e. Accumulated vacation leave, subject to the maximum accumulation allowed, shall be paid to an Employee upon separation after six months employment or upon death, with no minimum employment, to his or her beneficiary.

2. Vacation for Planned Purposes - Custodians
   a. Vacation for planned purposes shall be scheduled at least one (1) week in advance and be limited to five (5) working days, provided that no unreasonable disruption to the system exists.
   b. Requests for vacation during the week immediately prior to the start of the school year will require permission of the building principal. Denial of such permission shall not be subject to the grievance procedure. Planned purposes include any vacation or recreational-type activities that are not urgent in nature and can be planned in advance.

3. Vacation for Planned Purposes - Maintenance Personnel
   a. Vacation for planned purposes for maintenance personnel shall be scheduled at the request of the employee provided one (1) weeks' notice is given. In the event that the employee does not provide the required one (1) weeks' notice, any request for the use of vacation time shall be subject to approval by the employee's immediate supervisor, Public Works Director or designee. Up to two (2) employees only may be granted vacation leave on the same day. The week immediately prior to the start of the school year will require approval. Denial of such permission shall not be subject to the grievance procedure.
   b. Planned purposes include any vacation or recreational type activities that are not urgent in nature and can be planned in advance.

4. Vacation for Unplanned Emergency Purposes
   a. Vacation may be used for an emergency, illness or injury, or other sudden necessity for which the employee does not have advance notice; is beyond the employee's control to schedule; and is otherwise unforeseeable.
   b. The employee's supervisor will request appropriate documentation

demonstrating the necessity of using Vacation leave for unplanned purposes if an employee requests such leave for three (3) consecutive work days or more.

c. Vacation time usage meets the compliance standard set forth by the State of Maine Earned Paid Leave Law.

N. Uniforms

1. Maintenance personnel and custodians will receive five (5) sets of work uniforms annually.

2. Each set of work uniforms shall consist of one (1) work shirt and one (1) pair of work pants. Custodian and maintenance personnel shall be provided summer cloth overalls and winter insulated coveralls or bib and jacket of their choice as needed.

3. The Employer will procure proper fitting work uniforms in appropriate colors as determined by the Employer. Employees will be responsible for furnishing shirt and pants sizes.

4. Employees' uniforms ruined as the result of on-the-job accidents will be replaced on a one-for-one basis, with prior approval by the supervisor.

5. Employees will be required to wear appropriate uniforms as furnished by the Employer without exception.

ARTICLE 7 - LEAVES

A. Sick Leave

1. Sick leave must be accrued before being used. Employees shall begin to accumulate sick leave from their date of hire. Full-time employees shall accumulate 1.25 days per month to a maximum of 15 days per year, accumulative to a total of 120 days. All other employees shall accumulate 1.3 days per month to a maximum of 13 days per year, accumulative to a total maximum of 65 days. Sick leave shall be earned for any month in which the employee is compensated for twenty [20] or more hours per week. Under unusual circumstances, the Public Works Director may grant additional days. In case of a prolonged illness of an employee, said employee shall be entitled to his/her unused accumulated sick leave.

2. Up to five (5) accumulated sick leave days can be taken for illness in the immediate family (those relationships as defined in Family Medical Leave Act [spouse, parent, son, daughter] as well as adult child and parent-in-law) if such illness requires care by the employee. The Superintendent, in the event of illness that requires care by the employee, may grant additional days. However, only one employee per family may be absent at any one time for a family illness, except in the case of a grave or terminal illness.

3. Full-time employees who work fewer than eight (8) hours /day shall be docked 1/2 day sick leave, full-time employees who work fewer than 2 hours per day shall be docked 1 day sick leave. Part-time employees who work fewer than 3 hours per day shall be docked 1/2 day sick leave; part-time employees who work fewer than 2 hours per day shall be docked 1 day sick leave.

4. An employee, who after a long illness or injury returns to his/her duties, may have his/her hours adjusted to allow for a gradual reentry under medical direction.

5. Employees shall be entitled to exchange three (3) consecutive months of perfect attendance for one (1) vacation day to be scheduled at the discretion of the Director of Public Works or designee. For the purposes of this section the three (3) month periods are established as follows; 1 – (July, August, September), 2- (October, November, December), 3 – (January, February, March), 4 – (April, May, June). Use of sick leave for any reason (except as noted below) during any three (3) month period will deem the Employee ineligible for the incentive for that period. If an employee has a preannounced doctor appointment and uses sick time for that appointment it will not have it counted against perfect attendance. It shall be the Employee's responsibility to notify the Department of his/her eligibility for this incentive. Upon earning an attendance incentive day and any earned vacation days shall be scheduled at the discretion of the Director of Public Works or designee. It shall be the Employee's responsibility to notify the Department of his/her eligibility for this incentive.

6. No employee shall be entitled to sick leave in any case in which her/his disability arises from an injury out of and in the course of gainful employment outside the school department.

B. Workers Compensation

1. Any employee who suffers a work-related injury and qualifies for payments under the Workers Compensation Act shall be compensated in accordance with Maine State Workers Compensation Law.

C. Jury Duty

1. In the event an employee must perform jury duty, said employee shall receive full pay and benefits while serving and shall upon receipt of the jury stipend, reimburse the City the full amount paid said employee or amount received from courts, whichever is less. If such reimbursement is not made within two (2) payroll dates, the City may deduct said amount from member's paycheck.

2. An employee performing jury duty, who is scheduled to work and there remains at least 2 hours of their regular work shift, may report to work that same day after jury duty lets out. That employee will be paid for a full shift, plus retain any jury payment. The time spent performing jury duty will not be required of the employee as make-up time. Said employee will report or call his/her supervisor and report whether he/she intends to report to work after jury duty.

D. New Child Leave

1. In the event of the birth or adoption of a child, Sick Leave time may be used for up to eight (8) weeks for maternity/paternity and bonding leave. Such leave shall run concurrent with any applicable FMLA leave, but lack of eligibility for FMLA leave will not preclude an employee from being able to take New Child leave under this article.

2. A leave of absence without pay for the remainder of the work year in which the pregnancy terminated may be granted upon written request of the employee involved.

E. Bereavement Leave

1. Up to five (5) days of consecutive leave, which includes the day of the funeral, shall be granted for death of an immediate family member. Immediate family for bereavement leave is defined as those relationships identified in the Family Medical Leave Act (spouse, domestic partner, child, stepchild, parent). A maximum of 3 (Three) days of consecutive leave which includes the day of the funeral, shall be granted for the death of immediate family members

which include parent-in-law, sibling, sibling-in-law, grandparent, grandparent in law and grandchild and any other person living with the employee in the employees household. If a death occurs during the winter season and a burial is planned for milder weather, part or all bereavement time can be saved for the funeral date provided it is used within 9 months and approved by the director. Additional days or travel time may be granted by the Director or his designee, for specific circumstances.

ARTICLE 8 - EMPLOYEES' RIGHTS

A. Seniority

1. Seniority List
   a. The Director of Public Works shall establish a Seniority List, updated each September and available by October 31st to the Union. Seniority in the bargaining unit shall be based on the employee's most recent date of continuous hire. The Seniority List within classification will be based upon the employee's start date of first employment in the following job classifications: Custodian and Maintenance Personnel.
   b. If an employee has served in more than one classification, s/he shall be listed in each classification and retain his/her years of service.

B. Reduction in Force

1. In the event of a reduction in force, seniority will be the factor determining the employees retained, provided the employees' demonstrated skills and qualifications are equal as determined by the Director of Public Works. Probationary employees will have no rights under this provision.

2. In the event that two or more employees have the same start date, their relative seniority shall be based upon the number of years worked for the Auburn City of Auburn in the School Maintenance unit. If the employees remain tied after the consideration of the above factor(s), a random drawing which shall be witnessed by two members chosen by the Union will occur at the time of layoff.

C. Recall

1. Employees shall be recalled from layoff according to their inverse order of layoff. No new employees shall be hired to fill any bargaining unit positions until all employees on layoff status have either been recalled or determined

unqualified for the opening.

2. An employee reemployed within eighteen (18) months of the effective date of layoff shall retain his/her seniority and all benefits accumulated prior to layoff. After an 18 months lapse, there is no commitment by the employer either implied or inferred that rehiring will occur. Any employee who declines a position as a result of a recall shall be removed from the recall list.

D. Probationary Period

1. A new employee shall be considered probationary for a period of nine (9) working months in a bargaining unit position and as such, shall not have recourse through the Discipline and Discharge section. Workday means any day Monday through Friday; time worked on Saturday or Sunday does not count towards probationary time. The new employee's termination, within the nine (9) working months, will incorporate a one-week notification.

2. An employee voluntarily transferring to a different position shall be placed on twenty (20) working days' probation. The employee will be returned to his/her previous job classification, at the discretion of management or employee, during this twenty (20) working day probationary period.

E. Job Opening

1. Whenever a job opening occurs within the bargaining unit, it will be added to the Vacancy List and posted for employees' viewing at least ten (10) calendar days before filling the position, to allow interested employees an opportunity to apply for the position. Any employee in the bargaining unit, including anyone on lay-off, may apply for any position.

2. The job shall be awarded based on seniority if the employee is in "good standing" based on information provided in the personnel file and has demonstrated the ability to fulfill the duties of the position as determined by the Director of Public Works.

3. A permanent vacancy shall be interpreted to mean an opening in a bargaining unit position created by a severance of employment, such as a resignation, or the creation of a new position within the bargaining unit.

4. Whenever there is a permanent vacancy of a position within the bargaining unit, the Director of Public Works will decide within thirty (30) days of the

vacancy whether the position will be continued, eliminated, or modified.

F. Transfers to Another Job Classification

1. A job transfer to another job classification is a change of duties from one classification to another in the bargaining unit.

2. Upon transfer, an employee currently in Step One of the pay scale will be placed in Step One of the new pay scale until he/she completes six (6) months in the employment of Auburn, at which time the employee shall be placed on Step Two of the salary schedule.

3. Upon transfer, an employee currently in Step Two of the pay scale will be placed in Step Two of the new pay scale until he/she completes twelve (12) months in the employment of Auburn, at which time he/she will be upgraded to Step Three of the new pay scale.

4. Upon transfer, an employee currently in Step Three of the pay scale will be placed in Step Three of the new pay scale after a probationary period of twenty (20) working days.

5. An opportunity for transfer to another bargaining unit position shall be posted for five (5) working days.

G. Transfer Within Classification

A transfer within classification is a change of location or job assignment within the same job classification, such as an opportunity for a custodian to change building location or shift. An opportunity for a transfer to within the same job classification shall be posted for five (5) working days.

H. Personnel Files

1. The City shall maintain, for official purposes, one personnel file for each employee. This file shall be kept under conditions that ensure its integrity and safekeeping and shall contain copies of personnel forms, official correspondence to and/or from the employee, written evaluations and other appropriate material relating to the individual's employment.

2. Employees shall be sent a copy of all material henceforth placed in the file at the same time the material is placed in the file. Anonymous or unattributed material shall not be placed in the file. An employee shall have the right to submit a written response within ten (10) days to any material placed in the

personnel file. This written response shall then be filed and attached to the appropriate material. In a specific personnel action, no use may be made of any material which has not been properly and timely placed in the personnel file.

3. Employees, and designated Union representatives with written authorization from the employee(s), shall have the right to examine their file in the presence of the file's custodian, or that individual's designee, during the normal business hours of the office in which the file is kept.

4. No person other than the employee, the employee's representative, the City when acting as a collective body, the Director of Public Works or his/her designee, the Human Resources Department or the employee's current or future supervisor shall have access to the employee's personnel file unless specific written authorization is granted by the employee.

5. The employee and/or duly designated Union representatives with written authorization may obtain copies of any material in the personnel file without cost, during the normal business hours of the office in which the file is kept.

6. By mutual consent between the employee and the City of Auburn or its designee, any item contained in an employee's personnel file may be removed and destroyed.

I. Discipline and Discharge

1. No non-probationary employee may be disciplined or discharged without just cause, and except under unusual circumstances, the following procedure shall be used:
   a. Oral warning accompanied by a memo to the employee that an oral warning has been given.
   b. Written warning which specifies the guidelines and the schedule for improvement for the employee.
   c. Suspension (reason(s) in writing).
   d. Written discharge which states the reason.

2. Unusual circumstances shall include, but are not limited to, insubordination, drinking on the job, stealing, fighting, or immoral conduct which:
   a. Prevents the employee from performing his/her job; or
   b. Prevents other employees from performing their job; or
   c. Prevents the employer from carrying out its mission; or

d. Proof of falsifying timecards will result in the immediate dismissal of the employee responsible.

3. Any discipline will remain on record for one year from date of issuance.

ARTICLE 9 – RETIREMENT

A. Retirement

The Employer shall continue its existing policy of paying Maine Public Employees Retirement for the duration of this contract.

One-half (1/2) of the accumulated sick leave, to a maximum of 75 days, shall be paid to an Employee upon retirement with 25 years of service, or upon death, to his or her beneficiary. One-half of accumulated sick leave to a maximum of 45 days will be paid to any Employee separating with ten (10) years of service. Computation of the value of each day paid shall be determined by dividing the most recent weekly salary by five.

B. Death Benefits

In the event of an employee's death, said employee's accrued vacation days shall be paid in his/her last paycheck.

ARTICLE 10 - JOB CLASSIFICATION

A. All newly hired custodians shall receive one (1) shift of on-the-job orientation before being assigned on their own. Whenever possible, such orientation shall be conducted on the same shift that the new custodian will be assigned to.

B. Existing Job Descriptions will be in effect at the time of this Agreement signing.

ARTICLE 11 – INSURANCE

A. Coverage

The City will make available to all regular employees and their dependents (as defined by the Maine Municipal Employees Health Trust) medical insurance through the Maine Municipal Employees Health Trust.

The City reserves the right to change or offer alternative insurance carriers, health maintenance organizations, preferred provider organizations, or benefit levels or to self-insure as it deems appropriate, so long as the new or alternative coverage and benefit meets the basic health insurance needs of the employees.

B. Cost Share

Effective 1/1/14 employees participating in the City's Health Promotion Plan will pay 15% of the monthly insurance premiums based upon the PPO 500 Plan through Maine Municipal Employees Health Trust. Employees opting into the POS C Plan will pay the difference in the increased cost share between the POS C Plan and the PPO 500 Plan.

Part-time regular (non-seasonal) employees working a minimum of 20 hours per work are eligible for the single subscriber coverage offered by the City. Part-time employees may, at their own expense, elect to provide coverage for their dependents as defined by the insurance carrier.

Effective 7/1/14, the City will implement a Health Reimbursement Account (HRA) for use toward deductibles and co-insurance in the amount of $500/year for Single subscribers and $1,000 for Family and Employee plus Child(ren) subscribers for employees who participate in the PPO 500 Plan. Unused money in the HRA rolls over from year to year and each fiscal year the City will refund each account up to the $500 and $1,000 maximums.

C. Cost Containment

In order to provide a good as well as affordable health insurance plan, the City reserves the right to institute cost containment measures so long as the basic level of insurance benefits remains substantially similar. Such changes may include, but are not limited to, mandatory second opinions for certain surgeries, hospital pre-admission and continuing admission review, primary care physician's referral to specialists, and mandatory out-patient surgery for certain designated surgical procedures. In order to maintain the 15% Employee contribution, the members of the bargaining unit agree to participate in a health promotion program attached to this agreement as Appendix B.

D. Terms of Insurance

The extent of coverage under the insurance policies (including HMO, self-insured plans, group life insurance and disability plans) referred to in the Employee Handbook shall be governed by the terms and conditions set forth in said policies and plans. Any questions or disputes concerning insurance policies or terms and conditions set forth in these policies or plans shall not be subject to a grievance. The failure of any insurance carrier(s) or plan administrator(s) to provide any benefit for which it has contracted or is obligated shall result in no liability to the City, nor shall such failure be considered a breach by the City, of any obligation undertaken under this or any other agreement.

Complete details of plan benefits are provided to each employee in a booklet furnished by the Maine Municipal Employees Health Trust at the time the employee enrolls in the health

insurance plan.

E. Payments to Employees who Waive Health Insurance Coverage

The City offers an incentive to employees known as the "Health Insurance Waiver Program". This is available to regular employees who do not need coverage under the City's health insurance plan because they have coverage through a spouse, domestic partner, second employer or the military. The City provides monthly payments to employees who drop all or a portion of their health insurance with the City so they can be covered by other insurance available to them. This saves the City money, provides additional compensation to the employee, eliminates, or reduces the weekly health insurance cost share and ensures that the employee and his/her family continues to receive health insurance.

Any employee waiving full or partial coverage for which he/she would be otherwise eligible shall be paid according to the following conditions.

- Any employee eligible for full family coverage or single coverage and who elects to waive health insurance coverage shall receive an amount equal to four (4) months of health insurance premiums based upon the PPO 500 premiums. The health insurance waiver payment calculations are based upon at least six (6) members of the bargaining unit waiving full or partial coverage with the City. If the number of members waiving health insurance coverage falls below six (6), the formula will revert back to three (3) months of health insurance waiver payments.
- An employee who is eligible for a full family plan but opts to take either a "single parent plan" or a "single" plan shall receive an amount equal to four (4) months of the difference in premiums between the plan for which he/she is eligible and the plan he/she opts to take.
- Employees who are married to other City employees and are covered as dependents under their spouse's plan shall be eligible for an amount equal to four (4) months of insurance premiums at the single rate.
- The payments in lieu of health insurance shall be based on the premiums in effect the month the premiums are paid.
- The annual amount will be divided by twelve (12) and paid out each month.
- If the employee wishes to be reinstated on the health insurance policy or change his/her coverage from a single plan or a single parent plan (if he/she would otherwise be eligible for full coverage) he/she may do so as long as he/she follows the insurance carrier's requirements for annual open enrollment or portability of coverage.
- In order to receive payment for waiving health insurance coverage or to be reinstated on the health insurance plan, the employee must submit written notice to the Human Resources Director and provide proof that the employee and/or his/her family has health insurance coverage through another carrier. Discontinuance of health insurance or reinstatement of coverage will be effective the first day of the following month in which

written notice has been received.

ARTICLE 12 – COURSE REIMBURSEMENT

A. Employees may submit a request for course reimbursement to the Director of Public Works. The Director will consider those requests based on the suitability for the intended position, and approval is contingent on available funds. The Director's decision is final. Such reimbursement shall be requested within ninety (90) days of course completion. Requests submitted between October 1st and May 31st will be reimbursed within thirty (30) days of submission. Requests submitted between June 1st and September 30th will be reimbursed in October.

B. An employee must be employed at the time payment is made, except an employee who is eliminated by a reduction in force shall be reimbursed if the approval and commencement of course(s) has occurred. S/he shall not be reimbursed for approved courses that commence after the reduction in force notice.

ARTICLE 13 – MISCELLANEOUS

A. If any provision of the Agreement is held to be contrary to the law, then such provision or application shall not be deemed valid and subsisting, except to the extent permitted by law, but all other provisions or applications shall continue in full force and effect.

B. This Agreement represents the entire understanding of the parties. Any agreements, past practices, past grievances settlements, and/or other settlements and/or other understandings written or unwritten, or other terms not specifically included in this Agreement shall no longer be applicable, unless mutually agreed to by the signatories of this Agreement.

ARTICLE 14 - DURATION OF AGREEMENT

This Agreement shall be effective as of July 1, 2024 for members of the bargaining unit employed as of its signing date and shall continue in effect through June 30, 2027. This Agreement shall not be extended orally and it is expressly understood that it shall expire on the date indicated.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed and attested by their respective parties.

APPENDIX B: CITY OF AUBURN HEALTH PROMOTION PROGRAM

In recognition of the changing environment in which we all live, the City is commencing a long-term health promotion and health care management program to benefit all employees. The goals of the program are:

- Will prevent disease by rewarding employees for healthy behaviors.
- To over time, positively affect the rate of health insurance premiums paid by City of Auburn and its employees.

Participation in the Health Promotion Program is mandatory for all participants who elect the City of Auburn's Health Insurance plan. Employees who do not participate in the program will see their health insurance premium increase to 25% of the total cost of the plan they elect. Participants who elect the POS C plan will increase to 25% of the monthly cost, plus the difference of the preferred PPO 500 and the POS C plan. Participation in the program will reduce the benefit to 15%. To ensure that everyone can take advantage of this new benefit, the Health Promotion program is open to all employees regardless of whether or not they are covered by the City's health insurance plan.

There are five components to the Health Promotion Program:

1. Annual Physical. An active working relationship with an individual's primary care physician is the first step towards a proactive stance towards healthcare. Every employee and all dependents should participate in an annual physical with their primary care physician. Paid annual exams are included in the City's health insurance plan and by most other group health plans. The City expects that at a minimum, the annual exam will include a review of family history and risk factors; screening for heart conditions, cancer, high cholesterol, high blood pressure, and diabetes; routine blood work; and diagnostic testing based upon the individual's age, gender, and medical condition.

2. Health Risk Analysis. Every employee participating in the health promotion program will take a health risk analysis. Health risks analysis is completely confidential, and the individual results will not be shared with any city official.

3. Employee Best Efforts: Employees will make their best effort towards reaching the goals established by them. This will include individual behavior modification, education sessions, keeping appointments with physicians and completing the analysis and eventually goal achievement.

4. Periodic Follow-ups with the program. The more severe the health risk identified, the more frequently the employee and the educator will meet. Employees with fewer or less severe health risks may meet less frequently, but every employee will have follow-up sessions. The initial health risk analysis and follow-up sessions will be conducted at the employee's discretion.

5. Health Education. Throughout the year a series of health and prevention-oriented education sessions will be held. The results of the health risk analysis will provide some ideas for the health education sessions. Health education will be provided on site and may vary from department to department depending on identified needs. Employees will need to participate in at least 4 health sessions annually._

The City has engaged the services of MMEHT to conduct the health risk assessments and to assist with the health education sessions.
The Wellness Team will continue to play a key role in promoting health and well-being in the workplace. The Wellness Team will recommend health related programs and serve as an information conduit back to departments. In recognition of additional work and responsibilities, the Wellness Team is being broadened its membership to include representation from all the city departments. The Wellness Team is already working on the health promotion program by holding the logo contest and planning the health promotion kickoff event. The wellness team will be an integral player in the long-term management of the health promotion plan and additional incentive and support programs.

ORDER 83-06032024

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby authorizes the City Manager to execute the Collective Bargaining Agreement with the IAMAW AFL-CIO, effective 07/01/2024.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 3, 2024 **Order:** 84-06032024

Author: Eric J. Cousens, Director of Planning and Permitting

Subject: Initiating Zoning Map Amendment for the 526 and 550 Minot Ave

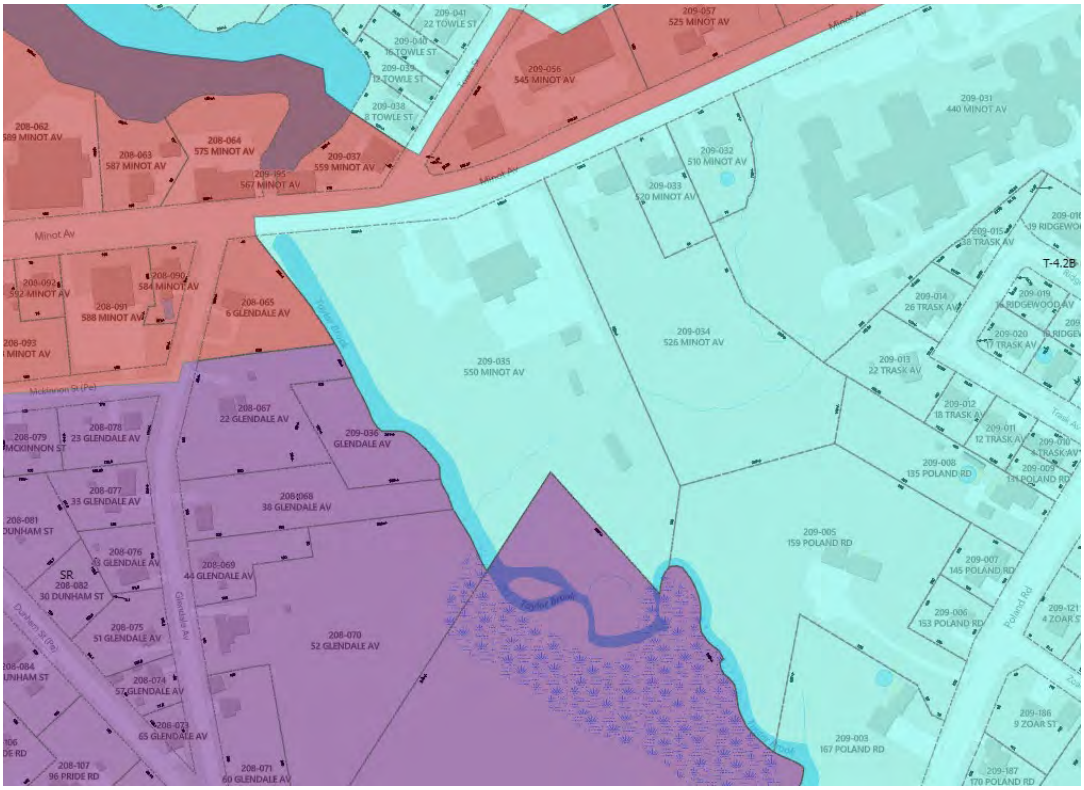
Information: This item is considering a zoning map amendment to amend approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district. The area proposed to be rezoned encompasses all of City Assessor's parcel I.D.s 209-035 and 209-034. The purpose of this proposal is to better support a new public safety facility by allowing the flexibility in form and design to best serve the needs of public employees.

Municipal services and facilities are permitted in all zoning districts, but form-based code, the current zoning, requires that new structures be built close to the public right of way. The design standards in form-based code are intended to encourage new development to emphasize the relationship between the public and private realm. While it is well suited to residential and commercial areas within the City of Auburn, form-based code may not allow for the flexibility necessary to build a functional and efficient public safety facility that is designed around the movement of large vehicles inside and outside of the buildings.

The General Business II District is in alignment with the surrounding area and is compatible with the 2021 Comprehensive Plan. The provision stating that "The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development" can allow the flexibility to find the proposed change to be consistent with the Comprehensive Plan. This proposed zoning also allows for the flexibility in facility layout to best serve the needs of the fire department and the police department, such as the ease and safety of movement of the fire apparatus on the properties.

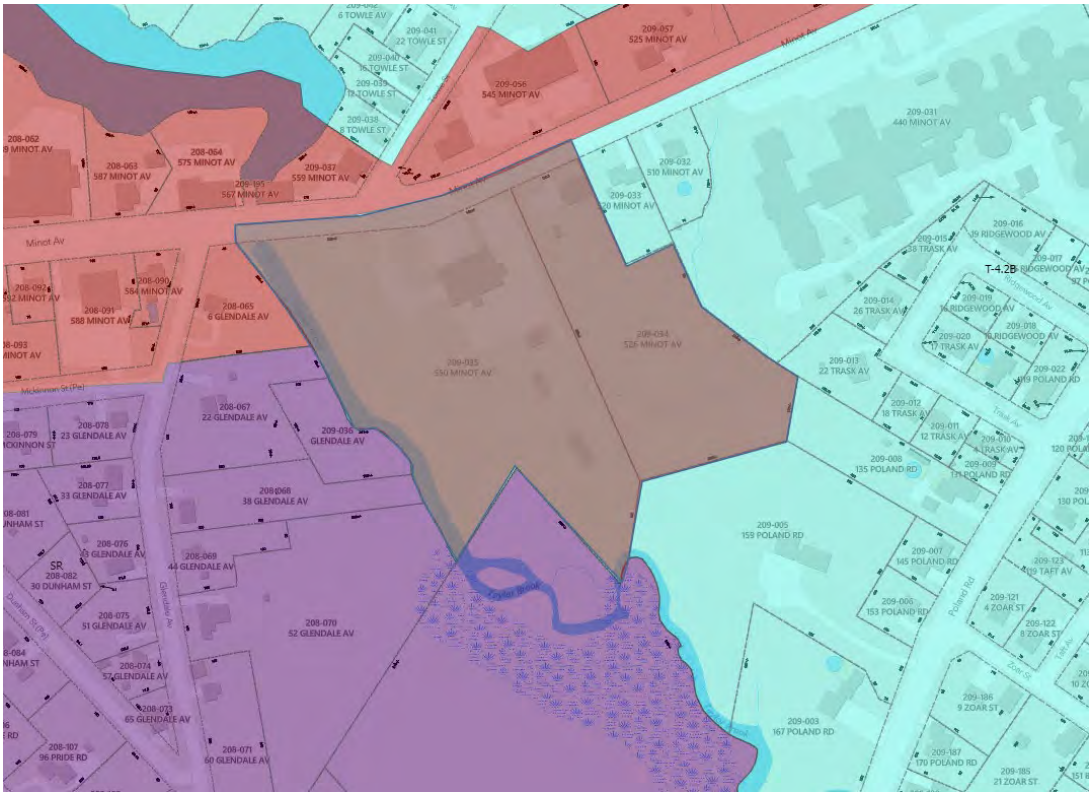
City Budgetary Impacts: None anticipated.

Staff Recommended Action: Determine if the city council wishes to initiate zoning map amendment by sending this proposal to the planning board for public hearing.



Previous Meetings and History: None.

City Manager Comments:



I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: Sketch Map, Order

Consideration of Proposed Zoning Map Amendment - 526 and 550 Minot Avenue Change from T4.2B to General Business II

Existing Zoning Above / Proposed Zoning Below

ORDER 84-06032024

City Council Order

IN CITY COUNCIL

ORDERED, that the Auburn City Council directs staff to prepare a zoning map amendment for Public Hearing and a Recommendation by the Auburn Planning Board pursuant to Chapter 60, Article XVII, Division 2, Amendment to the Zoning Ordinance or Zoning Map. The intent is to amend the map on approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district as shown on the attached map. The area proposed to be rezoned encompasses all of City Assessor's parcel I.D.s 209-035 and 209-034. The purpose of this proposal is to better support a new public safety facility by allowing the flexibility in form and design to best serve the needs of public employees.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 3, 2024 **Order:** 85-06032024

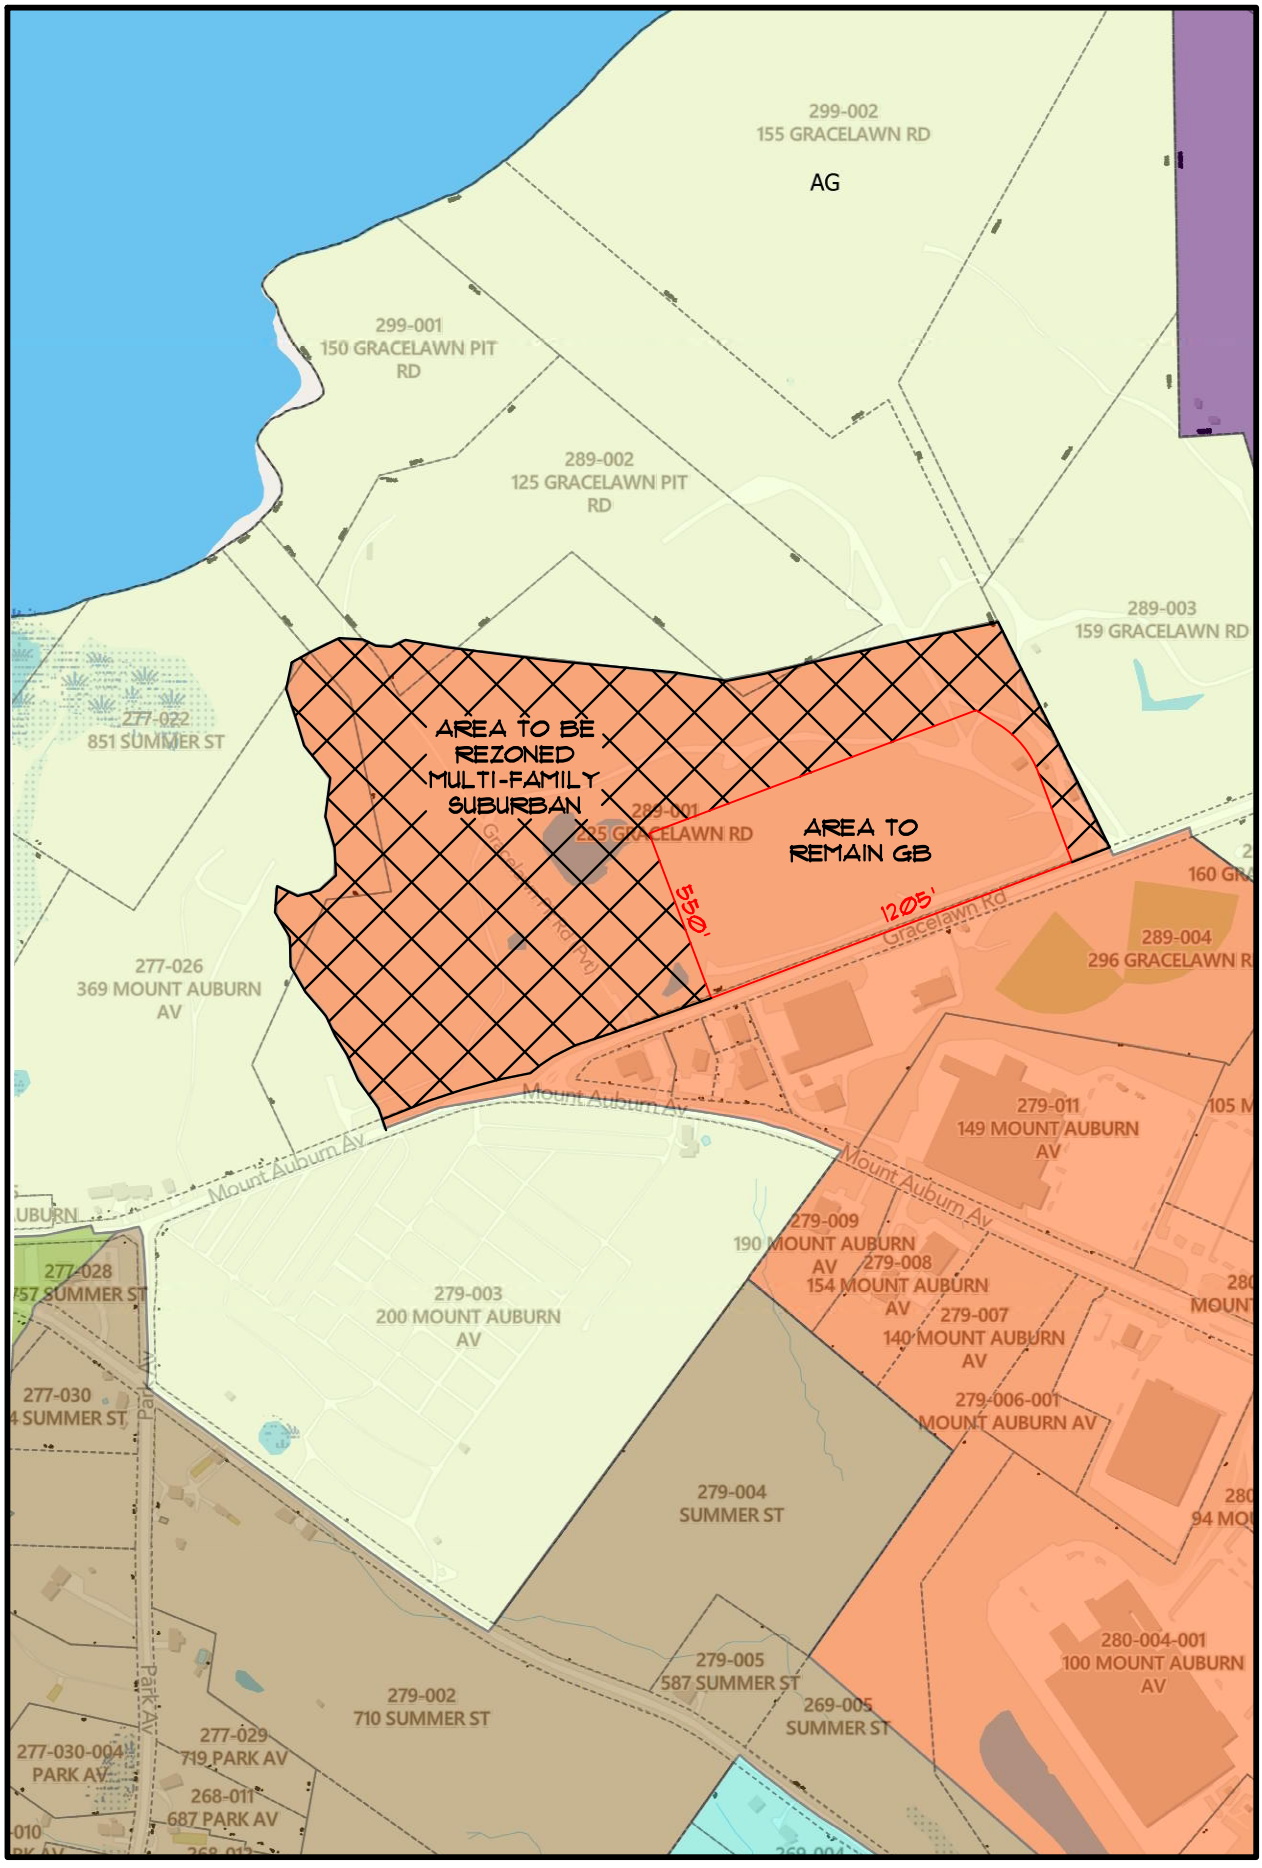
Author: Eric J. Cousens, Planning and Permitting Director

Subject: Initiating Zoning Map Amendment for the Gracelawn Area as shown on the attached Map.

Information: In December, 2023, City Council amended approximately 60 acres in parts of City Assessor's parcel I.D.s 289-001, 289-002, and 277-026 from the Agriculture and Resource Protection zoning district to the General Business zoning district. Among the findings for this review were that the General Business Zone more closely aligned with the Future Land Use Map in the 2021 Updated Comprehensive Plan, and that the zone change was consistent with the City of Auburn's commitment to keeping the Lake Auburn watershed healthy.

This proposed zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289-001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district. The Multifamily Suburban zoning district has the same residential density standards as within the General Business District but does not allow several of the uses permitted within the General Business district, like automobile, repair service, and filling stations. Amending the zoning toward the back of the Gracelawn Pit area closer to the lake allows for the creative reuse of land while limiting some of the heavier uses allowed in the General Business District.

Approximately 15 acres in the southeasterly portion of the parcel on Gracelawn Road is proposed to remain in General Business to complement the General Business Zoning on the opposite side of Gracelawn Road and to allow for expanded development opportunity further from Lake Auburn. The proposed General Business portion of the Gracelawn parcel excludes 100 feet abutting the landfill on City Assessor's Parcel I.D. 289-003.



City Budgetary Impacts: None anticipated, possibly new tax value if the landowner makes investments.

Staff Recommended Action: Determine if the City Council wishes to initiate a zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289-001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district by sending the amendment to Planning Board for Public Hearing and a Recommendation.

Previous Meetings and History: None for this specific change; multiple related discussions over the past 2 years.

City Manager Comments:
I concur with the recommendation. Signature: Phillip Crowell J.

ORDER 85-06032024

City Council Order

IN CITY COUNCIL

ORDERED, that the Auburn City Council directs staff to prepare a zoning map amendment for Public Hearing and a Recommendation by the Auburn Planning Board pursuant to Chapter 60, Article XVII, Division 2, Amendment to the Zoning Ordinance or Zoning Map. The intent is to consider amendments that will change the zoning designation as shown on the attached Map from General Business to Multifamily Suburban. Multifamily Suburban zoning would limit commercial uses of the land but would match the density of the General Business Zone for residential uses. This proposed map boundary has been developed in consultation with the landowner and would balance concerns of the public for watershed protection with the future land use plans of the City as well as maintaining the allowance for housing at the property. Attached is a map depicting the boundaries proposed for consideration.

Monthly Financial Report
March 2024

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending March 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending March 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its seventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 75% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through March 2024 were **$99M** or **87.44%** of budgeted general fund revenue, as compared to **$88.7M** of actual revenues through March 2023.

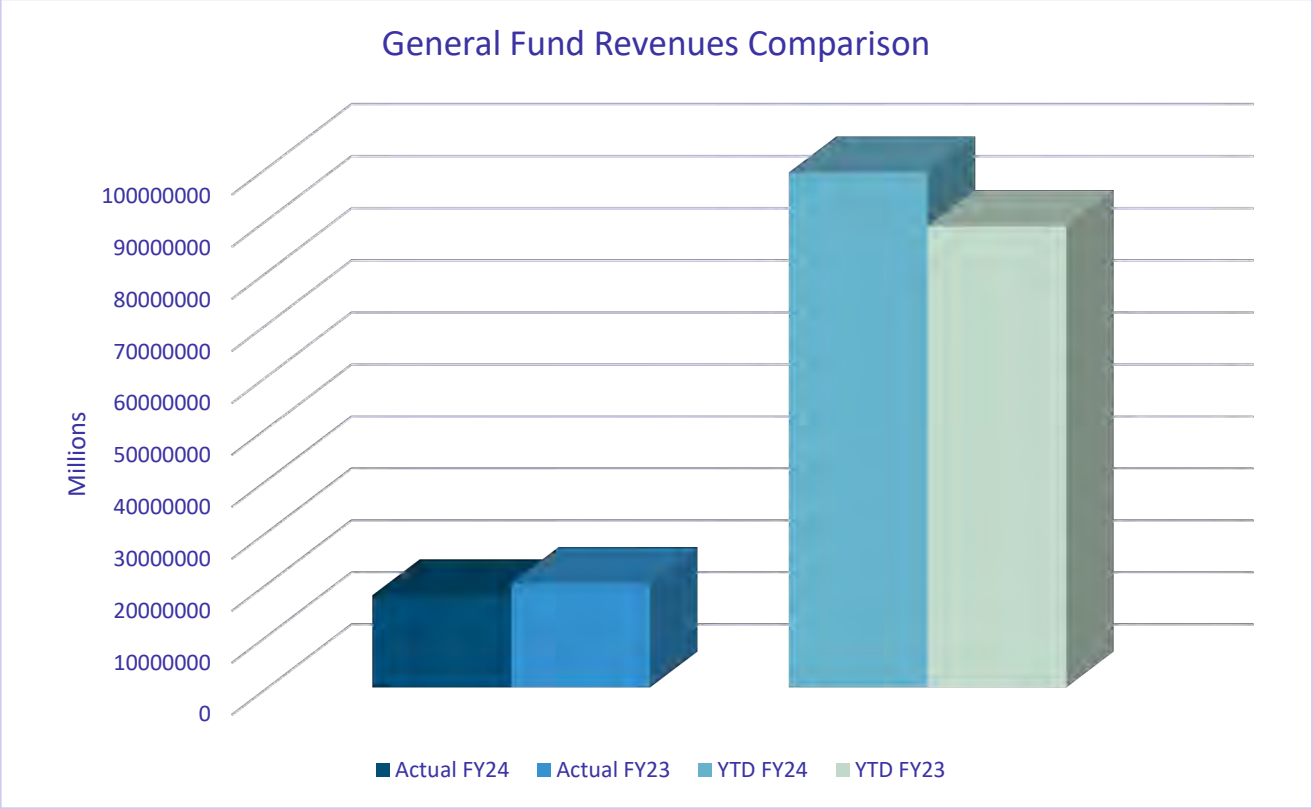
•Year-to-date tax revenues of **$52.6M** were **2.21% higher** than the prior year.

• EMS Transport revenues increased by **$36,542** YTD, **4.69% higher** than FY23.

Expenditures

• Expenditures through March 2024 were **$77.35M** or **67.81%** of the budget, as compared to **$74.74M** of actual expenditures through March 2023.

•Utilities continue to be a highlight with significant YTD decreases.



Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle

Norway Savings Bank Arena

for the Period Ended March 31, 2024

As of March 2024, Norway Arena had an operating gain YTD of $82,326, representing a **$690 increase** from the same period in February.

Revenues:

The operating revenues for Norway Arena through March 2024 are $744,200. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals. Table 1 reflects revenues collected for the current year with comparison for the same period a year ago. Total revenues represent a **44.56% decrease** over March FY23, resulting primarily from a reduction in tournament revenues.

Expenditures:

The operating expenses for Ingersoll through March 2024 were $17,338. These expenses include supplies, repairs, capital purchases and maintenance. Table 2 reflects expenditures for the current year with comparison for the same period a year ago. Total expenditures represent a 60.18% increase over YTD FY23, consistent with increased cost of services and goods.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 3, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss a personnel matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 17, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) to discuss an economic development matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

5:30 P.M. City Council Workshop

A. Executive Session pursuant to Title 1 M.R.S.A. Section 405(6)(C) for discussion of an economic development matter. Motion made by Councilor Gerry, seconded by Councilor Walker. Passed 5-0. Council came out of Executive Session at 6:38pm.

Mayor Harmon called the meeting to order at 7:00P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Councilor Weisner was absent.

I. **Consent Items:**

1. **ORDER 78-06032024*** - Appointing Donna Wallace to the Age Friendly Community Committee for a term that expires June 1, 2027, as recommended by the Appointment Committee.

2. **ORDER 79-06032024*** - Appointing Lawrence Pelletier to the Age Friendly Community Committee for a term that expires June 1, 2027, as recommended by the Appointment Committee.

3. **ORDER 80-06032024*** - Appointing Dana Morrell to the Age Friendly Community Committee for a term that expires June 1, 2027, as recommended by the Appointment Committee.

4. **ORDER 81-06032024*** - Appointing Cynthia Larrabee to the Age Friendly Community Committee for a term that expires June 1, 2027, as recommended by the Appointment Committee.

Motion for passage of all consent items by Councilor Milks, seconded by Councilor Walker. Motion passed 6-0.

II. Minutes – May 20, 2024, Regular Council Meeting

Motion to adopt the minutes by Councilor Walker, seconded by Councilor Cowan. Motion passed 6-0.

III. Communications, Presentations and Recognitions

None.

IV. Open Session

- Malcolm Arthur Henry, Poliquin Ave – expressed a concern in the neighborhood; the City Manager will follow up directly.
- Charles Soule, Lewiston – Encouraged voters to reject the Lewiston school budget.

V. Unfinished Business

VI. New Business

1. **ORDER 82-06032024** - Authorizing the City's general obligation bonds in the amount of $16,615,750 to finance the City's FY25 Capital Improvement Program. First reading. ROLL CALL VOTE. Passage requires an affirmative vote of 5 Councilors at the second reading.

Motion for passage by Councilor Milks, seconded by Councilor Whiting.

There was no public comment.

Councilor Platz moved that the 3rd item on the CIP order regarding record restoration be changed from $100,000 to $50,000 following the workshop discussion. Seconded by Councilor Walker. The Council recommended that this request be included in the operational budget of the City Clerk's office going forward.

Motion passed 5-1 (Gerry opposed).

Motion for passage, as amended, passed 5-1 (Gerry opposed).

2. **ORDER 83-06032024** – Authorization for the City Manager to execute the Collective Bargaining Agreement between the City of Auburn and the IAMAW AFL-CIO Union for Custodians and Maintenance covering 07/01/2024 to 06/30/2027. Passage requires majority vote.

Motion for passage by Councilor Walker, seconded by Councilor Platz.

No comment from public. Motion passed 6-0.

5. **ORDER 84-06032024** – Initiating Zoning Map amendment in the area of 550 Minot Avenue from T4.2B to General Business. Passage requires majority vote.

Motion for passage by Councilor Milks, seconded by Councilor Walker.

No comment from public. Motion passed 6-0.

6. **ORDER 85-06032024** – Initiating Zoning Map amendment in the Gracelawn Road/Pit Area from General Business to Multi-Family Suburban. Passage requires majority vote.

Motion for passage by Councilor Whiting, seconded by Councilor Walker.

No comment from public. Motion passed 5-1 (Gerry opposed).

VII. Open Session

VIII. Reports

a. Mayor's Report – Attended the Memorial Day Remembrance at Veterans Park with Councilors Whiting, Weisner, and Walker. Attended the dedication of the Pettingill Park softball fields in memory of Joe Walker and Tricia Asselin. Recognized the Pride march held down Auburn and into Lewiston held this past weekend.

b. City Councilors' Reports – Councilor Gerry attended ELHS graduation and congratulated new graduates. Councilor Whiting shared a quote in memory of Joe Walker. Councilor Walker thanked the City and everyone involved in recognizing Joe and Tricia and shared that on June 11, Age Friendly Committee will meet at the Senior Center. Councilor Platz followed up on the School Department's recent budget changes.

Student Representative Report – Representative Egge **r**ecognized ELHS students who graduated; had a 95% graduation rate.

c. City Manager Report – Commented on the balloon festival; August 16-18 and will be known as the Lewiston-Auburn Balloon Festival. The Parade will start in Auburn. Classic Car Show will be held in Lewiston; along with a beer garden and vendors in Festival Plaza. There was $10,000 appropriated to the festival; this will be allocated to the new balloon festival. More updates will be forthcoming.

d. March 2024 Finance Report – Kelsey Earle, Finance Director – Motion to accept finance report by Councilor Walker, seconded by Councilor Milks. Motion passed 6-0.

IX. Executive Session pursuant to Title 1 M.R.S.A. Section 405(6)(A) for a personnel matter. Passage requires 3/5 majority vote to enter Executive Session. Motion to enter at 7:36pm by Councilor Gerry, seconded by Councilor Milks. Motion passed 6-0. Council adjourned following Executive Session.

CITY CLERK

OFFICE OF THE MAYOR | CITY OF AUBURN, MAINE

PROCLAMATION | **WORLD REFUGEE DAY 2024**

WHEREAS, around the world, millions of people have been forced to flee their homes due to violence, persecution, and natural disasters, resulting in the worst refugee crisis in history; and,

WHEREAS, Maine is recognized as a welcoming state and offers hope and safety to all; and,

WHEREAS, many uprooted people have found safe haven in Auburn, bringing with them determination and optimism to contribute to our cultural, economic, and intellectual fabric; and,

WHEREAS, Auburn is home to businesses, schools, faith communities and civic organizations supporting refugees and providing a sense of belonging; and,

WHEREAS, the wisdom, experience and courage of refugees enrich our city and state; and,

WHEREAS, Auburn recognizes and celebrates Juneteenth – "Freedom Day" - on June 19th; and

WHEREAS, the remarkable determination of refugees to build a brighter future after great adversity inspires us all and brings beautiful diversity to our community;

NOW THEREFORE, I Jeffrey Harmon, Mayor of the City of Auburn, do hereby proclaim June 20, 2024, as **World Refugee Day** in Auburn.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 17th day of June, 2024.

Mayor Jeffrey D. Harmon

City of Auburn

Council Workshop or Meeting Date: June 17, 2024 **Order:** 82-06032024

Author: Kelsey Earle, Finance Director

Subject: Authorizing Issuance of General Obligation Bonds and A Tax Levy Therefor

---

Information: Annual Capital Improvement Projects for FY 24-25 that we are recommending for bonding. Order reflects the amendment of the Record Restoration line item from $100,000 to $50,000 determined at the 6/3/2024 Council meeting.

City Budgetary Impacts: This is a 10-year bond, interest only for FY25, then principal and interest payments for 10 years.

Staff Recommended Action: Passage of second reading

Previous Meetings and History: The 5 Year CIP Plan was discussed at several workshops and adopted at the 4/1/2024 Council meeting. First reading of the revised FY25 Capital Improvement Plan (CIP) was held 6/3/2024, and the order was amended to reflect discussion at the 5/20/2024 workshop. A public hearing notice was placed in the Sun Journal on 5/28/2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Amended Order 82-06032024

ORDER 82-06032024

City Council Order

IN CITY COUNCIL

ORDER - AUTHORIZING ISSUANCE OF GENERAL OBLIGATION BONDS AND A TAX LEVY THEREFOR

Following a public hearing duly called and held as required by Article 8, Section 8.13 of the City Charter, **by the Auburn City Council BE IT ORDERED:**

THAT, pursuant to Title 30-A, §5772 of the Maine Revised Statutes, as amended, the City Charter, as amended, and all other authority thereto enabling, there is hereby authorized the issue and sale of the City's general obligation bonds (the "Bonds") and notes in anticipation thereof (the "Notes"), in the principal amount not to exceed $16,565,750, the proceeds of which, including original issue premium, if any, and investment earnings thereon, are hereby appropriated to finance the capital equipment and capital improvements listed in Schedule 1 hereto (including costs of issuance for the Bonds)(the "Projects"), all constituting a part of the City's FY25 Capital Improvement Program.

THAT the Bonds and Notes shall be signed by the manual or facsimile signatures of the City's Finance Director and its Treasurer (provided that at least one of such signatures shall be a manual signature), attested by the City Clerk under the seal of the City.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the time of the sale, award and settlement of the Bonds and Notes, which may be issued at one time, or from time to time, through a public offering or a private placement, on a competitive or negotiated basis, in serial form or as term bonds, or some combination of any of the foregoing, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such Bonds and Notes, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent not payable from other funds, each year that any of the Bonds remain outstanding, the City shall levy a tax in an amount sufficient to pay the annual installment of principal and the annual interest on such Bonds.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to do or cause to be done all such acts and things necessary and expedient in respect in connection with the financing of the Projects and the issuance the Bonds and Notes, and the investment of the proceeds thereof, including to select a financial advisor, underwriter, or paying agent/registrar with respects to the Bonds and Notes, and to execute, deliver and approve all agreements, investment agreements, bond purchase agreements, preliminary and final official statements or other offering documents, escrow agreements, continuing disclosure agreements, tax compliance agreements, or arbitrage certificates, and all other closing certificates and documents (collectively referred to as the "Bond Documents"), which Bond Documents

City Council Order

may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, which waiver of sovereign or governmental immunity is hereby authorized, confirmed and approved, as the Finance Director shall establish, determine and approve, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent the Bonds or Notes are issues on a tax-exempt basis, the Finance Director is hereby authorized, in the name of and on behalf of the City:

- To covenant, agree and certify (A) that no part of the proceeds of such Bonds and Notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the Bonds or Notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and (B) that the City will file any required reports and take any other action that may be necessary to insure that interest on the Bonds or Notes will remain exempt from federal income taxation, and that the City will refrain from any action that would cause interest on the Bonds and Notes to be subject to federal income taxation; and

- To designate the Bond or Notes, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265(b)(3) of the Code, to the extent such designation is available and permissible under said Section 265(b)(3).

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the Bonds, Notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, in an interim or acting capacity, is hereby authorized, in the name of and on behalf of the District, to act for such official with the same force and effect as if such official had himself or herself performed such act.

THAT if any authorized representative of the City who has signed or sealed the Bonds or Notes shall cease to be such officers or officials before the Bonds or Notes so signed and sealed shall have been actually authenticated or delivered by the City, such Bonds or Notes nevertheless may be issued, delivered and authenticated with the same force and effect as though the person or persons who signed or sealed such Bonds or Notes had not ceased to be such officer or official; and also any such Bonds or Notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such Bonds or Notes, shall be the proper officers and officials of the City, although at the nominal date of such Bonds or Notes any such person shall not have been such officer or official.

THAT if the actual cost of any Project differs from the estimated cost, whether due to completion, delay or abandonment of such Project or for any other reason, the Finance Director is hereby authorized, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the Bonds and Notes to any other listed Project, or to any other project or improvement that the City Council has approved or may in the future approve as part of the City's annual capital improvement plan.

ORDER 82-06032024

City Council Order

THAT the authority to issue any Bonds or Notes not issued within 2 years of the date of approval of this Order shall automatically expire 2 years from the date of approval of this Order.

THAT notwithstanding the foregoing paragraph, during the term any of the Bonds issued pursuant to this Order remain outstanding, the Finance Director is hereby authorized, in the name of and on behalf of the City, to issue refunding bonds on either a current or advance refunding basis, to refund some or all of the Bonds then outstanding, and to establish, determine and approve the time of the sale, award and settlement of such refunding bonds, the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such refunding bonds, such establishment, determination and approval to be conclusively evidenced by the execution thereof, and to execute and deliver, in the name of and on behalf of the City, such additional Bond Documents as may be reasonable or necessary with respect to such refunding, and each refunding bond issued hereunder shall be signed in the same manner as the Bonds.

THAT prior to the issuance of the Bonds or Notes, the Finance Director is hereby authorized to expend available funds of the City to pay costs of the Projects (referred to as "original expenditures") which would be reimbursed from proceeds of the Bonds or Notes; to that end, the City hereby declares its official intent to reimburse itself for such original expenditures from the proceeds of such Bonds or Notes, and this Order shall constitute a Declaration of Official Intent pursuant to Treasury Regulation §1.150-2, and shall be kept available for public inspection during reasonable business hours at the office of the City Clerk.

A notice describing the above borrowing and the general purpose of such borrowing was published on or before June 3, 2024, in the *Sun Journal*, a daily newspaper of general circulation published in the City of Auburn and in Androscoggin County.

NOTE: Must be approved by roll call vote.

Council Workshop or Meeting Date: June 17, 2024 **Order:** 86-06172024

Author: Emily F. Carrington, City Clerk

Subject: Request from Age Friendly Community Committee to waive $60 Temporary FSE license fee

---

Information: The City's Age Friendly Community Committee has applied to operate concessions stand in Festival Plaza on Wednesdays from June 26, 2024 through August 21, 2024 and has requested the $60 license fee be waived as proceeds from the concessions stand will serve as a fundraiser for the committee.

City Budgetary Impacts: N/A

Staff Recommended Action: Consideration of the request to waive the $60 license fee.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

RE: Permit Fee Waiver

To whom it may concern:

I am writing on behalf of the Age-Friendly Community Committee with regard to our intent to operate a concession stand on Wednesday evenings from June 26th through August 21st, 2024, for the purpose of fund raising for committee events, such as free meals, clothing give-aways, holiday celebrations, Hello-Ween participation, etc. We will sell refreshments and beverages from the small concession stand located at the Festival Plaza site.

As a city committee, we respectfully request that the $60.00 permit fee be waived.

Thank you, in advance, for any consideration you give our request.

Sincerely,

AGE-FRIENDLY COMMUNITY COMMITTEE

Leroy G. Walker, Sr.
Committee Chairman

PLEASE BE ADVISED THAT THE APPLICANT MAY BE REQUIRED TO COMPLY WITH THE FOLLOWING CONDITIONS:

Applicant agrees to have two counters or clickers at each entrance. One will be used to document the patrons that have entered the establishment. The second will be used to document the patrons that have exited the establishment. This will give the staff and public safety personnel an accurate count of patrons in the establishment.

Applicant agrees to have the maximum seating and or occupancy capacity clearly listed in each room that is open to the public, and to have security and or staff stationed at all times at all entrances and exits used by the public.

Applicant agrees to, if so ordered by the Chief of Police, to hire sworn members of the Auburn Police Department for security. The rate will be at the current City of Auburn detail rate. These officers will supplement the existing staff or security.

The below chart will be used as a guide in determining the numbers of officers required.

Number of Attendees	Number of Police
1 - 200	2
201 - 400	4
401 - 600	6
601+	One supervisor and one additional officer for each 200 attendees or portion thereof in excess of 601

All requests for modification(s) of the approved Special Amusement license must be submitted in writing to the City of Auburn. Any changes made without approval from the City of Auburn may result in an immediate suspension of the license. Signature on application releases the Auburn Police Department, its agents and representatives from any and all liability of every nature and kind arising out of the furnishing, inspection or collection of such documents, records and other information or the investigation made by the Auburn Police Department.

I do hereby authorize Auburn Police Department and its agents to receive copies of records and/or any information concerning my background, character, bank accounts, businesses, places of employment, schools and any other source necessary for the purpose of obtaining a Special Amusement License.

I have read and understand section 14-600 to 14-609, Special Amusement Permits, of the City of Auburn's business license ordinance._____**(Initial)**

Monthly Financial Report
April 2024

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending April 30, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending April 30, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its seventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 83.33% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through April 2024 were **$100.7M** or **88.93%** of budgeted general fund revenue, as compared to **$94.9M** of actual revenues through April 2023.

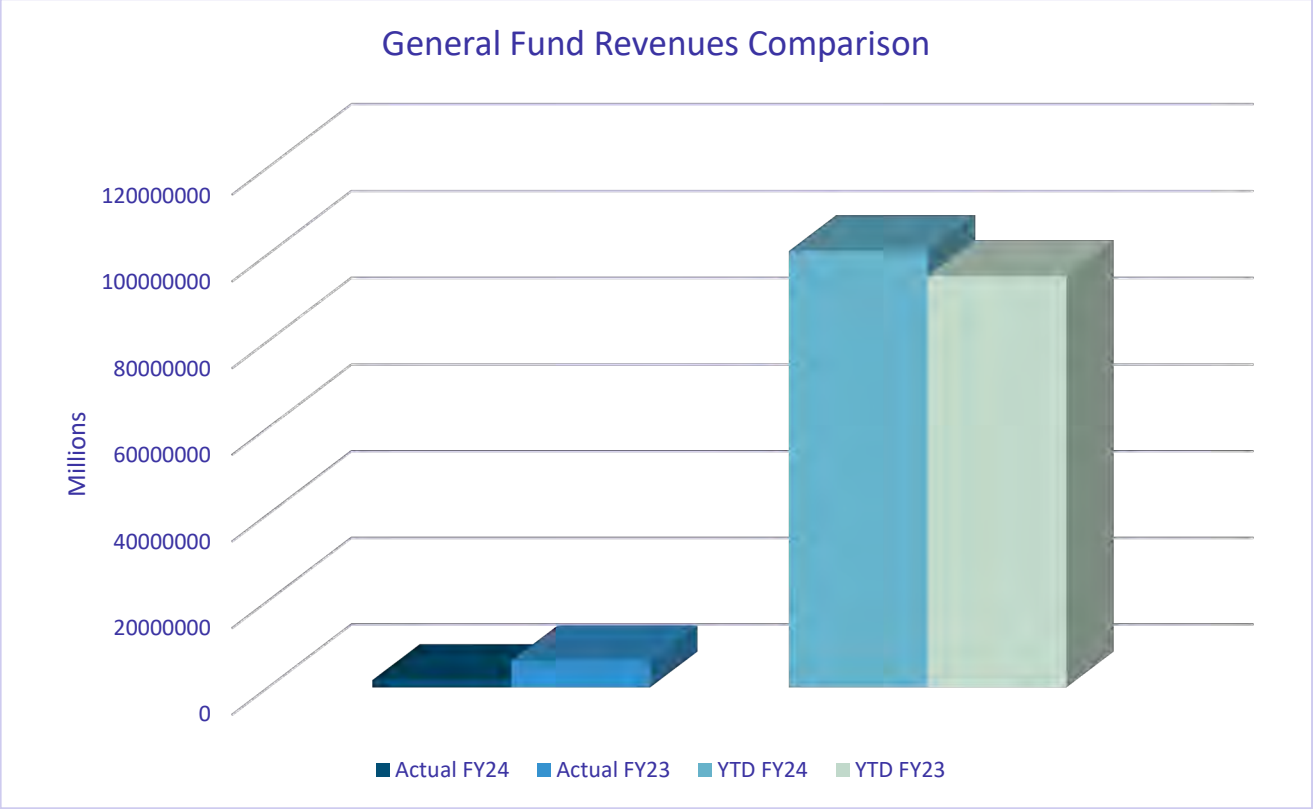
•Year-to-date tax revenues were **1.39% higher** than the prior year.

• Intermodal rental income increased by **$13,930** YTD, **47% higher** than FY23.

Expenditures

• Expenditures through April 2024 were **$80.4M** or **70.49%** of the budget, as compared to **$80.8M** of actual expenditures through April 2023.

•Most significant decreases can be found in OT and Utilities.



Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

General Fund

for the Period Ended April 30, 2024

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: June 17, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) for City Manager's annual review.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Meeting
Agenda
July 1, 2024
Auburn Hall, Council Chambers

5:30 PM Workshop

- Discussion (Zoom): Auburn Housing - Marty Szydlowski, Executive Director, Auburn Housing Authority
- Discussion: Special Events – Liz Allen, Communications Director
- **Executive Session** pursuant to Title 1 M.R.S.A. Section 405(6)(A) for a personnel matter. *Requires 3/5 majority vote to enter Executive Session.*

7:00 PM Meeting

Pledge of Allegiance & Roll Call - *Roll call votes will begin with Councilor Cowan*

I. **Consent Items** – *All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda.*

II. **Minutes** – June 17, 2024 Regular Council Meeting

III. **Communications, Presentations and Recognitions**

IV. **Open Session** – *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. **Unfinished Business**

VI. **New Business**

1. **ORDINANCE 11-07012024 -** City Council initiated a **text amendment** to Chapter 60 Article XIII Division 2- Phosphorous Control. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

2. **ORDINANCE 12-07012024 -** City Council initiated a **text amendment** to Chapter 60 Article IV Division 3- Low Density Country Residential District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is

pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

3. **ORDINANCE 13-07012024 -** City Council initiated a **text amendment** to Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

4. **ORDINANCE 14-07012024 -** Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

5. **ORDINANCE 15-07012024 -** Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

6. **RESOLVE 6-07012024 -** Resolve calling on the Lake Auburn Watershed Protection Commission to Fund Subsurface Wastewater System Inspections in the Lake Auburn Watershed. *Passage requires majority vote.*

7. **ORDINANCE 16-070102024** - City Council initiated a zoning **text amendment** to Chapter 60, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII Division 2-Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

8. **ORDINANCE 17-07012024** – Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

9. **ORDER 87-07012024** – Allocating $70,000 in ARPA funds for Auburn housing study. *Passage requires majority vote.*

10. **ORDER 88-07012024** – Allocating $40,000 in APRA funds for food insecurity. *Passage requires majority vote.*

11. **ORDER 89-07012024** – Repurposing 121 Mill Street as a community resource center. *Passage requires majority vote.*

12. **ORDER 90-07012024** – Allocating $438,702.83 in APRA funds for the 121 Mill Street Resource Center and relocating the Business & Community Development Department. *Passage requires majority vote.*

VII. **Open Session** - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 1, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss a personnel matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

At 5:30pm, Councilor Gerry moved to enter executive Session pursuant to Title 1 M.R.S.A. Section 405(6)(C) for discussion of an economic development matter. Seconded by Councilor Walker. Motion passed 7-0. Council came out of executive session at 6:37pm.

Mayor Harmon called the meeting to order at 7:00P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

II. Minutes – June 3, 2024 Regular Council Meeting
Motion made by Councilor Walker to accept the minutes, seconded by Councilor Platz. Motion passed with 6 votes in favor, 1 abstention (Weisner).

III. Communications, Presentations and Recognitions

Mayor Harmon announced the School Budget Referendum Certified Official Results from the June 11, 2024 election. The school budget passed.

Mayor Harmon read the Proclamation for World Refugee Day 2024.

IV. Open Session

There were no speakers from the public.

V. Unfinished Business

1. Order 82-06032024 - Authorizing the City's general obligation bonds in the amount of $16,565,750 to finance the City's FY25 Capital Improvement Program. Amended and passed first reading on June 6, 2024. Public hearing. ROLL CALL VOTE. Passage requires an affirmative vote of 5 Councilors at the second reading.

Motion for passage by Councilor Whiting, seconded by Councilor Walker.

The Mayor opened the item for public hearing. There was no comment. The Mayor closed the public hearing. The Finance Director clarified the interest rate is 3.5%. Motion passed 6-1 (Gerry opposed).

VI. New Business

1. Order 86-06172024 – Authorizing the City Clerk to waive the $60 business license fee for the Age Friendly Community Committee's concessions stand in Festival Plaza on Wednesday evenings from June 26, 2024 through August 21, 2024. Passage requires majority vote.

Motion for passage by Councilor Gerry, seconded by Councilor Walker. Councilor Walker explained this would be in conjunction with the concert series on Wednesday evenings. Motion passed 7-0.

VII. Open Session

There were no speakers from the public.

VIII. Reports

a. **Mayor's Report** - The Mayor spoke of attending several ribbon cuttings for local businesses. Attended the Auburn Adult Education graduation. Attended portrait unveiling at Bates in Lewiston. Announced there will be a special city council meeting on 6/24 at 5:30pm for two items – septic issues and homeless services.

b. **City Councilors' Reports** - Councilor Whiting thanked Police and Fire for outstanding job this weekend. Councilor Cowan said there was a meeting of the ad-hoc homeless committee happening this week. Councilor Weisner thanked Police and Fire, asked for an update on the L/A Balloon Festival. Councilor Walker commented on the Age Friendly's concessions stand in Festival Plaza starting on 6/26. Councilor Platz recognized passing the School Budget, thanked the School Department for putting together a responsible budget.

c. **Student Representative Report -** None.

d. **City Manager Report -** Gave a brief Capital Infrastructure Projects Update (this item was moved from the Workshop agenda). The PAL center is being built; ground breaking ceremony will occur on July 12. Goal is to have this completed by July 2025. Beginning Engine 2 building behind current building. Public Safety Facility ad-hoc committee met with Landry French and will tour the Scarborough Public Safety facility; to begin site work and ready for move-in in late 2027. 67 Kittyhawk timeline is to be move in ready in 2028 for Fire Services. A team is monitoring the heat and weather concerns for this upcoming week, expected weather in the 90s; a cooling center will be at the Norway Savings Bank Arena and Library will be available during normal business hours. Thanked the public safety staff and other staff and surrounding partners for responding to the crisis this weekend. Updated the Council on the L/A Balloon Festival; funds are currently being raised, vendors are being secured, Liz Allen (Communications Director) will be coordinating for Auburn.

e. **April 2024 Finance Report** was presented by Kelsey Earle, Finance Director. Motion to accept the report made by Councilor Walker, seconded by Councilor Milks. Passed 7-0.

Councilor Cowan made a motion to enter Executive Session pursuant to Title 1 M.R.S.A. Section 405(6)(A) for City Manager's annual review at 7:28pm, seconded by Councilor Walker. Motion passed 7-0.

The Council came out from executive session at 7:40pm.

X. Adjournment

Motion to adjourn made by Councilor Walker, seconded by Councilor Milks. Motion passed 7-0.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance: 11-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: First Reading on Chapter 60 Article XIII Division 2- Phosphorous Control Ordinance Amendments

---

Information: The proposed amendments pertain to septic system installation, maintenance and replacements and new development. Specifically, it lowers the "acceptable increase" of Phosphorous which can be discharged into Lake Auburn and lowers the acreage of developable land to reflect the reduced, potentially developable, acreage and phosphorus allocations after the changes to lot sizes and use regulations were made last December. This amendment follows orders 04-01022024 and order 71-05062024.

The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953 and made a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 2 Phosphorus Control, Sec. 60-1065, and Sec.60- 1069. Staff notes that there was a clerical error in the planning board draft that we are asking the Council to vote to amend as part of the vote tonight. The details for the number changes to developable acreage and phosphorus allocations were presented to Planning board and Council during previous workshops and the Planning Board Public Hearing.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Staff recommends that the Council hold first reading and vote on this item. Second reading and Public Hearing will be on July 15, 2024.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop and public hearing on May 14.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Ordinance, Article XIII Division 2-Phosphorous Control Proposed Text Amendment, May 14
Planning Board Recommendation, Phosphorous Allocations

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Phosphorous Control Text Amendment in the Lake Auburn Watershed

The following is the report from the Planning Board regarding text amendments pertaining to Phosphorous loading within the Lake Auburn Watershed. After notice and Public Hearings held on May 14th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article XIII Division 2- Phosphorous Control. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Note from Staff: There was a clerical error in one of the phosphorous calculations.

Motion: Ryan Smith makes a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 2 Phosphorus Control, Sec. 60-1065, and Sec.60- 1069.
Second: Paul Jaques,
Vote: 6-1-0. Motion Carries

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is ~~0.5~~ .25

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is ~~1,180.0~~ 150

~~L~~*ake Auburn* means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~65~~; for Lake Auburn, the phosphorus allocation is 0.02~~047~~.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is ~~109.9~~ 3.74 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

rev 8/20/2021	C changed to 0.5 ppb due to 2012 bloom and alum treatment in water supply						

DIVISION 2. PHOSPHORUS CONTROL

Sec. 60-1064. Purpose.

(a) The purpose of this division is to provide protection against additional phosphorus export to Taylor Pond and Lake Auburn from new land uses and changes in existing land uses by ensuring that development within the watersheds does not generate more phosphorus than the water bodies can handle and by eliminating or reducing existing sources of phosphorus.

(b) Phosphorus, a nutrient, stimulates algal growth, the main cause of water quality decline. The primary source of new and increasing phosphorus loading in the state lakes is land development: residential, commercial and industrial.

(Ord. of 9-21-2009, § 5.7A)

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is .25.~~0.5.~~

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is ~~1,180.0.~~ .150.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~6~~5; for Lake Auburn, the phosphorus allocation is 0.0~~47~~20.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is ~~109.9~~ 3.74 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-1066. Applicability.

This division shall apply to all land areas within the direct watersheds of Taylor Pond and Lake Auburn. The following land uses shall be required to obtain a phosphorus control permit and conform to the standards contained in this division:

(1) Any new building or structure with more than 200 square feet of ground floor area.

(2) Any expansions or series of expansions of ground floor area of any existing building which increases the area of the ground floor by more than 30 percent of that which exists at the time of adoption of the ordinance from which this division is derived.

(3) Any earth moving, brush and tree cutting which impacts 10,000 square feet or more whether accomplished as a single activity or as a series of activities beginning on the date of adoption of the ordinance from which this division is derived shall only meet the criteria contained in section 60-1069.

(4) Road or driveway construction and reconstruction and parking area construction which affects more than 1,500 square feet of land area whether accomplished as a single activity or as a series of activities beginning on the date of adoption of the ordinance from which this division is derived shall only meet the criteria contained in section 60-1069.

(5) All projects for which special exception, site plan and subdivision review is required.

(Ord. of 9-21-2009, § 5.7C; Ord. No. 15-05022022, 5-16-2022)

Sec. 60-1067. Exemptions.

This division shall not apply to the following:

(1) Changes of use within an existing structure where no ground floor expansion and/or road, driveway and parking area expansion is planned.

(2) Timber management or harvesting operations conducted according to a management plan prepared and supervised by a registered forester (unless required by division 4 of article XII of this chapter) or the city water district.

(3) Agricultural uses conducted according to a soil and water conservation plan approved by the Androscoggin County Soil and Water Conservation District.

(Ord. of 9-21-2009, § 5.7D)

Sec. 60-1068. Best management practices.

Agriculture, silviculture, mining, chemical use and storage and waste disposal activities should be conducted in accordance with the best management practices (BMPs) as recommended by the department of environmental protection, the state soil and water conservation commission, the cooperative extension service or other appropriate public service agency. New roads and the reconstruction of existing roads, driveways, drainage diversions, ditches and roadside buffers should be designed for the worst storm conditions in accordance with the best management practices (BMPs) recommended by the department of environmental protection, the state soil and water conservation commission, the cooperative extension service or other appropriate public service agency.

(Ord. of 9-21-2009, § 5.7E)

Sec. 60-1069. Erosion and sedimentation controls.

A comprehensive erosion and sedimentation control plan, including a proposed program for the maintenance and periodic inspection of all control facilities which will remain after the project is completed and a designation of the responsible party, shall be submitted to the city planning, permitting, and code department as follows:

(1) In the Taylor Pond Watershed~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of the~~ the latest edition of Maine Department ~~of~~ Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual Volume III, March 2016. ~~DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and sediment Control Handbook and all building and environmental protection requirements of this Code. For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(2) In the Lake Auburn Watershed Overlay District~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of~~ the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual III, March 2016,~~. DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and Sediment Control Handbook, and all building and environmental protection requirements of this Code ~~and criteria of the city water district or commission.~~ For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(Ord. of 9-21-2009, § 5.7F)

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016.

(1) *Plan submission.* Plans shall be submitted and processed in accordance with article XVI of this chapter. In addition to the requirements for submission under this article, the following instructions shall be provided:

a. A long-term maintenance plan for all phosphorus control measures including provisions for inspection and repair, designation of responsible parties, contractual obligations and proposed deed restrictions.

b. Hydrologic soil class of all areas to be cleared or where clearing will be permitted, with the area indicated in square feet of each lot using the appropriate method as described in the phosphorus control manual.

c. All calculations and worksheets in the format of those contained in the phosphorus control manual and detailed construction specifications and diagrams for all control measures.

d. A comprehensive erosion and sedimentation control plan, designed in accordance with the latest version of Maine Erosion and Sediment Control Handbook for Construction: Best Management

Practices, ~~March 1991~~ October 2016, and all building and environmental protection requirements of this Code.

(2) *Review method.*

a. All projects shall use the standard review method and shall conform to the Phosphorus Allocation standard set forth in this division including the following: Expansions of four lot subdivisions which were previously approved using the simple review method.

b. Projects meeting the following criteria may employ the simple review method:

1. Minor subdivisions with four or fewer lots provided that these developments contain less than 200 feet of new or upgraded roads and/or all driveways serving residential uses are less than 150 feet in length.

2. Activity which includes less than 200 feet of new or upgraded road construction.

(3) *Commercial and industrial development and expansions.* Commercial and industrial development and expansions of commercial and industrial developments and the expansion of multifamily dwelling units, which involve less than 15,000 square feet of disturbed area. All other subdivisions including expansions of previously approved four-lot subdivisions which were reviewed using the simple review method and all other projects shall utilize the standard review method.

(Ord. of 9-21-2009, § 5.7G; Ord. No. 11-03012021, § 81, 3-15-2021; Ord. No. 10-03072022, 3-21-2022)

Secs. 60-1071—60-1093. Reserved.

Ordinance #11-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHOROUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is .250~~0.5.~~

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 150 ~~1,180.0.~~.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~65~~; for Lake Auburn, the phosphorus allocation is 0.04~~72~~0.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 3.74 ~~109.9~~ lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

Sec. 60-1069. Erosion and sedimentation controls.

A comprehensive erosion and sedimentation control plan, including a proposed program for the maintenance and periodic inspection of all control facilities which will remain after the project is completed and a designation of the responsible party, shall be submitted to the city planning, permitting, and code department as follows:

(1) In the Taylor Pond Watershed~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of the~~ the latest edition of Maine Department ~~of~~ Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual Volume III, March 2016. ~~DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and sediment Control Handbook and all building and environmental protection requirements of this Code. For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(2) In the Lake Auburn Watershed Overlay District~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of~~ the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual III, March 2016~~. DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and Sediment Control Handbook, and all building and environmental protection requirements of this Code ~~and criteria of the city water district or commission.~~ For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(Ord. of 9-21-2009, § 5.7F)

● ● ●

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016.

(1) *Plan submission.* Plans shall be submitted and processed in accordance with article XVI of this chapter. In addition to the requirements for submission under this article, the following instructions shall be provided:

a. A long-term maintenance plan for all phosphorus control measures including provisions for inspection and repair, designation of responsible parties, contractual obligations and proposed deed restrictions.

b. Hydrologic soil class of all areas to be cleared or where clearing will be permitted, with the area indicated in square feet of each lot using the appropriate method as described in the phosphorus control manual.

c. All calculations and worksheets in the format of those contained in the phosphorus control manual and detailed construction specifications and diagrams for all control measures.

d. A comprehensive erosion and sedimentation control plan, designed in accordance with the latest version of Maine Erosion and Sediment Control Handbook for Construction: Best Management Practices, ~~March 1991~~ October 2016, and all building and environmental protection requirements of this Code.

(2) *Review method.*

a. All projects shall use the standard review method and shall conform to the Phosphorus Allocation standard set forth in this division including the following: Expansions of four lot subdivisions which were previously approved using the simple review method.

b. Projects meeting the following criteria may employ the simple review method:

1. Minor subdivisions with four or fewer lots provided that these developments contain less than 200 feet of new or upgraded roads and/or all driveways serving residential uses are less than 150 feet in length.

2. Activity which includes less than 200 feet of new or upgraded road construction.

(3) *Commercial and industrial development and expansions.* Commercial and industrial development and expansions of commercial and industrial developments and the expansion of multifamily dwelling units, which involve less than 15,000 square feet of disturbed area. All other subdivisions including expansions of previously approved four-lot subdivisions which were reviewed using the simple review method and all other projects shall utilize the standard review method.

(Ord. of 9-21-2009, § 5.7G; Ord. No. 11-03012021, § 81, 3-15-2021; Ord. No. 10-03072022, 3-21-2022)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance: 12-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: First Reading on Amendment to Article IV Division 3- LDCR Setbacks.

Information: City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District as part of order 04-01022024 and order 71-05062024. The proposed amendment is to reduce the minimum front yard setback in the Low-Density Country Residence District to reduce disturbed and impervious area, and therefore the potential nutrient runoff to the lake possible from any new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

The Planning Board recommended that City Council to amend text to Chapter 60, Article II General Provisions, Division 3, Low Country Density Residential, Sec. 60-202 as shown in the attached meeting materials.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Staff recommends that the Council hold first reading and vote on this item. Second Reading and Public Hearing will be on July 15, 2024.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop and public hearing on May 14 and forwarded a favorable recommendation.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Ordinance, Article IV Division 3-LDCR Proposed Text Amendment, May 14 Planning Board Recommendation.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Text Amendment (LDCR minimum setback)

The following is the report from the Planning Board regarding text amendments pertaining to increasing the minimum setback in the LDCR district to reduce runoff within the Lake Auburn Watershed. After notice and Public Hearings held on May 14th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Motion: Ryan Smith makes a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 3, Low Country Density Residential, Sec. 60-202.

Second: Paul Jacques

Dave Trask asks for clarification that this item is just changing the minimum setback for building form 50' to 25'. That is confirmed.

Vote: 7-0-0 Motion Carries.

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-200. Purpose.

The purpose of this zone is to maintain and promote the rural/agricultural character of the land within this zone. This zone is composed of those areas in the city whose predominant land use is rural, wooded and agricultural. The regulations for this zone are designed to protect and stabilize these predominant land uses which are the essential characteristics of these areas and to minimize conflicting land uses detrimental to agricultural enterprises. Since residences are only incidental to this zone's development, the densities which require improved roads and expanded municipal services, in excess of those required by the present agricultural-oriented uses, shall not be permitted.

(Ord. of 9-21-2009, § 3.32A)

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for

domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less, unless the lot is in the Lake Auburn Watershed Overlay District in which case the front yard shall have a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.32C; Ord. No. 11-03012021, §§ 10, 11, 3-15-2021)

Secs. 60-203—60-227. Reserved.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance: 13-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: First reading on text amendments to Lake Auburn Watershed Overlay District

Information: The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953.

The text amendments presented here were proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

The planning board recommended three amendments or conditions on the motion to forward a favorable recommendation to city council to amend text to Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec. 60-952 and Sec. 60-953. The amendments/conditions included 1.) Add a comma to page 5, Sec. 6 before the word LAWPC, 2.) Obtain legal opinion on Title 30-A Sec. 4360 Rate of Growth Ordinance and confirm if we can set a rate of 3 units per year 3.) That effective date of the inspection program be delayed 1 year and until there is a dedicated pool of funding available for SSWW System owners.

The City has obtained the requested legal opinion requested by the planning board and the provision does not violate the Statute. The city is also pursuing funding opportunities for septic inspections as was discussed at the workshop and you will vote on tonight. The comma correction has been added to the ordinance text as a clerical error.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Staff recommends that the Council hold first reading and vote on this item.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop on this text amendment on May 14, and made a positive recommendation on June 18.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Text Amendment (Septic Systems & New Development)

The following is the report from the Planning Board regarding text amendments pertaining to new development and new, upgraded, and replacement septic systems in the Lake Auburn Watershed Overlay District. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: The Planning Board is to review text updates to Article II General Provisions, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

Summary and Discussion: The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953. The planning board discussed how to best achieve the goal of recommending the text amendment only if a few amendments were addressed. They made the motion, made four (4) amendments to their original motion, and then voted to forward a favorable recommendation to the Council for this text change if the amendments were considered.

Motion: Ryan Smith makes a motion: I make a motion to forward a favorable recommendation to city council to amend text to Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec. 60-952 and Sec. 60-953. **Second:** Bob Hayes seconds the motion.

Amendment: Riley makes an amendment to add a comma to page 5 sec 6 before the word LAWPC **Second:** Ryan Smith seconds the amendment.
Amendment passes 5-0-0

Amendment: Bob Hayes moves that we delay the implementation of the inspection program for a full year. **Second:** Ryan Smith seconds. **Amendment passes 5-0-0**

Amendment: Dave Trask makes an amendment that we remove the maximum of three dwellings in the first paragraph in Sec. 8. **Second:** Ryan Smith seconds.
Vote: 3-2-0 motion does not pass (4 votes are needed to pass a motion).

Amendment: Dave Trask makes an amendment to request legal opinion on Title 30-A Sec. 4360 Rate of Growth Ordinance to have legal opinion to confirm that it is within the municipality as stated in Sec. 3, paragraph B.
Second: Riley Bergeron seconds the amendment.
Vote: 4-1-0 amendment passes.

Amendment: Riley Bergeron makes one more amendment that the effective date of the inspection program be delayed until there is a dedicated pool of funding available for septic owners. **Second:** Ryan Smith seconds this amendment.
Vote: 4-1-0 amendment passes.

Vote on motion with amendments: 5-0-0 motion passes.

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210

To: Auburn Planning Board
From: John Blais, Deputy Director of Planning & Permitting
Re: Item #5 Text and Map Amendments Related to Lake Auburn Stakeholders Group
Date: June 18, 2024

I. PROPOSAL: The Planning Board is to review text updates to Article II General Provisions, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024. (See attached redlined items)

II. DEPARTMENT REVIEW:

- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

III. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

IV. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:

C.) Lake Auburn Overlay District: This item is on the Planning Board agenda as a public hearing item. Staff recommends the Planning Board have a discussion and a make a formal recommendation to the City Council to the text amendments in Chapter 60, Article II General Provisions, Division 4, Lake Auburn Watershed Overlay District, Sec. 60-951, Sec. 60-952, and Sec.60-953.

Staff recommends this text change as it clarifies and updates the following: Definitions, Update the SSWW rules, Drinking Water Program Review, Septic System Inspection Program, Limit new systems/homes in the watershed, mechanisms for enforcement, and updates to shoreland zoning setbacks.

POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 4 Lake Auburn Watershed Overlay District, Sec. 60-951, Sec.60-952 and Sec. 60-953.

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department~~department of planning and permitting services~~ and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within ~~such section~~the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Building has the same meaning as in section 60-2.

Curtain drain means a ~~tranch~~ trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:

(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and

(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Normal high-water line and Normal high-water mark means that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and ~~consistence~~consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be ~~Also sometimes~~ referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems*.

(~~b~~a) ~~*Residential d*~~*Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in ~~the~~ that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(~~f~~b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration. ~~The following regulations shall be adhered to in the development of private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design ~~criteria~~ requirements are met before the ~~LPI~~ local plumbing inspector finds the design or installation of the system to comply with this section.

(2) N~~o n~~ew (first use), expanded, or replacement disposal field~~s~~ shall be set back from~~installed closer than 400 feet to~~ the normal high-water mark of any lake, pond, ~~or year-round or intermittent stream~~stream, or brook ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~ as follows:

~~a. Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

~~(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.~~

(~~4~~3) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.~~either have:~~

a. ~~A c~~Curtain drain installed per Section ~~11~~12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (~~2015~~2023), as may be amended from time to time; or

b. ~~A d~~Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length ~~(~~including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any ~~under drain~~ short circuiting of the disposal field~~),~~

~~whichever installation in determined to be the most appropriate based on the evaluation of groundwater conditions on the site by a state licensed site evaluator.~~

~~The local plumbing inspector shall require that a state licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this section.~~

(~~5~~4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(~~5~~6) Commencing July 1, 2024, ~~LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every five years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.~~ the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated March 19, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector.

Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of

Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection.

The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,

2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and

2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Water Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(~~7~~6) ~~The Auburn Water District~~In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or ~~housing inspector~~code enforcement officer of

any observed defects or malfunction that require ~~abatement~~ corrective action by the property owner or operator.

(~~8~~7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to ~~the Auburn Water District or its designee~~LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted.

The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.

Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural uses.* Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if:

(1) The owner or operator first demonstrates to LAWPC's watershed manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff; and

(2) LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) *Manure and sludge disposal.* Spreading and disposal of sludge is prohibited. All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.

3. *Enforcement*

The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

~~All~~ Any new or expanded buildings ~~and~~ or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than ~~75~~ 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within ~~75~~ 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

Per-Acre Phosporus Allocations for Selected Lakes

Ordinance #13-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XII. ENVIRONMENTAL REGULATIONS

● ● ●

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

● ● ●

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department~~department of planning and permitting services~~ and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within ~~such section~~the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Building has the same meaning as in section 60-2.

Curtain drain means a ~~tranch~~ trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:

(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and

(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large
Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor
Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Ordinance

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Normal high-water line and Normal high-water mark means that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and ~~consistence~~consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be ~~Also sometimes~~ referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

City Council Ordinance

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

● ● ●

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems.*

(~~b~~a) ~~*Residential d*~~*Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in ~~the~~ that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(~~f~~b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration. ~~The following regulations shall be adhered to in the development of private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design ~~criteria~~ requirements are met before the ~~LPI~~ local plumbing inspector finds the design or installation of the system to comply with this section.

(2) N~~o n~~ew (first use), expanded, or replacement disposal field~~s~~ shall be set back from~~installed closer than 400 feet to~~ the normal high-water mark of any lake, pond, ~~or year-round or intermittent streams~~stream, or brook ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~ as follows:

~~a. Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

~~(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.~~

(43) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.~~either have:~~

a. ~~A c~~Curtain drain installed per Section ~~11~~12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (~~2015~~2023), as may be amended from time to time; or

b. ~~A d~~Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length ~~(~~including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any ~~under drain~~ short circuiting of the disposal field~~),~~

~~whichever installation in determined to be the most appropriate based on the evaluation of groundwater conditions on the site by a state licensed site evaluator.~~

~~The local plumbing inspector shall require that a state licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this section.~~

(~~5~~4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(~~6~~5) Commencing July 1, 2024, ~~LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every five years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.~~ the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated March 19, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

City Council Ordinance

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector. Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection. The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,
2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and
2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Water Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(~~7~~6) ~~The Auburn Water District~~In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or ~~housing inspector~~code enforcement officer of any observed defects or malfunction that require ~~abatement~~ corrective action by the property owner or operator.

(~~8~~7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to ~~the Auburn Water District or its designee~~LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted. The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.
Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural uses.* Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if:

(1) The owner or operator first demonstrates to LAWPC's watershed manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff; and

(2) LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) *Manure and sludge disposal.* Spreading and disposal of sludge is prohibited. All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved

by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.

3. *Enforcement*

The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

● ● ●

Sec. 60-953. Dimensional regulations; building setbacks.

~~All~~ Any new or expanded buildings ~~and~~ or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than ~~75~~ 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within ~~75~~ 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance: 14-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: First Reading of a Zoning Map Amendment regarding a Subsurface Wastewater System Inspection Map in the Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

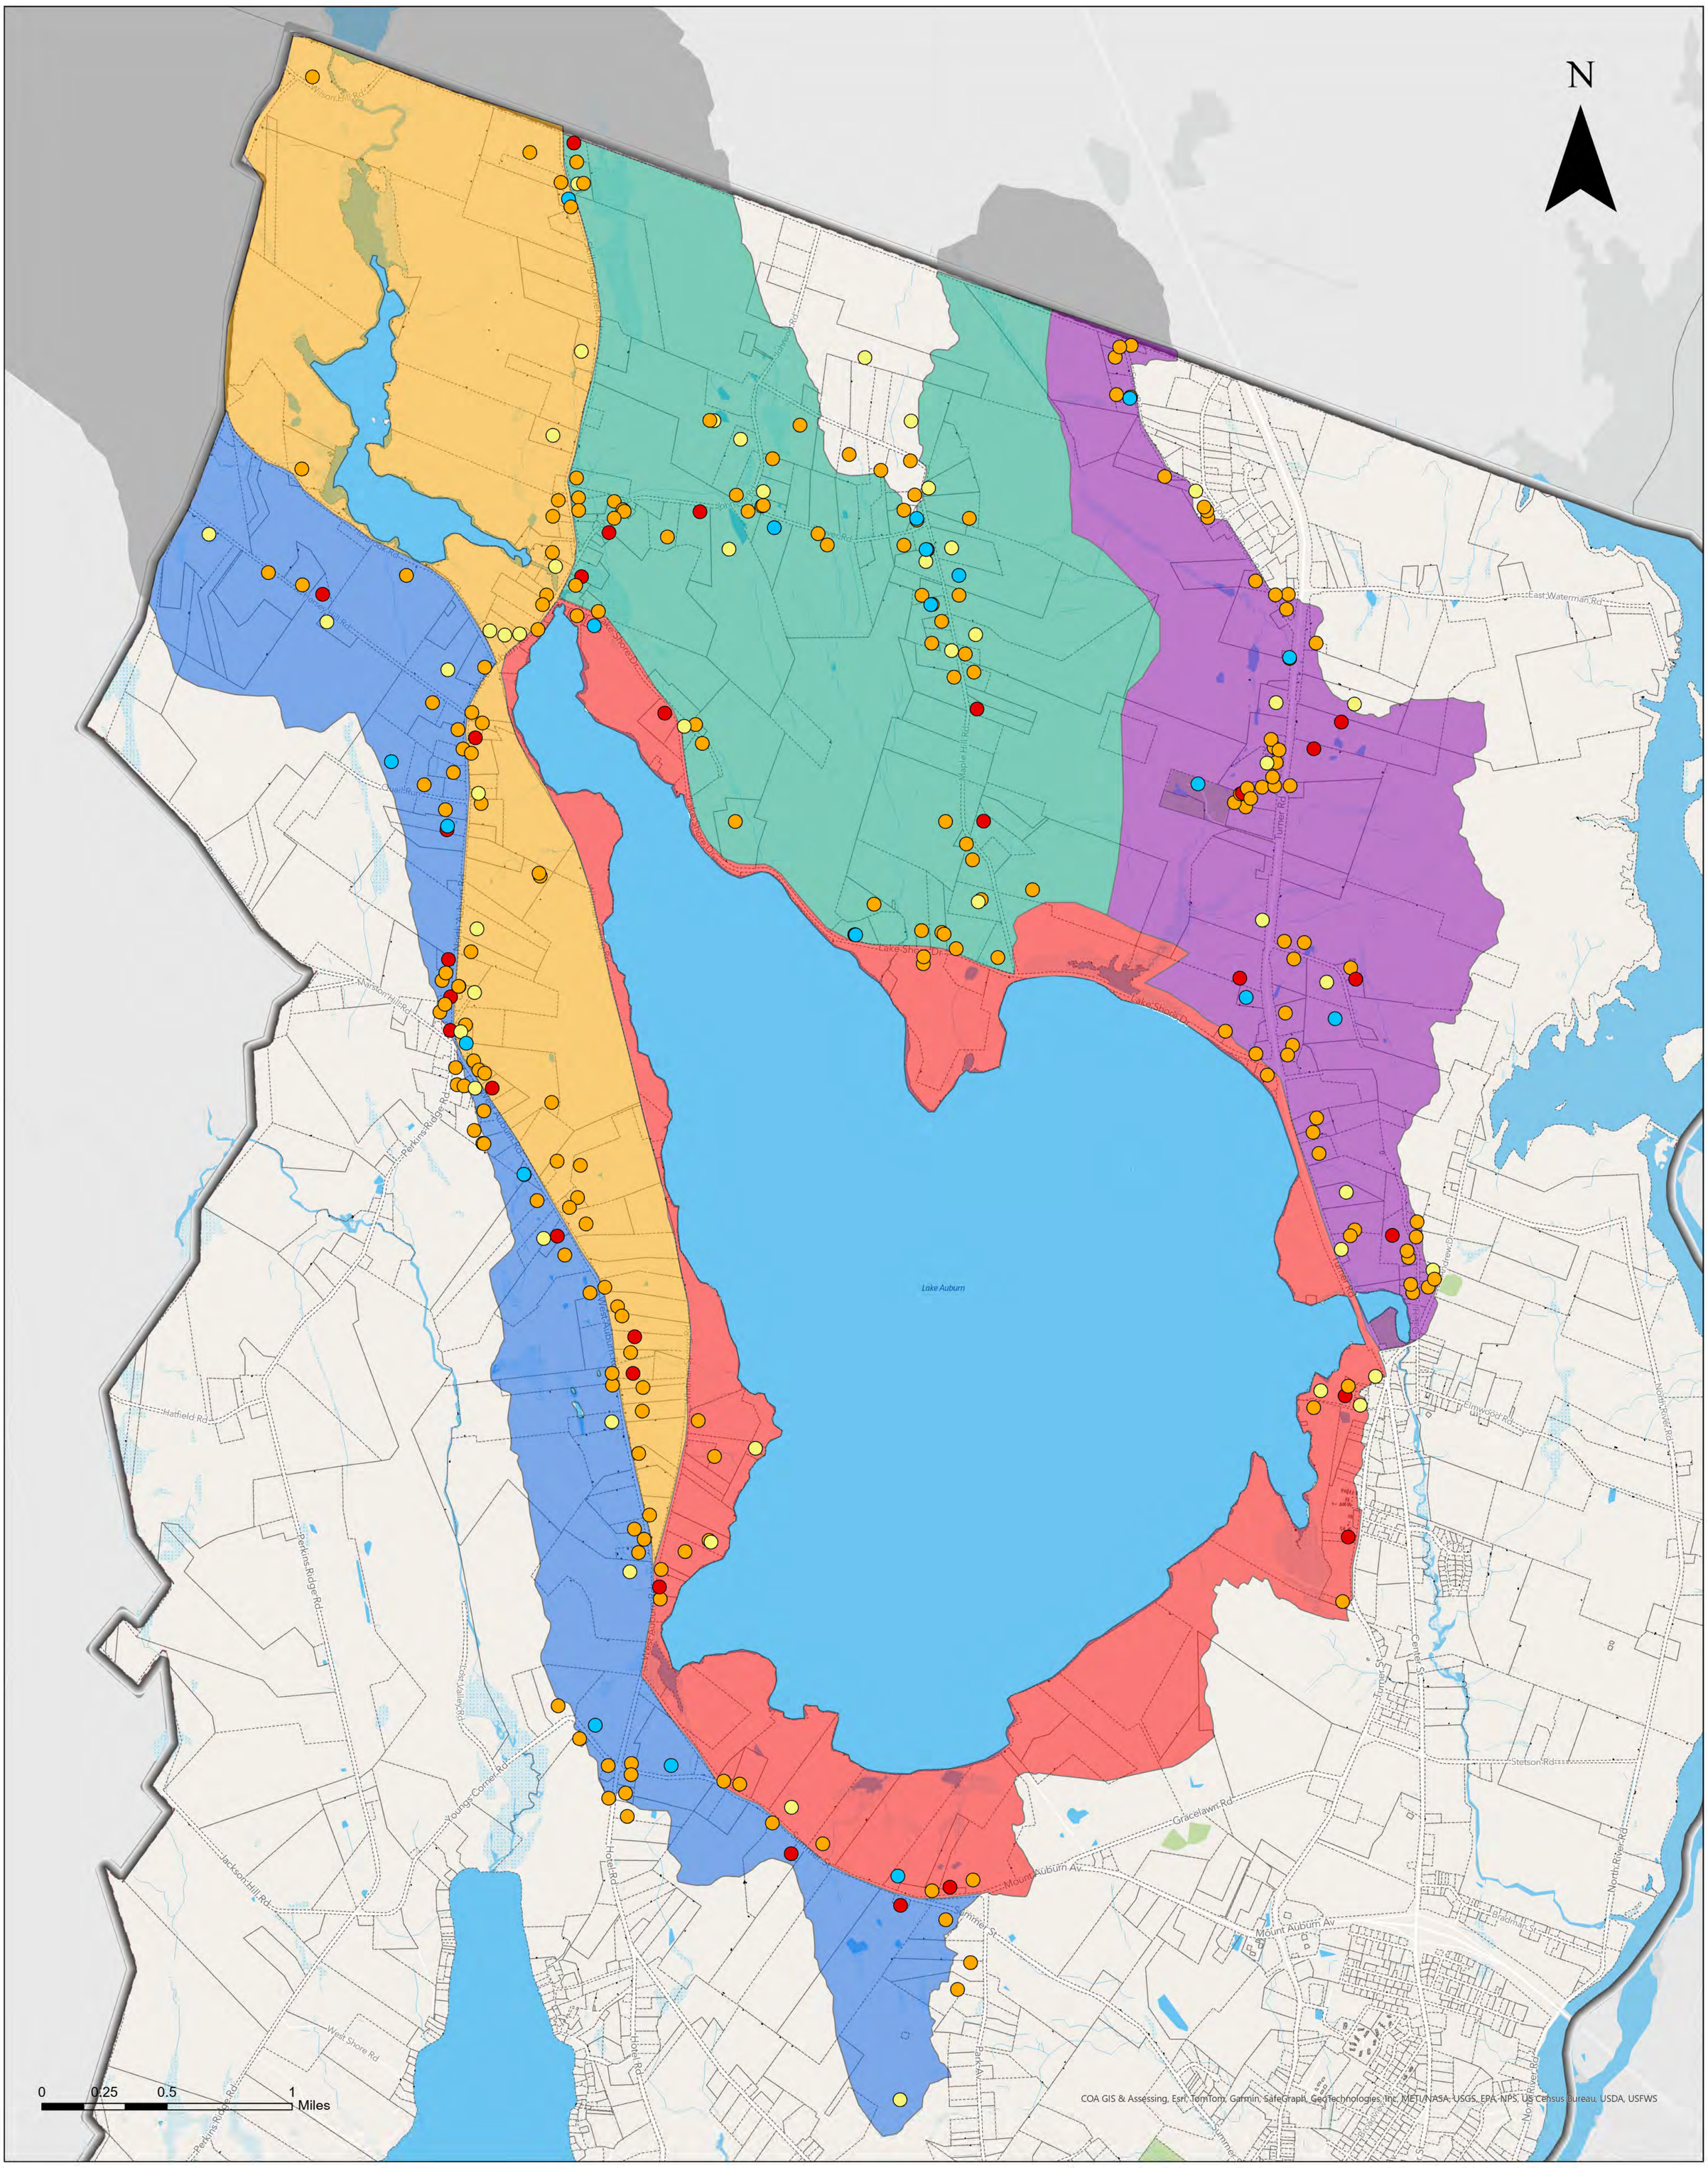
Information: This item proposes adopting a map which lays out a timeline for a new septic system inspection program referenced in the amendments to Division 4 Lake Auburn Watershed Overlay District. Staff recommends this map amendment. This map will serve as a guide for the city to plan inspections in a timely way according to their proximity and risk to Lake Auburn.

The planning board recommended two minor amendments in the motion to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District Septic Inspection Map. The recommended amendments included 1.) to remove the dots from the map as they don't provide specific information relative to the actual areas that are being tested and the focus should be on the zones/color-coded areas, 2.) Update the dates on the map to reference year 1 through year 5 and eliminate actual dates.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Staff recommends that the Council to hold first reading and vote on the Septic Inspection Map Amendment. Second Reading and Public Hearing will be on July 15, 2024.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. The Planning Board held a workshop on this text amendment on May 14, and made a positive recommendation on June 18.



City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

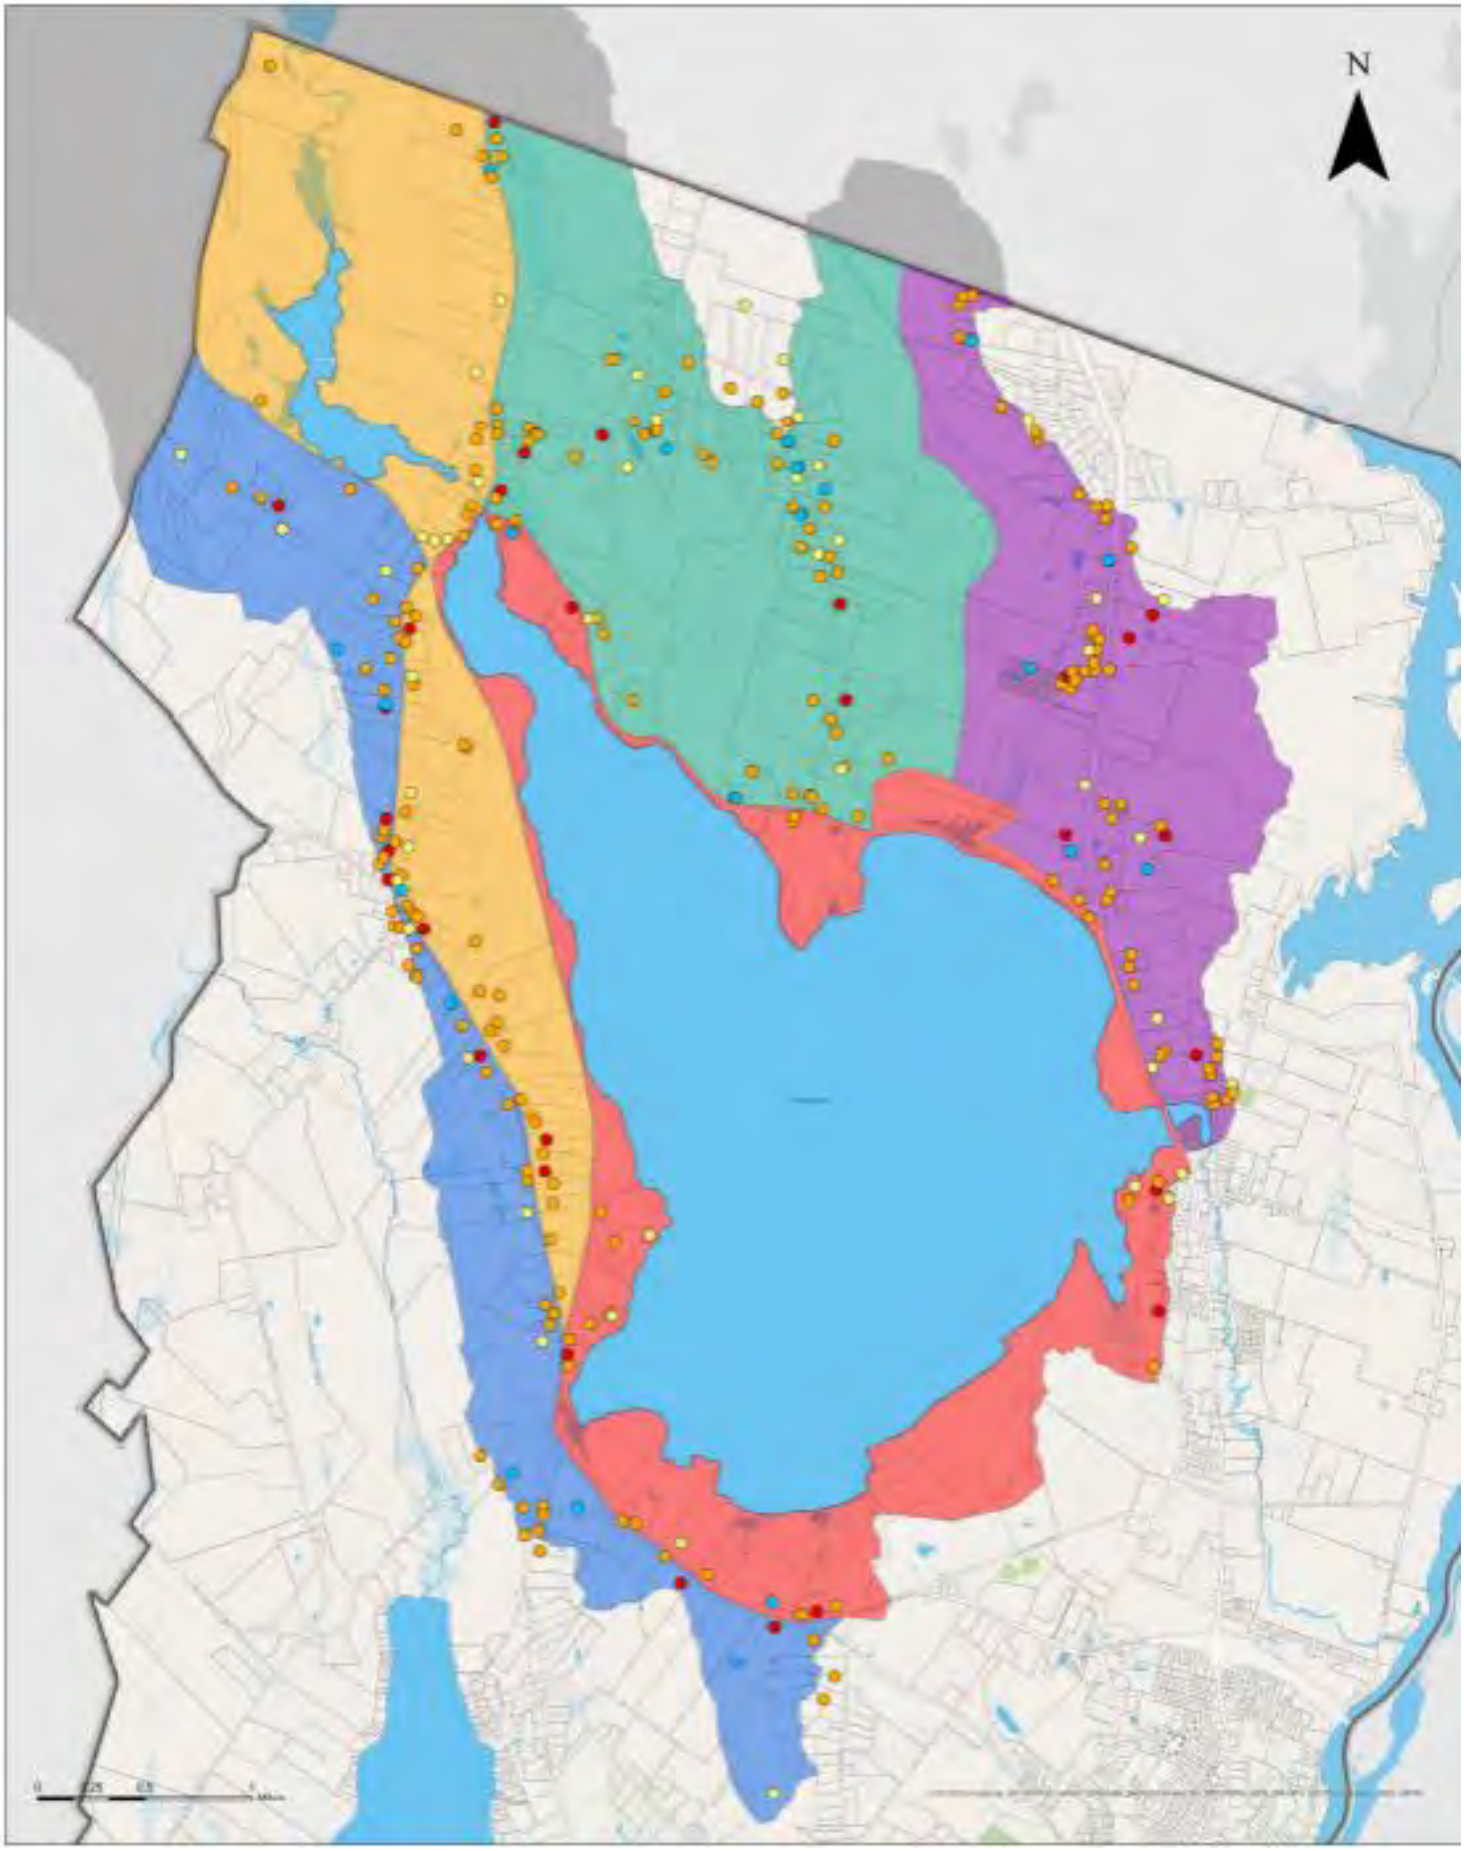
Re: Item #6 Map Amendment Related to Lake Auburn Stakeholders Group
Date: May 14, 2024

I. PROPOSAL: The Planning Board is to review Septic System Inspection Map in relation to Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024. (See attached map)

II. DEPARTMENT REVIEW:

- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments



III. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

IV. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:

E.) Lake Auburn Watershed Overlay District Septic Systems Inspection Map: This item proposes adopting a map which lays out a timeline for a new septic system inspection program referenced in the amendments to Division 4 Lake Auburn Watershed Overlay District. Staff recommends this map amendment. This map will serve as a guide for the city to plan inspections in a timely way according to their proximity and risk to Lake Auburn.

POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to adopt the Lake Auburn Watershed Overlay District Septic Systems Inspection Map in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

N

City of Auburn, Maine

Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Map Amendment (Septic System Inspection Program)

The following is the report from the Planning Board regarding adopting the Septic System Inspection map. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: John Blais clarifies that if either the house or the septic system is partly in the watershed, it would be subject to inspection. The dots on the map are only for reference. Staff recommends that this map become an interactive GIS layer for he public to reference. There is more discussion about updating records of septic systems as the inspection program roles out. There was also discussion about the possibility of submitting a septic inspection before the deadline prescribed on the map. Staff answered that getting the inspection earlier and counting it in the inspection program will be permitted. They made the motion, made two (2) amendments to their original motion, and then voted to forward a favorable recommendation to the Council.

Motion: I make a motion to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District Septic Inspection Map in accordance with Ch. 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map **Second:** Bob Hayes seconds the motion.

Amendment 1: Dave Trask makes an amendment to update the dates on the map to reference year 1 through year 5 rather than date certain given our previous discussions **Second:** Riley Bergeron seconds the amendment.
Amendment passes 5-0-0

Amendment 2: Dave Trask makes an amendment to remove the dots from the map as they don't provide specific information relative to the actual areas that are being tested and the focus should be on the color-coded areas. **Second:** Bob Hayes seconds.
Amendment passes 5-0-0

Final Motion: Dave Trask seeks motion for the original motion with the two (2) amendments. **Second:** Darren Finnegan Seconds**.**
Vote 5-0-0 motion passes.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance: 15-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: First Reading on a Zoning Map Amendment adopting the Lake Auburn Watershed Overlay District 400-foot setback to Lake, Stream & Brook, for Subsurface Wastewater Fields Map as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

Information: This item proposes codifying a visual to show the proposed 400-foot buffers from the high-water mark of any lake, pond, stream or brook as identified on the USGS 7.5 minute series map. Staff recommends this map amendment. This map will serve as a reference to property owners and for city staff to ensure that new subsurface wastewater disposal systems are located a safe distance away from tributaries which feed Lake Auburn. The language requiring septic systems be at least 400 feet away from a tributary of Lake Auburn was already passed in the previous text amendment and the map is a visual representation of the text.

The planning board voted to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District 400 feet setback to Lake, Stream, and Brook for Subsurface Wastewater Fields, attached in this meeting's materials.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Staff recommends that the City Council hold a first reading and vote on this item. Second Reading and Public Hearing will be held on July 15, 2024.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. The Planning Board made a favorable recommendation on June 18.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

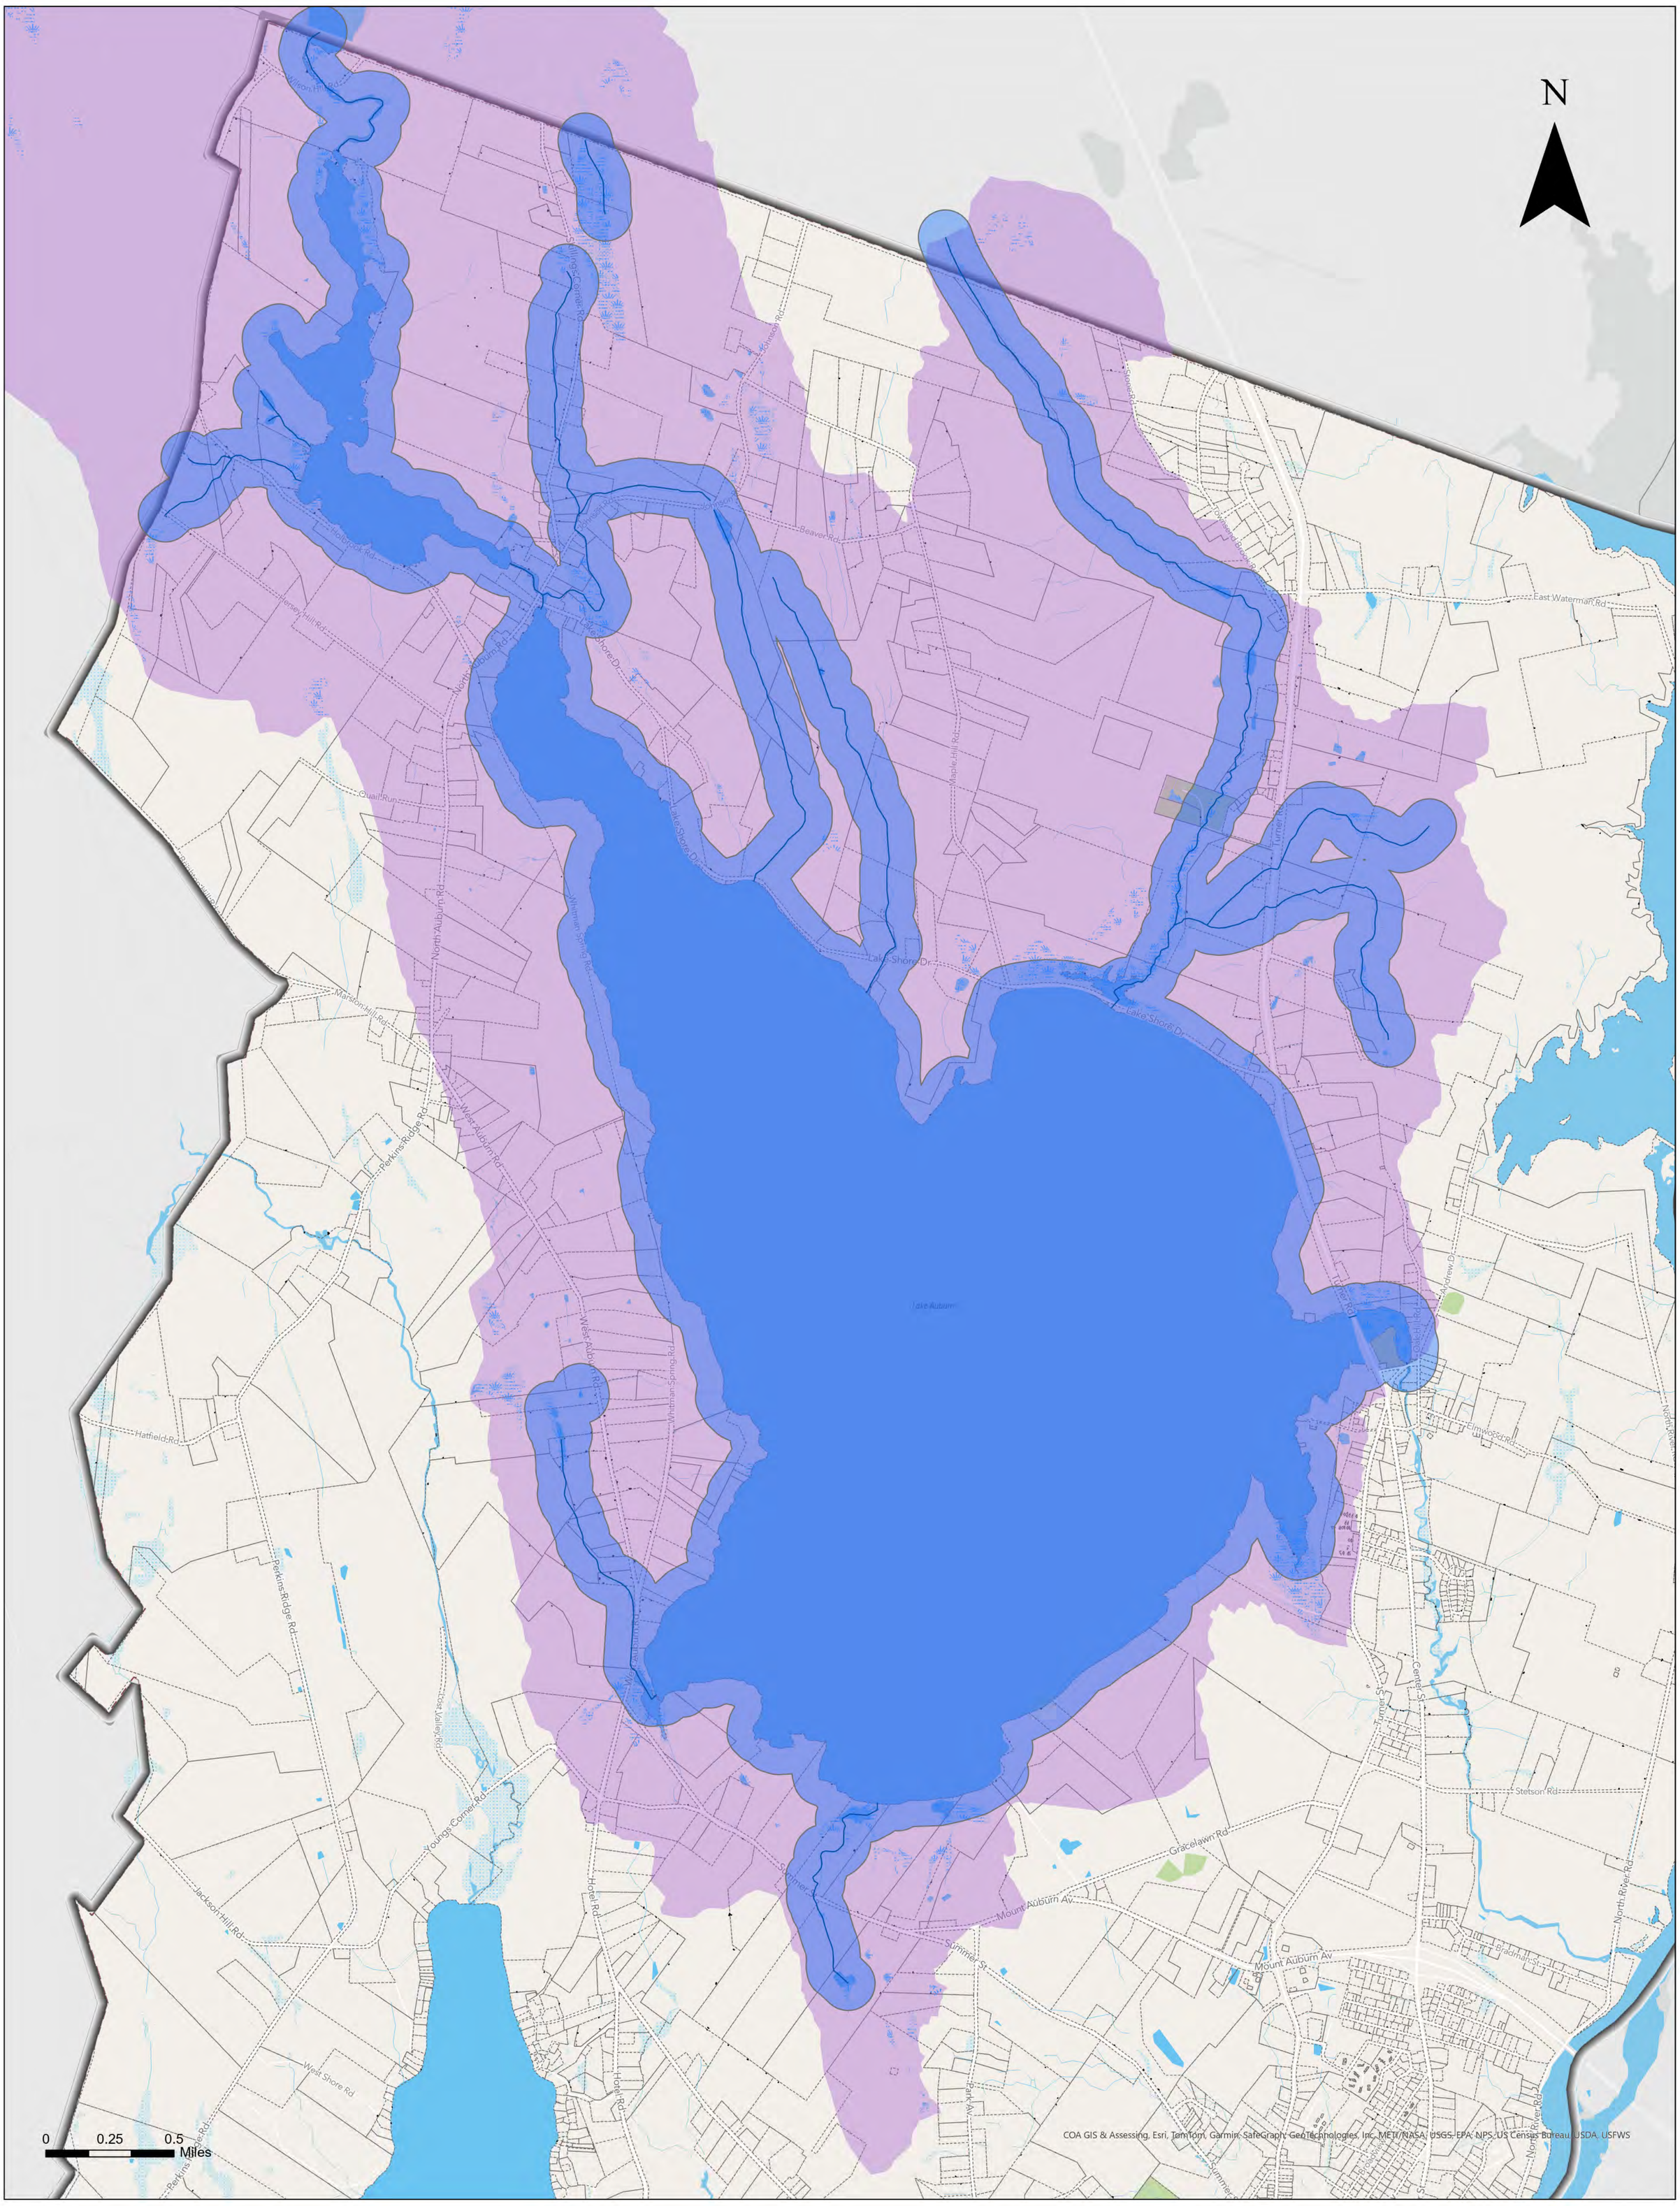
Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Map Amendment (400 Foot Resource Setback)



The following is the report from the Planning Board regarding adopting the Septic System Resource Setback Map for new, expanded, and replacement septic systems. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: Discussion about whether this amendment means that ADUs or home expansions cannot be added if they require a new or expanded septic system within one of the mapped buffer areas. Staff confirms, but also points out that this language requiring septic systems be at least 400 feet away from a tributary of Lake Auburn was already passed in the previous text amendment and the map is a visual representation of the text. They made a favorable recommendation to the Official Lake Auburn Overlay District 400' setback to Lake, Stream and Brook for Subsurface Wastewater Fields Map.

Motion: Darren Finnegan makes a motion to forward a favorable recommendation to city council to adopt the Official Lake Auburn Watershed Overlay District 400 feet setback to Lake, Stream & Brook, for Subsurface Wastewater Fields Map in accordance with Ch. 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

Resolve

RESOLVE 6-07012024

City Council Resolve

IN CITY COUNCIL

BE IT RESOLVED, WHEREAS, Lake Auburn is a great pond owned by the State of Maine in trust for the benefit of the citizens of the State; and

WHEREAS, the Maine State Legislature has granted the Auburn Water District and the City of Lewiston the right to draw water from Lake Auburn for the purpose of providing drinking water to the residents and other water users within the cities of Auburn and Lewiston; and

WHEREAS, in 1993 the Auburn Water District and the City of Lewiston entered into an interlocal cooperation agreement for the protection of Lake Auburn; and

WHEREAS, through the 1993 interlocal cooperation agreement the Auburn Water District and the City of Lewiston created the Lake Auburn Watershed Protection Commission; and

WHEREAS, the Lake Auburn Wate Protection Commission receives its general fund budget from the Auburn Water District and the City of Lewiston on an equal basis; and

WHEREAS, the purpose of the Lake Auburn Water Protection Commission is to take reasonable steps to protect Lake Auburn from pollution; and

WHEREAS, the State of Maine Drinking Water Program has, through its statutory authority, defined the watershed boundary for Lake Auburn; and

WHEREAS, the Auburn Water District, City of Auburn, City of Lewiston, and the Lake Auburn Water Protection Commission have all adopted the Lake Auburn Watershed boundary as set forth by the State of Maine Drinking Water Program; and

WHEREAS, the City of Auburn has enacted municipal ordinances to create a Lake Auburn Watershed Overlay District that conforms to the Lake Auburn Watershed Boundary; and

RESOLVE 6-07012024

City Council Resolve

WHEREAS, the City of Auburn has enacted municipal ordinances regulating the installation and use of subsurface wastewater treatment systems that are used within the Lake Auburn Watershed Overlay District in order to protect Lake Auburn from pollution; and

WHEREAS, to ensure that subsurface wastewater treatment systems operating within the Lake Auburn Watershed Overlay District are functioning in compliance with City ordinances, the City of Auburn has enacted municipal ordinances that require the owner of the property to have their subsurface wastewater treatment system inspected on a periodic basis by a qualified inspector who shall report their findings to the City; and

WHEREAS, the cost of such inspections may be burdensome to property owners who must have such inspections performed; and

WHEREAS, most residents of the Lake Auburn Watershed Overlay District do not receive drinking water from the Auburn Water District and the primary beneficiary of the subsurface wastewater treatment system inspections performed in the Lake Auburn Overlay District are the customers of the Auburn Water District and City of Lewiston Water Division.

NOW THEREFORE, BE IT RESOLVED by the City Council of the City of Auburn that, we call upon the Lake Auburn Water Protection Commission to institute a program to perform, without charge, the subsurface wastewater treatment system inspections within the Lake Auburn Watershed Overlay District to protect Lake Auburn from pollution and to remove the burdensome cost from residents within the Lake Auburn Watershed Overlay District who do not enjoy the benefit of receiving drinking water from Lake Auburn.

AND BE IT FURTHER RESOLVED, that we call upon the Auburn Water District and the City of Lewiston to provide adequate appropriations to the Lake Auburn Water Protection Commission to fund a program to perform the subsurface wastewater treatment system inspections within the Lake Auburn Watershed Overlay District.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance 16-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: City Council First Reading on proposed text amendment to Article XVI Administration and Enforcement.

Information: The zoning text amendment extends the timeframe for initially accepting an application for processing to reflect the existing review schedule within the City of Auburn. The amendment also guides the process to communicate either the deficiency, conditional acceptance, or full acceptance of the application. This amendment clarifies the date of acceptance as the date the director verifies that all required submittals have been turned in and are satisfactory.

This zoning text amendment removes the provision that a project is automatically approved if no action's taken within 60 days after a complete application submittal in recognition that there are several occasions in which the period of review is reasonably extended or delayed. For example, they may request the applicant to provide a traffic analysis or other information pertaining to the safety and functionality of a site. Beyond the information required by the city, the applicant may also be required to get additional state permits depending on the size and impact of the project. Possible additional permitting may include Natural Resource Protection Act (NRPA), State review for anything outside of delegated review authority including projects with impervious area exceeding 10 acres and projects generating over 200 trips at peak hour, Review and approval by the Army Corps of Engineers, Air Emissions License, and extends the timeline of approval for solar energy projects which frequently required approval extension due to delays in securing the CMP interconnection agreement.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Staff recommends that the Council hold first reading and vote on this item. Second Reading and Public Hearing will be scheduled for July 15, 2024.

Previous Meetings and History: Planning Board held a workshop on this text amendment on May 14, 2024 and made a positive recommendation at the planning board public hearing, June 18, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board motion on timelines and processes surrounding planning board site plan review.

The following is the report from the Planning Board regarding adopting new and clarifying language regarding Site Plan Review. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: City Council initiated a zoning text amendment to Chapter 60, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: Discussion about previous workshops the planning board has had on this item. Staff discusses the reason for this amendment which is to add flexibility to the timeline for approving projects where needed. There was also a short discussion on the meaning of "unreasonable delay" from existing case law. The Planning Board made a favorable recommendation to the City Council to adopt this text change.

Motion: Riley Bergeron makes a motion to forward a favorable recommendation to the city council on Chapter 60, Division 2 Site Plan Review to reflect the language specified in this meeting's materials. **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

Date: June 18th 2024
Auburn Planning Board
Author: Katherine Cook, Planning Coordinator
Subject: Item # 8 Planning Board Public Hearing text amendment to Article XVI Administration and Enforcement

I. **Proposal:** Public Hearing on City Council initiated amendment to Chapter 60, Article XVI, Division 2 Site Plan Review

II. **Background:** Staff had a discussion with the planning board in 2023 related to the City of Auburn's ordained procedures to accept, review, and make a decision to approve or deny development review applications. Among the prompts for this ordinance text amendment were 1.) the longer timeline required between application and construction for solar energy generating systems, 2.) the occasional need to extend planning board review time due to reasonable delays, and 3.) the need to update Auburn's Ordinance to reflect city staff's practiced timeline and process of development review.

The text proposed text amendment is intended to address shortcomings in the ordinance that may result in automatic approvals being identified based on project reviews that may take more than one Planning Board Meeting. This amendment considers that the Planning Board is empowered to request more information if needed to make a final decision on a development review application.

The zoning text amendment extends the timeframe for initially accepting an application for processing to reflect the existing review schedule within the City of Auburn. The amendment also guides the process to communicate either the deficiency, conditional acceptance, or full acceptance of the application. This amendment clarifies the date of acceptance as the date the director verifies that all required submittals have been turned in and are satisfactory.

This zoning text amendment removes the provision that a project is automatically approved if no action's taken within 60 days after a complete application submittal in recognition that there are several occasions in which the period of review is reasonably extended or delayed. For example, they may request the applicant to provide a traffic analysis or other information pertaining to the safety and functionality of a site. Beyond the information required by the city, the applicant may also be required to get additional state permits depending on the size and impact of the project. Possible additional permitting may include

- Natural Resource Protection Act (NRPA)
- State review for anything outside of delegated review authority including projects with impervious area exceeding 10 acres and projects generating over 200 trips at peak hour,
- Review and approval by the Army Corps of Engineers,
- Air Emissions License.

Finally, this amendment also extends the timeline of approval for solar energy projects which frequently required approval extension due to delays in securing the CMP interconnection agreement.

Suggested Ordinance Amendments:

Sec. 60-1300. File for site plan review
- Replace "~~department of community development and planning~~" with "planning, permitting and code department"
- Remove clause "~~such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~"

Sec. 60-1303. Approval-Timeline for Review.

- Remove "~~planning, permitting and code enforcement~~" before "director"
- Extend the initial application completeness review time from ~~five~~ days to 10 business days and notify the applicant that either 1.) The application is not accepted for processing as it has not met the requirements of Sec. 60-1300 and Sec. 60-1301 and shall enumerate the materials that are missing; or 2.) The application has been conditionally accepted for processing as one or more required elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or 3.) The application has met the requirements of Sec. 60-1300 and Sec. 60-1301 and is accepted for processing.
- Clarify method for distribution and review within departments of the city. Options include 1.) Request additional information from the applicant in order to assist with the director's review of the submitted site plan and/or 2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.
- Specify that the director shall, upon completion of the director's review of the site plan, but no later than 60 days after the notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning bard meeting.

Sec. 60-1304. Same—Public hearing; findings.

- Establish a timeline of at least 15 days between the director's request to schedule a public hearing, and the date of the public hearing scheduled by the planning board chair.
- Specify that the planning board shall not unreasonably delay taking final action on a site plan after the closure of the public hearing.

Sec. 60-1306. Signed copies.

- Remove the sentence, "~~if no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~"
- Specify that the approved plan shall be signed by the planning board chair on behalf of the planning board.

Sec. 60-1307. Findings in writing

- Specify that the findings for the decision shall be signed by the planning board chair on behalf of the planning board.

Sec. 60-1308. Expiration of approval.

- Extends the date of expiration for solar energy generating systems from one year until two years after the date of approval.
- In the case that the project is litigated, specify that the approval will not commence until a nonappealable court judgement is issued.
- Replace "~~his~~" with "the developer's"

Sec. 60-1313. Correction of off-site deficiencies.

- Replace "~~his~~" with "the developer's"

III. **Staff Recommendation/ Planning Board Action:** Review the proposed text amendment, discuss, hold a public hearing, and forward a recommendation to the city council. Staff Recommends the Planning Board favor a favorable recommendation as the amendment gives the planning board, applicants and staff more flexibility in project review.

IV. **Potential Motion:** I make a motion to forward a favorable recommendation to the city council Chapter 60, Article XVI, Division 2 Site Plan Review to reflect the language specified in this meeting's materials.

ORDER 69-05062024

City Council Order

IN CITY COUNCIL

Ordered, that the Auburn City Council initiate an amendment to City of Auburn Ordinances Chapter 60, Article XVI, Division 2 Site Plan Review and refer the proposed(attached) text to the Planning Board for a public hearing and recommendation on the proposed text amendment pursuant to Chapter 60, Article XVII. Amendments.

Passage on 5/6/24 5-2 (Milks, Gerry)

Richard S. Whiting, Ward One

DIVISION 2. SITE PLAN REVIEW

Subdivision I. In General

Sec. 60-1276. Purpose.

The purpose of site plan review is to ensure that the design and layout of certain developments permitted by special exceptions, or other developments noted herein, will constitute suitable development and will not result in a detriment to city, neighborhood or the environment.

(Ord. of 9-21-2009, § 7.1A)

Sec. 60-1277. Objective.

In considering a site plan, the planning board shall make findings that the development has made provisions for:

(1) Protection of adjacent areas against detrimental or offensive uses on the site by provision of adequate surface water drainage, buffers against artificial and reflected light, sight, sound, dust and vibration; and preservation of light and air;

(2) Convenience and safety of vehicular and pedestrian movement within the site and in relation to adjacent areas;

(3) Adequacy of the methods of disposal for wastes; and

(4) Protection of environment features on the site and in adjacent areas.

(Ord. of 9-21-2009, § 7.1B)

Sec. 60-1278. Applicability.

A site plan review shall be required for the following projects:

(1) All uses permitted by special exception.

(2) Any other uses for which site plan review is required by any other provision contained in this or other ordinances.

(Ord. of 9-21-2009, § 7.1C)

Secs. 60-1279—60-1299. Reserved.

Subdivision II. Procedure

Sec. 60-1300. File for site plan review.

An applicant for site plan review shall file with the ~~department of community development and planning~~planning, permitting and code department a completed site plan application along with an original and 15 copies of the site plan and the required processing fee. ~~Such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~. Plans shall be folded at a size not to exceed 8½ inches by 11 inches.

(Ord. of 9-21-2009, § 7.1D(1); Ord. No. 11-03012021, 3-15-2021)

Sec. 60-1301. Scale; required information.

The original plan shall be drawn on reproducible Mylar at a scale of no more than 100 feet to the inch. Each site plan shall contain the following information:

(1) Name and address of owner and developer and interest of the applicant if other than the owner or developer.

(2) Name of development, scale and meridian arrow, with specific definition of representation, date of plan and legend.

(3) Names and addresses of all owners of record of all adjacent property as appear on assessor's records.

(4) Current zoning boundaries and 100-year floodplain boundaries including surrounding areas to a distance of 300 feet from the perimeter of the site.

(5) Easements; rights-of-way, existing, planned or proposed; or other reservations adjacent to or intersecting the property.

(6) Topographic map of the site, containing the following:

a. Existing contours, where the slope of existing ground surface is generally two percent or more, the topographic map shall show contours at intervals of five feet of elevation (or lesser intervals as the planning board or engineering department may prescribe). Where the slope of the existing ground surface is generally less than two percent, contour intervals of one foot shall be shown. These contours shall not be copied from the city topographic maps and shall be determined from an on-site survey certified by a registered land surveyor.

b. Proposed contours shall be shown at intervals to be determined by the city engineer.

(7) Location of watercourses, wetlands, marshes, surface water, rock outcroppings, wooded areas, single trees with a diameter of ten inches measured three feet from the base of the trunk.

(8) Location of buildings existing on the tract to be developed and on adjacent tracts within a distance of 100 feet from the property line, indicating whether existing buildings on the tract are to be retained, modified or removed.

(9) Locations of water mains, sewer mains, wells, fire hydrants, culverts, drains, pipe sizes, grades and direction of flow, existing within 200 feet of the subject property.

(10) Existing soil conditions and soil suitability test results.

(11) Locations of proposed buildings and uses thereof.

(12) Proposed traffic circulation system including streets, parking lots, driveways and other access and egress facilities, curblines, sidewalk lines and existing streets, including the projected traffic flow patterns into and upon the site for both vehicles and pedestrians and an estimate of the projected number of motor vehicle trips to and from the site for an average day and for peak hours.

(13) Location of existing and proposed public utility lines, indicating whether proposed lines will be placed underground.

(14) Site developments requiring stormwater permits pursuant to 38 M.R.S.A. § 420-D shall include the required plan and to the extent permitted under 38 M.R.S.A. § 489-A, be reviewed under the procedures of article XVI of this chapter; and they shall meet and comply with 38 M.R.S.A. § 484(4-A) and those Rules promulgated by the Maine Department of Environmental Protection pursuant to the Site Law and section 420-D, specifically Rules 500, 501 and 502, as last amended August 12, 2015. If a project proposes infiltration and the standards in Rule 500, appendix D are not met, then a waste discharge license may be required from the Maine Department of Environmental Protection. An infiltration system serving a development regulated under the Site Location of Development Act may be required to meet standards in addition to those in appendix D.

(15) Location and design of proposed off-street parking and loading areas indicating number and size of stalls.

(16) Proposed location and direction of and time of use of outdoor lighting.

(17) Existing and proposed planting, fences and walls, including all landscaping and screening and indicating existing trees to be retained and areas to be left undisturbed, including design features intended to integrate the proposed new development into the existing landscape to enhance aesthetic assets and to screen objectionable features from neighbors.

(18) Location, size, design and manner of illumination of signs.

(19) Disposal of sewage, trash, solid waste, oil waste, hazardous waste or radioactive waste showing disposal facilities, receptacles or areas.

(20) Perimeter boundaries of the site giving complete descriptive lot data by bearings, distances and radii of curves including the name and seal of the registered land surveyor who prepared the plan.

(21) Description and plan of capacity and location of means of sewage disposal together with approval of sewer district engineer or evidence of soil suitability for such disposal (test pit locations shall be shown on the plans) similarly approved by the city engineer department.

(22) A statement of the amount of area of land involved in the site, the percentage of the site proposed to be covered by buildings, the total number of dwelling units proposed per acre, the area proposed to be devoted to open space, the area proposed to be paved for parking, driveways, loading space and sidewalks, the total number of parking spaces required by the zoning chapter for the uses proposed, the number of employees expected per shift and the total floor area of proposed commercial or industrial uses.

(23) Description and plan of a phase development concept detailing the areas and sequence of phasing.

(24) A statement by the developer assuring that he has the financial capabilities to fully carry out the project and to comply with the conditions imposed by the planning board.

(Ord. of 9-21-2009, § 7.1D(2); Ord. No. 10-10172016, 11-7-2016)

Sec. 60-1302. Exemption for information.

Upon request, the planning board, or the ~~planning, permitting and code enforcement~~ director, acting for the board, may waive the necessity of providing any of the foregoing planning information which is not relevant to the proposed development. The planning board or the ~~planning, permitting and code enforcement~~ director, acting for the board, may waive the site plan review fee if the purpose of the site plan review is to determine the adaptive reuse of a structure of community significance.

(Ord. of 9-21-2009, § 7.1D(3); Ord. No. 05-04032017, § 3, 4-24-2017)

Sec. 60-1303. Approval—Time line for review.

The planning, permitting and code enforcement director shall, within five 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The planning, permitting and code enforcement director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in his the director's view opinion, requires such information to provide recommendations regarding the application to the planning board. The agencies departments receiving these copies shall have up to 15 business days to make provide their recommendations to the planning, permitting and code enforcement director.

The planning, permitting and code enforcement director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) Request additional information from the applicant in to order assist with the director's review of the submitted site plan.

2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

The planning, permitting and code enforcement director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

Sec. 60-1304. Same—Public hearing; findings.

The planning board chair shall, upon request of the planning, permitting and code enforcement director, schedule a public hearing at the next regularly scheduled planning board meeting that occurs at least 16 days after receipt of the request from the directorwithin 30 days of receipt of a completed application, hold a public hearing. Notice of a public hearing shall be given in the manner provided for in division 3 of article XVII of this chapter. The planning board will not unreasonably delay the takinge of final action on the site plan within 60 days of receiving a completed application, or within such other time limit as may be mutually agreed toafter the public hearing. Such final action shall consist of either:

(1) A finding and determination that the proposed project will constitute a suitable development and will not result in a detriment to the neighborhood or the environment; or

(2) A written denial of the application stating the reasons for such denial, upon a finding that:

a. The provisions for vehicular loading, unloading and parking and for vehicular and pedestrian circulation on the site and onto adjacent public streets will create hazards to safety.

b. The bulk, location or operation of proposed buildings and structures will be detrimental to and adversely affect the use and values of existing development in the neighborhood or the health or safety of persons residing or working therein.

c. The provisions for on-site landscaping are inadequate to screen neighboring properties from unsightly features of the development.

d. The site plan does not adequately provide for the soil and drainage problems which the development may give rise to in accordance with section 60-1301(14).

e. The provisions for exterior lighting create safety hazards for motorists traveling on adjacent streets, or are inadequate for the safety or occupants or users of the site, or will create a nuisance affecting adjacent properties.

f. The proposed development will unduly burden off-site sewer drainage or water systems.

g. The proposed development will create a fire hazard by failing to provide adequate access to the site, or to buildings on the site, for emergency vehicles.

h. The proposed development violates provisions of the zoning regulations applicable to the site or other applicable laws, regulations or ordinances.

i. The proposed development will unduly impact the ability to provide municipal services.

(Ord. of 9-21-2009, § 7.1D(5))

Sec. 60-1305. Same—Subject to conditions, modification, restrictions, etc.

Approval may be made subject to conditions, modifications and restrictions as the planning board may deem necessary; and any construction, reconstruction, alteration or addition shall be carried on only in conformity to such conditions, modifications or restrictions and in conformity with the application and site plan.

(Ord. of 9-21-2009, § 7.1D(6))

Sec. 60-1306. Signed copies.

~~If no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~ An original of the approved plan signed by the planning board chair, on behalf of the planning board, and one signed copy shall be delivered to the applicant, the assessor's department, the engineering department and to the building inspector on which basis building permits may be issued when all other required plans have been approved.

(Ord. of 9-21-2009, § 7.1D(7))

Sec. 60-1307. Findings in writing.

The findings of the planning board shall be in writing, signed by the planning board chair on behalf of the planning board, with a copy being forwarded to the applicant. The planning board's written report shall also include a statement as to how any deficiencies in the site plan might be resolved and what conditions, modifications and restrictions are to be complied with in executing the plan.

(Ord. of 9-21-2009, § 7.1D(8))

Sec. 60-1308. Expiration of approval.

Approval of a site plan shall expire one year after the date of approval, except for approved site plans for solar energy generating systems, which shall expire ~~in~~ two years after the date of approval, unless all building permits have been obtained to begin construction in accordance with the approved site plan. If a development is contested with litigation, the approval period of this section shall not commence until a final, nonappealable court judgment is issued or until the litigation has been dismissed with prejudice. This provision shall apply retroactively to all projects approved after January 1, 2007. Any site plan that contains a phase concept approved by the planning board shall not be required to obtain all building permits within the time sequence established for completion of each phase. No building permits or other permits shall be issued until all improvements are substantially completed for the preceding phase. A single one-year extension may be given upon a showing of good cause in writing by the applicant to the planning board not less than 30 days before the expiration of approval of ~~his~~ the applicant's existing plan. ~~.~~ The planning board shall approve or disapprove the requested extension at its next regular meeting.

(Ord. of 9-21-2009, § 7.1D(9); Ord. No. 02-04012013, att. D, 4-16-2013)

Sec. 60-1309. No building permitted without approval.

No permit shall be issued for the construction of any building in an area included in the site plan or in any development for which a site plan is required until such site plan has been approved by the planning board and unless the construction plans and specifications presented to the building inspector with the application for the permit are consistent with the approved site plan.

(Ord. of 9-21-2009, § 7.1D(10))

Sec. 60-1310. Certificate of occupancy.

No certificate of occupancy shall be issued with respect to any building until all construction called for by the site plan is completed, except by special permission of the planning board granted upon a showing of special circumstances warranted the issuance of the certificate and that the remaining construction will be completed within a reasonable time.

(Ord. of 9-21-2009, § 7.1D(11))

Sec. 60-1311. Deposit of surety.

The planning board may require the applicant with the submission of the site plan to tender a certified check payable to the city and issued by a surety company or secured by deposits issued by institutions authorized to issue the same by the laws of the state or the United States or irrevocable letters of credit issued by said banking institutions in an amount of money determined by the city planner, with the advice of the various city departments and agencies concerned, to be sufficient to ensure compliance with the approved site plan.

(Ord. of 9-21-2009, § 7.1D(12))

Sec. 60-1312. Review of planning board needed for variance.

For those developments subject to site plan review (division 2 of article XVI of this chapter) the relaxation of the dimensional requirements of any use district shall be reviewed by the planning board. The modifications of the

dimensional requirements shall be allowed as the planning board may deem necessary to carry out the objectives and intent of site plan review as specified in division 2 of article XVI of this chapter.

(Ord. of 9-21-2009, § 7.1D(13))

Sec. 60-1313. Correction of off-site deficiencies.

The planning board shall have the right to require the developer, at ~~his~~ the developer's expense, to correct any off-site deficiencies either created or aggravated by the developer's proposed project.

(Ord. of 9-21-2009, § 7.1D)

Secs. 60-1314—60-1334. Reserved.

Ordinance #16-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XVI. ADMINISTRATION AND ENFORCEMENT

● ● ●

DIVISION 2. SITE PLAN REVIEW

● ● ●

Sec. 60-1300. File for site plan review.

An applicant for site plan review shall file with the ~~department of community development and planning~~planning, permitting and code department a completed site plan application along with an original and 15 copies of the site plan and the required processing fee. ~~Such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~. Plans shall be folded at a size not to exceed 8½ inches by 11 inches.

(Ord. of 9-21-2009, § 7.1D(1); Ord. No. 11-03012021, 3-15-2021)

● ● ●

Sec. 60-1303. Approval—Time-line for review.

The ~~planning, permitting and code enforcement~~ director shall, within ~~five~~ 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The ~~planning, permitting and code enforcement~~ director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in ~~his~~ the director's ~~view~~ opinion, requires such information to provide recommendations regarding the application to the planning board. The ~~agencies~~ departments receiving these copies shall have up to

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Ordinance

15 business days to ~~make~~ provide their recommendations to the ~~planning, permitting and code enforcement~~ director.

The ~~planning, permitting and code enforcement~~ director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) ~~-~~Request additional information from the applicant in to order assist with the director's review of the submitted site plan.
2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

The ~~planning, permitting and code enforcement~~ director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

● ● ●

Sec. 60-1303. Approval—Time~~-~~line for review.

The ~~planning, permitting and code enforcement~~ director shall, within ~~five~~ 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The ~~planning, permitting and code enforcement~~ director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in ~~his~~ the director's ~~view~~ opinion, require~~s~~ such information to provide recommendations regarding the application to the planning board. The ~~agencies~~ departments receiving these copies shall have up to 15 business days to ~~make~~ provide their recommendations to the ~~planning, permitting and code enforcement~~ director.

The ~~planning, permitting and code enforcement~~ director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) ~~-~~Request additional information from the applicant in to order assist with the director's review of the submitted site plan.
2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

City Council Ordinance

The ~~planning, permitting and code enforcement~~ director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

● ● ●

Sec. 60-1304. Same—Public hearing; findings.

The planning board chair shall, upon request of the ~~planning, permitting and code enforcement~~ director, schedule a public hearing at the next regularly scheduled planning board meeting that occurs at least 16 days after receipt of the request from the director~~within 30 days of receipt of a completed application, hold a public hearing~~. Notice of a public hearing shall be given in the manner provided for in division 3 of article XVII of this chapter. The planning board will not unreasonably delay the taking of final action on the site plan ~~within 60 days of receiving a completed application, or within such other time limit as may be mutually agreed to~~after the public hearing. Such final action shall consist of either:

(1) A finding and determination that the proposed project will constitute a suitable development and will not result in a detriment to the neighborhood or the environment; or

(2) A written denial of the application stating the reasons for such denial, upon a finding that:

a. The provisions for vehicular loading, unloading and parking and for vehicular and pedestrian circulation on the site and onto adjacent public streets will create hazards to safety.

b. The bulk, location or operation of proposed buildings and structures will be detrimental to and adversely affect the use and values of existing development in the neighborhood or the health or safety of persons residing or working therein.

c. The provisions for on-site landscaping are inadequate to screen neighboring properties from unsightly features of the development.

d. The site plan does not adequately provide for the soil and drainage problems which the development may give rise to in accordance with section 60-1301(14).

e. The provisions for exterior lighting create safety hazards for motorists traveling on adjacent streets, or are inadequate for the safety or occupants or users of the site, or will create a nuisance affecting adjacent properties.

f. The proposed development will unduly burden off-site sewer drainage or water systems.

g. The proposed development will create a fire hazard by failing to provide adequate access to the site, or to buildings on the site, for emergency vehicles.

h. The proposed development violates provisions of the zoning regulations applicable to the site or other applicable laws, regulations or ordinances.

i. The proposed development will unduly impact the ability to provide municipal services.

(Ord. of 9-21-2009, § 7.1D(5))

● ● ●

Sec. 60-1306. Signed copies.

~~If no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~ An original of the approved plan signed by the planning board chair, on behalf of the planning board, and one signed copy shall be delivered to the applicant, the assessor's department, the engineering department and to the building inspector on which basis building permits may be issued when all other required plans have been approved.

(Ord. of 9-21-2009, § 7.1D(7))

● ● ●

Sec. 60-1307. Findings in writing.

The findings of the planning board shall be in writing, signed by the planning board chair on behalf of the planning board, with a copy being forwarded to the applicant. The planning board's written report shall also include a statement as to how any deficiencies in the site plan might be resolved and what conditions, modifications and restrictions are to be complied with in executing the plan.

(Ord. of 9-21-2009, § 7.1D(8))

● ● ●

Sec. 60-1308. Expiration of approval.

Approval of a site plan shall expire one year after the date of approval, except for approved site plans for solar energy generating systems, which shall expire ~~in~~ two years after the date of approval, unless all building permits have been obtained to begin construction in accordance with the approved site plan. If a development is contested with litigation, the approval period of this section shall not commence until a final, nonappealable court judgment is issued or until the litigation has been dismissed with prejudice. This provision shall apply retroactively to all projects approved after January 1, 2007. Any site plan that contains a phase concept approved by the planning board shall not be required to obtain all building permits within the time sequence established for completion of each phase. No building permits or other permits shall be issued until all improvements are substantially completed for the preceding phase. A single one-year extension may be given upon a showing of good cause in writing by the applicant to the planning board not less than 30 days before the expiration of approval of ~~his~~ the applicant's existing plan. ~~.~~ The planning board shall approve or disapprove the requested extension at its next regular meeting.

● ● ●

City Council Ordinance

Sec. 60-1313. Correction of off-site deficiencies.

The planning board shall have the right to require the developer, at ~~his~~ the developer's expense, to correct any off-site deficiencies either created or aggravated by the developer's proposed project.

Council Workshop or Meeting Date: **July 1, 2024** **Ordinance 17-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Consider first reading of a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district.

Information: On June 16, the planning board made a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. Discussion about this item touched on occasions waivers have been requested to allow for a larger setback than the 25-feet maximum setback allowed in the zone. The planning board agreed with city staff that the General Business 2 zone would allow for better functionality of the proposed city public safety use.

City Budgetary Impacts: None anticipated.

Staff Recommended Action: Staff recommends that the City Council hold a first reading and vote on the proposed amendment. Second Reading and Public Hearing will be scheduled for July 15th.

Previous Meetings and History: Planning Board Public Hearing June 16, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

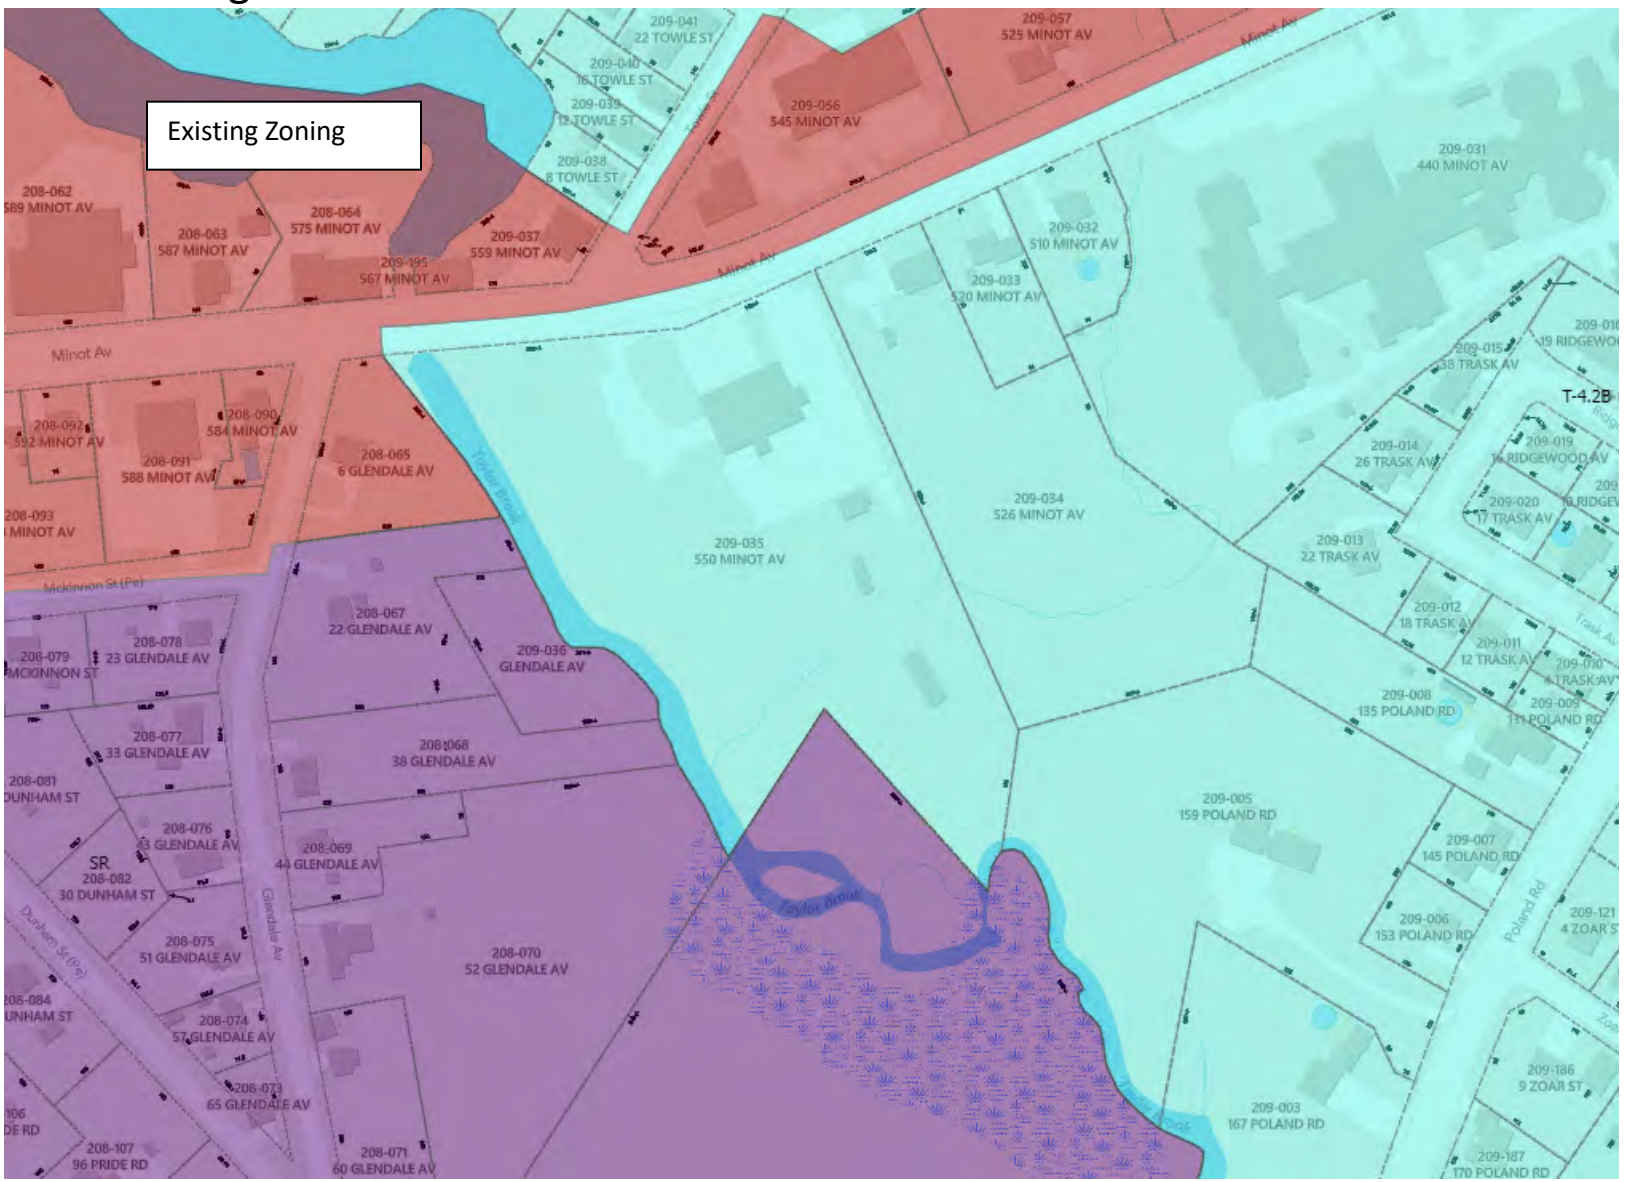
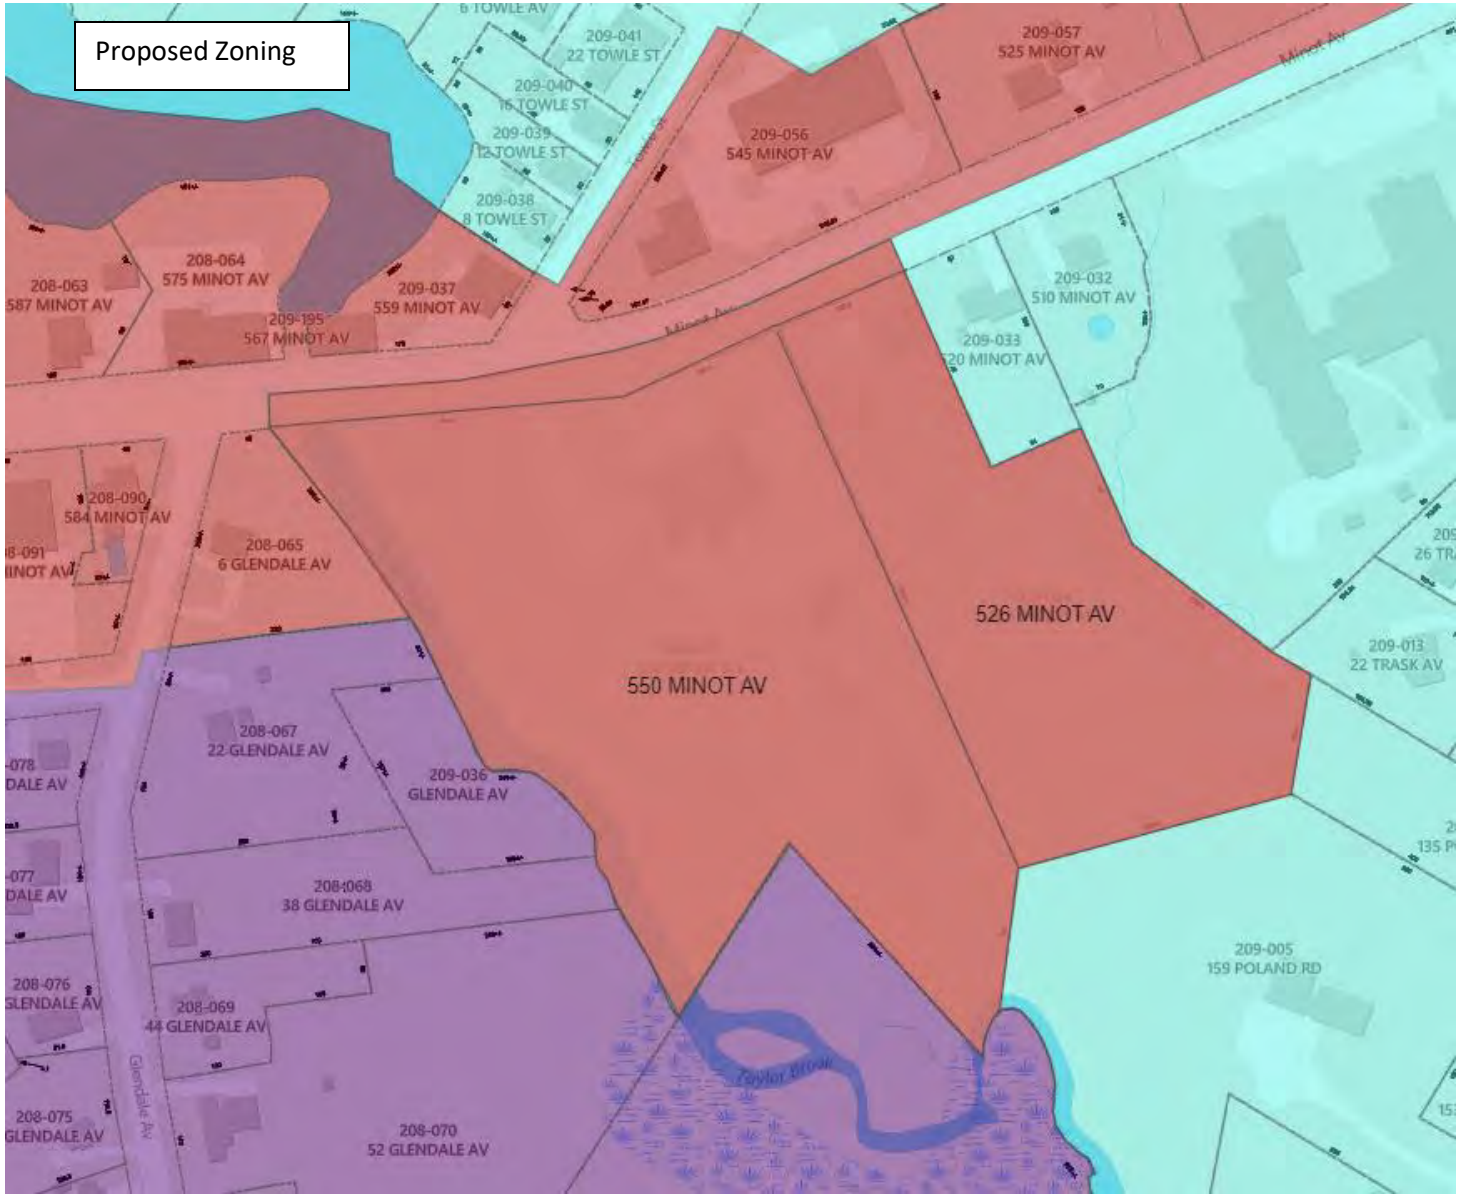
Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on amending the zoning map for two certain parcels on Minot Av from T-4.2B to GBII



The following is the report from the Planning Board regarding a map amendment in service of future public safety facility on Minot Av. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.



Summary and Discussion: Discussion about the possible necessity for an eventual amendment to the T-4.2B zoning district because of requests for waivers specifically for the front setback requirements. Staff suggests a good time to update this would be during the process of revising the Comprehensive Plan over the next year or so. The Planning Board made a favorable recommendation to the City Council to adopt this map amendment.

Motion: Riley Bergeron makes a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

Consideration of Proposed Zoning Map Amendment - 526 and 550 Minot Avenue
Change from T4.2B to General Business II

Re: Item #9 Map Amendments for public safety facility.
Date: June 18, 2024

I. **Proposal/ Map Amendment**: Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B-Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** This item is considering a zoning map amendment to amend approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district. The area proposed to be rezoned encompasses all the City Assessor's parcel I.D.s 209-035 and 209-034.

The purpose of this proposal is to better support a new public safety facility by allowing flexibility in form and design to best serve the needs of public employees. Municipal services and facilities are permitted in all zoning districts, but form-based code, the current zoning, requires that new structures be built close to the public right of way. The design standards in form-based code are intended to encourage new development to emphasize the relationship between the public and private realm. While it is well suited to residential and commercial areas within the City of Auburn, form-based code may not allow for the flexibility necessary to build a functional and efficient public safety facility that is designed around the movement of large vehicles inside and outside of the buildings.

The General Business II District is in alignment with the surrounding area and is compatible with the 2021 Comprehensive Plan. The provision stating that "The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development" can allow the flexibility to find the proposed change to be consistent with the Comprehensive Plan. This proposed zoning also allows for flexibility in facility layout to best serve the needs of the fire department and the police department, such as the ease and safety of movement of the fire apparatus on the properties.

III. Suggested Findings of Fact:

a. The zoning map amendment is consistent with the comprehensive plan
b. The zoning map amendment is consistent with Comprehensive Plan Policy C 3, to explore a cost-effective plan for housing and delivering public safety services including regional considerations.

IV. **Planning Board Action & Staff Recommendations:** Hold a public hearing, review the proposal and make a recommendation to the city council on whether to amend the zoning map as described.

V. **Potential Motion:** I make a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district.

ORDER 84-06032024

City Council Order

IN CITY COUNCIL

ORDERED, that the Auburn City Council directs staff to prepare a zoning map amendment for Public Hearing and a Recommendation by the Auburn Planning Board pursuant to Chapter 60, Article XVII, Division 2, Amendment to the Zoning Ordinance or Zoning Map. The intent is to amend the map on approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district as shown on the attached map. The area proposed to be rezoned encompasses all of City Assessor's parcel I.D.s 209-035 and 209-034. The purpose of this proposal is to better support a new public safety facility by allowing the flexibility in form and design to best serve the needs of public employees.

Author: Glen E. Holmes, Director Business & Community Development

Subject: FOOD INSECURITY

Information: Since the onset of the Covid-19 pandemic – and since – community members in the City of Auburn continue to struggle with food insecurity. The cost of all household expenses has risen dramatically and families are having to prioritize their basic necessities such as food, shelter and medications. Children, who are accustomed to receiving free and reduced lunch at school, often go hungry over the weekends and during school vacations. Our community members living in elderly housing are also being impacted.

Our significant unhoused population are in need of assistance and resources. Although families and individuals are encouraged to access food pantries and the Good Shepherd Food Bank, for some families it is still not enough.

City Budgetary Impacts: None

Staff Recommended Action: Vote to allocate $40,000.00 of American Rescue Plan Act (ARPA) funds towards assisting families to reduce the incidences of food insecurity.

Previous Meetings and History: June 3, 2024; June 17, 2024, June 24, 2024

Council Workshop or Meeting Date: July 1, 2024 **Order: 89-07012024 & Order 90-07012024**

Author: Glen E. Holmes, Director Business and Community Development

Subject: Community Resource Center to be located at 121 Mill Street

---

Information: Due to the Covid-19 pandemic – and since, the City of Auburn's Business and Community Development Department has been located at 95 Main Street. This department, which also houses our General Assistance and Public Health programs, has seen a steady increase in community members needing to access services. While we have partnered with many non-profit providers and agencies, our current location and space is not convenient or conducive to providing expanded wrap-around services that will impact change for all segments of our population.

During the June 24th special City Council workshop, the Business & Community Development Department provided Council with a plan and financial projections for the relocation of the department to a vacant building, owned by the City of Auburn, and located at 121 Mill Street. The relocation of the department will provide for a community resource center with greater opportunities for our community members.

A community resource center project pro-forma was provided to the City Council detailing the significant renovations and upgrades needed as well as projected income and expenses. The reallocation of the remaining City of Auburn ARPA funds would cover costs for renovations to the building. The renovated building will include office space for current staff as well as 12 additional spaces for service providers and non-profit agencies. In partnership with several local churches, there will be access to a commercial kitchen to prepare and serve meals for our homeless population.

City Budgetary Impacts: None

Staff Recommended Action: Approve the following two orders:

1. Vote to repurpose the city owned building at 121 Mill Street.
2. Vote to increase the current ARPA allocation by $438,702.83 of remaining ARPA funds to stand up a community resource center at 121 Mill Street.

Previous Meetings and History: June 3, 2024; June 17, 2024, June 24, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

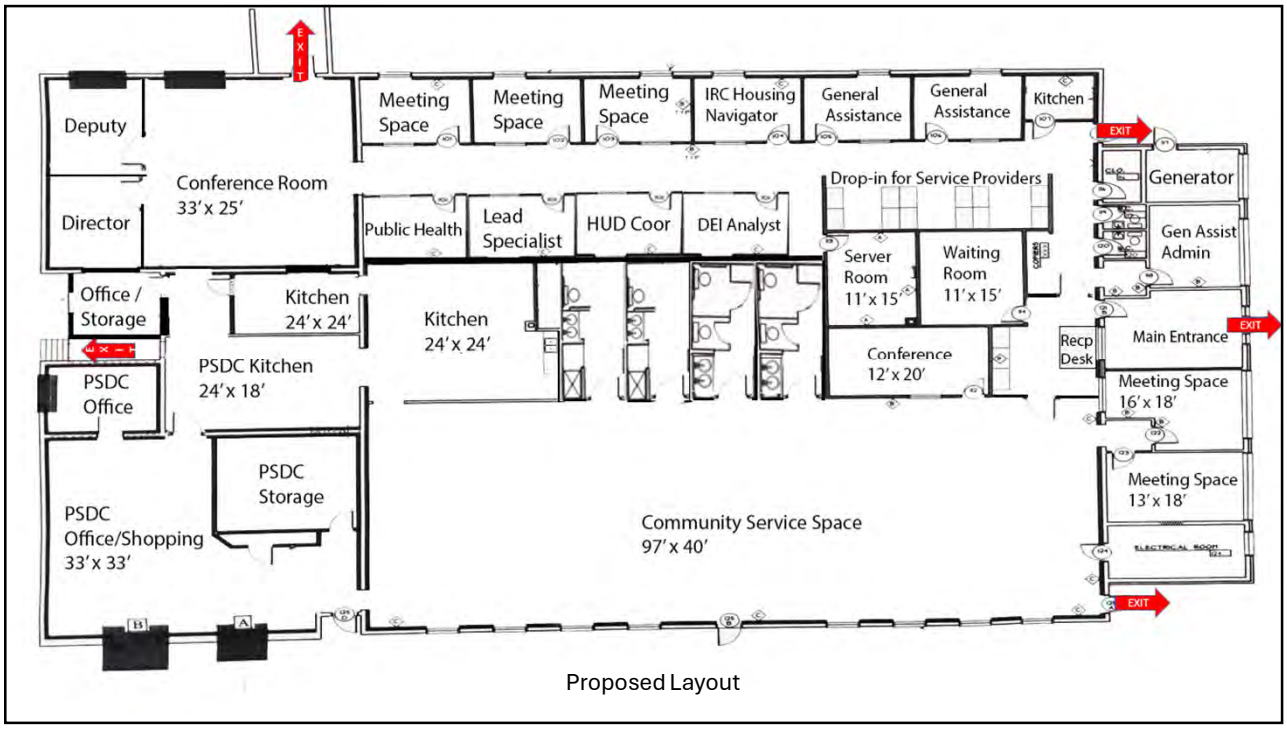
June 24, 2024

To the City Manager

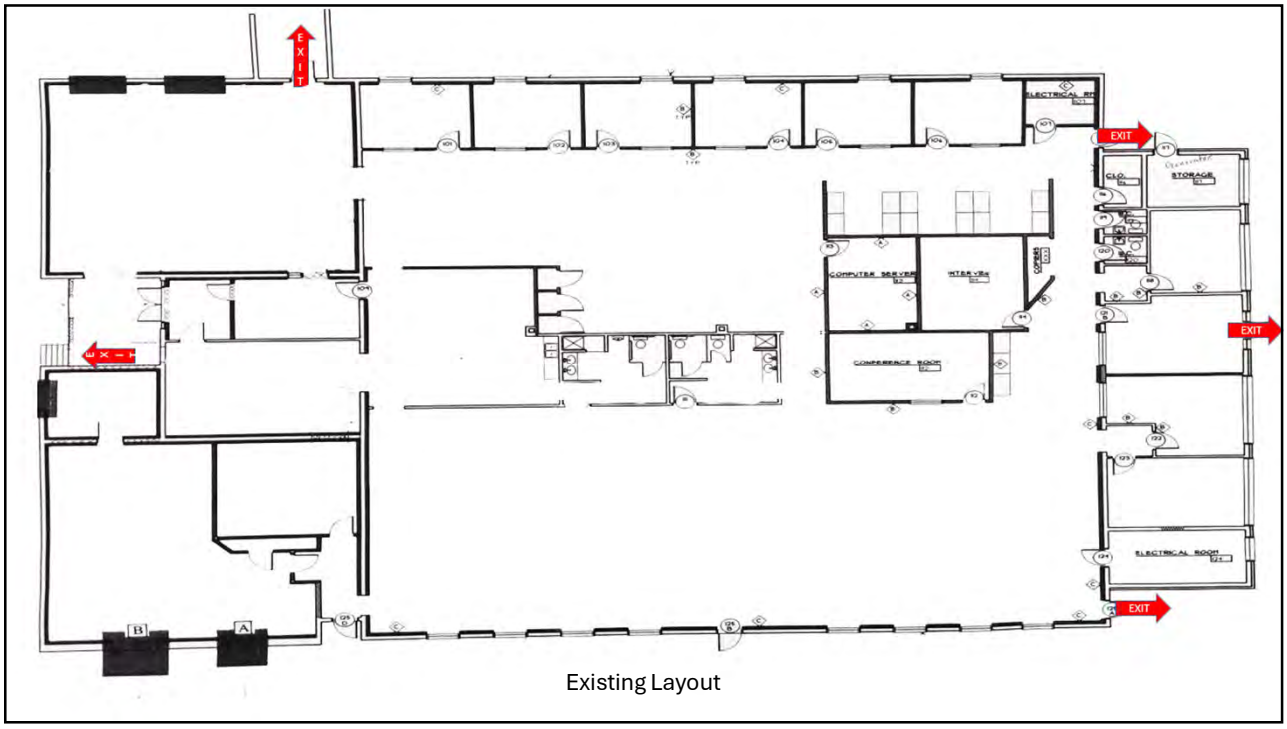
The Business & Community Development team was tasked with developing a plan and financial projection for a community resource center which would foster collaboration between city services and non-profit organizations. Our objective was to enhance service delivery, increase impact, and ensure a more sustainable funding model. Through proactive community development strategies and collaborative partnerships, our team is dedicated to meeting the evolving needs of our residents.



Included is a proposal for an upgraded 15,000 square foot Community Resource Center which not only addresses current security and ADA accessibility issues at the existing facility but also accommodates additional community partners such as the Drop-In Center and Preble Street. These new partners will join our existing collaborators, including the Immigrant Resource Center of Maine (IRC), Rumford Group Homes, Community Concepts Inc., Housing Resources for Youth, and Maine Immigrant Resource Services (MEIRS).

This expansion of community support will enable city staff to provide better referrals and improve operational efficiency by streamlining access to essential resources for our residents. This collaboration allows us to connect individuals in need with both private and non-profit service providers more effectively. These partners offer comprehensive services, such as employment training and housing stabilization, which address the root causes of financial instability and promote long-term self-sufficiency among Auburn residents.

Building on the success of integrating city and non-profit services within the Business & Community Development office and leveraging previous grant applications for the redevelopment of the city-owned property at 121 Mill St., the latest iteration of these plans focuses on minimal rehabilitation required to make this facility occupiable after recent water damage. The proposed changes to the existing floorplan are limited, with the development budget primarily driven by the need for upgraded bathroom facilities to support the expanded use of a community gathering space and the addition of a kitchen facility.



Funding for this proposal can be sourced from unallocated ARPA funds, future rental savings from the 95 Main St office, and a combination of additional grant funding. In addition, anticipated rental payments from partner organizations such as IRC, the Drop-In Center and other organizations will contribute towards this project.

Yours in Service
Glen E. Holmes

RE: 121 Mill Street Renovation Auburn, ME

Derek-

Per your request and utilizing the plan provided, for the 121 Mill Street Renovation, Landry/French has developed an initial project cost this project would cost $160,161.00 with an estimated duration of 4 weeks total. Also, to better clarify our understanding of the work, please see our attached clarification letter.

As always, please don't hesitate to reach out with questions/concerns and we look forward to hearing from you on the project, its next steps and timing.

Thank you,

Ian McCracken
Senior Estimator

EXHIBIT A-4
CLARIFICATIONS & QUALIFICATIONS

LANDRY/FRENCH CONSTRUCTION

PROJECT: 121 Mill Street
PROJECT ADDRESS: 121 Mill Street Auburn, ME
DATE: 6/13/2024

GENERAL QUALIFICATIONS

1. Project completion and start date are contingent upon proof of financing, execution of final contracts/exhibits and receipt of all applicable permits.
2. A [4]-week on-site construction schedule is anticipated, without material or weather delays.
3. Assumes free and clear access to the project site.
4. Normal working hours are the basis for labor costs. Premium time and shift differential expenses are not included.
5. Includes General Liability, Workers Compensation, Automobile Insurance, Excess Liability Insurance, – all of which shall be stipulated percentage amounts.
6. Builder's Risk insurance costs are by Others. Landry/French and its subcontractors to be named as additional insured on the owner secured Builder's Risk Policy.
7. Includes a [3.0]% Construction Contingency. We assume that the Owner has carried appropriate design contingency commensurate with the status of the project documents, inclusive of escalation.
8. Excludes Escalation.
9. Excludes a Performance & Payment Bond.
10. Excludes the Building Permit Fees.
11. Includes a 5.5% Maine Sales Tax.
12. Includes a construction final cleaning.
13. While we include coordination with utility companies, we exclude the impacts from late delivery and installation of required infrastructure (temporary or permanent) by utility companies including but not limited to electrical transformers, relocation of overhead power cables, installation of meters, and / or installation of gas services and livening of power, gas, water, and the like.
14. We have assumed all utility company backcharges, user fees and connection fees will be paid for by the Owner.
15. Temporary utility access will be off existing facility systems. All consumption charges are by Others. These include temporary power and temporary water. We have included the necessary utility consumption charges and fees for temporary utilities for the project including power, water, and high-speed internet.
16. Excludes a Weather Conditions allowance for work that may be required due to adverse weather conditions such as snow/ice/rain/frost removal, temporary heating, cooling and dehumidification, admixtures for concrete, temporary tarps, blankets and related carpentry. We may use the permanent HVAC system for a source of temporary heating and/or cooling. The costs required to run these systems (including but not limited to all utilities, labor, material, stand-by labor and equipment) and the cost to refurbish the equipment (including labor, materials, extended warranties, filter replacement, and ductwork cleaning) will be charged against the adverse weather conditions allowance.
17. The GMP constitutes a "bottom line cost guarantee" – no individual subtotal, line item, or cost component is guaranteed by the Contractor.

18. Alternates outlined within the GMP Exhibit A-2, and that are not accepted in the final GMP estimate, are valid for 30 days; after which they will be reviewed for pricing and schedule impacts.
19. Excludes requirements, associated costs or impacts for PPE above Level D.
20. Excludes design services and fees, engineering, third party inspections, testing and evaluations.
21. Excludes mock-ups, unless specifically called for in individual specification sections or noted above.
22. Excludes receipt and storage of typical Owner/Occupant equipment and/or furniture. Installation is included per responsibility matrix.
23. Excludes the handling and/or removal of hazardous/mold or unsuitable materials.
24. Excludes the handling and/or removal of any hazardous/mold or regulated materials including but limited to ACM, PCBs, regulated soils, and mold).
25. Excludes a Preconstruction Survey.
26. Excludes ledge and/or obstruction removal (including rock or large boulders).
27. Excludes seismic calculations and restraints for mechanical, plumbing, electrical, and acoustical ceilings.
28. Excludes any assumed warrantees and guarantees of any other work not performed under contract by Landry/French or that exceeds those listed by manufacturer.
29. All existing materials stored inside the building must be removed in order for us to install flooring and acoustical tile.

DIV 02 EXISTING CONDITIONS

1. Misc. wood base removal, removal of back stair which is being replaced.

DIV 03 CONCRETE

1. No scope of work – NOT USED.

DIV 04 MASONRY

1. No scope of work – NOT USED.

DIV 05 METALS

1. No scope of work – NOT USED.

DIV 06 WOOD, PLASTICS, AND COMPOSITES

1. Miscellaneous door trim at (5) doors
2. New PT set of stairs/porch, and railing at exterior door.

DIV 07 THERMAL AND MOISTURE PROTECTION

1. No scope of work – NOT USED.

DIV 08 OPENINGS

1. No scope of work – NOT USED.

DIV 09 FINISHES

1. Drywall- insulate, hang and tape up to 2' at bottom of wall where sheet rock is removed due to water damage.
2. Flooring – supply and install new carpet tile and 4" vinyl cove base.
3. We have incurred an allowance of $5,250 for any floor patching that may need to be done.
4. Acoustical ceilings – supply and install new CertainTeed BET-197 2'x4' flat ceiling tile into existing grid, approximately 5,472 sqft. of BET-197 and 1 carton of BQCL224 which is a 2'x4' tegular tile (at entrance lobby). Includes replacement of (2) mains and (20) 4' tees.
5. Paint – rooms to be painted are West Open Office, Training Room, Hall, East Open office and IT room (IT room not shown on plan)

DIV 10/11/12 SPECIALTIES, EQUIPMENT, & FURNISHINGS

PROPOSAL and CONTRACT

Customer:	City of Auburn		Contact: Gary Wadsworth
Address:	60 Court Street Auburn, ME 04210		
Job Location:	121 Mill Street	SE#: 46253 & 46254	Date: June 14, 2024

DESCRIPTION OF SERVICES COVERED BY THIS CONTRACT:

ITEM 1: Replace RTU-1 Heat Exchanger: Mechanical Services, Inc. shall provide labor and materials to replace the heat exchanger in roof top unit #1 at 121 Mill Street, Auburn. During a service inspection, it was discovered that the existing heat exchanger and inducer motor needed replacement.

This work shall include removal of the existing heat exchanger, support bracket, flame retainer and draft inducer motor, installation of the new heat exchanger, support bracket, flame retainer and draft inducer motor. Once the repairs have been completed, we shall return the unit to operation and perform an operational check of the unit in heating mode.

ITEM 1: COST FOR THIS PROPOSED WORK SHALL BE:

Six Thousand One Hundred Forty-Eight Dollars ($6,148.00)

This proposal requires a deposit of ___% or $_____. The balance will be invoiced at completion unless specified otherwise. Any additional work will be performed upon written authorization and will be invoiced separately from work described above.

ITEM 2: Replace RTU 7 Heat Exchanger: Mechanical Services, Inc. shall provide labor and materials to replace the heat exchanger in roof top unit #7 at 121 Mill Street, Auburn. During a service inspection, it was discovered that the existing heat exchanger and burner assembly needed replacement.

This work shall include removal of the existing heat exchanger, support bracket, flame retainer and burner assembly, installation of the new heat exchanger, support bracket, flame retainer and burner assembly. Once the repairs have been completed, we shall return the unit to operation and perform an operational check of the unit in heating mode.

ITEM 2: COST FOR THIS PROPOSED WORK SHALL BE:

Four Thousand Seven Hundred Eighty-Three Dollars ($4,783.00)

This proposal requires a deposit of ___% or $_____. The balance will be invoiced at completion unless specified otherwise. Any additional work will be performed upon written authorization and will be invoiced separately from work described above.

THE FOLLOWING WORK IS NOT INCLUDED IN THIS PROPOSAL:

- The handling or disposal of, or any costs associated with the handling or disposal of, hazardous materials, special waste, or mold, or any byproduct thereof.
- Unless specifically provided for herein, Mechanical Services, Inc. is not responsible for the structural integrity of any portion or aspect of the building where this work will be performed, including the ability of the structure to support the load of the equipment being installed.
- All extra service to correct problems found during work described above.

WARRANTY: For a period of one year from the date of start-up, all parts and labor for new equipment provided by Mechanical Services, Inc.

THIS PROPOSAL IS VALID FOR 30 DAYS.

Customer signature below attests to financial responsibility for payment of invoices in accordance with our terms of net 30 days. A finance charge of 1½% per month (annual percentage rate of 18%) will be charged on all amounts due and unpaid 30 days from invoice date. **Mechanical Services, Inc.** shall be entitled to recover from the customer all costs incurred, including reasonable attorney fees, for the collection of any amounts due. All non-public, confidential or proprietary information of Mechanical Services, Inc., including, but not limited to, the scope and terms of this proposal, engineering processes, equipment selection, system sizing, operational sequences, trade secrets, technology, information pertaining to business operations and strategies, or information pertaining to pricing (collectively, "Confidential Information"), disclosed by Mechanical Services, Inc., whether disclosed orally or disclosed or accessed in written, electronic or other form or media, and whether or not marked, designated or otherwise identified as "confidential," in connection with this proposal or the provision of services hereunder is confidential, and shall not be disclosed or copied without the prior written consent of Mechanical Services, Inc.

AUBURN SEWERAGE DISTRICT
RATE SCHEDULE
Effective November 1, 2022

CAPACITY DEMAND CHARGE:
All ratepayers will be subject to a demand charge for recovery of expenses associated with capital infrastructure (fixed cost). These expenses include the initial cost of collector sewers, pump stations and treatment facilities. The capacity demand charge will be based on the size of the domestic water meter. Rates are as follows:

Meter Size	Quarterly Rates	Monthly Rates
5/8"	$51.64	$17.21
3/4"	$74.36	$24.79
1"	$132.22	$44.07
1 ½"	$297.50	$99.16
2"	$528.86	$176.28
3"	$1,214.28	$404.76
4"	$2,115.46	$705.16
6"	$4,759.77	$1,586.59

USAGE RATE:
All ratepayers will be subject to a usage charge for the recovery of expenses associated with the collection and treatment of wastewater (variable cost). There is no minimum for metered water used. The user charge will be based on the actual volume generated. The usage rate will be:

$ 3.46 per 100 cubic feet (or 748 gallons) in Auburn
$ 4.15 per 100 cubic feet (or 748 gallons) in Poland

FLAT SEWER:
Seasonal households with a connection to public sewer that do not have a meter, will pay a quarterly flat sewer fee of:

$ 86.43 per quarter

INDUSTRIAL SURCHARGE FEE:
A surcharge over and above the regular usage charge will be assessed to industrial and commercial users who discharge higher than average concentrations of sewerage into the collection system. Surcharge will be established by sampling the effluent discharged.

BOD @ $ 0.148 per Pound of BOD above 250 mg/l
TSS @ $ 0.199 per Pound of TSS above 300 mg/l

SEWER CONNECTION INSPECTION PERMIT:
A sewer connection inspection fee shall be charged for each connection made to the sewer collection system. The sewer connection inspection fee shall be: **$50.00 per connection**

Auburn Water District Rate & Fee Schedule

Effective July 19, 2023

Water Rates (Cubic Feet)			
Minimum Charge	0 – 600 CF	$49.50	
	601 – 4,999 CF	$49.50 plus $8.13 per 100 CF over 601 CF	
	≥ 5,000 CF	$407.22 plus $10.94 per 100 CF over 5,000 CF	
Annual Fire Protection Charges (replaces sprinkler charge)			
Pipe Diameter	Charge	Pipe Diameter	Charge
2-inch	$180	6-inch	$540
2.5-inch	$225	8-inch	$720
3-inch	$270	10-inch	$900
4-inch	$360		
Private Fire Hydrant Charges			
$25 per hydrant per quarter			
Entrance Fees			
Domestic Services		**Fire Protection Services**	
¾-inch and 1-inch	$3,500	4-inch	$6,500
1.5-inch	$4,000	6-inch	$8,500
2-inch	$4,500	8-inch	$10,500
4-inch	$6,500	10-inch	$12,500
All domestic services over 1-inch require backflow protection.			
All Fire Protection Services systems require backflow protection.			
All underground irrigation systems require backflow protection.			
Miscellaneous Fees			
Application for Connection (First Dwelling or Commercial Unit served by a single meter)	$3,500	Covers ability to connect only, does not include inspection, meter or other fees. 1-inch domestic connection fee.	
Application for Connection (Each Additional Dwelling or Commercial Unit served by the same meter)	$3,500	Covers ability to connect only, does not include inspection, meter or other fees. 1-inch domestic connection fee.	
Service Call (regular business hours)	$60	Per call.	
Remove/Install a Seasonal Meter	$60	Fee to remove and store, no charge to re-install.	
Labor Rate (regular business hours)	$60	Per employee per hour, billed in half hour intervals.	
Labor Rate (outside regular business hours)	$90	Per employee per hour, 2-hour minimum charge, then billed in half hour intervals.	
Backhoe Rate (regular business hours)	$65	Per hour, billed in half hour intervals.	
Backhoe Rate (outside regular business hours)	$130	Per hour, billed in half hour intervals.

Monthly Financial Report
May 2024

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending May 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending May 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its seventh month of the current fiscal year. As a guideline for tracking purposes, revenues and expenditures should amount to approximately 91.66% of the annual budget. However, not all costs and revenues are distributed evenly throughout the year; individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through May 2024 were **$102.5M** or **90.56%** of budgeted general fund revenue, as compared to **$100M** of actual revenues through May 2023.

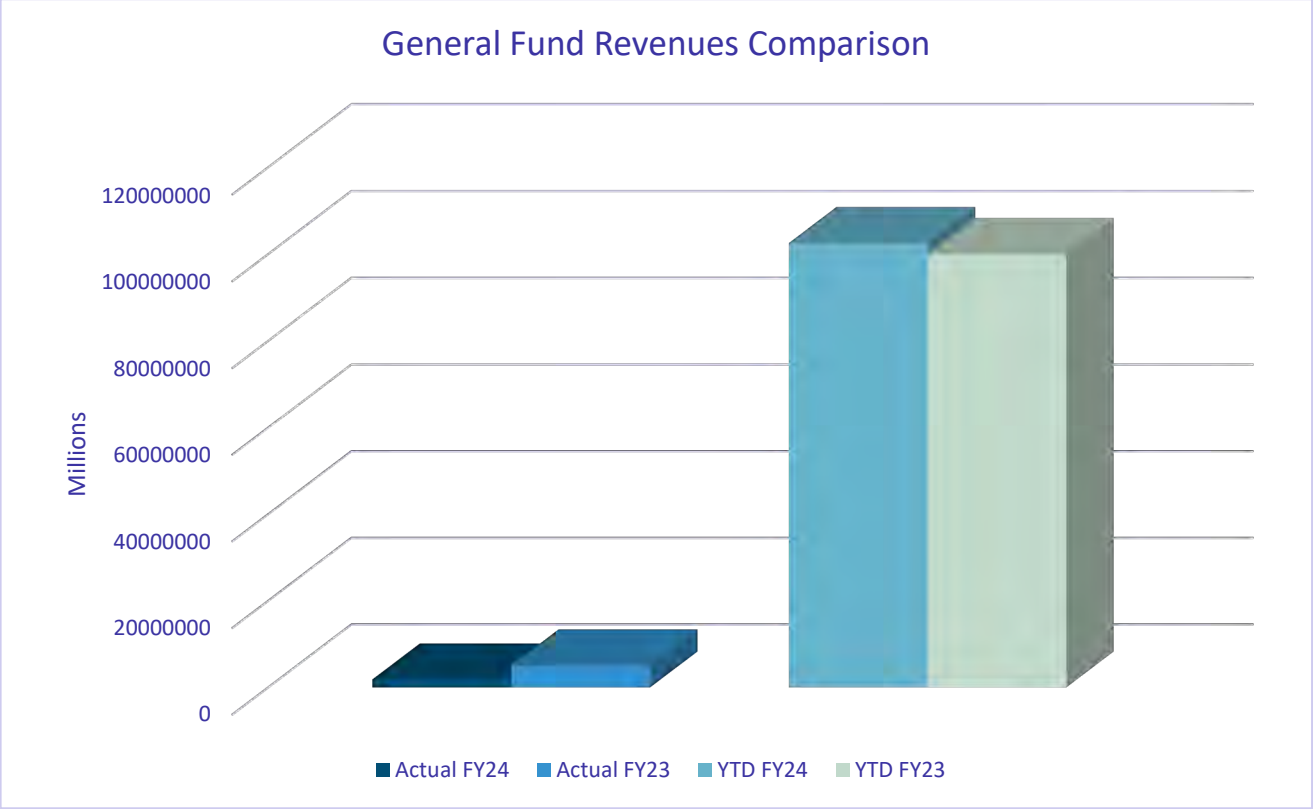
•Year-to-date tax revenues of **$50.3M** were **2.70% higher** than the prior year.

• Increases resulted most significantly from investment returns and revenue share.

Expenditures

• Expenditures through May 2024 were **$84.1M** or **73.78%** of the budget, as compared to **$87.7M** of actual expenditures through May 2023.

•Insurance costs were less than budgeted both in projected deductibles and in employer costs.



Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

General Fund

for the Period Ended May 31, 2024

Norway Savings Bank Arena

for the Period Ended May 31, 2024

As of May 2024, Norway Arena had an operating gain YTD of $149,338, representing a $67,702 increase from the same period in April.

Revenues:

The operating revenues for Norway Arena through May 2024 are $898,730. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals. Table 1 reflects revenues collected for the current year with comparison for the same period a year ago. Total revenues represent a 0.71% decrease over May FY23, resulting primarily from reductions from Adult and Youth leagues, and CMCC rental.

Expenditures:

The operating expenses for Norway Arena through May 2024 were $749,392. These expenses include personnel costs, supplies, utilities, repairs, capital purchases and maintenance. Table 2 reflects expenditures for the current year with comparison for the same period a year ago. Total expenditures represent a 0.85% increase over YTD FY23, consistent with the increased cost of services and goods comingled with a reduction in use.

Ingersoll Turf Facility

for the Period Ended May 31, 2024

Revenues:

The operating revenues for Ingersoll through May 2024 are $191,609. This revenue comes from sponsorships, programs, rental income, and batting cages. Table 1 reflects revenues collected for the current year with comparison for the same period a year ago. Total revenues represent a 31.23% increase over FY23 resulting primarily from rental income.

Expenditures:

The operating expenses for Ingersoll through May 2024 were $18,532. These expenses include supplies, repairs, capital purchases and maintenance. Table 2 reflects expenditures for the current year with comparison for the same period a year ago. Total expenditures represent a 45.25% decrease over FY23, a reduction that resulted from some costs now being budgeted in Recreation Department lines.

a. **Mayor's Report**
b. **City Councilors' Reports**
c. **Student Representative Report**
d. **City Manager Report**

IX. **Executive Session**

X. **Adjournment**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: July 15, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) to discuss an economic development matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

At 5:30pm, Councilor Milks moved to enter executive session pursuant to Title 1 M.R.S.A. Section 405(6)(A) for a personnel matter. Seconded by Councilor Walker. Motion passed 7-0. Council came out of executive session at 6:55pm.

Mayor Harmon called the meeting to order at 7:00P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present. Student Representative Egge was absent.

I. Consent Items - None

II. Minutes – June 17, 2024 Regular Council Meeting
Motion by Councilor Walker to accept the minutes, seconded by Councilor Cowan. Motion passed 7-0.

III. Communications, Presentations and Recognitions - None

IV. Open Session
There were no speakers from the public.

V. Unfinished Business
None.

VI. New Business

The Mayor limited public comment to three minutes per speaker.

1. ORDINANCE 11-07012024 - City Council initiated a text amendment to Chapter 60 Article XIII Division 2- Phosphorous Control. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Whiting, seconded by Councilor Walker.
The Mayor opened this for public comment. There was no comment.

Motion made by Councilor Whiting to amend ORDINANCE 11 to match the phosphorus calculation tables established by the Maine Department of Environmental Protection Watershed Planning and Management Program to recognize the reduced developable acreage in the watershed and the associated phosphorus allocations as follows:

1. In the Definition of Acceptable Increase, change .5 to .08.
2. In the Definition of Future Area to be Developed change 1,180 to 435.
3. In the definition of Per-acre phosphorus allocation change .047 to .020

Motion to amend seconded by Councilor Cowan. No discussion. The motion passed 7-0.
Motion for passage, as amended, passed 7-0.

2. ORDINANCE 12-07012024 - City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Walker, seconded by Councilor Weisner.
There was no public comment.
Motion passed 7-0.

3. ORDINANCE 13-07012024 - City Council initiated a text amendment to Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First Reading.*

Motion for passage by Councilor Walker, seconded by Councilor Platz.
The following spoke:
Jay Bishop, Auburn
Steven, Johnson Rd
Annette Lausier, Elm St
Motion passed 7-0.

4. ORDINANCE 14-07012024 - Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Walker, seconded by Councilor Whiting.
There was no public comment.

Councilor Cowan moved to amend ORDINANCE #14 adopting the Lake Auburn Watershed Overlay District Septic Inspection Map as recommended by Planning Board, by:

1. removal of the Septic Site location dots on the map, and
2. replacing the dates on the map legend and the with the labels Year 1, Year 2, Year 3, Year 4, Year 5 in the same sequential order as originally proposed.

Motion to amend seconded by Councilor Gerry. Motion passed 7-0.
Passed as amended 7-0.

5. ORDINANCE 15-07012024 - Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Walker, seconded by Councilor Whiting.
There was no public comment.
Motion passed 7-0.

6. RESOLVE 6-07012024 - Resolve calling on the Lake Auburn Watershed Protection Commission to Fund Subsurface Wastewater System Inspections in the Lake Auburn Watershed. *Passage requires majority vote.*

Motion for passage by Councilor Walker, seconded by Councilor Cowan.
There was no public comment.
Motion passed 7-0.

IN COUNCIL WORKSHOP & MEETING JULY 1, 2024 VOL 37 PAGE 176

7. ORDINANCE 16-070102024 - City Council initiated a zoning text amendment to Chapter 60, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII Division 2-Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Gerry, seconded by Councilor Whiting.
There was no public comment.
Motion passed 7-0.

8. ORDINANCE 17-07012024 – Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B-Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. *First reading.*

Motion for passage by Councilor Walker, seconded by Councilor Platz.
There was no public comment.
Motion passed 7-0.

9. ORDER 87-07012024 – Allocating $70,000 in ARPA funds for Auburn housing study. *Passage requires majority vote.*

Motion for passage by Councilor Gerry, seconded by Councilor Cowan.
There was no public comment.
Motion passed 6-1 (Walker opposed).

10. ORDER 88-07012024 – Allocating $40,000 in ARPA funds for food insecurity. *Passage requires majority vote.*
Motion for passage by Councilor Walker, seconded by Councilor Gerry.
There was no public comment.
Motion passed 7-0.

11. ORDER 89-07012024 – Repurposing 121 Mill Street as a community resource center. *Passage requires majority vote.*

Morion for passage by Councilor Gerry, seconded by Councilor Cowan.

The following spoke:
Kathleen Light, 143 Mill St
Dan Campbell, Hotel Rd
Greg Whitney, President of Drop In Center
Peter Floyd, VP Operations of Drop In Center
Lynn Ward, Hotel Rd
Beth, 254 S. Main St
Jennifer Youkle, Auburn
Nicole Rush, Durham
Julia Kimball, Randolph
MJ Monahan, Durham
John Davidson, Treasurer of Drop In Center
Nora M, Lewiston
Jeannie Starboard, Lisbon
Amy Smith, Durham

Marian Claxton, Danbury Dr
Ken Bragg, Lewiston
Carol Holmes, Academy St
Dave, High St
Catherine Ryder, Lewiston
Art, Danville Corner Rd
William K, Auburn
Carmen Brochu, South Portland
Deigo, Drop In Center
Bruce Nadeau, Auburn
Fred Brodeaur, 83 Sixth St
Sasha Anastasia, South Portland

Motion passed 5-2 (Walker, Milks opposed).

12. ORDER 90-07012024 – Allocating $438,702.83 in ARPA funds for the 121 Mill Street Resource Center and relocating the Business & Community Development Department. *Passage requires majority vote.*

Motion for passage by Councilor Whiting, seconded by Councilor Cowan.
There was no public comment.
Motion passed 6-1 (Walker opposed).

VII. Open Session
Dale Carlson, Gray
Michael Lemay, Auburn
David, High St
Bruce Nadeau, Auburn

VIII. Reports
a. Mayor's Report - Attended the Auburn Public Library dinner. Attended the grand opening of the Northeast Bank Center. Gave a brief update on 911 consolidation.
b. City Councilors' Reports - Councilor Weisner wished everyone a happy 4th of July and reminded the public of the special election on July 9. Councilor Walker wished everyone a happy 4th of July. Councilor Platz updated the Council on the most recent actions of the School Committee.
c. Student Representative Report – Representative Egge was absent.
d. City Manager Report - Spoke on the dedication of Philbrick Square. July is National Parks and Recreation Month; the city will be promoting its local parks and recreation department programs. Attended the Chamber annual awards event. Recognized Panolam Surface Systems. Mentioned wrapping up the FY24 fiscal year with a high note for permitting. Updated the Council on the status of 46 Fair St. Reminded the public that Auburn Hall will be closed July 4 and 5. The PAL Groundbreaking ceremony will occur on July 12.
e. May 2024 Finance Report
IX. Executive Session – None.
X. Adjournment

Motion to adjourn by Councilor Weisner, seconded by Councilor Walker. Motion passed 7-0.
Council adjourned at 9:40pm.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance: 11-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second Reading on Chapter 60 Article XIII Division 2- Phosphorous Control Ordinance Amendments

Information: The proposed amendments pertain to septic system installation, maintenance and replacements and new development. Specifically, it lowers the "acceptable increase" of Phosphorous which can be discharged into Lake Auburn and lowers the acreage of developable land to reflect the reduced, potentially developable, acreage and phosphorus allocations after the changes to lot sizes and use regulations were made last December. This amendment follows orders 04-01022024 and order 71-05062024.

The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953 and made a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 2 Phosphorus Control, Sec. 60-1065, and Sec.60- 1069. The details for the number changes to developable acreage and phosphorus allocations were presented to Planning board and Council during previous workshops and the Planning Board Public Hearing.

This item was given first reading, was amended (definitions), and passed first reading on July 1st. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Second reading and Public Hearing.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop and public hearing on May 14. This item was given first reading, was amended, and passed first reading on July 1st.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments:

Public hearing notice (NOTE: This is the notice for all 7 ordinance amendments appearing on the agenda this evening), Planning Board memo, Ordinance as amended and passed by Council on July 1, 2024.

LEGAL NOTICE
CITY OF AUBURN

Notice is hereby given that the Auburn City Council will hold Public Hearings on Monday, **July 15, 2024, at 7:00 p.m.** in the City Council Chambers, 60 Court Street, Auburn, Maine to consider the following topics:

1. PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article XIII Division 2- Phosphorous Control. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

2. PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

3. PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60, Division 4-Lake Auburn Watershed Overlay District. The proposed amendments pertain to septic system installation, maintenance and replacements, and new development.

4. PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District.

5. PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District.

6. PUBLIC HEARING/ MAP AMENDMENT: Consider City Council proposed amendments to Chapter 60, Article XVI, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII.

7. PUBLIC HEARING/ MAP AMENDMENT: Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Additional information and copies of the official map and text amendments listed above are available in the Auburn Planning & Permitting Department, by contacting Katherine Cook at (207) 333-6601 ext. 1155 or kcook@auburnmaine.gov, and will be made available online no later than the Friday before the meeting at https://www.auburnmaine.gov/pages/government/planning-board-agendas.

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Phosphorous Control Text Amendment in the Lake Auburn Watershed

The following is the report from the Planning Board regarding text amendments pertaining to Phosphorous loading within the Lake Auburn Watershed. After notice and Public Hearings held on May 14th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article XIII Division 2- Phosphorous Control. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Note from Staff: There was a clerical error in one of the phosphorous calculations.

Motion: Ryan Smith makes a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 2 Phosphorus Control, Sec. 60-1065, and Sec.60- 1069.
Second: Paul Jaques,
Vote: 6-1-0. Motion Carries

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is ~~0.5~~ .25

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is ~~1,180.0~~ 150

~~L~~*ake Auburn* means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~65~~; for Lake Auburn, the phosphorus allocation is 0.02~~047~~.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is ~~109.9~~ 3.74 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

rev 8/20/2021	C changed to 0.5 ppb due to 2012 bloom and alum treatment in water supply						

DIVISION 2. PHOSPHORUS CONTROL

Sec. 60-1064. Purpose.

(a) The purpose of this division is to provide protection against additional phosphorus export to Taylor Pond and Lake Auburn from new land uses and changes in existing land uses by ensuring that development within the watersheds does not generate more phosphorus than the water bodies can handle and by eliminating or reducing existing sources of phosphorus.

(b) Phosphorus, a nutrient, stimulates algal growth, the main cause of water quality decline. The primary source of new and increasing phosphorus loading in the state lakes is land development: residential, commercial and industrial.

(Ord. of 9-21-2009, § 5.7A)

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is .08.~~0.5.~~

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is ~~1,180.0.~~ 435.

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~6~~5; for Lake Auburn, the phosphorus allocation is 0.0~~47~~20.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is ~~109.9~~ 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

(Ord. of 9-21-2009, § 5.7B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-1066. Applicability.

This division shall apply to all land areas within the direct watersheds of Taylor Pond and Lake Auburn. The following land uses shall be required to obtain a phosphorus control permit and conform to the standards contained in this division:

(1) Any new building or structure with more than 200 square feet of ground floor area.

(2) Any expansions or series of expansions of ground floor area of any existing building which increases the area of the ground floor by more than 30 percent of that which exists at the time of adoption of the ordinance from which this division is derived.

(3) Any earth moving, brush and tree cutting which impacts 10,000 square feet or more whether accomplished as a single activity or as a series of activities beginning on the date of adoption of the ordinance from which this division is derived shall only meet the criteria contained in section 60-1069.

(4) Road or driveway construction and reconstruction and parking area construction which affects more than 1,500 square feet of land area whether accomplished as a single activity or as a series of activities beginning on the date of adoption of the ordinance from which this division is derived shall only meet the criteria contained in section 60-1069.

(5) All projects for which special exception, site plan and subdivision review is required.

(Ord. of 9-21-2009, § 5.7C; Ord. No. 15-05022022, 5-16-2022)

Sec. 60-1067. Exemptions.

This division shall not apply to the following:

(1) Changes of use within an existing structure where no ground floor expansion and/or road, driveway and parking area expansion is planned.

(2) Timber management or harvesting operations conducted according to a management plan prepared and supervised by a registered forester (unless required by division 4 of article XII of this chapter) or the city water district.

(3) Agricultural uses conducted according to a soil and water conservation plan approved by the Androscoggin County Soil and Water Conservation District.

(Ord. of 9-21-2009, § 5.7D)

Sec. 60-1068. Best management practices.

Agriculture, silviculture, mining, chemical use and storage and waste disposal activities should be conducted in accordance with the best management practices (BMPs) as recommended by the department of environmental protection, the state soil and water conservation commission, the cooperative extension service or other appropriate public service agency. New roads and the reconstruction of existing roads, driveways, drainage diversions, ditches and roadside buffers should be designed for the worst storm conditions in accordance with the best management practices (BMPs) recommended by the department of environmental protection, the state soil and water conservation commission, the cooperative extension service or other appropriate public service agency.

(Ord. of 9-21-2009, § 5.7E)

Sec. 60-1069. Erosion and sedimentation controls.

A comprehensive erosion and sedimentation control plan, including a proposed program for the maintenance and periodic inspection of all control facilities which will remain after the project is completed and a designation of the responsible party, shall be submitted to the city planning, permitting, and code department as follows:

(1) In the Taylor Pond Watershed~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of the~~ the latest edition of Maine Department ~~of~~ Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual Volume III, March 2016. ~~DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and sediment Control Handbook and all building and environmental protection requirements of this Code. For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(2) In the Lake Auburn Watershed Overlay District~~., A~~ a plan designed in accordance with the applicable sections of ~~chapter 8 of~~ the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II & Technical Design Manual III, March 2016,~~. DEP Phosphorous Control and Lake Watersheds: A Technical Guide to Evaluating New Development~~, the latest edition of the Maine Erosion and Sediment Control Handbook, and all building and environmental protection requirements of this Code ~~and criteria of the city water district or commission.~~ For dwelling units, the Basic Single Family Residential (SFR) Lot Standards of the latest edition of Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual, Volume II shall be used.

(Ord. of 9-21-2009, § 5.7F)

Sec. 60-1070. Submission requirements.

All projects subject to review under the provisions of this division shall submit a phosphorus control plan and maintenance provisions meeting the standards set forth in design criteria of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorus Control Manual Volume II, March 2016.

(1) *Plan submission.* Plans shall be submitted and processed in accordance with article XVI of this chapter. In addition to the requirements for submission under this article, the following instructions shall be provided:

a. A long-term maintenance plan for all phosphorus control measures including provisions for inspection and repair, designation of responsible parties, contractual obligations and proposed deed restrictions.

b. Hydrologic soil class of all areas to be cleared or where clearing will be permitted, with the area indicated in square feet of each lot using the appropriate method as described in the phosphorus control manual.

c. All calculations and worksheets in the format of those contained in the phosphorus control manual and detailed construction specifications and diagrams for all control measures.

d. A comprehensive erosion and sedimentation control plan, designed in accordance with the latest version of Maine Erosion and Sediment Control Handbook for Construction: Best Management

Practices, ~~March 1991~~ October 2016, and all building and environmental protection requirements of this Code.

(2) *Review method.*

a. All projects shall use the standard review method and shall conform to the Phosphorus Allocation standard set forth in this division including the following: Expansions of four lot subdivisions which were previously approved using the simple review method.

b. Projects meeting the following criteria may employ the simple review method:

1. Minor subdivisions with four or fewer lots provided that these developments contain less than 200 feet of new or upgraded roads and/or all driveways serving residential uses are less than 150 feet in length.

2. Activity which includes less than 200 feet of new or upgraded road construction.

(3) *Commercial and industrial development and expansions.* Commercial and industrial development and expansions of commercial and industrial developments and the expansion of multifamily dwelling units, which involve less than 15,000 square feet of disturbed area. All other subdivisions including expansions of previously approved four-lot subdivisions which were reviewed using the simple review method and all other projects shall utilize the standard review method.

(Ord. of 9-21-2009, § 5.7G; Ord. No. 11-03012021, § 81, 3-15-2021; Ord. No. 10-03072022, 3-21-2022)

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XIII. ENVIRONMENTAL PERFORMANCE STANDARDS

● ● ●

DIVISION 2. PHOSPHOROUS CONTROL

● ● ●

Sec. 60-1065. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable increase in lake phosphorus concentration (C) is based upon water quality and the city's selected level of protection. For Taylor Pond the number is 0.75; for Lake Auburn the number is .08~~0.5.~~

Direct watershed means any land area which contributes storm-water runoff by either surface or subsurface flow to Taylor Pond or Lake Auburn without such runoff first passing through an upstream lake.

Future area to be developed (D) means an estimate of the acreage in the city's share of the direct watersheds that will be developed during the planning period of 50 years. For Taylor Pond, the estimated future developed acreage is 715.3; for Lake Auburn, the estimated future developed acreage is 435 ~~1,180.0.~~

Lake Auburn means the Lake Auburn Watershed regulated by this chapter, which is all land areas within the direct watershed of Lake Auburn as defined on the attached map entitled Lake Auburn Watershed Overlay District Map.

Per-acre phosphorus allocation (P) means the acceptable increase of phosphorus export per acre in the watershed as determined by solving the following equation (P) = (FC)/(D). For Taylor Pond, the phosphorus allocation is 0.03~~65~~; for Lake Auburn, the phosphorus allocation is 0.0~~47~~20.

Phosphorus export coefficient (F) means the amount of phosphorus export from the watershed each year that will produce a one ppb increase in the lake's phosphorus concentration. For Taylor Pond, the phosphorus coefficient is 35.26 lbs/ppb/year; for Lake Auburn, the phosphorus coefficient is 109.9 lbs/ppb/year.

Taylor Pond means the Taylor Pond Watershed regulated by this chapter, which is all land areas within the direct watershed of Taylor Pond as defined on the attached map entitled "Taylor Pond Watershed Map".

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance: 12-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second Reading on Amendment to Article IV Division 3- LDCR Setbacks.

Information: City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District as part of order 04-01022024 and order 71-05062024. The proposed amendment is to reduce the minimum front yard setback in the Low-Density Country Residence District to reduce disturbed and impervious area, and therefore the potential nutrient runoff to the lake possible from any new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

The Planning Board recommended that City Council to amend text to Chapter 60, Article II General Provisions, Division 3, Low Country Density Residential, Sec. 60-202 as shown in the attached meeting materials. This item was given first reading and passed on July 1, 2024. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Second Reading and Public Hearing.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop and public hearing on May 14 and forwarded a favorable recommendation. This item was given first reading and passed on July 1, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Ordinance, Article IV Division 3-LDCR Proposed Text Amendment, May 14 Planning Board Recommendation.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Text Amendment (LDCR minimum setback)

The following is the report from the Planning Board regarding text amendments pertaining to increasing the minimum setback in the LDCR district to reduce runoff within the Lake Auburn Watershed. After notice and Public Hearings held on May 14th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: City Council initiated a text amendment to Chapter 60 Article IV Division 3- Low Density Country Residential District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Motion: Ryan Smith makes a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 3, Low Country Density Residential, Sec. 60-202.

Second: Paul Jacques

Dave Trask asks for clarification that this item is just changing the minimum setback for building form 50' to 25'. That is confirmed.

Vote: 7-0-0 Motion Carries.

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-200. Purpose.

The purpose of this zone is to maintain and promote the rural/agricultural character of the land within this zone. This zone is composed of those areas in the city whose predominant land use is rural, wooded and agricultural. The regulations for this zone are designed to protect and stabilize these predominant land uses which are the essential characteristics of these areas and to minimize conflicting land uses detrimental to agricultural enterprises. Since residences are only incidental to this zone's development, the densities which require improved roads and expanded municipal services, in excess of those required by the present agricultural-oriented uses, shall not be permitted.

(Ord. of 9-21-2009, § 3.32A)

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for

domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less, unless the lot is in the Lake Auburn Watershed Overlay District in which case the front yard shall have a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.32C; Ord. No. 11-03012021, §§ 10, 11, 3-15-2021)

Secs. 60-203—60-227. Reserved.

Ordinance #12-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE IV. DISTRICT REGULATIONS

● ● ●

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

● ● ●

Sec. 60-202. Dimensional requirements.

All structures in this district except as noted shall be subject to the following dimensional regulations:

(1) *Minimum lot area, width and depth.* No lot shall be created and/or no building shall be erected on a lot containing less than three acres and measuring less than 325 feet in width. No lot shall be less than 200 feet in depth. The keeping of horses, mules, cows, goats, sheep, hogs and similar size animals for domestic use of the residents of the lot is permitted provided that the land area required per animal unit forms to the definition of farm, livestock contained in section 60-2.

(2) *Density.* The density of dwelling units shall not exceed an average of one dwelling per three acres.

(3) *Yard requirements.*

a. *Rear.* There shall be behind every building a rear yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot, whichever is less.

b. *Side.* There shall be a minimum distance of 15 feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 25 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 50 feet or 25 percent of the average depth of the lot whichever is less, unless the lot is in the Lake Auburn Watershed Overlay District in which case the front yard shall have a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

(4) *Height.* The height of all dwelling structures shall be limited to 2½ stories or 35 feet in height. Accessory buildings and structures may have a maximum height of 65 feet from grade, provided that the front yard, rear yard, and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance: 13-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second reading on text amendments to Lake Auburn Watershed Overlay District

Information: The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953.

The text amendments presented here were proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

The planning board recommended three amendments or conditions on the motion to forward a favorable recommendation to city council to amend text to Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec. 60-952 and Sec. 60-953. The amendments/conditions included 1.) Add a comma to page 5, Sec. 6 before the word LAWPC, 2.) Obtain legal opinion on Title 30-A Sec. 4360 Rate of Growth Ordinance and confirm if we can set a rate of 3 units per year 3.) That effective date of the inspection program be delayed 1 year and until there is a dedicated pool of funding available for SSWW System owners.

The City has obtained the requested legal opinion requested by the planning board and the provision does not violate the Statute. The city is also pursuing funding opportunities for septic inspections as was discussed at the workshop and you will vote on tonight. The comma correction was added to the ordinance text as a clerical error. This item was given first reading and passed on July 1, 2024. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Public hearing and second reading.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. Planning Board held a workshop on this text amendment on May 14, and made a positive recommendation on June 18. This item was given first reading and passed on July 1, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Date: 06/18/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Text Amendment (Septic Systems & New Development)

The following is the report from the Planning Board regarding text amendments pertaining to new development and new, upgraded, and replacement septic systems in the Lake Auburn Watershed Overlay District. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ TEXT AMENDMENT: The Planning Board is to review text updates to Article II General Provisions, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

Summary and Discussion: The planning board held a public hearing on the text amendments within Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec, 60-952 and Sec 60-953. The planning board discussed how to best achieve the goal of recommending the text amendment only if a few amendments were addressed. They made the motion, made four (4) amendments to their original motion, and then voted to forward a favorable recommendation to the Council for this text change if the amendments were considered.

Motion: Ryan Smith makes a motion: I make a motion to forward a favorable recommendation to city council to amend text to Ch. 60, Article 2 General Provisions, Division 4 Lake Auburn Watershed Overlay District Sec. 60-951, Sec. 60-952 and Sec. 60-953. **Second:** Bob Hayes seconds the motion.

Amendment: Riley makes an amendment to add a comma to page 5 sec 6 before the word LAWPC **Second:** Ryan Smith seconds the amendment.
Amendment passes 5-0-0

Amendment: Bob Hayes moves that we delay the implementation of the inspection program for a full year. **Second:** Ryan Smith seconds. **Amendment passes 5-0-0**

Amendment: Dave Trask makes an amendment that we remove the maximum of three dwellings in the first paragraph in Sec. 8. **Second:** Ryan Smith seconds.
Vote: 3-2-0 motion does not pass (4 votes are needed to pass a motion).

Amendment: Dave Trask makes an amendment to request legal opinion on Title 30-A Sec. 4360 Rate of Growth Ordinance to have legal opinion to confirm that it is within the municipality as stated in Sec. 3, paragraph B.
Second: Riley Bergeron seconds the amendment.
Vote: 4-1-0 amendment passes.

Amendment: Riley Bergeron makes one more amendment that the effective date of the inspection program be delayed until there is a dedicated pool of funding available for septic owners. **Second:** Ryan Smith seconds this amendment.
Vote: 4-1-0 amendment passes.

Vote on motion with amendments: 5-0-0 motion passes.

To: Auburn Planning Board
From: John Blais, Deputy Director of Planning & Permitting
Re: Item #5 Text and Map Amendments Related to Lake Auburn Stakeholders Group
Date: June 18, 2024

I. PROPOSAL: The Planning Board is to review text updates to Article II General Provisions, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024. (See attached redlined items)

II. DEPARTMENT REVIEW:

- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

III. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

IV. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:

C.) Lake Auburn Overlay District: This item is on the Planning Board agenda as a public hearing item. Staff recommends the Planning Board have a discussion and a make a formal recommendation to the City Council to the text amendments in Chapter 60, Article II General Provisions, Division 4, Lake Auburn Watershed Overlay District, Sec. 60-951, Sec. 60-952, and Sec.60-953.

Staff recommends this text change as it clarifies and updates the following: Definitions, Update the SSWW rules, Drinking Water Program Review, Septic System Inspection Program, Limit new systems/homes in the watershed, mechanisms for enforcement, and updates to shoreland zoning setbacks.

POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to amend text to Chapter 60, Article II General Provisions, Division 4 Lake Auburn Watershed Overlay District, Sec. 60-951, Sec.60-952 and Sec. 60-953.

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department~~department of planning and permitting services~~ and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within ~~such section~~the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Building has the same meaning as in section 60-2.

Curtain drain means a ~~tranch~~ trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:

(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and

(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22.

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Normal high-water line and Normal high-water mark means that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and ~~consistence~~consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be ~~Also sometimes~~ referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems*.

(~~b~~a) ~~*Residential d*~~*Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in ~~the~~ that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(~~f~~b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration. ~~The following regulations shall be adhered to in the development of private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design ~~criteria~~ requirements are met before the ~~LPI~~ local plumbing inspector finds the design or installation of the system to comply with this section.

(2) N~~o n~~ew (first use), expanded, or replacement disposal field~~s~~ shall be set back from~~installed closer than 400 feet to~~ the normal high-water mark of any lake, pond, ~~or year-round or intermittent stream~~stream, or brook ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~ as follows:

~~a. Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

~~(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.~~

(~~4~~3) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.~~either have:~~

a. ~~A c~~Curtain drain installed per Section ~~11~~12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (~~2015~~2023), as may be amended from time to time; or

b. ~~A d~~Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length ~~(~~including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any ~~under drain~~ short circuiting of the disposal field~~),~~

~~whichever installation in determined to be the most appropriate based on the evaluation of groundwater conditions on the site by a state licensed site evaluator.~~

~~The local plumbing inspector shall require that a state licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this section.~~

(~~5~~4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(~~5~~6) Commencing July 1, 2024, ~~LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every five years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.~~ the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated March 19, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector.

Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of

Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection.

The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,

2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and

2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Water Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(~~7~~6) ~~The Auburn Water District~~In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or ~~housing inspector~~code enforcement officer of

any observed defects or malfunction that require ~~abatement~~ corrective action by the property owner or operator.

(~~8~~7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to ~~the Auburn Water District or its designee~~LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted.

The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.

Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural uses.* Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if:

(1) The owner or operator first demonstrates to LAWPC's watershed manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff; and

(2) LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) *Manure and sludge disposal.* Spreading and disposal of sludge is prohibited. All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.

3. *Enforcement*

The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

~~All~~ Any new or expanded buildings ~~and~~ or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than ~~75~~ 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within ~~75~~ 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

Ordinance #13-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XII. ENVIRONMENTAL REGULATIONS

● ● ●

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

● ● ●

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department~~department of planning and permitting services~~ and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within ~~such section~~the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Building has the same meaning as in section 60-2.

Curtain drain means a ~~tranch~~ trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.

Hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:

(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and

(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large
Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor
Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Ordinance

Non-hobby agricultural use means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.

Normal high-water line and Normal high-water mark means that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and ~~consistence~~consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be ~~Also sometimes~~ referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

City Council Ordinance

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

● ● ●

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems.*

(~~b~~a) ~~*Residential d*~~*Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in ~~the~~ that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(~~f~~b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration. ~~The following regulations shall be adhered to in the development of private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design ~~criteria~~ requirements are met before the ~~LPI~~ local plumbing inspector finds the design or installation of the system to comply with this section.

(2) N~~o n~~ew (first use), expanded, or replacement disposal field~~s~~ shall be set back from~~installed closer than 400 feet to~~ the normal high-water mark of any lake, pond, ~~or year-round or intermittent stream~~stream, or brook ~~(as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~ as follows:

~~a. Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.~~

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

~~(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.~~

(43) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.~~either have:~~

a. ~~A c~~Curtain drain installed per Section ~~11~~12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (~~2015~~2023), as may be amended from time to time; or

b. ~~A d~~Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length ~~(~~including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any ~~under drain~~ short circuiting of the disposal field~~),~~

~~whichever installation in determined to be the most appropriate based on the evaluation of groundwater conditions on the site by a state licensed site evaluator.~~

~~The local plumbing inspector shall require that a state licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this section.~~

(~~5~~4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems~~, replacement or new,~~ shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(~~6~~5) Commencing July 1, 2024, ~~LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every five years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.~~ the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated March 19, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

City Council Ordinance

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector. Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection. The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,
2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and
2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Water Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(~~7~~6) ~~The Auburn Water District~~In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or ~~housing inspector~~code enforcement officer of any observed defects or malfunction that require ~~abatement~~ corrective action by the property owner or operator.

(~~8~~7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to ~~the Auburn Water District or its designee~~LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted. The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.
Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural uses.* Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are only allowed if:

(1) The owner or operator first demonstrates to LAWPC's watershed manager that such use or expansion will not cause groundwater contamination and will not contaminate or disturb the normal course of surface water runoff; and

(2) LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer.

(c) *Agricultural buffer strip.* Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(d) *Manure and sludge disposal.* Spreading and disposal of sludge is prohibited. All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.

(e) *Erosion control.* The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:

(1) Any earth cutting, moving or removal activities that will result in erosion or runoff which is likely to increase sedimentation of Lake Auburn, or any tributaries or other water bodies in the watershed are prohibited.

(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved

by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.

(3) Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.

3. *Enforcement*

The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

● ● ●

Sec. 60-953. Dimensional regulations; building setbacks.

~~All~~ Any new or expanded buildings ~~and~~ or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than ~~75~~ 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within ~~75~~ 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance: 14-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second Reading of a Zoning Map Amendment regarding a Subsurface Wastewater System Inspection Map in the Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

Information: This item proposes adopting a map which lays out a timeline for a new septic system inspection program referenced in the amendments to Division 4 Lake Auburn Watershed Overlay District. Staff recommends this map amendment. This map will serve as a guide for the city to plan inspections in a timely way according to their proximity and risk to Lake Auburn.

The planning board recommended two minor amendments in the motion to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District Septic Inspection Map. The recommended amendments included 1.) to remove the dots from the map as they don't provide specific information relative to the actual areas that are being tested and the focus should be on the zones/color-coded areas, 2.) Update the dates on the map to reference year 1 through year 5 and eliminate actual dates. These amendments were made and passed at the first reading held on July 1, 2024.

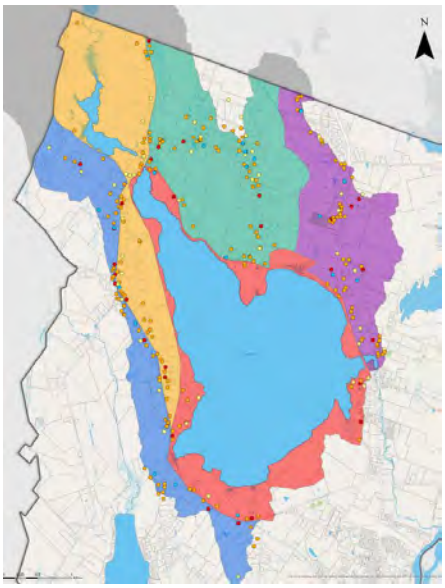
A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Second Reading and Public Hearing.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. The Planning Board held a workshop on this text amendment on May 14, and made a positive recommendation on June 18. Amended and passed first reading on July 1, 2024.

City Manager Comments:



I concur with the recommendation. Signature: Phillip Crowell J.

From: John Blais, Deputy Director of Planning & Permitting
Re: Item #6 Map Amendment Related to Lake Auburn Stakeholders Group
Date: May 14, 2024

I. PROPOSAL: The Planning Board is to review Septic System Inspection Map in relation to Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024. (See attached map)

II. DEPARTMENT REVIEW:

- Police - No Comments
- Auburn Water and Sewer – No Comments
- Fire Department/Code Enforcement – No Comments
- Engineering – No Comments
- Public Services - No Comments
- Airport – No Comments
- 911 - No Comments

III. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

IV. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:

E.) Lake Auburn Watershed Overlay District Septic Systems Inspection Map: This item proposes adopting a map which lays out a timeline for a new septic system inspection program referenced in the amendments to Division 4 Lake Auburn Watershed Overlay District. Staff recommends this map amendment. This map will serve as a guide for the city to plan inspections in a timely way according to their proximity and risk to Lake Auburn.

POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to adopt the Lake Auburn Watershed Overlay District Septic Systems Inspection Map in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

City of Auburn, Maine
Planning & Permitting Department
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Map Amendment (Septic System Inspection Program)

The following is the report from the Planning Board regarding adopting the Septic System Inspection map. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: John Blais clarifies that if either the house or the septic system is partly in the watershed, it would be subject to inspection. The dots on the map are only for reference. Staff recommends that this map become an interactive GIS layer for he public to reference. There is more discussion about updating records of septic systems as the inspection program roles out. There was also discussion about the possibility of submitting a septic inspection before the deadline prescribed on the map. Staff answered that getting the inspection earlier and counting it in the inspection program will be permitted. They made the motion, made two (2) amendments to their original motion, and then voted to forward a favorable recommendation to the Council.

Motion: I make a motion to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District Septic Inspection Map in accordance with Ch. 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map **Second:** Bob Hayes seconds the motion.

Amendment 1: Dave Trask makes an amendment to update the dates on the map to reference year 1 through year 5 rather than date certain given our previous discussions **Second:** Riley Bergeron seconds the amendment.
Amendment passes 5-0-0

Amendment 2: Dave Trask makes an amendment to remove the dots from the map as they don't provide specific information relative to the actual areas that are being tested and the focus should be on the color-coded areas. **Second:** Bob Hayes seconds.
Amendment passes 5-0-0

Final Motion: Dave Trask seeks motion for the original motion with the two (2) amendments. **Second:** Darren Finnegan Seconds**.**
Vote 5-0-0 motion passes.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance: 15-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second Reading on a Zoning Map Amendment adopting the Lake Auburn Watershed Overlay District 400-foot setback to Lake, Stream & Brook, for Subsurface Wastewater Fields Map as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 and order 71-05062024.

Information: This item proposes codifying a visual to show the proposed 400-foot buffers from the high-water mark of any lake, pond, stream or brook as identified on the USGS 7.5 minute series map. Staff recommends this map amendment. This map will serve as a reference to property owners and for city staff to ensure that new subsurface wastewater disposal systems are located a safe distance away from tributaries which feed Lake Auburn. The language requiring septic systems be at least 400 feet away from a tributary of Lake Auburn was already passed in the previous text amendment and the map is a visual representation of the text.

The planning board voted to forward a favorable recommendation to city council to adopt the Lake Auburn Watershed Overlay District 400 feet setback to Lake, Stream, and Brook for Subsurface Wastewater Fields, attached in this meeting's materials. This item was given first reading and passed on July 1, 2024. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Second Reading and Public Hearing.

Previous Meetings and History: Recommendations originate from approximately ten stakeholder meetings from February through May. The Planning Board made a favorable recommendation on June 18. This item was given first reading and passed on July 1, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

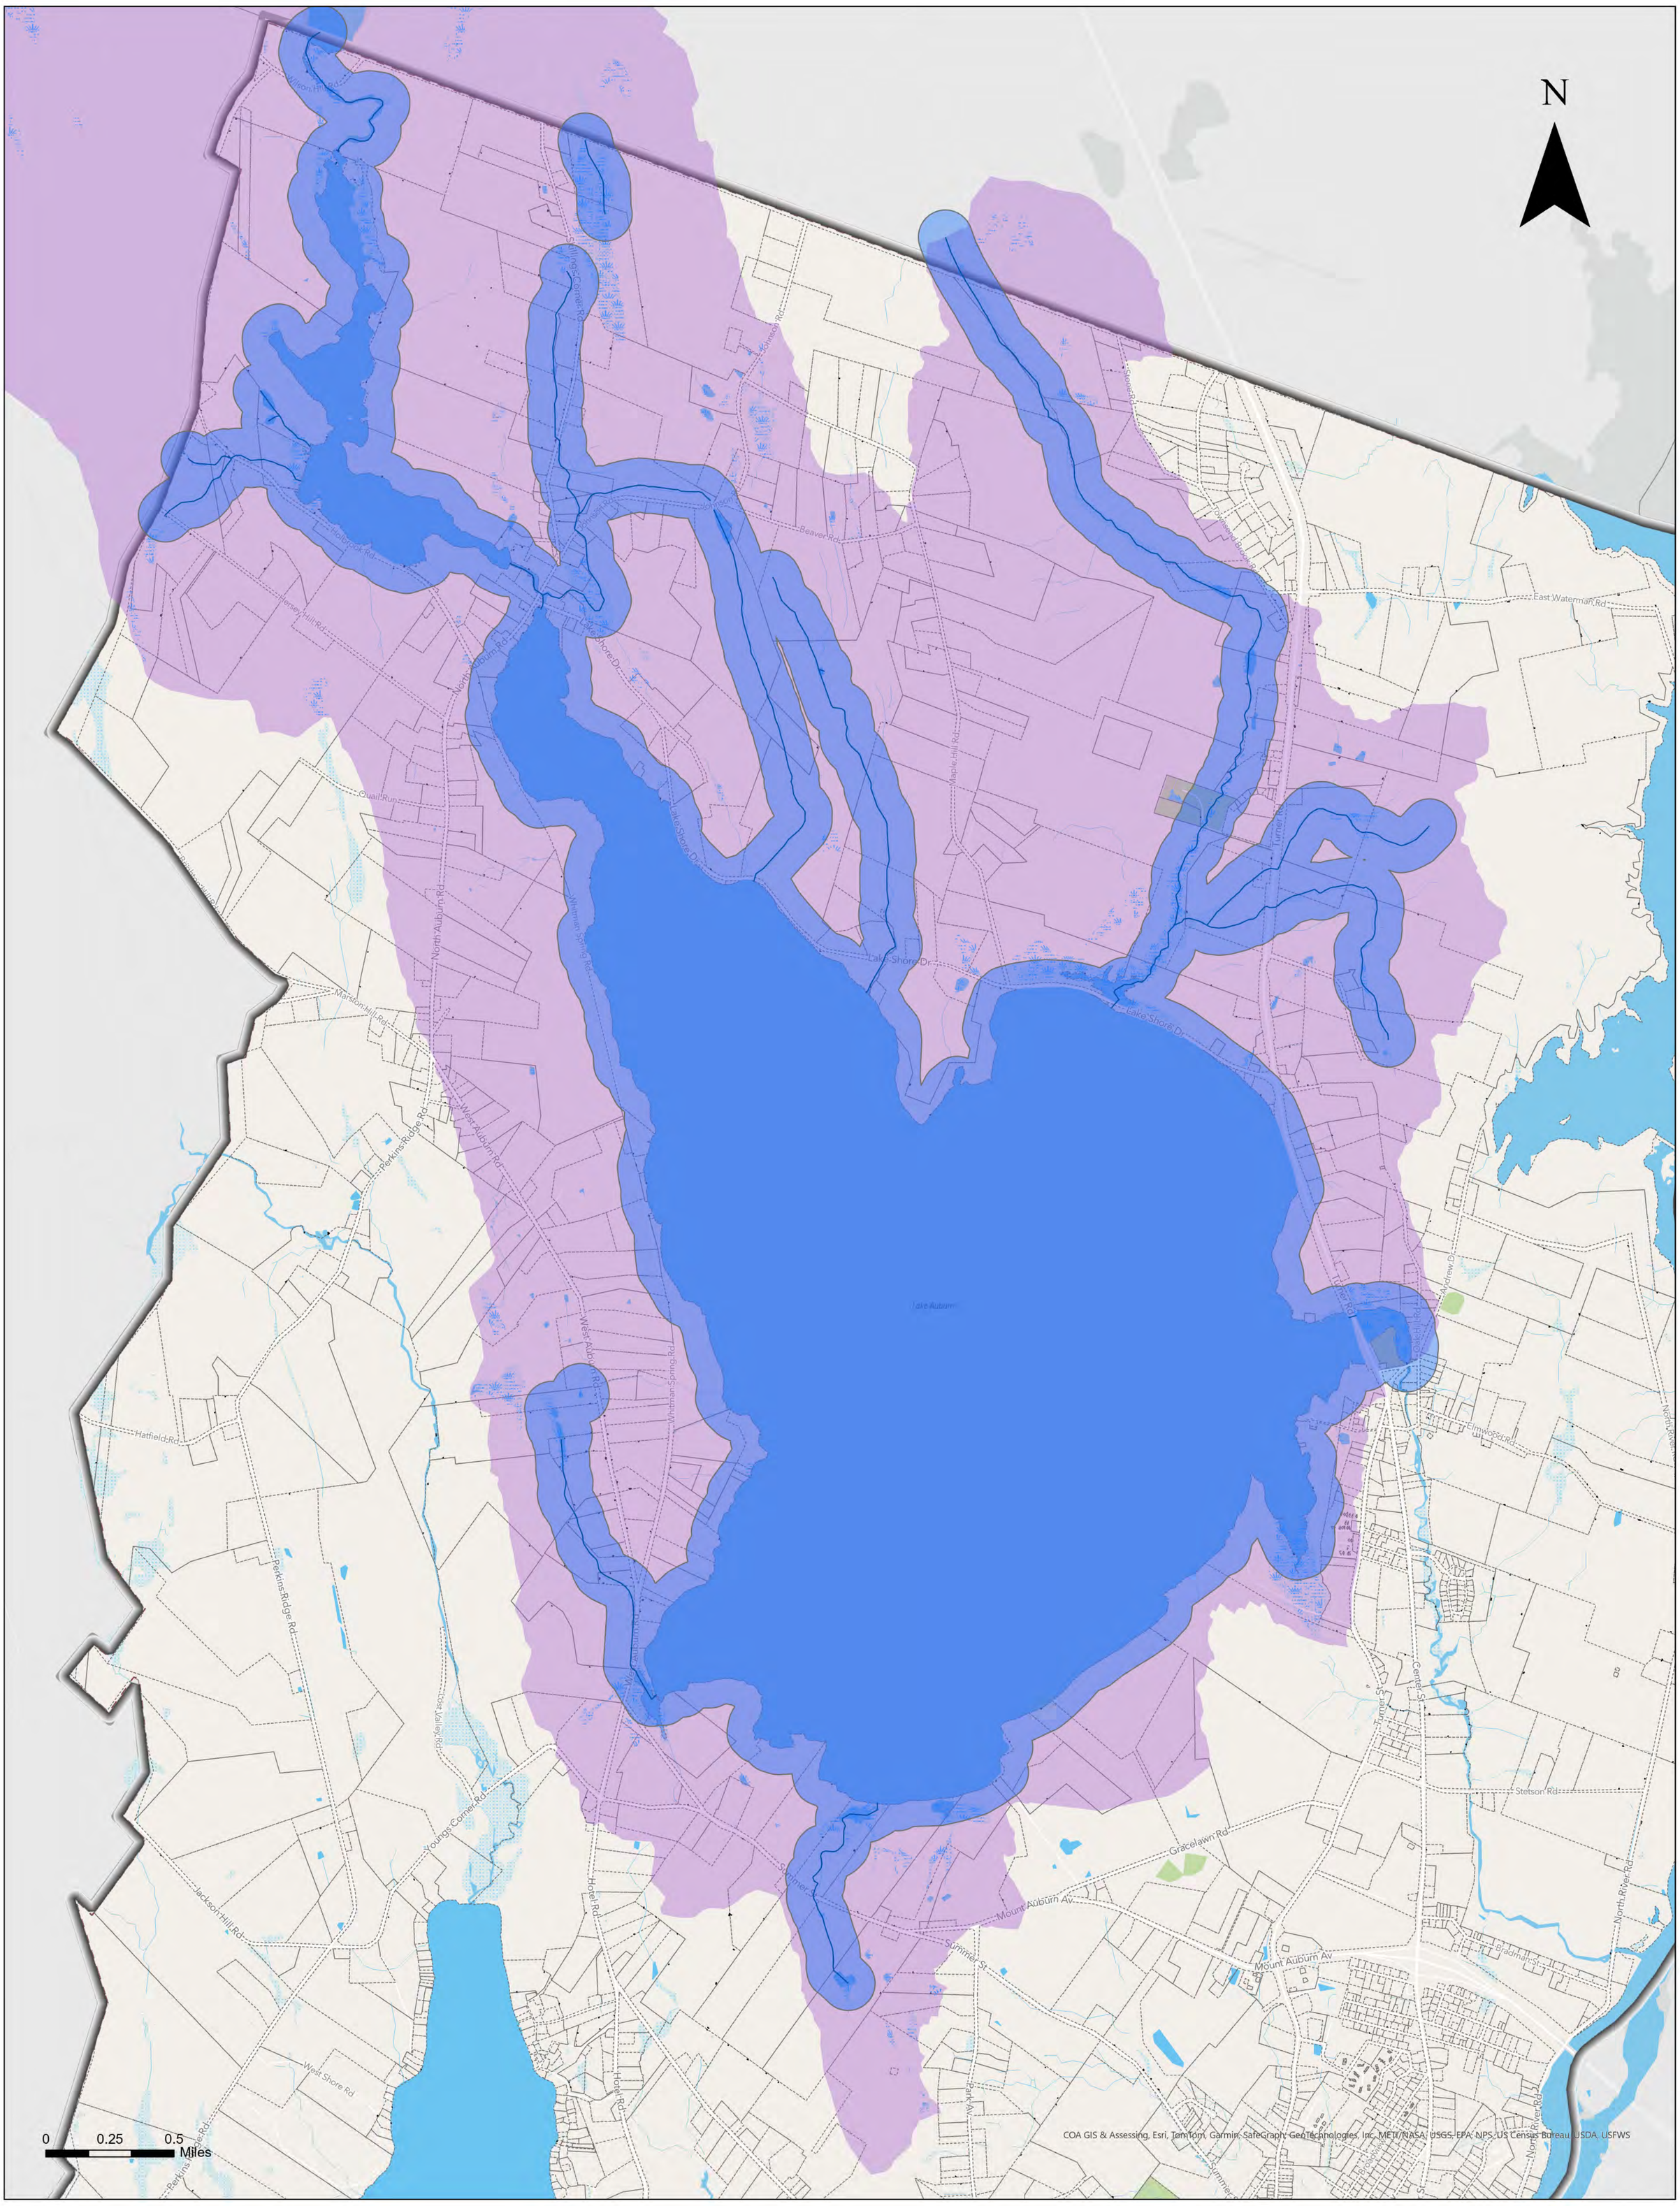
Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on Lake Auburn Watershed Map Amendment (400 Foot Resource Setback)



The following is the report from the Planning Board regarding adopting the Septic System Resource Setback Map for new, expanded, and replacement septic systems. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: Discussion about whether this amendment means that ADUs or home expansions cannot be added if they require a new or expanded septic system within one of the mapped buffer areas. Staff confirms, but also points out that this language requiring septic systems be at least 400 feet away from a tributary of Lake Auburn was already passed in the previous text amendment and the map is a visual representation of the text. They made a favorable recommendation to the Official Lake Auburn Overlay District 400' setback to Lake, Stream and Brook for Subsurface Wastewater Fields Map.

Motion: Darren Finnegan makes a motion to forward a favorable recommendation to city council to adopt the Official Lake Auburn Watershed Overlay District 400 feet setback to Lake, Stream & Brook, for Subsurface Wastewater Fields Map in accordance with Ch. 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

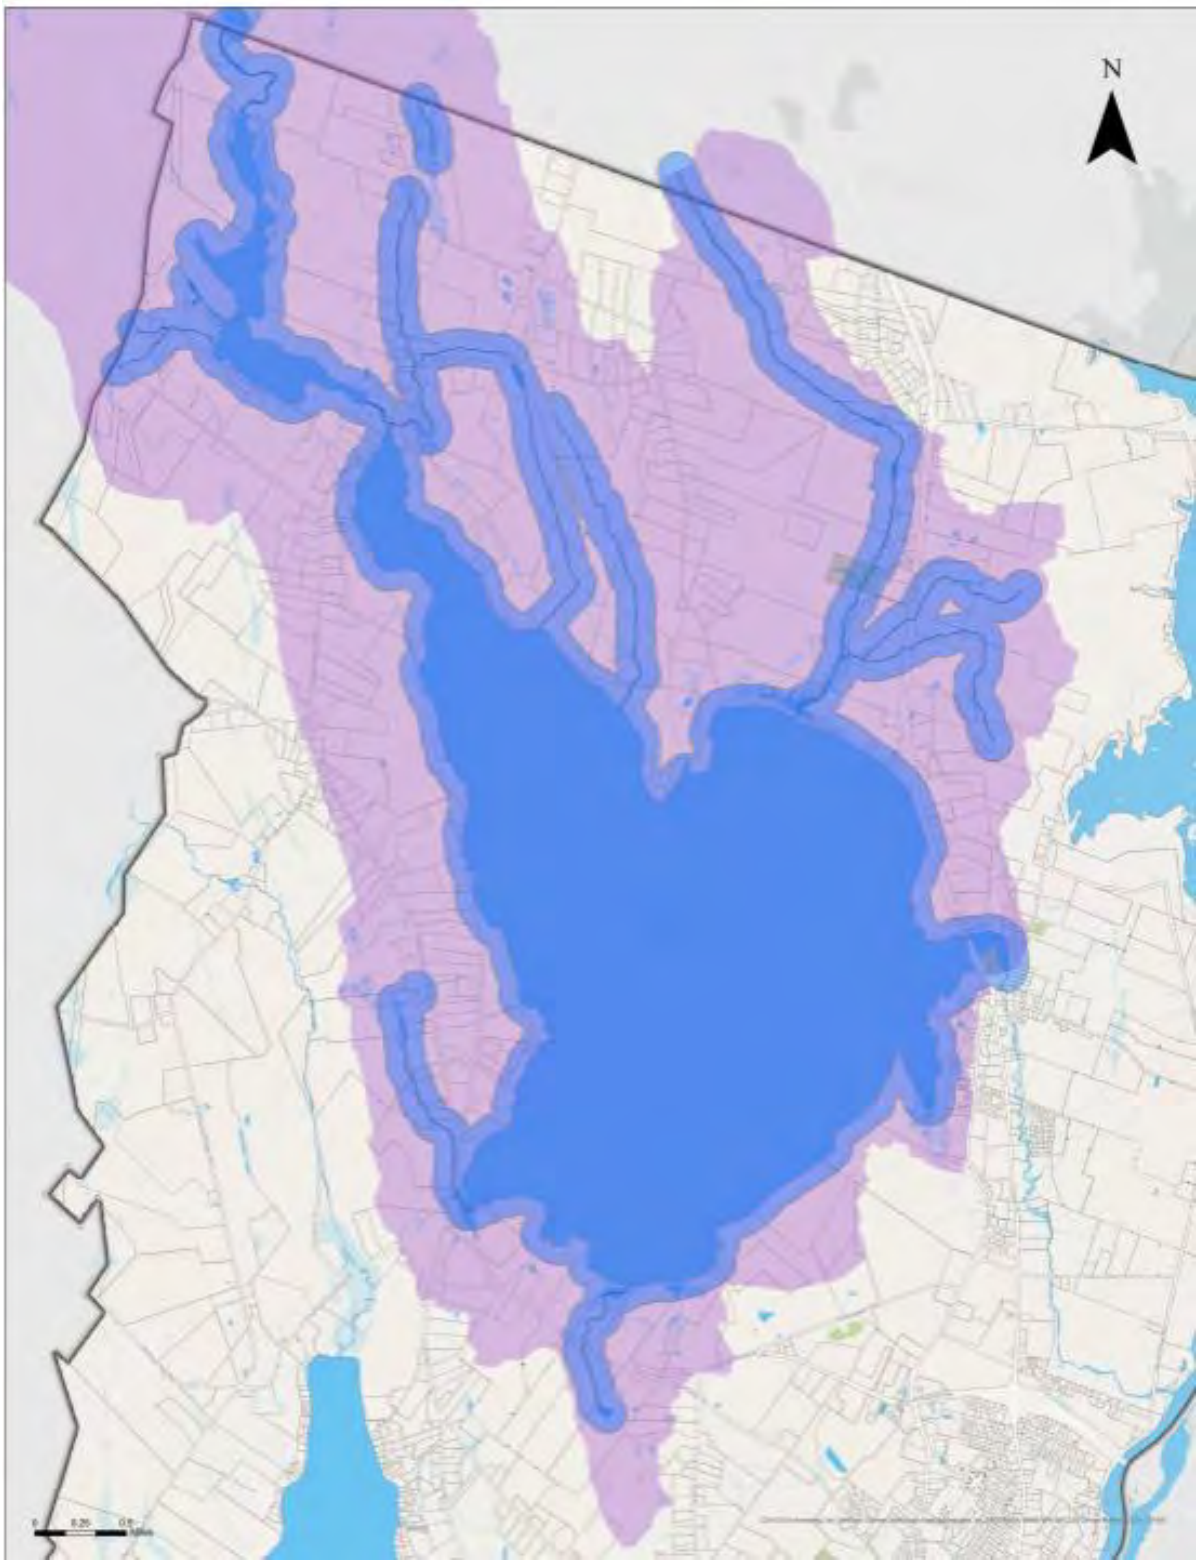
- 911 - No Comments



III. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

IV. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:

D.) Official Lake Auburn Overlay District 400-foot setback to Lake, Stream, and Brook for Subsurface Wastewater Fields: This item proposed codifying a visual to show the proposed 400-foot buffers from the high-water mark of any lake, pond, stream or brook. Staff recommends this map amendment. This map will serve as a reference to property owners and for city staff to ensure that new subsurface wastewater disposal systems are located a safe distance away from tributaries which feed Lake Auburn. This buffer is referenced in the Division 4 Lake Auburn Watershed Overlay District Text Amendment. Staff recommends adopting this resource setback map as an official zoning map.

POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to adopt the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map in accordance with Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Ordinance #15-07012024

City Council Ordinance

IN CITY COUNCIL

Creating the Official Lake Auburn Overlay District 400-foot Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields:

Be it ordained, by the Auburn City Council, that the Official Zoning Map of the City of Auburn to be amended to create the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map in accordance with Chapter 60 Article XVII Division 2- and appears as follows:

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance 16-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second Reading on proposed text amendment to Article XVI Administration and Enforcement.

Information: The zoning text amendment extends the timeframe for initially accepting an application for processing to reflect the existing review schedule within the City of Auburn. The amendment also guides the process to communicate either the deficiency, conditional acceptance, or full acceptance of the application. This amendment clarifies the date of acceptance as the date the director verifies that all required submittals have been turned in and are satisfactory.

This zoning text amendment removes the provision that a project is automatically approved if no action's taken within 60 days after a complete application submittal in recognition that there are several occasions in which the period of review is reasonably extended or delayed. For example, they may request the applicant to provide a traffic analysis or other information pertaining to the safety and functionality of a site. Beyond the information required by the city, the applicant may also be required to get additional state permits depending on the size and impact of the project. Possible additional permitting may include Natural Resource Protection Act (NRPA), State review for anything outside of delegated review authority including projects with impervious area exceeding 10 acres and projects generating over 200 trips at peak hour, Review and approval by the Army Corps of Engineers, Air Emissions License, and extends the timeline of approval for solar energy projects which frequently required approval extension due to delays in securing the CMP interconnection agreement. This item was given first reading and passed on July 1, 2024. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: None anticipated

Staff Recommended Action: Second Reading and Public Hearing.

Previous Meetings and History: Planning Board held a workshop on this text amendment on May 14, 2024 and made a positive recommendation at the planning board public hearing, June 18, 2024. This item was given first reading and passed on July 1, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board motion on timelines and processes surrounding planning board site plan review.

The following is the report from the Planning Board regarding adopting new and clarifying language regarding Site Plan Review. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

PUBLIC HEARING/ MAP AMENDMENT: City Council initiated a zoning text amendment to Chapter 60, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Summary and Discussion: Discussion about previous workshops the planning board has had on this item. Staff discusses the reason for this amendment which is to add flexibility to the timeline for approving projects where needed. There was also a short discussion on the meaning of "unreasonable delay" from existing case law. The Planning Board made a favorable recommendation to the City Council to adopt this text change.

Motion: Riley Bergeron makes a motion to forward a favorable recommendation to the city council on Chapter 60, Division 2 Site Plan Review to reflect the language specified in this meeting's materials. **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

Date: June 18th 2024
Auburn Planning Board
Author: Katherine Cook, Planning Coordinator
Subject: Item # 8 Planning Board Public Hearing text amendment to Article XVI Administration and Enforcement

I. **Proposal:** Public Hearing on City Council initiated amendment to Chapter 60, Article XVI, Division 2 Site Plan Review

II. **Background:** Staff had a discussion with the planning board in 2023 related to the City of Auburn's ordained procedures to accept, review, and make a decision to approve or deny development review applications. Among the prompts for this ordinance text amendment were 1.) the longer timeline required between application and construction for solar energy generating systems, 2.) the occasional need to extend planning board review time due to reasonable delays, and 3.) the need to update Auburn's Ordinance to reflect city staff's practiced timeline and process of development review.

The text proposed text amendment is intended to address shortcomings in the ordinance that may result in automatic approvals being identified based on project reviews that may take more than one Planning Board Meeting. This amendment considers that the Planning Board is empowered to request more information if needed to make a final decision on a development review application.

The zoning text amendment extends the timeframe for initially accepting an application for processing to reflect the existing review schedule within the City of Auburn. The amendment also guides the process to communicate either the deficiency, conditional acceptance, or full acceptance of the application. This amendment clarifies the date of acceptance as the date the director verifies that all required submittals have been turned in and are satisfactory.

This zoning text amendment removes the provision that a project is automatically approved if no action's taken within 60 days after a complete application submittal in recognition that there are several occasions in which the period of review is reasonably extended or delayed. For example, they may request the applicant to provide a traffic analysis or other information pertaining to the safety and functionality of a site. Beyond the information required by the city, the applicant may also be required to get additional state permits depending on the size and impact of the project. Possible additional permitting may include

- Natural Resource Protection Act (NRPA)
- State review for anything outside of delegated review authority including projects with impervious area exceeding 10 acres and projects generating over 200 trips at peak hour,
- Review and approval by the Army Corps of Engineers,
- Air Emissions License.

Finally, this amendment also extends the timeline of approval for solar energy projects which frequently required approval extension due to delays in securing the CMP interconnection agreement.

Suggested Ordinance Amendments:

Sec. 60-1300. File for site plan review
- Replace "~~department of community development and planning~~" with "planning, permitting and code department"
- Remove clause "~~such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~"

Sec. 60-1303. Approval-Timeline for Review.

- Remove "~~planning, permitting and code enforcement~~" before "director"
- Extend the initial application completeness review time from ~~five~~ days to 10 business days and notify the applicant that either 1.) The application is not accepted for processing as it has not met the requirements of Sec. 60-1300 and Sec. 60-1301 and shall enumerate the materials that are missing; or 2.) The application has been conditionally accepted for processing as one or more required elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or 3.) The application has met the requirements of Sec. 60-1300 and Sec. 60-1301 and is accepted for processing.
- Clarify method for distribution and review within departments of the city. Options include 1.) Request additional information from the applicant in order to assist with the director's review of the submitted site plan and/or 2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.
- Specify that the director shall, upon completion of the director's review of the site plan, but no later than 60 days after the notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning bard meeting.

Sec. 60-1304. Same—Public hearing; findings.

- Establish a timeline of at least 15 days between the director's request to schedule a public hearing, and the date of the public hearing scheduled by the planning board chair.
- Specify that the planning board shall not unreasonably delay taking final action on a site plan after the closure of the public hearing.

Sec. 60-1306. Signed copies.

- Remove the sentence, "~~if no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~"
- Specify that the approved plan shall be signed by the planning board chair on behalf of the planning board.

Sec. 60-1307. Findings in writing

- Specify that the findings for the decision shall be signed by the planning board chair on behalf of the planning board.

Sec. 60-1308. Expiration of approval.

- Extends the date of expiration for solar energy generating systems from one year until two years after the date of approval.
- In the case that the project is litigated, specify that the approval will not commence until a nonappealable court judgement is issued.
- Replace "~~his~~" with "the developer's"

Sec. 60-1313. Correction of off-site deficiencies.

- Replace "~~his~~" with "the developer's"

III. **Staff Recommendation/ Planning Board Action:** Review the proposed text amendment, discuss, hold a public hearing, and forward a recommendation to the city council. Staff Recommends the Planning Board favor a favorable recommendation as the amendment gives the planning board, applicants and staff more flexibility in project review.

IV. **Potential Motion:** I make a motion to forward a favorable recommendation to the city council Chapter 60, Article XVI, Division 2 Site Plan Review to reflect the language specified in this meeting's materials.

ORDER

City Council Order

IN CITY COUNCIL

Ordered, that the Auburn City Council initiate an amendment to City of Auburn Ordinances Chapter 60, Article XVI, Division 2 Site Plan Review and refer the proposed(attached) text to the Planning Board for a public hearing and recommendation on the proposed text amendment pursuant to Chapter 60, Article XVII. Amendments.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three

Phillip L. Crowell, Jr., City Manager

DIVISION 2. SITE PLAN REVIEW

Subdivision I. In General

Sec. 60-1276. Purpose.

The purpose of site plan review is to ensure that the design and layout of certain developments permitted by special exceptions, or other developments noted herein, will constitute suitable development and will not result in a detriment to city, neighborhood or the environment.

(Ord. of 9-21-2009, § 7.1A)

Sec. 60-1277. Objective.

In considering a site plan, the planning board shall make findings that the development has made provisions for:

(1) Protection of adjacent areas against detrimental or offensive uses on the site by provision of adequate surface water drainage, buffers against artificial and reflected light, sight, sound, dust and vibration; and preservation of light and air;

(2) Convenience and safety of vehicular and pedestrian movement within the site and in relation to adjacent areas;

(3) Adequacy of the methods of disposal for wastes; and

(4) Protection of environment features on the site and in adjacent areas.

(Ord. of 9-21-2009, § 7.1B)

Sec. 60-1278. Applicability.

A site plan review shall be required for the following projects:

(1) All uses permitted by special exception.

(2) Any other uses for which site plan review is required by any other provision contained in this or other ordinances.

(Ord. of 9-21-2009, § 7.1C)

Secs. 60-1279—60-1299. Reserved.

Subdivision II. Procedure

Sec. 60-1300. File for site plan review.

An applicant for site plan review shall file with the ~~department of community development and planning~~planning, permitting and code department a completed site plan application along with an original and 15 copies of the site plan and the required processing fee. ~~Such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~. Plans shall be folded at a size not to exceed 8½ inches by 11 inches.

(Ord. of 9-21-2009, § 7.1D(1); Ord. No. 11-03012021, 3-15-2021)

Sec. 60-1301. Scale; required information.

The original plan shall be drawn on reproducible Mylar at a scale of no more than 100 feet to the inch. Each site plan shall contain the following information:

(1) Name and address of owner and developer and interest of the applicant if other than the owner or developer.

(2) Name of development, scale and meridian arrow, with specific definition of representation, date of plan and legend.

(3) Names and addresses of all owners of record of all adjacent property as appear on assessor's records.

(4) Current zoning boundaries and 100-year floodplain boundaries including surrounding areas to a distance of 300 feet from the perimeter of the site.

(5) Easements; rights-of-way, existing, planned or proposed; or other reservations adjacent to or intersecting the property.

(6) Topographic map of the site, containing the following:

a. Existing contours, where the slope of existing ground surface is generally two percent or more, the topographic map shall show contours at intervals of five feet of elevation (or lesser intervals as the planning board or engineering department may prescribe). Where the slope of the existing ground surface is generally less than two percent, contour intervals of one foot shall be shown. These contours shall not be copied from the city topographic maps and shall be determined from an on-site survey certified by a registered land surveyor.

b. Proposed contours shall be shown at intervals to be determined by the city engineer.

(7) Location of watercourses, wetlands, marshes, surface water, rock outcroppings, wooded areas, single trees with a diameter of ten inches measured three feet from the base of the trunk.

(8) Location of buildings existing on the tract to be developed and on adjacent tracts within a distance of 100 feet from the property line, indicating whether existing buildings on the tract are to be retained, modified or removed.

(9) Locations of water mains, sewer mains, wells, fire hydrants, culverts, drains, pipe sizes, grades and direction of flow, existing within 200 feet of the subject property.

(10) Existing soil conditions and soil suitability test results.

(11) Locations of proposed buildings and uses thereof.

(12) Proposed traffic circulation system including streets, parking lots, driveways and other access and egress facilities, curblines, sidewalk lines and existing streets, including the projected traffic flow patterns into and upon the site for both vehicles and pedestrians and an estimate of the projected number of motor vehicle trips to and from the site for an average day and for peak hours.

(13) Location of existing and proposed public utility lines, indicating whether proposed lines will be placed underground.

(14) Site developments requiring stormwater permits pursuant to 38 M.R.S.A. § 420-D shall include the required plan and to the extent permitted under 38 M.R.S.A. § 489-A, be reviewed under the procedures of article XVI of this chapter; and they shall meet and comply with 38 M.R.S.A. § 484(4-A) and those Rules promulgated by the Maine Department of Environmental Protection pursuant to the Site Law and section 420-D, specifically Rules 500, 501 and 502, as last amended August 12, 2015. If a project proposes infiltration and the standards in Rule 500, appendix D are not met, then a waste discharge license may be required from the Maine Department of Environmental Protection. An infiltration system serving a development regulated under the Site Location of Development Act may be required to meet standards in addition to those in appendix D.

(15) Location and design of proposed off-street parking and loading areas indicating number and size of stalls.

(16) Proposed location and direction of and time of use of outdoor lighting.

(17) Existing and proposed planting, fences and walls, including all landscaping and screening and indicating existing trees to be retained and areas to be left undisturbed, including design features intended to integrate the proposed new development into the existing landscape to enhance aesthetic assets and to screen objectionable features from neighbors.

(18) Location, size, design and manner of illumination of signs.

(19) Disposal of sewage, trash, solid waste, oil waste, hazardous waste or radioactive waste showing disposal facilities, receptacles or areas.

(20) Perimeter boundaries of the site giving complete descriptive lot data by bearings, distances and radii of curves including the name and seal of the registered land surveyor who prepared the plan.

(21) Description and plan of capacity and location of means of sewage disposal together with approval of sewer district engineer or evidence of soil suitability for such disposal (test pit locations shall be shown on the plans) similarly approved by the city engineer department.

(22) A statement of the amount of area of land involved in the site, the percentage of the site proposed to be covered by buildings, the total number of dwelling units proposed per acre, the area proposed to be devoted to open space, the area proposed to be paved for parking, driveways, loading space and sidewalks, the total number of parking spaces required by the zoning chapter for the uses proposed, the number of employees expected per shift and the total floor area of proposed commercial or industrial uses.

(23) Description and plan of a phase development concept detailing the areas and sequence of phasing.

(24) A statement by the developer assuring that he has the financial capabilities to fully carry out the project and to comply with the conditions imposed by the planning board.

(Ord. of 9-21-2009, § 7.1D(2); Ord. No. 10-10172016, 11-7-2016)

Sec. 60-1302. Exemption for information.

Upon request, the planning board, or the ~~planning, permitting and code enforcement~~ director, acting for the board, may waive the necessity of providing any of the foregoing planning information which is not relevant to the proposed development. The planning board or the ~~planning, permitting and code enforcement~~ director, acting for the board, may waive the site plan review fee if the purpose of the site plan review is to determine the adaptive reuse of a structure of community significance.

(Ord. of 9-21-2009, § 7.1D(3); Ord. No. 05-04032017, § 3, 4-24-2017)

Sec. 60-1303. Approval—Time line for review.

The planning, permitting and code enforcement director shall, within five 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The planning, permitting and code enforcement director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in his the director's view opinion, requires such information to provide recommendations regarding the application to the planning board. The agencies departments receiving these copies shall have up to 15 business days to make provide their recommendations to the planning, permitting and code enforcement director.

The planning, permitting and code enforcement director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) Request additional information from the applicant in to order assist with the director's review of the submitted site plan.

2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

The planning, permitting and code enforcement director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

Sec. 60-1304. Same—Public hearing; findings.

The planning board chair shall, upon request of the planning, permitting and code enforcement director, schedule a public hearing at the next regularly scheduled planning board meeting that occurs at least 16 days after receipt of the request from the directorwithin 30 days of receipt of a completed application, hold a public hearing. Notice of a public hearing shall be given in the manner provided for in division 3 of article XVII of this chapter. The planning board will not unreasonably delay the takinge of final action on the site plan within 60 days of receiving a completed application, or within such other time limit as may be mutually agreed toafter the public hearing. Such final action shall consist of either:

(1) A finding and determination that the proposed project will constitute a suitable development and will not result in a detriment to the neighborhood or the environment; or

(2) A written denial of the application stating the reasons for such denial, upon a finding that:

a. The provisions for vehicular loading, unloading and parking and for vehicular and pedestrian circulation on the site and onto adjacent public streets will create hazards to safety.

b. The bulk, location or operation of proposed buildings and structures will be detrimental to and adversely affect the use and values of existing development in the neighborhood or the health or safety of persons residing or working therein.

c. The provisions for on-site landscaping are inadequate to screen neighboring properties from unsightly features of the development.

d. The site plan does not adequately provide for the soil and drainage problems which the development may give rise to in accordance with section 60-1301(14).

e. The provisions for exterior lighting create safety hazards for motorists traveling on adjacent streets, or are inadequate for the safety or occupants or users of the site, or will create a nuisance affecting adjacent properties.

f. The proposed development will unduly burden off-site sewer drainage or water systems.

g. The proposed development will create a fire hazard by failing to provide adequate access to the site, or to buildings on the site, for emergency vehicles.

h. The proposed development violates provisions of the zoning regulations applicable to the site or other applicable laws, regulations or ordinances.

i. The proposed development will unduly impact the ability to provide municipal services.

(Ord. of 9-21-2009, § 7.1D(5))

Sec. 60-1305. Same—Subject to conditions, modification, restrictions, etc.

Approval may be made subject to conditions, modifications and restrictions as the planning board may deem necessary; and any construction, reconstruction, alteration or addition shall be carried on only in conformity to such conditions, modifications or restrictions and in conformity with the application and site plan.

(Ord. of 9-21-2009, § 7.1D(6))

Sec. 60-1306. Signed copies.

~~If no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~ An original of the approved plan signed by the planning board chair, on behalf of the planning board, and one signed copy shall be delivered to the applicant, the assessor's department, the engineering department and to the building inspector on which basis building permits may be issued when all other required plans have been approved.

(Ord. of 9-21-2009, § 7.1D(7))

Sec. 60-1307. Findings in writing.

The findings of the planning board shall be in writing, signed by the planning board chair on behalf of the planning board, with a copy being forwarded to the applicant. The planning board's written report shall also include a statement as to how any deficiencies in the site plan might be resolved and what conditions, modifications and restrictions are to be complied with in executing the plan.

(Ord. of 9-21-2009, § 7.1D(8))

Sec. 60-1308. Expiration of approval.

Approval of a site plan shall expire one year after the date of approval, except for approved site plans for solar energy generating systems, which shall expire ~~in~~ two years after the date of approval, unless all building permits have been obtained to begin construction in accordance with the approved site plan. If a development is contested with litigation, the approval period of this section shall not commence until a final, nonappealable court judgment is issued or until the litigation has been dismissed with prejudice. This provision shall apply retroactively to all projects approved after January 1, 2007. Any site plan that contains a phase concept approved by the planning board shall not be required to obtain all building permits within the time sequence established for completion of each phase. No building permits or other permits shall be issued until all improvements are substantially completed for the preceding phase. A single one-year extension may be given upon a showing of good cause in writing by the applicant to the planning board not less than 30 days before the expiration of approval of ~~his~~ the applicant's existing plan. ~~.~~ The planning board shall approve or disapprove the requested extension at its next regular meeting.

(Ord. of 9-21-2009, § 7.1D(9); Ord. No. 02-04012013, att. D, 4-16-2013)

Sec. 60-1309. No building permitted without approval.

No permit shall be issued for the construction of any building in an area included in the site plan or in any development for which a site plan is required until such site plan has been approved by the planning board and unless the construction plans and specifications presented to the building inspector with the application for the permit are consistent with the approved site plan.

(Ord. of 9-21-2009, § 7.1D(10))

Sec. 60-1310. Certificate of occupancy.

No certificate of occupancy shall be issued with respect to any building until all construction called for by the site plan is completed, except by special permission of the planning board granted upon a showing of special circumstances warranted the issuance of the certificate and that the remaining construction will be completed within a reasonable time.

(Ord. of 9-21-2009, § 7.1D(11))

Sec. 60-1311. Deposit of surety.

The planning board may require the applicant with the submission of the site plan to tender a certified check payable to the city and issued by a surety company or secured by deposits issued by institutions authorized to issue the same by the laws of the state or the United States or irrevocable letters of credit issued by said banking institutions in an amount of money determined by the city planner, with the advice of the various city departments and agencies concerned, to be sufficient to ensure compliance with the approved site plan.

(Ord. of 9-21-2009, § 7.1D(12))

Sec. 60-1312. Review of planning board needed for variance.

For those developments subject to site plan review (division 2 of article XVI of this chapter) the relaxation of the dimensional requirements of any use district shall be reviewed by the planning board. The modifications of the

dimensional requirements shall be allowed as the planning board may deem necessary to carry out the objectives and intent of site plan review as specified in division 2 of article XVI of this chapter.

(Ord. of 9-21-2009, § 7.1D(13))

Sec. 60-1313. Correction of off-site deficiencies.

The planning board shall have the right to require the developer, at ~~his~~ the developer's expense, to correct any off-site deficiencies either created or aggravated by the developer's proposed project.

(Ord. of 9-21-2009, § 7.1D)

Secs. 60-1314—60-1334. Reserved.

Ordinance #16-07012024

City Council Ordinance

IN CITY COUNCIL

BE IT ORDAINED by the Auburn City Council, that Chapter 60, Zoning, of the Code of Ordinances be amended as follows:

Chapter 60 ZONING

● ● ●

ARTICLE XVI. ADMINISTRATION AND ENFORCEMENT

● ● ●

DIVISION 2. SITE PLAN REVIEW

● ● ●

Sec. 60-1300. File for site plan review.

An applicant for site plan review shall file with the ~~department of community development and planning~~planning, permitting and code department a completed site plan application along with an original and 15 copies of the site plan and the required processing fee. ~~Such plans shall be filed not less than 30 days prior to a regularly scheduled meeting~~. Plans shall be folded at a size not to exceed 8½ inches by 11 inches.

(Ord. of 9-21-2009, § 7.1D(1); Ord. No. 11-03012021, 3-15-2021)

● ● ●

Sec. 60-1303. Approval—Time-line for review.

The ~~planning, permitting and code enforcement~~ director shall, within ~~five~~ 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The ~~planning, permitting and code enforcement~~ director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in ~~his~~ the director's ~~view~~ opinion, requires such information to provide recommendations regarding the application to the planning board. The ~~agencies~~ departments receiving these copies shall have up to

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Ordinance

15 business days to ~~make~~ provide their recommendations to the ~~planning, permitting and code enforcement~~ director.

The ~~planning, permitting and code enforcement~~ director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) ~~-~~Request additional information from the applicant in to order assist with the director's review of the submitted site plan.
2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

The ~~planning, permitting and code enforcement~~ director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

● ● ●

Sec. 60-1303. Approval—Time~~-~~line for review.

The ~~planning, permitting and code enforcement~~ director shall, within ~~five~~ 10 business days of receipt, review the application and notify the applicant that either:

1.) The application is not accepted for processing, as it has not met the requirements of Sec. 60-1300 and 60-1301, and shall enumerate the materials that are missing; or

2.) The application has been conditionally accepted for processing as one or more required minor elements, as required by Sec. 60-1300 or 60-1301, are missing or inadequate and must be submitted within five business days or the application will not be accepted for processing; or

3.) The application has met the requirements of Sec. 60-1300 and 60-1301 and is accepted for processing.

The ~~planning, permitting and code enforcement~~ director shall, at the time of notification to the applicant that the application is accepted for processing, transmit copies of the application and site plan to those city departments that, in ~~his~~ the director's ~~view~~ opinion, require~~s~~ such information to provide recommendations regarding the application to the planning board. The ~~agencies~~ departments receiving these copies shall have up to 15 business days to ~~make~~ provide their recommendations to the ~~planning, permitting and code enforcement~~ director.

The ~~planning, permitting and code enforcement~~ director shall review the submitted site plan and any recommendations made by the city departments and may:

1.) ~~-~~Request additional information from the applicant in to order assist with the director's review of the submitted site plan.
2.) Make recommendations to the applicant for changes to the submitted site plan that, in the director's opinion, will cause the site plan to conform to city requirements.

City Council Ordinance

The ~~planning, permitting and code enforcement~~ director shall, upon completion of the director's review of the site plan, but not later than 60 days after notification to the applicant that the application is accepted for processing, request the planning board chair to schedule a public hearing by the planning board at a regularly scheduled planning board meeting.

(Ord. of 9-21-2009, § 7.1D(4))

● ● ●

Sec. 60-1304. Same—Public hearing; findings.

The planning board chair shall, upon request of the ~~planning, permitting and code enforcement~~ director, schedule a public hearing at the next regularly scheduled planning board meeting that occurs at least 16 days after receipt of the request from the director~~within 30 days of receipt of a completed application, hold a public hearing~~. Notice of a public hearing shall be given in the manner provided for in division 3 of article XVII of this chapter. The planning board will not unreasonably delay the taking of final action on the site plan ~~within 60 days of receiving a completed application, or within such other time limit as may be mutually agreed to~~after the public hearing. Such final action shall consist of either:

(1) A finding and determination that the proposed project will constitute a suitable development and will not result in a detriment to the neighborhood or the environment; or

(2) A written denial of the application stating the reasons for such denial, upon a finding that:

a. The provisions for vehicular loading, unloading and parking and for vehicular and pedestrian circulation on the site and onto adjacent public streets will create hazards to safety.

b. The bulk, location or operation of proposed buildings and structures will be detrimental to and adversely affect the use and values of existing development in the neighborhood or the health or safety of persons residing or working therein.

c. The provisions for on-site landscaping are inadequate to screen neighboring properties from unsightly features of the development.

d. The site plan does not adequately provide for the soil and drainage problems which the development may give rise to in accordance with section 60-1301(14).

e. The provisions for exterior lighting create safety hazards for motorists traveling on adjacent streets, or are inadequate for the safety or occupants or users of the site, or will create a nuisance affecting adjacent properties.

f. The proposed development will unduly burden off-site sewer drainage or water systems.

g. The proposed development will create a fire hazard by failing to provide adequate access to the site, or to buildings on the site, for emergency vehicles.

h. The proposed development violates provisions of the zoning regulations applicable to the site or other applicable laws, regulations or ordinances.

i. The proposed development will unduly impact the ability to provide municipal services.

(Ord. of 9-21-2009, § 7.1D(5))

● ● ●

Sec. 60-1306. Signed copies.

~~If no action is taken within 60 days after submittal of a completed application, the site plan shall be deemed to have been approved.~~ An original of the approved plan signed by the planning board chair, on behalf of the planning board, and one signed copy shall be delivered to the applicant, the assessor's department, the engineering department and to the building inspector on which basis building permits may be issued when all other required plans have been approved.

(Ord. of 9-21-2009, § 7.1D(7))

● ● ●

Sec. 60-1307. Findings in writing.

The findings of the planning board shall be in writing, signed by the planning board chair on behalf of the planning board, with a copy being forwarded to the applicant. The planning board's written report shall also include a statement as to how any deficiencies in the site plan might be resolved and what conditions, modifications and restrictions are to be complied with in executing the plan.

(Ord. of 9-21-2009, § 7.1D(8))

● ● ●

Sec. 60-1308. Expiration of approval.

Approval of a site plan shall expire one year after the date of approval, except for approved site plans for solar energy generating systems, which shall expire ~~in~~ two years after the date of approval, unless all building permits have been obtained to begin construction in accordance with the approved site plan. If a development is contested with litigation, the approval period of this section shall not commence until a final, nonappealable court judgment is issued or until the litigation has been dismissed with prejudice. This provision shall apply retroactively to all projects approved after January 1, 2007. Any site plan that contains a phase concept approved by the planning board shall not be required to obtain all building permits within the time sequence established for completion of each phase. No building permits or other permits shall be issued until all improvements are substantially completed for the preceding phase. A single one-year extension may be given upon a showing of good cause in writing by the applicant to the planning board not less than 30 days before the expiration of approval of ~~his~~ the applicant's existing plan. ~~.~~ The planning board shall approve or disapprove the requested extension at its next regular meeting.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **July 15, 2024** **Ordinance 17-07012024**

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Second reading of a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district.

Information: On June 16, the planning board made a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. Discussion about this item touched on occasions waivers have been requested to allow for a larger setback than the 25-feet maximum setback allowed in the zone. The planning board agreed with city staff that the General Business 2 zone would allow for better functionality of the proposed city public safety use.

This item was given first reading and passed on July 1, 2024. A public hearing notice was placed for second reading and public hearing to be held at the July 15, 2024 meeting.

City Budgetary Impacts: None anticipated.

Staff Recommended Action: Second Reading and Public Hearing.

Previous Meetings and History: Planning Board Public Hearing June 16, 2024. This item was given first reading and passed on July 1, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

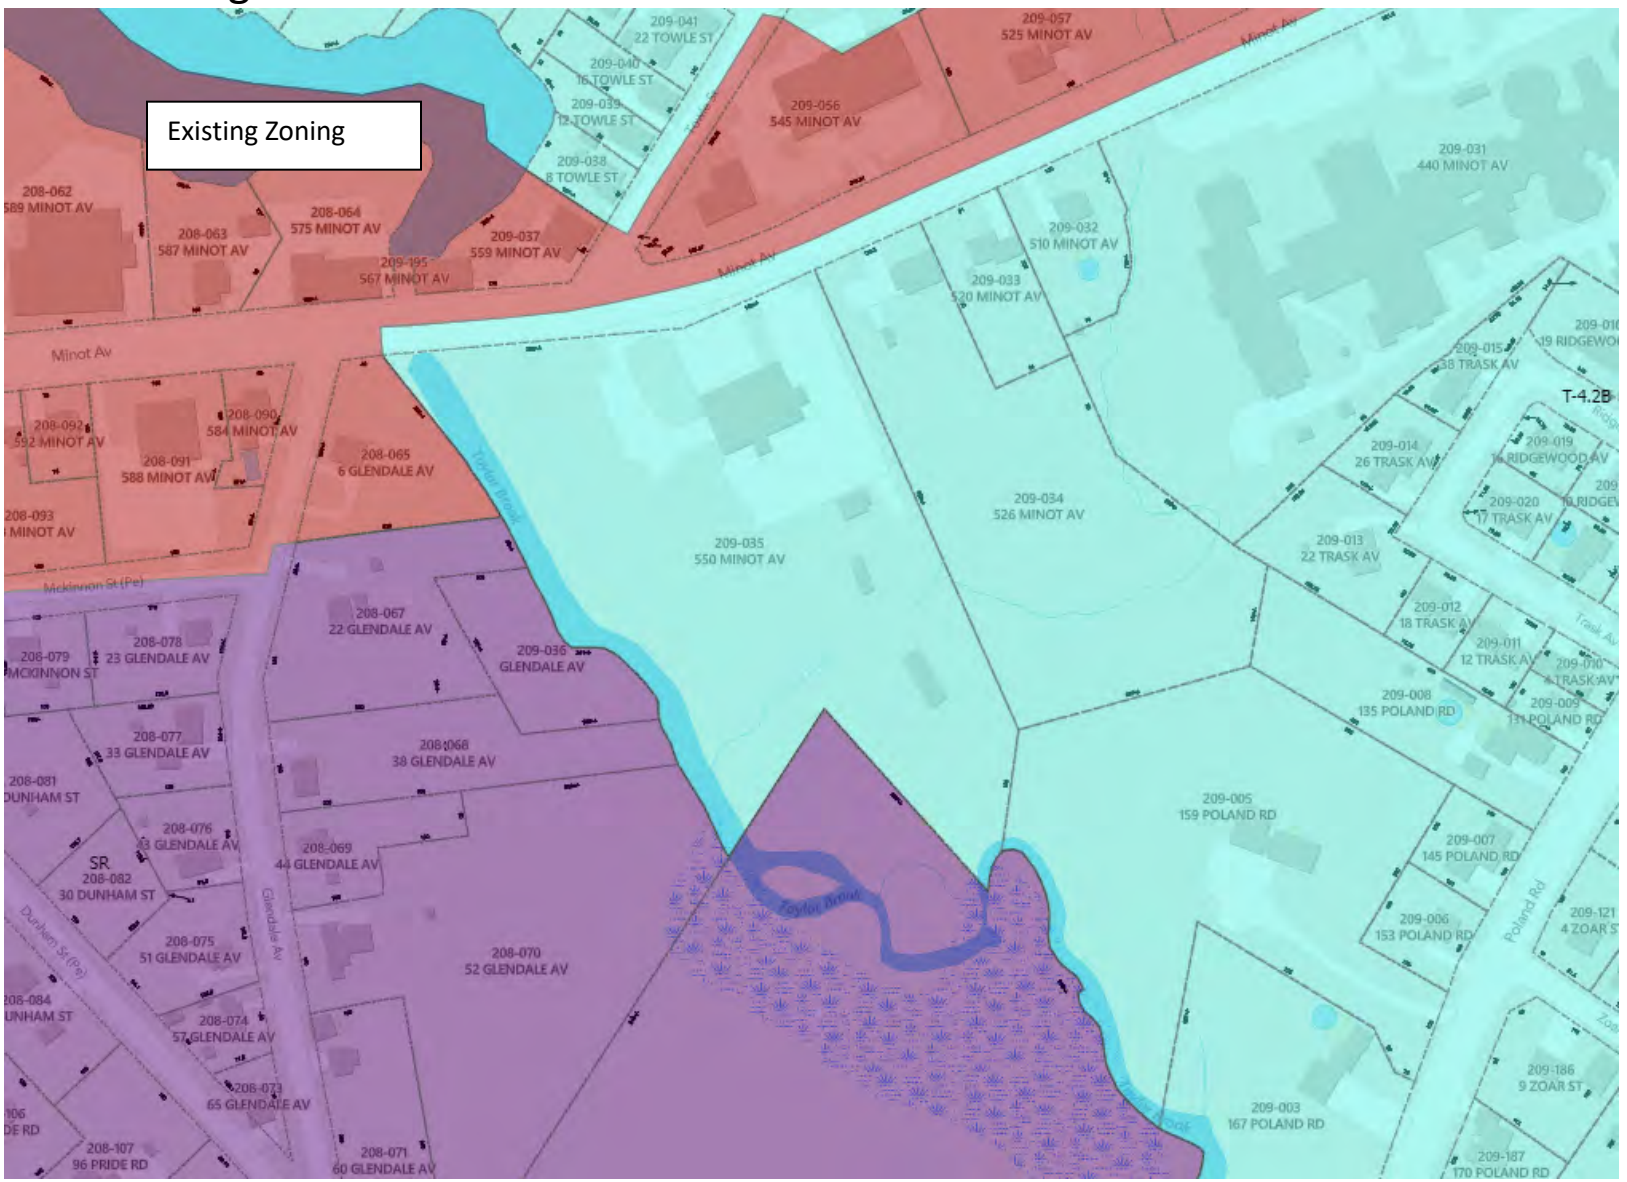
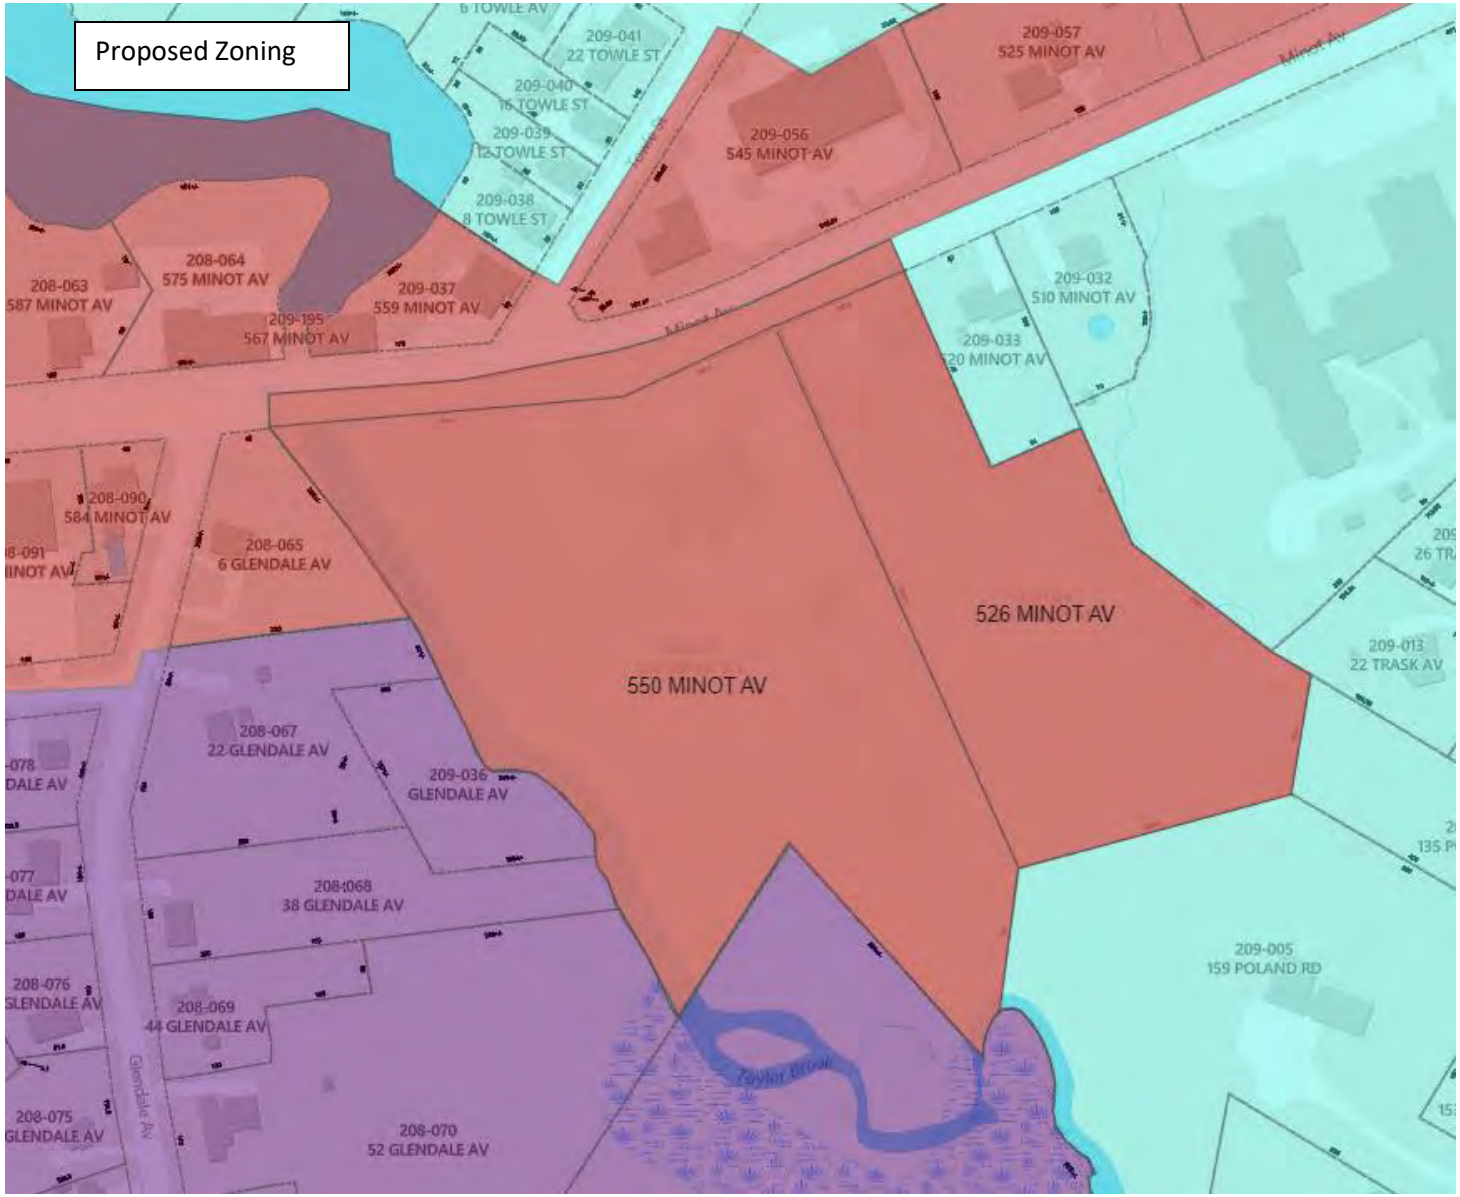
Date: 06/24/2024
To: Auburn City Council
From: Auburn Planning Board
Subject: Planning Board Motion on amending the zoning map for two certain parcels on Minot Av from T-4.2B to GBII



The following is the report from the Planning Board regarding a map amendment in service of future public safety facility on Minot Av. After notice and Public Hearings held on June 18th, 2024, the Planning Board forwards this report to the City Council.

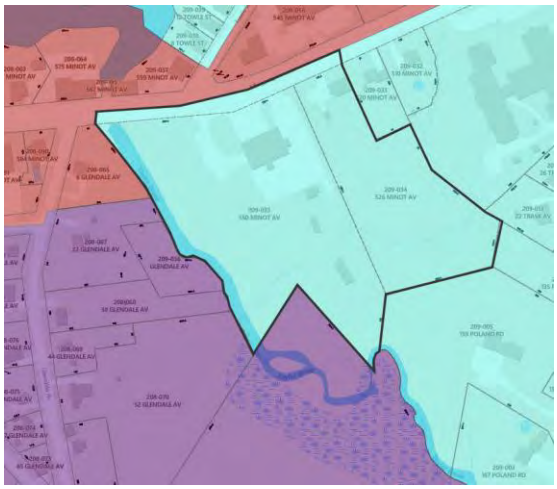
PUBLIC HEARING/ MAP AMENDMENT: Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.



Summary and Discussion: Discussion about the possible necessity for an eventual amendment to the T-4.2B zoning district because of requests for waivers specifically for the front setback requirements. Staff suggests a good time to update this would be during the process of revising the Comprehensive Plan over the next year or so. The Planning Board made a favorable recommendation to the City Council to adopt this map amendment.

Motion: Riley Bergeron makes a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district. **Second:** Bob Hayes seconds the motion.
Vote: 5-0-0 motion passes.

Consideration of Proposed Zoning Map Amendment - 526 and 550 Minot Avenue
Change from T4.2B to General Business II



Consideration of Proposed Zoning Map Amendment - 526 and 550 Minot Avenue
Change from T4.2B to General Business II

Re: Item #9 Map Amendments for public safety facility.
Date: June 18, 2024

I. **Proposal/ Map Amendment**: Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B-Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. **Background:** This item is considering a zoning map amendment to amend approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district. The area proposed to be rezoned encompasses all the City Assessor's parcel I.D.s 209-035 and 209-034.

The purpose of this proposal is to better support a new public safety facility by allowing flexibility in form and design to best serve the needs of public employees. Municipal services and facilities are permitted in all zoning districts, but form-based code, the current zoning, requires that new structures be built close to the public right of way. The design standards in form-based code are intended to encourage new development to emphasize the relationship between the public and private realm. While it is well suited to residential and commercial areas within the City of Auburn, form-based code may not allow for the flexibility necessary to build a functional and efficient public safety facility that is designed around the movement of large vehicles inside and outside of the buildings.

The General Business II District is in alignment with the surrounding area and is compatible with the 2021 Comprehensive Plan. The provision stating that "The Future Land Use Plan is not a zoning map. It is intended to show, in a general sense, the desired pattern of future land use and development" can allow the flexibility to find the proposed change to be consistent with the Comprehensive Plan. This proposed zoning also allows for flexibility in facility layout to best serve the needs of the fire department and the police department, such as the ease and safety of movement of the fire apparatus on the properties.

III. Suggested Findings of Fact:

a. The zoning map amendment is consistent with the comprehensive plan
b. The zoning map amendment is consistent with Comprehensive Plan Policy C 3, to explore a cost-effective plan for housing and delivering public safety services including regional considerations.

IV. **Planning Board Action & Staff Recommendations:** Hold a public hearing, review the proposal and make a recommendation to the city council on whether to amend the zoning map as described.

V. **Potential Motion:** I make a motion to forward a favorable recommendation to City Council approve a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B- Traditional Neighborhood Development zoning district to General Business II zoning district.

ORDER 84-06032024

City Council Order

IN CITY COUNCIL

ORDERED, that the Auburn City Council directs staff to prepare a zoning map amendment for Public Hearing and a Recommendation by the Auburn Planning Board pursuant to Chapter 60, Article XVII, Division 2, Amendment to the Zoning Ordinance or Zoning Map. The intent is to amend the map on approximately 8.17 acres from T-4.2B Traditional Neighborhood Development zoning district to the General Business II (Minot Ave) zoning district as shown on the attached map. The area proposed to be rezoned encompasses all of City Assessor's parcel I.D.s 209-035 and 209-034. The purpose of this proposal is to better support a new public safety facility by allowing the flexibility in form and design to best serve the needs of public employees.

City Council Information Sheet

Council Workshop or Meeting Date: July 15, 2024 **Order:** 91-07152024

Author: Emily F. Carrington, City Clerk

Subject: Maine Municipal Association's Legislative Policy Committee – District 20 Representative

---

Information: The Auburn City Council is being asked to select one District 20 representative for the Maine Municipal Assocation's Legislative Policy Committee. There are two candidates appearing on the ballot. Alternatively, the Council may vote for a write-in candidate, so long as that candidate resides within District 20, is an elected or appointed official from an MMA member municipality, and is willing to serve.

The order must be amended prior to passage to insert the name of the chosen representative. Following passage, the City Clerk will return the ballot to MMA.

City Budgetary Impacts: N/A

Staff Recommended Action: Appointment of a representative.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Date: June 13, 2024
Re: Ballot for Election to MMA's Legislative Policy Committee

MMA's member municipalities have made their nominations for the 2024-2026 Legislative Policy Committee (LPC). It is now time to elect your representatives to serve on the committee. The enclosed election ballot must be completed by the Select Board or Town/City Council of your municipality.

Number of votes

A majority of municipalities are being asked to vote for two candidates, because there are two elected LPC members for most districts. Some municipalities only vote for one candidate, because the other LPC member in that district is appointed. ***You are instructed on the ballot (above the list of candidates) whether to vote for two candidates or just one.***

Candidate profiles

If you are not familiar with any of the candidates, please review the Candidate Profiles on the back of the ballot. Feel free, also, to contact the candidates directly.

Write-in candidates

In addition to the candidates listed on the ballot, you may vote for a candidate whose name is not on the ballot by writing that person's name in. The write-in candidate need not be from your municipality but must be an elected or appointed official from a MMA member municipality in your Senate/LPC District. *Check to be sure the write-in candidate is willing to serve if elected!* Write-in candidates should be communicating their interest in serving among the municipal officers within their district.

If you are instructed to vote for two candidates and only one candidate is on the ballot, please use the "write-in" line for your second vote if you know of someone who is willing to serve.

Deadline for returning ballot

Return to ballot by 5:00 p.m. on **August 1, 2024** to Laura Ellis either in the enclosed envelope, via email (lellis@memun.org) or FAX: 624-0129

Your participation is important – Thank You!

OFFICIAL BALLOT – District 20

Maine Municipal Association's Legislative Policy Committee
July 1, 2024 – June 30, 2026

VOTE FOR ONE: *(Auburn appoints one member)*

- ☐ Matthew Garside, Town Manager, Town of Poland
- ☐ William H. Kerbin, Jr., Town Manager, Town of New Gloucester
- ☐ _____ (✎ write in)
  (name) (position) (municipality)

Candidate Profiles Are On Reverse Side

MUNICIPALITY: _____ DATE: _____

✍ BY SELECTMEN/COUNCILORS:

_____ signature	_____ print name

Return by 5:00 p.m., August 1, 2024 to:

Laura Ellis, Maine Municipal Association
lellis@memun.org
Fax: 624-0129

LPC Senate District 20 *(Auburn appoints one member)*

Auburn	New Gloucester
Durham	Poland

Candidate Profile:

Matthew Garside has served as Manager in the Town of Poland for more than six years. Prior to that he served as CEO of an oil and gas firm and was a Captain in the U.S. Navy. Matthew also served on local boards and committees, including the Executive Committee of the Androscoggin Valley Council of Governments, MWTE Executive Committee, Auburn/Lewiston Airport Board of Directors and the Lewiston/Auburn Economic Growth Committee. He served this past term on the LPC and would like to continue his service because he believes strongly that presenting a united consensus on municipal issues serves everyone's interest and that the reasoned, well thought out approach to lobbying the Legislature is a good model and it should be continued, and he would like to continue to advocate for legislation that will benefit municipal government.

William H. Kerbin, Jr. has served as town manager in the Town of New Gloucester since 2022, also previously serving as a municipal manager in the town of Woodstock, VT for two years. He would like to serve on the LPC to advocate for increased funding for state mandates and more consideration of how mandates like LD 2003's housing law and others like it will affect the rural character of small towns.

ORDER 91-07152024

City Council Order

IN CITY COUNCIL

ORDERED, that the Auburn City Council hereby selects _____ as the District 20 representative of Maine Municipal Association's Legislative Policy Committee, for a term serving July 1, 2024 through June 30, 2026.

BE IT FURTHER ORDERED, that the City Clerk is directed to return the ballot to Maine Municipal Association immediately following passage of this order.

Author: Jennifer Boenig, Downtown Coordinator

Subject: Approving the temporary liquor license for an Incorporated Civic Organization for Auburn's LA Balloon Festival event.

Information: The LA Balloon Festival is scheduled for Friday, August 16 through Sunday, August 18 in Simard Payne Park in Lewiston with an Auburn event on Saturday, August 17 from 12-5 PM in Festival Plaza and on Main Street. This event is organized by the Cities of Auburn and Lewiston.

The City of Auburn is applying for a Liquor License for an Incorporated Civic Organization to allow the sale of alcohol within the designated area of Festival Plaza and Main Street for the LA Balloon Festival on Saturday, August 17 from 12-5 PM only.

Per MRS Title 28-A Liquor § 1071. INCORPORATED CIVIC ORGANIZATIONS 2. Up to 5 licensed events per year; one event per license. An incorporated civic organization may obtain up to 5 licenses under this section per calendar year.

City Budgetary Impacts: This event is budgeted through the Communications Department and the City of Lewiston.

Staff Recommended Action: Motion to approve the temporary liquor license for Auburn's LA Balloon Festival event.

Approval of an Application for a License for an Incorporated Civic Organization

The undersigned hereby certifies that we have complied with the process outlined in 28-A M.R.S. §653 and approve this catering event application on this date: _____.

Check only one: ☐ City ☐ Town ☐ Unorganized Territory

Name of City/Town/Unorganized Territory: _____

Who is approving this application? ☐ Municipal Officers
☐ County Commissioners of _____ County

☐ **Please Note:** The Municipal Officers or County Commissioners must confirm that the records of Local Option Votes have been verified that allows this type of license to be issued by the Bureau for the type of alcohol to be sold for the appropriate days of the week. Please check this box to indicate this verification was completed.

Signature of Officials	Printed Name and Title

Section E: Application Fee; Other Information

1. The license fee is $50.00 plus a $10.00 filing fee; make checks payable to Treasurer State of Maine.
2. The law requires the application to be submitted at least 24 Hours prior to the function, however, a longer notice is appreciated to allow additional time for processing.
3. Once issued, this permit is not assignable and is valid only for use by the licensee named in this application and for the date, time, and location listed in this application. This permit is issued subject to Maine liquor laws under Title 28-A and the Bureau's Administrative Rules. Penalties for failure to comply with the laws and rules are provided in Chapter 33 of Title 28-A.
4. The Division is hereby authorized to obtain and examine all books, records and tax returns pertaining to the business, for which this liquor license is requested, and also such books, records and returns during the year in which any liquor license is in effect.
5. Payments to the Division by check subject to penalty provided by 28-A MRS Section 3-B.

Section F: Diagram for Outdoor Events

The following restrictions apply to outdoor events:

- There must be a stanchion or a fence completely enclosing the area.
- Signs must be posted stating "No alcohol beyond this point".
- There must be sufficient employees at the event to control and monitor the area.

In an effort to clearly define the area that consumption and storage of liquor will occur during this outdoor event, diagrams must be submitted on this form and should be as accurate as possible. Be sure to label the areas of consumption and storage on your diagram.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 5, 2024 **Order:** 95-08052024

Author: Emily F. Carrington, City Clerk

Subject: Appointing Auburn's Representative to the 2024-2026 MMA LPC

Information: MMA's legislative platforms, policies, and positions are developed by a 70-member Legislative Policy Committee (LPC), which is made up of two municipal officials from each of the state's 35 Senate Districts. The purpose of the LPC is to define municipal interests and to maximize those interests through effective participation in the legislative process.

In addition to the Senate District 20 seat, the City of Auburn appoints one member to serve as a representative of the City of Auburn, and one alternate member who may serve in absence of the appointed LPC member. The LPC members serve for a two-year term, running from July 1st of each even-numbered year to June 30th of the next subsequent even-numbered year.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of the order.

MAINE MUNICIPAL ASSOCIATION SINCE 1936

60 Community Drive | Augusta, ME 04330-9486
1-800-452-8786 (in state) | (t) 207-623-8428

To: Key Municipal Officials of MMA Member Municipalities

From: Catherine Conlow, Executive Director

Date: July 16, 2024

Subject: MMA Annual Election: Vice President & Executive Committee Members

DEADLINE: Friday August 23, 2024, 12:00 p.m.

It is time for each member municipality to cast its official vote!

Election Process. Enclosed you will find a ballot listing the nominees for service on the Maine Municipal Association's (MMA) Executive Committee, which is elected by member municipal select boards and councils to oversee the Association's operations.

Pursuant to MMA by-laws, these candidates were interviewed by a six-member Nominating Committee, which includes a former Executive Committee past president, an elected municipal officer, a municipal employee, a town or city manager, an MMA affiliate group representative, and an individual from a community-based organization representing the interests of an underrepresented group. As you will note, unlike municipal elections MMA does not provide an option for write-in candidates since our process includes an opportunity to nominate a candidate by petition. The petition process expires 40 days before the date of the election, which for this year was July 15.

A brief biography for each nominee is enclosed for your reference.

The ballot must be signed by a majority of the municipal officers (e.g., select board or council), or a municipal official designated by a majority of the municipal officers and received by MMA no later than **12:00 p.m. (noon) on Friday, August 23, 2024**. We have enclosed a self-addressed, stamped envelope for your convenience. Ballots will be counted on the afternoon of August 23, with the election results confirmed by MMA President Diane Hines, Ludlow town manager.

Election results will be available on August 26 and can be accessed by either contacting the MMA Executive Office or visiting MMA's website at www.memun.org. A formal announcement of the election results will be made at the MMA Annual Business Meeting and the newly elected members will be introduced at the Awards Luncheon, both of which will be held during MMA's annual convention on Wednesday, October 2.

The newly elected Executive Committee members will take office on January 1, 2025.

If you have any questions on the election process, please do not hesitate to contact me or Kelly Maines at 1-207-623-8428 or by e-mail at kmaines@memun.org. Thank you.

MAINE MUNICIPAL ASSOCIATION

BALLOT

Election of MMA Vice President and Executive Committee Members

Deadline for Receipt of Voting Ballots – 12:00 noon on Friday, August 23, 2024

3. ORDINANCE 13-07012024 - City Council initiated a text amendment to Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District. The proposed amendments pertain to septic system installation, maintenance and replacements and new development. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. Passed first reading on July 1, 2024. Second reading/public hearing. ROLL CALL VOTE.

There was no comment from the public.

Councilor Weisner moved for passage, seconded by Councilor Walker. Motion passed 7-0 on a roll call vote.

4. ORDINANCE 14-07012024 - Consider adopting the Lake Auburn Watershed Overlay District Septic Systems Inspection Map. This map will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. Amended and passed first reading on July 1, 2024. Second reading/public hearing. ROLL CALL VOTE.

There was no comment from the public.

Councilor Walker moved for passage, seconded by Councilor Cowan. Motion passed 7-0 on a roll call vote.

5. ORDINANCE 15-07012024 - Consider adopting the Official Lake Auburn Overlay District 400 ft. Setback to Lake, Stream, and Brook for Subsurface Wastewater Fields map. This map will be referenced in Chapter 60 Article XII Division 4-Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60 Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. Passed first reading on July 1, 2024. Second reading/public hearing.ROLL CALL VOTE.

There was no comment from the public.

Councilor Cowan moved for passage, seconded by Councilor Whiting. Motion passed 7-0 on a roll call vote.

6. ORDINANCE 16-070102024 - City Council initiated a zoning text amendment to Chapter 60, Division 2 Site Plan Review pursuant to Chapter 60, Article XVII Division 2-Amendment to the Zoning Ordinance or Zoning Map. Passed first reading on July 1, 2024. Second reading/public hearing. ROLL CALL VOTE.

There was no comment from the public.

Councilor Walker moved for passage, seconded by Councilor Whiting. Motion passed 7-0 on a roll call vote.

7. ORDINANCE 17-07012024 – Consider a zoning map amendment to convert City Assessor's Parcel I.D.s 201-034 and 209-035 with addresses of 526 and 550 Minot Ave from T-4.2B-Traditional Neighborhood Development zoning district to General Business II zoning district. The City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map. Passed first reading on July 1, 2024. Second reading/public hearing. ROLL CALL VOTE.

There was no comment from the public.

Councilor Walker moved for passage, seconded by Councilor Cowan. Motion passed 7-0 on a roll call vote.

VI. New Business

1. **ORDER 91-07152024** – Appointing an MMA Legislative Policy Committee Representative. Passage requires majority vote.

Councilor Weisner moved to insert the name of Matthew Garside to the order and pass as amended. Seconded by Councilor Walker. Motion passed 7-0.

2. **ORDER 92-07152024** – Confirming the appointment of Denis D'Auteuil as Assistant City Manager. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Whiting. Motion passed 7-0.

3. **ORDER 93-07152024** – Confirming the appointment of Martin Moreau, Justin Le, Marie West, and Amirah Daugherty as Constables with firearm/arrest powers for the Auburn Police Department. Passage requires majority vote.

Councilor Milks moved for passage, seconded by Councilor Cowan. Motion passed 7-0.

4. **ORDER 94-07152024** – Approving the temporary liquor license for an Incorporated Civic Organization for the Lewiston-Auburn Balloon Festival event to be held in Festival Plaza on August 17, 2024 from 12:00pm until 5:00pm. Public hearing. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Weisner. Motion passed 7-0.

VII. Open Session

None.

VIII. Reports

a. Mayor's Report – Mayor Harmon thanked staff for the Philbrick Square dedication ceremony held on July 7. Thanked all involved with the PAL Center groundbreaking ceremony held on July 12.

b. City Councilors' Reports – Councilor Whiting commented on the informative Absolutely Auburn podcast series. Councilor Cowan commended on the Philbrick memorial event and PAL center groundbreaking ceremony. Gave an update on the homeless committee. Councilor Milks commented on the PAL center groundbreaking ceremony. Councilor Weisner commented on the PAL center groundbreaking ceremony and asked for clarification regarding the ability for the public to attend the 9-1-1 committee meeting on Thursday at 4:00pm. Mayor Harmon responded to the inquiries. Councilor Walker commented on the 9-1-1 committee, neighborhood watch meeting and the Age-Friendly Commmunity Committee's concessions stand on Wednesday evenings in Festival Plaza. Councilor Platz gave an update on the School Committee and commented on ELHS graduation rate and congratulated Sam Boss on his work for the recent award of a $3.5 million grant to Auburn for environmental and conservation improvements.

c. Student Representative Report – None.

d. City Manager Report – Welcomed Denis D'Auteuil as the new Assistant City Manager, recognized the work of Sam Boss and the work of many on the award of the $3.5 million grant; thanked everyone for attending the recent ceremonies recognizing fallen officer Norman Philbrick and the groundbreaking of the PAL center.

IX. Executive Session – None.

X. Adjournment

Councilor Milks moved to adjourn, seconded by Councilor Walker. Motion passed 7-0; Council adjourned at 7:42pm.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 5, 2024 **Order:** 97-08052024

Author: Emily F. Carrington, City Clerk

Subject: Creation of an ad-hoc committee to review city fees

Information: As set forth in Sec. 3.3 of the City Charter, "*The mayor may create committees and appoint persons to serve on such committees. The mayor shall coordinate the actions of such boards, committees, and commissions as they may exist to promote the effective administration of the city's interests. Except as otherwise directed by state statute, this Charter, city ordinance, or interlocal agreement, the mayor may appoint councilors to serve, either in his or her stead or independently, on all boards, committees, commissions, and quasi-municipal corporations when required.*"

This order creates an ad-hoc committee to be tasked with reviewing city fees and bringing forward a recommendation of changes to the City Council for adoption. The appointed committee members will be Emily Carrington (City Clerk), Denis D'Auteuil (Assistant City Manager), Councilor Platz, and Mayor Harmon.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of the order.

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 5, 2024 **Order:** 98-08052024

Author: Robert Chase, Fire Chief

Subject: Update to EMS Billing Rates

Information:

EMS agencies are limited to a maximum of 5% increase to EMS rates per calendar year. Insurance companies are required to pay 180% to 200% of the allowable Medicare reimbursement rate, or the established rate, **whichever is lower**. We routinely adjust our EMS rates to ensure they remain at or above 200% of the Medicare rates to maximize reimbursements from insurance companies.

In addition, this year we have added clarifying language for the "On Scene" rate. New legislation now allows EMS agencies to bill for services even when the patient is not transported to the hospital. This routinely happens at motor vehicle accidents along with other scenarios.

Lastly, we added language that clarifies that we intend to bill residential care facilities when EMS resources are used to lift uninjured patients. These calls are a burden to our service, defer the employee injury risk from the nursing homes on to City of Auburn staff and results in EMS units being unavailable for true emergency calls.

City Budgetary Impacts: Estimated increase EMS revenue of $10,000

Staff Recommended Action: Staff recommends the City Council vote for passage of this Order.

Previous Meetings and History:

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 5, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (E) to consult with the City attorney regarding the City's legal rights and duties concerning a pending litigation matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

X. **Adjournment**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 19, 2024 **Workshop Item**
Author: Jonathan P. LaBonte, Transportation Systems Director
Subject: Washington Street Corridor Planning (Exit 75 to Downtown) and Safety Demonstration Project

---

Information: Comprehensive Plans have regularly referenced a policy to improve Washington Street as a gateway. The most recent Plan laid out a specific recommendation that related to the original plans for Washington Street in the 1950's but never fully implemented. Washington Street South, a controlled access highway from Brickyard Circle to approximately Beech Hill Road was to become a two-way highway with limited to no curb openings, and Washington Street North was to return to a two-way local street. Given the critical importance of Washington Street (Routes 202/4) for statewide and regional mobility (75% of all traffic destined for downtown Lewiston-Auburn utilizes Washington Street), stakeholder engagement and endorsement of City concepts has taken place since the summer of 2002. This includes the Federal Highway Administration (FHWA), MaineDOT, Maine Turnpike Authority, AVCOG/ATRC, and the City of Lewiston.

In parallel to the corridor planning, the City worked with ATRC/AVCOG and Lewiston to secure FHWA funding under the Safe Streets and Roads for All program. The goal of the action plan under development is to eliminate all serious injuries and fatalities from Auburn streets. Because Washington Street is home to several High Crash Locations, including some with very high rates of serious injuries and fatalities, we have worked with MaineDOT to test one approach to improving safety; the elimination of left-turns at the intersections of Beech Hill /Danville Corner Roads and East Hardscrabble with Washington Street. The demonstration safety project would see the installation of concrete barriers and safety barrels to continue to allow right in and right out traffic movements, but no traffic crossing Washington Street. The Washington Street study will evaluate alternative intersection designs, including retaining the closure, and following the demonstration project and completion of the study, public input and City Council direction will determine next steps for capital improvements. The workshop will cover all of this in more detail.

City Budgetary Impacts: No current impact, future CIP (Federal, State, Local)

Staff Recommended Action:
The City Manager is requesting the city council review the MDOT Cooperative Agreement which is attached. Over these multiple years of discussions regarding Washington Street safety improvements, MDOT has now identified these intersections as locations for traffic signals. Signing the agreement for the Demonstration Project, would delay the Traffic Signal Project for one-year (during the Demonstration Project period or permanently after reviewing the data from the demonstration project).

City Council will need to provide the manager direction on proceeding with the Demonstration Project or rejecting the agreement and directing MDOT to proceed with the Traffic Signal Project.

Previous Meetings and History:
June 6, 2022 – City Council Meeting Allocating ARPA Funds for Small Area Plans
July 28, 2022 - ATRC Policy Votes Endorses Washington Street Corridor Concept in Auburn Comprehensive Plan
August 15, 2022 – City Council Workshop on Transportation Safety Initiatives
August 24, 2023 – ATRC Policy Votes to Appropriate Funding for Washington Street Corridor Study
September 6, 2022 – City Council Meeting Approving Safe Streets and Roads for All/Vision Zero Resolve
November 15, 2023 – ATRC Policy Meeting Approving Federal Funding for Study and issues RFP

City Manager Comments:
I concur with the recommendation. Signature: 

Attachments: July 2022 City Manager Memo to ATRC, August 2024 Transportation Director Memo to Council, Demonstration Project Agreement

City of Auburn, Maine
Office of the City Manager
www.auburnmaine.gov | 60 Court Street
Auburn, Maine 04210
207.333.6601

TO: Jennifer Williams, ATRC Director
FROM: Phil Crowell, City Manager
RE: Exit 75 and Washington Street Corridor Evaluation Request for Support
DATE: July 25, 2022

This memo represents the City of Auburn's request that ATRC support the effort to convert the flow of traffic Washington Street (Route 202/4) from Exit 75 to downtown Auburn. This conversion, with Washington Street North becoming two-way local traffic and Washington Street South becoming two-way through traffic, will improve safety, maintain regional mobility, and align with Auburn's Comprehensive Plan goals for pedestrian scale development and environmental improvements in the area between Washington Street and the Little Androscoggin River. The evaluation would also include the configuration of Exit 75 of the Maine Turnpike and its ability to serve the industrial airport area and regional mobility.

This section of highway is a critical corridor connecting the Maine Turnpike's Exit 75 with not only downtown Auburn and Lewiston but also western Maine. Existing inbound land uses already conflict with the traffic volumes and speeds in the northbound segment, and changes in Auburn's zoning to pursue more mixed-use development and improve stewardship of the Little Androscoggin River watershed further enhance this conflict. Shifting this high volume of thru traffic (approaching 20,000 AADT) to a controlled access highway presents an historic opportunity to restore a major Maine riverfront (Little Androscoggin) and convert a corridor with existing utilities and impervious area to mixed uses with new housing to serve the region and southern Maine.

The 2019 ATRC Metropolitan Transportation Plan projects growth of traffic into our region from the south at 52%. In fact, the most recent Maine Turnpike Origin and Destination Study (2010) noted that over 50% of the traffic at Exit 75 was destined for the Portland region.

Growing traffic volumes are also likely to exacerbate the safety challenges that extend from Exit 75 into downtown Auburn. There are currently three high crash location intersections and two high crash location road sections on this corridor. Since 2020, there have been over 80 crashes along this corridor from Kittyhawk to the rotary, including Exit 75.

Auburn staff have already met with MaineDOT and Maine Turnpike officials to review this proposal and request their involvement in the evaluation. As the regional transportation agency in our community, we request ATRC's support and involvement. Staff will be available to provide a similar briefing for the ATRC Committees on Thursday.

TO: Mayor Harmon and the Auburn City Council
FROM: Jonathan P. LaBonte, Transportation Systems Director
CC: Phil Crowell, Auburn City Manager
DATE: August 19, 2024
RE: Washington Street Safety Demonstration Project – Beech Hill and East Hardscrabble Roads

This memo serves as a summary of the city plans for a safety demonstration project on Washington Street (U.S. Route 202/Maine Route 4) at its intersections with East Hardscrabble Road and Beech Hill/Danville Corner Roads. The details that follow below mirror the MaineDOT guidance document on requesting demonstration projects and have been reviewed and approved by MaineDOT.

With appreciation to MaineDOT's safety office, which evaluated the High Crash Location (HCL) at Beech Hill and Danville Corner Roads, the graphic below is based on a scenario of a right-in right-out approach to restricting movements at this intersection during the demonstration project. While curb work would not be done, signage and barricades preventing other movements would be installed.

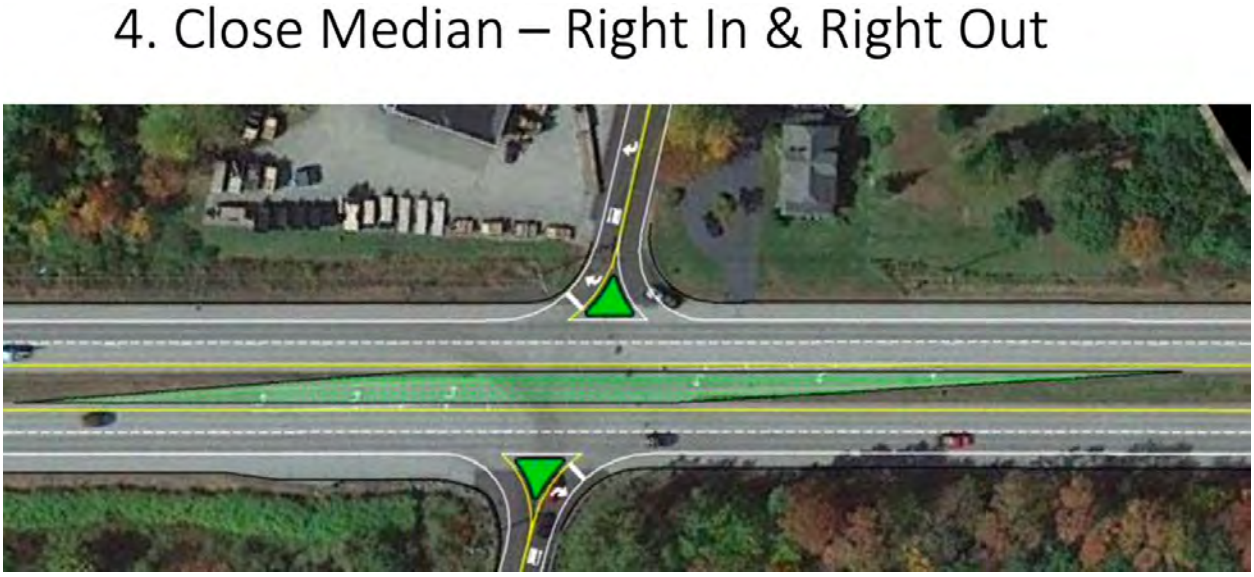

Figure 1. Graphic showing median closure at Beech Hill and Danville Corner Roads, taken from MaineDOT Safety Office presentation on HCL

While we do not have a similar graphic, the city would implement a similar restriction at the intersection of East Hardscrabble Road, allowing only right in and right out traffic entering Washington Street South.

Figure 2. Graphic showing where a second median closure would occur at East Hardscrabble Road and Washington Street.

The materials to be utilized include temporary concrete barriers and sand-filled barrels. Access to materials during the term of the demonstration project is being negotiated, and the city's public works department would complete the installation.

Each intersection's installation would be completed in accordance with AASHTO guidance, and the city has Gorrill-Palmer, the lead engineering firm on the larger Washington Street Corridor Study, creating the stamped plans for the project and assisting in data review during the trial period.

Given the nature of the Washington Street corridor in this section, installation timing and protection for installers and the public would mirror that utilized during the mill and fill on this section of the corridor during 2022. Due to the proposal to close full access at the subject intersections, conflict points during installation will be reduced as traffic will not be allowed to cross Washington Street.

The city partnered with ATRC/AVCOG to collect traffic counts at intersections likely to see detoured traffic, this will allow us to gather additional counts during the trial period to further assess how traffic was rerouted to find access to Washington Street or their intended destinations.

Though this area is outside of the urban compact zone, the Public Works Department does handle maintenance activities in this area and would have primary responsibility for monitoring the installation, as they do other infrastructure in the city. Any impacts from crashes would trigger an evaluation of the installation as well as reviews post winter storm events that could influence the retroreflective elements of the installation.

Public Works does run multiple shifts and has a work order system that would allow not only for prioritizing response to this installation, but to allow for inclusion of work order evaluations in the one-year review process we note below.

As the Auburn City Council endorsed a Vision Zero policy in the fall of 2022, and we advance the Safe Streets and Roads for All (SS4A) action plan process, we are targeting eliminate crashes that lead to serious injury and fatalities at these two intersections. Year over year net crash reductions would also be a goal.

Given that we project traffic to find alternative routes, we would also monitor year over year crash number changes at key detour-related intersections, those include Moose Brook Road/Washington Street, Station Road/Kittyhawk Ave/Washington Street, Kittyhawk Ave/Hotel Road, Chasse Street/Washington Street, Allied Road and Washington Street, Exit 75 Ramps and Washington Street, and Hackett Road and Washington.

We would also be monitoring traffic counts at key detour intersections/road segments, given early feedback from the community and the City Council. Those intersections include Hackett Road/Washington Street, Woodbury Road/Danville Corner Road, Old Danville Road/Danville Corner Road

Through advance discussion with our public safety agencies (Auburn Fire/Rescue and Auburn Police), we would monitor calls, response times, and routes that may have otherwise traversed these turn movements proposed to be eliminated. Neither agency saw a concern given existing routing from Auburn Hall (PD headquarters) or our respective Auburn Fire stations.

The city intends to host an in-person and a virtual neighborhood meeting to discuss the who, what, why, and when associated with this project if MaineDOT supports it advancing. Given that a 2015 neighborhood engagement effort led to their request to close the Beech Hill/Danville Corner Road intersection, we expect a predominantly positive response from

those living in these areas, though recognize for some residents there will be an inconvenience to reducing full access at these intersections.

The city's Transportation Systems Director would be available to respond to comments, and the city has online contact forms that would be a means to aggregate feedback from the public. In addition, the city will conduct a follow-up neighborhood meeting after the one-year anniversary of the closure to provide a report out on the impact of the closure (based on performance measures noted above) and potential next steps if support remains to make these closures permanent.

An item related to public awareness involves updated GIS databases associated with highway and street layouts. Given the use of mapping software in smart phones and vehicles, the city recognizes we need to communicate to these platforms the closure of particular legs of these intersections, beyond the signage that would be installed during the demonstration project period. MaineDOT has agreed to assist with its relationships with those routing systems.

The city would sign detour routes and would like to coordinate a review of detour mapping with MaineDOT's internal system for review of detours. The city's public works department does have some fabrication capabilities but would welcome MaineDOT detour signage loans if needed. City of Auburn variable message boards could also be deployed in the early stages of the project.

There have been numerous meetings of city staff, organizational partners, and briefings to the Auburn City Council. This latest briefing will initiate our implementation efforts, starting with public awareness and engagement through public meetings in the month of September and the establishment of feedback processes for residents during the demonstration period.

STATE OF MAINE
DEPARTMENT OF TRANSPORTATION
COOPERATIVE AGREEMENT

Demonstration Project
Washington Street Intersections, Auburn, Maine

This Cooperative Agreement (the "Agreement") is entered into by and between the **MAINE DEPARTMENT OF TRANSPORTATION** ("MaineDOT"), an agency of state government with its principal administrative offices located on Child Street, Augusta, Maine, and the **CITY OF AUBURN** (the "Municipality"), a municipal corporation with its principal administrative offices located at 60 Court Street, Auburn, Maine (MaineDOT and the Municipality are collectively the "Parties" or individually a "Party").

RECITALS

A. MaineDOT has identified the intersection of Beech Hill Road and Danville Corner Road (both town ways) with Washington Street (traffic signal node #3497) (a state highway also known as Route 202) as a high-crash location (the "Beech Hill/Danville Intersection"). Washington Street is a four lane highway divided by a median with strategic breaks in the median allowing traffic to access connecting side roads.

B. MaineDOT's Work Plan includes implementation of certain traffic signal upgrades to the Beech Hill/Danville Intersection (the "Traffic Signal Project").

C. The Municipality is working to implement control of access and mobility goals along the Washington Street corridor. In support of those goals, the Municipality's preference is to forgo the Traffic Signal Project in exchange for the testing of a so-called demonstration project, whereby alternative traffic control measures may be tested before more costly investments are made in permanent infrastructure improvements or less-preferable alternatives are implemented.

D. The proposed demonstration project would include closing off the existing median break at the Beech Hill/Danville Intersection, as well as Washington Street's intersection with East Hardscrabble Road, eliminating the ability for vehicular traffic to exit Washington Street via a left turn maneuver at either of these intersections, and creating a right-in/right-out traffic pattern for vehicles exiting and entering Beech Hill Road, Danville Corner Road, and East Hardscrabble Road to and from Washington Street (the "Demonstration Project").

E. MaineDOT is open to postponing the Traffic Signal Project in favor of the proposed Demonstration Project, provided that the Municipality follows the conditions set out in this Agreement.

F. If the Parties determine that the Demonstration Project satisfactorily improves the existing safety concerns while achieving the Municipality's mobility goals, a project to permanently

implement the temporary aspects of the Demonstration Project will be scheduled in an upcoming MaineDOT Work Plan.

G. The purpose of this Agreement is to set out the roles, responsibilities, and financial obligations of the Parties throughout all phases of the Demonstration Project to implement the Demonstration Project and to monitor and report its effect on the existing safety concerns and mobility goals.

AGREEMENT

NOW, THEREFORE, in accordance with the foregoing, the Parties agree as follows:

1. **Project Scope:**

   a. The Demonstration Project's "Scope of Work" shall consist of designing and installing compliant traffic control devices along the Washington Street median breaks at the Beech Hill/Danville Intersection and the East Hardscrabble Road intersection (the "Temporary Infrastructure") and installing appropriate signage at the affected intersections to advise users of right-in/right-out limitations and designated detour routes, all in accordance with design plans reviewed in advance by MaineDOT.

   b. The Municipality will consult with MaineDOT before implementing any substantive adjustments to the Scope of Work.

2. **Detours at Municipality's Risk:** The Municipality hereby assumes full responsibility for any impacts to town ways caused by designated detour routes made necessary by the implementation of the Demonstration Project and, notwithstanding the provisions of 23 M.R.S. § 654, the Municipality hereby releases MaineDOT from all responsibility for signage, maintenance, or selection of the designated detour routes or any impacts to town ways caused by the operation of such detour routes.

3. **Temporary Location Rights Granted:** Through execution of this Agreement, MaineDOT grants the Municipality temporary location rights allowing for the Municipality's installation of the Temporary Infrastructure within the Route 202 right of way limits (the "Temporary Location Rights"). If, at any time, MaineDOT determines that the Temporary Infrastructure presents a safety hazard to the travelling public, or if the Temporary Infrastructure is not being properly maintained during the Demonstration Period, MaineDOT will direct the Municipality to immediately remove the Temporary Infrastructure and restore the median break and associated traveled way to a condition acceptable to MaineDOT, and this Agreement will be void and of no further effect unless acceptable repairs or remedies approved by MaineDOT at its sole discretion are immediately implemented by the Municipality.

4. Project Monitoring and Reporting:

a. The Temporary Infrastructure, once installed, shall remain in place for a period of one (1) year, during which time the Municipality will monitor the Demonstration Project's impact on safety at the affected intersections and general mobility improvement on the Washington Street corridor (the "Demonstration Period"). During the Demonstration Period, the Municipality shall undertake the following activities:

   i. At least two (2) public hearings shall be held at different stages of the Demonstration Period to seek public input on the perceived effectiveness of the Demonstration Project.

   ii. Statistical analysis of crash data to objectively evaluate improvements or degradation directly resulting from the Demonstration Project implementation.

   iii. General monitoring of mobility improvements or degradation directly resulting from the Demonstration Project implementation, to the extent that this information is helpful to the Municipality in objectively measuring attainment of its mobility goals;

b. Upon completion of the Demonstration Period, the Municipality shall report its findings to MaineDOT, and the Parties will jointly determine whether the Demonstration Project has successfully met the Parties' intended goals.

   i. If the goals are satisfactorily achieved, MaineDOT will incorporate a project into its work plan to replace the Demonstration Project's temporary installations with permanent infrastructure (the "Permanent Project"). Upon such determination to proceed to a Permanent Project, the Temporary Infrastructure will remain in place and maintained by the Municipality until construction of the Permanent Project is initiated (the "Interim Period")

   ii. If the goals are not satisfactorily achieved, MaineDOT will direct the Municipality to immediately remove the Temporary Infrastructure, restore the median break and associated traveled way to a condition acceptable to MaineDOT, and this Agreement will be void and of no further effect. MaineDOT shall then determine how best to proceed with safety improvements at the Beech Hill/Danville Intersection, including without limitation the possibility of proceeding with the postponed Traffic Signal Project.

5. Project Financing:

a. All costs associated with the Demonstration Project implementation shall be borne by the Municipality. Such cost shall include, without limitation, all costs associated with removing the Temporary Infrastructure and restoring the median break and associated

travel way to a condition acceptable to MaineDOT if the Demonstration Project does not advance to a Permanent Project.

b. If the Parties jointly determine that the Permanent Project will be implemented, the Parties will enter into a subsequent cooperative agreement setting out the roles, responsibilities, and cost-sharing parameters of the Permanent Project.

6. <u>Project Development:</u>

a. <u>Design.</u>

i. The Demonstration Project shall be designed by a Professional Engineer licensed in the State of Maine and all Demonstration Project plans and specifications shall be reviewed by MaineDOT's State and Region Traffic Engineers before the Demonstration Project can proceed to the construction/installation phase. MaineDOT's review shall be focused on ensuring that the Demonstration Project will achieve the anticipated benefits and will not degrade safety and may result in MaineDOT recommending or requiring that changes be made to the plans to address identified concerns. The Municipality shall further provide MaineDOT with the opportunity to review any substantive changes to the initial design before proceeding with implementation of such changes.

ii. It is expected that the Demonstration Project can be constructed as designed within the existing right-of-way limits. If that is not the case, the Municipality must provide MaineDOT with a detailed explanation of the property rights required for the Project and shall acquire any such property rights in accordance with all applicable state and federal laws.

iii. The Municipality shall coordinate with affected utilities to identify existing utility locations and/or any utility relocation impacts that may be created by the development of the Project.

iv. The Municipality shall perform all necessary federal, state, and local permitting activities required in connection with the Project.

b. <u>Construction/Installation of Temporary Infrastructure.</u>

i. The Municipality intends to use its own public works resources to construct the Demonstration Project. If the Municipality instead elects to hire an outside contractor, the Municipality shall advertise, procure, and award a contract to construct the Demonstration Project in accordance with the approved plans and specifications (the "Construction Contract")following a competitive bidding process that is consistent with the procedures set out in MaineDOT's Standard Specifications (March 2020 Edition), Section 102, "Bidding." The Municipality shall be the sole administrator of any Construction Contract procured.

ii. The Municipality shall assign or hire a qualified Professional Engineer licensed in the State of Maine to oversee all Demonstration Project activities (the "Project Engineer").

iii. During construction, the Municipality shall:

- Provide a Project Resident to perform inspection and documentation work who is either a municipal employee qualified to perform such work or a consultant hired through a qualifications-based selection method;

- Hold a pre-construction meeting with notice of at least 5 working days with representatives of MaineDOT, the contractor, and any utilities affected by the work;

- Coordinate materials testing, if applicable, to meet the minimum testing requirements for the Project;

iv. Construction Initiation and Completion. The Municipality shall initiate Demonstration Project construction by **June 30, 2024** and complete Demonstration Project construction by **October 31, 2024** (the "Project Initiation and Completion Dates"), unless MaineDOT, in its sole discretion, agrees to extend the Project Initiation and/or Completion Dates at the Municipality's request. Failure to meet the Project Initiation and/or Completion Dates may result in MaineDOT's revocation of the Temporary Location Rights and termination of this Agreement, at MaineDOT's sole discretion.

7. Public Involvement:

The Municipality shall be responsible for implementing and leading any and all required public involvement processes and activities and any necessary media coordination associated with the Demonstration Project.

8. Termination:

a. The Municipality reserves the right to terminate the Demonstration Project and this Agreement for any reason upon written notice to MaineDOT.

b. MaineDOT reserves the right to postpone, suspend, abandon, or otherwise terminate this Agreement upon thirty (30) days written notice to the Municipality and, in no event, will any such action be deemed a breach of contract. Postponement, suspension, abandonment, or termination may be taken by MaineDOT for any reason or specifically as the result of the Municipality's failure to perform as required under

the terms of this Agreement after receiving written notice from MaineDOT and the right to cure within 7 days of Municipality's receipt of such notice.

c. This Agreement may be terminated at any time by mutual written agreement of all Parties.

d. Upon termination for any reason, if MaineDOT is not advancing the Demonstration Project to a Permanent Project, MaineDOT will direct the Municipality to immediately remove the Temporary Infrastructure, restore the median break and associated traveled way to a condition acceptable to MaineDOT, and this Agreement will be void and of no further effect. MaineDOT shall then determine how best to proceed with safety improvements at the Beech Hill/Danville Intersection, including without limitation the possibility of proceeding with the postponed Traffic Signal Project.

9. Post-Construction Maintenance:

Upon completion of Demonstration Project construction, the Municipality agrees to maintain, at its sole expense, all Temporary Infrastructure constructed, installed, or furnished in connection with the Demonstration Project in such manner as necessary to preserve the use and function thereof, and in a manner that preserves the safety of the travelling public for the duration of the Demonstration Period and the Interim Period, if applicable.

10. Term of Agreement: This Agreement shall be effective upon full execution by all Parties and shall expire upon completion of the Demonstration Period and any applicable Interim Period.

11. General Provisions:

a. Debarment. By signing this Agreement, the Municipality agrees that it will not hire a consultant or contractor, or allow the hiring of any subconsultant or subcontractor, who is now debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency.

b. Indemnification.

i. The Municipality, to the extent permitted by law, shall indemnify, defend subject to the Maine Attorney General's approval, and hold harmless MaineDOT, its agents and employees from any and all claims, suits, or liabilities of every kind or nature attributable to, resulting from, or arising out of the design, construction, implementation, or maintenance of the Demonstration Project. Nothing herein shall waive any defense, immunity, or limitation of liability that may be available to either Party under the Maine Tort Claims Act (14 M.R.S. Section 8101 et seq.)

or any other privileges or immunities provided by law. *This provision shall survive any termination or expiration of this Agreement.*

ii. The Municipality shall require any contractors hired in connection with the Construction Contract (the "Contractor") to indemnify, defend subject to the Maine Attorney General's approval, and hold harmless MaineDOT, its agents and employees from any and all claims, suits, or liabilities of every kind or nature attributable to, resulting from, or arising out of the Contractor's involvement in the design, construction, implementation, or maintenance of the Demonstration Project. Nothing herein shall waive any defense, immunity, or limitation of liability that may be available to the State of Maine under the Maine Tort Claims Act (14 M.R.S. Section 8101 et seq.) or any other privileges or immunities provided by law. *This provision shall survive any termination or expiration of this Agreement.*

c. Insurance.

i. The Municipality shall require its Contractor(s) to carry and provide MaineDOT and the Municipality with signed, valid, and enforceable certificate(s) of insurance consistent with the requirements set out in MaineDOT's Standard Specifications (March 2020 Edition), Section 110.3 *et seq*, "Insurance."

ii. The Municipality shall, at all times, carry sufficient liability insurance to adequately cover its risks arising from or related to actions performed in connection with the Demonstration Project and this Agreement, including all indemnification obligations.

iii. Each insurance policy, with the exception of Workers' Compensation and Professional Liability insurance, shall list the State of Maine Department of Transportation as an additional insured.

d. Assumption of Responsibility. The Municipality hereby assumes responsibility for all damage to public or private property of any kind resulting from any act, omission, neglect, or misconduct of the Municipality, its employees, agents, or representatives, and shall ensure that its Contractor(s) assume the same responsibility for all damage to public or private property of any kind resulting from any act, omission, neglect, or misconduct of its own employees, agents, or representatives.

e. Obligation of Municipal Funds. The Municipality represents that it has received all necessary approvals or authorizations by its governing authorities to approve and implement the Demonstration Project and enter into this Agreement, and that it has obligated the necessary funds to cover the costs of the Demonstration Project.

f. Amendments. This Agreement may be amended when such an amendment is agreed to in writing by all Parties.

g. Assignment. No assignment of this Agreement is contemplated, and in no event shall any assignment be made without the Parties' express written permission.

h. Independent Capacity. The Municipality, its employees, agents, representatives, consultants, and contractors shall not act as officers, employees, or agents of MaineDOT.

i. Applicable Federal and State Laws. The Municipality shall keep itself informed of and comply with all applicable federal, state, and local laws, rules, regulations, orders, ordinances, and decrees affecting the Demonstration Project including without limitation all environmental, wage, labor, equal opportunity, safety, patent, copyright, and trademark laws.

j. Entire Agreement. This document represents the entire Agreement between the Parties. Neither MaineDOT nor the Municipality will be bound by any statement, correspondence, agreement, or representation not expressly contained in this Agreement.

k. Points of Contact and Notices. Each Party has designated a Point of Contact for the Demonstration Project, as identified below. Any communications, requests or notices required or appropriate to be given under this Agreement shall be in writing and mailed via U.S. Mail, Certified or Registered, Return Receipt Requested or sent via a recognized commercial carrier such as, but not limited to Federal Express, that requires a return receipt delivered to the sending Party. Alternatively, communication may be sent via email and shall satisfy the delivery requirements of this section through express acknowledgement of receipt by the receiving Party. Said communications, requests or notices shall be sent to the other Party as follows:

City of Auburn
Jonathan P. LaBonté
60 Court Street
Auburn, ME 04210
Phone: 207-333-6601 x1070
Email: j.labonte@auburn.maine.gov

Matthew Drost, Bureau of Planning
16 State House Station
Augusta, ME 04333-0016
Phone: 207-441-1879
Email: matthew.drost@maine.gov

Each Party agrees to promptly notify the other Party of any changes to the above referenced contact information.

l. Counterparts and Electronic Signatures. This Agreement may be implemented in one or more counterparts, each of which will be deemed to be an original copy and all of which, when taken together, will be deemed to constitute one and the same Agreement, and will be effective when counterparts have been signed by each of the Parties and delivered to the other Parties. Each Party agrees that this Agreement and any other documents to be executed in connection herewith may be electronically signed and that any electronic signatures appearing on this Agreement or the associated documents are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement effective on the day and date last signed below.

City of Auburn
City Council Information Sheet

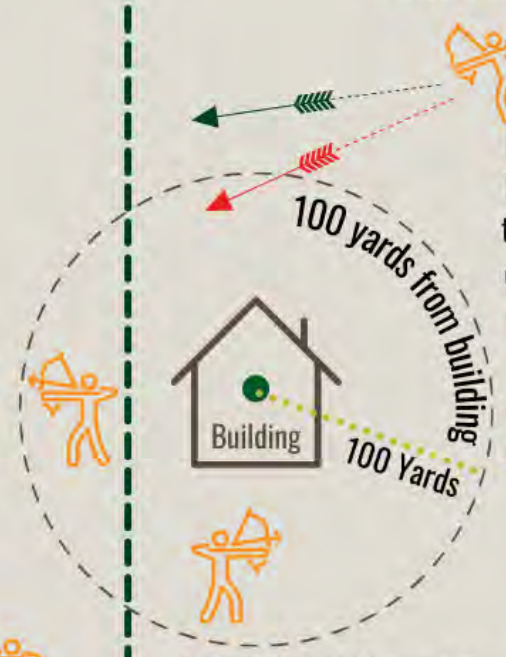
Council Workshop or Meeting Date: August 19, 2024 **Workshop**

Author: Phillip Crowell Jr, City Manager

Subject: Discussion of hunting complaints & Archery/Firearm restriction zones

---

Information:



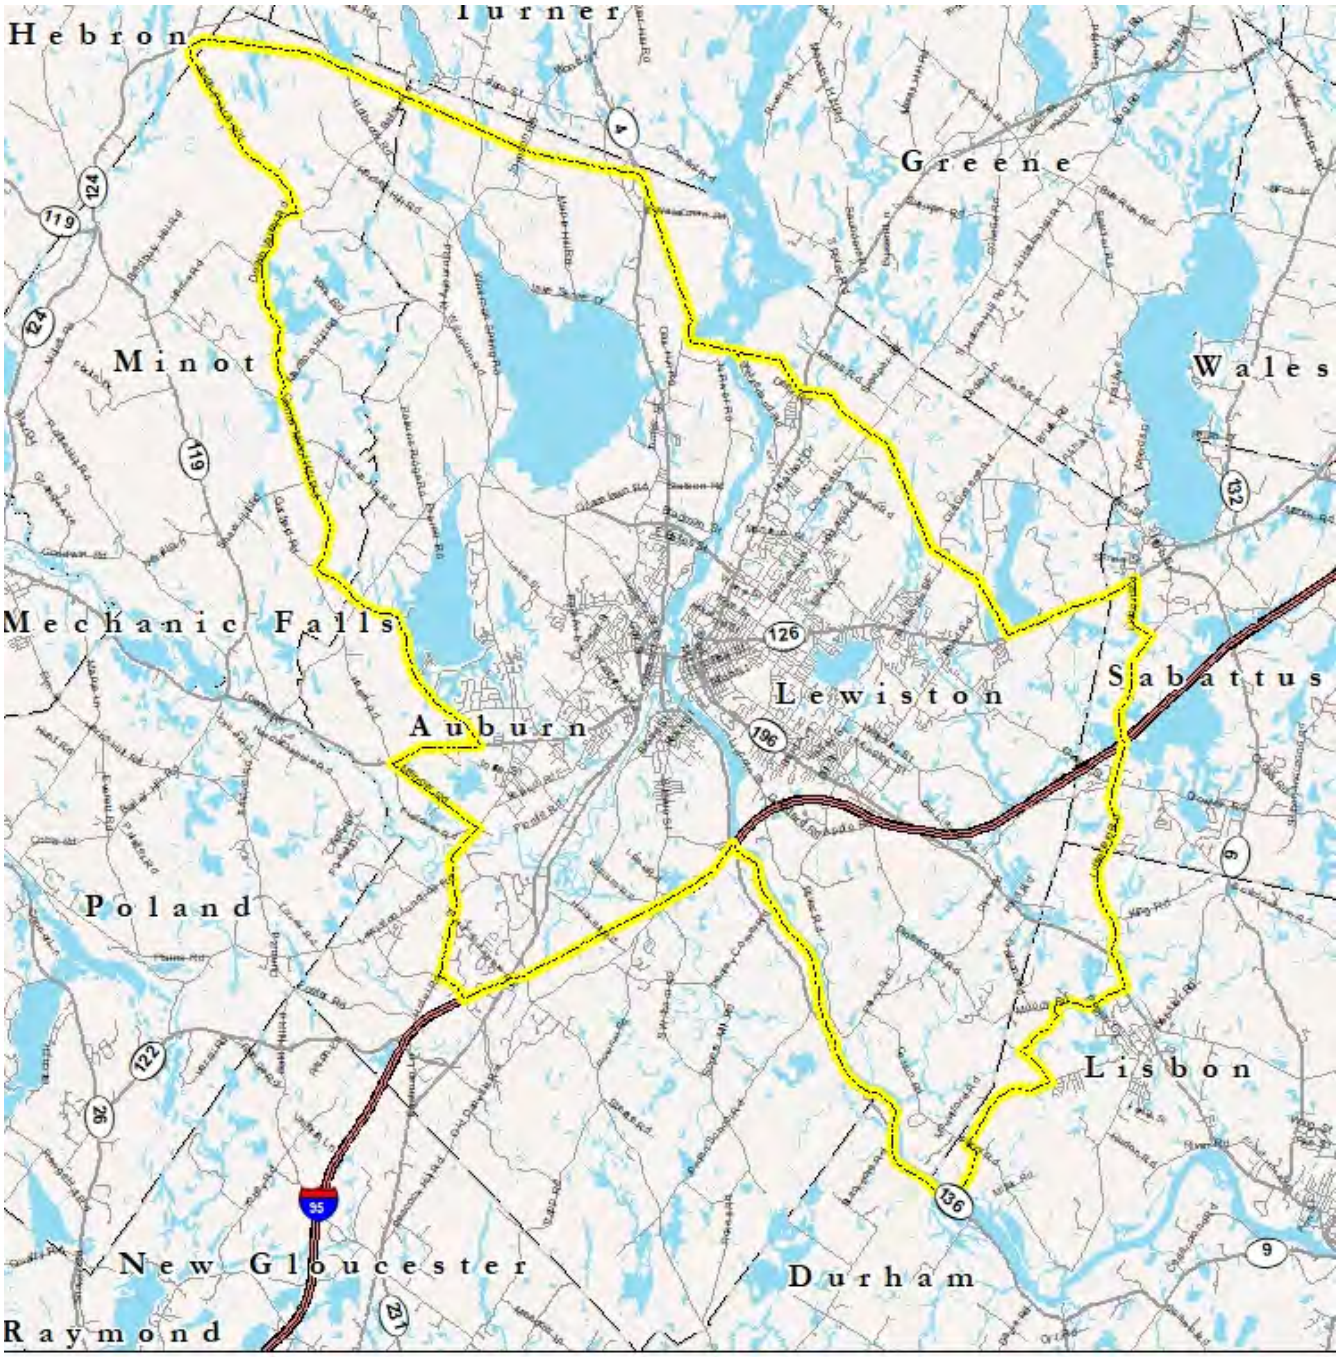
Councilor Whiting and Gerry requested this item be brought before the city council for discussion. Councilor Whiting has received complaints regarding a city owned parcel on Summer Street (parcel ID 277-037-001). The parcel is located within the city's restricted firearm zone and is within the state's expanded archery hunting zone. The police department was requested to review complaints related to hunting in this area – no off-season hunting complaints were located, repeated complaints of vehicles parked on the side of the road during hunting season and some complaints of hunters walking through private property. In addition to concerns about hunting near buildings, the councilor also received complaints about no hunting signs being removed. No complaints were discovered regarding signs being taken down or firearm discharges on Summer St specifically. Approximately ten complaints were received in the last three years, all from areas immediately surrounding the specified parcel.

There are 16 parcels surrounding this city owned parcel – one property has a building (1018 Summer Street) within 300 feet of the city owned parcel. There are two homes on Hotel Road which are approximately 400 – 425 feet away. This information is being shared to demonstrate that a hunter could walk into the area on city property and hunt on the private properties and be within the law to hunt if those property owners have not posted the property in accordance with the law. To restrict hunting access to the parcel identified, we would need to post approximately 170 signs on the 60- acre parcel being considered. See the diagram below for the 100-yard restriction and the expanded archery zone for our area.

The diagram below illustrates when an archer is legally required to obtain landowner permission to discharge a bow and arrow.

Landowner A

Landowner B



If an **arrow** will pass within 100 yards of a building, **and** the archer is on that building owner's land, **permission is required**. If the arrow will pass more than 100 yards from the building, **no permission required**.

If the archer is within 100 yards of a building that is on a different landowner's land: **No permission required**.

If the archer is more than 100 yards away from a building, **no permission is required** to discharge the bow.

When within 100 yards of a building, **and** the archer is on that same building owner's land, **permission is required**.

The above diagram assumes the archer is in a place they can legally access considering trespass and tree stand laws. View all of Maine's hunting laws at mefishwildlife.com/huntinglaws

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 19, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) for an economic development matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 19, 2024 **Order(s):** 99 through 102 - 08192024

Author: Emily F. Carrington, City Clerk

Subject: Appointing Board & Committee Members as recommended by the Appointment Committee

---

Information: The Appointment Committee met on August 8, 2024 to review applications received for vacancies posted due to recent resignations on various boards & committees. The Appointment Committee is bringing forward the following nominations:

1. **ORDER 99-08192024* –** Appointing Edward Little High School Junior, Mubarik Abdulahi, to serve as City Council Student Representative with a term expiration of 6/30/2026, as nominated by the Appointment Committee.

2. **ORDER 100-08192024* -** Appointing Whitney Poulin to serve on the Auburn-Lewiston Municipal Airport Board of Directors for the unexpired term ending 1/1/2026, as nominated by the Appointment Committee.

3. **ORDER 101-08192024* -** Appointing Dana Staples to serve on the Zoning Board of Appeals for a term that expires 5/1/2027, as nominated by the Appointment Committee.

4. **ORDER 102-08192024*** - Appointing Robert Hayes to serve on the Planning Board for the unexpired term ending 1/1/2027, as nominated by the Appointment Committee.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage of the orders (Consent Item).

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Student Essay

To give each applicant the opportunity to demonstrate his or her eligibility for the City Council Student Representative, answer the following questions limiting each response to 100 words or less.

Use separate sheet of paper if necessary and attach response sheet to the application and submit together.

1. Why do you believe that you would be a good candidate for the City Council? Any special qualities?
   I believe I am a strong candidate for the City Council due to my deep commitment to community service and understanding of our diverse population's needs. As a first-generation member of our community, I have a unique perspective and strong connection to the experiences of New Mainers, enabling me to represent and advocate for their needs effectively. Since the age of eight, I have been actively volunteering under my mother's guidance, accumulating over 60 hours of door-to-door canvassing and outreach to encourage voter turnout among New Mainer communities, trained by the Maine People's Alliance. My volunteer work at local community events includes managing tables to educate residents about lead poisoning prevention and promoting COVID-19 vaccinations, demonstrating my dedication to public health and effective communication skills. I have extensive volunteer experience with Maine Community Integration, Maine People's Alliance, Healthy Neighborhoods, and Healthy Androscoggin, giving me a deep understanding of community issues and strong relationships with various stakeholders. My commitment to service and proactive approach to addressing community needs highlight my leadership qualities and passion for making a positive impact, which I am eager to bring to the City Council.

2. What do you envision a Student Representative as being? Why should there be one?

I envision a Student Representative as a vital bridge between the student body and the decision-making authorities, ensuring that the voices, concerns, and ideas of students are heard and considered in relevant discussions. A Student Representative would actively gather input from their peers, advocate for student interests, and work collaboratively with school officials to address issues affecting the student community.

Having a Student Representative is important because it empowers students by giving them a direct role in shaping their educational experience. It fosters a sense of responsibility and engagement among students, encouraging them to take an active interest in their school environment. Additionally, it promotes a more inclusive and democratic decision-making process, ensuring that policies and initiatives reflect the needs and perspectives of the student body. This representation can lead to more effective and relevant solutions to issues such as academic stress, mental health support, extracurricular activities, and overall school climate.

3. In your opinion, what is the most critical issue facing youth in your school, in your neighborhood, and in our city? What can a Student Representative do to solve such a problem?

In my opinion, the most critical issue facing youth in our school is the urgent need for more school guidance counselors. Post COVID-19, there has been a significant increase in mental health issues and suicides among my peers. Another pressing issue is the high rate of students skipping classes, often congregating in bathrooms, which contributes to academic gaps.

In our neighborhood, a key concern is the need for road repairs and increased beautification through the addition of more trees. For the city at large, addressing these infrastructure issues can significantly improve the quality of life for residents.

CITY COUNCIL STUDENT REPRESENTATIVE

I, the undersigned, do hereby consent to my child's participation in the Auburn City Council. I acknowledge that I have read and understand the Auburn City Council Ordinance and allow my child to attend all meetings and events relative to this program; and that I understand that my child will be removed from membership for failure to do so. I also acknowledge that upon submission of the application, my child will be considered for membership with all other applicants and that my child may or may not be selected for membership. I further acknowledge that my child's participation in this program is voluntary and I agree to release the City of Auburn and all of their employees, officials, and any and all individuals and organizations assisting or participating in the program from any and all claims for personal injuries and property damage which my child may suffer while participating as a member of the Auburn Youth Council.

Current Occupation: Hard copy submitted separately

Previous Occupation (if retired or no longer working): Hard copy submitted separtely

Education and/or experience: Hard copy submitted separately

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Planning Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Desire to move from an alternate/associate to full member

Briefly describe why you want to serve on a board/committee (1,000 character limit): Earlier I submitted for appointment to the Planning Board as an Associate Member. I was selected to fill that position and have appreciated the opportunity to serve in that compacity. I would now look forward to serving as a full member.

What do you hope to accomplish?: I would appreciate the opportunity to continue to add to the conversation and discussion addressing planning and development issues facing the Auburn community. Hopefully, my upbringing in Auburn and involvement in Auburn affairs would allow me to contribute beneficially to the dialogue concerning the City's social, environmental and economic issues.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Associate Planning Boai Member

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Yes, as outlined in hard copy submitted separately

Dates served (if known): As shown by separate submittal

How did you learn of this vacancy?: On line and knowing of this now vacancy

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Robert Hayes

Date of Electronic Signature: 7/25/2024

July 25

~~January 29~~, 2024

From: Robert P Hayes (residing at 172 Allen Ave., Auburn in Ward 2 with home phone #782-1386, cell phone #232-3903 and email address:)

To: City of Auburn as a submittal application for the open seat for an ~~alternate~~ full member on the Planning Board as appears in the City's web site.

I am now retired, working part time as a driver for Mobility Works (Gray, ME) and as a ski instructor at Lost Valley. Previously, I was owner/manager of J.L.Hayes/Agway, originally in Lewiston but most recently in Auburn at 807 Minot Ave.

I am still dedicated to this community in which have grown up in and have lived and worked in. I would like to be responsibly and thoughtfully involved in contributing to Auburn's healthy growth, by being a respectful and knowledgeable voice as a Planning Board member.

As to my background, I submit the following:

EDUCATION:

- Auburn Public Schools (ELHS 65)
- Union College, Schenectady, NY (Industrial Economics)
- Univ. of Southern Maine (Business Administration)
- Univ. of Maine – Augusta (Public Administration)
- Navy Officer Candidate School, Newport, RI
- Navy Supply School, Athens, GA

COMMUN ITY INVOLVEMENT:

- Chamber of Commerce (1975-2015)
- Auburn Planning Board (Member '77-'90, Chairperson '88-'90)
- Lewiston Downtown Development & Management Corp. (Director '80-'87, Chairperson '85-'87)
- Auburn City Council (Ward 2, 2005-2015)

PROFESSIONAL EXPERIENCE:

- United States Navy (Active '70-'73; Reserve '73-'95; Retired Commander, Supply Corps)
- E.C.Jordan Co., Portland, ME (Community and Regional Land-Use Planner '69-'70, '73-'75)
- J.L.Hayes/Agway (Small Business Manager 1975-2015)

For more than 60 years, I have been involved in our community,

- as student in the Auburn Public Schools,
- as owner/manager of J.L.Hayes/Agway,
- as member of the Chamber of Commerce,
- as member/chairperson of the Planning Board,
- as Ward 2 City Councilor,
- as member of the L/A Railroad Co. Board,
- as City representative to the L/A Airport Board,
- as a certified ski instructor at Lost Valley.

Respectfully,

Bob Hayes

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Airport Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I want to serve on the airport board because I am interested in improving the quality of life for the residents of Auburn and Lewiston. I would like to help with the growth and development of the airport and give the residents different transportation options. I think this airport has potential for growth and I would like to contribute to the vision to make that happen. I would also like to share my fundraising ideas to help fund the development of the airport.

What do you hope to accomplish?: I would like to promote initiatives that will help with more job creation, more transportation options, and more revenue for the twin cities. I would like to provide opportunities for residents and

visitors to engage more with the airport with events that would generate revenue and community involvement. I would like to look into ways to bring quality and economical transportation businesses to the airport.

Appointment Committee Meeting
Agenda
August 8, 2024
Auburn Hall, Room 204
3:30 PM Meeting

Present:
Councilors Belinda Gerry, Richard Whiting, Adam Platz (Members)
City Clerk Emily Carrington

1. Appointing a Committee Chair

Councilor Platz was unanimously declared Chair.

2. Acceptance of Minutes from the May 23, 2024 Meeting

Motion to accept the minutes by Councilor Whiting, seconded by Councilor Gerry. Passed 3-0.

3. Open Session

No members of the public were present.

4. Review of Applications and Nominations

Councilor Whiting moved to go into executive session pursuant to 1 M.R.S.A. §405(6)(A) to discuss applications, seconded by Councilor Gerry. Passed 3-0. Entered executive session at 3:33pm.

Declared out of executive session at 3:44pm.

Councilor Whiting nominated Robert Hayes to Planning Board to fill the unexpired term of Ryan Smith. Seconded by Councilor Gerry. Passed 3-0.

Councilor Platz moved to nominate Whitney Poulin to the Airport Board of Directors for the unexpired term of Jonathan LaBonte; seconded by Councilor Gerry. Passed 3-0.

Councilor Gerry moved to nominate Dana Staples to the Zoning Board of Appeals for the unexpired 3 year term, seconded by Councilor Whiting. Passed 3-0.

Councilor Platz moved to nominate Mubarik Abdulahi as the Student Council Representative (Junior), for a two year term expiring 6/30/2026. Seconded by Councilor Gerry. 3-0.

5. Other Business

Another meeting will be held in September.

6. Adjournment

Motion to adjourn by unanimous consent at 3:49pm.

ORDER 99-08192024

City Council Order

IN CITY COUNCIL

ORDERED, that Edward Little High School Junior, Mubarik Abdulahi, be appointed to serve as the City Council Student Representative with a term expiration of June 30, 2026, as nominated by the Appointment Committee.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

ORDER 100-08192024

City Council Order

IN CITY COUNCIL

ORDERED, that Whitney Poulin be appointed to serve on the Auburn-Lewiston Municipal Airport Board of Directors for the unexpired term ending January 1, 2026, as nominated by the Appointment Committee.

Richard S. Whiting, Ward One

IN COUNCIL WORKSHOP & MEETING AUGUST 1, 2024 VOL 37 PAGE 183

Mayor Harmon called the meeting to order at 7:00P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present.

I. Consent Items

1. ORDER 95-08052024* – Appointing Mayor Jeffrey Harmon to serve as the Auburn Representative for Maine Municipal Association's 2024-2026 Legislative Policy Committee, and appointing City Manager, Phillip L. Crowell, as alternate.

2. ORDER 96-08052024* - Casting Auburn's ballot for the Maine Municipal Association's Vice President & Executive Committee members.

Councilor Gerry moved for passage of the Consent Items, seconded by Councilor Whiting. Motion passed 7-0.

II. Minutes – July 15, 2024 Regular Council Meeting
Councilor Walker moved to accept the minutes, seconded by Councilor Cowan. Motion passed 7-0.

III. Communications, Presentations and Recognitions

IV. Open Session
Larry Pelletier, Second St – Expressed concerns about dog waste, fireworks, and unleashed dogs

V. Unfinished Business

VI. New Business

1. ORDER 97-08052024 – Establishing an ad-hoc committee to review city fees and bring forward a recommendation of changes to the City Council for adoption. Passage requires majority vote.

Councilor Milks moved for passage, seconded by Councilor Walker. Motion passed 7-0.

2. ORDER 98-08052024 – Adopting changes to EMS billing rates. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Cowan. Motion passed 7-0.

VII. Reports
a. Mayor's Report – Attended the Opioid Response Summit with Governor Mills.
b. City Councilors' Reports – Councilors Gerry and Cowan gave an update on the homeless committee. Councilor Milks spoke about an upcoming fundraising event titled the Matt Closson scholarship fund at Lost Valley. Councilor Weisner reminded the public about the balloon festival later taking place August 16-18.

c. Student Representative Report - Representative Egge encouraged the public to attend the Balloon Festival and said many ELHS student clubs will be present.
d. City Manager Report – Acknowledged National Night Out to be held on August 6.

VIII. Open Session
Stephen Beale, Johnson Rd

IX. Executive Sessions –

Councilor Walker moved to enter Executive Sesssion pursant to 1 M.R.S.A. Section 405(6)(A) to discuss a personnel matter. Seconded by Councilor Weisner. Motion passed 7-0; Council entered Executive Session at 7:15pm.

Pursuant to 1 M.R.S.A. Section 405(6)(E) to consult with the City attorney regarding the City's legal rights and duties concerning a pending litigation matter. No action to follow. Passage requires 3/5 majority vote to enter executive session.

Pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss annual evaluation of the City Manager. No action to follow. Passage requires 3/5 majority vote to enter executive session.

Council came out of Executive Session at 8:19pm.

X. Adjournment

Councilor Milks moved to adjourn at 8:20pm, seconded by Councilor Walker.
Motion passed 7-0.

2024 SOLID WASTE TASK FORCE | EXECUTIVE SUMMARY

Current household solid waste management contracts for the City of Auburn are expiring at the end of this year. The City Council has instructed the Sustainability and Natural Resources Board to evaluate Auburn's solid waste management system, including how household solid waste is collected, processed and disposed of. The findings in this report are intended to support the city in its writing of new solid waste agreements. An important context for these recommendations is the state's soon-to-be-launched EPR (Extended Producer Responsibility) program. In a volatile and rapidly changing market for recyclables, the Maine EPR will provide new revenue to support recycling programs and other solid waste initiatives in participating municipalities. This is an optimal moment for Auburn to re-evaluate its approach to the "recycle-recovery-disposal" sections of the waste hierarchy, pictured above.

1. GENERAL RECOMMENDATIONS

A. **Prepare Auburn households for Maine Extended Producer Responsibility (EPR) Program** [https://www.maine.gov/dep/waste/recycle/epr.html]: By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

B. **Data management:** Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

C. **Staffing:** Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs using data referenced above (1.B). This individual could also manage other city sustainability programs.

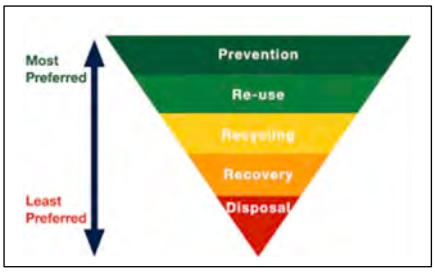
D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using data, regular data reports, restructured staffing, revisions to the Auburn solid waste ordinance and Comprehensive Plan.

E. Limit the duration of new **solid waste contract(s)** to allow for improved data collection and analysis (1.B) and evaluation of how EPR (1.A), the public engagement program (1.D) and new trash-collecting technologies will impact future city budgets and sustainability efforts.

2. DOMESTIC TRASH RECOMMENDATIONS

A. Continue current service level for curbside collection of household trash.

B. Use bid (RFP/Request for Proposal) process to analyze feasibility and costs of various solid waste collection and divergence strategies including:
   - Contracted vs city operated curbside collection
   - Incentives for increased food-scrapping (IV. B-F) and recycling such as limiting the size of the trash collection container
   - Controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations
   - City-developed markets for collection and sale of some readily recyclable commodities
C. Increase participation in Product Stewardship programs to divert more waste from household trash. [https://www.maine.gov/dep/waste/productstewardship/index.html]
D. Incentivize and support existing reuse programs for household items.



3. RECYCLING RECOMMENDATIONS

A. Institute weekly curbside collection of recyclables.
B. Auburn's recycling program should include recycling of all commodities on the state EPR list.
C. Curbside recycling should include city-provided wheeled, lidded containers.
D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.
E. Create targets for increased household participation, based on analysis of data collected (1.B).
F. Create unified messaging as part of the Public Engagement Program (1.D), with easy-to-understand instructions and advice available via social and other media.

4. FOOD WASTE PROGRAM RECOMMENDATIONS

A. Continue with Gracelawn Road and South Main Street drop off locations.
B. Add additional drop-off location(s) in more highly traveled and accessible sites to increase convenience and participation.
C. Enhance drop off locations with larger signs (kiosks) that include information (pictures and writing) about what can and cannot be placed in the bins.
D. Use multiple modes of communication to promote the program, as part of the public engagement program (1.D)
E. Include schools in the food waste collection program, including mini lessons in the classrooms and picking up food waste from the cafeterias by the contractor.
F. Incentivize food waste collection by subsidizing the cost/or purchasing of backyard compost bins and/or kitchen compost containers.

Auburn Solid Waste Task Force: Detailed Recommendations

Authority of Solid Waste Task Force to Issue Report

Ordered, that the Sustainability and Natural Resources Board will work with all relevant subcommittees with support from city staff to create a Solid Waste and Recycling plan for the City of Auburn. (partial text, City Council order January 16, 2024).[1]

Introduction

This report focuses on solid waste generated by households in Auburn. What the task force refers to in the report as the household solid waste stream is composed of domestic trash, recycling, food scraps and organic waste.

Domestic trash – waste not recycled - is collected curbside and trucked to a waste to energy incinerator in Auburn. Trash incineration generates electricity used to run the plant, with excess sold to the power grid. Incineration reduces trash volume by 80%; the ash from incineration is then trucked to the Lewiston landfill for disposal.

Recycling in this report is solid waste separated from domestic trash for special processing. Auburn's recycling is separated by homeowners for curbside or drop-off site collection and trucked to a recycling facility in Lewiston, where it is further processed and sold to brokers of recycled commodities.

Food scraps and organic waste can also be separated from trash by homeowners, taken to a drop-off site and trucked to a facility for anaerobic digestion - a process that captures gas from decomposing food and generates electricity.

Like many Maine municipalities, Auburn's current management of solid waste has evolved over time. It is a complex of component entities, geographically dispersed, with varied ownership and business models. *Do these component parts currently operate to optimally balance municipal budget impacts (taxpayer dollars) with responsible environmental*

[1] *City Council Order 14-01162024*. Retrieved from auburnmaine.gov: https://www.auburnmaine.gov/CMSContent/City_Council/Actions/0%20ORDERS%201-94%20current%20as%20of%207-15-24.pdf

stewardship? This question is timely, since Auburn is about to enter into new agreements for household trash and recycling hauling and processing.

Our investigation of these issues suggests that Auburn needs to dedicate ongoing resources for study, data collection, reorganized staffing and public involvement before writing a long-term Solid Waste Plan. Revenue to support this work is on the way, thanks to a pioneering state law [Extended Producer Responsibility, or EPR] designed to reduce the amount of packaging waste introduced to Maine and help Maine towns fund their solid waste costs. The task force recommends that Auburn negotiate shorter term commitments with its solid waste contractor(s) as it prepares for the implementation of EPR and responds to the changing environment of solid waste management.

1. General Recommendations for The Council

A. Prepare Auburn households for **Maine Extended Producer Responsibility (EPR) Program** https://www.maine.gov/dep/waste/recycle/epr.html.

Starting in 2026, EPR will charge producers of non-recyclable packaging a per ton fee based on the tonnage of such packaging sold in Maine.[2] Beginning in 2027, municipalities with established recycling programs who choose to participate will be reimbursed a per ton amount for specified packaging types (plastic, metal etc.) that are recycled. In addition, they will be reimbursed on a per capita basis for the amount of nonrecyclable packaging processed in domestic household trash. Final rules are still being written, but it is anticipated that per-ton reimbursement for recycled packaging will be higher than for nonrecyclable packaging. Reimbursement for nonrecyclable packaging sent to waste to energy incinerators, like Auburn's, will be higher than that sent to landfills.

By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

On average Auburn sends 8,000-9,000 tons of domestic trash to its incinerator and 400-700 tons of recycling to the recycling plant per year. Accordingly, Auburn's recycling tonnage is only 7.5% of its trash disposal tonnage. Maine law sets an annual goal of recycling or composting 50% of a municipality's solid waste.

Under EPR, the city and its waste and recycling contractors must agree to audits of the municipal waste streams by the agency governing the program. These audits will verify municipal collection and processing costs for both trash and recycling and revenue generated for each recycled commodity. This should result in increased transparency for municipal solid waste managers tracking solid waste expenses. Once implemented the

[2] Natural Resources Council Maine. Retrieved from nrcm.org: https://www.nrcm.org/sustainability/how-extended-producer-responsibility-for-packaging-will-benefit-maine/

EPR program will provide incentives for producers to make more recyclable packaging and for municipalities to separate as much recyclable packaging from the household trash as possible in order to maximize reimbursement under the program and to further invest in their solid waste programs.

B. Data management: Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

During the study period for this report, it was difficult to get data on basic aspects of Auburn's solid waste programs. This challenge was also noted in 2014 and 2020 reports to the Council on solid waste. Data is critical for setting goals and tracking continuous improvement and will be key to successful public engagement. This in turn will be key to maximizing reimbursement in the EPR program. Use of a data "dashboard" or scorecard visible to staff, elected officials and the public should help promote the program.[3]

C. Staffing: Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs, using data referenced in 1.B above. This individual could also manage other city sustainability programs.

Future EPR reimbursement will depend on coordinated efforts and compliance with EPR rules from all of the system's current parts. Staffing a coordinator position will be essential to this effort. Other Maine communities have tasked sustainability managers with this type of coordination across multiple business entities and municipal departments and achieved cost-saving efficiencies.

D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using regular data reports, targeted goals, restructured staffing, neighborhood networks, enforcement or revision of Auburn's solid waste ordinance and updates to the solid waste sections of the city's Comprehensive Plan.

"Public Engagement" involves **communication *with* the public** using social media, direct mailing, public forums, and feedback on household compliance with trash collection regulations. It also involves **communication *from* the public** regarding the quality and performance of the city's solid waste programs. Through encouragement of volunteers with an interest in the topic, to leadership from elected officials and city staff, a robust Public Engagement program would include targeted goals for increased participation in the city's recycling program and in the organic and food scrap program. Progress toward these goals could be publicly reported on the city website or in a special solid waste data dashboard.

[3] See for example: Town of Brunswick Maine Recycling Data: https://www.brunswickme.gov/270/Recycling-Data

The City should consider forming a solid waste advisory committee composed of Auburn residents, city councilors and public works or other appropriate staff to advise the council on solid waste policy. Such a committee could work with the public by conducting household surveys and listening sessions to explore alternative and less costly collection strategies for both trash and recycling.

Finally, the current Auburn solid waste ordinance requires that households separate recyclable material from city trash.[4] It also specifies limits to the weight of trash and the size of the trash container put out for weekly collection. While these regulations may represent aspirational goals to improve recycling participation rates, none of them corresponds to current practice. As the Council considers new solid waste policies the task force recommends that the solid waste ordinance be updated to align with those policies.

There are numerous **benefits** from increasing participation and adherence to the current ordinance:

- Increased sanitation and improved aesthetics on city streets
- Increased efficiency at Maine Waste to Energy (MWE): Organic and food waste diversion will reduce the weight of collected trash and therefore the tipping fees at the incinerator (food waste is both wet and heavy and diminishes the efficiency of the waste to energy process). The EPA estimates organic waste comprises 34% of the weight of domestic trash. MWE will burn better without organic and food waste.[5]
- Financial benefits to the city for improved recycling rates once EPR is in place. Increasing the number of households recycling and recycling correctly (only the right commodities in the recycling bin) will be key to increased EPR program dollars coming to Auburn.

E. Limit the duration of new **solid waste contracts** to allow for improved data collection and analysis (1.B) an evaluation of EPR (I.A), implementation of the public engagement program (1.D) and an assessment of new trash-collecting technologies, all of which will impact future city budgets and sustainability efforts.

What data is needed and who would manage it for success in the EPR program is not known and likely will not be known before the current solid waste contracts expire. Likewise alternative trash and recycling collection strategies will need further study. Should the city get back into the trash collection business? If so, should they lease trucks or buy them? These questions with large budget impacts require return on investment analysis. Long-term agreements with current solid waste contractors do not seem advisable at this time.

---

2. Domestic Trash recommendations

The challenges Auburn faces in managing solid waste in general and domestic trash in particular are not unique. These are well summarized in a January 2024 comprehensive solid waste status report from the Maine Department of Environmental Protection to the state legislature. Rising collection and processing costs for both trash and recycling coupled with shrinking disposal options are stressing municipal budgets. Statewide, generation of solid waste is increasing year over year while total diversion of trash (includes repair, reuse, recycling, composting and anerobic digestion) from landfill and incineration remains flat. The net result is more Maine trash requiring final disposal. [See Figure 1]

Maine has set a goal to limit solid waste disposal, the bottom of the inverted pyramid of the Solid Waste Hierarchy, to 0.55 tons of solid waste per person per year. [See Figure 2]

Currently the per capita rate is 0.69 tons and rising. A rough estimate for Auburn is 0.71 tons per year. [See Figure 3.]

A. Continue current service level for curbside collection of household trash.

Curbside trash collection currently is weekly, recycling is every other week. There are drop-off options for both trash (MWE), recycling (Gracelawn) and food scraps (Gracelawn and South Main Street). Having trash and recycling both collected weekly would aid in compliance and increase homeowner satisfaction given experience in other communities. Having more drop-off locations for all three waste streams for those preferring these methods would minimize driving distances and increase customer satisfaction.

B. Use bid (Request for Proposal) process to analyze feasibility and costs of various solid waste collection and diversion strategies including:

- contracted vs. city operated curbside collection.
- incentives for increased food-scrapping (4. B-F) and recycling such as limiting the size of the trash collection container.
- controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations.
- city-developed markets for collection and sale of some readily recyclable commodities

On average, Auburn collects and disposes of between 600 and 800 tons of **domestic trash** per month at a cost of roughly $46 per ton for disposal and $77 per ton for curbside collection. [See Figure 4]

Statewide median trash disposal costs are $82 per ton (collection costs not reported). [See Figure 5]

For the first four months of 2024, Auburn reported 24 tons of **recycling** per month collected at the curbside at a cost of roughly $800 per ton for collection and $106 per ton for processing (these figures are exclusive of recycling drop-off tons at Gracelawn). This is the most up-to-date information from the Auburn Public Works Department.

Trucking costs are a large portion of Auburn's solid waste budget, not surprising given the geographic size of the municipality. Collecting both trash and recycling on the same weekday in a split body truck, as Biddeford and other communities do, would limit route miles and reduce hauling cost.

Other municipalities in Maine have had success using a variety of **positive and negative incentives** to limit trash generation and increase participation rates in recycling and other diversion programs. [See Figure 6]

These incentive programs include the following:

- Trash containers that are smaller than recycling containers encourage households to separate recycling from the trash to make more room for non-recyclable trash for curbside pick-up.
- Periodic monitoring of recycling containers for contamination
- Charging for trash amounts that exceed the size of the trash bins (so-called "Pay-to-Throw")

Biddeford operates and staffs its own transfer station, open on certain days for resident-sorted recycling and food scrap drop-off and oversized bulky waste (OBW) drop-off. Access with a card swipe system limits use to Biddeford residents. The staff person ensures recycling is sorted in the proper bin limiting contamination. The card swipe identifies users by residential address and ensures that each household is abiding by limits for free OBW and special waste disposal (4 tires per year, for example).

Biddeford also collects and markets some recyclable commodities that are dropped off at the transfer station independent of what is collected by their recycling contractor.

C. Increase participation in Product Stewardship programs to divert more waste from household trash. https://www.maine.gov/dep/waste/productstewardship/index.htmls.

D. Incentivize and support existing reuse programs (thrift shops, social service agencies) for household items.

It is important not to lose sight of the other portions of the Waste Hierarchy that divert materials from the waste stream. Like the soon to be implemented EPR program there are a number of so-called product stewardship programs in existence. The most obvious and successful diversion program is the Maine bottle bill which diverts glass, plastic and metal deposit containers from disposal. There are also ongoing programs that collect electronic waste, tires, paint and lithium batteries to name a few.

The Auburn area also hosts a plethora of nonprofit donation centers and agencies that collect clothing, household goods, furniture, food and other reuseable items for gifting or reselling. These programs should be supported and promoted for their impact on waste diversion.

3. Recycling recommendations

Recycling is the process of diverting post-consumer materials that would otherwise be included in the solid waste stream and converting them into new materials and new objects. Recycling directly reduces the amount of waste that is sent to landfills and incinerators, which in turn reduces the amount of harmful chemicals that are released into the soil and air. Another environmentally significant benefit of recycling is that it conserves natural resources such as trees, minerals, and fossil fuels by *reusing* materials, including cardboard, paper, metals, and plastic. Those materials constitute a significant portion of the weight of the waste stream and increase the tipping fees charged by landfills and incinerators. Reusing these materials instead diminishes the need to harvest, mine, or extract *new* raw materials, thus conserving natural resources and reducing energy use and environmental degradation.

In addition to these well-established environmental benefits, Maine's new EPR Law will give money back to municipalities that operate robust recycling programs. Participating municipalities will in effect be subsidized by the packaging industry for operating recycling programs.

Currently, Auburn contracts with Casella to send its recyclables to Casella's Material Recovery Facility (MRF) in Lewiston. In the summer of 2023, the Council cancelled Auburn's curbside recycling program. The Council revisited the decision in late 2023 and restored the curbside recycling program.

Since restoration, the curbside recycling program has not yet returned to its precancellation tonnage but is steadily increasing. Auburn residents also have the option of dropping off their recyclables at Gracelawn and the combined tonnage of curbside and drop off recycling nearly equal precancellation levels.

To further increase recycling levels, which is vital for achieving long term solid waste reduction goals and to obtain significant future reimbursements from the State via EPR, Auburn needs to expand its public engagement efforts. The program must be well thought out and easy to comply with.

Here is a short elaboration of some of the points in our Executive Summary.

A. Auburn should initiate weekly curbside collection of recyclables.

Although curbside trash collection occurs weekly, recycling occurs only biweekly, weather permitting (see C. below). Collecting trash and recycling on the same day would eliminate residents' confusion over their biweekly recycling date. Indeed, public attendees at the Solid Waste Task Force's June 27, 2024, meeting for public comment were adamant that recycling pick-up should occur every week, on the same day that trash is picked up. Weekly curbside collection will almost certainly increase recycling participation.

Assuming the city participates in EPR as the Solid Waste Task Force recommends, the city will receive higher reimbursements for its increased recycling participation rates and tons of material recycled.

Additionally, the expense of weekly curbside collection may be significantly mitigated if the city adopts the use of automated collection trucks; Casella and other vendors now offer automated split trucks that can collect both trash and recycling at the same time. This would eliminate the separate (and redundant) recycling route currently required for biweekly curbside collection.

Lastly, weekly collection will promote compliance with Auburn's recycling ordinance which prohibits the disposal of recyclables in household trash.

B. Auburn's recycling program should include recycling of all commodities on the state EPR list.

Auburn will be eligible for funding through EPR only if its recycling program includes all commodities on the state EPR list (Elena Bertocci, Maine DEP, presentation to the task force on 6/18/2024). If the city does not recycle everything on the state list, all recycling expenses will be borne by the city. The DEP has not yet finalized the list of commodities.

C. Curbside recycling should include city-provided wheeled, lidded containers to keep recyclables dry.

According to Casella, all recyclables need to be clean and dry. Wet materials are considered contaminated and are likely brought to the landfill for disposal instead of recycled. Providing lidded recycling containers will alleviate this problem during inclement weather. Wheeled containers are easier and safer for Auburn residents to bring recycling material to the curb.

D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.

The Gracelawn drop-off site has already proven to be popular with many Auburn residents, particularly given the flexibility of anytime drop off vs. adhering to the biweekly curbside collection schedule. Gracelawn also offers food waste containers which makes it an efficient stop for residents and promotes cross-utilization of the available options.

Some cities operate recycling centers with designated containers for recycling specific items such as various plastics, metals, cardboard, paper, glass, batteries, etc. Recyclables are less likely to be contaminated where individual containers are available for depositing specific materials. In addition, presorted recyclables may command a higher price in the commodities market. Biddeford operates such a facility and directly sells its sorted recyclables to commodities dealers.

E. Create targets for increased household participation, based on analysis of data collected.

Presently Auburn has no mechanism for directly measuring the number of households that participate in biweekly curbside collection. For the period December 11, 2023, through May 24, 2024, Casella personnel performed visual inspections and prepared an estimate of the household participation rate. According to that data, the participation rate almost always exceeded 10% and frequently exceeded 13%. Significantly, these participation rates do not include the households that perform their own drop-off recycling at Gracelawn. Although neither Auburn nor Casella have computed a participation rate for the Gracelawn drop-off recycling location, the monthly tonnage of dropped off recycling is nearly as high as that generated by the curbside collection system. Based on this information, the task force conservatively estimates that the household recycling participation rate for Auburn is approximately 15% of households (including both curbside and drop-off participants and those who do both). In other words, of the roughly 9,900 households in Auburn, approximately 1,500 participate in municipally sponsored recycling.

Auburn should set a goal of increasing its recycling participation rate by at least 10% per year (or approximately 150 households) per year for at least 5 years. There are a variety of resources easily available to help City Staff and/or a Sustainability Manager establish goals, create programs to achieve them and measure progress.[6] Indeed, the State's EPR program will require municipalities to collect cost and tonnage data on their recycling operations. See discussion at Section I.B. Auburn should also consider re-establishing its citizen Recycling Committee to further help with outreach to particular neighborhoods and civic organizations.

F. Create unified messaging as part of the Public Engagement Program (I.D), with easy-to-understand instructions and advice available via social and other media.

Recycling rules can be confusing. Municipal recycling programs differ from community to community and variables include the frequency of pick up, the type of materials that will be picked up, whether the materials are to be separated or commingled, and the type of container the materials can be placed in. Most programs do not collect plastic bags, Styrofoam, soiled or wet paper, certain metals or plastics that can get entangled in the

[6] https://www.c40knowledgehub.org/s/article/How-cities-can-boost-recycling-rates?language=en_US
https://recyclingpartnership.org/small-town-america-part-in-boosting-us-recycling-rates/

recycling machinery and so-called contaminated recyclables. Even the definition of contaminated recyclables may differ between communities. Commonly it denotes wet, greasy, and unaccepted type of material.

In order to simplify the recycling process for its residents, Auburn's recycling rules should be publicized in clear and precise language, prominently communicated and readily accessible. Auburn should also develop a comprehensive Public Engagement Program as discussed in Section I.

4. Food Waste Program recommendations

In order to reduce the amount of solid waste collected and disposed of per capita Auburn needs to expand its current collection program for food scraps and other organic materials (paper towels and napkins, etc.) and work to increase citizen participation in the program. Twenty percent of the city's solid waste is food waste and 15 to 18% of the recycling is contaminated with food scraps, non-recyclable materials, or moisture.[7] An increase in the collection of Auburn's food waste and other organics would reduce the overall tonnage of our household solid waste collected. A reduction in tonnage leads to savings in disposal costs. In addition, removing food waste will improve recycling contamination rates, eliminate the source of methane generation, a very potent greenhouse gas, when Auburn's solid waste is diverted from Maine Waste to Energy to a landfill, and contribute to more efficient energy use during incineration, reducing overall costs.

Currently, Auburn's food waste collection program is contracted to Agricycle which processes the organics in an anaerobic digester to create natural gas that is captured and used for the production of electricity. Auburn should also consider implementing an additional composting program, city or contractor provided, which would allow citizens to contribute their foods scraps and other organic waste and, in exchange, receive compost for their personal use.

Recommendations to accomplish these goals are as follows.

A. Continue to offer food scraps/organic materials disposal drop off locations at Gracelawn Avenue and South Main Street. These locations are adjacent to the recycling drop off location and/or serve separate areas of the city making them convenient for some residents.

[7] Auburn Ad Hoc Recycling and Sustainability Committee. (2020). *https://www.auburnmaine.gov/CMSContent/Boards_and_Committees/Recycling%20Ad%20Hoc/Recycling%20Committee%20FINAL%20REPORT.pdf*.
Previous recycling report to Auburn City Council in 2020. Table 3, page 14 of this report compares greenhouse gas emissions for processing strategies for household solid waste depicted in the solid waste hierarchy: recycling, composting, waste to energy incineration and landfilling.

B. Add drop off bins in more accessible locations, ones that are heavily trafficked, in order to increase convenience and participation. Adding drop-off locations in areas that are adjacent to streets with major vehicular use, such as community centers (schools, Pettingill Park, etc.), or in areas that serve citizens who rely on other types of transportation, e.g. walking, will increase the visibility of the program and accessibility.

C. Include large signage, kiosks with written and pictorial information about what and what cannot be placed in the bins.
Large eye-catching signs with easily understood information will draw attention to the drop off bins and provide citizens with the type of information they need to fully utilize the program. Directional signs pointing to the locations of the drop off bins at street corners, etc. will also lead to ease of participation.

D. Provide multiple modes of communication to increase public awareness and knowledge in newspapers, on a new food waste and organics website, via fliers in schools and on community bulletin boards.

E. Include schools in the food waste collection program. Increase awareness of the program by providing mini-lessons in the classroom and enable easier participation by having Auburn's contractor pick up food waste and organics from the cafeterias. Educating the youth in our community is an important way to create habits for a lifetime and to include their families in the food waste and organics program. In addition, school cafeterias are a large source of food waste and organics. Collecting their food waste and organics will facilitate more efficient solid waste disposal and create an energy source through anaerobic digestion.

F. Incentivize food waste collection by subsidizing the cost/or purchasing backyard compost bins and/or kitchen containers for home collection of food scraps.
Other cities either provide food scrap collection bins at no cost or a reduced cost to their citizens. Providing this service would be an avenue for educating the public and highlight the city's commitment to the program at a reasonable cost.

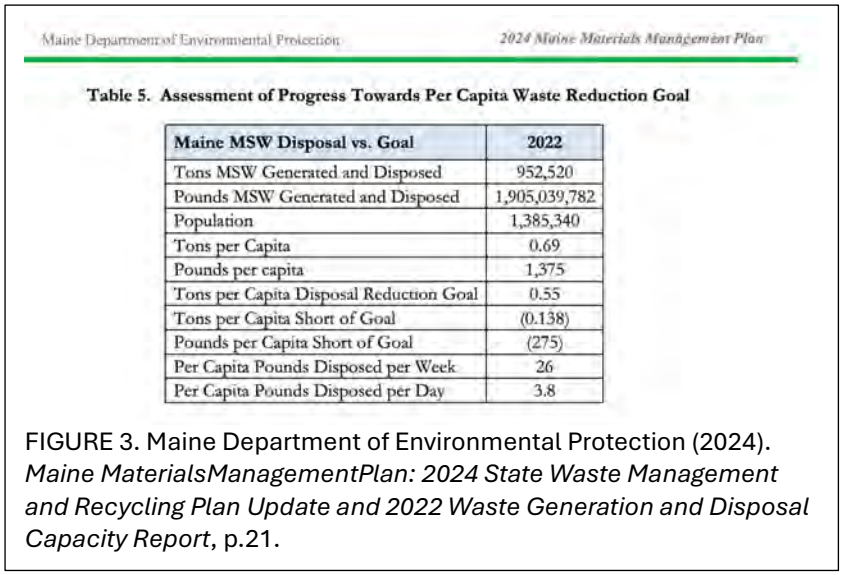

Figure 2.

Priorities. It is the policy of the State to plan for and implement an integrated approach to solid waste management for solid waste generated in this State and solid waste imported into this State, which must be based on the following order of priority: **A.** Reduction of waste generated at the source, including both amount and toxicity of the waste**; B.** Reuse of waste; **C**. Recycling of waste; **D**. Composting of biodegradable waste; **E**. Waste processing that reduces the volume of waste needing land disposal, including incineration; and **F.** Land disposal of waste. It is the policy of the State to use the order of priority in this subsection as a guiding principle in making decisions related to solid waste management. Waste reduction and diversion. It is the policy of the State to actively promote and encourage waste reduction measures from all sources and maximize waste diversion efforts by encouraging new and expanded uses of solid waste generated in this State as a resource.

SOLID WASTE & RECYCLING

Final report to the Auburn City Council

GENERAL RECOMMENDATIONS

A. **Prepare Auburn households for Maine Extended Producer Responsibility (EPR) Program.** By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.
B. **Data management:** Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.
C. **Staffing:** Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs using data referenced above (1.B). This individual could also manage other city sustainability programs.
D. **Create a robust public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using data, regular data reports, restructured staffing, revisions to the Auburn solid waste ordinance and Comprehensive Plan.
E. **Limit the duration of new solid waste contract(s)** to allow for improved data collection and analysis (1.B) and evaluation of how EPR (1.A), the public engagement program (1.D) and new trash-collecting technologies will impact future city budgets and sustainability efforts.

DOMESTIC TRASH RECOMMENDATIONS

A. **Continue current service level for curbside collection of household trash.**
B. **Use bid (RFP/Request for Proposal) process to analyze feasibility and costs of various solid waste collection and divergence strategies including:**
    - Contracted vs city operated curbside collection
    - Incentives for increased food-scrapping (IV. B-F) and recycling such as limiting the size of the trash collection container
    - Controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations
    - City-developed markets for collection and sale of some readily recyclable commodities
C. **Increase participation in Product Stewardship programs to divert more waste from household trash.**
D. **Incentivize and support existing reuse programs for household items.**

auburnmaine.gov

RECYCLING RECOMMENDATIONS

A. **Institute weekly curbside collection of recyclables.**
B. **Auburn's recycling program should include recycling of all commodities on the state EPR list.**
C. **Curbside recycling should include city-provided wheeled, lidded containers.**
D. **Keep Gracelawn open as a supplemental site, consider adding additional such sites.**
E. **Create targets for increased household participation, based on analysis of data collected (1.B).**
F. **Create unified messaging as part of the Public Engagement Program (1.D), with easy-to-understand instructions and advice available via social and other media.**

auburnmaine.gov

FOOD WASTE PROGRAM RECOMMENDATIONS

A. **Continue with Gracelawn & So. Main Street drop off locations.**
B. **Add additional drop-off location(s) in more highly traveled and accessible sites to increase convenience and participation.**
C. **Enhance drop off locations with larger signs (kiosks) that include information (pictures and writing) about what can and cannot be placed in the bins.**
D. **Use multiple modes of communication to promote the program, as part of the public engagement program (1.D)**
E. **Include schools in the food waste collection program, including mini lessons in the classrooms and picking up food waste from the cafeterias by the contractor.**
F. **Incentivize food waste collection by subsidizing the cost/or purchasing of backyard compost bins and/or kitchen compost conta**

2024 SOLID WASTE TASK FORCE | EXECUTIVE SUMMARY

Current household solid waste management contracts for the City of Auburn are expiring at the end of this year. The City Council has instructed the Sustainability and Natural Resources Board to evaluate Auburn's solid waste management system, including how household solid waste is collected, processed and disposed of. The findings in this report are intended to support the city in its writing of new solid waste agreements. An important context for these recommendations is the state's soon-to-be-launched EPR (Extended Producer Responsibility) program. In a volatile and rapidly changing market for recyclables, the Maine EPR will provide new revenue to support recycling programs and other solid waste initiatives in participating municipalities. This is an optimal moment for Auburn to re-evaluate its approach to the "recycle-recovery-disposal" sections of the waste hierarchy, pictured above.

1. GENERAL RECOMMENDATIONS

A. **Prepare Auburn households for Maine Extended Producer Responsibility (EPR) Program** [https://www.maine.gov/dep/waste/recycle/epr.html]: By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

B. **Data management:** Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

C. **Staffing:** Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs using data referenced above (1.B). This individual could also manage other city sustainability programs.

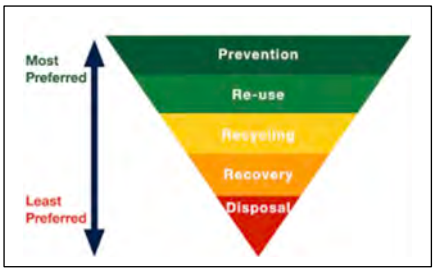
D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using data, regular data reports, restructured staffing, revisions to the Auburn solid waste ordinance and Comprehensive Plan.

E. Limit the duration of new **solid waste contract(s)** to allow for improved data collection and analysis (1.B) and evaluation of how EPR (1.A), the public engagement program (1.D) and new trash-collecting technologies will impact future city budgets and sustainability efforts.

2. DOMESTIC TRASH RECOMMENDATIONS

A. Continue current service level for curbside collection of household trash.

B. Use bid (RFP/Request for Proposal) process to analyze feasibility and costs of various solid waste collection and divergence strategies including:
   - Contracted vs city operated curbside collection
   - Incentives for increased food-scrapping (IV. B-F) and recycling such as limiting the size of the trash collection container
   - Controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations
   - City-developed markets for collection and sale of some readily recyclable commodities
C. Increase participation in Product Stewardship programs to divert more waste from household trash. [https://www.maine.gov/dep/waste/productstewardship/index.html]
D. Incentivize and support existing reuse programs for household items.



3. RECYCLING RECOMMENDATIONS

A. Institute weekly curbside collection of recyclables.
B. Auburn's recycling program should include recycling of all commodities on the state EPR list.
C. Curbside recycling should include city-provided wheeled, lidded containers.
D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.
E. Create targets for increased household participation, based on analysis of data collected (1.B).
F. Create unified messaging as part of the Public Engagement Program (1.D), with easy-to-understand instructions and advice available via social and other media.

4. FOOD WASTE PROGRAM RECOMMENDATIONS

A. Continue with Gracelawn Road and South Main Street drop off locations.
B. Add additional drop-off location(s) in more highly traveled and accessible sites to increase convenience and participation.
C. Enhance drop off locations with larger signs (kiosks) that include information (pictures and writing) about what can and cannot be placed in the bins.
D. Use multiple modes of communication to promote the program, as part of the public engagement program (1.D)
E. Include schools in the food waste collection program, including mini lessons in the classrooms and picking up food waste from the cafeterias by the contractor.
F. Incentivize food waste collection by subsidizing the cost/or purchasing of backyard compost bins and/or kitchen compost containers.

Auburn Solid Waste Task Force: Detailed Recommendations

Authority of Solid Waste Task Force to Issue Report

Ordered, that the Sustainability and Natural Resources Board will work with all relevant subcommittees with support from city staff to create a Solid Waste and Recycling plan for the City of Auburn. (partial text, City Council order January 16, 2024).[1]

Introduction

This report focuses on solid waste generated by households in Auburn. What the task force refers to in the report as the household solid waste stream is composed of domestic trash, recycling, food scraps and organic waste.

Domestic trash – waste not recycled - is collected curbside and trucked to a waste to energy incinerator in Auburn. Trash incineration generates electricity used to run the plant, with excess sold to the power grid. Incineration reduces trash volume by 80%; the ash from incineration is then trucked to the Lewiston landfill for disposal.

Recycling in this report is solid waste separated from domestic trash for special processing. Auburn's recycling is separated by homeowners for curbside or drop-off site collection and trucked to a recycling facility in Lewiston, where it is further processed and sold to brokers of recycled commodities.

Food scraps and organic waste can also be separated from trash by homeowners, taken to a drop-off site and trucked to a facility for anaerobic digestion - a process that captures gas from decomposing food and generates electricity.

Like many Maine municipalities, Auburn's current management of solid waste has evolved over time. It is a complex of component entities, geographically dispersed, with varied ownership and business models. *Do these component parts currently operate to optimally balance municipal budget impacts (taxpayer dollars) with responsible environmental*

[1] *City Council Order 14-01162024*. Retrieved from auburnmaine.gov: https://www.auburnmaine.gov/CMSContent/City_Council/Actions/0%20ORDERS%201-94%20current%20as%20of%207-15-24.pdf

stewardship? This question is timely, since Auburn is about to enter into new agreements for household trash and recycling hauling and processing.

Our investigation of these issues suggests that Auburn needs to dedicate ongoing resources for study, data collection, reorganized staffing and public involvement before writing a long-term Solid Waste Plan. Revenue to support this work is on the way, thanks to a pioneering state law [Extended Producer Responsibility, or EPR] designed to reduce the amount of packaging waste introduced to Maine and help Maine towns fund their solid waste costs. The task force recommends that Auburn negotiate shorter term commitments with its solid waste contractor(s) as it prepares for the implementation of EPR and responds to the changing environment of solid waste management.

1. General Recommendations for The Council

A. Prepare Auburn households for **Maine Extended Producer Responsibility (EPR) Program** https://www.maine.gov/dep/waste/recycle/epr.html.

Starting in 2026, EPR will charge producers of non-recyclable packaging a per ton fee based on the tonnage of such packaging sold in Maine.[2] Beginning in 2027, municipalities with established recycling programs who choose to participate will be reimbursed a per ton amount for specified packaging types (plastic, metal etc.) that are recycled. In addition, they will be reimbursed on a per capita basis for the amount of nonrecyclable packaging processed in domestic household trash. Final rules are still being written, but it is anticipated that per-ton reimbursement for recycled packaging will be higher than for nonrecyclable packaging. Reimbursement for nonrecyclable packaging sent to waste to energy incinerators, like Auburn's, will be higher than that sent to landfills.

By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

On average Auburn sends 8,000-9,000 tons of domestic trash to its incinerator and 400-700 tons of recycling to the recycling plant per year. Accordingly, Auburn's recycling tonnage is only 7.5% of its trash disposal tonnage. Maine law sets an annual goal of recycling or composting 50% of a municipality's solid waste.

Under EPR, the city and its waste and recycling contractors must agree to audits of the municipal waste streams by the agency governing the program. These audits will verify municipal collection and processing costs for both trash and recycling and revenue generated for each recycled commodity. This should result in increased transparency for municipal solid waste managers tracking solid waste expenses. Once implemented the

[2] Natural Resources Council Maine. Retrieved from nrcm.org: https://www.nrcm.org/sustainability/how-extended-producer-responsibility-for-packaging-will-benefit-maine/

EPR program will provide incentives for producers to make more recyclable packaging and for municipalities to separate as much recyclable packaging from the household trash as possible in order to maximize reimbursement under the program and to further invest in their solid waste programs.

B. Data management: Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

During the study period for this report, it was difficult to get data on basic aspects of Auburn's solid waste programs. This challenge was also noted in 2014 and 2020 reports to the Council on solid waste. Data is critical for setting goals and tracking continuous improvement and will be key to successful public engagement. This in turn will be key to maximizing reimbursement in the EPR program. Use of a data "dashboard" or scorecard visible to staff, elected officials and the public should help promote the program.[3]

C. Staffing: Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs, using data referenced in 1.B above. This individual could also manage other city sustainability programs.

Future EPR reimbursement will depend on coordinated efforts and compliance with EPR rules from all of the system's current parts. Staffing a coordinator position will be essential to this effort. Other Maine communities have tasked sustainability managers with this type of coordination across multiple business entities and municipal departments and achieved cost-saving efficiencies.

D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using regular data reports, targeted goals, restructured staffing, neighborhood networks, enforcement or revision of Auburn's solid waste ordinance and updates to the solid waste sections of the city's Comprehensive Plan.

"Public Engagement" involves **communication *with* the public** using social media, direct mailing, public forums, and feedback on household compliance with trash collection regulations. It also involves **communication *from* the public** regarding the quality and performance of the city's solid waste programs. Through encouragement of volunteers with an interest in the topic, to leadership from elected officials and city staff, a robust Public Engagement program would include targeted goals for increased participation in the city's recycling program and in the organic and food scrap program. Progress toward these goals could be publicly reported on the city website or in a special solid waste data dashboard.

[3] See for example: Town of Brunswick Maine Recycling Data: https://www.brunswickme.gov/270/Recycling-Data

The City should consider forming a solid waste advisory committee composed of Auburn residents, city councilors and public works or other appropriate staff to advise the council on solid waste policy. Such a committee could work with the public by conducting household surveys and listening sessions to explore alternative and less costly collection strategies for both trash and recycling.

Finally, the current Auburn solid waste ordinance requires that households separate recyclable material from city trash.[4] It also specifies limits to the weight of trash and the size of the trash container put out for weekly collection. While these regulations may represent aspirational goals to improve recycling participation rates, none of them corresponds to current practice. As the Council considers new solid waste policies the task force recommends that the solid waste ordinance be updated to align with those policies.

There are numerous **benefits** from increasing participation and adherence to the current ordinance:

- Increased sanitation and improved aesthetics on city streets
- Increased efficiency at Maine Waste to Energy (MWE): Organic and food waste diversion will reduce the weight of collected trash and therefore the tipping fees at the incinerator (food waste is both wet and heavy and diminishes the efficiency of the waste to energy process). The EPA estimates organic waste comprises 34% of the weight of domestic trash. MWE will burn better without organic and food waste.[5]
- Financial benefits to the city for improved recycling rates once EPR is in place. Increasing the number of households recycling and recycling correctly (only the right commodities in the recycling bin) will be key to increased EPR program dollars coming to Auburn.

E. Limit the duration of new **solid waste contracts** to allow for improved data collection and analysis (1.B) an evaluation of EPR (I.A), implementation of the public engagement program (1.D) and an assessment of new trash-collecting technologies, all of which will impact future city budgets and sustainability efforts.

What data is needed and who would manage it for success in the EPR program is not known and likely will not be known before the current solid waste contracts expire. Likewise alternative trash and recycling collection strategies will need further study. Should the city get back into the trash collection business? If so, should they lease trucks or buy them? These questions with large budget impacts require return on investment analysis. Long-term agreements with current solid waste contractors do not seem advisable at this time.

---

2. Domestic Trash recommendations

The challenges Auburn faces in managing solid waste in general and domestic trash in particular are not unique. These are well summarized in a January 2024 comprehensive solid waste status report from the Maine Department of Environmental Protection to the state legislature. Rising collection and processing costs for both trash and recycling coupled with shrinking disposal options are stressing municipal budgets. Statewide, generation of solid waste is increasing year over year while total diversion of trash (includes repair, reuse, recycling, composting and anerobic digestion) from landfill and incineration remains flat. The net result is more Maine trash requiring final disposal. [See Figure 1]

Maine has set a goal to limit solid waste disposal, the bottom of the inverted pyramid of the Solid Waste Hierarchy, to 0.55 tons of solid waste per person per year. [See Figure 2]

Currently the per capita rate is 0.69 tons and rising. A rough estimate for Auburn is 0.71 tons per year. [See Figure 3.]

A. Continue current service level for curbside collection of household trash.

Curbside trash collection currently is weekly, recycling is every other week. There are drop-off options for both trash (MWE), recycling (Gracelawn) and food scraps (Gracelawn and South Main Street). Having trash and recycling both collected weekly would aid in compliance and increase homeowner satisfaction given experience in other communities. Having more drop-off locations for all three waste streams for those preferring these methods would minimize driving distances and increase customer satisfaction.

B. Use bid (Request for Proposal) process to analyze feasibility and costs of various solid waste collection and diversion strategies including:

- contracted vs. city operated curbside collection.
- incentives for increased food-scrapping (4. B-F) and recycling such as limiting the size of the trash collection container.
- controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations.
- city-developed markets for collection and sale of some readily recyclable commodities

On average, Auburn collects and disposes of between 600 and 800 tons of **domestic trash** per month at a cost of roughly $46 per ton for disposal and $77 per ton for curbside collection. [See Figure 4]

Statewide median trash disposal costs are $82 per ton (collection costs not reported). [See Figure 5]

For the first four months of 2024, Auburn reported 24 tons of **recycling** per month collected at the curbside at a cost of roughly $800 per ton for collection and $106 per ton for processing (these figures are exclusive of recycling drop-off tons at Gracelawn). This is the most up-to-date information from the Auburn Public Works Department.

Trucking costs are a large portion of Auburn's solid waste budget, not surprising given the geographic size of the municipality. Collecting both trash and recycling on the same weekday in a split body truck, as Biddeford and other communities do, would limit route miles and reduce hauling cost.

Other municipalities in Maine have had success using a variety of **positive and negative incentives** to limit trash generation and increase participation rates in recycling and other diversion programs. [See Figure 6]

These incentive programs include the following:

- Trash containers that are smaller than recycling containers encourage households to separate recycling from the trash to make more room for non-recyclable trash for curbside pick-up.
- Periodic monitoring of recycling containers for contamination
- Charging for trash amounts that exceed the size of the trash bins (so-called "Pay-to-Throw")

Biddeford operates and staffs its own transfer station, open on certain days for resident-sorted recycling and food scrap drop-off and oversized bulky waste (OBW) drop-off. Access with a card swipe system limits use to Biddeford residents. The staff person ensures recycling is sorted in the proper bin limiting contamination. The card swipe identifies users by residential address and ensures that each household is abiding by limits for free OBW and special waste disposal (4 tires per year, for example).

Biddeford also collects and markets some recyclable commodities that are dropped off at the transfer station independent of what is collected by their recycling contractor.

C. Increase participation in Product Stewardship programs to divert more waste from household trash. https://www.maine.gov/dep/waste/productstewardship/index.htmls.

D. Incentivize and support existing reuse programs (thrift shops, social service agencies) for household items.

It is important not to lose sight of the other portions of the Waste Hierarchy that divert materials from the waste stream. Like the soon to be implemented EPR program there are a number of so-called product stewardship programs in existence. The most obvious and successful diversion program is the Maine bottle bill which diverts glass, plastic and metal deposit containers from disposal. There are also ongoing programs that collect electronic waste, tires, paint and lithium batteries to name a few.

The Auburn area also hosts a plethora of nonprofit donation centers and agencies that collect clothing, household goods, furniture, food and other reuseable items for gifting or reselling. These programs should be supported and promoted for their impact on waste diversion.

3. Recycling recommendations

Recycling is the process of diverting post-consumer materials that would otherwise be included in the solid waste stream and converting them into new materials and new objects. Recycling directly reduces the amount of waste that is sent to landfills and incinerators, which in turn reduces the amount of harmful chemicals that are released into the soil and air. Another environmentally significant benefit of recycling is that it conserves natural resources such as trees, minerals, and fossil fuels by *reusing* materials, including cardboard, paper, metals, and plastic. Those materials constitute a significant portion of the weight of the waste stream and increase the tipping fees charged by landfills and incinerators. Reusing these materials instead diminishes the need to harvest, mine, or extract *new* raw materials, thus conserving natural resources and reducing energy use and environmental degradation.

In addition to these well-established environmental benefits, Maine's new EPR Law will give money back to municipalities that operate robust recycling programs. Participating municipalities will in effect be subsidized by the packaging industry for operating recycling programs.

Currently, Auburn contracts with Casella to send its recyclables to Casella's Material Recovery Facility (MRF) in Lewiston. In the summer of 2023, the Council cancelled Auburn's curbside recycling program. The Council revisited the decision in late 2023 and restored the curbside recycling program.

Since restoration, the curbside recycling program has not yet returned to its precancellation tonnage but is steadily increasing. Auburn residents also have the option of dropping off their recyclables at Gracelawn and the combined tonnage of curbside and drop off recycling nearly equal precancellation levels.

To further increase recycling levels, which is vital for achieving long term solid waste reduction goals and to obtain significant future reimbursements from the State via EPR, Auburn needs to expand its public engagement efforts. The program must be well thought out and easy to comply with.

Here is a short elaboration of some of the points in our Executive Summary.

A. Auburn should initiate weekly curbside collection of recyclables.

Although curbside trash collection occurs weekly, recycling occurs only biweekly, weather permitting (see C. below). Collecting trash and recycling on the same day would eliminate residents' confusion over their biweekly recycling date. Indeed, public attendees at the Solid Waste Task Force's June 27, 2024, meeting for public comment were adamant that recycling pick-up should occur every week, on the same day that trash is picked up. Weekly curbside collection will almost certainly increase recycling participation.

Assuming the city participates in EPR as the Solid Waste Task Force recommends, the city will receive higher reimbursements for its increased recycling participation rates and tons of material recycled.

Additionally, the expense of weekly curbside collection may be significantly mitigated if the city adopts the use of automated collection trucks; Casella and other vendors now offer automated split trucks that can collect both trash and recycling at the same time. This would eliminate the separate (and redundant) recycling route currently required for biweekly curbside collection.

Lastly, weekly collection will promote compliance with Auburn's recycling ordinance which prohibits the disposal of recyclables in household trash.

B. Auburn's recycling program should include recycling of all commodities on the state EPR list.

Auburn will be eligible for funding through EPR only if its recycling program includes all commodities on the state EPR list (Elena Bertocci, Maine DEP, presentation to the task force on 6/18/2024). If the city does not recycle everything on the state list, all recycling expenses will be borne by the city. The DEP has not yet finalized the list of commodities.

C. Curbside recycling should include city-provided wheeled, lidded containers to keep recyclables dry.

According to Casella, all recyclables need to be clean and dry. Wet materials are considered contaminated and are likely brought to the landfill for disposal instead of recycled. Providing lidded recycling containers will alleviate this problem during inclement weather. Wheeled containers are easier and safer for Auburn residents to bring recycling material to the curb.

D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.

The Gracelawn drop-off site has already proven to be popular with many Auburn residents, particularly given the flexibility of anytime drop off vs. adhering to the biweekly curbside collection schedule. Gracelawn also offers food waste containers which makes it an efficient stop for residents and promotes cross-utilization of the available options.

Some cities operate recycling centers with designated containers for recycling specific items such as various plastics, metals, cardboard, paper, glass, batteries, etc. Recyclables are less likely to be contaminated where individual containers are available for depositing specific materials. In addition, presorted recyclables may command a higher price in the commodities market. Biddeford operates such a facility and directly sells its sorted recyclables to commodities dealers.

E. Create targets for increased household participation, based on analysis of data collected.

Presently Auburn has no mechanism for directly measuring the number of households that participate in biweekly curbside collection. For the period December 11, 2023, through May 24, 2024, Casella personnel performed visual inspections and prepared an estimate of the household participation rate. According to that data, the participation rate almost always exceeded 10% and frequently exceeded 13%. Significantly, these participation rates do not include the households that perform their own drop-off recycling at Gracelawn. Although neither Auburn nor Casella have computed a participation rate for the Gracelawn drop-off recycling location, the monthly tonnage of dropped off recycling is nearly as high as that generated by the curbside collection system. Based on this information, the task force conservatively estimates that the household recycling participation rate for Auburn is approximately 15% of households (including both curbside and drop-off participants and those who do both). In other words, of the roughly 9,900 households in Auburn, approximately 1,500 participate in municipally sponsored recycling.

Auburn should set a goal of increasing its recycling participation rate by at least 10% per year (or approximately 150 households) per year for at least 5 years. There are a variety of resources easily available to help City Staff and/or a Sustainability Manager establish goals, create programs to achieve them and measure progress.[6] Indeed, the State's EPR program will require municipalities to collect cost and tonnage data on their recycling operations. See discussion at Section I.B. Auburn should also consider re-establishing its citizen Recycling Committee to further help with outreach to particular neighborhoods and civic organizations.

F. Create unified messaging as part of the Public Engagement Program (I.D), with easy-to-understand instructions and advice available via social and other media.

Recycling rules can be confusing. Municipal recycling programs differ from community to community and variables include the frequency of pick up, the type of materials that will be picked up, whether the materials are to be separated or commingled, and the type of container the materials can be placed in. Most programs do not collect plastic bags, Styrofoam, soiled or wet paper, certain metals or plastics that can get entangled in the

[6] https://www.c40knowledgehub.org/s/article/How-cities-can-boost-recycling-rates?language=en_US
https://recyclingpartnership.org/small-town-america-part-in-boosting-us-recycling-rates/

recycling machinery and so-called contaminated recyclables. Even the definition of contaminated recyclables may differ between communities. Commonly it denotes wet, greasy, and unaccepted type of material.

In order to simplify the recycling process for its residents, Auburn's recycling rules should be publicized in clear and precise language, prominently communicated and readily accessible. Auburn should also develop a comprehensive Public Engagement Program as discussed in Section I.

4. Food Waste Program recommendations

In order to reduce the amount of solid waste collected and disposed of per capita Auburn needs to expand its current collection program for food scraps and other organic materials (paper towels and napkins, etc.) and work to increase citizen participation in the program. Twenty percent of the city's solid waste is food waste and 15 to 18% of the recycling is contaminated with food scraps, non-recyclable materials, or moisture.[7] An increase in the collection of Auburn's food waste and other organics would reduce the overall tonnage of our household solid waste collected. A reduction in tonnage leads to savings in disposal costs. In addition, removing food waste will improve recycling contamination rates, eliminate the source of methane generation, a very potent greenhouse gas, when Auburn's solid waste is diverted from Maine Waste to Energy to a landfill, and contribute to more efficient energy use during incineration, reducing overall costs.

Currently, Auburn's food waste collection program is contracted to Agricycle which processes the organics in an anaerobic digester to create natural gas that is captured and used for the production of electricity. Auburn should also consider implementing an additional composting program, city or contractor provided, which would allow citizens to contribute their foods scraps and other organic waste and, in exchange, receive compost for their personal use.

Recommendations to accomplish these goals are as follows.

A. Continue to offer food scraps/organic materials disposal drop off locations at Gracelawn Avenue and South Main Street. These locations are adjacent to the recycling drop off location and/or serve separate areas of the city making them convenient for some residents.

[7] Auburn Ad Hoc Recycling and Sustainability Committee. (2020). *https://www.auburnmaine.gov/CMSContent/Boards_and_Committees/Recycling%20Ad%20Hoc/Recycling%20Committee%20FINAL%20REPORT.pdf*.
Previous recycling report to Auburn City Council in 2020. Table 3, page 14 of this report compares greenhouse gas emissions for processing strategies for household solid waste depicted in the solid waste hierarchy: recycling, composting, waste to energy incineration and landfilling.

B. Add drop off bins in more accessible locations, ones that are heavily trafficked, in order to increase convenience and participation. Adding drop-off locations in areas that are adjacent to streets with major vehicular use, such as community centers (schools, Pettingill Park, etc.), or in areas that serve citizens who rely on other types of transportation, e.g. walking, will increase the visibility of the program and accessibility.

C. Include large signage, kiosks with written and pictorial information about what and what cannot be placed in the bins.
Large eye-catching signs with easily understood information will draw attention to the drop off bins and provide citizens with the type of information they need to fully utilize the program. Directional signs pointing to the locations of the drop off bins at street corners, etc. will also lead to ease of participation.

D. Provide multiple modes of communication to increase public awareness and knowledge in newspapers, on a new food waste and organics website, via fliers in schools and on community bulletin boards.

E. Include schools in the food waste collection program. Increase awareness of the program by providing mini-lessons in the classroom and enable easier participation by having Auburn's contractor pick up food waste and organics from the cafeterias. Educating the youth in our community is an important way to create habits for a lifetime and to include their families in the food waste and organics program. In addition, school cafeterias are a large source of food waste and organics. Collecting their food waste and organics will facilitate more efficient solid waste disposal and create an energy source through anaerobic digestion.

F. Incentivize food waste collection by subsidizing the cost/or purchasing backyard compost bins and/or kitchen containers for home collection of food scraps.
Other cities either provide food scrap collection bins at no cost or a reduced cost to their citizens. Providing this service would be an avenue for educating the public and highlight the city's commitment to the program at a reasonable cost.

FIGURES

FIGURE 1.

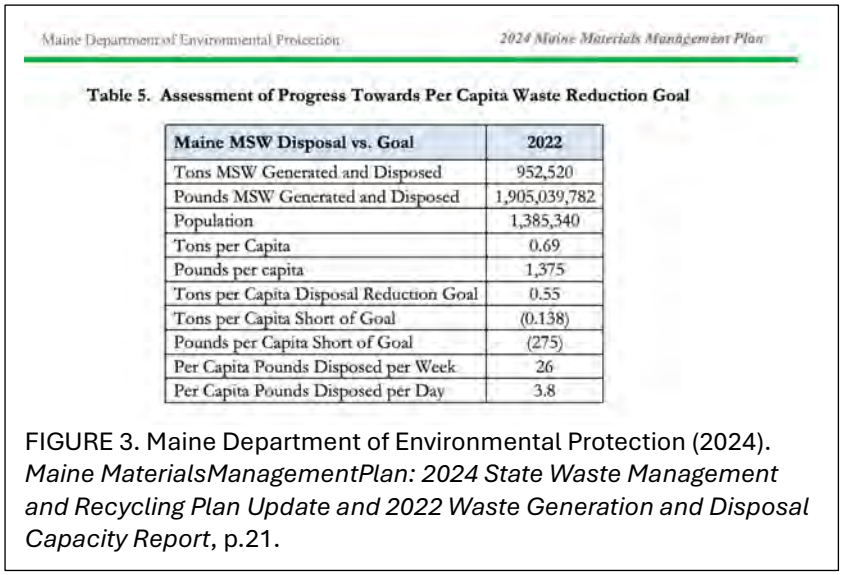

Figure 2.

Priorities. It is the policy of the State to plan for and implement an integrated approach to solid waste management for solid waste generated in this State and solid waste imported into this State, which must be based on the following order of priority: **A.** Reduction of waste generated at the source, including both amount and toxicity of the waste**; B.** Reuse of waste; **C**. Recycling of waste; **D**. Composting of biodegradable waste; **E**. Waste processing that reduces the volume of waste needing land disposal, including incineration; and **F.** Land disposal of waste. It is the policy of the State to use the order of priority in this subsection as a guiding principle in making decisions related to solid waste management. Waste reduction and diversion. It is the policy of the State to actively promote and encourage waste reduction measures from all sources and maximize waste diversion efforts by encouraging new and expanded uses of solid waste generated in this State as a resource.

SOLID WASTE & RECYCLING

Final report to the Auburn City Council

GENERAL RECOMMENDATIONS

A. **Prepare Auburn households for Maine Extended Producer Responsibility (EPR) Program.** By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.
B. **Data management:** Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.
C. **Staffing:** Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs using data referenced above (1.B). This individual could also manage other city sustainability programs.
D. **Create a robust public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using data, regular data reports, restructured staffing, revisions to the Auburn solid waste ordinance and Comprehensive Plan.
E. **Limit the duration of new solid waste contract(s)** to allow for improved data collection and analysis (1.B) and evaluation of how EPR (1.A), the public engagement program (1.D) and new trash-collecting technologies will impact future city budgets and sustainability efforts.

DOMESTIC TRASH RECOMMENDATIONS

A. **Continue current service level for curbside collection of household trash.**
B. **Use bid (RFP/Request for Proposal) process to analyze feasibility and costs of various solid waste collection and divergence strategies including:**
    - Contracted vs city operated curbside collection
    - Incentives for increased food-scrapping (IV. B-F) and recycling such as limiting the size of the trash collection container
    - Controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations
    - City-developed markets for collection and sale of some readily recyclable commodities
C. **Increase participation in Product Stewardship programs to divert more waste from household trash.**
D. **Incentivize and support existing reuse programs for household items.**

auburnmaine.gov

RECYCLING RECOMMENDATIONS

A. **Institute weekly curbside collection of recyclables.**
B. **Auburn's recycling program should include recycling of all commodities on the state EPR list.**
C. **Curbside recycling should include city-provided wheeled, lidded containers.**
D. **Keep Gracelawn open as a supplemental site, consider adding additional such sites.**
E. **Create targets for increased household participation, based on analysis of data collected (1.B).**
F. **Create unified messaging as part of the Public Engagement Program (1.D), with easy-to-understand instructions and advice available via social and other media.**

auburnmaine.gov

FOOD WASTE PROGRAM RECOMMENDATIONS

A. **Continue with Gracelawn & So. Main Street drop off locations.**
B. **Add additional drop-off location(s) in more highly traveled and accessible sites to increase convenience and participation.**
C. **Enhance drop off locations with larger signs (kiosks) that include information (pictures and writing) about what can and cannot be placed in the bins.**
D. **Use multiple modes of communication to promote the program, as part of the public engagement program (1.D)**
E. **Include schools in the food waste collection program, including mini lessons in the classrooms and picking up food waste from the cafeterias by the contractor.**
F. **Incentivize food waste collection by subsidizing the cost/or purchasing of backyard compost bins and/or kitchen compost conta**

Council Workshop or Meeting Date: August 19, 2024 **Order:** 104-08192024

Author: Kelsey Earle, Finance Director

Subject: Acceptance consideration of gifted property- Carrier Court

Information: The property owners of Carrier Court (PID 184-032) approached the City with the offer of gifting the parcel as they had acquired it when purchasing their property, but it has very little value to the owners. City staff reviewed the parcel and determined that the location between City right-of-way and MTA right-of-way were favorable reasons to accept for potential future planning.

City Budgetary Impacts: None

Staff Recommended Action: Acceptance of the gifted property.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Subject: Reallocation of Unspent Airport Appropriated Capital Funds

---

Information: The Auburn City Council appropriated $75,000 in FY2023 to the Auburn Lewiston Municipal Airport for the replacement of a hangar door on Hangar #2 (former FBO Hangar). As part of the ongoing reforms and growth at the Airport, a tenant (Dirigo Aerospace Solutions LLC) expanded from 400 square feet of hangar space to leasing the entire hangar. The tenant has made necessary repairs for the hangar door to function without issue.

To seek to deploy this local capital as efficiently as possible, the Airprot Board of Directors voted unanimously at its July 2024 meeting to request that each sponsor/city reallocate capital to support an upcoming hangar development project at the Airport. The included memo sent to City Manager Crowell and City Administrator O'Malley highlights the Board of Directors' request in more detail.

City Budgetary Impacts: No net impact, reallocation of $75,000 in Airport Capital from Hangar Door to Apron Rehabilitation and Expansion

TO: Phil Crowell, Auburn City Manager and Brian O'Malley, Acting Lewiston City Administrator
FROM: Jonathan P. LaBonte, Airport Director
RE: FY25 Capital Allocation Change Request
DATE: August 8, 2024

The Airport annually submits to the two sponsors (the Cities of Auburn and Lewiston) a capital program including current fiscal year requests. We have been slowly rebuilding the long-term capital planning efforts at the Airport and intend, with the help of the Airport Master Plan Update and MaineDOT-funded pavement assessment, to have a full five-year CIP for the FY2026 budget process. In the meantime, it is recommended that we focus on continuing to deliver on investments that improve the Airport's operations and financial position. On July 11th, the Airport Board of Directors voted unanimously to request that the Cities of Auburn and Lewiston reallocate capital from two previously approved projects to two project ready for delivery in FY2025.

The two projects currently funded by the cities that are not to be pursued are the Hangar #2 Door Repair ($75,000 per city) and the Hangar #2 Roof Repair ($30,000 – Lewiston, Auburn funding was blended with other projects). With Hangar #2 leased fully to a private business now, ongoing maintenance is the responsibility of the tenant. The hangar door has been repaired by that tenant, Dirigo Aerospace Solutions, and the Airport utilized existing staff in FY24, along with funds from the Building Maintenance budget, to make roof repairs to address leaks.

The two emergent projects are the expansion of the aircraft apron near the Cold Storage/WWII hangar and the purchase of a new truck for our Operations team.

The Airport entered into a joint development agreement with Fielding Properties LLC for their development of a box hangar site next to the Cold Storage Hangar off Flight Line Drive. This agreement allowed the airport to co-invest to secure three additional, pre-approved, pre-permitted box hangar sites to list for land lease. To prepare to move to construction as the planning process concludes, the Airport requests that both cities re-allocate funding for the expansion of the apron in front of the Cold Storage Hangar. The Airport will leverage the pavement maintenance funding from both cities in FY25 to reconstruct the apron in front of Cold Storage at the same time and achieve some economies of scale.

The current 2007 Silverado truck cannot secure a sticker and leaves Airport staff needing to use personal vehicles to trailer equipment to vendors or to secure parts/supplies off-site. We are also limited in bringing guests/customers to different areas of the Airport given the condition of this truck. Unlike in previous years, there is strong confidence in the care given to our equipment by our maintenance team, and investing in a quality truck for their use is a priority.

In advance of FY2026, we should have completed or have awarded contracts for the outstanding CIP (through FY2024) items and will prioritize reallocation of any unexpended capital dollars before requesting additional, recognizing the fiscal challenges ahead for each of our sponsors.

FY25 Capital Improvement Program
Project Description Form

Project Title: **Hangar Development Site Work**

Operational Funding Division: Auburn Lewiston Municipal Airpo **Project Name:**

Est. Total Cost FY25:	150,000	**Est. Total Cost FY25-FY29:**	150,000
City Share FY25:	75,000	**City Share FY25-FY29:**	75,000

Project Description:
The Airport Board of Directors has entered into a public private partnership to advance the construction of up to four additional private box hangars on the west ramp of the Airport (along Flight Line Drive). This project will fund expanded pavement south of the apron at the Cold Storage/WWII Hangar. There will also be utility expansion to serve the additional sites so they will be shovel ready (gas, water, sewer, electrical, communications).

Consistency with the Comprehensive or Strategic Plans or other related planning documents:
The Airport's previous plans, and early understanding in the current Master Plan process confirms a need for expanded aircraft storage capacity. Private hangars are the preferred means to increased based-aircraft, as the Airport will generate land lease income as well as increased fuel sales and other business activity. The path to financial sustainability hinges on increase aviation activity and based tenants.

Justification for project implementation/construction and segments, if applicable:
The Airport has a current investor ready to construct on the first of four box hangar sites. The Airport is seeking the ability to leverage previous city allocated capital to advance this project in the current fiscal year. The Airport will cost share with the initial investor for this project. The Airport will NOT be proceeding with the hangar door project, as we have fully leased this building to a private business. The Board has voted unanimously to request both cities reallocate that capital to deliver this project in FY25.

Future maintenance costs if known, including contracts and special service requirements:
The Airport will integrate this added pavement into our pavement maintenance capital program under development with MaineDOT during this fiscal year.

How were cost estimates obtained and expenditure commitment:
Preliminary estimates from design engineers working on project permitting.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: **August 19, 2024** **Order:** 106-08192024

Author: Eric J. Cousens, Planning & Permitting Director

Subject: Defining and initiating the appointment process for the Comprehensive Plan Committee and directing the City Manager to provide staff support for selecting a consultant, the planning process and provide facilities for meetings.

Information: The City Council approved funding to draft an updated comprehensive Plan for the City in the FY 25 Budget. This Order defines the committee selection process and membership and directs the City Manager to provide staff support for selecting a consultant, the planning process and provide facilities for meetings. Staff is already working on a draft RFP for consultant services and that will be ready in early September. The first step of adopting the attached order will allow the committee selection process to begin while the RFP for services is completed and then allow for work on the plan to start this fall.

City Budgetary Impacts: Comprehensive Plan Update funding is approved and we are implementing the Councils budget directive.

Staff Recommended Action: Staff recommends that the Council initiate the process for the proposed committee by adopting this order to begin the process.

Previous Meetings and History: Council Budget process.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments:
Proposed Committee directive, Order to adopt

Comprehensive Plan Committee Membership

- The mayor (voting member)
- Up to two city councilors, appointed by the City Council (voting members)
- Up to two members of the Planning Board, nominated by the Planning Board and appointed by the City Council (voting members)
- Up to 10 residents of Auburn, who are not a member of the City Council or Planning Board, including at least one resident residing in each Ward, nominated by the Appointment Committee and appointed by the City Council (voting members)
- Up to two residents of the State of Maine who have expertise in municipal comprehensive or master planning and/or land use regulation, nominated jointly by the Mayor and City Manager and appointed by the City Council (voting if an Auburn resident, non-voting if not an Auburn resident)
- The city manager (non-voting)
- The assistant city manager (non-voting)

Comprehensive Plan Committee Schedule

- Nominations for members of the Comprehensive Plan Committee shall be forwarded to the City Council within 35 days of the enactment of this order.
- The Comprehensive Plan Committee shall meet within 30 days of the enactment of the order confirming nominated members to the Comprehensive Plan Committee.
- The Comprehensive Plan Committee shall elect, from their voting membership, a chairperson and a vice-chairperson at their first meeting.
- The Comprehensive Plan Committee shall submit a draft comprehensive plan to the Planning Board for their review within 12 months of the Committee's first meeting.
- The Planning Board shall review the draft comprehensive plan and submit their recommendations regarding the draft plan to the City Council within 65 days of receipt of the draft plan from the Comprehensive Plan Committee.

Comprehensive Plan Committee Charge

- Shall prepare a comprehensive plan and implementation strategies in compliance with 30-A MRSA Chapter 187, Subchapter 2.
- Shall review the current zoning district regulations and zoning maps and prepare recommendations for revised zoning district regulations and maps.
- Shall review all relevant local municipal information related to the comprehensive planning process including but not limited to maps, data, capital plans, city services, inventories, and analysis.

Directive to City Manager

- The city manager shall provide staff support and meeting facilities to the Comprehensive Plan Committee.
- The city manager shall provide subject matter experts from the city staff to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall develop a request for proposal to secure the services of a comprehensive planning consultant to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall create a proposal review committee to review the responses from the consultants to the RFP, and to select a successful proposer, which includes an equal number of city staff and members of the Comprehensive Plan Committee.

ORDER 106-08192024

City Council Order

IN CITY COUNCIL

Ordered, that the Auburn City Council adopt the attached Membership, Schedule, Charge and Directive defining and initiating the appointment process for the Comprehensive Plan Committee and directing the City Manager to provide staff support for selecting a consultant, the planning process and to provide facilities for meetings.

City Council Information Sheet

Council Workshop or Meeting Date: August 19, 2024 **Public Hearing**

Author: Glen E. Holmes, Director of Business & Community Development

Subject: CDBG Action Plan Amendment for Program Year 2024

Information:
Each year the Business & Community Development Department presents the Annual Action Plan, detailing the use of Auburn's CDBG funds. This plan is designed to address community needs as detailed in the 5 year Consolidated Plan which was adopted in 2020.

This amendment is intended to reallocate available funds to address the identified commuinity needs outlined within the amendment. This Public Hearing will accompany a 30 day public comment period prior to the submittal of the amended plan to the U.S. Department of Housing & Urban Development.

City Budgetary Impacts:
Funds included within this budget are covered by grants provided by the U.S. Department of Housing and Urban Development. This includes projects, activities and related staff time administering programs.

Staff Recommended Action:
Hold Public Hearing.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
Program Year 2024
Revised ACTION PLAN and BUDGET

The City of Auburn is amending its PY24 Action Plan with the U. S. Department of Housing and Urban Development (HUD). This Action Plan revision is in response to emergent community needs described in detail below. These new CDBG funded activities still meet and advance the goals and objectives set forth in the Auburn 2020-2024 Consolidated Plan.

2020-2024 CONSOLIDATED PLAN

The City of Auburn has adopted a 2020-2024 Consolidated Plan for the Community Development Block Grant (CDBG) Program and the HOME Investment Partnerships (HOME) Program which includes both the City of Auburn and Lewiston. The Consolidated Plan identifies many community challenges, establishes priorities, and describes how Community Development resources will address these needs. Although this plan was adopted prior to Covid-19 and many housing-related crises, these amendments still meet the original four goals:

Goal 1: Provide Safe & Affordable Housing
Goal 2: Improve Infrastructure & Reduce Blight
Goal 3: Promote Economic Opportunities
Goal 4: Provide Essential Services

2024 FUNDING

Funding for the Community Development Program is derived from Community Development Block Grant and HOME Investment Partnerships Program allocations for both Auburn and Lewiston. These yearly allocations are supplemented by their respective program income derived from current loan principal paybacks expected within the program year and unspent funds carried over from previous years. Allocations are presented as indicated on our FY24 allocation letter from HUD and internal reports designating available program income and available carryover funds.

Annual Community Development Block Grant Funds: The proposed budget for FFY2024 is $1090,629 from the following sources of Community Development funds:

CDBG Allocation	$508,342
Anticipated Program Income	$100,000
Carry Over Funds	$482,287

DRIVERS OF CHANGE

After the adoption of the PY24 Action Plan there were three substantial changes which predicate the modification of the annual budget. By amending the CDBG budget the city will be better able to respond to the changing needs of the community.

a. **Winter Oaks PRO Housing Grant application:** On June 26, 2024 staff received final notice that the pending $9.5 Million PRO Housing grant application for the Winter Oaks project was not funded. In October 2023 the City Council approved a plan and grant application to develop a sizable portion of city owned property into a mixed income housing development. In the approved PY24 budget is funding for the master planning services needed to begin surveying and engineering this development. These funds are proposed to be reallocated to another project.
b. **Auburn Resource Center:** On July 1st, 2024, the City Council approved the use of the city owned building located at 121 Mill St to be repurposed into a community resource center. During this planning process and proposal staff was working with Maine State Housing Authority (MSHA) to utilize $250,000 of Community Solutions Grant funds which the city was already awarded for the Accessory Dwelling Unit Development program do develop a portion of this building for use by non-profit partners to deliver housing services.
c. **MSHA Funding Determination:** On July 2, 2024, MSHA informed staff that the funding from the Community Solutions Grant, or other funding from MSHA, would not be available to use on the development of the Auburn Community Resource Center.

FUND Re-ALLOCATION

Considering the changes itemized above the Community Development Department is seeking to re-allocate available funding within the PY24 budget funded by the U.S. Department of Housing & Urban Development from the previously presented Winter Oaks & Spot blight activities towards the redevelopment and build-out of the Auburn Community Resource Center located at 121 Mill St.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: August 19, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss the City Manager's annual review.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
Agenda
September 3, 2024
Auburn Hall, Council Chambers

5:30 PM Workshop

- Review of Updates to Chapter 12 Article IV. Property Maintenance and Housing Code
- Blasting Ordinance Review
- Washington Street Safety Measure Options

7:00 PM Meeting

Pledge of Allegiance & Roll Call - *Roll call votes will begin with Councilor Gerry*

I. **Consent Items –** *All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda. Passage of items on the Consent Calendar require majority vote.*

1. ORDER 107-09032024* – Confirming Chief Moen's appointments of Constable without firearms/arrest powers for the Auburn Police Department and Constable with firearm/arrest powers within the City of Auburn.

- Presentation regarding recent tax bills

IV. **Open Session –** *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. **Unfinished Business**

VI. New Business

1. **ORDER 108-09032024 –** Initiating Planning Board review of proposed zoning amendments to the Lake Auburn Watershed Overlay District related to Agriculture and Forestry. *Passage requires majority vote.*

2. **ORDER 109-09032024 –** Authorizing the City Manager to execute a lease of City owned Property to Auburn Riverwalk, LLC. *Passage requires majority vote.*

VII. Reports

a. Mayor's Report
b. City Councilors' Reports
c. Student Representative Report
d. City Manager Report

VIII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

IX. Executive Session – *Requires 3/5 majority vote to enter executive session.*

1. Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) for an economic development matter. *No action to follow.*
2. Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) for City Manager's Annual Evaluation. *Possible action to follow.*

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 3, 2024

Author: Kris Beaudoin, Code Compliance Team Leader

Subject: Chapter 12 Article IV.- Housing Code, ordinance update

---

Information: Updates to Chapter 12 Article IV. Housing Code to clarify it's applicability to all building types and address challenges with vacant buildings. The proposed amendments include the addition of a definition for vacant buildings, requirements specific to vacant buildings, and the addition of language in Division 2 expanding inspection areas to vacant buildings and structures utilized for the purpose of conducting business. The proposed changes to the ordinance will clarify the applicability of standards to vacant and non-residential buildings and expand the enforcement ability of staff on vacant buildings.

City Budgetary Impacts: None-easier enforcement

Staff Recommended Action: Consider the recommended text changes and direct staff to schedule it for initiation at an upcoming council meeting. If initiated by the Council, it would return to the Council for the mandatory two readings with one as a public hearing.

Previous Meetings and History: None

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Draft Chapter 12 Article IV. document outlining changes.

ARTICLE IV. PROPERTY MAINTENANCE AND HOUSING CODE

DIVISION 1. GENERALLY

Sec. 12-145. Purpose.

The purpose of this article is to establish minimum standards for all ~~dwellings~~ buildings and ~~property~~ incident thereto in the city to ~~insure~~ ensure safety, health, and public welfare through the proper construction, maintenance, and use thereof.

(Code 1967, § 20-A(1.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-146. Definitions and rules of construction.

(a) The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Basement means that portion of a building below the first floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Chief of police means the legally designated head of the police department of the city or his authorized representative.

Dwelling or *dwelling unit* means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Extermination means the control and elimination of insects, rodents, or other pests by eliminating their harborage places; by removing or making inaccessible materials that may serve as their food; by poisoning, spraying, fumigating, trapping; or by any other recognized and legal pest elimination methods approved by the health officer.

Fire chief means the legally designated head of the fire department of the city or his authorized representative.

Garbage means the animal and vegetable waste resulting from the handling, preparation, cooking, and consumption of food.

Habitable room means a room or enclosed floor space used or intended to be used for living, sleeping, cooking or eating purposes excluding bathrooms, water closet compartments, laundries, pantries, game rooms, foyers or communicating corridors and permanent built-in closets and storage spaces.

Health officer means the legally designated health authority of the city or his authorized representative.

Infestation means the presence or evidence of the presence within or around a dwelling, of any insects, rodents, or other pests.

Manufactured housing means a structural unit or units designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site, the term includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. Manufactured housing shall include newer mobile homes and modular homes as defined in city zoning regulations.

Mobile homes, older, means any factory-built home that fails to meet the definition of manufactured housing and more specifically, any mobile home constructed prior to June 15, 1976. These units shall be restrict to location in approved mobile home parks.

Mobile home park means a parcel of land under single ownership in rural residence, suburban residence and cluster development districts that has been planned and improved for the placement of not less than three mobile homes for non-transient use.

Multiple dwelling means any dwelling containing more than three dwelling units.

Occupant means any person over one year of age, living, sleeping, cooking, or eating in, or having actual possession of, a dwelling unit or rooming unit.

Operator means any person, who has charge, care or control of a building or part thereof, in which dwelling units or rooming units are rented or let or of an area where spaces are rented or let for mobile homes.

Owner means any person who, alone or jointly or severally with others, has legal title to any dwelling or dwelling unit, with or without accompanying actual possession thereof, or has charge, care or control of any dwelling or dwelling unit, as owner or agent of the owner, or an executor, executrix, administrator, administratrix, trustee, or guardian of the estate of owner. Any such person thus representing the actual owner shall be bound to comply with the provisions of this chapter to the same extent as if he were the owner.

Paint stabilization means repairing any physical defect in the substrate of a painted surface that is causing paint deterioration, removing loose paint and other material from the surface to be treated, and applying a new protective coating or paint to the affected areas.

Plumbing means all of the following supplied facilities and equipment: gas pipes, gas-burning equipment, water pipes, garbage disposal units, waste pipes, water closets, sinks, installed dishwasher, lavatories, bathtubs, shower baths, installed clothes washing machines, catch basins, drains, vents , and any other similar supplied fixtures, together with all connections to water, sewer or gas lines.

Rooming house means any dwelling, or that part of any dwelling, containing one or more rooming units, in which space is let by the owner or operator to four or more persons who are not husband or wife, son or daughter, mother or father, or sister or brother of the owner or operator.

Rooming unit means any room or group of rooms forming a single habitable unit used or intended to be used for living, and sleeping, but not for cooking or eating purposes.

Rubbish means combustible and non-combustible waste materials except garbage, including, without limitation, residue from the burning of wood, coal, coke, or other combustible material, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery, dust and others.

Structural elements means all of the following components of a structure, including but not limited to: foundation, framing, sheathing, siding, roofing material, windows, doors, trim, eaves, porches, stairs, railings, guards; and interior surfaces such as sheetrock, plaster, ceiling tiles, countertops, and floors.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations but not to exceed 30 days.

Supplied means paid for, furnished, installed or provided by or under the control of the owner or operator.

Temporary housing means any tent, trailer, or other structure used for human shelter that is designed to be transportable and which is not attached to the ground, to another structure, or to any utilities system on the same premises for more than 30 consecutive days.

Vacant building means any building that is unoccupied, unattended, and is not actively used as a place of residence or business or is frequently open or unsecured so that unauthorized entrance may be gained.

(b) Whenever the words "dwelling," "dwelling unit," "lodging house," "rooming unit," or "premises" are used in this article, they shall be construed as though they were followed by the words "or any part thereof."

(Code 1967, § 20-A(art. V); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-147. Compliance required.

(a) No dwelling or dwelling unit shall be deemed to conform with the requirements of this article until it meets all of the minimum standards of this article as specified herein.

(b) It is unlawful to construct, alter, maintain, occupy, let for occupancy, or use a building or structure, or part thereof, in violation of the provisions of this article.

(Code 1967, §§ 20-A(1.2), 20A(1.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-148. Validity of other laws.

Nothing in this article shall be construed to prevent the enforcement of other laws that prescribe more restrictive limitations.

(Code 1967, § 20-A(1.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-149. Exceptions permitted.

In seasonal dwellings, mobile homes, buildings erected prior to the original adoption of this article, or in agriculture and resource protection district as defined by the zoning provisions of the city, or in areas where public water or sewerage systems are not available, the code compliance officer shall upon application grant an exception for the use of buildings for dwelling purposes that do not meet the minimum standards set forth in this article when he determines that:

(1) It is not feasible or practicable to comply with such minimum standards;

(2) The safety, health, or general welfare of the occupants and the public will not be adversely affected; and

Formatted: List 1

Formatted: Indent: Left: 0", First line: 0"

(3) The effect of the granting of the exception will not adversely affect adequate light, air, overcrowding, of persons or property, the provision for public utilities, the character of the neighborhood, or traffic conditions as applied to the welfare of the occupants or the general public.

(Code 1967, § 20-A(1.6); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-150. Procedure for granting exceptions.

(a) The code compliance officer shall issue such exception in writing setting forth the date of granting, the reasons for granting the same, the date it shall expire, and the location of the premises.

(b) No such exceptions shall be granted for a period of more than five years. Any exception may be renewed one or more times, upon application to the board of appeals. Each renewal shall not exceed additional periods of five years for such renewal. Each renewal shall contain the requirements of the original exception and in addition thereto the date of issuance of the original exception and the statement that it is a renewal.

(Code 1967, § 20-A(1.7); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-151—12-169. Reserved.

DIVISION 2. INSPECTIONS

Sec. 12-170. Authority of code compliance officer.

The code compliance officer ~~,~~ is hereby authorized to make inspections to determine the condition of vacant buildings, structures used for the purpose of conducting business, dwellings, dwelling units, rooming houses, rooming units and premises located within this city in order that ~~he~~ the code compliance officer may perform ~~his~~ their dut~~y~~ies of safeguarding the health and safety of the occupants of dwellings and of the general public.

(Code 1967, § 20-A(2.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-171. Right of entry for inspection.

For the purpose of making such inspections, the code compliance officer is hereby authorized to enter, examine, and survey any or all vacant buildings, buildings and structures used for the purpose of conducting business, dwelling units, rooming houses, rooming units, and premises at any mutually agreeable time but in any case within 20 days of notice to the owners or occupant of the intention to make such an inspection.

(Code 1967, § 20-A(2.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-172. Owner and occupant to give free access.

(a) *Access of code compliance officer.* The owner and occupant of every dwelling, dwelling unit, lodging house and rooming unit or the person in charge thereof, shall give the code compliance officer free access to such dwellings, dwelling unit, lodging house or rooming unit and premises at any mutually agreeable time for the

purpose of such inspection, examination, or survey, but in any case within 20 days of notice to the owner or occupant of the intention to make such an inspection, examination, or survey.

(b) *Access of owner.* Every occupant of a dwelling, dwelling unit, lodging house and rooming unit shall give the owner, and his agent or employee, access at all reasonable times to any part of the dwelling, dwelling unit, lodging house, rooming unit or premises for the purpose of compliance with the provisinos of this article or any lawful order issued pursuant to this article.

(Code 1967, §§ 20-A(2.3), 20-A(2.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-173—12-194. Reserved.

DIVISION 3. ENFORCEMENT

Sec. 12-195. Procedure generally.

(a) If the code compliance officer determines that there are reasonable grounds to believe that there has been a violation of any provisions of this chapter, he shall initiate enforcement proceedings in accordance with the citation system established in this Code. Alternatively, he may initiate a land use complaint pursuant to state law, in which case the penalties therein provided shall apply.

(b) Any notice issued pursuant to this article shall:

(1) Be in writing;

(2) Include a statement of the reasons why it is being issued;

(3) Set a reasonable time for the performance of any act it requires;

(4) Be served upon the owner or his agent, or the occupant, as the case may require; provided, however, that:

a. Complaints under this article be deemed properly served upon such owner or agent or upon such occupant if a copy thereof is served upon him personally or by leaving a copy thereof at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein; or

b. If a copy thereof is sent by registered or certified mail to his last known address or the address as shown on the records in the tax assessor's office of the city of auburn; and

c. If service is made personally or by leaving at his dwelling house or usual place of abode a statement signed by the person so serving stating the date of service shall be filed in the office of planning and development.

(5) May contain an outline of remedial action that, if taken, will effect compliance with the provision of this article.

(c) After service of such notice, the owner or occupant to whom it is directed shall correct the condition constituting the violation within the time specified and promptly give notice to the code compliance officer that such corrective action has been taken.

(Code 1967, § 20-A(3.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-196. Method of petitioning for hearing.

(a) Any person affected by any notice issued in connection with the enforcement of any provision of this article, may request and shall be granted a hearing on the matter before the board of appeals; provided that such person shall file in the office of the board of appeals a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within ten days after the day the notice was served.

(b) Upon receipt of such petition, the board of appeals shall set a time and place for such hearing and shall give the petitioner notice thereof in person or by mail.

(c) At such hearing, the board of appeals shall take evidence to determine whether such notice should be sustained, modified, or withdrawn.

(d) The hearing shall be commenced not later than 30 days after the day on which the petition was filed; provided that upon application of the petitioner the board of appeals may postpone the date of the hearing for a reasonable time beyond such 30 day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement.

(Code 1967, § 20-A(3.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-197. Power of board of appeals to alter notice.

After such hearing, the board of appeals shall sustain, modify, or withdraw the notice, depending upon its findings as to the compliance with the provisions of this chapter. If the board of appeals sustains or modifies such notice, it shall be deemed to be an order. Any notice served pursuant to this article shall automatically become an order if a written petition for a hearing is not filed in the office of the board of appeals within ten days after such notice is served. There shall be an appeal from the board of appeals to the superior court in the manner provided by state law.

(Code 1967, § 20-A(3.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-198. Recording of public hearing.

The proceedings at such hearing, including the findings and decision of the board of appeals, shall be summarized, reduced to writing, and entered as a matter of public record in the office of the board of appeals. Such record shall also include a copy of every notice or order issued in connection with the matter.

(Code 1967, § 20-A(3.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-199. Notice of intent to sell, transfer or rent property subject to order.

(a) *When required.* Any person who proposes to sell, transfer or otherwise dispose of lease or sublet any dwelling unit, lodging house, rooming unit, or other premises against which there is any existing lawful order of the code compliance officer, the board of appeals or any court of competent jurisdiction shall furnish the proposed grantee or transferee a true copy of such order and shall notify the office of planning and development in writing of the intent to so sell, transfer, or otherwise dispose of lease or sublet in writing giving the name and address of the person to whom such transfer is proposed within three days of the proposed transfer.

(b) *Penalty.* Any person who violates the terms of this section shall be in violation of this chapter and shall be subject to a penalty or fine of not less than $50 and not more than $100 to be enforced by complaint in a court of competent jurisdiction.

(Code 1967, § 20-A(3.5); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-200. Placarding of buildings unfit for human habitation.

(a) *Authority of code compliance officer.* If the person so affected fails to appeal to the board of appeals or if after an appeal, the board of appeals sustains the decision of the code compliance officer, the dwelling, dwelling unit, lodging house, or rooming unit so affected may be declared unfit for human habitation and placarded by the code compliance officer.

(b) *Procedure.* To placard, the code compliance officer shall issue to the occupants and the owner or operator a written notice to vacate the premises within such time as the code compliance officer may deem reasonable, but not less than seven days, and a placard prohibiting continued occupancy or re-occupancy may be conspicuously posted on the premises, and a copy of such notice may be filed with the police department.

(c) *Use of placarded buildings prohibited.* No dwelling or dwelling units, lodging house, or rooming unit which has been placarded as unfit for human habitation shall again be used for human habitation until written approval is secured from, and such placard is removed by, the code compliance officer. The code compliance officer shall remove such placard whenever the defect or defects upon which the placarding action is based have been eliminated.

(d) *Defacement and removal of placard prohibited.* No person shall deface or remove the placard from any dwelling or dwelling unit, lodging house or rooming unit, which has been declared unfit for human habitation and placarded as such.

(Code 1967, § 20-A(3.6); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-201. Order to vacate dangerous premises.

In instances where the health officer, fire chief, and chief of police, or their duly qualified deputies, determine in writing that extreme danger or menace to the occupants or the public health exists, the code compliance officer, health officer, fire chief, and chief of police, or their duly qualified deputies may order immediate correction to be made or, if the circumstances warrant, may order that the occupants vacate the premises as provided in this article.

(Code 1967, § 20-A(3.7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-202—12-224. Reserved.

DIVISION 4. MINIMUM STANDARDS

Sec. 12-225. Compliance with city codes and state law required.

All structures and structural elements of buildings and the construction, use and occupancy thereof shall be in accordance with the requirements of this Code, including the building and technical codes adopted by the city, and with state law and regulations.

(Code 1967, §§ 20-A(6.1), 20-A(12.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-226. Maintenance.

(a) All structures and structural elements shall be maintained structurally sound, in good repair, hazard free and suitable for the intended use.

(b) All painted exterior surface areas of pre 1978 properties must be maintained in a manner to not cause a public nuisance or affect the health and safety of the occupants of the property where the condition exists or of surrounding properties. Paint stabilization must occur if the potential for such a condition exists.

(Code 1967, § 20-A(6.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-227. Plumbing.

Every dwelling unit shall contain a kitchen sink and a bathtub or shower. In addition, every dwelling unit shall contain, within a room which affords privacy, a flush water closet and a lavatory basin. All plumbing facilities required by this Code shall be in accordance with the requirements of the plumbing code adopted by the city as of date of installation and maintained in good sanitary working condition; water-related plumbing facilities required by this Code shall be connected to adequate supply of water.

(Code 1967, § 20-A(art. 7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-228. Heating and ventilation.

(a) *Maintenance.* All heating and ventilating facilities shall be maintained in safe operating condition for use without danger of asphyxiation or of overheating combustible material.

(b) *Requirements when central heating plant not available.* When heat is not furnished by a central heating plant, each dwelling unit or rooming unit shall be provided with one or more masonry flues and smoke or vent pipe connections, or equal arrangement, in accordance with the provisions of the basic building code to permit the use of heating equipment capable of providing heat as required by this section.

(c) *Heating facilities required in rented or leased premises.* Every habitable room, let for occupancy, shall be served by heating facilities capable of providing a minimum temperature of at least 68 degrees Fahrenheit, at a distance of three feet from the exterior walls, five feet above floor level, as required by prevailing weather conditions. In addition, the heating facilities must be operated to protect the building equipment and systems from freezing.

(d) *Window specifications.* Every habitable room shall have a window or windows with a total sash area equal to at least eight percent of its floor area opening on a street, alley, yard, or court open to the sky and constructed and maintained so that at least one-half of the sash area can be opened, except that an approved method of mechanical ventilation may be substituted for such window or windows

(Code 1967, § 20-A(art. 8); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-229. Electrical and lighting.

All lighting and other electrical facilities shall be in accordance with the requirements of the electrical code adopted by the city and shall be maintained in good, safe and suitable electrical order.

(Code 1967, §§ 20-A(9.1), 20-A(9.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-230. Passageways, stairways and exits.

(a) *Exits.* Every dwelling unit and every rooming unit shall have safe, continuous and unobstructed means of egress leading from the interior of the building to safe and open spaces at ground level in accordance with applicable statutes and ordinances.

(b) *Lighting.* Every passageway and stairway shall have at least one ceiling-type or wall-type electric light fixture adequate to provide safe passage.

(c) *Obstructions.* Every hallway, stairway, corridor, exit, fire escape door or other means of egress hall be kept clear of obstructions at all times.

(Code 1967, §§ 20-A(9.3), 20-A(12.3), 20-A(12.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-231. Garbage and rubbish.

(a) *Method of disposal.* Every responsible occupant of a dwelling or dwelling unit shall dispose of all his garbage and rubbish in a clean and sanitary manner. Every owner of rental property shall provide his tenants with suitable waste containers as required by city ordinance.

(b) *Accumulations prohibited.* Every dwelling shall be clean and free from garbage or rubbish. When a dwelling or dwelling unit is not reasonably clean or free from garbage or rubbish, the code compliance officer may cause the responsible person to put the dwelling or dwelling unit in a clean and sanitary condition.

(Code 1967, § 20-A(10.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-232. Insect and rodent control.

(a) *Owner responsible for extermination in multiple dwellings.* If infestation exists in two or more of the dwelling units in any dwelling, or in the shared or public parts of any dwelling containing two or more dwelling units, extermination thereof shall be the responsibility of the owner.

(b) *Occupant responsible for extermination.* Every occupant of a dwelling containing a single dwelling unit shall be responsible for the extermination of any insects, rodents, or other pests therein or on the premises.

(Code 1967, § 20-A(10.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-233. Space and occupancy.

(a) *Floor space requirements.* The total area of every dwelling unit shall contain at least 250 square feet of floor area, with an additional 125 square feet for each occupant over two.

(b) *Ceiling height.* At least one half of the floor area of every habitable room shall have a room ceiling height of at least 7 feet; and the floor area of that part of any room where the ceiling height is less than five feet shall not be considered as part of the floor area in computing the total floor area of the room for the purpose of determining the maximum permissible occupancy thereof.

(c) *Use of basement.* No basement space shall be used as a habitable room or dwelling unit unless it conforms to the minimum requirements of this article.

(Code 1967, § 20-A(art. 11); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-234. Dwelling occupancies prohibited adjacent to hazardous establishments.

No dwelling unit or rooming unit shall be located within a building containing any establishment handling, dispensing or storing flammable liquids or producing toxic gases or vapors in any quantity that may endanger the lives or safety of the occupants.

(Code 1967, § 20-A(12.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-235. Vacant Buildings.

(a)~~(a)~~ All vacant buildings shall be weather- protected from the elements to prevent deterioration of the interior and exterior of the building.

(b) All vacant buildings shall be secured to prevent rodent infestation and entry by unauthorized individuals.

(c) Sprinkler systems located in vacant buildings must be maintained and remain operational unless a removal request is approved in writing by the Authority Having Jurisdiction (AHJ).

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 3, 2024

Author: Robert Chase, Fire Chief

Subject: Blasting Ordinance Review

Information:

There is currently no ordinance regulating blasting operations in the City of Auburn. The Fire Department does require a blasting permit to ensure blasting is conducted by licensed professionals who have liability insurance and who have also conducted a "dig safe" survey of the blast site.

This draft ordinance would establish a new, more complete and robust permitting process, administered by the Planning and Permitting department:

- Permits would be required for all blasting
- Requires notifications to properties within 500-900 feet of the blast site (based on size of blast)
    - Certified mail 10-14 days prior to initiating blasting
- Require pre-blast surveys by a third party, offered to all properties within 100-300 feet (based on size of blast)
- Require 24-hour notice prior to blast, to all property owners within 300 feet (2000 feet for quarries) as well as notification to the 911 dispatch center
- Require well water testing within a defined perimeter (based on size of blast)
- Require seismological measurements of all blast with ground performance standards based on NFPA 495 "Explosive Materials Code"

City Budgetary Impacts: N/A

Staff Recommended Action: No action recommended at this time. Requesting further guidance on ordinance development

---

Previous Meetings and History: N/A

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Draft Ordinance
NFPA 495 Chapter 11: Ground Vibration, Air Overpressure, Flyrock, and Gases

NFPA 495

Ground Vibration, Air Overpressure, Flyrock, and Gases

11.1* Basic Requirements.

11.1.1*

This chapter shall apply to buildings and other structures.

11.1.2

This chapter shall not apply to buildings or other structures owned, leased, or contracted by the blasting company or on property for which the owner has provided a written waiver to the blasting company.

11.1.3*

Blasting seismographs used to monitor ground vibrations and air overpressure shall comply with the ISEE document, "Performance Specifications for Blasting Seismographs."

11.1.4*

Where used, blasting seismographs shall be deployed in the field according to the ISEE document, "Field Practice Guidelines for Blasting Seismographs."

11.2* Ground Vibration.

11.2.1

At all blasting operations, the ground vibration on any axis (particle velocity) shall not exceed the limitations specified in **Figure 11.2.1** at the location of any building or structure.

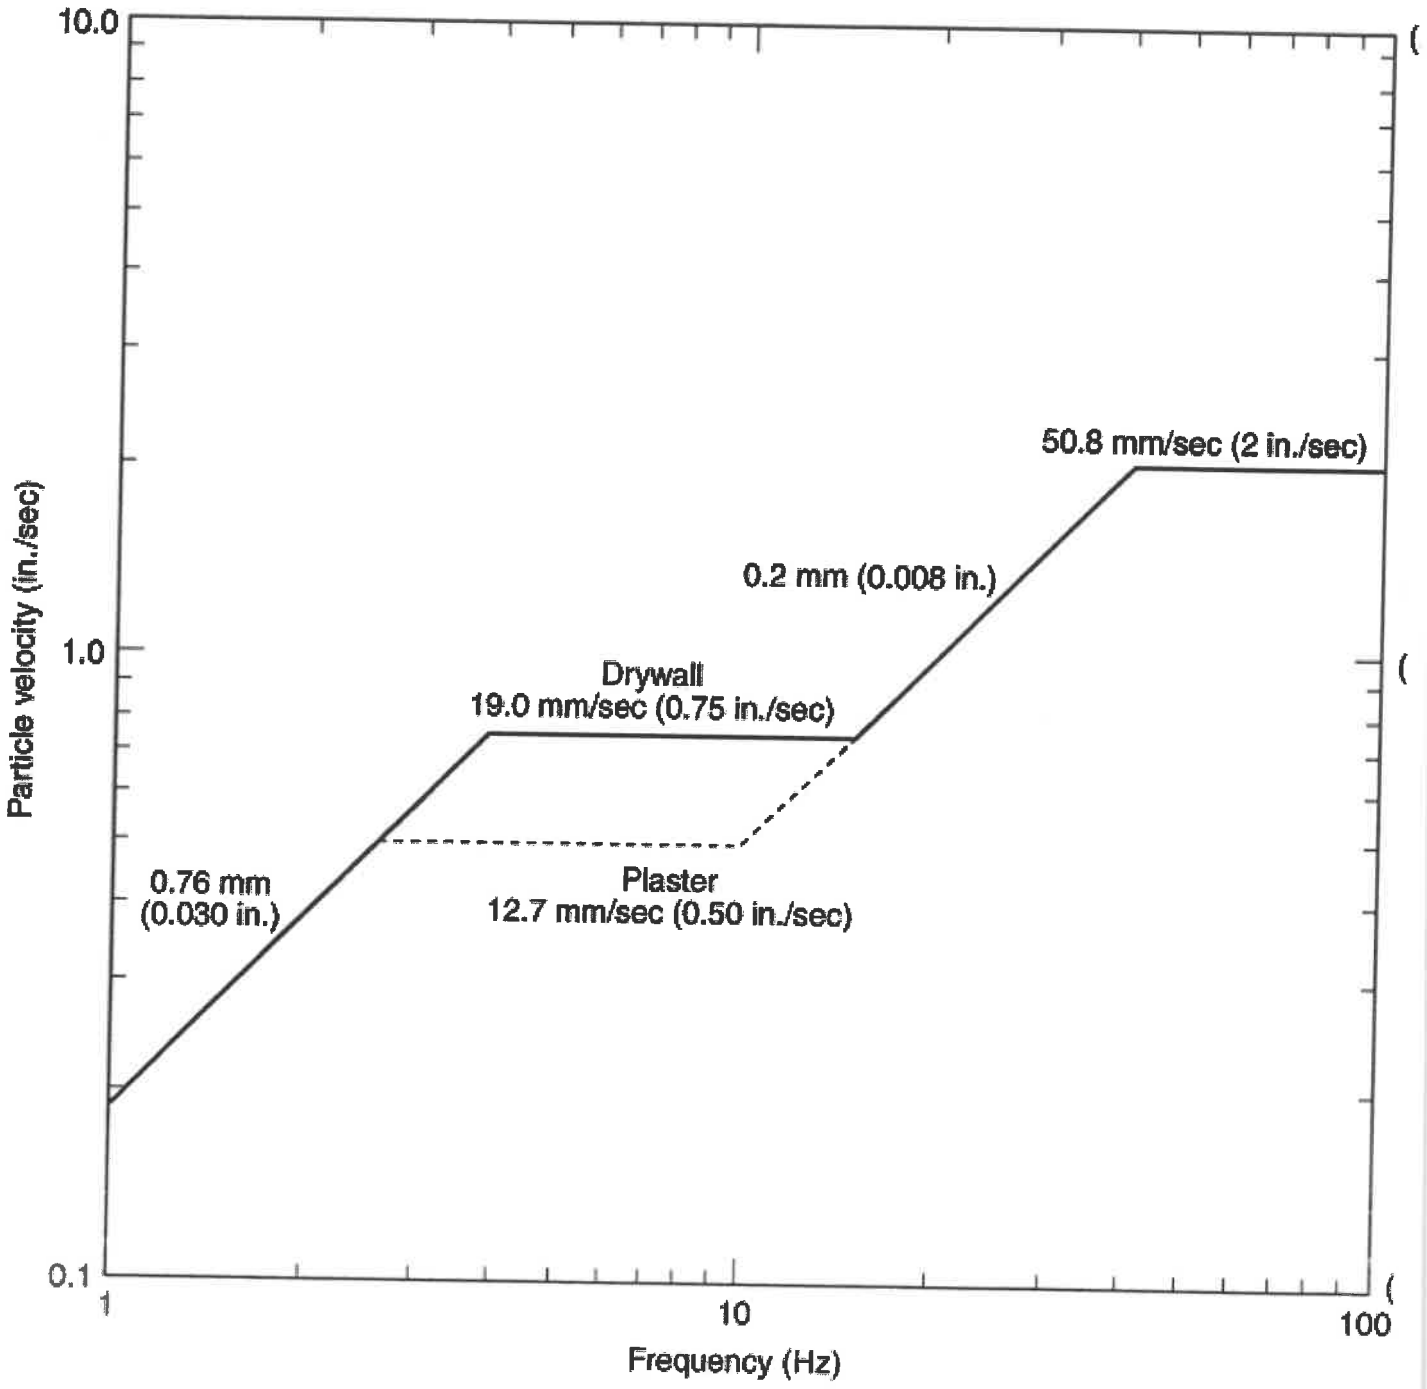

Figure 11.2.1 Frequency vs. Particle Velocity Graph.

11.2.2*

When blasting is not monitored with a blasting seismograph, the operation shall comply with the scaled distance factors at the nearest building or structure as shown in **Table 11.2.2**.

Table 11.2.2 Scaled Distance Equations

Distance from Blasting Site		Scaled I
ft	m	lb
0–300	0–91.4	W (lb) = [*D* (ft)/50]^2
301–1000	91.7–304.8	W (lb) = [*D* (ft)/55]^2
≥1001	≥305.1	W (lb) = [*D* (ft)/65]^2

(1) *W* equals the maximum weight of explosives in pounds (or kilograms) that can be detonated per
(2) *D* equals the distance in feet (or meters) from the blast to the nearest building, not owned, lease
on property for which the owner has not provided a written waiver to the blasting operation.
*To convert U.S. units of scaled distances (ft/lb$^{1/2}$) to metric units (m/kg$^{1/2}$), divide by a factor of 2.2

11.2.3

Ground vibration limits for buildings and other structures or for structures not defined in **11.1.1**, such as public utilities, shall be permitted to be independently established based on technical justifications by engineers or qualified personnel familiar with blasting-related projects, subject to the approval of the AHJ.

11.3* Air Overpressure.

11.3.1*

Air overpressure due to blasting operations shall not exceed the maximum limit of 133 dB(L) (0.013 psi) at the location of any building or structure.

11.3.2

Air overpressure limits for buildings and other structures or for structures not defined in **11.1.1**, such as public utilities, shall be permitted to be independently established based on technical justifications by engineers or qualified personnel familiar with blasting related projects, subject to the approval of the AHJ.

11.4 Flyrock.

11.4.1

Flyrock traveling in the air or along the ground shall not be cast from the blast site in an uncontrolled manner that could result in personal injury or property damage.

11.4.2

Flyrock shall not be propelled from the blast site onto property not contracted by the blasting operation or onto property for which the owner has not provided a written waiver to the blasting operation.

11.4.3

Where blasting operations do not conform to **11.4.1** and **11.4.2**, the AHJ shall require that special precautions be employed to reduce or control flyrock.

11.5 Gases.

11.5.1

Gases traveling in the air or through the ground shall be controlled in a manner to prevent injury to persons or damage to property outside the blast area.

11.5.2

To minimize hazardous carbon monoxide exposure produced by blasting, blasters shall be responsible for the following:

- (1)

  Being aware that lack of ground displacement can prevent venting of the blasted material and result in the entrapment of gases

- (2)*

  Excavating blasted material as soon as practical after blasting

- (3)

  Being aware of and look for geologic pathways for gases such as old trenches, horizontal partings, faults, joints, hillseams, unconsolidated material, water, and voids that would allow movement of gas towards underground enclosed spaces

- (4)

  Being aware that when blasting very close to underground enclosed spaces, fractures caused by the detonation can create a pathway for the gases to enter the enclosed space

- (5)

  Conducting a preblast survey to determine any possible problem areas when blasting near inhabited buildings or underground facilities (tunnels, manholes, etc.)

- (6)

  Monitoring possible problem areas to determine if any gases have migrated from the blasting operation

- (7)

If gases are detected, using positive ventilation (open windows and exhaust fans) to limit the accumulation of gases at inhabited buildings or other facilities from the blasting operation until the gas is removed from the ground

See A.11.1.3.

A.11.2

The ground vibration requirements of this chapter are based upon scientific visual observations of cosmetic cracking as documented in U.S. Bureau of Mines RI 8507 and 8896, and any change requires similar documented technical justification.

A.11.2.2

Scaled distance is defined as the distance to the building or structure in feet divided by the square root of the maximum charge weight in pounds detonated within any 8 millisecond interval. The use of the scaled distance factors provides a high level of confidence for the prevention of damage. However, seismograph monitoring provides the best data for gauging the effect of vibrations. Thus, monitoring with a blasting seismograph supersedes the necessity of designing blasts with the ultraconservative scaled distance factors.

A.11.3

The air overpressure requirements of this chapter are based upon scientific visual observations of window damage as documented in U.S. Bureau of Mines RI 8485, and any change requires similar documented technical justification.

Chapter 14

BUSINESS LICENSES AND PERMITS

Article XIX

BLASTING

Sec. 14-700. - Purpose; statutory authority; enforcement.

A. Blasting is an activity essential to the economic viability of Auburn. Unregulated blasting and/or irresponsible blasting may cause undue damage to the people, property and environment of the City.

B. This chapter establishes specific standards for blasting operations, notice requirements, instrument monitoring requirements of blasting operations, a permit process for blasting and other associated standards and requirements.

C. It is intended to minimize the effects of airblast overpressure, ground vibration, dust, and noise associated with blasting which may be detrimental to the enjoyment of life, property and the conduct of business for those individuals affected.

D. It is also intended to provide standards that will prevent permanent damage to the geologic, hydrogeologic and wildlife resources and ecological balance in the region outside the immediate blast area. The chapter is intended to protect the quality of life and the homes of residents, neighborhoods, property, groundwater, wildlife resources, scenic beauty and/or businesses, all lying outside the approved work area and potentially affected by the blasting.

E. It is intended to be effectively and efficiently administered without causing undue financial and administrative hardship to blasting operators.

F. This chapter is enacted pursuant to 30-A M.R.S.A. § 3001, Ordinance power, as well as the City's Home Rule authority under the Maine Constitution, and shall be administered by the Planning, Permitting, and Cide Department.

G. The city planning, permitting, and code department shall have authority to enforce all requirements of this Chapter in accordance with section 60-1403.

Sec. 14-701. - Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Airblast means an airborne shock wave resulting from detonation of explosives. Airblast may be caused by burden movement or the release of expanding gas into the air. Airblast may or may not be audible.

Applicant means the owner or other individual, corporation or other business entity who or which applies for the legal right to conduct blasting at real property which it has the legal right to use.

Blast site means the area where explosive material is handled during the loading of drilled blastholes, including the perimeter formed by the loaded blastholes and 50 feet in all directions from loaded blastholes.

Blast size means, for a

A. Small blast: trench blast or under 50 cubic yards of rock removed.

B. Medium blast: removal of 50 to 300 cubic yards of rock material.

C. Large blast: removal of over 300 cubic yards of rock material.

Blaster means an applicant who has been awarded a permit to conduct blasting.

Blasting means the use of explosives to break up or otherwise aid in the extraction or removal of rock or other consolidated material.

Blasting operations means all processes conducted in association with site or other preparation for blasting, and the detonation of explosives.

Decibel means the unit of sound pressure commonly used to measure airblast from explosives. The decibel scale is logarithmic.

Explosives means any substance, chemical compound or mechanical mixture that is used for the purpose of producing an explosion to fragment rock for mining, quarrying, excavation and construction. Initiating devices (detonators, detonating cords, etc.) are also included under this definition.

Extractive industry means any operation engaged in the removal of more than 20 cubic yards, in a twelve-month period, of topsoil, sand, gravel, clay, rock, peat or other like material from its natural location and for transportation off lot within any twelve-month period, except as may be exempted within the extractive industry performance standards in this chapter.

Flyrock means rock that is propelled through the air or along the ground, which leaves the secured blast area as a result of the detonation of explosives.

Ground vibrations means shaking of the ground caused by blasting. Ground vibrations are to be measured along three principal axes (x, y, z); namely, transverse, vertical, and longitudinal, all of which are subject to the performance standards herein.

Groundwater means water beneath the earth's surface often between saturated soil and rock that supplies wells and streams.

Hertz means a term used, in the case of blasting, to express the frequency of ground vibrations and airblast. One hertz is one cycle per second.

Particle velocity means a measure of ground vibration in the case of blasting. Particle velocity describes the velocity at which a particle of ground vibrates when excited by a seismic wave. It is measured in inches per second.

Pre-blast Survey means an inspection of the dwellings, water supplies, and other structures within the blasting notice area for the purpose of documenting the physical conditions prior to the commencement of blasting.

Quarry means the property designated in the application and permit where rock is excavated in an extractive industry operation.

Secured blast area means the area that may be affected by flyrock, dust, or fumes from an explosion that may cause personal injuries, damages to property, or losses in the process. The minimum distance for personnel is 500 feet. Safe distances will be determined based on conditions for each blast by the blasting foreman or designee.

Seismograph means an instrument that measures and has the capability to provide a permanent

record of hertz and decibel readings concerning ground vibrations caused by blasting.

Source water means bodies of water (such as rivers, streams, lakes, reservoirs, springs, and ground water) that provide water to public drinking-water supplies and private wells.

Sec. 14-702. - Blasting permit required; effect on other regulations.

A. No blasting within the City of Auburn shall be allowed unless a permit has been obtained from the city planning, permitting, and code department, except as otherwise exempted per this chapter.

B. The requirements of this chapter are in addition to any other applicable ordinances, regulations, and statutes. This includes adherence to the standards set forth in NFPA 495. Where different standards are contained within these documents or any other relevant regulations, the more restrictive standards shall apply

C. This chapter does not replace or negate federal and/or state requirements pertaining to explosives including OSHA CFR 1923.900 and 1910.109

Sec. 14-703. - Permit requirements.

A. Blasting permit required.

(1) The following shall require a permit:

(a) Site plan/subdivisions. If the Planning Board determines that a project involves or may require blasting, it shall expressly state and set out in its conditions of approval for such project that the applicant/developer secure from the director of the city planning, permitting, and code department, or their designee, a proper blasting permit in advanced of blasting, and as required herein.

(b) General construction. For any specific construction project, whether reviewed or not reviewed by the Planning Board as part of site plan or subdivision, that is found to need blasting at any time, the owner/developer, or responsible general contractor, shall secure a blasting permit, as described herein, from the director of the city planning, permitting, and code department, or their designee, prior to any blasting.

(c) Extractive industry and gravel pits. Any party who operates a gravel pit or who otherwise engages in extractive industry or earth removal operations shall secure from the director of the city planning, permitting, and code department, or their designee, a blasting permit, as described herein, prior to any blasting.

(d) All other blasting locations. Any other person or party, regardless of prior review, and regardless of purposes, that may need to conduct blasting shall be required to obtain a blasting permit, as described herein, from the city planning, permitting, and code department.

(2) No person or party may conduct any blasting within the boundaries of the City of Auburn without first having obtained review and approval from the director of the city planning, permitting, and code department, or their designee.

B. Notice required. All proposed blasting activities in the City of Auburn shall require notice of blasting to be given to the city planning, permitting, and code department, in writing, at least 10 business days prior to the proposed start of blasting. This notice is in addition to and not in lieu of the fourteen-day review notice detailed in Subsection C below. Notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days

before such blasting is scheduled to take place.

C. Blasting application information. All applications for permits to conduct blasting shall contain the following information, referred to as the "blast plan." All blast plan applications shall be submitted at least 14 calendar days prior to the proposed start of any drilling or blasting operation:

(1) Applicant: the applicant's name, address, daytime telephone number, fax number, and e-mail address.

(2) Owner's name, address, daytime telephone number, fax number, and e-mail address.

(3) Blasting contractor: the blasting contractor's name, address, daytime telephone number, fax number, and e-mail address (if other than the blaster). Contractor shall submit written evidence of license(s) held, experience and qualifications of the individual who will be responsible for loading and firing each shot.

(4) General contractor: the general contractor's name, address, daytime telephone number, fax number, and e-mail address.

(5) Work site: the street address and Tax Assessor's map and lot number for the proposed blasting activity. If the blast plan is for a property shown on a plan reviewed by the Planning Board, the blast area for which the permit is requested shall be included on the plan.

(6) Information about the blast plan to include the following:

(a) Purpose of blast: a brief description of the work for which the blasting activity is requested.

(b) Volume of material: the estimated number of cubic yards (measured in place) of material to be loosened or fragmented by blasting.

(c) Number of blasts: the estimated number of blasts required to loosen or fragment the specified amount of material.

(d) Blast period: the planned starting and ending dates of the blasting activity.

(e) Site diagram: a sketch or diagram showing the property where blasting will be conducted, including: the location of adjacent structures and distance to those structures; description and location of blasting signs.

(f) Description of test blast drill pattern.

(g) Explosives to be used during both wet and dry conditions.

(h) Description of matting that will be used to prevent flyrock.

(i) Type, number, and planned locations of seismograph, and any other instrumentation proposed for use to monitor vibrations and airblast overpressures.

(j) Description of proposed transport and storage of explosives.

(k) Description of safety procedures, security measures, and warning procedures to be employed before, during and after the blast period.

(l) Signature of blasting contractor testifying to the accuracy of the blast plan.

(m) Dig safe number

D. Liability insurance. Blasting contractors and/or applicants shall carry general liability insurance in accordance with the following:

(1) The amount insured must be a minimum amount of $2,000,000 combined single limit per occurrence.

(2) The insurance policy must contain specific reference to blasting as an activity covered by the insurance.

(3) The policy shall indemnify and hold harmless the City, its agents and/or representatives, employees, and residents from and against any or all claims, damages, losses and expenses including legal fees arising out of or resulting from performance of the work, provided that such claim, damage, loss or expense is attributable to bodily injury or death, or to injury to or destruction to tangible personal or real property, including the loss of use, resulting in whole or in part from the blasting activity by any negligent act or omission of the contractor or any of its officers, agents, employees, representatives, subcontractors, and/or anyone directly or indirectly employed by any of them or anyone for whose acts any of them would be liable regardless of whether it is caused in part by a party indemnified hereunder and the contractor shall, at its own expense, defend and protect said indemnified parties against all such claims and demands.

(4) The City shall be named as a certificate holder to ensure the liability insurance is maintained throughout the duration of the blasting operation. The certificate must provide that the City of Auburn shall be notified at least 10 days prior to any cancellation

E. Public hearing. A public hearing is not required prior to the issuance of a blasting permit by the director of the city planning, permitting, and code department, or their designee.

F. Fees. Fees for blasting permits shall be as determined, and amended from time to time, by City Council order.

G. Permit duration.

(1) Permits shall be valid for a period of 90 days. No blasting after 90 days shall occur except as permitted herein.

(2) Lapse and extension. Any party that does not complete its blasting within the ninety-day time period may apply to the director of the city planning, permitting, and code department, or their designee, for a reasonable extension, not to exceed 60 days. The director shall have full discretion as to the length and condition of any extension. If the ninety-day period lapses prior to a request for extension, the director may require that the party reapply for a new blasting permit.

(3) In consideration of the safety hazards and community concerns associated with adverse weather conditions, this ordinance permits the adjustment of blasting operations in response to lightning-related disruptions, wind-related community concerns, and atmospheric conditions, including pressure variations. When such conditions are present, operators are authorized to modify the timing and duration of blasting activities as necessary to ensure the safety of all personnel, minimize impacts on the surrounding community, and maintain compliance with regulatory requirements. Any adjustments made must be promptly communicated to the appropriate authorities and property owners.

H. Notice and pre-blast survey.

(1) The following notification and pre-blast survey requirements shall be required for all blasting permits prior to commencing blasting:

	Small blast (feet)	Medium blast (feet)	Large blast (feet)
Notice required	500	700	900
Pre-blast survey to be offered	100	300	500

(2) The blasting contractor will hire an independent qualified seismologist, blasting consultant or engineer to perform pre-blast surveys on all structures and wells in the areas outlined in Subsection H(1) above, contingent upon property owner agreement. The independent seismologist or blasting consultant shall not be an employee of the contractor, subcontractor, explosives manufacturer, or explosives distributor.

(3) Pre-blast survey offer notice: Prior to commencement of the pre-blast surveys, the blasting contractor shall provide the following documentation to the city planning, permitting, and code department:

(a) A list of property owners to be contacted (in accordance with the distances listed in the table, above).

(b) Verification that the subject property owners were notified of the pre-blast survey work.

(c) A copy of the pre-blast survey offer notice.

(d) Whether each offer to conduct a pre-blast survey was either accepted, rejected, or there was no response. The blasting contractor shall retain a copy of each pre-blast survey offer notice for their records until the development project receives a final certificate of occupancy or is otherwise deemed complete by the City. Nothing herein shall be construed to discourage repeated efforts by the blasting contractor to contact eligible property owners via phone, hand delivery, or other method in addition to provision of the required offer notice letter.

(4) Pre-blast survey documentation. All pre-blast surveys shall include documentation of interior subgrade and above-grade accessible unobscured walls, ceilings, floors, roof and visible exterior as viewed from the grade level. Where significant cracks or damage exist, or for more complex structural defects, photographs or video shall be taken. A high-quality digital video or videotape survey with appropriate audio description of the locations, conditions, and defects may substitute for a written pre-blast survey. Where necessary, notes and sketches may also be used as part of a video pre-blast survey in order to highlight or elaborate on certain aspects of the video documentation.

(5) Pre-blast survey conditions report. All pre-blast surveys shall include an existing conditions report for each property. The conditions report may be presented as narrative, photographs, video or a combination thereof. Conditions reports shall summarize the condition of each building and define areas of concern, including deteriorated structures or utilities, structures housing sensitive equipment, and/or manufacturing processes that are sensitive to vibrations.

(6) Verification that all pre-blast surveys and conditions reports have been completed shall be submitted to the city planning, permitting, and code department at least two weeks

prior to commencing any drilling and/or blasting operations.

(7) The blasting contractor shall maintain a copy of the pre blast survey conditions report for a minimum of six years after the conclusion of blasting.

(8) The blasting contractor shall make a copy of the pre-blast survey conditions report available to the property owner.

Sec. 14-704. - Performance standards.

All blasters shall comply with the following performance standards:

A. Hours of detonation.

(1) Extractive industry blasting. Hours of detonation are limited to between 11:00 a.m. and 3:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving and Christmas

(2) All other blasting. Hours of detonation are limited to between sunrise and sunset but no earlier than 7:00 a.m. and no later than 7:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving and Christmas, unless otherwise more restrictive hours of detonation are specified by the Planning Board.

(3) Emergency situations. Blasting of any type may occur at any time in situations deemed to be emergencies by the director of the city planning, permitting, and code department, or their designee, after consultation with other City staff as may be determined to be necessary by the director. Emergency situations may include, but are not limited to, blasting to install utilities damaged by weather events, unanticipated needs for blasting to complete City infrastructure project when the delay would significantly affect project timelines or City services, or blasting to correct a misfire of explosives in an otherwise permitted blast event.

B. Water quality protection. Water is a precious resource, and the applicant must take measures to assure that the quality of source water is protected. Prior to the initial blast, the applicant must conduct water quality tests on all non-applicant-owned wells within distances outlined in Sec. 14-703(H) above. Water quality testing must also be done post-blast if requested by the property owner because of evidence of a substantive change in water quality. Turbidity in wells tested shall be no greater than that which existed prior to the blasting as established in the pre-blast survey.

C. Ground vibration, Air Overpressure, Flyrock and Gases

(1) Ground vibration, Air Overpressure, Flyrock and gases shall be controlled and shall not exceed the limits defined in NFPA 495.

(2) Measurements shall be required for all blasts. Ground vibration shall be measured as particle velocity. Particle velocity shall be recorded in three mutually perpendicular directions (x, y, z). The maximum allowable peak particle velocity shall apply to each of the three measurements.

(3) Seismographic record. A seismographic record for all blasts shall be retained by the applicant and provided to the city planning, permitting, and code department or the Planning Board, if requested. The applicant is responsible for such record and for providing

proper instrumentation as specified in this chapter. Personnel conducting such monitoring shall be properly trained in the operation of the equipment being used.

(4) Measurements. The requirements established herein shall be measured at the closest building(s) on abutting properties as determined by the director of the city planning, permitting, and code department, or their designee,

D. Other permits. The applicant must also comply with all standards and conditions contained in other permits issued for such projects and local, state and federal statutes and regulations.

Sec. 14-705. - Notices.

A. Required notification of blasting. The following notice requirements for any blast requiring a blasting permit shall be adhered to by the blaster.

(1) Initial notice. The blaster must send initial notice by first-class mail an advisory notice to all property owners within the distances outlined in Sec. 14-703H(1) of the secured blasting area. Notification shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 300 feet of the secured blasting area for project blasting and 2,000 feet for production quarries. This will be done whether or not the property owners requested to be notified. The blaster shall also notify all others who have requested in writing to be so notified. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

(3) Emergency Services Notification: The Lewiston/Auburn 911 dispatch center must be notified at least 24 hours prior to any explosive detonation. The notification shall include the address for the blast site as well as the anticipated start time for blasting and anticipated time that blasting will conclude for the day.

Sec. 14-706. - Inspection, monitoring, and recordkeeping.

A. Entry . The director of the city planning, permitting, and code department, or their designee, may enter the secured blasting area or adjacent area to conduct site evaluations and observe any authorized blasting operations and may order that additional ground vibration and airblast overpressure measurements using approved instrumentation be made by persons responsible for blasting operations to ensure that the limits specified in this chapter are not exceeded, if excess readings are indicated.

B. Additional monitoring. The blaster shall maintain a record of each blast. All records shall be retained at least three years following cessation of the blasting operation, and shall be available for inspection by the director of the city planning, permitting, and code department, or their designee, or any property owner within the distances outlined in Sec. 14-703H(1) of the secured blasting area, and shall contain the following minimum data for traceability purposes:

(1) Name and contact information of responsible party: the name and contact information of the person(s) responsible for the blasting operation.

(2) Location, date, time, number and pattern/spacing of blast holes, total charge weight, charge weight per delay, date and time of each blast.

(3) Blaster: the name(s) of blaster in charge.

(4) Weather: the weather conditions (including such factors as wind direction, cloud cover, etc.).

(5) Data: seismograph and airblast readings, including date, time, and location of instrument.

(6) Notice: name, addresses, date and time of all persons who were notified prior to every blast.

Sec. 14-707. - Compliance schedule.

A. Applicability. Upon adoption of this chapter, all existing and new blasting operations are subject to the terms herein and must obtain a permit to conduct any further blasting.

B. Review. A complete review of all activities under this chapter shall be undertaken by the director of the city planning, permitting, and code department 12 months after adoption of this chapter to determine if the levels are adequate and reasonable to achieve the purpose for which this chapter is intended. The results of this review shall be reported to the City Manager, who will report to the City Council with recommendations of the review.

Sec. 14-708. - Exceptions for undue hardship.

A. Application. Applications for a permit for exception from the performance standards designated in this chapter may, on the basis of hardship, be made to the director of the city planning, permitting, and code department, or their designee. Any permit granted hereunder shall contain all conditions upon which said permit has been granted and shall specify a reasonable time that the permit shall be effective.

B. Standards. The director of the city planning, permitting, and code department, or their designee, may grant the exception as applied for only if:

(1) Limited in scope: the activity or operation will be of a temporary duration, i.e., a limited number of blasts at a specific site, and cannot be done in a manner that would comply with this chapter;

(2) Reasonable alternative: no other reasonable alternative is available to the applicants; and

(3) Safety: the applicants represent, and the director of the city planning, permitting, and code department, or their designee, finds, that blasting as permitted will not violate recognized safety standards.

C. Conditions. Upon the issuance of any exception permit, the director of the city planning, permitting, and code department, or their designee, may limit the scope of the exception and prescribe any reasonable conditions or requirements he deems necessary to minimize adverse effects.

Sec. 14-709. - Violations and penalties.

A. Penalties. The submission of false information required by this chapter, or the violation of this chapter or the violation of any condition attached to a permit granted under this chapter shall

constitute a land use violation for which an enforcement action may be commenced by the City in accordance with 30-A M.R.S.A. § 4452.

B. Reporting. A copy of the violation report and consent agreement reached between the City and the person or entity found in violation of any portion of this chapter will be filed in the permit or license file.

Sec. 14-710. - Conflict.

Blasting in Auburn shall be conducted in compliance with all pertinent section of the City Code of Ordinances, and, except as superseded by the provision of this article, the NFPA 1 Fire Prevention Code, and NFPA 495 Explosive Materials Code as adopted by the State of Maine. In any particular instance where these regulations are in conflict with any other rules, regulations or ordinances of the City, the more restrictive regulation or provision shall prevail.

Sec. 14-711. - Appeal of denial of a blasting permit.

If the city planning, permitting, and code department has denied a blasting permit under this article, the applicant may appeal the denial to the Zoning Board of Appeals within 30 days of the decision by filing a written notice of appeal.

Sec. 14-712 to 725 Reserved.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 3, 2024
Author: Phillip Crowell, Jr., City Manager
Subject: Washington Street Safety Options

Information: At the August 19th, 2024 workshop, Jonathan LaBonte, Transportation Systems Director shared information about a Washington Street Safety Demonstration Project. The demonstration safety project would include entering into an agreement with MaineDOT to install temporary closures on Washington Street to restrict any left turns from Beech Hill, Danville Corner Road, and East Hardscrabble.

As a follow-up to the workshop, the costs for the demonstration project will be funded in the following accounts:

- Washington Street Corridor Study (Exit 75 to Brickyard) - $175,000 (FHWA and Local Match from ATRC)
- Washington Street North Land Use Plan - $83,300 (ARPA Funds Allocated by Auburn City Council)
- Safety Project Design and Traffic Review - $30,100 (ARPA Funds Allocated by Auburn City Council)
- Implementation of Safety Project– FY2024 Traffic Safety Account: ~$50,000

Staff has identified three options for the city council to consider:

1. Implement the MaineDOT agreement for the Safety Demonstration Project.
2. Amend the agreement with MaineDOT to implement the demonstration project at East Hardscrabble and request MaineDOT to expediate the implementation of a traffic signal at Beech Hill and Danville Corner Road.
3. Notify MaineDOT to not move forward with the agreement and to expediate the traffic signal at Beech Hill and Danville Corner Road and East Hardscrabble Road.

City Budgetary Impacts: No current impact other than already authorized funds
Washington Street Corridor Study (Exit 75 to Brickyard) - $175,000 (FHWA and Local Match from ATRC)
Washington Street North Land Use Plan - $83,300 (ARPA Funds Allocated by Auburn City Council)
Safety Project Design and Traffic Review - $30,100 (ARPA Funds Allocated by Auburn City Council)
Implementation of Safety Project– FY2024 Traffic Safety Account: ~$50,000

Staff Recommended Action: Discuss and determine which options should be considered.

Previous Meetings and History:
June 6, 2022 – City Council ARPA Funds; July 28, 2022 - ATRC Vote on Corridor Concept; August 15, 2022 – City Council Transportation Safety Initiatives; September 6, 2022 – City Council Approves Safe Streets/Vision Zero; August 24, 2023 – ATRC Votes on Funding Corridor Study; November 15, 2023 – ATRC issues Corridor RFP

City Manager Comments:
I concur with the recommendation. Signature: Phillip Crowell Jr.

CC: Phil Crowell, Auburn City Manager
DATE: September 3rd, 2024
RE: Washington Street Safety Demonstration Project – Beech Hill and East Hardscrabble Roads

This memo serves as a summary of the city plans for a safety demonstration project on Washington Street (U.S. Route 202/Maine Route 4) at its intersections with East Hardscrabble Road and Beech Hill/Danville Corner Roads, with additional context for the overall corridor planning underway.

Comprehensive Plans have regularly referenced a policy to improve Washington Street as a gateway. The most recent Plan laid out a specific recommendation that related to the original plans for Washington Street in the 1950's but were never fully implemented. Washington Street South, a controlled access highway from Brickyard Circle to approximately Beech Hill Road was to become a two-way highway with no curb openings, and Washington Street North was to return to a two-way local street. Given the critical importance of Washington Street (Routes 202/4) for statewide and regional mobility (75% of all traffic destined for downtown Lewiston-Auburn utilizes Washington Street), stakeholder engagement and endorsement of City concepts has taken place since the summer of 2022. This includes the Federal Highway Administration (FHWA), MaineDOT, Maine Turnpike Authority, AVCOG/ATRC, and the City of Lewiston.

In parallel to the corridor planning, the City worked with ATRC/AVCOG and Lewiston to secure FHWA funding under the Safe Streets and Roads for All program. The goal of the action plan under development is to eliminate all serious injuries and fatalities from Auburn streets. Because Washington Street is home to several High Crash Locations, including some with very high rates of serious injuries and fatalities, we have worked with MaineDOT to test one approach to improving safety; the elimination of left-turns at the intersections of Beech Hill /Danville Corner Roads and East Hardscrabble with Washington Street. The demonstration safety project would see the installation of concrete barriers and safety barrels to continue to allow right in and right out traffic movements, but no traffic crossing Washington Street.

The Washington Street study will evaluate alternative intersection designs, including retaining the closure, and following the demonstration project and completion of the study, public input and City Council direction will determine next steps for capital improvements.

The details that follow below mirror the MaineDOT guidance document on requesting demonstration projects and have been reviewed and approved by MaineDOT.

With appreciation to MaineDOT's safety office, which evaluated the High Crash Location (HCL) at Beech Hill and Danville Corner Roads, the graphic below is based on a scenario of a right-in right-out approach to restricting movements at this intersection during the demonstration project. While curb work would not be done, signage and barricades preventing other movements would be installed.

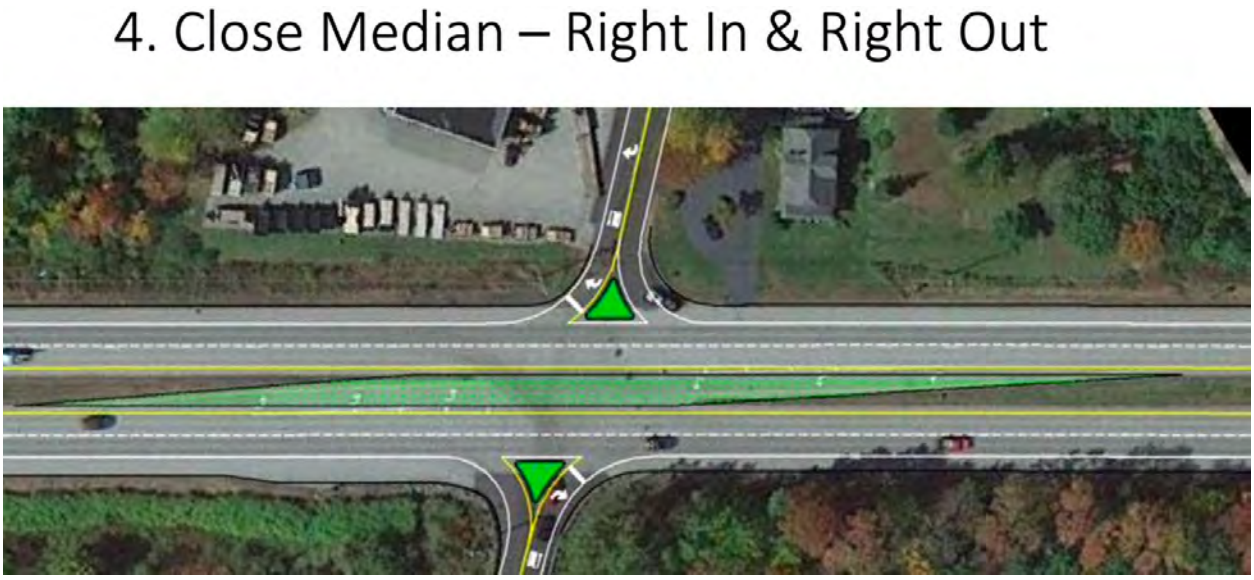

Figure 1. Graphic showing median closure at Beech Hill and Danville Corner Roads, taken from MaineDOT Safety Office presentation on HCL

While we do not have a similar graphic, the city would implement a similar restriction at the intersection of East Hardscrabble Road, allowing only right in and right out traffic entering Washington Street South.

Figure 2. Graphic showing where a second median closure would occur at East Hardscrabble Road and Washington Street.

The materials to be utilized include temporary concrete barriers and sand-filled barrels. Access to materials during the term of the demonstration project is being negotiated, and the city's public works department would complete the installation.

Each intersection's installation would be completed in accordance with AASHTO guidance, and the city has Gorrill-Palmer, the lead engineering firm on the larger Washington Street Corridor Study, creating the stamped plans for the project and assisting in data review during the trial period.

Given the nature of the Washington Street corridor in this section, installation timing and protection for installers and the public would mirror that utilized during the mill and fill on this section of the corridor during 2022. Due to the proposal to close full access at the subject intersections, conflict points during installation will be reduced as traffic will not be allowed to cross Washington Street.

The city partnered with ATRC/AVCOG to collect traffic counts at intersections likely to see detoured traffic, this will allow us to gather additional counts during the trial period to further assess how traffic was rerouted to find access to Washington Street or their intended destinations.

Though this area is outside of the urban compact zone, the Public Works Department does handle maintenance activities in this area and would have primary responsibility for monitoring the installation, as they do other infrastructure in the city. Any impacts from crashes would trigger an evaluation of the installation as well as reviews post winter storm events that could influence the retroreflective elements of the installation.

Public Works does run multiple shifts and has a work order system that would allow not only for prioritizing response to this installation, but to allow for inclusion of work order evaluations in the one-year review process we note below.

As the Auburn City Council endorsed a Vision Zero policy in the fall of 2022, and we advance the Safe Streets and Roads for All (SS4A) action plan process, we are targeting eliminate crashes that lead to serious injury and fatalities at these two intersections. Year over year net crash reductions would also be a goal.

Given that we project traffic to find alternative routes, we would also monitor year over year crash number changes at key detour-related intersections, those include Moose Brook Road/Washington Street, Station Road/Kittyhawk Ave/Washington Street, Kittyhawk Ave/Hotel Road, Chasse Street/Washington Street, Allied Road and Washington Street, Exit 75 Ramps and Washington Street, and Hackett Road and Washington.

We would also be monitoring traffic counts at key detour intersections/road segments, given early feedback from the community and the City Council. Those intersections include Hackett Road/Washington Street, Woodbury Road/Danville Corner Road, Old Danville Road/Danville Corner Road

Through advance discussion with our public safety agencies (Auburn Fire/Rescue and Auburn Police), we would monitor calls, response times, and routes that may have otherwise traversed these turn movements proposed to be eliminated. Neither agency saw a concern given existing routing from Auburn Hall (PD headquarters) or our respective Auburn Fire stations.

The city intends to host an in-person and a virtual neighborhood meeting to discuss the who, what, why, and when associated with this project if MaineDOT supports it advancing. Given that a 2015 neighborhood engagement effort led to their request to close the Beech Hill/Danville Corner Road intersection, we expect a predominantly positive response from those living in these areas, though recognize for some residents there will be an inconvenience to reducing full access at these intersections.

The city's Transportation Systems Director would be available to respond to comments, and the city has online contact forms that would be a means to aggregate feedback from the public. In addition, the city will conduct a follow-up neighborhood meeting after the one-year anniversary of the closure to provide a report out on the impact of the closure (based on performance measures noted above) and potential next steps if support remains to make these closures permanent.

An item related to public awareness involves updated GIS databases associated with highway and street layouts. Given the use of mapping software in smart phones and vehicles, the city recognizes we need to communicate to these platforms the closure of particular legs of these intersections, beyond the signage that would be installed during the demonstration project period. MaineDOT has agreed to assist with its relationships with those routing systems.

The city would sign detour routes and would like to coordinate a review of detour mapping with MaineDOT's internal system for review of detours. The city's public works department does have some fabrication capabilities but would welcome MaineDOT detour signage loans if needed. City of Auburn variable message boards could also be deployed in the early stages of the project.

There have been numerous meetings of city staff, organizational partners, and briefings to the Auburn City Council. This latest briefing will initiate our implementation efforts, starting with public awareness and engagement through public meetings in the month of September and the establishment of feedback processes for residents during the demonstration period.

RE: Exit 75 and Washington Street Corridor Evaluation Request for Support
DATE: July 25, 2022

This memo represents the City of Auburn's request that ATRC support the effort to convert the flow of traffic Washington Street (Route 202/4) from Exit 75 to downtown Auburn. This conversion, with Washington Street North becoming two-way local traffic and Washington Street South becoming two-way through traffic, will improve safety, maintain regional mobility, and align with Auburn's Comprehensive Plan goals for pedestrian scale development and environmental improvements in the area between Washington Street and the Little Androscoggin River. The evaluation would also include the configuration of Exit 75 of the Maine Turnpike and its ability to serve the industrial airport area and regional mobility.

This section of highway is a critical corridor connecting the Maine Turnpike's Exit 75 with not only downtown Auburn and Lewiston but also western Maine. Existing inbound land uses already conflict with the traffic volumes and speeds in the northbound segment, and changes in Auburn's zoning to pursue more mixed-use development and improve stewardship of the Little Androscoggin River watershed further enhance this conflict. Shifting this high volume of thru traffic (approaching 20,000 AADT) to a controlled access highway presents an historic opportunity to restore a major Maine riverfront (Little Androscoggin) and convert a corridor with existing utilities and impervious area to mixed uses with new housing to serve the region and southern Maine.

The 2019 ATRC Metropolitan Transportation Plan projects growth of traffic into our region from the south at 52%. In fact, the most recent Maine Turnpike Origin and Destination Study (2010) noted that over 50% of the traffic at Exit 75 was destined for the Portland region.

Growing traffic volumes are also likely to exacerbate the safety challenges that extend from Exit 75 into downtown Auburn. There are currently three high crash location intersections and two high crash location road sections on this corridor. Since 2020, there have been over 80 crashes along this corridor from Kittyhawk to the rotary, including Exit 75.

Auburn staff have already met with MaineDOT and Maine Turnpike officials to review this proposal and request their involvement in the evaluation. As the regional transportation agency in our community, we request ATRC's support and involvement. Staff will be available to provide a similar briefing for the ATRC Committees on Thursday.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 3rd, 2024 **Order: 107-09032024**

Author: Jason D. Moen, Chief of Police

Subject: Confirming Chief Moen's appointments of Constable without firearms/arrest powers for the Auburn Police Department and Constable with firearm/arrest powers within the City of Auburn.

Information: Chief of Police Moen requests that the Auburn City Council appoint Constables without Firearms/Arrest Powers on behalf of the Auburn Police Department and Constable with firearm/arrest powers to serve documents within the City of Auburn for 2024.

City Budgetary Impacts: N/A

Staff Recommended Action: Vote to confirm Chief Moen's appointment of Abigail Bowie as Constable without firearms/arrest powers on behalf of the Auburn Police Department within the City of Auburn for 2024 and to confirm Chief Moen's appointment of Alexander Gallo as Constable with a firearms/arrest powers on behalf of the Auburn Police Department within the City of Auburn for 2024.

Previous Meetings and History: None

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 107-09032024

City Council Order

IN CITY COUNCIL

ORDERED, that the City Council hereby appoint the following named persons to serve documents as Constable Process Servers without firearm/arrest powers on behalf of Auburn Police Department within the City of Auburn for 2024.

Abigail Bowie	Employee	Constable	Without Firearm	New Appointment

BE IT FURTHER ORDERED, that the City Council hereby appoint the following named persons to serve documents as Constable Process Servers with firearm/arrest powers on behalf of Auburn Police Department within the City of Auburn for 2024.

Alexandra Gallo	Employee	Constable	With Firearm	New Appointment

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

Mayor Harmon called the meeting to order at 7:00P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors were present. Student Representative Egge was absent.

I. Consent Items

1. ORDER 99-08192024* – Appointing Edward Little High School Junior, Mubarik Abdulahi, to serve as City Council Student Representative with a term expiration of 6/30/2026, as nominated by the Appointment Committee.

2. ORDER 100-08192024* - Appointing Whitney Poulin to serve on the Auburn-Lewiston Municipal Airport Board of Directors for the unexpired term ending 1/1/2026, as nominated by the Appointment Committee.

3. ORDER 101-08192024* - Appointing Dana Staples to serve on the Zoning Board of Appeals for a term that expires 5/1/2027, as nominated by the Appointment Committee.

4. ORDER 102-08192024* - Appointing Robert Hayes to serve on the Planning Board for the unexpired term ending 1/1/2027, as nominated by the Appointment Committee.

Councilor Walker moved for passage of all Consent Items, seconded by Councilor Cowan. Motion passed 7-0.

II. Minutes – August 1, 2024 Regular Council Meeting

Councilor Walker moved for passage, seconded by Councilor Whiting. Motion passed 7-0.

III. Communications, Presentations and Recognitions

Ralph Harder of the Sustainability and Natural Resource Management Board presented the Solid Waste & Recycling Plan

IV. Open Session

Bonnie Lounsbury, Auburn

V. Unfinished Business

VI. New Business

1. ORDER 103-08192024 – Accepting the Solid Waste & Recycling Plan as presented by the Sustainability and Natural Resource Management Board. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Cowan. Motion passed 7-0.

2. ORDER 104-08192024 – Property donation acceptance of Carrier Court (Parcel ID 184-032-000-000). Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Weisner. Motion passed 7-0.

3. ORDER 105-08192024 – Reallocating Capital Improvement Plan (CIP) funds for Airport projects. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Gerry. Motion passed 7-0.

4. ORDER 106-08192024 – Adopting the process for appointments to the Comprehensive Plan Committee. Passage requires majority vote.

Councilor Walker moved for passage, seconded by Councilor Whiting. Motion passed 7-0.

5. PUBLIC HEARING - CDBG Action Plan Amendment for Program Year 2024. *No action.*

Mayor Harmon opened the item up for public comment. There was no comment from the public. Mayor Harmon closed the public hearing.

VII. Reports

a. Mayor's Report – Thanked city staff for a successful National Night Out event; attended the recent opening of Preble Street program serving Lewiston & Auburn.

b. City Councilors' Reports – Councilor Gerry thanked all involved with the backpack giveaway at the PAL center and Blackie's vegetables for providing food. Councilor Whiting thanked city staff for paving Boothby St. Councilor Cowan thanked all involved with organizing the many events around the city recently. Councilors Weisner and Walker thanked all involved with organizing the balloon festival. Councilor Platz gave an update on the School Committee and a grant awarded as part of the "Full Plates, Full Potential" program.

c. Student Representative Report – Representative Egge was absent.

d. City Manager Report – Addressed tax bill delay, bills will be going out this week. Addressed that brush drop off location at Gracelawn is now closed and residents are invited to drop off their brush for free at the drop off site in Poland. Thanked staff involved in organizing the many events.

VIII. Open Session

John Ruccolo, Shepley St

IX. Executive Session

Councilor Platz moved to enter executive sesssion pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss City Manager's annual review. No action to follow. Motion seconded by Councilor Cowan. Motion passed 7-0. Council entered executive session at 8:04pm.

Councilor declared out of executive session at 8:31pm.

X. Adjournment

Motion to adjourn by Councilor Whiting, seconded by Councilor Milks. Motion passed 7-0. Council adjourned at 8:32pm.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

PROCLAMATION | **INTERNATIONAL PAPER'S 50TH ANNIVERSARY**

WHEREAS, on January 31, 1898, seventeen pulp and paper mills joined to form International Paper Company; and

WHEREAS, International Paper has been a catalyst in the global economy as the world's leading producer of renewable packaging, pulp, and other fiber-based products essential to everyday life; and

WHEREAS, International Paper opened in Auburn in 1974, first as Allied Container, then Union Camp in 1985, and became part of International Paper in 1999, has been a valued partner in our community with more than 135 employees; and

WHEREAS, International Paper's Auburn Box Plant customers produce food, beverages, healthcare products, electronics, and many essential items and depend on International Paper's corrugated boxes to transport their products to retailers and consumers in Maine and throughout New England; and

WHEREAS, throughout its history, International Paper has been actively engaged in the Auburn community through food drives, tree plantings and volunteer hours, Wreaths Across America, butterfly kits and environmental educational programs, as well as locally supporting the Toys for Tots Program in partnership with local veterans, Lions Club, community United Way organizations and events; and

WHEREAS, this year, International Paper Auburn Box Plant celebrates its 50th anniversary of sustainable manufacturing;

NOW THEREFORE, I Jeffrey Harmon, Mayor of the City of Auburn, by virtue of the authority vested in me, do hereby recognize, and congratulate International Paper on reaching its 50th milestone anniversary in the City of Auburn.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 3rd day of September, 2024.

Mayor Jeffrey D. Harmon

City of Auburn
City Council Information Sheet

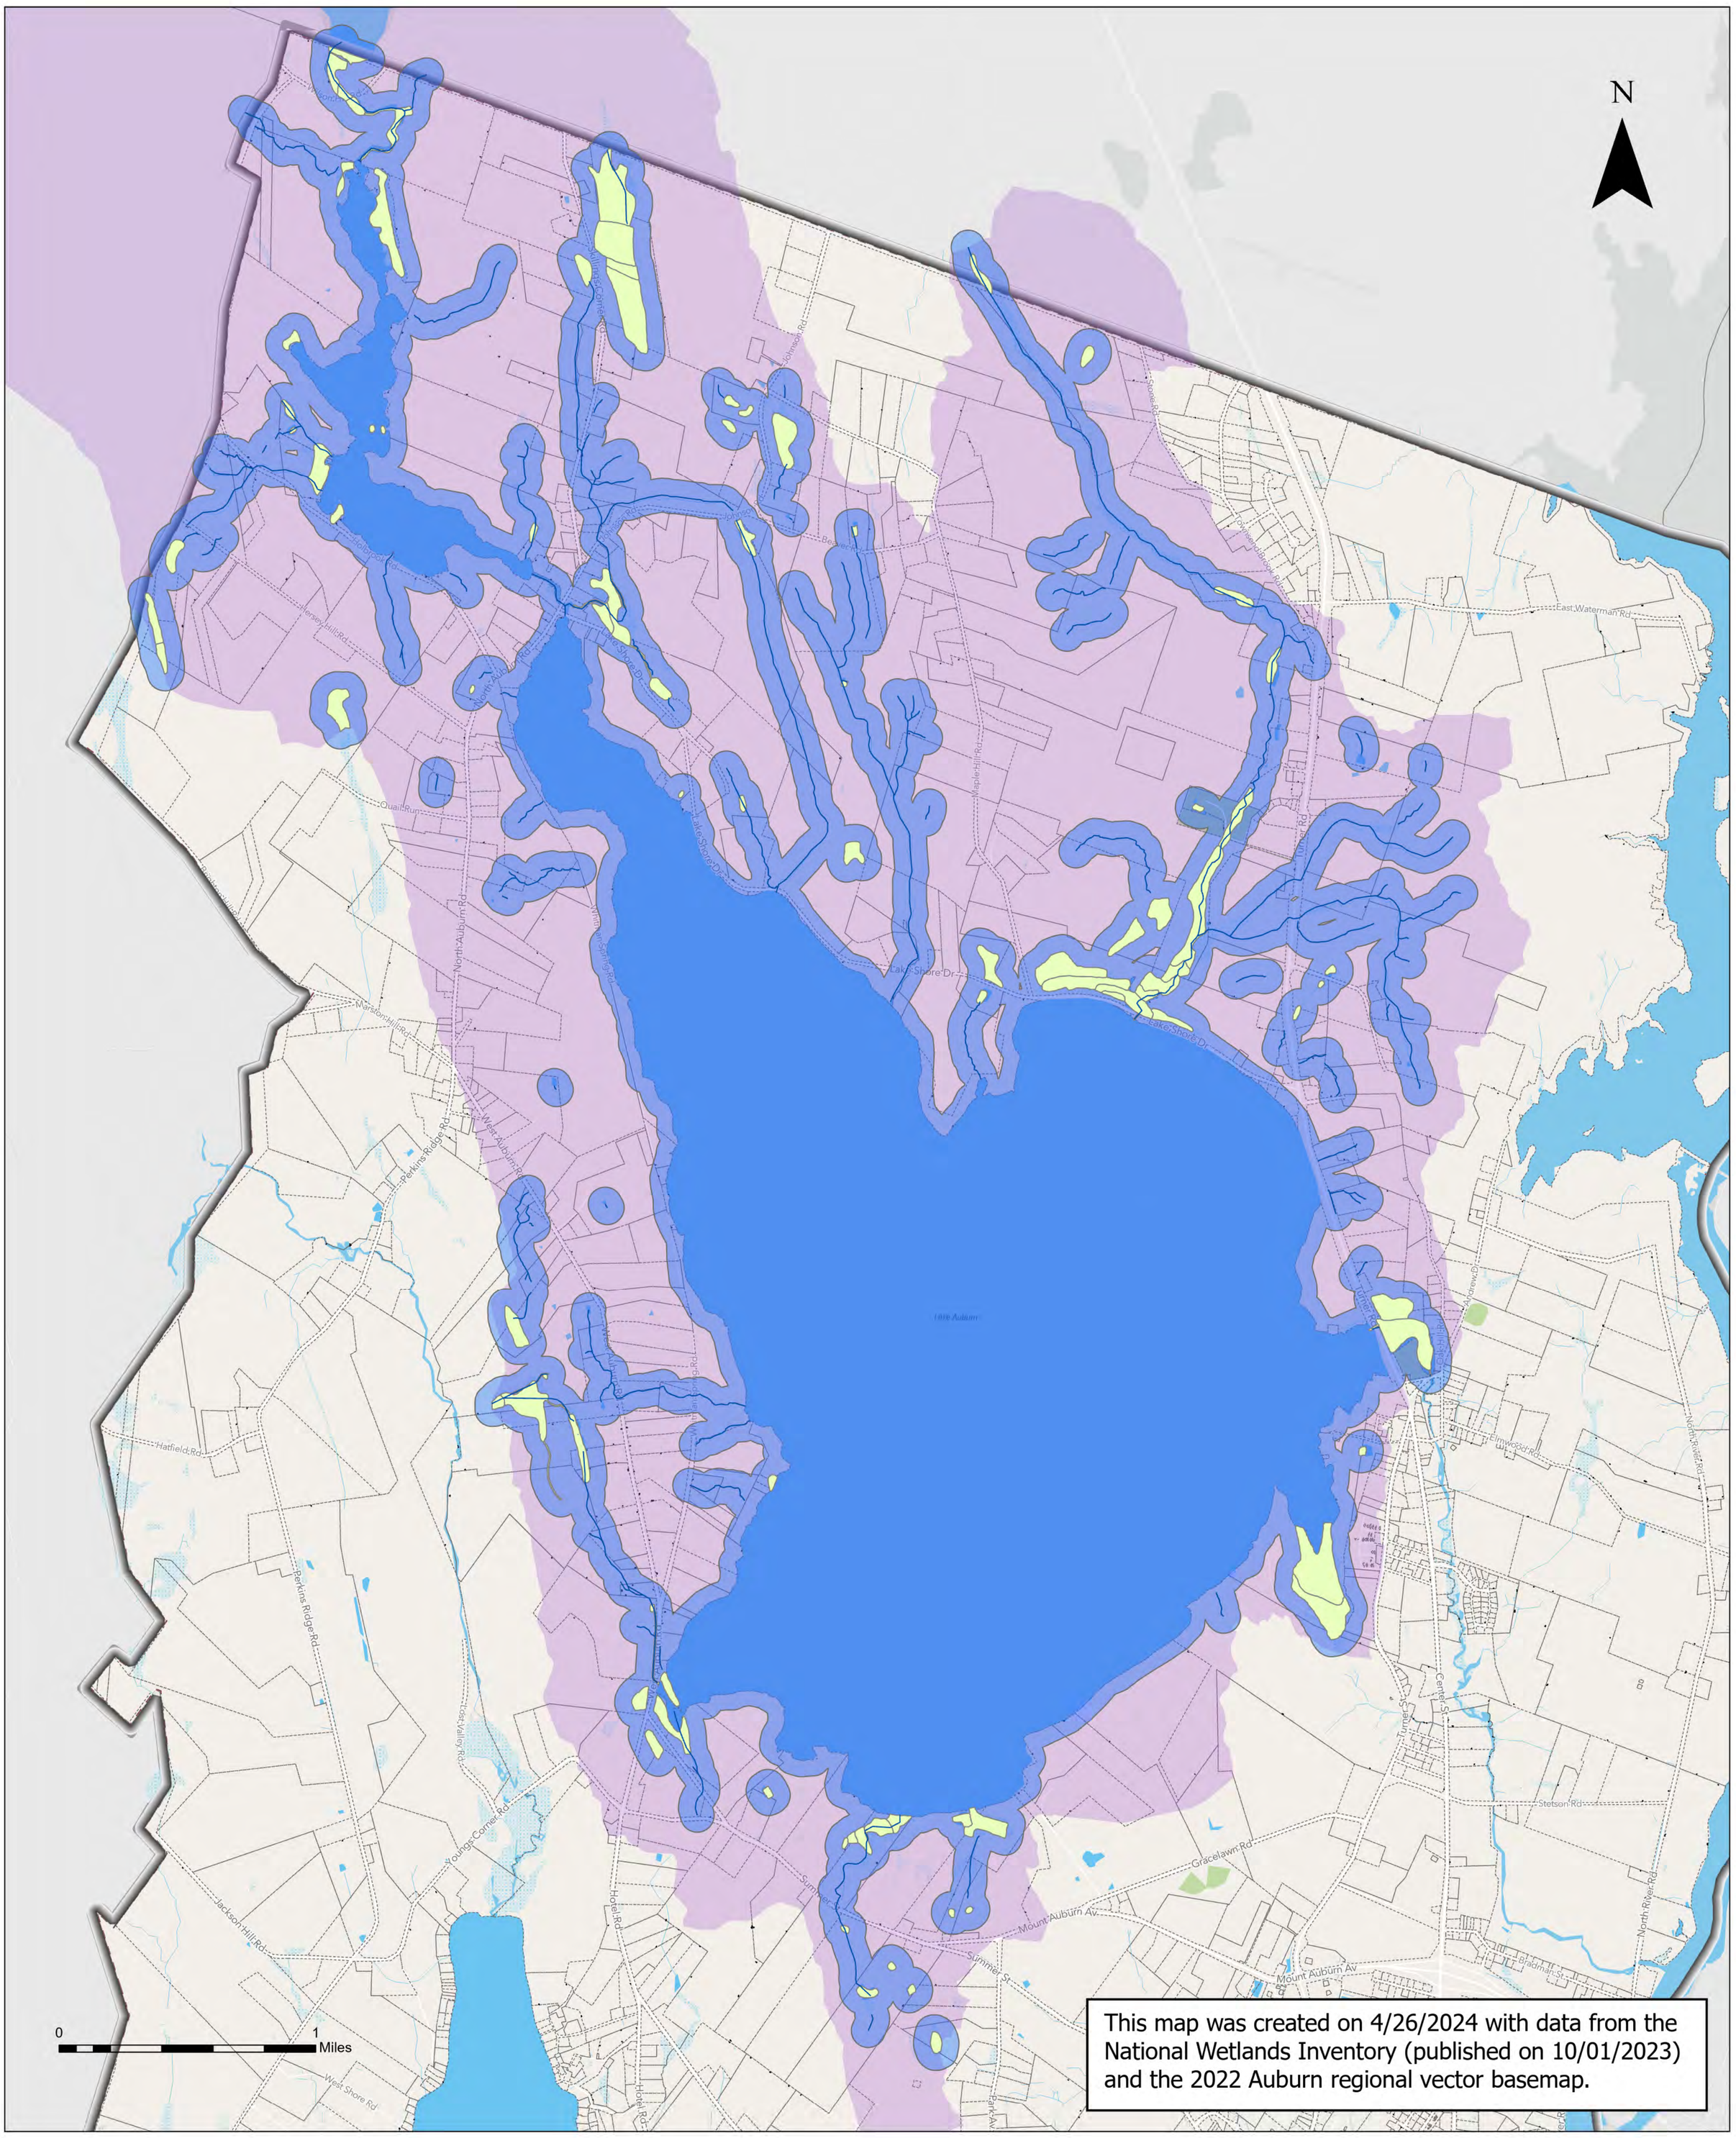
Council Workshop or Meeting Date: **September 3rd, 2024** **Order: 108-09032024**

Author: Planning & Permitting Staff

Subject: Order initiating Planning Board to review draft ordinance text and map changes by the Lake Auburn Stakeholders Group.

Information: In January of 2024, City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the make-up of Lake Auburn Stakeholders Group. Since that time the group (s) have met on numerous occasions to address continued concerns with protecting Lake Auburn utilizing the ordinance to drive that discussion on what is best for the two communities public water supply while putting into action items that will impact Sec. 60-952 (2) agricultural, forestry and erosion control with further considerations amending text amendments that will strengthen the ordinance for protections to the Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn. The proposed changes are detailed in the attached order and proposed text and maps. The overlay maps will follow existing watershed/overlay boundaries that will assist in the agricultural and forestry 250' buffers and further define natural resource features for buffers for a Planning Board Public hearing will be completed based on this directive.

City Budgetary Impacts: Staff Time



Staff Recommended Action: Staff recommends that the Council initiate the process for the proposed text change and map changes and send it to the Planning Board for a public hearing and council recommendation to City Council.

Previous Meetings and History: Order 04-01022024 on January 2nd, 2024, initiated this discussion and created a working group. Between January and May 1st of 2024 the created Lake Auburn Stakeholders Group have met on numerous occasions (9 times) to address continued concerns with protecting Lake Auburn.

City Manager Comments:
I concur with the recommendation. Signature: Phillip Crowell J.

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city department of planning and permitting services and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying districts within such section. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.

Animal unit has the same meaning as in section 60-2.

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.

Curtain drain means a tranch to intercept laterally moving ground water and divert it away from a septic system disposal field.

~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~

~~(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~

~~(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.

Livestock has the same meaning as in section 60-2.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.

~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting in order to qualify as organic fertilizer. Organic fertilizers are broken down by and feed the microbial life in the soil.

Pest shall have the same meaning as the term set forth in 40 C.F.R.§ 152.5, as the same may be amended from time to time.

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.

Poultry means domesticated birds.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistence of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent

material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Also sometimes referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.

Wetland, see NWI Wetland.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural use~~s~~.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if:

(1) The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that

a. Such use, or expansion of such use, will not cause groundwater contamination ~~and~~ , will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and

b. The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management.

(2) ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee.

(3) The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of this Subsection 2(a)(1)(b) no later than June 30, 2027.

(4) The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division.

(b) *Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in the Lake Auburn Watershed Overlay District. Pursuant to 30-A M.R.S.A. 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(c) *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula shown in the definition of Farm, Livestock as shown in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot.

(~~c~~d) ~~*Agricultural*~~ *Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an

untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(~~d~~e) *Manure and sludge spreading, storage, and disposal.* The s~~S~~preading ~~and~~ or disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover.~~All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non- synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed).

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(7) Pesticides shall be stored, mixed, loaded, and applied:

a. pursuant to the specific manufacturer's storage instructions on the pesticide label or container; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time; and

e. shall not be applied by aerial spraying.

(~~e~~h) *Erosion control.* ~~The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:~~

~~(1)~~ Any exposing, moving, removal, or stockpiling of soil, or the removal of vegetative cover~~earth cutting, moving or removal activities~~ that will result in erosion or runoff which increases sedimentation of ~~Lake Auburn, or any tributaries or other water bodies in the watershed~~any lake, pond, stream, brook, or NWI Wetland in the Lake Auburn Watershed Overlay District ~~are~~ is prohibited.

~~(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.~~

(~~3~~i) ~~Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.~~

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. From time to time, the director, or their designee, may require the approved harvest plan to be amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn.

1. *Subsurface Wastewater Disposal Systems.*

(f) *Private subsurface wastewater disposal systems.* The following regulations shall be adhered to in the development of private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design criteria are met before the LPI finds the design or installation of the system to comply with this section.

(2) No new disposal field shall be installed closer than 400 feet to the normal high-water mark of any lake, pond, or year-round or intermittent stream (as depicted on a 7.5 minute series USGS topographic map, dated 1981). Where the daily wastewater flow is or is reasonably likely to be in excess of 2,000 gallons, the system shall be located at least 1,000 feet from the normal high-water mark of any lake, pond or year-round or intermittent stream.

(3) All disposal fields, replacement or new, shall meet the design criteria set forth in subsection (f)(1) above, except that if a replacement system disposal field cannot meet the design criteria set forth in subsection (f)(1) above, the local plumbing inspector must, in consultation with and the concurrence of the Auburn Water District, or its designee, evaluate the design and then require the disposal field to meet as much of the design criteria as is physically possible under the site-specific circumstances.

(4) All private subsurface wastewater disposal systems, replacement or new, shall either have:

a. A curtain drain installed per Section 11(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2015), as may be amended from time to time; or

b. A diversion ditch, upslope of the disposal field, installed for the disposal field's entire length (including fill extensions), whichever installation in determined to be the most appropriate based on the evaluation of groundwater conditions on the site by a state licensed site evaluator.

The local plumbing inspector shall require that a state licensed site evaluator affirm that one of these two types of installation is part of the design of the system before the LPI finds the design or installation of the system to comply with this section.

(5) All private subsurface wastewater disposal systems, replacement or new, shall be installed on the same lot as the dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of a replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the replacement system's location on adjacent lots.

(6) Commencing July 1, 2024, LAWPC or its designee shall have the right to inspect all private subsurface wastewater disposal systems in the Lake Auburn Watershed Overlay District every five years and/or at the time that a property sold, whichever time frame is deemed most appropriate by LAWPC or its designee.

(7) The Auburn Water District or its designee shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the health officer, police chief, local plumbing inspector or housing inspector of any observed defects or malfunction that require abatement action by the property owner or operator.

(8) The local plumbing inspector shall furnish a copy of all site evaluation reports in the Lake Auburn Watershed Overlay District to the Auburn Water District or its designee.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

All buildings and structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 75 feet inland from the normal high-water mark. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages or other structures. Marinas and boat rental facilities shall not be permitted within 75 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)

Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

ORDER 108-09032024

City Council Order

IN CITY COUNCIL

Ordered, That the Auburn City Council Initiates consideration of an amendment from the Lake Auburn Stakeholders Group and refers the attached text and maps to the Auburn Planning Board for Public Hearing and a Recommendation pursuant to Chapter 60, Article XVII. Amendment include Chapter 60, Article II, Chapter 60, Chapter 60, Article XII, Division 4, Lake Auburn Watershed Overlay District and amendments to the Zoning Map. The intent is to consider text amendments that will strengthen the ordinance for protections to the Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn. The overlay maps will follow existing watershed/overlay boundaries that will assist in the agricultural and forestry uses and further define natural resource features for 250'buffers. Materials for a Planning Board Public hearing has been completed based on the directive in Order 04-01022024.

City Council Information Sheet

Council Workshop or Meeting Date: September 3, 2024, **Order: 109-09032024**

Author: Glen E. Holmes, Director of Business & Community Development

Subject: Lease City owned Property to Auburn Riverwalk, LLC

Information:
The Owners of Auburn Riverwalk, LLC expressed interest in leasing a small section of city owned property to use in conjunction with their tenant (Gritty's). They are willing to maintain the proposed area and keep it well landscaped and in good repair. Staff discussed the possibility internally and saw no negative outcomes as the property is along the Riverwalk and has good potential to allow the business to provide additional amenities to residents and guests. The lease will allow them to use the space and require them to continue maintenance and either party can terminate with in a short time period.

City Budgetary Impacts: NONE

Staff Recommended Action:
Approve order as presented.

Previous Meetings and History:
NONE

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Draft Lease

Land Lease Agreement

This Land Lease Agreement ("Lease") is made and entered into this ___ day of _____, 2024, by and between the **City of Auburn**, a municipal corporation organized under the laws of the State of Maine with a mailing address of 60 Court Street, Auburn ME 04210 ("Lessor"), and **Auburn Riverwalk, LLC**, a limited liability company organized under the laws of the State of Maine with a mailing address of 155 Center Street, Auburn ME 04210 ("Lessee").

1. Leased Premises.

Lessor hereby leases to Lessee, and Lessee hereby leases from Lessor, approximately 2,000 square feet of land as delineated in attached Exhibit A, which is adjacent to the property located on Main Street described as Parcel 241-017, such land being a portion of Parcel 241-021, , hereinafter referred to as the "Leased Premises," in common with Lessor, its tenants, agents, employees, and invitees.

2. Term.

The term of this Lease shall be for a period of ten (10) years commencing on the ___ day of _____, 2024, and ending on the ___ day of _____, 2034, or such earlier date as Gritty McDuff's Brew Pub discontinues as a tenant of Lessee at the above Main Street location, unless sooner terminated in accordance with the provisions of this Lease.

3. Rent.

Lessee shall pay to Lessor an annual rent of One Dollar ($1.00), payable in advance on the first day of each lease year.

4. Use of Premises.

The Leased Premises may be used by Lessee solely for any allowed business use associated with their current tenant, Gritty McDuff's Brew Pub. The Leased Premises shall not be sublet in whole or in part nor shall this Lease be assigned or transferred, without the prior express written consent of Lessor.

5. Maintenance and Care.

Lessee accepts the Leased Premises in "as-is" condition as of the commencement date of this Lease. No modifications to the Leased Premises by Lessee or its tenant shall be permitted without the express written permission of Lessor. Lessee shall, at its sole cost and expense, maintain the Leased Premises in good order, condition, and repair, including but not limited to, all necessary landscaping, mowing, snow removal, and trash removal. Lessee shall not commit or allow any waste on the Leased Premises. All property belonging to Lessee, its tenant, or either party's employees, agents, or invitees shall be present on the Lease Premises at their own risk and that of such other persons only, and Lessor shall not be liable to damage thereto or theft or misappropriation thereof.

6. Insurance.

Lessee shall maintain comprehensive general liability insurance in an amount not less than $1,000,000 per occurrence and $2,000,000 aggregate, naming the City of Auburn as an additional insured. Proof of such insurance shall be provided to Lessor upon request.

7. Termination.

Lessor reserves the right to terminate this Lease upon ninety (90) days' written notice to Lessee if it determines for any reason in its sole discretion that the Leased Premises are needed for municipal use. In addition, if Lessee fails to comply with any of the terms and conditions of this Lease, Lessor shall notify Lessee of such default.

Lessee shall have thirty (30) days from receipt of such notice to cure the default. Should Lessee fail to cure the default, Lessor shall have the right to immediately terminate this Lease. Upon any termination of the Lease, Lessee shall vacate the Leased Premises and remove all personal property therefrom at its own expense, and is responsible for ensuring that at the end of the Lease term, the Leased Premises are in the same condition as they were prior to the commencement of the Lease, reasonable wear and tear excepted. Any property required to be removed by Lessor shall become the sole and personal property of Lessor, and Lessor may dispose of it at its discretion. Lessee shall promptly pay Lessor for all costs incurred in any such removal and/or disposal.

8. Compliance with Laws.

Lessee shall comply with, and shall be responsible for its tenant's compliance with, all local, state, and federal laws, ordinances, regulations, and requirements now in force or which may hereafter be in force pertaining to the use of the Leased Premises. Lessee and its tenant shall secure, at its sole cost and expense, all licenses and/or permits necessary for it to conduct any activities on the Leased Premises.

9. Indemnification.

Lessee shall assume all risks incident to the use of the Leased Premises by Lessee and its tenant, and shall indemnify and hold harmless Lessor from and against any and all claims, demands, actions, or causes of action, losses, liabilities, damages, or expenses arising out of or in connection with Lessee's or its tenant's, or their employees', agents', or invitees' use of the Leased Premises.

10. Notices.

Any notice required or permitted under this Lease shall be in writing and delivered in person or deposited in the United States mail, postage prepaid, addressed as follows:

If to Lessor:
City of Auburn
60 Court Street
Auburn, ME 04210
Attn: Director of Business and Community Development

If to Lessee:
Riverwalk LLC
[Address]
[City, State, ZIP]
Attn: [Name]

Such notices shall be deemed effective upon receipt or refusal of receipt. A party may change their above address at any time by the giving of written notice as provided.

11. Binding Effect; Entire Agreement.

This Lease shall be binding upon the parties hereto, their heirs, successors, and assigns. This Lease contains the entire agreement between the parties and shall not be modified except by a written agreement signed by both parties.

IN WITNESS WHEREOF, the parties hereto have executed this Lease as of the day and year first above written.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 3, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) for an economic development matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 16, 2024

Author: Amanda Denning, Purchasing Analyst

Subject: Solid Waste and Recycling Report Review

Information: Subcommittee members of the Sustainability and Natural Resource Management Board presented a Solid Waste and Recycling report to City Council on August 19th, 2024 to be reviewed during subsequent workshop. This plan includes recommendations for the City's Request for Proposal that will be issued for potential contract services for Solid Waste and Recycling.

City Budgetary Impacts: Unknown

Staff Recommended Action: Discussion

Previous Meetings and History: City Council Order 14-01162024, Public Hearing 6/27/2024, 15+ subcommittee meetings between March and August of 2024, City Council meeting 8/19/2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Solid Waste & Recycling Report, Solid Waste & Recycling Collection and Disposal Contract Draft RFP

August 28, 2024

Dear Bidder:

The City of Auburn is accepting written proposals from qualified Bidders for the Auburn **Solid Waste and Recycling Collection and Disposal Contract**. This includes furnishing all labor, equipment and materials required to satisfactorily collect and dispose all solid waste, recycling, and all other incidental work necessary. The City reserves the right to accept or reject any or all proposals in whole or in part and to waive any informality the City may determine necessary. The City also reserves itself the exclusive right to accept any proposals when it is deemed by the City to be in its best interest. The City of Auburn is governed by Title 1 M.R.S.A. § 401-410, otherwise known as the Freedom of Information Act, which considers bid specifications as public documents. In awarding any proposal, the City may consider, but not be limited to, any of the following factors: Bidder qualifications, price, experience, financial standing with the City, warranties, references, bonding, delivery date, and service of Bidder. Vendors/Contractors shall be current on all amounts due to the City of Auburn prior to the City entering into any contract agreement. All proposals must include FOB to Auburn, Maine unless otherwise specified.

Proposals will not receive consideration unless submitted in accordance with the following instructions to bidders. Please mark **sealed** envelopes plainly: "**BID# 2025-008 Solid Waste and Recycling Collection and Disposal"**

Please respond to Amanda Denning, Purchasing Analyst, via email adenning@auburnmaine.gov with your intent to submit a proposal. Site visits can be scheduled as needed through this same email.

Questions regarding this Request for Proposals should be submitted in writing to Amanda Denning, Purchasing Analyst, at adenning@auburnmaine.gov , via email by **4:00PM, ____ 2024**. All questions and answers will be posted to the City website in the form of an addendum by **4:00PM**, **____ 2024**. https://www.auburnmaine.gov/Pages/Government/Bid-Notices

Please submit your proposal to the City of Auburn by **2:00 p.m. _____ 2024.** Proposals will be opened at 2:00 p.m. Proposals must be delivered to **Amanda Denning, Purchasing Analyst, 60 Court Street, Auburn, ME 04210** on or before the date and time appointed. No proposals will be accepted after the time and date listed above.

Sincerely,

Amanda Denning
Purchasing Analyst

CONDITIONS AND INSTRUCTIONS TO BIDDERS

1. Bidders shall use the enclosed bid form and schedule of values forms for quotations. Whenever, in bid forms, an article is defined by using a trade name or catalog number, the term **"or approved equal"**, if not inserted, shall be implied.

2. Submit a separate unit price for each item unless otherwise specified in the bid request. Award will be made on a basis of each item, or as a group, whichever is in the best interest of the City. Prices stated are to be "delivered to destination".

3. Bid proposals must be completed in full, in ink, and must be signed by firm official. Bid proposal **must be notarized** prior to bid being sealed and will be disqualified if not notarized. Bids may be withdrawn prior to the time set for the official opening.

4. Bids will be opened publicly. Bidders or representatives may be present at bid opening.

5. Awards will be made to the lowest responsible bidder, considering the quality of the materials, date of delivery, cost which meets specification and is in the best interest of the City of Auburn.

6. All transportation charges, including expense for freight, transfer express, mail, etc. shall be prepaid and be at the expense of the vendor unless otherwise specified in the bid.

7. The terms and cash discounts shall be specified. Time, in connection with discount offered, will be computed from date of delivery at destination after final inspection and acceptance or from date of correct invoice, whichever is later.

8. The City is exempt from payment of Federal Excise Taxes on the articles not for resale, Federal Transportation Tax on all shipments and Maine Sales Tax and Use Taxes. Please quote less these taxes. Upon application, exemption certificate will be furnished with the Purchase Order when required.

9. Time of delivery shall be stated. If time is of the essence, the earliest date may be a factor in the bid award.

10. No contract may be assigned without the written consent of the Finance Director or her designate. The contract shall not be considered valid until a purchase order has been issued to the successful bidder.

11. Please state **"Bid #2025-008 Solid Waste and Recycling Collection and Disposal"** on submitted sealed envelope.

12. The City of Auburn reserves the right to waive any formality and technicality in bids whichever is deemed best for the interest of the City of Auburn

13. Bidder will clearly outline all options that are included in the bid price.

GENERAL CONDITIONS

1. Equal Employment Opportunity

The City of Auburn is an Equal Opportunity Employer and shall not discriminate against an applicant for employment, and employee or a citizen because of race, color, sex, marital status, physical and/or mental handicap, religion, age, ancestry or natural origin, unless based upon a bona-fide occupation qualification. Vendors and contractor or their agents doing business with the City shall not violate the above clause or the Civil Rights Acts of 1964. Violations by vendors shall be reviewed on a case-by-case basis and may mean an automatic breach of contract or service to the City of Auburn.

2. Save Harmless

The Bidder agrees to protect and save harmless the owner from all costs, expenses or damages that may arise out of alleged infringement of patents of materials used.

3. Subcontracting

The Bidder shall not subcontract any part of the work or materials or assign any monies due it without first obtaining the written consent of the municipality. Neither party shall assign or transfer its interest in the contract without the written consent of the other party.

4. Warranty

The Bidder warrants that all work will be of good quality and free from faults and defects, and in conformance with the specifications. All work not so conforming to these standards may be considered defective. The Bidder agrees to be responsible for the acts and omissions of all its employees and all subcontractors, their agents and employees, and all other persons performing any of the work under a contract with the Bidder.

5. Bonds, Retainage and Payments

Payment and performance bonds will be required from the contractor who is awarded this contract. Retainage in the amount of 10% will be held from each progress payment and shall be released at the discretion of the Project Manager. Payments shall be made by the City to the Contractor 30 days after receipt of the request for payment.

Scope of Work

a. Introduction

The population of Auburn is approximately 24,000 and there are approximately 11,000 dwelling units. The total number of solid waste and recycling collection stops is approximately 6,300. The annual weight of solid waste collected is approximately 8,500 short tons. The annual weight of curbside recyclables collected is approximately 365 short tons, while the annual weight of recyclables collected from a single drop off site is approximately 195 short tons.

The City encourages proposing vendors to submit their best proposal possible. The City proposes multiple scenarios. The City may consider a single-stream approach, dual-stream approach, and/or an "alternate" proposal scenario, if collection design and price implications prove to be financially and environmentally advantageous.

b. Existing Service

The City currently provides weekly manual solid waste curbside collection and every other week single-stream recycling curbside collection throughout the City to all eligible residential units and municipal properties. Recyclable materials include fiber products and plastics. A drop off recycling station is open to residents on Gracelawn Rd by Auburn Public Works.

c. Intended Service

1) It is the intent of these Bid Specifications to require the complete and satisfactory curbside collection and disposal of Auburn's solid waste and recycling generated at Residential Properties, Multiple Unit Apartment Buildings and from Auburn's Publicly Owned Buildings.

2) The City is seeking a qualified Contractor to provide the following services for curbside collection of solid waste and recycling with the following specifications:

    a) Solid waste and recycling will be collected on a regular schedule, Monday through Friday, in the areas designated in the attached route documents, unless otherwise agreed upon mutually between City and Contractor.

    b) Solid waste will be collected on a weekly basis; recycling will be collected on a weekly or bimonthly basis.

    c) Curbside collection of solid waste and recycling will be provided for single family homes and owner-occupied apartment buildings, up to four units.

    d) No commercial solid waste or recycling is to be collected.

    e) The Contractor shall dispose of all solid waste at Maine Waste to Energy, Goldthwaite Road, Auburn, ME.

    f) The Contractor shall have the ability to add personnel and equipment as needed during periods of inclement weather conditions (severe storm events or snow fall, etc.). The Contractor shall remove all solid waste and recyclable materials that is placed at curbside each week and is covered by these Bid Specifications.

g) Any alternative proposal regarding solid waste and recycling collection and disposal deemed beneficial by the City.

d. Service Exceptions

Solid waste and recyclable materials are collected on all regular business days throughout the year except on the following holidays: New Year's Day, Independence Day, Thanksgiving Day, and Christmas Day. If Christmas occurs on a weekday, solid waste will be collected on the following Saturday.

e. Contractor Responsibilities

1) Each Bidder is required to become completely familiar with all the physical characteristics of Auburn, which includes the facilities for solid waste disposal (MWE) and recyclable materials processing

2) It shall be the responsibility of the Contractor to learn and adhere to the City's policies and ordinances as they relate to solid waste collection and disposal, unless specified otherwise in these Bid Specifications

3) The Contractor shall be responsible for all containers damaged through mishandling during solid waste and recycling collection operations. The Contractor shall replace any container damaged in this fashion with a similar container. The Contractor shall ensure that no solid waste or recycling remains or falls on the ground or in the traveled way after solid waste and recycling collection is completed.

4) All equipment, materials, and labor required to complete the collection of solid waste and recycling shall be supplied by the Contractor. The Contractor agrees to operate the packing unit of the collection body as needed to prevent any solid waste or recycling from being deposited or blown from the collection hopper into the travel-way. All collection trucks provided by the Contractor shall have packer type bodies designed to prevent spillage. The Contractor shall comply with all Federal and State Laws and Regulations and City Ordinances and Policies relating to the collection, transportation and disposal of solid waste and recycling. The Contractor shall maintain all collection vehicles, including any reserve vehicles, and equipment used in the performance of this contract, in good operating condition and repair, in accord with all pertinent State laws such as inspection and weight limit laws. This also includes being neatly and uniformly painted, properly identified and thoroughly clean and in sanitary condition throughout the term of this Contract. At no time during its term shall the Contractor be unable to comply with any and all of the provisions of the Contract due to the condition of its vehicles or equipment.

5) No scavenging of solid waste/trash or recycling shall be permitted by the Contractor's employees during solid waste and recycling collection procedures.

6) No solid waste collection or recycling vehicle shall be emptied or partially emptied or load transferred in any street within Auburn, unless approved by the City. All solid waste shall be hauled to MWE for disposal. The exception will be in the event of a hot load.

7) If, in the opinion of the Contractor, solid waste or recyclable materials placed curbside should not be collected by the Contractor due to a violation, or exception to the terms of these Bid Specifications, the Contractor shall notify the Resident by attaching a tag to the solid waste or recycling container or door of the residence. The tag shall state the reasons why the solid waste or recycling was not collected. The Contractor shall report this information, as soon as practicable, to the City. Electronic wastes, such as televisions, computers and computer components, are not to be picked up by the Contractor and should be left behind with a tag attached stating that such items are to be brought by the owner to the specified drop site.

8) All solid waste collected pursuant to these Bid Specifications shall be collected by vehicles which are empty and devoid of any solid waste prior to the start of the day's collection route. The Contractor may be required, at the sole discretion of the City, to undergo spot checks of their vehicles and to weigh in at a scale designated by Auburn prior to the start of the day's collection route. The Contractor agrees to establish tare weights for all their solid waste collection vehicles at the commencement of this Contract or as collection vehicles are replaced during the term of this Contract. The Contractor shall collect, haul and dispose only solid waste specified in these Bid Specifications. Co-mingling the City's solid waste with solid waste from other communities or commercial sources will be cause for terminating this Contract and may result in further legal action by the City.

9) Contractor is responsible to inform the Public, by a means acceptable to the City, of the holiday solid waste and recycling collection schedule.

10) Contractor is responsible for providing support for accurate, verifiable data collection to the City regarding all aspects of solid waste and recycling management in the forms of monthly and annual reports.

11) Collection Services

Auburn City and School Buildings shall receive the following weekly collections services:

Location	Address	Trash	Recycling	Notes
City Buildings:				
Public Works	296 Gracelawn Rd	1	1	
Auburn Hall	60 Court St	2	2	
Recreation Department	48 Pettengill Park Rd	1	1

12) Contract Term

a) Upon entering a service contract, the Contractor shall begin solid waste collection service on January 1, 2025The Contractor's Representative, or their duly authorized designee, shall be on-call and reachable without delay, Monday through Friday, 7:00 a.m. through 5:00 p.m.

b) Unless terminated for breach of contract, the proposed Contract will extend for 5 years, renewable thereafter upon mutual consent.

c) This Contract may not be assigned, sublet, or transferred without the written consent of the City.

d) Renewal of Contract

If the City elects to extend the Contract at the end of the fifth year, the City shall notify the Contractor thirty (30) days prior to the anniversary date. The Contractor will be allowed to adjust the rates of service for the sixth and seventh year to reflect the percentage increase in the U.S. City Average Consumer Price Index for all Urban Consumers (CPI - U) as published in the U.S. Department of Labor, Bureau of Labor Statistics.

13) Complaint Resolution

a) The Contractor will provide prompt responses to all customer concerns regarding the safe collection of solid waste. The Contractor will document all complaints, names, addresses, contact information, and remedies.

b) The Contractor shall forward weekly to the Public Works a list of customer complaints which were received during the solid waste collection activities. All complaints received by the Contractor shall be investigated and resolved by the Contractor's Representative within 24 hours or the next business day. The Contractor shall agree that whenever the City notifies them, in writing, that the level of service the City is receiving is unsatisfactory, unresponsive to complaints concerning the level of performance of collection and pick-up services, or the Contractor is unable to deal with members of the public in a tactful and satisfactory manner, the Contractor's Representative shall investigate and resolve the complaint in a method satisfactory to the City.

14) Contract Administration

a) The City shall administer the provisions of these Bid Specifications. The collection schedule, the method of collection, and the disposal of solid waste must all be in a manner satisfactory to the City. Decisions of the City will be final and a condition precedent to the right of the Contractor to receive payment under their respective Contract.

b) The City reserves the right to add or delete portions of the work required under these Bid Specifications.

c) The City reserves the right to renegotiate acceptable, included recyclable materials for collection and disposal.

d) The City reserves the right to add an additional drop off site for recycling if deemed necessary; this site will be included in weekly City Building collection schedule.

15) Funding

This project is being funded entirely by the City. No federal or State funds are proposed to be used in performance of the work described in these Bid Specifications.

16) Special Conditions for Transport to MMWAC

a) Solid waste collected under the terms of these Bid Specifications shall be hauled to MMWAC's during the facility's normal operating hours or if necessary, an alternative location in the event of a close-down or shut-down of MMWAC. Should this occur, the City and Contractor shall negotiate market rates for added transportation.

b) As per City Ordinance, miscellaneous quantities of leaf and yard wastes are permitted as a portion of the waste stream. Additionally, during the fall leaf drop season bagged leaves will be collected along with other regular household wastes. During this several week period approximately 200 tons of leaves can be anticipated. No additional compensation to the Contractor will be provided.

17) The Contractor is responsible for providing the appropriate training and personal protective equipment necessary to protect the health and safety of its own employees.

Contractor Qualifications

a. The bidding Contractor shall complete the attached Bidder's Questionnaire (Section 9) and include this information with their submitted proposal. The completed questionnaire provides the City with information to demonstrate the bidding Contractor has the required experience and meets the qualifications required to satisfactorily complete the service contemplated in these Bid Specifications. Completion and submittal of the Bidder's Questionnaire is required to be submitted with the Contractor's proposal.

b. The only Bidders who will be considered will be those who have clearly demonstrated their financial and operational capacity to fully execute this proposal.

c. Inventory of Equipment

The Contractor shall make all vehicles and equipment listed in the attached Bidder's Questionnaire available for inspection and approval by the City prior to the implementation of this Contract. The Contractor shall present any and all collection vehicles, and other equipment used in the collection and transport of solid waste under this Contract, for inspection and approval by the City at such times and places as they may reasonably request. The City reserves the right to accept any and all equipment and vehicles proposed by the Contractor for the performance of work described in these Bid Specifications. The Contractor shall file updates to this list provided in the Bidder's Questionnaire so that the City has at all times an accurate list of all vehicles and equipment currently being used by the Contractor in the performance of this Contract. The Contractor shall notify the City prior to the addition of another vehicle or the substitution of any vehicle. New or substitute vehicles may, at the option of the City, be inspected and approved prior to being used by the Contractor for performance of an awarded contract.

Bonding

a. Proposals will only be considered if accompanied by separate bid securities in the form of a bond or certified check in the amount of five percent (5%) of the total Bid price, made out in favor of the City of Auburn. All bid securities will be released upon deliverance of a signed Contract or, if no Contract award is made, within forty-five (45) days after the opening of the proposals, unless forfeited as a result of a failure to execute the contract or to provide the required performance bond.

b. To guarantee against breach of contract or default, the successful Bidder shall be required to secure a performance bond held and firmly bound onto the City of Auburn, 60 Court Street, Auburn, Maine 04210. Performance Bonds shall be required of the successful Bidder in a form acceptable to the City, executed by a surety company duly authorized to do business in the State of Maine, in the amount of one hundred (100%) percent of the total sum for the first year (twelve calendar months) and of the Contract as security for the faithful performance of this Contract.

Insurance and Liability

a. The Contractor shall implement and maintain a workplace safety program in concurrence with the occupational health and safety standards germane to manual solid waste collection services. The Contractor shall indemnify and hold harmless the City for any injuries or accidents sustained while Contractor performs work or activities contained in these Bid Specifications.

b. The Contractor shall procure and maintain for the life of this Contract insurance of the types and to the limits specified below. Certificates of such insurance showing policies and adequacy of protection shall be filed with the City for approval before permission to commence work will be granted.

c. Insurance Requirements

    1) Workers' Compensation Insurance for all individuals employed at the site of the project; and, in case any work is sublet, the Contractor shall require the sub-Contractor similarly to provide coverage its employees in accordance with State of Maine laws in effect and the requirements of the Industrial Accident Commission.

2) General Liability Insurance with minimum limits of liability for bodily injury in the amount of $500,000 combined single unit and minimum limits of liability for property damage in the amount of $100,000 combined single limit. General liability coverage shall include Owners' or Contractors' Protective, Product and Completed Operations, Comprehensive, Explosion (X), Collapse (C), and Underground (U) coverage.

3) Automotive Liability Insurance with minimum limits of liability for bodily injury in the amount of $500,000 for each occurrence and minimum limits of liability for property damages in the amount of $100,000. Automobile liability coverage shall include owned, hired, and non-owned vehicles.

Miscellaneous

a. Each Bidder shall make his/her own examinations and estimates and shall not hold the City, its agents, or employees responsible for, or bound by, any schedule, estimate, or any plan thereof; and shall, if any error in any plan, drawing specifications or direction relating to anything to be done under this Contract comes to his/her knowledge, report it at once, in writing, to the Director of Public Works. The cost and expense of all the necessary labor, tools and equipment required to complete the work shall be included in the prices stated in the proposal.

b. The Bid Solicitation, Bid Sheets, and Contractor Proposals shall become part of the entire contract between the parties.

c. Payments

The City shall make monthly payments for the faithful performance of the contract unless a breach of contract occurs, the contract is terminated, the Contractor fails to perform, etc.

d. Fuel

If permitted by Maine Revenue, the City may have the successful Contractor fuel equipment used for the purpose of Auburn's solid waste collection at the Auburn Public Works facility. Under this scenario, bids must be submitted with prices both inclusive and exclusive of fuel costs and anticipated annual gallonage. Under this latter scenario, Contractor shall provide the City with monthly mileage and fuel consumption data. The City will independently track gallonage from pump information.

e. Safety

1) Solid waste placed curbside for collection may contain materials which could cause injury or illness to the Contractor's staff if mishandled, such as corrosive solid waste, toxic solid waste, solid waste which could transmit disease, and other non-hazardous solid waste. The Contractor is responsible for becoming familiar with any and all occupational hazards associated with the solid waste collection service.

2) The Contractor is required to conform to all work safety requirements specified in the pertinent Federal Occupational Safety and Health Administration (OSHA) laws and regulations, the Maine State Department of Labor Regulations and the City's Safety Policies and Ordinances, which apply to the performance of the duties described in these Bid Specifications and shall require any Subcontractors to abide accordingly. Any violation of these rules either by the Contractor or their Subcontractor shall be the sole responsibility of the Contractor.

f. Dispute Resolution Costs and Expenses

In the event of any dispute between or involving the City and Contractor, whether resolved by arbitration, litigation or some other mechanism of dispute resolution, in the event that the City shall be a prevailing party, Contractor shall reimburse the City for its attorney's fees and costs reasonably incurred in connection with the resolution of the dispute.

g. Duty to Notify City if Ambiguities Discovered

The Contractor shall not take advantage of any ambiguity, error, omission, conflict, or discrepancy ("ambiguity, etc.") contained in the Bid Specifications that may significantly affect the cost, quality, conformity, or timeliness of the work. If the Contractor discovers any such ambiguity, etc., for which the Contractor may seek adjustments to compensation, time, or other contract requirements, the Contractor shall provide a written notice stating the nature of the ambiguity, etc. within 48 hours of discovering or being notified of the ambiguity and before performing any work related to the ambiguity, etc. Failure to provide such written notice in compliance with the contract shall constitute a waiver of all claims related to the ambiguity, etc.

Definitions

a. Auburn: Whenever the term Auburn, or a pronoun in its stead, is used, it shall mean the City of Auburn, Maine, a municipality organized and regulated by the laws of the State of Maine.

b. Bidder: Companies that submit written proposals in accord with these specifications.

c. CL Miles: Center lane miles.

d. Contractor: The successful Bidder chosen by the City.

e. Director of Public Works or Director: Whenever the term Director of Public Works, Director, or a pronoun in their stead, is used, it shall mean the Director of Public Works of the City of Auburn, as applicable or his/her assistant or inspectors acting under him and limited to the particular duties entrusted to them.

f. Electronic Waste: The term used to describe old, end-of-life or discarded appliances using electricity.

g. MWE: Whenever the term MWE, or a pronoun in its stead, is used, it shall mean Maine Waste to Energy, a Maine non-capital stock, non-profit, quasi-municipal Corporation, located at 1 Goldthwaite Road, Auburn, Maine.

h. Multiple Unit Apartment Building: Whenever the term Multiple Unit Apartment Building, or a pronoun in its stead, is used for such properties located in Auburn, it shall mean an apartment building of four or more dwelling units.

i. Qualified Bidder: An organization or individual who, in the sole opinion of the City, meets the expectations of the bid including, but not limited to, the following: Bidder qualifications, price, experience, financial record, solvency, financial standing with the City, licenses, warranties, references, insurance bonding, delivery date, and service of Bidder.

j. Residential Property: Whenever the term Residential Property, or a pronoun in its stead, is used, it shall mean any property, (1) located within Auburn, upon which is situated a building(s), (2) a residential structure containing between one and three dwelling units, a

condominium, and/or owner-occupied apartment buildings containing between four and seven dwelling units.

k. Short Ton: Whenever the term Short Ton, or a pronoun in its stead, is used, it shall mean two-thousand (2,000) pounds.

l. Solid Waste : Whenever the term Solid waste , or a pronoun in its stead, is used, it shall include the following:

   1) Solid waste includes worthless, unimportant, rejected matter; litter, leaf, and yard waste; and any other residential household waste material so designated by the City, and shall include any description of solid waste as established by the State of Maine's Solid Waste Regulations (MEDEP Reg. Ch. 400).

   2) Solid waste does not include electronic waste, universal waste, and may or may not include cardboard (see section 9f).

m. Universal Waste: Any waste listed in section 3.A(13)(b) of Chapter 850, the Maine Hazardous Waste Management Rules, including but not limited to cathode ray tubes; mercury-containing lamps; mercury-containing thermostats; and totally enclosed, non-leaking polychlorinated biphenyl (PCB) ballasts.

Bidding Instruction/Process

a. Read Bid Specifications.

b. Submit letter of intent and include contact person information.

c. Submit any proposal questions in writing to Contact 2 listed in section 8, until five days prior to the due date.

d. Provide proof of bonding.

e. Submit proposals prior to bid date.

f. City will conduct a public bid opening, proceed with evaluating all proposals, and then make a contractual award to the successful Bidder in accord with these specifications.

8. Bidder's Questionnaire

Bidders are to submit under a separate cover, on their own letterhead, the answers to the following questions outlined in sections a-f below:

a. The Contractor's Organization

   Briefly describe the organizational structure of your firm and that of any proposed Subcontractors. The description will include the name and address of the owner, all principals and/or partners, and also include a certified copy of the firm's certificate to do business in the State of Maine.

   Provide a brief history of the Contractor's experience providing solid waste collection services.

State whether there are, or have been, any claims or litigation occurring within the past five years, pending against your firm. If so, state the nature of the claim, the parties involved, and the status of these claims.

b. Equipment

Identify the equipment you propose to utilize in the execution of this proposal. List all vehicles, specifying size, year, make, and model. The number of the vehicles to be used shall be specified, as well as the availability of stand-by equipment. Any auxiliary equipment which will be used in the collection of solid waste shall be specified as to type, year, and model. All leased equipment shall be separately listed and the time remaining on each leased machine shall be shown as well as options of renewal. The vehicles listed must be available for inspection, by the City, or its designee, prior to the award and implementation of a Contract. This statement must also indicate the specific location the vehicles will be parked at night.

c. Managers

Identify the key individual who will serve as the Contractor's Representative for this assignment and chief point of contact for all matters. Please provide a copy of the resume of the proposed Contractor's Representative and other key management staff that will be responsible for implementing this contract.

d. Complaint Resolution

Submit a copy of the proposed complaint resolution policy and procedures to be utilized by your firm in the event a resident is dissatisfied with your firm's service. In addition, attach a sample form that will be sent to City on a weekly basis detailing complaints received, disposition, and remedy.

e. References

List the names, addresses and telephone numbers of representatives of the current five largest municipal clients (not Auburn), located in Maine, the current contracted price for the municipality, the number of tons of solid waste collected, and the number of households serviced in each municipality that are receiving solid waste collection from your firm. Discuss your firm's experience with programs similar in nature/scope to the solid waste collection services described in these Bid Specifications. Describe your firm's current projects and explain how these projects will affect the service you will provide Auburn, in terms of workload and scheduling.

f. Cardboard Suggestions

Write a suggestion for how your organization would handle the disposal of loose cardboard. Include a working definition of the term "loose cardboard," specifications of what will and will not be picked up, alternatives to Contractor pick-up, and reasons for the above.

BID PROPOSAL FORM

Due: Thursday

To: City of Auburn
Amanda Denning
Purchasing Analyst
60 Court Street
Auburn, ME 04210

The undersigned individual/firm/business guarantees this price for thirty days (30) from the proposal due date. The undersigned submits this proposal without collusion with any other person, individual, or firm or agency. The undersigned ensures the authority to act on behalf of the corporation, partnership or individual they represent; and has read and agreed to all of the terms, requests, or conditions written herein by the City of Auburn, Maine.

By signing this form, the firm listed below hereby affirms that its bid meets the minimum specifications and standards as listed above.

Detailed Report – pp. 5 - 15

Figures – pp. 16 - 18

List of Interviews – p. 19

2024 SOLID WASTE TASK FORCE | EXECUTIVE SUMMARY

Current household solid waste management contracts for the City of Auburn are expiring at the end of this year. The City Council has instructed the Sustainability and Natural Resources Board to evaluate Auburn's solid waste management system, including how household solid waste is collected, processed and disposed of. The findings in this report are intended to support the city in its writing of new solid waste agreements. An important context for these recommendations is the state's soon-to-be-launched EPR (Extended Producer Responsibility) program. In a volatile and rapidly changing market for recyclables, the Maine EPR will provide new revenue to support recycling programs and other solid waste initiatives in participating municipalities. This is an optimal moment for Auburn to re-evaluate its approach to the "recycle-recovery-disposal" sections of the waste hierarchy, pictured above.

1. GENERAL RECOMMENDATIONS

A. **Prepare Auburn households for Maine Extended Producer Responsibility (EPR) Program** [https://www.maine.gov/dep/waste/recycle/epr.html]: By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

B. **Data management:** Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

C. **Staffing:** Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs using data referenced above (1.B). This individual could also manage other city sustainability programs.

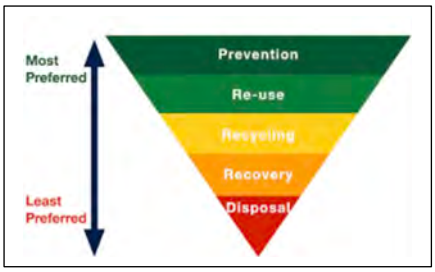
D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using data, regular data reports, restructured staffing, revisions to the Auburn solid waste ordinance and Comprehensive Plan.

E. Limit the duration of new **solid waste contract(s)** to allow for improved data collection and analysis (1.B) and evaluation of how EPR (1.A), the public engagement program (1.D) and new trash-collecting technologies will impact future city budgets and sustainability efforts.

2. DOMESTIC TRASH RECOMMENDATIONS

A. Continue current service level for curbside collection of household trash.

B. Use bid (RFP/Request for Proposal) process to analyze feasibility and costs of various solid waste collection and divergence strategies including:
   - Contracted vs city operated curbside collection
   - Incentives for increased food-scrapping (IV. B-F) and recycling such as limiting the size of the trash collection container
   - Controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations
   - City-developed markets for collection and sale of some readily recyclable commodities
C. Increase participation in Product Stewardship programs to divert more waste from household trash. [https://www.maine.gov/dep/waste/productstewardship/index.html]
D. Incentivize and support existing reuse programs for household items.



3. RECYCLING RECOMMENDATIONS

A. Institute weekly curbside collection of recyclables.
B. Auburn's recycling program should include recycling of all commodities on the state EPR list.
C. Curbside recycling should include city-provided wheeled, lidded containers.
D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.
E. Create targets for increased household participation, based on analysis of data collected (1.B).
F. Create unified messaging as part of the Public Engagement Program (1.D), with easy-to-understand instructions and advice available via social and other media.

4. FOOD WASTE PROGRAM RECOMMENDATIONS

A. Continue with Gracelawn Road and South Main Street drop off locations.
B. Add additional drop-off location(s) in more highly traveled and accessible sites to increase convenience and participation.
C. Enhance drop off locations with larger signs (kiosks) that include information (pictures and writing) about what can and cannot be placed in the bins.
D. Use multiple modes of communication to promote the program, as part of the public engagement program (1.D)
E. Include schools in the food waste collection program, including mini lessons in the classrooms and picking up food waste from the cafeterias by the contractor.
F. Incentivize food waste collection by subsidizing the cost/or purchasing of backyard compost bins and/or kitchen compost containers.

Auburn Solid Waste Task Force: Detailed Recommendations

Authority of Solid Waste Task Force to Issue Report

Ordered, that the Sustainability and Natural Resources Board will work with all relevant subcommittees with support from city staff to create a Solid Waste and Recycling plan for the City of Auburn. (partial text, City Council order January 16, 2024).[1]

Introduction

This report focuses on solid waste generated by households in Auburn. What the task force refers to in the report as the household solid waste stream is composed of domestic trash, recycling, food scraps and organic waste.

Domestic trash – waste not recycled - is collected curbside and trucked to a waste to energy incinerator in Auburn. Trash incineration generates electricity used to run the plant, with excess sold to the power grid. Incineration reduces trash volume by 80%; the ash from incineration is then trucked to the Lewiston landfill for disposal.

Recycling in this report is solid waste separated from domestic trash for special processing. Auburn's recycling is separated by homeowners for curbside or drop-off site collection and trucked to a recycling facility in Lewiston, where it is further processed and sold to brokers of recycled commodities.

Food scraps and organic waste can also be separated from trash by homeowners, taken to a drop-off site and trucked to a facility for anaerobic digestion - a process that captures gas from decomposing food and generates electricity.

Like many Maine municipalities, Auburn's current management of solid waste has evolved over time. It is a complex of component entities, geographically dispersed, with varied ownership and business models. *Do these component parts currently operate to optimally balance municipal budget impacts (taxpayer dollars) with responsible environmental*

[1] *City Council Order 14-01162024*. Retrieved from auburnmaine.gov: https://www.auburnmaine.gov/CMSContent/City_Council/Actions/0%20ORDERS%201-94%20current%20as%20of%207-15-24.pdf

stewardship? This question is timely, since Auburn is about to enter into new agreements for household trash and recycling hauling and processing.

Our investigation of these issues suggests that Auburn needs to dedicate ongoing resources for study, data collection, reorganized staffing and public involvement before writing a long-term Solid Waste Plan. Revenue to support this work is on the way, thanks to a pioneering state law [Extended Producer Responsibility, or EPR] designed to reduce the amount of packaging waste introduced to Maine and help Maine towns fund their solid waste costs. The task force recommends that Auburn negotiate shorter term commitments with its solid waste contractor(s) as it prepares for the implementation of EPR and responds to the changing environment of solid waste management.

1. General Recommendations for The Council

A. Prepare Auburn households for **Maine Extended Producer Responsibility (EPR) Program** https://www.maine.gov/dep/waste/recycle/epr.html.

Starting in 2026, EPR will charge producers of nonrecyclable packaging a per ton fee based on the tonnage of such packaging sold in Maine.[2] Beginning in 2027, municipalities with established recycling programs who choose to participate will be reimbursed a per ton amount for specified packaging types (plastic, metal etc.) that are recycled. In addition, they will be reimbursed on a per capita basis for the amount of nonrecyclable packaging processed in domestic household trash. Final rules are still being written, but it is anticipated that per-ton reimbursement for recycled packaging will be higher than for nonrecyclable packaging. Reimbursement for nonrecyclable packaging sent to waste to energy incinerators, like Auburn's, will be higher than that sent to landfills.

By recycling all items on Maine's EPR list of recyclable commodities, Auburn can access new funding to offset collection and processing costs for household solid waste. Reimbursement for these costs through the EPR program will increase with increasing recycling participation rates and tons of material recycled.

On average Auburn sends 8,000-9,000 tons of domestic trash to its incinerator and 400-700 tons of recycling to the recycling plant per year. Accordingly, Auburn's recycling tonnage is only 7.5% of its trash disposal tonnage. Maine law sets an annual goal of recycling or composting 50% of a municipality's solid waste.

Under EPR, the city and its waste and recycling contractors must agree to audits of the municipal waste streams by the agency governing the program. These audits will verify municipal collection and processing costs for both trash and recycling and revenue generated for each recycled commodity. This should result in increased transparency for municipal solid waste managers tracking solid waste expenses. Once implemented the

[2] Natural Resources Council Maine. Retrieved from nrcm.org: https://www.nrcm.org/sustainability/how-extended-producer-responsibility-for-packaging-will-benefit-maine/

EPR program will provide incentives for producers to make more recyclable packaging and for municipalities to separate as much recyclable packaging from the household trash as possible in order to maximize reimbursement under the program and to further invest in their solid waste programs.

B. Data management: Provide support for accurate, verifiable data collection on all aspects of Auburn's solid waste management including fixed and variable costs. Report data to key stakeholders in a timely manner.

During the study period for this report, it was difficult to get data on basic aspects of Auburn's solid waste programs. This challenge was also noted in 2014 and 2020 reports to the Council on solid waste. Data is critical for setting goals and tracking continuous improvement and will be key to successful public engagement. This in turn will be key to maximizing reimbursement in the EPR program. Use of a data "dashboard" or scorecard visible to staff, elected officials and the public should help promote the program.[3]

C. Staffing: Assign a qualified individual primary responsibility for setting goals and managing performance improvement of Auburn's solid waste programs, using data referenced in 1.B above. This individual could also manage other city sustainability programs.

Future EPR reimbursement will depend on coordinated efforts and compliance with EPR rules from all of the system's current parts. Staffing a coordinator position will be essential to this effort. Other Maine communities have tasked sustainability managers with this type of coordination across multiple business entities and municipal departments and achieved cost-saving efficiencies.

D. Create a robust **public engagement program.** Inform and involve Auburn households in all aspects of the city's solid waste program using regular data reports, targeted goals, restructured staffing, neighborhood networks, enforcement or revision of Auburn's solid waste ordinance and updates to the solid waste sections of the city's Comprehensive Plan.

"Public Engagement" involves **communication *with* the public** using social media, direct mailing, public forums, and feedback on household compliance with trash collection regulations. It also involves **communication *from* the public** regarding the quality and performance of the city's solid waste programs. Through encouragement of volunteers with an interest in the topic, to leadership from elected officials and city staff, a robust Public Engagement program would include targeted goals for increased participation in the city's recycling program and in the organic and food scrap program. Progress toward these goals could be publicly reported on the city website or in a special solid waste data dashboard.

[3] See for example: Town of Brunswick Maine Recycling Data: https://www.brunswickme.gov/270/Recycling-Data

The City should consider forming a solid waste advisory committee composed of Auburn residents, city councilors and public works or other appropriate staff to advise the council on solid waste policy. Such a committee could work with the public by conducting household surveys and listening sessions to explore alternative and less costly collection strategies for both trash and recycling.

Finally, the current Auburn solid waste ordinance requires that households separate recyclable material from city trash.[4] It also specifies limits to the weight of trash and the size of the trash container put out for weekly collection. While these regulations may represent aspirational goals to improve recycling participation rates, none of them corresponds to current practice. As the Council considers new solid waste policies the task force recommends that the solid waste ordinance be updated to align with those policies.

There are numerous **benefits** from increasing participation and adherence to the current ordinance:

- Increased sanitation and improved aesthetics on city streets
- Increased efficiency at Maine Waste to Energy (MWE): Organic and food waste diversion will reduce the weight of collected trash and therefore the tipping fees at the incinerator (food waste is both wet and heavy and diminishes the efficiency of the waste to energy process). The EPA estimates organic waste comprises 34% of the weight of domestic trash. MWE will burn better without organic and food waste.[5]
- Financial benefits to the city for improved recycling rates once EPR is in place. Increasing the number of households recycling and recycling correctly (only the right commodities in the recycling bin) will be key to increased EPR program dollars coming to Auburn.

E. Limit the duration of new **solid waste contracts** to allow for improved data collection and analysis (1.B) an evaluation of EPR (I.A), implementation of the public engagement program (1.D) and an assessment of new trash-collecting technologies, all of which will impact future city budgets and sustainability efforts.

What data is needed and who would manage it for success in the EPR program is not known and likely will not be known before the current solid waste contracts expire. Likewise alternative trash and recycling collection strategies will need further study. Should the city get back into the trash collection business? If so, should they lease trucks or buy them? These questions with large budget impacts require return on investment analysis. Long-term agreements with current solid waste contractors do not seem advisable at this time.

---

2. Domestic Trash recommendations

The challenges Auburn faces in managing solid waste in general and domestic trash in particular are not unique. These are well summarized in a January 2024 comprehensive solid waste status report from the Maine Department of Environmental Protection to the state legislature. Rising collection and processing costs for both trash and recycling coupled with shrinking disposal options are stressing municipal budgets. Statewide, generation of solid waste is increasing year over year while total diversion of trash (includes repair, reuse, recycling, composting and anerobic digestion) from landfill and incineration remains flat. The net result is more Maine trash requiring final disposal. [See Figure 1]

Maine has set a goal to limit solid waste disposal, the bottom of the inverted pyramid of the Solid Waste Hierarchy, to 0.55 tons of solid waste per person per year. [See Figure 2]

Currently the per capita rate is 0.69 tons and rising. A rough estimate for Auburn is 0.71 tons per year. [See Figure 3.]

A. Continue current service level for curbside collection of household trash.

Curbside trash collection currently is weekly, recycling is every other week. There are drop-off options for both trash (MWE), recycling (Gracelawn) and food scraps (Gracelawn and South Main Street). Having trash and recycling both collected weekly would aid in compliance and increase homeowner satisfaction given experience in other communities. Having more drop-off locations for all three waste streams for those preferring these methods would minimize driving distances and increase customer satisfaction.

B. Use bid (Request for Proposal) process to analyze feasibility and costs of various solid waste collection and diversion strategies including:

- contracted vs. city operated curbside collection.
- incentives for increased food-scrapping (4. B-F) and recycling such as limiting the size of the trash collection container.
- controlled access cards for Auburn resident payment, accurate recording and classification of waste stream weights at Auburn and MWE transfer stations.
- city-developed markets for collection and sale of some readily recyclable commodities

On average, Auburn collects and disposes of between 600 and 800 tons of **domestic trash** per month at a cost of roughly $46 per ton for disposal and $77 per ton for curbside collection. [See Figure 4]

Statewide median trash disposal costs are $82 per ton (collection costs not reported). [See Figure 5]

For the first four months of 2024, Auburn reported 24 tons of **recycling** per month collected at the curbside at a cost of roughly $800 per ton for collection and $106 per ton for processing (these figures are exclusive of recycling drop-off tons at Gracelawn). This is the most up-to-date information from the Auburn Public Works Department.

Trucking costs are a large portion of Auburn's solid waste budget, not surprising given the geographic size of the municipality. Collecting both trash and recycling on the same weekday in a split body truck, as Biddeford and other communities do, would limit route miles and reduce hauling cost.

Other municipalities in Maine have had success using a variety of **positive and negative incentives** to limit trash generation and increase participation rates in recycling and other diversion programs. [See Figure 6]

These incentive programs include the following:

- Trash containers that are smaller than recycling containers encourage households to separate recycling from the trash to make more room for non-recyclable trash for curbside pick-up.
- Periodic monitoring of recycling containers for contamination
- Charging for trash amounts that exceed the size of the trash bins (so-called "Pay-to-Throw")

Biddeford operates and staffs its own transfer station, open on certain days for resident-sorted recycling and food scrap drop-off and oversized bulky waste (OBW) drop-off. Access with a card swipe system limits use to Biddeford residents. The staff person ensures recycling is sorted in the proper bin limiting contamination. The card swipe identifies users by residential address and ensures that each household is abiding by limits for free OBW and special waste disposal (4 tires per year, for example).

Biddeford also collects and markets some recyclable commodities that are dropped off at the transfer station independent of what is collected by their recycling contractor.

C. Increase participation in Product Stewardship programs to divert more waste from household trash. https://www.maine.gov/dep/waste/productstewardship/index.htmls.

D. Incentivize and support existing reuse programs (thrift shops, social service agencies) for household items.

It is important not to lose sight of the other portions of the Waste Hierarchy that divert materials from the waste stream. Like the soon to be implemented EPR program there are a number of so-called product stewardship programs in existence. The most obvious and successful diversion program is the Maine bottle bill which diverts glass, plastic and metal deposit containers from disposal. There are also ongoing programs that collect electronic waste, tires, paint and lithium batteries to name a few.

The Auburn area also hosts a plethora of nonprofit donation centers and agencies that collect clothing, household goods, furniture, food and other reuseable items for gifting or reselling. These programs should be supported and promoted for their impact on waste diversion.

3. Recycling recommendations

Recycling is the process of diverting post-consumer materials that would otherwise be included in the solid waste stream and converting them into new materials and new objects. Recycling directly reduces the amount of waste that is sent to landfills and incinerators, which in turn reduces the amount of harmful chemicals that are released into the soil and air. Another environmentally significant benefit of recycling is that it conserves natural resources such as trees, minerals, and fossil fuels by *reusing* materials, including cardboard, paper, metals, and plastic. Those materials constitute a significant portion of the weight of the waste stream and increase the tipping fees charged by landfills and incinerators. Reusing these materials instead diminishes the need to harvest, mine, or extract *new* raw materials, thus conserving natural resources and reducing energy use and environmental degradation.

In addition to these well-established environmental benefits, Maine's new EPR Law will give money back to municipalities that operate robust recycling programs. Participating municipalities will in effect be subsidized by the packaging industry for operating recycling programs.

Currently, Auburn contracts with Casella to send its recyclables to Casella's Material Recovery Facility (MRF) in Lewiston. In the summer of 2023, the Council cancelled Auburn's curbside recycling program. The Council revisited the decision in late 2023 and restored the curbside recycling program.

Since restoration, the curbside recycling program has not yet returned to its precancellation tonnage but is steadily increasing. Auburn residents also have the option of dropping off their recyclables at Gracelawn and the combined tonnage of curbside and drop off recycling nearly equal precancellation levels.

To further increase recycling levels, which is vital for achieving long term solid waste reduction goals and to obtain significant future reimbursements from the State via EPR, Auburn needs to expand its public engagement efforts. The program must be well thought out and easy to comply with.

Here is a short elaboration of some of the points in our Executive Summary.

A. Auburn should initiate weekly curbside collection of recyclables.

Although curbside trash collection occurs weekly, recycling occurs only biweekly, weather permitting (see C. below). Collecting trash and recycling on the same day would eliminate residents' confusion over their biweekly recycling date. Indeed, public attendees at the Solid Waste Task Force's June 27, 2024, meeting for public comment were adamant that recycling pick-up should occur every week, on the same day that trash is picked up. Weekly curbside collection will almost certainly increase recycling participation.

Assuming the city participates in EPR as the Solid Waste Task Force recommends, the city will receive higher reimbursements for its increased recycling participation rates and tons of material recycled.

Additionally, the expense of weekly curbside collection may be significantly mitigated if the city adopts the use of automated collection trucks; Casella and other vendors now offer automated split trucks that can collect both trash and recycling at the same time. This would eliminate the separate (and redundant) recycling route currently required for biweekly curbside collection.

Lastly, weekly collection will promote compliance with Auburn's recycling ordinance which prohibits the disposal of recyclables in household trash.

B. Auburn's recycling program should include recycling of all commodities on the state EPR list.

Auburn will be eligible for funding through EPR only if its recycling program includes all commodities on the state EPR list (Elena Bertocci, Maine DEP, presentation to the task force on 6/18/2024). If the city does not recycle everything on the state list, all recycling expenses will be borne by the city. The DEP has not yet finalized the list of commodities.

C. Curbside recycling should include city-provided wheeled, lidded containers to keep recyclables dry.

According to Casella, all recyclables need to be clean and dry. Wet materials are considered contaminated and are likely brought to the landfill for disposal instead of recycled. Providing lidded recycling containers will alleviate this problem during inclement weather. Wheeled containers are easier and safer for Auburn residents to bring recycling material to the curb.

D. Keep Gracelawn open as a supplemental site, consider adding additional such sites.

The Gracelawn drop-off site has already proven to be popular with many Auburn residents, particularly given the flexibility of anytime drop off vs. adhering to the biweekly curbside collection schedule. Gracelawn also offers food waste containers which makes it an efficient stop for residents and promotes cross-utilization of the available options.

Some cities operate recycling centers with designated containers for recycling specific items such as various plastics, metals, cardboard, paper, glass, batteries, etc. Recyclables are less likely to be contaminated where individual containers are available for depositing specific materials. In addition, presorted recyclables may command a higher price in the commodities market. Biddeford operates such a facility and directly sells its sorted recyclables to commodities dealers.

E. Create targets for increased household participation, based on analysis of data collected.

Presently Auburn has no mechanism for directly measuring the number of households that participate in biweekly curbside collection. For the period December 11, 2023, through May 24, 2024, Casella personnel performed visual inspections and prepared an estimate of the household participation rate. According to that data, the participation rate almost always exceeded 10% and frequently exceeded 13%. Significantly, these participation rates do not include the households that perform their own drop-off recycling at Gracelawn. Although neither Auburn nor Casella have computed a participation rate for the Gracelawn drop-off recycling location, the monthly tonnage of dropped off recycling is nearly as high as that generated by the curbside collection system. Based on this information, the task force conservatively estimates that the household recycling participation rate for Auburn is approximately 15% of households (including both curbside and drop-off participants and those who do both). In other words, of the roughly 9,900 households in Auburn, approximately 1,500 participate in municipally sponsored recycling.

Auburn should set a goal of increasing its recycling participation rate by at least 10% per year (or approximately 150 households) per year for at least 5 years. There are a variety of resources easily available to help City Staff and/or a Sustainability Manager establish goals, create programs to achieve them and measure progress.[6] Indeed, the State's EPR program will require municipalities to collect cost and tonnage data on their recycling operations. See discussion at Section I.B. Auburn should also consider re-establishing its citizen Recycling Committee to further help with outreach to particular neighborhoods and civic organizations.

F. Create unified messaging as part of the Public Engagement Program (I.D), with easy-to-understand instructions and advice available via social and other media.

Recycling rules can be confusing. Municipal recycling programs differ from community to community and variables include the frequency of pick up, the type of materials that will be picked up, whether the materials are to be separated or commingled, and the type of container the materials can be placed in. Most programs do not collect plastic bags, Styrofoam, soiled or wet paper, certain metals or plastics that can get entangled in the

[6] https://www.c40knowledgehub.org/s/article/How-cities-can-boost-recycling-rates?language=en_US
https://recyclingpartnership.org/small-town-america-part-in-boosting-us-recycling-rates/

recycling machinery and so-called contaminated recyclables. Even the definition of contaminated recyclables may differ between communities. Commonly it denotes wet, greasy, and unaccepted type of material.

In order to simplify the recycling process for its residents, Auburn's recycling rules should be publicized in clear and precise language, prominently communicated and readily accessible. Auburn should also develop a comprehensive Public Engagement Program as discussed in Section I.

4. Food Waste Program recommendations

In order to reduce the amount of solid waste collected and disposed of per capita Auburn needs to expand its current collection program for food scraps and other organic materials (paper towels and napkins, etc.) and work to increase citizen participation in the program. Twenty percent of the city's solid waste is food waste and 15 to 18% of the recycling is contaminated with food scraps, nonrecyclable materials, or moisture.[7] An increase in the collection of Auburn's food waste and other organics would reduce the overall tonnage of our household solid waste collected. A reduction in tonnage leads to savings in disposal costs. In addition, removing food waste will improve recycling contamination rates, eliminate the source of methane generation, a very potent greenhouse gas, when Auburn's solid waste is diverted from Maine Waste to Energy to a landfill, and contribute to more efficient energy use during incineration, reducing overall costs.

Currently, Auburn's food waste collection program is contracted to Agricycle which processes the organics in an anaerobic digester to create natural gas that is captured and used for the production of electricity. Auburn should also consider implementing an additional composting program, city or contractor provided, which would allow citizens to contribute their foods scraps and other organic waste and, in exchange, receive compost for their personal use.

Recommendations to accomplish these goals are as follows.

A. Continue to offer food scraps/organic materials disposal drop off locations at Gracelawn Avenue and South Main Street. These locations are adjacent to the recycling drop off location and/or serve separate areas of the city making them convenient for some residents.

[7] Auburn Ad Hoc Recycling and Sustainability Committee. (2020). *https://www.auburnmaine.gov/CMSContent/Boards_and_Committees/Recycling%20Ad%20Hoc/Recycling%20Committee%20FINAL%20REPORT.pdf*.
Previous recycling report to Auburn City Council in 2020. Table 3, page 14 of this report compares greenhouse gas emissions for processing strategies for household solid waste depicted in the solid waste hierarchy: recycling, composting, waste to energy incineration and landfilling.

B. Add drop off bins in more accessible locations, ones that are heavily trafficked, in order to increase convenience and participation. Adding drop-off locations in areas that are adjacent to streets with major vehicular use, such as community centers (schools, Pettingill Park, etc.), or in areas that serve citizens who rely on other types of transportation, e.g. walking, will increase the visibility of the program and accessibility.

C. Include large signage, kiosks with written and pictorial information about what and what cannot be placed in the bins.
Large eye-catching signs with easily understood information will draw attention to the drop off bins and provide citizens with the type of information they need to fully utilize the program. Directional signs pointing to the locations of the drop off bins at street corners, etc. will also lead to ease of participation.

D. Provide multiple modes of communication to increase public awareness and knowledge in newspapers, on a new food waste and organics website, via fliers in schools and on community bulletin boards.

E. Include schools in the food waste collection program. Increase awareness of the program by providing mini-lessons in the classroom and enable easier participation by having Auburn's contractor pick up food waste and organics from the cafeterias. Educating the youth in our community is an important way to create habits for a lifetime and to include their families in the food waste and organics program. In addition, school cafeterias are a large source of food waste and organics. Collecting their food waste and organics will facilitate more efficient solid waste disposal and create an energy source through anaerobic digestion.

F. Incentivize food waste collection by subsidizing the cost/or purchasing backyard compost bins and/or kitchen containers for home collection of food scraps.
Other cities either provide food scrap collection bins at no cost or a reduced cost to their citizens. Providing this service would be an avenue for educating the public and highlight the city's commitment to the program at a reasonable cost.

FIGURES

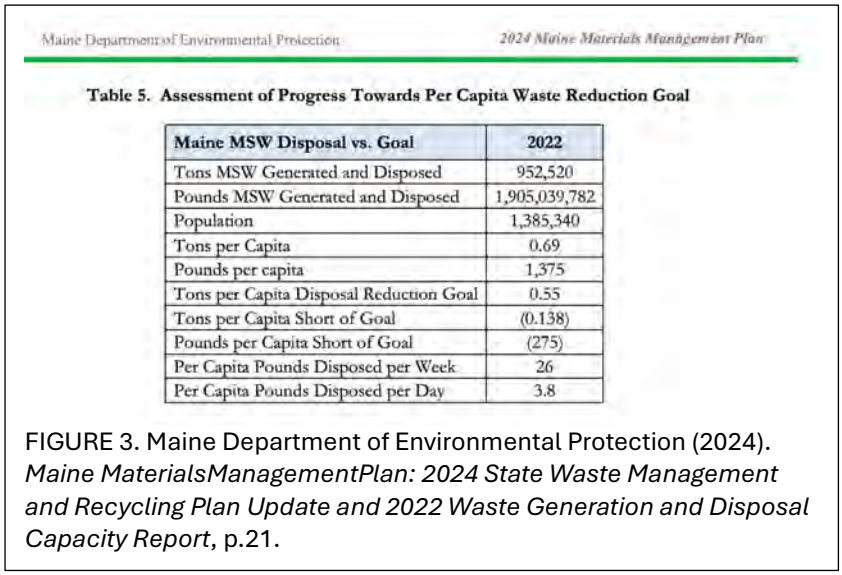

Figure 2.

Priorities. It is the policy of the State to plan for and implement an integrated approach to solid waste management for solid waste generated in this State and solid waste imported into this State, which must be based on the following order of priority: **A.** Reduction of waste generated at the source, including both amount and toxicity of the waste**; B.** Reuse of waste; **C**. Recycling of waste; **D**. Composting of biodegradable waste; **E**. Waste processing that reduces the volume of waste needing land disposal, including incineration; and **F.** Land disposal of waste. It is the policy of the State to use the order of priority in this subsection as a guiding principle in making decisions related to solid waste management. Waste reduction and diversion. It is the policy of the State to actively promote and encourage waste reduction measures from all sources and maximize waste diversion efforts by encouraging new and expanded uses of solid waste generated in this State as a resource.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 16, 2024 **Order: 111-09162024 through 116-09162024***

Author: Emily F. Carrington, City Clerk

Subject: Recommendations from the Appointment Committee

Information: The Appointment Committee met on September 10, 2024 to consider applications received for vacancies and October term endings which were posted on August 21, 2024. All incumbents with term endings were notified. Applications were received from all incumbents and one application for the Planning Board Associate Member unexpired term to fill the vacancy left by Robert Hayes who was appointed to fill a regular member seat at the August 19, 2024 meeting. The committee recommends the following for appointment:

- Arthur Wing to the Auburn Housing Authority Board of Commissioners for a term that expires 10/1/2029.
- Misty Edgecomb to the Parks and Recreation Advisory Board for a term that expires 10/1/2026.
- Corey Kinnan to the Parks and Recreation Advisory Board for a term that expires 10/1/2026.
- Haley Warden to the Parks and Recreation Advisory Board for a term that expires 10/1/2026.
- Elisabeth Collier to the Parks and Recreation Advisory Board for a term that expires 10/1/2026.
- Maureen Hopkins to the Planning Board, Associate Member, for the unexpired term ending 1/1/2026.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend appointment.

Previous Meetings and History: Appointment Committee met September 10, 2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Dates served (if known)? APL TRUSTEE 2000-2006, APL BUILDING COMMITTEE 1999-2002

How did you learn of this vacancy? EMAIL FROM CITY

The City Council strives to promote membership and by practice will attempt to limit the number of boards or committees any one person will serve. The city Council also strives to maintain balance of ward distribution on all boards, commissions, or committees.
Thank you for your interest and willingness to serve our community. The giving of your time is commendable and appreciated. Without people like you coming forward, our community would not be as strong, as vibrant, or as great as it is. On behalf of all of us at the City of Auburn, we hope your volunteer experience is rewarding and we thank you for being an outstanding citizen!
I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above.
Signature: Cathie Wij Date: August 23, 2024

  - 1971 – 2018, Director of Finance
- 2019 - Retired

City of Auburn
Board & Committee
Reappointment Application 2024 – Arthur Wing

Briefly describe why you want to serve on this committee:

The Auburn Housing Authority's (AHA) mission is to provide access to safe, quality and affordable housing for the residents of the City of Auburn. Commissioners have a responsibility for the management, policy-making and oversight of the housing authority to ensure accomplishment of the Mission. As a Commissioner, I find working with the Board of Commissioners, AHA management and staff on the organization's mission challenging, rewarding and important to our City.

I feel my education, work experience and energy can assist the other Commissioners, the Executive Director and staff to make a difference in the lives of low-income families, the elderly and persons with disabilities.

What do you hope to accomplish?

I feel with the change in Auburn's leadership there is an excitement for additional affordable housing in Auburn. Having been Board Chair and Commissioner during the development of Webster, Vincent Square and Spring Street apartments, I bring development experience to our newer commissioners to help guide them through new affordable housing opportunities.

There continues to be a significant shortage of housing in our City. I am excited to explore and work with the City, the board of Commissioners and AHA management on new development opportunities for additional housing units in Auburn.

It is the responsibility of the Auburn Housing Authority to implement and administer the various programs designed and funded by the U.S. Department of Housing and Urban Development (HUD). Rules and regulations are updated and changed continuously and as Commissioner I will continue to work with management to ensure AHA has the resources to maintain the current properties and meet all of HUD's rules and regulations.

Current Occupation: Business owner

Previous Occupation (if retired or no longer working):

Education and/or experience: Current board chair

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Parks & Recreation Advisory Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): Reappointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): As a current member of the Parks and Recreation Advisory Board, I am deeply committed to enhancing and expanding the green spaces in our city. I believe that parks are more than just recreational areas; they are essential to the quality of life for our residents. I am passionate about creating parks and recreational spaces that are not only updated and accessible but also beloved by the community. These spaces should be places where families, friends, and individuals can connect with nature, engage in outdoor activities, and take pride in their surroundings.

What do you hope to accomplish?: My experience with this board has further strengthened my belief that thoughtfully designed and well-maintained parks and recreational spaces can be transformative for our city. I want to continue my work on the board to ensure that we create spaces that are sustainable, welcoming, and reflective of our community's

needs. I am eager to continue to help our city in the development of parks that will be cherished for generations to come.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Other than this board I am on the PAL Board and the Good Food Council of Androscoggin County

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Parks Sub Committee

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Planning Board

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): For much of my professional career as an attorney I have represented clients before planning boards, zoning boards, and city councils, presenting and advocating for the development of different types of telecommunications projects. Additionally, I previously served on a planning board in Greenville, Maine, and I enjoyed being involved in the planning process, including drafting ordinances, bylaws, and reviewing new projects. I would love the opportunity to serve the Auburn community as it experiences significant growth and considers its planning objectives for the future of the City.

What do you hope to accomplish?: To participate in a fair and balanced review process that objectively applies current laws, ordinances and regulations to proposed projects. Additionally, to consider the future of city planning, balancing

sustainability, livability and smart growth objectives to ensure the City of Auburn can continue to offer a balance of new and existing residential, commercial and industrial uses while preserving the environment and the character of the City.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 16, 2024

Order: ORDER 117-09162024* through ORDER 121-09162024*

Author: Emily F. Carrington, City Clerk

Subject: Automobile Graveyard/Junkyard license renewals

Information: This is an annual renewal of currently existing Automobile Graveyard/Junkyards in Auburn. Reminder letters and applications were sent out 08/15/2024. Council approval is required for renewal of these licenses which expire 9/30/24. Because the 5 listed below are renewals, they *do not* require a public hearing. All are pending inspections conducted by the Code and Fire Departments and issuance of the license will be dependent upon passage of the inspection. No complaints have been received by the City Clerk's office regarding these establishments.

Title 30-A, Sec. 3754 states "*Municipal officers or county commissioners, as provided for in section 3753, shall hold a public hearing before granting a permit to establish a new automobile graveyard, automobile recycling business or junkyard and **may** hold public hearings annually regarding the relicensing of these facilities*".

- Randy's Auto Parts, Inc., 899 Broad Street
- M & P Auto, Inc., 227 Merrow Road
- Prolerized New England Company, LLC., 522 Washington St. North
- Isadore T. Miller, 79 & 80 Hotel Road
- Don's No Preference Towing of L/A, Inc., dba Morris Auto Parts, 940 Washington St. North – Note: In 2023, this license was renewed with conditions (10/16/2023).

City Budgetary Impacts: N/A

Staff Recommended Action: Staff recommends the City Council approve renewal applications.

Previous Meetings and History: Annual renewal.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

b. City Councilors' Reports – Councilor Whiting shared that the Inter-library Loan program is now reinstated after a hiatus since June 2024; Councilor Milks spoke on taxes of residential vs. Commercial properties and stated revaluaton is akin to appraisal. Councilor Platz spoke on updates from the School Committee, including the need to fix a leak in the new ELHS gym and a 1.44% increase in the total student enrollment.

c. Student Representative Report – Representative Egge shared that September is Mental Health Awareness month and asked the City to share resources for mental health.

d. City Manager Report – Confirmed the City would be providing resources for mental health and spoke on recent events in the city, recognizing city staff. The City has hired a new Planning Coordinator, Natalie Thompson. The groundbreaking ceremony for 186 Main Street will be held next week. The City is looking for a Christmas tree.

VIII. Open Session

Gary Tetreault, Hazel St

Executive Sessions previously scheduled on the agenda were held after workshop.

X. Adjournment

Motion to adjourn at 8:05pm made by Councilor Milks, seconded by Councilor Walker.

Motion passed 6-0.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

PROCLAMATION | VETERANS OF FOREIGN WARS OF THE UNITED STATES 125TH ANNIVERSARY – SEPTEMBER 29, 2024

WHEREAS, the Veterans of Foreign Wars of the United States (VFW) was founded in 1899 by a small group of veterans returning from the Spanish-American War and campaigns in the Philippines, banded together to create a veterans organization that would advocate on behalf of all veterans; and

WHEREAS, the VFW is a nonprofit veterans service organization comprised of eligible veterans and military service members from the active, Guard and Reserve forces; and .

WHEREAS, the VFW's mission is to foster camaraderie among United States veterans of overseas conflicts, to serve our veterans, the military and our communities, and to advocate on behalf of all veterans; and

WHEREAS, since its inception the VFW has been instrumental in the establishment of the Veterans Administration, the national cemetery system, and the creation of every national veterans' memorial; and

WHEREAS, the VFW has played a vital role in virtually every significant piece of veterans legislation passed in the 20th and 21st centuries to include the Honoring Our PACT Act, the most significant expansions of veterans benefits in history; and

WHEREAS, the VFW's 125th anniversary is being observed on September 29, 2024, this date shall officially be known as VFW Day; and

NOW, THEREFORE, I Jeffrey D. Harmon, Mayor of the City of Auburn, do hereby proclaim September 29 as VFW Day in honor of the VFW's invaluable contributions to the veteran community in Auburn and around the world. We hereby stand with the VFW and Captain Frank W. Hulett Veterans of Foreign Wars Post 1603 to ensure veterans are respected for their service, always receive their earned entitlements, and are recognized for the sacrifices they and their loved ones have made on behalf of this great country.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 16th day of September, 2024.

Mayor Jeffrey D. Harmon

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: September 16, 2024 ORDINANCE 18-09162024

Author: John Blais – Deputy Director of Planning, Permitting and Code

Subject: Ordinance - Gracelawn Area Zoning Map Amendment

Information: Consider a zoning map amendment to convert certain parts of City Assessor's Parcel I.D.s 289-001, 277-026 and 289-002 with addresses of 369 Mount Auburn Ave, 225 Gracelawn Road, and 125 Gracelawn Pit Road from the General Business zoning district to the Multifamily Suburban zoning district City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

This proposed zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289-001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district. The Multifamily Suburban zoning district has the same residential density standards as within the General Business District but does not allow several of the uses permitted within the General Business district, like automobile, repair service, and filling stations.

Amending the zoning toward the back of the Gracelawn Pit area closer to the lake allows for the creative reuse of land while limiting some of the heavier uses allowed in the General Business District. Approximately 15 acres in the southeasterly portion of the parcel on Gracelawn Road is proposed to remain in General Business to complement the General Business Zoning on the opposite side of Gracelawn Road and to allow for expanded development opportunity further from Lake Auburn. The proposed General Business portion of the Gracelawn parcel excludes 100 feet abutting the landfill on City Assessor's Parcel I.D. 289-003.

City Budgetary Impacts: None

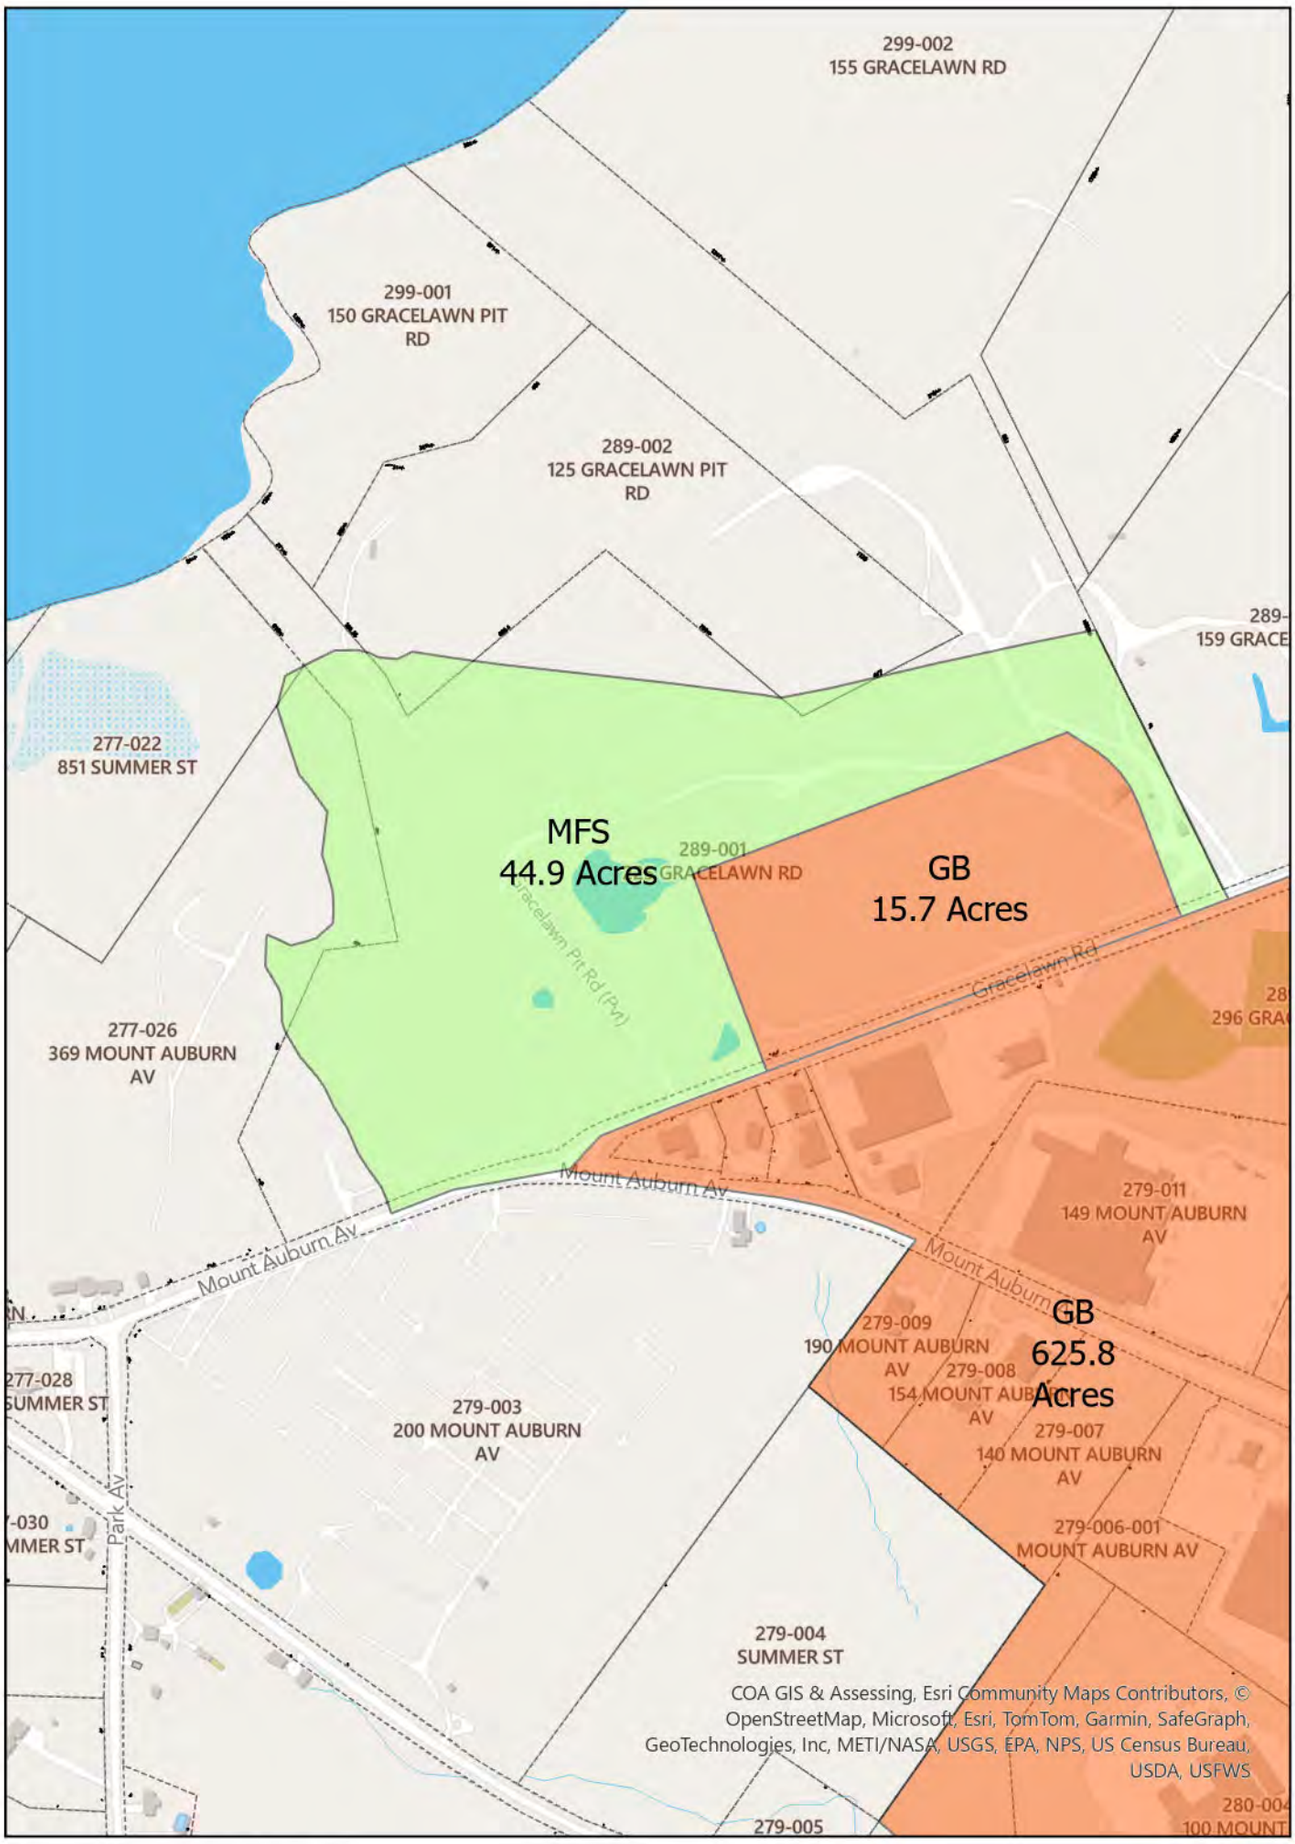
Staff Recommended Action: First reading in support of the map amendment. This proposed zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289- 001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district

---

Previous Meetings and History: PB unanimous approval in the August Planning Board Meeting.

City Manager Comments:

Signature: Phillip Crowell Jr.



Attachments: Official Map Amendment, Minutes

PUBLIC HEARING/ MAP AMENDMENT: Consider a zoning map amendment to convert certain parts of City Assessor's Parcel I.D.s 289-001, 277-026 and 289-002 with addresses of 369 Mount Auburn Ave, 225 Gracelawn Road, and 125 Gracelawn Pit Road from the General Business zoning district to the Multifamily Suburban zoning district City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Tim Deroche makes a motion to forward a favorable recommendation to City Council to amend the official zoning map of the City of Auburn entitled "City of Auburn, Zoning Map, dated May 16, 2016," revised through its current date and revisions, as provided under Sec. 60-5 of the Zoning Ordinance by amending City Assessor's Parcel ID's 289- 001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district *from map dated August 7, 2024. (italicized wording added as an amendment to the original motion).*

Author: Phil Crowell, City Manager

Subject: Mayor's Ad-Hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee

---

Information: Mayor Harmon has requested an Ad-Hoc Committee to be formed.

Charge
The Mayor's Ad-hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee will develop criteria to be used when determining if a business or land use, if implemented, will constitute a bona fide farming, agricultural, recreational or natural resource use pursuant the City of Auburn Code of Ordinances, Section 60-145(a)(1)(b)(2)(i).

Membership

The committee shall be comprised of the following members:

- The Chair of the Sustainability and Natural Resources Board or the Chair's designee.
- Up to two representatives of the Natural Products and Agriculture Working Group as designated by the Chair of the Group.
- A representative of the Conservation Working Group as designated by the Chair of the Group.
- A representative of the Community Forestry Working Group as designated by the Chair of the Group.
- A representative of the Parks and Recreation Advisory Board as designated by the Chair of the Board.
- A member of the Planning Board as designated by the Chair of the Board.
- Representatives of the Planning, Permitting, and Code Enforcement Department as designated by the City Manager.

Reporting

The Committee report to the City Council, no later than November 18, 2024, with proposed criteria.

City Budgetary Impacts: None.

Staff Recommended Action: Approve the request

City Council Information Sheet

Council Workshop or Meeting Date: September 16, 2024 **Order: 124-09162024**

Author: Emily F. Carrington, City Clerk

Subject: Amending APPENDIX A (Fees and Charges) to include Fee Reimbursement/Refund Policy

---

Information: This ORDER amends the existing APPENDIX A (Fees and Charges) to include a fee reimbursement/refund policy as outlined below. This item was presented at the May 20, 2024 Workshop.

City Budgetary Impacts: N/A

Staff Recommended Action: Recommend passage.

Previous Meetings and History: This item was presented at the May 20, 2024 Workshop.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Workshop memo, outline of amendments

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: May 20, 2024 **Order:** Workshop Item

Author: Eric J. Cousens, Planning and Permitting Director

Subject: Fee Schedule Amendment-Fee Reimbursement/Refunds

Information: The Council recently removed the fee schedule from the ordinance and adopted it by order. That action was recommended by legal counsel and staff as it will make it easier for the Council to amend the schedule with a single vote in the future. Adopting the fee schedule by order is a common approach to managing fee schedules. This discussion started when a petitioned zoning change was denied by the Council and at least two councilors wanted to consider a refund of the petition fee that was not permissible in the existing ordinance.

The attached draft amendment to the fee schedule would establish a process where the Council would be authorized to issue fee reimbursements for zoning petitions. It also reorganizes all reimbursement policies to a single part of the policy and makes some clerical edits.

Staff is concerned that the amendment would promote more zoning petitions if the petition circulator knew the cost would be reimbursed if it did not pass. Processing a petition requires research, Planning Board preparation and public hearing, preparation for Council public hearing and two readings, including public notice expenses and mailings. Staff did not find another community that reimburses zoning petition fees but did note that we are relatively low cost for fees compared to other Cities.

City Budgetary Impacts: None.

Staff Recommended Action: Discuss and determine if a majority of the Council wishes to see this on a future agenda for consideration and adoption.

Previous Meetings and History: Previous discussion on fee schedule movement from ordinance to policy.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Attachments: Draft fee schedule Amendments, other community examples.

Required advertising (unless otherwise specifically provided above)100.00

Other General Information:

- Applicants are responsible for the cost of all public hearing advertisements and background checks required for various licenses. Failure to list that additional expense in the fee schedule shall not eliminate that requirement from the licensing process.
- Applicants are responsible for providing background checks, not older than 3 days prior to submission of application for all licenses that require such checks or, alternatively, applicants may pay $100.00 to the city with the application to cover the cost of the background check.
- License fees established in this appendix include two routine or pre-operational inspections and one follow-up inspection. When additional inspections are required, the city may charge an additional $100.00 per inspection to cover the costs of each additional inspection or visit.
- All first time applications must be made in person, unless otherwise specifically stated herein.
- All on-line licenses will receive a 10% discount unless otherwise indicated herein.
- No on-line renewal of liquor licenses, special amusement licenses, or tattoo or massage licenses is permitted.
- ~~Residential construction. A veteran/widow/widower of a veteran or contractor on behalf of a veteran/widow/widower of a veteran seeking to build new construction or to rehabilitate an existing property will have all fees waived/reimbursed at time of permit approval. This applies to owner occupied single family and multifamily units, up to 3 unit structures. This does not apply to state fees administered by the city.~~
- ~~Commercial construction. A veteran owned business* or subcontractor hired by a veteran owned business*, will be entitled to a 50% fee reduction/reimbursement for new construction or rehabilitation of an existing property at the time of permit approval. This does not apply to state fees administered by the city.~~

~~* Veterans honorably discharged from federal service, must present DD-214 to economic, and community development office for fees to be waived.~~

~~** Veteran owned business as defined by the SBA being a corporation in which 51% of the shares of the company are owned by a veteran.~~

Fee refund, reimbursement & waiver policy:

Residential construction. A veteran/widow/widower of a veteran or contractor on behalf of a veteran/widow/widower of a veteran seeking to build new construction or to rehabilitate an existing property will have all fees waived/reimbursed at time of permit approval. This applies to owner occupied single family and multifamily units, up to 3 unit structures. This does not apply to state plumbing fees administered by the city.

Commercial construction. A veteran owned business* or subcontractor hired by a veteran owned business* will be entitled to a 50% fee reduction/reimbursement for new construction or rehabilitation of an existing property at the time of permit approval. This does not apply to state plumbing fees administered by the city.

* Veterans honorably discharged from federal service, must present DD-214 to economic, and community development office for fees to be waived.

** Veteran owned business as defined by the SBA being a corporation in which 51% of the shares of the company are owned by a veteran.

Building permit fee reimbursement policy: In the event that the recipient of a building permit does not undertake any of the building activity associated with a given permit, he/she may submit a written request to the director of planning and permitting for the reimbursement within six months of the issuance of said permit, and if no work associated with said permit was commenced, 75 percent of the permit fee will be reimbursed. The city shall retain 25 percent of the permit fee to provide compensation for the costs associated with issuance of said permit and to process reimbursement.

Floodplain Overlay District: A non-refundable application fee of $50.00 for all minor development and $100.00 for all new construction or substantial improvements shall be paid to the city. (Sec. 60-895).

Zoning text or map amendment requests: In the event that the applicant for a zoning text or map amendment does not receive approval, the base fees may be reimbursed. The applicant must submit a request to the city clerk within 30 days of the date of the denial. The city council shall consider the request within 30 days at a regular city council meeting and may approve by majority vote to authorize the reimbursement. The additional cost for required advertising is not reimbursable.

Business licenses: The city council is the only authority allowed to waive fees prescribed by ordinance. An application for waiver of any fees must be presented in writing to the city clerk to be brought to the city council at its next available meeting. (Sec. 14-31)
In case an application is disapproved, the city clerk or designee shall then notify the applicant in writing of such denial and shall refund the fee paid in. The city clerk or designee shall also notify the city council of such action at the next regularly scheduled meeting of the city council. (Sec. 14-38)

Mass gatherings and events: An appeal for waiver of fees or surety bond may be made in writing to the city council. The city council may waive the permit fee or surety bond, when it determines that such waiver will not compromise the purpose or enforcement of this article. (Sec. 14-261).

(Ord. No. 35-10182021, 11-1-2021; Ord. No. 48-12062021, 12-20-2021; Ord. No. 04-02072022, 2-7-2022; Ord. No. 01-01032023, 1-17-2023; Ord. No. 05-06052023, 6-20-2023)

Refund, Reimbursement, or Waiver Policies – Zoning Text or Map Changes

City/Town	Population	Fee	Policy
Biddeford	22,450	$1,300 (text or map) + $75 administrative fee	Non-refundable (Code).
Lewiston	38,500	$400 (text or map) + plus required advertising	No refund/reimbursement policy.
Bangor	31,600	Map: $664-$1,060 Text: $1,590-$2,193 + plus required advertising	No refund/reimbursement policy found.
South Portland	27,000	$1,000 (map or text) + $200 pre-application meeting + application fee	Does not allow refunds/reimbursements.
Portland	68,400	$7,500 (map or text) / $10,000 map & text combined	The fee for text or zoning map amendment applications may be waived or reduced by the Planning Authority in the case of an application submitted by a governmental body or where an applicant can establish financial hardship. If a text or zoning map amendment application is withdrawn by an applicant prior to the submission of the advertisement copy to the newspaper to announce the public hearing, a refund of half of the amount of the application fee will be made to the applicant by the City provided that all costs incurred by the City have been paid in full by the applicant. Application fee is non-refundable. (Code).
Auburn	24,200	$400 (map or text) + advertising fees ($300)

SafeVoices

Domestic Abuse in Our Communities

And what services are available to our friends and neighbors who are experiencing abuse and violence.

www.safevoices.org

What is Domestic Abuse & Violence?

A pattern of coercive, controlling behavior

In the context of an intimate relationship

Chosen by the abuser to enforce their position of power over the survivor

Instills fear and denies the survivor's personal liberty

The abuser believes they are entitled to this position of power, with this belief stemming from cultural context that privileges the rights of some over others, based on gender, ability, class, age, or other factors

In Our Communities

Rapidly Increasing Need

We have seen a year-over-year increase since the pandemic in the need for our services, culminating in a 50% increase over the last six years.

Area Numbers

- Safe Voices supported over 250 individual survivors in **Auburn** last year
- We supported 1,100+ in **Androscoggin County**, and over 2,300 individual survivors in our **tri-county** service area.
- Additionally, we served about 350 people who were not, themselves, survivors, including family, law enforcement, or medical professionals who called for consultations and advice.
- Statewide, Maine's domestic violence resource centers served over 15,000 survivors last year.

Sheltering

Last year, we sheltered **109 survivors** across our three shelter facilities, including one confidential shelter for survivors of DV in Androscoggin County, one confidential safe house for survivors of sex trafficking in Androscoggin County, and one secure shelter for survivors of DV in Franklin County.

Safe Voices Services

- 24-hour helpline
- Emergency shelter
- Transitional housing services
- Civil and legal courtroom advocacy
- Individual advocacy including safety planning
- CPS liaison for a non-offending parent
- Support groups
- School-based education
- Public awareness education
- Certified Domestic Violence Intervention Program (CDVIP) for offenders/abusers
- Coordinated Community Response & High Risk Response Team meetings across organizations

What happens when someone calls our Helpline?

- Helpline calls with our advocates are confidential.
- Our answering service will ask for:
  - A first name
  - The best number to call you back
  - Whether it is safe for us to leave a message
- They will then dispatch the call to a Safe Voices advocate.
- We ask what made them call today, and then **we listen**.

What happens when someone calls our Helpline? (cont.)

- We validate their feelings.
- We ask what would be most helpful.
- We problem solve alongside them, not for them.
- We safety plan.
- We refer them to a civil or legal advocate on staff who has specialized knowledge in what that survivor has expressed needing.
- We offer resources aimed at increasing safety.

What is a safety plan?

A safety plan looks different for every survivor, and is based on what that survivor identifies as the risk factors unique to their situation and what things they think would keep them safest. It might include:

- Cameras for their home that they can monitor remotely
- Filing a PFA
- Blocking an abuser's number
- Increasing the privacy settings on their social media
- Fleeing to the home of a friend or family member who the abuser doesn't know
- Calling law enforcement
- Staying and planning for "safety in place"

What are some of the biggest challenges for survivors and DVRCs?

Affordable Housing

Lack of affordable housing delays or prevents survivors leaving, increases their length of stay in shelter, and threatens stability. This is doubly true for pet-friendly housing.

Stresses on Legal System

Stresses on the legal system has left survivors vulnerable. Risk of charges being dismissed or bail lowered due to lack of public defenders makes survivors more nervous to call law enforcement at all.

Funding Threats

Federal and state funding have been flat or have even decreased in the last few years, while need has dramatically increased.

SafeVoices

Subject: [External]A New Form Has Been Submitted - Board/Committee Application

The following form has been submitted by an end-user of the website: Board/Committee Application

First Name: Denis

Middle Initial:

Last Name: Bergeron

Residence Address: 23 Dexter Ave.

Ward: Ward 2

City: Auburn

Home Phone: 2075764588

Cell Phone: 2075764588

E-mail Address: denis.p.bergeron@gmail.com

Current Occupation: Retired

Previous Occupation (if retired or no longer working): Engineer

Education and/or experience: BS Mechanical Engineering, BS Park and Recreation Mgmt.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above):: Denis

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I served on the planning Board for 9 years, then served on the 2010 Comprehensive Plan Update Committee. I've observed the uneven process Auburn has used to update the Comp plan since then and believe it's time for a comprehensive, transparent publicly informed re-evaluation. I think my experience can help.

What do you hope to accomplish?: Contribute to a document that positions Auburn to take productive advantage of the many demographic, cultural, and climate changes it will be faced with in the coming years.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Water district and Sewer Sistrict Trustee

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Yes. Planning Board and 2010 Comp. Plan Update Committee

Dates served (if known): 2000 - 2009 and 2010 to 2012

How did you learn of this vacancy?: City web page

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Denis Bergeron

Date of Electronic Signature: August 26 2024

Current Occupation: Attorney/State Representative

Previous Occupation (if retired or no longer working):

Education and/or experience: Former City Councilor, Municipal attorney handling land use, code enforcement, ordinance drafting, and housing for the City of Portland; currently practicing attorney representing municipalities and individuals with complaints against municipalities.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have substantial experience with land use, zoning, housing, and economic development from several perspectives. I have, as an attorney, represented numerous municipalities including the City of Portland and various towns with respect to land use, zoning, housing, and code enforcement matters. I have, also as an attorney represented various businesses and individuals with similar issues against municipalities. Additionally, as a former City Councilor and State Representative I have a unique blend of knowledge of the governmental perspective and current challenges in enacting an effective comprehensive planning strategy.

What do you hope to accomplish?: Confronting housing and transportation challenges in a manner that provides opportunities to Auburn residents given the present affordability crises, and doing so in a manner that maximizes economic development in a focused and meaningful manner that does not adversely affect our economic and natural resources.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, Board of Assessment Review, Regulatory Advisory Board, Strategic Planning Committee

Dates served (if known): 2013-2022

How did you learn of this vacancy?: Social Media

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: /s/ Adam R. Lee

Current Occupation: Regional Director Behavioral Health Network

Previous Occupation (if retired or no longer working):

Education and/or experience: I currently hold three licenses in the state of Maine (LCPC, LADC, and CCS) which support my work as the Regional Director for a Behavioral Health Network which serves individuals and families struggling with emotional and physical health conditions.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): From a young age I have been a community volunteer and hold a strong commitment to contributing to the community I reside in. I bought a home in Auburn about a year ago & am seeking an opportunity to contribute and learn more about Auburn. I would bring a fresh/objective perspective to the planning process and believe Auburn is an up and growing community that has the potential to offer a safe, fiscally sound and connected community culture. I think the community, like many of Maine communities is experiencing the challenges of individuals and families who struggle and my expertise in these areas can contribute to the comprehensive planning process.

What do you hope to accomplish?: As noted above, learning about the community, contributing to the development of a safe, culturally rich and economically sound community. Maintaining Auburn?s rich history and business while supporting the ongoing development of Auburn?s infrastructure (roads, ensuring all Auburn wards represent a welcoming and visually appealing engagement to visitors, and supporting the strengthening of Auburn?s current development initiatives). Assisting with any gaps/needs for Auburns current initiatives.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No.

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: No.

Dates served (if known): N/A

Current Occupation: VP of IT, ReVision Energy

Previous Occupation (if retired or no longer working):

Education and/or experience: masters in computer science

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I am deeply invested in Auburn's future. I want nothing but the best for this community and have spent countless hours volunteering to help steer things in the right direction. I have previously served on numerous boards and committees for the city and have learned a great deal about how it works. I work well with people and hope to achieve a collaborative comp plan committee that is committed to planning for the best Auburn that we can become in ten years.

What do you hope to accomplish?: I want to assist the committee in determining how Auburn can plan for the next ten years. As the prices of everything continue to climb, we need to be prepared to do more with less. The aging population of Auburn will need to continue to find innovative solutions for expensive problems. I hope through good discussion this committee can plan for good outcomes.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Zoning Board of Appeals

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, 2020 Comp Plan Committee, Planning Board, Strategic Planning Committee

Dates served (if known): various since 2014

Current Occupation: Retired

Previous Occupation (if retired or no longer working): Community Development & Planning Consultant 35yrs

Education and/or experience: USM Graduate BA Biology, Consultant: I helped several municipalities in Maine develop Comprehensive Plans, Create and implement Development Plans, Wrote land use ordinances, and worked as a municipal p planner as staff for Planning Boards.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I want to use my extensive experience in the private and public sector with land use planning to help Auburn develop a thorough and detailed Comprehensive Plan ,to create a vision and legal foundation for Auburn's growth for the next 10 - 15 years. As well as to use my knowledge of State Law regarding Comprehensive Plans to ensure the requirements are met. Additionally I believe my previous experience as Mayor of Auburn leading the community through a Comprehensive Planning process and subsequent land use ordinance changes will be helpful to this Comprehensive Plan Committee.

What do you hope to accomplish?: My goal is to help the Comprehensive Plan Committee to effectively and efficiently develop a Comprehensive Plan as required by State Law within the time frame outlined by State statute. As well as develop a Comprehensive Plan that meets the needs of the community and is consistent with the community's values.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, Mayor, Auburn Public Library, Mayor's Representative to School Board, and others.

Dates served (if known): City Council 1977 - 1981, Mayor 1983- 1987 APL previously & currently, School Board 1977 - 1981.

How did you learn of this vacancy?: At a City Council Meeting

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have lived in Auburn for over thirty years; I love the community and have found it to be a place where individual residents can make a difference. I have enjoyed working with other Auburn residents on matters of interest where we try to improve the lives of everyone who lives here. I hope to learn more about the challenges and trade-offs of moving Auburn forward through participating in Comprehensive Planning work. While there are issues that particularly concern me (environment, housing, welcoming diverse new Mainers into our civic processes) I would come into the process with an open mind, eager to hear what other people care about, and to try to engage with as many different residents of Auburn as possible in charting a way forward.

What do you hope to accomplish?:

I hope to help construct a ?blueprint? that is both aspirational and also grounded in the realities and challenges of the city. Beyond particular goals and benchmarks for the future, I would hope to find a way to capture the attention and imagination of more residents of Auburn ? to get more people involved in caring about this community as their home. Whatever the future throws at us, having people care ? and be willing to listen to their neighbors ? is essential.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: SNRB, Conservation Working Group

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Solid Waste Task Force

Dates served (if known): (Last six months)

How did you learn of this vacancy?: A friend told me about it

Education and/or experience: BA Bates College; graduate work at USM

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have lived in Lewiston Auburn since graduating from Bates in 1982; marrying an EL graduate in 1984 and buying a home in Auburn in 1989. My professional and volunteer life have focused on education, arts and culture and economic development for our community and State. I would like to contribute to Auburn?s comprehensive planning process to ensure our city can reach its highest potential and our citizens, especially our youth, can attain their highest aspirations. Having lived in Auburn for 35 years and planning to stay here through retirement, it is important to me that we both acknowledge previous work while simultaneously challenging our community to think creatively and expansively about the possibilities to make our City even stronger, more livable and appealing, and welcoming to new residents. While comprehensive plans are designed to provide state-required deliverables, the process for the community can also find common ground and develop a vision for the future.

What do you hope to accomplish?: A transparent process to ensure that Auburn residents see value in the comprehensive plan and understand how it is helpful for the City to make decisions, and reflects growth, development and redevelopment that makes the City stronger for both current and future residents and businesses.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Lewiston Auburn Airport Board

Dates served (if known): 2016-2019 (?)

How did you learn of this vacancy?: Mayor Harmon

CITY OF AUBURN
BOARD & COMMITTEE
APPOINTMENT APPLICATION

Please complete this application for consideration to serve on a board or committee of the City of Auburn. Submission of an application does not imply or guarantee an appointment to any board or committee. The City reserves the right to appoint board and committee members as vacancies arise and to perform background checks or any other necessary investigations on applicants. Incomplete applications and those which list more than one committee will not be considered.

Date: 9/22/24

Last name: Rioux First name: Bruce Middle initial: B

City: Auburn State: ME Zip code: 04210

Home phone: — Work phone: — Cell phone: 207-713-4400

Email address: rioux bruce @ gmail.com

Current occupation: Retired

Previous occupation (if retired or no longer working): Sun Journal (Advertising major accts)

Educational and/or experience (or attach your resume): 2 years Univ of ME.

Please check which Board or Committee you are interested in serving on. Individual applications are required if you wish to apply for more than one Board or Committee.

X Comprehensive Plan Committee

___ 9-1-1 Committee
___ Auburn Housing Authority
___ Board of Assessment Review
___ CDBG Loan Committee
___ Conservation Commission
___ Finance Committee
___ Parks & Recreation Advisory Board
___ Planning Board
___ Water District
___ Airport Board
___ Audit & Procurement Committee
___ Cable TV Advisory Board
___ Community Forest Board
___ Ethics Panel
___ L/A Transit Committee
___ Poland-Auburn Economic Development Committee
___ Sewer District
___ Zoning Board of Appeals

Is this application for a X new appointment or ___ reappointment or ___ desire to move from an alternate/associate to full member?

Briefly describe why you want to serve on this committee (please limit to 150 words or less. Please attach additional sheet if needed). I believe I can best represent citizen interests and community growth through responsible planning. Water protection and neighborhood preservation are primary concerns.

What do you hope to accomplish (please limit to 150 words or less. Please attach additional sheet if needed). I would like to see Auburn grow responsibly, while protecting Lake Auburn, our schools, and traditional neighborhoods. I would encourage water/sewer extensions to create new housing opportunities away from Lake Auburn.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)? _____
Auburn Business Development Corp

Dates served (if known)? 30+ years

Have you previously served on a City or Community Board or Committee? If so, which one(s)?
YES
Auburn City Councilor Ward 5; Auburn Water Dist; Watershed Protection commission

Dates served (if known)? 1990-91 (Council) 1990-2018? Water Dist & Watershed

How did you learn of this vacancy? Mayor & Council & friends

The City Council strives to promote membership and by practice will attempt to limit the number of boards or committees any one person will serve. The city Council also strives to maintain balance of ward distribution on all boards, commissions, or committees.

Thank you for your interest and willingness to serve our community. The giving of your time is commendable and appreciated. Without people like you coming forward, our community would not be as strong, as vibrant, or as great as it is. On behalf of all of us at the City of Auburn, we hope your volunteer experience is rewarding and we thank you for being an outstanding citizen!

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above.

Signature: Bruce Rioux Date: 9/22/24

WHEREAS, manufacturing sectors in Auburn include sectors in advanced materials and composites, aerospace and defense, biotech and medical devices, blue and forest bioeconomy, and food and beverage.

NOW, THEREFORE, I, Jeffery D. Harmon, Mayor of the City of Auburn, do hereby proclaim the month of October 2024 as Manufacturing Month in the City of Auburn.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 7th day of October, 2024.

Mayor Jeffrey D. Harmon

PROCLAMATION | **DOMESTIC VIOLENCE AWARENESS MONTH**

WHEREAS, we have citizens and neighbors who have survived domestic violence, who are still experiencing abuse, and who have lost their lives to this critical community issue, the City of Auburn recognizes October as Domestic Violence Awareness Month.

WHEREAS, in the last year, Safe Voices has served over 2,300 individual survivors of abuse, trafficking, and exploitation, including over 1,000 in Androscoggin County and over 250 in Auburn; and

WHEREAS, the effects of domestic violence are far-reaching, directly affecting individual survivors as well as our community at large; and

WHEREAS, domestic violence at home is an indicator of risk to the broader community, often escalating to include violence outside the home; and

WHEREAS, roughly half of all homicides annually in the state of Maine are attributed to domestic violence; and

WHEREAS, we recognize that domestic violence must be addressed by a community as a whole, as a community safety issue, and with survivor-centered responses; and

WHEREAS, we remind domestic violence survivors that they are not alone, and urge them to seek aid from the local Safe Voices helpline (800-559-2927) or the statewide helpline (866-834-HELP).

AND WHEREAS, we urge all local citizens to embrace this month of action by participating in activities and programs sponsored by Safe Voices and other community organizations working toward the elimination of intimate partner violence.

NOW THEREFORE, I Jeffrey Harmon, Mayor of the City of Auburn, by virtue of the authority vested in me, do hereby proclaim October 2024 as Domestic Violence Awareness Month in the City of Auburn.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 7th day of October, 2024.

Mayor Jeffrey D. Harmon

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 7, 2024 ORDINANCE 18-09162024

Author: John Blais – Deputy Director of Planning, Permitting and Code

Subject: Ordinance - Gracelawn Area Zoning Map Amendment

Information: Consider a zoning map amendment to convert certain parts of City Assessor's Parcel I.D.s 289-001, 277-026 and 289-002 with addresses of 369 Mount Auburn Ave, 225 Gracelawn Road, and 125 Gracelawn Pit Road from the General Business zoning district to the Multifamily Suburban zoning district City Council introduced this proposal in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

This proposed zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289-001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district. The Multifamily Suburban zoning district has the same residential density standards as within the General Business District but does not allow several of the uses permitted within the General Business district, like automobile, repair service, and filling stations.

Amending the zoning toward the back of the Gracelawn Pit area closer to the lake allows for the creative reuse of land while limiting some of the heavier uses allowed in the General Business District. Approximately 15 acres in the southeasterly portion of the parcel on Gracelawn Road is proposed to remain in General Business to complement the General Business Zoning on the opposite side of Gracelawn Road and to allow for expanded development opportunity further from Lake Auburn. The proposed General Business portion of the Gracelawn parcel excludes 100 feet abutting the landfill on City Assessor's Parcel I.D. 289-003.

City Budgetary Impacts: None

Staff Recommended Action: Second reading/public hearing in support of the map amendment. This proposed zoning map amendment to change approximately 45 acres in City Assessor's parcel I.D.'s 289- 001, 289-002, and 277-026 from General Business Zoning to the Multifamily Suburban zoning district and retain 15 acres within City Assessor's parcel I.D. 289-001 in the General Business zoning district

---

Previous Meetings and History: PB unanimous approval in the August Planning Board Meeting; Passed 5-1 (Gerry opposed, Cowan absent) at September 16, 2024 meeting.

U.S. DEPARTMENT OF JUSTICE
OFFICE OF JUSTICE PROGRAMS

Edward Byrne Memorial Justice Assistance Grant Program FY 2024 Local Solicitation

Certifications and Assurances by the Chief Executive of the Applicant Government

On behalf of the applicant unit of local government named below, in support of that locality's application for an award under the FY 2024 Edward Byrne Memorial Justice Assistance Grant ("JAG") Program, and further to 34 U.S.C. § 10153(a), I certify to the Office of Justice Programs ("OJP"), U.S. Department of Justice ("USDOJ"), that all of the following are true and correct:

1. I am the chief executive of the applicant unit of local government named below, and I have the authority to make the following representations on my own behalf as chief executive and on behalf of the applicant unit of local government. I understand that these representations will be relied upon as material in any OJP decision to make an award, under the application described above, to the applicant unit of local government.

2. I certify that no federal funds made available by the award (if any) that OJP makes based on the application described above will be used to supplant local funds but will be used to increase the amounts of such funds that would, in the absence of federal funds, be made available for law enforcement activities.

3. I assure that the application described above (and any amendment to that application) was submitted for review to the governing body of the unit of local government (*e.g.*, city council or county commission), or to an organization designated by that governing body, not less than 30 days before the date of this certification.

4. I assure that, before the date of this certification— (a) the application described above (and any amendment to that application) was made public; and (b) an opportunity to comment on that application (or amendment) was provided to citizens and to neighborhood or community-based organizations, to the extent applicable law or established procedure made such an opportunity available.

5. I assure that, for each fiscal year of the award (if any) that OJP makes based on the application described above, the applicant unit of local government will maintain and report such data, records, and information (programmatic and financial), as OJP may reasonably require.

6. I have carefully reviewed 34 U.S.C. § 10153(a)(5), and, with respect to the programs to be funded by the award (if any), I hereby make the certification required by section 10153(a)(5), as to each of the items specified therein.

7. If the applicant named below is not the unit of local government itself, I certify that it is an instrumentality of the unit of local government and is approved to serve as the applicant and recipient of FY 2024 JAG funding on behalf of the unit of local government.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 7, 2024 **Ordinance: 19-10032024**

Author: Jamie Longley, General Assistance Manager

Subject: Amending Chapter 24, "Human Relations and Services", Article II, Sec. 24-23 of the City's General Assistance Program regarding annual adjustment of maximum benefits.

Information: Maine Municipal Association has updated their General Assistance Ordinance and updates have been made to Appendix A (overall maximums), Appendix B (food maximums), Appendix C (housing maximums) and Appendix H (funeral maximums) of the General Assistance Ordinance. There is also a new Recovery Residence Housing Maximums guide.

This amendment adopts these changes for the 2024/2025 year. The language in the ordinance has been amended to specify all of the adopted GA Maximums (Appendices A-H) and Recovery Residence maximums, and specifies the City's adoption of the MMA General Assistance Ordinance (dated September 2024). A copy of these records in their entirety are kept on file in the office of the city clerk for public information.

As an ordinance amendment, tonight will be first reading and second reading and public hearing will be scheduled for October 21, 2024.

City Budgetary Impacts: The overall maximums (Appendix A) are an average increase of 3.96% per person/household per month. The food maximums (Appendix B) are an average increase of 0.26% per individual per month. The housing maximums (Appendix C) are an average increase of 3.86% per unit per month. The funeral maximums are an average increase of 9.79% per case. Recovery houses have increased 4.02% per month. This is estimated to be an annual increase of $37,500. *There are no changes in appendices D-G.*

Staff Recommended Action: Approval of changes to the General Assistance Ordinance, Appendices A-C, H, and Recovery Residences as required by State statute and ordinance. Recommend passage.

Previous Meetings and History: This is an annual approval needed by council for changes made to the appendices.

City Manager Comments:

I concur with the recommendation. Signature:

ARTICLE I – Statement of Policy

The Municipality of _____ administers a general assistance ("GA") program available to all persons who are eligible pursuant to the standards provided in this ordinance, state law (22 M.R.S. § § 4301-4326), and Department of Health and Human Services (DHHS) regulations.

The program will make every effort to recognize the dignity of applicants while helping eligible persons achieve self-maintenance by promoting the work incentive. When possible, the program will connect recipients with rehabilitative, preventive, and protective services to alleviate non-financial needs. The GA program will not place unreasonable restrictions on the personal rights of applicants or recipients, nor will it discriminate based on sex, age, race, nationality, religion, sexual orientation, or disability. The municipality is committed to including qualified individuals with disabilities in municipal services, programs, and activities. As a result, the municipality will promote a GA program that when viewed in its entirety is readily accessible to and usable by individuals with disabilities. GA applicants with physical or mental disabilities that require a reasonable accommodation in order to access and/or utilize the GA program are encouraged to contact the municipality to make an accommodation request.

The program provides trauma-informed services and culturally and linguistically appropriate services to all applicants. "Trauma-informed services" means services that acknowledge and are informed by the widespread effects of trauma and recognize the potential paths for recovery; recognize the unique signs and symptoms of trauma in applicants, clients, families and staff; respond by fully integrating knowledge about trauma into policies, procedures and practices; and seek to actively avoid retraumatization. "Culturally and linguistically appropriate services" means services that are designed to serve culturally diverse populations in a person's preferred language; function effectively within the context of cultural beliefs, behaviors and needs presented by a person who applies to or is a recipient of assistance from the program and the person's community; contribute to a work environment that supports diversity; promote community engagement; build trust and relationships with applicants and recipients; actively support and enable

recipients to make informed choices; and value and facilitate the exchange of information with recipients. (22 M.R.S. § 4305(7)).

The Administrator will act promptly on all applications for assistance and requests for fair hearings and will provide GA applicants with information regarding their rights and responsibilities under the program. Within 24 hours after receipt of an application, the Administrator will provide the applicant a written decision, whether or not assistance is granted, that will state the specific reasons for the decision. The Administrator will also provide the applicant written notice that the applicant may appeal to the municipal fair hearing authority if dissatisfied with the decision. When an applicant is determined to be eligible, assistance appropriate to the need will be furnished within 24 hours after the completed application is submitted except when the Administrator issues non-emergency assistance conditionally on the successful completion of a workfare assignment *(see Ordinance § 5.6)*.

The Administrator will maintain complete and accurate records pertaining to each applicant and recipient. These records are confidential as a matter of law. (22 M.R.S. § 4306).

The Administrator will post notice stating that any person may apply for general assistance during the municipality's regular business hours. The Administrator, or other designated person/entity, will be available to take applications in the event of an emergency at all other times. A copy of this ordinance and Maine General Assistance law will be available to any member of the public upon request. Notice to this effect will be posted.

The Administrator will complete training including, but not limited to, the purpose of the general assistance program, the delivery of trauma-informed services and culturally linguistically appropriate services as defined above, and the laws governing the general assistance program's administration, procedures, and requirements no later than 120 days after appointment or election. (22 M.R.S. 4302-A).

ARTICLE II – Definitions

Section 2.1—Common Meaning of Words

Unless otherwise apparent or defined, all words in this ordinance will have their common meaning.

Section 2.2—Special Definitions

Administrator. See "General Assistance Administrator," below.

Applicant. A person who has submitted an application for GA directly or through an authorized representative, or who has, in an emergency, requested assistance without first completing an application. All persons on whose behalf an authorized application has been submitted or on whose behalf benefits have been granted shall be considered applicants.

Application Form. A standardized form used by the Administrator to allow a person to apply for GA benefits. The application form also confirms that a person has made an application. The application form is not complete unless signed by the applicant.

Basic Necessities. Food, clothing, shelter, fuel, electricity, potable water, non-elective essential medical services as prescribed by a physician, nonprescription drugs, basic telephone service where it is necessary for medical or work-related reasons, property taxes when a tax lien placed on the property threatens the loss of the applicant's place of residence, and any other commodity or service determined essential by the municipality.

"Basic necessities" do not include:

- Phone bills
- Cable or satellite dish television
- Mail orders
- Vehicle payments
- Credit card debt**
- Furniture
- Loan re-payments**
- Cigarettes
- Alcohol
- Pet care costs

- Vacation costs
- Legal fees
- Late fees
- Key deposits
- Security deposits for rental property (except when no other permanent lodging is available unless a security deposit is paid, and a waiver, deferral or installment arrangement cannot be made between landlord and tenant to avoid need for immediate payment of the security deposit in full). (22 M.R.S. § 4301(1)).

** Repayments of loans or credit will be treated as having been spent on basic necessities when the applicant can provide verification of this fact.

Case Record. An official file containing application forms; correspondence; narrative records and all other communications pertaining to an applicant or recipient; written decisions regarding eligibility including reasons for those decisions and types and amounts of assistance provided; records concerning an applicant's request for fair hearing; and fair hearing decisions.

Categorical Assistance. All state and federal income maintenance programs.

Claimant. A person who has requested a fair hearing.

Deficit. An applicant's deficit is the appropriate overall maximum level of assistance for the household (see Ordinance § 6.8) less the household income (calculated pursuant to Ordinance § 6.7), provided that this calculation yields a positive number. If the household income is greater than the appropriate overall maximum level of assistance, the household has no deficit.

Disabled Person. A person who is presently unable to work or maintain a home due to a physical or mental disability that is verified by a physician or qualified mental health provider.

Dwelling Unit. A building or part thereof used for separate living quarters for one or more persons living as a single housekeeping unit. (22 M.R.S. § 4301(2)).

Earned Income. Wages or Income-in-kind derived by providing goods or services to an individual, company, organization, or other entity.

Eligible Person. A person who is qualified to receive GA benefits from the municipality according to the eligibility standards in this Ordinance, Maine law (22 M.R.S. ch. 1161), and DHHS regulations (10-144 C.M.R. ch. 323). If otherwise qualified, "Eligible Person" includes U.S. citizens; non-U.S. citizens who are lawfully present in the United States as described in 8 U.S.C. § 1621(a)(1)-(3); and non-U.S. citizens who are pursuing a lawful process to apply for immigration relief. Assistance for non-citizens pursuing a lawful process for immigration relief shall not exceed 24 months beginning with assistance provided after July 1, 2015. "Eligible Person" does not include a fugitive from justice as defined in 15 M.R.S. § 201(4). (See "Pursuing a Lawful Process," below)

Emergency. Any life-threatening situation, or a situation beyond the control of the individual which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of a person. At the municipality's option, it includes a situation which is imminent and which may result in undue hardship or unnecessary cost to the individual or municipality if not resolved immediately. (22 M.R.S. § § 4301(4), 4308(2), 4310).

General Assistance ("GA") Program. A service administered by a municipality for the immediate aid of persons who are unable to provide the basic necessities essential to maintain themselves or their families. A GA program provides a specific amount and type of aid for defined needs during a limited period of time and is not intended to be a continuing "grant-in-aid" or "categorical" welfare program. This definition shall not lessen the municipality's responsibility to provide GA benefits to a person each time that the person is in need and is found to be eligible to receive GA. (22 M.R.S. § 4301(5)).

General Assistance ("GA") Benefits. Benefits provided to a person through the GA program.

General Assistance ("GA") Administrator. A municipal official designated to receive applications, make decisions concerning an applicant's right to receive assistance, and prepare records and communications concerning assistance. They may be an elected overseer or an authorized agent such as a town manager, welfare director, or caseworker. (22 M.R.S. § 4301(12)).

Homelessness. "Homelessness" means a situation in which a person or household is: (a) living in a place that is not fit for human habitation; (b) living in an emergency shelter; (c) living in temporary housing, including but not limited to a hotel, motel, campground, unlicensed campsite or rehabilitation facility; (d) exiting a hospital or institution licensed under 22 M.R.S. ch. 405 or a correctional facility where the person or household resided for up to 90 days if the person or household was in an emergency shelter or a place not fit for human habitation before entering the hospital, institution or correctional facility; (e) losing the person's or household's primary nighttime residence and lacking the resources or support networks to remain in that residence; or (f) fleeing or attempting to flee violence and has no other residence.

Household. "Household" means an individual or a group of individuals who share a dwelling unit. When an applicant shares a dwelling unit with one or more individuals, even when a landlord-tenant relationship may exist between individuals residing in the dwelling unit, eligible applicants may receive assistance for no more than their pro rata share of the actual costs of the shared basic needs of that household according to the maximum levels of assistance established in the municipal ordinance. The pro rata share is calculated by dividing the maximum level of assistance available to the entire household by the total number of household members. The income of household members not legally liable shall be considered as available to the applicant only when there is a pooling of income. (22 M.R.S. § 4301(6)). Residents of a Recovery Residence are not considered a shared household.

Income. "Income" means any form of earned or unearned income in cash or in kind received by the household including:

- Net remuneration for services performed;
- Cash received on either secured or unsecured credit;

- Payments received as an annuity, retirement or disability benefits;
- Veterans' pensions and/or benefits;
- Retirement accounts or benefits;
- Workers' compensation payments;
- Unemployment benefits;
- Federal and/or state tax returns;
- Income from pension or trust funds;
- Student loans;
- Benefits under any state or federal categorical assistance program such as TANF, Supplemental Security Income, Social Security and any other payments from governmental sources (unless specifically prohibited by any law or regulation);
- Court ordered support payments (e.g., child support);
- Household income from any other source, including relatives or unrelated household members; and
- Rental income.

The following items will not be considered as income or assets that must be liquidated for the purposes of deriving income:

- Real or personal income-producing property, tools of trade, governmental entitlement specifically treated as exempt assets by state or federal law;
- Actual work-related expenses, whether itemized or by standard deduction, such as taxes, retirement fund contributions, union dues, transportation costs to and from work, special equipment costs and childcare expenses; or
- Earned income of children below the age of 18 years who are full-time students and who are not working full-time.

In determining need, the period of time used as a basis for the calculation shall be a 30-day period commencing on the date of the application. This prospective calculation shall not disqualify an applicant who has exhausted income to purchase basic necessities, provided that the income does not exceed the income standards established by the municipality. (22 M.R.S. § 4301(7)).

- Benefits received pursuant to public benefit programs that are specifically exempt from being counted as income for purposes of GA. These programs include:

- Supplemental Nutrition Assistance Program (SNAP) (7 U.S.C. § 2017(b))
- Li-Heap (42 U.S.C. § 8624)
- Family Development Accounts (22 M.R.S. § 3762)
- AmeriCorp VISTA program benefits (42 U.S.C. § 5044 (f))
- Property tax rebates issued under the Maine Property Tax Fairness Credit program, but only if the money is spent on basic necessities (22 M.R.S. § 4301(7))
- ASPIRE Support Service Payments (10-144 CMR Chapter 323)

Initial Applicant. A person who has not previously applied for GA assistance in this or any other municipality.

Just Cause. A valid, verifiable reason that hinders an individual from complying with one or more conditions of eligibility or from attending a scheduled fair hearing. (22 M.R.S. § § 4301(8), 4316-A(5)).

Landlord. A person who owns a property and allows another person to use that property in return for payment. (22 M.R.S. § 4301(8-B)).

Lump Sum Payment. A one-time or typically nonrecurring sum of money issued to an applicant or recipient. Lump sum payment includes, but is not limited to, retroactive or settlement portions of social security benefits, workers' compensation payments, unemployment benefits, disability income, veterans' benefits, severance pay benefits, or money received from inheritances, lottery winnings, personal injury awards, property damage claims or divorce settlements. A lump sum payment includes only the amount of money available to the applicant after required deductions have been taken from the gross lump sum payment. A lump sum payment does not include conversion of a non-liquid resource to a liquid resource if the liquid resource has been used or is intended to be used to replace the converted resource or for other necessary expenses. (22 M.R.S. § 4301 (8-A)).

Material Fact. A material fact is a fact that necessarily has some bearing on the determination of an applicant's GA eligibility, and which would, if disclosed to the Administrator, have some determinable effect on the calculation of eligibility or the issuance of a grant of assistance.

Maximum Levels of Assistance. The amount of financial assistance for a commodity or service as established in Ordinance § 6.8 or the actual cost of any such basic necessity, whichever is less.

Misconduct. For purposes of the GA work requirement (22 M.R.S. § 4316-A), misconduct shall have the same meaning as "misconduct" in 26 M.R.S. § 1043(23). *(See Ordinance Appendix I).* Generally, misconduct occurs when an employee violates their obligations to the employer. Employees who engage in a pattern of irresponsible behavior to the detriment of the employer's interest may also be found guilty of misconduct.

Misspent Income. Misspent income includes income-in-kind received, or paid for, by a GA repeat applicant from sources, including friends or relatives, for the payment of bills that are considered unnecessary costs, such as cable bills, credit card debt, court fines and related court costs, payments to reimburse a municipality for false representation, tobacco and alcohol products, and similar items. Misspent income will be considered as available to the applicant when determining use of income for the previous 30-day period.

Municipality. Any city, town or plantation administering a GA program.

Municipality of Responsibility. The municipality which is financially liable for the support of an eligible person at the time of application. (22 M.R.S. § § 4301(9), 4307).

Need. The condition whereby a person's income, money, property, credit, assets, or other resources available to provide basic necessities for the individual and the individual's family are less than the maximum levels of assistance. (22 M.R.S. § § 4301(10), 4308).

Net General Assistance Costs. Those direct costs incurred by a municipality in providing assistance to eligible persons according to standards established by the municipal officers. These do not include the administrative expenses of the GA program. (22 M.R.S. § § 4301(11), 4311).

Operator. The lawful owner of a recovery residence or an individual or company designated by the lawful owner to have primary responsibility for the day-to-day operations of the recovery residence and for acquiring and maintaining certification pursuant to Title 5, section 20005, subsection 22 of the recovery residence in order to receive housing assistance payments through the general assistance program. (22 M.R.S. § 4301(11-A)).

Period of Eligibility. The time for which a person has been granted assistance. The period of eligibility may vary depending on the type of assistance provided; however, in no event shall this period extend beyond one month. (22 M.R.S. § 4309(1)).

Pooling of Income. "Pooling of income" means the financial relationship among household members who are not legally liable for mutual support in which there occurs any commingling of funds or sharing of income or expenses. This ordinance establishes a rebuttable presumption that persons sharing the same dwelling unit are pooling their income, except that applicants that who request assistance while residing in a Recovery Residence are not considered to be commingling funds. Applicants who request that the determination of eligibility be calculated as though one or more household members are not pooling their income have the burden of rebutting the presumed pooling of income.

Potential Resources. Sources of financial assistance, including programs, services, non-liquid assets or trusts which typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released.

Pursuing a Lawful Process to Apply for Immigration Relief. Taking reasonable, good faith steps to apply for immigration relief within twelve months of arrival to the United States, with U.S. Citizenship and Immigration Services or before an immigration judge or federal court. (See DHHS regulation, 10-144 C.M.R. ch. 323, for additional guidance).

Real Estate. Any land, buildings, homes, mobile homes, and any other things affixed to the land. (22 M.R.S. § 4301(13)).

Recipient. A person who has applied for and is currently receiving GA.

Recovery Residence. “Recovery residence" means a shared living residence for persons recovering from substance use disorder that is focused on peer support, provides to its residents an environment free of alcohol and illegal drugs and assists its residents by connecting the residents to support services or resources in the community that are available to persons recovering from substance use disorder. 5 M.R.S. § 20003(19-D).

Registered Domestic Partner. An individual registered as the domestic partner of the applicant pursuant to 22 M.R.S. § 2710.

Rehabilitation Facility. An inpatient facility that is operated for the primary purpose of assisting in the rehabilitation of disabled persons through an integrated program of medical services and other services that are provided under competent professional supervision.

Repeat Applicants. All applicants for GA benefits that are not initial applicants are repeat applicants. For purposes of this ordinance “repeat” and “subsequent” shall have the same meaning.

Resident. A person who is physically present in a municipality with the intention of remaining in that municipality in order to maintain or establish a home, and who has no other residence. A person who applies for assistance in a municipality who is not a resident of that municipality, or any other municipality is the responsibility of the municipality where the person first applies. That municipality must take an application and grant assistance to the applicant if they are eligible, until they establish a new residence in another municipality. (22 M.R.S. § 4307).

Resources. Resources include any program, service, or other sources of support which are an alternative to or supplement for GA. There are two kinds of resources: “available” and “potential”. Potential resources are programs, services, non-liquid assets, or trusts that typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released.

Potential resources include, but are not limited to, state or federal assistance programs, employment benefits, governmental or private pension programs, available trust funds, support from legally liable relatives, child support payments, and jointly held resources where the applicant or recipient share may be available to the individual. (22 M.R.S. § 4317). Potential resources include the TANF (previously known as AFDC) program, Food Stamps, fuel assistance (HEAP), subsidized housing, and similar programs.

Available resources include resources which are immediately available to the applicant or which can be conveniently secured by the applicant without delay, such as cash on hand or in bank accounts, assets for which there is an immediate and available market, or support from relatives which is being made available at the time of application and for which the applicant does not have to take any unreasonable steps to secure (e.g., relocation beyond the immediate region). At the discretion of the Administrator, a minimum balance required by a financial institution in order to obtain free checking or in order to maintain the account shall not be considered an available resource.

The Administrator reserves the right to inform GA clients of services, commodities or facilities made available by private organizations or charities; however, eligibility for GA benefits shall not be based or conditioned on the use of a private charitable resource(s).

30-Day Need. An applicant's 30-day need is the sum of the household's prospective 30-day costs, from the date of application, for the various basic necessities. For the purpose of this calculation, the 30-day cost for any basic need shall be the household's actual 30-day cost for the basic necessity or the maximum 30-day cost for the basic necessity as established by this ordinance, whichever is less.

Unearned Income. Unearned income is income acquired from investments and other sources unrelated to employment. Unearned income also includes unemployment compensation, taxable social security benefits, pensions, annuities, and distributions of unearned income from a trust or any other income not meeting the definition of earned income.

Unforeseen Repeat Applicants. A repeat applicant who has not applied for assistance within the last twelve months and who has been regularly employed or receiving support from a public benefit program or private source and who has unexpectedly become unemployed through no fault of their own or whose benefits (e.g., through an available resource) have ceased through no fault of their own.

Unmet Need. An applicant's unmet need is the household's 30-day need (established by Ordinance § 6.6) less the household income (calculated pursuant to Ordinance § 6.7), provided such a calculation yields a positive number. If the household income is greater than the household's 30-day need, the household does not have an unmet need.

Work Requirements. Work requirements are obligations the Administrator places on applicants as directed and/or authorized by 22 M.R.S. § 4316-A to the extent such obligations (1) ensure a continuing potential eligibility for GA when complied with, (2) result in ineligibility when violated, and (3) are not merely optional, discretionary, or advisory. Work requirements include registering for work, looking for work in good faith, accepting all suitable job offers, maintaining employment, performing workfare, and participating in training, educational, or rehabilitation programs that will assist the participant in securing employment.

ARTICLE III – Administrative Rules and Regulations

Section 3.1—Confidentiality of Information

Case records and all other information relating to a GA applicant or recipient are confidential and will not be disclosed to the general public. (22 M.R.S. § 4306).

Release of Information. Applicants, recipients, and their legal representatives have the right to review their case records. No record will be released to a third party unless the Administrator receives a signed consent form in which the applicant expressly authorizes the release of their records to the specified parties. Whenever the Administrator releases any information, they will make a notation in the applicant's file stating to whom the record was released and the date. The Administrator may charge a reasonable fee for reproduction of records.

Information from Other Sources; Penalty. Information concerning an applicant or recipient furnished to the municipality by DHHS or any other agency or institution pursuant to 22 M.R.S. § 4314, is confidential. The Administrator will also comply with laws requiring confidentiality of vital statistic records such as birth, marriage, and death records. (22 M.R.S. § 2706).

Any representative of a financial institution or any employer of a GA applicant who, upon receipt of a written release signed by the depositor/employee and a written request from the Administrator, refuses to provide necessary information to the Administrator in order to verify an applicant's eligibility must state in writing the reason for the refusal. National banks are also obligated to disclose deposit information to the Administrator upon receipt of a written request and release signed by the depositor. Additionally, when a municipality or its agents are acting in accordance with section 4313(2) to verify eligibility for funeral or cremation benefits, an officer of a financial institution must disclose the amount deposited upon receipt of a written request from the municipality or its agents and a notarized affidavit signed by the overseer of the municipality or its agents stating that the named depositor is deceased. Any such person who refuses to provide information, without just cause, may be subject to a civil penalty of not less than $25 nor more than $100. Any person, including the applicant, who knowingly and willfully makes a false representation of

a material fact to the Administrator commits a Class E crime. (22 M.R.S. § § 4314, 4315).

Misuse of Information. Misuse of any information relating to an applicant or recipient is a punishable offense. (22 M.R.S. § 42(2)).

Section 3.2—Maintenance of Records

The Administrator will maintain complete and accurate program records. (22 M.R.S. § 4306). These records are necessary to: (a) document and account for municipal program expenditures; (b) document and support decisions concerning applicants and recipients; and (c) ensure relevant information is available for any fair hearing or judicial review of the Administrator's decisions.

Case Records. The Administrator will maintain a separate case record, in paper or digital format, for each applicant or recipient. Each case record will include at least:

- household applications;
- household budget sheets;
- the types and amounts of assistance provided;
- narrative statements describing the nature of the emergency situation whenever GA is granted in amounts greater than the applicant's mathematical eligibility (i.e., deficit or unmet need, whichever is less);
- written decisions;
- requests for fair hearings and the fair hearing authority decisions;
- workfare participation records;
- repayments to the municipality;
- narrative writings documenting the need for general assistance, the results of home visits, collateral information, referrals, changes in status;
- client authorization(s) for the release of GA information and/or reason(s) for the release of confidential information;
- adjustments in aid, and suspension or termination of eligibility;
- physician's documentation;
- Supplemental Security Income (SSI) interim assistance reimbursement authorization forms; and

- vendor forms

Case records will not include information that is irrelevant to the applicant's or recipient's application or the Administrator's decisions.

Retention of Records. GA records shall be retained for at least three full years. The three-year period shall coincide with the state government's fiscal year which begins July 1 and ends on the following June 30. Records may be destroyed after three years by supervised shredding, burning or an appropriate digital deletion/destruction process. If a recipient's records contain SSI reimbursement forms, the recipient's records should be retained so that the municipality may seek reimbursement.

ARTICLE IV – Application Procedure

Section 4.1—Right to Apply

Who May Apply. Any person may apply for GA. The head of the family, any other responsible household member, or an authorized representative must apply in person, except in special emergency situations (see Ordinance § 4.9) or when the applicant resides at an emergency shelter and the municipality has made an agreement with that emergency shelter to presume shelter residents eligible for GA benefits. (22 M.R.S. § 4304(3)). In such cases, the Administrator may require a representative to present a signed statement documenting that they are authorized to apply on behalf of the named applicant. The applicant or representative must complete a written application and any other forms necessary for the Administrator to determine eligibility. (22 M.R.S. § § 4305, 4308). With notice, all members of the household receiving GA may be required to physically present themselves to the Administrator. Note that fugitives from justice are ineligible for GA benefits.

Telephone Applications. When a person has an emergency but is unable to apply in person due to illness, disability, lack of childcare, lack of transportation or other good cause, and they cannot send an authorized representative, the Administrator will accept an application by telephone. The telephone application is subject to written verification by mail and a visit to the applicant's home with their permission. (22 M.R.S. § 4304).

Written Application Upon Each Request. Each request for assistance will be administered in accordance with these guidelines, and the Administrator will make an independent determination of eligibility for GA each time a person applies. (22 M.R.S. § § 4308, 4309).

Applications Accepted; Posted Notice. Any person may apply for general assistance during the municipality's regular business hours. In an emergency, however, the Administrator or their designee will be available to accept applications for assistance whenever necessary.

The municipality will post notice stating the times and location where people may apply for assistance and contact information for the Administrator available to take

emergency applications at all other times. In addition, the posted notice shall state that the municipality must issue a written decision on all applications within 24-hours and will include the DHHS toll-free telephone number for reporting alleged violations or complaints. (22 M.R.S. § 4304).

Section 4.2—Application Interview

Except when it is impractical, the Administrator will interview each applicant in person before making a decision. Interviews will be conducted in private, although the applicant may be accompanied by a legal representative, friend, or family member.

Section 4.3—Contents of the Application

An application must contain the following information:

a) the applicant's name, address, date of birth, SSN or appropriate United States Customs and Immigration Services (USCIS) documentation, and phone number;
b) the names, date(s) of birth, and SSN(s) or appropriate USCIS documentation of other household members for whom the applicant seeks assistance;
c) the total number of individuals living with the applicant;
d) employment and employability information;
e) a listing of all household income, resources, assets, and property;
f) the applicant's household expenses;
g) the types of assistance requested;
h) a statement of the penalty for false representation;
i) the applicant's permission for the Administrator to verify information;
j) the signature of applicant and date.

If an initial applicant is unable to provide identification records (e.g., SSN card/number) because the record may have been lost, stolen or misplaced, the Administrator may allow the initial applicant a reasonable amount of time (e.g., five working days), to obtain copies of identification records. Provided the initial applicant makes a good faith effort to obtain the item/record sought, GA benefits necessary to cure an immediate and/or emergency need shall not be withheld. In such cases the Administrator may elect to provide a prorated amount of GA (e.g., five days' worth), while the applicant attempts to obtain the required information.

Section 4.4— GA Administrator's Responsibilities at the Time of Application

The Administrator will inform all applicants of: (1) their rights and responsibilities; (2) general program requirements for applying for and receiving GA, and (3) application requirements, eligibility guidelines, applicant rights, and applicant reimbursement obligations.

Application Requirements. The Administrator will help applicants complete application forms and inform applicants of any other information or documents necessary to evaluate the applicant's eligibility. The Administrator will fully explain the purpose of any forms consenting to release of the applicant's information and any benefit reimbursement agreements before the Administrator requests the applicant's signature or written authorization.

Eligibility Requirements. The Administrator will inform the applicant, either orally or in writing, of the eligibility requirements of the program, including:

- the income standard of need;
- the applicant's ongoing use-of-income, work-related, and resource-related responsibilities, as described in the section immediately below;
- the reduction in assistance that results from spending household income on non-basic necessities;
- immigration status (see definition of "Eligible Person"); and
- the disqualification penalties associated with committing fraud, failing to perform work-related assignments without just cause, or failing to make a good faith effort to secure potential resources when the requirement to attempt to obtain those resources has been explained to the applicant in writing.

Applicant Rights. The Administrator will inform all applicants of their right to:

- review the municipal GA ordinance and Maine GA statute and regulations;
- apply for assistance;
- receive a written decision concerning eligibility within 24-hours after application;
- confidentiality of the application and other records;

- contact the DHHS with complaints;
- challenge the Administrator's decision by requesting a fair hearing.

Reimbursement/Recovery. The Administrator will inform the applicant/recipient that they must reimburse the municipality the amount of GA benefits they have been granted if they subsequently have the ability to pay. The municipality may also, as appropriate, contact and inform the applicant/recipient's legal representative of the recipient's obligation to repay the municipality.

The municipality may also recover the amount of assistance granted to a recipient during the previous 12 months from any relative legally liable for the applicant's support, such as a spouse, or the parents of persons under the age of 25. (*See Article VIII, "Recovery of Expenses*"). (22 M.R.S. § § 4318, 4319). Whenever applicable, the Administrator will explain the liens a municipality may place against a recipient's real or personal property, such as the mortgage or capital improvement lien, the Workers' Compensation lump sum payment lien, or the SSI "Interim Assistance Agreement" lien, described in Article VIII, "Recovery of Expenses."

Section 4.5—Responsibilities of the Applicant at Time of Application

The applicant is responsible to provide accurate, complete, and current household information and verifiable documentation at the time of each application concerning:

- Income
- Resources
- Assets
- Employment
- Use of income
- Names and addresses of any relatives legally liable for the applicant's support
- Any change in this information from a previous application that would affect household eligibility. (22 M.R.S. § 4309).

In addition, the applicant must accurately report and provide verifiable documentation that shows the applicant:

a) has remained employed, if previously employed, and has not quit work without just cause or been discharged from employment for misconduct;

b) has been seeking employment, if previously unemployed or employed on a part-time basis, has accepted any suitable offer of employment, and has satisfactorily performed all workfare assignments or had just cause not to perform those assignments;

c has made use of all available and potential resources when directed in writing to such a program by the Administrator, including, but not limited to, other government benefit programs or the assistance of liable relatives of sufficient means; and

d) has participated in any training, retraining, educational or rehabilitative program when appropriate and when directed in writing to such a program by the Administrator, in order to diminish the applicant's need for general assistance. (22 M.R.S. § § 4316-A, 4317).

Section 4.6—Action on Applications

Written Decision. The Administrator will issue a written decision concerning the applicant's eligibility within 24 hours after the applicant submits a written application. Assistance will be furnished to eligible applicants within that period except when the municipality is permitted by law (and pursuant to Ordinance § 5.6) to issue assistance conditionally on the successful completion of a workfare assignment. (22 M.R.S. § § 4305, 4316-A, 4321). A written decision will be given each time a person applies, whether assistance is granted, denied, reduced, or terminated.

Content of Decision. The Administrator's written decision will contain:

a) the type and amount of benefits granted, or the applicant's ineligibility for benefits;
b) the period of eligibility if the applicant is eligible for assistance;
c) the specific reasons for the Administrator's decision;
d) the applicant's right to a fair hearing; and
e) the applicant's right to notify the DHHS if they believe the municipality has acted illegally. (22 M.R.S. § 4321).

Section 4.7—Withdrawal of an Application

An application will be considered withdrawn if the applicant requests in writing that the application be withdrawn; or if the applicant refuses to complete or sign the application or any other document needed by the Administrator.

Section 4.8—Temporary Refusal to Accept Application

Under special circumstances, the Administrator may temporarily refuse to accept applications. Such circumstances include, but are not limited to, the following:

a) When the applicant's conduct is abusive, disruptive, or harassing, or when the applicant is under the influence of drugs or alcohol. In these situations, the applicant will be asked to leave; if the applicant refuses to leave, the police may be summoned. The applicant will be informed that an application will only be accepted when their conduct is under control.
b) If the Administrator believes that an applicant's behavior presents a threat to the health or safety of the public or to a municipal employee, if the applicant's behavior is violent, or if an applicant has engaged in abusive, disruptive or harassing behavior and has been required to leave on more than one occasion, the applicant may be required to designate a third party to apply for assistance on their behalf and the applicant may be prohibited from entering the municipal building;
c) When a third person applies for assistance on behalf of the applicant that person may be required to provide written verification that they have been duly authorized to act as a representative for the applicant. (22 M.R.S. § 4308).

Section 4.9—Emergencies

An "emergency" means any life-threatening situation, or a situation beyond the control of the applicant which if not alleviated immediately could reasonably be expected to pose a threat to the health or safety of the applicant or a member of the household. (22 M.R.S. § 4301(4)). An emergency includes homelessness or imminent homelessness. Even if an applicant is otherwise ineligible to receive GA benefits, unless they are disqualified as provided below, emergency assistance may be granted to applicants who lack sufficient income and resources to meet the emergency need

and also have not had sufficient income and resources to avert the emergency. (22 M.R.S. § 4308).

A municipality may provide emergency assistance when the municipality determines that an emergency is imminent and that failure to provide assistance may result in undue hardship and unnecessary costs to either the applicant or the municipality.

Disqualification for Emergency Assistance. A person who is currently disqualified from receiving GA due to a violation of Ordinance § § 5.5, 5.6, 5.7, 5.8, 5.9 or 6.4 is ineligible to receive emergency assistance. (22 M.R.S. § 4308(2)(A)). However, dependents of a disqualified person may be eligible for assistance. For the purposes of this section, "dependents" are defined as: (1) a dependent minor child; (2) an elderly, ill or disabled person; or (3) a person whose presence is required to provide care for any child under the age of 6 years or any ill or disabled member of the household. (22 M.R.S. § 4309(3)).

If one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Assistance Prior to Verification. Whenever an applicant informs the Administrator that they need assistance immediately, the Administrator will grant, pending verification, the assistance within 24 hours, provided that:

a) after interviewing the applicant the Administrator has determined that the applicant will probably be eligible for assistance after a verification of information is completed; and
b) the applicant submits documentation when possible, to verify their need. The Administrator may contact at least one other person to confirm the applicant's statements about his/her need for emergency assistance. No further assistance will be authorized until the applicant's eligibility is confirmed. (22 M.R.S. § 4310).

Benefits provided prior to verification are limited as follows:

a) The authorization of benefits may not exceed 30 days.

b) Until there has been full verification confirming the applicant's eligibility, further benefit may not be authorized.

c) The authorization of benefits may not exceed levels of assistance established in 22 M.R.S. § 4308. (22 M.R.S. § 4310(4)).

Telephone Applications. If a person has an emergency need and cannot apply in person due to illness, disability, lack of transportation, or other good cause, and if there is no authorized representative who can apply on behalf of the applicant, the Administrator shall accept an application over the telephone. (22 M.R.S. § 4304).

Assistance will not be granted after a telephone application if the applicant refuses to allow the Administrator to verify information provided by the applicant either by visiting their home or by mail, and the Administrator cannot determine eligibility through any other means.

Limitation on Emergency Assistance. Applicants are not automatically eligible for emergency assistance. If an applicant had income which could have been used to prevent all or part of an emergency, but they spent that income on items which are not basic necessities, the applicant will not be eligible to receive GA to replace the misspent money. (22 M.R.S. § § 4308(2) & 4315-A).

All applicants must provide the Administrator with verifiable documentation demonstrating that the applicant lacked sufficient income to avert the emergency situation. According to the following criteria, the Administrator may limit emergency assistance to cover only the difference between the amount of money necessary for the household to avoid the emergency and the amount of income available to the household during the applicable time period.

a) The applicable time period shall be the 30 days preceding the application for emergency assistance, except in those cases where the emergency was created by a negative account balance for a commodity or service (such as rent, mortgage, or utility payments), and the negative account balance was created over a longer period of time. In such cases, the applicable time period

shall be the consecutive length of time the account balance has been in the negative.

b) The Administrator shall seek from the applicant all information pertinent to the applicant's ability to provide for their basic necessities for the applicable time period, including evidence of all income and resources received over that period of time.

c) The Administrator shall calculate all costs per month for the household's basic necessities during the applicable time period, consistent with the maximum levels established by this ordinance for the specific basic necessity or the actual monthly cost, whichever is less, including all costs associated with averting the particular emergency situation for which the applicant is seeking assistance.

d) From the total household costs for basic necessities during the applicable time period, the Administrator shall subtract the total income and lump sum payments available to the household for the applicable time period, as well as the total general assistance actually received during the applicable time period.

e) The Administrator may restrict the issuance of emergency assistance to the difference yielded by the computation in subsection (d), even when such a grant will not totally alleviate the emergency situation.

f) The Administrator may waive this limitation on emergency assistance in life threatening situations or for initial applicants; that is, persons who have never before applied for general assistance.

g) Nothing in these criteria may be construed as prohibiting a municipality from electing to alleviate an emergency situation in the most cost-effective manner available, provided such a determination of eligibility for emergency assistance is in conformance with general assistance law.

The municipality cannot exceed maximum levels of assistance for an applicant household for more than 30 days in a 12-month period when assistance is granted for housing in a hotel, motel, inn or other lodging place.

Section 4.10—Residence

The Administrator shall provide GA to all eligible applicants who are residents of this municipality. A resident is a person who has no other residence, is physically present in this municipality and who intends to remain here and establish a household.

The municipality also recognizes its responsibility to provide assistance to eligible persons who apply here and who are not residents of this municipality or any other municipality. If a person who is not a resident of any municipality applies in this municipality first, the Administrator will determine their eligibility and, if eligible, will grant assistance until they establish a residence in another municipality. (22 M.R.S. § 4307).

Moving/Relocating. The municipality will not consider moving or transporting an applicant or recipient into another municipality unless the person requests assistance to relocate to another municipality. If the Administrator determines the applicant is eligible and grants financial assistance to help with the requested relocation, this municipality will be responsible for providing assistance to the applicant for 6 months after they move including processing applications and determining eligibility for assistance.

Institutions. If a resident of this municipality enters an institution located in another municipality (such as a group home, shelter, rehabilitation center, nursing home, or hospital) and requests assistance while at the institution, they will be the responsibility of this municipality for up to 12 months after they enter the institution if the conditions of 22 M.R.S. § 4307 and § 4313 are met. The municipality thereafter retains responsibility for an applicant in an institution only if the applicant has maintained a home in this municipality to which they intend to return. The municipality also recognizes its responsibility for applicants residing in an institution in this municipality if such an applicant had no residence prior to entering the institution. (22 M.R.S. § 4307(4)).

Temporary Housing. Hotels/motels and similar places of temporary lodging are considered institutions if the municipality grants financial assistance for, makes arrangements for, or advises or encourages an applicant to stay in temporary lodging.

Note: A municipality which illegally denies housing assistance will be responsible for the applicant for up to 6 months if, as a result of the denial, the applicant stays in temporary lodging. The municipality may also be subject to other penalties. (22 M.R.S. § 4307(4)).

Disputes. When the Administrator believes that an applicant is a resident of another municipality, but that municipality disputes its responsibility, the Administrator will notify DHHS' Augusta office (287-3654 or 1-800-442-6003). If the applicant applies in this municipality first, the Administrator will determine their eligibility and, if eligible, will grant assistance until the DHHS has concluded which municipality is responsible for providing assistance. If another municipality was responsible, the DHHS will recover the amount due from the other municipality. (22 M.R.S. § § 4307(5), 4307(6)).

ARTICLE V – Eligibility Factors

A person will be eligible for GA if they are an "Eligible Person" as defined in section 2.2, is in need, and has complied with the eligibility requirements set forth below. (*For guidance in determining whether an applicant is an Eligible Person, contact DHHS at (800) 442-6003 (TTY: 287-6948)).*

Section 5.1—Initial Application

Initial Application. For initial applicants, need will be the sole condition of eligibility, except that all applicants, including initial applicants, are disqualified for a defined period (1) for quitting employment without just cause or for being discharged from employment for misconduct *(see Ordinance § 5.5)* or (2) who are fugitives from justice as defined in 15 M.R.S. § 201(4), (22 M.R.S. § 4301(3)). An initial applicant is a person who has never before applied for GA in any municipality in Maine. (22 M.R.S. § 4308(1)).

"Need" means that the applicant's income (including prorated income, where applicable), property, credit, assets or other resources are less than the overall maximum level of assistance contained in Ordinance § 6.8 or the applicant's 30-day need, whichever is less, and they do not have adequate income or other resources available to provide basic necessities.

Repeat Applicants. Persons who are not initial applicants are repeat applicants; these are persons who have previously applied for GA at some time, including persons on whose behalf a GA application was previously made at any time, provided that the applicant was not a dependent minor in the household at the time of the previous application. To be eligible for GA, repeat applicants must be in need and meet all other eligibility requirements. The eligibility of repeat applicants may also be adversely affected to the extent they have not used their income and resources to secure basic necessities.

Section 5.1A – Presumptive Eligibility

A person who is provided shelter in an emergency shelter for the homeless located in the municipality shall be presumed to be an eligible person. Presumed eligibility may not exceed 30 days within a 12-month period. After the period of presumed eligibility,

full eligibility must be verified before assistance will be issued. When presumptive eligibility is determined under this section, no other municipality may be determined to be the municipality of responsibility during that 30-day period.

Section 5.1B – Recovery Residences

The Administrator will not deny GA benefits to a person for the sole reason that the person is residing in a recovery residence. Beginning July 1, 2022, housing assistance will not be provided to a person residing in a recovery residence that has not been certified in accordance with 5 M.R.S. § 20005(22), except that the person may receive housing assistance while residing in an uncertified recovery residence for one 30-day period only. The Administrator will inform the person of the requirements and time limits regarding recovery residences. A person who is ineligible for housing assistance under this subsection may remain eligible to receive GA for other basic necessities. Upon request by a person residing in a certified recovery residence, who has been determined eligible for housing assistance, housing assistance payments will be issued to the operator of the certified recovery residence instead of to a landlord.

Section 5.2—Eligibility for Categorical Assistance

Receipt of categorical assistance will not disqualify an otherwise eligible person. Benefits received from other assistance programs will be considered as income when determining need, with the exception of Food Stamps, which will not be counted as income or resources or otherwise taken into consideration when determining need. (7 U.S.C. § 2017 (b)).

In addition, fuel assistance (HEAP/ECIP) received by an applicant will not be considered as income; that is, the Administrator will always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid all costs associated with their fuel needs. (42 U.S.C. § 8624(f)). When an applicant has received HEAP or ECIP, GA heating energy needs will be calculated pursuant to Ordinance § 6.7, subsection (c) under “Types of Income”. For several additional exceptions please refer to the definition of “Income” in this Ordinance (see Ordinance § 2.2, page 7, subsection 4).

Applicants or recipients must apply for other program benefits within 7 days after being advised in writing to do so by the Administrator. Persons who, without just cause, make no good faith effort to obtain a potential resource will be disqualified from receiving assistance until they make a good faith effort to obtain the benefit. (22 M.R.S. § 4317).

Section 5.3—Personal Property

a) Liquid Assets.

No person owning assets easily convertible into cash, including but not limited to, bank deposits, stocks, bonds, certificates of deposit, retirement accounts, life insurance policies and other marketable security will be eligible for GA unless and until they use these assets to meet their basic needs, and thereby exhausts them. At the discretion of the Administrator, liquid assets need not include a reasonable minimum balance necessary to obtain free checking. Although one checking account per household may be allowed, any monies over the minimum required to obtain free checking are to be considered available liquid assets.

b) Tangible Assets.

No person owning or possessing personal property, including but not limited to: a motor vehicle (except as provided immediately below in subsection c), or a boat, trailer, recreation vehicle or other assets that are convertible into cash and are non-essential to the maintenance of the applicant's household will be eligible for GA. Exceptions may be made when a person is making an initial application or is an unforeseeable repeat applicant as defined in Ordinance § 2.2 or when reasonable efforts to convert assets to cash at fair market value are unsuccessful. Tools of a trade, livestock, farm equipment and other equipment used for the production of income are exempt from the above category and are not considered available assets.

c) Automobile Ownership.

Ownership of one automobile per household will not make a person ineligible for assistance if such vehicle is essential for transportation to employment or for seeking employment, obtaining medical care, rehabilitation, or training facilities, or for any other reason the GA Administrator determines reasonable

for the maintenance of the applicant's household. GA recipients who own an automobile with a market value greater than $8,000 may be required, with 7-day's written notice, to make a good faith effort to trade that automobile for an automobile with a market value of less than $8,000. Any income received by the applicant by virtue of such a trade down must be used for their basic necessities. Failure to liquidate or trade down the excess value of any automobile asset can result in disqualification. (22 M.R.S. § 4317).

The Administrator will neither pay nor consider as necessary any car payment or vehicle maintenance cost, including insurance, for which the applicant is responsible. However, if the vehicle's value is $8,000 or less and the applicant is utilizing the vehicle for an "essential" reason (see above), the Administrator may choose to not consider reasonable car payments, reasonable car insurance or reasonable associated costs of maintenance as "misspent" income. GA for travel-related needs shall be computed in accordance with Ordinance § 6.8(F)(7), (8) "Work Related/Travel Expenses."

d) Insurance.

Insurance available to an applicant on a non-contributory basis or required as a condition of employment will not be a factor in determining eligibility for GA. Life insurance with a cash surrender value may, at the discretion of the Administrator, be considered as a tangible asset.

e) Transfer of Property.

Applicants who transfer assets for less than fair market value to someone else solely for the purpose of establishing eligibility for GA will not be granted GA benefits to replace the uncompensated value of the transferred asset. Assistance will be denied within a 120-day limit up to the uncompensated value of the asset which was transferred unless the transfer of asset is fraudulently misrepresented, in which case a 120-day disqualification will be issued. There will be a presumption that the applicant transferred their assets in order to be eligible for GA whenever property is sold for less than the fair market value or when the transfer occurred within 30 days prior to applying for GA unless the applicant can demonstrate the existence of a good faith transaction.

Section 5.4—Ownership of Real Estate

a) Principal Residence.

Solely for purposes of GA, the applicant's principal residence, including any adjoining land, is considered an exempt resource, even if temporarily unoccupied because of employment, job training, education, illness, or disaster, provided the applicant demonstrates an intent to return. If the applicant owns land in excess of the minimum lot size for the zone or district in which the home is located, that land may be considered a potential resource if:

1. The applicant has received GA for the last 120 consecutive days; and
2. The applicant has the legal right to sell the land (e.g., any mortgagee will release any mortgage, any co-owners agree to the sale, zoning or other land use laws do not render the sale illegal or impracticable); and
3. The applicant has the financial capability to put the land into a marketable condition (e.g., the applicant can pay for any necessary surveys); and
4. The land is not utilized for the maintenance and/or support of the household; and
5. A knowledgeable source (e.g., a realtor) indicates that the land in question can be sold at fair market value, for an amount which will aid the applicant's financial rehabilitation; and
6. No other circumstances exist which cause any sale to be unduly burdensome or inequitable.

If conditions above are met, the Administrator may condition the receipt of future assistance on the applicant's good faith efforts to sell, or render saleable, land which could be used to provide necessary support for the applicant (e.g., the applicant owns 100 "excess" acres. Sale of 10 of the acres would provide for the necessary support; therefore, the entire 100 acres need not be sold at the present time.) Assistance shall not be denied during the time that the applicant is making a good faith effort to sell or render saleable the land in question.

Once the applicant ceases to receive assistance the obligations under this section shall also cease.

b) Other Property.

If the applicant or dependents own real property other than that occupied as the principal residence, continued GA eligibility will depend on the applicant making a reasonable effort to:

1. Dispose of the property at fair market value in order to convert the property into cash which can be applied toward meeting present need; or
2. Obtain a loan against such property which may be used to meet present need. Applicants who transfer their excess property to a third party in order to become eligible for GA will be ineligible.

If an applicant is granted assistance in the form of a mortgage payment or capital improvement payment, the municipality may claim a lien against the property. The lien shall not be enforceable until the sale of the property or upon the death of the recipient *(see also Ordinance § 6.8).* 22 M.R.S. § 4320.

Section 5.5—Work Requirement

All GA recipients are required to register for work, look for work, work to the extent of available employment, and otherwise fulfill the work requirements, unless the applicant is exempt from such requirements as provided below.

Employment; Rehabilitation. All unemployed applicants and household members who are 16 years of age or older and who are not attending a full-time primary or secondary school intended to lead to a high school diploma will be required to accept any suitable job offer and/or meet with job counselors, attend employment workshops and rehabilitative services, except as provided below *(see "Exemptions").* Applicants must demonstrate to the Administrator that they are available for work and are actively seeking employment.

A "suitable job" means any job, which the applicant is mentally and physically able to perform. "Available for work" means that applicants must make themselves available for work during normal business hours prevailing in the area and show that no circumstance exists which would prevent them from complying with the work requirement.

Verification. Unemployed applicants or applicants employed on a part-time basis must provide verifiable documentation of their pursuit of employment at the time of each application. At a minimum, such documentation will consist of a list of the employers contacted, the date and time of the application contact, and the name of the employer representative contacted. "Pursuit of Employment" means actually submitting a written application or applying for a job in person when reasonable or submitting a written application or letter of inquiry to employers.

For the duration of any repeat applicant's period of unemployment or partial employment, the Administrator will establish the number of employers per week to whom each non-exempt applicant shall be required to apply in order to fulfill their work search requirements. The number of weekly employer contacts required by the Administrator shall be reasonably related to the number of potential employers in the region and the number of hours per week the applicant has available for work search activities after considering all time the applicant must devote to existing employment obligations, workfare obligations, and required classroom or on-site participation in job training, educational, or rehabilitation programs. Fulfillment of these requirements will not be expected at the time of the initial application but will be a condition of eligibility for subsequent assistance.

Ineligibility. After being granted assistance at the time of initial application, applicants will be considered ineligible for further assistance for 120 days if they, without just cause:

a) refuse to register for employment with the Maine Job Service;
b) refuse to search diligently for employment when the search is reasonable and appropriate; recipients who unreasonably seek work at the same places repeatedly will not be considered to be performing a diligent work search and will be disqualified;
c) refuse to accept a suitable job offer;
d) refuse to participate in an assigned training, education or rehabilitation program that would assist the applicant in securing employment;
e) fail to be available for work; or

f) refuse to participate or participate in a substandard manner in the municipal work program *(see Ordinance § 5.6).*

Ineligibility Due to Job Quit or Discharge for Misconduct. No initial or repeat applicant who has quit their full-time or part-time job without just cause or who has been discharged from employment for misconduct *(see definition in Appendix I)* will be eligible to receive GA of any kind for 120-days from the date the applicant is separated from employment. (22 M.R.S. § § 4301(8), 4316-A (1-A)).

Just Cause. Applicants will be ineligible for assistance for 120 days if they refuse to comply with the work requirements of this section without just cause. With respect to any work requirement, just cause will be considered to exist when there is reasonable and verifiable evidence that:

a) the applicant has a physical or mental illness or disability which prevents them from working;
b) the work assignment pays below minimum wages;
c) the applicant was subject to sexual harassment;
d) the applicant is physically or mentally unable to perform required job tasks, or to meet piece work standards;
e) the applicant has no means of transportation to or from work or a training or rehabilitation program;
f) the applicant is unable to arrange for necessary childcare or care of ill or disabled family members; or
g) any reason found to be good cause by the Maine Department of Labor, or any other verifiable reason the Administrator considers reasonable and appropriate will be accepted as just cause. (22 M.R.S. § 4316-A(5)).

Applicant's Burden of Establishing Just Cause. If the Administrator finds that the applicant has violated a work-related rule without just cause, it shall be the responsibility of the applicant to establish the presence of just cause. (22 M.R.S. § 4316-A).

Eligibility Regained. Persons who are disqualified for 120 days because they violated a work requirement may regain their eligibility if and only when they become employed

or otherwise satisfy the Administrator that they are complying with the work requirement by fulfilling the work requirement(s) the person violated.

For the purpose of regaining eligibility by becoming employed, "employment" shall mean employment by an employer as defined in 26 M.R.S. § 1043 or the performance of a service for an employer who withholds from the employee a social security tax pursuant to federal law.

The special provisions regarding the opportunity to regain eligibility after a disqualification for workfare violations are detailed in Ordinance § 5.6, under "Eligibility Regained."

Dependents. Failure of an otherwise eligible person to comply with the work requirements shall not affect the eligibility of any member of the person's household who is not capable of working, including:

a) a dependent minor child;
b) an elderly, ill, or disabled person; and
c) a person whose presence is required in order to provide care for any child under 6 years of age or for any ill or disabled member of the household. (22 M.R.S. § 4309(3)).

If one or more member(s) of a household is disqualified and assistance is requested for those remaining members of the household who are dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Exemptions. The above work requirements do not apply to any person who is elderly, physically or mentally ill or disabled. Any person whose presence is required to care for any pre-school age child or for any ill or disabled member of the household is also exempt from these requirements.

The requirements of this section will not be imposed so as to interfere with an applicant's existing employment, ability to pursue a bona fide job offer, ability to attend an interview for possible employment, classroom participation in a primary or secondary educational program intended to lead to a high school diploma, classroom

or on site participation in a training program which is either approved by the Department of Labor (DOL) or determined by the DOL to be expected to assist the applicant in securing employment, or classroom participation in a degree-granting program operated under the control of the DOL.

Section 5.6—Municipal Work Program

Each applicant and any member of the household who is capable of working may be required to perform work for the municipality, including work for a non-profit organization, as a condition of receiving assistance. (22 M.R.S. § 4316-A(2)).

As part of the municipal work program, the municipality can require recipients to participate in training, education, or rehabilitative programs that will assist the recipient in securing employment. The work requirement provisions found in Ordinance § 5.5 regarding just cause, dependents, and exemptions also apply to the municipal workfare program.

Consent. Persons assigned to the work program are required to sign a form stating that they understand the requirements of GA and the work program. Before signing the form, the Administrator will read it to the applicants or allow the applicants to read it themselves. The form will also state the number of hours the applicants must work and the hourly rate by means of which the duration of the work assignment is calculated. In addition, the consent form shall describe the consequences of failing to adequately perform part or all of the workfare or workfare-first assignment.

Subtracting Value of Workfare Performed from Client's GA Debt. Pursuant to 22 M.R.S. § 4318, individuals who received GA benefits are obligated to repay the municipality when and if they become able (see Ordinance Article VIII). However, persons performing workfare shall have the value of the workfare performed deducted from any and all GA debt including GA liens (e.g., Workers' Compensation Settlement, SSI Retroactive Payment, Capital Improvement, Home Mortgage) that might exist against their settlements, payments or other such property.

Limitations. The work requirement is subject to the following limitations. (22 M.R.S. § 4316-A(3)).

1) No person shall, as a condition of eligibility, be required to perform any amount of work that exceeds the value of the net GA that the person receives under municipal GA standards. Any person performing work under this subsection shall be provided with net GA, the value of which is calculated at a rate of at least the prevailing minimum wage under state or federal law at the time the workfare was performed.

2) No workfare participant shall be required to work for a nonprofit organization if that work would violate the participant's basic religious beliefs.

3) In no case shall eligible persons performing work under this subsection replace regular municipal employees.

4) In no case will work performed under this subsection interfere with an eligible person's:

   a) existing employment;
   b) ability to follow up on a bona fide job offer;
   c) attendance at an interview for possible employment;
   d) classroom participation in a primary or secondary educational program intended to lead to a high school diploma; or
   e) classroom or on-site participation in a training program which is approved by the Department of Labor (DOL) or determined by the DOL to be reasonably expected to assist the person in securing employment, or classroom participation in a degree-granting program administered by the DHHS or the DOL.

5) In no case may an eligible person be required to work more than 40 hours per week. An eligible person who has full or part-time employment shall be exempt from the work requirement to the extent that the work requirement in combination with their regular employment would result in the person working more than 40 hours per week.

6) In no case will an eligible person be required to perform work beyond their capabilities. However, when an illness or disability is claimed, an

eligible person may be required as a condition of receiving assistance to present a doctor's statement detailing the extent of the disability or illness. (22 M.R.S. § 4309).

If the Administrator requires a doctor's statement to verify an applicant's illness or disability and the applicant is not currently under the care of a provider, the municipality may pay for the doctor's evaluation if the applicant has no means to pay for the exam. However, in such a case the Administrator will choose the doctor. If there is a no-cost or low-cost health care option, the municipality may elect to refer the client to such a resource. The Administrator will not require verification of medical conditions which are apparent, or which are of such short duration that a reasonable person would not ordinarily seek medical attention. (22 M.R.S. § 4316(5)).

7) In no case may an eligible person with an immediate need (i.e., a person in an emergency situation who has not been disqualified from receiving assistance for committing a program violation) be required to perform work under this subsection prior to receiving GA. The Administrator shall meet immediate needs upon receiving written assurance from the eligible person that they are willing to work to maintain eligibility for GA. When the recipient has no immediate need, workfare participation may be required prior to receiving GA in accordance with the "workfare first" policy below.

"Workfare First" Policy. Pursuant to 22 M.R.S. § 4316-A(2)(D), the Administrator may, in accordance with the following guidelines, require a GA recipient to perform a workfare assignment prior to the actual issuance of the GA benefit conditionally granted.

1) In no circumstance will emergency GA for which an applicant is eligible be withheld pending the satisfactory performance of workfare.
2) All workfare participants under this policy will be provided a written decision within 24 hours after submitting an application for GA and prior

to performing any workfare for the municipality associated with that request for assistance.

That written decision must include:

a) a specific description of the amount of GA being conditionally granted to the household, and for which basic needs;
b) the period of eligibility for which the GA grant is being issued (in days or weeks, but not to exceed 30 days);
c) the rate, at a dollar-per-hour basis (but not less than the prevailing minimum wage), upon which the duration of the workfare assignment is calculated;
d) the actual duration of the workfare assignment that must be performed, in hours, before the GA grant will be actually issued;
e) the specifics of the workfare assignment(s), including the general nature of the type of work being assigned, location(s) of worksite, date(s) and time(s) of assigned workfare, workfare supervisors' names and contact telephone numbers; and
f) any other pertinent information related to the workfare assignment(s) the recipient will be expected to perform.

3) As previously provided in this section, all workfare participants must sign a consent form that informs the participant of their workfare-related rights and responsibilities, including the consequences of failing to perform all or part of the workfare assigned without just cause.
4) If a portion of the workfare-first assignment is satisfactorily performed but there has been a failure to perform the remainder of the assignment, without just cause, the Administrator shall issue a grant of GA benefits corresponding to the number of workfare hours satisfactorily performed multiplied by the hourly rate used to calculate the workfare assignment. In addition to any disqualification penalty that may apply, the remaining value of the conditionally issued GA grant shall be terminated, and notice of the partial termination, together with the reasons; therefore, will be issued to the workfare participant in accordance with Ordinance § 6.10.

5) If any part of the workfare assignment is not performed because the workfare participant was temporarily unable to perform the assignment for just cause reasons, it shall be reassigned or excused at the discretion of the Administrator.

Work-Related Expenses. A participant's expenses related to work performed under this section will be added to the amount of net GA to be provided to the person (22 M.R.S. § 4316-A(2)(E)). The municipality will provide any special clothes or equipment the recipient needs to perform their work assignment.

Disqualification. Any person who either willfully fails to perform or willfully performs below average standards the work assigned by the municipality, will be ineligible for assistance for 120 days (22 M.R.S. § 4316-A(1)). As soon as the Administrator knows that a recipient failed to fulfill the work assignment, the Administrator will notify the recipient in writing that they are disqualified for 120 days starting from the last date of authorized assistance unless the recipient can show just cause. The workfare participant has the burden of demonstrating there was just cause for any failure to perform a workfare assignment.

Eligibility Regained. Recipients who are disqualified from receiving assistance because they have violated the requirements of the municipal work program may regain their eligibility under the following conditions:

- Recipients who fail to complete the first municipal work assignment they have been given will be disqualified from receiving assistance during the next 120 days, although dependents in the household may be eligible *(see Ordinance § 5.5, "Dependents")*.
- If during the 120-day disqualification period the recipient requests an opportunity to perform the work assignment which they, without just cause failed to perform, the disqualified recipient will be given one opportunity to regain eligibility. The Administrator will give the recipient a work assignment as soon as possible.
- If a recipient under a 120-day disqualification has an emergency need and the Administrator is unable to schedule a work assignment in time to alleviate the emergency, the Administrator will provide sufficient assistance to the

recipient to avert the emergency. However, the provision of emergency assistance will not bar the Administrator from subsequently enforcing the previously issued 120-day disqualification if the recipient fails to regain eligibility by satisfactorily performing the work assignment. The amount of emergency assistance granted will be considered in the computation of the total number of hours the recipient must work.

- Recipients who have asked for the opportunity to regain their eligibility during a 120-day disqualification period and who agreed to fulfill the assignment which they previously failed to perform but who, without just cause, fail to fulfill their municipal work assignment will be considered to have acted in bad faith. In such a circumstance, the Administrator will enforce the 120-day disqualification for the term of its initial duration.
- If a workfare participant regains eligibility under this section but is subsequently disqualified within the initial 120-day period of ineligibility for failing to comply with the municipal work program, that participant will be ineligible for a new 120-day period beginning with the new disqualification date but will be provided no opportunity to requalify.
- Any recipient who intentionally causes damage to property, harasses or harms other employees or who otherwise conducts themselves in a disruptive manner and is discharged by the work supervisor will not be entitled to regain eligibility by returning to the work program. Eligibility may be regained by otherwise becoming employed and meeting the definition of need.

Reports. The Administrator will itemize the assistance that has been provided to persons who work for the municipality in reports to the DHHS. (22 M.R.S. § 4316-A(2)).

Section 5.7—Use of Resources

Each applicant is responsible to make a good faith effort to utilize every available or potential resource that may reduce their need for GA *(see Ordinance § 2.2, definition of "Resources")*. Persons who refuse or fail to make a good faith effort to secure a potential resource after receiving written notice to do so are disqualified from receiving assistance until they make an effort to secure the resource. Applicants are

required to prove that they have made a good faith effort to secure the resource. (22 M.R.S. § 4317).

Minors. A minor under the age of 18 who has never married and is applying independently for GA and who is pregnant or has a dependent child or children will be eligible to receive GA only if the minor is residing in the home of their parent, legal guardian or other adult relative, in which case the entire household will be evaluated for eligibility. Exceptions to this limitation on eligibility will be made when:

1) the minor is residing in a foster home, maternity home, or other adult-supervised supportive living arrangement; or
2) the minor has no living parent or the whereabouts of both parents are unknown; or
3) no parent will permit the minor to live in the parent's home; or
4) the minor has lived apart from both parents for at least one year before the birth of any dependent child; or
5) the DHHS determines that the physical or emotional health or safety of the minor or the minor's dependent child or children would be jeopardized if the minor and their child or children lived with a parent; or
6) the DHHS determines, in accordance with its regulation, that there is good cause to waive this limitation on eligibility. (22 M.R.S. § 4309(4)).

Any person under the age of 25 who is applying independently from their parents for GA will be informed that until they reach the age of 25, the applicant's parents are still legally liable for their support and the municipality has the right to seek recovery from the parents of the cost of all assistance granted to such a recipient to the extent their parents are financially capable of repaying the municipality. (22 M.R.S. § 4319).

With regard to such application, the municipality may seek verification of the applicant's need for GA by contacting their parents. If the applicant's parents declare a willingness to provide the applicant with their basic needs directly, and there is no convincing evidence that the applicant would be jeopardized by relying on their parents for basic needs, the Administrator may find the applicant not to be in need of GA for the reason that their needs can be provided by a legally liable relative.

Mental or Physical Disability. Any applicant who has a mental or physical disability must make a good faith effort to utilize any medical or rehabilitative services which have been recommended by a physician, psychologist or other professional retraining or rehabilitation specialist when the services are available to the applicant and would not constitute a financial burden or create a physical risk to the individual.

Written Notice; Disqualification. The Administrator will give each applicant written notice whenever the applicant is required to utilize any specific potential resource(s). Any applicant who refuses to utilize potential resources, without just cause, after receiving written 7-day notice will be ineligible for further assistance until they have made a good faith effort to utilize or obtain the resources. GA will not be withheld from the applicant pending receipt of a resource if the applicant has made, or is in the process of making, a good faith effort to obtain the resource.

Forfeiture of Benefits. Any applicant who forfeits receipt of, or causes a reduction in, benefits from another public assistance program due to fraud, misrepresentation, a knowing or intentional violation of program rules or a refusal to comply with that program's rules without just cause will be ineligible to receive GA to replace the forfeited benefits. To the extent the forfeited benefits can be considered income under GA law, the value of the forfeited benefits will be considered income that is available to the applicant for the duration of the forfeiture.

To the extent the forfeited benefits were provided in the form of a specific, regularly issued resource of a calculable value rather than in the form of income, that resource, up to its forfeited value, need not be replaced with GA for a period of 120 days from the date of the forfeiture—unless the municipality is prohibited by federal or state law from considering the forfeited resource as available with respect to local public assistance programs. (22 M.R.S. § 4317).

Section 5.8—Period of Ineligibility

No one will have their GA terminated, reduced, or suspended prior to being given written notice and an opportunity for a fair hearing. (22 M.R.S. § § 4321-4322). Each person will be notified in writing of the reasons for their ineligibility, and any person

disqualified for not complying with the ordinance will be informed in writing of the period of ineligibility.

Work Requirement. Applicants/recipients who do not comply with a work requirement are disqualified from receiving assistance for a period of 120 days (unless they regain their eligibility) *(see Ordinance § § 5.5, 5.6)*. If an applicant/recipient is provided assistance and does not comply with the work requirement, the applicant/recipient shall be disqualified for 120 days following the end of the period covered by the grant of assistance. The Administrator shall give recipients written notice that they are disqualified as soon as the Administrator has sufficient knowledge and information to render a decision of ineligibility.

Fraud. Persons who commit fraud are disqualified from receiving GA for a period of 120 days *(see Ordinance § 6.4, "Fraud")*. The Administrator shall give recipients written notice that they are ineligible as soon as the Administrator has sufficient knowledge and information to render a decision. If the disqualification for fraud is issued before the expiration of a grant of assistance, the period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance. If fraud is discovered after the period covered by the grant of assistance has expired, the period of ineligibility will commence on the day of the written notice of ineligibility.

Section 5.9 – Unemployment Fraud

An applicant who is found ineligible for unemployment compensation benefits because of a finding of fraud by the Department of Labor pursuant to 26 M.R.S. § 1051(1) is ineligible to receive general assistance to replace the forfeited unemployment compensation benefits for the duration of the forfeiture established by the Department of Labor. 22 M.R.S. § 4317.

ARTICLE VI – Determination of Eligibility

Section 6.1—Recognition of Dignity and Rights

Any determination or investigation into an applicant's eligibility will be conducted in a manner that will not violate the applicant's privacy or personal dignity or violate their individual rights.

Section 6.2—Determination; Redetermination

The Administrator will make an individual, factual determination of eligibility each time a person applies or reapplies for GA. The Administrator will make a redetermination of eligibility at least monthly but may do so as often as necessary to administer the program efficiently and meet the needs of the applicants. Upon any application, the Administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis, but may elect to disburse that applicant's assistance periodically, e.g., weekly, throughout a 30-day period of eligibility pursuant to that initial eligibility determination.

The Administrator may redetermine a person's eligibility at any time during the period they are receiving assistance if the Administrator is notified of any change in the recipient's circumstances that may alter the amount of assistance the recipient may receive. Once a recipient has been granted assistance, the Administrator may not reduce or rescind the grant without giving prior written notice to the recipient explaining the reasons for the decision and offering the recipient an opportunity to appeal the decision to the fair hearing authority. (22 M.R.S. § 4309).

Section 6.3—Verification

Eligibility of Applicant; Duration of Eligibility. The overseer shall determine eligibility each time a person applies or reapplies for GA. The period of eligibility will not exceed one month. At the expiration of this period applicants/recipients may reapply for assistance and the person's eligibility will be redetermined.

Applicant's Responsibilities. Applicants and recipients for GA are responsible for providing to the Administrator all information necessary to determine eligibility. If further information or documentation is necessary to demonstrate eligibility, the applicant must have the first opportunity to provide the specific information or

documentation required by the Administrator. When such information is unavailable, the Administrator must accept alternative available information, which is subject to verification.

Each applicant and recipient has the responsibility at the time of application and continuing thereafter, to provide complete, accurate, current information and documentation concerning his/her:

- Need
- Income
- Employment
- Use of income
- Expenses
- Assets & liabilities
- Use of available resources
- Household composition

Initial Applicants. Persons who have not applied for assistance in this or any other municipality are considered initial applicants and must have their eligibility determined solely on the basis of need. Initial applicants are not subject to eligibility conditions placed on repeat applicants *(see below)*. However, such applicants must still provide the GA Administrator with reasonably obtainable documentation adequate to verify that there is a need for assistance. In addition, initial applicants must also comply with both lump sum and relevant work rules (i.e., quit job).

Repeat Applicants. All applicants for GA who are not initial applicants are repeat applicants. The eligibility of repeat applicants must be determined on the basis of need and all other conditions of eligibility established by law and this municipal ordinance.

The Administrator will require documentation of a repeat applicant's income, use of income, assets and resources plus actual bills and receipts for rent, utilities, fuel, telephone, medical services, and other basic necessities. In addition, repeat applicants instructed to seek employment shall verify their work search results, (e.g., provide a list of the employers contacted, the date and time of the application contact,

and the name of the employer representative contacted) as required by the Administrator.

Repeat applicants must provide updates to information reported on previous applications, including changes in his/her household or income that may affect his/her eligibility.

Unforeseen Repeat Applicants. Unforeseen repeat applicants are applicants who have not applied for assistance within the last twelve months and who have been regularly employed or receiving support from a public benefit or private source but who have unexpectedly become unemployed through no fault of their own or whose income and/or benefits (e.g., through an available resource) have ceased through no fault of their own. Such unforeseen repeat applicants may be considered initial applicants for purposes of verification requirements and misspent income if the Administrator finds that imposing the general verification requirements and misspent income rules imposed on repeat applicants would be unreasonable or inappropriate.

Administrator's Responsibilities. In order to determine an applicant's eligibility for GA, the Administrator first must seek information and documentation from the applicant. Once the applicant has presented the necessary information, the Administrator must determine eligibility. The Administrator will seek verification necessary to determine eligibility and may contact sources other than the applicant for verification only with the specific knowledge and consent of the applicant – except that the Administrator may examine public records without the applicant's knowledge and consent.

Appropriate sources, which an Administrator may contact, include, but are not limited to:

- DHHS, any other department or agency of the state, or non-profit organizations
- financial institutions
- creditors
- utility companies
- employers
- landlords
- physicians
- persons with whom the applicant/recipient is a cohabitant

- legally and non-legally liable relatives

Assistance will be denied or terminated if the applicant is unwilling to supply necessary information, documentation, or permission to make collateral contacts, or if the Administrator cannot determine that eligibility exists based on information supplied by the applicant or others.

Redetermination of Eligibility. The Administrator may redetermine a person's eligibility at any time during the period that person is receiving assistance if the Administrator is informed of any change in the recipient's circumstances that may affect the amount of assistance to which the recipient is entitled, or that may make the recipient ineligible, provided that once a determination of eligibility has been made for a specific time period, a reduction in assistance for that time period may not be made without prior written notice to the recipient stating the reasons for the action and an opportunity for the recipient to receive a fair hearing upon the proposed change.

Penalty for Refusing to Release Information. Any person governed by 22 M.R.S. § 4314 who refuses to provide necessary information to the Administrator after it has been requested must state in writing the reasons for the refusal within 3 days of receiving the request. Any such person who refuses to provide the information, without just cause, commits a civil violation and may be subject to a fine of not less than $25 nor more than $100 which may be adjudged in any court of competent jurisdiction. Any person who willfully renders false information to the Administrator is guilty of a Class E crime. (22 M.R.S. § § 4314(5), 4314(6), 4315).

Section 6.4—Fraud

It is unlawful for a person to knowingly and willfully make a false representation of a material fact to the Administrator in order to receive GA or cause someone else to receive GA. (22 M.R.S. § 4315). A person who commits fraud in an effort to receive GA benefits may be prosecuted for this offense.

False representation means any individual who knowingly and willfully:

a) makes a false statement to the Administrator, either orally or in writing, in order to obtain assistance to which the applicant or the applicant's household is not entitled;
b) conceals information from the Administrator in order to obtain assistance to which the applicant or applicant's household is not entitled; or
c) uses GA benefits for a purpose other than the purpose for which they were intended.

No person may be denied assistance solely for making a false representation prior to being given an opportunity for a fair hearing.

Period of Ineligibility. When the Administrator finds that a person has knowingly and willfully misrepresented material facts for the purpose of making themselves eligible for GA, the Administrator shall notify that applicant in writing that they must reimburse the municipality for the assistance they were not entitled to receive and that they are ineligible for assistance for the longer of: (a) a period of 120 days; (b) until they reimburse the municipality for the assistance; or (c) until they enter a reasonable written agreement to reimburse the municipality. (22 M.R.S. § 4315).

For the purpose of this section, a material misrepresentation is a false statement about eligibility factors in the absence of which some or all of the assistance would not be or would not have been granted.

The notification of ineligibility issued by the Administrator shall inform the applicant of their right to appeal the Administrator's decision to the fair hearing authority (FHA) within 5 working days of receipt. The period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance fraudulently received or upon the date of notification of ineligibility, whichever is later.

Right to a Fair Hearing. Any applicant who is denied assistance for making a false representation will be afforded the opportunity to appeal the decision to the fair hearing authority (FHA) in accordance with Article VII of this Ordinance. No recipient shall have their assistance reduced or revoked during the period of eligibility before being notified and given the opportunity to appeal the decision. Any person who is dissatisfied with the decision of the FHA may appeal that decision to the Superior

Court pursuant to Rule 80-B of the Maine Rules of Civil Procedure. (22 M.R.S. § 4309(3)).

Reimbursement. If a recipient does not appeal the decision or if the FHA determines that a recipient made a false representation, the recipient will be required to reimburse the municipality for any assistance received to which they were not entitled. The recipient may enter a reasonable written agreement to reimburse the municipality over a period of time.

Dependents. In no event will the ineligibility of a person under this section serve to disqualify any eligible dependent in that household. (22 M.R.S. § 4309(3)). In the event one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Section 6.5—Period of Eligibility

The Administrator will grant assistance to all eligible persons for a period that is sufficient to meet their need but in no event may a grant of assistance cover a period in excess of one month. (22 M.R.S. § 4309). Upon receiving a completed and signed application the Administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis.

When an applicant submits an incomplete or unsigned application, due to the 24-hour decision requirement placed on the GA Administrator, the GA Administrator shall render a notice of "ineligibility" and advise the applicant that they have a right to reapply as soon as they have the necessary information and/or as soon as is practicable for the applicant.

Although eligibility is determined on a 30-day basis, for reasons of administrative efficiency, the Administrator may elect to disburse an applicant's assistance for shorter periods of time, such as weekly, throughout the 30-day period of eligibility. When the Administrator elects to disburse GA for a period of time less than 30 days, subsequent grants of assistance during that 30-day period may be issued pursuant

to the initial determination of need unless the applicant's financial situation changes substantially enough to warrant a redetermination of eligibility.

Section 6.6—Determination of Need

The period of time used to calculate need will be the next 30-day period from the date of application. (22 M.R.S. § 4301(7)). The Administrator will calculate applicants' expenses according to the actual expense of the basic necessity or the maximum levels for the specific necessities allowed in Ordinance § 6.8, whichever is less. The sum of these expenses, as calculated for a prospective 30-day period, is the applicant's 30-day need. Applicants will not be considered eligible if their income and other resources exceed this calculation except in an emergency. (22 M.R.S. § 4308(2)) *(see Ordinance § 4.9)*.

Applicants will also not be considered in need of GA if their income, property, credit, assets or other resources available to provide basic necessities for their household are greater than the applicable overall maximum level of assistance set forth in the beginning of Ordinance § 6.8. (22 M.R.S. § § 4301(10), 4305(3-B)). The difference between the applicant's income and the overall maximum levels of assistance established by this Ordinance is the applicant's deficit.

Once an applicant's deficit has been determined, the specific maximum levels of assistance for each basic necessity shall guide Administrator's distribution of assistance for which the applicant is eligible. *(See Ordinance Appendices A-H).* The specific maximum levels of assistance for each basic necessity are intended to be reasonable and sufficient to help recipients maintain a standard of health and decency. (22 M.R.S. § 4305(3-A)).

Income for Basic Necessities. Applicants are required to use their income for basic necessities. Except for initial applicants, no *applicant* is eligible to receive assistance to replace income that was spent within the 30-day period prior to an application for assistance on goods and services that are not basic necessities. All income spent on goods and services that are not basic necessities will be considered available to the applicant and combined with the applicant's prospective 30-day income for the purposes of computing eligibility. (22 M.R.S. § 4315-A). Applicants who have

sufficient income to provide their basic necessities but who use that income to purchase goods or services which are not basic necessities will not be considered eligible for assistance. Persons who exhaust their income on basic necessities and who still need assistance with other basic necessities will be eligible, provided that their income does not exceed the overall maximum level of assistance.

Use-of-Income Requirements. The Administrator may require that anyone applying for GA provide documentation of their use of income. This documentation can take the form of cancelled checks and/or receipts which demonstrate that the applicant has exhausted all household income received over the last 30-day period. Except as is deemed appropriate by the Administrator for "unforeseen" repeat applicants *(See Ordinance § 6.3);* repeat applicants may be required to verify that expenditure of income was for basic necessities. Income expended that cannot be verified will generally be considered available and in such case will be added to the 30-day prospective income.

Allowable expenditures include reasonable shelter costs (rent/mortgage); the cost of heating fuel, electricity, and food up to the ordinance maximums; telephone costs at the base rate if the household needs a telephone for medical reasons, the cost of non-elective medical services as recommended by a physician which are not otherwise covered by medical entitlement, Hospital Free Care or insurance; the reasonable cost of essential clothing and non-prescription drugs, and the costs of any other commodity or service determined essential by the Administrator.

Items not considered to be basic necessities and thus will not be allowed in the budget computation include:

- Internet services
- Cable or satellite television
- Cellular phones, except when deemed essential by the overseer for medical or work related purposes
- Cigarettes/alcohol
- Gifts purchased
- Pet care costs
- Costs of trips or vacations
- Paid court fines
- Repayments of unsecured loans
- Legal fees
- Late fees

- Credit card debt

The municipality reserves the right to apply specific use-of-income requirements to any applicant, other than an initial applicant, who fails to use their income for basic necessities or fails to reasonably document their of income. (22 M.R.S. § 4315-A). Those additional requirements will be applied in the following manner:

1) The Administrator may require the applicant to use some or all of their income, at the time it becomes available, toward specific basic necessities. The Administrator may prioritize such required expenditures so that most or all of the applicant's income is applied to housing (i.e., rent/mortgage), energy (i.e., heating fuel, electricity), or other specified basic necessities;
2) The Administrator will notify applicants in writing of the specific use-of-income requirements placed on them;
3) If upon subsequent application it cannot be determined how the applicant's income was spent, or it is determined that some or all of the applicant's income was not spent as directed and was also not spent on basic necessities, the applicant will not be eligible to receive either regular or emergency general assistance to replace that income; and
4) If the applicant does not spend their income as directed but can show with verifiable documentation that all income was spent on basic necessities up to allowed amounts, the applicant will remain eligible to the extent of the applicant's eligibility and need.

Calculation of Income and Expenses. When determining eligibility, the Administrator will subtract the applicant's net income from the overall maximum level of assistance found at the beginning of Ordinance § 6.8. If income is greater than the overall maximum level of assistance, the applicant will not be eligible except in an emergency *(see Ordinance § 4.9)*. If income is less than the overall maximum level of assistance, the applicant has a deficit.

The municipality will provide assistance in an amount up to the deficit to the extent the applicant also has an unmet need and is in need of basic necessities. The municipality will not grant assistance in excess of the maximum amounts allowed in Ordinance § 6.8 for specific basic necessities except in an emergency or when the

Administrator elects to consolidate the applicant's deficit, as provided immediately below.

Consolidation of Deficit. As a general rule, and to the extent of their deficit, applicants will be eligible for assistance for any basic necessity up to, but not exceeding, the maximum amount allowed for that necessity in this ordinance or the actual 30-day cost of the necessity, whichever is less. Under certain circumstances, however, and in accordance with the following conditions, the Administrator may consolidate the applicant's deficit and apply it toward a basic necessity in an amount greater than the ordinance maximum for that necessity.

1) The practice of consolidating the deficit and applying it toward a basic necessity in amounts greater than the ordinance maximum shall be the exception rather than the rule;
2) The total GA grant cannot exceed the total deficit unless the applicant is in an emergency situation; and
3) The need for the application of the recipient's consolidated deficit toward a basic necessity was not created by the recipient misspending their income or resources in violation of the use-of-income requirements of this ordinance.

Section 6.7—Income

Income Standards. Applicants whose income exceeds the overall maximum level of assistance provided in Ordinance § 6.8 shall not be eligible for GA except in an emergency. Each time an applicant applies, the Administrator will conduct an individual factual inquiry into the applicant's income and expenses.

Calculation of Income. To determine whether applicants are in need, the Administrator will calculate the income they will receive during the next 30-day period commencing on the date of application and identify any assets or resources that would alleviate their need. For all applicants other than initial applicants, the Administrator will also consider as available income any income that was not spent during the previous 30-day period on basic necessities as well as any income that was spent on basic necessities in unreasonable excess of the ordinance maximums for specific basic necessities. If a household's income exceeds the amount of the

household's need for basic necessities, up to the maximum levels contained in Ordinance § 6.8, applicants will not be considered in need.

Exceptions will be made in emergency situations, which may necessitate that the maximum levels be exceeded. (22 M.R.S. § 4308) *(see Ordinance § 4.9)*. To calculate weekly income and expenses, the Administrator will use actual income received or actual anticipated income.

Types of Income. Income that will be considered in determining an applicant's need includes:

a) **Earned Income.** Income in cash or in kind earned by the applicant through wages, salary, commissions, or profit, whether self-employed or as an employee, is considered earned income. If a person is self-employed, total income will be computed by subtracting reasonable and actual business expenses from gross income. When income consists of wages, the amount computed will be the income available after taxes, social security and other payroll deductions required by state, federal, and local law. Rental income and profit from produce that is sold is considered earned income. Income that is held in trust and unavailable to the applicant or the applicant's dependents will not be considered as earned income.

   Note: Actual work-related expenses such as union dues, transportation to and from work, special equipment or work clothes, and childcare costs will be deducted from an applicant's income. (22 M.R.S. § 4301(7)).

b) **Income from Other Assistance or Social Services Programs.** State/federal categorical assistance benefits, SSI payments, Social Security payments, VA benefits, unemployment insurance benefits, and payments from other government sources will be considered as income, unless expressly prohibited by federal law or regulation. Federal law prohibits Food Stamps and Fuel Assistance payments made by the Home Energy Assistance Program (HEAP and EPIC) from being considered income. The value of the food stamps or fuel assistance will not be used to reduce the amount of GA the applicant is eligible to receive. Although applicants may have only a limited or reduced need for GA for heating fuel or electricity if a recently received

HEAP/ECIP benefit has sufficiently credited their account or otherwise prevented the fuel-related costs for the prospective 30-day period.

The Administrator's obligation is to always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid for their total fuel costs. Accordingly, in such cases, the Administrator will budget for the household's heating energy needs according to actual usage, up to the ordinance maximums, but the Administrator may, with written notice to the applicant, hold in reserve the heating energy portion of the applicant's deficit until such a time during the period of eligibility that the applicant has a demonstrable need for the disbursement of heating energy assistance; that is, the applicant's fuel tank can accept a minimum fuel delivery or the applicant no longer has a positive credit balance with their utility company. The municipality is not obligated to divert any recipient's heating energy allowance toward non-heating purposes solely on the basis of the recipient's receipt of HEAP/ECIP.

Other programs whose income cannot be counted for purposes of GA eligibility include:

- Family Development Accounts (22 M.R.S. § 3762)
- Americorp VISTA program benefits (42 U.S.C. § 5044(f))
- Property tax rebates issued under the Maine Property Tax Fairness Credit program, only so long as the money is spent on basic necessities. (22 M.R.S. § 4301(7))

c) **Court-Ordered Support Payments.** Alimony and child support payments will be considered income only if actually received by the applicant. The Administrator will refer cases in which support payments were not actually received to the Maine DHHS Child Support Enforcement Unit. In order to be eligible for future GA benefits, applicants referred to DHHS for support enforcement assistance shall be required to follow-through with such services. Because child support payments are considered a resource, applicants must make a good faith effort to secure such payments.

d) **Income from Other Sources.** Payments from pensions and trust funds will be considered income. Payments from boarders or lodgers will be considered

income as will cash or in-kind contributions provided to the household from any other source, including relatives. (22 M.R.S. § 4301(7)).

e) **Earnings of a Son or Daughter.** Earned income received by sons and daughters below the age of 18 who are full-time students and who are not working full-time will not be considered income. The unearned income of a minor in the household will be considered available to the household.

f) **Income from Household Members.** Income from household members will be considered available to the applicant, whether or not the household member is legally obligated for the support of the applicant, if the household members pool or share their income and expenses as a family or intermingle their funds so as to provide support to one another.

g) **The Pooling or Non-Pooling of Income.** When two or more individuals share the same dwelling unit but not all members of the household are applying for GA, the Administrator shall make a finding under a rebuttable presumption that the entire household is pooling income. (22 M.R.S. § 4301(12-A)).

   One or more applicants for assistance can successfully rebut the presumption that all household income is being pooled by providing the Administrator with verifiable documentation affirmatively demonstrating a pattern of non-pooling during the duration of the shared living arrangement. Such documentation would include evidence of the entire household's expenses, bank statements, cancelled checks, receipts, landlord statements or other vendor accounts clearly supporting a claim that the applicant has been and is presently solely and entirely responsible for their pro-rata share of household costs.

   If the applicant is unable to successfully rebut the municipality's presumption that all household income is being pooled, eligibility of the entire household will be determined based on total household income. If the applicant successfully rebuts the municipality's presumption that all household income is being pooled, the applicant's eligibility will be determined on the basis of their income and their pro-rata share of actual household expenses.

h) **Lump Sum Income.** A lump sum payment received by any GA applicant or recipient prior or subsequent to the date of application for GA will be considered as income available to the household. However, verified required

payments (i.e., any third-party payment which is required as a condition of receiving the lump sum payment, or any payments of bills earmarked for the purpose for which the lump sum payment was made) and any amount of the lump sum payment which the applicant can document was spent on basic necessities, as described below, will not be considered available income.

Where a household receives a lump sum payment at any time prior or subsequent to the date of application for GA, the Administrator will assess the need for prorating an applicant's eligibility for GA according to the following criteria. (22 M.R.S. § 4301(7), (8-A)):

1) identify the date the lump sum payment was received;
2) subtract from the lump sum payment all required payments;
3) subtract from the lump sum any amount the applicant can demonstrate was spent on basic necessities, including all basic necessities as defined by the GA program such as: reasonable payment of funeral or burial expenses for a family member; any reasonable travel costs related to the illness or death of a family member; repair or replacement of essentials lost due to fire, flood or other natural disaster; repair or purchase of a motor vehicle essential for employment, education, training or other day-to-day living necessities. Repayments of loans or credit, the proceeds of which can be verified as having been spent on basic necessities; and payment of bills earmarked for the purpose for which the lump sum is paid must also be subtracted. (22 M.R.S. § 4301(7), (8-A));
4) add to the remainder all income received by the household between the date of receipt of the lump sum payment and the date of application for GA; and
5) divide the sum created in subsection (4) by the verified actual monthly amounts for all of the household's basic necessities. 22 M.R.S. § 4305(3-B).

This dividend represents the period of proration determined by the Administrator to commence on the date of receipt of the lump sum payment. The prorated sum for each month must be considered available to the household for 12 months from the date of application or during the period of proration, whichever is less.

The household of an initial applicant that is otherwise eligible for emergency assistance may not be denied emergency assistance to meet an immediate need solely on the basis of the proration of a lump sum payment. (22 M.R.S. § 4308).

Section 6.8—Basic Necessities; Maximum Levels of Assistance

Overall Maximum Levels of Assistance. Notwithstanding any of the maximum levels of assistance for specific basic necessities listed in Ordinance Appendices B-H, an applicant's eligibility for GA will be first determined by subtracting their income from the overall maximum level of assistance designated in Appendix A for the applicable household size. (22 M.R.S. § 4305 (3-B)). The difference yielded by this calculation shall be the applicant's deficit.

Applicants will be eligible for GA up to the calculated deficit to the extent the applicant is unable to otherwise provide the basic necessities essential to maintain themselves or their families. Applicants with no deficit shall be found ineligible for GA unless they are in an emergency, in which case eligibility for emergency GA will be determined according to Ordinance § 4.9.

Maximum Levels of Assistance for Specific Basic Necessities. The municipality will grant assistance to eligible applicants for basic necessities according to the maximum levels for specific types of assistance set forth below. The Administrator, in consultation with the applicant, may apply the amount of the applicant's deficit toward assistance with any one or combination of necessities not to exceed the total deficit. These maximum levels will be strictly adhered to unless the Administrator determines that there are exceptional circumstances and an emergency is shown to exist, in which case these absolute levels will be waived in order to meet immediate needs.

Note. The municipality cannot exceed maximum levels of assistance for an applicant household for more than 30 days in a 12-month period when assistance is granted for housing in a hotel, motel, inn or other lodging place.

In all cases either the actual expenses the applicant incurs for basic necessities or the maximum amount allowed in each category, whichever is less, will be used in determining need.

In roommate situations, the applicant's need for common living expenses for rent, fuel, electricity, etc., will be presumed to be reduced by an amount equal to the other household members' proportionate fair share of the common living expenses. No applicant will be allowed to claim a need for any expense which has been or will be paid by another person. In addition, as a general rule the municipality will not provide a benefit toward a basic need by paying a bill that is issued to a person not living with the applicant's household or that has otherwise been incurred by a person who has not been found eligible to receive assistance.

Temporary exceptions to this general rule may be made by the Administrator in the following circumstances: (1) a recent, unplanned separation has occurred in the household resulting in the sustained or permanent absence of a former household member in whose name the bill was customarily issued; (2) the applicant and members of the applicant's household were or will be the sole recipients of the commodities or services covered by any bill to be paid or partially paid with GA; and (3) the applicant will make a good faith effort to direct the vendor to issue future bills in the name of the applicant or other responsible person residing in the household.

(A) **Food.** The Administrator will provide food assistance to eligible persons up to the allowed maximum amounts designated by the U.S.D.A. Thrifty Food Plan for the appropriate household size.

For this purpose, the municipality hereby incorporates by reference the U.S.D.A. Thrifty Food Plan, as distributed by the Maine DHHS on or about October of each year. See Ordinance Appendix B for the current year's food maximums.

In determining need for food, the Administrator will not consider the value of the food stamps an applicant receives as income. (22 M.R.S. § 4301.7(A); 7 U.S.C. § 2017(b)). The municipality will authorize vouchers to be used solely for approved food products.

The Administrator will exceed the maximums when necessary for households having members with special dietary needs. The Administrator may require a doctor's statement verifying there is a special dietary need requiring an expenditure for food that is greater than the ordinance maximums.

(B) **Housing.** The Administrator will provide assistance with rent or mortgage payments that are reasonable and/or within the allowed maximum levels. See Ordinance Appendix C for the current year's housing maximums. It is the applicant's responsibility to find suitable housing, although the Administrator may help the applicant find housing when appropriate. The Administrator will inform the applicant of the allowed housing maximums to assist the applicant in their search for housing. The allowed maximum for any applicant will be the categorical housing maximum representing the minimum dwelling unit space necessary to adequately shelter the applicant household. Applicants requesting assistance for housing that contains more bedrooms than are necessary for the number of household members will be provided assistance according to the maximum level for the number of rooms actually needed.

Rental Payments to Relatives. The municipality may elect to not issue any rental payment to an applicant's relatives unless the rental relationship has existed for at least three months and the applicant's relative(s) rely on the rental payment for their basic needs. For the purpose of this section, a "relative" is defined as the applicant's parents, grandparents, children, grandchildren, siblings, parent's siblings, or any of those relative's children. (22 M.R.S. § 4319(2)).

Rental Payments to Non-Relatives. When applicants are living in private homes with the owner or sharing dwelling units with people who are not pooling income or who are not legally liable relatives, the amount allowed as the applicant's shelter expense will be the applicant's pro rata share of the actual, total shelter cost, up to the ordinance maximum. (22 M.R.S. § 4301(6)).

Any housing assistance issued to a recipient in such a circumstance will be issued, whenever reasonably possible, to the landlord or property owner with the most superior interest in the property; i.e., to a landlord before a tenant, or to a mortgagee before a mortgagor.

When the municipality issues in aggregate more than $600 in rental payments to any landlord in any calendar year, a 1099 form declaring the total amount of rental

payments issued during the calendar year will be forwarded to the Internal Revenue Service (IRS) pursuant to IRS regulation (see § 6041(a) of Internal Revenue Code).

Any landlord wishing to regularly receive rental payments from the municipality on behalf of applicants renting rooms from the landlord's own residence must, at a minimum, make a good faith effort to obtain a lodging license from the DHHS Division of Health Engineering, pursuant to 10-144A CMR, Chapter 201, as a condition of that landlord receiving future GA payments on behalf of their tenants.

Mortgage Payments. In the case of a request for assistance with a mortgage payment, the Administrator will make an individual factual determination of whether the applicant has an immediate need for such aid. In making this determination, the Administrator will consider the extent and liquidity of the applicant's proprietary interest in the housing. Factors to consider in making this determination include:

(1) the marketability of the shelter's equity;
(2) the amount of equity;
(3) the availability of the equity interest in the shelter to provide the applicant an opportunity to secure a short-term loan in order to meet immediate needs;
(4) the extent to which liquidation may aid the applicant's financial rehabilitation;
(5) a comparison between the amount of mortgage obligations and the anticipated rental charges the applicant would be responsible for if they were to be dislocated to rental housing;
(6) the imminence of the applicant's dislocation from owned housing because of their inability to meet the mortgage payments;
(7) the likelihood that the provision of housing assistance will prevent such dislocation; and
(8) the applicant's age, health, and social situation.

These factors shall be considered when determining whether the equity in the shelter is an available asset which may be substituted for the assistance the municipality would otherwise be required to provide.

The Administrator shall consider issuing a benefit in response to the applicant's request for mortgage assistance to the extent the applicant is otherwise eligible for GA if after review of the criteria above, the Administrator determines that:

(1) the monthly mortgage obligation is in accordance with the maximum levels of assistance available for housing appropriate to the applicant's household size;
(2) there is no capacity in the accumulated equity in the property, when considered in the context of the applicant's borrowing capacity with the mortgagee or the general lending community, to suspend the mortgage obligation temporarily or re-amortize the mortgage in such a way as to suspend or reduce the mortgage obligation; and
(3) the failure to provide a mortgage payment in a timely manner could jeopardize the applicant's continued right of possession of the property.

If a mortgage payment is necessary, the Administrator will pay the actual amount due, up to the amount allowed according to the maximum levels listed below. After an initial application, assistance with such payments will be given only after the applicant has made all reasonable efforts to borrow against the equity of their home. If there is not sufficient equity in the home with which to secure a loan, and if the monthly mortgage payments are not realistically in line with the rental rates for similar housing in the area that could meet the applicant's needs, the Administrator will inform the applicant that they are responsible for finding alternative housing within their ability to pay and will be obligated to make all reasonable efforts to secure such housing.

Liens. The municipality may place a lien on the property in order to recover its costs of granting assistance with mortgage payments. In addition, a municipality may claim a lien against the owner of real estate for the amount of money spent by it to make capital improvements to the real estate. (22 M.R.S. § 4320). No lien may be enforced against a recipient except upon their death or the transfer of the property. Further, no lien may be enforced against a person who is currently receiving any form of public assistance, or who would again become eligible for GA if the lien were enforced.

If the municipality determines that it is appropriate to place a lien on a person's property to recover its costs of providing GA for a mortgage payment or capital

improvement it must file a notice of the lien with the county registry of deeds where the property is located within 30 days of making the mortgage payment. That filing shall secure the municipality's or the state's interest in an amount equal to the sum of that mortgage or capital improvement payment and all subsequent mortgage or capital improvement payments made on behalf of the same eligible person, plus interest and costs.

Not less than 10 days prior to filing the lien in the registry, the municipal officers must send notice to the owner of the real estate, the GA recipient, and any record holder of the mortgage by certified mail, return receipt requested, that a lien on the property is going to be filed with the registry. This notice must clearly inform the recipient of the limitations upon enforcement plus the name, title, address and telephone number of the person who granted the assistance. The municipal officers must also give written notice to the recipient each time the amount secured by the lien is increased because of an additional mortgage payment. This notice must include the same information that appeared on the original intent-to-file notice sent to the recipient.

The municipality may charge interest on the amount of money secured by the lien. The municipal officers will establish the interest rate not to exceed the maximum rate of interest allowed by the State Treasurer to be charged against delinquent taxes. The interest will accrue from the date the lien is filed.

Property Taxes. In the event an applicant requests assistance with their property taxes, the Administrator will inform the applicant that there are two procedures on the local level to request that relief: the poverty abatement process (36 M.R.S. § 841(2)) and GA. If the applicant chooses to seek property tax assistance through GA, or if the applicant is denied a poverty tax abatement, the Administrator may consider using GA to meet this need only if:

a) the property tax in question is for the applicant's place of residence;
b) there is a tax lien on the property which is due to mature within 60 days of the date of application;
c) as a matter of municipal policy or practice, or on the basis of information obtained from the applicant's mortgagee, if any, it is reasonably certain that

a tax lien foreclosure will result in subsequent eviction from the residential property; and

d) the applicant, with sufficient notice, applies for property tax relief through the Maine Property Tax Fairness Credit program, when available.

Housing Maximums. The maximum levels of housing assistance contained in this ordinance have been derived either from a locally accomplished fair market rental survey or the fair market rental values developed by the U.S. Department of Housing and Urban Development (HUD). If the maximum levels of housing are derived from the HUD values made effective as of every October 1, and adjusted to disregard the current and averaged utility allowances as developed by the Maine State Housing Authority, those levels are hereby incorporated by reference. See Ordinance Appendix C for the current year's housing maximums.

If and when the maximum levels of housing assistance in this Ordinance are derived from a locally developed fair market rental survey, a record of that survey will be submitted to the DHHS, General Assistance Unit, and the maximum levels of housing assistance will be incorporated into this Ordinance pursuant to the ordinance adoption and amendment procedures found at 22 M.R.S. § 4305.

(C) **Utilities.** Expenses for lights, cooking, and hot water will be budgeted separately if they are not included in the rent. Applicants are responsible for making arrangements with the utility company regarding service, including entering into a special payment arrangement if necessary.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not obligated to pay back bills or utility security deposits. Exceptions may be made in emergency situations pursuant to section 4.9.

Disconnection of utility service will not be considered an emergency in all cases. The Administrator will make an individual, factual analysis to determine if the termination of utility service constitutes an emergency. The Administrator will consider the household composition, the time of year, the age and health of the household members, and other appropriate factors in reaching a decision. Applicants who had sufficient income, money, assets or other resources to pay

their utility bill when it was received, but who spent all or part of their income on items which were not basic necessities, will not be eligible to receive GA to replace those funds.

Applicants have the burden of providing evidence of their income and use of income for the applicable time period (22 M.R.S. § 4308(2)) *(see Ordinance § § 4.9; 6.3)*. The Administrator will notify applicants in writing that they must give the Administrator prompt notice if their utility service is to be terminated or if their fuel supply is low. It is the applicant's responsibility to attempt to make arrangements with the utility company to maintain their service and to notify the Administrator if assistance is needed with a utility bill prior to service being terminated.

Electricity Maximums for Households Without Electric Hot Water. See Ordinance Appendix D for the current year's electricity maximums.

Electricity Maximums for Households that Use Electrically Heated Hot Water. See Ordinance Appendix D for the current year's electricity maximums.

Non-Electric Utilities. The allowed amount for water and sewer utility service will be budgeted at a 30-day reasonable usage rate.

(D) **Fuel.** Expenses for home heating will be budgeted according to the actual need for fuel during the heating season (September through May) provided such expenses are reasonable, and at other times during the year when the Administrator determines the request for fuel assistance is reasonable and appropriate.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not responsible for back bills except in an emergency as provided in Ordinance § 4.9. Applicants are responsible for monitoring their fuel supply and requesting assistance prior to depleting their fuel supply. When applicants who have been informed of this responsibility run out of fuel nonetheless, and can show no just cause for failing to give the Administrator timely notice of their need for fuel, the Administrator shall find that the emergency was not beyond the applicants' control, and process the emergency

request accordingly, pursuant to Ordinance § 4.9. See Ordinance Appendix E for the current year's fuel maximums.

(E) **Personal Care and Household Supplies.** Expenses for ordinary personal and household supplies will be budgeted and allowed according to the applicant's actual need for these items. Personal and household supplies include: hand soap, toothpaste, shampoo, shaving cream, deodorant, dish detergent, laundry supplies and costs, household cleaning supplies, razors, paper products such as toilet paper, tissues, paper towels, garbage/trash bags light bulbs and supplies for children under 5 years of age. See Ordinance Appendix F for the current year's personal care and household supplies maximums.

(F) **Other Basic Necessities.** Expenses falling under this section will be granted when they are deemed essential to an applicant's or recipient's health and safety by the Administrator and, in some cases, upon verification by a physician. Assistance will be granted only when these necessities cannot be obtained through the utilization of available resources.

1) **Clothing.** The municipality may assist a household with the purchase of adequate clothing. Before assistance will be granted for clothing, the general assistance Administrator must be satisfied that the applicant has utilized all available resources to secure the necessary clothing. In some circumstances, clothing will be a postponable item. Exceptions to this would be, for example, if fire, flood or unusually cold weather makes extra clothing an immediate necessity, special clothing is necessary for the applicant's employment, or a household member is without adequate clothing.
2) **Medical.** The municipality will pay for essential medical expenses, other than hospital bills *(see below)*, provided that the municipality is notified and approves the expenses and services prior to their being made or delivered. Medical expenses include prescriptions, devices, treatments, or services that are determined to be 'medically necessary' by a licensed physician. The municipality will grant assistance for medical services only when assistance cannot be obtained from any other source and the applicant would not be able to receive necessary medical care without the municipality's assistance. The applicant is required to utilize any resource, including any federal or state

program, that will diminish their need to seek general assistance for medical expenses. The municipality will grant assistance for non-emergency medical services only if a physician verifies that the services are essential. Provided there is no cost to the applicant, the Administrator may require a second medical opinion from a physician designated by the municipality to verify the necessity of the services.

Generally, the municipality will issue GA at the established Medicaid rates for all medical services, prescriptions, or other medical commodities. Before authorizing GA for any medical expenses, the Administrator will inform the pharmacy or medical service provider of the municipality's intention to pay for the medical service at the Medicaid rate and ask to be billed accordingly.

Ordinary medical supplies/non-prescription drugs will be budgeted at the actual amount when the applicant can demonstrate a need for such items. Allowable supplies include bandages, aspirin, cough syrup, and other generic brand, non-prescription medicines. In addition, the basic monthly rate for telephone service will be budgeted when a telephone is essential to the health and safety of the household. In order for telephone service to be considered an allowable expense the applicant must provide a written statement from a physician certifying that the telephone is essential.

3) **Hospital Bills.** In the event of an emergency admission to the hospital, the hospital must notify the Administrator within 5 business days of the admission. Notification must be by telephone, confirmed by certified mail, or by certified mail only. If a hospital fails to give timely notice to the Administrator, the municipality will have no obligation to pay the bill.

   Any person who cannot pay their hospital bill must apply to the hospital for consideration under the Hospital's Free Care Program as provided in Title 22 M.R.S. § 1716. Anyone who is not eligible for the hospital's free care program may apply for GA. Applicants must apply for assistance within 30 days of being discharged from the hospital and provide a notice from the hospital certifying that they are not eligible for the hospital's free care program.

Before the Administrator will consider whether to allow a hospital bill as a necessary expense, the applicant must enter into a reasonable payment arrangement with the hospital. The payment arrangement will be based upon the Medicaid rate. In determining an applicant's eligibility, the municipality will budget the monthly payment to the hospital the applicant has agreed to pay. The applicant's need for assistance with a hospital bill will be considered each time they apply by including the amount of the bill in the applicant's monthly budget, but the recipient will be responsible for making any necessary payments to the hospital pursuant to the use-of-income requirements found at Ordinance § 6.6.

4) **Dental.** The municipality will pay for medically necessary dental services only. As is the case with medical services generally, the municipality will issue GA for dental services at the established Medicaid rates for those services, and before authorizing the GA benefit for dental services, the Administrator will inform the dentist or dental surgeon of the municipality's intention to pay at the Medicaid rate. If full mouth extractions are necessary, the municipality will pay for dentures provided the applicant has no other resources to pay for the dentures. The applicant will be referred to a dental clinic in the area whenever possible. The Administrator will expect the applicant to bear a reasonable part of the cost for dental services, including extractions and dentures, taking into account the applicant's ability to pay.
5) **Eye Care.** In order to be eligible to receive GA for eyeglasses, an applicant must have their medical need certified by a person licensed to practice optometry. The Administrator will provide assistance for eyeglasses to eligible persons only after the applicant has exhausted all other available resources and generally only at the Medicaid rate.
6) **Telephone Charge.** A payment for basic telephone will only be allowed if a telephone is necessary for medical reasons as verified by a physician. At the discretion of the GA Administrator, minimum/basic telephone services may be allowed for households with children, for households where job search or work-related reasons exist and/or for any other reasons the Administrator deems necessary.

7) **Work-Related Expenses.** In determining need, reasonable and actual work-related expenses will be deducted from earned income. These expenses include childcare costs, work clothes, supplies and transportation at the actual costs not to exceed the ordinance maximum. See Ordinance Appendix G for the current maximum mileage allotment. The applicant is required to provide documentation substantiating the costs and that the expenses were necessary.

8) **Travel Expenses.** In determining need, necessary travel which is not work-related will be budgeted if the applicant can satisfy the Administrator that the prospective need for travel is necessary. For applicants in rural areas, weekly transportation to a supermarket will be considered, as will any medically necessary travel. See Ordinance Appendix G for the current rate at which such necessary travel will be budgeted. This rate shall be construed to subsidize all costs associated with automobile ownership and operation, including gas/oil, tires, maintenance, insurance, financing, licensing/registration, excise tax, etc.

9) **Burials, Cremations.** Under the circumstances and in accordance with the procedures and limitations described below *(see Ordinance § 6.9)*, the municipality recognizes its responsibility to pay for the burial or cremation of eligible persons. See Ordinance Appendix H for the current maximums.

10) **Capital Improvements.** The costs associated with capital improvements/repairs (e.g., heating/water/septic system repair) will generally not be budgeted as a basic necessity. Exceptions can be made only when the capital improvement/repair has been pre-approved by the Administrator as a necessary expense and the monthly cost of the capital improvement/repair has been reduced as far as reasonably possible; for example, by means of the applicant entering into an installment payment arrangement with the contractor. The Administrator may grant GA for capital improvements when:

    1) the failure to do so would place the applicant(s) in emergency circumstances;
    2) there are no other resources available to effect the capital repair; and

3) there is no more cost-effective alternative available to the applicant or municipality to alleviate an emergency situation.

In some cases, the entire immediate cost of the capital improvement can be mitigated by the applicant entering into an installment payment arrangement with a contractor. The municipality reserves the right to place a lien on any property pursuant to 22 M.R.S. § 4320 when GA has been used to effect a capital improvement. The lien process shall be accomplished in the same manner as for mortgage payments, as described in subsection (B) "Liens", above.

Section 6.9—Burials; Cremations

Funeral Director Must Give Timely Notice. In order for the municipality to be liable for a burial or cremation expense, the funeral director must notify the Administrator prior to the burial or cremation or by the end of three business days following the funeral director' receipt of the body, whichever is earlier. (22 M.R.S. § 4313(2)). This contact by the funeral director shall begin the process of developing an application for burial/cremation assistance on behalf of the deceased. It is the funeral director's responsibility to make a good-faith effort to determine if the family or any other persons are going to pay all or part of the burial expenses. If family members or others are unable to pay the expenses, and the funeral director wants the municipality to pay all or part of the expenses, the funeral director must make timely contact to the Administrator. In addition, the funeral director may refer legally liable relatives to the Administrator so that a timely determination of financial capacity may be accomplished.

Application for Assistance Shall be Calculated on Behalf of the Deceased. For the purposes of determining residency, calculating eligibility and issuing GA for burial or cremation purposes, an application for assistance shall be completed by the Administrator on behalf of the deceased.

With regard to residency, the municipality of responsibility for burial expenses shall be the municipality in which the eligible deceased person was a resident at the time of death as residency is determined under Ordinance § 4.10.

Although legally liable relatives may be asked to provide information regarding their income, assets, and basic living expenses, that information will not be construed as an application for GA in as much as living persons are not eligible for burial assistance. To clarify this point of law, although legally liable relatives have a financial responsibility to pay for the burial or cremation of their relatives, that financial responsibility only exists to the extent the legally liable relatives have a financial capacity to do so. Therefore, legally liable relatives who are themselves eligible for GA, have no legal obligation to pay for the burial or cremation of their relatives. For these reasons, all GA issued for burial or cremation purposes shall be issued on behalf of, and in the name of, the deceased.

The Financial Responsibility of Certain Family Members. Grandparents, parents, children and grandchildren of the deceased whether or not living in or owning property in Maine, and the spouse or registered domestic partner of the deceased, are financially responsible for the burial or cremation of the deceased to the extent those relatives, individually or as a group, have a financial capacity to pay for the burial or cremation either in lump sum or by means of a budgeted payment arrangement with the funeral home. Accordingly, at the request of the Administrator, all legally liable relatives must provide the Administrator with any reasonably requested information regarding their income, assets, and basic living expenses. The Administrator may also seek information from financial institutions holding assets of the deceased. Maine law requires a financial institution to disclose the amount deposited in the corporation or association when the municipality or its agents are acting in accordance with section 4313(2) and provide a written request and a notarized affidavit signed by the Administrator of the municipality or its agents stating that the named depositor is deceased.

Consideration of the Financial Responsibility of Family Members. Generally, when the Administrator can make a finding that one or more of the deceased's legally liable relatives have an obvious and demonstrable financial capacity to pay for the burial or cremation, by lump sum payment or by means of a reasonable payment arrangement, the municipality will not grant the requested burial or cremation assistance. When the Administrator is unable to make such a finding, the following proration of familial responsibility will be implemented.

Proration of Familial Responsibility. A proration of familial financial responsibility will be used when no legally liable relative possesses an obvious and demonstrable capacity to pay for the burial or cremation, but one or more of the financially liable relatives is found to have a financial capacity to make a partial financial contribution, or the Administrator is unable to determine the financial capacity of one or more of said relatives.

Under these circumstances, each legally liable relative is considered to be responsible for their pro rata share of the total municipal contribution that would exist if no legally liable relatives had a financial capacity to contribute. Furthermore, and as long as all other eligibility factors have been satisfied, the municipality will provide as a burial or cremation benefit the aggregate of all pro rata shares less the share of any legally liable relative who refuses to cooperate with the Administrator by providing information or documentation reasonably necessary to determine that relative's financial capacity, and less any share or part of a share attributable to a legally liable relative who can financially contribute or partially contribute toward the burial or cremation to the extent of that relative's share.

Eight Days to Determine Eligibility. The Administrator may take up to 8 days from the date of an application for burial/cremation assistance to issue a written decision regarding the amount of the municipal contribution toward the burial or cremation. The 8-day eligibility determination period from the date of application shall be used as necessary to make third-party collateral contacts, verify the listing of legally liable family members and determine their respective financial capacities to contribute to the burial or cremation, contact the personal representative of the deceased's estate, if any, and other related administrative tasks. The Administrator shall not use this 8-day period allowed by law to unreasonably delay the municipality's decision.

The Municipal Obligation to Pay When Legally Liable Relatives or Others Can Contribute. The figures provided in this section are the maximum benefits provided by the municipality when no contributions toward the burial or cremation are available from any other source. To the extent any legally liable relatives of the deceased have a financial capacity to pay for the burial or cremation, that financial capacity shall be deducted from the maximum burial costs allowed by this section. In addition, any

other benefits or resources that are available, such as Social Security burial benefits, veterans' burial benefits, or contributions from other persons, will be deducted from the maximum amount the municipality will pay, except there will be no deduction from the municipal benefit level with respect to any contribution provided for the purpose of publishing an obituary notice up to an aggregate contribution limit for this purpose of $75 when a paid receipt demonstrating the purchase of an obituary notice is provided to the Administrator.

Burial Expenses. The Administrator will respect the wishes of family members concerning whether the deceased is interred by means of burial or cremated. See Ordinance Appendix H for the maximum levels of burial assistance.

Cremation Expenses. In the absence of any objection by any family members of the deceased, or when neither the Administrator nor the funeral director can locate any family members, the Administrator may issue GA for cremation services. See Ordinance Appendix H for the maximum assistance levels for cremations.

Section 6.10—Notice of Decision

Written Decision. Each time a person applies, the Administrator will provide a written decision to the applicant after making a determination of eligibility. The decision will be given to the applicant within 24 hours after a completed and signed application is received (22 M.R.S. § 4305(3)) *(see Ordinance § 4.6)*.

In order to comply with the statutory requirement to issue a decision within 24 hours, if an applicant submits an incomplete or unsigned application, the Administrator may decide to issue a notice of "ineligibility" and provide the applicant with another application to submit as soon as is practicable for the applicant.

The Administrator must explain the applicant's right to a fair hearing in the Administrator's written notice of decision.

Contents of Decision. After an application has been completed, applicants will be given written notice of any decision concerning their eligibility for assistance. In addition to the items listed in Ordinance § 4.6, the notice of decision will include a statement that:

a) the applicant has the right to a fair hearing and how to request a fair hearing, and;
b) the applicant has the right to contact the DHHS if they believe the municipality has violated the law. The decision will include contact information for the appropriate DHHS office.

Disbursement of General Assistance. Except when the Administrator determines it is impractical, all GA will be provided as a voucher or purchase order payable to a vendor or through direct municipal payment to a provider of goods or services. GA will not be issued in the form of a cash payment to an applicant unless there is no alternative to the cash payment, in which case the Administrator shall document the circumstances requiring GA to be issued in the form of cash. (22 M.R.S. § 4305(6)).

ARTICLE VII – The Fair Hearing

Section 7.1—Right to a Fair Hearing

Within 5 working days of receipt of a written notice of denial, reduction or termination of assistance, or within 10 working days after any other act or failure to act, the applicant or their authorized representative has the right to request a fair hearing. (22 M.R.S. § 4322). The right to review a decision of the Administrator is a basic right of the applicant to a full evidentiary hearing and is not limited solely to a review of the decision.

Section 7.2—Method of Obtaining a Fair Hearing

Upon receiving notification of the decision of the Administrator, all claimants will be informed of how to request a fair hearing. All complaints that are not clear requests for a fair hearing will be answered by a personal interview or in writing by the Administrator. If the client is satisfied with the adjustment or explanation, the Administrator will make an entry in the case record and file any correspondence involved.

Written Request. To obtain a fair hearing, the claimant, or their authorized representative, must make a written request within 5 working days of receipt of the Administrator's decision to grant, deny, reduce or terminate assistance, or within 10 working days after any other act or failure to act. The Administrator will make a form available to request a fair hearing and will assist the claimant in completing it if necessary. On the printed form, the claimant will give the following information:

a) the decision on which review is sought;
b) the reason(s) the claimant is dissatisfied and why the claimant believes they are eligible to receive assistance; and
c) the relief sought by the claimant.

The Administrator may not deny or dismiss a request for a hearing unless it has been withdrawn (in writing) by the claimant.

Scheduling the Fair Hearing. Upon receipt of the completed written request, the FHA must meet and hold the hearing within 5 working days. The Administrator will notify

the claimant in writing when and where the hearing will be held. (22 M.R.S. § 4322). In addition to the date, time and place of the hearing, the notice of fair hearing shall include, at a minimum, the claimant's rights to:

a) be their own spokesperson at the fair hearing, or at the claimant's own expense be represented by legal counsel or another;
b) confront and cross-examine any witnesses presented at the hearing; and
c) present witnesses on their own behalf.

Arrangements for the date, time, and place of the hearing will take into consideration the convenience of the claimant and hearing authority. The claimant will be given timely notice to allow for preparation and will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of their case.

Section 7.3—The Fair Hearing Authority

The municipal officers will appoint a fair hearing authority (FHA) that will determine, based on all the evidence presented at the fair hearing, whether the claimant(s) were eligible to receive assistance at the time they applied for GA. The FHA is charged with ensuring that GA is administered in accordance with state law and this ordinance.

The FHA may consist of the municipal officers, one or more persons appointed by the municipal officers to act as the FHA, or, if designated by ordinance, a municipal board of appeals created under 30-A M.R.S. § 2691. (22 M.R.S. § 4322). In determining the FHA, the municipal officers will ensure that all person(s) serving as FHA must:

a) have not participated in the decision which is the subject of the appeal;
b) be impartial;
c) be sufficiently skilled in interviewing techniques to be able to obtain evidence and the facts necessary to make a fair determination; and
d) be capable of evaluating all evidence fairly and realistically, explaining to the claimant the laws and regulations under which the Administrator operated, and conveying to the Administrator any evidence of unsound, unclear, or inadequate policies, practices or actions.

Section 7.4—Fair Hearing Procedure

At the time that written notice of the date, time, and place of the fair hearing is provided to a claimant, they will also be given adequate information about the hearing procedure to allow them to effectively prepare their case. The claimant shall be permitted to review their file before the hearing. At a minimum, the claimant will be provided with the following information regarding fair hearing procedures. All fair hearings will:

a) be conducted in private, with only to the claimant, witnesses, the claimant's legal counsel, others whom the claimant wants present, and Administrator, the Administrator's agents, counsel and witnesses present;
b) be opened with a presentation of the issue by the FHA;
c) be conducted informally, without technical rules of evidence, but subject to the requirements of due process;
d) allow the claimant and the Administrator the option to present their positions for themselves or with the aid of others, including legal counsel;
e) give all participants an opportunity to present oral or written testimony or documentary evidence, offer rebuttal; question witnesses presented at the hearing; and examine all evidence presented at the hearing;
f) result in a decision, based exclusively on evidence or testimony presented at the hearing; and
g) be tape recorded, and result in a written decision that is given to the claimant and filed with evidence introduced at the hearing. The FHA will allow the claimant to establish all pertinent facts and circumstances, and to advance any arguments without undue interference. Information that the claimant does not have an opportunity to hear or see will not be used in the fair hearing decision or made part of the hearing record. Any material reviewed by the FHA must be made available to the claimant or their representative. The claimant will be responsible for preparing a written transcript if they wish to pursue court action.

The FHA shall admit all evidence if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs. (22 M.R.S. § 4322).

Claimant's Failure to Appear. If the claimant fails to appear at the hearing, the FHA will send a written notice to the claimant indicating that the Administrator's decision remains unchanged because of the claimant failure to appear. The notice will state that the claimant has 5 working days from receipt of the notice to provide the Administrator with information demonstrating "just cause," for failure to appear.

"Just cause" for a claimant's failure to appear at a fair hearing, may include:

a) a death or serious illness in the family;
b) a personal illness which reasonably prevents the party from attending the hearing;
c) an emergency or unforeseen event which reasonably prevents the party from attending the hearing;
d) an obligation or responsibility which a reasonable person in the conduct of their affairs could reasonably conclude takes precedence over the attendance at the hearing; or
e) lack of receipt of adequate or timely notice; excusable neglect, excusable inadvertence, or excusable mistake.

If the claimant (or his/her attorney) establishes that just cause existed, the request for the hearing will be reinstated and a hearing rescheduled.

If a claimant who is represented by legal counsel fails to appear at a fair hearing, legal counsel shall not testify in place of the claimant on matters of 'fact' but may cross examine witnesses and make 'legal' arguments on behalf of the claimant.

Section 7.5—The Fair Hearing Decision

The FHA's decision will be binding on the Administrator, and will be communicated in writing to the claimant within 5 working days after completion of the hearing. Written notice of the decision will contain:

a) a statement of the issue;
b) relevant facts brought out at the hearing;
c) pertinent provisions in the law or GA ordinance related to the decision; and
d) the FHA's decision and the reasons for it.

A copy of the decision will be given to the claimant. The hearing record and the case record will be maintained by the Administrator.

The written decision will state that if the claimant is dissatisfied with the fair hearing decision, they may appeal pursuant to Maine Rule of Civil Procedure, Rule 80B. To take advantage of this right, the claimant must file a petition for review with the Superior Court within 30 days of receipt of the fair hearing decision.

When the decision by the FHA or court authorizes assistance to the claimant, the assistance will be provided within 24 hours.

ARTICLE VIII – Recovery of Expenses

Recipients. The municipality may recover the full amount of assistance granted to a person from either the recipient or from any person liable for the recipient, or their executors or administrators in a civil action. However, prior to recovering assistance granted, the municipality shall "offset" the value of any workfare performed by a GA recipient against the repayment obligation, at a rate not less than minimum wage.

Before filing a court action to seek repayment of GA benefits previously provided to a recipient, the municipality will seek voluntary repayment after written notice and discussion with the recipient However, the municipality will not attempt to recover such amounts if, as a result of the repayment, the recipient would again become eligible for GA. (22 M.R.S. § 4318).

Recipients Anticipating Workers' Compensation Benefits. The municipality shall claim a lien on any lump sum payment under the Workers' Compensation Act or similar law of any other state, which lien shall equal the value of all GA payments made to a recipient of any such lump sum payment. (22 M.R.S. § 4318, 39-A M.R.S. § 106). After issuing any GA on behalf of a recipient who has applied for or is receiving Workers' Compensation, the municipality shall file a notice of the municipal lien with the GA recipient and the Maine Office of Secretary of State, Uniform Commercial Code division.

The notice of lien shall be filed on a UCC-1 form which must be signed by the GA recipient who has applied for or is receiving Workers' Compensation. Any GA applicant who has applied for or who is receiving Workers' Compensation benefits and who refuses to sign a properly prepared UCC-1 form will be found ineligible to receive GA until they provide the required signature. The municipality shall also send a photocopy of that filing to the recipient's Worker's Compensation attorney, if known, the applicant's employer or the employer's insurance company, and, at the Administrator's discretion, to the Workers' Compensation Board. The lien shall be enforced at the time any lump sum Workers' Compensation benefit is issued.

Recipients of SSI. All applicants who receive GA while receipt of their Supplemental Security Income (SSI) assistance is pending or suspended (and which therefore may

be retroactively issued to the applicant at a later date), will be required to sign a statement on an Interim Assistance Agreement form distributed by the DHHS that authorizes the Social Security Administration to direct a portion of any retroactive SSI payment to the municipality and/or the state in repayment for the GA granted. Any GA applicant who has applied for or who may be applying for SSI, or who may be required to apply for SSI pursuant to 22 M.R.S. § 4317, and who refuses to sign the Interim Agreement SSI authorization form will be found ineligible to receive GA until they provide the required signature. (22 M.R.S. § 4318).

Relatives. The spouse of an applicant, and the parents of any applicant under the age of 25, are liable for the support of the applicant (22 M.R.S. § 4319). In addition, the grandchildren, children, parents, grandparents, the spouse and a registered domestic partner, are liable for the burial costs of each other. The municipality considers these relatives to be available resources and liable for the support of their relatives in proportion to their respective ability. The municipality may complain to any court of competent jurisdiction to recover any expenses made on behalf of a recipient if the relatives fail to fulfill their responsibility. (22 M.R.S. § 4319).

ARTICLE IX – Severability

If any provision of this ordinance is declared invalid by a court of competent jurisdiction, such decision shall not invalidate any other provision of the ordinance.

2024-2025 Food Maximums

Please Note: The maximum amounts allowed for food are established in accordance with the U.S.D.A. Thrifty Food Plan. As of October 1, 2024, those amounts are:

Number in Household	Weekly Maximum	Monthly Maximum
1	67.91	292.00
2	124.65	536.00
3	178.60	768.00
4	226.74	975.00
5	269.30	1,158.00
6	323.26	1,390.00
7	357.21	1,536.00
8	408.37	1,756.00

Note: For each additional person add $220 per month.

2024-2025 GA Housing Maximums
(Heated & Unheated Rents)

NOTE: NOT ALL MUNICIPALITIES SHOULD ADOPT THESE SUGGESTED HOUSING MAXIMUMS! ONLY **consider** adopting the following numbers if these figures are consistent with local rent values. If not, a market survey should be conducted, and the figures altered accordingly. The results of any such survey must be presented to DHHS prior to adoption. **Or**, no housing maximums should be adopted and eligibility should be analyzed in terms of the Overall Maximum—Appendix A. *(See Instruction Memo for further guidance.)*

2024-2025 GA MAXIMUMS SUMMARY SHEET

Note: The overall maximums found in *Appendices A, B, C, D, E, and F* are effective from **October 1, 2024 to September 30, 2025.**

APPENDIX A - OVERALL MAXIMUMS

County	Persons in Household					
	1	2	3	4	5	6

NOTE: For each additional person add $75 per month.

(The applicable figures from Appendix A, *once adopted,* should be inserted here.)

APPENDIX B - FOOD MAXIMUMS

Number in Household	Weekly Maximum	Monthly Maximum
1	$ 67.91	$ 292.00
2	124.65	536.00
3	178.60	768.00
4	226.74	975.00
5	269.30	1,158.00
6	323.26	1,390.00
7	357.21	1,536.00
8	408.37	1,756.00

NOTE: For each additional person add $220 per month.

APPENDIX C - HOUSING MAXIMUMS

	Unheated		Heated	
Number of Bedrooms	Weekly	Monthly	Weekly	Monthly
0				
1				
2				
3				
4				

(The applicable figures from Appendix C, *once adopted*, should be inserted here.)

FOR MUNICIPAL USE ONLY

MMA
08/24

APPENDIX D - UTILITIES

ELECTRIC

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is ***not automatically*** entitled to the "maximums" established—applicants must demonstrate need.

1) Electricity Maximums for Households *Without Electric Hot Water*: The maximum amounts allowed for utilities, for lights, cooking and other electric uses ***excluding*** electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$ 85.50
2	$22.52	$ 96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households *With Electrically Heated Hot Water*: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses ***excluding*** heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

NOTE: For electrically heated households, the maximum amount allowed for electrical utilities per month shall be the sum of the appropriate maximum amount under this subsection and the appropriate maximum for heating fuel as provided below.

APPENDIX E - HEATING FUEL

Month	Gallons	Month	Gallons
September	50	January	225
October	100	February	225
November	200	March	125
December	200	April	125
		May	50

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

APPENDIX F - PERSONAL CARE & HOUSEHOLD SUPPLIES

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00
NOTE: For each additional person add $1.25 per week or $5.00 per month.		

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00
3	$23.30	$100.00
4	$27.90	$120.00

Appendix G
Effective: 10/01/24-09/30/25

2024-2025 Mileage Rate

This municipality adopts the State of Maine travel expense reimbursement rate as set by the Office of the State Comptroller. The current rate for approved employment and necessary medical travel etc. is 50 cents (50¢) per mile.

Please refer to the Office of the State Controller for changes to this rate at 626-8420 or visit http://www.state.me.us/osc/

Prepared by MMA
8/2024

Funeral Maximums

Burial Maximums

The maximum amount of general assistance granted for the purpose of burial is **$1,620.** The municipality's obligation to provide funds for burial purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable burial expenses are limited to:

- removal of the body from a local residence or institution
- a secured death certificate or obituary
- embalming
- a minimum casket
- a reasonable cost for necessary transportation
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator, where there is an actual cost, for:

- the wholesale cost of a cement liner if the cemetery by-laws require one;
- the opening and closing of the grave site; and
- a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery or in a cemetery under municipal control, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

Cremation Maximums

The maximum amount of assistance granted for a cremation shall be **$1,125.**

The municipality's obligation to provide funds for cremation purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable cremation expenses are limited to:

- removal and transportation of the body from a local residence or institution
- professional fees
- crematorium fees
- a secured death certificate or obituary
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator where there is an actual cost, for:

- a cremation lot in the least expensive section of the cemetery
- a reasonable cost for a burial urn not to exceed $55
- transportation costs borne by the funeral director at a reasonable rate per mile for transporting the remains to and from the cremation facility.

2024-2025 GA Housing Maximums

Recovery Residences

Rev. 09/09/24

2024 General Assistance Maximums Reference Sheet-Lewiston/Auburn MSA 2025

Oct 1, 2024 to Sept 30, 2025

OVERALL MAXIMUMS (A)

Persons in Household

1	2	3	4	5
$881	$965	$1,232	$1,608	$1,947

Household of 6 = $2,022

* Add $75 for each additional person

FOOD MAXIMUMS (B)

Persons	Weekly	Monthly
1	$67.91	$292
2	$124.65	$536
3	$178.60	$768
4	$226.74	$975
5	$269.30	$1,158
6	$323.26	$1,390
7	$357.21	$1,536
8	$408.37	$1,756

Add $220 per month for each + person

HEATING FUEL (E)

Month	Gallons	Month	Gallons
January	225	June – Aug	0
February	225	September	50
March	125	October	100
April	125	November	200
May	50	December	200

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

HOUSING MAXIMUMS (C)

	UNHEATED		Heated	
BEDROOM	Weekly	Monthly	Weekly	Monthly
0	$174	$749	$201	$864
1	$185	$795	$220	$946
2	$235	$1,012	$281	$1,209
3	$312	$1,341	$368	$1,581
4	$377	$1,622	$445	$1,915
Recovery Residence			$165	$709.50

PERSONAL CARE & HOUSEHOLD SUPPLIES (F)

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00

NOTE: For each additional person add $1.25 per week or $5.00 per month.

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00
3	$23.30	$100.00
4	$27.90	$120.00

MILEAGE RATE (G)

50 cents ($0.50) per mile

FUNERAL MAXIMUMS (H)

Burial: $1,620+; Cremation: $1,125+

ELECTRIC (D)

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is not automatically entitled to the "maximums" established applicants must demonstrate need.

1) Electricity Maximums for Households Without Electric Hot Water: The maximum amounts allowed for utilities, for lights, cooking and other electric uses excluding electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$85.50
2	$22.52	$96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households with Electrically Heated Hot Water: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses excluding heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

1-800-442-6003

(Revised 09/09/24)

APPENDIX I – Definition of Misconduct (26 M.R.S. § 1043 (23))

23. Misconduct. "Misconduct" means a culpable breach of the employee's duties or obligations to the employer or a pattern of irresponsible behavior, which in either case manifests a disregard for a material interest of the employer. This definition relates only to an employee's entitlement to benefits and does not preclude an employer from discharging an employee for actions that are not included in this definition of misconduct. A finding that an employee has not engaged in misconduct for purposes of this chapter may not be used as evidence that the employer lacked justification for discharge.

A. The following acts or omissions are presumed to manifest a disregard for a material interest of the employer. If a culpable breach or a pattern of irresponsible behavior is shown, these actions or omissions constitute "misconduct" as defined in this subsection. This does not preclude other acts or omissions from being considered to manifest a disregard for a material interest of the employer. The acts or omissions included in the presumption are the following:

(1) Refusal, knowing failure or recurring neglect to perform reasonable and proper duties assigned by the employer;

(2) Unreasonable violation of rules that are reasonably imposed and communicated and equitably enforced;

(3) Unreasonable violation of rules that should be inferred to exist from common knowledge or from the nature of the employment;

(4) Failure to exercise due care for punctuality or attendance after warnings;

(5) Providing false information on material issues relating to the employee's eligibility to do the work or false information or dishonesty that may substantially jeopardize a material interest of the employer;

(6) Intoxication while on duty or when reporting to work, or unauthorized use of alcohol or marijuana while on duty except for the use of marijuana permitted under Title 22, chapter 558-C;

(7) Using illegal drugs or being under the influence of such drugs while on duty or when reporting to work;

(8) Unauthorized sleeping while on duty;

(9) Insubordination or refusal without good cause to follow reasonable and proper instructions from the employer;

(10) Abusive or assaultive behavior while on duty, except as necessary for self-defense;

(11) Destruction or theft of things valuable to the employer or another employee;

(12) Substantially endangering the safety of the employee, coworkers, customers or members of the public while on duty;

(13) Conviction of a crime in connection with the employment or a crime that reflects adversely on the employee's qualifications to perform the work; or

(14) Absence for more than 2 work days due to incarceration for conviction of a crime.

[PL2019, c. 125, §1 (AMD).]

B. "Misconduct" may not be found solely on:

(1) An isolated error in judgment or a failure to perform satisfactorily when the employee has made a good faith effort to perform the duties assigned;

(2) Absenteeism caused by illness of the employee or an immediate family member if the employee made reasonable efforts to give notice of the absence and to comply with the employer's notification rules and policies; or

(3) Actions taken by the employee that were necessary to protect the employee or an immediate family member from domestic violence if the employee made all reasonable efforts to preserve the employment.

[PL 2019, c. 125, §1 (AMD).]

Ordinance 19-10032024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Sec. 24-23 of the City's Code of Ordinances as follows:

Sec. 24-23. - Annual adjustment of maximum benefits.

(a) The City of Auburn adopts the Maine Municipal Association's General Assistance Ordinance, dated September 2024, and a copy thereof is available in the office of the city clerk.

(b~~a~~) Each year the Maine Municipal Association provides the city ~~three appendices~~ Appendices A-H providing maximum benefits applicable for the period beginning October 1 and ending September 30 as mandated by state law and based on certain federal values effective on October 1 of each year, as follows:

(1) Appendix A, a listing of overall maximum levels of general assistance relating to all Maine municipalities.

(2) Appendix B, a listing of maximum levels of assistance for food.

(3) Appendix C, a listing of maximum levels for heated and unheated housing.

(4) Appendix D, a listing of maximum levels of assistance for electricity.

(5) Appendix E, a listing of maximum levels of assistance for heating fuel.

(6) Appendix F, a listing of maximum levels of assistance for personal care & household supplies.

(7) Appendix G, adopting the State of Maine travel expense reimbursement rate.

(8) Appendix H, a listing of maximum levels of assistance for funeral expenses.

(9) Recovery Residence Maximums for the Lewiston/Auburn MSA.

IX. Executive Session

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 21, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (E) to discuss a legal matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 21, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (A) to discuss a personnel matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:

None.

V. Unfinished Business

1. ORDINANCE 18-09162024 - Zoning map amendment to convert certain parts of City Assessor's Parcel I.D.s 289-001, 277-026 and 289-002 with addresses of 369 Mount Auburn Ave, 225 Gracelawn Road, and 125 Gracelawn Pit Road from the General Business zoning district to the Multifamily Suburban zoning district. Second reading/public hearing. Passage requires majority vote. ROLL CALL VOTE.

Motion for passage by Councilor Whiting, seconded by Councilor Walker. The Mayor opened this item for public comment. There was no comment. Mayor Harmon closed the public hearing at 7:10pm. Motion passed 6-1 (Gerry opposed) on a roll call vote.

VI. New Business

1. ORDER 142-10032024 – Appointing two City Councilors to the Comprehensive Plan Committee.

Councilor Gerry nominated Councilor Whiting. Councilor Platz nominated Councilor Cowan. Councilor Milks nominated Councilor Weisner. Councilor Walker nominated Councilor Milks. Councilor Weisner nominated Councilor Gerry. Councilor Gerry declined the nomination. Mayor Harmon asked Councilors to vote in favor as nominations were read.
On a vote of 4 Councilors in favor for each nomination, Councilor Whiting and Councilor Cowan were appointed.

2. ORDER 143-10032024 – Authorizing acceptance of the 2024 Byrne Jag Grant in the amount of $17,209.00 for the Auburn Police Department. Passage requires majority vote.

Councilor Gerry moved for passage, seconded by Councilor Walker. The motion passed 6-1 (Weisner opposed).

3. ORDINANCE 19-10032024– Adopting revised MMA General Assistance Ordinance and 2024/2025 GA Maximums. First reading. Passage requires majority vote. ROLL CALL VOTE.

Councilor Gerry moved for passage, seconded by Councilor Walker. There was no comment. Motion passed 7-0 on a roll call vote.

4. ORDER 144-10032024 - Casting a vote for Councilor Leroy Walker to represent County Commission District 6 on the Androscoggin County Budget Committee. Passage requires majority vote.

Councilor Gerry moved to suspend the rules to allow this item to be added to the agenda, seconded by Councilor Milks. Motion passed 7-0.

Councilor Whiting moved for passage of ORDER 144-10032024, seconded by Councilor Weisner. Motion passed 7-0.

Below are the items which were removed from Consent Items (Councilor Milks).

3. ORDER-129-10032024* - Appointing Rex Rhoades, Ward 1, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Gerry moved for passage, seconded by Councilor Whiting.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Weisner. Councilor Platz asked for discussion on the motion. A vote to postpone without discussion was held and retracted by Mayor Harmon, as it was stated that discussion on the motion was allowed. Councilor Milks stated he wished to postpone this item to November 18, 2024 and to amend ORDER 08192024 to allow for more applicants. The motion to postpone ORDER 129-10032024 passed 4-3 (Gerry, Whiting, Cowan opposed).

4. ORDER-130-10032024* - Appointing Rebecca Swanson Conrad, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 4-3 (Gerry, Whiting, Cowan opposed).

5. ORDER-131-10032024* - Appointing John Cleveland, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Weisner. Motion passed 5-2 (Gerry, Whiting opposed).

6. ORDER-132-10032024*- Appointing Adam Lee, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

7. ORDER-133-10032024*- Appointing Denis Bergeron, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

8. ORDER-134-10032024*- Appointing Mathieu Duvall, Ward 3, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Weisner. Motion passed 5-2 (Gerry, Whiting opposed).

9. ORDER-135-10032024*- Appointing Kelly Butler, Ward 4, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

10. ORDER-136-10032024*- Appointing Bruce Rioux, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

11. ORDER-137-10032024*- Appointing Jane Costlow, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Weisner. Motion passed 5-2 (Gerry, Whiting opposed).

12. ORDER-138-10032024*- Appointing Dana Staples, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.

Councilor Milks moved to postpone this item to the 2nd meeting in November 2024 (November 18, 2024). Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

Councilor Milks moved to suspend the rules to take up an item not on the agenda. Seconded by Councilor Walker. Motion passed 5-2 (Gerry, Whiting opposed).

Councilor Milks moved to amend ORDER 106-08192024 to extend the date to accept applications to November 8, 2024. Seconded by Councilor Weisner. Motion passed 5-2 (Gerry Whiting opposed).

VII. Reports

a. Mayor's Report – Mayor Harmon commented on the ice rink; Lost Valley's Oktoberfest event; MMA meeting, and Manufacturing Month.

b. City Councilors' Reports – Councilor Whiting commented on the expanding trails and lift at Lost Valley. Councilor Cowan spoke on great presentation regarding EMS. Councilor Weisner recognzied Auburn Water District for swift repairs to water main breaks these past few weeks. Councilor Walker informed the public of the Halloween event at Anniversary Park on 10/27, and the work of the Age Friendly Community Committee. Councilor Platz gave two School-related updates, the first regarding the hiring of a new events coordinator for the School, and the second regarding a student hit by Fairview School and how the School and City are working to improve safety.

c. Student Representative Report – Representative Mubarik Abdulahi recognized an upcoming event at the Riverwalk at 5:30pm.

d. City Manager Report – Mr. D'Auteuil shared news that the fire which occurred at Mt. Auburn Ave and destroyed a housing project will be rebuilt. He shared an update on 46 Fair St, and noted that County Budget meetings have started.

VIII. Open Session

Stephen Beale, Durham
David Bilodeau, Auburn
Anthony Cararro, Auburn
Reed Lizotte, Leavitt St

IX. Executive Session

X. Adjournment

Councilor Walker moved to adjourn, seconded by Councilor Milks. Motion passed 7-0. Council adjourned at 8:43pm.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

PROCLAMATION | **EXTRA MILE DAY**

WHEREAS, Auburn, Maine is a community which acknowledges that a special vibrancy exists within the entire community when its individual citizens collectively "go the extra mile" in personal effort, volunteerism, and service; and

WHEREAS, Auburn is a community which encourages its citizens to maximize their personal contribution to the community by giving of themselves wholeheartedly and with total effort, commitment, and conviction to their individual ambitions, family, friends, and community; and

WHEREAS, Auburn is a community which chooses to shine a light on and celebrate individuals and organizations within its community who "go the extra mile" in order to make a difference and lift up fellow members of their community; and

WHEREAS, the City of Auburn acknowledges the mission of Extra Mile America to create 550 Extra Mile cities in America and is proud to support "Extra Mile Day" on November 1, 2024.

NOW THEREFORE, I Jeffrey D. Harmon, Mayor of the City of Auburn, do hereby proclaim November 1, 2024, to be Extra Mile Day. I urge each individual in our community to take time on this day to not only "go the extra mile" in his or her own life, but to also acknowledge all those who are inspirational in their efforts and commitment to make their organizations, families, community, country, or world a better place.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Auburn, Maine to be fixed this 21 day of October, 2024.

Mayor Jeffrey D. Harmon

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 21, 2024 **Ordinance: 19-10032024**

Author: Jamie Longley, General Assistance Manager

Subject: Amending Chapter 24, "Human Relations and Services", Article II, Sec. 24-23 of the City's General Assistance Program regarding annual adjustment of maximum benefits. SECOND READING/PUBLIC HEARING.

Information: Maine Municipal Association has updated their General Assistance Ordinance and updates have been made to Appendix A (overall maximums), Appendix B (food maximums), Appendix C (housing maximums) and Appendix H (funeral maximums) of the General Assistance Ordinance. There is also a new Recovery Residence Housing Maximums guide.

This amendment adopts these changes for the 2024/2025 year. The language in the ordinance has been amended to specify all of the adopted GA Maximums (Appendices A-H) and Recovery Residence maximums, and specifies the City's adoption of the MMA General Assistance Ordinance (dated September 2024). A copy of these records in their entirety are kept on file in the office of the city clerk for public information.

As an ordinance amendment, first reading passed 7-0 on October 7, 2024 and second reading and public hearing will be scheduled for October 21, 2024.

City Budgetary Impacts: The overall maximums (Appendix A) are an average increase of 3.96% per person/household per month. The food maximums (Appendix B) are an average increase of 0.26% per individual per month. The housing maximums (Appendix C) are an average increase of 3.86% per unit per month. The funeral maximums are an average increase of 9.79% per case. Recovery houses have increased 4.02% per month. This is estimated to be an annual increase of $37,500. *There are no changes in appendices D-G.*

Staff Recommended Action: Approval of changes to the General Assistance Ordinance, Appendices A-C, H, and Recovery Residences as required by State statute and ordinance. Recommend passage.

Previous Meetings and History: This is an annual approval needed by council for changes made to the appendices.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

ARTICLE I – Statement of Policy

The Municipality of _____ administers a general assistance ("GA") program available to all persons who are eligible pursuant to the standards provided in this ordinance, state law (22 M.R.S. § § 4301-4326), and Department of Health and Human Services (DHHS) regulations.

The program will make every effort to recognize the dignity of applicants while helping eligible persons achieve self-maintenance by promoting the work incentive. When possible, the program will connect recipients with rehabilitative, preventive, and protective services to alleviate non-financial needs. The GA program will not place unreasonable restrictions on the personal rights of applicants or recipients, nor will it discriminate based on sex, age, race, nationality, religion, sexual orientation, or disability. The municipality is committed to including qualified individuals with disabilities in municipal services, programs, and activities. As a result, the municipality will promote a GA program that when viewed in its entirety is readily accessible to and usable by individuals with disabilities. GA applicants with physical or mental disabilities that require a reasonable accommodation in order to access and/or utilize the GA program are encouraged to contact the municipality to make an accommodation request.

The program provides trauma-informed services and culturally and linguistically appropriate services to all applicants. "Trauma-informed services" means services that acknowledge and are informed by the widespread effects of trauma and recognize the potential paths for recovery; recognize the unique signs and symptoms of trauma in applicants, clients, families and staff; respond by fully integrating knowledge about trauma into policies, procedures and practices; and seek to actively avoid retraumatization. "Culturally and linguistically appropriate services" means services that are designed to serve culturally diverse populations in a person's preferred language; function effectively within the context of cultural beliefs, behaviors and needs presented by a person who applies to or is a recipient of assistance from the program and the person's community; contribute to a work environment that supports diversity; promote community engagement; build trust and relationships with applicants and recipients; actively support and enable

recipients to make informed choices; and value and facilitate the exchange of information with recipients. (22 M.R.S. § 4305(7)).

The Administrator will act promptly on all applications for assistance and requests for fair hearings and will provide GA applicants with information regarding their rights and responsibilities under the program. Within 24 hours after receipt of an application, the Administrator will provide the applicant a written decision, whether or not assistance is granted, that will state the specific reasons for the decision. The Administrator will also provide the applicant written notice that the applicant may appeal to the municipal fair hearing authority if dissatisfied with the decision. When an applicant is determined to be eligible, assistance appropriate to the need will be furnished within 24 hours after the completed application is submitted except when the Administrator issues non-emergency assistance conditionally on the successful completion of a workfare assignment *(see Ordinance § 5.6)*.

The Administrator will maintain complete and accurate records pertaining to each applicant and recipient. These records are confidential as a matter of law. (22 M.R.S. § 4306).

The Administrator will post notice stating that any person may apply for general assistance during the municipality's regular business hours. The Administrator, or other designated person/entity, will be available to take applications in the event of an emergency at all other times. A copy of this ordinance and Maine General Assistance law will be available to any member of the public upon request. Notice to this effect will be posted.

The Administrator will complete training including, but not limited to, the purpose of the general assistance program, the delivery of trauma-informed services and culturally linguistically appropriate services as defined above, and the laws governing the general assistance program's administration, procedures, and requirements no later than 120 days after appointment or election. (22 M.R.S. 4302-A).

ARTICLE II – Definitions

Section 2.1—Common Meaning of Words

Unless otherwise apparent or defined, all words in this ordinance will have their common meaning.

Section 2.2—Special Definitions

Administrator. See "General Assistance Administrator," below.

Applicant. A person who has submitted an application for GA directly or through an authorized representative, or who has, in an emergency, requested assistance without first completing an application. All persons on whose behalf an authorized application has been submitted or on whose behalf benefits have been granted shall be considered applicants.

Application Form. A standardized form used by the Administrator to allow a person to apply for GA benefits. The application form also confirms that a person has made an application. The application form is not complete unless signed by the applicant.

Basic Necessities. Food, clothing, shelter, fuel, electricity, potable water, non-elective essential medical services as prescribed by a physician, nonprescription drugs, basic telephone service where it is necessary for medical or work-related reasons, property taxes when a tax lien placed on the property threatens the loss of the applicant's place of residence, and any other commodity or service determined essential by the municipality.

"Basic necessities" do not include:

- Phone bills
- Cable or satellite dish television
- Mail orders
- Vehicle payments
- Credit card debt**
- Furniture
- Loan re-payments**
- Cigarettes
- Alcohol
- Pet care costs

- Vacation costs
- Legal fees
- Late fees
- Key deposits
- Security deposits for rental property (except when no other permanent lodging is available unless a security deposit is paid, and a waiver, deferral or installment arrangement cannot be made between landlord and tenant to avoid need for immediate payment of the security deposit in full). (22 M.R.S. § 4301(1)).

** Repayments of loans or credit will be treated as having been spent on basic necessities when the applicant can provide verification of this fact.

Case Record. An official file containing application forms; correspondence; narrative records and all other communications pertaining to an applicant or recipient; written decisions regarding eligibility including reasons for those decisions and types and amounts of assistance provided; records concerning an applicant's request for fair hearing; and fair hearing decisions.

Categorical Assistance. All state and federal income maintenance programs.

Claimant. A person who has requested a fair hearing.

Deficit. An applicant's deficit is the appropriate overall maximum level of assistance for the household (see Ordinance § 6.8) less the household income (calculated pursuant to Ordinance § 6.7), provided that this calculation yields a positive number. If the household income is greater than the appropriate overall maximum level of assistance, the household has no deficit.

Disabled Person. A person who is presently unable to work or maintain a home due to a physical or mental disability that is verified by a physician or qualified mental health provider.

Dwelling Unit. A building or part thereof used for separate living quarters for one or more persons living as a single housekeeping unit. (22 M.R.S. § 4301(2)).

Earned Income. Wages or Income-in-kind derived by providing goods or services to an individual, company, organization, or other entity.

Eligible Person. A person who is qualified to receive GA benefits from the municipality according to the eligibility standards in this Ordinance, Maine law (22 M.R.S. ch. 1161), and DHHS regulations (10-144 C.M.R. ch. 323). If otherwise qualified, "Eligible Person" includes U.S. citizens; non-U.S. citizens who are lawfully present in the United States as described in 8 U.S.C. § 1621(a)(1)-(3); and non-U.S. citizens who are pursuing a lawful process to apply for immigration relief. Assistance for non-citizens pursuing a lawful process for immigration relief shall not exceed 24 months beginning with assistance provided after July 1, 2015. "Eligible Person" does not include a fugitive from justice as defined in 15 M.R.S. § 201(4). (See "Pursuing a Lawful Process," below)

Emergency. Any life-threatening situation, or a situation beyond the control of the individual which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of a person. At the municipality's option, it includes a situation which is imminent and which may result in undue hardship or unnecessary cost to the individual or municipality if not resolved immediately. (22 M.R.S. § § 4301(4), 4308(2), 4310).

General Assistance ("GA") Program. A service administered by a municipality for the immediate aid of persons who are unable to provide the basic necessities essential to maintain themselves or their families. A GA program provides a specific amount and type of aid for defined needs during a limited period of time and is not intended to be a continuing "grant-in-aid" or "categorical" welfare program. This definition shall not lessen the municipality's responsibility to provide GA benefits to a person each time that the person is in need and is found to be eligible to receive GA. (22 M.R.S. § 4301(5)).

General Assistance ("GA") Benefits. Benefits provided to a person through the GA program.

General Assistance ("GA") Administrator. A municipal official designated to receive applications, make decisions concerning an applicant's right to receive assistance, and prepare records and communications concerning assistance. They may be an elected overseer or an authorized agent such as a town manager, welfare director, or caseworker. (22 M.R.S. § 4301(12)).

Homelessness. "Homelessness" means a situation in which a person or household is: (a) living in a place that is not fit for human habitation; (b) living in an emergency shelter; (c) living in temporary housing, including but not limited to a hotel, motel, campground, unlicensed campsite or rehabilitation facility; (d) exiting a hospital or institution licensed under 22 M.R.S. ch. 405 or a correctional facility where the person or household resided for up to 90 days if the person or household was in an emergency shelter or a place not fit for human habitation before entering the hospital, institution or correctional facility; (e) losing the person's or household's primary nighttime residence and lacking the resources or support networks to remain in that residence; or (f) fleeing or attempting to flee violence and has no other residence.

Household. "Household" means an individual or a group of individuals who share a dwelling unit. When an applicant shares a dwelling unit with one or more individuals, even when a landlord-tenant relationship may exist between individuals residing in the dwelling unit, eligible applicants may receive assistance for no more than their pro rata share of the actual costs of the shared basic needs of that household according to the maximum levels of assistance established in the municipal ordinance. The pro rata share is calculated by dividing the maximum level of assistance available to the entire household by the total number of household members. The income of household members not legally liable shall be considered as available to the applicant only when there is a pooling of income. (22 M.R.S. § 4301(6)). Residents of a Recovery Residence are not considered a shared household.

Income. "Income" means any form of earned or unearned income in cash or in kind received by the household including:

- Net remuneration for services performed;
- Cash received on either secured or unsecured credit;

- Payments received as an annuity, retirement or disability benefits;
- Veterans' pensions and/or benefits;
- Retirement accounts or benefits;
- Workers' compensation payments;
- Unemployment benefits;
- Federal and/or state tax returns;
- Income from pension or trust funds;
- Student loans;
- Benefits under any state or federal categorical assistance program such as TANF, Supplemental Security Income, Social Security and any other payments from governmental sources (unless specifically prohibited by any law or regulation);
- Court ordered support payments (e.g., child support);
- Household income from any other source, including relatives or unrelated household members; and
- Rental income.

The following items will not be considered as income or assets that must be liquidated for the purposes of deriving income:

- Real or personal income-producing property, tools of trade, governmental entitlement specifically treated as exempt assets by state or federal law;
- Actual work-related expenses, whether itemized or by standard deduction, such as taxes, retirement fund contributions, union dues, transportation costs to and from work, special equipment costs and childcare expenses; or
- Earned income of children below the age of 18 years who are full-time students and who are not working full-time.

In determining need, the period of time used as a basis for the calculation shall be a 30-day period commencing on the date of the application. This prospective calculation shall not disqualify an applicant who has exhausted income to purchase basic necessities, provided that the income does not exceed the income standards established by the municipality. (22 M.R.S. § 4301(7)).

- Benefits received pursuant to public benefit programs that are specifically exempt from being counted as income for purposes of GA. These programs include:

- Supplemental Nutrition Assistance Program (SNAP) (7 U.S.C. § 2017(b))
- Li-Heap (42 U.S.C. § 8624)
- Family Development Accounts (22 M.R.S. § 3762)
- AmeriCorp VISTA program benefits (42 U.S.C. § 5044 (f))
- Property tax rebates issued under the Maine Property Tax Fairness Credit program, but only if the money is spent on basic necessities (22 M.R.S. § 4301(7))
- ASPIRE Support Service Payments (10-144 CMR Chapter 323)

Initial Applicant. A person who has not previously applied for GA assistance in this or any other municipality.

Just Cause. A valid, verifiable reason that hinders an individual from complying with one or more conditions of eligibility or from attending a scheduled fair hearing. (22 M.R.S. § § 4301(8), 4316-A(5)).

Landlord. A person who owns a property and allows another person to use that property in return for payment. (22 M.R.S. § 4301(8-B)).

Lump Sum Payment. A one-time or typically nonrecurring sum of money issued to an applicant or recipient. Lump sum payment includes, but is not limited to, retroactive or settlement portions of social security benefits, workers' compensation payments, unemployment benefits, disability income, veterans' benefits, severance pay benefits, or money received from inheritances, lottery winnings, personal injury awards, property damage claims or divorce settlements. A lump sum payment includes only the amount of money available to the applicant after required deductions have been taken from the gross lump sum payment. A lump sum payment does not include conversion of a non-liquid resource to a liquid resource if the liquid resource has been used or is intended to be used to replace the converted resource or for other necessary expenses. (22 M.R.S. § 4301 (8-A)).

Material Fact. A material fact is a fact that necessarily has some bearing on the determination of an applicant's GA eligibility, and which would, if disclosed to the Administrator, have some determinable effect on the calculation of eligibility or the issuance of a grant of assistance.

Maximum Levels of Assistance. The amount of financial assistance for a commodity or service as established in Ordinance § 6.8 or the actual cost of any such basic necessity, whichever is less.

Misconduct. For purposes of the GA work requirement (22 M.R.S. § 4316-A), misconduct shall have the same meaning as "misconduct" in 26 M.R.S. § 1043(23). *(See Ordinance Appendix I).* Generally, misconduct occurs when an employee violates their obligations to the employer. Employees who engage in a pattern of irresponsible behavior to the detriment of the employer's interest may also be found guilty of misconduct.

Misspent Income. Misspent income includes income-in-kind received, or paid for, by a GA repeat applicant from sources, including friends or relatives, for the payment of bills that are considered unnecessary costs, such as cable bills, credit card debt, court fines and related court costs, payments to reimburse a municipality for false representation, tobacco and alcohol products, and similar items. Misspent income will be considered as available to the applicant when determining use of income for the previous 30-day period.

Municipality. Any city, town or plantation administering a GA program.

Municipality of Responsibility. The municipality which is financially liable for the support of an eligible person at the time of application. (22 M.R.S. § § 4301(9), 4307).

Need. The condition whereby a person's income, money, property, credit, assets, or other resources available to provide basic necessities for the individual and the individual's family are less than the maximum levels of assistance. (22 M.R.S. § § 4301(10), 4308).

Net General Assistance Costs. Those direct costs incurred by a municipality in providing assistance to eligible persons according to standards established by the municipal officers. These do not include the administrative expenses of the GA program. (22 M.R.S. § § 4301(11), 4311).

Operator. The lawful owner of a recovery residence or an individual or company designated by the lawful owner to have primary responsibility for the day-to-day operations of the recovery residence and for acquiring and maintaining certification pursuant to Title 5, section 20005, subsection 22 of the recovery residence in order to receive housing assistance payments through the general assistance program. (22 M.R.S. § 4301(11-A)).

Period of Eligibility. The time for which a person has been granted assistance. The period of eligibility may vary depending on the type of assistance provided; however, in no event shall this period extend beyond one month. (22 M.R.S. § 4309(1)).

Pooling of Income. "Pooling of income" means the financial relationship among household members who are not legally liable for mutual support in which there occurs any commingling of funds or sharing of income or expenses. This ordinance establishes a rebuttable presumption that persons sharing the same dwelling unit are pooling their income, except that applicants that who request assistance while residing in a Recovery Residence are not considered to be commingling funds. Applicants who request that the determination of eligibility be calculated as though one or more household members are not pooling their income have the burden of rebutting the presumed pooling of income.

Potential Resources. Sources of financial assistance, including programs, services, non-liquid assets or trusts which typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released.

Pursuing a Lawful Process to Apply for Immigration Relief. Taking reasonable, good faith steps to apply for immigration relief within twelve months of arrival to the United States, with U.S. Citizenship and Immigration Services or before an immigration judge or federal court. (See DHHS regulation, 10-144 C.M.R. ch. 323, for additional guidance).

Real Estate. Any land, buildings, homes, mobile homes, and any other things affixed to the land. (22 M.R.S. § 4301(13)).

Recipient. A person who has applied for and is currently receiving GA.

Recovery Residence. “Recovery residence" means a shared living residence for persons recovering from substance use disorder that is focused on peer support, provides to its residents an environment free of alcohol and illegal drugs and assists its residents by connecting the residents to support services or resources in the community that are available to persons recovering from substance use disorder. 5 M.R.S. § 20003(19-D).

Registered Domestic Partner. An individual registered as the domestic partner of the applicant pursuant to 22 M.R.S. § 2710.

Rehabilitation Facility. An inpatient facility that is operated for the primary purpose of assisting in the rehabilitation of disabled persons through an integrated program of medical services and other services that are provided under competent professional supervision.

Repeat Applicants. All applicants for GA benefits that are not initial applicants are repeat applicants. For purposes of this ordinance “repeat” and “subsequent” shall have the same meaning.

Resident. A person who is physically present in a municipality with the intention of remaining in that municipality in order to maintain or establish a home, and who has no other residence. A person who applies for assistance in a municipality who is not a resident of that municipality, or any other municipality is the responsibility of the municipality where the person first applies. That municipality must take an application and grant assistance to the applicant if they are eligible, until they establish a new residence in another municipality. (22 M.R.S. § 4307).

Resources. Resources include any program, service, or other sources of support which are an alternative to or supplement for GA. There are two kinds of resources: “available” and “potential”. Potential resources are programs, services, non-liquid assets, or trusts that typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released.

Potential resources include, but are not limited to, state or federal assistance programs, employment benefits, governmental or private pension programs, available trust funds, support from legally liable relatives, child support payments, and jointly held resources where the applicant or recipient share may be available to the individual. (22 M.R.S. § 4317). Potential resources include the TANF (previously known as AFDC) program, Food Stamps, fuel assistance (HEAP), subsidized housing, and similar programs.

Available resources include resources which are immediately available to the applicant or which can be conveniently secured by the applicant without delay, such as cash on hand or in bank accounts, assets for which there is an immediate and available market, or support from relatives which is being made available at the time of application and for which the applicant does not have to take any unreasonable steps to secure (e.g., relocation beyond the immediate region). At the discretion of the Administrator, a minimum balance required by a financial institution in order to obtain free checking or in order to maintain the account shall not be considered an available resource.

The Administrator reserves the right to inform GA clients of services, commodities or facilities made available by private organizations or charities; however, eligibility for GA benefits shall not be based or conditioned on the use of a private charitable resource(s).

30-Day Need. An applicant's 30-day need is the sum of the household's prospective 30-day costs, from the date of application, for the various basic necessities. For the purpose of this calculation, the 30-day cost for any basic need shall be the household's actual 30-day cost for the basic necessity or the maximum 30-day cost for the basic necessity as established by this ordinance, whichever is less.

Unearned Income. Unearned income is income acquired from investments and other sources unrelated to employment. Unearned income also includes unemployment compensation, taxable social security benefits, pensions, annuities, and distributions of unearned income from a trust or any other income not meeting the definition of earned income.

Unforeseen Repeat Applicants. A repeat applicant who has not applied for assistance within the last twelve months and who has been regularly employed or receiving support from a public benefit program or private source and who has unexpectedly become unemployed through no fault of their own or whose benefits (e.g., through an available resource) have ceased through no fault of their own.

Unmet Need. An applicant's unmet need is the household's 30-day need (established by Ordinance § 6.6) less the household income (calculated pursuant to Ordinance § 6.7), provided such a calculation yields a positive number. If the household income is greater than the household's 30-day need, the household does not have an unmet need.

Work Requirements. Work requirements are obligations the Administrator places on applicants as directed and/or authorized by 22 M.R.S. § 4316-A to the extent such obligations (1) ensure a continuing potential eligibility for GA when complied with, (2) result in ineligibility when violated, and (3) are not merely optional, discretionary, or advisory. Work requirements include registering for work, looking for work in good faith, accepting all suitable job offers, maintaining employment, performing workfare, and participating in training, educational, or rehabilitation programs that will assist the participant in securing employment.

ARTICLE III – Administrative Rules and Regulations

Section 3.1—Confidentiality of Information

Case records and all other information relating to a GA applicant or recipient are confidential and will not be disclosed to the general public. (22 M.R.S. § 4306).

Release of Information. Applicants, recipients, and their legal representatives have the right to review their case records. No record will be released to a third party unless the Administrator receives a signed consent form in which the applicant expressly authorizes the release of their records to the specified parties. Whenever the Administrator releases any information, they will make a notation in the applicant's file stating to whom the record was released and the date. The Administrator may charge a reasonable fee for reproduction of records.

Information from Other Sources; Penalty. Information concerning an applicant or recipient furnished to the municipality by DHHS or any other agency or institution pursuant to 22 M.R.S. § 4314, is confidential. The Administrator will also comply with laws requiring confidentiality of vital statistic records such as birth, marriage, and death records. (22 M.R.S. § 2706).

Any representative of a financial institution or any employer of a GA applicant who, upon receipt of a written release signed by the depositor/employee and a written request from the Administrator, refuses to provide necessary information to the Administrator in order to verify an applicant's eligibility must state in writing the reason for the refusal. National banks are also obligated to disclose deposit information to the Administrator upon receipt of a written request and release signed by the depositor. Additionally, when a municipality or its agents are acting in accordance with section 4313(2) to verify eligibility for funeral or cremation benefits, an officer of a financial institution must disclose the amount deposited upon receipt of a written request from the municipality or its agents and a notarized affidavit signed by the overseer of the municipality or its agents stating that the named depositor is deceased. Any such person who refuses to provide information, without just cause, may be subject to a civil penalty of not less than $25 nor more than $100. Any person, including the applicant, who knowingly and willfully makes a false representation of

a material fact to the Administrator commits a Class E crime. (22 M.R.S. § § 4314, 4315).

Misuse of Information. Misuse of any information relating to an applicant or recipient is a punishable offense. (22 M.R.S. § 42(2)).

Section 3.2—Maintenance of Records

The Administrator will maintain complete and accurate program records. (22 M.R.S. § 4306). These records are necessary to: (a) document and account for municipal program expenditures; (b) document and support decisions concerning applicants and recipients; and (c) ensure relevant information is available for any fair hearing or judicial review of the Administrator's decisions.

Case Records. The Administrator will maintain a separate case record, in paper or digital format, for each applicant or recipient. Each case record will include at least:

- household applications;
- household budget sheets;
- the types and amounts of assistance provided;
- narrative statements describing the nature of the emergency situation whenever GA is granted in amounts greater than the applicant's mathematical eligibility (i.e., deficit or unmet need, whichever is less);
- written decisions;
- requests for fair hearings and the fair hearing authority decisions;
- workfare participation records;
- repayments to the municipality;
- narrative writings documenting the need for general assistance, the results of home visits, collateral information, referrals, changes in status;
- client authorization(s) for the release of GA information and/or reason(s) for the release of confidential information;
- adjustments in aid, and suspension or termination of eligibility;
- physician's documentation;
- Supplemental Security Income (SSI) interim assistance reimbursement authorization forms; and

- vendor forms

Case records will not include information that is irrelevant to the applicant's or recipient's application or the Administrator's decisions.

Retention of Records. GA records shall be retained for at least three full years. The three-year period shall coincide with the state government's fiscal year which begins July 1 and ends on the following June 30. Records may be destroyed after three years by supervised shredding, burning or an appropriate digital deletion/destruction process. If a recipient's records contain SSI reimbursement forms, the recipient's records should be retained so that the municipality may seek reimbursement.

ARTICLE IV – Application Procedure

Section 4.1—Right to Apply

Who May Apply. Any person may apply for GA. The head of the family, any other responsible household member, or an authorized representative must apply in person, except in special emergency situations (see Ordinance § 4.9) or when the applicant resides at an emergency shelter and the municipality has made an agreement with that emergency shelter to presume shelter residents eligible for GA benefits. (22 M.R.S. § 4304(3)). In such cases, the Administrator may require a representative to present a signed statement documenting that they are authorized to apply on behalf of the named applicant. The applicant or representative must complete a written application and any other forms necessary for the Administrator to determine eligibility. (22 M.R.S. § § 4305, 4308). With notice, all members of the household receiving GA may be required to physically present themselves to the Administrator. Note that fugitives from justice are ineligible for GA benefits.

Telephone Applications. When a person has an emergency but is unable to apply in person due to illness, disability, lack of childcare, lack of transportation or other good cause, and they cannot send an authorized representative, the Administrator will accept an application by telephone. The telephone application is subject to written verification by mail and a visit to the applicant's home with their permission. (22 M.R.S. § 4304).

Written Application Upon Each Request. Each request for assistance will be administered in accordance with these guidelines, and the Administrator will make an independent determination of eligibility for GA each time a person applies. (22 M.R.S. § § 4308, 4309).

Applications Accepted; Posted Notice. Any person may apply for general assistance during the municipality's regular business hours. In an emergency, however, the Administrator or their designee will be available to accept applications for assistance whenever necessary.

The municipality will post notice stating the times and location where people may apply for assistance and contact information for the Administrator available to take

emergency applications at all other times. In addition, the posted notice shall state that the municipality must issue a written decision on all applications within 24-hours and will include the DHHS toll-free telephone number for reporting alleged violations or complaints. (22 M.R.S. § 4304).

Section 4.2—Application Interview

Except when it is impractical, the Administrator will interview each applicant in person before making a decision. Interviews will be conducted in private, although the applicant may be accompanied by a legal representative, friend, or family member.

Section 4.3—Contents of the Application

An application must contain the following information:

a) the applicant's name, address, date of birth, SSN or appropriate United States Customs and Immigration Services (USCIS) documentation, and phone number;
b) the names, date(s) of birth, and SSN(s) or appropriate USCIS documentation of other household members for whom the applicant seeks assistance;
c) the total number of individuals living with the applicant;
d) employment and employability information;
e) a listing of all household income, resources, assets, and property;
f) the applicant's household expenses;
g) the types of assistance requested;
h) a statement of the penalty for false representation;
i) the applicant's permission for the Administrator to verify information;
j) the signature of applicant and date.

If an initial applicant is unable to provide identification records (e.g., SSN card/number) because the record may have been lost, stolen or misplaced, the Administrator may allow the initial applicant a reasonable amount of time (e.g., five working days), to obtain copies of identification records. Provided the initial applicant makes a good faith effort to obtain the item/record sought, GA benefits necessary to cure an immediate and/or emergency need shall not be withheld. In such cases the Administrator may elect to provide a prorated amount of GA (e.g., five days' worth), while the applicant attempts to obtain the required information.

Section 4.4— GA Administrator's Responsibilities at the Time of Application

The Administrator will inform all applicants of: (1) their rights and responsibilities; (2) general program requirements for applying for and receiving GA, and (3) application requirements, eligibility guidelines, applicant rights, and applicant reimbursement obligations.

Application Requirements. The Administrator will help applicants complete application forms and inform applicants of any other information or documents necessary to evaluate the applicant's eligibility. The Administrator will fully explain the purpose of any forms consenting to release of the applicant's information and any benefit reimbursement agreements before the Administrator requests the applicant's signature or written authorization.

Eligibility Requirements. The Administrator will inform the applicant, either orally or in writing, of the eligibility requirements of the program, including:

- the income standard of need;
- the applicant's ongoing use-of-income, work-related, and resource-related responsibilities, as described in the section immediately below;
- the reduction in assistance that results from spending household income on non-basic necessities;
- immigration status (see definition of "Eligible Person"); and
- the disqualification penalties associated with committing fraud, failing to perform work-related assignments without just cause, or failing to make a good faith effort to secure potential resources when the requirement to attempt to obtain those resources has been explained to the applicant in writing.

Applicant Rights. The Administrator will inform all applicants of their right to:

- review the municipal GA ordinance and Maine GA statute and regulations;
- apply for assistance;
- receive a written decision concerning eligibility within 24-hours after application;
- confidentiality of the application and other records;

- contact the DHHS with complaints;
- challenge the Administrator's decision by requesting a fair hearing.

Reimbursement/Recovery. The Administrator will inform the applicant/recipient that they must reimburse the municipality the amount of GA benefits they have been granted if they subsequently have the ability to pay. The municipality may also, as appropriate, contact and inform the applicant/recipient's legal representative of the recipient's obligation to repay the municipality.

The municipality may also recover the amount of assistance granted to a recipient during the previous 12 months from any relative legally liable for the applicant's support, such as a spouse, or the parents of persons under the age of 25. (*See Article VIII, "Recovery of Expenses*"). (22 M.R.S. § § 4318, 4319). Whenever applicable, the Administrator will explain the liens a municipality may place against a recipient's real or personal property, such as the mortgage or capital improvement lien, the Workers' Compensation lump sum payment lien, or the SSI "Interim Assistance Agreement" lien, described in Article VIII, "Recovery of Expenses."

Section 4.5—Responsibilities of the Applicant at Time of Application

The applicant is responsible to provide accurate, complete, and current household information and verifiable documentation at the time of each application concerning:

- Income
- Resources
- Assets
- Employment
- Use of income
- Names and addresses of any relatives legally liable for the applicant's support
- Any change in this information from a previous application that would affect household eligibility. (22 M.R.S. § 4309).

In addition, the applicant must accurately report and provide verifiable documentation that shows the applicant:

a) has remained employed, if previously employed, and has not quit work without just cause or been discharged from employment for misconduct;

b) has been seeking employment, if previously unemployed or employed on a part-time basis, has accepted any suitable offer of employment, and has satisfactorily performed all workfare assignments or had just cause not to perform those assignments;

c has made use of all available and potential resources when directed in writing to such a program by the Administrator, including, but not limited to, other government benefit programs or the assistance of liable relatives of sufficient means; and

d) has participated in any training, retraining, educational or rehabilitative program when appropriate and when directed in writing to such a program by the Administrator, in order to diminish the applicant's need for general assistance. (22 M.R.S. § § 4316-A, 4317).

Section 4.6—Action on Applications

Written Decision. The Administrator will issue a written decision concerning the applicant's eligibility within 24 hours after the applicant submits a written application. Assistance will be furnished to eligible applicants within that period except when the municipality is permitted by law (and pursuant to Ordinance § 5.6) to issue assistance conditionally on the successful completion of a workfare assignment. (22 M.R.S. § § 4305, 4316-A, 4321). A written decision will be given each time a person applies, whether assistance is granted, denied, reduced, or terminated.

Content of Decision. The Administrator's written decision will contain:

a) the type and amount of benefits granted, or the applicant's ineligibility for benefits;
b) the period of eligibility if the applicant is eligible for assistance;
c) the specific reasons for the Administrator's decision;
d) the applicant's right to a fair hearing; and
e) the applicant's right to notify the DHHS if they believe the municipality has acted illegally. (22 M.R.S. § 4321).

Section 4.7—Withdrawal of an Application

An application will be considered withdrawn if the applicant requests in writing that the application be withdrawn; or if the applicant refuses to complete or sign the application or any other document needed by the Administrator.

Section 4.8—Temporary Refusal to Accept Application

Under special circumstances, the Administrator may temporarily refuse to accept applications. Such circumstances include, but are not limited to, the following:

a) When the applicant's conduct is abusive, disruptive, or harassing, or when the applicant is under the influence of drugs or alcohol. In these situations, the applicant will be asked to leave; if the applicant refuses to leave, the police may be summoned. The applicant will be informed that an application will only be accepted when their conduct is under control.
b) If the Administrator believes that an applicant's behavior presents a threat to the health or safety of the public or to a municipal employee, if the applicant's behavior is violent, or if an applicant has engaged in abusive, disruptive or harassing behavior and has been required to leave on more than one occasion, the applicant may be required to designate a third party to apply for assistance on their behalf and the applicant may be prohibited from entering the municipal building;
c) When a third person applies for assistance on behalf of the applicant that person may be required to provide written verification that they have been duly authorized to act as a representative for the applicant. (22 M.R.S. § 4308).

Section 4.9—Emergencies

An "emergency" means any life-threatening situation, or a situation beyond the control of the applicant which if not alleviated immediately could reasonably be expected to pose a threat to the health or safety of the applicant or a member of the household. (22 M.R.S. § 4301(4)). An emergency includes homelessness or imminent homelessness. Even if an applicant is otherwise ineligible to receive GA benefits, unless they are disqualified as provided below, emergency assistance may be granted to applicants who lack sufficient income and resources to meet the emergency need

and also have not had sufficient income and resources to avert the emergency. (22 M.R.S. § 4308).

A municipality may provide emergency assistance when the municipality determines that an emergency is imminent and that failure to provide assistance may result in undue hardship and unnecessary costs to either the applicant or the municipality.

Disqualification for Emergency Assistance. A person who is currently disqualified from receiving GA due to a violation of Ordinance § § 5.5, 5.6, 5.7, 5.8, 5.9 or 6.4 is ineligible to receive emergency assistance. (22 M.R.S. § 4308(2)(A)). However, dependents of a disqualified person may be eligible for assistance. For the purposes of this section, "dependents" are defined as: (1) a dependent minor child; (2) an elderly, ill or disabled person; or (3) a person whose presence is required to provide care for any child under the age of 6 years or any ill or disabled member of the household. (22 M.R.S. § 4309(3)).

If one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Assistance Prior to Verification. Whenever an applicant informs the Administrator that they need assistance immediately, the Administrator will grant, pending verification, the assistance within 24 hours, provided that:

a) after interviewing the applicant the Administrator has determined that the applicant will probably be eligible for assistance after a verification of information is completed; and
b) the applicant submits documentation when possible, to verify their need. The Administrator may contact at least one other person to confirm the applicant's statements about his/her need for emergency assistance. No further assistance will be authorized until the applicant's eligibility is confirmed. (22 M.R.S. § 4310).

Benefits provided prior to verification are limited as follows:

a) The authorization of benefits may not exceed 30 days.

b) Until there has been full verification confirming the applicant's eligibility, further benefit may not be authorized.

c) The authorization of benefits may not exceed levels of assistance established in 22 M.R.S. § 4308. (22 M.R.S. § 4310(4)).

Telephone Applications. If a person has an emergency need and cannot apply in person due to illness, disability, lack of transportation, or other good cause, and if there is no authorized representative who can apply on behalf of the applicant, the Administrator shall accept an application over the telephone. (22 M.R.S. § 4304).

Assistance will not be granted after a telephone application if the applicant refuses to allow the Administrator to verify information provided by the applicant either by visiting their home or by mail, and the Administrator cannot determine eligibility through any other means.

Limitation on Emergency Assistance. Applicants are not automatically eligible for emergency assistance. If an applicant had income which could have been used to prevent all or part of an emergency, but they spent that income on items which are not basic necessities, the applicant will not be eligible to receive GA to replace the misspent money. (22 M.R.S. § § 4308(2) & 4315-A).

All applicants must provide the Administrator with verifiable documentation demonstrating that the applicant lacked sufficient income to avert the emergency situation. According to the following criteria, the Administrator may limit emergency assistance to cover only the difference between the amount of money necessary for the household to avoid the emergency and the amount of income available to the household during the applicable time period.

a) The applicable time period shall be the 30 days preceding the application for emergency assistance, except in those cases where the emergency was created by a negative account balance for a commodity or service (such as rent, mortgage, or utility payments), and the negative account balance was created over a longer period of time. In such cases, the applicable time period

shall be the consecutive length of time the account balance has been in the negative.

b) The Administrator shall seek from the applicant all information pertinent to the applicant's ability to provide for their basic necessities for the applicable time period, including evidence of all income and resources received over that period of time.

c) The Administrator shall calculate all costs per month for the household's basic necessities during the applicable time period, consistent with the maximum levels established by this ordinance for the specific basic necessity or the actual monthly cost, whichever is less, including all costs associated with averting the particular emergency situation for which the applicant is seeking assistance.

d) From the total household costs for basic necessities during the applicable time period, the Administrator shall subtract the total income and lump sum payments available to the household for the applicable time period, as well as the total general assistance actually received during the applicable time period.

e) The Administrator may restrict the issuance of emergency assistance to the difference yielded by the computation in subsection (d), even when such a grant will not totally alleviate the emergency situation.

f) The Administrator may waive this limitation on emergency assistance in life threatening situations or for initial applicants; that is, persons who have never before applied for general assistance.

g) Nothing in these criteria may be construed as prohibiting a municipality from electing to alleviate an emergency situation in the most cost-effective manner available, provided such a determination of eligibility for emergency assistance is in conformance with general assistance law.

The municipality cannot exceed maximum levels of assistance for an applicant household for more than 30 days in a 12-month period when assistance is granted for housing in a hotel, motel, inn or other lodging place.

Section 4.10—Residence

The Administrator shall provide GA to all eligible applicants who are residents of this municipality. A resident is a person who has no other residence, is physically present in this municipality and who intends to remain here and establish a household.

The municipality also recognizes its responsibility to provide assistance to eligible persons who apply here and who are not residents of this municipality or any other municipality. If a person who is not a resident of any municipality applies in this municipality first, the Administrator will determine their eligibility and, if eligible, will grant assistance until they establish a residence in another municipality. (22 M.R.S. § 4307).

Moving/Relocating. The municipality will not consider moving or transporting an applicant or recipient into another municipality unless the person requests assistance to relocate to another municipality. If the Administrator determines the applicant is eligible and grants financial assistance to help with the requested relocation, this municipality will be responsible for providing assistance to the applicant for 6 months after they move including processing applications and determining eligibility for assistance.

Institutions. If a resident of this municipality enters an institution located in another municipality (such as a group home, shelter, rehabilitation center, nursing home, or hospital) and requests assistance while at the institution, they will be the responsibility of this municipality for up to 12 months after they enter the institution if the conditions of 22 M.R.S. § 4307 and § 4313 are met. The municipality thereafter retains responsibility for an applicant in an institution only if the applicant has maintained a home in this municipality to which they intend to return. The municipality also recognizes its responsibility for applicants residing in an institution in this municipality if such an applicant had no residence prior to entering the institution. (22 M.R.S. § 4307(4)).

Temporary Housing. Hotels/motels and similar places of temporary lodging are considered institutions if the municipality grants financial assistance for, makes arrangements for, or advises or encourages an applicant to stay in temporary lodging.

Note: A municipality which illegally denies housing assistance will be responsible for the applicant for up to 6 months if, as a result of the denial, the applicant stays in temporary lodging. The municipality may also be subject to other penalties. (22 M.R.S. § 4307(4)).

Disputes. When the Administrator believes that an applicant is a resident of another municipality, but that municipality disputes its responsibility, the Administrator will notify DHHS' Augusta office (287-3654 or 1-800-442-6003). If the applicant applies in this municipality first, the Administrator will determine their eligibility and, if eligible, will grant assistance until the DHHS has concluded which municipality is responsible for providing assistance. If another municipality was responsible, the DHHS will recover the amount due from the other municipality. (22 M.R.S. § § 4307(5), 4307(6)).

ARTICLE V – Eligibility Factors

A person will be eligible for GA if they are an "Eligible Person" as defined in section 2.2, is in need, and has complied with the eligibility requirements set forth below. (*For guidance in determining whether an applicant is an Eligible Person, contact DHHS at (800) 442-6003 (TTY: 287-6948)).*

Section 5.1—Initial Application

Initial Application. For initial applicants, need will be the sole condition of eligibility, except that all applicants, including initial applicants, are disqualified for a defined period (1) for quitting employment without just cause or for being discharged from employment for misconduct *(see Ordinance § 5.5)* or (2) who are fugitives from justice as defined in 15 M.R.S. § 201(4), (22 M.R.S. § 4301(3)). An initial applicant is a person who has never before applied for GA in any municipality in Maine. (22 M.R.S. § 4308(1)).

"Need" means that the applicant's income (including prorated income, where applicable), property, credit, assets or other resources are less than the overall maximum level of assistance contained in Ordinance § 6.8 or the applicant's 30-day need, whichever is less, and they do not have adequate income or other resources available to provide basic necessities.

Repeat Applicants. Persons who are not initial applicants are repeat applicants; these are persons who have previously applied for GA at some time, including persons on whose behalf a GA application was previously made at any time, provided that the applicant was not a dependent minor in the household at the time of the previous application. To be eligible for GA, repeat applicants must be in need and meet all other eligibility requirements. The eligibility of repeat applicants may also be adversely affected to the extent they have not used their income and resources to secure basic necessities.

Section 5.1A – Presumptive Eligibility

A person who is provided shelter in an emergency shelter for the homeless located in the municipality shall be presumed to be an eligible person. Presumed eligibility may not exceed 30 days within a 12-month period. After the period of presumed eligibility,

full eligibility must be verified before assistance will be issued. When presumptive eligibility is determined under this section, no other municipality may be determined to be the municipality of responsibility during that 30-day period.

Section 5.1B – Recovery Residences

The Administrator will not deny GA benefits to a person for the sole reason that the person is residing in a recovery residence. Beginning July 1, 2022, housing assistance will not be provided to a person residing in a recovery residence that has not been certified in accordance with 5 M.R.S. § 20005(22), except that the person may receive housing assistance while residing in an uncertified recovery residence for one 30-day period only. The Administrator will inform the person of the requirements and time limits regarding recovery residences. A person who is ineligible for housing assistance under this subsection may remain eligible to receive GA for other basic necessities. Upon request by a person residing in a certified recovery residence, who has been determined eligible for housing assistance, housing assistance payments will be issued to the operator of the certified recovery residence instead of to a landlord.

Section 5.2—Eligibility for Categorical Assistance

Receipt of categorical assistance will not disqualify an otherwise eligible person. Benefits received from other assistance programs will be considered as income when determining need, with the exception of Food Stamps, which will not be counted as income or resources or otherwise taken into consideration when determining need. (7 U.S.C. § 2017 (b)).

In addition, fuel assistance (HEAP/ECIP) received by an applicant will not be considered as income; that is, the Administrator will always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid all costs associated with their fuel needs. (42 U.S.C. § 8624(f)). When an applicant has received HEAP or ECIP, GA heating energy needs will be calculated pursuant to Ordinance § 6.7, subsection (c) under “Types of Income”. For several additional exceptions please refer to the definition of “Income” in this Ordinance (see Ordinance § 2.2, page 7, subsection 4).

Applicants or recipients must apply for other program benefits within 7 days after being advised in writing to do so by the Administrator. Persons who, without just cause, make no good faith effort to obtain a potential resource will be disqualified from receiving assistance until they make a good faith effort to obtain the benefit. (22 M.R.S. § 4317).

Section 5.3—Personal Property

a) Liquid Assets.

No person owning assets easily convertible into cash, including but not limited to, bank deposits, stocks, bonds, certificates of deposit, retirement accounts, life insurance policies and other marketable security will be eligible for GA unless and until they use these assets to meet their basic needs, and thereby exhausts them. At the discretion of the Administrator, liquid assets need not include a reasonable minimum balance necessary to obtain free checking. Although one checking account per household may be allowed, any monies over the minimum required to obtain free checking are to be considered available liquid assets.

b) Tangible Assets.

No person owning or possessing personal property, including but not limited to: a motor vehicle (except as provided immediately below in subsection c), or a boat, trailer, recreation vehicle or other assets that are convertible into cash and are non-essential to the maintenance of the applicant's household will be eligible for GA. Exceptions may be made when a person is making an initial application or is an unforeseeable repeat applicant as defined in Ordinance § 2.2 or when reasonable efforts to convert assets to cash at fair market value are unsuccessful. Tools of a trade, livestock, farm equipment and other equipment used for the production of income are exempt from the above category and are not considered available assets.

c) Automobile Ownership.

Ownership of one automobile per household will not make a person ineligible for assistance if such vehicle is essential for transportation to employment or for seeking employment, obtaining medical care, rehabilitation, or training facilities, or for any other reason the GA Administrator determines reasonable

for the maintenance of the applicant's household. GA recipients who own an automobile with a market value greater than $8,000 may be required, with 7-day's written notice, to make a good faith effort to trade that automobile for an automobile with a market value of less than $8,000. Any income received by the applicant by virtue of such a trade down must be used for their basic necessities. Failure to liquidate or trade down the excess value of any automobile asset can result in disqualification. (22 M.R.S. § 4317).

The Administrator will neither pay nor consider as necessary any car payment or vehicle maintenance cost, including insurance, for which the applicant is responsible. However, if the vehicle's value is $8,000 or less and the applicant is utilizing the vehicle for an "essential" reason (see above), the Administrator may choose to not consider reasonable car payments, reasonable car insurance or reasonable associated costs of maintenance as "misspent" income. GA for travel-related needs shall be computed in accordance with Ordinance § 6.8(F)(7), (8) "Work Related/Travel Expenses."

d) Insurance.

Insurance available to an applicant on a non-contributory basis or required as a condition of employment will not be a factor in determining eligibility for GA. Life insurance with a cash surrender value may, at the discretion of the Administrator, be considered as a tangible asset.

e) Transfer of Property.

Applicants who transfer assets for less than fair market value to someone else solely for the purpose of establishing eligibility for GA will not be granted GA benefits to replace the uncompensated value of the transferred asset. Assistance will be denied within a 120-day limit up to the uncompensated value of the asset which was transferred unless the transfer of asset is fraudulently misrepresented, in which case a 120-day disqualification will be issued. There will be a presumption that the applicant transferred their assets in order to be eligible for GA whenever property is sold for less than the fair market value or when the transfer occurred within 30 days prior to applying for GA unless the applicant can demonstrate the existence of a good faith transaction.

Section 5.4—Ownership of Real Estate

a) Principal Residence.

Solely for purposes of GA, the applicant's principal residence, including any adjoining land, is considered an exempt resource, even if temporarily unoccupied because of employment, job training, education, illness, or disaster, provided the applicant demonstrates an intent to return. If the applicant owns land in excess of the minimum lot size for the zone or district in which the home is located, that land may be considered a potential resource if:

1. The applicant has received GA for the last 120 consecutive days; and
2. The applicant has the legal right to sell the land (e.g., any mortgagee will release any mortgage, any co-owners agree to the sale, zoning or other land use laws do not render the sale illegal or impracticable); and
3. The applicant has the financial capability to put the land into a marketable condition (e.g., the applicant can pay for any necessary surveys); and
4. The land is not utilized for the maintenance and/or support of the household; and
5. A knowledgeable source (e.g., a realtor) indicates that the land in question can be sold at fair market value, for an amount which will aid the applicant's financial rehabilitation; and
6. No other circumstances exist which cause any sale to be unduly burdensome or inequitable.

If conditions above are met, the Administrator may condition the receipt of future assistance on the applicant's good faith efforts to sell, or render saleable, land which could be used to provide necessary support for the applicant (e.g., the applicant owns 100 "excess" acres. Sale of 10 of the acres would provide for the necessary support; therefore, the entire 100 acres need not be sold at the present time.) Assistance shall not be denied during the time that the applicant is making a good faith effort to sell or render saleable the land in question.

Once the applicant ceases to receive assistance the obligations under this section shall also cease.

b) Other Property.

If the applicant or dependents own real property other than that occupied as the principal residence, continued GA eligibility will depend on the applicant making a reasonable effort to:

1. Dispose of the property at fair market value in order to convert the property into cash which can be applied toward meeting present need; or
2. Obtain a loan against such property which may be used to meet present need. Applicants who transfer their excess property to a third party in order to become eligible for GA will be ineligible.

If an applicant is granted assistance in the form of a mortgage payment or capital improvement payment, the municipality may claim a lien against the property. The lien shall not be enforceable until the sale of the property or upon the death of the recipient *(see also Ordinance § 6.8).* 22 M.R.S. § 4320.

Section 5.5—Work Requirement

All GA recipients are required to register for work, look for work, work to the extent of available employment, and otherwise fulfill the work requirements, unless the applicant is exempt from such requirements as provided below.

Employment; Rehabilitation. All unemployed applicants and household members who are 16 years of age or older and who are not attending a full-time primary or secondary school intended to lead to a high school diploma will be required to accept any suitable job offer and/or meet with job counselors, attend employment workshops and rehabilitative services, except as provided below *(see "Exemptions").* Applicants must demonstrate to the Administrator that they are available for work and are actively seeking employment.

A "suitable job" means any job, which the applicant is mentally and physically able to perform. "Available for work" means that applicants must make themselves available for work during normal business hours prevailing in the area and show that no circumstance exists which would prevent them from complying with the work requirement.

Verification. Unemployed applicants or applicants employed on a part-time basis must provide verifiable documentation of their pursuit of employment at the time of each application. At a minimum, such documentation will consist of a list of the employers contacted, the date and time of the application contact, and the name of the employer representative contacted. "Pursuit of Employment" means actually submitting a written application or applying for a job in person when reasonable or submitting a written application or letter of inquiry to employers.

For the duration of any repeat applicant's period of unemployment or partial employment, the Administrator will establish the number of employers per week to whom each non-exempt applicant shall be required to apply in order to fulfill their work search requirements. The number of weekly employer contacts required by the Administrator shall be reasonably related to the number of potential employers in the region and the number of hours per week the applicant has available for work search activities after considering all time the applicant must devote to existing employment obligations, workfare obligations, and required classroom or on-site participation in job training, educational, or rehabilitation programs. Fulfillment of these requirements will not be expected at the time of the initial application but will be a condition of eligibility for subsequent assistance.

Ineligibility. After being granted assistance at the time of initial application, applicants will be considered ineligible for further assistance for 120 days if they, without just cause:

a) refuse to register for employment with the Maine Job Service;
b) refuse to search diligently for employment when the search is reasonable and appropriate; recipients who unreasonably seek work at the same places repeatedly will not be considered to be performing a diligent work search and will be disqualified;
c) refuse to accept a suitable job offer;
d) refuse to participate in an assigned training, education or rehabilitation program that would assist the applicant in securing employment;
e) fail to be available for work; or

f) refuse to participate or participate in a substandard manner in the municipal work program *(see Ordinance § 5.6).*

Ineligibility Due to Job Quit or Discharge for Misconduct. No initial or repeat applicant who has quit their full-time or part-time job without just cause or who has been discharged from employment for misconduct *(see definition in Appendix I)* will be eligible to receive GA of any kind for 120-days from the date the applicant is separated from employment. (22 M.R.S. § § 4301(8), 4316-A (1-A)).

Just Cause. Applicants will be ineligible for assistance for 120 days if they refuse to comply with the work requirements of this section without just cause. With respect to any work requirement, just cause will be considered to exist when there is reasonable and verifiable evidence that:

a) the applicant has a physical or mental illness or disability which prevents them from working;
b) the work assignment pays below minimum wages;
c) the applicant was subject to sexual harassment;
d) the applicant is physically or mentally unable to perform required job tasks, or to meet piece work standards;
e) the applicant has no means of transportation to or from work or a training or rehabilitation program;
f) the applicant is unable to arrange for necessary childcare or care of ill or disabled family members; or
g) any reason found to be good cause by the Maine Department of Labor, or any other verifiable reason the Administrator considers reasonable and appropriate will be accepted as just cause. (22 M.R.S. § 4316-A(5)).

Applicant's Burden of Establishing Just Cause. If the Administrator finds that the applicant has violated a work-related rule without just cause, it shall be the responsibility of the applicant to establish the presence of just cause. (22 M.R.S. § 4316-A).

Eligibility Regained. Persons who are disqualified for 120 days because they violated a work requirement may regain their eligibility if and only when they become employed

or otherwise satisfy the Administrator that they are complying with the work requirement by fulfilling the work requirement(s) the person violated.

For the purpose of regaining eligibility by becoming employed, "employment" shall mean employment by an employer as defined in 26 M.R.S. § 1043 or the performance of a service for an employer who withholds from the employee a social security tax pursuant to federal law.

The special provisions regarding the opportunity to regain eligibility after a disqualification for workfare violations are detailed in Ordinance § 5.6, under "Eligibility Regained."

Dependents. Failure of an otherwise eligible person to comply with the work requirements shall not affect the eligibility of any member of the person's household who is not capable of working, including:

a) a dependent minor child;
b) an elderly, ill, or disabled person; and
c) a person whose presence is required in order to provide care for any child under 6 years of age or for any ill or disabled member of the household. (22 M.R.S. § 4309(3)).

If one or more member(s) of a household is disqualified and assistance is requested for those remaining members of the household who are dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Exemptions. The above work requirements do not apply to any person who is elderly, physically or mentally ill or disabled. Any person whose presence is required to care for any pre-school age child or for any ill or disabled member of the household is also exempt from these requirements.

The requirements of this section will not be imposed so as to interfere with an applicant's existing employment, ability to pursue a bona fide job offer, ability to attend an interview for possible employment, classroom participation in a primary or secondary educational program intended to lead to a high school diploma, classroom

or on site participation in a training program which is either approved by the Department of Labor (DOL) or determined by the DOL to be expected to assist the applicant in securing employment, or classroom participation in a degree-granting program operated under the control of the DOL.

Section 5.6—Municipal Work Program

Each applicant and any member of the household who is capable of working may be required to perform work for the municipality, including work for a non-profit organization, as a condition of receiving assistance. (22 M.R.S. § 4316-A(2)).

As part of the municipal work program, the municipality can require recipients to participate in training, education, or rehabilitative programs that will assist the recipient in securing employment. The work requirement provisions found in Ordinance § 5.5 regarding just cause, dependents, and exemptions also apply to the municipal workfare program.

Consent. Persons assigned to the work program are required to sign a form stating that they understand the requirements of GA and the work program. Before signing the form, the Administrator will read it to the applicants or allow the applicants to read it themselves. The form will also state the number of hours the applicants must work and the hourly rate by means of which the duration of the work assignment is calculated. In addition, the consent form shall describe the consequences of failing to adequately perform part or all of the workfare or workfare-first assignment.

Subtracting Value of Workfare Performed from Client's GA Debt. Pursuant to 22 M.R.S. § 4318, individuals who received GA benefits are obligated to repay the municipality when and if they become able (see Ordinance Article VIII). However, persons performing workfare shall have the value of the workfare performed deducted from any and all GA debt including GA liens (e.g., Workers' Compensation Settlement, SSI Retroactive Payment, Capital Improvement, Home Mortgage) that might exist against their settlements, payments or other such property.

Limitations. The work requirement is subject to the following limitations. (22 M.R.S. § 4316-A(3)).

1) No person shall, as a condition of eligibility, be required to perform any amount of work that exceeds the value of the net GA that the person receives under municipal GA standards. Any person performing work under this subsection shall be provided with net GA, the value of which is calculated at a rate of at least the prevailing minimum wage under state or federal law at the time the workfare was performed.

2) No workfare participant shall be required to work for a nonprofit organization if that work would violate the participant's basic religious beliefs.

3) In no case shall eligible persons performing work under this subsection replace regular municipal employees.

4) In no case will work performed under this subsection interfere with an eligible person's:

   a) existing employment;
   b) ability to follow up on a bona fide job offer;
   c) attendance at an interview for possible employment;
   d) classroom participation in a primary or secondary educational program intended to lead to a high school diploma; or
   e) classroom or on-site participation in a training program which is approved by the Department of Labor (DOL) or determined by the DOL to be reasonably expected to assist the person in securing employment, or classroom participation in a degree-granting program administered by the DHHS or the DOL.

5) In no case may an eligible person be required to work more than 40 hours per week. An eligible person who has full or part-time employment shall be exempt from the work requirement to the extent that the work requirement in combination with their regular employment would result in the person working more than 40 hours per week.

6) In no case will an eligible person be required to perform work beyond their capabilities. However, when an illness or disability is claimed, an

eligible person may be required as a condition of receiving assistance to present a doctor's statement detailing the extent of the disability or illness. (22 M.R.S. § 4309).

If the Administrator requires a doctor's statement to verify an applicant's illness or disability and the applicant is not currently under the care of a provider, the municipality may pay for the doctor's evaluation if the applicant has no means to pay for the exam. However, in such a case the Administrator will choose the doctor. If there is a no-cost or low-cost health care option, the municipality may elect to refer the client to such a resource. The Administrator will not require verification of medical conditions which are apparent, or which are of such short duration that a reasonable person would not ordinarily seek medical attention. (22 M.R.S. § 4316(5)).

7) In no case may an eligible person with an immediate need (i.e., a person in an emergency situation who has not been disqualified from receiving assistance for committing a program violation) be required to perform work under this subsection prior to receiving GA. The Administrator shall meet immediate needs upon receiving written assurance from the eligible person that they are willing to work to maintain eligibility for GA. When the recipient has no immediate need, workfare participation may be required prior to receiving GA in accordance with the "workfare first" policy below.

"Workfare First" Policy. Pursuant to 22 M.R.S. § 4316-A(2)(D), the Administrator may, in accordance with the following guidelines, require a GA recipient to perform a workfare assignment prior to the actual issuance of the GA benefit conditionally granted.

1) In no circumstance will emergency GA for which an applicant is eligible be withheld pending the satisfactory performance of workfare.
2) All workfare participants under this policy will be provided a written decision within 24 hours after submitting an application for GA and prior

to performing any workfare for the municipality associated with that request for assistance.

That written decision must include:

a) a specific description of the amount of GA being conditionally granted to the household, and for which basic needs;
b) the period of eligibility for which the GA grant is being issued (in days or weeks, but not to exceed 30 days);
c) the rate, at a dollar-per-hour basis (but not less than the prevailing minimum wage), upon which the duration of the workfare assignment is calculated;
d) the actual duration of the workfare assignment that must be performed, in hours, before the GA grant will be actually issued;
e) the specifics of the workfare assignment(s), including the general nature of the type of work being assigned, location(s) of worksite, date(s) and time(s) of assigned workfare, workfare supervisors' names and contact telephone numbers; and
f) any other pertinent information related to the workfare assignment(s) the recipient will be expected to perform.

3) As previously provided in this section, all workfare participants must sign a consent form that informs the participant of their workfare-related rights and responsibilities, including the consequences of failing to perform all or part of the workfare assigned without just cause.
4) If a portion of the workfare-first assignment is satisfactorily performed but there has been a failure to perform the remainder of the assignment, without just cause, the Administrator shall issue a grant of GA benefits corresponding to the number of workfare hours satisfactorily performed multiplied by the hourly rate used to calculate the workfare assignment. In addition to any disqualification penalty that may apply, the remaining value of the conditionally issued GA grant shall be terminated, and notice of the partial termination, together with the reasons; therefore, will be issued to the workfare participant in accordance with Ordinance § 6.10.

5) If any part of the workfare assignment is not performed because the workfare participant was temporarily unable to perform the assignment for just cause reasons, it shall be reassigned or excused at the discretion of the Administrator.

Work-Related Expenses. A participant's expenses related to work performed under this section will be added to the amount of net GA to be provided to the person (22 M.R.S. § 4316-A(2)(E)). The municipality will provide any special clothes or equipment the recipient needs to perform their work assignment.

Disqualification. Any person who either willfully fails to perform or willfully performs below average standards the work assigned by the municipality, will be ineligible for assistance for 120 days (22 M.R.S. § 4316-A(1)). As soon as the Administrator knows that a recipient failed to fulfill the work assignment, the Administrator will notify the recipient in writing that they are disqualified for 120 days starting from the last date of authorized assistance unless the recipient can show just cause. The workfare participant has the burden of demonstrating there was just cause for any failure to perform a workfare assignment.

Eligibility Regained. Recipients who are disqualified from receiving assistance because they have violated the requirements of the municipal work program may regain their eligibility under the following conditions:

- Recipients who fail to complete the first municipal work assignment they have been given will be disqualified from receiving assistance during the next 120 days, although dependents in the household may be eligible *(see Ordinance § 5.5, "Dependents")*.
- If during the 120-day disqualification period the recipient requests an opportunity to perform the work assignment which they, without just cause failed to perform, the disqualified recipient will be given one opportunity to regain eligibility. The Administrator will give the recipient a work assignment as soon as possible.
- If a recipient under a 120-day disqualification has an emergency need and the Administrator is unable to schedule a work assignment in time to alleviate the emergency, the Administrator will provide sufficient assistance to the

recipient to avert the emergency. However, the provision of emergency assistance will not bar the Administrator from subsequently enforcing the previously issued 120-day disqualification if the recipient fails to regain eligibility by satisfactorily performing the work assignment. The amount of emergency assistance granted will be considered in the computation of the total number of hours the recipient must work.

- Recipients who have asked for the opportunity to regain their eligibility during a 120-day disqualification period and who agreed to fulfill the assignment which they previously failed to perform but who, without just cause, fail to fulfill their municipal work assignment will be considered to have acted in bad faith. In such a circumstance, the Administrator will enforce the 120-day disqualification for the term of its initial duration.
- If a workfare participant regains eligibility under this section but is subsequently disqualified within the initial 120-day period of ineligibility for failing to comply with the municipal work program, that participant will be ineligible for a new 120-day period beginning with the new disqualification date but will be provided no opportunity to requalify.
- Any recipient who intentionally causes damage to property, harasses or harms other employees or who otherwise conducts themselves in a disruptive manner and is discharged by the work supervisor will not be entitled to regain eligibility by returning to the work program. Eligibility may be regained by otherwise becoming employed and meeting the definition of need.

Reports. The Administrator will itemize the assistance that has been provided to persons who work for the municipality in reports to the DHHS. (22 M.R.S. § 4316-A(2)).

Section 5.7—Use of Resources

Each applicant is responsible to make a good faith effort to utilize every available or potential resource that may reduce their need for GA *(see Ordinance § 2.2, definition of "Resources")*. Persons who refuse or fail to make a good faith effort to secure a potential resource after receiving written notice to do so are disqualified from receiving assistance until they make an effort to secure the resource. Applicants are

required to prove that they have made a good faith effort to secure the resource. (22 M.R.S. § 4317).

Minors. A minor under the age of 18 who has never married and is applying independently for GA and who is pregnant or has a dependent child or children will be eligible to receive GA only if the minor is residing in the home of their parent, legal guardian or other adult relative, in which case the entire household will be evaluated for eligibility. Exceptions to this limitation on eligibility will be made when:

1) the minor is residing in a foster home, maternity home, or other adult-supervised supportive living arrangement; or
2) the minor has no living parent or the whereabouts of both parents are unknown; or
3) no parent will permit the minor to live in the parent's home; or
4) the minor has lived apart from both parents for at least one year before the birth of any dependent child; or
5) the DHHS determines that the physical or emotional health or safety of the minor or the minor's dependent child or children would be jeopardized if the minor and their child or children lived with a parent; or
6) the DHHS determines, in accordance with its regulation, that there is good cause to waive this limitation on eligibility. (22 M.R.S. § 4309(4)).

Any person under the age of 25 who is applying independently from their parents for GA will be informed that until they reach the age of 25, the applicant's parents are still legally liable for their support and the municipality has the right to seek recovery from the parents of the cost of all assistance granted to such a recipient to the extent their parents are financially capable of repaying the municipality. (22 M.R.S. § 4319).

With regard to such application, the municipality may seek verification of the applicant's need for GA by contacting their parents. If the applicant's parents declare a willingness to provide the applicant with their basic needs directly, and there is no convincing evidence that the applicant would be jeopardized by relying on their parents for basic needs, the Administrator may find the applicant not to be in need of GA for the reason that their needs can be provided by a legally liable relative.

Mental or Physical Disability. Any applicant who has a mental or physical disability must make a good faith effort to utilize any medical or rehabilitative services which have been recommended by a physician, psychologist or other professional retraining or rehabilitation specialist when the services are available to the applicant and would not constitute a financial burden or create a physical risk to the individual.

Written Notice; Disqualification. The Administrator will give each applicant written notice whenever the applicant is required to utilize any specific potential resource(s). Any applicant who refuses to utilize potential resources, without just cause, after receiving written 7-day notice will be ineligible for further assistance until they have made a good faith effort to utilize or obtain the resources. GA will not be withheld from the applicant pending receipt of a resource if the applicant has made, or is in the process of making, a good faith effort to obtain the resource.

Forfeiture of Benefits. Any applicant who forfeits receipt of, or causes a reduction in, benefits from another public assistance program due to fraud, misrepresentation, a knowing or intentional violation of program rules or a refusal to comply with that program's rules without just cause will be ineligible to receive GA to replace the forfeited benefits. To the extent the forfeited benefits can be considered income under GA law, the value of the forfeited benefits will be considered income that is available to the applicant for the duration of the forfeiture.

To the extent the forfeited benefits were provided in the form of a specific, regularly issued resource of a calculable value rather than in the form of income, that resource, up to its forfeited value, need not be replaced with GA for a period of 120 days from the date of the forfeiture—unless the municipality is prohibited by federal or state law from considering the forfeited resource as available with respect to local public assistance programs. (22 M.R.S. § 4317).

Section 5.8—Period of Ineligibility

No one will have their GA terminated, reduced, or suspended prior to being given written notice and an opportunity for a fair hearing. (22 M.R.S. § § 4321-4322). Each person will be notified in writing of the reasons for their ineligibility, and any person

disqualified for not complying with the ordinance will be informed in writing of the period of ineligibility.

Work Requirement. Applicants/recipients who do not comply with a work requirement are disqualified from receiving assistance for a period of 120 days (unless they regain their eligibility) *(see Ordinance § § 5.5, 5.6)*. If an applicant/recipient is provided assistance and does not comply with the work requirement, the applicant/recipient shall be disqualified for 120 days following the end of the period covered by the grant of assistance. The Administrator shall give recipients written notice that they are disqualified as soon as the Administrator has sufficient knowledge and information to render a decision of ineligibility.

Fraud. Persons who commit fraud are disqualified from receiving GA for a period of 120 days *(see Ordinance § 6.4, "Fraud")*. The Administrator shall give recipients written notice that they are ineligible as soon as the Administrator has sufficient knowledge and information to render a decision. If the disqualification for fraud is issued before the expiration of a grant of assistance, the period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance. If fraud is discovered after the period covered by the grant of assistance has expired, the period of ineligibility will commence on the day of the written notice of ineligibility.

Section 5.9 – Unemployment Fraud

An applicant who is found ineligible for unemployment compensation benefits because of a finding of fraud by the Department of Labor pursuant to 26 M.R.S. § 1051(1) is ineligible to receive general assistance to replace the forfeited unemployment compensation benefits for the duration of the forfeiture established by the Department of Labor. 22 M.R.S. § 4317.

ARTICLE VI – Determination of Eligibility

Section 6.1—Recognition of Dignity and Rights

Any determination or investigation into an applicant's eligibility will be conducted in a manner that will not violate the applicant's privacy or personal dignity or violate their individual rights.

Section 6.2—Determination; Redetermination

The Administrator will make an individual, factual determination of eligibility each time a person applies or reapplies for GA. The Administrator will make a redetermination of eligibility at least monthly but may do so as often as necessary to administer the program efficiently and meet the needs of the applicants. Upon any application, the Administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis, but may elect to disburse that applicant's assistance periodically, e.g., weekly, throughout a 30-day period of eligibility pursuant to that initial eligibility determination.

The Administrator may redetermine a person's eligibility at any time during the period they are receiving assistance if the Administrator is notified of any change in the recipient's circumstances that may alter the amount of assistance the recipient may receive. Once a recipient has been granted assistance, the Administrator may not reduce or rescind the grant without giving prior written notice to the recipient explaining the reasons for the decision and offering the recipient an opportunity to appeal the decision to the fair hearing authority. (22 M.R.S. § 4309).

Section 6.3—Verification

Eligibility of Applicant; Duration of Eligibility. The overseer shall determine eligibility each time a person applies or reapplies for GA. The period of eligibility will not exceed one month. At the expiration of this period applicants/recipients may reapply for assistance and the person's eligibility will be redetermined.

Applicant's Responsibilities. Applicants and recipients for GA are responsible for providing to the Administrator all information necessary to determine eligibility. If further information or documentation is necessary to demonstrate eligibility, the applicant must have the first opportunity to provide the specific information or

documentation required by the Administrator. When such information is unavailable, the Administrator must accept alternative available information, which is subject to verification.

Each applicant and recipient has the responsibility at the time of application and continuing thereafter, to provide complete, accurate, current information and documentation concerning his/her:

- Need
- Income
- Employment
- Use of income
- Expenses
- Assets & liabilities
- Use of available resources
- Household composition

Initial Applicants. Persons who have not applied for assistance in this or any other municipality are considered initial applicants and must have their eligibility determined solely on the basis of need. Initial applicants are not subject to eligibility conditions placed on repeat applicants *(see below)*. However, such applicants must still provide the GA Administrator with reasonably obtainable documentation adequate to verify that there is a need for assistance. In addition, initial applicants must also comply with both lump sum and relevant work rules (i.e., quit job).

Repeat Applicants. All applicants for GA who are not initial applicants are repeat applicants. The eligibility of repeat applicants must be determined on the basis of need and all other conditions of eligibility established by law and this municipal ordinance.

The Administrator will require documentation of a repeat applicant's income, use of income, assets and resources plus actual bills and receipts for rent, utilities, fuel, telephone, medical services, and other basic necessities. In addition, repeat applicants instructed to seek employment shall verify their work search results, (e.g., provide a list of the employers contacted, the date and time of the application contact,

and the name of the employer representative contacted) as required by the Administrator.

Repeat applicants must provide updates to information reported on previous applications, including changes in his/her household or income that may affect his/her eligibility.

Unforeseen Repeat Applicants. Unforeseen repeat applicants are applicants who have not applied for assistance within the last twelve months and who have been regularly employed or receiving support from a public benefit or private source but who have unexpectedly become unemployed through no fault of their own or whose income and/or benefits (e.g., through an available resource) have ceased through no fault of their own. Such unforeseen repeat applicants may be considered initial applicants for purposes of verification requirements and misspent income if the Administrator finds that imposing the general verification requirements and misspent income rules imposed on repeat applicants would be unreasonable or inappropriate.

Administrator's Responsibilities. In order to determine an applicant's eligibility for GA, the Administrator first must seek information and documentation from the applicant. Once the applicant has presented the necessary information, the Administrator must determine eligibility. The Administrator will seek verification necessary to determine eligibility and may contact sources other than the applicant for verification only with the specific knowledge and consent of the applicant – except that the Administrator may examine public records without the applicant's knowledge and consent.

Appropriate sources, which an Administrator may contact, include, but are not limited to:

- DHHS, any other department or agency of the state, or non-profit organizations
- financial institutions
- creditors
- utility companies
- employers
- landlords
- physicians
- persons with whom the applicant/recipient is a cohabitant

- legally and non-legally liable relatives

Assistance will be denied or terminated if the applicant is unwilling to supply necessary information, documentation, or permission to make collateral contacts, or if the Administrator cannot determine that eligibility exists based on information supplied by the applicant or others.

Redetermination of Eligibility. The Administrator may redetermine a person's eligibility at any time during the period that person is receiving assistance if the Administrator is informed of any change in the recipient's circumstances that may affect the amount of assistance to which the recipient is entitled, or that may make the recipient ineligible, provided that once a determination of eligibility has been made for a specific time period, a reduction in assistance for that time period may not be made without prior written notice to the recipient stating the reasons for the action and an opportunity for the recipient to receive a fair hearing upon the proposed change.

Penalty for Refusing to Release Information. Any person governed by 22 M.R.S. § 4314 who refuses to provide necessary information to the Administrator after it has been requested must state in writing the reasons for the refusal within 3 days of receiving the request. Any such person who refuses to provide the information, without just cause, commits a civil violation and may be subject to a fine of not less than $25 nor more than $100 which may be adjudged in any court of competent jurisdiction. Any person who willfully renders false information to the Administrator is guilty of a Class E crime. (22 M.R.S. § § 4314(5), 4314(6), 4315).

Section 6.4—Fraud

It is unlawful for a person to knowingly and willfully make a false representation of a material fact to the Administrator in order to receive GA or cause someone else to receive GA. (22 M.R.S. § 4315). A person who commits fraud in an effort to receive GA benefits may be prosecuted for this offense.

False representation means any individual who knowingly and willfully:

a) makes a false statement to the Administrator, either orally or in writing, in order to obtain assistance to which the applicant or the applicant's household is not entitled;
b) conceals information from the Administrator in order to obtain assistance to which the applicant or applicant's household is not entitled; or
c) uses GA benefits for a purpose other than the purpose for which they were intended.

No person may be denied assistance solely for making a false representation prior to being given an opportunity for a fair hearing.

Period of Ineligibility. When the Administrator finds that a person has knowingly and willfully misrepresented material facts for the purpose of making themselves eligible for GA, the Administrator shall notify that applicant in writing that they must reimburse the municipality for the assistance they were not entitled to receive and that they are ineligible for assistance for the longer of: (a) a period of 120 days; (b) until they reimburse the municipality for the assistance; or (c) until they enter a reasonable written agreement to reimburse the municipality. (22 M.R.S. § 4315).

For the purpose of this section, a material misrepresentation is a false statement about eligibility factors in the absence of which some or all of the assistance would not be or would not have been granted.

The notification of ineligibility issued by the Administrator shall inform the applicant of their right to appeal the Administrator's decision to the fair hearing authority (FHA) within 5 working days of receipt. The period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance fraudulently received or upon the date of notification of ineligibility, whichever is later.

Right to a Fair Hearing. Any applicant who is denied assistance for making a false representation will be afforded the opportunity to appeal the decision to the fair hearing authority (FHA) in accordance with Article VII of this Ordinance. No recipient shall have their assistance reduced or revoked during the period of eligibility before being notified and given the opportunity to appeal the decision. Any person who is dissatisfied with the decision of the FHA may appeal that decision to the Superior

Court pursuant to Rule 80-B of the Maine Rules of Civil Procedure. (22 M.R.S. § 4309(3)).

Reimbursement. If a recipient does not appeal the decision or if the FHA determines that a recipient made a false representation, the recipient will be required to reimburse the municipality for any assistance received to which they were not entitled. The recipient may enter a reasonable written agreement to reimburse the municipality over a period of time.

Dependents. In no event will the ineligibility of a person under this section serve to disqualify any eligible dependent in that household. (22 M.R.S. § 4309(3)). In the event one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Section 6.5—Period of Eligibility

The Administrator will grant assistance to all eligible persons for a period that is sufficient to meet their need but in no event may a grant of assistance cover a period in excess of one month. (22 M.R.S. § 4309). Upon receiving a completed and signed application the Administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis.

When an applicant submits an incomplete or unsigned application, due to the 24-hour decision requirement placed on the GA Administrator, the GA Administrator shall render a notice of "ineligibility" and advise the applicant that they have a right to reapply as soon as they have the necessary information and/or as soon as is practicable for the applicant.

Although eligibility is determined on a 30-day basis, for reasons of administrative efficiency, the Administrator may elect to disburse an applicant's assistance for shorter periods of time, such as weekly, throughout the 30-day period of eligibility. When the Administrator elects to disburse GA for a period of time less than 30 days, subsequent grants of assistance during that 30-day period may be issued pursuant

to the initial determination of need unless the applicant's financial situation changes substantially enough to warrant a redetermination of eligibility.

Section 6.6—Determination of Need

The period of time used to calculate need will be the next 30-day period from the date of application. (22 M.R.S. § 4301(7)). The Administrator will calculate applicants' expenses according to the actual expense of the basic necessity or the maximum levels for the specific necessities allowed in Ordinance § 6.8, whichever is less. The sum of these expenses, as calculated for a prospective 30-day period, is the applicant's 30-day need. Applicants will not be considered eligible if their income and other resources exceed this calculation except in an emergency. (22 M.R.S. § 4308(2)) *(see Ordinance § 4.9)*.

Applicants will also not be considered in need of GA if their income, property, credit, assets or other resources available to provide basic necessities for their household are greater than the applicable overall maximum level of assistance set forth in the beginning of Ordinance § 6.8. (22 M.R.S. § § 4301(10), 4305(3-B)). The difference between the applicant's income and the overall maximum levels of assistance established by this Ordinance is the applicant's deficit.

Once an applicant's deficit has been determined, the specific maximum levels of assistance for each basic necessity shall guide Administrator's distribution of assistance for which the applicant is eligible. *(See Ordinance Appendices A-H).* The specific maximum levels of assistance for each basic necessity are intended to be reasonable and sufficient to help recipients maintain a standard of health and decency. (22 M.R.S. § 4305(3-A)).

Income for Basic Necessities. Applicants are required to use their income for basic necessities. Except for initial applicants, no *applicant* is eligible to receive assistance to replace income that was spent within the 30-day period prior to an application for assistance on goods and services that are not basic necessities. All income spent on goods and services that are not basic necessities will be considered available to the applicant and combined with the applicant's prospective 30-day income for the purposes of computing eligibility. (22 M.R.S. § 4315-A). Applicants who have

sufficient income to provide their basic necessities but who use that income to purchase goods or services which are not basic necessities will not be considered eligible for assistance. Persons who exhaust their income on basic necessities and who still need assistance with other basic necessities will be eligible, provided that their income does not exceed the overall maximum level of assistance.

Use-of-Income Requirements. The Administrator may require that anyone applying for GA provide documentation of their use of income. This documentation can take the form of cancelled checks and/or receipts which demonstrate that the applicant has exhausted all household income received over the last 30-day period. Except as is deemed appropriate by the Administrator for "unforeseen" repeat applicants *(See Ordinance § 6.3);* repeat applicants may be required to verify that expenditure of income was for basic necessities. Income expended that cannot be verified will generally be considered available and in such case will be added to the 30-day prospective income.

Allowable expenditures include reasonable shelter costs (rent/mortgage); the cost of heating fuel, electricity, and food up to the ordinance maximums; telephone costs at the base rate if the household needs a telephone for medical reasons, the cost of non-elective medical services as recommended by a physician which are not otherwise covered by medical entitlement, Hospital Free Care or insurance; the reasonable cost of essential clothing and non-prescription drugs, and the costs of any other commodity or service determined essential by the Administrator.

Items not considered to be basic necessities and thus will not be allowed in the budget computation include:

- Internet services
- Cable or satellite television
- Cellular phones, except when deemed essential by the overseer for medical or work related purposes
- Cigarettes/alcohol
- Gifts purchased
- Pet care costs
- Costs of trips or vacations
- Paid court fines
- Repayments of unsecured loans
- Legal fees
- Late fees

- Credit card debt

The municipality reserves the right to apply specific use-of-income requirements to any applicant, other than an initial applicant, who fails to use their income for basic necessities or fails to reasonably document their of income. (22 M.R.S. § 4315-A). Those additional requirements will be applied in the following manner:

1) The Administrator may require the applicant to use some or all of their income, at the time it becomes available, toward specific basic necessities. The Administrator may prioritize such required expenditures so that most or all of the applicant's income is applied to housing (i.e., rent/mortgage), energy (i.e., heating fuel, electricity), or other specified basic necessities;
2) The Administrator will notify applicants in writing of the specific use-of-income requirements placed on them;
3) If upon subsequent application it cannot be determined how the applicant's income was spent, or it is determined that some or all of the applicant's income was not spent as directed and was also not spent on basic necessities, the applicant will not be eligible to receive either regular or emergency general assistance to replace that income; and
4) If the applicant does not spend their income as directed but can show with verifiable documentation that all income was spent on basic necessities up to allowed amounts, the applicant will remain eligible to the extent of the applicant's eligibility and need.

Calculation of Income and Expenses. When determining eligibility, the Administrator will subtract the applicant's net income from the overall maximum level of assistance found at the beginning of Ordinance § 6.8. If income is greater than the overall maximum level of assistance, the applicant will not be eligible except in an emergency *(see Ordinance § 4.9)*. If income is less than the overall maximum level of assistance, the applicant has a deficit.

The municipality will provide assistance in an amount up to the deficit to the extent the applicant also has an unmet need and is in need of basic necessities. The municipality will not grant assistance in excess of the maximum amounts allowed in Ordinance § 6.8 for specific basic necessities except in an emergency or when the

Administrator elects to consolidate the applicant's deficit, as provided immediately below.

Consolidation of Deficit. As a general rule, and to the extent of their deficit, applicants will be eligible for assistance for any basic necessity up to, but not exceeding, the maximum amount allowed for that necessity in this ordinance or the actual 30-day cost of the necessity, whichever is less. Under certain circumstances, however, and in accordance with the following conditions, the Administrator may consolidate the applicant's deficit and apply it toward a basic necessity in an amount greater than the ordinance maximum for that necessity.

1) The practice of consolidating the deficit and applying it toward a basic necessity in amounts greater than the ordinance maximum shall be the exception rather than the rule;
2) The total GA grant cannot exceed the total deficit unless the applicant is in an emergency situation; and
3) The need for the application of the recipient's consolidated deficit toward a basic necessity was not created by the recipient misspending their income or resources in violation of the use-of-income requirements of this ordinance.

Section 6.7—Income

Income Standards. Applicants whose income exceeds the overall maximum level of assistance provided in Ordinance § 6.8 shall not be eligible for GA except in an emergency. Each time an applicant applies, the Administrator will conduct an individual factual inquiry into the applicant's income and expenses.

Calculation of Income. To determine whether applicants are in need, the Administrator will calculate the income they will receive during the next 30-day period commencing on the date of application and identify any assets or resources that would alleviate their need. For all applicants other than initial applicants, the Administrator will also consider as available income any income that was not spent during the previous 30-day period on basic necessities as well as any income that was spent on basic necessities in unreasonable excess of the ordinance maximums for specific basic necessities. If a household's income exceeds the amount of the

household's need for basic necessities, up to the maximum levels contained in Ordinance § 6.8, applicants will not be considered in need.

Exceptions will be made in emergency situations, which may necessitate that the maximum levels be exceeded. (22 M.R.S. § 4308) *(see Ordinance § 4.9)*. To calculate weekly income and expenses, the Administrator will use actual income received or actual anticipated income.

Types of Income. Income that will be considered in determining an applicant's need includes:

a) **Earned Income.** Income in cash or in kind earned by the applicant through wages, salary, commissions, or profit, whether self-employed or as an employee, is considered earned income. If a person is self-employed, total income will be computed by subtracting reasonable and actual business expenses from gross income. When income consists of wages, the amount computed will be the income available after taxes, social security and other payroll deductions required by state, federal, and local law. Rental income and profit from produce that is sold is considered earned income. Income that is held in trust and unavailable to the applicant or the applicant's dependents will not be considered as earned income.

   Note: Actual work-related expenses such as union dues, transportation to and from work, special equipment or work clothes, and childcare costs will be deducted from an applicant's income. (22 M.R.S. § 4301(7)).

b) **Income from Other Assistance or Social Services Programs.** State/federal categorical assistance benefits, SSI payments, Social Security payments, VA benefits, unemployment insurance benefits, and payments from other government sources will be considered as income, unless expressly prohibited by federal law or regulation. Federal law prohibits Food Stamps and Fuel Assistance payments made by the Home Energy Assistance Program (HEAP and EPIC) from being considered income. The value of the food stamps or fuel assistance will not be used to reduce the amount of GA the applicant is eligible to receive. Although applicants may have only a limited or reduced need for GA for heating fuel or electricity if a recently received

HEAP/ECIP benefit has sufficiently credited their account or otherwise prevented the fuel-related costs for the prospective 30-day period.

The Administrator's obligation is to always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid for their total fuel costs. Accordingly, in such cases, the Administrator will budget for the household's heating energy needs according to actual usage, up to the ordinance maximums, but the Administrator may, with written notice to the applicant, hold in reserve the heating energy portion of the applicant's deficit until such a time during the period of eligibility that the applicant has a demonstrable need for the disbursement of heating energy assistance; that is, the applicant's fuel tank can accept a minimum fuel delivery or the applicant no longer has a positive credit balance with their utility company. The municipality is not obligated to divert any recipient's heating energy allowance toward non-heating purposes solely on the basis of the recipient's receipt of HEAP/ECIP.

Other programs whose income cannot be counted for purposes of GA eligibility include:

- Family Development Accounts (22 M.R.S. § 3762)
- Americorp VISTA program benefits (42 U.S.C. § 5044(f))
- Property tax rebates issued under the Maine Property Tax Fairness Credit program, only so long as the money is spent on basic necessities. (22 M.R.S. § 4301(7))

c) **Court-Ordered Support Payments.** Alimony and child support payments will be considered income only if actually received by the applicant. The Administrator will refer cases in which support payments were not actually received to the Maine DHHS Child Support Enforcement Unit. In order to be eligible for future GA benefits, applicants referred to DHHS for support enforcement assistance shall be required to follow-through with such services. Because child support payments are considered a resource, applicants must make a good faith effort to secure such payments.

d) **Income from Other Sources.** Payments from pensions and trust funds will be considered income. Payments from boarders or lodgers will be considered

income as will cash or in-kind contributions provided to the household from any other source, including relatives. (22 M.R.S. § 4301(7)).

e) **Earnings of a Son or Daughter.** Earned income received by sons and daughters below the age of 18 who are full-time students and who are not working full-time will not be considered income. The unearned income of a minor in the household will be considered available to the household.

f) **Income from Household Members.** Income from household members will be considered available to the applicant, whether or not the household member is legally obligated for the support of the applicant, if the household members pool or share their income and expenses as a family or intermingle their funds so as to provide support to one another.

g) **The Pooling or Non-Pooling of Income.** When two or more individuals share the same dwelling unit but not all members of the household are applying for GA, the Administrator shall make a finding under a rebuttable presumption that the entire household is pooling income. (22 M.R.S. § 4301(12-A)).

   One or more applicants for assistance can successfully rebut the presumption that all household income is being pooled by providing the Administrator with verifiable documentation affirmatively demonstrating a pattern of non-pooling during the duration of the shared living arrangement. Such documentation would include evidence of the entire household's expenses, bank statements, cancelled checks, receipts, landlord statements or other vendor accounts clearly supporting a claim that the applicant has been and is presently solely and entirely responsible for their pro-rata share of household costs.

   If the applicant is unable to successfully rebut the municipality's presumption that all household income is being pooled, eligibility of the entire household will be determined based on total household income. If the applicant successfully rebuts the municipality's presumption that all household income is being pooled, the applicant's eligibility will be determined on the basis of their income and their pro-rata share of actual household expenses.

h) **Lump Sum Income.** A lump sum payment received by any GA applicant or recipient prior or subsequent to the date of application for GA will be considered as income available to the household. However, verified required

payments (i.e., any third-party payment which is required as a condition of receiving the lump sum payment, or any payments of bills earmarked for the purpose for which the lump sum payment was made) and any amount of the lump sum payment which the applicant can document was spent on basic necessities, as described below, will not be considered available income.

Where a household receives a lump sum payment at any time prior or subsequent to the date of application for GA, the Administrator will assess the need for prorating an applicant's eligibility for GA according to the following criteria. (22 M.R.S. § 4301(7), (8-A)):

1) identify the date the lump sum payment was received;
2) subtract from the lump sum payment all required payments;
3) subtract from the lump sum any amount the applicant can demonstrate was spent on basic necessities, including all basic necessities as defined by the GA program such as: reasonable payment of funeral or burial expenses for a family member; any reasonable travel costs related to the illness or death of a family member; repair or replacement of essentials lost due to fire, flood or other natural disaster; repair or purchase of a motor vehicle essential for employment, education, training or other day-to-day living necessities. Repayments of loans or credit, the proceeds of which can be verified as having been spent on basic necessities; and payment of bills earmarked for the purpose for which the lump sum is paid must also be subtracted. (22 M.R.S. § 4301(7), (8-A));
4) add to the remainder all income received by the household between the date of receipt of the lump sum payment and the date of application for GA; and
5) divide the sum created in subsection (4) by the verified actual monthly amounts for all of the household's basic necessities. 22 M.R.S. § 4305(3-B).

This dividend represents the period of proration determined by the Administrator to commence on the date of receipt of the lump sum payment. The prorated sum for each month must be considered available to the household for 12 months from the date of application or during the period of proration, whichever is less.

The household of an initial applicant that is otherwise eligible for emergency assistance may not be denied emergency assistance to meet an immediate need solely on the basis of the proration of a lump sum payment. (22 M.R.S. § 4308).

Section 6.8—Basic Necessities; Maximum Levels of Assistance

Overall Maximum Levels of Assistance. Notwithstanding any of the maximum levels of assistance for specific basic necessities listed in Ordinance Appendices B-H, an applicant's eligibility for GA will be first determined by subtracting their income from the overall maximum level of assistance designated in Appendix A for the applicable household size. (22 M.R.S. § 4305 (3-B)). The difference yielded by this calculation shall be the applicant's deficit.

Applicants will be eligible for GA up to the calculated deficit to the extent the applicant is unable to otherwise provide the basic necessities essential to maintain themselves or their families. Applicants with no deficit shall be found ineligible for GA unless they are in an emergency, in which case eligibility for emergency GA will be determined according to Ordinance § 4.9.

Maximum Levels of Assistance for Specific Basic Necessities. The municipality will grant assistance to eligible applicants for basic necessities according to the maximum levels for specific types of assistance set forth below. The Administrator, in consultation with the applicant, may apply the amount of the applicant's deficit toward assistance with any one or combination of necessities not to exceed the total deficit. These maximum levels will be strictly adhered to unless the Administrator determines that there are exceptional circumstances and an emergency is shown to exist, in which case these absolute levels will be waived in order to meet immediate needs.

Note. The municipality cannot exceed maximum levels of assistance for an applicant household for more than 30 days in a 12-month period when assistance is granted for housing in a hotel, motel, inn or other lodging place.

In all cases either the actual expenses the applicant incurs for basic necessities or the maximum amount allowed in each category, whichever is less, will be used in determining need.

In roommate situations, the applicant's need for common living expenses for rent, fuel, electricity, etc., will be presumed to be reduced by an amount equal to the other household members' proportionate fair share of the common living expenses. No applicant will be allowed to claim a need for any expense which has been or will be paid by another person. In addition, as a general rule the municipality will not provide a benefit toward a basic need by paying a bill that is issued to a person not living with the applicant's household or that has otherwise been incurred by a person who has not been found eligible to receive assistance.

Temporary exceptions to this general rule may be made by the Administrator in the following circumstances: (1) a recent, unplanned separation has occurred in the household resulting in the sustained or permanent absence of a former household member in whose name the bill was customarily issued; (2) the applicant and members of the applicant's household were or will be the sole recipients of the commodities or services covered by any bill to be paid or partially paid with GA; and (3) the applicant will make a good faith effort to direct the vendor to issue future bills in the name of the applicant or other responsible person residing in the household.

(A) **Food.** The Administrator will provide food assistance to eligible persons up to the allowed maximum amounts designated by the U.S.D.A. Thrifty Food Plan for the appropriate household size.

For this purpose, the municipality hereby incorporates by reference the U.S.D.A. Thrifty Food Plan, as distributed by the Maine DHHS on or about October of each year. See Ordinance Appendix B for the current year's food maximums.

In determining need for food, the Administrator will not consider the value of the food stamps an applicant receives as income. (22 M.R.S. § 4301.7(A); 7 U.S.C. § 2017(b)). The municipality will authorize vouchers to be used solely for approved food products.

The Administrator will exceed the maximums when necessary for households having members with special dietary needs. The Administrator may require a doctor's statement verifying there is a special dietary need requiring an expenditure for food that is greater than the ordinance maximums.

(B) **Housing.** The Administrator will provide assistance with rent or mortgage payments that are reasonable and/or within the allowed maximum levels. See Ordinance Appendix C for the current year's housing maximums. It is the applicant's responsibility to find suitable housing, although the Administrator may help the applicant find housing when appropriate. The Administrator will inform the applicant of the allowed housing maximums to assist the applicant in their search for housing. The allowed maximum for any applicant will be the categorical housing maximum representing the minimum dwelling unit space necessary to adequately shelter the applicant household. Applicants requesting assistance for housing that contains more bedrooms than are necessary for the number of household members will be provided assistance according to the maximum level for the number of rooms actually needed.

Rental Payments to Relatives. The municipality may elect to not issue any rental payment to an applicant's relatives unless the rental relationship has existed for at least three months and the applicant's relative(s) rely on the rental payment for their basic needs. For the purpose of this section, a "relative" is defined as the applicant's parents, grandparents, children, grandchildren, siblings, parent's siblings, or any of those relative's children. (22 M.R.S. § 4319(2)).

Rental Payments to Non-Relatives. When applicants are living in private homes with the owner or sharing dwelling units with people who are not pooling income or who are not legally liable relatives, the amount allowed as the applicant's shelter expense will be the applicant's pro rata share of the actual, total shelter cost, up to the ordinance maximum. (22 M.R.S. § 4301(6)).

Any housing assistance issued to a recipient in such a circumstance will be issued, whenever reasonably possible, to the landlord or property owner with the most superior interest in the property; i.e., to a landlord before a tenant, or to a mortgagee before a mortgagor.

When the municipality issues in aggregate more than $600 in rental payments to any landlord in any calendar year, a 1099 form declaring the total amount of rental

payments issued during the calendar year will be forwarded to the Internal Revenue Service (IRS) pursuant to IRS regulation (see § 6041(a) of Internal Revenue Code).

Any landlord wishing to regularly receive rental payments from the municipality on behalf of applicants renting rooms from the landlord's own residence must, at a minimum, make a good faith effort to obtain a lodging license from the DHHS Division of Health Engineering, pursuant to 10-144A CMR, Chapter 201, as a condition of that landlord receiving future GA payments on behalf of their tenants.

Mortgage Payments. In the case of a request for assistance with a mortgage payment, the Administrator will make an individual factual determination of whether the applicant has an immediate need for such aid. In making this determination, the Administrator will consider the extent and liquidity of the applicant's proprietary interest in the housing. Factors to consider in making this determination include:

(1) the marketability of the shelter's equity;
(2) the amount of equity;
(3) the availability of the equity interest in the shelter to provide the applicant an opportunity to secure a short-term loan in order to meet immediate needs;
(4) the extent to which liquidation may aid the applicant's financial rehabilitation;
(5) a comparison between the amount of mortgage obligations and the anticipated rental charges the applicant would be responsible for if they were to be dislocated to rental housing;
(6) the imminence of the applicant's dislocation from owned housing because of their inability to meet the mortgage payments;
(7) the likelihood that the provision of housing assistance will prevent such dislocation; and
(8) the applicant's age, health, and social situation.

These factors shall be considered when determining whether the equity in the shelter is an available asset which may be substituted for the assistance the municipality would otherwise be required to provide.

The Administrator shall consider issuing a benefit in response to the applicant's request for mortgage assistance to the extent the applicant is otherwise eligible for GA if after review of the criteria above, the Administrator determines that:

(1) the monthly mortgage obligation is in accordance with the maximum levels of assistance available for housing appropriate to the applicant's household size;
(2) there is no capacity in the accumulated equity in the property, when considered in the context of the applicant's borrowing capacity with the mortgagee or the general lending community, to suspend the mortgage obligation temporarily or re-amortize the mortgage in such a way as to suspend or reduce the mortgage obligation; and
(3) the failure to provide a mortgage payment in a timely manner could jeopardize the applicant's continued right of possession of the property.

If a mortgage payment is necessary, the Administrator will pay the actual amount due, up to the amount allowed according to the maximum levels listed below. After an initial application, assistance with such payments will be given only after the applicant has made all reasonable efforts to borrow against the equity of their home. If there is not sufficient equity in the home with which to secure a loan, and if the monthly mortgage payments are not realistically in line with the rental rates for similar housing in the area that could meet the applicant's needs, the Administrator will inform the applicant that they are responsible for finding alternative housing within their ability to pay and will be obligated to make all reasonable efforts to secure such housing.

Liens. The municipality may place a lien on the property in order to recover its costs of granting assistance with mortgage payments. In addition, a municipality may claim a lien against the owner of real estate for the amount of money spent by it to make capital improvements to the real estate. (22 M.R.S. § 4320). No lien may be enforced against a recipient except upon their death or the transfer of the property. Further, no lien may be enforced against a person who is currently receiving any form of public assistance, or who would again become eligible for GA if the lien were enforced.

If the municipality determines that it is appropriate to place a lien on a person's property to recover its costs of providing GA for a mortgage payment or capital

improvement it must file a notice of the lien with the county registry of deeds where the property is located within 30 days of making the mortgage payment. That filing shall secure the municipality's or the state's interest in an amount equal to the sum of that mortgage or capital improvement payment and all subsequent mortgage or capital improvement payments made on behalf of the same eligible person, plus interest and costs.

Not less than 10 days prior to filing the lien in the registry, the municipal officers must send notice to the owner of the real estate, the GA recipient, and any record holder of the mortgage by certified mail, return receipt requested, that a lien on the property is going to be filed with the registry. This notice must clearly inform the recipient of the limitations upon enforcement plus the name, title, address and telephone number of the person who granted the assistance. The municipal officers must also give written notice to the recipient each time the amount secured by the lien is increased because of an additional mortgage payment. This notice must include the same information that appeared on the original intent-to-file notice sent to the recipient.

The municipality may charge interest on the amount of money secured by the lien. The municipal officers will establish the interest rate not to exceed the maximum rate of interest allowed by the State Treasurer to be charged against delinquent taxes. The interest will accrue from the date the lien is filed.

Property Taxes. In the event an applicant requests assistance with their property taxes, the Administrator will inform the applicant that there are two procedures on the local level to request that relief: the poverty abatement process (36 M.R.S. § 841(2)) and GA. If the applicant chooses to seek property tax assistance through GA, or if the applicant is denied a poverty tax abatement, the Administrator may consider using GA to meet this need only if:

a) the property tax in question is for the applicant's place of residence;
b) there is a tax lien on the property which is due to mature within 60 days of the date of application;
c) as a matter of municipal policy or practice, or on the basis of information obtained from the applicant's mortgagee, if any, it is reasonably certain that

a tax lien foreclosure will result in subsequent eviction from the residential property; and

d) the applicant, with sufficient notice, applies for property tax relief through the Maine Property Tax Fairness Credit program, when available.

Housing Maximums. The maximum levels of housing assistance contained in this ordinance have been derived either from a locally accomplished fair market rental survey or the fair market rental values developed by the U.S. Department of Housing and Urban Development (HUD). If the maximum levels of housing are derived from the HUD values made effective as of every October 1, and adjusted to disregard the current and averaged utility allowances as developed by the Maine State Housing Authority, those levels are hereby incorporated by reference. See Ordinance Appendix C for the current year's housing maximums.

If and when the maximum levels of housing assistance in this Ordinance are derived from a locally developed fair market rental survey, a record of that survey will be submitted to the DHHS, General Assistance Unit, and the maximum levels of housing assistance will be incorporated into this Ordinance pursuant to the ordinance adoption and amendment procedures found at 22 M.R.S. § 4305.

(C) **Utilities.** Expenses for lights, cooking, and hot water will be budgeted separately if they are not included in the rent. Applicants are responsible for making arrangements with the utility company regarding service, including entering into a special payment arrangement if necessary.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not obligated to pay back bills or utility security deposits. Exceptions may be made in emergency situations pursuant to section 4.9.

Disconnection of utility service will not be considered an emergency in all cases. The Administrator will make an individual, factual analysis to determine if the termination of utility service constitutes an emergency. The Administrator will consider the household composition, the time of year, the age and health of the household members, and other appropriate factors in reaching a decision. Applicants who had sufficient income, money, assets or other resources to pay

their utility bill when it was received, but who spent all or part of their income on items which were not basic necessities, will not be eligible to receive GA to replace those funds.

Applicants have the burden of providing evidence of their income and use of income for the applicable time period (22 M.R.S. § 4308(2)) *(see Ordinance § § 4.9; 6.3)*. The Administrator will notify applicants in writing that they must give the Administrator prompt notice if their utility service is to be terminated or if their fuel supply is low. It is the applicant's responsibility to attempt to make arrangements with the utility company to maintain their service and to notify the Administrator if assistance is needed with a utility bill prior to service being terminated.

Electricity Maximums for Households Without Electric Hot Water. See Ordinance Appendix D for the current year's electricity maximums.

Electricity Maximums for Households that Use Electrically Heated Hot Water. See Ordinance Appendix D for the current year's electricity maximums.

Non-Electric Utilities. The allowed amount for water and sewer utility service will be budgeted at a 30-day reasonable usage rate.

(D) **Fuel.** Expenses for home heating will be budgeted according to the actual need for fuel during the heating season (September through May) provided such expenses are reasonable, and at other times during the year when the Administrator determines the request for fuel assistance is reasonable and appropriate.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not responsible for back bills except in an emergency as provided in Ordinance § 4.9. Applicants are responsible for monitoring their fuel supply and requesting assistance prior to depleting their fuel supply. When applicants who have been informed of this responsibility run out of fuel nonetheless, and can show no just cause for failing to give the Administrator timely notice of their need for fuel, the Administrator shall find that the emergency was not beyond the applicants' control, and process the emergency

request accordingly, pursuant to Ordinance § 4.9. See Ordinance Appendix E for the current year's fuel maximums.

(E) **Personal Care and Household Supplies.** Expenses for ordinary personal and household supplies will be budgeted and allowed according to the applicant's actual need for these items. Personal and household supplies include: hand soap, toothpaste, shampoo, shaving cream, deodorant, dish detergent, laundry supplies and costs, household cleaning supplies, razors, paper products such as toilet paper, tissues, paper towels, garbage/trash bags light bulbs and supplies for children under 5 years of age. See Ordinance Appendix F for the current year's personal care and household supplies maximums.

(F) **Other Basic Necessities.** Expenses falling under this section will be granted when they are deemed essential to an applicant's or recipient's health and safety by the Administrator and, in some cases, upon verification by a physician. Assistance will be granted only when these necessities cannot be obtained through the utilization of available resources.

1) **Clothing.** The municipality may assist a household with the purchase of adequate clothing. Before assistance will be granted for clothing, the general assistance Administrator must be satisfied that the applicant has utilized all available resources to secure the necessary clothing. In some circumstances, clothing will be a postponable item. Exceptions to this would be, for example, if fire, flood or unusually cold weather makes extra clothing an immediate necessity, special clothing is necessary for the applicant's employment, or a household member is without adequate clothing.
2) **Medical.** The municipality will pay for essential medical expenses, other than hospital bills *(see below)*, provided that the municipality is notified and approves the expenses and services prior to their being made or delivered. Medical expenses include prescriptions, devices, treatments, or services that are determined to be 'medically necessary' by a licensed physician. The municipality will grant assistance for medical services only when assistance cannot be obtained from any other source and the applicant would not be able to receive necessary medical care without the municipality's assistance. The applicant is required to utilize any resource, including any federal or state

program, that will diminish their need to seek general assistance for medical expenses. The municipality will grant assistance for non-emergency medical services only if a physician verifies that the services are essential. Provided there is no cost to the applicant, the Administrator may require a second medical opinion from a physician designated by the municipality to verify the necessity of the services.

Generally, the municipality will issue GA at the established Medicaid rates for all medical services, prescriptions, or other medical commodities. Before authorizing GA for any medical expenses, the Administrator will inform the pharmacy or medical service provider of the municipality's intention to pay for the medical service at the Medicaid rate and ask to be billed accordingly.

Ordinary medical supplies/non-prescription drugs will be budgeted at the actual amount when the applicant can demonstrate a need for such items. Allowable supplies include bandages, aspirin, cough syrup, and other generic brand, non-prescription medicines. In addition, the basic monthly rate for telephone service will be budgeted when a telephone is essential to the health and safety of the household. In order for telephone service to be considered an allowable expense the applicant must provide a written statement from a physician certifying that the telephone is essential.

3) **Hospital Bills.** In the event of an emergency admission to the hospital, the hospital must notify the Administrator within 5 business days of the admission. Notification must be by telephone, confirmed by certified mail, or by certified mail only. If a hospital fails to give timely notice to the Administrator, the municipality will have no obligation to pay the bill.

   Any person who cannot pay their hospital bill must apply to the hospital for consideration under the Hospital's Free Care Program as provided in Title 22 M.R.S. § 1716. Anyone who is not eligible for the hospital's free care program may apply for GA. Applicants must apply for assistance within 30 days of being discharged from the hospital and provide a notice from the hospital certifying that they are not eligible for the hospital's free care program.

Before the Administrator will consider whether to allow a hospital bill as a necessary expense, the applicant must enter into a reasonable payment arrangement with the hospital. The payment arrangement will be based upon the Medicaid rate. In determining an applicant's eligibility, the municipality will budget the monthly payment to the hospital the applicant has agreed to pay. The applicant's need for assistance with a hospital bill will be considered each time they apply by including the amount of the bill in the applicant's monthly budget, but the recipient will be responsible for making any necessary payments to the hospital pursuant to the use-of-income requirements found at Ordinance § 6.6.

4) **Dental.** The municipality will pay for medically necessary dental services only. As is the case with medical services generally, the municipality will issue GA for dental services at the established Medicaid rates for those services, and before authorizing the GA benefit for dental services, the Administrator will inform the dentist or dental surgeon of the municipality's intention to pay at the Medicaid rate. If full mouth extractions are necessary, the municipality will pay for dentures provided the applicant has no other resources to pay for the dentures. The applicant will be referred to a dental clinic in the area whenever possible. The Administrator will expect the applicant to bear a reasonable part of the cost for dental services, including extractions and dentures, taking into account the applicant's ability to pay.
5) **Eye Care.** In order to be eligible to receive GA for eyeglasses, an applicant must have their medical need certified by a person licensed to practice optometry. The Administrator will provide assistance for eyeglasses to eligible persons only after the applicant has exhausted all other available resources and generally only at the Medicaid rate.
6) **Telephone Charge.** A payment for basic telephone will only be allowed if a telephone is necessary for medical reasons as verified by a physician. At the discretion of the GA Administrator, minimum/basic telephone services may be allowed for households with children, for households where job search or work-related reasons exist and/or for any other reasons the Administrator deems necessary.

7) **Work-Related Expenses.** In determining need, reasonable and actual work-related expenses will be deducted from earned income. These expenses include childcare costs, work clothes, supplies and transportation at the actual costs not to exceed the ordinance maximum. See Ordinance Appendix G for the current maximum mileage allotment. The applicant is required to provide documentation substantiating the costs and that the expenses were necessary.

8) **Travel Expenses.** In determining need, necessary travel which is not work-related will be budgeted if the applicant can satisfy the Administrator that the prospective need for travel is necessary. For applicants in rural areas, weekly transportation to a supermarket will be considered, as will any medically necessary travel. See Ordinance Appendix G for the current rate at which such necessary travel will be budgeted. This rate shall be construed to subsidize all costs associated with automobile ownership and operation, including gas/oil, tires, maintenance, insurance, financing, licensing/registration, excise tax, etc.

9) **Burials, Cremations.** Under the circumstances and in accordance with the procedures and limitations described below *(see Ordinance § 6.9)*, the municipality recognizes its responsibility to pay for the burial or cremation of eligible persons. See Ordinance Appendix H for the current maximums.

10) **Capital Improvements.** The costs associated with capital improvements/repairs (e.g., heating/water/septic system repair) will generally not be budgeted as a basic necessity. Exceptions can be made only when the capital improvement/repair has been pre-approved by the Administrator as a necessary expense and the monthly cost of the capital improvement/repair has been reduced as far as reasonably possible; for example, by means of the applicant entering into an installment payment arrangement with the contractor. The Administrator may grant GA for capital improvements when:

    1) the failure to do so would place the applicant(s) in emergency circumstances;
    2) there are no other resources available to effect the capital repair; and

3) there is no more cost-effective alternative available to the applicant or municipality to alleviate an emergency situation.

In some cases, the entire immediate cost of the capital improvement can be mitigated by the applicant entering into an installment payment arrangement with a contractor. The municipality reserves the right to place a lien on any property pursuant to 22 M.R.S. § 4320 when GA has been used to effect a capital improvement. The lien process shall be accomplished in the same manner as for mortgage payments, as described in subsection (B) "Liens", above.

Section 6.9—Burials; Cremations

Funeral Director Must Give Timely Notice. In order for the municipality to be liable for a burial or cremation expense, the funeral director must notify the Administrator prior to the burial or cremation or by the end of three business days following the funeral director' receipt of the body, whichever is earlier. (22 M.R.S. § 4313(2)). This contact by the funeral director shall begin the process of developing an application for burial/cremation assistance on behalf of the deceased. It is the funeral director's responsibility to make a good-faith effort to determine if the family or any other persons are going to pay all or part of the burial expenses. If family members or others are unable to pay the expenses, and the funeral director wants the municipality to pay all or part of the expenses, the funeral director must make timely contact to the Administrator. In addition, the funeral director may refer legally liable relatives to the Administrator so that a timely determination of financial capacity may be accomplished.

Application for Assistance Shall be Calculated on Behalf of the Deceased. For the purposes of determining residency, calculating eligibility and issuing GA for burial or cremation purposes, an application for assistance shall be completed by the Administrator on behalf of the deceased.

With regard to residency, the municipality of responsibility for burial expenses shall be the municipality in which the eligible deceased person was a resident at the time of death as residency is determined under Ordinance § 4.10.

Although legally liable relatives may be asked to provide information regarding their income, assets, and basic living expenses, that information will not be construed as an application for GA in as much as living persons are not eligible for burial assistance. To clarify this point of law, although legally liable relatives have a financial responsibility to pay for the burial or cremation of their relatives, that financial responsibility only exists to the extent the legally liable relatives have a financial capacity to do so. Therefore, legally liable relatives who are themselves eligible for GA, have no legal obligation to pay for the burial or cremation of their relatives. For these reasons, all GA issued for burial or cremation purposes shall be issued on behalf of, and in the name of, the deceased.

The Financial Responsibility of Certain Family Members. Grandparents, parents, children and grandchildren of the deceased whether or not living in or owning property in Maine, and the spouse or registered domestic partner of the deceased, are financially responsible for the burial or cremation of the deceased to the extent those relatives, individually or as a group, have a financial capacity to pay for the burial or cremation either in lump sum or by means of a budgeted payment arrangement with the funeral home. Accordingly, at the request of the Administrator, all legally liable relatives must provide the Administrator with any reasonably requested information regarding their income, assets, and basic living expenses. The Administrator may also seek information from financial institutions holding assets of the deceased. Maine law requires a financial institution to disclose the amount deposited in the corporation or association when the municipality or its agents are acting in accordance with section 4313(2) and provide a written request and a notarized affidavit signed by the Administrator of the municipality or its agents stating that the named depositor is deceased.

Consideration of the Financial Responsibility of Family Members. Generally, when the Administrator can make a finding that one or more of the deceased's legally liable relatives have an obvious and demonstrable financial capacity to pay for the burial or cremation, by lump sum payment or by means of a reasonable payment arrangement, the municipality will not grant the requested burial or cremation assistance. When the Administrator is unable to make such a finding, the following proration of familial responsibility will be implemented.

Proration of Familial Responsibility. A proration of familial financial responsibility will be used when no legally liable relative possesses an obvious and demonstrable capacity to pay for the burial or cremation, but one or more of the financially liable relatives is found to have a financial capacity to make a partial financial contribution, or the Administrator is unable to determine the financial capacity of one or more of said relatives.

Under these circumstances, each legally liable relative is considered to be responsible for their pro rata share of the total municipal contribution that would exist if no legally liable relatives had a financial capacity to contribute. Furthermore, and as long as all other eligibility factors have been satisfied, the municipality will provide as a burial or cremation benefit the aggregate of all pro rata shares less the share of any legally liable relative who refuses to cooperate with the Administrator by providing information or documentation reasonably necessary to determine that relative's financial capacity, and less any share or part of a share attributable to a legally liable relative who can financially contribute or partially contribute toward the burial or cremation to the extent of that relative's share.

Eight Days to Determine Eligibility. The Administrator may take up to 8 days from the date of an application for burial/cremation assistance to issue a written decision regarding the amount of the municipal contribution toward the burial or cremation. The 8-day eligibility determination period from the date of application shall be used as necessary to make third-party collateral contacts, verify the listing of legally liable family members and determine their respective financial capacities to contribute to the burial or cremation, contact the personal representative of the deceased's estate, if any, and other related administrative tasks. The Administrator shall not use this 8-day period allowed by law to unreasonably delay the municipality's decision.

The Municipal Obligation to Pay When Legally Liable Relatives or Others Can Contribute. The figures provided in this section are the maximum benefits provided by the municipality when no contributions toward the burial or cremation are available from any other source. To the extent any legally liable relatives of the deceased have a financial capacity to pay for the burial or cremation, that financial capacity shall be deducted from the maximum burial costs allowed by this section. In addition, any

other benefits or resources that are available, such as Social Security burial benefits, veterans' burial benefits, or contributions from other persons, will be deducted from the maximum amount the municipality will pay, except there will be no deduction from the municipal benefit level with respect to any contribution provided for the purpose of publishing an obituary notice up to an aggregate contribution limit for this purpose of $75 when a paid receipt demonstrating the purchase of an obituary notice is provided to the Administrator.

Burial Expenses. The Administrator will respect the wishes of family members concerning whether the deceased is interred by means of burial or cremated. See Ordinance Appendix H for the maximum levels of burial assistance.

Cremation Expenses. In the absence of any objection by any family members of the deceased, or when neither the Administrator nor the funeral director can locate any family members, the Administrator may issue GA for cremation services. See Ordinance Appendix H for the maximum assistance levels for cremations.

Section 6.10—Notice of Decision

Written Decision. Each time a person applies, the Administrator will provide a written decision to the applicant after making a determination of eligibility. The decision will be given to the applicant within 24 hours after a completed and signed application is received (22 M.R.S. § 4305(3)) *(see Ordinance § 4.6)*.

In order to comply with the statutory requirement to issue a decision within 24 hours, if an applicant submits an incomplete or unsigned application, the Administrator may decide to issue a notice of "ineligibility" and provide the applicant with another application to submit as soon as is practicable for the applicant.

The Administrator must explain the applicant's right to a fair hearing in the Administrator's written notice of decision.

Contents of Decision. After an application has been completed, applicants will be given written notice of any decision concerning their eligibility for assistance. In addition to the items listed in Ordinance § 4.6, the notice of decision will include a statement that:

a) the applicant has the right to a fair hearing and how to request a fair hearing, and;
b) the applicant has the right to contact the DHHS if they believe the municipality has violated the law. The decision will include contact information for the appropriate DHHS office.

Disbursement of General Assistance. Except when the Administrator determines it is impractical, all GA will be provided as a voucher or purchase order payable to a vendor or through direct municipal payment to a provider of goods or services. GA will not be issued in the form of a cash payment to an applicant unless there is no alternative to the cash payment, in which case the Administrator shall document the circumstances requiring GA to be issued in the form of cash. (22 M.R.S. § 4305(6)).

ARTICLE VII – The Fair Hearing

Section 7.1—Right to a Fair Hearing

Within 5 working days of receipt of a written notice of denial, reduction or termination of assistance, or within 10 working days after any other act or failure to act, the applicant or their authorized representative has the right to request a fair hearing. (22 M.R.S. § 4322). The right to review a decision of the Administrator is a basic right of the applicant to a full evidentiary hearing and is not limited solely to a review of the decision.

Section 7.2—Method of Obtaining a Fair Hearing

Upon receiving notification of the decision of the Administrator, all claimants will be informed of how to request a fair hearing. All complaints that are not clear requests for a fair hearing will be answered by a personal interview or in writing by the Administrator. If the client is satisfied with the adjustment or explanation, the Administrator will make an entry in the case record and file any correspondence involved.

Written Request. To obtain a fair hearing, the claimant, or their authorized representative, must make a written request within 5 working days of receipt of the Administrator's decision to grant, deny, reduce or terminate assistance, or within 10 working days after any other act or failure to act. The Administrator will make a form available to request a fair hearing and will assist the claimant in completing it if necessary. On the printed form, the claimant will give the following information:

a) the decision on which review is sought;
b) the reason(s) the claimant is dissatisfied and why the claimant believes they are eligible to receive assistance; and
c) the relief sought by the claimant.

The Administrator may not deny or dismiss a request for a hearing unless it has been withdrawn (in writing) by the claimant.

Scheduling the Fair Hearing. Upon receipt of the completed written request, the FHA must meet and hold the hearing within 5 working days. The Administrator will notify

the claimant in writing when and where the hearing will be held. (22 M.R.S. § 4322). In addition to the date, time and place of the hearing, the notice of fair hearing shall include, at a minimum, the claimant's rights to:

a) be their own spokesperson at the fair hearing, or at the claimant's own expense be represented by legal counsel or another;
b) confront and cross-examine any witnesses presented at the hearing; and
c) present witnesses on their own behalf.

Arrangements for the date, time, and place of the hearing will take into consideration the convenience of the claimant and hearing authority. The claimant will be given timely notice to allow for preparation and will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of their case.

Section 7.3—The Fair Hearing Authority

The municipal officers will appoint a fair hearing authority (FHA) that will determine, based on all the evidence presented at the fair hearing, whether the claimant(s) were eligible to receive assistance at the time they applied for GA. The FHA is charged with ensuring that GA is administered in accordance with state law and this ordinance.

The FHA may consist of the municipal officers, one or more persons appointed by the municipal officers to act as the FHA, or, if designated by ordinance, a municipal board of appeals created under 30-A M.R.S. § 2691. (22 M.R.S. § 4322). In determining the FHA, the municipal officers will ensure that all person(s) serving as FHA must:

a) have not participated in the decision which is the subject of the appeal;
b) be impartial;
c) be sufficiently skilled in interviewing techniques to be able to obtain evidence and the facts necessary to make a fair determination; and
d) be capable of evaluating all evidence fairly and realistically, explaining to the claimant the laws and regulations under which the Administrator operated, and conveying to the Administrator any evidence of unsound, unclear, or inadequate policies, practices or actions.

Section 7.4—Fair Hearing Procedure

At the time that written notice of the date, time, and place of the fair hearing is provided to a claimant, they will also be given adequate information about the hearing procedure to allow them to effectively prepare their case. The claimant shall be permitted to review their file before the hearing. At a minimum, the claimant will be provided with the following information regarding fair hearing procedures. All fair hearings will:

a) be conducted in private, with only to the claimant, witnesses, the claimant's legal counsel, others whom the claimant wants present, and Administrator, the Administrator's agents, counsel and witnesses present;
b) be opened with a presentation of the issue by the FHA;
c) be conducted informally, without technical rules of evidence, but subject to the requirements of due process;
d) allow the claimant and the Administrator the option to present their positions for themselves or with the aid of others, including legal counsel;
e) give all participants an opportunity to present oral or written testimony or documentary evidence, offer rebuttal; question witnesses presented at the hearing; and examine all evidence presented at the hearing;
f) result in a decision, based exclusively on evidence or testimony presented at the hearing; and
g) be tape recorded, and result in a written decision that is given to the claimant and filed with evidence introduced at the hearing. The FHA will allow the claimant to establish all pertinent facts and circumstances, and to advance any arguments without undue interference. Information that the claimant does not have an opportunity to hear or see will not be used in the fair hearing decision or made part of the hearing record. Any material reviewed by the FHA must be made available to the claimant or their representative. The claimant will be responsible for preparing a written transcript if they wish to pursue court action.

The FHA shall admit all evidence if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs. (22 M.R.S. § 4322).

Claimant's Failure to Appear. If the claimant fails to appear at the hearing, the FHA will send a written notice to the claimant indicating that the Administrator's decision remains unchanged because of the claimant failure to appear. The notice will state that the claimant has 5 working days from receipt of the notice to provide the Administrator with information demonstrating "just cause," for failure to appear.

"Just cause" for a claimant's failure to appear at a fair hearing, may include:

a) a death or serious illness in the family;
b) a personal illness which reasonably prevents the party from attending the hearing;
c) an emergency or unforeseen event which reasonably prevents the party from attending the hearing;
d) an obligation or responsibility which a reasonable person in the conduct of their affairs could reasonably conclude takes precedence over the attendance at the hearing; or
e) lack of receipt of adequate or timely notice; excusable neglect, excusable inadvertence, or excusable mistake.

If the claimant (or his/her attorney) establishes that just cause existed, the request for the hearing will be reinstated and a hearing rescheduled.

If a claimant who is represented by legal counsel fails to appear at a fair hearing, legal counsel shall not testify in place of the claimant on matters of 'fact' but may cross examine witnesses and make 'legal' arguments on behalf of the claimant.

Section 7.5—The Fair Hearing Decision

The FHA's decision will be binding on the Administrator, and will be communicated in writing to the claimant within 5 working days after completion of the hearing. Written notice of the decision will contain:

a) a statement of the issue;
b) relevant facts brought out at the hearing;
c) pertinent provisions in the law or GA ordinance related to the decision; and
d) the FHA's decision and the reasons for it.

A copy of the decision will be given to the claimant. The hearing record and the case record will be maintained by the Administrator.

The written decision will state that if the claimant is dissatisfied with the fair hearing decision, they may appeal pursuant to Maine Rule of Civil Procedure, Rule 80B. To take advantage of this right, the claimant must file a petition for review with the Superior Court within 30 days of receipt of the fair hearing decision.

When the decision by the FHA or court authorizes assistance to the claimant, the assistance will be provided within 24 hours.

ARTICLE VIII – Recovery of Expenses

Recipients. The municipality may recover the full amount of assistance granted to a person from either the recipient or from any person liable for the recipient, or their executors or administrators in a civil action. However, prior to recovering assistance granted, the municipality shall "offset" the value of any workfare performed by a GA recipient against the repayment obligation, at a rate not less than minimum wage.

Before filing a court action to seek repayment of GA benefits previously provided to a recipient, the municipality will seek voluntary repayment after written notice and discussion with the recipient However, the municipality will not attempt to recover such amounts if, as a result of the repayment, the recipient would again become eligible for GA. (22 M.R.S. § 4318).

Recipients Anticipating Workers' Compensation Benefits. The municipality shall claim a lien on any lump sum payment under the Workers' Compensation Act or similar law of any other state, which lien shall equal the value of all GA payments made to a recipient of any such lump sum payment. (22 M.R.S. § 4318, 39-A M.R.S. § 106). After issuing any GA on behalf of a recipient who has applied for or is receiving Workers' Compensation, the municipality shall file a notice of the municipal lien with the GA recipient and the Maine Office of Secretary of State, Uniform Commercial Code division.

The notice of lien shall be filed on a UCC-1 form which must be signed by the GA recipient who has applied for or is receiving Workers' Compensation. Any GA applicant who has applied for or who is receiving Workers' Compensation benefits and who refuses to sign a properly prepared UCC-1 form will be found ineligible to receive GA until they provide the required signature. The municipality shall also send a photocopy of that filing to the recipient's Worker's Compensation attorney, if known, the applicant's employer or the employer's insurance company, and, at the Administrator's discretion, to the Workers' Compensation Board. The lien shall be enforced at the time any lump sum Workers' Compensation benefit is issued.

Recipients of SSI. All applicants who receive GA while receipt of their Supplemental Security Income (SSI) assistance is pending or suspended (and which therefore may

be retroactively issued to the applicant at a later date), will be required to sign a statement on an Interim Assistance Agreement form distributed by the DHHS that authorizes the Social Security Administration to direct a portion of any retroactive SSI payment to the municipality and/or the state in repayment for the GA granted. Any GA applicant who has applied for or who may be applying for SSI, or who may be required to apply for SSI pursuant to 22 M.R.S. § 4317, and who refuses to sign the Interim Agreement SSI authorization form will be found ineligible to receive GA until they provide the required signature. (22 M.R.S. § 4318).

Relatives. The spouse of an applicant, and the parents of any applicant under the age of 25, are liable for the support of the applicant (22 M.R.S. § 4319). In addition, the grandchildren, children, parents, grandparents, the spouse and a registered domestic partner, are liable for the burial costs of each other. The municipality considers these relatives to be available resources and liable for the support of their relatives in proportion to their respective ability. The municipality may complain to any court of competent jurisdiction to recover any expenses made on behalf of a recipient if the relatives fail to fulfill their responsibility. (22 M.R.S. § 4319).

ARTICLE IX – Severability

If any provision of this ordinance is declared invalid by a court of competent jurisdiction, such decision shall not invalidate any other provision of the ordinance.

2024-2025 Food Maximums

Please Note: The maximum amounts allowed for food are established in accordance with the U.S.D.A. Thrifty Food Plan. As of October 1, 2024, those amounts are:

Number in Household	Weekly Maximum	Monthly Maximum
1	67.91	292.00
2	124.65	536.00
3	178.60	768.00
4	226.74	975.00
5	269.30	1,158.00
6	323.26	1,390.00
7	357.21	1,536.00
8	408.37	1,756.00

Note: For each additional person add $220 per month.

2024-2025 GA Housing Maximums
(Heated & Unheated Rents)

NOTE: NOT ALL MUNICIPALITIES SHOULD ADOPT THESE SUGGESTED HOUSING MAXIMUMS! ONLY **consider** adopting the following numbers if these figures are consistent with local rent values. If not, a market survey should be conducted, and the figures altered accordingly. The results of any such survey must be presented to DHHS prior to adoption. **Or**, no housing maximums should be adopted and eligibility should be analyzed in terms of the Overall Maximum—Appendix A. *(See Instruction Memo for further guidance.)*

2024-2025 GA MAXIMUMS SUMMARY SHEET

Note: The overall maximums found in *Appendices A, B, C, D, E, and F* are effective from **October 1, 2024 to September 30, 2025.**

APPENDIX A - OVERALL MAXIMUMS

County	Persons in Household					
	1	2	3	4	5	6

NOTE: For each additional person add $75 per month.

(The applicable figures from Appendix A, *once adopted,* should be inserted here.)

APPENDIX B - FOOD MAXIMUMS

Number in Household	Weekly Maximum	Monthly Maximum
1	$ 67.91	$ 292.00
2	124.65	536.00
3	178.60	768.00
4	226.74	975.00
5	269.30	1,158.00
6	323.26	1,390.00
7	357.21	1,536.00
8	408.37	1,756.00

NOTE: For each additional person add $220 per month.

APPENDIX C - HOUSING MAXIMUMS

	Unheated		Heated	
Number of Bedrooms	Weekly	Monthly	Weekly	Monthly
0				
1				
2				
3				
4				

(The applicable figures from Appendix C, *once adopted*, should be inserted here.)

FOR MUNICIPAL USE ONLY

MMA
08/24

APPENDIX D - UTILITIES

ELECTRIC

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is ***not automatically*** entitled to the "maximums" established—applicants must demonstrate need.

1) Electricity Maximums for Households *Without Electric Hot Water*: The maximum amounts allowed for utilities, for lights, cooking and other electric uses ***excluding*** electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$ 85.50
2	$22.52	$ 96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households *With Electrically Heated Hot Water*: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses ***excluding*** heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

NOTE: For electrically heated households, the maximum amount allowed for electrical utilities per month shall be the sum of the appropriate maximum amount under this subsection and the appropriate maximum for heating fuel as provided below.

APPENDIX E - HEATING FUEL

Month	Gallons	Month	Gallons
September	50	January	225
October	100	February	225
November	200	March	125
December	200	April	125
		May	50

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

APPENDIX F - PERSONAL CARE & HOUSEHOLD SUPPLIES

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00
NOTE: For each additional person add $1.25 per week or $5.00 per month.		

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00
3	$23.30	$100.00
4	$27.90	$120.00

Appendix G
Effective: 10/01/24-09/30/25

2024-2025 Mileage Rate

This municipality adopts the State of Maine travel expense reimbursement rate as set by the Office of the State Comptroller. The current rate for approved employment and necessary medical travel etc. is 50 cents (50¢) per mile.

Please refer to the Office of the State Controller for changes to this rate at 626-8420 or visit http://www.state.me.us/osc/

Prepared by MMA
8/2024

Funeral Maximums

Burial Maximums

The maximum amount of general assistance granted for the purpose of burial is **$1,620.** The municipality's obligation to provide funds for burial purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable burial expenses are limited to:

- removal of the body from a local residence or institution
- a secured death certificate or obituary
- embalming
- a minimum casket
- a reasonable cost for necessary transportation
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator, where there is an actual cost, for:

- the wholesale cost of a cement liner if the cemetery by-laws require one;
- the opening and closing of the grave site; and
- a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery or in a cemetery under municipal control, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

Cremation Maximums

The maximum amount of assistance granted for a cremation shall be **$1,125.**

The municipality's obligation to provide funds for cremation purposes is limited to a reasonable calculation of the funeral director's direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable cremation expenses are limited to:

- removal and transportation of the body from a local residence or institution
- professional fees
- crematorium fees
- a secured death certificate or obituary
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Additional costs may be allowed by the GA administrator where there is an actual cost, for:

- a cremation lot in the least expensive section of the cemetery
- a reasonable cost for a burial urn not to exceed $55
- transportation costs borne by the funeral director at a reasonable rate per mile for transporting the remains to and from the cremation facility.

OVERALL MAXIMUMS (A)

Persons in Household

1	2	3	4	5
$881	$965	$1,232	$1,608	$1,947

Household of 6 = $2,022

* Add $75 for each additional person

FOOD MAXIMUMS (B)

Persons	Weekly	Monthly
1	$67.91	$292
2	$124.65	$536
3	$178.60	$768
4	$226.74	$975
5	$269.30	$1,158
6	$323.26	$1,390
7	$357.21	$1,536
8	$408.37	$1,756

Add $220 per month for each + person

HEATING FUEL (E)

Month	Gallons	Month	Gallons
January	225	June – Aug	0
February	225	September	50
March	125	October	100
April	125	November	200
May	50	December	200

NOTE: When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

HOUSING MAXIMUMS (C)

	UNHEATED		Heated	
BEDROOM	Weekly	Monthly	Weekly	Monthly
0	$174	$749	$201	$864
1	$185	$795	$220	$946
2	$235	$1,012	$281	$1,209
3	$312	$1,341	$368	$1,581
4	$377	$1,622	$445	$1,915
Recovery Residence			$165	$709.50

PERSONAL CARE & HOUSEHOLD SUPPLIES (F)

Number in Household	Weekly Amount	Monthly Amount
1-2	$10.50	$45.00
3-4	$11.60	$50.00
5-6	$12.80	$55.00
7-8	$14.00	$60.00

NOTE: For each additional person add $1.25 per week or $5.00 per month.

SUPPLEMENT FOR HOUSEHOLDS WITH CHILDREN UNDER 5

When an applicant can verify expenditures for the following items, a special supplement will be budgeted as necessary for households with children under 5 years of age for items such as cloth or disposable diapers, laundry powder, oil, shampoo, and ointment up to the following amounts:

Number of Children	Weekly Amount	Monthly Amount
1	$12.80	$55.00
2	$17.40	$75.00
3	$23.30	$100.00
4	$27.90	$120.00

MILEAGE RATE (G)

50 cents ($0.50) per mile

FUNERAL MAXIMUMS (H)

Burial: $1,620+; Cremation: $1,125+

ELECTRIC (D)

NOTE: For an electrically heated dwelling also see "Heating Fuel" maximums below. But remember, an applicant is not automatically entitled to the "maximums" established applicants must demonstrate need.

1) Electricity Maximums for Households Without Electric Hot Water: The maximum amounts allowed for utilities, for lights, cooking and other electric uses excluding electric hot water and heat:

Number in Household	Weekly	Monthly
1	$19.95	$85.50
2	$22.52	$96.50
3	$24.97	$107.00
4	$27.53	$118.00
5	$29.88	$128.50
6	$32.55	$139.50

NOTE: For each additional person add $10.50 per month.

2) Electricity Maximums for Households with Electrically Heated Hot Water: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses excluding heat:

Number in Household	Weekly	Monthly
1	$29.63	$127.00
2	$34.07	$146.00
3	$39.67	$170.00
4	$46.32	$198.50
5	$55.65	$238.50
6	$58.68	$251.50

NOTE: For each additional person add $14.50 per month.

(Revised 09/09/24)

APPENDIX I – Definition of Misconduct (26 M.R.S. § 1043 (23))

23. Misconduct. "Misconduct" means a culpable breach of the employee's duties or obligations to the employer or a pattern of irresponsible behavior, which in either case manifests a disregard for a material interest of the employer. This definition relates only to an employee's entitlement to benefits and does not preclude an employer from discharging an employee for actions that are not included in this definition of misconduct. A finding that an employee has not engaged in misconduct for purposes of this chapter may not be used as evidence that the employer lacked justification for discharge.

A. The following acts or omissions are presumed to manifest a disregard for a material interest of the employer. If a culpable breach or a pattern of irresponsible behavior is shown, these actions or omissions constitute "misconduct" as defined in this subsection. This does not preclude other acts or omissions from being considered to manifest a disregard for a material interest of the employer. The acts or omissions included in the presumption are the following:

(1) Refusal, knowing failure or recurring neglect to perform reasonable and proper duties assigned by the employer;

(2) Unreasonable violation of rules that are reasonably imposed and communicated and equitably enforced;

(3) Unreasonable violation of rules that should be inferred to exist from common knowledge or from the nature of the employment;

(4) Failure to exercise due care for punctuality or attendance after warnings;

(5) Providing false information on material issues relating to the employee's eligibility to do the work or false information or dishonesty that may substantially jeopardize a material interest of the employer;

(6) Intoxication while on duty or when reporting to work, or unauthorized use of alcohol or marijuana while on duty except for the use of marijuana permitted under Title 22, chapter 558-C;

(7) Using illegal drugs or being under the influence of such drugs while on duty or when reporting to work;

(8) Unauthorized sleeping while on duty;

(9) Insubordination or refusal without good cause to follow reasonable and proper instructions from the employer;

(10) Abusive or assaultive behavior while on duty, except as necessary for self-defense;

(11) Destruction or theft of things valuable to the employer or another employee;

(12) Substantially endangering the safety of the employee, coworkers, customers or members of the public while on duty;

(13) Conviction of a crime in connection with the employment or a crime that reflects adversely on the employee's qualifications to perform the work; or

(14) Absence for more than 2 work days due to incarceration for conviction of a crime.

[PL2019, c. 125, §1 (AMD).]

B. "Misconduct" may not be found solely on:

(1) An isolated error in judgment or a failure to perform satisfactorily when the employee has made a good faith effort to perform the duties assigned;

(2) Absenteeism caused by illness of the employee or an immediate family member if the employee made reasonable efforts to give notice of the absence and to comply with the employer's notification rules and policies; or

(3) Actions taken by the employee that were necessary to protect the employee or an immediate family member from domestic violence if the employee made all reasonable efforts to preserve the employment.

[PL 2019, c. 125, §1 (AMD).]

City of Auburn, Maine
General Assistance Office

Ordinance 19-10032024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Sec. 24-23 of the City's Code of Ordinances as follows:

Sec. 24-23. - Annual adjustment of maximum benefits.

(a) The City of Auburn adopts the Maine Municipal Association's General Assistance Ordinance, dated September 2024, and a copy thereof is available in the office of the city clerk.

(b~~a~~) Each year the Maine Municipal Association provides the city ~~three appendices~~ Appendices A-H providing maximum benefits applicable for the period beginning October 1 and ending September 30 as mandated by state law and based on certain federal values effective on October 1 of each year, as follows:

(1) Appendix A, a listing of overall maximum levels of general assistance relating to all Maine municipalities.

(2) Appendix B, a listing of maximum levels of assistance for food.

(3) Appendix C, a listing of maximum levels for heated and unheated housing.

(4) Appendix D, a listing of maximum levels of assistance for electricity.

(5) Appendix E, a listing of maximum levels of assistance for heating fuel.

(6) Appendix F, a listing of maximum levels of assistance for personal care & household supplies.

(7) Appendix G, adopting the State of Maine travel expense reimbursement rate.

(8) Appendix H, a listing of maximum levels of assistance for funeral expenses.

(9) Recovery Residence Maximums for the Lewiston/Auburn MSA.

Council Workshop or Meeting Date: October 21, 2024 **Order: 146-10212024**

Author: Councilor Steve Milks & Councilor Benjamin Weisner

Subject: Amending ORDER 106-08192024 regarding composition of the City's Comprehensive Plan Committee

---

Information: Councilors Milks and Weisner are submitting the following proposed amendment to ORDER 106-08192024:

Removing bullet point:

- Up to 10 residents of Auburn, who are not a member of the City Council or Planning Board, including at least one resident residing in each Ward, nominated by the Appointment Committee and appointed by the City Council (voting members)

Replacing with:

- To ensure a committee that represents all Wards of the City, each sitting member of the Auburn City Council will appoint two residents of Auburn, not to exceed 14.

City Budgetary Impacts: N/A

Staff Recommended Action: N/A

Previous Meetings and History: ORDER 106-08192024 was passed August 19, 2024 and amended at the October 7, 2024 meeting.

City Manager Comments: Phillip Crowell Jr.

Attachments: ORDER 106-08192024 as amended at the 10/7/24 meeting (amendment shown in red text), ORDER 146-10212024 with proposed amendment to ORDER 106-08192024

ORDER 106-08192024

City Council Order

AMENDED 10/7/24

IN CITY COUNCIL

Ordered, that the Auburn City Council adopt the attached Membership, Schedule, Charge and Directive defining and initiating the appointment process for the Comprehensive Plan Committee and directing the City Manager to provide staff support for selecting a consultant, the planning process and to provide facilities for meetings.

Passed 8/19/24, 7-0.
Amended 10/7/24, 5-2 (Gerry, Whiting).

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

Comprehensive Plan Committee Membership

- The mayor (voting member)
- Up to two city councilors, appointed by the City Council (voting members)
- Up to two members of the Planning Board, nominated by the Planning Board and appointed by the City Council (voting members)
- Up to 10 residents of Auburn, who are not a member of the City Council or Planning Board, including at least one resident residing in each Ward, nominated by the Appointment Committee and appointed by the City Council (voting members)
- Up to two residents of the State of Maine who have expertise in municipal comprehensive or master planning and/or land use regulation, nominated jointly by the Mayor and City Manager and appointed by the City Council (voting if an Auburn resident, non-voting if not an Auburn resident)
- The city manager (non-voting)
- The assistant city manager (non-voting)

Comprehensive Plan Committee Schedule

- The deadline to receive applications shall be November 8, 2024.
- Nominations for members of the Comprehensive Plan Committee shall be forwarded to the City Council within 35 days of the enactment of this order.
- The Comprehensive Plan Committee shall meet within 30 days of the enactment of the order confirming nominated members to the Comprehensive Plan Committee.
- The Comprehensive Plan Committee shall elect, from their voting membership, a chairperson and a vice-chairperson at their first meeting.
- The Comprehensive Plan Committee shall submit a draft comprehensive plan to the Planning Board for their review within 12 months of the Committee's first meeting.
- The Planning Board shall review the draft comprehensive plan and submit their recommendations regarding the draft plan to the City Council within 65 days of receipt of the draft plan from the Comprehensive Plan Committee.

Comprehensive Plan Committee Charge

- Shall prepare a comprehensive plan and implementation strategies in compliance with 30-A MRSA Chapter 187, Subchapter 2.
- Shall review the current zoning district regulations and zoning maps and prepare recommendations for revised zoning district regulations and maps.
- Shall review all relevant local municipal information related to the comprehensive planning process including but not limited to maps, data, capital plans, city services, inventories, and analysis.

Directive to City Manager

- The city manager shall provide staff support and meeting facilities to the Comprehensive Plan Committee.
- The city manager shall provide subject matter experts from the city staff to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall develop a request for proposal to secure the services of a comprehensive planning consultant to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall create a proposal review committee to review the responses from the consultants to the RFP, and to select a successful proposer, which includes an equal number of city staff and members of the Comprehensive Plan Committee.

ORDER 146-10212024

City Council Order

IN CITY COUNCIL

ORDERED, that ORDER 106-08192024, as passed August 19, 2024 and amended on October 7, 2024, be amended as follows:

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 21, 2024 **PUBLIC HEARING**

Author: Glen E. Holmes, Director of Business & Community Development

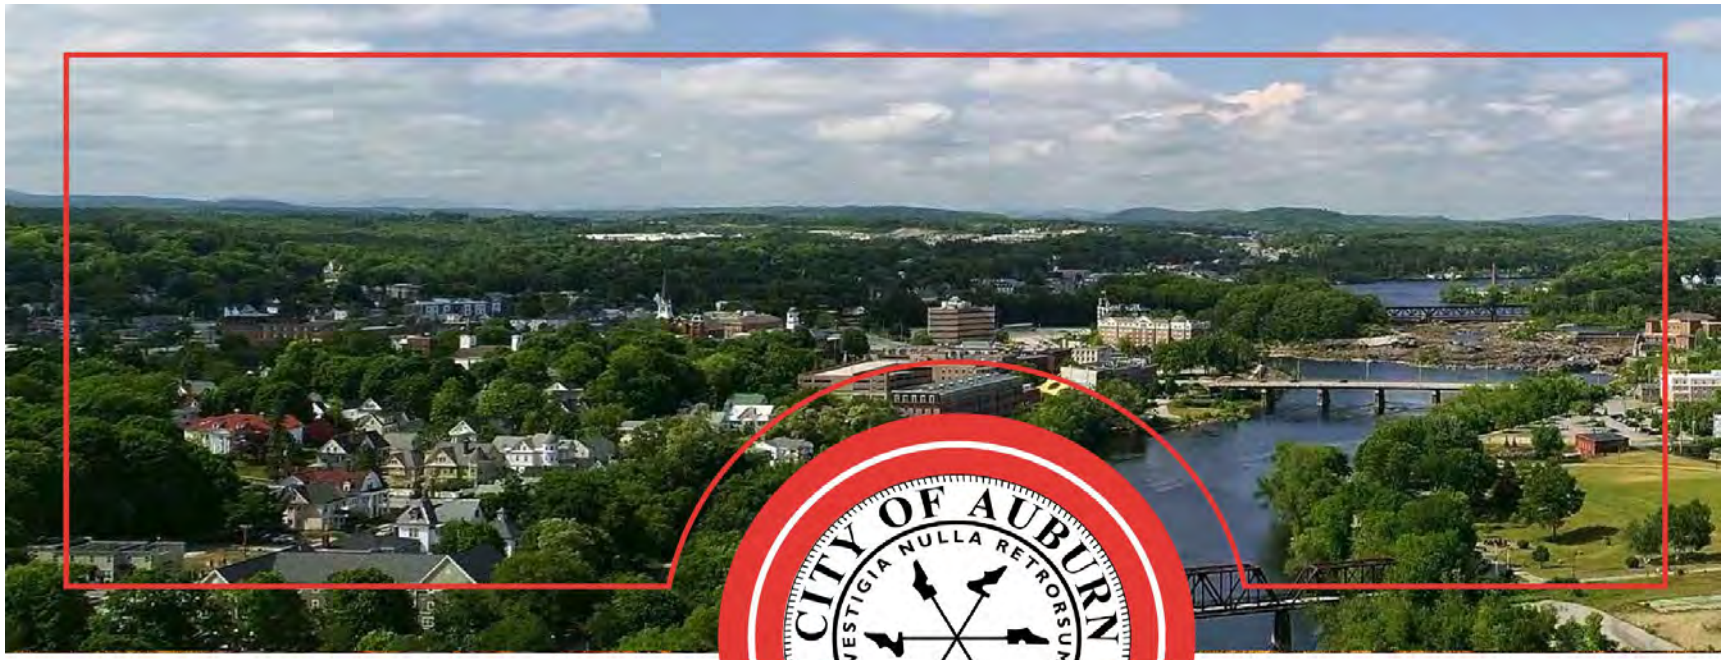
Subject: CDBG/HOME Consolidated Annual Performance Evaluation Report (CAPER) Program Year 2023

Information:
The City of Auburn receives allocations from the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) and HOME Investment Partnership programs each year. This CAPER incorporates the utilization of Auburn's CDBG funds, HOME funds for Auburn and Lewiston as well as leveraged funds for the period spanning July 1, 2023, through June 30, 2024.

This program year, a key focus has been the deployment of HOME-ARP funds across both Auburn and Lewiston. This one-time funding is specifically aimed at addressing the needs of individuals experiencing homelessness or those at imminent risk of becoming homeless. Through the HOME-ARP program, new initiatives have been launched, including public service sub-grants that are vital to meeting the increasing demands of vulnerable populations.

Since these activities were not outlined in the original Five-Year Consolidated Plan, they are not reflected in the data tables within this report. However, their significance and the substantial staff resources dedicated to their success will be highlighted in the narrative sections. This will provide a comprehensive overview of the initiatives, detailing their impact, the staff efforts involved, and the allocation of resources to support these critical programs.

City Budgetary Impacts:
CDBG funds expended during this program year totaled $1,560,240.88. Home Funds expended totaled $140,458.61. Total HOME-ARP funds expended totaled $347,689.78. Funds expended from the Office of Lead Hazard and Healthy Homes totaled 232,930.74. These federal grant dollars cover staff salary/benefits as well as program activities for the Business and Community Development program.



Staff Recommended Action:
Hold Public Hearing

Previous Meetings and History:
Draft CAPER published October 10th, 2024
Public Comment Period October 10th - Oct. 28th, 2024

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Auburn receives entitlement funding from the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) and HOME Investment Partnership programs. The CDBG program aims to strengthen urban communities by enhancing housing quality, improving living environments, and expanding economic opportunities for low- and moderate-income individuals. Similarly, the HOME program is dedicated to creating affordable housing solutions for low-income households, aligning with national objectives to assist those in greatest need.

This Consolidated Annual Performance Evaluation Report (CAPER) encompasses the utilization of HOME funds for both Auburn and Lewiston, along with CDBG funds specific to Auburn, as well as leveraged funding for the period from July 1, 2023, through June 30, 2024. The objectives and anticipated outcomes for the deployment of HOME and CDBG funds are informed by the Consolidated Plan developed for the program years 2020-2024. The Annual Action Plan outlines specific 1-year performance measures and strategies to achieve these objectives.

This program year, a key focus has been the deployment of HOME-ARP funds across both Auburn and Lewiston. This one-time funding is specifically aimed at addressing the needs of individuals experiencing homelessness or those at imminent risk of becoming homeless. Through the HOME-ARP program, new initiatives have been launched, including public service sub-grants that are vital to meeting the increasing demands of vulnerable populations.

Since these activities were not outlined in the original Five-Year Consolidated Plan, they are not reflected in the data tables within this report. However, their significance and the substantial staff resources dedicated to their success will be highlighted in the narrative sections. This will provide a comprehensive overview of the initiatives, detailing their impact, the staff efforts involved, and the allocation of resources to support these critical programs.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The PY23 Action Plan identifies four specific objectives, and this section assesses how the City of Auburn's use of CDBG funds aligns with these priorities, with a particular focus on the highest priority activities.

1. **Safe and Affordable Housing**: CDBG funds were utilized to rehabilitate homes for low- to moderate-income residents in Auburn. This initiative was supported by additional resources from a grant received from the Office of Lead Hazard Control & Health Homes. Of the 82 applications initiated during PY23, three rehabilitation projects were completed by the end of the program year. Additionally, the city

launched an affordable housing program targeting smaller developers with HOME funds, initiating four applications in PY23; however, none advanced to the shovel-ready stage by year-end. Furthermore, the Auburn Community Development Office (ACDO) allocated $155,550 in American Rescue Plan Act (ARPA) funds to provide energy efficiency rebates to 181 residents, demonstrating a complementary funding strategy outside of HUD resources.

2. **Infrastructure Improvement and Blight Reduction**: In 2022, a project to remove lead-based paint from the Community Little Theatre in Bonney Memorial Park was completed at the beginning of PY23. Additionally, a significant project to replace sidewalks and enhance pedestrian safety in the downtown area (a qualified low- to moderate-income neighborhood) was successfully completed. CDBG funds were also used to demolish a dilapidated building along the Little Androscoggin River to facilitate the expansion of the Auburn Riverwalk. Moreover, renovations commenced at the Police Activities League (PAL) Center, located in the Union Street neighborhood, which serves as a hub for afterschool activities for at-risk youth and houses the city's grab-and-go food pantry program. This project includes the demolition of 15 substandard residential units and will be reported in detail in the PY24 CAPER.
3. **Promotion of Economic Opportunities**: While no economic development projects were funded through CDBG or HOME during PY23, the city utilized ARPA dollars to provide $308,880 in business loans to ten local businesses, thus supporting economic stability and growth in Auburn. Additionally, the city has also approved 6 new Tax Increment Financing (TIF) districts which dedicated $2,715,200 towards capital infrastructure projects, creating 24 new full-time and 30 new part-time jobs while saving 36 additional jobs from relocating outside of the city.
4. **Provision of Essential Services**: This program year saw CDBG funds allocated to three essential public service programs targeting low- and moderate-income residents of Auburn. These included support for Safe Voices, scholarships for Auburn Recreation's summer camp, and the SeniorsPlus Meals-on-Wheels program. Notably, the Recreation Scholarship Program received $20,000 to enable 31 local youth from low- and moderate-income families to participate in summer camp, fostering diversity and allowing parents to seek employment opportunities. SeniorsPlus was awarded $25,000 to provide meals and educational resources to 694 seniors. Safe Voices received $20,000 to offer resources and shelter to 57 victims of homelessness and domestic violence.

Furthermore, through HOME-ARP funds, Auburn provided financial support to three subrecipients—Rumford Group Homes, Community Concepts Inc., and Housing Resources for Youth—offering critical services to households experiencing homelessness or at risk of homelessness. In a similar vein, the City of Lewiston allocated funds to three subrecipients—Trinity Jubilee Center, Safe Voices, and New Beginnings Shelter—to support

residents facing similar challenges.

Please note that the HOME-ARP, and ARPA projects are not detailed in Table 1 but will be provided in more detail below.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted). 91.520(a)

	CDBG	HOME
White	1,931	4
Black or African American	1,052	9
Asian	4	0
American Indian or American Native	6	0
Native Hawaiian or Other Pacific Islander	10	0
Total	**3,003**	**13**
Hispanic	36	0
Not Hispanic	2,967	13

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

According to the 2020 Census, Auburn's population stands at 24,061. The demographic breakdown indicates that 87.7% of residents identify as White, 4.5% as Black or African American, and 0.4% as American Indian or Alaskan Native. Among the beneficiaries of the CDBG program, 64% identified as White, 35% as Black or African American, 0.1% as Asian, 0.3% as Native Hawaiian or Pacific Islander, and 0.2% as American Indian. For recipients of HOME funds, 30% were White, while 70% identified as Black or African American.

It is important to note that the CR-10 reporting system does not account for individuals or households with mixed racial backgrounds. For example, individuals identifying as both American Indian/Alaskan Native and Black are classified under the primary race indicated, which may lead to underreporting in some categories. Furthermore, 65 individuals or households with multiple racial identities were excluded from the CDBG program data.

In Program Year 2023, three activities funded through CDBG were classified as "area-wide benefit." While these activities have a significant impact, they do not collect data on the racial and ethnic composition of beneficiaries. These projects are in census tracts primarily composed of low- to moderate-income households, which tend to be more racially and ethnically diverse than the city's overall population. As a result, these initiatives serve a broader and more diverse range of individuals.

Lastly, accomplishments related to HOME-ARP activities are not represented in the data table above.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,877,316	
HOME	public - federal	1,267,595	

Table 3 - Resources Made Available

Narrative

In Program Years 2021 and 2022, the city received a substantial amount of Program Income, which has carried over into the current year.

During this period, significant efforts were made to meet key objectives by utilizing new funding sources, allowing the city to reserve valuable entitlement funds for priority projects. This strategy included using Lead & Healthy Homes funds for housing rehabilitation, HOME-ARP funds for delivering essential services to at-risk residents, and American Rescue Plan Act (ARPA) funds for economic development initiatives.

The city also made a concerted effort to invest its available CDBG funds into high-impact infrastructure projects, as outlined above. Although the city was deemed untimely for the second consecutive year, the outstanding balance was significantly reduced, with the remaining funds committed to ongoing projects, including the development of the PAL Center and related Urban Renewal Authority (URA) activities. These larger public improvements are expected to fully align with program goals by 2025.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 4 – Identify the geographic distribution and location of investments

Narrative

The 2020-2024 Consolidated Plan employed a city-wide approach for categorizing activities, without a specific target area of focus. Consequently, the IDIS reporting system did not capture detailed demographic data. However, the most recent Action Plan introduced a targeted focus area for Public Infrastructure projects. This area encompasses Census tracts 101, 103, and 105, which were identified as having a population with 51% or more Low-to-Moderate Income status, according to the 2015 American Community Survey (ACS) data derived from the 2010 Census.

During the current program year, three Public Infrastructure projects were successfully completed. Additionally, one project commenced this year but was not finished by June 30, 2024; it is expected to be

completed in early FY 2025.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The city diligently monitors the carry-forward of available matching funds from prior years. In the current year, there was a carry-forward of $1,433,509.27 in matching funds. It's noteworthy that no matching funds were required for HOME projects in 2020-2022.

HUD funded programs augment their financial resources by stipulating that owner-investors of rental properties contribute matching funds. Specifically, Lead projects entail matching funds from investor/owners' projects of up to $2,000 per unit.

Public Service funds were leveraged with other federal, state, and local funding. These funders include:

- MaineCare
- EFSP (Emergency Food and Shelter Program)
- Maine Housing
- Individual donors
- United Way
- John T. Gorman Foundation
- Lewiston Auburn Metropolitan Chamber of Commerce
- Lewiston Adult Education
- Auburn school system

Numerous public facilities were employed for various public service initiatives. For instance, the Auburn Senior Center at 48 Pettengill Park Road served as a location for the Auburn Recreation Summer Camp. The Grab-N-Go Food Pantry operated from the PAL Center at 24 Chestnut Street. Additionally, 6 service provider partners utilize space donated by the city at their 95 Main St. office to meet with clients and deliver services to Auburn residents.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	1,333,949
2. Match contributed during current Federal fiscal year	0

Number of households supported through Rehab of Existing Units	0	0
Number of households supported through Acquisition of Existing Units	0	0
Total	**10**	**3**

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

In the context of the HOME programs, **goals** refer to the specific objectives outlined in the 2023 Annual Action Plan, such as increasing access to affordable housing through initiatives like Tenant-Based Rental Assistance (TBRA) and security deposit assistance. **Outcomes**, on the other hand, measure the actual results of these programs, such as the number of households assisted and the overall effectiveness of the initiatives. It is important to note that the data table above includes ONLY HOME program data, excluding activities funded by CDBG or HOME-ARP.

The Auburn-Lewiston Consortium operates three key programs to help low-income residents secure and maintain decent, safe, and affordable housing:

- **TBRA Program**: Provides security deposit assistance to low-income households seeking affordable housing.
- **Auburn Lead Hazard Program**: Removes lead hazards in income-qualified units for low- to moderate-income homeowners and tenants. Landlords are required to create or maintain affordable housing for at least three years.
- **HOME Funds**: Allocated to the development of new affordable housing in both cities.

During the program year, security deposit assistance and ongoing rent support were provided to low- and moderate-income households in both Auburn and Lewiston through gap-financing programs operated by community nonprofits. The Immigrant Resource Center of Maine (IRC), in collaboration with Auburn General Assistance, assisted 161 households (364 individuals) in Auburn with rent payments totaling $51,108. In Lewiston, IRC supported 1,114 households (2,071 individuals) with an investment of $357,559.

The **Auburn Housing and Urban Development (AHUD)** program generated significant interest; however, applicants are required to act as their own developers, with projects needing to be shovel-ready for approval. This requirement caused delays between initial interest and formal applications, and by year-end, no shovel-ready projects had been completed.

All housing programs, except TBRA, are subject to an affordability period and rent maximums. TBRA rent caps are aligned with the Fair Market Rents (FMR) published by HUD, while newly created units using HOME funds are subject to a 20-year affordability period, with rent rates adjusted annually to account for rising housing costs.

Several challenges are hindering the achievement of these goals:

- **Rent Caps vs. Market Rent**: TBRA clients face increasing difficulty finding rental units that comply with rent limits, especially when considering utility costs. Landlords must weigh potential loan funds against possible rent differentials to determine profitability. Raising rent caps could help alleviate this barrier.
- **Low Rental Vacancy Rates**: A July 9, 2023, report from the Sun Journal indicated a nearly 0% vacancy rate in Lewiston and Auburn. This severe shortage of available rental units further complicates efforts for TBRA clients to secure affordable housing.

To address these challenges, the city plans to ramp up marketing efforts in 2025 for its rental assistance, rehabilitation, and new unit creation programs, anticipating an increase in both project numbers and overall impact.

Discuss how these outcomes will impact future annual action plans.

Securing safe, quality, and affordable housing continues to be an escalating challenge across Maine. As the Auburn-Lewiston Consortium develops future action plans, there is an urgent need for more comprehensive research aimed at reducing barriers to affordable housing programs. To address this, the Community Development Office has partnered with a statistics program at Bates College to assess impediments to fair housing. The assessment revealed that average rents have nearly doubled since 2011, significantly worsening housing affordability.

A key policy recommendation from this research is to increase subsidy caps to help prevent evictions. However, it is important to note that the High HOME Rent caps are set by HUD, making this solution beyond local control.

The availability of HOME-ARP funds also provides an opportunity to enhance support for individuals experiencing homelessness. These funds can cover a broader range of housing-related expenses, such as moving costs, storage fees, and utility payments. The Community Development Office has partnered with local nonprofits to leverage HOME-ARP funds, offering new and enhanced support to low- and extremely low-income residents. In Auburn, partners include Community Concepts Inc., Housing Resources for Youth, Rumford Group Homes, and Preble Street, while in Lewiston, partners include New Beginnings, Safe Voices, and Trinity Jubilee Center. The City of Auburn has also collaborated with Maine Immigrant and Refugee Services (MEIRS) and the Immigrant Resource Center of Maine (IRCM) to address additional housing barriers. This partnership provides immigrant, refugee, and asylum-seeking families with training on their rights and responsibilities as tenants.

Moreover, these organizations are equipped to assist with workforce development by offering referrals to English Language Learning classes, State benefits, and support with employment applications and interview skills. By equipping families with these essential tools, the likelihood of sustained housing stability post-assistance is greatly improved. These critical insights will shape the objectives of the forthcoming 2025 Action Plan, ensuring that the Consortium effectively responds to the evolving needs of the community.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	1	1
Low-income	2	2
Moderate-income	0	0
Total	**3**	**3**

Table 13 – Number of Households Served

Narrative Information

In Program Year 2023, no HOME rehabilitation or unit creation projects were completed. However, HOME funds were effectively utilized to assist three low-income households with security deposits, helping them transition into affordable housing. It is important to note that the table above does not include activities funded by HOME-ARP, ARPA, or other non-HUD-funded programs managed by the Business & Community Development Office.

Ongoing efforts are focused on preserving and maintaining affordable housing through the Lead & Healthy Homes program. This initiative provides grants to homeowners and landlords, enabling them to address lead hazards and improve living conditions. All units benefiting from the program must either be occupied by low- to moderate-income families or made available to such tenants in the future.

Additionally, the Lead & Healthy Homes program leverages CDBG funds to cover the required matching funds for income-qualified homeowners, ensuring an affordability period of three years. During this time, rent rates are monitored to maintain affordability. Each newly rehabilitated unit also adds one affordable housing unit to the city's stock, supporting the community's broader housing needs.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Auburn-Lewiston Consortium has demonstrated leadership in the early implementation of the HOME-ARP (American Rescue Plan) Program, securing approval for its allocation plan of many other communities. Collaborative efforts with nonprofit service providers focused on assisting individuals and families experiencing homelessness or at risk of homelessness have been crucial in preventing service duplication and building a robust referral network.

With HOME-ARP funds, Auburn provided support to three subrecipients—Rumford Group Homes, Community Concepts Inc., and Housing Resources for Youth—who directly engaged with 359 households facing homelessness or the risk of homelessness. Of these households, 32 successfully transitioned into stable housing with assistance from program staff. Community Concepts Inc. and Rumford Group Homes conducted direct outreach to unhoused individuals, connecting with them at local drop-in centers and encampments. Housing Resources for Youth focused on unhoused students, collaborating with the school department and receiving referrals from the district's McKinney-Vento liaison.

Community Development staff actively participated in provider sessions at the Pleasant Street Drop-In Center, establishing connections with potential clients. Residents at risk of homelessness received comprehensive assistance, including housing searches, apartment applications, housing subsidy applications, and referrals to employment training programs, shelters, and food assistance.

The Community Development Department continued its collaboration with the General Assistance program and the Public Health Manager, both of whom share office space. During this reporting period, the General Assistance team saw a dramatic increase in demand, receiving a total of 1,645 applications—a 386% increase compared to the previous period. Notably, 521 of these applications were related to pending asylum requests, reflecting a 465% rise from the previous year. The City's General Assistance budget amounted to $850,450 annually, a 364% increase from the prior year, with the majority allocated to housing-related expenses, including housing, utilities, and food aid. Due to program income requirements, all residents receiving funds through General Assistance qualify as extremely low income.

Additionally, the City Council allocated resources from the American Rescue Plan Act (ARPA) to support the Project Support You (PSY) program, which introduced a dedicated co-responder specializing in mental health and substance abuse. This individual collaborated closely with the Auburn police and fire departments, enhancing care during 555 rescue calls. Over the first two quarters of PY23, city-contracted staff, in partnership with Tri-County Mental Health, provided services to 125 Auburn residents. Unfortunately, the position became vacant in December 2023, following a mass shooting in Lewiston in

October 2023, which stretched many providers thin. In spring 2024, Tri-County Mental Health was acquired by Spurwink, resulting in the transfer of the contract for this program. A second co-responder position was added to ensure both the Auburn Fire Department and Police Department had dedicated support, although both positions remained unfilled by the end of June 2024.

Addressing the emergency shelter and transitional housing needs of homeless persons

Maine continues to address the critical needs for emergency shelter and transitional housing for individuals experiencing homelessness. This effort is coordinated through the leadership and advocacy of the Maine Continuum of Care, the Maine Statewide Homeless Council, and various regional homeless councils.

In response to the homelessness crisis, the cities of Auburn and Lewiston established Mayoral Ad-hoc Committees on Homelessness. These committees have been actively working to identify resources, recommend locations, and develop proposals for establishing warming centers and permanent homeless shelters within their jurisdictions.

During the winter months, Maine Housing provided funding to a local nonprofit organization to operate a warming shelter in Lewiston. The City of Auburn supplemented this initiative by allocating $89,306 in non-HUD funds to support the shelter's overnight operations, ensuring the availability of critical services during harsh weather conditions.

It is important to note that many local shelters do not receive direct financial support from the Maine Housing Authority. As a result, the City of Auburn allocates a portion of its Public Service funding to support these essential services. A key beneficiary of this support is Safe Voices, an organization dedicated to assisting victims of domestic violence and sex trafficking. Safe Voices offers a range of services, including re-housing and homelessness diversion programs, aimed at providing safety and stability for vulnerable populations.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City's Community Development and General Assistance programs have formed partnerships with various housing-focused organizations to enhance service delivery. These community partners embed staff within city facilities, facilitating the sharing of resources and clients across multiple programs. Services provided through this collaboration include housing navigation, gap financing to cover rental costs exceeding General Assistance maximums, and English language instruction and job training programs for new Mainers. These efforts target a wide range of individuals and families experiencing or

at risk of homelessness, including those fleeing domestic or dating violence, sexual assault, stalking, trafficking, and individuals discharged from public institutions or systems of care.

Additionally, both Auburn and Lewiston's HOME Tenant-Based Rental Assistance (TBRA) programs support individuals based on income eligibility, serving many recently discharged individuals who meet the income requirements. These programs provide Auburn residents with a broad array of services aimed at preventing or alleviating homelessness. Through the TBRA programs, eligible residents receive assistance with security deposits equivalent to two months' rent, as outlined in program guidelines.

The Housing Resources Program extends further assistance to those ineligible for TBRA, including:

- Security deposits
- First and last month's rent
- Housing application fees
- Relief for utility arrears and short-term payments for ongoing utility costs
- Support for rent arrears
- Moving expenses and temporary storage fees
- Financial aid for non-housing expenses, such as childcare, transportation (bus passes or gas vouchers), supplies and testing for HiSET (high school equivalency) classes, certification courses and exams, credit repair services, and outpatient medical care not covered by MaineCare or private insurance.

Both programs also offer referrals to additional services, including:

- Housing navigators to assist clients in securing homes in a competitive rental market
- Employment and job training programs
- Educational resources, including adult education programs
- Case management services
- Credit counseling

A significant challenge faced by these programs is the distribution of move-in costs for rental units. HUD's Fair Market Rent (FMR) caps limit the rent that can be covered, leading to hesitation among landlords who are often reluctant to participate in programs that cap rental income at below-market rates, particularly in a climate of rising market rents. To address this issue, General Assistance, in collaboration with GAP funding from IRCM, has filled the need for income-qualifying families as the contracted rental rates frequently exceed TBRA allowable amounts.

Moreover, the Statewide Homeless Council, in partnership with the Department of Corrections, is implementing the Maine Criminal Justice System Blueprint for Ending and Preventing Homelessness. This initiative aims to prevent individuals from being released from incarceration into homelessness. A similar Blueprint for Ending Homelessness, developed in collaboration with the Department of Health and Human Services (DHHS), focuses on discharge planning for individuals leaving state-run mental health facilities,

further addressing homelessness prevention at the systemic level.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City's Community Development staff, including the Public Health Manager and General Assistance Administrator, collaborate closely with the School Department, Police and Fire Departments, and local non-profits such as Safe Voices and New Beginnings. This coordinated approach ensures seamless referrals for residents in need, connecting them with appropriate service providers.

The HOME-ARP Housing Resources Program and HOME Tenant-Based Rental Assistance (TBRA) programs offer vital financial support for move-in costs, including security deposits and utility connections, directly benefiting individuals experiencing homelessness or at risk of becoming homeless. Program staff are trained to mediate between tenants and landlords, helping to ensure stable housing situations. Additionally, they provide referrals to organizations that assist recently unhoused families in rebuilding essential life skills, such as home management, budgeting, financial literacy, credit repair, and other skills crucial for long-term housing stability.

In the upcoming year, Auburn and Lewiston plan to expand their collaboration with local non-profit organizations to broaden the scope of HOME-ARP projects. A key initiative includes a new partnership with Preble Street Inc., a prominent shelter operator in Portland. Under this expansion, Preble Street will establish a base of operations in the Auburn-Lewiston area, staffed by four case managers dedicated to serving the local homeless population.

Additionally, utilizing Auburn’s HOME-ARP funds, the City has contracted with a specialist from Community Concepts Inc. to serve as a Homeless Encampment Outreach Coordinator. This individual visited over 65 homeless encampments within the City of Auburn, providing services and making referrals before the sites were cleaned up by a private contractor. By the end of the fiscal year, 29 encampments remained, with 10 still active and utilized by more than 21 homeless individuals.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Auburn continues to make significant progress in promoting and developing affordable housing in partnership with the Auburn Housing Authority (AHA). As part of the city's efforts to implement LD 2003, Auburn has introduced a 2.5X bonus density allowance across all residential zones, further incentivizing the creation of diverse, high-density housing options. This policy is intended to address the growing demand for housing and advance the city's goals of increasing both accessibility and affordability.

At the close of the program year, the Auburn Housing Authority reported an occupancy rate of 94% across its 13 developments, which encompass 564 housing units. These units consist of Section 8 vouchers, public housing units, and Low-Income Housing Tax Credit (LIHTC) subsidized units. According to 2024 ESRI data, Auburn has a total of 10,030 households, with renters comprising 59.5% of this total, equating to approximately 5,967 rental units. AHA's low-income or subsidized units account for 9.5% of the city's total rental units, highlighting the crucial role it plays in providing affordable housing options for Auburn residents.

This year, in response to rising rental rates and limited housing availability, AHA increased payment standards within its Section 8 voucher program to 110% of Fair Market Rent. This adjustment aims to help low-income renters secure affordable housing and reflects AHA's ongoing commitment to adapting to local market conditions and ensuring housing stability for families in need.

Maine Housing's Family Self-Sufficiency (FSS) staff continue to lead statewide initiatives to improve program processes and evaluation across Public Housing Authorities (PHAs). Working closely with other FSS staff, Maine Housing is navigating new HUD regulations to maintain consistent and effective service delivery. In collaboration with Compass Working Capital, Maine Housing is also an active member of the National FSS Network, partnering with the Portland Housing Authority to advance these goals.

In line with its strategic priorities, AHA is also focusing on shifting operations toward a voucher-based model. This approach encourages the development of privately constructed housing that accepts housing vouchers, broadening affordable housing opportunities and integrating low-income households into a wider range of community environments.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The City of Auburn is dedicated to expanding affordable housing opportunities and supporting low-income residents in their journey toward homeownership. To help achieve this, the city actively refers low-income individuals, including public housing residents, to Community Credit Union (CCU) and Community Concepts Inc. (CCI). These organizations provide critical programs that assist residents in securing mortgages and offer down payment support, essential components for families seeking to achieve stable and sustainable housing.

One key program prepares residents to meet the qualifications for a $5,000 grant from Maine Housing, which can be applied toward down payments or closing costs. This initiative reduces financial barriers to homeownership for low-income families, making stable housing more accessible.

Despite these proactive efforts, the city's recent application for the Pathways to Remove Obstacles to Housing (PRO HOUSING) program was not successful. The $9.5 million grant would have funded infrastructure for a proposed mixed-income neighborhood comprised of 100 affordable units. While this was a setback, the city remains committed to exploring alternative funding sources and partnerships to meet its housing development goals.

Looking ahead, the City of Auburn has initiated a collaboration with a non-profit developer to utilize HOME funds in the creation of 15 new affordable housing units within the Union Street neighborhood. This project aims to replace substandard housing being removed from Chestnut Street, ensuring continued access to safe, quality housing for low-income residents. This development highlights Auburn's commitment to revitalizing neighborhoods and improving living conditions for all its residents.

Actions taken to aid troubled PHAs

Neither the Lewiston Housing Authority nor the Auburn Housing Authority (AHA) are classified as troubled. In fact, Auburn Housing Authority's Section 8 Management Assessment Program (SEMAP) submission for the year ending March 31, 2024, earned the designation of **High Performer**, the highest rating awarded by HUD.

On August 14-15, HUD conducted a Real Estate Assessment Center (REAC) inspection at AHA, using the new National Standards for the Physical Inspection of Real Estate (NSPIRE) paradigm. AHA received a score of 90, equivalent to an "A" grade. The NSPIRE inspection places a greater emphasis on the condition of individual housing units, in contrast to the previous focus on common areas and mechanical facilities. This inspection included 177 Public Housing units at Towne House, Family Development, Merrill Estates, Broadview Acres, and Lincoln School developments.

In September 2023, AHA was awarded a $988,220 grant through HUD's Capital Fund Program (CFP) Emergency Fund. This grant will fund the replacement of domestic hot water, cold water, and heating pipes within the crawlspaces of eight buildings at AHA's Family Development facility, impacting 44 of the 50 units. This two-year project is crucial for extending the life of these units. Notably, approximately 84% of the grant dollars were awarded to two companies based in the Lewiston/Auburn community, injecting new federal dollars into the local economy and supporting local workers.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City of Auburn continues to take proactive steps to eliminate barriers to housing development through several key initiatives over the past three years. One of the most impactful changes has been the implementation of LD 2003, which allows for accessory dwelling units (ADUs) in all residential zoning districts. This legislation enables the construction of up to four units on a single lot, significantly enhancing housing flexibility and density throughout the city.

In addition to these reforms, Auburn has introduced a form-based code across approximately 3,300 acres of core city land. This approach represents the city's most flexible zoning framework for housing, focusing on the physical form and scale of buildings rather than the number of units. By establishing parameters for lot design, building height, and parking requirements, the form-based code encourages greater creativity and diversity in residential development, facilitating multi-unit housing projects without imposing unit restrictions.

These zoning changes are specifically designed to encourage infill development, promote multi-unit housing in residential zones, and provide incentives such as waivers or reductions in permit fees for targeted demographics.

In a notable policy update, the Auburn City Council removed the income requirement for building homes on rural land. Previously, ordinances mandated that 30% of a household's income be derived from farming activities in rural zones. The revised ordinance now requires landowners to demonstrate a connection to the land and possess a minimum of 10 acres to build homes. While this policy faced significant public opposition, it marks a step toward increasing housing opportunities in rural areas.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The General Assistance Administrator and Public Health Manager continue to be crucial members of Auburn's Community Development team. Additionally, new contracted team members have been hired under the HOME-ARP program to provide direct services to underserved residents who are homeless or at risk of homelessness.

These staff members play vital roles in weekly team meetings and significantly contribute to the development of both the Action Plan and the CAPER reporting. Their community-facing roles enable them to interact daily with underserved populations, allowing for swift communication of program challenges and changing community needs to the broader team. This flexible approach facilitates rapid adjustments to program delivery when necessary.

A strategic addition this year was the hiring of a Project Support You (PSY) staff member. This position collaborates closely with the police and fire departments to engage individuals in crisis, including those who are unhoused and individuals with substance use or mental health disorders, ensuring they receive appropriate support and connections to housing services.

Furthermore, the city has initiated the establishment of a "hub" within the Community Development Office, inviting several non-profit organizations to co-locate their staff in the same physical space. This initiative aims to streamline referrals, improve client updates, and foster a greater understanding among staff about each step of a client's housing journey. The goal is to have staff from five non-profit organizations operating out of the Community Development Office, thereby enhancing collaboration and service delivery to those in need.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Auburn secured a three-year Lead Hazard Control & Healthy Homes (OLHCHH) grant commencing in November 2021. To complement this grant, CDBG funds are employed as matching resources to offer supplementary subsidy grants to residents who meet income qualifications.

In 2022, a total of eleven housing units underwent lead assessments, and subsequent remediation efforts were undertaken for six of these units. During 2023 there was 100% turnover of staff working on this program, so there was a delay in project development. As of the end of PY23 16 new units were enrolled in the program and abatement work slated to be completed within the first half of PY24.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Auburn administers four key programs designed to directly support individuals and families facing poverty:

1. **General Assistance (GA):** This program provides emergency and ongoing support to low-income families, including food vouchers, temporary lodging in hotels or motels, and continuous rent aid. In 2023, GA assisted 1,396 cases, offering: 1,059 with housing assistance, 502 with utility support, 153 with food assistance, 33 with medical aid, 15 with burial or cremation assistance, 44 with baby supplies and 436 with misc. household items.
2. **Project Support You (PSY):** Funded through ARPA, this frontline initiative works closely with the police and fire departments to provide immediate assistance to individuals in crisis. During PY23 the PSY worker responded to 555 emergency calls, including 125 who were unhoused. Due to the vacancies left by staff departures, all these impacts were seen within the first 6 months of PY23.
3. **HOME TBRA (Tenant-Based Rental Assistance):** Auburn and Lewiston together supported 2 families through HOME funded TBRA. This program helps low-income families by covering the security deposit required when moving into a new rental unit. Due to the average rental rates exceeding HUDs High Home rent maximums, General Assistance, augmented with GAP financing from local nonprofits, provided most of the rental assistance during PY23.

4. **HOME-ARP Housing Resources Program:** This program assists individuals and families living in unstable housing situations, including those in encampments, vehicles, and emergency shelters. The residents serviced by the city of Auburn and their contractors totaled over 359 with 32 individuals moving from homelessness to housed.

Additionally, Auburn Community Development continues to allocate resources to support various public services and housing programs. These services include food pantries, homelessness prevention, housing navigators, domestic violence support, neighborhood centers, Meals on Wheels, and youth programs.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Internally, the City of Auburn has undertaken a comprehensive redevelopment of its Community Development department. This overhaul includes the integration of the General Assistance program with the Public Health Manager role, fostering a more team-based approach to service delivery. This restructuring has enabled staff to offer a more comprehensive and holistic range of services tailored to specific communities.

This redevelopment aligns with broader city initiatives aimed at streamlining application, approval, and service delivery processes. These efforts have significantly reduced response times and improve the program's ability to address identified needs more effectively. The success of this program has precipitated in the relocation and expansion of the city of Auburn Homeless Resource Center to a larger, 5,500 square foot facility by the end of PY24.

In tandem with these internal changes, Maine Housing and the Maine Continuum of Care (CoC) have continued their collaboration to revamp and enhance the Coordinated Entry system. The Maine CoC has also made progress in addressing issues identified in the 2019 gaps and needs analysis, further supporting the city’s goal of improving service delivery and resource allocation.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The Community Development Staff is collaborating closely with Auburn Housing Authority (AHA) staff and regional nonprofit housing developers to formulate plans for the creation of new affordable housing units. Additionally, they are jointly managing the Security Deposit assistance and Housing Resources programs.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The City of Auburn has dedicated significant effort to overcoming obstacles hindering the development of new affordable housing units. Initiatives include adopting a form-based code, revising density standards in residential zones to permit accessory dwelling units, and reducing required road frontage to facilitate infill development. Additionally, considerable attention has been directed toward identifying and

addressing impediments to fair housing, as highlighted by the Maine Housing Authority.

In 2019, the Maine State Housing Authority (MSHA) issued an analysis of Impediments to Fair Housing Choice, recognizing that community opposition to planning and zoning improvements designed to promote affordable housing is discriminatory. MSHA committed to supporting affordable housing projects despite such opposition. The City of Auburn shares this commitment, advancing fair housing not only as a federal funding requirement but also as a fundamental principle of community equity and justice. Restricting access to specific types or locations of housing development for low-income populations limits opportunities and fairness for our most vulnerable residents.

Moreover, concentrating subsidized housing exclusively in downtown urban areas often encounters the opposition identified by MSHA. Therefore, the city embraces development models that expand housing choices across all neighborhoods, recognizing the unique value each area and resident brings. Ensuring that all families, regardless of income, have the freedom to choose their homes and the environment in which to raise their children is a fundamental right.

The Community Development Department supports the inclusive zoning efforts led by the Planning & Permitting Department and remains committed to creating affordable housing in Auburn with a focus on increased inclusion, accessibility, and choice. This approach aligns with MSHA's recommendations to promote economic diversity through mixed-income housing and the increased utilization of housing choice vouchers in low-poverty areas.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The Community Development staff, in collaboration with the Auburn-Lewiston Consortium, has implemented a comprehensive monitoring program to ensure that fund recipients adhere to program guidelines throughout the federally mandated affordability period. This program includes an annual desk monitoring, risk assessment, and on-site inspection process to verify and document compliance with income levels, fair market rental rates, and the city's housing standards.

Enhanced oversight and technical assistance have been established for Public Service and HOME-ARP grant recipients. The city requires subrecipients to submit quarterly demographic and impact reports for preliminary review before requesting fund disbursements. These reports include demographic information on low- and moderate-income program recipients, as well as administrative data such as payroll records and financial expenditure reports. This rigorous review process ensures that grant recipients are not only able to deliver essential services but also effectively track and report their impact.

However, there are a few action items that were not completed in the past year:

1. Conducting required HOME inspections for two Auburn properties has now been completed.
2. Reviewing updated affirmative marketing plans for HOME units and programs has now been completed.

The city of Auburn is still working with Lewiston staff to facilitate the inspection of Lewiston HOME project and expects these to be completed by December 30, 2024, with results to be reported in the PY2024 CAPER.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The draft 2023 Consolidated Annual Performance and Evaluation Report (CAPER) was made available for public comment in compliance with statutory requirements from October 11th to October 26th. A notice was published in the Sun Journal on October 11th, with the original comment period set to end on October 28th to align with a Public Hearing conducted by the Auburn City Council on October 21st.

Public notification was carried out in accordance with the Citizen Participation Plan, and documentation of the public hearing notice was maintained on the administration screen. The city also utilized social media platforms to solicit input and directly emailed the CAPER to the 2,041 individuals subscribed to email alerts through the city's marketing department.

Enhanced outreach initiatives included posting CAPER notices with direct access links and QR codes in key public facilities across the city, such as city hall, the public library, senior housing facilities, and food pantries. Additional outreach efforts featured a multilingual website, social media notifications, and a press release, all of which provided information on language translation services and access to printed versions of the report.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

No changes were made to the city's program objectives during the program year

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The city has begun utilizing the Code Enforcement office to assist in the completion of HQS and property standard inspections.

Activity #904, Vincent Square: Desk monitoring was conducted on the property. On-site inspection reports were provided for the 6 units.

Activity #1175, Tedford Housing: desk monitoring was conducted on the property. On-site inspection was conducted for 5 units.

Activity #1821, Gauvreau Place: units 202 and 211 were inspected post-construction. No deficiencies were found to remedy.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)

Property owners are required to develop and maintain both a Management Plan and a Marketing Plan that actively promote Fair Housing objectives. These plans must ensure the impartial selection of residents and adherence to nondiscriminatory practices. Property owners are also responsible for maintaining a documented waiting list of applicants and ensuring that their resident selection policies and criteria comply with all federal and state regulations prohibiting discrimination based on race, color, national origin, religion, sex, physical or mental handicap, sexual orientation, familial status, ancestry, and receipt of public assistance.

In response to the evolving needs of the community, the city has recently revised its affirmative marketing plan. The updated plan introduces new outreach methods, translation services, and enhanced accessibility provisions to better meet the needs of all residents and promote equitable housing opportunities.

This year, eight properties were obligated to implement an affirmative marketing plan, 2 in Auburn and 6 in Lewiston. The two-organization located in Auburn have provided updated affirmative marketing plans for review. However, the city of Lewiston did not effectively monitor these properties' affirmative marketing activities. This oversight will be addressed, and compliance will be ensured by December 31,

2024.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

This year two TBRA projects were funded with HOME funds.

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

The cities of Auburn and Lewiston are dedicated to supporting the construction and maintenance of affordable housing through their Housing Development and Rehabilitation programs. These initiatives provide federal funding to developers and property owners to cover eligible costs, with the condition that the units created or refurbished adhere to strict affordability standards.

Affordability criteria for these units are established according to HUD guidelines, with rent limits set at either the Fair Market Rent (FMR), Low HOME Rent, or High HOME Rent levels. These measures ensure that the housing remains accessible and affordable to low- and moderate-income residents.

CR-58 – Section 3

Identify the number of individuals assisted and the types of assistance provided

Narrative

The city did not have a project which required Section 3 tracking. Outreach efforts continued during the program year, including hosting lead hazard control and RRP training for local contractors and their employees.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: October 21, 2024 **Order:** 147-10212024

Author: Kelsey Earle, Finance Director

Subject: FY25 School Department CIP First Reading

Information: First reading of the FY25 School Department Capital Improvement Plan (CIP). The school committee approved amount was inadvertently omitted from the full municipal list and order in June. Second reading/ public hearing and final action scheduled for the November 4th, 2024, meeting.

City Budgetary Impacts: None at this time.

Staff Recommended Action: Review

Previous Meetings and History: The school department CIP plan was reviewed via school committee with final approval given 4/24/24 and was part of total approved school budget.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Order

ORDER 147- 10212024

City Council Order

IN CITY COUNCIL

ORDER - AUTHORIZING ISSUANCE OF GENERAL OBLIGATION BONDS AND A TAX LEVY THEREFOR

Following a public hearing duly called and held as required by Article 8, Section 8.13 of the City Charter, **by the Auburn City Council BE IT ORDERED:**

THAT, pursuant to Title 30-A, §5772 of the Maine Revised Statutes, as amended, the City Charter, as amended, and all other authority thereto enabling, there is hereby authorized the issue and sale of the City's general obligation bonds (the "Bonds") and notes in anticipation thereof (the "Notes"), in the principal amount not to exceed $983,000, the proceeds of which, including original issue premium, if any, and investment earnings thereon, are hereby appropriated to finance the Auburn School Department FY25 Capital Improvement Plan approved by the Auburn School Committee on April 24, 2024 (including costs of issuance for the Bonds)(the "School CIP Projects").

THAT the Bonds and Notes shall be signed by the manual or facsimile signatures of the City's Finance Director and its Treasurer (provided that at least one of such signatures shall be a manual signature), attested by the City Clerk under the seal of the City.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the time of the sale, award and settlement of the Bonds and Notes, which may be issued at one time, or from time to time, through a public offering or a private placement, on a competitive or negotiated basis, in serial form or as term bonds, or some combination of any of the foregoing, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such Bonds and Notes, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent not payable from other funds, each year that any of the Bonds remain outstanding, the City shall levy a tax in an amount sufficient to pay the annual installment of principal and the annual interest on such Bonds.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to do or cause to be done all such acts and things necessary and expedient in respect in connection with the financing of the School CIP Projects and the issuance the Bonds and Notes, and the investment of the proceeds thereof, including to select a financial advisor, underwriter, or paying agent/registrar with respects to the Bonds and Notes, and to execute, deliver and approve all agreements, investment agreements, bond purchase agreements, preliminary and final official statements or other offering documents, escrow agreements, continuing disclosure agreements, tax compliance agreements, or arbitrage certificates, and all other closing certificates and documents (collectively referred to as the "Bond Documents"), which

City Council Order

Bond Documents may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, which waiver of sovereign or governmental immunity is hereby authorized, confirmed and approved, as the Finance Director shall establish, determine and approve, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent the Bonds or Notes are issues on a tax-exempt basis, the Finance Director is hereby authorized, in the name of and on behalf of the City:

- To covenant, agree and certify (A) that no part of the proceeds of such Bonds and Notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the Bonds or Notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and (B) that the City will file any required reports and take any other action that may be necessary to insure that interest on the Bonds or Notes will remain exempt from federal income taxation, and that the City will refrain from any action that would cause interest on the Bonds and Notes to be subject to federal income taxation; and

- To designate the Bond or Notes, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265(b)(3) of the Code, to the extent such designation is available and permissible under said Section 265(b)(3).

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the Bonds, Notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, in an interim or acting capacity, is hereby authorized, in the name of and on behalf of the District, to act for such official with the same force and effect as if such official had himself or herself performed such act.

THAT if any authorized representative of the City who has signed or sealed the Bonds or Notes shall cease to be such officers or officials before the Bonds or Notes so signed and sealed shall have been actually authenticated or delivered by the City, such Bonds or Notes nevertheless may be issued, delivered and authenticated with the same force and effect as though the person or persons who signed or sealed such Bonds or Notes had not ceased to be such officer or official; and also any such Bonds or Notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such Bonds or Notes, shall be the proper officers and officials of the City, although at the nominal date of such Bonds or Notes any such person shall not have been such officer or official.

THAT if the actual cost of any School CIP Project differs from the estimated cost, whether due to completion, delay or abandonment of such School CIP Project or for any other reason, the Finance Director is hereby authorized, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the Bonds and Notes to any other listed School CIP Project, or to any other project or improvement that the Auburn School Committee has approved or may in the future approve as part of the Auburn School Department capital improvement plan.

ORDER 147- 10212024

City Council Order

THAT the authority to issue any Bonds or Notes not issued within 2 years of the date of approval of this Order shall automatically expire 2 years from the date of approval of this Order.

THAT notwithstanding the foregoing paragraph, during the term any of the Bonds issued pursuant to this Order remain outstanding, the Finance Director is hereby authorized, in the name of and on behalf of the City, to issue refunding bonds on either a current or advance refunding basis, to refund some or all of the Bonds then outstanding, and to establish, determine and approve the time of the sale, award and settlement of such refunding bonds, the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such refunding bonds, such establishment, determination and approval to be conclusively evidenced by the execution thereof, and to execute and deliver, in the name of and on behalf of the City, such additional Bond Documents as may be reasonable or necessary with respect to such refunding, and each refunding bond issued hereunder shall be signed in the same manner as the Bonds.

THAT this Order shall constitute a Declaration of Official Intent pursuant to Treasury Regulation §1.150-2, and the City hereby declares its official intent to use proceeds of the Bonds or Notes to reimburse costs of the School CIP Projects (referred to as "original expenditures") paid prior to the issuance of the Bonds or Notes.

A notice describing the above borrowing and the general purpose of such borrowing was published on or before October 21, 2024, in the *Sun Journal*, a daily newspaper of general circulation published in the City of Auburn and in Androscoggin County.

NOTE: Must be approved by roll call vote.

Monthly Financial Report
July 2024 - Fiscal Year 2025

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending July 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending July 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its first month of the current fiscal year. As a guideline for tracking purposes, if split evenly throughout the year, revenues and expenditures should amount to approximately 8.33% of the annual budget. However, not all costs and revenues are distributed evenly as individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through July 2024 were **$7.49M** or **11.1%** of budgeted general fund revenue, as compared to 3.4**%** of actual revenues through July 2023.

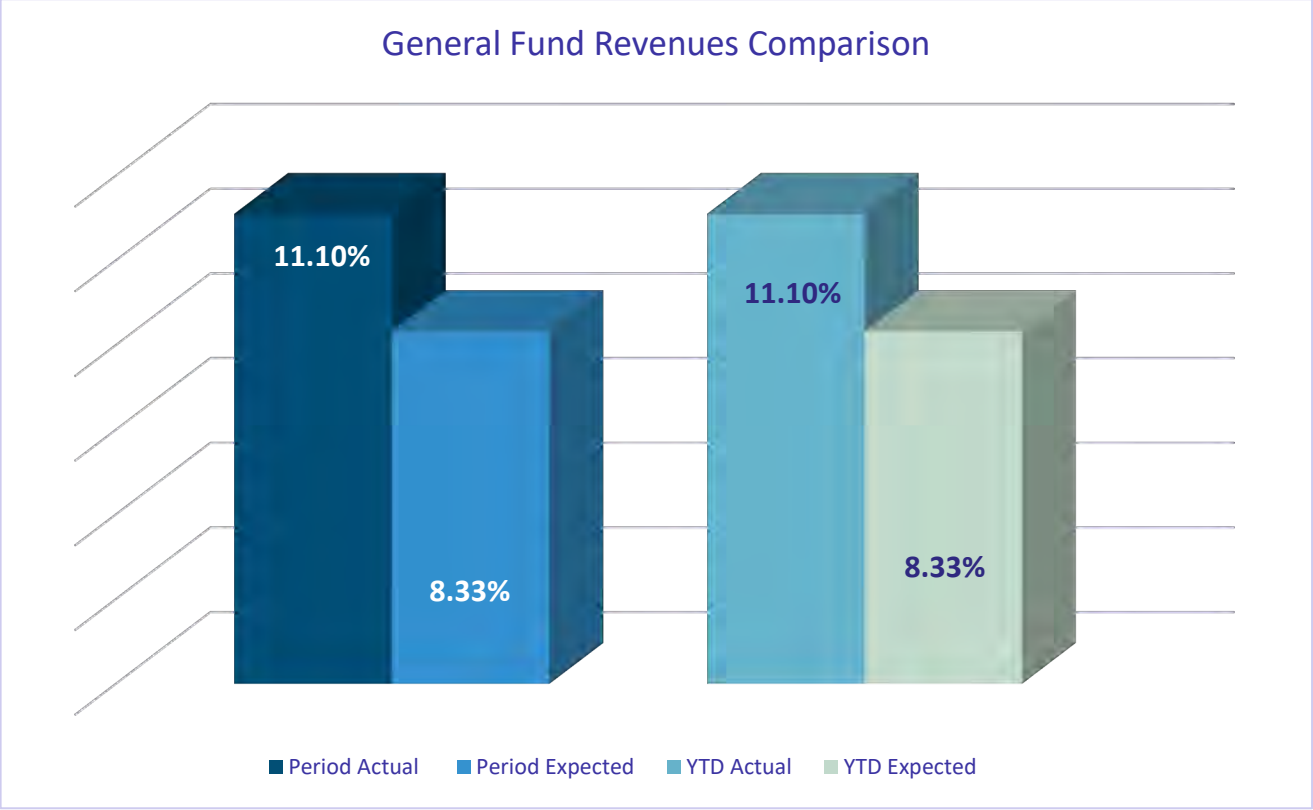
- Year-to-date tax revenues of **$220K** were **0.6% higher** than the prior year Percentages based upon total collected vs. tax levy for the year

Expenditures

• Expenditures through July 2024 were **$4.68M** or **5.5%** of the budget, as compared to 4.7**%** of actual expenditures through July 2023.

- IT expenditures had increased costs in yearly software licensing and security

- 1020-Capital Investment & Purchasing budget was moved to 1014-Engineering & 1015-Facilities. Some expenses were billed to 1020, adjustments will be made to move expenses to those accounts



Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

Norway Savings Bank Arena

for the Period Ended July 31, 2024

As of July 2024, Norway Arena had an operating gain fiscal YTD of $1,534.45.

Revenues:

The operating revenues for Norway Arena through July 2024 are $33,065 or 3.0% of the budget as compared to 2.83**%** of actual revenues through July 2023. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals. Table 1 reflects revenues collected for the current year with comparison for the same period a year ago.

Ingersoll Turf Facility

for the Period Ended July 31, 2024

As of July 2024, Ingersoll had an operating gain YTD of $9,720. Of note, revenue to expenditure comparison is disproportionate as some expenditures are listed under the Recreation department budget, and regular salaries under Public Works.

Revenues:

The operating revenues for Ingersoll through July 2024 are $9,889 or 4.5% of the budget as compared to 1.1**%** of actual revenues through July 2023. This revenue comes from sponsorships, programs, rental income, and batting cages. Table 1 reflects revenues collected for the current year with comparison for the same period a year ago.

Executive Session pursuant to 1 M.R.S.A. Section 405(6) (E) to consult with the City's attorney regarding a legal matter. *No action to follow. Passage requires 3/5 majority vote to enter Executive Session.*

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024

Author: John Blais , Deputy Director of Planning & Permitting

Subject: Discuss/Workshop amendments to Chapter 60, Article XII, Division 4, Lake Auburn Watershed Overlay District of the Auburn Code of Ordinances to more precisely identify the standards governing definitions, agriculture, pesticides, fertilizers, forestry, resource protection and erosion control in the Lake Auburn Watershed Overlay District. This amendment is pursuant to Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

Information:
In January of 2024, City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the Lake Auburn Stakeholders Group. Since that time the group(s) have met on approximately 10 occasions to address continued concerns pertaining to protecting Lake Auburn. The groups have relied on the ordinance to drive the discussion on what is best for the public water supply of Lewiston and Auburn. The proposed changes are detailed in the attached ordinance and proposed text. The proposed changes include amendments to Section 60.2 Definitions, Sec. 60-951 Use and environmental regulations and Sec. 60-952 as they relate to agricultural, forestry and erosion control. The amendments include changes that will strengthen the ordinances pertaining to Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn.

Planning Board: Provided a favorable recommendation to City Council to **amend the text** in Chapter 60, Article II General Provisions, Division 4 Lake Auburn Watershed Overlay District, Sec. 60-951, Sec.60-952 and Sec. 60-953. Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map on the October 8, 2024 Planning Board Meeting.

Planning Board Provided: to forward a favorable recommendation to City Council to **adopt the Lake Auburn Watershed Overlay District, Agricultural Buffer Setbacks Map**. This map is for establishing a 250' setback to agricultural field tillage from natural resources and will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

City Budgetary Impacts: none .

Staff Recommended Action: As this is a workshop item, please provide feedback to Staff on the proposed ordinances and any questions. Staff will have an overview Power Point for workshop.

Previous Meetings and History: January 2024 CC Meeting and Planning Board favorable recommendation at the October 8, 2024 meeting.

City Manager Comments:
Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance Amendment and Agricultural Buffer Setbacks Map.

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.

Animal unit has the same meaning as in section 60-2.

Building has the same meaning as in section 60-2.

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~

~~(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~

~~(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Livestock has the same meaning as in section 60-2.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22 of the Auburn City Ordinances. ~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.

Normal high-water line and Normal high-water mark mean~~s~~ that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting. Organic fertilizers are broken down by and feed the microbial life in the soil.

Pest shall have the same meaning as the term set forth in 40 C.F.R.§ 152.5, as the same may be amended from time to time.

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.

Poultry means domesticated birds.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.

Wetland, see NWI Wetland.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems*.

(a) *Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), ~~60-145(b)(18)~~ and 60-146(1)c., new dwelling units are prohibited in that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration~~.~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design requirements are met before the local plumbing inspector finds the design or installation of the system to comply with this section.

(2) New (first use), expanded, or replacement disposal fields shall be set back from the normal high-water mark of any lake, pond, stream, or brook as follows:

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

(3) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.

a. Curtain drain installed per Section 12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2023), as may be amended from time to time; or

b. Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any short circuiting of the disposal field

(4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(5) Commencing July 1, 2024, the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated June 24 ~~March 19~~, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector. Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection.

The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,
2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and
2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Watershed Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(6) In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or code enforcement officer of any observed defects or malfunction that require corrective action by the property owner or operator.

(7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted.

The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.

Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water

quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural use~~s~~.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if:

(1) The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that

a. Such use, or expansion of such use, will not cause groundwater contamination ~~and~~ ,will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and

b. The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management.

(2) ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee.

(3) The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of Subsection 2(a)(1)(b) no later than June 30, 2027.

(4) The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division.

(b) Reserved~~*Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in the Lake Auburn Watershed Overlay District. Pursuant to 30-A M.R.S.A. 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.~~

(c) *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula in the definition of Farm, Livestock in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot.

(~~c~~d) *~~Agricultural~~ Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(~~d~~e) *Manure and sludge spreading, storage, and disposal.* The s~~S~~preading ~~and~~ or disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover. ~~All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers of the provisions of this Subsection (f) may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non- synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed):

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may

cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(7) Pesticides shall be stored, mixed, loaded, and applied:

a. pursuant to the specific manufacturer's storage instructions on the pesticide label or container; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time; and

e. shall not be applied by aerial spraying.

(eh) *Erosion control.* ~~The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:~~

~~(1)~~ Any exposing, moving, removal, or stockpiling of soil, or the removal of vegetative cover~~earth cutting, moving or removal activities~~ that will result in erosion or runoff which increases sedimentation of ~~Lake Auburn, or any tributaries or other water bodies in the watershed~~any lake, pond, stream, brook, or NWI Wetland in the Lake Auburn Watershed Overlay District ~~are~~ is prohibited.

~~(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.~~

(~~3~~i) ~~Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.~~

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. ~~From time to time,~~ The director, or their designee, may require the approved harvest plan to be

amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn.

3. *Enforcement*

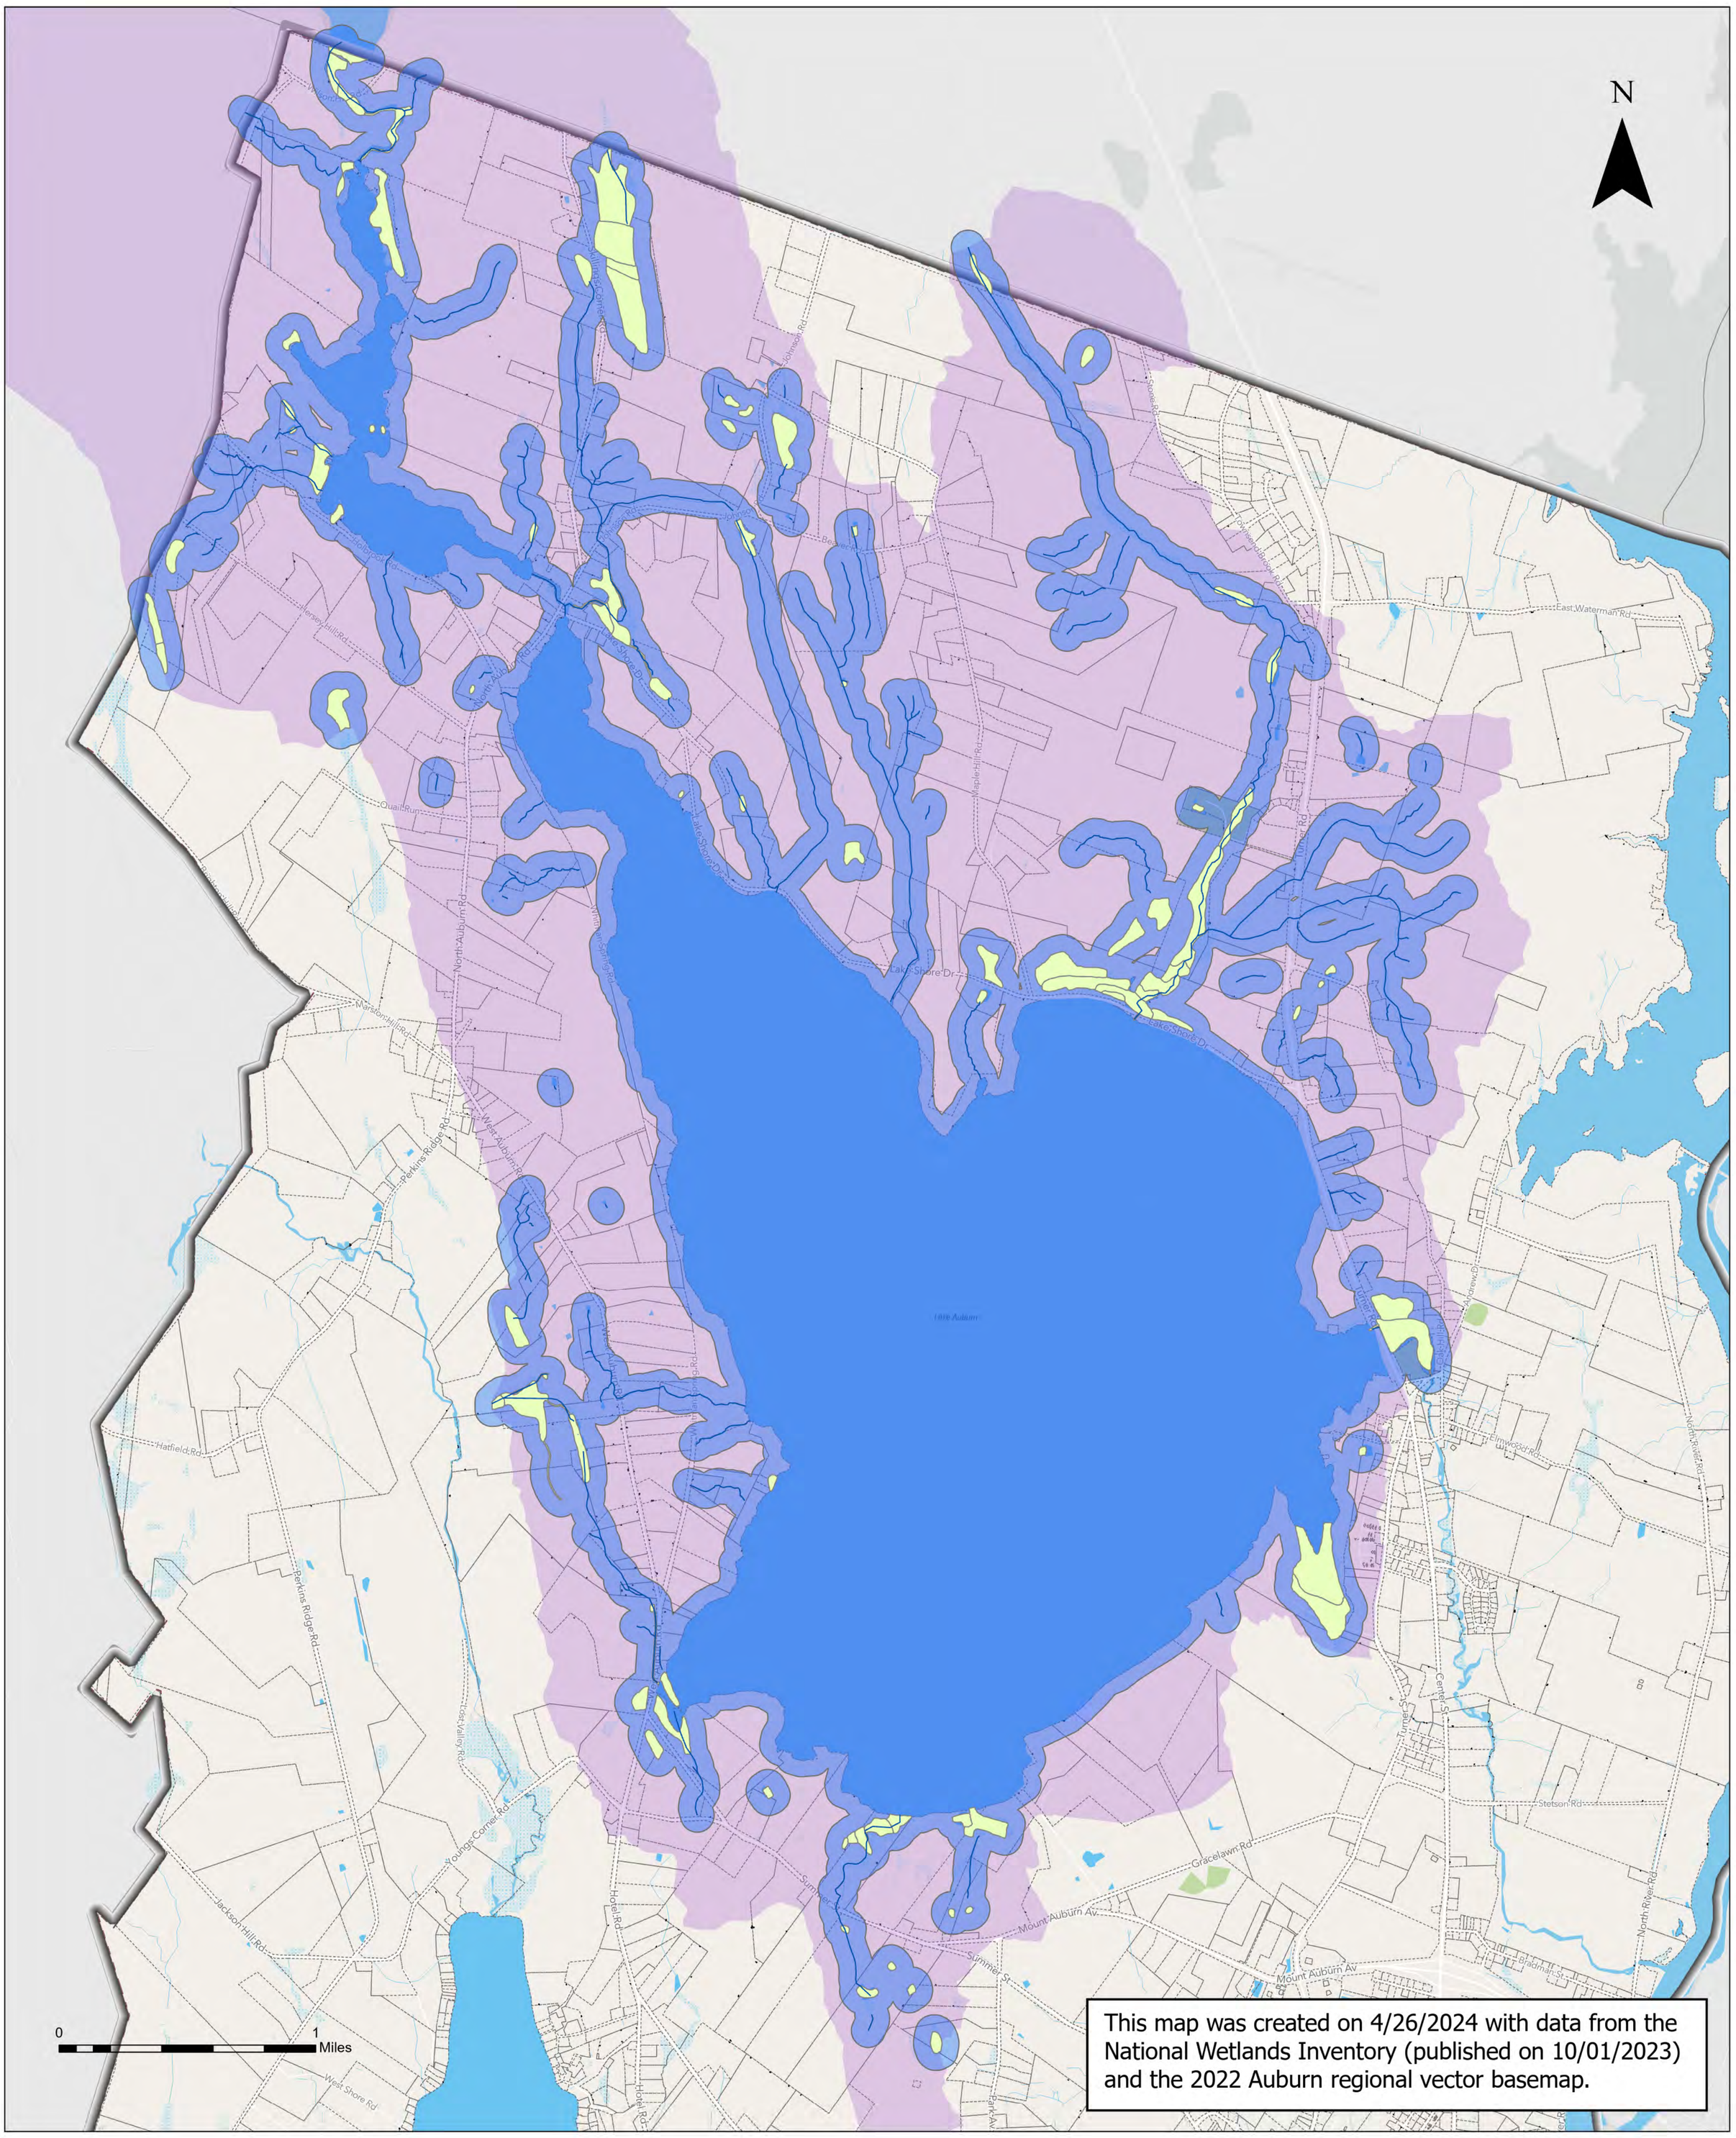
The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

Any new or expanded buildings or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)



Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

Lake Auburn Watershed Overlay
Agricultural Buffer Setbacks

Map & Ordinance Text Amendments Related to Lake Auburn Watershed Chapter 60, Article XII, Division 4

City Council Workshop 11/04/2024

Agriculture & Forestry

Agenda

1.) Why more changes?

2.) Definitions for Agricultural and Forestry Uses (Text Changes/Additions)

3.) Fertilizers and Pesticides (Text Additions)

4.) Erosion Control, Tree Clearing and Forestry (Text Changes/Additions)

5.) Natural Resource Map of 250’ Setback to lake, pond, stream, brook, or NWI wetland.

Why More Changes?

- January 2024; CC, Order 04-01022024 City Manager to direct staff to work with the Lake Auburn Stakeholders Group. (AG working group, Sustainability, and Natural Resources Board, LAWPC, PB members, and public stakeholders) met in a public setting over 10 times from Jan-July to discuss and identify continued concerns and processes related to ordinances that protect Lake Auburn and its watershed.
- September 2024; CC, Order XX-09032024: Initiating ordinance amendments process to Division 4 Lake Auburn Watershed District focus on agriculture and forestry.
- Update definitions: to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N.
- Allows farming in the watershed with defined safe boards for water quality protections. (waste and nutrient management plans with required buffers)
- Requires existing farms to comply with obtaining waste or nutrient management plan that raise livestock or poultry by June 30, 2027 regardless of size.
- Set limits on animal and poultry animal units.
- Tillage setbacks from 100' to 250' (Map Developed)
- Manure spreading prohibited, language for manure storage BMPs
- Guideline for fertilizer and pesticide use and applications.
- Clearcutting limited to 2 acres on a 20-acre tract.
- Clearcutting is limited 25% of the lot on 20-acres or less.
- Added state forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
- Adopted "Rule 20" by the MFS policy under the Maine Forest Practices Act legislation.

Source Water Protection for the Auburn and Lewiston Community.
<u>That's our drinking water!</u>

Right to food. All individuals have a natural, inherent and unalienable right to save and exchange seeds and the right to grow, raise, harvest, produce and consume the food of their own choosing for their own nourishment, sustenance, bodily health and well-being, as long as an individual does not commit trespassing, theft, poaching or other abuses of private property rights, public lands or natural resources in the harvesting, production or acquisition of food.

Division 4. Definitions

- **Update definitions: to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N.**

District.¶

(b) → *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.¶

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.¶

Animal unit has the same meaning as in section 60-2.¶

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.¶

Curtain drain means a tranch to intercept laterally moving ground water and divert it away from a septic system disposal field.¶

~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~¶

~~(1) → The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~¶

~~(2) → The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~¶

¶

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.¶

Livestock has the same meaning as in section 60-2.¶

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.¶

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.¶

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.¶

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.¶

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.¶

Wetland, see NWI Wetland.¶

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.¶

Livestock has the same meaning as in section 60-2.¶

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.¶

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.¶

~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~¶

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.¶

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting in order to qualify as organic fertilizer. Organic fertilizers are broken down by and feed the microbial life in the soil.¶

Pest shall have the same meaning as the term set forth in 40 C.F.R. § 152.5, as the same may be amended from time to time.¶

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.¶

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.¶

Poultry means domesticated birds.¶

auburnmaine.gov

Farming in the Lake Auburn Watershed

(a) → *Agricultural uses.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are.~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if: ¶

(1) → The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that ¶

a. → Such use, or expansion of such use, will not cause groundwater contamination ~~and~~, will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and ¶

b. → The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management. ¶

(2) → ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~ The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee. ¶

(3) → The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of this Subsection 2(a)(1)(b) no later than June 30, 2027. ¶

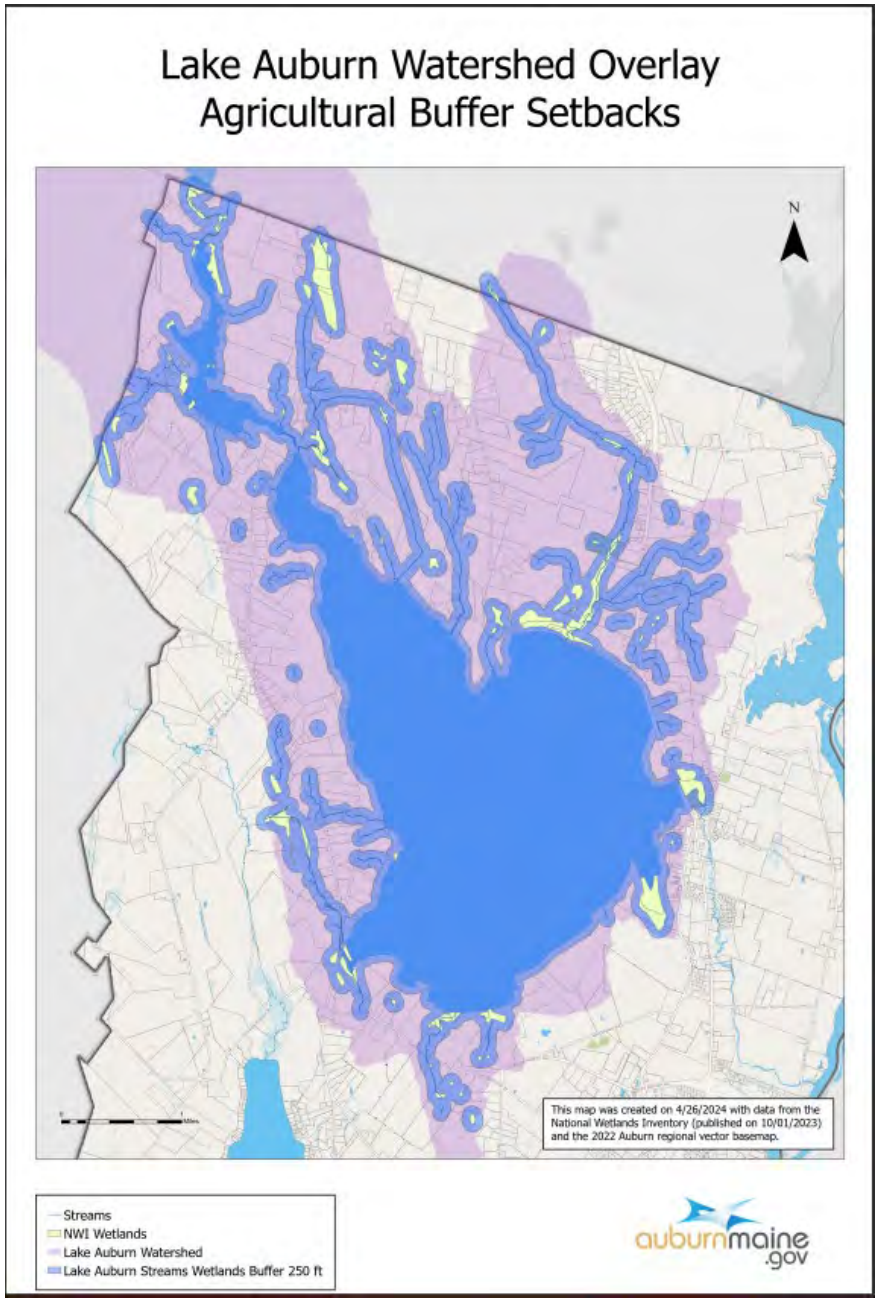
(4) → The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division. ¶

- **Allows farming in the watershed with defined safe boards for water quality protection. (waste and nutrient management plans by NRCS with required buffers-250 Feet)**
- **Requires existing farms to comply with obtaining waste or nutrient management plan that raise livestock or poultry by June 30, 2027 regardless of size and crop farms over 1,000 SF.**
- **Removes hobby farms.**
- **Approvals are required by LAWPC, City Staff, and NRCS input.**

auburnmaine.gov

Set Limits on Animal Units In the Watershed

(c) → *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula shown in the definition of Farm, Livestock as shown in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot. ¶



(60-2) Farm, livestock, means any parcel of land that contains at least the following land area used for the keeping of horses, mules, donkeys, cattle, goats, sheep, swine and similar-sized animals for the agricultural use of the residents of the lot, provided that there is a minimum of 1 acre of land as required by Chapter 8 Animals and adequate land area is provided for each animal unit, excluding water bodies of one-quarter acre surface area or larger:

1. Cattle: One bovine animal unit per acre of cleared hay-pasture land.
2. Horse: 1.5 animal units per acre of cleared hay/pasture land.
3. Sheep: Three animal units per acre of cleared hay/pasture land.
4. Swine: Two animal units per acre of cleared land.

Other livestock farms: The required lot size shall be determined by municipal officer charged with enforcement and shall conform to the lot size for similar sized animals.

auburnmaine.gov

Division 4 Buffers

Tillage setback of 250’ from Natural Resources.

(ed)→ *Agricultural Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5-minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an

(Supp. No. 29)

Page 4 of 9

untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

Manure storage requirements.

(~~de~~) *Manure and sludge spreading, storage, and disposal.* The ~~s~~spreading ~~and or~~ disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover. ~~All spreading and disposal of manure shall be accomplished in conformance with the then current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

Guideline for fertilizer and pesticide use and applications.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non-synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed).

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

- Clearcutting limited to 2 acres on a 20-acre tract.
- Clearcutting is limited 25% of the lot or 2 acres, whichever is less on lots less than 20-acres.
- Added state forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
- Adopted "Rule 20" by the MFS policy under the Maine Forest Practices Act Legislation.

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. From time to time, the director, or their designee, may require the approved harvest plan to be amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn. ¶

auburnmaine.gov

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

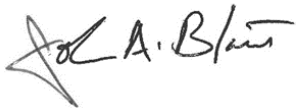
To: Auburn Planning Board
From: John Blais, Deputy Director of Planning and Permitting
Re: ITEMS #9 &10: Public Hearing – Text Amendments related to Lake Auburn Watershed Overlay District and Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map.
Date: October 8, 2024
****

I. PROPOSAL: Discuss amendments to Chapter 60, Article XII, Division 4, Lake Auburn Watershed Overlay District of the Auburn Code of Ordinances to more precisely identify the standards governing definitions, agriculture, pesticides, fertilizers, forestry, resource protection and erosion control in the Lake Auburn Watershed Overlay District. This amendment is pursuant to Chapter 60, Article XVII Division 2-Amendment to the Zoning Ordinance or Zoning Map.

Consider adopting the Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map. This map is to establish a 250' setback to agricultural field tillage from natural resources and will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. BACKGROUND: In January of 2024, City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the Lake Auburn Stakeholders Group. Since that time the group(s) have met on approximately 10 occasions to address continued concerns pertaining to protecting Lake Auburn. The group(s) have relied on the ordinance to drive the discussion on what is best for the public water supply of Lewiston and Auburn. The proposed changes are detailed in the attached order and proposed text. The proposed changes include amendments to Section 60.2 Definitions, Sec. 60-951 Use and environmental regulations and Sec. 60-952 as they relate to agricultural, forestry and erosion control. The amendments include changes that will strengthen the ordinances pertaining to the Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn.

III. SUGGESTED LANGUAGE: See Attached.



IV. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

V. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS: Lake Auburn Overlay District: These two items are on the Planning Board agenda as public hearing item(s). Staff recommends the Planning Board have a discussion and make a formal recommendation to the City Council on the text amendments in Chapter 60, Article II General Provisions, Division 4, Lake Auburn Watershed Overlay District, Sec. 60-951, Sec. 60-952, and Sec.60-953 and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

1st POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to amend the text in Chapter 60, Article II General Provisions, Division 4 Lake Auburn Watershed Overlay District, Sec. 60-951, Sec.60-952 and Sec. 60-953. Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

2nd POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to adopt the Lake Auburn Watershed Overlay District, Agricultural Buffer Setbacks Map. This map is for establishing a 250' setback to agricultural field tillage from natural resources and will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

_____

Signed

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024

Author: Megan Norwood, Planning Coordinator

Subject: Manufactured housing, trailers, office trailers to allow shipping containers, Conex boxes, railroad cars and tractor trailer bodies for storage.

Information: The City has experienced an increase in the use of shipping containers, conex boxes, railroad cars and tractor trailer bodies used for storage. Current language in the ordinance does not address these items. Staff brought a proposed ordinance amendment to the Planning Board for initiation and the Board reviewed it at their August 13, September 10 and October 8 meetings. On October 8, 2024 the Planning Board forwarded a favorable recommendation on an ordinance to the City Council by a Vote of 4-1.

The proposed language includes provisions for shipping containers or Conex boxes that include shielding them from a public way (or neighboring property). Shipping containers or Conex boxes which are altered in appearance to resemble the characteristics of surrounding structures are excluded from visibility requirements. The language specifically limits the size of shipping containers and Conex boxes to 320 square feet and establishes a permitting process through the Planning and Permitting Department.

The language also allows for railroad cars and tractor trailer bodies to be used for agricultural and industrial uses only provided they are not visible from a public way or a neighboring property.

City Budgetary Impacts: Potential revenue from building permit fees & taxable value from the structures.

Staff Recommended Action: As this is a workshop item, please provide feedback to Staff on the proposed ordinances and any questions.

Previous Meetings and History: PB favorable recommendation at the October 8, 2024 meeting.

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Proposed Ordinance Amendment

Sec. 60-666. Uses of—Manufactured housing, trailers, office trailers.

The use of manufactured housing, trailers and office trailers is prohibited except as follows:

(1) As permanent single-family residences on individual lots in all residential districts (applies only to manufactured housing units that meet all federal, state and city codes).

(2) As permanent single-family residence in approved mobile home developments in Rural Residence (RR), and Suburban Residence (SR) Districts (applies only to manufactured housing units that meet all federal, state and city codes).

(3) As permanent single-family residence on individual lots in the Manufactured Housing Overlay (MHO) Districts (applies only to manufactured housing units that meet the requirements of division 6 of article XII of this chapter).

(4) As temporary residences for farm laborers or supervisory personnel employed on a seasonal basis on the farm of their employer and limited to the period of such seasonal employment.

(5) As temporary field headquarters or office space on construction sites for persons or firms actually engaged in construction work.

(6) As temporary office space for persons or firms actually engaged in the business of selling manufactured housing, mobile homes and trailers.

(7) As temporary living quarters for construction workers located on or within one-quarter of a mile from the construction site on which they are employed. Such occupancy shall be limited to the period during which construction is in progress.

(8) As temporary living quarters for persons whose need arises from emergency resulting from loss of their homes through accident, natural disaster, or other physical causes. The period of occupancy permitted by this subsection shall be limited to 12 months together with any additional period during which a valid building permit for construction of replacement living quarters may be in effect (applies to manufactured housing only).

(9) As temporary office space for a business enterprise during the period in which permanent office space is being constructed for which a valid building permit has been issued.

(10) As temporary living quarters for employees of itinerant businesses such as carnivals during the period when such businesses are actually being conducted within the city and in no case for longer than 30 days (applied to trailers only).

(11) As temporary classroom space at an existing school facility for educational activities conducted by the city's department of education.

(12) Storage boxes or space trailers used as storage space for nonhazardous materials by the commercial or industrial use which occupies the property. For the purpose of this chapter, the term "storage box" or "space trailer" means a fully enclosed structure manufactured for storage use only. ~~and does not include tractor-trailer bodies, cargo container boxes or railroad cars.~~

(13) As office space for excavation and sawmill operations for the period of active use. If such operations are discontinued for a period of 12 consecutive months, such use shall be considered abandoned and the office trailer shall be removed.

(14) Shipping containers or Conex boxes used as a storage space for nonhazardous materials which are not visible from a public way or a neighboring property. Shipping containers or Conex boxes which are altered in appearance to resemble the characteristics of surrounding structures are excluded from

visibility requirements. Regardless of size all Conex and Storage boxes must be permitted with city code enforcement and size must be limited 320 SF.

(15) Railroad cars and tractor trailer bodies ~~used for the storage of harvested crops~~which are not visible from a public way or a neighboring property are allowed for agricultural and industrial uses only.

(Ord. of 9-21-2009, § 4.3B)

IN COUNCIL WORKSHOP & MEETING OCTOBER 21, 2024 VOL 37 PAGE 198

Mayor Harmon called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Student Representative Abdulahi was absent (excused). All Councilors were present.

I. Consent Items

1. ORDER 145-10212024* - Appointing Arthur Wing to the Auburn Housing Authority Board of Commissioners for a term that expires 10/1/2029, as recommended by the Appointment Committee.

Councilor Gerry moved for passage, seconded by Councilor Whiting. Motion passed 7-0.

II. Minutes – October 7, 2024 Regular Council Meeting

Councilor Walker moved for acceptance of the minutes, seconded by Councilor Cowan. Motion passed 7-0.

III. Communications, Presentations and Recognitions

Mayor Harmon read a memo submitted by the Natural Products & Agriculture Working Group thanking the City for its support of the Farm & Forest event held over the weekend. Over 200 people attended.

City Manager Crowell, Mayor Harmon, and Chief Robert Chase recognized the Auburn Fire Department for their outstanding work in response to several low-frequency, high-risk emergencies and fires lately. Several members of the Fire Department were in attendance.

Mayor Harmon presented a plaque to owners of Republic Jewelry and Collectibles in recognition of the business' 40th anniversary.

Mayor Harmon read the proclamation for 2024 Extra Mile Day and presented an award to the Volunteers at The Drop-In Center.

IV. Open Session

None.

V. Unfinished Business

1. ORDINANCE 19-10032024– Adopting revised MMA General Assistance Ordinance and 2024/2025 GA Maximums. Second reading/public hearing. Passage requires majority vote. ROLL CALL VOTE.

Mayor Harmon opened the public hearing. There was no comment. The public hearing was closed.

Councilor Walker moved for passage, seconded by Councilor Gerry. Motion passed 7-0 on a roll call vote.

2. ORDER 146-10212024 – Amending ORDER 106-08192024 regarding the City's Comprehensive Plan Committee. Passage requires majority vote.

Councilor Milks moved for passage, seconded by Councilor Weisner.

Councilors discussed the merits of the proposed amendment.

Motion failed 3-4 (Gerry, Whiting, Platz, Cowan opposed).

VI. New Business

1. Public Hearing – CDBG/HOME Consolidated Annual Performance Evaluation Report (CAPER) Program Year 2023. No action.

Mayor Harmon opened the public hearing at 7:52pm. There was no comment and the public hearing was closed. No action was taken by the Council.

2. ORDER 147-10212024 - Authorizing the City's general obligation bonds in the amount of $983,000to finance the School Department's FY25 Capital Improvement Program. First reading. ROLL CALLVOTE. Passage requires an affirmative vote of 5 Councilors at the second reading.

Councilor Whiting moved for passage, seconded by Councilor Cowan. Motion passed 6-1 (Gerry opposed) on a roll call vote.

VII. Reports

a. **Mayor's Report**- Mayor Harmon recognized the self-serve fuel option now available at the airport. Attended the Preble St. Homelessness Conference with the City Manager. Attended the Farm & Forest tour hosted by the Natural Products & Agriculture committee. Attended recent tours of manufacturing plants in recognition of Manufacturing Month. Reminded the public of the upcoming community meeting for citizens to give input on the Washington St. Corridor on 10/23 at 5:30pm. Reminded the public that absentee voting is ongoing at Auburn Hall and residents may vote absentee until 10/31 without special circumstances.

b**. City Councilors' Reports** – Councilor Whiting thanked the manufacturing plants for offering tours. Councilor Cowan thanked the Economic Development department for organizing the tours of the manufacturing plants and commented on the upcoming meeting of the Homeless Committee on Thursday. The Homeless Committee is close to producing a report. Councilor Weisner attended the self-serve fuel event at the airport, there was great attendance. Asked the City Manager for an update on the Solid Waste plan, especially on recycling and compost. Councilor Walker thanked everyone who attended the recent clothing giveaway hosted by the Age Friendly Committee, over 425 people attended at the Library and over 5,000 pieces of clothing were given away. Reminded the public of UNAA's Halloween event on 10/27 from 1-3pm in Anniversary Park. Councilor Platz gave a few updates from the School Department; Asst. Superintendent was announced, Scott Annear. School recently approved $67,300 from previous bond for submeters for the new geothermal system at the High School, this could earn a tax credit up to $3 million in net savings.

c. **Student Representative Report** – Representative Egge acknowledged the Lewiston tragedy one year ago and thanked public safety for all they do to keep the community safe.

d. **City Manager Report** – Recognized the 1 year Lewiston Remembrance event occurring on 10/25. Thanked Landry French for including students of the PAL center in their recent "topping off" ceremony. Recognized Halloween events taking place, Trunk or Treat, and the Drug Take Back event at Bedard Pharmacy and the Sandbuckers for Seniors program.

e. **July 2024 Finance Report – Kelsey Earle, Finance Director**
Motion to accept the Finance Report by Councilor Walker, seconded by Councilor Milks. Motion passed 7-0.

VIII. Open Session

None.

IX. Executive Session

None.

X. Adjournment

Motion to adjourn made by Councilor Walker, seconded by Councilor Weisner. Motion passed 7-0. Council adjourned at 8:12pm.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024 ORDINANCE 20-11042024

Author: Kris Beaudoin- Code Compliance Team Leader

Subject: Chapter 12 Article IV.- Housing Code, Ordinance update

---

Information: Updates to Chapter 12 Article IV. Housing Code to clarify its applicability to all building types and address challenges with vacant buildings. The proposed amendments include the addition of a definition for vacant buildings, requirements specific to vacant buildings, and the addition of language in Division 2 expanding inspection areas to vacant buildings and structures utilized for the purpose of conducting business. The proposed changes to the ordinance will clarify the applicability of standards to vacant and non-residential buildings and expand the enforcement ability of staff on vacant buildings. The ordinance has been reviewed by the City Attorney and the edits from that review have been included in the draft.

City Budgetary Impacts: None-easier enforcement

Staff Recommended Action: Hold the first reading of the amended draft ordinance during November 4, 2024, Council meeting.

Previous Meetings and History: Council Workshop September 3, 2024

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Chapter 12 Article IV. document outlining changes.

ARTICLE IV. PROPERTY MAINTENANCE AND HOUSING CODE

DIVISION 1. GENERALLY

Sec. 12-145. Purpose.

The purpose of this article is to establish minimum standards for all ~~dwellings~~ buildings and ~~-~~property incident thereto in the city to ~~insure~~ ensure safety, health, and public welfare through the proper construction, maintenance, and use thereof.

(Code 1967, § 20-A(1.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-146. Definitions and rules of construction.

(a) The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Basement means that portion of a building below the first floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Chief of police means the legally designated head of the police department of the city or his authorized representative.

Dwelling or *dwelling unit* means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Extermination means the control and elimination of insects, rodents, or other pests by eliminating their harborage places; by removing or making inaccessible materials that may serve as their food; by poisoning, spraying, fumigating, trapping; or by any other recognized and legal pest elimination methods approved by the health officer.

Fire chief means the legally designated head of the fire department of the city or his authorized representative.

Garbage means the animal and vegetable waste resulting from the handling, preparation, cooking, and consumption of food.

Habitable room means a room or enclosed floor space used or intended to be used for living, sleeping, cooking or eating purposes excluding bathrooms, water closet compartments, laundries, pantries, game rooms, foyers or communicating corridors and permanent built-in closets and storage spaces.

Health officer means the legally designated health authority of the city or his authorized representative.

Infestation means the presence or evidence of the presence within or around a dwelling, of any insects, rodents, or other pests.

Manufactured housing means a structural unit or units designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site, the term includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. Manufactured housing shall include newer mobile homes and modular homes as defined in city zoning regulations.

Mobile homes, older, means any factory-built home that fails to meet the definition of manufactured housing and more specifically, any mobile home constructed prior to June 15, 1976. These units shall be restrict to location in approved mobile home parks.

Mobile home park means a parcel of land under single ownership in rural residence, suburban residence and cluster development districts that has been planned and improved for the placement of not less than three mobile homes for non-transient use.

Multiple dwelling means any dwelling containing more than three dwelling units.

Occupant means any person over one year of age, living, sleeping, cooking, or eating in, or having actual possession of, a dwelling unit or rooming unit.

Operator means any person, who has charge, care or control of a building or part thereof, in which dwelling units or rooming units are rented or let or of an area where spaces are rented or let for mobile homes.

Owner means any person who, alone or jointly or severally with others, has legal title to any dwelling or dwelling unit, with or without accompanying actual possession thereof, or has charge, care or control of any dwelling or dwelling unit, as owner or agent of the owner, or an executor, executrix, administrator, administratrix, trustee, or guardian of the estate of owner. Any such person thus representing the actual owner shall be bound to comply with the provisions of this chapter to the same extent as if he were the owner.

Paint stabilization means repairing any physical defect in the substrate of a painted surface that is causing paint deterioration, removing loose paint and other material from the surface to be treated, and applying a new protective coating or paint to the affected areas.

Plumbing means all of the following supplied facilities and equipment: gas pipes, gas-burning equipment, water pipes, garbage disposal units, waste pipes, water closets, sinks, installed dishwasher, lavatories, bathtubs, shower baths, installed clothes washing machines, catch basins, drains, vents , and any other similar supplied fixtures, together with all connections to water, sewer or gas lines.

Rooming house means any dwelling, or that part of any dwelling, containing one or more rooming units, in which space is let by the owner or operator to four or more persons who are not husband or wife, son or daughter, mother or father, or sister or brother of the owner or operator.

Rooming unit means any room or group of rooms forming a single habitable unit used or intended to be used for living, and sleeping, but not for cooking or eating purposes.

Rubbish means combustible and non-combustible waste materials except garbage, including, without limitation, residue from the burning of wood, coal, coke, or other combustible material, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery, dust and others.

Structural elements means all of the following components of a structure, including but not limited to: foundation, framing, sheathing, siding, roofing material, windows, doors, trim, eaves, porches, stairs, railings, guards; and interior surfaces such as sheetrock, plaster, ceiling tiles, countertops, and floors.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations but not to exceed 30 days.

Supplied means paid for, furnished, installed or provided by or under the control of the owner or operator.

Temporary housing means any tent, trailer, or other structure used for human shelter that is designed to be transportable and which is not attached to the ground, to another structure, or to any utilities system on the same premises for more than 30 consecutive days.

Vacant building means any building that is unoccupied, unattended, and is not actively used as a place of residence or business, or is frequently ~~open or~~ unsecured so that unauthorized entrance may be gained.

(b) Whenever the words "building", "dwelling," "dwelling unit," "lodging house," "rooming unit," or "premises" are used in this article, they shall be construed as though they were followed by the words "or any part thereof."

(Code 1967, § 20-A(art. V); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-147. Compliance required.

(a) No dwelling or dwelling unit shall be deemed to conform with the requirements of this article until it meets all of the minimum standards of this article as specified herein.

(b) It is unlawful to construct, alter, maintain, occupy, let for occupancy, or use a building or structure, or part thereof, in violation of the provisions of this article.

(Code 1967, §§ 20-A(1.2), 20A(1.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-148. Validity of other laws.

Nothing in this article shall be construed to prevent the enforcement of other laws that prescribe more restrictive limitations.

(Code 1967, § 20-A(1.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-149. Exceptions permitted.

In seasonal dwellings, mobile homes, buildings erected prior to the original adoption of this article, or in agriculture and resource protection district as defined by the zoning provisions of the city, or in areas where public water or sewerage systems are not available, the code compliance officer shall upon application grant an exception for the use of buildings for dwelling purposes that do not meet the minimum standards set forth in this article when he determines that:

(1) It is not feasible or practicable to comply with such minimum standards;

(2) The safety, health, or general welfare of the occupants and the public will not be adversely affected; and

(3) The effect of the granting of the exception will not adversely affect adequate light, air, overcrowding, of persons or property, the provision for public utilities, the character of the neighborhood, or traffic conditions as applied to the welfare of the occupants or the general public.

(Code 1967, § 20-A(1.6); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-150. Procedure for granting exceptions.

(a) The code compliance officer shall issue such exception in writing setting forth the date of granting, the reasons for granting the same, the date it shall expire, and the location of the premises.

(b) No such exceptions shall be granted for a period of more than five years. Any exception may be renewed one or more times, upon application to the board of appeals. Each renewal shall not exceed additional periods of five years for such renewal. Each renewal shall contain the requirements of the original exception and in addition thereto the date of issuance of the original exception and the statement that it is a renewal.

(Code 1967, § 20-A(1.7); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-151—12-169. Reserved.

DIVISION 2. INSPECTIONS

Sec. 12-170. Authority of code compliance officer.

The code compliance officer is hereby authorized to make inspections to determine the condition of vacant buildings, structures used for the purpose of conducting business, dwellings, dwelling units, rooming houses, rooming units and premises located within this city in order that ~~he~~ the code compliance officer may perform ~~his~~ their dut~~y~~ies of safeguarding the health and safety of the occupants of dwellings and of the general public.

(Code 1967, § 20-A(2.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-171. Right of entry for inspection.

For the purpose of making such inspections, the code compliance officer is hereby authorized to enter, examine, and survey any or all property or building, including without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwelling units, rooming houses, rooming units, and premises at any mutually agreeable time, or as authorized by law ~~but in any case within 20 days of notice to the owners or occupant of the intention to make such an inspection~~.

(Code 1967, § 20-A(2.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-172. Owner and occupant to give free access.

(a) *Access of code compliance officer.* The owner and occupant of every dwelling, dwelling unit, lodging house and rooming unit or the person in charge thereof, shall give the code compliance officer free access to any or

all such property or building including, without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwellings, dwelling unit, lodging house or rooming unit and premises at any mutually agreeable time, or as authorized by law, for the purpose of such inspection, examination, or survey~~, but in any case within 20 days of notice to the owner or occupant of the intention to make such an inspection, examination, or survey~~.

(b) *Access of owner.* Every occupant of a property or building including, without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwelling, dwelling unit, lodging house and rooming unit shall give the owner, and his agent or employee, access at all reasonable times to any part of the dwelling, dwelling unit, lodging house, rooming unit or premises for the purpose of compliance with the ~~provisinos~~provisions of this article or any lawful order issued pursuant to this article.

(Code 1967, §§ 20-A(2.3), 20-A(2.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-173—12-194. Reserved.

DIVISION 3. ENFORCEMENT

Sec. 12-195. Procedure generally.

(a) If the code compliance officer determines that there are reasonable grounds to believe that there has been a violation of any provisions of this chapter, he shall initiate enforcement proceedings in accordance with the citation system established in this Code. Alternatively, he may initiate a land use complaint pursuant to state law, in which case the penalties therein provided shall apply.

(b) Any notice issued pursuant to this article shall:

(1) Be in writing;

(2) Include a statement of the reasons why it is being issued;

(3) Set a reasonable time for the performance of any act it requires;

(4) Be served upon the owner or his agent, or the occupant, as the case may require; provided, however, that:

a. Complaints under this article be deemed properly served upon such owner or agent or upon such occupant if a copy thereof is served upon him personally or by leaving a copy thereof at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein; or

b. If a copy thereof is sent by registered or certified mail to his last known address or the address as shown on the records in the tax assessor's office of the city of auburn; and

c. If service is made personally or by leaving at his dwelling house or usual place of abode a statement signed by the person so serving stating the date of service shall be filed in the office of planning and development.

(5) May contain an outline of remedial action that, if taken, will effect compliance with the provision of this article.

(c) After service of such notice, the owner or occupant to whom it is directed shall correct the condition constituting the violation within the time specified and promptly give notice to the code compliance officer that such corrective action has been taken.

(Code 1967, § 20-A(3.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-196. Method of petitioning for hearing.

(a) Any person affected by any notice issued in connection with the enforcement of any provision of this article, may request and shall be granted a hearing on the matter before the board of appeals; provided that such person shall file in the office of the board of appeals a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within ten days after the day the notice was served.

(b) Upon receipt of such petition, the board of appeals shall set a time and place for such hearing and shall give the petitioner notice thereof in person or by mail.

(c) At such hearing, the board of appeals shall take evidence to determine whether such notice should be sustained, modified, or withdrawn.

(d) The hearing shall be commenced not later than 30 days after the day on which the petition was filed; provided that upon application of the petitioner the board of appeals may postpone the date of the hearing for a reasonable time beyond such 30 day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement.

(Code 1967, § 20-A(3.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-197. Power of board of appeals to alter notice.

After such hearing, the board of appeals shall sustain, modify, or withdraw the notice, depending upon its findings as to the compliance with the provisions of this chapter. If the board of appeals sustains or modifies such notice, it shall be deemed to be an order. Any notice served pursuant to this article shall automatically become an order if a written petition for a hearing is not filed in the office of the board of appeals within ten days after such notice is served. There shall be an appeal from the board of appeals to the superior court in the manner provided by state law.

(Code 1967, § 20-A(3.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-198. Recording of public hearing.

The proceedings at such hearing, including the findings and decision of the board of appeals, shall be summarized, reduced to writing, and entered as a matter of public record in the office of the board of appeals. Such record shall also include a copy of every notice or order issued in connection with the matter.

(Code 1967, § 20-A(3.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-199. Notice of intent to sell, transfer or rent property subject to order.

(a) *When required.* Any person who proposes to sell, transfer or otherwise dispose of lease or sublet any dwelling unit, lodging house, rooming unit, or other premises against which there is any existing lawful order of the code compliance officer, the board of appeals or any court of competent jurisdiction shall furnish the proposed grantee or transferee a true copy of such order and shall notify the office of planning and

development in writing of the intent to so sell, transfer, or otherwise dispose of lease or sublet in writing giving the name and address of the person to whom such transfer is proposed within three days of the proposed transfer.

(b) *Penalty.* Any person who violates the terms of this section shall be in violation of this chapter and shall be subject to a penalty or fine of not less than $50 and not more than $100 to be enforced by complaint in a court of competent jurisdiction.

(Code 1967, § 20-A(3.5); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-200. Placarding of buildings unfit for human habitation.

(a) *Authority of code compliance officer.* If the person so affected fails to appeal to the board of appeals or if after an appeal, the board of appeals sustains the decision of the code compliance officer, the dwelling, dwelling unit, lodging house, or rooming unit so affected may be declared unfit for human habitation and placarded by the code compliance officer.

(b) *Procedure.* To placard, the code compliance officer shall issue to the occupants and the owner or operator a written notice to vacate the premises within such time as the code compliance officer may deem reasonable, but not less than seven days, and a placard prohibiting continued occupancy or re-occupancy may be conspicuously posted on the premises, and a copy of such notice may be filed with the police department.

(c) *Use of placarded buildings prohibited.* No dwelling or dwelling units, lodging house, or rooming unit which has been placarded as unfit for human habitation shall again be used for human habitation until written approval is secured from, and such placard is removed by, the code compliance officer. The code compliance officer shall remove such placard whenever the defect or defects upon which the placarding action is based have been eliminated.

(d) *Defacement and removal of placard prohibited.* No person shall deface or remove the placard from any dwelling or dwelling unit, lodging house or rooming unit, which has been declared unfit for human habitation and placarded as such.

(Code 1967, § 20-A(3.6); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-201. Order to vacate dangerous premises.

In instances where the health officer, fire chief, and chief of police, or their duly qualified deputies, determine in writing that extreme danger or menace to the occupants or the public health exists, the code compliance officer, health officer, fire chief, and chief of police, or their duly qualified deputies may order immediate correction to be made or, if the circumstances warrant, may order that the occupants vacate the premises as provided in this article.

(Code 1967, § 20-A(3.7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-202—12-224. Reserved.

DIVISION 4. MINIMUM STANDARDS

Sec. 12-225. Compliance with city codes and state law required.

All structures and structural elements of buildings and the construction, use and occupancy thereof shall be in accordance with the requirements of this Code, including the building and technical codes adopted by the city, and with state law and regulations.

(Code 1967, §§ 20-A(6.1), 20-A(12.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-226. Maintenance.

(a) All structures and structural elements shall be maintained structurally sound, in good repair, hazard free and suitable for the intended use.

(b) All painted exterior surface areas of pre 1978 properties must be maintained in a manner to not cause a public nuisance or affect the health and safety of the occupants of the property where the condition exists or of surrounding properties. Paint stabilization must occur if the potential for such a condition exists.

(Code 1967, § 20-A(6.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-227. Plumbing.

Every dwelling unit shall contain a kitchen sink and a bathtub or shower. In addition, every dwelling unit shall contain, within a room which affords privacy, a flush water closet and a lavatory basin. All plumbing facilities required by this Code shall be in accordance with the requirements of the plumbing code adopted by the city as of date of installation and maintained in good sanitary working condition; water-related plumbing facilities required by this Code shall be connected to adequate supply of water.

(Code 1967, § 20-A(art. 7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-228. Heating and ventilation.

(a) *Maintenance.* All heating and ventilating facilities shall be maintained in safe operating condition for use without danger of asphyxiation or of overheating combustible material.

(b) *Requirements when central heating plant not available.* When heat is not furnished by a central heating plant, each dwelling unit or rooming unit shall be provided with one or more masonry flues and smoke or vent pipe connections, or equal arrangement, in accordance with the provisions of the basic building code to permit the use of heating equipment capable of providing heat as required by this section.

(c) *Heating facilities required in rented or leased premises.* Every habitable room, let for occupancy, shall be served by heating facilities capable of providing a minimum temperature of at least 68 degrees Fahrenheit, at a distance of three feet from the exterior walls, five feet above floor level, as required by prevailing weather conditions. In addition, the heating facilities must be operated to protect the building equipment and systems from freezing.

(d) *Window specifications.* Every habitable room shall have a window or windows with a total sash area equal to at least eight percent of its floor area opening on a street, alley, yard, or court open to the sky and constructed and maintained so that at least one-half of the sash area can be opened, except that an approved method of mechanical ventilation may be substituted for such window or windows

(Code 1967, § 20-A(art. 8); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-229. Electrical and lighting.

All lighting and other electrical facilities shall be in accordance with the requirements of the electrical code adopted by the city and shall be maintained in good, safe and suitable electrical order.

(Code 1967, §§ 20-A(9.1), 20-A(9.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-230. Passageways, stairways and exits.

(a) *Exits.* Every dwelling unit and every rooming unit shall have safe, continuous and unobstructed means of egress leading from the interior of the building to safe and open spaces at ground level in accordance with applicable statutes and ordinances.

(b) *Lighting.* Every passageway and stairway shall have at least one ceiling-type or wall-type electric light fixture adequate to provide safe passage.

(c) *Obstructions.* Every hallway, stairway, corridor, exit, fire escape door or other means of egress hall be kept clear of obstructions at all times.

(Code 1967, §§ 20-A(9.3), 20-A(12.3), 20-A(12.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-231. Garbage and rubbish.

(a) *Method of disposal.* Every responsible occupant of a dwelling or dwelling unit shall dispose of all his garbage and rubbish in a clean and sanitary manner. Every owner of rental property shall provide his tenants with suitable waste containers as required by city ordinance.

(b) *Accumulations prohibited.* Every dwelling shall be clean and free from garbage or rubbish. When a dwelling or dwelling unit is not reasonably clean or free from garbage or rubbish, the code compliance officer may cause the responsible person to put the dwelling or dwelling unit in a clean and sanitary condition.

(Code 1967, § 20-A(10.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-232. Insect and rodent control.

(a) *Owner responsible for extermination in multiple dwellings.* If infestation exists in two or more of the dwelling units in any dwelling, or in the shared or public parts of any dwelling containing two or more dwelling units, extermination thereof shall be the responsibility of the owner.

(b) *Occupant responsible for extermination.* Every occupant of a dwelling containing a single dwelling unit shall be responsible for the extermination of any insects, rodents, or other pests therein or on the premises.

(Code 1967, § 20-A(10.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-233. Space and occupancy.

(a) *Floor space requirements.* The total area of every dwelling unit shall contain at least 250 square feet of floor area, with an additional 125 square feet for each occupant over two.

(b) *Ceiling height.* At least one half of the floor area of every habitable room shall have a room ceiling height of at least 7 feet; and the floor area of that part of any room where the ceiling height is less than five feet shall not be considered as part of the floor area in computing the total floor area of the room for the purpose of determining the maximum permissible occupancy thereof.

(c) *Use of basement.* No basement space shall be used as a habitable room or dwelling unit unless it conforms to the minimum requirements of this article.

(Code 1967, § 20-A(art. 11); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-234. Dwelling occupancies prohibited adjacent to hazardous establishments.

No dwelling unit or rooming unit shall be located within a building containing any establishment handling, dispensing or storing flammable liquids or producing toxic gases or vapors in any quantity that may endanger the lives or safety of the occupants.

(Code 1967, § 20-A(12.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-235. Vacant Buildings.

(a)~~(a)~~ In addition to other requirements, including without limitation section Sec. 12-226, all ~~All~~ vacant buildings shall be weather- protected from the elements to prevent deterioration of the interior and exterior of the building.

(b) All vacant buildings shall be secured to prevent rodent infestation and entry by unauthorized individuals.

(c) Sprinkler systems located in vacant buildings must be maintained and remain operational unless a removal request is approved in writing by the Authority Having Jurisdiction ~~(AHJ)~~, as such term is defined in the National Fire Protection Association Fire Prevention Code (also known as NFPA #1).

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024 **Order: 148-11042024**

Author: Councilor Belinda Gerry & Councilor Adam Platz

Subject: Amending ORDER 106-08192024 regarding composition of the City's Comprehensive Plan Committee

---

Information: Councilor Gerry and Councilor Platz are submitting the following amendment to ORDER 106-08192024:

- Up to ~~10~~ 12 residents of Auburn, who are not a member of the City Council or Planning Board, including at least one resident residing in each Ward, nominated by the Appointment Committee and appointed by the City Council (voting members)

This amendment would change the total number of resident members to 12, from the current 10. A copy of ORDER 106-08192024 is attached for reference.

City Budgetary Impacts: N/A

Staff Recommended Action: N/A

Previous Meetings and History: ORDER 106-08192024 was passed August 19, 2024 and amended at the October 7, 2024 meeting. A proposed amendment changing the Comp Plan Committee's composition was considered at the October 21, 2024 meeting and failed 3-4 (Gerry, Platz, Whiting, Cowan opposed).

ORDER 106-08192024

City Council Order

AMENDED 10/7/24

IN CITY COUNCIL

Ordered, that the Auburn City Council adopt the attached Membership, Schedule, Charge and Directive defining and initiating the appointment process for the Comprehensive Plan Committee and directing the City Manager to provide staff support for selecting a consultant, the planning process and to provide facilities for meetings.

Passed 8/19/24, 7-0.
Amended 10/7/24, 5-2 (Gerry, Whiting).

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

Comprehensive Plan Committee Membership

- The mayor (voting member)
- Up to two city councilors, appointed by the City Council (voting members)
- Up to two members of the Planning Board, nominated by the Planning Board and appointed by the City Council (voting members)
- Up to 10 residents of Auburn, who are not a member of the City Council or Planning Board, including at least one resident residing in each Ward, nominated by the Appointment Committee and appointed by the City Council (voting members)
- Up to two residents of the State of Maine who have expertise in municipal comprehensive or master planning and/or land use regulation, nominated jointly by the Mayor and City Manager and appointed by the City Council (voting if an Auburn resident, non-voting if not an Auburn resident)
- The city manager (non-voting)
- The assistant city manager (non-voting)

Comprehensive Plan Committee Schedule

- The deadline to receive applications shall be November 8, 2024.
- Nominations for members of the Comprehensive Plan Committee shall be forwarded to the City Council within 35 days of the enactment of this order.
- The Comprehensive Plan Committee shall meet within 30 days of the enactment of the order confirming nominated members to the Comprehensive Plan Committee.
- The Comprehensive Plan Committee shall elect, from their voting membership, a chairperson and a vice-chairperson at their first meeting.
- The Comprehensive Plan Committee shall submit a draft comprehensive plan to the Planning Board for their review within 12 months of the Committee's first meeting.
- The Planning Board shall review the draft comprehensive plan and submit their recommendations regarding the draft plan to the City Council within 65 days of receipt of the draft plan from the Comprehensive Plan Committee.

Comprehensive Plan Committee Charge

- Shall prepare a comprehensive plan and implementation strategies in compliance with 30-A MRSA Chapter 187, Subchapter 2.
- Shall review the current zoning district regulations and zoning maps and prepare recommendations for revised zoning district regulations and maps.
- Shall review all relevant local municipal information related to the comprehensive planning process including but not limited to maps, data, capital plans, city services, inventories, and analysis.

Directive to City Manager

- The city manager shall provide staff support and meeting facilities to the Comprehensive Plan Committee.
- The city manager shall provide subject matter experts from the city staff to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall develop a request for proposal to secure the services of a comprehensive planning consultant to assist the Comprehensive Plan Committee with the preparation of the comprehensive plan.
- The city manager shall create a proposal review committee to review the responses from the consultants to the RFP, and to select a successful proposer, which includes an equal number of city staff and members of the Comprehensive Plan Committee.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024 RESOLVE 7-11042024

Author: Eric Cousens – Director of Planning and Permitting

Subject: Interim Rail Trail Resolve

Information: Mayor Harmon has requested Staff to prepare a resolve and information sheet pertaining to the future use of the State-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland.

A Portland to Auburn Rail Use Advisory Council was formed by the Maine DOT as a result of LD 1133 (an Act to Amend the Transportation Laws). The Council was tasked with reviewing the approximately 26.5-mile section of the St. Lawrence and Atlantic Rail Corridor and provide recommendations on the likelihood, economic benefits and costs of potential uses of the rail corridor. The trail has significant benefits for active transportation.

In January of 2023 the Portland to Auburn Rail Use Advisory Council provided three recommendations:
- Interim Trail until Rail: A paved trail (7 votes)
- Rail with Trail: A trail built alongside the existing tracks (5 votes)
- Rail Use Only: Keeping the tracks in place (1 votes)

Out of the three options the City of Auburn supported a "*rail with trail*" recommendation in an attempt to promote the substantial benefits of the trail while also preserving the best chance of freight or passenger rail use in the future.

With "rail with trail" no longer being a policy option, the City must consider whether it supports using the railway as an interim trail between Portland and Auburn as part of the Casco Bay Trail.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Consider resolve and vote to adopt revised position given the limited choices that are now available.

Previous Meetings and History:

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Draft Resolve for Interim Trail

RESOLVE 7-11042024

City Council Resolve

IN CITY COUNCIL

WHEREAS, the Commissioner of the Maine Department of Transportation, pursuant to Public Law 21, Chapter 239, established a Rail Use Advisory Council to facilitate discussion, gather information, and provide advice regarding the future use of the state-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland; and

WHEREAS, the City of Auburn was provided a seat on said Council to provide input on city plans and policies relating to the future use of this rail corridor; and

WHEREAS, the State of Maine acquired this corridor through two purchases, one in 2007 and another in 2010, as part of on-going planning for freight and passenger movements between the City of Portland and the City of Auburn; and

WHEREAS, the city has identified south Auburn as a growth area in its most recent Comprehensive Plan and multi-modal use of this corridor, including for active transportation, would increase its attractiveness for residential and commercial investment; and

WHEREAS, the City of Auburn previously supported a "rail with trail" recommendation; and

WHEREAS, the "rail with trail" option is no longer an available policy option, and the legislature will consider a recommendation of rail, trail, or interim trail; and

WHEREAS, the establishment of an "interim trail' along this corridor is integral to the establishment of the Casco Bay Trail;

NOW THEREFORE BE IT RESOLVED, that the Auburn City Council supports an "interim trail" recommendation from the Rail Use Advisory Council and the expedited advancement of any necessary planning and design work to implement that recommendation between the city of Portland, and the city of Auburn as part of the Casco Bay Trail.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024 **Order: 149-11042024**

Author: John Blais, Deputy Director Planning & Permitting

Subject: Amending ORDER 123-09162024 extending the reporting deadline for the Mayor's Ad-Hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee from November 18, 2024 to December 16, 2024.

Information: This order amends ORDER 123-09162024 (attached) to change the reporting deadline from November 18, 2024 to December 16, 2024. The committee has made great progress particularly with defining Bona-Fide Agricultural and Farm land uses and we wish to have at least two additional meetings to define Bona-Fide Recreational and Natural Resources land uses. The thought is to focus on each of those two topics on each meeting individually and then finalize a working document to be shared with the City Council.

City Budgetary Impacts: N/A

Staff Recommended Action: N/A

Previous Meetings and History: ORDER 123-09162024 creating the Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee was passed at the September 16, 2024 Council Meeting.

City Manager Comments: Phillip Crowell J.

ORDER 123-09162024

City Council Order

IN CITY COUNCIL

ORDERED, the creation of the Mayor's Ad-hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee as outlined below:

Charge

The Mayor's Ad-hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee will develop criteria to be used when determining if a business or land use, if implemented, will constitute a bona fide farming, agricultural, recreational or natural resource use pursuant the City of Auburn Code of Ordinances, Section 60-145(a)(1)(b)(2)(i).

Membership

The committee shall be comprised of the following members:

- The Chair of the Sustainability and Natural Resources Board or the Chair's designee.
- Up to two representatives of the Natural Products and Agriculture Working Group as designated by the Chair of the Group.
- A representative of the Conservation Working Group as designated by the Chair of the Group.
- A representative of the Community Forestry Working Group as designated by the Chair of the Group.
- A representative of the Parks and Recreation Advisory Board as designated by the Chair of the Board.
- A member of the Planning Board as designated by the Chair of the Board.
- Representatives of the Planning, Permitting, and Code Enforcement Department as designated by the City Manager.

Reporting

The Committee report to the City Council, no later than November 18, 2024, with proposed criteria.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large
Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five

Monthly Financial Report
August 2024 - Fiscal Year 2025

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending August 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending August 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its first month of the current fiscal year. As a guideline for tracking purposes, if split evenly throughout the year, revenues and expenditures should amount to approximately 16.66% of the annual budget. However, not all costs and revenues are distributed evenly as individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through August 2024 were **$7.51M** or **11.15%** of budgeted general fund revenue, as compared to 9.4**%** of actual revenues through August 2023.

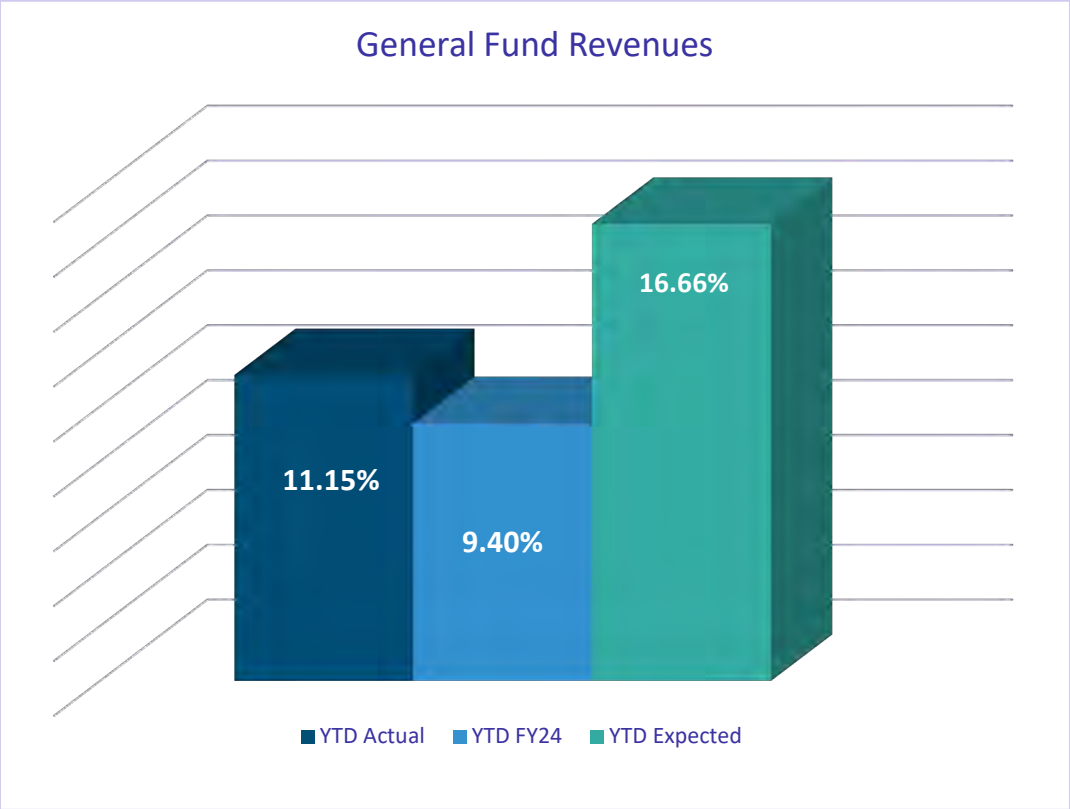
- Total tax collection and EMS Transport fees have had a significant impact on the increase in revenue collected

Expenditures

• Expenditures through August 2024 were **$8.8M** or **8.25%** of the budget, as compared to 8.3**%** of actual expenditures through August 2023.

- No significant expenses are generally expected during the month of August, operating budgets are usually stable during this period

Respectfully submitted,



Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

General Fund

for the Period Ended August 31, 2024

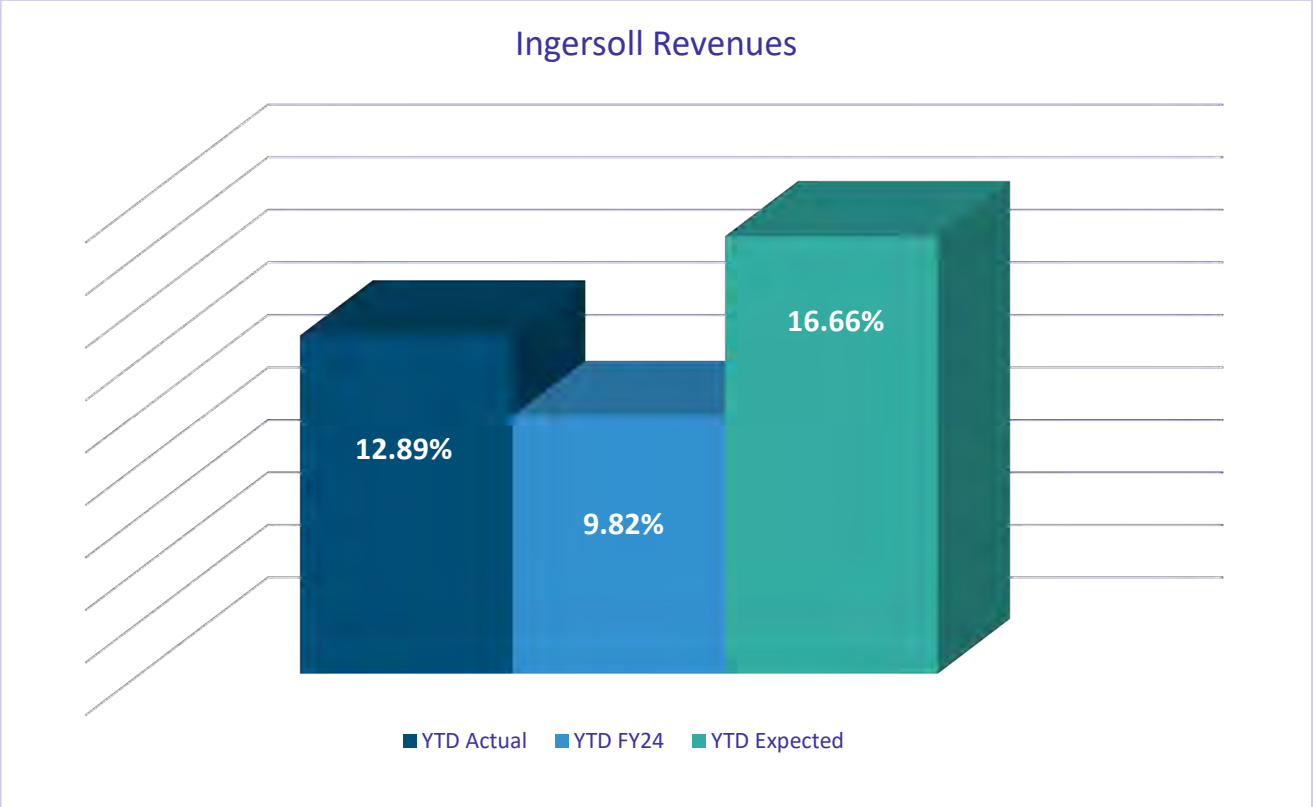
Ingersoll Turf Facility



for the Period Ended August 31, 2024

As of August 2024, Ingersoll had an operating gain YTD of $16,574. Of note, revenue to expenditure comparison is disproportionate as some expenditures are listed under the Recreation department budget, and regular salaries under Public Works.

Revenues:

The operating revenues for Ingersoll through August 2024 are $17,074 or 12.89% of the budget as compared to 9.82**%** of actual revenues through August 2023. This revenue comes from sponsorships, programs, rental income, and batting cages.

*Graph reflects revenues for the current year with comparison to expected approximate percentage.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (E) to discuss a legal matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

City Council Workshop & Meeting
Agenda
November 18, 2024
Auburn Hall, Council Chambers

5:30 PM Workshop

- Property Tax Assistance Program
- **Executive Session** pursuant to 1 M.R.S.A. Section 405(6) (C) to discuss an economic development matter.

X. Adjournment

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024

Author: Phil Crowell, City Manager

Subject: Property Tax Assistance Program

Information: During the November 4th workshop, the city council requested the city manager bring forward for council consideration, a property tax assistance program.

Attached is a proposed ordinance to create a Property Tax Assistance Program which is pursuant to Chapter 907-A of Title 36 of the Maine Revised Statutes.

City Budgetary Impacts: To be determined based on qualifications, caps, eligible participants, and initiation of the program year.

Staff Recommended Action: Review and discuss

Previous Meetings and History: November 4, 2024, Workshop

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments: Draft Property Tax Assistance Program

Property Tax Assistance Program

Sec. 1. Purpose
The purpose of this Ordinance is to establish a program to provide property tax assistance to persons 65 years of age and over who reside in the City of Auburn pursuant to Chapter 907-A of Title 36 of the Maine Revised Statutes.

Sec. 2. Definitions
Homestead: A homestead is a dwelling owned or rented by the person seeking tax assistance under this Ordinance or held in a revocable living trust for the benefit of that person. The dwelling must be occupied by that person as a home.

Qualifying applicant: A qualifying applicant is a person who is determined by the Program Administrator or her/his designee, after review of a complete application submitted under Section 5 of this Ordinance, to be eligible for a payment under the terms of this Ordinance.

Program administrator: the person designated by the city manager to administer the Property Tax Assistance Program.

Property tax fairness credit program: The property tax credit established by the State of Maine pursuant to Chapter 822 §5219-KK of Title 36 of the Maine Revised Statutes.

Sec. 3. Creation of the Program Fund
The City Council may annually appropriate funds for the Property Tax Assistance Program. The Program Administrator shall determine the total amount of property tax assistance sought by qualified applicants.

If funds appropriated by the City Council are less than the amount for which applicants are eligible under the terms of this ordinance, then funds shall be proportionally disbursed. The Program Administrator shall calculate a difference ratio between the fund appropriation and the total amount the tax relief being sought of qualified applicants. This ratio shall be used to adjust each individual benefit for the qualified applicants. If a lack of funding results in no payment or less than the full payment to a qualifying applicant, the difference partial payment will not carry over to the next year.

Sec. 4. Criteria for Participation
To participate in the Property Tax Assistance Program, an applicant shall demonstrate all of the following:

a. The applicant shall be 65 years of age or more by the last day on which an application may be filed under Section 5 of this Ordinance.
b. The applicant shall have been a resident of the City of Auburn with a Homestead therein for the ten years immediately preceding the last day on which an application may be filed under Section 5 of this Ordinance.
c. A property owner applicant shall have a HOMESTEAD EXEMPTION benefit, in accordance with Title 36 M.R.S. Sec. 681-689, already established on the property upon which the dwelling is located.
d. The applicant has received a tax credit under the provisions of the State of Maine Residents Property Tax Fairness Credit Program.

e. The federal adjusted gross income of the applicant and any other adult members of the applicant's household combined (total household income) does not exceed the current city's median household income as determined by the United States Bureau of the Census, or, if recent census data is not available, by another source that the Program Administer deems reliable and accurate.
f. The applicant or any member of the household did not receive, nor is eligible to receive, rental assistance.
g. Payment of the immediately preceding fiscal year property taxes and all past property taxes have been paid in full for the subject property.

Sec. 5 Application and Payment Procedures
Persons seeking to participate in the Property Tax Assistance Program shall submit an annual application due to the Program Administrator no later November 15th of that year, except for the initial programming year – applications are due February 15, 2025 – allowing for the submittal of Property Tax Assistance for the tax year 2024 of the first two years of this program. The Program Administrator shall provide an application form for the program, which shall include the applicant's name, homestead address and contact information.

At the time of application, applicants must provide adequate evidence of eligibility. No confidential income records, including tax returns, will be kept by the City. The Program Administrator shall review and determine if the application is complete and accurate and if the applicant is eligible to participate in the Program. The Program Administrator shall notify an applicant if an application is determined to be incomplete. The Program Administrator's decision on eligibility to participate in the Program shall be final.

Sec. 6 Determination of eligibility and amount of eligibility
If the Program Administrator determines that the applicant is eligible to participate in the Program, he/she shall determine the amount of the benefit paid, subject to the following eligibility requirements.

a. The amount of credit qualified under the property tax fairness credit program not to exceed $1,000.00 or exceed the gross property tax or rent when combined with the Property Tax Fairness Credit; or

b. A pro rata share of available monies in the program fund based on the calculated amount of the rebate.

Sec. 7. Timing of Payments
A person who qualifies for payment under this Program shall be mailed a check for the full amount no later than September 1st for the year in which participation is sought. The applicant must be the owner of the property at the time the payment is issued in order to preserve qualification.

Sec. 8. Limitations upon payments
Only one qualifying applicant per household shall be entitled to payment under this Program each year. The right to file an application under this Ordinance is personal to the applicant and does not survive the applicant's death. If an applicant dies after having filed a timely complete application that results in a determination of qualification, the amount determined by the Tax

Collector shall be disbursed to another member of the household as determined by the Program Administrator in consultation with the City Manager. If the applicant was the only member of a household, then no payment shall be made under this Ordinance. Payment shall not be made to heir(s) of an applicant who are not a resident of the household at the time the application was filed.

Sec. 9. Annual Report to the City Council

The Program Administrator shall report in writing to the City Council no later than December 31st of each year (following the first year of the program) the projected payments, number of eligible applicants requesting assistance for the program fund, and any surplus or shortage of program funds as described in Sec. 3.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024

Subject: Executive Session

Information: Executive Session pursuant to 1 M.R.S.A. Section 405(6) (C) to discuss an economic development matter.

Executive Session: On occasion, the City Council discusses matters which are required or allowed by State law to be considered in executive session. Executive sessions are not open to the public. The matters that are discussed in executive session are required to be kept confidential until they become a matter of public discussion. In order to go into executive session, a Councilor must make a motion in public. The motion must be recorded, and 3/5 of the members of the Council must vote to go into executive session. An executive session is not required to be scheduled in advance as an agenda item, although when it is known at the time that the agenda is finalized, it will be listed on the agenda. The only topics which may be discussed in executive session are those that fall within one of the categories set forth in Title 1 M.R.S.A. Section 405(6). Those applicable to municipal government are:

A. Discussion or consideration of the employment, appointment, assignment, duties, promotion, demotion, compensation, evaluation, disciplining, resignation or dismissal of an individual or group of public officials, appointees or employees of the body or agency or the investigation or hearing of charges or complaints against a person or persons subject to the following conditions:
(1) An executive session may be held only if public discussion could be reasonably expected to cause damage to the individual's reputation or the individual's right to privacy would be violated;
(2) Any person charged or investigated must be permitted to be present at an executive session if that person so desires;
(3) Any person charged or investigated may request in writing that the investigation or hearing of charges or complaints against that person be conducted in open session. A request, if made to the agency, must be honored; and
(4) Any person bringing charges, complaints or allegations of misconduct against the individual under discussion must be permitted to be present. This paragraph does not apply to discussion of a budget or budget proposal;

B. Discussion or consideration by a school board of suspension or expulsion of a public school student or a student at a private school, the cost of whose education is paid from public funds, as long as:
(1) The student and legal counsel and, if the student is a minor, the student's parents or legal guardians are permitted to be present at an executive session if the student, parents or guardians so desire;

C. Discussion or consideration of the condition, acquisition or the use of real or personal property permanently attached to real property or interests therein or disposition of publicly held property or economic development only if premature disclosures of the information would prejudice the competitive or bargaining position of the body or agency;

D. Discussion of labor contracts and proposals and meetings between a public agency and its negotiators. The parties must be named before the body or agency may go into executive session. Negotiations between the representatives of a public employer and public employees may be open to the public if both parties agree to conduct negotiations in open sessions;

E. Consultations between a body or agency and its attorney concerning the legal rights and duties of the body or agency, pending or contemplated litigation, settlement offers and matters where the duties of the public body's or agency's counsel to the attorney's client pursuant to the code of professional responsibility clearly conflict with this subchapter or where premature general public knowledge would clearly place the State, municipality or other public agency or person at a substantial disadvantage;

F. Discussions of information contained in records made, maintained or received by a body or agency when access by the general public to those records is prohibited by statute;

G. Discussion or approval of the content of examinations administered by a body or agency for licensing, permitting or employment purposes; consultation between a body or agency and any entity that provides examination services to that body or agency regarding the content of an examination; and review of examinations with the person examined; and

H. Consultations between municipal officers and a code enforcement officer representing the municipality pursuant to Title 30-A, section 4452, subsection 1, paragraph C in the prosecution of an enforcement matter pending in District Court when the consultation relates to that pending enforcement matter.

Subject: [External]A New Form Has Been Submitted - Board/Committee Application

The following form has been submitted by an end-user of the website: Board/Committee Application

First Name: Denis

Middle Initial:

Last Name: Bergeron

Residence Address: 23 Dexter Ave.

Ward: Ward 2

City: Auburn

Home Phone: 2075764588

Cell Phone: 2075764588

E-mail Address: denis.p.bergeron@gmail.com

Current Occupation: Retired

Previous Occupation (if retired or no longer working): Engineer

Education and/or experience: BS Mechanical Engineering, BS Park and Recreation Mgmt.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above):: Denis

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I served on the planning Board for 9 years, then served on the 2010 Comprehensive Plan Update Committee. I've observed the uneven process Auburn has used to update the Comp plan since then and believe it's time for a comprehensive, transparent publicly informed re-evaluation. I think my experience can help.

What do you hope to accomplish?: Contribute to a document that positions Auburn to take productive advantage of the many demographic, cultural, and climate changes it will be faced with in the coming years.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Water district and Sewer Sistrict Trustee

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Yes. Planning Board and 2010 Comp. Plan Update Committee

Dates served (if known): 2000 - 2009 and 2010 to 2012

How did you learn of this vacancy?: City web page

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Denis Bergeron

Date of Electronic Signature: August 26 2024

Current Occupation: Attorney/State Representative

Previous Occupation (if retired or no longer working):

Education and/or experience: Former City Councilor, Municipal attorney handling land use, code enforcement, ordinance drafting, and housing for the City of Portland; currently practicing attorney representing municipalities and individuals with complaints against municipalities.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have substantial experience with land use, zoning, housing, and economic development from several perspectives. I have, as an attorney, represented numerous municipalities including the City of Portland and various towns with respect to land use, zoning, housing, and code enforcement matters. I have, also as an attorney represented various businesses and individuals with similar issues against municipalities. Additionally, as a former City Councilor and State Representative I have a unique blend of knowledge of the governmental perspective and current challenges in enacting an effective comprehensive planning strategy.

What do you hope to accomplish?: Confronting housing and transportation challenges in a manner that provides opportunities to Auburn residents given the present affordability crises, and doing so in a manner that maximizes economic development in a focused and meaningful manner that does not adversely affect our economic and natural resources.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, Board of Assessment Review, Regulatory Advisory Board, Strategic Planning Committee

Dates served (if known): 2013-2022

How did you learn of this vacancy?: Social Media

Current Occupation: Regional Director Behavioral Health Network

Previous Occupation (if retired or no longer working):

Education and/or experience: I currently hold three licenses in the state of Maine (LCPC, LADC, and CCS) which support my work as the Regional Director for a Behavioral Health Network which serves individuals and families struggling with emotional and physical health conditions.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): From a young age I have been a community volunteer and hold a strong commitment to contributing to the community I reside in. I bought a home in Auburn about a year ago & am seeking an opportunity to contribute and learn more about Auburn. I would bring a fresh/objective perspective to the planning process and believe Auburn is an up and growing community that has the potential to offer a safe, fiscally sound and connected community culture. I think the community, like many of Maine communities is experiencing the challenges of individuals and families who struggle and my expertise in these areas can contribute to the comprehensive planning process.

What do you hope to accomplish?: As noted above, learning about the community, contributing to the development of a safe, culturally rich and economically sound community. Maintaining Auburn?s rich history and business while supporting the ongoing development of Auburn?s infrastructure (roads, ensuring all Auburn wards represent a welcoming and visually appealing engagement to visitors, and supporting the strengthening of Auburn?s current development initiatives). Assisting with any gaps/needs for Auburns current initiatives.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No.

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: No.

Dates served (if known): N/A

How did you learn of this vacancy?: Media

Current Occupation: VP of IT, ReVision Energy

Previous Occupation (if retired or no longer working):

Education and/or experience: masters in computer science

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I am deeply invested in Auburn's future. I want nothing but the best for this community and have spent countless hours volunteering to help steer things in the right direction. I have previously served on numerous boards and committees for the city and have learned a great deal about how it works. I work well with people and hope to achieve a collaborative comp plan committee that is committed to planning for the best Auburn that we can become in ten years.

What do you hope to accomplish?: I want to assist the committee in determining how Auburn can plan for the next ten years. As the prices of everything continue to climb, we need to be prepared to do more with less. The aging population of Auburn will need to continue to find innovative solutions for expensive problems. I hope through good discussion this committee can plan for good outcomes.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: Zoning Board of Appeals

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, 2020 Comp Plan Committee, Planning Board, Strategic Planning Committee

Dates served (if known): various since 2014

Current Occupation: Retired

Previous Occupation (if retired or no longer working): Community Development & Planning Consultant 35yrs

Education and/or experience: USM Graduate BA Biology, Consultant: I helped several municipalities in Maine develop Comprehensive Plans, Create and implement Development Plans, Wrote land use ordinances, and worked as a municipal p planner as staff for Planning Boards.

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I want to use my extensive experience in the private and public sector with land use planning to help Auburn develop a thorough and detailed Comprehensive Plan ,to create a vision and legal foundation for Auburn's growth for the next 10 - 15 years. As well as to use my knowledge of State Law regarding Comprehensive Plans to ensure the requirements are met. Additionally I believe my previous experience as Mayor of Auburn leading the community through a Comprehensive Planning process and subsequent land use ordinance changes will be helpful to this Comprehensive Plan Committee.

What do you hope to accomplish?: My goal is to help the Comprehensive Plan Committee to effectively and efficiently develop a Comprehensive Plan as required by State Law within the time frame outlined by State statute. As well as develop a Comprehensive Plan that meets the needs of the community and is consistent with the community's values.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: City Council, Mayor, Auburn Public Library, Mayor's Representative to School Board, and others.

Dates served (if known): City Council 1977 - 1981, Mayor 1983- 1987 APL previously & currently, School Board 1977 - 1981.

How did you learn of this vacancy?: At a City Council Meeting

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have lived in Auburn for over thirty years; I love the community and have found it to be a place where individual residents can make a difference. I have enjoyed working with other Auburn residents on matters of interest where we try to improve the lives of everyone who lives here. I hope to learn more about the challenges and trade-offs of moving Auburn forward through participating in Comprehensive Planning work. While there are issues that particularly concern me (environment, housing, welcoming diverse new Mainers into our civic processes) I would come into the process with an open mind, eager to hear what other people care about, and to try to engage with as many different residents of Auburn as possible in charting a way forward.

What do you hope to accomplish?:

I hope to help construct a ?blueprint? that is both aspirational and also grounded in the realities and challenges of the city. Beyond particular goals and benchmarks for the future, I would hope to find a way to capture the attention and imagination of more residents of Auburn ? to get more people involved in caring about this community as their home. Whatever the future throws at us, having people care ? and be willing to listen to their neighbors ? is essential.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: SNRB, Conservation Working Group

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Solid Waste Task Force

Dates served (if known): (Last six months)

How did you learn of this vacancy?: A friend told me about it

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Jane T Costlow

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I have lived in Lewiston Auburn since graduating from Bates in 1982; marrying an EL graduate in 1984 and buying a home in Auburn in 1989. My professional and volunteer life have focused on education, arts and culture and economic development for our community and State. I would like to contribute to Auburn?s comprehensive planning process to ensure our city can reach its highest potential and our citizens, especially our youth, can attain their highest aspirations. Having lived in Auburn for 35 years and planning to stay here through retirement, it is important to me that we both acknowledge previous work while simultaneously challenging our community to think creatively and expansively about the possibilities to make our City even stronger, more livable and appealing, and welcoming to new residents. While comprehensive plans are designed to provide state-required deliverables, the process for the community can also find common ground and develop a vision for the future.

What do you hope to accomplish?: A transparent process to ensure that Auburn residents see value in the comprehensive plan and understand how it is helpful for the City to make decisions, and reflects growth, development and redevelopment that makes the City stronger for both current and future residents and businesses.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Lewiston Auburn Airport Board

Dates served (if known): 2016-2019 (?)

How did you learn of this vacancy?: Mayor Harmon

X Comprehensive Plan Committee

___ 9-1-1 Committee
___ Auburn Housing Authority
___ Board of Assessment Review
___ CDBG Loan Committee
___ Conservation Commission
___ Finance Committee
___ Parks & Recreation Advisory Board
___ Planning Board
___ Water District
___ Airport Board
___ Audit & Procurement Committee
___ Cable TV Advisory Board
___ Community Forest Board
___ Ethics Panel
___ L/A Transit Committee
___ Poland-Auburn Economic Development Committee
___ Sewer District
___ Zoning Board of Appeals

Is this application for a X new appointment or ___ reappointment or ___ desire to move from an alternate/associate to full member?

Briefly describe why you want to serve on this committee (please limit to 150 words or less. Please attach additional sheet if needed). I believe I can best represent citizen interests and community growth through responsible planning. Water protection and neighborhood preservation are primary concerns.

What do you hope to accomplish (please limit to 150 words or less. Please attach additional sheet if needed). I would like to see Auburn grow responsibly, while protecting Lake Auburn, our schools, and traditional neighborhoods. I would encourage water/sewer extensions to create new housing opportunities away from Lake Auburn.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)? _____
Auburn Business Development Corp

Dates served (if known)? 30+ years

Have you previously served on a City or Community Board or Committee? If so, which one(s)?
YES
Auburn City Councilor Ward 5; Auburn Water Dist; Watershed Protection commission

Dates served (if known)? 1990-91 (Council) 1990-2018? Water Dist & Watershed

How did you learn of this vacancy? Mayor & Council & friends

The City Council strives to promote membership and by practice will attempt to limit the number of boards or committees any one person will serve. The city Council also strives to maintain balance of ward distribution on all boards, commissions, or committees.

Thank you for your interest and willingness to serve our community. The giving of your time is commendable and appreciated. Without people like you coming forward, our community would not be as strong, as vibrant, or as great as it is. On behalf of all of us at the City of Auburn, we hope your volunteer experience is rewarding and we thank you for being an outstanding citizen!

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024 **Order:** 147-10212024

Author: Kelsey Earle, Finance Director

Subject: FY25 School Department CIP Second Reading

Information: Second reading of the FY25 School Department Capital Improvement Plan (CIP). As shared at the first reading, the school committee approved amount was inadvertently omitted from the full municipal list and order in June.

City Budgetary Impacts: None at this time.

Staff Recommended Action: Passage

Previous Meetings and History: The school department CIP plan was reviewed via school committee with final approval given 4/24/24 and was part of the total approved school budget. First reading occurred at the City council meeting held on 10/21/2024.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

ORDER 147- 10212024

City Council Order

IN CITY COUNCIL

ORDER - AUTHORIZING ISSUANCE OF GENERAL OBLIGATION BONDS AND A TAX LEVY THEREFOR

Following a public hearing duly called and held as required by Article 8, Section 8.13 of the City Charter, **by the Auburn City Council BE IT ORDERED:**

THAT, pursuant to Title 30-A, §5772 of the Maine Revised Statutes, as amended, the City Charter, as amended, and all other authority thereto enabling, there is hereby authorized the issue and sale of the City's general obligation bonds (the "Bonds") and notes in anticipation thereof (the "Notes"), in the principal amount not to exceed $983,000, the proceeds of which, including original issue premium, if any, and investment earnings thereon, are hereby appropriated to finance the Auburn School Department FY25 Capital Improvement Plan approved by the Auburn School Committee on April 24, 2024 (including costs of issuance for the Bonds)(the "School CIP Projects").

THAT the Bonds and Notes shall be signed by the manual or facsimile signatures of the City's Finance Director and its Treasurer (provided that at least one of such signatures shall be a manual signature), attested by the City Clerk under the seal of the City.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the time of the sale, award and settlement of the Bonds and Notes, which may be issued at one time, or from time to time, through a public offering or a private placement, on a competitive or negotiated basis, in serial form or as term bonds, or some combination of any of the foregoing, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to establish, determine and approve the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such Bonds and Notes, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent not payable from other funds, each year that any of the Bonds remain outstanding, the City shall levy a tax in an amount sufficient to pay the annual installment of principal and the annual interest on such Bonds.

THAT the Finance Director is hereby authorized, in the name of and on behalf of the City, to do or cause to be done all such acts and things necessary and expedient in respect in connection with the financing of the School CIP Projects and the issuance the Bonds and Notes, and the investment of the proceeds thereof, including to select a financial advisor, underwriter, or paying agent/registrar with respects to the Bonds and Notes, and to execute, deliver and approve all agreements, investment agreements, bond purchase agreements, preliminary and final official statements or other offering documents, escrow agreements, continuing disclosure agreements, tax compliance agreements, or arbitrage certificates, and all other closing certificates and documents (collectively referred to as the "Bond Documents"), which

Richard S. Whiting, Ward One | **Timothy M. Cowan**, Ward Two | **Stephen G. Milks**, Ward Three
Benjamin J. Weisner, Ward Four | **Leroy G. Walker, Sr.**, Ward Five | **Belinda A. Gerry**, At Large
Adam R. Platz, At Large | **Jeffrey D. Harmon**, Mayor | **Phillip L. Crowell, Jr.,** City Manager

City Council Order

Bond Documents may be in such form and contain such terms, conditions and provisions including, without limitation, the waiving of the City's sovereign or governmental immunity with respect to the enforceability of any of the forgoing, which waiver of sovereign or governmental immunity is hereby authorized, confirmed and approved, as the Finance Director shall establish, determine and approve, such establishment, determination and approval to be conclusively evidenced by the execution thereof.

THAT to the extent the Bonds or Notes are issues on a tax-exempt basis, the Finance Director is hereby authorized, in the name of and on behalf of the City:

- To covenant, agree and certify (A) that no part of the proceeds of such Bonds and Notes shall be used directly or indirectly to acquire any securities or obligations or property, the acquisition or use of which would cause the Bonds or Notes to be "private activity bonds" or "arbitrage bonds" within the meaning of Sections 141 and 148 of the Internal Revenue Code of 1986, as amended, and (B) that the City will file any required reports and take any other action that may be necessary to insure that interest on the Bonds or Notes will remain exempt from federal income taxation, and that the City will refrain from any action that would cause interest on the Bonds and Notes to be subject to federal income taxation; and

- To designate the Bond or Notes, or a portion thereof, as qualified tax-exempt obligations under and as permitted by Section 265(b)(3) of the Code, to the extent such designation is available and permissible under said Section 265(b)(3).

THAT if the Finance Director, Treasurer, or Clerk are for any reason unavailable to approve and execute the Bonds, Notes or any related Bond Document, the person or persons then acting in any such capacity, whether as an assistant, a deputy, or otherwise, in an interim or acting capacity, is hereby authorized, in the name of and on behalf of the District, to act for such official with the same force and effect as if such official had himself or herself performed such act.

THAT if any authorized representative of the City who has signed or sealed the Bonds or Notes shall cease to be such officers or officials before the Bonds or Notes so signed and sealed shall have been actually authenticated or delivered by the City, such Bonds or Notes nevertheless may be issued, delivered and authenticated with the same force and effect as though the person or persons who signed or sealed such Bonds or Notes had not ceased to be such officer or official; and also any such Bonds or Notes may be signed and sealed on behalf of the City by those persons who, at the actual date of the execution of such Bonds or Notes, shall be the proper officers and officials of the City, although at the nominal date of such Bonds or Notes any such person shall not have been such officer or official.

THAT if the actual cost of any School CIP Project differs from the estimated cost, whether due to completion, delay or abandonment of such School CIP Project or for any other reason, the Finance Director is hereby authorized, in the name of and on behalf of the City, in her discretion, to reallocate proceeds of the Bonds and Notes to any other listed School CIP Project, or to any other project or improvement that the Auburn School Committee has approved or may in the future approve as part of the Auburn School Department capital improvement plan.

ORDER 147- 10212024

City Council Order

THAT the authority to issue any Bonds or Notes not issued within 2 years of the date of approval of this Order shall automatically expire 2 years from the date of approval of this Order.

THAT notwithstanding the foregoing paragraph, during the term any of the Bonds issued pursuant to this Order remain outstanding, the Finance Director is hereby authorized, in the name of and on behalf of the City, to issue refunding bonds on either a current or advance refunding basis, to refund some or all of the Bonds then outstanding, and to establish, determine and approve the time of the sale, award and settlement of such refunding bonds, the date, form, denominations, interest rates, maturities (not to exceed the maximum term authorized by law), provisions for early redemption, and all other details of such refunding bonds, such establishment, determination and approval to be conclusively evidenced by the execution thereof, and to execute and deliver, in the name of and on behalf of the City, such additional Bond Documents as may be reasonable or necessary with respect to such refunding, and each refunding bond issued hereunder shall be signed in the same manner as the Bonds.

THAT this Order shall constitute a Declaration of Official Intent pursuant to Treasury Regulation §1.150-2, and the City hereby declares its official intent to use proceeds of the Bonds or Notes to reimburse costs of the School CIP Projects (referred to as "original expenditures") paid prior to the issuance of the Bonds or Notes.

A notice describing the above borrowing and the general purpose of such borrowing was published on or before November 4, 2024, in the *Sun Journal*, a daily newspaper of general circulation published in the City of Auburn and in Androscoggin County.

NOTE: Must be approved by roll call vote.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four

Phillip L. Crowell, Jr., City Manager

CITY OF AUBURN
NOTICE OF PUBLIC HEARING

On Monday, October 21, 2024, the Auburn City Council gave first reading on a proposed order authorizing the City's general obligation bonds in the principal amount not to exceed $983,000 to finance the Auburn School Department FY25 Capital Improvement Plan (subject to change as described below). Pursuant to Section 8.13 of the City Charter, notice is hereby given that the City Council will hold a public hearing and second reading on the order on Monday, November 18, 2024, at 7:00 p.m. in the Council Chambers, Auburn Hall, 60 Court Street. A copy of the order is available for inspection on the City's website: auburnmaine.gov/pages/government/budget-fy25.

At or following said public hearing or second reading, and prior to final City Council action, the City Council may add, remove or otherwise revise the list of projects and may increase the foregoing amount of bonds by up to 10%. The City Council expects to take final action on the order following second reading at the said November 18, 2024 meeting.

Members of the public attend the meeting in person and offer public comment during the meeting. Comments may also be submitted via email sent to: comments@auburnmaine.gov. Any submitted comments will be included in the meeting minutes.

The meeting will also be broadcast on Great Falls TV (cable channel 1302) and on the City of Auburn YouTube channel.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024 ORDINANCE 20-11042024

Author: Kris Beaudoin- Code Compliance Team Leader

Subject: Chapter 12 Article IV.- Housing Code, Ordinance update

---

Information: Updates to Chapter 12 Article IV. Housing Code to clarify its applicability to all building types and address challenges with vacant buildings. The proposed amendments include the addition of a definition for vacant buildings, requirements specific to vacant buildings, and the addition of language in Division 2 expanding inspection areas to vacant buildings and structures utilized for the purpose of conducting business. The proposed changes to the ordinance will clarify the applicability of standards to vacant and non-residential buildings and expand the enforcement ability of staff on vacant buildings. The ordinance has been reviewed by the City Attorney and the edits from that review have been included in the draft.

City Budgetary Impacts: None-easier enforcement

Staff Recommended Action: Hold the second reading of the amended draft ordinance during November 18, 2024, Council meeting.

Previous Meetings and History: Council Workshop September 3, 2024, passed first reading on November 4, 2024

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Chapter 12 Article IV. document outlining changes.

ARTICLE IV. PROPERTY MAINTENANCE AND HOUSING CODE

DIVISION 1. GENERALLY

Sec. 12-145. Purpose.

The purpose of this article is to establish minimum standards for all ~~dwellings~~ buildings and ~~-~~property incident thereto in the city to ~~insure~~ ensure safety, health, and public welfare through the proper construction, maintenance, and use thereof.

(Code 1967, § 20-A(1.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-146. Definitions and rules of construction.

(a) The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Basement means that portion of a building below the first floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Chief of police means the legally designated head of the police department of the city or his authorized representative.

Dwelling or *dwelling unit* means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Extermination means the control and elimination of insects, rodents, or other pests by eliminating their harborage places; by removing or making inaccessible materials that may serve as their food; by poisoning, spraying, fumigating, trapping; or by any other recognized and legal pest elimination methods approved by the health officer.

Fire chief means the legally designated head of the fire department of the city or his authorized representative.

Garbage means the animal and vegetable waste resulting from the handling, preparation, cooking, and consumption of food.

Habitable room means a room or enclosed floor space used or intended to be used for living, sleeping, cooking or eating purposes excluding bathrooms, water closet compartments, laundries, pantries, game rooms, foyers or communicating corridors and permanent built-in closets and storage spaces.

Health officer means the legally designated health authority of the city or his authorized representative.

Infestation means the presence or evidence of the presence within or around a dwelling, of any insects, rodents, or other pests.

Manufactured housing means a structural unit or units designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site, the term includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. Manufactured housing shall include newer mobile homes and modular homes as defined in city zoning regulations.

Mobile homes, older, means any factory-built home that fails to meet the definition of manufactured housing and more specifically, any mobile home constructed prior to June 15, 1976. These units shall be restrict to location in approved mobile home parks.

Mobile home park means a parcel of land under single ownership in rural residence, suburban residence and cluster development districts that has been planned and improved for the placement of not less than three mobile homes for non-transient use.

Multiple dwelling means any dwelling containing more than three dwelling units.

Occupant means any person over one year of age, living, sleeping, cooking, or eating in, or having actual possession of, a dwelling unit or rooming unit.

Operator means any person, who has charge, care or control of a building or part thereof, in which dwelling units or rooming units are rented or let or of an area where spaces are rented or let for mobile homes.

Owner means any person who, alone or jointly or severally with others, has legal title to any dwelling or dwelling unit, with or without accompanying actual possession thereof, or has charge, care or control of any dwelling or dwelling unit, as owner or agent of the owner, or an executor, executrix, administrator, administratrix, trustee, or guardian of the estate of owner. Any such person thus representing the actual owner shall be bound to comply with the provisions of this chapter to the same extent as if he were the owner.

Paint stabilization means repairing any physical defect in the substrate of a painted surface that is causing paint deterioration, removing loose paint and other material from the surface to be treated, and applying a new protective coating or paint to the affected areas.

Plumbing means all of the following supplied facilities and equipment: gas pipes, gas-burning equipment, water pipes, garbage disposal units, waste pipes, water closets, sinks, installed dishwasher, lavatories, bathtubs, shower baths, installed clothes washing machines, catch basins, drains, vents , and any other similar supplied fixtures, together with all connections to water, sewer or gas lines.

Rooming house means any dwelling, or that part of any dwelling, containing one or more rooming units, in which space is let by the owner or operator to four or more persons who are not husband or wife, son or daughter, mother or father, or sister or brother of the owner or operator.

Rooming unit means any room or group of rooms forming a single habitable unit used or intended to be used for living, and sleeping, but not for cooking or eating purposes.

Rubbish means combustible and non-combustible waste materials except garbage, including, without limitation, residue from the burning of wood, coal, coke, or other combustible material, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery, dust and others.

Structural elements means all of the following components of a structure, including but not limited to: foundation, framing, sheathing, siding, roofing material, windows, doors, trim, eaves, porches, stairs, railings, guards; and interior surfaces such as sheetrock, plaster, ceiling tiles, countertops, and floors.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations but not to exceed 30 days.

Supplied means paid for, furnished, installed or provided by or under the control of the owner or operator.

Temporary housing means any tent, trailer, or other structure used for human shelter that is designed to be transportable and which is not attached to the ground, to another structure, or to any utilities system on the same premises for more than 30 consecutive days.

Vacant building means any building that is unoccupied, unattended, and is not actively used as a place of residence or business, or is frequently ~~open or~~ unsecured so that unauthorized entrance may be gained.

(b) Whenever the words "building", "dwelling," "dwelling unit," "lodging house," "rooming unit," or "premises" are used in this article, they shall be construed as though they were followed by the words "or any part thereof."

(Code 1967, § 20-A(art. V); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-147. Compliance required.

(a) No dwelling or dwelling unit shall be deemed to conform with the requirements of this article until it meets all of the minimum standards of this article as specified herein.

(b) It is unlawful to construct, alter, maintain, occupy, let for occupancy, or use a building or structure, or part thereof, in violation of the provisions of this article.

(Code 1967, §§ 20-A(1.2), 20A(1.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-148. Validity of other laws.

Nothing in this article shall be construed to prevent the enforcement of other laws that prescribe more restrictive limitations.

(Code 1967, § 20-A(1.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-149. Exceptions permitted.

In seasonal dwellings, mobile homes, buildings erected prior to the original adoption of this article, or in agriculture and resource protection district as defined by the zoning provisions of the city, or in areas where public water or sewerage systems are not available, the code compliance officer shall upon application grant an exception for the use of buildings for dwelling purposes that do not meet the minimum standards set forth in this article when he determines that:

(1) It is not feasible or practicable to comply with such minimum standards;

(2) The safety, health, or general welfare of the occupants and the public will not be adversely affected; and

(3) The effect of the granting of the exception will not adversely affect adequate light, air, overcrowding, of persons or property, the provision for public utilities, the character of the neighborhood, or traffic conditions as applied to the welfare of the occupants or the general public.

(Code 1967, § 20-A(1.6); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-150. Procedure for granting exceptions.

(a) The code compliance officer shall issue such exception in writing setting forth the date of granting, the reasons for granting the same, the date it shall expire, and the location of the premises.

(b) No such exceptions shall be granted for a period of more than five years. Any exception may be renewed one or more times, upon application to the board of appeals. Each renewal shall not exceed additional periods of five years for such renewal. Each renewal shall contain the requirements of the original exception and in addition thereto the date of issuance of the original exception and the statement that it is a renewal.

(Code 1967, § 20-A(1.7); Ord Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-151—12-169. Reserved.

DIVISION 2. INSPECTIONS

Sec. 12-170. Authority of code compliance officer.

The code compliance officer is hereby authorized to make inspections to determine the condition of vacant buildings, structures used for the purpose of conducting business, dwellings, dwelling units, rooming houses, rooming units and premises located within this city in order that ~~he~~ the code compliance officer may perform ~~his~~ their dut~~y~~ies of safeguarding the health and safety of the occupants of dwellings and of the general public.

(Code 1967, § 20-A(2.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-171. Right of entry for inspection.

For the purpose of making such inspections, the code compliance officer is hereby authorized to enter, examine, and survey any or all property or building, including without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwelling units, rooming houses, rooming units, and premises at any mutually agreeable time, or as authorized by law ~~but in any case within 20 days of notice to the owners or occupant of the intention to make such an inspection~~.

(Code 1967, § 20-A(2.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-172. Owner and occupant to give free access.

(a) *Access of code compliance officer.* The owner and occupant of every dwelling, dwelling unit, lodging house and rooming unit or the person in charge thereof, shall give the code compliance officer free access to any or

all such property or building including, without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwellings, dwelling unit, lodging house or rooming unit and premises at any mutually agreeable time, or as authorized by law, for the purpose of such inspection, examination, or survey~~, but in any case within 20 days of notice to the owner or occupant of the intention to make such an inspection, examination, or survey~~.

(b) *Access of owner.* Every occupant of a property or building including, without limitation, vacant buildings, buildings and structures used for the purpose of conducting business, dwelling, dwelling unit, lodging house and rooming unit shall give the owner, and his agent or employee, access at all reasonable times to any part of the dwelling, dwelling unit, lodging house, rooming unit or premises for the purpose of compliance with the ~~provisinos~~provisions of this article or any lawful order issued pursuant to this article.

(Code 1967, §§ 20-A(2.3), 20-A(2.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-173—12-194. Reserved.

DIVISION 3. ENFORCEMENT

Sec. 12-195. Procedure generally.

(a) If the code compliance officer determines that there are reasonable grounds to believe that there has been a violation of any provisions of this chapter, he shall initiate enforcement proceedings in accordance with the citation system established in this Code. Alternatively, he may initiate a land use complaint pursuant to state law, in which case the penalties therein provided shall apply.

(b) Any notice issued pursuant to this article shall:

(1) Be in writing;

(2) Include a statement of the reasons why it is being issued;

(3) Set a reasonable time for the performance of any act it requires;

(4) Be served upon the owner or his agent, or the occupant, as the case may require; provided, however, that:

a. Complaints under this article be deemed properly served upon such owner or agent or upon such occupant if a copy thereof is served upon him personally or by leaving a copy thereof at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein; or

b. If a copy thereof is sent by registered or certified mail to his last known address or the address as shown on the records in the tax assessor's office of the city of auburn; and

c. If service is made personally or by leaving at his dwelling house or usual place of abode a statement signed by the person so serving stating the date of service shall be filed in the office of planning and development.

(5) May contain an outline of remedial action that, if taken, will effect compliance with the provision of this article.

(c) After service of such notice, the owner or occupant to whom it is directed shall correct the condition constituting the violation within the time specified and promptly give notice to the code compliance officer that such corrective action has been taken.

(Code 1967, § 20-A(3.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-196. Method of petitioning for hearing.

(a) Any person affected by any notice issued in connection with the enforcement of any provision of this article, may request and shall be granted a hearing on the matter before the board of appeals; provided that such person shall file in the office of the board of appeals a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within ten days after the day the notice was served.

(b) Upon receipt of such petition, the board of appeals shall set a time and place for such hearing and shall give the petitioner notice thereof in person or by mail.

(c) At such hearing, the board of appeals shall take evidence to determine whether such notice should be sustained, modified, or withdrawn.

(d) The hearing shall be commenced not later than 30 days after the day on which the petition was filed; provided that upon application of the petitioner the board of appeals may postpone the date of the hearing for a reasonable time beyond such 30 day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement.

(Code 1967, § 20-A(3.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-197. Power of board of appeals to alter notice.

After such hearing, the board of appeals shall sustain, modify, or withdraw the notice, depending upon its findings as to the compliance with the provisions of this chapter. If the board of appeals sustains or modifies such notice, it shall be deemed to be an order. Any notice served pursuant to this article shall automatically become an order if a written petition for a hearing is not filed in the office of the board of appeals within ten days after such notice is served. There shall be an appeal from the board of appeals to the superior court in the manner provided by state law.

(Code 1967, § 20-A(3.3); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-198. Recording of public hearing.

The proceedings at such hearing, including the findings and decision of the board of appeals, shall be summarized, reduced to writing, and entered as a matter of public record in the office of the board of appeals. Such record shall also include a copy of every notice or order issued in connection with the matter.

(Code 1967, § 20-A(3.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-199. Notice of intent to sell, transfer or rent property subject to order.

(a) *When required.* Any person who proposes to sell, transfer or otherwise dispose of lease or sublet any dwelling unit, lodging house, rooming unit, or other premises against which there is any existing lawful order of the code compliance officer, the board of appeals or any court of competent jurisdiction shall furnish the proposed grantee or transferee a true copy of such order and shall notify the office of planning and

development in writing of the intent to so sell, transfer, or otherwise dispose of lease or sublet in writing giving the name and address of the person to whom such transfer is proposed within three days of the proposed transfer.

(b) *Penalty.* Any person who violates the terms of this section shall be in violation of this chapter and shall be subject to a penalty or fine of not less than $50 and not more than $100 to be enforced by complaint in a court of competent jurisdiction.

(Code 1967, § 20-A(3.5); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-200. Placarding of buildings unfit for human habitation.

(a) *Authority of code compliance officer.* If the person so affected fails to appeal to the board of appeals or if after an appeal, the board of appeals sustains the decision of the code compliance officer, the dwelling, dwelling unit, lodging house, or rooming unit so affected may be declared unfit for human habitation and placarded by the code compliance officer.

(b) *Procedure.* To placard, the code compliance officer shall issue to the occupants and the owner or operator a written notice to vacate the premises within such time as the code compliance officer may deem reasonable, but not less than seven days, and a placard prohibiting continued occupancy or re-occupancy may be conspicuously posted on the premises, and a copy of such notice may be filed with the police department.

(c) *Use of placarded buildings prohibited.* No dwelling or dwelling units, lodging house, or rooming unit which has been placarded as unfit for human habitation shall again be used for human habitation until written approval is secured from, and such placard is removed by, the code compliance officer. The code compliance officer shall remove such placard whenever the defect or defects upon which the placarding action is based have been eliminated.

(d) *Defacement and removal of placard prohibited.* No person shall deface or remove the placard from any dwelling or dwelling unit, lodging house or rooming unit, which has been declared unfit for human habitation and placarded as such.

(Code 1967, § 20-A(3.6); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-201. Order to vacate dangerous premises.

In instances where the health officer, fire chief, and chief of police, or their duly qualified deputies, determine in writing that extreme danger or menace to the occupants or the public health exists, the code compliance officer, health officer, fire chief, and chief of police, or their duly qualified deputies may order immediate correction to be made or, if the circumstances warrant, may order that the occupants vacate the premises as provided in this article.

(Code 1967, § 20-A(3.7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Secs. 12-202—12-224. Reserved.

DIVISION 4. MINIMUM STANDARDS

Sec. 12-225. Compliance with city codes and state law required.

All structures and structural elements of buildings and the construction, use and occupancy thereof shall be in accordance with the requirements of this Code, including the building and technical codes adopted by the city, and with state law and regulations.

(Code 1967, §§ 20-A(6.1), 20-A(12.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-226. Maintenance.

(a) All structures and structural elements shall be maintained structurally sound, in good repair, hazard free and suitable for the intended use.

(b) All painted exterior surface areas of pre 1978 properties must be maintained in a manner to not cause a public nuisance or affect the health and safety of the occupants of the property where the condition exists or of surrounding properties. Paint stabilization must occur if the potential for such a condition exists.

(Code 1967, § 20-A(6.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 10-11022020, 11-16-2020)

Sec. 12-227. Plumbing.

Every dwelling unit shall contain a kitchen sink and a bathtub or shower. In addition, every dwelling unit shall contain, within a room which affords privacy, a flush water closet and a lavatory basin. All plumbing facilities required by this Code shall be in accordance with the requirements of the plumbing code adopted by the city as of date of installation and maintained in good sanitary working condition; water-related plumbing facilities required by this Code shall be connected to adequate supply of water.

(Code 1967, § 20-A(art. 7); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-228. Heating and ventilation.

(a) *Maintenance.* All heating and ventilating facilities shall be maintained in safe operating condition for use without danger of asphyxiation or of overheating combustible material.

(b) *Requirements when central heating plant not available.* When heat is not furnished by a central heating plant, each dwelling unit or rooming unit shall be provided with one or more masonry flues and smoke or vent pipe connections, or equal arrangement, in accordance with the provisions of the basic building code to permit the use of heating equipment capable of providing heat as required by this section.

(c) *Heating facilities required in rented or leased premises.* Every habitable room, let for occupancy, shall be served by heating facilities capable of providing a minimum temperature of at least 68 degrees Fahrenheit, at a distance of three feet from the exterior walls, five feet above floor level, as required by prevailing weather conditions. In addition, the heating facilities must be operated to protect the building equipment and systems from freezing.

(d) *Window specifications.* Every habitable room shall have a window or windows with a total sash area equal to at least eight percent of its floor area opening on a street, alley, yard, or court open to the sky and constructed and maintained so that at least one-half of the sash area can be opened, except that an approved method of mechanical ventilation may be substituted for such window or windows

(Code 1967, § 20-A(art. 8); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-229. Electrical and lighting.

All lighting and other electrical facilities shall be in accordance with the requirements of the electrical code adopted by the city and shall be maintained in good, safe and suitable electrical order.

(Code 1967, §§ 20-A(9.1), 20-A(9.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-230. Passageways, stairways and exits.

(a) *Exits.* Every dwelling unit and every rooming unit shall have safe, continuous and unobstructed means of egress leading from the interior of the building to safe and open spaces at ground level in accordance with applicable statutes and ordinances.

(b) *Lighting.* Every passageway and stairway shall have at least one ceiling-type or wall-type electric light fixture adequate to provide safe passage.

(c) *Obstructions.* Every hallway, stairway, corridor, exit, fire escape door or other means of egress hall be kept clear of obstructions at all times.

(Code 1967, §§ 20-A(9.3), 20-A(12.3), 20-A(12.4); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-231. Garbage and rubbish.

(a) *Method of disposal.* Every responsible occupant of a dwelling or dwelling unit shall dispose of all his garbage and rubbish in a clean and sanitary manner. Every owner of rental property shall provide his tenants with suitable waste containers as required by city ordinance.

(b) *Accumulations prohibited.* Every dwelling shall be clean and free from garbage or rubbish. When a dwelling or dwelling unit is not reasonably clean or free from garbage or rubbish, the code compliance officer may cause the responsible person to put the dwelling or dwelling unit in a clean and sanitary condition.

(Code 1967, § 20-A(10.1); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013; Ord. No. 02-02222016, 3-7-2016)

Sec. 12-232. Insect and rodent control.

(a) *Owner responsible for extermination in multiple dwellings.* If infestation exists in two or more of the dwelling units in any dwelling, or in the shared or public parts of any dwelling containing two or more dwelling units, extermination thereof shall be the responsibility of the owner.

(b) *Occupant responsible for extermination.* Every occupant of a dwelling containing a single dwelling unit shall be responsible for the extermination of any insects, rodents, or other pests therein or on the premises.

(Code 1967, § 20-A(10.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-233. Space and occupancy.

(a) *Floor space requirements.* The total area of every dwelling unit shall contain at least 250 square feet of floor area, with an additional 125 square feet for each occupant over two.

(b) *Ceiling height.* At least one half of the floor area of every habitable room shall have a room ceiling height of at least 7 feet; and the floor area of that part of any room where the ceiling height is less than five feet shall not be considered as part of the floor area in computing the total floor area of the room for the purpose of determining the maximum permissible occupancy thereof.

(c) *Use of basement.* No basement space shall be used as a habitable room or dwelling unit unless it conforms to the minimum requirements of this article.

(Code 1967, § 20-A(art. 11); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-234. Dwelling occupancies prohibited adjacent to hazardous establishments.

No dwelling unit or rooming unit shall be located within a building containing any establishment handling, dispensing or storing flammable liquids or producing toxic gases or vapors in any quantity that may endanger the lives or safety of the occupants.

(Code 1967, § 20-A(12.2); Ord. of 3-26-1990; Ord. No. 02-04012013, att. B, 4-16-2013)

Sec. 12-235. Vacant Buildings.

(a)~~(a)~~ In addition to other requirements, including without limitation section Sec. 12-226, all ~~All~~ vacant buildings shall be weather- protected from the elements to prevent deterioration of the interior and exterior of the building.

(b) All vacant buildings shall be secured to prevent rodent infestation and entry by unauthorized individuals.

(c) Sprinkler systems located in vacant buildings must be maintained and remain operational unless a removal request is approved in writing by the Authority Having Jurisdiction ~~(AHJ)~~, as such term is defined in the National Fire Protection Association Fire Prevention Code (also known as NFPA #1).

Ordinance 20-11042024

City Council Ordinance

IN CITY COUNCIL

PROPERTY MAINTENANCE AND HOUSING CODE

Be it ordained, that the Auburn City Council adopt the amendments to Chapter 12, Article IV, Property Maintenance And Housing Code as shown on the attached copy.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large
Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor
Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024

ORDER 150-11182024 through ORDER 152-11182024

Author: Emily F. Carrington, City Clerk

Subject: Recommendations from the Appointment Committee

Information: On November 13, 2024, the Appointment Committee met to review applications received by the posted deadline of November 8 to the Comprehensive Plan Committee (2 resident seats, added with amendment made on November 4, 2024), Age Friendly Community Committee (for unexpired term ending 6/1/27), and Zoning Board of Appeals (associate member, for a term ending 5/1/26).

The Appointment Committee voted unanimously to recommend the following:

- Virginia Keel, Ward 4 – Comprehensive Plan Committtee
- Heidi Bertels, Ward 1 - Comprehensive Plan Committee
- Kryston Chapman, Associate Member – Zoning Board of Appeals for a term ending 5/1/26.

The Appointment Committee received only one application by the November 8 deadline for the Age Friendly Community Committee and decided not to make a recommendation to the Council and instead re-post for more applications. The deadline will be updated on the City's website.

Previous Occupation (if retired or no longer working):

Education and/or experience: 1 year as secretary for Big Bend Chamber of commerce, big bend national Park area, Texas

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Comprehensive Plan Committee

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): Prior to my career change to the federal government, I spent years working in tourism, the last position as the operations manager of a boutique hotel chain near Big Bend National Park. I sat on the board of the Big Bend Chamber of Commerce as secretary for one year before stepping down due to a conflict of interest once I began working for the National Park Service. I have a fairly well rounded understanding of inherently governmental functions, including the budget process, though I do not have experience with local government outside of the chamber of commerce. I believe with my background in tourism, as well as being one of the influx of remote professional workers living in Auburn, I may provide a unique and hopefully helpful perspective

What do you hope to accomplish?: I'm hoping to do my civic duty to make support our community in whatever way I can. If I am a qualified candidate to help support this committee I'm happy to provide what input I can. If there are more qualified candidates that's great, I wouldn't want to get in their way.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: See chamber

experience above

Dates served (if known): 2019

How did you learn of this vacancy?: Facebook

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Heidi Bertels

Date of Electronic Signature: 10/9/2024

From: donotreply@auburnmaine.gov

Subject: [External]A New Form Has Been Submitted - Board/Committee Application
Date: Tuesday, November 5, 2024 5:05:18 PM

The following form has been submitted by an end-user of the website: Board/Committee Application

First Name: Kryston

Middle Initial: M.

Last Name: Chapman

Residence Address: 51 EASTMAN LN

Ward: Ward 4

City: AUBURN

Home Phone: 2077498052

Cell Phone: 2077498052

E-mail Address: kryston_m@hotmail.com

Current Occupation: Math Teacher

Previous Occupation (if retired or no longer working):

Education and/or experience: BA in Business Management

Please check which board or committee you are interested in serving on. We require individual applications for each board or committee (if you wish to serve on more than one).: Zoning Board of Appeals

OTHER (Ad-Hoc Committees not on the list above)::

This application is for a... (choose one): New appointment

Briefly describe why you want to serve on a board/committee (1,000 character limit): I feel it is my civic duty and responsibility as an Auburn resident to serve on a meaningful committee.

What do you hope to accomplish?: To better understand and interpret the zoning ordinance and regulations for the city of Auburn.

Are you presently serving on a City or Community Board or Committee? If so, which one(s)?: No

Have you previously served on a City or Community Board or Committee? If so, which one(s)?: Yes, Conservation Committee

Dates served (if known): 2021

How did you learn of this vacancy?: City of Auburn Website

I certify that this information is true to the best of my knowledge and agree to the terms and conditions set forth above. By typing your full name below, you are "signing" this electronic application.: Kryston M. Chapman

Date of Electronic Signature: 11/5/2024

ORDER 150-11182024

City Council Order

IN CITY COUNCIL

ORDERED, that Virginia Keel, Ward 4, be appointed to the City's Comprehensive Plan Committee, as recommended by the Appointment Committee.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

ORDER 151-11182024

City Council Order

IN CITY COUNCIL

ORDERED, that Heidi Bertels, Ward 1, be appointed to the City's Comprehensive Plan Committee, as recommended by the Appointment Committee.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

ORDER 152-11182024

City Council Order

IN CITY COUNCIL

ORDERED, that Kryston Chapman be appointed to the City's Zoning Board of Appeals, Associate Member, for a term ending 5/1/2026, as recommended by the Appointment Committee.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 18, 2024 **ORDINANCE 21-11182024**

Author: John Blais – Deputy Director of Planning, Permitting and Code

Subject: First Reading Text Amendments related to Lake Auburn Watershed Overlay District and Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map

---

Background: In January of 2024, the City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the Lake Auburn Stakeholders Group. Since that time the group(s) have met on approximately 10 occasions to address continued concerns pertaining to protecting Lake Auburn. The group(s) have relied on the ordinance to drive the discussion on what is best for the public water supply of Lewiston and Auburn. The proposed changes are detailed in the attached order and proposed text. The proposed changes include amendments to Section 60.2 Definitions, Sec. 60-951 Use and environmental regulations and Sec. 60-952 as they relate to agricultural, forestry and erosion control. The amendments include changes that will strengthen the ordinances pertaining to Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn.

In July of 2024 the City Council ordered the Planning Board to review draft ordinance text changes recommended by the Lake Auburn Stakeholders Group. The directive specifically asked the Planning Board to review updates to Article II, Division 4, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 as they relate to agricultural, forestry and erosion control land uses.

Information: The attached ordinance is a culmination of efforts put forth by the above groups. The Planning Board provided a favorable recommendation to City Council on a text and associated map amendment. All the residents in the watershed were notified about October, Planning Board Public Hearing, City Council Workshop on November 4th and future City Council Public Hearing on December 2nd. The edits come from two different staff personnel (Megan & John) and The Ag committee.

Highlights from the proposed changes:

- Definitions for Agricultural and Forestry Uses (Text Changes/Additions)
    - Update definitions to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N. Allows farming in the watershed with defined safe boards for water quality protections (waste and nutrient management plans with required buffers).
- Fertilizers and Pesticides (Text Additions)
    - Requires existing farms to comply with obtaining waste or nutrient management plans that raise livestock or poultry by June 30, 2027, regardless of size.
    - Set limits on animal and poultry units.
    - Manure spreading prohibited, language for manure storage BMPs

    - Guideline for fertilizer and pesticide use applications
- Erosion Control, Tree Clearing and Forestry (Text Changes/Additions)
    - Tillage setbacks from 100’ to 250’ (Map Developed)
    - Clearcutting limited to 2 acres on a 20-acre tract.
    - Clearcutting is limited to 25% of the amount on 20-acres or less.
- Map of 250’ Setback to Lake, Pond, Stream, Brook or NWI Wetland
    - Added State forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
    - Adopted “Rule 20” by the MFS policy under the Maine Forest Practices Act Legislation.

City Budgetary Impacts: Staff Time

Staff Recommended Action: . Hold the first reading. On both attached text amendment and Lake Auburn Watershed Overlay Agricultural Buffer Setback Map.

Previous Meetings and History: Unanimous favorable recommendation in the October Planning Board Meeting, November 4, 2024, City Council Workshop .

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Amended Text Edits , Proposed Map Amendment, City Council PowerPoint Presentation, Planning Board staff report for public hearing

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.

Animal unit has the same meaning as in section 60-2.

Building has the same meaning as in section 60-2.

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~

~~(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~

~~(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Livestock has the same meaning as in section 60-2.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22 of the Auburn City Ordinances. ~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.

Normal high-water line and Normal high-water mark mean~~s~~ that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting. Organic fertilizers are broken down by and feed the microbial life in the soil.

Pest shall have the same meaning as the term set forth in 40 C.F.R.§ 152.5, as the same may be amended from time to time.

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.

Poultry means domesticated birds.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.

Wetland, see NWI Wetland.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems*.

(a) *Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), ~~60-145(b)(18)~~ and 60-146(1)c., new dwelling units are prohibited in that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration~~.~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design requirements are met before the local plumbing inspector finds the design or installation of the system to comply with this section.

(2) New (first use), expanded, or replacement disposal fields shall be set back from the normal high-water mark of any lake, pond, stream, or brook as follows:

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

(3) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.

a. Curtain drain installed per Section 12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2023), as may be amended from time to time; or

b. Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any short circuiting of the disposal field

(4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(5) Commencing July 1, 2024, the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated June 24 ~~March 19~~, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector. Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection.

The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,
2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and
2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Watershed Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(6) In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or code enforcement officer of any observed defects or malfunction that require corrective action by the property owner or operator.

(7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted.

The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.

Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water

quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural use~~s~~.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if:

(1) The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that

a. Such use, or expansion of such use, will not cause groundwater contamination ~~and~~ ,will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and

b. The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management.

(2) ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee.

(3) The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of Subsection 2(a)(1)(b) no later than June 30, 2027.

(4) The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division.

(b) Reserved~~*Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in the Lake Auburn Watershed Overlay District. Pursuant to 30-A M.R.S.A. 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.~~

(c) *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula in the definition of Farm, Livestock in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot.

(~~c~~d) *~~Agricultural~~ Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(~~d~~e) *Manure and sludge spreading, storage, and disposal.* The s~~S~~preading ~~and~~ or disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover. ~~All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers of the provisions of this Subsection (f) may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non- synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed):

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may

cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(7) Pesticides shall be stored, mixed, loaded, and applied:

a. pursuant to the specific manufacturer's storage instructions on the pesticide label or container; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time; and

e. shall not be applied by aerial spraying.

(eh) *Erosion control.* ~~The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:~~

~~(1)~~ Any exposing, moving, removal, or stockpiling of soil, or the removal of vegetative cover~~earth cutting, moving or removal activities~~ that will result in erosion or runoff which increases sedimentation of ~~Lake Auburn, or any tributaries or other water bodies in the watershed~~any lake, pond, stream, brook, or NWI Wetland in the Lake Auburn Watershed Overlay District ~~are~~ is prohibited.

~~(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.~~

(~~3~~i) ~~Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.~~

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. ~~From time to time,~~ The director, or their designee, may require the approved harvest plan to be

amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn.

3. *Enforcement*

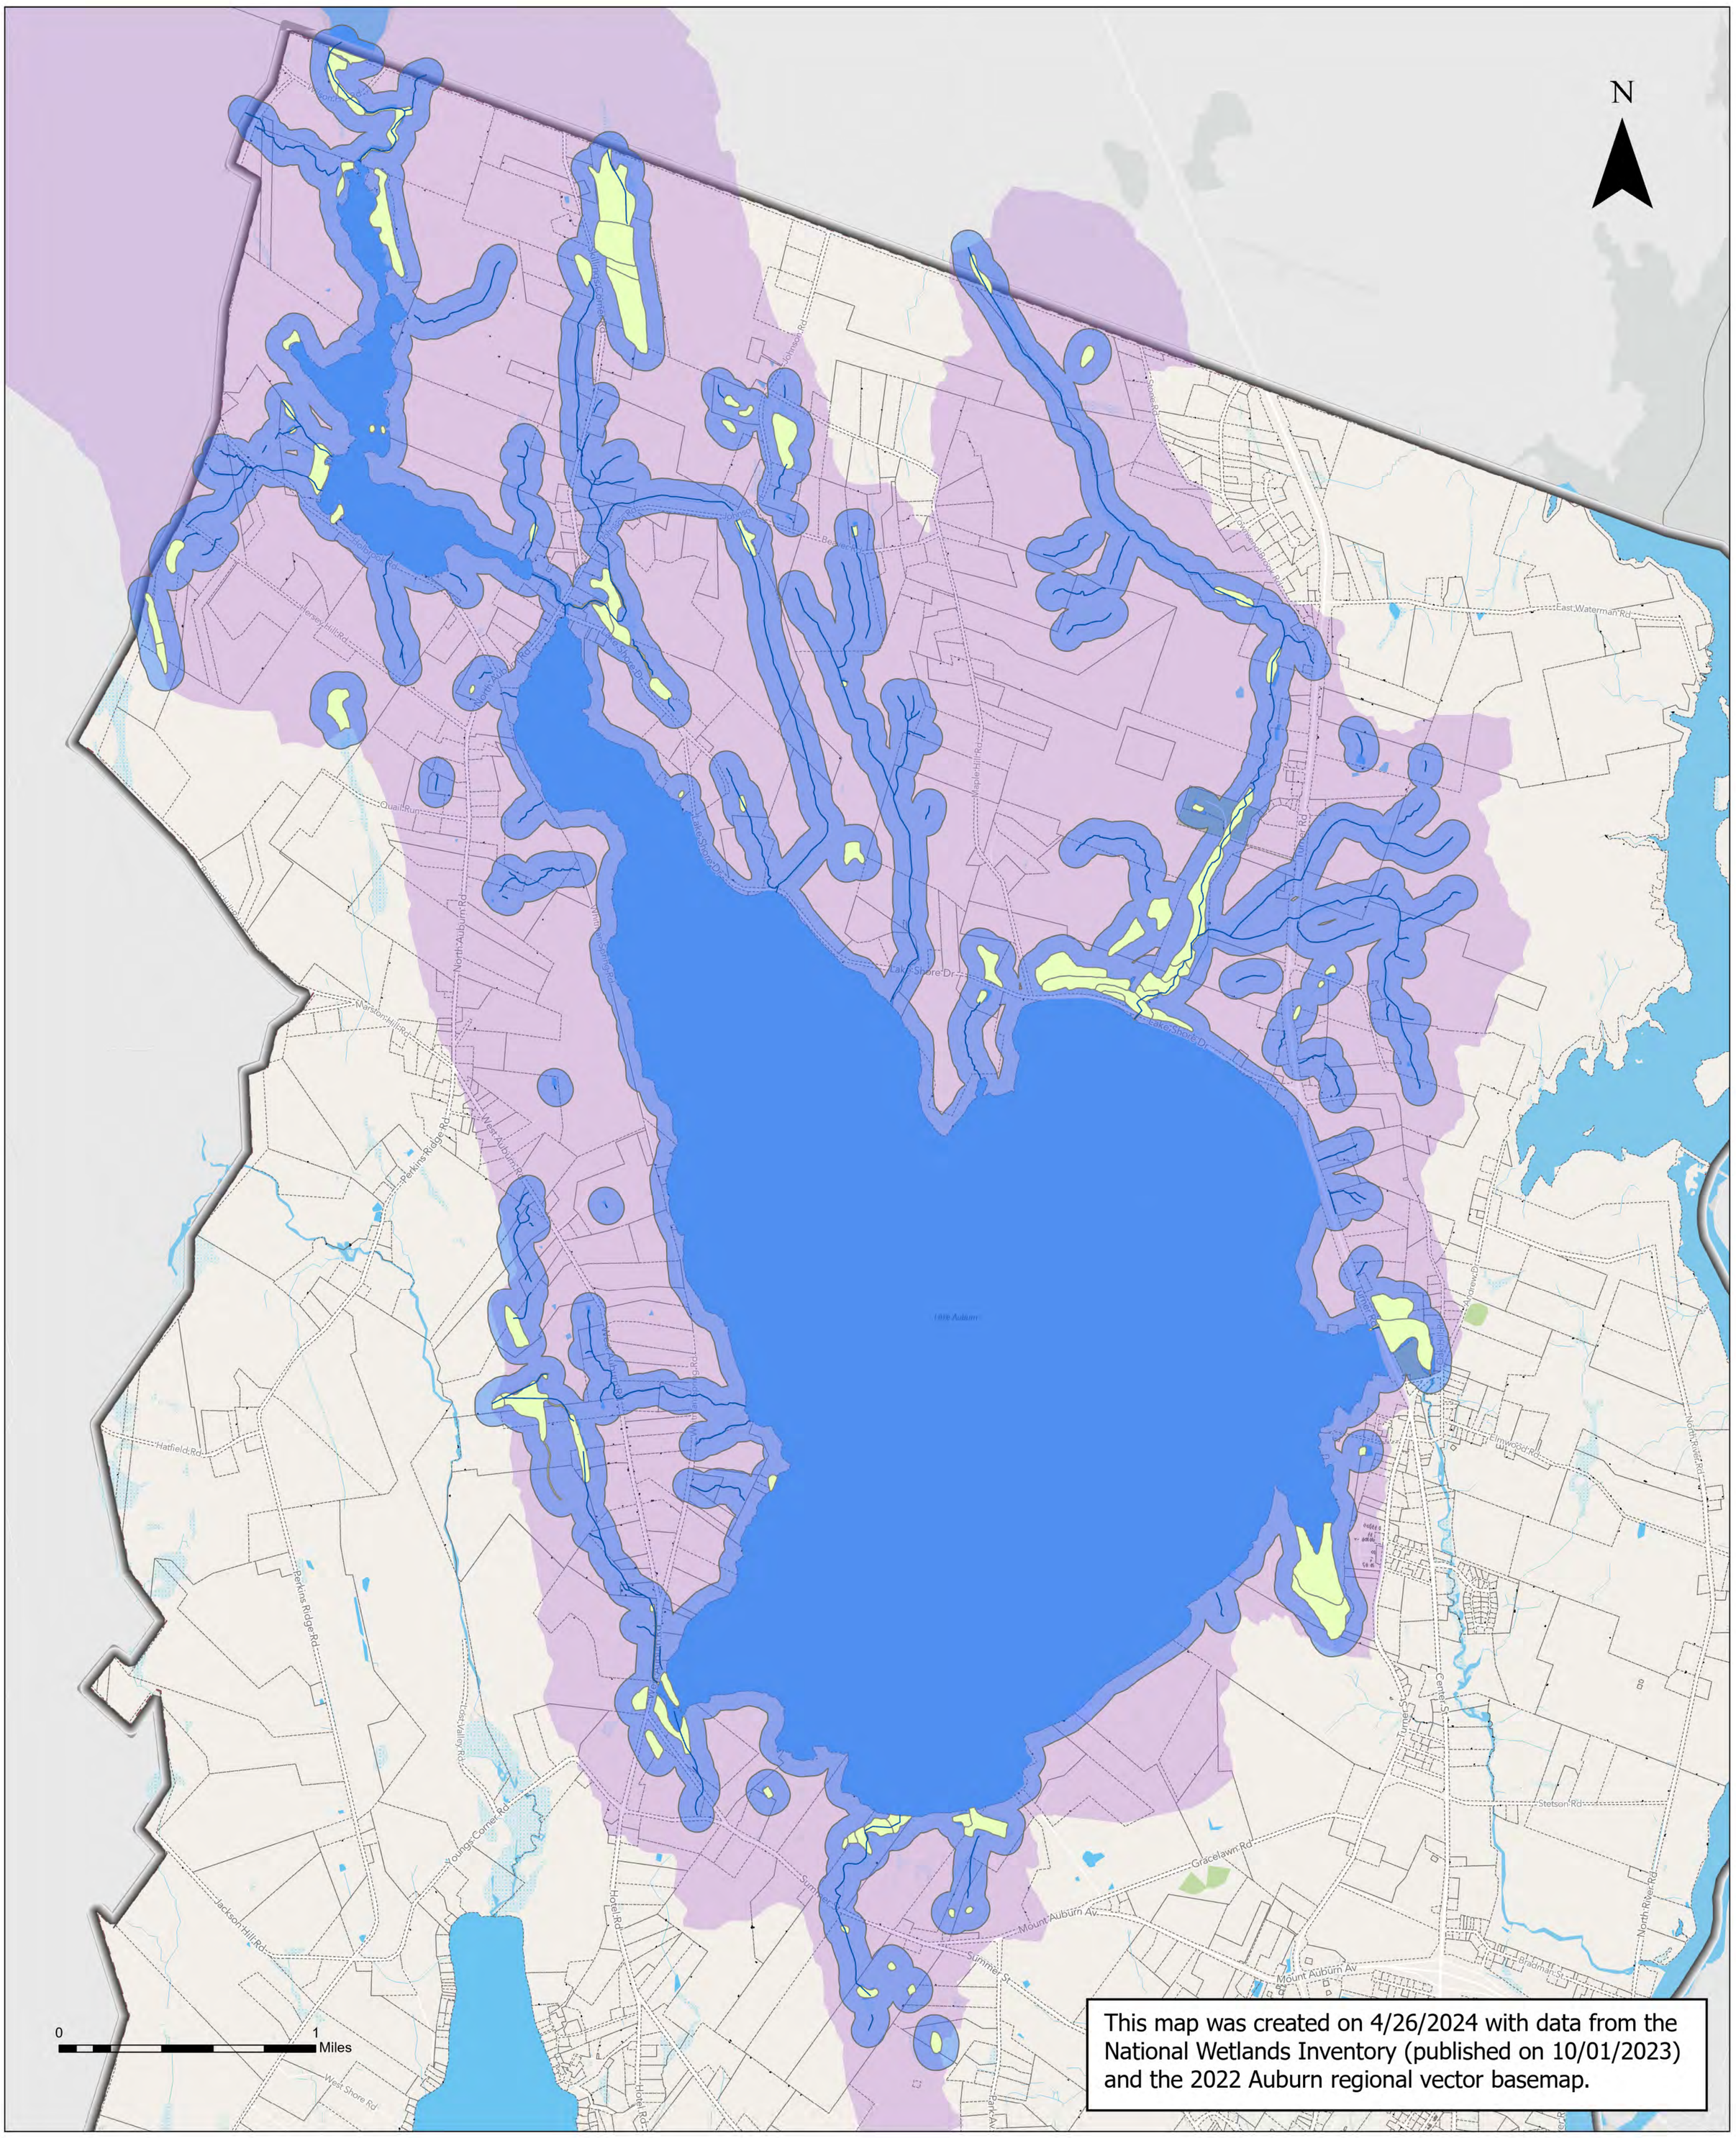
The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

Any new or expanded buildings or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)



Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

Lake Auburn Watershed Overlay
Agricultural Buffer Setbacks

Map & Ordinance Text Amendments Related to Lake Auburn Watershed Chapter 60, Article XII, Division 4

City Council Workshop 11/04/2024

Agriculture & Forestry

Agenda

1.) Why more changes?

2.) Definitions for Agricultural and Forestry Uses (Text Changes/Additions)

3.) Fertilizers and Pesticides (Text Additions)

4.) Erosion Control, Tree Clearing and Forestry (Text Changes/Additions)

5.) Natural Resource Map of 250’ Setback to lake, pond, stream, brook, or NWI wetland.

Why More Changes?

- January 2024; CC, Order 04-01022024 City Manager to direct staff to work with the Lake Auburn Stakeholders Group. (AG working group, Sustainability, and Natural Resources Board, LAWPC, PB members, and public stakeholders) met in a public setting over 10 times from Jan-July to discuss and identify continued concerns and processes related to ordinances that protect Lake Auburn and its watershed.
- September 2024; CC, Order XX-09032024: Initiating ordinance amendments process to Division 4 Lake Auburn Watershed District focus on agriculture and forestry.
- Update definitions: to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N.
- Allows farming in the watershed with defined safe boards for water quality protections. (waste and nutrient management plans with required buffers)
- Requires existing farms to comply with obtaining waste or nutrient management plan that raise livestock or poultry by June 30, 2027 regardless of size.
- Set limits on animal and poultry animal units.
- Tillage setbacks from 100' to 250' (Map Developed)
- Manure spreading prohibited, language for manure storage BMPs
- Guideline for fertilizer and pesticide use and applications.
- Clearcutting limited to 2 acres on a 20-acre tract.
- Clearcutting is limited 25% of the lot on 20-acres or less.
- Added state forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
- Adopted "Rule 20" by the MFS policy under the Maine Forest Practices Act legislation.

Source Water Protection for the Auburn and Lewiston Community.
<u>That's our drinking water!</u>

Right to food. All individuals have a natural, inherent and unalienable right to save and exchange seeds and the right to grow, raise, harvest, produce and consume the food of their own choosing for their own nourishment, sustenance, bodily health and well-being, as long as an individual does not commit trespassing, theft, poaching or other abuses of private property rights, public lands or natural resources in the harvesting, production or acquisition of food.

auburnmaine.gov

Division 4. Definitions

- **Update definitions: to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N.**

District.¶

(b) → *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.¶

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.¶

Animal unit has the same meaning as in section 60-2.¶

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.¶

Curtain drain means a tranch to intercept laterally moving ground water and divert it away from a septic system disposal field.¶

~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~¶

~~(1) → The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~¶

~~(2) → The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~¶

¶

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.¶

Livestock has the same meaning as in section 60-2.¶

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.¶

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.¶

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.¶

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.¶

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.¶

Wetland, see NWI Wetland.¶

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.¶

Livestock has the same meaning as in section 60-2.¶

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the City of Lewiston, three commissioners appointed by the Auburn Water District, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.¶

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.¶

~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~¶

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.¶

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting in order to qualify as organic fertilizer. Organic fertilizers are broken down by and feed the microbial life in the soil.¶

Pest shall have the same meaning as the term set forth in 40 C.F.R. § 152.5, as the same may be amended from time to time.¶

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.¶

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.¶

Poultry means domesticated birds.¶

auburnmaine.gov

Farming in the Lake Auburn Watershed

(a) → *Agricultural uses.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are.~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if: ¶

(1) → The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that ¶

a. → Such use, or expansion of such use, will not cause groundwater contamination ~~and~~, will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and ¶

b. → The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management. ¶

(2) → ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~ The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee. ¶

(3) → The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of this Subsection 2(a)(1)(b) no later than June 30, 2027. ¶

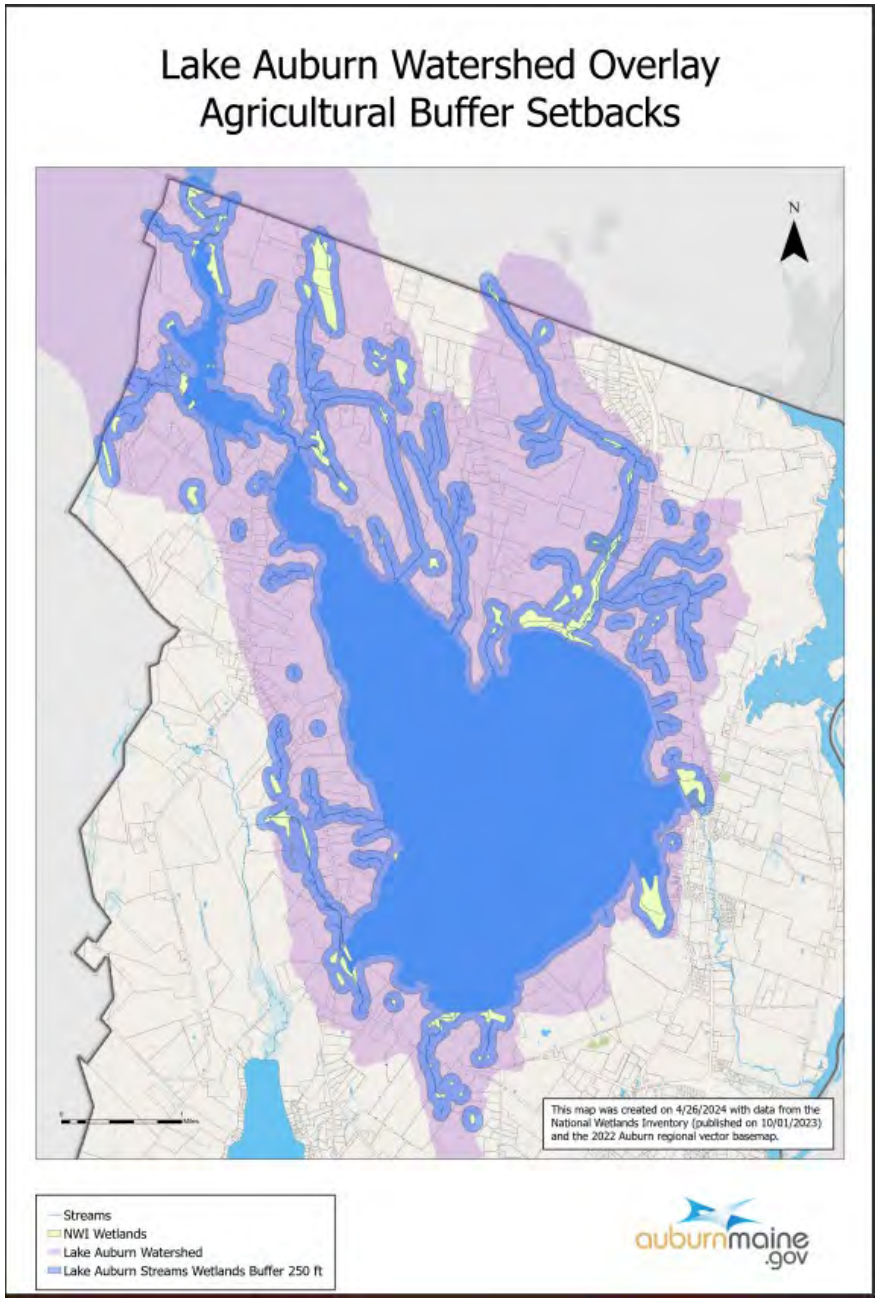
(4) → The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division. ¶

- **Allows farming in the watershed with defined safe boards for water quality protection. (waste and nutrient management plans by NRCS with required buffers-250 Feet)**
- **Requires existing farms to comply with obtaining waste or nutrient management plan that raise livestock or poultry by June 30, 2027 regardless of size and crop farms over 1,000 SF.**
- **Removes hobby farms.**
- **Approvals are required by LAWPC, City Staff, and NRCS input.**

auburnmaine.gov

Set Limits on Animal Units In the Watershed

(c) → *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula shown in the definition of Farm, Livestock as shown in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot. ¶



(60-2) Farm, livestock, means any parcel of land that contains at least the following land area used for the keeping of horses, mules, donkeys, cattle, goats, sheep, swine and similar-sized animals for the agricultural use of the residents of the lot, provided that there is a minimum of 1 acre of land as required by Chapter 8 Animals and adequate land area is provided for each animal unit, excluding water bodies of one-quarter acre surface area or larger:

1. Cattle: One bovine animal unit per acre of cleared hay-pasture land.
2. Horse: 1.5 animal units per acre of cleared hay/pasture land.
3. Sheep: Three animal units per acre of cleared hay/pasture land.
4. Swine: Two animal units per acre of cleared land.

Other livestock farms: The required lot size shall be determined by municipal officer charged with enforcement and shall conform to the lot size for similar sized animals.

auburnmaine.gov

Division 4 Buffers

Tillage setback of 250’ from Natural Resources.

(ed)→ *Agricultural Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5-minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an

(Supp. No. 29)

Page 4 of 9

untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

Manure storage requirements.

(~~de~~) *Manure and sludge spreading, storage, and disposal.* The ~~s~~spreading ~~and or~~ disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover. ~~All spreading and disposal of manure shall be accomplished in conformance with the then current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

Guideline for fertilizer and pesticide use and applications.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non-synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed).

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

auburnmaine.gov

Division 4. Lake Auburn Watershed Overlay District Cont.

- Clearcutting limited to 2 acres on a 20-acre tract.
- Clearcutting is limited 25% of the lot or 2 acres, whichever is less on lots less than 20-acres.
- Added state forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
- Adopted "Rule 20" by the MFS policy under the Maine Forest Practices Act Legislation.

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. From time to time, the director, or their designee, may require the approved harvest plan to be amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn. ¶

City of Auburn, Maine
Office of Planning & Permitting
Eric Cousens, Director
60 Court Street | Auburn, Maine 04210
www.auburnmaine.gov | 207.333.6601

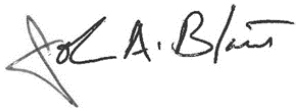
To: Auburn Planning Board
From: John Blais, Deputy Director of Planning and Permitting
Re: ITEMS #9 &10: Public Hearing – Text Amendments related to Lake Auburn Watershed Overlay District and Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map.
Date: October 8, 2024
****

I. PROPOSAL: Discuss amendments to Chapter 60, Article XII, Division 4, Lake Auburn Watershed Overlay District of the Auburn Code of Ordinances to more precisely identify the standards governing definitions, agriculture, pesticides, fertilizers, forestry, resource protection and erosion control in the Lake Auburn Watershed Overlay District. This amendment is pursuant to Chapter 60, Article XVII Division 2-Amendment to the Zoning Ordinance or Zoning Map.

Consider adopting the Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map. This map is to establish a 250' setback to agricultural field tillage from natural resources and will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

II. BACKGROUND: In January of 2024, City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the Lake Auburn Stakeholders Group. Since that time the group(s) have met on approximately 10 occasions to address continued concerns pertaining to protecting Lake Auburn. The group(s) have relied on the ordinance to drive the discussion on what is best for the public water supply of Lewiston and Auburn. The proposed changes are detailed in the attached order and proposed text. The proposed changes include amendments to Section 60.2 Definitions, Sec. 60-951 Use and environmental regulations and Sec. 60-952 as they relate to agricultural, forestry and erosion control. The amendments include changes that will strengthen the ordinances pertaining to the Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn.

III. SUGGESTED LANGUAGE: See Attached.



IV. SUGGESTED FINDINGS OF FACT:

1. The amendments are consistent with the growth pattern specified in the Future Land Use Plan in Auburn's Comprehensive Plan.
2. The proposed map and text amendments serve Goal A.1 in the Comprehensive Plan to maintain the exceptional water quality of Lake Auburn and existing waiver from filtration to avoid or delay the need for costly treatment (pages 4-9)
3. These proposed amendments are in service of Goal B.1 in the Comprehensive plan, to ensure sufficient clean water supplies to meet current and future needs (pages 20-21).
4. These amendments align with the Lake Auburn Study, 2021; and the report by FB Environmental: Lake Auburn Memo from August 2022.
5. These amendments are the result of several public meetings with the Lake Auburn Stakeholders Group as ordered by City Council.

V. PLANNING BOARD ACTION/STAFF RECOMMENDATIONS: Lake Auburn Overlay District: These two items are on the Planning Board agenda as public hearing item(s). Staff recommends the Planning Board have a discussion and make a formal recommendation to the City Council on the text amendments in Chapter 60, Article II General Provisions, Division 4, Lake Auburn Watershed Overlay District, Sec. 60-951, Sec. 60-952, and Sec.60-953 and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

1st POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to amend the text in Chapter 60, Article II General Provisions, Division 4 Lake Auburn Watershed Overlay District, Sec. 60-951, Sec.60-952 and Sec. 60-953. Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

2nd POTENTIAL MOTION: I make a motion to forward a favorable recommendation to City Council to adopt the Lake Auburn Watershed Overlay District, Agricultural Buffer Setbacks Map. This map is for establishing a 250' setback to agricultural field tillage from natural resources and will be referred to in Chapter 60 Article XII Division 4 Lake Auburn Watershed Overlay District and will be considered in accordance with Chapter 60, Article XVII Division 2- Amendment to the Zoning Ordinance or Zoning Map.

City Council Workshop & Meeting
Agenda
December 2, 2024
Auburn Hall, Council Chambers

5:30 PM Workshop

- Discussion: RESOLVE #7 – Interim Rail Trail

7:00 PM Meeting

Pledge of Allegiance & Roll Call **-** *Roll call votes will begin with Councilor Cowan*

I. **Consent Items –** *All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda. Passage of items on the Consent Calendar require majority vote.*

II. **Minutes** – November 18, 2024 Regular Council Meeting

III. **Communications, Presentations and Recognitions**

IV. **Open Session –** *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. **Unfinished Business**

1. **Ordinance 21-11182024** - Lake Auburn Watershed Text/Map Amendments. *Second reading & public hearing. ROLL CALL VOTE.*

VI. **New Business**

1. **Ordinance 22-12022024** – Proposed amendment to Sec. 52-320 regarding prohibited parking on Eighth Street. *1st reading. ROLL CALL VOTE.*

2. **Ordinance 23-12022024 -** Text Amendments related to 30-A M.R.S. §§ 4364, 4364-A and 4364-B (L.D. 2003). *1st reading. ROLL CALL VOTE.*

3. **Ordinance 24-1202024** - Proposed amendment to Chapter 14 regarding Blasting. *1st reading. ROLL CALL VOTE.*

VII. Reports

a. **Mayor's Report**
b. **City Councilors' Reports**
c. **Student Representative Report**
d. **City Manager Report**
e. **2024 August & September Finance Reports – Kelsey Earle, Finance Director**

VIII. Open Session - *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 2, 2024

Author: Emily F. Carrington, City Clerk

Subject: Discussion: RESOLVE #7 – Interim Rail Trail

Information: On November 4, 2024, RESOLVE #7-11042024 (attached) was considered and postponed to the December 16 City Council meeting pending more discussion and input from stakeholder groups.

Representatives from Lewiston Auburn Complete Streets Committee, Auburn's Parks and Recreation Advisory Committee, Casco Bay Trail Alliance, St. Lawrence and Atlantic Railroad, TrainRiders Northeast and Maine Rail Group have been invited to tonight's workshop to give input and respond to any questions from Councilors regarding this topic.

RESOLVE 7 will be returning to the Council agenda on December 16 for formal action.

City Budgetary Impacts: N/A

Staff Recommended Action: N/A

Previous Meetings and History: November 4, 2024 (RESOLVE 7 postponed to December 16, 2024).

City Manager Comments: Phillip Crowell J.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: November 4, 2024 RESOLVE 7-11042024

Author: Eric Cousens – Director of Planning and Permitting

Subject: Interim Rail Trail Resolve

Information: Mayor Harmon has requested Staff to prepare a resolve and information sheet pertaining to the future use of the State-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland.

A Portland to Auburn Rail Use Advisory Council was formed by the Maine DOT as a result of LD 1133 (an Act to Amend the Transportation Laws). The Council was tasked with reviewing the approximately 26.5-mile section of the St. Lawrence and Atlantic Rail Corridor and provide recommendations on the likelihood, economic benefits and costs of potential uses of the rail corridor. The trail has significant benefits for active transportation.

In January of 2023 the Portland to Auburn Rail Use Advisory Council provided three recommendations:
- Interim Trail until Rail: A paved trail (7 votes)
- Rail with Trail: A trail built alongside the existing tracks (5 votes)
- Rail Use Only: Keeping the tracks in place (1 votes)

Out of the three options the City of Auburn supported a "*rail with trail*" recommendation in an attempt to promote the substantial benefits of the trail while also preserving the best chance of freight or passenger rail use in the future.

With "rail with trail" no longer being a policy option, the City must consider whether it supports using the railway as an interim trail between Portland and Auburn as part of the Casco Bay Trail.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Consider resolve and vote to adopt revised position given the limited choices that are now available.

RESOLVE 7-11042024

City Council Resolve

IN CITY COUNCIL

WHEREAS, the Commissioner of the Maine Department of Transportation, pursuant to Public Law 21, Chapter 239, established a Rail Use Advisory Council to facilitate discussion, gather information, and provide advice regarding the future use of the state-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland; and

WHEREAS, the City of Auburn was provided a seat on said Council to provide input on city plans and policies relating to the future use of this rail corridor; and

WHEREAS, the State of Maine acquired this corridor through two purchases, one in 2007 and another in 2010, as part of on-going planning for freight and passenger movements between the City of Portland and the City of Auburn; and

WHEREAS, the city has identified south Auburn as a growth area in its most recent Comprehensive Plan and multi-modal use of this corridor, including for active transportation, would increase its attractiveness for residential and commercial investment; and

WHEREAS, the City of Auburn previously supported a "rail with trail" recommendation; and

WHEREAS, the "rail with trail" option is no longer an available policy option, and the legislature will consider a recommendation of rail, trail, or interim trail; and

WHEREAS, the establishment of an "interim trail' along this corridor is integral to the establishment of the Casco Bay Trail;

NOW THEREFORE BE IT RESOLVED, that the Auburn City Council supports an "interim trail" recommendation from the Rail Use Advisory Council and the expedited advancement of any necessary planning and design work to implement that recommendation between the city of Portland, and the city of Auburn as part of the Casco Bay Trail.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Phillip L. Crowell, Jr., City Manager

IN COUNCIL WORKSHOP & MEETING NOVEMBER 18, 2024 VOL 37 PAGE 203

Mayor Harmon called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. Student Representative Abdulahi was absent.

I. Consent Items

None.

II. Minutes – November 4, 2024 Regular Council Meeting

Councilor Walker moved for passage, seconded by Councilor Weisner. Motion passed 6-0-1 (Milks abstained).

III. Communications, Presentations and Recognitions

1. Auburn State Legislatures Invitation – State Representatives-Elect Adam Lee, Quentin Chapman, and Laurel Libby joined the City Council meeting to report on upcoming initiatives of the Legislature, including: Solar subsidies, homelessness, drugs, multimodal transportation and road safety, budget, and senior tax relief. City Councilors and the Mayor expressed their areas of focus surrounding bills regarding state-revenue sharing, education, homelessness, support for veterans, tax relief programs, and consideration of funding and administration of laws passed.

IV. Open Session

None.

V. Unfinished Business - *Councilor Platz moved to have ORDER 150 & ORDER 151 moved from New Business to Unfinished Business in order to keep all appointments to the Comprehensive Plan Committee consecutive. Motion passed by unanimous consent.*

1. ORDER-129-10032024 - Appointing Rex Rhoades, Ward 1, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Gerry moved for passage, seconded by Councilor Whiting. There was no comment from the public. Motion passed 6-1 (Milks).

2. ORDER-130-10032024 - Appointing Rebecca Swanson Conrad, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 meeting.
Councilor Walker moved for passage, seconded by Councilor Platz. There was no comment from the public. Motion passed 6-1 (Milks).

3. ORDER-131-10032024 - Appointing John Cleveland, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Platz moved for passage, seconded by Councilor Whiting. There was no comment from the public. Motion passed 6-1 (Milks).

4. ORDER-132-10032024- Appointing Adam Lee, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Walker moved for passage, seconded by Councilor Platz. There was no comment from the public. Motion passed 6-1 (Milks).

7. ORDER-133-10032024- Appointing Denis Bergeron, Ward 2, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.

Councilor Platz moved for passage, seconded by Councilor Whiting. There was no comment from the public. Motion passed 6-1 (Milks).

8. ORDER-134-10032024- Appointing Mathieu Duvall, Ward 3, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Gerry moved for passage, seconded by Councilor Platz. There was no comment from the public. Motion passed 6-1 (Milks).

9. ORDER-135-10032024- Appointing Kelly Butler, Ward 4, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Platz moved for passage, seconded by Councilor Whiting. There was no comment from the public. Motion passed 6-1 (Milks).

10. ORDER-136-10032024- Appointing Bruce Rioux, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Gerry moved for passage, seconded by Councilor Walker. There was no comment from the public. Motion passed 6-1 (Milks).

11. ORDER-137-10032024- Appointing Jane Costlow, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Walker moved for passage, seconded by Councilor Platz. There was no comment from the public. Motion passed 6-1 (Milks).

12. ORDER-138-10032024- Appointing Dana Staples, Ward 5, to the Comprehensive Plan Committee, as nominated by the Appointment Committee. Postponed at the October 7, 2024 Meeting.
Councilor Gerry moved for passage, seconded by Councilor Walker. There was no comment from the public. Motion passed 6-1 (Milks).

13. ORDER 150-11182024- Appointing Virginia Keel, Ward 4, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.
Councilor Weisner moved for passage, seconded by Councilor Cowan. There was no comment from the public. Motion passed 6-1 (Milks).

14. ORDER 151-11182024- Appointing Heidi Bertels, Ward 1, to the Comprehensive Plan Committee, as nominated by the Appointment Committee.
Councilor Platz moved for passage, seconded by Councilor Gerry. There was no comment from the public. Motion passed 6-1 (Milks).

15. ORDER 147-10212024 - Authorizing the City's general obligation bonds in the amount of $983,000 to finance the School Department's FY25 Capital Improvement Program. Second reading/public hearing. ROLL CALL VOTE. Passage requires an affirmative vote of 5 Councilors.

Councilor Whiting moved for passage, seconded by Councilor Cowan. There was no comment from the public. Motion passed 6-1 (Gerry) on a roll call vote.

16. ORDINANCE 20-11042024 - Amending Chapter 12 Article IV.- Housing Code regarding property maintenance and vacant buildings. Second reading/public hearing. ROLL CALL VOTE.

Councilor Whiting moved for passage, seconded by Councilor Cowan. There was no comment from the public. Motion passed 7-0 on a roll call vote.

VI. New Business

1. ORDER 152-11182024 - Appointing Kryston Chapman, Associate Member, to the Zoning Board of Appeals, for a term that expires 5/1/2026, as nominated by the Appointment Committee.

Councilor Gerry moved for passage, seconded by Councilor Walker. There was no comment from the public. Motion passed 7-0.

2. ORDINANCE 21-11182024 - Lake Auburn Watershed Text/Map Amendments. First reading. ROLL CALL VOTE. Passage requires majority vote.

Councilor Whiting moved for passage, seconded by Councilor Cowan. There was no comment from the public. Motion passed 6-1 (Gerry) on a roll call vote.

VII. Reports

a. Mayor's Report – Thanked the City Clerk and election staff for a successful election. Recognized Police Chief Jason Moen for his recent installment as Maine Chiefs of Police Association's newest President. Recognized Good Food Council at lafoodplan.com. Thanked the Assessor's office for 2nd public meeting on the upcoming revaluation.

b. City Councilors' Reports – Councilor Whiting congratulated the Mustangs on their soccer championship title. Councilor Cowan gave a brief update on the Homeless Committee. Councilor Weisner asked for an update from the Recycling Committee on composting; RFPs on Solid Waste Plan are expected to be released this week and there will be a 30 day deadline to submit RFPs which the bid will then be coming to Council – updates will be forthcoming in early January. Councilor Walker mentioned the Thanksgiving dinner hosted at the Senior Center on Thursday at 11am. Tree lighting at New Auburn Sullivan Park on December 7 at 5:30pm. Councilor Platz gave an update on the School Committee's upcoming labor union contracts following an article in the SunJournal; an architect is being sought for facility renovations over the next 10 years, and the School Committee will soon be presenting initial draft for the upcoming budget season.

c. Student Representative Report - Representative Egge congratulated peers at ELHS who performed in recent play "Anything Goes".

d. City Manager Report – Recognized Chief Moen for the leading the Police Department through attaining CALEA accreditation. On Sunday, 12/8 the Auburn Tree Lighting will occur; Parade will start from Rolly's diner to Festival Plaza.

VIII. Open Session

Quentin Chapman, 51 Eastman Ln
John Cleveland, Davis Ave

IX. Executive Session

None.

X. Adjournment

Councilor Weisner moved to adjourn, seconded by Councilor Platz. Motion passed 7-0.
Council adjourned at 8:08pm.

City Council Information Sheet

Council Workshop or Meeting Date: December 2, 2024 **ORDINANCE 21-11182024**

Author: John Blais – Deputy Director of Planning, Permitting and Code

Subject: First Reading Text Amendments related to Lake Auburn Watershed Overlay District and Lake Auburn Watershed Overlay District Agricultural Buffer Setbacks Map

---

Background: In January of 2024, the City Council ordered (04-01022024) the City Manager to direct staff to work with city wide interest groups (AG Working Group, Sustainability and Natural Resources Board, LAWPC, Planning Board and public stakeholders) to create the Lake Auburn Stakeholders Group. Since that time the group(s) have met on approximately 10 occasions to address continued concerns pertaining to protecting Lake Auburn. The group(s) have relied on the ordinance to drive the discussion on what is best for the public water supply of Lewiston and Auburn. The proposed changes are detailed in the attached order and proposed text. The proposed changes include amendments to Section 60.2 Definitions, Sec. 60-951 Use and environmental regulations and Sec. 60-952 as they relate to agricultural, forestry and erosion control. The amendments include changes that will strengthen the ordinances pertaining to Lake Auburn Watershed and the source water protection for the communities of Auburn and Lewiston which serves clean drinking water to 39,000 residents from Lake Auburn.

In July of 2024 the City Council ordered the Planning Board to review draft ordinance text changes recommended by the Lake Auburn Stakeholders Group. The directive specifically asked the Planning Board to review updates to Article II, Division 4, Lake Auburn Watershed Overlay District as proposed by the Lake Auburn Stakeholder Group pursuant to order 04-01022024 as they relate to agricultural, forestry and erosion control land uses.

Information: The attached ordinance is a culmination of efforts put forth by the above groups. The Planning Board provided a favorable recommendation to City Council on a text and associated map amendment. All the residents in the watershed were notified about October, Planning Board Public Hearing, City Council Workshop on November 4th and future City Council Public Hearing on December 2nd. The edits come from two different staff personnel (Megan & John) and The Ag committee.

Highlights from the proposed changes:

- Definitions for Agricultural and Forestry Uses (Text Changes/Additions)
    - Update definitions to agricultural use, animal units, clearcutting, invasive species, livestock, NRCS, NWI, fertilizer, pest, pesticides, poultry, soil test, summer dormancy, tillage, Total N. Allows farming in the watershed with defined safe boards for water quality protections (waste and nutrient management plans with required buffers).
- Fertilizers and Pesticides (Text Additions)
    - Requires existing farms to comply with obtaining waste or nutrient management plans that raise livestock or poultry by June 30, 2027, regardless of size.
    - Set limits on animal and poultry units.
    - Manure spreading prohibited, language for manure storage BMPs

    - Guideline for fertilizer and pesticide use applications
- Erosion Control, Tree Clearing and Forestry (Text Changes/Additions)
    - Tillage setbacks from 100' to 250' (Map Developed)
    - Clearcutting limited to 2 acres on a 20-acre tract.
    - Clearcutting is limited to 25% of the amount on 20-acres or less.
- Map of 250' Setback to Lake, Pond, Stream, Brook or NWI Wetland
    - Added State forestry BMP language for tree clearing and state requirements for harvesting in the SLZ.
    - Adopted "Rule 20" by the MFS policy under the Maine Forest Practices Act Legislation.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Second reading/public hearing On both attached text amendment and Lake Auburn Watershed Overlay Agricultural Buffer Setback Map.

Previous Meetings and History: Unanimous favorable recommendation in the October Planning Board Meeting, November 4, 2024, City Council Workshop. Passed first reading 6-1 (Gerry) on November 18, 2024.

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Amended Text Edits , Proposed Map Amendment, City Council PowerPoint Presentation, Planning Board staff report for public hearing

DIVISION 4. LAKE AUBURN WATERSHED OVERLAY DISTRICT

Sec. 60-950. Purpose.

The Lake Auburn Watershed Overlay District is intended to maintain safe and healthful environmental conditions; prevent and control water pollution; protect spawning ground for fish, aquatic life, bird and other wildlife habitats; control building sites; provide visual and physical points of access to waters and natural beauty; and protect and maintain the present quality and volume of potable water supplied from the Lake Auburn Watershed to the population of the Auburn-Lewiston area.

(Ord. of 9-21-2009, § 5.3A; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-951. Boundaries and definitions.

(a) *Boundaries.* The Lake Auburn Watershed Overlay District is that section of the city in which surface and subsurface waters ultimately flow or drain into Lake Auburn as such section is delineated on a watershed map and survey by the Auburn Water District on file in the office of the Auburn Water District, the city planning, permitting and code department and the city clerk. The Lake Auburn Watershed Overlay District shall be superimposed over underlying zoning districts within the city. Permitted uses in the underlying districts shall continue subject to compliance with the provisions of the Lake Auburn Watershed Overlay District.

(b) *Definitions.* For purposes of this division, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned.

Agricultural use means the production, growing, cultivation, or harvesting of any agricultural commodity or product or the raising, shearing, feeding, caring for, training, and management of livestock or poultry for commercial or personal use.

Animal unit has the same meaning as in section 60-2.

Building has the same meaning as in section 60-2.

Clearcutting means any cutting of any trees or timber on a forested site that results in a residual basal area of trees over 4 1/2 inches in diameter measured at 4 1/2 feet above the ground of less than 30 square feet per acre, unless, after harvesting, the site has a well-distributed stand of acceptable growing stock, as defined by rule, of at least 3 feet in height for softwood trees and 5 feet in height for hardwood trees that meets the regeneration standards defined under Section 8869, subsection 1 of the Maine Forest Practices Act.

Curtain drain means a trench to intercept laterally moving ground water and divert it away from a septic system disposal field.

Dwelling Unit has the same meaning as in section 60-2.~~*Hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where:~~

~~(1) The products produced through such use of the land is for personal consumption, pleasure or sustenance by those occupying the land and does not involve the sale of the products produced through such use of the land for profit; and~~

~~(2) The allowances set forth in section 60-2 regarding "farm, livestock" of this chapter and the allowances set forth in article VII, division 4 of chapter 8 of this Code are not exceeded.~~

Invasive Species. Means a plant or insect that is not native to a particular ecosystem, and whose introduction does or is likely to cause economic or environmental harm or harm to human health. Invasive species include those plants listed under the Maine Department of Agriculture, Conservation and Forestry's Natural Areas Program as currently invasive, potentially or probably invasive, and highly likely but not currently invasive, as well as those insects listed by the Maine Forest Service as threats to Maine's forests and trees.

Lake Auburn Watershed Protection Commission or *LAWPC* means the commission formed through an interlocal cooperation agreement between and among the Auburn Water District, City of Lewiston, and the Town of Turner, consisting of three commissioners appointed by the Auburn Water District, three commissioners appointed by the City of Lewiston, one commissioner appointed by the Town of Turner, one commissioner appointed by the Towns of Hebron, Minot and Buckfield, and one commissioner appointed by the Androscoggin Valley Council of Governments.

Livestock has the same meaning as in section 60-2.

Local plumbing inspector means a plumbing inspector or alternate plumbing inspector as defined in Section 12-22 of the Auburn City Ordinances. ~~*Non-hobby agricultural use* means uses of land for chicken farms, cattle farms, horse farms, egg farms, piggeries, sheep farms, stables, crop farming and other agricultural purposes where the products produced through such use of the land are sold for profit.~~

Natural Resource Conservation Service or NRCS means the U.S. Department of Agriculture, Natural Resources Conservation Service or, in those instances where the NRCS is prohibited by federal law from providing services to the property owner or lessee, an alternative service provider approved by the director of the city planning, permitting, and code department, or their designee.

Normal high-water line and Normal high-water mark mean~~s~~ that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

NWI Wetland means any waterbody shown on the U.S. Fish & Wildlife Service National Wetlands Inventory.

Organic fertilizer means fertilizer derived from either plant or animal products that contain nutrients for plant growth. It is acceptable for the materials in these fertilizers to have been subjected to biological degradation processes under normal conditions of aging, rainfall, sun curing, air drying, composting, rotting, enzymatic, or anaerobic/aerobic bacterial action, or any combination of these. In order to qualify as organic fertilizer, the materials in these fertilizers may not be mixed with synthetic materials or changed in any physical or chemical manner from their initial state except by processing such as drying, cooking, chopping, grinding, shredding, hydrolysis, or pelleting. Organic fertilizers are broken down by and feed the microbial life in the soil.

Pest shall have the same meaning as the term set forth in 40 C.F.R.§ 152.5, as the same may be amended from time to time.

Pesticide means any substance, or mixture, or combination of substances intended for preventing, destroying, repelling or mitigating any pest; any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant. It does not include multicellular biological controls such as mites, nematodes, parasitic wasps, snails or other biological agents not regulated as pesticides by the U.S. Environmental Protection Agency. Herbicides, fungicides, insecticides and rodenticides are considered pesticides.

Pests of significant public health importance means pests listed by the U.S Environmental Protection Agency, in conjunction with the U.S. Department of Health and Human Services and the U.S. Department of Agriculture, as pests of significant public health importance.

Poultry means domesticated birds.

Soil horizon means a layer within a soil profile differing from the soil above or below it in one or more soil morphological characteristics. The characteristics of the layer include the color, texture, rock-fragment content, and consistency of each parent soil material.

Soil horizon, limiting or *limiting soil horizon* means any soil horizon or combination of soil horizons, within the soil profile or any parent material below the soil profile, that limits the ability of the soil to provide treatment or disposal of septic tank effluent. Limiting horizons include bedrock, hydraulically restrictive soil horizons and parent material excessively coarse soil horizons and parent material, and the seasonal groundwater table. Any of these limiting horizons may from time to time be referred to as a "limiting factor."

Soil profile means a vertical cross section of the undisturbed soil showing the characteristic soil horizontal layers or soil horizons that have formed as a result of the combined effects of parent material, topography, climate, biological activity, and time.

Soil filter media means a soil mixture that consists of a loamy sand lower fill layer meeting the following lower fill layer specifications, plus a minimum of six inches of upper fill layer meeting the following upper fill layer specifications.

Soil Filter Media Specifications

Upper fill layer	
Sieve #	% passing by weight
No. 4	75—95
No. 10	60—90
No. 40	35—85
No. 200	20—40
200 (clay size)	< 2.0

Lower fill layer	
Sieve #	% passing by weight
No. 10	85—100
No. 20	70—100
No. 60	15—400
No. 200	6—8
200 (clay size)	< 2.0

Soil test means the Comprehensive Soil Test provided by the Maine Soil Testing Service, or equivalent.

State licensed site evaluator means a person licensed by the Maine Department of Health and Human Services to evaluate soils for the purpose of designing subsurface wastewater disposal systems.

Stream or Brook means a channel between defined banks as depicted as a solid or broken blue line on the most recent edition of the U.S. Geological Survey 7.5-minute series topographic map.

Subsurface wastewater disposal system inspector means a person who holds a current certification issued by the Maine Department of Health and Human Services, Division of Environmental and Community Health as a Subsurface Wastewater Disposal System Inspector.

Summer dormancy means the period during mid-summer most commonly observed in unirrigated grasses when growth ceases. Dormancy is characterized by brittle texture and a loss of green color.

Synthetic fertilizer means any fertilizer manufactured from one or more synthetic materials containing no animal parts, animal byproducts, manures or renderings.

Tillage or tilled means the reconfiguration of the soil into a desired condition by mechanical means.

Total nitrogen means the sum of all nitrogen forms contained within fertilizer, including water soluble nitrogen forms, slow-release nitrogen forms, and water insoluble nitrogen forms. The percentage of total nitrogen appears as the leftmost number of the grade on fertilizer labels or containers.

Wetland, see NWI Wetland.

(Ord. of 9-21-2009, § 5.3B; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-952. Use and environmental regulations.

1. *Subsurface Wastewater Disposal Systems*.

(a) *Dwelling units in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), ~~60-145(b)(18)~~ and 60-146(1)c., new dwelling units are prohibited in that part of the Lake Auburn Watershed Overlay District which overlies the Agriculture and Resource Protection Zone. Pursuant to 30-A M.R.S.A. §§ 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.

(b) *Private subsurface wastewater disposal systems.* Each new building, or any existing building for which there is any addition, alteration, or change of use, each new dwelling unit, or any existing dwelling unit for which there is an addition or alteration thereto that includes the addition of one or more bedrooms, in the Lake Auburn Watershed Overlay District, not served by public sewer, shall, in the development of a private subsurface wastewater disposal system, adhere to the requirements of this section as well as the requirements of the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241. Notwithstanding any provision of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 the Rule shall be applied regardless of whether the addition or alteration is an initial or subsequent addition or alteration~~.~~:

(1) Disposal fields are prohibited on sites with less than 12 inches to the limiting soil horizon. In addition to having at least 12 inches to the limiting soil horizon, disposal fields shall have at least 24 inches of suitable natural soil or soil filer media below the bottom of the disposal field, such that there is at least a 36-inch separation between the bottom of the disposal field and the limiting soil horizon. The local plumbing inspector shall require that a state licensed site evaluator affirm that these design requirements are met before the local plumbing inspector finds the design or installation of the system to comply with this section.

(2) New (first use), expanded, or replacement disposal fields shall be set back from the normal high-water mark of any lake, pond, stream, or brook as follows:

a. Where the daily wastewater flow is, or is reasonably likely to be, 2,000 gallons or less, the system shall be set back at least 400 feet from the normal high-water mark of any lake, pond, stream, or brook.

b. Where the daily wastewater flow is, or is reasonably likely to be, in excess of 2,000 gallons, the system shall be set back at least 1,000 feet from the normal high-water mark of any lake, pond, stream, or brook.

(3) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall include one of the two following design elements. The selection of which design element is most appropriate shall be determined by a state licensed site evaluator based upon the evaluation of the groundwater conditions, soils, and slopes present at the site where the system is to be installed.

a. Curtain drain installed per Section 12(H) of the Maine Subsurface Wastewater Disposal Rules, 10-144 C.M.R. ch. 241 (2023), as may be amended from time to time; or

b. Diversion ditch, upslope of the disposal field, installed for the disposal field's entire length including fill extensions, and constructed so that the curtain drain or diversion ditch is located to prevent any short circuiting of the disposal field

(4) All new (first use), expanded, or replacement private subsurface wastewater disposal systems shall be installed on the same lot as the building or dwelling unit being served by the system, unless the system can be developed outside of the Lake Auburn Watershed Overlay District or, in the case of an expanded or replacement system, the property owner can demonstrate to the local plumbing inspector that it is physically impossible for the replacement system to be located on the same lot, in which case the local plumbing inspector may approve all or a portion of the expanded or replacement system's location on adjacent lots if the property owner holds a perpetual easement from the adjacent lot owner allowing the installation and maintenance of the system.

(5) Commencing July 1, 2024, the owner of each building or dwelling unit in the Lake Auburn Watershed Overlay District, not served by public sewer, shall have their private subsurface wastewater disposal system inspected to ensure continuing compliance with this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241.

a. *Inspections.* An initial inspection shall be completed by the completion date specified in the Lake Auburn Watershed Overlay District Septic Systems Inspection Map, dated June 24 ~~March 19~~, 2024, which is on file in the office of the city planning, permitting and code department.

Subsequent inspections shall be completed within five years of the initial inspection and every subsequent inspection, unless the property is sold, in which case a subsequent inspection shall be conducted at the time of sale.

Such inspections shall be completed by a certified subsurface wastewater disposal system inspector. Such inspector shall inspect the private subsurface wastewater disposal system using the minimum requirements established by the Maine Department of Health and Human Services, Division of Environmental and Community Health for evaluating and reporting on existing subsurface wastewater disposal systems.

b. *City record keeping and notifications.* The city planning, permitting and code department shall maintain, within the city GIS system, a record of each subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District that requires inspection. The record must include, at a minimum, the city parcel identifier, date the next inspection is due, and date of the last inspection.

The city planning, permitting and code department shall provide the owner of each building or dwelling unit written notices by regular mail, to the address shown on the city property tax records, of the date by which the inspection of the subsurface wastewater disposal system must be completed. The first notice shall be mailed 12 months prior to each required completion date and the second notice six months prior to each required completion date.

c. *Reporting and reviewing of results of inspections.* Reporting shall be made utilizing the latest version of the HHE-240 reporting form, for initial inspections, and the Supplement HHE-240 reporting form, for subsequent inspections, as published by the Maine Department of Health and Human Services, Division of Environmental and Community Health. Such reports shall be submitted to the local plumbing inspector.

The local plumbing inspector shall review the report and determine if corrective action is required to ensure that;

1. for subsurface wastewater disposal systems for which a design is on file with the planning, permitting and code department, the system is functioning per the design on file,
2. for subsurface wastewater disposal systems for which there is no design on file with the planning, permitting and code department, the system is functioning as built.

d. *Alternative design for replacement subsurface wastewater disposal systems.* For buildings or dwelling units that exist in the Lake Auburn Watershed Overlay District as of July 1, 2024, should the local plumbing inspector determine, upon review of the report from the subsurface wastewater disposal system inspector, through personal observation, or through independent means, that the subsurface wastewater disposal system is not functioning as designed or built and a replacement system is required, and:

1. a state licensed site evaluator informs the local plumbing inspector that the parcel on which the building or dwelling unit is situated is not suitable to site a replacement subsurface wastewater disposal system that meets the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241; and
2. the local plumbing inspector determines that the replacement subsurface wastewater disposal system cannot be sited pursuant to Subsection 4;

then a state licensed site evaluator may propose, and the local plumbing inspector may approve, after consultation with the Lake Auburn Watershed Protection Commission, an alternative subsurface wastewater design that does not meet the requirements of this section and the latest version of the Maine Subsurface Wastewater Disposal Rule, 10-144 C.M.R. ch. 241 but which meets as many of the requirements as possible, and for those requirements that cannot be met, includes design elements that maximize the efficacy of the treatment of the wastewater.

(6) In coordination with the local plumbing inspector, LAWPC, or its designee, shall have the right to inspect any subsurface wastewater disposal system within the Lake Auburn Watershed Overlay District during its construction and operation and may notify the City of Auburn health officer, police chief, local plumbing inspector or code enforcement officer of any observed defects or malfunction that require corrective action by the property owner or operator.

(7) The local plumbing inspector shall furnish a copy of all site evaluation and inspection reports in the Lake Auburn Watershed Overlay District to LAWPC.

8) Commencing on July 1, 2024, a maximum of three new dwelling units per calendar year are permitted in that part of the Lake Auburn Watershed Overlay District in which new dwelling units are permitted.

The city planning, permitting, and code department shall, on an annual basis, provide a report to the Planning Board as to the extent and effect of the construction of new dwelling units in the Lake Auburn Watershed Overlay District. The report shall include, at a minimum, the number of new dwelling units constructed in the past year, the cumulative number of new dwelling units constructed since July 1, 2024, and the effect of such construction on the Lake Auburn water quality.

Should the Planning Board conclude, based on the city planning, permitting and code department report that the construction of new dwelling units has had an adverse effect on the Lake Auburn water

quality, the Planning Board shall consider what action is to be taken to prevent further degradation of Lake Auburn water quality from the construction of new dwelling units.

2. Agricultural, Forestry, and Erosion Control.

(a) *Agricultural use~~s~~.* ~~Non-hobby agricultural uses not in existence as of January 1, 2024 are prohibited, and expansions of non-hobby agricultural uses in existence as of December 31, 2023 are prohibited. As of January 1, 2024, new hobby agricultural uses or expansions of hobby agricultural uses in existence as of December 31, 2023 are~~ Use of land for agricultural use within the Lake Auburn Watershed Overlay District is only ~~allowed~~ permitted if:

(1) The property owner or ~~operator~~ lessee shows, and the director of the city planning, permitting, and code department, or their designee, finds, after consultation with the LAWPC watershed manager, ~~first demonstrates to LAWPC's watershed manager~~ that

a. Such use, or expansion of such use, will not cause groundwater contamination ~~and~~ ,will not contaminate or disturb the normal course of surface water runoff, and will not contaminate any lake, pond, stream, brook, or NWI wetland; and

b. The property owner or lessee has a waste and nutrient management plan developed in compliance with the Natural Resource Conservation Service's standards for waste and nutrient management.

(2) ~~LAWPC's watershed manager approves such use or expansion in writing and so notifies the code enforcement officer~~The director of the city planning, permitting, and code department, or their designee, has provided their written finding of conformity with the requirements of this Sec. 952(2)(a) to the property owner or lessee.

(3) The provisions of this Subsection 2(a) shall apply to all new or expanded agricultural uses of land within the Lake Auburn Watershed Overlay District. For those agricultural uses that exist on July 1, 2024, the property owner or lessee shall comply with the requirements of Subsection 2(a)(1)(b) no later than June 30, 2027.

(4) The provisions of this Subsection 2(a) requiring a showing to the director of the planning, permitting, and code department, or their designee, and the requirement to have a waste and nutrient management plan, shall not apply if the agricultural use of the land is for the production, growing, cultivation, or harvesting of any agricultural commodity or product, (but not for or the raising, shearing, feeding, caring for, training, and management of livestock or poultry), whether for commercial or personal use, if the agricultural use of the land encompasses no more than 1,000 square feet in total on any lot. This provision shall not be construed to exempt the property owner or lessee from any other provision of this Division.

(b) Reserved~~*Residential dwellings in the agriculture and resource protection zoning district.* Notwithstanding the provisions of subsections 60-145(a)(1), 60-145(b)(18) and 60-146(1)c., new dwelling units are prohibited in the Lake Auburn Watershed Overlay District. Pursuant to 30-A M.R.S.A. 4364(9), 4364-A(1-A), and 4364-B(1-A), each as may be amended from time to time, the affordable housing density, residential density and accessory dwelling unit provisions of P.L. 2021, ch. 672, "An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions" and any related state regulations do not apply in the Lake Auburn Watershed Overlay District.~~

(c) *Number of animal units permitted.* The number of animal units of livestock permitted in the Lake Auburn Watershed Overlay District shall be calculated utilizing the formula in the definition of Farm, Livestock in section 60-2. The number of animal units of poultry permitted in the district shall be calculated as 15 animal units per acre of cleared land not to exceed a total of 150 animal units per lot.

(~~c~~d) *~~Agricultural~~ Vegetated buffer strip.* ~~Where land adjoining Lake Auburn or its perennial tributaries (as depicted on a 7.5 minute series USGS topographic map, dated 1981) is tilled for agricultural purposes, an untilled buffer strip 100 feet wide shall be retained between the tilled area and the normal high-water mark. This subsection (c) shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.~~ Where soil is tilled for agricultural purposes, or livestock or poultry is kept, an untilled, vegetated buffer strip at least 250 feet wide shall be retained between the tilled area and the normal high-water mark of any lake, pond, stream, brook, or NWI Wetland.

Vegetated buffer strips shall be constructed and maintained as specified in the latest version of the Maine Department of Environmental Protection, Maine Stormwater Management Design Manual, Phosphorous Control Manual, Volume II & Technical Design Manual Volume III, March 2016.

This subsection shall not be interpreted as permitting agricultural tillage in any zoning district in which it is not otherwise permitted.

(~~d~~e) *Manure and sludge spreading, storage, and disposal.* The s~~S~~preading ~~and~~ or disposal of manure or sludge within the Lake Auburn Watershed Overlay District is prohibited. Manure shall be stored on an impervious surface which has a roof or cover. ~~All spreading and disposal of manure shall be accomplished in conformance with the then-current edition of the Maine Department of Agriculture, Conservation and Forestry's rules, regulations and guidelines for manure spreading and disposal.~~

(f) *Fertilizer use and application.* The following provisions shall apply to the use, application, or storage of fertilizer in the Lake Auburn Watershed Overlay District.

(1) The following uses and applications of fertilizer are permitted.

a. Organic fertilizer if a soil test is conducted annually; and

b. The fertilizer that is used or applied does not contain nutrients in excess of the amount recommended by the completed soil test; and

c. No more than two fertilizer applications are made in one calendar year; and

d. For each application, total nitrogen may not exceed 1 lb. per 1,000 square feet.

(2) The following uses and applications of fertilizer are prohibited.

a. Fertilizer containing phosphorus, unless a waiver for the use of fertilizer containing phosphorus is issued by the city planning, permitting, and code department.

b. Synthetic fertilizers.

c. Fertilizer used within 100 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland.

d. Fertilizer used when a rain event producing 0.5 inch or more of precipitation in a one-hour period is forecast or is occurring.

e. Fertilizer used on saturated surfaces.

f. Fertilizer used on partially or wholly frozen ground.

g. Fertilizer used on impervious surfaces, if spills occur on impervious surfaces they must be removed immediately.

h. Fertilizer used during the summer dormancy period.

(3) Waivers of the provisions of this Subsection (f) may be issued by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager:

a. upon a showing by the applicant that the use of synthetic fertilizer, or the use of fertilizer containing phosphorus, is necessary because a suitable organic fertilizer product that meets the nutrient needs of the soil as specified in the soil test is unavailable. The waiver may contain additional conditions on the use or application of the waivered fertilizer product to minimize the risk to any lake, pond, stream, brook or NWI Wetland.

b. upon a showing by the applicant that a nutrient management plan prepared by the Natural Resources Conservation Service for a specific agricultural use requires a frequency of application greater than that specified in subsection 2(f)(1)(c) of this section and/or a total nitrogen application greater than that specified in subsection 2(f)(1)(d) of this section.

(4) Fertilizers shall be stored, mixed, and loaded:

a. pursuant to the specific manufacturer's storage instructions on the fertilizer label; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time.

(g) *Allowed and prohibited pesticides.* For outdoor pest management activities in the Lake Auburn Watershed Overlay District, the following shall apply:

(1) Synthetic substances are prohibited unless specifically listed as "allowed" on the U.S. Department of Agriculture's National List of Allowed and Prohibited Substances (the "National List");

(2) Non-synthetic substances are allowed unless specifically listed as "prohibited" on the National List;

(3) Pesticides determined to be "minimum risk pesticides" pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 4 and listed in 40 C.F.R. § 152.25(f)(1) or (2), as may be amended from time to time, are allowed; and

(4) The use or application of pesticides (whether natural, organic, "non- synthetic," synthetic or otherwise) within 250 feet of the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland is prohibited.

(5) The following materials, applications, or activities are exempt from the provisions of this subsection (g) (and are so allowed):

a. Pet supplies, such as shampoos and tick and flea treatments, when used in the manner specified by the manufacturer;

b. Disinfectants, germicides, bactericides, miticides and virucides, when used in the manner specified by the manufacturer;

c. Insect repellents when used in the manner specified by the manufacturer;

d. Rat and rodent control supplies when used in the manner specified by the manufacturer;

e. Swimming pool supplies when used in the manner specified by the manufacturer.

(6) The following uses of prohibited pesticides are exempt from the provisions of this subsection (and are so allowed) when the use of the material, application, or activity is more than 250 feet from the normal high-water mark of a lake, pond, steam, brook, or NWI Wetland or when a waiver has been granted by the director of the director of the city planning, permitting, and code department or their designee.

a. Prohibited pesticides may be used to control plants that are poisonous to the touch, such as poison ivy; pests of significant health importance, such as ticks and mosquitoes; animals or insects that may

cause damage to a structure, such as carpenter ants or termites; invasive species; or when used by a public utility for maintenance of a right-of-way through the Lake Auburn Watershed Overlay District.

b. The director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager, may grant a waiver to use a prohibited pesticide within 250 feet of the high-water mark of a lake, pond, stream, brook, or NWI Wetland when such use is necessary to protect public health or safety.

(7) Pesticides shall be stored, mixed, loaded, and applied:

a. pursuant to the specific manufacturer's storage instructions on the pesticide label or container; and

b. must be stored in an impervious container on an impervious surface; and

c. must be mixed and loaded on an impervious surface; and

d. no more than two times the volume needed for a single application may be stored at any one time; and

e. shall not be applied by aerial spraying.

(eh) *Erosion control.* ~~The following provisions shall be observed for the control of erosion in the Lake Auburn Watershed:~~

~~(1)~~ Any exposing, moving, removal, or stockpiling of soil, or the removal of vegetative cover~~earth cutting, moving or removal activities~~ that will result in erosion or runoff which increases sedimentation of ~~Lake Auburn, or any tributaries or other water bodies in the watershed~~any lake, pond, stream, brook, or NWI Wetland in the Lake Auburn Watershed Overlay District ~~are~~ is prohibited.

~~(2) Vegetative cover shall not be removed except in a manner which will minimize erosion. Harvesting of trees shall be permitted only after a plan prepared by a qualified forester is submitted to and approved by the Auburn Water District. Such plan will be approved or disapproved on the basis of its conformance with good watershed management practice for domestic water supplies.~~

(~~3~~i) ~~Trees may be cleared, provided the cleared areas are covered with other vegetation, for approved construction and landscaping. Where such clearing is extended to the shoreline, a cleared opening or openings not greater than 30 feet in width for every 100 feet of shoreline (measured along the high-water mark) may be created in the strip extending 50 feet inland from the normal high-water mark. For purposes of this section, clearing is the removal of adjacent dominant trees which extend into the canopy and shrubs within ten feet of the shoreline. Where natural vegetation is removed, it shall be replaced with other vegetation which is equally effective in retarding erosion and preserving natural beauty. When the vegetative cover is changed in areas greater than three acres, a plan shall be filed with the Auburn Water District indicating the changes so that a record can be maintained of watershed water yields to the system.~~

Tree clearing and forestry. Clearcutting is limited to 25% of the total area of a lot or two acres, whichever is less; provided that on lots of 20 acres or more, one clearcut of not more than two acres in every 20 contiguous acres may be made. Any discrete tree or timber cutting operation on a lot of any size over two acres shall be permitted only pursuant to a harvest plan prepared by a Maine licensed forester meeting the standards in the latest versions of Rule 20 of the rules adopted under the Maine Forest Practices Act, the Maine Department of Agriculture, Bureau of Forestry's manual on Best Management Practices for Forestry: Protecting Maine's Water Quality and, where applicable, the requirements of Chapter 21 of Maine Forest Service's Statewide Standards for Timber Harvesting in Shoreland Areas. All harvest plans must be approved by the director of the city planning, permitting, and code department, or their designee, after consultation with the LAWPC watershed manager. Such harvest plan will be approved or disapproved based on its conformance with this Division, with a focus on its ability to ensure protection of the water quality of Lake Auburn. ~~From time to time,~~ The director, or their designee, may require the approved harvest plan to be

amended to ensure preventive and corrective actions which may become necessary to protect the water quality of Lake Auburn.

3. *Enforcement*

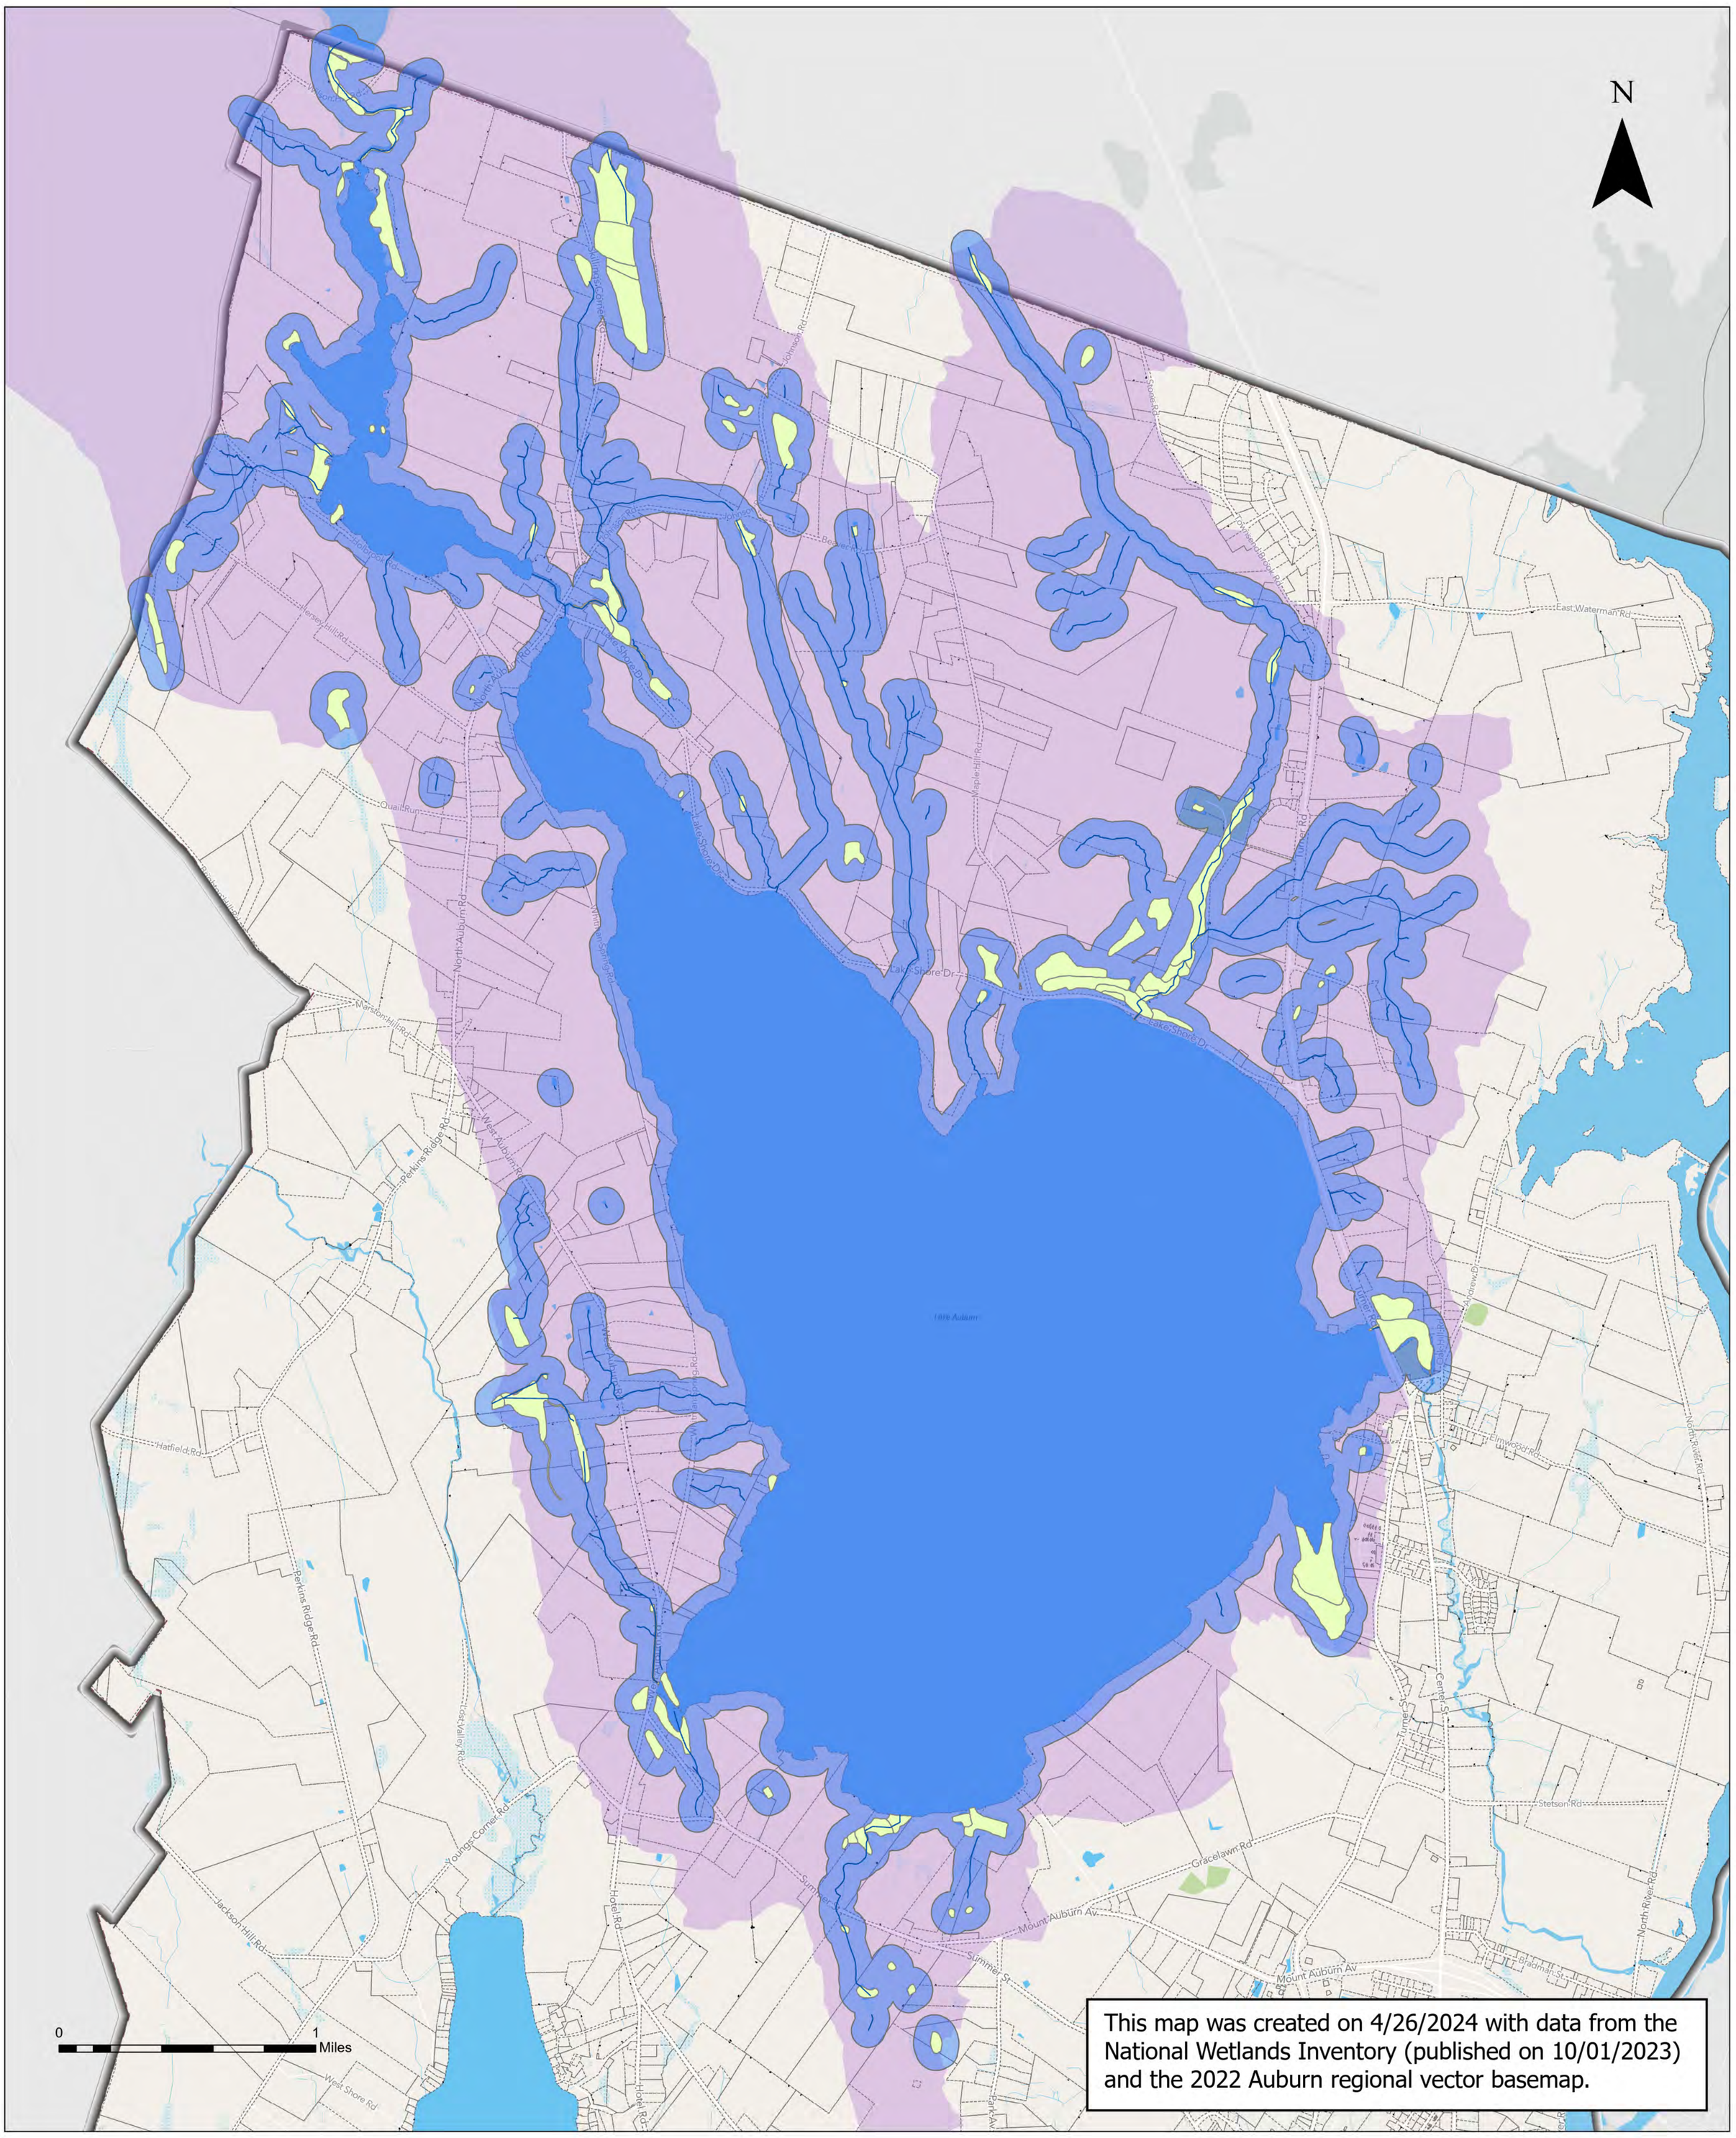
The city planning, permitting and code department shall have authority to enforce all requirements of this Division in accordance with section 60-1403.

(Ord. of 9-21-2009, § 5.3C; Ord. No. 19-12022019, 12-9-2019; Ord. No. 10-06202023, 7-10-2023; Ord. No. 28-11202023, 12-4-2023)

Sec. 60-953. Dimensional regulations; building setbacks.

Any new or expanded buildings or structures, except those requiring direct access to the water as an operational necessity, shall be constructed not less than 100 feet inland from the normal high-water mark of Lake Auburn. Operational necessity shall include private docks, but shall not include boathouses, storage sheds, garages, or other structures. Marinas and boat rental facilities shall not be permitted within 100 feet of the normal high-water mark of Lake Auburn.

(Ord. of 9-21-2009, § 5.3D)



Sec. 60-954. Conflicts.

In any case in which a provision of this section conflicts with a provision of any other section of this chapter, the provision which establishes the more stringent standard shall apply.

(Ord. of 9-21-2009, § 5.3E)

Secs. 60-955—60-981. Reserved.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 2nd, 2024 **Ordinance 22-12022024**

Author: Jason Moen, Chief of Police

Subject: Ordinance Amendment Sec. 52-320. - Parking prohibited at all times.

Information: On 08/26/24 Chief Moen implemented a temporary 90 Day parking restriction on Eighth St. from Broad St. northwest to the dead end of Eighth St. prohibiting parking on both sides of the street. City Council needs to take action to make the restriction permanent and amend the table in Sec. 52-320. - Parking prohibited at all times to add Eighth St. from Broad St. Northwest to the Dead End of Eighth St.

City Budgetary Impacts: None

Staff Recommended Action: Hold first reading on the ordinance amendment.

Previous Meetings and History: Several parking complaints from residents on Eighth St.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.

Attachments:

Ordinance 22-12022024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Sec. 52-320 of the City's Code of Ordinances as follows:

Sec. 52-320. Parking prohibited at all times.

Parking is prohibited at all times upon any of the streets or portions of streets described below:

Second Street	On the easterly side beginning at Mill Street and extending in a southerly direction for a distance of 70 feet.
Fifth Street	On the northwesterly side between South Main Street and Dunn Street.
Seventh Street	On the westerly side beginning at the northwesterly curbline of Broad Street and extending northerly for a distance of 64 feet.
Academy Street	On the northerly side between High and Main Streets.
	On the southerly side between High and Main.
	On the southerly side beginning at the corner of Main Street and extending in a westerly direction for 140 feet.
Aviation Drive	On the east side from Flight Line Drive to Lewiston Junction Road.
	On the west side from Lewiston Junction Road to Wrights Landing.
Bearce Street	On the west side from Manley Street to the dead end.
Blake Street	On the southeasterly side from Winter Street to Turner Street.
Boone Avenue	On both sides from Seventh Street to Walton Field.
Broad Street	On the southerly side from South Bridge to Mill Street.
	On the north side beginning at Second Street and extending easterly for a distance of 162 feet.
	On the northwesterly side beginning at Ninth Street and extending in a southwesterly direction to CMP Pole #31 for a distance of 300 feet.
Broadview Avenue	On the easterly side beginning at Newall Avenue and extending in a southerly direction for 554 feet.
Brookside Circle	On the westerly side between Dennison Street and the point at which Brookside Circle turns at an angle to the right.
	On the northerly side from the angle in Brookside Circle to the westerly side of Winter Street.
	On the southerly side beginning 68 feet from the westerly curbline of Winter Street and extending 88 feet around the curve.
Brown Street	On the southerly side beginning at Center Street and extending westerly for 250 feet.
Burns Street	On the easterly side for its full length.
Center Street	On both sides, beginning at the downtown intersection of Turner Street and extending northerly to the northerly intersection of Turner and Center Streets.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large
Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor
Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Ordinance

Charles Street	On the east side south of Western Prom
Church Street	On both sides beginning at Turner Street and extending westerly for 300 feet.
Cleveland Avenue	On the easterly side from Minot Avenue to Marshall Avenue.
Cook Street	On the southeasterly side beginning at Ninth Street and extending in a southeasterly direction for 325 feet.
Court Street	On the north side beginning at the city line on the Longley Bridge and extending westerly to Goff Street.
	On the northerly side from Highland Avenue extending in a westerly direction to the corner of Haskell Street.
	On the northerly side beginning at James Street and extending 80 feet easterly.
	On the southerly side beginning at the point of intersection of the southerly side and an extension in a southerly direction of the easterly line of Highland Avenue, and extending in a westerly direction to a point 55 feet beyond the point of intersection of the southerly side and an of the extension southerly side of the northwesterly line of Haskell Street.
	On the southerly side beginning at the Lewiston City line and extending in a westerly direction across Main Street to a point 80 feet westerly of the westerly curbline of Main Street.
	On the southerly side beginning at Spring Street and extending in a westerly direction across intersecting streets to a point 46 feet westerly from the westerly line of South Goff Street.
	On the south side beginning at the easterly curbline of Harris Street and extending easterly for 46 feet.
	On the south side between Harris Street and Weaver Street.
Cross Street	On the northerly side for the entire length of the street.
Dartmouth Street	On the northerly side beginning at Center Street and extending westerly for 130 feet.
Dartmouth Street West	West—North side at 25 feet from Center Street.
Davis Avenue	On the turnaround at the dead-end portion of the street.
Davis Avenue	On the turnaround at the dead-end portion of the street.
Dennison Street	On the northerly side beginning 42 feet westerly of Winter Street and extending easterly to Whitney Street.
	On the southerly side beginning at Winter Street and extending westerly for a distance of 52 feet.
	On the southerly side beginning at Winter Street and extending easterly for a distance of 50 feet.
Drummond Street	On both sides, beginning at Main Street and extending westerly to the top of the hill.
	On both sides, beginning at Spring Street in a westerly direction to the dead end.
East Bates Street	On the northerly side beginning at Center Street and extending to Coolidge Street.
Eighth St	On both sides, beginning at Broad Street in a westerly direction to the dead end.
ELHS	Upper parking lot off Forest Avenue
Elm Street	On the south side beginning at Main Street and extending for 164 feet.
	On either side beginning at Minot Avenue and extending easterly to Spring Street.

City Council Ordinance

Fair Street	On the northerly side from Oak Hill Road and extending in a westerly direction to Center Street.
Fairmount Avenue	On the westerly side from Hunton Place to Harris Street.
	On the easterly side beginning at Harris Street and extending northerly for 330 feet.
Fern Street	On the northwesterly side beginning at Lake Street and extending in a southwesterly direction for a distance of 300 feet between the hours of 7:30 a.m. and 4:30 p.m. on days when Lake Street School is in session.
Forest Avenue	On the west side for the entire length of the street.
	From 155 feet south of Court Street to Court Street
Gamage Avenue	On the north side beginning at a point 65 feet from Dennison Street and extending in a westerly direction for a distance of 75 feet.
	On the northerly side beginning at Park Avenue and extending in an easterly direction for a distance of 80 feet.
	On Gamage Avenue southerly from Oakland (no parking from there to corner)
	From 51 Gamage Avenue to drive.
Gill Street	On both sides between Second Street and Third Street.
Goff Street	On the east side beginning at Court Street and extending to Hampshire Street.
	On the westerly side beginning at the corner of Court Street and extending in a northerly direction for a distance of 110 feet.
Gracelawn Road	On the northerly side beginning at CMP #9 and extending westerly for 950 feet.
Granite Street	On the easterly side between Court Street and Fern Street.
Hampshire Street	On both sides between Turner and Pleasant Streets.
	On the north side beginning at the intersection of Pleasant Street and running in a westerly direction for 60 feet.
	On the southerly side beginning at the corner of Pleasant Street and extending in a westerly direction across Troy Street to a point 100 feet westerly from the westerly corner of Troy Street.
Harris Street	On the easterly side beginning at the southerly curbline of Court Street and extending in a southerly direction for a distance of 90 feet.

	On the northbound lane, beginning at Brick Yard Hill and extending in a northerly direction to the intersection of Minot Avenue.
West Auburn Road	On the westerly side beginning at a point opposite the northerly line of Summer Street and extending in a northerly direction for a distance of 1,425 feet.
	On the easterly side beginning at CMP Pole #146 and extending northerly 288 feet.
Western Avenue	On the westerly side beginning at the northerly curbline of Minot Avenue and extending in a northerly direction for a distance of 80 feet.
	Beginning on the easterly side at the northerly curbline of Minot Avenue and extending in a northerly direction for 115 feet.
Western Prom	South side.
Whitney Street	On the northerly side beginning at the northeasterly corner of Lake Auburn Avenue, extending in an easterly direction for a distance of 70 feet.
Willow Street	On the westerly side beginning at Hampshire Street and extending in a northerly direction to Manley Street, between 7:30 a.m. and 4:30 p.m. on days when Webster School is in session.
Wilson Street	On both sides from Field Avenue to the end.
Wood Street	On the easterly side for its full length.
Youngs Corner Road	On the southerly side beginning at a point located 490 feet easterly of Perkins Ridge Road and extending in an easterly direction for 270 feet.
	On the southerly side beginning at a point 1,230 feet easterly of Perkins Ridge Road and extending in an easterly direction for a distance of 310 feet.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 02, 2024 **Ordinance 23-12022024**

Author: Natalie Thomsen – Planning Coordinator

Subject: Text Amendments related to 30-A M.R.S. §§ 4364, 4364-A and 4364-B more commonly known as L.D. 2003

II. **Background:**

The Legislature passed in 2021 a series of housing amendments commonly referred to as "LD 2003," which were intended to increase opportunities for affordable housing to be developed statewide. These laws, codified at 30-A M.R.S. §§ 4364, 4364-A and 4364-B, require that municipal ordinances comply with the stated provisions by January 1, 2024. More information can be found in attached Planning Board Staff Report dated November 12, 2024

On **May 28, 2024**, the Planning Board held a workshop to discuss text amendments to Auburn's ordinance required for compliance with L.D. 2003. Staff presented proposed changes to Chapter 60 based on feedback from the LD 2003 Ad Hoc Committee. During this meeting, the Board reviewed and updated the minimum lot size requirements in the MFS, GB, and GBII zoning districts.

On **September 25, 2024**, the City Manager, Phillip L. Crowell, Jr., issued a directive after reviewing the proposed amendments. He requested that the Planning Board align the draft more closely with the requirements of L.D. 2003. Specifically, the City Manager recommended limiting accessory dwelling units (ADUs) to a maximum of 1,500 square feet and requiring the same minimum lot size for each additional unit (except ADUs) as for the first unit in residential zones. These adjustments would bring the ordinance into compliance while leaving broader decisions on housing policy and density for the Comprehensive Plan update.

On **October 8, 2024**, the Planning Board held another workshop to refine the proposed amendments. The discussion focused on size limits for accessory structures, leading the Board to decide to separate the topics of density and accessory structure sizing for the public hearing. This separation allowed the public to comment on each issue individually and ensured thorough deliberation by the Board.

On **November 12, 2024**, the Planning Board held a public hearing on the proposed text amendments. After receiving public input, the Board voted to recommend the changes to the City Council. The amendments included defining ADUs with a maximum size of 1,500 square feet, revising the definition of "accessory structure," and making updates to various sections of Chapter 60. These revisions addressed density and parking requirements, ensuring compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B, while also reflecting the minimum lot size adjustments that were requested.

Information: The Planning Board provided a favorable recommendation to City Council on a text amendment on November 12, 2024, which included recommendations to limit accessory dwelling units (ADUs) to a maximum size of 1,500 square feet and to require minimum lot size standards for additional dwelling units consistent with the lot size for the first unit in residential zones.

See Attached: Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code (Sec. 60-554. - Form based code use and parking matrix.), Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Workshop. Review the attached text amendment and provide feedback.

Previous Meetings and History: The Planning Board held workshops on May 28, 2024 and October 8, 2024, to discuss proposed text amendments, leading up to a final vote on November 12, 2024. At this Public Hearing, the Planning Board voted 6-1 to recommend the amendments to the City Council.

City Manager Comments: The manager recommends this proceed to the council meeting for first reading. The proposed ordinances from the planning board includes non-substantive changes for clarity and context which is noted in blue font and underlined.

Signature: Phillip Crowell Jr.

Auburn Planning Board
Author: Natalie Thomsen, Planning Coordinator
Subject: Item # Staff Report on L.D. 2003 Workshop

I. Proposal: Public Hearing on L.D. 2003 Ordinance Updates/Priorities:
Review and give feedback on text amendment to Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60.

II. Background:
The Legislature passed in 2021 a series of housing amendments commonly referred to as "LD 2003," which were intended to increase opportunities for affordable housing to be developed statewide. These laws, codified at 30-A M.R.S. §§ 4364, 4364-A and 4364-B, require that municipal ordinances comply with the stated provisions by January 1, 2024.

Summary of L.D. 2003: L.D. 2003, An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions, Sponsored by Speaker Ryan Fecteau, was signed into law by Governor Mills on April 27th, 2022. The law, in summary, requires that: 1.) Towns and cities with a comprehensive plan allow at least four units on a vacant lot in the designated growth area, and towns and villages without a comprehensive plan allow at least 4 units on vacant lots in areas served by sewer and water; 2.) Lots with an existing dwelling unit may have two additional dwelling units either one attached dwelling, one detached dwelling, or one of each; and 3.) "Affordable" housing developments must be allowed to be built at 2.5 times the density of market-rate units if they meet the conditions listed above (availability of sewer and water or within a designated growth area).

Summary of L.D. 1473: L.D. 1473 An Act to Protect Certain Unfiltered Drinking Water Sources, approved as public law on June 22, 2023, amends 30-A MRSA §4364, sub-§9, 30-A MRSA §4364-A, sub-§1-A, and 30-A MRSA §4364-B, sub-§1-A to exempt parts of Auburn which are in the Lake Auburn Watershed from the requirements of L.D. 2003 to protect the lake as an unfiltered drinking water source.

Summary of L.D. 1706: L.D. 1706, An Act to Clarify Laws Regarding Affordable Housing and Accessory Dwelling Units, approved as public law on June 16th, 2023, among other accomplishments, adds that the implementation date for L.D. 2003 must be

January 1, 2024, for municipalities with ordinances, and July 1, 2024, for all other municipalities.

The planning board held a workshop on text amendments to Auburn's ordinance required to comply with L.D. 2003. On May 28 and October 08, the planning board reviewed staff's suggestion for amendments to Chapter 60 based on feedback from the LD 2003 Ad Hoc Committee. At this past workshop, the planning board asked for a legal opinion on the correct way to interpret some of the text of LD 2003. Below, staff has outlined the Planning Board's questions and in the summarized text amendment below, highlighted the uncertain language:

1. Do we need to allow multifamily units in land use zones that currently do not allow multi-family units? (UR, SR, RR, LDCR). A Board member has suggested that we could restrict the use to no more than 2 units per building and still meet the requirement of allowing four units in the growth are but not as a single 4-unit building. Instead, allowing 2, 2-unit buildings would meet the laws requirement to allow 4 units. Would the Planning Board prefer that multifamily buildings continue to be prohibited in certain zones?

2. We will likely make the ordinance retroactive to January 1, 2024, for the determination of vacant land vs. existing units and the allowable number of units. If the city does not make the ordinance retroactive, will that effect property owners that built in good faith of the rule change after January 1, 2024, and planned for more units when the City finishes the adoption process?

3. Can we drop the reference to the latest 30-A MRSA subsection 4364? Or should we reference that as the purpose of the changes. It seems unnecessary as long as we allow the required unit permissions to comply.

The draft available for the planning board has also updated the minimum lot size in the table for the MFS, GB, and GBII zoning districts reflecting the conversation which took place during the May 28 meeting.

During the October 8, 2024, Planning Board workshop, there was extensive discussion regarding the proposed size limits for accessory structures within the amendment to "Sec. 60-2. Definitions." The Board decided that, for the upcoming Public Hearing, the topics of density and accessory structure sizing should be treated as separate items. This approach will allow the public to provide input on each topic individually and ensure the Board has the opportunity to deliberate and vote on them separately, recognizing their distinct impacts on the overall amendment.

III. **Suggested Ordinance Amendments:** See Attached A Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form

Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

IV. **Staff Recommended Action:** Consider feedback from the Public Hearing and send the recommended text change to the City Council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

V. **PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:** Consider feedback from the Public Hearing and send the recommended text change to City Council related to edits established in Sec. 60-2, Definitions, specifically focusing on the definition of "accessory structure" and setting the maximum allowable size for such structures at 1,500 sq. ft.

Consider feedback from the Public Hearing and send the recommended text change to City Council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

VI. **Potential Motion:** I make a motion to forward a favorable recommendation to the city council related to edits established in Sec. 60-2, Definitions, specifically focusing on the definition of "accessory structure" and setting the maximum allowable size for such structures at 1,500 sq. Ft.

I make a motion to forward a favorable recommendation to the city council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

Ordinance 23-12022024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Chapter 60 - ZONING of the City's Code of Ordinances as shown on the attached.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

ARTICLE II. GENERAL PROVISIONS

Sec. 60-34. Buildings per lot.

No more than one principal building shall be erected on any lot in residential zoning districts except for:

(1) Multifamily buildings and/or developments approved under division 9 of article IV of this chapter;

(2) An additional one-family detached or attached is a minimum of 190 SF and a maximum of up to 1500 SF dwelling in a zoning district where two-families are permitted, and a single-family dwelling currently exists on the lot.

(3) Four dwelling units may be constructed on vacant lots in the growth area as delineated in the Future Land Use Map in the most recent Comprehensive Plan ands must be permissible in compliance with State Law and in accordance with Sec. 60-53 and Sec. 60-54.

(4) A lot in the growth area as delineated in the Future Land Use Map in the most recent Comprehensive Plan with an existing dwelling unit may add one attached dwelling unit, one detached dwelling unit, or one of each for a total of three dwelling units ands must be permissible in compliance with State Law and in accordance with Sec. 60-53 and Sec. 60-54.

(5) To preserve the City's rural character, lots in the designated growth areas that are zoned Urban Residential, Suburban Residential, Rural Residential and Low Density Country Residential shall contain no more than two dwelling units per building.

(6) This provision shall apply retroactively to all projects approved after January 1, 2024.

The additional one-family detached dwelling unit shall share a driveway curb cut with the pre-existing dwelling unless it is determined that another driveway location could provide safer access than the existing driveway.

(Ord. of 9-21-2009, § 3.1B; Ord. No. 11-03012021, § 1, 3-15-2021; Ord. No. 18-04052021, 5-3-2021)

Formatted: List 2

Sec. 60-35. Conversion of one-family dwellings.

In all residential, general business and form based code districts, one-family dwellings erected prior to January 1, 1958, may be converted to two-family dwellings provided that:

(1) Any floor space created by additions to the existing structure after January 1, 1958, shall not be converted to a second dwelling.

(2) There will not be less than one accessible off-street parking place of 200 square feet in area, exclusive of driveways, per dwelling unit resulting from such conversion.

(3) Stairways leading to any floor above the first floor will be enclosed within the exterior walls of the dwelling and any fire escapes required will be on the rear or one side of the dwelling and not on any wall facing a street.

(4) After such conversion, the building converted will retain substantially the appearance and character of a one-family dwelling.

(5) Single family dwellings may be converted into two or multifamily buildings if located in the growth area as delineated in the Future Land Use Map of the most recent Comprehensive Plan and pursuant to. See Sec. 60-53 and Sec. 60-54.

(6) To preserve the City's rural character, lots in the designated growth areas that are zoned Urban Residential, Suburban Residential, Rural Residential and Low Density Country Residential shall contain no more than two dwelling units per building.

(7) This provision shall apply retroactively to all projects approved after January 1, 2024.

(Ord. of 9-21-2009, § 3.1C; Ord. No. 04-03072016, 5-16-2016)

Formatted: List 2

Sec. 60-53. Additional dwellings permitted to increase housing opportunity.

(1) Additional dwelling units must be permissible on certain parcels in the City of Auburn pursuant to Sec. 60-34. This table specifies the additional lot area needed for additional units in each zoning district as well as permissible accessory dwelling units. Setback standards shall not be reduced to allow for additional dwelling units and shall not be increased for subsequent dwelling units. Additional dwelling units allowed under this section are prohibited in the Lake Auburn Watershed Overlay District. Additional dwelling units allowed under this section are subject to more stringent lot size requirements per unit if located in the Taylor Pond watershed.

Zoning District	Minimum lot area (per unit)	Minimum road frontage (per unit)	Accessory Dwelling Unit
Agriculture & Resource Protection	10 acres	250 feet	Permitted if unit meets requirements for single family home in Article IV, Division 2 of this Chapter*
Low Density Country Residence	3 acres for the first unit with accessory dwelling unit. 3 acres~~1.5 acres~~ for each subsequent unit.	325 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
Low Density Rural Residence	1 acre for the first unit with accessory dwelling unit. 1 ~~0.5~~ acre for each subsequent unit.	250 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted

Suburban Residence	21,780 square feet for the first unit with accessory dwelling unit. 21,780~~10,890~~ square feet for each subsequent unit.	150 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
Urban Residence	10,000 square feet for the first unit with accessory dwelling unit. 10~~5~~,000 additional square feet per unit for each subsequent unit.	100 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
Multifamily Suburban	10,000 square feet minimum.	100 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
General Business	10,000 square feet minimum.	100 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
General Business II	10,000 square feet minimum.	100 feet for the first unit. No additional road frontage is required for subsequent units.	Permitted
Form Based Code	No minimum lot size. See Ch. 60 Article IV Division 14	24 feet minimum road frontage. See Ch. 60 Article IV Division 14	Permitted
Industrial	Housing only permitted as accessory buildings for caretakers (see Sec.60-578)	150 feet	Permitted for legally existing residential dwellings built before June, 1, 2024.
Lake Auburn Watershed Overlay District	Please refer to the underlying zone and CH. 60 Article XII Division 4. Sec. 60-	Please refer to the underlying zone and CH. 60 Article XII Division 4.	Permitted subject to Lake Auburn Watershed Overlay District accessory dwelling unit allowances.
Taylor Pond Watershed	Minimum lot size in the underlying zone for the first unit with accessory dwelling unit. Minimum lot size is required for each additional unit.	Minimum road frontage required in the underlying zone. No additional road frontage required for subsequent units.	Permitted

*Does not apply if within the Lake Auburn Watershed.

This provision shall apply retroactively to all projects approved after January 1, 2024.

Sec. 60-54. Affordable housing density bonus.

A density bonus of 2.5 times the maximum number of dwelling units permitted in the underlying zone shall be permitted where water and sewer service are available, and the development is in the growth area as delineated in the Future Land Use Map in Auburn's latest Comprehensive Plan. Off-street parking requirements may not exceed two spaces for every three units. This provision shall apply retroactively to all projects approved after January 1, 2024. Affordable Housing Development is pursuant to 30-A MRSA §4364 (L.D. 2003 Public Law).

Formatted: Block 1

Secs. 60-53—60-77. Reserved.

ARTICLE IV. DISTRICT REGULATIONS

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

(Ord. of 9-21-2009, § 3.31A)

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(5) Multifamily dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this Chapter. Subdivision law applies.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

DIVISION 4. LOW DENSITY RURAL RESIDENCE DISTRICT

Sec. 60-229. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District pursuant to section 60-145(a), except 60-145(a)(14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(5) Mobile home parks, subject to the requirements and conditions of section 60-669, mobile home park standards.

(6) Licensed veterinarians provided that the lot is of at least three acres.

(7) Wayside stands.

(8) Accessory uses, buildings or structures.

(9) Lawn maintenance services.

(10) Municipal uses and buildings.

(11) Multifamily dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 5. SUBURBAN RESIDENCE DISTRICT

Sec. 60-255. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(4) Mobile home parks, subject to the requirements and conditions of section 60-669, mobile home park standards.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Greenhouses.

(7) Licensed veterinarians, provided that the lot containing same is of at least three acres.

(8) Farm, livestock provided that the land area required per animal unit conforms to the definition of farm, livestock contained in section 60-2 and:

a. A site plan be submitted to the municipal officer charged with enforcement that contains the information required by section 60-1301.

b. Upon request, the municipal officer charged with enforcement may waive the necessity of providing any of the foregoing information which is not relevant to the proposed development.

c. In judging whether or not a permit to operate an animal farm will be issued, the municipal officer charged with enforcement shall review and make a decision consistent with the finding requirements of section 60-1304.

(9) Wayside stands.

(10) Accessory uses, buildings or structures.

(11) Lawn maintenance services.

(12) Municipal uses and buildings.

(13) Multifamily dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 6. URBAN RESIDENCE DISTRICT

Sec. 60-277. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(4) Accessory uses building or structures.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Municipal uses and buildings.

(7) Multifamily dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 7. MULTIFAMILY SUBURBAN DISTRICT

Sec. 60-306. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Multifamily dwellings ~~in existence on September 23, 1988~~.

(4) Attached single-family dwellings, provided that they are approved by the planning board as part of a planned residential unit development and subdivision, under the provisions of division 9 of article IV and division 4 of article XVI of this chapter.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Shelter for abused persons.

(7) Accessory uses, buildings or structures.

(8) Newly constructed multifamily dwellings and existing structures expanded to contain three or more additional dwelling units within a five-year period, provided that they are approved by the planning board as a subdivision under division 4 of article XVI of this chapter.

(9) Municipal uses and buildings.

b. *Side.* There shall be a minimum distance of five feet between any building and the side property line plus the side yard setback shall be increased one foot for every five feet or part thereof increase in street frontage over 50 feet to a maximum of 15 feet for side yard setback.

c. *Front.* There shall be in front of every building a front yard having a minimum depth of 25 feet or 25 percent of the average depth of the lot whichever is less.

d. *Principal buildings.* More than one principal building may be erected on a lot, provided that the building meet all yard setback requirements and are separated by a distance equivalent to the height of the higher building or 30 feet, whichever is greater.

(4) *Height.* The height of all structures shall be limited to 2½ stories or 35 feet, except as follows:

a. Multifamily buildings shall have a maximum height of 45 feet from grade.

b. A church or temple or windmill may have a maximum height of 65 feet from grade, provided that the front yard, rear yard and each of the side yards shall be increased by one foot for each foot in height in excess of 35 feet.

(5) *Off-street parking.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses as set forth in article V of this chapter.

(Ord. of 9-21-2009, § 3.44C; Ord. No. 11-03012021, §§ 24, 59, 3-15-2021; Ord. No. 19-05032021, 5-17-2021)

Sec. 60-554. Form based code use and parking matrix

Notes:

(1) Uses not listed are considered prohibited unless deemed similar by the director of planning or by the planning board through a special exception approval.

(2) * Parking requirements in T-4.1, T-4.2B, T-4.2, T-5.1, T-5.2 and T-6 may be provided by the municipality or private parking resources within 500 feet of the principal building, subject to planning board approval.

(3) Where more than 50 percent of floor space is devoted to age restricted goods. This may include licensed adult use or medical marijuana stores.

(4) Office, service and retail uses limited to 1,500 SF footprint and must include a residential unit; no drive through businesses allowed.

(5) All projects shall provide a community impact and needs analysis with review and approval from city council or its designee.

(6) For affordable developments, off-street parking requirements may not exceed 2 spaces for every 3 units.

(Ord. No. 04-03072016, 5-16-2016; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 07-05202019, 6-3-2019; Ord. No. 29-06212021, 7-19-2021; Ord. No. 20-09062022, § 3, 9-19-2022; Ord. No. 02-02132023, 2-17-2023)

Sec. 60-608. Parking requirements.

A minimum number of off-street parking spaces shall be provided with each residential use permitted, erected, altered or changed, in accordance with the following standards:

Off-street land use	Minimum number of parking spaces
Residential	
Single-family; farm	1 dwelling per unit
Multifamily; two-family	1 dwelling per unit
Elderly**	One-half per dwelling unit
Affordable housing developments pursuant to 30-A MRSA §4364 (L.D. 2003 Public Law).	Off-street parking requirement may not exceed 2 spaces for every 3 units.
**Applies to elderly housing as constructed under special local, state or federal guidelines restricting occupancy to elderly persons.	

(Ord. of 9-21-2009, § 4.1B; Ord. No. 28-06212021, 7-19-2021)

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Accessory structure or building means a~~n uninhabited~~ building, at least five feet in distance from the principal building, used for a purpose which is customarily subordinate and incidental to that of the principal building or to the principal use of the land and which is located on the same lot as the principal building use. The term "accessory buildings," in residential districts, includes tool sheds, wood sheds, detached garages and swimming pools. No accessory building shall house a home occupation or professional office or be used as a sales outlet in a residential district.

Accessory dwelling unit means a self-contained dwelling unit not to exceed 1,500 square feet, that can be located within, attached to or detached from a single-family dwelling unit located on the same parcel of land.

Formatted: Font: 10 pt, Italic

Formatted: Font: 10 pt

Formatted: Font: 10 pt

Formatted: Paragraph 1

Accessory use means a subordinate use of land or building which is customarily incidental and subordinate to the principal building or to the principal use of the land and which is located on the same lot with the principal building or use.

Adaptive reuse means a special exception permitting a structure of community significance to be used for one or more purposes, not otherwise permitted in the district in which the building is located, but which the planning board has determined will contribute to the preservation of a structure of community significance, including without limitation, the following uses:

(1) Bed and breakfast homes or inns;

(2) Restaurants, diners or cafes;

(3) Art studios and galleries;

(4) Performing arts centers;

(5) Medical and dental clinics;

(6) Office space;

(7) Municipal and government uses; and

(8) Retail sales as an accessory use.

Adult day center means a supervised facility providing a program of education, crafts or recreation for adults over the age of 55 years.

Affordable Housing Developments as is defined in 30-A MRSA §4364 (L.D. 2003 Public Law).

Animal unit means one living animal of any species.

Antique shop means a building, or portion of building, where artifacts from generally recognized previous eras are sold or traded as the primary commercial activity.

Apartment. See the term *Dwelling unit.*

Architectural features means exterior building elements intended to provide ornamentation to the building massing, including but not limited to, eaves, cornices, bay windows, window and door surrounds, light fixtures, canopies, and balconies.

Art galleries means a building or place where works of art or other objects of value are kept, displayed, produced and offered for sale to the general public.

Artist studio, residential means a dwelling where up to 50 percent of the total floor space can be used for the production of art and/or craft products. The term "residential artist studio" shall not include galleries or studios open to the public for display or sales. All artist studios shall be designed to meet all residential safety and occupancy requirements and shall be considered to be accessory to the residential use.

Automobile means a passenger vehicle propelled by a self-contained motor. The term "automobile" also includes motorcycles, all-terrain vehicles, trucks and recreation vehicles (RVs).

Automobile and marine paint and body shops means a building in which the business of automobile and marine paint and bodywork is conducted. Such use may also include as an accessory use a facility for the orderly display and sale of vehicles which have undergone substantial body repair on the premises. No such facility shall display, outdoors or indoors, or offer for sale more than ten vehicles at any one time.

Automobile and marine repair and service station means a building, lot or both in or upon which the business of general motor repair and vehicle service is conducted, but excluding junk and/or wrecking businesses.

Automobile, commercial, means a vehicle the primary use of which is commercial in character.

Automobile filling station means a building or lot having pumps and storage tanks at which fuel, oil or accessories for the use of motor vehicles are dispensed, sold or offered for sale at retail, where repair service is incidental and no vehicle storage or parking space is offered for rent.

Automobile garage, private, means an accessory building or portion of a main building designed, arranged or used for housing of private motor vehicles, only one of which may be a commercial vehicle. Not more than 50 percent of the space in such a garage shall be used for housing vehicles other than those owned by occupants of the premises.

Automobile parking lot, private, means a parcel of land, lot or portion thereof required, in accordance with these regulations, for off-street automobile parking.

Automobile repair and service station means a building, lot or both in or upon which the business of general motor vehicle repair and service is conducted, but excluding junk and/or wrecking business.

Automobile sales lot means a lot arranged, designed or used for the storage and display of motor vehicles or any unoccupied trailer for sale.

Automobile scrap yard means any land or building used for the dismantling, storage and salvaging for reuse of automobiles or other vehicles not in running condition.

Automotive towing and storage means a business engaged in/or offering the services of a towtruck or towing service whereby motor vehicles are towed or otherwise removed from one place to another by the use of a motor vehicle specifically designed for that purpose. Storage of towed vehicles is considered to be the keeping of vehicles in a secured yard for not more than 120 days until claimed or disposed of in accordance with the laws of the state.

Basement means that portion of a building below the first floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Bed and breakfast home means an accessory use to a single-family dwelling involving the renting of four or fewer guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast only to house guests. Such establishment shall be owned and operated by the resident of the dwelling. The term "bed and breakfast home" also includes a tourist home.

Bed and breakfast inn means a dwelling involving the renting of more than four but fewer than ten guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast to house guests only. Such use may provide a restaurant, function rooms and places of public assembly.

Boardinghouse or *lodginghouse* means a dwelling which, for compensation, lodging, or lodging and meals are provided to more than four persons and where a proprietor or owner may reside in the building. No provisions for cooking in individual rooms other than a main kitchen is allowed.

Building means a structure having one or more stories and a roof, designed primarily for the shelter, support or enclosure of persons, animals or property of any kind. (See the term *Structure.*)

Building envelope means the ground area on a lot and the space above it on which a building may be constructed.

Building form means the overall shape and dimensions of a building.

Building height means the vertical distance from the grade of the top of the highest roof beams of a flat roof, or to the mean level of the highest gable or slope of a hip roof. When a building faces on more than one street, the height shall be measured from the averages of the grades at the center of each street front.

Building inspector means the building inspector of the City of Auburn, Maine, or their duly authorized agent.

Building line means a line beyond which the foundation wall and/or any enclosed porch, vestibule of other enclosed portion of a building shall not project.

Building, principal, means a building in which is conducted the principal use of the lot on which it is situated.

Care home means a rest, nursing, or convalescent home established to render domiciliary nursing care and board for chronically ill or convalescent patients, or persons who are infirm because of mental or physical conditions, but excluding a child care home or one for the care of mentally retarded patients, alcoholics, psychotics or drug addicts.

Cellar means that portion of a building below the first floor joists having at least one-half of its clear ceiling height below the mean level of the adjacent ground. A cellar shall not be used for habitation.

Cemetery means a place used for the permanent interment of dead bodies or cremated remains thereof. A cemetery may be a burial park of earth interments, a mausoleum for vault or crypt interments, a columbarium for cinerary interments, or a combination of one or more thereof.

Child care home means a child boarding home, summer camp, foster family home or other place providing domiciliary arrangements for compensation, of three or more children, unrelated to the operator by blood, marriage or adoption, under 18 years of age. A facility providing child day care less than 24 hours per day, per child, to more than five children shall not be considered a child care home. The term "child care home" includes any family-type facility which provides child care to children placed by order of any court of competent jurisdiction, or by any public welfare department, or other governmental agency having responsibility for placing children for care, or placed by child-placing agency licensed under state law.

Child day care center means a facility conducted or maintained by anyone who provides, for consideration, care and protection for more than 12 children under 16 years of age, unrelated to the day care center operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care center, but is classified as a nursery school.

Child day care home means an accessory use of a residence by a person residing on a premises to provide on a regular basis, and for consideration, care and protection for up to 12 children under 16 years of age, unrelated to the day care home operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care home, but is classified as a nursery school. A child day care home shall not be located closer to another child day care home than 500 feet measured along the street frontage. Child day care homes shall be reviewed under the city's home occupation regulations (article IX of this chapter) and shall meet the following:

(1) All outdoor play areas, used in conjunction with the day care operation, shall be fully enclosed by a fence, a minimum of four feet in height.

(2) If the property utilizes a private sewerage disposal/septic system a written verification from a site evaluator, stating that the current system can handle the change of use to include the children in the proposed day care, shall be submitted.

Church means a building, together with its accessory buildings and uses, where persons regularly assemble for religious worship, and which buildings, accessory buildings and uses are maintained and controlled by a religious body organized to sustain public worship.

Clinic means an establishment where patients are accepted for treatment by a group of physicians practicing medicine together, but shall not offer domiciliary arrangements; medical and dental.

Club, private, means any building or rooms, which serve as a meeting place for an incorporated or unincorporated association for civic, social, cultural, religious, literary, political, recreational or like activities, operated for the benefit of its members and not open to the general public.

Community based residential facilities (CRF) means dwelling units providing communal domiciliary arrangements for a group of unrelated persons under supervision of the state government human service agencies, for the transition of formerly institutionalized persons back into the mainstream community living and participation, a halfway house, or a group home.

Comprehensive plan means the master development plan of the City of Auburn, Maine, any amendments or additions thereto, part or portion thereof adopted by the city council upon recommendations of the planning board of Auburn, Maine, pursuant to 30-A M.R.S.A. § 4323.

Conservation cemetery means a type of natural cemetery that includes a conservation management plan that upholds best practices, and provides perpetual protection of the land according to a conservation easement or deed restriction. Burials in conservation cemeteries utilize non-toxic and biodegradable materials.

Convenience store means a business establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table, other articles of household use and gasoline pump service is offered for sale. Such a use may include the sale of food vended in disposable containers for consumption on or off the premises.

Correctional institution means a publicly or privately operated facility generally designed for the confinement, correction, and rehabilitation of adult and/or juvenile offenders sentenced by a court.

Court means an open, unoccupied space, other than a yard, on the same lot with a building or group of buildings which is bounded on two or more sides by such building or buildings and every part of which is clear and unobstructed from its lowest point to the sky.

Dental clinic means an establishment where patients are accepted for treatment by a group of dentists practicing dentistry together.

Detention facility. In the case of an adult or juvenile, "detention" means the confining of an adult or juvenile held in lawful custody in a specially constructed or modified facility designed to ensure continued custody and control. "Detention" may be confinement before trial or another hearing by a court or confinement to serve court-imposed sentences or dispositions and may be in a step-down, jail, half-way house or lock-up facility.

Development standard(s) means building standards that establish basic parameters governing building form, including the envelope for building placement in three dimensions and certain permitted and required building elements such as storefronts, balconies, street walls, etc. The development standards establish both boundaries within which development may take place and what requirements apply.

Director means the director of planning and any successor or other official designated from time to time by the city council to enforce the provisions of this chapter.

District or *zone* means an area within which certain uses of land and buildings are permitted or denied pursuant to municipal review, and certain others are prohibited.

District, overlay, means a special district or zone which addresses special land use circumstances and environmental safeguards and is superimposed over the underlying existing zoning districts. Permitted uses in the underlying zoning district shall continue subject to compliance with the regulations of the overlay zone or district.

Dormitory means a building or portion thereof used for sleeping purposes in connection with a school, college or other educational institution.

Driveway means private ways intended for internal vehicular circulation on a lot or within an automobile parking lot.

Dump means any premises used primarily for disposal by abandonment, discarding, dumping, reduction, burial, incineration or any other means and for whatever purpose of garbage, trash, refuse, dead animals, waste materials of any kind, junk; but not untreated sewage, animal waste, discarded machinery, or vehicles or parts thereof. The establishment of any dump shall be approved by the city council of the City of Auburn.

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

Dwelling, one-family attached, means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. Each one-family attached accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S.A. 9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, one-family detached, means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. Each one family detached dwelling unit must be at least 400 square feet above grade in size, and an accessory detached dwelling unit must be 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S.A. 9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Eave means the edge of a roof which projects beyond the exterior wall.

Encroachment means any architectural feature, structure or structural element, such as a gallery, fence, garden wall, porch, stoop, balcony, bay window, terrace, or deck that breaks the plane of a vertical or horizontal regulatory limit exceeding into a setback, the public frontage, or above a height limit.

Erected includes the terms "built," "constructed," "reconstructed," "enlarged" and/or "retained on."

Facade means the vertical surface of a building.

Family means one or more persons occupying a single housekeeping unit and using common cooking facilities, provided that unless all members are related by blood or marriage, no such family shall contain over four persons.

Farm means any parcel of land which is used in the raising of agricultural products, livestock or poultry, or for dairying.

Farm, livestock, means any parcel of land that contains at least the following land area used for the keeping of horses, mules, donkeys, cattle, goats, sheep, swine and similar sized animals for the agricultural use of the residents of the lot, provided that there is a minimum of 1 acre of land as required by Chapter 8 Animals and adequate land area is provided for each animal unit, excluding water bodies of one-quarter acre surface area or larger:

(1) Cattle: One bovine animal unit per acre of cleared hay-pasture land.

(2) Horse: 1.5 animal units per acre of cleared hay/pasture land.

(3) Sheep: Three animal units per acre of cleared hay/pasture land.

(4) Swine: Two animal units per acre of cleared land.

(5) Other livestock farms: The required lot size shall be determined by municipal officer charged with enforcement and shall conform to the lot size for similar sized animals.

Floodplain overlay means those areas of the city which are directly affected by flooding as shown on the flood insurance rate maps (FIRM) as established by the Federal Emergency Management Agency and that shall comply with the pertinent regulations found in division 2 of article XII of this chapter pertaining to the Floodplain Overlay District.

Floor area of building means the total number of square feet of floor area of all stories in a building, excluding cellars, uncovered steps and uncovered porches. All horizontal measurements shall be made between exterior faces of walls.

Form based code means a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code.

Form based code zoning district means one of the five areas on the regulating plan, including Transect 4.1 (T-4.1), Transect 4.2 (T-4.2), Transect 5.1 (T-5.1), Transect 5.2 (T-5.2), and Transect 6 (T-6).

Frontage means the length of a lot extending between the side lot lines of a lot which borders an accepted portion of a street. Maine Turnpike frontage does not apply to this definition.

Frontage line means the lot line(s) of a lot fronting a street or other public way.

Government offices means a room or group of rooms used for conducting the affairs of a government entity, not entailing the sale of goods except that which is clearly incidental.

Government services, for the purposes of this chapter, includes the functions performed by the various government agencies in the city. Government services include the following: government administration, courts, public schools, postal services, public works and municipal utilities.

Greenhouse means an enclosed structure where trees, shrubs, vines and plants are propagated, grown or maintained. Activities associated with a greenhouse include:

(1) The sale of greenhouse products and related supplies; and

(2) The storage of material used in the maintenance of plants and growing items sold.

Grocery store means a small retail establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table and other articles of household use are offered for sale. Such a use

may include the sale of food vended in disposable containers for consumption on or off the premises; a corner market, a mom and pop store.

Ground area of building means the total number of square feet of horizontal surface covered by a building, including covered porches and accessory buildings. All measurements shall be made between exterior faces of walls, foundation, piers or other means of support.

Group home. See the term *Community based residential facilities.*

Guesthouse means a detached dwelling that is intended, arranged or designed for occupancy by transient, nonpaying visitors.

Habitable space means that area within a dwelling which has headroom of not less than seven feet when measured vertically upward from the finished floor, provided that any such area next below the roof of a dwelling shall be counted only if it is connected with the story next below by a permanent inside stairway. The floor area of any porch, cellar room, garage or shed attached to such dwelling shall not be counted in any measure of habitable space.

Half-story means a story directly under a sloping roof in which the points of intersection of the bottom of the rafters with the interior faces of the walls are less than three feet above the floor level.

Historic site means a parcel of land, a particular building, or a group of buildings that have played a significant role in the history of the community, and identified as such by the state historic preservation committee.

Historic or archaeological resources means areas identified by a governmental agency such as the state historic preservation commission as having significant value as historic or archaeological resources and any areas identified in the municipality's comprehensive plan.

Hog farm means any land or building used for the purpose of keeping, feeding or raising 20 or more swine per piggery. Establishment of this use requires approval from the city health department.

Home occupation means the accessory use of a dwelling unit for a business or commercial venture engaged in, by the person residing in the dwelling unit, and which allows up to one person who does not reside on the premises to be employed by that home occupation.

Hospital means any institution receiving inpatients and rendering medical, surgical and/or obstetrical care. The term "hospital" includes general hospitals and institutions in which service is limited to special fields such as cardiac, eye, nose and throat, pediatric, orthopedic, skin, cancer, mental health, tuberculosis, chronic disease and obstetrics. The term "hospital" also includes sanitariums, including those wherein mentally retarded and mental patients, epileptics, alcoholics, senile psychotics or drug addicts are cared for or treated.

Hotel means a building in which the primary use is transient lodging accommodations offered to the public on a daily rate of compensation and where ingress and egress to the sleeping rooms is primarily through an inside lobby or office, supervised by a person in charge at all hours. Such facilities may include accessory uses such as restaurants, bars, nightclubs, function rooms, places of public assembly and/or recreational facilities.

Household pet means any animal kept as a pet and normally housed at night within the owner's dwelling or an accessory building on the same lot, including laying hens, but not including any animal normally raised as livestock or poultry or any animal raised for commercial gain. No household pet shall be kept that creates a public nuisance by reason of:

(1) Objectionable effects perceptible outside the owner's property, such as excessive or untimely noise or offensive odors; or

(2) Being a hazard to the health, safety and welfare of neighbors, invited guests or public servants visiting the property in the pursuit of their normal duties.

Illustrative plan means a plan or map that depicts (i.e. Illustrates but does not regulate) the streets, lots, buildings and general landscaping of the proposed Downtown Auburn/New Auburn Form-Based Code District.

Industrial use, heavy, means the use of real estate, building or structure, or any portion thereof, for assembling, fabricating, manufacturing, packaging or processing operations.

Industrial use, light, means the use of real estate, building or structure, or any portion thereof, for manufacturing or fabrication which will not create a nuisance by noise, smoke, vibration, odor or appearance.

Institution means any building or open area used only by an educational, religious, medical, charitable, philanthropic, or nonprofit organization, either public or private.

Institution, philanthropic, means a private, nonprofit organization that is not organized or operated for the purpose of carrying on a trade or business, no part of the net earnings of which inures to the benefit of any member of said organization and which either:

(1) Provides volunteer aid to the sick and wounded of the armed forces in time of war and relief services to victims of natural or manmade calamities; or

(2) Provides all or any of the following: religious, social, physical, recreational and benevolent service.

Institution, private educational, means any private school or educational institution, however designated, which offers an academic curriculum of college, professional, preparatory, high school, middle school, elementary, kindergarten or nursery school instruction, or any combination thereof; but not a training program of trade, craft, technical or artistic instruction operated by a governmental entity. No private educational institution shall be deemed a home occupation. (See the terms *Training school* and *School.*)

Institution, research, means an agency for scientific research of technical development including offices, libraries, laboratories, testing facilities and equipment incidental to such research and development.

Jail means a specially constructed or modified facility designated by law or regularly used for detention for a period of up to 12 months.

Junkyard or*automobile graveyard* means any land or building used for the abandonment, storage, keeping, collecting or bailing of paper, rags, scrap metal, other scrap or discarded material, or for the abandonment, demolition, dismantling, storage or salvaging of automobiles or other vehicles not in running condition, machinery or parts thereof. Establishment and operation of this use requires annual approval from the City Council of Auburn, Maine.

Kennel means any building and/or land used, designed or arranged for the boarding, breeding or care of dogs, cats, pets, fowl or domestic animals, kept for purposes of show, hunting or as pets, except horses.

Land use permit means a permit required for the use of property that is legally permitted under the provisions of this chapter.

Landscape services means the actual planting, bed preparation, installation of landscape materials and maintenance of the landscape, planting and materials. Activities associated with landscaping include: the storage of materials and equipment related to the performance of landscaping, the temporary storage of trees, shrubs and plants pending installation in an existing landscape plan and the application and storage of pesticides and fertilizers by a licensed person.

Lawn maintenance service means the care and upkeep of the landscape after its installation and consists of such activities as mowing of the lawn, pruning of trees and shrubs, application by hand of fertilizer and weed control, insect and disease control, planting and care of flower beds, replacement of dead plants, incidental repairing of walls and paved surfaces, cleaning of fountains and pool basins, irrigation of lawns, cultivation of soil around trees and shrubs, rolling and reseeding of lawns, raking of leaves, winterization of trees and shrubs and snow removal.

Library means a place containing books and other material for reading, study or reference, provided that no such material is offered for sale.

Livestock means, but may not be limited to, any horses, mules, donkeys, cattle, goats, sheep, or swine.

Lock-up facility means a facility designated by law or regularly used for detention for a temporary period before trial or transfer to a jail or other facility.

Lodge, private. See the term *Club, private.*

Lot means for zoning purposes, as covered by this chapter, a lot is a parcel of land under one ownership or joint ownership of at least sufficient size to meet minimum zoning requirements for use, coverage and area, and to provide such yards and other open spaces as are herein required. Such lot shall have frontage on an accepted public street and may consist of:

(1) A single lot of record;

(2) A portion of a lot of record;

(3) A combination of complete lots of record;

(4) A parcel of land described by metes and bounds; provided that in no case of division or combination shall any residential lot or parcel be created which does not meet the requirements of this chapter;

(5) Lots shown on a plan approved by the planning board of the City of Auburn.

Lot frontage/width means the front of a lot shall be construed to be the portion nearest the street. For the purpose of determining yard requirements or corner lots and through lots, all sides of a lot adjacent to streets shall be considered frontage, and yards shall be provided as indicated under the definition of yards in this section.

Lot line, rear, means the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said front lot line.

Lot measurements means the following measurements:

(1) The depth of a lot shall be considered to be the uninterrupted distance between the midpoints of lot frontage and the midpoint of the rear lot line unless the lot meets the exception provided for by section 60-39.

(2) The width of a lot shall be considered to be the distance between straight lines connecting front and rear lot lines at each side of the lot, measured across the rear of the required front yard, provided, however, that the width between the side lot lines at their foremost points (where they intersect the street line) shall not be less than 80 percent of the required lot width except in the case of a lot on the turning circle of a cul-de-sac, where the 80 percent requirement shall not apply.

Lot of record means a lawfully laid out lot which is part of a subdivision recorded in the proper office of the registry of deeds, or a lawfully laid out lot or parcel described by metes and bounds, the description of which has been so recorded.

Lot types means the diagram which follows illustrates terminology used in this chapter with reference to corner lots, interior lots, reversed frontage lots and through lots. In the diagram above, the lots designated by letters are defined as follows:

(1) Corner lot, defined as a lot located at the intersection of two or more streets. A lot abutting on a curved street or streets shall be considered a corner lot if straight lines drawn from the foremost points of the side lot lines to the foremost points of the side lot lines to the foremost point of the lot meet at an interior angle of less than 135 degrees. (See lots marked A(1) in diagram)

(2) Interior lot, defined as a lot other than a corner lot with only one frontage on a street other than an alley.

(3) Through lot, defined as a lot other than a corner lot with frontage on more than one street other than an alley. Through lots with frontage on two streets may be referred to as double frontage lots.

(4) Reversed frontage lot, defined as a lot in which the frontage is at right angles or approximately right angles to the general pattern in the area involved. A reversed frontage lot may also be a corner lot or an interior lot. (See A-D and B-D in diagram.)

Lot, undersized, means for zoning purposes, as covered by this chapter, an undersized lot is a parcel of land of insufficient size to meet minimum zoning requirements for area or width or depth.

Major or principal arterial highway means the highway that:

(1) Serves the major traffic movements within urbanized areas such as between central business districts and outlying residential areas, between major intercity communities, or between major suburban centers;

(2) Serves a major portion of the trips entering and leaving the urban area, as well as the majority of the through traffic desiring to bypass the central city;

(3) Provides continuity for all rural arterials which intercept the urban area. The term "major or principal arterial highways" includes Washington Street (State Routes 4 and 100, U.S. 202), Minot Avenue (State Routes 11 and 121), Union Street/Center Street/Turner Road (State Route 4), Veterans Memorial Bridge and approaches (State Routes 11 and 100, U.S. Route 202), North Bridge/Court Street to in town Minot Avenue Intersection (Turner Street), Court to Center Street (State Route 4).

Major recreational use of land means permanent use of at least 100 acres of outdoor space limited to ski areas with at least two lifts and public and private golf courses with a minimum of 18 holes.

Major retail development means a single building in excess of 100,000 square feet of new ground floor retail space.

Manufactured housing means a structural unit designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site. The term "manufactured housing" includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. The term "manufactured housing" includes newer mobile homes and modular homes.

Mining, quarrying, or *earth removing* means the excavation of any earth materials.

Minor arterial highway means the highway that:

(1) Serves trips of moderate length at a somewhat lower level of travel mobility than principal arterials;

(2) Provides access to geographic areas smaller than those served by the major arterial highway system; and

(3) Provides intra-community continuity but does not penetrate identifiable neighborhoods. Examples are Riverside Drive, Mill Street, South Bridge (Broad Street to Mill Street), Main Street, Mechanics Row, High Street (Minot Avenue to Academy Street), Academy Street (High Street to Main Street), Elm Street, Spring Street (Minot Avenue to Court Street), Turner Street (Union Street to Turner Road), Mount Auburn Avenue (Center Street to Turner Street), Lake Street, Court Street (Union Street to in town Minot Avenue Intersection), Hotel Road (Manley Road to Poland Spring Road).

Mobile home development, intended to be generic, includes mobile home parks, mobile home subdivisions, and mobile home condominiums.

Mobile home park means a parcel of land under single ownership in rural residence and suburban residence districts which has been planned and improved for the placement of not less than three mobile homes for nontransient use.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width and are 400 or more square feet and which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

Motel means a building or group of detached buildings intended primarily to provide sleeping accommodations to the public on a daily rate of compensation and having a parking space generally located adjacent to a sleeping room. Such facilities may include a main kitchen or snack bar for the use of motel guests only.

Municipal or public utilities and communications facilities means the use of land for public utility purposes by an entity providing pipeline, gas, electrical, telephone, telegraph, water, or sewage service. "Public utility" also includes the use of land for utility purposes, whether or not owned, controlled, or operated by a public entity, whose services are performed for or commodities delivered to the public or any portion thereof. Facilities that provide for the transmission, transfer, and distribution of telephone service and related activities that are not a minor or major utility facility. For the purposes of the chapter, a municipal or public utility or communications facility includes, but is not limited to, the following: a private telephone company or paging service, any utility regulated by the Maine Public Utilities Commission, and any other commercial communications tower.

Municipal sanitary landfill means a disposal site for household, commercial and industrial wastes, sludge or incinerator ash operated or controlled for operation by the city in a controlled manner involving the covering of deposited wastes with layers of earth so as to reduce health hazards and public nuisances from vermin, insects, odors and wind-borne debris. The location and design of sanitary landfills also require precautions against ground and surface water contamination through clay lining, water impoundment, aquifer avoidance and similar techniques.

Municipal uses means any lawful use of a building or of land carried on by the city sanitary landfill shall not be deemed a municipal use.

Museum means a building or place where works of art or other objects of permanent value are kept and displayed, provided such objects are not offered for sale.

Natural resource uses means uses that utilize naturally occurring assets such as air, water, soils, fuel, minerals, plants or animals to provide public benefit through the provision of raw materials and/or energy.

Nonconforming building means a building lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming lot means a lot lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming use means a use of a building or of land lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform with the use regulations of the district in which it is located.

Nursery means an outdoor place where live trees, shrubs, vines and plants are propagated, grown or maintained before permanent planting. Activities associated with nursery a business include: the sale of nursery products and related gardening supplies, the storage of material used in the maintenance of plants and growing items sold and the use of power-motorized equipment required by the nursery.

Nursery, child, means a facility providing a program less than 24 hours per day per child for the care of infants up to the age of 2½ years.

Nursery, wholesale, means a nursery where plants, trees, shrubs and vines are propagated and/or grown and sold only at wholesale to industry related buyers such as retail nurseries, greenhouses and landscape contractors. A wholesale nursery may also provide landscape services accessory to the nursery use provided.

(1) At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner; and

(2) The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

Office means a building, or portion of a building wherein services are preformed involving predominantly administrative, professional or clerical operations.

Office trailer means a movable vehicle or structure designed for year round or temporary occupancy for purposed of supervising construction; for business actually engaged in the business of selling manufactured housing, mobile homes and trailers; and as temporary office space for a business during the period in which permanent office space is being constructed.

Open space, common means land within or related to a development which is not individually owned and is designed and intended for the common use or enjoyment of the residents of a development and may include such complementary structures and improvements as are necessary and appropriate.

Outpatient addiction treatment clinic means a program or facility operated for the purpose of and specializing in the care, treatment and/or rehabilitation of persons suffering with addictions, including but not limited to gambling addition, alcohol or controlled substance addictions. The term "outpatient addiction treatment clinic" includes, but is not limited to, substance abuse treatment programs licensed by the State of Maine Department of Behavioral and Developmental Services Office of Substance Abuse. An outpatient addiction treatment clinic shall not be located within 2,000 feet of any property that is occupied by a church, school, family day care home, small day care facility, day care center, or public park or playground on the date of application for a license for such a facility. The term "outpatient addiction treatment clinic" does not include an inpatient or residential addiction treatment program, or a program consisting solely of support group activities without treatment by licensed health practitioners, such as Alcoholics Anonymous, Narcotics Anonymous, and similar programs.

Parapet means a low wall along the edge of a roof or the other portion of a wall that extends above the roof line.

Parking space, off-street, means a rectangular area, not less than nine feet by 18 feet, forming a parking stall within or without a structure, not located in any public right-of-way.

Performing arts center means a public or private space used to create and present various performing and visual arts. For the purposes of this definition, the term "performing arts center" also includes educational and training uses associated with the various performing and visual arts.

Personal services means the furnishing of labor, time and effort by a person as an independent contractor not involving the delivery of a specific end product.

Place of worship see definition of church.

Planning board means the planning board of the City of Auburn, Maine.

Primary entrance means a section of building elevation which contains the street level principal entrance of the business, including the businesses on upper floors or in a basement.

Principal use means the principal use for which a lot or main building thereon is designed, arranged or intended and for which it is or may be used, occupied or maintained.

Professional office means rooms and/or buildings used for office purposes as the principal use by members of any recognized profession, including doctors, dentists, lawyers, accountants, engineers, architects, veterinarians, etc.

Public safety services means facilities operated by public agencies to provide services relating to the general health, safety, and welfare of the population, including but not limited to fire stations and other fire prevention and firefighting facilities; police and sheriff substations and headquarters; and emergency response services, excluding correctional facility, interim incarceration, lock-up or jail facilities.

Realm, private means the physical and social domain that is considered private by their physical location and visual association being away from public view. This is considered areas behind the front building facade along with side and rear yard areas.

Realm, public means the physical and social domain of the public that is held in common either by their physical presence or visual association. This includes but is not limited to sidewalks, plazas, squares, parks, streets, front yards, civic buildings and civic spaces.

Recreational uses of land means permanent uses of outdoor space which are intended or designed for public use and include but are not limited to ski areas, golf courses (both public and private), driving ranges, horse boarding and riding facilities, miniature golf, paintball, horse and dog racing, snowmobile races, sports field complexes lager than one acre in area, health and wellness centers, motorhome or recreational vehicle parks or commercial campgrounds, and facilities for wedding or event venues when used for two or more events during a calendar year, or facilities for mass gatherings when used for two or more events during a calendar year. See also *major recreational use of land* and *recreational uses of land, small-scale.*

Recreational uses of land, small-scale means permanent uses of outdoor space that are intended or designed for public use that are smaller or lower impact than other types of recreational uses of land, and include, but are not limited to, trails, water access or boat access facilities, foraging, outdoor education or training facilities, sports field complexes one acre or less in area, and public gardens.

Regulating plan means the adopted map that shows the Form Based Code zoning districts, which correspond to the special requirements of the form based code.

Restaurant means an eating place in which food is prepared and vended for immediate consumption on the premises without further preparation by the customer. The takeout of food on an infrequent basis is not prohibited.

Restaurant, carry-out, means an eating place in which all food is vended in disposable containers for consumption on or off premises at the customer's choice; a fast-food restaurant.

Restaurant, drive-in, means an eating place in which the business transacted is conducted by a customer from within his automobile or in which consumption of goods sold normally takes place within the customer's automobile on the establishment's premises.

Retail means a principal use encompassing the sale of commodities or goods in small quantities directly to the consumer. The term "retail" sales does not include sales of professional, financial and governmental services and personal services, including but not limited to a hotel and its accessory uses (restaurants, salons, gift shops, recreational facilities, convention space, etc.).

Retail space means the areas of a building, within a climate controlled environment, devoted to the display of commodities or goods for sale directly to the consumer and including customer sales transaction areas and areas associated with customer access.

Rifle, pistol, skeetor trap shooting range means a rifle, pistol, skeet or trap shooting range operated by an individual or club. Such a range may be opened to the general public or developed for the exclusive use of the individual, or club and invited guests.

Road means any public or private traveled way or any portion thereof.

Roof means the covering for a building which is an integral part of the structure for the purpose primarily of protecting the interior of the building or covering a porch or other similar permanent portion thereof, excluding awnings, stoop coverings, or similar additions which are removable without substantially impairing the original structure.

Sawmill means a unit designed to saw logs into lumber, firewood or other processed wood products.

School means an educational institution offering an academic curriculum; not the teaching of the crafts or a training school offering a program of trade, technical instruction or physical education. (See the term *Training school.*)

Shared housing means housing consisting of two or more families occupying a single dwelling and using common cooking facilities. Shared housing shall permit the same number of families at the same density as allowed in the zoning district where the property is located subject to all applicable codes relating to building, housing, life safety, health and zoning as would be applied to independent living units located in the same structure. Approval for shared housing shall be secured from the department of community development and planning subject to the codes and ordinances indicated in this definition, prior to establishing a shared housing arrangement in any building.

Shelter for abused persons means dwelling facilities complying with the laws administered by the state government human services agencies, providing temporary domiciliary arrangements for children and adults unable to protect their own interest and welfare because of critical family circumstances.

Shopping center or*office mall* means a planned integrated complex of three or more retail stores and/or offices sharing a common structure and developed according to a unified plan. Such uses may include a common pedestrian circulation system and off-street automobile parking facilities.

Sign means any device, display surface, structure or object in public intended for visual communications.

Sign, mobile mounted, means a temporary sign which is mounted or for mounting on wheels or a mobile platform or which is portable.

Sign, official business directional, means any off-premise sign permitted to be erected pursuant to article II of chapter 42.

Sign, on-premises, means any sign that advertises, calls attention to, or indicates the person occupying the premises on which the sign is erected or maintained or the business transacted thereon, or advertises the property itself or any part thereof as for sale or rent, and which contains no other matter.

Sign, standing, means any sign that is not attached to a building.

Sign, temporary, means any movable sign, including its supporting structure, intended to be maintained for not more than 90 days in any calendar year.

Site-built home means a building constructed on-site which is designed to be used as a dwelling on foundations, when connected to the required utilities.

Slaughterhouse (abattoir, dressing plant) means any building, place or establishment in which is conducted the slaughtering of livestock and/or poultry for commercial purposes.

Special exception means a use that would not be appropriate generally or without restriction throughout the district, but which, if controlled as to number, area, location or relation to the neighborhood, would promote the public health, safety, welfare, order, comfort, convenience, appearance, prosperity, or general welfare. Such a use may be permitted in such district as a special exception, if specific provision for such special exception is made in this zoning chapter and reasonable restrictions imposed by the planning board are complied with.

Specialty shop means a retail business offering products of a similar kind and nature designed for a particular use, purpose or occasion and distinguished from a store offering the same type of product together with other products of a nonhomogeneous quality.

Stable, riding, means any building or structure used or designed for boarding, breeding or care of horses, other than horses used for farming or agricultural purposes.

Standing means a person who holds title, right or interest in a property which may include a written option, contract to purchase the property or a leasehold interest or may be a person who can show how his actual use or enjoyment of property will be adversely affected by the proposed decision as an abutter as defined in section 60-1473.

Story means that portion of a building between the surface of any floor and the surface of the other floor or roof next above it, but not including the lowest portion so contained if more than one-half of such portion vertically is below the mean finished grade of the ground adjoining such building unless such space is used for business or as habitable space, in which case it shall count as a story.

Story, half, means a story under the gable, hip or gambrel roof, the plates of which on at least two opposite exterior walls are more than two feet above the floor of such story.

Street means the following:

(1) A public way laid out and established by the state, county commissioners of the County of Androscoggin;

(2) A way accepted by the municipal officers of the city;

(3) A way as to which a petition for improvements has been allowed under the provisions of this chapter for which the cost of the improvements has been provided for by the developer in either a cash amount or as provided for in this chapter; or

(4) A way on a plan of a subdivision duly approved by the planning board.

Street frontage. See the term *Frontage.*

Street line means a line defining the edge of a street right-of-way separating the street from abutting property or lots.

Street, primary means the street that is considered to be more intensely used than the other on a corner or double sided lot.

Street, secondary means the street that is considered to be less intense to the other on a corner or double sided lot.

Structure of community significance means a building that by virtue of its historic, social, cultural or economic contribution to the community, as determined by the planning board, is entitled to a special exception allowing its adaptive reuse. The planning board may consider a building's age, as well as any evidence of its role in the historic, social cultural, or economic history of the community, in determining whether a building qualifies for this designation.

Structure or *building* means a combination of materials to form a construction that is safe and stable including, among other things: stadia, reviewing stands, platforms, automobile parking garages, stagings, windmills, observation towers, trestles, sheds, coal bins, shelters and display signs, but not fences of any kind.

Subdivision means a division of land as defined in 30-A M.R.S.A. § 4401.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations not exceeding 30 days.

Supermarket means a retail establishment having an interior selling space of 3,000 square feet or more where general food supplies for the table and other articles of household use are offered for sale.

Swimming pool means any manmade receptacle or excavation housing a surface area of 250 square feet, or more, designed to hold water to a depth of at least 24 inches, primarily for swimming or bathing whether in the ground or above the ground.

Theater, indoor, means a building designed and/or used primarily for the commercial exhibition of motion pictures or plays to the general public.

Theater, outdoor, includes only those areas, buildings or structures designed and used for the commercial outdoor exhibition of motion pictures to passengers in parked motor vehicles.

Tourist home. See the term *Bed and breakfast home.*

Townhouse means a single-family dwelling unit that is one of two or more residential buildings having a common or party wall separating the units.

Trailer or *RV* means any vehicle or structure, except a device exclusively used upon stationary rails or tracks, mounted on wheels for use on highways and streets; propelled or drawn by its own or other motor power; and designed and constructed to provide living and/or sleeping quarters for one or more persons or for the conduct of a business, profession, trade or occupation for use as a selling or advertising device. If the wheels of a trailer are removed, except for repairs, it is deemed a building subject to all the regulations thereof. A trailer shall not be considered an accessory building.

Trailer home means a travel trailer, camping trailer or other similar vehicle capable of being hauled by a passenger automobile or light truck and designed primarily for temporary occupancy for recreational purposes or other seasonal use. A trailer home shall not be considered an accessory building.

Training school means a public or private school or training institution which offers a training program of trade, technical instruction, or physical education. A training school shall not be deemed a home occupation.

Transect (rural-to-urban) means a cross-section of the environment showing a range of different building development zones. The rural-to-urban transect of the human environment is divided into multiple transect zones that describe the physical form and character of a place according to the intensity of its land use and building development pattern.

Transmission towers means a structure that has the sole purpose of transmitting radio, television, cellular telephone or telephone waves from one location to another.

Useable open space means open or green space that is accessible for the use and enjoyment of residents, shall not be steep sloped (over ten percent slope), shall not include wetlands, parking or required buffer areas, and may include any required yard area or open areas for play.

Variance means a relaxation of the terms of the zoning ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. The term "variance" is authorized for only dimensional and supplemental regulations. Establishment of a use otherwise prohibited shall not be allowed by variance, nor shall a variance be granted because of the presence of nonconformities in the district or adjoining districts.

Wayside stand means a structure designed, arranged or used for the display and sale of agricultural products primarily grown or produced on the premises upon which such stand is located. A wayside stand may be located on premises that the products are not grown upon provided such premises is owned by the grower.

Wholesale means sales chiefly to retailers, other merchants, industrial and/or commercial users mainly for resale or business use.

Yard means a required open space on a lot unoccupied and unobstructed by any principal structure or portion of a principal structure.

Yard, front, means the open space extending across the full width of lot between the front lot line and nearest line of the principal building or any enclosed portion thereof. The depth of such yard shall be the shortest horizontal distance between the front lot line and the nearest point of the building or any enclosed portion thereof.

Yard, rear, means the open space extending across the full width of lot between the rear line of the lot and the nearest line of the building or any enclosed portion thereof. The depth of such yard is the shortest horizontal distance between the rear lot line and the nearest point of the building. When the rear lot line is less than ten feet long or if the lot comes to a point at the rear, the depth of the rear yard is measured to an assumed rear lot line as follows, the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said lot line.

Yard, side, means the open space between the side lot line, the side street line, or the proposed side street line and the principal buildings, or any portion thereof, extending from the front yard to the rear yard, or, in the absence of either of such yards, to the front lot line and/or rear lot line. The width of a side yard shall be the shortest distance between the side lot line and the nearest point of the principal building or any portion thereof.

Zone. See the term *District.*

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 2, 2024 **Ordinance 24-1202024**

Author: Robert Chase, Fire Chief and Eric J. Cousens Director of Public Services

Subject: Proposed Blasting Ordinance - First Reading

Background: The Council workshopped this draft ordinance earlier this year and we were instructed to solicit input from those affected, including gravel mining operations, gem miners and industry experts. We have done that and learned there are 3 distinct types of blasting that have different needs and potential for impacts. They include large pit mining operations at fixed locations, small scale gem mining and transient blasting for construction projects. We plan to share that information with Council Monday and solicit feedback so we can update the draft accordingly.

Information: Previous meeting information is available in the September 3, 2024 CC Packet on Page 14 https://www.auburnmaine.gov/CMSContent/City_Council/Packets/9-3-24%20COMBINED%20City%20Council%20Packet.pdf) Feedback from stakeholders will be reviewed at the workshop.

City Budgetary Impacts: Staff Time.

Staff Recommended Action: Review new information and discuss. First reading.

Previous Meetings and History: September 3, 2024.

Ordinance 24-12022024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Chapter 14 – BUSINESS LICENSES AND PERMITS of the City's Code of Ordinances regarding Blasting as shown on the attached.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

Chapter 14

BUSINESS LICENSES AND PERMITS

Article XIX

BLASTING

Sec. 14-700. - Purpose; statutory authority; enforcement.

A. Blasting is an activity essential to the economic viability of Auburn. Unregulated blasting and/or irresponsible blasting may cause undue damage to the people, property and environment of the City.

B. This chapter establishes specific standards for blasting operations, notice requirements, instrument monitoring requirements of blasting operations, a permit process for blasting and other associated standards and requirements.

C. It is intended to minimize the effects of air overpressure, ground vibration, dust, and noise associated with blasting which may be detrimental to the enjoyment of life, property and the conduct of business for those individuals affected.

D. It is also intended to provide standards that will prevent permanent damage to the geologic, hydrogeologic and wildlife resources and ecological balance in the region outside the immediate blast area. The chapter is intended to protect the quality of life and the homes of residents, neighborhoods, property, groundwater, wildlife resources, scenic beauty and/or businesses, all lying outside the approved work area and potentially affected by the blasting.

E. It is intended to be effectively and efficiently administered without causing undue financial and administrative hardship to blasting operators.

F. This chapter is enacted pursuant to 30-A M.R.S.A. § 3001, Ordinance power, as well as the City's Home Rule authority under the Maine Constitution, and shall be administered by the Planning, Permitting, and Code Department.

G. The city planning, permitting, and code department shall have authority to enforce all requirements of this Chapter in accordance with section 60-1403.

Sec. 14-701. - Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Air overpressure means an airborne shock wave resulting from detonation of explosives. Air overpressure may be caused by burden movement or the release of expanding gas into the air. Air overpressure may or may not be audible.

Applicant means the owner or other individual, corporation or other business entity who or which applies for the legal right to conduct blasting at real property which it has the legal right to use.

Blast site means the area where explosive material is handled during the loading of drilled blastholes, including the perimeter formed by the loaded blastholes and 50 feet in all directions from loaded blastholes.

Blast size means, for a

A. Small blast: trench blast or under 50 cubic yards of rock removed.

B. Medium blast: removal of 50 to 300 cubic yards of rock material.

C. Large blast: removal of over 300 cubic yards of rock material.

Blaster means an applicant who has been awarded a permit to conduct blasting.

Blasting means the use of explosives to break up or otherwise aid in the extraction or removal of rock or other consolidated material.

Blasting operations means all processes conducted in association with site or other preparation for blasting, and the detonation of explosives.

Decibel means the unit of sound pressure commonly used to measure air overpressure from explosives. The decibel scale is logarithmic.

Explosives means any substance, chemical compound or mechanical mixture that is used for the purpose of producing an explosion to fragment rock for mining, quarrying, excavation and construction. Initiating devices (detonators, detonating cords, etc.) are also included under this definition.

Extractive industry means any operation engaged in the removal of more than 20 cubic yards, in a twelve-month period, of topsoil, sand, gravel, clay, rock, peat or other like material from its natural location and for transportation off lot within any twelve-month period, except as may be exempted within the extractive industry performance standards in this chapter.

Flyrock means rock that is propelled through the air or along the ground, which leaves the secured blast area as a result of the detonation of explosives.

Ground vibrations means the energy from a blast that manifests itself in vibrations which are transmitted through the earth away from the immediate blast site. Ground vibrations are to be measured along three principal axes (x, y, z); namely, transverse, vertical, and longitudinal, all of which are subject to the performance standards herein.

Groundwater means water beneath the earth's surface often between saturated soil and rock that supplies wells and streams.

Hertz means a term used, in the case of blasting, to express the frequency of ground vibrations and air overpressure. One hertz is one cycle per second.

Particle velocity means a measure of ground vibration in the case of blasting. Particle velocity describes the velocity at which a particle of ground vibrates when excited by a seismic wave. It is measured in inches per second.

Pre-blast Survey means an inspection of the dwellings, water supplies, and other structures within the blasting notice area for the purpose of documenting the physical conditions prior to the commencement of blasting.

Quarry means the property designated in the application and permit where rock is excavated in an extractive industry operation.

Secured blast area means the area that may be affected by flyrock, dust, or fumes from an explosion that may cause personal injuries, damage to property, or losses in the process. The minimum distance for personnel is 500 feet. Safe distances will be determined based on conditions for each blast by the blasting foreman or designee.

Seismograph means an instrument that measures and has the capability to provide a permanent record of hertz and decibel readings concerning ground vibrations caused by blasting.

Source water means bodies of water (such as rivers, streams, lakes, reservoirs, springs, and ground water) that provide water to public drinking-water supplies and private wells.

Sec. 14-702. - Blasting permit required; effect on other regulations.

A. No blasting within the City of Auburn shall be allowed unless a permit has been obtained from the city planning, permitting, and code department, except as otherwise exempted per this chapter.

B. The requirements of this chapter are in addition to any other applicable ordinances, regulations, and statutes. This includes adherence to the standards set forth in NFPA 495. Where different standards are contained within these documents or any other relevant regulations, the more restrictive standards shall apply

C. This chapter does not replace or negate federal and/or state requirements pertaining to explosives including OSHA CFR 1923.900 and 1910.109

Sec. 14-703. - Permit requirements.

A. Blasting permit required.

(1) The following shall require a permit:

(a) Site plan/subdivisions. If the Planning Board determines that a project involves or may require blasting, it shall expressly state and set out in its conditions of approval for such project that the applicant/developer secure from the director of the city planning, permitting, and code department, or their designee, a proper blasting permit in advanced of blasting, and as required herein.

(b) General construction. For any specific construction project, whether reviewed or not reviewed by the Planning Board as part of site plan or subdivision, that is found to need blasting at any time, the owner/developer, or responsible general contractor, shall secure a blasting permit, as described herein, from the director of the city planning, permitting, and code department, or their designee, prior to any blasting.

(c) Extractive industry and gravel pits. Any party who operates a gravel pit or who otherwise engages in extractive industry or earth removal operations shall secure from the director of the city planning, permitting, and code department, or their designee, a blasting permit, as described herein, prior to any blasting.

(d) All other blasting locations. Any other person or party, regardless of prior review, and regardless of purposes, that may need to conduct blasting shall be required to obtain a blasting permit, as described herein, from the city planning, permitting, and code department.

(2) No person or party may conduct any blasting within the boundaries of the City of Auburn without first having obtained review and approval from the director of the city planning, permitting, and code department, or their designee.

B. Notice required.

(1) Blasting activities for Extractive Industries and Quarries shall require an application for a permit to conduct blasting operations at least 30 days prior to conducting blasting or drilling. The application for permit to conduct blasting shall contain the information described in Paragraph C, referred to as the “blast plan”

(a) Following the issuance of permit, notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before initiation of blasting at the site.

(b) Annually thereafter, extractive industry sites and quarries shall renew their permit by providing a new application at least 30 days prior to expiration of their permit.

(2) All other proposed blasting activities in the City of Auburn shall require an application for a permit to conduct blasting operations at least 14 days prior to conducting blasting or drilling. Notice of blasting to be given to the city planning, permitting, and code department, in writing, at least 10 business days prior to the proposed start of blasting. Notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before such blasting is scheduled to take place.

C. Blasting application information. All applications for permits to conduct blasting shall contain the following information, referred to as the "blast plan."

(1) Applicant: the applicant's name, address, daytime telephone number, fax number, and e-mail address.

(2) Owner's name, address, daytime telephone number, fax number, and e-mail address.

(3) Blasting contractor: the blasting contractor's name, address, daytime telephone number, fax number, and e-mail address (if other than the blaster). Contractor shall submit written evidence of license(s) held, experience and qualifications of the individual who will be responsible for loading and firing each shot.

(4) General contractor: the general contractor's name, address, daytime telephone number, fax number, and e-mail address.

(5) Work site: the street address and Tax Assessor's map and lot number for the proposed blasting activity. If the blast plan is for a property shown on a plan reviewed by the Planning Board, the blast area for which the permit is requested shall be included on the plan.

(6) Information about the blast plan to include the following:

(a) Purpose of blast: a brief description of the work for which the blasting activity is requested.

(b) Volume of material: the estimated number of cubic yards (measured in place) of material to be loosened or fragmented by blasting.

(c) Number of blasts: the estimated number of blasts required to loosen or fragment the specified amount of material.

(d) Blast period: the planned starting and ending dates of the blasting activity.

(e) Site diagram: a sketch or diagram showing the property where blasting will be conducted, including: the location of adjacent structures and distance to those structures; description and location of blasting signs.

(f) Description of test blast drill pattern.

(g) Explosives to be used during both wet and dry conditions.

(h) Description of matting that will be used to prevent flyrock.

(i) Type, number, and planned locations of seismograph, and any other instrumentation proposed for use to monitor vibrations and air overpressures.

(j) Description of proposed transport and storage of explosives.

(k) Description of safety procedures, security measures, and warning procedures to be employed before, during and after the blast period.

(l) Signature of blasting contractor testifying to the accuracy of the blast plan.

(m) Dig safe number

D. Liability insurance. Blasting contractors and/or applicants shall carry general liability insurance in accordance with the following:

(1) The amount insured must be a minimum amount of $2,000,000 combined single limit per occurrence.

(2) The insurance policy must contain specific reference to blasting as an activity covered by the insurance.

(3) The policy shall indemnify and hold harmless the City, its agents and/or representatives, employees, and residents from and against any or all claims, damages, losses and expenses including legal fees arising out of or resulting from performance of the work, provided that such claim, damage, loss or expense is attributable to bodily injury or death, or to injury to or destruction to tangible personal or real property, including the loss of use, resulting in whole or in part from the blasting activity by any negligent act or omission of the contractor or any of its officers, agents, employees, representatives, subcontractors, and/or anyone directly or indirectly employed by any of them or anyone for whose acts any of them would be liable regardless of whether it is caused in part by a party indemnified hereunder and the contractor shall, at its own expense, defend and protect said indemnified parties against all such claims and demands.

(4) The City shall be named as a certificate holder to ensure the liability insurance is maintained throughout the duration of the blasting operation. The certificate must provide that the City of Auburn shall be notified at least 10 days prior to any cancellation

E. Public hearing. A public hearing is not required prior to the issuance of a blasting permit by the director of the city planning, permitting, and code department, or their designee.

F. Fees. Fees for blasting permits shall be as determined, and amended from time to time, by City Council order.

G. Permit duration.

(1) Extractive Industries and Quarry permits shall be valid for one year. No blasting after one year shall occur except as permitted herein.

(2) All other blasting permits shall be valid for a period of 90 days. No blasting after 90 days shall occur except as permitted herein.

(3) Lapse and extension. Any party that does not complete its blasting within the defined permit period may apply to the director of the city planning, permitting, and code department, or their designee, for a reasonable extension, not to exceed 60 days. The director shall have full discretion as to the length and condition of any extension. If the ninety-day period lapses prior to a request for extension, the director may require that the

party reapply for a new blasting permit.

H. Notice and pre-blast survey.

(1) The following notification and pre-blast survey requirements shall be required for all blasting permits prior to commencing blasting:

	Small blast (feet)	Medium blast (feet)	Large blast (feet)
Notice required	500	700	900
Pre-blast survey to be offered	100	300	500

(2) The blasting contractor will hire an independent qualified seismologist, blasting consultant or engineer to perform pre-blast surveys on all structures and wells in the areas outlined in Subsection H(1) above, contingent upon property owner agreement. The independent seismologist or blasting consultant shall not be an employee of the contractor, subcontractor, explosives manufacturer, or explosives distributor.

(3) Pre-blast survey offer notice: Prior to commencement of the pre-blast surveys, the blasting contractor shall provide the following documentation to the city planning, permitting, and code department:

(a) A list of property owners to be contacted (in accordance with the distances listed in the table above).

(b) Verification that the subject property owners were notified of the pre-blast survey work.

(c) A copy of the pre-blast survey offer notice.

(d) Whether each offer to conduct a pre-blast survey was either accepted, rejected, or there was no response. The blasting contractor shall retain a copy of each pre-blast survey offer notice for their records until the development project receives a final certificate of occupancy or is otherwise deemed complete by the City. Nothing herein shall be construed to discourage repeated efforts by the blasting contractor to contact eligible property owners via phone, hand delivery, or other method in addition to provision of the required offer notice letter.

(4) Pre-blast survey documentation. All pre-blast surveys shall include documentation of interior subgrade and above-grade accessible unobscured walls, ceilings, floors, roof and visible exterior as viewed from the grade level. Where significant cracks or damage exist, or for more complex structural defects, photographs or video shall be taken. A high-quality digital video or videotape survey with appropriate audio description of the locations, conditions, and defects may substitute for a written pre-blast survey. Where necessary, notes and sketches may also be used as part of a video pre-blast survey in order to highlight or elaborate on certain aspects of the video documentation.

(5) Pre-blast survey conditions report. All pre-blast surveys shall include an existing conditions report for each property. The conditions report may be presented as narrative, photographs, video or a combination thereof. Conditions reports shall summarize the condition of each building and define areas of concern, including deteriorated structures or utilities, structures housing sensitive equipment, and/or manufacturing processes that

are sensitive to vibrations.

(6) Verification that all pre-blast surveys and conditions reports have been completed shall be submitted to the city planning, permitting, and code department at least two weeks prior to commencing any drilling and/or blasting operations.

(7) The blasting contractor shall maintain a copy of the pre blast survey conditions report for a minimum of six years after the conclusion of blasting.

(8) The blasting contractor shall make a copy of the pre-blast survey conditions report available to the property owner.

Sec. 14-704. - Performance standards.

All blasters shall comply with the following performance standards:

A. Hours of detonation.

(1) Extractive industry blasting. Hours of detonation are limited to between 10:00 a.m. and 5:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

(2) All other blasting. Hours of detonation are limited to between sunrise and sunset but no earlier than 7:00 a.m. and no later than 7:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving and Christmas, unless otherwise more restrictive hours of detonation are specified by the Planning Board.

(3) Emergency situations. Blasting of any type may occur at any time in situations deemed to be emergencies by the director of the city planning, permitting, and code department, or their designee, after consultation with other City staff as may be determined to be necessary by the director. Emergency situations may include, but are not limited to, blasting to install utilities damaged by weather events, unanticipated needs for blasting to complete City infrastructure project when the delay would significantly affect project timelines or City services, or blasting to correct a misfire of explosives in an otherwise permitted blast event.

(4) In consideration of the safety hazards and community concerns associated with adverse weather conditions, this ordinance permits the adjustment of blasting operations in response to lightning-related disruptions, wind-related community concerns, and atmospheric conditions, including pressure variations. When such conditions are present, operators are authorized to modify the timing and duration of blasting activities as necessary to ensure the safety of all personnel, minimize impacts on the surrounding community, and maintain compliance with regulatory requirements. Any adjustments made must be promptly communicated to the appropriate authorities and property owners.

B. Water quality protection. Water is a precious resource, and the applicant must take measures to ensure that the quality of source water is protected. Prior to the initial blast, the applicant must offer water quality tests on all non-applicant-owned wells within distances outlined in Sec. 14-703(H) above. Water quality testing must also be completed post-blast if requested by the property owner because of evidence of a substantive change in water quality. Turbidity in wells tested shall be no greater than that which existed prior to the blasting as established in the pre-blast survey.

C. Ground vibration, Air Overpressure, Flyrock and Gases

(1) Ground vibration, Air Overpressure, Flyrock and gases shall be controlled and shall not exceed the limits defined in NFPA 495.

(2) Measurements shall be required for all blasts. Ground vibration shall be measured as particle velocity. Particle velocity shall be recorded in three mutually perpendicular directions (x, y, z). The maximum allowable peak particle velocity shall apply to each of the three measurements. Any blast made with less than 25 pounds of explosives in an Extractive Industry or Quarry operation which occurs more than 500 feet from a structure, building, or source water is exempt from this seismological measurement requirement.

(3) Seismographic record. A seismographic record for all blasts shall be retained by the applicant and provided to the city planning, permitting, and code department or the Planning Board, if requested. The applicant is responsible for such record and for providing proper instrumentation as specified in this chapter. Personnel conducting such monitoring shall be properly trained in the operation of the equipment being used.

(4) Measurements. The requirements established herein shall be measured at the closest building(s) on abutting properties as determined by the director of the city planning, permitting, and code department, or their designee,

D. Other permits. The applicant must also comply with all standards and conditions contained in other permits issued for such projects and local, state and federal statutes and regulations.

E. Blasting seismographs used to monitor ground vibrations and air overpressure shall comply with the ISEE document, “Performance Specifications for Blasting Seismographs” and all seismographs shall be deployed in the field according to ISEE document, “Field Practice Guidelines for Blasting Seismographs.”

Sec. 14-705. – Notices.

A. Required notification of blasting for Quarry Operations.

(1) Initial notice. State licensed quarry operations are subject to public notification and public hearing processes prior to State licensure. This initial notification is to serve as notice to residents of the commencement of blasting at a new quarry site. The blaster must send, by first-class mail an advisory notice to all property owners within 2,000 feet of the secured blasting area. Notifications shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 2,000 feet of the production quarries. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

B. Required notification of blasting for all other blasting. The following notice requirements for any

blast requiring a blasting permit shall be adhered to by the blaster.

(1) Initial notice. The blaster must send initial notice by first-class mail an advisory notice to all property owners within the distances outlined in Sec. 14-703H(1) of the secured blasting area. Notification shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 300 feet of the secured blasting area. This will be done whether or not the property owners requested to be notified. The blaster shall also notify all others who have requested in writing to be so notified. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

C. **Emergency Services Notification:** The 911 dispatch center servicing the City of Auburn must be notified at least 24 hours prior to any explosive detonation. The notification shall include the address for the blast site as well as the anticipated start time for blasting and anticipated time that blasting will conclude for the day.

Sec. 14-706. - Inspection, monitoring, and recordkeeping.

A. Entry. The director of the city planning, permitting, and code department, or their designee, may enter the secured blasting area or adjacent area to conduct site evaluations and observe any authorized blasting operations and may order that additional ground vibration and air overpressure measurements using approved instrumentation be made by persons responsible for blasting operations to ensure that the limits specified in this chapter are not exceeded, if excess readings are indicated.

B. Additional monitoring. The blaster shall maintain a record of each blast. All records shall be retained at least three years following cessation of the blasting operation, and shall be available for inspection by the director of the city planning, permitting, and code department, or their designee, or any property owner within the distances outlined in Sec. 14-703H(1) of the secured blasting area, and shall contain the following minimum data for traceability purposes:

(1) Name and contact information of responsible party: the name and contact information of the person(s) responsible for the blasting operation.

(2) Location, date, time, number and pattern/spacing of blast holes, total charge weight, charge weight per delay, date and time of each blast.

(3) Blaster: the name(s) of blaster in charge.

(4) Weather: the weather conditions (including such factors as wind direction, cloud cover, etc.).

(5) Data: seismograph and air overpressure readings, including date, time, and location of instrument.

(6) Notice: name, addresses, date and time of all persons who were notified prior to every blast.

Sec. 14-707. - Compliance schedule.

A. Applicability. Upon adoption of this chapter, all existing and new blasting operations are subject to the terms herein and must obtain a permit to conduct any further blasting.

B. Review. A complete review of all activities under this chapter shall be undertaken by the director of the city planning, permitting, and code department 12 months after adoption of this chapter to determine if the levels are adequate and reasonable to achieve the purpose for which this chapter is intended. The results of this review shall be reported to the City Manager, who will report to the City Council with recommendations of the review.

Sec. 14-708. - Exceptions for undue hardship.

A. Application. Applications for a permit for exception from the performance standards designated in this chapter may, on the basis of hardship, be made to the director of the city planning, permitting, and code department, or their designee. Any permit granted hereunder shall contain all conditions upon which said permit has been granted and shall specify a reasonable time that the permit shall be effective.

B. Standards. The director of the city planning, permitting, and code department, or their designee, may grant the exception as applied for only if:

(1) Limited in scope: the activity or operation will be of a temporary duration, i.e., a limited number of blasts at a specific site, and cannot be done in a manner that would comply with this chapter;

(2) Reasonable alternative: no other reasonable alternative is available to the applicants; and

(3) Safety: the applicants represent, and the director of the city planning, permitting, and code department, or their designee, finds, that blasting as permitted will not violate recognized safety standards.

C. Conditions. Upon the issuance of any exception permit, the director of the city planning, permitting, and code department, or their designee, may limit the scope of the exception and prescribe any reasonable conditions or requirements he deems necessary to minimize adverse effects.

Sec. 14-709. - Violations and penalties.

A. Penalties. The submission of false information required by this chapter, or the violation of this chapter or the violation of any condition attached to a permit granted under this chapter shall constitute a land use violation for which an enforcement action may be commenced by the City in accordance with 30-A M.R.S.A. § 4452.

B. Reporting. A copy of the violation report and consent agreement reached between the City and the person or entity found in violation of any portion of this chapter will be filed in the permit or license file.

Sec. 14-710. - Conflict.

Blasting in Auburn shall be conducted in compliance with all pertinent section of the City Code of Ordinances, and, except as superseded by the provision of this article, the NFPA 1 Fire Prevention

Code, and NFPA 495 Explosive Materials Code as adopted by the State of Maine. In any particular instance where these regulations are in conflict with any other rules, regulations or ordinances of the City, the more restrictive regulation or provision shall prevail.

Sec. 14-711. - Appeal of denial of a blasting permit.

If the city planning, permitting, and code department has denied a blasting permit under this article, the applicant may appeal the denial to the Zoning Board of Appeals within 30 days of the decision by filing a written notice of appeal.

Sec. 14-712 to 725 Reserved.

Monthly Financial Report
August 2024 - Fiscal Year 2025

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending August 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending August 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its first month of the current fiscal year. As a guideline for tracking purposes, if split evenly throughout the year, revenues and expenditures should amount to approximately 16.66% of the annual budget. However, not all costs and revenues are distributed evenly as individual line items can vary based upon cyclical activity.

General Fund Highlights

Revenues

• Total revenues collected through August 2024 were **$7.51M** or **11.15%** of budgeted general fund revenue, as compared to 9.4**%** of actual revenues through August 2023.

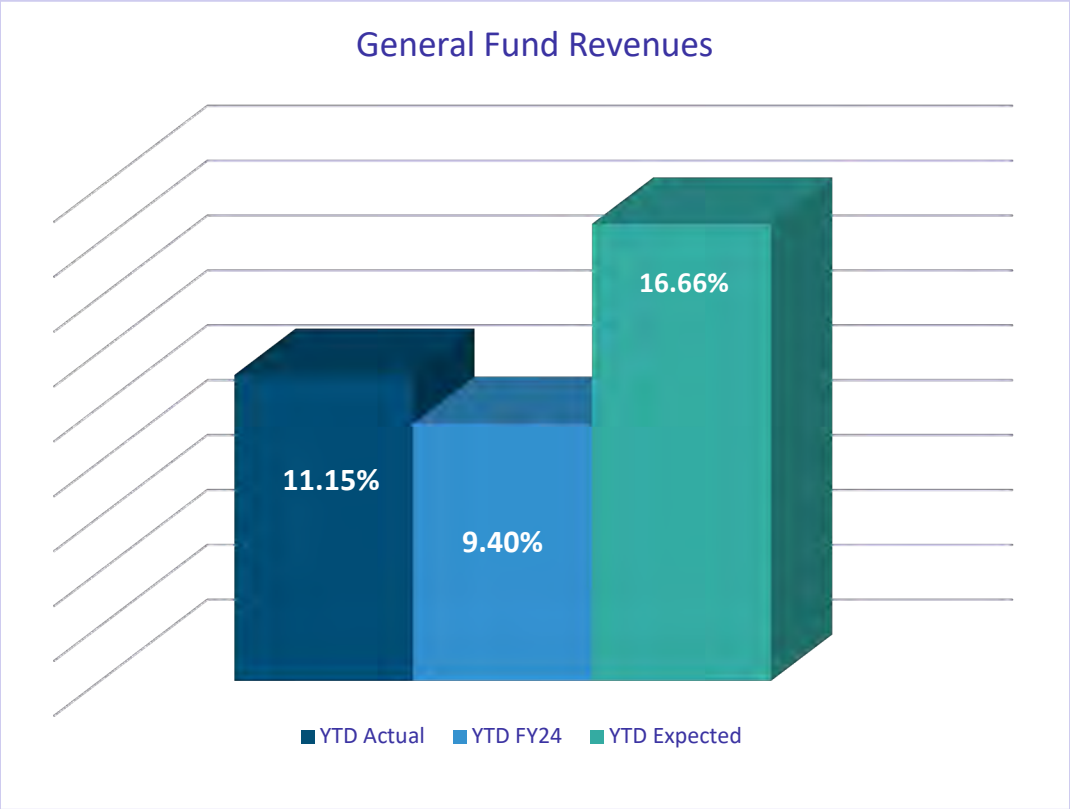
- Total tax collection and EMS Transport fees have had a significant impact on the increase in revenue collected

Expenditures

• Expenditures through August 2024 were **$8.8M** or **8.25%** of the budget, as compared to 8.3**%** of actual expenditures through August 2023.

- No significant expenses are generally expected during the month of August, operating budgets are usually stable during this period

Respectfully submitted,



Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

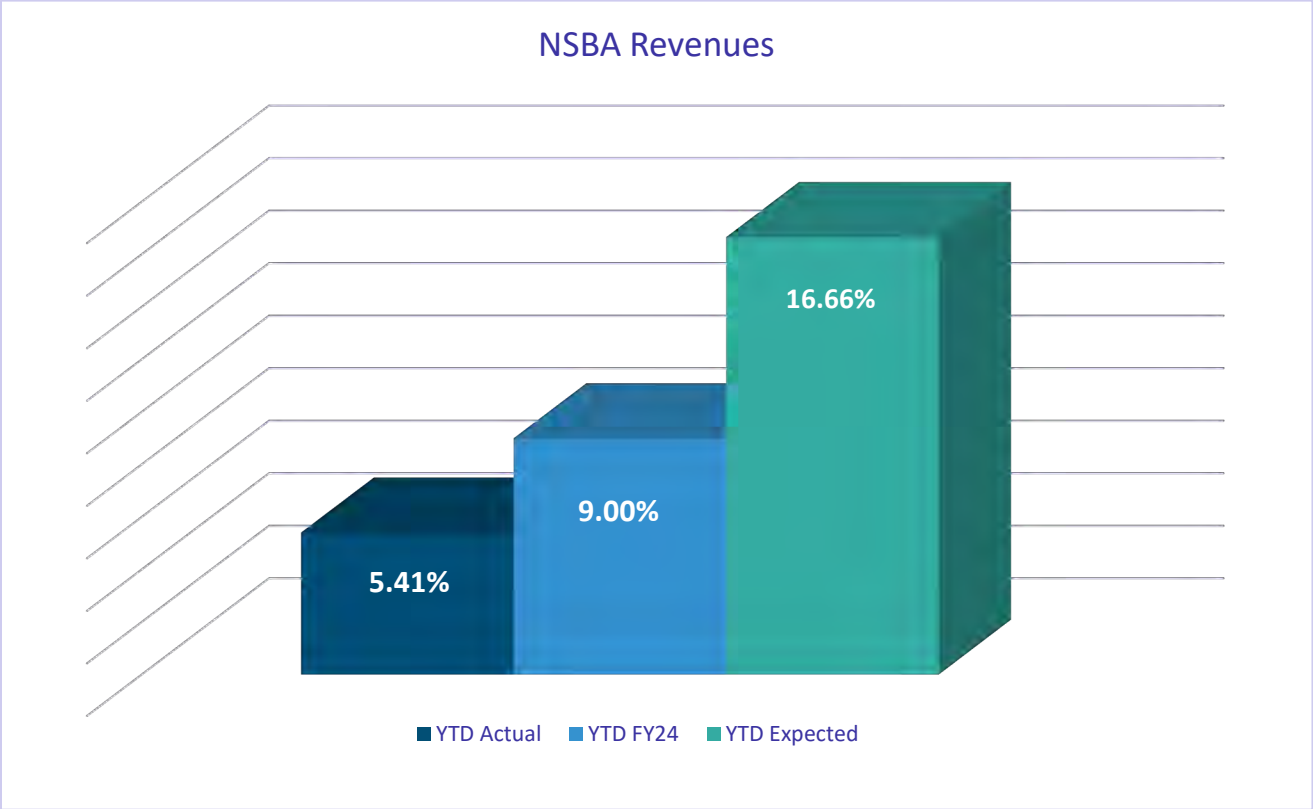
Norway Savings Bank Arena

for the Period Ended August 31, 2024



As of August 2024, Norway Arena had an operating loss fiscal YTD of $32,308.

Revenues:

The operating revenues for Norway Arena through August 2024 are $59,475 or 5.41% of the budget as compared to 9.00**%** of actual revenues through August 2023. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

- Ice rentals began earlier last year, the current rink project is almost complete

*Graph reflects revenues for the current year with comparison to expected approximate percentage.

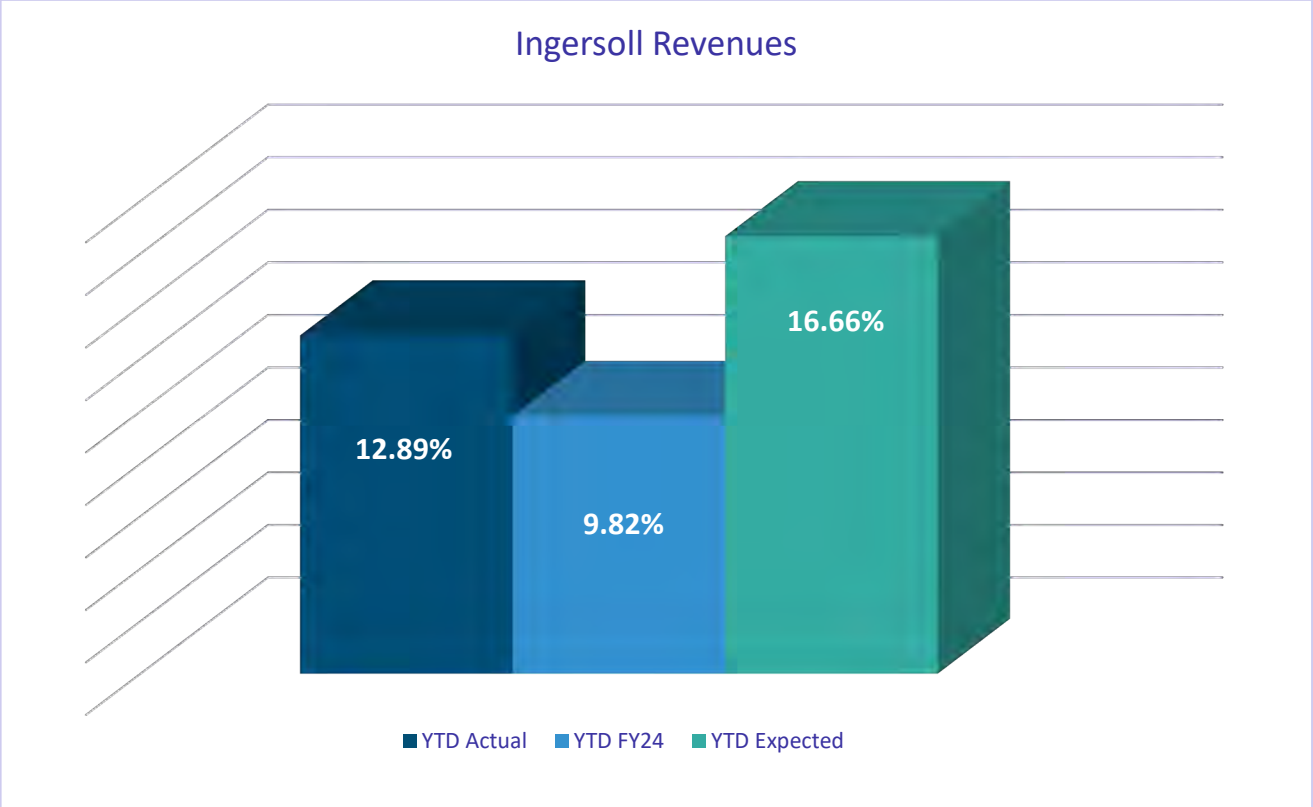
Ingersoll Turf Facility



for the Period Ended August 31, 2024

As of August 2024, Ingersoll had an operating gain YTD of $16,574. Of note, revenue to expenditure comparison is disproportionate as some expenditures are listed under the Recreation department budget, and regular salaries under Public Works.

Revenues:

The operating revenues for Ingersoll through August 2024 are $17,074 or 12.89% of the budget as compared to 9.82**%** of actual revenues through August 2023. This revenue comes from sponsorships, programs, rental income, and batting cages.

*Graph reflects revenues for the current year with comparison to expected approximate percentage.

Monthly Financial Report

September 2024 - Fiscal Year 2025

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending September 30, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending September 30, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its first month of the current fiscal year. As a guideline for tracking purposes, if split evenly throughout the year, revenues and expenditures should amount to approximately 25% of the annual budget. However, not all costs and revenues are distributed evenly as individual line items can vary based upon cyclical activity. As such, comparisons are made based upon previous years of activity as noted.

General Fund Highlights
There are no significant variances or areas of concern during the reporting period.

Revenues
• Total revenues collected through September 2024 were **$34.69M** or **28.50%** of budgeted general fund revenue, as compared to 34.4**%** of actual revenues through September 2023.

- Investment interest rates are currently an average of 4.02%
- Fire & EMS Transport revenues were 195% lower than previous year.

Expenditures
• Expenditures through September 2024 were **$21.53M** or **18.48%** of the budget, as compared to 21.4**%** of actual expenditures through September 2023.

- Insurance deductibles - claims from previous year have closed providing us with reimbursements in excess of budgeted amounts YTD.

Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

CITY OF AUBURN

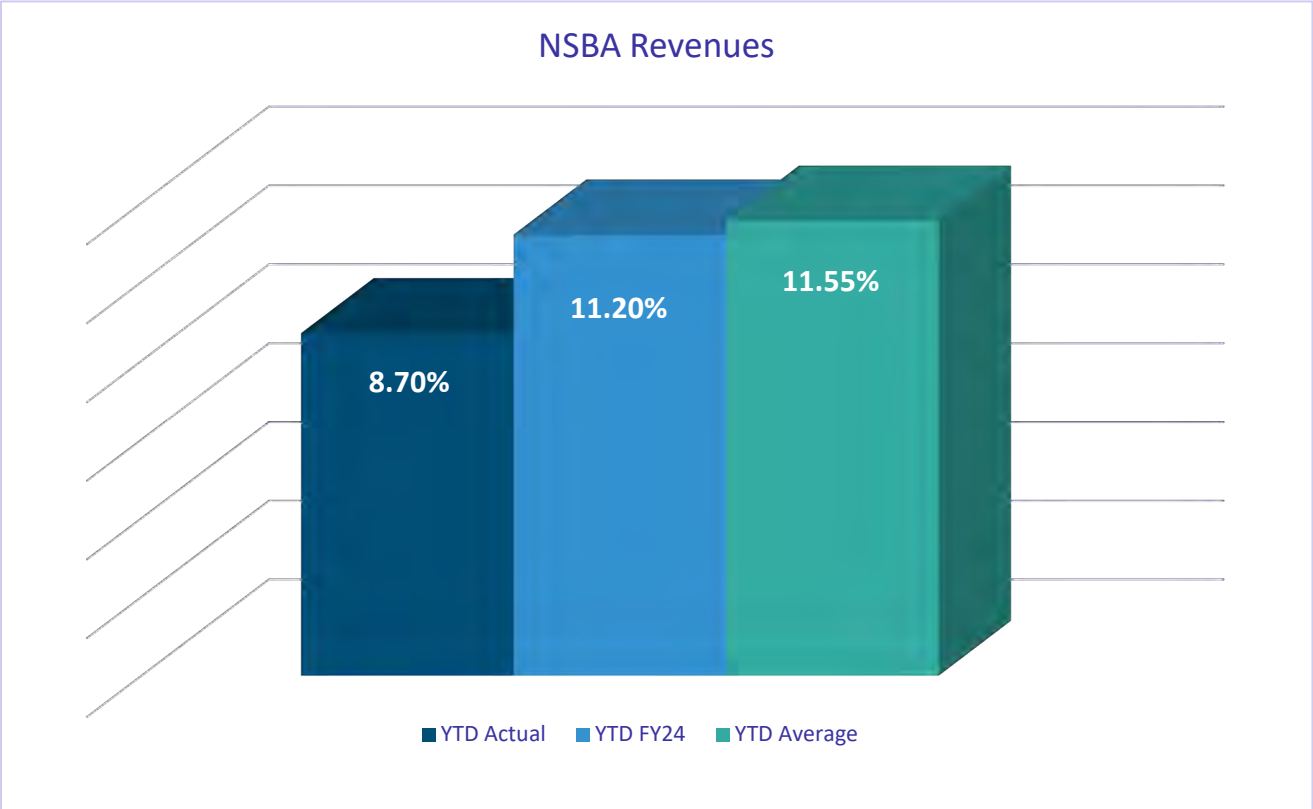
Norway Savings Bank Arena

for the Period Ended September 30, 2024



As of September 2024, Norway Arena had an operating loss fiscal YTD of $47,882.

Revenues:

The operating revenues for Norway Arena through September 2024 are $95,527 or 8.7% of the budget as compared to 11.2**%** of actual revenues through September 2023. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

- Ice rentals began earlier last year and Twin City Thunder no longer at rink, causing reduction in revenue.

*Graph reflects current YTD with comparison to prior YTD and YTD average of prior 3 years percentage.

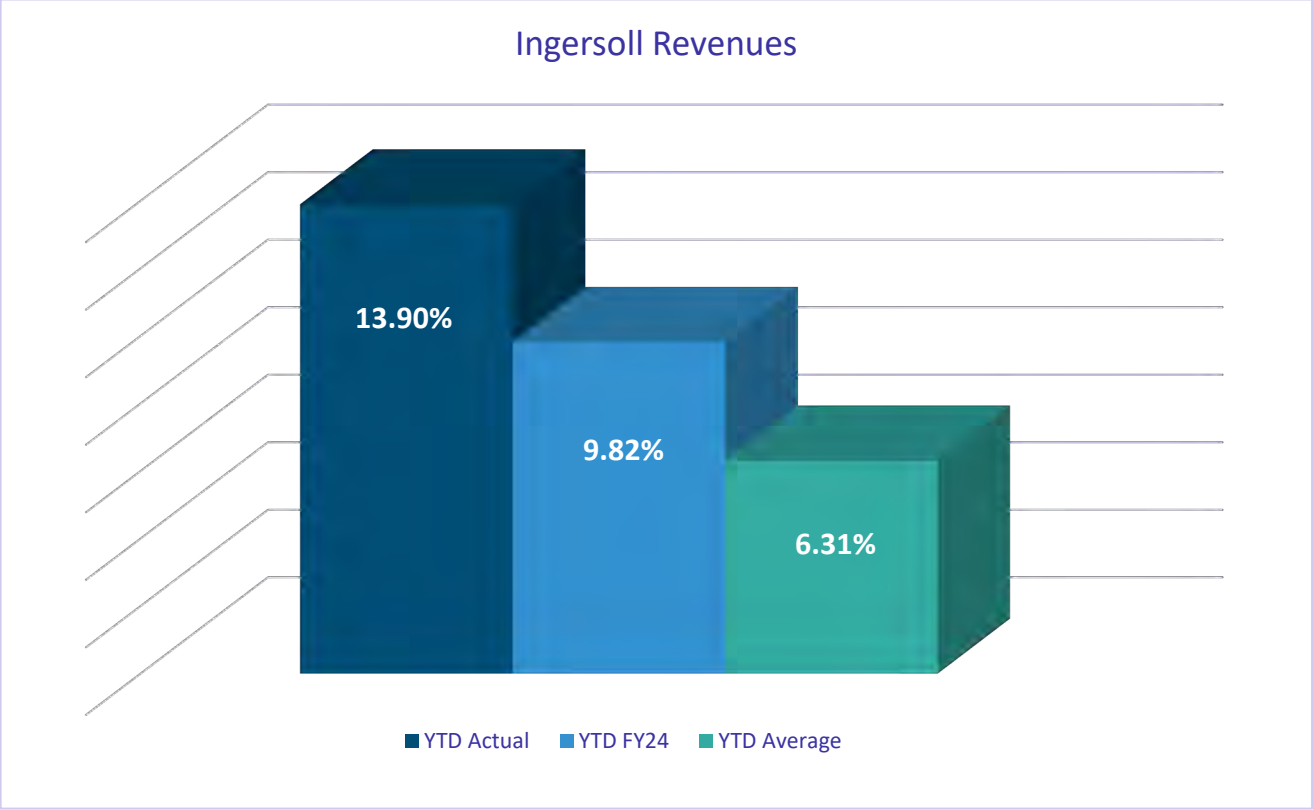
Ingersoll Turf Facility



for the Period Ended September 30, 2024

As of September 2024, Ingersoll had an operating gain YTD of $28,739. Of note, revenue to expenditure comparison is disproportionate as some expenditures are listed under the Recreation department budget, and regular salaries under Public Works.

Revenues:

The operating revenues for Ingersoll through September 2024 are $30,596 or 13.9% of the budget as compared to 9.82**%** of actual revenues through September 2023. This revenue comes from sponsorships, programs, rental income, and batting cages.

*Graph reflects current YTD with comparison to prior YTD and YTD average of prior 3 years percentage.

City Council Workshop & Meeting
Agenda
December 16, 2024
Auburn Hall, Council Chambers

5:30 PM Workshop

- Housing First

7:00 PM Meeting

Pledge of Allegiance & Roll Call **-** *Roll call votes will begin with Councilor Weisner*

I. **Consent Items –** *All items with an asterisk (*) are considered routine and will be enacted by one motion. There will be no separate discussion of these items unless a Council member or a citizen so requests, in which event, the item will be removed from the Consent agenda and considered in its normal sequence on the agenda. Passage of items on the Consent agenda requires majority vote.*

a. **ORDER 153-12162024*** – Appointing Richard Whiting and Timothy Cowan to the AVCOG General Assembly, as nominated by Mayor Harmon.

b. **ORDER 154-12162024*** - Appointing Denis D'Auteuil to the AVCOG Executive Committee (alternate), as nominated by Mayor Harmon.

c. **ORDER 155-12162024* -** Appointing Maureen Hopkins to the Planning Board (Member) for a term that expires 1/1/2028, as nominated by the Appointment Committee.

d. **ORDER 156-12162024* -** Appointing Edmond Bearor to the Planning Board (Associate Member) for a term that expires 1/1/2028, as nominated by the Appointment Committee.

e. **ORDER 157-12162024*** - Appointing John Ruccolo to the Complete Streets Committee for a term that expires 12/31/2027, as nominated by the Appointment Committee.

f. **ORDER 158-12162024*** - Appointing Heather Barnett to the Complete Streets Committee for a term that expires 12/31/2027, as nominated by the Appointment Committee.

g. **ORDER 160-12162024*** - Appointing Evan Cyr to the Zoning Board of Appeals (Associate Member) for a term that expires 5/1/2025, as nominated by the Appointment Committee.

h. **ORDER 161-12162024*** - Appointing Emily F. Carrington as Registrar of Voters for the City of Auburn for a term that expires 12/31/2026.

i. **ORDER 162-12162024* -** Appointing Kryston Chapman (Member) & Quentin Chapman (Alternate) as Republican representatives to the Voter Registration Appeals Board for terms that expire 3/1/2027, as nominated by the Auburn Republican Committee.

II. **Minutes** – December 2, 2024 Regular Council Meeting

III. **Communications, Presentations and Recognitions**

- Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee Report

IV. **Open Session –** *Members of the public are invited to speak to the Council about any issue directly related to City business or any item that does not appear on the agenda.*

V. **Unfinished Business**

1. **RESOLVE 7-11042024** – Supporting an "interim trail" for the Casco Bay Trail. *Postponed on November 4, 2024 and workshopped on December 2, 2024. Passage requires majority vote.*

2. **ORDINANCE 22-12022024** – Proposed amendment to Sec. 52-320 regarding prohibited parking on Eighth Street. *Amended and passed first reading on December 2, 2024. Second reading/public hearing. ROLL CALL VOTE.*

3. **ORDINANCE 23-12022024 –** Text Amendments related to 30-A M.R.S. §§ 4364, 4364-A and 4364-B (L.D. 2003). *First reading. Postponed on December 2, 2024. ROLL CALL VOTE.*

4. **ORDINANCE 24-1202024 –** Proposed amendment to Chapter 14 regarding Blasting. *Passed first reading on December 2, 2024. Second reading/public hearing. ROLL CALL VOTE.*

5. **ORDER 163-12162024** – Accepting the Mayor's Ad-Hoc on Bona Fide Agricultural, Recreational, and Natural Resources Land Use Committee Report. *Passage requires majority vote.*

1. **New Business**

1. **ORDER 164-12162024** – CDBG & HOME Consolidated/Action Plan Amendment for Program Year 2024. *Public hearing. Passage requires majority vote.*

2. **RESOLVE 8-12162024** – Approving and ratifying the application of a $1,000,000 HUD Section 108 Loan Guarantee for the Development of the Auburn Community Resource Center located at 121 Mill Street. *Passage requires majority vote.*

VII. Reports

a. **Mayor's Report**

X. Adjournment

HOUSING FIRST IN PERMANENT SUPPORTIVE HOUSING

What is Housing First?

Housing First is an approach to quickly and successfully connect individuals and families experiencing homelessness to permanent housing without preconditions and barriers to entry, such as sobriety, treatment or service participation requirements. Supportive services are offered to maximize housing stability and prevent returns to homelessness as opposed to addressing predetermined treatment goals prior to permanent housing entry.

Housing First emerged as an alternative to the linear approach in which people experiencing homelessness were required to first participate in and graduate from short-term residential and treatment programs before obtaining permanent housing. In the linear approach, permanent housing was offered only after a person experiencing homelessness could demonstrate that they were "ready" for housing. By contrast, Housing First is premised on the following principles:

- Homelessness is first and foremost a housing crisis and can be addressed through the provision of safe and affordable housing.

- All people experiencing homelessness, regardless of their housing history and duration of homelessness, can achieve housing stability in permanent housing. Some may need very little support for a brief period of time, while others may need more intensive and long-term supports.

- Everyone is "housing ready." Sobriety, compliance in treatment, or even criminal histories are not necessary to succeed in housing. Rather, homelessness programs and housing providers must be "consumer ready."

- Many people experience improvements in quality of life, in the areas of health, mental health, substance use, and employment, as a result of achieving housing.

- People experiencing homelessness have the right to self-determination and should be treated with dignity and respect.

- The exact configuration of housing and services depends upon the needs and preferences of the population.

While the principles of Housing First can be applied to many interventions and as an overall community approach to addressing homelessness, this document focuses primarily on Housing First in the context of permanent supportive housing models for people experiencing chronic homelessness.

Housing First Effectiveness in Permanent Supportive Housing

Permanent supportive housing models that use a Housing First approach have been proven to be highly effective for ending homelessness, particularly for people experiencing chronic homelessness who have higher service needs. Studies such as HUD's *The Applicability of Housing First Models to Homeless Persons with Serious Mental Illness* have shown that Housing First permanent supportive housing

models result in long-term housing stability, improved physical and behavioral health outcomes, and reduced use of crisis services such as emergency departments, hospitals, and jails.

Core Components of Housing First

The core features of Housing First in the context of permanent supportive housing models are as follows:

- ***Few to no programmatic prerequisites to permanent housing entry*** – People experiencing homelessness are offered permanent housing with no programmatic preconditions such as demonstration of sobriety, completion of alcohol or drug treatment, or agreeing to comply with a treatment regimen upon entry into the program. People are also not required to first enter a transitional housing program in order to enter permanent housing

- ***Low barrier admission policies*** – Permanent supportive housing's admissions policies are designed to "screen-in" rather than screen-out applicants with the greatest barriers to housing, such as having no or very low income, poor rental history and past evictions, or criminal histories. Housing programs may have tenant selection policies that prioritize people who have been homeless the longest or who have the highest service needs as evidenced by vulnerability assessments or the high utilization of crisis services.

- ***Rapid and streamlined entry into housing*** – Many people experiencing chronic homelessness may experience anxiety and uncertainty during a lengthy housing application and approval process. In order to ameliorate this, Housing First permanent supportive housing models make efforts to help people experiencing homelessness move into permanent housing as quickly as possible, streamlining application and approval processes, and reducing wait times.

- ***Supportive services are voluntary, but can and should be used to persistently engage tenants to ensure housing stability*** - Supportive services are proactively offered to help tenants achieve and maintain housing stability, but tenants are not required to participate in services as a condition of tenancy. Techniques such as harm reduction and motivational interviewing may be useful. Harm reduction techniques can confront and mitigate the harms of drug and alcohol use through non-judgmental communication while motivational interviewing may be useful in helping households acquire and utilize new skills and information.

- ***Tenants have full rights, responsibilities, and legal protections*** – The ultimate goal of the Housing First approach is to help people experiencing homelessness achieve long-term housing stability in *permanent* housing. Permanent housing is defined as housing where tenants have leases that confer the full rights, responsibilities, and legal protections under Federal, state, and local housing laws. Tenants are educated about their lease terms, given access to legal assistance, and encouraged to exercise their full legal rights and responsibilities. Landlords and providers in Housing First models abide by their legally defined roles and obligations. For instance, landlords and providers do not enter tenants' apartments without tenants' knowledge and permission except under legally-defined emergency circumstances. Many Housing First permanent supportive housing programs also have a tenant association or council to review program policies and provide feedback, and formal processes for tenants to submit suggestions or grievances.

- ***Practices and policies to prevent lease violations and evictions*** –Housing First supportive housing programs should incorporate practices and policies that prevent lease violations and evictions among tenants. For instance, program policies consistent with a Housing First approach do not consider alcohol or drug use in and of itself to be lease violations, unless such use results in disturbances to neighbors or is associated with illegal activity (e.g. selling illegal substances.) Housing First models may also have policies that give tenants some flexibility and recourse in the rent payment, which in many subsidized housing programs is 30% of the participant's income. For example, rather than moving towards eviction proceedings due to missed rent payments, programs may allow tenants to enter into payment installment plans for rent arrearages, or offer money management assistance to tenants.

- ***Applicable in a variety of housing models*** – The Housing First approach can be implemented in different types of permanent supportive housing settings, including: scattered-site models in private market apartments, where rental assistance is provided, and tenants have access mobile and site-based supportive services; single-site models in which permanent supportive housing buildings are newly constructed or rehabilitated and tenants have access to voluntary on-site services; and set-asides, where supportive services are offered to participants in designated units within affordable housing developments.

Adopting a Housing First Approach in Permanent Supportive Housing

Providers of permanent supportive housing that do not already use a Housing First approach can adopt this approach by reviewing existing program policies and procedures, and by learning and implementing new services and practices through training and clinical supervision. A provider that would like to move to a Housing First program model should start with the following steps:

- **Review current policies and procedures** – Providers should undertake a systematic review of their current operating policies and procedures. First, providers should assess tenant selection and admission policies to ensure that they do not screen out applicants on the basis of rental, credit, or criminal histories, sobriety, income, etc. They should also evaluate the application and admission process to identify ways to streamline and shorten the process. They should review the lease terms, lease compliance, and eviction policies to ensure that they are consistent with Housing First principles and housing laws. Lease provisions that require participation in services or that deem alcohol use as lease violations or grounds for eviction should be removed. Providers should consider adding policies that help prevent eviction when a tenant falls behind on rent or experiences other lease violations.

- **Learn and adopt Housing First services approaches and practices** – Providers can adopt supportive services approaches and practices that creatively engage tenants to maximize and ensure housing stability. Through training around harm reduction approaches, services staff can learn to confront and mitigate the harms of drug and alcohol use through non-judgmental communication. Staff can also receive training to develop competency around techniques like motivational interviewing, wellness self-management, and trauma-informed care. Adoption of these practices often also requires continual reinforcement through effective clinical supervision, which is key to supporting housing stability.

Useful Resources on Housing First

- **USICH's Housing First Checklist** - An easy-to-use tool for policymakers and practitioners to identify and assess whether a program or community is using a Housing First approach. This three-page tool breaks down the Housing First approach into distinguishing components at both the program and community levels.

- **Housing First in USICH's Solutions Database** – A description of Housing First along with links to examples and resources from USICH's Solutions Database.

- **The Housing First Fidelity model index** - In the April 2013 edition of *Substance Abuse Treatment, Prevention, and Policy*, Watson and colleagues (2013) discuss the development and testing of their Housing First Fidelity instrument. The study finds that the instrument is effective in assessing the quality of Housing First programs and for making implementation decisions.

- **Organizational Change: Adopting a Housing First Approach** - The National Alliance to End Homelessness' tool-kit on adopting Housing First as a community-wide strategy.

- **Pathways to Housing - Housing First Model** - Pathways to Housing produced a step-by-step manual presents a comprehensive guide to Pathways to Housing's Housing First approach.

- **DESC's Seven Standards of Housing First** - Seattle-based Downtown Emergency Service Center has identified seven standards essential to their Housing First approach.

- **Unlocking the Door: An Implementation Evaluation of Supportive Housing for Active Substance Users in New York City** - The National Center on Addiction and Substance Abuse at Columbia University and the Corporation for Supportive Housing evaluated the implementation of nine scattered-site Housing First permanent supportive housing programs serving approximately 500 people experiencing chronic homelessness with active substance abuse disorders in New York City. The report concludes with useful lessons for what is critical to implementing a Housing First permanent supportive housing model. A full impact evaluation of these programs will be completed later in 2013. Preliminary findings indicate that the programs were successful in helping people exit homelessness, remain stably housed, and reduce their use of emergency services.

IN COUNCIL WORKSHOP & MEETING DECEMBER 2, 2024 VOL 37 PAGE 207

Mayor Harmon called the meeting to order at 7:00 P.M. in the Council Chambers of Auburn Hall and led the assembly in the salute to the flag. All Councilors and Student Representatives were present.

I. Consent Items

II. Minutes – November 18, 2024 Regular Council Meeting

Councilor Walker moved for passage, seconded by Councilor Cowan. Motion passed 7-0.

III. Communications, Presentations and Recognitions

IV. Open Session

V. Unfinished Business

1. **Ordinance 21-11182024** - Lake Auburn Watershed Text/Map Amendments. Second reading & public hearing. ROLL CALL VOTE.

Councilor Whiting moved for passage, seconded by Councilor Walker. Mayor Harmon opened the public hearing at 7:03pm. The following spoke:

Stephen Beale, Johnson Road
Evan Cyr, Granite St

Mayor Harmon closed the public hearing at 7:09pm.

Motion for passage 7-0 on a roll call vote.

VI. New Business

1. **Ordinance 22-12022024** – Proposed amendment to Sec. 52-320 regarding prohibited parking on Eighth Street. 1st reading. ROLL CALL VOTE.

Councilor Walker moved for passage and moved to amend to replace "Both sides" with "The northerly side of the street", seconded by Councilor Gerry. There was no comment from the public. Motion to amend passed 7-0.

2. **Ordinance 23-12022024** - Text Amendments related to 30-A M.R.S. §§ 4364, 4364-A and 4364-B (L.D. 2003). 1 st reading. ROLL CALL VOTE.

Councilor Whiting moved to postpone to December 16, 2024, seconded by Councilor Gerry. Motion passed 7-0.

3. **Ordinance 24-1202024** - Proposed amendment to Chapter 14 regarding Blasting. 1st reading. ROLL CALL VOTE.

Councilor Weisner moved for passage, seconded by Councilor Gerry. The following spoke:

Anthony, Everett Rd, Poland

The Mayor recommended staff bring forward an amendment at second reading that addresses holiday/weekend blasting exemptions as it may apply to hobby mining.

Motion for passage 7-0 of first reading on a roll call vote.

VII. Reports

a. Mayor's Report – Mayor Harmon attended New Beginnings open house in Lewiston; opening of Sweetser Health and Healing Center and recognized Kelsey Earle for being recognized by the Chamber of Commerce as one of the community's "40 under 40" for the finance divison.

b. City Councilors' Reports – Councilor Whiting mentioned the upcoming Holiday Bazaar at the Library and "read to a dog" event. Councilor Cowan gave an update on the Homeless committee, next meeting will be held next week. Councilor Walker thanked everyone who helped with the Thanksgiving Dinner at the Senior Center, over 105 people attended. Reminded the public of the New Auburn Tree Lighting on December 7 at 5:30pm hosted by the United New Auburn Association. Councilor Platz gave updates from the School Committee's budget schedule.

c. Student Representative Report – None.

d. City Manager Report – Mentioned the Auburn Tree Lighting occuring on December 8 at Festival Plaza and Holiday Parade. Recognized the PAL Center in their Thanksgiving meal giveaway event, and Student Representatives on their podcast for Absolutely Auburn which will air next week.

e. 2024 August & September Finance Reports – Kelsey Earle, Finance Director

Councilor Cowan moved to accept the 2024 August Finance Report, seconded by Councilor Milks. Motion passed 7-0.

Councilor Whiting moved to accept the 2024 September Finance Report, seconded by Councilor Milks. Motion passed 7-0.

VIII. Open Session

Jason Levesque, Youngs Corner Rd
Evan Cyr, Granite St
Michael Charest, Sixth St

IX. Executive Session

Councilor Weisner moved to suspend the rules to add an Executive Session to the agenda, seconded by Councilor Gerry. Motion passed 7-0.

Councilor Weisner moved to enter Executive Session pursuant to Title 1 Section 405 (6) (C) in regards to economic development matter related to the sale of 15 Academy St. Passed 7-0. Council entered executive session at 7:56pm. No action to follow.

X. Adjournment

Council came out of executive session and moved to adjourn by unanimous consent.

A TRUE COPY ATTEST

Emily F. Carrington, City Clerk

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024

Author: John Blais, Deputy Director of Public Services

Subject: Mayor's Bona-Fide Agricultural, Recreational and Natural Resources Land Use Ad-Hoc Committee

---

Background: The Ad-hoc committee met a total of 7 times to prepare the report of the Mayor's Ad-Hoc Bona fide Farming Agricultural, Recreational and Natural Land Use Committee.

Mayor Harmon convened the first meeting of the Committee on October 9, 2024. The Mayor reviewed the duties and responsibilities of the Committee including preparing agendas to be posted before every meeting, and preparing written minutes of each meeting. The Committee must provide a written report to the City Council. The date for the report was extended to December 16, 2024.

Information: Previous meeting information is available in the boards committee's web page: Mayor's Bona Fide Agricultural, Recreational, and Natural Resources Land Use Ad-Hoc Committee. A useful checklist guide was developed based on the report and the reviewed by the Ad-Hoc Committee. The committee accepted the report dated December 16, 2024 and reviewed the checklist, but noted there is a minority of the group, differing opinion concluded that ***principal use*** is to be interpreted as not required in the ordinance because "principal use" is never stated as part of the requirement under Section 60-145 (b) (2), under the definition of *accessory use* means a subordinate use of land or building which is customarily incidental and subordinate to the principal building or to the principal use of the land and which is located on the same lot with the principal building or use. This terminology could be further reviewed by staff with the Planning Board.

City Budgetary Impacts: Staff Time.

Staff Recommended Action: Review report, differing opinion, checklist and discuss. For the checklist, staff recommend a legal review against the ordinance prior to use.

Previous Meetings and History: Oct 9, 24, 29, Nov 7, 13, 21 and December 5.

City Manager Comments:

Signature: Phillip Crowell Jr.

Attachments: Report and Checklist

Report of the Mayor's Ad-Hoc Bona Fide Farming, Agricultural, Recreational and Natural Resources Land Use Committee

December 16, 2024

Creation of the Committee

The Committee was approved by order of the City Council on September 16, 2024.

Members of the Committee

The following individuals were appointed to the Committee: Chris Carson, David Bell, David Griswold, David Trask, Joe Gray, Barbara Mitchell, Philip Savignano, Amy Dietrich, and John Cleveland.

The Committee held seven public meeting in Auburn Hall in the Community Room. The meeting were posted on the City's website on the community calendar. The Committee met on the following dates: October 9, October 24, October 29, November 7, November 13, November 21, and December 5, 2024.

Committee's Charge from Mayor Harmon

Mayor Harmon convened the first meeting of the Committee on October 9, 2024. The Mayor reviewed the duties and responsibilities of the Committee including preparing agendas to be posted before every meeting, and preparing written minutes of each meeting. The Committee must provide a written report to the City Council. The date for the report was extended to December 16, 2024.

The Mayor explained that the charge of the Committee is to develop criteria to determine what constitutes a bona fide farming, agricultural, recreational or natural resource use in the Agricultural and Resource Protection Zone (AGRP) . The criteria will guide the planning staff and inform the public regarding the requirements for development in the AGRP zone before a dwelling can be permitted.

Committee's Purpose

The purpose of the Committee is to develop clear and objective criteria and a review process that will provide consistency in determining the principal use of the property and what constitutes a bona fide farming, agricultural, recreational, or natural resource use in the AGRP zone.

AGRP Zone Requirements for Development

The Agriculture and Resource Protection District in the City of Auburn Zoning Ordinance, Chapter 60 Article IV Section 2 Agriculture and Resource Protection District, Section 145 - Use Regulations requires that in evaluating an application for a proposed land use in the Agriculture and Resource Protection District, the Planning and Permitting Department shall make its determinations in the following order: first, whether the proposed use is allowed by permit or special exception in this District as the principal use of the property; second, whether the proposed use is a bona fide farming, agricultural, recreational or natural resource use; and third, if any residential dwelling is proposed, whether the dwelling is accessory to the proposed principal use.

Committee Recommendations

After careful consideration and extensive discussions, the Committee has developed criteria for determining if an application for development in the AGRP District is a **bona fide** farming, agricultural, recreational, or natural resource use. Some of the criteria are common to all four land uses and some are specific to a particular land use. The Committee recommends the Planning and Permitting Department use the criteria in the application process to acquire the information necessary to make findings that the proposed land use meets the requirement of being a bona fide farming, agricultural, recreational, or natural resource use.

The specific criteria for each land use can be found below.

City Council Implementation of the Committee's Recommendations.

The Committee recommends that the City Council review the Committee's recommendations and implement them in a manner that ensures their long term use and enforceability by current and future planning and permitting staff.

AD-Hoc Committee - Bona Fide Farming & Agriculture Criteria

Agriculture and Resource Protection District

In accordance with Chapter 60 , Article IV, Division 2 Agriculture and Resource Protection District Section 60-145(b)(2):

"*Provide a farm, agricultural, recreation, or natural resource use plan or land use plan that has been approved by the planning and permitting director or their designee. The planning and permitting director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit."*

And Subsection (i):

"*The business or proposed land use is feasible, and, and if implemented will constitute a bona bide farming, agricultural, recreational, or natural resource use allowed under subsection (a) permitted use, or subsection (b) special exception uses,…"*

In making the written findings required above the planning and permitting director or their designee must find that the principal use of the parcel is for farming, agricultural, recreational or natural resource use and any residential dwelling is an accessory to the principal use of the parcel and they must use the information derived from the following sources in making their written findings:

The planning director or their designee may request the following documents and information or other information that is relevant to the specific type of use:

1. A farming or agricultural plan and business plan. The plans must include sufficient information and details to the satisfaction of the planning director or their designee to make a finding that the principal use of the parcel is a bona fide farming, agricultural operation.

   For a farming or agricultural uses, the planning director and their designee may request a land use and business plan that includes at a minimum the following:
   a. The agricultural or farm products that will be produced,
   b. A soil quality analysis,
   c. Marketing plan,
   d. Financial plan,
   e. The feasibility and sustainability of the farming, agricultural land use,
   f. Topography of the parcel with contour intervals as requested by the planning director or their designee,
   g. Location of wetlands and/or water bodies on the parcel,
   h. Boundary lines of the parcel and its city lot number,
   i. A site plan drawn to scale and other maps, visuals, or graphics that depict the information requested.

2. The amount of time on a weekly, monthly, seasonal or yearly basis the applicant, members of their family or others engaged by the applicant, that will be expended on the operation of the farming and agricultural activities in the farming, agricultural and business plans.

3. Written Information regarding the applicants knowledge and skills regarding the operation of the farming, agricultural activity in the farm and business plan. This information may include but is not limited to certificates or diplomas related to farming, agricultural education or training, apprenticeships, previous farming experience, or other related information. If the applicant is engaging others in the operation of the farm, written documentation of their knowledge and skills for each such person ,as listed above for the applicant, shall also be listed.

4. Any arrangements the applicant intends to make with others (farmers, vendors, etc.) for services or products related to their farming operation as contained in the farming and business plans.

5. Documentation that shows right and title to the property. That may be a deed or an executed purchase and sale agreement that includes a condition that the sale is subject to obtaining a permit of a bona fide farm, agricultural use from the planning director or their designee.

Other information that the planning director or their designee may consider:

1. Written statement from the Maine Department of Inland Fisheries and Wildlife regarding significant wildlife habitats.

2. Written statement from the Maine Historic Preservation Commission regarding historic and archaeological assets on the parcel.

3. Written statement from the Maine Department of Inland Fisheries and Wildlife, the Maine Department of Agriculture, Conservation, and Forestry and Maine Natural Areas Program regarding endangered species of plants and animals.

4. Identification of any wetlands and vernal pools that will be impacted by the development of the farming, agricultural activities as submitted in the farm plan.

5. If the parcel is subject to Farm and Open Space Programs.

6. Identification of forested areas on the parcel that are enrolled in the Maine Tree Growth Program or in a carbon sequestration program, with copies of the terms of the agreements

AD-Hoc Committee - Bona Fide Recreation Criteria

Agriculture and Resource Protection District

In accordance with Chapter 60 , Article IV, Division 2 Agriculture and Resource Protection District Section 60-145(a)(1)(b)(2):

"Provide a farm, agricultural, recreation, or natural resource use plan or land use plan that has been approved by the planning and permitting director or their designee. The planning and permitting director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit."

And Subsection (2)(i):

"The business or proposed land use is feasible, and, and if implemented will constitute a bona bide farming, agricultural, recreational, or natural resource use allowed under subsection (a) permitted use, or subsection (b) special exception uses,…"

In making the written findings required above the planning and permitting director or their designee must find that the principal use of the parcel is for farming, agricultural, recreational or natural resource uses and any residential dwelling must be an accessory use to the principal use of the parcel. The director of planning and permitting or their designee must use the information derived from the following sources in making their written findings.

Bona Fide recreational uses include:

They are permanent **Outdoor** spaces intended or designed for public use, located on the owner's parcel of land. They may include but are not limited to:

<u>Larger Scale</u>

a. Golf courses (public or private) with related hospitality facilities
b. Disc golf
c. Driving Ranges
d. Horse boarding and riding facilities
e. Sports field complexes larger than 1 acre
f. Commercial campgrounds and RV parks
g. Mountain biking courses
h. Skeet shooting facilities
i. Public gardens, arboretums and botanical gardens
j. Cross country skiing

<u>Smaller Scale:</u>

a. Miniature golf,
b. Skate board facility,

c. Walking Trails,
d. Water or boat access facilities,
e. Outdoor education or training facilities.

The planning director or their designee may request the following documents and information or other information that is relevant to the specific type of use:

1. A recreational use and business plan. The plans must include sufficient information and details to the satisfaction of the planning director or their designee to make a finding that the principal use of the parcel is a bona fide recreational operation.

   For a recreational use, the planning director and their designee may request a land use and business plan that includes at a minimum but is not limited to the following:

Facilities to be constructed for and related to the recreational use,

a.. Parking area,
b. Trail heads,
c. Signage,
d. Restroom facilities,
e. Marketing plan,
f. Financial plan,
g. The feasibility and sustainability of the recreational land use,
h. Topography of the parcel with contour intervals as requested by the planning director or their designee,
i. Location of wetlands and/or water bodies on the parcel,
j. Boundary lines of the parcel and its city lot number,
k. A site plan drawn to scale and other maps, visuals, or graphics that depict the information requested.

2. The amount of time on a weekly, monthly, seasonal or yearly basis the applicant, members of their family or others engaged by the applicant will expended on the operation of the outdoor recreational use in the recreational use and business plans.

3. Written Information regarding the applicant's knowledge and skills regarding the operation of the proposed recreational use in the recreation and business plan. This information may include but is not limited to certificates or diplomas related to the recreation use, recreation education or training, apprenticeships, previous recreation operation experience, or other related information. If the applicant is engaging others in the operation of the recreation use written documentation of their knowledge and skills for each such person ,as listed above for the applicant, shall also be listed.

4. Any arrangements the applicant intends to make with others for services or products related to their recreational use operation as contained in the recreation and business plans.

5. Documentation that shows right and title to the property. That may be a deed or an executed purchase and sale agreement that includes a condition that the sale is subject to obtaining a permit of a bona fide recreational use from the planning director or their designee.

Other information that the planning director or their designee may consider:

1. 1.Written statement from the Maine Department of Inland Fisheries and Wildlife regarding significant wildlife habitats.

2. Written statement from the Maine Historic Preservation Commission regarding historic and archaeological assets on the parcel.

3. Written statement from the Maine Department of Inland Fisheries and Wildlife, the Maine Department of Agriculture, Conservation, and Forestry and Maine Natural Areas Program regarding endangered species of plants and animals.

4. Identification of any wetlands and vernal pools that will be impacted by the development of the recreational use as submitted in the recreation plan.

5. If the parcel is subject to Farm and Open Space Programs.

6. Identification of forested areas on the parcel that are enrolled in the Maine Tree Growth Program or in a carbon sequestration program, with copies of the terms of the agreements.

AD-Hoc Committee - Bona Fide Natural Resource Uses Criteria

Agriculture and Resource Protection District

In accordance with Chapter 60 , Article IV, Division 2 Agriculture and Resource Protection District Section 60-145(a)(1)(b)(2):

"Provide a farm, agricultural, recreation, or natural resource use plan or land use plan that has been approved by the planning and permitting director or their designee. The planning and permitting director or their designee must make the following written findings prior to approval of the business plan or land use plan and prior to the issuance of a building permit."

And Subsection (2)(i):

"The business or proposed land use is feasible, and, and if implemented will constitute a bona bide farming, agricultural, recreational, or natural resource use allowed under subsection (a) permitted use, or subsection (b) special exception uses,…"

Definition:

Natural resource uses means uses that utilize naturally occurring assets such as air, water, soils, fuel, minerals, plants or animals to provide public benefit through the provision of raw materials and/or energy.

In making the written findings required above the planning and permitting director or their designee must find that the principal use of the parcel is for farming, agricultural, recreational or natural resource uses and any residential dwelling must be an accessory use to the principal use of the parcel. The director of planning and permitting or their designee must use the information derived from the following sources in making their written findings.

Bona Fide natural resource uses may include but are not limited to:

a. Extraction of top soils and composing of organic materials to create top soils and mulch.
b. Extraction and processing of aggregate materials including sand, gravel, clay, rock and ledge.
c. Extraction of minerals.
d. Extraction and bottling of ground water.
e. Forestry management, including CO2 sequestration

The planning director or their designee may request the following documents and information or other information that is relevant to the specific type of use:

A natural resource use and business plan. The plans must include sufficient information and details to the satisfaction of the planning director or their designee to make a finding that the principal use of the parcel is a bona fide natural resource use operation.

For a natural resource use, the planning director and their designee may request a land use plan, a business plan and a forest management plan that includes at a minimum but is not limited to the following:

a. The raw materials or energy product that will be extracted or produced,
b. An estimate of the quantity of natural resource material available on the parcel,
c. Marketing plan,
d. Financial plan,
e. The feasibility and sustainability of the natural resource land use,
f. Topography of the parcel with contour intervals as requested by the planning director or their designee,
g. Location of wetlands and/or water bodies on the parcel,
h. Boundary lines of the parcel and its city lot number,
i. A site plan drawn to scale and other maps, visuals, or graphics that depict the information requested.

1. The amount of time on a weekly, monthly, seasonal or yearly basis the applicant, members of their family or others engaged by the application will be expending on the operation of the natural resource activity in the natural resource and business plans.

2. Written Information regarding the applicants knowledge and skills related to the operation of the natural resource activity in the natural resource and business plans. This information may include but is not limited to certificates or diplomas related to the natural resource activity, education or training, apprenticeships, previous natural resource experience, or other related information. If the applicant is engaging others in the operation of the natural resource activity written documentation of their knowledge and skills for each such person ,as listed above for the applicant, shall also be listed.

3. Any arrangements the applicant intends to make with others for services or products related to their natural resource operation as contained in the natural resource and business plans.

4. Documentation that shows right and title to the property. That may be a deed or an executed purchase and sale agreement that includes a condition that

the sale is subject to obtaining a finding of a bona fide natural resource use from the planning director or their designee.

Other information that the planning director or their designee may consider:

1. Written statement from the Maine Department of Inland Fisheries and Wildlife regarding significant wildlife habitats.

2. Written statement from the Maine Historic Preservation Commission regarding historic and archaeological assets on the parcel.

3. Written statement from the Maine Department of Inland Fisheries and Wildlife, the Maine Department of Agriculture, Conservation, and Forestry and Maine Natural Areas Program regarding endangered species of plants and animals.

4. Any wetlands and vernal pools that will be impacted by the development of the natural resource use as submitted in the natural resource plan.

5. If the parcel is subject to Farm and Open Space Programs.

6. Identification of forested areas on the parcel that are enrolled in the Maine Tree Growth Program or in a carbon sequestration program, with copies of the terms of the agreements

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024 RESOLVE 7-11042024

Author: Eric Cousens – Director of Planning and Permitting

Subject: Interim Rail Trail Resolve

Information: Mayor Harmon has requested Staff to prepare a resolve and information sheet pertaining to the future use of the State-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland.

A Portland to Auburn Rail Use Advisory Council was formed by the Maine DOT as a result of LD 1133 (an Act to Amend the Transportation Laws). The Council was tasked with reviewing the approximately 26.5-mile section of the St. Lawrence and Atlantic Rail Corridor and provide recommendations on the likelihood, economic benefits and costs of potential uses of the rail corridor. The trail has significant benefits for active transportation.

In January of 2023 the Portland to Auburn Rail Use Advisory Council provided three recommendations:
- Interim Trail until Rail: A paved trail (7 votes)
- Rail with Trail: A trail built alongside the existing tracks (5 votes)
- Rail Use Only: Keeping the tracks in place (1 votes)

Out of the three options the City of Auburn supported a "*rail with trail*" recommendation in an attempt to promote the substantial benefits of the trail while also preserving the best chance of freight or passenger rail use in the future.

With "rail with trail" no longer being a policy option, the City must consider whether it supports using the railway as an interim trail between Portland and Auburn as part of the Casco Bay Trail.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Consider resolve and vote to adopt revised position given the limited choices that are now available.

RESOLVE 7-11042024

City Council Resolve

IN CITY COUNCIL

WHEREAS, the Commissioner of the Maine Department of Transportation, pursuant to Public Law 21, Chapter 239, established a Rail Use Advisory Council to facilitate discussion, gather information, and provide advice regarding the future use of the state-owned section of the St. Lawrence and Atlantic Railroad Berlin Subdivision between Auburn and Portland; and

WHEREAS, the City of Auburn was provided a seat on said Council to provide input on city plans and policies relating to the future use of this rail corridor; and

WHEREAS, the State of Maine acquired this corridor through two purchases, one in 2007 and another in 2010, as part of on-going planning for freight and passenger movements between the City of Portland and the City of Auburn; and

WHEREAS, the city has identified south Auburn as a growth area in its most recent Comprehensive Plan and multi-modal use of this corridor, including for active transportation, would increase its attractiveness for residential and commercial investment; and

WHEREAS, the City of Auburn previously supported a "rail with trail" recommendation; and

WHEREAS, the "rail with trail" option is no longer an available policy option, and the legislature will consider a recommendation of rail, trail, or interim trail; and

WHEREAS, the establishment of an "interim trail' along this corridor is integral to the establishment of the Casco Bay Trail;

NOW THEREFORE BE IT RESOLVED, that the Auburn City Council supports an "interim trail" recommendation from the Rail Use Advisory Council and the expedited advancement of any necessary planning and design work to implement that recommendation between the city of Portland, and the city of Auburn as part of the Casco Bay Trail.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024 **Ordinance 22-12022024**

Author: Jason Moen, Chief of Police

Subject: Ordinance Amendment Sec. 52-320. - Parking prohibited at all times.

Information: On 08/26/24, Chief Moen implemented a temporary 90 Day parking restriction on Eighth St. from Broad St. northwest to the dead end of Eighth St. prohibiting parking on both sides of the street. City Council needs to take action to make the restriction permanent and amend the table in Sec. 52-320. - Parking prohibited at all times to add Eighth St. from Broad St. Northwest to the Dead End of Eighth St.

City Budgetary Impacts: None

Staff Recommended Action: Hold second reading/public hearing on the proposed amendment.

Previous Meetings and History: Passed first reading on 12/2/24 (as amended) 7-0.

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell J.

Newbury Street	On the west side extending from Laurel Avenue to Pole #6, Central Maine Power Company.
	On the northeasterly side beginning at a point just opposite Pole #4 and extending easterly for a distance of 134 feet.
Niskayuna Street	On the northerly side beginning at Center Street and extending in a westerly direction for a distance of 200 feet.
Northern Avenue	On the westerly side beginning at Cross Street and extending in a northerly direction for a distance of 166 feet.

City Council Ordinance

Old Danville Road	On the westerly side beginning at a point 346 feet from the sideline of Danville Corner Road; thence proceeding in a southerly direction for a distance of 190 feet and being essentially the distance between the two driveways at #711 Old Danville Road.
Park Avenue	On the easterly side beginning at Gamage Avenue and extending in a northerly direction to a point opposite CMP Pole #44, by Auburn Methodist Church.
Parker Street	From Summer Street on both sides northerly to Turner Street.
	On the westerly side between Summer and Winter Streets.
Pettengill Road	On the easterly side from Oak Hill Road in a northerly direction for a distance of 1,060 feet.
	On the westerly side beginning at CMP Pole #3 and extending northerly for a distance of 484 feet.
Pleasant Street	On the east side beginning at Hampshire Street and extending in a southerly direction for a distance of 38 feet.
	On the east side beginning at Court Street and extending in a southerly direction to the intersection of Elm Street.
	On the east side beginning at Court Street and extending in a southerly direction for a distance of 151 feet.
	On the easterly side beginning at Turner Street and extending southerly for a distance of 68 feet.
	On the westerly side beginning at Hampshire Street and extending northerly for a distance of 100 feet.
	On the westerly side beginning 132 feet from Hampshire Street and extending southerly for a distance of 56 feet.
Poland Road	On the southeasterly side between Minot Avenue and Atwood Street.
Pride Road	On the west side beginning at Minot Avenue and running in a southerly direction for 300 feet.
Pulsifer Street	On the westerly side beginning at a point 250 feet northerly of the northerly curbline of Mill Street and extending 140 feet around the corner onto Second Street.
Reed Street	On the southeasterly side between Turner Street and Whitney Street.
Rowe Street	On the southeasterly side from Winter Street to Turner Street.
Sandy Beach Road	On the southerly side for its full length.
School Street	On both sides, from Troy Street to Union Street Bypass.
Sherwood Drive	On the westerly side from Marian Drive to 19th Street.
South Goff Street	On the easterly side for its full length.
South Main Street	On the east side beginning at Memorial Bridge and extending southerly for 41 feet.
	On both sides between CMP Poles 87 and 91 as presently located.
	On the easterly side beginning at a point 83 feet southerly from the end of the Memorial Bridge across the Little Androscoggin River and extending in a southerly direction for a distance of 47 feet.
	On the westerly side beginning at Mill Street and extending northerly to the Memorial Bridge.

City Council Ordinance

	On the easterly side beginning at the southerly curbline of Broad Street and extending southerly for distance of 84 feet.
Spring Road	On both sides beginning at the Auburn Water District gate located nearest to West Auburn Road and extending in a southerly direction for a distance of 173 feet, including the turnaround.
Spring Street	On the westerly side beginning at Elm Street and extending in a northerly direction for a distance of 172 feet.
	On the easterly side beginning at Court Street and extending in a northerly direction for a distance of 100 feet.
	On the west side beginning at a point 278 feet from Court Street and extending in a southerly direction for 330 feet.
	On the westerly side between Hampshire Street and Troy Street.
	On the westerly side beginning at Court Street and extending northerly for a distance of 60 feet.
	On the westerly side beginning at Court Street and extending southerly for a distance of 158 feet.
	On the easterly side beginning at Court Street and extending southerly for a distance of 174 feet.
Stetson Road	On the southerly side beginning opposite Central Maine Power Pole #14 and extending easterly for 790 feet.
Stevens Mill Road	On the southwesterly side beginning at the intersection of Court Street and running in a northwesterly direction for a distance of 450 feet.
	On both sides from Minot Avenue to Court Street.
	On the northerly side beginning at Garfield Road and extending westerly to the end of the street.
Summer Street	On the northerly side from Dennison Street to Rowe Street.
Temple Street	On the west side beginning at Manley Street and extending to the dead end.
Troy Street	On both sides, for its full length.
Turner Road	On both sides beginning at the northerly intersection of Turner Street and Center Street and extending northerly to the intersection of Fair Street and Turner Road.
Turner Street	On the easterly side from Court Street to the Turner Street entrance to the Great Falls Plaza.
	On the southerly side beginning at the easterly curbline of Dennison Street and extending easterly for a distance of 104 feet.
	On the easterly side beginning at a point opposite the southerly side of Pleasant Street and extending in a northerly direction to Center Street.
	On the northerly side from Lake Auburn Avenue to French's Lane.
	On the westerly side between Pleasant Street and Center Street.
	On the westerly side beginning at the southerly curbline of Hampshire Street and extending southerly for a distance of 80 feet.
	On the northerly side beginning at Center Street and extending westerly for a distance of 212 feet.
	On the southerly side between Burns Street and Union Street Bypass.
	Opposite Church Street at no parking signs.

City Council Ordinance

Union Street	On both sides from Court Street to the intersection of Center and Turner Streets.
Vine Street	On the northerly side for its full length.
	On the southerly side beginning at the easterly curbline of High Street and extending in an easterly direction for a distance of 70 feet.
Vining Street	On the southerly side from Winter Street easterly to Summer Street.
Washington Street	On the southbound lane, beginning at Minot Avenue and extending in a southerly direction to Brick Yard Hill.
	On the northbound lane, beginning at Brick Yard Hill and extending in a northerly direction to the intersection of Minot Avenue.
West Auburn Road	On the westerly side beginning at a point opposite the northerly line of Summer Street and extending in a northerly direction for a distance of 1,425 feet.
	On the easterly side beginning at CMP Pole #146 and extending northerly 288 feet.
Western Avenue	On the westerly side beginning at the northerly curbline of Minot Avenue and extending in a northerly direction for a distance of 80 feet.
	Beginning on the easterly side at the northerly curbline of Minot Avenue and extending in a northerly direction for 115 feet.
Western Prom	South side.
Whitney Street	On the northerly side beginning at the northeasterly corner of Lake Auburn Avenue, extending in an easterly direction for a distance of 70 feet.
Willow Street	On the westerly side beginning at Hampshire Street and extending in a northerly direction to Manley Street, between 7:30 a.m. and 4:30 p.m. on days when Webster School is in session.
Wilson Street	On both sides from Field Avenue to the end.
Wood Street	On the easterly side for its full length.
Youngs Corner Road	On the southerly side beginning at a point located 490 feet easterly of Perkins Ridge Road and extending in an easterly direction for 270 feet.
	On the southerly side beginning at a point 1,230 feet easterly of Perkins Ridge Road and extending in an easterly direction for a distance of 310 feet.

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024 **Ordinance 23-12022024**

Author: Natalie Thomsen – Planning Coordinator

Subject: Text Amendments related to 30-A M.R.S. §§ 4364, 4364-A and 4364-B more commonly known as L.D. 2003

II. **Background:**

The Legislature passed in 2021 a series of housing amendments commonly referred to as "LD 2003," which were intended to increase opportunities for affordable housing to be developed statewide. These laws, codified at 30-A M.R.S. §§ 4364, 4364-A and 4364-B, require that municipal ordinances comply with the stated provisions by January 1, 2024. More information can be found in attached Planning Board Staff Report dated November 12, 2024

On **May 28, 2024**, the Planning Board held a workshop to discuss text amendments to Auburn's ordinance required for compliance with L.D. 2003. Staff presented proposed changes to Chapter 60 based on feedback from the LD 2003 Ad Hoc Committee. During this meeting, the Board reviewed and updated the minimum lot size requirements in the MFS, GB, and GBII zoning districts.

On **September 25, 2024**, the City Manager, Phillip L. Crowell, Jr., issued a directive after reviewing the proposed amendments. He requested that the Planning Board align the draft more closely with the requirements of L.D. 2003. Specifically, the City Manager recommended limiting accessory dwelling units (ADUs) to a maximum of 1,500 square feet and requiring the same minimum lot size for each additional unit (except ADUs) as for the first unit in residential zones. These adjustments would bring the ordinance into compliance while leaving broader decisions on housing policy and density for the Comprehensive Plan update.

On **October 8, 2024**, the Planning Board held another workshop to refine the proposed amendments. The discussion focused on size limits for accessory structures, leading the Board to decide to separate the topics of density and accessory structure sizing for the public hearing. This separation allowed the public to comment on each issue individually and ensured thorough deliberation by the Board.

On **November 12, 2024**, the Planning Board held a public hearing on the proposed text amendments. After receiving public input, the Board voted to recommend the changes to the City Council. The amendments included defining ADUs with a maximum size of 1,500 square feet, revising the definition of "accessory structure," and making updates to various sections of Chapter 60. These revisions addressed density and parking requirements, ensuring compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B, while also reflecting the minimum lot size adjustments that were requested.

Information: The Planning Board provided a favorable recommendation to City Council on a text amendment on November 12, 2024, which included recommendations to limit accessory dwelling units (ADUs) to a maximum size of 1,500 square feet and to require minimum lot size standards for additional dwelling units consistent with the lot size for the first unit in residential zones.

See Attached: Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code (Sec. 60-554. - Form based code use and parking matrix.), Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

City Budgetary Impacts: Staff Time

Staff Recommended Action: Workshop. Review the attached text amendment and provide feedback.

Previous Meetings and History: The Planning Board held workshops on May 28, 2024 and October 8, 2024, to discuss proposed text amendments, leading up to a final vote on November 12, 2024. At this Public Hearing, the Planning Board voted 6-1 to recommend the amendments to the City Council. This item was postponed on 12/2/2024.

City Manager Comments: The manager recommends this proceed to the council meeting for first reading. The proposed ordinances from the planning board includes non-substantive changes for clarity and context.

Signature: Phillip Crowell Jr.

Auburn Planning Board
Author: Natalie Thomsen, Planning Coordinator
Subject: Item # Staff Report on L.D. 2003 Workshop

I. Proposal: Public Hearing on L.D. 2003 Ordinance Updates/Priorities:
Review and give feedback on text amendment to Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60.

II. Background:
The Legislature passed in 2021 a series of housing amendments commonly referred to as "LD 2003," which were intended to increase opportunities for affordable housing to be developed statewide. These laws, codified at 30-A M.R.S. §§ 4364, 4364-A and 4364-B, require that municipal ordinances comply with the stated provisions by January 1, 2024.

Summary of L.D. 2003: L.D. 2003, An Act to Implement the Recommendations of the Commission to Increase Housing Opportunities in Maine by Studying Zoning and Land Use Restrictions, Sponsored by Speaker Ryan Fecteau, was signed into law by Governor Mills on April 27th, 2022. The law, in summary, requires that: 1.) Towns and cities with a comprehensive plan allow at least four units on a vacant lot in the designated growth area, and towns and villages without a comprehensive plan allow at least 4 units on vacant lots in areas served by sewer and water; 2.) Lots with an existing dwelling unit may have two additional dwelling units either one attached dwelling, one detached dwelling, or one of each; and 3.) "Affordable" housing developments must be allowed to be built at 2.5 times the density of market-rate units if they meet the conditions listed above (availability of sewer and water or within a designated growth area).

Summary of L.D. 1473: L.D. 1473 An Act to Protect Certain Unfiltered Drinking Water Sources, approved as public law on June 22, 2023, amends 30-A MRSA §4364, sub-§9, 30-A MRSA §4364-A, sub-§1-A, and 30-A MRSA §4364-B, sub-§1-A to exempt parts of Auburn which are in the Lake Auburn Watershed from the requirements of L.D. 2003 to protect the lake as an unfiltered drinking water source.

Summary of L.D. 1706: L.D. 1706, An Act to Clarify Laws Regarding Affordable Housing and Accessory Dwelling Units, approved as public law on June 16th, 2023, among other accomplishments, adds that the implementation date for L.D. 2003 must be

January 1, 2024, for municipalities with ordinances, and July 1, 2024, for all other municipalities.

The planning board held a workshop on text amendments to Auburn's ordinance required to comply with L.D. 2003. On May 28 and October 08, the planning board reviewed staff's suggestion for amendments to Chapter 60 based on feedback from the LD 2003 Ad Hoc Committee. At this past workshop, the planning board asked for a legal opinion on the correct way to interpret some of the text of LD 2003. Below, staff has outlined the Planning Board's questions and in the summarized text amendment below, highlighted the uncertain language:

1. Do we need to allow multifamily units in land use zones that currently do not allow multi-family units? (UR, SR, RR, LDCR). A Board member has suggested that we could restrict the use to no more than 2 units per building and still meet the requirement of allowing four units in the growth are but not as a single 4-unit building. Instead, allowing 2, 2-unit buildings would meet the laws requirement to allow 4 units. Would the Planning Board prefer that multifamily buildings continue to be prohibited in certain zones?

2. We will likely make the ordinance retroactive to January 1, 2024, for the determination of vacant land vs. existing units and the allowable number of units. If the city does not make the ordinance retroactive, will that effect property owners that built in good faith of the rule change after January 1, 2024, and planned for more units when the City finishes the adoption process?

3. Can we drop the reference to the latest 30-A MRSA subsection 4364? Or should we reference that as the purpose of the changes. It seems unnecessary as long as we allow the required unit permissions to comply.

The draft available for the planning board has also updated the minimum lot size in the table for the MFS, GB, and GBII zoning districts reflecting the conversation which took place during the May 28 meeting.

During the October 8, 2024, Planning Board workshop, there was extensive discussion regarding the proposed size limits for accessory structures within the amendment to "Sec. 60-2. Definitions." The Board decided that, for the upcoming Public Hearing, the topics of density and accessory structure sizing should be treated as separate items. This approach will allow the public to provide input on each topic individually and ensure the Board has the opportunity to deliberate and vote on them separately, recognizing their distinct impacts on the overall amendment.

III. **Suggested Ordinance Amendments:** See Attached A Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form

Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

IV. **Staff Recommended Action:** Consider feedback from the Public Hearing and send the recommended text change to the City Council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

V. **PLANNING BOARD ACTION/STAFF RECOMMENDATIONS:** Consider feedback from the Public Hearing and send the recommended text change to City Council related to edits established in Sec. 60-2, Definitions, specifically focusing on the definition of "accessory structure" and setting the maximum allowable size for such structures at 1,500 sq. ft.

Consider feedback from the Public Hearing and send the recommended text change to City Council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

VI. **Potential Motion:** I make a motion to forward a favorable recommendation to the city council related to edits established in Sec. 60-2, Definitions, specifically focusing on the definition of "accessory structure" and setting the maximum allowable size for such structures at 1,500 sq. Ft.

I make a motion to forward a favorable recommendation to the city council related to edits established in Article II- General Provisions, Article IV Division 3- Low Density Country Residential District, Division 4- Low Density Rural Residence District, Division 5- Suburban Residence District, Division 6- Urban Residence District, Division 7- Multifamily Suburban District, Division 14 Form Based Code, Sec. 60-2 Definitions, and Article V- Off-Street Parking and Loading, all within Chapter 60, specifically pertaining to density and parking standards, as required for compliance with 30-A M.R.S. §§ 4364, 4364-A, and 4364-B.

Ordinance 23-12022024

City Council Ordinance

IN CITY COUNCIL

Be it ordained, that the City Council hereby amends Chapter 60 - ZONING of the City's Code of Ordinances as shown on the attached.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

ARTICLE II. GENERAL PROVISIONS

Sec. 60-34. Buildings per lot.

No more than one principal building shall be erected on any lot in residential zoning districts except for:

(1) Multi-family buildings and/or developments approved under Division 9 of Article IV of this chapter;

(2) ~~An additional one-family detached~~The addition of an accessory dwelling unit in a zoning district where two-family~~ies~~ dwelling units are permitted, and a single-family dwelling currently exists on the lot.

(3) Four dwelling units may be constructed on vacant lots in the growth area as delineated in the Future Land Use Map in the most recent Comprehensive Plan and must be permissible in compliance with State Law and in accordance with Sec. 60-53 and Sec. 60-54. For the purpose of this Subsection, a vacant lot upon which a new dwelling unit was permitted in 2024 shall be considered a vacant lot for the purpose of calculating the total number of permissible dwelling units that may be constructed on the lot.

(4) A lot in the growth area as delineated in the Future Land Use Map in the most recent Comprehensive Plan with an existing dwelling unit may add one attached dwelling unit, one detached dwelling unit, or one of each for a total of three dwelling units and must be permissible in compliance with State Law and in accordance with Sec. 60-53 and Sec. 60-54.

(5) Lots in the designated growth areas that are zoned Urban Residential, Suburban Residential, Rural Residential, and Low-Density Country Residential shall contain no more than two dwelling units per building.

The additional one-family detached dwelling unit shall share a driveway curb cut with the pre-existing dwelling unless it is determined that another driveway location could provide safer access than the existing driveway.

(Ord. of 9-21-2009, § 3.1B; Ord. No. 11-03012021, § 1, 3-15-2021; Ord. No. 18-04052021, 5-3-2021)

Sec. 60-35. Conversion of one-family dwellings.

In all residential, general business and form based code districts, one-family dwellings erected prior to January 1, 1958, may be converted to two-family dwellings provided that:

(1) Any floor space created by additions to the existing structure after January 1, 1958, shall not be converted to a second dwelling.

(2) There will not be less than one accessible off-street parking place of 200 square feet in area, exclusive of driveways, per dwelling unit resulting from such conversion.

(3) Stairways leading to any floor above the first floor will be enclosed within the exterior walls of the dwelling and any fire escapes required will be on the rear or one side of the dwelling and not on any wall facing a street.

(4) After such conversion, the building converted will retain substantially the appearance and character of a one-family dwelling.

(5) Single family dwellings may be converted into two or multi-family buildings if located in the growth area as delineated in the Future Land Use Map of the most recent Comprehensive Plan and pursuant to Sec. 60-53 and Sec. 60-54.

(6) Lots in the designated growth areas that are zoned Urban Residential, Suburban Residential, Rural Residential, and Low-Density Country Residential shall contain no more than two dwelling units per building.

(Ord. of 9-21-2009, § 3.1C; Ord. No. 04-03072016, 5-16-2016)

Secs. 60-53. Additional dwellings permitted to increase housing opportunity.

Additional dwelling units must be permissible on certain parcels in the City of Auburn pursuant to Sec. 60-34. This table specifies the additional lot area needed for additional units in each zoning district as well as permissible accessory dwelling units. Setback standards shall not be reduced to allow for additional dwelling units and shall not be increased for subsequent dwelling units. Additional dwelling units allowed under this section are prohibited in the Lake Auburn Watershed Overlay District where the underlying zoning district is Agriculture and Resource Protection. Additional dwelling units allowed under this section are subject to more stringent lot size requirements per unit if located in the Taylor Pond Watershed.

Zoning District	Minimum lot area (per unit)	Minimum lot width (per unit)	Accessory Dwelling Unit
Agriculture & Resource Protection	10 acres	250 feet	Permitted if unit meets requirements for single family home in Article IV, Division 2 of this Chapter*
Low Density Country Residence	3 acres for the first unit with accessory dwelling unit. 3 acres for each subsequent unit.	325 feet for the first unit. No width is required for subsequent units.	Permitted
Low Density Rural Residence	1 acre for the first unit with accessory dwelling unit. 1 acre for each subsequent unit.	250 feet for the first unit. No additional width is required for subsequent units.	Permitted
Suburban Residence	21,780 square feet for the first unit with accessory dwelling unit. 21,780 square feet for each subsequent unit.	150 feet for the first unit. No additional width is required for subsequent units.	Permitted

Urban Residence	10,000 square feet for the first unit with accessory dwelling unit. 10,000 additional square feet per unit for each subsequent unit.	100 feet for the first unit. No additional width is required for subsequent units.	Permitted
Multifamily Suburban	10,000 square feet minimum.	100 feet for the first unit. No additional width is required for subsequent units.	Permitted
General Business	10,000 square feet minimum.	100 feet for the first unit. No additional width is required for subsequent units.	Permitted
General Business II	10,000 square feet minimum.	100 feet for the first unit. No additional width is required for subsequent units.	Permitted
Form Based Code	No minimum lot size. See Ch. 60 Article IV Division 14	24 feet minimum width. See Ch. 60 Article IV Division 14	Permitted
Industrial	Housing only permitted as accessory buildings for caretakers (see Sec.60-578)	150 feet	Permitted for legally existing residential dwellings built before January 1, 2024.
Lake Auburn Watershed Overlay District	Please refer to the underlying zone and CH. 60 Article XII Division 4. Sec. 60-	Please refer to the underlying zone and CH. 60 Article XII Division 4.	Permitted subject to Lake Auburn Watershed Overlay District accessory dwelling unit allowances.
Taylor Pond Watershed	Minimum lot size in the underlying zone for the first unit with accessory dwelling unit. Minimum lot size is required for each additional unit.	Minimum width required in the underlying zone. No additional width required for subsequent units.	Permitted

*Does not apply if within the Lake Auburn Watershed Overlay District.

Secs. 60-54. Affordable housing density bonus.

For an affordable housing development, a density bonus of 2.5 times the maximum number of dwelling units permitted in the underlying zone shall be permitted where water and sewer service are available, and the development is in the growth area as delineated in the Future Land Use Map in Auburn's latest Comprehensive Plan. Off-street parking requirements may not exceed two spaces for every three units.

ARTICLE IV. DISTRICT REGULATIONS

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outlined here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

(Ord. of 9-21-2009, § 3.31A)

DIVISION 3. LOW DENSITY COUNTRY RESIDENTIAL DISTRICT

Sec. 60-201. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District, except uses allowed by section 60-145(a)(8), (14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Lawn maintenance services.

(5) Multi-family dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this Chapter. Subdivision law applies.

(b) *Special exception uses*. The following uses are permitted by special exception after approval by the planning board in accordance with the provisions of division 3 of article XVI of this chapter:

(1) All uses permitted by special exception in the Agriculture and Resource Protection (AR) District, (division 2 of article IV of this chapter), except uses allowed by section 60-172(b)(7), (14), and (15).

(2) Bed and breakfast.

(3) Adaptive reuse of structures of community significance.

(Ord. of 9-21-2009, § 3.32B; Ord. 33-02072011-08, 2-7-2011; Ord. No. 08-08012011-07b, 8-1-2011; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 11-08192019, 9-9-2019; Ord. No. 11-03012021, § 9, 3-15-2021; Ord. No. 27-06212021, 7-19-2021)

DIVISION 4. LOW DENSITY RURAL RESIDENCE DISTRICT

Sec. 60-229. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) All uses permitted in the Agriculture and Resource Protection District pursuant to section 60-145(a), except 60-145(a)(14) and (15).

(2) One-family detached dwellings.

(3) Two-family dwellings.

(4) Attached single-family dwellings, provided that they are approved by the Planning Board as part of a planned residential unit development and subdivision, under the provisions of Division 9 of Article IV and Division 4 of Article XVI of this chapter.

(5) Mobile home parks, subject to the requirements and conditions of section 60-669, mobile home park standards.

(6) Licensed veterinarians provided that the lot is of at least three acres.

(7) Wayside stands.

(8) Accessory uses, buildings or structures.

(9) Lawn maintenance services.

(10) Municipal uses and buildings.

(11) Multi-family dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 5. SUBURBAN RESIDENCE DISTRICT

Sec. 60-255. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Attached single-family dwellings, provided that they are approved by the Planning Board as part of a planned residential unit development and subdivision, under the provisions of Division 9 of Article IV and Division 4 of Article XVI of this chapter.

(4) Mobile home parks, subject to the requirements and conditions of section 60-669, mobile home park standards.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Greenhouses.

(7) Licensed veterinarians, provided that the lot containing same is of at least three acres.

(8) Farm, livestock provided that the land area required per animal unit conforms to the definition of farm, livestock contained in section 60-2 and:

a. A site plan be submitted to the municipal officer charged with enforcement that contains the information required by section 60-1301.

b. Upon request, the municipal officer charged with enforcement may waive the necessity of providing any of the foregoing information which is not relevant to the proposed development.

c. In judging whether or not a permit to operate an animal farm will be issued, the municipal officer charged with enforcement shall review and make a decision consistent with the finding requirements of section 60-1304.

(9) Wayside stands.

(10) Accessory uses, buildings or structures.

(11) Lawn maintenance services.

(12) Municipal uses and buildings.

(13) Multi-family dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 6. URBAN RESIDENCE DISTRICT

Sec. 60-277. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Attached single-family dwellings, provided that they are approved by the Planning Board as part of a planned residential unit development and subdivision, under the provisions of Division 9 of Article IV and Division 4 of Article XVI of this chapter.

(4) Accessory uses building or structures.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Municipal uses and buildings.

(7) Multi-family dwellings with up to four (4) units if in the growth area delineated in the Future Land Use Map in the most recent Comprehensive Plan pursuant to 30-A MRSA §4364 and to Sec. 60-53 and Sec. 60-54 of this chapter. Subdivision law applies.

DIVISION 7. MULTIFAMILY SUBURBAN DISTRICT

Sec. 60-306. Use regulations.

(a) *Permitted uses.* The following uses are permitted:

(1) One-family detached dwellings.

(2) Two-family dwellings.

(3) Multi-family dwellings ~~in existence on September 23, 1988~~.

(4) Attached single-family dwellings, provided that they are approved by the Planning Board as part of a planned residential unit development and subdivision, under the provisions of Division 9 of Article IV and division 4 of Article XVI of this chapter.

(5) Farming of field crops, row crops, orchards or truck gardens.

(6) Shelter for abused persons.

(7) Accessory uses, buildings or structures.

(8) Newly constructed multi-family dwellings and existing structures expanded to contain three or more additional dwelling units within a five-year period, provided that they are approved by the Planning Board as a subdivision under Division 4 of Article XVI of this chapter.

(9) Municipal uses and buildings.

Sec. 60-554. Form based code use and parking matrix.

Notes:

(1) Uses not listed are considered prohibited unless deemed similar by the Director of Planning or by the Planning Board through a special exception approval.

(2) * Parking requirements in T-4.1, T-4.2B, T-4.2, T-5.1, T-5.2 and T-6 may be provided by the municipality or private parking resources within 500 feet of the principal building, subject to Planning Board approval.

(3) Where more than 50 percent of floor space is devoted to age restricted goods. This may include licensed adult use or medical marijuana stores.

(4) Office, service and retail uses limited to 1,500 SF footprint and must include a residential unit; no drive through businesses allowed.

(5) All projects shall provide a community impact and needs analysis with review and approval from City Council or its designee.

(6) For an affordable housing development, off-street parking requirements may not exceed 2 spaces for every 3 units.

(Ord. No. 04-03072016, 5-16-2016; Ord. No. 05-04032017, § 2, 4-24-2017; Ord. No. 07-05202019, 6-3-2019; Ord. No. 29-06212021, 7-19-2021; Ord. No. 20-09062022, § 3, 9-19-2022; Ord. No. 02-02132023, 2-17-2023)

Sec. 60-608. Parking requirements.

A minimum number of off-street parking spaces shall be provided with each residential use permitted, erected, altered or changed, in accordance with the following standards:

Off-street land use	Minimum number of parking spaces
Residential	
Single-family; farm	1 dwelling per unit
Multi-family; two-family	1 dwelling per unit
Elderly**	One-half per dwelling unit
Affordable housing development	Off-street parking requirement may not exceed 2 spaces for every 3 units.
**Applies to elderly housing as constructed under special local, state or federal guidelines restricting occupancy to elderly persons.	

(Ord. of 9-21-2009, § 4.1B; Ord. No. 28-06212021, 7-19-2021)

Sec. 60-2. Definitions.

For the purposes of this chapter, the following words and terms as used herein shall have the meanings or limitations of meaning hereby defined, explained or assigned:

Accessory structure or building means a~~n uninhabited~~ building, at least five feet in distance from the principal building, used for a purpose which is customarily subordinate and incidental to that of the principal building or to the principal use of the land and which is located on the same lot as the principal building use. The term "accessory buildings," in residential districts, includes tool sheds, woodsheds, detached garages and swimming pools. No accessory building shall house a home occupation or professional office or be used as a sales outlet in a residential district.

Accessory dwelling unit means a self-contained dwelling unit meeting a minimum of 190 square feet and not to exceed 1,500 square feet, that can be located within, attached to or detached from a single-family dwelling unit located on the same parcel of land

Accessory use means a subordinate use of land or building which is customarily incidental and subordinate to the principal building or to the principal use of the land and which is located on the same lot with the principal building or use.

Adaptive reuse means a special exception permitting a structure of community significance to be used for one or more purposes, not otherwise permitted in the district in which the building is located, but which the planning board has determined will contribute to the preservation of a structure of community significance, including without limitation, the following uses:

(1) Bed and breakfast homes or inns;

(2) Restaurants, diners or cafes;

(3) Art studios and galleries;

(4) Performing arts centers;

(5) Medical and dental clinics;

(6) Office space;

(7) Municipal and government uses; and

(8) Retail sales as an accessory use.

Adult day center means a supervised facility providing a program of education, crafts or recreation for adults over the age of 55 years.

Affordable Housing Developments means as defined in 30-A MRSA §4364.

Animal unit means one living animal of any species.

Antique shop means a building, or portion of building, where artifacts from generally recognized previous eras are sold or traded as the primary commercial activity.

Apartment. See the term *Dwelling unit.*

Architectural features means exterior building elements intended to provide ornamentation to the building massing, including but not limited to, eaves, cornices, bay windows, window and door surrounds, light fixtures, canopies, and balconies.

Art galleries means a building or place where works of art or other objects of value are kept, displayed, produced and offered for sale to the general public.

Artist studio, residential means a dwelling where up to 50 percent of the total floor space can be used for the production of art and/or craft products. The term "residential artist studio" shall not include galleries or studios open to the public for display or sales. All artist studios shall be designed to meet all residential safety and occupancy requirements and shall be considered to be accessory to the residential use.

Automobile means a passenger vehicle propelled by a self-contained motor. The term "automobile" also includes motorcycles, all-terrain vehicles, trucks and recreation vehicles (RVs).

Automobile and marine paint and body shops means a building in which the business of automobile and marine paint and bodywork is conducted. Such use may also include as an accessory use a facility for the orderly display and sale of vehicles which have undergone substantial body repair on the premises. No such facility shall display, outdoors or indoors, or offer for sale more than ten vehicles at any one time.

Automobile and marine repair and service station means a building, lot or both in or upon which the business of general motor repair and vehicle service is conducted, but excluding junk and/or wrecking businesses.

Automobile, commercial, means a vehicle the primary use of which is commercial in character.

Automobile filling station means a building or lot having pumps and storage tanks at which fuel, oil or accessories for the use of motor vehicles are dispensed, sold or offered for sale at retail, where repair service is incidental and no vehicle storage or parking space is offered for rent.

Automobile garage, private, means an accessory building or portion of a main building designed, arranged or used for housing of private motor vehicles, only one of which may be a commercial vehicle. Not more than 50 percent of the space in such a garage shall be used for housing vehicles other than those owned by occupants of the premises.

Automobile parking lot, private, means a parcel of land, lot or portion thereof required, in accordance with these regulations, for off-street automobile parking.

Automobile repair and service station means a building, lot or both in or upon which the business of general motor vehicle repair and service is conducted, but excluding junk and/or wrecking business.

Automobile sales lot means a lot arranged, designed or used for the storage and display of motor vehicles or any unoccupied trailer for sale.

Automobile scrap yard means any land or building used for the dismantling, storage and salvaging for reuse of automobiles or other vehicles not in running condition.

Automotive towing and storage means a business engaged in/or offering the services of a tow truck or towing service whereby motor vehicles are towed or otherwise removed from one place to another by the use of a motor vehicle specifically designed for that purpose. Storage of towed vehicles is considered to be the keeping of vehicles in a secured yard for not more than 120 days until claimed or disposed of in accordance with the laws of the state.

Basement means that portion of a building below the first-floor joists having at least one-half of its clear ceiling height above the main level of the adjacent ground.

Bed and breakfast home means an accessory use to a single-family dwelling involving the renting of four or fewer guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast only to house guests. Such establishment shall be owned and operated by the resident of the dwelling. The term "bed and breakfast home" also includes a tourist home.

Bed and breakfast inn means a dwelling involving the renting of more than four but fewer than ten guestrooms to transient guests who are staying for a limited duration (seven consecutive days and/or 60 accumulated days in a calendar year) and the serving of breakfast to house guests only. Such use may provide a restaurant, function rooms and places of public assembly.

Boardinghouse or *lodging house* means a dwelling which, for compensation, lodging, or lodging and meals are provided to more than four persons and where a proprietor or owner may reside in the building. No provisions for cooking in individual rooms other than a main kitchen is allowed.

Building means a structure having one or more stories and a roof, designed primarily for the shelter, support or enclosure of persons, animals or property of any kind. (See the term *Structure.*)

Building envelope means the ground area on a lot and the space above it on which a building may be constructed.

Building form means the overall shape and dimensions of a building.

Building height means the vertical distance from the grade of the top of the highest roof beams of a flat roof, or to the mean level of the highest gable or slope of a hip roof. When a building faces on more than one street, the height shall be measured from the averages of the grades at the center of each street front.

Building inspector means the building inspector of the City of Auburn, Maine, or their duly authorized agent.

Building line means a line beyond which the foundation wall and/or any enclosed porch, vestibule of other enclosed portion of a building shall not project.

Building, principal, means a building in which is conducted the principal use of the lot on which it is situated.

Care home means a rest, nursing, or convalescent home established to render domiciliary nursing care and board for chronically ill or convalescent patients, or persons who are infirm because of mental or physical conditions, but excluding a childcare home or one for the care of mentally retarded patients, alcoholics, psychotics or drug addicts.

Cellar means that portion of a building below the first-floor joists having at least one-half of its clear ceiling height below the mean level of the adjacent ground. A cellar shall not be used for habitation.

Cemetery means a place used for the permanent interment of dead bodies or cremated remains thereof. A cemetery may be a burial park of earth interments, a mausoleum for vault or crypt interments, a columbarium for cinerary interments, or a combination of one or more thereof.

Childcare home means a child boarding home, summer camp, foster family home or other place providing domiciliary arrangements for compensation, of three or more children, unrelated to the operator by blood, marriage or adoption, under 18 years of age. A facility providing child day care less than 24 hours per day, per child, to more than five children shall not be considered a childcare home. The term "childcare home" includes any family-type facility which provides childcare to children placed by order of any court of competent jurisdiction, or by any public welfare department, or other governmental agency having responsibility for placing children for care, or placed by child-placing agency licensed under state law.

Child day care center means a facility conducted or maintained by anyone who provides, for consideration, care and protection for more than 12 children under 16 years of age, unrelated to the day care center operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care center, but is classified as a nursery school.

Child day care home means an accessory use of a residence by a person residing on a premises to provide on a regular basis, and for consideration, care and protection for up to 12 children under 16 years of age, unrelated to the day care home operator, who are unattended by parents or guardians, for any part of the day. Any facility, the chief purpose of which is to provide education, shall not be considered to be a day care home, but is classified as a nursery school. A child day care home shall not be located closer to another child day care home than 500 feet measured along the street frontage. Child day care homes shall be reviewed under the city's home occupation regulations (article IX of this chapter) and shall meet the following:

(1) All outdoor play areas, used in conjunction with the day care operation, shall be fully enclosed by a fence, a minimum of four feet in height.

(2) If the property utilizes a private sewerage disposal/septic system a written verification from a site evaluator, stating that the current system can handle the change of use to include the children in the proposed day care, shall be submitted.

Church means a building, together with its accessory buildings and uses, where persons regularly assemble for religious worship, and which buildings, accessory buildings and uses are maintained and controlled by a religious body organized to sustain public worship.

Clinic means an establishment where patients are accepted for treatment by a group of physicians practicing medicine together, but shall not offer domiciliary arrangements; medical and dental.

Club, private, means any building or rooms, which serve as a meeting place for an incorporated or unincorporated association for civic, social, cultural, religious, literary, political, recreational or like activities, operated for the benefit of its members and not open to the general public.

Community based residential facilities (CRF) means dwelling units providing communal domiciliary arrangements for a group of unrelated persons under supervision of the state government human service agencies, for the transition of formerly institutionalized persons back into the mainstream community living and participation, a halfway house, or a group home.

Comprehensive plan means the master development plan of the City of Auburn, Maine, any amendments or additions thereto, part or portion thereof adopted by the city council upon recommendations of the planning board of Auburn, Maine, pursuant to 30-A M.R.S.A. § 4323.

Conservation cemetery means a type of natural cemetery that includes a conservation management plan that upholds best practices, and provides perpetual protection of the land according to a conservation easement or deed restriction. Burials in conservation cemeteries utilize non-toxic and biodegradable materials.

Convenience store means a business establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table, other articles of household use and gasoline pump service is offered for sale. Such a use may include the sale of food vended in disposable containers for consumption on or off the premises.

Correctional institution means a publicly or privately operated facility generally designed for the confinement, correction, and rehabilitation of adult and/or juvenile offenders sentenced by a court.

Court means an open, unoccupied space, other than a yard, on the same lot with a building or group of buildings which is bounded on two or more sides by such building or buildings and every part of which is clear and unobstructed from its lowest point to the sky.

Dental clinic means an establishment where patients are accepted for treatment by a group of dentists practicing dentistry together.

Detention facility. In the case of an adult or juvenile, "detention" means the confining of an adult or juvenile held in lawful custody in a specially constructed or modified facility designed to ensure continued custody and control. "Detention" may be confinement before trial or another hearing by a court or confinement to serve court-imposed sentences or dispositions and may be in a step-down, jail, half-way house or lock-up facility.

Development standard(s) means building standards that establish basic parameters governing building form, including the envelope for building placement in three dimensions and certain permitted and required building elements such as storefronts, balconies, street walls, etc. The development standards establish both boundaries within which development may take place and what requirements apply.

Director means the director of planning and any successor or other official designated from time to time by the city council to enforce the provisions of this chapter.

District or *zone* means an area within which certain uses of land and buildings are permitted or denied pursuant to municipal review, and certain others are prohibited.

District, overlay, means a special district or zone which addresses special land use circumstances and environmental safeguards and is superimposed over the underlying existing zoning districts. Permitted uses in the underlying zoning district shall continue subject to compliance with the regulations of the overlay zone or district.

Dormitory means a building or portion thereof used for sleeping purposes in connection with a school, college or other educational institution.

Driveway means private ways intended for internal vehicular circulation on a lot or within an automobile parking lot.

Dump means any premises used primarily for disposal by abandonment, discarding, dumping, reduction, burial, incineration or any other means and for whatever purpose of garbage, trash, refuse, dead animals, waste materials of any kind, junk; but not untreated sewage, animal waste, discarded machinery, or vehicles or parts thereof. The establishment of any dump shall be approved by the city council of the City of Auburn.

Dwelling means a building or portion thereof arranged or designed to provide living facilities for one or more families.

Dwelling, multifamily, means a residence designed for or occupied by three or more families with separate housekeeping and cooking facilities for each.

Dwelling, one-family attached, means a residential structure designed to house a single-family unit from lowest level to roof, with private outside entrance, but not necessarily occupying a private lot, and sharing a common wall or walls with an adjoining dwelling unit or units. Each one-family attached accessory dwelling unit must be at least 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S.A. 9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, one-family detached, means a dwelling unit singly and apart from any other building and intended and designed to be occupied and used exclusively for residential purposes by one family only, excluding those forms of temporary housing permitted by section 60-666. Each one family detached dwelling unit must be at least 400 square feet above grade in size, and an accessory detached dwelling unit must be 190 square feet, above grade in size, unless the Technical Building Code and Standards Board, pursuant to 10 M.R.S.A. 9722, adopts a different minimum standard; if so, that standard applies.

Dwelling, seasonal, means a dwelling occupied for not more than six months of any year.

Dwelling, two-family, means a freestanding building intended and designed to be occupied and used exclusively for residential purposes by two families only, with separate housekeeping and cooking facilities for each.

Dwelling unit means a room or group of rooms located within a building and forming a single habitable unit, physically separated from any other rooms or dwelling units which may be in the same structure, with facilities which are used for or intended to be used for independent living, sleeping, cooking and eating purposes. Dwelling units available for rental or occupancy for periods of less than one week shall be considered boarding/lodging units.

Eave means the edge of a roof which projects beyond the exterior wall.

Encroachment means any architectural feature, structure or structural element, such as a gallery, fence, garden wall, porch, stoop, balcony, bay window, terrace, or deck that breaks the plane of a vertical or horizontal regulatory limit exceeding into a setback, the public frontage, or above a height limit.

Erected includes the terms "built," "constructed," "reconstructed," "enlarged" and/or "retained on."

Facade means the vertical surface of a building.

Family means one or more persons occupying a single housekeeping unit and using common cooking facilities, provided that unless all members are related by blood or marriage, no such family shall contain over four persons.

Farm means any parcel of land which is used in the raising of agricultural products, livestock or poultry, or for dairying.

Farm, livestock, means any parcel of land that contains at least the following land area used for the keeping of horses, mules, donkeys, cattle, goats, sheep, swine and similar sized animals for the agricultural use of the residents of the lot, provided that there is a minimum of 1 acre of land as required by Chapter 8 Animals and adequate land area is provided for each animal unit, excluding water bodies of one-quarter acre surface area or larger:

(1) Cattle: One bovine animal unit per acre of cleared hay-pasture land.

(2) Horse: 1.5 animal units per acre of cleared hay/pasture land.

(3) Sheep: Three animal units per acre of cleared hay/pasture land.

(4) Swine: Two animal units per acre of cleared land.

(5) Other livestock farms: The required lot size shall be determined by municipal officer charged with enforcement and shall conform to the lot size for similar sized animals.

Floodplain overlay means those areas of the city which are directly affected by flooding as shown on the flood insurance rate maps (FIRM) as established by the Federal Emergency Management Agency and that shall comply with the pertinent regulations found in division 2 of article XII of this chapter pertaining to the Floodplain Overlay District.

Floor area of building means the total number of square feet of floor area of all stories in a building, excluding cellars, uncovered steps and uncovered porches. All horizontal measurements shall be made between exterior faces of walls.

Form based code means a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code.

Form based code zoning district means one of the five areas on the regulating plan, including Transect 4.1 (T-4.1), Transect 4.2 (T-4.2), Transect 5.1 (T-5.1), Transect 5.2 (T-5.2), and Transect 6 (T-6).

Frontage means the length of a lot extending between the side lot lines of a lot which borders an accepted portion of a street. Maine Turnpike frontage does not apply to this definition.

Frontage line means the lot line(s) of a lot fronting a street or other public way.

Government offices means a room or group of rooms used for conducting the affairs of a government entity, not entailing the sale of goods except that which is clearly incidental.

Government services, for the purposes of this chapter, includes the functions performed by the various government agencies in the city. Government services include the following: government administration, courts, public schools, postal services, public works and municipal utilities.

Greenhouse means an enclosed structure where trees, shrubs, vines and plants are propagated, grown or maintained. Activities associated with a greenhouse include:

(1) The sale of greenhouse products and related supplies; and

(2) The storage of material used in the maintenance of plants and growing items sold.

Grocery store means a small retail establishment having an interior selling space of less than 3,000 square feet where general food supplies for the table and other articles of household use are offered for sale. Such a use

may include the sale of food vended in disposable containers for consumption on or off the premises; a corner market, a mom and pop store.

Ground area of building means the total number of square feet of horizontal surface covered by a building, including covered porches and accessory buildings. All measurements shall be made between exterior faces of walls, foundation, piers or other means of support.

Group home. See the term *Community based residential facilities.*

Guesthouse means a detached dwelling that is intended, arranged or designed for occupancy by transient, nonpaying visitors.

Habitable space means that area within a dwelling which has headroom of not less than seven feet when measured vertically upward from the finished floor, provided that any such area next below the roof of a dwelling shall be counted only if it is connected with the story next below by a permanent inside stairway. The floor area of any porch, cellar room, garage or shed attached to such dwelling shall not be counted in any measure of habitable space.

Half-story means a story directly under a sloping roof in which the points of intersection of the bottom of the rafters with the interior faces of the walls are less than three feet above the floor level.

Historic site means a parcel of land, a particular building, or a group of buildings that have played a significant role in the history of the community, and identified as such by the state historic preservation committee.

Historic or archaeological resources means areas identified by a governmental agency such as the state historic preservation commission as having significant value as historic or archaeological resources and any areas identified in the municipality's comprehensive plan.

Hog farm means any land or building used for the purpose of keeping, feeding or raising 20 or more swine per piggery. Establishment of this use requires approval from the city health department.

Home occupation means the accessory use of a dwelling unit for a business or commercial venture engaged in, by the person residing in the dwelling unit, and which allows up to one person who does not reside on the premises to be employed by that home occupation.

Hospital means any institution receiving inpatients and rendering medical, surgical and/or obstetrical care. The term "hospital" includes general hospitals and institutions in which service is limited to special fields such as cardiac, eye, nose and throat, pediatric, orthopedic, skin, cancer, mental health, tuberculosis, chronic disease and obstetrics. The term "hospital" also includes sanitariums, including those wherein mentally retarded and mental patients, epileptics, alcoholics, senile psychotics or drug addicts are cared for or treated.

Hotel means a building in which the primary use is transient lodging accommodations offered to the public on a daily rate of compensation and where ingress and egress to the sleeping rooms is primarily through an inside lobby or office, supervised by a person in charge at all hours. Such facilities may include accessory uses such as restaurants, bars, nightclubs, function rooms, places of public assembly and/or recreational facilities.

Household pet means any animal kept as a pet and normally housed at night within the owner's dwelling or an accessory building on the same lot, including laying hens, but not including any animal normally raised as livestock or poultry or any animal raised for commercial gain. No household pet shall be kept that creates a public nuisance by reason of:

(1) Objectionable effects perceptible outside the owner's property, such as excessive or untimely noise or offensive odors; or

(2) Being a hazard to the health, safety and welfare of neighbors, invited guests or public servants visiting the property in the pursuit of their normal duties.

Illustrative plan means a plan or map that depicts (i.e. Illustrates but does not regulate) the streets, lots, buildings and general landscaping of the proposed Downtown Auburn/New Auburn Form-Based Code District.

Industrial use, heavy, means the use of real estate, building or structure, or any portion thereof, for assembling, fabricating, manufacturing, packaging or processing operations.

Industrial use, light, means the use of real estate, building or structure, or any portion thereof, for manufacturing or fabrication which will not create a nuisance by noise, smoke, vibration, odor or appearance.

Institution means any building or open area used only by an educational, religious, medical, charitable, philanthropic, or nonprofit organization, either public or private.

Institution, philanthropic, means a private, nonprofit organization that is not organized or operated for the purpose of carrying on a trade or business, no part of the net earnings of which inures to the benefit of any member of said organization and which either:

(1) Provides volunteer aid to the sick and wounded of the armed forces in time of war and relief services to victims of natural or manmade calamities; or

(2) Provides all or any of the following: religious, social, physical, recreational and benevolent service.

Institution, private educational, means any private school or educational institution, however designated, which offers an academic curriculum of college, professional, preparatory, high school, middle school, elementary, kindergarten or nursery school instruction, or any combination thereof; but not a training program of trade, craft, technical or artistic instruction operated by a governmental entity. No private educational institution shall be deemed a home occupation. (See the terms *Training school* and *School.*)

Institution, research, means an agency for scientific research of technical development including offices, libraries, laboratories, testing facilities and equipment incidental to such research and development.

Jail means a specially constructed or modified facility designated by law or regularly used for detention for a period of up to 12 months.

Junkyard or *automobile graveyard* means any land or building used for the abandonment, storage, keeping, collecting or bailing of paper, rags, scrap metal, other scrap or discarded material, or for the abandonment, demolition, dismantling, storage or salvaging of automobiles or other vehicles not in running condition, machinery or parts thereof. Establishment and operation of this use requires annual approval from the City Council of Auburn, Maine.

Kennel means any building and/or land used, designed or arranged for the boarding, breeding or care of dogs, cats, pets, fowl or domestic animals, kept for purposes of show, hunting or as pets, except horses.

Land use permit means a permit required for the use of property that is legally permitted under the provisions of this chapter.

Landscape services means the actual planting, bed preparation, installation of landscape materials and maintenance of the landscape, planting and materials. Activities associated with landscaping include: the storage of materials and equipment related to the performance of landscaping, the temporary storage of trees, shrubs and plants pending installation in an existing landscape plan and the application and storage of pesticides and fertilizers by a licensed person.

Lawn maintenance service means the care and upkeep of the landscape after its installation and consists of such activities as mowing of the lawn, pruning of trees and shrubs, application by hand of fertilizer and weed control, insect and disease control, planting and care of flower beds, replacement of dead plants, incidental repairing of walls and paved surfaces, cleaning of fountains and pool basins, irrigation of lawns, cultivation of soil around trees and shrubs, rolling and reseeding of lawns, raking of leaves, winterization of trees and shrubs and snow removal.

Library means a place containing books and other material for reading, study or reference, provided that no such material is offered for sale.

Livestock means, but may not be limited to, any horses, mules, donkeys, cattle, goats, sheep, or swine.

Lock-up facility means a facility designated by law or regularly used for detention for a temporary period before trial or transfer to a jail or other facility.

Lodge, private. See the term *Club, private.*

Lot means for zoning purposes, as covered by this chapter, a lot is a parcel of land under one ownership or joint ownership of at least sufficient size to meet minimum zoning requirements for use, coverage and area, and to provide such yards and other open spaces as are herein required. Such lot shall have frontage on an accepted public street and may consist of:

(1) A single lot of record;

(2) A portion of a lot of record;

(3) A combination of complete lots of record;

(4) A parcel of land described by metes and bounds; provided that in no case of division or combination shall any residential lot or parcel be created which does not meet the requirements of this chapter;

(5) Lots shown on a plan approved by the planning board of the City of Auburn.

Lot frontage/width means the front of a lot shall be construed to be the portion nearest the street. For the purpose of determining yard requirements or corner lots and through lots, all sides of a lot adjacent to streets shall be considered frontage, and yards shall be provided as indicated under the definition of yards in this section.

Lot line, rear, means the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said front lot line.

Lot measurements means the following measurements:

(1) The depth of a lot shall be considered to be the uninterrupted distance between the midpoints of lot frontage and the midpoint of the rear lot line unless the lot meets the exception provided for by section 60-39.

(2) The width of a lot shall be considered to be the distance between straight lines connecting front and rear lot lines at each side of the lot, measured across the rear of the required front yard, provided, however, that the width between the side lot lines at their foremost points (where they intersect the street line) shall not be less than 80 percent of the required lot width except in the case of a lot on the turning circle of a cul-de-sac, where the 80 percent requirement shall not apply.

Lot of record means a lawfully laid out lot which is part of a subdivision recorded in the proper office of the registry of deeds, or a lawfully laid out lot or parcel described by metes and bounds, the description of which has been so recorded.

Lot types means the diagram which follows illustrates terminology used in this chapter with reference to corner lots, interior lots, reversed frontage lots and through lots. In the diagram above, the lots designated by letters are defined as follows:

(1) Corner lot, defined as a lot located at the intersection of two or more streets. A lot abutting on a curved street or streets shall be considered a corner lot if straight lines drawn from the foremost points of the side lot lines to the foremost points of the side lot lines to the foremost point of the lot meet at an interior angle of less than 135 degrees. (See lots marked A (1) in diagram)

(2) Interior lot, defined as a lot other than a corner lot with only one frontage on a street other than an alley.

(3) Through lot, defined as a lot other than a corner lot with frontage on more than one street other than an alley. Through lots with frontage on two streets may be referred to as double frontage lots.

(4) Reversed frontage lot, defined as a lot in which the frontage is at right angles or approximately right angles to the general pattern in the area involved. A reversed frontage lot may also be a corner lot or an interior lot. (See A-D and B-D in diagram.)

Lot, undersized, means for zoning purposes, as covered by this chapter, an undersized lot is a parcel of land of insufficient size to meet minimum zoning requirements for area or width or depth.

Major or principal arterial highway means the highway that:

(1) Serves the major traffic movements within urbanized areas such as between central business districts and outlying residential areas, between major intercity communities, or between major suburban centers;

(2) Serves a major portion of the trips entering and leaving the urban area, as well as the majority of the through traffic desiring to bypass the central city;

(3) Provides continuity for all rural arterials which intercept the urban area. The term "major or principal arterial highways" includes Washington Street (State Routes 4 and 100, U.S. 202), Minot Avenue (State Routes 11 and 121), Union Street/Center Street/Turner Road (State Route 4), Veterans Memorial Bridge and approaches (State Routes 11 and 100, U.S. Route 202), North Bridge/Court Street to in town Minot Avenue Intersection (Turner Street), Court to Center Street (State Route 4).

Major recreational use of land means permanent use of at least 100 acres of outdoor space limited to ski areas with at least two lifts and public and private golf courses with a minimum of 18 holes.

Major retail development means a single building in excess of 100,000 square feet of new ground floor retail space.

Manufactured housing means a structural unit designed for occupancy, and constructed in a manufacturing facility and then transported by the use of its own chassis, or placed on an independent chassis, to a building site. The term "manufactured housing" includes any type of building which is constructed at a manufacturing facility and then transported to a building site where it is utilized for housing and may be purchased or sold by a dealer in the interim. The term "manufactured housing" includes newer mobile homes and modular homes.

Mining, quarrying, or *earth removing* means the excavation of any earth materials.

Minor arterial highway means the highway that:

(1) Serves trips of moderate length at a somewhat lower level of travel mobility than principal arterials;

(2) Provides access to geographic areas smaller than those served by the major arterial highway system; and

(3) Provides intra-community continuity but does not penetrate identifiable neighborhoods. Examples are Riverside Drive, Mill Street, South Bridge (Broad Street to Mill Street), Main Street, Mechanics Row, High Street (Minot Avenue to Academy Street), Academy Street (High Street to Main Street), Elm Street, Spring Street (Minot Avenue to Court Street), Turner Street (Union Street to Turner Road), Mount Auburn Avenue (Center Street to Turner Street), Lake Street, Court Street (Union Street to in town Minot Avenue Intersection), Hotel Road (Manley Road to Poland Spring Road).

Mobile home development, intended to be generic, includes mobile home parks, mobile home subdivisions, and mobile home condominiums.

Mobile home park means a parcel of land under single ownership in rural residence and suburban residence districts which has been planned and improved for the placement of not less than three mobile homes for nontransient use.

Mobile homes, newer, means those units constructed after June 15, 1976, commonly called "newer mobile homes," which the manufacture certifies are constructed in compliance with the United States Department of Housing and Urban Development standards, meaning structures, transportable in one or more sections, which, in the traveling mode, are 14 body feet or more in width and are 400 or more square feet and which are built on a permanent chassis and designed to be used as dwellings on foundations when connected to the required utilities, including the plumbing, heating, air conditioning and electrical system contained therein; except that the term "newer mobile homes" includes any structure which meets all the requirements of this definition, except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of the United States Department of Housing and Urban development and complies with the standard established under the National Manufactured Housing Construction and Safety Standards Act of 1974, United States Code, 42 USC 5401 et seq.

Mobile homes, older, means any factory-built home which fails to meet the definition of manufactured housing and more specifically, the term "older mobile homes" means any mobile home constructed prior to June 15, 1976. These units shall be restricted to approved mobile home parks.

Modular homes means those units which the manufacturer certifies are constructed in compliance with the state's Manufactured Housing Act and regulations, meaning structures, transportable in one or more sections, which are not constructed on a permanent chassis and are designed to be used as dwellings on foundations when connected to required utilities, including the plumbing, heating, air conditioning or electrical systems contained therein.

Motel means a building or group of detached buildings intended primarily to provide sleeping accommodations to the public on a daily rate of compensation and having a parking space generally located adjacent to a sleeping room. Such facilities may include a main kitchen or snack bar for the use of motel guests only.

Municipal or public utilities and communications facilities means the use of land for public utility purposes by an entity providing pipeline, gas, electrical, telephone, telegraph, water, or sewage service. "Public utility" also includes the use of land for utility purposes, whether or not owned, controlled, or operated by a public entity, whose services are performed for or commodities delivered to the public or any portion thereof. Facilities that provide for the transmission, transfer, and distribution of telephone service and related activities that are not a minor or major utility facility. For the purposes of the chapter, a municipal or public utility or communications facility includes, but is not limited to, the following: a private telephone company or paging service, any utility regulated by the Maine Public Utilities Commission, and any other commercial communications tower.

Municipal sanitary landfill means a disposal site for household, commercial and industrial wastes, sludge or incinerator ash operated or controlled for operation by the city in a controlled manner involving the covering of deposited wastes with layers of earth so as to reduce health hazards and public nuisances from vermin, insects, odors and wind-borne debris. The location and design of sanitary landfills also require precautions against ground and surface water contamination through clay lining, water impoundment, aquifer avoidance and similar techniques.

Municipal uses means any lawful use of a building or of land carried on by the city sanitary landfill shall not be deemed a municipal use.

Museum means a building or place where works of art or other objects of permanent value are kept and displayed, provided such objects are not offered for sale.

Natural resource uses means uses that utilize naturally occurring assets such as air, water, soils, fuel, minerals, plants or animals to provide public benefit through the provision of raw materials and/or energy.

Nonconforming building means a building lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming lot means a lot lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform to the dimensional regulations of the district in which it is located.

Nonconforming use means a use of a building or of land lawfully existing at the time this or any previous zoning ordinance became effective and which does not conform with the use regulations of the district in which it is located.

Nursery means an outdoor place where live trees, shrubs, vines and plants are propagated, grown or maintained before permanent planting. Activities associated with nursery a business include: the sale of nursery products and related gardening supplies, the storage of material used in the maintenance of plants and growing items sold and the use of power-motorized equipment required by the nursery.

Nursery, child, means a facility providing a program less than 24 hours per day per child for the care of infants up to the age of 2½ years.

Nursery, wholesale, means a nursery where plants, trees, shrubs and vines are propagated and/or grown and sold only at wholesale to industry related buyers such as retail nurseries, greenhouses and landscape contractors. A wholesale nursery may also provide landscape services accessory to the nursery use provided.

(1) At least one-half of the area of the lot (up to a maximum of three acres) is in active nursery production in a husband type manner; and

(2) The plants and trees propagated, grown and nurtured in the nursery are used as the primary products by the owner/operator of the landscape service.

Office means a building, or portion of a building wherein services are preformed involving predominantly administrative, professional or clerical operations.

Office trailer means a movable vehicle or structure designed for year round or temporary occupancy for purposed of supervising construction; for business actually engaged in the business of selling manufactured housing, mobile homes and trailers; and as temporary office space for a business during the period in which permanent office space is being constructed.

Open space, common means land within or related to a development which is not individually owned and is designed and intended for the common use or enjoyment of the residents of a development and may include such complementary structures and improvements as are necessary and appropriate.

Outpatient addiction treatment clinic means a program or facility operated for the purpose of and specializing in the care, treatment and/or rehabilitation of persons suffering with addictions, including but not limited to gambling addition, alcohol or controlled substance addictions. The term "outpatient addiction treatment clinic" includes, but is not limited to, substance abuse treatment programs licensed by the State of Maine Department of Behavioral and Developmental Services Office of Substance Abuse. An outpatient addiction treatment clinic shall not be located within 2,000 feet of any property that is occupied by a church, school, family day care home, small day care facility, day care center, or public park or playground on the date of application for a license for such a facility. The term "outpatient addiction treatment clinic" does not include an inpatient or residential addiction treatment program, or a program consisting solely of support group activities without treatment by licensed health practitioners, such as Alcoholics Anonymous, Narcotics Anonymous, and similar programs.

Parapet means a low wall along the edge of a roof or the other portion of a wall that extends above the roof line.

Parking space, off-street, means a rectangular area, not less than nine feet by 18 feet, forming a parking stall within or without a structure, not located in any public right-of-way.

Performing arts center means a public or private space used to create and present various performing and visual arts. For the purposes of this definition, the term "performing arts center" also includes educational and training uses associated with the various performing and visual arts.

Personal services means the furnishing of labor, time and effort by a person as an independent contractor not involving the delivery of a specific end product.

Place of worship see definition of church.

Planning board means the planning board of the City of Auburn, Maine.

Primary entrance means a section of building elevation which contains the street level principal entrance of the business, including the businesses on upper floors or in a basement.

Principal use means the principal use for which a lot or main building thereon is designed, arranged or intended and for which it is or may be used, occupied or maintained.

Professional office means rooms and/or buildings used for office purposes as the principal use by members of any recognized profession, including doctors, dentists, lawyers, accountants, engineers, architects, veterinarians, etc.

Public safety services means facilities operated by public agencies to provide services relating to the general health, safety, and welfare of the population, including but not limited to fire stations and other fire prevention and firefighting facilities; police and sheriff substations and headquarters; and emergency response services, excluding correctional facility, interim incarceration, lock-up or jail facilities.

Realm, private means the physical and social domain that is considered private by their physical location and visual association being away from public view. This is considered areas behind the front building facade along with side and rear yard areas.

Realm, public means the physical and social domain of the public that is held in common either by their physical presence or visual association. This includes but is not limited to sidewalks, plazas, squares, parks, streets, front yards, civic buildings and civic spaces.

Recreational uses of land means permanent uses of outdoor space which are intended or designed for public use and include but are not limited to ski areas, golf courses (both public and private), driving ranges, horse boarding and riding facilities, miniature golf, paintball, horse and dog racing, snowmobile races, sports field complexes lager than one acre in area, health and wellness centers, motorhome or recreational vehicle parks or commercial campgrounds, and facilities for wedding or event venues when used for two or more events during a calendar year, or facilities for mass gatherings when used for two or more events during a calendar year. See also *major recreational use of land* and *recreational uses of land, small-scale.*

Recreational uses of land, small-scale means permanent uses of outdoor space that are intended or designed for public use that are smaller or lower impact than other types of recreational uses of land, and include, but are not limited to, trails, water access or boat access facilities, foraging, outdoor education or training facilities, sports field complexes one acre or less in area, and public gardens.

Regulating plan means the adopted map that shows the Form Based Code zoning districts, which correspond to the special requirements of the form based code.

Restaurant means an eating place in which food is prepared and vended for immediate consumption on the premises without further preparation by the customer. The takeout of food on an infrequent basis is not prohibited.

Restaurant, carry-out, means an eating place in which all food is vended in disposable containers for consumption on or off premises at the customer's choice; a fast-food restaurant.

Restaurant, drive-in, means an eating place in which the business transacted is conducted by a customer from within his automobile or in which consumption of goods sold normally takes place within the customer's automobile on the establishment's premises.

Retail means a principal use encompassing the sale of commodities or goods in small quantities directly to the consumer. The term "retail" sales does not include sales of professional, financial and governmental services and personal services, including but not limited to a hotel and its accessory uses (restaurants, salons, gift shops, recreational facilities, convention space, etc.).

Retail space means the areas of a building, within a climate controlled environment, devoted to the display of commodities or goods for sale directly to the consumer and including customer sales transaction areas and areas associated with customer access.

Rifle, pistol, skeetor trap shooting range means a rifle, pistol, skeet or trap shooting range operated by an individual or club. Such a range may be opened to the general public or developed for the exclusive use of the individual, or club and invited guests.

Road means any public or private traveled way or any portion thereof.

Roof means the covering for a building which is an integral part of the structure for the purpose primarily of protecting the interior of the building or covering a porch or other similar permanent portion thereof, excluding awnings, stoop coverings, or similar additions which are removable without substantially impairing the original structure.

Sawmill means a unit designed to saw logs into lumber, firewood or other processed wood products.

School means an educational institution offering an academic curriculum; not the teaching of the crafts or a training school offering a program of trade, technical instruction or physical education. (See the term *Training school.*)

Shared housing means housing consisting of two or more families occupying a single dwelling and using common cooking facilities. Shared housing shall permit the same number of families at the same density as allowed in the zoning district where the property is located subject to all applicable codes relating to building, housing, life safety, health and zoning as would be applied to independent living units located in the same structure. Approval for shared housing shall be secured from the department of community development and planning subject to the codes and ordinances indicated in this definition, prior to establishing a shared housing arrangement in any building.

Shelter for abused persons means dwelling facilities complying with the laws administered by the state government human services agencies, providing temporary domiciliary arrangements for children and adults unable to protect their own interest and welfare because of critical family circumstances.

Shopping center or *office mall* means a planned integrated complex of three or more retail stores and/or offices sharing a common structure and developed according to a unified plan. Such uses may include a common pedestrian circulation system and off-street automobile parking facilities.

Sign means any device, display surface, structure or object in public intended for visual communications.

Sign, mobile mounted, means a temporary sign which is mounted or for mounting on wheels or a mobile platform or which is portable.

Sign, official business directional, means any off-premise sign permitted to be erected pursuant to article II of chapter 42.

Sign, on-premises, means any sign that advertises, calls attention to, or indicates the person occupying the premises on which the sign is erected or maintained or the business transacted thereon, or advertises the property itself or any part thereof as for sale or rent, and which contains no other matter.

Sign, standing, means any sign that is not attached to a building.

Sign, temporary, means any movable sign, including its supporting structure, intended to be maintained for not more than 90 days in any calendar year.

Site-built home means a building constructed on-site which is designed to be used as a dwelling on foundations, when connected to the required utilities.

Slaughterhouse (abattoir, dressing plant) means any building, place or establishment in which is conducted the slaughtering of livestock and/or poultry for commercial purposes.

Special exception means a use that would not be appropriate generally or without restriction throughout the district, but which, if controlled as to number, area, location or relation to the neighborhood, would promote the public health, safety, welfare, order, comfort, convenience, appearance, prosperity, or general welfare. Such a use may be permitted in such district as a special exception, if specific provision for such special exception is made in this zoning chapter and reasonable restrictions imposed by the planning board are complied with.

Specialty shop means a retail business offering products of a similar kind and nature designed for a particular use, purpose or occasion and distinguished from a store offering the same type of product together with other products of a nonhomogeneous quality.

Stable, riding, means any building or structure used or designed for boarding, breeding or care of horses, other than horses used for farming or agricultural purposes.

Standing means a person who holds title, right or interest in a property which may include a written option, contract to purchase the property or a leasehold interest or may be a person who can show how his actual use or enjoyment of property will be adversely affected by the proposed decision as an abutter as defined in section 60-1473.

Story means that portion of a building between the surface of any floor and the surface of the other floor or roof next above it, but not including the lowest portion so contained if more than one-half of such portion vertically is below the mean finished grade of the ground adjoining such building unless such space is used for business or as habitable space, in which case it shall count as a story.

Story, half, means a story under the gable, hip or gambrel roof, the plates of which on at least two opposite exterior walls are more than two feet above the floor of such story.

Street means the following:

(1) A public way laid out and established by the state, county commissioners of the County of Androscoggin;

(2) A way accepted by the municipal officers of the city;

(3) A way as to which a petition for improvements has been allowed under the provisions of this chapter for which the cost of the improvements has been provided for by the developer in either a cash amount or as provided for in this chapter; or

(4) A way on a plan of a subdivision duly approved by the planning board.

Street frontage. See the term *Frontage.*

Street line means a line defining the edge of a street right-of-way separating the street from abutting property or lots.

Street, primary means the street that is considered to be more intensely used than the other on a corner or double sided lot.

Street, secondary means the street that is considered to be less intense to the other on a corner or double sided lot.

Structure of community significance means a building that by virtue of its historic, social, cultural or economic contribution to the community, as determined by the planning board, is entitled to a special exception allowing its adaptive reuse. The planning board may consider a building's age, as well as any evidence of its role in the historic, social cultural, or economic history of the community, in determining whether a building qualifies for this designation.

Structure or *building* means a combination of materials to form a construction that is safe and stable including, among other things: stadia, reviewing stands, platforms, automobile parking garages, stagings, windmills, observation towers, trestles, sheds, coal bins, shelters and display signs, but not fences of any kind.

Subdivision means a division of land as defined in 30-A M.R.S.A. § 4401.

Summer camps means seasonal dwelling units intended for and actually used for single-family dwellings only during the months of May, June, July, August, September and October or weekends or other periods of vacations not exceeding 30 days.

Supermarket means a retail establishment having an interior selling space of 3,000 square feet or more where general food supplies for the table and other articles of household use are offered for sale.

Swimming pool means any manmade receptacle or excavation housing a surface area of 250 square feet, or more, designed to hold water to a depth of at least 24 inches, primarily for swimming or bathing whether in the ground or above the ground.

Theater, indoor, means a building designed and/or used primarily for the commercial exhibition of motion pictures or plays to the general public.

Theater, outdoor, includes only those areas, buildings or structures designed and used for the commercial outdoor exhibition of motion pictures to passengers in parked motor vehicles.

Tourist home. See the term *Bed and breakfast home.*

Townhouse means a single-family dwelling unit that is one of two or more residential buildings having a common or party wall separating the units.

Trailer or *RV* means any vehicle or structure, except a device exclusively used upon stationary rails or tracks, mounted on wheels for use on highways and streets; propelled or drawn by its own or other motor power; and designed and constructed to provide living and/or sleeping quarters for one or more persons or for the conduct of a business, profession, trade or occupation for use as a selling or advertising device. If the wheels of a trailer are removed, except for repairs, it is deemed a building subject to all the regulations thereof. A trailer shall not be considered an accessory building.

Trailer home means a travel trailer, camping trailer or other similar vehicle capable of being hauled by a passenger automobile or light truck and designed primarily for temporary occupancy for recreational purposes or other seasonal use. A trailer home shall not be considered an accessory building.

Training school means a public or private school or training institution which offers a training program of trade, technical instruction, or physical education. A training school shall not be deemed a home occupation.

Transect (rural-to-urban) means a cross-section of the environment showing a range of different building development zones. The rural-to-urban transect of the human environment is divided into multiple transect zones that describe the physical form and character of a place according to the intensity of its land use and building development pattern.

Transmission towers means a structure that has the sole purpose of transmitting radio, television, cellular telephone or telephone waves from one location to another.

Useable open space means open or green space that is accessible for the use and enjoyment of residents, shall not be steep sloped (over ten percent slope), shall not include wetlands, parking or required buffer areas, and may include any required yard area or open areas for play.

Variance means a relaxation of the terms of the zoning ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. The term "variance" is authorized for only dimensional and supplemental regulations. Establishment of a use otherwise prohibited shall not be allowed by variance, nor shall a variance be granted because of the presence of nonconformities in the district or adjoining districts.

Wayside stand means a structure designed, arranged or used for the display and sale of agricultural products primarily grown or produced on the premises upon which such stand is located. A wayside stand may be located on premises that the products are not grown upon provided such premises is owned by the grower.

Wholesale means sales chiefly to retailers, other merchants, industrial and/or commercial users mainly for resale or business use.

Yard means a required open space on a lot unoccupied and unobstructed by any principal structure or portion of a principal structure.

Yard, front, means the open space extending across the full width of lot between the front lot line and nearest line of the principal building or any enclosed portion thereof. The depth of such yard shall be the shortest horizontal distance between the front lot line and the nearest point of the building or any enclosed portion thereof.

Yard, rear, means the open space extending across the full width of lot between the rear line of the lot and the nearest line of the building or any enclosed portion thereof. The depth of such yard is the shortest horizontal distance between the rear lot line and the nearest point of the building. When the rear lot line is less than ten feet long or if the lot comes to a point at the rear, the depth of the rear yard is measured to an assumed rear lot line as follows, the lot line generally opposite or parallel to the front lot line, except in a through lot. If the rear lot line is less than ten feet long or the lot comes to a point at the rear, said rear lot line is assumed to be a line not less than 20 feet long, lying wholly within the lot, parallel to the front lot line, or in the case of a curved front lot line, parallel to the chord of the arc of said lot line.

Yard, side, means the open space between the side lot line, the side street line, or the proposed side street line and the principal buildings, or any portion thereof, extending from the front yard to the rear yard, or, in the absence of either of such yards, to the front lot line and/or rear lot line. The width of a side yard shall be the shortest distance between the side lot line and the nearest point of the principal building or any portion thereof.

Zone. See the term *District.*

(Ord. of 9-21-2009, § 2.2; Ord. No. 13-09062011-05, 9-6-2011; Ord. No. 12-09062011-04, 9-19-2011; Ord. No. 04-03072016, 5-16-2016; Ord. No. 11-11072016, 11-21-2016; Ord. City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024 **Ordinance 24-1202024**

Author: Robert Chase, Fire Chief and Eric J. Cousens Director of Public Services

Subject: Proposed Blasting Ordinance - Second Reading/Public Hearing

---

Background: The Council workshopped this draft ordinance earlier this year and we were instructed to solicit input from those affected, including gravel mining operations, gem miners and industry experts. We have done that and learned there are 3 distinct types of blasting that have different needs and potential for impacts. They include large pit mining operations at fixed locations, small scale gem mining and transient blasting for construction projects. We plan to share that information with Council Monday and solicit feedback so we can update the draft accordingly.

Information: Previous meeting information is available in the September 3, 2024 CC Packet on Page 14 https://www.auburnmaine.gov/CMSContent/City_Council/Packets/9-3-24%20COMBINED%20City%20Council%20Packet.pdf) Feedback from stakeholders will be reviewed at the workshop.

City Budgetary Impacts: Staff Time.

Staff Recommended Action: Motion to adopt "SUBSTITUTE ORDINANCE 24" which contains grammatical corrections, formatting, and a proposed amendment to Sec. 14-704 (2) addressing small scale blasting of less than 25 pounds of explosives.

Previous Meetings and History: September 3, 2024; December 2, 2024 (passed first reading 7-0).

Chapter 14

BUSINESS LICENSES AND PERMITS

Article XIX

BLASTING

Sec. 14-700. - Purpose; statutory authority; enforcement.

A. Blasting is an activity essential to the economic viability of Auburn. Unregulated blasting and/or irresponsible blasting may cause undue damage to the people, property and environment of the City.

B. This chapter establishes specific standards for blasting operations, notice requirements, instrument monitoring requirements of blasting operations, a permit process for blasting and other associated standards and requirements.

C. It is intended to minimize the effects of air overpressure, ground vibration, dust, and noise associated with blasting which may be detrimental to the enjoyment of life, property and the conduct of business for those individuals affected.

D. It is also intended to provide standards that will prevent permanent damage to the geologic, hydrogeologic and wildlife resources and ecological balance in the region outside the immediate blast area. The chapter is intended to protect the quality of life and the homes of residents, neighborhoods, property, groundwater, wildlife resources, scenic beauty and/or businesses, all lying outside the approved work area and potentially affected by the blasting.

E. It is intended to be effectively and efficiently administered without causing undue financial and administrative hardship to blasting operators.

F. This chapter is enacted pursuant to 30-A M.R.S.A. § 3001, Ordinance power, as well as the City's Home Rule authority under the Maine Constitution, and shall be administered by the Planning, Permitting, and Code Department.

G. The city planning, permitting, and code department shall have authority to enforce all requirements of this Chapter in accordance with section 60-1403.

Sec. 14-701. - Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Air overpressure means an airborne shock wave resulting from detonation of explosives. Air overpressure may be caused by burden movement or the release of expanding gas into the air. Air overpressure may or may not be audible.

Applicant means the owner or other individual, corporation or other business entity who or which applies for the legal right to conduct blasting at real property which it has the legal right to use.

Blast site means the area where explosive material is handled during the loading of drilled blastholes, including the perimeter formed by the loaded blastholes and 50 feet in all directions from loaded blastholes.

Blast size means, for a

A. Small blast: trench blast or under 50 cubic yards of rock removed.

B. Medium blast: removal of 50 to 300 cubic yards of rock material.

C. Large blast: removal of over 300 cubic yards of rock material.

Blaster means an applicant who has been awarded a permit to conduct blasting.

Blasting means the use of explosives to break up or otherwise aid in the extraction or removal of rock or other consolidated material.

Blasting operations means all processes conducted in association with site or other preparation for blasting, and the detonation of explosives.

Decibel means the unit of sound pressure commonly used to measure air overpressure from explosives. The decibel scale is logarithmic.

Explosives means any substance, chemical compound or mechanical mixture that is used for the purpose of producing an explosion to fragment rock for mining, quarrying, excavation and construction. Initiating devices (detonators, detonating cords, etc.) are also included under this definition.

Extractive industry means any operation engaged in the removal of more than 20 cubic yards, in a twelve-month period, of topsoil, sand, gravel, clay, rock, peat or other like material from its natural location and for transportation off lot within any twelve-month period, except as may be exempted within the extractive industry performance standards in this chapter.

Flyrock means rock that is propelled through the air or along the ground, which leaves the secured blast area as a result of the detonation of explosives.

Ground vibrations means the energy from a blast that manifests itself in vibrations which are transmitted through the earth away from the immediate blast site. Ground vibrations are to be measured along three principal axes (x, y, z); namely, transverse, vertical, and longitudinal, all of which are subject to the performance standards herein.

Groundwater means water beneath the earth's surface often between saturated soil and rock that supplies wells and streams.

Hertz means a term used, in the case of blasting, to express the frequency of ground vibrations and air overpressure. One hertz is one cycle per second.

Particle velocity means a measure of ground vibration in the case of blasting. Particle velocity describes the velocity at which a particle of ground vibrates when excited by a seismic wave. It is measured in inches per second.

Pre-blast Survey means an inspection of the dwellings, water supplies, and other structures within the blasting notice area for the purpose of documenting the physical conditions prior to the commencement of blasting.

Quarry means the property designated in the application and permit where rock is excavated in an extractive industry operation.

Secured blast area means the area that may be affected by flyrock, dust, or fumes from an explosion that may cause personal injuries, damage to property, or losses in the process. The minimum distance for personnel is 500 feet. Safe distances will be determined based on conditions for each blast by the blasting foreman or designee.

Seismograph means an instrument that measures and has the capability to provide a permanent record of hertz and decibel readings concerning ground vibrations caused by blasting.

Source water means bodies of water (such as rivers, streams, lakes, reservoirs, springs, and ground water) that provide water to public drinking-water supplies and private wells.

Sec. 14-702. - Blasting permit required; effect on other regulations.

A. No blasting within the City of Auburn shall be allowed unless a permit has been obtained from the city planning, permitting, and code department, except as otherwise exempted per this chapter.

B. The requirements of this chapter are in addition to any other applicable ordinances, regulations, and statutes. This includes adherence to the standards set forth in NFPA 495. Where different standards are contained within these documents or any other relevant regulations, the more restrictive standards shall apply

C. This chapter does not replace or negate federal and/or state requirements pertaining to explosives including OSHA CFR 1923.900 and 1910.109

Sec. 14-703. - Permit requirements.

A. Blasting permit required.

(1) The following shall require a permit:

(a) Site plan/subdivisions. If the Planning Board determines that a project involves or may require blasting, it shall expressly state and set out in its conditions of approval for such project that the applicant/developer secure from the director of the city planning, permitting, and code department, or their designee, a proper blasting permit in advanced of blasting, and as required herein.

(b) General construction. For any specific construction project, whether reviewed or not reviewed by the Planning Board as part of site plan or subdivision, that is found to need blasting at any time, the owner/developer, or responsible general contractor, shall secure a blasting permit, as described herein, from the director of the city planning, permitting, and code department, or their designee, prior to any blasting.

(c) Extractive industry and gravel pits. Any party who operates a gravel pit or who otherwise engages in extractive industry or earth removal operations shall secure from the director of the city planning, permitting, and code department, or their designee, a blasting permit, as described herein, prior to any blasting.

(d) All other blasting locations. Any other person or party, regardless of prior review, and regardless of purposes, that may need to conduct blasting shall be required to obtain a blasting permit, as described herein, from the city planning, permitting, and code department.

(2) No person or party may conduct any blasting within the boundaries of the City of Auburn without first having obtained review and approval from the director of the city planning, permitting, and code department, or their designee.

B. Notice required.

(1) Blasting activities for Extractive Industries and Quarries shall require an application for a permit to conduct blasting operations at least 30 days prior to conducting blasting or drilling. The application for permit to conduct blasting shall contain the information described in Paragraph C, referred to as the “blast plan”

(a) Following the issuance of permit, notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before initiation of blasting at the site.

(b) Annually thereafter, extractive industry sites and quarries shall renew their permit by providing a new application at least 30 days prior to expiration of their permit.

(2) All other proposed blasting activities in the City of Auburn shall require an application for a permit to conduct blasting operations at least 14 days prior to conducting blasting or drilling. Notice of blasting to be given to the city planning, permitting, and code department, in writing, at least 10 business days prior to the proposed start of blasting. Notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before such blasting is scheduled to take place.

C. Blasting application information. All applications for permits to conduct blasting shall contain the following information, referred to as the "blast plan."

(1) Applicant: the applicant's name, address, daytime telephone number, fax number, and e-mail address.

(2) Owner's name, address, daytime telephone number, fax number, and e-mail address.

(3) Blasting contractor: the blasting contractor's name, address, daytime telephone number, fax number, and e-mail address (if other than the blaster). Contractor shall submit written evidence of license(s) held, experience and qualifications of the individual who will be responsible for loading and firing each shot.

(4) General contractor: the general contractor's name, address, daytime telephone number, fax number, and e-mail address.

(5) Work site: the street address and Tax Assessor's map and lot number for the proposed blasting activity. If the blast plan is for a property shown on a plan reviewed by the Planning Board, the blast area for which the permit is requested shall be included on the plan.

(6) Information about the blast plan to include the following:

(a) Purpose of blast: a brief description of the work for which the blasting activity is requested.

(b) Volume of material: the estimated number of cubic yards (measured in place) of material to be loosened or fragmented by blasting.

(c) Number of blasts: the estimated number of blasts required to loosen or fragment the specified amount of material.

(d) Blast period: the planned starting and ending dates of the blasting activity.

(e) Site diagram: a sketch or diagram showing the property where blasting will be conducted, including: the location of adjacent structures and distance to those structures; description and location of blasting signs.

(f) Description of test blast drill pattern.

(g) Explosives to be used during both wet and dry conditions.

(h) Description of matting that will be used to prevent flyrock.

(i) Type, number, and planned locations of seismograph, and any other instrumentation proposed for use to monitor vibrations and air overpressures.

(j) Description of proposed transport and storage of explosives.

(k) Description of safety procedures, security measures, and warning procedures to be employed before, during and after the blast period.

(l) Signature of blasting contractor testifying to the accuracy of the blast plan.

(m) Dig safe number

D. Liability insurance. Blasting contractors and/or applicants shall carry general liability insurance in accordance with the following:

(1) The amount insured must be a minimum amount of $2,000,000 combined single limit per occurrence.

(2) The insurance policy must contain specific reference to blasting as an activity covered by the insurance.

(3) The policy shall indemnify and hold harmless the City, its agents and/or representatives, employees, and residents from and against any or all claims, damages, losses and expenses including legal fees arising out of or resulting from performance of the work, provided that such claim, damage, loss or expense is attributable to bodily injury or death, or to injury to or destruction to tangible personal or real property, including the loss of use, resulting in whole or in part from the blasting activity by any negligent act or omission of the contractor or any of its officers, agents, employees, representatives, subcontractors, and/or anyone directly or indirectly employed by any of them or anyone for whose acts any of them would be liable regardless of whether it is caused in part by a party indemnified hereunder and the contractor shall, at its own expense, defend and protect said indemnified parties against all such claims and demands.

(4) The City shall be named as a certificate holder to ensure the liability insurance is maintained throughout the duration of the blasting operation. The certificate must provide that the City of Auburn shall be notified at least 10 days prior to any cancellation

E. Public hearing. A public hearing is not required prior to the issuance of a blasting permit by the director of the city planning, permitting, and code department, or their designee.

F. Fees. Fees for blasting permits shall be as determined, and amended from time to time, by City Council order.

G. Permit duration.

(1) Extractive Industries and Quarry permits shall be valid for one year. No blasting after one year shall occur except as permitted herein.

(2) All other blasting permits shall be valid for a period of 90 days. No blasting after 90 days shall occur except as permitted herein.

(3) Lapse and extension. Any party that does not complete its blasting within the defined permit period may apply to the director of the city planning, permitting, and code department, or their designee, for a reasonable extension, not to exceed 60 days. The director shall have full discretion as to the length and condition of any extension. If the ninety-day period lapses prior to a request for extension, the director may require that the

party reapply for a new blasting permit.

H. Notice and pre-blast survey.

(1) The following notification and pre-blast survey requirements shall be required for all blasting permits prior to commencing blasting:

	Small blast (feet)	Medium blast (feet)	Large blast (feet)
Notice required	500	700	900
Pre-blast survey to be offered	100	300	500

(2) The blasting contractor will hire an independent qualified seismologist, blasting consultant or engineer to perform pre-blast surveys on all structures and wells in the areas outlined in Subsection H(1) above, contingent upon property owner agreement. The independent seismologist or blasting consultant shall not be an employee of the contractor, subcontractor, explosives manufacturer, or explosives distributor.

(3) Pre-blast survey offer notice: Prior to commencement of the pre-blast surveys, the blasting contractor shall provide the following documentation to the city planning, permitting, and code department:

(a) A list of property owners to be contacted (in accordance with the distances listed in the table above).

(b) Verification that the subject property owners were notified of the pre-blast survey work.

(c) A copy of the pre-blast survey offer notice.

(d) Whether each offer to conduct a pre-blast survey was either accepted, rejected, or there was no response. The blasting contractor shall retain a copy of each pre-blast survey offer notice for their records until the development project receives a final certificate of occupancy or is otherwise deemed complete by the City. Nothing herein shall be construed to discourage repeated efforts by the blasting contractor to contact eligible property owners via phone, hand delivery, or other method in addition to provision of the required offer notice letter.

(4) Pre-blast survey documentation. All pre-blast surveys shall include documentation of interior subgrade and above-grade accessible unobscured walls, ceilings, floors, roof and visible exterior as viewed from the grade level. Where significant cracks or damage exist, or for more complex structural defects, photographs or video shall be taken. A high-quality digital video or videotape survey with appropriate audio description of the locations, conditions, and defects may substitute for a written pre-blast survey. Where necessary, notes and sketches may also be used as part of a video pre-blast survey in order to highlight or elaborate on certain aspects of the video documentation.

(5) Pre-blast survey conditions report. All pre-blast surveys shall include an existing conditions report for each property. The conditions report may be presented as narrative, photographs, video or a combination thereof. Conditions reports shall summarize the condition of each building and define areas of concern, including deteriorated structures or utilities, structures housing sensitive equipment, and/or manufacturing processes that

are sensitive to vibrations.

(6) Verification that all pre-blast surveys and conditions reports have been completed shall be submitted to the city planning, permitting, and code department at least two weeks prior to commencing any drilling and/or blasting operations.

(7) The blasting contractor shall maintain a copy of the pre blast survey conditions report for a minimum of six years after the conclusion of blasting.

(8) The blasting contractor shall make a copy of the pre-blast survey conditions report available to the property owner.

Sec. 14-704. - Performance standards.

All blasters shall comply with the following performance standards:

A. Hours of detonation.

(1) Extractive industry blasting. Hours of detonation are limited to between 10:00 a.m. and 5:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

(2) All other blasting. Hours of detonation are limited to between sunrise and sunset but no earlier than 7:00 a.m. and no later than 7:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving and Christmas, unless otherwise more restrictive hours of detonation are specified by the Planning Board.

(3) Emergency situations. Blasting of any type may occur at any time in situations deemed to be emergencies by the director of the city planning, permitting, and code department, or their designee, after consultation with other City staff as may be determined to be necessary by the director. Emergency situations may include, but are not limited to, blasting to install utilities damaged by weather events, unanticipated needs for blasting to complete City infrastructure project when the delay would significantly affect project timelines or City services, or blasting to correct a misfire of explosives in an otherwise permitted blast event.

(4) In consideration of the safety hazards and community concerns associated with adverse weather conditions, this ordinance permits the adjustment of blasting operations in response to lightning-related disruptions, wind-related community concerns, and atmospheric conditions, including pressure variations. When such conditions are present, operators are authorized to modify the timing and duration of blasting activities as necessary to ensure the safety of all personnel, minimize impacts on the surrounding community, and maintain compliance with regulatory requirements. Any adjustments made must be promptly communicated to the appropriate authorities and property owners.

B. Water quality protection. Water is a precious resource, and the applicant must take measures to ensure that the quality of source water is protected. Prior to the initial blast, the applicant must offer water quality tests on all non-applicant-owned wells within distances outlined in Sec. 14-703(H) above. Water quality testing must also be completed post-blast if requested by the property owner because of evidence of a substantive change in water quality. Turbidity in wells tested shall be no greater than that which existed prior to the blasting as established in the pre-blast survey.

C. Ground vibration, Air Overpressure, Flyrock and Gases

(1) Ground vibration, Air Overpressure, Flyrock and gases shall be controlled and shall not exceed the limits defined in NFPA 495.

(2) Measurements shall be required for all blasts. Ground vibration shall be measured as particle velocity. Particle velocity shall be recorded in three mutually perpendicular directions (x, y, z). The maximum allowable peak particle velocity shall apply to each of the three measurements. Any blast made with less than 25 pounds of explosives in an Extractive Industry or Quarry operation which occurs more than 500 feet from a structure, building, or source water is exempt from this seismological measurement requirement.

(3) Seismographic record. A seismographic record for all blasts shall be retained by the applicant and provided to the city planning, permitting, and code department or the Planning Board, if requested. The applicant is responsible for such record and for providing proper instrumentation as specified in this chapter. Personnel conducting such monitoring shall be properly trained in the operation of the equipment being used.

(4) Measurements. The requirements established herein shall be measured at the closest building(s) on abutting properties as determined by the director of the city planning, permitting, and code department, or their designee,

D. Other permits. The applicant must also comply with all standards and conditions contained in other permits issued for such projects and local, state and federal statutes and regulations.

E. Blasting seismographs used to monitor ground vibrations and air overpressure shall comply with the ISEE document, “Performance Specifications for Blasting Seismographs” and all seismographs shall be deployed in the field according to ISEE document, “Field Practice Guidelines for Blasting Seismographs.”

Sec. 14-705. – Notices.

A. Required notification of blasting for Quarry Operations.

(1) Initial notice. State licensed quarry operations are subject to public notification and public hearing processes prior to State licensure. This initial notification is to serve as notice to residents of the commencement of blasting at a new quarry site. The blaster must send, by first-class mail an advisory notice to all property owners within 2,000 feet of the secured blasting area. Notifications shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 2,000 feet of the production quarries. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

B. Required notification of blasting for all other blasting. The following notice requirements for any

blast requiring a blasting permit shall be adhered to by the blaster.

(1) Initial notice. The blaster must send initial notice by first-class mail an advisory notice to all property owners within the distances outlined in Sec. 14-703H(1) of the secured blasting area. Notification shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 300 feet of the secured blasting area. This will be done whether or not the property owners requested to be notified. The blaster shall also notify all others who have requested in writing to be so notified. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

C. **Emergency Services Notification:** The 911 dispatch center servicing the City of Auburn must be notified at least 24 hours prior to any explosive detonation. The notification shall include the address for the blast site as well as the anticipated start time for blasting and anticipated time that blasting will conclude for the day.

Sec. 14-706. - Inspection, monitoring, and recordkeeping.

A. Entry. The director of the city planning, permitting, and code department, or their designee, may enter the secured blasting area or adjacent area to conduct site evaluations and observe any authorized blasting operations and may order that additional ground vibration and air overpressure measurements using approved instrumentation be made by persons responsible for blasting operations to ensure that the limits specified in this chapter are not exceeded, if excess readings are indicated.

B. Additional monitoring. The blaster shall maintain a record of each blast. All records shall be retained at least three years following cessation of the blasting operation, and shall be available for inspection by the director of the city planning, permitting, and code department, or their designee, or any property owner within the distances outlined in Sec. 14-703H(1) of the secured blasting area, and shall contain the following minimum data for traceability purposes:

(1) Name and contact information of responsible party: the name and contact information of the person(s) responsible for the blasting operation.

(2) Location, date, time, number and pattern/spacing of blast holes, total charge weight, charge weight per delay, date and time of each blast.

(3) Blaster: the name(s) of blaster in charge.

(4) Weather: the weather conditions (including such factors as wind direction, cloud cover, etc.).

(5) Data: seismograph and air overpressure readings, including date, time, and location of instrument.

(6) Notice: name, addresses, date and time of all persons who were notified prior to every blast.

Sec. 14-707. - Compliance schedule.

A. Applicability. Upon adoption of this chapter, all existing and new blasting operations are subject to the terms herein and must obtain a permit to conduct any further blasting.

B. Review. A complete review of all activities under this chapter shall be undertaken by the director of the city planning, permitting, and code department 12 months after adoption of this chapter to determine if the levels are adequate and reasonable to achieve the purpose for which this chapter is intended. The results of this review shall be reported to the City Manager, who will report to the City Council with recommendations of the review.

Sec. 14-708. - Exceptions for undue hardship.

A. Application. Applications for a permit for exception from the performance standards designated in this chapter may, on the basis of hardship, be made to the director of the city planning, permitting, and code department, or their designee. Any permit granted hereunder shall contain all conditions upon which said permit has been granted and shall specify a reasonable time that the permit shall be effective.

B. Standards. The director of the city planning, permitting, and code department, or their designee, may grant the exception as applied for only if:

(1) Limited in scope: the activity or operation will be of a temporary duration, i.e., a limited number of blasts at a specific site, and cannot be done in a manner that would comply with this chapter;

(2) Reasonable alternative: no other reasonable alternative is available to the applicants; and

(3) Safety: the applicants represent, and the director of the city planning, permitting, and code department, or their designee, finds, that blasting as permitted will not violate recognized safety standards.

C. Conditions. Upon the issuance of any exception permit, the director of the city planning, permitting, and code department, or their designee, may limit the scope of the exception and prescribe any reasonable conditions or requirements he deems necessary to minimize adverse effects.

Sec. 14-709. - Violations and penalties.

A. Penalties. The submission of false information required by this chapter, or the violation of this chapter or the violation of any condition attached to a permit granted under this chapter shall constitute a land use violation for which an enforcement action may be commenced by the City in accordance with 30-A M.R.S.A. § 4452.

B. Reporting. A copy of the violation report and consent agreement reached between the City and the person or entity found in violation of any portion of this chapter will be filed in the permit or license file.

Sec. 14-710. - Conflict.

Blasting in Auburn shall be conducted in compliance with all pertinent section of the City Code of Ordinances, and, except as superseded by the provision of this article, the NFPA 1 Fire Prevention

Code, and NFPA 495 Explosive Materials Code as adopted by the State of Maine. In any particular instance where these regulations are in conflict with any other rules, regulations or ordinances of the City, the more restrictive regulation or provision shall prevail.

Sec. 14-711. - Appeal of denial of a blasting permit.

If the city planning, permitting, and code department has denied a blasting permit under this article, the applicant may appeal the denial to the Zoning Board of Appeals within 30 days of the decision by filing a written notice of appeal.

Sec. 14-712 to 725 Reserved.

Chapter 14

BUSINESS LICENSES AND PERMITS

Article XIX

BLASTING

Sec. 14-700. - Purpose; statutory authority; enforcement.

A. Blasting is an activity essential to the economic viability of Auburn. Unregulated blasting and/or irresponsible blasting may cause undue damage to the people, property and environment of the City.

B. This chapter establishes specific standards for blasting operations, notice requirements, instrument monitoring requirements of blasting operations, a permit process for blasting and other associated standards and requirements.

C. It is intended to minimize the effects of air overpressure, ground vibration, dust, and noise associated with blasting which may be detrimental to the enjoyment of life, property and the conduct of business for those individuals affected.

D. It is also intended to provide standards that will prevent permanent damage to the geologic, hydrogeologic and wildlife resources and ecological balance in the region outside the immediate blast area. The chapter is intended to protect the quality of life and the homes of residents, neighborhoods, property, groundwater, wildlife resources, scenic beauty and/or businesses, all lying outside the approved work area and potentially affected by the blasting.

E. It is intended to be effectively and efficiently administered without causing undue financial and administrative hardship to blasting operators.

F. This chapter is enacted pursuant to 30-A M.R.S.A. § 3001, Ordinance power, as well as the City's Home Rule authority under the Maine Constitution, and shall be administered by the Planning, Permitting, and Code Department.

G. The city planning, permitting, and code department shall have authority to enforce all requirements of this Chapter in accordance with section 60-1403.

Sec. 14-701. - Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Air overpressure means an airborne shock wave resulting from detonation of explosives. Air overpressure may be caused by burden movement or the release of expanding gas into the air. Air overpressure may or may not be audible.

Applicant means the owner or other individual, corporation or other business entity who or which applies for the legal right to conduct blasting at real property which it has the legal right to use.

Blast site means the area where explosive material is handled during the loading of drilled blastholes, including the perimeter formed by the loaded blastholes and 50 feet in all directions from loaded blastholes.

Blast size means, for a

A. Small blast: trench blast or under 50 cubic yards of rock removed.

B. Medium blast: removal of 50 to 300 cubic yards of rock material.

C. Large blast: removal of over 300 cubic yards of rock material.

Blaster means an applicant who has been awarded a permit to conduct blasting.

Blasting means the use of explosives to break up or otherwise aid in the extraction or removal of rock or other consolidated material.

Blasting operations means all processes conducted in association with site or other preparation for blasting, and the detonation of explosives.

Decibel means the unit of sound pressure commonly used to measure air overpressure from explosives. The decibel scale is logarithmic.

Explosives means any substance, chemical compound or mechanical mixture that is used for the purpose of producing an explosion to fragment rock for mining, quarrying, excavation and construction. Initiating devices (detonators, detonating cords, etc.) are also included under this definition.

Extractive industry means any operation engaged in the removal of more than 20 cubic yards, in a twelve-month period, of topsoil, sand, gravel, clay, rock, peat or other like material from its natural location and for transportation off lot within any twelve-month period, except as may be exempted within the extractive industry performance standards in this chapter.

Flyrock means rock that is propelled through the air or along the ground, which leaves the secured blast area as a result of the detonation of explosives.

Ground vibrations means the energy from a blast that manifest itself in vibrations which are transmitted through the earth away from the immediate blast site. Ground vibrations are to be measured along three principal axes (x, y, z); namely, transverse, vertical, and longitudinal, all of which are subject to the performance standards herein.

Groundwater means water beneath the earth's surface often between saturated soil and rock that supplies wells and streams.

Hertz means a term used, in the case of blasting, to express the frequency of ground vibrations and air overpressure. One hertz is one cycle per second.

Particle velocity means a measure of ground vibration in the case of blasting. Particle velocity describes the velocity at which a particle of ground vibrates when excited by a seismic wave. It is measured in inches per second.

Pre-blast Survey means an inspection of the dwellings, water supplies, and other structures within the blasting notice area for the purpose of documenting the physical conditions prior to the commencement of blasting.

Quarry means the property designated in the application and permit where rock is excavated in an extractive industry operation~~.~~ ,which is licensed and governed by the performance standards 38 MRSA Section 490-Y.

Secured blast area means the area that may be affected by flyrock, dust, or fumes from an explosion that may cause personal injuries, damages to property, or losses in the process. The minimum distance for personnel is 500 feet. Safe distances will be determined based on conditions for each

blast by the blasting foreman or designee.

Seismograph means an instrument that measures and has the capability to provide a permanent record of hertz and decibel readings concerning ground vibrations caused by blasting.

Source water means bodies of water (such as rivers, streams, lakes, reservoirs, springs, and ground water) that provide water to public drinking-water supplies and private wells.

Sec. 14-702. - Blasting permit required; effect on other regulations.

A. No blasting within the City of Auburn shall be allowed unless a permit has been obtained from the city planning, permitting, and code department, except as otherwise exempted per this chapter.

B. The requirements of this chapter are in addition to any other applicable ordinances, regulations, and statutes. This includes adherence to the standards set forth in NFPA 495. Where different standards are contained within these documents or any other relevant regulations, the more restrictive standards shall apply.

C. This chapter does not replace or negate federal and/or state requirements pertaining to explosives including OSHA CFR 1923.900 and 1910.109.

Sec. 14-703. - Permit requirements.

A. Blasting permit required.

(1) The following shall require a permit:

(a) Site plan/subdivisions. If the Planning Board determines that a project involves or may require blasting, it shall expressly state and set out in its conditions of approval for such project that the applicant/developer secure from the director of the city planning, permitting, and code department, or their designee, a proper blasting permit in advanced of blasting, and as required herein.

(b) General construction. For any specific construction project, whether reviewed or not reviewed by the Planning Board as part of site plan or subdivision, that is found to need blasting at any time, the owner/developer, or responsible general contractor, shall secure a blasting permit, as described herein, from the director of the city planning, permitting, and code department, or their designee, prior to any blasting.

(c) Extractive industry and gravel pits. Any party who operates a gravel pit or who otherwise engages in extractive industry or earth removal operations shall secure from the director of the city planning, permitting, and code department, or their designee, a blasting permit, as described herein, prior to any blasting.

(d) All other blasting locations. Any other person or party, regardless of prior review, and regardless of purposes, that may need to conduct blasting shall be required to obtain a blasting permit, as described herein, from the city planning, permitting, and code department.

(2) No person or party may conduct any blasting within the boundaries of the City of Auburn without first having obtained review and approval from the director of the city planning, permitting, and code department, or their designee.

B. Notice required

(1) Blasting activities for Extractive Industries and Quarries shall require an application for a permit to conduct blasting operations at least 30 days prior to conducting blasting or drilling. The application for permit to conduct blasting shall contain the information described in Paragraph C, referred to as the "blast plan"

(a) Following the issuance of permit, notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before initiation of blasting at the site.

(b) Annually thereafter, extractive industry sites and quarries shall renew their permit by providing a new application at least 30 days prior to expiration of their permit.

~~B.~~

C. All other proposed blasting activities in the City of Auburn shall require application for permit to conduct blasting operations at least 14 days prior to conducting blasting or drilling. Notice of blasting to be given to the city planning, permitting, and code department, in writing, at least 10 business days prior to the proposed start of blasting. Notice of the blasting shall be made public in at least one newspaper of general circulation in the area at least 10 days before such blasting is scheduled to take place.

~~C.~~D. Blasting application information. All applications for permits to conduct blasting shall contain the following information, referred to as the "blast plan."

(1) Applicant: the applicant's name, address, daytime telephone number, fax number, and e-mail address.

(2) Owner's name, address, daytime telephone number, fax number, and e-mail address.

(3) Blasting contractor: the blasting contractor's name, address, daytime telephone number, fax number, and e-mail address (if other than the blaster). Contractor shall submit written evidence of license(s) held, experience and qualifications of the individual who will be responsible for loading and firing each shot.

(4) General contractor: the general contractor's name, address, daytime telephone number, fax number, and e-mail address.

(5) Work site: the street address and Tax Assessor's map and lot number for the proposed blasting activity. If the blast plan is for a property shown on a plan reviewed by the Planning Board, the blast area for which the permit is requested shall be included on the plan.

(6) Information about the blast plan to include the following:

(a) Purpose of blast: a brief description of the work for which the blasting activity is requested.

(b) Volume of material: the estimated number of cubic yards (measured in place) of material to be loosened or fragmented by blasting.

(c) Number of blasts: the estimated number of blasts required to loosen or fragment the specified amount of material.

(d) Blast period: the planned starting and ending dates of the blasting activity.

(e) Site diagram: a sketch or diagram showing the property where blasting will be conducted, including: the location of adjacent structures and distance to those structures; description and location of blasting signs.

(f) Description of test blast drill pattern.

(g) Explosives to be used during both wet and dry conditions.

(h) Description of matting that will be used to prevent flyrock.

(i) Type, number, and planned locations of seismograph, and any other instrumentation proposed for use to monitor vibrations and air overpressures.

(j) Description of proposed transport and storage of explosives.

(k) Description of safety procedures, security measures, and warning procedures to be employed before, during and after the blast period.

(l) Signature of blasting contractor testifying to the accuracy of the blast plan.

(m) Dig safe number

~~D.~~E. Liability insurance. Blasting contractors and/or applicants shall carry general liability insurance in accordance with the following:

(1) The amount insured must be a minimum amount of $2,000,000 combined single limit per occurrence.

(2) The insurance policy must contain specific reference to blasting as an activity covered by the insurance.

(3) The policy shall indemnify and hold harmless the City, its agents and/or representatives, employees, and residents from and against any or all claims, damages, losses and expenses including legal fees arising out of or resulting from performance of the work, provided that such claim, damage, loss or expense is attributable to bodily injury or death, or to injury to or destruction to tangible personal or real property, including the loss of use, resulting in whole or in part from the blasting activity by any negligent act or omission of the contractor or any of its officers, agents, employees, representatives, subcontractors, and/or anyone directly or indirectly employed by any of them or anyone for whose acts any of them would be liable regardless of whether it is caused in part by a party indemnified hereunder and the contractor shall, at its own expense, defend and protect said indemnified parties against all such claims and demands.

(4) The City shall be named as a certificate holder to ensure the liability insurance is maintained throughout the duration of the blasting operation. The certificate must provide that the City of Auburn shall be notified at least 10 days prior to any cancellation

~~E.~~F. Public hearing. A public hearing is not required prior to the issuance of a blasting permit by the director of the city planning, permitting, and code department, or their designee. Public Hearings are required for new Quarries under Chapter 60, Article III of City Ordinances.

~~F.~~G. Fees. Fees for blasting permits shall be as determined, and amended from time to time, by City Council order.

~~G.~~H. Permit duration.

(1) Extractive Industries and Quarries: Permits shall be valid for one year.

(2) All other blasting permits shall be valid for a period of 90 days. No blasting after 90 days shall occur except as permitted herein.

(3) Lapse and extension. Any party that does not complete its blasting within the defined permit period may apply to the director of the city planning, permitting, and code department, or their designee, for a reasonable extension, not to exceed 60 days. The director shall have full discretion as to the length and condition of any extension. If the ninety-day period lapses prior to a request for extension, the director may require that the party reapply for a new blasting permit.

~~(3)~~(4) In consideration of the safety hazards and community concerns associated with adverse weather conditions, this ordinance permits the adjustment of blasting operations in response to lightning-related disruptions, wind-related community concerns, and atmospheric conditions, including pressure variations. When such conditions are present, operators are authorized to modify the timing and duration of blasting activities as necessary to ensure the safety of all personnel, minimize impacts on the surrounding community, and maintain compliance with regulatory requirements. Any adjustments made must be promptly communicated to the appropriate authorities and property owners.

~~H.~~I. Notice and pre-blast survey.

(1) The following notification and pre-blast survey requirements shall be required for all blasting permits prior to commencing blasting:

	Small blast (feet)	Medium blast (feet)	Large blast (feet)
Notice required	500	700	900
Pre-blast survey to be offered	100	300	500

(2) The blasting contractor will hire an independent qualified seismologist, blasting consultant or engineer to perform pre-blast surveys on all structures and wells in the areas outlined in Subsection H(1) above, contingent upon property owner agreement. The independent seismologist or blasting consultant shall not be an employee of the contractor, subcontractor, explosives manufacturer, or explosives distributor.

(3) Pre-blast survey offer notice: Prior to commencement of the pre-blast surveys, the blasting contractor shall provide the following documentation to the city planning, permitting, and code department:

(a) A list of property owners to be contacted (in accordance with the distances listed in the table, above).

(b) Verification that the subject property owners were notified of the pre-blast survey work.

(c) A copy of the pre-blast survey offer notice.

(d) Whether each offer to conduct a pre-blast survey was either accepted, rejected, or there was no response. The blasting contractor shall retain a copy of each pre-blast survey offer notice for their records until the development project receives a final certificate of occupancy or is otherwise deemed complete by the City. Nothing herein shall be construed to discourage repeated efforts by the blasting contractor to contact eligible property owners via phone, hand delivery, or other method in

addition to provision of the required offer notice letter.

(4) Pre-blast survey documentation. All pre-blast surveys shall include documentation of interior subgrade and above-grade accessible unobscured walls, ceilings, floors, roof and visible exterior as viewed from the grade level. Where significant cracks or damage exist, or for more complex structural defects, photographs or video shall be taken. A high-quality digital video or videotape survey with appropriate audio description of the locations, conditions, and defects may substitute for a written pre-blast survey. Where necessary, notes and sketches may also be used as part of a video pre-blast survey in order to highlight or elaborate on certain aspects of the video documentation.

(5) Pre-blast survey conditions report. All pre-blast surveys shall include an existing conditions report for each property. The conditions report may be presented as narrative, photographs, video or a combination thereof. Conditions reports shall summarize the condition of each building and define areas of concern, including deteriorated structures or utilities, structures housing sensitive equipment, and/or manufacturing processes that are sensitive to vibrations.

(6) Verification that all pre-blast surveys and conditions reports have been completed shall be submitted to the city planning, permitting, and code department at least two weeks prior to commencing any drilling and/or blasting operations.

(7) The blasting contractor shall maintain a copy of the pre blast survey conditions report for a minimum of six years after the conclusion of blasting.

(8) The blasting contractor shall make a copy of the pre-blast survey conditions report available to the property owner.

Sec. 14-704. - Performance standards.

All blasters shall comply with the following performance standards:

A. Hours of detonation.

(1) Extractive industry blasting. Hours of detonation are limited to between 10:00 a.m. and 5:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, , Thanksgiving and Christmas.

~~(1)~~(2) At the discretion of the Director of Planning and Permitting, small scale blast of less than 25 pounds of explosives which occur more than 500 feet from a structure may be permitted on weekends and holidays.

~~(2)~~(3) All other blasting. Hours of detonation are limited to between sunrise and sunset but no earlier than 7:00 a.m. and no later than 7:00 p.m., Monday through Friday inclusive, excluding the following legal holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving and Christmas, unless otherwise more restrictive hours of detonation are specified by the Planning Board.

(4) Emergency situations. Blasting of any type may occur at any time in situations deemed to be emergencies by the director of the city planning, permitting, and code department, or their designee, after consultation with other City staff as may be determined to be necessary by the director. Emergency situations may include, but are not limited to, blasting to install utilities damaged by weather events, unanticipated needs for blasting to complete City infrastructure project when the delay would significantly affect project timelines or City services, or blasting to correct a misfire of explosives in an otherwise

permitted blast event.

~~(3) In consideration of the safety hazards and community concerns associated with adverse weather conditions, this ordinance permits the adjustment of blasting operations in response to lightning-related disruptions, wind-related community concerns, and atmospheric conditions, including pressure variations. When such conditions are present, operators are authorized to modify the timing and duration of blasting activities as necessary to ensure the safety of all personnel, minimize impacts on the surrounding community, and maintain compliance with regulatory requirements. Any adjustments made must be promptly communicated to the appropriate authorities and property owners.~~

B. Water quality protection. Water is a precious resource, and the applicant must take measures to assure that the quality of source water is protected. Prior to the initial blast, the applicant must offer water quality tests on all non-applicant-owned wells within distances outlined in Sec. 14-703(H) above. Water quality testing must also be offered post-blast if requested by the property owner because of evidence of a substantive change in water quality. Turbidity in wells tested shall be no greater than that which existed prior to the blasting as established in the pre-blast survey.

C. Ground vibration, Air Overpressure, Flyrock and Gases

(1) Ground vibration, Air Overpressure, Flyrock and gases shall be controlled and shall not exceed the limits defined in NFPA 495.

(2) Measurements shall be required for all blasts. Ground vibration shall be measured as particle velocity. Particle velocity shall be recorded in three mutually perpendicular directions (x, y, z). The maximum allowable peak particle velocity shall apply to each of the three measurements. Any blast made with less than 25 pounds of explosives in an Extractive Industry or Quarry operation which occurs more than 500 feet from a structure, building, or source water is exempt from this seismological measurement requirement.

(3) Seismographic record. A seismographic record for all blasts shall be retained by the applicant and provided to the city planning, permitting, and code department or the Planning Board, if requested. The applicant is responsible for such record and for providing proper instrumentation as specified in this chapter. Personnel conducting such monitoring shall be properly trained in the operation of the equipment being used.

(4) Measurements. The requirements established herein shall be measured at the closest building(s) on abutting properties as determined by the director of the city planning, permitting, and code department, or their designee,

D. Other permits. The applicant must also comply with all standards and conditions contained in other permits issued for such projects and local, state and federal statutes and regulations.

E. Blasting seismographs used to monitor ground vibrations and air overpressure shall comply with the ISEE document, “Performance Specifications for Blasting Seismographs” and all seismographs shall be deployed in the field according to ISEE document, “Field Practice Guidelines for Blasting Seismographs.”

Sec. 14-705. – Notices.

A. Required notification of blasting for Quarry Operations.

(1) Initial notice. State licensed quarry operations are subject to public notification and public hearing processes prior to State licensure. This initial notification is to serve as notice to residents of the commencement of blasting at a new quarry site. The blaster must send, by first-class mail an advisory notice to all property owners within 2,000 feet of the secured blasting area. Notifications shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 2,000 feet of the production quarries. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

B. Required notification of blasting for all other blasting. The following notice requirements for any blast requiring a blasting permit shall be adhered to by the blaster.

(1) Initial notice. The blaster must send initial notice by first-class mail an advisory notice to all property owners within the distances outlined in Sec. 14-703H(1) of the secured blasting area. Notification shall be mailed no later than 10 calendar days and no earlier than 14 calendar days prior to the initiation of blasting. A certificate of mailing shall be submitted to the city planning, permitting, and code department as verification that said mailings were done. Said notice must include the description of the blasting signals to be utilized during the operation. The blaster of either an earth removal operation or other project must provide notice to a property owner who has made a written request to the blaster.

(2) Twenty-four-hour notice. Prior to every blast, the blaster shall notify all property owners within 300 feet of the secured blasting area. This will be done whether or not the property owners requested to be notified. The blaster shall also notify all others who have requested in writing to be so notified. Such notification shall be given by telephone, or by door hangers on the door of the residence or business, between 24 hours and 48 hours prior to the blast. The notification shall state the time the blast is proposed to occur, and the blast may occur as early as one hour prior to the noticed time and as late as one hour after the noticed time. The burden of proof of notification is the responsibility of the blaster.

C. Emergency Services Notification: The 911 dispatch center servicing the City of Auburn must be notified at least 24 hours prior to any explosive detonation. The notification shall include the address for the blast site as well as the anticipated start time for blasting and anticipated time that blasting will conclude for the day.

Sec. 14-706. - Inspection, monitoring, and recordkeeping.

A. Entry. The director of the city planning, permitting, and code department, or their designee, may enter the secured blasting area or adjacent area to conduct site evaluations and observe any authorized blasting operations and may order that additional ground vibration and air overpressure measurements using approved instrumentation be made by persons responsible

for blasting operations to ensure that the limits specified in this chapter are not exceeded, if excess readings are indicated.

B. Additional monitoring. The blaster shall maintain a record of each blast. All records shall be retained at least three years following cessation of the blasting operation, and shall be available for inspection by the director of the city planning, permitting, and code department, or their designee, or any property owner within the distances outlined in Sec. 14-703H(1) of the secured blasting area, and shall contain the following minimum data for traceability purposes:

(1) Name and contact information of responsible party: the name and contact information of the person(s) responsible for the blasting operation.

(2) Location, date, time, number and pattern/spacing of blast holes, total charge weight, charge weight per delay, date and time of each blast.

(3) Blaster: the name(s) of blaster in charge.

(4) Weather: the weather conditions (including such factors as wind direction, cloud cover, etc.).

(5) Data: seismograph and air overpressure readings, including date, time, and location of instrument.

(6) Notice: name, addresses, date and time of all persons who were notified prior to every blast.

Sec. 14-707. - Compliance schedule.

A. Applicability. Upon adoption of this chapter, all existing and new blasting operations are subject to the terms herein and must obtain a permit to conduct any further blasting.

B. Review. A complete review of all activities under this chapter shall be undertaken by the director of the city planning, permitting, and code department 12 months after adoption of this chapter to determine if the levels are adequate and reasonable to achieve the purpose for which this chapter is intended. The results of this review shall be reported to the City Manager, who will report to the City Council with recommendations of the review.

Sec. 14-708. - Exceptions for undue hardship.

A. Application. Applications for a permit for exception from the performance standards designated in this chapter may, on the basis of hardship, be made to the director of the city planning, permitting, and code department, or their designee. Any permit granted hereunder shall contain all conditions upon which said permit has been granted and shall specify a reasonable time that the permit shall be effective.

B. Standards. The director of the city planning, permitting, and code department, or their designee, may grant the exception as applied for only if:

(1) Limited in scope: the activity or operation will be of a temporary duration, i.e., a limited number of blasts at a specific site, and cannot be done in a manner that would comply with this chapter;

(2) Reasonable alternative: no other reasonable alternative is available to the applicants; and

(3) Safety: the applicants represent, and the director of the city planning, permitting, and code department, or their designee, finds, that blasting as permitted will not violate recognized safety standards.

C. Conditions. Upon the issuance of any exception permit, the director of the city planning, permitting, and code department, or their designee, may limit the scope of the exception and prescribe any reasonable conditions or requirements he deems necessary to minimize adverse effects.

Sec. 14-709. - Violations and penalties.

A. Penalties. The submission of false information required by this chapter, or the violation of this chapter or the violation of any condition attached to a permit granted under this chapter shall constitute a land use violation for which an enforcement action may be commenced by the City in accordance with 30-A M.R.S.A. § 4452.

B. Reporting. A copy of the violation report and consent agreement reached between the City and the person or entity found in violation of any portion of this chapter will be filed in the permit or license file.

Sec. 14-710. - Conflict.

Blasting in Auburn shall be conducted in compliance with all pertinent section of the City Code of Ordinances, and, except as superseded by the provision of this article, the NFPA 1 Fire Prevention Code, and NFPA 495 Explosive Materials Code as adopted by the State of Maine. In any particular instance where these regulations are in conflict with any other rules, regulations or ordinances of the City, the more restrictive regulation or provision shall prevail.

Sec. 14-711. - Appeal of denial of a blasting permit.

If the city planning, permitting, and code department has denied a blasting permit under this article, the applicant may appeal the denial to the Zoning Board of Appeals within 30 days of the decision by filing a written notice of appeal.

Sec. 14-712 to 725 Reserved.

City Council Information Sheet

Council Workshop or Meeting Date: December 16, 2024
Author: Glen E. Holmes, Director of Business & Community Development
Subject: CDBG & HOME Consolidated/Action Plan Amendment

Public Hearing, ORDER 164-12162024 & RESOLVE 8-12162024

Information:
Each year the Business & Community Development Department presents the Annual Action Plan, detailing the use of Auburn's CDBG funds. This plan is designed to address community needs as detailed in the 5-year Consolidated Plan which was adopted in 2020.

This amendment is intended to reallocate available HOME funds to address the identified community needs outlined within the amendment. This Public Hearing will accompany a 30-day public comment period prior to the submittal of the amendments to the U.S. Department of Housing & Urban Development.

A required amendment to the Citizen Participation Plan, Consolidated & Action Plan is needed to accommodate for the use of the proposed Section 108 Loan Guarantee Program on a CDBG qualified infrastructure project as presented.

City Budgetary Impacts:
Funds included within this budget are covered by grants provided by the U.S. Department of Housing and Urban Development. This includes projects, activities and related staff time administering programs.

Staff Recommended Action:
Hold Public Hearing. Approve amended Consolidated & Action plan including Citizen Participation Plan.
Pass resolve directing city manager to apply for HUD Section108 Loan Guarantee

COMMUNITY DEVELOPMENT BLOCK GRANT
&
HOME INVESTMENT PARTNERSHIP PROGRAM
Program Year 2024
CONSOLIDATED and ACTION PLAN AMENDMENT #2

The City of Auburn is amending its Consolidated and PY24 Action Plan with the U. S. Department of Housing and Urban Development (HUD). This revision is in response to emergent community needs described in detail below. These new CDBG & HOME funded activities still meet and advance the goals and objectives set forth in the Auburn 2020-2024 Consolidated Plan.

2020-2024 CONSOLIDATED PLAN

The City of Auburn has adopted a 2020-2024 Consolidated Plan for the Community Development Block Grant (CDBG) Program and the HOME Investment Partnerships (HOME) Program which includes both the City of Auburn and Lewiston. The Consolidated Plan identifies many community challenges, establishes priorities, and describes how Community Development resources will address these needs. Although this plan was adopted prior to Covid-19 and many housing-related crises, these amendments still meet the original four goals:

Goal 1: Provide Safe & Affordable Housing
Goal 2: Improve Infrastructure & Reduce Blight
Goal 3: Promote Economic Opportunities
Goal 4: Provide Essential Services

DRIVERS OF CHANGE

First, the current CDBG budget includes a $300,000 allocation for the development of the Auburn Community Resource Center at 121 Mill St. With final cost estimates now available, we have identified a funding gap that must be addressed to complete the facility buildout and finishing work. To meet this gap, the Business & Community Development department recommends utilizing HUD's Section 108 Loan Program. This program allows the city to borrow necessary funds from HUD, with repayment structured over time using future CDBG allocations. Importantly, this amendment does not impact the current year's CDBG budget but formally authorizes the use of the 108 Loan Program to finalize this Council-approved project.

In order to accommodate this application process, specific language regarding the 108-loan guarantee program needed to be added to the Consolidated plan including the citizen participation process. To accomplish this the required plan has been amended and attached to this amendment for Council approval.

Next, we propose an amendment to the current HOME budget to address rising demand for rental assistance through the establishment of a Tenant-Based Rental Assistance (TBRA) program. With increased requests from residents and anticipated needs from the Mayor's ad hoc Committee on Homelessness, reallocating uncommitted HOME housing development funds will allow us to re-establish this critical TBRA program. By making this adjustment now, the General Assistance Office will begin delivering these new services as the GA caseloads decrease. The expectation, if trends continue, would be to maintain a new, grant funded position within the next fiscal year to manage TBRA funds while eliminating a position from the city's GA budget. This would result in increased services, no change to staff levels, and a reduction to the city budget.

FUND Re-ALLOCATION

CDBG: There is no change to the current year CDBG budget. There will be funds from future CDBG allocations that will be pledged to repayment of the 108 loan.

Citizen Participation Plan
2020-2024
Adopted July 18th, 2022
Amended December 16th, 2024

The U.S. Department of Housing and Urban Development (HUD) has consolidated the planning, application, reporting and citizen participation processes of formula grant programs: Community Development Block Grants (CDBG), & Home Investment Partnerships (HOME). The Consolidated Plan is designed to help states and local jurisdictions to assess their affordable housing and community development needs and market conditions, and to make data-driven, place-based investment decisions. The consolidated planning process serves as the framework for a community-wide dialogue to identify housing and community development priorities that align and focus funding from the formula block grant programs.

The city of Auburn (City) encourages citizens, especially those earning low and moderate incomes, to participate in the development of the City's Consolidated Housing and Community Development Plan ("Consolidated Plan"). This Citizen Participation Plan outlines the responsibilities of the City for obtaining citizen participation in the process of preparing, amending, and updating the Five-Year Consolidated Plan, the Annual Action Plan, and the Consolidated Annual Performance Evaluation Report (CAPER).

Citizen Participation Statutory Requirements

Plan/Report	Frequency	Due Date	Comment Period	Public Hearings
Consolidated Plan	Every 5 years	May 15*	30 days	2
Annual Action Plan	Every Year	May 15*	30 days	2
Amendments to Consolidated Plan Annual Action Plan	As needed		30 days	1
Consolidated Annual Performance Evaluation Report (CAPER)	Every year	Sept. 30	15 days	1

*Unless otherwise extended by HUD CPD Notice

Timeline of Annual Tasks, Submissions & Approvals

February	Public Hearing to solicit consolidated/Action plan input Complete Department Program Budget
March 1st	Revisit Needs assessment and prioritizations Draft Consolidated/ Action Plan
April 1st	Publish Consolidated/ Action Plan Public Notice for 30-day Comment Period
1st Council Meeting in May	Public Hearing Approval of Budget & Action Plan
May 15th	Submission of: • Consolidated/ Action Plan • Summary of Consultations • Summary of Citizen Participation/ Comments • Certifications & 424s
July 1st	Beginning of Fiscal Year
August 1st	Close out Previous year activities/ Budgets
September 15	Publish CAPER Public Hearing regarding CAPER
September 30th	Submit CAPER to HUD
December 1st	Release annual citizen participation survey Solicit unmet needs statements from area service providers

THE CONSOLIDATED PLAN AND THE ANNUAL ACTION PLAN

The Consolidated Plan examines the current housing situation, explores the housing and community development needs of the City, and sets priorities for spending HUD grant funds. The Annual Action Plan represents activities for years 2-5 of the Consolidated Plan. The City encourages inter-local government, public and private agency, and citizen participation in collaboratively identifying housing and community development needs. To provide varied opportunities for participation in the planning and preparation of the Consolidated Plan, the City will undertake the following actions:

Consultation

Prior to the development of the draft Consolidated Plan, the City will solicit information about housing and community development needs. This solicitation may take the form of one or more of the following:

1. Consultation with local public agencies which assist low-income persons and areas, including state and federal agencies, other local governments and regional councils of government.
2. Consultation with private agencies, including public and private housing developers, local not-for-profit service providers, local public housing authorities, homeless service providers, not for-profit housing developers, community action agencies, social service agencies and advocates.

3. Information collection at statewide affordable housing and homeless conferences, with established entities such as the Statewide Homeless Council and the Continuums of Care, MaineHousing and with professional associations.
4. Public Hearing to solicit input from the community.
5. Sharing of local data and plans with Auburn Housing Authority to be incorporated in the AHA public hearing process.

Participation of Citizens

The City encourages citizens to participate in the development of the Consolidated Plan, Annual Action plans and all annual performance evaluations and reports. The City will take whatever actions are appropriate to encourage the participation of all residents, including minorities, non-English speaking persons, persons with disabilities, low- and moderate income persons, particularly those persons living in areas designated by the City as a revitalization area, or in a slum and blight area where CDBG funds are proposed to be used, as well as residents of predominantly low- and moderate income neighborhoods as defined by the most recent HUD census data. This includes translation services upon request for any written plans or notices as well as the increased use of the development of new, quantitative ways to increase and broaden public participation beyond the attendance of Public Hearings as required by 24 CFR 91.105 A-2 (iv).

Citizen participation will be accomplished through the following means:

1. Citizen Survey
    - An online survey of housing needs and service priorities will be provided via the City's websites. The availability of the online survey will be communicated through email and social media. Partner organizations will be encouraged to notify low-income clients of its availability.
    - A paper survey corresponding to the online survey will be provided locally through jurisdiction-wide service providers. These surveys will be translated into a minimum of three additional languages to include French, Portuguese & Somali.
2. Public Hearings/Forums
    - Public hearings will be scheduled at times and locations that are convenient to potential and actual beneficiaries.
    - Sites will accommodate persons with mobility impairments by being held in locations which meet ADA requirements, and special communication accommodations will be arranged if requested prior to the hearing date.

To the greatest extent practicable, the City may employ electronic means of communication and consultation, to include e-committees, online discussion forums and blogs, videoconferencing, online surveys, or similar methods. Upon request the City will provide Technical Assistance to groups representative of low- to moderate income communities who need assistance in developing proposals for funding assistance under any program included within the Consolidated Plan.

Public Notice

Reasonable notice will be given to announce the availability of the draft Consolidated Plan, Annual Action Plan and Consolidated Annual Performance and Evaluation Report. Availability of the drafts Plan or Annual Action Plan will be announced on the City's website and Social media.

To encourage citizen comment and attendance at public hearings/forums, notices will be emailed via City's mass email list as well as posted in city facilities including the local Housing Authority, the city Library, Senior Center and other service organizations which predominantly serve Low- and moderate-income residents.

These notices will include links to the draft plans and reports, contain information on how to access translation services and notify residents how to receive paper copies of the full proposals. The draft plans published will include the following as required by 24 CFR 91.105 (b)(1):

- HUD-provided data available to the public as cross-referenced to the data on HUD's Website
- the amount of assistance the local government expects to receive (including grant funds and program income);
- the range of activities that may be undertaken;
- the estimated amount of funding that will benefit persons of low- and moderate-income;
- the local government's plans to minimize displacement of persons and to assist any persons displaced, specifying the types and levels of assistance the local government will make available (or require others to make available) to persons displaced, even if the local government expects no displacement to occur; and

Public Hearings

Public hearings will be held before the submission of the final Consolidated & Annual Action Plan. This will be part of the 30-day public comment period. The purpose of this public hearing will be to gather citizen input on the proposed plans prior to submission.

Citizens will be notified of the public hearings at least two weeks before they are held. Public hearings will be announced in at least one Maine newspaper, by email, and on the City websites.

CONSIDERATION OF PUBLIC COMMENTS

A public comment period of at least 30 days will be provided prior to the adoption of the Consolidated Plan or implementation of substantial amendments. City staff will prepare a summary of all comments received in writing, or orally at the public hearing. In cases where citizens' views are not accepted, the city will provide reasons for the decision.

CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORTS

Before the City submits a Consolidated Annual Performance and Evaluation Report (CAPER) to HUD, the proposed CAPER will be made available to those interested for a comment period of no less than 15 days. Citizens will be notified of the CAPER's availability by public notices as outlined above

The CAPER will be available on the City website during the 15-day public comment period. Hard copies will be provided upon request. Any comments from individuals or groups received verbally or in writing will be considered. A summary of the comments, and of the responses, will be included in the final CAPER.

SUBSTANTIAL AMENDMENTS

A substantial amendment is defined as a proposed change in allocation of funds after the official adoption of the Consolidated Plan that affects 10 percent or more of the City's annual allocation of CDBG & HOME funds. A substantial amendment may also be required to carry out an activity not previously described in the action plan.

Any changes in the distribution of funds caused by changes in federal funding allocations after the Consolidated Plan/Annual Action Plan's draft comment period has expired will not be considered a substantial amendment.

Substantial amendments to the approved Consolidated Plan will be made public by public notices as outlined above. The City will receive and consider comments delivered in writing or orally at a Public Hearing on substantial amendments to the Consolidated Plan for 30 days before implementing those amendments. Approved amendments and a summary of comments will be attached and uploaded to the plan being amended within the Integrated Disbursement Information System.

The application for and use of Section 108 Loan guarantee funds-including any potential repayment from future entitlement funds will follow the same citizen's participation process outlined in this plan. If the city's decision to apply for Section 108 loan guarantee funds occurs after the annual public hearing on community development and housing needs, and the section 108 funding is not included in the annual action plan approved by HUD, the city will address this decision as a substantial amendment to the plan. In this case, the city will follow the substantial amendment process outlined above prior to applying for Section 108 funding.

If a state of emergency is declared which requires reallocation of funds and/or receipt of disaster recovery funding, the City will follow any abbreviated notice and approval process as published within a HUD CPD notice.

CITIZEN COMPLAINTS

Citizens who have objections or complaints about the Community Development Programs may submit a written complaint to:

Community Development Department
City of Auburn
60 Court Street
Auburn, ME 04210

The complaint should include the date, name, address, telephone number of the complainant, convenient hour to reach that person by telephone, nature of the complaint and location. The complaint may also be given orally. The person initiating the complaint will schedule a meeting with the Community Development Manager and a formal complaint will be formulated from the interview that will be signed by the complainant.

There will be a written response, within 15 days of receipt, to the complainant. The response will indicate the ultimate disposition of the complaint.

PUBLIC ACCESS : Availability of Documents

The final Consolidated Plan, any substantial amendments, and annual performance reports will be made available to the public on the city's website. Copies will be available in printed form or electronic means upon request.

Access to Records

The City will provide all interested parties with access to information and records related to the Citizen Participation Plan, Consolidated Plan, Action Plan and any amendments by posting it in a translatable form on the city website. Hard copies can be requested, and accommodations will be available to individuals with visual or hearing impairments. Records relating to these documents can be requested for the preceding five years. The public will be provided reasonable access to housing assistance records, subject to laws regarding privacy and obligations of confidentiality.

Accommodations

Arrangements will be made for non-English-speaking persons and persons with special needs for mobility, hearing and visual impairments, or the homebound. Please contact the Community Development Department in advance so that arrangements can be made to provide adequate communication assistance. Access to these accommodations can be attained by contacting the Community Development Office ahead of time at (207) 333-6601 or emailing CDBG@auburnmaine.gov .

DRAFT

I. Executive Summary

Description of Activities: The project seeks to repurpose a vacant, city-owned property into a 15,000-square-foot Community Resource Center, designed to provide crucial support for Auburn's homeless and at-risk residents. This adaptive reuse initiative will create a central hub where nonprofit service providers can offer housing assistance, food, clothing, counseling, and case management services in one accessible location. By consolidating essential resources, the Community Resource Center will not only streamline support for vulnerable individuals but also amplify Auburn's community development efforts, fostering stability, resilience, and well-being across the city.

Alignment with Consolidated Plan: This project directly advances Auburn's Consolidated Plan objectives by addressing critical non-housing infrastructure needs and mitigating urban blight. Strategically located next to an affordable housing complex managed by the Auburn Housing Authority, the facility ensures easy access to essential services for nearby residents. Through the revitalization of this vacant property, the project not only supports Auburn's goals for infrastructure enhancement and expanded service delivery but also reinforces the city's commitment to holistic community development. By expanding public services and strengthening local support systems, this initiative reflects Auburn's dedication to fostering a resilient and inclusive community in alignment with its comprehensive plan.

II. Amount of Section 108 Request

The City of Auburn is requesting $1,000,000 in Section 108 loan funds to bridge a budget gap for this impactful project. This amount falls well within the city's allowable borrowing capacity under the Section 108 program. The request includes an $8,200 financing fee, which will be covered by the loan proceeds, ensuring responsible use of funds and streamlined financial management. This funding will enable Auburn to advance the Community Resource Center project, fostering substantial community benefits through enhanced service access and infrastructure revitalization.

III. Project Description

Project Description: The adaptive reuse project seeks to strengthen Auburn's capacity to support homeless and at-risk residents by creating a dedicated Community Resource Center. This facility will serve as a collaborative hub for Auburn's Community Development services and nonprofit organizations, optimizing resource delivery and increasing service impact. As a one-stop site, the center will enable residents to access comprehensive support from city departments and community partners, including the Drop-In Center, Maine Immigrant Resource Services (MEIRS), Rumford Group Homes, Preble Street and the Immigrant Resource Center of Maine (IRC). These partners will provide essential services such as food, clothing, housing assistance, case management, and job training. By addressing underlying

DRAFT

causes of homelessness and poverty, this initiative promotes pathways to stability and self-sufficiency for Auburn's most vulnerable populations, building a stronger, more resilient community.

Project Timeline: The project is structured into three phases. Initial phases, funded by CDBG and ARPA grants, focus on essential renovations to render the building operational. The final phase, encompassing the build-out and interior fit-out needed for full-service delivery, is anticipated for completion in the coming months. All necessary environmental reviews and federally compliant bidding processes have been conducted to ensure alignment with regulatory standards. A detailed project timeline can be found in Appendix B.

IV. Form of Assistance

As a city-owned, non-revenue-generating project, the Section 108 loan will be repaid over 20 years through future CDBG allocations at HUD-established interest rates. With no anticipated revenue from the facility, the city is committed to meeting repayment obligations through this sustainable, federally approved funding mechanism.

V. Description of Compliance with Eligible Activities and National Objectives

This project qualifies under 24 CFR 570.703(L) as it involves the rehabilitation of a public facility designed to deliver essential community services. It meets the CDBG national objective of benefiting low- and moderate-income (LMI) persons, specifically addressing the needs of homeless individuals and other vulnerable populations, in accordance with 24 CFR 570.208(a)(2)(i)(A).

VI. Information on Organizational Arrangements

The City of Auburn will own and manage the facility, which will host multiple nonprofit partners offering critical services to homeless and at-risk populations. Key partnerships include:

Drop-In Center: The Drop-In Center will lease space for a clothing closet, utilize the kitchen for meal preparation, and hold drop-in hours for homeless residents in the community room, creating a welcoming and accessible support environment.

Service Providers: Several organizations have expressed interest in utilizing office space within the facility to deliver direct services to those in need, fostering a collaborative support network within the center:

- Preble Street – Rapid Rehousing services
- Immigrant Resource Center of Maine (IRC)- Housing navigation
- Rumford Group Homes – Case management
- Community Concepts Inc. - Homeless outreach services

DRAFT

- Maine Immigrant Resource Services (MEIRS) – Immigrant services

VII. Information for Financial Underwriting

Sources and Uses Statement: A breakdown of the project's total cost and the allocation of Section 108 funds is provided in the table below.

Project Pro Forma Template

Business & Community Development Office

Auburn, Maine

Project Name:	Mill St Community Resource Center
Address:	121 Mill St Auburn
Developer:	Auburn Business & Community Development

Sources of Funds	**Amount**	
ARPA Funding	$630,000	Unallocated and B&CD
CDBG Funds Public Infrastructure	$300,000	Request change of use
CDBG 108 Loan Guarantee	$1,000,000	
Total Sources of Funds	$1,930,000	
Total Expense of Funds	$1,929,694	
Budget Surplus or Deficit=	**$306**	

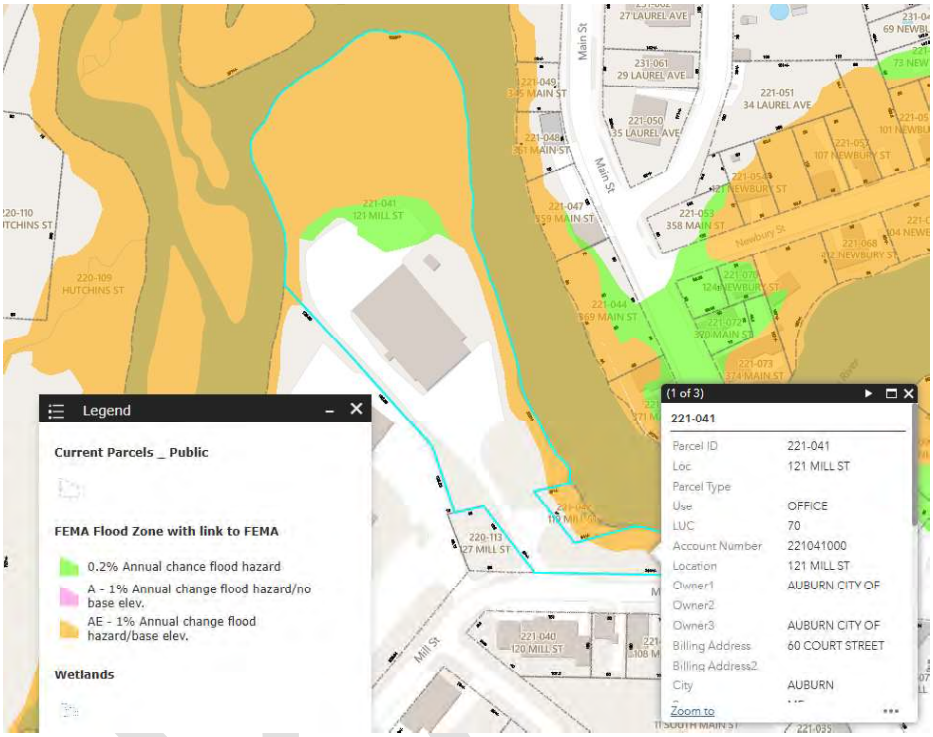
Total Development Cost	**Amount**	**Comments**
Architectural Services	$86,554	Design
Phase 1 Construction	$240,853	Facilities repair
Phase 2 Construction	$1,148,423	Planned Build-out
Phase 3 Construction	$313,500	Finishing and fixtures
Security System	$50,364	Cameras and Door locks
Contingency	$75,000	
Other Development Costs	$15,000	Fees
Total Uses of Funds	**$1,929,694**	

VIII. Proposed Repayment Schedule

Repayment Plan: Repayment will come from future CDBG allocations, structured over a 20-year period with a fixed interest rate of 4.85%. The amortization schedule is detailed below:

Year	Interest	Principal	Ending Balance
1	$46,837.15	$30,709.69	$969,290.31

DRAFT



2	$45,346.26	$32,200.58	$937,089.73
3	$43,782.99	$33,763.85	$903,325.88
4	$42,143.82	$35,403.01	$867,922.87
5	$40,425.08	$37,121.75	$830,801.12
6	$38,622.90	$38,923.94	$791,877.18

GENERAL NOTES

1. ALL MATERIALS, COMPONENTS, AND WORK ARE NEW AND SHALL BE PROVIDED IN THIS CONTRACT BY THE CONTRACTOR UNLESS NOTED OTHERWISE.
2. ALL WORK INCLUDED IN THIS CONTRACT SHALL CONFORM TO ALL STATE, NATIONAL AND OTHER CODES AND ORDINANCES WHICH APPLY TO THIS PROJECT.
3. IT IS THE INTENT AND MEANING OF THESE DRAWINGS THAT THE CONTRACTOR AND EACH SUBCONTRACTOR PROVIDE ALL LABOR, MATERIALS, TRANSPORTATION, SUPPLIES, EQUIPMENT, ETC. TO OBTAIN A COMPLETE JOB TO INDUSTRY STANDARD IN A PROFESSIONAL WORKMANLIKE MANNER.
4. THE CONTRACTOR SHALL FIELD VERIFY ALL EXISTING CONDITIONS AND REPORT ANY DISCREPANCY(IES) IMMEDIATELY TO THE ARCHITECT.
5. AT THE END OF EACH WORKING DAY, THE CONSTRUCTION SITE SHALL BE LEFT IN A NEAT AND CLEAN MANNER.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL PERMITS WHICH ARE REQUIRED FOR THE SATISFACTORY COMPLETION OF THE WORK AND FOR PAYING ALL FEES, HOOK UP CHARGES, ETC.
7. THE CONTRACTOR SHALL OBTAIN APPROVAL FROM THE OWNER FOR THE SEQUENCE AND TIMING OF OPERATIONS PRIOR TO COMMENCING WORK. AREAS FOR STAGING ETC. MUST BE APPROVED BY THE OWNER.
8. THE CONTRACTOR SHALL DISPOSE OF AND / OR RECYCLE ANY CONSTRUCTION DEBRIS FROM THE PROJECT SITE AS REQUIRED BY THE STATE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING DISPOSAL PERMITS WHICH ARE REQUIRED. CONSTRUCTION DEBRIS FROM THE PROJECT SITE SHALL BE DISPOSED OF IN A STATE APPROVED LANDFILL.
9. ROOM NUMBERS ON THE DRAWING ARE FOR COORDINATION PURPOSES AND DO NOT NECESSARILY CORRESPOND TO ACTUAL ROOM NUMBERS.
10. DUTY OF COOPERATION: RELEASE OF THESE PLANS CONTEMPLATES FURTHER COOPERATION AMONG THE OWNER, THE CONTRACTOR, THE ARCHITECT AND HIS CONSULTANTS. DESIGN AND CONSTRUCTION ARE COMPLEX. ALTHOUGH THE ARCHITECT AND HIS CONSULTANTS HAVE PERFORMED THEIR SERVICES WITH DUE CARE AND DILIGENCE, THEY CANNOT GUARANTEE PERFECTION. COMMUNICATION IS IMPERFECT, AND EVERY CONTINGENCY CANNOT BE ANTICIPATED. ANY AMBIGUITY OR DISCREPANCY DISCOVERED BY THE USE OF THESE PLANS SHALL BE REPORTED IMMEDIATELY TO THE OWNER. FAILURE TO NOTIFY THE OWNER COMPOUNDS MISUNDERSTANDING AND MAY INCREASE CONSTRUCTION COSTS. A FAILURE TO COOPERATE BY A SIMPLE NOTICE TO THE OWNER SHALL RELIEVE THE OWNER AND THE ARCHITECT FROM RESPONSIBILITY FROM ALL COSTS.
11. THESE DRAWINGS DO NOT INCLUDE THE NECESSARY COMPONENTS FOR CONSTRUCTION SAFETY. THE GENERAL CONTRACTOR SHALL PROVIDE FOR THE SAFETY, CARE OF UTILITIES AND ADJACENT PROPERTIES DURING CONSTRUCTION, AND SHALL COMPLY WITH STATE AND FEDERAL SAFETY REGULATIONS.
12. ALL MATERIALS AND WORK SHALL BE GUARANTEED FOR A MINIMUM OF ONE YEAR FROM THE DATE OF FINAL PAYMENT.
13. ALL DOORS SHOULD HAVE ADA COMPLIANT LEVER HANDLES.
14. SIGNAGE TO MEET ALL ADA REQUIREMENTS INCLUDING THE ONES INDICATED ON THE ADA BLOCK UNLESS NOTED OTHERWISE.

CODE REVIEW

Code Review - NFPA 2018

General Note on the IEBC Code Review

This is an existing building. It was a Business use. With this project, it will be a non-separated mixed-use of Business and Assembly. Therefore, it is a Change of Use and a Change of Occupancy. In addition, the work area exceeds 50% of the space. Therefore, the project shall comply with Ch. 12 and 13 for Assembly Occupancies and Ch. 39 for Existing Business Occupancies.

Chapter 43 - Building Rehabilitation

43.7.1.1 - The Business use is a Change of Use, but not a Change of Occupancy. Therefore, the Building use shall comply with Chapter 39 for Existing Business Uses.

Note: Due to the Modifications being over 50% of the area of the building, this is also defined as Extensive Modifications and shall comply with Ch. 38 for New Business Occupancies.

43.7.2.2 - The Assembly use is a Change of Occupancy (from Business) within the same Hazard Category (#3). Therefore, the Assembly use shall comply with Ch. 13 and with Ch. 12 for sprinkler systems, fire alarm, and main entrance/exit.

Note: The Assembly area is also considered a Modification and allowed to comply with 43.7.2.2 above.

Chapter 12 - New Assembly Occupancies

12.2.3.6.6 - There is no well-defined main entrance. The five entrances can accommodate 100% of the total occupant load for the building.

12.2.3.7 - The other two exits can accommodate 1/2 of the total occupant load for the building.

12.3.4.1.1 - The building to have a fire alarm system.

12.3.5.2 - The building to have an NFPA 13 sprinkler system.

Chapter 13 - Existing Assembly Occupancies

Table 13.1.6 - Type V (000) sprinkled allowed any occupant load.

13.2.2.2.3 - See Door/Frame Schedule for panic hardware.

13.2.3 - See Egress Plan for egress capacity width req'd.

13.2.4.2 - Min. two exits req'd.

13.2.5.1.1 - Exits req'd. to be spaced at 1/3 of the diagonal of the space due to the sprinkler system.

13.2.5.1.2 - Common path of travel 75' for 50 occupants and under (20' for any amount of occupants).

13.2.5.1.3 - Dead-end corridors 20' max.

13.2.6.2(1) - Travel distance to exit 250' max.

13.2.8 - Means of egress lighting req'd.

13.2.9.1 - Emergency lighting req'd.

13.2.10.1 - Exit signs req'd. - see Egress Plans

13.3.2.2 - Cooking equipment shall be protected per NFPA 96 - see Kitchen Equipment Plans.

13.3.3.2 - Finishes in corridors and lobbies to be Class A or B

13.3.3.3 - Finishes in the Community area to be Class A, B or C (under 300 occupants in the space).

Code Review - NFPA 2018 cont.

Chapter 38 - New Business Occupancies

39.2.2.2.2 - Door locking to prevent unwanted entry allowed if complying with this section.

39.2.3.1 - See Egress Plan for egress capacity widths

39.2.3.2 - All corridors in excess of 44"

39.2.4.1 - Two exits req'd. (min.)

39.2.4.3 - One exit allow out of Clothing area (less than 100 occupants and 100' of egress travel).

39.2.5.1 - Exits to be separated by 1/3 of the diagonal of the space due to the sprinkler system.

39.2.5.2 - Dead-end corridors to be 50' max.

39.2.5.3.1 - Common paths of travel not to exceed 100' (sprinkled).

39.2.6.3 - Travel distance to an exit not to exceed 300' (sprinkled).

39.2.8 - Means of egress lighting req'd.

39.2.9.1 - Emergency lighting not req'd. (but will be provided).

39.2.10 - Exit signs req'd. - see Egress Plan

39.3.2.5 - Cooking equipment to be protected by NFPA 96

39.3.3.2.1 - Interior finish in exit access corridors to be Class A or B.

39.3.3.2.2 - Interior finish (except above) to be Class A, B, or C.

39.3.4.1 - Fire alarm not req'd. (but will be provided)

39.3.5 - Portable fire extinguishers req'd. - see Egress Plan

Code Review - IEBC 2015

General Note on the IEBC Code Review

This is an existing building. It was a Business use. With this project, it will be a non-separated mixed-use of Business and Assembly (A-3). Therefore, it is a Change of Use and a Change of Occupancy. Furthermore, due to the Area of Work, the project shall also comply with Chapters 7, 8, and 9.

Chapter 10 - Change of Occupancy

1012.1.1.1 - Chapter 9 shall apply throughout due to the non-separated uses.

1012.1.3 - The Means of Egress Hazard Category has changed from a 3 (Business) to a higher category of 2 (Assembly / Business).

1012.2.1 - A fire sprinkler is req'd. due to the change in Hazard Category (Assembly / Business).

1012.2.2 - A fire alarm is req'd. due to the change in Hazard Catagory (Assembly / Business).

1012.4.1 - Means of Egress shall comply w/ Ch. 10 of the IBC.

10121.5 - The Height and Areas Hazard Category has changed from a 4 (Business) to a higher category of 2 (Assembly / Business).

1012.5.1 - The height and area shall comply with Ch. 5 in IBC.

Note: The most restrictive is Assembly at 24,000 s.f. and 2 stories at 40' high. The building is within these limits.

1012.6 - The Exterior Wall Fire-Resistance Rating Hazard Category remains at a 3.

Note: All exterior walls are in excess of 10' from the Property lines. No exterior wall fire-ratings are req'd.

Code Review - IEBC 2015 cont.

1012.8.2 - The building is req'd. to have:

* One accessible building entrance (three provided)
* One accessible route w/in building to primary functions
* ADA signage
* Accessible parking
* One accessible route from parking (3 provided)
* Note: No loading zones provided

Chapter 9 - Alterations-Level 3

904.1 - A sprinkler system is req'd.

904.2 - A fire alarm is req'd.

905.2 - Means of egress lighting req'd.

905.3 - Exit signs req'd. (see Egress Plan).

Chapter 8 - Alterations-Level 2

803.4 - Interior finishes of exits/corridors to comply w/ IBC.

803.5 - Guards shall be provided per IBC.

804.2.2 - A sprinkler system is req'd.

804.4.1 - A fire alarm is is not req'd. by this section, but the building already has a fire alarm installed.

805.3.1 - The minimum number of exits from the building and from spaces within the building shall be per IBC.

805.3.3 - There are multiple building entrances and no well-defined main entrance. The entrances are able to serve 100% of the req'd. egress width of the entire occupant load of the building.

805.4.1.1 - The Community space is req'd. to have two egress doors. Neither Training Room has over 50 occupants or travel distances in excess of 75'.

805.4.2.1 - All doors in the building serving more than 50 occupants shall swing in the direction of egress travel.

805.4.4.1 - All egress doors to have panic hardware.

805.5 - Corridors not req'd to be rated due to the sprinkler system (IBC Table 1020.1).

805.6 - Dead-end corridors limited to 35'.

805.7 - Means of egress lighting req'd.

805.8 - Exit signs req'd. (see Egress Plan).

805.9.1 - Stairs shall have handrails on at least one side (handrails will be provided on both sides).

805.11 - Guards provided where req'd.

811.1 - All Level 2 alterations are req'd. to comply with the IECC, but the entire building is not required to comply.

Chapter 7 - Alterations-Level 1

702.1 - Interior finishes shall comply with IBC.

702.2 - Floor finishes shall comply with IBC.

705.1.1 - Three of the five building entrances are accessible.

705.1.4 - Ramp slope to be 1:12 (max.).

705.1.9 - All existing and new toilet rooms to be accessible.

705.1.12 - Thresholds not to exceed 3/4" with beveled edges.

705.2 - All areas of primary function to be accessible.

708.1 - Level 1 alterations are req'd. to comply with the IECC, but the entire building is not required to comply

PHOTOS

KEY PLAN

DEMO NOTES

1. REMOVE STRUCTURAL ELEMENTS AS NOTED ON PLANS. NOTIFY THE ARCHITECT OR STRUCTURAL ENGINEER OF ANY DISCREPANCIES. BEFORE DEMOLITION OF JOISTS, BEAMS OR OTHER STRUCTURAL MEMBERS, CONSULT WITH THE ARCHITECT OR STRUCTURAL ENGINEER FOR APPROVAL.
2. CARE SHALL BE TAKEN BY THE CONTRACTOR TO PROTECT EXISTING SYSTEMS AND SURFACES TO REMAIN. ALL DAMAGE RESULTING FROM THE CONTRACTOR'S OPERATIONS SHALL BE REPAIRED OR REPLACED AS APPROVED BY THE ARCHITECT AT NO ADDITIONAL COST TO THE OWNER.
3. WHERE REMOVALS OCCUR, PATCH HOLES AND AREAS OF MISSING FINISH (IE EXPOSED STUD AREAS WHERE WALLS ARE REMOVED, FLOOR FINISHES, ETC. TO MATCH EXISTING ADJACENT SURFACE). PROVIDE A SMOOTH CONTINUOUS SURFACE FREE OF SHADOW LINES.
4. WHERE NEW WALLS OR INFILLS ABUT OR INTERSECT EXISTING WALLS, ALIGN NEW FINISH WITH EXISTING WALLS, ALIGN NEW FINISH WITH EXISTING FINISH AND FINISH JOINTS AT INTERSECTIONS SMOOTH AND CONTIGUOUS.
5. IF SUSPECT HAZARDOUS MATERIALS ARE UNCOVERED DURING CONSTRUCTION, THE CONTRACTOR SHALL NOTIFY THE ARCHITECT IMMEDIATELY FOR TESTING AND / OR REMOVAL. ANY HAZARDOUS REMOVAL NECESSARY FOR THE SAFE IMPLEMENTATION OF THIS PROJECT SHALL BE CONTRACTED DIRECTLY BY THE OWNER. IF NECESSARY, THE CONTRACTOR SHALL COORDINATE WITH THE OWNER'S ABATOR ON THESE EFFORTS.
6. UNLESS OTHERWISE NOTED, ALL ITEMS ON DEMOLITION PLANS ARE EXISTING.
7. CONTRACTOR TO REPAIR ALL FINISH AND PROVIDE INFILL WALL AND FLOOR FINISHES WHERE REQUIRED.

PERMIT NOTES

- THE CONTRACTOR WILL BE RESPONSIBLE FOR OBTAINING A BUILDING PERMIT FROM THE CITY OF PORTLAND.
- A CONSTRUCTION / ADA PERMIT FROM THE MAINE STATE FIRE MARSHAL'S OFFICE IS NOT ANTICIPATED.
- THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL OTHER PERMITS (IF REQUIRED) FOR CONSTRUCTION (INCLUDING, BUT NOT LIMITED TO: MECHANICAL, PLUMBING, AND ELECTRICAL).
- CONTRACTOR IS RESPONSIBLE FOR NOTIFYING THE ARCHITECT AND THE OWNER IF CONDITIONS IN THE FIELD ARE NOT AS REPRESENTED ON THESE DRAWINGS, PRIOR TO CONTINUING THE WORK.
- CONTRACTOR TO PROTECT ALL SURROUNDING CONSTRUCTION THAT IS TO REMAIN AS REQUIRED. REPAIR AND REPLACE ALL DAMAGE DONE TO SURROUNDING CONSTRUCTION AS REQUIRED.
- IF THE DRAWING SET IS NOT LABELED "FOR CONSTRUCTION" IT SHALL NOT BE USED FOR CONSTRUCTION. CONTACT ARCHITECT FOR THE CONSTRUCTION SET OF DOCUMENTS.

1 DRINKING FOUNTAIN PROVIDED W BOTTLE FILLERS AT KITCHENETTE AND IN COMMUNITY SPACE

NOTE: ALL SINGLE-USER RESTROOMS / SHOWERS ARE UNISEX AND ARE ADA COMPLIANT

GENERAL BUILDING INFORMATION:

BUILDING AREA:
- BUILDING FOOTPRINT: 15,454 S.F.
- FIRST FLOOR: 14,864 S.F.

NUMBER OF STORIES:
- ABOVE GRADE: ONE

PORTABLE FIRE EXTINGUISHERS: YES

SPRINKLED: YES, TO BE INSTALLED PER NFPA 13: STANDARD FOR THE INSTALLATION OF SPRINKLER SYSTEMS, 2016 EDITION.

FIRE ALARM: YES, TO BE INSTALLED PER NFPA 72 NATIONAL FIRE ALARM AND SIGNALING CODE, 2019 EDITION.

CONSTRUCTION TYPE:
- IBC: 5B
- NFPA: V(000)

BUILDING USE:
- IBC: NON-SEPARATED MIXED OCCUPANCY OF BUSINESS AND ASSEMBLY (A-3).
- NFPA: NON-SEPARATED MIXED OCCUPANCY OF BUSINESS AND ASSEMBLY

TOTAL OCCUPANT LOAD: 354 OCCUPANTS

EGRESS PLANS - GENERAL NOTES

- THERE ARE 5 BUILDING ENTRANCES TO THE FACILITY. THREE OF THE ENTRANCES ARE ADA COMPLIANT.
- 354 OCCUPANTS x 2" = 11" OF EXIT CLEARANCE REQ'D.
- FOUR 3-A FIRE EXTINGUISHERS PROVIDED ON THIS FLOOR W/ MAX TRAVEL DISTANCE TO A FIRE EXTINGUISHER OF 75'.
  - 15,454 SF / 13,000 SF PER UNIT OF 'A' = 1Ø3 UNITS OF 'A' REQ'D.
  - PROVIDE FOUR 3-A FIRE EXTINGUISHERS (12-A TOTAL)
  - IN ADDITION, PROVIDE SCHEDULE K FIRE EXTINGUISHER IN KITCHEN
- ALSO SEE DOOR / HARDWARE SCHED.
- LARGE TRAINING ROOMS ARE 464 S.F. AND 521 S.F.
  - 464 S.F. / 15 S.F. PER PERSON = 31 OCCUPANTS
  - 521 S.F. / 15 S.F. PER PERSON = 35 OCCUPANTS
  - BOTH TRAINING ROOMS UNDER 50 OCCUPANTS - 1 EXIT REQ'D. FOR EA.
- TWO EXITS REQ'D. FROM COMMUNITY SPACE
- THERE IS NOT A WELL-DEFINED MAIN ENTRANCE/EXIT. WIDTH OF EXITS TO ACCOMMODATE 354 OCCUPANTS (ACTUAL WIDTH ACCOMMODATES 680 OCCPANTS)
- ALL CORRIDORS EXCEED 44" IN WIDTH
- EMERGENCY LIGHTING REQ'D.
- VERIFY EXACT EXIT SIGN LOCATIONS W/ AHJ
- ALL COOKING EQUIPMENT TO BE PER NFPA 96. SEE FOODSERVICE DRAWINGS.
- CONTRACTOR TO CONFIRM EXISTING SPRINKLER SYSTEM IS IN FULL COMPLIANCE WITH NFPA 13.
- CONTRACTOR TO CONFIRM EXISTING FIRE ALARM SYSTEM IS IN FULL COMPLIANCE WITH NFPA.
- CORRIDOR AND LOBBY SPACES ARE NOT REQ'D. TO BE FIRE-RATED DUE TO THE SPRINKLER SYSTEM
- PROVIDE AND INSTALL ADA ROOM SIGNAGE FOR ALL ROOMS AS REQ'D.

OCCUPANT LOAD (NFPA):

OFFICE AREAS: 3,972 S.F.
1 OCCUPANT PER 150 S.F. = 27 OCCUPANTS

TRAINING ROOMS: 985 S.F.
1 OCCUPANT PER 15 S.F. = 66 OCCUPANTS

KITCHEN: 2,090 S.F.
1 OCCUPANT PER 100 S.F. = 21 OCCUPANTS

COMMUNITY SPACE: 2,910 S.F.
1 OCCUPANT PER 15 S.F. = 194 OCCUPANTS

WAITING AREA: 300 S.F.
1 OCCUPANT PER 7 S.F. = 43 OCCUPANTS

OCCUPANT LOAD FOR LOWER LEVEL: 351 OCCUPANTS

OCCUPANT LOAD (IBC):

OFFICE AREAS: 3,972 S.F.
1 OCCUPANT PER 100 S.F. = 40 OCCUPANTS

TRAINING ROOMS: 985 S.F.
1 OCCUPANT PER 15 S.F. = 66 OCCUPANTS

KITCHEN: 2,090 S.F.
1 OCCUPANT PER 200 S.F. = 11 OCCUPANTS

COMMUNITY SPACE: 2,910 S.F.
1 OCCUPANT PER 15 S.F. = 194 OCCUPANTS

WAITING AREA: 300 S.F.
1 OCCUPANT PER 7 S.F. = 43 OCCUPANTS

OCCUPANT LOAD FOR LOWER LEVEL: 354 OCCUPANTS

1 DEMO PLAN
0 8'-0" SCALE: 1/8" = 1'-0"

DEMO FLOOR PLAN - GENERAL NOTES

- FIELD VERIFY ALL EXISTING CONDITIONS AND DIMENSIONS
- VERIFY ALL EQUIPMENT W/ OWNER
- THE CONTRACTOR IS RESPONSIBLE FOR COORDINATION OF THESE DRAWINGS WITH ALL OTHER DISIPLINES.
- PATCH AND REPAIR ADJACENT CONSTRUCTION AS REQ'D. TO MATCH EXISTING.

DEMO PLAN - KEYED NOTES

A REMOVE AND DISCARD EXISTING TOILET PARTITIONS

B REMOVE AND DISCARD EXISTING WALLS, DOORS AND EXISTING CONSTRUCTION AS SHOWN

C REMOVE AND DISCARD EXISTING CABINET SINKS (TO BE REPLACED)

D REMOVE AND DISCARD EXISTING WOOD STAIR

E REMOVE AND DISCARD EXISTING CONCRETE PAD AS REQ'D. FOR NEW CONCRETE STAIR

F REMOVE EXISTING DOOR AS REQ'D. FOR INFILL

G REMOVE EXISTING PAVERS AS REQ'D. FOR CONC. ENTRANCE PAD

H REMOVE EXISTING DOOR FOR REPLACEMENT (NEW DOORS TO SWING OUT)

J REMOVE PORTION OF EXISTING WALL FOR HALLWAY

K REMOVE PORTION OF EXISTING WALL FOR NEW DOOR

L REMOVE EXISTING BORROWED LIGHT FOR INFILL

M REMOVE EXISTING WALLS, DOORS, AND EXISTING CONSTRUCTION AS REQ'D. CAP ALL PLUMBING AS REQ'D.
NOTE: PRIOR TO REMOVAL OF THICK WALL, NOTIFY ARCHITECT WHEN STRUCTURE IS EXPOSED SO A DETERMINATION OF NEW STRUCTURAL SUPPORT CAN BE ASCERTAINED.

N REMOVE AND DISCARD EXISTING CONCRETE ENTRY SIDEWALK AS REQ'D. FOR INSTALLATION OF NEW CONCRETE ENTRANCE PAD (NEW CONCRETE ENTRANCE PAD TO EXTEND TO EXISTING ASPHALT PARKING).

P REMOVE AND DISCARD EXISTING TOILET AS REQ'D FOR RELOCATED TOILET

Q TRENCH EXISTING SLAB AS REQ'D. FOR NEW PLUMBING FIXTURES (SEE FLOOR PLAN FOR NEW PLUMBING LAYOUT).

R TRENCH EXISTING SLAB AS REQ'D. FOR NEW UNDER SLAB UTILITIES FOR NEW KITCHEN EQUIPMENT (SEE KITCHEN DRAWINGS).

S REMOVE AND DISCARD EXISTING CEILING TILES AND LIGHTING. EXISTING CEILING GRID TO BE REUSED WITH NEW TILES AND LIGHTING.

T REMOVE AND DISCARD EXISTING CEILING TILES, GRID AND LIGHTING.

U REMOVE AND DISCARD EXISTING WOOD PORCH (AND CONC. STEPS UNDERNEATH).

V REMOVE AND DISCARD EXISTING FLOORING/GLUE/GROUT DOWN TO SLAB (SLAB TO BE GROUND AND POLISHED).

W REMOVE AND DISCARD EXISTING FLOORING/GLUE/GROUT DOWN TO SLAB AS REQ'D. FOR NEW CARPET.

X APPROX. LOCATION OF NEW FLOOR DRAIN. CUT EXISTING CONC. SLAB AS REQ'D. FOR UTILITIES.

Y REMOVE EXISTING WALL TILE AS REQ'D. FOR INSTALLATION OF NEW FRP WALL PANELS.

Z REMOVE EXISTING DOOR AS REQ'D. FOR REPLACEMENT

AA REMOVE PORTION OF EXISTING WALL.
NOTE: PRIOR TO REMOVAL OF WALL, NOTIFY ARCHITECT WHEN STRUCTURE IS EXPOSED SO A DETERMINATION OF NEW STRUCTURAL SUPPORT CAN BE ASCERTAINED.

BB REMOVE TRIM ON TOP OF PARTIAL HT WALL AS REQ'D TO EXTEND WALL TO FULL HT.

CC REMOVE DISCARD EXISTING FLOOR TILE. PREPARE CONC. SLAB FOR NEW TILE AS REQ'D.

FLOOR PLANS - GENERAL NOTES

- FOR EXIT SIGN LOCATIONS - SEE EGRESS PLAN
- FOR FIRE EXTINGUISHER INFO AND LOCATIONS - SEE EGRESS PLAN
- ALL DOOR HARDWARE (NEW AND EXISTING DOORS) TO BE ADA.
- CONTRACTOR TO FIELD VERIFY ALL DIMENSIONS
- SEE SHEETS FS-1 THROUGH FS-4 FOR KITCHEN INFORMATION

FLOOR PLAN - KEYED NOTES

1. PROVIDE AND INSTALL CONCRETE RAMP W/ METAL RAILINGS (SEE DETAILS 1, 2, AND 3, SHEET A2.0)
2. PROVIDE AND INSTALL CONCRETE STAIR W/ METAL RAILINGS (SEE DETAIL 4, SHEET A2.0)
3. PROVIDE AND INSTALL CONCRETE ENTRANCE PAD AS REQ'D. FOR ADA ENTRANCE. PAD NOT TO EXCEED 2% SLOPE IN ANY DIRECTION. PATCH ASPHALT PAVING AS REQ'D.
4. REPLACE EXISTING DOOR THRESHOLD WITH NEW (DUE TO REMOVED FLOOR TILE)
5. NOT USED
6. PROVIDE AND INSTALL CONCRETE ENTRANCE PAD AS REQ'D. FOR ADA ENTRANCE. PAD NOT TO EXCEED 2% SLOPE IN ANY DIRECTION FOR THE 5' LANDING OUTSIDE OF THE DOOR. CONCRETE TO EXTEND OUT TO EXISTING ASPHALT. PATCH ASPHALT PAVING AS REQ'D.
7. APPROX. LOCATION OF FLOOR DRAIN (FIELD VERIFY)
8. PROVIDE / INSTALL HI-LO ADA DRINKING FOUNTAIN W/ BOTTLE FILLER
9. PROVIDE / INSTALL DBL UNDERMOUNT SINK W/ SOLID SURFACE COUNTERTOP AT 34" AFF. (ADA COMPLIANT)
10. PROVIDE / INSTALL COUNTERTOP MOUNTED WATER STATION (BOTTLE FILLER)
11. INFILL EXTERIOR WALL WHERE DOOR WAS REMOVED
12. INFILL INTERIOR WALL WHERE WINDOW WAS REMOVED
13. (NOT USED)
14. OVERHEAD ROLLING SHUTTER (10'-6" AND 5'-0" WIDE). COORD. EXACT LOCATION W/ KITCHEN DRAWINGS (SILL AT 34" AFF.)
15. LAUNDRY TO HAVE WASHER, DRYER, SOLID SURFACE COUNTERTOP AT 34" AFF. AND UTILITY SINK (VERIFY W/ KITCHEN DRAWINGS AND OWNER)
16. KITCHENETTE TO HAVE SOLID SURFACE TOP, UPPER / LOWER PLAM CABINETS W/ DBL. S. STL. SINK, DISHWASHER, AND TWO REFRIGERATORS (VERIFY W/ OWNER)
17. COFFEE BAR W/ SOLID SURFACE TOP, PLAM LOWER CABINETS, AND UNDERMOUNT S. STL. SINK
18. REPLACE TOILET PARTITIONS (PREVIOUS LAYOUT TO REMAIN UNCHANGED)
19. PROVIDE SOLID SURFACE COUNTERTOP AT 34" AFF. W/ UPPER AND LOWER PLAM CABINETS
20. PROVIDE AND INSTALL CONC. LOADING DOCK (SEE DTL. 2, SHT. A-2.0 - SIM). OSHA GUARDRAIL ON OPEN FRONT OF LOADING DOCK TO HAVE TWO REMOVABLE 48" LONG SECTIONS TO ALLOW FOR LOADING / UNLOADING.
21. PROVIDE AND INSTALL 2-TIER LOCKERS (VERIFY W/ OWNER)

Address:

121 Mill Street, Auburn, ME 04210

Project Description, including all contemplated actions which logically are either geographically or functionally part of the project:

The City of Auburn is proposing the renovation of an office building for a new community resource center (Proposed Project). The Proposed Project includes the renovation of a one-story, 15,410 square foot (sf) building located at 121 Mill Street in Auburn, Maine (Project Site). The community resource center will remain the same size and capacity as the existing structure. The renovations include interior renovations to the existing structure to fit-out the space for its proposed use, plus the addition of a 300+/- sf loading dock, 170+/- sf staging area, and 336+/- sf cooler (refrigerator/freezer) on the northwest side of the building, parking lot restriping, American with Disabilities Act (ADA) accessible removals and retrofits, and safety-related rehabilitations to the roof, southwest landing, and northeast loading dock due to their current unsafe condition. Construction of the Proposed Project is anticipated to take approximately 3 to 6 months and be completed in 2025.

Estimated cost:

$850,000

Funding Source:

CDBG HOME Public Housing EDI ICDBG NAHASDA Other: **ARPA**

	The project falls into the category below, which is listed at 24 CFR 58.35(a) as a Categorically Excluded activity subject to Section 58.5.
	1. Acquisition, repair, improvement, reconstruction, or rehabilitation of public facilities and improvements (other than buildings) when the facilities and improvements are already in place and will be retained in the same use without change in size or capacity for more than 20 percent. Examples: ▪ Replacement of water or sewer lines ▪ Reconstruction of curbs and sidewalks ▪ Repaving of streets
	2. Special projects directed toward the removal of material and architectural barriers that restrict the mobility of and accessibility to the elderly and handicapped persons.
X	3. Rehabilitation of buildings and improvements under the following conditions: i. In the case of a building for residential use (with one to four units), the density is not increased beyond four units and the land use is not changed. ii. In the case of multifamily residential buildings: A. Unit density is not changed more than 20% B. The project does not involve changes in land use from residential to non-residential; and C. The estimated cost of rehabilitation is less than 75% of the total estimated cost of replacement after rehabilitation. **iii. In the case of non-residential structures, including commercial, industrial, and public buildings:** **A. The facilities and improvements are in place and will not be changed in size or capacity by more than 20 percent; and** B. The activity does not involve a change in land use, such as from non-residential to residential, commercial to industrial, or from one industrial use to another.
	4. An individual action

	i. Up to four dwelling units where there is a maximum of four units on any one site. The units can be four one-unit buildings or one four-unit building or any combination in between; or ii. A project of five or more housing units developed on scattered sites when the sites are more than 2,000 feet apart and there are not more than four housing units on any one site.
	5. Acquisition (including leasing) or disposition of an existing structure or acquisition (including leasing) of vacant land provided that the structure or land acquired or disposed of will be retained for the same use;
	6. Combinations of the above activities

The determination of the category listed above is supported by the following information (explain how you determined that the project satisfied the condition of the category you checked above and document as appropriate):

The Proposed Project qualifies for the Categorical Exclusion under 24 CFR 58.35(a)(3)(iii)(A). The Project Site is located in a Neighborhood Business Zoning District and currently a vacant commercial building that previously operated as office space. Following the renovations, the site will be used as a community resource center. Although this involves a change in land use from private commercial to public facility, it is not considered a materially significant change in land use. The Proposed Project will require Planning Board approval for a special exception use in accordance with Auburn Maine Code of Ordinances Chapter 60, Article XVI, Division 3 for an adaptive reuse of a structure with community significance (Chapter 60, Article IV, Division 11, Section 60-471(b)(7)). There are no plans to change the size or capacity of the facility.

You must complete the compliance checklist for 24 CFR 58.6 and the Statutory Worksheet on the following pages.

Compliance Checklist for the "Other Requirements" in 24 CFR 58.6

Project Name: **121 Mill Street Environmental Assessment**

Section 1. Flood Disaster Protection Act

Are funds for acquisition (including equipment) or construction (including repair and rehabilitation) purposes?	**Yes** **Continue**	No Proceed to Section 2-Act does not apply
Is the Activity in an area identified as having special flood hazards (SFHA)? Identify FEMA flood map used to make this determination: FEMA Map Community Name and Number **City of Auburn, 230001#** Map panel number and date **23001C0328E – 7/8/2013**	Yes Document and Continue	**No** **Document and Proceed to Section 2-Act does not apply**
Is the Community participating in the National Insurance Program (or has less than one year passed since FEMA notification of Special Flood Hazards)?	**Yes-Document and follow instructions below.**	No-Federal Assistance may not be used for this project.
Flood Insurance under the National Flood Insurance Program must be obtained and maintained for the economic life of the project, in the amount of the total project cost. A copy of the flood insurance policy declaration must be kept on file.		

Section 2. Airport Runway Clear Zones (Civil) and Accident Potential Zones (Military)

Does the project involve HUD assistance, subsidy or insurance for the purchase or sale of an existing property?	Yes Continue	**No—Proceed to Section 3—regulation does not apply.**
Is the project located within 2,500 feet of a civil airport or 15,000 feet of a military airfield?	Yes Continue	**No—Document and proceed to Section 3—regulation does not apply.**
Is the project located within an FAA-designated civilian airport Runway Clear Zone (RCA) or Runway Protection Zone, or within the military Airfield Clear Zone (CZ) or Accident Potential Zone/Approach Protection Zone (APZ), based upon information from the airport or military airfield administrator identifying the boundaries of such zones?	Yes Continue	**No—Document and proceed to Section 3—regulation does not apply.**
Comply with 24 CFR Part 51, Subpart D. This may include providing a written notice to a prospective buyer or leaser of the potential hazards from airplane accidents and the potential that an airfield operator may wish to purchase the property. Maintain copies of the signed notice. For properties located in a military clear zone, make and document a determination of whether the use of the property is consistent with DOD guidelines. Notice Sample: http://www.hud.gov/offices/cpd/energyenviron/environment/compliance/qa/airporthazards.pdf)		

Section 3. Coastal Barrier Resources Act

Section 58.6 also requires compliance with the Coastal Barrier Resources Act.

The City of Auburn is not recognized as having any coastal contact that would require it being identified within a Coastal Barrier Resource System (CBRS), therefore, the Proposed Project has no potential to affect a CBRS and is in compliance with the CBRS Act.

STATUTORY WORKSHEET

Use this worksheet only for projects which are Categorically Excluded per 24 CFR Section 58.35(a).

PROJECT NAME and Grant Number: 121 Mill Street – American rescue Plan Act – 1505-0271

Community Development Block Grant - B-24-MC-23-0001, B-23-MC-23-0001, B-22-MC-23-0001

Compliance documentation must contain verifiable source documents and relevant base data.

Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5	Status A/B	Compliance Documentation
Historic Preservation [36 CFR Part 800]	A	In a letter dated August 28, 2024, the State of Maine Historic Preservation Commission determined the Proposed Project "that there will be no historic properties affected by the proposed undertaking as defined Section 106 of the National Historic Preservation Act." Therefore, the Proposed Project is in compliance with the applicable Historic Preservation regulations and no further Section 106 consultation is required.
Floodplain Management [24 CFR 55, Executive Order 11988]	A	The Project Site includes the renovation of an existing building; however, the building is completely outside of the FEMA-designated Special Flood Hazard Area for both the 1% and 0.2% annual chance floodplains. Therefore, the Proposed Project is in compliance with 24 CFR 55 and Executive Order 11988.
Wetland Protection [Executive Order 11990]	A	The Project Site is not located in the FFRMS floodplain. The Proposed Project involves interior renovations to an existing structure and would not result in new construction that directly impacts on-site wetlands or result in a modification to a wetland. Therefore, the site is exempt from the policy directives set forth in Executive Order 11990.
Coastal Zone Management Act [Sections 307(c), (d)]	A	The location of the Project Site is not within the Maine Coastal Zone Management Act (CZMA) area. Therefore, the Project Site does not have the potential to affect the coastal zone and is in compliance with the applicable Coastal Zone Management Act regulations.
Sole Source Aquifers [40 CFR 149]	A	The Project Site is not located within or near an EPA-designated Sole Source Aquifer (SSA), therefore, is in compliance with the applicable sole source aquifer regulations. The closest SSA from the project site is approximately 66 miles.
Endangered Species Act [50 CFR 402]	A	The Proposed Project does not include activities with the potential to affect any species or habitats. Therefore, the site is in compliance with the Endangered Species Act regulations.
Wild and Scenic Rivers Act [Sections 7(b), and (c)]	A	The Project Site is not located within one mile of a wild or scenic river, designated by the Nationwide Rivers Inventory (NRI) and U.S. National Park Service (U.S. NPS). The closest wild or scenic river is approximately 73 miles from the Project Site. Therefore, the Proposed Project is in compliance with the applicable Wild and Scenic Rivers regulations.
Clean Air Act - [Sections 176(c), (d), and 40 CFR 6, 51, 93]	A	The Proposed Project would not include activities that constitute a significant new source of air pollution. Therefore, it has been assumed that its

		emissions are below de minimus levels and the project is in compliance with the Clean Air Act.
Farmland Protection Policy Act [7 CFR 658]	A	The Project Site does not include any unique or prime farmland, nor does it intend to convert agricultural land to non-agricultural use. Therefore, the Proposed Project is in compliance with the applicable Farmland Protection Policy Act regulations.
Environmental Justice [Executive Order 12898]	A	The Proposed Project is not anticipated to have any adverse environmental impact. Therefore, the Proposed Project complies with Executive Order 12898.
HUD ENVIRONMENTAL STANDARDS Noise Abatement and Control [24 CFR 51B]	A	The Proposed Project does not involve new construction for residential use or rehabilitation of an existing residential property. Construction of the Proposed Project is expected to comply with City laws for construction activities which state, "appropriate measures to reduce, to the fullest extent practicable in the performance of the excavation work, noise, dust and unsightly debris, and during the hours of 10:00 p.m. to 7:00 a.m. shall not use, except with the express written permission of the city engineer or in case of an emergency as otherwise provided in this article, any tool, appliance or equipment producing noise of sufficient volume to disturb the sleep or repose of occupants of the neighboring property." Therefore, the Proposed Project is in compliance with the applicable Noise Abatement and Control regulations.
Explosive and Flammable Operations [24 CFR 51C]	A	The Project Site does not involve a hazardous facility or include any activity that will increase residential density or conversion. Therefore, the Proposed Project is in compliance with the applicable Explosive and Flammable Hazards regulations.
Toxic Chemicals and Radioactive Materials [24 CFR 58.5(i)(2)]	A	Preliminary assessment reveals the Project Site is within a half mile of a state/tribal voluntary cleanup site, brownfield site, and registered storage tank; however, the Proposed Project would involve very limited site disturbance work (approximately 806 sf for the construction of the loading dock, staging, and cooler area). Furthermore, based on the age of the existing on-site structure and known issues with Radon in the State of Maine, it is possible that asbestos-containing material (ACM), lead-based paint (LBP), polychlorinated biphenyls (PCBs), mercury, and/or radon may be present. Applicable regulatory requirements for disturbance of any suspect ACM, LBP, PCBs, and/or mercury-containing equipment would be followed during the renovation of the existing structure and during any disturbance of existing utilities which may contain suspect ACM, LBP, and/or PCBs. Radon testing would be conducted prior to renovation activities. If necessary, measures to protect construction workers and future users would be implemented. With these measures included as part of the Proposed Project, it is concluded that there would be no significant adverse toxic chemicals and radioactive material impacts during project renovation or operation. Therefore, the Proposed Project is in compliance with the applicable Toxic Chemicals and Radioactive Materials regulations.

Airport Clear Zones and Accident Potential Zones [24 CFR 51D]	A	The Project Site is not located within 15,000 of a military airport or 2,500 feet from a civil airport. Therefore, the proposed project is within compliance with the Airport Hazards requirements.

DETERMINATION:

☒ This project converts to Exempt, per Section 58.34(a)(12), because it does not require any mitigation for compliance with any listed statutes or authorities, nor requires any formal permit or license (Status "A" has been determined in the status column for all authorities); **This** (now) EXEMPT project may now be initiated; OR

☐ This project cannot convert to Exempt because one or more statutes/authorities require consultation or mitigation. Complete consultation/mitigation requirements, publish NOI/RROF and obtain Authority to Use Grant Funds (HUD 7015.16) per Section 58.70 and 58.71 before initiating the project; OR

☐ The unusual circumstances of this project may result in a significant environmental impact. This project requires preparation of an Environmental Assessment (EA). Prepare the EA according to 24 CFR Part 58 Subpart E.

Conditions for Approval: (List all mitigation measures adopted by the responsible entity to eliminate or minimize adverse environmental impacts. These conditions must be included in project contracts and other relevant documents as requirements).

CERTIFICATION:

PREPARER SIGNATURE: Megan Gatto

NAME, TITLE: Megan Gatto, AICP, Project Manager, Woodard & Curran, Inc. DATE: 9/6/2024

INSTRUCTIONS for completing the STATUTORY WORKSHEET

For HUD funded projects that are categorically excluded per 24 CFR §58.35(a), the Responsible Entity (**RE**) must determine whether the proposal achieves compliance with each applicable statute, Executive Order or regulation with or without requiring formal consultation, mitigation, permits or having adverse effects on the resources protected by the statute. These instructions are a brief description of the essential findings needed to establish compliance. Please see Northwest Region Checklist Tools for further guidance on these laws and authorities. These instructions are not intended to replace the applicable regulations and applicable regulations take precedence.

The Preparer of the Statutory Worksheet must DOCUMENT AND ATTACH THE SOURCES OF THE DETERMINATION.

Record the finding status on the STATUTORY WORKSHEET for each listed Federal statute, regulation, authority as follows:
Status "A" applies when compliance with the authority is achieved without adverse effects on the protected resource, without necessary mitigation or attenuation AND when no formal consultation, permit or agreement is required to establish compliance. In these situations, enter **"A"** in the STATUTORY WORKSHEET status column.
Status "B" applies when project compliance with the authority requires formal consultation, a permit or agreement, OR when the proposal may have an adverse effect on the protected resources. Part B summarizes what additional steps or formal procedures must be completed prior to submitting a Request for Release of Funds (RROF) to HUD or to the State. Evidence of completion and implementation of the required procedures or mitigation must be retained in the project Environmental Review Record (ERR).

Historic Properties (including archeology): **A)** The RE and SHPO agree that there are No Historic Properties Affected per 36 CFR 800.4(d)(1) **OR** SHPO has not objected within 30 days to such a fully documented determination. **B)** The proposal will have an affect on historic properties per §800.4(d)(2) This includes no adverse effect on historic properties §800.5.

Floodplain Management: **A)** The project does not require compliance with 8-step decision-making at 24 CFR Part 55.20 or the 5-step decision-making at 24 CFR 55.12(a). **B)** The project requires compliance with the 8-step decision-making process at 24 CFR Part 55.20 or the 5-step decision-making process at 24 CFR 55.12(a).

Wetlands Protection: A) The project does not require compliance with 8-step decision-making at 24 CFR Part 55.20 or the 5-step decision-making at 24 CFR 55.12(a). **B)** The project requires compliance with the 8-step decision-making process at 24 CFR Part 55.20 or the 5-step decision-making process at 24 CFR 55.12(a).

Coastal Zone Management: A) The project is not located in the coastal zone, **OR** the project does not include new construction or major rehabilitation of existing structures, **OR** the State Department of Ecology has accepted the RE's certification that the project is consistent with the Coastal Zone Management Program. **B)** State Department of Ecology does not accept consistency determination and/or requires mitigation.

Sole Source Aquifers (Safe Drinking Water Act): A) The project is not located within a U.S. EPA-designated sole source aquifer watershed area (including stream flow source areas), **OR** the project need not be referred to EPA for evaluation according to an EPA approved MOU or checklist, **OR** EPA has concurred that the project is "not likely to affect Sole Source Aquifer quality" in an informal consultation. **B)** EPA does not concur with "not likely to affect Sole Source Aquifer quality' determination and/or requires mitigation.

Endangered Species: A) The RE determines that the proposal will have "no effect" on federally protected (listed or proposed) Threatened or Endangered Species **B)** US Fish and Wildlife Service (USFWS) and/or National Marine Fisheries Service (NMFS) concur the project "is not likely to adversely affect" any federally protected (listed or proposed) Threatened or Endangered Species (i.e., plants or animals, fish, or invertebrates), nor adversely modify critical habitats **OR** USFWS and/or NMFS do not concur the project "is not likely to adversely affect" federally protected species or adversely modify critical habitats **OR** the proposal is "likely to adversely affect" any federally protected (listed or proposed) Threatened or Endangered Species.

Wild and Scenic Rivers: A) The project is not located within one mile of a listed Wild and Scenic River, **OR** the project will have no effects on the natural, free flowing or scenic qualities of a river in the National Wild and Scenic Rivers system. **B)** Impact resolution and/or mitigation required.

Air Quality: A) The project is located within an "attainment" area, **OR**, if within a "non-attainment" area, conforms with the EPA-approved State Implementation Plan (SIP), per contact with a regional Clean Air Agency, **AND** the project requires no individual NESHAP permit or notification; **B)** Negotiate suitable mitigation measures with the relevant regional Clean Air Agency, obtain necessary permits, issue required notices. (For example, 40 CFR §61.145 requires 10-day prior notification to the Air Quality District Administrator whenever either 260 linear ft., 160 sq.ft., or 35 cubic ft., of asbestos containing material is to be disturbed).

Farmland Protection: A) The project site does not include prime or unique farmland, or other farmland of statewide or local importance as identified by the U.S. Department of Agriculture, Natural Resources Conservation Service NRCS (formerly the Soil Conservation Service), **OR** the project site includes prime or unique farmland, but is located in an area committed to urban uses; **B)** Project site includes prime or unique farmland as identified by NRCS.

Noise Abatement and Control: A) The project does not involve development of noise sensitive uses, **OR** the project is not within 15 miles of a civil airport or military airfield, within 1000 feet of major highways or busy roads, or with 3000 feet of a railroad, **OR** ambient noise level is documented to be 65 LDN (CNEL) or less, based upon the HUD Noise Assessment Guidelines (NAG); **B)** Development project requires mitigation to meet HUD"s noise standards at 24 CFR 51B.

Explosive or Flammable Operations: A) The project is located at an Acceptable Separation Distance (ASD) from any above-ground explosive or flammable fuels or chemicals containers according to 24 CFR 51C, **OR** the project will expose neither people nor buildings to such hazards; **B)** Project requires mitigation to meet Acceptable Separation Distance.

Toxic Chemicals and Radioactive Materials: A) The subject and adjacent properties are free of hazardous materials, contamination, toxic chemicals, gasses and radioactive substances which could affect the health or safety of occupants or conflict with the intended use of the subject property. **B)** Project requires mitigation to meet HUD's toxic standards.

Environmental Justice: A) The proposed site is suitable for its proposed use and will NOT have a disproportionate environmental impact on low income or minority populations; **B)** Site suitability is a concern; the proposal is adversely affected by environmental conditions disproportionately impacting low income or minority populations.

Airport Clear Zones and Accident Potential Zones: A) The project is not located within an FAA-designated civilian airport Runway Clear Zone (RCA) or Runway Protection Zone, or within the military Airfield Clear Zone (CZ) or Accident Potential Zone/Approach Protection Zone (APZ), based upon information from the airport or military airfield administrator identifying the boundaries of such zones, **OR** the project involves only minor rehabilitation, **OR** the project involves only the sale or purchase of an existing property in the RCZ or CZ; **B)** It is HUD policy not to provide any development assistance, subsidy or insurance in RCZs or CZs unless the project will not be frequently used or occupied by people and the airport operator provides written assurances that there are no plans to purchase the project site.

Re: 121 Mill Street, Auburn, ME Renovation
Owner of Record: City of Auburn – Parcel #221-041

Dear Mr. Mohney:

In accordance with Federal Regulation 36 CFR Part 800, we are providing information for your review and concurrence regarding the below-referenced Proposed Project.

The Proposed Project is the renovation of an existing office building, located at 121 Mill Street in Auburn Maine (Project Site), for use as a community resource center and to house the City's Community Development Offices. The intent is to use U.S. Department of Housing and Urban Development (HUD) American Rescue Plan Act (ARPA) funding and other non-federal funding to complete the Proposed Project.

The Project Site is a vacant non-residential property that includes a single-story masonry (cinder block concrete masonry unit and brick veneer) structure built in 1964, formerly used as commercial office space, with accessory parking (approximately 75 parking spaces). The City acquired the property in 2021 from Great Falls Marketing and the building has been vacant since 2020. The Proposed Project would include interior renovations to the 15,410 square foot (sf) existing structure to fit-out the space for its proposed use, plus the addition of a 300+/- sf loading dock, 170+/- sf staging area, and 336+/- sf cooler (refrigerator/freezer) on the northwest side of the building, parking lot restriping, American with Disabilities Act (ADA) accessible removals and retrofits, and safety-related rehabilitations to the roof, southwest landing, and northeast loading dock due to their current unsafe condition.

The Project Site is adjacent to the former Barker Mill, located at 143 Mill Street; the Barker Mill is listed on the National Register of Historic Places (NRHP). The Project Site and this NRHP-Listed resource are separated by a row of deciduous trees, which obscures the view to either property.

Enclosed for your review is supplemental project information (Attachment 1), Project Drawings (Attachment 2), and United States Geological Survey (USGS) 7.5' Topographic (Topo) Map (Attachment 3). This documentation is intended to satisfy the requirements set forth in §800.11(d).

Woodard & Curran

Based on our understanding of the Proposed Project and our review of the National Register of Historic Places, Maine property records, and the Project Drawings, we have made a Finding of "No Historic Properties Affected" pursuant to 36 CFR 800.4(d)(1).

We appreciate you examining this Proposed Project in accordance with the procedures for protection of historic properties (36 CFR Part 800) to determine whether the Proposed Project would have the potential to affect historic properties. We understand that in accordance with §800.4(d)(1)(i), your office has thirty days to object to this finding, otherwise we will assume that you concur with our finding.

Should you have any questions, please contact me at (781) 613-0168 or you can reach out to Zakk Maher at the City at (207) 333-6601 x1136.

Sincerely,

Megan Gatto

Based on the information submitted, I have concluded that there will be no historic properties affected by the proposed undertaking, as defined by Section 106 of the National Historic Preservation Act. Consequently, pursuant to 36 CFR 800.4(d)(1), no further Section 106 consultation is required unless additional resources are discovered during project implementation pursuant to 36 CFR 800.13.

Citizen Participation Plan
2020-2024
Adopted July 18th, 2022
Amended December 16th, 2024

The U.S. Department of Housing and Urban Development (HUD) has consolidated the planning, application, reporting and citizen participation processes of formula grant programs: Community Development Block Grants (CDBG), & Home Investment Partnerships (HOME). The Consolidated Plan is designed to help states and local jurisdictions to assess their affordable housing and community development needs and market conditions, and to make data-driven, place-based investment decisions. The consolidated planning process serves as the framework for a community-wide dialogue to identify housing and community development priorities that align and focus funding from the formula block grant programs.

The city of Auburn (City) encourages citizens, especially those earning low and moderate incomes, to participate in the development of the City's Consolidated Housing and Community Development Plan ("Consolidated Plan"). This Citizen Participation Plan outlines the responsibilities of the City for obtaining citizen participation in the process of preparing, amending, and updating the Five-Year Consolidated Plan, the Annual Action Plan, and the Consolidated Annual Performance Evaluation Report (CAPER).

Citizen Participation Statutory Requirements

Plan/Report	Frequency	Due Date	Comment Period	Public Hearings
Consolidated Plan	Every 5 years	May 15*	30 days	2
Annual Action Plan	Every Year	May 15*	30 days	2
Amendments to Consolidated Plan Annual Action Plan	As needed		30 days	1
Consolidated Annual Performance Evaluation Report (CAPER)	Every year	Sept. 30	15 days	1

*Unless otherwise extended by HUD CPD Notice

Timeline of Annual Tasks, Submissions & Approvals

February	Public Hearing to solicit consolidated/Action plan input Complete Department Program Budget
March 1st	Revisit Needs assessment and prioritizations Draft Consolidated/ Action Plan
April 1st	Publish Consolidated/ Action Plan Public Notice for 30-day Comment Period
1st Council Meeting in May	Public Hearing Approval of Budget & Action Plan
May 15th	Submission of: • Consolidated/ Action Plan • Summary of Consultations • Summary of Citizen Participation/ Comments • Certifications & 424s
July 1st	Beginning of Fiscal Year
August 1st	Close out Previous year activities/ Budgets
September 15	Publish CAPER Public Hearing regarding CAPER
September 30th	Submit CAPER to HUD
December 1st	Release annual citizen participation survey Solicit unmet needs statements from area service providers

THE CONSOLIDATED PLAN AND THE ANNUAL ACTION PLAN

The Consolidated Plan examines the current housing situation, explores the housing and community development needs of the City, and sets priorities for spending HUD grant funds. The Annual Action Plan represents activities for years 2-5 of the Consolidated Plan. The City encourages inter-local government, public and private agency, and citizen participation in collaboratively identifying housing and community development needs. To provide varied opportunities for participation in the planning and preparation of the Consolidated Plan, the City will undertake the following actions:

Consultation

Prior to the development of the draft Consolidated Plan, the City will solicit information about housing and community development needs. This solicitation may take the form of one or more of the following:

1. Consultation with local public agencies which assist low-income persons and areas, including state and federal agencies, other local governments and regional councils of government.
2. Consultation with private agencies, including public and private housing developers, local not-for-profit service providers, local public housing authorities, homeless service providers, not for-profit housing developers, community action agencies, social service agencies and advocates.

3. Information collection at statewide affordable housing and homeless conferences, with established entities such as the Statewide Homeless Council and the Continuums of Care, MaineHousing and with professional associations.
4. Public Hearing to solicit input from the community.
5. Sharing of local data and plans with Auburn Housing Authority to be incorporated in the AHA public hearing process.

Participation of Citizens

The City encourages citizens to participate in the development of the Consolidated Plan, Annual Action plans and all annual performance evaluations and reports. The City will take whatever actions are appropriate to encourage the participation of all residents, including minorities, non-English speaking persons, persons with disabilities, low- and moderate income persons, particularly those persons living in areas designated by the City as a revitalization area, or in a slum and blight area where CDBG funds are proposed to be used, as well as residents of predominantly low- and moderate income neighborhoods as defined by the most recent HUD census data. This includes translation services upon request for any written plans or notices as well as the increased use of the development of new, quantitative ways to increase and broaden public participation beyond the attendance of Public Hearings as required by 24 CFR 91.105 A-2 (iv).

Citizen participation will be accomplished through the following means:

1. Citizen Survey
    - An online survey of housing needs and service priorities will be provided via the City's websites. The availability of the online survey will be communicated through email and social media. Partner organizations will be encouraged to notify low-income clients of its availability.
    - A paper survey corresponding to the online survey will be provided locally through jurisdiction-wide service providers. These surveys will be translated into a minimum of three additional languages to include French, Portuguese & Somali.
2. Public Hearings/Forums
    - Public hearings will be scheduled at times and locations that are convenient to potential and actual beneficiaries.
    - Sites will accommodate persons with mobility impairments by being held in locations which meet ADA requirements, and special communication accommodations will be arranged if requested prior to the hearing date.

To the greatest extent practicable, the City may employ electronic means of communication and consultation, to include e-committees, online discussion forums and blogs, videoconferencing, online surveys, or similar methods. Upon request the City will provide Technical Assistance to groups representative of low- to moderate income communities who need assistance in developing proposals for funding assistance under any program included within the Consolidated Plan.

Public Notice

Reasonable notice will be given to announce the availability of the draft Consolidated Plan, Annual Action Plan and Consolidated Annual Performance and Evaluation Report. Availability of the drafts Plan or Annual Action Plan will be announced on the City's website and Social media.

To encourage citizen comment and attendance at public hearings/forums, notices will be emailed via City's mass email list as well as posted in city facilities including the local Housing Authority, the city Library, Senior Center and other service organizations which predominantly serve Low- and moderate-income residents.

These notices will include links to the draft plans and reports, contain information on how to access translation services and notify residents how to receive paper copies of the full proposals. The draft plans published will include the following as required by 24 CFR 91.105 (b)(1):

- HUD-provided data available to the public as cross-referenced to the data on HUD's Website
- the amount of assistance the local government expects to receive (including grant funds and program income);
- the range of activities that may be undertaken;
- the estimated amount of funding that will benefit persons of low- and moderate-income;
- the local government's plans to minimize displacement of persons and to assist any persons displaced, specifying the types and levels of assistance the local government will make available (or require others to make available) to persons displaced, even if the local government expects no displacement to occur; and

Public Hearings

Public hearings will be held before the submission of the final Consolidated & Annual Action Plan. This will be part of the 30-day public comment period. The purpose of this public hearing will be to gather citizen input on the proposed plans prior to submission.

Citizens will be notified of the public hearings at least two weeks before they are held. Public hearings will be announced in at least one Maine newspaper, by email, and on the City websites.

CONSIDERATION OF PUBLIC COMMENTS

A public comment period of at least 30 days will be provided prior to the adoption of the Consolidated Plan or implementation of substantial amendments. City staff will prepare a summary of all comments received in writing, or orally at the public hearing. In cases where citizens' views are not accepted, the city will provide reasons for the decision.

CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORTS

Before the City submits a Consolidated Annual Performance and Evaluation Report (CAPER) to HUD, the proposed CAPER will be made available to those interested for a comment period of no less than 15 days. Citizens will be notified of the CAPER's availability by public notices as outlined above

The CAPER will be available on the City website during the 15-day public comment period. Hard copies will be provided upon request. Any comments from individuals or groups received verbally or in writing will be considered. A summary of the comments, and of the responses, will be included in the final CAPER.

SUBSTANTIAL AMENDMENTS

A substantial amendment is defined as a proposed change in allocation of funds after the official adoption of the Consolidated Plan that affects 10 percent or more of the City's annual allocation of CDBG & HOME funds. A substantial amendment may also be required to carry out an activity not previously described in the action plan.

Any changes in the distribution of funds caused by changes in federal funding allocations after the Consolidated Plan/Annual Action Plan's draft comment period has expired will not be considered a substantial amendment.

Substantial amendments to the approved Consolidated Plan will be made public by public notices as outlined above. The City will receive and consider comments delivered in writing or orally at a Public Hearing on substantial amendments to the Consolidated Plan for 30 days before implementing those amendments. Approved amendments and a summary of comments will be attached and uploaded to the plan being amended within the Integrated Disbursement Information System.

The application for and use of Section 108 Loan guarantee funds-including any potential repayment from future entitlement funds will follow the same citizen's participation process outlined in this plan. If the city's decision to apply for Section 108 loan guarantee funds occurs after the annual public hearing on community development and housing needs, and the section 108 funding is not included in the annual action plan approved by HUD, the city will address this decision as a substantial amendment to the plan. In this case, the city will follow the substantial amendment process outlined above prior to applying for Section 108 funding.

If a state of emergency is declared which requires reallocation of funds and/or receipt of disaster recovery funding, the City will follow any abbreviated notice and approval process as published within a HUD CPD notice.

CITIZEN COMPLAINTS

Citizens who have objections or complaints about the Community Development Programs may submit a written complaint to:

Community Development Department
City of Auburn
60 Court Street
Auburn, ME 04210

The complaint should include the date, name, address, telephone number of the complainant, convenient hour to reach that person by telephone, nature of the complaint and location. The complaint may also be given orally. The person initiating the complaint will schedule a meeting with the Community Development Manager and a formal complaint will be formulated from the interview that will be signed by the complainant.

There will be a written response, within 15 days of receipt, to the complainant. The response will indicate the ultimate disposition of the complaint.

PUBLIC ACCESS : Availability of Documents

The final Consolidated Plan, any substantial amendments, and annual performance reports will be made available to the public on the city's website. Copies will be available in printed form or electronic means upon request.

Access to Records

The City will provide all interested parties with access to information and records related to the Citizen Participation Plan, Consolidated Plan, Action Plan and any amendments by posting it in a translatable form on the city website. Hard copies can be requested, and accommodations will be available to individuals with visual or hearing impairments. Records relating to these documents can be requested for the preceding five years. The public will be provided reasonable access to housing assistance records, subject to laws regarding privacy and obligations of confidentiality.

Accommodations

Arrangements will be made for non-English-speaking persons and persons with special needs for mobility, hearing and visual impairments, or the homebound. Please contact the Community Development Department in advance so that arrangements can be made to provide adequate communication assistance. Access to these accommodations can be attained by contacting the Community Development Office ahead of time at (207) 333-6601 or emailing CDBG@auburnmaine.gov .

ORDER 164-12162024

City Council Order

IN CITY COUNCIL

Ordered, that City Council hereby adopts an Amendment to the CDBG/HOME Consortium Consolidated & Action Plan for Program Year 2024 as presented by the Business & Community Development Department.

RESOLVE 8-12162024

City Council Resolve

IN CITY COUNCIL

RESOLUTION OF THE AUBURN CITY COUNCIL APPROVING AND RATIFYING THE APPLICATION OF A $1,000,000 HUD SECTION 108 LOAN GUARANTEE FOR THE DEVELOPMENT OF THE AUBURN COMMUNITY RESOURCE CENTER LOCATED AT 121 MILL ST.

WHEREAS, the Auburn City Council approved the development of the Auburn Community Resource Center located at 121 Mill St on July 1, 2024; and

WHEREAS, that the Auburn City Council approved the use of Community Development Block Grant (CDBG) funds for the construction of the Auburn Community Resource Center on August 19th, 2024; and

WHEREAS, the Department of Housing & Urban Development (HUD) has established under the Housing and Community Development Act of 1974 the CDBG program and included provisions for loans to entitlement communities whereby they pledge their future CDBG entitlements as a guarantee to the loan, in a program known as the Section 108 Loan Guarantee Program. The Section 108 Loan Guarantee Program provides below-market rate loans for qualified projects that serve the needs of low- and moderate-income persons; and

WHEREAS, the City of Auburn meets the criteria to participate in the Section 108 Loan Guarantee Program as a Grantee, receiving funds through the HUD CDBG program; and

WHEREAS, the Auburn City Council adopted substantial amendment #2 to the city's Consolidates and PY2024 Action Plan for the period from July 1, 2024 through June 30, 2025 to include a HUD section 108 Loan Guarantee as a funding source for the development of the Auburn Community Resource Center in accordance with the city Citizen Participation Plan (CPP) and federal regulations to include the; and

WHEREAS, the City of Auburn in accordance with Federal regulations, has made this amendment available for public review and comment period for a period of thirty days as required by Federal regulations, and has summarized, and in some cases incorporated as applicable, the resulting public comments regarding these amendments into the body of the Action Plan; and

WHEREAS, by adopting this amendment, the Auburn City Council approves the Section 108 Loan Guarantee application as presented and directs the city manager to submit to the U.S. Department of Housing & Urban Development.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Council Resolve

NOW, THEREFORE, the Auburn City Council hereby approves and ratifies:

1. All Actions of the city manager necessary to apply for, complete, and receive a $1,000,000 HUD Section 108 Loan Guarantee; and
2. Upon successful receipt of the same, use the proceeds of the loan for the redevelopment of city owned property located at 121 Mill St.
3. The city manager is hereby authorized to execute, deliver and carry out all necessary and reasonable actions required to carry out and give effect to the transaction contemplated within this resolution.
4. This resolution shall become effective immediately upon adoption.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Monthly Financial Report

October 2024 - Fiscal Year 2025

Authored by: Kelsey Earle

To: Honorable Mayor, Members of the City Council and City Manager
Subject: Financial Report for the Month Ending October 31, 2024

I respectfully submit the financial summaries of the revenue and expenditure activities for the City during the month ending October 31, 2024.

Please note that although the monthly financial report contains amounts reported by the School Department, this discussion is limited to the City's financial results and does not attempt to explain any variances for the School Department. The City has completed its first month of the current fiscal year. As a guideline for tracking purposes, if split evenly throughout the year, revenues and expenditures should amount to approximately 33.33% of the annual budget. However, not all costs and revenues are distributed evenly as individual line items can vary based upon cyclical activity. As such, comparisons are made based upon previous years of activity as noted.

General Fund Highlights

Revenues

Total revenues collected through October 2024 were **$41.39M** or **33.0%** of budgeted general fund revenue, as compared to 43.9**%** of actual revenues through October 2023.

- Revenues down 7% in Clerks department- Commercial licenses down by over $15K. Other larger percentage reductions attributed to School Department.

Expenditures

Expenditures through October 2024 were **$26.3M** or **22.7%** of the budget, as compared to 27.1**%** of actual expenditures through October 2023.

- Health & Social Services had a much higher expenditure total at this time last fiscal year. General Assistance reports that requests have slowed.

Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

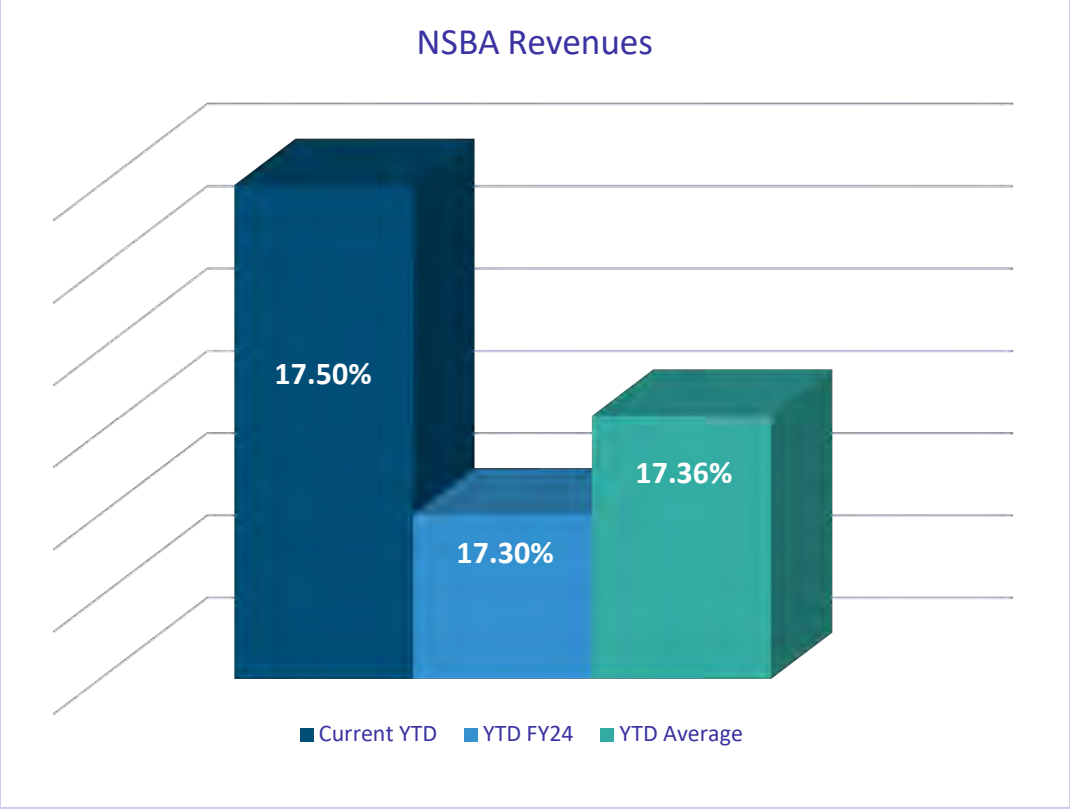
Norway Savings Bank Arena

for the Period Ended October 31, 2024



As of October 2024, Norway Arena had an operating loss fiscal YTD of $100,168.

Revenues:

The operating revenues for Norway Arena through October 2024 are $192,634 or 17.5% of the budget as compared to 17.3**%** of actual revenues through October 2023. This revenue comes from concessions, sign advertisements, pro shop lease, youth programming, shinny hockey, public skating, and ice rentals.

- Ice rentals have bounced back with rink project wrapping up.

*Graph reflects current YTD with comparison to prior YTD and YTD average of prior 3 years percentage.

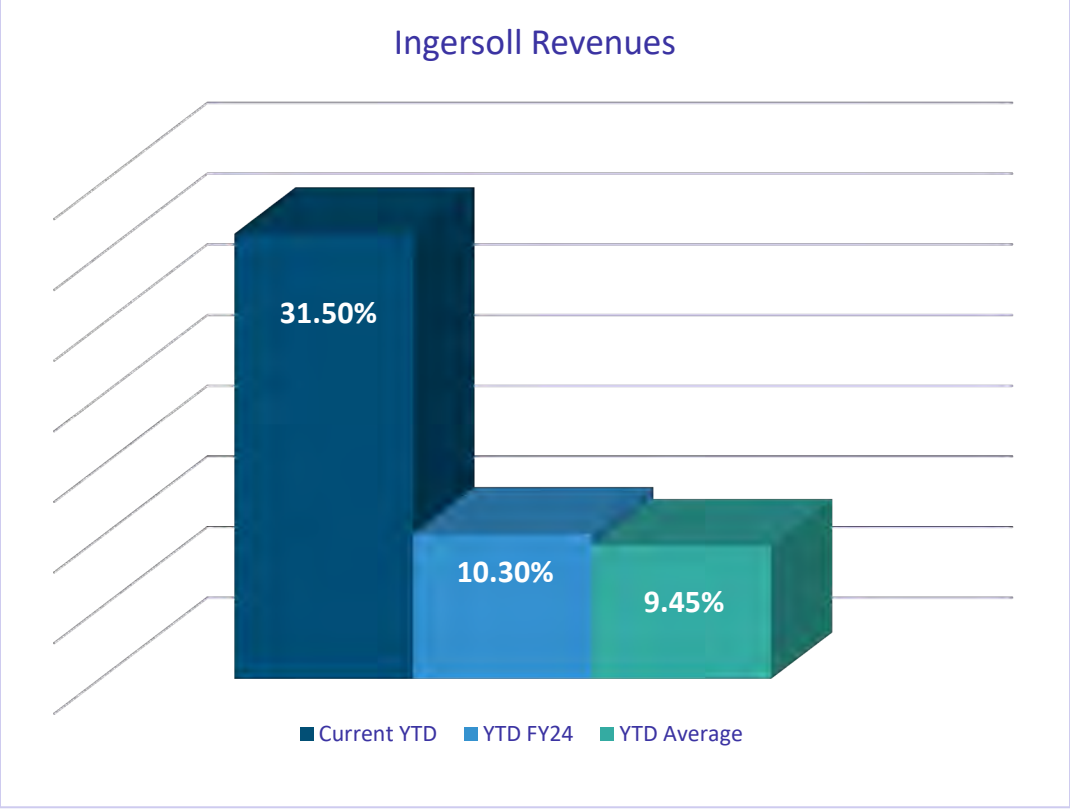
Ingersoll Turf Facility

for the Period Ended October 31, 2024



As of October 2024, Ingersoll had an operating gain YTD of $65,123. Of note, revenue to expenditure comparison is disproportionate as some expenditures are listed under the Recreation department budget, and regular salaries under Public Works.

Revenues:

The operating revenues for Ingersoll through October 2024 are $69,263 or 31.5% of the budget as compared to 10.3**%** of actual revenues through October 2023. This revenue comes from sponsorships, programs, rental income, and batting cages.

- Program revenues are at 61.5% of budgeted.

*Graph reflects current YTD with comparison to prior YTD and YTD average of prior 3 years percentage.

Fiscal Year 2023 Audit- Quarterly Corrective Action Report

2023-002 Bank Reconciliations:

Recommendation: We recommend bank reconciliations be performed on a monthly basis for all cash accounts as part of the month end close to ensure that all transactions are posted appropriately and that unreconciled differences aren't carried forward from month to month.

Management Response/Corrective Action Plan: City reconciliations will continue to be done on a monthly basis and we anticipate timely imports from school to work toward month end closings and reconciliations of the school accounts

Action: All City accounts are reconciled monthly, school accounts are reconciled when received.

2023-004 Maintenance of Capital Asset Record:

Recommendation: We recommend the City retain and update its capital asset records on a regular basis during the year and at year-end. This maintenance must include periodic review of current year additions, disposals, construction in progress, retainage, and depreciation calculations.

Management Response/Corrective Action Plan: Current staff was unaware fixed assets were not prepared for the audit and therefore prepared when requested. Next fiscal year has been updated and prepared, staff now continues to review on a regular ongoing basis

Action: List was brought current and a draft process has been created, soon to be implemented, for disposal and addition of assets. For example, a trade-in vehicle for purchase will need to go through the Finance office, a title requires sign-off by Finance

Director and the information is noted at that time on the capital asset record, rather than all at once at the end of the year as previously done.

2023-005 Preparation of Financial Statements:

Recommendation: Due to time and budget constraints, we understand that certain functions must be prioritized and proper training regarding GAAP and GASB requirements may not always be possible. However, we recommend that the City provide training to finance staff and management responsible for financial reporting to the extent that the aforementioned criteria can be met. We recommend that Management and the City Council review and scrutinize transactions and reports on a regular basis to aid in the identification of errors. The City should review policy and procedures annually to ensure that controls are properly designed and implemented to mitigate the risk of inaccurate reporting throughout the year.

Management Response/Corrective Action Plan: Training has become a priority to ensure reliance on auditors is mitigated.

Action: Finance Director has signed up for Preparing an ACFR training through Government Finance Officer's Association in January, continued training expected.

Goals for next quarterly report:

Continue to address all recommendations and implement corrective actions. Specifically addressing (2023-006) SLFR Fund reporting in grant management processes and (2023-007) Child Nutrition Cluster supporting documentation and implementation of procedures/policies from school department.

Respectfully submitted,

Kelsey L. D. Earle

Kelsey L. D. Earle
Finance Director

City Council – Special Meeting
Agenda
December 19, 2024
Auburn Hall, Council Chambers

5:30 PM Meeting

I. **ORDER 145-12192024** – Reallocation of American Rescue Plan Act (ARPA) Funds in the amount of $308,226.37. *Passage requires majority vote.*

II. **Adjournment**

City of Auburn
City Council Information Sheet

Council Workshop or Meeting Date: December 19, 2024 ORDER 145-12192024

Author: Rita Beaudry, Grant Manager

Subject: American Rescue Plan Act (ARPA) Fund Update

Information: In May 2021 and May 2022, the City of Auburn received two American Rescue Plan Act (ARPA) fund allocations for a total award of $13,545,799.00. As of June 3, 2024, the City Council has appropriated a total of 52 individual projects. To date, we have expended/encumbered $13,237,572.63. A balance of $308,226.37 remains.

Per ARPA Final Rule, *all funds must be obligated by December 31, 2024, or funds will need to be returned.* All remaining funds must be expended by December 31, 2026.

ARPA reporting mandates are extensive and require a tremendous amount of obligated documentation. It is important we meet the required deadline for reporting of December 31, 2024. To do this, we strongly recommend the city council approve the recommended reallocations. These projects have all the necessary obligated documentation to file with the federal government.

Staff projects recommended for consideration:

- Project #52 – 121 Mill Street Community Resource Center: Increase original allocation of $438,702.83 by $208,226.37 for total of $646,929.20
- Project 23 – Small Area Master Planning: Increase original allocation of $300,000.00 by $100,000 for total of $400,000.00

ORDER 145-12192024

City Council Order

IN CITY COUNCIL

Ordered, City Council reallocate remaining American Rescue Plan Act (ARPA) funds in the amount of $308,226.37.

Additionally, per ARPA Final Rule, loan payments and interest received through the ARPA Economic Development Revolving Loan project, will be returned to the loan pool and utilized to provide future loans.

Richard S. Whiting, Ward One
Benjamin J. Weisner, Ward Four
Belinda A. Gerry, At Large

Timothy M. Cowan, Ward Two
Leroy G. Walker, Sr., Ward Five
Jeffrey D. Harmon, Mayor

Stephen G. Milks, Ward Three
Adam R. Platz, At Large
Phillip L. Crowell, Jr., City Manager

City Budgetary Impacts: None

Staff Recommended Action: Council to consider additional projects and reappropriate a total of $308,226.37

Previous Meetings and History: October 17, 2022, April 3, 2023, March 4, 2024, May 29, 2024, July 1, 2024

City Manager Comments:

I concur with the recommendation. Signature: Phillip Crowell Jr.
