion:

"I make a motion to forward a favorable recommendation to City Council to amend the Lake Auburn Watershed Overlay District in the "City of Auburn Zoning Map dated May 16, 2016," revised through its current date and revisions, provided under Sec. 60-5 of the Zoning Ordinance to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. This new boundary matches the conservative line that was peer reviewed and agreed upon by FB Environmental Associates, Comprehensive Environmental Inc. (CEI), CDM Smith and Maine Drinking Water Program as well as recommended by the Lake Auburn Water Quality Ad-Hoc Committee, as shown on the attached maps included in this meeting's materials."

LEWISTON ME

Public Works

September 18, 2023

Mr. Michael Broadbent, Superintendent
Auburn Water District
PO Box 414
Auburn, Maine 04212-0414

Mike
Superintendent Broadbent:

I am pleased, as I am sure you were, to have received the Maine Drinking Water Program's September 5, 2023 letter. As you know, the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty".

Of course, the Auburn Watershed boundary through the Gracelawn Parcel is an issue in the pending lawsuit, *City of Lewiston v. Auburn Water District, et al.* In an effort to remove that issue from suit, Lewiston consents to an amendment of the AWD bylaws to redefine the Level 1 zone of protection to exclude the portion of the Gracelawn parcel that lies between the DWP Potential Boundary line and the nearest roadway (and only to this extent).[1] Additionally, Lewiston proposes that AWD, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway. Upon the successful completion of these actions, Lewiston will notify the court that it is dropping this issue from the lawsuit.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. AWD has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the parties can amicably settle the remaining issues in the present lawsuit.

Please contact me with any questions.

Sincerely,

Kevin

Kevin A. Gagne, P.E.
Deputy Director of Utilities

ENCLOSURES: Maine Drinking Water Program's September 5, 2023 letter

---

[1] As the City of Lewiston recently communicated to AWD through counsel, it is Lewiston's position that AWD's current bylaws limit the Board of Trustee's authority to revise and amend the watershed. The Board may more specifically identify and map "these restriction zones" only to the extent the map is consistent with the bylaws' existing definitions of the restriction zones. The Level 1 Intake Restricted Zone is defined to consist "of the shoreline of Lake Auburn upland to the closest roadway." The DWP Potential Boundary is between the shoreline of Lake Auburn and the closest roadway, so adopting it as the Watershed boundary will require a change to the bylaws.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

LEWISTON ME

Administration

Phil Crowell, City Manager
City of Auburn
60 Court Street
Auburn, Maine 04210

September 18, 2023

Manager Crowell,

Last week, the Auburn Water District and the Lewiston Water Division received a letter from the Maine Drinking Water Program. I am pleased, as I am sure you were, that the Drinking Water Program approved the "DWP Potential Boundary," after CDM Smith determined that the DWP Potential Boundary is a conservative boundary that could be established with available data, in the technical memorandum entitled *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"*.

In 2022, the City of Auburn City Council amended the Lake Auburn Watershed Overlay District, as it affected the Gracelawn Parcel. Lewiston consents to an amendment of the Lake Auburn Watershed Overlay District, provided that the Auburn Water District first amend its bylaws to exclude the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway and that, second, the Auburn Water District, Lewiston and the Town of Turner execute a memorandum of understanding memorializing that the term "Watershed," as used in the Basic Agreement, excludes the portion of the Gracelawn parcel that is between the DWP Potential Boundary line and the nearest roadway.

The Drinking Water Program's process to approve the DWP Potential Boundary confirms the success of a consensus-building approach premised on relying on peer-reviewed science. The Auburn Water District has created an ad hoc committee to consider other zoning and land use ordinance or bylaw changes in the Lake Auburn Watershed. Lewiston remains optimistic that the committee can reach consensus on any other proposed changes based on peer-reviewed science, that these consensus changes will meet with regulators' approval, and that in this way the remaining issues in the present lawsuit, *City of Lewiston v. Auburn Water District, et al.*, can be settled.

Please contact me with any questions.

Sincerely,

Heather Hunter

Ordinance: 27-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment of Lake Auburn Watershed Overlay District Boundary

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Amend the Lake Auburn Watershed Overlay District within the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows, all as more particularly shown on the attached sketch map. (The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department.)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Ordinance:** 28-12042023

Author: John Blais

Subject: First Reading on proposed (11) votes/text amendments applied to the Lake Auburn watershed.

Information: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to agricultural farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Since December of 2021, several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District have been proposed. These amendments include 1.) changes to the private subsurface wastewater disposal system design and site standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer widths from Lake Auburn and its tributaries and streams; and 3.) prohibiting new non-hobby agricultural farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn as Auburn and Lewiston's drinking water supply by updating subsurface wastewater disposal standards and environmental regulations to meet current best practices and modern science. A culmination of all amendments was proposed at the November 14, 2023 Planning Board meeting and had favorable recommendation from the Planning Board and recommended these go forward with the contingency that Rural Residential (1 acre minimum) zoning within the watershed be changed to Low-Density Country Residential (3 acres-minimum) and are now ready for review and vote by the city council.

These amendments have been collectively reviewed by outside subject matter experts to include former State of Maine Soil Scientist and State of Maine licensed Soil Scientist and Site Evaluator, David Rocque. University of Rhode Island, Director of the Onsite Wastewater Resource Center, Alissa Cox PhD. In addition, the Lake Auburn Water Quality Ad-Hoc Committee has reviewed and recommends the adoption of the zoning ordinance text amendments.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council discuss the proposals and issue the first vote on adoption of text **ordinance changes described in version B**.

Previous Meeting History:

December 21, 2021: city council directive to amend watershed boundary
January 2, 2022: council directs planning board to consider certain septic requirement text change

January 3, 2022: city council workshop to change boundary of watershed and change from AG to CDD
January 11, 2022: planning board workshop on amending watershed boundary
February 8, 2022: planning board public hearing on changing Gracelawn area from AGRP to GB and moving the CDD boundary to match the newly interpreted watershed boundary (favorable recommendation)
March 7, 2022: city council first reading on amending 148 Gracelawn area from AGRP to GB
March 21, 2022: city council second reading on amending a slightly reduced area in the Gracelawn area from AGRP to GB (passes)
April 12, 2022: planning board workshop and public hearing on updating subsurface wastewater (SSWW) standards (favorable recommendation contingent upon RR to LDCR zone change)
April 19, 2022: city council workshop on Lake Auburn watershed updates
May 2, 2022: city council first reading on updating SSWW standards and increasing agricultural buffer strip (favorable vote). also asks board to consider reducing housing density in the watershed
May 3, 2022: special planning board workshop to consider changing RR to LDCR in the watershed
August 9, 2022: planning board workshop on FB Environmental Report
August 9, 2022: City Clerk verifies signatures on petition to repeal watershed boundary
August 15, 2022: city council workshop on RR to LDCR
September 6, 2022: City council repeals Ordinance 08-03072022 (watershed boundary)
October 11, 2022: planning board review text amendment to increase ag. buffer strips and update SSWW requirements (favorable recommendation)
January 17, 2023: city council directs staff to initiate prohibition on new residences and animal farms in Lake Auburn watershed also in AGRP zone
January 17, 2023: city council directs planning board to consider that no future SSWW systems be allowed within 300 feet of Lake Auburn
September 18, 2023: DWP Potential Boundary wrote favorable letter for new line by Maine Drinking Water
September 26, 2023: Oct 10, 2023, PB workshop, Oct. 16, 2023 CC workshop, Lake Auburn Water Quality Ad-Hoc Committee issues memo recommending AWSD and LWD forward new boundary to DWP, October 17, 2023, URI makes recommendation on peer review to staff, October 17, 2023. November 14, PB public hearing.
November 20, 2023: Passage of first reading.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance changes Version B, planning board motion, planning board staff report (text amendments) DWP memo, LWD memo, Lewiston memo, City of Auburn Memo, Letter from Heather Hunter, Lewiston Administrator, Vote sheet language for CC.

Vote Sheet Language for City Council November 20, 2023

City Council Suggested Motion B (Staff and Legal Counsel Recommended):

a. I make a motion to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown.

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown.

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below.

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown.

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~

h. I make a motion to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown.

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburnsity Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting original section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-2 of the state plumbing code, part II (April 25, 1975), nN~~o new disposal field/subsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(7~~3~~) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require the abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(8~~4~~) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to amend Sec. 60-1065 to clarify the text as shown.

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5, 7)

k. I make a motion to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ Wwater Ddistrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn Wwater Ddistrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Recommendation to City Council on proposed ordinance text changes within the Lake Auburn Watershed Overlay District
Date: 11/20/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on November 14, 2023, the Planning Board forwards this report to the City Council.

Public Hearing/ Text Amendment: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to non-hobby agricultural uses, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown in section 6a of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)- Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown in section 6 b of the staff report dated November 14th, 2023". **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown in Section C of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown in section 6d of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown in section 6e on page 9 of 12 in the staff report dated November 14, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown in section 6f beginning on page 9 of 12 and ending on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown in section 6g on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown in section 6h on page 10 of 12 in the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)- private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set of design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of the overseeing agencies; and deleting original section 60-952 (f) (5) as shown in section 6i beginning on page 10 of 12 and ending on page 11 of 12 of the staff report dated November 14th 2023."

MOTION: Evan Cyr offers an amendment to the motion; **SECOND:** David Trask seconds.

"I would like to make a motion to amend the motion to state that the favorable recommendation be contingent upon council's adoption of a density standard within the residential portion of the watershed not to exceed 1 unit per 3 acres." **VOTE:** 7-0-0 amendment to the motion passes.

VOTE: 6-1-0 the motion as amended passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown in section 6j beginning on page 11 of 12 and ending on page 12 of 12 of the staff report dated November 14th, 2023." **VOTE:** 7-0-0 motion passes.

MOTION: Evan Cyr makes a motion; **SECOND:** David Trask seconds.

"I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text ass shown: in section 6k on page 12 of 12 of the staff report dated November 15, 2023." **VOTE:** 7-0-0 motion passes.

From: Katherine Cook, Planning Coordinator
Re: Staff Report on proposed ordinance text changes within the Lake Auburn Watershed Overlay District

I. **Public Hearing/ Text Amendment:** Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** Since January 2022, several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District have been proposed. These amendments include 1.) changes to the private subsurface wastewater disposal system design and site standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer widths from Lake Auburn and its tributaries and streams; and 3.) prohibiting new non-hobby animal farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn as Auburn and Lewiston's drinking water supply by updating subsurface wastewater disposal standards and environmental regulations to meet current best practices and modern science. All amendments were proposed at various stages but are now ready for review and recommendation by the planning board with ultimate approval by the city council.

These amendments have been collectively reviewed by outside subject matter experts to include former State of Maine Soil Scientist and State of Maine licensed Soil Scientist and Site Evaluator, David Rocque. University of Rhode Island, Director of the Onsite Wastewater Resource Center, Alissa Cox PhD. In addition, the Lake Auburn Water Quality Ad-Hoc Committee has reviewed and recommends the adoption of the zoning amendments.

For reference, below is the relevant meetings to this point have been listed below:

Previous Meetings and Actions:

- **Jan. 3, 2022**—Council directs planning board to maintain requirement of 36 inches above limiting factor for septic systems while allowing updating septic design to meet state standards.
- **Apr. 12, 2022**—Planning Board Workshop and Public Hearing on updating Sec. 60-952(f) (1-5) and (c) subsurface wastewater systems in the Lake Auburn watershed. Planning Board forwarded a favorable recommendation contingent upon the change coinciding with a zone change reducing housing density in Lake Auburn watershed from one dwelling unit per acre to one dwelling units per three acres in the currently existing Rural Residence district in the Lake Auburn watershed.
- **April 19, 2022**—City council workshop on Lake Auburn watershed ordinance updates.

- **May 2, 2022**—City council first reading: updating Ch. 60, Article XII, Division 4, Sec. 60-952 (c) and (f) (1-5) for agricultural buffer strip and subsurface wastewater systems in the Lake Auburn Watershed. Favorable vote.
- **Aug. 9, 2022—**Planning board workshop on FB Environmental Report on updating Sec. 60-952 (f) (1-5) for subsurface wastewater systems.
- **Oct. 11, 2022**—Planning board review of text amendment to Ch. 60, Article XVII, Div. 4, Sec. 60-952(c) agricultural buffer strip and (f) (1-5) private sewage disposal systems.
- **Jan. 17, 2023**—City council directs staff to prepare ordinance text and map Amendment to prohibit any future residential structures and limit or prohibit animal farms in the Lake Auburn Watershed in the AGRP zone.
- **Jan. 17, 2023—**City council directs Planning Board to provide a recommendation for a zoning amendment that will prohibit any future subsurface wastewater disposal within 300' of Lake Auburn.
- **Sept. 26, 2023—**Lake Auburn Watershed Ad-Hoc Committee issues memo to recommend that zoning text amendments pertaining to animal farms, agriculture buffer strips, and septic system standards and map amendments to the Lake Auburn Watershed Overlay District and changing the Rural Residence District to the Low-Density Country Residence District within the Lake Auburn Watershed Overlay District. This memo was included in the materials for the October Planning Board and City Council meetings.
- **Oct. 10, 2023**—Planning Board workshop on text amendments concerning septic system design standards, banning commercial agriculture in the Lake Auburn Watershed, increasing width agricultural buffer strips abutting Lake Auburn and its tributaries.
- **Oct. 16, 2023—**City Council workshop on text amendments concerning septic system design standards, banning commercial agriculture in the Lake Auburn Watershed, increasing width agricultural buffer strips abutting Lake Auburn and its tributaries.

Staff has provided the Planning Board with two versions of Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District. The first is titled "**VERSION A (per 10/10/23 Pl Bd Workshop)**" the yellow highlighted text in Version A was recommended by the Ad Hoc Committee. The second is titled "**VERSION B (with Additional Staff/Legal Suggested Changes highlighted in yellow).**" Below is a summary of the changes in the attached proposed text amendment, and name where each proposed change originated. There are asterisks (*) on changes that have been suggested since the October Workshop by legal counsel, and two asterisks (**) on changes which have been suggested by the planning board.

To capture the Planning Board's preference and to receive appropriate feedback specific to each proposed text change, below we include two motions, Motion A and Motion B, each with several separate recommended motions which will together constitute the entire text amendment which is the subject of this agenda item. This will allow the Board and the public to discuss and form a recommendation on each component of the proposed changes individually. It should be noted that some of the changes rely on other changes to achieve the desired outcome of less development at a higher standard for the protection of Lake Auburn (Example: SSWW Disposal standards and change in density to reduce buildable lot potential).

Summary of Ordinance Text Changes:

1. Minor edits to clarify meaning made to Sec. 60-950. *(Edits suggested by legal counsel for clarity).*
2. Add Sec. 60-951 "(a) Boundaries", make minor edits to clarify meaning. *(Edits made by legal counsel for clarity).*
3. Add Sec. 60-951" (b) Definitions" and under this section, add the definition of "curtain drain," "hobby agricultural use," "Lake Auburn Watershed Protection Commission or LAWPC", (*) "non-hobby agricultural use," "soil horizon," "soil horizon, limiting or limiting soil horizon," "soil

profile," "soil filter media", (*) and soil filter media specifications". (*) *(Edits matching language it the State Plumbing Code made for specificity by legal counsel).*

4. Amend Sec. 60-952(a) to state that as of January 1, 2024, non-hobby farms are not permitted, and hobby farms require review from the LAWPC Watershed Manager and notification to the code enforcement officer. *(Introduced by the city council).*
5. Amend Sec. 60-952(b) to prohibit new dwelling units in the Lake Auburn Watershed Overlay District siting state law which may occasionally be amended. *(Language edit for clarity suggested by legal counsel, it should be noted, however, that the planning board and city council already took favorable action on this item's content.)*
6. Amend Sec. 60-952(c) so that agricultural buffer strips become 100 feet wide instead of 50 feet wide and specify that applicable perennial or tributary streams should be identified on a 7.5-minute series USGS topographic map, dated 1981. *(City council introduced this item and has had first reading).*
7. Amend Sec. 60-953(d) to prohibit any spreading of sludge and specify that manure spreading shall be in conformance with the then-current edition of the Maine Dept. of Agriculture Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal. *(Edit made by legal counsel to reflect existing environmental guidelines and practices.)*
8. Make minor edits to add specificity and clarify meaning in Sec. 60-952(e)(2) and (3). *(Introduced by legal counsel to add clarity.)*
9. Amend Sec. 60-952(f) substituting "sewage" with "subsurface wastewater." Under this section, also amend 60-952(f)(1) private subsurface wastewater disposal system design to specify that there must be at least 36 inches separation between the bottom of the disposal field and the limiting soil horizon and allows for 24 inches of this material be natural or fill; a change from the current ordinance. (*) *(Introduced by the city council with favorable recommendation made by the planning board.)*
10. Amend Sec. 60-952(f)(2) from requiring 300 feet between any new septic field to the high-water line of a stream, tributary, or outlet of Lake Auburn to requiring 400 feet separation. *(Introduced by the city council.)*
11. Add Sec. 60-952(f)(3) stating that all new or replacement systems must meet the above criteria or be designed in consultation with Auburn Water District or its designer (*). *(Introduced by legal counsel to add clarity.)*
12. Add Sec. 60-952(f)(4) that all replacement or new systems shall have either a curtain drain or a diversion ditch and that the design is signed off on by a site evaluator. *(Introduced by the city council.)*
13. Add Sec. 60-952(f)(5) which requires that all new and replacement systems be located on the same lot as the dwelling unit being served, or that in the case of an existing home, the applicant can prove to the plumbing inspector that it is physically impossible to have the septic system on the same lot. *(Introduced by the city council.)*
14. Add Sec. 60-952(f)(6) which requires that systems in the Lake Auburn Watershed Overlay District be inspected by LAWPC or its designee every five years (*). *(Introduced by the planning board).*
15. Make minor edits to clarify wording made to Sec. 60-952(f)(7) (*). *(Introduced by legal counsel to add clarity).*
16. Make grammatical edits to Sec. 60-952(f)(8). (*) *(Introduced by legal counsel.)*
17. Eliminate Sec. 60-952(f)(5) which exempts systems in existence since 1983 from meeting the provisions of this section.
18. Make grammatical edits made to Sec. 60-1237. *(Introduced by legal counsel.)*
19. Add clarifying wording to Sec. 60-1065- Definitions.

IV. Planning Board Action: This proposed text amendment involves several parts, so staff has suggested a public hearing and motions to break up this agenda item into multiple sections for comments on each component. The staff has provided a series of recommended motions for the planning board forward to council. These motions will together constitute the favorable recommendation to amend Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District. Staff recommends Version B with final legal advice and clarifications included but has included Version A below for transparency and to give the Board options.

V. Potential Motion A:

a. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown:

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown:

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below:

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

d. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown:

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses.~~ Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown:

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Dedistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburncity Wwater Dedistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area. Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), nNo new disposal fieldsubsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown.

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5-7B)

k. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text ass shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

VI. Suggested Motion B (Staff and Legal Counsel Recommended):

a. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown:

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown:

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile* to this section as shown below:

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or LAWPC means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown:

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown:

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to forward a favorable recommendation to the City Council to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown:

Sec. 60-952. Use and environmental regulations.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting section 60-952 (f) (5) as shown:

Sec. 60-952. Use and environmental regulations.

(f) *Private subsurface wastewatersewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area. Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), nNo new disposal fieldsubsurface absorption area shall be installed closer than 400300 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(73) The Auburn city Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that who shall require the abatement action by the property owner or operator of such defects or malfunctions.

(84) The local plumbing inspector shall furnish a copy of all site investigation evaluation reports in the Lake Auburn Watershed Overlay District to the Auburncity Wwater Ddistrict or its designee.

(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.

j. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1065 to clarify the text as shown:

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.5-7B)

k. I make a motion to forward a favorable recommendation to City Council to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries*. The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions*. For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District~~ on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine~~

~~Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(7~~3~~) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(8~~4~~) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHORUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

● ● ●

ARTICLE XV. BOARD OF APPEALS

● ● ●

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

VERSION B (with Addt'l Staff Suggested Changes highlighted in yellow)

Prepared for November 14, 2023 Planning Board Meeting

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries*. The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions*. For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement

system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ W~~w~~ater D~~d~~istrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(~~8~~4) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ W~~w~~ater D~~d~~istrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHORUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

● ● ●

ARTICLE XV. BOARD OF APPEALS

● ● ●

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also

impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

Subject: Review of Ordinance Revisions and improved Lake Protections

Susan,

In an effort to strengthen Lake protections, the Auburn Water District has formed the "Lake Auburn Water Quality Ad-Hoc Committee". This Committee is made up of representatives appointed from the Auburn Water District, City of Lewiston Water Division, City of Auburn Planning and Permitting, and representatives of the Lake Auburn Watershed Protection Commission. The Committee was charged with the task of reviewing and advising changes to any watershed related ordinances. These recommendations were based on several science-based recommendations made by FB Environmental, Comprehensive Environmental, Inc and CDM Smith. The recommendations represent text amendments to the Lake Auburn Watershed Overlay District within the City of Auburn. Attached for your reference are the amendments that the collective group believes will strengthen Lake protections, reduce development, and lessen the impacts of sub-surface waste systems on Lake Auburn.

Attached with this letter is the memo signed by all members of the Committee present at the last meeting on September 26, indicating agreement on the following actions:

- Re-delineation of the Watershed Boundary as approved by the DWP.
- Increasing lot size requirements from 1-acre residential areas to 3-acre residential area minimums.
- The Committee further recommends that the Stake Holders represented on the Committee draft and execute an engagement with the Upper watershed towns to explore application of improved watershed protections in those towns.

The Ad-hoc committee unanimously agreed to endorse the currently proposed changes to the Auburn Watershed Overlay District. The draft changes as of September 26 are attached to our enclosed memo of that date. The City of Auburn has recently provided 2 further drafts for public hearing, versions A and Version B are both enclosed with this Letter.

The City of Auburn's current schedule is, 11/14 Planning Board review, 11/20 City Council First Reading and 12/4 City Council Public Hearing and 2nd reading. The ad hoc committee was in agreement that

these drafts should be forwarded to the Maine DWP to allow your review of the proposed changes, in case there was follow up necessary from your office.

Our organizations continue to be engaged in working together toward necessary watershed protections, we welcome your input on these measures. If you have comments or suggestions, we welcome those in this process.

Sincerely;

Michael Broadbent
Superintendent
Auburn Water and Sewer District

Lake Auburn Water Quality Ad-Hoc Committee

MEMO

To: Auburn Water District, Lewiston Water Division

From: The desk of the Lake Auburn Water Quality Ad-Hoc Committee

Date: 9.26.23

Subject: Lake Auburn Watershed Overlay District Text and Map Amendments

The Lake Auburn Water Quality Ad-Hoc Committee has reviewed the following documents and recommends the adoption of zoning amendments for the protection of Lake Auburn. The attached text and map amendments have been reviewed, and consensus has been reached to support the changes based on peer-reviewed science. The Ad Hoc Committee recommends that the Auburn Water District and Lewiston Water Division forward the proposed changes to the Maine Drinking Water Program for review. The Committee further recommends that the Stakeholders represented on the Committee plan and execute an engagement with upper watershed towns to explore application of improved watershed protections in those towns, with legal advice on the authority of Auburn Water District to implement watershed protections.

The Summary of Changes Include:

1.) Proposed zoning text amendments, Sec 60-950 through 1065 (Exhibit A)
2.) Proposed Lake Auburn Watershed Boundary, As recommended by the Maine DWP (Exhibit B)
3.) Map Amendment; Changing 1-acre residential areas (Rural Residential) to 3-acres residential areas minimums (Low-Density Country Residential).

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater District on file in the office of the Auburncity Wwater District, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, and Town of Turner, minot / Hebron / Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or limiting soil horizon means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) ***Agricultural uses.*** ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) ***Residential dwellings in the agriculture and resource protection zoning district.*** **Notwithstanding** the provisions of Secs ~~subsections~~ **60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),** new ~~one-family detached~~ **dwellings** units **are** ~~only permitted~~ prohibited **in the Lake Auburn Watershed** Overlay **District** ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) ***Agricultural buffer strip.*** **Where land adjoining Lake Auburn or its perennial tributaries** ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981)~~ **is tilled for agricultural purposes, an untilled buffer strip** 100~~50~~ **feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.**

(d) ***~~Municipal and m~~Manure and sludge disposal.*** ~~All s~~**Spreading and disposal of** ~~municipal~~ **sludge** ~~is prohibited. shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ **All spreading and disposal of manure shall be accomplished in conformance with** the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface ~~wastewater~~sewage disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewatersewage disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or fill material below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981)~~. Where the daily wastewatersewage flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R.

ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District shall be inspected by LAWPC, or its designee, every 5 years or at the time that a property sold, whichever date is sooner.

(73) **The Auburn ~~city~~ Wwater Deistrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.**

(84) **The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Deistrict.**

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

Subject: Approved - Lake Auburn Source Water Protection Area Boundary Re-Delineation, Gracelawn Parcel area, Auburn, ME

Dear Mr. Broadbent and Mr. Gagne:

On August 7, 2023, you jointly submitted to the Maine CDC Drinking Water Program (DWP) a proposed Lake Auburn source water protection area boundary re-delineation for the Gracelawn Parcel area. The proposed delineation and supporting information are located in the July 31, 2023, CDM Smith technical memorandum *Watershed Delineation Rezoning Review – Gracelawn Pit "Area of Uncertainty"* (CDM Smith Report). Figure 1 from the CDM Smith report is included below for reference.

The DWP agrees with the CDM Smith finding that the "DWP Potential Boundary" on Figure 1 below is a conservative boundary that can be established with available data. The DWP will not challenge this boundary, based on our current understanding of local hydrogeology.

The DWP also agrees that further investigation would be needed to establish a boundary closer to Lake Auburn. In addition to the CDM Smith Report's recommendations that additional data be added to further refine the boundary location, the DWP recommends the following additional action items:

- Investigate further and integrate any impacts of the apparent clay-silt layer in the "Main Pit Area" into the understanding of bedrock flow in the study area. This layer is identified in the Summit Environmental Consultants Inc., Ground Water Assessment, Gracelawn Road Gravel Pit, Auburn, ME, September 2007 (Summit Report) in the Well Completion Logs for MW-11 and MW-12. Stratigraphy is not included in the Well Completion Logs for the other borings in the Summit Report. Additionally, a clay-silt layer identified as the Presumpscot Formation is also shown in this area on the Maine Geological Survey Surficial Geology Map of the Lake Auburn East Quadrangle, Maine (Open-File No. 08-72 2008).

- Investigate further and provide an explanation of the apparent "upward head gradients, i.e., groundwater flow into the lake" in 10 of 12 lake bottom sediment probes discussed on Page 7 (Paragraph A, second bullet) and shown in Figure 7 of the October 5, 2022, CDM Smith *Watershed Delineation Rezoning Review – Gravel Pit Parcel, Lake Auburn Watershed Protection Commission* memorandum.

It is possible that additional information may be required to establish a boundary closer to Lake Auburn, as determined by the DWP at the time of that investigation.

CDM Smith Report, Figure 1:

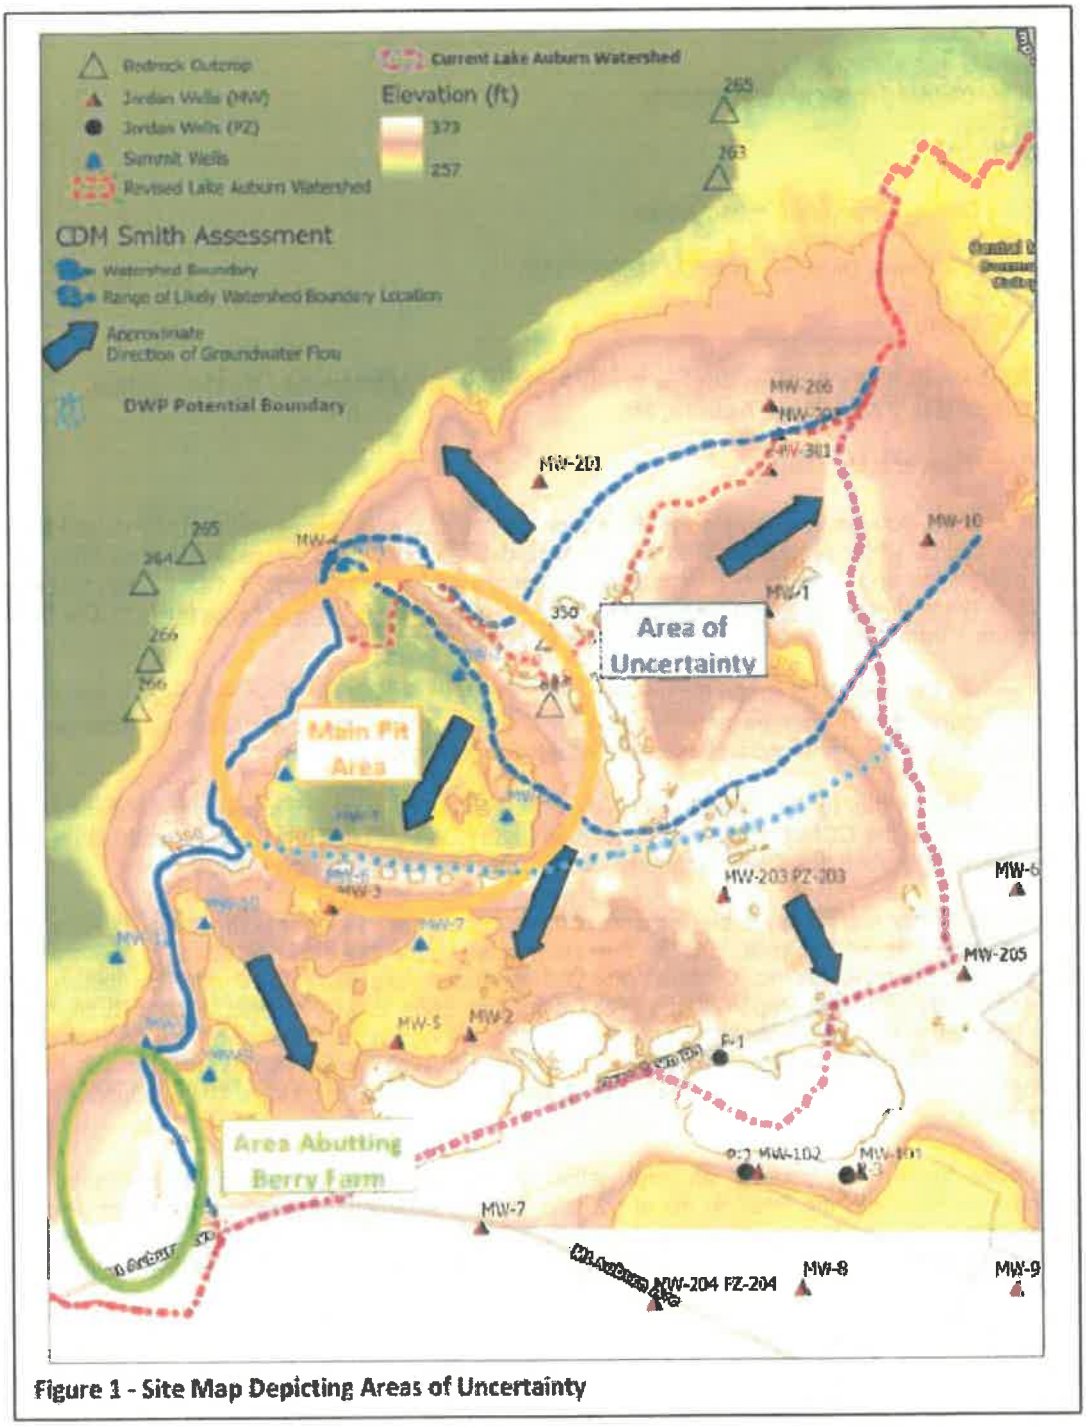

Figure 1 - Site Map Depicting Areas of Uncertainty

Feel free to contact me regarding our feedback within this letter, and thank you for your good work providing safe drinking water.

Sincerely,

Susan F. Breau

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between the City of Lewiston, Auburn Water District, Town of Turner, and Town of Minot/Hebron/Buckfield.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine~~

~~Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years or at the time that a property sold, whichever date is sooner.

(73) The Auburn ~~city~~ Wwater Ddistrict shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

• • •

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

• • •

DIVISION 2. PHOSPHORUS CONTROL

• • •

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

• • •

ARTICLE XV. BOARD OF APPEALS

• • •

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

VERSION B (with Addt'l Staff Suggested Changes highlighted in yellow)

Prepared for November 14, 2023 Planning Board Meeting

PART II - CODE OF ORDINANCES
Chapter 60 - ZONING

ARTICLE XII. - ENVIRONMENTAL REGULATIONS

• • •

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn~~city~~ W~~w~~ater D~~d~~istrict on file in the office of the Auburn~~city~~ W~~w~~ater D~~d~~istrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

(Ord. of 9-21-2009, § 5.3B)

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs.~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses.~~ Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn W~~w~~ater D~~d~~istrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn~~city~~ W~~w~~ater D~~d~~istrict indicating the changes so that a record can be maintained of watershed water yields to the system.

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement

system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(84) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

• • •

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

• • •

DIVISION 2. PHOSPHORUS CONTROL

• • •

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

• • •

ARTICLE XV. BOARD OF APPEALS

• • •

DIVISION 6. SPECIAL APPEAL

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also

impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

(Ord. of 9-21-2009, § 6.5C)

LEWISTON ME

Administration

Re: Settlement Offer via Electronic Mail

Phil,

I write to attempt to resolve any remaining differences regarding Lake Auburn water quality among the City of Lewiston, the City of Auburn, and the Auburn Water District. Optimistically, I believe that the three entities are quite close, after an exchange of emails and a successful conference by the three entities' attorneys. Of the handful of issues remaining, the most significant (and pressing) is the process by which Auburn adopts proposed ordinances regarding the Lake Auburn Watershed and the Lake Auburn Watershed Overlay District.

As you know, Mike Broadbent coordinated a Lake Auburn Water Quality Ad-Hoc Committee, the members of which included an Auburn Councilor and multiple staff from each of our cities. Auburn planning staff drafted the enclosed memo, signed by all Auburn and Lewiston representatives, which included the following: the "Ad Hoc Committee recommends that the Auburn Water District and Lewiston Water Division forward the proposed [ordinance] changes to the Maine Drinking Water Program for review." Lewiston relies on this provision of the agreement for its further comments. Auburn Water District has taken the position that this language simply requires notice. On October 24, 2023, Sally Daggett was clear that Auburn staff plan to move forward before the new Council is sworn in.

On October 25, 2023, through counsel, Lewiston requested that the City of Auburn delay the adoption of the proposed ordinances to allow enough time for the Drinking Water Program to meaningfully consider each proposed ordinance change and to respond to the proposed change. (See enclosed.) Auburn has not responded to the request. On November 1, 2023, John Blais wrote the Maine Drinking Water Program giving notice that the Council is expected to conduct a second reading on December 4, 2023. This is the timeline that you emailed Auburn Councilors before September 26, 2023.

Lewiston shared its positions on the outstanding items with the City of Auburn and Auburn Water District through lawyers but given the importance of these matters to our communities, I wanted to reach out directly. Lewiston is open to changed zoning and land use around Lake Auburn, so long as the water quality is maintained or improved. Changes in zoning and land use should be vetted by peer-reviewed science and implemented only after they are agreed upon by the AWD and LWD licensed operators, approved by the regulators, and adopted within the legal structures that govern the relationships around Lake Auburn. **Lewiston is prepared to support the proposed ordinances, as drafted[1], <u>if Auburn</u>**

[1] One provision of the proposed ordinance needs more clarity. Lewiston agrees that replacement systems, particularly the replacement of septic tanks currently serving existing homes, may be unable to meet the new septic standards in sec. 60-952(f)(1). However, the language "site-specific circumstances" is too vague and broad to describe that narrow circumstance.

observes a process that allows enough time for the Drinking Water Program to meaningfully consider each proposed ordinance change and to respond.

I hope Auburn sees this offer as intended; Lewiston respects Auburn's home-rule authority but, given the high stakes (potential loss of waiver), needs to ensure that the recommendation drafted by Auburn staff and signed by an Auburn Councilor has meaning. As such, it requests that Auburn allow enough time for the Drinking Water Program to meaningfully consider each proposed ordinance change and to respond to the proposed change. While my Council and I seek agreement, the lawsuit was filed due to the enormous stakes that could follow an ill-considered ordinance (as you know, if the waiver is lost, Auburn's consultant estimated that total annualized costs of construction, operation, and maintenance for a new filtration plant were $3.07 million/year).

Please contact me with any questions.

Sincerely,

Heather Hunter

ENCLOSURE

cc: Michael Broadbent, Superintendent, Auburn Water District

Ordinance: 28-11202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment Rezoning Certain Land from LDRR or RR to LDCR

BE IT ORDAINED, that the City Council hereby approves the amendment of Chapter 60, Zoning, of the Code of Ordinances as follows:

Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to agricultural farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map and are detailed below.

a. I make a motion to amend Sec. 60-950 adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name as shown.

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A)

b. I make a motion to amend Sec. 60-951 (a)-Boundaries, adding the word "Overlay" to clarify the Lake Auburn Watershed Overlay District name, and changing "city water district" to "Auburn Water District" as shown.

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburncity Wwater Ddistrict on file in the office of the Auburncity Wwater Ddistrict, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

c. I make a motion to amend Sec. 60-951 (b)- Definitions, adding the definition of *curtain drain, hobby agricultural use, Lake Auburn Watershed Protection*

City Council Ordinance

Commission or LAWPC, Non-hobby agricultural use, soil horizon, soil horizon limiting, or limiting soil horizon, and soil profile to this section as shown below.

Sec. 60-951. Boundaries and definitions.

(b) *Definitions.* For purposes of this Division 4, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where (i) the products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit, and (ii) the allowances set forth in Sec. 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in Article VII, Division 4 of Chapter 8 of the City Code of Ordinances are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, Auburn Water District, and Town of Turner, with three commissioners appointed by the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material, excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of 6 inches of upper fill layer meeting the following upper fill layer specifications:

City Council Ordinance

Soil Filter Media Specifications

Upper Fill Layer	
Sieve #	% Passing by Weight
No. 4	75-95
No. 10	60-90
No. 40	35-85
No. 200	20-40
200 (clay size)	<2.0

Lower Fill Layer	
Sieve #	% Passing by Weight
No. 10	85-100
No. 20	70-100
No. 60	15-400
No. 200	6-8
200 (clay size)	<2.0

d. I make a motion to amend Sec. 60-952- use and environmental regulation (a) Agricultural uses prohibiting new non-hobby agricultural uses as of 1/1/24 and requiring approval by LAWPC's Watershed Manager to operate hobby agricultural uses after 12/31/23 as shown.

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* ~~All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.~~ Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if (i) the owner or operator first demonstrates to LAWPC's Watershed Manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff, and (ii) LAWPC's Watershed Manager approves such use or expansion in writing and so notifies the code enforcement officer.

e. I make a motion to amend Sec. 60-952- use and environmental regulations (b) *residential dwellings in the agriculture and resource protection zoning district* by specifying that LD 2003 does not apply in the Lake Auburn Watershed Overlay District as shown:

City Council Ordinance

Sec. 60-952. Use and environmental regulations.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of Secs. ~~subsections~~ 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c), new ~~one-family detached~~ dwellings units are ~~only permitted~~ prohibited in the Lake Auburn Watershed Overlay District ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~. Pursuant to 30-A M.R.S. § 4364(9), 30-A M.R.S. § 4364-A(1-A), and 30-A M.R.S. § 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act To Implement the Recommendations of the Commission To Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related State regulations do not apply in the Lake Auburn Watershed Overlay District.

f. I make a motion to amend Sec. 60-952 (c) by increasing the width of an untilled agricultural buffer strip near Lake Auburn or its perennial tributaries from 50 feet wide to 100 feet wide as shown:

Sec. 60-952. Use and environmental regulations.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100~~50~~ feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

g. I make a motion to amend Sec. 60-952 (d) to prohibit all spreading of or disposal of sludge as shown.

Sec. 60-952. Use and environmental regulations.

(d) ~~*Municipal and m*~~*Manure and sludge disposal.* ~~All s~~Spreading and disposal of ~~municipal~~ sludge is prohibited. ~~shall be accomplished in conformance with the Rules of Municipal Sludge Utilization on Land, published by the department of environmental protection in September, 1980.~~ All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal ~~Maine Guidelines for Manure and Manure Sludge Disposal on Land, published by the Life Sciences and Agriculture Experiment Station and the Cooperative Extension Service, University of Maine at Orono, and the Maine Soil and Water Conservation Commission in July, 1972~~.

h. I make a motion to amend Sec. 60-952 (e) to change "water district" to "Auburn Water District" as shown.

Sec. 60-952. Use and environmental regulations.

City Council Ordinance

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Wwater Ddistrict. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburncity Wwater Ddistrict indicating the changes so that a record can be maintained of watershed water yields to the system.

i. I make a motion to amend Sec. 60-952 (f)-private subsurface wastewater disposal systems by (1) amending the separation requirements between the disposal field and the limiting soil horizon; (2) increasing the separation between septic systems and tributaries to Lake Auburn from 300 to 400 feet; (3) requiring that the plumbing inspector must ensure that new and replacement systems meet this set design criteria; (4) specifying the design standards of private subsurface wastewater disposal systems; (5) specifying that systems must be on the same lot as the unit they serve; (6) specifying that LAWPC or its designee shall have the right to inspect systems; (7) clarifying the follow-up steps in case of a malfunction; (8) changing the wording of overseeing agencies; and deleting original section 60-952 (f) (5) as shown.

Sec. 60-952. Use and environmental regulations.

City Council Ordinance

(f) *Private subsurface wastewater~~sewage~~ disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater~~sewage~~ disposal systems in the Lake Auburn Watershed Overlay District:

(1) ~~Subsurface absorption areas shall not be permitted on sites on which the highest seasonal groundwater table, bedrock, or other impervious layer is less than 36 inches below the bottom of the organic horizon. Not less than 24 inches of suitable soil shall be present below the bottom of the subsurface absorption area. The bottom of such subsurface absorption area shall not be less than 12 inches below the bottom of the organic horizon measured from the lowest point on the subsurface absorption area.~~ Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filter media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this ordinance.

(2) ~~Within areas containing soils described as deep, loose and sandy or gravelly and which contain more than 70 percent sand as shown on table 9-3 of the state plumbing code, part II (April 25, 1975), n~~No new disposal field~~subsurface absorption area~~ shall be installed closer than 400~~300~~ feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater~~sewage~~ flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have (a) a curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time, or (b) a diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation is determined to be most appropriate based on the evaluation of groundwater conditions on the site by a Maine licensed site evaluator. The local plumbing inspector shall require that a Maine licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this ordinance.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every 5 years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(~~7~~3) The Auburn ~~city~~ Wwater Ddistrict or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunctions that ~~who shall~~ require ~~the~~ abatement action by the property owner or operator ~~of such defects or malfunctions~~.

(~~8~~4) The local plumbing inspector shall furnish a copy of all site ~~investigation~~ evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn~~city~~ Wwater Ddistrict or its designee.

~~(5) Replacement or reconstruction of private residential sewage disposal systems in existence and in use on December 17, 1983 shall not be subject to the requirements of this section but shall be required to comply with the current state plumbing code.~~

j. I make a motion to amend Sec. 60-1065 to clarify the text as shown.

City Council Ordinance

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is 0.5.

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 1,180.0.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.036; for Lake Auburn, the phosphorus allocation is 0.047.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B)

k. I make a motion to amend Sec. 60-1237 to clarify the text as shown:

Sec. 60-1237. Lake Auburn Watershed Overlay District ~~zone~~ variance.

When by reason of extraordinary physical conditions peculiar to the land or buildings under appeal but not to other land or buildings adjoining or nearby, an owner of land would be subject to unusual difficulty or special hardships (not mere financial hardship or hardships caused by rigid subsurface wastewater~~sewage~~ disposal regulations) by reason of the literal application and rigorous enforcement of the terms of this chapter, the board of zoning appeals may grant a variance from strict compliance with the requirements of division 4 of article XII of this chapter after notice and public hearing as provided in this article. No such variance shall be granted unless the board is satisfied that the variance applied for will not adversely affect the quality of the Lake Auburn water supply. When an application for a variance is filed, it shall be forwarded to the Auburn~~city~~ W~~w~~ater D~~d~~istrict with a request for an informational report and a recommendation to the board regarding the disposition of the requested variance application. In any case in which a variance request is granted, despite the recommendation of the Auburn W~~w~~ater D~~d~~istrict that it be denied, the board of appeals shall make part of its permanent records a written statement of its reasons for taking such action. In granting any such variance application, the board may also impose reasonable conditions upon the use of the land in question which shall be reduced to writing and made a part of the permanent records of the board.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Public Hearing**

Author: Glen E. Holmes, Director of Business & Community Development

Subject: CDBG Action Plan Amendment for Program Year 2023

Information:
Each year the Business & Community Development Department presents the Annual Action Plan, detailing the use of Auburn's CDBG funds. This plan is designed to address community needs as detailed in the 5 year Consolidated Plan which was adopted in 2020.

This amendment is intended to reallocate available funds to address the identified commuinity needs outlined within the amendment. This Public Hearing will accompany a 30 day public comment period prior to the submittal of the amended plan to the U.S. Department of Housing & Urban Development.

City Budgetary Impacts:
Funds included within this budget are covered by grants provided by the U.S. Department of Housing and Urban Development. This includes projects, activities and related staff time administering programs.

Staff Recommended Action:
Hold Public Hearing.

Previous Meetings and History:
Action Plan Public Hearing February 13, 2023
Action Plan Public Comment Period April 1 - May 1st, 2023
Action Plan Adoption May 1, 2023
PRO Housing Grant Workshop October 16, 2023
PRO Housing Grant approval October 23, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
Program Year 2023
Revised ACTION PLAN and BUDGET

The City of Auburn is amending its PY23 Action Plan with the U. S. Department of Housing and Urban Development (HUD). This Action Plan revision is in response to emergent community needs described in detail below. These new CDBG funded activities still meet and advance the goals and objectives set forth in the Auburn 2020-2024 Consolidated Plan.

2020-2024 CONSOLIDATED PLAN

The City of Auburn has adopted a 2020-2024 Consolidated Plan for the Community Development Block Grant (CDBG) Program and the HOME Investment Partnerships (HOME) Program which includes both the City of Auburn and Lewiston. The Consolidated Plan identifies many community challenges, establishes priorities, and describes how Community Development resources will address these needs. Although this plan was adopted prior to Covid-19 and many housing-related crises, these amendments still meet the original four goals:

Goal 1: Provide Safe & Affordable Housing
Goal 2: Improve Infrastructure & Reduce Blight
Goal 3: Promote Economic Opportunities
Goal 4: Provide Essential Services

2023 FUNDING

Funding for the Community Development Program is derived from Community Development Block Grant and HOME Investment Partnerships Program allocations for both Auburn and Lewiston. These yearly allocations are supplemented by their respective program income derived from current loan principal paybacks expected within the program year and unspent funds carried over from previous years. Allocations are presented as indicated on our FY23 Award letter from HUD and internal reports designating available program income and available carryover funds.

Annual Community Development Block Grant Funds: The proposed budget for FFY2023 is $1,877,316 from the following sources of Community Development funds:

CDBG Allocation	$534,778
Anticipated Program Income	$200,000
Carry Over Funds	$1,251,738

DRIVERS OF CHANGE

After the adoption of the PY23 Action Plan there were three new, substantial needs identified within the city. By amending the CDBG budget the city will be better able to respond to the changing needs of the community.

a. **PAL Center Expansion:** The PAL Center is located in qualified LMI census tract and provides essential youth and family support services including teen mentoring, youth sports, clothing and hygiene products for needy families as well as most recently operating an emergency food pantry which serves over 250 families each week. The PAL center expansion project is being made possible by congressionally directed spending dollars as well as ARPA and voter approved bonding.

   The city of Auburn has received a memo from Woodard & Curran, project manager for the PAL center expansion citing previously unknown site conditions recently made known by on-site geological explorations. This letter dated November 16, 2023 detailed the identified solutions for the soil stabilization as well as an estimated budget of $575,00- $650,000.

b. **Blight & Health Hazard:** The city has identified an existing multi-unit building that has been cited as a health hazard requiring remediation by the Department of Environmental Protection. The existing income-qualified tenants will need assistance finding and attaining new housing before the building can be razed and the site decontaminated per DEP requirements. Per federal and city policy, the removal of these housing units will require a plan and investment to create a new 1-for-1 replacement of a matching amount of affordable units within the city.

c. **Winter Oaks Affordable Housing Development:** In October 2023 the City Council approved a plan and grant application to develop a sizable portion of city owned property into a mixed income housing development with a priority focus on creating homeownership opportunities for qualified LMI residents. In order to begin this work, and under the guidance of HUD CPD Notice 2023-10, the city intends to contract for the essential master planning services needed to begin surveying and engineering this development.

d. **Lead Hazard Control & Home Rehab Performance:** Current performance of the Lead Hazard Control grant and Home Rehab programs has left underutilized funds. These programs have received substantial applications. Of the 92 applications started for single-family rehab, only 10 have successfully qualified. For the 42 multi-unit investor/landlord applications in which a majority of the tenants need to income qualify only 8 have successfully qualified. These rates are driven in part by inflated construction costs but are dramatically exacerbated by federally established maximum rent rates required for all units rehabbed.

e. **Pedestrian Safety projects:** The current pedestrian safety project being completed on Library Ave had an original budget of $990,000. The current contract price for the completion of the project was only $708,000 with additional funds being utilized for project delivery costs. The remaining unencumbered funds for this activity are in excess of $200,000, which can now be reallocated to the newly identified needs.

NEW ACTIVITIES:

Funds from the existing under-utilized programs, which have been struggled to perform under the current housing market rental rate as well as a dramatic increase in contractor scarcity and material cost increase, will be reallocated to meet the growing needs of the community detailed below:

- $200,000 in Blight Remediation will be made possible by reallocating funds from the existing underutilized neighborhood challenge and public infrastructure budget. This project will cover costs associated with the federally required relocation of income-qualifying tenants from premises currently under a remediation action by the Department of Environmental Protection. After the successful relocation the remaining funds will be used as a s city match to demolish and abate environmental concerns on the site.
- $500,000 in Public Improvements for the PAL Center Expansion. Considering the recent documented site and soil conditions there is now a budget shortfall in excess of $500,000 for the completion of this project. The addition of available CDBG funds will serve to make possible the expansion of the future public services that are housed within the center and improve the impact of federal funds on qualified LMI populations served.
- $150,000 in Affordable housing development funds will make possible the completion of an environmental review and master plan development for the proposed 100 new mixed income neighborhood being developed for the city-owned property known as "Winter Oaks." This first step is essential to not only meet the city's requirement to replace the unhealthy housing being removed from another site in the city, but also to advance existing efforts and funding sources being utilized to develop new affordable housing within the city.

Budget Detail:

ACTIVITIES	PY23 Budget	Amendment	DELTA
PLANNING AND ADMDINISTRATION	$106,762.86	**$106,762.86**	**$0.00**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order:** 157-12042023

Author: Mark Conrad, School Business Manager

Subject: Approval to Establish a New Curriculum Development Reserve Fund for the purpose of funding Curriculum Development materials, equipment, software, and professional development.

Information: By statute, each year school administrative units must calculate excess fund balance funds, defined as unallocated fund balance funds in excess of 9% of the operating budget, and spend those down to no more than 9% over a three-year period. Based on the audited unassigned FY 2022 fund balance, the Auburn School Department has $1,286,919 in excess funds which must be spent down over the next three years.

Based on a recommendation from the School Finance Committee, the School Committee has approved use of these excess funds for three purposes: 1) up to $500,000 for additional needs at the new High School, including but not limited to dug-outs and landscaping; 2) up to $500,000 for High School technology, and 3) to establish a Curriculum Development Reserve Fund for the purpose of funding Curriculum Development materials, equipment, software, and professional development, and transfer the remaining $286,919 in excess fund balance funds into the Curriculum Development Reserve Fund.

The Auburn School Department has made significant investments in new curriculum over the last three years, using federal ESSER grant funds, with significant improvements in student outcomes in literacy and math as a result. The new Curriculum Development Reserve Fund will enable the Auburn School Department to maintain its investment in updated curriculum in future years after the federal ESSER funds end in September 2023. Specifically, the initial transfer of funds into this Reserve Account will be used to strengthen the investment in literacy curriculum and instruction based on anticipated costs in FY 2026. The attached memo provides specific information in this regard.

City Budgetary Impacts: None

Staff Recommended Action: Approve

Previous Meetings and History: School Committee Approval on November 15, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Memo

To: Cornelia Brown, PhD Superintendent of Schools

From: Sue Dorris, EdD Assistant Superintendent of Academic Affairs

Date: November 13, 2023

Re: Recommendation for the Establishment of a Capital Reserve Account for Curriculum

I am writing to recommend the establishment of a Capital Reserve Account for Curriculum in the amount of $286,000. This allocation is crucial to support the ongoing success and expansion of the Savvas literacy program, which has demonstrated significant positive outcomes over the past two years.

Background: The Savvas literacy program has proven to be instrumental in enhancing the reading skills of our students. We need to update this program and purchase new materials in 2026 at an anticipated cost of $286,000. Funds will be allocated as follows:

1. **Updated Teacher and Student Materials:** A portion of the funds will be utilized to acquire updated materials for both teachers and students, ensuring that the curriculum remains current and aligned with educational standards.
2. **Digital Licenses:** Investment in digital licenses will provide students with access to interactive and engaging digital resources, fostering a dynamic and adaptive learning environment.
3. **Professional Development:** Allocating funds for professional

development will enable our educators to stay abreast of the latest instructional techniques and methodologies associated with the Savvas literacy program.

4. **Program Evaluation:** A portion of the budget will be dedicated to ongoing program evaluation, allowing us to assess the effectiveness of the curriculum and make data-driven decisions for continuous improvement.

Results: The results of implementing the Savvas literacy program have been overwhelmingly positive. Notable achievements include a substantial increase in reading scores, as evidenced by the Fall Universal Screening assessment. The percentage of students scoring at a proficient level has risen by 33 percentage points, from 47% in 2020 to an impressive 80% in 2022.

Why Continue: I recommend the continuation of the Savvas literacy program due to the following compelling reasons:

1. **Increased Reading Scores:** The program has consistently demonstrated its ability to elevate reading proficiency among students.
2. **Student Engagement:** Teachers report higher levels of student engagement, indicating that the program is resonating well with our student body.
3. **Equity Across Schools:** The program promotes equity by providing all schools with access to a rigorous, research-based reading and language arts curriculum grounded in the science of reading.

Considering these accomplishments and the favorable influence on student performance, it is imperative to create a Capital Reserve Account for Curriculum. This is crucial not only for the ongoing success of the Savvas program but also to address ongoing curricular and programmatic requirements in subjects such as math, science, social studies, and other content areas. Your support in this regard is vital for the sustained progress of our students in their academic endeavors. I appreciate your consideration of this recommendation.

ORDER 157-12042023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby authorizes the School Committee to establish a Curriculum Development Reserve Fund for the purpose of funding curriculum development materials, equipment, software and professional development.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order:** 158-12042023

Author: Liz Allen, Director of Communications & Community Engagement

Subject: Renaming of City Facilities – Officer Norman Philbrick Square

---

Information: The Mayor's Ad-Hoc Committee on the Naming of City Facilities voted in favor of recommending to council the naming of the city-owned parcel at the corner of Court Street and Great Falls Plaza (where the "Bud Form" sculpture is situated) as "**Officer Norman Philbrick Square**" (or "Philbrick Square") in honor of fallen Auburn Police Officer Norman Philbrick, who was killed in the line of duty.

Auburn Police Officer Norman Philbrick died in the line of duty on July 7, 1949. Fire crews from our sister city of Lewiston were called in to assist with a large fire. While Officer Philbrick was directing traffic, two fire trucks rounded the intersection at the same time, crushing him to death.

The force of the impact was so great that Officer Philbrick's duty weapon was bent to nearly a ninety-degree angle. Officer Philbrick's weapon is displayed at the Auburn Police Department as a reminder of the ultimate sacrifice he gave to the citizens of our city.

Officer Philbrick had served with the Auburn PD for two years. He was survived by his wife and two daughters. The city honored another fallen APD officer, Rodney "Rocky" Bonney, by naming a park in his memory. It is fitting that the city should also recognize Officer Philbrick's ultimate sacrifice. It would be very meaningful to his family members, to our community, and to the men and women of the Auburn Police Department.

City Budgetary Impacts: Funding needed for granite signage

Staff Recommended Action: As staff liaison to this committee, I wholeheartedly recommend naming this parcel in honor and in memory of Officer Norman Philbrick.

Previous Meetings and History: Ad-Hoc Committee meetings held September 19, 2023 & November 29, 2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

MEETING MINUTES

November 29, 2023, meeting of the Mayor's Ad Hoc Committee on the Naming of City Facilities

Present: Jason Levesque, Richard Whiting, Joe Morin, Liz Allen

PHILBRICK SQUARE: Committee voted in favor of recommending to council the naming of the city-owned parcel at the corner of Court Street and Great Falls Plaza (where "Bud Form" sculpture is situated) as "Officer Norman Philbrick Square" in honor of fallen Auburn Police Officer Norman Philbrick, who was killed in the line of duty.

Liz submitted a concept drawing/rendering for simple granite memorial (attached to these minutes).

Motion by Councilor Morin. Second by Councilor Whiting. All in favor.

MUSTANG ALLEY: Committee voted in favor of recommending to council the naming of the (currently unnamed) access road in front of Norway Savings Bank Arena (that connects to TJ Maxx plaza) in honor of CMCC: "**Mustang Alley.**"

Liz submitted a concept drawing/rendering for the street sign (attached to these minutes). Actual placement will be at the discretion of Auburn Public Works and in accordance with city ordinance and the MUTCD (Manual on Uniform Traffic Control Devices).

Motion by Councilor Whiting. Second by Councilor Morin. All in favor.

UPPER & LOWER PETTENGILL SOFTBALL FIELDS: The committee discussed and voted in favor of recommending to council the renaming of the Pettengill Park softball fields as follows:

The upper softball field would be renamed as the "Joseph Walker Memorial Field" ("Walker Field"). And the lower softball field would be renamed as the "Tricia Asselin Memorial Field" ("Asselin Field").

Motion by Councilor Morin. Second by Councilor Whiting. All in favor.

ORDER 158-12042023

City Council Order

IN CITY COUNCIL

Ordered, that the City Council hereby authorizes the naming of the city-owned parcel at the corner of Court Street and Great Falls Plaza (where the "Bud Form" sculpture is situated) as "Officer Norman Philbrick Square" (or "Philbrick Square") in honor of fallen Auburn Police Officer Norman Philbrick, who was killed in the line of duty.

Author: Liz Allen, Director of Communications & Community Engagement

Subject: Renaming of City Facilities – "Joseph 'Joe' Walker Memorial Field" & "Tricia Asselin Memorial Field"

Information: The committee discussed and voted in favor of recommending to council the renaming of the Pettengill Park softball fields in honor of two Auburn residents who were killed in the recent tragedy in Lewiston.

The committee recomments renaming the upper softball field as the **"Joseph 'Joe' Walker Memorial Field" ("Walker Field")**, and the lower softball field as the **"Tricia Asselin Memorial Field" ("Asselin Field").**

Both Walker and Asselin were deeply involved in Auburn's softball community, and to honor them with the renaming of fields that they both knew well and loved would be fitting. Our sincere hope would be that this gesture would not only bring comfort to their families, but also establish a lasting memorial to their legacies.

City Budgetary Impacts: Park signage.

Staff Recommended Action: Staff liaison to the committee recommends approval.

Author: Eric J. Cousens/John Blais, Planning and Permitting Director & Deputy

Subject: 87 Mill Street Garage Removal and Replacement for Riverside Trail Access – Comprehensive Plan Implementation Funding.

Information: In 2012 Rolly's (R&K Properties LLC) acquired a piece of Parcel 221-074 from the City of Auburn to construct an addition to the restaurant in exchange for giving the City a piece of Parcel 221-076 that would allow for the future construction of a trail along the Little Androscoggin River that connects from South Main Street to Anniversary Park(see attached property map). Part of that agreement was to demolish the rear portion of the garage that now sits on the land acquired by the City. The garage was built in two sections and the demolition of the rear portion is technically possible, but we have determined through contractors estimates that it will cost significantly more than demolishing the entire structure and replacing the portion retained by R&K Properties LLC. Removal and repair of the rear wall was promised to the property owner and has taken some time to work out the details. The existing building has been used primarily for community storage and personal storage and the owner has prioritized community storage of seasonal decorations and the Marshall Popcorn Truck.

We are ready to remove the structure and the property owner is open to replacement of a structure of a similar size to match the existing front portion of the building in the approximately same location. We have demolition cost estimates that are dependent on timing during the off season this fall/winter for $30,000. We are working on finalizing an updated budget and building specification for the replacement structure and expect to have agreements with the owner and budget pricing soon. Completion of this project is required to complete previous agreements with the owner and is the most cost-effective way to create access for the trail and eliminate the deteriorating rear portion of the structure. We have CDBG and demolition funding to complete the demolition already appropriated. We need the Council to approve expending available Comprehensive Plan implementation funds for the replacement structure in order to move this forward.

Staff has prepared estimates and reviewed the preliminary design with the landowner (Ken Blais) and will balance the desire to minimize costs with the goals of creating an attractive, flexible use structure that can continue to meet the private and community needs that the existing structure has served.

City Budgetary Impacts: Demolition ($30,000)and Replacement Costs ($160,767.50).

Staff Recommended Action: Staff recommends that the Council discuss the proposal and vote to considering allocating funds – (Comprehensive Plan Implementation Funding) up to $160,767.50 for the replacement structure for R&K Properties LLC (PID 221-074).

Previous Meetings and History: 2012 Property swap approval, Council Workshop November 20th, 2023

City Manager Comments:

I concur with the recommendation. Signature:

Comprehensive Plan Excerpts

2021 Recreation Chapter Strategies:

Strategy E.1.2.b: Support the connection of local recreational facilities along the Androscoggin River with riverfront facilities in other communities, such as the Androscoggin Riverlands and Lewiston.

Strategy E.1.2.c: Identify and develop new land and water access points that create connectivity with the Androscoggin and Little Androscoggin Rivers and surrounding recreational opportunities. Utilize public and private resources to mitigate financial, recreational, and cultural impacts.

New Auburn Master Plan Strategies

Recreation Objective B: Encourage LA Trails' efforts to create a trail system, where feasible, within the "greenbelt" linking the open spaces to the sidewalk network and major destinations such as schools and the business district (see Map 2, page 20).

i. Support efforts to develop a trail connection between the Barker Mill Trail and Moulton/West Pitch Park through the establishment of a pedestrian bridge across the Little Androscoggin River.

Recreation Objective 1.C: Support organizations such as the Androscoggin Land Trust and LA Trails in their efforts to develop and maintain boat launches and other riverfront recreational amenities.

City of Auburn, Maine

"Maine's City of Opportunity"

Office of Planning & Permitting

July 26, 2012

Ken Blais
R&K Properties, LLC
87 Mill Street
Auburn Maine 04210

Re: **87 Mill Street, Auburn Maine 04210 / Property ID # 221-076, 221-075 and a portion of 221-074 / Zoning Conformance Letter**

Dear Mr. Blais:

I am writing in regard to the property located at 87 Mill Street, Auburn Maine 04210 (PID # 221-076). The subject property is located within the General Business (GB) zoning district and is occupied by an existing building and business, namely Rolly's Diner. City records indicate that the abutting lot (PID 221-075) is held in common ownership with 87 Mill Street (PID#221-076). As we have discussed the owner of the above mentioned properties intends to acquire a portion of the abutting parcel (PID#221-074) best described as a 25'wide strip of land along the western side of the property as shown on the attached map. With that acquisition and the combination of the three parcels noted above, the City will consider the parcels as one lot for zoning and permitting purposes.

The GB zoning district requires the following for setbacks:

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

To determine the front setback for the parcel, we need to look at the *lots next thereto on either side.* The land to the west between the parcel in question and the Little Androscoggin River is a Public Easement and not a lot for the purposes of this determination. The first lot to the

northwest along Main Street is 374 Main Street (PID#221-073) which is occupied by a building with a zero (0) front setback. The first lot to the southeast along Main Street/South Main Street is 80 Mill Street (PID#221-078) which is occupied by a building with a zero (0) setback along South Main Street. Therefore, the average depths of *lots next thereto on either side* is zero (0) and the front setback requirement for the combined parcels to be known as 87 Mill Street will be zero (0). Any new structures or additions on that parcel will be allowed a zero (0) front setback along Main Street.

The side setback for this parcel will be 25' and will be met on the 25' strip of land that the owner of the above mentioned property intends to acquire.

Should you have any questions regarding this matter please don't hesitate to contact me at 333-6601 Extension 1154.

Sincerely,

Eric Cousens

Eric J. Cousens
Director of Planning and Permitting

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order:** 163-12042023

Author: Glen E. Holmes, Director of Business & Community

Development **Subject**: TIF #31 – Academy St Housing. Public Hearing.

Information:
The Academy Street Housing Tax Increment Financing District & Development Program (#31) will enable the construction of a new 3-story apartment building providing 53 market rate units, both one and two bedrooms in a class A, low amenity complex. As part of these improvements, the developer will add 22 new on-street parking spaces, which will include ADA-compliant spaces. To make this possible, the developer will provide approximately 5 feet of private property to accommodate diagonal parking spaces. After construction, the developer will provide an easement to the City for public parking. To ensure compliance with ADA regulations, significant excavation and grade work will be done. Improvements to sidewalks will also require significant excavation and grade work to provide a safe and walkable path that includes ADA-specific accommodations. The sidewalk, parking, and street improvements to meet regulations set by the Department of Transportation.

City Budgetary Impacts:
The City intends to establish a new Tax Increment Financing District for the purpose of capturing tax revenues from new assessed value generated by investments made on these parcels. The captured revenue will be spent in a manner which limits impacts on the city budget for planned infrastructure improvements and services as outlined within the Project Cost budget included.

Staff Recommended Action:
Approval of Order as presented.

TIF#31 Application

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

The legislature finds a need for new development in areas of municipalities and plantations to: (A) Provide new employment opportunities; (B) Improve and broaden the tax base; and (C) Improve the general economy of the State. The municipal tax increment financing (TIF) program, established under 30-A M.R.S.A. Chapter 206 §5221-5235, is designed to assist municipalities and plantations to develop a program for improving a district of the municipality or plantation: (A) To provide impetus for industrial, commercial, transit-oriented or arts district development, or any combination; (B) To increase employment opportunities; and (C) To provide the facilities outlined in the development program adopted by the legislative body of the municipality or plantation. The TIF Statute provides that before final designation of a tax increment financing district, the Department of Economic and Community Development (DECD) commissioner shall review the proposed district and development program to ensure compliance with statutory requirements.

Before designating a development district within the boundaries of a municipality or plantation, or adopting a development program for a designated development district, the municipal or plantation legislative body or the municipal or plantation legislative body's designee must:

a) Hold at least one public hearing,
b) Publish notice of the hearing at least 10 days before the date of the hearing in a newspaper of general circulation within the municipality or plantation,
c) At the hearing, the legislative body of a municipality or plantation must consider:
    i. Whether the proposed district or development program will contribute to the economic growth or well-being of the municipality or plantation or to the betterment of the health, welfare or safety of the municipal or plantation inhabitants,
    ii. Any claim by an interested party that the proposed district or development program will result in a substantial detriment to that party's existing business in the municipality or plantation and produces substantial evident to that effect.

Mail completed application, with tabs separating exhibits, to:

DECD/Office of Business Development (MTIF)

111 Sewall Street

Augusta, ME 04330

(e-mailed applications are <u>not</u> accepted)

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

_____
Print municipal official's name & title

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 2 - Purpose/Basis Original/Amended Application

1. **Provide a brief, "headline" sentence explaining purpose/basis of this application.**
   The proposed development plan includes a new 3-story apartment building providing 53 market rate units, both one and two bedrooms in a class A, low amenity complex.

2. **If needed, provide additional information related to the purpose/basis of this application. If this is an amendment, provide a brief, concise overview of the purpose of the original application and each amendment submitted to date.**

   Auburn Town Center Apartments, LLC is planning to build 53 one and two-bedroom units and public shared improvements. As part of these improvements, the developer will add 22 new on-street parking spaces, which will include ADA-compliant spaces. To make this possible, the developer will provide approximately 5 feet of private property to accommodate diagonal parking spaces. After construction, the developer will provide an easement to the City for public parking. To ensure compliance with ADA regulations, significant excavation and grade work will be done. Improvements to sidewalks will also require significant excavation and grade work to provide a safe and walkable path that includes ADA-specific accommodations. The sidewalk, parking, and street improvements will meet regulations set by the Department of Transportation.

   The site is currently a city owned vacant parcel located at 261 Main Street and 15 Academy Street, on the northerly side of Academy Street, in Auburn, Maine. The site is gravel and grass surfaced in the central and westerly portions, transitioning to wooded area to the east. Existing grades range from approximately elevation 189 to 166 feet. The development plans include a new on-grade, 3-story, L-shaped apartment building measuring about 274 by 104 feet in greatest plan dimensions. Finish floor elevation of the proposed building will be tiered to follow the site terrain. The site has been a vacant lot for ± 50 years. When completed, the project should provide 53 market rate units, both one and two bedrooms in a class A, low amenity complex. Overall, the project requires both on and off-site imrpovements to accommodate traffic and utility installation. These improvements will improve the ambiance and function of the greater neighborhood and aligns with existing City plans for pedestrian and vehicle safety improvements as well as core elements of the City's strategic plan.

   Under this Development Program, the City will capture the increased assessed value of taxable real property over the original assessed value of the District and retain the tax revenues generated by the captured assessed value for designated economic development purposes. The calculation of TIF Revenues (as defined below) is more specifically described below in Section VI – Financial Plan. In the Assessor's Certificate attached as Exhibit B hereto, the Assessor has certified the original assessed value of the District.

   By adopting this Development Program, the City is creating a TIF district that will: (1) maintain existing tax revenues; (2) enjoy enhanced future tax revenues generated by new development within the District; and (3) shelter the captured assessed value from impacting the overall State valuation for the City of Auburn, thereby minimizing: (a) potential decreases in the City's State school subsidy and State revenue sharing, and (b) potential increases in the City's county tax assessments and local school district contributions.

   Further, approval of this Development Program and the designation of the District will have a neutral impact on

the existing tax base; only the increased assessed value over the original assessed value within the District will be captured. In addition, at the end of the District and Development Program, the City expects to emerge with a substantial amount of new taxable property value to add to its municipal tax base.

This Development Program is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute"). Subsequent to a City Council vote designating the District and adopting this Development Program, evidenced by Exhibit I hereto, the designation of the District and adoption of this Development Program are effective upon approval by the DECD.

Section 3 - Company/Developer Information

A. Business General Information
[include whenever a company/developer is part of a TIF district proposal (regardless of whether a CEA is offered]:

1. **Business name:** Auburn Town Center Apartments, LLC
2. **Business address:** PO Box 293, Auburn, ME 04212
3. **Business phone number:** 207-518-1155
4. **Business contact person:** Matt Leonard
5. **Business contact person e-mail address:** mattjleonard@gmail.com
6. **Principal place of business:** Maine
7. **Company structure (e.g. corporation, sub-chapter S, etc.):** Limited Liability Corporation
8. **Place of incorporation:** Maine
9. **Name of Officer(s):** Chairman of the Board, and President, Dr. Daniel Steece
10. **Name of principal owner(s) name:** Highgate Development LLC

11. **Address:** 799 Washington St. N., Auburn, ME 04
12. **Brief project description:** 53 new 1- & 2-bedroom apartments
13. **Total amount of project new investment by company/developer: $** $10,000,000
14. **Will there be a credit enhancement agreement with this business?** Yes. If so, complete the rest of this section and Section 4.

B. Disclosure, only in cases where a CEA is offered to the above business:

1. Check the public purpose(s) that will be met by the business using this incentive:

☐ **job creation** ☐ **job retention** ☐ **capital investment**
☐ **training investment** ☒ **tax base improvement** ☒ **public facilities improvement**
☐ **other (list):** Click here to enter text.

2. Check the specific item(s) for which TIF revenues will be used by the business:

☐ **real estate purchase** ☐ **machinery & equipment purchase** ☐ **training costs**
☒ **debt reduction**
☐ **other (list):** Click here to enter text.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 4 - Employment Goals/Data

Company Goals for Job Creation and Job Retention. (**If a developer**, check box ☒, and skip to Section 5)

A. Job Creation Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
B. Job Retention Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
*See Occupational Cluster Descriptions for more information.			

INSTRUCTIONS

A. Job Creation Goals. Please list the number, type and wage level of jobs created as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories listed in the "Occupational Cluster Descriptions." Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.

B. Job Retention Goals. Please list the number, type and wage level of jobs retained as a result of the economic development incentive. Part B should be completed using same definitions in Part A.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 5 - Development Program

Public Project(s)

1. **Will there be any public facilities, improvements, or programs financed in whole or in part by the development program?** Yes. See Exhibit J.

Private Project(s)

2. **Will there be any commercial facilities, arts districts, improvements or projects to be financed in whole or in part by the development program:** Yes. **If yes, provide a brief, clear description:** Developers intend to construct a new 53 unit appartment building.

Program Duration

3. **Duration of development district (may not exceed 30 years):**
   a. **District term: Original application**: 30.
   If an amendment, adding how many years? Choose a number **totaling how many years?** Choose a number.
   b. **Start date of** April 1, 2024 **with fiscal year** beginning July 1, 2024 (captured assessed value as of April 1, 2024).
   [Must begin with tax year in which development district designation is effective pursuant to MRS 30-A §5226, or the subsequent tax year (MRS Title 30-A §5224 (2)(H))]
   c. **End date of** March 31, 2054 **with fiscal year** ending June 30, 2054.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Original Assessed Value

4. **Provide the taxable assessed value of the development district as of the March 31st of the tax year preceding the property tax year in which the district was designated by the legislative body.**

			OAV of Real Property	OAV of Personal Property	As of (complete year)		Total acres
Original district			$0.00	$0.00	3/31/2023		1.330
Amendment: (If applicable, with any property added/removed)	#1	-				-	
		+			3/31/____	+	
	#2	-				-	
		+			3/31/____	+

		+			3/31/____	+	
	#9	-				-	
		+			3/31/____	+	
	#10	-				-	
		+			3/31/____	+	
Total	N/A				N/A		

***Municipal Assessor must certify above original assessed value(s) (Exhibit B).

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 6 - Financial Plan

Increased Assessed Value Information

1. **Total estimated cost for the development program: $** 2,622,506 (Should match "total" from Exhibit J)
2. **Municipality will capture** 100 **of** real property only **increased assessed value for each year of the district term, to apply to the development program.** Click here to enter text, if needed.
3. **If #2 above's captured assessed value is less than 100%, besides the district's original assessed value, what percentage of increased assessed value will be deposited into the General Fund, or if an unorganized territory, to Education and Services fund?** Click here to enter % to be deposited in General Fund/Education & Services fund.

Public Indebtedness

4. **Will there be public indebtedness?** Yes, to be determined.
    a. **If yes, what is the projected amount of public indebtedness to be incurred?** The City will not incur any indebtedness at this time; however, the City may elect to do so at a future date at the descretion of its City Council.
    b. **If an amendment, have any bonds been issued to date pertaining to the approved projects of this district?** Choose an item. **If yes, provide the status, such as years left on bond and amount of outstanding debt.** Click here to enter text.

Anticipated Revenues

5. **Describe sources of anticipated revenues for public projects (clearly and briefly stated):** The source of the revenue to be used to pay the costs of the public projects set forth in this Development Program is the Tax Increment on the increased Assessed Value of the District. Tax increment means all property taxes assessed by the City, in excess of any state, county or special district tax, upon the increased assesed value of all real property in the District. Increased assessed value means the valuation amount by which the current assessed value of the District exceeds the taxable original assessed value of the real property in the District. Current assessed value means the taxable assessed value of the real property in the District certified by the municipal assessor as of April 1st of each year that the District remains in effect. Property taxes means any and all ad valorem propert taxes levied, charged or assessed against real property by the City. Original assessed value means the taxable assessed value of real property in the District as of March 31, 2023 (April 1, 2022). All property tax on the original assessed value shall continue to be deposited into the City's general fund.
6. **Describe sources of anticipated revenues for private projects (clearly and briefly stated):** A portion of the Tax Increment from the District as described above will be used to finance a portion of the construction of the Company's new rental residential development to be located within the District. The percentage of the Tax Increment will be paid to the Company under the terms of a Credit Enhancement Agreement as set forth below.

Credit Enhancement Agreement (CEA)

7. **Describe terms and conditions of any agreements, contracts or other obligations related to the development program (e.g. CEAs). Ensure to clearly state the reimbursement percentage, along with, if applicable, any local triggers/caps.**
    a. **Will CEAs be offered as part of this development program?** Yes.
    b. **List name(s) of company/developer to be offered a CEA:** Auburn Town Center Apartments LLC
        i. **Provide the CEA reimbursement percentage, term, conditions for each listed company/developer:** 50% for up to 25 years not to exceed $1,000,000

c. **Is this an omnibus application?** No.
If an omnibus, provide clear reimbursement percentage(s) and term(s)/condition(s): Click here to enter text.

d. **Does the municipality have a TIF policy?** Yes. Include a copy in Exhibit N.

If this is an amendment, and if applicable, include a copy of all executed CEAs as Exhibit M.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Development Program Fund and Tax Increment Revenues

Read below. Authorized municipal official must initial in provided spaces, acknowledging understanding of the below information:

If a municipality/plantation has designated captured assessed value, the municipality/plantation shall:

A. Establish a development program fund that consists of the following:

1. A project cost account that is pledged to and charged with the payment of project costs that are outlined in the financial plan and are paid in a manner other than as described in subparagraph (2); and

2. In instances of municipal/plantation indebtedness, a development sinking fund account that is pledged to and charged with the payment of the interest and principal as the interest and principal fall due and the necessary charges of paying interest and principal on any notes, bonds or other evidences of indebtedness that were issued to fund or refund the cost of the development program fund;

B. Annually set aside all tax increment revenues on captured assessed values and deposit all such revenues to the appropriate development program fund account established under paragraph A in the following order of priority:

1. To the development sinking fund account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual debt service on bonds and notes issued under section 5231 and the financial plan; and

2. To the project cost account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual project costs to be paid from the account;

C. Make transfers between development program fund accounts established under paragraph A as required, provided that the transfers do not result in a balance in the development sinking fund account that is insufficient to cover the annual obligations of that account; and

D. Annually return to the municipal or plantation general fund any tax increment revenues remaining in the development sinking fund account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development sinking fund account after taking into account any transfers made under paragraph C. The municipality/plantation, at any time during the term of the district, by vote of the municipal or plantation officers, may return to the municipal/plantation general fund any tax increment revenues remaining in the project cost account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development project cost account after taking into account any transfer made under paragraph C. In either case, the corresponding amount of local valuation may not be included as part of the captured assessed value as specified by the municipality or plantation.

X _____
Initial & date

At the end of the district TIF term, all taxable real and/or personal property value captured in the district will be added to the general tax rolls.

X _____
Initial & date

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Relocation of Person(s)/Business(es)

8. No persons will be displaced as a result of the development activities proposed within the District

Transportation Improvements

9. As part if this development, the developer will construct approximately 22 new public parking spaces along Academy Street. Except for these improvements, the existing transportation facilities of the City will be adequate to accommodate the development activities within the District.

Environmental Controls

10. The improvements made under this Development Program will meet or exceed all federal and state environmental regulations and will comply with all applicable land use requirements of the city.

District Operation

11. **After the planned capital improvements are completed, provide a brief statement of the proposed operation of the development district pertaining to:**
    a. **Public capital improvements:** The day-to-day operations of the District will not require substantial efforts by the City, other than staffing and programming primarily conducted by the City Manager's office and the Business and Community Development Office.
    b. **Private capital improvements:** The private improvements contemplated to occur within the District are expected to be funded by the developer, in part through the reimbursement of tax increment revenue pursuant to a credit enhancment agreement. Other than the credit enhancement agreement, the City will not be responsible for the funding or operation of private capital improvements within the District

Section 7 - Notice and Hearing

1. **Date of public notice (must be minimally 10 days before the public hearing):** Click to enter a date.
   For Exhibit G, provide a legible **copy** of the newspaper page showing the public hearing , newspaper name and date of publication.

2. **Date of public hearing:** December 4, 2023
   For Exhibit H, provide a copy of the public hearing minutes, attested to with dated signature.

3. **Date municipal or plantation legislative body approved original district designation:** Click to enter a date.
   Date municipal or plantation legislative body adopted original development program: Click to enter a date.
   If an amendment, is it to the:
   - ☐ **district. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **district and development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.

   For Exhibit I, provide verification of district designation and adoption of development program by municipal legislative body including vote tally.

4. **Is a municipal official authorized to make technical revisions to this District application/development program to facilitate the process for review and approval by DECD, as long as such revisions are not inconsistent with the basic structure and intent of the development program?** Yes. See Exhibit I

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Exhibit A - Statutory Requirements & Thresholds

**round to second decimal place

SECTION A. | Acreage Caps		
1. Total **municipal** acreage	41,430	
2. Acreage of **proposed** Municipal TIF District (if amendment, proposed updated total acreage)	1.33	
3. **Downtown-designation**[1] acres in proposed Municipal TIF district	0	
4. **Transit-Oriented Development**[2] acres in proposed Municipal TIF district	0	
5. **Total acreage [=A2-A3-A4]** of proposed Municipal TIF district counted toward 2% limit	1.33	
6. **Percentage [=A5÷A1]** of total acreage in proposed Municipal TIF district (CANNOT EXCEED 2%)	0.003	
7. **Total acreage** of all existing/proposed Municipal TIF districts in municipality **including** Municipal Affordable Housing Development districts:[3] See attached list.	Existing	667.18
	Proposed	1.33
	Total	668.51

30-A § 5223(3) EXEMPTIONS[4]	
8. Acreage of an existing/proposed **Downtown** Municipal TIF district	247.55
9. Acreage of all existing/proposed **Transit-Oriented Development** Municipal TIF districts:	0
10. Acreage of all existing/proposed **Community Wind Power** Municipal TIF districts:	0
11. Acreage in all existing/proposed Municipal TIF districts **common to**[5] Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such acreage also factored in Exemptions 8-10 above:	0
12. **Total acreage [=A7-A8-A9-A10-A11]** of all existing/proposed Municipal TIF districts counted toward 5% limit	420.96
13. **Percentage of total acreage [=A12÷A1]** of all existing/proposed Municipal TIF districts (CANNOT EXCEED 5%)	1.016%

14. **Real property** in proposed Municipal TIF District that is:	ACRES	% **[=Acres÷A2]**
a. A blighted area		
b. In need of rehabilitation, redevelopment or conservation		
c. Suitable for commercial or arts district uses	1.33	100
TOTAL (except for § 5223 (3) exemptions a., b. OR c. must be at least 25%)		100%

[1] Before final designation, the Commissioner will seek advice from MDOACF and MDOT per 30-A § 5226(2).
[2] For Transit-Oriented Development (TOD) definitions see 30-A § 5222 sub-§§ 19-24.
[3] For AH-TIF acreage requirement see 30-A § 5247(3)(B). Alternatively, Section B must exclude AH-TIF valuation.
[4] Downtown/TOD overlap nets single acreage/valuation caps exemption.
[5] PTDZ districts approved through December 31, 2008.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

						Annual Average=			**$87,416.88**	**$45,215.63**	**$54,083.54**

Assumptions:

The OAV of the District consists of the parcel(s) identified within the Certificate of Assessor (Exhibit B) and a map of the District can be found in Exhibit C-D.

The IAV are estimates only based on the preliminary development plan. Actual IAV figures in each year may vary and as a result the projections are subject to change.

The City intends to capture: 100.0% of both real & personal property within the district.

The Mil Rate is $22.75 and is based on the current rate at time of application. This rate may change each year and as a result projections are subject to change.

The Development Program authorizes the city to enter into a credit enhancement agreement for reimbursement up to 50.0%

The Development Program established a cap of total cumulative reimbursement of no more than $1,000,000.00

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

30	2053	2054	$27,705.75	$6,060.73	$4,097.36	$37,863.84	$52,567.41
		30 Year TIF Totals=	$803,473.72	$175,761.16	$118,823.46	$1,098,051.37	$1,524,454.88
		Annual Average=	$26,782.46	$5,858.71	$3,960.78	$36,601.71	$50,815.16

Assumptions:

The tax shifts resulting from sheltering of valuation from the state school funding formula are based on the state EPS funding model at the most recent MIL rate published. The estimated MIL rate indicated above is applied to a district's state valuation to determine the amount of local property taxes to be raised for education. By sheltering valuation through a TIF, the City avoids having to raise an amount equal to the valuation sheltered. The education rate used to calculate the education tax shift is based on the most recent adjusted mill rate of the Auburn Public School District.

The tax shifts resulting from the sheltering of valuation from the state revenue sharing formula are based on the most recent data available from Maine Revenue Services for the most recent fiscal year as published by the Office of the State Treasurer.

The tax shifts resulting from the sheltering of valuation from the County tax assessment are based on the actual Androscoggin County tax assessments for the most recent five years.

The OAV of the District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

These tax shift estimates are based on a captured assessed value of 100.0% of the estimated IAV.

The projected tax revenue is based on the estimate of increased assessed value multiplied by a MIL rate of $22.75

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

Exhibit G - 10-Day Notice of Public Hearing

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT G: 10-Day Notice of Public Hearing

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on December 4th, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the designation of the proposed new Municipal Tax Increment Financing District #31 the "Academy St Housing" Development District, and the adoption of a Development Program for said new District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed new District will consist of 1.33 acres, which includes two parcels located at the intersection of Academy Street and Main Street, identified on the City's tax maps as Map 230-132 and 231-004. The proposed new District and Development Program will enable the City to capture tax revenues from new assessed value generated by investments made on these properties within the District related to the construction of a new multi-unit housing facility by Auburn Town Center Apartments LLC and use the captured tax revenue for public improvements, programs, and facilities as set forth in the Development Program.

The City proposes to offer the developer of this project a reimbursement of 50% of the property taxes paid by the developer on the new assessed property value in the District resulting from the project over a period of up to 25 years, not to exceed $1,000,000 total. This reimbursement will enable the developer to construct traffic and utility improvements made necessary by the development. In addition, the City proposes to allocate the remainder of the tax increment revenues generated from the commercial development activities within the District to municipal projects such as road improvements, municipal infrastructure, transportation, public safety, and economic development, as well as other costs of public improvements and projects as identified in the Development Program for the District as may be approved and permitted pursuant to Section 5225 of Title 30-A of the Maine Revised Statutes, as amended. The City's use of tax increment revenues may also be used to pay debt service on bonds issued to finance said public projects.

A copy of the proposed Development Program for the new District is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

Exhibit H - Minutes of Public Hearing

Exhibit I - Record of District Designation and Development Plan Adoption

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

ORDER OF THE AUBURN CITY COUNCIL
December 4, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Auburn Town Center Apartments, LLC for the commercial development of certain property within its T4.2 zoning district located at the intersection of Main Street and Academy Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Academy Street Housing Municipal Development and Tax Increment Financing District #31 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #31 (the "Academy Street Housing Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Academy Street Housing Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

Exhibit J - Public Project Costs

EXHIBIT J: Public Project Costs

	Project	Maximum Percentage of CAV	Cost Estimate*	Statutory Citation
1	Administrative & Professional Services Costs: Costs of prorated portion of salaries of City staff for time associated with creation and administration of District, and fund costs of professional services associated with creation and administration of District. Costs related to the administration and facilitation of management and monitoring of this TIF, not to exceed the indicated percentage of the revenue generated from captured assessed value of the development district.[3]	5.0%	$131,125	30-A M.R.S. §5225(1)(A)(4); (1)(A)(5); (1)(A)(7)
2	Economic Development Programs: Costs of the City's economic development programs, including, but not limited to, marketing costs, prorated portions of staff salaries devoted to supporting and administering TIF programming, and other related operating expenses for the City's Economic Development Department. Costs related to the economic development programs, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[2, 3]	5.0%	$131,125	30-A M.R.S. § 5225(1)(C)(1); (1)(C)(3);
3	Road Improvements within our outside the district: Design, construction, engineering, other associated costs of road construction, sidewalk and pedestrian crossing safety improvements on roads located within the District or outside the District but directly related to or made necessary by the District, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	10.0%	$262,251	30-A M.R.S. § 5225(1)(A)(1); (1)(B)(1)
4	Public Safety Facility within the city: Costs related to the construction or operation of a public safety facility in the City, the need for which is related to general economic development within the City, not to exceed 15% of the revenue generated from the captured assessed value of the development district.[1, 3]	15.0%	$393,376	30-A M.R.S. § 5225 (1)(C)(9)

5	Public Infrastructure within or outside the district: Eligible recreational trail-related development district capital costs include but are not limited to new or existing trails, including bridges that are part of the trail corridor, used all or in part for all-terrain vehicles, snowmobiles, hiking, bicycling, cross-country skiing or other related multiple uses, signs, crosswalks, signals and warning systems and other related improvements, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$262,251	30-A M.R.S. §5225(1)(A)(2)
6	Housing Development within the city: Costs associated with the development and operation of housing, including, but not limited to, authorized project costs for improvements as described in section 5249 even if such improvements are not made within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	15.0%	$393,376	30-A M.R.S. § 5225 (1)(A)(9); 30-A M.R.S. § 5249 (1)(A)(5); (1)(A)(7)
7	Capital Costs within the district: Costs of improvements made within the district related to the acquisition or construction of land, structures, fixtures or equipment, or the demolition, alteration, remodeling, repair or reconstruction of buildings, structures and fixtures for public, recreational trail, commercial or transit use including, but not limited to site preparation, finishing work, real property assembly costs and other capital costs or debt service related to such improvements such as licensing, permitting, planning, engineering and architectural and legal expenses, and credit enhancement agreement payments, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	40.0%	$1,049,003	30-A M.R.S. § 5225 (1)(C)(9); (1)(B)(1)
		100.0%	**$2,622,506**	

*****These are estimates only. The City may allocate revenues generated by the district across approved project cost categories as needed.

Similar program costs contained within other current and future TIFs may be combined.

[1] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, and #6.

[2] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, #10, #6.

[3] The use of TIF revenue for this project cost has also been authorized in the City's TIF District #28.

All of the foregoing project cost categories have also been authorized in the City's TIF District #29 and #30 (pending approval).

THIS CREDIT ENHANCEMENT AGREEMENT dated as of _____ __, 2023, between the City of Auburn, Maine (the "City"), a municipal corporation and political subdivision of the State of Maine, and Auburn Town Center Apartments, LLC (the "Developer"), a Maine limited liability company with a principal place of business located at 799 Washington Street, Auburn, ME 04210.

WITNESSETH THAT

WHEREAS, the Developer owns property located on 261 Main Street and 15 Academy Street in Auburn, Maine (the "Property"), and intends to construct a new 53 unit market-rate apartment building on the Property (the "Project"); and

WHEREAS, the City designated the Academy Street Housing Tax Increment Financing Development District #31 (the "District") pursuant to Chapter 206, subchapter 3 of Title 30-A of the Maine Revised Statutes, by vote at a City Council Meeting held on _____ (the "Vote"), and

WHEREAS, the City received the approval of the District and the Development Program by the Maine Department of Economic and Community Development dated _____; and

WHEREAS, the City authorized the execution and delivery of a credit enhancement agreement as described in the Development Program pursuant to an Order of the City Council, adopted on _____; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute the credit enhancement agreement contemplated and described in the Development Program; and

WHEREAS, the estimated cost of off-site improvements required in connection with the development of the Property is estimated to be approximately $10,000,000; and

WHEREAS, the cost to construct the Project and maintain the commercial activity and employment opportunities in the City of Auburn requires financial assistance from the City to ensure completion of the Project; and

WHEREAS, completion of the Project will contribute to the economic growth and well-being of the City, and enable public facilities and improvements to the betterment of the health, welfare and safety of its inhabitants; and

DRAFT

WHEREAS, the City has decided to induce the Developer to undertake the Project through the use of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and in consideration of the mutual promises and covenants set forth herein, the parties hereby agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions.

The terms defined in this Article I shall, for all purposes of this Agreement, have the meanings herein specified, unless the context clearly requires otherwise:

"Act" means chapter 206 of Title 30-A of the Maine Revised Statutes and regulations adopted thereunder, as amended from time to time.

"Agreement" shall mean this Credit Enhancement Agreement between the City and the Developer dated as of the date set forth above, as such may be amended from time to time.

"CEA Year(s)" shall have the meaning given such term in Section 2.3(a) hereof.

"City" shall have the meaning given such term in the first paragraph hereto.

"City Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the City uses as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof.

"City Payments" means for each CEA Year the Developer Percentage of the Increased Assessed Value payable in accordance with the terms of this Agreement.

"Commissioner" means the Commissioner of the Maine Department of Economic and Community Development.

"Current Assessed Value" means the then current assessed value of real property within the District as determined by the City Tax Assessor as of April 1 of each Tax Year during the term of this Agreement.

"Department" means the Maine Department of Economic and Community Development.

"Developer" shall have the meaning given such term in the first paragraph hereto.

"Developer Percentage" means fifty percent (50%) of the Increased Assessed Value in each Tax Year on which Property Tax payments are made by the City to the Developer as City Payments under the terms of this Agreement, subject to the limitations set forth herein.

DRAFT

"Developer Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the Developer as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof

"Developer Property" or "Property" means the total of 1.33 acres that comprises the District, consisting of three parcels identified on the City's tax maps as Map 230, Lot 132 and Map 231, Lot 4.

"Development Program" means the development program and financial plan for the District adopted by the City, as amended.

"Development Program Fund" means the Academy Street Housing Municipal Development and Tax Increment Financing Development Program Fund described in the Financial Plan section of the Development Program and established and maintained pursuant to Article II hereof and 30-A M.R.S.A § 5227(3)(A).

"District" shall have the meaning given such term in the first recital hereto, which is more specifically comprised of approximately 1.33 acres of real property and identified in Exhibits B, C and D to the Development Program and any future improvements to such real property.

"Financial Plan" means the financial plan described in the "Financial Plan" Section of the Development Program.

"Fiscal Year" means July 1 to June 30 each year or such other fiscal year as the City may from time to time establish.

"Increased Assessed Value" means, for each CEA Year, the amount by which the Current Assessed Value for such year exceeds the Original Assessed Value. If the Current Assessed Value is less than or equal to the Original Assessed Value in any given Tax Year, there is no Increased Assessed Value in the corresponding CEA Year.

"Incremental Property Tax Payments" means all real property tax payments related to the Increased Assessed Value, inclusive of interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Original Assessed Value" means $0, the taxable assessed value of the real property within the District as of March 31, 2023 (April 1, 2022).

"Project Cost Account" means that portion of the Development Program Fund for the District as defined in the Financial Plan Section of the Development Program and established and maintained according to Title 30-A M.R.S.A. § 5227(3)(A)(1) and Article II hereof.

"Property Tax" means any and all *ad valorem* property taxes levied, charged or assessed against real property located in the District by the City, or on its behalf.

"State" means the State of Maine.

DRAFT

"Tax Increment Revenues" means that portion of all real property taxes assessed and paid within the District to the City in any Tax Year, excluding any state, or special district tax, including any scheduled payments thereof, interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Tax Payment Date" means the date(s) on which property taxes levied by the City are due and payable from the owners of property located within the City.

"Tax Year" shall have the meaning given such term in 30-A M.R.S.A. §5222(18), as amended, to wit: April 1 to March 31. Each Tax Year corresponds to a particular Fiscal Year. Each CEA Year occurs during a Fiscal Year.

Section 1.2. Interpretation and Construction.

In this Agreement, unless the context otherwise requires:

(a) The terms "hereby," "hereof," "hereto," "herein," "hereunder" and any similar terms, as used in this Agreement, refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of delivery of this Agreement.

(b) Words importing a particular gender mean and include correlative words of every other gender and words importing the singular number mean and include the plural number and vice versa.

(c) Words importing persons mean and include firms, associations, partnerships (including limited partnerships), trusts, corporations and other legal entities, including public or governmental bodies, as well as any natural persons.

(d) Any headings preceding the texts of the several Articles and Sections of this Agreement, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience of reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

(e) All approvals, consents and acceptances required to be given or made by any signatory hereto shall not be withheld unreasonably.

(f) All notices to be given hereunder shall be given in writing and, unless a certain number of days is specified, within a reasonable time.

(g) If any clause, provision or Section of this Agreement shall be ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or Section shall not affect any of the remaining provisions hereof.

ARTICLE II
DEVELOPMENT PROGRAM FUND AND FUNDING REQUIREMENTS

DRAFT

Section 2.1. Creation of Development Program Fund.

The City shall create and establish a segregated fund in the name of the City designated as "The Academy Street Housing Municipal Development and Tax Increment Financing District Fund" (hereinafter the "Development Program Fund") pursuant to, and in accordance with the terms and conditions of, the Development Program and 30-A M.R.S.A. § 5227(3). The Development Program Fund shall consist of the Project Cost Account that is pledged to and charged with the payment of project costs as outlined in the Financial Plan of the Development Program and as provided in 30-A M.R.S.A. § 5227(3)(A)(1). The Development Program Fund is pledged to and charged with the payment of costs in the manner and priority provided in 30-A M.R.S.A. § 5227(3)(B). The Project Cost Account shall also contain two subaccounts designated as the "Developer Project Cost Subaccount" and the "City Project Cost Subaccount."

Section 2.2. Liens.

The City shall not create any liens, encumbrances or other interests of any nature whatsoever, nor shall it hypothecate the Developer Project Cost Subaccount described in Section 2.1 hereof or any funds therein, other than the interest in favor of the Developer and/or the Trustee hereunder in and to the amounts on deposit.

Section 2.3. Retention of Increment; Deposits into Development Program Fund.

(a) Commencing with the Tax Year beginning April 1, 2024, and for a period not to exceed twenty-five (25) years, ending March 31, 2049 (each a "CEA Year" and collectively the "CEA Years" herein), the City shall retain at least the Developer Percentage of the Increased Assessed Value within the District for the benefit of the Developer as set forth herein.

(b) For each of the CEA Years, the City shall deposit into the Developer Project Cost Subaccount an amount equal to the Developer Percentage of each Incremental Property Tax Payment paid on Increased Assessed Value, up to a cumulative amount of $1,000,000. Such deposits shall be made by the City within 10 business days after the Property Tax due date at the time in effect; currently due semi-annually on each September 15 and March 15. In the event any such payment allocable to the Developer Percentage of Incremental Property Tax Payments is not timely paid to the City, the City shall deposit such payment (plus any allocable interest) within 10 business days of receipt of such payment.

(c) Notwithstanding anything to the contrary contained herein, all allocations to the Developer Project Cost Subaccount and payments to the Trustee for deposit therein shall cease at the conclusion of the term of this Agreement identified in Section 2.3(a) hereof subject to extension as identified in Section 6.1(a) hereof.

Section 2.4. Use of Monies in Development Program Fund.

All monies in the Development Program Fund that are allocable to and/or deposited in the Developer Project Cost Subaccount shall in all cases be used and applied to fund fully the City's

DRAFT

payment obligations to Developer described in Articles II and III hereof. All monies required to be deposited in the Developer Project Cost Subaccount shall be used by the Developer for construction of the Project.

Section 2.5. Monies Held in Trust.

Except as otherwise provided in this Agreement, all monies required to be deposited with or paid into the Developer's Project Cost Sub-Account of the Development Program Fund are to fund payments to the Developer under the provisions hereof and the provisions of the Development Program for the benefit of the Developer in accordance with the provisions of this Agreement.

Section 2.6. Investments.

Monies in the Developer's Project Cost Sub-Account may be invested and reinvested in Qualified Investments as determined by the City. The City shall have discretion regarding the investment of such monies, provided such monies are invested in Qualified Investments. As and when any amounts so invested are needed for disbursements, the City shall cause a sufficient amount of such investments to be sold or otherwise converted into cash to the credit of such account. The City shall have the sole and exclusive right to designate the investments to be sold and to direct the sale or conversion to cash of investments made with monies in the Developer's Project Cost Sub-Account of the Development Program Fund.

Section 2.7. Reporting Obligations.

Developer covenants and agrees to provide the City promptly upon request with all documentation reasonably required by the City to confirm the costs and completion of the projects set forth in Section 2.4.

ARTICLE III
PAYMENT OBLIGATIONS

Section 3.1. Company Payments.

(a) The City agrees to pay Developer all amounts then on deposit in the Company Project Cost Subaccount, on or before thirty (30) days following the Tax Payment Date.

(b) Notwithstanding anything to the contrary contained herein, if, with respect to any Tax Payment Date, any portion of the property taxes assessed against real property located in the District remain unpaid, because of a valuation dispute or otherwise, the City shall be under no obligation to pay Developer's share of the disputed portion of the Tax Increment Revenues to Developer. In such a circumstance, the property taxes actually paid with respect to such Tax Payment Date shall be applied to taxes due on account of Original Assessed Value and, next to Sinking Fund Account as applicable, to the taxes due on account of the allocation of TIF Revenues for the City Project Cost Subaccount, and next to the taxes due in account of the allocation of TIF revenues for the Company Project Cost Subaccount.

Section 3.2. Failure to Make Payment.

DRAFT

(a) In the event the City should fail to, or be unable to, make any of the payments at the time and in the amount required under the foregoing provisions of this Article III including in the event that the amount deposited into Development Program Fund is insufficient to reimburse Developer for the full amount due to Developer under this Agreement the City shall be in breach of the terms hereof, and the amount or installment so unpaid shall continue as a limited obligation of the City, under the terms and conditions hereinafter set forth, until the amount unpaid shall have been fully paid. The Developer shall have the right to initiate and maintain an action to specifically enforce the City's obligations hereunder, subject to the limitations of Section 3.3 below.

Section 3.3. Limited Obligation.

The City's obligations of payment hereunder shall be limited obligations of the City payable solely from Tax Increment Revenues pledged therefor under this Agreement. The City's obligations hereunder shall not constitute a general debt or a general obligation or charge against or pledge of the faith and credit or taxing power of the City, the State of Maine, or of any municipality or political subdivision thereof, but shall be payable solely from that portion of Tax Increment Revenues payable to Developer hereunder, whether or not actually deposited into Company Project Cost Subaccount in the Development Program Fund. This Agreement shall not directly, indirectly or contingently obligate the City, the State of Maine, or any other City or political subdivision to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment, excepting the pledge of the Tax Increment Revenues established under this Agreement.

ARTICLE IV
FURTHER INSTRUMENTS AND BOOKS AND RECORDS

Section 4.1. Further Instruments and City Costs.

The City shall, upon the reasonable request of Developer, from time to time execute and deliver such further instruments and take such further action as may be reasonable and as may be required to carry out the provisions of this Agreement; provided, however, that no such instruments or actions shall pledge the credit of the City; and provided further that the cost of executing and delivering such further instruments (including the reasonable and related costs of counsel to the City with respect thereto) shall be borne exclusively by Developer.

Section 4.2. Access to Books and Records.

(a) All non-confidential books, records and documents in the possession of the City relating to the District, the Development Program, this Agreement and the monies, revenues and receipts on deposit or required to be deposited into Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by Developer, its agents and employees.

(b) All non-confidential books, records, lease agreements and documents in the possession of Developer relating to the District, the Development Program, this Agreement and the monies, revenues and receipts used from the Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by City, its agents and employees.

ARTICLE V
DEFAULTS AND REMEDIES

Section 5.1. Events of Default.

Each of the following events shall constitute and be referred to in this Agreement as an "Event of Default":

(a) Any failure by the City to pay any amounts due to Developer when the same shall become due and payable;

(b) Any failure by the City to make deposits into Development Program Fund, including the Company Project Cost Subaccount, as and when due;

(c) Any failure by the City or Developer to observe and perform in all material respects any covenant, condition, agreement or provision contained herein on the part of the City or Developer to be observed or performed, which failure is not cured within thirty (30) days following written notice thereof;

(d) If a decree or order of a court or agency or supervisory authority having jurisdiction in the premises of the appointment of a conservator or receiver or liquidator of, any insolvency, readjustment of debt, marshaling of assets and liabilities or similar proceedings, or for the winding up or liquidation of the Developer's affairs shall have been entered against the Developer or the Developer shall have consented to the appointment of a conservator or receiver or liquidator in any such proceedings of or relating to the Developer or of or relating to all or substantially all of its property, including without limitation the filing of a voluntary petition in bankruptcy by the Developer or the failure by the Developer to have an involuntary petition in bankruptcy dismissed within a period of ninety (90) consecutive days following its filing or in the event an order for release has been entered under the Bankruptcy Code with respect to the Developer;

(e) If any secured lender of Developer accelerates the indebtedness owed to it;

(f) If any written representation or warranty given to the City by Developer is knowingly incorrect or incomplete in any material respect, other than statements made about or in agreements with the City that were later changed by mutual consent; and

(g) If Developer fails to maintain adequate surety bonding during construction at the levels and terms as may be required from time to time by the Developer's secured lenders and/or

Developer allows mechanics' liens to encumber the Project for a period of more than sixty (60) days.

Section 5.2. Remedies on Default.

Subject to the provisions contained in Section 8.9, whenever any Event of Default described in Section 5.1 hereof shall have occurred and be continuing, the nondefaulting party, following the expiration of any applicable cure period, shall have all rights and remedies available to it at law or in equity, including the rights and remedies available to a secured party under the laws of the State of Maine, and may take whatever action as may be necessary or desirable to collect the amount then due and thereafter to become due, to specifically enforce the performance or observance of any obligations, agreements or covenants of the nondefaulting party under this Agreement and any documents, instruments and agreements contemplated hereby or to enforce any rights or remedies available hereunder.

Section 5.3. Remedies Cumulative.

Subject to the provisions of Section 8.9 below concerning dispute resolution, no remedy herein conferred upon or reserved to any party is intended to be exclusive of any other available remedy or remedies but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity or by statute. Delay or omission to exercise any right or power accruing upon any Events of Default to insist upon the strict performance of any of the covenants and agreements herein set forth or to exercise any rights or remedies upon the occurrence of an Event of Default shall not impair any such right or power or be considered or taken as a waiver or relinquishment for the future of the right to insist upon and to enforce, from time to time and as often as may be deemed expedient, by injunction or other appropriate legal or equitable remedy, strict compliance by the parties hereto with all of the covenants and conditions hereof, or of the rights to exercise any such rights or remedies, if such Events of Default be continued or repeated.

ARTICLE VI
EFFECTIVE DATE, TERM AND TERMINATION

Section 6.1. Effective Date and Term.

This Agreement shall become effective upon its execution and delivery by the parties hereto and shall remain in full force from the date hereof and shall expire upon the performance of all obligations on the part of the City and the Developer hereunder or upon any earlier termination as provided in this Agreement.

Upon receipt of such approval, this Agreement shall remain in full force from April 1, 2024 and shall expire March 31, 2036 or sooner upon the payment of all amounts due to Developer hereunder and the performance of all obligations on the part of the City hereunder, unless even sooner terminated pursuant to any other applicable provision of this Agreement.

Section 6.2. Cancellation and Expiration of Term.

At the acceleration, termination or other expiration of this Agreement in accordance with the provisions of this Agreement, the City and Developer shall each execute and deliver such documents and take or cause to be taken such actions as may be necessary to evidence the termination of this Agreement.

ARTICLE VII
ASSIGNMENT AND PLEDGE OF DEVELOPER'S INTEREST

Section 7.1. Pledge and/or Assignment.

The City hereby acknowledges that Developer may pledge, assign and grant a security interest in its right, title and interest in, to and under this Agreement as collateral for financing by a bank or financial institution to Developer for the Project, although no obligation is hereby imposed on Developer to make such assignment or pledge. Recognizing this possibility, the City does hereby consent and agree to the pledge and assignment of and the grant of a security interest in all Developer's right, title and interest in, to and under this Agreement and in, and to the payments to be made to Developer hereunder, to third parties as collateral or security for indebtedness or otherwise, on one or more occasions during the term hereof. The City agrees upon request to execute and deliver any assignments, pledge agreements, consents or other confirmations required by the prospective pledgee or assignee or secured party, including without limitation recognition of the pledgee or assignee or secured party as the holder of all right, title and interest herein and as the payee of amounts due and payable hereunder and any and all such other documentation as shall confirm to such pledgee or assignee or secured party the position of such assignee or pledgee or secured party and the irrevocable and binding nature of this Agreement, and provide to the pledgee or assignee such rights and/or remedies as the parties may reasonably deem necessary for establishment, perfection and protection of its interest herein. Developer shall be responsible for the City's necessary and reasonable costs of counsel with respect to any such pledge or assignment.

Section 7.2. Transfer

Except as specified in Sections 7.1 and 8.1 hereof, Developer shall not transfer or assign any portion of its rights in, to and under this Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed.

ARTICLE VIII
MISCELLANEOUS

Section 8.1. Successors.

In the event of the dissolution, merger or consolidation of the City or Developer, the covenants, stipulations, promises and agreements set forth herein, by or on behalf of or for the benefit of such party shall bind or inure to the benefit of the successors and assigns thereof from

DRAFT

time to time and any entity, officer, board, commission, agency or instrumentality to whom or to which any power or duty of such party shall be transferred.

Section 8.2. Parties-in-Interest.

Except as herein otherwise specifically provided, nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City and Developer any right, remedy or claim under or by reason of this Agreement, it being intended that this Agreement shall be for the sole and exclusive benefit of the City and Developer.

Section 8.3. Severability.

In case any one or more of the provisions of this Agreement shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of this Agreement and this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 8.4. No Personal Liability.

(a) No covenant, stipulation, obligation or agreement of the City contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future elected or appointed official, officer, agent, servant or employee of the City in his or her individual capacity, and neither the City Council nor any official, officer, employee or agent of the City shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

(b) No covenant, stipulation, obligation or agreement of the Developer contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future officer, agent, servant or employee of the Developer in his or her individual capacity, and no officer, employee or agent of the Developer shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

Section 8.5. Counterparts.

This Agreement may be executed in any number of counterparts, each of which, when so executed and delivered, shall be an original, but such counterparts shall together constitute but one and the same Agreement.

Section 8.6. Governing Law.

The laws of the State of Maine shall govern the construction and enforcement of this Agreement.

Section 8.7. Amendments.

DRAFT

This Agreement may be amended only with the concurring written consent of both of the parties hereto.

Section 8.8. Integration.

This Agreement completely and fully supersedes all other prior or contemporaneous understandings or agreements, both written and oral, between the City and Developer relating to the specific subject matter of this Agreement and the transactions contemplated hereby.

Section 8.9. Dispute Resolution.

In the event of a dispute regarding this Agreement or the transactions contemplated by it, the parties hereto will use all reasonable efforts to resolve the dispute on an amicable basis. If the dispute is not resolved on that basis within sixty (60) days after one party first brings the dispute to the attention of the other party, then either party may refer the dispute for resolution by one arbitrator mutually agreed to by the parties, and judgment on the award rendered by the arbitrator may be entered in any Maine state court having jurisdiction. Any such arbitration will take place in Auburn, Maine or such other location as mutually agreed by the parties. The parties acknowledge that arbitration shall be the sole mechanism for dispute resolution under this Agreement. Provided however, that in the event the parties are unable to agree, within a reasonable period, on the selection of an arbitrator, either party may file suit to resolve the dispute in any court having jurisdiction within the State of Maine. This arbitration clause shall not bar the City's assessment or collection of property taxes in accordance with law, including by judicial proceedings, including tax lien thereof.

Section 8.10. Records.

The City shall maintain a record demonstrating its calculation of the Increased Assessed Value and Tax Increment Revenues within the District as it relates to deposits to the Development Program Fund pursuant to Article II and payments to the Developer under Article III of this Agreement, and shall provide Developer with a copy of the same upon request.

Section 8.11. Notices.

All notices, certificates, requests, requisitions or other communications by the City or Developer pursuant to this Agreement shall be in writing and shall be sufficiently given and shall be deemed given when mailed by first class mail, postage prepaid, addressed as follows:

If to the City:

Phillip Crowell
City Manager

Exhibit N - Municipality TIF Policy

CITY OF AUBURN
TAX INCREMENT FINANCING
&
CREDIT ENHANCEMENT
POLICY
AND
GUIDELINES

The following are the City of Auburn Tax Increment Financing (TIF) Policy and Credit Enhancement Agreement Application Guidelines.

I. Purpose and Introduction

TIF allows municipalities to "shelter" new value resulting from private investment from the calculation of its State subsidies (education and revenue sharing) and County taxes. A municipality's total equalized assessed value is used to calculate General Purpose Aid to Education (subsidy), State Revenue Sharing (subsidy), and County taxes (expense). When a municipality's equalized assessed value increases, State Aid for Education decreases, municipal revenue sharing decreases, and the municipality pays a greater portion of County taxes. Specific municipal shelter benefits for the term of the TIF include: No reduction in State aid for education, no decrease in municipal revenue sharing, and no increase in County taxes (assuming 100% capture).

A Tax Increment Financing District is a tool available to the City of Auburn to promote economic development. TIF enables the City to revitalize and redevelop designated areas and build community and economic growth through public-private partnerships. The TIF District allows the City to capture some or all of the incremental real and/or personal property tax revenues derived from new development or expansion of an existing development and provides a means of financing the economic and community development goals of Auburn as set forth in the Development Program of the District adopted by the City Council and as authorized by state law. The captured tax revenues from a TIF District can be used to finance municipal investments and City infrastructure projects; and can also be used to provide incentive or financing to a private development in the form of an associated Credit Enhancement Agreement (CEA), as authorized by the Development Program of the District and state law.

These guidelines are to provide guidance and outline standards for the development of TIF's and CEA's in the City when utilizing TIF Districts and TIF revenue for the City's development and redevelopment efforts. Notwithstanding compliance with any or all of these guidelines, the creation of a TIF District or authorization of a Credit Enhancement Agreement is a policy decision of the City of Auburn to be evaluated by the City on a case-by-case basis. Adopting this policy or any TIF District does not create a right or entitlement to assistance by any applicant.

II. Eligibility for Assistance

Economic development projects may be eligible for Tax Increment Financing assistance from the City when they meet the following standards:

- Would not occur without City assistance.
- Create or retain employment opportunities.
- Significantly expand the City's tax base by a minimum of $1,000,000.
- Diversify the economy and tax base of the City
- Conform to the quality and types of development the City seeks as outlined in the Comprehensive Plan, Strategic Plan, Downtown Revitalization Plan, Economic Development Action Plan, and Zoning Ordinances.
- Demonstrate a public benefit, such as expanding public infrastructure to service areas beyond the project or creating job opportunities or affordable housing.
- Public benefits from development must outweigh any possible adverse impacts on existing businesses or residents of the City.

The City provides TIF assistance through a Credit Enhancement Agreement that provides developers with reimbursement of a percentage of the property tax revenue paid on the increased assessed value (or incremental value) of their property. Tax revenue on the incremental value returned to the developers under a Credit Enhancement Agreement will not exceed an average of 75% of the incremental taxes over the life of the particular tax increment financing district or the Credit Enhancement Agreement. Further, the City Council may establish a cap on the total incremental taxes to be reimbursed to a developer under a CEA on an annual and/or cumulative basis. The applicant is required to submit all documentation required by the City in consideration of a Credit Enhancement Agreement. A Public Hearing shall be held to receive public comment on a completed CEA application at least ten days prior to a meeting at which the CEA is being considered for approval by the City Council.

Ill. Application Process

The City has established an Application for Tax Increment Financing & Credit Enhancement Agreement. Applications (whether initiated by the City or requested by a developer or business) will be reviewed by the Business and Community Development Department Staff and considered by the City Manager. Applications for a new TIF District or an amendment to an existing TIF District are subject to final approval by the City Council and the Maine Department of Economic and Community Development (DECD). The specific terms of TIF assistance through a CEA will be negotiated between the City and the applicant on a case-by-case basis. The City Manager or the City Manager's designee will negotiate for the City, and all recommendations for TIF assistance shall be based on the merits of the project and compliance with these guidelines. Based on City Council direction and approval, Business and Community Development staff will coordinate all activities regarding applications and will prepare materials as needed. The Director of Business and Community Development will assist the developer through the process. They will monitor ongoing investments in the development project if TIF assistance is granted.

All applicants for TIF assistance must pay a $500 non-refundable application fee at the time of submission. All applicants are required to reimburse the City of Auburn for all legal and administrative costs incurred as a result of the TIF proposal, including the cost of preparing all materials necessary to establish a new TIF District, amend an existing TIF District and draft the Credit Enhancement Agreement. If a Credit Enhancement Agreement is approved, an annual fee equal to 2% of the incremental tax reallocated back to the project will be assessed.

IV. Waiver of Provisions

The City of Auburn reserves the right under certain conditions to waive the provisions of the policy. The decision to do so shall be made by applying the following guidelines to ensure that the project remains within the general parameters of the Auburn Comprehensive Plan and community development vision(s). Criteria to be considered with granting a waiver are:

- Consistency with the Auburn Comprehensive Plan
- Consistency with the Downtown Revitalization Plan
- Consistency with the City's Economic Development Plan
- Consistency with the Development Plan of the TIF District
- Consistency with other local, State, and Federal laws/rules
- Evidence of need, and
- Capacity to carry out the project

V. Mandatory Guidelines

In all instances, applicants for tax increment financing and Credit Enhancement Agreements must demonstrate that the City's participation is economically needed to undertake the project. Such justification is demonstrated by:

- Need to offset infrastructure costs unique to the site
- Need to offset economic advantages available if it should develop a project or expand operations outside of Auburn
- Lack of sufficient funding sources to meet the entire capital investments needed to undertake the project
- The project creates significant new tax value throughout the Downtown District and other areas the City Council deems necessary
- The developer is financially capable of undertaking the project
- The developer is compliant with all statutory and regulatory guidelines of the City of Auburn and the State of Maine

VI. Guidelines that Determine the Level of Municipal Participation

Although the applicants' project need not meet each of the following criteria, the following will be used to determine the City of Auburn's participation level.

- Assists an established business in Auburn, retaining existing employment opportunities
- Creates long-term permanent and quality employment opportunities
- Contributes to the revitalization of the Downtown District or other areas in need of development or redevelopment
- Improves a blighted building site in need of rehabilitation
- Creates public infrastructure facilities that have applications beyond the particular development, road improvements, parking, sidewalks, green space, etc.
- Supports or will support community projects, job training, internships, and programs that assist the under-employed and supports local contractors and suppliers.

VII. Transfer of Ownership

If the applicant transfers ownership of property in the TIF District subject to a CEA to which the applicant is a party, the applicant must notify the City Manager in writing prior to finalizing the transfer. The prospective new owner must agree, in writing, to accept the provisions of the agreement as presented to and approved by the City Council before the City will release any further TIF reimbursements under the CEA. Failure to provide notice of a transfer of ownership by the applicant or for the prospective new owner to accept the terms of the CEA before the transfer shall render the CEA invalid, and no further payments under it shall be authorized.

VIII. Annual Expenditure of TIF Revenues for Municipal Projects

Each year the Director of Business and Community Development will review all proposed TIF Revenue expenditures as part of the City Budget process to ensure compliance with the existing TIFs.

Annual allocations of TIF revenues to fund existing Credit Enhancement Agreement commitments will be factored into the annual review of the use of the available TIF revenues and estimates of proposed Credit Enhancement Agreements will be calculated by the City Assessor and City Treasurer and provided to the City Manager for review and consideration.

ORDER 163-12042023

City Council Order

IN CITY COUNCIL

December 4, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Auburn Town Center Apartments, LLC for the commercial development of certain property within its T4.2 zoning district located at the intersection of Main Street and Academy Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Academy Street Housing Municipal Development and Tax Increment Financing District #31 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the

City Council Order

economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #31 (the "Academy Street Housing Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Academy Street Housing Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District,

City Council Order

or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order:** 164-12042023

Author: Glen E. Holmes, Director of Business & Community

Development **Subject**: TIF #32 – Mount Auburn Housing. Public Hearing.

Information:
The Mount Auburn Housing Tax Increment Financing District & Development Program (#32) will capture the value of two new multi-unit buildings totaling 101 residential apartments. The site will connect to existing City utilities, which will require improvements to roads, sidewalks and available utilities on or adjacent to the District.

City Budgetary Impacts:
The City intends to establish a new Tax Increment Financing District for the purpose of capturing tax revenues from new assessed value generated by investments made on these parcels. The captured revenue will be spent in a manner which limits impacts on the city budget for planned infrastructure improvements and services as outlined within the Project Cost budget included.

Staff Recommended Action:
Approval of Order as presented.

Previous Meetings and History:
n/a

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

TIF#32 Application

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

The legislature finds a need for new development in areas of municipalities and plantations to: (A) Provide new employment opportunities; (B) Improve and broaden the tax base; and (C) Improve the general economy of the State. The municipal tax increment financing (TIF) program, established under 30-A M.R.S.A. Chapter 206 §5221-5235, is designed to assist municipalities and plantations to develop a program for improving a district of the municipality or plantation: (A) To provide impetus for industrial, commercial, transit-oriented or arts district development, or any combination; (B) To increase employment opportunities; and (C) To provide the facilities outlined in the development program adopted by the legislative body of the municipality or plantation. The TIF Statute provides that before final designation of a tax increment financing district, the Department of Economic and Community Development (DECD) commissioner shall review the proposed district and development program to ensure compliance with statutory requirements.

Before designating a development district within the boundaries of a municipality or plantation, or adopting a development program for a designated development district, the municipal or plantation legislative body or the municipal or plantation legislative body's designee must:

a) Hold at least one public hearing,
b) Publish notice of the hearing at least 10 days before the date of the hearing in a newspaper of general circulation within the municipality or plantation,
c) At the hearing, the legislative body of a municipality or plantation must consider:
    i. Whether the proposed district or development program will contribute to the economic growth or well-being of the municipality or plantation or to the betterment of the health, welfare or safety of the municipal or plantation inhabitants,
    ii. Any claim by an interested party that the proposed district or development program will result in a substantial detriment to that party's existing business in the municipality or plantation and produces substantial evident to that effect.

Mail completed application, with tabs separating exhibits, to:

DECD/Office of Business Development (MTIF)

111 Sewall Street

Augusta, ME 04330

(e-mailed applications are <u>not</u> accepted)

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 2 - Purpose/Basis Original/Amended Application

1. **Provide a brief, "headline" sentence explaining purpose/basis of this application.**
   Mount Auburn Housing District will soon realize the construction of 2 milti-unit buildings totaling 101 apartments.

2. **If needed, provide additional information related to the purpose/basis of this application. If this is an amendment, provide a brief, concise overview of the purpose of the original application and each amendment submitted to date.**
   This project will deliver 101 new residential units split between 2 new buildings. The site will connect to existing City utilities, which will require improvements to roads, sidewalks and available utilities on or adjacent to the District.
   Under this Development Program, the City will capture the increased assessed value of taxable real property over the original assessed value of the District and retain the tax revenues generated by the captured assessed value for designated economic development purposes. The calculation of TIF Revenues (as defined below) is more specifically described below in Section VI – Financial Plan. In the Assessor's Certificate attached as Exhibit B hereto, the Assessor has certified the original assessed value of the District.
   By adopting this Development Program, the City is creating a TIF district that will: (1) maintain existing tax revenues; (2) enjoy enhanced future tax revenues generated by new development within the District; and (3) shelter the captured assessed value from impacting the overall State valuation for the City of Auburn, thereby minimizing: (a) potential decreases in the City's State school subsidy and State revenue sharing, and (b) potential increases in the City's county tax assessments and local school district contributions.
   Further, approval of this Development Program and the designation of the District will have a neutral impact on the existing tax base; only the increased assessed value over the original assessed value within the District will be captured. In addition, at the end of the District and Development Program, the City expects to emerge with a substantial amount of new taxable property value to add to its municipal tax base.
   This Development Program is structured and proposed pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "TIF Statute"). Subsequent to a City Council vote designating the District and adopting this Development Program, evidenced by Exhibit I hereto, the designation of the District and adoption of this Development Program are effective upon approval by the DECD.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 3 - Company/Developer Information

A. Business General Information
[include whenever a company/developer is part of a TIF district proposal (regardless of whether a CEA is offered]:

1. **Business name:** A.R. Building Company Inc.
2. **Business address:** 12 High St Riverwalk Unit #1 Westerly, RI 02891
3. **Business phone number:** Click here to enter text.
4. **Business contact person:** Emily Mitchell
5. **Business contact person e-mail address:** Click here to enter text.
6. **Principal place of business:** 12 High St Riverwalk Unit #1 Westerly, RI 02891
7. **Company structure (e.g. corporation, sub-chapter S, etc.):** Click here to enter text.
8. **Place of incorporation:** Rhodes Island
9. **Name of Officer(s):** Click here to enter text.
10. **Name of principal owner(s) name:**

11. **Address:** Click here to enter text.
12. **Brief project description:** Click here to enter text.
13. **Total amount of project new investment by company/developer: $** $
14. **Will there be a credit enhancement agreement with this business?** No, none contemplated at this time. Formal amendment would be needed.

B. Disclosure, only in cases where a CEA is offered to the above business:

1. Check the public purpose(s) that will be met by the business using this incentive:

☐ **job creation** ☐ **job retention** ☐ **capital investment**
☐ **training investment** ☐ **tax base improvement** ☐ **public facilities improvement**
☐ **other (list):** Click here to enter text.

2. Check the specific item(s) for which TIF revenues will be used by the business:

☐ **real estate purchase** ☐ **machinery & equipment purchase** ☐ **training costs**
☐ **debt reduction**
☐ **other (list):** Click here to enter text.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 4 - Employment Goals/Data

Company Goals for Job Creation and Job Retention. (**If a developer**, check box ☒, and skip to Section 5)

A. Job Creation Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
B. Job Retention Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical			
2. Administrative/Clerical Support			
3. Sales & Service			
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation			
Total			Leave blank
*See Occupational Cluster Descriptions for more information.			

INSTRUCTIONS

A. Job Creation Goals. Please list the number, type and wage level of jobs created as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories listed in the "Occupational Cluster Descriptions." Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.

B. Job Retention Goals. Please list the number, type and wage level of jobs retained as a result of the economic development incentive. Part B should be completed using same definitions in Part A.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 5 - Development Program

Public Project(s)

1. **Will there be any public facilities, improvements, or programs financed in whole or in part by the development program?** Yes. See Exhibit J.

Private Project(s)

2. **Will there be any commercial facilities, arts districts, improvements or projects to be financed in whole or in part by the development program:** Yes. **If yes, provide a brief, clear description:** Developers intend to construct a new residential housing.

Program Duration

3. **Duration of development district (may not exceed 30 years):**
   a. **District term: Original application**: 30.
   If an amendment, adding how many years? Choose a number **totaling how many years?** Choose a number.
   b. **Start date of** April 1, 2024 **with fiscal year** beginning July 1, 2024 (captured assessed value as of April 1, 2024).
   [Must begin with tax year in which development district designation is effective pursuant to MRS 30-A §5226, or the subsequent tax year (MRS Title 30-A §5224 (2)(H))]
   c. **End date of** March 31, 2054 **with fiscal year** ending June 30, 2054.

Original Assessed Value

4. **Provide the taxable assessed value of the development district as of the March 31st of the tax year preceding the property tax year in which the district was designated by the legislative body.**

			OAV of Real Property	OAV of Personal Property	As of (complete year)		Total acres
Original district			$1,439,400.00	$0.00	3/31/2023		29.120
Amendment: (If applicable, with any property added/removed)	#1	-				-	
		+			3/31/____	+	
	#2	-				-	
		+			3/31/____	+	
	#3	-				-

		+			3/31/____	+	
	#9	-				-	
		+			3/31/____	+	
	#10	-				-	
		+			3/31/____	+	
Total	N/A				N/A		

***Municipal Assessor must certify above original assessed value(s) (Exhibit B).

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 6 - Financial Plan

Increased Assessed Value Information

1. **Total estimated cost for the development program: $** 4,948,125.00 (Should match "total" from Exhibit J)
2. **Municipality will capture** 100 **of** real property only **increased assessed value for each year of the district term, to apply to the development program.** Click here to enter text, if needed.
3. **If #2 above's captured assessed value is less than 100%, besides the district's original assessed value, what percentage of increased assessed value will be deposited into the General Fund, or if an unorganized territory, to Education and Services fund?** Click here to enter % to be deposited in General Fund/Education & Services fund.

Public Indebtedness

4. **Will there be public indebtedness?** Yes, to be determined.
    a. **If yes, what is the projected amount of public indebtedness to be incurred?** The City will not incur any indebtedness at this time; however, the City may elect to do so at a future date at the descretion of its City Council.
    b. **If an amendment, have any bonds been issued to date pertaining to the approved projects of this district?** Choose an item. **If yes, provide the status, such as years left on bond and amount of outstanding debt.** Click here to enter text.

Anticipated Revenues

5. **Describe sources of anticipated revenues for public projects (clearly and briefly stated):** The source of the revenue to be used to pay the costs of the public projects set forth in this Development Program is the Tax Incrementon the increased Assessed Value of the District. Tax increment means all property taxes assessed by the City, in excess of any state, county or special district tax, upon the increased assesed value of all real property in the District. Increased assessed value means the valuation amount by which the current assessed value of the District exceeds the taxable original assessed value of the real property in the District. Current assessed value means the taxable assessed value of the real property in the District certified by the municipal assessor as of April 1st of each year that the District remains in effect. Property taxes means any and all ad valorem propert taxes levied, charged or assessed against real property by the City. Original assessed value means the taxable assessed value of real property in the District as of March 31, 2023 (April 1, 2022). All property tax on the original assessed value shall continue to be deposited into the City's general fund.
6. **Describe sources of anticipated revenues for private projects (clearly and briefly stated):** None.

Credit Enhancement Agreement (CEA)

7. **Describe terms and conditions of any agreements, contracts or other obligations related to the development program (e.g. CEAs). Ensure to clearly state the reimbursement percentage, along with, if applicable, any local triggers/caps.**
    a. **Will CEAs be offered as part of this development program?** No, a formal amendment to this Development Program will be necessary, after going through the Public Process.
    b. **List name(s) of company/developer to be offered a CEA:** Click here to enter text.
        i. **Provide the CEA reimbursement percentage, term, conditions for each listed company/developer:** Click here to enter text.
    c. **Is this an omnibus application?** No.
    If an omnibus, provide clear reimbursement percentage(s) and term(s)/condition(s): Click here to enter text.

d. **Does the municipality have a TIF policy?** Yes. Include a copy in Exhibit N.

If this is an amendment, and if applicable, include a copy of all executed CEAs as Exhibit M.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Development Program Fund and Tax Increment Revenues

Read below. Authorized municipal official must initial in provided spaces, acknowledging understanding of the below information:

If a municipality/plantation has designated captured assessed value, the municipality/plantation shall:

A. Establish a development program fund that consists of the following:

1. A project cost account that is pledged to and charged with the payment of project costs that are outlined in the financial plan and are paid in a manner other than as described in subparagraph (2); and

2. In instances of municipal/plantation indebtedness, a development sinking fund account that is pledged to and charged with the payment of the interest and principal as the interest and principal fall due and the necessary charges of paying interest and principal on any notes, bonds or other evidences of indebtedness that were issued to fund or refund the cost of the development program fund;

B. Annually set aside all tax increment revenues on captured assessed values and deposit all such revenues to the appropriate development program fund account established under paragraph A in the following order of priority:

1. To the development sinking fund account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual debt service on bonds and notes issued under section 5231 and the financial plan; and

2. To the project cost account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual project costs to be paid from the account;

C. Make transfers between development program fund accounts established under paragraph A as required, provided that the transfers do not result in a balance in the development sinking fund account that is insufficient to cover the annual obligations of that account; and

D. Annually return to the municipal or plantation general fund any tax increment revenues remaining in the development sinking fund account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development sinking fund account after taking into account any transfers made under paragraph C. The municipality/plantation, at any time during the term of the district, by vote of the municipal or plantation officers, may return to the municipal/plantation general fund any tax increment revenues remaining in the project cost account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development project cost account after taking into account any transfer made under paragraph C. In either case, the corresponding amount of local valuation may not be included as part of the captured assessed value as specified by the municipality or plantation.

X_____
Initial & date

At the end of the district TIF term, all taxable real and/or personal property value captured in the district will be added to the general tax rolls.

X_____
Initial & date

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Relocation of Person(s)/Business(es)

8. No persons will be displaced as a result of the development activities proposed within the District.

Transportation Improvements

9. The existing transportation facilities of the City will be adequate to accommodate the development activities within the District.

Environmental Controls

10. The improvements made under this Development Program will meet or exceed all federal and state environmental regulations and will comply with all applicable land use requirements of the city.

District Operation

11. **After the planned capital improvements are completed, provide a brief statement of the proposed operation of the development district pertaining to:**
    a. **Public capital improvements:** The City expects to construct improvements to ... Otherwise, the day-to-day operations of the District will not require substantial efforts by the City, other than staffing and programming primarily conducted by the City Manager's office and the Business and Community Development Office.
    b. **Private capital improvements:** The private improvements contemplated to occur within the District are expected to be funded solely by the developer. The City will not be responsible for the funding or operation of private capital improvements within the District.

Section 7 - Notice and Hearing

1. **Date of public notice (must be minimally 10 days before the public hearing):** Click to enter a date.
   For Exhibit G, provide a legible **copy** of the newspaper page showing the public hearing , newspaper name and date of publication.

2. **Date of public hearing:** December 4, 2023
   For Exhibit H, provide a copy of the public hearing minutes, attested to with dated signature.

3. **Date municipal or plantation legislative body approved original district designation:** Click to enter a date.
   Date municipal or plantation legislative body adopted original development program: Click to enter a date.
   If an amendment, is it to the:
   - ☐ **district. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **district and development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.

   For Exhibit I, provide verification of district designation and adoption of development program by municipal legislative body including vote tally.

4. **Is a municipal official authorized to make technical revisions to this District application/development program to facilitate the process for review and approval by DECD, as long as such revisions are not inconsistent with the basic structure and intent of the development program?** Yes. See Exhibit I

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Exhibit A - Statutory Requirements & Thresholds

Assumptions:

The OAV of the District consists of the parcel(s) identified within the Certificate of Assessor (Exhibit B) and a map of the District can be found in Exhibit C-D.

The IAV are estimates only based on the preliminary development plan. Actual IAV figures in each year may vary and as a result the projections are subject to change.

The City intends to capture: 100.0% of both real & personal property within the district.

The Mil Rate is $22.75 and is based on the current rate at time of application. This rate may change each year and as a result projections are subject to change.

The Development Program authorizes the city to enter into a credit enhancement agreement for reimbursement up to 0.0%

The Development Program established a cap of total cumulative reimbursement of no more than $0.00

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

		30 Year TIF Totals=	$1,515,981.97	$625,707.22	$223,892.94	$2,365,575.16	$2,582,549.84
		Annual Average=	$50,532.73	$20,856.91	$7,463.10	$78,852.51	$86,084.99

Assumptions:

The tax shifts resulting from sheltering of valuation from the state school funding formula are based on the state EPS funding model at the most recent MIL rate published. The estimated MIL rate indicated above is applied to a district's state valuation to determine the amount of local property taxes to be raised for education. By sheltering valuation through a TIF, the City avoids having to raise an amount equal to the valuation sheltered. The education rate used to calculate the education tax shift is based on the most recent adjusted mill rate of the Auburn Public School District.

The tax shifts resulting from the sheltering of valuation from the state revenue sharing formula are based on the most recent data available from Maine Revenue Services for the most recent fiscal year as published by the Office of the State Treasurer.

The tax shifts resulting from the sheltering of valuation from the County tax assessment are based on the actual Androscoggin County tax assessments for the most recent five years.

The OAV of the District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

These tax shift estimates are based on a captured assessed value of	100.0%	of the estimated IAV.
The projected tax revenue is based on the estimate of increased assessed value multiplied by a MIL rate of		$22.75

This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

Exhibit G - 10-Day Notice of Public Hearing

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT G: 10-Day Notice of Public Hearing

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on December 4, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the designation of the proposed new Municipal Tax Increment Financing District #32 the "Mount Aubutn Housing" Development District, and the adoption of a Development Program for said new District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed new District will consist of 29.12 acres, which includes three parcels located on Mount Auburn Avenue and Summer Street, identified on the City's tax maps as Map 279, Lots 007, 006-001, and 004. The proposed new District and Development Program will enable the City to capture tax revenues from new assessed value generated by investments made on these properties within the District related to the construction of a new multi-unit housing facility by A.R. Building Company, Inc.

The City proposes to allocate all of the tax increment revenues generated from the commercial development activities within the District to municipal projects such as road improvements, municipal infrastructure, transportation, public safety, and economic development, as well as other costs of public improvements and projects as identified in the Development Program for the District as may be approved and permitted pursuant to Section 5225 of Title 30-A of the Maine Revised Statutes, as amended. The City's use of tax increment revenues may also be used to pay debt service on bonds issued to finance said public projects.

A copy of the proposed Development Program for the new District is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

Exhibit H - Minutes of Public Hearing

Exhibit I - Record of District Designation and Development Plan Adoption

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

ORDER OF THE AUBURN CITY COUNCIL
December 4, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from A.R. Building Company, Inc. for the commercial development of certain property within its _____ zoning district located on Mount Auburn Avenue and Summer Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Mount Auburn Housing Municipal Development and Tax Increment Financing District #32 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #32 (the "Mount Auburn Housing Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Mount Auburn Housing Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

This Order shall take effect immediately upon adoption.

Exhibit J - Public Project Costs

EXHIBIT J: Public Project Costs

	Project	Maximum Percentage of CAV	Cost Estimate*	Statutory Citation
1	Administrative & Professional Services Costs: Costs of prorated portion of salaries of City staff for time associated with creation and administration of District, and fund costs of professional services associated with creation and administration of District. Costs related to the administration and facilitation of management and monitoring of this TIF, not to exceed the indicated percentage of the revenue generated from captured assessed value of the development district.[3]	5.0%	$247,406	30-A M.R.S. §5225(1)(A)(4); (1)(A)(5); (1)(A)(7)
2	Economic Development Programs: Costs of the City's economic development programs, including, but not limited to, marketing costs, prorated portions of staff salaries devoted to supporting and administering TIF programming, and other related operating expenses for the City's Economic Development Department. Costs related to the economic development programs, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[2, 3]	5.0%	$247,406	30-A M.R.S. § 5225(1)(C)(1); (1)(C)(3);
3	Road Improvements within our outside the district: Design, construction, engineering, other associated costs of road construction, sidewalk and pedestrian crossing safety improvements on roads located within the District or outside the District but directly related to or made necessary by the District, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.[3]	15.0%	$742,219	30-A M.R.S. § 5225(1)(A)(1); (1)(B)(1)
4	Public Safety Facility within the city: Costs related to the construction or operation of a public safety facility in the City, the need for which is related to general economic development within the City, not to exceed 15% of the revenue generated from the captured assessed value of the development district.[1, 3]	15.0%	$742,219	30-A M.R.S. § 5225 (1)(C)(9)

EXHIBIT J: Public Project Costs

5	Public Infrastructure within or outside the district: Eligible recreational trail-related development district capital costs include but are not limited to new or existing trails, including bridges that are part of the trail corridor, used all or in part for all-terrain vehicles, snowmobiles, hiking, bicycling, cross-country skiing or other related multiple uses, signs, crosswalks, signals and warning systems and other related improvements, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	10.0%	$494,813	30-A M.R.S. §5225(1)(A)(2)
6	Housing Development within the city: Costs associated with the development and operation of housing, including, but not limited to, authorized project costs for improvements as described in section 5249 even if such improvements are not made within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	25.0%	$1,237,031	30-A M.R.S. § 5225 (1)(A)(9); 30-A M.R.S. § 5249 (1)(A)(5); (1)(A)(7)
7	Economic Development related to Housing within the city: Costs of improvements that are made outside the tax increment financing district but are directly related to or are made necessary by the establishment or operation of the district, including, but not limited to project costs for improvements as described in section 5249 in support of municipal economic development activities regardless of whether such costs are within an affordable housing development district as defined in section 5246, subsection 2, not to exceed the indicated percentage of the revenue generated from the captured assessed value of the development district.	15.0%	$742,219	30-A M.R.S. § 5225 (1)(B)(4); 30-A M.R.S. § 5249 (1)(A)(8)
8	Administrative Facilities: Capital costs related to the construction or renovation of the City's central administrative office, the need for which is related to economic development within the City, up to 50% of such costs, not to exceed 15% of the captured assessed value within the District.	10.0%	$494,813	30-A M.R.S. § 5225(1)(C)(12)
		100.0%	**$4,948,125**	

*These are estimates only. The City may allocate revenues generated by the district across approved project cost categories as needed.

Similar program costs contained within other current and future TIFs may be combined.

[1] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, and #6.

[2] The use of TIF revenue for this project cost has also been authorized in the following TIF Districts within the City: #27, #26, #25, #10, #6.

[3] The use of TIF revenue for this project cost has also been authorized in the City's TIF District #28.
All of the foregoing project cost categories have also been authorized in the City's TIF District #29, #30 and #31 (pending approval).

Exhibit M - Credit Enhancement Agreement(s)

Exhibit N - Municipality TIF Policy

CITY OF AUBURN
TAX INCREMENT FINANCING
&
CREDIT ENHANCEMENT
POLICY
AND
GUIDELINES

The following are the City of Auburn Tax Increment Financing (TIF) Policy and Credit Enhancement Agreement Application Guidelines.

I. Purpose and Introduction

TIF allows municipalities to "shelter" new value resulting from private investment from the calculation of its State subsidies (education and revenue sharing) and County taxes. A municipality's total equalized assessed value is used to calculate General Purpose Aid to Education (subsidy), State Revenue Sharing (subsidy), and County taxes (expense). When a municipality's equalized assessed value increases, State Aid for Education decreases, municipal revenue sharing decreases, and the municipality pays a greater portion of County taxes. Specific municipal shelter benefits for the term of the TIF include: No reduction in State aid for education, no decrease in municipal revenue sharing, and no increase in County taxes (assuming 100% capture).

A Tax Increment Financing District is a tool available to the City of Auburn to promote economic development. TIF enables the City to revitalize and redevelop designated areas and build community and economic growth through public-private partnerships. The TIF District allows the City to capture some or all of the incremental real and/or personal property tax revenues derived from new development or expansion of an existing development and provides a means of financing the economic and community development goals of Auburn as set forth in the Development Program of the District adopted by the City Council and as authorized by state law. The captured tax revenues from a TIF District can be used to finance municipal investments and City infrastructure projects; and can also be used to provide incentive or financing to a private development in the form of an associated Credit Enhancement Agreement (CEA), as authorized by the Development Program of the District and state law.

These guidelines are to provide guidance and outline standards for the development of TIF's and CEA's in the City when utilizing TIF Districts and TIF revenue for the City's development and redevelopment efforts. Notwithstanding compliance with any or all of these guidelines, the creation of a TIF District or authorization of a Credit Enhancement Agreement is a policy decision of the City of Auburn to be evaluated by the City on a case-by-case basis. Adopting this policy or any TIF District does not create a right or entitlement to assistance by any applicant.

II. Eligibility for Assistance

Economic development projects may be eligible for Tax Increment Financing assistance from the City when they meet the following standards:

- Would not occur without City assistance.
- Create or retain employment opportunities.
- Significantly expand the City's tax base by a minimum of $1,000,000.
- Diversify the economy and tax base of the City
- Conform to the quality and types of development the City seeks as outlined in the Comprehensive Plan, Strategic Plan, Downtown Revitalization Plan, Economic Development Action Plan, and Zoning Ordinances.
- Demonstrate a public benefit, such as expanding public infrastructure to service areas beyond the project or creating job opportunities or affordable housing.
- Public benefits from development must outweigh any possible adverse impacts on existing businesses or residents of the City.

The City provides TIF assistance through a Credit Enhancement Agreement that provides developers with reimbursement of a percentage of the property tax revenue paid on the increased assessed value (or incremental value) of their property. Tax revenue on the incremental value returned to the developers under a Credit Enhancement Agreement will not exceed an average of 75% of the incremental taxes over the life of the particular tax increment financing district or the Credit Enhancement Agreement. Further, the City Council may establish a cap on the total incremental taxes to be reimbursed to a developer under a CEA on an annual and/or cumulative basis. The applicant is required to submit all documentation required by the City in consideration of a Credit Enhancement Agreement. A Public Hearing shall be held to receive public comment on a completed CEA application at least ten days prior to a meeting at which the CEA is being considered for approval by the City Council.

Ill. Application Process

The City has established an Application for Tax Increment Financing & Credit Enhancement Agreement. Applications (whether initiated by the City or requested by a developer or business) will be reviewed by the Business and Community Development Department Staff and considered by the City Manager. Applications for a new TIF District or an amendment to an existing TIF District are subject to final approval by the City Council and the Maine Department of Economic and Community Development (DECD). The specific terms of TIF assistance through a CEA will be negotiated between the City and the applicant on a case-by-case basis. The City Manager or the City Manager's designee will negotiate for the City, and all recommendations for TIF assistance shall be based on the merits of the project and compliance with these guidelines. Based on City Council direction and approval, Business and Community Development staff will coordinate all activities regarding applications and will prepare materials as needed. The Director of Business and Community Development will assist the developer through the process. They will monitor ongoing investments in the development project if TIF assistance is granted.

All applicants for TIF assistance must pay a $500 non-refundable application fee at the time of submission. All applicants are required to reimburse the City of Auburn for all legal and administrative costs incurred as a result of the TIF proposal, including the cost of preparing all materials necessary to establish a new TIF District, amend an existing TIF District and draft the Credit Enhancement Agreement. If a Credit Enhancement Agreement is approved, an annual fee equal to 2% of the incremental tax reallocated back to the project will be assessed.

IV. Waiver of Provisions

The City of Auburn reserves the right under certain conditions to waive the provisions of the policy. The decision to do so shall be made by applying the following guidelines to ensure that the project remains within the general parameters of the Auburn Comprehensive Plan and community development vision(s). Criteria to be considered with granting a waiver are:

- Consistency with the Auburn Comprehensive Plan
- Consistency with the Downtown Revitalization Plan
- Consistency with the City's Economic Development Plan
- Consistency with the Development Plan of the TIF District
- Consistency with other local, State, and Federal laws/rules
- Evidence of need, and
- Capacity to carry out the project

V. Mandatory Guidelines

In all instances, applicants for tax increment financing and Credit Enhancement Agreements must demonstrate that the City's participation is economically needed to undertake the project. Such justification is demonstrated by:

- Need to offset infrastructure costs unique to the site
- Need to offset economic advantages available if it should develop a project or expand operations outside of Auburn
- Lack of sufficient funding sources to meet the entire capital investments needed to undertake the project
- The project creates significant new tax value throughout the Downtown District and other areas the City Council deems necessary
- The developer is financially capable of undertaking the project
- The developer is compliant with all statutory and regulatory guidelines of the City of Auburn and the State of Maine

VI. Guidelines that Determine the Level of Municipal Participation

Although the applicants' project need not meet each of the following criteria, the following will be used to determine the City of Auburn's participation level.

- Assists an established business in Auburn, retaining existing employment opportunities
- Creates long-term permanent and quality employment opportunities
- Contributes to the revitalization of the Downtown District or other areas in need of development or redevelopment
- Improves a blighted building site in need of rehabilitation
- Creates public infrastructure facilities that have applications beyond the particular development, road improvements, parking, sidewalks, green space, etc.
- Supports or will support community projects, job training, internships, and programs that assist the under-employed and supports local contractors and suppliers.

VII. Transfer of Ownership

If the applicant transfers ownership of property in the TIF District subject to a CEA to which the applicant is a party, the applicant must notify the City Manager in writing prior to finalizing the transfer. The prospective new owner must agree, in writing, to accept the provisions of the agreement as presented to and approved by the City Council before the City will release any further TIF reimbursements under the CEA. Failure to provide notice of a transfer of ownership by the applicant or for the prospective new owner to accept the terms of the CEA before the transfer shall render the CEA invalid, and no further payments under it shall be authorized.

VIII. Annual Expenditure of TIF Revenues for Municipal Projects

Each year the Director of Business and Community Development will review all proposed TIF Revenue expenditures as part of the City Budget process to ensure compliance with the existing TIFs.

Annual allocations of TIF revenues to fund existing Credit Enhancement Agreement commitments will be factored into the annual review of the use of the available TIF revenues and estimates of proposed Credit Enhancement Agreements will be calculated by the City Assessor and City Treasurer and provided to the City Manager for review and consideration.

ORDER 164-12042023

City Council Order

IN CITY COUNCIL

December 4, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from A.R. Building Company, Inc. for the commercial development of certain property within its General Business & Rural Residential zoning districts located on Mount Auburn Avenue and Summer Street; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Mount Auburn Housing Municipal Development and Tax Increment Financing District #32 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and

City Council Order

valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #32 (the "Mount Auburn Housing Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Mount Auburn Housing Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion

City Council Order

of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

This Order shall take effect immediately upon adoption.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Ordinance:** 28-12042023

Author: John Blais

Subject: First Reading on proposed (11) votes/text amendments applied to the Lake Auburn watershed.

Information: Proposed Amendments to Chapter 60, Article XII, Division 4- Lake Auburn Watershed Overlay District pertaining to agricultural farms, agricultural buffer strips, subsurface wastewater disposal system setbacks from resources/buffer strips, private sewage disposal systems and subsurface wastewater standards and requirements. The text changes in this proposal have been initiated by the City Council and Planning Board and are pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Since December of 2021, several amendments to Chapter 60, Article XII, Division 4 Lake Auburn Watershed Overlay District have been proposed. These amendments include 1.) changes to the private subsurface wastewater disposal system design and site standards and inspection requirements; 2.) changes to agricultural and subsurface wastewater system buffer widths from Lake Auburn and its tributaries and streams; and 3.) prohibiting new non-hobby agricultural farms within the Lake Auburn Watershed Overlay District. These amendments were brought forward over time to improve the quality of Lake Auburn as Auburn and Lewiston's drinking water supply by updating subsurface wastewater disposal standards and environmental regulations to meet current best practices and modern science. A culmination of all amendments was proposed at the November 14, 2023 Planning Board meeting and had favorable recommendation from the Planning Board and recommended these go forward with the contingency that Rural Residential (1 acre minimum) zoning within the watershed be changed to Low-Density Country Residential (3 acres-minimum) and are now ready for review and vote by the city council.

These amendments have been collectively reviewed by outside subject matter experts to include former State of Maine Soil Scientist and State of Maine licensed Soil Scientist and Site Evaluator, David Rocque. University of Rhode Island, Director of the Onsite Wastewater Resource Center, Alissa Cox PhD. In addition, the Lake Auburn Water Quality Ad-Hoc Committee has reviewed and recommends the adoption of the zoning ordinance text amendments.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council discuss the proposals and issue the first vote on adoption of text **ordinance changes described in version B**.

Previous Meeting History:

December 21, 2021: city council directive to amend watershed boundary
January 2, 2022: council directs planning board to consider certain septic requirement text change

January 3, 2022: city council workshop to change boundary of watershed and change from AG to CDD
January 11, 2022: planning board workshop on amending watershed boundary
February 8, 2022: planning board public hearing on changing Gracelawn area from AGRP to GB and moving the CDD boundary to match the newly interpreted watershed boundary (favorable recommendation)
March 7, 2022: city council first reading on amending 148 Gracelawn area from AGRP to GB
March 21, 2022: city council second reading on amending a slightly reduced area in the Gracelawn area from AGRP to GB (passes)
April 12, 2022: planning board workshop and public hearing on updating subsurface wastewater (SSWW) standards (favorable recommendation contingent upon RR to LDCR zone change)
April 19, 2022: city council workshop on Lake Auburn watershed updates
May 2, 2022: city council first reading on updating SSWW standards and increasing agricultural buffer strip (favorable vote). also asks board to consider reducing housing density in the watershed
May 3, 2022: special planning board workshop to consider changing RR to LDCR in the watershed

City of Auburn
Employment Contract

This Agreement is made and entered into this 30th day of June, 2023 by and between the City of Auburn, a municipal corporation duly organized and existing under the laws of the State of Maine (hereinafter "the City") by and through its City Council and Phillip L. Crowell, Jr., (herein referred to as the ("City Manager").

The City Council desires to employ Phillip L. Crowell, Jr. as City Manager and Phillip L. Crowell, Jr. desires to accept employment as the City Manager of the City of Auburn. The parties desire to enter into this agreement to establish the terms and conditions of employment, as negotiated and agreed to by the parties.

Now, therefore in recognition of the foregoing and in consideration of the mutual promises and covenants thereinafter set forth, the parties agree as follows:

Section 1. Duties

The City hereby agreed to employ Phillip L. Crowell, Jr. as City Manager of the City of Auburn on July 1, 2020, to perform the functions and duties applicable to state statutes, including but not limited to 30-A MRSA ss 2636 and the City Charter, and Code of Ordinances as the same now exists or may be amended. The City Manager agrees to well and faithfully serve the City in said capacity and devote his time, attention and energies to the performance of his duties hereunder to the best of his ability.

Section 2.Term

The term of this agreement shall be for five years commencing on July 1, 2023 and shall continue until June 30, 2028. Upon the successful completion of an annual year-end performance evaluation, the agreement will be automatically extended an additional one (1) year after that date upon mutual agreement between the City Council and the City Manager unless terminated pursuant to this agreement or unless a specific term is provided for by a subsequent amendment to this agreement.

Section 3. Salary and Fringe Benefits

The City Manager will be compensated at an annual salary of $155,218 to be paid weekly at $2,985/week. Annual salary increases will be done in conjunction with the Council's annual performance evaluation of the City Manager. The normal work week is a minimum of 40 hours per week. The position is exempt from overtime and the City Manager is expected to attend Council meetings and workshops, budget meetings, and other meetings and community events which may be held during evenings, early mornings, weekends and holidays and to work the hours necessary to meet workload demands. The City Manager is also expected to be available for large scale emergencies or events that need the support of the City Manager's Office or of the Mayor and City Council. The City Manager will receive the normal benefits package as provided for full time, regular exempt Non-union employees except with the following:

Vacation- The City Manager will accrue 20 hours per month at the end of the month or 30 days per year. All previous balances of vacation time will carry over at the signing of this contract. The vacation accrues from year to year up to a maximum of 440 hours or 55 days, total.

Cell Phone Stipend- The City will contribute $70.00 per month stipend toward the cost of the City Manager's personal cell phone in lieu of his participation in the City's cell phone contract.

Retirement- The employee is currently enrolled in the ICMA-RC (International City Managers Association Retirement Corporation) Executive 401 account. The City will contribute twenty percent (20%) into the account and will match the employee's contribution up to an additional 5% more.

The City Manager will receive other benefits offered to all non-union employees.

Section 4. Residency

The City Manager will be required to reside within the corporate boundaries of the City of Auburn throughout the duration of this agreement.

Section 5. CALEA Assessor

The City agrees to allow the City Manager, a CALEA Assessor, to conduct three (3) assessments per year with the City providing for 50% of time necessary for the assessment with paid time off and the City Manager will use accrued time off for the remaining absence.

Section 6. Performance Evaluation

The City Council should conduct an employment performance evaluation of the City Manager prior to the first six (6) month anniversary, and an annual evaluation at the first anniversary and every twelve (12) months thereafter. The City Manager may elect to have other periodic evaluations if he so chooses.

Section 7. Professional Development

The City agrees to pay, within the budgetary constraints of the Manager's professional development budget, the necessary expenses for the Manager to continue his professional development, including but not limited to annual ICMA conferences, the Maine Municipal Association annual convention and other training programs, the Maine Town /City Management Association and other regional, statewide and national governmental groups or committees which the Manager serves as a member. The City Manager should be certified with the International City Manager's Association ("ICMA"), within 18 months of the effective date of this contract, unless otherwise approved by the City Council.

Section 8. Automobile Allowance

The City shall pay to the Manager a monthly automobile allowance of $300.00. This is intended to reimburse and cover the Manger for all City business travel required on the Manager's personal automobile and will be taxed according to applicable IRS guidelines.

Section 9. Termination and Severance

The City Manager agrees to provide the City of Auburn with 60 days written notice of separation of employment. The City Manager will receive cash out for all allowable accrued time, and no severance pay. If employment is terminated for any reason other than legitimate disciplinary actions, the City Manager will be eligible for compensation equal to the amount of the term agreement or a severance equal to six months of salary whichever is greater and six months of health insurance coverage, and vacation and sick time cash out. Termination of the City Manager's employment by the City Council pursuant to the applicable section of the Auburn City Charter for just cause voids the City's obligation to pay severance under this section.

Section 10. General Provisions

A. The text herein, as well as any laws or ordinances reference herein, shall constitute the entire agreement between the parties.
B. This agreement may only be amended or modified in writing
C. The parties acknowledge and agree that this Agreement was freely negotiated and entered into, and that the event of a conflict between the provisions hereof and the provisions of any law or ordinance, the provisions of this Agreement shall prevail.
D. If any provisions, or any portion thereof, contained in this Agreement is held to be unconstitutional, invalid or unenforceable by a court of competent jurisdiction, the remainder of this Agreement, or portion thereof, shall not be affected thereby, and shall remain in full force and effect.

E. Except as expressly stated or otherwise provided for in this agreement, the City Manager shall be governed by the same customs, practices and policies governing all other employees of the City of Auburn.

Council Workshop or Meeting Date: December 4, 2023 **Order:** 166-12042023

Author: Phil Crowell, City Manager

Subject: PAL Center – Increase Allocation from American Rescue Plan Act (ARPA) Funds.

Information: In 2011, Police recognized that upwards of 25% of the total calls for service were happening in the same ½ mile area of the City of Auburn's most impoverished area of the city. The area was rife with vandalism and families had no sense of belonging. Police recognized that the "Broken Window Theory" applied to this neighborhood- don't fix it and it will get worse.

After much consideration as to what could be done to mitigate the crimes against youth and crimes committed by youth under the age of 20, the City of Auburn provided the current building located at 24 Chestnut Street to the Police Activities League (PAL) - a 501c3 that has a Board of Directors who oversee the operations. After renovations were completed in 2013 – by volunteers and through fundraising, the PAL Center opened and began providing after-school programming. Since the opening, the center has grown to provide mentored after-school and summer programming to upwards of 100 children daily. The current building has far exceeded its capacity (43 people) to safely offer programming due to lack of space. During the Covid-19 pandemic, the center had to close its doors because of the limited space.

Construction costs for the project are $9,000,000.00. The Auburn PAL has received the following funds towards the project:

- $3,000,000.00 American Rescue Plan Act (ARPA) allocated by City Council on 4/4/2022
- $3,000,000.00 Federal Community Project Funding sponsored by Senator Collins
- $1,500,000.00 City of Auburn Capital Improvement Funds (FY2023)

Remaining unallocated ARPA funds total $905,745.00. Presentation of status of all ARPA projects was made to City Council on November 20, 2023. After reviewing the projects, a recommendation was made to allocate the remaining funds towards the remaining unmet construction balance.

City Budgetary Impacts: None

Staff Recommended Action: Vote to allocate remaining undesignated ARPA funds ($905,745.00) and increase the PAL Center allocation from $3,000,000.00 to $3,905,745.00.

Previous Meetings and History: April 4, 2022, November 20, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order:** 167-12042023

Author: Jill M. Eastman, Finance Director

Subject: FY ending June 2022 – Undesignated Fund Balance

Information: At the end of each fiscal year, the City of Auburn's auditing firm completes its annual audit. They provide information regarding the fiscal state of the city. Annually, the City of Auburn has an Undesignated Fund (UDF) that represents the difference of assets and liabilities. The fund serves as the city's cash flow throughout the year; therefore, the balance reported on June 30th of each year is the balance on that date only. Throughout the rest of the year, the balance is due more or less to cash flow needs. The City has a fund balance policy that recommends the UDF be at least 14% of the City's total budget. Bonding companies review the UDF balance when rating the City's financial status as it relates to the City's bond rating and corresponding interest rates.

On November 20, 2023, the City's auditing firm, Runyon, Kersteen and Ouellette presented their FY2022 findings to the Mayor and City Council. It was determined that the City's UDF was approximately 16% ($2,148,283.00) in excess of the recommended 14%.

City Budgetary Impacts: Allocate $1,823,255.00 Undesigned Fund Balance that is in excess of the recommended 14% as follows:

- $594,255.00 Construction of PAL Center
- $500,000.00 Transfer to Worker's Compensation Fund
- $500,000.00 Norway Savings Bank Arena Floor
- $100,000.00 Auburn Sewer District – Storm Water Separation Study
- $ 9,000.00 Edward Little High School "Project Graduation"
- $ 20,000.00 Androscoggin Land Trust
- $ 50,000.00 Relocation of Fountain
- $ 50,000.00 Food Insecurity Program at PAL Center

Staff Recommended Action: Vote to allocate Undesigned Fund Balance that is in excess of the recommended 14% as stated above.

Previous Meetings and History: November 20, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 04, 2023 **Resolve:** 03-12042023

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Resolve Calling upon the Auburn Water District and the Lake Auburn Watershed Protection Commission to collaborate with the Towns of Turner, Minot, Hebron, and Buckfield in the upper watershed to take similar actions as the City of Auburn to protect the drinking water of over 50,000 residents in Auburn, Lewiston, and Poland.

Information: The City has been working on text amendments to the Zoning Ordinance relating to the Lake Auburn Watershed Overlay District for several years, which amendments are evidenced by Ordinance #28-11202023; The ordinance amendments provide significant protections withing the municipal boundaries of the City of Auburn. The study of water quality monitoring data collected by the Auburn Water District and the Lake Auburn Watershed Protection Commission has confirmed that significant nutrient inputs to the lake occur in tributaries that originate in upper watershed towns that do not have the same protections in place for the protection of the Lake Auburn Watershed.

This resolve calls upon the upon the Auburn Water District and the Lake Auburn Watershed Protection Commission to collaborate with the Towns of Turner, Minot, Hebron, and Buckfield in the upper watershed to take similar actions as the City of Auburn to protect the drinking water of over 50,000 residents in Auburn, Lewiston, and Poland.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council vote to approve the Resolve.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RESOLVE 03-12042023

City Council Resolve

IN CITY COUNCIL

RESOLVE, calling upon the Auburn Water District and the Lake Auburn Watershed Protection Commission to collaborate with the Towns of Turner, Minot, Hebron, and Buckfield in the upper watershed to take similar actions as the City of Auburn to protect the drinking water of over 50,000 residents in Auburn, Lewiston, and Poland.

WHEREAS, the Auburn Water District was granted a legislative Charter by Chapter 60 of the Private and Special Laws of 1923, as amended, and under the terms of its Charter, the said Auburn Water District was granted the power "to adopt by-laws, not inconsistent with the general laws of the state, to prevent pollution of the water of Lake Auburn and to preserve the purity of said water, and may prescribe penalties for the violation thereof, which said by-laws shall have the same force and effect as municipal ordinances"; and

WHEREAS, the said Auburn Water District was also granted under its Charter the "power and authority" to bring legal proceedings "to enjoin, prevent or restrain any persons, firms or corporations from polluting the water of Lake Auburn, provided such pollution shall tend to corrupt or impair the quality of the water of said Lake Auburn for domestic purposes, or render it injurious to health"; and

WHEREAS, pursuant to 22 M.R.S.A. §2647, "Any water utility…is authorized to take reasonable steps to protect a public water source from pollution"; and

WHEREAS, in an effort to strengthen Lake protections, the Auburn Water District formed the "Lake Auburn Water Quality Ad-Hoc Committee" and the said committee was tasked with reviewing and advising about the changes to the watershed related ordinances being made by the City of Auburn; and

WHEREAS, the committee supported the City of Auburn changes and further recommended the committee draft and execute an engagement with the Upper watershed towns to apply these critical watershed protections in the Towns of Turner, Minot, Hebron, and Buckfield; and

WHEREAS, pursuant to the By-laws for Protection of Lake Auburn and specifically Protection Level 4: Upper Watershed, the Trustees of the Auburn Water District established the entity or authority for the protection and control of the Lake Auburn Watershed, including those portions located in other municipalities, and shall provide technical assistance and enforcement assistance for watershed protection controls to homeowners and residents of the extended watershed area.

WHEREAS, the Auburn Water District and/or Lake Auburn Watershed Protection Commission is authorized to implement and enforce their By-Laws and restrictions by all appropriate means, including without limitation by bringing legal proceedings for the enforcement thereof.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 4, 2023 **Order**: 168-12042023

Author: Robert Chase, Fire Chief

Subject: Update to EMS Billing Rates

Information:

The EMS current EMS billing rates took effect on January 1st, 2021. During recent legislative sessions several laws were passed which affect EMS billing.

The recommendation for the increase is due to the State of Maine's act to protect consumers for surprise emergency medical bills or L.D. 2105. It states if you are **contracted** with an insurance company you will receive 200% of the Medicare allowed amount for the service. It also states if you are under the 200% you can not increase your rates more that 5% each year.

The department's medical billing company, Medical Reimbursement Services (MRS), has suggested increases to Auburn Fire Department's fee schedule to better align with these pieces of legislation:

Fee	Auburn Current	MRS Suggested 2023 Increase	MRS Suggested 2024 Increase	200% Medicare
Mileage	$18.00	$20.00	$20.00	$17.42
BLS	$800.00	$840.00	$882.00	$809.08
ALS - 1	$1,000.00	$1,100.00	$1,100.00	$960.78
ALS – 2	$1,500.00	$1,600.00	$1,600.00	$1,390.62
BLS Non Emergency	$450	$473	$497	$505.68
ALS Non Emergency	$500	$525	$552	$606.82
No Transports	$225.00	$300.00	$300.00	N/A

Increase in ALS intercept fee:

A requirement of all ambulance services trying to provide the best care for their patients is to request a paramedic from another service to come and provide necessary care that is above the scope of practice of the responding ambulance. As a service that always staffs paramedic licensed providers on ambulances, and many times on fire apparatus, several services depend on the Auburn Fire Department's ability to provide a paramedic when transporting to a local hospital. Auburn Fire Department paramedics meet an incoming

ambulance service, board the other service's ambulance, and take over patient care. Because ambulance billing is mostly based on transport, this practice, although necessary for best patient care, cannot be billed to the patient. Instead, to recoup some of the cost to the paramedic service, the service providing the paramedic will bill the receiving service a small fee. Currently, Auburn Fire charges $100.00 for an ALS intercept. In 2022, Auburn Fire Department billed for this service 24 times. Between January 1, 2023, and November 2023, Auburn Fire Department has billed for this service 41 times. It has also been shown in a comparison between 14 other departments, Auburn Fire Department charges the lowest amount for an ALS intercept with the next highest department being $250.00. Most departments in this comparison charge $300.00 per intercept. It is requested that Auburn Fire Department increase the ALS intercept fee to $300.00 to be aligned with other departments.

It is requested that the Auburn Fire Department increase their EMS care and transport fees with the first increase taking effect December 11, 2023 and the second increase taking effect April 1st 2024.

City Budgetary Impacts: Estimated increase EMS revenue of $10,000

Staff Recommended Action: Staff recommends the City Council vote for passage of this Resolve.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 18, 2023

Subject: Executive Session

Information: Legal consultation, pursuant to 1 M.R.S.A. Section 405(6) (E).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 152-12042023***
Re-appointing Riley Bergeron to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

2. **Order 153-12042023***
Re-appointing Evan Cyr to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

3. **Order 154-12042023***
appointing Stephen Roop to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee.

4. **Order 155-12042023***
Accepting the Audit Report.

5. **Order 156-12042023***
Appointing Wardens and Ward Clerks for a two-year term as outlined in our City Charter.

Councilor Whiting requested that items 1 through 3 (Orders 152-12042023, 153-12042023, and 154-12042023) be removed from the consent agenda and placed under New Business.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage of the two remaining consent items.

Passage 7-0.

II. Minutes – November 20, 2023, Regular City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the November 20, 2023, Regular City Council meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

Proclamation – Small Business Saturday

Recognition of Outgoing Elected Officials (Mayor Levesque, Councilor Hawes, Councilor Morin, Councilor Staples).

Jill Eastman, Finance Director - Finance Report of October 2023

Motion was made by Councilor Milks and seconded by Councilor Walker to accept and place on file the October 2023 Final Finance Report.

Passage 7-0.

Council Communications -

Councilor Walker announced that the United New Auburn Association and the City of Auburn proudly present the Christmas in the Park (Anniversary Park) event scheduled for Saturday, December 9th beginning at 4:00pm.

City Manager Crowell stated that they appreciate the work that Councilor Walker does with the United New Auburn Association, and Christmas in the Park will be a great event. He also wanted to highlight www.auburnchristmasvillage.com which is a great site to go to find out more about the vendors that are there now and leading up to Christmas. He recognized and gave thanks to everyone that contributed to the Thanksgiving dinners that were provided at the Senior and PAL Centers. He thanked the employees of Panolam (Pioneer Plastics) for their donation and introduced John Everly and Susan Hagerstrom, both from Panolam. They donated 30 turkeys and the fixings for the PAL families, adding that it is greatly appreciated.

IV. Open Session

Maureen O'Brien, 42 Winter Street, spoke regarding the ability for citizens to have access to public records.

Dave Griswold, 199 Gamage Avenue, wanted to thank the Council at the end of their terms for their work and commitment and stated that he appreciates their service.

A gentleman who did not identify himself, spoke regarding his property on Penley Corner Road and helping veterans.

V. Unfinished Business

1. Ordinance 21-09182023
Amending the Code of Ordinances, Chapter 14, Article XVIII Adult Use and Medical Marijuana Business licensing. Second reading.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. **Ordinance 24-11202023**
Amending the zoning map to rezone all areas in the LDRR or RR zoning district within the Lake Auburn watershed to the LDCR zoning district. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Ordinance 26-11202023**
Amending the zoning map for parcel ID 289-001, 289-002, and 277-026 from AGRP to GB. Public hearing and second reading.

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public hearing –

Renee Cote, Dawes Avenue, asked that the Council consider the will of the majority and keep the lake area undeveloped. She asked that they vote against the amendment.

Peter Dingley stated that people do not want general business by the lake and with all the talk about the festivals we have in the city, have we ever had a lake festival and celebrated the lake?

Deb Desjardins, 2768 Turner Road stated that we are reducing the watershed line adding that she has never seen a watershed line for Lake Auburn. She has for Taylor Pond but not Lake Auburn and urged council not to pass this tonight.

Mike Ouellette, West Auburn Road, provided handouts to the Council and spoke in opposition to the proposed amendment. He said he feels that development of the sand pit would threaten the water quality of the lake. He said he has never had issues with his well water until his neighbor clear cut a lot next to him and has since had to purchase a filtration system. He said he never thought he would need a filtration system as he has now and said don't be fooled that Auburn won't too.

Fred Holler, 352 West Auburn Road stated that it is obvious that the citizens of Auburn regard this as a threat to the lake and don't want this change. He said he thinks passing this is unfair and it is not a "Not in My Back Yard" issue.

John Cleveland, 183 Davis Avenue, stated that this proposed zoning amendment before them was part of a repeal where petitions were signed, and Council had the opportunity to put it out to the voters or to repeal it themselves. He stated that Council chose to repeal the change on September 6, 2022. He further stated that the vote has the same effect and per the city charter, the Council has no authority to vote against the repeal by re-instating it.

Stephen Beale, 575 Johnson Road, stated that while he agrees with most of the comments, he has a specific concern and would like to see the 100-foot buffer around the landfill parcel be retained.

Bruce Rioux, 85 Mary Carroll Street stated that if this passes this will become a large housing development and asked if having 3,000 people living in that area is protecting the lake and asked the Council to think about that before they vote.

Pam Rousseau, 745 West Auburn Road stated that this would be taking more land out of the ag zone when we should be saving it, and then stated that if the area is built up, there have been no studies done on the impact that could have.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by excluding the landfill.

Passage 4-3 (Councilors Hawes, Milks, and Morin opposed).

Passage as amended 4-3 (Councilors Gerry, Whiting, and Walker opposed). A roll call vote was taken.

4. **Ordinance 27-11202023**
Amending the zoning map to reflect the actual drainage boundary based on existing topography of the land and known groundwater flows. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Gerry opposed).

5. **Ordinance 28-11202023**
Amending the Chapter 60, Article XII, Division 4 – Lake Auburn Watershed Overlay District pertaining to animal farms, agricultural buffer strips, septic system buffer strips, and private sewage disposal systems and subsurface wastewater standards and requirements. Public hearing and second reading.

Motion was made by Councilor Morin and seconded by Councilor Staples for passage.

Public hearing –

Kathy Shaw, 1200 Sopers Mill Road, also the Chair of the Natural Products and Agricultural Work Group provided hand-outs to the councilors and stated that this would take a lot of small, non-invasive farming operations out of contention, completely prohibited and she asked to set aside this language to take more time to look at this with more detail.

Pam Rousseau, 745 West Auburn Road, reiterated what Kathy Shaw just stated adding that she would like this set aside and looked at again.

John Cleveland, 183 Davis Avenue, read the last paragraph of a letter from the Lewiston City Administrator that was included in the agenda packet.

Bruce Rioux, 85 Mary Carroll Street commented that in the past, if Lake Auburn came up on a City Council or Planning Board agenda, the Water District Superintendent and microbiologist would attend these meetings addressing the science of the lake when questions came up. He stated that tonight is the first time in the last four years, that the Water District Superintendent has attended a meeting, and he is not answering the questions adding that we are getting our information from the developers, and he is not trusting their answers.

Stephen Beale, 575 Johnson Road stated that he wanted to address the septic design change and added that if this Council wants to do something for the benefit of the watershed, the thing to do would be to pass the septic design but put a cap of 20 permits to be issued over a 25-year period.

Dave Griswold, 199 Gamage Avenue, spoke regarding the language about the non-hobby agriculture stating that the intent was good, but it can be confusing. He said he did some research to see what might fall under that category and he shared that information with the Council. He stated that possibly, rather than make a blanket prohibition under agricultural activities, maybe Council should consider stating what would be allowed such as low impact activities that will not have an impact on the lake if managed properly. He stated he would urge them to take this back to the drawing board and get it right.

Motion was made by Councilor Whiting and seconded by Councilor Gerry to send this to the Natural Product and Agriculture group.

Failed 3-4 (Councilors Hawes, Morin, Milks, and Walker opposed).

Passage of Ordinance 28-11202023 as presented 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

Councilor Gerry was excused from the meeting and Mayor Levesque called for a 5-minute recess.

VI. New Business

Order 152-12042023
Re-appointing Riley Bergeron to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee. This item was removed from the Consent Agenda.

Motion was made by Councilor Morin and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 5-0-1 (Councilor Whiting abstained).

Order 153-12042023

Re-appointing Evan Cyr to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee. This item was removed from the Consent Agenda.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Public comment – Renee Cote, Dawes Avenue stated this should not be the purview of this Council and they should address it at this time.

Passage 5-0-1 (Councilor Whiting abstained).

Order 154-12042023
Appointing Stephen Roop to the Planning Board, full member position with a term expiration of 01/01/2027 as nominated by the Appointment Committee. This item was removed from the Consent Agenda.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Motion was made by Councilor Morin and seconded by Councilor Hawes to amend by striking Stephen Roop and replacing him with Timothy Deroche (Stephen Roop withdrew).

Public comment - No one from the public spoke.

Passage 5-0-1 (Councilor Whiting abstained).

Passage as amended 5-0-1 (Councilor Whiting abstained).

1. **Public hearing – CDBG PY23 Revised Budget and Action Plan.**

   Mayor Levesque opened the public hearing at 8:33 pm.

   No one from the public spoke. The public hearing closed at 8:33 pm.

2. **Order 157-12042023**
   Authorizing the School Committee to establish a curriculum development reserve fund for the purpose of funding curriculum development materials, equipment, software, and professional development.

   Motion was made by Councilor Morin and seconded by Councilor Hawes for passage.

   Public comment – No one from the public spoke.

   Passage 6-0.

3. **Order 158-12042023**
   Authorizing the naming of "Officer Norman Philbrick Square" (or "Philbrick Square").

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 6-0.

4. **Order 159-12042023**
Authorizing the naming Mustang Alley.

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 6-0.

5. **Order 160-12042023**
Authorizing the naming of "Joseph 'Joe' Walker Memorial Field" or ("Walker Field").

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 6-0.

6. **Order 161-12042023**
Authorizing the naming of "Tricia Asselin Memorial Field" or ("Asselin Field").

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 6-0.

7. **Order 162-12042023**
Allocating funds (Comprehensive Plan Implementation Funding) of up to $160,767.50 for the replacement structure for R&K Properties LLC (PID 221-074).

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 6-0.

8. **Order 163-12042023**
Approving Tax Increment Financing (TIF) District #31, Academy Street. Public hearing.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Passage 4-1-1 (Councilor Whiting opposed, Councilor Milks abstained).

9. **Order 164-12042023**
Approving Tax Increment Financing (TIF) District #32, Mount Auburn Housing. Public hearing.

Motion was made by Councilor Morin and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Staples opposed).

10. **Order 165-12042023**
Adopting the employment agreement between the city and the City Manager Phillip L. Crowell, Jr.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 6-0.

11. **Order 166-12042023**
Approving the allocation of American Rescue Plan Act (ARPA) funds for the PAL Center.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – Maureen Obrien, 42 Winter Street, stated that we should not be spending money without a plan, and she hopes they do not approve this.

Passage 6-0.

12. **Order 167-12042023**
Authorizing the allocation$1,823,255.00 from the FY22 undesigned fund balance that's in excess of the recommended 14%.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – Kathy Shaw, 1200 Sopers Mill Road asked where these funds were going.

Motion was made by Councilor Walker and seconded by Councilor Milks to allocate an additional $100,000 from the fund balance to conduct a security evaluation of our public buildings that are accessible to the public.

Passage 6-0.

Motion was made by Councilor Whiting and seconded by Councilor Walker to allocate an additional $100,000 from the undesignated fund balance to be used for wayfinding signage to use for memorials and other facility naming bringing the allocation to $2,023,255.00.

Passage 6-0.

Passage of order 167-12042023 as amended 6-0.

13. **Resolve 03-12042023**
Calling upon the Auburn Water District and the Lake Auburn Watershed Protection Commissioners to begin discussions with the towns in the upper watershed to adopt critical protections for Lake Auburn.

Motion was made by Councilor Morin and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 6-0.

14. **Order 168-12042023**
Approving the increase to EMS care and transport fees with the first increase taking effect December 11, 2023, and the second increase taking effect April 1, 2024.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 6-0.

15. **Order 169-12042023**
Authorizing the City Manager to execute the sale of 186 Main Street, Parcel ID 231-020 (city-owned property) to Great Falls Construction, DBA JCS 18, LLC.

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 6-0.

16. **Order 170-12042023**
Directing a review of zoning ordinance text amendments relating to Lake Auburn Watershed Overlay District evidenced by Ordinance 28-11202023.

Motion was made by Councilor Morin and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-0.

VII. Open Session

Kathy Shaw, 1200 Sopers Mill Road thanked the Council for creating more community conversations and engagement and she wished them good luck in the future.

VIII. Reports (from sub-committees to Council)

Councilor Staples thanked everyone for the last two years. He stated that his favorite part is how everything has been civil, and they've managed to talk things out and he values that.

Councilor Walker also expressed thanks to the voters, the City Council, and the mayor.

Councilor Morin stated these have been the two most educational years of his life. He said he also appreciates the civility and decency of everyone on the Council, adding that he calls everyone on the Council a friend. He closed by saying that during these two years he has concluded that Auburn is very fortunate to have the level of staff that do this as their day job day in and day out and he is proud of city staff. He said he wishes the next council much luck and success.

Councilor Milks thanked the Council adding that he has learned a lot from everyone up here. He stated that one thing he was taught is that you should listen to people you disagree with. He thanked Mayor Levesque and added that he is looking forward to the next steps and thanked voters for their vote and confidence and he looks forward to working with the next Council.

Councilor Hawes gave thanks to the city staff and echoed comments made by Councilor Morin. He also thanked the Councilors and the Mayor. He wished the newly elected Council good luck, and he thanked Manager Crowell and Assistant Manager Wood.

Councilor Whiting thanked everyone and echoed what Representative Shaw said and added that although they did not always agree, they agreed on more than what they disagreed on.

City Manager Crowell provided an update on the activity on the LAWPCA property on Penley Corner Road.

Mayor Levesque discussed some unresolved items and is hoping there will be follow through on the following. Discussion on eminent domain properties, specifically the Barn on Minot Avenue; the Lewiston Auburn Railroad Corporation is a corporation in which 33% of the shares go to Auburn and the rest go to Lewiston, though 90% of the revenue is derived from Auburn operations whereas a vast majority of the property that doesn't create revenue sits in Lewiston for the most part sitting in a quasi-land trust or a land bank. He added that he has fought vehemently for fairness in this, and they refuse, adding that Auburn isn't getting any economic benefit for the rail that flows through the city and should be addressed; he would like to urge the Council to keep in mind a renegotiation of water costs for our rate payers.

Lewiston and Auburn splits costs 50/50 though Lewiston uses 63-65% of that water and we pay a disproportionately high amount of the operating costs and this needs to be addressed; Stevens Mills Baseball/Softball fields, we must see that through; one parcel on Mechanics Row that is still left for sale. He would like the Council to see this through; regarding Walton School, there is an order to create a transitional committee with anticipation of closing Walton School. He is leaning towards no at this point and we must take into consideration the growth we've seen in the last few years. He urged everyone to pay attention to the School Committee meeting scheduled for this Wednesday.

In closing, he stated that this is approximately his 158th Council meeting in 6 years, adding that it has been a joy, a pleasure, and he thanked the City Council, City Manager Crowell, Assistant Manager Wood, and city staff for helping and working together, respecting boundaries, and the chain of command. He stated that nationally, Auburn has a great reputation.

IX. Executive Sessions - None

X. Adjournment

Motion was made by Councilor Walker and seconded by Councilor Milks to adjourn.

Unanimously approved and the meeting adjourned at 9:16 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 18, 2023

Author: Sue Clements-Dallaire, City Clerk

Subject: Special Election to be held on April 9, 2024 for the Ward 4 School Committee seat

---

Information: We did not have anyone file nomination papers for the Ward 4 School Committee seat for the November 7, 2023 Election. Article V, Sec 5.1 of the City Charter requires the city clerk to call for another election to fill the vacant seat. Per charter, nomination papers must be available at least 120 days before the date of the election. Because of that 120 day requirement, we were unable to hold this special election on the same date as the March 5, 2024 Presidential Primary election.

Nomination papers became available on December 11, 2023. The Election is scheduled to be held on April 9, 2024. This election will be for Ward 4 voters only and will be held at Auburn Hall.

City Budgetary Impacts: Approximately $1,000 for staffing, postage, and the cost of a public notice. Because there will be minimal turnout, we will not be programming the tabulating machines and ordering ballots. We will print our own ballots in house and count the ballots by hand.

Staff Recommended Action: No action required – communication only.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

ORDER 173-12182023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby confirms Mayor Harmon's recommendations and appointments to the Agencies, Boards, Committee's and Commissions as listed below.

Auburn-Lewiston Municipal Airport: Benjamin Weisner **Audit Committee:** Richard Whiting Belinda Gerry **AVCOG:** Phil Crowell (Executive Committee) Brian Wood (Executive Committee) Belinda Gerry (General Assembly) Richard Whiting (General Assembly)	**Lewiston-Auburn 911 Committee** Patricia Mador Benjamin Weisner **LATC (Lewiston Auburn Transit Committee):** Timothy Cowan **Maine Waste to Energy:** Leroy Walker

City of Auburn, Maine

"Maine's City of Opportunity"

Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **November 2023 Financial Report**

DATE: **December 18, 2023**

The following is a discussion regarding the significant variances found in the City's October financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its fourth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 41.7% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through November 30th, including the school department were $51,439,616, or 45.45%, of the budget. The municipal revenues including property taxes were $35,068,005, or 47.46% of the budget which is more than the same period last year by $1,379,668. The accounts listed below are noteworthy.

A. September 15th the first installment for real estate taxes were due. The current year tax revenue is at 49.72% as compared to 50.11% last year or $527,410 more than last year.

B. Excise tax for the month of November is at 44.80%. This is an increase of $55,116 compared to FY 23.

C. State Revenue Sharing for the month of November is 49.17% or $2,937,753. This is an increase from last November of $145,875.

D. EMS Transport is at 46.22% or $677,100, which is a slight increase from last year of $61,718.

Expenditures

City expenditures through November 2023 were $25,860,432 or 47.800% of the budget. This is a total decrease over last year of $825,223 Noteworthy variances are:

A. The largest decrease is the transfers to the TIF accounts due to timing of the transfers. These transfers were made the beginning of December 2023, instead of November.

Investments

This section contains an investment schedule as of November 30th. Currently the City's funds are earning an average interest rate of 4.29% compared to2.35% at this time last year.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for November 30, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of November 30, 2023.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities and net assets and shows a comparison to the previous month, in this case, October 31, 2023.

Current Assets:
As of the end of November 2023 the total current assets of Norway Savings Bank Arena were ($1,452,648). These consisted of cash and cash equivalents of $280,564, accounts receivable of $26.560, and an interfund payable of $1,759,972.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of November 30, 2023, was $102,173.

Liabilities:
Norway Arena had accounts payable of $4,400 as of November 30, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through November 2023 are $302,384. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating and ice rentals.

The operating expenses for Norway Arena through November 2023 were $347,224. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance.

As of November 2023, Norway Arena had an operating loss of $44,840.

As of November 30, 2023, Norway Arena has a decrease in net assets of $44,840.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY23 is $143,630 more than in FY23 and expenditures in FY23 are $182,944 more than last year in November.
