City Council Information Sheet

Council Meeting Date: May 1, 2023 **Order:** 57-05012023

Author: Jason D. Moen, Chief of Police

Subject: Transfer of Forfeiture Assets – Jessica M. Valencia

Information:

In September of 2021, Auburn Police Department Sergeant Nicholas Gagnon investigated a stolen motor vehicle in which Jessica M. Valencia was a passenger. Sgt. Gagnon developed information during the investigation that the occupants of the vehicle were trafficking illegal narcotics While conducting a search of the vehicle, Sgt. Gagnon found Valencia in possession of 4 grams of heroin/fentanyl, 40.5 grams of cocaine base, and 1 gram of cocaine HCL, a drug ledger, $490 in cash and a loaded Ruger .380 caliber semi-automatic pistol. Valencia was charged with aggravated trafficking of Scheduled W drugs Class A, based on the fact she was armed with a firearm in the furtherance of drug trafficking.

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $490.00 U.S. and the Ruger .380 caliber semi-automatic pistol. Currency to the Auburn Police Department. Funds will be used for ongoing K-9 expenses.

Staff Recommended Action: Vote to accept the transfer of $490.00 and a Ruger .380 caliber semi-automatic pistol.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

IN COUNCIL REGULAR MEETING APRIL 18, 2023, VOL. 37 PAGE 31

Mayor Levesque called the meeting to order at 7:00 P.M. in the Community Room of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

The discussion from the Joint Planning Board and City Council Workshop continued until 7:22 P.M. at which time, the meeting was then moved to Council Chambers resuming at 7:26 P.M.

Mayor Levesque asked for a moment of silence to remember Royce Coburn, former Auburn Planning Board member who recently passed.

Mayor Levesque moved the first open session to the beginning of the meeting to allow members of the public to speak on what was discussed during the workshop, or any item that is not on the agenda.

Jane Costlow, 104 Fourth Street, spoke on what she stated was the intent and purpose of the Ag zone, adding that it was created to prevent sprawl. She suggested asking professionals about what the eco system services of almost 20,000 acres of undeveloped land is, adding that what we need right now is a different process on this really important issue.

Mr. Bosworth, 299 Jordan School Road, said he thinks we are giving up the best resource in the Northeast, adding that if we change the zoning, he will be taxed off his land.

Denis Wheeler, owner of a piece of land on the corner of River Road and Jordan School Road stated that he would like to build a home and retire there. This is a piece of property that was given to him by his mother. Currently, he cannot build a home there due to zoning restrictions.

Joanne Wheeler, spouse of Denis Wheeler said this 2-acre lot of land was gifted to them in 1987 and it is not a farm. She said she believes they should be able to build there. She said that she understands that there is a lot of diversity and a lot of different feelings on this issue, but their feelings should be considered too.

David Griswold, 199 Gamage Avenue talked about woodlot owners stating that many woodlot owners own them for privacy and wildlife and not to just harvest timber. He stated that if there is development within or adjacent to woodlots, it may cause conflict among neighbors for various reasons, one being if you are a woodlot owner with neighbors, it may be difficult to harvest timber. Neighbors may object to the noise from the equipment, and night-time operations during mud season, and it could change their view. He said we need to balance housing and conservation and he hopes the City Council and Planning Board will find a way to do that.

Chloe Myers, resident of Lewiston and owner of Open Heart Farm located at 304 Sopers Mill Road in Auburn stated that she is originally from New York and was searching for a farm for about 5 years in four states before they found their farm here in Auburn. She encouraged the City Council to consider the value and future of food production within Auburn stating that we cannot continue to rely on produce from California to sustain us forever. She also urged the Council to work collaboratively with not only the Sustainability and Natural Resource Board but also with entities like the Good Food Council of Lewiston and Auburn and others.

Peter Moore, landowner on Jordan School and Pownal Road stated that he has a different perspective than most that have spoken. He said that he sees the opportunity for Auburn to have a much bigger future adding that we could do a few more things in Auburn while still protecting the vast majority of

the city. He said he thinks it is atrocious that people do not want to allow people to build a home on their own land. He said what we have is a tax problem stating that we have a high tax rate due to too small a population. He went on to state that we are a city and should behave like a city and allow more development. He said he sees the future of Auburn as a robust urban place that could surpass the City of Portland in both population and vitality and if we could release the creativity and innovation of our citizens and landowners, we could see the city thrive for decades to come, but right now we have our heads in the sand, and we are clinging to the past. He would like the Council to get rid of this ordinance and not replace it with so many restrictions that we are back to where we started back in 1963 when the ordinance was enacted.

Mike Morrisey, 825 Perkins Ridge Road, said that according to the agenda, we were supposed to talk about residential strips, and we did not. When will we address that?

I. Consent Items

1. Order 49-04182023*
Setting the date for the Special Municipal Referendum Election (June 13, 2023).

2. Order 54-04182023*
Authorizing Jason Levesque to vote the shares held by any shareholders for the Lewiston Auburn Railroad Company.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage of the two consent items.

Passage 7-0.

II. Minutes - April 3, 2023, Regular Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Milks to approve the minutes of the April 3, 2023, Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

a. Communication from Lake Auburn Watershed Protection Commission
b. Communication – City of Auburn Petition to Intervene
c. Council Communications (about and to the community)

Mayor Levesque announced that a workshop will be held on Monday, April 24th at 5:30 pm to discuss the budget.

Councilor Whiting announced that Gerry Denis and he will be leading a walk (Jane's Walk) at 9:00 am on May 6th beginning at Rolly's.

City Manager Crowell announced that the budget documents are on our website, all Councilors should have their budget books in their office. Staff is working to fix a broken link on the budget portal.

IV. **Open Session** – This item was taken up at the beginning of the meeting.

V. **Unfinished Business** - None

VI. **New Business**

1. **Order 50-04182023**
Adopting the 5-Year Capital Improvement Plan (CIP).

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Gerry opposed).

2. **Order 51-04182023**
Allocating funds from the American Rescue Plan Act (ARPA) to establish the Auburn Victory Garden Program.

Motion was made by Councilor Hawes and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Order 52-04182023**
Allocating funds from the American Rescue Plan Act (ARPA) to support establishing the Auburn Commercial Agriculture Incentive Program.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

4. **Ordinance 03-04182023**
Amending Chapter 60 of the City Ordinances, Sec.60-145 (b)(8) - Use regulations by changing the lot size requirement for a cemetery from twenty acres to ten acres if the cemetery is a conservation cemetery. First reading.

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

5. **Ordinance 04-04182023**
Amending Chapter 60 of the City Ordinances, Sec. 60-2. Definitions, by adding the

definition of conservation cemetery. First reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

6. **Order 53-04182023**
Authorization of funds for East Auburn Tennis Courts.

Motion was made by Councilor Whiting and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported that the Lobster Festival is scheduled for May 6th from 1:00 -7:00 pm. The Lobster Festival commercial was played for the public to see. The Mayor also noted that there have been a lot of meetings of the LPC (Legislative Policy Committee), and the School Committee will be meeting tomorrow.

Councilor Staples stated that he is going to propose that we add $100,000 to our ARPA expenditures in order to provide two $50,000 grants for businesses that will provide a place for people to do something outside of the home and where they can spend their spare time.

Councilor Morin commented on how popular pickle ball is and he encouraged people to be careful and stretch to avoid injuries.

Councilor Milks announced that Mike Broadbent is the new Superintendent of the Water and Sewer Districts adding that Mike is doing a phenomenal job.

Councilor Whiting stated that the New Auburn walk is called the New Auburn Lost and Found, adding that Mr. Dennison is knowledgeable about what was lost in the big fire of New Auburn.

City Manager Crowell stated that he and the Assistant City Manager attended the Local Government Reimagined Conference that was held in Burlington, Vermont, and gave a recap of the key topic areas from the conference.

Jill Eastman, Finance Director – March Final Finance Report

Motion was made by Councilor Whiting and seconded by Councilor Milks to accept and place on file the March 2023 final finance report.

Passage 7-0.

IX. Executive Sessions

Labor contract negotiations – (Fire), pursuant to 1M.R.S.A. §405(6)(D).

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Passage 6-0 (Councilor Walker was not in the room for the vote).

Time in 8:31 pm.

Council was declared out of executive session at 8:37 pm.

Economic Development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Motion was made by Councilor Hawes and seconded by Councilor Morin for passage.

Passage 7-0.

Time in 8:37 pm.

Council was declared out of executive session at 8:54 pm.

X. Adjournment

Motion was made by Councilor Walker seconded by Councilor Whiting to adjourn. Unanimously approved and the meeting adjourned at 8:54 pm.

City Council Information Sheet

First Reading or Meeting Date: May 1, 2023 **Ordinances:** 03-04182023 & 04-04182023

Author: Planning and Permitting Dept.

Subject: Public hearing and second reading on adding conservation cemetery definition and size requirement as a zoning text amendment.

Information:
On March 28, 2023, Auburn Planning Board held a public hearing on a text amendment for Chapter 60 of the City Ordinances, specifically Sec.60-145 (b)(8)- Use regulations, and Sec. 60-2. Definitions, by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery; and adding the definition of conservation cemetery to Sec. 60-2 as stated in the petition. This item is pursuant to Chapter 60, Article XVI, Division 2-Amendment to the Zoning Ordinance or Zoning Map.
Planning Board recommended the amendments as suggested, but slightly amended for clarification, adding, "burials in conservation cemeteries consist solely of cremains." Staff believes this change is not substantive enough to require another public hearing.

City Budgetary Impacts: None

Staff Recommended Action:
Public hearing and second reading.

RE: Planning Board recommendation to City Council on adding conservation cemetery definition and size requirement as a zoning text change

Date: 04/03/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on March 28, 2023, the Planning Board forwards this report to the City Council.

PROPOSAL: PUBLIC HEARING/ PETITION/ TEXT AMENDMENT: The Life Forest submitted a petition to amend Chapter 60 of the City Ordinances, specifically Sec.60-145 (b)(8)- Use regulations, and Sec. 60-2. Definitions, by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery; and adding the definition of conservation cemetery to Sec. 60-2 as stated in the petition and as shown on the proposed text changes available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the planning department in city hall. This item is pursuant to Chapter 60, Article XVI, Division 2-Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Evan Cyr makes a motion; Riley Bergeron seconds.

"I make a motion to recommend amending chapter 60 of the city ordinances specifically sec 60-145b8 use regulations and sec 60-2 definitions by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery and adding the definition conservation cemetery to section 60-2 as stated in the petition and included in this meetings materials with the amendment that the definition of conservation cemetery read conservation cemetery means a type of natural cemetery that includes a conservation management plan that holds best practices and provides perpetual protection of the land according to a conservation easement or deed restriction. Burials in conservation cemeteries consist solely of cremains and utilize non-toxic and biodegradable chemicals."

VOTE: 7-0-0 Motion passes.

Re: Public Hearing on petition to change the minimum size requirement for cemeteries and add the definition of conservation cemetery to Chapter 60 of the zoning ordinance.
Date: March 14, 2023

I. PROPOSAL: PUBLIC HEARING/ PETITION/ TEXT AMENDMENT:

The Life Forest submitted a petition to amend Chapter 60 of the City Ordinances, specifically Sec.60-145 (b)(8)- Use regulations, and Sec. 60-2. Definitions, by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery; and adding the definition of conservation cemetery to Sec. 60-2 as stated in the petition. This item is pursuant to Chapter 60, Article XVI, Division 2-Amendment to the Zoning Ordinance or Zoning Map.

II. Materials:

1. March 14, 2023, Staff Report
2. Proposed Text Change: Sec. 60-145. Use regulations.
3. Proposed Text Change: Sec. 60-2. Definitions.
4. Signed Petition

III. Background

Amendments to the zoning ordinance, including the zoning map, may be initiated by the planning board on its own initiative or upon request by the city council or by a petition signed by not less than 25 registered voters of the city (Sec. 60-1445). The City received the completed application with 48 verified signatures on February 10, meeting the requirements of Sec. 60-1446.

Each proposal to change any zoning ordinance text (other than a change of zoning district name or zoning boundary description) shall include the wording then current, the words of change, the wording if so amended and a statement of the reasons for such change, showing how such change would affect the public health, safety, convenience and welfare (Sec. 60-1447).

One of the primary measures of whether a text change is appropriate is conformance with Comprehensive Plan. As the petition states, the proposed change is consistent with the Future Land Use Plan, Agricultural and Resource Protection (AGRP) District, and the Comprehensive Plan.

Currently, cemeteries are an allowed use in the Agricultural and Resource Protection Zone if they are at least 20 acres. This was originally put in place to avoid having many small cemeteries through the city which could become the municipality's responsibility to maintain over time. Allowing a smaller lot size for conservation cemeteries would not increase the burden of eventual maintenance for the city because first, they only bury cremains, which require smaller plot sizes, and they do not require the regular mowing maintenance of traditional cemeteries. Conservation

cemeteries and memorial forests intend that the look and feel of the land be created by nature. Therefore, unlike traditional cemeteries, there are no gravestones or manicured grass. Parking areas are to be of a gravel base and trails are to be woodland and natural.

IV. Planning Board Action

Review the proposed text change pursuant to Chapter Article XVI, Division 2-Amendment to the Zoning Ordinance or Zoning Map, for consistence with the Comprehensive Plan. Hold a Public Hearing and make a motion to approve or deny the proposal.

V. Suggested Motion:

I make a motion to recommend amending Chapter 60 of the City Ordinances, specifically Sec.60-145 (b)(8)- Use regulations, and Sec. 60-2. Definitions, by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery; and adding the definition of conservation cemetery to Sec. 60-2 as stated in the petition and included in this meeting's materials.

RECEIVED FEB 10 2023

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend Chapter 60 of the City of Auburn Ordinances, specifically changing the minimum lot size required for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery; and adding the definition of conservation cemetery to Chapter 60.

This petition is consistent with the Future Land Use Plan, Agricultural/Rural District (AG) section of the City of Auburn 2021 Comprehensive Plan. The proposed text change is attached.

ORDINANCE 03-04182023

City Council Ordinance

IN CITY COUNCIL

Amending Chapter 60 of the City Ordinances, Sec.60-145 (b)(8) - Use regulations

Be it ordained, that the Auburn City Council hereby adopts a Zoning text amendment involving use standards related to conservation cemeteries. The proposed text amendment includes amendments to Chapter 60 of the City Ordinances, specifically Sec.60-145 (b)(8)- Use regulations, by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery as shown on the attached copies with proposed amendments. This item is pursuant to Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of section 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restrictions:

a. At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according the most recent census data.

b. No certificate of occupancy shall be issued for any such farm residence until the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications presented to the municipal officer charged with enforcement are 75 percent completed.

c. In no case shall any farm residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement.

d. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this article.

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.

(10) Handling, storage and sale of agriculture produce and processed agricultural products derived from produce grown on the premises.

(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.

(12) Wayside stands.

(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.

(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.

(15) Marijuana manufacturing accessory to a licensed cultivation site.

(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in section 60-1501.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:

a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.

b. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.

c. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.

(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.

(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.

(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.

(5) Recreational uses of land intended or designed for public use subject to the following conditions:

a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.

b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.

(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:

a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.

b. In cases where no minimum setback is established by division 5 of article XII of this chapter an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:

a. At least 20 acres in area.

b. Not located in any environmental overlay district or over any known aquifer.

c. At least 10 acres if designated a conservation cemetery.

(9) Municipal sanitary landfills, subject to the following conditions:

a. Not located in any environmental overlay district or over any known aquifer.

b. Provisions shall be made to avoid surface water and groundwater pollution.

c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:

a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.

b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:

a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.

b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:

a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.

b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.

c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:

a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.

b. The proposed use shall not occupy more than 10,000 square feet of building area.

c. The number of employees shall be limited to not more than 15.

d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.

e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:

a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.

b. Provisions shall be made to avoid surface and groundwater pollution.

c. Provisions shall be made to counteract vermin, insects and odors.

d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.

e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is requested or is adjacent to the property for which the special exception is requested.

(18) One-family detached dwellings, including manufactured housing, subject to all the design standards, except the siting requirements of section 60-1010, as set forth in division 6, article XII of this chapter, on parcels containing greater than 6.1, but less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restrictions:

a. At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according to the most recent census data; and

b. No certificate of occupancy shall be issued for any such farm residence until the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications presented to the municipal officer charged with enforcement are 75 percent completed; and

c. The applicant shall demonstrate compliance with the following requirements, said compliance to be first reviewed by the Agricultural Advisory Committee for recommendation:

1. The applicant shall provide a farm business plan that appears feasible and, if implemented, will meet the definition of a farm.

2. The parcel can reasonably accommodate the proposed farm.

3. The applicant shall demonstrate a commitment to the proposed farm use through compliance with the following requirements:

4. The parcel must contribute to a gross income per year of at least the amount required to meet the definition of farmland in 36 M.R.S.A. § 1102(4), per year from the sales value of

agricultural products as defined in 7 M.R.S.A. § 152(2) in the two calendar years preceding the date of application for special exception use approval. Gross income includes the value of commodities produced for consumption by the farm household.

5. The proposed residence shall be accessory to farming.

6. The proposed residence shall not be located in the Lake Auburn Watershed Overlay District.

d. The parcel was existing as of October 1, 2017, contains more than five acres of land area, and otherwise meets the requirements of this chapter.

e. In no case shall any farm residence constructed under the provisions of this section, after the effective date of the amended ordinance from which this section is derived, continue to be occupied as a residence if the principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement.

f. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirement of this article.

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in section 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.

2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.

3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under subsection 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on subsection 60-145(b)(19)d. by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.

2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.

3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;

2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;

3. To the extent possible, infrastructure shall not be located on steep slopes; and

4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.

2. A plan that provides habitat for native plants and animals and native pollinators.

ORDINANCE 04-04182023

City Council Ordinance

IN CITY COUNCIL

Chapter 60 of the City Ordinances, specifically Sec. 60-2. Definitions

Be it ordained, that the Auburn City Council hereby adopts a Zoning text amendment involving definitions for conservation cemeteries. The proposed text amendment includes amendments to Chapter 60 of the City Ordinances, specifically Sec. 60-2. Definitions, by adding the definition of Conservation Cemetery to Sec. 60-2 as shown on the attached copies with proposed amendments. This item is pursuant to Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Accessory structure or building means an uninhabited building, at least five feet in distance from the principal building, used for a purpose which is customarily subordinate and incidental to that of the principal building or to the principal use of the land and which is located on the same lot as the principal building use. The term "accessory buildings," in residential districts, includes tool sheds, wood sheds, detached garages and swimming pools. No accessory building shall house a home occupation or professional office or be used as a sales outlet in a residential district.

Accessory use means a subordinate use of land or building which is customarily incidental and subordinate to the principal building or to the principal use of the land and which is located on the same lot with the principal building or use.

Adaptive reuse means a special exception permitting a structure of community significance to be used for one or more purposes, not otherwise permitted in the district in which the building is located, but which the planning board has determined will contribute to the preservation of a structure of community significance, including without limitation, the following uses:

(1) Bed and breakfast homes or inns;

(2) Restaurants, diners or cafes;

(3) Art studios and galleries;

(4) Performing arts centers;

(5) Medical and dental clinics;

(6) Office space;

(7) Municipal and government uses; and

(8) Retail sales as an accessory use.

Adult day center means a supervised facility providing a program of education, crafts or recreation for adults over the age of 55 years.

Animal unit means one living animal of any species.

Antique shop means a building, or portion of building, where artifacts from generally recognized previous eras are sold or traded as the primary commercial activity.

Apartment. See the term *Dwelling unit.*

Architectural features means exterior building elements intended to provide ornamentation to the building massing, including but not limited to, eaves, cornices, bay windows, window and door surrounds, light fixtures, canopies, and balconies.

Art galleries means a building or place where works of art or other objects of value are kept, displayed, produced and offered for sale to the general public.

Artist studio, residential means a dwelling where up to 50 percent of the total floor space can be used for the production of art and/or craft products. The term "residential artist studio" shall not include galleries or studios open to the public for display or sales. All artist studios shall be designed to meet all residential safety and occupancy requirements and shall be considered to be accessory to the residential use.

Automobile means a passenger vehicle propelled by a self-contained motor. The term "automobile" also includes motorcycles, all-terrain vehicles, trucks and recreation vehicles (RVs).

Automobile and marine paint and body shops means a building in which the business of automobile and marine paint and bodywork is conducted. Such use may also include as an accessory use a facility for the orderly display and sale of vehicles which have undergone substantial body repair on the premises. No such facility shall display, outdoors or indoors, or offer for sale more than ten vehicles at any one time.

Automobile and marine repair and service station means a building, lot or both in or upon which the business of general motor repair and vehicle service is conducted, but excluding junk and/or wrecking businesses.

Automobile, commercial, means a vehicle the primary use of which is commercial in character.

Automobile filling station means a building or lot having pumps and storage tanks at which fuel, oil or accessories for the use of motor vehicles are dispensed, sold or offered for sale at retail, where repair service is incidental and no vehicle storage or parking space is offered for rent.

Automobile garage, private, means an accessory building or portion of a main building designed, arranged or used for housing of private motor vehicles, only one of which may be a commercial vehicle. Not more than 50 percent of the space in such a garage shall be used for housing vehicles other than those owned by occupants of the premises.

Automobile parking lot, private, means a parcel of land, lot or portion thereof required, in accordance with these regulations, for off-street automobile parking.

Automobile repair and service station means a building, lot or both in or upon which the business of general motor vehicle repair and service is conducted, but excluding junk and/or wrecking business.

Automobile sales lot means a lot arranged, designed or used for the storage and display of motor vehicles or any unoccupied trailer for sale.

Automobile scrap yard means any land or building used for the dismantling, storage and salvaging for reuse of automobiles or other vehicles not in running condition.

Automotive towing and storage means a business engaged in/or offering the services of a towtruck or towing service whereby motor vehicles are towed or otherwise removed from one place to another by the use of a motor vehicle specifically designed for that purpose. Storage of towed vehicles is considered to be the keeping of vehicles in a secured yard for not more than 120 days until claimed or disposed of in accordance with the laws of the state.

Basement means that portion of a building below the first floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Bed and breakfast home means an accessory use to a single-family dwelling involving the renting of four or fewer guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast only to house guests. Such establishment shall be owned and operated by the resident of the dwelling. The term "bed and breakfast home" also includes a tourist home.

Bed and breakfast inn means a dwelling involving the renting of more than four but fewer than ten guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast to house guests only. Such use may provide a restaurant, function rooms and places of public assembly.

Boardinghouse or *lodginghouse* means a dwelling which, for compensation, lodging, or lodging and meals are provided to more than four persons and where a proprietor or owner may reside in the building. No provisions for cooking in individual rooms other than a main kitchen is allowed.

Building means a structure having one or more stories and a roof, designed primarily for the shelter, support or enclosure of persons, animals or property of any kind. (See the term *Structure*.)

Building envelope means the ground area on a lot and the space above it on which a building may be constructed.

Building form means the overall shape and dimensions of a building.

Building height means the vertical distance from the grade of the top of the highest roof beams of a flat roof, or to the mean level of the highest gable or slope of a hip roof. When a building faces on more than one street, the height shall be measured from the averages of the grades at the center of each street front.

Building inspector means the building inspector of the City of Auburn, Maine, or their duly authorized agent.

Building line means a line beyond which the foundation wall and/or any enclosed porch, vestibule of other enclosed portion of a building shall not project.

Building, principal, means a building in which is conducted the principal use of the lot on which it is situated.

Care home means a rest, nursing, or convalescent home established to render domiciliary nursing care and board for chronically ill or convalescent patients, or persons who are infirm because of mental or physical conditions, but excluding a child care home or one for the care of mentally retarded patients, alcoholics, psychotics or drug addicts.

Cellar means that portion of a building below the first floor joists having at least one-half of its clear ceiling height below the mean level of the adjacent ground. A cellar shall not be used for habitation.

Cemetery means a place used for the permanent interment of dead bodies or cremated remains thereof. A cemetery may be a burial park of earth interments, a mausoleum for vault or crypt interments, a columbarium for cinerary interments, or a combination of one or more thereof.

Child care home means a child boarding home, summer camp, foster family home or other place providing domiciliary arrangements for compensation, of three or more children, unrelated to the operator by blood, marriage or adoption, under 18 years of age. A facility providing child day care less than 24 hours per day, per child, to more than five children shall not be considered a child care home. The term "child care home" includes any family-type facility which provides child care to children placed by order of any court of competent jurisdiction, or by any public welfare department, or other governmental agency having responsibility for placing children for care, or placed by child-placing agency licensed under state law.

Child day care center means a facility conducted or maintained by anyone who provides, for consideration, care and protection for more than 12 children under 16 years of age, unrelated to the day care center operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care center, but is classified as a nursery school.

Child day care home means an accessory use of a residence by a person residing on a premises to provide on a regular basis, and for consideration, care and protection for up to 12 children under 16 years of age, unrelated to the day care home operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care home, but is classified as a nursery school. A child day care home shall not be located closer to another child day care home than 500 feet measured along the street frontage. Child day care homes shall be reviewed under the city's home occupation regulations (article IX of this chapter) and shall meet the following:

(1) All outdoor play areas, used in conjunction with the day care operation, shall be fully enclosed by a fence, a minimum of four feet in height.

(2) If the property utilizes a private sewerage disposal/septic system a written verification from a site evaluator, stating that the current system can handle the change of use to include the children in the proposed day care, shall be submitted.

Church means a building, together with its accessory buildings and uses, where persons regularly assemble for religious worship, and which buildings, accessory buildings and uses are maintained and controlled by a religious body organized to sustain public worship.

Clinic means an establishment where patients are accepted for treatment by a group of physicians practicing medicine together, but shall not offer domiciliary arrangements; medical and dental.

Club, private, means any building or rooms, which serve as a meeting place for an incorporated or unincorporated association for civic, social, cultural, religious, literary, political, recreational or like activities, operated for the benefit of its members and not open to the general public.

Community based residential facilities (CRF) means dwelling units providing communal domiciliary arrangements for a group of unrelated persons under supervision of the state government human service agencies, for the transition of formerly institutionalized persons back into the mainstream community living and participation, a halfway house, or a group home.

Comprehensive plan means the master development plan of the City of Auburn, Maine, any amendments, or additions thereto, part or portion thereof adopted by the city council upon recommendations of the planning board of Auburn, Maine, pursuant to 30-A M.R.S.A. § 4323.

Conservation cemetery means a type of natural cemetery that includes a conservation management plan that upholds best practices, and provides perpetual protection of the land according to a conservation easement or deed restriction. Burials in conservation cemeteries utilize non-toxic and biodegradable materials.

Convenience store means a business establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table, other articles of household use and gasoline pump service is offered for sale. Such a use may include the sale of food vended in disposable containers for consumption on or off the premises.

Court means an open, unoccupied space, other than a yard, on the same lot with a building or group of buildings which is bounded on two or more sides by such building or buildings and every part of which is clear and unobstructed from its lowest point to the sky.

Dental clinic means an establishment where patients are accepted for treatment by a group of dentists practicing dentistry together.

Development standard(s) means building standards that establish basic parameters governing building form, including the envelope for building placement in three dimensions and certain permitted and required building elements such as storefronts, balconies, street walls, etc. The development standards establish both boundaries within which development may take place and what requirements apply.

Director means the director of planning and any successor or other official designated from time to time by the city council to enforce the provisions of this chapter.

District or *zone* means an area within which certain uses of land and buildings are permitted or denied pursuant to municipal review, and certain others are prohibited.

District, overlay, means a special district or zone which addresses special land use circumstances and environmental safeguards and is superimposed over the underlying existing zoning districts. Permitted uses in the underlying zoning district shall continue subject to compliance with the regulations of the overlay zone or district.

Dormitory means a building or portion thereof used for sleeping purposes in connection with a school, college or other educational institution.

Driveway means private ways intended for internal vehicular circulation on a lot or within an automobile parking lot.

Dump means any premises used primarily for disposal by abandonment, discarding, dumping, reduction, burial, incineration or any other means and for whatever purpose of garbage, trash, refuse, dead animals, waste materials of any kind, junk; but not untreated sewage, animal waste, discarded machinery, or vehicles or parts thereof. The establishment of any dump shall be approved by the city council of the City of Auburn.

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

Dwelling, one-family attached, means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.

Dwelling, one-family detached, means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. Each one-family detached dwelling shall contain not less than 700 square feet of net floor area of habitable space.

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Eave means the edge of a roof which projects beyond the exterior wall.

Encroachment means any architectural feature, structure or structural element, such as a gallery, fence, garden wall, porch, stoop, balcony, bay window, terrace, or deck that breaks the plane of a vertical or horizontal regulatory limit exceeding into a setback, the public frontage, or above a height limit.

Erected includes the terms "built," "constructed," "reconstructed," "enlarged" and/or "retained on."

Facade means the vertical surface of a building.

Family means one or more persons occupying a single housekeeping unit and using common cooking facilities, provided that unless all members are related by blood or marriage, no such family shall contain over four persons.

Farm means any parcel of land which is used in the raising of agricultural products, livestock or poultry, or for dairying.

Farm, livestock, means any parcel of land that contains at least the following land area used for the keeping of horses, mules, donkeys, cattle, goats, sheep, swine and similar sized animals for the agricultural use of the residents of the lot, provided that there is a minimum of 1 acre of land as required by Chapter 8 Animals and adequate land area is provided for each animal unit, excluding water bodies of one-quarter acre surface area or larger:

(1) Cattle: One bovine animal unit per acre of cleared hay-pasture land.

(2) Horse: 1.5 animal units per acre of cleared hay/pasture land.

(3) Sheep: Three animal units per acre of cleared hay/pasture land.

(4) Swine: Two animal units per acre of cleared land.

(5) Other livestock farms: The required lot size shall be determined by municipal officer charged with enforcement and shall conform to the lot size for similar sized animals.

Floodplain overlay means those areas of the city which are directly affected by flooding as shown on the flood insurance rate maps (FIRM) as established by the Federal Emergency Management Agency and that shall comply with the pertinent regulations found in division 2 of article XII of this chapter pertaining to the Floodplain Overlay District.

Floor area of building means the total number of square feet of floor area of all stories in a building, excluding cellars, uncovered steps and uncovered porches. All horizontal measurements shall be made between exterior faces of walls.

Form based code means a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code.

Form based code zoning district means one of the five areas on the regulating plan, including Transect 4.1 (T-4.1), Transect 4.2 (T-4.2), Transect 5.1 (T-5.1), Transect 5.2 (T-5.2), and Transect 6 (T-6).

Frontage means the length of a lot extending between the side lot lines of a lot which borders an accepted portion of a street. Maine Turnpike frontage does not apply to this definition.

Frontage line means the lot line(s) of a lot fronting a street or other public way.

Greenhouse means an enclosed structure where trees, shrubs, vines and plants are propagated, grown or maintained. Activities associated with a greenhouse include:

(1) The sale of greenhouse products and related supplies; and

(2) The storage of material used in the maintenance of plants and growing items sold.

Grocery store means a small retail establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table and other articles of household use are offered for sale. Such a use may include the sale of food vended in disposable containers for consumption on or off the premises; a corner market, a mom and pop store.

Ground area of building means the total number of square feet of horizontal surface covered by a building, including covered porches and accessory buildings. All measurements shall be made between exterior faces of walls, foundation, piers or other means of support.

Group home. See the term *Community based residential facilities.*

Guesthouse means a detached dwelling that is intended, arranged or designed for occupancy by transient, nonpaying visitors.

Habitable space means that area within a dwelling which has headroom of not less than seven feet when measured vertically upward from the finished floor, provided that any such area next below the roof of a dwelling shall be counted only if it is connected with the story next below by a permanent inside stairway. The floor area of any porch, cellar room, garage or shed attached to such dwelling shall not be counted in any measure of habitable space.

Half-story means a story directly under a sloping roof in which the points of intersection of the bottom of the rafters with the interior faces of the walls are less than three feet above the floor level.

Historic site means a parcel of land, a particular building, or a group of buildings that have played a significant role in the history of the community, and identified as such by the state historic preservation committee.

Historic or archaeological resources means areas identified by a governmental agency such as the state historic preservation commission as having significant value as historic or archaeological resources and any areas identified in the municipality's comprehensive plan.

Hog farm means any land or building used for the purpose of keeping, feeding or raising 20 or more swine per piggery. Establishment of this use requires approval from the city health department.

Home occupation means the accessory use of a dwelling unit for a business or commercial venture engaged in, by the person residing in the dwelling unit, and which allows up to one person who does not reside on the premises to be employed by that home occupation.

Hospital means any institution receiving inpatients and rendering medical, surgical and/or obstetrical care. The term "hospital" includes general hospitals and institutions in which service is limited to special fields such as cardiac, eye, nose and throat, pediatric, orthopedic, skin, cancer, mental health, tuberculosis, chronic disease and obstetrics. The term "hospital" also includes sanitariums, including those wherein mentally retarded and mental patients, epileptics, alcoholics, senile psychotics or drug addicts are cared for or treated.

Hotel means a building in which the primary use is transient lodging accommodations offered to the public on a daily rate of compensation and where ingress and egress to the sleeping rooms is primarily through an inside lobby or office, supervised by a person in charge at all hours. Such facilities may include accessory uses such as restaurants, bars, nightclubs, function rooms, places of public assembly and/or recreational facilities.

Household pet means any animal kept as a pet and normally housed at night within the owner's dwelling or an accessory building on the same lot, including laying hens, but not including any animal normally raised as livestock or poultry or any animal raised for commercial gain. No household pet shall be kept that creates a public nuisance by reason of:

(1) Objectionable effects perceptible outside the owner's property, such as excessive or untimely noise or offensive odors; or

(2) Being a hazard to the health, safety and welfare of neighbors, invited guests or public servants visiting the property in the pursuit of their normal duties.

Illustrative plan means a plan or map that depicts (i.e. Illustrates but does not regulate) the streets, lots, buildings and general landscaping of the proposed Downtown Auburn/New Auburn Form-Based Code District.

Industrial use, heavy, means the use of real estate, building or structure, or any portion thereof, for assembling, fabricating, manufacturing, packaging or processing operations.

Industrial use, light, means the use of real estate, building or structure, or any portion thereof, for manufacturing or fabrication which will not create a nuisance by noise, smoke, vibration, odor or appearance.

Institution means any building or open area used only by an educational, religious, medical, charitable, philanthropic, or nonprofit organization, either public or private.

Institution, philanthropic, means a private, nonprofit organization that is not organized or operated for the purpose of carrying on a trade or business, no part of the net earnings of which inures to the benefit of any member of said organization and which either:

(1) Provides volunteer aid to the sick and wounded of the armed forces in time of war and relief services to victims of natural or manmade calamities; or

(2) Provides all or any of the following: religious, social, physical, recreational and benevolent service.

Institution, private educational, means any private school or educational institution, however designated, which offers an academic curriculum of college, professional, preparatory, high school, middle school, elementary, kindergarten or nursery school instruction, or any combination thereof; but not a training program of trade, craft,

technical or artistic instruction operated by a governmental entity. No private educational institution shall be deemed a home occupation. (See the terms *Training school* and *School.*)

Institution, research, means an agency for scientific research of technical development including offices, libraries, laboratories, testing facilities and equipment incidental to such research and development.

Junkyard or*automobile graveyard* means any land or building used for the abandonment, storage, keeping, collecting or bailing of paper, rags, scrap metal, other scrap or discarded material, or for the abandonment, demolition, dismantling, storage or salvaging of automobiles or other vehicles not in running condition, machinery or parts thereof. Establishment and operation of this use requires annual approval from the City Council of Auburn, Maine.

Kennel means any building and/or land used, designed or arranged for the boarding, breeding or care of dogs, cats, pets, fowl or domestic animals, kept for purposes of show, hunting or as pets, except horses.

Land use permit means a permit required for the use of property that is legally permitted under the provisions of this chapter.

Landscape services means the actual planting, bed preparation, installation of landscape materials and maintenance of the landscape, planting and materials. Activities associated with landscaping include: the storage of materials and equipment related to the performance of landscaping, the temporary storage of trees, shrubs and plants pending installation in an existing landscape plan and the application and storage of pesticides and fertilizers by a licensed person.

Lawn maintenance service means the care and upkeep of the landscape after its installation and consists of such activities as mowing of the lawn, pruning of trees and shrubs, application by hand of fertilizer and weed control, insect and disease control, planting and care of flower beds, replacement of dead plants, incidental repairing of walls and paved surfaces, cleaning of fountains and pool basins, irrigation of lawns, cultivation of soil around trees and shrubs, rolling and reseeding of lawns, raking of leaves, winterization of trees and shrubs and snow removal.

Library means a place containing books and other material for reading, study or reference, provided that no such material is offered for sale.

Livestock means, but may not be limited to, any horses, mules, donkeys, cattle, goats, sheep, or swine.

Lodge, private. See the term *Club, private.*

Lot means for zoning purposes, as covered by this chapter, a lot is a parcel of land under one ownership or joint ownership of at least sufficient size to meet minimum zoning requirements for use, coverage and area, and to provide such yards and other open spaces as are herein required. Such lot shall have frontage on an accepted public street and may consist of:

(1) A single lot of record;

(2) A portion of a lot of record;

(3) A combination of complete lots of record;

(4) A parcel of land described by metes and bounds; provided that in no case of division or combination shall any residential lot or parcel be created which does not meet the requirements of this chapter;

(5) Lots shown on a plan approved by the planning board of the City of Auburn.

Lot frontage/width means the front of a lot shall be construed to be the portion nearest the street. For the purpose of determining yard requirements or corner lots and through lots, all sides of a lot adjacent to streets shall be considered frontage, and yards shall be provided as indicated under the definition of yards in this section.

Lot line, rear, means the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said front lot line.

Lot measurements means the following measurements:

(1) The depth of a lot shall be considered to be the uninterrupted distance between the midpoints of lot frontage and the midpoint of the rear lot line unless the lot meets the exception provided for by section 60-39.

(2) The width of a lot shall be considered to be the distance between straight lines connecting front and rear lot lines at each side of the lot, measured across the rear of the required front yard, provided, however, that the width between the side lot lines at their foremost points (where they intersect the street line) shall not be less than 80 percent of the required lot width except in the case of a lot on the turning circle of a cul-de-sac, where the 80 percent requirement shall not apply.

Lot of record means a lawfully laid out lot which is part of a subdivision recorded in the proper office of the registry of deeds, or a lawfully laid out lot or parcel described by metes and bounds, the description of which has been so recorded.

Lot types means the diagram which follows illustrates terminology used in this chapter with reference to corner lots, interior lots, reversed frontage lots and through lots. In the diagram above, the lots designated by letters are defined as follows:

(1) Corner lot, defined as a lot located at the intersection of two or more streets. A lot abutting on a curved street or streets shall be considered a corner lot if straight lines drawn from the foremost points of the side lot lines to the foremost points of the side lot lines to the foremost point of the lot meet at an interior angle of less than 135 degrees. (See lots marked A(1) in diagram)

(2) Interior lot, defined as a lot other than a corner lot with only one frontage on a street other than an alley.

(3) Through lot, defined as a lot other than a corner lot with frontage on more than one street other than an alley. Through lots with frontage on two streets may be referred to as double frontage lots.

(4) Reversed frontage lot, defined as a lot in which the frontage is at right angles or approximately right angles to the general pattern in the area involved. A reversed frontage lot may also be a corner lot or an interior lot. (See A-D and B-D in diagram.)

Lot, undersized, means for zoning purposes, as covered by this chapter, an undersized lot is a parcel of land of insufficient size to meet minimum zoning requirements for area or width or depth.

Major or principal arterial highway means the highway that:

(1) Serves the major traffic movements within urbanized areas such as between central business districts and outlying residential areas, between major intercity communities, or between major suburban centers;

(2) Serves a major portion of the trips entering and leaving the urban area, as well as the majority of the through traffic desiring to bypass the central city;

(3) Provides continuity for all rural arterials which intercept the urban area. The term "major or principal arterial highways" includes Washington Street (State Routes 4 and 100, U.S. 202), Minot Avenue (State Routes 11 and 121), Union Street/Center Street/Turner Road (State Route 4), Veterans Memorial Bridge and approaches (State Routes 11 and 100, U.S. Route 202), North Bridge/Court Street to in town Minot Avenue Intersection (Turner Street), Court to Center Street (State Route 4).

Major recreational use of land means permanent use of at least 100 acres of outdoor space limited to ski areas with at least two lifts and public and private golf courses with a minimum of 18 holes.

Major retail development means a single building in excess of 100,000 square feet of new ground floor retail space.

Manufactured housing means a structural unit designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site. The term "manufactured housing" includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. The term "manufactured housing" includes newer mobile homes and modular homes.

Mining, quarrying, or *earth removing* means the excavation of any earth materials.

Minor arterial highway means the highway that:

(1) Serves trips of moderate length at a somewhat lower level of travel mobility than principal arterials;

(2) Provides access to geographic areas smaller than those served by the major arterial highway system; and

(3) Provides intra-community continuity but does not penetrate identifiable neighborhoods. Examples are Riverside Drive, Mill Street, South Bridge (Broad Street to Mill Street), Main Street, Mechanics Row, High Street (Minot Avenue to Academy Street), Academy Street (High Street to Main Street), Elm Street, Spring Street (Minot Avenue to Court Street), Turner Street (Union Street to Turner Road), Mount Auburn Avenue (Center Street to Turner Street), Lake Street, Court Street (Union Street to in town Minot Avenue Intersection), Hotel Road (Manley Road to Poland Spring Road).

Mobile home development, intended to be generic, includes mobile home parks, mobile home subdivisions, and mobile home condominiums.

Mobile home park means a parcel of land under single ownership in rural residence and suburban residence districts which has been planned and improved for the placement of not less than three mobile homes for nontransient use.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width and are 700 or more square feet, and which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

Motel means a building or group of detached buildings intended primarily to provide sleeping accommodations to the public on a daily rate of compensation and having a parking space generally located adjacent to a sleeping room. Such facilities may include a main kitchen or snack bar for the use of motel guests only.

Municipal sanitary landfill means a disposal site for household, commercial and industrial wastes, sludge or incinerator ash operated or controlled for operation by the city in a controlled manner involving the covering of deposited wastes with layers of earth so as to reduce health hazards and public nuisances from vermin, insects, odors and wind-borne debris. The location and design of sanitary landfills also require precautions against ground and surface water contamination through clay lining, water impoundment, aquifer avoidance and similar techniques.

Municipal uses means any lawful use of a building or of land carried on by the city sanitary landfill shall not be deemed a municipal use.

Museum means a building or place where works of art or other objects of permanent value are kept and displayed, provided such objects are not offered for sale.

Nonconforming building means a building lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming lot means a lot lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming use means a use of a building or of land lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform with the use regulations of the district in which it is located.

Nursery means an outdoor place where live trees, shrubs, vines and plants are propagated, grown or maintained before permanent planting. Activities associated with nursery a business include: the sale of nursery products and related gardening supplies, the storage of material used in the maintenance of plants and growing items sold and the use of power-motorized equipment required by the nursery.

Nursery, child, means a facility providing a program less than 24 hours per day per child for the care of infants up to the age of 2½ years.

Nursery, wholesale, means a nursery where plants, trees, shrubs and vines are propagated and/or grown and sold only at wholesale to industry related buyers such as retail nurseries, greenhouses and landscape contractors. A wholesale nursery may also provide landscape services accessory to the nursery use provided.

(1) At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner; and

(2) The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

Office means a building, or portion of a building wherein services are preformed involving predominantly administrative, professional or clerical operations.

Office trailer means a movable vehicle or structure designed for year round or temporary occupancy for purposed of supervising construction; for business actually engaged in the business of selling manufactured housing, mobile homes and trailers; and as temporary office space for a business during the period in which permanent office space is being constructed.

Open space, common means land within or related to a development which is not individually owned and is designed and intended for the common use or enjoyment of the residents of a development and may include such complementary structures and improvements as are necessary and appropriate.

Outpatient addiction treatment clinic means a program or facility operated for the purpose of and specializing in the care, treatment and/or rehabilitation of persons suffering with addictions, including but not limited to gambling addition, alcohol or controlled substance addictions. The term "outpatient addiction treatment clinic" includes, but is not limited to, substance abuse treatment programs licensed by the State of Maine Department of Behavioral and Developmental Services Office of Substance Abuse. An outpatient addiction treatment clinic shall not be located within 2,000 feet of any property that is occupied by a church, school, family day care home, small day care facility, day care center, or public park or playground on the date of application for a license for such a facility. The term "outpatient addiction treatment clinic" does not include an inpatient or residential addiction treatment program, or a program consisting solely of support group activities without treatment by licensed health practitioners, such as Alcoholics Anonymous, Narcotics Anonymous, and similar programs.

Parapet means a low wall along the edge of a roof or the other portion of a wall that extends above the roof line.

Parking space, off-street, means a rectangular area, not less than nine feet by 18 feet, forming a parking stall within or without a structure, not located in any public right-of-way.

Performing arts center means a public or private space used to create and present various performing and visual arts. For the purposes of this definition, the term "performing arts center" also includes educational and training uses associated with the various performing and visual arts.

Personal services means the furnishing of labor, time and effort by a person as an independent contractor not involving the delivery of a specific end product.

Place of worship see definition of church.

Planning board means the planning board of the City of Auburn, Maine.

Primary entrance means a section of building elevation which contains the street level principal entrance of the business, including the businesses on upper floors or in a basement.

Principal use means the principal use for which a lot or main building thereon is designed, arranged or intended and for which it is or may be used, occupied or maintained.

Professional office means rooms and/or buildings used for office purposes as the principal use by members of any recognized profession, including doctors, dentists, lawyers, accountants, engineers, architects, veterinarians, etc.

Realm, private means the physical and social domain that is considered private by their physical location and visual association being away from public view. This is considered areas behind the front building facade along with side and rear yard areas.

Realm, public means the physical and social domain of the public that is held in common either by their physical presence or visual association. This includes but is not limited to sidewalks, plazas, squares, parks, streets, front yards, civic buildings and civic spaces.

Recreational uses of land means permanent uses of outdoor space which are intended or designed for public use and include but are not limited to ski areas, golf courses (both public and private), driving ranges, horse boarding and riding facilities, miniature golf, paintball, horse and dog racing, snowmobile races, motorhome or recreational vehicle parks or commercial campgrounds and facilities for mass gatherings when used for two or more events during a calendar year.

Regulating plan means the adopted map that shows the Form Based Code zoning districts, which correspond to the special requirements of the form based code.

Restaurant means an eating place in which food is prepared and vended for immediate consumption on the premises without further preparation by the customer. The takeout of food on an infrequent basis is not prohibited.

Restaurant, carry-out, means an eating place in which all food is vended in disposable containers for consumption on or off premises at the customer's choice; a fast-food restaurant.

Restaurant, drive-in, means an eating place in which the business transacted is conducted by a customer from within his automobile or in which consumption of goods sold normally takes place within the customer's automobile on the establishment's premises.

Retail means a principal use encompassing the sale of commodities or goods in small quantities directly to the consumer. The term "retail" sales does not include sales of professional, financial and governmental services and personal services, including but not limited to a hotel and its accessory uses (restaurants, salons, gift shops, recreational facilities, convention space, etc.).

Retail space means the areas of a building, within a climate controlled environment, devoted to the display of commodities or goods for sale directly to the consumer and including customer sales transaction areas and areas associated with customer access.

Rifle, pistol, skeetor trap shooting range means a rifle, pistol, skeet or trap shooting range operated by an individual or club. Such a range may be opened to the general public or developed for the exclusive use of the individual, or club and invited guests.

Road means any public or private traveled way or any portion thereof.

Roof means the covering for a building which is an integral part of the structure for the purpose primarily of protecting the interior of the building or covering a porch or other similar permanent portion thereof, excluding awnings, stoop coverings, or similar additions which are removable without substantially impairing the original structure.

Sawmill means a unit designed to saw logs into lumber, firewood or other processed wood products.

School means an educational institution offering an academic curriculum; not the teaching of the crafts or a training school offering a program of trade, technical instruction or physical education. (See the term *Training school.*)

Shared housing means housing consisting of two or more families occupying a single dwelling and using common cooking facilities. Shared housing shall permit the same number of families at the same density as allowed in the zoning district where the property is located subject to all applicable codes relating to building, housing, life safety, health and zoning as would be applied to independent living units located in the same structure. Approval for shared housing shall be secured from the department of community development and planning subject to the codes and ordinances indicated in this definition, prior to establishing a shared housing arrangement in any building.

Shelter for abused persons means dwelling facilities complying with the laws administered by the state government human services agencies, providing temporary domiciliary arrangements for children and adults unable to protect their own interest and welfare because of critical family circumstances.

Shopping center or*office mall* means a planned integrated complex of three or more retail stores and/or offices sharing a common structure and developed according to a unified plan. Such uses may include a common pedestrian circulation system and off-street automobile parking facilities.

Sign means any device, display surface, structure or object in public intended for visual communications.

Sign, mobile mounted, means a temporary sign which is mounted or for mounting on wheels or a mobile platform or which is portable.

Sign, official business directional, means any off-premise sign permitted to be erected pursuant to article II of chapter 42.

Sign, on-premises, means any sign that advertises, calls attention to, or indicates the person occupying the premises on which the sign is erected or maintained or the business transacted thereon, or advertises the property itself or any part thereof as for sale or rent, and which contains no other matter.

Sign, standing, means any sign that is not attached to a building.

Sign, temporary, means any movable sign, including its supporting structure, intended to be maintained for not more than 90 days in any calendar year.

Site-built home means a building constructed on-site which is designed to be used as a dwelling on foundations, when connected to the required utilities.

Slaughterhouse (abattoir, dressing plant) means any building, place or establishment in which is conducted the slaughtering of livestock and/or poultry for commercial purposes.

Special exception means a use that would not be appropriate generally or without restriction throughout the district, but which, if controlled as to number, area, location or relation to the neighborhood, would promote the public health, safety, welfare, order, comfort, convenience, appearance, prosperity, or general welfare. Such a use may be permitted in such district as a special exception, if specific provision for such special exception is made in this zoning chapter and reasonable restrictions imposed by the planning board are complied with.

Specialty shop means a retail business offering products of a similar kind and nature designed for a particular use, purpose or occasion and distinguished from a store offering the same type of product together with other products of a nonhomogeneous quality.

Stable, riding, means any building or structure used or designed for boarding, breeding or care of horses, other than horses used for farming or agricultural purposes.

Standing means a person who holds title, right or interest in a property which may include a written option, contract to purchase the property or a leasehold interest or may be a person who can show how his actual use or enjoyment of property will be adversely affected by the proposed decision as an abutter as defined in section 60-1473.

Story means that portion of a building between the surface of any floor and the surface of the other floor or roof next above it, but not including the lowest portion so contained if more than one-half of such portion vertically is below the mean finished grade of the ground adjoining such building unless such space is used for business or as habitable space, in which case it shall count as a story.

Story, half, means a story under the gable, hip or gambrel roof, the plates of which on at least two opposite exterior walls are more than two feet above the floor of such story.

Street means the following:

(1) A public way laid out and established by the state, county commissioners of the County of Androscoggin;

(2) A way accepted by the municipal officers of the city;

(3) A way as to which a petition for improvements has been allowed under the provisions of this chapter for which the cost of the improvements has been provided for by the developer in either a cash amount or as provided for in this chapter; or

(4) A way on a plan of a subdivision duly approved by the planning board.

Street frontage. See the term *Frontage.*

Street line means a line defining the edge of a street right-of-way separating the street from abutting property or lots.

Street, primary means the street that is considered to be more intensely used than the other on a corner or double sided lot.

Street, secondary means the street that is considered to be less intense to the other on a corner or double sided lot.

Structure of community significance means a building that by virtue of its historic, social, cultural or economic contribution to the community, as determined by the planning board, is entitled to a special exception allowing its adaptive reuse. The planning board may consider a building's age, as well as any evidence of its role in the historic, social cultural, or economic history of the community, in determining whether a building qualifies for this designation.

Structure or *building* means a combination of materials to form a construction that is safe and stable including, among other things: stadia, reviewing stands, platforms, automobile parking garages, stagings, windmills, observation towers, trestles, sheds, coal bins, shelters and display signs, but not fences of any kind.

Subdivision means a division of land as defined in 30-A M.R.S.A. § 4401.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations not exceeding 30 days.

Supermarket means a retail establishment having an interior selling space of 3,000 square feet or more where general food supplies for the table and other articles of household use are offered for sale.

Swimming pool means any manmade receptacle or excavation housing a surface area of 250 square feet, or more, designed to hold water to a depth of at least 24 inches, primarily for swimming or bathing whether in the ground or above the ground.

Theater, indoor, means a building designed and/or used primarily for the commercial exhibition of motion pictures or plays to the general public.

Theater, outdoor, includes only those areas, buildings or structures designed and used for the commercial outdoor exhibition of motion pictures to passengers in parked motor vehicles.

Tourist home. See the term *Bed and breakfast home.*

Townhouse means a single-family dwelling unit that is one of two or more residential buildings having a common or party wall separating the units.

Trailer or *RV* means any vehicle or structure, except a device exclusively used upon stationary rails or tracks, mounted on wheels for use on highways and streets; propelled or drawn by its own or other motor power; and designed and constructed to provide living and/or sleeping quarters for one or more persons or for the conduct of a business, profession, trade or occupation for use as a selling or advertising device. If the wheels of a trailer are removed, except for repairs, it is deemed a building subject to all the regulations thereof. A trailer shall not be considered an accessory building.

Trailer home means a travel trailer, camping trailer or other similar vehicle capable of being hauled by a passenger automobile or light truck and designed primarily for temporary occupancy for recreational purposes or other seasonal use. A trailer home shall not be considered an accessory building.

Training school means a public or private school or training institution which offers a training program of trade, technical instruction, or physical education. A training school shall not be deemed a home occupation.

Transect (rural-to-urban) means a cross-section of the environment showing a range of different building development zones. The rural-to-urban transect of the human environment is divided into multiple transect zones

that describe the physical form and character of a place according to the intensity of its land use and building development pattern.

Transmission towers means a structure that has the sole purpose of transmitting radio, television, cellular telephone or telephone waves from one location to another.

Useable open space means open or green space that is accessible for the use and enjoyment of residents, shall not be steep sloped (over ten percent slope), shall not include wetlands, parking or required buffer areas, and may include any required yard area or open areas for play.

Variance means a relaxation of the terms of the zoning ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. The term "variance" is authorized for only dimensional and supplemental regulations. Establishment of a use otherwise prohibited shall not be allowed by variance, nor shall a variance be granted because of the presence of nonconformities in the district or adjoining districts.

Wayside stand means a structure designed, arranged or used for the display and sale of agricultural products primarily grown or produced on the premises upon which such stand is located. A wayside stand may be located on premises that the products are not grown upon provided such premises is owned by the grower.

Wholesale means sales chiefly to retailers, other merchants, industrial and/or commercial users mainly for resale or business use.

Yard means a required open space on a lot unoccupied and unobstructed by any principal structure or portion of a principal structure.

Yard, front, means the open space extending across the full width of lot between the front lot line and nearest line of the principal building or any enclosed portion thereof. The depth of such yard shall be the shortest horizontal distance between the front lot line and the nearest point of the building or any enclosed portion thereof.

Yard, rear, means the open space extending across the full width of lot between the rear line of the lot and the nearest line of the building or any enclosed portion thereof. The depth of such yard is the shortest horizontal distance between the rear lot line and the nearest point of the building. When the rear lot line is less than ten feet long or if the lot comes to a point at the rear, the depth of the rear yard is measured to an assumed rear lot line as follows, the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said lot line.

Yard, side, means the open space between the side lot line, the side street line, or the proposed side street line and the principal buildings, or any portion thereof, extending from the front yard to the rear yard, or, in the absence of either of such yards, to the front lot line and/or rear lot line. The width of a side yard shall be the shortest distance between the side lot line and the nearest point of the principal building or any portion thereof.

Zone. See the term *District.*

(Ord. of 9-21-2009, § 2.2; Ord. No. 13-09062011-05, 9-6-2011; Ord. No. 12-09062011-04, 9-19-2011; Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-11072016, 11-21-2016; Ord. City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 1, 2023 **Order:** 58-05012023

Author: Jill M. Eastman, Finance Director

Subject: Authorizing Issuance of General Obligation Bonds and A Tax Levy Therefor

---

Information: This is the Annual Capital Improvement Projects for FY 23-24 that we are recommending for bonding. Please see attached sheet that describes the projects being funded.

City Budgetary Impacts: This is a 10-year bond, interest only for FY 24 and principal and interest payments for 10 years.

Staff Recommended Action: Passage First reading and Public Hearing.

Previous Meetings and History: Discussed at the 4-24-2023 workshop

---

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

THAT the Finance Director be and hereby is authorized and empowered, in the name of an on behalf of the City, to prepare, issue, and sell the bonds and notes authorized hereby, at one time, or from time to time, as one or more separate issues, as term bonds or serial bonds or some combination thereof, and to establish, determine and approve the date, form, minimum denomination, interest rates, maturities (with the last maturity not to exceed the maximum term permitted by law), provisions for early redemption, with or without premium, and all other details, terms and provisions of such bonds and notes, not inconsistent herewith, including the form and manner of their sale and award as she may approve, such approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City, to designate the bond or notes authorized hereby, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265 of the Internal Revenue Code of 1986, as amended.

THAT the bonds and notes authorized hereby shall be signed by the City's Finance Director and its Treasurer, attested by the City Clerk under the seal of the City.

THAT the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City, to take all steps necessary and expedient in respect to the aforesaid borrowing, and to prepare, negotiate, execute, and deliver such agreements, investment agreements, bond purchase agreements, preliminary and final official statements, escrow agreements, continuing disclosure agreements, tax compliance agreements, assignments, certificates and other documents (collectively referred to as the "Bond Documents"), as may be necessary or advisable, as determined and approved by the Finance Director, in connection with the issuance delivery of the bonds and notes authorized hereby, which Bond Documents may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, as may be approved by the Finance Director, such approval to be conclusively evidenced by the execution thereof.

THAT if the bonds or notes authorized hereby, or any part of them, are issued on a tax-exempt basis, the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City,

City Council Order

to covenant and certify that no part of the proceeds of such bonds or notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the bonds or notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and to further authorize and provide that the City will file any required reports and take any other action that may be necessary to insure that interest on the bonds or notes will remain exempt from federal income taxation, and will refrain from any action that would cause interest on the bonds or notes to be subject to federal income taxation.

THAT if the actual cost of any Project differs from the estimated cost, whether due to completion, delay or abandonment of such Project or for any other reason, the Finance Director is authorized and empowered, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the bonds or notes to any other listed Project, or to any other project or improvement that the City Council has approved or may in the future approve as part of the City's annual capital improvement plan.

THAT in order to finance temporarily the Projects described above, the Finance Director be and hereby is authorized and empowered to expend up to $13,000,000 either from available funds of the City or from the proceeds of bond anticipation notes which would be reimbursed or refinanced from bond proceeds.

THAT to the extent not payable from other funds, an amount sufficient for the payment of the annual payments of principal and interest on the bonds and notes authorized hereby shall be included in the tax levy each year until the debt represented by said bonds or notes is extinguished.

THAT the City's Finance Director, Treasurer, Clerk, and other proper officials of the City be and hereby are authorized and empowered, in the name of and on behalf of the City, to do or cause to be done all such acts and things as may be necessary or advisable to carry out the provisions of this order.

THAT if any of the officers or officials of the City who have signed or sealed the bonds or notes authorized hereby shall cease to be such officers or officials before the bonds or notes so signed and sealed shall have been actually authenticated or delivered by the City, such bonds or notes nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds or notes had not ceased to be such officer or official; and also any such bonds or notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds or notes, shall be the proper officers and officials of the City, although at the nominal date of such bonds or notes any such person shall not have been such officer or official.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds, notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, or on an interim or acting capacity, is authorized and empowered to act for such official with the same force and effect as if such official had himself or herself performed such act.

City Council Order

THAT the authority to issue the bonds or notes authorized hereby shall automatically expire 2 years from the date of approval of this Order.

THAT the City may pay certain costs of the Projects prior to the issuance of the bonds and notes (referred to as "original expenditures"); to that end, the City hereby declares its official intent to reimburse itself for such original expenditures from the proceeds of such bonds and notes, and this Order shall constitute a Declaration of Official Intent pursuant to Treasury Regulation §1.150-2, and shall be kept available for public inspection during reasonable business hours at the office of the City Clerk.

A Public Notice describing the general purpose of the borrowing and the terms thereof was published on or before April 14, 2023, in the Sun Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

NOTE: Must be approved by roll call vote.

Author: Jill M. Eastman, Finance Director

Subject: Resolve Adopting the 2023-2024 Annual Appropriation and Revenue Resolve (Public Hearing & First Reading)

Information: In accordance with the City Charter, Article 8, Section 8.6, prior to the fiscal year the City Council shall adopt an annual appropriation resolve making appropriations by department, fund, services, strategy or other organizational unit and authorizing an allocation for each program or activity.

The Council has been supplied with a resolve to adopt the annual appropriations for the City of Auburn, which includes final figures for revenue, total appropriation and municipal budget.

The school appropriation has been incorporated into this annual appropriation resolve for the City of Auburn.

This is the public hearing first reading of the Appropriation Resolve for FY 23-24.

City Budgetary Impacts: With this FY 24 Proposed Budget the tax levy increase is 3.79%, which is below CPIU at 6.5% . At this time, the estimated proposed mil rate increase is 3.57%.

Staff Recommended Action: Staff recommends passage of the budget on the second reading.

Previous Meetings and History: Preliminary budget presentation April 3, 2022 and final Manager's Budget presentation April 18, 2023, Budget workshop April 24, 2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Resolve for the 2023-2024 Annual Appropriation and Revenue excluding School Department Articles.

RESOLVE 01-05012023

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the following be, and hereby is the Annual Appropriation and Revenue Resolve of the City of Auburn for the fiscal year 2023-2024, which includes the amounts appropriated herein and revenues from all sources beginning July 1, 2023 and ending June 30, 2024.

The estimated aggregate amount of non-property tax revenue is $61,696,924 with a municipal revenue budget of $22,606,704 and a School Department revenue budget of $39,090,220.

The aggregate appropriation for the City of Auburn is $112,871,272, with a municipal budget of $51,011,866 County budget of $2,972,037 and a School Department budget of $58,887,369 which received School Committee approval on May 3, 2023, and school budget approved at the May 15, 2023 Council Meeting pursuant to the School Budget Validation vote on June 13, 2023, in accordance with Maine Revised Statues, Title 20-A § 1486 and based on the budget submitted to the Auburn City Council on April 18, 2023, by the City Manager, and notification was posted on the City of Auburn website on April 27, 2023 that a public hearing would be held on May 1, 2023 at 7:00 p.m. and said hearing having been held on that date, and as amended by the City Council, the same is hereby appropriated for the fiscal year 2023-2024 beginning July 1, 2023 for the lawful expenditures of the City of Auburn and the County of Androscoggin taxes, and said amounts are declared not to be in excess of the estimated revenue from taxation and sources other than taxation for the fiscal year of 2023-2024.

RESOLVED, The City is authorized to accept grants and forfeitures and to expend sums that may be received from grants and forfeitures for municipal purposes during the fiscal year beginning July 1, 2023, and ending June 30, 2024, provided that such grants and forfeitures do not require the expenditure of other funds not previously appropriated.

RESOLVED, that fifty percent (50%) of all real estate taxes assessed as in the annual commitment, committed to the Tax Collector, shall be due proportionately from each tax payer on September 15, 2023 and the remaining fifty percent (50%) shall be due on March 15, 2024.

Except as may be provided by resolve regarding payments in accordance with an installment payment plan, any real estate taxes remaining uncollected on September 16, 2023 and March 16, 2024 respectively shall bear interest at a rate of 4% per annum from and after such dates.

RESOLVE 02-05012023

City Council Resolve

IN CITY COUNCIL

RESOLULTION IN SUPPORT OF REPRESENTATIVE JARED GOLDEN'S PROPOSAL FOR A TWO-YEAR BUDGET FRAMEWORK

WHEREAS, Congressman Golden is proposing a two-year agreement establishing the bottom line for the next two federal fiscal years, and;

WHEREAS, the proposal will also leave final appropriations to be determined through the normal congressional budget process, and;

WHEREAS, once an agreement has been reached, Congress could raise the debt limit in tandem with the budgeting process to ensure that the agreement is followed, and;

WHEREAS, State and local governmental bodies like ours come to agreement, making difficult decisions on budgets, and;

WHEREAS, citizens have a right to expect that our President and Congress do the same, without jeopardizing our nation's credit rating, and;

NOW THEREFOR, the Auburn City Council hereby supports Representative Golden's two-year budget framework proposal to stabilize the national debt.

Auburn-Lewiston Municipal Airport Interlocal Agreement

INTERLOCAL AGREEMENT

This document was scanned from its original format. Errors may have occurred during the scanning process. The original document is on file at the Auburn-Lewiston Airport.

This agreement is made and entered into by and between the Cities of Auburn and Lewiston, both political subdivisions of the State of Maine in accordance with the State of Maine Interlocal Cooperation statute (Chapter 115 Title 30A). As amended, this agreement supersedes agreements Tiled with the Office of Secretary of State in Volume 30, pp. 396-404, November 15, 1977 and in Volume 32, pp. 192-199, December 11, 1978.

ARTICLE I - PREAMBLE

Incorporation

Pursuant to Resolutions passed by the Auburn City Council November 6, 1978 and March 19, 1979 and Resolutions passed by the Lewiston Board of Mayor and Aldermen on November 1, 1970 and March 20, 1979; there is hereby created an independent corporate entity to be known as the "Auburn-Lewiston Municipal Airport", hereinafter called the "Airport Board" or "Board"; and pursuant to the State of Maine Non Profit Corporation Act 13-B MRSA para. 403, Articles of Incorporation shall be filed with the Secretary of State.

Purpose

The purpose of the Airport Board will be to operate, maintain and improve the Auburn-Lewiston Municipal Airport, hereinafter called the "Airport"; arid to plan, acquire facilities for, construct and operate as may be necessary to provide optimum air transportation service for Auburn, Lewiston and the surrounding area. In addition, the purposes of the corporation shall be to foster, encourage, and assist the physical location, settlement, or resettlement of industrial, manufacturing, and other business enterprises at the Auburn-Lewiston Municipal Airport including the Airpark.

ARTICLE II - DELEGATION OF POWERS TO THE AIRPORT BOARD

The Cities of Auburn and Lewiston delegate or otherwise transfer to the Airport Board the management of the existing Auburn-Lewiston Municipal Airport, its property situated on the Hotel and Lewiston Junction Roads in Auburn, consisting of land and buildings, easements, fixtures, equipment and tools and all other property both real and personal which is a part of or used at the existing airport facility together with all leases, bank accounts, accounts receivable and all other intangible property previously administered by the Auburn-Lewiston Airport Committee.

SETS BOUNDARIES

Without limiting the generality of the foregoing, there is delegated the power to construct industrial and/or commercial buildings on any or all of the real property conveyed to the Cities of Lewiston and Auburn by Deeds of the United States of America dated December 18, 1947 and December 15, 1948 in book 611, page 459 and book 621, page 627 respectively, and to execute mortgages to secure all or part of the construction costs thereof provided, however, that any such mortgage shall first be approved by the Cities of Lewiston and Auburn.

ABILITY TO MORTGAGE

ARTICLE III - AIRPORT BOARD ORGANIZATIONAL STRUCTURE

Board of Directors

Section 1. Membership

The Board will consist of seven members. The Finance Director of Lewiston and the City Manager of the City of Auburn or their designated representatives will be members of the Board by virtue of their respective offices. A third member of the Board shall be a Councilor of the City of Lewiston and shall be nominated by the Mayor and confirmed by the Lewiston City Council at their first regular meeting. A fourth member of the Board shall be a Councilor of the City of Auburn and shall be nominated by the Mayor and confirmed by the Auburn City Council at their first regular meeting. A fifth member of the Board will be a resident of the City of Auburn and will be appointed by the Auburn City Council. The sixth member of the Board will be a resident of the City of Lewiston and will be appointed by the Lewiston City Council. The seventh member of the Board shall be nominated by the Chamber of Commerce and will be elected by the above six members. The seventh member shall be a resident of Auburn or Lewiston, but will not hold any public municipal office or be a member of any municipal board or committee. After the first election of the seventh member, that member thereafter will be a resident of the alternate city of the previous seventh member. If the six are unable to agree upon the naming of a seventh member to the Board, any Justice of the Superior Court or Supreme Judicial Court will, on petition of any three members, select the seventh member of the Board. In the event the Lewiston Finance Director or the Auburn City Manager shall die, become incapacitated, resign or is discharged from said offices, their respective City Council shall appoint a member to the Board and such member shall serve only until the respective offices are filled.

The third and fourth members of the Board shall only serve while a Councilor of the City of Lewiston and a Councilor of the City of Auburn, respectfully. In the event that either of said additional members and the fifth, sixth or seventh members shall cease to be residents of their respective Cities or should die, become incapacitated, resign from the Board or are discharged from membership, a successor shall be appointed in the same manner as indicated above to serve out the remainder of his term.

By a majority vote of four members, formal written notice may be given by the Board to the appointing authority of any member of the Board requesting the removal of said member. The decision of the appointing authority shall be binding.

Members of the Board will serve without compensation but may be reimbursed for their actual expenses incurred in the performance of their duties upon approval of the Board.

Section 2. Terms of Office (After Initial Appointments) AMENDED

Lewiston Finance Director - By virtue of the office.
Auburn City Manager - By virtue of the office.
Lewiston Councilor - While a Councilor of the City of Lewiston.
Auburn Councilor - While a Councilor of the City of Auburn.
Fifth Member (Auburn Resident) - Three year term.
Sixth Member (Lewiston Resident) - Three year term.
Seventh Member (Alternating Resident) - Three year term.

Election of Officers

The Directors will annually elect a Chairperson, Vice-Chair, Treasurer, Secretary and such other officers as it may establish in its By-Laws. All Officers of the Board shall be elected annually by ballot of the members of the Board and shall hold office until their successors are chosen and qualified. The Secretary need not be a member of the Board.

The duties of the Chairperson and other officers will be those established in the By-Laws of the Airport Board; and in addition, such duties as may from time to time be prescribed by the Board of Directors and shall otherwise be those duties usually appertaining to their offices. The Treasurer will furnish to the Board a bond, payable to the Airport, issued by a surety company authorized to transact business with the State and satisfactory to the Board of Directors in such sum as the Directors may prescribe and conditioned upon the faithful performance of his duties.

The Directors may appoint an Airport Director on a full-time basis to direct the general administration of the Airport and Industrial Park. The Directors may also, on their own initiative or upon recommendation of the Airport Director, employ such engineers and experts, agents, officers, clerks, and other employees, as it deems necessary for the proper operation and administration of the Airport and may prescribe their duties and compensation.

ARTICLE IV - GENERAL ADMINISTRATION

Fiscal Year, Rates and Charges

The Board of Directors will adopt a fiscal year and will adopt and may thereafter amend by-laws for the conduct of the affairs of the Board. The Directors will also establish a schedule of reasonable rates for the use of the landing area, ramps and other Airport facilities. In fixing such rates, the Directors will take into account the total capital investment of the Airport Board and the Cities of Auburn and Lewiston, the expense of properly maintaining the Airport facilities and the nature, frequency and extent of the use of the Airport facilities which the tenant or licensee propose to make.

Office of the Airport

The Directors will establish an office at the Airport, at which their business may be conducted and in which maps, plans, records and other papers relating to the operation of the Airport will be kept, but the Directors may vote to hold their meetings at either the Lewiston City Building, the Auburn City Building or the Airport. The Directors will, at all times, keep full and accurate accounts of receipts, expenditures, liabilities and assets which will at all reasonable times be open to inspection.

Annual Report - Financial Statement

Ihe Airport Board will make an annual report of its activities arid submit audited financial statements for the preceding fiscal year to the Mayor *and* Council of the City of Auburn and the Mayor and Council of the City of Lewiston.

Seal

NEEDS Amending

The Airport Board will have a seal consisting of a circular die bearing the words "Auburn-Lewiston Municipal Airport - 1978" which may be used whenever deemed advisable by the Board of Directors on papers and documents issued or executed by it or its officers or employees on its behalf.

Estimating Annual Expenses and Revenues

The Board will annually prepare a budget for its next fiscal year itemizing expenses of operations, maintenance and repairs, costs of contemplated capital improvements and payments of principal and interest on fixed indebtedness and other borrowings. The budget will also include such other details as to present assets, surplus, accounts receivable, expenses and liabilities as the Board shall deem advisable and as the Cities of Lewiston and Auburn may reasonably require. The Board will also estimate the anticipated revenues of the Board for the forth-coming fiscal year to be derived from rentals of buildings and equipment, fees charged for the use of the Airport facilities, sale of surplus property and any other source.

City Contribution

In any year in which the anticipated expenses of the Airport Board exceed anticipated revenues, the Directors shall give notice of the estimated net deficit to the Cities of Lewiston and Auburn in time for inclusion in their respective budgets for the next fiscal year. The Cities agree to meet jointly prior to May 20th to review the Airport Board's budget. Each City will include 50% of the estimated deficit in the budget as finally approved in its own budget for the coming fiscal year and will make provisions through assessment of taxes or otherwise to obtain sufficient revenues to pay the same. If the Cities are unable to agree on a budget, each City will include in its respective budget for the corning fiscal year an amount equal to the sum appropriated to the Airport's budget for the previous year.

NO REDUCTIONS TO DEFICIT

ARTICLE VI - GENERAL PROVISIONS REGARDING BOKKOWING

Issuance of Notes

The Airport Board is authorized to issue, from time to time, its temporary notes and renewal notes in anticipation of revenues. Ihe aggregate amount of such temporary notes shall not exceed the total of anticipated revenues for the fiscal year in which the temporary notes are to be issued, and any such temporary notes will be payable during such fiscal year. If the budget for the existing fiscal year has not yet been approved, the aggregate amount of such temporary notes shall not exceed the revenues budgeted for the previous fiscal year.

MAY ISSUE BONDS

Appeal Process

In the event of default in the payment of any such notes, the Airport Board will be entitled to exercise the remedies provided by the Revised Statutes of 1964, Title 30, Section 5053, and any amendments thereto in collecting the same.

ARTICLE VII - CONTRACTS

The Airport Board is authorized to enter binding contracts with other persons, corporations and governmental bodies or agencies thereof, including contracts to lease the use of land, buildings or other Airport facilities presently existing or to be constructed for the purposes set forth in Article I upon such terms as the Directors

shall approve. The Airport Board may also negotiate for, receive and use grants and loans from any governmental body or agency which are available for use in the furtherance of any of the purposes of the Airport Board. The Auburn-Lewiston Airport shall continue to be a "municipal airport" for the purposes of state statutes regarding state aid for airport construction, extension and improvement and the Airport Board shall receive such state aid to which the Cities of Lewiston and Auburn acting jointly would have been entitled.

ARTICLE VIII - DISPOSAL OF SURPLUS PROPERTY

When the Directors determine that any of the Airport Board's real or personal property or interests therein are no longer necessary to the accomplishment of the purposes of the Airport, it may dispose of the same, subject to any restrictions which may be imposed by the Federal Government or its regulatory agencies having administrative jurisdiction over the Airport Board's operation, upon such terms as it considers advisable. Any proposed disposal of real estate or personal property having a value in excess of One Thousand Dollars ($1,000.00) shall be first approved by the Lewiston and Auburn City Councils.

ARTICLE IX - ACQUISITION OF PROPERTY & RIGHT OF EMINENT DOMAIN

Acquisition of Property

The Airport Board may acquire by purchase, lease, gift, or in any other manner such real and personal property, easements, air rights and property rights, whether or not located in Auburn, as may be necessary or convenient to the accomplishment of its purposes, provided that the purchase of any such personal property that is in excess of the sum of Five Hundred ($500.00) Dollars shall be made only after public advertising giving notice thereof and the submission of competitive bids therefore. The Airport is authorized to extend its runways and related facilities over or across the public highways of the City of Auburn where alternative means of access are or can be made available to persons served by the highway and where such construction would not unduly interfere with some other existing public purpose of the City or State.

Crossing Public Utilities

The Board of Directors is authorized to recommend to both the Lewiston City Council and the Auburn City Council the taking by eminent domain of any part of the right-of-way or facilities of the Lewiston and Auburn Railroad Company, including the interest of any person or company who may then be leasing the same, where such action is reasonably necessary to the accomplishment of the purposes of the Airport Board. Where it is otherwise proposed that the runways or other installations of the Airport shall cross or otherwise interfere with property or service of a public utility and where consent of the utility to such crossing is refused, application shall be made to the Public Utilities Commission to determine the place, manner of crossing and the conditions upon which the same is made. Such runway or other installation interfering with the property or service of the public utility shall thereafter be constructed only to the extent permitted by and subject to conditions imposed by the Public Utilities Commission and such work shall be performed under its supervision.

Procedure in Eminent Domain Proceedings

The Airport Board may exercise the power of eminent domain in the names of the Cities of Auburn and Lewiston in the manner provided by 6 MSRA, Section 122 to acquire property required for expansion of or proper operation of the Airport after first obtaining the consent of the Lewiston and Auburn City Councils.

ARTICLE X - PROPERTY TAX EXEMPT

The real and personal property rights of the Airport Board will be exempt from taxation.

ARTICLE XI - RULES AND REGULATIONS

The Board of Directors shall adopt and publish rules and regulations governing the use of the Airport and related facilities.

Violation

Any. violation of those regulations which require compliance with standards of safe conduct by persons and corporations using the Airport and its related facilities shall constitute a misdemeanor punishable by a fine of up to One Hundred ($100.00) Dollars.

Enforcement

The access ways, landing areas, taxiways, ramps, terminal and other parts of the Airport, used in common by persons operating aircraft or other motor vehicles, passengers or guests at the Airport are declared to be public areas with respect to which the regulatory provisions of the Maine Revised Statutes and the Ordinances of the City of Auburn are also applicable.

ARTICLE XII - TERMINATION AND MODIFICATION

The Airport Board will remain in existence for an indefinite term and until terminated by majority vote of the Auburn City Council and a majority vote of the Lewiston City Council. This agreement may also be modified by a majority vote of the Auburn City Council and by a majority vote of the Lewiston City Council. In the event that either municipal body shall vote to modify or terminate this agreement, notice in writing shall immediately be given to the Board of Directors and to the City not initiating the action. In case of decision to terminate, the Board of Directors shall within seven (7) days meet and vote as may be necessary to accomplish the same and the management and control of all of the operations and facilities of the Airport shall be returned to the Cities of Auburn and Lewiston. When both the Auburn City Council and Lewiston City Council have voted to modify this agreement, the Board of Directors shall promptly take such action including amending the articles of incorporation as may be necessary to carry out the terms of the amendment.

In the event that the Airport Board is dissolved, the Cities of Auburn and Lewiston agree to share equally the lifetime contingent liability associated with the Maine State Retirement Plan in which the Board may have elected to participate as an independent local district.

Witness page is on file at the Auburn Lewiston Municipal Airport.

AMENDMENT
December 6, 2007

ARTICLE III - AIRPORT BOARD ORGANIZATIONAL STRUCTURE

Board of Directors

Section 1. Membership
The Board will consist of *nine* members. The Finance Director of Lewiston and the City Manager of the City of Auburn or their designated representatives will be members of the Board by virtue of their respective offices. A third member of the Board shall be a Councilor of the City of Lewiston and shall be nominated by the Mayor and confirmed by the Lewiston City Council at their first regular meeting. A fourth member of the Board shall be a Councilor of the City of Auburn and shall be nominated by the Mayor and confirmed by the Auburn City Council at their first regular meeting. A fifth member of the Board will be a resident of the City of Auburn and will be appointed by the Auburn City Council. The sixth member of the Board will be a resident of the City of Lewiston and will be appointed by the Lewiston City Council. The seventh member of the Board shall be nominated by the Chamber of Commerce and will be elected by the above six members. The seventh member shall be a resident of Auburn or Lewiston, but will not hold any public municipal office or be a member of any municipal board or committee. *The eighth member of the board shall be an employee representative of the Androscoggin Valley council of governments. The ninth member would be a employee representative of the Lewiston Auburn Economic Growth Council.* After the first election of the seventh member, that member thereafter will be a resident of the alternate city of the previous seventh member. If the eight other members are unable to agree upon the naming of a seventh member to the Board, any Justice of the Superior Court or Supreme Judicial Court will, on petition of any *five* members, select the seventh member of the Board. In the event the Lewiston Finance Director or the Auburn City Manager shall die, become incapacitated, resign or is discharged from said offices, their respective City Council shall appoint a member to the Board and such member shall serve only until the respective offices are filled.

The third and fourth members of the Board shall only serve while a Councilor of the City of Lewiston and a Councilor of the City of Auburn, respectfully. In the event that either of said additional members and the fifth, sixth, seventh, members shall cease to be residents of their respective Cities or should die, become incapacitated, resign from the Board or are discharged from membership, a successor shall be appointed in the same manner as indicated above to serve out the remainder of his term.

In the event the employee representative of the Androscoggin Valley Council of Governments or the Employee representative of the Lewiston Auburn Economic Growth Council shall die, become incapacitated, resign or is discharged from said offices, their respective agency director shall appoint a member to the Board and such member shall serve only until the respective offices are filled.

By a majority vote of five members, formal written notice may be given by the Board to the appointing authority of any member of the Board requesting the removal of said member. The decision of the appointing authority shall be binding.

Members of the Board will serve without compensation but may be reimbursed for their actual expenses incurred in the performance of their duties upon approval of the Board.

Section 2. Terms of Office (After Initial Appointments)
Lewiston Finance Director - By virtue of the office.
Auburn City Manager - By virtue of the office.
Lewiston Councilor - While a Councilor of the City of Lewiston.
Auburn Councilor - While a Councilor of the City of Auburn.
Fifth Member (Auburn Resident) - Three-year term.
Sixth Member (Lewiston Resident) - Three-year term.
Seventh Member (Alternating Resident) - Three-year term.
Eighth Member (AVCOG) - By virtue of position
Ninth Member (LAEGC)-By virtue of position

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 1, 2023 **Order:** 60-05012023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Incentive Funds

Information:

City staff is seeking a change in how previously approved Bond funds can be used to incentivize downtown development. Generally, Bond funds must be expended on improvements that are and remain city-owned for the term of the Bond issue. Nothwithstanding this general requirement, under certain circumstances, and if certain requirements of both State and Federal Tax law are met, Bond funds may be used, either directly (expended by the city) or indirectly (loan / granted to a business), to further economic development activities in the city. While both the direct expenditure and the business loan / grant paths are available to the city, City staff believe that a loan / grant program would make the potential use of available Bond funds significantly more incentivizing to local businesses. Therefore, City staff proposes allowing these available Bond funds to be allocated by the City Manager in the form of a business development forgivable loan / grant to a qualifying business / developer, to be used by the business / developer post-closing on the property. This forgiveable loan / grant program will authorize the City Manager to approve up to Two Hundred Fifty Thousand Dollars ($250,000) in incentive funds per project until all available Bond funds (not to exceed 5% of the total Bond issue) are depleted. To ensure funds remain protected from loss or misuse, the staff is requesting that the City Manager be authorized to provide funds to a qualifying business / developer through a forgivable loan process that will establish both acceptable uses of the funds and clear benchmarks that must be met in order for funds to be disbursed.[1] Upon project completion (issuance of an occupancy permit), the forgivable loan will convert to a grant. Failure to use the funds appropriately or to achieve the benchmarks or to complete the project within a predetermined timeframe will trigger loan repayment over a predetermined period at an interest rate that will cover the costs of managing the collection process. The staff makes this recommendation after significant discussions and negotiations with several developers who want to build substantial projects within the city.

City Budgetary Impacts:

This program will not impact the city's budget as only current approved funds will be used.

Staff Recommended Action:

Approve Order as presented.

---

[1] Per guidance from the City's Bond Counsel, under applicable IRS regulations, the city may not impose any obligation or condition with respect to any grant other than obligtations or conditions designed to ensure that the grant funds are expended for the approved governmental purpose on an acceptable timeline.

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Pursuant to Section 8.13 of the City Charter, notice is hereby given that the Auburn City Council will hold a first reading on Monday, May 1, 2023, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on a proposed order authorizing the reallocation of up to $400,000 of unspent proceeds from the City's 2020 General Obligation Bonds to finance a forgivable loan / grant program intended to incentivize private development and investment in the City of Auburn.

The order is available for inspection on the City's website:
a**uburnmaine.gov/pages/government/budget-fy24.**

Following the public hearing and first reading, the City Council expects to conduct a second reading, public hearing and take final action on the order at its May 15, 2023 meeting. Following the public hearing, the City Council will finalize the amount of bond proceeds to be reallocated, which amount may be increased by up to 10%.

Members of the public attend the meeting in person and offer public comment during the meeting. Comments may also be submitted via email sent to: **comments@auburnmaine.gov**. Any submitted comments will be included in the meeting minutes.

The meeting will also be broadcast on Great Falls TV (cable channel 1302) and on the City of Auburn YouTube channel.

ORDER 60-05012023

City Council Order

IN CITY COUNCIL

TITLE: ORDER - Reallocating Unspent Proceeds from the City's 2020 General Obligation Bonds.

WHEREAS, on November 12, 2020, the City of Auburn issued its 2020 General Obligation Bonds in the aggregate principal amount of $8,460,000 (the "2020 Bonds") pursuant to City Council Order No. 67-06012020 (adopted June 15, 2020) (the "2020 Bond Order"), $900,000 of the proceeds of which was authorized to be used to finance economic development activities and described as the Downtown Vision project (referred to as the "Downtown Vision Project"); and

WHEREAS, there remain unspent proceeds of the 2020 Bonds borrowed for the Downtown Vision Project, which excess proceeds the City Council desires to reappropriate and reallocate to be used as part of a loan forgiveness / grant program to promote and support economic development activity and private capital investment in the City (referred to as the "Downtown Investment Incentive Program");

NOW, THEREFORE, by the City Council of the City of Auburn, be it hereby ORDERED:

THAT the City Council makes the following findings and determinations:

- There is an urgent and growing need to promote and support economic development activity and private capital investment in the City of Auburn.

- The City's financial support for qualified development projects through the Downtown Investment Incentive Program would incentivize the creation of significant new development activities in the City.

- Based on the foregoing, the City's promotion of and financial support for qualified projects through the Downtown Investment Incentive Program will generate substantial direct and indirect economic and other public benefits for the City and its residents and constitutes a good and valid public purpose and will contribute to the creation of new employment opportunities and the economic growth and well-being of the inhabitants of the City.

- Any adverse economic effect on or detriment to the City in the promotion of and financial support for qualified projects through the Downtown Investment Incentive Program is outweighed by the public benefit that will follow from the investment in and development of such qualified economic development projects, including but not limited to the creation of new employment opportunities, the economic growth and well-being of the City and the betterment of the health, welfare and safety of its inhabitants.

ORDER 60-05012023

City Council Order

THAT the excess proceeds of the 2020 Bonds, in the amount not to exceed $400,000 be and hereby are appropriated from the amount borrowed as part of the 2020 Bonds (the "Reallocated Bond Proceeds") for the Downtown Vision Project to fund the Downtown Investment Incentive Program.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, establish a loan forgiveness / grant program (the "Loan and Grant Program") to promote and support economic development activity and private capital investment in the City and to allocate Reallocated Bond Proceeds to such economic development activity and private capital investment in and adjacent to the City's downtown as he shall deem suitable and appropriate.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to establish and implement eligibility criteria and performance benchmarks appropriate to the administration of such Loan and Grant Program, which criteria and benchmarks (including the appropriate time schedule) may be established and implemented on a programmatic or a project specific basis, or some combination thereof (the "Project Incentive Requirements").

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to approve up to Two Hundred Fifty Thousand Dollars ($250,000) in incentive funds per project under the Loan and Grant Program, until all available Bond funds (but not to exceed 5% of the issue price of the 2020 Bonds) are depleted, which funds shall be disbursed for a qualifying project initially through a forgivable loan financing structure (a "Forgivable Loan") that will establish the particular Project Incentive Requirements for a qualifying project that must be met in order for funds to be disbursed.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to determine that the particular Project Incentive Requirements for a given Forgivable Loan have been adequately met and that, following such determination, the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to convert the Forgivable Loan to a grant that need not be repaid by the recipient; provided further that if the City Manager determines that the particular Project Incentive Requirements for a given Forgivable Loan have not been adequately met, then such Forgivable Loan shall be repaid to the City under terms and conditions to be established by the City Manager.

THAT the City Manager be and hereby is authorized and empowered in the name and on behalf of the City, to do or cause to be done all such acts and things, and to execute and deliver, all such agreements, certificates, and other documents as may be necessary or advisable to carry out the provisions of this Order.

Richard Whiting, Ward One

Author: Glen E. Holmes, Director of Business & Community Development

Subject: CDBG/HOME Action Plan for Program Year 2023

Information:
Each year the Business & Community Development Department presents the Annual Action Plan, detailing the use of Auburn's CDBG funds & the Auburn-Lewiston Consortium's HOME funds. This plan is designed to address community needs as detailed in the 5 year Consolidated Plan which was adopted in 2020.

City Budgetary Impacts:
Auburn's annual CDBG allocation is $534,778, with an additional $1,142,538 of unspent allocations from previous years and an expectation of $200,000 in program income. The Auburn-Lewiston HOME Consortium annual allocation is $546,921, with an additional $672,674 of unspent allocations from previous years and an expectation of $48,000 in program income. Auburn's share of the consortium dollars is $880,169. These federal grant dollars cover staff salary/benefits as well as program activities for the Business and Community Development program.

ACTIVITIES	PY2023 Budget	CDBG	Auburn Home
Administration	$217,575	$122,406	$95,169
Program Delivery	$24,910	$24,910	
Economic Development	$50,000	$50,000	
Public Service Grants	$100,000	$100,000	
Public Improvements (Infrastructure)	$1,005,000	$1,005,000	
Homeowner Rehab	$575,000	$575,000.	
New Construction	$785,000		$785,000
TOTAL EXPENDITURES	**$2,757,485**	**$1,877,316**	**$880,169**

Staff Recommended Action:
Vote to adopt the 2023 CDBG & HOME Action Plan as presented.

Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

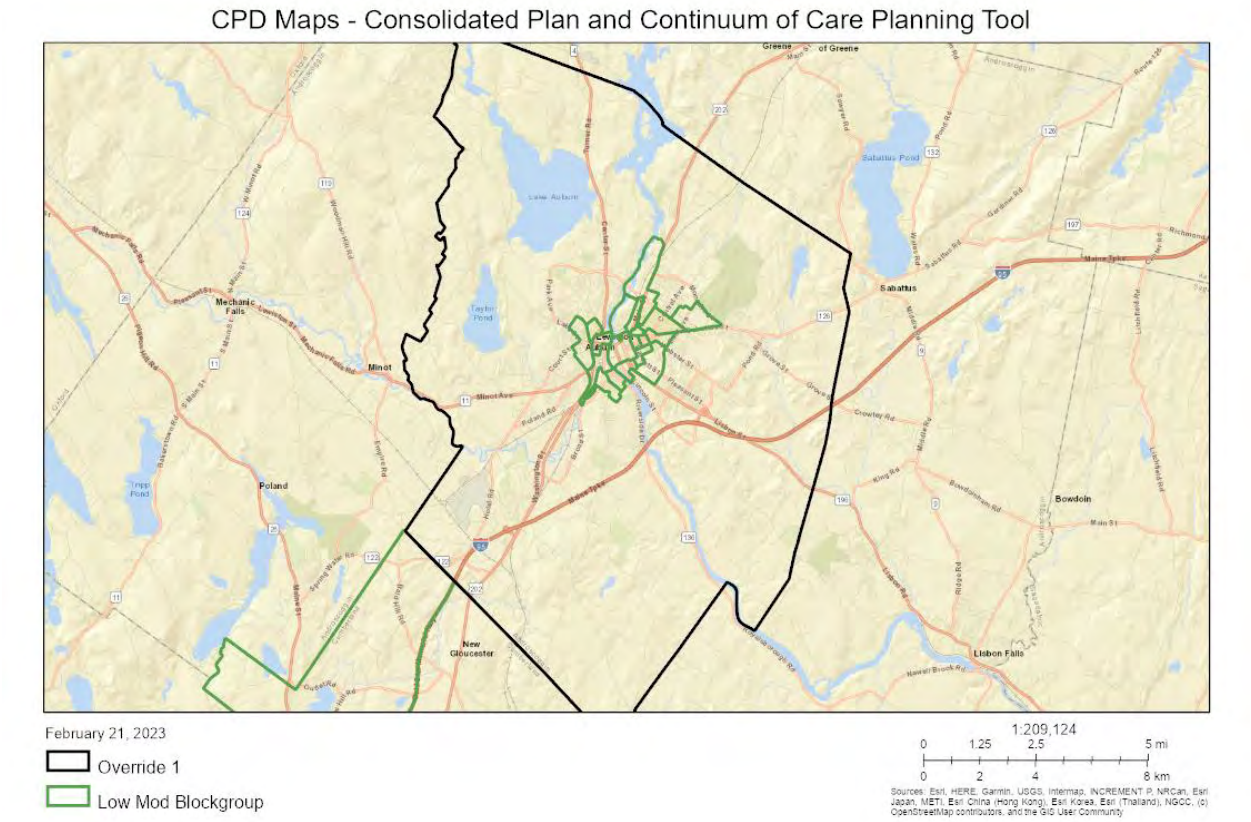
1. Introduction

The City of Auburn Community Development Office (ACDO) is submitting its PY23 Action Plan (AP) to the U.S. Department of Housing and Urban Development (HUD). With the national purpose of the Community Development Block Grant (CDBG) program being to create thriving urban communities by providing suitable living environments, affordable housing, and economic opportunities for low and moderate-income individuals, the ACDO is determined to make a significant impact within Auburn and the Auburn-Lewiston consortium jurisdiction. In addition, the HOME Investment Partnership (HOME) program aims to provide low-income households with affordable housing, further emphasizing the ACDO's commitment to improving the lives of those in need.

The ACDO has developed a comprehensive plan, the 2020-2024 Consolidated Plan (PLAN), for the CDBG program and the HOME program, which includes the cities of Auburn and Lewiston. By identifying various community challenges and unmet needs, setting priorities, and describing how federal resources will address these issues, the ACDO is laying the foundation for significant progress. Moreover, this PLAN established clear goals, objectives, and performance benchmarks to measure progress, providing a framework for determining the prioritization of requests and the development of individual program guidelines.

With a focus on assisting low and moderate-income individuals and families, CDBG funds are targeted to areas of the community in need of improvement, particularly those with a high proportion of low- and moderate-income individuals. The ACDO is dedicated to using the funds for housing improvements, infrastructure improvements, job creation, and providing essential social services. While there is flexibility in the use of funds, the ACDO is committed to meeting the national objective and ensuring that CDBG-funded social service spending remains within the 15% annual allocation cap.

This AP outlines the proposed activities and fourth-year budget for advancing the goals and objectives set forth in the PLAN. The Comprehensive Housing Affordability Strategy (CHAS) data contained within the PLAN, updated with the most recent available data (2015-2019 ACS) for this AP, demonstrates that nearly half of each city’s households qualify, highlighting the pressing need for assistance for 5,055 households in Auburn and 8,230 households in Lewiston. These totals represent nearly 51% of all households in both cities are considered at or below 80% HUD Area Median Family Income (HAMFI), qualifying them as low-to-moderate-income under the CDBG or HOME programs. Therefore, by taking significant steps towards addressing these issues as described within this AP, the ACDO is playing a crucial role in making a positive impact on the lives of those in need within the Auburn and Lewiston communities.



Low-Mod Block Group - ESRI

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The ACDO intends to work towards measurable outcomes established when the 2020-2024 Consolidated Plan was adopted. This PLAN established the 4 goals and outcome expectations indicated below. Data provided demonstrates PLAN-to-Date impact totals for program years 20, 21 & year to date for Program year 2022, cumulatively representing 52% of the 5-year goals established in 2020.

	PLAN Objectives	**PY20 & PY22**	**PY22 YTD**	**Total**	**Total % of PLAN**
Goal #1	Provide Safe & Affordable Housing				
Rental Units Rehabilitated	100	5	7	12	12%
Homeowner Units Rehabilitated	50	15	1	16	32%

Tenant Base Rental Assistance	125	20		20	16%
Goal #2	Improved Infrastructure & Reduce Blight				
Persons Assisted	3,000	2,020	1,570	3,590	120%
Goal #3	Promote Economic Opportunities				
Jobs Created/Retained	10	11		11	110%
Businesses Assisted	10	7		7	70%
Goal #4	Provide Essential Services				
Persons Assisted	1,200	1,584	371	1,955	163%

Table 1 - GOALS OF THE 2020-2024 CONSOLIDATED PLAN

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Of the four established goals within the PLAN, only Goal #1 is behind on its 60% target. Rental & Homeowner rehab projects were delayed for over a year (PY20-PY21) while the COVID-19 pandemic limited the amount contractors who could be working within client homes. The subsequent post-lockdown construction material price increases and contractor shortage has slowed the post-COVID resumption of projects, but progress is beginning to be made within the spring-2023 construction season. While these efforts resulted in a limited number of new projects, new programs and funds were added to the ACDO's portfolio, including the HOME-ARP plan, OLHCHH, MSHA, and the city's ARPA. However, these projects are not included in the HUD Action Plan report.

Missing the target for Tenant-Based Rental Assistance (Security Deposit grants for income-qualifying tenants) is a product of the COVID-19 pandemic and the resulting Emergency Rental Assistance program funded by Maine State Housing Authority (MSHA). During an 18-month period between 2021 and 2022, MSHA funded over $290 million in rent and utility payments for more than 34,000 Maine residents. These factors slowed the need for Security Deposit programs by keeping tenants in their current units. The dramatic increase in average rental rates caused additional challenges to this goal. TBRA programs must abide by High-Home rental rates. As the going rates were much higher than the HUD-required cap for rental rates, many units were overpriced and, therefore, would not qualify for the assistance.

Although not behind in impact, two public infrastructure projects were put on hold during PY21 & PY22 due to higher-than-expected prices. These projects include the redevelopment of crosswalks within the Downtown district and lead abatement projects within public parks. These will be rebid and carried out in late PY22 & PY23.

Lastly, The U.S. Department of Housing & Urban Development (HUD) is closely monitoring the Community Development Offices of Auburn and Lewiston after a city audit revealed compliance issues. During PY21

& PY22, corrective actions were taken, and new policies, guidelines, and staff were implemented to ensure compliance with federal regulations.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

It is important to note that the development of the Action Plan for the city of Auburn and the Auburn-Lewiston Consortium is done in compliance with relevant HUD guidelines and the Auburn Citizen Participation Plan. To accomplish this, a community needs survey was circulated in multiple languages and utilized digital and paper surveys to reach as many households as possible. The survey was available for response from December 1st, 2022, to March 30th, 2023. It was completed by over 130 households, comprised of over 300 residents. Additionally, direct consultation efforts were made with area service providers to further understand the community's needs.

In addition to the consultation process, and prior to the development of this Plan, the Auburn City Council held a pre-plan Public Hearing in which residents spoke to the needs of the community and opinions on priorities. This was followed by a 30-day public comment period before the adoption of the CDBG and HOME Action Plans and budgets. The final Action Plan was made available for public input on April 1, 2023, and concluded with a final Public Hearing held by the City Council on May 1st, 2023. Public Notices for these hearings and the solicitation of public input were run in the Sun Journal newspaper, posted on the city's website, and shared on social media accounts to ensure maximum public input. The Action Plan and supplemental information were also available on the City's website.

LAWRENCE HIGH SCHOOL

All the world's a stage for singing custodian

By Kaitlyn Budion
MORNING SENTINEL

FAIRFIELD — If you ever find yourself in the halls of Lawrence High School, don't be surprised to hear the soothing voice of a longtime staffer there who fills the hallways with song as he completes his daily work.

There are times when custodian Terrance Coley Sr. has tried to restrain himself from singing, being careful not to interrupt the schoolwork around him. But when he stops singing, students and faculty will come looking for him asking what's wrong, Coley said.

"I do it every day," he said. "If I don't, these kids, they get thrown off."

Anyone looking for a more formal performance can attend a Lawrence High athletic event where Coley likely will be singing the national anthem.

Coley, 47, has been singing at games since 2007 and has become a pillar of the local music community — not just because of his performances, but because of his connection with students, athletes and fans. He has performed at Lawrence games, Colby College games and in January he sang before his largest audience yet — nearly 19,000 people who attended an NBA game between the host Orlando Magic and Oklahoma City Thunder.

He will sing at just about any sporting event, Coley said, and although baseball is his favorite sport to watch — a New York City native, he's a die-hard Yankees fan — he doesn't have a preference when it comes to singing at one event over another. He loves the energy of the fans at Lawrence games and is happy to turn up for whoever asks.

"Any game they want me to sing at, any game, they know I'm ready," he said.

Growing up in New York City, he went to LaGuardia High School and sang in the Harlem Boys Choir. He composes his own songs and has original music on Spotify, under PoppaT, including a song he wrote for his wife Cahi called "Never Let You Go."

He has taken time to create a distinctive style for singing the anthem, D. Loren Fields, a Lawrence graduate and the longtime band director at the school, said it becomes clear when hearing Coley in the hallways that he sings from his heart and soul.

"I'd be hard pressed to find somebody who does it with more heart," Fields said of Coley's rendition of the anthem.

Coley connects with students and is an uplifting personality, Fields said, calling him the "rising tide that lifts all boats."

"You want to be around him because he's heartfelt and sincere and he's upbeat," Fields said.

PHOTO COURTESY OF RAMSEY STEVENS

Terrance Coley Sr. sings the national anthem before the start of the Class A girls state title game in basketball between Lawrence High School and Brunswick on March 3 at the Augusta Civic Center.

Ryan Pellerin is a Fairfield native who works for the Orlando Magic and arranged for Coley to sing before the game against the Thunder in January. Pellerin, who's the son of Lawrence boys basketball coach Jason Pellerin, has worked with the Magic for about two years and had worked awhile to get Coley booked to sing "The Star Spangled Banner."

Coley and his wife had to pay for the travel, but Jason Pellerin works with Jobs for Maine's Graduates and the program gathered donations to go toward the trip. So the couple took the opportunity to go to Florida a few days early, escape the Maine winter and have a proper vacation.

On the day of the Magic game, Coley arrived early at the stadium for a sound check, thankful that his wife was there to keep him calm and focused. Even after years of singing the anthem, Coley said he still gets nervous every time.

But when the music started, Coley was calm and ready to face an audience of thousands.

"I still can't believe that happened," he said.

His reputation for singing the anthem began when he started working for the school district more than 15 years ago. As Coley sang during his shift, his voice caught the attention of Bill McManus, the athletic director at the time.

McManus set up the first time Coley sang — at an award ceremony for elementary school students. Afterward, the students came up to him and wanted his autograph. McManus died in December and Coley said he's deeply thankful for the path McManus set him on those many years ago.

"He's in my thoughts every time," Coley said.

Before moving to Maine, Coley was working at a restaurant in New York City. But he was worried about his son's safety in the city, a concern that only grew following the terrorist attacks of Sept. 11, 2001. The family decided they needed to move and Coley's partner at the time had family in Maine.

"I needed a change. I needed to get out of the city," he said.

Although moving from the Big Apple to rural Maine may represent a culture shock, Coley had family in South Carolina growing up, and Maine reminds him of that, and his new home was not so unfamiliar after all.

The Magic game was not the only bucket-list performance Coley got to check off this year. He also sang the anthem at the girls Class A state championship basketball game in early March, where Lawrence defeated Brunswick and took home the Gold Ball.

It's the Lawrence community that keeps him coming back to sing game after game, he said.

"I don't need awards or anything because they make me feel like a superstar," Coley said.

LIVING STATIONS OF THE CROSS PLANNED IN AUBURN, RUMFORD

Students at Maine Catholic schools and in parish faith formation programs plan to present the Living Stations of the Cross around the state leading up to Easter Sunday, April 9.

The Stations of the Cross began as the practice of pious pilgrims traveling to Jerusalem to reenact the final journey of Jesus Christ to Calvary. They have been prayed for centuries, allowing Christians who are unable to make a pilgrimage to the Holy Land to spiritually follow in the steps that Jesus took from his arrest and judgment to his crucifixion, death and burial, according to a news release from Dave Guthro, communications director, Roman Catholic Diocese of Portland.

Here is a list of local presentations scheduled:

Palm Sunday, April 2

Rumford
The Living Stations of the Cross will be presented by youth ministry members at 7 p.m. at St. Athanasius & St. John Church, 126 Maine Ave.

Good Friday, April 7

Auburn
Students at Saint Dominic Academy will present the Living Stations of the Cross beginning at 10:45 a.m. in the Callahan Memorial gym of the academy's Auburn campus, 121 Gracelawn Road.

Witness hearings on CMP rate cases set for Lewiston, Hallowell

Maine's Public Utilities Commission wants to hear from Mainers regarding current Central Maine Power rate cases.

All Maine consumers deserve utility service that meets their daily needs at a reasonable price. With inflation continuing to force Mainers to make tougher decisions about paying for necessary household expenses, pushing for policies that will help older ratepayers on fixed incomes is a priority for AARP Maine, according to a news release from Jane Margesson, AARP Maine communications director.

Most Mainers cannot afford a utility rate hike right now, Margesson noted.

The Maine PUC plans to hold local public witness hearings regarding the CMP rate cases. At these meetings, residents are invited to voice concerns and ask questions.

The first will be held Tuesday, April 4, at 6 p.m. at the Ramada Inn, 490 Pleasant St. in Lewiston.

The second will be held Thursday, April 6, at 4 p.m. at the Maine Public Utilities Commission, 26 Katherine Drive in Hallowell. A remote participation option is available.

Those who would like to attend the April 6 public witness hearing virtually must register in advance by contacting the commission at pucpublichearing@maine.gov or 207-287-3831 and providing an email address no later than 4 p.m. Monday, April 3.

Farmington church to present Living Hope cantata April 7, 9

FARMINGTON — A Living Hope cantata is scheduled to be presented at 7 p.m. Friday, April 7 and Sunday, April 9, by New Hope Baptist Church, 268 Perham St.

The 15-voice choir, accompanied by orchestrations, will sing seven songs arranged by Tom Fettke and Thomas Grassi.

Titles include "The Glories of Christ," "He Comes in the Name of the Lord," "Behold, the Love, the Grace of God," "One Sunday Morning," "His Glories Now We Sing," "Our Living Hope" and a reprise of the first song, according to a news release from Sandi Robert, church member.

Interspersed will be readings and Scripture along with a violin/flute duet of "Were You There," "O Love Divine;" a piano solo of "Christ Arose" and a men's ensemble singing "O Sacred Head, Now Wounded."

All are invited to attend this free concert.

For more information, call 207-778-9996.

LEWISTON CRIBBAGE LEAGUE NAMES MARCH 30 PLAYERS

The Lewiston Senior Cribbage League has announced its cribbage results for March 30.

Mike Cielinski and Doris Davis placed first, Bill Burroughs and Pauline Quimby, second; Pauline Cornish and Ron Cloutier, third; Anita Maheux and Reggie Dubois, fourth; and Aaron Burke and Pat Belanger, fifth.

The league welcomes new player Doris Davis.

League play is at 9 a.m. Thursdays at the Lewiston Armory/Lewiston Senior Center, 60 Central Ave. in Lewiston.

Players are encouraged to come early for practice play. The doors open at 8 a.m.

For more information, call Labbe at 207-212-9253.

PUBLIC HEARING

The Auburn Business & Community Development Department announces a public hearing to be held by the Auburn City Council on May 1, 2023 for the purpose of receiving public input from residents regarding the Auburn CDBG & Auburn-Lewiston Home Consortium Annual Action Plan.

This plan, which can be found on the city of Auburn website or by scanning the QR Code below, details how CDBG & HOME funds, as provided by the U.S. Department of Housing & Urban Development (HUD), will be expended during program year 2023.

SCAN ME

Public comments will be accepted during the public hearing. Comments can also be submitted to CDBG@auburnmaine.gov or delivered in person to the Business & Community Development Office until May 1, 2023. To request printed copies, translations, or other accommodations email CDBG@auburnmaine.gov or call the Community Development Office at (207) 333-6601

CENTRAL MAINE COMMUNITY COLLEGE (CMCC)
Central Maine Community College (CMCC) is seeking bids for

full-body adult patient for medical-surgical high-fidelity nursing simulation.

Proposals must be submitted by Wednesday, April 5, 2023 at 1:00pm. If interested in receiving a copy of the RFB, please visit www.cmcc.edu/jobs. To inquire further, please contact Maureen Aube at maube@cmcc.edu or call (207)755-5235.

NOTICE TO CONTRACTORS INVITATION FOR BIDS

Mt. Blue Regional School District RSU 9 is conducting a competitive bid process for the Mt. Blue Middle School Career and Technical Education Addition Project at Mt. Blue Middle School in Farmington, Maine. Bids will be opened and read aloud by the RSU at **2:00 p.m. April 13, 2023.** Project Description: Approximately 5,000 SF addition to create hands-on learning spaces for career and technical education classes. Drawings available on or about March 20, 2023, contact Architect at mike@haddenbergerarch.com 207.766.5822. Optional pre-bid walkthrough March 30, 2023 requires pre-registration with the Architect. See full Advertisement for Bids at https://www.mtblue.org/rsu9-employment/bids/request-for-bids

COMMUNITY DEVELOPMENT BLOCK GRANT CONSOLIDATED PLAN
2020-2024 Consolidated Plan
Notice of Availability of Documents for Public Comment
AND
Notice of Public Meeting
For
DRAFT Annual Action Plan, Year Four including Budgets
(July 1, 2023-June 30, 2024)

The FFY2023 DRAFT Annual Action Plan and budgets for CDBG and HOME are available for review at the Economic and Community Development Department, 3rd Floor City Hall, 27 Pine Street, Lewiston, ME. Copies of the draft Action Plan and budgets will be made available beginning on April 1, 2023 on the Economic and Community Development Department page of the City's website at CDBG & HOME Information | Lewiston, ME - Official Website (lewistonmaine.gov). In addition to the web, copies of the Draft Annual Action Plan and budgets will be available at the Economic and Community Development Office located on the 3rd floor of Lewiston City Hall.

The 1st public hearing of the DRAFT Annual Action Plans and budgets will be held during the Lewiston City Council's regular meeting on April 18, 2023 at 7:00 pm. The second public hearing will be held on May 2, 2023 at 7:00 pm at the regular City Council meeting when the CDBG and HOME budgets and plans are reviewed for adoption by City Council. The public comment period will begin on April 1, 2023 and end on May 1, 2023.

Written comments on the DRAFT Annual Action Plan should be directed to: Lincoln Jeffers, Director of Economic and Community Development Department, Third Floor City Hall, 27 Pine Street, Lewiston, ME 04240 or via email at ecdd@lewistonmaine.gov.

The City of Lewiston is an EOE. For more information please visit our website at www.lewistonmaine.gov and click on the Non-Discrimination Policy.

Lincoln Jeffers
Director of Economic & Community Development

Public Notices are a permanent and independent record of government and court actions. These include state and local government meetings, rule making, available contracts, zoning changes, and many more, as required by law. In addition, parties to some court proceedings, such as foreclosures, probate, and estate actions are required to publish notices to ensure notification of affected parties, as well as the general public. These notices also alert business owners, large and small, to potential government contract jobs, helping to ensure economic activity across a level playing field. Public notices have existed to ensure transparency in all levels of government since the founding of the United States.
State and local notices are published in Maine newspapers and are also recorded at mainenotices.com, where anyone can browse or search notices, and sign up to receive email alerts when relevant notices appear.

Community Survey SM Posting

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

As part of the community survey process, the city requested general unmet needs letters be submitted to the consortium contact information provided herein.

On December 5, 2022, the city received an email (Commenter #1 - Kathy Shaw) requesting the city dedicate staff "promote, advocate and facilitate progress" towards promoting and funding local food production.

On February 13, 2023, the Auburn City Council held a pre-action Plan public hearing.

This Public Hearing can be seen at timestamp 2h:18min by following the link below.

https://www.youtube.com/watch?v=ZgNiBOw1tlw&list=PL8ustjJZ3Nvgf5BewLIePuiT_TICZy3i9&index=2

During this meeting, two residents spoke. The first (Commenter #2 - Larry Pelletier) continued reading an article published by AARP, which they began reading during the first open session earlier that night. This article focused on the causes of homelessness.

The second resident (Commenter #3 - Andrew Titus) asked for reporting on previous year impact metrics and for the new plan to include specific goals relating to lifting people out of poverty.

On March 28, 2023, the Community Development Department presented to the New Auburn Association at Rolly's Diner at 87 Mill St., Auburn, ME 04210. 13 people attended. During the meeting, 4 attendees spoke. Commenter #1, Larry, asked if the rehab programs could help with his water lines. Commenter #3, Tina, asked if the rehab programs could help with building accessible ramps and if painting over lead paint would make a residence lead-safe. Commenter #3, Betty, asked if applications could be made available offline. Commenter #4, Ben, wanted to know if zoning regulations have changed. He owns a multi-unit building and is interested in creating a new unit.

6. Summary of comments or views not accepted and the reasons for not accepting them

Commenter #1 – The ACDO has piloted and launched the Neighborhood Corner Store program. This was funded by the City Council with American Rescue Plan Act funds and provides funds to local grocery retailers which expand their healthy and local grocery offerings. This ongoing program is expected to be fully executed by the end of 2023.

Commenter #2 – The ACDO has made extensive steps to increase direct services for the unhoused community during PY22. Activities providing services to the Qualified Populations under HOME-ARP will continue in PY23. Additionally, the ACDO has developed new integration with MSHA to provide Coordinated Entry into the Homelessness Continuum of Care & ACDO staff moving forward.

Commenter #3 – The ACDO publishes the Consolidated Annual Performance Evaluation Report (CAPER), which provides plan-to-date impact data and budget expenditures. This report is released publicly, and public hearings are held by the City Council each time they are completed. The ACDO will provide a similar summary within the current Action Plan to better inform the community.

7. Summary

STRATEGY #1: PROVIDE SAFE & AFFORDABLE HOUSING

Description: Auburn is utilizing its CDBG program funds to leverage its Lead Hazard Control program and reduce hazardous housing units occupied by vulnerable populations. The use of HOME funds for new unit development projects is also a positive step towards increasing affordable housing options in the city.

In March 2023, the ACDO released a Notice of Funding Opportunity for projects creating new, affordable housing units within Auburn. This will likely attract more, smaller-scale developers and organizations with shovel-ready (and zoning compliant) projects to apply for funding and create more housing options for residents.

Tenant-Based Rental Assistance (TBRA) in the form of Security deposits will continue within this budget and is funded both with HOME funds and existing HOME-ARP funds.

Leveraging additional ARPA & MSHA-funded programs such as the Downtown Façade grant and Accessory Dwelling Unit Development program will also help to revitalize the city's downtown area and provide more housing options for residents. Overall, Auburn is taking proactive steps to address its housing needs and improve the quality of life for its residents.

STRATEGY #2: IMPROVE INFRASTRUCTURE & REDUCE BLIGHT

Description: CDBG funds will be used to address blight remediation and continue the Neighborhood Challenge grant program. These initiatives can have a significant impact on improving the quality of life for residents and increasing community pride. Additionally, the development of publicly owned infrastructure and amenities within targeted neighborhoods can enhance the attractiveness of these areas to potential residents and businesses.

Public Infrastructure projects will be completed within qualified LMI census tracts (Downtown, Union St & New Auburn) and will focus on increasing pedestrian improvements to increase safety in residential neighborhoods and encourage more foot traffic and support to local businesses. Addressing distressed buildings and code violations can improve the overall appearance and safety of the community and may also have a positive impact on property values.

Overall, these efforts demonstrate a commitment to improving the community and creating a more livable and attractive city for residents and visitors alike.

STRATEGY #3: PROMOTE JOBS AND ECONOMIC OPPORTUNITY

The city is stimulating entrepreneurship and providing business loans to income-qualified businesses. These loans can be a valuable source of funding for small businesses and help create jobs and stimulate economic growth.

STRATEGY #4: PROVIDE ESSENTIAL SERVICES

Description: The city is responding to identified needs within the community by spending a portion of the funds available under the Public Service cap to create a position that serves as a Community Assistance Coordinator. This position will coordinate with the General Assistance program and Community Development staff to assist residents in accessing community assistance programs offered by the city and third-party organizations.

Additional funds will still be available to continue supporting homeless people and seniors in the community by funding organizations that have successfully served these populations within the city in the recent past. These priorities were identified as the top 3 services by respondents to the community survey and represent the growing needs observed by regional service providers.

City of Auburn, Maine
Business & Community Development
60 Court Street | Auburn, Maine 04210 www.auburnmaine.gov

PR-05 Lead & Responsible Agencies - 91.200(b)

1. Agency/entity responsible for preparing/administering the Consolidated Plan

The following are the agencies/entities responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

Agency Role	Name	Department/Agency
Lead Agency	AUBURN	
CDBG Administrator	AUBURN	City of Auburn Business & Community Development
HOPWA Administrator		
HOME Administrator	AUBURN	City of Auburn Business & Community Development
HOPWA-C Administrator		

Table 2 – Responsible Agencies

Narrative

In 2001, Auburn and Lewiston formed a consortium in order to receive HOME Investment Partnerships Program funds. The consortium agreement between Auburn and Lewiston for HOME Investment Partnerships Program funds is structured to meet the funding threshold for HOME funds. Auburn serves as the program sponsor and uses 5% of the available HOME funds to cover the overall administration of the program for the consortium, while the remaining 5% of ADMIN funds are split evenly between both cities. The current year's program fund allocations are divided equally between the two cities, with each city responsible for conducting programs and required monitoring in compliance with HUD regulations. The City of Auburn, as the Representative Member, is responsible for managing and monitoring another member's programs if they do not meet HUD standards. However, there is currently no notice that such action is required.

Consolidated Plan Public Contact Information

The PY23 Action Plan is the 4th year of the 2020-24 Consolidated plan. Comments may be submitted at any time to the Auburn Community Development Office, 60 Court Street, Auburn, ME 04210, tel. 333-6601 or via e-mail at CDBG@auburnmaine.gov.

AP-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

In addition to a public survey and public hearings held by the City Council, the ACDO has been in continual dialogue with Maine State Housing, the Auburn & Lewiston Housing Authorities, private developers, and community service providers in a concerted effort to develop new needs assessment data and improve communications channels between service providers. These efforts are substantially focused on activities that address the needs of individuals who are homeless, at risk of homelessness, or otherwise identified as a Qualified Population (QP) under the HOME-ARP program requirements.

This Annual Action plan can and should recognize the tandem development and submissions of the Annual Action plans and the HOME-ARP plan. The development of these two plans included direct outreach and solicitation of needs assessment data from organizations and partners, as outlined below. Further, activities within the HOME-ARP plan will be reported in the CAPER without increasing the anticipated 5-year impact goals of the PLAN.

The city has also increased its direct consultation and resiliency planning with the local Emergency Management Agency, state and local health agencies, and first responders such as local Police, Fire, and Sherriff departments. These partnerships are in response to emergent climate changes, civil emergencies such as homelessness, food insecurity, and substance/mental health concerns within the community.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The ACDO is working with homeless service providers and other organizations to prevent and eliminate homelessness in Maine. The Continuum of Care (COC) is an excellent example of a collaborative effort among service providers serving a particular geographic area to develop programs that address housing and homelessness. It's also positive to see that Lewiston and Auburn are part of the Maine State Continuum of Care and that a HUB Coordinator has been appointed to facilitate the development of a coordinated entry for COC services while quantifying locally generated housing service data.

The Lewiston-Auburn Alliance for Services to the Homeless (LAASH) is another excellent example of a local collaborative effort to improve access to services and housing for persons who are homeless or at risk of homelessness. Auburn and Lewiston Community Development staff participate in LAASH, which meets monthly to focus on local homeless issues and provide a forum for educating its members.

The establishment of working partnerships with mental health and service agencies is also commendable. The city's contracted position for Project Support You (PSY), staffed by a certified mental health and crisis intervention specialist from Tri-County Mental Health Services, is an excellent example of a program that

co-responds to police and medical calls involving individuals suffering from substance or mental health issues.

It's concerning to report that a majority of the private sector homeless shelters operating within the cities are not participating in the Maine CoC outreach provider program and are not contributing to the Homeless Management Information System (HMIS) data. Full participation in these comprehensive data-sharing systems is essential to provide accurate information about the local homeless population and provide strategic case management referrals and information sharing by many of the participating service providers in the state.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The HOME-ARP program has been instrumental in creating a Housing Resource Coordinator position, which serves as a Coordinated Entry (CE) point to the Maine CoC for at-risk and other Qualified Populations in the jurisdiction. This role collaborates with various stakeholders, including local homeless service providers, community advocates, and mental healthcare providers, to provide much-needed support to those in need.

Furthermore, the City of Auburn has integrated its Community Development Office, General Assistance, and Public Health Offices to maximize its efforts and work in tandem with organizations like LAASH. These three offices continue to share resources and coordinate services and referrals with the HUB Coordinator to offer more comprehensive assistance to the homeless and at-risk populations. The HOME-ARP plan has also created new positions, which work in collaboration with the HUB Coordinator, local Housing Navigators, and private service providers to provide outreach and direct services to qualified individuals.

Increased coordination with the city Public Health Manager and the McKinney-Vento Liaison within the Auburn school system has served to demonstrate a dramatic increase in McKinney-Vento qualified youth within the Auburn school system. As of March 2023, 199 students have been reported as homeless or living in substandard housing (including 39 unaccompanied youth). This rate represents 11.5% of the total enrolled population, a notable uptick from the 69 reported students at the same time last year.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The Auburn Community Development Office (ACDO) has successfully collaborated with the Maine State Housing Authority (MSHA) to gain direct access to the Homeless Management Information System (HMIS) for city staff. This agreement involves MSHA covering the cost of the software licenses while ACDO and

General Assistance staff perform MSHA-approved outreach and Coordinated Entry assessments to ensure efficient data collection and analysis.

Looking ahead, the City of Auburn plans to apply for Emergency Shelter and Housing Assistance Program (ESHAP) funding in November 2023 to further diversify funding and sustain direct services for homeless and at-risk residents. This initiative also aims to strengthen the integration of city-provided services within the broader Continuum of Care framework, reinforcing the city's commitment to preventing and eliminating homelessness in the area.

2. Agencies, groups, organizations and others who participated in the process and consultations

Table 2 – Agencies, groups, organizations who participated

1	**Agency/Group/Organization**	MAINE STATE HOUSING AUTHORITY

	Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?	ACDO staff consulted the McKinney-Vento Liaison within the school department regarding homeless and unaccompanied youth being serviced under the McKinney-Vento Act.

Identify any Agency Types not consulted and provide rationale for not consulting

No agency types were intentionally not consulted.

Other local/regional/state/federal planning efforts considered when preparing the Plan

Name of Plan	Lead Organization	How do the goals of your Strategic Plan overlap with the goals of each plan?
Continuum of Care	Maine State Housing Authority	The Cities of Auburn and Lewiston have formed a consortium to qualify for HOME Investment Partnerships Program funds, with the grant funds shared by both cities. The 3-year HOME Consortium plan includes a consultation process with Maine State Housing Authority for the recertification. Lewiston and Auburn Community Development staff both participate in the Lewiston-Auburn Alliance for Services to the Homeless (LAASH), which meets monthly. As part of developing the 2020-2024 Consolidated Plan, Auburn and Lewiston Community Development staff worked closely on the plan's development and implementation. Both Lewiston and Auburn have continued the development of new, affordable rental units. General Assistance and Public Health offices coordinate with the Coordinated Entry system and emergency shelters.
Natural Hazard Mitigation Plan	Androscoggin EMA	This plan addresses the potential impacts of climate change and social emergencies utilizing the HAZUS method, a model for estimating the risk of damage from earthquakes, floods, solar flares, hurricanes, and other known hazards. This plan identifies a potential 866 households (1,225 individuals) that would need sheltering in response to flood impacts. Additionally, this plan estimates that 2,323 individuals would require emergency shelter options in response to a potential increase in hurricane damage.
Analysis of Impediments to Fair Housing Choice	Maine State Housing Authority	Published in October 2019, this plan recognizes similar impediments at the state level as are seen locally, including a Lack of Affordable Housing unit development, Racial and Ethnic barriers, and zoning difficulties posed by NIMBYism efforts (discrimination by communities and neighbors).
Hope & Opportunity for ME	Coordinated Community Plan (CCP) Planning Committee	This HUD-funded Youth Homelessness Demonstration Program (YHDP) results from a $3.3 million planning and Technical Assistance grant to assess and respond to the needs of Maine's homeless youth and young adults. The plan identifies additional partners, including the Department of Education, DHHS, and identified coordinated entry positions. This initiative will not only increase the efficacy of data collection and analysis within the HMIS system but increases coordination between service provider partners.

Name of Plan	Lead Organization	How do the goals of your Strategic Plan overlap with the goals of each plan?
Comprehensive Plan, 2021	City of Auburn	This plan focuses on established priorities that provide for the quality of life for Auburn's current and future residents. It outlines specific zoning and services to be equitably provided across the diverse types of neighborhoods, from rural to high-density urban and everything in between.
Strategic Plan, 2019	City of Auburn	The city Strategic Plan establishes 3 committees that oversee the implementation and progress of the city Comprehensive Plan.
Mainehousing Outlook 2023	Maine State Housing Authority	Published in December 2022, this plan assesses the health and development of affordable housing and housing assistance programs state-wide.

Table 3 – Other local / regional / federal planning efforts

Narrative

The City of Auburn is taking a proactive approach to service delivery by incorporating the General Assistance office and Public Health officer into regular meetings with Community Development staff while simultaneously creating three new positions focusing on providing service to area residents. The Housing Resource Coordinator (funded with HOME-ARP), the Project Support You Co-Responder (Funded by city ARPA funds), and the new Community Assistance Coordinator (funded in part by CDBG & City funds) will dramatically increase the amount of direct care and service provided by the city of Auburn to its residents. This approach offers a more holistic approach to service delivery and can help to identify, address issues, and coordinate responses more effectively.

Broadband access is an important issue for many households, particularly those in rural and low/mod income households. Multiple broadband providers are available in the area; some offer programs for qualifying low/mod households. Increased competition between providers can also benefit consumers. Over 90% of respondents to the community survey indicated they have adequate internet at home. This trend is focused within the urban downtown districts, but rural residents still face cost burdens to connecting to high-speed internet.

The consortium works with the Androscoggin County Emergency Management Agency (EMA) to assess and prepare for natural disasters. With increased climatic changes and civil needs in the area, it's essential to be prepared for emergencies. The potential for increased flooding in the 100-year floodplain due to climate change is a concern. The city is working with partners at EMA to develop responses to potential floods and environmental events.

Overall, the City of Auburn is taking a proactive and comprehensive approach to addressing the various issues facing the community. The partnerships with multiple organizations and agencies are also encouraging and can help ensure that the city is prepared for emergencies and can provide effective services to residents.

AP-12 Participation - 91.401, 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

This PY23 annual Action Plan incorporates further improvements to increase participation. The addition of an annual, locally focused, and managed housing and community needs survey has allowed for greater programmatic efficiencies to be implemented based on sound data.

These changes include more pragmatic improvements directly responding to community residents' current needs. The primary need is to solicit greater participation in the identification of local community needs on an annual basis. By developing and refining a local survey program, which demonstrates more diversity while eliminating traditional (or COVID-19) barriers to participation, city staff has been better prepared to respond to Auburn and Lewiston residents' new and rapidly changing needs.

Still, traditional methods of paper surveys, disseminated through dozens of service provider partners and area non-profits, allowed for the additional inclusion of input from community members with substandard access to and capabilities managing internet connectivity and fluency. This will remain an essential part of diversifying community engagement and outreach efforts to ensure that as the methods of operation modernize, no members are left behind.

Additionally, in coordination with implementing the HOME-ARP plan, Auburn and Lewiston staff work monthly with multiple homeless service providers, first responders, and educational institutions. This input was incorporated into the development of both plans.

New efforts have been created by ACDO staff around landlord engagement. This process involves monthly meetings with landlord groups, housing service providers, and case managers. This communication and needs assessments focus on placing unhoused individuals in permanent housing provided by local private landlords and promoting and receiving feedback on current and proposed landlord incentives and rehabilitation opportunities. This ongoing process that culminates in June with a local housing summit event held in Auburn’s Festival Plaza.

Citizen Participation Outreach

Sort Order	Mode of Outreach	Target of Outreach	Summary of response/attendance	Summary of comments received	Summary of comments not accepted and reasons
1	Public Hearing	Non-targeted/broad community	On February 13, 2023, the Auburn City Council held a pre-action Plan public hearing. This Public Hearing can be seen at timestamp 2h:18min by following the link below.	During this meeting, two residents spoke. The first (Commenter #1 - Larry Pelletier) continued reading an article published by AARP, which they began reading during the first open session earlier that night. This article focused on homelessness causes. The second resident (Commenter #2 - Andrew Titus) urged a reporting on previous year impact metrics and that the new plan includes specific goals related to lifting people out of poverty.	n/a

2	Community Survey	Non-English Speaking - Specify other language: French, Spanish, Swahili, Somali Non-targeted/broad community	Summary of response/attendance On February 13, 2023, the Auburn City Council held a pre-action Plan public hearing. This Public Hearing can be seen at timestamp 2h:18min by following the link below. As of April 18th, 2023, 120 Auburn residents and 13 non-residents completed the survey. Of these respondents, 60% were homeowners, 36% were renters, and 3% were unhoused. Of the 318 total household occupants included in the survey, 79 were seniors, 180 adults, 49 children aged 7-17, and 21 children under 6.		Notable responses indicate that 8% have had a household member who has experienced homelessness within the last 12 months. 59% of respondents reported paying more than 30% of their monthly income on housing-related expenses. 34% stated that a household member is currently under/unemployed. The top 3 services respondents want the city to prioritize are Homelessness - 65%, Seniors - 44%, and Substance Abuse - 33%. The top 3 priorities that they believe the city should fund are Affordable Housing - 70%, Food Assistance - 41%, and

Sort Order	Mode of Outreach	Target of Outreach	Summary of response/attendance	Summary of comments received	Summary of comments not accepted and reasons
					Rental Assistance - 31%.
3	Public Meeting	New Auburn Community	On March 28, the Community Development Department presented to the New Auburn Association on the various HUD-funded programs available to qualified participants. 13 people attended. Attendees received a handout with links to applications for all HUD-funded Community Development programs. Programs discussed were Lead rehab, CDBG Critical Repair, Downtown residential exterior improvements, heating assistance, TBRA, HOME-ARP supportive services, HOME downpayment assistance, and assistance for new unit creation.	During the meeting, 4 attendees spoke. Commenter #1, Larry, asked if the rehab programs could help with his water lines. Commenter #3, Tina, asked if the rehab programs could help with building accessible ramps and if painting over lead paint would make a residence lead-safe. Commenter #3, Betty, asked if applications could be made available offline. Commenter #4, Ben, wanted to know if zoning regulations have changed. He owns a multi-unit building and is interested in creating a new unit.	N/A

Table 4 – Citizen Participation Outreach

Expected Resources

AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

Introduction

Funding for the Community Development Program is derived from Community Development Block Grant and HOME Investment Partnerships Program allocations for Auburn and Lewiston. These yearly allocations are supplemented by their respective program income derived from current loan principal paybacks expected within the program year and unspent funds carried over from prior years. Allocations are presented as expected to be indicated on our FY23 award letter from HUD and internal reports designating available program income and prior year funds. Prior year resources include unspent funds from both CDBG and HOME funds. Unspent CDBG funds from program years 2018, 2019, 2020, 2021 and 2022 are included. Unspent funds from the HOME program include program years 2015, 2017, 2018, 2019, 2020, 2021, and 2022. These unspent funds are the result of previous year projects which may have been canceled, as well as balances of funds initially set aside for expenditures that fell short of budget expectations. Within this Action Plan, these funds are allocated to new projects as indicated and within guidelines established by HUD.

Additional impacts to expected resources for this PLAN are derived from two outstanding Voluntary Grant Reductions (VGRs). These VGRs result from multiple projects being partially disqualified during the 2020 HUD monitoring. The expected impact of these reductions total $47,243.34 in decreased funds available for the CDBG program over the PY23 & PY24 and $81,788.01 in HOME funds. HUD has determined that these impacts

will now be delayed until PY24.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan $	Narrative Description
			Annual Allocation: $	Program Income: $	Prior Year Resources: $	Total: $		
CDBG	public - federal	Acquisition Admin and Planning Economic Development Housing Public Improvements Public Services	534,778	200,000	1,142,538	1,877,316	735,000	Resources available include the anticipated allocation, program income, and unspent CDBG funds from the previous years. Funds anticipated for the remainder of the ConPlan include the annual allocation and projected program income.

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Remainder of ConPlan $	Narrative Description
			Annual Allocation: $	Program Income: $	Prior Year Resources: $	Total: $		
HOME	public - federal	Acquisition Homebuyer assistance Homeowner rehab Multifamily rental new construction Multifamily rental rehab New construction for ownership TBRA	546,921	48,000	672,674	1,267,595	594,921	Resources available include the anticipated allocation, program income, and unspent HOME funds from the previous years. Funds anticipated for the remainder of the ConPlan include the annual allocation and projected program income.

Table 3 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

This workplan has taken a proactive approach to engaging with third-party community service providers and smaller, shovel-ready housing development projects that fit within existing city Code & Zoning standards.

Community Development funds that leverage additional resources are primarily public service activities and multi-unit rehab projects that require owner contributions. The addition of the Lead Hazard Reduction program will also utilize a portion of CDBG funds to cover match requirements for income-qualifying owners. These funds effectively leverage private and state-funded programs. Investor-owned properties require a 25%

match. Housing programs that target owner-occupied low-income populations have no match requirements.

Federal HOME funds will leverage private resources primarily through rental development projects. Auburn and Lewiston each have rental development projects planned and in construction. The city of Auburn is working on new unit development through a new Affordable Housing Development NOFO. The City of Lewiston is continuing the Choice Neighborhood development, which will leverage private capital contribution. These funds will be added to the previous year's match carry forward to satisfy the requirement.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Auburn's Economic Development Office has multiple city-owned properties currently under contract to sell to private commercial developers.

Discussion

Funding from prior year resources is notable within this budget, yet these numbers are not included in the amount expected for the remainder of the Con Plan. This number is the sum of new allocations and Program income for the next 2 program years.

If there is a reduction in the annual allocation from HUD or a shortfall in expected program income, an equally proportionate reduction will be made to the budget. These reductions will come from the Affordable Housing budget.

Annual Goals and Objectives

AP-20 Annual Goals and Objectives - 91.420, 91.220(c)(3)&(e)

Goals Summary Information

Sort Order	Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
1	Provide Safe and Affordable Housing	2020	2024	Affordable Housing Public Housing Homeless Non-Homeless Special Needs		Provide Safe and Affordable Housing	CDBG: $599,910 HOME: $1,158,753	Rental units constructed: 7 Household Housing Unit Rental units rehabilitated: 25 Household Housing Unit Homeowner Housing Rehabilitated: 10 Household Housing Unit Tenant-based rental assistance / Rapid Rehousing: 15 Households Assisted

AP-35 Projects - 91.420, 91.220(d)

Introduction

The following tables list the activities and programs that will be supported using HUD program funds during the 2022-23 program year. The objectives are to:

1. Provide Safe and Affordable Housing
2. Improve Public Infrastructure and Eliminate Blight
3. Promote Economic Opportunities
4. Provide Essential Services

The difference between the totals in the AP-35 & the AP-20 is due to administrative expenses.

#	Project Name

3	2023 Economic Development
4	2023 Public Service
5	2023 Public Infrastructure
6	2023 Administration
7	2023 Lewiston Admin
8	2023 Lewiston Security Deposits
9	2023 Lewiston HOME Construction

Table 5 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Allocation priorities for Auburn focus on improving the quality and safety of existing housing stock as directed by the city strategic plan. In the community survey, 73% of respondents said their homes were "cold & drafty," while another 39% indicated their homes had either leaky roofs and/or wet basements.

Increased attention is being given to the development of small-project affordable housing stock. 59% of respondents to the community survey indicated that they were paying more than 30% of their monthly income toward housing. This shows that over half of the city population by percentage is rent burdened per HUD standards. The development of new, affordable units will help Low-moderate income residents attain housing that is both up to city housing standards and affordable. 70% of respondents to the community survey indicated affordable housing development as a top priority for the city.

Most Public Services are being provided directly by city staff, with allocations based on a prioritization of homeless & at-risk residents. These priorities are established within the responses of the community-wide survey, in which 65% of respondents stated that services to people experiencing homelessness should be

the city's top priority. After homelessness, 44% stated services should be provided to seniors, and another 33% stated additional services are needed around substance abuse treatments.

Public infrastructure improvements in Auburn are based on 55% of community survey respondents stating that safety concerns keep them from walking within their neighborhood. This includes a lack of accessible crosswalks and pedestrian safety measures. This input reflects data provided by the CDC Environmental Justice Index, which has identified the Downtown, Union Street, and the New Auburn census tracts as being burdened by high-volume roadways in proximity to residential neighborhoods.

Lewiston's priorities for HOME funds are based on the need to increase affordable housing units while still supporting TBRA services for income-qualifying residents.

AP-38 Project Summary

Project Summary Information

1	**Project Name**	2023 Housing Rehab
	Target Area	
	Goals Supported	Provide Safe and Affordable Housing
	Needs Addressed	Provide Safe and Affordable Housing
	Funding	CDBG: $599,910
	Description	Rehabilitation of existing single and multi-unit residential buildings
	Target Date	6/30/0024
	Estimate the number and type of families that will benefit from the proposed activities	25 Rental Units Rehabilitated, 10 Homeowner Units Rehabilitated
	Location Description	Within Auburn
	Planned Activities	Critical Repair LOAN PROGRAM - $400,000 LMI LEAD Match Grants - 150,000 LEAD TESTING/CLEARANCE - $15,000 Project Delivery Cost - $14,910.01
2	**Project Name**	2023 Housing Construction
	Target Area	
	Goals Supported	Provide Safe and Affordable Housing
	Needs Addressed	Provide Safe and Affordable Housing
	Funding	HOME: $785,000
	Description	Creation of 5 new rental units
	Target Date	6/30/2024
	Estimate the number and type of families that will benefit from the proposed activities	Five qualifying AMI households.
	Location Description	Within Auburn

	Planned Activities	Creation of 5 new rental units
3	**Project Name**	2023 Economic Development
	Target Area	
	Goals Supported	Promote Economic Opportunities
	Needs Addressed	Promote Economic Opportunities
	Funding	CDBG: $50,000
	Description	Business loans will be made to income-qualifying micro-enterprises.
	Target Date	6/30/0024
	Estimate the number and type of families that will benefit from the proposed activities	5 LMI qualified businesses
	Location Description	Within Auburn
	Planned Activities	Provide loans to income-qualified micro-enterprises.
4	**Project Name**	2023 Public Service
	Target Area	
	Goals Supported	Provide Essential Services
	Needs Addressed	Provide Essential Services
	Funding	CDBG: $100,000
	Description	Providing essential services to Auburn residents
	Target Date	6/30/2024
	Estimate the number and type of families that will benefit from the proposed activities	500 income qualified residents/households
	Location Description	Within Auburn

	Planned Activities	The city is responding to identified needs within the community by spending a portion of the funds available under the Public Service cap creating a position which serves as a Community Assistance Coordinator. This position will work in coordination with the General Assistance program and Community Development staff to provide residents assistance in accessing community assistance programs provided by both the city as well as third party organizations. Additional funds will still be made available to continue supporting homeless and seniors in the community by funding organizations which have successfully served these populations within the city in the recent past. These priorities were identified as the top 3 services by respondents to the community survey and represent the growing needs observed by regional service providers. Public Service Coordinator (0.5FTE) - $35,000 Recreation Youth Scholarships - $20,000 SafeVoices Shelter - $20,000 SeniorsPlus Meals on Wheels - $25,000
5	**Project Name**	2023 Public Infrastructure
	Target Area	
	Goals Supported	Improve Infrastructure and reduce blight
	Needs Addressed	Improve Public Infrastructure and remove blight
	Funding	CDBG: $1,005,000

	Description	CDBG funds will be used to address blight remediation, as well as continue the Neighborhood Challenge grant program. These initiatives can have a significant impact on improving the quality of life for residents and increasing community pride. Additionally, the development of publicly owned infrastructure and amenities within targeted neighborhoods can enhance the attractiveness of these areas to potential residents and businesses. The focus on increasing pedestrian safety within the Downtown census tract is also important, as it can encourage more foot traffic and support local businesses. Addressing distressed buildings and code violations can improve the overall appearance and safety of the community and may also have a positive impact on property values. Overall, these efforts demonstrate a commitment to improving the community and creating a more livable and attractive city for residents and visitors alike.
	Target Date	6/30/2023
	Estimate the number and type of families that will benefit from the proposed activities	1,000 LMI residents
	Location Description	Within Auburn, with prioritization to LMI-qualified census tracts
	Planned Activities	Public Infrastructure Projects focused on Pedestrian & Public Safety within the three qualified census tracts (Downtown, Union St & New Auburn) - $870,000 Neighborhood Challenge Grants for improvements to public facilities within the three qualified census tracts (Downtown, Union St & New Auburn- $35,000 Spot/Blight Remediation of hazardous and/or dangerous buildings within the three qualified census tracts (Downtown, Union St & New Auburn) - $100,000
6	**Project Name**	2023 Administration
	Target Area	
	Goals Supported	
	Needs Addressed	
	Funding	CDBG: $122,406 HOME: $95,169

	Description	Personnel and administrative costs for delivering services
	Target Date	6/30/2024
	Estimate the number and type of families that will benefit from the proposed activities	n/a
	Location Description	Within Auburn
	Planned Activities	Administrative expenses for planning and delivering program activities.
7	**Project Name**	2023 Lewiston Admin
	Target Area	
	Goals Supported	
	Needs Addressed	
	Funding	HOME: $13,673
	Description	Administration expenses for Lewiston HOME program

	Planned Activities	Administrative expenses for operation of Lewiston HOME program activities
8	**Project Name**	2023 Lewiston Security Deposits
	Target Area	
	Goals Supported	Provide Safe and Affordable Housing
	Needs Addressed	Provide Safe and Affordable Housing
	Funding	HOME: $15,000
	Description	Tenant-based rental assistance in the form of Security Deposits
	Target Date	6/30/2024
	Estimate the number and type of families that will benefit from the proposed activities	15 income-qualifying households

	Location Description	Within Lewiston
	Planned Activities	Providing Security Deposit assistance for income-qualified households
9	**Project Name**	2023 Lewiston HOME Construction
	Target Area	
	Goals Supported	Provide Safe and Affordable Housing
	Needs Addressed	Provide Safe and Affordable Housing
	Funding	HOME: $358,753
	Description	
	Target Date	6/30/2024
	Estimate the number and type of families that will benefit from the proposed activities	2 Income-qualified households
	Location Description	Within Lewiston
	Planned Activities	Construction of new affordable rental units

AP-50 Geographic Distribution - 91.420, 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

In Auburn, priority will be given to the Downtown (Census Tract # 101), The Union St Neighborhood (Census Tract # 103), and the New Auburn Area (Census Tract #105). The most recent HUD CHAS data shows that these tracts qualify as 51% LMI by population and are primarily residential.

Geographic Distribution

Target Area	Percentage of Funds

Table 6 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The 2011-2015 American Community Census identified these 3 census tracts in Auburn, where a majority of the households qualify as Low-To-Moderate Income levels. For this reason, these 3 tracts will be a focus of the city's affirmative marketing, outreach, and translation services.

The city also utilizes the Environmental Justice index data provided by the Center for Disease Control (CDC). This data qualifies the Downtown (Census Tract # 101) as having an overall EJI rank of 0.83, The Union St Neighborhood (Census Tract # 103) as having an overall EJI rank of 0.60, and the New Auburn Area (Census Tract #105) with an overall EJI rank of 0.80. These rankings are primarily impacted due to the CDC Social Vulnerability rank, Toxic Release Inventory Sites (which are driven by high levels of lead paint and High-Volume roadways. Prioritization of lead abatement projects and pedestrian safety improvements within these tracts are related to these observed conditions.

Discussion

Recently compiled GIS heat map data has also highlighted these 3 census tracts containing most of the city's homes at high risk for containing lead paint hazards. Additional outreach, education, and abatement resources will be provided to these designated census tracts and funded through the recently acquired Lead Hazard Control & Healthy Homes grant.

An additional focus of Public Infrastructure funds will be used to provide safer pedestrian amenities and eliminate toxic and blighted buildings within this PLAN.

Affordable Housing

AP-55 Affordable Housing - 91.420, 91.220(g)

Introduction

The Annual Action plan targets providing TBRA resources to homeless or at-risk households in Auburn and Lewiston. Auburn's target for the rehab of rental units outlined within this plan will be accomplished by leveraging the Lead Hazard Control and Healthy Homes grant. These programs require a minimum of a 3-year affordability period for all units. Therefore, as this program impact grows, more affordable units will be monitored by the ACDO staff.

Auburn's plan to develop new, affordable housing units relies on the existing Affordable Housing NOFO. This NOFO was released in March 2023 under the PY22 PLAN. Newly created units funded in part with HOME funds will have an affordability period of 20 years in which rents will be capped at the HIGH HOME Rents as directed by the Community Development Operations Manual and any relevant HUD notices. Currently, MSHA has over 3,700 units under constructed or underwritten state-wide. Of these, 3,280 new units are defined as affordable housing. These numbers are notably higher than the 1,672 units in the MSHA pipeline in PY21. According to MSHA Affordable Housing Options published in March 2023, there are currently 813 Affordable Housing units in Auburn (not including rehab units within their affordability periods). Auburn Housing Authority currently provides an additional 400 Housing Choice Vouchers to Auburn residents. Combined with the most recent CHAS data demonstrating a total of 4,605 rental units within the city, this figure represents over 26.8% of all rental units in Auburn as affordable defined by HUD.

Units funded with CDBG dollars must follow the city's Affordable Rent Standard. The definition of an affordable unit under this plan will be qualified as one that does not exceed HUD-published Fair Market Rents (FMRs) for the current year. A unit is determined to fall within the FMR of a specific area by adding the contracted rent and the applicable utility allowance for the unit. For CDBG-funded projects, the sum of both numbers cannot exceed the FMR of a unit based on bedroom size as published by HUD annually. If the local housing authorities have adopted and been granted a community-wide exception, then the affordable rent standard may increase to no more than 120% of the FMR for the local jurisdiction.

The one-year goals established below represent targets funded through HOME funds only and do not include activities funded by CDBG or other city initiatives.

One Year Goals for the Number of Households to be Supported

Table 8 - One Year Goals for Affordable Housing by Support Type

Discussion

Due in part to the COVID-19 pandemic, inflated construction costs, and lack of contractors, the new-unit developments scheduled in the previous year were not carried out for projects in either city. These plans will be carried over to this current action plan. Additional funding, as provided by the HOME-ARP allocation, will add to the impact of rental assistance services and the related services required to help families struggling with challenges other than the scarcity of affordable units.

The 2022 Environmental Justice Index has flagged all 3 income-qualifying census tracts as having a high prevalence of chronic poverty. Therefore, additional steps will be made within this Action Plan to address a lack of racial equity in affordable housing programming as outlined and referenced in the city's 5-year Comprehensive Plan. This will be achieved by providing more direct outreach to residents within the Union St, Downtown, and New Auburn census tracts. Newly translated materials will aid this outreach. These census tracts are qualified as comprising 51% or more low-to-moderate income households and have the highest concentration of residential units built before 1978. Pre-78 homes have a higher potential for containing Lead-based paint hazards, which cause adverse health effects in children.

AP-60 Public Housing - 91.420, 91.220(h)

Introduction

Auburn and Lewiston have added multiple large affordable housing projects in the past few years. According to statistics maintained by Maine Housing Authority, 243 new affordable housing units have been created with MSHA funding (including Auburn & Lewiston Consortium funds) between 2019 and 2022. These buildings offer modern affordable amenities to public housing residents. Auburn Housing Authority has been transitioning to a voucher-based system allowing more aid to residents using privately owned units.

As referenced above, there are currently 17 housing developments in Auburn that MSHA considers affordable. These developments have 813 units and are either income-based rent or rent-restricted units. Combined with the 400 Housing Choice Vouchers managed in privately owned units in Auburn, this total equates to nearly 26% of the total rental units available within Auburn.

Actions planned during the next year to address the needs to public housing

Auburn Housing Authority is continuing its conversion into a voucher-based system intended to increase capacity. The city has a notable amount of previous year HOME funds to invest in new unit developments, which are creating units with a 20-year affordability period.

The city of Auburn has substantial market rate developments planned and/or permitted for construction within the next year. Some of these projects have faced local opposition at the planning board level. Three projects within the city continue to stir controversy due to isolated neighborhood opposition, but the city is still committed to developing new housing units to help alleviate the identified housing shortage and high rental rates plaguing residents. NIMBYism and discrimination by communities and neighbors, as highlighted in MSHA's Analysis of the Impediments of Fair Housing Choice published in 2019, is not new. Still, the Auburn administration and City Council have continued to demonstrate unified support for the development of new housing units within the city through their actions.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

Auburn works with the Auburn Housing Authority, Lewiston Housing Authority, and Community Concepts Finance Corporation to assist in the development of new homeowners through its homeownership program and related Homebuyer Education programs. Auburn has incorporated self-sustainability programs into its programs which provide free financial coaching and educational experiences as provided by a HUD-certified housing or financial management counselor.

If the PHA is designated as troubled, describe the manner in which financial assistance will be

provided or other assistance

Although not designated as troubled, on August 8, 2022, HUD designated the Auburn Housing Authority (AHA) as Substandard based on a substandard Public Housing Assessment System (PHAS) physical score. Additional declines in management and capital funding prompted the City of Auburn Director of Business & Community development to conduct a review of AHA. This review included interviews with AHA staff and reviews of recent Physical Inspection and REAC Reports, remediation plans, current maintenance plans, audits, and organizational documents. The Director also met with the AHA board to present more support for the organization from the city. Currently, the Director is still monitoring the remediation plan and is having regular meetings with AHA senior staff to ensure the necessary improvements are being made.

Discussion

Both Lewiston and Auburn are focusing on supporting resident-owned multi-unit facilities to promote home ownership. The city of Auburn created an online fair housing resource center after COVID-19 forced the cancelation of the traditional joint landlord and tenant summit. This resource center provides opportunities for tenants to access new tools to address tenant topics of interest and other resources that assist tenants in becoming homeowners. This online resource center can be found at https://www.auburnmaine.gov/pages/neighborhood/housing-summit.

AP-65 Homeless and Other Special Needs Activities - 91.420, 91.220(i)

Introduction

The Maine Balance of State Continuum of Care has historically addressed Auburn and Lewiston's homeless needs. Both Cities participate and sponsor the Lewiston-Auburn Alliance for Services to the Homeless (LAASH), a group of local homeless providers who gather monthly to address the gaps in services to the area's homeless population.

Recently, the city of Auburn has integrated two new positions that deal primarily with the homeless population (Project Support You Staff and Housing Resource Coordinator). Additionally, the city of Auburn opened a 48-hour warming shelter for people experiencing homelessness during a dangerously cold weekend in February 2023. Staff continues to work with regional homelessness service providers to develop new programs that serve the population, despite previous failures to garner funding or support to operate a homeless shelter in Auburn. This plan has been developed in partnership with the HUB Coordinator located within Lewiston Housing Authority, whose role is to better assess and coordinate homeless counts and resource development and delivery.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The ACDO has extended its direct outreach services by creating the HOME-ARP-funded Housing Resource Coordinator. This position focuses on outreach and interactions to find and conduct HMIS outreach and Coordinated Entry services. Between December 2022 & February 2023, this position provided direct case management services to over 20 individuals currently experiencing homelessness. Most of these services are provided at encampments or drop-in shelters in Auburn. As this position transitions into a Coordinated Entry service provider, the ACDO expects to increase these numbers to generate a baseline of local homeless populations (and needs) to supplement the MSHA Point-in-Time count.

Addressing the emergency shelter and transitional housing needs of homeless persons

The Auburn-Lewiston Home Consortium includes the entirety of both cities. Much of the data provided at the state level is for Androscoggin County or the Lewiston-Auburn Metropolitan Statistical Area (which includes 12 surrounding municipalities). Both Auburn & Lewiston serve as a regional service HUB for the area, meaning that even though HOME-ARP funds are designated for residents of the two cities, the needs of these cities are impacted by the spillover or centralization of needs from the surrounding rural populations.

For example, data collected from the two emergency shelters operated at the Lewiston Ramada Inn or

the Lewiston Armory in 2020 clearly demonstrate this catch-basin effect. The combined totals of the two emergency shelters (whose numbers are not included in MSHA PIT counts) regularly operated at capacity. Of the 213 individuals sheltered, 60% claimed Lewiston as their residence, 20% claimed Auburn, and the remaining 20% came from outside the consortium's jurisdiction.

Additionally, the city of Auburn has recently taken in 50 additional asylum-seeking families of various origins, while the city of Lewiston's General Assistance has processed over 160 within the current Program year. These needs are being addressed through the city General Assistance office, with wrap-around services and coordination provided by the city Public Health manager. This coordination includes private charities, educational facilities, and local hotel operators.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City of Auburn has provided for a dedicated Housing Resource Coordinator to provide housing focused case management to Auburn residents. The ACDO is working with two potential subrecipients which specialize in sheltering the chronically homeless. These activities are funded from the consortiums HOME-ARP allocation and activities will continue through PY23.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The General Assistance offices of both cities work proactively to prevent LMI families from becoming homeless. These efforts are not just based on the use of General Assistance funds but also the addition of wrap-around support services rooted in their proactive community roles. Similarly, the Auburn Public Health office continues to work with residential institutions to match needs with readily dwindling community housing and support resources. The Community Development Office is adding a new Community Assistance Coordinator position to assist at-risk households with accessing resources outside of traditional General Assistance and HOME-ARP resources to these at-risk qualified populations.

Additionally, the Maine COC has added a new HUB coordinator located at the Lewiston Housing Authority. This position facilitates communication between service providers within the COC system, allowing the Community Development and Public Health teams to focus on crisis response and early intervention

efforts.

In addition to the current homelessness crisis and the influx of more refugee families into a jurisdiction already coping with a housing shortage is the impending end of the current Emergency Rental Assistance program. This program, locally administered by Community Concepts Inc., has serviced 1,118 non-duplicated households as of March 2022. With the scheduled closure of the Ramada Inn Emergency Homeless shelter and the end of the ERA program funding, preparations for a dramatic in housing needs are being developed.

Discussion

As noted above, Homelessness is not a place-based problem. For many, the lack of adequate, permanent housing is transitory in nature as they seek out new and ever-changing resources to meet their needs. Because of this, responses cannot be relegated to isolated neighborhoods or cities. The data compiled for this Action Plan reiterates the clear fact that this consortium is a catch-basin for homelessness and special needs for the region. To address this, better assessments of causal events and cooperation between regional service providers are needed. A strong relationship with the State's Continuum of Care and the locally placed HUB Coordinator is necessary to quantify needs and coordinate resources more accurately. These efforts will be optimized through a locally focused effort to measure and design systematic responses to the prevailing needs of the community.

The city of Auburn has stepped up to meet these needs by creating three new positions, each focusing on maximizing the utility of various funding sources and addressing specific needs such as substance abuse, homelessness, and family resources to sustain housing.

AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

Private development of multi-unit housing projects is on the rise across Auburn. Projects in the permitting process or already under construction are climbing, as the Auburn Planning & Permitting Department reports. One hundred thirty eight new certificate of occupancy have been issued to four new multi-unit developments since 2020. An additional 351 new units in 5 different projects are expected to come into service by the end of 2024. The large and rapid increase in new unit development, coupled with Auburn Housing Authority's conversion to a voucher-based system, will have a notable impact on addressing not just the overall housing shortage but will also make much-needed headway in the alleviation of the shortage of affordable housing.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The City of Auburn has continued its multi-year efforts to implement form-based zoning. This year saw an ambitious rezoning of the city's core residential area, totaling over 1,687 acres. This was conducted under the guidance of the city's Comprehensive Plan, as updated in 2021, and these changes to the land use code would allow for an increase in density to as high as 16 units per acre.

In the February 14th State of the City address, Auburn's Mayor said the city is halfway to his goal of creating 2,000 new housing units by reimagining zoning policies. Mayor Levesque said that Auburn has "passed some of the nation's most meaningful zoning reform packages, designed to empower the individual, right generational wrongs and foster an environment of success," and is now seen as "an example of how to reinvigorate a stagnant community." (**sunjournal.com**/2023/02/13/auburn-mayor-outlines-plan-to-continue-housing-growth-to-head-off-challenges/)

Although successful, he stated, "Inflation is impacting the cost of government, just like it's taking a toll on you and your family. The massive desire for so many people to live in Auburn is, on one hand, exciting. On the other hand, it is causing steep increases in home values and property taxes and a shortage of housing of all kinds."

City administration and elected leaders have not been seeking traditional governmental approaches to solution development. Instead of developing and implementing large-scale multi-unit construction subsidized by multiple layers of tax incentives or state and federal funds, they have promoted more equitable and innovative small-scale methods. These include the approval of Accessory Dwelling Units within city zoning, which creates new housing stock and offers small-scale sustainable rental income for

many more middle- and low-income residents with an extra quarter-acre to spare.

Another HOME Unit Development program launched in February 2023 provides HOME funds to smaller, de-coupled, scatter-sight projects instead of larger affordable housing developments. The recent outcry of local opposition to large multi-unit developments (mostly market rate) has inspired the ACDO to develop new programs which fit within the current zoning and neighborhood characteristics but are also small enough not to trigger local opposition or drawn-out approval processes. Some of these more innovative approaches have recently been highlighted in an article called "The YIMBYest City in America" (linked below), where the Mayor leans into the recent Not-in-my-back-yard exclusionism the city has faced. This same NIMBYism is also highlighted as an on-going concern within Maine State Housing Authority's 2019 Analysis of Impediments to Fair Housing Choice report.

YIMBY article: The YIMBYest City in America - Discourse (discoursemagazine.com)

MSHA Analysis of Impediments to Fair Housing: 2019-analysis-of-impediments.pdf (mainehousing.org)

Discussion

These progressive zoning changes, as well as the proposed projects, have stirred substantial community conversations. Dozens of residents have spoken at multiple public hearings or printed letters to the editor of the local paper, both for and against these types of zoning changes and development proposals. Arguments against these developments call into question the potential negative effects on the "traditionally single-family residence neighborhoods" which would be impacted by these large zoning changes across the city. This type of "Zone Defense" has been reactionary to these proposed developments and speaks to the impediments raised by MSHA in their analysis of Impediments to Fair Housing Choice.

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

As referenced above, respondents to the city community survey indicated that the top 3 services the city should provide with entitlement allocations were Homelessness (65%), Senior Services (44%), and Substance Abuse (33%). This input, combined with a dramatic increase in General Assistance requests, has inspired the city of Auburn to create a new Public Service Coordinator position partially funded by the city CDBG public service funds. The remaining funds and time allocation are to be paid for by the city with the primary role of aiding citizens in financial need to find essential resources.

The city of Auburn and the Auburn-Lewiston Consortium have undergone substantial redesign and re-staffing to better meet the prevailing needs of the community. As with any substantial change effort, growing pains within program planning and subrecipient funding expectations are expected, and steps have been taken to prepare for and respond to these concerns. Still, it is essential that the federal funds provided to the city address these ever-changing needs and be spent effectively and with the largest impact per dollar possible.

Actions planned to address obstacles to meeting underserved needs

In a post-COVID world, the resources and needs of the at-risk community changed dramatically. During this time, some types of programming and response systems proved their strength, reliability, and impact.

In addition to the Public Service Coordinator position, the city will continue to work with third-party community service providers with a proven track record of servicing homelessness, substance abuse, and Senior programming to accomplish these goals. Currently, the city of Auburn has a contracted position with Tri-County Mental Health which co-responds to police and rescue calls that involve someone suffering from mental health or substance abuse. Additional contracts will be provided to increase the capacity of homeless shelters and Senior care services.

Additional funding support for summer recreation scholarships will be provided to allow equitable access to experiential opportunities for LMI youth and serve as structured childcare for working parents during the summer months. This compound benefit has proven to provide the broadest demographically available services within the city's historic public service funding. Expanding on the positive, proven Public Services offered directly by the city of Auburn will increase the city's response to the prevailing nutritional and economic needs of its most historically and economically disadvantaged residents and neighborhoods.

Actions planned to foster and maintain affordable housing

Primary activities within this Action Plan involve the development of new residential units offered and made affordable for Low-to-moderate income residents. These funds have been offered through the

Auburn Home Unit Development (AHUD) program. This unique, decoupled development model allows property owners or smaller developers access critical funding needed to create additional affordable units within the jurisdiction. In exchange for funding, the assisted units will be offered to LMI residents at rates that are deemed affordable.

Additional programs will continue to provide access to funding for emergency repairs to residential housing units and tenant-based rental assistance as well as lead testing and abatement funding dedicated to improving the health and safety of homes with young children.

Actions planned to reduce lead-based paint hazards

Both cities currently manage their own grants from the Office of Lead Hazard Control, with which residential units containing children, or being marketed to families with children, can be tested for lead paint hazards. Where hazards are present, funds will be made available in the form of grants to mitigate and abate these lead paint hazards. The separate budget and work plan for the Lead Hazard Control grant established a goal of 110 units abated for lead hazards over the next 3 years. Included within this Action Plan are matching CDBG grants for LMI households to further increase the impact of the Lead Hazard Control grant funds.

Actions planned to reduce the number of poverty-level families

Community Development staff is committed to establishing and maintaining relationships with organizations and institutions which broaden and strengthen the institutional structure. Auburn is increasing its efforts to develop workforce empowerment programming with the local Chamber of Commerce, as well as focusing on and providing educational opportunities for Section 3 businesses. These are businesses owned or staffed primarily by Low-to-moderate income residents. These additional empowerment structures provide opportunities to poverty-level families to increase their experience and earnings and are funded in part through the Lead Hazard Control grant.

The city has also established a relationship with Community Concepts Finance Corporation, a certified HUD homeownership and financial counselor, which will provide free financial education sessions to families enrolled in the homebuyer or rehab programs. Leading with education services better prepares LMI residents to understand and prepare for the financial planning necessary to maintain their assets and improve their own financial situations.

Actions planned to develop institutional structure

The city of Auburn has reorganized its internal structure to better meet the array of prevailing community needs. By integrating the Public Health, General Assistance, and Community Development teams there is present a culture of collaboration and joint response to emergency health, housing, and refugee needs that can only be achieved through the removal of inter-department barriers and the establishment of a unified mission of service and crisis response. As new positions are added, such as the Lead Hazard Control

team and the Housing Coordinator, service gaps within the department are being filled.

The Auburn-Lewiston Consortium is also in a new phase of development where the Community Development and General Assistance offices from each city are working more directly and collaboratively on planning and response initiatives. This is most prevalent around the development and coordination of responses funded under the HOME-ARP plan, where the shared needs and homelessness crises are not easily divisible between the two cities. This inter-city cooperation and data sharing removed duplicative services and increases the efficiency of service delivery and efficacy.

Actions planned to enhance coordination between public and private housing and social service agencies

The Auburn Community Development Department, the Auburn Housing Authority, the Lewiston-Auburn Alliance for Services to the Homeless, the Lewiston Community Development Department, the Lewiston Housing Authority, Community Concepts, Healthy Androscoggin, and other city departments, and local and regional nonprofit organizations coordinate closely in the planning and delivery of housing services. However, there are not enough resources among all the partners to meet the identified needs. Waiting lists for services at the housing authorities are long. By leveraging private developers to construct more affordable units and engage with the Section 8 voucher program, multiple agencies would increase efficiency and ability to better serve the 434 low-to-moderate income residents on the Section 8 waitlist. By engaging with the new HUB Coordinator through a dedicated Housing Intervention Specialist position within the city, these production efforts can be aided with wrap-around services necessary to move residents in need through a better-organized structure with concrete benchmarks and measurable goals.

The Community Development Department has been involved in a local Green and Healthy Homes initiative to better coordinate housing improvements and bring new resources to the community. The City of Auburn has received a Lead Hazard Control Grant with the assistance of Healthy Androscoggin and other service delivery partners within the community. This project entails substantial integration of multiple health agencies, non-profit service providers, and the state Center for Disease Control, which can more efficiently share information, referrals, and response services specifically for children with identified elevated blood-lead levels (EBLLs).

Discussion

The last year has provided substantial and dramatic changes locally, nationally, and internationally. More prevalent today than in the previous 50 years, international conflicts and the crumbling of a globalized consumer economy have created new and unexpected challenges for Auburn and Lewiston residents. Grocery prices and fuel are increasing dramatically. Essential foods are becoming scarce, given manufacturing and resource acquisition breakdowns on the other side of the world. Lumber prices and construction materials are becoming scarce and largely unaffordable to many. Our community is growing with the addition of new and welcomed members who have been driven from other parts of the world due to famine and conflict. Finally, inflation and unemployment/underemployment make housing and

necessary daily resources unattainable for average residents.

The worst part of these new and novel trials and tribulations, which we all have grown accustomed to hearing on the daily news, is that it begins to negatively affect our general worldview and essential optimism, which we all need to grow, develop, and prosper. This is, above all, where we need to focus the majority of our efforts, energies, and collaborations. In the face of all these challenges, the most critical aspect of interdepartmental, institutional, and interpersonal development will be to not lose sight of this key element.

Program Specific Requirements

AP-90 Program Specific Requirements - 91.420, 91.220(l)(1,2,4)

Introduction

The ACDO is guided by the requirement that at least 75% of allocated funds will be used for activities that benefit persons of low and moderate income. The only program within this Action Plan which do not have an LMI benefit (other than administration funding) would be Spot/Blight remediation. Still, The ACDO has prioritized this non-beneficiary activity within LMI qualified census tracts.

Community Development Block Grant Program (CDBG)
Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	**0**

Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	75.00%

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is

as follows:

Auburn/Lewiston will not utilize other forms of investment beyond those in section 92.205.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

The Auburn/Lewiston Consortium will use the Recapture method to recover HOME funds from projects that have not met the minimum required affordability periods. The proceeds from the repayment of the HOME Program assistance to the original first-time homebuyer will be utilized to assist other HOME Program-eligible first-time homebuyers in obtaining a home within the geographic area providing the property will be their principal residence.

To ensure that the Auburn Lewiston Consortium recovers all or a portion of the HOME Program funds from a homeowner if the housing is sold, transferred, or foreclosed upon within the minimum federally-required affordability period, the following Recapture provisions will be made an express covenant of the borrower applicable to the loan:

If the mortgaged property is sold, conveyed, assigned, or otherwise transferred or if a senior lender forecloses on any senior mortgage prior to the end of the minimum federally required affordability period as defined by 24 CFR 92.254(a)(4), the Home Program loan assistance must be repaid to the City of Auburn on a net proceeds' basis according to the following mathematical formula:

Net Proceeds = (sales price minus municipal liens minus principal owed to senior lenders minus selling costs);

Homeowner Investment = (down payment plus principal paid on the first mortgage, and any verifiable capital improvement investment made from the date of purchase);

A/L Investment = (HOME Program Loan(s) assistance);

Total Investment = (homeowner investment plus City's investment)

Amount of Net Proceeds to be returned to the City = City's investment x net proceeds

Total Investment

In the event of the resale of a property where there is no direct subsidy to the buyer, the Auburn/Lewiston Consortium employs a Resale Provision to preserve the full term of affordability and ensure the housing is retained for occupancy by low-income families. Specifically, the Resale Provision requires that if the owner sells, conveys, or otherwise transfers his interest in the premises prior to the expiration of the affordability period, such sale, conveyance, or transfer shall only be to

an eligible, low-income purchaser. Other restrictions concerning notice of sale, maximum resale price, and marketing of affordable unit(s) apply and are fully detailed in the Auburn/Lewiston's Resale Provision.

Auburn/Lewiston Consortium will not use the resale draft guidelines without consultation and approval from HUD.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

   Homebuyer and Homeowner Rehabilitation projects will be subject to recapture provisions of the HOME Program. The property must be occupied as a principal residence for the minimum period of 5 years if HOME assistance is less than $15,000, 10 years if HOME assistance is between $15,000 and $40,000, and 15 years if HOME assistance is over $40,000. The recapture period shall commence when the building acquisition and/or rehabilitation are complete, and a project completion certification has been issued for rehabilitation.

   Transfer of Title. The City shall collect the net proceeds from the sale of the property up to the outstanding balance of the HOME assistance when the HOME Borrower relinquishes the property voluntarily or due to a foreclosure, bankruptcy, appointment of a receiver or liquidation, or assignment for the benefit of the HOME Borrower's creditors, or a financial hardship resulting in a short sale. In the event that the net proceeds are insufficient to repay the HOME loan(s), the City will then forgive part or all of the HOME loans(s).

   Auburn will not use a Resale provision unless preapproved by HUD.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

   Home funds will not be used to refinance existing debt.

Eligible applicants for Homeowner rehab will be approved on a first-come, first-served basis based on the date of completed applications. Qualified units will be based on their ability to meet Auburn Housing Standards at the completion of the project with the provided resources.

Rental units developed will be completed by a CHDO or developer. When funds are available there will be a standing Notice Of Funding Opportunity. Qualified projects will be accepted and funded on a first-served basis based on the date of completed applications with consideration given to proposed project completion date and other conditions set forth in the notice of funding.

All TBRA programming will be on a first-come, first-served basis based on the date of a completed application. Units will be required to pass HQS inspections and leases approved by program staff to comply with HUD requirements.

Applications can be found on the city website, at the Business & Community Development Office, or by contacting the Community Development team at cdbg@auburnmaine.gov.

ORDER 61-05012023

City Council Order

IN CITY COUNCIL

ORDERED, that that City Council hereby adopts the CDBG/HOME Annual Action Plan for Program Year 2023 as recommended by the Business & Community Development Department.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Workshop & Meeting
Agenda
May 15, 2023
Auburn Hall, Council Chambers

City Council Workshop - 6:00 P.M. or immediately following the Auburn – Lewiston Joint Special Meeting

A. Executive Session – Legal consultation, pursuant to 1 M.R.S.A. §405(6)(E).
B. Marketing and Events Fund – Brian Wood

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Whiting

Pledge of Allegiance

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 62-05152023*
Appointing Robert Cavanagh to the Age Friendly Community Committee with a term expiration of 06/01/2026.

d. Jill Eastman, Finance Director – April Final Finance Report

IX. Executive Sessions

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023

Subject: Executive Session

Information: Legal consultation, pursuant to 1 M.R.S.A. Section 405(6) (E).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023

Author: Brian Wood, Assistant City Manager

Subject: Exploration of Hotel Fee

Information:
To expand economic development and tourism within the City of Auburn the City is exploring the possibility of implementing a dedicated hotel fee to generate dedicated revenue for increased marketing of City events and businesses. This revenue will ensure dedicated staff is available to execute these plans and annual funding is available aside from City resources. This has been explored in other municipalities throughout Maine.

City Budgetary Impacts:
N/A

Staff Recommended Action:
Staff recommends exploring.

Previous Meetings and History:
N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023 **Orders:** 62-05152023 and 68-05152023

Author: Sue Clements-Dallaire, City Clerk

Subject: Board and Committee Appointments

The Appointment Committee met on May 8, 2023 to review applications and make their nominations for various boards and committees of the City as follows:

Age Friendly Community Committee - Robert Cavanagh, new appointment, term expiration of 6/1/2026.
Age Friendly Community Committee – Sally Gagnon, re-appointment, term expiration of 6/1/2026.
Age Friendly Community Committee – Diane Vincent, re-appointment, term expiration of 6/1/2026.
Age Friendly Community Committee – Benjamin Weisner, re-appointment, term expiration of 6/1/2026.
Auburn Sewer District Board of Trustees – Daniel Bilodeau, new appointment, term expiration of 3/1/2027
Auburn Sewer District Board of Trustees – Brad Kowalski, new appointment, term expiration of 3/1/2026
Parks & Recreation Advisory Board – Britny Anderson, new appointment, term expiration of 10/1/2024

An application was submitted for the Audit Committee. Per the City Charter, the city council and school committee shall designate, respectively, two councilors and two school committee members who shall mutually select a fifth person to serve as an audit committee. The application was forwarded to members of the audit committee.

An application was also submitted for the Sustainability and Natural Resource Management Board. SNRB members are nominated from the standing working groups, per city ordinance. I've reached out to the Chair of the Conservation working group to advise them of the vacancy.

City Budgetary Impacts: None

Staff Recommended Action: Motion to appoint members as recommended by the Appointment Committee.

Previous Meetings and History: The Appointment Committee met on May 8, 2023 to make their recommendations.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

IN COUNCIL REGULAR MEETING MAY 01, 2023, VOL. 37 PAGE 36

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilors Staples and Morin both had excused absences. All other Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. **Consent Items** – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 55-05012023***
Authorizing the City Clerk to waive the $60 Temporary Food Service fee for Phoenix No Limits Karate for a fundraising event to be held on June 11, 2023.

2. **Order 56-05012023***
Authorizing the City Clerk to waive the $60 Temporary Food Service fee for the Auburn Exchange Club for the Lobster Festival Event to be held on May 6, 2023.

3. **Order 57-05012023***
Accepting the transfer of forfeiture assets ($490.00 and a Ruger .380 caliber semi-automatic pistol (Serial #372358035) to Auburn Police Department.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage of the three consent items.

Passage 5-0.

II. **Minutes** – April 18, 2023, Regular Council Meeting

Motion was made by Councilor Hawes and seconded by Councilor Walker to approve the minutes of the April 18, 2023 Regular Council Meeting.

Passage 5-0.

III. **Communications, Presentations and Recognitions**

Glen Holmes and Amy Hatter introduced the following Community Partners who spoke briefly about their respective organizations:

- Elise Johanson - Safe Voices
- Heather Davis and Patrice Currie - Seniors Plus
- Fatuma Hussein - Immigrant Resource Center of Maine
- Michelle Worthley and Jeff Tardif - Rumford Group Homes
- John Hodge - Housing Resources for Youth
- Sasha Anastasoff – Auburn School Department

- Katherine Saunders – Auburn Adult Education Program
- Jennifer Hogan - Community Credit Union

Council Communications:

Councilor Whiting spoke regarding the Jane's Walk (Lost and Found) which will take place on Saturday May 6th along with Gerry Dennison.

Councilor Hawes thanked the first responders for the work they do and for keeping us safe.

Councilor Milks spoke regarding the potential Gracelawn Development noting that there is going to be public water and the City and Sewer and Water departments are working well together.

Councilor Walker reported on the Age Friendly Group and the potato program that is in place for the public. Potatoes can be picked up at the Senior Center.

City Manager Crowell announced that there is currently an active threat underway. Anyone in that neighborhood received a call regarding the threat (reverse 911 system - code red). We are working with the State police on this matter. He asked that everyone please be patient as we get through this.

Mayor Levesque reminded everyone about the Lobster Festival that is happening this Saturday at 1pm at Festival Plaza. He also noted that the Auburn School Board has a budget meeting on Wednesday. He encouraged people to vote on the school budget at the June 13, 2023 election. In addition to the school budget, there is a bond referendum question to be voted on.

IV. Open Session – Rudy Wing, Penley Corner Road, said it is nice to see work is being done on the ag zone. He has lived on that property in a camper, lost his camper due to a fire and now unable to live on the property.

V. Unfinished Business

1. Ordinance 03-04182023
Amending Chapter 60 of the City Ordinances, Sec.60-145 (b)(8) - Use regulations by changing the lot size requirement for a cemetery from 20 acres to 10 acres if the cemetery is a conservation cemetery. Public hearing and second reading.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public hearing – No one From the public spoke.

Passage 5-0. A roll call vote was taken.

2. Ordinance 04-04182023
Amending Chapter 60 of the City Ordinances, Sec. 60-2. Definitions, by adding the

definition of conservation cemetery. Public hearing and second reading.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Passage 5-0. A roll call vote was taken.

VI. New Business

1. Order 58-05012023
Authorizing the City's general obligation bonds in the amount of $13,000,000.00 to finance the City's FY24 Capital Improvement Program. Public hearing and first reading. ***Passage requires an affirmative vote of 5 Councilors at the second reading.***

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public hearing – Andy Titus, 24 Rubelite Lane, commended staff and council, adding that his concern is $3,000,000 to rebuild Engine 2. He also asked about $1.1 million dollars of unbonded CIP.

Failed first reading 4-1 (Councilor Gerry opposed). A roll call vote was taken. Passage will require an affirmative vote of 5 at the second reading.

2. Resolve 01-05012023
Adopting the Appropriations Resolve for Fiscal Year 2024. Public hearing and first reading. ***Passage requires an affirmative vote of 4 Councilors at the second reading.***

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Motion was made by Councilor Milks and seconded by Councilor Hawes to amend by eliminating the recycling program.

Passage 5-0.

Motion was made by Councilor Gerry and seconded by Councilor Whiting to reappropriate $275,000 from the recycling line item, back into the budget.

Passage 5-0.

Passage of first reading as amended 4-1 (Councilor Gerry opposed). A roll call vote was taken.

3. Resolve 02-05012023
Supporting Congressman Golden's initiative for a federal budget agreement that would begin dealing with the serious problem of ongoing federal deficits.

Motion was made by Councilor Hawes and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Failed 2-3 (Councilor Milks, Hawes, and Walker opposed).

4. Order 59-05012023
Modifying the Auburn-Lewiston Airport interlocal agreement.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – Mark Blais, Pilot and Airport Board member who also owns property at the airport (hangar). He said he is not sure that he is opposed to the change, but a few things were brought up such as potential conflict of interest. He spoke about a study that was done which was administered by the airport manager which he stated was very biased. Now that Jonathan LaBonté has taken over, the board is a very cohesive group. He doesn't think pilots should be removed from the board at this time.

Tom Ward, Jacksonville Road, said he has been at the airport for about 30 years (Skyward Aviation). He has concerns with just city personnel serving on the board.

Motion was made by Councilor Whiting and seconded by Councilor Gerry to postpone this item until the last meeting in June (June 20th).

Failed 2-3 (Councilor Milks, Hawes, and Walker opposed).

Motion failed 3-2 (Councilor Whiting, and Gerry opposed). Passage requires an affirmative vote of 4.

Motion was made by Councilor Milks and seconded by Councilor Hawes to reconsider that motion.

Passage 4-1 (Councilor Walker opposed).

Motion was made by Councilor Whiting and seconded by Councilor Gerry to postpone the item to second meeting in May (15th).

Passage 5-0.

5. Order 60-05012023
Reallocating unspent proceeds from the City's 2020 General Obligation Bonds. First reading. ***Passage requires an affirmative vote of 5 Councilors at the second reading.***

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – Andy Titus, 24 Rubelite Lane wondered why we are spending the unspent bonds on something else instead of applying it to our current CIP.

Passage 5-0. A roll call vote was taken.

6. **Public hearing** – Public hearing to receive comments for Program Year 2023, CDBG & HOME Annual Action Plan.

No one from the public spoke.

7. **Order 61-05012023**
Adopting the CDBG/HOME Program Year 2023 Annual Action Plan.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 5-0.

VII. Open Session - Elaine Gammon, 56 Marion Drive, and serves on the LA Arts Board and is looking forward to working with the City of Auburn.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported on the Legislative Policy Committee and the School Board will be meeting on Wednesday.

IX. Executive Sessions - None

X. Adjournment

Motion was made by Councilor Milks seconded by Councilor Hawes to adjourn. Unanimously approved and the meeting adjourned at 8:36 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

PROCLAMATION
MAINE ARBOR WEEK

WHEREAS, in 1872, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees, and this holiday called Arbor Day was first observed with the planting of a million trees in Nebraska; and

WHEREAS, May 22nd to May 26th, 2023 is Maine Arbor Week; and

WHEREAS, trees can reduce the erosion of our precious topsoil, cut heating and cooling cost, moderate the temperature, clean the air, provide life-giving oxygen and provide habitat for wildlife; and

WHEREAS, trees are a renewable resource giving us paper, wood for our homes, fuel for our fires, and beautify our community; and

WHEREAS, trees, wherever they are planted, are a source of joy and spiritual renewal.

NOW THEREFORE I, Jason Levesque, Mayor of the City of Auburn, by virtue of the authority vested in me, do hereby proclaim May 22nd to May 26th, 2023 as the celebration of Maine Arbor Week in the City of Auburn, and I urge all citizens to celebrate Maine Arbor Week and support efforts to protect our trees and woodlands.

Further, I urge all citizens to plant trees to gladden the heart and promote the well-being of this and future generations.

IN WITNESS WHEREOF, I have
hereunto set my hand and caused the
Seal of the City of Auburn, Maine

to be fixed this 15th day of May 2023

_____

THAT the Finance Director be and hereby is authorized and empowered, in the name of an on behalf of the City, to prepare, issue, and sell the bonds and notes authorized hereby, at one time, or from time to time, as one or more separate issues, as term bonds or serial bonds or some combination thereof, and to establish, determine and approve the date, form, minimum denomination, interest rates, maturities (with the last maturity not to exceed the maximum term permitted by law), provisions for early redemption, with or without premium, and all other details, terms and provisions of such bonds and notes, not inconsistent herewith, including the form and manner of their sale and award as she may approve, such approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City, to designate the bond or notes authorized hereby, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265 of the Internal Revenue Code of 1986, as amended.

THAT the bonds and notes authorized hereby shall be signed by the City's Finance Director and its Treasurer, attested by the City Clerk under the seal of the City.

THAT the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City, to take all steps necessary and expedient in respect to the aforesaid borrowing, and to prepare, negotiate, execute, and deliver such agreements, investment agreements, bond purchase agreements, preliminary and final official statements, escrow agreements, continuing disclosure agreements, tax compliance agreements, assignments, certificates and other documents (collectively referred to as the "Bond Documents"), as may be necessary or advisable, as determined and approved by the Finance Director, in connection with the issuance delivery of the bonds and notes authorized hereby, which Bond Documents may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, as may be approved by the Finance Director, such approval to be conclusively evidenced by the execution thereof.

THAT if the bonds or notes authorized hereby, or any part of them, are issued on a tax-exempt basis, the Finance Director be and hereby is authorized and empowered, in the name of and on behalf of the City,

City Council Order

to covenant and certify that no part of the proceeds of such bonds or notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the bonds or notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and to further authorize and provide that the City will file any required reports and take any other action that may be necessary to insure that interest on the bonds or notes will remain exempt from federal income taxation, and will refrain from any action that would cause interest on the bonds or notes to be subject to federal income taxation.

THAT if the actual cost of any Project differs from the estimated cost, whether due to completion, delay or abandonment of such Project or for any other reason, the Finance Director is authorized and empowered, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the bonds or notes to any other listed Project, or to any other project or improvement that the City Council has approved or may in the future approve as part of the City's annual capital improvement plan.

THAT in order to finance temporarily the Projects described above, the Finance Director be and hereby is authorized and empowered to expend up to $13,000,000 either from available funds of the City or from the proceeds of bond anticipation notes which would be reimbursed or refinanced from bond proceeds.

THAT to the extent not payable from other funds, an amount sufficient for the payment of the annual payments of principal and interest on the bonds and notes authorized hereby shall be included in the tax levy each year until the debt represented by said bonds or notes is extinguished.

THAT the City's Finance Director, Treasurer, Clerk, and other proper officials of the City be and hereby are authorized and empowered, in the name of and on behalf of the City, to do or cause to be done all such acts and things as may be necessary or advisable to carry out the provisions of this order.

THAT if any of the officers or officials of the City who have signed or sealed the bonds or notes authorized hereby shall cease to be such officers or officials before the bonds or notes so signed and sealed shall have been actually authenticated or delivered by the City, such bonds or notes nevertheless may be authenticated, issued, and delivered with the same force and effect as though the person or persons who signed or sealed such bonds or notes had not ceased to be such officer or official; and also any such bonds or notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such bonds or notes, shall be the proper officers and officials of the City, although at the nominal date of such bonds or notes any such person shall not have been such officer or official.

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the bonds, notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, or on an interim or acting capacity, is authorized and empowered to act for such official with the same force and effect as if such official had himself or herself performed such act.

ORDER 58-05012023

City Council Order

THAT the authority to issue the bonds or notes authorized hereby shall automatically expire 2 years from the date of approval of this Order.

THAT the City may pay certain costs of the Projects prior to the issuance of the bonds and notes (referred to as "original expenditures"); to that end, the City hereby declares its official intent to reimburse itself for such original expenditures from the proceeds of such bonds and notes, and this Order shall constitute a Declaration of Official Intent pursuant to Treasury Regulation §1.150-2, and shall be kept available for public inspection during reasonable business hours at the office of the City Clerk.

A Public Notice describing the general purpose of the borrowing and the terms thereof was published on or before April 14, 2023, in the Sun Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

NOTE: Must be approved by roll call vote.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023 **Resolve:** 01-05012023

Author: Jill M. Eastman, Finance Director

Subject: Resolve Adopting the 2023-2024 Annual Appropriation and Revenue Resolve (Second Reading)

Information: In accordance with the City Charter, Article 8, Section 8.6, prior to the fiscal year the City Council shall adopt an annual appropriation resolve making appropriations by department, fund, services, strategy or other organizational unit and authorizing an allocation for each program or activity.

The Council has been supplied with a resolve to adopt the annual appropriations for the City of Auburn, which includes final figures for revenue, total appropriation and municipal budget.

The school appropriation has been incorporated into this annual appropriation resolve for the City of Auburn.

This is the second reading of the Appropriation Resolve for FY 23-24.

Manager's Update – at the last school committee meeting, discussion and a vote was made to increase revenue from the fund balance for both school and city. As discussed at previous meetings, the finance director and I are concerned with adding revenue from the fund balance without having our completed FY22 audit.

It is my recommendation that no additional fund balance appropriations be allocated, and the city council make the following amendment: Add $400,000 to the State Revenue Sharing line item. Recent forecasts from the Maine Revenue Office have projected state contributions to Auburn higher than originally projected. The additional projection is still a conservative amount if the economy moves in a different direction than estimated.

The city assessor's office has completed an assessment of all properties and is now working on the personal property assessments. The assessor has provided the following updated valuation target amount. The original property assessment was an increase of $15,000,000. As a result of new growth, the estimated valuation can be changed to a $40,000,000 increase.

With the additional revenue and the new projected assessed value, the new tax levy would increase 2.76% or a $0.20 increase of the mil rate. Again, the new valuation estimate is conservative and may reduce the mill rate increase further. Based on these calculations, a home assessed at $250,000 will have an increase of $51.10 on their tax bill.

City Budgetary Impacts: With this FY 24 Proposed Budget the tax levy increase is 3.79%, which is below CPIU at 6.5% . At this time, the estimated proposed mil rate increase is 3.57%.

Staff Recommended Action: Staff recommends the proposed amendment and ultimate passage.

Previous Meetings and History: Preliminary budget presentation April 3, 2022 and final Manager's Budget presentation April 18, 2023, Budget workshop April 24, 2023. Public hearing and passage of first reading on May 1, 2023.

City Manager Comments:

I concur with the recommendation. Signature:

Resolve for the 2023-2024 Annual Appropriation and Revenue excluding School Department Articles.

RESOLVE 01-05012023

City Council Resolve

IN CITY COUNCIL

RESOLVED, that the following be, and hereby is the Annual Appropriation and Revenue Resolve of the City of Auburn for the fiscal year 2023-2024, which includes the amounts appropriated herein and revenues from all sources beginning July 1, 2023 and ending June 30, 2024.

The estimated aggregate amount of non-property tax revenue is $61,880,844 with a municipal revenue budget of $22,606,704 and a School Department revenue budget of $39,274,140.

The aggregate appropriation for the City of Auburn is $113,055,192, with a municipal budget of $51,011,866 County budget of $2,972,037 and a School Department budget of $59,071,289 which received School Committee approval on May 3, 2023, and school budget approved at the May 15, 2023 Council Meeting pursuant to the School Budget Validation vote on June 13, 2023, in accordance with Maine Revised Statues, Title 20-A § 1486 and based on the budget submitted to the Auburn City Council on April 18, 2023, by the City Manager, and notification was posted on the City of Auburn website on April 27, 2023 that a public hearing would be held on May 1, 2023 at 7:00 p.m. and said hearing having been held on that date, and as amended by the City Council, the same is hereby appropriated for the fiscal year 2023-2024 beginning July 1, 2023 for the lawful expenditures of the City of Auburn and the County of Androscoggin taxes, and said amounts are declared not to be in excess of the estimated revenue from taxation and sources other than taxation for the fiscal year of 2023-2024.

SCHOOL BUDGET ARTICLES

Ordered that the Auburn City Council hereby adopts and approves the following School Budget articles for Fiscal Year 2023-2024

1. That $19,300,554 be authorized to be expended for Regular Instruction;

2. That $ 12,882,836 be authorized to be expended for Special Education;

3. That $-0- be authorized to be expended for Career and Technical Education;

4. That $ 898,147 be authorized to be expended for Other Instruction;

5. That $ 3,806,698 be authorized to be expended for Student and Staff Support;

Richard Whiting, Ward One
Ryan Hawes, Ward Two
Stephen G. Milks, Ward Three
Joseph Morin, Ward Four
Leroy G. Walker, Ward Five
Dana Staples, At Large
Belinda A. Gerry, At Large
Jason J. Levesque, Mayor
Phillip L. Crowell, Jr., City Manager

City Council Resolve

6. That $ 1,200,966 be authorized to be expended for System Administration;

7. That $ 2,413,311 be authorized to be expended for School Administration;

8. That $ 2,178,859 be authorized to be expended for Transportation and Buses;

9. That $ 5,679,257 be authorized to be expended for Facilities Maintenance;

10. That $ 10,329,269 be authorized to be expended for Debt Service and Other Commitments;

11. That $ 39,644 be authorized to be expended for All Other Expenditures;

12. That $ 51,699,304. be appropriated for the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and that $15,245,365 be raised as the municipality's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with the Maine Revised Statutes, Title 20-A, section 15688;

Explanation: *The city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding*

Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.

13. That $1,187,586 be raised and appropriated for the annual payments on debt service previously approved by the city's legislative body for non-state-funded school construction projects or non-state-funded portions of school construction projects, in addition to the funds appropriated as the local share of the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with Maine Revised Statues, Title 20-A, Section 15690 (2A);

Explanation: *Non-state-funded debt service is the amount of money needed for the annual payments on the city's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the voters or other legislative body.*

14. That $3,150,553 be raised and appropriated in additional local funds, which exceeds the State's Essential Programs and Services allocation model by $3,150,553, as required to fund the budget recommended by the School Committee.

The School Committee recommends $3,150,533, which exceeds the State's Essential Programs and Services allocation model by $3,150,533. The School Committee gives the following reasons for exceeding the State's Essential Programs and Services funding model:

City Council Resolve

The Essential Programs and Services funding model does not recognize all of the costs of special education services, transportation services, instructional services, co-curricular services and other services that the School Department provides.

> ***Explanation:*** *The additional local funds are those locally raised funds over and above the city's local contribution to the total cost of funding public education from Pre- kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state-funded debt service that will help achieve the school department budget for educational programs.*

15. That the school committee be authorized to expend $58,729,542 for the fiscal year beginning July 1, 2022 and ending June 30, 2023 from the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act, non-state-funded school construction projects, additional local funds for school purposes under the Maine Revised Statutes, Title 20-A, section 15690, unexpended balances, tuition receipts, fund balances, state subsidy and other receipts for the support of schools;

16. That the City of Auburn appropriate $341,747 for Adult Education and raise $213,644 as the local share, with authorization to expend any additional, incidental or miscellaneous receipts in the interest and for the well-being of the adult education program.

17. That in addition to amounts approved in the preceding articles, the School Committee be authorized to expend such other sums as may be received from federal or state grants or programs or other sources during the fiscal year for school purposes, provided that such grants, programs or other sources do not require the expenditure of other funds not previously appropriated.

18. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Department's unexpended balances at the end of the 2022-2023 fiscal year to the Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic facilities.

19. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Department's unexpended balances at the end of the 2022-2023 fiscal year to the School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment, and related technology for the School Department.

RESOLVED, The City is authorized to accept grants and forfeitures and to expend sums that may be received from grants and forfeitures for municipal purposes during the fiscal year

City Council Resolve

beginning July 1, 2023, and ending June 30, 2024, provided that such grants and forfeitures do not require the expenditure of other funds not previously appropriated.

RESOLVED, that fifty percent (50%) of all real estate taxes assessed as in the annual commitment, committed to the Tax Collector, shall be due proportionately from each tax payer on September 15, 2023 and the remaining fifty percent (50%) shall be due on March 15, 2024.

Except as may be provided by resolve regarding payments in accordance with an installment payment plan, any real estate taxes remaining uncollected on September 16, 2023 and March 16, 2024 respectively shall bear interest at a rate of 4% per annum from and after such dates.

Personal property taxes shall be due and payable on or before September 15, 2023. Any personal property taxes remaining unpaid on September 16, 2023, shall bear an interest rate of 4% per annum from and after such date. Interest on all delinquent taxes shall be computed on a daily basis and shall be collected by the Tax Collector. The Tax Collector is authorized to accept tax prepayments.

Council Workshop or Meeting Date: May 15, 2023 **Order:** 60-05012023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Incentive Funds

Information:
City staff is seeking a change in how previously approved Bond funds can be used to incentivize downtown development. Generally, Bond funds must be expended on improvements that are and remain city-owned for the term of the Bond issue. Nothwithstanding this general requirement, under certain circumstances, and if certain requirements of both State and Federal Tax law are met, Bond funds may be used, either directly (expended by the city) or indirectly (loan / granted to a business), to further economic development activities in the city. While both the direct expenditure and the business loan / grant paths are available to the city, City staff believe that a loan / grant program would make the potential use of available Bond funds significantly more incentivizing to local businesses. Therefore, City staff proposes allowing these available Bond funds to be allocated by the City Manager in the form of a business development forgivable loan / grant to a qualifying business / developer, to be used by the business / developer post-closing on the property. This forgiveable loan / grant program will authorize the City Manager to approve up to Two Hundred Fifty Thousand Dollars ($250,000) in incentive funds per project until all available Bond funds (not to exceed 5% of the total Bond issue) are depleted. To ensure funds remain protected from loss or misuse, the staff is requesting that the City Manager be authorized to provide funds to a qualifying business / developer through a forgivable loan process that will establish both acceptable uses of the funds and clear benchmarks that must be met in order for funds to be disbursed.[1] Upon project completion (issuance of an occupancy permit), the forgivable loan will convert to a grant. Failure to use the funds appropriately or to achieve the benchmarks or to complete the project within a predetermined timeframe will trigger loan repayment over a predetermined period at an interest rate that will cover the costs of managing the collection process. The staff makes this recommendation after significant discussions and negotiations with several developers who want to build substantial projects within the city.

City Budgetary Impacts:

This program will not impact the city's budget as only current approved funds will be used.

Staff Recommended Action:

Public hearing and second reading. Approve Order as presented.

Previous Meetings and History: First reading on 5/1/2023.

---

[1] Per guidance from the City's Bond Counsel, under applicable IRS regulations, the city may not impose any obligation or condition with respect to any grant other than obligtations or conditions designed to ensure that the grant funds are expended for the approved governmental purpose on an acceptable timeline.

City Manager Comments:

I concur with the recommendation. Signature:

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

Pursuant to Section 8.13 of the City Charter, notice is hereby given that the Auburn City Council will hold a first reading on Monday, May 1, 2023, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street on a proposed order authorizing the reallocation of up to $400,000 of unspent proceeds from the City's 2020 General Obligation Bonds to finance a forgivable loan / grant program intended to incentivize private development and investment in the City of Auburn.

The order is available for inspection on the City's website:
a**uburnmaine.gov/pages/government/budget-fy24.**

Following the public hearing and first reading, the City Council expects to conduct a second reading, public hearing and take final action on the order at its May 15, 2023 meeting. Following the public hearing, the City Council will finalize the amount of bond proceeds to be reallocated, which amount may be increased by up to 10%.

Members of the public attend the meeting in person and offer public comment during the meeting. Comments may also be submitted via email sent to: **comments@auburnmaine.gov**. Any submitted comments will be included in the meeting minutes.

The meeting will also be broadcast on Great Falls TV (cable channel 1302) and on the City of Auburn YouTube channel.

ORDER 60-05012023

City Council Order

IN CITY COUNCIL

TITLE: ORDER - Reallocating Unspent Proceeds from the City's 2020 General Obligation Bonds.

WHEREAS, on November 12, 2020, the City of Auburn issued its 2020 General Obligation Bonds in the aggregate principal amount of $8,460,000 (the "2020 Bonds") pursuant to City Council Order No. 67-06012020 (adopted June 15, 2020) (the "2020 Bond Order"), $900,000 of the proceeds of which was authorized to be used to finance economic development activities and described as the Downtown Vision project (referred to as the "Downtown Vision Project"); and

WHEREAS, there remain unspent proceeds of the 2020 Bonds borrowed for the Downtown Vision Project, which excess proceeds the City Council desires to reappropriate and reallocate to be used as part of a loan forgiveness / grant program to promote and support economic development activity and private capital investment in the City (referred to as the "Downtown Investment Incentive Program");

NOW, THEREFORE, by the City Council of the City of Auburn, be it hereby ORDERED:

THAT the City Council makes the following findings and determinations:

- There is an urgent and growing need to promote and support economic development activity and private capital investment in the City of Auburn.

- The City's financial support for qualified development projects through the Downtown Investment Incentive Program would incentivize the creation of significant new development activities in the City.

- Based on the foregoing, the City's promotion of and financial support for qualified projects through the Downtown Investment Incentive Program will generate substantial direct and indirect economic and other public benefits for the City and its residents and constitutes a good and valid public purpose and will contribute to the creation of new employment opportunities and the economic growth and well-being of the inhabitants of the City.

- Any adverse economic effect on or detriment to the City in the promotion of and financial support for qualified projects through the Downtown Investment Incentive Program is outweighed by the public benefit that will follow from the investment in and development of such qualified economic development projects, including but not limited to the creation of new employment opportunities, the economic growth and well-being of the City and the betterment of the health, welfare and safety of its inhabitants.

ORDER 60-05012023

City Council Order

THAT the excess proceeds of the 2020 Bonds, in the amount not to exceed $400,000 be and hereby are appropriated from the amount borrowed as part of the 2020 Bonds (the "Reallocated Bond Proceeds") for the Downtown Vision Project to fund the Downtown Investment Incentive Program.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, establish a loan forgiveness / grant program (the "Loan and Grant Program") to promote and support economic development activity and private capital investment in the City and to allocate Reallocated Bond Proceeds to such economic development activity and private capital investment in and adjacent to the City's downtown as he shall deem suitable and appropriate.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to establish and implement eligibility criteria and performance benchmarks appropriate to the administration of such Loan and Grant Program, which criteria and benchmarks (including the appropriate time schedule) may be established and implemented on a programmatic or a project specific basis, or some combination thereof (the "Project Incentive Requirements").

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to approve up to Two Hundred Fifty Thousand Dollars ($250,000) in incentive funds per project under the Loan and Grant Program, until all available Bond funds (but not to exceed 5% of the issue price of the 2020 Bonds) are depleted, which funds shall be disbursed for a qualifying project initially through a forgivable loan financing structure (a "Forgivable Loan") that will establish the particular Project Incentive Requirements for a qualifying project that must be met in order for funds to be disbursed.

THAT the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to determine that the particular Project Incentive Requirements for a given Forgivable Loan have been adequately met and that, following such determination, the City Manager be and hereby is authorized and empowered, in the name and on behalf of the City, to convert the Forgivable Loan to a grant that need not be repaid by the recipient; provided further that if the City Manager determines that the particular Project Incentive Requirements for a given Forgivable Loan have not been adequately met, then such Forgivable Loan shall be repaid to the City under terms and conditions to be established by the City Manager.

THAT the City Manager be and hereby is authorized and empowered in the name and on behalf of the City, to do or cause to be done all such acts and things, and to execute and deliver, all such agreements, certificates, and other documents as may be necessary or advisable to carry out the provisions of this Order.

ORDER 60-05012023

City Council Order

A Public Notice describing the repurposing of the unspent proceeds of the 2020 Bonds was published on or before Saturday, April 29, 2023, in the Sun Journal, a daily newspaper published in the City of Auburn and in Androscoggin County.

A public hearing was held on May 15, 2023.

NOTE: Must be approved by roll call vote.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023 **Order:** 69-05152023

Author: Mark Conrad, Business Manager

Subject: 2023-24 Auburn School Department budget

Information: On May 3, 2023, the Auburn School Committee unanimously voted to approve a 2023-2024 operating budget of $59,071,289. The budget represents a 6.0% overall increase from the current year, with a local increase of 3.3% ($632,273). Article 10 – Debt Service is increasing by $2,602,721, or 33.7% as the full cost for the second bond for the new Edward Little High comes due in FY 2024. Excluding this increase in debt service, the operating budget is increasing 1.6%. Despite significant increases in utilities and the operating cost of a new, much larger High School, the overall budget increase is limited by the elimination of 15.5 teaching positions and a program director.

The School Committee also voted unanimously on May 3, 2023 for authorization to appropriate $125,000 into each of two reserve funds - the Edward Little High School Capital Reserve Fund and the School Technology Equipment Reserve Fund - from unexpended year-end balances.

BUDGET NOTE: The approved revenue budget is currently based on an allocation of $2,000,000 from the School Department's uncommitted fund balance. The School Committee also approved increasing the utilization of the uncommitted fund balance, with an offsetting reduction in the local share, up to an additional $200,000, based on a 25% match to the City increasing the utilization of its fund balance in the second reading of the budget.

City Budgetary Impacts: The total local allocation requested for 2023-24 is $19,797,148. Based on current valuation, the mil rate for education for 2023-24 would be $9.11, an increase of $0.29, or an increase of $43.67 on a home valued at $150,000.

Staff Recommended Action: The School Committee and Superintendent recommend that the City Council approve the 2023-24 school budget as presented.

Previous Meetings and History: The School Committee has held many budget meetings and workshops to develop the proposed budget, beginning March 1st. The School Committee encouraged public comment at each budget meeting. A joint meeting to discuss the FY 2024 school budget was held with the City Council in a workshop on March 20, 2023.

City Manager Comments:

I concur with the recommendation. Signature:

ORDER 69-05152023

City Council Order

Ordered that the Auburn City Council hereby adopts and approves the following School Budget articles for Fiscal Year 2023-2024.

1. That $19,300,554 be authorized to be expended for Regular Instruction;

2. That $ 12,882,836 be authorized to be expended for Special Education;

3. That $-0- be authorized to be expended for Career and Technical Education;

4. That $ 898,147 be authorized to be expended for Other Instruction;

5. That $ 3,806,698 be authorized to be expended for Student and Staff Support;

6. That $ 1,200,966 be authorized to be expended for System Administration;

7. That $ 2,413,311 be authorized to be expended for School Administration;

8. That $ 2,178,859 be authorized to be expended for Transportation and Buses;

9. That $ 5,679,257 be authorized to be expended for Facilities Maintenance;

10. That $ 10,329,269 be authorized to be expended for Debt Service and Other Commitments;

11. That $ 39,644 be authorized to be expended for All Other Expenditures;

12. That $ 51,699,304.09 be appropriated for the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and that $15,245,364.83 be raised as the municipality's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act in accordance with the Maine Revised Statutes, Title 20-A, section 15688;

Explanation: *The city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding*

Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.

13. That $1,187,586 be raised and appropriated for the annual payments on debt service previously approved by the city's legislative body for non-state-funded school construction projects or non-state-funded portions of school construction projects, in addition to the funds appropriated as the local share of the city's contribution to the total cost of funding public education from Pre-kindergarten

City Council Order

to grade 12 as described in the Essential Programs and Services Funding Act in accordance with Maine Revised Statues, Title 20-A, Section 15690 (2A);

Explanation: *Non-state-funded debt service is the amount of money needed for the annual payments on the city's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the voters or other legislative body.*

14. That $3,150,553 be raised and appropriated in additional local funds, which exceeds the State's Essential Programs and Services allocation model by $3,150,553, as required to fund the budget recommended by the School Committee.

The School Committee recommends $3,150,553, which exceeds the State's Essential Programs and Services allocation model by $3,150,553. The School Committee gives the following reasons for exceeding the State's Essential Programs and Services funding model:

The Essential Programs and Services funding model does not recognize all of the costs of special education services, transportation services, instructional services, co-curricular services and other services that the School Department provides.

Explanation: *The additional local funds are those locally raised funds over and above the city's local contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state-funded debt service that will help achieve the school department budget for educational programs.*

15. That the school committee be authorized to expend $58,729,542 for the fiscal year beginning July 1, 2022 and ending June 30, 2023 from the city's contribution to the total cost of funding public education from Pre-kindergarten to grade 12 as described in the Essential Programs and Services Funding Act, non-state-funded school construction projects, additional local funds for school purposes under the Maine Revised Statutes, Title 20-A, section 15690, unexpended balances, tuition receipts, fund balances, state subsidy and other receipts for the support of schools;

16. That the City of Auburn appropriate $341,747 for Adult Education and raise $213,644 as the local share, with authorization to expend any additional, incidental or miscellaneous receipts in the interest and for the well-being of the adult education program.

17. That in addition to amounts approved in the preceding articles, the School Committee be authorized to expend such other sums as may be received from federal or state grants or programs or other sources during the fiscal year for school purposes, provided that such grants, programs or other sources do not require the expenditure of other funds not previously appropriated.

City Council Order

18. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Department's unexpended balances at the end of the 2022-2023 fiscal year to the Edward Little High School Capital Reserve Fund for the purpose of funding capital improvement projects, facility upgrades, and plant maintenance at the new Edward Little High School and adjacent athletic facilities.

19. That in addition to amount approved in the preceding articles, the School Committee be authorized to transfer up to $125,000 from the School Department's unexpended balances at the end of the 2022-2023 fiscal year to the School Technology Equipment Reserve Fund for the purpose of funding purchase and maintenance of computers, tablets, audiovisual equipment, and related technology for the School Department.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 15, 2023 Order: 70-05152023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: TIF #27 Stable Ridge Credit Enhancement Agreement

Information: On March 20th the City Council approved TIF #27 Stable Ridge Development with a potential Credit Enhancement Agreement (CEA). The execution of any CEA related to TIF #27 is required to be preceeded by a Public Hearing and approval of the City Council before enactment.

The proposed CEA provides a maximum $250,000 credit enhancement to the developer upon completion of Phase 1 of the development with a potential additional $250,000 credit enhancement upon receiving the certificate of occupancy of the 7th building within Phase 2 of the development.

City Budgetary Impacts: As outlined in the proposal.

Staff Recommended Action: Council should consider the financial impacts on future CEA requests on market rate housing developments and determine an amount if any is to be allocated for TIF#27.

Previous Meetings and History:
March 6th, 2023 Public Hearing
March 20th, 2023 Public Hearing and approval of TIF #27 Stable Ridge Development

Exhibit 1 Copy of Exhibit A-2 from Development Program – District Map

THIS CREDIT ENHANCEMENT AGREEMENT dated as of _____, 2023, between the City of Auburn, a municipal corporation located in the City of Auburn, County of Androscoggin and State of Maine, with offices at 60 Court Street, Auburn, Maine 04210 (hereinafter "the City"), and **American Development Group, LLC** (the "Developer"), a Maine limited liability company, with a principal place of business of **8 Belmont Court, Auburn, ME 04210.**

WITNESSETH THAT

WHEREAS, on March 20, 2023, and pursuant to the Act, the City Council of the City at a meeting duly called and held, adopted an order that designated a tax increment financing ("TIF") district: the TIF #27 Stable Ridge Municipal Development and Tax Increment Financing District (the "District"); and

WHEREAS, on March 20, 2023, the City of Auburn adopted a development program: the TIF #27 Stable Ridge Municipal Development and Tax Increment Financing District Development Program (the "Development Program"); and

WHEREAS, the Commissioner of the State of Maine Department of Economic and Community Development ("DECD") reviewed and approved the District and the Development Program pursuant to an approval letter dated April 24, 2023; and

WHEREAS, within the Development Program, and as contemplated thereby, the City contemplated executing a credit enhancement agreement with the Developer after holding a public hearing and Council approval; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute the credit enhancement agreement contemplated by and described in the Development Program; and

WHEREAS, the City Council held a public hearing and approved this Credit Enhancement Agreement on May 15, 2023; and

NOW, THEREFORE, in consideration of the foregoing and in consideration of the mutual promises and covenants set forth herein, the parties hereby agree as follows:

ARTICLE I
DEFINITIONS

Section 1.1. Definitions.

The terms defined in this Article I shall, for all purposes of this Agreement, have the meanings herein specified, unless the context clearly requires otherwise:

"Act" means chapter 206 of Title 30-A of the Maine Revised Statutes and regulations adopted thereunder, as amended from time to time.

"Agreement" shall mean this Credit Enhancement Agreement between the City and Developer dated as of the date set forth above, as such may be amended from time to time.

"Captured Assessed Value" means the amount, stated as a percentage, of the Increased Assessed Value of the Property that is retained in the District in each Tax Year during the term of the District, as specified in Section 2.2 hereof.

"Commissioner" means the Commissioner of the Maine Department of Economic and Community Development.

"Current Assessed Value" means the then-current assessed value of the Property located in the District as determined by the City Tax Assessor as of April 1 of each Tax Year during the term of this Agreement.

"Development Program Fund" means the development program fund described in the Financial Plan of the Development Program into which the Tax Increment Revenues are to be deposited, established and maintained pursuant to the Development Program and Article II hereof.

"District" means the TIF #27 Stable Ridge Municipal Development and Tax Increment Financing District, designated by the City on March 20, 2023, a map of which is attached as Exhibit A-2 to the Development Program.

"Effective Date" means the date of final approval of the Development Program by the Commissioner pursuant to the Act.

"Financial Plan" means the financial plan described in the "Financial Plan" Section of the Development Program.

"Fiscal Year" means July 1 to June 30 each year or such other fiscal year as the City may from time to time establish.

"Increased Assessed Value" means, for each Fiscal Year during the term of this Agreement, the amount by which the Current Assessed Value for such year exceeds the Original Assessed Value. If the Current Assessed Value is less than or equal to the Original Assessed Value in any given Tax Year, there is no Increased Assessed Value in that year.

"Original Assessed Value" means two hundred thirty-five thousand five hundred dollars ($235,500), the assessed value of the Property as of March 31, 2022 (April 1, 2021).

"Project" means the development of 10 buildings with 24 apartments, a garage and recreational storage facility, located on the Property.

"Property" means the 13.19-acre parcel identified on City tax maps as Map 229/Lot 007 as of April 1, 2021, owned by the Developer within the District upon which the Project is located.

"Property Taxes" means any and all *ad valorem* real property taxes levied, charged or assessed against real property located in the District by the City, or on its behalf.

"State" means the State of Maine.

"Tax Increment Revenues" means that portion of all real property taxes assessed and paid to the City in any Tax Year, in excess of any state, or special district tax, upon the Captured Assessed Value.

"Tax Payment Date" means the later of the date(s) on which real property taxes levied by the City are due and payable from owners of property located within the City, or are actually paid to the City with respect to taxable property located within the District.

"Tax Year" shall have the meaning given such term in 30-A M.R.S. § 5222(18), as amended, to wit: April 1 to March 31.

Section 1.2. Interpretation and Construction.

In this Agreement, unless the context otherwise requires:

(a) The terms "hereby," "hereof," "hereto," "herein," "hereunder" and any similar terms, as used in this Agreement, refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of delivery of this Agreement.

(b) Words importing a particular gender mean and include correlative words of every other gender and words importing the singular number mean and include the plural number and vice versa.

(c) Words importing persons mean and include firms, associations, partnerships (including limited partnerships), trusts, corporations and other legal entities, including public or governmental bodies, as well as any natural persons.

(d) Any headings preceding the texts of the several Articles and Sections of this Agreement, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience of reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

(e) All approvals, consents and acceptances required to be given or made by any signatory hereto shall not be withheld unreasonably.

(f) All notices to be given hereunder shall be given in writing and, unless a certain number of days is specified, within a reasonable time.

(g) If any clause, provision or Section of this Agreement shall be ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or Section shall not affect any of the remaining provisions hereof.

ARTICLE II
DEVELOPMENT PROGRAM FUND AND FUNDING REQUIREMENTS

Section 2.1. Creation of Development Program Fund.

The City hereby confirms the creation and establishment of a segregated fund in the name of the City designated as the "Development Program Fund" pursuant to, and in accordance with the terms and conditions of, the Development Program and 30-A M.R.S. § 5227(3). The Development Program Fund shall be used to fund payments to Developer. The Development Program Fund consists of two sub-accounts: one for the Developer reimbursement and one for the City programs and projects. Upon each payment in full as due of property taxes by the Developer, the City, based upon the allocations described above, will deposit into the Development Program Fund Developer's sub-account. The Development Program Fund Developer's sub-account is pledged to and charged with the payment of the project costs in the manner provided in 30-A M.R.S. § 5227(3). In each fiscal year, the City will disburse funds from the Development Program Fund sub-account to the Developer within thirty (30) business days following payment of the taxes on all captured assessed value. The City shall make payments into the Development Program Fund in the manner and priority provided in 30-A M.R.S. § 5227(3)(B), and as set forth in Section 3.1(b) below.

Section 2.2. Captured Assessed Value; Deposits into Development Program Fund.

(a) Each year during the term of this Agreement, for ten (10) years, commencing with the July 1, 2023 – June 30, 2024 fiscal year and continuing through and including the July 1, 2032 – June 30, 2033 fiscal year (the "CEA Years"), the City shall retain in the District one hundred percent (100%) of the Increased Assessed Value as Captured Assessed Value.

(b) For each of the CEA Years, the City shall deposit into the Development Program Fund contemporaneously with each payment of Property Taxes during the term of this Agreement an amount equal to one hundred percent (100%) of that portion of the property tax payment constituting Tax Increment Revenues. The Development Program Fund is pledged to and charged with the payment of costs in the manner and priority provided in 30-A M.R.S. § 5227(3)(B). The City shall allocate the Tax Increment Revenues so deposited in the Development Program Fund between the Developer Project Cost Subaccount and the City Project Cost Subaccount as follows: the City shall deposit into the Developer Project Cost Subaccount fifty percent (50%) of the Tax Increment Revenues until the expiration of the CEA Years, or until the reimbursements to the Developer reach a cap of $500,000 (the "Cap"), whichever occurs first. The amounts in the Developer Project Cost Subaccount shall be used and applied solely to fund the payments to the Developer pursuant to the Agreement. The City shall allocate the remaining fifty percent (50%) of Tax Increment Revenues during the CEA Years to the City Project Cost Subaccount. In the event that the Cap is reached prior to the end of the term of this Agreement, the City shall retain rest of the Tax Increment Revenues in the City Project Cost Subaccount for the remainder of the CEA Years.

Section 2.3. Use of Monies in Development Program Fund.

All monies in the Development Program Fund that are allocable to and/or deposited in the Development Program Fund shall in all cases be used and applied to fund fully the City's payment obligations to Developer, as described in Articles II and III hereof.

Section 2.4. Monies Held in Segregated Account.

All monies paid into the Developer Project Cost Subaccount under the provisions hereof and the provisions of the Development Program shall be held by the City for the benefit of the Developer in a segregated account. The City shall never be under any obligation to deposit into the Developer Project Cost Subaccount any funds other than Developer Tax Increment Revenues received by the City from Developer, the City's obligations under this Agreement extending only to funds that are Developer Tax Increment Revenues actually paid by Developer to the City. Interest earnings thereon shall be retained by the City for the City's own use.

ARTICLE III
PAYMENT OBLIGATIONS

Section 3.1. Developer Payments.

(a) The City agrees to pay Developer all amounts then on deposit in the Developer Project Cost Subaccount, on or before thirty (30) days following the Tax Payment Date as follows:

i. Prior to the completed development of seven buildings with occupancy permits, reimbursements continue until the expiration of the CEA Years, or until the reimbursements to the Developer reach a cap of $250,000, whichever occurs first; and

ii. When the Developer has completed development of seven buildings with occupancy permits, the reimbursements continue for the CEA Years or until the reimbursements to the Developer reach a cap of $500,000, whichever occurs first.

(b) Notwithstanding anything to the contrary contained herein, if, with respect to any Tax Payment Date, any portion of the property taxes assessed against real property located in the District remain unpaid due to a bona fide valuation dispute, the City shall be under no obligation to pay Developer's share of the Tax Increment Revenues to Developer. In such a circumstance, the property taxes actually paid with respect to such Tax Payment Date shall, first, be applied to taxes due on account of Original Assessed Value; and second, shall constitute payment of Property Taxes with respect to Increased Assessed Value, to be applied first to payment in full of the applicable Town percent share of the Tax Increment Revenues for the year concerned and deposited into the Town Subaccount in accordance with Article II hereof.

Section 3.2. Failure to Make Payment.

In the event the City should fail to, or be unable to, make any of the payments at the time and in the amount required under the foregoing provisions of this Article III including in the event that the amount deposited into Development Program Fund is insufficient to reimburse Developer for the full amount due to Developer under this Agreement, the amount or installment so unpaid shall continue as a limited obligation of the City, under the terms and conditions hereinafter set forth, until the amount unpaid shall have been fully paid.

Section 3.3. Limited Obligation.

The City's obligations of payment hereunder shall be limited obligations of the City payable solely from Tax Increment Revenues pledged therefor under this Agreement. The City's obligations hereunder shall not constitute a general debt or a general obligation or charge against or pledge of the faith and credit or taxing power of the City, the State of Maine, or of any municipality or political subdivision thereof, but shall be payable solely from that portion of Tax Increment Revenues payable to Developer hereunder, whether or not actually deposited into Development Program Fund. This Agreement shall not directly, indirectly or contingently obligate the City, the State of Maine, or any other City or political subdivision to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment, excepting the pledge of the Tax Increment Revenues established under this Agreement.

Section 3.4. Obligations Unconditional.

Except as otherwise provided in this Agreement or as required by applicable law, the obligations of the City to make the payments described in this Agreement shall be absolute and unconditional, and the City shall not suspend or discontinue any payment hereunder or terminate this Agreement for any cause, irrespective of any defense or any rights of setoff, recoupment or counterclaim it might otherwise have against the Developer, other than by reason of and to the extent provided in a final judgment by a court of competent jurisdiction or by reason of an order of Trustee Process or Attachment. The City hereby acknowledges that the Developer has the right to enforce the contractual obligations of the City under this Agreement and that the governmental immunity of the City does not apply to actions to enforce its contractual obligations; provided however, that nothing herein shall constitute a waiver of the City's tort immunity or any other governmental immunities

ARTICLE IV
FURTHER INSTRUMENTS AND BOOKS AND RECORDS

Section 4.1. Further Instruments and City Costs.

The City shall, upon the reasonable request of Developer, from time to time execute and deliver such further instruments and take such further action as may be reasonable and as may be required to carry out the provisions of this Agreement; provided, however, that no such instruments or actions shall pledge the credit of the City; and provided further that the cost of

executing and delivering such further instruments (including the reasonable and related costs of counsel to the City with respect thereto) shall be borne exclusively by Developer.

Section 4.2. Access to Books and Records.

(a) All non-confidential books, records and documents in the possession of the City relating to the District, the Development Program, this Agreement and the monies, revenues and receipts on deposit or required to be deposited into Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by Developer, its agents and employees.

(b) All non-confidential books, records, lease agreements and documents in the possession of Developer relating to the District, the Development Program, this Agreement and the monies, revenues and receipts used from the Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by City, its agents and employees.

ARTICLE V
DEFAULTS AND REMEDIES

Section 5.1. Events of Default.

Each of the following events shall constitute and be referred to in this Agreement as an "Event of Default":

(a) Any failure by the City to pay any amounts due to Developer when the same shall become due and payable;

(b) Any failure by the City to make deposits into Development Program Fund as and when due;

(c) Any failure by the City or Developer to observe and perform in all material respects any covenant, condition, agreement or provision contained herein on the part of the City or Developer to be observed or performed, which failure is not cured within thirty (30) days following written notice thereof;

(d) If a decree or order of a court or agency or supervisory authority having jurisdiction in the premises of the appointment of a conservator or receiver or liquidator of, any insolvency, readjustment of debt, marshaling of assets and liabilities or similar proceedings, or for the winding up or liquidation of the Developer's affairs shall have been entered against the Developer or the Developer shall have consented to the appointment of a conservator or receiver or liquidator in any such proceedings of or relating to the Developer or of or relating to all or substantially all of its property, including without limitation the filing of a voluntary petition in bankruptcy by the Developer or the failure by the Developer to have an involuntary petition in bankruptcy dismissed within a period of ninety (90) consecutive days following its filing or in the event an order for release has been entered under the Bankruptcy Code with respect to the Developer;

(e) If any secured lender of Developer accelerates the indebtedness owed to it;

(f) If any written representation or warranty given to the City by Developer is knowingly incorrect or incomplete in any material respect, other than statements made about or in agreements with the City that were later changed by mutual consent; and

(g) If Developer fails to maintain adequate surety bonding during construction at the levels and terms as may be required from time to time by the Developer's secured lenders and/or Developer allows mechanics' liens to encumber the Project for a period of more than sixty (60) days.

Section 5.2. Remedies on Default.

Subject to the provisions contained in Section 8.9, whenever any Event of Default described in Section 5.1 hereof shall have occurred and be continuing, the nondefaulting party, following the expiration of any applicable cure period, shall have all rights and remedies available to it at law or in equity, including the rights and remedies available to a secured party under the laws of the State of Maine, and may take whatever action as may be necessary or desirable to collect the amount then due and thereafter to become due, to specifically enforce the performance or observance of any obligations, agreements or covenants of the nondefaulting party under this Agreement and any documents, instruments and agreements contemplated hereby or to enforce any rights or remedies available hereunder.

Section 5.3. Remedies Cumulative.

Subject to the provisions of Section 8.9 below concerning dispute resolution, no remedy herein conferred upon or reserved to any party is intended to be exclusive of any other available remedy or remedies but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity or by statute. Delay or omission to exercise any right or power accruing upon any Events of Default to insist upon the strict performance of any of the covenants and agreements herein set forth or to exercise any rights or remedies upon the occurrence of an Event of Default shall not impair any such right or power or be considered or taken as a waiver or relinquishment for the future of the right to insist upon and to enforce, from time to time and as often as may be deemed expedient, by injunction or other appropriate legal or equitable remedy, strict compliance by the parties hereto with all of the covenants and conditions hereof, or of the rights to exercise any such rights or remedies, if such Events of Default be continued or repeated.

ARTICLE VI
EFFECTIVE DATE, TERM AND TERMINATION

Section 6.1. Effective Date and Term.

(a) Notwithstanding any other provision of this Agreement, this Agreement is conditioned upon receipt of the Department's unconditional approval of the City's designation of the District and adoption of the Development Program. Following execution and delivery of this

Agreement, the Agreement shall not be or become binding and enforceable until receipt of such unconditional approval.

(b) From the date of execution and delivery of this Agreement, the Agreement shall remain in full force and effect until the completion of the CEA Years as herein defined, unless even sooner terminated pursuant to any other applicable provision of this Agreement.

Section 6.2. Cancellation and Expiration of Term.

At the acceleration, termination or other expiration of this Agreement in accordance with the provisions of this Agreement, the City and Developer shall each execute and deliver such documents and take or cause to be taken such actions as may be necessary to evidence the termination of this Agreement.

ARTICLE VII
ASSIGNMENT AND PLEDGE OF DEVELOPER'S INTEREST

Section 7.1. Pledge and/or Assignment.

The City hereby acknowledges that Developer may pledge, assign and grant a security interest in its right, title and interest in, to and under this Agreement as collateral for financing by a bank or financial institution to Developer for the Project, although no obligation is hereby imposed on Developer to make such assignment or pledge. Recognizing this possibility, the City does hereby consent and agree to the pledge and assignment of and the grant of a security interest in all Developer's right, title and interest in, to and under this Agreement and in, and to the payments to be made to Developer hereunder, to third parties as collateral or security for indebtedness or otherwise, on one or more occasions during the term hereof. The City agrees upon request to execute and deliver any assignments, pledge agreements, consents or other confirmations required by the prospective pledgee or assignee or secured party, including without limitation recognition of the pledgee or assignee or secured party as the holder of all right, title and interest herein and as the payee of amounts due and payable hereunder and any and all such other documentation as shall confirm to such pledgee or assignee or secured party the position of such assignee or pledgee or secured party and the irrevocable and binding nature of this Agreement, and provide to the pledgee or assignee such rights and/or remedies as the parties may reasonably deem necessary for establishing, perfection and protection of its interest herein. Developer shall be responsible for the City's necessary and reasonable costs of counsel with respect to any such pledge or assignment.

Section 7.2. Transfer

Except as specified in Section 7.1 hereof, Developer shall not transfer or assign any portion of its rights in, to and under this Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed.

ARTICLE VIII
MISCELLANEOUS

Section 8.1. Successors.

In the event of the dissolution, merger or consolidation of the City or Developer, the covenants, stipulations, promises and agreements set forth herein, by or on behalf of or for the benefit of such party shall bind or inure to the benefit of the successors and assigns thereof from time to time and any entity, officer, board, commission, agency or instrumentality to whom or to which any power or duty of such party shall be transferred. Notwithstanding this Subsection 8.1, unless the City affirmatively approves of such action, which approval shall not be unreasonably withheld so long as the action will not have the effect of markedly changing the use of the Property or the nature of the Project, the City shall have the right to terminate this Agreement upon the dissolution, merger, or consolidation of the Developer, and if it exercises such right shall not be obligated to comply with this Agreement thereafter.

Section 8.2. Parties-in-Interest.

Except as herein otherwise specifically provided, nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City and Developer any right, remedy or claim under or by reason of this Agreement, it being intended that this Agreement shall be for the sole and exclusive benefit of the City and Developer.

Section 8.3. Severability.

In case any one or more of the provisions of this Agreement shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of this Agreement and this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 8.4. No Personal Liability of Officials of the City.

No covenant, stipulation, obligation or agreement of the City contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future elected or appointed official, officer, agent, servant or employee of the City in his or her individual capacity, and neither the City Council nor any official, officer, employee or agent of the City shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

Section 8.5. Counterparts.

This Agreement may be executed in any number of counterparts, each of which, when so executed and delivered, shall be an original, but such counterparts shall together constitute but one and the same Agreement.

Section 8.6. Governing Law.

The laws of the State of Maine shall govern the construction and enforcement of this Agreement.

Section 8.7. Amendments.

This Agreement may be amended only with the concurring written consent of both of the parties hereto.

Section 8.8. Integration.

This Agreement completely and fully supersedes all other prior or contemporaneous understandings or agreements, both written and oral, between the City and Developer relating to the specific subject matter of this Agreement and the transactions contemplated hereby.

Section 8.9. Dispute Resolution.

In the event of a dispute regarding this Agreement or the transactions contemplated by it, the parties hereto will use all reasonable efforts to resolve the dispute on an amicable basis. If the dispute is not resolved on that basis within sixty (60) days after one party first brings the dispute to the attention of the other party, then either party may refer the dispute for resolution by one arbitrator mutually agreed to by the parties, and judgment on the award rendered by the arbitrator may be entered in any Maine state court having jurisdiction. Any such arbitration will take place in Auburn, Maine or such other location as mutually agreed by the parties. The parties acknowledge that arbitration shall be the sole mechanism for dispute resolution under this Agreement. Provided however, that in the event the parties are unable to agree, within a reasonable period, on the selection of an arbitrator, either party may file suit to resolve the dispute in any court having jurisdiction within the State of Maine. This arbitration clause shall not bar the City's assessment or collection of property taxes in accordance with law, including by judicial proceedings, including tax lien thereof.

Section 8.10. Reserved.

Section 8.11. Notices.

All notices, certificates, requests, requisitions or other communications by the City or Developer pursuant to this Agreement shall be in writing and shall be sufficiently given and shall be deemed given when mailed by first class mail, postage prepaid, addressed as follows:

If to the City:

City Manager
City of Auburn
60 Court Street
Auburn, Maine 04210

With a copy to:

Philip Saucier, Esq.
Bernstein Shur
100 Middle Street
P.O. Box 9729
Portland, Maine 04104-5029

If to Developer:

American Development Group, LLC
ATTN: Jessica Klimek
8 Belmont Court
Auburn, ME 04210

With a copy to:

[Developer's counsel name and address, if applicable]

Either of the parties may, by notice given to the other, designate any further or different addresses to which subsequent notices, certificates, requests or other communications shall be sent hereunder.

IN WITNESS WHEREOF, the City and Developer have caused this Agreement to be executed in their respective corporate names and their respective corporate seals to be hereunto affixed and attested by the duly authorized officers, all as of the date first above written.

IN CITY COUNCIL

Approval of Credit Enhancement Agreement with American Development Group, LLC

WHEREAS, the City of Auburn (the "City") designated the **TIF #27 Stable Ridge Municipal Development and Tax Increment Financing District** (the "District") pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, by action of the City Council at a meeting of the City Council held on March 20, 2023 (the "Vote") and pursuant to the same Vote adopted a development program and financial plan for the District (the "Development Program"); and

WHEREAS, the Maine Department of Economic and Community Development approved the District and the Development Program on April 24, 2023; and

WHEREAS, American Development Group, LLC **(**the "Developer") has undertaken the construction of apartments within the District; and

WHEREAS, the Development Program authorized the City Council to approve a credit enhancement agreement with the Developer, following a public hearing, in an amount of up to $500,000 for a maximum of 10 years; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute such credit enhancement agreement contemplated by and described in the Development Program.

ORDERED AS FOLLOWS:

The City Manager is hereby authorized and directed to enter into the specific credit enhancement agreement with American Development Group, LLC in substantially the form as presented to the City Council and consistent with the procedural requirements that are described in the Development Program.

Approved May 15, 2023, by the City Council, at a meeting duly convened and conducted in Auburn, Maine.

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **April 2023 Financial Report**

DATE: **May 15, 2023**

The following is a discussion regarding the significant variances found in the City's April financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its tenth month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 83.3% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

Revenues collected through April 30, including the school department were $90,481,315, or 84.53%, of the budget. The municipal revenues including property taxes were $64,354,670, or 91.31% of the budget which is less than the same period last year by 3.03%, however, the dollar amount is $2,851,549 more than last year. The accounts listed below are noteworthy.

A. March 15th the second installment for real estate taxes was due. The current year's tax revenue is at 96.63% as compared to 97.14% last year. Courtesy letters were sent out in April for those taxpayers that had not paid their taxes. The lien process will begin in May.

B. State Revenue Sharing continues to outpace expectations and is currently $474,209 more than last year.

C. Excise tax for the month of April is 86.52%. This is an increase from FY 22 of $89,217.

Expenditures

City expenditures through April 2023 are $41,094,937 or 80.09%, of the budget. Noteworthy variances are:

A. The majority of operating departments are either below or right on target for April. The accounts that are over at 10 months are Debt Service, which the largest part of this line item is paid in the fall. General Assistance is currently at 164.48% The intergovernmental agencies get paid either quarterly or one annual payment. The budget is currently below last year's expenditures by 5.33%.

Investments

This section contains an investment schedule as of April 30th. Currently the City's funds are earning an average interest rate of 3.24% compared to last years 0.24%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for April 30, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of April 30, 2023.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities, and net assets and shows a comparison to the previous month, in this case, March 31 2023.

Current Assets:
As of the end of April 2023 the total current assets of Norway Savings Bank Arena were ($1,132,500). These consisted of cash and cash equivalents of $281,010, accounts receivable of $135,543, and an interfund payable of $1,549,053.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of April 30, 2023, was $147,691.

Liabilities:
Norway Arena had no accounts payable as of April 30, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through April 2023 are $965,944. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

The operating expenses for Norway Arena through April 2023 were $628,459. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

At the end of April 2023, there was an operating gain of $337,485.

As of April 30, 2023, Norway Arena has an increase in net assets of $337,485.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY23 is $86,352 more than in FY22 and expenditures in FY23 are $4,622 more than last year in March.

City Council Workshop & Meeting
Agenda
June 5, 2023
Auburn Hall, Council Chambers

5:30 P.M. City Council Workshop

A. Airport update – Jonathan LaBonté
B. Tax Increment Financing (TIF) discussion – Glen Holmes
C. Third Place Grant Program proposal – Glen Holmes
D. 186 Main Street easements – Jay Brenchick and Eric Cousens
E. City owned property – Jay Brenchick
F. Marketing/promotion of American Rescue Plan Act (ARPA) Programs – Phil Crowell

7:00 P.M. City Council Meeting - Roll call votes will begin with Councilor Hawes

Pledge of Allegiance

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 71-06052023*
Appointing Wardens and Ward Clerks for the June 13, 2023 Election.

2. Order 72-06052023*
Confirming Mayor Levesque's appointment of Councilor Rick Whiting to the Airport Board.

II. Minutes
a. May 15, 2023 Special Joint Meeting (Lewiston and Auburn City Councils)
b. May 15, 2023, Regular Council Meeting

III. Communications, Presentations and Recognitions

- Council Communications (about and to the community)

IV. Open Session – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. Unfinished Business

1. Order 59-05012023
Modifying the Auburn-Lewiston Airport Interlocal Agreement.

VI. New Business

1. **Order 73-06052023**
   Authorizing the City Manager to execute a donation agreement with Sultan Corporation for the donation of 7 Chestnut Street (Auburn Tax Parcel 250-335).

2. **Order 74-06052023**
   Authorizing the City Manager to execute the sale of 188 Chicoine Avenue through Bill Bergeron with Fontaine Family Realty.

3. **Order 75-06052023**
   Authorizing the City Manager to execute the sale of Garfield Road (parcel ID 216-062) through Bill Bergeron with Fontaine Family Realty.

4. **Order 76-06052023**
   Authorizing the City Manager to execute the sale of 126 Goff Street through Bill Bergeron with Fontaine Family Realty.

5. **Order 77-06052023**
   Authorizing the City Manager to execute the sale of 140 Northern Avenue through Bill Bergeron with Fontaine Family Realty.

6. **Order 78-06052023**
   Authorizing the City Manager to execute the sale of Smith Street (parcel ID 198-063) through Bill Bergeron with Fontaine Family Realty.

7. **Order 79-06052023**
   Authorizing the City Manager to execute the sale of South Witham Road (parcel ID 161-009) through Bill Bergeron with Fontaine Family Realty.

8. **Order 80-06052023**
   Authorizing the City Manager to execute the sale of Union Street (parcel ID 240-169) through Bill Bergeron with Fontaine Family Realty.

9. **Order 81-06052023**
   Authorizing the City Manager to execute the sale of 18 Western Prom through Bill Bergeron with Fontaine Family Realty.

10. **Order 82-06052023**
    Authorizing the City Manager to execute the sale of 59 Willard Road through Bill Bergeron with Fontaine Family Realty.

11. **Order 83-06052023**
    Authorizing the City Manager to execute the sale of 192 Winter Street through Bill Bergeron with Fontaine Family Realty.

12. **Order 84-06052023**
    Authorizing the City Manager to execute the sale of 86 Western Avenue through Bill Bergeron with Fontaine Family Realty.

13. Ordinance 05-06052023
Amending Appendix A – Fees and Charges (Streets, Sidewalks, and other Public Places). First reading.

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

VIII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

IX. Executive Session – Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.
Executive Session – Personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. §405(6)(A).

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Author: Jonathan P. LaBonte, Transportation Systems Director

Subject: Auburn-Lewiston Municipal Airport Update

Information: This will be a brief update on the status of business operations at the airport and to answer questions from the City Council. The attached memo provides background details.

City Budgetary Impacts: N/A

Staff Recommended Action: None

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Auburn-Lewiston Municipal Airport Briefing – June 5, 2023

BACKGROUND

The Auburn Lewiston Airport, located at 80 Airport Drive in Auburn, was developed on land transferred from the United States government to the cities of Auburn and Lewiston. Beginning in 1935, various airport oversight models were put in place.

In 1979, the cities of Auburn and Lewiston adopted an Interlocal Agreement establishing the Auburn-Lewiston Municipal Airport as an independent corporate entity. An Airport Board was created to operate, maintain, and improve the land. The agreement was (is) for an indefinite term (no sunset provision) and requires the cities to provide an operating subsidy of no less than the previous fiscal year's budgeted appropriation and shortfalls at the airport.

Also in 1979, the cities adopted a tax-sharing agreement whereby they jointly financed the extension of Auburn's water and sewer utilities for the newly formed business park situated on airport land. In 1987 and 1997, the cities adopted amendments to the original tax-sharing agreement, including a provision to share excise tax revenues with the airport for the purpose of establishing an infrastructure improvement trust account. The tax-sharing agreement, with its amendments, has a sunset date of October 2029. While often seen as connected to the airport interlocal agreement, the tax-sharing entity agreements stand alone with the only provision of sharing excise tax revenues through 2029.

The interlocal agreement has been amended several times since its inception. Those changes, predominantly in the 1980's, provided additional direction and rights to the airport to include the ability to facilitate economic development and to authorize leases without city council approval. The most recent 2007 amendment added the Lewiston Auburn Economic Growth Council and AVCOG to the Board of Directors as part of the focus on economic development and positioning the airport for pursuit of scheduled commercial air service. The most recent Airport Master Plan (2006) had significant focus on commercial service and the needed capital investments to achieve that goal.

CURRENT STATUS

The airport operates on land deeded to the cities, as sponsors of the airport, by the federal government. As a condition of those deeds and accepting capital funds to improve and maintain the airport, the cities agreed to follow the FAA Grant Assurances. The Grant Assurances provide a framework for the airport to move towards becoming self-sustaining and to ensure competition is fostered among private operators seeking access to airport land and/or facilities.

On rare occasions, the FAA will send a land-use compliance officer to inspect the operation of an airport and its adherence to these Grant Assurances through a land use inspection. The Auburn Lewiston Municipal Airport was selected last year for such an inspection, and it occurred in July. A report from the FAA was submitted to the airport in April 2023 and mandated a Corrective Action Plan (CAP) for issues it identified regarding leases and airport management of agreements. The areas for action included the following:

- To coordinate finalization of release requests for 911 Antenna and State drainage easements.
- To complete an inspection of all hangars with FAA present and provide a report of inspection findings with actions to the FAA upon inspection completion.
- To review the leases with TIM Corp. and Bel Air Condo Association, along with Skyward Aviation's activity fee status, and provide remedies to ensure these leases and activities are in compliance with Grant Assurance 5 - Rights and Powers, the Airport Revenue Policy, and other noted concerns.
- To review all leases and provide the FAA with any further findings or remedies.
- To review Minimum Standards and Rules and regulations with FAA. Provide information as to the status of the documents and their approval by the Board.

The airport now has until late June 2023 to submit the CAP. The plan does not have to resolve all of the identified issues, but rather lay out the framework and timeline to do so. If the airport does not submit, or the FAA does not have confidence that the airport is seeking to address its concerns, access to future federal capital funds would be in jeopardy.

Annually, the cities of Auburn and Lewiston each provide a subsidy to the airport in the amount of $205,000 for a total of $410,000. Several business decisions at the airport over the last 15 years have influenced the current financial management and sustainability challenges to include the airport operating at a deficit in this current fiscal year.

In 2008, the airport and cities partnered with private developers to construct a hangar for the Lufthansa Constellation project. While the hangar was privately owned, the cities, through the airport, backed the financing through a 20-year lease with $249,750 in annual payments. The airport's payments for the hangar lease were equivalent to the sublease amount paid by Lufthansa to the airport. As financial pressure mounted on the project, the airport purchased the hangar from the private developer and the two cities agreed to finance that purchase. The inability of the airport to make the annual payments led to one restructuring of the debt to extend the payback period and reduce annual payments to each city. At present, the airport is obligated to pay $115,000 in total (split 50/50 between the cities).

The eviction of Elite Airways from the airport due to non-payment has not only left the airport without the revenue to meet its loan payments to the cities, but also the legal expenses, transfer of utility costs and unpaid bills, and other added expenses that have deepened the deficit. The airport now has a 25,400 square foot hangar that it must empty, through a sale of abandoned assets, and seek a new tenant for the upcoming year.

Another impactful decision was for the airport to exercise its proprietary rights under Federal Aviation Administration (FAA) regulations to become the Fixed-Base Operator (FBO) after the departure of Twin Cities Air. Rather than seek another private entity to provide aviation services such as fueling, hangar and tie-down management, rental car coordination, or catering, the airport chose to stand these up as government run services. Through fiscal year 2022, the airport expenses for the FBO have exceeded its revenues by $787,000. This amount does not reflect the administrative overhead costs required to manage those services.

Following the identification of many unbudgeted capital and operating expenditures realized in this fiscal year, the current board is navigating an evaluation of expenses incurred year to date. There are also large capital projects, supported by FAA funds, that have yet to be "closed-out" to provide final reimbursement to the airport. The most recent project, the East Ramp reconstruction, had well documented project management challenges, but also had a greater than initially projected local property taxpayer share versus federal/state share. The City of Auburn, through use of its fund balance, loaned the airport funds to make contractor payments for this project because the airport lacked the financial resources in its Land Fund. The city has been slowly paid back as reimbursements have been received from the FAA.

In addition to the status of the capital trust account, required to be established in the excise tax-sharing agreement, the accounting for the Land Fund (capital reserve account) has been an on-going board-level discussion. Following a records review, it has been documented that the airport never established that account and instead used the capital trust funds as general operating funds to subsidize the airport.

During the current fiscal year, the airport conducted an asset sale, without the authorization from the cities as required by the Interlocal Agreement for any asset valued at more than $1,000, and spent that additional $48,668 on other items.

PATH FORWARD

It is clear that the challenges of the past, brought on by both management and governance issues, has eroded the trust of tenants and customers to the airport. Future direction setting and stewardship of this airport is a collective effort of the sponsors, as owners and operators of the airport, and the businesses and their customers engaging in aeronautical activity.

There are a series of steps to move the airport from its current challenges to fulfilling the opportunity it provides to support regional economic growth through the aviation sector. At the core, the mission at the airport needs to be to develop operating conditions conducive to attracting private investment and private aviation services and to establish an airport staffing model that focuses on a core mission of land and facilities management and strategic capital investment. Through all of this, safety of flight is paramount.

The response to the FAA land use inspection is being developed, and initial meetings with specific tenants referenced by name have already occurred. A process to fully document all existing leases has been launched. This process includes reviews of terms, rates, rate adjustments, extensions, assignments, amendments, etc. along with ensuring fully executed files associated with all leases are in place and stored in a digital archive for ongoing monitoring.

It has been discovered that the airport has missed Consumer Price Index (CPI) adjustment windows on some leases, made lease amendments that reduced revenue to the airport, provided access to land without leases, and maintained expenses on the airport that were to be transferred to tenants per lease terms. All in, this lease mismanagement has cost the airport at least $100,000 per year.

Near term, the airport continues to deplete cash reserves as budgeted revenues are not realistic. It will likely need to secure an operating line of credit to continue forward in the transition. The current available cash means that the airport will not be able to make the FY2023 debt service payment ($115,000) to the cities on the hangar. This could be accommodated by adding one year to the repayment schedule (FY2034 to FY2035). We are reviewing capital expenditures funded with operating dollars - to potentially authorize those from the Land Fund - and will be completing a sale of abandoned assets by Elite Airways to assist in closing that gap and repaying any line of credit utilized.

To shift the business model of the airport, an RFP was issued for a private business to step in to support the FBO services. In the next couple of weeks, the FY2024 operational model will become clearer and will be significantly less in total expenditures than FY2023. A reduction in overall personnel at the airport and documentation of workflows and workloads is key to right-sizing the public sector staff during this transition. We are working towards eliminating a redundant financial management system at the airport as well as standing up a work order system to document activities.

A thorough review of the use of the Land Fund and establishing a policy for its use will be a key element to protecting against the current situation reemerging. This would likely be accompanied by a review of the Land Lease Policy to strengthen the airport's intent to lease, rather than sell, land for non-aeronautical use going forward. Land sold generates one-time capital funding for the Land Fund, while land leased provides an on-going revenue stream to support airport operations and capital investment. A future consideration may be to memorialize elements of this into the Interlocal Agreement as further protection.

By early fall, the airport will launch an Airport Master Plan Update process. During that 18–24-month period, all stakeholders in the airport will be engaged in assessing its current use, evaluating opportunities moving into the future, and shaping a five-to-20-year layout for growth. This will allow the airport to have a reality based five-year capital improvement program that leverages federal, state, and local funds. The updated master plan will also identify further areas for non-aeronautical development where the airport can leverage its proximity to freight rail and the interstate to facilitate private investment while generating additional operating income through ground leases. We know the primary project in the current five-year window is the construction of a new hangar, funded through Congressionally Directed Spending appropriations championed by Congressman Jared Golden.

Clarity on financial status, an updated master plan, and a refined capital improvement plan will position the airport to draft and adopt a multi-year business plan that sets key benchmarks for progress that will hold the annual budgeting process to a higher standard of accountability and transparency.

ORDER 59-05012023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby modifies, pursuant to Article XII, the interlocal agreement that established the Auburn-Lewiston Municipal Airport as follows:

ARTICLE III - AIRPORT BOARD ORGANIZATIONAL STRUCTURE

Board of Directors

Section 1. Membership
The Board ~~will~~ shall consist of ~~*nine*~~ *five* members. The Auburn City Manager and the Lewiston City Administrator shall each designate two staff members from their respective cities based on experience in transportation, public works, finance, or economic development~~The Finance Director of Lewiston and the City Manager of the City of Auburn or their designated representatives will be members of the Board by virtue of their respective offices. A third member of the Board shall be a Councilor of the City of Lewiston and shall be nominated by the Mayor and confirmed by the Lewiston City Council at their first regular meeting. A fourth member of the Board shall be a Councilor of the City of Auburn and shall be nominated by the Mayor and confirmed by the Auburn City Council at their first regular meeting. Tax Increment Financing

Planning Today for a Prosperous Tomorrow

Glen E. Holmes, Director of Business & Community Development

auburnmaine.gov

TIF Basics

Tax Increment Finance (TIF) is a mechanism for capturing the future tax benefits of real estate improvements, in order to incentivize development and pay for the cost of municipal infrastructure and improvements.

Two types: Affordable Housing – Approved by Maine State Housing Authority (MSHA)
Municipal– Approved by Maine Department of Economic & Community Development (DECD)

- Large-scale redevelopment of blighted or under-utilized districts
- Provide Economic Development opportunities and/or Job Creation programs
- Promote Mixed-Use Developments & Incentivize Public-Private Partnerships
- Incentivize Affordable Housing Development
- Funding Brownfield/Blight Remediation and/or Neighborhood Revitalization Efforts
- Long-term financing of infrastructure improvements such as:
  - Public Facilities
  - Utilities
  - Transportation
  - Environmental Remediation

auburnmaine.gov

Key Terms

- **TIF District -** Municipality created geographic area
- **Original Assessed Value** (OAV) -Current taxable value "frozen" before development
- **Increased Assessed Value** (IAV) – New taxes generated by development
- **Captured Assessed Value** (CAV) - % of taxes from IAV that is sheltered
- **Total Tax Shift** - Savings from sheltered CAV over term of TIF
- **TIF District Revenue** (TDR) - Taxes from CAV to fund Development Program
- **Development Program –** Approved plan & budget for TIF District Revenues
- **Credit Enhancement Agreement** (CEA) – Reimbursement of TDR to Developer
- **Omnibus TIF** – Larger scale, Multi-faceted incentives not totally defined at creation

auburnmaine.gov

Policy & Procedures

City TIF Districts are managed by the **Finance Department** and **Business & Community Development Department** and follows a prescriptive policy and application process.

1. Interested businesses and/or developers complete a TIF application Package.
2. Business & Community Development staff review applications and prepare TIF packages.
3. Complete proposals are posted publicly for 10 days prior to a Public Hearing.
4. After Public Hearing, the City Council reviews and may vote to approve TIF District.
5. If the City Council approves the TIF it is sent to the proper state authority for approval.
    - Affordable Housing TIFs are approved by Maine State Housing Authority (MSHA)
    - Municipal TIFs are approved by Maine Department of Economic & Community Development (DECD)
6. If approved, city staff monitors the project for compliance for the term of the TIF.

auburnmaine.gov

Example

TIF #23 Schooner Memory Care – Construct 66 mixed-income assisted living units at 196 Stetson Rd	
Original Assessed Value (OAV)	$327,100
New Investment	$17,000,000
Amount of IAV Captured	58.5%
Captured Assessed Value (CAV)	$4,979,930
Total Projected Revenue	**$1,787,180**

Development Program Budget	
Max CEA = 35% CAV or	$625,511
Admin Cost	$40,600
Road Improvements	$1,203,500
Total Project Expense	**$1,869,611**

TIF Cashflow to Date	
TIF Age	4 of 20 years
Revenue	$350,355
Admin	$1,733
CEA	$101,872
Debt Service Payments for Road Improvements	$275,232

Community Benefit	
New Assisted living units	66
New FTE jobs created	56

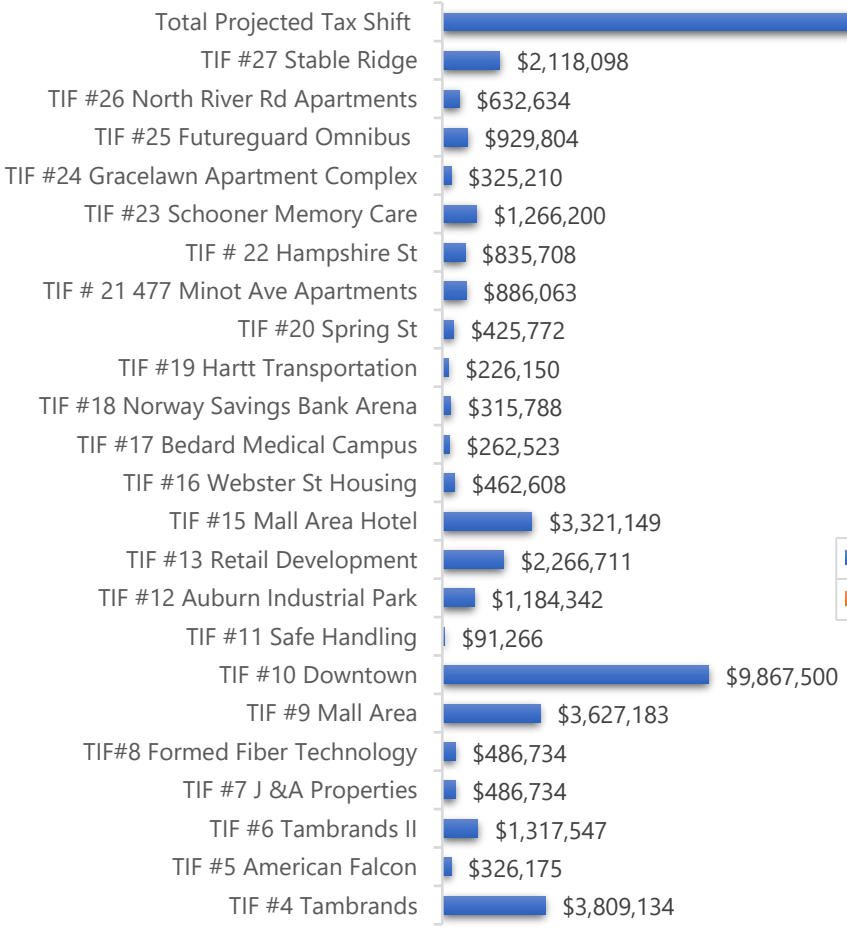
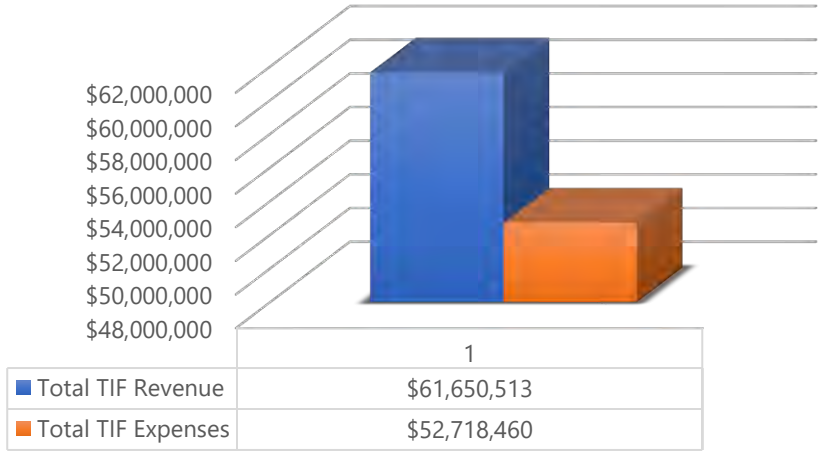
Current TIF Data

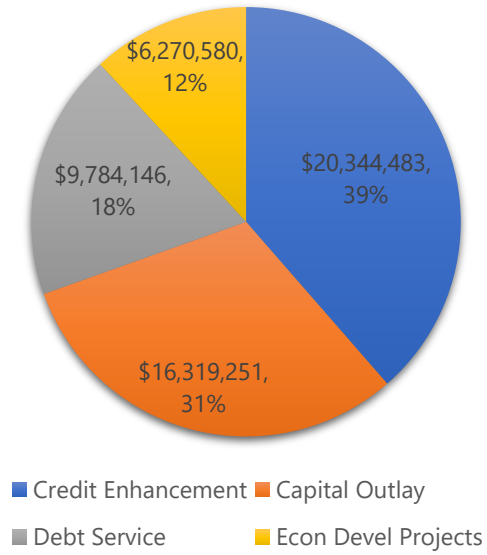
Total Projected Tax Shift



Combined TIF Revenue vs Expenses



TIF Expenses by Category



auburnmaine.gov

Statutory Limitations

The city is must comply with Acreage and Valuation Caps as established by state statute.

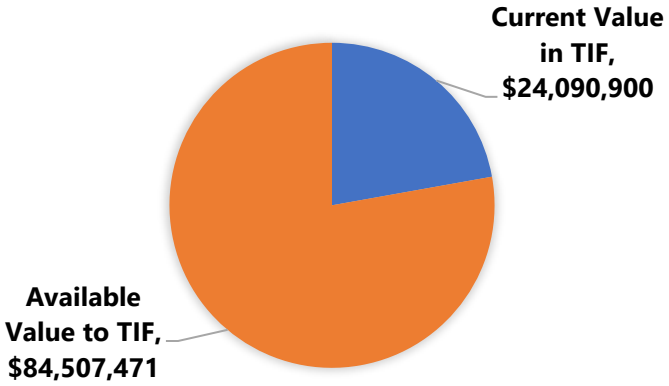
- Each proposed TIF cannot exceed 2% of the total **acreage** of the city.
- The total amount of all current & proposed TIFs cannot exceed 5% of the total **acreage** of the city.
    - Exclusions from this calculation include:
        - Existing/proposed Downtown TIF Districts
        - Transit-Orientated Development TIF Districts
        - Community Wind Power TIF Districts
        - Pinetree Development Zones approved prior to Jan.1, 2009
- Total amount of all current and proposed TIFs cannot exceed 5% of the total **municipal valuation**.
    - Exclusions from this calculation include:
        - Affordable Housing Development Districts
        - Existing/proposed Downtown TIF Districts
        - Transit-Orientated Development TIF Districts
        - Community Wind Power TIF Districts
        - Pinetree Development Zones approved prior to Jan.1, 2009
        - Single Taxpayer/High Valuation TIF Districts

auburnmaine.gov

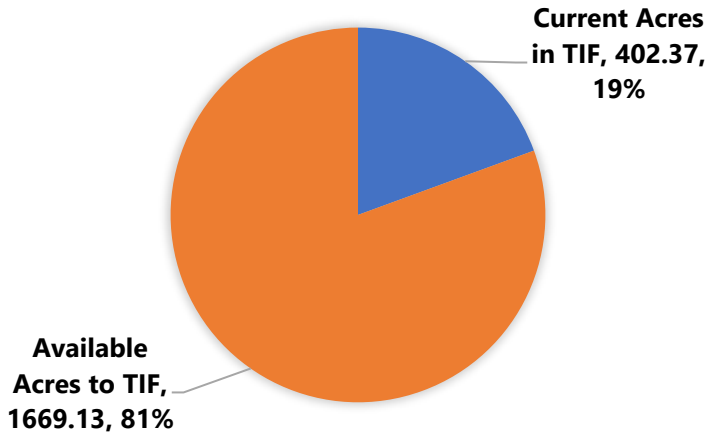
Future TIF Capacity

Based on current active TIF Districts the City of Auburn has the available capacity for new TIFs.
As existing TIFs expire or are modified, or the total valuation of the city increases, these values will change.

TOTAL ORIGINAL ASSESSED VALUE (OAV) ALLOWABLE



TOTAL ACRES ALLOWABLE TO TIF



auburnmaine.gov

Risks and Common Criticism

Common Risks:

- Development projections do not meet budget expectations
  - Potential development/investments do not materialize
  - Assessed value of projects is less than projected
  - Reduced MIL rate lowers TIF revenues
- Developer underperforms or project is under capitalized
- Projects and agreements are not adequately monitored to ensure public benefit
- No community support

Common Criticisms:

- Taxpayers subsidizing private development through credit enhancement agreements
- TIF expenses by-pass public budget process

Q & A

auburnmaine.gov

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Third Place Grant Program

Information:
The City of Auburn is seeking funds from the American Rescue Plan Act (ARPA) to support the establishment of a Third Place Grant Program to incentivize the creation of new, privately owned locations or privately organized regular events utilizing public space, which are distinct from work and home, where residents can gather. These spaces can have various forms and business models but are characterized by spaces which promote community gathering, developing new relationships, and hosting community building activities and programming.

City Budgetary Impacts:
This program will not impact the Cities Budget as The Office of Business & Community Development is seeking $100,000 in ARPA funds to administer the program.

Staff Recommended Action:
Discussion and feedback.

Previous Meetings and History:
None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

The Third Space Development Program

Purpose

The purpose of the Third Space Development program (TSDP) is to incentivize the creation of new, privately owned locations or privately organized regular events utilizing public space, which are distinct from work and home, where residents can gather. These spaces can have various forms and business models but are characterized by open spaces which promote community gathering, developing new relationships, and hosting community building activities and programming. These spaces have the intention of creating genuine and lasting relationships between community members by providing equalizing and accessible location to socialize. This initiative aligns with goals established within the city's Comprehensive Plan which aims to "attract and retain a wide range of small and medium size businesses in the Auburn and New Auburn Downtowns that promote and enhance a vibrant urban " (Objective I.1) and which "Maintain Auburn's role as a regional economic center with a diverse economic base and support continued strong economic growth that provides diverse opportunities for appropriate business growth and opportunities" (Goal I.2).

Funding

The City of Auburn may allocate $100,000 from the City ARPA funds for this program to provide funds to qualified applicants. Maximum assistance is $50,000 per operation for approved expenses. Fund requests will provide a detailed budget and explain how this funding will provide a net increase in social interaction and community building. Funds will be made available as a deferred-payment, 12-month loan. If all conditions are met, the funds will be converted to a grant.

Eligibility

New, start-up Auburn based non-profit or business which will be located within the Downtown, New Auburn or Union St census tracts. These include qualified for-profit or non-profit C-corps, S-corps, partnerships, or sole proprietors. The funds may be used to acquire or upgrade facilities, equipment, purchase supplies, or expand labor as necessary to open a new publicly accessible congregate space including but not limited to restaurants, cafes, activity centers, recreation space etc. which are open to the general public.

DRAFT

Post closing conditions will be reviewed 12 months after closing. If all conditions are met the loan will be converted to a grant. Conditions include copy of 2023 tax returns and evidence of on-going operation.

In order to be eligible to receive funds, all property taxes, real and personal, owed on the property that is the subject of the application must be current at the time the application is made. Any property on which there is past due balance for such taxes will be removed from consideration.

Sources and Uses	Unit Price	Quantity	Budget
City ARPA Funds =			**$102,000**
Total Uses=			**$102,000**
Program Administration (1 year)			$2,000
Forgivable loans	$50,000	*Approx. 2*	$100,000

Application

Applicants will apply through the city Community Development Application portal and will provide all necessary documentation. https://portal.neighborlysoftware.com/auburnme/participant
Select "Community Development Grant". Select "Service Provider Grant" under section A4 and Name the Project "Third Space Program" under section B1. Applications will be collected until July 1st, at which time only completed application packages will be reviewed. Failure to provide all needed information will result in applications being denied. The city of Auburn reserves the right to reject any application. Qualified applications will be accepted during the application period, at the end of which all completed submissions will be evaluated against a pre-established review matrix. The top scoring applications will be funded until all funds are completed, or there are no more qualified applicants.

The City of Auburn is committed to accessibility for all applicants. For questions or accommodations completing applications contact the Community Development Office at (207) 333-6601 ex.1332 or emailing CDBG@auburnmaine.gov. Arrangements will be made for non-English-speaking persons and persons with special needs for mobility, hearing and visual impairments, homebound or those needing assistance with technology and/or access.

Applications must include the following:

- Detailed description of the market population and current mix of offerings
- Detailed plan to expand or create new space or offerings
- Approach to improve quality of service & education/marketing of new offerings

- Detailed traffic or sales projections
- Job descriptions of any new staff to be hired with grant funds
- Existing infrastructure and matching funds leveraged to meet stated goals
- Summary of data tracking and financial systems used to manage funds
- A detailed budget including all requested and matching funds with supporting documentation
- Narrative describing how the expansion meets the objectives within the city comprehensive plan.

Management and Oversight

- *Written Agreement*: The city will enter into a written agreement with the selected businesses describing the amounts and uses of funds.
- A commitment letter and promissory Note will be executed in the amount awarded. In the event the business does not meet the conditions detailed within the agreement the funds will be repaid to the city.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Author: John Blais

Subject: Acceptance of realignment of Miller Street as a city street, provide easements to Auburn Sewer & Water District and JCS 18, LLC related to the development of 186 Main Street.

Information: City Staff are requesting the city accept realignment of Miller Street as a City Street, provide permanent easements to Auburn Sewer & Water District, JCS 18, LLC and Turson LLC.

The street has been designed to be realigned for, 197.99'± in length and has been designed to the standards as required by City of Auburn Ordinances, Chapter 46, Article V – Design and Construction Standards. Miller Street is laid out and dedicated for public use on the following plans (Sheets 1-10 by Sebago Technics) to be approved by the Auburn Planning Board on June 6, 2023. This alignment is to accommodate the full development of 186 Main Street (PID 231-020). Which includes a new five (5) story mixed-use building that will be made up of four (4) floors of 18 units of market rate multi-family housing and 1,118 SF of retail/commercial space and one (1) floor with a 118-seat restaurant/brewery space.

Other associated tasks include providing discontinuance a section of Miller Street and providing a temporary easement for 2 years to JCS 18, LLC.

City Budgetary Impacts: None

Staff Recommended Action: Discuss today and then schedule to move the request through public notice, and city council approval to accept the realignment of Miller Street upon approval by City of Auburn Planning Board.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Author: Mayor Jason Levesque

Subject: Marketing/promotion of American Rescue Plan Act (ARPA) Programs

---

Information: Staff and elected officials receive phone calls and emails multiple times per week from residents and businesses regarding city sponsored programs that are currently available. However, there are many who are not aware of any of the programs. Recently, I addressed the United New Auburn meeting and asked those in attendance if they have taken advantage of any of our ARPA (American Rescue Plan Act) programs. Out of the twenty-five people there, only one of them had heard of the programs.

It would be beneficial for residents to be aware of the council approved programs funded through the American Rescue Plan Act (ARPA). These programs were intended to provide economic relief during and following the Covid-19 pandemic. I would recommend that we send a mailing to all households in Auburn to promote and encourage participation in accessing these funds. The cost for a 6.5" x 9" 2-sided, color, heavy stock card – sent to 10,500 households in Auburn - would cost a total of $4,000.

The Homeowner Tax Relief program has unused allocations as follows: Postage - $5,000 and Office Supplies - $5,000.

City Budgetary Impacts: None. Utilize current ARPA Homeowner Tax Relief program postage funds.

Staff Recommended Action: To utilize currently allocated ARPA funds for this purpose.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

2. **Order 63-05152023***
Re-appointing Sally Gagne to the Age Friendly Community Committee with a term expiration of 06/01/2026.

3. **Order 64-05152023***
Re-appointing Diane Vincent to the Age Friendly Community Committee with a term expiration of 06/01/2026.

4. **Order 65-05152023***
Re-appointing Benjamin Weisner to the Age Friendly Community Committee with a term expiration of 06/01/2026.

5. **Order 66-05152023***
Appointing Daniel Bilodeau to the Auburn Sewer District Board of Trustees with a term expiration of 03/01/2027.

6. **Order 67-05152023***
Appointing Brad Kowalski to the Auburn Sewer District Board of Trustees with a term expiration of 03/01/2026.

7. **Order 68-05152023***
Appointing Britny Anderson to the Parks & Recreation Advisory Board with a term expiration of 10/01/2024.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage of the seven consent items.

Passage 7-0.

II. Minutes – May 1, 2023, Regular Council Meeting

Motion was made by Councilor Milks and seconded by Councilor Walker to approve the minutes of May 01, 2023, Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Recognition and Pinning Ceremony – Auburn Fire Department Promotions
  - Michael Scott promoted to Battalion Chief
  - Erik Poland promoted to Captain.
  - Tyler Arsenault promoted to Lieutenant.
  - Adam Salve promoted to Lieutenant.
- Maine Arbor Week Proclamation
- Recognition – The City of Auburn, recipient of the Maine Spirit of America 2022 Gold Distinction

Council Communications:

Councilor Staples reported that he attended the dedication of Mother's Park on Drummond Street with Councilor Whiting and Councilor Walker and stated it was a great event. He also wanted to thank Tizz Crowley for initiating the event.

Councilor Walker thanked the City of Auburn for the plaque that was presented at Anniversary Park for the celebration of 90 years since the Great Fire that destroyed the city of New Auburn. He further went on to say it was a great event and wanted to thank everyone who attended.

Councilor Milks commended the staff and everyone that took part in organizing and putting together the lobster festival. It was a great time.

Councilor Whiting thanked the Mayor, City Manager and Fire Chief for their participation in the unveiling of the plaque for the 90th anniversary of the New Auburn Fire.

Mayor Levesque spoke about the current drug epidemic that is happening within the City of Auburn and how it is correlated with generational poverty. He thanked the City Council and staff for continually taking proactive steps to help eliminate generational poverty through continuing to help make the Pal Center a reality, offering mental health programs, free recreation activities, making sure our schools are fully funded and giving opportunities for all. He went on to say that his primary oath as Mayor is Life and Liberty for the people of Auburn and balancing fiscal responsibility.

City Manager Crowell spoke regarding the PACE program that the Council, at the last budget process developed and approved. He stated that PACE program is an opportunity for the police department to be more proactive and engaged at a street level, as it pertains to the drug epidemic. Manager Crowell reiterated the PACE program is a good option and proposes that when the Council gets to the budget process that they bring PACE forward as part of an amendment to the budget.

IV. **Open Session** – No one from the public spoke.

V. **Unfinished Business**

1. **Order 58-05012023**
Authorizing the City's general obligation bonds in the amount of $13,000,000.00 to finance the City's FY24 Capital Improvement Program. Second reading.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public Comment - Andy Titus, 24 Rubelite Lane, spoke on how the City funds are spent. Specifically, the $3,000,000 for a public safety upgrade in New Auburn. His other concern is the PAL Center and still needs to raise another $1.5 million dollars. He asked why we are bonding the $1.5 million when we don't know if the additional money will come in.

Passage 6-1 (Councilor Gerry opposed). A roll call vote was taken.

Motion was made by Councilor Milks and seconded by Councilor Morin to suspend the rules to take up **Order 69-05152023** – Adopting the Fiscal Year 2024 School Budget.

Passage 7-0.

Order 69-05152023
Adopting the Fiscal Year 2024 School Budget.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Passage 7-0. A roll call vote was taken.

2. **Resolve 01-05012023**
Adopting the Appropriations Resolve for Fiscal Year 2024. Second reading.

Motion made by Councilor Walker and seconded by Councilor Staples for passage.

Public Comment – No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend by reinstating the PACE program for the police department.

Passage 7-0.

Motion was made by Councilor Milks and seconded by Councilor Whiting to amend with the estimated aggregate amount of non-property tax revenue of $62,395,844 with a municipal revenue budget of $23,121,704 and a School Department revenue budget of $39,274,140.

Passage 7-0.

Motion was made by Councilor Staples and seconded by Councilor Milks to address the resolve to state, the aggregate appropriation for the City of Auburn is $113,170,192, with a municipal budget of $51,126,866.

Passage 7-0.

Passage as amended 6-1 (Councilor Gerry opposed). A roll call vote was taken.

3. **Order 60-05012023**
Reallocating unspent proceeds from the City's 2020 General Obligation Bonds. Public hearing and second reading.

Motion made by Councilor Walker and seconded by Councilor Hawes for passage.

Public Hearing – Public hearing to receive comments on reallocating unspent proceeds from the City's 2020 General Obligation Bonds.

No one from the public spoke.

Passage 7-0. A roll call vote was taken.

VI. New Business

1. **Order 70-05152023**
Approval of a Credit Enhancement Agreement between the City of Auburn and American Development Group, LLC relating to the TIF #27 Stable Ridge Municipal Development and Tax Increment Financing District. Public hearing and vote.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public Hearing – Public hearing to receive comments for Credit Enhancement Agreement between the City of Auburn and American Development Group, LLC.

John Cleveland – 183 Davis Avenue would like to urge the Council to vote against the credit enhancement agreement because he feels it is bad public policy. He stated if approved an awful precedent will be set going forward for all for profit multi-family homes who do not commit any public benefit to receive a credit enhancement.

Sharon Philbrick Bergeron – 23 Dexter Avenue, stated that she hopes the Council will invest in the four areas outlined in the TIF and not enrich one private developer by incrementally giving them $500,000.

Dennis Bergeron – 23 Dexter Avenue, stated that he is against this proposal and if the Council votes to approve then he would like to know why.

Andy Titus – 24 Rubelite Lane – stated that when a private developer starts a project, they take on a risk of something going adverse. He questioned whether the City of Auburn will now be taking on that risk when the next developer comes along. He stated a credit enhancement is to benefit the community and it does not look like this does.

Fails 0-7. A roll call vote was taken.

VII. Open Session – No one from the public spoke.

VIII. Reports –

Mayor Levesque toured the new Edward Little High School; Construction is on schedule and is very close to completion. On May 20th there will be a tour of the old Edward Little High School. He's hoping there will be tours for the Council and School Board. The mayor would like to hold a joint City Council and School Board meeting in September at the new school auditorium providing everyone to come in and experience a portion of the high school. The mayor commented on the success of the Lobster Festival and how it attracted thousands of people, resulting in thousands of dollars raised for the PAL Center.

Jill Eastman, Finance Director – April 2023 Finance Report

Motion was made by Councilor Staples and seconded by Councilor Morin to accept and place on file the April 2023 finance report.

Passage 7-0.

IX. Executive Session – Legal consultation, pursuant to 1 M.R.S.A. §405(6)(E).

Motion made by Councilor Walker seconded by Councilor Milks to enter Executive Session.

Passage 7-0.

Time in 8:20 pm.

Council was declared out of executive session at 9:20 pm.

X. Adjournment

Motion was made by Councilor Walker seconded by Councilor Staples to adjourn. Unanimously approved and the meeting adjourned at 9:20 pm.

City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023 **Order:** 59-05012023

Author: Jonathan P. LaBonte

Subject: Modification to Auburn-Lewiston Municipal Airport Interlocal Agreement

---

Information: The included order, as postponed on May 15th, amends the existing interlocal agreement with the City of Lewiston that established the Auburn-Lewiston Municipal Airport. The changes were specific to board composition and replaced the existing board with one comprised of two staff from each city and a representative from AVCOG.

An alternative order is also included. This alternative changes the Board of Directors appointment process from a mix of municipal staff, elected officials, members of the public, and several non-profit organizations to targeted municipal areas of expertise at the staff level, an elected official from each city, the excutive director of AVCOG (or their designee), an two ex-officio, non-voting users of the airport. Further amended language clarifies the number of directors that makes a quorum, as well as the process to remove a director.

City Budgetary Impacts: N/A

Staff Recommended Action: Consider passage.

Previous Meetings and History:

Auburn-Lewiston Municipal Airport Interlocal Agreement
Order as Postponed at May 15, 2023 City Council Meeting
Alternative Order for Consideration at June 5, 2023 City Council Meeting

ORDER 59-05012023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby adopts the following:

AMENDMENT TO INTERLOCAL AGREEMENT BETWEEN CITY OF AUBURN AND CITY OF LEWISTON

THIS AMENDMENT TO INTERLOCAL AGREEMENT is made as of this __5th__ day of June, 2023, to the INTERLOCAL AGREEMENT by and between the **CITY OF AUBURN**, a municipal corporation duly organized under the laws of the State of Maine with a principal location at 60 Court Street in Auburn, Maine (hereinafter "Auburn"), and the **CITY OF LEWISTON**, a municipal corporation duly organized under the laws of the State of Maine with a principal location at 27 Pine Street in Lewiston, Maine (hereinafter "Lewiston").

W I T N E S S E T H:

WHEREAS, Auburn and Lewiston (collectively, the "Parties") entered into an Interlocal Agreement dated on or about March of 1979 for interlocal cooperation on the operation, maintenance and improvement of the Auburn-Lewiston Municipal Airport (the "Initial Agreement"); and

WHEREAS, the Parties previously agreed to amend the Initial Agreement on or about January 1981 (the "1981 Amendment"); and

WHEREAS, the Parties previously agreed to amend the Initial Agreement on or about August 1984 (the "1984 Amendment"); and

WHEREAS, Auburn previously agreed to amend the Initial Agreement on or about August 1984 and Lewiston previously agreed to the same amendment to the Initial Agreement on or about November 1988 (the "1988 Amendment"); and

WHEREAS, the Parties previously agreed to amend the Initial Agreement on or about December 2007 (the "2007 Amendment"); and

WHEREAS, the Initial Agreement, as modified by the 1981 Amendment, the 1984 Amendment, the 1988 Amendment, and the 2007 Amendment, are collectively referred to herein as the "Agreement"; and

City Council Order

WHEREAS, the Parties desire to amend said Agreement;

NOW, THEREFORE, in consideration of the mutual conditions and covenants contained herein, the parties agree as follows:

A. ***Changes to Article III – Airport Board Organizational Structure/Board of Directors***. Section 1, "Membership," of the Agreement shall be amended as follows (additions are underlined; deletions are ~~struck out~~):

Section 1. Membership

The Board will consist of nine members. ~~The Finance Director of Lewiston and the City Manager of the City of Auburn or their designated representatives will be members of the Board by virtue of their respective offices.~~ The Auburn City Manager and the Lewiston City Administrator shall each appoint two staff (city employee) members from their respective cities based on their experience in transportation, public works, finance, or economic development. A fifth~~third~~ member of the Board shall be a Councilor of the City of Lewiston and shall be nominated by the Mayor and confirmed by the Lewiston City Council at ~~their first regular~~ a public meeting. A sixth~~fourth~~ member of the Board shall be a Councilor of the City of Auburn and shall be nominated by the Mayor and confirmed by the Auburn City Council at ~~their first regular~~ a public meeting. ~~A fifth member of the Board will be a resident of the City of Auburn and will be appointed by the Auburn City Council. The sixth member of the Board will be a resident of the City of Lewiston and will be appointed by the Lewiston City Council. The seventh member of the Board shall be nominated by the Chamber of Commerce and will be elected by the above six members. The seventh member shall be a resident of Auburn or Lewiston, but will not hold any public municipal office or be a member of any municipal board or committee. After the first election of the seventh member, that member thereafter will be a resident of the alternate city of the previous seventh member. If the eight are unable to agree upon the naming of a seventh member to the Board, any Justice of the Superior Court or Supreme Judicial Court will, on petition of any five members, select the seventh member of the Board.~~ The seventh~~eighth~~ member of the B~~b~~oard shall be the Executive Director~~an employee representative~~ of the Androscoggin Valley C~~c~~ouncil of G~~g~~overnments or their designee. ~~The ninth member would be a employee representative of the Lewiston Auburn Economic Growth Council. In the event the Lewiston Finance Director or the Auburn City Manager shall die, become incapacitated, resign or is discharged from said offices, their respective City Council shall appoint a member to the Board and such member shall serve only until the respective offices are filled.~~ The eighth and ninth members of the Board shall be two representatives, appointed by the seven members of the Board described above, who shall be users of the

City Council Order

Airport with aviation knowledge and experience and who shall serve in an *ex-officio*, non-voting capacity.

~~The third and fourth members of the Board shall only serve while a Councilor of the City of Lewiston and a Councilor of the City of Auburn, respectfully. In the event that either of said additional members and the fifth, sixth or seventh members shall cease to be residents of their respective Cities or should die, become incapacitated, resign from the Board or are discharged from membership, a successor shall be appointed in the same manner as indicated above to serve out the remainder of his term.~~

~~In the event the employee representative of the Androscoggin Valley Council of Governments or the Employee representative of the Lewiston Auburn Economic Growth Council shall die, become incapacitated, resign or is discharged from said offices, their respective agency director shall appoint a member to the Board and such member shall serve only until the respective offices are filled.~~

~~By a majority vote of five members, formal written notice may be given by the Board to the appointing authority of any member of the Board requesting the removal of said member. The decision of the appointing authority shall be binding.~~

Members of the Board will serve without compensation other than the compensation from the entity they represent but may be reimbursed for their actual expenses incurred in the performance of their duties upon approval of the Board.

A quorum of the Board shall consist of four voting members.

B. ***Changes to Article III – Airport Board Organizational Structure/Board of Directors***. Section 2, "Terms of Office (After Initial Appointments)," of the Agreement shall be amended as follows (additions are underlined; deletions are ~~struck out~~):

Section 2. Terms of Office (After Initial Appointments)

Lewiston staff members (2)~~Finance Director~~ - By virtue of their appointment~~the office~~.

Auburn staff members (2)~~City Manager~~ - By virtue of their appointment~~the office~~.

Lewiston Councilor - While a Councilor of the City of Lewiston.

Auburn Councilor - While a Councilor of the City of Auburn.

Seventh~~Fifth~~ Member (AVCOG Executive Director~~Auburn Resident~~) – By virtue of the position~~Three-year term~~.

City Council Order

~~Sixth Member (Lewiston Resident) - Three-year term.~~

~~Seventh Member (Alternating Resident) - Three-year term.~~

Eighth Member (Airport user~~AVCOG~~) – Three-year term.~~By virtue of position~~

Ninth Member (Airport user~~LAEGC~~) – Three-year term.~~By virtue of position~~

C. ***Changes to Article III – Airport Board Organizational Structure/Board of Directors***. A new Section 3, "Removal of Directors," shall be added to the Agreement as follows (additions are underlined):

Section 3. Removal of Directors

A Lewiston staff member may be removed for convenience by the City Administrator or if the staff member is no longer an employee of the City. A Lewiston staff member may be removed by the Board for cause, after notice and hearing. An Auburn staff member may be removed for convenience by the City Manager or if the staff member is no longer an employee of the City. An Auburn staff member may be removed by the Board for cause, after notice and hearing.

A Lewiston Councilor may be removed by the Lewiston City Council for cause, after notice and hearing. An Auburn Councilor may be removed by the Auburn City Council for cause, after notice and hearing.

The AVCOG Executive Director member may be removed by the Board for cause, after notice and hearing.

The Airport user members may be removed by the Board for cause, after notice and hearing, or upon a determination by the Board that the member is no longer a user of the Airport.

D. ***Amendment***. All provisions of the Agreement are incorporated into this Amendment and are hereby modified or amended to conform to this Amendment, but in all other respects are to be and shall continue in full force and effect.

IN WITNESS WHEREOF, the said **CITY OF AUBURN** has caused this Amendment to be signed and sealed Philip Crowell, Jr., its City Manager, thereunto duly authorized, and the **CITY OF LEWISTON** has

City Council Order

caused this Amendment to be signed and sealed by Heather Hunter, its City Administrator, thereunto duly authorized, the day and year first above written.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023 **Order:** 73-06052023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Authorizing the City Manager to Execute a Donation Agreement (P&S) for 7 Chestnut Street (Auburn Tax Parcel 250-335)

Information: In planning for the PAL Center project the City identified the need for additional parking. City staff approached the owner of 7 Chestnut Street who is willing to transfer the property at no cost to the City. In exchange the City will be required to do environmental clean up needed to be eligible for the States VRAP program.

City Budgetary Impacts: Working with the DEP and others we have identified funds to limit the impact to the cities budget.

Staff Recommended Action: Approve the Order as presented.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Draft Donation Agreement

DONATION AGREEMENT

THIS AGREEMENT is made and entered into this _____ day of _____, 2023, by and between **SULTAN CORP**., a Maine business corporation with a mailing address of P.O. Box 7065, Lewiston, Maine 04243, hereinafter called "Donor," and the **CITY OF AUBURN**, a Maine municipal corporation, with a mailing address of 60 Court Street, Auburn, Maine 04210, hereinafter called the "City".

W I T N E S S E T H:

WHEREAS, Donor is the owner of the land and buildings situated at 7 Chestnut Street, in Auburn, Maine, shown in the Assessor files of the City of Auburn as PID 250-335, and which property is more particularly described in a deed from Atlantic Holdings, LLC to Donor dated June 25, 2003 and recorded in the Androscoggin County Registry of Deeds in Book 5488, Page 202 (the "Property");

WHEREAS, a fully occupied multi-family residential apartment building is currently located on the Property, and in the past Beal's Linen operated dry cleaning facilities at the Property;

WHEREAS, the Maine Department of Environmental Protection ("DEP"), through its consultant, has conducted testing at the Property and found hazardous substances contaminating the soil, ground water, and air at the Property;

WHEREAS, the City desires to acquire and redevelop the Property into a parking lot to support its new Auburn Police Activities League (PAL) Center to be located adjacent to the Property;

WHEREAS, the Donor desires to donate the Property to City, and the City desires to accept the donation of the Property from the Donor.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, the Parties hereby agree as follows:

ARTICLE I
Donation of Property; Effective Date

Section 1.1. Subject to the terms and conditions of this Agreement, Donor agrees to donate to the City, and the City agrees to accept from Donor, the Property in accordance with the terms and conditions of this Agreement.

Section 1.2. The "Effective Date" of this Agreement is the date that the last of the parties has executed this Agreement, as indicated below such party's signature.

ARTICLE II
Due Diligence; Title and Survey; Environmental Audit

Section 2.1. Due Diligence

(a) For the period commencing on the Effective Date and expiring on the Closing Date (the "Due Diligence Period"), the City shall have the right to determine, in the City's sole and absolute discretion, whether the City's proposed acquisition and intended use of the Property is economically and otherwise feasible. During such time, the City shall also be entitled to: (i) examine title to and the survey of the Property (to include wetlands delineation and vernal pool identification if the City elects), (ii) conduct

such other visual inspections of the Property as the City shall deem reasonably necessary in its sole discretion, including without limitation, a Phase I Environmental Site Assessment ("Phase I") and a Limited Phase II Environmental Site Assessment ("Phase II") required for materials testing to be completed by the Maine Department of Environmental Protection, and (iii) physically inspect and review the Property, which investigation shall be of such scope as the City shall determine (hereinafter collectively referred to as the "Due Diligence Investigation").

(b) Donor shall in good faith reasonably cooperate with the City, at the City's sole cost and expense, in facilitating the City's Due Diligence Investigation. Donor shall provide the City and its agents, employees or consultants with reasonable access to the Property to inspect each and every part thereof, and allow the City and its agents, employees or consultants to contact all parties which currently contract with Donor with respect to the Property.

(c) If the City determines, in its sole discretion, that the Property is unsuitable for its purposes or that the City's proposed acquisition and operation of the Property is not economical or otherwise feasible as a result of the City's Due Diligence Investigation, then the City shall have the right to terminate this Agreement by delivery of written notice to Donor (a "Termination Notice") at Donor's address set forth herein prior to the expiration of the Due Diligence Period. Upon the City's timely delivery of a Termination Notice to Donor as provided above, this Agreement shall immediately terminate and be rendered null and void, and neither party shall have any further obligations or liabilities in connection with this Agreement.

Section 2.2. Survey

The City may obtain a survey (the "Survey") of the Property to be prepared by a surveyor registered and licensed in the State in such detail as the City shall determine.

Section 2.3. Title to the Property

(a) At Closing, Donor shall deliver to the City the Deed (as defined in Section 5.1), conveying to the City good and clear record and marketable fee simple title to the Property, subject only to those matters specifically enumerated as title exceptions in the title insurance commitment obtained by the City that are not objected to by the City (by notice to Donor pursuant to Section 2.3(c)) prior to the end of the Due Diligence Period (collectively the "Permitted Exceptions"); provided, however, in no event shall Monetary Liens (as defined in Section 2.3(b)) be considered Permitted Exceptions. The Title Policy (as defined in Section 3.1) to be issued at Closing in connection with conveyance of the Property shall (i) not take exception for parties in possession other than the City; (ii) not take exception for any taxes or liens other than future taxes which are not yet due and payable as of the Closing Date, (iii) not take exception for any closing "gap", and (iv) shall contain such other special endorsements as the City or its lender, if any, may reasonably require. Donor shall deliver such customary affidavits, indemnities and other documentation as may be reasonably necessary to ensure that the Title Company can issue title insurance policies providing the coverages described in (i) through (iv) in the previous sentence.

(b) The Property shall be conveyed by Donor to the City free and clear of all liens, encumbrances, claims, rights of way, easements, leases, restrictions, restrictive covenants and other matters affecting title except for the Permitted Exceptions.

(c) If, in the opinion of the City, the City's title commitment or the Survey reveals anything that materially adversely affects the Property, or if Donor's title to the Property fails to meet the foregoing requirements, or contains defects or exceptions not approved by the City, in the City's sole

discretion, then the City may, by giving written notice to Donor prior to the expiration of the Due Diligence Period, either terminate this Agreement or specify the title or survey defect(s) ("Objections"). If the City specifies any such Objections, Donor agrees to deliver written notice to the City within ten (10) business days of Donor's receipt thereof, of: (i) Donor's intent and agreement to undertake commercially reasonable efforts to cure, prior to Closing, all of the Objections at Donor's sole cost and expense (and such agreement automatically shall become a condition of Closing); or (ii) Donor's election not to undertake commercially reasonable efforts to cure any or all of the Objections ("Donor's Response Notice"). In the event Donor does not deliver Donor's Response Notice to the City within such ten (10) business day period, Donor shall be deemed to have elected option (ii) above with respect to all Objections. If Donor does timely deliver Donor's Response Notice in which Donor does not agree to undertake efforts to cure any or all of the Objections prior to Closing, then the City shall have the option (exercised within five (5) business days after the City's receipt of Donor's Response Notice): (i) of taking title to the Property "as is" and proceeding to the Closing of the Property, (ii) of extending the Closing for a reasonable period of time to enable Donor to cure such deficiency if Donor is attempting to cure same, or (iii) of terminating this Agreement at any time on or prior to the last date for Closing specified in this Agreement, by written notice thereof to Donor.

ARTICLE III
Conditions Precedent to City's Obligation to Close

Section 3.1. The City's obligation to perform under this Agreement is subject to and contingent upon the satisfaction of each and every one of the following conditions. In the event that any of the below conditions is not satisfied at or prior to the date of Closing, the City may terminate this Agreement by delivery of written notice to Donor at Donor's address set forth herein prior to the date of the Closing. Upon the City's timely delivery of such notice to Donor as provided above, this Agreement shall immediately terminate and be rendered null and void, and neither party shall have any further obligations or liabilities in connection with this Agreement. Unless specifically stated otherwise, conditions to obligations hereunder are for the benefit of the City and may be waived in writing by the City.

(a) The Title Company shall deliver to the City at Closing (or be irrevocably committed to issue at Closing) an ALTA Owner's Policy of Title Insurance (the "Title Policy"), with extended coverage (i.e., with the standard pre-printed exceptions deleted), issued by the Title Company as of the date and time of the recording of the Deed, insuring the City as owner of good, clear record and marketable fee simple title to the Property, and subject only to the Permitted Exceptions.

(b) The truth and accuracy in all material respects, as of the Closing, of the representations and warranties of Donor contained in this Agreement, and Donor's fulfillment of its other obligations hereunder within the time periods set forth herein.

(c) The Property shall be in substantially the same condition as on the date of this Agreement, reasonable use and wear excepted.

(d) The City shall have determined, in its sole and absolute discretion, that the results of its Due Diligence Investigations are satisfactory to the City for its intended use of the Property.

(e) The City shall have determined, in its sole and absolute discretion, that the results of its title examination on the Property is satisfactory and that any and all liens of an ascertainable monetary amount on the Property, including, without limitation, mortgages, deeds of trust and other instruments securing financings, mechanic's liens, judgment liens and liens for delinquent taxes, shall be fully paid, satisfied, and discharged at Closing to the satisfaction of the City, in its sole and absolute discretion.

(f) On the Closing Date, title to the Property shall be conveyed to the City subject only to the Permitted Exceptions as set forth in this Agreement.

(g) Donor shall deliver full possession of the Property at Closing, free and clear of all tenants and occupants, and Donor shall have relocated all tenants no later than one (1) year from the date of this Agreement.

ARTICLE IV

Conditions Precedent to Donor's Obligation to Close

Section 4.1. The Donor's obligation to perform under this Agreement is subject to and contingent upon the satisfaction of each and every one of the following conditions. In the event that any of the below conditions is not satisfied at or prior to the date of Closing, the Donor may terminate this Agreement. Unless specifically stated otherwise, conditions to obligations hereunder are for the benefit of the Donor and may be waived in writing by the Donor.

If the donor determines, in its sole discretion, that it is unable to obtain a sufficient and full release from either (i) the DEP, or (ii) from Camden National Bank; then the Donor shall have the right to terminate this Agreement by delivery of written notice to City (a "Termination Notice") at City's address set forth herein prior to the date of the Closing. Upon the Donor's timely delivery of a Termination Notice to City as provided above, this Agreement shall immediately terminate and be rendered null and void, and neither party shall have any further obligations or liabilities in connection with this Agreement.

ARTICLE V
Donor Representations

Section 5.1.

(a) Donor represents to the City, to the best of Donor's actual knowledge, as of the Effective Date and at the Closing Date, the following:

(i) (a) Donor is a duly organized and validly existing business corporation in the State of its organization or incorporation, (b) Donor has full power and authority to execute and deliver this Agreement and the documents contemplated hereby and to perform the transaction contemplated hereby, and (c) Donor's performance of this Agreement and the transaction contemplated hereby have been duly authorized by all requisite action on the part of Donor and the individuals executing this Agreement and the documents contemplated hereby on behalf of Donor have full power and authority to legally bind Donor.

(ii) This Agreement has been duly and properly executed on behalf of Donor, and neither the execution and delivery of this Agreement nor the performance of the transactions contemplated hereby will result in a default (or an event that, with notice or the passage of time or both, would constitute a default) under, a violation or breach of, a conflict with, a right of termination of, or an acceleration of indebtedness under or performance required by, any note, indenture, license, lease, franchise, mortgage, deed of trust or other instrument or agreement to which Donor is a party or by which Donor or Donor's property, including, without limitation, any of the Property, is bound.

ARTICLE VI

Closing Obligations; Closing

Section 6.1.

(a) On the Closing Date, Donor shall deliver to the City the following documents, in form and substance reasonably satisfactory to Donor and the City, duly executed and, if applicable, acknowledged by Donor:

(i) a statutory Quitclaim Deed Without Covenant (the "Deed"), in a form mutually agreed to by the City and Donor, in proper statutory form for recording, conveying title to the Property to the City subject only to the Permitted Exceptions;

(ii) a non-foreign person affidavit stating that Donor is not a "foreign person" under the Foreign Investment in Real Property Tax Act of 1980, and that upon the consummation of the transaction contemplated hereby, the City will not be required to withhold from the purchase price any withholding tax;

(iii) the Real Estate Transfer Tax Declaration;

(iv) a notice regarding underground storage tanks pursuant to 38 M.R.S.A. § 563(6);

(v) a closing statement;

(vi) such other customary documents or instruments reasonably required to carry out the intent of this Agreement, including an owner's affidavit in a form sufficient to omit the parties in possession exception and the mechanic's lien exception from owner's and lender's policies.

(b) On the Closing Date, the City shall deliver to Donor the following documents, in form and substance reasonably satisfactory to Donor and the City, duly executed and, if applicable, acknowledged by the City:

(i) the Real Estate Transfer Tax Declaration;

(ii) the applicable REW forms required by the Maine Bureau of Taxation;

(iii) a closing statement;

(iv) such other customary documents or instruments reasonably required to carry out the intent of this Agreement.

Section 6.2. The closing (the "Closing") shall take place at the offices of Donor's attorney, or at such other place as the parties may agree upon, thirty (30) days after the Donor has relocated the last tenant at the Property, or such other date as may be mutually agreed to by the City and Donor. The day on which the Closing occurs is hereinafter referred to as the "Closing Date."

Section 6.3.

(a) All apportionments and adjustments shall be made as of 11:59 PM on the day immediately preceding the Closing Date.

(b) The following apportionments and adjustments shall be made:

(i) Real estate taxes, assessments and other governmental charges based on the fiscal year assessed, shall be prorated as of the date of Closing. If such real estate taxes, betterments assessments and other governmental charges have not been determined as of the Closing Date, such amounts shall be apportioned on the basis of the real estate taxes, betterments assessments and charges for the preceding fiscal year, with a reapportionment as soon as the new real estate taxes, bettterment's assessments and charges can be ascertained. The provisions of this clause (i) shall survive the closing.

(ii) Personal property taxes on the personal property owned by Donor, if any, including in the Property based on the fiscal year assessed shall be prorated as of the day of Closing.

(c) The real estate transfer tax imposed pursuant to said 36 M.R.S.A. § 4641-A shall be paid by Donor. The City is exempt from the real estate transfer tax imposed pursuant to said 36 M.R.S.A. § 4641-A.

(d) The City shall pay the premium for the owner and any loan title policies, and the cost for recording the Deed.

(e) Each party shall pay its own attorneys' fees.

(f) Heating Fuel in any tank on the Property at the time of Closing shall become the property of the City. If Closing occurs after September 1, 2023 and before March 1, 2024 the Donor shall drain all utilities to prevent freezing and secure the building in accordance with all State and local laws, regulations and ordinances to prevent access to the building.

ARTICLE VII
Default

Section 7.1. If the City shall default in performing its obligations hereunder prior to or at the Closing Date, and Donor shall have performed or tendered performance of its obligations hereunder, then Donor shall have the right, as its exclusive remedy, to either (i) terminate this Agreement by notice of termination to Donor, in which event the parties shall be relieved of any further liability or obligation hereunder, except with respect to those obligations that are expressly stated herein to survive the termination of this Agreement, or (ii) seek specific performance of this Agreement.

Section 7.2. If Donor shall default in performing its obligations hereunder prior to or at the Closing Date, and the City shall have performed or tendered performance of its obligations hereunder, then the City's sole remedy shall be to either (i) terminate this Agreement by notice of termination to Donor, in which event the parties shall be relieved of any further liability or obligation hereunder, except with respect to those obligations that are expressly stated herein to survive the termination of this Agreement, or (ii) seek specific performance of this Agreement.

ARTICLE VIII
Possession and Condition of Property

Section 8.1. Full possession of the Property, free and clear of all tenants and occupants is to be delivered at the time for delivery of the Deed, the Property to be then in reasonably clean condition, and otherwise in the same condition as they now are in, reasonable use and wear thereof excepted. The City shall be entitled personally to inspect the Property within 24 hours prior to the Closing Date in order to determine whether the condition thereof complies with the terms of this Section.

ARTICLE IX
Risk of Loss; Condemnation

Section 9.1. In the event that the building upon the Property is damaged by fire or other casualty or any portion of the Property is taken by condemnation prior to the Closing, the City may terminate this Agreement. If the City determines not to terminate this Agreement, the City may proceed to the Closing, in which event Donor will, at the Closing, deliver to the City all insurance benefits and condemnation awards stemming from such loss or condemnation received by Donor and will assign to the City Donor's rights to receive all of same, whichever is pertinent, and, to that end, Donor will cooperate with the City in the preparation of all statements of loss, provisions of loss, and such other documents as may be required by the pertinent insuring companies or condemning authority. In the event that the City, in the City's judgment, deems litigation to be necessary in pursuing the City's claim, Donor will further cooperate with the City, but all litigation shall be conducted at the City's expense. Donor will keep the Property insured against fire and extended risk in a sum not less than the purchase price through the Closing.

ARTICLE X
Miscellaneous

Section 10.1. Each notice or other communication required or permitted hereby shall be in writing and shall be (a) personally delivered, (b) sent by a reputable overnight delivery service, (c) sent by United States certified mail, return receipt requested, postage prepaid, addressed as set forth herein, or (d) sent by electronic mail.

(i) If to Donor:

Debra Sullivan, President
Sultan Corp.
PO Box 7065
Lewiston, Maine 04243-7065

With a copy to:
Daniel A. D'Auteuil, Jr.
Skelton, Taintor & Abbott
500 Canal Street
Lewiston, Maine 04240
ddauteuil@sta-law.com

(ii) If to the City:

City Manager
City of Auburn
60 Court Street
Auburn, ME 04210

With a copy to:

Jeffrey B. Herbert, Esq.
JENSEN BAIRD
Ten Free Street
P.O. Box 4510
Portland, Maine 04112-4510
Email: jherbert@jensenbaird.com

Any notice or other communication given pursuant to the provisions of this Section 9.1 shall be deemed effective upon receipt by the addressee or upon the date receipt is refused. Either party may, by notice given as aforesaid, designate other addresses to which or addressees to whom notices shall be given.

Section 10.2. The submission of this Agreement or a summary of some or all of its provisions does not constitute an offer to donate or accept the Property, it being understood and agreed that neither Donor nor the City shall be legally obligated with respect to a conveyance of the Property unless and until this Agreement has been executed by both Donor and the City and a fully executed original or electronic copy has been delivered to both pursuant to the provisions of Section 9.1. Electronic signatures shall be effective for all purposes in connection with interpretation and enforcement of this Agreement. Amendments to this Agreement may be effectuated by counsel for the parties, respectively.

Section 10.3. The delivery of the Deed by Donor, and the acceptance thereof by the City, shall be deemed the full performance and discharge of every obligation on the part of Donor to be performed hereunder, except those obligations of Donor which are expressly stated in this Agreement to survive the Closing.

Section 10.4. The City may assign its interest under this Agreement without the prior written consent of Donor. In the event of any such assignment, Donor agrees to close the transaction contemplated by this Agreement with the approved assignee of the City.

Section 10.5. Except as otherwise expressly stated in this Agreement, the Property is being conveyed by Donor and accepted by the City in "as is" condition and without warranty or representation of any kind, express or implied. No warranties, guaranties or representations of any kind are made by Donor or Donor's agent with respect to the acreage, location and/or boundaries of the Property or improvements thereon, access to the Property, environmental compliance, or its compliance with any applicable zoning or land use regulations, law, or ordinances.

Section 10.6. This Agreement embodies and constitutes the entire understanding between the parties with regard to the transaction contemplated herein, and all prior agreements, understandings, representations and statements, oral or written, are merged into this Agreement. Neither this Agreement nor any provision hereof may be waived, modified, amended or terminated except by an instrument in writing signed by the party against whom the enforcement of such waiver, modification, amendment or termination is sought.

Section 10.7. If any provision of this Agreement is determined to be invalid or unenforceable, it shall not affect the validity and enforcement of the remaining provisions hereof.

Section 10.8. Any time period provided for in this Agreement that ends on a Saturday, Sunday or legal holiday shall extend to 5:00 p.m. (EST) on the next business day. In determining the expiration date of any time period measured from the Effective Date, the Effective Date shall not be included in that time period.

Section 10.9. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original instrument, but all of which together shall constitute one and the same instrument. To facilitate execution of this Agreement, the parties may execute and exchange by telephone facsimile or email counterparts of the signature pages.

Section 10.10. This Agreement shall be binding upon and shall inure to the benefit of Donor and the City, and their respective successors and permitted assigns.

Section 10.11. Time shall be of the essence with respect to each and every obligation under this Agreement.

Section 10.12. Each party represents to the other that no real estate broker has been retained by the parties. Each party will defend and hold the other harmless from claims arising contrary to the party's said representations.

Section 10.13. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Maine.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed on the date(s) set forth below.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 5, 2023

Subject: Executive Session

Information: Personnel matter (City Manager's evaluation), pursuant to 1 M.R.S.A. Section 405(6) (A).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 20, 2023

Author: Phil Crowell, City Manager

Subject: Lake Grove Park

Information: On December 6, 2021, the City Council allocated $150,000. of American Rescue Plan Act (ARPA) funds for upgrades at Lake Grove Park that might include new restrooms, wheelchair access, a boat dock, a fountain system, and improvements to the basketball court and parking areas. Having the opportunity to resume swimming at the beach was a high priority.

Based on City Council vision for this area, a conceptual Lake Grove Master Plan has been developed.

Completed and in-progress upgrades at Lake Grove Park include: New playground equipment funded through CIP funds; 3 new pedal boats and life jackets funded through a National Parks & Recreation Association grant; and a new dock system funded through ARPA funds. The Auburn School Department has donated canoes to be utilized at the park. Additionally, CIP funds are being used to upgrade the tennis and pickle ball courts at East Auburn Community School.

The new playground equipment has been a big attraction for not only City of Auburn residents but also for neighboring communities. We are reviewing plans to add 18 parking spaces to accommodate the increase in use.

The Lake Grove Master Plan, which could include a splash pad and other amenities, will create a true "destination" for the East Auburn area.

City Budgetary Impacts: None

Staff Recommended Action: Review Lake Grove Park Master Plan and make recommendations for future funding.

Previous Meetings and History: December 6, 2021

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 20, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. **Consent Items** – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 71-06052023***
Appointing Wardens and Ward Clerks for the June 13, 2023 Election.

2. **Order 72-06052023***
Confirming Mayor Levesque's appointment of Councilor Rick Whiting to the Airport Board.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage of the two consent items.

Passage 7-0.

II. Minutes

May 15, 2023 Special Joint Meeting (Lewiston and Auburn City Councils)

Motion was made by Councilor Walker and seconded by Councilor Morin to approve the minutes of the May 15, 2023 Special Joint Meeting (Lewiston and Auburn City Councils).

Passage 7-0.

May 15, 2023, Regular Council Meeting

Motion was made by Councilor Milks and seconded by Councilor Walker to approve the minutes of the May 15, 2023 Regular Council Meeting.

Passage 7-0.

I. **Communications, Presentations and Recognitions**

Council Communications (about and to the community)

Councilor Staples commented on the elimination of the recycling program and has recommended to everyone that has reached out to him to reach out to the Sustainability and Natural Resource Management Board who will be meeting to discuss this topic.

Councilor Milks added to Councilor Staples' recycling conversation, stating that when people are asking why the program was eliminated, it is primarily because it wasn't really "recycling" and it was not achieving the goal of the program and was being landfilled and not cost effective.

City Manager Crowell reported that Cassella has invited elected officials to visit their facility to look at their single stream operation.

Mayor Levesque reported on the Victory Garden program, the LA Chamber of Commerce Awards event that will be held at the Poland Spring Inn on; June 15 at 3pm; the work being done at the Garfield Road ballfields by the National Guard; the ELHS graduation that was held on Saturday night; and the Adult Ed graduation is coming up on June 8th at the ELHS gym.

II. Open Session – No one from the public spoke.

III. Unfinished Business

1. Order 59-05012023
Modifying the Auburn-Lewiston Airport Interlocal Agreement.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – Mark Blais, Airport Board member, does not feel it is a conflict of interest for a pilot to serve on the board, adding that it is a bad message to send to the pilots.

Motion was made by Councilor Gerry and seconded by Councilor Walker to amend to include a Councilor from the City of Lewiston, a councilor from the City of Auburn and two ex officio members appointed by the board.

Passage 7-0.

Passage of Order 59-05012023 as amended 7-0.

IV. New Business

1. Order 73-06052023
Authorizing the City Manager to execute a donation agreement with Sultan Corporation for the donation of 7 Chestnut Street (Auburn Tax Parcel 250-335).

Motion was made by Councilor Milks and seconded by Councilor Gerry for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. Order 74-06052023

Authorizing the City Manager to execute the sale of 188 Chicoine Avenue through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – Andy Titus, 24 Rubelite Lane, noted that his concern is regarding the realtor that already has signs posted, adding that he feels it is an unfair advantage.

Scott Berry, 179 Davis Avenue, stated that he had a client that wanted to look at one of the properties but was unable to get in because of unsafe conditions.

Passage 7-0.

3. **Order 75-06052023**
Authorizing the City Manager to execute the sale of Garfield Road (parcel ID 216-062) through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment - No one from the public spoke.

Passage 7-0.

4. **Order 76-06052023**
Authorizing the City Manager to execute the sale of 126 Goff Street through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Whiting and seconded by Councilor Walker for passage.

Public comment - No one from the public spoke.

Passage 7-0.

5. **Order 77-06052023**
Authorizing the City Manager to execute the sale of 140 Northern Avenue through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public comment - No one from the public spoke.

Passage 7-0.

6. **Order 78-06052023**
Authorizing the City Manager to execute the sale of Smith Street (parcel ID 198-063) through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Milks and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

7. **Order 79-06052023**
Authorizing the City Manager to execute the sale of South Witham Road (parcel ID 161-009) through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

8. **Order 80-06052023**
Authorizing the City Manager to execute the sale of Union Street (parcel ID 240-169) through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

9. **Order 81-06052023**
Authorizing the City Manager to execute the sale of 18 Western Prom through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Milks and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

10. **Order 82-06052023**
Authorizing the City Manager to execute the sale of 59 Willard Road through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

11. **Order 83-06052023**

Authorizing the City Manager to execute the sale of 192 Winter Street through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0.

12. Order 84-06052023
Authorizing the City Manager to execute the sale of 86 Western Avenue through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Whiting and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

13. Ordinance 05-06052023
Amending Appendix A – Fees and Charges (Streets, Sidewalks, and other Public Places). First reading.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

V. Open Session –

Zachary Vickers, 185 Sixth Street, regarding the elimination of the recycling program adding that he feels this is a large step backwards and not the best decision.

Scott Berry, 179 Western Avenue provided handouts to the Council. He said he filed a complaint with HUD against the City's 30% rule in our ordinance stating he feels that it is discriminatory. He also requested that Council carefully deliberate on the capital improvement ordinance and proposed including fees as part of the ordinance.

Katherine Manson, Goff Street commented on the elimination of the recycling program and how it will impact our children and grandchildren.

VI. Reports (from sub-committees to Council)

Mayor Levesque commented on recycling, and the dual enrollment pilot program between ELHS and Central Maine Community College.

Councilor Staples reminded everyone about the upcoming election scheduled for next Tuesday, June 13th and encouraged members of the public to vote.

Mayor Levesque spoke on the remediation bond referendum.

IX. Executive Session – Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Motion was made by Councilor Hawes and seconded by Councilor Moring to enter into executive session to discuss an economic development matter, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Passage 7-0.

Time 7:48 pm.

Council was declared out of executive session at 8:10 pm.

Executive Session – Personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. §405(6)(A).

Motion was made by Councilor Milks and seconded by Councilor Walker to enter into executive session to discuss a personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. §405(6)(A).

Passage 7-0.

Time 8:10 pm.

Council was declared out of executive session at 8:15 pm.

X. Adjournment

Motion was made by Councilor Milks seconded by Councilor Gerry to adjourn. Unanimously approved and the meeting adjourned at 8:15 pm.

WORLD REFUGEE DAY PROCLAMATION

WHEREAS, The World Refugee Day was launched by the United Nation to honor the bravery, strength and determination of refugees fleeing war and persecution; and

WHEREAS, refugees in communities across the welcoming state of Maine resettle in the hope of finding peace and safety for themselves and their families; and

WHEREAS, refugee communities from diverse backgrounds, with a variety of skills, abilities and experiences, have been and continue to be woven in the fabric of Maine's vibrant cultural tapestry throughout our states 200 year history; and

WHEREAS, refugee-led organizations in Maine share in the priority of our state to strengthen communities by engaging with and improving the lives of all Mainers; and

WHEREAS, all of Maine's communities are hoping to stay strong together as we recover from a time of uncertainty, reminiscent of experiences in the diaspora.

NOW, THEREFORE, I, Jason Levesque, Mayor of Auburn, do hereby proclaim June 20, 2023 to be World Refugee Day in Maine and recognize the positive impact and enduring contributions of refugee communities seeking refuge within Maine's borders.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 20th day of June 2023.

Council Workshop or Meeting Date: June 20, 2023 **Order:** 88-06202023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: The Third Space Incentive Program (TSIP)

Information:
The City of Auburn is seeking funds from the American Rescue Plan Act (ARPA) funds to promote revitalization of properties in the Downtown District by providing financial assistance to qualified businesses and non-profits to create new public spaces for residents and greater community members to gather. This forgivable loan program is designed to provide incentive funding for new operations or expansion of existing services, thus improving the quality of the neighborhood, improve the sense of place and marketability of the overall area.

City Budgetary Impacts:
The Office of Business & Community Development is seeking $102,000 in ARPA funds to administer this program.

Staff Recommended Action:
Vote to authorize the use of $102,000 in ARPA funds for the Third Space Incentive Program.

Previous Meetings and History:
4/18/2023 Councilor Staples presented an overview for staff to work from.
6/5/2023 Council workshop where the initial program design was presented.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

The Third Space Incentive Program

Purpose

The purpose of the Third Space Incentive program (TSIP) is to incentivize the creation of new, privately owned locations or privately organized regular events utilizing public space, which are distinct from work and home, where residents can gather. These spaces can have various forms and business models but are characterized by open spaces which promote community gathering, developing new relationships, and hosting community building activities and programming. These spaces have the intention of creating genuine and lasting relationships between community members by providing equalizing and accessible location to socialize. This initiative aligns with goals established within the city's Comprehensive Plan which aims to "attract and retain a wide range of small and medium size businesses in the Auburn and New Auburn Downtowns that promote and enhance a vibrant urban " (Objective I.1) and which "Maintain Auburn's role as a regional economic center with a diverse economic base and support continued strong economic growth that provides diverse opportunities for appropriate business growth and opportunities" (Goal I.2).

Funding

The City of Auburn may allocate $100,000 from the City ARPA funds for this program to provide funds to qualified applicants. Maximum assistance is $50,000 per operation for approved expenses. Fund requests will provide a detailed budget and explain how this funding will provide a net increase in social interaction and community building. Funds will be made available as a deferred-payment, 12-month loan. If all conditions are met, the funds will be converted to a grant.

Eligibility

New, start-up Auburn based non-profit or business which will be located within the Downtown, New Auburn or Union St census tracts. These include qualified for-profit or non-profit C-corps, S-corps, partnerships, or sole proprietors. The funds may be used to acquire or upgrade facilities, equipment, purchase supplies, or expand labor as necessary to open a new publicly accessible congregate space including but not limited to restaurants, cafes, activity centers, recreation space etc. which are open to the general public.

DRAFT

Post closing conditions will be reviewed 12 months after closing. If all conditions are met the loan will be converted to a grant. Conditions include copy of 2023 tax returns and evidence of on-going operation.

In order to be eligible to receive funds, all property taxes, real and personal, owed on the property that is the subject of the application must be current at the time the application is made. Any property on which there is past due balance for such taxes will be removed from consideration.

Sources and Uses	Unit Price	Quantity	Budget
City ARPA Funds =			**$102,000**
Total Uses=			**$102,000**
Program Administration (1 year)			$2,000
Forgivable loans	$50,000	*Approx. 2*	$100,000

Application

Applicants will apply through the city Community Development Application portal and will provide all necessary documentation. https://portal.neighborlysoftware.com/auburnme/participant
Select "Community Development Grant". Select "Service Provider Grant" under section A4 and Name the Project "Third Space Incentive Program" under section B1. Applications will be collected until July 1st, at which time only completed application packages will be reviewed. Failure to provide all needed information will result in applications being denied. The city of Auburn reserves the right to reject any application. Qualified applications will be accepted during the application period, at the end of which all completed submissions will be evaluated against a pre-established review matrix. The top scoring applications will be funded until all funds are completed, or there are no more qualified applicants.

The City of Auburn is committed to accessibility for all applicants. For questions or accommodations completing applications contact the Community Development Office at (207) 333-6601 ex.1332 or emailing CDBG@auburnmaine.gov. Arrangements will be made for non-English-speaking persons and persons with special needs for mobility, hearing and visual impairments, homebound or those needing assistance with technology and/or access.

Applications must include the following:

- Detailed description of the market population and current mix of offerings
- Detailed plan to expand or create new space or offerings
- Approach to improve quality of service & education/marketing of new offerings

- Detailed traffic or sales projections
- Job descriptions of any new staff to be hired with grant funds
- Existing infrastructure and matching funds leveraged to meet stated goals
- Summary of data tracking and financial systems used to manage funds
- A detailed budget including all requested and matching funds with supporting documentation
- Narrative describing how the expansion meets the objectives within the city comprehensive plan.

Management and Oversight

- *Written Agreement*: The city will enter into a written agreement with the selected businesses describing the amounts and uses of funds.
- A commitment letter and promissory Note will be executed in the amount awarded. In the event the business does not meet the conditions detailed within the agreement the funds will be repaid to the city.

ORDER 88-06202023

City Council Order

IN CITY COUNCIL

ORDERED, that that City Council hereby authorizes the use of $102,000 in ARPA funds for the Third Space Incentive Program, which will comply with established program guidelines and meet all ARPA rules, regulations, and guidance.

Subject: Tax Increment Financing District #28 Agren Warehouse

---

Information: Create a new TIF District to capture 100% of the increased value from the new warehouse to be constructed by Agren Appliance. The captured tax dollars can fund projects such as improving adjacent roadways and supporting Public Safety and Economic Development. The Development plan also seeks to provide a Credit Enhancement Agreement returning a portion of taxes paid to the developer to make the project viable in Auburn instead of seeing the developer locate in another location that has shown to be significantly more cost effective for the developer.

City Budgetary Impacts: None

Staff Recommended Action: Approve the order as presented.

The Draft TIF #28 Development Plan

Department of Economic and Community Development
Municipal Tax Increment Financing
Application

The legislature finds a need for new development in areas of municipalities and plantations to: (A) Provide new employment opportunities; (B) Improve and broaden the tax base; and (C) Improve the general economy of the State. The municipal tax increment financing (TIF) program, established under 30-A M.R.S.A. Chapter 206 §5221-5235, is designed to assist municipalities and plantations to develop a program for improving a district of the municipality or plantation: (A) To provide impetus for industrial, commercial, transit-oriented or arts district development, or any combination; (B) To increase employment opportunities; and (C) To provide the facilities outlined in the development program adopted by the legislative body of the municipality or plantation. The TIF Statute provides that before final designation of a tax increment financing district, the Department of Economic and Community Development (DECD) commissioner shall review the proposed district and development program to ensure compliance with statutory requirements.

Before designating a development district within the boundaries of a municipality or plantation, or adopting a development program for a designated development district, the municipal or plantation legislative body or the municipal or plantation legislative body's designee must:

a) Hold at least one public hearing,
b) Publish notice of the hearing at least 10 days before the date of the hearing in a newspaper of general circulation within the municipality or plantation,
c) At the hearing, the legislative body of a municipality or plantation must consider:
    i. Whether the proposed district or development program will contribute to the economic growth or well-being of the municipality or plantation or to the betterment of the health, welfare or safety of the municipal or plantation inhabitants,
    ii. Any claim by an interested party that the proposed district or development program will result in a substantial detriment to that party's existing business in the municipality or plantation and produces substantial evident to that effect.

Mail completed application, with tabs separating exhibits, to:

Section 2 - Purpose/Basis Original/Amended Application

1. **Provide a brief, "headline" sentence explaining purpose/basis of this application.**
   The Agren Appliance Warehouse Tax Increment Financing District and Development Program #28 (the "Agren Appliance Warehouse District") will enable the construction of a 51,000 square foot warehouse located next to the company's corporate headquarters on Adamian Drive in the City of Auburn.
2. **If needed, provide additional information related to the purpose/basis of this application. If this is an amendment, provide a brief, concise overview of the purpose of the original application and each amendment submitted to date.**
   Agren Appliance (the "Company") is a privately held company founded in Auburn, Maine in 1969. The Company has grown into Maine's largest appliance and mattress retailer with six locations and over 130 employees, in addition to its corporate headquarters located in Auburn. Of the Company's 130 employees, approximately 106 are employed in the retail store and corporate headquarters located in Aubrn. The Company currently leases a 40,000 square foot warehouse and is outgrowing that space. The lease for this warehouse ends in June 2024 and the Company has evaluated the options to relocate and expand its warehouse, including the purchase of an existing warehouse in Portland. Due to various efficiency, oversight and labor considreations, the Company has decided to construct a new 51,000 square foot warehouse adjacent to its corporate headquarters on Adamian Drive in Auburn. However, the cost of constructing and operating this warehouse in Auburn will be substantial and far exceeds the cost of purchasing an existing comparable property in Portland. The Company has requested a credit enhancement agreement from the City of Auburn to assist with the development of the warehouse to keep the business and employment opportunities within the City. A tax increment financing development district involves creation of a geographically defined district in the City and the "capture" or reinvestment of some of the new increased or "incremental" tax revenues generated by new development and business expansion in the District to pay certain costs of development and certain costs of new public facilities, improvements and programs. The purpose of the Agren Appliance Warehouse District is to utilize a portion of the incremental tax revenues generated by the construction of the new Agren Appliance warehouse as an investment in the commercial development of the property in the District for this purpose. The City desires to retain and support the Company's commercial activity within the City and to increase its commercial tax base and further that goal through the designation of the Agren Appliance Warehouse District. In addition, the District will create more net tax revenue to be retained by the City to fund the public facilities, improvements and programs described herein than would result if such development were to occur without the creation of the District. This favorable situation is the result of the State formulas which, when a Development District is created, shelter the Increased Assessed Value of the District from the increased county taxes and loss of State aid to education and municipal revenue sharing that results when new development occurs without the creation of a Development District. The program described herein will serve the purpose of administering the District as a Municipal Development District and Tax Increment Financing District pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended (the "Development Program"). The means and objectives of the Development Program are to provide financing for the public facilities, improvements and programs authorized herein. The City, by adopting this Development Program, finds that the Development Program described herein, consisiting of the Public Facilities, Improvements and Programs, will provide significant economic benefit to the City and the State by retaining and providing new employment opportunities and new public infrastructure that will facilitate commercial development, which will significantly improve and broaden the City's tax base and the general economy of the City and the State. Upon approval by the City Council designating the District and

adopting this Development Program, the designation of the District and adoption of the Development Program will become final immediately, subject only to approval by the Maine Department of Economic and Community Development.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 3 - Company/Developer Information

A. Business General Information
[include whenever a company/developer is part of a TIF district proposal (regardless of whether a CEA is offered]:

1. **Business name:** Agren Appliance
2. **Business address:** 11 Adamian Drive, Auburn, Maine 04210
3. **Business phone number:** 207-330-3873
4. **Business contact person:** Jason Pauley, COO
5. **Business contact person e-mail address:** jpauley@agrenappliance.com
6. **Principal place of business:** 11 Adamian Drive, Auburn, Maine 04210
7. **Company structure (e.g. corporation, sub-chapter S, etc.):** Corporation
8. **Place of incorporation:** Maine
9. **Name of Officer(s):** Jason Agren, President
10. **Name of principal owner(s) name:** Click here to enter text.
11. **Address:** Click here to enter text.
12. **Brief project description:** Construction of new warehouse facility to support retail appliance business.
13. **Total amount of project new investment by company/developer: $** 10,000,000
14. **Will there be a credit enhancement agreement with this business?** Yes. If so, complete the rest of this section and Section 4.

B. Disclosure, only in cases where a CEA is offered to the above business:

1. Check the public purpose(s) that will be met by the business using this incentive:

☒ **job creation** ☒ **job retention** ☒ **capital investment**
☐ **training investment** ☐ **tax base improvement** ☐ **public facilities improvement**
☐ **other (list):** Click here to enter text.

2. Check the specific item(s) for which TIF revenues will be used by the business:

☒ **real estate purchase** ☐ **machinery & equipment purchase** ☐ **training costs**
☐ **debt reduction**
☒ **other (list):** Construction of warehouse facility

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 4 - Employment Goals/Data

Company Goals for Job Creation and Job Retention. (**If a developer**, check box ☐, and skip to Section 5)

A. Job Creation Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical	1		$80,000
2. Administrative/Clerical Support	3		$45,000
3. Sales & Service	3		$62,400
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation	8		$42,000
Total			Leave blank
B. Job Retention Goals			
Occupational Cluster*	# of Full-time Positions	# of Part-time Positions	Annual Wage Level
1. Executive, Professional & Technical	3		$65,000
2. Administrative/Clerical Support	2		$45,760
3. Sales & Service	32		$52,000
4. Agriculture, Forestry & Fishing			
5. Maintenance, Construction, Production & Transportation	29		46600
Total			Leave blank
*See Occupational Cluster Descriptions for more information.			

INSTRUCTIONS

A. Job Creation Goals. Please list the number, type and wage level of jobs created as a result of the economic development incentive. NOTE: For this form, "full-time" employment means 30 hours or more; "part-time" employment means less than 30 hours. "Wage level" means the average annual wage paid for jobs created within an occupational cluster, e.g. either their annual salary, or their hourly wage times their annual hours. Also, "type" means "occupational cluster" which refers to the 12 categories listed in the "Occupational Cluster Descriptions." Please include the number of your employees (both full-time and part-time) working within the category that most closely reflects their job duties.

B. Job Retention Goals. Please list the number, type and wage level of jobs retained as a result of the economic development incentive. Part B should be completed using same definitions in Part A.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 5 - Development Program

Public Project(s)

1. **Will there be any public facilities, improvements, or programs financed in whole or in part by the development program?** Yes. See Exhibit J.

Private Project(s)

2. **Will there be any commercial facilities, arts districts, improvements or projects to be financed in whole or in part by the development program:** Yes. **If yes, provide a brief, clear description:** Company intends to build a new warehouse facility for its appliance business.

Program Duration

3. **Duration of development district (may not exceed 30 years):**
   a. **District term: Original application**: 30.
      If an amendment, adding how many years? Choose a number **totaling how many years?** Choose a number.
   b. **Start date of** April 1, 2024 **with fiscal year** April 1, 2024.
      [Must begin with tax year in which development district designation is effective pursuant to MRS 30-A §5226, or the subsequent tax year (MRS Title 30-A §5224 (2)(H))]
   c. **End date of** March 31, 2054 **with fiscal year** March 31, 2054.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Original Assessed Value

4. **Provide the taxable assessed value of the development district as of the March 31st of the tax year preceding the property tax year in which the district was designated by the legislative body.**

			OAV of Real Property	OAV of Personal Property	As of (complete year)		Total acres
Original district			$1,051,500.00	$0.00	3/31/2023		11.64
Amendment: (If applicable, with any property added/removed)	#1	-				-	
		+			3/31/____	+	
	#2	-				-	
		+			3/31/____	+	
	#3	-				-	
		+			3/31/____	+	
	#4	-				-	
		+			3/31/____	+	
	#5	-				-	
		+			3/31/____	+	
	#6	-				-	
		+			3/31/____	+	
	#7	-				-	
		+			3/31/____	+	
	#8	-				-	
		+			3/31/____	+	
	#9	-				-	
		+			3/31/____	+	
	#10	-				-	
		+			3/31/____	+	
Total	N/A				N/A		

***Municipal Assessor must certify above original assessed value(s) (Exhibit B).

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Section 6 - Financial Plan

Increased Assessed Value Information

1. **Total estimated cost for the development program: $** 4,222,400 (Should match "total" from Exhibit J)
2. **Municipality will capture** 100% **of** real property only **increased assessed value for each year of the district term, to apply to the development program.** Click here to enter text, if needed.
3. **If #2 above's captured assessed value is less than 100%, besides the district's original assessed value, what percentage of increased assessed value will be deposited into the General Fund, or if an unorganized territory, to Education and Services fund?** Click here to enter % to be deposited in General Fund/Education & Services fund.

Public Indebtedness

4. **Will there be public indebtedness?** Yes, to be determined.
    a. **If yes, what is the projected amount of public indebtedness to be incurred?** The City will not incur any indebtedness at this time in connection with the Public Facilities, Improvements and Programs authorized herein; however, the City may elect to do so at a future date at the discretion of its City Council.
    b. **If an amendment, have any bonds been issued to date pertaining to the approved projects of this district?** Choose an item. **If yes, provide the status, such as years left on bond and amount of outstanding debt.** Click here to enter text.

Anticipated Revenues

5. **Describe sources of anticipated revenues for public projects (clearly and briefly stated):** The source of the revenue to be used to pay the costs of the public projects as set forth in this Development Program is the Tax Increment on the Increased Assessed Value of the District. Tax Increment means all Property Taxes assessed by the Town, in excess of any state, county or special district tax, upon the Increased Assessed Value of all real property in the District. Increased Assessed Value means the valuation amount by which the Current Assessed Value of the District exceeds the taxable Original Assessed Value of the real property in the District. Current Assessed Value means the taxable assessed value of the real property in the District certified by the municipal assessor as of April 1st of each year that the District remains in effect. Property Taxes means any and all ad valorem property taxes levied, charged or assessed against real property by the City. Original Assessed Value means the taxable assessed value of the real property in the District as of March 31, 2023 (April 1, 2022). All Property Tax on the Original Assessed Value shall continue to be deposited in the general fund of the Town.
6. **Describe sources of anticipated revenues for private projects (clearly and briefly stated):** A portion of the Tax Increment from the District as described above will be used to finance a portion of the construction of the Company's new warehouse to be located within the District. The percentage of the Tax Increment will be paid to the Company under the terms of a Credit Enhancement Agreement as set forth below.

Credit Enhancement Agreement (CEA)

7. **Describe terms and conditions of any agreements, contracts or other obligations related to the development program (e.g. CEAs). Ensure to clearly state the reimbursement percentage, along with, if applicable, any local triggers/caps.**
    a. **Will CEAs be offered as part of this development program?** Yes.
    b. **List name(s) of company/developer to be offered a CEA:** Agren Applicance

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

i. **Provide the CEA reimbursement percentage, term, conditions for each listed company/developer:** 43% of Tax Increment Revenue for up to 30 years, not to exceed $1,000,000 cumulative payment.

c. **Is this an omnibus application?** No.
If an omnibus, provide clear reimbursement percentage(s) and term(s)/condition(s): Click here to enter text.

d. **Does the municipality have a TIF policy?** Yes. Include a copy in Exhibit N.

If this is an amendment, and if applicable, include a copy of all executed CEAs as Exhibit M.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Development Program Fund and Tax Increment Revenues

Read below. Authorized municipal official must initial in provided spaces, acknowledging understanding of the below information:

If a municipality/plantation has designated captured assessed value, the municipality/plantation shall:

A. Establish a development program fund that consists of the following:

1. A project cost account that is pledged to and charged with the payment of project costs that are outlined in the financial plan and are paid in a manner other than as described in subparagraph (2); and

2. In instances of municipal/plantation indebtedness, a development sinking fund account that is pledged to and charged with the payment of the interest and principal as the interest and principal fall due and the necessary charges of paying interest and principal on any notes, bonds or other evidences of indebtedness that were issued to fund or refund the cost of the development program fund;

B. Annually set aside all tax increment revenues on captured assessed values and deposit all such revenues to the appropriate development program fund account established under paragraph A in the following order of priority:

1. To the development sinking fund account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual debt service on bonds and notes issued under section 5231 and the financial plan; and
2. To the project cost account, an amount sufficient, together with estimated future revenues to be deposited to the account and earnings on the amount, to satisfy all annual project costs to be paid from the account;

C. Make transfers between development program fund accounts established under paragraph A as required, provided that the transfers do not result in a balance in the development sinking fund account that is insufficient to cover the annual obligations of that account; and

D. Annually return to the municipal or plantation general fund any tax increment revenues remaining in the development sinking fund account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development sinking fund account after taking into account any transfers made under paragraph C. The municipality/plantation, at any time during the term of the district, by vote of the municipal or plantation officers, may return to the municipal/plantation general fund any tax increment revenues remaining in the project cost account established under paragraph A in excess of those estimated to be required to satisfy the obligations of the development project cost account after taking into account any transfer made under paragraph C. In either case, the corresponding amount of local valuation may not be included as part of the captured assessed value as specified by the municipality or plantation.

X _____

At the end of the district TIF term, all taxable real and/or personal property value captured in the district will be added to the general tax rolls.

X _____

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Relocation of Person(s)/Business(es)

8. No businesses or persons will be displaced or relocated as a result of the development activities proposed in the District.

Transportation Improvements

9. Except for the Public Facilities, Improvements and Programs contemplated by this Development Program, which include improvements to certain roads, intersections, sidewalks and other transportation infrastructure, the existing transportation facilities of the Town will be adequate to accommodate the improvements contemplated herein.

Environmental Controls

10. The day-to-day operations of the District will require no substantial efforts by the Town, other than staffing and programming primarily conducted by the Town Manager's office and the economic development office, in conjunction with the support of the staff of the Windham Economic Development Corporation funded by this Development Program.

District Operation

11. **After the planned capital improvements are completed, provide a brief statement of the proposed operation of the development district pertaining to:**
    a. **Public capital improvements:** The day-to-day operations of the District will require no substantial efforts by the Town, other than staffing and programming primarily conducted by the Town Manager's office and the economic development office, in conjunction with the support of the staff of the Windham Economic Development Corporation funded by this Development Program.
    b. **Private capital improvements:** There are no private capital improvements contemplated as of this application. Any such private improvements are expected to be funded by the developers responsible for such improvements. The Town will not be responsible for the operation of private capital improvements within the District.

Section 7 - Notice and Hearing

1. **Date of public notice (must be minimally 10 days before the public hearing):** June 10, 2023
   For Exhibit G, provide a legible **copy** of the newspaper page showing the public hearing , newspaper name and date of publication.

2. **Date of public hearing:** June 20, 2023
   For Exhibit H, provide a copy of the public hearing minutes, attested to with dated signature.

3. **Date municipal or plantation legislative body approved original district designation:** June 20, 2023
   Date municipal or plantation legislative body adopted original development program: June 20, 2023
   If an amendment, is it to the:
   - ☐ **district. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.
   - ☐ **district and development program. Provide date municipal or plantation legislative body approved:** Click to enter a date.

   For Exhibit I, provide verification of district designation and adoption of development program by municipal legislative body including vote tally.

4. **Is a municipal official authorized to make technical revisions to this District application/development program to facilitate the process for review and approval by DECD, as long as such revisions are not inconsistent with the basic structure and intent of the development program?** Yes. See Exhibit I.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

Exhibit A - Statutory Requirements & Thresholds

**round to second decimal place

SECTION A. | Acreage Caps		
1. Total **municipal** acreage	41,430.00	
2. Acreage of **proposed** Municipal TIF District (if amendment, proposed updated total acreage)	11.64	
3. **Downtown-designation**[1] acres in proposed Municipal TIF district	0.00	
4. **Transit-Oriented Development**[2] acres in proposed Municipal TIF district	0.00	
5. **Total acreage [=A2-A3-A4]** of proposed Municipal TIF district counted toward 2% limit	11.64	
6. **Percentage [=A5÷A1]** of total acreage in proposed Municipal TIF district (CANNOT EXCEED 2%)	0.03%	
7. **Total acreage** of all existing/proposed Municipal TIF districts in municipality **including** Municipal Affordable Housing Development districts:[3] See attached list	Existing	666.55
	Proposed	11.64
	Total	678.19
30-A § 5223(3) EXEMPTIONS[4]		
8. Acreage of an existing/proposed **Downtown** Municipal TIF district	264.18	
9. Acreage of all existing/proposed **Transit-Oriented Development** Municipal TIF districts	0	
10. Acreage of all existing/proposed **Community Wind Power** Municipal TIF districts:	0	
11. Acreage in all existing/proposed Municipal TIF districts **common to**[5] Pine Tree Development Zones per 30-A § 5250-I (14)(A) **excluding** any such acreage also factored in Exemptions 8-10 above:	0	
12. **Total acreage [=A7-A8-A9-A10-A11]** of all existing/proposed Municipal TIF districts counted toward 5% limit	414.01	
13. **Percentage of total acreage [=A12÷A1]** of all existing/proposed Municipal TIF districts (CANNOT EXCEED 5%)	1.00%	

14. **Real property** in proposed Municipal TIF District that is:	ACRES	% **[=Acres÷A2]**
a. A blighted area		
b. In need of rehabilitation, redevelopment or conservation		
c. Suitable for commercial or arts district uses	11.64	100%
TOTAL (except for § 5223 (3) exemptions a., b. OR c. must be at least 25%)		100%

[1] Before final designation, the Commissioner will seek advice from MDOACF and MDOT per 30-A § 5226(2).
[2] For Transit-Oriented Development (TOD) definitions see 30-A § 5222 sub-§§ 19-24.
[3] For AH-TIF acreage requirement see 30-A § 5247(3)(B). Alternatively, Section B must exclude AH-TIF valuation.
[4] Downtown/TOD overlap nets single acreage/valuation caps exemption.
[5] PTDZ districts approved through December 31, 2008.

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

					30 Year TIF Total		**$ 717,649**	**$ 4,222,400.00**	**$ 4,222,400.00**	**$ 1,000,000.00**	**$ 3,222,400.00**
					Annual Average				**$ 140,746.67**	**$ 58,823.53**	**$ 107,413.33**

Assumptions:

[1] The OAV of the District is as of March 31, 2023 (April 1, 2022). The District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

[2] The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. It is expected that the project will be complete by June 2024. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

[3] The City intends to capture 100% of both real and personal property within the District.

[4] The mil rate is based on FY 2022-23 actual rate of 22.75 and held constant for the remainder of the District term.

[5] The Development Program authorizes the City to enter into a credit enhancment agreement with the developer for a period of up to 30 years to include a reimbursement of 43% of the tax revenue from the increased assessed value from the project, up to a cumulative total reimbursement of $1,000,000.

[6] This table contains projections that are subject to a number of risks and uncertainties that could cause the actual values to differ materially from any projections relied upon herein and the actual values are likely to vary especially in later years.

Average Annual		**$43,121**	**$14,484**	**$11,418**	**$67,536**	**$73,211**

Assumptions:

The tax shifts resulting from the sheltering of valuation from the state school funding formula are based on the state EPS funding model in which a statewide estimated mill rate of 6.97 mills in FY 2023-2024 is applied to a district's state valuation to determine the amount of local property taxes to be raised for education. By sheltering valuation through a TIF, the City avoids having to raise an amount equal to the valuation sheltered x 6.97 mills. The education rate used to calculate the education tax shift is based on the adjusted mill rate of the Auburn Public School District based on the preliminary ED 279 for FY 2023-2024 published 03/28/23.

The tax shifts resulting from the sheltering of valuation from the state revenue sharing formula are based on the most recent data available from Maine Revenue Services for the fiscal year July 1, 2023 - June 30, 2024 published 03/06/2023

The tax shifts resulting from the sheltering of valuation from the County tax assessment are based on the actual Androscoggin County tax assessments for the most recent five years.

1 The OAV of the District is as of March 31, 2023 (April 1, 2022). The District consists of three parcels as identified on the Certificate of Assessor (Exhibit B) and Map of the District (Exhibit C and D)

2 The increased assessed values are estimates only and based on preliminary development plans for the property in the District as of the date of designation of the District. It is expected that the project will be complete by June 2024. The actual Increased Assessed Value figures in each year may vary and, as a result, the projections are subject to change.

These tax shift estimates are based on a captured assessed value of 100% of the estimated increased assessed value for the District.

The projected tax revenue is based on the estimate of increased assessed value multiplied by the FY 2022-23 actual mil rate of 22.75, which is held constant for the remainder of the District term.

Exhibit G - 10-Day Notice of Public Hearing

Refer to "CHECKLIST FOR MTIF APPLICATION" to ensure application completeness.

EXHIBIT G: 10-Day Notice of Public Hearing

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

The Auburn City Council hereby provides notice that it will hold a public hearing at 7:00 p.m. on Tuesday, June 20, 2023 in the Council Chambers of Auburn City Hall, 60 Court Street, Auburn, Maine, for purposes of receiving public comments on the designation of the proposed new Municipal Tax Increment Financing District #28 the "Agren Appliance Warehouse" Development District, and the adoption of a Development Program for said new District pursuant to the provisions of Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended.

The proposed new District will consist of 11.64 acres, which includes three parcels located on Harriman Drive and Adamian Drive, identified on the City's tax maps as Map121, Lot 002, Map 109, Lot 003, and Map 109, Lot 004. The proposed new District and Development Program will enable the City to capture tax revenues from new assessed value generated by investments made on these properties within the District related to the construction of a new warehouse for Agren Appliance.

The City proposes to offer the developer of this project a reimbursement of 43% of the property taxes paid by the developer on the new assessed property value in the District resulting from the project over a period of up to 30 years, not to exceed $1,000,000 total. This reimbursement will enable the developer to construct a new warehouse in the District. In addition, the City proposes to allocate the remainder of the tax increment revenues generated from the commercial development activities within the District to municipal projects such as road improvements, municipal infrastructure, transportation, public safety, and economic development, as well as other costs of public improvements and projects as identified in the Development Program for the District as may be approved and permitted pursuant to Section 5225 of Title 30-A of the Maine Revised Statutes, as amended. The City's use of tax increment revenues may also be used to pay debt service on bonds issued to finance said public projects.

A copy of the proposed Development Program for the new District is on file with the City Clerk at City Hall, 60 Court Street, Auburn, Maine, and may be reviewed during normal business hours. All interested residents are invited to attend the hearing and to be heard at that time.

of those playoffs, and he became the first player in NHL history to have at least two OT goals in back-to-back postseasons. He had two last year for the Panthers.

"Whenever we get to overtime, just give the puck to Carter Verhaeghe and then usually good things happen," Florida's Nick Cousins said. "Yeah, I don't know what it is. It seems like every time we get to overtime, we always have somebody step up. With our group, it's definitely pretty special."

It's not just Verhaeghe. Matthew Tkachuk has

NOTICE TO CONTRACTORS
INVITATION FOR BIDS

The Department of Defense, Veterans and Emergency Management (DVEM) is conducting a competitive bid process for the Lewiston Armory Additional POV Paving Project at the Lewiston Armory in Lewiston, Maine. Bids will be opened and read aloud by the Directorate of Facilities Engineering at 2:00 p.m. on June 29, 2023.

Project consists of the regrading and compaction of the existing gravel base surface and the placement of 2" binder and 1 ½" bituminous pavement surface on the rear POV parking lot at the Lewiston Armory. Project includes demolition of the existing bituminous drainage structure and the addition of striping for this parking lot. Total area contained in the scope of this project is approximately 1,378 square yards. A mandatory pre-bidding conference will be held at the Lewiston Armory located at 55 Alfred A. Plourde Parkway, Lewiston, Maine at 9:00 a.m. on June 14, 2023.

The detailed Notice to Contractors is on the Bureau of General Services website: https://www.maine.gov/dafs/bgs/business-opportunities .

ORDER OF THE AUBURN CITY COUNCIL
June 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Agren Appliance for the commercial development of certain property within its General Business zoning district located on Adamian Drive; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Agren Appliance Warehouse Municipal Development and Tax Increment Financing District #28 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #28 (the "Agren Appliance Warehouse Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Agren Appliance Warehouse Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

Exhibit J - Public Project Costs

EXHIBIT J: Public Project Costs

Project		Estimated Cost Over 30 Years	Statutory Citation
(a)	Capital costs within the District related to the acquisition or construction of land, structures, fixtures or equipment, or the demolition, alteration, remodeling, repair or reconstruction of buildings, structures, and fixtures for public, recreational trail, commercial or transit use, including, but not limited to, site preparation, finishing work, real property assembly costs and other capital costs related to such improvements, such as licensing, permitting, planning, engineering and architectural and legal expenses, and credit enhancement agreement payments.	$1,000,000	30-A M.R.S. § 5225(1)(A)(1)(a)-(d), §5225 (1)(A)(3)
(b)	Capital costs within the District related to the construction of improvements, public ways, transit facilities, and recreational trails, including, but not limited to, pavement, widening, repair and reconstruction of roads, sidewalks and intersections, bicycle lanes, pedestrian safety measures, signage, bus shelters, benches, crosswalks, curb treatments, recreational trails and bridges.	$517,920	30-A M.R.S. § 5225(1)(A)(1)(a)
(c)	Costs of improvements for the construction, alteration or expansion of facilities outside of the District that are required due to improvements or activities within the District, such as improvements, reconstruction, repair or widening of public ways and amenities on streets, sidewalks and intersections, bicycle lanes and pedestrian safety measures, and storm, sanitary sewer and water lines, electrical lines.	$500,000	30-A M.R.S. § 5225(1)(B)(1)
(d)	Costs associated with professional services rendered for projects within the District, including, but not limited to, engineering, planning, licensing, permitting, surveying, design, legal and accounting, and administrative expenses of staff time related to establishing and implementing the District and Development Program.	$200,000	30-A M.R.S. §§ 5225(1)(A)(4), (5), (7)
(e)	Costs of the construction, alteration or expansion of facilities, including, but not limited to, water, sewer, storm water, electrical, telephone, cable, broadband,	$400,000	30-A M.R.S. §§ (1)(A)(1), (1)(B)(1)

	and natural gas, that are located within the District or outside the District to the extent they are required due to improvements or activities within the District.		
(f)	Costs of public safety improvements to include the acquisition of additional public safety equipment or personnel, or improvements to police and fire stations outside the District as made necessary by the establishment and operation of the District, and costs related to public safety facilities made necessary by economic development activities within the City (not to exceed 15% of the CAV of the District).	$960,000	30-A M.R.S. §§ 5225(1)(B)(1), (2), (1)(C)(9)
(g)	Costs related to economic development programs and activities of the City directed at business retention and attraction, including, but not limited to, economic development staff salaries and/or consultant fees, and costs of funding economic development programs, events or marketing of the City as a business or arts location.	$580,032	30-A M.R.S. § 5225(1)(C)(1)
(k)	Costs associated with administration of the District, including, but not limited to time spent by City employees in connection with the implementation of the Development Program.	$64,448	30-A M.R.S. § 5225(1)(A)(5)
TOTAL Estimated Project Costs (30 Years)		$4,222,400

THIS CREDIT ENHANCEMENT AGREEMENT dated as of _____ __, 2023, between the City of Auburn, Maine (the "City"), a municipal corporation and political subdivision of the State of Maine, and Agren Appliance Service Corporation (the "Developer"), a Maine Corporation with a principal place of business located at 11 Adamian Drive, Auburn, Maine.

WITNESSETH THAT

WHEREAS, the Developer owns property located on Adamian Drive in Auburn, Maine next to its corporate headquarters (the "Property"), and intends to construct a new 51,000 square foot warehouse on the Property (the "Project"); and

WHEREAS, the City designated the Agren Appliance Warehouse Tax Increment Financing Development District #28 (the "District") pursuant to Chapter 206, subchapter 3 of Title 30-A of the Maine Revised Statutes, by vote at a City Council Meeting held on June 20, 2023 (the "Vote"), and

WHEREAS, the City received the approval of the District and the Development Program by the Maine Department of Economic and Community Development dated _____; and

WHEREAS, the City authorized the execution and delivery of a credit enhancement agreement as described in the Development Program pursuant to an Order of the City Council, adopted on June 20, 2023; and

WHEREAS, the City and the Developer desire and intend that this Credit Enhancement Agreement be and constitute the credit enhancement agreement contemplated and described in the Development Program; and

WHEREAS, the estimated cost of off-site improvements required in connection with the development of the Property is estimated to be approximately $10,000,000; and

WHEREAS, the cost to construct the Project and maintain the commercial activity and employment opportunities in the City of Auburn requires financial assistance from the City to ensure completion of the Project; and

WHEREAS, completion of the Project will contribute to the economic growth and well-being of the City, and enable public facilities and improvements to the betterment of the health, welfare and safety of its inhabitants; and

WHEREAS, the City has decided to induce the Developer to undertake the Project through the use of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and in consideration of the mutual promises and covenants set forth herein, the parties hereby agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions.

The terms defined in this Article I shall, for all purposes of this Agreement, have the meanings herein specified, unless the context clearly requires otherwise:

"Act" means chapter 206 of Title 30-A of the Maine Revised Statutes and regulations adopted thereunder, as amended from time to time.

"Agreement" shall mean this Credit Enhancement Agreement between the City and the Developer dated as of the date set forth above, as such may be amended from time to time.

"CEA Year(s)" shall have the meaning given such term in Section 2.3(a) hereof.

"City" shall have the meaning given such term in the first paragraph hereto.

"City Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the City uses as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof.

"City Payments" means for each CEA Year the Developer Percentage of the Increased Assessed Value payable in accordance with the terms of this Agreement.

"Commissioner" means the Commissioner of the Maine Department of Economic and Community Development.

"Current Assessed Value" means the then current assessed value of real property within the District as determined by the City Tax Assessor as of April 1 of each Tax Year during the term of this Agreement.

"Department" means the Maine Department of Economic and Community Development.

"Developer" shall have the meaning given such term in the first paragraph hereto.

"Developer Percentage" means fifty percent (43%) of the Increased Assessed Value in each Tax Year on which Property Tax payments are made by the City to the Developer as City Payments under the terms of this Agreement.

"Developer Project Cost Subaccount" means that portion of the Project Cost Account of the Development Program Fund set aside for the Developer as described in the Financial Plan Section of the Development Program and established and maintained pursuant to Article II hereof

"Developer Property" or "Property" means the total of 11.64 acres that comprises the District, consisting of three parcels identified on the City's tax maps as Map 121, Lot 002, Map 109, Lot 003 and Map 109, Lot 004.

"Development Program" means the development program and financial plan for the District adopted by the City, as amended.

"Development Program Fund" means the Agren Appliance Warehouse Municipal Development and Tax Increment Financing Development Program Fund described in the Financial Plan section of the Development Program and established and maintained pursuant to Article II hereof and 30-A M.R.S.A § 5227(3)(A).

"District" shall have the meaning given such term in the first recital hereto, which is more specifically comprised of approximately 11.64 acres of real property and identified in Exhibits B, C and D to the Development Program and any future improvements to such real property.

"Financial Plan" means the financial plan described in the "Financial Plan" Section of the Development Program.

"Fiscal Year" means July 1 to June 30 each year or such other fiscal year as the City may from time to time establish.

"Increased Assessed Value" means, for each CEA Year, the amount by which the Current Assessed Value for such year exceeds the Original Assessed Value. If the Current Assessed Value is less than or equal to the Original Assessed Value in any given Tax Year, there is no Increased Assessed Value in the corresponding CEA Year.

"Incremental Property Tax Payments" means all real property tax payments related to the Increased Assessed Value, inclusive of interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Original Assessed Value" means $1,051,500, the taxable assessed value of the real property within the District as of March 31, 2023 (April 1, 2022).

"Project Cost Account" means that portion of the Development Program Fund for the District as defined in the Financial Plan Section of the Development Program and established and maintained according to Title 30-A M.R.S.A. § 5227(3)(A)(1) and Article II hereof.

"Property Tax" means any and all *ad valorem* property taxes levied, charged or assessed against real property located in the District by the City, or on its behalf.

"State" means the State of Maine.

"Tax Increment Revenues" means that portion of all real property taxes assessed and paid within the District to the City in any Tax Year, excluding any state, or special district tax, including any scheduled payments thereof, interest thereon and the net proceeds of the redemption or sale of property sold as a result of foreclosure of the lien to the extent of the amount of such lien and interest thereon, in each case to the extent attributable to such levy.

"Tax Payment Date" means the date(s) on which property taxes levied by the City are due and payable from the owners of property located within the City.

"Tax Year" shall have the meaning given such term in 30-A M.R.S.A. §5222(18), as amended, to wit: April 1 to March 31. Each Tax Year corresponds to a particular Fiscal Year. Each CEA Year occurs during a Fiscal Year.

Section 1.2. Interpretation and Construction.

In this Agreement, unless the context otherwise requires:

(a) The terms "hereby," "hereof," "hereto," "herein," "hereunder" and any similar terms, as used in this Agreement, refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of delivery of this Agreement.

(b) Words importing a particular gender mean and include correlative words of every other gender and words importing the singular number mean and include the plural number and vice versa.

(c) Words importing persons mean and include firms, associations, partnerships (including limited partnerships), trusts, corporations and other legal entities, including public or governmental bodies, as well as any natural persons.

(d) Any headings preceding the texts of the several Articles and Sections of this Agreement, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience of reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

(e) All approvals, consents and acceptances required to be given or made by any signatory hereto shall not be withheld unreasonably.

(f) All notices to be given hereunder shall be given in writing and, unless a certain number of days is specified, within a reasonable time.

(g) If any clause, provision or Section of this Agreement shall be ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or Section shall not affect any of the remaining provisions hereof.

ARTICLE II
DEVELOPMENT PROGRAM FUND AND FUNDING REQUIREMENTS

Section 2.1. Creation of Development Program Fund.

The City shall create and establish a segregated fund in the name of the City designated as "The Agren Appliance Warehouse Municipal Development and Tax Increment Financing District Fund" (hereinafter the "Development Program Fund") pursuant to, and in accordance with the terms and conditions of, the Development Program and 30-A M.R.S.A. § 5227(3). The Development Program Fund shall consist of the Project Cost Account that is pledged to and charged with the payment of project costs as outlined in the Financial Plan of the Development Program and as provided in 30-A M.R.S.A. § 5227(3)(A)(1). The Development Program Fund is pledged to and charged with the payment of costs in the manner and priority provided in 30-A M.R.S.A. § 5227(3)(B). The Project Cost Account shall also contain two subaccounts designated as the "Developer Project Cost Subaccount" and the "City Project Cost Subaccount."

Section 2.2. Liens.

The City shall not create any liens, encumbrances or other interests of any nature whatsoever, nor shall it hypothecate the Developer Project Cost Subaccount described in Section 2.1 hereof or any funds therein, other than the interest in favor of the Developer and/or the Trustee hereunder in and to the amounts on deposit.

Section 2.3. Retention of Increment; Deposits into Development Program Fund.

(a) Commencing with the Tax Year beginning April 1, 2024, and for a period not to exceed the term of the District, ending March 31, 2054 (each a "CEA Year" and collectively the "CEA Years" herein), the City shall retain at least the Developer Percentage of the Increased Assessed Value within the District for the benefit of the Developer as set forth herein.

(b) For each of the CEA Years, the City shall deposit into the Developer Project Cost Subaccount an amount equal to the Developer Percentage of each Incremental Property Tax Payment paid on Increased Assessed Value, up to a cumulative amount of $1,000,000. Such deposits shall be made by the City within 10 business days after the Property Tax due date at the time in effect; currently due semi-annually on each September 15 and March 15. In the event any such payment allocable to the Developer Percentage of Incremental Property Tax Payments is not timely paid to the City, the City shall deposit such payment (plus any allocable interest) within 10 business days of receipt of such payment.

(c) Notwithstanding anything to the contrary contained herein, all allocations to the Developer Project Cost Subaccount and payments to the Trustee for deposit therein shall cease at the conclusion of the term of this Agreement identified in Section 2.3(a) hereof subject to extension as identified in Section 6.1(a) hereof.

Section 2.4. Use of Monies in Development Program Fund.

All monies in the Development Program Fund that are allocable to and/or deposited in the Developer Project Cost Subaccount shall in all cases be used and applied to fund fully the City's

payment obligations to Developer described in Articles II and III hereof. All monies required to be deposited in the Developer Project Cost Subaccount shall be used by the Developer for construction of the Project.

Section 2.5. Monies Held in Trust.

Except as otherwise provided in this Agreement, all monies required to be deposited with or paid into the Developer's Project Cost Sub-Account of the Development Program Fund are to fund payments to the Developer under the provisions hereof and the provisions of the Development Program for the benefit of the Developer in accordance with the provisions of this Agreement.

Section 2.6. Investments.

Monies in the Developer's Project Cost Sub-Account may be invested and reinvested in Qualified Investments as determined by the City. The City shall have discretion regarding the investment of such monies, provided such monies are invested in Qualified Investments. As and when any amounts so invested are needed for disbursements, the City shall cause a sufficient amount of such investments to be sold or otherwise converted into cash to the credit of such account. The City shall have the sole and exclusive right to designate the investments to be sold and to direct the sale or conversion to cash of investments made with monies in the Developer's Project Cost Sub-Account of the Development Program Fund.

Section 2.7. Reporting Obligations.

Developer covenants and agrees to provide the City promptly upon request with all documentation reasonably required by the City to confirm the costs and completion of the projects set forth in Section 2.4.

ARTICLE III
PAYMENT OBLIGATIONS

Section 3.1. Company Payments.

(a) The City agrees to pay Developer all amounts then on deposit in the Company Project Cost Subaccount, on or before thirty (30) days following the Tax Payment Date.

(b) Notwithstanding anything to the contrary contained herein, if, with respect to any Tax Payment Date, any portion of the property taxes assessed against real property located in the District remain unpaid, because of a valuation dispute or otherwise, the City shall be under no obligation to pay Developer's share of the disputed portion of the Tax Increment Revenues to Developer. In such a circumstance, the property taxes actually paid with respect to such Tax Payment Date shall be applied to taxes due on account of Original Assessed Value and, next to Sinking Fund Account as applicable, to the taxes due on account of the allocation of TIF Revenues for the City Project Cost Subaccount, and next to the taxes due in account of the allocation of TIF revenues for the Company Project Cost Subaccount.

Section 3.2. Failure to Make Payment.

(a) In the event the City should fail to, or be unable to, make any of the payments at the time and in the amount required under the foregoing provisions of this Article III including in the event that the amount deposited into Development Program Fund is insufficient to reimburse Developer for the full amount due to Developer under this Agreement the City shall be in breach of the terms hereof, and the amount or installment so unpaid shall continue as a limited obligation of the City, under the terms and conditions hereinafter set forth, until the amount unpaid shall have been fully paid. The Developer shall have the right to initiate and maintain an action to specifically enforce the City's obligations hereunder, subject to the limitations of Section 3.3 below.

Section 3.3. Limited Obligation.

The City's obligations of payment hereunder shall be limited obligations of the City payable solely from Tax Increment Revenues pledged therefor under this Agreement. The City's obligations hereunder shall not constitute a general debt or a general obligation or charge against or pledge of the faith and credit or taxing power of the City, the State of Maine, or of any municipality or political subdivision thereof, but shall be payable solely from that portion of Tax Increment Revenues payable to Developer hereunder, whether or not actually deposited into Company Project Cost Subaccount in the Development Program Fund. This Agreement shall not directly, indirectly or contingently obligate the City, the State of Maine, or any other City or political subdivision to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment, excepting the pledge of the Tax Increment Revenues established under this Agreement.

ARTICLE IV
FURTHER INSTRUMENTS AND BOOKS AND RECORDS

Section 4.1. Further Instruments and City Costs.

The City shall, upon the reasonable request of Developer, from time to time execute and deliver such further instruments and take such further action as may be reasonable and as may be required to carry out the provisions of this Agreement; provided, however, that no such instruments or actions shall pledge the credit of the City; and provided further that the cost of executing and delivering such further instruments (including the reasonable and related costs of counsel to the City with respect thereto) shall be borne exclusively by Developer.

Section 4.2. Access to Books and Records.

(a) All non-confidential books, records and documents in the possession of the City relating to the District, the Development Program, this Agreement and the monies, revenues and receipts on deposit or required to be deposited into Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by Developer, its agents and employees.

(b) All non-confidential books, records, lease agreements and documents in the possession of Developer relating to the District, the Development Program, this Agreement and the monies, revenues and receipts used from the Development Program Fund shall at all reasonable times and upon reasonable notice be open to inspection by City, its agents and employees.

ARTICLE V
DEFAULTS AND REMEDIES

Section 5.1. Events of Default.

Each of the following events shall constitute and be referred to in this Agreement as an "Event of Default":

(a) Any failure by the City to pay any amounts due to Developer when the same shall become due and payable;

(b) Any failure by the City to make deposits into Development Program Fund, including the Company Project Cost Subaccount, as and when due;

(c) Any failure by the City or Developer to observe and perform in all material respects any covenant, condition, agreement or provision contained herein on the part of the City or Developer to be observed or performed, which failure is not cured within thirty (30) days following written notice thereof;

(d) If a decree or order of a court or agency or supervisory authority having jurisdiction in the premises of the appointment of a conservator or receiver or liquidator of, any insolvency, readjustment of debt, marshaling of assets and liabilities or similar proceedings, or for the winding up or liquidation of the Developer's affairs shall have been entered against the Developer or the Developer shall have consented to the appointment of a conservator or receiver or liquidator in any such proceedings of or relating to the Developer or of or relating to all or substantially all of its property, including without limitation the filing of a voluntary petition in bankruptcy by the Developer or the failure by the Developer to have an involuntary petition in bankruptcy dismissed within a period of ninety (90) consecutive days following its filing or in the event an order for release has been entered under the Bankruptcy Code with respect to the Developer;

(e) If any secured lender of Developer accelerates the indebtedness owed to it;

(f) If any written representation or warranty given to the City by Developer is knowingly incorrect or incomplete in any material respect, other than statements made about or in agreements with the City that were later changed by mutual consent; and

(g) If Developer fails to maintain adequate surety bonding during construction at the levels and terms as may be required from time to time by the Developer's secured lenders and/or

Developer allows mechanics' liens to encumber the Project for a period of more than sixty (60) days.

Section 5.2. Remedies on Default.

Subject to the provisions contained in Section 8.9, whenever any Event of Default described in Section 5.1 hereof shall have occurred and be continuing, the nondefaulting party, following the expiration of any applicable cure period, shall have all rights and remedies available to it at law or in equity, including the rights and remedies available to a secured party under the laws of the State of Maine, and may take whatever action as may be necessary or desirable to collect the amount then due and thereafter to become due, to specifically enforce the performance or observance of any obligations, agreements or covenants of the nondefaulting party under this Agreement and any documents, instruments and agreements contemplated hereby or to enforce any rights or remedies available hereunder.

Section 5.3. Remedies Cumulative.

Subject to the provisions of Section 8.9 below concerning dispute resolution, no remedy herein conferred upon or reserved to any party is intended to be exclusive of any other available remedy or remedies but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity or by statute. Delay or omission to exercise any right or power accruing upon any Events of Default to insist upon the strict performance of any of the covenants and agreements herein set forth or to exercise any rights or remedies upon the occurrence of an Event of Default shall not impair any such right or power or be considered or taken as a waiver or relinquishment for the future of the right to insist upon and to enforce, from time to time and as often as may be deemed expedient, by injunction or other appropriate legal or equitable remedy, strict compliance by the parties hereto with all of the covenants and conditions hereof, or of the rights to exercise any such rights or remedies, if such Events of Default be continued or repeated.

ARTICLE VI
EFFECTIVE DATE, TERM AND TERMINATION

Section 6.1. Effective Date and Term.

This Agreement shall become effective upon its execution and delivery by the parties hereto and shall remain in full force from the date hereof and shall expire upon the performance of all obligations on the part of the City and the Developer hereunder or upon any earlier termination as provided in this Agreement.

Upon receipt of such approval, this Agreement shall remain in full force from April 1, 2024 and shall expire March 31, 2036 or sooner upon the payment of all amounts due to Developer hereunder and the performance of all obligations on the part of the City hereunder, unless even sooner terminated pursuant to any other applicable provision of this Agreement.

Section 6.2. Cancellation and Expiration of Term.

At the acceleration, termination or other expiration of this Agreement in accordance with the provisions of this Agreement, the City and Developer shall each execute and deliver such documents and take or cause to be taken such actions as may be necessary to evidence the termination of this Agreement.

ARTICLE VII
ASSIGNMENT AND PLEDGE OF DEVELOPER'S INTEREST

Section 7.1. Pledge and/or Assignment.

The City hereby acknowledges that Developer may pledge, assign and grant a security interest in its right, title and interest in, to and under this Agreement as collateral for financing by a bank or financial institution to Developer for the Project, although no obligation is hereby imposed on Developer to make such assignment or pledge. Recognizing this possibility, the City does hereby consent and agree to the pledge and assignment of and the grant of a security interest in all Developer's right, title and interest in, to and under this Agreement and in, and to the payments to be made to Developer hereunder, to third parties as collateral or security for indebtedness or otherwise, on one or more occasions during the term hereof. The City agrees upon request to execute and deliver any assignments, pledge agreements, consents or other confirmations required by the prospective pledgee or assignee or secured party, including without limitation recognition of the pledgee or assignee or secured party as the holder of all right, title and interest herein and as the payee of amounts due and payable hereunder and any and all such other documentation as shall confirm to such pledgee or assignee or secured party the position of such assignee or pledgee or secured party and the irrevocable and binding nature of this Agreement, and provide to the pledgee or assignee such rights and/or remedies as the parties may reasonably deem necessary for establishment, perfection and protection of its interest herein. Developer shall be responsible for the City's necessary and reasonable costs of counsel with respect to any such pledge or assignment.

Section 7.2. Transfer

Except as specified in Sections 7.1 and 8.1 hereof, Developer shall not transfer or assign any portion of its rights in, to and under this Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed.

ARTICLE VIII
MISCELLANEOUS

Section 8.1. Successors.

In the event of the dissolution, merger or consolidation of the City or Developer, the covenants, stipulations, promises and agreements set forth herein, by or on behalf of or for the benefit of such party shall bind or inure to the benefit of the successors and assigns thereof from

time to time and any entity, officer, board, commission, agency or instrumentality to whom or to which any power or duty of such party shall be transferred.

Section 8.2. Parties-in-Interest.

Except as herein otherwise specifically provided, nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City and Developer any right, remedy or claim under or by reason of this Agreement, it being intended that this Agreement shall be for the sole and exclusive benefit of the City and Developer.

Section 8.3. Severability.

In case any one or more of the provisions of this Agreement shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of this Agreement and this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 8.4. No Personal Liability.

(a) No covenant, stipulation, obligation or agreement of the City contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future elected or appointed official, officer, agent, servant or employee of the City in his or her individual capacity, and neither the City Council nor any official, officer, employee or agent of the City shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

(b) No covenant, stipulation, obligation or agreement of the Developer contained herein shall be deemed to be a covenant, stipulation or obligation of any present or future officer, agent, servant or employee of the Developer in his or her individual capacity, and no officer, employee or agent of the Developer shall be liable personally with respect to this Agreement or be subject to any personal liability or accountability by reason hereof.

Section 8.5. Counterparts.

This Agreement may be executed in any number of counterparts, each of which, when so executed and delivered, shall be an original, but such counterparts shall together constitute but one and the same Agreement.

Section 8.6. Governing Law.

The laws of the State of Maine shall govern the construction and enforcement of this Agreement.

Section 8.7. Amendments.

This Agreement may be amended only with the concurring written consent of both of the parties hereto.

Section 8.8. Integration.

This Agreement completely and fully supersedes all other prior or contemporaneous understandings or agreements, both written and oral, between the City and Developer relating to the specific subject matter of this Agreement and the transactions contemplated hereby.

Section 8.9. Dispute Resolution.

In the event of a dispute regarding this Agreement or the transactions contemplated by it, the parties hereto will use all reasonable efforts to resolve the dispute on an amicable basis. If the dispute is not resolved on that basis within sixty (60) days after one party first brings the dispute to the attention of the other party, then either party may refer the dispute for resolution by one arbitrator mutually agreed to by the parties, and judgment on the award rendered by the arbitrator may be entered in any Maine state court having jurisdiction. Any such arbitration will take place in Auburn, Maine or such other location as mutually agreed by the parties. The parties acknowledge that arbitration shall be the sole mechanism for dispute resolution under this Agreement. Provided however, that in the event the parties are unable to agree, within a reasonable period, on the selection of an arbitrator, either party may file suit to resolve the dispute in any court having jurisdiction within the State of Maine. This arbitration clause shall not bar the City's assessment or collection of property taxes in accordance with law, including by judicial proceedings, including tax lien thereof.

Section 8.10. Records.

The City shall maintain a record demonstrating its calculation of the Increased Assessed Value and Tax Increment Revenues within the District as it relates to deposits to the Development Program Fund pursuant to Article II and payments to the Developer under Article III of this Agreement, and shall provide Developer with a copy of the same upon request.

Section 8.11. Notices.

All notices, certificates, requests, requisitions or other communications by the City or Developer pursuant to this Agreement shall be in writing and shall be sufficiently given and shall be deemed given when mailed by first class mail, postage prepaid, addressed as follows:

If to the City:

Phillip Crowell
City Manager
City of Auburn
60 Court Street
Auburn, ME 04210

With a copy to:

Alyssa C. Tibbetts, Esq.
Jensen Baird Gardner Henry
10 Free Street
P.O. Box 4510
Portland, Maine 04112

If to Developer:

Jason Pauley, COO
Agren Appliance
11 Adamian Drive
Auburn, ME 04210

With a copy to:

Either of the parties may, by notice given to the other, designate any further or different addresses to which subsequent notices, certificates, requests or other communications shall be sent hereunder.

[SIGNATURE PAGE TO FOLLOW]

IN WITNESS WHEREOF, the City and Developer have caused this Agreement to be executed in their respective corporate names and their respective corporate seals to be hereunto affixed and attested by the duly authorized officers, all as of the date first above written.

TAX INCREMENT FINANCING POLICY AND GUIDELINES

The Business and Community Development Department will follow the following guidelines in establishing Tax Increment Financing (TIF) Districts and reviewing Credit Enhancement Agreement Applications.

I. Purpose and Introduction

TIF allows municipalities to "shelter" new value resulting from private investment from the calculation of its State subsidies (education and revenue sharing) and County taxes. A municipality's total equalized assessed value is used to calculate General Purpose Aid to Education (subsidy), State Revenue Sharing (subsidy), and County taxes (expense). When a municipality's equalized assessed value increases, State Aid for Education decreases, municipal revenue sharing decreases, and the municipality pays a more significant portion of County taxes. Specific municipal shelter benefits for the term of the TIF include No reduction in State aid for education, no reduction in municipal revenue sharing, and no increase in County taxes (assuming 100% capture).

A Tax Increment Financing District is a tool available to the City of Auburn to promote economic development. It provides a means of financing Auburn's economic and community development goals as set forth in the Development Program of the District adopted by the City Council and as authorized by state law. TIF enables the City to revitalize and redevelop designated areas and build community and economic growth through public-private partnerships. The TIF District allows the City to capture some or all

of the incremental property tax revenues derived from new development or expansion of existing development. The captured tax revenues from a TIF District can finance municipal investments and City infrastructure projects. They can also be used to provide incentives or financing to private development in the form of an associated Credit Enhancement Agreement (CEA), as authorized by the Development Program of the District and state law.

These guidelines provide guidance and outline standards for developing TIFs and CEAs in the City when utilizing TIF Districts and TIF revenue for the City's development and redevelopment efforts. Notwithstanding compliance with these guidelines, creating a TIF District or authorizing a Credit Enhancement Agreement is a policy decision of the City to be evaluated by the City on a case-by-case basis. These guidelines or the creation of a TIF District do not create a right or entitlement to assistance by any applicant.

II. Eligibility for Assistance

Economic development projects may be eligible for Tax Increment Financing assistance from the City when they meet the following standards:

- Would not occur without City assistance.
- Create or retain employment opportunities.
- Significantly expand the City's tax base by a minimum of $1,000,000.
- Diversify the economy and tax base of the City
- Conform to the quality and types of development the City seeks as outlined in the Comprehensive Plan, Strategic Plan, Downtown Revitalization Plan, Economic Development Action Plan, and Zoning Ordinances.
- Demonstrate a public benefit, such as expanding public infrastructure to service areas beyond the project or creating job opportunities or affordable housing.
- Public benefits from development must outweigh any possible adverse impacts on existing businesses or residents of the City.

The City provides TIF assistance through a Credit Enhancement Agreement that offers developers reimbursement of a percentage of the property tax revenue paid on their property's increased assessed value (or incremental value). Tax revenue on the incremental value returned to the developers under a Credit Enhancement Agreement will not exceed an average of 75% of the incremental taxes over the life of the particular tax increment financing district or the Credit Enhancement Agreement. Further, the City Council may establish a cap on the total incremental taxes to be reimbursed to a developer under a CEA on an annual and/or cumulative basis. The applicant is required to submit all documentation required by the City in consideration of a Credit Enhancement Agreement. A Public Hearing notice is required to receive public comment on a completed CEA application at least ten days before a meeting at which the CEA is considered for approval by the City Council.

III. Application Process

The City has established an Application for Tax Increment Financing & Credit Enhancement Agreement. Applications (whether initiated by the City or requested by a developer or business) will be reviewed by the Business and Community Development Department Staff and considered by the City Manager. Applications for a new TIF District or an amendment to an existing one are subject to final approval by the City Council and the Maine Department of Economic and Community Development (DECO). The specific terms of TIF assistance through a CEA will be negotiated between the City and the applicant on a case-by-case basis. The City Manager or the City Manager's designee will negotiate for the City. All recommendations for TIF assistance shall be based on the project's merits and compliance with these guidelines. Based on City Council direction and approval, Business and Community Development staff will coordinate all activities regarding applications and will prepare materials as needed. The Director of Business and Community Development will assist the developer through the process. After approval, they will monitor ongoing investments in the development project.

All applicants for TIF assistance must pay a $500 non-refundable application fee at the time of submission. All applicants are required to reimburse the City of Auburn for all legal and administrative costs incurred as a result of the TIF proposal, including the cost of preparing all materials necessary to establish a new TIF District, amend an existing TIF District, and draft the Credit Enhancement Agreement. If a Credit Enhancement Agreement is approved, an annual fee of 2% of the incremental tax reallocated back to the project will be assessed.

IV. Waiver of Provisions

Under certain conditions, the City of Auburn reserves the right to waive the guideline provisions. The decision to do so shall be made by applying the following guidelines to ensure that the project remains within the general parameters of the Auburn Comprehensive Plan and community development vision(s). Criteria for considering a waiver are:

- Consistency with the Auburn Comprehensive Plan
- Consistency with the Downtown Revitalization Plan
- Consistency with the City's Economic Development Plan
- Consistency with the Development Plan of the TIF District
- Consistency with other local, State, and Federal laws/rules
- Evidence of need, and
- Capacity to carry out the project

V. Mandatory Guidelines

In all instances, applicants for tax increment financing and Credit Enhancement Agreements must demonstrate that the City's participation is economically needed to undertake the project. Such justification is demonstrated by:

- Need to offset infrastructure costs unique to the site
- Need to offset economic advantages available if it should develop a project or expand operations outside of Auburn
- Lack of sufficient funding sources to meet the total capital investments needed to undertake the project
- Project creates significant new tax value throughout the Downtown District and other areas the City Council deems necessary
- Developer is financially capable of undertaking the project

- Developer is compliant with all statutory and regulatory guidelines of the City of Auburn and the State of Maine

VI. Guidelines that Determine the Level of Municipal Participation

Although the applicant/applicant project need not meet each of the following criteria, the following will be used to determine the City of Auburn's participation level.

- Assists an established business in Auburn, retaining existing employment opportunities
- Creates long-term permanent and quality employment opportunities
- Contributes to the revitalization of the Downtown District or other areas in need of development or redevelopment
- Improves a blighted building site in need of rehabilitation
- Creates public infrastructure facilities with applications beyond the particular development, road improvements, parking, sidewalks, green space, etc.
- Supports or will support community projects, job training, internships, and programs that assist the under-employed and supports local contractors and suppliers.

VII. Transfer of Ownership

Credit Enhancement Agreements are non-transferable without prior approval of the City Council. Suppose the applicant wishes to transfer property ownership in the TIF District subject to a CEA to which the applicant is a party. In that case, the applicant must notify the Director of Business and Community Development in writing before finalizing the transfer. In writing, the prospective new owner must agree to accept the agreement's provisions as presented to and approved by the City Council before the City will release any further TIF reimbursements under the CEA. Failure to provide notice of a transfer of ownership by the applicant or for the prospective new owner to accept the terms of the CEA before the transfer shall render the CEA invalid, and no further payments under it shall be authorized.

VIII. Annual Expenditure of TIF Revenues for Municipal Projects

Each year the Director of Business and Community Development will review all proposed TIF Revenue expenditures as part of the City Budget process to ensure compliance with the existing TIFs.

Annual allocations of TIF revenues to fund existing Credit Enhancement Agreement commitments will be factored into the annual review of the use of the available TIF revenues, and estimates of proposed Credit Enhancement Agreements will be calculated by the City Assessor and City Treasurer and provided to the City Manager for review and consideration.

ORDER 90-06202023

City Council Order

IN CITY COUNCIL

ORDER OF THE AUBURN CITY COUNCIL

June 20, 2023

WHEREAS, the City is authorized pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, to adopt a Tax Increment Financing District and Development Program; and

WHEREAS, the City has received a proposal from Agren Appliance for the commercial development of certain property within its General Business zoning district located on Adamian Drive; and

WHEREAS, adopting and implementing the proposed District and Development Program will provide opportunities for significant new commercial development within the City and new employment opportunities for residents of the City and surrounding communities, and will improve and broaden the tax base of the City and improve the general economy of the City, the region and the State of Maine; and

WHEREAS, the City has held a public hearing on the proposed Agren Appliance Warehouse Municipal Development and Tax Increment Financing District #28 (the "District") in accordance with the requirements of 30-A MRSA §5226(1) upon at least ten (10) days prior notice published in a newspaper of general circulation within the City; and,

WHEREAS, the City desires to designate the proposed District and adopt the proposed Development Program as presented to the City Council this day and as has been on file in the City Clerk's Office at City Hall; and

WHEREAS, it is anticipated that the Commissioner of the Maine Department of Economic and Community Development ("DECD") will approve the designation of the District and adoption of the Development Program;

NOW THEREFORE, the City Council hereby Orders as follows:

Section 1. The City Council hereby finds and determines that:

(a) Adoption and implementation of the District and the Development Program will generate substantial economic benefits for the City and its residents, including employment opportunities, broadened and improved tax base and economic stimulus, and therefore constitute a good and valid public purpose and will contribute to the economic growth or well-being of the inhabitants of the City or to the betterment of the health, welfare or safety of the inhabitants of the City; and

(b) The City Council has considered all evidence presented to it with regard to any adverse economic effect on or detriment to any existing business and has found and determined that adoption and implementation of the District and the Development Program will not result in a substantial

City Council Order

detriment to any existing business in the City, and any adverse economic effect of the District and the Development Program on any existing

EXHIBIT I: RECORD OF DISTRICT DESIGNATION AND DEVELOPMENT PLAN ADOPTION business in the City is outweighed by the contributions expected to be made by the projects and improvements described in the District and the Development Program to the economic growth or well-being of the City or to the betterment of the health, welfare or safety of the inhabitants of the City.

Section 2. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby designates the City of Auburn Municipal Development and Tax Increment Financing District #28 (the "Agren Appliance Warehouse Development District") as presented to the City Council.

Section 3. Pursuant to Chapter 206 of Title 30-A of the Maine Revised Statutes, as amended, the City Council hereby adopts the Development Program for the Agren Appliance Warehouse Development District in the form presented to the City Council.

Section 4. The foregoing designation of the District and adoption of the Development Program shall automatically become final and shall take full force and effect upon approval of the District and Development Program by the Commissioner of the State of Maine Department of Economic and Community Development (DECD), without requirement of any further action by the City, the City Council, or any other party.

Section 5. Pursuant to the provisions of 30-A M.R.S.A. §5227, the percentage of the Increased Assessed Value to be retained as Captured Assessed Value in the District and the term of said District is confirmed as set forth in the Development Program.

Section 6. The City Manager be and hereby is authorized and directed, on behalf of the City of Auburn, Maine, to submit to the Commissioner of DECD for review and approval, pursuant to the requirements of 30-A M.R.S.A. §5226(2), the application and such other documentation as may be necessary or appropriate for the final approval of this District and the Development Program. The City Manager is further authorized and empowered, at his or her discretion from time to time, to make such technical revisions to the District or the Development Program for the District, or to the scope, cost or description of the public improvements to be financed with the portion of tax increment revenues generated by the District and retained by the City as described in the Development Program, as the City Manager deems reasonably necessary or convenient in order to facilitate the process for review and approval of the District and Development Program by DECD, or for any other reason, so long as such revisions are not inconsistent with these resolutions or the basic structure and intent of the District and the Development Program.

Section 7. The City Manager be and hereby is authorized, empowered and directed to enter into the agreements contemplated by the Development Program, in the name of and on behalf of the City, such agreements to be in such form and to contain such terms and provisions, not inconsistent with the

City Council Order

Development Program, as the City Manager may approve, the City Manager's approval to be conclusively evidenced by his or her execution thereof.

This Order shall take effect immediately upon adoption.

City of Auburn
City Council Information Sheet

Council Meeting Date: June 20, 2023 **Ordinance:** 06-06202023

Author: John Blais, Deputy Director of Planning & Permitting

Subject: Proposed text amendment to DIV 12, General Business, Sec 60-500 (2)

Information: Planning board provided a favorable recommendation 7-0 to increase the maximum building coverage in the General Business (GB) from 30 percent coverage to 60 percent coverage.

Staff and Planning Board looked at various communities (Waterville, Biddeford, Sanford, and South Portland) throughout Maine and found that those towns and cities do not even contain a density requirement in the commercial zones within their land use ordinances. Staff has run into many situations where the density ordinance restricts economic and community development within the City of Auburn in commercial zones.
From the Cities updated Comprehensive Plan, Future Land Use Chapter: *The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property.* The suggested increase in density would allow for more options and expansion of the site which aligns with the current comprehensive plan.

City Budgetary Impacts: None

Staff Recommended Action: Consider passage of first reading.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Zoning Ordinance Amendments to General Business, General Business II, and Industrial Districts

Dear Planning Board Members:

I am writing in support of the proposed amendments to the General Business, General Business II, and Industrial Districts to increase the total allowed building coverage from thirty percent to sixty percent. I am a Construction Executive with Manganaro Northeast and we operate a manufacturing facility, Prehung Doors, LLC on the property located at 353 Riverside Drive in Auburn. We support the proposed amendment because it is consistent with the City's Comprehensive Plan and it is generally good urban planning to allow higher density in business and industrial zones to encourage economic investments and growth in the City.

In order for our business to remain in Auburn, we need to expand our building. In planning our expansion, we realized that the allowed building coverage for our property is only thirty percent, which seemed low for a general business zone. Because the existing building on our property covers approximately twenty-five percent of the lot, we have very little room left to expand. I imagine that there are other business in our same boat, and some that may have already been forced to leave the City because they outgrew the requirements. The proposed amendments would allow us to construct a meaningful expansion that would allow us to stay and grow as part of the community in Auburn.

We appreciate the Board's time and attention to these amendments and ask that you recommend their adoption to the City Council.

Sincerely,

Joe Tardif

Date: April 25, 2023

Re: Proposed Amendment to DIV 12, General Business, Sec 60-500 (2) DIV 13, General Business II, Sec. 60-526 (2) DIV 15 Industrial, Sec. 60-579 (2) to allow for increase of total lot area of 60 percent of commercial or office building density.

For consideration by the City of Auburn, Maine Planning Board:

The Economic Development Department works to retain existing businesses and attract new businesses. As the Director of Economic Development, I have found building density requirements are restricting economic development for the City of Auburn. In addition, changing our density requirement is in line with the City's updated Comprehensive Plan.

The City receives requests from local, national, and international businesses looking to expand or find a new location. These businesses are in the restaurant/retail, manufacturing, biotechnology/life sciences, forest products, marine/aquaculture, food/agriculture, clean energy, and professional services industries. Increasingly, these industries identify local building density requirements as a hinderance for their ability to do business.

Auburn-based businesses looking to expand, such as Prehung Doors, Inc., have pointed to other communities in Maine that do not have density requirements as a major factor when considering staying in Auburn or moving to another community.

When it comes to attracting new businesses, Auburn is in direct competition with Biddeford, Sanford, South Portland, and Waterville. All these localities do not have density requirements which gives them a major competitive advantage over Auburn.

This request is in line with new industry standards, our comprehensive plan, helps keep Auburn competitive, and fosters a business-friendly environment while helping increase our tax base.

Thank you for your consideration.

Respectfully,

Jay A. Brenchick

DRAFT

To: Auburn City Council

From: Auburn Planning Board

RE: Planning Board recommendation to City Council on Zoning Text Density Change Applied to General Business, General Business II, and Industrial Zones.

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Text Amendment: Consider amending Sec. 60-500 (2), Sec. 60-526 (2), and Sec. 60-579 (2) of the zoning ordinances to increase the maximum building coverage in the General Business (GB) and Minot Avenue (GBII) zoning districts from 30 percent coverage to 60 percent coverage, and increase the maximum building coverage in the Industrial (ID) zoning district from 40 percent coverage to 60 percent coverage as shown on the attached proposed text amendments. This topic is pursuant to Sec. 2-471.- public Hearings.

MOTION: Riley Bergeron makes a motion; David Trask seconds.

I make a motion to make a favorable recommendation to City Council to amend text Chapter 60, Article IV, DIV 12, General Business, Sec 60-500 (2) DIV 13, General Business II, Sec. 60-526 (2) DIV 15 Industrial, Sec. 60-579 (2) to allow for a total lot area of 60 percent of commercial or office building density.

AMENDMENT: Tim DeRoche makes a motion; Darren Finnegan Seconds.

"I make a motion to amend the motion to raise it to 75% of commercial or office building density." **VOTE:** 2-5-0 Motion fails.

VOTE: 7-0-0 Original Motion passes.

Sec. 60-500. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* No building used for commercial or office uses shall be constructed on a lot having less than 10,000 square feet minimum lot area and measuring 100 feet in width. No lot shall be less than 100 feet in depth. Buildings used for residential uses shall have the same minimum lot area, width and depth as provided for buildings in the Multifamily Suburban District (MFS), section 60-307(1).

(2) *Density.* Not more than ~~30~~ 60 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials. Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height. Religious buildings, municipal buildings or buildings listed by the state historic preservations commission may have a steeple, cupola or tower to a maximum height of 90 feet, if said structure is limited to 15 percent of the footprint of the principal building. In the airport approach zone, Federal Aviation Administration regulations shall apply. Accessory structures, including windmills, that are necessary for the operation of an allowed principal use may exceed the above maximum height requirements, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in

excess of the yard required pursuant to this section. In the airport approach zone, Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.62C; Ord. of 3-22-2010; Ord. No. 11-03012021, §§ 32, 64, 3-15-2021)

ORDER 06-06202023

City Council Order

IN CITY COUNCIL

Amending the General Business Zoning District, Sec. 60-500 (2) Dimensional Regulations

BE IT ORDAINED, that the City Council hereby amends the General Business Zoning District, Sec. 60-500 (2) Dimensional Regulations below.

(2) → *Density.* Not more than ~~30~~ 60 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

e. *Outdoor storage.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials, Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height, except in the airport approach zone where Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.63C; Ord. No. 11-03012021, § 40, 3-15-2021)

ORDINANCE 07-06202023

City Council Order

IN CITY COUNCIL

Amending the General Business II Zoning District, Sec. 60-526 (2) Dimensional Regulations

BE IT ORDAINED, that the City Council hereby amends the General Business II Zoning District, Sec. 60-526 (2) Dimensional Regulations below.

(2) → *Density.* Not more than ~~30~~ 60 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

City of Auburn
City Council Information Sheet

Council Meeting Date: June 20, 2023 **Ordinance:** 08-06202023

Author: John Blais, Deputy Director of Planning & Permitting

Subject: Proposed text amendment to DIV 15, Industrial Zoning District , Sec 60-579 (2)

Information: Planning board provided a favorable recommendation 7-0 to increase the maximum building coverage in the Industrial Zone from 40 percent coverage to 60 percent coverage.

Staff and Planning Board looked at various communities (Waterville, Biddeford, Sanford, and South Portland) throughout Maine and found that those towns and cities do not even contain a density requirement in the commercial zones within their land use ordinances. Staff has run into many situations where the density ordinance restricts economic and community development within the City of Auburn in commercial zones.
From the Cities updated Comprehensive Plan, Future Land Use Chapter: *The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property.* The suggested increase in density would allow for more options and expansion of the site which aligns with the current comprehensive plan.

City Budgetary Impacts: None

Staff Recommended Action: Consider passage of first reading.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Codification language text amendment DIV 15, Industrial Zoning District, Sec 60-579 (2)

Sec. 60-579. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* Each lot shall have not less than 150 feet width. No lot shall be less than 250 feet in depth.

(2) *Density.* Not more than ~~40~~ 60 percent of the total lot area shall be covered by buildings.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 20 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any building and the side property line, plus the side yard setback shall be increased one foot for every three feet or part thereof increased in street frontage over 60 feet to a maximum of 35 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 35 feet or 15 percent of the average depth of the lot, whichever is less. No front yard need be any deeper than the average depth of front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 35 feet shall be considered as having a front yard of 35 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or are required to be kept open and unbuilt on may be used, if otherwise lawful, for outdoor storage of articles, supplies and materials except that such storage shall be screened from the view of abutting residential property owners and/or street by a solid wall or evergreen hedge.

g. *Landscaping.* Landscaping shall be provided and maintained as follows:

1. Within a parking lot, landscaping shall be provided in an amount equal to ten percent of the area of the parking lot.

2. The perimeter of a principal building, except for entrances and loading doors, shall be landscaped in an amount equal to 20 percent of the building footprint. Emphasis shall be given to the front and sides of the building.

3. All lots which abut the side or rear lot line of a lot in a residential district or use shall be screened from said lot by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart. The minimum width of the screened buffer line shall be 30 feet.

4. Side and rear lot lines between nonresidential uses shall be planted with evergreen trees in the same manner as subsection (3)g3 of this section, except that the width of the screened buffer line shall not be less than 15 feet.

5. Landscaping is considered to be vegetative treatment with trees, shrubs, flowering plants and grass and/or bark mulch. Grass only is not deemed to satisfy this requirement.

Evergreen trees shall be used as required in subsections (3)g3 and (3)g4 of this section Trees shall be a minimum of six feet at the time of planting. Where possible, existing trees shall be preserved, building shall be oriented with respect to natural landscape features, topography and natural drainage areas.

(4) *Height.* Buildings shall not exceed 75 feet in height, except in the airport approach zone where Federal Aviation Administration height regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.71C; Ord. No. 11-03012021, § 36, 3-15-2021)

Council Workshop or Meeting Date: June 20, 2023 **Ordinance:** 09-06202023

Author: Planning and Permitting Dept.

Subject: First Reading of Zone Change Petition for 37 Loring Avenue (Parcel I.D. 211-282)

Information: On June 6, 2023, Auburn Planning Board held a public hearing on a petition to amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue (Parcel I.D. 211-282) from the Urban Residential (UR) district to the Multifamily Suburban (MFS) district in order to support higher density opportunities in a residentially zoned neighborhood along Loring Avenue. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

During the public hearing, Planning Board raised questions about access to and through the property, stating the concern about the entry being only on Loring Ave. They also inquired why the proposal was to change the zone to Multifamily Suburban rather than T-4.2B, anticipating that a zone change covering a larger area to T-4.2B would come before the planning board soon. The applicant submitted a petition to rezone the property to MFS rather than T-4.2B because the property is adjacent to another property which is already zoned MFS, and this zone change would constitute an expansion of an existing zone which would still allow for greater housing density. The Planning Board voted to not accept the zone change. They cited safety and traffic concerns as their reason for not supporting the proposed zone change.

City Budgetary Impacts: N/A

Staff Recommended Action:
Staff originally supported the zone change petition from Urban Residential to Multifamily Suburban because it is a step closer to achieving higher density housing supported in the Comprehensive Plan, providing similar results to T-4.2B. The Planning Board will consider applying T4.2B zoning to a larger area, including this parcel, in July. Staff suggests Council review the Planning Board's findings, discuss, and vote not to pass the Change to Multi-Family Suburban on the first reading.

Previous Meetings and History:
June 6, 2023- Planning Board Public Hearing

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

From: John Blais, Deputy Director Planning and Permitting
Re: Zone Change Petition for 37 Loring Avenue (Parcel I.D. 211-282)
Date: June 6th, 2023

I. Proposal: Petition/ Zone Change Request:

Auburn voters submitted a petition to amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue (Parcel I.D. 211-282) from the Urban Residential (UR) district to the Multi-Family Suburban (MFS) district in order to support higher density opportunities in a residentially zoned neighborhood along Loring Avenue. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance or Zoning Map.

Materials:

1. Staff Report
2. Petition, Receipt and Map
3. Division 7 Multifamily Suburban
4. Comprehensive Plan Growth Area (Staff Report)

II. Background:

Amendments to the zoning ordinance, including the zoning map, may be initiated by the Planning Board on its own initiative or upon request by the City Council or by a petition signed by not less than 25 registered voters of the city (Ord. of 9-21-2009, Sec. 8.1A)
One of the primary tests of a zone change is its conformance with the Comprehensive Plan.

The 2021 Comprehensive Plan provides standards and mechanisms to consider if rezoning the parcel is logical. The first Comprehensive Plan supported option to approach this proposal is to rezone the area of the parcel proposed in the petition as an expansion of an existing historic core as referenced in the Comprehensive Plan: Otherwise known as growth areas:

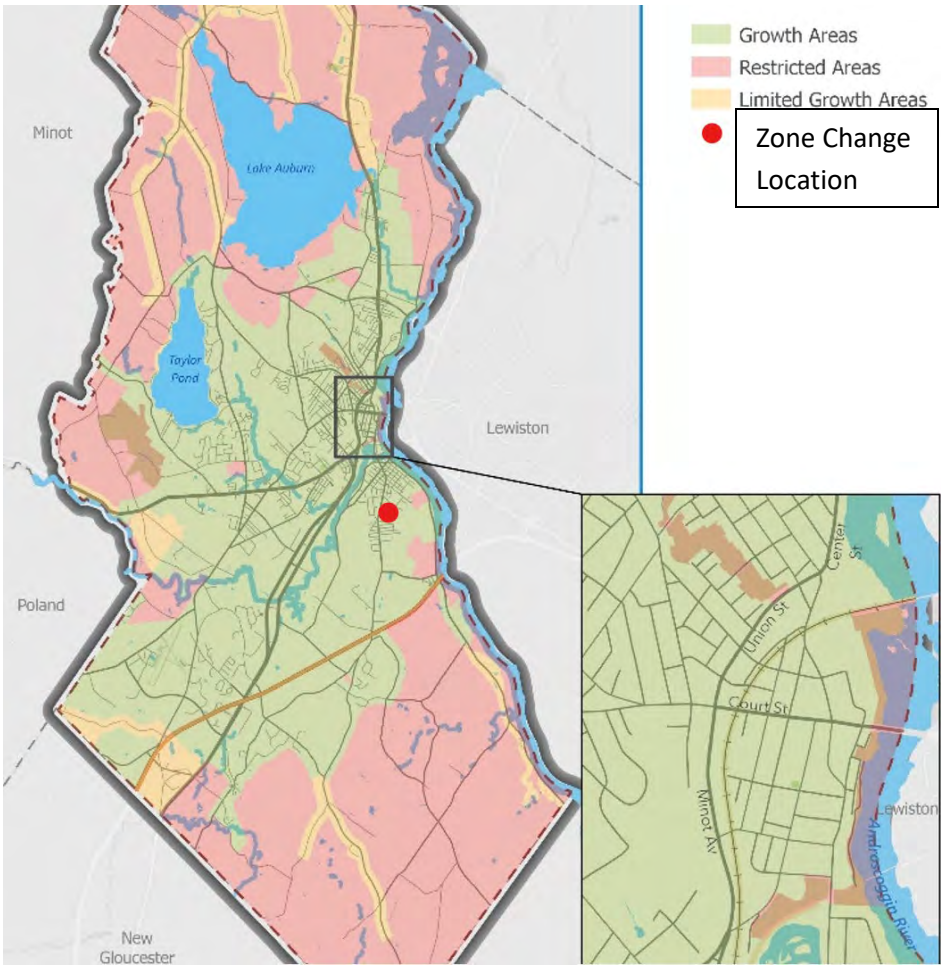

Figure 1—Growth Area —Zone Change Location.

"The Future Land Use Plan shows graphically how the City's land use policies apply to the land area of the community, and where and how growth and development should and should not be accommodated over the next decade. The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development. The intention is that this Future Land use Plan will guide near-term revisions to the City's zoning ordinance and maps to assure that the City's land use regulations are consistent with the policies set forth in this Comprehensive Plan. In addition, by designating transitional districts, the Future Land Use Plan is designed to guide future zoning changes when the circumstances become appropriate.

This Future Land Use Plan reaffirms the basic objective of land use planning, that development in Auburn should grow out from the historic cores (downtown, Danville, New Auburn, West Auburn, and East Auburn) and from older established neighborhoods. This policy was originally set forth in the City's first Comprehensive Plan over held a century ago and has continued to guide the City's land use planning ever since. We continue to believe that growth out from the downtown core and older established neighborhoods provide the most efficient utilization of city services," (Ch. 2 P. 86).

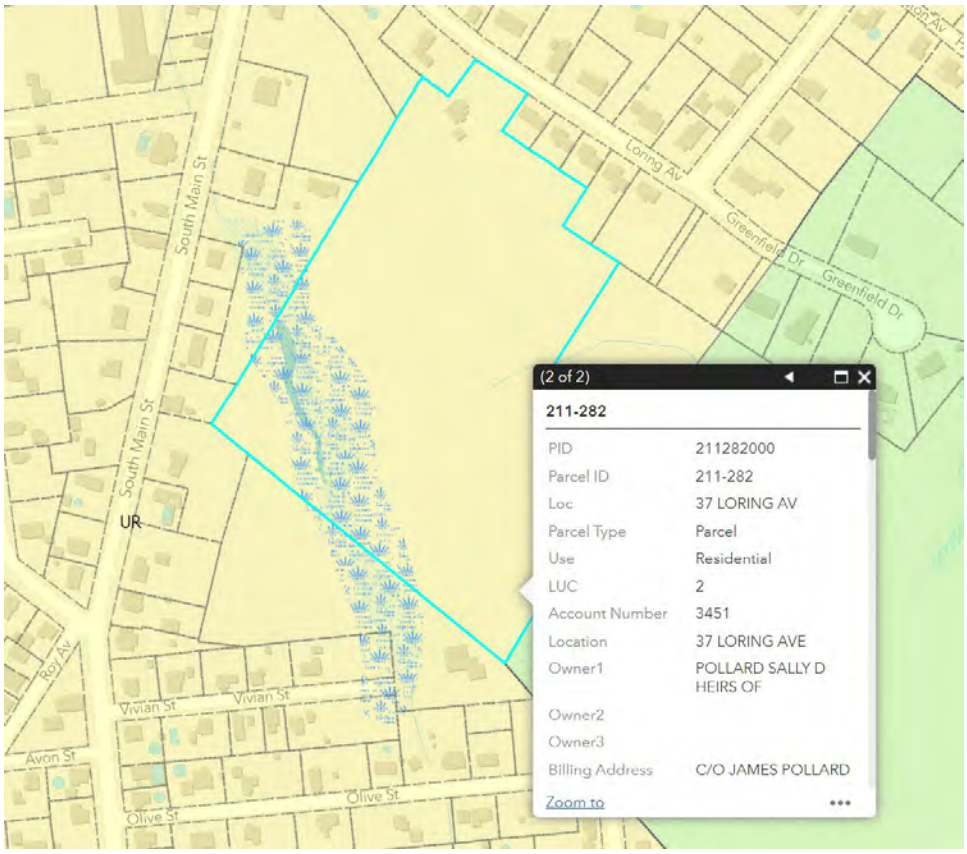

Figure 2—37 Loring Avenue—the change area requested (Urban Residential to Multi-Family Suburban) in the petition.

Planning Board Action:
Staff recommends that the planning board hold a Public Hearing and decide whether it is a good location to change 15.50 acres as petitioned, from Urban Residential to Multi-family Suburban.

III. Suggested Finding of Fact:

1. The applicant submitted rezoning petitions and signatures, City Zoning maps with Parcels identified, 500' abutters list, on May 9, 2023, thus meeting the time frame and submission standards (Sec. 60-1446).
2. The proposal can be implemented without detriment to city resources.
3. The proposal meets the general future land use plan pattern of development and is consistent with the current comprehensive plan.
4. The zone change will occur outside the Lake Auburn watershed.

V. Suggested Motion:

A. I make a motion to recommend amending 15.50 acres as petitioned, Urban Residential to Multi-Family Suburban pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend the Urban Residential (UR) zoning map of the zoning ordinance on (PID 211-282), at 37 Loring Avenue to allow for a 15.50-acre zone change of UR to Multi-Family Surburban (MFS) to support needed higher density opportunities in an otherwise residential zoned neighborhood along Loring Avenue. The abutting lot is currently zoned Multi- Family Surburban or Urban Residential and the lot would be served by public sewer and water.

One of the primary tests of a zone change is its conformance with the Comprehensive Plan. The proposed Future Land Use Plan as part of the 2021 Comprehensive Plan update process has this area zoned as a growth area and recent PB workshop discussions included this area as potential formed based code 4.2 or 4.2B. The lot is outside the floodplain.

DIVISION 7. MULTIFAMILY SUBURBAN DISTRICT

Sec. 60-305. Purpose.

This district is intended to stabilize and protect medium to high density residential areas by providing for a varied denser urban pattern made suitable to the needs of the population by encouraging a range of dwelling types. This multifamily zone has a maximum density of 17 dwelling units per acre, yet retains the open character of residential areas by requiring 50 percent green space. It is intended that this district will provide the maximum possible freedom in the design of structures and their grouping and will encourage flexible and imaginative layouts and designs.

(Ord. of 9-21-2009, § 3.44A)

Sec. 60-306. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Multifamily dwellings in existence on September 23, 1988.

(4) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Shelter for abused persons.

(7) Accessory uses, buildings or structures.

(8) Newly constructed multifamily dwellings and existing structures expanded to contain three or more additional dwelling units within a five-year period, provided that they are approved by the planning board as a subdivision under division 4 of article XVI of this chapter.

(9) Municipal uses and buildings.

(b) *Special exception uses.* The following uses are permitted as special exceptions after approval by the planning board in accordance with division 3 of article XVI of this chapter:

(1) All uses are permitted by special exception in the Urban Residence (UR) District (division 6 of article IV of this chapter).

(2) Off-street parking lot, provided that:

a. Such parking is limited to occupants of buildings located within 500 feet of such parking area whether or not within the same zone.

b. Reasonable conditions imposed by the planning board regarding location, fencing, screening, drainage, ingress and egress, signs and lighting and total capacity of the parking area designed to protect the residential character of the neighborhood are met.

(3) Professional offices.

a. Shall be in buildings which are listed on the state resource list and/or federal historic register.

b. All renovations to the building either internally and externally or both to accommodate the office use shall be accomplished in conformance with accepted historic preservation and rehabilitation guidelines.

c. A single sign to identify the building and its uses, conforming to the requirements contained in article VI of this chapter. Signs shall not be lighted.

(4) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.44B; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-03012021, §§ 22, 23, 3-15-2021)

Sec. 60-307. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations.

(1) *Minimum lot area, width and depth.* For each building erected, there shall be provided lot areas as follows:

a. Building housing one family: 10,000 square feet minimum lot area, not less than 100 feet width, and 100 feet in depth.

b. Buildings housing two families: 12,000 square feet minimum lot area, not less than 100 feet width, and 100 feet in depth.

c. Multifamily buildings: 10,000 square feet minimum lot area for the first dwelling unit and 2,000 square feet minimum lot area for each additional dwelling unit. No lot shall be less than 100 feet width and 100 feet in depth. More than one principal building per lot is allowed.

(2) *Density.* The following maximum densities per acre shall apply, according to housing type:

One-family	4 units per acre
Two-family	6 units per acre
Multifamily	17 units per acre

Not less than 50 percent of the net acreage shall be devoted to green area. Green space shall be deemed to include patios, whether paved or not, pedestrian walks, and landscaping within parking lots, but no off-street parking spaces, driveways, or common roads. For townhouse projects, the green area of individual lots may be counted toward the 50 percent green space requirement of the project. Net acreage shall include all land contained within the project except dedicated streets or street rights-of-way shown on the city's adopted master development plan or proposed to be so included within a reasonable period of time.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet or 25 percent of the average depth of lot, whichever is less.

b. *Side.* There shall be a minimum distance of five feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 15 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

(4) *Height.* The height of all structures shall be limited to 2½ stories or 35 feet, except as follows:

a. Multifamily buildings shall have a maximum height of 45 feet from grade.

b. A church or temple or windmill may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.44C; Ord. No. 11-03012021, §§ 24, 59, 3-15-2021; Ord. No. 19-05032021, 5-17-2021)

RE: Planning Board recommendation to City Council on 37 Loring Ave. Map Amendment proposing changing the parcel from Urban Residence (UR) to Multifamily Suburban (MFS).

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: Auburn voters submitted a petition to amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue (Parcel I.D. 211-282) from the Urban Residential (UR) district to the Multi-Family Suburban (MFS) district in order to support higher density opportunities in a residentially zoned neighborhood along Loring Avenue. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

MOTION: Toni Ferraro makes a motion; Tim DeRoche seconds.

"My motion is not to go forward my findings are (that) if you go down Loring Ave, I really do not understand how you could fit a firetruck down there or the amount of traffic that would come along with a larger development for multifamily (buildings)". Riley Bergeron clarifies that the reasons to deny the proposal are safety and traffic. Toni Ferraro confirms this is the intention. **VOTE**: Motion passes to not recommend the zone change 7-0-0.

ORDINANCE 09-06202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zone Change Petition to amend the zoning at 37 Loring Avenue (Parcel I.D. 211-282) from Urban Residential to Multifamily Suburban

Be it ordained, That the Auburn City Council amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue on Auburn Tax Map Parcel I.D. 211-282 from the Urban Residential (UR) district to the Multi-Family Suburban (MFS) district as shown in this packet.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 20, 2023 **Ordinance:** 10-06202023 and **Order:** 91-06202023

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: The City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)).

Information: Additional information about the collaboration with various interest groups leading up to this First reading is available in the attached AGRP Staff report to the Planning Board dated 6/6/2023. At the 6/6/2023 Planning Board Public Hearing the Board passed a favorable recommendation on to the City Council to adopt "Proposal B," with recommended amendments to the draft. Those recommended amendments are detailed in the attached memo (Titled: Planning Board recommendation to City Council on AGRP Zone Proposals A and B) from The Auburn Planning Board to the City Council dated 6/6/2023. Staff worked with legal counsel to determine which amendments could be made without a new public hearing at the Planning Board and it is staff's opinion that some are more substantive than others. Our Counsel recommends that all the Planning Board recommended changes to Proposal B should be reviewed at a Public Hearing with the Planning Board prior to adopting the changes to Proposal B. The Council has a choice to reject or adopt Proposal A, Proposal B or adopt Proposal B with changes recommended by Planning Board. We know that the process has taken longer than desired by the Council and we are past the deadline given for the process. One option is to approve Proposal B and then choose to refer some or all of the recommended changes from Planning Board back to the Planning Board for a Public Hearing and then they will return for future consideration by the Council. The draft Proposal B with recommended changes appears to have wide community support. The legal process makes it difficult to adopt all of the changes recommended by the Planning Board tonight and to stay on schedule for a second and final reading on July 10th.

City Budgetary Impacts: None immediately. New homes will come with new costs for services and new tax revenues, but exact numbers will depend on home values and service demands.

Staff Recommended Action: Staff recommends that the Council adopt first reading of Proposal B and refer the Planning Board recommended changes back to the Planning Board for a Public Hearing and future consideration by the Council.

Previous Meetings and History: September 9, 2022—City Council passes Resolve 06-09062022, October 11, 2022—Planning Board is introduced to Resolve 06-09062022, November 7, 2022—City Council passes Order 151-11072022, November 15, 2022—Planning Board holds first workshop to consider Resolve 06-09062022, and Order 151- 11072022. Received recommendation from SNRB, December 5, 2022—City Council responds to

RE: Planning Board recommendation to City Council on AGRP Zone Proposals A and B.

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)). This public hearing will consider two proposed sets of text amendments: "Proposal A", the same proposal considered at the public hearing on May 9, 2023; and "Proposal B", as the Planning Board directed staff to prepare at its May 9, 2023, meeting. The proposed text changes are available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the Planning Department in City Hall. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance, and Division 3-Public Hearing.

MOTION: Tim DeRoche makes a motion; Toni seconds.

"I make a motion to recommend amending Sec. 60-1 of Article I, In General, as shown in Proposal "B", Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations. Division 2, Agricultural and Resource Protection District as shown in Proposal "B", and amend Sec. 60-952 of Article XII- Environmental Regulations, Divisions 4, Lake Auburn Watershed Overlay District, also as shown in "Proposal B."

The following motions are amendments to the main motion, above.

Motions 1-7 are directly from Evan Cyr's proposed amendments to Proposal "B", submitted 6/6/2023.

Motions 8-9 are from AGRP Zone Group public comment from Steve Beale dated 6/5/2023.

1. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron suggests an amendment for "Sec. 60- 145 (a)(1)(a) to include the language 20% of 2 acres, which ever is less" in reference to lot size. Dave Trask seconds. **VOTE**: Amendment passes 7-0-0

2. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron offers another amendment that 60-145(a)(1)(b)(ii) should be amended to consider all permitted agricultural uses rather than just farming. Dave Trask Seconds. **VOTE:** Amendment passes 7-0-0

3. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron would also like to include an amendment for Section 60-145(a)(1)(b)(vii) to read not be sited in any portion of a parcel that has been classified as being: "a. Enrolled in the State of Maine Farmland Tax Program in the last five years, or" **VOTE:** Amendment passes 6-1-0

4. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for section 60-145(a)(1)(c) which only references Section 60-145(a)(1)(a) but there are also requirements for a residence later in that section. This could be accomplished by reading, "No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirements set forth in Section 60-145(a)(1)(a) and Section 60-145(a)(1)(b)(ii) have been presented" **VOTE:** Amendment passes 7-0-0.

5. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron also offers an amendment to Sec. 60-145 (a)(1)(d) for it to read: "which the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) or the residence fails to remain accessory to an approved plan in accordance with Section 60-145(a)(1)(b)(ii). **VOTE:** Amendment passes 6-1-0

6. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for Section 60-146(1) to read, "and measuring less than 250 feet in width at the street frontage along a publicly accepted street," **VOTE:** Amendment passes 4-3-0

7. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron offers an amendment on Section 60-146(3) to read a maximum depth of 30% or 400 feet, whichever is less.

Riley Bergeron clarifies that his amendment refers to where the house should be set on the lot, the same text provided as public comment. David Trask also seconds after this clarification. **VOTE:** Amendment passes 7-0-0

8. **MOTION:** Tim DeRoche; Second: Riley Bergeron

Tim DeRoche proposes an amendment found in Mr. Beale's public comment in Section 145(a)(3) that 'firewood processing and Christmas tree cultivation' should follow the words maple sugaring." **VOTE:** Amendment passes 7-0-0

9. **MOTION:** David Trask; Second: Toni Ferraro

David Trask offers an amendment that in Section 145(b)(8)(a) the words except for approved conservation cemeteries which shall be at least 10 acres in size" should be added. **VOTE:** Amendment passes 7-0-0

10. MOTION: David Trask; Second: Toni Ferraro

David Trask would like to amend where referenced the Lake Auburn watershed to include the Taylor Pond watershed as well. **VOTE:** Amendment passes 7-0-0

MOTION: Tim DeRoche; Second: David Trask

"I make a motion to approve the B option with said amendments (1-10)" **VOTE:** Motion passes 7-0-0.

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Public Hearing and Text Amendment on AGRP Zone Proposals A and B
Date: June 6, 2023

I. Proposal:

The City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)). This public hearing will consider two proposed sets of text amendments: "Proposal A", the same proposal considered at the public hearing on May 9, 2023; and "Proposal B", as the Planning Board directed staff to prepare at its May 9, 2023, meeting. The proposed text changes are available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the Planning Department in City Hall. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance, and Division 3-Public Hearing.

II. Materials:

1. Staff Report 6/6/2023
2. AGRP District Zoning Text Amendments- Proposal "A"- presented at the Planning Board Public Hearing 5/9/2023.
3. AGRP District Zoning Ordinance Text Amendments- Proposal "B" as directed by Planning Board for Planning Board Public Hearing 6/6/2023
4. Public Comment submitted 5/16/2023
5. Public Comment Submitted 5/30/2023

III. Planning Board Action:

The purpose of this public hearing is to hear from the community, to review the latest draft ordinance text, and to make a recommendation to the City Council on eliminating the income standard (outside Lake Auburn watershed). At the May 9, 2023, Planning Board meeting, the Planning Board held a public hearing on Proposal "A", drafted by the Planning Board and City Council. Staff recommended at the meeting that the Planning Board not approve the proposed text amendments and offered an alternative that a text and/or map amendment changing the zoning to Residential in defined areas in AGRP zone outside the Lake Auburn watershed could meet residential demand with fewer unintended consequences. That combined a modified version of the residential strip map while maintaining the concept of growing outward from the core. It also creates significant new opportunities for housing and leaves much of the AGRP zone functions in place. The option that staff recommended at the May 9, 2023, meeting would have upheld the income requirement in the remaining AGRP zone. Also, during this meeting, staff supported the possibility of an alternative proposal reflecting alternative connections between housing and agriculture as well as other permitted uses, not just traditional farms, as recommended by the Comprehensive Plan.

At the May 9, 2023, meeting, in addition to Proposal "A", a group of interested residents of Auburn, calling themselves the AGRP zone group, offered an alternative ordinance draft amendment as public comment which also eliminated the income standard, but added criteria to maintain the connection of housing to agriculture. The Board found strengths in Proposal "A" and in the public comment ordinance draft; specifically, that Proposal "A" afforded environmental protections that were not explicitly named in the existing, codified AGRP zone, but also that the public comment ordinance draft maintained a connection to agriculture that Proposal "A" did not. The Board decided to hold a hearing on a draft ordinance text amendment which accomplished the strengths in both Proposal "A" and the public comment ordinance draft. As such, Evan Cyr made a motion to table (the vote on whether to remove the income standard) until the next meeting (June 6, 2023) with direction to staff to create ordinance text amendment options for the Planning Board to review that incorporates the ideas presented in the AGRP zone group draft (presented as public comment during the May 9, 2023 public hearing) regarding tying residences to uses within the AGRP zone that would be congruent with the Comprehensive Plan and Proposal "A" originally presented for the May 9, 2023 meeting.

Staff has responded to this direction by drafting Proposal "B", which maintains the environmental protections and eliminates the income requirement as introduced in Proposal "A" and maintains the connection of housing to agriculture as a prerequisite for residential development. Proposal "B" goes further to expand the possible connection of housing as accessory to not only agriculture, but also other allowed uses in the AGRP zone including forestry, natural resource uses, and recreational uses. These connections expand the possibility of residential development in the AGRP zone because the range of uses which allow an accessory residential dwelling will be broadened, but it maintains the purpose and much of the fabric of the AGRP zone, while eliminating the income standard. Two proposed ordinance text amendments are before the Planning Board as Proposal "A" presented at the Planning Board Public Hearing 5/9/2023, and Proposal "B" as directed by Planning Board for Planning Board Public Hearing 6/6/2023. We have outlined the differences between the two proposals below.

The differences between Proposal "A" and Proposal "B" are as follows:

1. Proposal "B" adds the definition of "natural resource uses" to Sec. 60-2
2. Proposal "B" updates Sec. 60-2 by adding the definition of "recreational uses of land" to include sports field complexes larger than one acre in area, health and wellness centers, facilities for wedding or event venues when used for two or more events during a calendar year and includes "major recreational uses of land" and "recreational uses of land, small scale".
3. Proposal "B" adds the definition of "Recreational uses of land, small scale".
4. In Sec. 60-145(a)(1), Proposal "A" strikes the requirement that new dwellings are accessory to farming operations while Proposal "B" expands the requirement that new dwellings be connected to agriculture and recreational and natural resource uses, and adds criteria for determining whether the farm, recreational or natural resource use plan is acceptable. Both proposals add specification that residential development must be restricted to 20% of land coverage, and both define what constitutes residential development and introduce environmental restrictions for sitting this development. Both also remove the provision that dwellings connected to farm uses must remain connected to such uses.
5. Proposal "B" expands Sec. 60-145(a)(3) by including maple sugaring and mushroom cultivation, and other similar forest product uses.

6. Proposal "B" expands Sec. 60-145(a)(10) expands on the handling, storage and dale of agricultural products to add "processing" and "forestry products" and removes the provision that such products be derived from the property where the dwelling is sited.
7. Proposal "B" adds Sec. 60-145(a)(17) "natural resource uses".
8. Proposal "B" adds Sec. 60-145(a)(18) "small -scale recreational uses of land designed or intended for public use".
9. Proposal "B" changes Sec. 60-145(b)(5) special exception recreational uses are as "non-small scale".
10. Proposal "A" adds the same environmental restrictions as Sec. 60-145(a)(1) to Sec. 60-145 (b)(18) while Proposal "B" strikes any lot size distinctions for dwellings on legally existing lots from 6.1 to 10 acres in area.
11. In Sec. 60-146(1)(c), Proposal "B" adds the word "lawfully" to specify which lots existing as of October 1, 2017, are buildable, and strikes the requirement that these cases be treated as special exceptions.
12. Proposal "B" changes Sec. 60-952(b) prohibits new dwellings in the Lake Auburn Watershed portions of the AGRP zoning district.

IV. Suggested Motion:

I make a motion to recommend amending Sec. 60-1 of Article I, In General, as shown in Proposal "B", Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations. Division 2, Agricultural and Resource Protection District as shown in Proposal "B", and amend Sec. 60-952 of Article XII- Environmental Regulations, Divisions 4, Lake Auburn Watershed Overlay District, also as shown in "Proposal B".

BE IT ORDAINED, that the City Council hereby approves the amendment of the text and map of Chapter 60, Zoning, of the Code of Ordinances as follows:

---

1. Amend Sec. 60-2 of ARTICLE I, IN GENERAL, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE I. IN GENERAL

● ● ●

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

● ● ●

Major recreational use of land means permanent use of at least 100 acres of outdoor space limited to ski areas with at least two lifts and public and private golf courses with a minimum of 18 holes.

● ● ●

Natural resource uses means uses that utilize naturally occurring assets such as air, water, soils, fuel, minerals, plants or animals to provide public benefit through the provision of raw materials and/or energy.

● ● ●

Recreational uses of land means permanent uses of outdoor space which are intended or designed for public use and include but are not limited to ski areas, golf courses (both public and private), driving ranges, horse boarding and riding facilities, miniature golf, paintball, horse and dog racing, snowmobile races, sports field complexes larger than one (1) acre in area, health and wellness centers, motorhome or recreational vehicle parks or commercial campgrounds, and facilities for wedding or event venues when used for two or more events during a calendar year, or facilities for mass gatherings when used for two or more events during a calendar year. *See also* "Major recreational use of land" and "Recreational uses of land, small-scale".

Recreational uses of land, small-scale means permanent uses of outdoor space that are intended or designed for public use that are smaller or lower impact than other types of recreational uses of land, and include, but are not limited to, trails, water access or boat access facilities, foraging, outdoor education or training facilities, sports field complexes one (1) acre or less in area, and public gardens.

● ● ●

---

2. Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of S~~s~~ec.~~tion~~ 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according the most recent census data.~~ The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter;

and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such ~~farm~~ residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the

requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~er~~ charged with authority to issue the certificate of occupancy~~enforcement are 75 percent completed~~.

d~~c~~. In no case shall any ~~farm~~ residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

~~d. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this article.~~

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest, including, but not limited to, maple sugaring or mushroom cultivation.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.

(10) Handling, storage or processing and sale of forestry products or agricultural~~e~~ ~~produce~~products ~~and processed agricultural products derived from produce grown on the premises~~.

(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.

(12) Wayside stands.

(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.

(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.

(15) Marijuana manufacturing accessory to a licensed cultivation site.

(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in S~~s~~ec.~~tion~~ 60-1501.

(17) Natural resource uses.

(18) Small-scale recreational uses of land designed or intended for public use.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:

a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.

b. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.

c. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.

(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.

(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.

(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.

(5) Non-small scale ~~R~~recreational uses of land intended or designed for public use subject to the following conditions:

a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.

b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.

(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:

a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.

b. In cases where no minimum setback is established by division 5 of article XII of this chapter an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:

a. At least 20 acres in area.

b. Not located in any environmental overlay district or over any known aquifer.

(9) Municipal sanitary landfills, subject to the following conditions:

a. Not located in any environmental overlay district or over any known aquifer.

b. Provisions shall be made to avoid surface water and groundwater pollution.

c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:

a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.

b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:

a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.

b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:

a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.

b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.

c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:

a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.

b. The proposed use shall not occupy more than 10,000 square feet of building area.

c. The number of employees shall be limited to not more than 15.

d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.

e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:

a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.

b. Provisions shall be made to avoid surface and groundwater pollution.

c. Provisions shall be made to counteract vermin, insects and odors.

d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.

e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is (19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Ssec.~~tion~~ 60-1501, subject to the following conditions:

(18) [RESERVED]~~One-family detached dwellings, including manufactured housing, subject to all the design standards, except the siting requirements of section 60-1010, as set forth in division 6, article XII of this chapter, on parcels containing greater than 6.1, but less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restrictions:~~

~~a. At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according to the most recent census data; and~~

~~b. No certificate of occupancy shall be issued for any such farm residence until the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications presented to the municipal officer charged with enforcement are 75 percent completed; and~~

~~c. The applicant shall demonstrate compliance with the following requirements, said compliance to be first reviewed by the Agricultural Advisory Committee for recommendation:~~

~~1. The applicant shall provide a farm business plan that appears feasible and, if implemented, will meet the definition of a farm.~~

~~2. The parcel can reasonably accommodate the proposed farm.~~

~~3. The applicant shall demonstrate a commitment to the proposed farm use through compliance with the following requirements:~~

~~4. The parcel must contribute to a gross income per year of at least the amount required to meet the definition of farmland in 36 M.R.S.A. § 1102(4), per year from the sales value of agricultural products as defined in 7 M.R.S.A. § 152(2) in the two calendar years preceding the date of application for special exception use approval. Gross income includes the value of commodities produced for consumption by the farm household.~~

~~5. The proposed residence shall be accessory to farming.~~

~~6. The proposed residence shall not be located in the Lake Auburn Watershed Overlay District.~~

~~d. The parcel was existing as of October 1, 2017, contains more than five acres of land area, and otherwise meets the requirements of this chapter.~~

~~e. In no case shall any farm residence constructed under the provisions of this section, after the effective date of the amended ordinance from which this section is derived, continue to be occupied as a residence if the principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement.~~

~~f. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirement of this article.~~

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in ~~s~~Sec.~~tion~~ 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.

2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.

3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under S~~subs~~ec.~~tion~~ 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on subsection 60-145(b)(19)d. by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.

2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.

3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;

2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;

3. To the extent possible, infrastructure shall not be located on steep slopes; and

4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.

2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Ssec.~~tion~~ 60-2.

c. A dwelling may be constructed on lots lawfully existing as of October 1, 2017 and containing ~~greater than 6.1 acres but~~ less than ten acres~~,~~ only if approved ~~as a special exception~~ pursuant to ~~subs~~Sec.~~tion~~ 60-145(~~a~~b)(1~~8~~).

(2) *Density.* The density of ~~year-round~~ dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

---

3. Amend Sec. 60-952 of ARTICLE XII, ENVIRONMENTAL REGULATIONS, DIVISION 4, *LAKE AUBURN WATERSHED OVERLAY DISTRICT*, as follows (additions are underlined; deletions are ~~struck-out~~):

ARTICLE XII. – ENVIRONMENTAL REGULATIONS

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

• • •

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* ~~Notwithstanding subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),~~ New one-family detached dwellings are ~~only permitted~~ prohibited in the Lake Auburn Watershed District as of the date of adoption of amendments to this ordinance evidenced by Ordinance #XXXX ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~.

• • •

BE IT ORDAINED, that the City Council hereby approves the amendment of the text and map of Chapter 60, Zoning, of the Code of Ordinances as follows:

---

1. Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Ss~~tion~~ 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, ~~provided that the dwelling is accessory to farming operations and~~ subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according the most recent census data.~~ The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iii) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on wetlands; and

(v) Avoid being sited on slopes greater than 25%; and

(vi) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such farm residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~r~~ charged with authority to issue the certificate of occupancy~~enforcement are 75 percent completed~~.

d~~c~~. In no case shall any ~~farm~~ residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

~~d. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this article.~~

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.

(10) Handling, storage and sale of agriculture produce and processed agricultural products derived from produce grown on the premises.

(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.

(12) Wayside stands.

(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.

(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.

(15) Marijuana manufacturing accessory to a licensed cultivation site.

(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in Ssec~~tion~~ 60-1501.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:

a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.

b. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.

c. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.

(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.

(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.

(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.

(5) Recreational uses of land intended or designed for public use subject to the following conditions:

a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.

b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.

(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:

a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.

b. In cases where no minimum setback is established by division 5 of article XII of this chapter an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:

a. At least 20 acres in area.

b. Not located in any environmental overlay district or over any known aquifer.

(9) Municipal sanitary landfills, subject to the following conditions:

a. Not located in any environmental overlay district or over any known aquifer.

b. Provisions shall be made to avoid surface water and groundwater pollution.

c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:

a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.

b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:

a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.

b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:

a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.

b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.

c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:

a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.

b. The proposed use shall not occupy more than 10,000 square feet of building area.

c. The number of employees shall be limited to not more than 15.

d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.

e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:

a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.

b. Provisions shall be made to avoid surface and groundwater pollution.

c. Provisions shall be made to counteract vermin, insects and odors.

d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.

e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is requested or is adjacent to the property for which the special exception is requested.

(18) One-family detached dwellings, including manufactured housing, subject to all the design standards, except the siting requirements of Ss~~s~~ec.~~tion~~ 60-1010, as set forth in division 6, article XII of this chapter, on parcels containing ~~greater than 6.1, but~~ less than ten acres, ~~provided that the dwelling is accessory to farming operations and~~ subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according to the most recent census data; and~~The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land

coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Planning Board that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iii) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Planning Board that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on wetlands; and

(v) Avoid being sited on slopes greater than 25%; and

(vi) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such ~~farm~~ residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~or~~ authority to issue the certificate of occupancy~~charged with enforcement are 75 percent completed~~; and

~~c. The applicant shall demonstrate compliance with the following requirements, said compliance to be first reviewed by the Agricultural Advisory Committee for recommendation:~~

~~1. The applicant shall provide a farm business plan that appears feasible and, if implemented, will meet the definition of a farm.~~

~~2. The parcel can reasonably accommodate the proposed farm.~~

~~3. The applicant shall demonstrate a commitment to the proposed farm use through compliance with the following requirements:~~

~~4. The parcel must contribute to a gross income per year of at least the amount required to meet the definition of farmland in 36 M.R.S.A. § 1102(4), per year from the sales value of agricultural products as defined in 7 M.R.S.A. § 152(2) in the two calendar years preceding the date of application for special exception use approval. Gross income includes the value of commodities produced for consumption by the farm household.~~

~~5. The proposed residence shall be accessory to farming.~~

~~6. The proposed residence shall not be located in the Lake Auburn Watershed Overlay District.~~

d. The parcel was existing as of October 1, 2017~~, contains more than five acres of land area,~~ and otherwise meets the requirements of this chapter.

e. In no case shall any ~~farm~~ residence constructed under the provisions of this section, after the effective date of the amended ordinance from which this section is derived, continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(b)(18)(a).

~~f. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirement of this article.~~

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in S~~s~~ec.~~tion~~ 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.

2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.

3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under S~~subs~~ec.~~tion~~ 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or

diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on subsection 60-145(b)(19)d. by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

    1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.

    2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.

    3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

    4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

    1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

    1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;

    2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;

    3. To the extent possible, infrastructure shall not be located on steep slopes; and

    4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

    1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.

    2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Ssec. ~~tion~~ 60-2.

c. A dwelling may be constructed on lots existing as of October 1, 2017 and containing ~~greater than 6.1 acres but~~ less than ten acres~~,~~ only if approved as a special exception pursuant to subsection 60-145(b)(18).

(2) *Density.* The density of ~~year-round~~ dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

---

2. Amend Sec. 60-952 of ARTICLE XII, ENVIRONMENTAL REGULATIONS, DIVISION 4, *LAKE AUBURN WATERSHED OVERLAY DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE XII. – ENVIRONMENTAL REGULATIONS

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

• • •

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* ~~Notwithstanding subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),~~ New one-family detached dwellings are ~~only permitted~~ prohibited in the Lake Auburn Watershed District as of the date of adoption of amendments to this ordinance evidenced by Ordinance #XXXX ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~.

RE: AGRP Zoning Test Amendment, Proposal B

I am unable to attend this evening's Planning Board meeting, but would like to provide some comments regarding "Proposal B" in the Planning Board packet under the proposed AGRP zoning text amendment.

I think staff has a done a very good job of integrating a tie into agriculture and natural resource uses and that their draft represents the comments a directive given to the by the Planning Board. Overall, I believe that "Proposal B" represents the best solution for eliminating the income standard in the AGRP Zone that I have seen in my time on the Board. It eliminates the income standard while still avoiding conflict with the Comprehensive Plan. Additionally, "Proposal B" maintains much of the natural resource protection language that was first proposed in prior to "Proposal A". I believe "Proposal B" represents a reasonable alternative to the current income standard.

Having said this, I do have the following comments:

1. Sec. 60-145(a)(1)(a) should be reviewed considering some of the very large parcels in the AGRP zone. If a landowners uses the entirety of the 20% allowed, there could be unintended consequences. If a landowner were to do this, they necessarily could not then split their parcel because doing so would create non-conformity with ordinance. Their 20% residential envelope would be more than 20% of their new, smaller, lot. Specifically, the landowner would no longer be able to occupy their home as a residence under Sec. 60-145(a)(1)(d). This should be avoided. The Planning Board should consider identifying a maximum allowed envelope size on lots larger than 10acres. Using "20% or two acres, whichever is less" could be a reasonable solution.

2. Sec. 60-145(a)(1)(b)(ii) should be amended to consider all permitted agricultural uses, rather than just farming. This should also be reflected in the subsections of this same section. There are several agricultural uses allowed in the AGRP zone that are not specifically farming.

3. Sec. 60-145(a)(1)(b)(vii) is superfluous. The original language included a prohibition 10 years after land had been unenrolled. This was meant to disincentivize the quick conversion of specific land types into residential land. I believe this is still worthwhile, but that the current language does not accomplish this goal. I believe the Planning Board should consider adding language that prohibits siting the residential development envelope on land that has been enrolled in one of the three State tax programs within the last 5 years. An example might look like the following:

   Sec. 60-145(a)(1)(b)(vii):

"(vii) Not be sited on any portion of a parcel that has been classified as being:
a. Enrolled in the State of Maine Farmland Tax Program within the last 5 years, or.."

4. Sec. 60-145(a)(1)(c) only references Sec. 60-145(a)(1)(a), but there are also requirements for the residence in a later section. Reference to Sec. 60-145(a)(1)(b) should also be made. This could be accomplished by revising to read:

   "No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirements of Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii) have been presented…"

5. Sec. 60-145(a)(1)(d) suffers the same deficiency as the section mentioned in number 4 of this list. The Planning Board should consider amending the end of the sentence to read:

   "… which the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) or the residence fails to remain accessory to an approved plan in accordance with Sec. 60-145(a)(1)(b)(ii)."

6. Sec. 60-146(1) can be confusing. The implication is that the frontage must be on a publicly accepted street, but this may not be obvious to all readers. The Planning Board should consider amending the frontage requirement to read:

   "…and measuring less than 250 feet in width at the street frontage along a publicly accepted street,…"

7. Sec.60 146(3) utilizes a maximum depth of 30%. This could be a very deep setback depending on the depth of the lot itself. The Planning Board should consider whether the language should utilize the 30% maximum depth in conjunction with a maximum setback in feet, then require the use of whichever is less. 400ft may be an appropriate number to consider.

From: Steve Beale
To: "Katherine Cook"
Subject: June 5, 2023 suggested final amendments to proposal B
Date: Monday, June 5, 2023 4:40:05 PM

Katherine,

In electronic format, here are the suggested changes to Proposal B which we discussed earlier this afternoon.

In Section 145(a)(1)(a) insert the words"…or two acres, whichever is less." After the word "constructed."

In Section 145(a)(1)(b)(ii) insert the words "…or other permitted agricultural,…" after the word "farming."

In Section 145(a)(1)(b)(ii)(a) insert the words "…or other permitted agricultural…" after the word "farming…"

In Section 145(a)(1)(b)(iv) we believe that the State's exclusive authority over the definition of "essential habitat" renders this subsection, which is subject to interpretation and application by the local Code Enforcement Officer, unenforceable and of no legal effect, and that it should therefore be deleted.

In Section 145 (a)(1)(b)(vi) another provision of the City's ordinances contains an absolute prohibition on construction of a residence on any slope of greater than 25 degrees in any of the City's zoning districts and thus makes this subsection, with its less than mandatory language, conflicting and inoperable. It should therefore be deleted.

In Section 145(a)(3) the words "…firewood processing, Christmas tree cultivation…" are recommended for insertion after the words "maple sugaring…"

In Section 145(a)the word "Beekeeping" is recommended as a new subsection (a)(12), with subsequent subsections renumbered accordingly.

In Section 145(b)(8)(a) the words “…except for approved conservation cemeteries, which shall be at least 10 acres in size.” should be added at the end of the present subsection.

Subject:	Public comment for Planning Board packet
Date:	Monday, June 5, 2023 3:36:09 PM

For public comment/Planning Board packet:

Just as restrictions to development in the Lake Auburn Watershed District are being proposed, so too, the AG/RP land in the Taylor Pond Watershed district should not be developed residentially, in order to help protect the quality of the water, on which the uses and value of the pond and property values to the city depend.

ORDINANCE 10-06202023

City Council Ordinance

IN CITY COUNCIL

Amending the zoning ordinance Section 60-2 Definitions and Article IV District Regulations, Division 2 Agriculture and Resource Protection District.

Be it ordained, That the Auburn City Council amend the zoning ordinance Section 60-2 Definitions and Article IV District Regulations, Division 2 Agriculture and Resource Protection District as shown in the attached "Proposal B" with an amendment to replace the text "Ordinance #XXXX" on page 10 of Proposal B with the text " Ordinance # 10-06202023. .

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

ORDER 91-06202023

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council directs the Planning Board to hold a public hearing on additional changes to "Proposal B", Article IV District Regulations, Division 2 Agriculture and Resource Protection District as recommended in the attached memo, Titled: Planning Board recommendation to City Council on AGRP Zone Proposals A and B

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 20, 2023 **Order:** 92-06202023

Author: Sue Clements-Dallaire, City Clerk

Subject: Authorizing the City Manager and/or his designee to execute the final purchase and sale agreement for tax map 211, lot 288 for Fire Engine 2 replacement.

Information: The acquisition of this 1.08 parcel of land will allow for a new engine 2 station to built at the current engine 2 address while ensuring continuous operations out of engine 2 during construction. This will also allow for a pull through designing meeting the highest safety standards.

City Budgetary Impacts: $140,000

Staff Recommended Action: Recommend passage.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

"Maine's City of Opportunity"

Financial Services

TO: **Phillip Crowell, City Manager**

FROM: **Jill Eastman, Finance Director**

REF: **May 2023 Financial Report**

DATE: **June 20, 2023**

The following is a discussion regarding the significant variances found in the City's May financial report. Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department.

The City has completed its eleventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 91.7% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

Revenues

A. Revenues collected through May 31st, including the school department, were $94,032,908, or 87.84%, of the budget. The municipal revenues including property taxes were $63,992,030 or 90.80% of the budget which is less than the same period last year by 6.74%, however the dollar amount is greater by $444,712. The accounts listed below are noteworthy.

B. The current year tax revenue is at 91.89% as compared to 97.96% last year. The 30 day notice of liens were sent out in May and tax liens will be filed at the end of June on any properties that have unpaid taxes.

C. Excise tax for the month of May is at 97.37%. This is a $88,835 increase from FY 22. Our excise revenues for FY23 are 5.70% above projections as of May 31, 2023.

D. State Revenue Sharing for the month of May is 104.94% or $706/120 more than last year in May.

Expenditures

City expenditures through May 2023 were $44,241,310 or 86.2%, of the budget. This is 3.38% lower than May of last year.

Noteworthy variances are:

A. The operating departments are in line with this time last year. The accounts that are lower than last year are due to staffing shortages and timing difference in certain payments.

Investments

This section contains an investment schedule as of May 31st. Currently the City's funds are earning an average interest rate of 3.55%.

Respectfully submitted,

Jill M. Eastman
Finance Director

Re: Arena Financial Reports for May 31, 2023

Attached you will find a Statement of Net Assets and a Statement of Activities and budget to actual reports for Norway Savings Bank Arena for revenue and expenditures as of May 31, 2023.

NORWAY SAVINGS BANK ARENA

Statement of Net Assets:
The Statement of Net Assets lists current assets, noncurrent assets, liabilities, and net assets and shows a comparison to the previous month, in this case, April 30, 2023.

Current Assets:
As of the end of May 2023 the total current assets of Norway Savings Bank Arena were ($1,063,210). These consisted of cash and cash equivalents of $281,193, accounts receivable of $119,925, and an interfund payable of $1,464,328.

Noncurrent Assets:
Norway's noncurrent assets are equipment that was purchased, less depreciation (depreciation is posted at year end). The total value of the noncurrent assets as of May 31, 2023, was $147,691.

Liabilities:
Norway Arena had no accounts payable as of May 31, 2023.

Statement of Activities:

The statement of activities shows the current operating revenue collected for the fiscal year and the operating expenses as well as any nonoperating revenue and expenses.

The operating revenues for Norway Arena through May 2023 are $1,025,164. This revenue comes from the concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

The operating expenses for Norway Arena through May 2023 were $738,508. These expenses include personnel costs, supplies, utilities, repairs, rent, capital purchases and maintenance.

At the end of May 2023, there was an operating gain of $286,656.

As of May 31, 2023, Norway Arena has an increase in net assets of $286,656.

The budget to actual reports for revenue and expenditures, with comparison to the same period last year show that revenue for FY23 is $97,068 more than in FY22 and expenditures in FY23 are $118,343 more than last year in May.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 20, 2023

Subject: Executive Session

Information: Labor negotiations (MSEA), pursuant to 1 M.R.S.A. Section 405(6) (D).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Special Meeting
Agenda
July 10, 2023
Auburn Hall, Council Chambers

5:30 P.M. City Council Meeting - Roll call votes will begin with Councilor Morin.

Pledge of Allegiance

I. Executive sessions

- Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.
- Personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. §405(6)(A).

II. Unfinished Business

Amending the Auburn Code of Ordinances, DIV. 12, General Business, Sec 60-500 (2). Public hearing and second reading

2. Ordinance 07-06202023
Amending the Auburn Code of Ordinances, DIV. 13, General Business II, Sec 60-526 (2). Public hearing and second reading.

3. Ordinance 08-06202023
Amending the Auburn Code of Ordinances, DIV 15, Industrial Zoning District, Sec 60-579 (2). Public hearing and second reading.

4. Ordinance 09-06202023
Amending the zoning at 37 Loring Avenue (Parcel I.D. 211-282) from Urban Residential to Multifamily Suburban. Public hearing and second reading.

5. Ordinance 10-06202023
Amending the Code of Ordinances, Definitions and Agriculture and Resource Protection District text of Chapter 60, Zoning as shown in Proposal B (attached). Public hearing and second reading.

III. New Business

1. Order 93-07102023
Authorizing the City Manager to execute the collective bargaining agreement with MSEA SEIU 1989.

2. Order 94-07102023
Authorizing the City Manager to execute the sale of City owned property (103 Newbury Street).

3. Order 95-07102023
Authorizing the City Manager to execute the sale of City owned property (115 Newbury Street).

4. Order 96-07102023
Authorizing the City Manager to execute the sale of City owned property (351 Main Street).

5. Order 97-07102023
Authorizing the City Manager to market and execute the sale of City owned property (369 Main Street) through Bill Bergeron with Fontaine Family Realty.

II. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 10, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Meeting Date: July 10, 2023 **Ordinance:** 06-06202023

Author: John Blais, Deputy Director of Planning & Permitting

Subject: Proposed text amendment to DIV 12, General Business, Sec 60-500 (2)

Information: Planning board provided a favorable recommendation 7-0 to increase the maximum building coverage in the General Business (GB) from 30 percent coverage to 60 percent coverage.

Staff and Planning Board looked at various communities (Waterville, Biddeford, Sanford, and South Portland) throughout Maine and found that those towns and cities do not even contain a density requirement in the commercial zones within their land use ordinances. Staff has run into many situations where the density ordinance restricts economic and community development within the City of Auburn in commercial zones.
From the Cities updated Comprehensive Plan, Future Land Use Chapter: *The City's development standards for the Commercial Development District should provide property owners and developers flexibility in the use and development of the property.* The suggested increase in density would allow for more options and expansion of the site which aligns with the current comprehensive plan.

City Budgetary Impacts: None

Staff Recommended Action: Public hearing and consider passage of second reading.

Previous Meetings and History: Passage of first reading on 6/20/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

DRAFT

To: Auburn City Council

From: Auburn Planning Board

RE: Planning Board recommendation to City Council on Zoning Text Density Change Applied to General Business, General Business II, and Industrial Zones.

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: Public Hearing/ Text Amendment: Consider amending Sec. 60-500 (2), Sec. 60-526 (2), and Sec. 60-579 (2) of the zoning ordinances to increase the maximum building coverage in the General Business (GB) and Minot Avenue (GBII) zoning districts from 30 percent coverage to 60 percent coverage, and increase the maximum building coverage in the Industrial (ID) zoning district from 40 percent coverage to 60 percent coverage as shown on the attached proposed text amendments. This topic is pursuant to Sec. 2-471.- public Hearings.

MOTION: Riley Bergeron makes a motion; David Trask seconds.

I make a motion to make a favorable recommendation to City Council to amend text Chapter 60, Article IV, DIV 12, General Business, Sec 60-500 (2) DIV 13, General Business II, Sec. 60-526 (2) DIV 15 Industrial, Sec. 60-579 (2) to allow for a total lot area of 60 percent of commercial or office building density.

AMENDMENT: Tim DeRoche makes a motion; Darren Finnegan Seconds.

"I make a motion to amend the motion to raise it to 75% of commercial or office building density." **VOTE:** 2-5-0 Motion fails.

VOTE: 7-0-0 Original Motion passes.

Sec. 60-500. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations:

(1) *Minimum lot width and depth.* No building used for commercial or office uses shall be constructed on a lot having less than 10,000 square feet minimum lot area and measuring 100 feet in width. No lot shall be less than 100 feet in depth. Buildings used for residential uses shall have the same minimum lot area, width and depth as provided for buildings in the Multifamily Suburban District (MFS), section 60-307(1).

(2) *Density.* Not more than ~~30~~ 60 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 35 feet or 35 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any side property line, plus the side yard setback shall be increased one foot for every two feet or part thereof increase in street frontage over 60 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less. No front yard need to be any deeper than the average depth off front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 25 feet shall be considered as having a front yard of 25 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or area required to be kept open and unbuilt on may be used, if otherwise lawful for outdoor storage and display of articles, supplies and materials. Such outdoor storage and display shall occupy no more than 20 percent of the lot with display areas not to exceed one-quarter of the total allowable area. Storage and display areas shall be clearly identified on the land in a fixed location. Storage areas shall be screened from the view of an abutting residential district or use and from the street by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart or by a solid fence not less than six feet in height.

(4) *Height.* No permitted structure shall exceed four stories or 45 feet in height. Religious buildings, municipal buildings or buildings listed by the state historic preservations commission may have a steeple, cupola or tower to a maximum height of 90 feet, if said structure is limited to 15 percent of the footprint of the principal building. In the airport approach zone, Federal Aviation Administration regulations shall apply. Accessory structures, including windmills, that are necessary for the operation of an allowed principal use may exceed the above maximum height requirements, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in

excess of the yard required pursuant to this section. In the airport approach zone, Federal Aviation Administration regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.62C; Ord. of 3-22-2010; Ord. No. 11-03012021, §§ 32, 64, 3-15-2021)

ORDER 06-06202023

City Council Order

IN CITY COUNCIL

Amending the General Business Zoning District, Sec. 60-500 (2) Dimensional Regulations

BE IT ORDAINED, that the City Council hereby amends the General Business Zoning District, Sec. 60-500 (2) Dimensional Regulations below.

(2) → *Density.* Not more than ~~30~~ 60 percent of the total lot area shall be covered by buildings used for commercial or office uses. The density of residential uses shall be the same as that required for buildings in the Multifamily Suburban District (MFS), section 60-30(2).

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 20 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a distance of five feet between any building and the side property line, plus the side yard setback shall be increased one foot for every three feet or part thereof increased in street frontage over 60 feet to a maximum of 35 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 35 feet or 15 percent of the average depth of the lot, whichever is less. No front yard need be any deeper than the average depth of front yards on the lots next thereto on either side. A vacant lot or a lot occupied by a building with a front yard more than 35 feet shall be considered as having a front yard of 35 feet.

d. *Principal buildings.* More than one principal building may be erected on a lot provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

e. *Railroad tracks.* Where the principal use requires access to a railroad, the yard requirements are disregarded for the side of the building adjacent to the railroad trackage. The engineering requisites for a safe and properly designed siding and building setback acceptable to the railroad shall take precedence.

f. *Open and unbuilt spaces.* Any yard, space or are required to be kept open and unbuilt on may be used, if otherwise lawful, for outdoor storage of articles, supplies and materials except that such storage shall be screened from the view of abutting residential property owners and/or street by a solid wall or evergreen hedge.

g. *Landscaping.* Landscaping shall be provided and maintained as follows:

1. Within a parking lot, landscaping shall be provided in an amount equal to ten percent of the area of the parking lot.

2. The perimeter of a principal building, except for entrances and loading doors, shall be landscaped in an amount equal to 20 percent of the building footprint. Emphasis shall be given to the front and sides of the building.

3. All lots which abut the side or rear lot line of a lot in a residential district or use shall be screened from said lot by an evergreen tree line planted in staggered rows having the base of the trees not more than ten feet apart. The minimum width of the screened buffer line shall be 30 feet.

4. Side and rear lot lines between nonresidential uses shall be planted with evergreen trees in the same manner as subsection (3)g3 of this section, except that the width of the screened buffer line shall not be less than 15 feet.

5. Landscaping is considered to be vegetative treatment with trees, shrubs, flowering plants and grass and/or bark mulch. Grass only is not deemed to satisfy this requirement.

Evergreen trees shall be used as required in subsections (3)g3 and (3)g4 of this section Trees shall be a minimum of six feet at the time of planting. Where possible, existing trees shall be preserved, building shall be oriented with respect to natural landscape features, topography and natural drainage areas.

(4) *Height.* Buildings shall not exceed 75 feet in height, except in the airport approach zone where Federal Aviation Administration height regulations shall apply.

(5) *Off-street parking.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.71C; Ord. No. 11-03012021, § 36, 3-15-2021)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 10, 2023 **Ordinance:** 09-06202023

Author: Planning and Permitting Dept.

Subject: First Reading of Zone Change Petition for 37 Loring Avenue (Parcel I.D. 211-282)

Information: On June 6, 2023, Auburn Planning Board held a public hearing on a petition to amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue (Parcel I.D. 211-282) from the Urban Residential (UR) district to the Multifamily Suburban (MFS) district in order to support higher density opportunities in a residentially zoned neighborhood along Loring Avenue. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the Zoning Ordinance or Zoning Map.

During the public hearing, Planning Board raised questions about access to and through the property, stating the concern about the entry being only on Loring Ave. They also inquired why the proposal was to change the zone to Multifamily Suburban rather than T-4.2B, anticipating that a zone change covering a larger area to T-4.2B would come before the planning board soon. The applicant submitted a petition to rezone the property to MFS rather than T-4.2B because the property is adjacent to another property which is already zoned MFS, and this zone change would constitute an expansion of an existing zone which would still allow for greater housing density. The Planning Board voted to not accept the zone change. They cited safety and traffic concerns as their reason for not supporting the proposed zone change.

City Budgetary Impacts: N/A

Staff Recommended Action:
Staff originally supported the zone change petition from Urban Residential to Multifamily Suburban because it is a step closer to achieving higher density housing supported in the Comprehensive Plan, providing similar results to T-4.2B. The Planning Board will consider applying T4.2B zoning to a larger area, including this parcel, in July. Staff suggests Council review the Planning Board's findings, discuss, and vote not to pass the Change to Multi-Family Suburban on the first reading. Public hearing and second reading on 7/10/2023.

Previous Meetings and History:
June 6, 2023- Planning Board Public Hearing. Unanimously failed first reading on 6/20/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: 6/6/2023 Staff Report, Signed Petition initiating zone change, Chapter 60, Division 7-Multifamily Suburban District, Planning Board Recommendation to Council (Motion).

DIVISION 7. MULTIFAMILY SUBURBAN DISTRICT

Sec. 60-305. Purpose.

This district is intended to stabilize and protect medium to high density residential areas by providing for a varied denser urban pattern made suitable to the needs of the population by encouraging a range of dwelling types. This multifamily zone has a maximum density of 17 dwelling units per acre, yet retains the open character of residential areas by requiring 50 percent green space. It is intended that this district will provide the maximum possible freedom in the design of structures and their grouping and will encourage flexible and imaginative layouts and designs.

(Ord. of 9-21-2009, § 3.44A)

Sec. 60-306. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Multifamily dwellings in existence on September 23, 1988.

(4) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Shelter for abused persons.

(7) Accessory uses, buildings or structures.

(8) Newly constructed multifamily dwellings and existing structures expanded to contain three or more additional dwelling units within a five-year period, provided that they are approved by the planning board as a subdivision under division 4 of article XVI of this chapter.

(9) Municipal uses and buildings.

(b) *Special exception uses.* The following uses are permitted as special exceptions after approval by the planning board in accordance with division 3 of article XVI of this chapter:

(1) All uses are permitted by special exception in the Urban Residence (UR) District (division 6 of article IV of this chapter).

(2) Off-street parking lot, provided that:

a. Such parking is limited to occupants of buildings located within 500 feet of such parking area whether or not within the same zone.

b. Reasonable conditions imposed by the planning board regarding location, fencing, screening, drainage, ingress and egress, signs and lighting and total capacity of the parking area designed to protect the residential character of the neighborhood are met.

(3) Professional offices.

a. Shall be in buildings which are listed on the state resource list and/or federal historic register.

b. All renovations to the building either internally and externally or both to accommodate the office use shall be accomplished in conformance with accepted historic preservation and rehabilitation guidelines.

c. A single sign to identify the building and its uses, conforming to the requirements contained in article VI of this chapter. Signs shall not be lighted.

(4) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.44B; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-03012021, §§ 22, 23, 3-15-2021)

Sec. 60-307. Dimensional regulations.

All structures in this district, except as noted, shall be subject to the following dimensional regulations.

(1) *Minimum lot area, width and depth.* For each building erected, there shall be provided lot areas as follows:

a. Building housing one family: 10,000 square feet minimum lot area, not less than 100 feet width, and 100 feet in depth.

b. Buildings housing two families: 12,000 square feet minimum lot area, not less than 100 feet width, and 100 feet in depth.

c. Multifamily buildings: 10,000 square feet minimum lot area for the first dwelling unit and 2,000 square feet minimum lot area for each additional dwelling unit. No lot shall be less than 100 feet width and 100 feet in depth. More than one principal building per lot is allowed.

(2) *Density.* The following maximum densities per acre shall apply, according to housing type:

One-family	4 units per acre
Two-family	6 units per acre
Multifamily	17 units per acre

Not less than 50 percent of the net acreage shall be devoted to green area. Green space shall be deemed to include patios, whether paved or not, pedestrian walks, and landscaping within parking lots, but no off-street parking spaces, driveways, or common roads. For townhouse projects, the green area of individual lots may be counted toward the 50 percent green space requirement of the project. Net acreage shall include all land contained within the project except dedicated streets or street rights-of-way shown on the city's adopted master development plan or proposed to be so included within a reasonable period of time.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet or 25 percent of the average depth of lot, whichever is less.

b. *Side.* There shall be a minimum distance of five feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 15 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

(4) *Height.* The height of all structures shall be limited to 2½ stories or 35 feet, except as follows:

a. Multifamily buildings shall have a maximum height of 45 feet from grade.

b. A church or temple or windmill may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.44C; Ord. No. 11-03012021, §§ 24, 59, 3-15-2021; Ord. No. 19-05032021, 5-17-2021)

ORDINANCE 09-06202023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zone Change Petition to amend the zoning at 37 Loring Avenue (Parcel I.D. 211-282) from Urban Residential to Multifamily Suburban

Be it ordained, That the Auburn City Council amend the zoning of a 15.5-acre parcel of land at 37 Loring Avenue on Auburn Tax Map Parcel I.D. 211-282 from the Urban Residential (UR) district to the Multi-Family Suburban (MFS) district as shown in this packet.

Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 10, 2023 **Ordinance:** 10-06202023

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: The City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)).

Information: Additional information about the collaboration with various interest groups leading up to this First reading is available in the attached AGRP Staff report to the Planning Board dated 6/6/2023. At the 6/6/2023 Planning Board Public Hearing the Board passed a favorable recommendation on to the City Council to adopt "Proposal B," with recommended amendments to the draft. Those recommended amendments are detailed in the attached memo (Titled: Planning Board recommendation to City Council on AGRP Zone Proposals A and B) from The Auburn Planning Board to the City Council dated 6/6/2023. Staff worked with legal counsel to determine which amendments could be made without a new public hearing at the Planning Board and it is staff's opinion that some are more substantive than others. Our Counsel recommends that all the Planning Board recommended changes to Proposal B should be reviewed at a Public Hearing with the Planning Board prior to adopting the changes to Proposal B. The Council has a choice to reject or adopt Proposal A, Proposal B or adopt Proposal B with changes recommended by Planning Board. We know that the process has taken longer than desired by the Council and we are past the deadline given for the process. One option is to approve Proposal B and then choose to refer some or all of the recommended changes from Planning Board back to the Planning Board for a Public Hearing and then they will return for future consideration by the Council. The draft Proposal B with recommended changes appears to have wide community support. The legal process makes it difficult to adopt all of the changes recommended by the Planning Board tonight and to stay on schedule for a second and final reading on July 10th.

City Budgetary Impacts: None immediately. New homes will come with new costs for services and new tax revenues, but exact numbers will depend on home values and service demands.

Staff Recommended Action: Public hearing and consider passage of second reading.

Previous Meetings and History: September 9, 2022—City Council passes Resolve 06-09062022, October 11, 2022—Planning Board is introduced to Resolve 06-09062022, November 7, 2022—City Council passes Order 151-11072022, November 15, 2022—Planning Board holds first workshop to consider Resolve 06-09062022, and Order 151- 11072022. RE: Planning Board recommendation to City Council on AGRP Zone Proposals A and B.

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)). This public hearing will consider two proposed sets of text amendments: "Proposal A", the same proposal considered at the public hearing on May 9, 2023; and "Proposal B", as the Planning Board directed staff to prepare at its May 9, 2023, meeting. The proposed text changes are available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the Planning Department in City Hall. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance, and Division 3-Public Hearing.

MOTION: Tim DeRoche makes a motion; Toni seconds.

"I make a motion to recommend amending Sec. 60-1 of Article I, In General, as shown in Proposal "B", Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations. Division 2, Agricultural and Resource Protection District as shown in Proposal "B", and amend Sec. 60-952 of Article XII- Environmental Regulations, Divisions 4, Lake Auburn Watershed Overlay District, also as shown in "Proposal B."

The following motions are amendments to the main motion, above.

Motions 1-7 are directly from Evan Cyr's proposed amendments to Proposal "B", submitted 6/6/2023.

Motions 8-9 are from AGRP Zone Group public comment from Steve Beale dated 6/5/2023.

1. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron suggests an amendment for "Sec. 60- 145 (a)(1)(a) to include the language 20% of 2 acres, which ever is less" in reference to lot size. Dave Trask seconds. **VOTE**: Amendment passes 7-0-0

2. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron offers another amendment that 60-145(a)(1)(b)(ii) should be amended to consider all permitted agricultural uses rather than just farming. Dave Trask Seconds. **VOTE:** Amendment passes 7-0-0

3. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron would also like to include an amendment for Section 60-145(a)(1)(b)(vii) to read not be sited in any portion of a parcel that has been classified as being: "a. Enrolled in the State of Maine Farmland Tax Program in the last five years, or" **VOTE:** Amendment passes 6-1-0

4. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for section 60-145(a)(1)(c) which only references Section 60-145(a)(1)(a) but there are also requirements for a residence later in that section. This could be accomplished by reading, "No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirements set forth in Section 60-145(a)(1)(a) and Section 60-145(a)(1)(b)(ii) have been presented" **VOTE:** Amendment passes 7-0-0.

5. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron also offers an amendment to Sec. 60-145 (a)(1)(d) for it to read: "which the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) or the residence fails to remain accessory to an approved plan in accordance with Section 60-145(a)(1)(b)(ii). **VOTE:** Amendment passes 6-1-0

6. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for Section 60-146(1) to read, "and measuring less than 250 feet in width at the street frontage along a publicly accepted street," **VOTE:** Amendment passes 4-3-0

7. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron offers an amendment on Section 60-146(3) to read a maximum depth of 30% or 400 feet, whichever is less.

Riley Bergeron clarifies that his amendment refers to where the house should be set on the lot, the same text provided as public comment. David Trask also seconds after this clarification. **VOTE:** Amendment passes 7-0-0

8. **MOTION:** Tim DeRoche; Second: Riley Bergeron

Tim DeRoche proposes an amendment found in Mr. Beale's public comment in Section 145(a)(3) that 'firewood processing and Christmas tree cultivation' should follow the words maple sugaring." **VOTE:** Amendment passes 7-0-0

9. **MOTION:** David Trask; Second: Toni Ferraro

David Trask offers an amendment that in Section 145(b)(8)(a) the words except for approved conservation cemeteries which shall be at least 10 acres in size" should be added. **VOTE:** Amendment passes 7-0-0

10. MOTION: David Trask; Second: Toni Ferraro

David Trask would like to amend where referenced the Lake Auburn watershed to include the Taylor Pond watershed as well. **VOTE:** Amendment passes 7-0-0

MOTION: Tim DeRoche; Second: David Trask

"I make a motion to approve the B option with said amendments (1-10)" **VOTE:** Motion passes 7-0-0.

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Public Hearing and Text Amendment on AGRP Zone Proposals A and B
Date: June 6, 2023

I. Proposal:

The City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)). This public hearing will consider two proposed sets of text amendments: "Proposal A", the same proposal considered at the public hearing on May 9, 2023; and "Proposal B", as the Planning Board directed staff to prepare at its May 9, 2023, meeting. The proposed text changes are available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the Planning Department in City Hall. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance, and Division 3-Public Hearing.

II. Materials:

1. Staff Report 6/6/2023
2. AGRP District Zoning Text Amendments- Proposal "A"- presented at the Planning Board Public Hearing 5/9/2023.
3. AGRP District Zoning Ordinance Text Amendments- Proposal "B" as directed by Planning Board for Planning Board Public Hearing 6/6/2023
4. Public Comment submitted 5/16/2023
5. Public Comment Submitted 5/30/2023

III. Planning Board Action:

The purpose of this public hearing is to hear from the community, to review the latest draft ordinance text, and to make a recommendation to the City Council on eliminating the income standard (outside Lake Auburn watershed). At the May 9, 2023, Planning Board meeting, the Planning Board held a public hearing on Proposal "A", drafted by the Planning Board and City Council. Staff recommended at the meeting that the Planning Board not approve the proposed text amendments and offered an alternative that a text and/or map amendment changing the zoning to Residential in defined areas in AGRP zone outside the Lake Auburn watershed could meet residential demand with fewer unintended consequences. That combined a modified version of the residential strip map while maintaining the concept of growing outward from the core. It also creates significant new opportunities for housing and leaves much of the AGRP zone functions in place. The option that staff recommended at the May 9, 2023, meeting would have upheld the income requirement in the remaining AGRP zone. Also, during this meeting, staff supported the possibility of an alternative proposal reflecting alternative connections between housing and agriculture as well as other permitted uses, not just traditional farms, as recommended by the Comprehensive Plan.

At the May 9, 2023, meeting, in addition to Proposal "A", a group of interested residents of Auburn, calling themselves the AGRP zone group, offered an alternative ordinance draft amendment as public comment which also eliminated the income standard, but added criteria to maintain the connection of housing to agriculture. The Board found strengths in Proposal "A" and in the public comment ordinance draft; specifically, that Proposal "A" afforded environmental protections that were not explicitly named in the existing, codified AGRP zone, but also that the public comment ordinance draft maintained a connection to agriculture that Proposal "A" did not. The Board decided to hold a hearing on a draft ordinance text amendment which accomplished the strengths in both Proposal "A" and the public comment ordinance draft. As such, Evan Cyr made a motion to table (the vote on whether to remove the income standard) until the next meeting (June 6, 2023) with direction to staff to create ordinance text amendment options for the Planning Board to review that incorporates the ideas presented in the AGRP zone group draft (presented as public comment during the May 9, 2023 public hearing) regarding tying residences to uses within the AGRP zone that would be congruent with the Comprehensive Plan and Proposal "A" originally presented for the May 9, 2023 meeting.

Staff has responded to this direction by drafting Proposal "B", which maintains the environmental protections and eliminates the income requirement as introduced in Proposal "A" and maintains the connection of housing to agriculture as a prerequisite for residential development. Proposal "B" goes further to expand the possible connection of housing as accessory to not only agriculture, but also other allowed uses in the AGRP zone including forestry, natural resource uses, and recreational uses. These connections expand the possibility of residential development in the AGRP zone because the range of uses which allow an accessory residential dwelling will be broadened, but it maintains the purpose and much of the fabric of the AGRP zone, while eliminating the income standard. Two proposed ordinance text amendments are before the Planning Board as Proposal "A" presented at the Planning Board Public Hearing 5/9/2023, and Proposal "B" as directed by Planning Board for Planning Board Public Hearing 6/6/2023. We have outlined the differences between the two proposals below.

The differences between Proposal "A" and Proposal "B" are as follows:

1. Proposal "B" adds the definition of "natural resource uses" to Sec. 60-2
2. Proposal "B" updates Sec. 60-2 by adding the definition of "recreational uses of land" to include sports field complexes larger than one acre in area, health and wellness centers, facilities for wedding or event venues when used for two or more events during a calendar year and includes "major recreational uses of land" and "recreational uses of land, small scale".
3. Proposal "B" adds the definition of "Recreational uses of land, small scale".
4. In Sec. 60-145(a)(1), Proposal "A" strikes the requirement that new dwellings are accessory to farming operations while Proposal "B" expands the requirement that new dwellings be connected to agriculture and recreational and natural resource uses, and adds criteria for determining whether the farm, recreational or natural resource use plan is acceptable. Both proposals add specification that residential development must be restricted to 20% of land coverage, and both define what constitutes residential development and introduce environmental restrictions for sitting this development. Both also remove the provision that dwellings connected to farm uses must remain connected to such uses.
5. Proposal "B" expands Sec. 60-145(a)(3) by including maple sugaring and mushroom cultivation, and other similar forest product uses.

6. Proposal "B" expands Sec. 60-145(a)(10) expands on the handling, storage and dale of agricultural products to add "processing" and "forestry products" and removes the provision that such products be derived from the property where the dwelling is sited.
7. Proposal "B" adds Sec. 60-145(a)(17) "natural resource uses".
8. Proposal "B" adds Sec. 60-145(a)(18) "small -scale recreational uses of land designed or intended for public use".
9. Proposal "B" changes Sec. 60-145(b)(5) special exception recreational uses are as "non-small scale".
10. Proposal "A" adds the same environmental restrictions as Sec. 60-145(a)(1) to Sec. 60-145 (b)(18) while Proposal "B" strikes any lot size distinctions for dwellings on legally existing lots from 6.1 to 10 acres in area.
11. In Sec. 60-146(1)(c), Proposal "B" adds the word "lawfully" to specify which lots existing as of October 1, 2017, are buildable, and strikes the requirement that these cases be treated as special exceptions.
12. Proposal "B" changes Sec. 60-952(b) prohibits new dwellings in the Lake Auburn Watershed portions of the AGRP zoning district.

IV. Suggested Motion:

I make a motion to recommend amending Sec. 60-1 of Article I, In General, as shown in Proposal "B", Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations. Division 2, Agricultural and Resource Protection District as shown in Proposal "B", and amend Sec. 60-952 of Article XII- Environmental Regulations, Divisions 4, Lake Auburn Watershed Overlay District, also as shown in "Proposal B".

BE IT ORDAINED, that the City Council hereby approves the amendment of the text and map of Chapter 60, Zoning, of the Code of Ordinances as follows:

---

1. Amend Sec. 60-2 of ARTICLE I, IN GENERAL, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE I. IN GENERAL

● ● ●

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

● ● ●

Major recreational use of land means permanent use of at least 100 acres of outdoor space limited to ski areas with at least two lifts and public and private golf courses with a minimum of 18 holes.

● ● ●

Natural resource uses means uses that utilize naturally occurring assets such as air, water, soils, fuel, minerals, plants or animals to provide public benefit through the provision of raw materials and/or energy.

● ● ●

Recreational uses of land means permanent uses of outdoor space which are intended or designed for public use and include but are not limited to ski areas, golf courses (both public and private), driving ranges, horse boarding and riding facilities, miniature golf, paintball, horse and dog racing, snowmobile races, sports field complexes larger than one (1) acre in area, health and wellness centers, motorhome or recreational vehicle parks or commercial campgrounds, and facilities for wedding or event venues when used for two or more events during a calendar year, or facilities for mass gatherings when used for two or more events during a calendar year. *See also* "Major recreational use of land" and "Recreational uses of land, small-scale".

Recreational uses of land, small-scale means permanent uses of outdoor space that are intended or designed for public use that are smaller or lower impact than other types of recreational uses of land, and include, but are not limited to, trails, water access or boat access facilities, foraging, outdoor education or training facilities, sports field complexes one (1) acre or less in area, and public gardens.

● ● ●

---

2. Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of S~~s~~ec.~~tion~~ 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according the most recent census data.~~ The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter;

and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such ~~farm~~ residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the

requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~er~~ charged with authority to issue the certificate of occupancy~~enforcement are 75 percent completed~~.

d~~c~~. In no case shall any ~~farm~~ residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

~~d. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this article.~~

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest, including, but not limited to, maple sugaring or mushroom cultivation.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.

(10) Handling, storage or processing and sale of forestry products or agricultural~~e~~ ~~produce~~products ~~and processed agricultural products derived from produce grown on the premises~~.

(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.

(12) Wayside stands.

(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.

(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.

(15) Marijuana manufacturing accessory to a licensed cultivation site.

(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in S~~s~~ec.~~tion~~ 60-1501.

(17) Natural resource uses.

(18) Small-scale recreational uses of land designed or intended for public use.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:

a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.

b. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.

c. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.

(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.

(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.

(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.

(5) Non-small scale ~~R~~recreational uses of land intended or designed for public use subject to the following conditions:

a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.

b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.

(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:

a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.

b. In cases where no minimum setback is established by division 5 of article XII of this chapter an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:

a. At least 20 acres in area.

b. Not located in any environmental overlay district or over any known aquifer.

(9) Municipal sanitary landfills, subject to the following conditions:

a. Not located in any environmental overlay district or over any known aquifer.

b. Provisions shall be made to avoid surface water and groundwater pollution.

c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:

a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.

b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:

a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.

b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:

a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.

b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.

c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:

a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.

b. The proposed use shall not occupy more than 10,000 square feet of building area.

c. The number of employees shall be limited to not more than 15.

d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.

e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:

a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.

b. Provisions shall be made to avoid surface and groundwater pollution.

c. Provisions shall be made to counteract vermin, insects and odors.

d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.

e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is (19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Ssec.~~tion~~ 60-1501, subject to the following conditions:

(18) [RESERVED]~~One-family detached dwellings, including manufactured housing, subject to all the design standards, except the siting requirements of section 60-1010, as set forth in division 6, article XII of this chapter, on parcels containing greater than 6.1, but less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restrictions:~~

~~a. At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according to the most recent census data; and~~

~~b. No certificate of occupancy shall be issued for any such farm residence until the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications presented to the municipal officer charged with enforcement are 75 percent completed; and~~

~~c. The applicant shall demonstrate compliance with the following requirements, said compliance to be first reviewed by the Agricultural Advisory Committee for recommendation:~~

~~1. The applicant shall provide a farm business plan that appears feasible and, if implemented, will meet the definition of a farm.~~

~~2. The parcel can reasonably accommodate the proposed farm.~~

~~3. The applicant shall demonstrate a commitment to the proposed farm use through compliance with the following requirements:~~

~~4. The parcel must contribute to a gross income per year of at least the amount required to meet the definition of farmland in 36 M.R.S.A. § 1102(4), per year from the sales value of agricultural products as defined in 7 M.R.S.A. § 152(2) in the two calendar years preceding the date of application for special exception use approval. Gross income includes the value of commodities produced for consumption by the farm household.~~

~~5. The proposed residence shall be accessory to farming.~~

~~6. The proposed residence shall not be located in the Lake Auburn Watershed Overlay District.~~

~~d. The parcel was existing as of October 1, 2017, contains more than five acres of land area, and otherwise meets the requirements of this chapter.~~

~~e. In no case shall any farm residence constructed under the provisions of this section, after the effective date of the amended ordinance from which this section is derived, continue to be occupied as a residence if the principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement.~~

~~f. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirement of this article.~~

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in ~~s~~Sec.~~tion~~ 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.

2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.

3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under S~~subs~~ec.~~tion~~ 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on subsection 60-145(b)(19)d. by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.

2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.

3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;

2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;

3. To the extent possible, infrastructure shall not be located on steep slopes; and

4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.

2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Ssec.~~tion~~ 60-2.

c. A dwelling may be constructed on lots lawfully existing as of October 1, 2017 and containing ~~greater than 6.1 acres but~~ less than ten acres~~,~~ only if approved ~~as a special exception~~ pursuant to ~~subs~~Sec.~~tion~~ 60-145(~~a~~b)(1~~8~~).

(2) *Density.* The density of ~~year-round~~ dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

---

3. Amend Sec. 60-952 of ARTICLE XII, ENVIRONMENTAL REGULATIONS, DIVISION 4, *LAKE AUBURN WATERSHED OVERLAY DISTRICT*, as follows (additions are underlined; deletions are ~~struck-out~~):

ARTICLE XII. – ENVIRONMENTAL REGULATIONS

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

• • •

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* ~~Notwithstanding subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),~~ New one-family detached dwellings are ~~only permitted~~ prohibited in the Lake Auburn Watershed District as of the date of adoption of amendments to this ordinance evidenced by Ordinance #XXXX ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~.

• • •

BE IT ORDAINED, that the City Council hereby approves the amendment of the text and map of Chapter 60, Zoning, of the Code of Ordinances as follows:

---

1. Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Ss~~tion~~ 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, ~~provided that the dwelling is accessory to farming operations and~~ subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according the most recent census data.~~ The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iii) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on wetlands; and

(v) Avoid being sited on slopes greater than 25%; and

(vi) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such farm residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~r~~ charged with authority to issue the certificate of occupancy~~enforcement are 75 percent completed~~.

d~~c~~. In no case shall any ~~farm~~ residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

~~d. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this article.~~

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.

(10) Handling, storage and sale of agriculture produce and processed agricultural products derived from produce grown on the premises.

(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.

(12) Wayside stands.

(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.

(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.

(15) Marijuana manufacturing accessory to a licensed cultivation site.

(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in Ssec~~tion~~ 60-1501.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:

a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.

b. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.

c. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.

(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.

(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.

(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.

(5) Recreational uses of land intended or designed for public use subject to the following conditions:

a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.

b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.

(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:

a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.

b. In cases where no minimum setback is established by division 5 of article XII of this chapter an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:

a. At least 20 acres in area.

b. Not located in any environmental overlay district or over any known aquifer.

(9) Municipal sanitary landfills, subject to the following conditions:

a. Not located in any environmental overlay district or over any known aquifer.

b. Provisions shall be made to avoid surface water and groundwater pollution.

c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:

a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.

b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:

a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.

b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:

a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.

b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.

c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:

a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.

b. The proposed use shall not occupy more than 10,000 square feet of building area.

c. The number of employees shall be limited to not more than 15.

d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.

e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:

a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.

b. Provisions shall be made to avoid surface and groundwater pollution.

c. Provisions shall be made to counteract vermin, insects and odors.

d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.

e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is requested or is adjacent to the property for which the special exception is requested.

(18) One-family detached dwellings, including manufactured housing, subject to all the design standards, except the siting requirements of Ss~~s~~ec.~~tion~~ 60-1010, as set forth in division 6, article XII of this chapter, on parcels containing ~~greater than 6.1, but~~ less than ten acres, ~~provided that the dwelling is accessory to farming operations and~~ subject to all of the following restrictions:

a. ~~At least 30 percent of the gross annual household income of the farm occupants living in the farm residence will be derived from farm uses or the gross farm income of the farm occupants living in the farm residence is equal to or greater than 30 percent of the city's median household income, according to the most recent census data; and~~The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land

coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Planning Board that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iii) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Planning Board that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on wetlands; and

(v) Avoid being sited on slopes greater than 25%; and

(vi) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c~~b~~. No certificate of occupancy shall be issued for any such ~~farm~~ residence until ~~the barns, livestock pens, silos, or other such buildings or structures which are to be erected in connection with the proposed agricultural use as shown on the plans and specifications~~ satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official~~or~~ authority to issue the certificate of occupancy~~charged with enforcement are 75 percent completed~~; and

~~c. The applicant shall demonstrate compliance with the following requirements, said compliance to be first reviewed by the Agricultural Advisory Committee for recommendation:~~

~~1. The applicant shall provide a farm business plan that appears feasible and, if implemented, will meet the definition of a farm.~~

~~2. The parcel can reasonably accommodate the proposed farm.~~

~~3. The applicant shall demonstrate a commitment to the proposed farm use through compliance with the following requirements:~~

~~4. The parcel must contribute to a gross income per year of at least the amount required to meet the definition of farmland in 36 M.R.S.A. § 1102(4), per year from the sales value of agricultural products as defined in 7 M.R.S.A. § 152(2) in the two calendar years preceding the date of application for special exception use approval. Gross income includes the value of commodities produced for consumption by the farm household.~~

~~5. The proposed residence shall be accessory to farming.~~

~~6. The proposed residence shall not be located in the Lake Auburn Watershed Overlay District.~~

d. The parcel was existing as of October 1, 2017~~, contains more than five acres of land area,~~ and otherwise meets the requirements of this chapter.

e. In no case shall any ~~farm~~ residence constructed under the provisions of this section, after the effective date of the amended ordinance from which this section is derived, continue to be occupied as a residence if the ~~principal agricultural use has been abandoned or reduced in scope below the minimum requirements as shown on the plans and specifications presented to the municipal officer charged with enforcement~~ lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(b)(18)(a).

~~f. Any residence constructed under this article shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirement of this article.~~

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in S~~s~~ec.~~tion~~ 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.

2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.

3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under S~~subs~~ec.~~tion~~ 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or

diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on subsection 60-145(b)(19)d. by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

    1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.

    2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.

    3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

    4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

    1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

    1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;

    2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;

    3. To the extent possible, infrastructure shall not be located on steep slopes; and

    4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

    1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.

    2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Ssec. ~~tion~~ 60-2.

c. A dwelling may be constructed on lots existing as of October 1, 2017 and containing ~~greater than 6.1 acres but~~ less than ten acres~~,~~ only if approved as a special exception pursuant to subsection 60-145(b)(18).

(2) *Density.* The density of ~~year-round~~ dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

---

2. Amend Sec. 60-952 of ARTICLE XII, ENVIRONMENTAL REGULATIONS, DIVISION 4, *LAKE AUBURN WATERSHED OVERLAY DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE XII. – ENVIRONMENTAL REGULATIONS

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

• • •

Sec. 60-952. Use and environmental regulations.

(a) *Agricultural uses.* All uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes shall be subject to the approval of the city water district. Such approval shall be granted upon a showing that such uses will not cause groundwater contamination or contaminate or disturb the normal course of surface water runoff.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* ~~Notwithstanding subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)(c),~~ New one-family detached dwellings are ~~only permitted~~ prohibited in the Lake Auburn Watershed District as of the date of adoption of amendments to this ordinance evidenced by Ordinance #XXXX ~~on parcels containing no less than ten acres, provided that the dwelling is accessory to farming operations and subject to the following restriction: at least 50 percent of the total annual household income of the farm occupants living in the farm residence will be derived from farm uses~~.

RE: AGRP Zoning Test Amendment, Proposal B

I am unable to attend this evening's Planning Board meeting, but would like to provide some comments regarding "Proposal B" in the Planning Board packet under the proposed AGRP zoning text amendment.

I think staff has a done a very good job of integrating a tie into agriculture and natural resource uses and that their draft represents the comments a directive given to the by the Planning Board. Overall, I believe that "Proposal B" represents the best solution for eliminating the income standard in the AGRP Zone that I have seen in my time on the Board. It eliminates the income standard while still avoiding conflict with the Comprehensive Plan. Additionally, "Proposal B" maintains much of the natural resource protection language that was first proposed in prior to "Proposal A". I believe "Proposal B" represents a reasonable alternative to the current income standard.

Having said this, I do have the following comments:

1. Sec. 60-145(a)(1)(a) should be reviewed considering some of the very large parcels in the AGRP zone. If a landowners uses the entirety of the 20% allowed, there could be unintended consequences. If a landowner were to do this, they necessarily could not then split their parcel because doing so would create non-conformity with ordinance. Their 20% residential envelope would be more than 20% of their new, smaller, lot. Specifically, the landowner would no longer be able to occupy their home as a residence under Sec. 60-145(a)(1)(d). This should be avoided. The Planning Board should consider identifying a maximum allowed envelope size on lots larger than 10acres. Using "20% or two acres, whichever is less" could be a reasonable solution.

2. Sec. 60-145(a)(1)(b)(ii) should be amended to consider all permitted agricultural uses, rather than just farming. This should also be reflected in the subsections of this same section. There are several agricultural uses allowed in the AGRP zone that are not specifically farming.

3. Sec. 60-145(a)(1)(b)(vii) is superfluous. The original language included a prohibition 10 years after land had been unenrolled. This was meant to disincentivize the quick conversion of specific land types into residential land. I believe this is still worthwhile, but that the current language does not accomplish this goal. I believe the Planning Board should consider adding language that prohibits siting the residential development envelope on land that has been enrolled in one of the three State tax programs within the last 5 years. An example might look like the following:

   Sec. 60-145(a)(1)(b)(vii):

"(vii) Not be sited on any portion of a parcel that has been classified as being:
a. Enrolled in the State of Maine Farmland Tax Program within the last 5 years, or.."

4. Sec. 60-145(a)(1)(c) only references Sec. 60-145(a)(1)(a), but there are also requirements for the residence in a later section. Reference to Sec. 60-145(a)(1)(b) should also be made. This could be accomplished by revising to read:

   "No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirements of Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii) have been presented…"

5. Sec. 60-145(a)(1)(d) suffers the same deficiency as the section mentioned in number 4 of this list. The Planning Board should consider amending the end of the sentence to read:

   "… which the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) or the residence fails to remain accessory to an approved plan in accordance with Sec. 60-145(a)(1)(b)(ii)."

6. Sec. 60-146(1) can be confusing. The implication is that the frontage must be on a publicly accepted street, but this may not be obvious to all readers. The Planning Board should consider amending the frontage requirement to read:

   "…and measuring less than 250 feet in width at the street frontage along a publicly accepted street,…"

7. Sec.60 146(3) utilizes a maximum depth of 30%. This could be a very deep setback depending on the depth of the lot itself. The Planning Board should consider whether the language should utilize the 30% maximum depth in conjunction with a maximum setback in feet, then require the use of whichever is less. 400ft may be an appropriate number to consider.

From: Steve Beale
To: "Katherine Cook"
Subject: June 5, 2023 suggested final amendments to proposal B
Date: Monday, June 5, 2023 4:40:05 PM

Katherine,

In electronic format, here are the suggested changes to Proposal B which we discussed earlier this afternoon.

In Section 145(a)(1)(a) insert the words"…or two acres, whichever is less." After the word "constructed."

In Section 145(a)(1)(b)(ii) insert the words "…or other permitted agricultural,…" after the word "farming."

In Section 145(a)(1)(b)(ii)(a) insert the words "…or other permitted agricultural…" after the word "farming…"

In Section 145(a)(1)(b)(iv) we believe that the State's exclusive authority over the definition of "essential habitat" renders this subsection, which is subject to interpretation and application by the local Code Enforcement Officer, unenforceable and of no legal effect, and that it should therefore be deleted.

In Section 145 (a)(1)(b)(vi) another provision of the City's ordinances contains an absolute prohibition on construction of a residence on any slope of greater than 25 degrees in any of the City's zoning districts and thus makes this subsection, with its less than mandatory language, conflicting and inoperable. It should therefore be deleted.

In Section 145(a)(3) the words "…firewood processing, Christmas tree cultivation…" are recommended for insertion after the words "maple sugaring…"

In Section 145(a)the word "Beekeeping" is recommended as a new subsection (a)(12), with subsequent subsections renumbered accordingly.

In Section 145(b)(8)(a) the words “…except for approved conservation cemeteries, which shall be at least 10 acres in size.” should be added at the end of the present subsection.

Subject:	Public comment for Planning Board packet
Date:	Monday, June 5, 2023 3:36:09 PM

For public comment/Planning Board packet:

Just as restrictions to development in the Lake Auburn Watershed District are being proposed, so too, the AG/RP land in the Taylor Pond Watershed district should not be developed residentially, in order to help protect the quality of the water, on which the uses and value of the pond and property values to the city depend.

Terrace Rd., Auburn

ORDINANCE 10-06202023

City Council Ordinance

IN CITY COUNCIL

Amending the zoning ordinance Section 60-2 Definitions and Article IV District Regulations, Division 2 Agriculture and Resource Protection District.

Be it ordained, That the Auburn City Council amend the zoning ordinance Section 60-2 Definitions and Article IV District Regulations, Division 2 Agriculture and Resource Protection District as shown in the attached "Proposal B" with an amendment to replace the text "Ordinance #XXXX" on page 10 of Proposal B with the text " Ordinance # 10-06202023.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 10, 2023 **Order:** 93-07102023

Author: Brian Wood, Assistant City Manager

Subject: Authorization for the City Manager to execute the Collective Bargaining Agreement between the City of Auburn and the MSEA SEIU 1989 covering 07/01/2023 to 06/30/2026

Information: Authorization for the City Manager to execute the Collective Bargaining Agreement between the City of Auburn and the MSEA SEIU 1989 covering 07/01/2023 to 06/30/2026

The following is a summary of the changes:

- FY 24: $1.00; 2% Performance Increase;
- FY 25: 2.5% Cola; 2.5 % Performance;
- FY 26: 2.5 % Cola; 2% Performance;
- $100 increase in annual clothing allowance for certain positions;
- 6 Floaters in for 6 holidays for certain positions

City Budgetary Impacts:

- $229,446.00 over three-year contract.

Staff Recommended Action: Staff recommends the City Council vote for passage.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet
July 10, 2023

Council Workshop or Meeting Date: July 10, 2023 **Orders:** 94-07102023 through 97-07102023

Author: Jay Brenchick, Director of Economic Development

Subject: Sale of City-Owned Properties Bids

Information: The Economic Development Department issued a for Sale by Sealed Bid request on four city owned properties: 103 Newbury Street, 115 Newbury Street, 351 Main Street, and 369 Main Street.

The request included the following text. "The City shall consider which proposal will result in an overall higher benefit than comparable proposals; Net tax revenues, overall compatibility with the neighborhood and purchase price will be considered. The City reserves the right to reject all proposals…The proposed purchase price must be included in the submitted proposal. Each proposal must include a short narrative, on a separate sheet of paper, explaining what the property will be used for and what, if anything, will be built on the property. Sketches, drawings, and renderings are welcome, but not required."

103 Newbury Street and 115 Newbury Street:

Staff recommends accepting the bids from Oleg Opalnyk for 103 Newbury Street and 115 Newbury Street because his bids show the greatest potential to result in an overall higher benefit in net tax revenues, while providing a greater number of residential units. In addition, Mr. Opalnyk is a building contractor with experience in similar projects. (Details are included in the attachments for this information sheet.)

351 Main Street:

Staff recommends accepting the bid from Oleg Opalnyk for 351 Main Street because his bid shows the greatest potential to result in an overall higher benefit in net tax revenues by providing commercial space on the first floor while providing a greater number of residential units. In addition, Mr. Opalnyk is a building contractor with experience in similar projects. (Details are included in the attachments for this information sheet.)

369 Main Street:

Staff recommends retaining 369 Main Street and authorizing the City Manager to market and execute the sale of 369 Main Street through Bill Bergeron with Fontaine Family Realty.

City Budgetary Impacts: None

Staff Recommended Action: Approve the orders as presented.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature:

Attachments: Bid Sheets

PROPOSAL FORM:

Due: Tuesday, May 09, 2023

To: City of Auburn
Derek Boulanger,
Facilities Manager/Purchasing Agent
60 Court Street
Auburn, ME 04210

The undersigned individual/firm/business guarantees this price for thirty days (30) from the proposal due date. The undersigned submits this proposal without collusion with any other person, individual, firm or agency. The undersigned ensures the authority to act on behalf of the corporation, partnership or individual they represent; and has read and agreed to all of the terms, requests, or conditions written herein by the City of Auburn, Maine.

I bid $6,000 on Parcel ID 221-044, 369 Main Street. I would like to create a short-term rental focused on bass and Pike fishing on our underappreciated Androscoggin River. Focusing attention on this under-utilized resource could bring sportsmen and women to Auburn from far away.

Thank you for your consideration.

- Ian

PROPOSAL FORM:

I, Oleg Opalnyk/OPO Custom Design & Restoration, LLC am the owner of 34 Laurel Avenue #221-051. I would like to build multi-unit apartment building on this parcel. The parcel is landlocked. In order for me to build on this land, I would like to purchase 103 Newbury Street #221-058 to provide access to my landlocked parcel. This will address the access and parl needs for theses apartments. I request to purchase this parcel from the City of Auburn for $1,000.00.

The tentative plans for parcel #221-051 on 34 Laurel Avnue have been emailed along with this letter. The plans are for a 16 unit residential rental property. This will generate tax revenue for the City of Auburn. That tax revenue will be considerably higher than potential tax revenue for a building on parcel #221-058.

Thank you for your consideration.

I would be interested in purchasing either lot 221-048 or lot 221-058 with the intent of developing small dwelling units (possibly using the state's recently-adopted building code for homes under 400 sq ft), placing one or multiple units on each lot with design elements consistent with the traditional New Englander-style homes in the neighborhood. I am nearing completion on renovations of a tax-acquired property that I purchased from the city a few years ago, and these would appeal as a project for the near future.

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

IX. **Executive Sessions -** Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

X. **Adjournment**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: Workshop, August 7th, 2023

Author: John Blais

Subject: PAL Update/Order discontinuance of 250+/- Chestnut Street as a city street/LWCF Land Swap

---

Information: Schematic Design/PAL Update (14,258 SF) by Austin Smith from Simons Architects and Megan McDevitt from Woodard and Curran.

City Staff is requesting the city to discontinue 250' +/- of Chestnut Street/Public Way, as a City Street, to provide a more robust site plan that puts youth safety playing outdoors at the pinnacle for total development of the new PAL Center (Updates Attached). The discontinuance of the" town way" will follow the Title 23, Part 3, Chapter 304 §3026-A, 1-6 as required and applies. Chestnut street was recorded as a named street in Council Records 11-350 (9/10/1923) & 11-485 (2/16/1925).

The street has been designed to be discontinued to create pedestrian connectivity for Union Street Gully Park that will link 6.1 acres of the upper section to the 2.7 acres of the lower section without vehicular traffic for greater safety and more flexibility for the total buildout of the PAL building and the associated features surrounding the site development.

Other associated tasks include providing continuance of public utilities as Title 23, Part 3, Chapter 304 §3026-A, (6) and identifying a portion (s) of that land to be converted to Land and Water Conservation Fund (LWCF) Property or out of LWCF property.

City Budgetary Impacts: Survey and Yellow Book Appraisal work. $15,000

Staff Recommended Action: Move the request through public notice, and city council approval to accept the discontinuance a section (250' +/-)of Chestnut Street upon positive recommendation by City of Auburn Planning Board. Move PAL design to Design Development and move the LWCF swap forward.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Site Feature Update
June 11, 2021
City of Auburn

This document serves as the official notification to the State of Maine of the **Site Feature Update** for the following LWCF Project;
Political Subdivision: **City of Auburn**
Project Title: **Auburn-Union St., Gully Park**
Project Number: **NPS 23-00308**

Originally funded LWCF Project 6-14-1976 to 12-31-1978:

One (1) multi-use, multi-season recreational area on City owned Land located between Union Street and Dennison Street in Auburn. The city recognizes the Park as Gully Park. 1200 SF recreation building addition (not built-due to limited funding), four (4) lighted tennis courts, a combination play area /skating rink, one (1) ballfield (wood backstop only), one (1) playlot, one (1) volleyball area, jogging path, utilities and appurtenances and equipment.

Site Current Conditions:

The multi-use, multi-season recreational area (slightly enlarged), combination play area (sledding and tot lot area), recreation building remains the same from the original site plan. In 2013, the City of Auburn converted the area consisting of four (4) lighted tennis courts and volleyball area into three (3) paved, lined and lighted Basketball Courts as Tennis was no longer popular and the demand for more outdoor basketball courts grew. The Volleyball court was converted into a playground to supply the need for more play space in that south end of the park. The 'court' area continues to support a jogging path that continue to connect walkability from the Union St by-pass to Dennison St. at the southeast portion of the lot. The original 'Tot Lot' area has been relocated near the multi-use field and recreation building. The ballfield (wood backstop) was removed to meet the demand of the growing sport of soccer as the field was slightly expanded to meet regulation size for organized youth soccer at the multi-purpose field. The land, utilities and supporting infrastructure remain the same as originally approved under the original LWCF Project.

Future Plan:

Currently the City is working towards installing two Futsal Courts in the court area where there is a playground (former Volleyball court area). Futsal Courts are mini soccer fields on a paved surface that utilizes a smaller weighted ball and focuses on footwork development on a smaller court. Installing Futsal Courts would satisfy the increase in demand for soccer related activities. With a larger New Mainer population in the neighborhood, the New Mainers are accustomed to playing soccer in their native lands and thus seek areas in which they can continue to play soccer. In addition, youth soccer has 3M strong country wide and has shown population growth in Maine over the last 10 Years. The playground that is in this proposed Futsal location will be moved to existing playground to expand the

playground footprint on the north end of the park. In addition, the city working on acquiring another parcel of land for a park, if successful the city will request to move it to the new location.

City has secured all funding needed to move forward with the installation of the Futsal Courts and is seeking review and approval from the State of Maine. If approved, this project would be scheduled for July/August 2021 installation and an unveiling by September 2021.

Other Notes for this Site:

The city has made improvements to the parking areas by the recreation building (city funds) and are exploring options to expanding the recreation building, both are NOT within the LWCF project boundary, but support and enhance users of the park.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 7, 2023

Author: Brian Wood, Assistant City Manager

Subject: Proposed Combined Public Safety Facility

Information:
In April, 2011, the Auburn Police Department moved from it's One Minot Avenue location to Auburn Hall. This move, necessitated by costly unhealthy and structural conditions that needed remediation, was intended to be a temporary solution. A window of 5 years was set to begin the phases of planning, construction and move to a new police department facility.

During this time and since, the fire department has been challenged with employee health and safety issues. Workforce diversity accommodations are a basic human rights issue. Separate sleeping quarters and bathroom facilities need to be gender neutral. On August 2, 2021, a public safety facility study was completed and presented to City Council with a recommendation that a public safety facility be built to house both departments.

A Public Safety Committee Ad-Hoc Committee was formed following City Council's resolve on September 6, 2021, to review options, secure cost estimates, and make recommendations. A Final committee report was presented to City Council on September 6, 2022. In February, 2023, the City of Auburn was awarded $2,500,000. in Congressionally Directed Spending (CDS) funds to be used towards the construction of a new public safety building.

Currently, space and health needs for both departments are not being met. It is not in the best interest of the residents and business communities of the City of Auburn to do nothing. It is the recommendation of the Ad-Hoc Committee and public safety staffs to move forward with the design and construction of a shared public safety facility to be located at 550 Minot Avenue.

City Budgetary Impacts: To be determined.

Staff Recommended Action: Discussion.

Previous Meetings and History: August 2, 2021, September 6, 2022

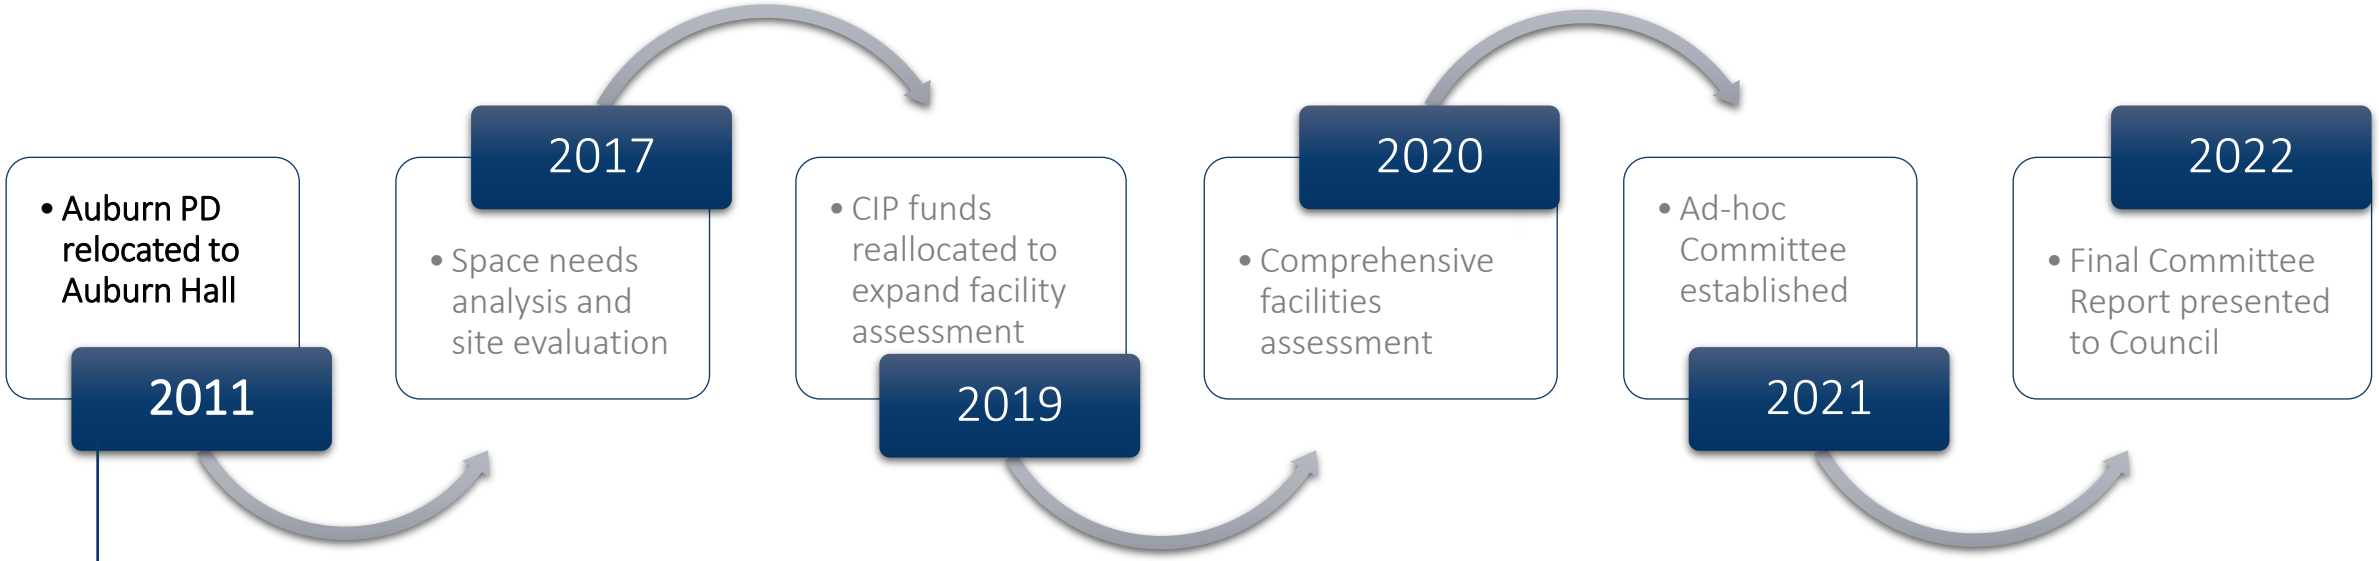
AUBURN PUBLIC SAFETY FACILITIES

AUGUST 7, 2023

TIMELINE: HOW WE GOT HERE

TIMELINE



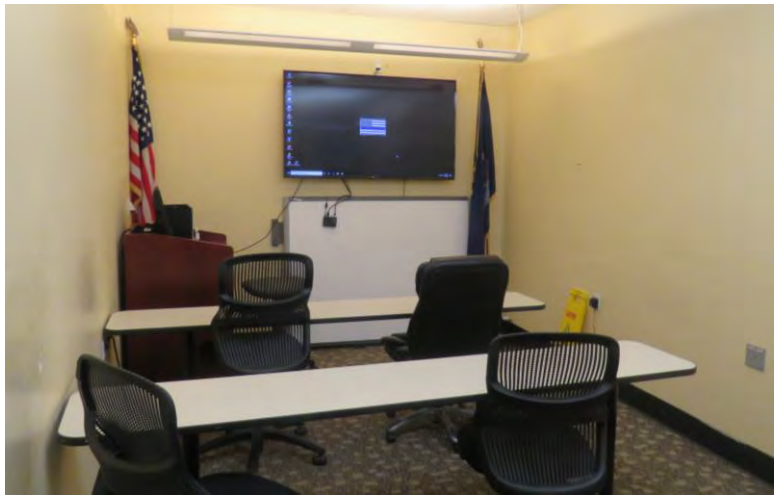
- Auburn Police Department **relocated to Auburn Hall** as a "temporary solution" due to space needs and costly repairs and upgrades required, as a cost saving measure for the city.

"TEMPORARY SOLUTION" CHALLENGES | POLICE DEPARTMENT

OPERATIONAL CHALLENGES

- Short-term solution now going on 12+ years.
- Poor layout for operations and customer service
  - Departments on separate building floors (1st and 3rd), with City Staff in-between (2nd)
  - Separation makes communications and teamwork challenging
- Inadequate space for current essential needs and future growth:
  - Training rooms
  - Locker rooms
  - Shower areas
  - Secured storage

Locker Room



Small Training Area

“TEMPORARY SOLUTION” CHALLENGES | POLICE DEPARTMENT

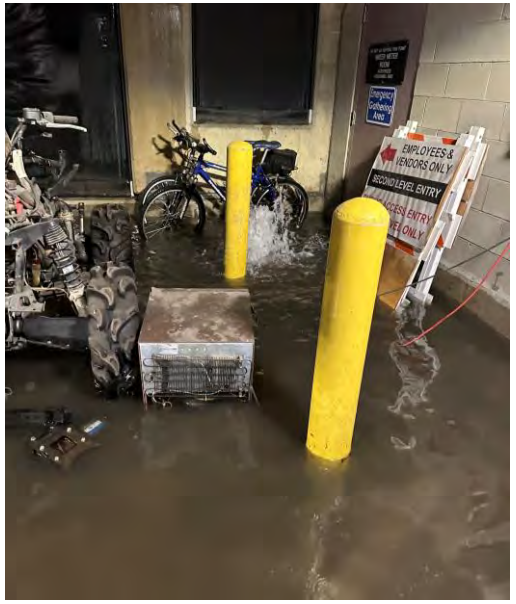
OPERATIONAL CHALLENGES

- No available space or feasible configuration to provide critical detainee processing needs including:
  - Sally Port
  - Booking area
  - Holding area
  - Prisoner processing area

  Lack of on-site needs require staff to transport detainees and prisoners to facilities outside the city; inefficient use of time and resources

- Inadequate Evidence Room & Vehicle Impound location
  - Recent storm event flooded Impound & Evidence Room

Evidence Lockers & Storage



Flooding in front of Evidence Storage Room and Impound

TIMELINE

2011
- Auburn PD relocated to Auburn Hall

2017
- Auburn's Public Safety consulting team completed a **space needs analysis** along with a **site evaluation** for a combined fire and police public safety building. This included site review that determined that the current location of Central Fire at 550 Minot Avenue was the best option for a combined Public Safety Facility.
- **Space needs analysis and site evaluation**

2019
- **CIP funds reallocated to expand facility assessment**
- CIP funding secured to address deficiencies with the police locker room and restroom facilities at City Hall. Bids were significantly higher than anticipated, so **funds were reallocated to expand upon the 2017 study** and complete a comprehensive facilities assessment of all public safety facilities.

2020
- Staff and consultants toured all existing public safety facilities, assessed current conditions, interviewed relevant staff, and checked for new sites that may have become available since the 2017 study. It was again determined that **Central Station remained the best option** for a public safety campus due to its geographic location, size, and existing infrastructure.
- **Comprehensive facilities assessment**

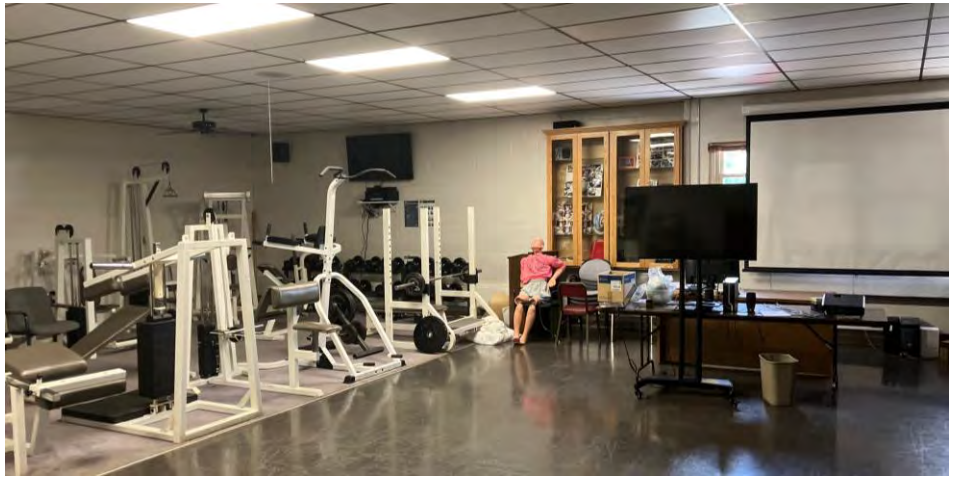
2021
- Ad-hoc Committee established

2022
- Final Committee Report presented to Council

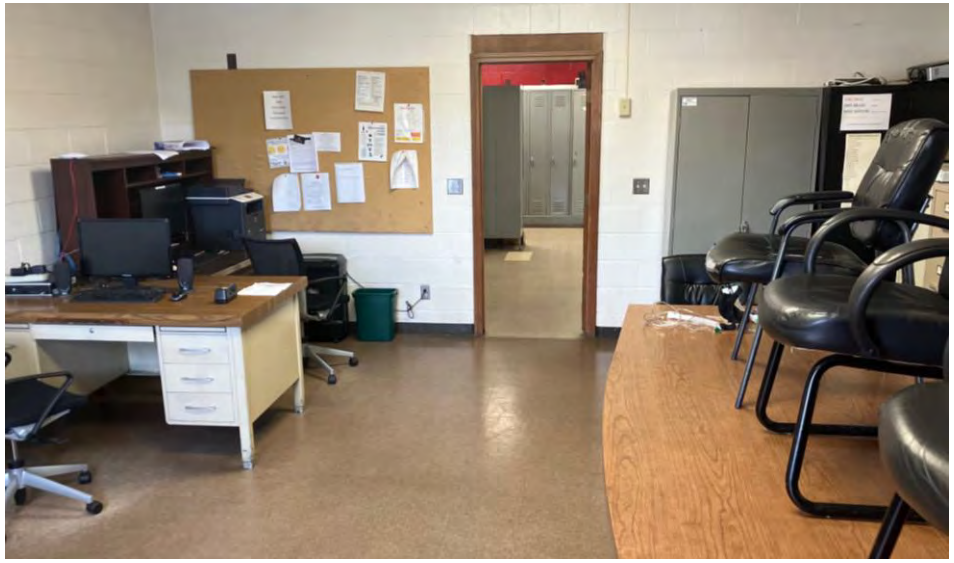
CENTRAL STATION CHALLENGES | FIRE DEPARTMENT

OPERATIONAL CHALLENGES

- Apparatus floor cannot support tower truck
  - Tower truck should be in the district where it best services the community.
- Training room is insufficient for conducting department trainings
  - Currently doubles as fitness space
- Patient Care Reporting should be conducted confidentially
  - Current reporting space shared with the only conference room in the facility



Shared Training and Fitness Space



Shared Confidential Reporting and Conference Space

CENTRAL STATION CHALLENGES | FIRE DEPARTMENT

OPERATIONAL CHALLENGES

- Sleeping and showering areas do not provide reasonable privacy for a diverse workforce

Lack of privacy in showering areas

Lack of privacy in sleeping areas

CENTRAL STATION CHALLENGES | FIRE DEPARTMENT

SAFETY CONCERNS

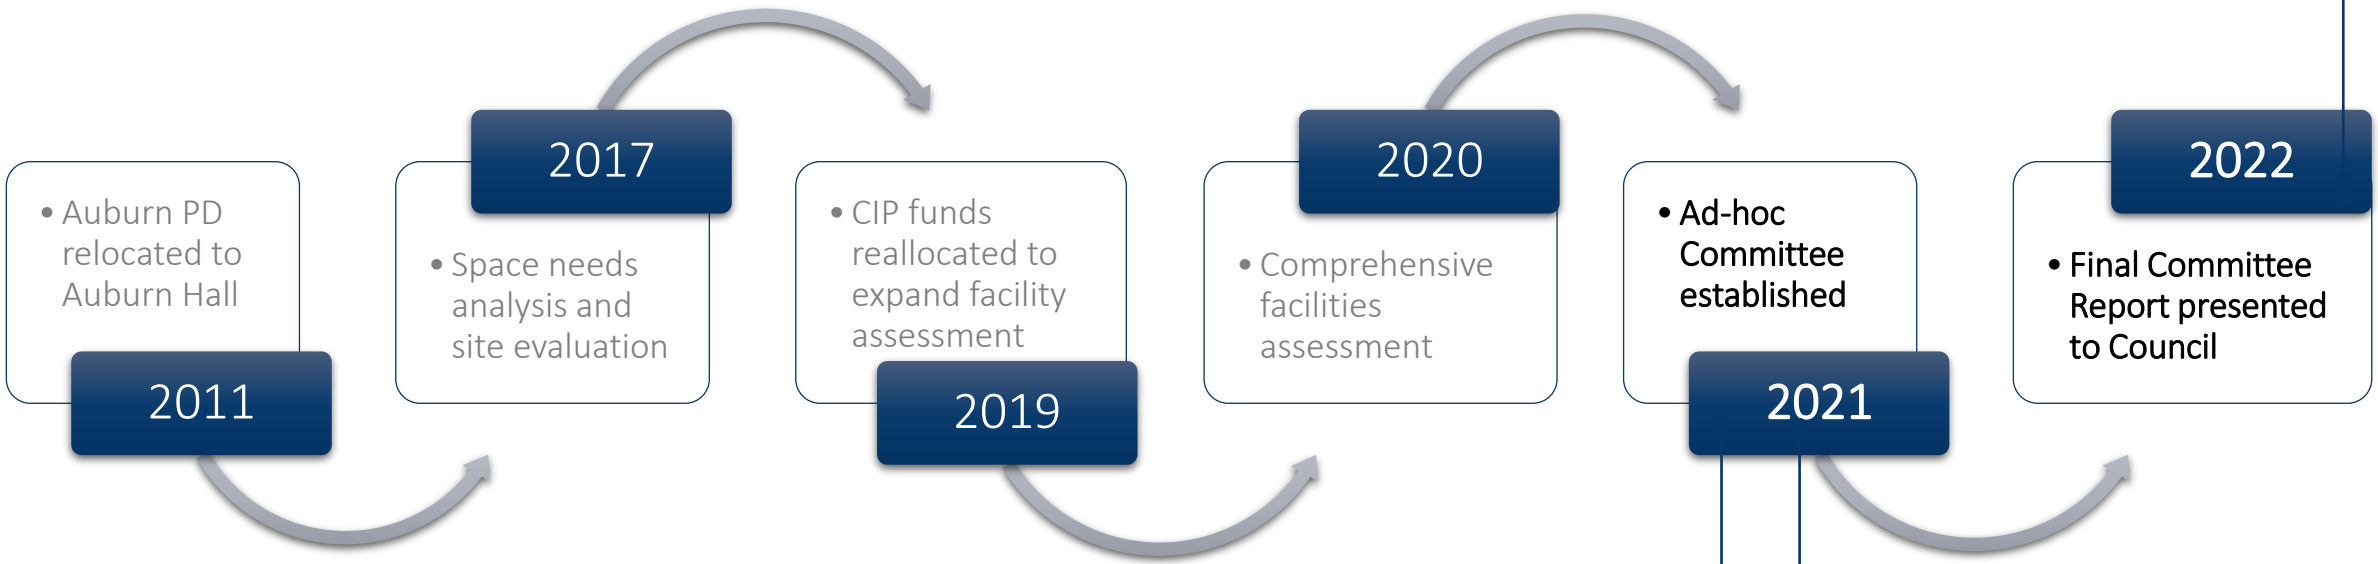
- Two leading causes of firefighter death are **Cancer** and **Cardiovascular Disease**. The current building **does not include adequate**:
  - *Gear Storage* - isolating staff from contaminated gear and isolating gear from diesel exhaust
  - *Separation of Living Spaces* - isolating staff and living spaces from carcinogens and diesel exhaust fumes.
  - *Gear Cleaning Spaces* – for removing carcinogens from gear and equipment
  - *Employee Decontamination Spaces* – which quickly remove carcinogens from firefighter's bodies.
  - *Dedicated Fitness/Workout Space* - encourages fitness and improved cardiovascular health

Gear storage adjacent to diesel exhaust

Inadequate Decontamination Facilities:

- Gear Decon in the basement
- Laundry on the first floor
- Showers on the third floor

TIMELINE



Staff and consultants prepared for committee work including evaluation of sites/locations and material cost discussions.

City also purchased property adjacent to Central Fire.

Committee meetings held and the final report/executive summary was presented to City Council and the community.

AD-HOC PUBLIC SAFETY BUILDING COMMITTEE

On September 7, 2021, the Auburn City Council voted to create the Ad-Hoc Public Safety Building Committee to work with staff and qualified consultants to advise the City Manager and City Council on the preferred design and probable cost estimates for a combined Police and Fire Public Safety Building.

Committee Members

COMMITTEE RECOMMENDATION : COMBINED PUBLIC SAFETY FACILITY

Auburn Public Safety Building Concept

From 2022 Building Committee

- New right-sized, two-story purpose-built Public Safety Facility

  including:

  - Police Department (including Sally Port, booking area, holding area, detainee processing area, evidence storage and weapons storage)
  - Fire Department (including larger drive-thru apparatus bay)
  - Emergency Operations Center
  - Efficient shared common areas for Public Entry, Lobby, and Reception
  - Shell construction above apparatus bay for future expansion
- New standalone Firing Range Facility
- New standalone Rolling Assets Storage Facility
- Significant site improvements
- Allows for phased construction
- 911 Dispatch Center to be located at different site

Auburn Public Safety Building Concept

From 2022 Building Committee

- Co-locating departments allows for a more efficient facility, sharing a variety of spaces and systems, including:
  - Core function spaces:
    - Public lobby and waiting area
    - Large training room
    - Small conference rooms
    - Fitness center
  - Support spaces and systems
    - Mechanical
    - Electrical
    - Sprinkler
- Estimated square footage savings ≈ 8,000 SF

Shared Fitness Room

Shared Community Room

Shared Training/Conference Room

Shared Public Lobby & Reception

Auburn Public Safety Building Concept

From 2022 Building Committee

- Public Safety Facility Size
  - New Construction 48,200 SF
  - Future Expansion 6,800 SF
  - Firing Range 3,400 SF
  - Rolling Asset Storage 2,800 SF

  TOTAL = 61,200 SF

- Conceptual Project Costs
  - Construction $35.89M
  - Design Services $4.37M
  - FFE and Contingency $4.80M

  TOTAL = $45.06M*

*City awarded $2.5M Congressionally Directed Spending grant to help offset costs (set to expire in 2026)

FIRST FLOOR

SECOND FLOOR

Auburn Public Safety Building Concept

Ramifications of a "DO NOTHING" approach

The "do nothing" approach – or maintaining the status quo - would have considerable ramifications:

- Direct Financial Implications:
  - Will still need to invest millions in capital costs to maintain and renovate existing, aging facilities to meet the current and future operational needs of each departments
  - Continued need to lease additional office space for City Staff due to sharing City Hall with Police
- Non-Direct Financial Implications:
  - Challenges with attracting & retention talent
  - Staff health & safety risks associated with current facilities
  - Difficultly maintaining level of service to match city growth

COMPARABLE FACILITIES

PUBLIC SAFETY FACILITY | Scarborough, Maine

- Town Population – 22,135
- Public Safety Facility Size – 53,000 SF
- Construction Completed - May 2020
- Construction Cost - $21.5M* (Jun 2019)

  $28.1M (2025)

*Not inclusive of additional project soft costs

PUBLIC SAFETY FACILITY | Dedham, Massachusetts

- Town Population – 25,364
- Public Safety Facility Size – 84,000 SF
- Construction Completed - May 2023
- Construction Cost - $55M* (Dec 2020)

  $69M (2025)

*Not inclusive of additional project soft costs

PUBLIC SAFETY FACILITY | Hingham, Massachusetts

- Town Population – 24,284
- Public Safety Facility Size – 48,920 SF
- Construction Start - July 2023
- Construction Cost - $46.7M* (Nov 2022)

  $54.0M (2025)

*Not inclusive of additional project soft costs

FUTURE AUBURN PUBLIC SAFETY FACILITY

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 7, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Author: Rita Beaudry, Grant Manager

Subject: Maine Municipal Association – Executive Committee

Information: Any elected or appointed municipal official holding office in any Maine Municipal Association (MMA) member community is eligible to serve on the Executive Committee.

MMA Nomination Process: Each year, member municipalities have an opportunity to vote in the election of the proposed MMA Vice President and municipal officials to serve on the MMA Executive Committee. A five-member Nominating Committee was appointed in March to review nominations submitted by municipal officials and conduct interviews with those municipal officials qualifying for and interested in serving as the MMA Vice President and on the MMA Executive Committee. The MMA Nominating Committee completed its task in May and put forth the 2024 Proposed Slate of Nominees to member municipalities.

The official MMA ballot is being presented for City Council vote. The deadline to cast a ballot for MMA's Annual Election for Vice President and Executive Committee Members is Friday, August 18, 2023. The ballot must be signed by a majority of the municipal officers, or a municipal official designated by a majority of the municipal officers.

City Budgetary Impacts: None

Staff Recommended Action: City Council vote for MMA Vice President and Executive Committee Members.

MAINE MUNICIPAL ASSOCIATION SINCE 1936

60 Community Drive | Augusta, ME 04330-9486
1-800-452-8786 (in state) | (t) 207-623-8428

TO: Key Municipal Officials of MMA Member Cities, Towns and Plantations

FROM: Catherine Conlow, MMA Executive Director

DATE: July 7, 2023

SUBJECT: MMA Annual Election - Vice President and Executive Committee Members

Deadline: Friday, August 18, 2023, by 12:00 noon

Nomination Process – Each year member municipalities have an opportunity to vote in the election of the proposed MMA Vice President and municipal officials to serve on the MMA Executive Committee. A five-member Nominating Committee was appointed in March to review nominations submitted by municipal officials and conduct interviews with those municipal officials qualifying for and interested in serving as the MMA Vice President and on the MMA Executive Committee. The MMA Nominating Committee completed its task in May and put forth the 2024 Proposed Slate of Nominees to member municipalities.

Petition Process – As part of the May mailing, information was also provided on the MMA Petition Process. Pursuant to the MMA Bylaws, nominations may also be made by Petition signed by a majority of the municipal officers in each of at least 5 member municipalities. The deadline for receipt of nominations by petition was Friday, July 7, by 4:30 pm. There were no municipal officials nominated by petition.

It is now time for each member municipality to cast its official vote.

Election Process – Enclosed you will find the MMA Voting Ballot which includes the proposed Slate of Nominees to serve on the MMA Executive Committee as selected by the MMA Nominating Committee. A brief biographical sketch on each nominee listed on the MMA Voting Ballot is enclosed for your reference. You will note that unlike municipal elections, MMA does not provide for *"Write-in Candidates"* since our process includes an opportunity to nominate a candidate by petition, as noted above.

The MMA Voting Ballot must be signed by a majority of the municipal officers **or** a municipal official designated by a majority of the municipal officers, and received by the Maine Municipal Association by 12:00 noon on Friday, August 18, 2023. We have enclosed a self-addressed self-stamped envelope for your convenience. MMA Voting Ballots will be counted that afternoon and the election results confirmed under the direction of MMA President Elaine Aloes, Chair of the Selectboard, Town of Solon.

Election results will be available by contacting the MMA Executive Office or by visiting the MMA website at www.memun.org the following Monday. A formal announcement of the election results will be made at the MMA Annual Business Meeting being held on Wednesday, October 4. Newly elected Executive Committee members will be introduced at the MMA Awards Luncheon as well as the MMA Annual Business Meeting and will officially take office on January 1, 2024.

If you have any questions on the Election Process, please contact me or Theresa Chavarie at 1-800-452-8786 or in the Augusta area at 623-8428, or by e-mail at tchavarie@memun.org. Thank you.

Council Workshop or Meeting Date: August 7, 2023 **Order:** 103-08072023

Author: Rita Beaudry, Grant Manager

Subject: 2023 Byrne Jag Grant – Auburn Police Department

Information:
The Auburn Police Department has been awarded a 2023 Edward Byrne Justice Assistance Grant in the amount of $19,142. The formula grant application will provide for the purchase of two portable "Tactiscan" narcotic sensors that will replace the narcotic presumptive test kits currently in use. Remaining funds will be used for the purchase of new officer badges.

The grant requires Certifications and Assurances by the Chief Executive of the Applicant Government.

City Budgetary Impacts: None

Staff Recommended Action: Execute an order that provides for Mayor Jason J. Levesque to sign and submit the Certifications and Assurances by the Chief Executive of the Applicant Government for this grant solicitation.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

U.S. DEPARTMENT OF JUSTICE
OFFICE OF JUSTICE PROGRAMS

Edward Byrne Memorial Justice Assistance Grant Program FY 2023 Local Solicitation

Certifications and Assurances by the Chief Executive of the Applicant Government

On behalf of the applicant unit of local government named below, in support of that locality's application for an award under the FY 2023 Edward Byrne Memorial Justice Assistance Grant ("JAG") Program, and further to 34 U.S.C. § 10153(a), I certify to the Office of Justice Programs ("OJP"), U.S. Department of Justice ("USDOJ"), that all of the following are true and correct:

1. I am the chief executive of the applicant unit of local government named below, and I have the authority to make the following representations on my own behalf as chief executive and on behalf of the applicant unit of local government. I understand that these representations will be relied upon as material in any OJP decision to make an award, under the application described above, to the applicant unit of local government.

2. I certify that no federal funds made available by the award (if any) that OJP makes based on the application described above will be used to supplant local funds, but will be used to increase the amounts of such funds that would, in the absence of federal funds, be made available for law enforcement activities.

3. I assure that the application described above (and any amendment to that application) was submitted for review to the governing body of the unit of local government (*e.g.*, city council or county commission), or to an organization designated by that governing body, not less than 30 days before the date of this certification.

4. I assure that, before the date of this certification— (a) the application described above (and any amendment to that application) was made public; and (b) an opportunity to comment on that application (or amendment) was provided to citizens and to neighborhood or community-based organizations, to the extent applicable law or established procedure made such an opportunity available.

5. I assure that, for each fiscal year of the award (if any) that OJP makes based on the application described above, the applicant unit of local government will maintain and report such data, records, and information (programmatic and financial), as OJP may reasonably require.

6. I have carefully reviewed 34 U.S.C. § 10153(a)(5), and, with respect to the programs to be funded by the award (if any), I hereby make the certification required by section 10153(a)(5), as to each of the items specified therein.

IN COUNCIL REGULAR MEETING JUNE 20, 2023, VOL. 37 PAGE 53

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. Consent Items – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. Order 85-06202023*
Re-appointing Jane Costlow to the Sustainability and Natural Resource Management Board with a term expiration of April 1, 2026.

2. Order 86-06202023*
Confirming Chief Moen's appointment of George Monteith and Dustin Pepin as Constable with firearm and arrest powers for the Auburn Police Department.

3. Order 87-06202023*
Cancelling the Regular City Council meeting scheduled for Monday, July 3, 2023.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage of the three consent items.

Passage 7-0.

II. Minutes – June 5, 2023, Regular Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the June 5, 2023 Regular Council Meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

Manager Crowell provided the Council with an update on the Opioid Crisis.

Mayor Levesque read a proclamation declaring June 20, 2023 World Refugee Day. He also reported that the Councilors received a letter and book from Diana Carson (Auburn Middle School). The Mayor asked that the letter be entered into the minutes. The book is called We Are America Auburn which is a culmination of short stories written by Auburn Middle School students. The letter from Diana Carson reads:

The National We Are America Project

"We have special news to share with you. In this envelope, you will find a gift copy of a book written by students from Auburn Middle School. This spring they were part of the national We are American Project.

In 2018, Lowell High School teacher Jessica Lander asked students in her Seminar on American Diversity class to grapple with what it meant to be American. Studying history turned into a study of their own personal stories about growing up in America.

That year; Lander's students wrote and published two books – We Are America, and a sequel, We Are America Too. Believing the work needed to grow, alumni of the class and Lander launched the national We Are America Project.

Over the past four years, the national We Are America team has worked with more than 50 teachers in over 25 U.S. states, directly affecting more than 1,500 students—helping the next generation share their personal stories of growing up in America. These stories are published in books in their community and on the project's website library.

We are pleased to announce that the first students to publish their stories in a We Are America book from the state of Maine are from Auburn Middle School. Seventeen students have courageously shared their stories about growing up, continuing family traditions, exploring their identities and dealing with loss.

These published authors were honored on Monday, June 12th at the AMS Awards Cermony: Abdi Adow, Ilhan Ali, Dominic Davis, Zane Deletetsky, Charlie Dresdner, Habso Issack, Anita Legere, Dariel Matos, Abraham Maqubela, Evie McGuigan, Travis McKeen, Casey Mileikis, Olivia Sawyer, Lily Smith, Abby Snyder, Destiny Wing and Bella Williams.

The stories these students shared in the national We Are America Project have the power to help build empathy among people of different backgrounds, ethnicities and faiths and ensure all young people feel they belong here.

We hope you enjoy reading their stories and thank you for supporting quality public education in the city of Auburn."

Diana Iwaszkiewicz Carson

Mayor Levesque invited Fatuma Hussein, who was in the audience, to say a few words.

Council Communications:

Councilor Whiting congratulated the Auburn Adult Ed graduates.

Councilor Milks congratulated the ELHS baseball team for a good season.

Councilor Walker urged people to be careful driving through New Auburn due to the work that is being done out there.

Mayor Levesque announced the 248th birthday of the US Army. He reported that Lucador Tacos opened on Center Street adding that there will be a ribbon cutting coming sometime in July.

City Manager Crowell reported that an information flyer will be going out soon to the public adding that the back of the flyer provides information on movies in the park. He noted that the sheds that were in Festival Plaza have been moved to Anniversary Park, adding that a promotional information will be coming soon. He also announced that the Auburn Community Band will be starting up in Festival Plaza.

IV. Open Session – No one from the public spoke.

V. Unfinished Business

1. Ordinance 05-06052023
Amending Appendix A – Fees and Charges (Streets, Sidewalks, and other Public Places). Public hearing and second reading.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public hearing – No one from the public spoke.

Passage 7-0. A roll call vote taken.

VI. New Business

1. Order 88-06202023
Authorizing the use of $102,000 in ARPA (American Rescue Plan Act) funds for the Third Space Incentive Program.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. Order 89-06202023
Approving the Mass Gathering for the Liberty Festival. Public hearing and vote.

Motion was made by Councilor Walker and seconded by Councilor Gerry for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

3. Public hearing – Agren Warehouse Tax Increment Financing (TIF) District #28.

Mayor Levesque opened the public hearing at 7:15 pm.

No one from the public spoke.

Mayor Levesque closed the public hearing at 7:15 pm.

4. Order 90-06202023

Approving the Agren Warehouse TIF (Tax Increment Financing) #28 Agreement.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Passage 7-0.

5. **Ordinance 06-06202023**
Amending the Auburn Code of Ordinances, DIV. 12, General Business, Sec 60-500 (2). First reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

6. **Ordinance 07-06202023**
Amending the Auburn Code of Ordinances, DIV. 13, General Business II, Sec 60-526 (2). First reading.

Motion was made by Councilor Walker and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 7-0. A roll call vote was taken.

7. **Ordinance 08-06202023**
Amending the Auburn Code of Ordinances, DIV 15, Industrial Zoning District, Sec 60-579 (2). First reading.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public comment – No one from the public spoke.

Passage 5-2 (Councilors Walker and Gerry opposed). A roll call vote was taken.

8. **Ordinance 09-06202023**
Amending the zoning at 37 Loring Avenue (Parcel I.D. 211-282) from Urban Residential to Multifamily Suburban. First reading.

Motion was made by Councilor Hawes and seconded by Councilor Milks for passage.

Public comment – Pam Rousseau, 745 West Auburn Road, spoke in opposition of this proposed amendment.

Failed 0-7. A roll call vote was taken.

9. **Ordinance 10-06202023**
Amending the Code of Ordinances, Definitions and Agriculture and Resource Protection District text of Chapter 60, Zoning as shown in Proposal B (attached). First reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – Mara King, 59 Davis Avenue, asked if there was an attachment.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

10. Order 91-06202023
Directing the Planning Board to hold a public hearing and recommend additional changes to Proposal B, Article IV District Regulations, Division 2 Agriculture and Resource Protection District as recommended by the Planning Board.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – Chris King, 59 Davis Avenue, he would like to get the Planning Board amendments.

Passage 5-2 (Councilors Hawes and Milks opposed).

11. Order 92-06202023
Authorizing the City Manager and/or his designee to execute the final purchase and sale agreement for tax map 211, lot 288 for Fire Engine 2 replacement.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0.

VII. Open Session – David Griswold, Gamage Avenue wanted to remind everyone that the Auburn Community Band starts its 42nd season next Wednesday night in Festival Plaza.

VIII. Reports

Mayor Levesque stated that the school year has ended, they had a great graduation, and the new high school is actively being moved into now. He also reminded the public that there is a School Committee meeting tomorrow night.

Manager Crowell reported that Legislators are wrapping up soon, they are working with MMA on any legislation that could affect the city. He added that they are hoping the audit will be ready by mid-July.

Kelsey Earle presented the May 2023 Finance Report.

Motion was made by Councilor Walker and seconded by Councilor Milks to accept and place on file the final May 2023 Finance Report.

Passage 7-0.

IX. Executive Session – None.

X. Adjournment

Motion was made by Councilor Milks seconded by Councilor Morin to adjourn. Unanimously approved and the meeting adjourned at 7:43 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

IN COUNCIL SPECIAL MEETING JULY 10, 2023, VOL. 37 PAGE 60

Mayor Levesque called the meeting to order at 5:30 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilor Whiting had an excused absence. All other Councilors were present.

5:30 P.M. City Council Meeting

Pledge of Allegiance

I. Executive sessions

Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Motion was made by Councilor Milks and seconded by Councilor Walker to enter into executive session.

Passage 6-0. Time 5:30 pm.

Council was declared out of executive session at 6:00 pm.

Personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. §405(6)(A).

Motion was made by Councilor Walker and seconded by Councilor Milks to enter into executive session.

Passage 6-0. Time 6:01 pm.

Council was declared out of executive session at 6:23 pm.

II. Unfinished Business

1. Ordinance 06-06202023
Amending the Auburn Code of Ordinances, DIV. 12, General Business, Sec 60-500 (2).
Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Milks for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed). A roll call vote was taken.

2. Ordinance 07-06202023
Amending the Auburn Code of Ordinances, DIV. 13, General Business II, Sec 60-526 (2).
Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed). A roll call vote was taken.

3. **Ordinance 08-06202023**
Amending the Auburn Code of Ordinances, DIV 15, Industrial Zoning District, Sec 60-579 (2). Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed). A roll call vote was taken.

4. **Ordinance 09-06202023**
Amending the zoning at 37 Loring Avenue (Parcel I.D. 211-282) from Urban Residential to Multifamily Suburban. Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public hearing -

Mike Adler, 82 Loring Avenue said he does not believe this should go through adding that the lot is not set up for multi-family zoning with only two multi-family units on Loring Avenue. He said he is asking the city not to pass this.

Dina Chapman, 40 Vivian Street, stated this is not a multi-family neighborhood and spoke in opposition of this proposed change and urged the Council to listen to the people and consider the tax payers and residents that live in the neighborhood.

Lisa St. Hilaire Crites, 108 Loring Avenue stated that she does not think it is the right place to do this and appealed to council to vote it down.

Chris Henry, 97 Loring Avenue, echoed the comments of his neighbors and spoke in opposition of the proposed ordinance amendment.

Failed 0-6, unanimously opposed. A roll call vote was taken.

5. **Ordinance 10-06202023**
Amending the Code of Ordinances, Definitions and Agriculture and Resource Protection District text of Chapter 60, Zoning as shown in Proposal B (attached). Public hearing and second reading.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public hearing - Chris Carson, Jacques Road, said he was representing a group of folks that have come together in the Agricultural Zone and have been talking about this issue for a while now. The group is named the Save Auburn Agricultural and Resource

Protection Group and they would like to endorse proposal B and would encourage the Council to pass this proposed amendment stating that it is also in line with the comprehensive plan. He thanked the city staff for their hard work on this.

Passage 6-0. A roll call vote was taken.

III. New Business

1. Order 93-07102023
Authorizing the City Manager to execute the collective bargaining agreement with MSEA SEIU 1989.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-0.

2. Order 94-07102023
Authorizing the City Manager to execute the sale of City owned property (103 Newbury Street).

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public comment – John Cleveland, 183 Davis Avenue, supports the idea of selling properties and wanted to share his experience when serving on the Council in the past stating that with similar proposals, the properties did not get developed as they were supposed to due to various circumstances and he would like to see reasonable conditions put on the sale of these properties so they achieve what they say they are going to achieve.

Motion was made by Councilor Staples and seconded by Councilor Hawes to amend the order to reflect the correct first name and changing it from Olan to Oleg.

Passage 6-0.

Passage as amended 6-0.

3. Order 95-07102023
Authorizing the City Manager to execute the sale of City owned property (115 Newbury Street).

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment - No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend the order to reflect the correct first name and changing it from Olan to Oleg.

Passage 6-0.

Passage as amended 6-0.

4. **Order 96-07102023**
Authorizing the City Manager to execute the sale of City owned property (351 Main Street).

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment - No one from the public spoke.

Motion was made by Councilor Staples and seconded by Councilor Gerry to amend the order to reflect the correct first name and changing it from Olan to Oleg.

Passage 6-0.

Passage as amended 6-0.

5. **Order 97-07102023**
Authorizing the City Manager to market and execute the sale of City owned property (369 Main Street) through Bill Bergeron with Fontaine Family Realty.

Motion was made by Councilor Walker and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 6-0.

Motion was made by Councilor Walker and seconded by Councilor Milks to suspend the rules to add an item to the agenda.

Passage 5-1 (Councilor Staples opposed).

Motion was made by Councilor Walker and seconded by Councilor Morin to cancel the Regular Council meeting that is scheduled for July 17, 2023. This becomes Order 98-07102023.

Public comment - No one from the public spoke.

Passage 5-1 (Councilor Gerry opposed).

X. **Adjournment**

Motion was made by Councilor Walker seconded by Councilor Morin to adjourn.

Unanimously approved and the meeting adjourned at 6:55 pm.

Project Support You

A life-saving project, staffed by Auburn PD, Auburn Fire & EMS and Tri-County Mental Health Services

auburnmaine.gov

Program Description

PSY is a “boots on the ground” service that employs a TCMHS employee to be shared between AFD and APD to respond ***with*** our first responder teams in real time in the community.

The PSY worker additionally follows up on needs identified by AFD and APD to connect individuals utilizing emergency services to needed community support providers.

Auburn’s PSY program began in February 2023, utilizing ARPA funding generously approved by the Auburn City Council to benefit individuals in need in our community.

Treatment works, but it takes resources.

"It is vital to remember, always, that treatment works and recovery is possible. Just as we would not give up hope or fail to help someone with diabetes, cancer or heart disease, the same is true for those who live with mental illness or a substance use disorder. We can and must bring all resources available to bear, and create them when they are not, to help those in need. Every life is worth saving."

Catherine R. Ryder, LCPC, ACS
Chief Executive Officer, Tri-County Mental Health Services

Q&A

auburnmaine.gov

July 19, 2023

Marc Fishman
PO Box 4182
Portland, ME 04101

Re: Application for a Medical Marijuana Cultivation Facility located at 213 Washington Street under the name of Marc Fishman.

Dear Mr. Fishman:

This letter is to notify you that the Medical Marijuana Cultivation Facility license application that you submitted has been denied based on the following:

The proposed Medical Marijuana Cultivation Facility is located within 1,000 feet of another cultivation facility.

City Ordinance Section 60-81. Abandonment indicates the following:

If any nonconforming use of a building or portion thereof or of land or portion thereof be discontinued for a period of 12 consecutive months' duration or more or is voluntarily discontinued, it shall be presumed abandoned, such use shall not be resumed, and only a use conforming with zoning provisions in the zoning district in which located shall thereafter be made of such building or land, except as may be permitted otherwise under section 60-79(4) and (5). A use shall be deemed to be discontinued when the principal activity ceases. A use that is voluntarily discontinued shall be deemed to have ceased when a written statement containing the name of the owner of the property, the name of the business or use, the nature of the use being discontinued, and the date of the discontinuance is reviewed by the municipal officer charged with enforcement.

Our records indicate that the facility was licensed on 1-25-2021 under license # BL002853-01-2021, issued to John Gary Howard for medical cultivation and this license would have expired on 1-25-2022, however, we received notification and a request to close out this business license on 8-31-2021. On 12-8-2021 we received an incomplete application for Medical Marijuana Cultivation from Brendon Venable for this address, however, he never provided enough information to process the application and the application was closed out as incomplete on 1-11-2023.

Based on those records, there has not been a licensed facility at this site since 8-31-2021. The use was voluntarily discontinued based on the written request to close out this business license on 8-31-2021 and the use was ceased on the same date. On 8-31-2022 the use was abandoned pursuant to the above ordinance section 60-81.

In addition, following an inspection held on July 12, 2023, there were several deficiencies noted.

- The facility needs a deadbolt on the exit door, the alarm system needs activation and a 30-day video back up & remote access to the system.
- There were several electrical issues which would have to be addressed.
- Fire extinguishers and all life safety systems would have to be inspected and must be operational.

Please note the City Council shall be notified of the decision to deny this business license application at their next regularly scheduled meeting.

If you decide to appeal the decision, the process is as follows:

Sec 14-39. Appeal
Except as otherwise provided, appeals shall be made by filing a written notice of appeal with the office of the City Clerk or designee within 30 days of the date of any such denial to the City Council in writing, whereupon a hearing will be scheduled, at which time the applicant shall have the right to be heard. It shall be the duty of the City Clerk or designee to notify such applicants who have appealed, of the time and place of the hearing.

If you have any questions with the foregoing, please feel free to contact me at sdallaire@auburnmaine.gov or 207-333-6601 ext. 1126.

Sincerely,

Susan Clements-Dallaire

Susan Clements-Dallaire

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 7, 2023 **Order:** 104-08072023

Author: Jennifer Boenig, Downtown Coordinator

Subject: Approving the Mass Gathering for Auburn Blues & Brews event

---

Information: The Auburn Blues & Brews event is scheduled for Saturday, September 9, 2023 from 12:30-7:30 PM. The event will be held in Festival Plaza and on Main Street which will be closed with public works trucks and barricades. This free community event will feature live music, craft brews, food trucks and more.

A mass gathering is defined as any gathering held outdoors with the intent to attract the continued attendance of 1,000 or more persons for two or more hours.

City Budgetary Impacts: This event is budgeted through the Communications Department.

Staff Recommended Action: Hold the public hearing and motion to approve the mass gathering.

Previous Meetings and History: NA

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

N/A	**FIRST AID FACILITIES** – Please list location at event: ambulance on-site at Main/Court streets	☑	☐	☐
$	**TOTAL FEE INCLUDED** – Checks payable to "City of Auburn"			

EVENT LIABILITY INSURANCE COVERAGE FOR EVENT

For an event such as a walk-a-thon, race, festival, concert, etc., the city requires general liability insurance coverage. The **City of Auburn** is to be named as "additionally insured" for the event activities on that date. Once the event is approved, the Certificate of Insurance will need to be received at least 30 days before the event and before permits can be issued. Please have the City of Auburn listed on the Certificate of Insurance (minimum coverage $1,000,000 Bodily Injury or Death, per occurrence, and $300,000 Property Damage, per occurrence). It should contain a clause providing that the policy may not be cancelled by either party except upon not less than 30 days written notice to the city. Please have your insurance company fax a copy to: City Clerk 207-333-6623.

DESCRIPTION OF EVENT – Please describe what will occur during your event

- The Auburn Blues & Brews event is a free community event featuring five blues bands, four food trucks, and several area breweries in the heart of downtown. Main Street is closed with public works trucks serving as hard barricades, creating a true block party atmosphere. Both APD and AFD will be on-site during the event.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 7, 2023 **Order:** 106-08072023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Victory Garden 2024

Information:
The Victory Garden 2023 program provided vouchers to 166 residents to install small, home food production gardens. This program was initially funded at $25,000 and quickly allocated all funds. An additional 82 applicants were not approved due to a lack of program funds.

The Business & Community Development Department seeks additional funds to continue the program in 2024. Program improvements will include an earlier application period, a priority application window for applicants not funded in 2023, and work with community groups to expand the list of participating retailers.

City Budgetary Impacts:
The Office of Business & Community Development is seeking an additional $50,000 in ARPA funds to administer this program. $48,000 will provide vouchers to approx. 350 residents. $2,000 will cover program administration costs.

Staff Recommended Action:
Approve the order as presented.

Previous Meetings and History:
3/20/2023 Mayor proposed action for staff to work from.
4/18/2023 Council approved $25,000 of ARPA funds for the Victory Garden program.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Auburn Victory Garden Program

2024

Purpose

The purpose of the Victory Garden program is to assist residents who wish to produce their own fresh, healthy food by reducing the start-up costs of backyard or container gardens. This initiative aligns with goals established within the city's Comprehensive Plan which aims to "ensure that fresh, local food is equitably accessible to everyone regardless of income or geography" (Objective K.1.1) by "supporting practices that facilitate access to healthy food in residential settings" (Objective K.1.3).

Funding

The City of Auburn may provide funds to qualified residents. Maximum assistance is $150 per household. Funds will be provided as vouchers to participating farm & garden retailers and nurseries.

Approved applicants will receive a voucher that can be used at participating retailers. Vouchers will be presented to the retailers during checkout and redeemed by the retailer. No change will be provided and unused funds will be returned to the program. City Staff will work with the local food and agriculture focused community groups to solicit and expand participating retailers.

Eligibility

Existing Auburn residents are eligible for financial assistance. The funds can be used to purchase necessary equipment, supplies or seedlings to improve production of fresh and healthy food offerings. Evidence of residency in the form of a property tax bill or utility will that match the name on the application will be required. Approved vouchers will be mailed to the address on the application.

Application

New applications will be sent to unfunded applicants from 2023 on April 20, 2024. These previously unfunded applicants will have an early application window (March 1st- March 15th).

The open application period will run from March 15th to April 15th, 2024. Only applications received by April 15th will be considered. Vouchers obtained through this process will be valid until August 30, 2024.

Applicants who received funding in 2023 can re-apply but will be placed on a waitlist. If funds remain after processing all new applications, only then will repeat applicants be considered for funding.

The following application will be used to collect all pertinent information and determine eligibility. Completed applications can be submitted to the Business & Community Development office at CDBG@AuburnMaine.gov

Subject: Authorization to Sell Surplus Personal Property – Auburn Lewiston Municipal Airport

---

Information:
The Cities of Auburn and Lewiston, through their jointly established Auburn-Lewiston Municipal Airport, maintain control over the sale of surplus real estate and personal property valued in excess of $1,000. As the airport proceeds with the sale of assets abandoned in Hangar #5, there is a potential for increased market interest for assets the airport owns and either cannot use, or is not going to use into the future.

Rather than seek authorization from each City Council for each item, a blanket permission to sell items the Board designates is requested. This will empower the board, through December 31, 2023, to review personal property and its current utilization and make a decision to sell.

City Budgetary Impacts: None, though there is a potential positive impact for airport finances through the sale of personal property.

Staff Recommended Action: Passage of this Order

ORDER 107-08072023

City Council Resolve

IN CITY COUNCIL

ORDER, authorizing the Auburn-Lewiston Municipal Airport Board of Directors to designate and sell surplus personal property, with a value in excess of $1,000, through December 31, 2023.

WHEREAS, the Auburn-Lewiston Airport is a joint agency between the Cities of Auburn and Lewiston; and

WHEREAS, the 1979 Interlocal Agreement, Article VIII, lays out the requirement that all surplus property with a value in excess of $1,000 may only be sold with the approval of the respective City Councils; and

WHEREAS, the Airport Board of Directors will be reviewing surplus and unused property during its review of operations during the current fiscal year;

NOW, THEREFORE, BE IT ORDERED by the CITY COUNCIL of the CITY of AUBURN,

To authorize the Auburn-Lewiston Municipal Airport Board of Directors to designate and sell surplus personal property, with a value in excess of $1,000, through December 31, 2023.

Subject: Hangar #5 Loan – Auburn Lewiston Municipal Airport

Information:
The Cities of Auburn and Lewiston, through their jointly established Auburn-Lewiston Municipal Airport, entered into a long-term lease with a developer for the construction of a 27,400 hangar for the Constellation project of Lufthansa Technic. In August 2014, to provide financial relief to the airport and to achieve projected savings by owning a hangar versus leasing it through 2028, the cities provided a loan to the airport for its acquisition.

With the 2018 departure of Lufthansa Technic, the airport again faced financial challenges and a request was made to the cities to restructure the debt, extending the loan period from maturity in FY2027 to FY2034.

In March of 2023, during the airport's FY2023, Elite Airways was evicted for non-payment of February and March lease payments per a stipulation to judgment executed that month. The lease payments by Elite for July 2022 through January 2023, which had been budgeted for the annual loan payments to both cities, was not set aside and was spent on airport operations.

Without a tenant for Hangar #5, the on-going challenge of addressing abandoned aviation and non-aviation property, and the shift in FY24 of all utilities to the airport until a tenant is found, deferring the FY23 and FY24 loan payments was a necessary step to balance the airport budget in the near term.

City Budgetary Impacts: FY2023 and FY2024 loan payments to the General Fund, totaling $115,000, would not be made in lieu of extending the maturity date from FY2034 to FY2036.

Staff Recommended Action: Passage of this Resolve

Previous Meetings and History:
August 18, 2014 – City Council authorizes 13-year loan from its General Fund to finance purchase of Hangar #5
October 15, 2018 – City Council authorizes an amendment to the loan to extend payback period from FY27 to FY34

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 108-08072023

City Council Resolve

IN CITY COUNCIL

ORDER, authorizing an amendment to the hanger loan between the City's General Fund and the Auburn-Lewiston Municipal Airport to extend its maturity to from FY2034 to FY2036.

WHEREAS, the Auburn-Lewiston Airport is a joint agency between the Cities of Auburn and Lewiston; and

WHEREAS, in 2014, the Airport purchased Hangar #5 from a developer through a $2.2 million loan provided by the Cities of Auburn and Lewiston; and

WHEREAS, in 2018, due to the lease cancellation by Lufthansa, the Airport requested an amendment to loan to move the maturity date from FY2027 to FY2034; and

WHEREAS, the subsequent tenant in Hangar #5, Elite Airways, was evicted in March 2023 due to non-payment; and

WHEREAS, the Airport Board needs the financial flexibility for FY2023 and FY2024 to resolve challenges with the abandoned property at the hangar, the shift of financial liability for utilities, and to identify a viable tenant;

NOW, THEREFORE, BE IT ORDERED by the CITY COUNCIL of the CITY of AUBURN,

That the loan between the City's General Fund and the Auburn-Lewiston Municipal Airport be amended to extend the maturity from FY2034 to FY2036.

Who is approving this application? ☐ Municipal Officers of _____

☐ County Commissioners of _____ County

☐ **Please Note:** The Municipal Officers or County Commissioners must confirm that the records of Local Option Votes have been verified that allows this type of establishment to be licensed by the Bureau for the type of alcohol to be sold for the appropriate days of the week. Please check this box to indicate this verification was completed.

Signature of Officials	Printed Name and Title

This Application will Expire 60 Days from the date of Municipal or County Approval unless submitted to the Bureau

Included below is the section of Maine's liquor laws regarding the approval process by the municipalities or the county commissioners. This is provided as a courtesy only and may not reflect the law in effect at the time of application. Please see http://www.mainelegislature.org/legis/statutes/28-A/title28-Asec653.html

§653. Hearings; bureau review; appeal

1. Hearings. The municipal officers or, in the case of unincorporated places, the county commissioners of the county in which the unincorporated place is located, may hold a public hearing for the consideration of applications for new on-premises licenses and applications for transfer of location of existing on-premises licenses. The municipal officers or county commissioners may hold a public hearing for the consideration of requests for renewal of licenses, except that when an applicant has held a license for the prior 5 years and a complaint has not been filed against the applicant within that time, the applicant may request a waiver of the hearing.

A. The bureau shall prepare and supply application forms.

B. The municipal officers or the county commissioners, as the case may be, shall provide public notice of any hearing held under this section by causing a notice, at the applicant's prepaid expense, stating the name and place of hearing, to appear on at least 3 consecutive days before the date of hearing in a daily newspaper having general circulation in the municipality where the premises are located or one week before the date of the hearing in a weekly newspaper having general circulation in the municipality where the premises are located.

C. If the municipal officers or the county commissioners, as the case may be, fail to take final action on an application for a new on-premises license or transfer of the location of an existing on-premises license within 60 days of the filing of an application, the application is deemed approved and ready for action by the bureau. For purposes of this paragraph, the date of filing of the application is the date the application is received by the municipal officers or county commissioners. This paragraph applies to all applications pending before municipal officers or county commissioners as of the effective date of this paragraph as well as all applications filed on or after the effective date of this paragraph. This paragraph applies to an existing on-premises license that has been extended pending renewal. The municipal officers or the county commissioners shall take final action on an on-premises license that has been extended pending renewal within 120 days of the filing of the application.

D. If an application is approved by the municipal officers or the county commissioners but the bureau finds, after inspection of the premises and the records of the applicant, that the applicant does not qualify for the class of license applied for, the bureau shall notify the applicant of that fact in writing. The bureau shall give the applicant 30 days to file an amended application for the appropriate class of license, accompanied by any additional license fee, with the municipal officers or county commissioners, as the case may be. If the applicant fails to file an amended application within 30 days, the original application must be denied by the bureau. The bureau shall notify the applicant in writing of its decision to deny the application including the reasons for the denial and the rights of appeal of the applicant.

2. Findings. In granting or denying an application, the municipal officers or the county commissioners shall indicate the reasons for their decision and provide a copy to the applicant. A license may be denied on one or more of the following grounds:

A. Conviction of the applicant of any Class A, Class B or Class C crime;

B. Noncompliance of the licensed premises or its use with any local zoning ordinance or other land use ordinance not directly related to liquor control;

C. Conditions of record such as waste disposal violations, health or safety violations or repeated parking or traffic violations on or in the vicinity of the licensed premises and caused by persons patronizing or employed by the licensed premises or other such conditions caused by persons patronizing or employed by the licensed premises that unreasonably disturb, interfere with or affect the ability of persons or businesses residing or located in the vicinity of the licensed premises to use their property in a reasonable manner;

D. Repeated incidents of record of breaches of the peace, disorderly conduct, vandalism or other violations of law on or in the vicinity of the licensed premises and caused by persons patronizing or employed by the licensed premises;

D-1. Failure to obtain, or comply with the provisions of, a permit for music, dancing or entertainment required by a municipality or, in the case of an unincorporated place, the county commissioners;

E. A violation of any provision of this Title;

F. A determination by the municipal officers or county commissioners that the purpose of the application is to circumvent the provisions of section 601; and

G. After September 1, 2010, server training, in a program certified by the bureau and required by local ordinance, has not been completed by individuals who serve alcoholic beverages.

3. Appeal to bureau. Any applicant aggrieved by the decision of the municipal officers or county commissioners under this section may appeal to the bureau within 15 days of the receipt of the written decision of the municipal officers or county commissioners. The bureau shall hold a public hearing in the city, town or unincorporated place where the premises are situated. In acting on such an appeal, the bureau may consider all licensure requirements and findings referred to in subsection 2.

A. Repealed

B. If the decision appealed from is an application denial, the bureau may issue the license only if it finds by clear and convincing evidence that the decision was without justifiable cause.

4. Repealed

5. Appeal to District Court. Any person or governmental entity aggrieved by a bureau decision under this section may appeal the decision to the District Court within 30 days of receipt of the written decision of the bureau.

An applicant who files an appeal or who has an appeal pending shall pay the annual license fee the applicant would otherwise pay. Upon resolution of the appeal, if an applicant's license renewal is denied, the bureau shall refund the applicant the prorated amount of the unused license fee.

Section IV: Terms and Conditions of Licensure as an Establishment that sells liquor for on-premises consumption in Maine

- The licensee/applicant(s) agrees to be bound by and comply with the laws, rules and instructions promulgated by the Bureau.
- The licensee/applicant(s) agrees to maintain accurate records related to an on-premise license as required by the law, rules and instructions promulgated or issued by the Bureau if a license is issued as a result of this application.
    - The licensee/applicant(s) authorizes the Bureau to obtain and examine all books, records and tax returns pertaining to the business, for which this liquor license is requested, and also any books, records and returns during the year in which any liquor license is in effect.
- Any change in the licensee's/applicant's licensed premises as defined in this application must be approved by the Bureau in advance.
- All new applicants must apply to the Alcohol and Tobacco Tax and Trade Bureau (TTB) for its Retail Beverage Alcohol Dealers permit. See the TTB's website at https://www.ttb.gov/nrc/retail-beverage-alcohol-dealers for more information.

Section V: Fee Schedule

Filing fee required. In addition to the license fees listed below, a filing fee of $10.00 must be included with all applications.

Please note: For Licensees/Applicants in unorganized territories in Maine, the $10.00 filing fee must be paid directly to County Treasurer. All applications received by the Bureau from licensees/applicants in unorganized territories must submit proof of payment was made to the County Treasurer together with the application.

Class of License	Type of liquor/Establishments included	Fee

Section VII: Required Additional Information for a Licensee/Applicant for an On-Premises Liquor License Who are Legal Business Entities

Questions 1 to 4 of this part of the application must match information in Section I of the application above and match the information on file with the Maine Secretary of State's office. If you have questions regarding your legal entity name or DBA, please call the Secretary of State's office at (207) 624-7752.

All Questions Must Be Answered Completely. Please print legibly.

1. Exact legal name: Gippers Sports Grill
2. Doing Business As, if any: Gippers Sports Grill
3. Date of filing with Secretary of State: 6/10/1989 State in which you are formed: MAINE
4. If not a Maine business entity, date on which you were authorized to transact business in the State of Maine: N/A
5. List the name and addresses for previous 5 years, birth dates, titles of officers, directors, managers, members or partners and the percentage ownership any person listed: (attached additional pages as needed)

Name	Address (5 Years)	Date of Birth	Title	Percentage of Ownership
Joseph Novella	45 Carson St Auburn ME 04210	1-12-70	President	40%
Jon Fournier	697 Old Greene Rd Lewiston ME 04240	11-29-87	Vice Pres	40%
Karen Sweetser	1 Weaver St Auburn ME 04210	2-11-77	Treasurer	20%

(Ownership in non-publicly traded companies must add up to 100%.)

SUPPLEMENTAL APPLICATION FORM
ON-PREMISE DIAGRAM

In an effort to clearly define your licensed premise and the areas that consumption and storage of liquor is allowed, The Bureau of Liquor Enforcement is requiring all applicants to submit a diagram of the premise to be licensed in addition to a completed license application.

Diagrams should be submitted on this form and should be as accurate as possible. Be sure to label the areas of your diagram including entrances, office area, kitchen, storage areas, dining rooms, lounges, function rooms, decks and all areas that you are requesting approval from the Bureau for liquor consumption.

Criminal History Record

Introduction

This criminal history record was produced in response to the following request (Produced on 2023-07-26) :

Inquiries Name(s) KAREN SWEETSER (1977-02-11)

The information in this criminal history record is provided subject to the following caveats:

Important! When a criminal history record and juvenile crime information record check is processed by the State Bureau of Identification using personal identifiers such as name and date of birth, it is possible that the record supplied belongs to another person with the same or essentially similar name and date of birth. Confirmation that convictions relate to person whose record has been requested requires fingerprint comparison. If the information contained in this response will be used to disqualify an applicant for employment, housing, credit, or other benefits or programs, the person making the eligibility determination using this record should provide the applicant with an opportunity to complete or contest the accuracy of the criminal history information in the response. An individual may request amendment or correction of criminal history record information by a criminal justice agency pursuant to 16 M.R.S. section 709.

**THIS RESPONSE IS BEING PRODUCED FOR YOUR REQUEST SENT: 2023-07-26

This record, effective September 1, 2000, contains information relating to persons arrested as fugitives from justice, 15 M.R.S section 201.4 or arrested or charged with Maine crimes. It does not include former crimes no longer classified as criminal, or Class D and E crimes in Title 12 or Title 29-A, former Title 29, unless the crime is alcohol-related or drug-related 25 M.R.S. section 1541.4-A.A. For information regarding excluded Marine Resources crimes in Title 12, contact the Department of Marine Resources. For information regarding excluded Inland Fisheries and Wildlife crimes in Title 12, contact the Department of Inland Fisheries and Wildlife. For information relating to excluded crimes in Title 29-A former Title 29, contact the Secretary of State, Motor Vehicle Division. A list of former crimes is available from this Bureau.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 7, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
Agenda
August 21, 2023
Auburn Hall, Council Chambers

5:30 P.M. City Council Workshop

A. Agriculture and Resource Protection Ordinance Update – Eric Cousens

VII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda*

VIII. Reports (from sub-committees to Council)

a. Mayor's Report
b. City Councilors' Reports
c. City Manager Report

IX. Executive Sessions – Personnel matter (City Manager evaluation) pursuant to 1 M.R.S.A. Sec. 405(6)(A).

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023

Author: Eric J. Cousens Director of Planning and Permitting

Subject: Planning Board Recommended Agriculture and Resource Protection (AGRP) Ordinance Changes

---

Information: On June 6, 2023, the Planning Board recommended approval of AGRP Ordinance Text amendments referred to as "Proposal B" with 10 additional amendments. The amendments included in Proposal B were adopted by the City Council without the 10 additional amendments from the Planning Board (First Document in CC Packet titled Planning Board recommendation to City Council on AGRP Zone Proposals A and B dated 6//6/2023). The Planning Board has since held Public Hearings on the 10 additional amendments, numbered 1-10 based the order in the 6/6/2023 recommendation, and provided updated recommendations. For the Hearing process the amendments were divided into 3 decisions so they could be acted on independently based on the merits of each set of changes. The Changes were labeled "B-1 Clarification Amendments 1-8," B-2 5-Year Tax Program Proposal, and B-3 Taylor Pond Watershed Amendment.

B-1: The Planning Board made a favorable recommendation on B-1 Clarification Amendments 1-8, with a recommendation to exclude change number 7: Section 60-146(3) to read a maximum depth of 30% or 400 feet, whichever is less, from the adoption of these changes.
B-2: The Planning Board voted to recommend that the City Council should **not** approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed.
B-3: The Planning Board voted to recommend that the City Council should **not** approve the amendment prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years based on the findings that the change disparately affects landowners and disadvantages landowners who are already choosing to use land in the way it was intended to be used in the zone.

City Budgetary Impacts: None.

Staff Recommended Action: Discuss and provide any feedback prior to Public Hearing at the 9/5/2023 CC meeting.

Previous Meetings and History: Last CC meeting was 7/10/2023.

City Manager Comments: I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Ordinance Text Change, Staff Report, Request from CDBG, Income and Housing Cost Analysis

From: Auburn Planning Board

RE: Planning Board recommendation to City Council on AGRP Zone Proposals A and B.

Date: 06/06/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on June 6, 2023, the Planning Board forwards this report to the City Council.

Proposal: City Council directed the Planning Board to make a recommendation on whether to eliminate the income standard in all areas outside the Lake Auburn watershed overlay district as an ordinance text amendment within Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. (It also affects Chapter 60, Article I-In General (Definitions)). This public hearing will consider two proposed sets of text amendments: "Proposal A", the same proposal considered at the public hearing on May 9, 2023; and "Proposal B", as the Planning Board directed staff to prepare at its May 9, 2023, meeting. The proposed text changes are available at https://www.auburnmaine.gov/pages/government/planning-board-agendas and in the Planning Department in City Hall. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance, and Division 3-Public Hearing.

MOTION: Tim DeRoche makes a motion; Toni seconds.

"I make a motion to recommend amending Sec. 60-1 of Article I, In General, as shown in Proposal "B", Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations. Division 2, Agricultural and Resource Protection District as shown in Proposal "B", and amend Sec. 60-952 of Article XII- Environmental Regulations, Divisions 4, Lake Auburn Watershed Overlay District, also as shown in "Proposal B."

The following motions are amendments to the main motion, above.

Motions 1-7 are directly from Evan Cyr's proposed amendments to Proposal "B", submitted 6/6/2023.

Motions 8-9 are from AGRP Zone Group public comment from Steve Beale dated 6/5/2023.

1. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron suggests an amendment for "Sec. 60- 145 (a)(1)(a) to include the language 20% of 2 acres, which ever is less" in reference to lot size. Dave Trask seconds. **VOTE**: Amendment passes 7-0-0

2. **MOTION:** Riley Bergeron; Second: David Trask

Riley Bergeron offers another amendment that 60-145(a)(1)(b)(ii) should be amended to consider all permitted agricultural uses rather than just farming. Dave Trask Seconds. **VOTE:** Amendment passes 7-0-0

3. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron would also like to include an amendment for Section 60-145(a)(1)(b)(vii) to read not be sited in any portion of a parcel that has been classified as being: "a. Enrolled in the State of Maine Farmland Tax Program in the last five years, or" **VOTE:** Amendment passes 6-1-0

4. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for section 60-145(a)(1)(c) which only references Section 60-145(a)(1)(a) but there are also requirements for a residence later in that section. This could be accomplished by reading, "No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirements set forth in Section 60-145(a)(1)(a) and Section 60-145(a)(1)(b)(ii) have been presented" **VOTE:** Amendment passes 7-0-0.

5. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron also offers an amendment to Sec. 60-145 (a)(1)(d) for it to read: "which the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) or the residence fails to remain accessory to an approved plan in accordance with Section 60-145(a)(1)(b)(ii). **VOTE:** Amendment passes 6-1-0

6. **MOTION:** Riley Bergeron; Second: Tim DeRoche

Riley Bergeron offers another amendment for Section 60-146(1) to read, "and measuring less than 250 feet in width at the street frontage along a publicly accepted street," **VOTE:** Amendment passes 4-3-0

7. **MOTION:** Riley Bergeron; Second: Toni Ferraro

Riley Bergeron offers an amendment on Section 60-146(3) to read a maximum depth of 30% or 400 feet, whichever is less.

Riley Bergeron clarifies that his amendment refers to where the house should be set on the lot, the same text provided as public comment. David Trask also seconds after this clarification. **VOTE:** Amendment passes 7-0-0

8. **MOTION:** Tim DeRoche; Second: Riley Bergeron

Tim DeRoche proposes an amendment found in Mr. Beale's public comment in Section 145(a)(3) that 'firewood processing and Christmas tree cultivation' should follow the words maple sugaring." **VOTE:** Amendment passes 7-0-0

9. **MOTION:** David Trask; Second: Toni Ferraro

David Trask offers an amendment that in Section 145(b)(8)(a) the words except for approved conservation cemeteries which shall be at least 10 acres in size" should be added. **VOTE:** Amendment passes 7-0-0

10. MOTION: David Trask; Second: Toni Ferraro

David Trask would like to amend where referenced the Lake Auburn watershed to include the Taylor Pond watershed as well. **VOTE:** Amendment passes 7-0-0

MOTION: Tim DeRoche; Second: David Trask

"I make a motion to approve the B option with said amendments (1-10)" **VOTE:** Motion passes 7-0-0.

Re: Staff Report on Proposal B-1 with Planning Board Clarification Amendments #1-8

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B1) Planning Board Proposed Changes Numbers One Through Eight: Consider zoning text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve proposal B without the amendments offered in the Planning Board recommendation to City Council on AGRP Zone Proposals A and B (included in this packet) and issued an Order that Planning Board hold a public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B-1 with Planning Board Clarification Amendments #1-8 are complimentary to the existing language and function of adopted Proposal B, and do not seem to impose significant change from the previously approved Proposal B. Proposal B-1 with Planning Board Clarification Amendments #1-8 is summarized below and references each motion from 6/6/2023 prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B-1 with Planning Board Clarification Amendments #1-8

1. Add "or two acres, whichever is less" after the word coverage in Sec. 60-145(a)(1)(a). (Motion 1)
   Amendment 1 is intended to concentrate the residential development to a smaller percent of each lot and avoid disrupting more land than is needed.

2. Add "agriculture," in Sec. 60-145(a)(1)(b)(ii) (a, b, and c), after the words, farm, farming, and farm. (Motion 2*)

Amendment 2 broadens the uses that would allow for a residential unit to include agriculture uses in addition to farming, natural resource, or recreation.

3. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145(a)(1)(c) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 4)
   Amendment 3 adds the requirement that a bona fide farm plan be presented to staff who will determine whether the proposal meets the ordinance before a certificate of occupancy is granted for a dwelling. In addition to the criteria that residential structures are limited to a footprint of 20% of the lot area or 2 acres, whichever is less.

4. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145 (a)(1)(d) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 5*)
   Amendment 4 adds specification that in order for a dwelling to continue existing, it must continually meet the requirements of a bona fide farm, in addition to keeping the residential footprint to 20% of the lot area or 2 acres, whichever is less.
5. Add "along a publicly accepted street" to 60-146(1) after the word "frontage" (Motion 6).
   Amendment 5 specifies that private ways may not be used as road frontage. This is intended to reduce the possibility of creating new roads for the purposes of developing housing, and generally limits the area able to be developed in the AGRP zone.

6. Add "or 400 feet, whichever is less" to Sec. 60-146(3)(c) after the word "lot".
   Amendment 6 limits the maximum development depth on particularly large lots, thereby reducing land fragmentation and disturbing less earth for the construction.

7. Add "firewood processing, Christmas tree cultivation" to Sec. 145(a)(3) after the word "sugaring".
   Amendment 7 is meant to recognize other common natural resources and timber harvesting practices besides agriculture and forestry. It expands the uses for which a home can be accessory.

8. The updated proposal draft includes Sec. 60-145(b)(8)(c), recognizing that 10 acres is the minimum size for conservation cemeteries. This was previously adopted by the council so it is not shown as a change in this proposed text amendment.
   Number 8 recognizes that the motion was made to include 10-acre conservation cemeteries in the AGRP ordinance, by showing the adopted AGRP text that includes this as condition C.

IV. **Staff Recommendation:** Staff recommend the Planning Board recommend approval of all amendments in proposal B1, with the finding that they are in alignment with or strengthen the existing language and are true to the intent of the AGRP zone based on the Comprehensive Plan and existing Zoning.

V. **Suggested Motion:** I make a motion to recommend approval of the text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text change is attached.

Proposal B-1 with Pl Bd Clarification Amendments #1-8

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

• • •

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage or two acres, whichever is less of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, agricultural, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, agricultural, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, agricultural, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii).

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest, including, but not limited to, maple sugaring, firewood processing, Christmas tree cultivation, or mushroom cultivation.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.
(10) Handling, storage or processing and sale of forestry products or agricultural products.
(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.
(12) Wayside stands.
(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.
(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.
(15) Marijuana manufacturing accessory to a licensed cultivation site.
(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in Sec. 60-1501.
(17) Natural resource uses.
(18) Small-scale recreational uses of land designed or intended for public use.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:

(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:
   a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.
   a. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.
   b. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.
(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.
(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.
(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.
(5) Non-small scale recreational uses of land intended or designed for public use subject to the following conditions:
   a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.
   b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.
(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:
   a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.
   b. In cases where no minimum setback is established by division 5 of article XII of this chapter

an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:
   a. At least 20 acres in area
   b. Not located in any environmental overlay district or over any known aquifer.
   c. At least 10 acres if designated a conservation cemetery.

(9) Municipal sanitary landfills, subject to the following conditions:
   a. Not located in any environmental overlay district or over any known aquifer.
   b. Provisions shall be made to avoid surface water and groundwater pollution.
   c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:
   a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.
   b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:
   a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.
   b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:
   a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.
   b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.
   c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:
   a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.
   b. The proposed use shall not occupy more than 10,000 square feet of building area.
   c. The number of employees shall be limited to not more than 15.
   d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.
   e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:
   a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.
   b. Provisions shall be made to avoid surface and groundwater pollution.
   c. Provisions shall be made to counteract vermin, insects and odors.
   d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.
   e. Shall not be located within the Lake Auburn Watershed Overlay District.

department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:

1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;
2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;
3. To the extent possible, infrastructure shall not be located on steep slopes; and
4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:

1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.
2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage along a publicly accepted street, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Sec. 60-2.

c. A dwelling may be constructed on lots lawfully existing as of October 1, 2017 and containing less than ten acres, only if approved pursuant to Sec. 60-145(a)(1).

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is (19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

(18) [RESERVED]

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.
2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.
3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under Sec. 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on this subsection 60-145(b)(19)(d). by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.
2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.
3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot or 400 feet, whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

Re: Staff Report on Proposal B2 with Planning Board Proposed Tax Program 5YR Amendment.

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B2) Planning Board Proposed Change Number Ten: Consider zoning text amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use tax programs within the last five years. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and were followed by City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in this packet.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board recommendation(included in this packet) and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes. The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B2 with the Planning Board recommended Tax Program 5YR Amendment has been proposed as separate text and hearing because it is a substantive amendment. The Amendment is summarized below and references the motion from the 6/6/2023 Planning Board Recommendation prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B2 - Planning Board recommended Tax Program 5YR Amendment.

1. Remove "~~Currently~~" before "enrolled", capitalize the "E" in "enrolled" and add "within the last five years" after the word "Program" in Sec. 60-145(b)(vii)(a, b, c). *This is referred to as proposed change number 10, because it was the 10th amendment recommended by the Board in the 6/6/23 recommendations.*

IV. Staff Recommendation: This proposal was initiated to prevent Auburn landowners who have been utilizing the State of Maine Farmland Tax Program, the State of Maine Tree Growth Tax Program, and the State of Maine Open Space tax Program from removing land from this protection in order to build housing. We do not recommend this amendment because a result of this change may mean that someone who has been using the AGRP district as prescribed and intended could be penalized for deciding to build on this land. This

also has the potential to create a disadvantage to existing farmers and rural landowners who have used the land as the AGRP zone intended, in comparison to new landowners or those that have not used the land for agriculture, forestry or public recreation. Under this amendment, someone who has held land in any of the tax programs may not build on their land for five years, even if they meet the other requirements of the AGRP zoning district. In the absence of a five-year moratorium, landowners still need to provide a bona fide plan for farming, agricultural, recreational, or natural resource use before any residential development could occur.

V. **Suggested Motion:** I make a motion to not recommend the amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years. The text amendments were proposed at the June 9, 2023, Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

Proposal B-2 with Pl Bd Tax Program 5 YR Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

• • •

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that

has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.
b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.
c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. ~~Currently e~~Currently eEnrolled in the State of Maine Farmland Tax Program within the last five years; or
b. ~~Currently e~~Currently eEnrolled in the State of Maine Tree Growth Tax Law Program within the last five years; or
c. ~~Currently e~~Currently eEnrolled in the State of Maine Open Space Tax Program within the last five years.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

Re: Staff Report on Proposal B3 to the AGRP Zoning Use standards - Planning Board Recommended Amendment to prohibit residences in the AGRP portions of the Taylor Pond Watershed

Date: August 8, 2023

I. **Proposal: Public Hearing/ AGRP Text Amendment (Proposal B3) Planning Board Proposed Change Number Nine:** Consider a zoning text amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing and agriculture operations in the AGRP zone if they are also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and followed by the City Council passage of Ordinance #10-06202023 on July 10, 2023. The proposed text has been and is available in the Planning & Permitting Department in City Hall.

II. **Background:** On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their prior recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B3 is the Planning Board recommended Taylor Pond Watershed Amendment and has been proposed as separate text and hearing from the others because it is a substantive amendment. The proposed amendment is summarized below (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. **Proposal B3 with Planning Board Taylor Pond Watershed Amendment.**

1. Add "or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map;" in Sec.60-145)(b)(i) after the word "District"
   This is referred to as proposed change number nine, because it was the 9th amendment recommended by the Planning Board on June 9, 2023.

IV. **Staff Recommendation:** We do not recommend this amendment because it restricts a large land area that would have much less impact on the Pond than the existing small lot development around the Pond, the existing protections(Phosphorus Control) are adequate in the ordinance, and it could disadvantage existing farms, recreational or natural resource

based uses in the Taylor Pond Watershed. The amendment proposes prohibiting new homes in the Taylor Pond watershed which are also in the AGRP zone, which would include approximately 2,035 acres of land. Most existing structures in the Taylor Pond watershed are made up of small camps or homes that have historically caused land use issues and have threatened the health of the pond. Chapter 60, Article XII, Division 3- Taylor Pond Overlay district which extends 250 feet from the high-water mark of Taylor Pond was created to mitigate the impacts of this existing development over time. There are additional. environmental protections that apply to the approximately 3,880 acres that make up the Taylor Pond Watershed. Specifically, Article XIII, Division 2- Phosphorous Control requires that any person proposing new construction over 200 square feet in size, tree cutting or earth moving over 10,000 square feet, or driveway or road construction affecting over 1,500 square feet of land needs to submit a phosphorous control plan for staff to review before any construction can begin. Erosion and Sedimentation control standards also prevent runoff from new development into Taylor Pond. Most land that is in the AGRP zone in the Taylor Pond Watershed is northwest of the lake, and at least 250ft. away from the high-water mark. There are existing farms operating in alignment with the standards of the AGRP zone in this area, and this amendment would prohibit. building a home accessory to any farm, agricultural, natural resource, or recreational use. If this amendment does not pass, as we are recommending, any new home would still be required to meet all requirements of the AGRP zone and the Taylor Pond Watershed standards.

V. **Suggested Motion:** I make a motion to recommend that the City Council should **not** approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

Proposal B-3 with Pl Bd Taylor Pond Watershed Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

● ● ●

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023

Author: Eric J. Cousens Director of Planning and Permitting

Subject: Minimum Dwelling Size Ordinance Amendment

Information: Currently, the existing ordinance definition requires a minimum of 700 SF of net floor space for single-family attached and detached dwelling. This ordinance has existed for at least 20 years. State Law (Chapter 219, Sec 1. 30-A MRSA §4363), has changed and requires an allowance for tiny homes of up to 400 square feet. However, this leaves a gap in the allowable size of new dwelling units, where units ranging from 401 to 699 SF are in what is considered a "void in allowance" and home sizes in that range are currently not allowed. Attached are some examples of homes below 700SF and an income and cost analysis that demonstrates the importance of this flexibility. This is a logical correction to the Ordinance in response to changes in State Law and to meet local housing goals.

City Budgetary Impacts: None. Potentially new Homes.

Staff Recommended Action: Discuss and provide any feedback prior to Planning Board Public Hearing.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Ordinance Text Change, Staff Report, Request from CDBG, Income and Housing Cost Analysis

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

Dwelling, one-family attached, means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. ~~Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~

Dwelling, one-family detached, means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. ~~Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width ~~and are 700 or more square feet, and~~ which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

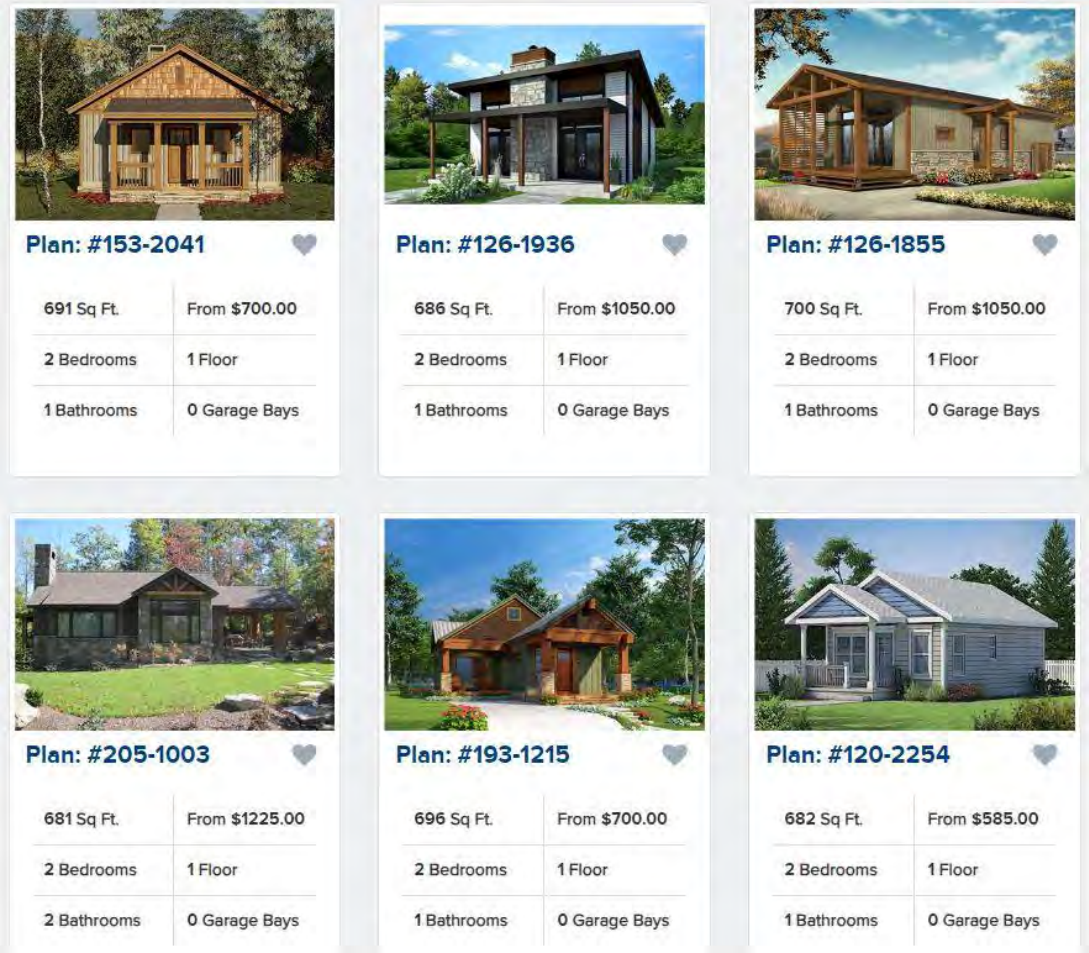
To: Auburn Planning Board
From: John Blais, Deputy Director
Re: Workshop on minimum dwelling size pursuant to Chapter 60, Article XVII, Division 2-Sec.60-2 Definitions

Date: August 10th, 2022

I. **PROPOSAL**: Currently, the existing ordinance definition requires a minimum of 700 SF of net floor space for single-family attached and detached dwelling. State Law (Chapter 219, Sec 1. 30-A MRSA §4363), provides provisions for tiny homes of up to 400 square feet. However, this leaves a gap in the allowable size of new dwelling units, where units ranging from 401 to 699 SF are in what is considered a "void in allowance" and is currently not allowed. Below are some examples of homes below 700SF.



II. **PLANNING BOARD ACTION/STAFF SUGGESTIONS:** Staff suggests a planning board discuss the proposals and direct staff to prepare to hold a Public Hearing on September 12th, 2023. Staff then recommends that the Board forward a positive recommendation to the Council supporting the proposed changes to drop the 700 SF requirement for minimum dwelling size for the following reasons:

1. Auburn has a minimum home size of 700sf. State Law mandates allowing smaller “tiny homes” of less than 400sf. This creates a gap where a homeowner with a 400 sf home cannot add on unless they exceed 700sf total floor area: this is illogical.
2. In January, LD2003 as a mended will require this change. This will make Auburn compliant with this element of the new State Law and allow flexibility in constructing new smaller homes.

May 16, 2023

Re: Proposed Amendment to Auburn Land Use Code Section 60-2 to allow for increased options for affordable housing development.

For consideration by the City of Auburn, Maine Planning Board:

I am writing to discuss current Land Use ordinances as they pertain to the development of affordable housing options in Auburn, specifically addressing the prevailing needs of low- to moderate-income residents. Our team at the Business & Community Development Department has been working closely with the Maine State Housing Authority (MSHA) and the U.S. Department of Housing & Urban Development (HUD) to create programs which support the construction of new, affordable housing which better align with prevailing community needs.

In recent years, we have observed rising construction costs and a decrease in the size of families seeking housing assistance. This has led us to recognize that the current minimum requirement of 700 square feet of net floor area for habitable space is overly restrictive for renters, developers, and homeowners interested in building environmentally friendly, efficient, and affordable homes or additional accessory dwelling units on their properties.

We have received confirmation of the unmet housing needs from various reliable sources, including the city's General Assistance, Public Health, and Housing Resource Coordinator. For example, year-to-date data provided by the Auburn General Assistance office demonstrates that 225 of the 305 cases approved this year were families requiring aid in paying for rent. This line item is already 268% higher than the previous year, with two more months left. Similarly, 91 cases were approved for utility assistance (primarily electricity) which constitutes an 827% increase from the previous year's totals. To compensate for this, many housing service providers across the state have resorted to renting out individual rooms within existing units, either informally or by offering bifurcated lease options.

Furthermore, housing developments constructed with HUD and/or MSHA funds impose limits on the maximum allowable rent that developers and property owners can charge. While this ensures affordability for low- to moderate-income residents, it presents challenges for developers to generate sufficient cash flow to sustain these projects at below-market rates without substantial low-income tax credits, TIF-funded credit enhancements, or federal subsidies. Current Fair Market Rent (FMR) caps for a 1-bedroom unit in the Lewiston-Auburn Metro Statistical area is $834 per month including all tenant paid utilities.

Recent affordable housing projects in neighboring communities are currently seeing construction costs of more than $350 per square foot. For a 600sqft 1-bedroom unit with rents capped at allowable FMR limits it would take over 20 years to break even on construction, before even

considering operational and maintenance expenses. Still, when these budgetary obstacles are overcome, local opposition to project placement often hinders the realization of even the most well-intentioned endeavors.

To address these issues and create a decentralized affordable housing development program, the Auburn Business and Community Development Department has formed a partnership with MSHA and HUD. Our goal is to promote the construction of modest-sized accessory dwelling units that are not only cost-effective but are also owned by local developers or situated on owner-occupied Auburn properties.

Currently, the existing ordinances stipulate a minimum of 700 square feet of net floor space for single-family attached or detached dwellings. State laws provide provisions for tiny homes of up to 400 square feet. However, this leaves a considerable gap in the allowable size of new dwelling units, where units ranging from 401 to 699 square feet are inherently incongruous with the current zoning standards.

Thankfully, the proposed changes that accompany this letter are both straightforward and impactful. By implementing these changes, we can facilitate the construction and occupation of a significant number of new, modest, and economical housing units for low- to moderate-income Auburn residents. Moreover, this approach to developing scatter-site affordable housing aligns with Auburn's strategic plan, which aims to create housing opportunities that integrate seamlessly with existing neighborhood conditions. It also adheres to HUD's guidance, which discourages the concentration of affordable housing projects in low-income areas and the creation of new enclaves of low-income residents.

By embracing these proposed changes, Auburn demonstrates its commitment to accommodating both existing and prospective residents, particularly by providing new affordable housing options which cater to workforce and retirement needs. These optimized housing solutions, tailored to current demands, serve as a testament to the progress made by the planning board in modernizing Auburn's zoning standards.

We firmly believe that by supporting this request, Auburn will not only align with new industry standards but also remain competitive in attracting residents and fostering a harmonious neighborhood environment. Our proposal is in complete harmony with our comprehensive plan and addresses the pressing needs of Auburn's residents.

Thank you for considering this proposal. We look forward to discussing this further and working together to make Auburn an even better place to live for all its residents.

All the best.

Zakk W. Maher
Deputy Director of Business & Community Development

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

Dwelling, one-family attached, means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. ~~Each one-family attached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~

Dwelling, one-family detached, means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. ~~Each one-family detached dwelling shall contain not less than 700 square feet of net floor area of habitable space.~~

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width ~~and are 700 or more square feet, and~~ which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023

Author: Eric J. Cousens Director of Planning and Permitting

Subject: Planning Board Recommended T4.2B Ordinance Text and Zoning Map Amendments Overview

---

Information: At the July 8, 2023 Planning Board Meeting the Board made recommendations on Ordinance text and Zoning Map amendments for the T4.2B Zoning District. They are summarized as follows:

ZONING TEXT AMENDMENT/ PETITION: The Planning Board considered a proposed text change to Sec. 60-548B-Front Setback, Principal for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2013. The Planning Board recommended that this change should not be approved by the City Council. Staff and Legal Counsel proposed amended language that was reviewed as part of the next item that incorporates the intent of the petition proposed change with some modifications. The recommended modifications include replacing the word "shall" with "may", the intended retroactivity was not included, the text was reinforced/supported with amended diagrams and there were other changes incorporated into a larger amendment. To achieve the broader changes it was handled as a separate item below.

FORM BASED CODE TEXT AMENDMENT/PLANNING BOARD INITIATED: The Planning Board consider a proposed text change for Sec. 60-548B, T-4.2B including 1.) Sec. 60-54B Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. See attached staff report and Ordinance Text for details.

FORM BASED CODE ZONING MAP AMENDMENT/COUNCIL INITIATED: Expansion of T4.2B zoning district and Conservation Open Space Districts to include additional areas as shown on the attached maps and further described in the attached staff reports. Areas include: A1: Planning Board recommends Approval; Area A2: Planning Board does **not** recommend approval; Area B1&B2: Tabled for consideration of an expanded area at the September Planning Board Meeting; Area C: Planning Board recommends Approval; Area D: Planning Board recommends Approval.

Staff will be available to provide an overview, take feedback and answer questions.

City Budgetary Impacts: None.

Staff Recommended Action: Discuss and provide any feedback prior to Public Hearings at the 9/5/2023 CC Meeting.

Previous Meetings and History: None for these changes.

City Manager Comments:

I concur with the recommendation. Signature:

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report: Petition to amend T-4.2B zoning text
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and subsequently tabled by the Planning Board to a date certain (August 8th, 2023) on the July 11, 2023 Planning Board meeting. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the zoning ordinance or zoning map.

II. Background: Amendments to the zoning ordinance, including the zoning map, may be initiated by the Planning Board on its own initiative or upon request by the City Council or by a petition signed by not less than 25 registered voters of the city (Ord. of 9-21-2009, Sec. 8.1A) Zoning map and text changes may be appropriate where the serve to support the goals of the Comprehensive Plan.

Staff currently understands that front setbacks in T-4.2B zoning districts may be measured from shared accessways, private ways, and shared parking areas. This petition seeks to clarify this understanding by adding the underlined language to Sec. 60-548B as follows: "Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of the principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. **Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.**"

This language addition is consistent with the comprehensive plan, but staff suggests a few additional changes to T-4.2B including amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration T-4.2B to decrease the minimum frontage buildout for residential lots.

In the petition's explanation, the circulator intends for the added language confirming setback interpretation to be applied to the approval of past projects to this point, and notwithstanding M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects. Staff acquired legal counsel on the intention for this language change to apply retroactively, and as such, recommends that the Board not consider retroactive because the language was not included in the petition for the amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B.

Planning Board Action: Staff suggests planning board forward a negative recommendation to Council on the proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and recommend that they not consider the retroactive language suggested in the description of the petition.

III. Suggested Reasons and Finding of Fact:

1. The applicant submitted rezoning petitions and signatures, Text with public Notice, on June 12, thus meeting submission standards (Sec. 60-1446).
2. The text amendment is consistent with the current comprehensive plan and the intent of the existing ordinance text and diagrams.
3. The text and intent of the petition can be clarified in a different way and the Board will review that later this evening.

V. Suggested Motion: I make a motion to recommend that the Council not amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023.

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend the City of Auburn Zoning Ordinance to add clarity. The proposed change includes an amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B . *Front Setback, Principal* for Traditional Neighborhood T-4.2B to add the underlined language as follows

PRINCIPAL BUILDING PLACEMENT:		
Front Setback, Principal:	5 ft. Min/, 25 ft. Max*	(A)
(Corner Lot) Front Setback, Secondary:	5 ft. Min., 15 ft. Max.	(B)
Side Setback:	5 ft. Min.	(C)
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	70% Max.	
Useable Open Space:	10% Min.	
Frontage Build-Out:	60% Min (along Front Setback, Primary)	
Lot Width:	24 ft. Min, 120 ft. Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 110 ft. Max.	(E)
Building Height Minimum:	1 Story Min.	(F)
Building Height Maximum:	3 Story Max.	(F) (excluding attic story

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian access way or parking area.

Explanation: One of the primary tests of a zone change is its conformance with the Comprehensive Plan. GROWTH AREAS Type A [Residential] The Traditional Neighborhood Development (TND) District requires that new development be designed to minimize the number of vehicular access points to existing collector or other roads; shared driveways are encouraged; and dimensional standards be established that relate to the size and width of the lot. A copy of that Comprehensive Plan section is attached and marked as Exhibit A. The City has adopted the T-4.2B zoning district to meet the goals of the TND District in the Comprehensive Plan by encouraging the use of shared driveways and limiting vehicular access points to Collector roadways, the new Ordinance was intended to allow for front setbacks in the T-4.2B district to be measured from Access Ways and Parking areas on internal, shared access points. This amendment clarifies the existing text to advance the shared access point objectives of the Plan; confirms the interpretation of the dimensional requirements of the T-4.2B zoning district adopted by the planning board in its approval of projects to date; and notwithstanding 1 M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects.

Exhibit A

In addition to the Future Land Use Map, four detail maps ([redacted]) show the future land use designations for specific portions of the community, including Downtown, New Auburn, Minot Avenue, and Center Street.

FUTURE LAND USE PLAN VISION STATEMENT:

As a model of carefully managed growth, Auburn seeks to **grow outward from the historic cores within our city** and be known for its **strong, vibrant neighborhoods**. The city is committed to making careful, effective, and **efficient use of land and corresponding services, while strengthening the character of our neighborhoods**, ensuring that resources exist to maintain and enhance the quality of life for current and future residents. Auburn's continued commitment to **strong community connections**, embracing opportunity, and mindful growth should be **balanced with natural resource conservation** and woven into the city's unique identity.

1. GROWTH AREAS –

Type A: Development Areas
Designation: Residential

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water ([redacted]). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update ([redacted]). The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should

be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

SUBURBAN DEVELOPMENT DISTRICT (SD)

Objective – Allow for the development of a limited range of residential and community uses at a density of up to 6-8 units per acre in areas that are served or can be served by public/community sewerage and/or public/community water (see Figure 2-5). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Suburban Development District generally follows the boundaries of the Multifamily Suburban and Suburban Residential Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Suburban Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Recreational Uses of Land
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 8 units per acre with no minimum road frontage required, shared driveways are encouraged. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-20 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Designation: Nonresidential and Mixed Use

FORM-BASED CODE DEVELOPMENT DISTRICT (FBCD)

Objective – Stabilize and promote continued investment in the City's high-density neighborhoods which include a mix of housing types including multi-unit buildings to assure that they remain safe, attractive areas in which residents want to live (see Figures 2-3 and 2-4). To this end, the district should allow property owners to upgrade their properties, and for infill development and redevelopment/reuse to occur, as long as it is compatible with the character of the neighborhood.

Allowed Use – The Form-Based Code Development District generally follows the boundaries of the Form-Based Code (Transects 4.1, 4.2, 5.1, 5.2 and 6), in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Form-Based Code Development District:

- Low and High Density Residential Dwelling Units
- Home Occupations
- Civic Uses
- Office/Service Type Uses
- Retail Type Uses

Development Standards – The reuse/reconfiguration of existing buildings for residential purposes should be allowed without consideration of density/lot size requirements, provided that

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

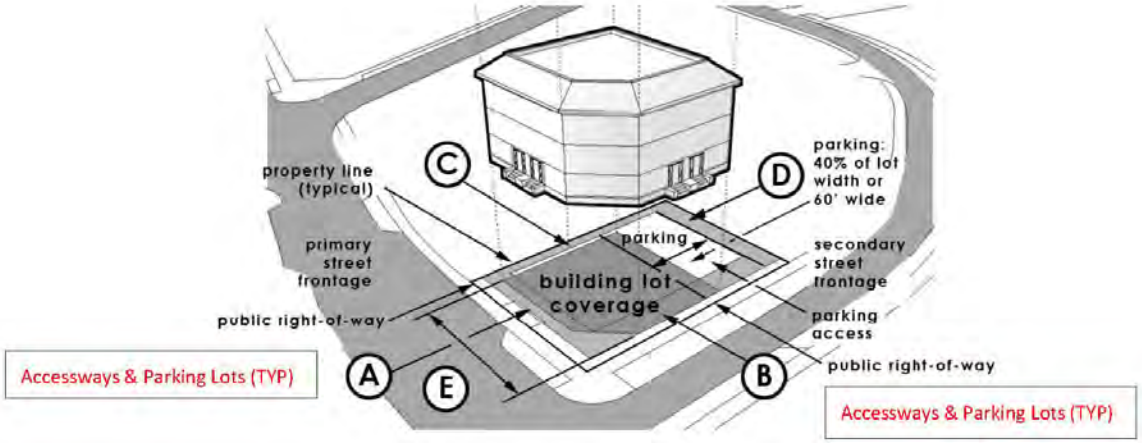
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

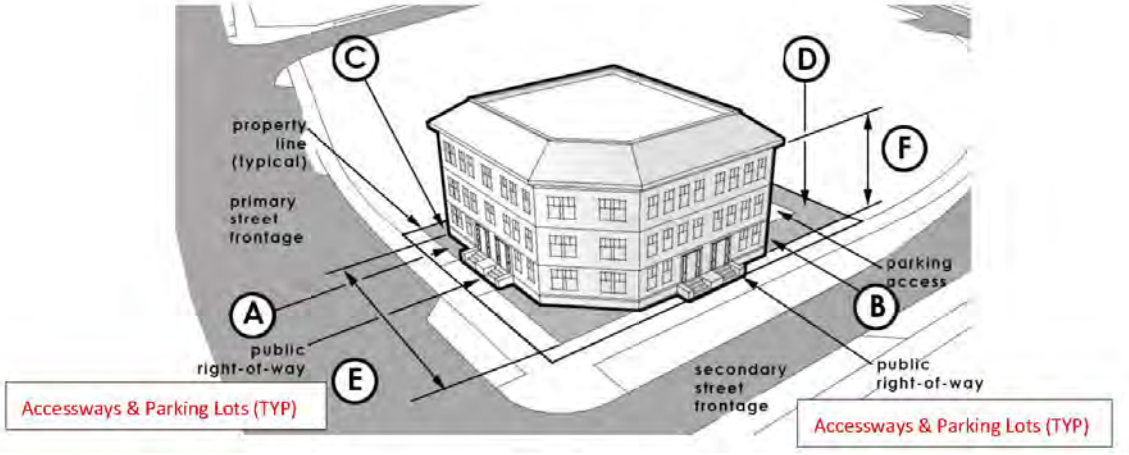
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



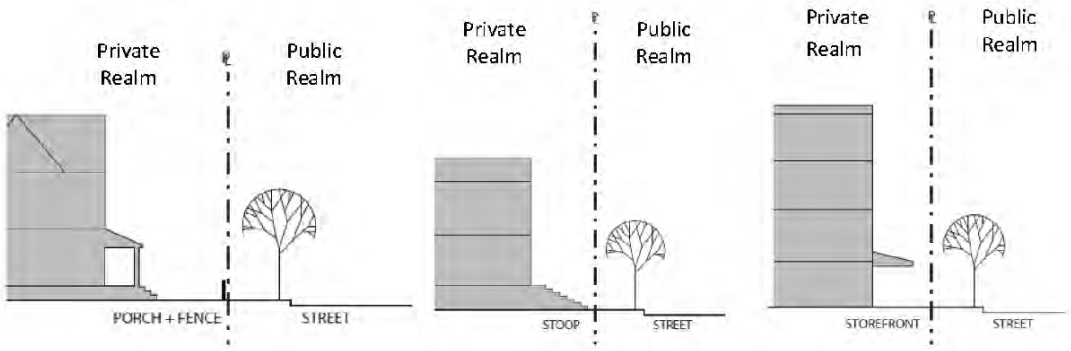
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

Staff and Planning Board Recommended Text Amendment T4.2B

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine
04210 www.auburnmaine.gov |
207.333.6601

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report: Staff Recommendation Text Amendments to T-4.2B to Add Clarity
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- 1.) Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. 4.) amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B.

II. Background: Staff currently understands that additional clarity is desired for the text of the T-4.2B Zoning District. The current text of the T-4.2B form-based codes does not differentiate between residential single-family homes, development of small infill lots and special exception/subdivision development of larger lots. Some clarification is recommended that effects frontage buildout, setback measurements and general clerical items.

Staff suggests that the Board consider language similar to the previous petition in addition to amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration to decrease the minimum frontage buildout for residential lots. The proposed language and changes are attached. Staff recommends that the Planning Board hold a Public Hearing, and vote on the amendments to the zone.

Planning Board Action: Staff suggests planning board hold a public hearing and vote to recommend approval of the ordinance amendments(attached).

III. Suggested Reasons and Finding of Fact:

1. The text amendment is consistent with the current comprehensive plan.
2. The proposed text amendment clarifies the intent of the existing ordinance and encourages shared access ways for multiple buildings to minimize curb openings on public streets.
3. The amendment modifies the T4.2B text to allow additional flexibility and simplify permitting for one and two-family homes.

V. Suggested Motion: I make a motion to recommend that the City Council approve the proposed ordinance amendment(attached), including amendments to:

1) Sec. 60-548B- 1. Intent and Purpose “setback”,

2) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout for commercial and multi-family and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.,

3) Sec. 548B.2, Building Frontages T4.2B Table as shown on the attached Ordinance Amendment Document.

4) Amendment to the note (*) in the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(As shown in the attached Ordinance Amendment Document)

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose: Traditional Neighborhood (T-4.2B)

The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Illustrative View of T-4.2B

Sec.60-40(b) Table update

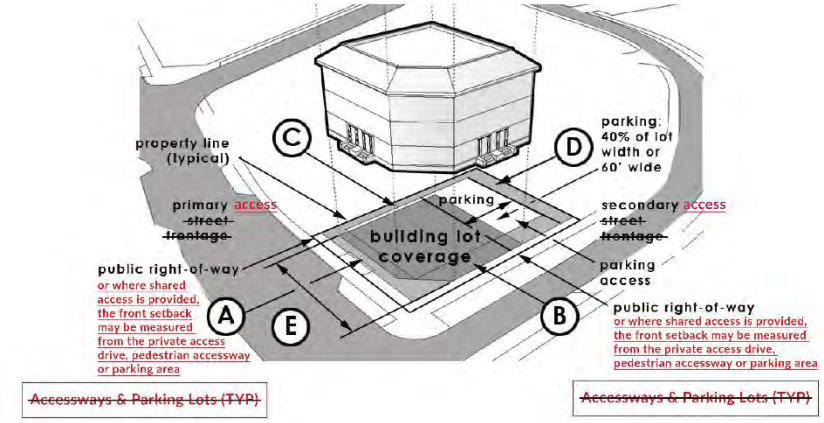
Characteristic Features

- More public and private realm interaction
- Front facade detailing
- Small front yards

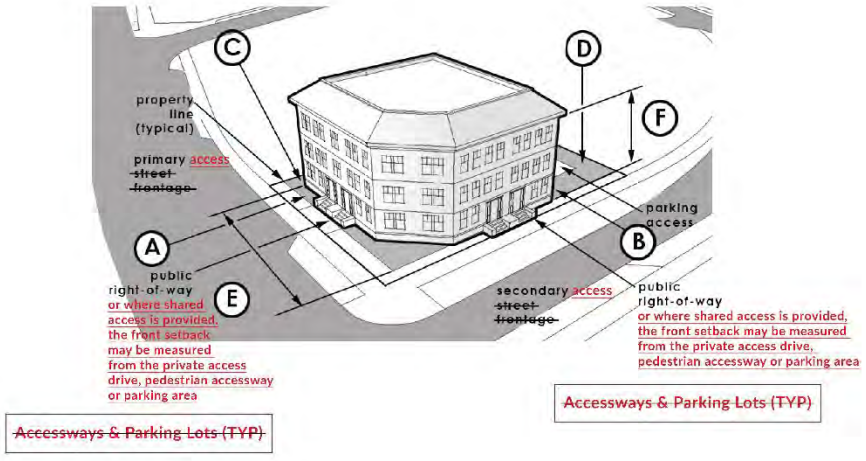
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



Building Placement on Lot

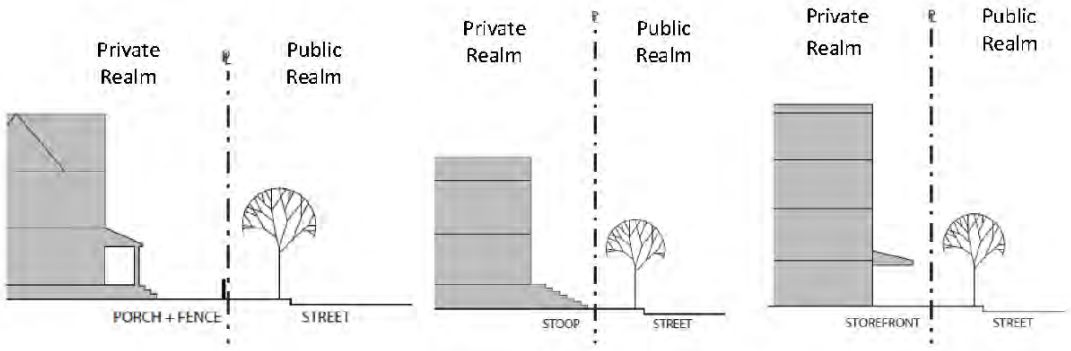
PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)

(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary) for commercial and multi-family uses and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential with one or two units – No minimum and maximum window and door area applies. Residential with three or more units - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a

	minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Residential structures with one or two units - No minimum and maximum window and door area applies. Residential structures with three or more units and Commercial- Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-4. Zoning districts.

(a) For the purposes in section 60-3, the use, construction and alteration of buildings and structures and the use and alteration of land in the city are hereby restricted and regulated according to the provisions of this chapter.

(b) The city is hereby divided into zoning districts designated as follows and more fully described on the official zoning map:

District title	Classification	Short title
Agriculture and Resource Protection	Resource	AG
Low Density Country Residential	Resource/Residential	LDCR
Rural Residence	Residential	RR
Suburban Residence	Residential	SR
Urban Residence	Residential	UR
Multifamily Suburban	Residential	MFS
Multifamily Urban	Residential	MFU
Planned Unit Development	Residential/Commercial	PUD
Downtown Enterprise Zone	Residential/Commercial	DEZ
General Business	Commercial	GB
Neighborhood Business	Commercial	NB
Form Based Code Regulating Plan:		
Traditional Main Street Neighborhood (Transect 4.1)	Residential/Commercial	T-4.1
Traditional Neighborhood (Transect 4.2B)	Residential/Commercial	T-4.2B
Traditional Downtown Neighborhood (Transect 4.2)	Residential/Commercial	T-4.2
Downtown Traditional Center (Transect 5.1)	Residential/Commercial	T-5.1
Downtown City Center (Transect 5.2)	Residential/Commercial	T-5.2
Great Falls Metropolitan (Transect 6)	Residential/Commercial	T-6
Industrial	Industrial	ID
Floodplain Overlay District	Environmental	FPO
Taylor Pond Overlay District	Environmental	TPO
Lake Auburn Watershed Overlay District	Environmental	LAO
Shoreland Overlay District	Environmental	SLO
Manufacturing Housing Overlay District	Residential	MHO

(Ord. of 9-21-2009, § 1.2; Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 56, 3-15-2021)

Zoning Map Amendment
Area A1

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

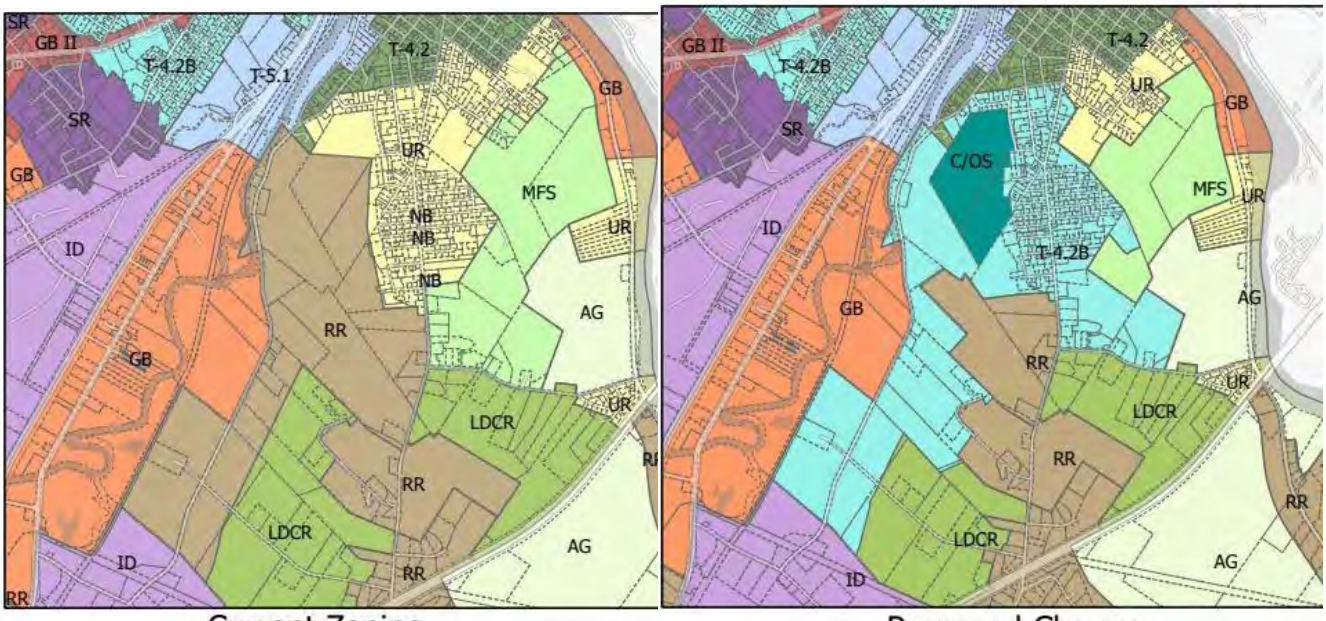
To: Auburn Planning Board

From: Katherine Cook, Planning Coordinator

Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A1

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendment/ T-4.2B Area A1: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road.



Current Zoning | Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four Areas, A-D, across the city.

The July 11, 2023 meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2". Since portions of the area are more controversial than others, this makes it possible to decide on the two portions individually as shown on the proposed zoning maps.
2. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
3. Two parcels, Sherwood Forest, and the adjacent parcel owned by Androscoggin Land Trust are proposed to be changed to a Conservation Open Space zone to reflect their public use and to make it clear that they are not available for T-4.2B development.

III. **Traditional Neighborhood Development District:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the

size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings, Reasons and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B and Conservation Open Space as shown on the attached proposed zoning map (Area A1) with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A1 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A1 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks as proposed alleviates this challenge.
9. The current zoning in Area A1 only allows single-family and two-family homes, limiting housing affordability, production and who can live in Auburn's neighborhoods. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many people. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

V. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment has been and is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road as shown on the attached map (A1).

auburnmaine.gov

Appendix A: Transportation Goals: This applies to Area A1, A2, Area B1 & B1. Future plan regarding Washington Street also connect to Area C.

"Goal G.1: Auburn supports real-estate growth patterns that fully utilize the utility of all road networks in the city, making necessary additional connections between road networks to advance this goal…"

1. The full utility of the Maine Turnpike and Washington Street have not been integrated into residential growth patterns in Auburn. Previous efforts to integrate the Turnpike focused on industrial/commercial growth, which is no longer recommended in the Comprehensive Plan.
2. The New Auburn area is dominated by streets running north to south with limited east to west connections. The Little Androscoggin and Androscoggin Rivers have driven that development history and the Comprehensive Plan specifies recommendations to establish broader east-west connectivity. Developing a grid network as projects are proposed under site plan review will allow for priority streets to serve both local uses and regional mobility and keep through traffic out of neighborhoods.
3. Developing a connected grid of streets will need to be part of site plan review to avoid creating congestion and safety issues in key areas of New Auburn village and Danville.

"Goal G.2: Auburn has a well-designed–and functioning road network that safely and equitably moves all manner of users (cars, buses, bikes, and pedestrians) into and through the community while expanding traditional residential neighborhood growth patterns in Danville and New Auburn. Expansions in neighborhood growth are in keeping with traditional transportation network patterns, such as interconnected streets that provide multiple travel patterns, avoiding a rigid hierarchy of streets."

1. Additional residential growth at the densities already in place in the core neighborhood will have an impact on the existing road network in New Auburn. Implementing this comprehensive plan goal is done through increased density allowed in zoning and the establishment of an interconnected street grid, over time, resembling the existing built area.
2. Expansions in transportation capacity, such as connector roads or highway interchanges, are difficult to permit if the goal is "sprawl repair" due to haphazard road layout and inefficient use of land for community growth.
3. New capacity, linked to providing for regional mobility and a protection of neighborhood and village street grids, does provide a strong foundation for pursuing state/federal permitting.

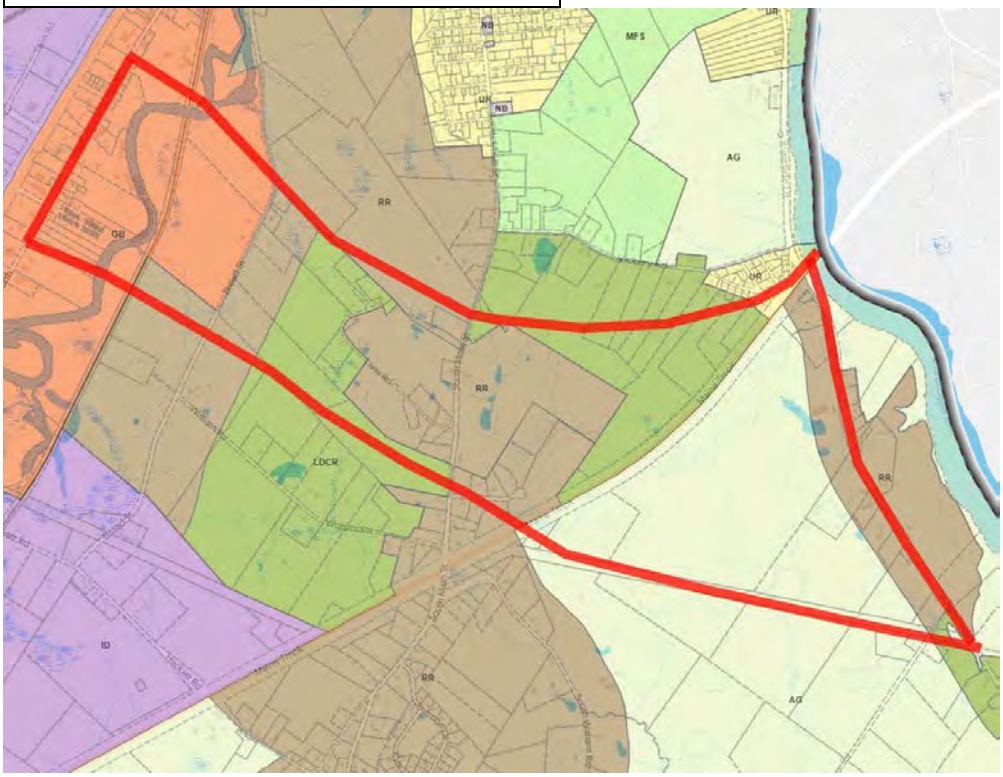
Possible Connector Protection Corridor



FREQUENTLY ASKED QUESTIONS

FORM-BASED CODE The Form Based Code Institute defines a form-based code as "a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code. A form-based code is a regulation, not a mere guideline, adopted into city, town, or county law. A form-based code offers a powerful alternative to conventional zoning regulation."[2] The purpose of implementing form-based code is to provide equitable access to housing in walkable neighborhoods by allowing residential uses at a density driven by the form, lot size and configuration of the lot with less minimum road frontage required and shared driveways encouraged. Form-based code regulates the physical form of the built environment using transects, which are the standardized categories that describe the range or continuum of development types; from T-1 Natural Areas to T-6 Urban Core or City Center with an additional category designated for other uses. Form-based code offers an alternative to traditional zoning laws which separate where we live from where we work, learn, shop, play, and gather. By strictly regulating the setbacks and types of housing, units are built further apart resulting in greater reliance on roads. As an alternative, form-based code promotes walkability by reducing the separation between private and public realms of life. Auburn's form-based code proposes six types of form-based code districts, T-4.1, T-4.2B, T-4.2, T-5.1, T-5.2 and T-6. These districts range from least urban to most urban. T-4.2B is characterized as the Traditional Neighborhood Development District or General Urban Zone.

How would T-4.2B affect my neighborhood?

Building by form as regulated in T-4.2B will differ based on where you live and the existing neighborhood form. Most city lots are small and already built on, likely limiting additional development to infill housing opportunities and freedom for property owners to add additional units or make improvements to existing homes. Each landowner can decide whether to make changes to their property based on the ordinances and the existing conditions. In general, this zoning opens opportunities for landowners to add value to their property.

Would higher density in the city core make the traffic worse? Adding more housing, though may add more vehicles to the road in the short term, will allow the city to fund projects to improve current road conditions, and invest in improving circulation patterns throughout the city. Increasing density will also make Auburn a more viable location to extend pedestrian and bicycle infrastructure, local public transit, and especially commuter transportation to and from nearby metro areas like Boston, Portland, and more.

Form based code encourages building closer to the street, creating the illusion of narrower roadways which are proven to slow down vehicles. This zoning encourages and supports safe pedestrian traffic, over time also decreasing reliance on vehicles.

More units will mean more kids who need education. Will T-4.2B make this worse for already strained educators?

Applying form-based code could improve the state of Auburn's schools. Over the past several years, students enrolled in Auburn public schools have been stagnant and falling. Fairview can absorb another 100 students, Walton can absorb another 150, and East Auburn is close to capacity but could absorb about 20 more students. Altogether, the district could absorb up to 500-600 more students.

A reliable marker for determining enrollment trends in schools is the rate of preschool enrollment. Superintendent, Dr. Connie Brown, noted in 2022 that preschool enrollment has been decreasing over the past several years resulting in needing to close Walton Preschool and reducing the hours of East Auburn preschool. She noted that there are other schools that may need to close if they cannot increase enrollment.

The school district can, and in some cases will need to absorb more students, though it is also struggling with attracting and retaining teachers. The recommended monthly house payment is 28% of a person's income. The entry level pay for a teacher is $42,000.00, a firefighter starting wage is $45,000.00 plus average OT is $10,000 for a total of $55,000.00, and a police officer with OT is $65,000.00. The average price of an existing, entry level home is $267,500.00 and the average cost of a new entry level home is $318,000. Based on the 28% recommendation, a person would need to make $87,450.00/ year to afford an existing entry level home, and 104,6000.000/year to afford a new entry-level home. People working the above noted jobs, which are critical to some of the most important city services could not afford to build or purchase a home in the city that they work in. A teacher and fireperson living together still could not afford a single-family home in the city where they work. Dr. Brown stated that her number-one reason for teacher resignations is that they found another job closer to where they live. Housing options need to reflect different families and individuals' lifestyles and incomes.

How might new zoning affect the housing crisis?

In his article, "3 Zoning changes that Make Residential Neighborhoods More Affordable", Founder and Director of the Urban Sustainability Accelerator and Institute for Sustainable Solutions at Portland State University, Robert Liberty, identified eliminating single-family-residential-only zoning as an important factor to make residential neighborhoods more affordable. Multifamily housing is outlawed in about 75% of the country which poses a significant barrier for low to middle income residents by reinforcing housing segregation and increasing reliance on cars.

Form-based code allows mixed uses and businesses among homes. What does this mean? What can I expect?

T-4.2B will allow uses other than single family including small businesses with a residential unit on the same parcel. Businesses shall not be over 1,500 square feet. Drive-through restaurants are not allowed in T-4.2B and cannabis shops are also prohibited. There are some businesses that

will be prohibited, and most will require Special Exception Approval from the Planning Board, with Public Notice and Hearing, depending on the size and type.

WHY CONSIDER APPLYING FORM BASED CODE TO THESE FIVE AREAS:

1. The proposed zone change will **increase housing opportunity** for more people by lowering barriers to finding housing. Auburn's housing supply is limited and is not increasing fast enough to accommodate both current residents and those who want to call Auburn home. Housing scarcity drives up prices and increasing the supply of housing will lower the cost overtime.
2. The proposed zoning will **allow a wider variety of housing**. Offering choice in housing to residents will allow more residents the freedom to live as they want and not pay more than they can afford. Financial institutions recommend not spending more than 28% of household gross income on housing. Single family homes are outside of the price range and may not meet the lifestyle needs of many people, especially young adults, young families, empty nesters, older adults and many in between. The current zoning essentially renders housing that is not single-family or two-family illegal effectively barring those who cannot afford the high price of a single-family home to live with their neighbors. Allowing mixed use housing gives residents of all backgrounds and financial capacities options and promotes community be allowing neighbors to live close to and among each other.
3. Current traditional zoning laws tend to separate where we live from where we work, learn, and shop and force us to center roads over all other aspects of city design. These roads, as they are today, are dangerous to pedestrians and cyclists. We have an over-reliance on cars and Auburn's form-based code is meant to provide an alternative. T-4.2B **encourages walkability** by allowing uses that are not exclusively residential in moderately dense urban environments. There will not be walkability if there is nowhere to walk to. Encouraging infill and small business growth encourages walkability by giving folks spaces to walk to. Suburban sprawl as it exists limits transportation to folks who have a car and assumes that there will be little to no walking. It champions cars and roads over people and centralized communities.

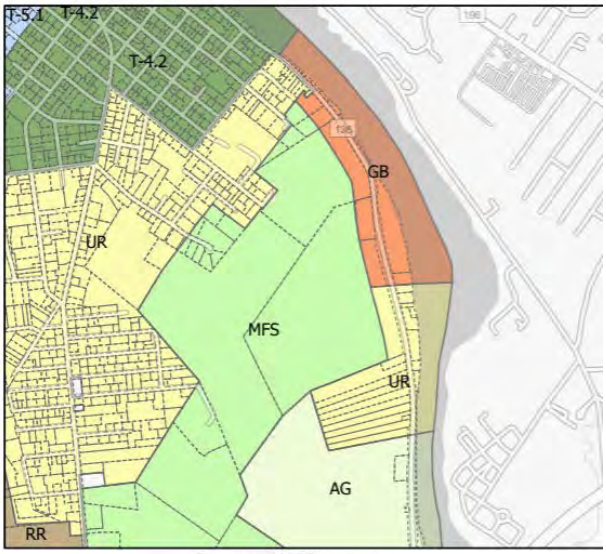
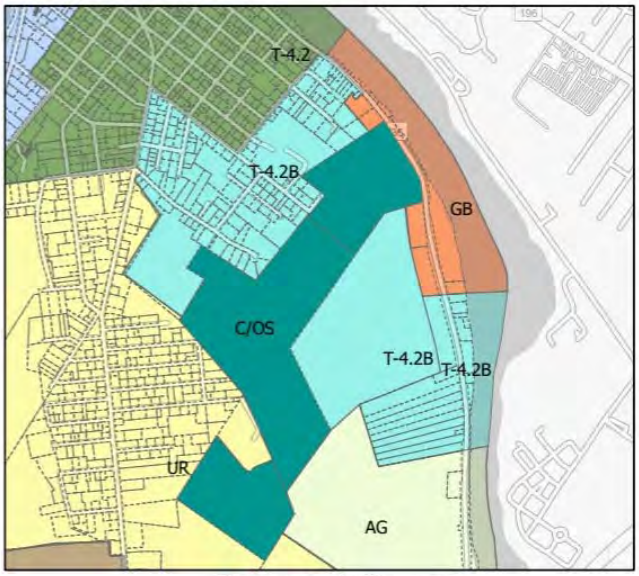
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A2

Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area A2:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets.



Current Zoning



Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city. The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of

the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2".
2. Area A2 is located near Mary Carroll St., Seventh St., to South Main St., and Loring Ave., where area A2 and A1 meet.
3. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
4. Three parcels, Huston Field, and the adjacent parcel owned by Androscoggin Land Trust, and Oak Hill Cemetery are proposed to be rezoned to Conservation Open Space to reflect their public/neighborhood use.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Transportation Goals*: See Appendix A.*

V. Suggested Reasons, Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A2 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A2 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks alleviates this challenge.
9. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003, and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

VI. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning

district, and the Conservation/Open Space zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map.

Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area B1 & B2

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendments/ T-4.2B Area B1 &B2: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016, revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Vickery Road.

Current Zoning Proposed Change

II. Background: Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four Areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council.

Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area B" as presented on July 11 has been divided into 'Area B1" and "Area B2" on the same map intended for the same public hearing, but as two separate votes. The purpose of dividing this into two areas is so the Planning Board can evaluate whether the connection from Area A to Area B requested in the July 11 Planning Board meeting meets their expectations or whether they would rather pursue another option.
2. Area B1 is the Vickery Rd. And Carrier Ct. neighborhood formerly described as Area B. Area B2 is a 700 ft.-deep strip along Vickery Road connecting "Area A1" to Area B1 as requested by the planning board.
3. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Transportation Goals: *See Appendix A*

V. Suggested Reasons, Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area B1&B2 to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area B1 & B2. Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limits the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
9. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

VI. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Low-Density Country Residence zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Vickery Road as shown on the attached map (Area B1 & Area B2).

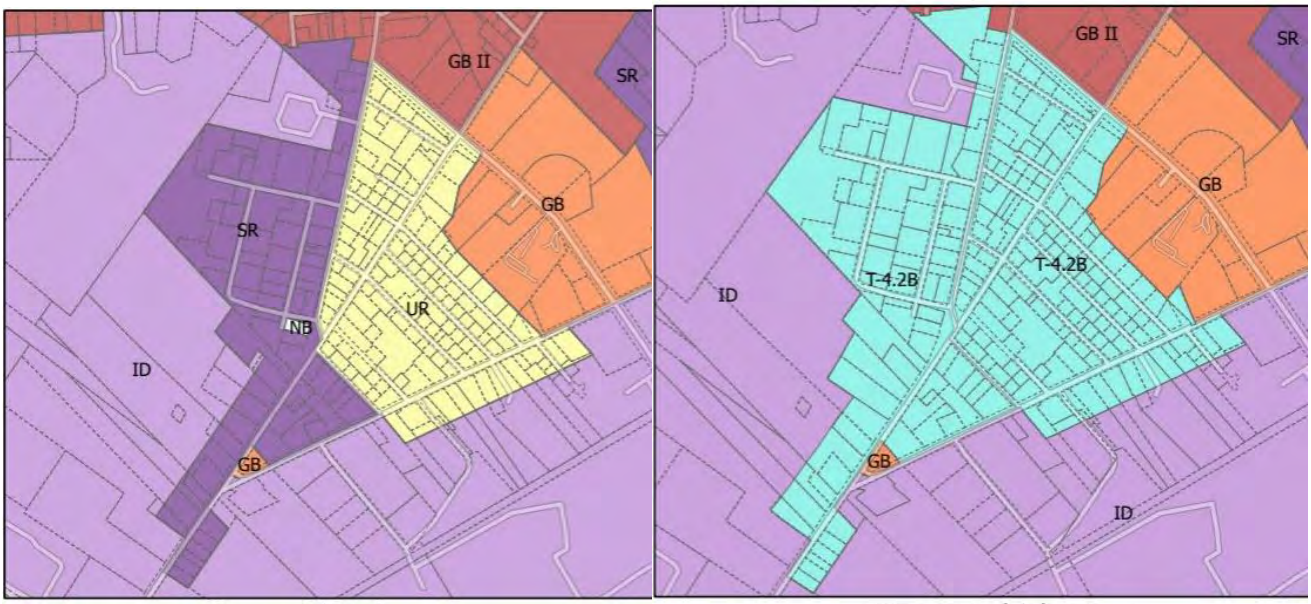
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area C

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendments/ T-4.2B Area C: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Poland, Rodman, Manley and Hotel Roads as shown on the attached map.



II. Background: Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The new zone boundaries were slightly cleaned up from last year's map so that zoning boundaries more frequently follow parcel lines rather than splitting smaller parcels between zoning districts.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area C to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals and will be integrated into the Washington Street Corridor roadway and pedestrian connectivity plans.
3. The Comprehensive Plan supports growth in the "city core" which includes Area C. Developing within the city core means more efficient, cost-effective city services to support growth.
4. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
5. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
6. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
7. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
8. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

I. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area D

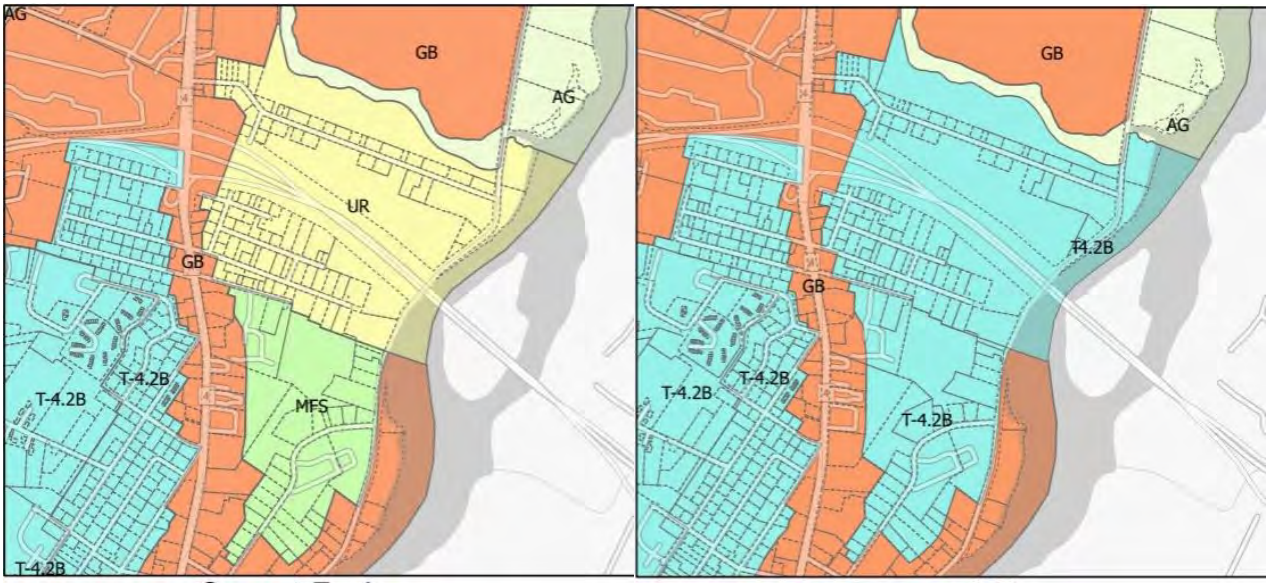
Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area D:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Northern Avenue, North River Road and Bradman Streets.



Current Zoning Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council.

Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The previous map showed a 100 ft. strip along North River Road to be changed to T-4.2B. The Planning Board gave feedback that they were not comfortable with this strip, and asked instead to show the map without the area north of Bobbin Mill Brook, reducing the acreage considered for Area D.

III. **Traditional Neighborhood Development District T-4.2B:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. **Suggested Findings and Staff Recommendation:** Forward a positive recommendation to City Council to rezone Area D to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.

2. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
3. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
4. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
5. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. It discards the obsolete zoning construct that requires more land than needed for supporting residences.
6. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for most. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
7. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.
8. Form based code is appropriate for this area considering the existing Urban Residential, Multifamily, and General Business zoning.

V. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Northern Avenue, North River Road and Bradman Streets shown on attached map D.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023

Subject: Executive Session

Information: Economic development, pursuant to 1 M.R.S.A. Section 405(6) (C) which premature disclosure would prejudice the competitive or bargaining position of the city.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

IN COUNCIL REGULAR MEETING AUGUST 07, 2023, VOL. 37 PAGE 65

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. Consent Items

1. Order 99-08072023*
Confirming Chief Moen's appointment of constables with firearms and arrest powers for the Auburn Police Department.

2. Order 100-08072023*
Confirming Chief Moen's appointment of Cameron Mason as constable, without firearm, for the Auburn Police Department.

3. Order 101-08072023*
Casting the voting ballot for the 2024 Maine Municipal Association's Vice President and Executive Committee Members as nominated by the MMA Nominating Committee.

4. Order 102-08072023*
Confirming Mayor Levesque's appointment of Andy Titus as full member of the Ethics Panel with a term expiration of 11/1/2025.

5. Order 103-08072023*
Authorizing the Mayor to execute the Edward Byrne Justice Assistance Grant Program FY2023 Local Solicitation-Certifications and Assurances by the Chief Executive of the Applicant Government document to be submitted with the grant application.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage of the five consent items.

Passage 7-0.

II. Minutes

June 20, 2023, Regular City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the June 20, 2023, Regular City Council meeting.

Passage 7-0.

July 10, 2023, Special City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the

minutes of the July 10, 2023, Special City Council meeting.

Passage 6-0-1 (Councilor Whiting abstained as he was not present for that meeting).

III. Communications, Presentations and Recognitions

- Presentation – Project Support You (PSY) Update
- Communication – Business License Denial - Medical Marijuana Cultivation Facility for Marc Fishman
- Communication – Aquatic Center in Auburn (Mayor Jason Levesque)
- Communication – Naming of City Facilities and Infrastructure (Mayor Jason Levesque)
- Council Communications (about and to the community)

Councilor Gerry spoke regarding sports funding that was going to be cut from the school budget.

Councilor Whiting stated that the baby loon on Lake Auburn appears to be doing well. He also noted that the Maine Mill received a grant from the Office of Tourism.

Councilor Walker announced that there will be an Age Friendly Community Committee meeting tomorrow at 5:30 pm. Jonathan LaBonté will be the guest speaker.

Councilor Staples thanked city staff for doing a wonderful job during the recent storm and during the Presidential visit.

Mayor Levesque echoed councilor Staples comments regarding the Presidential visit, adding that it was an honor hosting the President and thanked staff. He also noted that he will be soliciting nominations for the next John Jenkins Award, the Hands and Heart Leadership Award.

City Manager Crowell also echoed the comments about the Presidential visit. The feedback received was that our staff was on point. He added that he couldn't have asked for a better showing of Auburn and gave accolades to Kathy Leonard (Auburn Manufacturing). He went on to provide a recap of the recent storm, the damage, and the great job and restoration efforts made by staff. There was a lot of damage throughout the city. He then provided an update on the program mailing that went out to Auburn residents. Last, he announced that the 19th Annual National Night Out will be held on Thursday August 10th at 5:30 in Festival Plaza.

IV. Open Session – No one from the public spoke.

V. Unfinished Business - None

VI. New Business

1. Order 104-08072023
Approving the Mass Gathering application for the Auburn Blues & Brews event to be held on Saturday, September 9, 2023. Public hearing and vote.

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

2. **Order 105-08072023**
Allocating funds ($50,000) from the American Rescue Plan Act (ARPA) for the Auburn Victory Gardens Program.

Motion was made by Councilor Hawes and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

3. **Order 106-08072023**
Adopting the School Maintenance Labor Contract.

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Passage 7-0.

4. **Order 107-08072023**
Authorizing the Auburn-Lewiston Municipal Airport Board of Directors to designate and sell surplus personal property.

Motion was made by Councilor Walker and seconded by Councilor Whiting for passage.

Public comment – No one from the public spoke.

Passage 7-0.

5. **Order 108-08072023**
Amending the loan between the City's General Fund and the Auburn-Lewiston Municipal Airport to extend the maturity from FY2034 to FY2036.

Motion was made by Councilor Hawes and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

6. **Order 109-08072023**
Approving the liquor license for Gipper's (new ownership). Public hearing and vote.

Motion was made by Councilor Walker and seconded by Councilor Morin for passage.

Public hearing – No one from the public spoke.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VIII. Reports (from sub-committees to Council)

Mayor Levesque reported that a very successful Accessory Dwelling Unit Meeting was held. There were over 90 people in attendance.

Councilor Staples reported that he attended the Community Conversation that took place last week with Planning and Permitting Office did on zoning. It was well attended, and he wanted to thank staff for their efforts.

Councilor Milks reported on the Ad hoc Committee on Lake Auburn went well and everyone appears to be on same page and want to accomplish the same things. Another meeting is coming up at the end of August.

City Manager Crowell reported on our new podcast called Absolutely Auburn and he encouraged people to listen.

IX. Executive Sessions - Economic development, pursuant to 1 M.R.S.A. §405(6)(C) which premature disclosure would prejudice the competitive or bargaining position of the City.

Motion was made by Councilor Walker and seconded by Councilor Morin to enter into executive session.

Passage 7-0. Time in 8:17 pm.

Council was declared out of executive session at 8:33 pm.

X. Adjournment

Motion was made by Councilor Milks seconded by Councilor Walker to adjourn.

Unanimously approved and the meeting adjourned at 8:33 pm.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023 **Order:** 110-08212023

Author: Phil Crowell, City Manager

Subject: Aquatic Center

Information:

On August 7, 2023, the mayor proposed the city council to direct the city manager develop an aquatic center report to include the costs for the building of a center, funding sources, private partnerships, and location possibilities. The city manager will coordinate with the Recreation Committee to review the information and submit the report to the city council at the October 16, 2023, council workshop.

City Budgetary Impacts: None

Staff Recommended Action: None

Previous Meetings and History: August 7, 2023 council meeting

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Council Workshop or Meeting Date: August 21, 2023 **Order:** 111-08212023

Author: Councilor Leroy Walker and Councilor Dana Staples

Subject: ARPA funding allocation to Safe Voices Sexual Assault Crisis Center

---

Information: Safe Voices Sexual Assault Crisis Center is requesting the City of Auburn allocate $250,000 from their American Rescue Plan Act (ARPA) funds to bridge the fundraising gap for their planned renovations at 100 Lisbon Street, Lewiston, facility. The gap occurred between Safe Voices fundraising efforts and the rapid inflationary costs incurred through the Covid-19 pandemic.

The facility will be transitioned to a comprehensive resource center in Androscoggin County and will include the existing advocacy offices with renovations to include a survivor-centric program hub with a community kitchen, prayer and lactation room, and survivor work-stations for clients who need to use a secure computer to print evidence, establish a bank account, or use a private email away from their abuser.

The lower level will include a Free Boutique where survivors may access household and personal care items like furniture, linens, dishes, etc. to furnish new homes. It will also include a Training Center for both internal trainings among staff as well as trainings and workshops offered to community partners.

City Budgetary Impacts: None

Staff Recommended Action: Allocate $50,000.00 to Safe Voices for their renovation project.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Subject: ARPA funding allocation to Boys & Girls Club of Southern Maine – Auburn Clubhouse

---

Information: The Boys & Girls Club of Southern Maine – Auburn Clubhouse is requesting the City of Auburn allocate $10,000.00 from their American Rescue Plan Act (ARPA) funds to be the "Presenting Sponsor" for the "Fall for the Kids" fundraising event. An additional $10,000 is being suggested by Councilor Walker for other programming needs.

Funds will provide children and teens with a safe place after school and during the summers by providing fresh meals and engaging programs.

City Budgetary Impacts: None

Staff Recommended Action: Allocate $10,000.00 to Boys & Girls Club of Southern Maine – Auburn Clubhouse as the "Presenting Sponsor" for the "Fall for the Kids" fundraising event and an additional $10,0000 for programming out of the Auburn clubhouse.

Fall FOR THE Kids

About

The inaugural Fall for the Kids celebration will raise funds for the youth of Lewiston and Auburn. Since 1995, the Auburn Clubhouse has provided children and teens in the Twin Cities with a safe place after school and during the summers, fresh meals, and engaging programs. The BGCSM Lewiston teen center, launched in 2022, offers programming to middle and high schoolers to help them graduate on time with a plan for their future.

Join us Friday, October 20th, for an evening dedicated to the children and teens of Lewiston and Auburn. We are excited to have our supporters together to enjoy cocktails, networking, dinner, and a program from our Club leaders and members.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 21, 2023

Subject: Executive Session

Information: Personnel matter (City Manager evaluation), pursuant to 1 M.R.S.A. Section 405(6)(A).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023

Author: Brian Wood, Assistant City Manager

Subject: Aquatic Center Exploration

Information: The City of Auburn commissioned a report looking at the feasibility of a turf and sports facility in 2021. This study briefly explored an aquatic center. The feasibility study will be expanded and developed to include a more in-depth review of an aquatic facility, cost, funding sources / partnerships, potential locations and timelines. Information to be provided by Sports Facilities Management (SFM).

City Budgetary Impacts:
To be determined

Staff Recommended Action: Further review of feasibility study and locations to be discussed in the future.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Council Workshop or Meeting Date: September 5, 2023

Author: Brian Wood, Assistant City Manager

Subject: Public Safety Building – Referendum Question for November 7, 2023 Election

---

Information: In 2011, the Auburn Police Department relocated from its Minot Avenue location to Auburn Hall as a temporary solution due to space needs, costly needed repairs, and upgrades as a cost saving measure for the city. In 2017, a space needs analysis and site evaluation was completed and in 2019, city council reallocated CIP funds to expand the facility assessment. In 2020, a comprehensive facilities assessment was completed, and an Ad-hoc Committee was established to review the assessment and make recommendations to City Council. A final committee report was presented to City Council in 2022. In August 2023, a presentation was made to City Council with a recommendation to merge both police and fire departments into one public safety facility to be located at 550 Minot Avenue as the most effective measure for both efficient delivery of services and overall costs for the residents of the City of Auburn.

The bond referendum question will state:
Shall the City of Auburn authorize the issuance of general obligation bonds or notes in anticipation of such bonds in the principal amount not to exceed $45,000,000 and appropriate the proceeds of such bonds, together with investment earnings, if any, to fund the construction of a new public safety facility at 550 Minot Avenue in Auburn to house the headquarters of the City's Police Department and Fire Department, including all necessary professional services, real estate acquisition and off-site improvements related to such construction project, costs of issuance and capitalized interest as permitted?

Financial Statement: The issuance of bonds by the City of Auburn is one of the ways in which the City borrows money for certain purposes. The following is a summary of the bonded indebtedness of the City of Auburn as of November 7, 2023:

Principal of Bonds to be Issued if Approved by Voters:	$45,000,000
Estimate of Interest on Bonds to be Issued if Approved:	$37,800,000
Total Debt to be Issued if Approved by Voters:	$82,800,000

When money is borrowed by issuing bonds, the City must repay not only the principal amount of the bonds but also interest on that amount as well. Principal on the bonds will be repaid in approximately equal annual installments over a period not to exceed 30 years, along with interest, which will be paid semi-annually. The amount of interest to be paid will vary depending on the rate of interest and the years of maturity at the time of issuance, which is expected to be no sooner than 2024. An estimate of the total interest that may reasonably be expected to be paid on the issue submitted herewith for authorization is $37,800,000, based

on an interest rate of 4.00%. The total principal and interest to be paid over the life of the bonds on the issue submitted herewith, if authorized, is thus estimated to be $82,800,000.

The validity of the bonds and of the voters' ratification of the bonds may not be affected by any errors in the foregoing estimate of the costs involved, including varying interest rates, the estimated cost of interest on the bond amount to be issued, and the total cost of principal and interest to be paid at maturity. If the actual amount of the total debt service for the bond issue varies from the estimate, the ratification by the electors is nevertheless conclusive and the validity of the bond issue is not affected by reason of the variance.

City Budgetary Impacts:

Principal of Bonds:	$45,000,000.00
Interest on Bonds:	$37,800,000.00
Total 30-year Debt:	$82,800,000.00

Staff Recommended Action: Order that the City Clerk, through the City Manager, place the referendum question before the residents of the City of Auburn on the November 7, 2023 election ballot.

Previous Meetings and History: August 7, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Orders: 113-09052023*, 114-09052023*, 115-09052023*, 116-09052023*, 117-09052023*

Author: Alison F. Pepin, Deputy City Clerk

Subject: Automobile Graveyard/Junkyard permits renewals

Information: This is an annual renewal of currently existing Automobile Graveyard/Junkyards in Auburn. Reminder letters and applications were sent out 08/15/2023. Inspections have been made. Council approval is required for renewal of these licenses. Because the 5 listed below are renewals, they *do not* require a public hearing. All have passed inspections conducted by the Code and Fire Departments, therefore have been placed on the Consent Agenda for approval as they are considered routine.

Title 30-A, Sec. 3754 states "*Municipal officers or county commissioners, as provided for in section 3753, shall hold a public hearing before granting a permit to establish a new automobile graveyard, automobile recycling business or junkyard and **may** hold public hearings annually regarding the relicensing of these facilities*".

Randy's Auto Parts, Inc., 899 Broad Street
M & P Auto, Inc., 227 Merrow Road
Don's No Preference Towing of L/A, Inc., dba Morris Auto Parts, 940 Washington St. North
Prolerized New England Company, LLC., 522 Washington St. North
Isadore T. Miller, 79 & 80 Hotel Road

City Budgetary Impacts: None

Staff Recommended Action: Staff recommends the City Council approve renewal applications.

Previous Meetings and History: Annual Renewal

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Dear Business Owner,

Enclosed is an application for an Automobile Graveyard and/or Junkyard Permit. Please complete the application and return it with all required documentation and the permit fee of $100.00 no later than August 28, 2023. It is very important your application is received by the deadline to be presented to the City Council in September.

The City Council will consider action on the application at one of their meetings in September before your license expires. Please call the City Clerk's Office at 333-6601 ext. 1121 or 1124 with any questions you may have.

Sincerely,

Alison F. Pepin

IN COUNCIL REGULAR MEETING AUGUST 21, 2023, VOL. 37 PAGE 69

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. Consent Items - None

II. Minutes - August 7, 2023, Regular City Council Meeting

Motion was made by Councilor Staples and seconded by Councilor Walker to approve the minutes of the August 7, 2023, Regular City Council meeting.

Passage 7-0.

III. Communications, Presentations and Recognitions

- Communication - Recycling update (City Manager Crowell)
- Council Communications (about and to the community)

Councilor Staples reported on attending the National Night Out event and thanked City staff for putting that on.

Councilor Gerry also reported on attending the National Night Out event and echoed the comments made by Councilor Staples.

Mayor Levesque announced that the Blues and Brews Fest will be held on September 9th at Festival Plaza. He announced that there will be an open house at the new Edward Little High School on Sunday, August 27th from 2:00 to 5:00 pm. There will be a ribbon cutting, speeches followed by tours of the new high school. Anyone attending should enter on Western Avenue. This is a rain or shine event.

City Manager Crowell reported that tax bills went out and they show the Homestead exemptions as zero, however the exemptions show up on the bills as "other" instead. He apologized for the error. He reported that Movie Night in the Park will be held at the PAL Center on September 1st at 8:00 pm. He also announced that the PAL Center had their backpack give away where 256 back packs were given out.

IV. Open Session

Mara King, 59 Davis Avenue commented recycling and the information she just heard during the City Manager's update. She stated that residents need more education on composting and recycling.

Scott Berry, 179 Davis Avenue provided handouts to Councilors regarding something he read in the Sun Journal that a representative from the City of Auburn stated during a meeting of the Androscoggin County Commissioners that the current courthouse could be demolished. He spoke about the potential to repurpose the building into a fine arts museum.

V. Unfinished Business - None

VI. New Business

1. Order 110-08212023
Directing the City Manager to report back to Council relating to cost, funding source, and location of a proposed Aquatic Center/Feasibility Study.

Motion was made by Councilor Walker and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Whiting opposed).

2. Order 111-08212023
Allocating $50,000 out of the American Rescue Plan Act (ARPA) funds for Safe Voices.

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public comment – Elise Johansen, Executive Director of Safe Voices stated that they are requesting funding from the City to help to renovate their Resource Center. She stated that she would also like to request that the City Council consider funding more than $50,000 if additional ARPA funds are available.

Motion was made by Councilor Milks and seconded by Councilor Hawes to amend by increasing the amount to $100,000.

Passage 4-3 (Councilors Morin, Walker, and Gerry opposed).

Passage as amended 5-2 (Councilors Walker and Gerry opposed).

3. Order 112-08212023
Allocating $20,000 from the American Rescue Plan Act (ARPA) funds to the Boys & Girls Club of Southern Maine – Auburn Clubhouse with $10,000 to be the "Presenting Sponsor" for the "Fall for the Kids" fundraising event and an additional $10,000 for additional Auburn Programming.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke. Councilor Walker invited Gary Violette, Director of the Auburn Boy's & Girl's Club, to the podium to speak.

Passage 7-0.

VII. Open Session – No one from the public spoke.

VIII. Reports

Mayor Levesque reported that the first meeting of the committee on Naming Facilities and Infrastructure was held last week and the next meeting is scheduled for September 12th at 4:00 pm.

Councilor Walker thanked the volunteers that worked with him at the Balloon Festival. The Age Friendly group had a table set up selling beverages. He also reported that the Age Friendly Committee will be holding another clothing giveaway, at the Auburn Public Library on October 7th. Anyone with donations can reach out to him and he will pick up the items if needed. He also thanked the Public Works department for the work they've done in Anniversary Park.

IX. Executive Sessions – Personnel matter (City Manager evaluation) pursuant to 1 M.R.S.A. Sec. 405(6)(A).

Motion was made by Councilor Milks and seconded by Councilor Walker to enter into executive session.

Passage 7-0. Time in 7:42 pm.

Council was declared out of executive session at 8:00 pm.

X. Adjournment

Motion was made by Councilor Morin seconded by Councilor Walker to adjourn.

Unanimously approved and the meeting adjourned at 8:00 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Order:** 118-09052023

Author: Glen E. Holmes, Director of Business & Community Development

Subject: North River Road land swap

Information:
The City currently owns parcel 271-100-000 (.74 Acres) on North River Road adjacent to 273 North River Road a recently developed residential development. The owner of the development currently owns parcel 261-056-002 (.6 Acres) adjacent to the cities public boat launch on North River Road. The parcels being of similar size and of no current particular value to the owning party are deemed to be worth similar values. By exchanging these parcels each has a greater potential future value.

City Budgetary Impacts:
Minimal increase in tax revenue with no additional costs.

Staff Recommended Action:
Approve the order as presented.

Previous Meetings and History:
None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments:
None

ORDER 118-09052023

City Council Order

IN CITY COUNCIL

ORDERED, that that City Council hereby authorizes The City Manager to execute a real estate transaction to swap City owned parcel 271-100-000 for privately held parcel 261-056-002 and any associated paperwork required.

Richard Whiting, Ward One
Joseph Morin, Ward Four
Belinda A. Gerry, At Large

Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor

Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 11-09052023

Author: Katherine Cook, Planning Coordinator

Subject: Consider a proposed text change to Sec. 60-548B-*Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2023.

Information: This text amendment to Sec. 60-458B- Front Setback, Principal was initiated by a citizen's petition which asks to codify the interpretation of where to measure the front setback from. This language addition is consistent with the comprehensive plan, but staff suggests a few additional changes to T-4.2B including amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration T-4.2B to decrease the minimum frontage buildout for residential lots. Because staff recommends additional changes to the text of the zone in conjunction with what the petition proposed, amending the ordinance with each of these changes included is preferable.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council vote **not to approve** first reading of the petition-initiated amendment to T-4.2B. Staff recommends instead to consider the changes that are presented as the next item in the Council packet.

Previous Meetings and History: July 7, 2023- Planning Board Public Hearing and vote to table until the next meeting; August 8, 2023- Planning Board Public Hearing and recommendation to not amend the ordinance as described.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Recommendation to City Council, Planning Board Staff Report, draft amendment to Sec. 60-549, signed and notarized citizen petition, Draft Ordinance 11-09052023.

RE: Planning Board recommendation to City Council on a citizen petition-initiated zoning text amendment affecting T-4.2B.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a proposed text change to Sec. 60-548B-*Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2013. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance or Zoning Map. This item was tabled at the July 11, 2023, meeting.

MOTION: Evan Cyr; Second: David Trask.

"I make a motion to recommend that the Council not amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023." **VOTE**: Motion passes 7-0-0.

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210 www.auburnmaine.gov | 207.333.6601

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report: Petition to amend T-4.2B zoning text
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and subsequently tabled by the Planning Board to a date certain (August 8th, 2023) on the July 11, 2023 Planning Board meeting. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the zoning ordinance or zoning map.

II. Background: Amendments to the zoning ordinance, including the zoning map, may be initiated by the Planning Board on its own initiative or upon request by the City Council or by a petition signed by not less than 25 registered voters of the city (Ord. of 9-21-2009, Sec. 8.1A) Zoning map and text changes may be appropriate where the serve to support the goals of the Comprehensive Plan.

Staff currently understands that front setbacks in T-4.2B zoning districts may be measured from shared accessways, private ways, and shared parking areas. This petition seeks to clarify this understanding by adding the underlined language to Sec. 60-548B as follows: "Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of the principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. **Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.**"

This language addition is consistent with the comprehensive plan, but staff suggests a few additional changes to T-4.2B including amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration T-4.2B to decrease the minimum frontage buildout for residential lots.

In the petition's explanation, the circulator intends for the added language confirming setback interpretation to be applied to the approval of past projects to this point, and notwithstanding M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects. Staff acquired legal counsel on the intention for this language change to apply retroactively, and as such, recommends that the Board not consider retroactive because the language was not included in the petition for the amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B.

Planning Board Action: Staff suggests planning board forward a negative recommendation to Council on the proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and recommend that they not consider the retroactive language suggested in the description of the petition.

III. Suggested Reasons and Finding of Fact:

1. The applicant submitted rezoning petitions and signatures, Text with public Notice, on June 12, thus meeting submission standards (Sec. 60-1446).
2. The text amendment is consistent with the current comprehensive plan and the intent of the existing ordinance text and diagrams.
3. The text and intent of the petition can be clarified in a different way and the Board will review that later this evening.

V. Suggested Motion: I make a motion to recommend that the Council not amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023.

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

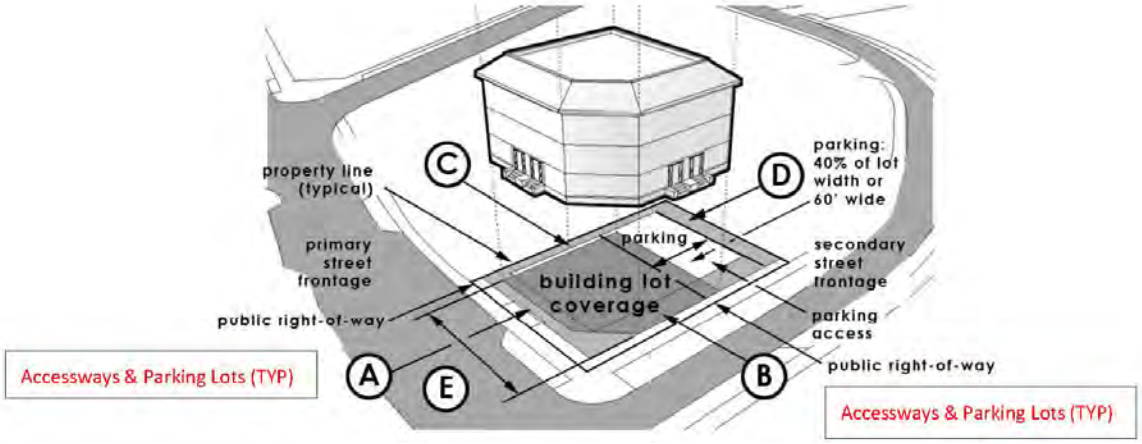
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

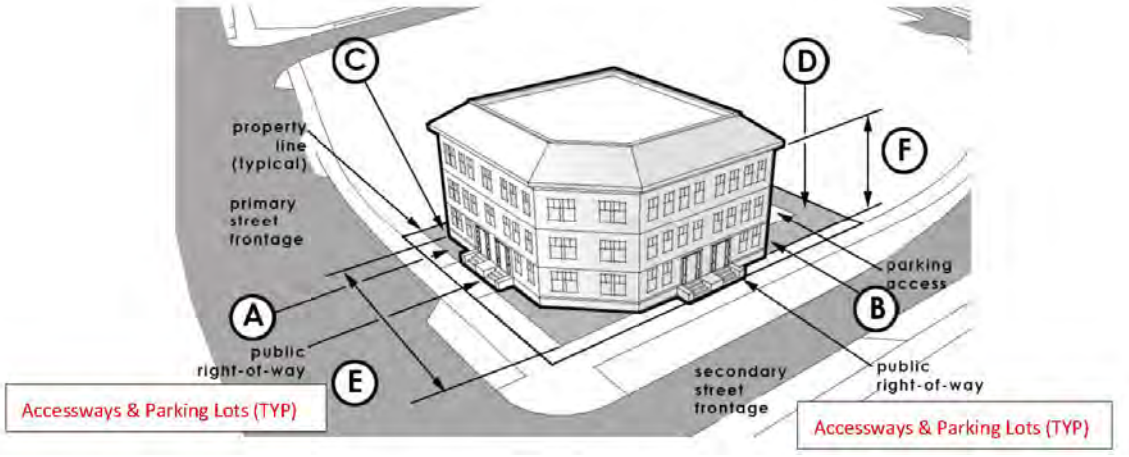
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



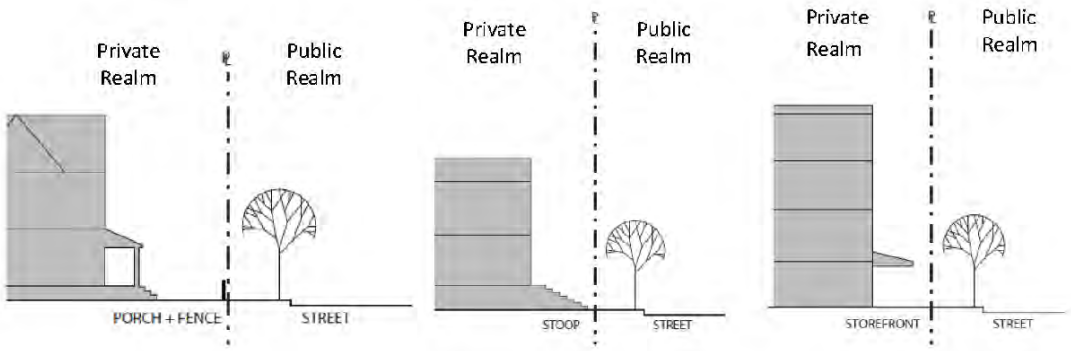
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend the City of Auburn Zoning Ordinance to add clarity. The proposed change includes an amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B . *Front Setback, Principal* for Traditional Neighborhood T-4.2B to add the underlined language as follows

PRINCIPAL BUILDING PLACEMENT:		
Front Setback, Principal:	5 ft. Min/, 25 ft. Max*	(A)
(Corner Lot) Front Setback, Secondary:	5 ft. Min., 15 ft. Max.	(B)
Side Setback:	5 ft. Min.	(C)
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	70% Max.	
Useable Open Space:	10% Min.	
Frontage Build-Out:	60% Min (along Front Setback, Primary)	
Lot Width:	24 ft. Min, 120 ft. Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 110 ft. Max.	(E)
Building Height Minimum:	1 Story Min.	(F)
Building Height Maximum:	3 Story Max.	(F) (excluding attic story

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian access way or parking area.

Explanation: One of the primary tests of a zone change is its conformance with the Comprehensive Plan. GROWTH AREAS Type A [Residential] The Traditional Neighborhood Development (TND) District requires that new development be designed to minimize the number of vehicular access points to existing collector or other roads; shared driveways are encouraged; and dimensional standards be established that relate to the size and width of the lot. A copy of that Comprehensive Plan section is attached and marked as Exhibit A. The City has adopted the T-4.2B zoning district to meet the goals of the TND District in the Comprehensive Plan by encouraging the use of shared driveways and limiting vehicular access points to Collector roadways, the new Ordinance was intended to allow for front setbacks in the T-4.2B district to be measured from Access Ways and Parking areas on internal, shared access points. This amendment clarifies the existing text to advance the shared access point objectives of the Plan; confirms the interpretation of the dimensional requirements of the T-4.2B zoning district adopted by the planning board in its approval of projects to date; and notwithstanding 1 M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects.

Exhibit A

In addition to the Future Land Use Map, four detail maps ([redacted]) show the future land use designations for specific portions of the community, including Downtown, New Auburn, Minot Avenue, and Center Street.

FUTURE LAND USE PLAN VISION STATEMENT:

As a model of carefully managed growth, Auburn seeks to **grow outward from the historic cores within our city** and be known for its **strong, vibrant neighborhoods**. The city is committed to making careful, effective, and **efficient use of land and corresponding services, while strengthening the character of our neighborhoods**, ensuring that resources exist to maintain and enhance the quality of life for current and future residents. Auburn's continued commitment to **strong community connections**, embracing opportunity, and mindful growth should be **balanced with natural resource conservation** and woven into the city's unique identity.

1. GROWTH AREAS –

Type A: Development Areas
Designation: Residential

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water ([redacted]). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update ([redacted]). The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should

be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

SUBURBAN DEVELOPMENT DISTRICT (SD)

Objective – Allow for the development of a limited range of residential and community uses at a density of up to 6-8 units per acre in areas that are served or can be served by public/community sewerage and/or public/community water (see Figure 2-5). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Suburban Development District generally follows the boundaries of the Multifamily Suburban and Suburban Residential Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Suburban Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Recreational Uses of Land
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 8 units per acre with no minimum road frontage required, shared driveways are encouraged. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-20 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Designation: Nonresidential and Mixed Use

FORM-BASED CODE DEVELOPMENT DISTRICT (FBCD)

Objective – Stabilize and promote continued investment in the City's high-density neighborhoods which include a mix of housing types including multi-unit buildings to assure that they remain safe, attractive areas in which residents want to live (see Figures 2-3 and 2-4). To this end, the district should allow property owners to upgrade their properties, and for infill development and redevelopment/reuse to occur, as long as it is compatible with the character of the neighborhood.

Allowed Use – The Form-Based Code Development District generally follows the boundaries of the Form-Based Code (Transects 4.1, 4.2, 5.1, 5.2 and 6), in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Form-Based Code Development District:

- Low and High Density Residential Dwelling Units
- Home Occupations
- Civic Uses
- Office/Service Type Uses
- Retail Type Uses

Development Standards – The reuse/reconfiguration of existing buildings for residential purposes should be allowed without consideration of density/lot size requirements, provided that

ORDINANCE 11-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B, specifically adding an asterisk (*) to the Table of PRINCIPAL BUILDING PLACEMENT, *Front Setback, Principle for Traditional Neighborhood T-4.2B* and adding the following underlined language to the same section: "Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area."

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 12-09052023

Author: Katherine Cook, Planning Coordinator

Subject: Consider a proposed text change to Sec. 60-548B, T-4.2B 1.) Sec. 60-54B Intent and Purpose, 2.) Sec. 60-548B.1, building placement on lot, frontage buildout, 3.) Sec. 548B.2 common or porch yard stoop yard frontage storefront type, building envelope articulation, ground and upper story building façade.

Information: On July 7, 2023, The Planning Board help a public hearing on a citizen petition-initiated change to T-4.2B which sought to further define how to measure front setbacks. At this time, staff suggested that there are other elements of the ordinance in addition to adding language to Sec. 60-5480-Front Setback, Principal. Specifically, that there should be more flexibility and simplicity in applying the ordinance to single family and two-family homes. This proposed amendment offers language to clarify the point from which one may measure front setback on their property, and reduce the frontage buildout restrictions on single family, and two-family homes, and dwellings with an accessway that is shared by more than one structure. Staff is recommending these changes because it is plausible that such restrictions, if they remain, could cause undue burden to a smaller developer, and hinder the goals to reduce access points onto public streets.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council adopt the first reading of the attached amendments to T-4.2B.

Previous Meetings and History: July 7, 2023- Planning Board initiated request to consider additional amendments to T-4.2B following the T-4.2B citizens petition that was tabled at this same meeting; August 8, 2023- Planning Board Public Hearing and recommendation to amend the ordinance as described.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Planning Board recommendation to City Council on a staff0-recommemnded amendments to T-4.2B text.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a proposed text change for Sec. 60-548B, T-4.2B pursuant to Chapter 60, Article XVII, Division 2- Amendment to the zoning ordinance 1.) Sec. 60-54B Intent and Purpose, 2.) Sec. 60-548B.1, building placement on lot, frontage buildout, 3.) Sec. 548B.2, common or porch yard stoop yard frontage storefront type, building envelope articulation, ground and upper story building façade.

MOTION: David Trask; Second: Evan Cyr.

"I make a motion to recommend that the City Council approve the proposed ordinance amendment(attached), including amendments to:

1) Sec. 60-548B- 1. Intent and Purpose "setback",

2) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout for commercial and multi-family and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.,

3) Sec. 548B.2, Building Frontages T4.2B Table as shown on the attached Ordinance Amendment Document.

4) Amendment to the note (*) in the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area. (As shown in the attached Ordinance Amendment Document)"

VOTE: Motion passes 6-1-0.

Re: Staff Report: Staff Recommendation Text Amendments to T-4.2B to Add Clarity
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- 1.) Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. 4.) amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B.

II. Background: Staff currently understands that additional clarity is desired for the text of the T-4.2B Zoning District. The current text of the T-4.2B form-based codes does not differentiate between residential single-family homes, development of small infill lots and special exception/subdivision development of larger lots. Some clarification is recommended that effects frontage buildout, setback measurements and general clerical items.

Staff suggests that the Board consider language similar to the previous petition in addition to amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration to decrease the minimum frontage buildout for residential lots. The proposed language and changes are attached. Staff recommends that the Planning Board hold a Public Hearing, and vote on the amendments to the zone.

Planning Board Action: Staff suggests planning board hold a public hearing and vote to recommend approval of the ordinance amendments(attached).

III. Suggested Reasons and Finding of Fact:

1. The text amendment is consistent with the current comprehensive plan.
2. The proposed text amendment clarifies the intent of the existing ordinance and encourages shared access ways for multiple buildings to minimize curb openings on public streets.
3. The amendment modifies the T4.2B text to allow additional flexibility and simplify permitting for one and two-family homes.

V. Suggested Motion: I make a motion to recommend that the City Council approve the proposed ordinance amendment(attached), including amendments to:

1) Sec. 60-548B- 1. Intent and Purpose “setback”,

2) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout for commercial and multi-family and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.,

3) Sec. 548B.2, Building Frontages T4.2B Table as shown on the attached Ordinance Amendment Document.

4) Amendment to the note (*) in the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(As shown in the attached Ordinance Amendment Document)

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment~~,~~ and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building ~~set-backs~~setbacks~~-~~ form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Illustrative View of T-4.2B

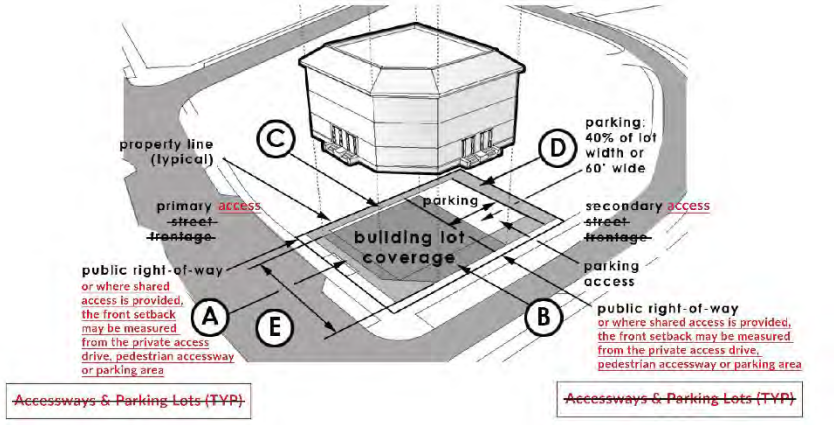
Sec.60-40(b) Table update

Characteristic Features

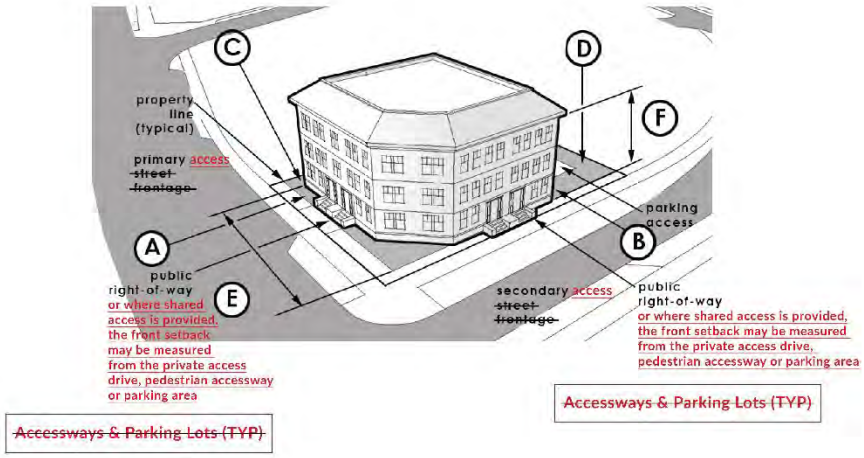
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



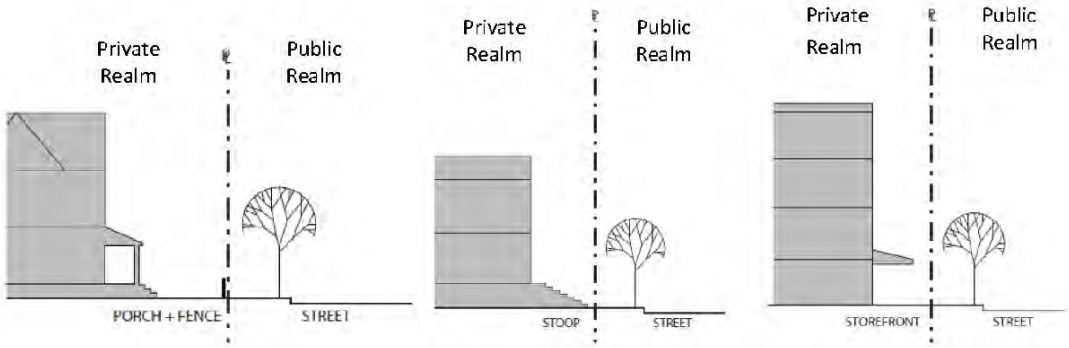
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary) for commercial and multi-family uses and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal – Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential with one or two units – No minimum and maximum window and door area applies. Residential with three or more units- Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Residential structures with one or two units – No minimum and maximum window and door area applies. Residential structures with three or more units and Commercial - Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-4. Zoning districts.

(a) For the purposes in section 60-3, the use, construction and alteration of buildings and structures and the use and alteration of land in the city are hereby restricted and regulated according to the provisions of this chapter.

(b) The city is hereby divided into zoning districts designated as follows and more fully described on the official zoning map:

District title	Classification	Short title
Agriculture and Resource Protection	Resource	AG
Low Density Country Residential	Resource/Residential	LDCR
Rural Residence	Residential	RR
Suburban Residence	Residential	SR
Urban Residence	Residential	UR
Multifamily Suburban	Residential	MFS
Multifamily Urban	Residential	MFU
Planned Unit Development	Residential/Commercial	PUD
Downtown Enterprise Zone	Residential/Commercial	DEZ
General Business	Commercial	GB
Neighborhood Business	Commercial	NB
Form Based Code Regulating Plan:		
Traditional Main Street Neighborhood (Transect 4.1)	Residential/Commercial	T-4.1
Traditional Neighborhood (Transect 4.2B)	Residential/Commercial	T-4.2B
Traditional Downtown Neighborhood (Transect 4.2)	Residential/Commercial	T-4.2
Downtown Traditional Center (Transect 5.1)	Residential/Commercial	T-5.1
Downtown City Center (Transect 5.2)	Residential/Commercial	T-5.2
Great Falls Metropolitan (Transect 6)	Residential/Commercial	T-6
Industrial	Industrial	ID
Floodplain Overlay District	Environmental	FPO
Taylor Pond Overlay District	Environmental	TPO
Lake Auburn Watershed Overlay District	Environmental	LAO
Shoreland Overlay District	Environmental	SLO
Manufacturing Housing Overlay District	Residential	MHO

(Ord. of 9-21-2009, § 1.2; Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 56, 3-15-2021)

ORDINANCE 12-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend Sec. 60-548B- 1.) Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. 4.) amend the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B, adding ** Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B and to add the zoning district Traditional Neighborhood (Transect T-4.2B) to Sec. 60-4-. zoning districts as shown in the attached draft ordinance language.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 13-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Map Amendment to apply Form Based Code T-4.2B to "Area A1".

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the zoning map for Area A1, generally located in the New Auburn area near South Main and Broad Streets and Vickery Road, from the Urban Residence, Multifamily Suburban, Neighborhood Business, Low Density Rural Residence (Rural Residential), and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B and Conservation/Open Space zoning districts. Area A1 is part of Area A, which was presented to the Planning Board on July 11, 2023. Area A was divided into Area A1 and Area A2 for the August 8 Planning Board meeting so Planning Board and City Council could consider how the proposed zone, T-4.2B, would apply to different parts of this land area, and consider the zone change incrementally.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend area A1 as described, in the attached motion and staff report, and shown on the attached map.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's findings, discuss, hold a public hearing on Area A1 as presented and vote to approve the map amendment.

Previous Meetings and History:

Summer 2022: City Council and Planning Board held workshops and public hearings on Area A, B, C, and D. No action was taken.

July 11, 2023: Planning Board holds a public hearing on rezoning Areas A, B, C, and D, and voted to table each area to integrate feedback into a new map.

August 8, 2023: Planning Board holds a public hearing on rezoning Areas A1, A2, B1 & B2, C, and D. They made a recommendation on all areas except for Area B, which they tabled.

September 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the four areas.

City Manager Comments:

I concur with the recommendation. Signature:

RE: Planning Board recommendation to City Council on map amendment applying T-4.2B to Area A1.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road.

MOTION: Paul Jacques; **SECOND**: Darren Finnegan.

"I make a motion to recommends amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment has been and is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road as shown on the attached map (A1)" **VOTE:** 5-2-0 motion passes.

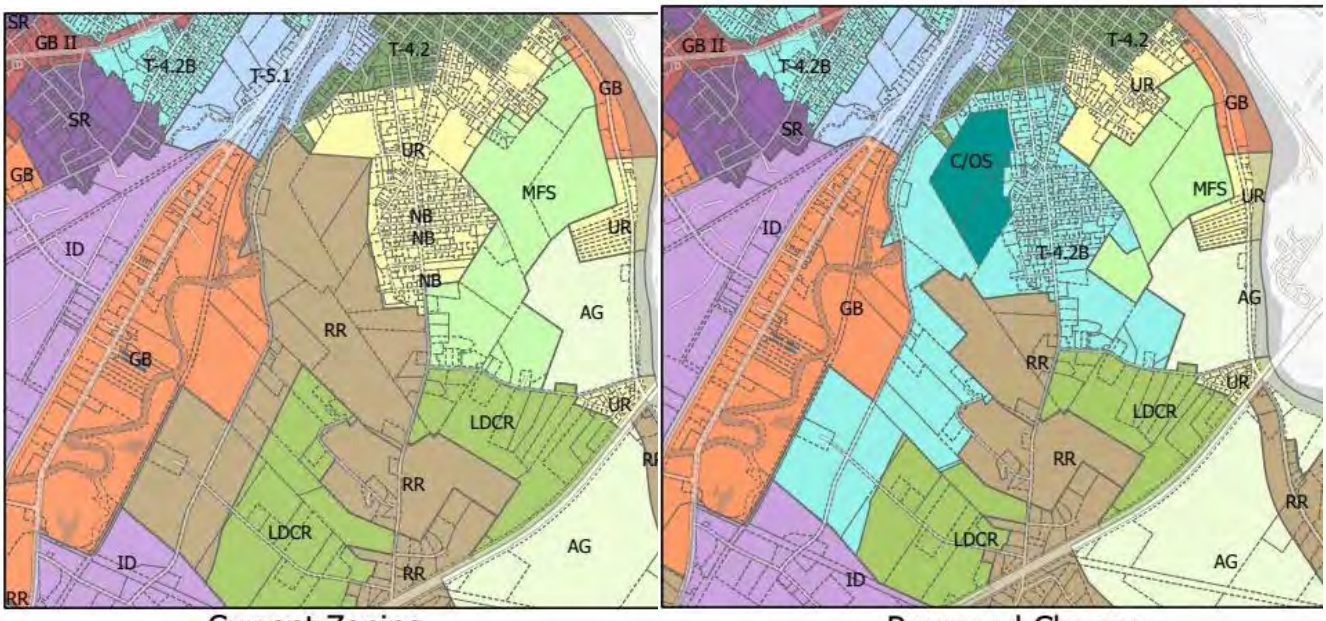
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A1

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendment/ T-4.2B Area A1: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road.



Current Zoning | Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four Areas, A-D, across the city.

The July 11, 2023 meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2". Since portions of the area are more controversial than others, this makes it possible to decide on the two portions individually as shown on the proposed zoning maps.
2. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
3. Two parcels, Sherwood Forest, and the adjacent parcel owned by Androscoggin Land Trust are proposed to be changed to a Conservation Open Space zone to reflect their public use and to make it clear that they are not available for T-4.2B development.

III. **Traditional Neighborhood Development District:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the

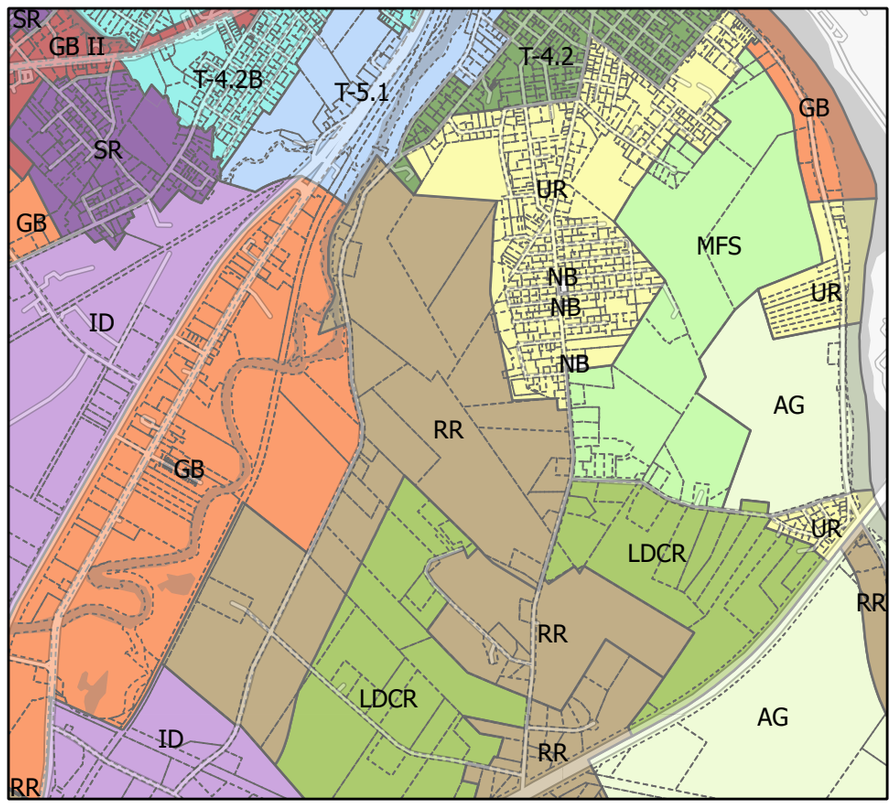
size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings, Reasons and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B and Conservation Open Space as shown on the attached proposed zoning map (Area A1) with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A1 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A1 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks as proposed alleviates this challenge.
9. The current zoning in Area A1 only allows single-family and two-family homes, limiting housing affordability, production and who can live in Auburn's neighborhoods. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many people. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

V. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment has been and is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road as shown on the attached map (A1).

Area A1



Current Zoning

- Parcels

auburnmaine.gov

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

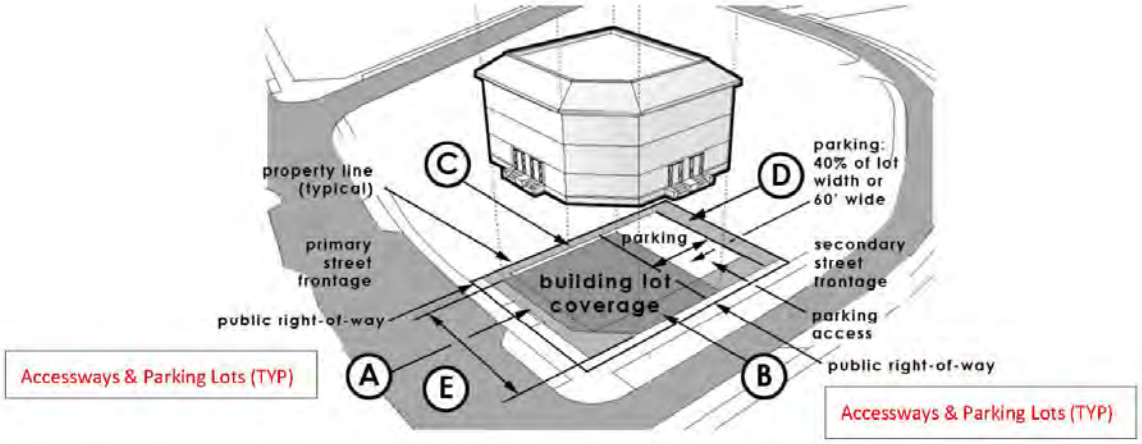
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

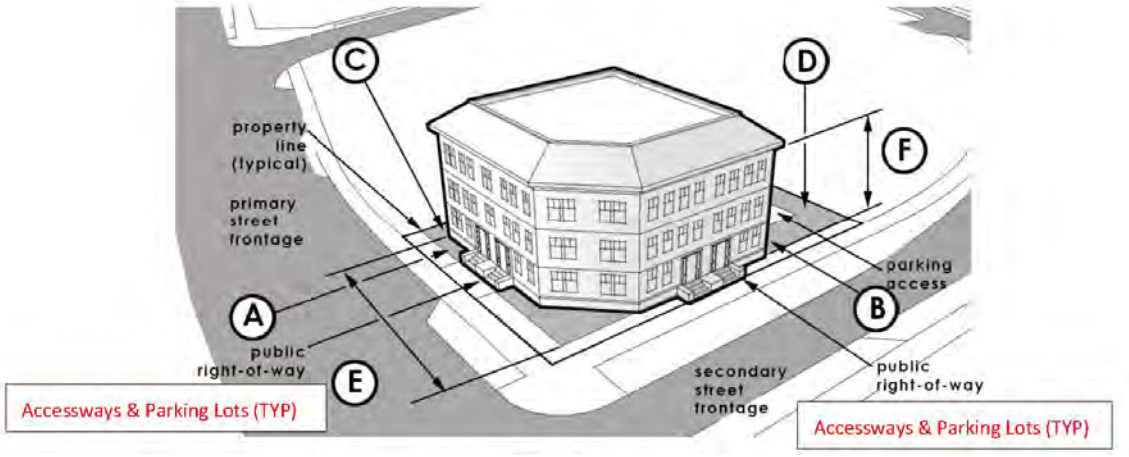
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



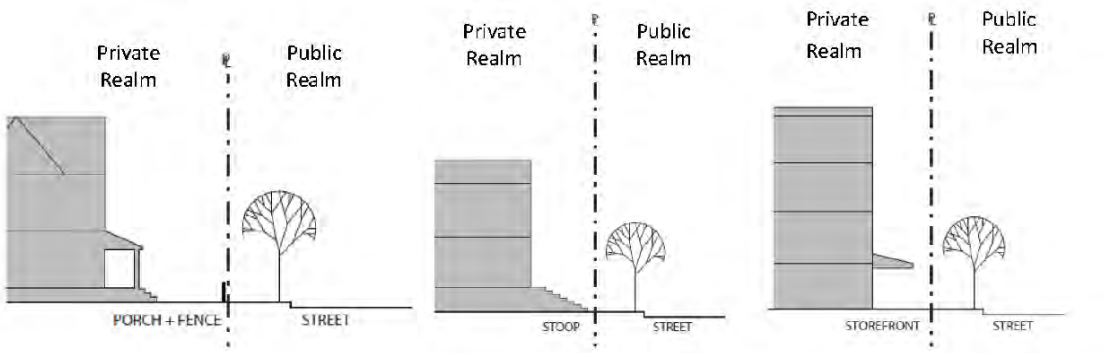
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Appendix A: Transportation Goals: This applies to Area A1, A2, Area B1 & B1. Future plan regarding Washington Street also connect to Area C.

"Goal G.1: Auburn supports real-estate growth patterns that fully utilize the utility of all road networks in the city, making necessary additional connections between road networks to advance this goal…"

1. The full utility of the Maine Turnpike and Washington Street have not been integrated into residential growth patterns in Auburn. Previous efforts to integrate the Turnpike focused on industrial/commercial growth, which is no longer recommended in the Comprehensive Plan.
2. The New Auburn area is dominated by streets running north to south with limited east to west connections. The Little Androscoggin and Androscoggin Rivers have driven that development history and the Comprehensive Plan specifies recommendations to establish broader east-west connectivity. Developing a grid network as projects are proposed under site plan review will allow for priority streets to serve both local uses and regional mobility and keep through traffic out of neighborhoods.
3. Developing a connected grid of streets will need to be part of site plan review to avoid creating congestion and safety issues in key areas of New Auburn village and Danville.

"Goal G.2: Auburn has a well-designed–and functioning road network that safely and equitably moves all manner of users (cars, buses, bikes, and pedestrians) into and through the community while expanding traditional residential neighborhood growth patterns in Danville and New Auburn. Expansions in neighborhood growth are in keeping with traditional transportation network patterns, such as interconnected streets that provide multiple travel patterns, avoiding a rigid hierarchy of streets."

1. Additional residential growth at the densities already in place in the core neighborhood will have an impact on the existing road network in New Auburn. Implementing this comprehensive plan goal is done through increased density allowed in zoning and the establishment of an interconnected street grid, over time, resembling the existing built area.
2. Expansions in transportation capacity, such as connector roads or highway interchanges, are difficult to permit if the goal is "sprawl repair" due to haphazard road layout and inefficient use of land for community growth.
3. New capacity, linked to providing for regional mobility and a protection of neighborhood and village street grids, does provide a strong foundation for pursuing state/federal permitting.

FREQUENTLY ASKED QUESTIONS

FORM-BASED CODE The Form Based Code Institute defines a form-based code as "a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code. A form-based code is a regulation, not a mere guideline, adopted into city, town, or county law. A form-based code offers a powerful alternative to conventional zoning regulation."[2] The purpose of implementing form-based code is to provide equitable access to housing in walkable neighborhoods by allowing residential uses at a density driven by the form, lot size and configuration of the lot with less minimum road frontage required and shared driveways encouraged. Form-based code regulates the physical form of the built environment using transects, which are the standardized categories that describe the range or continuum of development types; from T-1 Natural Areas to T-6 Urban Core or City Center with an additional category designated for other uses. Form-based code offers an alternative to traditional zoning laws which separate where we live from where we work, learn, shop, play, and gather. By strictly regulating the setbacks and types of housing, units are built further apart resulting in greater reliance on roads. As an alternative, form-based code promotes walkability by reducing the separation between private and public realms of life. Auburn's form-based code proposes six types of form-based code districts, T-4.1, T-4.2B, T-4.2, T-5.1, T-5.2 and T-6. These districts range from least urban to most urban. T-4.2B is characterized as the Traditional Neighborhood Development District or General Urban Zone.

How would T-4.2B affect my neighborhood?

Building by form as regulated in T-4.2B will differ based on where you live and the existing neighborhood form. Most city lots are small and already built on, likely limiting additional development to infill housing opportunities and freedom for property owners to add additional units or make improvements to existing homes. Each landowner can decide whether to make changes to their property based on the ordinances and the existing conditions. In general, this zoning opens opportunities for landowners to add value to their property.

Would higher density in the city core make the traffic worse? Adding more housing, though may add more vehicles to the road in the short term, will allow the city to fund projects to improve current road conditions, and invest in improving circulation patterns throughout the city. Increasing density will also make Auburn a more viable location to extend pedestrian and bicycle infrastructure, local public transit, and especially commuter transportation to and from nearby metro areas like Boston, Portland, and more.

Form based code encourages building closer to the street, creating the illusion of narrower roadways which are proven to slow down vehicles. This zoning encourages and supports safe pedestrian traffic, over time also decreasing reliance on vehicles.

More units will mean more kids who need education. Will T-4.2B make this worse for already strained educators?

Applying form-based code could improve the state of Auburn's schools. Over the past several years, students enrolled in Auburn public schools have been stagnant and falling. Fairview can absorb another 100 students, Walton can absorb another 150, and East Auburn is close to capacity but could absorb about 20 more students. Altogether, the district could absorb up to 500-600 more students.

A reliable marker for determining enrollment trends in schools is the rate of preschool enrollment. Superintendent, Dr. Connie Brown, noted in 2022 that preschool enrollment has been decreasing over the past several years resulting in needing to close Walton Preschool and reducing the hours of East Auburn preschool. She noted that there are other schools that may need to close if they cannot increase enrollment.

The school district can, and in some cases will need to absorb more students, though it is also struggling with attracting and retaining teachers. The recommended monthly house payment is 28% of a person's income. The entry level pay for a teacher is $42,000.00, a firefighter starting wage is $45,000.00 plus average OT is $10,000 for a total of $55,000.00, and a police officer with OT is $65,000.00. The average price of an existing, entry level home is $267,500.00 and the average cost of a new entry level home is $318,000. Based on the 28% recommendation, a person would need to make $87,450.00/ year to afford an existing entry level home, and 104,6000.000/year to afford a new entry-level home. People working the above noted jobs, which are critical to some of the most important city services could not afford to build or purchase a home in the city that they work in. A teacher and fireperson living together still could not afford a single-family home in the city where they work. Dr. Brown stated that her number-one reason for teacher resignations is that they found another job closer to where they live. Housing options need to reflect different families and individuals' lifestyles and incomes.

How might new zoning affect the housing crisis?

In his article, "3 Zoning changes that Make Residential Neighborhoods More Affordable", Founder and Director of the Urban Sustainability Accelerator and Institute for Sustainable Solutions at Portland State University, Robert Liberty, identified eliminating single-family-residential-only zoning as an important factor to make residential neighborhoods more affordable. Multifamily housing is outlawed in about 75% of the country which poses a significant barrier for low to middle income residents by reinforcing housing segregation and increasing reliance on cars.

Form-based code allows mixed uses and businesses among homes. What does this mean? What can I expect?

T-4.2B will allow uses other than single family including small businesses with a residential unit on the same parcel. Businesses shall not be over 1,500 square feet. Drive-through restaurants are not allowed in T-4.2B and cannabis shops are also prohibited. There are some businesses that

will be prohibited, and most will require Special Exception Approval from the Planning Board, with Public Notice and Hearing, depending on the size and type.

WHY CONSIDER APPLYING FORM BASED CODE TO THESE FIVE AREAS:

1. The proposed zone change will **increase housing opportunity** for more people by lowering barriers to finding housing. Auburn's housing supply is limited and is not increasing fast enough to accommodate both current residents and those who want to call Auburn home. Housing scarcity drives up prices and increasing the supply of housing will lower the cost overtime.
2. The proposed zoning will **allow a wider variety of housing**. Offering choice in housing to residents will allow more residents the freedom to live as they want and not pay more than they can afford. Financial institutions recommend not spending more than 28% of household gross income on housing. Single family homes are outside of the price range and may not meet the lifestyle needs of many people, especially young adults, young families, empty nesters, older adults and many in between. The current zoning essentially renders housing that is not single-family or two-family illegal effectively barring those who cannot afford the high price of a single-family home to live with their neighbors. Allowing mixed use housing gives residents of all backgrounds and financial capacities options and promotes community be allowing neighbors to live close to and among each other.
3. Current traditional zoning laws tend to separate where we live from where we work, learn, and shop and force us to center roads over all other aspects of city design. These roads, as they are today, are dangerous to pedestrians and cyclists. We have an over-reliance on cars and Auburn's form-based code is meant to provide an alternative. T-4.2B **encourages walkability** by allowing uses that are not exclusively residential in moderately dense urban environments. There will not be walkability if there is nowhere to walk to. Encouraging infill and small business growth encourages walkability by giving folks spaces to walk to. Suburban sprawl as it exists limits transportation to folks who have a car and assumes that there will be little to no walking. It champions cars and roads over people and centralized communities.

ORDINANCE 13-09052023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment changing UR, MFS, NB, RR, and LDCR zoning to T-4.2B in Area A1

Be it ordained, That the Auburn City Council amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district as shown on the attached map.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 14-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Map Amendment to apply Form Based Code T-4.2B to "Area A2".

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the zoning map for Area A2, generally located near South Main, Loring, Mary Carroll and Seventh Street, from the Urban Residence and Multifamily Suburban zoning districts to the Traditional Neighborhood Form Based Code T-4.2B and Conservation/Open Space zoning districts. Area A2 is part of Area A, which was presented to the Planning Board on July 11, 2023. Area A was divided into Area A1 and Area A2 for the August 8 Planning Board meeting so Planning Board and City Council could consider how the proposed zone, T-4.2B, would apply to different parts of this land area, and consider the zone change incrementally. A1 and A2 meet near Loring Ave and South Main St.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend area A2 as described, in the attached motion and staff report, and shown on the attached map and the vote failed 3/4. The Board followed up with a motion to not recommend approval and the motion passed 4/3.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's findings, discuss, hold a public hearing on Area A2 as presented and vote to approve first reading.

Previous Meetings and History:

Summer 2022: City Council and Planning Board held workshops and public hearings on Area A, B, C, and D. No action was taken.

July 11, 2023: Planning Board holds a public hearing on rezoning Areas A, B, C, and D, and voted to table each area to integrate feedback into a new map.

August 8, 2023: Planning Board holds a public hearing on rezoning Areas A1, A2, B1 & B2, C, and D. They made a recommendation on all areas except for Area B, which they tabled.

September 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the four areas.

City Manager Comments:

I concur with the recommendation. Signature:

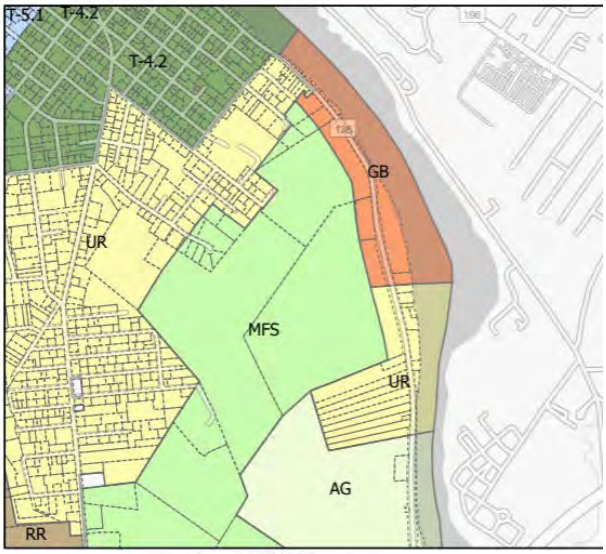
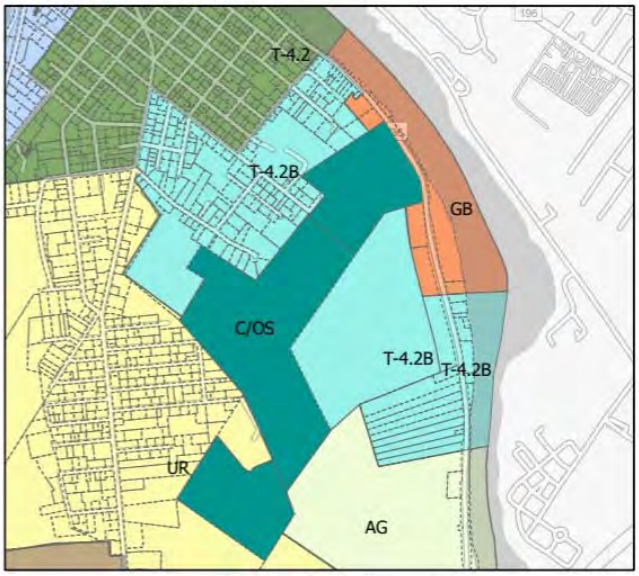
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A2

Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area A2:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets.



Current Zoning



Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city. The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of

the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2".
2. Area A2 is located near Mary Carroll St., Seventh St., to South Main St., and Loring Ave., where area A2 and A1 meet.
3. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
4. Three parcels, Huston Field, and the adjacent parcel owned by Androscoggin Land Trust, and Oak Hill Cemetery are proposed to be rezoned to Conservation Open Space to reflect their public/neighborhood use.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Transportation Goals*: See Appendix A.*

V. Suggested Reasons, Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A2 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A2 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks alleviates this challenge.
9. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003, and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

VI. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning

district, and the Conservation/Open Space zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map.

RE: Planning Board recommendation to City Council on map amendment applying T-4.2B to Area A2.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets.

MOTION: Evan Cyr; **SECOND**: Darren Paul Jacques.

"I make a to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map." **VOTE:** 3-4-0 motion fails.

MOTION David Trask; **SECOND:** Toni Ferraro.

"I make a motion to not recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district as shown on

the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map." **VOTE:** 4-3-0 motion passes.

ORDINANCE 14-09052023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment changing UR and MFS zoning to T-4.2B in Area A2

Be it ordained, That the Auburn City Council amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. as shown on the attached map.

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 15-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Map Amendment to apply Form Based Code T-4.2B to "Area C".

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the zoning map for Area C, generally located near Poland, Rodman, Manley and Hotel Roads, from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. After conducting a public hearing, Planning Board is recommending that City Council vote to amend area C as described, in the attached motion and staff report, and shown on the attached map.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's findings, discuss, hold a public hearing on Area C as presented and vote on first reading.

Previous Meetings and History:

Summer 2022: City Council and Planning Board held workshops and public hearings on Area A, B, C, and D. No action was taken.

July 11, 2023: Planning Board holds a public hearing on rezoning Areas A, B, C, and D, and voted to table each area to integrate feedback into a new map.

August 8, 2023: Planning Board holds a public hearing on rezoning Areas A1, A2, B1 & B2, C, and D. They made a recommendation on all areas except for Area B, which they tabled.

September 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the four areas.

City Manager Comments:

I concur with the recommendation. Signature:

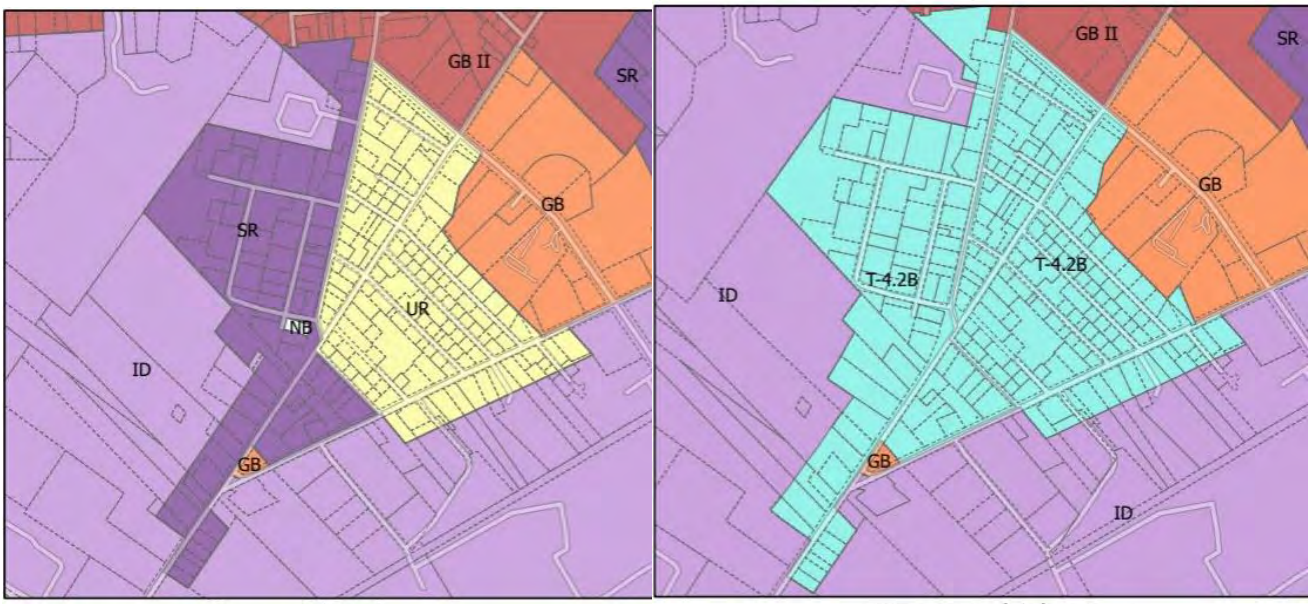
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area C

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendments/ T-4.2B Area C: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Poland, Rodman, Manley and Hotel Roads as shown on the attached map.



II. Background: Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The new zone boundaries were slightly cleaned up from last year's map so that zoning boundaries more frequently follow parcel lines rather than splitting smaller parcels between zoning districts.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area C to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals and will be integrated into the Washington Street Corridor roadway and pedestrian connectivity plans.
3. The Comprehensive Plan supports growth in the "city core" which includes Area C. Developing within the city core means more efficient, cost-effective city services to support growth.
4. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
5. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
6. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
7. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
8. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

I. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Poland, Rodman, Manley and Hotel Roads and is shown on attached map Area C.

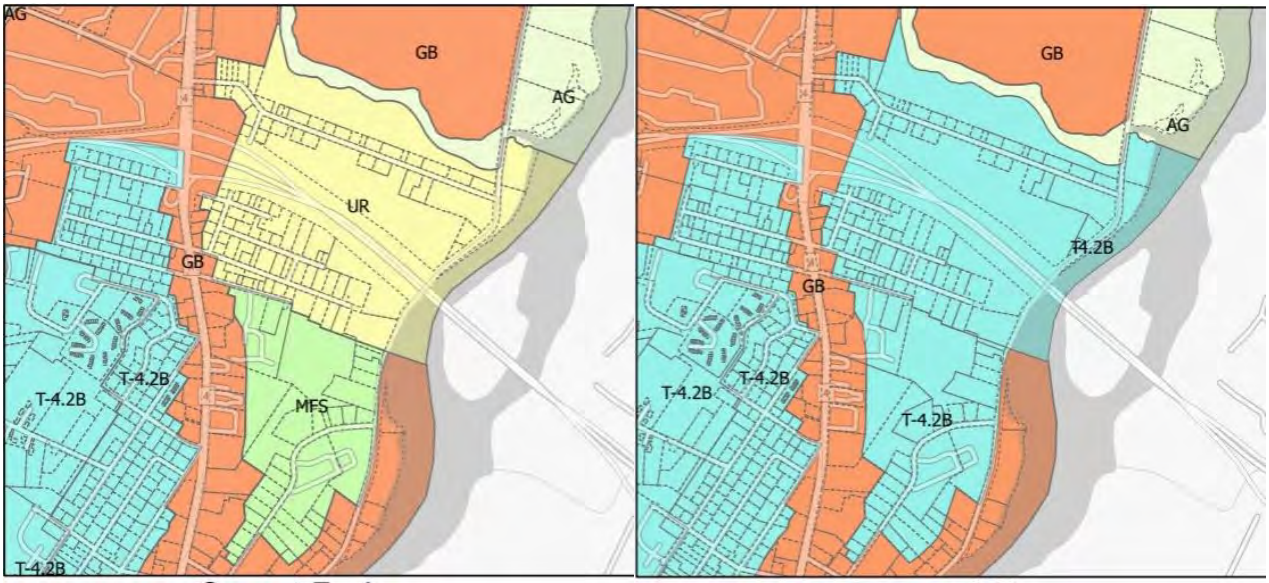
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area D

Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area D:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Northern Avenue, North River Road and Bradman Streets.



Current Zoning Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council.

Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The previous map showed a 100 ft. strip along North River Road to be changed to T-4.2B. The Planning Board gave feedback that they were not comfortable with this strip, and asked instead to show the map without the area north of Bobbin Mill Brook, reducing the acreage considered for Area D.

III. **Traditional Neighborhood Development District T-4.2B:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. **Suggested Findings and Staff Recommendation:** Forward a positive recommendation to City Council to rezone Area D to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.

2. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
3. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
4. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
5. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. It discards the obsolete zoning construct that requires more land than needed for supporting residences.
6. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for most. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
7. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.
8. Form based code is appropriate for this area considering the existing Urban Residential, Multifamily, and General Business zoning.

V. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Northern Avenue, North River Road and Bradman Streets shown on attached map D.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Ordinance:** 17-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Zoning Ordinance Text Amendment (B1)– Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the Zoning Ordinance Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend the ordinance as follows:

"I make a to recommend approval of the text amendment #1-5 and 7-8 as numbered on the staff report to chapter 60 article 14 article 4 division 2 agriculture resource protection district the text amendments were proposed at the June 6, 2023, planning board meeting and follow the passage of ordinance number 10-0620203 on July 10th, 2023, the proposed text changes are attached." VOTE: 7-0-0 motion passes

Amendment 6 that the Planning Board recommended excluding reads as follows: Front. There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot or 400 feet, whichever is less.

Amendment 8: No amendment needed. 10-acre conservation cemetery allowance was already adopted by Council and was corrected in the attached ordinance text as adopted.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's recommendation, discuss, hold a public hearing on the text amendment as presented and vote to approve first reading with any exclusions that the Council determines are appropriate. The Changes are summarized and numbered in the Ordinance so they can re referenced as amendments if the Council chooses to approve some and exclude others.

Previous Meetings and History:
July 10, 2023: Referred BB recommended changes to PB for Public Hearing.

September 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the AGRP Text Amendments.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments:
Planning Board recommendation to City Council, 08/08/2023 staff report, proposed text amendment and Ordinance 17-09052023.

Re: Staff Report on Proposal B-1 with Planning Board Clarification Amendments #1-8

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B1) Planning Board Proposed Changes Numbers One Through Eight: Consider zoning text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve proposal B without the amendments offered in the Planning Board recommendation to City Council on AGRP Zone Proposals A and B (included in this packet) and issued an Order that Planning Board hold a public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B-1 with Planning Board Clarification Amendments #1-8 are complimentary to the existing language and function of adopted Proposal B, and do not seem to impose significant change from the previously approved Proposal B. Proposal B-1 with Planning Board Clarification Amendments #1-8 is summarized below and references each motion from 6/6/2023 prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B-1 with Planning Board Clarification Amendments #1-8

1. Add "or two acres, whichever is less" after the word coverage in Sec. 60-145(a)(1)(a). (Motion 1)
   Amendment 1 is intended to concentrate the residential development to a smaller percent of each lot and avoid disrupting more land than is needed.

2. Add "agriculture," in Sec. 60-145(a)(1)(b)(ii) (a, b, and c), after the words, farm, farming, and farm. (Motion 2*)

Amendment 2 broadens the uses that would allow for a residential unit to include agriculture uses in addition to farming, natural resource, or recreation.

3. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145(a)(1)(c) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 4)
   Amendment 3 adds the requirement that a bona fide farm plan be presented to staff who will determine whether the proposal meets the ordinance before a certificate of occupancy is granted for a dwelling. In addition to the criteria that residential structures are limited to a footprint of 20% of the lot area or 2 acres, whichever is less.

4. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145 (a)(1)(d) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 5*)
   Amendment 4 adds specification that in order for a dwelling to continue existing, it must continually meet the requirements of a bona fide farm, in addition to keeping the residential footprint to 20% of the lot area or 2 acres, whichever is less.
5. Add "along a publicly accepted street" to 60-146(1) after the word "frontage" (Motion 6).
   Amendment 5 specifies that private ways may not be used as road frontage. This is intended to reduce the possibility of creating new roads for the purposes of developing housing, and generally limits the area able to be developed in the AGRP zone.

6. Add "or 400 feet, whichever is less" to Sec. 60-146(3)(c) after the word "lot".
   Amendment 6 limits the maximum development depth on particularly large lots, thereby reducing land fragmentation and disturbing less earth for the construction.

7. Add "firewood processing, Christmas tree cultivation" to Sec. 145(a)(3) after the word "sugaring".
   Amendment 7 is meant to recognize other common natural resources and timber harvesting practices besides agriculture and forestry. It expands the uses for which a home can be accessory.

8. The updated proposal draft includes Sec. 60-145(b)(8)(c), recognizing that 10 acres is the minimum size for conservation cemeteries. This was previously adopted by the council so it is not shown as a change in this proposed text amendment.
   Number 8 recognizes that the motion was made to include 10-acre conservation cemeteries in the AGRP ordinance, by showing the adopted AGRP text that includes this as condition C.

IV. **Staff Recommendation:** Staff recommend the Planning Board recommend approval of all amendments in proposal B1, with the finding that they are in alignment with or strengthen the existing language and are true to the intent of the AGRP zone based on the Comprehensive Plan and existing Zoning.

V. **Suggested Motion:** I make a motion to recommend approval of the text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text change is attached.

Proposal B-1 with Pl Bd Clarification Amendments #1-8

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

● ● ●

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage or two acres, whichever is less of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, agricultural, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, agricultural, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, agricultural, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii).

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest, including, but not limited to, maple sugaring, firewood processing, Christmas tree cultivation, or mushroom cultivation.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.
(10) Handling, storage or processing and sale of forestry products or agricultural products.
(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.
(12) Wayside stands.
(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.
(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.
(15) Marijuana manufacturing accessory to a licensed cultivation site.
(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in Sec. 60-1501.
(17) Natural resource uses.
(18) Small-scale recreational uses of land designed or intended for public use.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:
(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:
a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.
a. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.
b. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.
(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.
(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.
(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.
(5) Non-small scale recreational uses of land intended or designed for public use subject to the following conditions:
a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.
b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.
(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:
a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.
b. In cases where no minimum setback is established by division 5 of article XII of this chapter

an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:
   a. At least 20 acres in area
   b. Not located in any environmental overlay district or over any known aquifer.
   c. At least 10 acres if designated a conservation cemetery.

(9) Municipal sanitary landfills, subject to the following conditions:
   a. Not located in any environmental overlay district or over any known aquifer.
   b. Provisions shall be made to avoid surface water and groundwater pollution.
   c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:
   a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.
   b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:
   a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.
   b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:
   a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.
   b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.
   c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:
   a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.
   b. The proposed use shall not occupy more than 10,000 square feet of building area.
   c. The number of employees shall be limited to not more than 15.
   d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.
   e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:
   a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.
   b. Provisions shall be made to avoid surface and groundwater pollution.
   c. Provisions shall be made to counteract vermin, insects and odors.
   d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.
   e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is (19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

(18) [RESERVED]

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.
2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.
3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under Sec. 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on this subsection 60-145(b)(19)(d). by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.
2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.
3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state

department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:
   1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;
   2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;
   3. To the extent possible, infrastructure shall not be located on steep slopes; and
   4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:
   1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.
   2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage along a publicly accepted street, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

   a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

   b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Sec. 60-2.

   c. A dwelling may be constructed on lots lawfully existing as of October 1, 2017 and containing less than ten acres, only if approved pursuant to Sec. 60-145(a)(1).

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

   a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot or 400 feet, whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

RE: Planning Board recommendation to City Council on AGRP text Amendment (Proposal B1) Planning Board Proposed Changes #1-8.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider zoning text amendments one through eight to Chapter 60, Article IV, Division 2- Agriculture and Resource Protection District. The text amendments were proposed at the June 6, 2023, Planning Board meeting and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

MOTION: Evan Cyr; **SECOND** Riley Bergeron.

"I make a to recommend approval of the text amendment #1-5 and 7-8 as numbered on the staff report to chapter 60 article 14 article 4 division 2 agriculture resource protection district the text amendments were proposed at the June 6, 2023, planning board meeting and follow the passage of ordinance number 10-0620203 on July 10th, 2023, the proposed text changes are attached." **VOTE:** 7-0-0 motion passes.

ORDINANCE 17-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend certain sections of Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District as shown on the attached Ordinance, including:

1. Add “or two acres, whichever is less” after the word coverage in Sec. 60-145(a)(1)(a).
2. Add “agriculture,” in Sec. 60-145(a)(1)(b)(ii) (a, b, and c), after the words, farm, farming, and farm.
3. Add “and Sec. 60-145(a)(1)(b)(ii)” in Sec. 60-145(a)(1)(c) after the reference to “Sec. 60-145(a)(1)(a)”.
4. Add “and Sec. 60-145(a)(1)(b)(ii)” in Sec. 60-145 (a)(1)(d) after the reference to “Sec. 60-145(a)(1)(a)”.
5. Add “along a publicly accepted street” to 60-146(1) after the word “frontage”
6. Add “or 400 feet, whichever is less” to Sec. 60-146(3)(c) after the word “lot”. (Not Recommended by PB)
7. Add “firewood processing, Christmas tree cultivation” to Sec. 145(a)(3) after the word “sugaring”.

Subject: Public Hearing on Zoning Ordinance Text Amendment (B3)– Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT. AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor Pond watershed.

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the Zoning Ordinance Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.
After conducting a public hearing, Planning Board is recommending that City Council vote to **not** amend the ordinance as follows:

"I make a motion to recommend that the City Council should not approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached." VOTE: 6-1-0 motion passes.

AMEND MOTION Evan Cyr; SECOND: Riley Bergeron. "I make a motion to include the discussion under number 4 staff recommendation on the staff report to constitute the findings in recommending now" VOTE: 6-1-0 motion passes.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's recommendation, discuss, hold a public hearing on the text amendment as presented and vote **not in favor of** approval of first reading.

Previous Meetings and History:
July 10, 2023: Referred BB recommended changes to PB for Public Hearing.

September 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the AGRP Text Amendments.

City Manager Comments:

I concur with the recommendation. Signature:

Proposal B-3 with Pl Bd Taylor Pond Watershed Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

● ● ●

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

Re: Staff Report on Proposal B3 to the AGRP Zoning Use standards - Planning Board Recommended Amendment to prohibit residences in the AGRP portions of the Taylor Pond Watershed

Date: August 8, 2023

I. **Proposal: Public Hearing/ AGRP Text Amendment (Proposal B3) Planning Board Proposed Change Number Nine:** Consider a zoning text amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing and agriculture operations in the AGRP zone if they are also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and followed by the City Council passage of Ordinance #10-06202023 on July 10, 2023. The proposed text has been and is available in the Planning & Permitting Department in City Hall.

II. **Background:** On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their prior recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B3 is the Planning Board recommended Taylor Pond Watershed Amendment and has been proposed as separate text and hearing from the others because it is a substantive amendment. The proposed amendment is summarized below (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. **Proposal B3 with Planning Board Taylor Pond Watershed Amendment.**

1. Add "or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map;" in Sec.60-145)(b)(i) after the word "District"
   This is referred to as proposed change number nine, because it was the 9th amendment recommended by the Planning Board on June 9, 2023.

IV. **Staff Recommendation:** We do not recommend this amendment because it restricts a large land area that would have much less impact on the Pond than the existing small lot development around the Pond, the existing protections(Phosphorus Control) are adequate in the ordinance, and it could disadvantage existing farms, recreational or natural resource

based uses in the Taylor Pond Watershed. The amendment proposes prohibiting new homes in the Taylor Pond watershed which are also in the AGRP zone, which would include approximately 2,035 acres of land. Most existing structures in the Taylor Pond watershed are made up of small camps or homes that have historically caused land use issues and have threatened the health of the pond. Chapter 60, Article XII, Division 3- Taylor Pond Overlay district which extends 250 feet from the high-water mark of Taylor Pond was created to mitigate the impacts of this existing development over time. There are additional. environmental protections that apply to the approximately 3,880 acres that make up the Taylor Pond Watershed. Specifically, Article XIII, Division 2- Phosphorous Control requires that any person proposing new construction over 200 square feet in size, tree cutting or earth moving over 10,000 square feet, or driveway or road construction affecting over 1,500 square feet of land needs to submit a phosphorous control plan for staff to review before any construction can begin. Erosion and Sedimentation control standards also prevent runoff from new development into Taylor Pond. Most land that is in the AGRP zone in the Taylor Pond Watershed is northwest of the lake, and at least 250ft. away from the high-water mark. There are existing farms operating in alignment with the standards of the AGRP zone in this area, and this amendment would prohibit. building a home accessory to any farm, agricultural, natural resource, or recreational use. If this amendment does not pass, as we are recommending, any new home would still be required to meet all requirements of the AGRP zone and the Taylor Pond Watershed standards.

V. **Suggested Motion:** I make a motion to recommend that the City Council should **not** approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

RE: Planning Board recommendation to City Council on AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor Pond watershed.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a zoning text amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing and agriculture operations in the AGRP zone and the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

MOTION: Riley Bergeron; **SECOND** Paul Jacques.

"I make a motion to recommend that the City Council should not approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached." **VOTE:** 6-1-0 motion passes.

AMEND MOTION Evan Cyr; **SECOND:** Riley Bergeron.

"I make a motion to include the discussion under number 4 staff recommendation on the staff report to constitute the findings in recommending now" **VOTE:** 6-1-0 motion passes.

Findings/ Reasons as listed in staff report refenced in the motion:

Staff Recommendation: We do not recommend this amendment because it restricts a large land area that would have much less impact on the Pond than the existing small lot development around the Pond, the existing protections (Phosphorus Control) are adequate in

the ordinance, and it could disadvantage existing farms, recreational or natural resource-based uses in the Taylor Pond Watershed. The amendment proposes prohibiting new homes in the Taylor Pond watershed which are also in the AGRP zone, which would include approximately 2,035 acres of land. Most existing structures in the Taylor Pond watershed are made up of small camps or homes that have historically caused land use issues and have threatened the health of the pond. Chapter 60, Article XII, Division 3- Taylor Pond Overlay district which extends 250 feet from the high-water mark of Taylor Pond was created to mitigate the impacts of this existing development over time. There are additional. environmental protections that apply to the approximately 3,880 acres that make up the Taylor Pond Watershed. Specifically, Article XIII, Division 2- Phosphorous Control requires that any person proposing new construction over 200 square feet in size, tree cutting or earth moving over 10,000 square feet, or driveway or road construction affecting over 1,500 square feet of land needs to submit a phosphorous control plan for staff to review before any construction can begin. Erosion and Sedimentation control standards also prevent runoff from new development into Taylor Pond. Most land that is in the AGRP zone in the Taylor Pond Watershed is northwest of the lake, and at least 250ft. away from the high-water mark. There are existing farms operating in alignment with the standards of the AGRP zone in this area, and this amendment would prohibit. building a home accessory to any farm, agricultural, natural resource, or recreational use. If this amendment does not pass, as we are recommending, any new home would still be required to meet all requirements of the AGRP zone and the Taylor Pond Watershed standards.

VOTE on amended motion: 6-1-0 motion passes.

ORDINANCE 18-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend certain sections of Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District as shown on the attached Ordinance and below:

Sec. 60-145. Use regulations.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map; and

Re: Staff Report on Proposal B2 with Planning Board Proposed Tax Program 5YR Amendment.

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B2) Planning Board Proposed Change Number Ten: Consider zoning text amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use tax programs within the last five years. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and were followed by City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in this packet.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board recommendation(included in this packet) and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes. The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B2 with the Planning Board recommended Tax Program 5YR Amendment has been proposed as separate text and hearing because it is a substantive amendment. The Amendment is summarized below and references the motion from the 6/6/2023 Planning Board Recommendation prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B2 - Planning Board recommended Tax Program 5YR Amendment.

1. Remove "~~Currently~~" before "enrolled", capitalize the "E" in "enrolled" and add "within the last five years" after the word "Program" in Sec. 60-145(b)(vii)(a, b, c). *This is referred to as proposed change number 10, because it was the 10th amendment recommended by the Board in the 6/6/23 recommendations.*

IV. Staff Recommendation: This proposal was initiated to prevent Auburn landowners who have been utilizing the State of Maine Farmland Tax Program, the State of Maine Tree Growth Tax Program, and the State of Maine Open Space tax Program from removing land from this protection in order to build housing. We do not recommend this amendment because a result of this change may mean that someone who has been using the AGRP district as prescribed and intended could be penalized for deciding to build on this land. This

also has the potential to create a disadvantage to existing farmers and rural landowners who have used the land as the AGRP zone intended, in comparison to new landowners or those that have not used the land for agriculture, forestry or public recreation. Under this amendment, someone who has held land in any of the tax programs may not build on their land for five years, even if they meet the other requirements of the AGRP zoning district. In the absence of a five-year moratorium, landowners still need to provide a bona fide plan for farming, agricultural, recreational, or natural resource use before any residential development could occur.

V. **Suggested Motion:** I make a motion to not recommend the amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years. The text amendments were proposed at the June 9, 2023, Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

Proposal B-2 with Pl Bd Tax Program 5 YR Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

• • •

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that

has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.
b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.
c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and
(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and
(v) Avoid being sited on wetlands; and
(vi) Avoid being sited on slopes greater than 25%; and
(vii) Not be sited on any portion of a parcel that is classified as being:

a. ~~Currently e~~Enrolled in the State of Maine Farmland Tax Program within the last five years; or
b. ~~Currently e~~Enrolled in the State of Maine Tree Growth Tax Law Program within the last five years; or
c. ~~Currently e~~Enrolled in the State of Maine Open Space Tax Program within the last five years.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

ORDINANCE 19-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend certain sections of Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District as shown on the attached Ordinance and below:

Sec. 60-145. Use regulations.

b. New one-family detached dwellings shall:

(vii) Not be sited on any portion of a parcel that is classified as being:

a. ~~Currently e~~Enrolled in the State of Maine Farmland Tax Program within the last five years; or

b. ~~Currently e~~Enrolled in the State of Maine Tree Growth Tax Law Program within the last five years; or

c. ~~Currently e~~Enrolled in the State of Maine Open Space Tax Program within the last five years.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **ORDER** 119-09052023

Author: Brian Wood, Assistant City Manager

Subject: Public Safety Building – Referendum Question for November 7, 2023, Election

---

Information: In 2011, the Auburn Police Department relocated from its Minot Avenue location to Auburn Hall as a temporary solution due to space needs, costly needed repairs, and upgrades as a cost saving measure for the city. In 2017, a space needs analysis and site evaluation were completed and in 2019, City Council reallocated CIP funds to expand the facility assessment. In 2020, a comprehensive facilities assessment was completed, and an Ad-hoc Committee was established to review the assessment and make recommendations to City Council. A final committee report was presented to City Council in 2022. In August 2023, a presentation was made to City Council with a recommendation to merge both police and fire departments into one public safety facility to be located at 550 Minot Avenue as the most effective measure for both efficient delivery of services and overall costs for the residents of the City of Auburn.

The bond referendum question will state:
Shall the City of Auburn authorize the issuance of general obligation bonds or notes in anticipation of such bonds in the principal amount not to exceed $45,000,000 and appropriate the proceeds of such bonds, together with investment earnings, if any, to fund the construction of a new public safety facility at 550 Minot Avenue in Auburn to house the headquarters of the City's Police Department and Fire Department, including all necessary professional services, real estate acquisition and off-site improvements related to such construction project, costs of issuance and capitalized interest as permitted?

Financial Statement: The issuance of bonds by the City of Auburn is one of the ways in which the City borrows money for certain purposes. The following is a summary of the bonded indebtedness of the City of Auburn as of November 7, 2023:

Principal of Bonds to be Issued if Approved by Voters:	$45,000,000
Estimate of Interest on Bonds to be Issued if Approved:	$37,800,000
Total Debt to be Issued if Approved by Voters:	$82,800,000

When money is borrowed by issuing bonds, the City must repay not only the principal amount of the bonds but also interest on that amount as well. Principal on the bonds will be repaid in approximately equal annual installments over a period not to exceed 30 years, along with interest, which will be paid semi-annually. The amount of interest to be paid will vary depending on the rate of interest and the years of maturity at the time of issuance, which is expected to be no sooner than 2024. An estimate of the total interest that may reasonably be expected to be paid on the issue submitted herewith for authorization is $37,800,000, based

on an interest rate of 4.00%. The total principal and interest to be paid over the life of the bonds on the issue submitted herewith, if authorized, is thus estimated to be $82,800,000.

The validity of the bonds and of the voters' ratification of the bonds may not be affected by any errors in the foregoing estimate of the costs involved, including varying interest rates, the estimated cost of interest on the bond amount to be issued, and the total cost of principal and interest to be paid at maturity. If the actual amount of the total debt service for the bond issue varies from the estimate, the ratification by the electors is nevertheless conclusive and the validity of the bond issue is not affected by reason of the variance.

City Budgetary Impacts:

Principal of Bonds:	$45,000,000.00
Interest on Bonds:	$37,800,000.00
Total 30-year Debt:	$82,800,000.00

Staff Recommended Action: Order that the City Clerk, through the City Manager, place the referendum question before the residents of the City of Auburn on the November 7, 2023, election ballot.

Previous Meetings and History: August 7, 2023

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 119-09052023

City Council Order

IN CITY COUNCIL

Ordered, that the City Council hereby directs the City Clerk through the City Manager to place the following referendum question before the residents of the City of Auburn on the November 7, 2023, election ballot:

Shall the City of Auburn authorize the issuance of general obligation bonds or notes in anticipation of such bonds in the principal amount not to exceed $45,000,000 and appropriate the proceeds of such bonds, together with investment earnings, if any, to fund the construction of a new public safety facility at 550 Minot Avenue in Auburn to house the headquarters of the City's Police Department and Fire Department, including all necessary professional services, real estate acquisition and off-site improvements related to such construction project, costs of issuance and capitalized interest as permitted?

Financial Statement: The issuance of bonds by the City of Auburn is one of the ways in which the City borrows money for certain purposes. The following is a summary of the bonded indebtedness of the City of Auburn as of November 7, 2023:

Principal of Bonds to be Issued if Approved by Voters:	$45,000,000
Estimate of Interest on Bonds to be Issued if Approved:	$37,800,000
Total Debt to be Issued if Approved by Voters:	$82,800,000

When money is borrowed by issuing bonds, the City must repay not only the principal amount of the bonds but also interest on that amount as well. Principal on the bonds will be repaid in approximately equal annual installments over a period not to exceed 30 years, along with interest, which will be paid semi-annually. The amount of interest to be paid will vary depending on the rate of interest and the years of maturity at the time of issuance, which is expected to be no sooner than 2024. An estimate of the total interest that may reasonably be expected to be paid on the issue submitted herewith for authorization is $37,800,000, based on an interest rate of 4.00%. The total principal and interest to be paid over the life of the bonds on the issue submitted herewith, if authorized, is thus estimated to be $82,800,000.

Belinda A. Gerry, At Large
Ryan Hawes, Ward Two
Leroy G. Walker, Ward Five
Jason J. Levesque, Mayor
Stephen G. Milks, Ward Three
Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City Council Order

The validity of the bonds and of the voters' ratification of the bonds may not be affected by any errors in the foregoing estimate of the costs involved, including varying interest rates, the estimated cost of interest on the bond amount to be issued, and the total cost of principal and interest to be paid at maturity. If the actual amount of the total debt service for the bond issue varies from the estimate, the ratification by the electors is nevertheless conclusive and the validity of the bond issue is not affected by reason of the variance.

Subject: ARPA funding allocation Literacy Volunteers - Androscoggin

---

Information: Literacy Volunteers – Androscoggin, is requesting the City of Auburn allocate $5,700.00 from their American Rescue Plan Act (ARPA) funds. Funds will help serve 30 adults in Auburn for one year.

In October of 2022, they were able to qualify for $12,500 in ARPA funds through Androscoggin County. The funding provided adult literacy programs in Androscoggin County and is due to be expended by October 31, 2023.

Literacy Volunteers -Androscoggin is an incorporated, non-profit – nationally accredited organization that provides Basic Literacy, KAP (Family Literacy), English Language Learners Workplace Literacy Classes and English Conversation Partners.

City Budgetary Impacts: None

Staff Recommended Action: Allocate $5,700.00 to Literacy Volunteers – Androscoggin.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Letter to Mayor Levesque and Members of the Auburn City Council.

Literacy Volunteers – Androscoggin

Our mission is to provide free, one-on-one tutoring and other educational services to help Adults and families in Androscoggin County acquire the basic reading, writing and math skills they need to enhance their lives and achieve their personal goals.

Dear Mayor Levesque and Members of the Auburn City Council:

Literacy Volunteers-Androscoggin (LV-A) has been serving the residents of Androscoggin County for 48 years. Our mission is to help adults and families with multiple barriers tranform their lives through accessible education. We recruit, train and support volunteers to provide one-on-one instruction for adults who have a critical need to work on their education, and have no other avenue for doing so.

LV-A students represent a broad spectrum of ability, from those who have no literacy skills, to highly educated individuals from other countries. Last year, we worked with adults from 45 different countries, including the United States.

Due to the pandemic, LV-A has experienced a 32% drop in our United Way allocation, as their campaign has been deeply affected. Historically, the UW has provided about 40% of our annual funding so this has been a significant challenge.

We were hit hard by the pandemic, both financially and in regards to student and volunteer numbers, and where able to qualify for $12,500 in ARPA funds through Androscoggin County in October of 2022. This funding was used to provide adult literacy programs in Androscoggin County and will be spent by October 31, 2023.

The work to rebuild our capacity continues in Auburn and other parts of Androscoggin County. To support our programs in your city, we are requesting $5,700 in ARPA funds from Auburn, which will cover five hours per week of the Executive Director's salary and help us serve 30 adults in Auburn for one year. These hours would pertain specifically to program and include:

- Student intakes
- Student and volunteer recruitment
- Tutor and English Conversation Partners training and matching
- Support of the tutor/student matches
- Continuing Education for volunteers
- Outreach and building partnerships with other community programs;
- Managing the logistics required for current programs.

The 30 adult students from Auburn would have two core programs available:

One-on-one tutoring: Trained volunteers provide free, one-on-one instruction in reading, writing, and/or math and lessons are centered around the student's life goals. For example: someone that needs a job would be learning to read want ads, fill out applications, or perhaps study for a work related test. Students that have a need to get certified for a specific occupation are matched with a tutor that has knowledge about that field.

English Conversation Partners: One-on-one, English Conversation Partners provide the opportunity for ELL students to improve their English speaking skills as well as gain information about Maine culture. This helps them enter and navigate our workplace culture, as well as the community overall. It also affords an opportunity for our volunteers to learn about their students' cultures.

LV-A has a good track record serving the residents of Auburn. Twenty five of the past twenty-seven years, we have received CDBG funds, and 95% of the students who participated in our programs 50 hours or more achieved two or more of their life skill goals, many of which were work related. Pre-pandemic we served 80 to 100 Auburn residents, giving 4,500 hours or more of volunteer service to help area adults gain the skills they needed to obtain a good job, help their children with their education, and lift themselves out of poverty.

Thank you for your past support and your consideration of our proposal.

Respectfully, Tahlia Chamberlain, Executive Director

ORDER 120-09052023

City Council Order

IN CITY COUNCIL

ORDERED, that the City of Auburn City Council hereby approves the allocation of $5,700.00 from the American Rescue Plan Act (ARPA) funds for Literacy Volunteers – Androscoggin programs.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 5, 2023 **Order:** 121-09052023

Author: Jay Brenchick, Director of Economic Development

Subject: Sale of 80 Lake Street (Parcel ID 239-114), 7 Fern Street (Parcel ID 239-113), and 9 Fern Street (Parcel ID 239-112)

Information: The sale of these properties for One Hundred Thousand Dollars ($100,000) will allow Jim Wu (the developer) to renovate the former Lake Street School into market rate apartments and 7 and 9 Fern Street into a daycare.

Subject: The City of Auburn Economic Development Department seeks approval for the City Manager to Execute a Purchase and Sale Agreement with Jim Wu for the Sale of 80 Lake Street (Parcel ID 239-114), 7 Fern Street (Parcel ID 239-113), and 9 Fern Street (Parcel ID 239-112) for One Hundred Thousand Dollars ($100,000). The sale of these properties will allow Jim Wu (the developer) to renovate the former Lake Street School into market rate apartments and 7 and 9 Fern Street into a daycare. (See Proposal in attachment below).

A citizens committee for the Lake Street School proposal met on Thursday, August 30th to give input on the layout and design in the proposal. The committee liked the project, layout, and design. The committee noted a basketball hoop on the property is used a great deal by the neighborhood. The basketball hoop has been removed in the current proposal. The committee would like to see a basketball hoop included on the property.

Jay Brenchick spoke with Jim Wu regarding the desire to have a basketball hoop on the property. Jim said the hoop was removed in the proposal for safety concerns because it is located next to the parking lot. He views a hoop on the property as an amenity that should be included, and his team will find a safe location for the hoop.

- Wu Proposal to Purchase
- Economic Development Memo

TERRADYN
CONSULTANTS, LLC

Pineland
Cumberland Hall
41 Campus Drive, Suite 301
New Gloucester, ME 04260

July 18, 2023

Jay Brenchick, Director
Economic Development Department
City of Auburn
60 Court Street
Auburn, Maine 04210

Mr. Brenchick:

I am writing on behalf of Jim Wu, a reputable business owner, landlord, developer and resident of Auburn. We have spent the last several weeks investigating the development potential of the 80 Lake Street School property and we are excited to express our interest in purchasing the property.

Please find below the terms and conditions of our offer:

Purchase Price: We propose a cash payment of $100,000.00 for the acquisition of 80 Lake Street School. In addition to the purchase price we pledge the immediate installation of a 60' x 40' *Center Stage* playground, valued at over $100,000, in the location of the previous playground on the property. This playground has already been purchased by Mr. Wu, as proof of our commitment to investing in the property and in recognition of the historic importance of the property to the community.

Proposed Use & Development: We propose to renovate the existing school building into ten to eleven, residential apartment units. The building will maintain the current historic high-quality façade. The units will be a mix of one and two-bedroom, market-rate apartments. A minimum of two parking spaces per unit will be maintained on the premises, as well as a couple dedicated parking stalls for playground patrons. Additional parking for playground patrons is available on Fern Street. A Public Easement will be granted to the City for the public's use of the playground.

In addition to the playground and dwelling units, we propose to construct a daycare facility on the 7 & 9 Fern St. parcels that come with the 80 Lake Street parcel. The facility will be small, maybe supporting one or two classrooms, but will still be a welcome addition to the community. The daycare will utilize the immediately adjacent playground. We propose restricting the public use of the playground during a set number of hours during the weekdays so that the daycare may have private use of the play area during those hours, similar to what the School had done in the past.

Direct public pedestrian access to the playground will be available from either public street. The playground will be fenced for safety reasons. Private pedestrian access to and from the apartments will be made available by paved walkways to both streets. Pedestrian and

vehicular access to the apartments and the daycare will be via the same curb cut off Fern Street.

Attached is a colorized site plan depicting these and other proposed improvements to the premises.

Identification of the Entities: The following consultants and contractors will provide their expertise on the project:

- Jim Wu (Developer)
- Tom Perkins – Dirigo A/E (Architect/Engineer)
- Barry J. Hosmer (Landscape Architect)
- Jeff Amos – Terradyn Consultants (Engineer)
- Jimmy Courbron - Terradyn Consultants (Land Surveyor)
- Clay McLafferty – K. R. Youland and Son (Contractor)
- Wu Management (Property Manager)

The above-listed team has worked together on many projects within the City of Auburn, including:

- 405 Center Street, Auburn (to be constructed)
- Stable Ridge Apartments (excluding Jim Wu)
- West Shore Landing (excluding Jim Wu & Barry Hosmer)

Jim Wu's portfolio of Businesses and properties include the following:

- Lotus Restaurant
- 114 Hampshire St. (four-unit apartments)
  https://www.apartments.com/114-hampshire-st-auburn-me/rthglh3/
- 122 Goff St. (twelve-unit apartments)
- 96 Second St, New Auburn (fourteen-unit apartments, old schoolhouse reno.)

Proposed Schedule: As stated, we are prepared to install the playground immediately upon acceptance of our proposal, and with the blessing of Parks and Recreation or the neighborhood citizens group. Planning, design and permitting for the rest of the project is anticipated to occur over fall of 2023/winter of 2024, with an anticipated start of construction of fall of 2024. Occupancy permits will be sought spring of 2025. This timeline is negotiable and can be accelerated if desired by the City or Neighborhood.

The project will likely be phased, with the renovation of the schoolhouse being the first phase and the construction of the daycare to follow immediately after completion of the schoolhouse renovation in Spring of 2025. An occupancy permit for the daycare will be sought six months later, in late fall of 2025.

We will not be seeking public assistance or financing for this project. The Developer is able to finance this project themselves. Please see the attached Letter of Financial Capacity for details.

Benefits of our Proposal: By purchasing 80 Lake Street School, we aim to provide a positive impact on the Lake Street community. The goal of our development will be to minimize as much as possible the impact the proposed change in use will have on the Lake Street community while also providing new housing units that the City critically needs.

By preserving the façade of the schoolhouse building, providing a similar use in the form of a new daycare facility, and by preserving a playground within the historic parcel, we believe our proposed development will honor the legacy of this historic property.

The proposed, higher-end residential units will compliment the character of the surrounding neighborhood, and the proposed landscaping and thoughtful layout of the site will beautify the area.

Ultimately, we believe the proposed development will add value to the community and help the City meet its housing and infrastructure needs.

Regards,

Jimmy C. Courbron, PLS

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023

Author: Jonathan P. LaBonte, Transportation Systems Director

Subject: Transportation Corridor Planning Studies (Washington Street and Minot Avenue/Union Street)

Information: The City Council, through the Comprehensive Plan, Strategic Plan, and workshop discussions, has directed staff to advance planning efforts to improve priority transportation corridors in growth areas of the city. More specifically, given the significant state and federal investment being made in infrastructure, Auburn wants to be position to secure that non-property tax funding to advance community needs. Two of those corridors, Washington Street and Minot Avenue/Union Street, have funding partnerships identified to initiate the studies and move forward. While the scope of work details are provided in the attached memo, here is a summary.

Washington Street from Exit 75 to just south of the rotary is idenfitied in the comprehensive plan to have the southbound side converted to a two-way controlled access highway (similar to a Turnpike spur) with northbound Washington Street converted to a two-way local street that will accommodate all modes of transportation as a "complete street". City staff have secured a vote from the Androscoggin Transportation Resource Center, with supports from MaineDOT, for an allocation of Federal Highway Administration planning funds to conduct the evaluation.

Minot Avenue, from the town line to and including the Union Street By-pass, has along been identified as a dangerous corridor from a crash perspective, for active transportation access (walking, biking), and for sections lacking compatibability with community quality of life (school zones, in efficient alternative to Court Street, limits to redevelopment at sites like the Lunn-Sweet Shoe Shop (The Barn). City staff have secured MaineDOT's support for a Planning Partnership Initiative, with the goal of completing a study and then partnering with MaineDOT to seek Bi-partisan Infrastructure Law (BIL) funds for implementation. MaineDOT would fund 50% of the study up to $100,000.

City Budgetary Impacts: Use of a portion of already allocated ARPA Funds (up to $100,000 to match MaineDOT funds)

Staff Recommended Action: Council support to continue forward with initiating studies

DATE: September 18, 2023
RE: Transportation Corridor Plans

BACKGROUND

With existing policies adopted through the Comprehensive Plan, Strategic Plan, and city ordinance, along with City Council discussions, city staff have been pulling together detailed scopes of work for two significant corridor studies; Washington Street and Minot Avenue/Union Street. While there are other areas that will be assessed for improvement, with associated funding strategies, these two corridors were prioritized given the existing safety and mobility challenges, and their misalignment with community development goals and quality of life for adjacent neighborhoods.

Through the assistance of AVCOG and MaineDOT staff, and support from the city of Lewiston, we have secured a vote of ATRC to allocate Federal Highway Administration planning funds for the Washington Street corridor project. This corridor is the primary north-south movement for not only western Maine, but the downtown residential and business districts of both cities.

For the Minot Avenue/Union Street study, we are collaborating with MaineDOT and their Planning Partnership Initiative. The City Council, through an allocation of $300,000 for Small Area Master Plans, provided the matching funds necessary to drawn down up to $100,000 from MaineDOT. We project needing $100,000 from the Small Area Master Plan allocation to match each MaineDOT dollar.

On the two pages that follow, you will see a summary of the scope and purpose for these two studies and a map of the study area. Each process, which we hope to initiate this fall through RFPs, will have extensive public involvement and cross-agency engagement (multiple city departments, state/federal partners, etc). The intent is that each process will deliver recommendations, along with public support, to secure federal implementation funding.

Androscoggin Transportation Resource Center
City of Auburn, Washington Street Corridor Transportation Study

Scope of Work

Introduction
The Androscoggin Transportation Resource Center (ATRC) is conducting a feasibility study to identify corridor capacity and mobility of Washington Avenue in Auburn. The study area includes Washington Avenue (Maine Routes 202N/S) from a point south of Allied Road near the Maine Turnpike Exit 75 interchange to a point north of Brickyard Circle near the "rotary" intersection with Minot Avenue. This area of Washington Avenue includes a separated highway with two lanes of controlled access southbound and two lanes of free access highway northbound for a span of approximately three miles.

Major highway infrastructure recommendations are anticipated to be limited to Washington Street southbound. However, recommendations related to access management, frontage roads, changes to lane configurations, and traffic signal modifications may extend to areas within a reasonable distance from Washington Avenue depicted in the illustration below.

Purpose and Need
The purpose of this study is to understand the current capacity of Washington Avenue and to identify what improvements will be necessary to convert the southbound lanes into two-way, two-lane access; and to determine for how long two-way traffic will be sufficient and develop high-level four-lane concepts with intersections with the northbound section (two) and Rodman Road (one).

Northbound – Purple

MaineDOT Planning Partnership Initiative

City of Auburn, Washington Street Corridor Feasibility Study

Introduction

The City of Auburn in collaboration with the Maine Department of Transportation (MaineDOT) is undertaking a Minot Avenue Corridor Study in Auburn, ME. Minot Avenue in Auburn is an approximate 5.2-mile corridor that begins at the Court Street/ Union Avenue Intersection in the heart of downtown Auburn and ultimately continues through Minot and Mechanic Falls to Route 26 in Oxford. Depending on location, Minot Avenue may also be Route 121, 11, 202, 100 and 4. Minot Avenue provides for east-west connectivity, Maine Turnpike I-95 access, local traffic including access to multiple schools, commuters, connections to recreational areas and through traffic. It is a MaineDOT Highway Corridor Priority 1 or 2.

This study's purpose is to improve safety and accessibility for all transportation modes on and adjacent to Minot Avenue by making the best practical use of primarily existing right-of-way while improving or at least maintaining acceptable Levels of Service. This study will also consider planned and potential land use changes on the corridor and the City's economic development goals. Recommendations will be short and long-term and consider economies of scale associated with planned and future highway paving projects. Since a study goal includes utilization of Minot Avenue for through traffic as opposed to Court Street, the study team assumes there will be analysis and recommendations on Court Street too.

Study Area and Scope of Work

The feasibility study will identify deficiencies for all transportation modes utilizing Minot Avenue in the study area and recommend an improvement plan that could be phased over several years. It will collect existing data and conduct an analysis of potential strategies to improve safety and accessibility along the corridor without substantial widening of Minot Avenue. Study recommendations are expected to consider but not be limited to changes to access management, including center medians where appropriate, new lane configurations, including lane reductions, intersection improvements and/or traffic signal modifications and active transportation modes.

City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023

Subject: Executive Session

Information: Real estate matter, pursuant to 1 M.R.S.A. Section 405(6) (C).

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Council Meeting Date: September 18, 2023 **Order:** 123-09182023

Author: Jason D. Moen, Chief of Police

Subject: Transfer of Forfeiture Assets – Matthew St. Hilaire

Information:

ln September of 2020, Auburn Police Officers Nicholas Kyllonen and Andrew Jarman were assigned to the DEA High Intensity Drug Trafficking Areas task force and Maine Drug Enforcement Agency. They were investigating drug trafficking from an apartment on Lake Street in Auburn. With the assistance of a patrol officer, they conducted a traffic stop on a suspect vehicle in which Matthew L. St. Hilaire was the operator. The officers developed information during the investigation that the occupants of the vehicle were trafficking illegal narcotics. While conducting a search of the vehicle, the officers found St. Hilaire in possession of 0.98 grams of cocaine base, 5.429 grams of cocaine HCL, 9 grams of suspected heroin/fentanyl, 0.2 grams of methamphetamines, 100 Xanax pills, $1,896 in cash and other drug paraphernalia. St. Hilaire was charged with aggravated trafficking schedule W drugs Class B, unlawful trafficking schedule Z drugs Class D, unlawful possession of heroin/fentanyl Class C, unlawful possession of scheduled W drugs Class C, and unlawful possession of scheduled Z drugs, Class E.

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $1,896.00 U.S. Currency to the Auburn Police Department. Funds will be used for ongoing K-9 expenses.

Staff Recommended Action: Vote to accept the transfer of $1,896.00

Subject: Transfer of Forfeiture Assets – Ryan M. Poulin

Information:

ln August 2019, Auburn Police Officer Kenneth Jones conducted a traffic stop in which Ryan M. Poulin was the operator. Officer Jones developed information during the investigation that the occupants of the vehicle were trafficking illegal narcotics. While conducting a search of the vehicle, Officer Jones found Poulin in possession of 15 grams of fentanyl, 2.6 grams of methamphetamine, 265.3 grams of hashish, 177 vials of hashish, digital scales, $2,114 in cash and other drug paraphernalia. Ryan Poulin was charged with unlawful trafficking scheduled W drugs Class B, unlawful trafficking schedule X drugs Class C, unlawful possession of fentanyl Class C, unlawful possession of methamphetamine Class C, and unlawful possession of schedule X drugs Class D.

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $2,114.00 U.S. Currency to the Auburn Police Department. Funds will be used for ongoing K-9 expenses.

Staff Recommended Action: Vote to accept the transfer of $2,114.

Author: Jason D. Moen, Chief of Police

Subject: Transfer of Forfeiture Assets – Gerald Burnsworth

Information:

In September of 2022, Auburn Police Officer Andrew Jarman and Derek Drouin were following up on a tip that Gerald Burnworth was in the area of Cumberland Farms in a particularly described Jeep. Burnsworth was wanted in connection to a shooting that occurred in Lewiston. The officers located the Jeep and Burnsworth on Northern Avenue Heights. Burnsworth was taken into custody and in the Jeep where he was seated officers located 12.64 grams of cocaine, 6.2 grams of cocaine HCL, 7.87 grams of suspected fentanyl, 2.75 grams of suspected methamphetamines, drug ledgers, other drug paraphernalia, and $1,421 in cash. Burnsworth was charged with aggravated trafficking scheduled drugs Class A, unlawful trafficking scheduled drugs Class B (three counts), unlawful possession of cocaine Class C, unlawful possession of methamphetamine Class C, and unlawful possession of fentanyl Class C.

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $1,421.00 U.S. Funds will be used for ongoing K-9 expenses.

Author: Jason D. Moen, Chief of Police

Subject: Transfer of Forfeiture Assets – Andrew M. Deam, Jr.

Information:

In June of 2022, Auburn Police Officer Andrew Jarman executed a search warrant at an apartment on Sixth Street and Auburn, searching for Andrew M. Deam Jr. who had a warrant for his arrest. Officer Jarman located Deam in the residence and took him into custody. When Deam was located, it appeared he weas actively overdosing. Deam was on conditions of bail and was subject to search. While Officer Jarman transported Deam to the hospital, the other officers on scene conducted a search pursuant to Deam's bail conditions. Officers located 3 grams of fentanyl, half a Xanax pill, digital scales, and $557 in cash. Andrew M. Deam Jr. was later charged with aggravated trafficking scheduled W drugs Class A.

City Budgetary Impacts: The State of Maine, Office of the Attorney General, seeks to transfer $557.00 U.S. and Currency to the Auburn Police Department. Funds will be used for ongoing K-9 expenses.

IN COUNCIL REGULAR MEETING SEPTEMBER 5, 2023, VOL. 37 PAGE 72

Mayor Levesque called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

7:00 P.M. City Council Meeting

Pledge of Allegiance

I. **Consent Items** – All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.

1. **Order 113-09052023***
Approving the renewal of an Auto Graveyard/Junkyard permit for Randy's Auto, 899 Broad St.

2. **Order 114-09052023***
Approving the renewal of an Auto Graveyard/Junkyard permit for M&P Auto, Inc., 227 Merrow Rd.

3. **Order 115-09052023***
Approving the renewal of an Auto Graveyard/Junkyard permit for Don's No Preference Towing, dba Morris Auto Parts, 940 Washington St. North.

4. **Order 116-09052023***
Approving the renewal of an Auto Graveyard/Junkyard permit for Prolerized New England Company, LLC., 522 Washington St. North.

5. **Order 117-09052023***
Approving the renewal of an Auto Graveyard/Junkyard permit for Isadore T. Miller, 79 & 80 Hotel Rd.

Councilor Staples requested that items #1 and #3 be removed from the Consent Agenda and placed under New Business.

Motion was made by Councilor Staples and seconded by Councilor Whiting for passage of the three remaining consent items.

Passage 7-0.

II. **Minutes** - August 21, 2023, Regular City Council Meeting

Motion was made by Councilor Walker and seconded by Councilor Staples to approve the minutes of the August 21, 2023, Regular City Council meeting.

Passage 7-0.

III. **Communications, Presentations and Recognitions**

- Council Communications (about and to the community)

Councilor Staples reported on the meeting with Casella (Waste Systems) adding that it was a productive meeting.

Mayor Levesque provided an update on recycling and handed out a memorandum regarding curbside recycling which states the following:

I recently requested a meeting with the City of Auburn's recycling vendor, Casella, to discuss the effectiveness of our city's recycling program. City administration and department heads, along with Councilor Staples, were also invited and participated in the conversation. We discussed both our historic bi-weekly curbside pick-up and current consolidated program with the goal of gathering information on recyclable items - where they go and to what extent our recycling is actually benefiting the environment once we factor in variables such as contamination, freight omissions, and off-gassing.

During this process, we identified some issues with our historic and current single- stream recycling program, from high contamination rates, to lack of commodity market for certain items commonly placed into the recycling bin, to a lack of general knowledge on participation and efficacy of Auburn's recycling initiatives. These missing data points will be essential in helping the City Council - with the assistance of the Sustainability and Natural Resource Management Board – to make appropriate decisions when a new recycling contract is being considered early in 2024 and to determine the programs overall benefit to our environment.

I am, therefore, proposing to the City Council a limited pilot recycling program that would have the following components:

1. ***Re-introduction of curbside recycling to select parts of the city, with a mix of urban and rural areas.***
2. ***Increased pick up in those areas, from bi-weekly to weekly.***
3. ***Definition of exactly what should be put into single-stream recycling. For example, glass should go into household trash, and some plastics should not be placed in recycling bins.***
4. ***In partnership with Casella, increased public education on what goes into recycling and how to prevent contamination, such as making sure residents are covering their recycling to prevent moisture, and if that is not possible, holding onto it until the following week.***
5. ***Launch of a Casella mobile app to help participating households understand what should and should not be recycled.***
6. ***Distribution of Auburn-specific direct mail educational pieces produced by Casella.***
7. ***Periodic reporting of data collected by Casella, to include recycling program participation by household, and percentage of overall waste collected.***
8. ***Retaining the centralized drop-off containers located at Public Works for those who are not part of the pilot program and remain in the control group.***

By creating a new best practice pilot program with a statistically relevant sample size of participants, we can more effectively gather data on efficacy, participation, contamination, and more. If done correctly, this could become the standard model to use throughout the region, therefore influencing the recycling and re-using efforts (incineration to produce energy is a re-

use) in surrounding communities.

The cost of this pilot program should not exceed the already budgeted and set aside amount for recycling for this current financial year, details to be worked out prior to, and made available to the Council during its deliberations on September 18, 2023.

Our goal is simple and remains consistent: To ensure that Auburn's government and residents are effective in their efforts to enhance global health and sustainability of natural resources using educated decision making based on quantifiable results. The decision to add or modify a city program lies with the City Council, not with the Mayor or staff, and it is my hope that implementing a short-term option will bring forth the information needed for educated decision-making during next year's budget deliberations.

City Staff will prepare specifics on the pilot program and will provide details and an order for you to consider at our next meeting.

IV. Open Session

Art Dingley, 512 Danville Corner Road, spoke regarding recycling.

Caroline Davidson, Danville Corner Road, also spoke regarding recycling.

V. Unfinished Business - None

VI. New Business

Orders 113-09052023* and 115-09052023* below were removed from the Consent Agenda and placed under New Business.

Order 113-09052023*
Approving the renewal of an Auto Graveyard/Junkyard permit for Randy's Auto, 899 Broad St.

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public comment – No one from the public spoke.

Passage 6-1 (Councilor Gerry opposed). A roll call vote was taken at the request of the Mayor.

Order 115-09052023*
Approving the renewal of an Auto Graveyard/Junkyard permit for Don's No Preference Towing, dba Morris Auto Parts, 940 Washington St. North.

Motion was made by Councilor Hawes and seconded by Councilor Morin for passage.

Public comment – No one from the public spoke.

Motion was made by Councilor Milks and seconded by Councilor Whiting to postpone until the October 16, 2023, City Council meeting.

Passage 7-0.

1. **Order 118-09052023**
Authorizing the City Manager to execute a real estate transaction to swap City owned parcel 271-100-000 for privately held parcel 261-056-002.

Motion was made by Councilor Gerry and seconded by Councilor Walker for passage.

Public comment – No one from the public spoke.

Passage 7-0.

2. **Ordinance 11-09052023**
Approving the text amendment to the Auburn Code of Ordinances, Sec. 60-548B – Front Setback, Principal for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2023. **Public hearing and 1st reading.**

Motion was made by Councilor Milks and seconded by Councilor Staples for passage.

Public hearing – Stephen Beal, 575 Johnson Road, stated that he supports staffs position on this proposal (opposed).

Failed 0-7. A roll call vote was taken.

3. **Ordinance 12-09052023**
Approving the text amendment to the Auburn Code of Ordinances, Sec. 60-548B ,T-4.2B Sec. 60-54B Intent and Purpose, Sec. 60-54B.1, Building Placement on Lot, Frontage Buildout, 3. Sec 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. **Public hearing and 1st reading.**

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public hearing – John Cleveland, 183 Davis Avenue, spoke regarding the language in this proposal, adding that he would like to see it removed until after the court proceeding.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

4. **Ordinance 13-09052023**
Approving the zoning map amendment T-4.2B & C/OS "Area A1". **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – Robert Hayes, 172 Allen Avenue, spoke and said he would like to see the Council table this to allow more public discussion.

Passage 4-3 (Councilors Walker, Gerry, and Whiting opposed). A roll call vote was taken.

5. **Ordinance 14-09052023**
Approving the zoning map amendment T-4.2B & C/OS "Area A2". **Public hearing and 1st reading.**

Motion was made by Councilor Milks and seconded by Councilor Morin for passage.

Public hearing – Dee Chapman, 40 Vivian Street, asked that all of area A2 be removed. She spoke regarding LD2003. She also asked the Council to slow down on the changes.

Mike Adler, 82 Loring Avenue, stated that the rezoning has to stop and leave the neighborhood as it is.

Bob Hayes, 172 Allen Avenue, spoke regarding regarding being called to participate in meetings on T-4.2.

Bruce Rioux, Mary Carroll Street, stated the issue he has with changes to zoning map is that it seems like these zone changes are inviting developers from other areas, and will not be owner occupied. He asked that the Council slows down on the zoning changes and maybe spot zoning is what we should look at.

Failed 0-7. A roll call vote was taken.

6. **Ordinance 15-09052023**
Approving the zoning map amendment T-4.2B "Area C". **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – Bob Hayes, 172 Allen Avenue, stated that form-based planning should be built on neighborhood characteristics and the Planning Board should have been given time to reach out and engage with the public. He said he questions our future when looking at property values.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

7. **Ordinance 16-09052023**
Approving the zoning map amendment T-4.2B "Area D". **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – No one from the public spoke.

Passage 5-2 (Councilors Gerry and Whiting opposed). A roll call vote was taken.

8. **Ordinance 17-09052023**
Approving the Zoning Ordinance text amendments (Proposal B1) – Amend Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations, Division 2-Agriculture and Resource Protection District. **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Morin for passage.

Public hearing – Stephen Beal, 575 Johnson Road spoke regarding the process, he is in favor of the proposed amendment.

Motion was made by Councilor Staples and seconded by Councilor Walker to strike #6 from the Order to add "or 400 feet, whichever is less" to Sec. 60-146(3)(c) after the word "lot"." Which was not recommended by the Planning Board.

Passage 6-1 (Councilor Milks opposed).

Passage as amended 6-1 (Councilor Milks opposed). A roll call Vote was taken.

9. **Ordinance 18-09052023**
Approving the Zoning Ordinance text amendments (Proposal B3) – Amend Sec. 60-145 and Sec. 60-146 of Article IV, District Regulations, Division 2, Agriculture and Resource Protection District. AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor Pond watershed. **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Walker for passage.

Public hearing – No one from the public spoke.

Failed 0-7. A roll call vote was taken.

10. **Ordinance 19-09052023**
Approving the AGRP text amendments (Proposal B2) Planning Board proposed change number ten to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years. **Public hearing and 1st reading.**

Motion was made by Councilor Staples and seconded by Councilor Hawes for passage.

Public hearing – Stephen Beal, 575 Johnson Hill Road, supports staff's recommendation opposing this proposed amendment.

Failed 0-6 (Councilor Walker was not in the room for the vote). A roll call vote was taken.

11. Order 119-09052023
Authorizing the proposed Public Safety Building to be placed on a referendum ballot and submitted to the voters of Auburn at the November 7, 2023, Election.

Motion was made by Councilor Whiting and seconded by Councilor Morin for passage.

Public comment – Andy Titus, Rubelite Lane, was on the committee when this was talked about two years ago and he thought there would be more discussion on this. He also spoke regarding the tax impact if this passes. He would like more discussion before this goes to referendum.

Passage 6-1 (Councilor Gerry opposed).

12. Order 120-09052023
Allocating $5,700 out of the American Rescue Plan Act (ARPA) funds for Literacy Volunteers, Androscoggin.

Motion was made by Councilor Gerry and seconded by Councilor Morin for passage.

Public comment – No one From the public spoke.

Motion was made by Councilor Gerry and seconded by Councilor Staples to double the amount by increasing it from $5,700 to $11,400.

Failed 1-6 (Councilors Whiting, Hawes, Milks, Morin, Walker, and Staples opposed).

Passage of original motion 7-0.

13. Order 121-09052023
Authorizing the City Manager to execute the purchase and sales agreement of 80 Lake Street (PID 239-114), 7 Fern Street (PID 239-113), and 9 Fern Street (PID 239-112).

Motion was made by Councilor Gerry and seconded by Councilor Staples for passage.

Public comment – No one from the public spoke.

Passage 7-0.

VII. Open Session – Corey Wallace, 93 Gamage Avenue, asked about 67 Minot Avenue and wondered if there have been any updates on that structure. He said he could see this as a non-profit housing unit.

VIII. Reports (from sub-committees to Council)

Mayor Levesque, announced that the Blues and Brews Festival will be held on September 9th; there is new college housing in our downtown where the Value Inn used to be on Center Street; last week he met with the Governor's staff on infrastructure law and more; and the

School Committee will be meeting on Wednesday; and last, the he reported on the open house at the new Edward Little High School.

Councilor Staples also commented on the Edward Little High School open house.

Councilor Walker also commented on the Edward Little High School open house and was looking for the big plaque but could not find it.

Councilor Morin stated that he also attended the Edward Little High School open house. He added that if anyone is looking for a rewarding opportunity, they can donate their time and volunteer with Literacy Volunteers.

Councilor Gerry also reported on the Edward Little High School open house.

City Manager Crowell reported on the partnership with school and city to rehab the tennis courts at the East Auburn School, the project is complete. The grand opening will be on Monday. They can also be used for Pickleball. PAL movie night was held last Friday, 100 people attended, and he encouraged the Council and the Public to listen to our new Podcast called Absolutely Auburn. There are 4 episodes out at this time.

IX. Executive Sessions - None

X. Adjournment

Motion was made by Councilor Hawes seconded by Councilor Morin to adjourn.

Unanimously approved and the meeting adjourned at 9:03 pm.

A TRUE COPY ATTEST Susan Clements-Dallaire

Susan Clements-Dallaire, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 11-09052023

Author: Katherine Cook, Planning Coordinator

Subject: Consider a proposed text change to Sec. 60-548B-*Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2023.

Information: This text amendment to Sec. 60-458B- Front Setback, Principal was initiated by a citizen's petition which asks to codify the interpretation of where to measure the front setback from. This language addition is consistent with the comprehensive plan, but staff suggests a few additional changes to T-4.2B including amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration T-4.2B to decrease the minimum frontage buildout for residential lots. Because staff recommends additional changes to the text of the zone in conjunction with what the petition proposed, amending the ordinance with each of these changes included is preferable.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council vote **not to approve** first reading of the petition-initiated amendment to T-4.2B. Staff recommends instead to consider the changes that are presented as the next item in the Council packet.

Previous Meetings and History: July 7, 2023- Planning Board Public Hearing and vote to table until the next meeting; August 8, 2023- Planning Board Public Hearing and recommendation to not amend the ordinance as described. Public hearing and first reading on 9/5/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Recommendation to City Council, Planning Board Staff Report, draft amendment to Sec. 60-549, signed and notarized citizen petition, Draft Ordinance 11-09052023.

From: Auburn Planning Board

RE: Planning Board recommendation to City Council on a citizen petition-initiated zoning text amendment affecting T-4.2B.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a proposed text change to Sec. 60-548B-*Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen Petition submitted on June 12, 2013. This item is pursuant to Chapter 60, Article XVII, Division 2-Amendment to the Zoning Ordinance or Zoning Map. This item was tabled at the July 11, 2023, meeting.

MOTION: Evan Cyr; Second: David Trask.

"I make a motion to recommend that the Council not amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023." **VOTE**: Motion passes 7-0-0.

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210 www.auburnmaine.gov | 207.333.6601

To: Auburn Planning Board
From: Katherine Cook, Planning Coordinator
Re: Staff Report: Petition to amend T-4.2B zoning text
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and subsequently tabled by the Planning Board to a date certain (August 8th, 2023) on the July 11, 2023 Planning Board meeting. This item is pursuant to Chapter 60, Article XVII, Division 2- Amendment to the zoning ordinance or zoning map.

II. Background: Amendments to the zoning ordinance, including the zoning map, may be initiated by the Planning Board on its own initiative or upon request by the City Council or by a petition signed by not less than 25 registered voters of the city (Ord. of 9-21-2009, Sec. 8.1A) Zoning map and text changes may be appropriate where the serve to support the goals of the Comprehensive Plan.

Staff currently understands that front setbacks in T-4.2B zoning districts may be measured from shared accessways, private ways, and shared parking areas. This petition seeks to clarify this understanding by adding the underlined language to Sec. 60-548B as follows: "Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of the principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. **Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.**"

This language addition is consistent with the comprehensive plan, but staff suggests a few additional changes to T-4.2B including amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration T-4.2B to decrease the minimum frontage buildout for residential lots.

In the petition's explanation, the circulator intends for the added language confirming setback interpretation to be applied to the approval of past projects to this point, and notwithstanding M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects. Staff acquired legal counsel on the intention for this language change to apply retroactively, and as such, recommends that the Board not consider retroactive because the language was not included in the petition for the amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B.

Planning Board Action: Staff suggests planning board forward a negative recommendation to Council on the proposed text change to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023 and recommend that they not consider the retroactive language suggested in the description of the petition.

III. Suggested Reasons and Finding of Fact:

1. The applicant submitted rezoning petitions and signatures, Text with public Notice, on June 12, thus meeting submission standards (Sec. 60-1446).
2. The text amendment is consistent with the current comprehensive plan and the intent of the existing ordinance text and diagrams.
3. The text and intent of the petition can be clarified in a different way and the Board will review that later this evening.

V. Suggested Motion: I make a motion to recommend that the Council not amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B as shown in the Citizen's Petition submitted June 12, 2023.

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

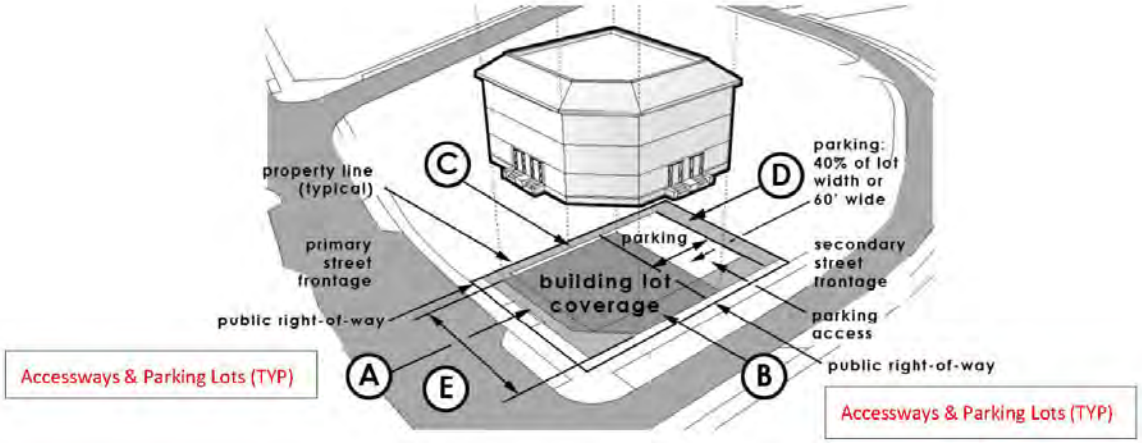
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

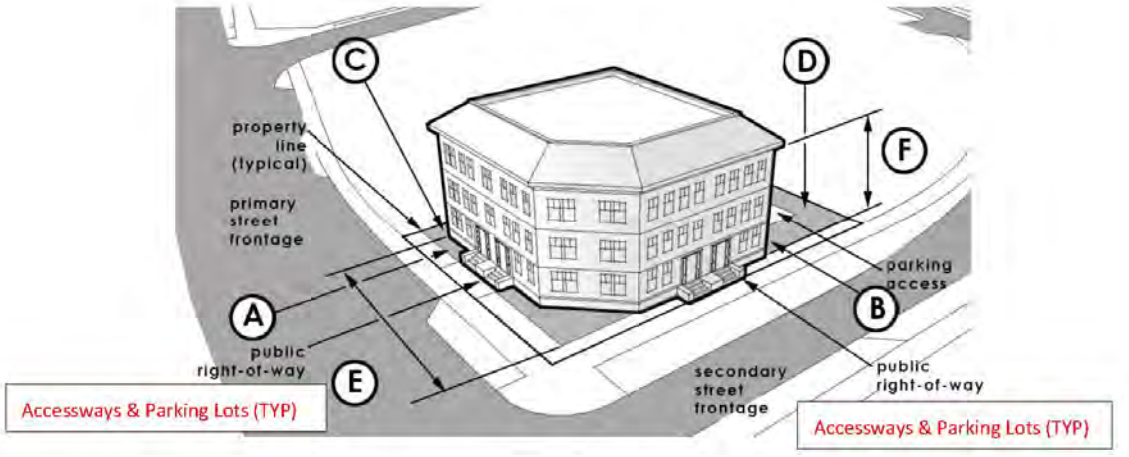
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



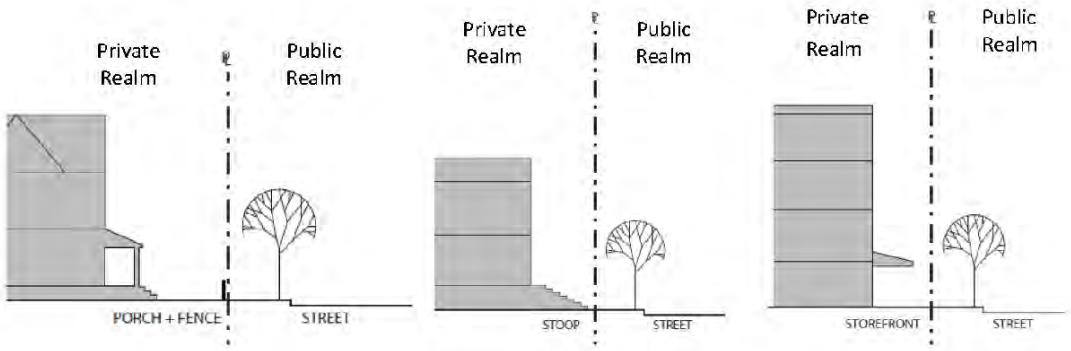
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

REZONING PETITION

We, the undersigned registered voters of the City of Auburn, do herein petition the City of Auburn to amend the City of Auburn Zoning Ordinance to add clarity. The proposed change includes an amendment to change the text in the asterisk (*) to Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B . *Front Setback, Principal* for Traditional Neighborhood T-4.2B to add the underlined language as follows

PRINCIPAL BUILDING PLACEMENT:		
Front Setback, Principal:	5 ft. Min/, 25 ft. Max*	(A)
(Corner Lot) Front Setback, Secondary:	5 ft. Min., 15 ft. Max.	(B)
Side Setback:	5 ft. Min.	(C)
Rear Setback:	10 ft. Min.	(D)
Building Lot Coverage:	70% Max.	
Useable Open Space:	10% Min.	
Frontage Build-Out:	60% Min (along Front Setback, Primary)	
Lot Width:	24 ft. Min, 120 ft. Max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building Width:	14 ft. Min., 110 ft. Max.	(E)
Building Height Minimum:	1 Story Min.	(F)
Building Height Maximum:	3 Story Max.	(F) (excluding attic story

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian access way or parking area.

Explanation: One of the primary tests of a zone change is its conformance with the Comprehensive Plan. GROWTH AREAS Type A [Residential] The Traditional Neighborhood Development (TND) District requires that new development be designed to minimize the number of vehicular access points to existing collector or other roads; shared driveways are encouraged; and dimensional standards be established that relate to the size and width of the lot. A copy of that Comprehensive Plan section is attached and marked as Exhibit A. The City has adopted the T-4.2B zoning district to meet the goals of the TND District in the Comprehensive Plan by encouraging the use of shared driveways and limiting vehicular access points to Collector roadways, the new Ordinance was intended to allow for front setbacks in the T-4.2B district to be measured from Access Ways and Parking areas on internal, shared access points. This amendment clarifies the existing text to advance the shared access point objectives of the Plan; confirms the interpretation of the dimensional requirements of the T-4.2B zoning district adopted by the planning board in its approval of projects to date; and notwithstanding 1 M.R.S. § 302 is intended to apply retroactively to all pending proceedings, without requiring any remand for re-approval by the Board for its implementation to approved projects.

Exhibit A

In addition to the Future Land Use Map, four detail maps ([redacted]) show the future land use designations for specific portions of the community, including Downtown, New Auburn, Minot Avenue, and Center Street.

FUTURE LAND USE PLAN VISION STATEMENT:

As a model of carefully managed growth, Auburn seeks to **grow outward from the historic cores within our city** and be known for its **strong, vibrant neighborhoods**. The city is committed to making careful, effective, and **efficient use of land and corresponding services, while strengthening the character of our neighborhoods**, ensuring that resources exist to maintain and enhance the quality of life for current and future residents. Auburn's continued commitment to **strong community connections**, embracing opportunity, and mindful growth should be **balanced with natural resource conservation** and woven into the city's unique identity.

1. GROWTH AREAS –

Type A: Development Areas
Designation: Residential

TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT (TND)

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre in areas that are served or can be served by public/community sewerage and public/community water ([redacted]). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update ([redacted]). The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 10 feet. Side and rear setbacks should

be 5-15 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

SUBURBAN DEVELOPMENT DISTRICT (SD)

Objective – Allow for the development of a limited range of residential and community uses at a density of up to 6-8 units per acre in areas that are served or can be served by public/community sewerage and/or public/community water (see Figure 2-5). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Suburban Development District generally follows the boundaries of the Multifamily Suburban and Suburban Residential Zoning Districts, in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Suburban Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Recreational Uses of Land
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 8 units per acre with no minimum road frontage required, shared driveways are encouraged. In general, the minimum front setback should be 10 feet. Side and rear setbacks should be 5-20 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot.

Designation: Nonresidential and Mixed Use

FORM-BASED CODE DEVELOPMENT DISTRICT (FBCD)

Objective – Stabilize and promote continued investment in the City's high-density neighborhoods which include a mix of housing types including multi-unit buildings to assure that they remain safe, attractive areas in which residents want to live (see Figures 2-3 and 2-4). To this end, the district should allow property owners to upgrade their properties, and for infill development and redevelopment/reuse to occur, as long as it is compatible with the character of the neighborhood.

Allowed Use – The Form-Based Code Development District generally follows the boundaries of the Form-Based Code (Transects 4.1, 4.2, 5.1, 5.2 and 6), in effect at the time of the 2021 Comprehensive Plan update (see appendix). The following general types of uses should be allowed within the Form-Based Code Development District:

- Low and High Density Residential Dwelling Units
- Home Occupations
- Civic Uses
- Office/Service Type Uses
- Retail Type Uses

Development Standards – The reuse/reconfiguration of existing buildings for residential purposes should be allowed without consideration of density/lot size requirements, provided that

ORDINANCE 11-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend to Sec. 60-548B- *Front Setback, Principal* for Traditional Downtown Neighborhood T-4.2B, specifically adding an asterisk (*) to the Table of PRINCIPAL BUILDING PLACEMENT, *Front Setback, Principle for Traditional Neighborhood T-4.2B* and adding the following underlined language to the same section: "Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback shall be measured from the private access drive, pedestrian accessway or parking area."

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 12-09052023

Author: Katherine Cook, Planning Coordinator

Subject: Consider a proposed text change to Sec. 60-548B, T-4.2B 1.) Sec. 60-54B Intent and Purpose, 2.) Sec. 60-548B.1, building placement on lot, frontage buildout, 3.) Sec. 548B.2 common or porch yard stoop yard frontage storefront type, building envelope articulation, ground and upper story building façade.

Information: On July 7, 2023, The Planning Board help a public hearing on a citizen petition-initiated change to T-4.2B which sought to further define how to measure front setbacks. At this time, staff suggested that there are other elements of the ordinance in addition to adding language to Sec. 60-5480-Front Setback, Principal. Specifically, that there should be more flexibility and simplicity in applying the ordinance to single family and two-family homes. This proposed amendment offers language to clarify the point from which one may measure front setback on their property, and reduce the frontage buildout restrictions on single family, and two-family homes, and dwellings with an accessway that is shared by more than one structure. Staff is recommending these changes because it is plausible that such restrictions, if they remain, could cause undue burden to a smaller developer, and hinder the goals to reduce access points onto public streets.

City Budgetary Impacts: None.

Staff Recommended Action: Staff recommends that the Council adopt the first reading of the attached amendments to T-4.2B.

Previous Meetings and History: July 7, 2023- Planning Board initiated request to consider additional amendments to T-4.2B following the T-4.2B citizens petition that was tabled at this same meeting; August 8, 2023- Planning Board Public Hearing and recommendation to amend the ordinance as described. Public hearing and 1st reading on 9/5/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Planning Board recommendation to City Council on a staff0-recommemnded amendments to T-4.2B text.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a proposed text change for Sec. 60-548B, T-4.2B pursuant to Chapter 60, Article XVII, Division 2- Amendment to the zoning ordinance 1.) Sec. 60-54B Intent and Purpose, 2.) Sec. 60-548B.1, building placement on lot, frontage buildout, 3.) Sec. 548B.2, common or porch yard stoop yard frontage storefront type, building envelope articulation, ground and upper story building façade.

MOTION: David Trask; Second: Evan Cyr.

"I make a motion to recommend that the City Council approve the proposed ordinance amendment(attached), including amendments to:

1) Sec. 60-548B- 1. Intent and Purpose "setback",

2) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout for commercial and multi-family and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.,

3) Sec. 548B.2, Building Frontages T4.2B Table as shown on the attached Ordinance Amendment Document.

4) Amendment to the note (*) in the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area. (As shown in the attached Ordinance Amendment Document)"

VOTE: Motion passes 6-1-0.

Re: Staff Report: Staff Recommendation Text Amendments to T-4.2B to Add Clarity
Date: August 8th, 2023

I. Public Hearing/ Zoning Text Amendment: Consider a proposed text change to Sec. 60-548B- 1.) Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. 4.) amend (*) the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. *Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B.

II. Background: Staff currently understands that additional clarity is desired for the text of the T-4.2B Zoning District. The current text of the T-4.2B form-based codes does not differentiate between residential single-family homes, development of small infill lots and special exception/subdivision development of larger lots. Some clarification is recommended that effects frontage buildout, setback measurements and general clerical items.

Staff suggests that the Board consider language similar to the previous petition in addition to amending Sec. 60-548B.2- Building frontages to allow for greater flexibility for single family homes and duplexes and amending Sec. 60-548B.1- Building placement and configuration to decrease the minimum frontage buildout for residential lots. The proposed language and changes are attached. Staff recommends that the Planning Board hold a Public Hearing, and vote on the amendments to the zone.

Planning Board Action: Staff suggests planning board hold a public hearing and vote to recommend approval of the ordinance amendments(attached).

III. Suggested Reasons and Finding of Fact:

1. The text amendment is consistent with the current comprehensive plan.
2. The proposed text amendment clarifies the intent of the existing ordinance and encourages shared access ways for multiple buildings to minimize curb openings on public streets.
3. The amendment modifies the T4.2B text to allow additional flexibility and simplify permitting for one and two-family homes.

V. Suggested Motion: I make a motion to recommend that the City Council approve the proposed ordinance amendment(attached), including amendments to:

1) Sec. 60-548B- 1. Intent and Purpose “setback”,

2) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout for commercial and multi-family and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.,

3) Sec. 548B.2, Building Frontages T4.2B Table as shown on the attached Ordinance Amendment Document.

4) Amendment to the note (*) in the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B. Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal - Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(As shown in the attached Ordinance Amendment Document)

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment~~,~~ and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building ~~set-backs~~setbacks~~-~~ form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Illustrative View of T-4.2B

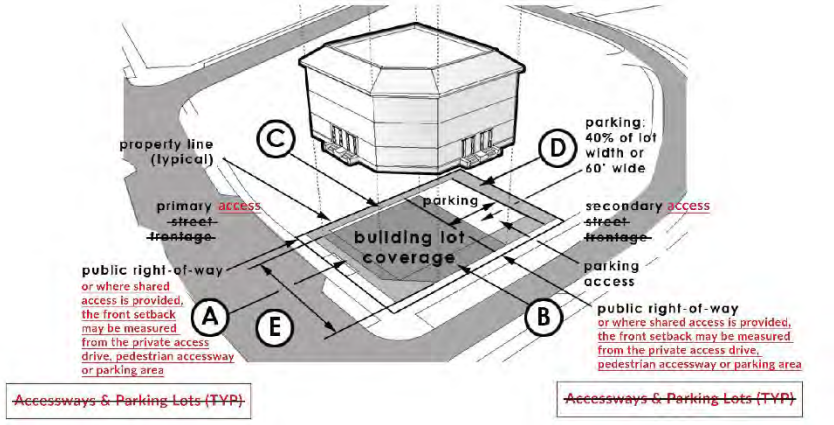
Sec.60-40(b) Table update

Characteristic Features

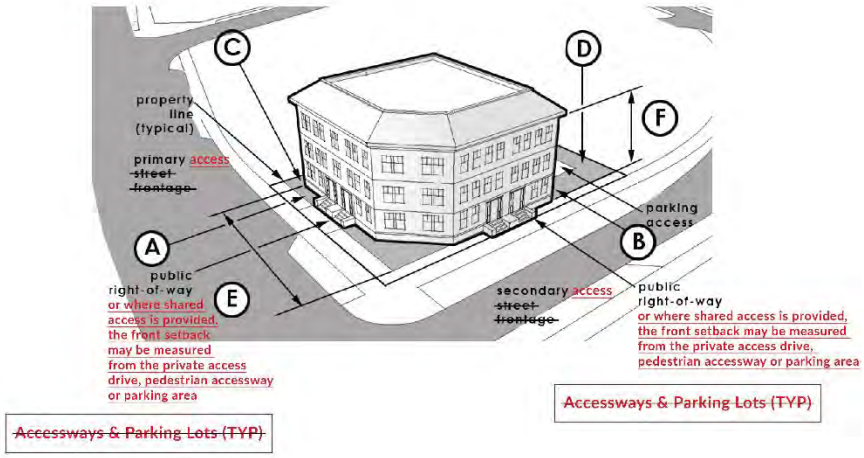
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



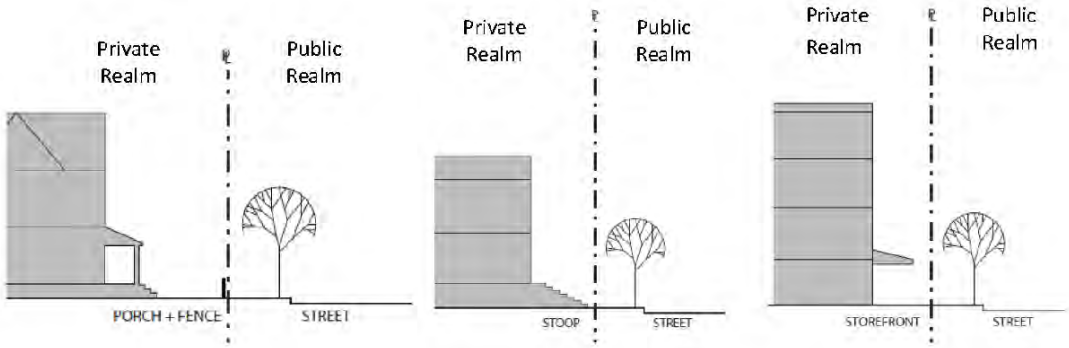
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary) for commercial and multi-family uses and 30% minimum for single family and two-family homes. This provision does not apply to developments with private shared access ways to more than one structure.	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation. Front Setback, Principal – Where a private shared access drive is provided serving more than one structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential with one or two units – No minimum and maximum window and door area applies. Residential with three or more units- Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Residential structures with one or two units – No minimum and maximum window and door area applies. Residential structures with three or more units and Commercial - Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-4. Zoning districts.

(a) For the purposes in section 60-3, the use, construction and alteration of buildings and structures and the use and alteration of land in the city are hereby restricted and regulated according to the provisions of this chapter.

(b) The city is hereby divided into zoning districts designated as follows and more fully described on the official zoning map:

District title	Classification	Short title
Agriculture and Resource Protection	Resource	AG
Low Density Country Residential	Resource/Residential	LDCR
Rural Residence	Residential	RR
Suburban Residence	Residential	SR
Urban Residence	Residential	UR
Multifamily Suburban	Residential	MFS
Multifamily Urban	Residential	MFU
Planned Unit Development	Residential/Commercial	PUD
Downtown Enterprise Zone	Residential/Commercial	DEZ
General Business	Commercial	GB
Neighborhood Business	Commercial	NB
Form Based Code Regulating Plan:		
Traditional Main Street Neighborhood (Transect 4.1)	Residential/Commercial	T-4.1
Traditional Neighborhood (Transect 4.2B)	Residential/Commercial	T-4.2B
Traditional Downtown Neighborhood (Transect 4.2)	Residential/Commercial	T-4.2
Downtown Traditional Center (Transect 5.1)	Residential/Commercial	T-5.1
Downtown City Center (Transect 5.2)	Residential/Commercial	T-5.2
Great Falls Metropolitan (Transect 6)	Residential/Commercial	T-6
Industrial	Industrial	ID
Floodplain Overlay District	Environmental	FPO
Taylor Pond Overlay District	Environmental	TPO
Lake Auburn Watershed Overlay District	Environmental	LAO
Shoreland Overlay District	Environmental	SLO
Manufacturing Housing Overlay District	Residential	MHO

(Ord. of 9-21-2009, § 1.2; Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-03012021, § 56, 3-15-2021)

ORDINANCE 12-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend Sec. 60-548B- 1.) Intent and Purpose, 2.) Sec. 60-548B.1, Building Placement on Lot, Frontage Buildout, 3.) Sec. 548B.2, Common or Porch Yard Stoop Yard Frontage Storefront Type, Building envelope articulation, Ground and Upper story building façade. 4.) amend the Table of PRINCIPAL BUILDING PLACEMENT of Section 60-548B, adding ** Front Setback, Principal Where a private shared access drive is provided serving more than once structure (minimizing access points on any public road), the front setback may be measured from the private access drive, pedestrian accessway or parking area* for Traditional Downtown Neighborhood T-4.2B and to add the zoning district Traditional Neighborhood (Transect T-4.2B) to Sec. 60-4-. zoning districts as shown in the attached draft ordinance language.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 13-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Map Amendment to apply Form Based Code T-4.2B to "Area A1".

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the zoning map for Area A1, generally located in the New Auburn area near South Main and Broad Streets and Vickery Road, from the Urban Residence, Multifamily Suburban, Neighborhood Business, Low Density Rural Residence (Rural Residential), and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B and Conservation/Open Space zoning districts. Area A1 is part of Area A, which was presented to the Planning Board on July 11, 2023. Area A was divided into Area A1 and Area A2 for the August 8 Planning Board meeting so Planning Board and City Council could consider how the proposed zone, T-4.2B, would apply to different parts of this land area, and consider the zone change incrementally.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend area A1 as described, in the attached motion and staff report, and shown on the attached map.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's findings, discuss, hold a public hearing on Area A1 as presented and vote to approve the map amendment.

Previous Meetings and History:

Summer 2022: City Council and Planning Board held workshops and public hearings on Area A, B, C, and D. No action was taken.

July 11, 2023: Planning Board holds a public hearing on rezoning Areas A, B, C, and D, and voted to table each area to integrate feedback into a new map.

August 8, 2023: Planning Board holds a public hearing on rezoning Areas A1, A2, B1 & B2, C, and D. They made a recommendation on all areas except for Area B, which they tabled.

August 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the four areas.

Public hearing and first reading on 9/5/2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Planning Board recommendation to City Council on map amendment applying T-4.2B to Area A1.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road.

MOTION: Paul Jacques; **SECOND**: Darren Finnegan.

"I make a motion to recommends amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment has been and is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road as shown on the attached map (A1)" **VOTE:** 5-2-0 motion passes.

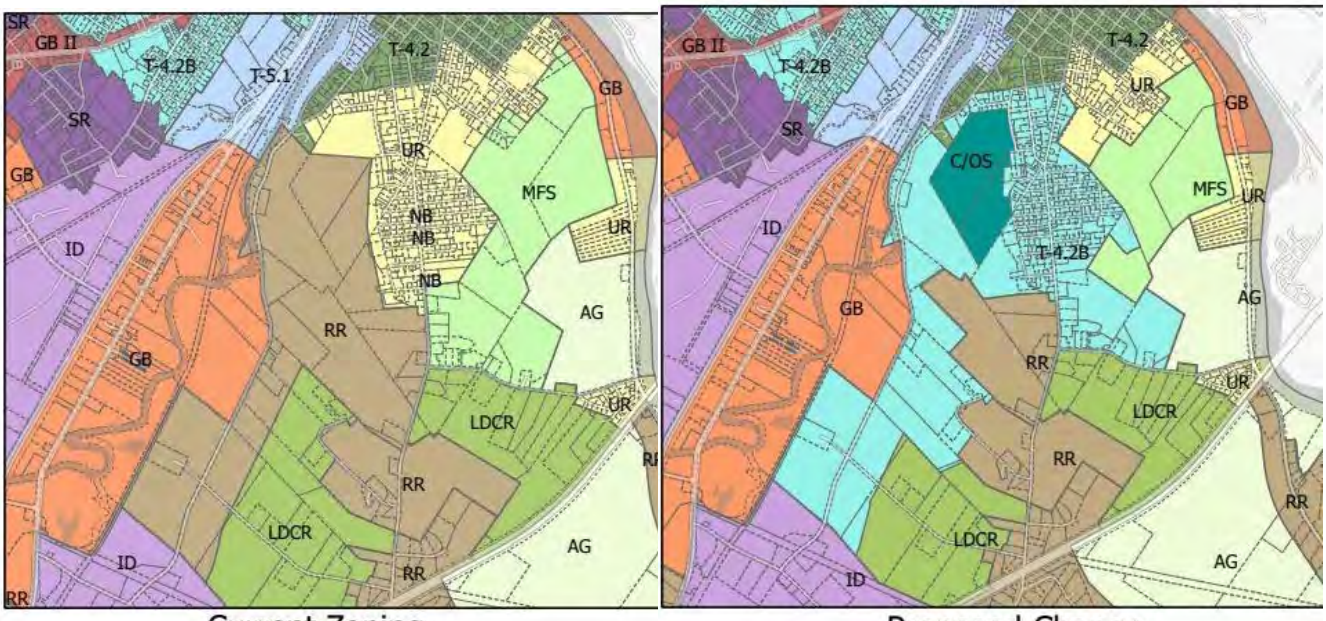
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A1

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendment/ T-4.2B Area A1: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road.



Current Zoning | Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four Areas, A-D, across the city.

The July 11, 2023 meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2". Since portions of the area are more controversial than others, this makes it possible to decide on the two portions individually as shown on the proposed zoning maps.
2. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
3. Two parcels, Sherwood Forest, and the adjacent parcel owned by Androscoggin Land Trust are proposed to be changed to a Conservation Open Space zone to reflect their public use and to make it clear that they are not available for T-4.2B development.

III. **Traditional Neighborhood Development District:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the

size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings, Reasons and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B and Conservation Open Space as shown on the attached proposed zoning map (Area A1) with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A1 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A1 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks as proposed alleviates this challenge.
9. The current zoning in Area A1 only allows single-family and two-family homes, limiting housing affordability, production and who can live in Auburn's neighborhoods. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many people. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

V. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment has been and is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. The area is generally located in the New Auburn area near South Main and Broad Streets and Vickery Road as shown on the attached map (A1).

Area A1

auburnmaine.gov

Sec. 60-548B. Traditional Neighborhood T-4.2B.

Illustrative View of T-4.2B

Intent and Purpose:
Traditional Neighborhood (T-4.2B)

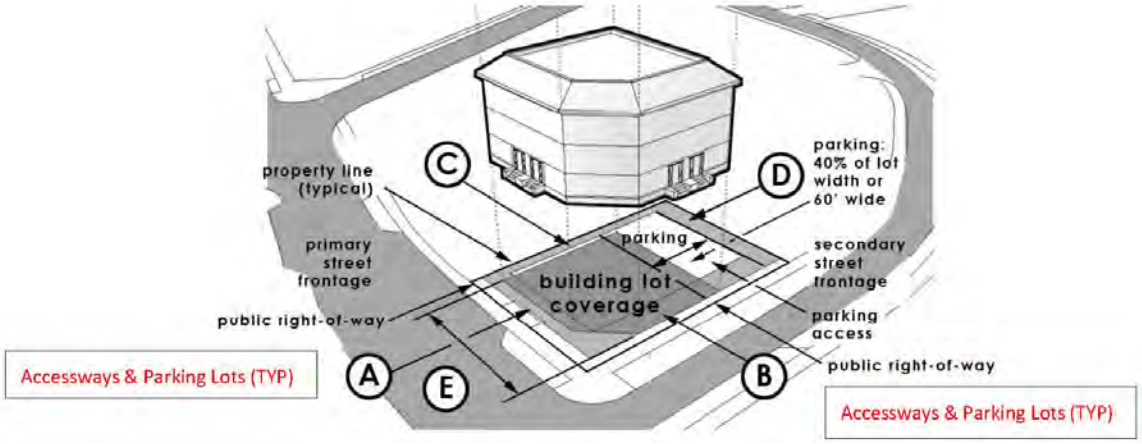
The Traditional Neighborhood district is characterized by small to medium sized buildings with smaller front yards and stoops in a more compact urban environment, and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building set-backs form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks.

Characteristic Features

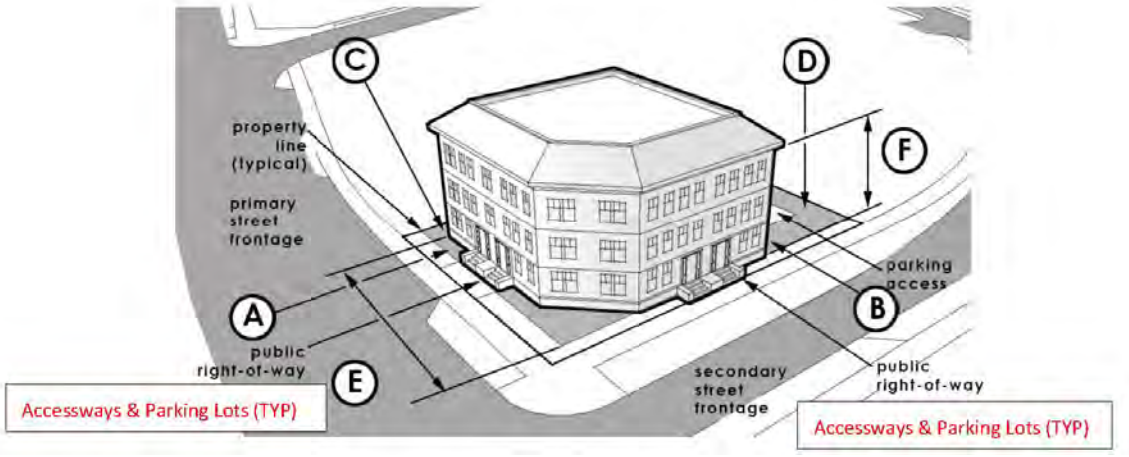
- More public and private realm interaction
- Front facade detailing
- Small front yards
- Bay windows
- Neighborhood scaled storefronts with large windows
- Frontage Fences
- Street Trees
- Moderate densities

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.1. Building placement and configuration T-4.2B.



Elevated Building Placement



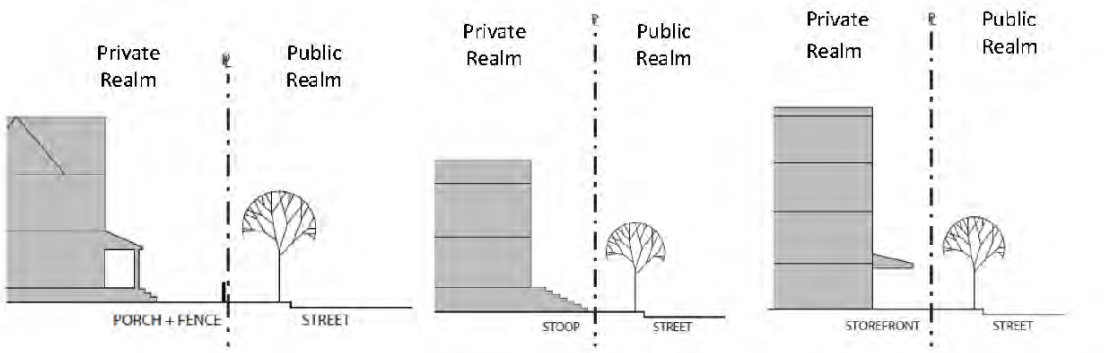
Building Placement on Lot

PRINCIPAL BUILDING PLACEMENT:		
Front setback, principal:	5 ft. min./25 ft. max.*	(A)
(Corner lot) front setback, secondary:	5 ft. min./15 ft. max.	(B)
Side setback:	5 ft. min.	(C)
Rear setback:	10 ft. min.	(D)
Building lot coverage:	70% Max.	
Useable open space:	10% Min.	
Frontage build-out:	60% min (along front setback, primary)	
Lot Width:	24 ft. min/120 ft. max.	
PRINCIPAL BUILDING CONFIGURATION:		
Building width:	14 ft. min./110 ft. max.	(E)
Building height minimum:	1 story min.	(F)
Building height maximum:	3 story max.	(F) (excluding attic story)

* Where adjacent buildings exceed the maximum setback, the maximum setback may be calculated by the average setback of principal structures on adjacent lots. For undeveloped adjacent lots, a setback of 25 feet shall be used for the calculation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.2. Building frontages T-4.2B.



Common or Porch Yard Stoop Yard Frontage Storefront Type

BUILDING FRONTAGE TYPES:	Common yard; porch yard, stoop and storefront.
BUILDING ENTRIES:	Primary entry door is encouraged along ground story facade facing a primary street.
BUILDING ENVELOPE ARTICULATION:	
Ground story building frontage facade:	Residential - Windows and doors shall comprise a minimum of 25% and maximum 60% coverage of the total ground story frontage facade. Commercial - Windows and doors shall comprise a minimum of 40% and maximum of 90% coverage of the total ground story frontage facade.
Upper story building frontage facade:	Windows and doors shall comprise a minimum of 20% and maximum 40% coverage of the total upper story building frontage facade.
Ground story finished floor elevation:	Residential - The ground story elevation must be a minimum of 2 feet minimum and 6 feet maximum above the front yard elevation (average grade). Commercial - The ground story elevation must be at a minimum of sidewalk grade to maximum of 2 feet.
Frontage facade wall:	Blank lengths of wall exceeding 10 linear feet are prohibited.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-548B.3. External elements T-4.2B.

Front yard fence:	Residential - A front yard fence a minimum of 2 feet and a maximum of 4 feet in height is encouraged to maintain spatial edge of street. No chain link, vinyl, split rail, or barbed wire is allowed .
Front yard fence/wall opening:	A vehicle entry way, as part of a front fence/wall, shall be a maximum width of 20 feet; a pedestrian entry way shall be a maximum width of 6 feet.
Building projections:	No part of any building, except overhanging eaves, awnings, balconies, bay windows, stoops and other architectural features shall encroach beyond the minimum front setback line.
Porch & stoop encroachments:	Porches & stoops may encroach upon the minimum front setback line by the following distances: Front setback, principal frontage 5 ft. maximum. Front setback, secondary frontage 5 ft. maximum.
Garages:	Detached garages shall be located a minimum of 20 feet from any street right-of-way.
Driveways:	Driveways are encouraged to be on the secondary street frontage. Driveways shall be paved and a minimum of 8 feet wide and a maximum of 20 feet wide.
Parking:	Residential - Vehicle parking areas shall be located only on driveways or designated parking areas and shall not extend into the street right-of-way or sidewalk. Commercial - Parking shall be located to rear of the property to the greatest extent possible. Parking on a side yard is limited to no more than 60 feet wide or 40% of the lot width. Screening and/or street wall is required for parking areas along a street.
Accessory structures:	Accessory structures shall be located a minimum of 20 feet from any street right-of-way and 5 feet from either side or rear property line.
Landscaping:	Landscaping is encouraged but shall not extend into any street right-of-way or sidewalk. Street trees are encouraged.
Foundation planting:	Foundation plantings are encouraged but should be pruned and maintained with enough clearance from the building facade to encourage air circulation.

(Ord. No. 20-09062022, § 2, 9-19-2022)

Sec. 60-554. Form based code use and parking matrix.

Appendix A: Transportation Goals: This applies to Area A1, A2, Area B1 & B1. Future plan regarding Washington Street also connect to Area C.

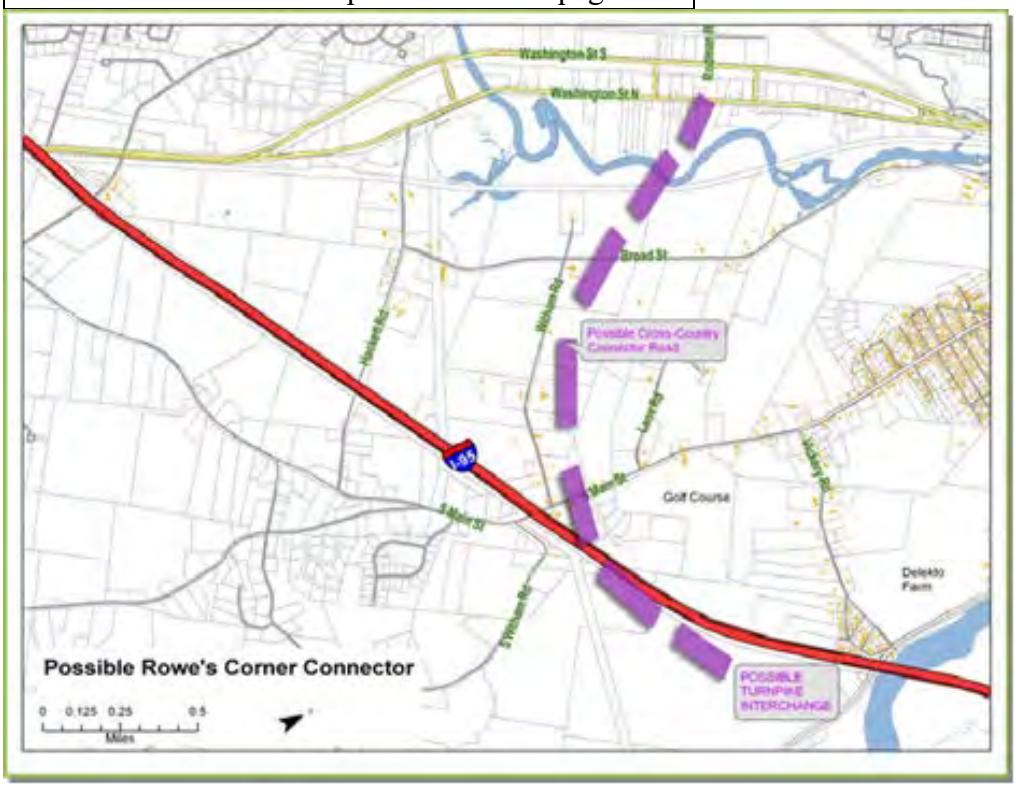
"Goal G.1: Auburn supports real-estate growth patterns that fully utilize the utility of all road networks in the city, making necessary additional connections between road networks to advance this goal…"

1. The full utility of the Maine Turnpike and Washington Street have not been integrated into residential growth patterns in Auburn. Previous efforts to integrate the Turnpike focused on industrial/commercial growth, which is no longer recommended in the Comprehensive Plan.
2. The New Auburn area is dominated by streets running north to south with limited east to west connections. The Little Androscoggin and Androscoggin Rivers have driven that development history and the Comprehensive Plan specifies recommendations to establish broader east-west connectivity. Developing a grid network as projects are proposed under site plan review will allow for priority streets to serve both local uses and regional mobility and keep through traffic out of neighborhoods.
3. Developing a connected grid of streets will need to be part of site plan review to avoid creating congestion and safety issues in key areas of New Auburn village and Danville.

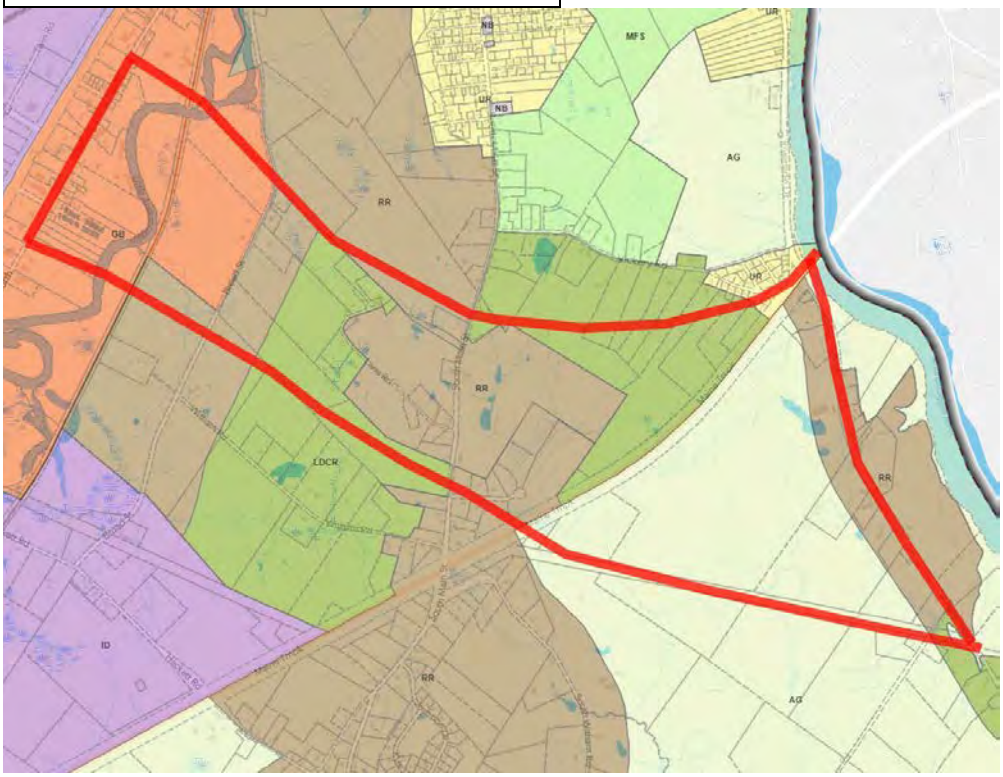
"Goal G.2: Auburn has a well-designed–and functioning road network that safely and equitably moves all manner of users (cars, buses, bikes, and pedestrians) into and through the community while expanding traditional residential neighborhood growth patterns in Danville and New Auburn. Expansions in neighborhood growth are in keeping with traditional transportation network patterns, such as interconnected streets that provide multiple travel patterns, avoiding a rigid hierarchy of streets."

1. Additional residential growth at the densities already in place in the core neighborhood will have an impact on the existing road network in New Auburn. Implementing this comprehensive plan goal is done through increased density allowed in zoning and the establishment of an interconnected street grid, over time, resembling the existing built area.
2. Expansions in transportation capacity, such as connector roads or highway interchanges, are difficult to permit if the goal is "sprawl repair" due to haphazard road layout and inefficient use of land for community growth.
3. New capacity, linked to providing for regional mobility and a protection of neighborhood and village street grids, does provide a strong foundation for pursuing state/federal permitting.

Possible Connector- Comprehensive Plan page 51



Possible Connector Protection Corridor



FREQUENTLY ASKED QUESTIONS

FORM-BASED CODE The Form Based Code Institute defines a form-based code as "a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code. A form-based code is a regulation, not a mere guideline, adopted into city, town, or county law. A form-based code offers a powerful alternative to conventional zoning regulation."[2] The purpose of implementing form-based code is to provide equitable access to housing in walkable neighborhoods by allowing residential uses at a density driven by the form, lot size and configuration of the lot with less minimum road frontage required and shared driveways encouraged. Form-based code regulates the physical form of the built environment using transects, which are the standardized categories that describe the range or continuum of development types; from T-1 Natural Areas to T-6 Urban Core or City Center with an additional category designated for other uses. Form-based code offers an alternative to traditional zoning laws which separate where we live from where we work, learn, shop, play, and gather. By strictly regulating the setbacks and types of housing, units are built further apart resulting in greater reliance on roads. As an alternative, form-based code promotes walkability by reducing the separation between private and public realms of life. Auburn's form-based code proposes six types of form-based code districts, T-4.1, T-4.2B, T-4.2, T-5.1, T-5.2 and T-6. These districts range from least urban to most urban. T-4.2B is characterized as the Traditional Neighborhood Development District or General Urban Zone.

How would T-4.2B affect my neighborhood?

Building by form as regulated in T-4.2B will differ based on where you live and the existing neighborhood form. Most city lots are small and already built on, likely limiting additional development to infill housing opportunities and freedom for property owners to add additional units or make improvements to existing homes. Each landowner can decide whether to make changes to their property based on the ordinances and the existing conditions. In general, this zoning opens opportunities for landowners to add value to their property.

Would higher density in the city core make the traffic worse? Adding more housing, though may add more vehicles to the road in the short term, will allow the city to fund projects to improve current road conditions, and invest in improving circulation patterns throughout the city. Increasing density will also make Auburn a more viable location to extend pedestrian and bicycle infrastructure, local public transit, and especially commuter transportation to and from nearby metro areas like Boston, Portland, and more.

Form based code encourages building closer to the street, creating the illusion of narrower roadways which are proven to slow down vehicles. This zoning encourages and supports safe pedestrian traffic, over time also decreasing reliance on vehicles.

More units will mean more kids who need education. Will T-4.2B make this worse for already strained educators?

Applying form-based code could improve the state of Auburn's schools. Over the past several years, students enrolled in Auburn public schools have been stagnant and falling. Fairview can absorb another 100 students, Walton can absorb another 150, and East Auburn is close to capacity but could absorb about 20 more students. Altogether, the district could absorb up to 500-600 more students.

A reliable marker for determining enrollment trends in schools is the rate of preschool enrollment. Superintendent, Dr. Connie Brown, noted in 2022 that preschool enrollment has been decreasing over the past several years resulting in needing to close Walton Preschool and reducing the hours of East Auburn preschool. She noted that there are other schools that may need to close if they cannot increase enrollment.

The school district can, and in some cases will need to absorb more students, though it is also struggling with attracting and retaining teachers. The recommended monthly house payment is 28% of a person's income. The entry level pay for a teacher is $42,000.00, a firefighter starting wage is $45,000.00 plus average OT is $10,000 for a total of $55,000.00, and a police officer with OT is $65,000.00. The average price of an existing, entry level home is $267,500.00 and the average cost of a new entry level home is $318,000. Based on the 28% recommendation, a person would need to make $87,450.00/ year to afford an existing entry level home, and 104,6000.000/year to afford a new entry-level home. People working the above noted jobs, which are critical to some of the most important city services could not afford to build or purchase a home in the city that they work in. A teacher and fireperson living together still could not afford a single-family home in the city where they work. Dr. Brown stated that her number-one reason for teacher resignations is that they found another job closer to where they live. Housing options need to reflect different families and individuals' lifestyles and incomes.

How might new zoning affect the housing crisis?

In his article, "3 Zoning changes that Make Residential Neighborhoods More Affordable", Founder and Director of the Urban Sustainability Accelerator and Institute for Sustainable Solutions at Portland State University, Robert Liberty, identified eliminating single-family-residential-only zoning as an important factor to make residential neighborhoods more affordable. Multifamily housing is outlawed in about 75% of the country which poses a significant barrier for low to middle income residents by reinforcing housing segregation and increasing reliance on cars.

Form-based code allows mixed uses and businesses among homes. What does this mean? What can I expect?

T-4.2B will allow uses other than single family including small businesses with a residential unit on the same parcel. Businesses shall not be over 1,500 square feet. Drive-through restaurants are not allowed in T-4.2B and cannabis shops are also prohibited. There are some businesses that

will be prohibited, and most will require Special Exception Approval from the Planning Board, with Public Notice and Hearing, depending on the size and type.

WHY CONSIDER APPLYING FORM BASED CODE TO THESE FIVE AREAS:

1. The proposed zone change will **increase housing opportunity** for more people by lowering barriers to finding housing. Auburn's housing supply is limited and is not increasing fast enough to accommodate both current residents and those who want to call Auburn home. Housing scarcity drives up prices and increasing the supply of housing will lower the cost overtime.
2. The proposed zoning will **allow a wider variety of housing**. Offering choice in housing to residents will allow more residents the freedom to live as they want and not pay more than they can afford. Financial institutions recommend not spending more than 28% of household gross income on housing. Single family homes are outside of the price range and may not meet the lifestyle needs of many people, especially young adults, young families, empty nesters, older adults and many in between. The current zoning essentially renders housing that is not single-family or two-family illegal effectively barring those who cannot afford the high price of a single-family home to live with their neighbors. Allowing mixed use housing gives residents of all backgrounds and financial capacities options and promotes community be allowing neighbors to live close to and among each other.
3. Current traditional zoning laws tend to separate where we live from where we work, learn, and shop and force us to center roads over all other aspects of city design. These roads, as they are today, are dangerous to pedestrians and cyclists. We have an over-reliance on cars and Auburn's form-based code is meant to provide an alternative. T-4.2B **encourages walkability** by allowing uses that are not exclusively residential in moderately dense urban environments. There will not be walkability if there is nowhere to walk to. Encouraging infill and small business growth encourages walkability by giving folks spaces to walk to. Suburban sprawl as it exists limits transportation to folks who have a car and assumes that there will be little to no walking. It champions cars and roads over people and centralized communities.

ORDINANCE 13-09052023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment changing UR, MFS, NB, RR, and LDCR zoning to T-4.2B in Area A1

Be it ordained, That the Auburn City Council amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence, Multifamily Suburban, Neighborhood Business zoning, Low Density Rural Residence zoning, and Low-Density Country Residence zoning districts to the Traditional Neighborhood Form Based Code T-4.2B zoning district and Conservation/Open Space district as shown on the attached map.

City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 14-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Map Amendment to apply Form Based Code T-4.2B to "Area A2".

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the zoning map for Area A2, generally located near South Main, Loring, Mary Carroll and Seventh Street, from the Urban Residence and Multifamily Suburban zoning districts to the Traditional Neighborhood Form Based Code T-4.2B and Conservation/Open Space zoning districts. Area A2 is part of Area A, which was presented to the Planning Board on July 11, 2023. Area A was divided into Area A1 and Area A2 for the August 8 Planning Board meeting so Planning Board and City Council could consider how the proposed zone, T-4.2B, would apply to different parts of this land area, and consider the zone change incrementally. A1 and A2 meet near Loring Ave and South Main St.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend area A2 as described, in the attached motion and staff report, and shown on the attached map and the vote failed 3/4. The Board followed up with a motion to not recommend approval and the motion passed 4/3.

City Budgetary Impacts: None

Staff Recommended Action:
Public hearing and first reading on 9/5/2023.

Previous Meetings and History:

Summer 2022: City Council and Planning Board held workshops and public hearings on Area A, B, C, and D. No action was taken.

July 11, 2023: Planning Board holds a public hearing on rezoning Areas A, B, C, and D, and voted to table each area to integrate feedback into a new map.

August 8, 2023: Planning Board holds a public hearing on rezoning Areas A1, A2, B1 & B2, C, and D. They made a recommendation on all areas except for Area B, which they tabled.

August 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the four areas. City Council Public hearing and first reading on 9/5/2023.

City Manager Comments:

I concur with the recommendation. Signature:

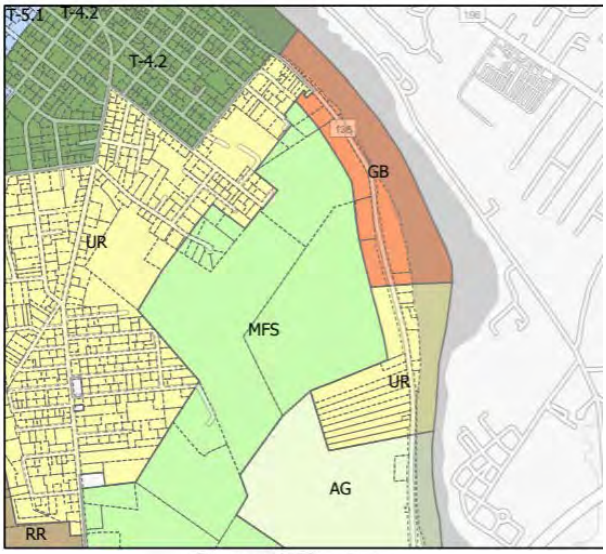
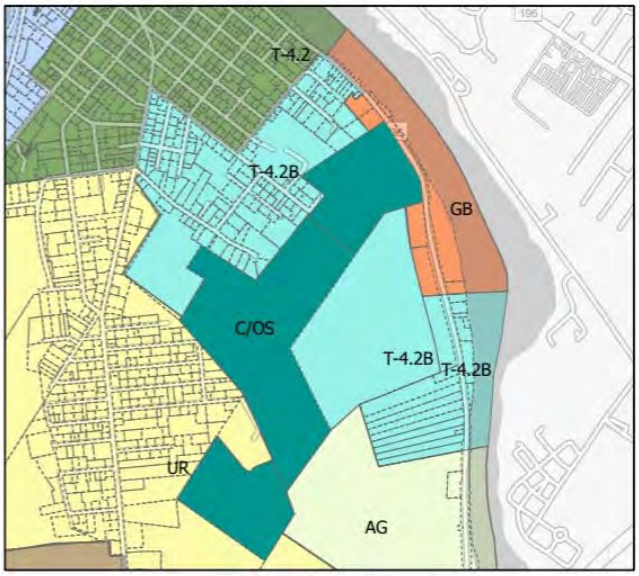
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area A2

Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area A2:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets.



Current Zoning



Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city. The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of

the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. "Area A" as presented on July 11 has been divided into 'Area A1" and "Area A2".
2. Area A2 is located near Mary Carroll St., Seventh St., to South Main St., and Loring Ave., where area A2 and A1 meet.
3. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
4. Three parcels, Huston Field, and the adjacent parcel owned by Androscoggin Land Trust, and Oak Hill Cemetery are proposed to be rezoned to Conservation Open Space to reflect their public/neighborhood use.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Transportation Goals*: See Appendix A.*

V. Suggested Reasons, Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area A1 to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals (see above item IV).
3. The city's transportation goals identified in the Comprehensive Plan will require infill between New Auburn and Broad Street. As the City is planning for a highway interchange, (Appendix A) creating higher density in this area will bring the City closer to this goal.
4. The Comprehensive Plan supports growth in the "city core" which includes Area A2 Developing within the city core means more efficient, cost-effective city services to support growth.
5. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
6. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
7. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
8. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. Many existing homes in Area A2 are nonconforming because the traditional building pattern set homes close to the road, not in alignment with current zoning standards. The nonconforming buildings meeting this description can remain where they are if unchanged, but nonconformance drastically limits the improvements or repairs a homeowner can make. Reducing the setbacks alleviates this challenge.
9. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
10. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003, and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

VI. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning

district, and the Conservation/Open Space zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map.

RE: Planning Board recommendation to City Council on map amendment applying T-4.2B to Area A2.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets.

MOTION: Evan Cyr; **SECOND**: Darren Paul Jacques.

"I make a to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map." **VOTE:** 3-4-0 motion fails.

MOTION David Trask; **SECOND:** Toni Ferraro.

"I make a motion to not recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and the Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district, and the Conservation/Open Space zoning district as shown on

the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near South Main, Loring, Mary Carroll and Seventh Streets as shown on the attached map." **VOTE:** 4-3-0 motion passes.

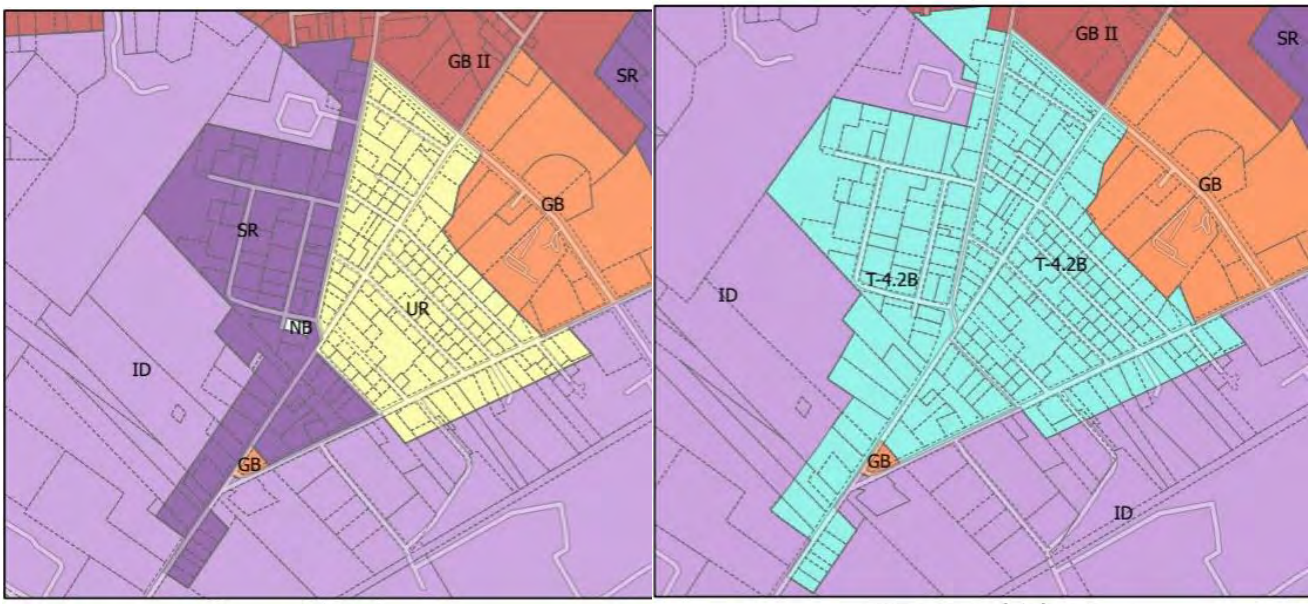
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area C

Date: August 8, 2023

I. Public Hearing/ Zoning Map Amendments/ T-4.2B Area C: Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Poland, Rodman, Manley and Hotel Roads as shown on the attached map.



II. Background: Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council. Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The new zone boundaries were slightly cleaned up from last year's map so that zoning boundaries more frequently follow parcel lines rather than splitting smaller parcels between zoning districts.

III. Traditional Neighborhood Development District: *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. Suggested Findings and Staff Recommendation: Forward a positive recommendation to City Council to rezone Area C to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.
2. This proposed change is consistent with and supports the Comprehensive Plan's transportation goals and will be integrated into the Washington Street Corridor roadway and pedestrian connectivity plans.
3. The Comprehensive Plan supports growth in the "city core" which includes Area C. Developing within the city core means more efficient, cost-effective city services to support growth.
4. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
5. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
6. Limit the need for new city-maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
7. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for many. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
8. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.

I. **Suggested Motion:** I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district, Suburban Residence zoning district, Industrial zoning district, General Business zoning district, and Neighborhood Business zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Poland, Rodman, Manley and Hotel Roads and is shown on attached map Area C.

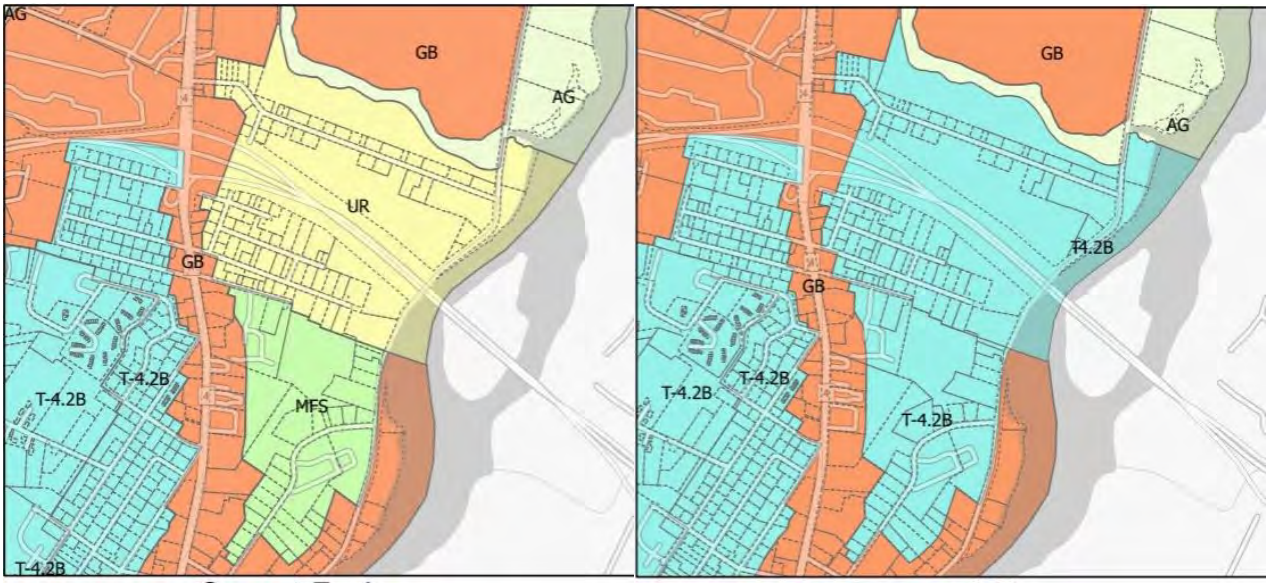
Re: Staff Report on Zoning Map Amendment Considering Applying T-4.2B to Area D

Date: August 8, 2023

I. **Public Hearing/ Zoning Map Amendment/ T-4.2B Area D:** Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. The attached sketch map is for general reference purposes only. The official zoning map amendment is available for review and inspection at the City Clerk's Office and the Planning & Permitting Department. This area is generally located near Northern Avenue, North River Road and Bradman Streets.



Current Zoning Proposed Change

II. **Background:** Last summer, 2022, the Planning Board held Workshops and Public Hearings considering applying the Traditional Neighborhood T-4.2 or T4.2B zoning district to four areas, A-D, across the city.

The July 11, 2023, meeting was used to gather feedback on appropriate changes to finalize the proposed zoning map for a public hearing before the board makes a recommendation to Council.

Staff presented a new map for public review at a Community Conversation on August 1, 2023 with the changes from the Planning Board. Some Members of the Board, 2 City Councilors and 30+ residents were present, and many participated in the Community Conversation. The proposed zoning maps include the following five changes since the July 11th meeting:

1. The proposed map reflects the existing colors in Auburn's official zoning map, with T-4.2B shown as a bright teal, and the Conservation Open Space zoning district shown as a dark teal.
2. The previous map showed a 100 ft. strip along North River Road to be changed to T-4.2B. The Planning Board gave feedback that they were not comfortable with this strip, and asked instead to show the map without the area north of Bobbin Mill Brook, reducing the acreage considered for Area D.

III. **Traditional Neighborhood Development District T-4.2B:** *Description*- The Traditional Downtown Neighborhood district is characterized by a small to medium sized buildings with smaller front yards and stoops in a more compact urban environment and includes and traditional neighborhood sized storefronts. The smaller minimum and maximum building setbacks form a moderately dense street-wall pattern, diverse architectural styles and pedestrian friendly streets and sidewalks (Sec. 60.549).

Objective – Allow for the development of a wide range of residential and community uses at a density of up to 16 units per acre, as specified in the Comprehensive Plan in areas that are served or can be served by public/community sewerage and public/community water (see Figures 2.3, 2.4 and 2.6). New development should be designed to minimize the number of vehicular access points to existing collector or other through roads.

Allowed Uses – The Traditional Neighborhood Development District generally follows the boundaries of the Urban Residential Zoning District, in effect at the time of the 2021 Comprehensive Plan update. The following general types of uses should be allowed within the Traditional Neighborhood Development District:

- Low and High-Density Residential Dwellings
- Home Occupations
- Plant/Crop-Based Agriculture
- Community Services and Government Uses
- Small Offices and Mixed-Use Buildings
- Small commercial operations that do not exceed the average lot size of the neighborhood (or more than two times the average size of the home).

Development Standards – Residential uses should be allowed at a density of up to 16 units per acre with no minimum road frontage required, shared driveways are encouraged. The areas within the Traditional Neighborhood designation are served by public/community sewer and water. In general, the minimum front setback should be 15 feet max. Side and rear setbacks should be 5-10 feet or 25% of the average depth of the lot to establish dimensional standards that relate to the size and width of the lot with up to 70% lot coverage. Minimum building height 1 story with maximum of 3 stories (excluding an attic story).

IV. **Suggested Findings and Staff Recommendation:** Forward a positive recommendation to City Council to rezone Area D to T-4.2B with the following suggested findings:

1. The 2021 Comprehensive Plan recommends expanding the Formed Based Zoning in this area as shown on the above map introducing a new Form-Based Zone T-4.2B.

2. Form Based Code creates opportunity for small-scale business enterprises and investment into existing neighborhoods. These business uses will require a residence to be connected to the building, encouraging owner occupied small business creation.
3. Auburn has a goal of providing opportunity for new homes. Form based code zoning allows for smaller lot sizes, setbacks, and mixed-use housing, thereby decreasing the amount of land a person would need to build housing.
4. Limit the need for new city- maintained roads by encouraging infill development with shared accessways within the identified growth areas in 2020 Comprehensive Plan.
5. Form based code allows for five-foot front and side setbacks in contrast with the current twenty-five-foot setbacks from the front of the lot. It discards the obsolete zoning construct that requires more land than needed for supporting residences.
6. Form based code allows single-family homes, duplexes, and multifamily homes in the same neighborhoods, creating options for people who want to live in Auburn but cannot obtain a single-family home. Mortgages and rents are presently unattainable for most. Folks who are not already settled in a home have few options to settle in Auburn due to not only the high prices, but also the low housing stock and the restrictive land use ordinances which limit new housing creation.
7. LD 2003, now adopted as law in the State of Maine, will require zoning in this area to allow four-unit multifamily homes. The State recognizes and therefore is mandating that municipalities allow diverse housing options at higher densities to address the statewide housing supply issue. Form based code is consistent with LD 2003 and allows Auburn to comply with this law while maintaining a traditional building form, consistent with the existing Auburn neighborhoods.
8. Form based code is appropriate for this area considering the existing Urban Residential, Multifamily, and General Business zoning.

V. Suggested Motion: I make a motion to recommend amending the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map. This item is pursuant to Chapter 60, Article XVII, Division 2 of the Code of Ordinances. This area is generally located near Northern Avenue, North River Road and Bradman Streets shown on attached map D.

ORDINANCE 16-09052023

City Council Ordinance

IN CITY COUNCIL

TITLE: Zoning Map Amendment changing UR and MFS zoning to T-4.2B in Area D

Be it ordained, That the Auburn City Council Amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance, to rezone certain land area from the Urban Residence zoning district and Multifamily Suburban zoning district to the Traditional Neighborhood Form Based Code T-4.2B zoning district as shown on the attached map.

Dana Staples, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 17-09052023

Author: Office of Planning and Permitting

Subject: Public Hearing on Zoning Ordinance Text Amendment (B1)– Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the Zoning Ordinance Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.

After conducting a public hearing, Planning Board is recommending that City Council vote to amend the ordinance as follows:

"I make a to recommend approval of the text amendment #1-5 and 7-8 as numbered on the staff report to chapter 60 article 14 article 4 division 2 agriculture resource protection district the text amendments were proposed at the June 6, 2023, planning board meeting and follow the passage of ordinance number 10-0620203 on July 10th, 2023, the proposed text changes are attached." VOTE: 7-0-0 motion passes

Amendment 6 that the Planning Board recommended excluding reads as follows: Front. There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot or 400 feet, whichever is less.

Amendment 8: No amendment needed. 10-acre conservation cemetery allowance was already adopted by Council and was corrected in the attached ordinance text as adopted.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's recommendation, discuss, hold a public hearing on the text amendment as presented and vote to approve first reading with any exclusions that the Council determines are appropriate. The Changes are summarized and numbered in the Ordinance so they can re referenced as amendments if the Council chooses to approve some and exclude others. Public hearing and first reading on 9/5/2023.

Previous Meetings and History:
July 10, 2023: Referred BB recommended changes to PB for Public Hearing.

August 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the AGRP Text Amendments.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments:
Planning Board recommendation to City Council, 08/08/2023 staff report, proposed text amendment and Ordinance 17-09052023.

Re: Staff Report on Proposal B-1 with Planning Board Clarification Amendments #1-8

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B1) Planning Board Proposed Changes Numbers One Through Eight: Consider zoning text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve proposal B without the amendments offered in the Planning Board recommendation to City Council on AGRP Zone Proposals A and B (included in this packet) and issued an Order that Planning Board hold a public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B-1 with Planning Board Clarification Amendments #1-8 are complimentary to the existing language and function of adopted Proposal B, and do not seem to impose significant change from the previously approved Proposal B. Proposal B-1 with Planning Board Clarification Amendments #1-8 is summarized below and references each motion from 6/6/2023 prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B-1 with Planning Board Clarification Amendments #1-8

1. Add "or two acres, whichever is less" after the word coverage in Sec. 60-145(a)(1)(a). (Motion 1)
   Amendment 1 is intended to concentrate the residential development to a smaller percent of each lot and avoid disrupting more land than is needed.

2. Add "agriculture," in Sec. 60-145(a)(1)(b)(ii) (a, b, and c), after the words, farm, farming, and farm. (Motion 2*)

Amendment 2 broadens the uses that would allow for a residential unit to include agriculture uses in addition to farming, natural resource, or recreation.

3. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145(a)(1)(c) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 4)
   Amendment 3 adds the requirement that a bona fide farm plan be presented to staff who will determine whether the proposal meets the ordinance before a certificate of occupancy is granted for a dwelling. In addition to the criteria that residential structures are limited to a footprint of 20% of the lot area or 2 acres, whichever is less.

4. Add "and Sec. 60-145(a)(1)(b)(ii)" in Sec. 60-145 (a)(1)(d) after the reference to "Sec. 60-145(a)(1)(a)". (Motion 5*)
   Amendment 4 adds specification that in order for a dwelling to continue existing, it must continually meet the requirements of a bona fide farm, in addition to keeping the residential footprint to 20% of the lot area or 2 acres, whichever is less.
5. Add "along a publicly accepted street" to 60-146(1) after the word "frontage" (Motion 6).
   Amendment 5 specifies that private ways may not be used as road frontage. This is intended to reduce the possibility of creating new roads for the purposes of developing housing, and generally limits the area able to be developed in the AGRP zone.

6. Add "or 400 feet, whichever is less" to Sec. 60-146(3)(c) after the word "lot".
   Amendment 6 limits the maximum development depth on particularly large lots, thereby reducing land fragmentation and disturbing less earth for the construction.

7. Add "firewood processing, Christmas tree cultivation" to Sec. 145(a)(3) after the word "sugaring".
   Amendment 7 is meant to recognize other common natural resources and timber harvesting practices besides agriculture and forestry. It expands the uses for which a home can be accessory.

8. The updated proposal draft includes Sec. 60-145(b)(8)(c), recognizing that 10 acres is the minimum size for conservation cemeteries. This was previously adopted by the council so it is not shown as a change in this proposed text amendment.
   Number 8 recognizes that the motion was made to include 10-acre conservation cemeteries in the AGRP ordinance, by showing the adopted AGRP text that includes this as condition C.

IV. **Staff Recommendation:** Staff recommend the Planning Board recommend approval of all amendments in proposal B1, with the finding that they are in alignment with or strengthen the existing language and are true to the intent of the AGRP zone based on the Comprehensive Plan and existing Zoning.

V. **Suggested Motion:** I make a motion to recommend approval of the text amendments one through eight to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text change is attached.

Proposal B-1 with Pl Bd Clarification Amendments #1-8

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

● ● ●

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage or two acres, whichever is less of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, agricultural, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, agricultural, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, agricultural, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a) and Sec. 60-145(a)(1)(b)(ii).

(2) Buildings, equipment and machinery accessory to the principal use including, but not limited to: barns silos, storage buildings and farm automobile garages.

(3) Forest products raised for harvest, including, but not limited to, maple sugaring, firewood processing, Christmas tree cultivation, or mushroom cultivation.

(4) Field crop farms.

(5) Row crop farms.

(6) Orchard farms.

(7) Truck gardens.

(8) Plant and tree nurseries.

(9) Greenhouses.
(10) Handling, storage or processing and sale of forestry products or agricultural products.
(11) Livestock operations including poultry farms, cattle farms, dairy farms, stud farms, hog farms, sheep ranches, other animal farms, including farms for raising fur-bearing animals.
(12) Wayside stands.
(13) Two-family dwellings which are created from the conversion of a one-family dwelling structure which was constructed prior to 1900.
(14) Adult use and medical marijuana cultivation, but not retail sales of any kind.
(15) Marijuana manufacturing accessory to a licensed cultivation site.
(16) Ground-mounted and dual-use solar energy generating systems less than one acre in total land area as defined in Sec. 60-1501.
(17) Natural resource uses.
(18) Small-scale recreational uses of land designed or intended for public use.

(b) *Special exception uses.* The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVII of this chapter:
(1) Sawmills and their customary accessory land uses and buildings incidental to the harvesting of forest products, subject to the following conditions:
a. Sawmill and accessory activity shall not be detrimental to the neighborhood or the city by reason of special danger of fire or explosion, pollution of rivers or perennial streams or accumulation of refuse.
a. Wood processing operation shall be located no closer than 75 feet from any river or perennial stream, 250 feet from any zoning district boundary or residential dwelling and shall be limited to four persons employed.
b. Where natural vegetation is removed, it shall be replaced within six months with other vegetation which will be equally effective in retarding erosion and will preserve natural beauty.
(2) Veterinary hospitals, where operated by licensed veterinarians, including offices and facilities for temporarily boarding animals.
(3) Handling, storage and sale of agricultural services, equipment, and supplies accessory to the farming use.
(4) Bona fide residences required for farm labor. Any residence constructed for farm labor shall not be converted to nonfarm residential use except by permission of the planning board based upon a finding that the abandonment or reduction in such use resulted from causes beyond the control of the applicant and not from any intention to circumvent the requirements of this division. The findings and the conditions upon which such altered use may be continued shall be made a part of the permanent records.
(5) Non-small scale recreational uses of land intended or designed for public use subject to the following conditions:
a. No such recreational use shall be expanded or extended so as to occupy additional land area greater than 20 percent of the original area or one acre, whichever is less; or by the construction of a structure or an addition to an existing structure by more than 900 square feet of additional floor space unless the owner or occupant first obtains approval of the planning board in the manner and upon the same terms as approvals of initial recreational uses.
b. Any proposed new or expanded recreational use shall be completed on or before the estimated completion date except that the planning board may grant reasonable extension of time where good cause for the failure to complete is shown.
(6) Any legally nonconforming summer camp or cottage may be rebuilt if destroyed by fire or other casualty, subject to the following conditions:
a. Such reconstruction shall comply with all ordinances applicable to new construction. Such reconstruction need not, however, comply with zoning provisions which would otherwise be applicable except for the provisions of article XII of this chapter.
b. In cases where no minimum setback is established by division 5 of article XII of this chapter

an open yard space of at least ten feet between the building as reconstructed and each of the property lines shall be maintained.

(7) Rifle, pistol, skeet or trap shooting ranges, public or private.

(8) Cemeteries, subject to the following conditions:
   a. At least 20 acres in area
   b. Not located in any environmental overlay district or over any known aquifer.
   c. At least 10 acres if designated a conservation cemetery.

(9) Municipal sanitary landfills, subject to the following conditions:
   a. Not located in any environmental overlay district or over any known aquifer.
   b. Provisions shall be made to avoid surface water and groundwater pollution.
   c. Provisions shall be made for frequent covering of deposited wastes with earth to counteract vermin, insects, odors, and windblown debris.

(10) Radio, radar, television and radio telephone transmitting or broadcasting towers, but not studios or offices for such transmitting or broadcasting, provided that:
   a. Every such tower shall be installed in a location and manner that ensures its safe operation and the safety of the surrounding residents, building occupants, land uses and properties.
   b. In no case shall such tower be located less than one and one-half times its height from the nearest property line.

(11) Wholesale nurseries, subject to the following conditions:
   a. At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner.
   b. The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

(12) Processing and storage of compost and bulking agents from the municipal wastewater sewerage sludge facilities provided that:
   a. All compost and amendments are to be stored undercover or screened from the public way and abutting property as determined by the planning board.
   b. All federal, state and local ordinances and laws relating to the processing and storage of waste are complied with.
   c. An end-use plan must be filed as part of the planning board process.

(13) Licensed hospice care facility provided that it shall be licensed by the state as a Medicare certificate hospice.

(14) Slaughterhouse, stockyard, abattoir, dressing plant in compliance with state and federal regulations subject to the following conditions:
   a. The facility shall not be located within the Lake Auburn Watershed Overlay District, the watershed of Taylor Pond, the shoreland overlay district or the floodplain overlay district.
   b. The proposed use shall not occupy more than 10,000 square feet of building area.
   c. The number of employees shall be limited to not more than 15.
   d. Accessory retail sales shall be limited to 10 percent of building area or 1,000 square feet, whichever is smaller.
   e. Hours of operation shall limited to between 6:00 a.m. and 8:00 p.m.

(15) Compost operations, excluding municipal and industrial waste, to process products such as manure, bedding, animal mortalities, waste feed, produce, forestry by-products, leaves and yard trimmings in compliance with state and federal regulations, subject to the following conditions:
   a. All compost sites shall be evaluated for suitability by a properly qualified professional, including benchmark water testing prior to approval.
   b. Provisions shall be made to avoid surface and groundwater pollution.
   c. Provisions shall be made to counteract vermin, insects and odors.
   d. Must comply with all applicable state department of environmental protection and state department of agriculture rules and regulations and best management practices.
   e. Shall not be located within the Lake Auburn Watershed Overlay District.

(16) Adaptive reuse of structures of community significance.

(17) Assembly, sale, research and development, distribution, instruction, training, demonstration or maintenance of recreational or agricultural equipment, including buildings as accessory structures used in the assembly, sale, distribution, instruction, training, demonstration, or maintenance of recreational or agricultural equipment, subject to the following conditions:

a. The proposed use is accessory, complementary, or otherwise related to a recreational or agricultural use;

b. The recreational or agricultural use has been in existence for at least five years prior to the date of the application for the special exception; and

c. The recreational or agricultural use is located on the parcel for which the special exception is (19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

(18) [RESERVED]

(19) Ground-mounted and dual-use solar energy generating systems greater than one acre in total land area as defined in Sec. 60-1501, subject to the following conditions:

a. Must comply with the provisions of article XVIII under this chapter;

b. Setbacks, including appurtenant structures and parking areas, shall be subject to the following yard requirements:

1. *Rear.* There shall be behind every structure associated with a solar energy generating system a rear yard having a minimum depth of 25 feet.
2. *Side.* There shall be a minimum distance of 15 feet between any structure associated with a solar energy generating system and the side property line.
3. *Front.* There shall be in front of every structure associated with a solar energy generating system a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

c. Lot coverage shall not exceed 30 percent, as defined under Sec. 60-1506(a)(2).

d. *Total land area.* Once one percent of the agriculture and resource protection district has been developed into solar energy generating systems, the planning board must find that any additional proposed solar energy generating systems will not materially alter the stability of the overall land use pattern of the agriculture and resource protection district. In making this determination, the planning board shall consider the overall effect of existing and potential solar energy generating systems and if it will be more difficult for existing farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights, or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the surrounding area. The planning board shall request an assessment of the proposed project based on this subsection 60-145(b)(19)(d). by the agriculture committee and, if located in the resource protection district, the conservation commission and carefully consider their recommendations.

e. All applications shall consider the location of existing grid infrastructure and plan to limit the need to extend the amenities for optimal efficiency.

f. If a solar energy generating system is proposed on forestland in the agriculture and resource protection district, on a parcel adjacent to prime farmland or land currently used for farming, clearing of forestland or the use of prime farmland may be permitted under the following conditions:

1. The presence of the solar energy generating system will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property or abutting properties.
2. At the time of decommissioning of any solar energy generating system approved by the planning board, the current sitting planning board shall review the site and proposed decommissioning plan for the conversion of the parcel into prime farmland or forestland, as applicable under the current ordinance standards.
3. A survey of critical wildlife habitat is provided at the time of application, if a project is located in an area determined to be essential habitat, as defined by the state

department of inland fisheries and wildlife, an IF&W recommendation shall be secured before a planning board ruling.

4. A vegetative cover plan is provided that demonstrates, where feasible, the replanting of forested areas disturbed during construction and preservation of prime soils throughout the life of the project.

g. *Prime soils.* All solar energy generating systems proposed in the agriculture and resource protection district shall include a soil analysis. Such analysis shall demonstrate if the site proposed for development contains prime farmland as defined by the United States Department of Agriculture (USDA). Least productive agricultural soils shall be considered first for development unless it can be demonstrated to the planning board that:

1. Non-prime farmland is not reasonably available on the subject property.

h. All applications for solar energy generating systems in the agriculture and resource protection district shall be subject to the following provisions:
   1. Siting of the overall facility and individual panels shall keep with the existing contours of the land;
   2. Only pile driven, or ballast block footing shall be used so as to minimize the disturbance of soils during installation;
   3. To the extent possible, infrastructure shall not be located on steep slopes; and
   4. A plan for topsoil maintenance shall be provided at the time of application to the planning board.

i. All operations and maintenance plans shall also include:
   1. A plan prioritizing the ability to co-mingle agricultural and energy generation land uses including but not limited to: apiaries, grazing or handpicked crops.
   2. A plan that provides habitat for native plants and animals and native pollinators.

Sec. 60-146. Dimensional regulations.

All structures in this district, except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created after October 1, 2017 containing less than ten acres, exclusive of any bodies of water having a surface area of one-fourth of an acre or more and measuring less than 250 feet in width at the street frontage along a publicly accepted street, and 200 feet in depth. No building shall be erected on a lot containing less than ten acres, except as allowed in this section, exclusive of any bodies of water having a surface area of one-fourth of an acre or more, and measuring not less than 250 feet in width at the street frontage, and 200 feet in depth.

   a. A building may be erected on a lot containing not less than 50,000 square feet and possessing the required minimum frontage width provided it is contiguous with other lots or parcels of land in the same ownership containing an aggregate of not less than ten acres; notwithstanding the separation of the said other lots or parcels of land by a road, stream, private right-of-way or other natural boundary from the lot on which the building is to be constructed. This section shall not be construed to prevent the construction of nonresidential accessory farm buildings on any such lot.

   b. On legally existing nonconforming undersized lots, the keeping of horses, mules, cows, goats, sheep, hogs, and similar sized animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit conforms to the definition of farm, livestock contained in Sec. 60-2.

   c. A dwelling may be constructed on lots lawfully existing as of October 1, 2017 and containing less than ten acres, only if approved pursuant to Sec. 60-145(a)(1).

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per ten acres, unless approved pursuant to subsection (1)(c) above.

(3) *Yard requirements.*

   a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 25 feet.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot, whichever is less, and having a maximum depth of 30% of the average depth of the lot or 400 feet, whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to two and one-half stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

RE: Planning Board recommendation to City Council on AGRP text Amendment (Proposal B1) Planning Board Proposed Changes #1-8.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider zoning text amendments one through eight to Chapter 60, Article IV, Division 2- Agriculture and Resource Protection District. The text amendments were proposed at the June 6, 2023, Planning Board meeting and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

MOTION: Evan Cyr; **SECOND** Riley Bergeron.

"I make a to recommend approval of the text amendment #1-5 and 7-8 as numbered on the staff report to chapter 60 article 14 article 4 division 2 agriculture resource protection district the text amendments were proposed at the June 6, 2023, planning board meeting and follow the passage of ordinance number 10-0620203 on July 10th, 2023, the proposed text changes are attached." **VOTE:** 7-0-0 motion passes.

ORDINANCE 17-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend certain sections of Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District as shown on the attached Ordinance, including:

1. Add “or two acres, whichever is less” after the word coverage in Sec. 60-145(a)(1)(a).
2. Add “agriculture,” in Sec. 60-145(a)(1)(b)(ii) (a, b, and c), after the words, farm, farming, and farm.
3. Add “and Sec. 60-145(a)(1)(b)(ii)” in Sec. 60-145(a)(1)(c) after the reference to “Sec. 60-145(a)(1)(a)”.
4. Add “and Sec. 60-145(a)(1)(b)(ii)” in Sec. 60-145 (a)(1)(d) after the reference to “Sec. 60-145(a)(1)(a)”.
5. Add “along a publicly accepted street” to 60-146(1) after the word “frontage”
~~6. Add “or 400 feet, whichever is less” to Sec. 60-146(3)(c) after the word “lot”. (Not Recommended by PB)~~
7. Add “firewood processing, Christmas tree cultivation” to Sec. 145(a)(3) after the word “sugaring”.

Subject: Public Hearing on Zoning Ordinance Text Amendment (B3)– Amend Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT. AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor Pond watershed.

Information:
On August 8, 2023, Auburn Planning board held a public hearing on amending the Zoning Ordinance Sec. 60-145 and Sec. 60-146 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, AGRICULTURE AND RESOURCE PROTECTION DISTRICT.
After conducting a public hearing, Planning Board is recommending that City Council vote to **not** amend the ordinance as follows:

"I make a motion to recommend that the City Council should not approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached." VOTE: 6-1-0 motion passes.

AMEND MOTION Evan Cyr; SECOND: Riley Bergeron. "I make a motion to include the discussion under number 4 staff recommendation on the staff report to constitute the findings in recommending now" VOTE: 6-1-0 motion passes.

City Budgetary Impacts: None

Staff Recommended Action:
Review the Planning Board's recommendation, discuss, hold a public hearing on the text amendment as presented and vote **not in favor of** approval of first reading. Public hearing and first reading on 9/5/2023.

Previous Meetings and History:
July 10, 2023: Referred BB recommended changes to PB for Public Hearing.

August 21, 2023: City Council held a workshop to receive updates on the Planning Board's recommendations, including the AGRP Text Amendments.

City Manager Comments:

I concur with the recommendation. Signature:

Proposal B-3 with Pl Bd Taylor Pond Watershed Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

● ● ●

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

● ● ●

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.

b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.

c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and

(v) Avoid being sited on wetlands; and

(vi) Avoid being sited on slopes greater than 25%; and

(vii) Not be sited on any portion of a parcel that is classified as being:

a. Currently enrolled in the State of Maine Farmland Tax Program; or

b. Currently enrolled in the State of Maine Tree Growth Tax Law Program; or

c. Currently enrolled in the State of Maine Open Space Tax Program.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

Re: Staff Report on Proposal B3 to the AGRP Zoning Use standards - Planning Board Recommended Amendment to prohibit residences in the AGRP portions of the Taylor Pond Watershed

Date: August 8, 2023

I. **Proposal: Public Hearing/ AGRP Text Amendment (Proposal B3) Planning Board Proposed Change Number Nine:** Consider a zoning text amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing and agriculture operations in the AGRP zone if they are also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and followed by the City Council passage of Ordinance #10-06202023 on July 10, 2023. The proposed text has been and is available in the Planning & Permitting Department in City Hall.

II. **Background:** On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their prior recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes.

The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B3 is the Planning Board recommended Taylor Pond Watershed Amendment and has been proposed as separate text and hearing from the others because it is a substantive amendment. The proposed amendment is summarized below (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. **Proposal B3 with Planning Board Taylor Pond Watershed Amendment.**

1. Add "or the Taylor Pond watershed as defined on the Taylor Pond Watershed Map;" in Sec.60-145)(b)(i) after the word "District"
   This is referred to as proposed change number nine, because it was the 9th amendment recommended by the Planning Board on June 9, 2023.

IV. **Staff Recommendation:** We do not recommend this amendment because it restricts a large land area that would have much less impact on the Pond than the existing small lot development around the Pond, the existing protections(Phosphorus Control) are adequate in the ordinance, and it could disadvantage existing farms, recreational or natural resource

based uses in the Taylor Pond Watershed. The amendment proposes prohibiting new homes in the Taylor Pond watershed which are also in the AGRP zone, which would include approximately 2,035 acres of land. Most existing structures in the Taylor Pond watershed are made up of small camps or homes that have historically caused land use issues and have threatened the health of the pond. Chapter 60, Article XII, Division 3- Taylor Pond Overlay district which extends 250 feet from the high-water mark of Taylor Pond was created to mitigate the impacts of this existing development over time. There are additional. environmental protections that apply to the approximately 3,880 acres that make up the Taylor Pond Watershed. Specifically, Article XIII, Division 2- Phosphorous Control requires that any person proposing new construction over 200 square feet in size, tree cutting or earth moving over 10,000 square feet, or driveway or road construction affecting over 1,500 square feet of land needs to submit a phosphorous control plan for staff to review before any construction can begin. Erosion and Sedimentation control standards also prevent runoff from new development into Taylor Pond. Most land that is in the AGRP zone in the Taylor Pond Watershed is northwest of the lake, and at least 250ft. away from the high-water mark. There are existing farms operating in alignment with the standards of the AGRP zone in this area, and this amendment would prohibit. building a home accessory to any farm, agricultural, natural resource, or recreational use. If this amendment does not pass, as we are recommending, any new home would still be required to meet all requirements of the AGRP zone and the Taylor Pond Watershed standards.

V. **Suggested Motion:** I make a motion to recommend that the City Council should **not** approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

RE: Planning Board recommendation to City Council on AGRP text Amendment (Proposal B3) Planning Board Proposed Change #10 concerning prohibiting housing in the AGRP zone in the Taylor Pond watershed.

Date: 09/05/2023

This is the report from the Planning Board regarding the attached text amendments pursuant to Section 60-1496 of the City of Auburn Ordinances. After notice and Public Hearings held on August 8, 2023, the Planning Board forwards this report to the City Council.

Proposal: Consider a zoning text amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing and agriculture operations in the AGRP zone and the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in the Planning & Permitting Department in City Hall.

MOTION: Riley Bergeron; **SECOND** Paul Jacques.

"I make a motion to recommend that the City Council should not approve the amendment to Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District to prohibit new housing in the AGRP zone when also located in the Taylor Pond watershed. The text amendments were proposed at the June 6, 2023, Planning Board meeting, and follow the City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached." **VOTE:** 6-1-0 motion passes.

AMEND MOTION Evan Cyr; **SECOND:** Riley Bergeron.

"I make a motion to include the discussion under number 4 staff recommendation on the staff report to constitute the findings in recommending now" **VOTE:** 6-1-0 motion passes.

Findings/ Reasons as listed in staff report refenced in the motion:

Staff Recommendation: We do not recommend this amendment because it restricts a large land area that would have much less impact on the Pond than the existing small lot development around the Pond, the existing protections (Phosphorus Control) are adequate in

the ordinance, and it could disadvantage existing farms, recreational or natural resource-based uses in the Taylor Pond Watershed. The amendment proposes prohibiting new homes in the Taylor Pond watershed which are also in the AGRP zone, which would include approximately 2,035 acres of land. Most existing structures in the Taylor Pond watershed are made up of small camps or homes that have historically caused land use issues and have threatened the health of the pond. Chapter 60, Article XII, Division 3- Taylor Pond Overlay district which extends 250 feet from the high-water mark of Taylor Pond was created to mitigate the impacts of this existing development over time. There are additional. environmental protections that apply to the approximately 3,880 acres that make up the Taylor Pond Watershed. Specifically, Article XIII, Division 2- Phosphorous Control requires that any person proposing new construction over 200 square feet in size, tree cutting or earth moving over 10,000 square feet, or driveway or road construction affecting over 1,500 square feet of land needs to submit a phosphorous control plan for staff to review before any construction can begin. Erosion and Sedimentation control standards also prevent runoff from new development into Taylor Pond. Most land that is in the AGRP zone in the Taylor Pond Watershed is northwest of the lake, and at least 250ft. away from the high-water mark. There are existing farms operating in alignment with the standards of the AGRP zone in this area, and this amendment would prohibit. building a home accessory to any farm, agricultural, natural resource, or recreational use. If this amendment does not pass, as we are recommending, any new home would still be required to meet all requirements of the AGRP zone and the Taylor Pond Watershed standards.

VOTE on amended motion: 6-1-0 motion passes.

Re: Staff Report on Proposal B2 with Planning Board Proposed Tax Program 5YR Amendment.

Date: August 8, 2023

I. Proposal: Public Hearing/ AGRP Text Amendment (Proposal B2) Planning Board Proposed Change Number Ten: Consider zoning text amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use tax programs within the last five years. The text amendments were proposed at the June 9, 2023 Planning Board meeting, and were followed by City Council's passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is available in this packet.

II. Background: On June 6, 2023, the Planning Board voted to recommend approving "Proposal B" with amendments replacing the income standard. On July 10, City Council voted to approve Proposal B without the amendments offered in the Planning Board recommendation(included in this packet) and issued an Order that Planning Board hold an additional public hearing on the proposed amendments that they delivered as part of their recommendation. The purpose of the public hearing is to provide appropriate notice for the public to review the amendments and to be heard regarding the advertised changes. The amendments before Planning Board are presented as three distinct items for individual review, comment, and action. Proposal B2 with the Planning Board recommended Tax Program 5YR Amendment has been proposed as separate text and hearing because it is a substantive amendment. The Amendment is summarized below and references the motion from the 6/6/2023 Planning Board Recommendation prompting the text change (see Planning Board recommendation to City Council on AGRP Zone Proposals A and B).

III. Proposal B2 - Planning Board recommended Tax Program 5YR Amendment.

1. Remove "~~Currently~~" before "enrolled", capitalize the "E" in "enrolled" and add "within the last five years" after the word "Program" in Sec. 60-145(b)(vii)(a, b, c). *This is referred to as proposed change number 10, because it was the 10th amendment recommended by the Board in the 6/6/23 recommendations.*

IV. Staff Recommendation: This proposal was initiated to prevent Auburn landowners who have been utilizing the State of Maine Farmland Tax Program, the State of Maine Tree Growth Tax Program, and the State of Maine Open Space tax Program from removing land from this protection in order to build housing. We do not recommend this amendment because a result of this change may mean that someone who has been using the AGRP district as prescribed and intended could be penalized for deciding to build on this land. This

also has the potential to create a disadvantage to existing farmers and rural landowners who have used the land as the AGRP zone intended, in comparison to new landowners or those that have not used the land for agriculture, forestry or public recreation. Under this amendment, someone who has held land in any of the tax programs may not build on their land for five years, even if they meet the other requirements of the AGRP zoning district. In the absence of a five-year moratorium, landowners still need to provide a bona fide plan for farming, agricultural, recreational, or natural resource use before any residential development could occur.

V. **Suggested Motion:** I make a motion to not recommend the amendment to Sec. 60-145(a)(1)(b)(vii) prohibiting housing to be sited on land that has been enrolled in certain State of Maine current use programs within the last five years. The text amendments were proposed at the June 9, 2023, Planning Board meeting, and follow the passage of Ordinance #10-06202023 on July 10, 2023. The proposed text is attached.

Proposal B-2 with Pl Bd Tax Program 5 YR Amendment

Prepared for August 8, 2023 Planning Board Meeting

Draft 7/20/2023

Amend Sec. 60-145 of ARTICLE IV, DISTRICT REGULATIONS, DIVISION 2, *AGRICULTURE AND RESOURCE PROTECTION DISTRICT*, as follows (additions are underlined; deletions are ~~struck out~~):

ARTICLE IV. - DISTRICT REGULATIONS

• • •

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

• • •

Sec. 60-145. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings, including manufactured housing subject to all the design standards, except the siting requirements of Sec. 60-1010, as set forth in division 6 of article XII of this chapter, on parcels containing no less than ten acres, provided that the dwelling is accessory to farming or agricultural operations, recreational uses or natural resource uses and subject to all of the following restrictions:

a. The footprint of residential development associated with the one-family detached dwelling shall comprise no more than 20% of the land coverage of the lot upon which the dwelling is to be constructed. For purposes of this subsection, "residential development" shall include the following:

(i) Residential structures; and

(ii) Impervious and non-vegetated areas accessory to the residential use, such as driveways, parking areas, walkways and patios (areas created using waffle pavers and other semi-impervious surfaces shall be considered non-vegetated surfaces, even if the surface is covered by grass or other similar vegetation); and

(iii) Areas on, over or beneath the surface of the earth devoted to the transmission of water, electricity, telephone or gas to the residential use by pipes, poles, wires, lines, conduits, cables or other devices; and

(iv) Areas on, over or beneath the surface of the earth devoted to the disposal of waste or wastewater generated by the residential use, including, but not limited to, septic tanks, disposal fields, holding tanks, pretreatment filters, and piping; and

(v) Structures accessory to the residential use; and

(vi) Uses of the land accessory to the residential use, but not accessory to other allowed uses within the zone.

b. New one-family detached dwellings shall:

(i) Not be built within the Lake Auburn Watershed Overlay District; and

(ii) Provide a farm, recreational or natural resource use business or land use plan that

has been approved by the Planning and Permitting Director or their designee. The Planning and Permitting Director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit:

a. The business or proposed land use is feasible, and, if implemented will constitute a bona fide farming, recreational or natural resource use allowed under either subsection (a) [permitted uses] or subsection (b) [special exception uses] of this Sec. 60-145.
b. The parcel can reasonably accommodate an enterprise of the size and scope proposed. Parcel size or other lot limitations often restrict potential uses, and the plan must provide for utilization of the parcel's available potential for a farm, recreational or natural resource use.
c. The parcel lawfully existed as of October 1, 2017, or meets the dimensional standards of Sec. 60-146, and otherwise meets the requirements of this chapter; and

(iii) Avoid being sited on soils of state significance or prime farmland as defined by the United States Department of Agriculture (USDA) unless it can be demonstrated to the Code Enforcement Officer that non-prime farmland is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and
(iv) Avoid being sited on land determined to be essential habitat, as defined by the State of Maine Department of Inland Fisheries and Wildlife unless it can be demonstrated to the Code Enforcement Officer that non-essential habitat is not available within the building envelope, as determined pursuant to Sec. 60-146 of this chapter, on the subject property; and
(v) Avoid being sited on wetlands; and
(vi) Avoid being sited on slopes greater than 25%; and
(vii) Not be sited on any portion of a parcel that is classified as being:

a. ~~Currently e~~Enrolled in the State of Maine Farmland Tax Program within the last five years; or
b. ~~Currently e~~Enrolled in the State of Maine Tree Growth Tax Law Program within the last five years; or
c. ~~Currently e~~Enrolled in the State of Maine Open Space Tax Program within the last five years.

c. No certificate of occupancy shall be issued for any such residence until satisfactory evidence that the requirement of Sec. 60-145(a)(1)(a) has been met is presented to the municipal official charged with authority to issue the certificate of occupancy.

d. In no case shall any residence constructed under the provisions of this section after the effective date of the amended ordinance from which this section is derived continue to be occupied as a residence if the lot upon which the residence is constructed fails to meet the requirements set forth in Sec. 60-145(a)(1)(a).

ORDINANCE 19-09052023

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the Auburn City Council amend certain sections of Chapter 60, Article IV, Division 2-Agriculture and Resource Protection District as shown on the attached Ordinance and below:

Sec. 60-145. Use regulations.

b. New one-family detached dwellings shall:

(vii) Not be sited on any portion of a parcel that is classified as being:

a. ~~Currently e~~Enrolled in the State of Maine Farmland Tax Program within the last five years; or

b. ~~Currently e~~Enrolled in the State of Maine Tree Growth Tax Law Program within the last five years; or

c. ~~Currently e~~Enrolled in the State of Maine Open Space Tax Program within the last five years.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023

Author: Sue Clements-Dallaire, City Clerk

Subject: Public hearing on Public Safety Building Referendum

Information: On 9/5/2023, Council voted in favor of authorizing the Public Safety Building proposal to be placed on a referendum ballot and submitted to the voters of Auburn at the November 7, 2023, Election.

Title 30-A, Sec. 2528 (5) states t***he Municipal Officers must "order" or approve the referendum and final wording of the referendum question at least 60 days before the date of the election. A public hearing would have to be held at least 10 days before the election and provide notice at least 7 days before the hearing.***

The public notice was published on Saturday, September 9, 2023.

City Budgetary Impacts:

Financial Statement: The issuance of bonds by the City of Auburn is one of the ways in which the City borrows money for certain purposes. The following is a summary of the bonded indebtedness of the City of Auburn as of November 7, 2023:

Principal of Bonds to be Issued if Approved by Voters:	$45,000,000
Estimate of Interest on Bonds to be Issued if Approved:	$37,800,000
Total Debt to be Issued if Approved by Voters:	$82,800,000

When money is borrowed by issuing bonds, the City must repay not only the principal amount of the bonds but also interest on that amount as well. Principal on the bonds will be repaid in approximately equal annual installments over a period not to exceed 30 years, along with interest, which will be paid semi-annually. The amount of interest to be paid will vary depending on the rate of interest and the years of maturity at the time of issuance, which is expected to be no sooner than 2024. An estimate of the total interest that may reasonably be expected to be paid on the issue submitted herewith for authorization is $37,800,000, based on an interest rate of 4.00%. The total principal and interest to be paid over the life of the bonds on the issue submitted herewith, if authorized, is thus estimated to be $82,800,000.

Staff Recommended Action: Hear public comment

Previous Meetings and History: 9/5/2023 City Council meeting

City Manager Comments:

I concur with the recommendation. Signature:

CITY OF AUBURN
PUBLIC NOTICE

Notice is hereby given that the Auburn City Council will hold a public hearing on September 18, 2023 beginning at 7:00 P.M. or as soon as possible thereafter in the Council Chambers of Auburn Hall, 60 Court Street, Auburn, Maine. The purpose of the public hearing is to to receive public comment on a proposed referendum question authorizing the issuance of general obligation bonds or notes in anticipation of such bonds in the principal amount not to exceed $45,000,000 and appropriate the proceeds of such bonds, together with investment earnings, if any, to fund the construction of a new public safety facility at 550 Minot Avenue in Auburn to house the headquarters of the City's Police Department and Fire Department. This will go before Auburn voters at the November 7, 2023 Election. All interested parties are invited to attend the public hearing and will be given an opportunity to be heard at that time.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 18, 2023 **Ordinance:** 20-09182023

Author: Jamie Longley, General Assistance Manager-Health & Social Services

Subject: Adoption of Appendices for General Assistance, Effective 10/01/2023 through 9/30/2024

Information: I am seeking approval of the new General Assistance maximums. They Are: Appendix A (The GA overall maximums), Appendix B (the food maximums), Appendix C (Lewiston/Auburn MSA rental maximums), and Recovery Residences.

These maximums are established as a matter of State law based on certain federal and HUD fair market values. These appendices are filed with the Department of Health and Human Services (DHHS) in compliance with title 22 M.R.S.A § 4305(4).

****By adopting the new appendices A-C, the program will be in compliance and receive the 70% reimbursement from the State****

City Budgetary Impacts: The overall maximums (Appendix A) are an average increase of $33.51 per person/household per month. The food maximums (Appendix B) are an average increase of $8.72 per individual per month. The housing maximums (Appendix C) are an average increase of $93.40 per unit per month. *There are no changes in appendices D-H.*

Staff Recommended Action: Approval of changes to the General Assistance Appendices A-C, and Recovery Residences as required by State statute and ordinance. First reading: 9/18/2023. Second reading: 10/02/2023.

Previous Meetings and History: This is a yearly approval needed by the council when changes are made to the appendices. Recommend passage.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

2023-2024 GA MAXIMUMS SUMMARY SHEET

Note: The overall maximums found in *Appendices A, B, C, D, E, and F* are effective from **October 1, 2023 to September 30, 2024.**

APPENDIX A - OVERALL MAXIMUMS

County	Persons in Household					
	1	2	3	4	5	6

NOTE: For each additional person add $75 per month.

(The applicable figures from Appendix A, *once adopted,* should be inserted here.)

APPENDIX B - FOOD MAXIMUMS

Number in Household	Weekly Maximum	Monthly Maximum
1	$ 67.67	$ 291.00
2	124.42	535.00
3	178.14	766.00
4	226.28	973.00
5	268.60	1,155.00
6	322.33	1,386.00
7	356.28	1,532.00
8	407.21	1,751.00

NOTE: For each additional person add $219 per month.

APPENDIX C - HOUSING MAXIMUMS

	Unheated		Heated	
Number of Bedrooms	Weekly	Monthly	Weekly	Monthly
0				
1				
2				
3				
4				

(The applicable figures from Appendix C, *once adopted*, should be inserted here.)

FOR MUNICIPAL USE ONLY

MMA
08/23

APPENDIX D - UTILITIES

ELECTRIC

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is ***not automatically*** entitled to the "maximums" established—applicants must demonstrate need.

1) Electricity Maximums for Households *Without Electric Hot Water*: The maximum amounts allowed for utilities, for lights, cooking and other electric uses ***excluding*** electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$ 85.50
2	$22.52	$ 96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households *With Electrically Heated Hot Water*: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses ***excluding*** heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

NOTE: For electrically heated households, the maximum amount allowed for electrical utilities per month shall be the sum of the appropriate maximum amount under this subsection and the appropriate maximum for heating fuel as provided below.

APPENDIX E - HEATING FUEL

Month	Gallons	Month	Gallons
September	50	January	225
October	100	February	225
November	200	March	125
December	200	April	125
		May	50

FOR MUNICIPAL USE ONLY

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

APPENDIX F - PERSONAL CARE & HOUSEHOLD SUPPLIES

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00
NOTE: For each additional person add $1.25 per week or $5.00 per month.		

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00

8/2023

Appendix H

Effective: 10/01/23-9/30/24

Funeral Maximums

Burial Maximums

The maximum amount of general assistance granted for the purpose of burial is **$1,475.** The municipality's obligation to provide funds for burial purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable burial expenses are limited to:

- removal of the body from a local residence or institution
- a secured death certificate or obituary
- embalming
- a minimum casket
- a reasonable cost for necessary transportation
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator, where there is an actual cost, for:

- the wholesale cost of a cement liner if the cemetery by-laws require one;
- the opening and closing of the grave site; and
- a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery or in a cemetery under municipal control, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

Cremation Maximums

The maximum amount of assistance granted for a cremation shall be **$1,025.**

The municipality's obligation to provide funds for cremation purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable cremation expenses are limited to:

- removal and transportation of the body from a local residence or institution
- professional fees
- crematorium fees
- a secured death certificate or obituary

- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator where there is an actual cost, for:

- a cremation lot in the least expensive section of the cemetery
- a reasonable cost for a burial urn not to exceed $55
- transportation costs borne by the funeral director at a reasonable rate per mile for transporting the remains to and from the cremation facility.

ORDINANCE 20-09182023

City Council Ordinance

IN CITY COUNCIL

AMENDING CHAPTER 24, ARTICLE II, DIVISION 1, SEC. 24-23 OF THE GENERAL ASSISTANCE ORDINANCE ANNUAL ADJUSTMENT OF MAXIMUM BENEFITS.

Be it Ordained, that the City Council hereby amends Chapter 24, Article II, Division 1, Sec. 24-23 of the General Assistance Ordinance Annual Adjustment of Maximum Benefits to incorporate the following maximum levels of assistance to be effective on and after October 1, 2023 through September 30, 2024, as follows:

Sec. 24-23. - Annual adjustment of maximum benefits.

(a) Each year the Maine Municipal Association provides the city three appendices providing maximum benefits applicable for the period beginning October 1 and ending September 30 as mandated by state law and based on certain federal values effective on October 1 of each year, as follows:

(1) Appendix A, a listing of overall maximum levels of general assistance relating to all Maine municipalities.

(2) Appendix B, a listing of maximum levels of assistance for food.

(3) Appendix C, a listing of maximum levels for heated and unheated housing.

(b) The portion of these annual appendices applicable to the city, as adopted each year by the city council, are made a part of this chapter as though fully set forth herein and a copy thereof is available in the Office of the City Clerk.

Editor's note— The appendices referred to in this section are not codified but are available in the office of the city clerk.

City of Auburn
City Council Information Sheet

Council Meeting Date: September 18, 2023 **Order:** 128-09182023

Author: John Blais

Subject: File order, discontinuance of 250+/- Chestnut Street as a city street per § 3026-A, (2) A, B, B-1, C and D

Information: Three step process once a recommendation is made by the Planning Board. 1.) File order of discontinuance for notification of abutters. (9.19.23) 2. Public Hearing, notification to abutters (10. 2. 23). 3.Approval of order minimum 10 days after the public hearing (10.16.23).

Today the City Council meets to discuss proposed discontinuance and file order of discontinuance, signed by all council members to be mailed to abutters and for recording in the registry after approval. The municipal officers shall discuss a proposed discontinuance and file an order of discontinuance with the municipal clerk that specifies.

A. The Location of the town way or public easement
B. The names of the abutting property owners
B-1. Location of Bridge (Not applicable)
C. The dollar amount of Damages, if any, determined by the municipal officers to be paid to each abutting property owner.
D. Whether or not a public easement is retained.

City Budgetary Impacts: None known. City staff is working with abutters for waivers of cost.

Staff Recommended Action: Move the request through the review and filing order with municipal officials' signatures.

Previous Meetings and History: PB workshop August 10, 2023, PB Public Hearing September 12, 2023 City Council Workshop August 7, 2023.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Order of Discontinuance (to be signed by Municipal Officials)

City Council Order

IN CITY COUNCIL

ORDERED, that Chestnut Street, as laid out on plan and titled "Conveyances & Partial Discontinuance of Chestnut Street", as recommended by the Auburn Planning Board, and approved by the Auburn City Council and to be recorded at the Androscoggin County Registry of Deeds, is hereby discontinued 250' +/- as a City Street as provided in Title 23 M.R.S.A § 3026-A, 1-6 et sequ:

LOCATION:

Exhibit B
0.23 Acre (9,996 sq. ft.) Discontinuance of a Portion of Chestnut Street
City of Auburn, County of Androscoggin, State of Maine
September 1, 2023

A portion of land of Chestnut Street, so-called, between Winter Street, so-called, and Webster Street, so-called, in the City of Auburn, County of Androscoggin, and State of Maine, being more particularly bounded and described as follows, to wit:

Beginning at a point on the northwesterly side of Chestnut Street at the southwesterly corner of land now or formerly of John R & Barbara J. Landry (Book 6864, Page 210), said point being in a general southwesterly direction, along the northwesterly side of Chestnut Street, a distance of 90 feet, more or less, from the westerly side of Winter Street;

Thence, from the Point of Beginning, South 40° 33' 36" East, crossing said Chestnut Street, a distance of 40.19 feet to a point on the southeasterly side of Chestnut Street and the northwesterly side of land now or formerly of the City of Auburn (Book 1168, Page 229);

Thence, South 43° 48' 18" West, along the said southeasterly side of Chestnut Street, said land now or formerly of the City of Auburn, and land now or formerly of Sultan Corp (Book 5488, Page 202), a distance of 248.75 feet to a point;

Thence, North 43° 50' 03" West, crossing said Chestnut Street, a distance of 40.03 feet to a point on the said northwesterly side of Chestnut Street at the southeasterly corner of land now or formerly of Hero Homes, LLC (Book 9614, Page 308), said point being in a general northeasterly direction, along the northwesterly side of Chestnut Street, a distance of 209 feet, more or less, from the easterly side of Webster Street;

Thence, North 43° 48' 18" East, along the said northwesterly side of Chestnut Street and land now or formerly of the City of Auburn (Book 1168, Page 229), a distance of 251.05 feet to the Point of Beginning.

The above-described parcel of land contains 0.23 acres, more or less (9,996 sq. ft, more or less).

The intent of the pilot program will be as follows:

1. Re-introduction of curbside recycling to select parts of the city, with a mix of urban and rural areas.
2. Consider Increasing frequency of collection.
3. In partnership with Casella, increased public education on what goes into recycling and how to prevent contamination.
4. Launch of a Casella mobile app to help participating households understand what should and should not be recycled.
5. Distribution of Auburn-specific direct mail educational pieces produced by Casella.
6. Periodic reporting of data collected by Casella, to include recycling program participation by household, and percentage of overall waste collected.
7. Retaining the centralized drop-off containers located at Public Works for those who are not part of the pilot program.

ORDINANCE 21-09182023

City Council Ordinance

IN CITY COUNCIL

Amending the Code of Ordinances, Chapter 14, Business Licenses and Permits, Article XVIII. Adult Use and Medical Marijuana Businesses

Be it ordained, that the City Council hereby approves the amendment of Chapter 14, Business Licenses and Permits, of the Code of Ordinances as follows (additions are underlined; deletions are ~~struck through~~):

ARTICLE XVIII. ADULT USE AND MEDICAL MARIJUANA BUSINESSES

Sec. 14-650. Title

This article shall be known and cited as the "City of Auburn Adult Use and Medical Marijuana Businesses Ordinance" and will be referred to hereinafter as "this ordinance". This ordinance limits all subject adult use and medical marijuana businesses to the zoning districts specified under the auburn zoning ordinance, prescribes definitions of adult use and medical marijuana businesses, and provides for permitting/licensing and regulation of adult use and medical marijuana businesses, and provides performance standards for adult use and medical marijuana businesses.

Sec. 14-651. Authority and applicability.

WHEREAS, implementing a system for the regulation of stores, dispensaries, cultivation, manufacturing, and testing for the production and sale of marijuana, is a complex function with significant administrative demands on the City of Auburn; and

WHEREAS, ensuring that possession and use of Adult Use and Medical Marijuana is limited to persons who are 21 years of age or older, except in the case of minors in possession of a medical marijuana patient card, is necessary to protect those who have not yet reached adulthood from the effects of irresponsible use of marijuana; and

WHEREAS, the City of Auburn believes that any production, processing, or selling of Adult Use and Medical Marijuana should be conducted in a safe and fair manner for the health, safety, and welfare of the community, which includes complying with provisions of all applicable laws and ordinances relating to adult use and medical use of marijuana throughout the City of Auburn; and

NOW THEREFORE, this Ordinance is adopted pursuant to the Marijuana Legalization Act, 28-B M.R.S. § 101 et seq.; the Maine Medical Use of Marijuana Act, 22 M.R.S. § 2421 et seq.; and the city's home rule

authority under Article VIII, Part 2, Section 1 of the Maine Constitution 30-A M.R.S. § 3001 et seq., and 30-A M.R.S. § 4301 et seq.

Sec. 14-652. Purpose.

It is the purpose of this ordinance to regulate adult use and medical marijuana businesses in order to promote the health, safety, and general welfare of the citizens of Auburn, and to establish reasonable and uniform regulations for the appropriate location of adult use and medical marijuana businesses in Auburn.

Persons or entities wishing to establish an adult use or a medical marijuana business within the City of Auburn shall first obtain a license from the Auburn City ~~Council~~Clerk ~~(hereinafter "the city council")~~ and shall be subject to the provisions of this ordinance.

This ordinance may not be construed to limit any privileges or rights of a qualifying patient, primary caregiver, registered or otherwise, or registered dispensary under the Maine Medical Use of Marijuana Act.

Sec. 14-654. Effective date; applicability date.

The effective date of this ordinance [from which this article derived], and the business licensing thereunder, shall be the date of adoption by the city council. Notwithstanding the provisions of 1 M.R.S. § 302 or any other law to the contrary, the amendments to this Article evidenced by Ordinance XX-09182023, when enacted, shall govern any proposed license application for which an application has not been submitted to and finally acted upon by the City prior to July 1, 2023.

Sec. 14-657. License required.

No person may establish, operate or maintain a marijuana business without first obtaining a license from the city ~~council~~clerk.

It is a violation of this ordinance for any person to operate a marijuana business without a valid marijuana business license issued by the city clerk pursuant to this ordinance.

Pursuant to 28-B M.R.S.A. § 402, an applicant seeking to operate an adult use marijuana business may not submit an application for a license unless the applicant has been issued a conditional license by the ~~s~~State of ~~m~~Maine to operate the adult use marijuana business.

Marijuana business licenses shall be administered on a first come, first served basis based upon the date the application is deemed complete.

Registered caregivers operating out of their residence shall apply for and obtain a permit for a home occupation in accordance with article IX of the Auburn Zoning Ordinance and shall comply with all standards set forth in the article. Registered caregivers who cultivate medical marijuana only for themselves and/or members of their household are exempt from this requirement and are not required to obtain a permit or license.

The cultivation, manufacturing, testing or sale of adult use marijuana from a residence is prohibited, unless it is for personal use in accordance with 28-A M.R.S.A. § 1502. Home cultivation of adult use marijuana for personal use is

exempt from the licensing requirements of this ordinance. Provided, however, that outdoor cultivation of adult use marijuana for personal use is prohibited, unless the residence is located in an agricultural zoning district.

Sec. 14-658. Application procedure.

(a) *An application for a license must be made on a form provided by the city.*

(b) *All applicants must be qualified according to the provisions of this ordinance.* Applicants shall provide sufficient information to demonstrate that they meet all qualifications and standards established in this ordinance.

(c) *Application to establish a marijuana business*.

(1) If the applicant who wishes to operate a marijuana business is a single individual, this person must sign the application for a license. If the applicant who wishes to operate a marijuana business is more than one individual, each person who has an interest in the business must sign the application for a license as applicant. Each applicant must be qualified under the following section and each applicant shall be considered a licensee if a license is granted.

(2) The completed application for a marijuana business license shall contain the following information and shall be accompanied by the following documents:

a. If the applicant is an individual means the individual shall state their legal name and any aliases, and submit proof that they are at least 21 years of age.

b. If the applicant is a partnership. The partnership shall state its complete name, and the names of all partners, whether the partnership is general or limited, submit a copy of the partnership agreement, if any, and submit proof that all partners are at least 21 years of age.

c. If the applicant is a corporation. The corporation shall state its complete name, the date of its incorporation, evidence that the corporation is in good standing under State law, the names and capacity of all officers, directors and principal stockholders, the name of the registered corporate agent, the address of the registered office for service of process, and submit proof that all officers, directors and principal stockholders are at least 21 years of age.

d. If the applicant is a limited liability company (LLC). The LLC shall state its complete name, the date of its establishment, evidence that the LLC is in good standing under State law, the names and capacity of all members, a copy of its operating agreement, if any, the address of its registered office for service of process, and submit proof that all members are at least 21 years of age.

e. If the applicant intends to operate the marijuana business under a name other than that of the applicant, they must state the marijuana business' name and submit the required registration documents.

f. If the applicant, an officer, member or employee has been convicted of criminal activity under state and/or federal law, they must list the specified criminal activity involved, and the date, place, and jurisdiction of each conviction.

g. If the applicant has had a previous license under this ordinance or other similar marijuana business license applications in another town, city or state denied, suspended or revoked, they must list the name and location of the marijuana business for which the license was denied, suspended or revoked, as well as the date of the denial, suspension or revocation, and they must

list whether the applicant has been a partner in a partnership or an officer, director, or principal stockholder of a corporation that is permitted/licensed under this ordinance, whose license has previously been denied, suspended or revoked, listing the name and location of the marijuana business for which the permit was denied, suspended, or revoked as well as the date of denial, suspension or revocation.

h. If the applicant holds any other permits/licenses under this ordinance or other similar marijuana business license from another town, city, or state the applicant shall provide the names and locations of such other permitted/licensed businesses.

i. The type of marijuana business for which the applicant is seeking a license.

j. The location of the proposed marijuana business, including a legal description of the property, street address, and telephone number.

k. Sufficient documentation demonstrating possession or entitlement to possession of the proposed licensed premises of the marijuana business pursuant to a lease, rental agreement, purchase and sale agreement or other arrangement for possession of the premises or by virtue of ownership of the premises.

l. The applicant's mailing address and residential address.

m. Recent passport-style photograph(s) of the applicant(s).

n. The applicant's driver's license.

o. A sketch showing the configuration of the subject premises, including building footprint, interior layout with floorspace to be occupied by the business, and parking plan. The sketch must be drawn to scale with marked dimensions.

p. A copy of a city tax map depicting: The subject property lines and the property lines of other properties containing any existing marijuana businesses within 1,000 feet of the subject property; and the property lines of any public or preexisting private school within 750 feet of the subject property, measured in accordance with section 14-659.

q. Evidence of all State approvals or conditional approvals required to operate a marijuana business at the subject premises.

r. Evidence of all land use approvals or conditional land use approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, a building permit, site plan approval, change of use permit or certificate of occupancy for the subject premises.

s. Evidence of all other local approvals or conditional approvals required to operate a marijuana business pursuant to the Code of Ordinances, including, but not limited to, food service establishment licenses.

All applications for a marijuana business license shall be kept confidential by the city.

(4) All applicants, including all individuals, officers, directors, managers, members, and partners, for any medical marijuana business license must be residents of the state, as defined in 22 M.R.S.A. § 2422.

(5) If an applicant is a person, the applicant must be a resident as that term is defined in the application. If the applicant is a corporation, partnership, or limited liability company, every officer, director, and

managing partner must be a person who is a resident, and a majority of shares, partnership interests, and membership interests, or other equity interests must be held or owned by persons who are residents. This residency requirement does not apply to applicants for testing facility licenses.

(e) *Application and license fees.* All applications must be submitted with a $500.00 fee. If an application is approved, the following license fees must be paid before the city will issue a license:

Marijuana store. Annual operation license fee: $5,000.00.

Marijuana manufacturing facility. Annual operation license fee: $2,500.00.

Marijuana testing facility. Annual operation license fee: $2,500.00.

Adult use marijuana cultivation:

Tier 1. 0—500 square feet of plant canopy—Annual permit/licensing fee: $1,000.00.

Tier 2. 501—2,000 square feet of mature plant canopy—Annual license fee: $1,500.00.

Tier 3. 2,001—7,000 square feet of mature plant canopy—Annual license fee: $2,500.00.

Tier 4. Greater than 7,000 square feet of mature plant canopy—Annual license fee: $5,000.00.

Medical marijuana cultivation. Annual operation license fee: $1,000.00.

Adult use marijuana nursery cultivation. Annual license fee: $1,000.00 (Plant canopies of individual nursery cultivations are permanently capped at 1,000 square feet.)

Renewal applicants for adult use marijuana cultivation licenses may seek an increase to a higher tier if they comply with the requirements in this section.

Applicants for adult use marijuana cultivation licenses may not hold more than three such licenses or a total combined plant canopy in excess of 30,000 square feet.

(f) *Complete application*. In the event that the city clerk determines that a submitted application is not complete, the city clerk shall notify the applicant that the application is not complete and shall inform the applicant of the additional information required to process the application.

Sec. 14-662. Appeals.
